Russell, MN 56169  
(507) 823-4746

For maintenance issues,  
please call: Dave Brown  
(507) 760-0071

## Help Us Control Maintenance Costs

- **Mark your Station Location** - Before the snow flies, please mark your grinder station so it can be easily located if maintenance is required over the winter.
- **Careful what you Flush** - Please do NOT flush flushable wipes, feminine products, fats, oils, & greases, or any foreign objects. Flushing these types of items can result in increased maintenance costs and/or sewer backups.
- **Flush your Grinder Station** - When closing your cabin for the season or leaving for an extended period of time, run about 30 gallons of water into the grinder station to activate the pump. This will pump the sewage out of the grinder basin and help reduce grinder corrosion.
- **Leave the power on** - Leave the power on to the grinder at all times even in winter. It is better for the pump and will help protect against sewer backups.
- **Sounding louder than normal?** - Please call the maintenance provider to run a check on your grinder.

## NEW Ordinance Changes

After holding a public hearing, the Shetek Area Water and Sewer District Board passed the proposed ordinance changes on April 8, 2019. To view a copy of the Ordinance, please visit <http://murraycountymn.com/saws>

## Sign up for Automatic Payments

If you would like your monthly sewer bill taken directly from your bank account, please call the Murray County Auditor's Office at 507-836-1154. It only takes one billing cycle to set up.

## Questions?

Please contact any of the Commission members listed on the left side of the newsletter.
