SOLE SOURCE JUSTIFICATION FORM

"Sole source" means only one vendor possesses the ability to meet the requirement of the solicitation. Sole source purchases are normally not allowed. The use of sole source purchases shall be limited to instances where necessary for operational compatibility, technical performance needs, or upon a clearly unique and cost effective feature requirement.

1. Describe the item or service.

Okanogan County Fairgrounds has been searching for a used Water truck for watering the track and arena as well as water abatement 2 years. This Water truck must have the ability to Spray water to the front, rear and side, ability to top load from the county ER&R shop as well as the fair ground well.

We have located a 1989 KW T800 w/3600gallon tank for sale from a private individual that meets our needs, is in good mechanical condition, and will serve us for many years. The purchase price is \$25,500.

2. The item is a sole source because:

- ☐ sole provider of a licensed or patented good or service
- ☐ sole provider of items that are compatible with existing equipment, inventory, systems, programs or services.
- ☐ sole provider of factory-authorized warranty service
- ☐ sole provider of goods or services that will meet the specialized needs of the County or perform the intended function (detail below or in an attachment)
- ☒ the vendor/distributor is a holder of a used item that would represent Good value and is advantageous to the County (attach information on market price survey, availability, etc.)

3. What necessary features does this vendor provide which are not available from other vendors? Be specific.

Availability of used water trucks in our price range has been an issue. This is the first truck in good condition we have found in this price range.

4. What steps were taken to verify that these features are not available elsewhere?

☐ other brands/manufacturers were examined (list phone numbers and names, and explain why these were not suitable):

☐ other vendors were contacted (list phone numbers and names, and explain why these were not suitable):

☒ other (please explain):

Maintenance has been monitoring auction sites and classified advertisements for at least two years. Last year the purchasing of a truck was put on hold. This is the first truck in the price range that we have and with the capabilities that we were looking for. Public Works mechanics have inspected the truck and have found it to be in good working condition. Purchasing a new truck equivalent to this used truck would cost approximately \$200,000.
