Site of one of the first battles in the U.S. Dakota War, August 1862.

Bike/walking trails

• CASEY JONES TRAIL (6 MILES) - CURRIE, MN

• LAKE ELSIE WALKING TRAIL (1.2 MILES) - SLAYTON, MN

• CASEY JONES TRAIL (2.5 MILES) - LAKE WILSON

Safe Boating

• PERSONAL FLOTATION DEVICES (PFD)

On all boats (except a sailboard) regardless of length there must be a readily accessible Coast Guard approved wearable PFD for each person on board. In addition, on boats 16 feet or longer, except canoes and kayaks, there must also be at least one Coast Guard approved throwable device, such as a ring buoy or seat cushion.

• BOATING WHILE INTOXICATED (BWI)

Boating while intoxicated is illegal. For persons found to be under the influence there are significant penalties, including fines and possible jail sentences.

• PERSONAL WATERCRAFT

Special laws apply including wearing a PFD and operating at slow no wake speed at certain distances from other watercraft, swimmers and other objects in the water. Operator age restrictions also apply. Consult the Boating Guide for more information. A DNR safety video is available free of charge.

PROTECTING MURRAY COUNTY WATERS FROM AQUATIC INVASIVE SPECIES

visit murraycountymn.com/ais to learn more.

✓ CLEAN

Clean visible aquatic plants, zebra mussels, and other prohibited invasive species off all watercraft, trailers, and water-related equipment **before** leaving a water access or shoreland property. It is illegal to transport aquatic plants, zebra mussels, or other prohibited species whether dead or alive.

✓ DRAIN

Drain water-related equipment (boat, ballast tanks, portable bait containers, motor) and drain bilge, livewell, and baitwell by removing drain plugs **before** leaving a water access or shoreland property. **Keep drain plugs out and water draining devices open while transporting watercraft.** It is illegal to transport a watercraft or water-related equipment without draining water.

✓ DISPOSE

Dispose of unwanted bait, including minnows, leeches, worms, and fish parts in the trash. If you want to keep live bait, drain bait containers and refill with bottled or purified tap water. **It is illegal to release bait into the water or to release worms on the ground.**

AIS BAIT LAWS: It is illegal to transport lake and river water. To save your bait (minnows or leeches), the DNR recommends bringing bottled or tap water from home and keeping it in your vehicle or cooler. Bringing ice can be a good idea on warm days to cool down the water.

DO NOT dump unwanted bait into water bodies or on the shoreline! Unwanted bait belongs in the trash or a designated compost bin. Unwanted worms must be disposed of in the trash.

ADDITIONAL STEPS

You can take additional steps to reduce the risk of spreading invasive species, especially if your boat has been in the water for more than 24 hours – or if you have recently been in zebra mussel or spiny waterflea infested waters. Take one or more of the following actions to clean your watercraft and equipment before visiting another lake or river.

✓ SPRAY WITH HIGH-PRESSURE WATER

✓ RINSE WITH VERY HOT WATER

- To kill zebra mussels and some other AIS, rinse with 120°F water for at least 2 minutes, or 140°F water at least 10 seconds.

✓ DRY FOR AT LEAST 5 DAYS

- Run motor and personal watercraft for a few seconds to discharge water before leaving a water access.
- Transport fish on ice – be prepared, bring a cooler.
