v. Upon granting of a permit to operate a grower facility, Applicant will prominently display the original Orion Township permit at the Permitted Premises in a location where it can be easily viewed by the public, law enforcement, and administrative authorities.

vi. At all times the facility will hold a valid local Permit and State Commercial Marihuana Facility License for a Grower.

vii. In addition to complying with the Orion Township Ordinance Authorizing and Permitting Commercial Marihuana Facilities, Applicant will comply with all Township Ordinances, including without limitation, the Township Zoning Ordinance, as well as the requirements of the County Road Commission, County
Building Inspector, County Drain Commissioner, District Health Department, Soil Erosion Officer, County Conservation Service, areas fire departments, Michigan Department of Natural Resources, Michigan Department of Environmental Quality, and any other applicable township, county, state and federal statutes.

viii. Applicant will have available, at all times, documentation that local and State sales tax requirements, including any requirement for a license, are satisfied.

ix. Applicant will provide updated operational and security plans to Orion Township upon request and prior to any proposed changes in its operations.

D. Inspections
i. Applicant will provide access to the facility for inspection to any federal, state, or local law enforcement officer to ensure compliance with the permit.

ii. Applicant consents to inspections as required in the MMFLA and pursuant to the Orion Township ordinance.

III. OPERATIONS
Applicant proposes 24 state-licenses in a single marihuana grower facility for the cultivation, drying, trimming, curing, and packaging of marihuana for sale to a processor or provisioning center pursuant to the requirements and restrictions of the Marihuana Facilities Licensing Act, PA 281 of 2016, and all future derivations thereof. This facility will be located in a secure industrial facility.

A. Compliance with State Regulations
Applicant will meet all operating regulations established by LARA and the Marihuana Licensing Board for Growers, including without limitation, any standards, procedures, and requirements for:

i. quality control
ii. chain of custody
iii. marihuana storage
iv. waste disposal
v. labeling and packaging
vi. storage of chemicals

B. Description of the Facility
Applicant's facility will be used exclusively for the cultivation, drying, trimming, curing, and packaging of legal usable marihuana for sale to processors or provisioning centers.

C. Entry to Facility
Generally, the public will not be allowed entry to the facility. Notwithstanding the forgoing, Applicant will not allow entry to the facility to anyone under the age of 18.
D. Employees
Applicant anticipates having between fifteen (55) and (65) full and part-time employees, as many as possible of whom will be local community residents. None of Applicant's employees will be registered primary caregivers during the employment with Applicant. Please reference the staffing plan for a detailed list of potential positions.

E. General Policies
   i. Applicant will only sell or transfer marihuana to a processor or provisioning center.

   ii. Applicant will only use secure transporters in the distribution or exchange of marihuana or currency with processors or provisioning centers.

   iii. Applicant will not promote the unlawful use of marihuana or any other drug or provide or otherwise make marihuana available to any person who is not legally authorized to receive Marihuana under state law.

   iv. No owner, the Applicant, or any employee of Applicant will grow marihuana in the Permitted Premises for his or her own use.

   v. The following activities are prohibited on the Permitted Premises:
      a. the sale, consumption, or use of alcohol, or controlled substances;
      b. smoking or consumption of marihuana.

F. Cultivation Plan
   i. Propagation
      a. Lighting
      b. Watering
      c. Nutrient Application
      d. Integrated Pesticide Management
   ii. Harvesting and Trimming
   iii. Drying and Curing
   iv. Packaging
   v. Distribution
      a. All marihuana products will be validated from a verified transport manifest, created from the statewide monitoring system. The manifest includes a detailed form with the number of packages and detailed content for confirmation/validation with secure transporters and purchasers of the shipment (processors or provisioning centers).
      b. Each transport shipment will be processed in the following manner:
         1. Entry of shipped inventory into the statewide monitoring system.
         2. Confirmation with Secure Transporter of valid and verified transport manifest, including product count, weight of each package or item.
c. State certified scales will be used to verify and weigh all marihuana, in whatever form.

G. Inventory Management

i. Applicant will not control or have on the Permitted Property an amount of marihuana plants or usable marihuana that exceeds any amount permitted by the state License or the Township permit.

ii. Tracking and Monitoring
Applicant will use a third-party inventory control and tracking system to interface with the statewide monitoring system. The third-party inventory control and tracking system will have the capabilities necessary to comply with the requirements applicable to a grower licensee:

a. Track all marihuana plants and packages;
b. Track lot and batch information throughout the entire chain of custody;
c. Track transportation of product;
d. Track marihuana waste;
e. Track all marihuana product transfers;
f. Track sales and returns;
g. Track marihuana plant, batch, and product destruction;
h. Perform batch recall tracking;
i. Report and track loss, theft, or diversion of marihuana products;
j. Receive testing results electronically from a safety compliance facility;
k. Provide access to state agencies and law enforcement as required;
l. Report all inventory discrepancies.

iii. Applicant will enter all transactions, current inventory, and other information into the statewide monitoring system as required by the MMFLA, the Marihuana Tracking Act, and any associated regulations.

iv. Inventory reconciliation - At the end of each day, physical inventory counts will be reconciled with the third-party inventory control and tracking system.

v. Returns

H. Quality Control

i. Sampling (by Licensed Safety Compliance Facility)

ii. Batch Testing (by Licensed Safety Compliance Facility)

iii. Transport to Safety Compliance Facility (by Secured Transporter)

I. Signage and Advertising
i. Applicant has no proposed signage at this time, but will amend this plan accordingly and provide the township with its sign permit application if and when it does wish to propose signage.

ii. Applicant will not display pictures, photographs, drawings or other depictions of Marihuana or Marihuana Paraphernalia on the outside of the Permitted Premises, nor will such pictures, photographs, drawings, or other depictions of Marihuana or Marihuana Paraphernalia be visible outside of the Permitted Premises on the Permitted Property.

iii. The words "Marihuana, "or "cannabis," and any other words, used or intended to convey the presence or availability of Marihuana will not appear on the outside of the Permitted Premises, nor will "Marihuana, "or "cannabis," and any other words, used or intended to convey the presence or availability of Marihuana be visible outside of the Permitted Premises on the Permitted Property.

J. Visibility of activities
   i. All activities of the facility, including without limitation, the cultivation, harvesting, trimming, drying, curing and packaging of Marihuana, and all other related activity permitted under Applicant's License or Permit will occur indoors.

   ii. No marihuana or paraphernalia shall be displayed or kept in the facility so as to be visible from outside the Permitted Premises.

K. Security
   i. Plan
   Applicant will maintain, at all times, a centrally-monitored security and alarm system on the premises that meets or exceeds state regulatory requirement.
   Applicant will maintain policies and procedures to include:

   a. Regular drills of the security protocols and emergency plans;
   b. Controlled and restricted access to the Permitted Property and Permitted Premises to employees, agents, and owners of Applicant, and law enforcement or state or local authorities as necessary to ensure Applicant's compliance with state and local laws.
   c. Internal and external cameras with 24-hour monitoring and off-site recording;
   d. Installed panic buttons
   e. Limitations on the amount of currency and marihuana stored onsite;
   f. Cooperation and coordination with local law enforcement;
   g. Permitted premises will only be able to be accessed through a combination of security locks and access codes; and
   h. The ability to remain operational during a power outage with battery back-up.

ii. Security Surveillance Cameras
Security surveillance cameras will be installed to monitor all entrances, along with the interior and exterior of the premises, which will capture all areas of the property unless otherwise prohibited by law, including unobstructed video surveillance of all enclosed areas, unless prohibited by law, including all points of entry and exit that shall be appropriate for the normal lighting conditions of the area under surveillance.

iii. Security Recordings and Documentation
   a. All security recordings and documentation will be preserved for at least 30 days and made available upon request by any law enforcement.

iv. Robbery and Burglary Alarm System
   Applicant will employ an alarm system that meets state requirements and obtains state approval. Specifically,
   
   a. Applicant will employ a centrally alarmed and monitored security system that will be monitored 24 hours a day, 7 days a week for the Permitted Premises pursuant to the attached service agreement.
b. There will be a perimeter alarm on all entry points and perimeter windows of the Permitted Premises
c. A failure notification system will provide an audible, text, or visual notification of any failure in the surveillance system. A panic button and alarm will directly notify the local law enforcement agency having primary jurisdiction.

v. Storage of Marihuana and Currency
   a. Applicant will store usable marihuana that is not otherwise in the process of being dried, trimmed, cured, packaged, or distributed including packaged and un-packaged usable marihuana, and currency in a secured locked safe that is permanently affixed to the premises.

L. Ventilation Plan/Air Filtration System
   i. Applicant’s facility operation and design will provide sufficient measures and means to minimize any impact to adjacent uses, including the control of odor by maintaining and operating an air filtration system so that no odor is detectable outside the Permitted Premises.

   ii. Applicant’s equipment and methods to control odor include a comprehensive air filtration system, consisting of
       a. Activated Carbon Filters.
       b. Heavy Duty Ventilation Fans.

   iv. Details and specifications of the equipment used for Applicant’s ventilation and air filtration plan are attached.
v. The total enclosed space in which harvested marihuana will be stored amounts to approximately 300 sq. feet. Applicant will use an advanced filtration system rated appropriately for the area.

vi. The air filtration system will be maintained in working order at all times and will be in use at all times. Filters will be changed a minimum of once every 365 days.

vii. In addition to the use of an air filtration system, Applicant will mitigate odors by keeping doors and windows closed at all times, except the minimum amount of time needed to allow ingress and egress to the building.

M. Toxic/Flammable/Hazardous Materials

i. Applicant’s use of toxic, flammable, or other harmful, hazardous, or combustible materials will be limited to plant nutrients and pesticides and cleaning products. The facility may use the following nutrients and pesticides:

   a. CocoTech Bloom A
   b. CocoTech Grow A
   c. CocoTech Premier Nutrient
   d. FloraBloom Nutrient System
   e. FloraGrow Nutrient System
   f. Golden Tree Plant Food.
   g. Nutra Green 5-10-5 plus Micronutrients Foliar Spray
   h. Diatomaceous Earth
   i. Neem Oil
   j. PyGanic Pro Pyrethrin 5% MGK Miticide

ii. The facility may use the following commercial cleaning products, along with the following household products: materials regulated by government agencies:

   a. Ultra Dawn Lemon Dish Soap
   b. Nature’s Source Toilet Bowl Cleaner
   c. Fantastik Antibacterial Heavy Duty All Purpose Cleaner
   d. Windex Original Glass Cleaner
   e. Novo Foaming Instant Hand Sanitizer
   f. QuickSan Food Contact and Surface Sanitizer

iii. The materials will be stored in secured and ventilated cabinets. All combustible or reactive materials will be stored separately.

iv. Materials will be handled, stored, and disposed according to specifications in each Material Safety Data Sheet.
N. Waste Product Disposal
Applicant will dispose of unusable or waste marihuana in accordance with the MMFLA, MRTMA, and applicable local ordinance guidelines to prevent the waste marihuana from being possessed or ingested by any person and animal.

i. Applicant’s current, preliminary waste disposal plan consists of shredding and grinding damaged and unusable plants, roots, seeds, stalks and harvested marihuana and mixing it with one of several lawful over-the-counter products, such as sawdust or cat litter to render it unusable, unrecognizable, and unpalatable, and then discarding in secured bags as part of its solid waste disposal.

ii. The State of Michigan’s Marihuana Licensing Board may require or suggest as a part of its regulations, expected sometime in November, one or more alternative waste disposal options including, but not limited to, waste disposal through the secured transporter system, waste mitigation through THC extraction methods (rendering the marihuana waste product inert) or some other method. Applicant warrants that it will comply with all state and local requirements as to waste disposal, but further commits to its current preliminary plan to render all marihuana waste unrecognizable, unusable and inaccessible regardless of state or local requirements.

IV. COMMUNITY RESPONSIBILITY AND CONCLUSION
Although marihuana has been used as a medicine across the globe for hundreds of years, its commercial production and sale is new to us, this state, and your community. We appreciate the opportunity to show Orion Township that Marihuana can be safe and accessible to a community while providing jobs and local economic growth. We look forward to being productive and responsible community partners, and will work with the Township toward that goal.

H. Litter & Waste Removal Plan
Litter & Waste Removal Plan

All biological waste product will be rendered unrecognizable by grinding it in an industrial grinder and combining it with other non-consumable solid waste, including the media in which we cultivate plants, Rockwool. The inclusion of inert material renders the combined solid waste unusable. All waste will be stored in a locked dumpster that is emptied at minimum once per week.

The company intends to employ particulate filtration in areas where waste is stored and processed, which minimizes potential exposure and impact to the outside environment. The facility, which is designed around large water chillers, is designed to circulate air rather than ventilating it. This process helps to avoid excess exposure of odors to the surrounding community.
I. Noise, Dust, Vibrations, Glare & Fumes Plan
Noise, Dust, Vibrations, Glare, Fumes or Odors Plan

Excessive Noise, Dust, Vibrations, Glare and Marijuana odors emanating from our facilities are a valid concern for the community and our neighbors. This plan details the measures deployed to ensure that minimal noise, dust, vibration, glare, fume or offensive odor is emitted from the facility, the response if it occurs, and that the measures remain effective over time.

This plan is our commitment to the Orion Township that we will be in compliance with regulations of the city and the administrative rules and that we will not operate in a manner creating noise, dust, vibration, glare, fumes, or odors detectable to normal senses beyond the boundaries of the property.

We will not vent noxious dust, odors, gases or fumes to surrounding areas.

We will mitigate dust and noxious odors by engaging in the following activities:

1. Adequate design measures to seal the building;
2. Utilizing a heating, ventilation, and cooling (HVAC) System designed to move an appropriate amount of air (cfm) throughout the facility to disperse odors;
3. Using industry leading MERV-13 HEPA filters in addition to FILTR, Blue Zone & Puradigm units in each room throughout the facility.

I. DESIGN MEASURES TO SEAL THE BUILDING

We intend to renovate our building in a manner that focuses on effectively sealing all interior rooms and exterior access points. Each room is enclosed in 12”, interlocking insulated panels which are designed to form an airtight seal. For additional protection, butyl caulk is applied at each joint to accommodate any flaws in the panels.

Caulk is also applied to seal any openings into the panels, including plug outlets, doorways, sprinklers, and anything else that could allow air flow. Our doors are fiberglass, weather stripped and employ a drop seal to press additional weather stripping against the floor when closed to maximize the seal all the way around.

II. MERV-13 HEPA FILTRATION SYSTEM

The purification of air throughout our facility is a top priority for both the health of the plants and the environment we subject our employees and the local community to. In an effort to target and reduce contamination, mold, bacteria, odor, dust, and fumes, we employ a variety of filtration systems in all rooms where marihuana plants are grown.

Each room will utilize clean room grade HEPA filtration units filtering down to 0.01um and providing up to 5 complete air changes per hour. These units also utilize a carbon filter which focuses directly on the removal of smells and volatile organic compounds.

In addition to the HEPA filters, each room will have Puradigm units to help reduce airborne and surface contaminates, and Agrify Bluezone UV filtration units, known to destroy 99.9%+ of both bacteria and mold. Both of these systems aid in odor elimination and containment.
As filters age, they become clogged with impurities, and ultimately less effective. As such, we will develop a maintenance schedule to inspect the filtration units regularly and to replace them per the manufacturer's recommendation or at an expedited pace based on their usage in these environments.

III. VIBRATION MITIGATION
Exterior mounted cooling equipment is mounted on isolation pads to dramatically reduce vibrations that would otherwise be created by such large equipment.

IV. EVALUATING THE EFFECTIVENESS OF NOISE, DUST, VIBRATIONS, ODOR & FUME CONTROL MEASURES

Key site leadership roles will be trained to assess the production and escape of odors, dust, fumes and glare from the facility. We also anticipate a strong and friendly relationship with the local communities and will welcome feedback about any exhaust from the building. Should these assessments or the community ever determine that our levels are beyond acceptable, we will re-evaluate this plan and engage professionals to further refine our practices and properly mitigate the problem.
J. Spent Water & Soil Safety Plan
Spent Water & Soil Safety Plan

Wastewater Treatment Plan:
Wastewater generated during the cultivation of marihuana of marihuana products shall be disposed of in compliance with all applicable state and local laws and regulations. Despite the amount of water used in the cultivation process, there is very little water waste. The majority of water is used by the plants or evaporated out of the collection dishes upon which the plants sit. Any water that is used to rinse the plants or clean the facility or for any other purpose shall be rendered clean through both reverse osmosis and UV light after standard filtration methods, and either reused by the facility or discharged through a monitoring man hole where it can be monitored to comply with all local ordinances.

The Cultivation Facility will include an Ecowater RO purification system. Ecowater Purification Systems are the leading water filtration manufacturer in the industry, helping cultivators diagnose and solve every water problem imaginable. Ecowater designs systems to treat any water source including city water, well water, nutrient runoff water, wastewater, and condensate runoff.

Soil Safety Plan
The cultivation facility will not use soil – instead, all media for the purposes of growing plants will be rockwool, a lightweight hydroponic substrate made from spinning molten basaltic rock into fine fibers which are then formed in a range of cubes. This product will be disposed of through the grinder and mixed with biological waste in a locked dumpster.
K. Security Plan
SECURITY PLAN

Tycoon I Operations is committed to being a leader in Michigan’s cannabis industry and a trusted resource for the communities, consumers and clients we service. Essential to fulfilling this commitment is our ability to effectively protect our product from criminal repurposing throughout the facilities.

This Security, Surveillance and Diversion Prevention Plan details the physical and electronic security measures we employ to deter, detect, and inhibit the theft, diversion, and loss of Marijuana, and to prevent unauthorized conduct with respect to the storage and dispensing of Marijuana.

We have extensively researched and designed our Grow Facility to maximize security. The facility shall be built with enhanced security and stringent safety features to eliminate any potential for diversion. Our facility will be equipped with numerous motion sensors and exterior intrusion sensors that will be linked to local law enforcement. To prevent unauthorized entry and stop diversion, theft, or loss of marijuana, every square inch of the facility shall be continually monitored by high definition security cameras and commercial-grade equipment. Security systems will be positioned so they closely monitor activities at strategic risk points and watch for any strange behavior or movement. Marijuana shall not be visible to any person from the exterior of the Grow Facility.

We will create a culture of responsibility, accountability, and strict security surrounding all aspects of the facility. The stringent operating procedures outlined below demonstrate a commitment to employee and public safety above all other operating values. From receipt to sale, we are committed to preventing diversion by implementing a comprehensive security strategy. Employees will be extensively trained to understand that security is a primary obligation for everyone at our facility.

We will have comprehensive security policies and procedures for the Grow Facility, which address measures to deter and prevent unauthorized entrance into areas containing marijuana and theft of marijuana at the facility. Employees will receive on-going training regarding our security protocol and the Site Manager shall ensure all employees follow policies and procedures regarding the security of the facility. The Site Manager shall implement and maintain employee training policies and procedures for security training. All employees shall aid in the security of the Grow Facility through prevention, awareness, reporting, and responsible incident management. All employees shall be required to immediately report security breaches and incidents of non-compliance to their supervisor, and in case of sudden emergency, immediately to law enforcement by either striking a panic button or calling law enforcement directly.

We will make our facility available and open to inspection, at all times, for law enforcement, representatives of the Department and law enforcement, when necessary to perform their duties.

PHYSICAL SECURITY

The facility shall be designed to maximize security and stop the potential for diversion. Access to the secure facility shall include safety and security mechanisms that prevent unauthorized entry. All doors will be burglary-resistant material, with commercial-grade, non-residential locks. Additionally, exterior doors, as well as limited access area entries, will be automatic locking and equipped with electric strike and keycard access hardware. All doors are setup to fail
The Grow Facility’s main entrance vestibule shall include a mantrap to control passage from the public access area to the limited access area. We will strive to install Underwriter’s Lab (UL) approved locks and lock cylinders, which are rated as burglary resistant. We will also install local alarms on all fire exits and other perimeter doors not authorized for employee or visitor use. Our alarm system will be monitored after business hours with live monitoring through a licensed security monitoring company. If there are ever any after-hours issues, the live monitoring system will be linked directly to law enforcement and the Site Director, among other key personnel.

We shall ensure that trees, bushes, and other foliage outside of the premises do not allow people to conceal themselves from sight. The surveillance system’s cameras shall be capable of certain identification of persons (including facial features), license plates, vehicles, the immediate surrounding areas, and any activities occurring within any area of the premises, and the parking area, and within twenty feet (20’) of all entry and exit points of the premises. Cameras will cover every square inch of the facility.

To provide first responders with immediate access into our facility during a time of emergency or inspection, we will install a Knox Rapid Access System to remove any barriers to entry when first responders respond to an emergency call.

**LIGHTING**

Exterior lights at all points of entry and exit shall remain constantly illuminated to allow for recording. Lighting on the outside perimeter shall allow cameras the ability to record any suspicious activity. Timed-delay switches shall be used to turn off non-essential interior lights, which shall not remain lit after employees have left the facility. Motion detecting lights shall be installed in areas that are entered and exited infrequently. The exterior of the facility shall be lit by commercial LED light fixtures sufficient to facilitate twenty-four-hour surveillance. Exterior lights in the parking area will remain on from dusk until dawn.

**SECURITY EQUIPMENT**

Our security equipment shall be designed, installed, and maintained to deter and prevent unauthorized entrance and theft of marijuana products at the facility. Security equipment shall be installed by a commercial, licensed service provider. All equipment shall be compliant with Department rules and all state and local laws, regulations, ordinances, and other requirements.

**ENTRY AND EXIT ELECTRONIC EQUIPMENT AND PLACEMENT**

Our entry and exit electronic access equipment will consist of the following:

- Electric strike locks on all doors in the Grow Facility with the ability to override access control for emergency exit even during a power outage.
- RFID proximity card access control devices for all interior doors and all exterior entrances and exits into the Grow Facility.
- Access control system that allows for programming or uploading individual user permissions and allowed entry times, as well as operations-specific information including employee photos.
- A backup power supply system that immediately provides power for at least twenty-four (24) hours in the event of a power outage.
• Access control system that monitors and records:
  o Identification of employees or visitors entering and exiting.
  o Date and time of entry and exit.
  o Length of time in specific area.
  o Any unauthorized attempts for access.

ALARM SYSTEM

We shall have a professionally monitored security alarm system installed at our facility. Monitoring of the alarm system shall be twenty-four (24) hours a day, seven (7) days a week. We shall notify the Department of any intent to change our security alarm service provider. Upon request, we will make available to the Department all information related to the alarm system, monitoring, and alarm activity. The alarm system shall consist of the following:

• Appropriate equipment necessary to monitor activity inside and outside the Grow Facility, including:
  o All entrances and exits.
  o Roof hatches.
  o Rooms with exterior windows.
  o Rooms with exterior walls.
  o Rooms containing marijuana.
  o Rooms containing safes or vaults.

• A backup power supply system that immediately provides power in the event of a power outage.

• Main system operating equipment is kept in the Main Office Surveillance/IT Room, a limited access area.

• All telephone junction boxes or rooms where alarm telephone circuits terminate are locked, tamper-protected, and all labels or tags identifying these alarm circuits have been removed.

ALARM SYSTEM COMMUNICATION

The alarm system shall include an electronic or mechanical system that, upon activation, is programmed to send a prerecorded voice message, via telephone, radio frequency, or other communication system, to appropriate law enforcement authorities or other emergency services. In addition, the alarm system shall be equipped with a failure notification system that notifies the alarm monitoring service provider of the system failure via audio, text, visual, or audiovisual message, within a maximum of five (5) minutes of such failure.

ALARM SYSTEM TESTING

We shall bi-annually conduct an onsite inspection and test of the entire alarm system to determine needed repairs and adjustments.

ALARM SYSTEM RECORDS
information related to the alarm system, monitoring, and alarm activity. These records shall include the following:

- The name of the alarm installation and monitoring service provider.
- Copies of service contracts.
- A map of the Grow Facility showing the location and operation of each alarm system component including alarm telephone circuits.
- A list of authorized users.
- Manufacturers' instructions for operating and maintaining the equipment.
- Testing and maintenance logs.
- Reports of any incidents triggering an alarm.
- Reports of any interruption in monitoring and/or complete failure of the system, including the length of the interruption period.

SURVEILLANCE SYSTEM

We shall have a fully operational electronic surveillance system installed at our facility. We shall notify the Department of the intent to make any changes to the surveillance system. Upon request, we will make available to the Department all information related to the electronic surveillance system installed at our facility. The surveillance system shall consist of the following:

- Appropriate equipment necessary to video record activity inside and outside the Grow Facility, including:
  - All entrances and exits into and out of the Grow Facility.
  - Roof hatches or skylights.
  - Rooms with exterior windows.
  - Rooms with exterior walls.
  - Rooms containing safes or vaults.
  - All entrances and exits of security rooms and limited access areas.
- Appropriate equipment to record keycard entry and exit activity of all our employees and visitors.
- A backup power supply system that immediately provides power in the event of a power outage.
- A dedicated safe or vault to store all entry/exit records and video recordings in the Office Surveillance/IT Room, in a limited access area.
- Main system operating equipment is kept in the main office Surveillance/IT Room.

VIDEO SURVEILLANCE EQUIPMENT

Our video surveillance equipment will consist of the following:

- Network video recorders with a record rate of a minimum of thirty (30) frames per second.
• Cameras with infrared capabilities to capture images in low or no lighting conditions.
• Cameras with capabilities to identify activity occurring within twenty feet (20’) from all points of entry and exits into and out of the exterior of the Grow Facility.
• Video monitors.
• Digital archiving device.
• Capabilities to produce a color still photograph from any camera image, live, or recorded.
• Capabilities to accurately display the time and date on recorded images or video
• Color printer that can immediately produce a clear, color still photo, either live or recorded, with a resolution of 9600 dpi and the image quality is relative to the camera being used to capture the image.

CAMERA COVERAGE PLACEMENT

We will install at least One Hundred (100) security cameras. The security cameras will be permanently mounted and in a fixed location. Each camera at the Grow Facility shall be placed in a location that allows the camera to clearly record activity occurring within twenty feet (20’) of all points of entry and exit on the Grow Facility. The cameras will cover every square inch of the facility. The cameras shall allow for the clear and certain identification of any person, including facial features, and activities, including sales or transfers, in all areas of the Grow Facility. The security cameras shall monitor and record all areas of the Grow Facility including:

• All areas where marijuana or products are present, including activities related to:
  ○ Weighing, packaging, and labeling.
  ○ Storing, preparing for sale, loading/unloading, or moved within the Grow Facility.
  ○ Waste Disposal
• Limited-access areas and security rooms, including transfers between rooms and areas.
• Areas storing a surveillance system storage device with at least one (1) camera recording the access points to the secured surveillance recording area.
• All entrances and exits into and out of the exterior of the Grow Facility, recording both indoor and outdoor vantage points.
• Outdoor trash receptacles.
• Roof hatches or skylights.
• Rooms with exterior windows.
• Rooms containing safes or vaults.
• All areas where cash is counted, transferred, or stored.
• All areas where records are stored.

Cameras shall not be installed in bathrooms or any other area where a legitimate expectation of privacy exists. Camera placement shall ensure:

• Visibility of activities is not obstructed by lighting equipment covers, fixtures, or other equipment.
Identification of activity occurring within twenty feet (20’) from all points of entry and exit into and out of the exterior of the Grow Facility.

SURVEILLANCE FAILURE NOTIFICATION

The surveillance system shall include a failure notification system that alerts the Site Director and other key site personnel of any interruption in surveillance and/or the complete failure of the monitoring system. The notification shall be within a maximum of five (5) minutes of such failure via audio, text, visual, or audiovisual message. Additionally, an alarm shall signal the Security Officer on duty whenever an unauthorized entry is attempted.

SURVEILLANCE TESTING

We shall ensure that the surveillance system is properly maintained for playback quality so that images can be seen and the identity of all individuals and activity in surveillance areas are captured. We will schedule and oversee all required maintenance of security equipment in accordance with manufacturer recommendations. Any equipment failure identified shall be corrected as soon as possible. All security equipment shall be in good working order and shall be inspected and tested at regular intervals.

INFORMATION TECHNOLOGY SECURITY

We shall ensure the security of our hardware, software, data, and communications networks, including the following information technology (IT) maintenance:

- Software registration.
- Security patches.
- Malicious software prevention.
- Account management.
- Security status and network access monitoring.
- Disposal and redeployment.
- Employee IT security training.
- Vulnerability assessments.

Access to protected information shall be restricted to essential employees only. Access may be granted to authorized representatives of the Department and other government officials if necessary to perform their official duties. Examples of protected information include:

- Security and cash management procedures.
- Asset and inventory lists.
• Network data.
• Floor plans of critical areas.
• Password and code records.
• Customer records.
• Employee records.

PRODUCT SAFETY AND SECURITY

We shall develop and implement procedures that ensure product safety and security and are compliant with the rules set forth by the Department and all applicable state and local laws, regulations, ordinances, and other requirements. Procedures shall include measures that:

• Minimize the risk of diversion or theft of marijuana.
• Minimize the risk of contamination from incoming materials.
• Ensure proper storage conditions that maintain the quality and purity of our marijuana products.

MATERIAL RECEIVING

All deliveries shall be verified at the front entrance to the facility before allowed access to the loading areas. All materials received will be documented. No material may be received unless its shipping documentation matches the corresponding purchase order or separate approval is given by the Site Manager. Employees shall notify the Site Manager of any shipment discrepancy immediately and shipment may not be accepted without the Site Manager’s approval.

PRODUCT STORAGE SECURITY

Storage areas shall be designed to provide adequate lighting, ventilation, temperature, humidity, space, and equipment. All storage areas shall be maintained in a clean and orderly condition, free from infestation of pests, and in accordance with our security measures and Security Plan. The Grow Facility Manager shall ensure secure containers containing marijuana products remain dry, well ventilated, have temperature-control features to avoid extreme temperature fluctuations and appropriate odor-control features. These proper storage environments ensure product storage does not lead to product contamination or loss of quality.

The storage areas containing marijuana products shall be designed for security and ease of maintenance. We shall establish product storage and security policies and procedures compliant with the rules set forth by the Department and all applicable state and local laws, regulations, ordinances, and other requirements. Under no circumstances may any product be transferred without following our policies and procedures and all the rules set forth by the
Department and all applicable state and local laws, regulations, ordinances, and other requirements. Storage policies and procedures shall include:

- All equipment and any areas used for the processing or storage of marijuana shall be securely locked unless in use.
- All areas used for the storage of marijuana shall be on a time lock and only accessible during regular business hours.
- Inventory shall be reviewed and documented at the beginning and close of each day.
- All areas where marijuana product is stored will be monitored by the surveillance system.

DIVERSION PREVENTION

Investigation of possible diversion and developing policies to prevent it will be conducted by a team of our senior officials, including our CEO, COO, and Director of Compliance. Collectively, they will be known as the Diversion Prevention Team or DPT. The team will have multiple responsibilities including:

- Investigating allegations of diversion
- Developing policies and procedures to prevent diversion
- Managing performance improvement measures
- Providing overall direction for the program.
- Reporting confirmed cases of diversion to law enforcement

The DPT will also integrate information from external sources and environmental factors to improve safety and security at facilities. External sources and environmental factors may include news reports, trade and patient associations, law enforcement bulletins, et cetera. Standard operating procedures shall be updated to incorporate new sources of information and prevent diversion.

WORKING WITH LAW ENFORCEMENT

We deeply value and respect the work of local law enforcement. Police officers are on the front lines protecting our safety. Therefore, our Company, through the DPT, will form a partnership with law enforcement. This partnership will be rooted in a shared responsibility for the safety of the community. Upon request, law enforcement will have access to employee records and Grow Facility operations. Company will also engage with first responders like EMS and fire to establish emergency response protocols. This will create a close working relationship and enhance our ability to provide a secure and positive experience for our employees and the community.

To provide first responders with immediate access into our facility during a time of emergency or inspection, we will install a Knox Rapid Access System to remove any barriers to entry when first responders respond to an emergency call.
EMPLOYEE TRAINING

We know that having a trained and educated workforce is paramount to having an effective diversion strategy. Therefore, a considerable amount of time, resources, and energy will be devoted to ongoing diversion prevention training. The training curriculum will be conducted by the DPT. At a minimum, the training curriculum shall include:

- Compliance regulations for grow facilities.
- State laws and agency rules regulating the use of marijuana.
- Strategies for preventing diversion.
- Criminal and civil consequences for diverting product.
- Security and safety standard operating procedures.
- Chain of command for reporting diversion.
- Incident management.
- Daily operating procedures.

Diversion prevention trainings are mandatory for every new employee. Additionally, each employee shall be required to participate in quarterly continuing education trainings on diversion. Training materials will be outcome driven. Employees will be given real world examples of diversion and taught the appropriate response. Teaching the material through the learning principles of problem solving, discussion, and feedback will empower and increase understanding and retention of the training. This process of integrating knowledge will develop a culture of shared values, perspectives, and become the way of daily conduct and purpose at the Grow Facility.

Employees will have access to diversion prevention training materials at all times. There will be no excuse and zero tolerance for not knowing the proper policies and procedures. Well-maintained employee training records displaying documented training dates and subject matter will preserve and increase compliance, continuity and understanding of all guidelines, security procedures, safety, and incident response. Employee training records will become a written testament of the detailed information and accountability of security education.

INVESTIGATION OF DIVERSION

Due to intense and robust security operations, we do not anticipate diversion at our facility. However, it is important to be prepared for any scenario. We have developed an enhanced investigation procedure for any allegations or reports of potential diversion. Any allegation or report will be fully and immediately investigated by the DPT with established processes and timeframes.

Security policies developed by our Company outline that the first step of investigation is to preserve all possible evidence. Evidence needs to be persevered for the investigation and may be used in future disciplinary matters. The second step of investigation shall be to review all camera footage and other relevant information technology. Each marijuana product is tracked from seed to sale. Therefore, if diversion occurred, it will likely appear in an audit of the tracking software. The third step of investigation will be to interview the employee who engaged or
allegedly engaged in diversion. This step can only be executed if enough evidence is gathered to
narrow down the suspect. The goal of the interview is to get the subject to confess how they
diverted product to prevent future incidents from occurring. The fourth step of investigation will
be to report the confirmed incident of diversion and suspect to law enforcement and the
Department. The Site Manager shall be the point of contact for all law enforcement inquires and
will turn over all relevant evidence to law enforcement and the Department. The final step of
investigation is to develop policies and procedures to prevent the incident from happening again.
Once new policies have been developed by the DPT, an all staff training shall be given. The
training will be a top down review of all security policies including any updated procedures.

INCIDENT RESPONSE

We shall establish incident response procedures addressing any incident that may occur, including
natural disaster, unauthorized access, theft, or IT security breach. Procedures shall be in accordance
with the rules set forth by the Department and all applicable state and local laws, regulations,
ordinances, and other requirements. Procedures for general emergency and incident management,
containment, and corrective measures shall be thoroughly detailed. The Director of Compliance
shall ensure the appropriate response procedures are followed. All employees shall receive incident
response training annually. The Site Manager shall determine the category and severity of the
incident and determine the next best course of action. All discussions, decisions, and activities shall
be documented.

We shall immediately notify appropriate law enforcement authorities and the Department
immediately after the discovery of a reportable incident as defined by state and local laws,
regulations, ordinances, and other requirements. Examples of an incident may include, but are not
limited to:

- Theft or physical loss of marijuana or confidential records.
- Breach of our network servers.
- Robbery or unauthorized entry in the Grow Facility.
- Threats of violence to the Grow Facility, employees, or visitors.
- Bomb threats.
- Any criminal activity.
- Civil disturbances.
- Hazardous spills.
- Infectious disease epidemic.
- Serious accidents.
- Fires.
- Earthquakes.
- Floods.
- Windstorms or tornadoes.
INCIDENT REPORTING

Anyone with knowledge or a reasonable suspicion of an incident is instructed to make an immediate report to the Grow Facility Manager or the Site Manager. The person reporting the incident shall complete the Incident Log.

- Date and time of occurrence or suspected occurrence.
- Names and contact information of parties involved and any witnesses.
- Description of incident.
- Completed Suspect Description Forms, if applicable.
- Any evidence supportive of the event (unless law enforcement is required on scene or en route).

We shall notify appropriate law enforcement authorities and the Department immediately after discovering the following:

- Discrepancies identified during inventory; diversion, theft, or loss of marijuana; or any criminal action involving an employee.
- Theft, robbery, or burglary; sale to minors; diversion of marijuana or marijuana products; or any other crime related to marijuana.
- Any suspicious act involving the sale, cultivation, distribution, processing, or production of marijuana by any person.
- Unauthorized destruction of marijuana.
- Any loss or unauthorized alteration of records.
- An alarm activation or other event that requires a response by public safety personnel.
- Integrity of the inventory management system compromised.
- An IT security breach.
- The failure of any security alarm system due to a loss of electrical power or mechanical malfunction that is expected to last longer than eight (8) hours.
- Any other breach of security defined by the rules set forth by the Department.

UNAUTHORIZED ENTRY/ROBBERY CONTAINMENT AND CORRECTIVE PROCEDURES

In the event a threat is present to persons, cash, or product due to unauthorized entry, employees shall be trained to perform the following:
- Notify law enforcement utilizing a panic alarm, only if it can be safely done without being obvious to the robber.
- Do not resist the robber or use or encourage the use of weapons or force against the robber.
- Try to inform the robber of any potential surprises (e.g., an employee is due back from lunch or the building alarm is set to be tested).
- Try to keep employees and visitors, if applicable, calm during the robbery.
- Try to alert other employees of the situation using pre-determined signals or text messages, only if safe to do so.
- Follow the robber's commands in order to shorten the time of the incident. Do not argue with the robber, but do not volunteer to help.
- If the robber demands a certain amount of money or product, only give them that amount.
- Be observant in order to be a good witness. Try to remember:
  - The number of robbers.
  - The physical characteristics of the robber(s), such as weight, scars, tattoos, hair color, or speech patterns.
  - The clothing worn by the robber(s).
  - Any names used by the robber(s).
  - A description of any weapons shown, such as barrel length and color, color of the grip, or automatic or revolver.
- If the robber uses a note, try to place it out of sight to retain it as evidence.
- Do not follow a robber.
- Secure the Grow Facility and place a notice that the business is closed due to an emergency.
- Call the police and ambulance, as needed, immediately and request that witnesses stay or obtain their contact information.
- Provide aid to injured people.
- Do not discuss the robbery with any outside parties until police and management has given authority to do so.
- Do not estimate the amount of money or product that was taken until an inventory has been performed.

Corrective procedures that may be required to return conditions to a normalized and secure state:
- Change all security codes.
- Replace locks and issue keys only to authorized employees.
• Ensure any video of the incident is archived.
• Restore security devices and/or apparatus to working condition.
• Repair any physical damage to the Grow Facility.
• Provide employees and visitors, if applicable, counseling, as needed.
• Perform a security re-training as soon as possible.
• Modify Employee Access Control Log as deemed appropriate.

INTERNAL THEFT/BURGLARY CONTAINMENT AND CORRECTIVE PROCEDURES

In the event a threat is present to persons, cash, product due to internal theft or burglary, employees shall be trained to perform the following:

• Identify missing or compromised assets.
• Gather, remove, recover, and secure sensitive materials to prevent further loss or access.
• Power down, recycle or remove security equipment known to be compromised.
• Where possible, secure the premises for possible analysis by the Department and law enforcement.
• Gather and secure any evidence of illegal entry for review by the Department and law enforcement.
• Where possible, record identities of any party who might be a possible witness to events.
• Preserve video recordings and Visitor logs for review by the Department and law enforcement.

Corrective procedures that may be required to return conditions to a normalized and secure state:

• Retrieve or restore assets where possible.
• Store all sensitive materials and products in a secure manner (e.g., lockable cabinets or storage areas/container).
• Replace locks and issue keys only to authorized employees. Update the Employee Access Control Log as necessary.
• Restore security devices and/or apparatus to working condition.
• Remove and retain unauthorized equipment from network and/or area.
• Implement physical security devices and improvements (e.g., equipment cables, alarms) as deemed appropriate.
• Perform a security re-training as soon as possible.
FIRE PROCEDURES

If a fire does not present an immediate danger to personal safety, one (1) employee shall try to extinguish the fire. If a fire presents an immediate danger to personal safety, a fire alarm shall be pulled and a call to 911 shall be immediately made and evacuation of the building shall occur all at once.

Evacuation of Grow Facility

Any director or manager may determine the need to evacuate. Reasons for evacuation may include:

- Fire.
- Bomb threat.
- A hostile or violent employee, visitor, or unknown person.
- Power outage.
- Earthquake.
- Water or gas leak.
- Hazardous spill.
- Robbery or hostage situation.

The Site Manager shall ensure that all employees and visitors, if applicable:

- DO NOT gather in lobbies.
- DO NOT open a door without first checking for heat.
- DO NOT touch any suspicious items or suspected bombs.
- DO NOT run or panic.
- DO NOT re-enter the building until authorized.
- DO assist disabled individuals or others who need assistance. Evacuate disabled individuals or others who need assistance ONLY under the direction of authorized emergency personnel or when there is an immediate threat to personal safety and security.

INCIDENT CONTAINMENT

The Site Manager, in coordination with the appropriate department directors or managers, shall determine and implement the appropriate activities and processes required to quickly contain and minimize the immediate impact to personal safety, the Grow Facility, and other affected parties. Containment activities shall be designed to:

- Minimize harm to individuals.
- Counteract the immediate threat.
- Prevent propagation or expansion of the incident.
- Minimize actual and potential damage.
- Restrict knowledge of the incident to authorized employees.
- Preserve information relevant to the incident.

The Site Manager, in coordination with the appropriate department directors or managers, shall determine and implement the appropriate activities and processes to quickly:

- Secure the environment.
- Restore the environment to its normalized state.

The Site Manager shall be actively engaged throughout the incident to assess the progress of all containment and corrective measures and determine at what point the incident can be considered resolved.

INCIDENT CONTAINMENT AND CORRECTIVE PROCEDURES

The Site Manager shall determine and implement the appropriate procedures required to quickly contain and minimize the immediate impact of an incident, as well as to quickly restore circumstances to a normalized, secure state. Containment and corrective measures shall be designed with the primary objectives of:

- Minimizing harm.
- Counteracting the immediate threat.
- Preventing propagation or expansion of the incident.
- Minimizing the actual and potential damage.
- Restricting knowledge of the incident to authorized employees.
- Preserving information relevant to the incident.
- Securing the environment.
- Restoring the environment to its normalized state.

POST-INCIDENT REVIEW, REPORT, AND FOLLOW UP

The Site Manager shall hold a Post-Incident Review after each incident has been resolved. The Post-Incident Review shall be scheduled within two (2) to three (3) weeks of the incident’s resolution and shall involve:

- Appropriate personnel, which may include affected parties.
- Examination of the incident and all related activities and events.
- Discussion on proposed changes to policy, processes, and safeguards.
All incident activities, from receipt of the initial report through post-incident review, shall be documented. The Site Manager shall ensure all events are recorded, assembling these records in preparation and performance of the post-incident review, and ensuring all records are preserved for review. The following shall be included, at a minimum, in the Post-Incident Report:

- A description of incident events with specific timelines.
- Employee(s) involved.
- Non-Employees involved.
- Impact to affected parties.
- Discussions, decisions, and assignments made.
- Successful and unsuccessful activities.
- Notifications required or recommended.
- Steps taken for containment and resolution.
- Recommendations for prevention and remediation (short-term and long-term).
- Identification of policy and procedure gaps.
- Results of post-incident review.
- Any necessary follow-up actions.

The Post-Incident Report shall be distributed to the Site Manager, the Grow Facility Manager, and all other relevant parties for review. The Site Manager shall ensure the appropriate employees are assigned to any follow-up actions. The Site Manager shall document the completion of all follow-up actions in the Post-Incident Report and distribute an updated copy.

SECURITY SYSTEM RECORDS

We shall keep all necessary books and records in order to render a full account of all operations conducted at the Grow Facility under our license for the year to date and the five (5) years prior. We shall keep books and records of the Grow Facility from the previous six (6) months (or the complete copies of such records) in the Grow Facility at all times. All marijuana related records shall be retained in the inventory management system. All surveillances recordings shall be retained, at a minimum for at least sixty (60) days, unless in instances of investigation or inspection by the Department, through its investigators, agents, auditors, or the state police, in which case the licensee shall retain the recordings until such time as the department notifies the licensee that the recordings may be destroyed. Our standard operating procedures shall detail the maintenance of records and measures for addressing and reporting any loss or unauthorized alteration of records. The Department, upon request, shall have full access to all Grow Facility records and surveillance recordings.

We shall keep and maintain security and surveillance system records and recordings in the Grow Facility and copies stored on a secure cloud storage. These records shall include, at a minimum, the following:

- The name of the surveillance equipment installation service provider and all equipment manufacturers.
• A map of the Grow Facility showing the location and operation of each surveillance system component, including the direction of camera coverage.
• A list of authorized users.
• Manufacturers’ instructions for operating and maintaining the equipment.
• Testing and maintenance logs.
• Reports of any incidents of unauthorized entry.
• Employee Access Control Logs.
• Visitor Registration Logs.
• Authorized Visitor Access Control Logs.
• Incident Logs and Post-Incident Reports.
• Reports of any interruption in monitoring and/or complete failure of the system, including the length of the interruption period.
• A log of the recordings, which includes:
  o The identities of the employee or employees responsible for monitoring the video surveillance system.
  o The identity of the employee who removed the recording from the video surveillance system.
  o The identity of the employee who destroyed any recording.
• Video surveillance recordings shall be:
  o In a digital format that ensures authentication of the recording as being legitimately captured without alterations.
  o Easily accessible and in a format that allows for viewing and copying.
  o Embedded with the date and time without significantly obscuring the picture.

We will maintain a log of all recordings, which will include a minimum:
• The identities of the employee or employees responsible for monitoring the video surveillance system.
• The identity of the employee who removed the recording from the video surveillance system storage device and the time and date removed.
• The identity of the employee who destroyed any recording.

Video surveillance recordings shall be stored on an NVR that is server-based with storage as required to meet recording rate and retention. This system shall be password-protected and separate from any other equipment in the Grow Facility. The files and video surveillance recordings shall be available for inspection, upon request, by authorized representatives of the Department and other government officials when necessary to perform their official duties.

After the expiration of the retention period, and before selling or closing the facility, the surveillance video recordings shall be erased, destroyed, or otherwise disposed. We shall not destroy any surveillance video recordings if we have knowledge or should have knowledge of any ongoing criminal, civil, administrative, or other official investigations or proceedings for which
video recordings in instances of investigation or inspection by the Department, through its investigators, agents, auditors, or the state police, in which case the recordings shall be retained until such time as the Department notifies us that the recordings may be destroyed.
Security and Surveillance Equipment Room Access List

This is the current list of individuals having access to our Security and Surveillance Equipment Storage Room. Only those on this list are essential to maintain security and surveillance operations. All others will be denied access to the Security and Surveillance Equipment Room.

This list is available to the Department or authorized agents immediately upon request.

WE ASSIGNED YOU AN EMPLOYER IDENTIFICATION NUMBER

Thank you for applying for an Employer Identification Number (EIN). We assigned you EIN 85-2192285. This EIN will identify you, your business accounts, tax returns, and documents, even if you have no employees. Please keep this notice in your permanent records.

When filing tax documents, payments, and related correspondence, it is very important that you use your EIN and complete name and address exactly as shown above. Any variation may cause a delay in processing, result in incorrect information in your account, or even cause you to be assigned more than one EIN. If the information is not correct as shown above, please make the correction using the attached tear-off stub and return it to us.

Based on the information received from you or your representative, you must file the following form(s) by the date(s) shown.

<table>
<thead>
<tr>
<th>Form</th>
<th>Date</th>
</tr>
</thead>
<tbody>
<tr>
<td>941</td>
<td>01/31/2021</td>
</tr>
<tr>
<td>940</td>
<td>01/31/2021</td>
</tr>
</tbody>
</table>

If you have questions about the form(s) or the due dates(s) shown, you can call us at the phone number or write to us at the address shown at the top of this notice. If you need help in determining your annual accounting period (tax year), see Publication 558, Accounting Periods and Methods.

We assigned you a tax classification based on information obtained from you or your representative. It is not a legal determination of your tax classification and is not binding on the IRS. If you want a legal determination of your tax classification, you may request a private letter ruling from the IRS under the guidelines in Revenue Procedure 2004-1, 2004-1 I.R.B. 1 (or superseding Revenue Procedure for the year at issue). Note: Certain tax classification elections can be requested by filing Form 8832, Entity Classification Election. See Form 8832 and its instructions for additional information.
If you are required to deposit for employment taxes (Forms 941, 943, 940, 944, 945, CT-1, or 1042), excise taxes (Form 720), or income taxes (Form 1120), you will receive a Welcome Package shortly which includes instructions for making your deposits electronically through the Electronic Federal Tax Payment System (EFTPS). A Personal Identification Number (PIN) for EFTPS will also be sent to you under separate cover. Please activate the PIN once you receive it, even if you have requested the services of a tax professional or representative. For more information about EFTPS, refer to Publication 966, Electronic Choices to Pay All Your Federal Taxes. If you need to make a deposit immediately, you will need to make arrangements with your Financial Institution to complete a wire transfer.

The IRS is committed to helping all taxpayers comply with their tax filing obligations. If you need help completing your returns or meeting your tax obligations, Authorized e-file Providers, such as Reporting Agents (payroll service providers) are available to assist you. Visit the IRS Web site at www.irs.gov for a list of companies that offer IRS e-file for business products and services. The list provides addresses, telephone numbers, and links to their Web sites.

IMPORTANT REMINDERS:

* Keep a copy of this notice in your permanent records. This notice is issued only one time and IRS will not be able to generate a duplicate copy for you. You may give a copy of this document to anyone asking for proof of your EIN.

* Use this EIN and your name exactly as they appear at the top of this notice on all your federal tax forms.

* Refer to this EIN on your tax-related correspondence and documents.

* Provide future officers of your organization with a copy of this notice.

Your name control associated with this EIN is TYCO. You will need to provide this information, along with your EIN, if you file your returns electronically.

If you have questions about your EIN, you can contact us at the phone number or address listed at the top of this notice. If you write, please tear off the stub at the bottom of this notice and include it with your letter. Thank you for your cooperation.
Keep this part for your records. CP 575 A (Rev. 1-2013)

Return this part with any correspondence so we may identify your account. Please correct any errors in your name or address.

TYCOON I OPERATIONS LLC
DARYL HELLEF SOLE MBR
2055 CROOKS RD STE B
ROCHESTER HLS MI 48309
OPERATING AGREEMENT
OF
TYCOON I OPERATIONS, LLC

THIS OPERATING AGREEMENT (this "Agreement") is entered into and made effective as of July 22, 2020 (the "Effective Date") by and between TYCOON I OPERATIONS, LLC, a Michigan limited liability company (the "Company"), and TYCOON HOLDINGS, LLC, a Michigan limited liability company and sole member of the Company (the "Member").

Background

A. The Company was formed on July 22, 2020 as a Michigan limited liability company.

B. The undersigned desires to memorialize its rights and obligations with respect to the Company pursuant to the terms of this Agreement.

Agreement

In consideration of the foregoing background and for other good and valuable consideration, the receipt and sufficiency of which is hereby acknowledged, and intending to be legally bound hereby, the parties agree as follows:

ARTICLE I
DEFINITIONS

The following capitalized terms used in this Agreement shall have the following meanings (unless otherwise expressly provided herein):

"Act" means the Michigan Limited Liability Company Act, as amended.

"Business" means the principal business of the Company, which shall be to own and manage investments.

"Capital Contribution" means any contribution of cash or property to the Company, or any obligation to contribute cash or property to the Company, whenever made.

"Certificate" means the Articles of Organization as filed by the organizer of the Company with the Department of State of the State of Michigan, as amended.

"Code" means the Internal Revenue Code of 1986, as amended, or corresponding provisions of subsequent superseding federal revenue laws.

"Interest" means the Member’s entire interest in the Company.
"Person" means any individual, trust, partnership, corporation, limited liability company or entity.

ARTICLE II
FORMATION OF COMPANY

2.1 Formation. The Company has been organized as a Michigan limited liability company by executing and delivering the Certificate in accordance with and pursuant to the Act.

2.2 Name. The name of the Company is Tycoon I Operations, LLC.

2.3 Registered Office. The address of the registered office of the Company shall be The CSC – Lawyers Incorporating Service, 601 Abbot Road, East Lansing, Michigan 48823, or at such other place as the Member may from time to time determine. The registered office of the Company may be changed from time to time by amending the Certificate in accordance with the Act. The Company may maintain such other offices, including, but not limited to, a principal place of business as the Member shall determine.

2.4 Purpose. The purposes of the Company shall be (a) to advance and grow the Business, (b) to engage in all other lawful business authorized pursuant to the Act, and (c) to make, enter into and perform any contracts and other undertakings, and to engage in any activities and transactions as may be ancillary to or necessary or advisable to carry out the foregoing purposes.

2.5 Term. The term of the Company shall be perpetual unless the Company is earlier dissolved in accordance with the provisions of this Agreement.

ARTICLE III
CAPITAL CONTRIBUTIONS; LOANS; DISTRIBUTIONS

3.1 Capital Contributions. The Company shall keep a record of all Capital Contributions made by the Member. The Member shall not be required to make any Capital Contribution to the Company not specifically agreed to in writing between the Member and the Company.

3.2 Loans. Any and all loans made to the Company by the Member shall not be considered Capital Contributions.

3.3 Distributions. Distributions shall be made to the Member (in cash or in kind) at such times and in such amounts determined by the Member and as permitted by applicable law.
ARTICLE IV

MEMBER

4.1 Member. The name and address of the Member is:

Tycoon Holdings, LLC
2055 Crooks Road, Suite B
Rochester Hills, MI 48309

4.2 Management. The Company shall be initially managed by Heller Investment Holdings, LLC.

4.3 Right to Rely on Member. Any Person dealing with the Company may rely (without duty of further inquiry) upon a certificate signed by a designee of the Member as to: (a) the identity of the Member; (b) the existence or non-existence of any fact or facts which constitute a condition precedent to acts by the Member or which are in any manner germane to the affairs of the Company; (c) the Persons who are authorized to execute and deliver any instrument or document of the Company; or (d) any act or omission by the Company or any other matter whatsoever involving the Company or the Member.

4.4 Authority to Designate Officers. The Member may elect, appoint or designate, by resolution or otherwise, individuals as officers of the Company and delegate to such officers such powers, authority and responsibilities as are (i) set forth in the designation or delegation, and (ii) necessary to carry out and implement the management decisions of the Member. The Member may remove any officer, with or without cause, at any time. Any officer may resign at any time by giving written notice to the Company. Any resignation shall take effect as of the date of the Company’s receipt of such notice or at any later time specified in such notice (unless such officer is otherwise removed prior to such date); and unless otherwise specified in such notice, the acceptance of the resignation shall not be necessary to make it effective. Unless the Member decides otherwise, if the title to an officer of the Company is one commonly used for officers of a business corporation, the assignment of such title shall constitute the delegation to such individual of the authority and duties that are normally associated with that office. The current officers of the Company are as set forth on Schedule A attached hereto, as may be amended from time to time.

4.5 Liability of Member and Officers. Neither the Member nor any officer, agent or representative of the Member, or officer of the Company, shall be liable to the Company or to the Members, as applicable, for (i) the performance of, or the failure to perform, any act or duty on behalf of the Company if, in good faith, the Members or officer determined that such conduct was in the best interests of the Company and such conduct did not constitute fraud, gross negligence or reckless or intentional misconduct, (ii) the termination of the Company and this Agreement pursuant to the terms hereof, and (iii) the performance of, or the failure to perform, any act on behalf of the Company in good faith reliance on advice of legal counsel, accountants or other professional advisors to the Company.
4.6 **Indemnification.** The Company shall indemnify, defend and hold the Member and the officers, agents and representatives of the Member, and each officer of the Company and, in the discretion of the Member, each employee of the Company, harmless from and against any expense, loss, damage or liability incurred or connected with, or any claim, suit, demand, loss, judgment, liability, cost or expense (including reasonable attorneys' fees) arising from or related to, the Company or any act or omission of such Member (or officer, agent or representative of the Member) or officer (or employee) and amounts paid in settlement of any of the foregoing, to the fullest extent provided or allowed by the laws of the State of Michigan. The Company may advance to any such Person the costs of defending any claim, suit or action against such Person.

4.7 **Title to Company Property.** All real and personal property shall be acquired in the name of the Company and title to any property so acquired shall vest in the Company itself rather than in the Member.

**ARTICLE V**

**ACCOUNTING AND TAX MATTERS**

5.1 **Accounting Principles.** The Company’s financial statements shall be prepared and its profits and losses shall be determined in accordance with methods of accounting selected by the Member, which need not be the same as the method of accounting used for tax purposes.

5.2 **Returns and Other Elections.** The Member shall cause the preparation and timely filing of all tax returns required to be filed by the Company pursuant to the Code and all other tax returns deemed necessary and required in each jurisdiction in which the Company does business. All elections permitted to be made by the Company under federal or state laws shall be made by the Member in its sole discretion. So long as the Company has only one member, the Company shall be treated as a disregarded entity for income tax purposes.

**ARTICLE VI**

**TRANSFERS; ADDITIONAL MEMBERS**

6.1 **Transferability of Membership Interest.** The Member’s Interest in the Company is freely transferable or assignable, in whole or in part, either voluntarily or by operation of law.

6.2 **Admission of Additional Members.** Additional members of the Company may be admitted to the Company at the direction of the Member only if a new operating agreement or an amendment and restatement of this Agreement is executed by such additional member or members.
ARTICLE VII
DISSOLUTION AND LIQUIDATION

7.1 Dissolution.

(a) The Company shall be dissolved and its affairs wound up and terminated only upon the determination of the Member. The dissolution or bankruptcy of the Member or the occurrence of any other event that terminates the continued membership of the Member shall not cause a dissolution of the Company.

(b) Dissolution of the Company shall be effective on the day on which an event described in Section 7.1(a) above occurs, but the Company shall not terminate until articles of dissolution shall be filed with the Department of State of the State of Michigan and the assets of the Company are distributed as provided in Section 7.2 below. Notwithstanding the dissolution of the Company, prior to the termination of the Company, the business of the Company and the affairs of the Member shall continue to be governed by this Agreement.

7.2 Winding Up. Upon dissolution, the Company shall continue until the winding up of the affairs of the Company is completed and a certificate of dissolution has been filed pursuant to the Act. Upon the winding up of the Company, the Company’s property shall be distributed (a) first to creditors, including the Member if the Member is a creditor, to the extent permitted by law, in satisfaction of the Company’s liabilities, and (b) then to the Member. Distributions shall be in cash or property or partly in both, as determined by the Member.

ARTICLE VIII
MISCELLANEOUS PROVISIONS

8.1 Notices. Any notice, demand or communication required or permitted to be given by any provision of this Agreement shall be in writing and shall be deemed to have been delivered (a) two business days after being sent by registered or certified United States mail, or (b) upon delivery if hand delivered, sent via facsimile transmission or electronic mail. If delivered to the Member, such notice shall be delivered to his address as it appears in Section 4.1 above. If to the Company, such notice shall be delivered to its principal place of business.

8.2 Governing Law. This Agreement, and the application and interpretation hereof, shall be subject to and governed exclusively by its terms and by the laws of the State of Michigan, without regard to its conflicts of laws provisions.

8.3 Construction. Whenever the singular number is used in this Agreement and when required by the context, the same shall include the plural and vice versa, and the masculine gender shall include the feminine and neuter genders and vice versa. Unless expressly stated otherwise, Section and Article references herein shall refer to the Sections and Articles of this Agreement.

8.4 Waivers. No waiver by any party of the breach of any provision hereof shall be deemed to constitute a waiver of any continuing or subsequent breach of such provision or any other provision hereof.

1320
8.5 **Severability.** If any provision of this Agreement or the application thereof to any Person or circumstance shall be invalid, illegal or unenforceable to any extent, the remainder of this Agreement and the application thereof shall not be affected and shall be enforceable to the fullest extent permitted by law, provided that the essential purpose of this Agreement is not frustrated.

8.6 **Heirs, Successors and Assigns.** The covenants, terms, provisions and agreements herein contained shall be binding upon, and inure to the benefit of, the parties hereto and, except as otherwise provided to the contrary, their respective heirs, executors, administrators, legal representatives, successors and permitted assigns.

8.7 **Entire Agreement.** This Agreement embodies the entire agreement and understanding between the parties hereto with respect to the subject matter hereof and supersedes all prior agreements and understandings relating to such subject matter.

[SIGNATURES APPEAR ON FOLLOWING PAGE]
IN WITNESS WHEREOF, the parties hereto have caused this Agreement to be signed as of the Effective Date.

STAFFING PLAN

Summary of Job Creation, Compensation and Budget

As discussed in detail below, we anticipate creating approximately 59 jobs at our Orion Township Cultivation Facility.

<table>
<thead>
<tr>
<th>Type of Marijuana Facility</th>
<th>Proposed Location</th>
<th>Total Jobs Per Facility</th>
<th>Expected Annual Payroll</th>
</tr>
</thead>
<tbody>
<tr>
<td>Cultivation Facility</td>
<td>Orion Township</td>
<td>59</td>
<td>$3,750,000.00</td>
</tr>
</tbody>
</table>

We pay our cultivation facility employees a minimum hourly wage of $15. We also provide a generous benefit package that includes the following:

- Health Insurance
- Paid Holidays
- Paid Time Off
- 401K Plan with 2% Match
- Performance Incentives

Out of our 3.75MM expected annual payroll, Tycoon I Operations expects to allocate $630,000 toward benefits for all full-time employees!

We intend to source our employees first from Orion Township, then into the surrounding regional area. Our job listings will always be listed in the Orion Township area first to accumulate as many qualified candidates as possible.

Attached is a table of the proposed positions at our Orion Cultivation Facility:

CHARTER TOWNSHIP OF ORION
ORDINANCE No. 154 APPLICATION REVIEW

Planning Commission Case:   PC-2021-22
Parcel Number:  09-35-477-001 & 09-35-477-002
Property Address:  180 Premier Drive
Applicant:  Tycoon I Operations LLC
Request: Excess Grow
Date: February 12, 2021

The aforementioned application was reviewed for compliance with the location requirements of Article VI of Ordinance No. 154 and the finds are detailed below:

Article V, 1. – The Facility must be located in the Township’s IP (Industrial Park) district:  The parcels are zoned IP (Industrial Park) as required.

Article V, 2 – The Facility cannot be within one thousand five hundred (1,500) feet of a “church” in the Township:  Article VI, 7 states that the distances specified in the Ordinance shall be measured from building edge to building edge.  The applicant stated within their application that the facility is more than the required 1,500 feet.  Using GIS, a measurement was taken from the edge of the property where the building is located (for simplicity vs. from edge of building which is further) to the edge of the closest church and it was over 1,600 feet.

Article VI, 3 – The Facility cannot be within two thousand (2,000) feet of a residence located in a R-1, R-2, R-3, SF, SE, SR, RM or MHP zoning district:  Article VI, 7 states that the distances specified in the Ordinance shall be measured from building edge to building edge. The applicant stated within their application that the facility is more than the required 2,000 feet. Using GIS, a measurement was taken from the edge of the property where the building is located (for simplicity vs. from edge of building which is further) to the edge of the closest residential property line (for simplicity) and it was 2,500 feet.

Article VI, 4 – The Facility cannot be within two thousand five hundred (2,500) feet of a registered “school” within the Township:  Article VI, 7 states that the distances specified in the Ordinance shall be measured from building edge to building edge.  The applicant stated within their application that the facility is more than the required 2,500 feet.  The closest school is over 2 miles from the parcel.  (Scripps and Stadium Rds.)
Article VI, 5 – The Facility shall not have an ingress or egress on a street or road that has an average traffic volume in excess of six thousand (6,000) vehicles per day, as calculated by averaging the three (3) most recent Average Annual Daily Traffic (AADT) counts (as available), as reported by Southeast Michigan Council of Governments (SEMCOG): The building has ingress and egress off of Premier Drive. SEMCOG’s website does not contain any traffic count reports for Premier Dr.

Article VI, 6- The Facility shall not have an ingress or egress on a street or road that directly also serves as an ingress or egress to a residential road or property located in a R-1, R-2, R-3, SF, SE, SR, RM or MHP zoning district. The building has both ingress or egress off of Premier Dr. Premier Dr. does not serve as an ingress and/or egress to any property located in a R-1, R-2, R-3, SF, SE, SR, RM or MHP zoning district.

Article VI, 7 - Distances specified in this Ordinance shall be measured from building edge to building edge. The measurements, unless noted differently, were measured from building edge to proposed building edge.

Article VI, 8 – If the Facility shall need a variance from what is set forth in Article VI Sections one (1) through six (6) above, the Applicant may submit a formal request for a variance to the Zoning Board of Appeals (“ZBA”). The ZBA shall only consider a variance request that is no more than fifteen percent (15%) out of compliance with the above location regulations: The applicant is not requesting any variances from the ZBA.

Article VI, 9 – It is the Township’s intention that Growers, Processors, Safety Compliance Facilities and Secured Transporters may operate within the same building under the following conditions: each licensed entity remains distinct and separate within different working area and separate record keeping systems: The applicant is requesting an Excess Grow - facility only.

Article VI, 10 –The location shall meet all applicable Ordinances and promulgated standards of the Township and, prior to opening, shall demonstrate to the Township that it meets the rules and regulations promulgated by the State Mariujana Regulatory Agency (MRA):

ITEMS TO BE ADDRESSED: These items are unknown at this time. It is recommended that any approval be conditioned upon this requirement.

Article VI, 11 – The Facility location shall conform to all standards of the zoning district in which it is located: This condition has been met. The building itself has received site plan approval.
Article VI, 12 – If the Facility location is currently vacant land, the applicant must submit a site plan and building plans with the Application. The application is for an improved parcel that has received site plan approval.

Article VI, 14 – Based upon an application for or amendment of a Conditional Rezoning, PUD, or other use Development Agreement of sufficient specificity, it is within the sole discretion and judgment of the Township Board of Trustees to consider and waive any or all of the Location Requirements of this Article VI based upon any or all of 3 factors listed in Article VI 14 a,b, and c.: The applicant is not requesting any waivers.

Summary: I have reviewed the application as it relates to Ordinance No. 154 Article VI – Location Requirements. I am agreeable with the recommendation to approve this application with the conditions that:

1. The applicant meets all other applicable Township Ordinances and promulgated standards of the Township and, prior to opening, shall demonstrate to the Township that it meets the rules and regulations promulgated by the State Mariujana Regulatory Agency (MRA).

Tamara Girling
Planning & Zoning Director
ORION ORDINANCE 154 INITIAL PERMIT APPLICATION

Ordinance 154, Licensed Marihuana Facilities Ordinance

Pursuant to the Charter Township of Orion Ordinance 154, Licensed Marihuana Facilities Ordinance, the following application is intended to collect information and documentation establishing the applicant’s conformance with the ordinance. All applicants should note that the approval of a Marihuana Permit will be based upon the accuracy and completeness of the information provided. In the event applications are received in excess of the permitted number of locations within the Ordinance or two or more applicants have similar qualifications, the Charter Township of Orion reserves its right to approve a permit which in the opinion of the Township best meets its goals and safeguards as set forth in the Ordinance. No financial or other right is established by the payment of the non-refundable application fee. All applications for renewal of a permit shall be reviewed per the standards set forth in the Ordinance. The Charter Township of Orion reserves the right to approve or deny the permit based upon the failure of any applicant to establish to the satisfaction of the Township any requirement, standard or goal of the Ordinance. The applicant understands this determination may involve a subjective interpretation of the application. Any permit granted by the Township is contingent upon the State of Michigan granting a state license for the specific license applied for under this ordinance.

SECTION A- APPLICANT

1. Name of Applicant: Tycoon I Operations, LLC  
   Authorized Signer (of not an individual): Daryl Heller  
   Address of Applicant: 2055 Crooks Rd, Suite B  
   Rochester Hills, MI 48309  
   Phone Number: 248.920.8770  
   Email Address: licensing@gloriouscanna.com  
   Sole Proprietor □  Partnership □  
   Corporation □  Limited Liability Company ✓  
   □Other: ____________________________

2. If entity is Sole Proprietor, state Owner/Proprietor’s date of birth: ___________ and provide a copy of photo identification.

3. If other than Sole Proprietor, list name, address and date of birth of all owners and provide copies of photo identification and percentage of ownership.

5. If the Applicant or owner or any operator is a licensed caregiver under the Michigan Medical Marihuana Act, please list their name and address, and caregiver ID number issued by the State of Michigan. N/A

6. For any corporation or other legal entity who has a financial interest or affiliation with the requested permit, please state the following:

   **Name:** Please see Organization Structure in Exhibit I
   **Name of Authorized Signer:**
   **Address:**
   **Interest or Affiliation:**

---

**SECTION B- FACILITY LOCATION**

7. Name of proposed facility: **Oakland Business Park, Building B**

8. Location of proposed facility: **180 Premier Drive**

   Orion Charter Township, MI 48359
9. Please provide a preliminary floor plan sketch showing the location of all facility operations within an existing building, or for new construction a site plan for the parcel. Attach as Exhibit “A”
   ☐ Document(s) attached. If not attached, why not and when is applicant expected to supplement: ________________________________

10. With respect to the location of the facility, please state with specificity the exact location, address, suite number and, if necessary, the location of the facility within a building or the parcel of land. This location should include the distance in feet from each property line. Attach as Exhibit “B”
   ☐ Document(s) attached.
   If not attached, why not and when is applicant expected to supplement: ________________________________

11. Please provide evidence of the Applicant’s property interest in the proposed location. Provide copies of documentation showing a legal and enforceable property interest. Attach as Exhibit “C”.
   ☐ Document(s) attached.
   If not attached, why not and when is applicant expected to supplement: ________________________________

12. Please confirm and establish that the facility is located within the Township’s Industrial Park district ("IP"); is not within 1,500 feet of a church; is not within 2,000 feet of a residence located in the R-1, R-2, R-3, SF, SE, SR, RM or MHP Zoning Districts; is not within 2500 feet of a registered school and does not have ingress or egress on a street or road that has an average traffic volume in excess of 6,000 vehicles per day as calculated and reported by Southeast Michigan Counsel of Governments. Further, please show that the facility does not have an ingress or egress on a street or road that serves as an ingress or egress to a residential road or property located in a R-1, R-2, R-3, SF, SE, SR, RM or MHP Zoning District. For each of the above criteria, please attach any and all documents which will permit the Township to calculate compliance with the Licensed Marihuana Facilities Ordinance No. 154. At a minimum, provide a map showing the facility and measured distances (building edge to building edge). Attach as Exhibit “D”.
   ☐ Documents attached.
   If not attached, why not and when is applicant expected to supplement: ________________________________

a) Is the Facility located in the Township’s IP (Industrial Park District) zoning district?

   ☐ Yes  ☐ No
b) Is the Facility more than one thousand five hundred (1,500) feet of any church in the Township?

☑ Yes ☐ No

c) Is the Facility more than two thousand (2,000) feet of any residence located in an R-1, R-2, R-3, SF, SE, SR, RM, or MHP zoning district?

☑ Yes ☐ No

d) Is the Facility more than two thousand five hundred (2,500) feet of any registered school within the Township.

☑ Yes ☐ No

For 10-12 above, please provide a map showing the facility and measured distances (building Edge to building edge.)

e) Does the facility have an ingress or egress on a street or road that has an average traffic volume of six thousand (6,000) or less vehicles per day, as calculated by averaging the three (3) most recent Average Annual Daily Traffic (AADT) counts (as available), as reported in the Southeast Michigan Council of Governments (SEMCOG) per the site semcog.org/Traffic-Counts?

☑ Yes ☐ No

f) Does the Facility have an ingress or egress on a street or road that does not also serve as an ingress or egress to a residential road or property located in a TR-1, R-2, R-3, SF, SE, SR, RM, or MHP zoning district?

☑ Yes ☐ No

Name of Facility ingress/egress Street or road: Premier Drive

13. Please state whether the Applicant will seek a variance from the Zoning Board of Appeals pursuant to Article 6(8) of the Orion Licensed Marihuana Facilities Ordinance No. 154.

☐ Yes ☒ No

If variance will be sought, specify location category(s) pursuant to Art 6 (1)-(6):
For each category variance sought, state the percentage the applicant will seek: ______%  
(Not to exceed 15%)

**SECTION C- FACILITY REQUIREMENTS**

14. When available, submit to the Township a copy of the Applicant’s application for a 
license submitted to the State of Michigan, Department of Licensing and Regulatory 
Affairs, for each facility permit requested. 
Attach as Exhibit “E”. 
☐ Document(s) attached. 
If not attached, why not and when is applicant expected to supplement: ________________ 
Phase 2 application with the state of Michigan requires a permit and signed attestation from the municipality. 
we expect to submit our application with the state by 03/01/2021.

15. Is consumption and/or use of marihuana prohibited at the Facility? 

☐ Yes ☐ No

16. Will all activity related to the Facility be done indoors? 

☐ Yes ☐ No

17. Will all Marihuana contained within the building be in a locked Facility in accordance 
with the Michigan Medical Marihuana Act, MCL 333.26421 et seq., as amended 

☐ Yes ☐ No

18. Please set forth an operations statement, plan and or outline showing that all facility 
activities shall occur indoors and in a building which is locked. 
Attach as Exhibit “F” 
☐ Document(s) attached. 
If not attached, why not and when is applicant expected to supplement: ________________

19. Will all necessary building, electrical, plumbing and mechanical permits obtained for any 
portion of the structure in which electrical wiring, lighting and/or watering devices are 
located? 

☐ Yes ☐ No
20. When available and prior to the issuance of any permit, the Applicant must submit all necessary building, electrical, plumbing and mechanical permits, as well as documented approval by the Orion Fire department showing compliance with the Michigan Fire Protection Code and confirmation that the storage of any chemical, herbicide, pesticide and/or fertilizer has also been approved by the Orion Fire Department. 
Attach as Exhibit "G".
☑ Document(s) attached.
If not attached, why not and when is applicant expected to supplement: ________________

21. In any portion of the structure where the storage of any chemicals such as herbicides, pesticides, and/or fertilizers, do you agree to be subject to inspection and approval by the Orion Fire Department to ensure compliance with the Michigan Fire Protection Code?

☑ Yes    ☐ No

22. Will you ensure that no other uses, other than accessory uses, will be permitted within the same Facility other than those associated with cultivating, processing, transporting or testing marihuana?

☑ Yes    ☐ No

23. Please state and/or provide documentation showing the plan that all litter and waste will be properly and safely removed and will not constitute a source of contamination in areas where marihuana is exposed. Further, please include how the applicant will dispose of rubbish so as to minimize the development of odor and minimize the potential for development of waste odor and waste from becoming an attracted, harborage or breeding place for pests. Please include a detailed description of the ventilation system. Attach as Exhibit "H".
☑ Document(s) attached.
If not attached, why not and when is applicant expected to supplement: ________________

---
a) Will litter and waste be properly removed and the operating systems for waste disposal maintained in an adequate manner so that they do not constitute a source of contamination in areas where marihuana is exposed?

☒ Yes    ☐ No

b) Will floors, walls and ceilings be constructed in such a manner that they may be adequately cleaned and kept clean and in good repair?

☒ Yes    ☐ No
c) Will there be there adequate screening or other protection against entry of pests, and will rubbish be disposed of so as to minimize the development of odor, minimize the potential for development of waste odor, and minimize the potential for waste becoming an attractant harborage or breeding places for pests?

☐ Yes  ☐ No

d) Will all buildings, fixtures and other facilities be maintained in a sanitary condition?

☐ Yes  ☐ No

e) Will each Facility center provide its occupants with adequate and readily accessible toilet facilities that will be/are maintained in a sanitary condition and in good repair?

☐ Yes  ☐ No

24. Please state how the Applicant intends to avoid excessive noise, dust, vibrations, glare, fumes or odors detectable to the normal senses beyond the boundaries of the property. Attach as Exhibit “I”.

☐ Document(s) attached.
If not attached, why not and when is applicant expected to supplement: __________________________

25. Please provide the plan and supporting documentation showing that all disposal systems for spent water and spent soil have been adequately and safely disposed of and accounted for.

Attach as Exhibit “J”.

☐ Document(s) attached.
If not attached, why not and when is applicant expected to supplement: __________________________

26. Please provide a security and safety plan, and at a minimum showing the facilities surveillance systems and continuous monitoring systems of the entire premise as required by the ordinance.

Attach as Exhibit “K”.

☐ Document(s) attached.
If not attached, why not and when is applicant expected to supplement: __________________________
a) Will the Facility continuously monitor the entire premises with surveillance systems that include security cameras operating 24 hours a day, 7 days a week, every day of the year, and will these recordings be maintained for a period of at least 30 days?

☐ Yes    □ No

27. Please state and/or show the exterior signage or advertising identifying the facility. Attach as Exhibit “L”.
☐ Document(s) attached.
If not attached, why not and when is applicant expected to supplement: ____________________

The facility will only show the numbers associated with its address

a) Do you understand and agree that any exterior signage or advertising identifying the Facility as a marihuana facility is prohibited?

☐ Yes    □ No

SECTION D- BUSINESS OPERATIONS AND SECURITY

28. Active business operations shall not be open outside of the hours of 7am and 9pm.

Active Hours of Operations:

LIST OF DOCUMENTS TO PROVIDE WITH APPLICATION

(Where applicable, an attached document(s) may satisfy more than one requested document. If so, please identify the appropriate responsive Exhibit or document in the space provided.)

Application Documents

Exhibit A & B: Floor plan or drawings to scale and elevations as required by Orion Township Ordinance No. 154 with location plan showing surrounding area as required by Ordinance.
✓ Document Attached. If not, why not: _____________________________

Exhibit C: Copy of Proof of Ownership, Purchase Agreement, Lease, or options for the site where the Marihuana Facility will be operated. (If leased, signed document by owner consenting of the lease to the site for a Marihuana Facility).
✓ Document Attached. If not, why not: _____________________________

Exhibit D: Copy of map and/or other documents in response to question 15.
✓ Document Attached. If not, why not: _____________________________

Exhibit E: Copy of the Applicant’s application for license submitted to the State of Michigan, Department of Licensing and Regulatory Affairs.
□ Document Attached. If not, why not: Not submitted yet. Expected 03/01/2021

Exhibit F: Copy of operations statement, plan and or outline showing facility activities shall occur indoors and in locked building (question 21).
✓ Document Attached. If not, why not: _____________________________

Exhibit G: Copy of all necessary building, electrical, plumbing and mechanical permits, as well as documented approval by the Orion Fire Department showing compliance. (question 23)
✓ Document Attached. If not, why not: _____________________________

Exhibit H: Copy of plan for litter and waste removal and detailed description of ventilation system. (question 26)
✓ Document Attached. If not, why not: _____________________________

Exhibit I: Copy of plan to avoid excessive noise, dust, vibrations, glare, fumes or odors. (question 27)
✓ Document Attached. If not, why not: _____________________________

Exhibit J: Copy of plan and supporting documents showing disposal of spent water and soil safety plan. (question 28)
✓ Document Attached. If not, why not: _____________________________

Exhibit K: Description of a security and safety plan as required in the Orion Township Ordinance No. 154 for Licensed Marihuana Facility. (question 29)
✓ Document Attached. If not, why not: _____________________________
Exhibit L: Any proposed text or graphical materials to be shown on the exterior of the proposed facility. (question 30)
☐ Document Attached. If not, why not: **Exterior will only show building numbers.**

**Additional Documents**

1. Copy of Articles of Incorporation or Limited Liability company or Partnership Agreement or assumed name certificate.
   ✔ Document Attached. If not, why not: ________________________________

2. Copy of Internal Revenue Service SS-4 EIN confirmation letter.

A. & B. Facility Floor Plan
C. Lease Agreement
COMMERCIAL LEASE

This lease (the Lease), is entered into on November 1, 2020, between Premier Drive Tycoon I, LLC, with an address at 1615 S Telegraph Rd, Bloomfield Hills, MI (Landlord), and Tycoon I Operations, LLC (Tenant) on the terms and conditions listed below.

1. Description of the Premises. Landlord owns the real property, improvements and any and all structures thereon located at 180 Premier Drive, Orion Township, MI 48359 ("Premises"), consisting of approx. 72,000 square feet. Tenant shall have the right to use the Premises to conduct its daily business operations and for any ancillary or related purposes including the operation of a marihuana business.

2. Basic Lease Provisions. The basic Lease provisions are stated below and further explained in the section referenced to the right of each provision:

(a) Term: 10 years
(b) Commencement Date: February 1, 2021
(c) Termination date: October 31, 2030
(d) Options: for additional 10 years
(e) Monthly installment amount: $75,000 or $12.50; per square foot;
(f) Security deposit: $75,000.00
(g) Use: Tenant’s desired business operation

3. Term. This Lease shall be for a term stated in section 2(a) commencing on the date stated in section 2(b) (the Commencement Date) and terminating on the date stated in section 2(c). The rent for the first month shall be prorated from date of occupancy, if the date of occupancy is after the first day of the month. Each succeeding lease year shall begin on the anniversary of the same date and continue until the termination of the Lease.

Provided that Tenant is not in default under this Lease at the end of the then current Lease term, Tenant shall have the right to renew the term of this Lease for the option period stated in section 2(d) by giving Landlord written notice of Tenant’s intent to renew the Lease at least 120 days before the expiration of the then current term. The renewal shall be on the same terms and conditions as in this Lease, except that the minimum rent for each renewal term shall be increased by a percentage equal to the percentage increase in the Consumers Price Index (Bureau of Labor Statistics Washington, D.C., all Cities) (CPI) during the preceding term. The percentage increase shall be determined by comparing the latest available CPI before the Commencement Date of the Lease or the prior term, whichever shall apply, and the latest available CPI on or before the expiration of the immediately preceding initial or renewal lease term. The word “term” as used in this Lease shall include any renewal term.

4. Minimum Rent. Tenant shall pay to Landlord as rent the sum stated in section 2(e), payable in monthly installments due in advance, on the first day of each month during the term of this Lease. All rent shall be paid to Landlord at the address set forth above or at such other address as Landlord may designate in writing, without any prior demand and without any deduction or offset.

If Tenant shall fail to pay any amount due from it to Landlord under this Lease when that amount shall be due, a one-time late charge of $50.00 shall be assessed and thereafter the amount of rent not paid shall be subject to a service charge until that amount is paid at the lesser of the rate of 5% per month or the highest rate permitted by law.
5. **Security deposit.** Tenant, contemporaneously with the execution of this Lease, has deposited with Landlord the sum stated in section 2(f) as a security deposit. The deposit shall be held by Landlord, without liability for interest, as security for the faithful performance by Tenant of all the terms, covenants, and conditions of this Lease to be kept and performed by Tenant during the term of this Lease.

If Tenant fails to keep and perform any of its covenants of this Lease, Landlord at its option may appropriate and apply the entire deposit, or so much as may be necessary, to compensate Landlord for loss or damage sustained by Landlord due to Tenant’s breach. If the entire deposit or any portion is appropriated and applied by Landlord for the payment of overdue rent or other sums due and payable to Landlord by Tenant, Tenant shall, on the written demand of Landlord, forthwith remit to Landlord a sufficient amount in cash to restore the security to the original sum deposited. Tenant’s failure to do so within 5 days after receipt of demand shall constitute a breach of this Lease.

6. **Taxes.** Tenant shall pay or cause to be paid all real property taxes and special assessments levied against the Building including the Premises. Tenant shall pay all personal property taxes assessed against any personal property owned by Tenant on the Premises.

7. **Maintenance and repair.** Tenant shall maintain and repair and keep the Premises in good condition and repair, including the exterior windows and the electrical system. Landlord shall, at tenants expense, make all other repairs and replacements to the Building, including those of a structural or capital nature. Landlord shall, at tenants expense, enter into an annual maintenance contract with a licensed heating and mechanical firm for the maintenance of the heating and air conditioning equipment during the term. Landlord shall be obligated to make repairs only after Tenant has given Landlord written notice of the need for the repair, and only if the repair was not caused by the negligence or willful act of Tenant, its agents, employees, invitees, or licensees.

Tenant shall provide and pay for its own regular janitorial service to maintain the Premises in a neat and clean condition. Tenant shall be responsible for all repairs or replacements to the Building occasioned by the negligence or willful act of Tenant, its agents, employees, invitees, or licensees.

8. **Utilities.** Tenant shall have all utilities servicing the Premises metered in its own name and shall pay all charges and deposits for the utilities provided to or used in the Premises during the term of this Lease. Tenant shall also pay 100% of the water and sewer bill. Landlord shall not be liable in damages should the furnishing of any utilities be interrupted by fire or other casualty, accident, strike, labor dispute or disagreement, the making of any necessary repairs or improvements, or any other causes beyond the reasonable control of Landlord.

9. **Liability insurance.** Tenant shall indemnify Landlord and save Landlord harmless from any liability or claim for damages that may be asserted against Landlord by reason of any accident or casualty occurring on or about the Premises. Tenant shall, at its own cost and expense, obtain and keep in force a policy or policies of public liability insurance with an insurance company approved by Landlord, with liability coverage of an amount as recommended by Landlord's insurance agent that, for the initial coverage, shall be not less than $1 million for injury or death to any one person, $3 million for injury or death to more than one person, and $500,000 regarding damage to property. Tenant shall furnish Landlord with certificates or other evidence acceptable to Landlord indicating that the insurance is in effect and providing that Landlord shall be notified in writing at least 30 days before cancellation of any material change in or renewal of the policy. All insurance policies shall name Landlord and any persons designated by Landlord as insured parties.

Any insurance maintained by either party pursuant to this section or under this Lease shall contain a
clause or endorsement under which the insurer waives all rights of subrogation against the other party, its agents or employees, regarding losses payable under the policy.

Any personal property kept on the Premises by Tenant shall be at Tenant's sole risk.

10. Use. Tenant shall use and occupy the Premises for the purpose stated in section 2(g) and for no other purpose without the prior written consent of Landlord. Tenant shall not intentionally and knowingly use the Premises for any purpose or in any manner in violation of any State law, local ordinance, rule or regulation adopted or imposed by the City in which the Premises is situated. Tenant shall not deface or injure the Premises or the Building, permit anything to be done on the Premises tending to create a nuisance or to disturb other tenants in the Building, or permit any activity in the Premises that will result in an increase of any premium, or cancellation of a policy, for insurance on the Premises or the Building.

11. Construction of leasehold improvements. Landlord grants Tenant express consent to construct certain leasehold improvements as may be required for Tenant's use. The cost of Tenant's leasehold improvements shall be paid for by Tenant. The improvements shall be constructed in a good and workmanlike manner.

12. Operations. Tenant's operations in conjunction with the Premises shall meet the requirements set forth below.

a. Tenant shall keep all garbage and refuse in the kind of container specified by Landlord. If Landlord shall provide or designate a service for picking up refuse and garbage, Tenant shall use the same at Tenant's cost. Tenant shall pay the cost of removal of any of Tenant's refuse or rubbish.

b. Tenant shall keep the Premises at a temperature sufficiently high to prevent freezing of water in any pipes and fixtures.

c. Tenant shall keep the outside areas immediately adjoining the Premises clean and free from dirt and rubbish to the satisfaction of Landlord, and Tenant shall not place or permit any obstructions or merchandise in those areas. Tenant shall water and maintain any flowers, shrubs, and trees located immediately adjoining the Premises.

d. Tenant shall only store and/or stock in the Premises goods, wares, and merchandise that Tenant intends to offer for sale at retail.

e. Tenant shall conduct its business in the Premises in a dignified manner and in accordance with high standards of store operation.

13. Restrictions on Tenant's activities. Without Landlord's written consent, Tenant shall not engage in the activities listed below.

a. Tenant shall not operate all or any part of its business in the Premises in any manner that is inconsistent with its intended use of the Premises.

b. Tenant shall not conduct any auction, fire, going-out-of-business, or bankruptcy sales in the Premises.

c. Tenant shall not operate or permit to be operated on the Premises any coin or token operated vending machines or similar devices for the sale of goods, wares, merchandise, food, beverages, or service,
including, without limitation, pay telephones, pay lockers, scale, and amusement devices without Landlord’s prior written consent.

d. Tenant and Tenant’s employees and agents shall not solicit business in the parking or other common areas of the Building, nor shall Tenant or its employees or agents distribute any handbills or other advertising matter in or on automobiles parked in the parking area or in other common areas without Landlord’s prior written consent.

e. Tenant and its employees and agents shall not park any vehicle on the Building land except in areas that are designated by Landlord for that use.

14. Assignment and subletting. Tenant agrees not to sell, assign, mortgage, pledge, or in any manner transfer this Lease or sublet the Premises or any portion of the Premises without the prior written consent of Landlord. Notwithstanding any assignment or subletting, Tenant shall remain fully liable on this Lease. Landlord’s right to assign this Lease is and shall remain unqualified. On any transfer of Landlord’s interest in the Premises in which the purchaser assumes all obligations under this Lease, Landlord shall be free of all obligations of Landlord under this Lease and shall not be subject to any liability resulting from any act or omission or event occurring after the conveyance. Tenant agrees to recognize the transferee as Landlord, and Tenant further agrees, at Landlord’s request, to execute and deliver such documents and estoppel letters as Landlord may request to assist in that transfer.

15. Estoppel letter. On not less than 10 days’ prior written notice from Landlord, Tenant shall sign and deliver to Landlord an estoppel letter that

a. certifies that this Lease is unmodified and in full force and effect (or, if modified, states the nature of the modification and certifies that this Lease, as so modified, is in full force and effect);

b. acknowledges that there are not, to Tenant’s knowledge, any uncured defaults on the part of Landlord or specifying the default if any are claimed;

c. certifies the date to which all forms of rent have been paid; and

d. certifies the amount, if any, of the security deposit paid to Landlord.

Tenant’s failure to deliver such an estoppel letter within the 10 days shall be conclusive on Tenant that

a. this Lease is in full force and effect, without modification except as may be represented by Landlord;

b. there are no uncured defaults in Landlord’s performance;

c. not more than one month’s rent has been paid in advance; and

d. no security deposit has been paid except as may be represented by Landlord.

16. Acceptance of Premises. The occupancy by Tenant of the Premises shall constitute an acknowledgment by Tenant that the Premises are then in the condition called for by this Lease.

17. Damage or destruction. If, during the term of this Lease, the Premises shall be partially or totally destroyed by fire or other casualty covered by insurance so as to become partially or totally untenantable,
the same shall be repaired as promptly as possible with the insurance proceeds unless this Lease is terminated. In the event of damage or destruction, if this Lease is not terminated, the rent shall be abated proportionately to the loss of use suffered by Tenant.

If, during the term of this Lease, the Premises shall be partially or totally destroyed by fire or other casualty, and the cost of restoring the Premises to its condition prior to the damage shall equal or exceed 40 percent of its fair replacement value immediately prior to the damage, or if the Premises are damaged by any casualty not insured against by Landlord, Landlord shall have the right to terminate this Lease by giving Tenant written notice of its election to do so within 15 days after the date on which the damage occurs. On the giving of notice, the Lease shall terminate as of the date on which damage occurred and the rent shall be adjusted to that date. In default of notice by Landlord, this Lease shall continue and Landlord shall cause the Premises to be repaired or restored with due diligence.

18. **Condemnation.** If the whole or any part of the Premises shall be taken by any public authority under the power of eminent domain, the term of this Lease shall cease on that part to be taken from the day the possession is acquired by the public authority and the rent shall be paid up to that date. If the portion of the Premises taken substantially impairs the usefulness of the Premises for the purpose for which the Premises were leased, Tenant shall have the right either to terminate this Lease or to continue in the possession of the remainder of the Premises under the terms and conditions of this Lease except that the rentals shall be reduced in proportion to the amount of the Premises taken, and in the latter event, Landlord shall promptly restore the remainder to a reasonably tenantable condition. All damages awarded for the taking shall belong to and be the property of Landlord.

19. **Alterations and signage.** No improvements, alterations, additions, or physical changes shall be made on the Premises by Tenant without the prior written consent of Landlord.

Tenant agrees that it will not place or maintain on any exterior door, wall, or window of the Premises any signs, awning or canopy, or advertising matter, or other thing of any kind and will not place or maintain any decoration, lettering, or advertising matter on the glass of any window or door of the Premises that is not in conformity with all applicable governmental rules and regulations and the rules and regulations of the Building as set forth by Landlord and further, without first obtaining Landlord’s prior written approval. Tenant further agrees to maintain such sign, awning, canopy, decoration, lettering, advertising matter, or other thing as may be approved in good condition and repair at all times. Tenant further acknowledges that Landlord may, at its option, regulate the lettering size, style, and color of Tenant’s sign so that all signs in the Building are of a like size, color, style of lettering, and like material. Tenant agrees that it will conform its sign to that as regulated by Landlord for the general use in the Building, regardless of how and in what manner Tenant normally designs its name for use in its sign and further regardless of whether or not Tenant uses the form and style of its sign as a trademark.

All alterations and improvements, but not moveable equipment and trade fixtures, put in at the expense of Tenant shall be the property of Landlord and shall remain on and be surrendered with the Premises at the termination of the Lease; provided, however, that Landlord may require that Tenant remove the alterations and improvements and repair any damages to the Premises caused by the removal.

20. **Remedies and default.** If Tenant shall default in the payment of any sums to Landlord when due and shall not cure such default within 7 days; or if Tenant shall default in the performance of any other covenant or condition of the Lease and shall not cure such other default within 30 days after written notice from Landlord specifying the default; or if Tenant or its agent shall falsify any report to be furnished to Landlord pursuant to the terms of this Lease; or in case Tenant shall be adjudicated a bankrupt or make any assignment for the benefit of creditors; then, in any such event, Landlord may
either (a) accelerate the full balance of the rental payable for the remainder of the term and sue for such sums or Landlord may terminate this Lease or (b) reenter the Premises, without terminating this Lease, and dispossess Tenant or any other occupant of the Premises and remove Tenant’s effects and relet the same for the account of Tenant for such rent and on such terms as shall be satisfactory to Landlord, crediting the proceeds, first to the costs and expense of reentry, alterations and additions, and the expense of reletting, and then to the unpaid rent and the other amounts due during the remainder of the term. Tenant shall remain liable to Landlord for any unpaid balance.

In case suit shall be brought for recovery of possession of the Premises, for the recovery of any rent or any other amount due under the provisions of this Lease, or because of the breach of any other covenant on the part of Tenant to be kept or performed, and a breach shall be established, Tenant shall pay to Landlord all expenses incurred, including reasonable attorney fees, which shall be deemed to have been incurred on the commencement of the default and shall be enforceable whether or not the action is prosecuted to judgment.

21. Access to Premises. Landlord shall have the right to enter on the Premises at all reasonable hours to inspect and for access to the Premises to install, maintain, use, repair, and replace pipes, ducts, lights, conduits, plants, wires, floor coverings, and all other mechanical equipment serving the Premises.

22. Rules and regulations. Landlord reserves the right to adopt from time to time rules and regulations for the operation of the Building that are not inconsistent with the provisions of this Lease. Tenant and its agents, employees, invitees, and licensees shall comply with all those rules and regulations. Any such rules shall not dictate the days or time of business operation.

23. Waiver. The failure of Landlord to insist on a strict performance of any of the terms, covenants, or conditions of this Lease or rules and regulations of the Building shall not be deemed a waiver of any subsequent breach or default in the terms, covenants, and conditions or rules and regulations. This Lease may not be changed, modified, or discharged orally.

24. Notices. All notices required under this Lease shall be in writing and shall be deemed to have been given if either delivered personally or mailed by certified or registered mail to Landlord or to Tenant at their respective addresses set forth above or to such other address as either party may furnish in writing during the term of this Lease.

25. Quiet enjoyment. Landlord covenants and agrees with Tenant, its successors, and assigns that on Tenant’s paying the rent and observing and performing all the terms, covenants, and conditions on Tenant’s part to be performed and observed, Tenant may peaceably and quietly hold, have, occupy, possess, and enjoy the Premises for the full term of this Lease.

26. Subordination to mortgage. Any mortgage now or hereafter placed on the Premises shall be deemed to be prior in time and senior to the rights of Tenant under this Lease. Tenant subordinates all of its interest in the leasehold estate created by this Lease to the lien of any mortgage. Tenant shall, at Landlord’s request, execute any additional documents necessary to indicate this subordination including, if requested, an estoppel letter as set forth in section 15. If Tenant fails to supply the estoppel letter, the provisions in section 15 to cover that failure shall apply. Notwithstanding the foregoing, Tenant’s possession of the Premises under this Lease shall not be disturbed by any mortgagee, owner, or holder of note secured by a mortgage placed on the Premises, unless Tenant shall breach any of the provisions of this Lease and the lease term of Tenant’s right to possession shall have been lawfully terminated in accordance with the provisions of this Lease.
27. **Building revisions by Landlord.** Landlord reserves the absolute right at any time and from time to time to make changes or revisions in the Building, including such changes to the parking lot, driveways, signs, and sidewalks, by making additions to, subtractions from, or rearrangements of the improvements in the Building, as long as the revisions do not materially affect Tenant’s use of the Premises.

28. **Holding over.** If Tenant remains in possession of the Premises after the expiration or termination of the Lease, it shall be deemed to be occupying the Premises as a tenant from month to month, subject to all the conditions, provisions, and obligations of this Lease insofar as the same can be applicable to month-to-month tenancy, except that the rent shall increase to 2 times the rent owing at the end of the lease term. The month-to-month tenancy shall be cancelable by either party on 30 days’ written notice to the other.

29. **Recording.** Tenant shall not record this Lease without the written consent of Landlord; however, on the request of either party the other party shall join in the execution of a memorandum or so-called “short form” of this Lease for the purpose of recordation. The memorandum or short form of this Lease shall describe the parties, the Premises, and the term of this Lease and shall incorporate this Lease by reference.

30. **Captions and headings.** The captions and headings used in this Lease are intended only for convenience and are not to be used in construing this Lease.

31. **Applicable law.** This Lease shall be construed under the laws of the state of Michigan. Venue for any disputes under this agreement shall lie in **Oakland, Michigan**. If any provision of this Lease or the application to any person or circumstances shall, to any extent, be invalid or unenforceable, the remainder of this Lease shall not be affected and each provision of this Lease shall be valid and enforceable to the fullest extent permitted by law.

32. **Successors.** This Lease and the covenants and conditions shall inure to the benefit of and be binding on Landlord, its successors, and assigns and shall be binding on Tenant and permitted assigns of Tenant.

33. **Effective date.** The parties have caused this agreement to be signed and shall be effective as of the day and year first above written.

*(signature page to follow)*
IN WITNESS WHEREOF, the parties have respectively signed and sealed this Lease as of the day and year first above written.

Tycoon I Operations, LLC

Business & Operations Plan

PREAMBLE:
Tycoon I Operations, LLC ("Applicant") will strictly comply at all times with applicable state law and local ordinance codes, including rules and emergency rules that may, from time to time, be promulgated by the state or Orion Township. All business activities will take place indoors in a locked facility. Applicant has retained a law firm with established expertise in Michigan marihuana law to ensure continuing education and compliance with the laws as they evolve. The statements made in this application are made with a clear and thorough understanding of state and local requirements as they exist on the date of application, but the operations of Applicant will be amended to comply with all future derivations of the state and municipal laws.

I. OVERVIEW
Applicant is a Michigan limited liability company formed to operate twenty four (24) commercial marihuana GROWER (Class C) facilities whose primary mission is to provide a source of high-quality marihuana to processors and provisioning centers across the state of Michigan.

II. ADMINISTRATION
  A. Location & Zoning
     i. Buffers
        a. The distances described are measured horizontally between the nearest property lines.
        b. The facility is not within 1,000 feet of any educational institution or school, college or university, church, house of worship or other religious facility, licensed child care, preschool, public library, or public or private park.

     ii. Applicant is leasing the property pursuant to the attached lease and the owner/lessor of the property authorizes the use of the property as a marihuana facility in the lease agreement, which is attached.

  B. Organizational Structure
     i. The Applicant is organized as a Michigan limited liability company and is in good standing.

     ii. The members, owners, directors, officers, and managers of the Applicant are listed in the Organization Structure.
iii. The members, owners, directors, officers, and managers of Applicant meet all eligibility requirements to own and operate a marijuana grower facility as set forth in state law and local ordinance.

a. No member, owner, director, officer, manager or any person having an ownership interest in the application has an interest in a secure transport facility license or a safety compliance facility license.

b. The Applicant meets all eligibility requirements to own and operate a marijuana grower facility as set forth in state law and local ordinance.

iv. The Applicant has never applied for been granted any commercial license or certificate issued by a licensing authority in Michigan or any other jurisdiction that has been denied, restricted, suspended, revoked or not renewed.

C. Permits & Licenses
i. This Business and Operations Plan is submitted as an addendum to the applications for Ten Orion Township permits to operate a business and the Orion Township special use/site plan application.

ii. All operations in this Business and Operations Plan will comply with regulations issued by the Department of Licensing and Regulatory Affairs (LARA).

iii. Applicant intends to apply for, obtain, operate, and comply with a state license to operate a grower facility under the MMFLA and MRTMA.

iv. The business will not open for operation until it receives a state license to operate under the MMFLA and MRTMA and all applicable permits and licenses from Orion Township.

v. Upon granting of a permit to operate a grower facility, Applicant will prominently display the original Orion Township permit at the Permitted Premises in a location where it can be easily viewed by the public, law enforcement, and administrative authorities.

vi. At all times the facility will hold a valid local Permit and State Commercial Marijuana Facility License for a Grower.

vii. In addition to complying with the Orion Township Ordinance Authorizing and Permitting Commercial Marijuana Facilities, Applicant will comply with all Township Ordinances, including without limitation, the Township Zoning Ordinance, as well as the requirements of the County Road Commission, County
Building Inspector, County Drain Commissioner, District Health Department, Soil Erosion Officer, County Conservation Service, areas fire departments, Michigan Department of Natural Resources, Michigan Department of Environmental Quality, and any other applicable township, county, state and federal statutes.

viii. Applicant will have available, at all times, documentation that local and State sales tax requirements, including any requirement for a license, are satisfied.

ix. Applicant will provide updated operational and security plans to Orion Township upon request and prior to any proposed changes in its operations.

D. Inspections
   i. Applicant will provide access to the facility for inspection to any federal, state, or local law enforcement officer to ensure compliance with the permit.

   ii. Applicant consents to inspections as required in the MMFLA and pursuant to the Orion Township ordinance.

III. OPERATIONS
Applicant proposes 24 state-licenses in a single marihuana grower facility for the cultivation, drying, trimming, curing, and packaging of marihuana for sale to a processor or provisioning center pursuant to the requirements and restrictions of the Marihuana Facilities Licensing Act, PA 281 of 2016, and all future derivations thereof. This facility will be located in a secure industrial facility.

A. Compliance with State Regulations
Applicant will meet all operating regulations established by LARA and the Marihuana Licensing Board for Growers, including without limitation, any standards, procedures, and requirements for:

   i. quality control
   ii. chain of custody
   iii. marihuana storage
   iv. waste disposal
   v. labeling and packaging
   vi. storage of chemicals

B. Description of the Facility
Applicant’s facility will be used exclusively for the cultivation, drying, trimming, curing, and packaging of legal usable marihuana for sale to processors or provisioning centers.

C. Entry to Facility
Generally, the public will not be allowed entry to the facility. Notwithstanding the forgoing, Applicant will not allow entry to the facility to anyone under the age of 18.
D. Employees
Applicant anticipates having between fifteen (15) and (65) full and part-time employees, as many as possible of whom will be local community residents. None of Applicant’s employees will be registered primary caregivers during the employment with Applicant. Please reference the staffing plan for a detailed list of potential positions.

E. General Policies
i. Applicant will only sell or transfer marihuana to a processor or provisioning center.

ii. Applicant will only use secure transporters in the distribution or exchange of marihuana or currency with processors or provisioning centers.

iii. Applicant will not promote the unlawful use of marihuana or any other drug or provide or otherwise make marihuana available to any person who is not legally authorized to receive Marihuana under state law.

iv. No owner, the Applicant, or any employee of Applicant will grow marihuana in the Permitted Premises for his or her own use.

v. The following activities are prohibited on the Permitted Premises:
   a. the sale, consumption, or use of alcohol, or controlled substances;
   b. smoking or consumption of marihuana.

F. Cultivation Plan
i. Propagation
   a. Lighting
   b. Watering
   c. Nutrient Application
   d. Integrated Pesticide Management

ii. Harvesting and Trimming

iii. Drying and Curing

iv. Packaging

v. Distribution
   a. All marihuana products will be validated from a verified transport manifest, created from the statewide monitoring system. The manifest includes a detailed form with the number of packages and detailed content for confirmation/validation with secure transporters and purchasers of the shipment (processors or provisioning centers).
   b. Each transport shipment will be processed in the following manner:
      1. Entry of shipped inventory into the statewide monitoring system.
      2. Confirmation with Secure Transporter of valid and verified transport manifest, including product count, weight of each package or item
c. State certified scales will be used to verify and weigh all marihuana, in whatever form.

G. Inventory Management

i. Applicant will not control or have on the Permitted Property an amount of marihuana plants or usable marihuana that exceeds any amount permitted by the state License or the Township permit.

ii. Tracking and Monitoring
Applicant will use a third-party inventory control and tracking system to interface with the statewide monitoring system. The third-party inventory control and tracking system will have the capabilities necessary to comply with the requirements applicable to a grower licensee:

a. Track all marihuana plants and packages;
b. Track lot and batch information throughout the entire chain of custody;
c. Track transportation of product;
d. Track marihuana waste;
e. Track all marihuana product transfers;
f. Track sales and returns;
g. Track marihuana plant, batch, and product destruction;
h. Perform batch recall tracking;
i. Report and track loss, theft, or diversion of marihuana products;
j. Receive testing results electronically from a safety compliance facility;
k. Provide access to state agencies and law enforcement as required;
l. Report all inventory discrepancies.

iii. Applicant will enter all transactions, current inventory, and other information into the statewide monitoring system as required by the MMFLA, the Marihuana Tracking Act, and any associated regulations.

iv. Inventory reconciliation - At the end of each day, physical inventory counts will be reconciled with the third-party inventory control and tracking system.

v. Returns

H. Quality Control

i. Sampling (by Licensed Safety Compliance Facility)

ii. Batch Testing (by Licensed Safety Compliance Facility)

iii. Transport to Safety Compliance Facility (by Secured Transporter)

I. Signage and Advertising
i. Applicant has no proposed signage at this time, but will amend this plan accordingly and provide the township with its sign permit application if and when it does wish to propose signage.

ii. Applicant will not display pictures, photographs, drawings or other depictions of Marihuana or Marihuana Paraphernalia on the outside of the Permitted Premises, nor will such pictures, photographs, drawings, or other depictions of Marihuana or Marihuana Paraphernalia be visible outside of the Permitted Premises on the Permitted Property.

iii. The words "Marihuana, "or "cannabis," and any other words, used or intended to convey the presence or availability of Marihuana will not appear on the outside of the Permitted Premises, nor will "Marihuana, "or "cannabis," and any other words, used or intended to convey the presence or availability of Marihuana be visible outside of the Permitted Premises on the Permitted Property.

J. Visibility of activities
i. All activities of the facility, including without limitation, the cultivation, harvesting, trimming, drying, curing and packaging of Marihuana, and all other related activity permitted under Applicant’s License or Permit will occur indoors.

ii. No marihuana or paraphernalia shall be displayed or kept in the facility so as to be visible from outside the Permitted Premises.

K. Security
i. Plan
Applicant will maintain, at all times, a centrally-monitored security and alarm system on the premises that meets or exceeds state regulatory requirement.
Applicant will maintain policies and procedures to include:

a. Regular drills of the security protocols and emergency plans;
b. Controlled and restricted access to the Permitted Property and Permitted Premises to employees, agents, and owners of Applicant, and law enforcement or state or local authorities as necessary to ensure Applicant’s compliance with state and local laws.
c. Internal and external cameras with 24-hour monitoring and off-site recording;
d. Installed panic buttons
e. Limitations on the amount of currency and marihuana stored onsite;
f. Cooperation and coordination with local law enforcement;
g. Permitted premises will only be able to be accessed through a combination of security locks and access codes; and
h. The ability to remain operational during a power outage with battery back-up.

ii. Security Surveillance Cameras
Security surveillance cameras will be installed to monitor all entrances, along with the interior and exterior of the premises, which will capture all areas of the property unless otherwise prohibited by law, including unobstructed video surveillance of all enclosed areas, unless prohibited by law, including all points of entry and exit that shall be appropriate for the normal lighting conditions of the area under surveillance.

iii. Security Recordings and Documentation
   a. All security recordings and documentation will be preserved for at least 30 days and made available upon request by any law enforcement.

iv. Robbery and Burglary Alarm System
   Applicant will employ an alarm system that meets state requirements and obtains state approval. Specifically,
   a. Applicant will employ a centrally alarmed and monitored security system that will be monitored 24 hours a day, 7 days a week for the Permitted Premises pursuant to the attached service agreement.
   b. There will be a perimeter alarm on all entry points and perimeter windows of the Permitted Premises
   c. A failure notification system will provide an audible, text, or visual notification of any failure in the surveillance system. A panic button and alarm will directly notify the local law enforcement agency having primary jurisdiction.

v. Storage of Marihuana and Currency
   a. Applicant will store usable marihuana that is not otherwise in the process of being dried, trimmed, cured, packaged, or distributed including packaged and un-packaged usable marihuana, and currency in a secured locked safe that is permanently affixed to the premises.

L. Ventilation Plan/Air Filtration System
   i. Applicant’s facility operation and design will provide sufficient measures and means to minimize any impact to adjacent uses, including the control of odor by maintaining and operating an air filtration system so that no odor is detectable outside the Permitted Premises.
   
   ii. Applicant’s equipment and methods to control odor include a comprehensive air filtration system, consisting of
       a. Activated Carbon Filters.
       b. Heavy Duty Ventilation Fans.

   iv. Details and specifications of the equipment used for Applicant’s ventilation and air filtration plan are attached.
v. The total enclosed space in which harvested marihuana will be stored amounts to approximately 300 sq. feet. Applicant will use an advanced filtration system rated appropriately for the area.

vi. The air filtration system will be maintained in working order at all times and will be in use at all times. Filters will be changed a minimum of once every 365 days.

vii. In addition to the use of an air filtration system, Applicant will mitigate odors by keeping doors and windows closed at all times, except the minimum amount of time needed to allow ingress and egress to the building.

M. Toxic/Flammable/Hazardous Materials
  i. Applicant’s use of toxic, flammable, or other harmful, hazardous, or combustible materials will be limited to plant nutrients and pesticides and cleaning products. The facility may use the following nutrients and pesticides:

a. CocoTech Bloom A
b. CocoTech Grow A
c. CocoTech Premier Nutrient
d. FloraBloom Nutrient System
e. FloraGrow Nutrient System
f. Golden Tree Plant Food.
g. Nutra Green 5-10-5 plus Micronutrients Foliar Spray
h. Diatomaceous Earth
i. Neem Oil
j. PyGanic Pro Pyrithrin 5% MGK Miticide

ii. The facility may use the following commercial cleaning products, along with the following household products: materials regulated by government agencies:

a. Ultra Dawn Lemon Dish Soap
b. Nature’s Source Toilet Bowl Cleaner
c. Fantastik Antibacterial Heavy Duty All Purpose Cleaner
d. Windex Original Glass Cleaner
e. Novo Foaming Instant Hand Sanitizer
f. QuickSan Food Contact and Surface Sanitizer

iii. The materials will be stored in secured and ventilated cabinets. All combustible or reactive materials will be stored separately.

iv. Materials will be handled, stored, and disposed according to specifications in each Material Safety Data Sheet.
N. Waste Product Disposal
Applicant will dispose of unusable or waste marihuana in accordance with the MMFLA, MRTMA, and applicable local ordinance guidelines to prevent the waste marihuana from being possessed or ingested by any person and animal.

i. Applicant’s current, preliminary waste disposal plan consists of shredding and grinding damaged and unusable plants, roots, seeds, stalks and harvested marihuana and mixing it with one of several lawful over-the-counter products, such as sawdust or cat litter to render it unusable, unrecognizable, and unpalatable, and then discarding in secured bags as part of its solid waste disposal.

ii. The State of Michigan’s Marihuana Licensing Board may require or suggest as a part of its regulations, expected sometime in November, one or more alternative waste disposal options including, but not limited to, waste disposal through the secured transporter system, waste mitigation through THC extraction methods (rendering the marihuana waste product inert) or some other method. Applicant warrants that it will comply with all state and local requirements as to waste disposal, but further commits to its current preliminary plan to render all marihuana waste unrecognizable, unusable and inaccessible regardless of state or local requirements.

IV. COMMUNITY RESPONSIBILITY AND CONCLUSION
Although marihuana has been used as a medicine across the globe for hundreds of years, its commercial production and sale is new to us, this state, and your community. We appreciate the opportunity to show Orion Township that Marihuana can be safe and accessible to a community while providing jobs and local economic growth. We look forward to being productive and responsible community partners, and will work with the Township toward that goal.

PAYMENT OF PERMIT FEE CONSTITUTES ACCEPTANCE OF THE ABOVE TERMS.
H. Litter & Waste Removal Plan
Litter & Waste Removal Plan

All biological waste product will be rendered unrecognizable by grinding it in an industrial grinder and combining it with other non-consumable solid waste, including the media in which we cultivate plants, Rockwool. The inclusion of inert material renders the combined solid waste unusable. All waste will be stored in a locked dumpster that is emptied at minimum once per week.

The company intends to employ particulate filtration in areas where waste is stored and processed, which minimizes potential exposure and impact to the outside environment. The facility, which is designed around large water chillers, is designed to circulate air rather than ventilating it. This process helps to avoid excess exposure of odors to the surrounding community.
I. Noise, Dust, Vibrations, Glare & Fumes Plan
Noise, Dust, Vibrations, Glare, Fumes or Odors Plan

Excessive Noise, Dust, Vibrations, Glare and Marijuana odors emanating from our facilities are a valid concern for the community and our neighbors. This plan details the measures deployed to ensure that minimal noise, dust, vibration, glare, fume or offensive odor is emitted from the facility, the response if it occurs, and that the measures remain effective over time.

This plan is our commitment to the Orion Township that we will be in compliance with regulations of the city and the administrative rules and that we will not operate in a manner creating noise, dust, vibration, glare, fumes, or odors detectable to normal senses beyond the boundaries of the property.

We will not vent noxious dust, odors, gases or fumes to surrounding areas.

We will mitigate dust and noxious odors by engaging in the following activities:

1. Adequate design measures to seal the building;
2. Utilizing a heating, ventilation, and cooling (HVAC) System designed to move an appropriate amount of air (cfm) throughout the facility to disperse odors;
3. Using industry leading MERV-13 HEPA filters in addition to FILTR, Blue Zone & Puradigm units in each room throughout the facility.

I. DESIGN MEASURES TO SEAL THE BUILDING

We intend to renovate our building in a manner that focuses on effectively sealing all interior rooms and exterior access points. Each room is enclosed in 12”, interlocking insulated panels which are designed to form an airtight seal. For additional protection, butyl caulk is applied at each joint to accommodate any flaws in the panels.

Caulk is also applied to seal any openings into the panels, including plug outlets, doorways, sprinklers, and anything else that could allow air flow. Our doors are fiberglass, weather stripped and employ a drop seal to press additional weather stripping against the floor when closed to maximize the seal all the way around.

II. MERV-13 HEPA FILTRATION SYSTEM

The purification of air throughout our facility is a top priority for both the health of the plants and the environment we subject our employees and the local community to. In an effort to target and reduce contamination, mold, bacteria, odor, dust, and fumes, we employ a variety of filtration systems in all rooms where marijuana plants are grown.

Each room will utilize clean room grade HEPA filtration units filtering down to 0.01um and providing up to 5 complete air changes per hour. These units also utilize a carbon filter which focuses directly on the removal of smells and volatile organic compounds.

In addition to the HEPA filters, each room will have Puradigm units to help reduce airborne and surface contaminates, and Agrify Bluezone UV filtration units, known to destroy 99.9%+ of both bacteria and mold. Both of these systems aid in odor elimination and containment.
As filters age, they become clogged with impurities, and ultimately less effective. As such, we will develop a maintenance schedule to inspect the filtration units regularly and to replace them per the manufacturer's recommendation or at an expedited pace based on their usage in these environments.

III. VIBRATION MITIGATION
Exterior mounted cooling equipment is mounted on isolation pads to dramatically reduce vibrations that would otherwise be created by such large equipment.

IV. EVALUATING THE EFFECTIVENESS OF NOISE, DUST, VIBRATIONS, ODOR & FUME CONTROL MEASURES

Key site leadership roles will be trained to assess the production and escape of odors, dust, fumes and glare from the facility. We also anticipate a strong and friendly relationship with the local communities and will welcome feedback about any exhaust from the building. Should these assessments or the community ever determine that our levels are beyond acceptable, we will re-evaluate this plan and engage professionals to further refine our practices and properly mitigate the problem.
J. Spent Water & Soil Safety Plan
Spent Water & Soil Safety Plan

Wastewater Treatment Plan:
Wastewater generated during the cultivation of marihuana of marihuana products shall be disposed of in compliance with all applicable state and local laws and regulations. Despite the amount of water used in the cultivation process, there is very little water waste. The majority of water is used by the plants or evaporated out of the collection dishes upon which the plants sit. Any water that is used to rinse the plants or clean the facility or for any other purpose shall be rendered clean through both reverse osmosis and UV light after standard filtration methods, and either reused by the facility or discharged through a monitoring man hole where it can be monitored to comply with all local ordinances.

The Cultivation Facility will include an Ecowater RO purification system. Ecowater Purification Systems are the leading water filtration manufacturer in the industry, helping cultivators diagnose and solve every water problem imaginable. Ecowater designs systems to treat any water source including city water, well water, nutrient runoff water, wastewater, and condensate runoff.

Soil Safety Plan
The cultivation facility will not use soil – instead, all media for the purposes of growing plants will be rockwool, a lightweight hydroponic substrate made from spinning molten basaltic rock into fine fibers which are then formed in a range of cubes. This product will be disposed of through the grinder and mixed with biological waste in a locked dumpster.
K. Security Plan
SECURITY PLAN

Tycoon I Operations is committed to being a leader in Michigan’s cannabis industry and a trusted resource for the communities, consumers and clients we service. Essential to fulfilling this commitment is our ability to effectively protect our product from criminal repurposing throughout the facilities.

This Security, Surveillance and Diversion Prevention Plan details the physical and electronic security measures we employ to deter, detect, and inhibit the theft, diversion, and loss of Marijuana, and to prevent unauthorized conduct with respect to the storage and dispensing of Marijuana.

We have extensively researched and designed our Grow Facility to maximize security. The facility shall be built with enhanced security and stringent safety features to eliminate any potential for diversion. Our facility will be equipped with numerous motion sensors and exterior intrusion sensors that will be linked to local law enforcement. To prevent unauthorized entry and stop diversion, theft, or loss of marijuana, every square inch of the facility shall be continually monitored by high definition security cameras and commercial-grade equipment. Security systems will be positioned so they closely monitor activities at strategic risk points and watch for any strange behavior or movement. Marijuana shall not be visible to any person from the exterior of the Grow Facility.

We will create a culture of responsibility, accountability, and strict security surrounding all aspects of the facility. The stringent operating procedures outlined below demonstrate a commitment to employee and public safety above all other operating values. From receipt to sale, we are committed to preventing diversion by implementing a comprehensive security strategy. Employees will be extensively trained to understand that security is a primary obligation for everyone at our facility.

We will have comprehensive security policies and procedures for the Grow Facility, which address measures to deter and prevent unauthorized entrance into areas containing marijuana and theft of marijuana at the facility. Employees will receive on-going training regarding our security protocol and the Site Manager shall ensure all employees follow policies and procedures regarding the security of the facility. The Site Manager shall implement and maintain employee training policies and procedures for security training. All employees shall aid in the security of the Grow Facility through prevention, awareness, reporting, and responsible incident management. All employees shall be required to immediately report security breaches and incidents of non-compliance to their supervisor, and in case of sudden emergency, immediately to law enforcement by either striking a panic button or calling law enforcement directly.

We will make our facility available and open to inspection, at all times, for law enforcement, representatives of the Department and law enforcement, when necessary to perform their duties.

PHYSICAL SECURITY

The facility shall be designed to maximize security and stop the potential for diversion. Access to the secure facility shall include safety and security mechanisms that prevent unauthorized entry. All doors will be burglary-resistant material, equipped with commercial-grade, non-residential locks. Additionally, exterior doors, as well as limited access area entries, will be automatic locking and equipped with electric strike and keycard access hardware. All doors are setup to fail secure, which means in the event of a power failure, the doors will remain locked and only be accessible via a master key.
The Grow Facility’s main entrance vestibule shall include a mantrap to control passage from the public access area to the limited access area. We will strive to install Underwriter’s Lab (UL) approved locks and lock cylinders, which are rated as burglary resistant. We will also install local alarms on all fire exits and other perimeter doors not authorized for employee or visitor use. Our alarm system will be monitored after business hours with live monitoring through a licensed security monitoring company. If there are ever any after-hours issues, the live monitoring system will be linked directly to law enforcement and the Site Director, among other key personnel.

We shall ensure that trees, bushes, and other foliage outside of the premises do not allow people to conceal themselves from sight. The surveillance system’s cameras shall be capable of certain identification of persons (including facial features), license plates, vehicles, the immediate surrounding areas, and any activities occurring within any area of the premises, and the parking area, and within twenty feet (20’) of all entry and exit points of the premises. Cameras will cover every square inch of the facility.

To provide first responders with immediate access into our facility during a time of emergency or inspection, we will install a Knox Rapid Access System to remove any barriers to entry when first responders respond to an emergency call.

LIGHTING

Exterior lights at all points of entry and exit shall remain constantly illuminated to allow for recording. Lighting on the outside perimeter shall allow cameras the ability to record any suspicious activity. Timed-delay switches shall be used to turn off non-essential interior lights, which shall not remain lit after employees have left the facility. Motion detecting lights shall be installed in areas that are entered and exited infrequently. The exterior of the facility shall be lit by commercial LED light fixtures sufficient to facilitate twenty-four-hour surveillance. Exterior lights in the parking area will remain on from dusk until dawn.

SECURITY EQUIPMENT

Our security equipment shall be designed, installed, and maintained to deter and prevent unauthorized entrance and theft of marijuana products at the facility. Security equipment shall be installed by a commercial, licensed service provider. All equipment shall be compliant with Department rules and all state and local laws, regulations, ordinances, and other requirements.

ENTRY AND EXIT ELECTRONIC EQUIPMENT AND PLACEMENT

Our entry and exit electronic access equipment will consist of the following:

- Electric strike locks on all doors in the Grow Facility with the ability to override access control for emergency exit even during a power outage.
- RFID proximity card access control devices for all interior doors and all exterior entrances and exits into the Grow Facility.
- Access control system that allows for programming or uploading individual user permissions and allowed entry times, as well as operations-specific information including employee photos.
- A backup power supply system that immediately provides power for at least twenty-four (24) hours in the event of a power outage.
- Main system operating equipment will be kept in the security room, a limited access area.
Access control system that monitors and records:
  o Identification of employees or visitors entering and exiting.
  o Date and time of entry and exit.
  o Length of time in specific area.
  o Any unauthorized attempts for access.

ALARM SYSTEM

We shall have a professionally monitored security alarm system installed at our facility. Monitoring of the alarm system shall be twenty-four (24) hours a day, seven (7) days a week. We shall notify the Department of any intent to change our security alarm service provider. Upon request, we will make available to the Department all information related to the alarm system, monitoring, and alarm activity. The alarm system shall consist of the following:

  o Appropriate equipment necessary to monitor activity inside and outside the Grow Facility, including:
    o All entrances and exits.
    o Roof hatches.
    o Rooms with exterior windows.
    o Rooms with exterior walls.
    o Rooms containing marijuana.
    o Rooms containing safes or vaults.
  o A backup power supply system that immediately provides power in the event of a power outage.
  o Main system operating equipment is kept in the Main Office Surveillance/IT Room, a limited access area.
  o All telephone junction boxes or rooms where alarm telephone circuits terminate are locked, tamper-protected, and all labels or tags identifying these alarm circuits have been removed.

ALARM SYSTEM COMMUNICATION

The alarm system shall include an electronic or mechanical system that, upon activation, is programmed to send a prerecorded voice message, via telephone, radio frequency, or other communication system, to appropriate law enforcement authorities or other emergency services. In addition, the alarm system shall be equipped with a failure notification system that notifies the alarm monitoring service provider of the system failure via audio, text, visual, or audiovisual message, within a maximum of five (5) minutes of such failure.

ALARM SYSTEM TESTING

We shall bi-annually conduct an onsite inspection and test of the entire alarm system to determine needed repairs and adjustments.

ALARM SYSTEM RECORDS

We shall keep and maintain alarm system records and will make available to the Department all
information related to the alarm system, monitoring, and alarm activity. These records shall include the following:

- The name of the alarm installation and monitoring service provider.
- Copies of service contracts.
- A map of the Grow Facility showing the location and operation of each alarm system component including alarm telephone circuits.
- A list of authorized users.
- Manufacturers’ instructions for operating and maintaining the equipment.
- Testing and maintenance logs.
- Reports of any incidents triggering an alarm.
- Reports of any interruption in monitoring and/or complete failure of the system, including the length of the interruption period.

SURVEILLANCE SYSTEM

We shall have a fully operational electronic surveillance system installed at our facility. We shall notify the Department of the intent to make any changes to the surveillance system. Upon request, we will make available to the Department all information related to the electronic surveillance system installed at our facility. The surveillance system shall consist of the following:

- Appropriate equipment necessary to video record activity inside and outside the Grow Facility, including:
  - All entrances and exits into and out of the Grow Facility.
  - Roof hatches or skylights.
  - Rooms with exterior windows.
  - Rooms with exterior walls.
  - Rooms containing safes or vaults.
  - All entrances and exits of security rooms and limited access areas.
- Appropriate equipment to record keycard entry and exit activity of all our employees and visitors.
- A backup power supply system that immediately provides power in the event of a power outage.
- A dedicated safe or vault to store all entry/exit records and video recordings in the Office Surveillance/IT Room, in a limited access area.
- Main system operating equipment is kept in the main office Surveillance/IT Room.

VIDEO SURVEILLANCE EQUIPMENT

Our video surveillance equipment will consist of the following:

- Network video recorders with a record rate of a minimum of thirty (30) frames per second.
- Cameras with a minimum resolution of 1920 x 1080 pixels.
- Cameras with infrared capabilities to capture images in low or no lighting conditions.
- Cameras with capabilities to identify activity occurring within twenty feet (20') from all points of entry and exits into and out of the exterior of the Grow Facility.
- Video monitors.
- Digital archiving device.
- Capabilities to produce a color still photograph from any camera image, live, or recorded.
- Capabilities to accurately display the time and date on recorded images or video.
- Color printer that can immediately produce a clear, color still photo, either live or recorded, with a resolution of 9600 dpi and the image quality is relative to the camera being used to capture the image.

**CAMERA COVERAGE PLACEMENT**

We will install at least One Hundred (100) security cameras. The security cameras will be permanently mounted and in a fixed location. Each camera at the Grow Facility shall be placed in a location that allows the camera to clearly record activity occurring within twenty feet (20') of all points of entry and exit on the Grow Facility. The cameras will cover every square inch of the facility. The cameras shall allow for the clear and certain identification of any person, including facial features, and activities, including sales or transfers, in all areas of the Grow Facility. The security cameras shall monitor and record all areas of the Grow Facility including:

- All areas where marijuana or products are present, including activities related to:
  - Weighing, packaging, and labeling.
  - Storing, preparing for sale, loading/unloading, or moved within the Grow Facility.
  - Waste Disposal.
- Limited-access areas and security rooms, including transfers between rooms and areas.
- Areas storing a surveillance system storage device with at least one (1) camera recording the access points to the secured surveillance recording area.
- All entrances and exits into and out of the exterior of the Grow Facility, recording both indoor and outdoor vantage points.
- Outdoor trash receptacles.
- Roof hatches or skylights.
- Rooms with exterior windows.
- Rooms containing safes or vaults.
- All areas where cash is counted, transferred, or stored.
- All areas where records are stored.

Cameras shall not be installed in bathrooms or any other area where a legitimate expectation of privacy exists. Camera placement shall ensure:

- Visibility of activities is not obstructed by lighting equipment covers, fixtures, or other equipment.
- A clear and certain identification of all individuals and activity at the Grow Facility.
• Identification of activity occurring within twenty feet (20') from all points of entry and exit into and out of the exterior of the Grow Facility.

SURVEILLANCE FAILURE NOTIFICATION

The surveillance system shall include a failure notification system that alerts the Site Director and other key site personnel of any interruption in surveillance and/or the complete failure of the monitoring system. The notification shall be within a maximum of five (5) minutes of such failure via audio, text, visual, or audiovisual message. Additionally, an alarm shall signal the Security Officer on duty whenever an unauthorized entry is attempted.

SURVEILLANCE TESTING

We shall ensure that the surveillance system is properly maintained for playback quality so that images can be seen and the identity of all individuals and activity in surveillance areas are captured. We will schedule and oversee all required maintenance of security equipment in accordance with manufacturer recommendations. Any equipment failure identified shall be corrected as soon as possible. All security equipment shall be in good working order and shall be inspected and tested at regular intervals.

INFORMATION TECHNOLOGY SECURITY

We shall ensure the security of our hardware, software, data, and communications networks, including the following information technology (IT) maintenance:

• Software registration.
• Security patches.
• Malicious software prevention.
• Account management.
• Security status and network access monitoring.
• Disposal and redeployment.
• Employee IT security training.
• Vulnerability assessments.

Access to protected information shall be restricted to essential employees only. Access may be granted to authorized representatives of the Department and other government officials if necessary to perform their official duties. Examples of protected information include:

• Security and cash management procedures.
• Asset and inventory lists.
• Network data.
• Floor plans of critical areas.
• Password and code records.
• Customer records.
• Employee records.

PRODUCT SAFETY AND SECURITY

We shall develop and implement procedures that ensure product safety and security and are compliant with the rules set forth by the Department and all applicable state and local laws, regulations, ordinances, and other requirements. Procedures shall include measures that:

• Minimize the risk of diversion or theft of marijuana.
• Minimize the risk of contamination from incoming materials.
• Ensure proper storage conditions that maintain the quality and purity of our marijuana products.

MATERIAL RECEIVING

All deliveries shall be verified at the front entrance to the facility before allowed access to the loading areas. All materials received will be documented. No material may be received unless its shipping documentation matches the corresponding purchase order or separate approval is given by the Site Manager. Employees shall notify the Site Manager of any shipment discrepancy immediately and shipment may not be accepted without the Site Manager’s approval.

PRODUCT STORAGE SECURITY

Storage areas shall be designed to provide adequate lighting, ventilation, temperature, humidity, space, and equipment. All storage areas shall be maintained in a clean and orderly condition, free from infestation of pests, and in accordance with our security measures and Security Plan. The Grow Facility Manager shall ensure secure containers containing marijuana products remain dry, well ventilated, have temperature-control features to avoid extreme temperature fluctuations and appropriate odor-control features. These proper storage environments ensure product storage does not lead to product contamination or loss of quality.

The storage areas containing marijuana products shall be designed for security and ease of maintenance. We shall establish product storage and security policies and procedures compliant with the rules set forth by the Department and all applicable state and local laws, regulations, ordinances, and other requirements. Under no circumstances may any product be transferred without following our policies and procedures and all the rules set forth by the
Department and all applicable state and local laws, regulations, ordinances, and other requirements. Storage policies and procedures shall include:

- All equipment and any areas used for the processing or storage of marijuana shall be securely locked unless in use.
- All areas used for the storage of marijuana shall be on a time lock and only accessible during regular business hours.
- Inventory shall be reviewed and documented at the beginning and close of each day.
- All areas where marijuana product is stored will be monitored by the surveillance system.

DIVERSION PREVENTION

Investigation of possible diversion and developing policies to prevent it will be conducted by a team of our senior officials, including our CEO, COO, and Director of Compliance. Collectively, they will be known as the Diversion Prevention Team or DPT. The team will have multiple responsibilities including:

- Investigating allegations of diversion
- Developing policies and procedures to prevent diversion
- Managing performance improvement measures
- Providing overall direction for the program.
- Reporting confirmed cases of diversion to law enforcement

The DPT will also integrate information from external sources and environmental factors to improve safety and security at facilities. External sources and environmental factors may include news reports, trade and patient associations, law enforcement bulletins, et cetera. Standard operating procedures shall be updated to incorporate new sources of information and prevent diversion.

WORKING WITH LAW ENFORCEMENT

We deeply value and respect the work of local law enforcement. Police officers are on the front lines protecting our safety. Therefore, our Company, through the DPT, will form a partnership with law enforcement. This partnership will be rooted in a shared responsibility for the safety of the community. Upon request, law enforcement will have access to employee records and Grow Facility operations. Company will also engage with first responders like EMS and fire to establish emergency response protocols. This will create a close working relationship and enhance our ability to provide a secure and positive experience for our employees and the community.

To provide first responders with immediate access into our facility during a time of emergency or inspection, we will install a Knox Rapid Access System to remove any barriers to entry when first responders respond to an emergency call.
EMPLOYEE TRAINING

We know that having a trained and educated workforce is paramount to having an effective diversion strategy. Therefore, a considerable amount of time, resources, and energy will be devoted to ongoing diversion prevention training. The training curriculum will be conducted by the DPT. At a minimum, the training curriculum shall include:

- Compliance regulations for grow facilities.
- State laws and agency rules regulating the use of marijuana.
- Strategies for preventing diversion.
- Criminal and civil consequences for diverting product.
- Security and safety standard operating procedures.
- Chain of command for reporting diversion.
- Incident management.
- Daily operating procedures.

Diversion prevention trainings are mandatory for every new employee. Additionally, each employee shall be required to participate in quarterly continuing education trainings on diversion. Training materials will be outcome driven. Employees will be given real world examples of diversion and taught the appropriate response. Teaching the material through the learning principles of problem solving, discussion, and feedback will empower and increase understanding and retention of the training. This process of integrating knowledge will develop a culture of shared values, perspectives, and become the way of daily conduct and purpose at the Grow Facility.

Employees will have access to diversion prevention training materials at all times. There will be no excuse and zero tolerance for not knowing the proper policies and procedures. Well-maintained employee training records displaying documented training dates and subject matter will preserve and increase compliance, continuity and understanding of all guidelines, security procedures, safety, and incident response. Employee training records will become a written testament of the detailed information and accountability of security education.

INVESTIGATION OF DIVERSION

Due to intense and robust security operations, we do not anticipate diversion at our facility. However, it is important to be prepared for any scenario. We have developed an enhanced investigation procedure for any allegations or reports of potential diversion. Any allegation or report will be fully and immediately investigated by the DPT with established processes and timeframes.

Security policies developed by our Company outline that the first step of investigation is to preserve all possible evidence. Evidence needs to be persevered for the investigation and may be used in future disciplinary matters. The second step of investigation shall be to review all camera footage and other relevant information technology. Each marijuana product is tracked from seed to sale. Therefore, if diversion occurred, it will likely appear in an audit of the tracking software. The third step of investigation will be to interview the employee who engaged or
allegedly engaged in diversion. This step can only be executed if enough evidence is gathered to narrow down the suspect. The goal of the interview is to get the subject to confess how they diverted product to prevent future incidents from occurring. The fourth step of investigation will be to report the confirmed incident of diversion and suspect to law enforcement and the Department. The Site Manager shall be the point of contact for all law enforcement inquires and will turn over all relevant evidence to law enforcement and the Department. The final step of investigation is to develop policies and procedures to prevent the incident from happening again. Once new policies have been developed by the DPT, an all staff training shall be given. The training will be a top down review of all security policies including any updated procedures.

INCIDENT RESPONSE

We shall establish incident response procedures addressing any incident that may occur, including natural disaster, unauthorized access, theft, or IT security breach. Procedures shall be in accordance with the rules set forth by the Department and all applicable state and local laws, regulations, ordinances, and other requirements. Procedures for general emergency and incident management, containment, and corrective measures shall be thoroughly detailed. The Director of Compliance shall ensure the appropriate response procedures are followed. All employees shall receive incident response training annually. The Site Manager shall determine the category and severity of the incident and determine the next best course of action. All discussions, decisions, and activities shall be documented.

We shall immediately notify appropriate law enforcement authorities and the Department immediately after the discovery of a reportable incident as defined by state and local laws, regulations, ordinances, and other requirements. Examples of an incident may include, but are not limited to:

- Theft or physical loss of marijuana or confidential records.
- Breach of our network servers.
- Robbery or unauthorized entry in the Grow Facility.
- Threats of violence to the Grow Facility, employees, or visitors.
- Bomb threats.
- Any criminal activity.
- Civil disturbances.
- Hazardous spills.
- Infectious disease epidemic.
- Serious accidents.
- Fires.
- Earthquakes.
- Floods.
- Windstorms or tornadoes.
INCIDENT REPORTING

Anyone with knowledge or a reasonable suspicion of an incident is instructed to make an immediate report to the Grow Facility Manager or the Site Manager. The person reporting the incident shall complete the Incident Log.

- Date and time of occurrence or suspected occurrence.
- Names and contact information of parties involved and any witnesses.
- Description of incident.
- Completed Suspect Description Forms, if applicable.
- Any evidence supportive of the event (unless law enforcement is required on scene or en route).

We shall notify appropriate law enforcement authorities and the Department immediately after discovering the following:

- Discrepancies identified during inventory; diversion, theft, or loss of marijuana; or any criminal action involving an employee.
- Theft, robbery, or burglary; sale to minors; diversion of marijuana or marijuana products; or any other crime related to marijuana.
- Any suspicious act involving the sale, cultivation, distribution, processing, or production of marijuana by any person.
- Unauthorized destruction of marijuana.
- Any loss or unauthorized alteration of records.
- An alarm activation or other event that requires a response by public safety personnel.
- Integrity of the inventory management system compromised.
- An IT security breach.
- The failure of any security alarm system due to a loss of electrical power or mechanical malfunction that is expected to last longer than eight (8) hours.
- Any other breach of security defined by the rules set forth by the Department.

UNAUTHORIZED ENTRY/ROBBERY CONTAINMENT AND CORRECTIVE PROCEDURES

In the event a threat is present to persons, cash, or product due to unauthorized entry, employees shall be trained to perform the following:
• Notify law enforcement utilizing a panic alarm, only if it can be safely done without being obvious to the robber.

• Do not resist the robber or use or encourage the use of weapons or force against the robber.

• Try to inform the robber of any potential surprises (e.g., an employee is due back from lunch or the building alarm is set to be tested).

• Try to keep employees and visitors, if applicable, calm during the robbery.

• Try to alert other employees of the situation using pre-determined signals or text messages, only if safe to do so.

• Follow the robber’s commands in order to shorten the time of the incident. Do not argue with the robber, but do not volunteer to help.

• If the robber demands a certain amount of money or product, only give them that amount.

• Be observant in order to be a good witness. Try to remember:
  o The number of robbers.
  o The physical characteristics of the robber(s), such as weight, scars, tattoos, hair color, or speech patterns.
  o The clothing worn by the robber(s).
  o Any names used by the robber(s).
  o A description of any weapons shown, such as barrel length and color, color of the grip, or automatic or revolver.

• If the robber uses a note, try to place it out of sight to retain it as evidence.

• Do not follow a robber.

• Secure the Grow Facility and place a notice that the business is closed due to an emergency.

• Call the police and ambulance, as needed, immediately and request that witnesses stay or obtain their contact information.

• Provide aid to injured people.

• Do not discuss the robbery with any outside parties until police and management has given authority to do so.

• Do not estimate the amount of money or product that was taken until an inventory has been performed.

Corrective procedures that may be required to return conditions to a normalized and secure state:

• Change all security codes.

• Replace locks and issue keys only to authorized employees.
• Ensure any video of the incident is archived.
• Restore security devices and/or apparatus to working condition.
• Repair any physical damage to the Grow Facility.
• Provide employees and visitors, if applicable, counseling, as needed.
• Perform a security re-training as soon as possible.
• Modify Employee Access Control Log as deemed appropriate.

INTERNAL THEFT/BURGLARY CONTAINMENT AND CORRECTIVE PROCEDURES

In the event a threat is present to persons, cash, product due to internal theft or burglary, employees shall be trained to perform the following:

• Identify missing or compromised assets.
• Gather, remove, recover, and secure sensitive materials to prevent further loss or access.
• Power down, recycle or remove security equipment known to be compromised.
• Where possible, secure the premises for possible analysis by the Department and law enforcement.
• Gather and secure any evidence of illegal entry for review by the Department and law enforcement.
• Where possible, record identities of any party who might be a possible witness to events.
• Preserve video recordings and Visitor logs for review by the Department and law enforcement.

Corrective procedures that may be required to return conditions to a normalized and secure state:

• Retrieve or restore assets where possible.
• Store all sensitive materials and products in a secure manner (e.g., lockable cabinets or storage areas/container).
• Replace locks and issue keys only to authorized employees. Update the Employee Access Control Log as necessary.
• Restore security devices and/or apparatus to working condition.
• Remove and retain unauthorized equipment from network and/or area.
• Implement physical security devices and improvements (e.g., equipment cables, alarms) as deemed appropriate.
• Perform a security re-training as soon as possible.
FIRE PROCEDURES

If a fire does not present an immediate danger to personal safety, one (1) employee shall try to extinguish the fire. If a fire presents an immediate danger to personal safety, a fire alarm shall be pulled and a call to 911 shall be immediately made and evacuation of the building shall occur all at once.

Evacuation of Grow Facility

Any director or manager may determine the need to evacuate. Reasons for evacuation may include:

- Fire.
- Bomb threat.
- A hostile or violent employee, visitor, or unknown person.
- Power outage.
- Earthquake.
- Water or gas leak.
- Hazardous spill.
- Robbery or hostage situation.

The Site Manager shall ensure that all employees and visitors, if applicable:

- DO NOT gather in lobbies.
- DO NOT open a door without first checking for heat.
- DO NOT touch any suspicious items or suspected bombs.
- DO NOT run or panic.
- DO NOT re-enter the building until authorized.
- DO assist disabled individuals or others who need assistance. Evacuate disabled individuals or others who need assistance ONLY under the direction of authorized emergency personnel or when there is an immediate threat to personal safety and security.

INCIDENT CONTAINMENT

The Site Manager, in coordination with the appropriate department directors or managers, shall determine and implement the appropriate activities and processes required to quickly contain and minimize the immediate impact to personal safety, the Grow Facility, and other affected parties. Containment activities shall be designed to:

- Minimize harm to individuals.
- Counteract the immediate threat.
• Prevent propagation or expansion of the incident.
• Minimize actual and potential damage.
• Restrict knowledge of the incident to authorized employees.
• Preserve information relevant to the incident.

The Site Manager, in coordination with the appropriate department directors or managers, shall determine and implement the appropriate activities and processes to quickly:

• Secure the environment.
• Restore the environment to its normalized state.

The Site Manager shall be actively engaged throughout the incident to assess the progress of all containment and corrective measures and determine at what point the incident can be considered resolved.

INCIDENT CONTAINMENT AND CORRECTIVE PROCEDURES

The Site Manager shall determine and implement the appropriate procedures required to quickly contain and minimize the immediate impact of an incident, as well as to quickly restore circumstances to a normalized, secure state. Containment and corrective measures shall be designed with the primary objectives of:

• Minimizing harm.
• Counteracting the immediate threat.
• Preventing propagation or expansion of the incident.
• Minimizing the actual and potential damage.
• Restricting knowledge of the incident to authorized employees.
• Preserving information relevant to the incident.
• Securing the environment.
• Restoring the environment to its normalized state.

POST-INCIDENT REVIEW, REPORT, AND FOLLOW UP

The Site Manager shall hold a Post-Incident Review after each incident has been resolved. The Post-Incident Review shall be scheduled within two (2) to three (3) weeks of the incident’s resolution and shall involve:

• Appropriate personnel, which may include affected parties.
• Examination of the incident and all related activities and events.
• Discussion on proposed changes to policy, processes, and safeguards.
All incident activities, from receipt of the initial report through post-incident review, shall be documented. The Site Manager shall ensure all events are recorded, assembling these records in preparation and performance of the post-incident review, and ensuring all records are preserved for review. The following shall be included, at a minimum, in the Post-Incident Report:

- A description of incident events with specific timelines.
- Employee(s) involved.
- Non-Employees involved.
- Impact to affected parties.
- Discussions, decisions, and assignments made.
- Successful and unsuccessful activities.
- Notifications required or recommended.
- Steps taken for containment and resolution.
- Recommendations for prevention and remediation (short-term and long-term).
- Identification of policy and procedure gaps.
- Results of post-incident review.
- Any necessary follow-up actions.

The Post-Incident Report shall be distributed to the Site Manager, the Grow Facility Manager, and all other relevant parties for review. The Site Manager shall ensure the appropriate employees are assigned to any follow-up actions. The Site Manager shall document the completion of all follow-up actions in the Post-Incident Report and distribute an updated copy.

SECURITY SYSTEM RECORDS

We shall keep all necessary books and records in order to render a full account of all operations conducted at the Grow Facility under our license for the year to date and the five (5) years prior. We shall keep books and records of the Grow Facility from the previous six (6) months (or the complete copies of such records) in the Grow Facility at all times. All marijuana related records shall be retained in the inventory management system. All surveillances recordings shall be retained, at a minimum for at least sixty (60) days, unless in instances of investigation or inspection by the Department, through its investigators, agents, auditors, or the state police, in which case the licensee shall retain the recordings until such time as the department notifies the licensee that the recordings may be destroyed. Our standard operating procedures shall detail the maintenance of records and measures for addressing and reporting any loss or unauthorized alteration of records. The Department, upon request, shall have full access to all Grow Facility records and surveillance recordings.

We shall keep and maintain security and surveillance system records and recordings in the Grow Facility and copies stored on a secure cloud storage. These records shall include, at a minimum, the following:

- The name of the surveillance equipment installation service provider and all equipment manufacturers.
- Copies of any service contracts.
• A map of the Grow Facility showing the location and operation of each surveillance system component, including the direction of camera coverage.

• A list of authorized users.

• Manufacturers’ instructions for operating and maintaining the equipment.

• Testing and maintenance logs.

• Reports of any incidents of unauthorized entry.

• Employee Access Control Logs.

• Visitor Registration Logs.

• Authorized Visitor Access Control Logs.

• Incident Logs and Post-incident Reports.

• Reports of any interruption in monitoring and/or complete failure of the system, including the length of the interruption period.

• A log of the recordings, which includes:
  o The identities of the employee or employees responsible for monitoring the video surveillance system.
  o The identity of the employee who removed the recording from the video surveillance system.
  o The identity of the employee who destroyed any recording.

• Video surveillance recordings shall be:
  o In a digital format that ensures authentication of the recording as being legitimately captured without alterations.
  o Easily accessible and in a format that allows for viewing and copying.
  o Embedded with the date and time without significantly obscuring the picture.

We will maintain a log of all recordings, which will include a minimum:

• The identities of the employee or employees responsible for monitoring the video surveillance system.

• The identity of the employee who removed the recording from the video surveillance system storage device and the time and date removed.

• The identity of the employee who destroyed any recording.

Video surveillance recordings shall be stored on an NVR that is server-based with storage as required to meet recording rate and retention. This system shall be password-protected and separate from any other equipment in the Grow Facility. The files and video surveillance recordings shall be available for inspection, upon request, by authorized representatives of the Department and other government officials when necessary to perform their official duties.

After the expiration of the retention period, and before selling or closing the facility, the surveillance video recordings shall be erased, destroyed, or otherwise disposed. We shall not destroy any surveillance video recordings if we have knowledge or should have knowledge of any ongoing criminal, civil, administrative, or other official investigations or proceedings for which the recording may contain relevant information. Additionally, we shall not destroy any surveillance
video recordings in instances of investigation or inspection by the Department, through its investigators, agents, auditors, or the state police, in which case the recordings shall be retained until such time as the Department notifies us that the recordings may be destroyed.
Security and Surveillance Equipment Room Access List

This is the current list of individuals having access to our Security and Surveillance Equipment Storage Room. Only those on this list are essential to maintain security and surveillance operations. All others will be denied access to the Security and Surveillance Equipment Room.

This list is available to the Department or authorized agents immediately upon request.

ADDITIONAL DOCUMENTS
CERTIFICATE OF AMENDMENT TO THE ARTICLES OF ORGANIZATION
For use by DOMESTIC LIMITED LIABILITY COMPANY

Pursuant to the provisions of Act 23, Public Acts of 1993, the undersigned executes the following Certificate of Amendment:

The identification number assigned by the Bureau is: 802483853
The name of the limited liability company is: HELDER INVESTMENT HOLDINGS, LLC
The date of filing the original Articles of Organization was: 7/17/2020

Complete only those articles being amended.

Article I

The name of the limited liability company as amended, is: TYCOON I OPERATIONS, LLC

The amendment was approved by unanimous vote of all the members entitled to vote.

This document must be signed by a member, manager, or an authorized agent:

FILING ENDORSEMENT

This is to Certify that the CERTIFICATE OF AMENDMENT TO THE ARTICLES OF ORGANIZATION for

TYCOON I OPERATIONS, LLC

ID Number: 802483853

received by electronic transmission on July 22, 2020, is hereby endorsed.

Filed on July 22, 2020, by the Administrator.

The document is effective on the date filed, unless a subsequent effective date within 90 days after received date is stated in the document.

In testimony whereof, I have hereunto set my hand and affixed the Seal of the Department, in the City of Lansing, this 22nd day of July, 2020.

Linda Clegg, Interim Director
Corporations, Securities & Commercial Licensing Bureau
ARTICLES OF ORGANIZATION
For use by DOMESTIC LIMITED LIABILITY COMPANY

Pursuant to the provisions of Act 23, Public Acts of 1993, the undersigned executes the following Articles:

Article I

The name of the limited liability company is:

HELLE INVESTMENT HOLDINGS, LLC

Article II

Unless the articles of organization otherwise provide, all limited liability companies formed pursuant to 1993 PA 23 have the purpose of engaging in any activity within the purposes for which a limited liability company may be formed under the Limited Liability Company Act of Michigan. You may provide a more specific purpose:

Article III

The duration of the limited liability company if other than perpetual is:

Article IV

The street address of the registered office of the limited liability company and the name of the resident agent at the registered office (P.O. Boxes are not acceptable):

1. Agent Name: CSC-LAWYERS INCORPORATING SERVICE (COMPANY)
2. Street Address: 601 ABBOT ROAD
   Apt/Suite/Other: 
   City: EAST LANSING
   State: MI
   Zip Code: 48823

3. Registered Office Mailing Address:
   P.O. Box or Street Address: 601 ABBOT ROAD
   Apt/Suite/Other: 
   City: EAST LANSING
   State: MI
   Zip Code: 48823

Article V

(Insert any desired additional provision authorized by the Act; attach additional pages if needed.)

THE COMPANY SHALL BE MANAGED BY ONE OR MORE MANAGERS.

Signed this 17th Day of July, 2020 by the organizer(s):

Number of this notice: CP 575 A
For assistance you may call us at: 1-800-829-4933
IF YOU WRITE, ATTACH THE STUB OF THIS NOTICE.

WE ASSIGNED YOU AN EMPLOYER IDENTIFICATION NUMBER

Thank you for applying for an Employer Identification Number (EIN). We assigned you EIN 85-2192285. This EIN will identify you, your business accounts, tax returns, and documents, even if you have no employees. Please keep this notice in your permanent records.

When filing tax documents, payments, and related correspondence, it is very important that you use your EIN and complete name and address exactly as shown above. Any variation may cause a delay in processing, result in incorrect information in your account, or even cause you to be assigned more than one EIN. If the information is not correct as shown above, please make the correction using the attached tear-off stub and return it to us.

Based on the information received from you or your representative, you must file the following form(s) by the date(s) shown.

If you have questions about the form(s) or the due dates(s) shown, you can call us at the phone number or write to us at the address shown at the top of this notice. If you need help in determining your annual accounting period (tax year), see Publication 538, Accounting Periods and Methods.

We assigned you a tax classification based on information obtained from you or your representative. It is not a legal determination of your tax classification and is not binding on the IRS. If you want a legal determination of your tax classification, you may request a private letter ruling from the IRS under the guidelines in Revenue Procedure 2004-1, 2004-1 I.R.B. 1 (or superseding Revenue Procedure for the year at issue). Note: Certain tax classification elections can be requested by filing Form 8832, Entity Classification Election. See Form 8832 and its instructions for additional information.
If you are required to deposit for employment taxes (Forms 941, 943, 940, 944, 945, CT-1, or 1042), excise taxes (Form 720), or income taxes (Form 1120), you will receive a Welcome Package shortly which includes instructions for making your deposits electronically through the Electronic Federal Tax Payment System (EFTPS). A Personal Identification Number (PIN) for EFTPS will also be sent to you under separate cover. Please activate the PIN once you receive it, even if you have requested the services of a tax professional or representative. For more information about EFTPS, refer to Publication 966, Electronic Choices to Pay All Your Federal Taxes. If you need to make a deposit immediately, you will need to make arrangements with your Financial Institution to complete a wire transfer.

The IRS is committed to helping all taxpayers comply with their tax filing obligations. If you need help completing your returns or meeting your tax obligations, Authorized e-file Providers, such as Reporting Agents (payroll service providers) are available to assist you. Visit the IRS Web site at www.irs.gov for a list of companies that offer IRS e-file for business products and services. The list provides addresses, telephone numbers, and links to their Web sites.

IMPORTANT REMINDERS:

* Keep a copy of this notice in your permanent records. This notice is issued only one time and IRS will not be able to generate a duplicate copy for you. You may give a copy of this document to anyone asking for proof of your EIN.

* Use this EIN and your name exactly as they appear at the top of this notice on all your federal tax forms.

* Refer to this EIN on your tax-related correspondence and documents.

* Provide future officers of your organization with a copy of this notice.

Your name control associated with this EIN is TYCO. You will need to provide this information, along with your EIN, if you file your returns electronically.

If you have questions about your EIN, you can contact us at the phone number or address listed at the top of this notice. If you write, please tear off the stub at the bottom of this notice and include it with your letter. Thank you for your cooperation.

TYCOON I OPERATIONS LLC
DARYL HELLER SOLE MBR
2055 CROOKS RD STE B
ROCHESTER HLS MI 48309
OPERATING AGREEMENT
OF
TYCOON I OPERATIONS, LLC

THIS OPERATING AGREEMENT (this “Agreement”) is entered into and made effective as of July 22, 2020 (the “Effective Date”) by and between TYCOON I OPERATIONS, LLC, a Michigan limited liability company (the “Company”), and TYCOON HOLDINGS, LLC, a Michigan limited liability company and sole member of the Company (the “Member”).

Background

A. The Company was formed on July 22, 2020 as a Michigan limited liability company.

B. The undersigned desires to memorialize its rights and obligations with respect to the Company pursuant to the terms of this Agreement.

Agreement

In consideration of the foregoing background and for other good and valuable consideration, the receipt and sufficiency of which is hereby acknowledged, and intending to be legally bound hereby, the parties agree as follows:

ARTICLE I
DEFINITIONS

The following capitalized terms used in this Agreement shall have the following meanings (unless otherwise expressly provided herein):

“Act” means the Michigan Limited Liability Company Act, as amended.

“Business” means the principal business of the Company, which shall be to own and manage investments.

“Capital Contribution” means any contribution of cash or property to the Company, or any obligation to contribute cash or property to the Company, whenever made.

“Certificate” means the Articles of Organization as filed by the organizer of the Company with the Department of State of the State of Michigan, as amended.

“Interest” means the Member’s entire interest in the Company.
“Person” means any individual, trust, partnership, corporation, limited liability company or entity.

ARTICLE II FORMATION OF COMPANY

2.1 Formation. The Company has been organized as a Michigan limited liability company by executing and delivering the Certificate in accordance with and pursuant to the Act.

2.2 Name. The name of the Company is Tycoon I Operations, LLC.

2.3 Registered Office. The address of the registered office of the Company shall be The CSC – Lawyers Incorporating Service, 601 Abbot Road, East Lansing, Michigan 48823, or at such other place as the Member may from time to time determine. The registered office of the Company may be changed from time to time by amending the Certificate in accordance with the Act. The Company may maintain such other offices, including, but not limited to, a principal place of business as the Member shall determine.

2.4 Purpose. The purposes of the Company shall be (a) to advance and grow the Business, (b) to engage in all other lawful business authorized pursuant to the Act, and (c) to make, enter into and perform any contracts and other undertakings, and to engage in any activities and transactions as may be ancillary to or necessary or advisable to carry out the foregoing purposes.

2.5 Term. The term of the Company shall be perpetual unless the Company is earlier dissolved in accordance with the provisions of this Agreement.

ARTICLE III CAPITAL CONTRIBUTIONS; LOANS; DISTRIBUTIONS

3.1 Capital Contributions. The Company shall keep a record of all Capital Contributions made by the Member. The Member shall not be required to make any Capital Contribution to the Company not specifically agreed to in writing between the Member and the Company.

3.2 Loans. Any and all loans made to the Company by the Member shall not be considered Capital Contributions.

3.3 Distributions. Distributions shall be made to the Member (in cash or in kind) at such times and in such amounts determined by the Member and as permitted by applicable law.
ARTICLE IV

MEMBER

4.1 Member. The name and address of the Member is:

Tycoon Holdings, LLC
2055 Crooks Road, Suite B
Rochester Hills, MI48309

4.2 Management. The Company shall be initially managed by Heller Investment Holdings, LLC.

4.3 Right to Rely on Member. Any Person dealing with the Company may rely (without duty of further inquiry) upon a certificate signed by a designee of the Member as to: (a) the identity of the Member; (b) the existence or non-existence of any fact or facts which constitute a condition precedent to acts by the Member or which are in any manner germane to the affairs of the Company; (c) the Persons who are authorized to execute and deliver any instrument or document of the Company; or (d) any act or omission by the Company or any other matter whatsoever involving the Company or the Member.

4.4 Authority to Designate Officers. The Member may elect, appoint or designate, by resolution or otherwise, individuals as officers of the Company and delegate to such officers such powers, authority and responsibilities as are (i) set forth in the designation or delegation, and (ii) necessary to carry out and implement the management decisions of the Member. The Member may remove any officer, with or without cause, at any time. Any officer may resign at any time by giving written notice to the Company. Any resignation shall take effect as of the date of the Company's receipt of such notice or at any later time specified in such notice (unless such officer is otherwise removed prior to such date); and unless otherwise specified in such notice, the acceptance of the resignation shall not be necessary to make it effective. Unless the Member decides otherwise, if the title to an officer of the Company is one commonly used for officers of a business corporation, the assignment of such title shall constitute the delegation to such individual of the authority and duties that are normally associated with that office. The current officers of the Company are as set forth on Schedule A attached hereto, as may be amended from time to time.

4.5 Liability of Member and Officers. Neither the Member nor any officer, agent or representative of the Member, or officer of the Company, shall be liable to the Company or to the Members, as applicable, for (i) the performance of, or the failure to perform, any act or duty on behalf of the Company if, in good faith, the Members or officer determined that such conduct was in the best interests of the Company and such conduct did not constitute fraud, gross negligence or reckless or intentional misconduct, (ii) the termination of the Company and this Agreement pursuant to the terms hereof, and (iii) the performance of, or the failure to perform, any act on behalf of the Company in good faith reliance on advice of legal counsel, accountants or other professional advisors to the Company.
4.6 **Indemnification.** The Company shall indemnify, defend and hold the Member and the officers, agents and representatives of the Member, and each officer of the Company and, in the discretion of the Member, each employee of the Company, harmless from and against any expense, loss, damage or liability incurred or connected with, or any claim, suit, demand, loss, judgment, liability, cost or expense (including reasonable attorneys’ fees) arising from or related to, the Company or any act or omission of such Member (or officer, agent or representative of the Member) or officer (or employee) and amounts paid in settlement of any of the foregoing, to the fullest extent provided or allowed by the laws of the State of Michigan. The Company may advance to any such Person the costs of defending any claim, suit or action against such Person.

4.7 **Title to Company Property.** All real and personal property shall be acquired in the name of the Company and title to any property so acquired shall vest in the Company itself rather than in the Member.

**ARTICLE V**

**ACCOUNTING AND TAX MATTERS**

5.1 **Accounting Principles.** The Company’s financial statements shall be prepared and its profits and losses shall be determined in accordance with methods of accounting selected by the Member, which need not be the same as the method of accounting used for tax purposes.

5.2 **Returns and Other Elections.** The Member shall cause the preparation and timely filing of all tax returns required to be filed by the Company pursuant to the Code and all other tax returns deemed necessary and required in each jurisdiction in which the Company does business. All elections permitted to be made by the Company under federal or state laws shall be made by the Member in its sole discretion. So long as the Company has only one member, the Company shall be treated as a disregarded entity for income tax purposes.

**ARTICLE VI**

**TRANSFERS; ADDITIONAL MEMBERS**

6.1 **Transferability of Membership Interest.** The Member’s Interest in the Company is freely transferable or assignable, in whole or in part, either voluntarily or by operation of law.

6.2 **Admission of Additional Members.** Additional members of the Company may be admitted to the Company at the direction of the Member only if a new operating agreement or an amendment and restatement of this Agreement is executed by such additional member or members.
ARTICLE VII
DISSOLUTION AND LIQUIDATION

7.1 Dissolution.

(a) The Company shall be dissolved and its affairs wound up and terminated only upon the determination of the Member. The dissolution or bankruptcy of the Member or the occurrence of any other event that terminates the continued membership of the Member shall not cause a dissolution of the Company.

(b) Dissolution of the Company shall be effective on the day on which an event described in Section 7.1(a) above occurs, but the Company shall not terminate until articles of dissolution shall be filed with the Department of State of the State of Michigan and the assets of the Company are distributed as provided in Section 7.2 below. Notwithstanding the dissolution of the Company, prior to the termination of the Company, the business of the Company and the affairs of the Member shall continue to be governed by this Agreement.

7.2 Winding Up. Upon dissolution, the Company shall continue until the winding up of the affairs of the Company is completed and a certificate of dissolution has been filed pursuant to the Act. Upon the winding up of the Company, the Company’s property shall be distributed (a) first to creditors, including the Member if the Member is a creditor, to the extent permitted by law, in satisfaction of the Company’s liabilities, and (b) then to the Member. Distributions shall be in cash or property or partly in both, as determined by the Member.

ARTICLE VIII
MISCELLANEOUS PROVISIONS

8.1 Notices. Any notice, demand or communication required or permitted to be given by any provision of this Agreement shall be in writing and shall be deemed to have been delivered (a) two business days after being sent by registered or certified United States mail, or (b) upon delivery if hand delivered, sent via facsimile transmission or electronic mail. If delivered to the Member, such notice shall be delivered to his address as it appears in Section 4.1 above. If to the Company, such notice shall be delivered to its principal place of business.

8.2 Governing Law. This Agreement, and the application and interpretation hereof, shall be subject to and governed exclusively by its terms and by the laws of the State of Michigan, without regard to its conflicts of laws provisions.

8.3 Construction. Whenever the singular number is used in this Agreement and when required by the context, the same shall include the plural and vice versa, and the masculine gender shall include the feminine and neuter genders and vice versa. Unless expressly stated otherwise, Section and Article references herein shall refer to the Sections and Articles of this Agreement.

8.4 Waivers. No waiver by any party of the breach of any provision hereof shall be deemed to constitute a waiver of any continuing or subsequent breach of such provision or any other provision hereof.
8.5 **Severability.** If any provision of this Agreement or the application thereof to any Person or circumstance shall be invalid, illegal or unenforceable to any extent, the remainder of this Agreement and the application thereof shall not be affected and shall be enforceable to the fullest extent permitted by law, provided that the essential purpose of this Agreement is not frustrated.

8.6 **Heirs, Successors and Assigns.** The covenants, terms, provisions and agreements herein contained shall be binding upon, and inure to the benefit of, the parties hereto and, except as otherwise provided to the contrary, their respective heirs, executors, administrators, legal representatives, successors and permitted assigns.

8.7 **Entire Agreement.** This Agreement embodies the entire agreement and understanding between the parties hereto with respect to the subject matter hereof and supersedes all prior agreements and understandings relating to such subject matter.

[SIGNATURES APPEAR ON FOLLOWING PAGE]
IN WITNESS WHEREOF, the parties hereto have caused this Agreement to be signed as of the Effective Date.

STAFFING PLAN

Summary of Job Creation, Compensation and Budget

As discussed in detail below, we anticipate creating approximately 59 jobs at our Orion Township Cultivation Facility.

<table>
<thead>
<tr>
<th>Type of Marijuana Facility</th>
<th>Proposed Location</th>
<th>Total Jobs Per Facility</th>
<th>Expected Annual Payroll</th>
</tr>
</thead>
<tbody>
<tr>
<td>Cultivation Facility</td>
<td>Orion Township</td>
<td>59</td>
<td>$3,750,000.00</td>
</tr>
</tbody>
</table>

We pay our cultivation facility employees a minimum hourly wage of $15. We also provide a generous benefit package that includes the following:

- Health Insurance
- Paid Holidays
- Paid Time Off
- 401K Plan with 2% Match
- Performance Incentives

Out of our 3.75MM expected annual payroll, Tycoon | Operations expects to allocate $630,000 toward benefits for all full-time employees!

We intend to source our employees first from Orion Township, then into the surrounding regional area. Our job listings will always be listed in the Orion Township area first to accumulate as many qualified candidates as possible.

Attached is a table of the proposed positions at our Orion Cultivation Facility:

CHARTER TOWNSHIP OF ORION
ORDINANCE No. 154 APPLICATION REVIEW

Planning Commission Case:   PC-2021-23
Parcel Number:  09-35-477-001 & 09-35-477-002
Property Address:  180 Premier Drive
Applicant:  Tycoon I Operations LLC
Request: Excess Grow
Date: February 12, 2021

The aforementioned application was reviewed for compliance with the location requirements of Article VI of Ordinance No. 154 and the finds are detailed below:

Article V, 1. – The Facility must be located in the Township’s IP (Industrial Park) district: The parcels are zoned IP (Industrial Park) as required.

Article V, 2 – The Facility cannot be within one thousand five hundred (1,500) feet of a “church” in the Township: Article VI, 7 states that the distances specified in the Ordinance shall be measured from building edge to building edge. The applicant stated within their application that the facility is more than the required 1,500 feet. Using GIS, a measurement was taken from the edge of the property where the building is located (for simplicity vs. from edge of building which is further) to the edge of the closest church and it was over 1,600 feet.

Article VI, 3 – The Facility cannot be within two thousand (2,000) feet of a residence located in a R-1, R-2, R-3, SF, SE, SR, RM or MHP zoning district: Article VI, 7 states that the distances specified in the Ordinance shall be measured from building edge to building edge. The applicant stated within their application that the facility is more than the required 2,000 feet. Using GIS, a measurement was taken from the edge of the property where the building is located (for simplicity vs. from edge of building which is further) to the edge of the closest residential property line (for simplicity) and it was 2,500 feet.

Article VI, 4 – The Facility cannot be within two thousand five hundred (2,500) feet of a registered “school” within the Township: Article VI, 7 states that the distances specified in the Ordinance shall be measured from building edge to building edge. The applicant stated within their application that the facility is more than the required 2,500 feet. The closest school is over 2 miles from the parcel. (Scripps and Stadium Rds.)
Article VI, 5 – The Facility shall not have an ingress or egress on a street or road that has an average traffic volume in excess of six thousand (6,000) vehicles per day, as calculated by averaging the three (3) most recent Average Annual Daily Traffic (AADT) counts (as available), as reported by Southeast Michigan Council of Governments (SEMCOG): The building has ingress and egress off of Premier Drive. SEMCOG’s website does not contain any traffic count reports for Premier Dr.

Article VI, 6 - The Facility shall not have an ingress or egress on a street or road that directly also serves as an ingress or egress to a residential road or property located in a R-1, R-2, R-3, SF, SE, SR, RM or MHP zoning district. The building has both ingress or egress off of Premier Dr. Premier Dr. does not serve as an ingress and/or egress to any property located in a R-1, R-2, R-3, SF, SE, SR, RM or MHP zoning district.

Article VI, 7 - Distances specified in this Ordinance shall be measured from building edge to building edge. The measurements, unless noted differently, were measured from building edge to proposed building edge.

Article VI, 8 – If the Facility shall need a variance from what is set forth in Article VI Sections one (1) through six (6) above, the Applicant may submit a formal request for a variance to the Zoning Board of Appeals (“ZBA”). The ZBA shall only consider a variance request that is no more than fifteen percent (15%) out of compliance with the above location regulations: The applicant is not requesting any variances from the ZBA.

Article VI, 9 – It is the Township’s intention that Growers, Processors, Safety Compliance Facilities and Secured Transporters may operate within the same building under the following conditions: each licensed entity remains distinct and separate within different working area and separate record keeping systems: The applicant is requesting an Excess Grow - facility only.

Article VI, 10 – The location shall meet all applicable Ordinances and promulgated standards of the Township and, prior to opening, shall demonstrate to the Township that it meets the rules and regulations promulgated by the State Mariujana Regulatory Agency (MRA):

ITEMS TO BE ADDRESSED: These items are unknown at this time. It is recommended that any approval be conditioned upon this requirement.

Article VI, 11 – The Facility location shall conform to all standards of the zoning district in which it is located: This condition has been met. The building itself has received site plan approval.
Article VI, 12 – If the Facility location is currently vacant land, the applicant must submit a site plan and building plans with the Application. The application is for an improved parcel that has received site plan approval.

Article VI, 14 – Based upon an application for or amendment of a Conditional Rezoning, PUD, or other use Development Agreement of sufficient specificity, it is within the sole discretion and judgment of the Township Board of Trustees to consider and waive any or all of the Location Requirements of this Article VI based upon any or all of 3 factors listed in Article VI 14 a,b, and c.: The applicant is not requesting any waivers.

Summary: I have reviewed the application as it relates to Ordinance No. 154 Article VI – Location Requirements. I am agreeable with the recommendation to approve this application with the conditions that:

1. The applicant meets all other applicable Township Ordinances and promulgated standards of the Township and, prior to opening, shall demonstrate to the Township that it meets the rules and regulations promulgated by the State Mariujana Regulatory Agency (MRA).

Tamara Girling
Planning & Zoning Director
ORION ORDINANCE 154 INITIAL PERMIT APPLICATION
Ordinance 154, Licensed Marihuana Facilities Ordinance

Pursuant to the Charter Township of Orion Ordinance 154, Licensed Marihuana Facilities Ordinance, the following application is intended to collect information and documentation establishing the applicant’s conformance with the ordinance. All applicants should note that the approval of a Marihuana Permit will be based upon the accuracy and completeness of the information provided. In the event applications are received in excess of the permitted number of locations within the Ordinance or two or more applicants have similar qualifications, the Charter Township of Orion reserves its right to approve a permit which in the opinion of the Township best meets its goals and safeguards as set forth in the Ordinance. No financial or other right is established by the payment of the non-refundable application fee. All applications for renewal of a permit shall be reviewed per the standards set forth in the Ordinance. The Charter Township of Orion reserves the right to approve or deny the permit based upon the failure of any applicant to establish to the satisfaction of the Township any requirement, standard or goal of the Ordinance. The applicant understands this determination may involve a subjective interpretation of the application. Any permit granted by the Township is contingent upon the State of Michigan granting a state license for the specific license applied for under this ordinance.

5. If the Applicant or owner or any operator is a licensed caregiver under the Michigan Medical Marihuana Act, please list their name and address, and caregiver ID number issued by the State of Michigan.

6. For any corporation or other legal entity who has a financial interest or affiliation with the requested permit, please state the following:

- **Name:** Please see Organization Structure in Exhibit I
- **Name of Authorized Signer:** 
- **Address:** 
- **Interest or Affiliation:**

**SECTION B - FACILITY LOCATION**

7. **Name of proposed facility:** Oakland Business Park, Building B

8. **Location of proposed facility:** 180 Premier Drive

    Orion Charter Township, MI 48359
9. Please provide a preliminary floor plan sketch showing the location of all facility operations within an existing building, or for new construction a site plan for the parcel. Attach as Exhibit “A”
   ☒ Document(s) attached. If not attached, why not and when is applicant expected to supplement: ____________________________

10. With respect to the location of the facility, please state with specificity the exact location, address, suite number and, if necessary, the location of the facility within a building or the parcel of land. This location should include the distance in feet from each property line. Attach as Exhibit “B”
    ☒ Document(s) attached.
    If not attached, why not and when is applicant expected to supplement: ____________________________

11. Please provide evidence of the Applicant’s property interest in the proposed location. Provide copies of documentation showing a legal and enforceable property interest. Attach as Exhibit “C”.
    ☒ Document(s) attached.
    If not attached, why not and when is applicant expected to supplement: ____________________________

12. Please confirm and establish that the facility is located within the Township’s Industrial Park district (“IP”); is not within 1,500 feet of a church; is not within 2,000 feet of a residence located in the R-1, R-2, R-3, SF, SE, SR, RM or MHP Zoning Districts; is not within 2500 feet of a registered school and does not have ingress or egress on a street or road that has an average traffic volume in excess of 6,000 vehicles per day as calculated and reported by Southeast Michigan Counsel of Governments. Further, please show that the facility does not have an ingress or egress on a street or road that serves as an ingress or egress to a residential road or property located in a R-1, R-2, R-3, SF, SE, SR, RM or MHP Zoning District. For each of the above criteria, please attach any and all documents which will permit the Township to calculate compliance with the Licensed Marihuana Facilities Ordinance No. 154. At a minimum, provide a map showing the facility and measured distances (building edge to building edge). Attach as Exhibit “D”.
    ☒ Documents attached.
    If not attached, why not and when is applicant expected to supplement: ____________________________

a) Is the Facility located in the Township’s IP (Industrial Park District) zoning district?

    ☒ Yes
    ☐ No

1430
b) Is the Facility more than one thousand five hundred (1,500) feet of any church in the Township?

☑ Yes ☐ No

c) Is the Facility more than two thousand (2,000) feet of any residence located in an R-1, R-2, R-3, SF, SE, SR, RM, or MHP zoning district?

☑ Yes ☐ No

d) Is the Facility more than two thousand five hundred (2,500) feet of any registered school within the Township.

☑ Yes ☐ No

For 10-12 above, please provide a map showing the facility and measured distances (building Edge to building edge.)

e) Does the facility have an ingress or egress on a street or road that has an average traffic volume of six thousand (6,000) or less vehicles per day, as calculated by averaging the three (3) most recent Average Annual Daily Traffic (AADT) counts (as available), as reported by the Southeast Michigan Council of Governments (SEMCOG) per the site semcog.org/Traffic-Counts?

☑ Yes ☐ No

f) Does the Facility have an ingress or egress on a street or road that does not also serve as an ingress or egress to a residential road or property located in a TR-1, R-2, R-3, SF, SE, SR, RM, or MHP zoning district?

☑ Yes ☐ No

Name of Facility ingress/egress Street or road: Premier Drive

13. Please state whether the Applicant will seek a variance from the Zoning Board of Appeals pursuant to Article 6(8) of the Orion Licensed Marihuana Facilities Ordinance No. 154.

☐ Yes ☒ No

If variance will be sought, specify location category(s) pursuant to Art 6 (1)-(6):
For each category variance sought, state the percentage the applicant will seek: _____ %
(Not to exceed 15%)

SECTION C- FACILITY REQUIREMENTS

14. When available, submit to the Township a copy of the Applicant’s application for a license submitted to the State of Michigan, Department of Licensing and Regulatory Affairs, for each facility permit requested. Attach as Exhibit “E”.
   ☐ Document(s) attached.
   If not attached, why not and when is applicant expected to supplement: _______________
   Phase 2 application with the state of Michigan requires a permit and signed attestation from the municipality. We expect to submit our application with the state by 03/01/2021.

15. Is consumption and/or use of marijuana prohibited at the Facility?
   ☐ ☐ Yes ☐ No

16. Will all activity related to the Facility be done indoors?
   ☐ ☐ Yes ☐ No

17. Will all Marijuana contained within the building be in a locked Facility in accordance with the Michigan Medical Marihuana Act, MCL 333.26421 et seq., as amended (“MMMA”), the Michigan Medical Marihuana Facilities Licensing Act, MCL 333.27101, et seq., and the Michigan Regulation and Taxation of Marihuana Act, MCL 333.27951, et seq., as amended (“MRTMA”) as amended?
   ☐ ☐ Yes ☐ No

18. Please set forth an operations statement, plan and or outline showing that all facility activities shall occur indoors and in a building which is locked. Attach as Exhibit “F”
   ☐ Document(s) attached.
   If not attached, why not and when is applicant expected to supplement: _______________

19. Will all necessary building, electrical, plumbing and mechanical permits obtained for any portion of the structure in which electrical wiring, lighting and/or watering devices are located?
   ☐ Yes ☐ No 1432
20. When available and prior to the issuance of any permit, the Applicant must submit all necessary building, electrical, plumbing and mechanical permits, as well as documented approval by the Orion Fire department showing compliance with the Michigan Fire Protection Code and confirmation that the storage of any chemical, herbicide, pesticide and or fertilizer has also been approved by the Orion Fire Department. Attach as Exhibit “G”.
☐ Document(s) attached.
If not attached, why not and when is applicant expected to supplement: ____________________________

21. In any portion of the structure where the storage of any chemicals such as herbicides, pesticides, and/or fertilizers, do you agree to be subject to inspection and approval by the Orion Fire Department to ensure compliance with the Michigan Fire protection Code?

☐ Yes ☐ No

22. Will you ensure that no other uses, other than accessory uses, will be permitted within the same Facility other than those associated with cultivating, processing, transporting or testing marihuana?

☐ Yes ☐ No

23. Please state and/or provide documentation showing the plan that all litter and waste will be properly and safely removed and will not constitute a source of contamination in areas where marihuana is exposed. Further, please include how the applicant will dispose of rubbish so as to minimize the development of odor and minimize the potential for development of waste odor and waste from becoming an attracted, harborage or breeding place for pests. Please include a detailed description of the ventilation system. Attach as Exhibit “H”.
☐ Document(s) attached.
If not attached, why not and when is applicant expected to supplement: ____________________________

a) Will litter and waste be properly removed and the operating systems for waste disposal maintained in an adequate manner so that they do not constitute a source of contamination in areas where marihuana is exposed?

X Yes ☐ No

b) Will floors, walls and ceilings be constructed in such a manner that they may be adequately cleaned and kept clean and in good repair?

X Yes ☐ No
c) Will there be adequate screening or other protection against entry of pests, and will rubbish be disposed of so as to minimize the development of odor, minimize the potential for development of waste odor, and minimize the potential for waste becoming an attractant harborage or breeding places for pests?

☐ Yes  ☐ No

d) Will all buildings, fixtures and other facilities be maintained in a sanitary condition?

☐ Yes  ☐ No

e) Will each Facility center provide its occupants with adequate and readily accessible toilet facilities that will be/maintained in a sanitary condition and in good repair?

☐ Yes  ☐ No

24. Please state how the Applicant intends to avoid excessive noise, dust, vibrations, glare, fumes or odors detectable to the normal senses beyond the boundaries of the property. Attach as Exhibit “I”.

☑ Document(s) attached.
If not attached, why not and when is applicant expected to supplement: ____________________________

25. Please provide the plan and supporting documentation showing that all disposal systems for spent water and spent soil have been adequately and safely disposed of and accounted for.

Attach as Exhibit “J”.

☑ Document(s) attached.
If not attached, why not and when is applicant expected to supplement: ____________________________

26. Please provide a security and safety plan, and at a minimum showing the facilities surveillance systems and continuous monitoring systems of the entire premise as required by the ordinance.

Attach as Exhibit “K”.

☑ Document(s) attached.
If not attached, why not and when is applicant expected to supplement: ____________________________
a) Will the Facility continuously monitor the entire premises with surveillance systems that include security cameras operating 24 hours a day, 7 days a week, every day of the year, and will these recordings be maintained for a period of at least 30 days?

☑ Yes □ No

27. Please state and/or show the exterior signage or advertising identifying the facility. Attach as Exhibit “L”.
☑ Document(s) attached.
If not attached, why not and when is applicant expected to supplement: ____________________________
The facility will only show the numbers associated with its address ____________________________

a) Do you understand and agree that any exterior signage or advertising identifying the Facility as a marihuana facility is prohibited?

☑ Yes □ No

SECTION D- BUSINESS OPERATIONS AND SECURITY

28. Active business operations shall not be open outside of the hours of 7am and 9pm.

A. & B. Facility Floor Plan
C. Lease Agreement
COMMERCIAL LEASE

This lease (the Lease), is entered into on November 1, 2020, between Premier Drive Tycoon I, LLC, with an address at 1615 S Telegraph Rd, Bloomfield Hills, MI (Landlord), and Tycoon I Operations, LLC (Tenant) on the terms and conditions listed below.

1. Description of the Premises. Landlord owns the real property, improvements and any and all structures thereon located at 180 Premier Drive, Orion Township, MI 48359 ("Premises"), consisting of approx. 72,000 square feet. Tenant shall have the right to use the Premises to conduct its daily business operations and for any ancillary or related purposes including the operation of a marihuana business.

2. Basic Lease provisions. The basic Lease provisions are stated below and further explained in the section referenced to the right of each provision:

(a) Term: 10 years (See §3)
(b) Commencement Date: February 1, 2021 (See §3)
(c) Termination date: October 31, 2030 (See §3)
(d) Options: 1 option to renew for additional 10 years (See §3)
(e) Monthly installment amount: $75,000 or $12.50; per square foot; (See §4)
(f) Security deposit: $75,000.00 (See §5)
(g) Use: Tenant’s desired business operation (See §10)

3. Term. This Lease shall be for a term stated in section 2(a) commencing on the date stated in section 2(b) (the Commencement Date) and terminating on the date stated in section 2(c). The rent for the first month shall be prorated from date of occupancy, if the date of occupancy is after the first day of the month. Each succeeding lease year shall begin on the anniversary of the same date and continue until the termination of the Lease.

Provided that Tenant is not in default under this Lease at the end of the then current Lease term, Tenant shall have the right to renew the term of this Lease for the option period stated in section 2(d) by giving Landlord written notice of Tenant’s intent to renew the Lease at least 120 days before the expiration of the then current term. The renewal shall be on the same terms and conditions as in this Lease, except that the minimum rent for each renewal term shall be increased by a percentage equal to the percentage increase in the Consumers Price Index (Bureau of Labor Statistics Washington, D.C., all Cities) (CPI) during the preceding term. The percentage increase shall be determined by comparing the latest available CPI before the Commencement Date of the Lease or the prior term, whichever shall apply, and the latest available CPI on or before the expiration of the immediately preceding initial or renewal lease term. The word “term” as used in this Lease shall include any renewal term.

4. Minimum rent. Tenant shall pay to Landlord as rent the sum stated in section 2(e), payable in monthly installments due in advance, on the first day of each month during the term of this Lease. All rent shall be paid to Landlord at the address set forth above or at such other address as Landlord may designate in writing, without any prior demand and without any deduction or offset.

If Tenant shall fail to pay any amount due from it to Landlord under this Lease when that amount shall be due, a one-time late charge of $50.00 shall be assessed and thereafter the amount of rent not paid shall be subject to a service charge until that amount is paid at the lesser of the rate of 5% per month or the highest rate permitted by law.
5. Security deposit. Tenant, contemporaneously with the execution of this Lease, has deposited with Landlord the sum stated in section 2(f) as a security deposit. The deposit shall be held by Landlord, without liability for interest, as security for the faithful performance by Tenant of all the terms, covenants, and conditions of this Lease to be kept and performed by Tenant during the term of this Lease.

If Tenant fails to keep and perform any of its covenants of this Lease, Landlord at its option may appropriate and apply the entire deposit, or so much as may be necessary, to compensate Landlord for loss or damage sustained by Landlord due to Tenant’s breach. If the entire deposit or any portion is appropriated and applied by Landlord for the payment of overdue rent or other sums due and payable to Landlord by Tenant, Tenant shall, on the written demand of Landlord, forthwith remit to Landlord a sufficient amount in cash to restore the security to the original sum deposited. Tenant’s failure to do so within 5 days after receipt of demand shall constitute a breach of this Lease.

6. Taxes. Tenant shall pay or cause to be paid all real property taxes and special assessments levied against the Building including the Premises. Tenant shall pay all personal property taxes assessed against any personal property owned by Tenant on the Premises.

7. Maintenance and repair. Tenant shall maintain and repair and keep the Premises in good condition and repair, including the exterior windows and the electrical system. Landlord shall, at tenants expense, make all other repairs and replacements to the Building, including those of a structural or capital nature. Landlord shall, at tenants expense, enter into an annual maintenance contract with a licensed heating and mechanical firm for the maintenance of the heating and air conditioning equipment during the term. Landlord shall be obligated to make repairs only after Tenant has given Landlord written notice of the need for the repair, and only if the repair was not caused by the negligence or willful act of Tenant, its agents, employees, invitees, or licensees.

Tenant shall provide and pay for its own regular janitorial service to maintain the Premises in a neat and clean condition. Tenant shall be responsible for all repairs or replacements to the Building occasioned by the negligence or willful act of Tenant, its agents, employees, invitees, or licensees.

8. Utilities. Tenant shall have all utilities servicing the Premises metered in its own name and shall pay all charges and deposits for the utilities provided to or used in the Premises during the term of this Lease. Tenant shall also pay 100% of the water and sewer bill. Landlord shall not be liable in damages should the furnishing of any utilities be interrupted by fire or other casualty, accident, strike, labor dispute or disagreement, the making of any necessary repairs or improvements, or any other causes beyond the reasonable control of Landlord.

9. Liability insurance. Tenant shall indemnify Landlord and save Landlord harmless from any liability or claim for damages that may be asserted against Landlord by reason of any accident or casualty occurring on or about the Premises. Tenant shall, at its own cost and expense, obtain and keep in force a policy or policies of public liability insurance with an insurance company approved by Landlord, with liability coverage of an amount as recommended by Landlord’s insurance agent that, for the initial coverage, shall be not less than $1 million for injury or death to any one person, $3 million for injury or death to more than one person, and $500,000 regarding damage to property. Tenant shall furnish Landlord with certificates or other evidence acceptable to Landlord indicating that the insurance is in effect and providing that Landlord shall be notified in writing at least 30 days before cancellation of any material change in or renewal of the policy. All insurance policies shall name Landlord and any persons designated by Landlord as insured parties.

Any insurance maintained by either party pursuant to this section or under this Lease shall contain a
clause or endorsement under which the insurer waives all rights of subrogation against the other party, its agents or employees, regarding losses payable under the policy.

Any personal property kept on the Premises by Tenant shall be at Tenant’s sole risk.

10. Use. Tenant shall use and occupy the Premises for the purpose stated in section 2(g) and for no other purpose without the prior written consent of Landlord. Tenant shall not intentionally and knowingly use the Premises for any purpose or in any manner in violation of any State law, local ordinance, rule or regulation adopted or imposed by the City in which the Premises is situated. Tenant shall not deface or injure the Premises or the Building, permit anything to be done on the Premises tending to create a nuisance or to disturb other tenants in the Building, or permit any activity in the Premises that will result in an increase of any premium, or cancellation of a policy, for insurance on the Premises or the Building.

11. Construction of leasehold improvements. Landlord grants Tenant express consent to construct certain leasehold improvements as may be required for Tenant’s use. The cost of Tenant’s leasehold improvements shall be paid for by Tenant. The improvements shall be constructed in a good and workmanlike manner.

12. Operations. Tenant’s operations in conjunction with the Premises shall meet the requirements set forth below.

a. Tenant shall keep all garbage and refuse in the kind of container specified by Landlord. If Landlord shall provide or designate a service for picking up refuse and garbage, Tenant shall use the same at Tenant’s cost. Tenant shall pay the cost of removal of any of Tenant’s refuse or rubbish.

b. Tenant shall keep the Premises at a temperature sufficiently high to prevent freezing of water in any pipes and fixtures.

c. Tenant shall keep the outside areas immediately adjoining the Premises clean and free from dirt and rubbish to the satisfaction of Landlord, and Tenant shall not place or permit any obstructions or merchandise in those areas. Tenant shall water and maintain any flowers, shrubs, and trees located immediately adjoining the Premises.

d. Tenant shall only store and/or stock in the Premises goods, wares, and merchandise that Tenant intends to offer for sale at retail.

e. Tenant shall conduct its business in the Premises in a dignified manner and in accordance with high standards of store operation.

13. Restrictions on Tenant’s activities. Without Landlord’s written consent, Tenant shall not engage in the activities listed below.

a. Tenant shall not operate all or any part of its business in the Premises in any manner that is inconsistent with its intended use of the Premises.

b. Tenant shall not conduct any auction, fire, going-out-of-business, or bankruptcy sales in the Premises.

c. Tenant shall not operate or permit to be operated on the Premises any coin or token operated vending machines or similar devices for the sale of goods, wares, merchandise, food, beverages, or service,
including, without limitation, pay telephones, pay lockers, scale, and amusement devices without Landlord’s prior written consent.

d. Tenant and Tenant’s employees and agents shall not solicit business in the parking or other common areas of the Building, nor shall Tenant or its employees or agents distribute any handbills or other advertising matter in or on automobiles parked in the parking area or in other common areas without Landlord’s prior written consent.

e. Tenant and its employees and agents shall not park any vehicle on the Building land except in areas that are designated by Landlord for that use.

14. Assignment and subletting. Tenant agrees not to sell, assign, mortgage, pledge, or in any manner transfer this Lease or sublet the Premises or any portion of the Premises without the prior written consent of Landlord. Notwithstanding any assignment or subletting, Tenant shall remain fully liable on this Lease. Landlord’s right to assign this Lease is and shall remain unqualified. On any transfer of Landlord’s interest in the Premises in which the purchaser assumes all obligations under this Lease, Landlord shall be free of all obligations of Landlord under this Lease and shall not be subject to any liability resulting from any act or omission or event occurring after the conveyance. Tenant agrees to recognize the transferee as Landlord, and Tenant further agrees, at Landlord’s request, to execute and deliver such documents and estoppel letters as Landlord may request to assist in that transfer.

15. Estoppel letter. On not less than 10 days’ prior written notice from Landlord, Tenant shall sign and deliver to Landlord an estoppel letter that

a. certifies that this Lease is unmodified and in full force and effect (or, if modified, states the nature of the modification and certifies that this Lease, as so modified, is in full force and effect);

b. acknowledges that there are no, to Tenant’s knowledge, any uncured defaults on the part of Landlord or specifying the default if any are claimed;

c. certifies the date to which all forms of rent have been paid; and

d. certifies the amount, if any, of the security deposit paid to Landlord.

Tenant’s failure to deliver such an estoppel letter within the 10 days shall be conclusive on Tenant that

a. this Lease is in full force and effect, without modification except as may be represented by Landlord;

b. there are no uncured defaults in Landlord’s performance;

c. not more than one month’s rent has been paid in advance; and

d. no security deposit has been paid except as may be represented by Landlord.

16. Acceptance of Premises. The occupancy by Tenant of the Premises shall constitute an acknowledgment by Tenant that the Premises are then in the condition called for by this Lease.

17. Damage or destruction. If, during the term of this Lease, the Premises shall be partially or totally destroyed by fire or other casualty covered by insurance so as to become partially or totally untenantable,
the same shall be repaired as promptly as possible with the insurance proceeds unless this Lease is terminated. In the event of damage or destruction, if this Lease is not terminated, the rent shall be abated proportionately to the loss of use suffered by Tenant.

If, during the term of this Lease, the Premises shall be partially or totally destroyed by fire or other casualty, and the cost of restoring the Premises to its condition prior to the damage shall equal or exceed 40 percent of its fair replacement value immediately prior to the damage, or if the Premises are damaged by any casualty not insured against by Landlord, Landlord shall have the right to terminate this Lease by giving Tenant written notice of its election to do so within 15 days after the date on which the damage occurs. On the giving of notice, the Lease shall terminate as of the date on which damage occurred and the rent shall be adjusted to that date. In default of notice by Landlord, this Lease shall continue and Landlord shall cause the Premises to be repaired or restored with due diligence.

18. Condemnation. If the whole or any part of the Premises shall be taken by any public authority under the power of eminent domain, the term of this Lease shall cease on that part to be taken from the day the possession is acquired by the public authority and the rent shall be paid up to that date. If the portion of the Premises taken substantially impairs the usefulness of the Premises for the purpose for which the Premises were leased, Tenant shall have the right either to terminate this Lease or to continue in the possession of the remainder of the Premises under the terms and conditions of this Lease except that the rentals shall be reduced in proportion to the amount of the Premises taken, and in the latter event, Landlord shall promptly restore the remainder to a reasonably tenantable condition. All damages awarded for the taking shall belong to and be the property of Landlord.

19. Alterations and signage. No improvements, alterations, additions, or physical changes shall be made on the Premises by Tenant without the prior written consent of Landlord.

Tenant agrees that it will not place or maintain on any exterior door, wall, or window of the Premises any signs, awning or canopy, or advertising matter, or other thing of any kind and will not place or maintain any decoration, lettering, or advertising matter on the glass of any window or door of the Premises that is not in conformity with all applicable governmental rules and regulations and the rules and regulations of the Building as set forth by Landlord and further, without first obtaining Landlord’s prior written approval. Tenant further agrees to maintain such sign, awning, canopy, decoration, lettering, advertising matter, or other thing as may be approved in good condition and repair at all times. Tenant further acknowledges that Landlord may, at its option, regulate the lettering size, style, and color of Tenant’s sign so that all signs in the Building are of a like size, color, style of lettering, and like material. Tenant agrees that it will conform its sign to that as regulated by Landlord for the general use in the Building, regardless of how and in what manner Tenant normally designs its name for use in its sign and further regardless of whether or not Tenant uses the form and style of its sign as a trademark.

All alterations and improvements, but not moveable equipment and trade fixtures, put in at the expense of Tenant shall be the property of Landlord and shall remain on and be surrendered with the Premises at the termination of the Lease; provided, however, that Landlord may require that Tenant remove the alterations and improvements and repair any damages to the Premises caused by the removal.

20. Remedies and default. If Tenant shall default in the payment of any sums to Landlord when due and shall not cure such default within 7 days; or if Tenant shall default in the performance of any other covenant or condition of the Lease and shall not cure such other default within 30 days after written notice from Landlord specifying the default; or if Tenant or its agent shall falsify any report to be furnished to Landlord pursuant to the terms of this Lease; or in case Tenant shall be adjudicated a bankrupt or make any assignment for the benefit of creditors; then, in any such event, Landlord may
either (a) accelerate the full balance of the rental payable for the remainder of the term and sue for such sums or Landlord may terminate this Lease or (b) reenter the Premises, without terminating this Lease, and dispossess Tenant or any other occupant of the Premises and remove Tenant’s effects and relet the same for the account of Tenant for such rent and on such terms as shall be satisfactory to Landlord, crediting the proceeds, first to the costs and expense of reentry, alterations and additions, and the expense of reletting, and then to the unpaid rent and the other amounts due during the remainder of the term. Tenant shall remain liable to Landlord for any unpaid balance.

In case suit shall be brought for recovery of possession of the Premises, for the recovery of any rent or any other amount due under the provisions of this Lease, or because of the breach of any other covenant on the part of Tenant to be kept or performed, and a breach shall be established, Tenant shall pay to Landlord all expenses incurred, including reasonable attorney fees, which shall be deemed to have been incurred on the commencement of the default and shall be enforceable whether or not the action is prosecuted to judgment.

21. Access to Premises. Landlord shall have the right to enter on the Premises at all reasonable hours to inspect and for access to the Premises to install, maintain, use, repair, and replace pipes, ducts, lights, conduits, plants, wires, floor coverings, and all other mechanical equipment serving the Premises.

22. Rules and regulations. Landlord reserves the right to adopt from time to time rules and regulations for the operation of the Building that are not inconsistent with the provisions of this Lease. Tenant and its agents, employees, invitees, and licensees shall comply with all those rules and regulations. Any such rules shall not dictate the days or time of business operation.

23. Waiver. The failure of Landlord to insist on a strict performance of any of the terms, covenants, or conditions of this Lease or rules and regulations of the Building shall not be deemed a waiver of any subsequent breach or default in the terms, covenants, and conditions or rules and regulations. This Lease may not be changed, modified, or discharged orally.

24. Notices. All notices required under this Lease shall be in writing and shall be deemed to have been given if either delivered personally or mailed by certified or registered mail to Landlord or to Tenant at their respective addresses set forth above or to such other address as either party may furnish in writing during the term of this Lease.

25. Quiet enjoyment. Landlord covenants and agrees with Tenant, its successors, and assigns that on Tenant’s paying the rent and observing and performing all the terms, covenants, and conditions on Tenant’s part to be performed and observed, Tenant may peaceably and quietly hold, have, occupy, possess, and enjoy the Premises for the full term of this Lease.

26. Subordination to mortgage. Any mortgage now or hereafter placed on the Premises shall be deemed to be prior in time and senior to the rights of Tenant under this Lease. Tenant subordinates all of its interest in the leasehold estate created by this Lease to the lien of any mortgage. Tenant shall, at Landlord’s request, execute any additional documents necessary to indicate this subordination including, if requested, an estoppel letter as set forth in section 15. If Tenant fails to supply the estoppel letter, the provisions in section 15 to cover that failure shall apply. Notwithstanding the foregoing, Tenant’s possession of the Premises under this Lease shall not be disturbed by any mortgagee, owner, or holder of note secured by a mortgage placed on the Premises, unless Tenant shall breach any of the provisions of this Lease and the lease term of Tenant’s right to possession shall have been lawfully terminated in accordance with the provisions of this Lease.
27. **Building revisions by Landlord.** Landlord reserves the absolute right at any time and from time to time to make changes or revisions in the Building, including such changes to the parking lot, driveways, signs, and sidewalks, by making additions to, subtractions from, or rearrangements of the improvements in the Building, as long as the revisions do not materially affect Tenant’s use of the Premises.

28. **Holding over.** If Tenant remains in possession of the Premises after the expiration or termination of the Lease, it shall be deemed to be occupying the Premises as a tenant from month to month, subject to all the conditions, provisions, and obligations of this Lease insofar as the same can be applicable to month-to-month tenancy, except that the rent shall increase to 2 times the rent owing at the end of the lease term. The month-to-month tenancy shall be cancelable by either party on 30 days’ written notice to the other.

29. **Recording.** Tenant shall not record this Lease without the written consent of Landlord; however, on the request of either party the other party shall join in the execution of a memorandum or so-called “short form” of this Lease for the purpose of recordation. The memorandum or short form of this Lease shall describe the parties, the Premises, and the term of this Lease and shall incorporate this Lease by reference.

30. **Captions and headings.** The captions and headings used in this Lease are intended only for convenience and are not to be used in construing this Lease.

31. **Applicable law.** This Lease shall be construed under the laws of the state of Michigan. Venue for any disputes under this agreement shall lie in Oakland, Michigan. If any provision of this Lease or the application to any person or circumstances shall, to any extent, be invalid or unenforceable, the remainder of this Lease shall not be affected and each provision of this Lease shall be valid and enforceable to the fullest extent permitted by law.

32. **Successors.** This Lease and the covenants and conditions shall inure to the benefit of and be binding on Landlord, its successors, and assigns and shall be binding on Tenant and permitted assigns of Tenant.

33. **Effective date.** The parties have caused this agreement to be signed and shall be effective as of the day and year first above written.

*(signature page to follow)*
IN WITNESS WHEREOF, the parties have respectively signed and sealed this Lease as of the day and year first above written.

F. Operations Plan
Tycoon I Operations, LLC

Business & Operations Plan

PREAMBLE:
Tycoon I Operations, LLC ("Applicant") will strictly comply at all times with applicable state law and local ordinance codes, including rules and emergency rules that may, from time to time, be promulgated by the state or Orion Township. **All business activities will take place indoors in a locked facility.** Applicant has retained a law firm with established expertise in Michigan marihuana law to ensure continuing education and compliance with the laws as they evolve. The statements made in this application are made with a clear and thorough understanding of state and local requirements as they exist on the date of application, but the operations of Applicant will be amended to comply with all future derivations of the state and municipal laws.

I. OVERVIEW
Applicant is a Michigan limited liability company formed to operate twenty four (24) commercial marihuana **GROWER (Class C)** facilities whose primary mission is to provide a source of high-quality marihuana to processors and provisioning centers across the state of Michigan.

II. ADMINISTRATION
   A. Location & Zoning
      i. Buffers
         a. The distances described are measured horizontally between the nearest property lines.
         b. The facility is not within 1,000 feet of any educational institution or school, college or university, church, house of worship or other religious facility, licensed child care, preschool, public library, or public or private park.
      ii. Applicant is leasing the property pursuant to the attached lease and the owner/lessor of the property authorizes the use of the property as a marihuana facility in the lease agreement, which is attached.

   B. Organizational Structure
      i. The Applicant is organized as a Michigan limited liability company and is in good standing.
      ii. The members, owners, directors, officers, and managers of the Applicant are listed in the Organization Structure.
iii. The members, owners, directors, officers, and managers of Applicant meet all eligibility requirements to own and operate a marihuana grower facility as set forth in state law and local ordinance.

   a. No member, owner, director, officer, manager or any person having an ownership interest in the application has an interest in a secure transport facility license or a safety compliance facility license.

   b. The Applicant meets all eligibility requirements to own and operate a marihuana grower facility as set forth in state law and local ordinance.

iv. The Applicant has never applied for been granted any commercial license or certificate issued by a licensing authority in Michigan or any other jurisdiction that has been denied, restricted, suspended, revoked or not renewed.

C. Permits & Licenses

i. This Business and Operations Plan is submitted as an addendum to the applications for Ten Orion Township permits to operate a business and the Orion Township special use/site plan application.

ii. All operations in this Business and Operations Plan will comply with regulations issued by the Department of Licensing and Regulatory Affairs (LARA).

iii. Applicant intends to apply for, obtain, operate, and comply with a state license to operate a grower facility under the MMFLA and MRTMA.

iv. The business will not open for operation until it receives a state license to operate under the MMFLA and MRTMA and all applicable permits and licenses from Orion Township.

v. Upon granting of a permit to operate a grower facility, Applicant will prominently display the original Orion Township permit at the Permitted Premises in a location where it can be easily viewed by the public, law enforcement, and administrative authorities.

vi. At all times the facility will hold a valid local Permit and State Commercial Marihuana Facility License for a Grower.

vii. In addition to complying with the Orion Township Ordinance Authorizing and Permitting Commercial Marihuana Facilities, Applicant will comply with all Township Ordinances, including without limitation, the Township Zoning Ordinance, as well as the requirements of the County Road Commission, County
Building Inspector, County Drain Commissioner, District Health Department, Soil Erosion Officer, County Conservation Service, areas fire departments, Michigan Department of Natural Resources, Michigan Department of Environmental Quality, and any other applicable township, county, state and federal statutes.

viii. Applicant will have available, at all times, documentation that local and State sales tax requirements, including any requirement for a license, are satisfied.

ix. Applicant will provide updated operational and security plans to Orion Township upon request and prior to any proposed changes in its operations.

D. Inspections

i. Applicant will provide access to the facility for inspection to any federal, state, or local law enforcement officer to ensure compliance with the permit.

ii. Applicant consents to inspections as required in the MMFLA and pursuant to the Orion Township ordinance.

III. OPERATIONS

Applicant proposes 24 state-licenses in a single marihuana grower facility for the cultivation, drying, trimming, curing, and packaging of marihuana for sale to a processor or provisioning center pursuant to the requirements and restrictions of the Marihuana Facilities Licensing Act, PA 281 of 2016, and all future derivations thereof. This facility will be located in a secure industrial facility.

A. Compliance with State Regulations

Applicant will meet all operating regulations established by LARA and the Marihuana Licensing Board for Growers, including without limitation, any standards, procedures, and requirements for:

i. quality control
ii. chain of custody
iii. marihuana storage
iv. waste disposal
v. labeling and packaging
vi. storage of chemicals

B. Description of the Facility

Applicant's facility will be used exclusively for the cultivation, drying, trimming, curing, and packaging of legal usable marihuana for sale to processors or provisioning centers.

C. Entry to Facility

Generally, the public will not be allowed entry to the facility. Notwithstanding the forgoing, Applicant will not allow entry to the facility to anyone under the age of 18.
D. Employees
Applicant anticipates having between fifteen (15) and (65) full and part-time employees, as many as possible of whom will be local community residents. None of Applicant’s employees will be registered primary caregivers during the employment with Applicant. Please reference the staffing plan for a detailed list of potential positions.

E. General Policies
i. Applicant will only sell or transfer marihuana to a processor or provisioning center.

ii. Applicant will only use secure transporters in the distribution or exchange of marihuana or currency with processors or provisioning centers.

iii. Applicant will not promote the unlawful use of marihuana or any other drug or provide or otherwise make marihuana available to any person who is not legally authorized to receive Marihuana under state law.

iv. No owner, the Applicant, or any employee of Applicant will grow marihuana in the Permitted Premises for his or her own use.

v. The following activities are prohibited on the Permitted Premises:
   a. the sale, consumption, or use of alcohol, or controlled substances;
   b. smoking or consumption of marihuana.

F. Cultivation Plan
i. Propagation
   a. Lighting
   b. Watering
   c. Nutrient Application
   d. Integrated Pesticide Management

ii. Harvesting and Trimming

iii. Drying and Curing

iv. Packaging

v. Distribution
   a. All marihuana products will be validated from a verified transport manifest, created from the statewide monitoring system. The manifest includes a detailed form with the number of packages and detailed content for confirmation/validation with secure transporters and purchasers of the shipment (processors or provisioning centers).
   b. Each transport shipment will be processed in the following manner:
      1. Entry of shipped inventory into the statewide monitoring system.
      2. Confirmation with Secure Transporter of valid and verified transport manifest, including product count, weight of each package or item
c. State certified scales will be used to verify and weigh all marihuana, in whatever form.

G. Inventory Management
i. Applicant will not control or have on the Permitted Property an amount of marihuana plants or usable marihuana that exceeds any amount permitted by the state License or the Township permit.

ii. Tracking and Monitoring
Applicant will use a third-party inventory control and tracking system to interface with the statewide monitoring system. The third-party inventory control and tracking system will have the capabilities necessary to comply with the requirements applicable to a grower licensee:

a. Track all marihuana plants and packages;
b. Track lot and batch information throughout the entire chain of custody;
c. Track transportation of product;
d. Track marihuana waste;
e. Track all marihuana product transfers;
f. Track sales and returns;
g. Track marihuana plant, batch, and product destruction;
h. Perform batch recall tracking;
i. Report and track loss, theft, or diversion of marihuana products;
j. Receive testing results electronically from a safety compliance facility;
k. Provide access to state agencies and law enforcement as required;
l. Report all inventory discrepancies.

iii. Applicant will enter all transactions, current inventory, and other information into the statewide monitoring system as required by the MMFLA, the Marihuana Tracking Act, and any associated regulations.

iv. Inventory reconciliation - At the end of each day, physical inventory counts will be reconciled with the third-party inventory control and tracking system.

v. Returns

H. Quality Control
i. Sampling (by Licensed Safety Compliance Facility)

ii. Batch Testing (by Licensed Safety Compliance Facility)

iii. Transport to Safety Compliance Facility (by Secured Transporter)

I. Signage and Advertising
i. Applicant has no proposed signage at this time, but will amend this plan accordingly and provide the township with its sign permit application if and when it does wish to propose signage.

ii. Applicant will not display pictures, photographs, drawings or other depictions of Marihuana or Marihuana Paraphernalia on the outside of the Permitted Premises, nor will such pictures, photographs, drawings, or other depictions of Marihuana or Marihuana Paraphernalia be visible outside of the Permitted Premises on the Permitted Property.

iii. The words "Marihuana, "or "cannabis," and any other words, used or intended to convey the presence or availability of Marihuana will not appear on the outside of the Permitted Premises, nor will "Marihuana, "or "cannabis," and any other words, used or intended to convey the presence or availability of Marihuana be visible outside of the Permitted Premises on the Permitted Property.

J. Visibility of activities
   i. All activities of the facility, including without limitation, the cultivation, harvesting, trimming, drying, curing and packaging of Marihuana, and all other related activity permitted under Applicant’s License or Permit will occur indoors.

   ii. No marihuana or paraphernalia shall be displayed or kept in the facility so as to be visible from outside the Permitted Premises.

K. Security
   i. Plan
   Applicant will maintain, at all times, a centrally-monitored security and alarm system on the premises that meets or exceeds state regulatory requirement.

   Applicant will maintain policies and procedures to include:

   a. Regular drills of the security protocols and emergency plans;
   b. Controlled and restricted access to the Permitted Property and Permitted Premises to employees, agents, and owners of Applicant, and law enforcement or state or local authorities as necessary to ensure Applicant’s compliance with state and local laws.
   c. Internal and external cameras with 24-hour monitoring and off-site recording;
   d. Installed panic buttons
   e. Limitations on the amount of currency and marihuana stored onsite;
   f. Cooperation and coordination with local law enforcement;
   g. Permitted premises will only be able to be accessed through a combination of security locks and access codes; and
   h. The ability to remain operational during a power outage with battery back-up.

   ii. Security Surveillance Cameras
Security surveillance cameras will be installed to monitor all entrances, along with the interior and exterior of the premises, which will capture all areas of the property unless otherwise prohibited by law, including unobstructed video surveillance of all enclosed areas, unless prohibited by law, including all points of entry and exit that shall be appropriate for the normal lighting conditions of the area under surveillance.

iii. Security Recordings and Documentation
   a. All security recordings and documentation will be preserved for at least 30 days and made available upon request by any law enforcement.

iv. Robbery and Burglary Alarm System
Applicant will employ an alarm system that meets state requirements and obtains state approval. Specifically,

   a. Applicant will employ a centrally alarmed and monitored security system that will be monitored 24 hours a day, 7 days a week for the Permitted Premises pursuant to the attached service agreement.
   b. There will be a perimeter alarm on all entry points and perimeter windows of the Permitted Premises
   c. A failure notification system will provide an audible, text, or visual notification of any failure in the surveillance system. A panic button and alarm will directly notify the local law enforcement agency having primary jurisdiction.

v. Storage of Marihuana and Currency
   a. Applicant will store usable marihuana that is not otherwise in the process of being dried, trimmed, cured, packaged, or distributed including packaged and un-packaged usable marihuana, and currency in a secured locked safe that is permanently affixed to the premises.

L. Ventilation Plan/Air Filtration System
   i. Applicant’s facility operation and design will provide sufficient measures and means to minimize any impact to adjacent uses, including the control of odor by maintaining and operating an air filtration system so that no odor is detectable outside the Permitted Premises.

   ii. Applicant’s equipment and methods to control odor include a comprehensive air filtration system, consisting of
       a. Activated Carbon Filters.
       b. Heavy Duty Ventilation Fans.

   iv. Details and specifications of the equipment used for Applicant’s ventilation and air filtration plan are attached.
v. The total enclosed space in which harvested marihuana will be stored amounts to approximately 300 sq. feet. Applicant will use an advanced filtration system rated appropriately for the area.

vi. The air filtration system will be maintained in working order at all times and will be in use at all times. Filters will be changed a minimum of once every 365 days.

vii. In addition to the use of an air filtration system, Applicant will mitigate odors by keeping doors and windows closed at all times, except the minimum amount of time needed to allow ingress and egress to the building.

M. Toxic/Flammable/Hazardous Materials
   i. Applicant’s use of toxic, flammable, or other harmful, hazardous, or combustible materials will be limited to plant nutrients and pesticides and cleaning products. The facility may use the following nutrients and pesticides:

   a. CocoTech Bloom A
   b. CocoTech Grow A
   c. CocoTech Premier Nutrient
   d. FloraBloom Nutrient System
   e. FloraGrow Nutrient System
   f. Golden Tree Plant Food.
   g. Nutra Green 5-10-5 plus Micronutrients Foliar Spray
   h. Diatomaceous Earth
   i. Neem Oil
   j. PyGanic Pro Pymethrin 5% MGK Miticide

   ii. The facility may use the following commercial cleaning products, along with the following household products: materials regulated by government agencies:

   a. Ultra Dawn Lemon Dish Soap
   b. Nature’s Source Toilet Bowl Cleaner
   c. Fantastik Antibacterial Heavy Duty All Purpose Cleaner
   d. Windex Original Glass Cleaner
   e. Novo Foaming Instant Hand Sanitizer
   f. QuickSan Food Contact and Surface Sanitizer

   iii. The materials will be stored in secured and ventilated cabinets. All combustible or reactive materials will be stored separately.

   iv. Materials will be handled, stored, and disposed according to specifications in each Material Safety Data Sheet.
N. Waste Product Disposal
Applicant will dispose of unusable or waste marihuana in accordance with the MMFLA, MRTMA, and applicable local ordinance guidelines to prevent the waste marihuana from being possessed or ingested by any person and animal.

i. Applicant’s current, preliminary waste disposal plan consists of shredding and grinding damaged and unusable plants, roots, seeds, stalks and harvested marihuana and mixing it with one of several lawful over-the-counter products, such as sawdust or cat litter to render it unusable, unrecognizable, and unpalatable, and then discarding in secured bags as part of its solid waste disposal.

ii. The State of Michigan’s Marihuana Licensing Board may require or suggest as a part of its regulations, expected sometime in November, one or more alternative waste disposal options including, but not limited to, waste disposal through the secured transporter system, waste mitigation through THC extraction methods (rendering the marihuana waste product inert) or some other method. Applicant warrants that it will comply with all state and local requirements as to waste disposal, but further commits to its current preliminary plan to render all marihuana waste unrecognizable, unusable and inaccessible regardless of state or local requirements.

IV. COMMUNITY RESPONSIBILITY AND CONCLUSION
Although marihuana has been used as a medicine across the globe for hundreds of years, its commercial production and sale is new to us, this state, and your community. We appreciate the opportunity to show Orion Township that Marihuana can be safe and accessible to a community while providing jobs and local economic growth. We look forward to being productive and responsible community partners, and will work with the Township toward that goal.

I agree this permit is only for the work described, and does not grant permission for additional or related work which requires separate permits. I understand that this permit will expire, and become null and void if work is not started within 180 days, or if work is suspended or abandoned for a period of 180 days at any time after work has commenced; and that I am responsible for assuring all required inspections are requested in conformance with the applicable code.

I hereby certify that the proposed work is authorized by the owner to make this application as his authorized agent. I agree to conform to all applicable laws of the State of Michigan and the local jurisdiction. All information on the permit application is accurate to the best of my knowledge.

PAYMENT OF PERMIT FEE CONSTITUTES ACCEPTANCE OF THE ABOVE TERMS.
H. Litter & Waste Removal Plan
Litter & Waste Removal Plan

All biological waste product will be rendered unrecognizable by grinding it in an industrial grinder and combining it with other non-consumable solid waste, including the media in which we cultivate plants, Rockwool. The inclusion of inert material renders the combined solid waste unusable. All waste will be stored in a locked dumpster that is emptied at minimum once per week.

The company intends to employ particulate filtration in areas where waste is stored and processed, which minimizes potential exposure and impact to the outside environment. The facility, which is designed around large water chillers, is designed to circulate air rather than ventilating it. This process helps to avoid excess exposure of odors to the surrounding community.
I. Noise, Dust, Vibrations, Glare & Fumes Plan
Noise, Dust, Vibrations, Glare, Fumes or Odors Plan

Excessive Noise, Dust, Vibrations, Glare and Marijuana odors emanating from our facilities are a valid concern for the community and our neighbors. This plan details the measures deployed to ensure that minimal noise, dust, vibration, glare, fume or offensive odor is emitted from the facility, the response if it occurs, and that the measures remain effective over time.

This plan is our commitment to the Orion Township that we will be in compliance with regulations of the city and the administrative rules and that we will not operate in a manner creating noise, dust, vibration, glare, fumes, or odors detectable to normal senses beyond the boundaries of the property.

We will not vent noxious dust, odors, gases or fumes to surrounding areas.

We will mitigate dust and noxious odors by engaging in the following activities:

1. Adequate design measures to seal the building;
2. Utilizing a heating, ventilation, and cooling (HVAC) System designed to move an appropriate amount of air (cfm) throughout the facility to disperse odors;
3. Using industry leading MERV-13 HEPA filters in addition to FILTR, Blue Zone & Puradigm units in each room throughout the facility.

I. DESIGN MEASURES TO SEAL THE BUILDING

We intend to renovate our building in a manner that focuses on effectively sealing all interior rooms and exterior access points. Each room is enclosed in 12”, interlocking insulated panels which are designed to form an airtight seal. For additional protection, butyl caulk is applied at each joint to accommodate any flaws in the panels.

Caulk is also applied to seal any openings into the panels, including plug outlets, doorways, sprinklers, and anything else that could allow air flow. Our doors are fiberglass, weather stripped and employ a drop seal to press additional weather stripping against the floor when closed to maximize the seal all the way around.

II. MERV-13 HEPA FILTRATION SYSTEM

The purification of air throughout our facility is a top priority for both the health of the plants and the environment we subject our employees and the local community to. In an effort to target and reduce contamination, mold, bacteria, odor, dust, and fumes, we employ a variety of filtration systems in all rooms where marihuana plants are grown.

Each room will utilize clean room grade HEPA filtration units filtering down to 0.01um and providing up to 5 complete air changes per hour. These units also utilize a carbon filter which focuses directly on the removal of smells and volatile organic compounds.

In addition to the HEPA filters, each room will have Puradigm units to help reduce airborne and surface contaminates, and Agrify Bluezone UV filtration units, known to destroy 99.9%+ of both bacteria and mold. Both of these systems aid in odor elimination and containment.
As filters age, they become clogged with impurities, and ultimately less effective. As such, we will develop a maintenance schedule to inspect the filtration units regularly and to replace them per the manufacturer’s recommendation or at an expedited pace based on their usage in these environments.

III. VIBRATION MITIGATION
Exterior mounted cooling equipment is mounted on isolation pads to dramatically reduce vibrations that would otherwise be created by such large equipment.

IV. EVALUATING THE EFFECTIVENESS OF NOISE, DUST, VIBRATIONS, ODOR & FUME CONTROL MEASURES

Key site leadership roles will be trained to assess the production and escape of odors, dust, fumes and glare from the facility. We also anticipate a strong and friendly relationship with the local communities and will welcome feedback about any exhaust from the building. Should these assessments or the community ever determine that our levels are beyond acceptable, we will re-evaluate this plan and engage professionals to further refine our practices and properly mitigate the problem.
J. Spent Water & Soil Safety Plan
Spent Water & Soil Safety Plan

Wastewater Treatment Plan:
Wastewater generated during the cultivation of marihuana of marihuana products shall be disposed of in compliance with all applicable state and local laws and regulations. Despite the amount of water used in the cultivation process, there is very little water waste. The majority of water is used by the plants or evaporated out of the collection dishes upon which the plants sit. Any water that is used to rinse the plants or clean the facility or for any other purpose shall be rendered clean through both reverse osmosis and UV light after standard filtration methods, and either reused by the facility or discharged through a monitoring man hole where it can be monitored to comply with all local ordinances.

The Cultivation Facility will include an Ecowater RO purification system. Ecowater Purification Systems are the leading water filtration manufacturer in the industry, helping cultivators diagnose and solve every water problem imaginable. Ecowater designs systems to treat any water source including city water, well water, nutrient runoff water, wastewater, and condensate runoff.

Soil Safety Plan
The cultivation facility will not use soil – instead, all media for the purposes of growing plants will be rockwool, a lightweight hydroponic substrate made from spinning molten basaltic rock into fine fibers which are then formed in a range of cubes. This product will be disposed of through the grinder and mixed with biological waste in a locked dumpster.
K. Security Plan
SECURITY PLAN

Tycoon I Operations is committed to being a leader in Michigan's cannabis industry and a trusted resource for the communities, consumers and clients we service. Essential to fulfilling this commitment is our ability to effectively protect our product from criminal repurposing throughout the facilities.

This Security, Surveillance and Diversion Prevention Plan details the physical and electronic security measures we employ to deter, detect, and inhibit the theft, diversion, and loss of Marijuana, and to prevent unauthorized conduct with respect to the storage and dispensing of Marijuana.

We have extensively researched and designed our Grow Facility to maximize security. The facility shall be built with enhanced security and stringent safety features to eliminate any potential for diversion. Our facility will be equipped with numerous motion sensors and exterior intrusion sensors that will be linked to local law enforcement. To prevent unauthorized entry and stop diversion, theft, or loss of marijuana, every square inch of the facility shall be continually monitored by high definition security cameras and commercial-grade equipment. Security systems will be positioned so they closely monitor activities at strategic risk points and watch for any strange behavior or movement. Marijuana shall not be visible to any person from the exterior of the Grow Facility.

We will create a culture of responsibility, accountability, and strict security surrounding all aspects of the facility. The stringent operating procedures outlined below demonstrate a commitment to employee and public safety above all other operating values. From receipt to sale, we are committed to preventing diversion by implementing a comprehensive security strategy. Employees will be extensively trained to understand that security is a primary obligation for everyone at our facility.

We will have comprehensive security policies and procedures for the Grow Facility, which address measures to deter and prevent unauthorized entrance into areas containing marijuana and theft of marijuana at the facility. Employees will receive on-going training regarding our security protocol and the Site Manager shall ensure all employees follow policies and procedures regarding the security of the facility. The Site Manager shall implement and maintain employee training policies and procedures for security training. All employees shall aid in the security of the Grow Facility through prevention, awareness, reporting, and responsible incident management. All employees shall be required to immediately report security breaches and incidents of non-compliance to their supervisor, and in case of sudden emergency, immediately to law enforcement by either striking a panic button or calling law enforcement directly.

We will make our facility available and open to inspection, at all times, for law enforcement, representatives of the Department and law enforcement, when necessary to perform their duties.

PHYSICAL SECURITY

The facility shall be designed to maximize security and stop the potential for diversion. Access to the secure facility shall include safety and security mechanisms that prevent unauthorized entry. All doors will be burglary-resistant material, with commercial-grade, non-residential locks. Additionally, exterior doors, as well as limited access area entries, will be automatic locking and equipped with electric strike and keycard access hardware. All doors are setup to fail
The Grow Facility’s main entrance vestibule shall include a mantrap to control passage from the public access area to the limited access area. We will strive to install Underwriter’s Lab (UL) approved locks and lock cylinders, which are rated as burglary resistant. We will also install local alarms on all fire exits and other perimeter doors not authorized for employee or visitor use. Our alarm system will be monitored after business hours with live monitoring through a licensed security monitoring company. If there are ever any after-hours issues, the live monitoring system will be linked directly to law enforcement and the Site Director, among other key personnel.

We shall ensure that trees, bushes, and other foliage outside of the premises do not allow people to conceal themselves from sight. The surveillance system’s cameras shall be capable of certain identification of persons (including facial features), license plates, vehicles, the immediate surrounding areas, and any activities occurring within any area of the premises, and the parking area, and within twenty feet (20’) of all entry and exit points of the premises. Cameras will cover every square inch of the facility.

To provide first responders with immediate access into our facility during a time of emergency or inspection, we will install a Knox Rapid Access System to remove any barriers to entry when first responders respond to an emergency call.

LIGHTING

Exterior lights at all points of entry and exit shall remain constantly illuminated to allow for recording. Lighting on the outside perimeter shall allow cameras the ability to record any suspicious activity. Timed-delay switches shall be used to turn off non-essential interior lights, which shall not remain lit after employees have left the facility. Motion detecting lights shall be installed in areas that are entered and exited infrequently. The exterior of the facility shall be lit by commercial LED light fixtures sufficient to facilitate twenty-four-hour surveillance. Exterior lights in the parking area will remain on from dusk until dawn.

SECURITY EQUIPMENT

Our security equipment shall be designed, installed, and maintained to deter and prevent unauthorized entrance and theft of marijuana products at the facility. Security equipment shall be installed by a commercial, licensed service provider. All equipment shall be compliant with Department rules and all state and local laws, regulations, ordinances, and other requirements.

ENTRY AND EXIT ELECTRONIC EQUIPMENT AND PLACEMENT

Our entry and exit electronic access equipment will consist of the following:

- Electric strike locks on all doors in the Grow Facility with the ability to override access control for emergency exit even during a power outage.

- RFID proximity card access control devices for all interior doors and all exterior entrances and exits into the Grow Facility.

- Access control system that allows for programming or uploading individual user permissions and allowed entry times, as well as operations-specific information including employee photos.

- A backup power supply system that immediately provides power for at least twenty-four (24) hours in the event of a power outage.

- Main system operating equipment will be kept in the security room, a climate-controlled area.
• Access control system that monitors and records:
  o Identification of employees or visitors entering and exiting.
  o Date and time of entry and exit.
  o Length of time in specific area.
  o Any unauthorized attempts for access.

ALARM SYSTEM

We shall have a professionally monitored security alarm system installed at our facility. Monitoring of the alarm system shall be twenty-four (24) hours a day, seven (7) days a week. We shall notify the Department of any intent to change our security alarm service provider. Upon request, we will make available to the Department all information related to the alarm system, monitoring, and alarm activity. The alarm system shall consist of the following:

• Appropriate equipment necessary to monitor activity inside and outside the Grow Facility, including:
  o All entrances and exits.
  o Roof hatches.
  o Rooms with exterior windows.
  o Rooms with exterior walls.
  o Rooms containing marijuana.
  o Rooms containing safes or vaults.

• A backup power supply system that immediately provides power in the event of a power outage.

• Main system operating equipment is kept in the Main Office Surveillance/IT Room, a limited access area.

• All telephone junction boxes or rooms where alarm telephone circuits terminate are locked, tamper-protected, and all labels or tags identifying these alarm circuits have been removed.

ALARM SYSTEM COMMUNICATION

The alarm system shall include an electronic or mechanical system that, upon activation, is programmed to send a prerecorded voice message, via telephone, radio frequency, or other communication system, to appropriate law enforcement authorities or other emergency services. In addition, the alarm system shall be equipped with a failure notification system that notifies the alarm monitoring service provider of the system failure via audio, text, visual, or audiovisual message, within a maximum of five (5) minutes of such failure.

ALARM SYSTEM TESTING

We shall bi-annually conduct an onsite inspection and test of the entire alarm system to determine needed repairs and adjustments.
information related to the alarm system, monitoring, and alarm activity. These records shall include the following:

- The name of the alarm installation and monitoring service provider.
- Copies of service contracts.
- A map of the Grow Facility showing the location and operation of each alarm system component including alarm telephone circuits.
- A list of authorized users.
- Manufacturers' instructions for operating and maintaining the equipment.
- Testing and maintenance logs.
- Reports of any incidents triggering an alarm.
- Reports of any interruption in monitoring and/or complete failure of the system, including the length of the interruption period.

SURVEILLANCE SYSTEM

We shall have a fully operational electronic surveillance system installed at our facility. We shall notify the Department of the intent to make any changes to the surveillance system. Upon request, we will make available to the Department all information related to the electronic surveillance system installed at our facility. The surveillance system shall consist of the following:

- Appropriate equipment necessary to video record activity inside and outside the Grow Facility, including:
  - All entrances and exits into and out of the Grow Facility.
  - Roof hatches or skylights.
  - Rooms with exterior windows.
  - Rooms with exterior walls.
  - Rooms containing safes or vaults.
  - All entrances and exits of security rooms and limited access areas.
- Appropriate equipment to record keycard entry and exit activity of all our employees and visitors.
- A backup power supply system that immediately provides power in the event of a power outage.
- A dedicated safe or vault to store all entry/exit records and video recordings in the Office Surveillance/IT Room, in a limited access area.
- Main system operating equipment is kept in the main office Surveillance/IT Room.

VIDEO SURVEILLANCE EQUIPMENT

Our video surveillance equipment will consist of the following:

- Network video recorders with a record rate of a minimum of thirty (30) frames per second.
- Cameras with a minimum resolution of 1920 x 1080 pixels.
• Cameras with infrared capabilities to capture images in low or no lighting conditions.
• Cameras with capabilities to identify activity occurring within twenty feet (20’) from all points of entry and exits into and out of the exterior of the Grow Facility.
• Video monitors.
• Digital archiving device.
• Capabilities to produce a color still photograph from any camera image, live, or recorded.
• Capabilities to accurately display the time and date on recorded images or video
• Color printer that can immediately produce a clear, color still photo, either live or recorded, with a resolution of 9600 dpi and the image quality is relative to the camera being used to capture the image.

CAMERA COVERAGE PLACEMENT

We will install at least One Hundred (100) security cameras. The security cameras will be permanently mounted and in a fixed location. Each camera at the Grow Facility shall be placed in a location that allows the camera to clearly record activity occurring within twenty feet (20’) of all points of entry and exit on the Grow Facility. The cameras will cover every square inch of the facility. The cameras shall allow for the clear and certain identification of any person, including facial features, and activities, including sales or transfers, in all areas of the Grow Facility. The security cameras shall monitor and record all areas of the Grow Facility including:

• All areas where marijuana or products are present, including activities related to:
  o Weighing, packaging, and labeling.
  o Storing, preparing for sale, loading/unloading, or moved within the Grow Facility.
  o Waste Disposal
• Limited-access areas and security rooms, including transfers between rooms and areas.
• Areas storing a surveillance system storage device with at least one (1) camera recording the access points to the secured surveillance recording area.
• All entrances and exits into and out of the exterior of the Grow Facility, recording both indoor and outdoor vantage points.
• Outdoor trash receptacles.
• Roof hatches or skylights.
• Rooms with exterior windows.
• Rooms containing safes or vaults.
• All areas where cash is counted, transferred, or stored.
• All areas where records are stored.

Cameras shall not be installed in bathrooms or any other area where a legitimate expectation of privacy exists. Camera placement shall ensure:

• Visibility of activities is not obstructed by lighting equipment covers, fixtures, or other equipment.
• A clear and certain identification of all individuals and activity at the Grow Facility.
• Identification of activity occurring within twenty feet (20') from all points of entry and exit into and out of the exterior of the Grow Facility.

SURVEILLANCE FAILURE NOTIFICATION

The surveillance system shall include a failure notification system that alerts the Site Director and other key site personnel of any interruption in surveillance and/or the complete failure of the monitoring system. The notification shall be within a maximum of five (5) minutes of such failure via audio, text, visual, or audiovisual message. Additionally, an alarm shall signal the Security Officer on duty whenever an unauthorized entry is attempted.

SURVEILLANCE TESTING

We shall ensure that the surveillance system is properly maintained for playback quality so that images can be seen and the identity of all individuals and activity in surveillance areas are captured. We will schedule and oversee all required maintenance of security equipment in accordance with manufacturer recommendations. Any equipment failure identified shall be corrected as soon as possible. All security equipment shall be in good working order and shall be inspected and tested at regular intervals.

INFORMATION TECHNOLOGY SECURITY

We shall ensure the security of our hardware, software, data, and communications networks, including the following information technology (IT) maintenance:

• Software registration.
• Security patches.
• Malicious software prevention.
• Account management.
• Security status and network access monitoring.
• Disposal and redeployment.
• Employee IT security training.
• Vulnerability assessments.

Access to protected information shall be restricted to essential employees only. Access may be granted to authorized representatives of the Department and other government officials if necessary to perform their official duties. Examples of protected information include:

• Security and cash management procedures.
• Asset and inventory lists.
• Network data.
• Floor plans of critical areas.
• Password and code records.
• Customer records.
• Employee records.

PRODUCT SAFETY AND SECURITY

We shall develop and implement procedures that ensure product safety and security and are compliant with the rules set forth by the Department and all applicable state and local laws, regulations, ordinances, and other requirements. Procedures shall include measures that:

• Minimize the risk of diversion or theft of marijuana.
• Minimize the risk of contamination from incoming materials.
• Ensure proper storage conditions that maintain the quality and purity of our marijuana products.

MATERIAL RECEIVING

All deliveries shall be verified at the front entrance to the facility before allowed access to the loading areas. All materials received will be documented. No material may be received unless its shipping documentation matches the corresponding purchase order or separate approval is given by the Site Manager. Employees shall notify the Site Manager of any shipment discrepancy immediately and shipment may not be accepted without the Site Manager’s approval.

PRODUCT STORAGE SECURITY

Storage areas shall be designed to provide adequate lighting, ventilation, temperature, humidity, space, and equipment. All storage areas shall be maintained in a clean and orderly condition, free from infestation of pests, and in accordance with our security measures and Security Plan. The Grow Facility Manager shall ensure secure containers containing marijuana products remain dry, well ventilated, have temperature-control features to avoid extreme temperature fluctuations and appropriate odor-control features. These proper storage environments ensure product storage does not lead to product contamination or loss of quality.

The storage areas containing marijuana products shall be designed for security and ease of maintenance. We shall establish product storage and security policies and procedures compliant with the rules set forth by the Department and all applicable state and local laws, regulations, ordinances, and other requirements. Under no circumstances may any product be transferred without following our policies and procedures and all the rules set forth by the
Department and all applicable state and local laws, regulations, ordinances, and other requirements. Storage policies and procedures shall include:

- All equipment and any areas used for the processing or storage of marijuana shall be securely locked unless in use.
- All areas used for the storage of marijuana shall be on a time lock and only accessible during regular business hours.
- Inventory shall be reviewed and documented at the beginning and close of each day.
- All areas where marijuana product is stored will be monitored by the surveillance system.

DIVERSION PREVENTION

Investigation of possible diversion and developing policies to prevent it will be conducted by a team of our senior officials, including our CEO, COO, and Director of Compliance. Collectively, they will be known as the Diversion Prevention Team or DPT. The team will have multiple responsibilities including:

- Investigating allegations of diversion
- Developing policies and procedures to prevent diversion
- Managing performance improvement measures
- Providing overall direction for the program.
- Reporting confirmed cases of diversion to law enforcement

The DPT will also integrate information from external sources and environmental factors to improve safety and security at facilities. External sources and environmental factors may include news reports, trade and patient associations, law enforcement bulletins, et cetera. Standard operating procedures shall be updated to incorporate new sources of information and prevent diversion.

WORKING WITH LAW ENFORCEMENT

We deeply value and respect the work of local law enforcement. Police officers are on the front lines protecting our safety. Therefore, our Company, through the DPT, will form a partnership with law enforcement. This partnership will be rooted in a shared responsibility for the safety of the community. Upon request, law enforcement will have access to employee records and Grow Facility operations. Company will also engage with first responders like EMS and fire to establish emergency response protocols. This will create a close working relationship and enhance our ability to provide a secure and positive experience for our employees and the community.

To provide first responders with immediate access into our facility during a time of emergency or inspection, we will install a Knox Rapid Access System to remove any barriers to entry when first responders respond to an emergency call.
EMPLOYEE TRAINING

We know that having a trained and educated workforce is paramount to having an effective diversion strategy. Therefore, a considerable amount of time, resources, and energy will be devoted to ongoing diversion prevention training. The training curriculum will be conducted by the DPT. At a minimum, the training curriculum shall include:

- Compliance regulations for grow facilities.
- State laws and agency rules regulating the use of marijuana.
- Strategies for preventing diversion.
- Criminal and civil consequences for diverting product.
- Security and safety standard operating procedures.
- Chain of command for reporting diversion.
- Incident management.
- Daily operating procedures.

Diversion prevention trainings are mandatory for every new employee. Additionally, each employee shall be required to participate in quarterly continuing education trainings on diversion. Training materials will be outcome driven. Employees will be given real world examples of diversion and taught the appropriate response. Teaching the material through the learning principles of problem solving, discussion, and feedback will empower and increase understanding and retention of the training. This process of integrating knowledge will develop a culture of shared values, perspectives, and become the way of daily conduct and purpose at the Grow Facility.

Employees will have access to diversion prevention training materials at all times. There will be no excuse and zero tolerance for not knowing the proper policies and procedures. Well-maintained employee training records displaying documented training dates and subject matter will preserve and increase compliance, continuity and understanding of all guidelines, security procedures, safety, and incident response. Employee training records will become a written testament of the detailed information and accountability of security education.

INVESTIGATION OF DIVERSION

Due to intense and robust security operations, we do not anticipate diversion at our facility. However, it is important to be prepared for any scenario. We have developed an enhanced investigation procedure for any allegations or reports of potential diversion. Any allegation or report will be fully and immediately investigated by the DPT with established processes and timeframes.

Security policies developed by our Company outline that the first step of investigation is to preserve all possible evidence. Evidence needs to be persevered for the investigation and may be used in future disciplinary matters. The second step of investigation shall be to review all camera footage and other relevant information technology. Each marijuana product is tracked from seed to sale. Therefore, if diversion occurred, it will likely appear in an audit of the tracking software. The third step of investigation will be to interview the employee who engaged or
allegedly engaged in diversion. This step can only be executed if enough evidence is gathered to narrow down the suspect. The goal of the interview is to get the subject to confess how they diverted product to prevent future incidents from occurring. The fourth step of investigation will be to report the confirmed incident of diversion and suspect to law enforcement and the Department. The Site Manager shall be the point of contact for all law enforcement inquires and will turn over all relevant evidence to law enforcement and the Department. The final step of investigation is to develop policies and procedures to prevent the incident from happening again. Once new policies have been developed by the DPT, an all staff training shall be given. The training will be a top down review of all security policies including any updated procedures.

INCIDENT RESPONSE

We shall establish incident response procedures addressing any incident that may occur, including natural disaster, unauthorized access, theft, or IT security breach. Procedures shall be in accordance with the rules set forth by the Department and all applicable state and local laws, regulations, ordinances, and other requirements. Procedures for general emergency and incident management, containment, and corrective measures shall be thoroughly detailed. The Director of Compliance shall ensure the appropriate response procedures are followed. All employees shall receive incident response training annually. The Site Manager shall determine the category and severity of the incident and determine the next best course of action. All discussions, decisions, and activities shall be documented.

We shall immediately notify appropriate law enforcement authorities and the Department immediately after the discovery of a reportable incident as defined by state and local laws, regulations, ordinances, and other requirements. Examples of an incident may include, but are not limited to:

- Theft or physical loss of marijuana or confidential records.
- Breach of our network servers.
- Robbery or unauthorized entry in the Grow Facility.
- Threats of violence to the Grow Facility, employees, or visitors.
- Bomb threats.
- Any criminal activity.
- Civil disturbances.
- Hazardous spills.
- Infectious disease epidemic.
- Serious accidents.
- Fires.
- Earthquakes.
- Floods.
- Windstorms or tornadoes.
INCIDENT REPORTING

Anyone with knowledge or a reasonable suspicion of an incident is instructed to make an immediate report to the Grow Facility Manager or the Site Manager. The person reporting the incident shall complete the Incident Log.

- Date and time of occurrence or suspected occurrence.
- Names and contact information of parties involved and any witnesses.
- Description of incident.
- Completed Suspect Description Forms, if applicable.
- Any evidence supportive of the event (unless law enforcement is required on scene or en route).

We shall notify appropriate law enforcement authorities and the Department immediately after discovering the following:

- Discrepancies identified during inventory; diversion, theft, or loss of marijuana; or any criminal action involving an employee.
- Theft, robbery, or burglary; sale to minors; diversion of marijuana or marijuana products; or any other crime related to marijuana.
- Any suspicious act involving the sale, cultivation, distribution, processing, or production of marijuana by any person.
- Unauthorized destruction of marijuana.
- Any loss or unauthorized alteration of records.
- An alarm activation or other event that requires a response by public safety personnel.
- Integrity of the inventory management system compromised.
- An IT security breach.
- The failure of any security alarm system due to a loss of electrical power or mechanical malfunction that is expected to last longer than eight (8) hours.
- Any other breach of security defined by the rules set forth by the Department.

UNAUTHORIZED ENTRY/ROBBERY CONTAINMENT AND CORRECTIVE PROCEDURES

In the event a threat is present to persons, cash, or product due to unauthorized entry, employees shall be trained to perform the following:
- Notify law enforcement utilizing a panic alarm, only if it can be safely done without being obvious to the robber.
- Do not resist the robber or use or encourage the use of weapons or force against the robber.
- Try to inform the robber of any potential surprises (e.g., an employee is due back from lunch or the building alarm is set to be tested).
- Try to keep employees and visitors, if applicable, calm during the robbery.
- Try to alert other employees of the situation using pre-determined signals or text messages, only if safe to do so.
- Follow the robber's commands in order to shorten the time of the incident. Do not argue with the robber, but do not volunteer to help.
- If the robber demands a certain amount of money or product, only give them that amount.
- Be observant in order to be a good witness. Try to remember:
  - The number of robbers.
  - The physical characteristics of the robber(s), such as weight, scars, tattoos, hair color, or speech patterns.
  - The clothing worn by the robber(s).
  - Any names used by the robber(s).
  - A description of any weapons shown, such as barrel length and color, color of the grip, or automatic or revolver.
- If the robber uses a note, try to place it out of sight to retain it as evidence.
- Do not follow a robber.
- Secure the Grow Facility and place a notice that the business is closed due to an emergency.
- Call the police and ambulance, as needed, immediately and request that witnesses stay or obtain their contact information.
- Provide aid to injured people.
- Do not discuss the robbery with any outside parties until police and management has given authority to do so.
- Do not estimate the amount of money or product that was taken until an inventory has been performed.

Corrective procedures that may be required to return conditions to a normalized and secure state:
- Change all security codes.
- Replace locks and issue keys only to authorized employees.
• Ensure any video of the incident is archived.
• Restore security devices and/or apparatus to working condition.
• Repair any physical damage to the Grow Facility.
• Provide employees and visitors, if applicable, counseling, as needed.
• Perform a security re-training as soon as possible.
• Modify Employee Access Control Log as deemed appropriate.

INTERNAL THEFT/BURGLARY CONTAINMENT AND CORRECTIVE PROCEDURES

In the event a threat is present to persons, cash, product due to internal theft or burglary, employees shall be trained to perform the following:

• Identify missing or compromised assets.
• Gather, remove, recover, and secure sensitive materials to prevent further loss or access.
• Power down, recycle or remove security equipment known to be compromised.
• Where possible, secure the premises for possible analysis by the Department and law enforcement.
• Gather and secure any evidence of illegal entry for review by the Department and law enforcement.
• Where possible, record identities of any party who might be a possible witness to events.
• Preserve video recordings and Visitor logs for review by the Department and law enforcement.

Corrective procedures that may be required to return conditions to a normalized and secure state:

• Retrieve or restore assets where possible.
• Store all sensitive materials and products in a secure manner (e.g., lockable cabinets or storage areas/container).
• Replace locks and issue keys only to authorized employees. Update the Employee Access Control Log as necessary.
• Restore security devices and/or apparatus to working condition.
• Remove and retain unauthorized equipment from network and/or area.
• Implement physical security devices and improvements (e.g., equipment cables, alarms) as deemed appropriate.
• Perform a security re-training as soon as possible.
FIRE PROCEDURES

If a fire does not present an immediate danger to personal safety, one employee shall try to extinguish the fire. If a fire presents an immediate danger to personal safety, a fire alarm shall be pulled and a call to 911 shall be immediately made and evacuation of the building shall occur all at once.

Evacuation of Grow Facility

Any director or manager may determine the need to evacuate. Reasons for evacuation may include:

- Fire.
- Bomb threat.
- A hostile or violent employee, visitor, or unknown person.
- Power outage.
- Earthquake.
- Water or gas leak.
- Hazardous spill.
- Robbery or hostage situation.

The Site Manager shall ensure that all employees and visitors, if applicable:

- DO NOT gather in lobbies.
- DO NOT open a door without first checking for heat.
- DO NOT touch any suspicious items or suspected bombs.
- DO NOT run or panic.
- DO NOT re-enter the building until authorized.
- DO assist disabled individuals or others who need assistance. Evacuate disabled individuals or others who need assistance ONLY under the direction of authorized emergency personnel or when there is an immediate threat to personal safety and security.

INCIDENT CONTAINMENT

The Site Manager, in coordination with the appropriate department directors or managers, shall determine and implement the appropriate activities and processes required to quickly contain and minimize the immediate impact to personal safety, the Grow Facility, and other affected parties. Containment activities shall be designed to:

- Minimize harm to individuals.
- Counteract the immediate threat.
• Prevent propagation or expansion of the incident.
• Minimize actual and potential damage.
• Restrict knowledge of the incident to authorized employees.
• Preserve information relevant to the incident.

The Site Manager, in coordination with the appropriate department directors or managers, shall determine and implement the appropriate activities and processes to quickly:

• Secure the environment.
• Restore the environment to its normalized state.

The Site Manager shall be actively engaged throughout the incident to assess the progress of all containment and corrective measures and determine at what point the incident can be considered resolved.

INCIDENT CONTAINMENT AND CORRECTIVE PROCEDURES

The Site Manager shall determine and implement the appropriate procedures required to quickly contain and minimize the immediate impact of an incident, as well as to quickly restore circumstances to a normalized, secure state. Containment and corrective measures shall be designed with the primary objectives of:

• Minimizing harm.
• Counteracting the immediate threat.
• Preventing propagation or expansion of the incident.
• Minimizing the actual and potential damage.
• Restricting knowledge of the incident to authorized employees.
• Preserving information relevant to the incident.
• Securing the environment.
• Restoring the environment to its normalized state.

POST-INCIDENT REVIEW, REPORT, AND FOLLOW UP

The Site Manager shall hold a Post-Incident Review after each incident has been resolved. The Post-Incident Review shall be scheduled within two (2) to three (3) weeks of the incident’s resolution and shall involve:

• Appropriate personnel, which may include affected parties.
• Examination of the incident and all related activities and events.
• Discussion on proposed changes to policy, processes, and safeguards.
All incident activities, from receipt of the initial report through post-incident review, shall be documented. The Site Manager shall ensure all events are recorded, assembling these records in preparation and performance of the post-incident review, and ensuring all records are preserved for review. The following shall be included, at a minimum, in the Post-Incident Report:

- A description of incident events with specific timelines.
- Employee(s) involved.
- Non-Employees involved.
- Impact to affected parties.
- Discussions, decisions, and assignments made.
- Successful and unsuccessful activities.
- Notifications required or recommended.
- Steps taken for containment and resolution.
- Recommendations for prevention and remediation (short-term and long-term).
- Identification of policy and procedure gaps.
- Results of post-incident review.
- Any necessary follow-up actions.

The Post-Incident Report shall be distributed to the Site Manager, the Grow Facility Manager, and all other relevant parties for review. The Site Manager shall ensure the appropriate employees are assigned to any follow-up actions. The Site Manager shall document the completion of all follow-up actions in the Post-Incident Report and distribute an updated copy.

SECURITY SYSTEM RECORDS

We shall keep all necessary books and records in order to render a full account of all operations conducted at the Grow Facility under our license for the year to date and the five (5) years prior. We shall keep books and records of the Grow Facility from the previous six (6) months (or the complete copies of such records) in the Grow Facility at all times. All marijuana related records shall be retained in the inventory management system. All surveillances recordings shall be retained, at a minimum for at least sixty (60) days, unless in instances of investigation or inspection by the Department, through its investigators, agents, auditors, or the state police, in which case the licensee shall retain the recordings until such time as the department notifies the licensee that the recordings may be destroyed. Our standard operating procedures shall detail the maintenance of records and measures for addressing and reporting any loss or unauthorized alteration of records. The Department, upon request, shall have full access to all Grow Facility records and surveillance recordings.

We shall keep and maintain security and surveillance system records and recordings in the Grow Facility and copies stored on a secure cloud storage. These records shall include, at a minimum, the following:

- The name of the surveillance equipment installation service provider and all equipment manufacturers.
• A map of the Grow Facility showing the location and operation of each surveillance system component, including the direction of camera coverage.
• A list of authorized users.
• Manufacturers’ instructions for operating and maintaining the equipment.
• Testing and maintenance logs.
• Reports of any incidents of unauthorized entry.
• Employee Access Control Logs.
• Visitor Registration Logs.
• Authorized Visitor Access Control Logs.
• Incident Logs and Post-Incident Reports.
• Reports of any interruption in monitoring and/or complete failure of the system, including the length of the interruption period.
• A log of the recordings, which includes:
  o The identities of the employee or employees responsible for monitoring the video surveillance system.
  o The identity of the employee who removed the recording from the video surveillance system.
  o The identity of the employee who destroyed any recording.
• Video surveillance recordings shall be:
  o In a digital format that ensures authentication of the recording as being legitimately captured without alterations.
  o Easily accessible and in a format that allows for viewing and copying.
  o Embedded with the date and time without significantly obscuring the picture.

We will maintain a log of all recordings, which will include a minimum:
• The identities of the employee or employees responsible for monitoring the video surveillance system.
• The identity of the employee who removed the recording from the video surveillance system storage device and the time and date removed.
• The identity of the employee who destroyed any recording.

Video surveillance recordings shall be stored on an NVR that is server-based with storage as required to meet recording rate and retention. This system shall be password-protected and separate from any other equipment in the Grow Facility. The files and video surveillance recordings shall be available for inspection, upon request, by authorized representatives of the Department and other government officials when necessary to perform their official duties.

After the expiration of the retention period, and before selling or closing the facility, the surveillance video recordings shall be erased, destroyed, or otherwise disposed. We shall not destroy any surveillance video recordings if we have knowledge or should have knowledge of any ongoing criminal, civil, administrative, or other official investigations or proceedings for which the recording may contain relevant information. Additionally, we shall not destroy any surveillance video recordings if we have knowledge or should have knowledge of any ongoing criminal, civil, administrative, or other official investigations or proceedings for which the recording may contain relevant information.
video recordings in instances of investigation or inspection by the Department, through its investigators, agents, auditors, or the state police, in which case the recordings shall be retained until such time as the Department notifies us that the recordings may be destroyed.
Security and Surveillance Equipment Room Access List

This is the **current** list of individuals having access to our Security and Surveillance Equipment Storage Room. Only those on this list are essential to maintain security and surveillance operations. All others will be denied access to the Security and Surveillance Equipment Room.

This list is available to the Department or authorized agents immediately upon request.

WE ASSIGNED YOU AN EMPLOYER IDENTIFICATION NUMBER

Thank you for applying for an Employer Identification Number (EIN). We assigned you EIN 85-2192285. This EIN will identify you, your business accounts, tax returns, and documents, even if you have no employees. Please keep this notice in your permanent records.

When filing tax documents, payments, and related correspondence, it is very important that you use your EIN and complete name and address exactly as shown above. Any variation may cause a delay in processing, result in incorrect information in your account, or even cause you to be assigned more than one EIN. If the information is not correct as shown above, please make the correction using the attached tear-off stub and return it to us.

Based on the information received from you or your representative, you must file the following form(s) by the date(s) shown.

Form 941
01/31/2021

Form 940
01/31/2021

If you have questions about the form(s) or the due date(s) shown, you can call us at the phone number or write to us at the address shown at the top of this notice. If you need help in determining your annual accounting period (tax year), see Publication 538, Accounting Periods and Methods.

We assigned you a tax classification based on information obtained from you or your representative. It is not a legal determination of your tax classification and is not binding on the IRS. If you want a legal determination of your tax classification, you may request a private letter ruling from the IRS under the guidelines in Revenue Procedure 2004-1, 2004-1 I.R.B. 1 (or superseding Revenue Procedure for the year at issue). Note: Certain tax classification elections can be requested by filing Form 8832, Entity Classification Election. See Form 8832 and its instructions for additional information.
If you are required to deposit for employment taxes (Forms 941, 943, 940, 944, 945, CT-1, or 1042), excise taxes (Form 720), or income taxes (Form 1120), you will receive a Welcome Package shortly which includes instructions for making your deposits electronically through the Electronic Federal Tax Payment System (EFTPS). A Personal Identification Number (PIN) for EFTPS will also be sent to you under separate cover. Please activate the PIN once you receive it, even if you have requested the services of a tax professional or representative. For more information about EFTPS, refer to Publication 966, Electronic Choices to Pay All Your Federal Taxes. If you need to make a deposit immediately, you will need to make arrangements with your financial institution to complete a wire transfer.

The IRS is committed to helping all taxpayers comply with their tax filing obligations. If you need help completing your returns or meeting your tax obligations, Authorized e-file Providers, such as Reporting Agents (payroll service providers) are available to assist you. Visit the IRS Web site at www.irs.gov for a list of companies that offer IRS e-file for business products and services. The list provides addresses, telephone numbers, and links to their Web sites.

IMPORTANT REMINDERS:

* Keep a copy of this notice in your permanent records. This notice is issued only one time and IRS will not be able to generate a duplicate copy for you. You may give a copy of this document to anyone asking for proof of your EIN.

* Use this EIN and your name exactly as they appear at the top of this notice on all your federal tax forms.

* Refer to this EIN on your tax-related correspondence and documents.

* Provide future officers of your organization with a copy of this notice.

Your name control associated with this EIN is TYCO. You will need to provide this information, along with your EIN, if you file your returns electronically.

If you have questions about your EIN, you can contact us at the phone number or address listed at the top of this notice. If you write, please tear off the stub at the bottom of this notice and include it with your letter. Thank you for your cooperation.
OPERATING AGREEMENT
OF
TYCOON I OPERATIONS, LLC

THIS OPERATING AGREEMENT (this “Agreement”) is entered into and made effective as of July 22, 2020 (the “Effective Date”) by and between TYCOON I OPERATIONS, LLC, a Michigan limited liability company (the “Company”), and TYCOON HOLDINGS, LLC, a Michigan limited liability company and sole member of the Company (the “Member”).

Background

A. The Company was formed on July 22, 2020 as a Michigan limited liability company.

B. The undersigned desires to memorialize its rights and obligations with respect to the Company pursuant to the terms of this Agreement.

Agreement

In consideration of the foregoing background and for other good and valuable consideration, the receipt and sufficiency of which is hereby acknowledged, and intending to be legally bound hereby, the parties agree as follows:

ARTICLE I
DEFINITIONS

The following capitalized terms used in this Agreement shall have the following meanings (unless otherwise expressly provided herein):

“Act” means the Michigan Limited Liability Company Act, as amended.

“Business” means the principal business of the Company, which shall be to own and manage investments.

“Capital Contribution” means any contribution of cash or property to the Company, or any obligation to contribute cash or property to the Company, whenever made.

“Certificate” means the Articles of Organization as filed by the organizer of the Company with the Department of State of the State of Michigan, as amended.

“Interest” means the Member’s entire interest in the Company.
“Person” means any individual, trust, partnership, corporation, limited liability company or entity.

ARTICLE II
FORMATION OF COMPANY

2.1 Formation. The Company has been organized as a Michigan limited liability company by executing and delivering the Certificate in accordance with and pursuant to the Act.

2.2 Name. The name of the Company is Tycoon I Operations, LLC.

2.3 Registered Office. The address of the registered office of the Company shall be The CSC – Lawyers Incorporating Service, 601 Abbot Road, East Lansing, Michigan 48823, or at such other place as the Member may from time to time determine. The registered office of the Company may be changed from time to time by amending the Certificate in accordance with the Act. The Company may maintain such other offices, including, but not limited to, a principal place of business as the Member shall determine.

2.4 Purpose. The purposes of the Company shall be (a) to advance and grow the Business, (b) to engage in all other lawful business authorized pursuant to the Act, and (c) to make, enter into and perform any contracts and other undertakings, and to engage in any activities and transactions as may be ancillary to or necessary or advisable to carry out the foregoing purposes.

2.5 Term. The term of the Company shall be perpetual unless the Company is earlier dissolved in accordance with the provisions of this Agreement.

ARTICLE III
CAPITAL CONTRIBUTIONS; LOANS; DISTRIBUTIONS

3.1 Capital Contributions. The Company shall keep a record of all Capital Contributions made by the Member. The Member shall not be required to make any Capital Contribution to the Company not specifically agreed to in writing between the Member and the Company.

3.2 Loans. Any and all loans made to the Company by the Member shall not be considered Capital Contributions.

3.3 Distributions. Distributions shall be made to the Member (in cash or in kind) at such times and in such amounts determined by the Member and as permitted by applicable law.
ARTICLE IV
MEMBER

4.1 Member. The name and address of the Member is:

Tycoon Holdings, LLC
2055 Crooks Road, Suite B
Rochester Hills, MI 48309

4.2 Management. The Company shall be initially managed by Heller Investment Holdings, LLC.

4.3 Right to Rely on Member. Any Person dealing with the Company may rely (without duty of further inquiry) upon a certificate signed by a designee of the Member as to: (a) the identity of the Member; (b) the existence or non-existence of any fact or facts which constitute a condition precedent to acts by the Member or which are in any manner germane to the affairs of the Company; (c) the Persons who are authorized to execute and deliver any instrument or document of the Company; or (d) any act or omission by the Company or any other matter whatsoever involving the Company or the Member.

4.4 Authority to Designate Officers. The Member may elect, appoint or designate, by resolution or otherwise, individuals as officers of the Company and delegate to such officers such powers, authority and responsibilities as are (i) set forth in the designation or delegation, and (ii) necessary to carry out and implement the management decisions of the Member. The Member may remove any officer, with or without cause, at any time. Any officer may resign at any time by giving written notice to the Company. Any resignation shall take effect as of the date of the Company’s receipt of such notice or at any later time specified in such notice (unless such officer is otherwise removed prior to such date); and unless otherwise specified in such notice, the acceptance of the resignation shall not be necessary to make it effective. Unless the Member decides otherwise, if the title to an officer of the Company is one commonly used for officers of a business corporation, the assignment of such title shall constitute the delegation to such individual of the authority and duties that are normally associated with that office. The current officers of the Company are as set forth on Schedule A attached hereto, as may be amended from time to time.

4.5 Liability of Member and Officers. Neither the Member nor any officer, agent or representative of the Member, or officer of the Company, shall be liable to the Company or to the Members, as applicable, for (i) the performance of, or the failure to perform, any act or duty on behalf of the Company if, in good faith, the Members or officer determined that such conduct was in the best interests of the Company and such conduct did not constitute fraud, gross negligence or reckless or intentional misconduct, (ii) the termination of the Company and this Agreement pursuant to the terms hereof, and (iii) the performance of, or the failure to perform, any act on behalf of the Company in good faith reliance on advice of legal counsel, accountants or other professional advisors to the Company.
4.6 **Indemnification.** The Company shall indemnify, defend and hold the Member and the officers, agents and representatives of the Member, and each officer of the Company and, in the discretion of the Member, each employee of the Company, harmless from and against any expense, loss, damage or liability incurred or connected with, or any claim, suit, demand, loss, judgment, liability, cost or expense (including reasonable attorneys’ fees) arising from or related to, the Company or any act or omission of such Member (or officer, agent or representative of the Member) or officer (or employee) and amounts paid in settlement of any of the foregoing, to the fullest extent provided or allowed by the laws of the State of Michigan. The Company may advance to any such Person the costs of defending any claim, suit or action against such Person.

4.7 **Title to Company Property.** All real and personal property shall be acquired in the name of the Company and title to any property so acquired shall vest in the Company itself rather than in the Member.

**ARTICLE V**

**ACCOUNTING AND TAX MATTERS**

5.1 **Accounting Principles.** The Company’s financial statements shall be prepared and its profits and losses shall be determined in accordance with methods of accounting selected by the Member, which need not be the same as the method of accounting used for tax purposes.

5.2 **Returns and Other Elections.** The Member shall cause the preparation and timely filing of all tax returns required to be filed by the Company pursuant to the Code and all other tax returns deemed necessary and required in each jurisdiction in which the Company does business. All elections permitted to be made by the Company under federal or state laws shall be made by the Member in its sole discretion. So long as the Company has only one member, the Company shall be treated as a disregarded entity for income tax purposes.

**ARTICLE VI**

**TRANSFERS; ADDITIONAL MEMBERS**

6.1 **Transferability of Membership Interest.** The Member’s Interest in the Company is freely transferable or assignable, in whole or in part, either voluntarily or by operation of law.

6.2 **Admission of Additional Members.** Additional members of the Company may be admitted to the Company at the direction of the Member only if a new operating agreement or an amendment and restatement of this Agreement is executed by such additional member or members.
ARTICLE VII
DISSOLUTION AND LIQUIDATION

7.1 Dissolution.

(a) The Company shall be dissolved and its affairs wound up and terminated only upon the determination of the Member. The dissolution or bankruptcy of the Member or the occurrence of any other event that terminates the continued membership of the Member shall not cause a dissolution of the Company.

(b) Dissolution of the Company shall be effective on the day on which an event described in Section 7.1(a) above occurs, but the Company shall not terminate until articles of dissolution shall be filed with the Department of State of the State of Michigan and the assets of the Company are distributed as provided in Section 7.2 below. Notwithstanding the dissolution of the Company, prior to the termination of the Company, the business of the Company and the affairs of the Member shall continue to be governed by this Agreement.

7.2 Winding Up. Upon dissolution, the Company shall continue until the winding up of the affairs of the Company is completed and a certificate of dissolution has been filed pursuant to the Act. Upon the winding up of the Company, the Company’s property shall be distributed (a) first to creditors, including the Member if the Member is a creditor, to the extent permitted by law, in satisfaction of the Company’s liabilities, and (b) then to the Member. Distributions shall be in cash or property or partly in both, as determined by the Member.

ARTICLE VIII
MISCELLANEOUS PROVISIONS

8.1 Notices. Any notice, demand or communication required or permitted to be given by any provision of this Agreement shall be in writing and shall be deemed to have been delivered (a) two business days after being sent by registered or certified United States mail, or (b) upon delivery if hand delivered, sent via facsimile transmission or electronic mail. If delivered to the Member, such notice shall be delivered to his address as it appears in Section 4.1 above. If to the Company, such notice shall be delivered to its principal place of business.

8.2 Governing Law. This Agreement, and the application and interpretation hereof, shall be subject to and governed exclusively by its terms and by the laws of the State of Michigan, without regard to its conflicts of laws provisions.

8.3 Construction. Whenever the singular number is used in this Agreement and when required by the context, the same shall include the plural and vice versa, and the masculine gender shall include the feminine and neuter genders and vice versa. Unless expressly stated otherwise, Section and Article references herein shall refer to the Sections and Articles of this Agreement.

8.4 Waivers. No waiver by any party of the breach of any provision hereof shall be deemed to constitute a waiver of any continuing or subsequent breach of such provision or any other provision hereof.
8.5 Severability. If any provision of this Agreement or the application thereof to any Person or circumstance shall be invalid, illegal or unenforceable to any extent, the remainder of this Agreement and the application thereof shall not be affected and shall be enforceable to the fullest extent permitted by law, provided that the essential purpose of this Agreement is not frustrated.

8.6 Heirs, Successors and Assigns. The covenants, terms, provisions and agreements herein contained shall be binding upon, and inure to the benefit of, the parties hereto and, except as otherwise provided to the contrary, their respective heirs, executors, administrators, legal representatives, successors and permitted assigns.

8.7 Entire Agreement. This Agreement embodies the entire agreement and understanding between the parties hereto with respect to the subject matter hereof and supersedes all prior agreements and understandings relating to such subject matter.

[SIGNATURES APPEAR ON FOLLOWING PAGE]
IN WITNESS WHEREOF, the parties hereto have caused this Agreement to be signed as of the Effective Date.

STAFFING PLAN

Summary of Job Creation, Compensation and Budget

As discussed in detail below, we anticipate creating approximately 59 jobs at our Orion Township Cultivation Facility.

<table>
<thead>
<tr>
<th>Type of Marijuana Facility</th>
<th>Proposed Location</th>
<th>Total Jobs Per Facility</th>
<th>Expected Annual Payroll</th>
</tr>
</thead>
<tbody>
<tr>
<td>Cultivation Facility</td>
<td>Orion Township</td>
<td>59</td>
<td>$3,750,000.00</td>
</tr>
</tbody>
</table>

We pay our cultivation facility employees a minimum hourly wage of $15. We also provide a generous benefit package that includes the following:
- Health Insurance
- Paid Holidays
- Paid Time Off
- 401K Plan with 2% Match
- Performance Incentives

Out of our 3.75MM expected annual payroll, Tycoon I Operations expects to allocate $630,000 toward benefits for all full-time employees!

We intend to source our employees first from Orion Township, then into the surrounding regional area. Our job listings will always be listed in the Orion Township area first to accumulate as many qualified candidates as possible.

Attached is a table of the proposed positions at our Orion Cultivation Facility:

CHARTER TOWNSHIP OF ORION
ORDINANCE No. 154 APPLICATION REVIEW

Planning Commission Case:   PC-2021-24
Parcel Number:  09-35-477-001 & 09-35-477-002
Property Address:  180 Premier Drive
Applicant:  Tycoon I Operations LLC
Request: Excess Grow
Date: February 12, 2021

The aforementioned application was reviewed for compliance with the location requirements of Article VI of Ordinance No. 154 and the finds are detailed below:

Article V, 1. – The Facility must be located in the Township’s IP (Industrial Park) district: The parcels are zoned IP (Industrial Park) as required.

Article V, 2 – The Facility cannot be within one thousand five hundred (1,500) feet of a “church” in the Township: Article VI, 7 states that the distances specified in the Ordinance shall be measured from building edge to building edge. The applicant stated within their application that the facility is more than the required 1,500 feet. Using GIS, a measurement was taken from the edge of the property where the building is located (for simplicity vs. from edge of building which is further) to the edge of the closest church and it was over 1,600 feet.

Article VI, 3 – The Facility cannot be within two thousand (2,000) feet of a residence located in a R-1, R-2, R-3, SF, SE, SR, RM or MHP zoning district: Article VI, 7 states that the distances specified in the Ordinance shall be measured from building edge to building edge. The applicant stated within their application that the facility is more than the required 2,000 feet. Using GIS, a measurement was taken from the edge of the property where the building is located (for simplicity vs. from edge of building which is further) to the edge of the closest residential property line (for simplicity) and it was 2,500 feet.

Article VI, 4 – The Facility cannot be within two thousand five hundred (2,500) feet of a registered “school” within the Township: Article VI, 7 states that the distances specified in the Ordinance shall be measured from building edge to building edge. The applicant stated within their application that the facility is more than the required 2,500 feet. The closest school is over 2 miles from the parcel. (Scripps and Stadium Rds.)
Article VI, 5 – The Facility shall not have an ingress or egress on a street or road that has an average traffic volume in excess of six thousand (6,000) vehicles per day, as calculated by averaging the three (3) most recent Average Annual Daily Traffic (AADT) counts (as available), as reported by Southeast Michigan Council of Governments (SEMCOG): The building has ingress and egress off of Premier Drive. SEMCOG’s website does not contain any traffic count reports for Premier Dr.

Article VI, 6- The Facility shall not have an ingress or egress on a street or road that directly also serves as an ingress or egress to a residential road or property located in a R-1, R-2, R-3, SF, SE, SR, RM or MHP zoning district. The building has both ingress or egress off of Premier Dr. Premier Dr. does not serve as an ingress and/or egress to any property located in a R-1, R-2, R-3, SF, SE, SR, RM or MHP zoning district.

Article VI, 7 - Distances specified in this Ordinance shall be measured from building edge to building edge. The measurements, unless noted differently, were measured from building edge to proposed building edge.

Article VI, 8 – If the Facility shall need a variance from what is set forth in Article VI Sections one (1) through six (6) above, the Applicant may submit a formal request for a variance to the Zoning Board of Appeals (“ZBA”). The ZBA shall only consider a variance request that is no more than fifteen percent (15%) out of compliance with the above location regulations: The applicant is not requesting any variances from the ZBA.

Article VI, 9 – It is the Township’s intention that Growers, Processors, Safety Compliance Facilities and Secured Transporters may operate within the same building under the following conditions: each licensed entity remains distinct and separate within different working area and separate record keeping systems: The applicant is requesting an Excess Grow - facility only.

Article VI, 10 – The location shall meet all applicable Ordinances and promulgated standards of the Township and, prior to opening, shall demonstrate to the Township that it meets the rules and regulations promulgated by the State Marijuan Regulatory Agency (MRA):

ITEMS TO BE ADDRESSED: These items are unknown at this time. It is recommended that any approval be conditioned upon this requirement.

Article VI, 11 – The Facility location shall conform to all standards of the zoning district in which it is located: This condition has been met. The building itself has received site plan approval.
Article VI, 12 – If the Facility location is currently vacant land, the applicant must submit a site plan and building plans with the Application. The application is for an improved parcel that has received site plan approval.

Article VI, 14 – Based upon an application for or amendment of a Conditional Rezoning, PUD, or other use Development Agreement of sufficient specificity, it is within the sole discretion and judgment of the Township Board of Trustees to consider and waive any or all of the Location Requirements of this Article VI based upon any or all of 3 factors listed in Article VI 14 a,b, and c.: The applicant is not requesting any waivers.

Summary: I have reviewed the application as it relates to Ordinance No. 154 Article VI – Location Requirements. I am agreeable with the recommendation to approve this application with the conditions that:

1. The applicant meets all other applicable Township Ordinances and promulgated standards of the Township and, prior to opening, shall demonstrate to the Township that it meets the rules and regulations promulgated by the State Mariujana Regulatory Agency (MRA).

Re: Marihuana Facility Permit Application; Tycoon I Operations, LLC  
180 Premier Drive, Orion Charter Township, MI 48359  
Excess Grow 1 of 3  

Dear Madam Clerk:

Please find attached a Marihuana Facility Permit Application and all exhibits for three Excess Grow permits to operate at 180 Premier Drive, Orion Charter Township, MI 48359. This application represents one of three of the excess grow permits.

If the Township believes any additional information or materials are required for this filing, please do not hesitate to contact us. Kindly direct all communications regarding this application to Aaron Fogleman either by phone at 248.920.8770 or by email at licensing@gloriouscanna.com.

We look forward to contributing significantly to the Township through economic development, training and employment, education and outreach, and to becoming a valuable community partner.

Thank you for your consideration.
ORION ORDINANCE 154 INITIAL PERMIT APPLICATION
Ordinance 154, Licensed Marihuana Facilities Ordinance

Pursuant to the Charter Township of Orion Ordinance 154, Licensed Marihuana Facilities Ordinance, the following application is intended to collect information and documentation establishing the applicant’s conformance with the ordinance. All applicants should note that the approval of a Marihuana Permit will be based upon the accuracy and completeness of the information provided. In the event applications are received in excess of the permitted number of locations within the Ordinance or two or more applicants have similar qualifications, the Charter Township of Orion reserves its right to approve a permit which in the opinion of the Township best meets its goals and safeguards as set forth in the Ordinance. No financial or other right is established by the payment of the non-refundable application fee. All applications for renewal of a permit shall be reviewed per the standards set forth in the Ordinance. The Charter Township of Orion reserves the right to approve or deny the permit based upon the failure of any applicant to establish the satisfaction of the Township any requirement, standard or goal of the Ordinance. The applicant understands this determination may involve a subjective interpretation of the application. Any permit granted by the Township is contingent upon the State of Michigan granting a state license for the specific license applied for under this ordinance.

SECTION A- APPLICANT

1. Name of Applicant: Tycoon I Operations, LLC
   Authorized Signer (of not an individual): Daryl Heller
   Address of Applicant: 2055 Crooks Rd, Suite B
   Rochester Hills, MI 48309
   Phone Number: 248.920.8770

5. If the Applicant or owner or any operator is a licensed caregiver under the Michigan Medical Marihuana Act, please list their name and address, and caregiver ID number issued by the State of Michigan, N/A

6. For any corporation or other legal entity who has a financial interest or affiliation with the requested permit, please state the following:

   Name: Please see Organization Structure in Exhibit I  
   Name of Authorized Signer:  
   Address:  
   Interest or Affiliation:  

**SECTION B - FACILITY LOCATION**

7. Name of proposed facility: Oakland Business Park, Building B

8. Location of proposed facility: 180 Premier Drive  
   Orion Charter Township, MI 48359
9. Please provide a preliminary floor plan sketch showing the location of all facility operations within an existing building, or for new construction a site plan for the parcel. Attach as Exhibit “A”
   ☒ Document(s) attached. If not attached, why not and when is applicant expected to supplement: ________________________________

10. With respect to the location of the facility, please state with specificity the exact location, address, suite number and, if necessary, the location of the facility within a building or the parcel of land. This location should include the distance in feet from each property line. Attach as Exhibit “B”
    ☒ Document(s) attached.
    If not attached, why not and when is applicant expected to supplement: ________________

11. Please provide evidence of the Applicant’s property interest in the proposed location. Provide copies of documentation showing a legal and enforceable property interest. Attach as Exhibit “C”.
    ☒ Document(s) attached.
    If not attached, why not and when is applicant expected to supplement: ________________

12. Please confirm and establish that the facility is located within the Township’s Industrial Park district (“IP”); is not within 1,500 feet of a church; is not within 2,000 feet of a residence located in the R-1, R-2, R-3, SF, SE, SR, RM or MFP Zoning Districts; is not within 2500 feet of a registered school and does not have ingress or egress on a street or road that has an average traffic volume in excess of 6,000 vehicles per day as calculated and reported by Southeast Michigan Counsel of Governments. Further, please show that the facility does not have an ingress or egress on a street or road that serves as an ingress or egress to a residential road or property located in a R-1, R-2, R-3, SF, SE, SR, RM or MHP Zoning District. For each of the above criteria, please attach any and all documents which will permit the Township to calculate compliance with the Licensed Marihuana Facilities Ordinance No. 154. At a minimum, provide a map showing the facility and measured distances (building edge to building edge). Attach as Exhibit “D”.
    ☒ Documents attached.
    If not attached, why not and when is applicant expected to supplement: ________________

a) Is the Facility located in the Township’s IP (Industrial Park District) zoning district?
    ☒ Yes    ☐ No
b) Is the Facility more than one thousand five hundred (1,500) feet of any church in the Township?

☐ Yes ☐ No

c) Is the Facility more than two thousand (2,000) feet of any residence located in an R-1, R-2, R-3, SF, SE, SR, RM, or MHP zoning district?

☐ Yes ☐ No

d) Is the Facility more than two thousand five hundred (2,500) feet of any registered school within the Township.

☐ Yes ☐ No

For 10-12 above, please provide a map showing the facility and measured distances (building Edge to building edge.)

e) Does the facility have an ingress or egress on a street or road that has an average traffic volume of six thousand (6,000) or less vehicles per day, as calculated by averaging the three (3) most recent Average Annual Daily Traffic (AADT) counts (as available), as reported by the Southeast Michigan Council of Governments (SEMCOG) per the site semcog.org/Traffic-Counts?

☐ Yes ☐ No

f) Does the Facility have an ingress or egress on a street or road that does not also serve as an ingress or egress to a residential road or property located in a TR-1, R-2, R-3, SF, SE, SR, RM, or MHP zoning district?

☐ Yes ☐ No

Name of Facility ingress/egress Street or road: __________________________________________________________________________________________

13. Please state whether the Applicant will seek a variance from the Zoning Board of Appeals pursuant to Article 6(8) of the Orion Licensed Marijuana Facilities Ordinance No. 154.

☐ Yes ☒ No

If variance will be sought, specify location category(s) pursuant to Art 6 (1)- (6): ________________________________

_________________________________________________________________________________________
For each category variance sought, state the percentage the applicant will seek: _____%  
(Not to exceed 15%)  

SECTION C- FACILITY REQUIREMENTS  

14. When available, submit to the Township a copy of the Applicant's application for a license submitted to the State of Michigan, Department of Licensing and Regulatory Affairs, for each facility permit requested.  
Attach as Exhibit "E".  
☐ Document(s) attached.  
If not attached, why not and when is applicant expected to supplement: ____________________  
Phase 2 application with the state of Michigan requires a permit and signed attestation from the municipality. We expect to submit our application with the state by 03/01/2021.  

15. Is consumption and/or use of marihuana prohibited at the Facility?  

☐ ☐ Yes ☐ No  

16. Will all activity related to the Facility be done indoors?  

☐ ☐ Yes ☐ No  

17. Will all Marihuana contained within the building be in a locked Facility in accordance with the Michigan Medical Marihuana Act, MCL 333.26421 et seq., as amended ("MMMA"), the Michigan Medical Marihuana Facilities Licensing Act, MCL 333.27101, et seq., and the Michigan Regulation and Taxation of Marihuana Act, MCL 333.27951, et seq., as amended ("MRTMA") as amended?  

☐ ☐ Yes ☐ No  

18. Please set forth an operations statement, plan and or outline showing that all facility activities shall occur indoors and in a building which is locked.  
Attach as Exhibit "F"  
☐ Document(s) attached.  
If not attached, why not and when is applicant expected to supplement: ____________________  

19. Will all necessary building, electrical, plumbing and mechanical permits obtained for any portion of the structure in which electrical wiring, lighting and/or watering devices are located?  

☐ Yes ☐ No  

5  

1532
20. When available and prior to the issuance of any permit, the Applicant must submit all necessary building, electrical, plumbing and mechanical permits, as well as documented approval by the Orion Fire department showing compliance with the Michigan Fire Protection Code and confirmation that the storage of any chemical, herbicide, pesticide and or fertilizer has also been approved by the Orion Fire Department. 

Attach as Exhibit “G”.

☑ Document(s) attached.

If not attached, why not and when is applicant expected to supplement: __________________________

21. In any portion of the structure where the storage of any chemicals such as herbicides, pesticides, and/or fertilizers, do you agree to be subject to inspection and approval by the Orion Fire Department to ensure compliance with the Michigan Fire protection Code?

☑ Yes ☐ No

22. Will you ensure that no other uses, other than accessory uses, will be permitted within the same Facility other than those associated with cultivating, processing, transporting or testing marihuana?

☑ Yes ☐ No

23. Please state and/or provide documentation showing the plan that all litter and waste will be properly and safely removed and will not constitute a source of contamination in areas where marihuana is exposed. Further, please include how the applicant will dispose of rubbish so as to minimize the development of odor and minimize the potential for development of waste odor and waste from becoming an attracted, harborage or breeding place for pests. Please include a detailed description of the ventilation system. Attach as Exhibit “H.”

☑ Document(s) attached.

If not attached, why not and when is applicant expected to supplement: __________________________

a) Will litter and waste be properly removed and the operating systems for waste disposal maintained in an adequate manner so that they do not constitute a source of contamination in areas where marihuana is exposed?

☒ Yes ☐ No

b) Will floors, walls and ceilings be constructed in such a manner that they may be adequately cleaned and kept clean and in good repair?

☒ Yes ☐ No
c) Will there be there adequate screening or other protection against entry of pests, and will rubbish be disposed of so as to minimize the development of odor, minimize the potential for development of waste odor, and minimize the potential for waste becoming an attractant harborage or breeding places for pests?

☒ Yes ☐ No

d) Will all buildings, fixtures and other facilities be maintained in a sanitary condition?

☒ Yes ☐ No

e) Will each Facility center provide its occupants with adequate and readily accessible toilet facilities that will be/are maintained in a sanitary condition and in good repair?

☒ Yes ☐ No

24. Please state how the Applicant intends to avoid excessive noise, dust, vibrations, glare, fumes or odors detectable to the normal senses beyond the boundaries of the property. Attach as Exhibit “I”.

☒ Document(s) attached.
If not attached, why not and when is applicant expected to supplement: ______________________

a) Will each Facility be operated in a manner that does not create excessive noise, dust, vibrations, glare, fumes or odors detectable to the normal senses beyond the boundaries of the property on which that Marihuana Facility will operate/operates or in violation of any other ordinance?

☒ Yes ☐ No

25. Please provide the plan and supporting documentation showing that all disposal systems for spent water and spent soil have been adequately and safely disposed of and accounted for.

Attach as Exhibit “J”.

☒ Document(s) attached.
If not attached, why not and when is applicant expected to supplement: ______________________

26. Please provide a security and safety plan, and at a minimum showing the facilities surveillance systems and continuous monitoring systems of the entire premise as required by the ordinance.

Attach as Exhibit “K”.

☒ Document(s) attached.
If not attached, why not and when is applicant expected to supplement: ______________________
a) Will the Facility continuously monitor the entire premises with surveillance systems that include security cameras operating 24 hours a day, 7 days a week, every day of the year, and will these recordings be maintained for a period of at least 30 days?

☐ Yes □ No

27. Please state and/or show the exterior signage or advertising identifying the facility. Attach as Exhibit “L”.
□ Document(s) attached.
If not attached, why not and when is applicant expected to supplement: __________________________
The facility will only show the numbers associated with its address

a) Do you understand and agree that any exterior signage or advertising identifying the Facility as a marihuana facility is prohibited?

☐ Yes □ No

SECTION D- BUSINESS OPERATIONS AND SECURITY

28. Active business operations shall not be open outside of the hours of 7am and 9pm.

LIST OF DOCUMENTS TO PROVIDE WITH APPLICATION

(Where applicable, an attached document(s) may satisfy more than one requested document. If so, please identify the appropriate responsive Exhibit or document in the space provided.)

**Application Documents**

**Exhibit A & B:** Floor plan or drawings to scale and elevations as required by Orion Township Ordinance No. 154 with location plan showing surrounding area as required by Ordinance.
✓ Document Attached. If not, why not: 

**Exhibit C:** Copy of Proof of Ownership, Purchase Agreement, Lease, or options for the site where the Marihuana Facility will be operated. (If leased, signed document by owner consenting of the lease to the site for a Marihuana Facility).
✓ Document Attached. If not, why not: 

**Exhibit D:** Copy of map and/or other documents in response to question 15.
✓ Document Attached. If not, why not: 

**Exhibit E:** Copy of the Applicant’s application for license submitted to the State of Michigan, Department of Licensing and Regulatory Affairs.
□ Document Attached. If not, why not: Not submitted yet. Expected 03/01/2021 

**Exhibit F:** Copy of operations statement, plan and or outline showing facility activities shall occur indoors and in locked building (question 21).
✓ Document Attached. If not, why not: 

**Exhibit G:** Copy of all necessary building, electrical, plumbing and mechanical permits, as well as documented approval by the Orion Fire Department showing compliance. (question 23)
✓ Document Attached. If not, why not: 

**Exhibit H:** Copy of plan for litter and waste removal and detailed description of ventilation system. (question 26)
✓ Document Attached. If not, why not: 

**Exhibit I:** Copy of plan to avoid excessive noise, dust, vibrations, glare, fumes or odors. (question 27)
✓ Document Attached. If not, why not: 

**Exhibit J:** Copy of plan and supporting documents showing disposal of spent water and soil safety plan. (question 28)
✓ Document Attached. If not, why not: 

**Exhibit K:** Description of a security and safety plan as required in the Orion Township Ordinance No. 154 for Licated Marihuana Facility. (question 29)
✓ Document Attached. If not, why not: 

11 1538
Exhibit L: Any proposed text or graphical materials to be shown on the exterior of the proposed facility. (question 30)
☐ Document Attached. If not, why not: **Exterior will only show building numbers.**

**Additional Documents**

1. Copy of Articles of Incorporation or Limited Liability company or Partnership Agreement or assumed name certificate.
   ✔ Document Attached. If not, why not: ________________________________

AFFIRMATION OF STAKEHOLDERS, AGENTS OR EMPLOYEES
FOR A LICENSED MARIHUANA FACILITY

1. I ___________ Daryl Heller ____________________ make this affirmation in support of the
   Application for a permit with the Charter Township of Orion for a Marihuana facility
   located at _______ 180 Premier Drive, Orion Charter Township, MI 48359 ___________.

2. I affirm that I
   a. That I am at least 21 years of age.
   b. Have never been indicted or charged with or arrested for, convicted of, plead
      guilty, or nolo contendere to a felony or to a controlled substance related
      misdemeanor.

3. I have not previously had a business license permit or registration denied or revoked or
   suspended by Orion Township.

Dated: 02/09/2021

Print name: Daryl Heller
A. & B. Facility Floor Plan
C. Lease Agreement
COMMERCIAL LEASE

This lease (the Lease), is entered into on November 1, 2020, between Premier Drive Tycoon I, LLC, with an address at 1615 S Telegraph Rd, Bloomfield Hills, MI (Landlord), and Tycoon I Operations, LLC (Tenant) on the terms and conditions listed below.

1. Description of the Premises. Landlord owns the real property, improvements and any and all structures thereon located at 180 Premier Drive, Orion Township, MI 48359 ("Premises"), consisting of approx. 72,000 square feet. Tenant shall have the right to use the Premises to conduct its daily business operations and for any ancillary or related purposes including the operation of a marihuana business.

2. Basic Lease provisions. The basic Lease provisions are stated below and further explained in the section referenced to the right of each provision:

(a) Term: 10 years (See §3)
(b) Commencement Date: February 1, 2021 (See §3)
(c) Termination date: October 31, 2030 (See §3)
(d) Options: 1 option to renew for additional 10 years (See §3)
(e) Monthly installment amount: $75,000 or $12.50; per square foot; (See §4)
(f) Security deposit: $75,000.00 (See §5)
(g) Use: Tenant's desired business operation (See §10)

3. Term. This Lease shall be for a term stated in section 2(a) commencing on the date stated in section 2(b) (the Commencement Date) and terminating on the date stated in section 2(c). The rent for the first month shall be prorated from date of occupancy, if the date of occupancy is after the first day of the month. Each succeeding lease year shall begin on the anniversary of the same date and continue until the termination of the Lease.

Provided that Tenant is not in default under this Lease at the end of the then current Lease term, Tenant shall have the right to renew the term of this Lease for the option period stated in section 2(d) by giving Landlord written notice of Tenant’s intent to renew the Lease at least 120 days before the expiration of the then current term. The renewal shall be on the same terms and conditions as in this Lease, except that the minimum rent for each renewal term shall be increased by a percentage equal to the percentage increase in the Consumers Price Index (Bureau of Labor Statistics Washington, D.C., all Cities) (CPI) during the preceding term. The percentage increase shall be determined by comparing the latest available CPI before the Commencement Date of the Lease or the prior term, whichever shall apply, and the latest available CPI on or before the expiration of the immediately preceding initial or renewal lease term. The word “term” as used in this Lease shall include any renewal term.

4. Minimum rent. Tenant shall pay to Landlord as rent the sum stated in section 2(e), payable in monthly installments due in advance, on the first day of each month during the term of this Lease. All rent shall be paid to Landlord at the address set forth above or at such other address as Landlord may designate in writing, without any prior demand and without any deduction or offset.

If Tenant shall fail to pay any amount due from it to Landlord under this Lease when that amount shall be due, a one-time late charge of $50.00 shall be assessed and thereafter the amount of rent not paid shall be subject to a service charge until that amount is paid at the lesser of the rate of 5% per month or the highest rate permitted by law.

1546
5. **Security deposit.** Tenant, contemporaneously with the execution of this Lease, has deposited with Landlord the sum stated in section 2(f) as a security deposit. The deposit shall be held by Landlord, without liability for interest, as security for the faithful performance by Tenant of all the terms, covenants, and conditions of this Lease to be kept and performed by Tenant during the term of this Lease.

If Tenant fails to keep and perform any of its covenants of this Lease, Landlord at its option may appropriate and apply the entire deposit, or so much as may be necessary, to compensate Landlord for loss or damage sustained by Landlord due to Tenant's breach. If the entire deposit or any portion is appropriated and applied by Landlord for the payment of overdue rent or other sums due and payable to Landlord by Tenant, Tenant shall, on the written demand of Landlord, forthwith remit to Landlord a sufficient amount in cash to restore the security to the original sum deposited. Tenant’s failure to do so within 5 days after receipt of demand shall constitute a breach of this Lease.

6. **Taxes.** Tenant shall pay or cause to be paid all real property taxes and special assessments levied against the Building including the Premises. Tenant shall pay all personal property taxes assessed against any personal property owned by Tenant on the Premises.

7. **Maintenance and repair.** Tenant shall maintain and repair and keep the Premises in good condition and repair, including the exterior windows and the electrical system. Landlord shall, at tenants expense, make all other repairs and replacements to the Building, including those of a structural or capital nature. Landlord shall, at tenants expense, enter into an annual maintenance contract with a licensed heating and mechanical firm for the maintenance of the heating and air conditioning equipment during the term. Landlord shall be obligated to make repairs only after Tenant has given Landlord written notice of the need for the repair, and only if the repair was not caused by the negligence or willful act of Tenant, its agents, employees, invitees, or licensees.

Tenant shall provide and pay for its own regular janitorial service to maintain the Premises in a neat and clean condition. Tenant shall be responsible for all repairs or replacements to the Building occasioned by the negligence or willful act of Tenant, its agents, employees, invitees, or licensees.

8. **Utilities.** Tenant shall have all utilities servicing the Premises metered in its own name and shall pay all charges and deposits for the utilities provided to or used in the Premises during the term of this Lease. Tenant shall also pay 100% of the water and sewer bill. Landlord shall not be liable in damages should the furnishing of any utilities be interrupted by fire or other casualty, accident, strike, labor dispute or disagreement, the making of any necessary repairs or improvements, or any other causes beyond the reasonable control of Landlord.

9. **Liability insurance.** Tenant shall indemnify Landlord and save Landlord harmless from any liability or claim for damages that may be asserted against Landlord by reason of any accident or casualty occurring on or about the Premises. Tenant shall, at its own cost and expense, obtain and keep in force a policy or policies of public liability insurance with an insurance company approved by Landlord, with liability coverage of an amount as recommended by Landlord’s insurance agent that, for the initial coverage, shall be not less than $1 million for injury or death to any one person, $3 million for injury or death to more than one person, and $500,000 regarding damage to property. Tenant shall furnish Landlord with certificates or other evidence acceptable to Landlord indicating that the insurance is in effect and providing that Landlord shall be notified in writing at least 30 days before cancellation of any material change in or renewal of the policy. All insurance policies shall name Landlord and any persons designated by Landlord as insured parties.

Any insurance maintained by either party pursuant to this section or under this Lease shall contain a
clause or endorsement under which the insurer waives all rights of subrogation against the other party, its agents or employees, regarding losses payable under the policy.

Any personal property kept on the Premises by Tenant shall be at Tenant's sole risk.

10. Use. Tenant shall use and occupy the Premises for the purpose stated in section 2(g) and for no other purpose without the prior written consent of Landlord. Tenant shall not intentionally and knowingly use the Premises for any purpose or in any manner in violation of any State law, local ordinance, rule or regulation adopted or imposed by the City in which the Premises is situated. Tenant shall not deface or injure the Premises or the Building, permit anything to be done on the Premises tending to create a nuisance or to disturb other tenants in the Building, or permit any activity in the Premises that will result in an increase of any premium, or cancellation of a policy, for insurance on the Premises or the Building.

11. Construction of leasehold improvements. Landlord grants Tenant express consent to construct certain leasehold improvements as may be required for Tenant's use. The cost of Tenant's leasehold improvements shall be paid for by Tenant. The improvements shall be constructed in a good and workmanlike manner.

12. Operations. Tenant's operations in conjunction with the Premises shall meet the requirements set forth below.

a. Tenant shall keep all garbage and refuse in the kind of container specified by Landlord. If Landlord shall provide or designate a service for picking up refuse and garbage, Tenant shall use the same at Tenant's cost. Tenant shall pay the cost of removal of any of Tenant's refuse or rubbish.

b. Tenant shall keep the Premises at a temperature sufficiently high to prevent freezing of water in any pipes and fixtures.

c. Tenant shall keep the outside areas immediately adjoining the Premises clean and free from dirt and rubbish to the satisfaction of Landlord, and Tenant shall not place or permit any obstructions or merchandise in those areas. Tenant shall water and maintain any flowers, shrubs, and trees located immediately adjoining the Premises.

d. Tenant shall only store and/or stock in the Premises goods, wares, and merchandise that Tenant intends to offer for sale at retail.

e. Tenant shall conduct its business in the Premises in a dignified manner and in accordance with high standards of store operation.

13. Restrictions on Tenant's activities. Without Landlord's written consent, Tenant shall not engage in the activities listed below.

a. Tenant shall not operate all or any part of its business in the Premises in any manner that is inconsistent with its intended use of the Premises.

b. Tenant shall not conduct any auction, fire, going-out-of-business, or bankruptcy sales in the Premises.

c. Tenant shall not operate or permit to be operated on the Premises any coin or token operated vending machines or similar devices for the sale of goods, wares, merchandise, food, beverages, or service,
including, without limitation, pay telephones, pay lockers, scale, and amusement devices without Landlord’s prior written consent.

d. Tenant and Tenant’s employees and agents shall not solicit business in the parking or other common areas of the Building, nor shall Tenant or its employees or agents distribute any handbills or other advertising matter in or on automobiles parked in the parking area or in other common areas without Landlord’s prior written consent.

e. Tenant and its employees and agents shall not park any vehicle on the Building land except in areas that are designated by Landlord for that use.

14. Assignment and subletting. Tenant agrees not to sell, assign, mortgage, pledge, or in any manner transfer this Lease or sublet the Premises or any portion of the Premises without the prior written consent of Landlord. Notwithstanding any assignment or subletting, Tenant shall remain fully liable on this Lease. Landlord’s right to assign this Lease is and shall remain unqualified. On any transfer of Landlord’s interest in the Premises in which the purchaser assumes all obligations under this Lease, Landlord shall be free of all obligations of Landlord under this Lease and shall not be subject to any liability resulting from any act or omission or event occurring after the conveyance. Tenant agrees to recognize the transferee as Landlord, and Tenant further agrees, at Landlord’s request, to execute and deliver such documents and estoppel letters as Landlord may request to assist in that transfer.

15. Estoppel letter. On not less than 10 days’ prior written notice from Landlord, Tenant shall sign and deliver to Landlord an estoppel letter that

a. certifies that this Lease is unmodified and in full force and effect (or, if modified, states the nature of the modification and certifies that this Lease, as so modified, is in full force and effect);

b. acknowledges that there are not, to Tenant’s knowledge, any uncured defaults on the part of Landlord or specifying the default if any are claimed;

c. certifies the date to which all forms of rent have been paid; and

d. certifies the amount, if any, of the security deposit paid to Landlord.

Tenant’s failure to deliver such an estoppel letter within the 10 days shall be conclusive on Tenant that

a. this Lease is in full force and effect, without modification except as may be represented by Landlord;

b. there are no uncured defaults in Landlord’s performance;

c. not more than one month’s rent has been paid in advance; and

d. no security deposit has been paid except as may be represented by Landlord.

16. Acceptance of Premises. The occupancy by Tenant of the Premises shall constitute an acknowledgment by Tenant that the Premises are then in the condition called for by this Lease.

17. Damage or destruction. If, during the term of this Lease, the Premises shall be partially or totally destroyed by fire or other casualty covered by insurance so as to become partially or totally untenable,
the same shall be repaired as promptly as possible with the insurance proceeds unless this Lease is terminated. In the event of damage or destruction, if this Lease is not terminated, the rent shall be abated proportionately to the loss of use suffered by Tenant.

If, during the term of this Lease, the Premises shall be partially or totally destroyed by fire or other casualty, and the cost of restoring the Premises to its condition prior to the damage shall equal or exceed 40 percent of its fair replacement value immediately prior to the damage, or if the Premises are damaged by any casualty not insured against by Landlord, Landlord shall have the right to terminate this Lease by giving Tenant written notice of its election to do so within 15 days after the date on which the damage occurs. On the giving of notice, the Lease shall terminate as of the date on which damage occurred and the rent shall be adjusted to that date. In default of notice by Landlord, this Lease shall continue and Landlord shall cause the Premises to be repaired or restored with due diligence.

18. Condemnation. If the whole or any part of the Premises shall be taken by any public authority under the power of eminent domain, the term of this Lease shall cease on that part to be taken from the day the possession is acquired by the public authority and the rent shall be paid up to that date. If the portion of the Premises taken substantially impairs the usefulness of the Premises for the purpose for which the Premises were leased, Tenant shall have the right either to terminate this Lease or to continue in the possession of the remainder of the Premises under the terms and conditions of this Lease except that the rentals shall be reduced in proportion to the amount of the Premises taken, and in the latter event, Landlord shall promptly restore the remainder to a reasonably tenantable condition. All damages awarded for the taking shall belong to and be the property of Landlord.

19. Alterations and signage. No improvements, alterations, additions, or physical changes shall be made on the Premises by Tenant without the prior written consent of Landlord.

Tenant agrees that it will not place or maintain on any exterior door, wall, or window of the Premises any signs, awning or canopy, or advertising matter, or other thing of any kind and will not place or maintain any decoration, lettering, or advertising matter on the glass of any window or door of the Premises that is not in conformity with all applicable governmental rules and regulations and the rules and regulations of the Building as set forth by Landlord and further, without first obtaining Landlord’s prior written approval. Tenant further agrees to maintain such sign, awning, canopy, decoration, lettering, advertising matter, or other thing as may be approved in good condition and repair at all times. Tenant further acknowledges that Landlord may, at its option, regulate the lettering size, style, and color of Tenant’s sign so that all signs in the Building are of a like size, color, style of lettering, and like material. Tenant agrees that it will conform its sign to that as regulated by Landlord for the general use in the Building, regardless of how and in what manner Tenant normally designs its name for use in its sign and further regardless of whether or not Tenant uses the form and style of its sign as a trademark.

All alterations and improvements, but not moveable equipment and trade fixtures, put in at the expense of Tenant shall be the property of Landlord and shall remain on and be surrendered with the Premises at the termination of the Lease; provided, however, that Landlord may require that Tenant remove the alterations and improvements and repair any damages to the Premises caused by the removal.

20. Remedies and default. If Tenant shall default in the payment of any sums to Landlord when due and shall not cure such default within 7 days; or if Tenant shall default in the performance of any other covenant or condition of the Lease and shall not cure such other default within 30 days after written notice from Landlord specifying the default; or if Tenant or its agent shall falsify any report to be furnished to Landlord pursuant to the terms of this Lease; or in case Tenant shall be adjudicated a bankrupt or make any assignment for the benefit of creditors; then, in any such event, Landlord may
either (a) accelerate the full balance of the rental payable for the remainder of the term and sue for such sums or Landlord may terminate this Lease or (b) reenter the Premises, without terminating this Lease, and dispossess Tenant or any other occupant of the Premises and remove Tenant's effects and relet the same for the account of Tenant for such rent and on such terms as shall be satisfactory to Landlord, crediting the proceeds, first to the costs and expense of reentry, alterations and additions, and the expense of reletting, and then to the unpaid rent and the other amounts due during the remainder of the term. Tenant shall remain liable to Landlord for any unpaid balance.

In case suit shall be brought for recovery of possession of the Premises, for the recovery of any rent or any other amount due under the provisions of this Lease, or because of the breach of any other covenant on the part of Tenant to be kept or performed, and a breach shall be established, Tenant shall pay to Landlord all expenses incurred, including reasonable attorney fees, which shall be deemed to have been incurred on the commencement of the default and shall be enforceable whether or not the action is prosecuted to judgment.

21. Access to Premises. Landlord shall have the right to enter on the Premises at all reasonable hours to inspect and for access to the Premises to install, maintain, use, repair, and replace pipes, ducts, lights, conduits, plants, wires, floor coverings, and all other mechanical equipment serving the Premises.

22. Rules and regulations. Landlord reserves the right to adopt from time to time rules and regulations for the operation of the Building that are not inconsistent with the provisions of this Lease. Tenant and its agents, employees, invitees, and licensees shall comply with all those rules and regulations. Any such rules shall not dictate the days or time of business operation.

23. Waiver. The failure of Landlord to insist on a strict performance of any of the terms, covenants, or conditions of this Lease or rules and regulations of the Building shall not be deemed a waiver of any subsequent breach or default in the terms, covenants, and conditions or rules and regulations. This Lease may not be changed, modified, or discharged orally.

24. Notices. All notices required under this Lease shall be in writing and shall be deemed to have been given if either delivered personally or mailed by certified or registered mail to Landlord or to Tenant at their respective addresses set forth above or to such other address as either party may furnish in writing during the term of this Lease.

25. Quiet enjoyment. Landlord covenants and agrees with Tenant, its successors, and assigns that on Tenant's paying the rent and observing and performing all the terms, covenants, and conditions on Tenant's part to be performed and observed, Tenant may peaceably and quietly hold, have, occupy, possess, and enjoy the Premises for the full term of this Lease.

26. Subordination to mortgage. Any mortgage now or hereafter placed on the Premises shall be deemed to be prior in time and senior to the rights of Tenant under this Lease. Tenant subordinates all of its interest in the leasehold estate created by this Lease to the lien of any mortgage. Tenant shall, at Landlord's request, execute any additional documents necessary to indicate this subordination including, if requested, an estoppel letter as set forth in section 15. If Tenant fails to supply the estoppel letter, the provisions in section 15 to cover that failure shall apply. Notwithstanding the foregoing, Tenant's possession of the Premises under this Lease shall not be disturbed by any mortgagee, owner, or holder of note secured by a mortgage placed on the Premises, unless Tenant shall breach any of the provisions of this Lease and the lease term of Tenant's right to possession shall have been lawfully terminated in accordance with the provisions of this Lease.
27. **Building revisions by Landlord.** Landlord reserves the absolute right at any time and from time to time to make changes or revisions in the Building, including such changes to the parking lot, driveways, signs, and sidewalks, by making additions to, subtractions from, or rearrangements of the improvements in the Building, as long as the revisions do not materially affect Tenant’s use of the Premises.

28. **Holding over.** If Tenant remains in possession of the Premises after the expiration or termination of the Lease, it shall be deemed to be occupying the Premises as a tenant from month to month, subject to all the conditions, provisions, and obligations of this Lease insofar as the same can be applicable to month-to-month tenancy, except that the rent shall increase to 2 times the rent owing at the end of the lease term. The month-to-month tenancy shall be cancelable by either party on 30 days’ written notice to the other.

29. **Recording.** Tenant shall not record this Lease without the written consent of Landlord; however, on the request of either party the other party shall join in the execution of a memorandum or so-called “short form” of this Lease for the purpose of recordation. The memorandum or short form of this Lease shall describe the parties, the Premises, and the term of this Lease and shall incorporate this Lease by reference.

30. **Captions and headings.** The captions and headings used in this Lease are intended only for convenience and are not to be used in construing this Lease.

31. **Applicable law.** This Lease shall be construed under the laws of the state of Michigan. Venue for any disputes under this agreement shall lie in Oakland, Michigan. If any provision of this Lease or the application to any person or circumstances shall, to any extent, be invalid or unenforceable, the remainder of this Lease shall not be affected and each provision of this Lease shall be valid and enforceable to the fullest extent permitted by law.

32. **Successors.** This Lease and the covenants and conditions shall inure to the benefit of and be binding on Landlord, its successors, and assigns and shall be binding on Tenant and permitted assigns of Tenant.

33. **Effective date.** The parties have caused this agreement to be signed and shall be effective as of the day and year first above written.

*(signature page to follow)*
IN WITNESS WHEREOF, the parties have respectively signed and sealed this Lease as of the day and year first above written.

Business & Operations Plan

PREAMBLE:
Tycoon Operations, LLC ("Applicant") will strictly comply at all times with applicable state law and local ordinance codes, including rules and emergency rules that may, from time to time, be promulgated by the state or Orion Township. All business activities will take place indoors in a locked facility. Applicant has retained a law firm with established expertise in Michigan marihuana law to ensure continuing education and compliance with the laws as they evolve. The statements made in this application are made with a clear and thorough understanding of state and local requirements as they exist on the date of application, but the operations of Applicant will be amended to comply with all future derivations of the state and municipal laws.

I. OVERVIEW
Applicant is a Michigan limited liability company formed to operate twenty four (24) commercial marihuana GROWER (Class C) facilities whose primary mission is to provide a source of high-quality marihuana to processors and provisioning centers across the state of Michigan.

II. ADMINISTRATION
A. Location & Zoning
   i. Buffers
      a. The distances described are measured horizontally between the nearest property lines.
      b. The facility is not within 1,000 feet of any educational institution or school, college or university, church, house of worship or other religious facility, licensed child care, preschool, public library, or public or private park.
      ii. Applicant is leasing the property pursuant to the attached lease and the owner/lessor of the property authorizes the use of the property as a marihuana facility in the lease agreement, which is attached.

B. Organizational Structure
   i. The Applicant is organized as a Michigan limited liability company and is in good standing.
   ii. The members, owners, directors, officers, and managers of the Applicant are listed in the Organization Structure.
iii. The members, owners, directors, officers, and managers of Applicant meet all eligibility requirements to own and operate a marihuana grower facility as set forth in state law and local ordinance.

a. No member, owner, director, officer, manager or any person having an ownership interest in the application has an interest in a secure transport facility license or a safety compliance facility license.

b. The Applicant meets all eligibility requirements to own and operate a marihuana grower facility as set forth in state law and local ordinance.

iv. The Applicant has never applied for been granted any commercial license or certificate issued by a licensing authority in Michigan or any other jurisdiction that has been denied, restricted, suspended, revoked or not renewed.

C. Permits & Licenses

i. This Business and Operations Plan is submitted as an addendum to the applications for Ten Orion Township permits to operate a business and the Orion Township special use/site plan application.

ii. All operations in this Business and Operations Plan will comply with regulations issued by the Department of Licensing and Regulatory Affairs (LARA).

iii. Applicant intends to apply for, obtain, operate, and comply with a state license to operate a grower facility under the MMFLA and MRTMA.

iv. The business will not open for operation until it receives a state license to operate under the MMFLA and MRTMA and all applicable permits and licenses from Orion Township.

v. Upon granting of a permit to operate a grower facility, Applicant will prominently display the original Orion Township permit at the Permitted Premises in a location where it can be easily viewed by the public, law enforcement, and administrative authorities.

vi. At all times the facility will hold a valid local Permit and State Commercial Marihuana Facility License for a Grower.

vii. In addition to complying with the Orion Township Ordinance Authorizing and Permitting Commercial Marihuana Facilities, Applicant will comply with all Township Ordinances, including without limitation, the Township Zoning Ordinance, as well as the requirements of the County Road Commission, County
Building Inspector, County Drain Commissioner, District Health Department, Soil Erosion Officer, County Conservation Service, areas fire departments, Michigan Department of Natural Resources, Michigan Department of Environmental Quality, and any other applicable township, county, state and federal statutes.

viii. Applicant will have available, at all times, documentation that local and State sales tax requirements, including any requirement for a license, are satisfied.

ix. Applicant will provide updated operational and security plans to Orion Township upon request and prior to any proposed changes in its operations.

D. Inspections

i. Applicant will provide access to the facility for inspection to any federal, state, or local law enforcement officer to ensure compliance with the permit.

ii. Applicant consents to inspections as required in the MMFLA and pursuant to the Orion Township ordinance.

III. OPERATIONS

Applicant proposes 24 state-licenses in a single marihuana grower facility for the cultivation, drying, trimming, curing, and packaging of marihuana for sale to a processor or provisioning center pursuant to the requirements and restrictions of the Marihuana Facilities Licensing Act, PA 281 of 2016, and all future derivations thereof. This facility will be located in a secure industrial facility.

A. Compliance with State Regulations

Applicant will meet all operating regulations established by LARA and the Marihuana Licensing Board for Growers, including without limitation, any standards, procedures, and requirements for:

i. quality control
ii. chain of custody
iii. marihuana storage
iv. waste disposal
v. labeling and packaging
vi. storage of chemicals

B. Description of the Facility

Applicant’s facility will be used exclusively for the cultivation, drying, trimming, curing, and packaging of legal usable marihuana for sale to processors or provisioning centers.

C. Entry to Facility

Generally, the public will not be allowed entry to the facility. Notwithstanding the forgoing, Applicant will not allow entry to the facility to anyone under the age of 18.
D. Employees
Applicant anticipates having between fifteen (15) and (65) full and part-time employees, as many as possible of whom will be local community residents. None of Applicant’s employees will be registered primary caregivers during the employment with Applicant. Please reference the staffing plan for a detailed list of potential positions.

E. General Policies
   i. Applicant will only sell or transfer marihuana to a processor or provisioning center.

   ii. Applicant will only use secure transporters in the distribution or exchange of marihuana or currency with processors or provisioning centers.

   iii. Applicant will not promote the unlawful use of marihuana or any other drug or provide or otherwise make marihuana available to any person who is not legally authorized to receive Marihuana under state law.

   iv. No owner, the Applicant, or any employee of Applicant will grow marihuana in the Permitted Premises for his or her own use.

   v. The following activities are prohibited on the Permitted Premises:

      a. the sale, consumption, or use of alcohol, or controlled substances;
      b. smoking or consumption of marihuana.

F. Cultivation Plan
   i. Propagation
      a. Lighting
      b. Watering
      c. Nutrient Application
      d. Integrated Pesticide Management

   ii. Harvesting and Trimming

   iii. Drying and Curing

   iv. Packaging

   v. Distribution

      a. All marihuana products will be validated from a verified transport manifest, created from the statewide monitoring system. The manifest includes a detailed form with the number of packages and detailed content for confirmation/validation with secure transporters and purchasers of the shipment (processors or provisioning centers).

      b. Each transport shipment will be processed in the following manner:
        1. Entry of shipped inventory into the statewide monitoring system.
        2. Confirmation with Secure Transporter of valid and verified transport manifest, including product count, weight of each package or item.
c. State certified scales will be used to verify and weigh all marihuana, in whatever form.

**G. Inventory Management**

i. Applicant will not control or have on the Permitted Property an amount of marihuana plants or usable marihuana that exceeds any amount permitted by the state License or the Township permit.

ii. Tracking and Monitoring

Applicant will use a third-party inventory control and tracking system to interface with the statewide monitoring system. The third-party inventory control and tracking system will have the capabilities necessary to comply with the requirements applicable to a grower licensee:

   a. Track all marihuana plants and packages;
   b. Track lot and batch information throughout the entire chain of custody;
   c. Track transportation of product;
   d. Track marihuana waste;
   e. Track all marihuana product transfers;
   f. Track sales and returns;
   g. Track marihuana plant, batch, and product destruction;
   h. Perform batch recall tracking;
   i. Report and track loss, theft, or diversion of marihuana products;
   j. Receive testing results electronically from a safety compliance facility;
   k. Provide access to state agencies and law enforcement as required;
   l. Report all inventory discrepancies.

iii. Applicant will enter all transactions, current inventory, and other information into the statewide monitoring system as required by the MMFLA, the Marihuana Tracking Act, and any associated regulations.

iv. Inventory reconciliation - At the end of each day, physical inventory counts will be reconciled with the third-party inventory control and tracking system.

v. Returns

**H. Quality Control**

i. Sampling (by Licensed Safety Compliance Facility)

ii. Batch Testing (by Licensed Safety Compliance Facility)

iii. Transport to Safety Compliance Facility (by Secured Transporter)

**I. Signage and Advertising**
i. Applicant has no proposed signage at this time, but will amend this plan accordingly and provide the township with its sign permit application if and when it does wish to propose signage.

ii. Applicant will not display pictures, photographs, drawings or other depictions of Marihuana or Marihuana Paraphernalia on the outside of the Permitted Premises, nor will such pictures, photographs, drawings, or other depictions of Marihuana or Marihuana Paraphernalia be visible outside of the Permitted Premises on the Permitted Property.

iii. The words "Marihuana, "or "cannabis," and any other words, used or intended to convey the presence or availability of Marihuana will not appear on the outside of the Permitted Premises, nor will "Marihuana, "or "cannabis," and any other words, used or intended to convey the presence or availability of Marihuana be visible outside of the Permitted Premises on the Permitted Property.

J. Visibility of activities
   i. All activities of the facility, including without limitation, the cultivation, harvesting, trimming, drying, curing and packaging of Marihuana, and all other related activity permitted under Applicant’s License or Permit will occur indoors.

   ii. No marihuana or paraphernalia shall be displayed or kept in the facility so as to be visible from outside the Permitted Premises.

K. Security
   i. Plan
      Applicant will maintain, at all times, a centrally-monitored security and alarm system on the premises that meets or exceeds state regulatory requirement.
      Applicant will maintain policies and procedures to include:

         a. Regular drills of the security protocols and emergency plans;
         b. Controlled and restricted access to the Permitted Property and Permitted Premises to employees, agents, and owners of Applicant, and law enforcement or state or local authorities as necessary to ensure Applicant’s compliance with state and local laws.
         c. Internal and external cameras with 24-hour monitoring and off-site recording;
         d. Installed panic buttons
         e. Limitations on the amount of currency and marihuana stored onsite;
         f. Cooperation and coordination with local law enforcement;
         g. Permitted premises will only be able to be accessed through a combination of security locks and access codes; and
         h. The ability to remain operational during a power outage with battery back-up.

   ii. Security Surveillance Cameras
Security surveillance cameras will be installed to monitor all entrances, along with the interior and exterior of the premises, which will capture all areas of the property unless otherwise prohibited by law, including unobstructed video surveillance of all enclosed areas, unless prohibited by law, including all points of entry and exit that shall be appropriate for the normal lighting conditions of the area under surveillance.

iii. Security Recordings and Documentation
   a. All security recordings and documentation will be preserved for at least 30 days and made available upon request by any law enforcement.

iv. Robbery and Burglary Alarm System
   Applicant will employ an alarm system that meets state requirements and obtains state approval. Specifically,
   a. Applicant will employ a centrally alarmed and monitored security system that will be monitored 24 hours a day, 7 days a week for the Permitted Premises pursuant to the attached service agreement.
   b. There will be a perimeter alarm on all entry points and perimeter windows of the Permitted Premises.
   c. A failure notification system will provide an audible, text, or visual notification of any failure in the surveillance system. A panic button and alarm will directly notify the local law enforcement agency having primary jurisdiction.

v. Storage of Marihuana and Currency
   a. Applicant will store usable marihuana that is not otherwise in the process of being dried, trimmed, cured, packaged, or distributed including packaged and un-packaged usable marihuana, and currency in a secured locked safe that is permanently affixed to the premises.

I. Ventilation Plan/Air Filtration System
   i. Applicant’s facility operation and design will provide sufficient measures and means to minimize any impact to adjacent uses, including the control of odor by maintaining and operating an air filtration system so that no odor is detectable outside the Permitted Premises.

   ii. Applicant’s equipment and methods to control odor include a comprehensive air filtration system, consisting of
      a. Activated Carbon Filters.
      b. Heavy Duty Ventilation Fans.

   iv. Details and specifications of the equipment used for Applicant’s ventilation and air filtration plan are attached.
v. The total enclosed space in which harvested marihuana will be stored amounts to approximately 300 sq. feet. Applicant will use an advanced filtration system rated appropriately for the area.

vi. The air filtration system will be maintained in working order at all times and will be in use at all times. Filters will be changed a minimum of once every 365 days.

vii. In addition to the use of an air filtration system, Applicant will mitigate odors by keeping doors and windows closed at all times, except the minimum amount of time needed to allow ingress and egress to the building.

M. Toxic/Flammable/Hazardous Materials
i. Applicant’s use of toxic, flammable, or other harmful, hazardous, or combustible materials will be limited to plant nutrients and pesticides and cleaning products. The facility may use the following nutrients and pesticides:

   a. CocoTech Bloom A
   b. CocoTech Grow A
   c. CocoTech Premier Nutrient
   d. FloraBloom Nutrient System
   e. FloraGrow Nutrient System
   f. Golden Tree Plant Food.
   g. Nutra Green 5-10-5 plus Micronutrients Foliar Spray
   h. Diatomaceous Earth
   i. Neem Oil
   j. PyGanic Pro Pyrremethrin 5% MGK Miticide

ii. The facility may use the following commercial cleaning products, along with the following household products: materials regulated by government agencies:

   a. Ultra Dawn Lemon Dish Soap
   b. Nature’s Source Toilet Bowl Cleaner
   c. Fantastik Antibacterial Heavy Duty All Purpose Cleaner
   d. Windex Original Glass Cleaner
   e. Novo Foaming Instant Hand Sanitizer
   f. QuickSan Food Contact and Surface Sanitizer

iii. The materials will be stored in secured and ventilated cabinets. All combustible or reactive materials will be stored separately.

iv. Materials will be handled, stored, and disposed according to specifications in each Material Safety Data Sheet.
N. Waste Product Disposal
Applicant will dispose of unusable or waste marihuana in accordance with the MMFLA, MRTMA, and applicable local ordinance guidelines to prevent the waste marihuana from being possessed or ingested by any person and animal.

i. Applicant’s current, preliminary waste disposal plan consists of shredding and grinding damaged and unusable plants, roots, seeds, stalks and harvested marihuana and mixing it with one of several lawful over-the-counter products, such as sawdust or cat litter to render it unusable, unrecognizable, and unpalatable, and then discarding in secured bags as part of its solid waste disposal.

ii. The State of Michigan’s Marihuana Licensing Board may require or suggest as a part of its regulations, expected sometime in November, one or more alternative waste disposal options including, but not limited to, waste disposal through the secured transporter system, waste mitigation through THC extraction methods (rendering the marihuana waste product inert) or some other method. Applicant warrants that it will comply with all state and local requirements as to waste disposal, but further commits to its current preliminary plan to render all marihuana waste unrecognizable, unusable and inaccessible regardless of state or local requirements.

IV. COMMUNITY RESPONSIBILITY AND CONCLUSION
Although marihuana has been used as a medicine across the globe for hundreds of years, its commercial production and sale is new to us, this state, and your community. We appreciate the opportunity to show Orion Township that Marihuana can be safe and accessible to a community while providing jobs and local economic growth. We look forward to being productive and responsible community partners, and will work with the Township toward that goal.

PAYMENT OF PERMIT FEE CONSTITUTES ACCEPTANCE OF THE ABOVE TERMS.
H. Litter & Waste Removal Plan
Litter & Waste Removal Plan

All biological waste product will be rendered unrecognizable by grinding it in an industrial grinder and combining it with other non-consumable solid waste, including the media in which we cultivate plants, Rockwool. The inclusion of inert material renders the combined solid waste unusable. All waste will be stored in a locked dumpster that is emptied at minimum once per week.

The company intends to employ particulate filtration in areas where waste is stored and processed, which minimizes potential exposure and impact to the outside environment. The facility, which is designed around large water chillers, is designed to circulate air rather than ventilating it. This process helps to avoid excess exposure of odors to the surrounding community.
I. Noise, Dust, Vibrations, Glare & Fumes Plan
Noise, Dust, Vibrations, Glare, Fumes or Odors Plan

Excessive Noise, Dust, Vibrations, Glare and Marijuana odors emanating from our facilities are a valid concern for the community and our neighbors. This plan details the measures deployed to ensure that minimal noise, dust, vibration, glare, fume or offensive odor is emitted from the facility, the response if it occurs, and that the measures remain effective over time.

This plan is our commitment to the Orion Township that we will be in compliance with regulations of the city and the administrative rules and that we will not operate in a manner creating noise, dust, vibration, glare, fumes, or odors detectable to normal senses beyond the boundaries of the property.

We will not vent noxious dust, odors, gases or fumes to surrounding areas.

We will mitigate dust and noxious odors by engaging in the following activities:

1. Adequate design measures to seal the building;
2. Utilizing a heating, ventilation, and cooling (HVAC) System designed to move an appropriate amount of air (cfm) throughout the facility to disperse odors;
3. Using industry leading MERV-13 HEPA filters in addition to FILTR, Blue Zone & Puradigm units in each room throughout the facility.

I. DESIGN MEASURES TO SEAL THE BUILDING

We intend to renovate our building in a manner that focuses on effectively sealing all interior rooms and exterior access points. Each room is enclosed in 12”, interlocking insulated panels which are designed to form an airtight seal. For additional protection, butyl caulk is applied at each joint to accommodate any flaws in the panels.

Caulk is also applied to seal any openings into the panels, including plug outlets, doorways, sprinklers, and anything else that could allow air flow. Our doors are fiberglass, weather stripped and employ a drop seal to press additional weather stripping against the floor when closed to maximize the seal all the way around.

II. MERV-13 HEPA FILTRATION SYSTEM

The purification of air throughout our facility is a top priority for both the health of the plants and the environment we subject our employees and the local community to. In an effort to target and reduce contamination, mold, bacteria, odor, dust, and fumes, we employ a variety of filtration systems in all rooms where marihuana plants are grown.

Each room will utilize clean room grade HEPA filtration units filtering down to 0.01um and providing up to 5 complete air changes per hour. These units also utilize a carbon filter which focuses directly on the removal of smells and volatile organic compounds.

In addition to the HEPA filters, each room will have Puradigm units to help reduce airborne and surface contaminants, and Agrify Bluezone UV filtration units, known to destroy 99.9%+ of both bacteria and mold. Both of these systems aid in odor elimination and containment.
As filters age, they become clogged with impurities, and ultimately less effective. As such, we will develop a maintenance schedule to inspect the filtration units regularly and to replace them per the manufacturer’s recommendation or at an expedited pace based on their usage in these environments.

III. VIBRATION MITIGATION
Exterior mounted cooling equipment is mounted on isolation pads to dramatically reduce vibrations that would otherwise be created by such large equipment.

IV. EVALUATING THE EFFECTIVENESS OF NOISE, DUST, VIBRATIONS, ODOR & FUME CONTROL MEASURES

Key site leadership roles will be trained to assess the production and escape of odors, dust, fumes and glare from the facility. We also anticipate a strong and friendly relationship with the local communities and will welcome feedback about any exhaust from the building. Should these assessments or the community ever determine that our levels are beyond acceptable, we will re-evaluate this plan and engage professionals to further refine our practices and properly mitigate the problem.
J. Spent Water & Soil Safety Plan
Spent Water & Soil Safety Plan

Wastewater Treatment Plan:
Wastewater generated during the cultivation of marihuana of marihuana products shall be disposed of in compliance with all applicable state and local laws and regulations. Despite the amount of water used in the cultivation process, there is very little water waste. The majority of water is used by the plants or evaporated out of the collection dishes upon which the plants sit. Any water that is used to rinse the plants or clean the facility or for any other purpose shall be rendered clean through both reverse osmosis and UV light after standard filtration methods, and either reused by the facility or discharged through a monitoring man hole where it can be monitored to comply with all local ordinances.

The Cultivation Facility will include an Ecowater RO purification system. Ecowater Purification Systems are the leading water filtration manufacturer in the industry, helping cultivators diagnose and solve every water problem imaginable. Ecowater designs systems to treat any water source including city water, well water, nutrient runoff water, wastewater, and condensate runoff.

Soil Safety Plan
The cultivation facility will not use soil – instead, all media for the purposes of growing plants will be rockwool, a lightweight hydroponic substrate made from spinning molten basaltic rock into fine fibers which are then formed in a range of cubes. This product will be disposed of through the grinder and mixed with biological waste in a locked dumpster.
K. Security Plan
SECURITY PLAN

Tycoon I Operations is committed to being a leader in Michigan's cannabis industry and a trusted resource for the communities, consumers and clients we service. Essential to fulfilling this commitment is our ability to effectively protect our product from criminal repurposing throughout the facilities.

This Security, Surveillance and Diversion Prevention Plan details the physical and electronic security measures we employ to deter, detect, and inhibit the theft, diversion, and loss of Marijuana, and to prevent unauthorized conduct with respect to the storage and dispensing of Marijuana.

We have extensively researched and designed our Grow Facility to maximize security. The facility shall be built with enhanced security and stringent safety features to eliminate any potential for diversion. Our facility will be equipped with numerous motion sensors and exterior intrusion sensors that will be linked to local law enforcement. To prevent unauthorized entry and stop diversion, theft, or loss of marijuana, every square inch of the facility shall be continually monitored by high definition security cameras and commercial-grade equipment. Security systems will be positioned so they closely monitor activities at strategic risk points and watch for any strange behavior or movement. Marijuana shall not be visible to any person from the exterior of the Grow Facility.

We will create a culture of responsibility, accountability, and strict security surrounding all aspects of the facility. The stringent operating procedures outlined below demonstrate a commitment to employee and public safety above all other operating values. From receipt to sale, we are committed to preventing diversion by implementing a comprehensive security strategy. Employees will be extensively trained to understand that security is a primary obligation for everyone at our facility.

We will have comprehensive security policies and procedures for the Grow Facility, which address measures to deter and prevent unauthorized entrance into areas containing marijuana and theft of marijuana at the facility. Employees will receive on-going training regarding our security protocol and the Site Manager shall ensure all employees follow policies and procedures regarding the security of the facility. The Site Manager shall implement and maintain employee training policies and procedures for security training. All employees shall aid in the security of the Grow Facility through prevention, awareness, reporting, and responsible incident management. All employees shall be required to immediately report security breaches and incidents of non-compliance to their supervisor, and in case of sudden emergency, immediately to law enforcement by either striking a panic button or calling law enforcement directly.

We will make our facility available and open to inspection, at all times, for law enforcement, representatives of the Department and law enforcement, when necessary to perform their duties.

PHYSICAL SECURITY

The facility shall be designed to maximize security and stop the potential for diversion. Access to the secure facility shall include safety and security mechanisms that prevent unauthorized entry. All doors will be burglary-resistant material, with commercial-grade, non-residential locks. Additionally, exterior doors, as well as limited access area entries, will be automatic locking and equipped with electric strike and keypad access hardware. All doors are setup to fail secure, which means in the event of a power failure, the doors will remain locked and only be accessible via a master key.
The Grow Facility’s main entrance vestibule shall include a mantrap to control passage from the public access area to the limited access area. We will strive to install Underwriter’s Lab (UL) approved locks and lock cylinders, which are rated as burglary resistant. We will also install local alarms on all fire exits and other perimeter doors not authorized for employee or visitor use. Our alarm system will be monitored after business hours with live monitoring through a licensed security monitoring company. If there are ever any after-hours issues, the live monitoring system will be linked directly to law enforcement and the Site Director, among other key personnel.

We shall ensure that trees, bushes, and other foliage outside of the premises do not allow people to conceal themselves from sight. The surveillance system’s cameras shall be capable of certain identification of persons (including facial features), license plates, vehicles, the immediate surrounding areas, and any activities occurring within any area of the premises, and the parking area, and within twenty feet (20’) of all entry and exit points of the premises. Cameras will cover every square inch of the facility.

To provide first responders with immediate access into our facility during a time of emergency or inspection, we will install a Knox Rapid Access System to remove any barriers to entry when first responders respond to an emergency call.

**LIGHTING**

Exterior lights at all points of entry and exit shall remain constantly illuminated to allow for recording. Lighting on the outside perimeter shall allow cameras the ability to record any suspicious activity. Timed-delay switches shall be used to turn off non-essential interior lights, which shall not remain lit after employees have left the facility. Motion detecting lights shall be installed in areas that are entered and exited infrequently. The exterior of the facility shall be lit by commercial LED light fixtures sufficient to facilitate twenty-four-hour surveillance. Exterior lights in the parking area will remain on from dusk until dawn.

**SECURITY EQUIPMENT**

Our security equipment shall be designed, installed, and maintained to deter and prevent unauthorized entrance and theft of marijuana products at the facility. Security equipment shall be installed by a commercial, licensed service provider. All equipment shall be compliant with Department rules and all state and local laws, regulations, ordinances, and other requirements.

**ENTRY AND EXIT ELECTRONIC EQUIPMENT AND PLACEMENT**

Our entry and exit electronic access equipment will consist of the following:

- Electric strike locks on all doors in the Grow Facility with the ability to override access control for emergency exit even during a power outage.
- RFID proximity card access control devices for all interior doors and all exterior entrances and exits into the Grow Facility.
- Access control system that allows for programming or uploading individual user permissions and allowed entry times, as well as operations-specific information including employee photos.
- A backup power supply system that immediately provides power for at least twenty-four (24) hours in the event of a power outage.
- Main system operating equipment will be kept in the security room, a limited access area.
• Access control system that monitors and records:
  o Identification of employees or visitors entering and exiting.
  o Date and time of entry and exit.
  o Length of time in specific area.
  o Any unauthorized attempts for access.

ALARM SYSTEM

We shall have a professionally monitored security alarm system installed at our facility. Monitoring of the alarm system shall be twenty-four (24) hours a day, seven (7) days a week. We shall notify the Department of any intent to change our security alarm service provider. Upon request, we will make available to the Department all information related to the alarm system, monitoring, and alarm activity. The alarm system shall consist of the following:

• Appropriate equipment necessary to monitor activity inside and outside the Grow Facility, including:
  o All entrances and exits.
  o Roof hatches.
  o Rooms with exterior windows.
  o Rooms with exterior walls.
  o Rooms containing marijuana.
  o Rooms containing safes or vaults.

• A backup power supply system that immediately provides power in the event of a power outage.

• Main system operating equipment is kept in the Main Office Surveillance/IT Room, a limited access area.

• All telephone junction boxes or rooms where alarm telephone circuits terminate are locked, tamper-protected, and all labels or tags identifying these alarm circuits have been removed.

ALARM SYSTEM COMMUNICATION

The alarm system shall include an electronic or mechanical system that, upon activation, is programmed to send a prerecorded voice message, via telephone, radio frequency, or other communication system, to appropriate law enforcement authorities or other emergency services. In addition, the alarm system shall be equipped with a failure notification system that notifies the alarm monitoring service provider of the system failure via audio, text, visual, or audiovisual message, within a maximum of five (5) minutes of such failure.

ALARM SYSTEM TESTING

We shall bi-annually conduct an onsite inspection and test of the entire alarm system to determine needed repairs and adjustments.

ALARM SYSTEM RECORDS

We shall keep and maintain alarm system records and will make available to the Department all
information related to the alarm system, monitoring, and alarm activity. These records shall include the following:

- The name of the alarm installation and monitoring service provider.
- Copies of service contracts.
- A map of the Grow Facility showing the location and operation of each alarm system component including alarm telephone circuits.
- A list of authorized users.
- Manufacturers' instructions for operating and maintaining the equipment.
- Testing and maintenance logs.
- Reports of any incidents triggering an alarm.
- Reports of any interruption in monitoring and/or complete failure of the system, including the length of the interruption period.

SURVEILLANCE SYSTEM

We shall have a fully operational electronic surveillance system installed at our facility. We shall notify the Department of the intent to make any changes to the surveillance system. Upon request, we will make available to the Department all information related to the electronic surveillance system installed at our facility. The surveillance system shall consist of the following:

- Appropriate equipment necessary to video record activity inside and outside the Grow Facility, including:
  - All entrances and exits into and out of the Grow Facility.
  - Roof hatches or skylights.
  - Rooms with exterior windows.
  - Rooms with exterior walls.
  - Rooms containing safes or vaults.
  - All entrances and exits of security rooms and limited access areas.
- Appropriate equipment to record keycard entry and exit activity of all our employees and visitors.
- A backup power supply system that immediately provides power in the event of a power outage.
- A dedicated safe or vault to store all entry/exit records and video recordings in the Office Surveillance/IT Room, in a limited access area.
- Main system operating equipment is kept in the main office Surveillance/IT Room.

VIDEO SURVEILLANCE EQUIPMENT

Our video surveillance equipment will consist of the following:

- Network video recorders with a record rate of a minimum of thirty (30) frames per second.
- Cameras with a minimum resolution of 1920 x 1080 pixels.
• Cameras with infrared capabilities to capture images in low or no lighting conditions.
• Cameras with capabilities to identify activity occurring within twenty feet (20') from all points of entry and exits into and out of the exterior of the Grow Facility.
• Video monitors.
• Digital archiving device.
• Capabilities to produce a color still photograph from any camera image, live, or recorded.
• Capabilities to accurately display the time and date on recorded images or video.
• Color printer that can immediately produce a clear, color still photo, either live or recorded, with a resolution of 9600 dpi and the image quality is relative to the camera being used to capture the image.

**CAMERA COVERAGE PLACEMENT**

We will install at least One Hundred (100) security cameras. The security cameras will be permanently mounted and in a fixed location. Each camera at the Grow Facility shall be placed in a location that allows the camera to clearly record activity occurring within twenty feet (20') of all points of entry and exit on the Grow Facility. The cameras will cover every square inch of the facility. The cameras shall allow for the clear and certain identification of any person, including facial features, and activities, including sales or transfers, in all areas of the Grow Facility. The security cameras shall monitor and record all areas of the Grow Facility including:

• All areas where marijuana or products are present, including activities related to:
  o Weighing, packaging, and labeling.
  o Storing, preparing for sale, loading/unloading, or moved within the Grow Facility.
  o Waste Disposal
• Limited-access areas and security rooms, including transfers between rooms and areas.
• Areas storing a surveillance system storage device with at least one (1) camera recording the access points to the secured surveillance recording area.
• All entrances and exits into and out of the exterior of the Grow Facility, recording both indoor and outdoor vantage points.
• Outdoor trash receptacles.
• Roof hatches or skylights.
• Rooms with exterior windows.
• Rooms containing safes or vaults.
• All areas where cash is counted, transferred, or stored.
• All areas where records are stored.

Cameras shall not be installed in bathrooms or any other area where a legitimate expectation of privacy exists. Camera placement shall ensure:

• Visibility of activities is not obstructed by lighting equipment covers, fixtures, or other equipment.
• A clear and certain identification of all individuals and activity at the Grow Facility.
• Identification of activity occurring within twenty feet (20') from all points of entry and exit into and out of the exterior of the Grow Facility.

SURVEILLANCE FAILURE NOTIFICATION

The surveillance system shall include a failure notification system that alerts the Site Director and other key site personnel of any interruption in surveillance and/or the complete failure of the monitoring system. The notification shall be within a maximum of five (5) minutes of such failure via audio, text, visual, or audiovisual message. Additionally, an alarm shall signal the Security Officer on duty whenever an unauthorized entry is attempted.

SURVEILLANCE TESTING

We shall ensure that the surveillance system is properly maintained for playback quality so that images can be seen and the identity of all individuals and activity in surveillance areas are captured. We will schedule and oversee all required maintenance of security equipment in accordance with manufacturer recommendations. Any equipment failure identified shall be corrected as soon as possible. All security equipment shall be in good working order and shall be inspected and tested at regular intervals.

INFORMATION TECHNOLOGY SECURITY

We shall ensure the security of our hardware, software, data, and communications networks, including the following information technology (IT) maintenance:

• Software registration.
• Security patches.
• Malicious software prevention.
• Account management.
• Security status and network access monitoring.
• Disposal and redeployment.
• Employee IT security training.
• Vulnerability assessments.

Access to protected information shall be restricted to essential employees only. Access may be granted to authorized representatives of the Department and other government officials if necessary to perform their official duties. Examples of protected information include:

• Security and cash management procedures.
• Asset and inventory lists.
• Network data.
• Floor plans of critical areas.
• Password and code records.
• Customer records.
• Employee records.

PRODUCT SAFETY AND SECURITY

We shall develop and implement procedures that ensure product safety and security and are compliant with the rules set forth by the Department and all applicable state and local laws, regulations, ordinances, and other requirements. Procedures shall include measures that:

• Minimize the risk of diversion or theft of marijuana.
• Minimize the risk of contamination from incoming materials.
• Ensure proper storage conditions that maintain the quality and purity of our marijuana products.

MATERIAL RECEIVING

All deliveries shall be verified at the front entrance to the facility before allowed access to the loading areas. All materials received will be documented. No material may be received unless its shipping documentation matches the corresponding purchase order or separate approval is given by the Site Manager. Employees shall notify the Site Manager of any shipment discrepancy immediately and shipment may not be accepted without the Site Manager’s approval.

PRODUCT STORAGE SECURITY

Storage areas shall be designed to provide adequate lighting, ventilation, temperature, humidity, space, and equipment. All storage areas shall be maintained in a clean and orderly condition, free from infestation of pests, and in accordance with our security measures and Security Plan. The Grow Facility Manager shall ensure secure containers containing marijuana products remain dry, well ventilated, have temperature-control features to avoid extreme temperature fluctuations and appropriate odor-control features. These proper storage environments ensure product storage does not lead to product contamination or loss of quality.

The storage areas containing marijuana products shall be designed for security and ease of maintenance. We shall establish product storage and security policies and procedures compliant with the rules set forth by the Department and all applicable state and local laws, regulations, ordinances, and other requirements. Under no circumstances may any product be transferred without following our policies and procedures and all the rules set forth by the
Department and all applicable state and local laws, regulations, ordinances, and other requirements. Storage policies and procedures shall include:

- All equipment and any areas used for the processing or storage of marijuana shall be securely locked unless in use.
- All areas used for the storage of marijuana shall be on a time lock and only accessible during regular business hours.
- Inventory shall be reviewed and documented at the beginning and close of each day.
- All areas where marijuana product is stored will be monitored by the surveillance system.

DIVERSION PREVENTION

Investigation of possible diversion and developing policies to prevent it will be conducted by a team of our senior officials, including our CEO, COO, and Director of Compliance. Collectively, they will be known as the Diversion Prevention Team or DPT. The team will have multiple responsibilities including:

- Investigating allegations of diversion
- Developing policies and procedures to prevent diversion
- Managing performance improvement measures
- Providing overall direction for the program.
- Reporting confirmed cases of diversion to law enforcement

The DPT will also integrate information from external sources and environmental factors to improve safety and security at facilities. External sources and environmental factors may include news reports, trade and patient associations, law enforcement bulletins, et cetera. Standard operating procedures shall be updated to incorporate new sources of information and prevent diversion.

WORKING WITH LAW ENFORCEMENT

We deeply value and respect the work of local law enforcement. Police officers are on the front lines protecting our safety. Therefore, our Company, through the DPT, will form a partnership with law enforcement. This partnership will be rooted in a shared responsibility for the safety of the community. Upon request, law enforcement will have access to employee records and Grow Facility operations. Company will also engage with first responders like EMS and fire to establish emergency response protocols. This will create a close working relationship and enhance our ability to provide a secure and positive experience for our employees and the community.

To provide first responders with immediate access into our facility during a time of emergency or inspection, we will install a Knox Rapid Access System to remove any barriers to entry when first responders respond to an emergency call.
EMPLOYEE TRAINING

We know that having a trained and educated workforce is paramount to having an effective diversion strategy. Therefore, a considerable amount of time, resources, and energy will be devoted to ongoing diversion prevention training. The training curriculum will be conducted by the DPT. At a minimum, the training curriculum shall include:

- Compliance regulations for grow facilities.
- State laws and agency rules regulating the use of marijuana.
- Strategies for preventing diversion.
- Criminal and civil consequences for diverting product.
- Security and safety standard operating procedures.
- Chain of command for reporting diversion.
- Incident management.
- Daily operating procedures.

Diversion prevention trainings are mandatory for every new employee. Additionally, each employee shall be required to participate in quarterly continuing education trainings on diversion. Training materials will be outcome driven. Employees will be given real world examples of diversion and taught the appropriate response. Teaching the material through the learning principles of problem solving, discussion, and feedback will empower and increase understanding and retention of the training. This process of integrating knowledge will develop a culture of shared values, perspectives, and become the way of daily conduct and purpose at the Grow Facility.

Employees will have access to diversion prevention training materials at all times. There will be no excuse and zero tolerance for not knowing the proper policies and procedures. Well-maintained employee training records displaying documented training dates and subject matter will preserve and increase compliance, continuity and understanding of all guidelines, security procedures, safety, and incident response. Employee training records will become a written testament of the detailed information and accountability of security education.

INVESTIGATION OF DIVERSION

Due to intense and robust security operations, we do not anticipate diversion at our facility. However, it is important to be prepared for any scenario. We have developed an enhanced investigation procedure for any allegations or reports of potential diversion. Any allegation or report will be fully and immediately investigated by the DPT with established processes and timeframes.

Security policies developed by our Company outline that the first step of investigation is to preserve all possible evidence. Evidence needs to be persevered for the investigation and may be used in future disciplinary matters. The second step of investigation shall be to review all camera footage and other relevant information technology. Each marijuana product is tracked from seed to sale. Therefore, if diversion occurred, it will likely appear in an audit of the tracking software. The third step of investigation will be to interview the employee who engaged or
allegedly engaged in diversion. This step can only be executed if enough evidence is gathered to narrow down the suspect. The goal of the interview is to get the subject to confess how they diverted product to prevent future incidents from occurring. The fourth step of investigation will be to report the confirmed incident of diversion and suspect to law enforcement and the Department. The Site Manager shall be the point of contact for all law enforcement inquires and will turn over all relevant evidence to law enforcement and the Department. The final step of investigation is to develop policies and procedures to prevent the incident from happening again. Once new policies have been developed by the DPT, an all staff training shall be given. The training will be a top down review of all security policies including any updated procedures.

INCIDENT RESPONSE

We shall establish incident response procedures addressing any incident that may occur, including natural disaster, unauthorized access, theft, or IT security breach. Procedures shall be in accordance with the rules set forth by the Department and all applicable state and local laws, regulations, ordinances, and other requirements. Procedures for general emergency and incident management, containment, and corrective measures shall be thoroughly detailed. The Director of Compliance shall ensure the appropriate response procedures are followed. All employees shall receive incident response training annually. The Site Manager shall determine the category and severity of the incident and determine the next best course of action. All discussions, decisions, and activities shall be documented.

We shall immediately notify appropriate law enforcement authorities and the Department immediately after the discovery of a reportable incident as defined by state and local laws, regulations, ordinances, and other requirements. Examples of an incident may include, but are not limited to:

- Theft or physical loss of marijuana or confidential records.
- Breach of our network servers.
- Robbery or unauthorized entry in the Grow Facility.
- Threats of violence to the Grow Facility, employees, or visitors.
- Bomb threats.
- Any criminal activity.
- Civil disturbances.
- Hazardous spills.
- Infectious disease epidemic.
- Serious accidents.
- Fires.
- Earthquakes.
- Floods.
- Windstorms or tornadoes.
INCIDENT REPORTING

Anyone with knowledge or a reasonable suspicion of an incident is instructed to make an immediate report to the Grow Facility Manager or the Site Manager. The person reporting the incident shall complete the Incident Log.

- Date and time of occurrence or suspected occurrence.
- Names and contact information of parties involved and any witnesses.
- Description of incident.
- Completed Suspect Description Forms, if applicable.
- Any evidence supportive of the event (unless law enforcement is required on scene or en route).

We shall notify appropriate law enforcement authorities and the Department immediately after discovering the following:

- Discrepancies identified during inventory; diversion, theft, or loss of marijuana; or any criminal action involving an employee.
- Theft, robbery, or burglary; sale to minors; diversion of marijuana or marijuana products; or any other crime related to marijuana.
- Any suspicious act involving the sale, cultivation, distribution, processing, or production of marijuana by any person.
- Unauthorized destruction of marijuana.
- Any loss or unauthorized alteration of records.
- An alarm activation or other event that requires a response by public safety personnel.
- Integrity of the inventory management system compromised.
- An IT security breach.
- The failure of any security alarm system due to a loss of electrical power or mechanical malfunction that is expected to last longer than eight (8) hours.
- Any other breach of security defined by the rules set forth by the Department.

UNAUTHORIZED ENTRY/ROBBERY CONTAINMENT AND CORRECTIVE PROCEDURES

In the event a threat is present to persons, cash, or product due to unauthorized entry, employees shall be trained to perform the following:
• Notify law enforcement utilizing a panic alarm, only if it can be safely done without being obvious to the robber.
• Do not resist the robber or use or encourage the use of weapons or force against the robber.
• Try to inform the robber of any potential surprises (e.g., an employee is due back from lunch or the building alarm is set to be tested).
• Try to keep employees and visitors, if applicable, calm during the robbery.
• Try to alert other employees of the situation using pre-determined signals or text messages, only if safe to do so.
• Follow the robber’s commands in order to shorten the time of the incident. Do not argue with the robber, but do not volunteer to help.
• If the robber demands a certain amount of money or product, only give them that amount.
• Be observant in order to be a good witness. Try to remember:
  o The number of robbers.
  o The physical characteristics of the robber(s), such as weight, scars, tattoos, hair color, or speech patterns.
  o The clothing worn by the robber(s).
  o Any names used by the robber(s).
  o A description of any weapons shown, such as barrel length and color, color of the grip, or automatic or revolver.
• If the robber uses a note, try to place it out of sight to retain it as evidence.
• Do not follow a robber.
• Secure the Grow Facility and place a notice that the business is closed due to an emergency.
• Call the police and ambulance, as needed, immediately and request that witnesses stay or obtain their contact information.
• Provide aid to injured people.
• Do not discuss the robbery with any outside parties until police and management has given authority to do so.
• Do not estimate the amount of money or product that was taken until an inventory has been performed.

Corrective procedures that may be required to return conditions to a normalized and secure state:
• Change all security codes.
• Replace locks and issue keys only to authorized employees.
• Ensure any video of the incident is archived.
• Restore security devices and/or apparatus to working condition.
• Repair any physical damage to the Grow Facility.
• Provide employees and visitors, if applicable, counseling, as needed.
• Perform a security re-training as soon as possible.
• Modify Employee Access Control Log as deemed appropriate.

INTERNAL THEFT/BURGLARY CONTAINMENT AND CORRECTIVE PROCEDURES

In the event a threat is present to persons, cash, product due to internal theft or burglary, employees shall be trained to perform the following:

• Identify missing or compromised assets.
• Gather, remove, recover, and secure sensitive materials to prevent further loss or access.
• Power down, recycle or remove security equipment known to be compromised.
• Where possible, secure the premises for possible analysis by the Department and law enforcement.
• Gather and secure any evidence of illegal entry for review by the Department and law enforcement.
• Where possible, record identities of any party who might be a possible witness to events.
• Preserve video recordings and Visitor logs for review by the Department and law enforcement.

Corrective procedures that may be required to return conditions to a normalized and secure state:

• Retrieve or restore assets where possible.
• Store all sensitive materials and products in a secure manner (e.g., lockable cabinets or storage areas/container).
• Replace locks and issue keys only to authorized employees. Update the Employee Access Control Log as necessary.
• Restore security devices and/or apparatus to working condition.
• Remove and retain unauthorized equipment from network and/or area.
• Implement physical security devices and improvements (e.g., equipment cables, alarms) as deemed appropriate.
• Perform a security re-training as soon as possible.
FIRE PROCEDURES

If a fire does not present an immediate danger to personal safety, one (1) employee shall try to extinguish the fire. If a fire presents an immediate danger to personal safety, a fire alarm shall be pulled and a call to 911 shall be immediately made and evacuation of the building shall occur all at once.

Evacuation of Grow Facility

Any director or manager may determine the need to evacuate. Reasons for evacuation may include:

- Fire.
- Bomb threat.
- A hostile or violent employee, visitor, or unknown person.
- Power outage.
- Earthquake.
- Water or gas leak.
- Hazardous spill.
- Robbery or hostage situation.

The Site Manager shall ensure that all employees and visitors, if applicable:

- DO NOT gather in lobbies.
- DO NOT open a door without first checking for heat.
- DO NOT touch any suspicious items or suspected bombs.
- DO NOT run or panic.
- DO NOT re-enter the building until authorized.

- DO assist disabled individuals or others who need assistance. Evacuate disabled individuals or others who need assistance ONLY under the direction of authorized emergency personnel or when there is an immediate threat to personal safety and security.

INCIDENT CONTAINMENT

The Site Manager, in coordination with the appropriate department directors or managers, shall determine and implement the appropriate activities and processes required to quickly contain and minimize the immediate impact to personal safety, the Grow Facility, and other affected parties. Containment activities shall be designed to:

- Minimize harm to individuals.
- Counteract the immediate threat.
• Prevent propagation or expansion of the incident.
• Minimize actual and potential damage.
• Restrict knowledge of the incident to authorized employees.
• Preserve information relevant to the incident.

The Site Manager, in coordination with the appropriate department directors or managers, shall determine and implement the appropriate activities and processes to quickly:

• Secure the environment.
• Restore the environment to its normalized state.

The Site Manager shall be actively engaged throughout the incident to assess the progress of all containment and corrective measures and determine at what point the incident can be considered resolved.

**INCIDENT CONTAINMENT AND CORRECTIVE PROCEDURES**

The Site Manager shall determine and implement the appropriate procedures required to quickly contain and minimize the immediate impact of an incident, as well as to quickly restore circumstances to a normalized, secure state. Containment and corrective measures shall be designed with the primary objectives of:

• Minimizing harm.
• Counteracting the immediate threat.
• Preventing propagation or expansion of the incident.
• Minimizing the actual and potential damage.
• Restricting knowledge of the incident to authorized employees.
• Preserving information relevant to the incident.
• Securing the environment.
• Restoring the environment to its normalized state.

**POST-INCIDENT REVIEW, REPORT, AND FOLLOW UP**

The Site Manager shall hold a Post-Incident Review after each incident has been resolved. The Post-Incident Review shall be scheduled within two (2) to three (3) weeks of the incident’s resolution and shall involve:

• Appropriate personnel, which may include affected parties.
• Examination of the incident and all related activities and events.
• Discussion on proposed changes to policy, processes, and safeguards.
All incident activities, from receipt of the initial report through post-incident review, shall be documented. The Site Manager shall ensure all events are recorded, assembling these records in preparation and performance of the post-incident review, and ensuring all records are preserved for review. The following shall be included, at a minimum, in the Post-Incident Report:

- A description of incident events with specific timelines.
- Employee(s) involved.
- Non-Employees involved.
- Impact to affected parties.
- Discussions, decisions, and assignments made.
- Successful and unsuccessful activities.
- Notifications required or recommended.
- Steps taken for containment and resolution.
- Recommendations for prevention and remediation (short-term and long-term).
- Identification of policy and procedure gaps.
- Results of post-incident review.
- Any necessary follow-up actions.

The Post-Incident Report shall be distributed to the Site Manager, the Grow Facility Manager, and all other relevant parties for review. The Site Manager shall ensure the appropriate employees are assigned to any follow-up actions. The Site Manager shall document the completion of all follow-up actions in the Post-Incident Report and distribute an updated copy.

SECURITY SYSTEM RECORDS

We shall keep all necessary books and records in order to render a full account of all operations conducted at the Grow Facility under our license for the year to date and the five (5) years prior. We shall keep books and records of the Grow Facility from the previous six (6) months (or the complete copies of such records) in the Grow Facility at all times. All marijuana related records shall be retained in the inventory management system. All surveillances recordings shall be retained, at a minimum for at least sixty (60) days, unless in instances of investigation or inspection by the Department, through its investigators, agents, auditors, or the state police, in which case the licensee shall retain the recordings until such time as the department notifies the licensee that the recordings may be destroyed. Our standard operating procedures shall detail the maintenance of records and measures for addressing and reporting any loss or unauthorized alteration of records. The Department, upon request, shall have full access to all Grow Facility records and surveillance recordings.

We shall keep and maintain security and surveillance system records and recordings in the Grow Facility and copies stored on a secure cloud storage. These records shall include, at a minimum, the following:

- The name of the surveillance equipment installation service provider and all equipment manufacturers.
- Copies of any service contracts.
- A map of the Grow Facility showing the location and operation of each surveillance system component, including the direction of camera coverage.
- A list of authorized users.
- Manufacturers’ instructions for operating and maintaining the equipment.
- Testing and maintenance logs.
- Reports of any incidents of unauthorized entry.
- Employee Access Control Logs.
- Visitor Registration Logs.
- Authorized Visitor Access Control Logs.
- Incident Logs and Post-Incident Reports.
- Reports of any interruption in monitoring and/or complete failure of the system, including the length of the interruption period.
- A log of the recordings, which includes:
  - The identities of the employee or employees responsible for monitoring the video surveillance system.
  - The identity of the employee who removed the recording from the video surveillance system.
  - The identity of the employee who destroyed any recording.
- Video surveillance recordings shall be:
  - In a digital format that ensures authentication of the recording as being legitimately captured without alterations.
  - Easily accessible and in a format that allows for viewing and copying.
  - Embedded with the date and time without significantly obscuring the picture.

We will maintain a log of all recordings, which will include a minimum:

- The identities of the employee or employees responsible for monitoring the video surveillance system.
- The identity of the employee who removed the recording from the video surveillance system storage device and the time and date removed.
- The identity of the employee who destroyed any recording.

Video surveillance recordings shall be stored on an NVR that is server-based with storage as required to meet recording rate and retention. This system shall be password-protected and separate from any other equipment in the Grow Facility. The files and video surveillance recordings shall be available for inspection, upon request, by authorized representatives of the Department and other government officials when necessary to perform their official duties.

After the expiration of the retention period, and before selling or closing the facility, the surveillance video recordings shall be erased, destroyed, or otherwise disposed. We shall not destroy any surveillance video recordings if we have knowledge or should have knowledge of any ongoing criminal, civil, administrative, or other official investigations or proceedings for which the recording may contain relevant information. Additionally, we shall not destroy any surveillance
video recordings in instances of investigation or inspection by the Department, through its investigators, agents, auditors, or the state police, in which case the recordings shall be retained until such time as the Department notifies us that the recordings may be destroyed.
Security and Surveillance Equipment Room Access List

This is the **current** list of individuals having access to our Security and Surveillance Equipment Storage Room. Only those on this list are essential to maintain security and surveillance operations. All others will be denied access to the Security and Surveillance Equipment Room.

This list is available to the Department or authorized agents immediately upon request.

MICHIGAN DEPARTMENT OF LICENSING AND REGULATORY AFFAIRS

FILING ENDORSEMENT

This is to Certify that the CERTIFICATE OF AMENDMENT TO THE ARTICLES OF ORGANIZATION for

TYCOON I OPERATIONS, LLC

ID Number: 802483853

received by electronic transmission on July 22, 2020, is hereby endorsed.

Filed on July 22, 2020, by the Administrator.

The document is effective on the date filed, unless a subsequent effective date within 90 days after received date is stated in the document.

In testimony whereof, I have hereunto set my hand and affixed the Seal of the Department, in the City of Lansing, this 22nd day of July, 2020.

Linda Clegg, Interim Director
Corporations, Securities & Commercial Licensing Bureau
ARTICLES OF ORGANIZATION

For use by DOMESTIC LIMITED LIABILITY COMPANY

Pursuant to the provisions of Act 23, Public Acts of 1993, the undersigned executes the following Articles:

**Article I**

The name of the limited liability company is:

HELLER INVESTMENT HOLDINGS, LLC

**Article II**

Unless the articles of organization otherwise provide, all limited liability companies formed pursuant to 1993 PA 23 have the purpose of engaging in any activity within the purposes for which a limited liability company may be formed under the Limited Liability Company Act of Michigan. You may provide a more specific purpose:

**Article III**

The duration of the limited liability company if other than perpetual is:

**Article IV**

The street address of the registered office of the limited liability company and the name of the resident agent at the registered office (P.O. Boxes are not acceptable):

1. Agent Name: CSC-LAWYERS INCORPORATING SERVICE (COMPANY)
2. Street Address: 601 ABBOT ROAD
   
   City: EAST LANSING
   
   State: MI
   
   Zip Code: 48823
3. Registered Office Mailing Address:
   
   P.O. Box or Street Address: 601 ABBOT ROAD
   
   Apt/Suite/Other:
   
   City: EAST LANSING
   
   State: MI
   
   Zip Code: 48823

**Article V**

(Insert any desired additional provision authorized by the Act; attach additional pages if needed.)

THE COMPANY SHALL BE MANAGED BY ONE OR MORE MANAGERS.

Signed this 17th Day of July, 2020 by the organizer(s):

Linda Clegg, Interim Director
Corporations, Securities & Commercial Licensing Bureau
WE ASSIGNED YOU AN EMPLOYER IDENTIFICATION NUMBER

Thank you for applying for an Employer Identification Number (EIN). We assigned you EIN 85-2192285. This EIN will identify you, your business accounts, tax returns, and documents, even if you have no employees. Please keep this notice in your permanent records.

When filing tax documents, payments, and related correspondence, it is very important that you use your EIN and complete name and address exactly as shown above. Any variation may cause a delay in processing, result in incorrect information in your account, or even cause you to be assigned more than one EIN. If the information is not correct as shown above, please make the correction using the attached tear-off stub and return it to us.

Based on the information received from you or your representative, you must file the following form(s) by the date(s) shown.

Form 941 01/31/2021
Form 940 01/31/2021

If you have questions about the form(s) or the due dates(s) shown, you can call us at the phone number or write to us at the address shown at the top of this notice. If you need help in determining your annual accounting period (tax year), see Publication 530, Accounting Periods and Methods.

We assigned you a tax classification based on information obtained from you or your representative. It is not a legal determination of your tax classification and is not binding on the IRS. If you want a legal determination of your tax classification, you may request a private letter ruling from the IRS under the guidelines in Revenue Procedure 2004-1, 2004-1 I.R.B. 1 (or superseding Revenue Procedure for the year at issue). Note: Certain tax classification elections can be requested by filing Form 8832, Entity Classification Election. See Form 8832 and its instructions for additional information.
If you are required to deposit for employment taxes (Forms 941, 943, 946, 944, 945, CT-1, or 1042), excise taxes (Form 720), or income taxes (Form 1120), you will receive a Welcome Package shortly which includes instructions for making your deposits electronically through the Electronic Federal Tax Payment System (EFTPS). A Personal Identification Number (PIN) for EFTPS will also be sent to you under separate cover. Please activate the PIN once you receive it, even if you have requested the services of a tax professional or representative. For more information about EFTPS, refer to Publication 966, Electronic Choices to Pay All Your Federal Taxes. If you need to make a deposit immediately, you will need to make arrangements with your Financial Institution to complete a wire transfer.

The IRS is committed to helping all taxpayers comply with their tax filing obligations. If you need help completing your returns or meeting your tax obligations, Authorized e-file Providers, such as Reporting Agents (payroll service providers) are available to assist you. Visit the IRS Web site at www.irs.gov for a list of companies that offer IRS e-file for business products and services. The list provides addresses, telephone numbers, and links to their Web sites.

IMPORTANT REMINDERS:

* Keep a copy of this notice in your permanent records. This notice is issued only one time and IRS will not be able to generate a duplicate copy for you. You may give a copy of this document to anyone asking for proof of your EIN.

* Use this EIN and your name exactly as they appear at the top of this notice on all your federal tax forms.

* Refer to this EIN on your tax-related correspondence and documents.

* Provide future officers of your organization with a copy of this notice.

Your name control associated with this EIN is TYCO. You will need to provide this information, along with your EIN, if you file your returns electronically.

If you have questions about your EIN, you can contact us at the phone number or address listed at the top of this notice. If you write, please tear off the stub at the bottom of this notice and include it with your letter. Thank you for your cooperation.
OPERATING AGREEMENT
OF
TYCOON I OPERATIONS, LLC

THIS OPERATING AGREEMENT (this “Agreement”) is entered into and made effective as of July 22, 2020 (the “Effective Date”) by and between TYCOON I OPERATIONS, LLC, a Michigan limited liability company (the “Company”), and TYCOON HOLDINGS, LLC, a Michigan limited liability company and sole member of the Company (the “Member”).

Background

A. The Company was formed on July 22, 2020 as a Michigan limited liability company.

B. The undersigned desires to memorialize its rights and obligations with respect to the Company pursuant to the terms of this Agreement.

Agreement

In consideration of the foregoing background and for other good and valuable consideration, the receipt and sufficiency of which is hereby acknowledged, and intending to be legally bound hereby, the parties agree as follows:

ARTICLE I
DEFINITIONS

The following capitalized terms used in this Agreement shall have the following meanings (unless otherwise expressly provided herein):

“Act” means the Michigan Limited Liability Company Act, as amended.

“Business” means the principal business of the Company, which shall be to own and manage investments.

“Capital Contribution” means any contribution of cash or property to the Company, or any obligation to contribute cash or property to the Company, whenever made.

“Certificate” means the Articles of Organization as filed by the organizer of the Company with the Department of State of the State of Michigan, as amended.

“Interest” means the Member’s entire interest in the Company.
“Person” means any individual, trust, partnership, corporation, limited liability company or entity.

ARTICLE II
FORMATION OF COMPANY

2.1 Formation. The Company has been organized as a Michigan limited liability company by executing and delivering the Certificate in accordance with and pursuant to the Act.

2.2 Name. The name of the Company is Tycoon I Operations, LLC.

2.3 Registered Office. The address of the registered office of the Company shall be The CSC – Lawyers Incorporating Service, 601 Abbot Road, East Lansing, Michigan 48823, or at such other place as the Member may from time to time determine. The registered office of the Company may be changed from time to time by amending the Certificate in accordance with the Act. The Company may maintain such other offices, including, but not limited to, a principal place of business as the Member shall determine.

2.4 Purpose. The purposes of the Company shall be (a) to advance and grow the Business, (b) to engage in all other lawful business authorized pursuant to the Act, and (c) to make, enter into and perform any contracts and other undertakings, and to engage in any activities and transactions as may be ancillary to or necessary or advisable to carry out the foregoing purposes.

2.5 Term. The term of the Company shall be perpetual unless the Company is earlier dissolved in accordance with the provisions of this Agreement.

ARTICLE III
CAPITAL CONTRIBUTIONS; LOANS; DISTRIBUTIONS

3.1 Capital Contributions. The Company shall keep a record of all Capital Contributions made by the Member. The Member shall not be required to make any Capital Contribution to the Company not specifically agreed to in writing between the Member and the Company.

3.2 Loans. Any and all loans made to the Company by the Member shall not be considered Capital Contributions.

3.3 Distributions. Distributions shall be made to the Member (in cash or in kind) at such times and in such amounts determined by the Member and as permitted by applicable law.
ARTICLE IV
MEMBER

4.1 Member. The name and address of the Member is:

Tycoon Holdings, LLC
2055 Crooks Road, Suite B
Rochester Hills, MI 48309

4.2 Management. The Company shall be initially managed by Heller Investment Holdings, LLC.

4.3 Right to Rely on Member. Any Person dealing with the Company may rely (without duty of further inquiry) upon a certificate signed by a designee of the Member as to: (a) the identity of the Member; (b) the existence or non-existence of any fact or facts which constitute a condition precedent to acts by the Member or which are in any manner germane to the affairs of the Company; (c) the Persons who are authorized to execute and deliver any instrument or document of the Company; or (d) any act or omission by the Company or any other matter whatsoever involving the Company or the Member.

4.4 Authority to Designate Officers. The Member may elect, appoint or designate, by resolution or otherwise, individuals as officers of the Company and delegate to such officers such powers, authority and responsibilities as are (i) set forth in the designation or delegation, and (ii) necessary to carry out and implement the management decisions of the Member. The Member may remove any officer, with or without cause, at any time. Any officer may resign at any time by giving written notice to the Company. Any resignation shall take effect as of the date of the Company’s receipt of such notice or at any later time specified in such notice (unless such officer is otherwise removed prior to such date), and unless otherwise specified in such notice, the acceptance of the resignation shall not be necessary to make it effective. Unless the Member decides otherwise, if the title to an officer of the Company is one commonly used for officers of a business corporation, the assignment of such title shall constitute the delegation to such individual of the authority and duties that are normally associated with that office. The current officers of the Company are as set forth on Schedule A attached hereto, as may be amended from time to time.

4.5 Liability of Member and Officers. Neither the Member nor any officer, agent or representative of the Member, or officer of the Company, shall be liable to the Company or to the Members, as applicable, for (i) the performance of, or the failure to perform, any act or duty on behalf of the Company if, in good faith, the Members or officer determined that such conduct was in the best interests of the Company and such conduct did not constitute fraud, gross negligence or reckless or intentional misconduct, (ii) the termination of the Company and this Agreement pursuant to the terms hereof, and (iii) the performance of, or the failure to perform, any act on behalf of the Company in good faith reliance on advice of legal counsel, accountants or other professional advisors to the Company.
4.6 **Indemnification.** The Company shall indemnify, defend and hold the Member and the officers, agents and representatives of the Member, and each officer of the Company and, in the discretion of the Member, each employee of the Company, harmless from and against any expense, loss, damage or liability incurred or connected with, or any claim, suit, demand, loss, judgment, liability, cost or expense (including reasonable attorneys’ fees) arising from or related to, the Company or any act or omission of such Member (or officer, agent or representative of the Member) or officer (or employee) and amounts paid in settlement of any of the foregoing, to the fullest extent provided or allowed by the laws of the State of Michigan. The Company may advance to any such Person the costs of defending any claim, suit or action against such Person.

4.7 **Title to Company Property.** All real and personal property shall be acquired in the name of the Company and title to any property so acquired shall vest in the Company itself rather than in the Member.

**ARTICLE V**
**ACCOUNTING AND TAX MATTERS**

5.1 **Accounting Principles.** The Company’s financial statements shall be prepared and its profits and losses shall be determined in accordance with methods of accounting selected by the Member, which need not be the same as the method of accounting used for tax purposes.

5.2 **Returns and Other Elections.** The Member shall cause the preparation and timely filing of all tax returns required to be filed by the Company pursuant to the Code and all other tax returns deemed necessary and required in each jurisdiction in which the Company does business. All elections permitted to be made by the Company under federal or state laws shall be made by the Member in its sole discretion. So long as the Company has only one member, the Company shall be treated as a disregarded entity for income tax purposes.

**ARTICLE VI**
**TRANSFERS; ADDITIONAL MEMBERS**

6.1 **Transferability of Membership Interest.** The Member’s Interest in the Company is freely transferable or assignable, in whole or in part, either voluntarily or by operation of law.

6.2 **Admission of Additional Members.** Additional members of the Company may be admitted to the Company at the direction of the Member only if a new operating agreement or an amendment and restatement of this Agreement is executed by such additional member or members.
ARTICLE VII
DISSOLUTION AND LIQUIDATION

7.1 Dissolution.

(a) The Company shall be dissolved and its affairs wound up and terminated only upon the determination of the Member. The dissolution or bankruptcy of the Member or the occurrence of any other event that terminates the continued membership of the Member shall not cause a dissolution of the Company.

(b) Dissolution of the Company shall be effective on the day on which an event described in Section 7.1(a) above occurs, but the Company shall not terminate until articles of dissolution shall be filed with the Department of State of the State of Michigan and the assets of the Company are distributed as provided in Section 7.2 below. Notwithstanding the dissolution of the Company, prior to the termination of the Company, the business of the Company and the affairs of the Member shall continue to be governed by this Agreement.

7.2 Winding Up. Upon dissolution, the Company shall continue until the winding up of the affairs of the Company is completed and a certificate of dissolution has been filed pursuant to the Act. Upon the winding up of the Company, the Company’s property shall be distributed (a) first to creditors, including the Member if the Member is a creditor, to the extent permitted by law, in satisfaction of the Company’s liabilities, and (b) then to the Member. Distributions shall be in cash or property or partly in both, as determined by the Member.

ARTICLE VIII
MISCELLANEOUS PROVISIONS

8.1 Notices. Any notice, demand or communication required or permitted to be given by any provision of this Agreement shall be in writing and shall be deemed to have been delivered (a) two business days after being sent by registered or certified United States mail, or (b) upon delivery if hand delivered, sent via facsimile transmission or electronic mail. If delivered to the Member, such notice shall be delivered to his address as it appears in Section 4.1 above. If to the Company, such notice shall be delivered to its principal place of business.

8.2 Governing Law. This Agreement, and the application and interpretation hereof, shall be subject to and governed exclusively by its terms and by the laws of the State of Michigan, without regard to its conflicts of laws provisions.

8.3 Construction. Whenever the singular number is used in this Agreement and when required by the context, the same shall include the plural and vice versa, and the masculine gender shall include the feminine and neuter genders and vice versa. Unless expressly stated otherwise, Section and Article references herein shall refer to the Sections and Articles of this Agreement.

8.4 Waivers. No waiver by any party of the breach of any provision hereof shall be deemed to constitute a waiver of any continuing or subsequent breach of such provision or any other provision hereof.
8.5 **Severability.** If any provision of this Agreement or the application thereof to any Person or circumstance shall be invalid, illegal or unenforceable to any extent, the remainder of this Agreement and the application thereof shall not be affected and shall be enforceable to the fullest extent permitted by law, provided that the essential purpose of this Agreement is not frustrated.

8.6 **Heirs, Successors and Assigns.** The covenants, terms, provisions and agreements herein contained shall be binding upon, and inure to the benefit of, the parties hereto and, except as otherwise provided to the contrary, their respective heirs, executors, administrators, legal representatives, successors and permitted assigns.

8.7 **Entire Agreement.** This Agreement embodies the entire agreement and understanding between the parties hereto with respect to the subject matter hereof and supersedes all prior agreements and understandings relating to such subject matter.

[SIGNATURES APPEAR ON FOLLOWING PAGE]
IN WITNESS WHEREOF, the parties hereto have caused this Agreement to be signed as of the Effective Date.

STAFFING PLAN

Summary of Job Creation, Compensation and Budget

As discussed in detail below, we anticipate creating approximately 59 jobs at our Orion Township Cultivation Facility.

<table>
<thead>
<tr>
<th>Type of Marijuana Facility</th>
<th>Proposed Location</th>
<th>Total Jobs Per Facility</th>
<th>Expected Annual Payroll</th>
</tr>
</thead>
<tbody>
<tr>
<td>Cultivation Facility</td>
<td>Orion Township</td>
<td>59</td>
<td>$3,750,000.00</td>
</tr>
</tbody>
</table>

We pay our cultivation facility employees a minimum hourly wage of $15. We also provide a generous benefit package that includes the following:
- Health Insurance
- Paid Holidays
- Paid Time Off
- 401K Plan with 2% Match
- Performance Incentives

Out of our 3.75MM expected annual payroll, Tycoon I Operations expects to allocate $630,000 toward benefits for all full-time employees!

We intend to source our employees first from Orion Township, then into the surrounding regional area. Our job listings will always be listed in the Orion Township area first to accumulate as many qualified candidates as possible.

Attached is a table of the proposed positions at our Orion Cultivation Facility:

CHARTER TOWNSHIP OF ORION
ORDINANCE No. 154 APPLICATION REVIEW

Planning Commission Case:   PC-2021-25
Parcel Number:  09-35-477-001 & 09-35-477-002
Property Address:  180 Premier Drive
Applicant:  Tycoon I Operations LLC
Request: Excess Grow
Date: February 12, 2021

The aforementioned application was reviewed for compliance with the location requirements of Article VI of Ordinance No. 154 and the finds are detailed below:

Article V, 1. – The Facility must be located in the Township’s IP (Industrial Park) district:  The parcels are zoned IP (Industrial Park) as required.

Article V, 2 – The Facility cannot be within one thousand five hundred (1,500) feet of a “church” in the Township:  Article VI, 7 states that the distances specified in the Ordinance shall be measured from building edge to building edge.  The applicant stated within their application that the facility is more than the required 1,500 feet.  Using GIS, a measurement was taken from the edge of the property where the building is located (for simplicity vs. from edge of building which is further) to the edge of the closest church and it was over 1,600 feet.

Article VI, 3 – The Facility cannot be within two thousand (2,000) feet of a residence located in a R-1, R-2, R-3, SF, SE, SR, RM or MHP zoning district:  Article VI, 7 states that the distances specified in the Ordinance shall be measured from building edge to building edge.  The applicant stated within their application that the facility is more than the required 2,000 feet.  Using GIS, a measurement was taken from the edge of the property where the building is located (for simplicity vs. from edge of building which is further) to the edge of the closest residential property line (for simplicity) and it was 2,500 feet.

Article VI, 4 – The Facility cannot be within two thousand five hundred (2,500) feet of a registered “school” within the Township:  Article VI, 7 states that the distances specified in the Ordinance shall be measured from building edge to building edge.  The applicant stated within their application that the facility is more than the required 2,500 feet.  The closest school is over 2 miles from the parcel.  (Scripps and Stadium Rds.)
Article VI, 5 – The Facility shall not have an ingress or egress on a street or road that has an average traffic volume in excess of six thousand (6,000) vehicles per day, as calculated by averaging the three (3) most recent Average Annual Daily Traffic (AADT) counts (as available), as reported by Southeast Michigan Council of Governments (SEMCOG): The building has ingress and egress off of Premier Drive. SEMCOG’s website does not contain any traffic count reports for Premier Dr.

Article VI, 6- The Facility shall not have an ingress or egress on a street or road that directly also serves as an ingress or egress to a residential road or property located in a R-1, R-2, R-3, SF, SE, SR, RM or MHP zoning district. The building has both ingress or egress off of Premier Dr. Premier Dr. does not serve as an ingress and/or egress to any property located in a R-1, R-2, R-3, SF, SE, SR, RM or MHP zoning district.

Article VI, 7 - Distances specified in this Ordinance shall be measured from building edge to building edge. The measurements, unless noted differently, were measured from building edge to proposed building edge.

Article VI, 8 – If the Facility shall need a variance from what is set forth in Article VI Sections one (1) through six (6) above, the Applicant may submit a formal request for a variance to the Zoning Board of Appeals (“ZBA”). The ZBA shall only consider a variance request that is no more than fifteen percent (15%) out of compliance with the above location regulations: The applicant is not requesting any variances from the ZBA.

Article VI, 9 – It is the Township’s intention that Growers, Processors, Safety Compliance Facilities and Secured Transporters may operate within the same building under the following conditions: each licensed entity remains distinct and separate within different working area and separate record keeping systems: The applicant is requesting an Excess Grow - facility only.

Article VI, 10 –The location shall meet all applicable Ordinances and promulgated standards of the Township and, prior to opening, shall demonstrate to the Township that it meets the rules and regulations promulgated by the State Marijuana Regulatory Agency (MRA):

ITEMS TO BE ADDRESSED: These items are unknown at this time. It is recommended that any approval be conditioned upon this requirement.

Article VI, 11 – The Facility location shall conform to all standards of the zoning district in which it is located: This condition has been met. The building itself has received site plan approval.
Article VI, 12 – If the Facility location is currently vacant land, the applicant must submit a site plan and building plans with the Application. The application is for an improved parcel that has received site plan approval.

Article VI, 14 – Based upon an application for or amendment of a Conditional Rezoning, PUD, or other use Development Agreement of sufficient specificity, it is within the sole discretion and judgment of the Township Board of Trustees to consider and waive any or all of the Location Requirements of this Article VI based upon any or all of 3 factors listed in Article VI 14 a,b, and c.: The applicant is not requesting any waivers.

Summary: I have reviewed the application as it relates to Ordinance No. 154 Article VI – Location Requirements. I am agreeable with the recommendation to approve this application with the conditions that:

1. The applicant meets all other applicable Township Ordinances and promulgated standards of the Township and, prior to opening, shall demonstrate to the Township that it meets the rules and regulations promulgated by the State Marijuana Regulatory Agency (MRA).

Tamara Girling
Planning & Zoning Director

Dear Madam Clerk:

Please find attached a Marihuana Facility Permit Application and all exhibits for three Excess Grow permits to operate at 180 Premier Drive, Orion Charter Township, MI 48359. This application represents two of three of the excess grow permits.

If the Township believes any additional information or materials are required for this filing, please do not hesitate to contact us. Kindly direct all communications regarding this application to Aaron Fogleman either by phone at 248.920.8770 or by email at licensing@glorioucanna.com.

We look forward to contributing significantly to the Township through economic development, training and employment, education and outreach, and to becoming a valuable community partner.

Thank you for your consideration.
Charter Township of Orion

Fax: (248) 391-9984

ORION ORDINANCE 154 INITIAL PERMIT APPLICATION
Ordinance 154, Licensed Marihuana Facilities Ordinance

Pursuant to the Charter Township of Orion Ordinance 154, Licensed Marihuana Facilities Ordinance, the following application is intended to collect information and documentation establishing the applicant’s conformance with the ordinance. All applicants should note that the approval of a Marihuana Permit will be based upon the accuracy and completeness of the information provided. In the event applications are received in excess of the permitted number of locations within the Ordinance or two or more applicants have similar qualifications, the Charter Township of Orion reserves its right to approve a permit which in the opinion of the Township best meets its goals and safeguards as set forth in the Ordinance. No financial or other right is established by the payment of the non-refundable application fee. All applications for renewal of a permit shall be reviewed per the standards set forth in the Ordinance. The Charter Township of Orion reserves the right to approve or deny the permit based upon the failure of any applicant to establish to the satisfaction of the Township any requirement, standard or goal of the Ordinance. The applicant understands this determination may involve a subjective interpretation of the application. Any permit granted by the Township is contingent upon the State of Michigan granting a state license for the specific license applied for under this ordinance.

SECTION A- APPLICANT

1. Name of Applicant: Tycoon I Operations, LLC
   Authorized Signer (of not an individual): Daryl Heller

   Address of Applicant: 2055 Crooks Rd, Suite B
   Rochester Hills, MI 48309

   Phone Number: 248.920.8770

   Email Address: licensing@gloriuscanna.com

   Sole Proprietor □ Partnership □
   Corporation □ Limited Liability Company ✓
   □ Other: _______________________

2. If entity is Sole Proprietor, state Owner/Proprietor’s date of birth: ____________ and
   provide a copy of photo identification.

3. If other than Sole Proprietor, list name, address and date of birth of all owners and
   provide copies of photo identification and percentage of ownership.

5. If the Applicant or owner or any operator is a licensed caregiver under the Michigan Medical Marihuana Act, please list their name and address, and caregiver ID number issued by the State of Michigan. N/A

6. For any corporation or other legal entity who has a financial interest or affiliation with the requested permit, please state the following:

   Name: Please see Organization Structure in Exhibit I
   Name of Authorized Signer: 
   Address: 
   Interest or Affiliation: 

**SECTION B- FACILITY LOCATION**

7. Name of proposed facility: Oakland Business Park, Building B

8. Location of proposed facility: 180 Premier Drive

   Orion Charter Township, MI 48359
9. Please provide a preliminary floor plan sketch showing the location of all facility operations within an existing building, or for new construction a site plan for the parcel. Attach as Exhibit “A”
   ☐ Document(s) attached. If not attached, why not and when is applicant expected to supplement: ____________________________

10. With respect to the location of the facility, please state with specificity the exact location, address, suite number and, if necessary, the location of the facility within a building or the parcel of land. This location should include the distance in feet from each property line. Attach as Exhibit “B”
   ☐ Document(s) attached.
   If not attached, why not and when is applicant expected to supplement: ____________

11. Please provide evidence of the Applicant’s property interest in the proposed location. Provide copies of documentation showing a legal and enforceable property interest. Attach as Exhibit “C”.
   ☐ Document(s) attached.
   If not attached, why not and when is applicant expected to supplement: ____________

12. Please confirm and establish that the facility is located within the Township’s Industrial Park district (“IP”); is not within 1,500 feet of a church; is not within 2,000 feet of a residence located in the R-1, R-2, R-3, SF, SE, SR, RM or MHP Zoning Districts; is not within 2500 feet of a registered school and does not have ingress or egress on a street or road that has an average traffic volume in excess of 6,000 vehicles per day as calculated and reported by Southeast Michigan Counsel of Governments. Further, please show that the facility does not have an ingress or egress on a street or road that serves as an ingress or egress to a residential road or property located in a R-1, R-2, R-3, SF, SE, SR, RM or MHP Zoning District. For each of the above criteria, please attach any and all documents which will permit the Township to calculate compliance with the Licensed Marihuana Facilities Ordinance No. 154. At a minimum, provide a map showing the facility and measured distances (building edge to building edge). Attach as Exhibit “D”.
   ☐ Documents attached.
   If not attached, why not and when is applicant expected to supplement: ______________

a) Is the Facility located in the Township’s IP (Industrial Park District) zoning district?
   ☐ Yes    ☐ No
b) Is the Facility more than one thousand five hundred (1,500) feet of any church in the Township?

☐ Yes ☐ No

c) Is the Facility more than two thousand (2,000) feet of any residence located in an R-1, R-2, R-3, SF, SE, SR, RM, or MHP zoning district?

☐ Yes ☐ No

d) Is the Facility more than two thousand five hundred (2,500) feet of any registered school within the Township?

☐ Yes ☐ No

For 10-12 above, please provide a map showing the facility and measured distances (building Edge to building edge.)

e) Does the facility have an ingress or egress on a street or road that has an average traffic volume of six thousand (6,000) or less vehicles per day, as calculated by averaging the three (3) most recent Average Annual Daily Traffic (AADT) counts (as available), as reported by the Southeast Michigan Council of Governments (SEMCOG) per the site semcog.org/Traffic-Counts?

☐ Yes ☐ No

f) Does the Facility have an ingress or egress on a street or road that does not also serve as an ingress or egress to a residential road or property located in a TR-1, R-2, R-3, SF, SE, SR, RM, or MHP zoning district?

☐ Yes ☐ No

Name of Facility ingress/egress Street or road: Premier Drive

13. Please state whether the Applicant will seek a variance from the Zoning Board of Appeals pursuant to Article 6(8) of the Orion Licensed Marihuana Facilities Ordinance No. 154.

☐ Yes ☒ No

If variance will be sought, specify location category(s) pursuant to Art 6 (1)–(6):

________________________________________________________________________
________________________________________________________________________
For each category variance sought, state the percentage the applicant will seek: __________%  
(Not to exceed 15%) 

**SECTION C - FACILITY REQUIREMENTS**

14. When available, submit to the Township a copy of the Applicant’s application for a license submitted to the State of Michigan, Department of Licensing and Regulatory Affairs, for each facility permit requested. 
Attach as Exhibit “E”.  
☐ Document(s) attached.  
If not attached, why not and when is applicant expected to supplement: ________________________________  
Phase 2 application with the state of Michigan requires a permit and signed attestation from the municipality.  
We expect to submit our application with the state by 03/07/2021.

15. Is consumption and/or use of marihuana prohibited at the Facility?  
☐ ☐ Yes ☐ No

16. Will all activity related to the Facility be done indoors?  
☐ ☐ Yes ☐ No

17. Will all Marihuana contained within the building be in a locked Facility in accordance with the Michigan Medical Marihuana Act, MCL 333.26421 et seq., as amended (“MMMA”), the Michigan Medical Marihuana Facilities Licensing Act, MCL 333.27101, et seq., and the Michigan Regulation and Taxation of Marihuana Act, MCL 333.27951, et seq., as amended (“MRTMA”) as amended?  
☐ ☐ Yes ☐ No

18. Please set forth an operations statement, plan and or outline showing that all facility activities shall occur indoors and in a building which is locked.  
Attach as Exhibit “F”.  
☐ Document(s) attached.  
If not attached, why not and when is applicant expected to supplement: ________________________________

19. Will all necessary building, electrical, plumbing and mechanical permits obtained for any portion of the structure in which electrical wiring, lighting and/or watering devices are located?  
☐ Yes ☐ No
20. When available and prior to the issuance of any permit, the Applicant must submit all necessary building, electrical, plumbing and mechanical permits, as well as documented approval by the Orion Fire Department showing compliance with the Michigan Fire Protection Code and confirmation that the storage of any chemical, herbicide, pesticide and or fertilizer has also been approved by the Orion Fire Department.

Attach as Exhibit “G”.
☑ Document(s) attached.

If not attached, why not and when is applicant expected to supplement: __________________________

21. In any portion of the structure where the storage of any chemicals such as herbicides, pesticides, and/or fertilizers, do you agree to be subject to inspection and approval by the Orion Fire Department to ensure compliance with the Michigan Fire protection Code?

☑ Yes
☐ No

22. Will you ensure that no other uses, other than accessory uses, will be permitted within the same Facility other than those associated with cultivating, processing, transporting or testing marihuana?

☑ Yes
☐ No

23. Please state and/or provide documentation showing the plan that all litter and waste will be properly and safely removed and will not constitute a source of contamination in areas where marihuana is exposed. Further, please include how the applicant will dispose of rubbish so as to minimize the development of odor and minimize the potential for development of waste odor and waste from becoming an attracted, harborage or breeding place for pests. Please include a detailed description of the ventilation system. Attach as Exhibit “H.”

☑ Document(s) attached.

If not attached, why not and when is applicant expected to supplement: __________________________

a) Will litter and waste be properly removed and the operating systems for waste disposal maintained in an adequate manner so that they do not constitute a source of contamination in areas where marihuana is exposed?

☒ Yes
☐ No

b) Will floors, walls and ceilings be constructed in such a manner that they may be adequately cleaned and kept clean and in good repair?

☒ Yes
☐ No
c) Will there be adequate screening or other protection against entry of pests, and will rubbish be disposed of so as to minimize the development of odor, minimize the potential for development of waste odor, and minimize the potential for waste becoming an attractant harborage or breeding places for pests?

X Yes □ No

d) Will all buildings, fixtures and other facilities be maintained in a sanitary condition?

X Yes □ No

e) Will each Facility center provide its occupants with adequate and readily accessible toilet facilities that will be/are maintained in a sanitary condition and in good repair?

X Yes □ No

24. Please state how the Applicant intends to avoid excessive noise, dust, vibrations, glare, fumes or odors detectable to the normal senses beyond the boundaries of the property. Attach as Exhibit “I”.

☑ Document(s) attached.
If not attached, why not and when is applicant expected to supplement: ____________________________

a) Will each Facility be operated in a manner that does not create excessive noise, dust, vibrations, glare, fumes or odors detectable to the normal senses beyond the boundaries of the property on which that Marihuana Facility will operate/operates or in violation of any other ordinance?

☑ Yes □ No

25. Please provide the plan and supporting documentation showing that all disposal systems for spent water and spent soil have been adequately and safely disposed of and accounted for.

Attach as Exhibit “J”.

☑ Document(s) attached.
If not attached, why not and when is applicant expected to supplement: ____________________________

26. Please provide a security and safety plan, and at a minimum showing the facilities surveillance systems and continuous monitoring systems of the entire premise as required by the ordinance.

Attach as Exhibit “K”.

☑ Document(s) attached.
If not attached, why not and when is applicant expected to supplement: ____________________________

7 1634
a) Will the Facility continuously monitor the entire premises with surveillance systems that include security cameras operating 24 hours a day, 7 days a week, every day of the year, and will these recordings be maintained for a period of at least 30 days?

☐ Yes ☐ No

27. Please state and/or show the exterior signage or advertising identifying the facility. Attach as Exhibit “L”.
☐ Document(s) attached.
If not attached, why not and when is applicant expected to supplement: __________________________
The facility will only show the numbers associated with its address

a) Do you understand and agree that any exterior signage or advertising identifying the Facility as a marihuana facility is prohibited?

☐ Yes ☐ No

SECTION D- BUSINESS OPERATIONS AND SECURITY

28. Active business operations shall not be open outside of the hours of 7am and 9pm.

Print name: Daryl Heller
A. & B. Facility Floor Plan
C. Lease Agreement
COMMERCIAL LEASE

This lease (the Lease), is entered into on November 1, 2020, between Premier Drive Tycoon I, LLC, with an address at 1615 S Telegraph Rd, Bloomfield Hills, MI (Landlord), and Tycoon I Operations, LLC (Tenant) on the terms and conditions listed below.

1. Description of the Premises. Landlord owns the real property, improvements and any and all structures thereon located at 180 Premier Drive, Orion Township, MI 48359 ("Premises"), consisting of approx. 72,000 square feet. Tenant shall have the right to use the Premises to conduct its daily business operations and for any ancillary or related purposes including the operation of a marihuana business.

2. Basic Lease provisions. The basic Lease provisions are stated below and further explained in the section referenced to the right of each provision:

(a) Term: 10 years
(b) Commencement Date: February 1, 2021
(c) Termination date: October 31, 2030
(d) Options: 1 option to renew for additional 10 years
(e) Monthly installment amount: $75,000 or $12.50; per square foot;
(f) Security deposit: $75,000.00
(g) Use: Tenant's desired business operation

3. Term. This Lease shall be for a term stated in section 2(a) commencing on the date stated in section 2(b) (the Commencement Date) and terminating on the date stated in section 2(c). The rent for the first month shall be prorated from date of occupancy, if the date of occupancy is after the first day of the month. Each succeeding lease year shall begin on the anniversary of the same date and continue until the termination of the Lease.

Provided that Tenant is not in default under this Lease at the end of the then current Lease term, Tenant shall have the right to renew the term of this Lease for the option period stated in section 2(d) by giving Landlord written notice of Tenant's intent to renew the Lease at least 120 days before the expiration of the then current term. The renewal shall be on the same terms and conditions as in this Lease, except that the minimum rent for each renewal term shall be increased by a percentage equal to the percentage increase in the Consumers Price Index (Bureau of Labor Statistics Washington, D.C., all Cities) (CPI) during the preceding term. The percentage increase shall be determined by comparing the latest available CPI before the Commencement Date of the Lease or the prior term, whichever shall apply, and the latest available CPI on or before the expiration of the immediately preceding initial or renewal lease term. The word "term" as used in this Lease shall include any renewal term.

4. Minimum rent. Tenant shall pay to Landlord as rent the sum stated in section 2(e), payable in monthly installments due in advance, on the first day of each month during the term of this Lease. All rent shall be paid to Landlord at the address set forth above or at such other address as Landlord may designate in writing, without any prior demand and without any deduction or offset.

If Tenant shall fail to pay any amount due from it to Landlord under this Lease when that amount shall be due, a one-time late charge of $50.00 shall be assessed and thereafter the amount of rent not paid shall be subject to a service charge until that amount is paid at the lesser of the rate of 5% per month or the highest rate permitted by law.
5. **Security deposit.** Tenant, contemporaneously with the execution of this Lease, has deposited with Landlord the sum stated in section 2(f) as a security deposit. The deposit shall be held by Landlord, without liability for interest, as security for the faithful performance by Tenant of all the terms, covenants, and conditions of this Lease to be kept and performed by Tenant during the term of this Lease.

If Tenant fails to keep and perform any of its covenants of this Lease, Landlord at its option may appropriate and apply the entire deposit, or so much as may be necessary, to compensate Landlord for loss or damage sustained by Landlord due to Tenant’s breach. If the entire deposit or any portion is appropriated and applied by Landlord for the payment of overdue rent or other sums due and payable to Landlord by Tenant, Tenant shall, on the written demand of Landlord, forthwith remit to Landlord a sufficient amount in cash to restore the security to the original sum deposited. Tenant’s failure to do so within 5 days after receipt of demand shall constitute a breach of this Lease.

6. **Taxes.** Tenant shall pay or cause to be paid all real property taxes and special assessments levied against the Building including the Premises. Tenant shall pay all personal property taxes assessed against any personal property owned by Tenant on the Premises.

7. **Maintenance and repair.** Tenant shall maintain and repair and keep the Premises in good condition and repair, including the exterior windows and the electrical system. Landlord shall, at tenants expense, make all other repairs and replacements to the Building, including those of a structural or capital nature. Landlord shall, at tenants expense, enter into an annual maintenance contract with a licensed heating and mechanical firm for the maintenance of the heating and air conditioning equipment during the term. Landlord shall be obligated to make repairs only after Tenant has given Landlord written notice of the need for the repair, and only if the repair was not caused by the negligence or willful act of Tenant, its agents, employees, invitees, or licensees.

Tenant shall provide and pay for its own regular janitorial service to maintain the Premises in a neat and clean condition. Tenant shall be responsible for all repairs or replacements to the Building occasioned by the negligence or willful act of Tenant, its agents, employees, invitees, or licensees.

8. **Utilities.** Tenant shall have all utilities servicing the Premises metered in its own name and shall pay all charges and deposits for the utilities provided to or used in the Premises during the term of this Lease. Tenant shall also pay 100% of the water and sewer bill. Landlord shall not be liable in damages should the furnishing of any utilities be interrupted by fire or other casualty, accident, strike, labor dispute or disagreement, the making of any necessary repairs or improvements, or any other causes beyond the reasonable control of Landlord.

9. **Liability insurance.** Tenant shall indemnify Landlord and save Landlord harmless from any liability or claim for damages that may be asserted against Landlord by reason of any accident or casualty occurring on or about the Premises. Tenant shall, at its own cost and expense, obtain and keep in force a policy or policies of public liability insurance with an insurance company approved by Landlord, with liability coverage of an amount as recommended by Landlord’s insurance agent that, for the initial coverage, shall be not less than $1 million for injury or death to any one person, $3 million for injury or death to more than one person, and $500,000 regarding damage to property. Tenant shall furnish Landlord with certificates or other evidence acceptable to Landlord indicating that the insurance is in effect and providing that Landlord shall be notified in writing at least 30 days before cancellation of any material change in or renewal of the policy. All insurance policies shall name Landlord and any persons designated by Landlord as insured parties.

Any insurance maintained by either party pursuant to this section or under this Lease shall contain a
clause or endorsement under which the insurer waives all rights of subrogation against the other party, its agents or employees, regarding losses payable under the policy.

Any personal property kept on the Premises by Tenant shall be at Tenant’s sole risk.

10. Use. Tenant shall use and occupy the Premises for the purpose stated in section 2(g) and for no other purpose without the prior written consent of Landlord. Tenant shall not intentionally and knowingly use the Premises for any purpose or in any manner in violation of any State law, local ordinance, rule or regulation adopted or imposed by the City in which the Premises is situated. Tenant shall not deface or injure the Premises or the Building, permit anything to be done on the Premises tending to create a nuisance or to disturb other tenants in the Building, or permit any activity in the Premises that will result in an increase of any premium, or cancellation of a policy, for insurance on the Premises or the Building.

11. Construction of leasehold improvements. Landlord grants Tenant express consent to construct certain leasehold improvements as may be required for Tenant’s use. The cost of Tenant’s leasehold improvements shall be paid for by Tenant. The improvements shall be constructed in a good and workmanlike manner.

12. Operations. Tenant’s operations in conjunction with the Premises shall meet the requirements set forth below.

a. Tenant shall keep all garbage and refuse in the kind of container specified by Landlord. If Landlord shall provide or designate a service for picking up refuse and garbage, Tenant shall use the same at Tenant’s cost. Tenant shall pay the cost of removal of any of Tenant’s refuse or rubbish.

b. Tenant shall keep the Premises at a temperature sufficiently high to prevent freezing of water in any pipes and fixtures.

c. Tenant shall keep the outside areas immediately adjoining the Premises clean and free from dirt and rubbish to the satisfaction of Landlord, and Tenant shall not place or permit any obstructions or merchandise in those areas. Tenant shall water and maintain any flowers, shrubs, and trees located immediately adjoining the Premises.

d. Tenant shall only store and/or stock in the Premises goods, wares, and merchandise that Tenant intends to offer for sale at retail.

e. Tenant shall conduct its business in the Premises in a dignified manner and in accordance with high standards of store operation.

13. Restrictions on Tenant’s activities. Without Landlord’s written consent, Tenant shall not engage in the activities listed below.

a. Tenant shall not operate all or any part of its business in the Premises in any manner that is inconsistent with its intended use of the Premises.

b. Tenant shall not conduct any auction, fire, going-out-of-business, or bankruptcy sales in the Premises.

c. Tenant shall not operate or permit to be operated on the Premises any coin or token operated vending machines or similar devices for the sale of goods, wares, merchandise, food, beverages, or service.
including, without limitation, pay telephones, pay lockers, scale, and amusement devices without Landlord's prior written consent.

d. Tenant and Tenant's employees and agents shall not solicit business in the parking or other common areas of the Building, nor shall Tenant or its employees or agents distribute any handbills or other advertising matter in or on automobiles parked in the parking area or in other common areas without Landlord's prior written consent.

e. Tenant and its employees and agents shall not park any vehicle on the Building land except in areas that are designated by Landlord for that use.

14. **Assignment and subletting.** Tenant agrees not to sell, assign, mortgage, pledge, or in any manner transfer this Lease or sublet the Premises or any portion of the Premises without the prior written consent of Landlord. Notwithstanding any assignment or subletting, Tenant shall remain fully liable on this Lease. Landlord's right to assign this Lease is and shall remain unqualified. On any transfer of Landlord's interest in the Premises in which the purchaser assumes all obligations under this Lease, Landlord shall be free of all obligations of Landlord under this Lease and shall not be subject to any liability resulting from any act or omission or event occurring after the conveyance. Tenant agrees to recognize the transferee as Landlord, and Tenant further agrees, at Landlord's request, to execute and deliver such documents and estoppel letters as Landlord may request to assist in that transfer.

15. **Estoppel letter.** On not less than 10 days' prior written notice from Landlord, Tenant shall sign and deliver to Landlord an estoppel letter that

a. certifies that this Lease is unmodified and in full force and effect (or, if modified, states the nature of the modification and certifies that this Lease, as so modified, is in full force and effect);

b. acknowledges that there are not, to Tenant's knowledge, any uncured defaults on the part of Landlord or specifying the default if any are claimed;

c. certifies the date to which all forms of rent have been paid; and

d. certifies the amount, if any, of the security deposit paid to Landlord.

Tenant's failure to deliver such an estoppel letter within the 10 days shall be conclusive on Tenant that

a. this Lease is in full force and effect, without modification except as may be represented by Landlord;

b. there are no uncured defaults in Landlord's performance;

c. not more than one month's rent has been paid in advance; and

d. no security deposit has been paid except as may be represented by Landlord.

16. **Acceptance of Premises.** The occupancy by Tenant of the Premises shall constitute an acknowledgment by Tenant that the Premises are then in the condition called for by this Lease.

17. **Damage or destruction.** If, during the term of this Lease, the Premises shall be partially or totally destroyed by fire or other casualty covered by insurance so as to become partially or totally untenable,
the same shall be repaired as promptly as possible with the insurance proceeds unless this Lease is
terminated. In the event of damage or destruction, if this Lease is not terminated, the rent shall be abated
proportionately to the loss of use suffered by Tenant.

If, during the term of this Lease, the Premises shall be partially or totally destroyed by fire or other
casualty, and the cost of restoring the Premises to its condition prior to the damage shall equal or exceed
40 percent of its fair replacement value immediately prior to the damage, or if the Premises are damaged
by any casualty not insured against by Landlord, Landlord shall have the right to terminate this Lease by
giving Tenant written notice of its election to do so within 15 days after the date on which the damage
occurs. On the giving of notice, the Lease shall terminate as of the date on which damage occurred and
the rent shall be adjusted to that date. In default of notice by Landlord, this Lease shall continue and
Landlord shall cause the Premises to be repaired or restored with due diligence.

18. Condemnation. If the whole or any part of the Premises shall be taken by any public authority under
the power of eminent domain, the term of this Lease shall cease on that part to be taken from the day the
possession is acquired by the public authority and the rent shall be paid up to that date. If the portion of
the Premises taken substantially impairs the usefulness of the Premises for the purpose for which the
Premises were leased, Tenant shall have the right either to terminate this Lease or to continue in the
possession of the remainder of the Premises under the terms and conditions of this Lease except that the
rentals shall be reduced in proportion to the amount of the Premises taken, and in the latter event,
Landlord shall promptly restore the remainder to a reasonably tenantable condition. All damages awarded
for the taking shall belong to and be the property of Landlord.

19. Alterations and signage. No improvements, alterations, additions, or physical changes shall be made
on the Premises by Tenant without the prior written consent of Landlord.

Tenant agrees that it will not place or maintain on any exterior door, wall, or window of the Premises any
signs, awning or canopy, or advertising matter, or other thing of any kind and will not place or maintain
any decoration, lettering, or advertising matter on the glass of any window or door of the Premises that is
not in conformity with all applicable governmental rules and regulations and the rules and regulations of
the Building as set forth by Landlord and further, without first obtaining Landlord’s prior written
approval. Tenant further agrees to maintain such sign, awning, canopy, decoration, lettering, advertising
matter, or other thing as may be approved in good condition and repair at all times. Tenant further
acknowledges that Landlord may, at its option, regulate the lettering size, style, and color of Tenant’s sign
so that all signs in the Building are of a like size, color, style of lettering, and like material. Tenant agrees
that it will conform its sign to that as regulated by Landlord for the general use in the Building, regardless
of how and in what manner Tenant normally designs its name for use in its sign and further regardless of
whether or not Tenant uses the form and style of its sign as a trademark.

All alterations and improvements, but not moveable equipment and trade fixtures, put in at the expense of
Tenant shall be the property of Landlord and shall remain on and be surrendered with the Premises at the
termination of the Lease; provided, however, that Landlord may require that Tenant remove the
alterations and improvements and repair any damages to the Premises caused by the removal.

20. Remedies and default. If Tenant shall default in the payment of any sums to Landlord when due and
shall not cure such default within 7 days; or if Tenant shall default in the performance of any other
covenant or condition of the Lease and shall not cure such other default within 30 days after written
notice from Landlord specifying the default; or if Tenant or its agent shall falsely any report to be
furnished to Landlord pursuant to the terms of this Lease; or in case Tenant shall be adjudicated a
bankrupt or make any assignment for the benefit of creditors; then, in any such event, Landlord may

5

1650
either (a) accelerate the full balance of the rental payable for the remainder of the term and sue for such sums or Landlord may terminate this Lease or (b) reenter the Premises, without terminating this Lease, and dispossess Tenant or any other occupant of the Premises and remove Tenant’s effects and relet the same for the account of Tenant for such rent and on such terms as shall be satisfactory to Landlord, crediting the proceeds, first to the costs and expense of reentry, alterations and additions, and the expense of reletting, and then to the unpaid rent and the other amounts due during the remainder of the term. Tenant shall remain liable to Landlord for any unpaid balance.

In case suit shall be brought for recovery of possession of the Premises, for the recovery of any rent or any other amount due under the provisions of this Lease, or because of the breach of any other covenant on the part of Tenant to be kept or performed, and a breach shall be established, Tenant shall pay to Landlord all expenses incurred, including reasonable attorney fees, which shall be deemed to have been incurred on the commencement of the default and shall be enforceable whether or not the action is prosecuted to judgment.

21. **Access to Premises.** Landlord shall have the right to enter on the Premises at all reasonable hours to inspect and for access to the Premises to install, maintain, use, repair, and replace pipes, ducts, lights, conduits, plants, wires, floor coverings, and all other mechanical equipment serving the Premises.

22. **Rules and regulations.** Landlord reserves the right to adopt from time to time rules and regulations for the operation of the Building that are not inconsistent with the provisions of this Lease. Tenant and its agents, employees, invitees, and licensees shall comply with all those rules and regulations. Any such rules shall not dictate the days or time of business operation.

23. **Waiver.** The failure of Landlord to insist on a strict performance of any of the terms, covenants, or conditions of this Lease or rules and regulations of the Building shall not be deemed a waiver of any subsequent breach or default in the terms, covenants, and conditions or rules and regulations. This Lease may not be changed, modified, or discharged orally.

24. **Notices.** All notices required under this Lease shall be in writing and shall be deemed to have been given if either delivered personally or mailed by certified or registered mail to Landlord or to Tenant at their respective addresses set forth above or to such other address as either party may furnish in writing during the term of this Lease.

25. **Quiet enjoyment.** Landlord covenants and agrees with Tenant, its successors, and assigns that on Tenant’s paying the rent and observing and performing all the terms, covenants, and conditions on Tenant’s part to be performed and observed, Tenant may peaceably and quietly hold, have, occupy, possess, and enjoy the Premises for the full term of this Lease.

26. **Subordination to mortgage.** Any mortgage now or hereafter placed on the Premises shall be deemed to be prior in time and senior to the rights of Tenant under this Lease. Tenant subordinates all of its interest in the leasehold estate created by this Lease to the lien of any mortgage. Tenant shall, at Landlord’s request, execute any additional documents necessary to indicate this subordination including, if requested, an estoppel letter as set forth in section 15. If Tenant fails to supply the estoppel letter, the provisions in section 15 to cover that failure shall apply. Notwithstanding the foregoing, Tenant’s possession of the Premises under this Lease shall not be disturbed by any mortgagee, owner, or holder of note secured by a mortgage placed on the Premises, unless Tenant shall breach any of the provisions of this Lease and the lease term of Tenant’s right to possession shall have been lawfully terminated in accordance with the provisions of this Lease.
27. **Building revisions by Landlord.** Landlord reserves the absolute right at any time and from time to time to make changes or revisions in the Building, including such changes to the parking lot, driveways, signs, and sidewalks, by making additions to, subtractions from, or rearrangements of the improvements in the Building, as long as the revisions do not materially affect Tenant’s use of the Premises.

28. **Holding over.** If Tenant remains in possession of the Premises after the expiration or termination of the Lease, it shall be deemed to be occupying the Premises as a tenant from month to month, subject to all the conditions, provisions, and obligations of this Lease insofar as the same can be applicable to month-to-month tenancy, except that the rent shall increase to 2 times the rent owing at the end of the lease term. The month-to-month tenancy shall be cancelable by either party on 30 days’ written notice to the other.

29. **Recording.** Tenant shall not record this Lease without the written consent of Landlord; however, on the request of either party the other party shall join in the execution of a memorandum or so-called “short form” of this Lease for the purpose of recordation. The memorandum or short form of this Lease shall describe the parties, the Premises, and the term of this Lease and shall incorporate this Lease by reference.

30. **Captions and headings.** The captions and headings used in this Lease are intended only for convenience and are not to be used in construing this Lease.

31. **Applicable law.** This Lease shall be construed under the laws of the state of Michigan. Venue for any disputes under this agreement shall lie in **Oakland**, Michigan. If any provision of this Lease or the application to any person or circumstances shall, to any extent, be invalid or unenforceable, the remainder of this Lease shall not be affected and each provision of this Lease shall be valid and enforceable to the fullest extent permitted by law.

32. **Successors.** This Lease and the covenants and conditions shall inure to the benefit of and be binding on Landlord, its successors, and assigns and shall be binding on Tenant and permitted assigns of Tenant.

33. **Effective date.** The parties have caused this agreement to be signed and shall be effective as of the day and year first above written.

*(signature page to follow)*
IN WITNESS WHEREOF, the parties have respectively signed and sealed this Lease as of the day and year first above written.

F. Operations Plan
Tycoon I Operations, LLC

Business & Operations Plan

PREAMBLE:
Tycoon I Operations, LLC ("Applicant") will strictly comply at all times with applicable state law and local ordinance codes, including rules and emergency rules that may, from time to time, be promulgated by the state or Orion Township. All business activities will take place indoors in a locked facility. Applicant has retained a law firm with established expertise in Michigan marihuana law to ensure continuing education and compliance with the laws as they evolve. The statements made in this application are made with a clear and thorough understanding of state and local requirements as they exist on the date of application, but the operations of Applicant will be amended to comply with all future derivations of the state and municipal laws.

I. OVERVIEW
Applicant is a Michigan limited liability company formed to operate twenty four (24) commercial marihuana GROWER (Class C) facilities whose primary mission is to provide a source of high-quality marihuana to processors and provisioning centers across the state of Michigan.

II. ADMINISTRATION
   A. Location & Zoning
      i. Buffers
         a. The distances described are measured horizontally between the nearest property lines.
         b. The facility is not within 1,000 feet of any educational institution or school, college or university, church, house of worship or other religious facility, licensed child care, preschool, public library, or public or private park.
      
      ii. Applicant is leasing the property pursuant to the attached lease and the owner/lessor of the property authorizes the use of the property as a marihuana facility in the lease agreement, which is attached.

   B. Organizational Structure
      i. The Applicant is organized as a Michigan limited liability company and is in good standing.
      
      ii. The members, owners, directors, officers, and managers of the Applicant are listed in the Organization Structure.
iii. The members, owners, directors, officers, and managers of Applicant meet all eligibility requirements to own and operate a marihuana grower facility as set forth in state law and local ordinance.

   a. No member, owner, director, officer, manager or any person having an ownership interest in the application has an interest in a secure transport facility license or a safety compliance facility license.

   b. The Applicant meets all eligibility requirements to own and operate a marihuana grower facility as set forth in state law and local ordinance

iv. The Applicant has never applied for been granted any commercial license or certificate issued by a licensing authority in Michigan or any other jurisdiction that has been denied, restricted, suspended, revoked or not renewed.

C. Permits & Licenses

   i. This Business and Operations Plan is submitted as an addendum to the applications for Ten Orion Township permits to operate a business and the Orion Township special use/site plan application.

   ii. All operations in this Business and Operations Plan will comply with regulations issued by the Department of Licensing and Regulatory Affairs (LARA).

   iii. Applicant intends to apply for, obtain, operate, and comply with a state license to operate a grower facility under the MMFLA and MRTMA.

   iv. The business will not open for operation until it receives a state license to operate under the MMFLA and MRTMA and all applicable permits and licenses from Orion Township.

   v. Upon granting of a permit to operate a grower facility, Applicant will prominently display the original Orion Township permit at the Permitted Premises in a location where it can be easily viewed by the public, law enforcement, and administrative authorities.

   vi. At all times the facility will hold a valid local Permit and State Commercial Marihuana Facility License for a Grower.

   vii. In addition to complying with the Orion Township Ordinance Authorizing and Permitting Commercial Marihuana Facilities, Applicant will comply with all Township Ordinances, including without limitation, the Township Zoning Ordinance, as well as the requirements of the County Road Commission, County
Building Inspector, County Drain Commissioner, District Health Department, Soil Erosion Officer, County Conservation Service, areas fire departments, Michigan Department of Natural Resources, Michigan Department of Environmental Quality, and any other applicable township, county, state and federal statutes.

viii. Applicant will have available, at all times, documentation that local and State sales tax requirements, including any requirement for a license, are satisfied.

ix. Applicant will provide updated operational and security plans to Orion Township upon request and prior to any proposed changes in its operations.

D. Inspections
   i. Applicant will provide access to the facility for inspection to any federal, state, or local law enforcement officer to ensure compliance with the permit.

   ii. Applicant consents to inspections as required in the MMFLA and pursuant to the Orion Township ordinance.

III. OPERATIONS
Applicant proposes 24 state-licenses in a single marihuana grower facility for the cultivation, drying, trimming, curing, and packaging of marihuana for sale to a processor or provisioning center pursuant to the requirements and restrictions of the Marihuana Facilities Licensing Act, PA 281 of 2016, and all future derivations thereof. This facility will be located in a secure industrial facility.

A. Compliance with State Regulations
Applicant will meet all operating regulations established by LARA and the Marihuana Licensing Board for Growers, including without limitation, any standards, procedures, and requirements for:

   i. quality control
   ii. chain of custody
   iii. marihuana storage
   iv. waste disposal
   v. labeling and packaging
   vi. storage of chemicals

B. Description of the Facility
Applicant’s facility will be used exclusively for the cultivation, drying, trimming, curing, and packaging of legal usable marihuana for sale to processors or provisioning centers.

C. Entry to Facility
Generally, the public will not be allowed entry to the facility. Notwithstanding the forgoing, Applicant will not allow entry to the facility to anyone under the age of 18.
D. Employees
Applicant anticipates having between fifteen (55) and (65) full and part-time employees, as many as possible of whom will be local community residents. None of Applicant’s employees will be registered primary caregivers during the employment with Applicant. Please reference the staffing plan for a detailed list of potential positions.

E. General Policies
   i. Applicant will only sell or transfer marihuana to a processor or provisioning center.

   ii. Applicant will only use secure transporters in the distribution or exchange of marihuana or currency with processors or provisioning centers.

   iii. Applicant will not promote the unlawful use of marihuana or any other drug or provide or otherwise make marihuana available to any person who is not legally authorized to receive Marihuana under state law.

   iv. No owner, the Applicant, or any employee of Applicant will grow marihuana in the Permitted Premises for his or her own use.

   v. The following activities are prohibited on the Permitted Premises:
      a. the sale, consumption, or use of alcohol, or controlled substances;
      b. smoking or consumption of marihuana.

F. Cultivation Plan
   i. Propagation
      a. Lighting
      b. Watering
      c. Nutrient Application
      d. Integrated Pesticide Management
   ii. Harvesting and Trimming
   iii. Drying and Curing
   iv. Packaging
   v. Distribution
      a. All marihuana products will be validated from a verified transport manifest, created from the statewide monitoring system. The manifest includes a detailed form with the number of packages and detailed content for confirmation/validation with secure transporters and purchasers of the shipment (processors or provisioning centers).
      b. Each transport shipment will be processed in the following manner:
         1. Entry of shipped inventory into the statewide monitoring system.
         2. Confirmation with Secure Transporter of valid and verified transport manifest, including product count, weight of each package or item
c. State certified scales will be used to verify and weigh all marihuana, in whatever form.

G. Inventory Management

i. Applicant will not control or have on the Permitted Property an amount of marihuana plants or usable marihuana that exceeds any amount permitted by the state License or the Township permit.

ii. Tracking and Monitoring
Applicant will use a third-party inventory control and tracking system to interface with the statewide monitoring system. The third-party inventory control and tracking system will have the capabilities necessary to comply with the requirements applicable to a grower licensee:

a. Track all marihuana plants and packages;
b. Track lot and batch information throughout the entire chain of custody;
c. Track transportation of product;
d. Track marihuana waste;
e. Track all marihuana product transfers;
f. Track sales and returns;
g. Track marihuana plant, batch, and product destruction;
h. Perform batch recall tracking;
i. Report and track loss, theft, or diversion of marihuana products;
j. Receive testing results electronically from a safety compliance facility;
k. Provide access to state agencies and law enforcement as required;
l. Report all inventory discrepancies.

iii. Applicant will enter all transactions, current inventory, and other information into the statewide monitoring system as required by the MMFLA, the Marihuana Tracking Act, and any associated regulations.

iv. Inventory reconciliation - At the end of each day, physical inventory counts will be reconciled with the third-party inventory control and tracking system.

v. Returns

H. Quality Control

i. Sampling (by Licensed Safety Compliance Facility)

ii. Batch Testing (by Licensed Safety Compliance Facility)

iii. Transport to Safety Compliance Facility (by Secured Transporter)

I. Signage and Advertising
i. Applicant has no proposed signage at this time, but will amend this plan accordingly and provide the township with its sign permit application if and when it does wish to propose signage.

ii. Applicant will not display pictures, photographs, drawings or other depictions of Marihuana or Marihuana Paraphernalia on the outside of the Permitted Premises, nor will such pictures, photographs, drawings, or other depictions of Marihuana or Marihuana Paraphernalia be visible outside of the Permitted Premises on the Permitted Property.

iii. The words "Marihuana," or "cannabis," and any other words, used or intended to convey the presence or availability of Marihuana will not appear on the outside of the Permitted Premises, nor will "Marihuana," or "cannabis," and any other words, used or intended to convey the presence or availability of Marihuana be visible outside of the Permitted Premises on the Permitted Property.

J. Visibility of activities

i. All activities of the facility, including without limitation, the cultivation, harvesting, trimming, drying, curing and packaging of Marihuana, and all other related activity permitted under Applicant’s License or Permit will occur indoors.

ii. No marihuana or paraphernalia shall be displayed or kept in the facility so as to be visible from outside the Permitted Premises.

K. Security

i. Plan

Applicant will maintain, at all times, a centrally-monitored security and alarm system on the premises that meets or exceeds state regulatory requirement. Applicant will maintain policies and procedures to include:

a. Regular drills of the security protocols and emergency plans;

b. Controlled and restricted access to the Permitted Property and Permitted Premises to employees, agents, and owners of Applicant, and law enforcement or state or local authorities as necessary to ensure Applicant’s compliance with state and local laws;

c. Internal and external cameras with 24-hour monitoring and off-site recording;

d. Installed panic buttons

e. Limitations on the amount of currency and marihuana stored onsite;

f. Cooperation and coordination with local law enforcement;

g. Permitted premises will only be able to be accessed through a combination of security locks and access codes; and

h. The ability to remain operational during a power outage with battery back-up.

ii. Security Surveillance Cameras
Security surveillance cameras will be installed to monitor all entrances, along with the interior and exterior of the premises, which will capture all areas of the property unless otherwise prohibited by law, including unobstructed video surveillance of all enclosed areas, unless prohibited by law, including all points of entry and exit that shall be appropriate for the normal lighting conditions of the area under surveillance.

iii. Security Recordings and Documentation
   a. All security recordings and documentation will be preserved for at least 30 days and made available upon request by any law enforcement.

iv. Robbery and Burglary Alarm System
   Applicant will employ an alarm system that meets state requirements and obtains state approval. Specifically,
   a. Applicant will employ a centrally alarmed and monitored security system that will be monitored 24 hours a day, 7 days a week for the Permitted Premises pursuant to the attached service agreement.
   b. There will be a perimeter alarm on all entry points and perimeter windows of the Permitted Premises
   c. A failure notification system will provide an audible, text, or visual notification of any failure in the surveillance system. A panic button and alarm will directly notify the local law enforcement agency having primary jurisdiction.

v. Storage of Marihuana and Currency
   a. Applicant will store usable marihuana that is not otherwise in the process of being dried, trimmed, cured, packaged, or distributed including packaged and un-packaged usable marihuana, and currency in a secured locked safe that is permanently affixed to the premises.

L. Ventilation Plan/Air Filtration System
   i. Applicant’s facility operation and design will provide sufficient measures and means to minimize any impact to adjacent uses, including the control of odor by maintaining and operating an air filtration system so that no odor is detectable outside the Permitted Premises.

   ii. Applicant’s equipment and methods to control odor include a comprehensive air filtration system, consisting of
       a. Activated Carbon Filters.
       b. Heavy Duty Ventilation Fans.

   iv. Details and specifications of the equipment used for Applicant’s ventilation and air filtration plan are attached.
v. The total enclosed space in which harvested marihuana will be stored amounts to approximately 300 sq. feet. Applicant will use an advanced filtration system rated appropriately for the area.

vi. The air filtration system will be maintained in working order at all times and will be in use at all times. Filters will be changed a minimum of once every 365 days.

vii. In addition to the use of an air filtration system, Applicant will mitigate odors by keeping doors and windows closed at all times, except the minimum amount of time needed to allow ingress and egress to the building.

**M. Toxic/Flammable/Hazardous Materials**

i. Applicant’s use of toxic, flammable, or other harmful, hazardous, or combustible materials will be limited to plant nutrients and pesticides and cleaning products. The facility may use the following nutrients and pesticides:

   a. CocoTech Bloom A
   b. CocoTech Grow A
   c. CocoTech Premier Nutrient
   d. FloraBloom Nutrient System
   e. FloraGrow Nutrient System
   f. Golden Tree Plant Food.
   g. Nutra Green 5-10-5 plus Micronutrients Foliar Spray
   h. Diatomaceous Earth
   i. Neem Oil
   j. PyGanic Pro Pyrmebrin 5% MGK Miticide

ii. The facility may use the following commercial cleaning products, along with the following household products: materials regulated by government agencies:

   a. Ultra Dawn Lemon Dish Soap
   b. Nature’s Source Toilet Bowl Cleaner
   c. Fantastik Antibacterial Heavy Duty All Purpose Cleaner
   d. Windex Original Glass Cleaner
   e. Novo Foaming Instant Hand Sanitizer
   f. QuickSan Food Contact and Surface Sanitizer

iii. The materials will be stored in secured and ventilated cabinets. All combustible or reactive materials will be stored separately.

iv. Materials will be handled, stored, and disposed according to specifications in each Material Safety Data Sheet.
N. Waste Product Disposal
Applicant will dispose of unusable or waste marihuana in accordance with the MMFLA, MRTMA, and applicable local ordinance guidelines to prevent the waste marihuana from being possessed or ingested by any person and animal.

i. Applicant’s current, preliminary waste disposal plan consists of shredding and grinding damaged and unusable plants, roots, seeds, stalks and harvested marihuana and mixing it with one of several lawful over-the-counter products, such as sawdust or cat litter to render it unusable, unrecognizable, and unpalatable, and then discarding in secured bags as part of its solid waste disposal.

ii. The State of Michigan’s Marihuana Licensing Board may require or suggest as a part of its regulations, expected sometime in November, one or more alternative waste disposal options including, but not limited to, waste disposal through the secured transporter system, waste mitigation through THC extraction methods (rendering the marihuana waste product inert) or some other method. Applicant warrants that it will comply with all state and local requirements as to waste disposal, but further commits to its current preliminary plan to render all marihuana waste unrecognizable, unusable and inaccessible regardless of state or local requirements.

IV. COMMUNITY RESPONSIBILITY AND CONCLUSION
Although marihuana has been used as a medicine across the globe for hundreds of years, its commercial production and sale is new to us, this state, and your community. We appreciate the opportunity to show Orion Township that Marihuana can be safe and accessible to a community while providing jobs and local economic growth. We look forward to being productive and responsible community partners, and will work with the Township toward that goal.

PAYMENT OF PERMIT FEE CONSTITUTES ACCEPTANCE OF THE ABOVE TERMS.
H. Litter & Waste Removal Plan
Litter & Waste Removal Plan

All biological waste product will be rendered unrecognizable by grinding it in an industrial grinder and combining it with other non-consumable solid waste, including the media in which we cultivate plants, Rockwool. The inclusion of inert material renders the combined solid waste unusable. All waste will be stored in a locked dumpster that is emptied at minimum once per week.

The company intends to employ particulate filtration in areas where waste is stored and processed, which minimizes potential exposure and impact to the outside environment. The facility, which is designed around large water chillers, is designed to circulate air rather than ventilating it. This process helps to avoid excess exposure of odors to the surrounding community.
I. Noise, Dust, Vibrations, Glare & Fumes Plan
Noise, Dust, Vibrations, Glare, Fumes or Odors Plan

Excessive Noise, Dust, Vibrations, Glare and Marijuana odors emanating from our facilities are a valid concern for the community and our neighbors. This plan details the measures deployed to ensure that minimal noise, dust, vibration, glare, fume or offensive odor is emitted from the facility, the response if it occurs, and that the measures remain effective over time.

This plan is our commitment to the Orion Township that we will be in compliance with regulations of the city and the administrative rules and that we will not operate in a manner creating noise, dust, vibration, glare, fumes, or odors detectable to normal senses beyond the boundaries of the property.

We will not vent noxious dust, odors, gases or fumes to surrounding areas.

We will mitigate dust and noxious odors by engaging in the following activities:

1. Adequate design measures to seal the building;
2. Utilizing a heating, ventilation, and cooling (HVAC) System designed to move an appropriate amount of air (cfm) throughout the facility to disperse odors;
3. Using industry leading MERV-13 HEPA filters in addition to FILTR, Blue Zone & Puradigm units in each room throughout the facility.

I. DESIGN MEASURES TO SEAL THE BUILDING

We intend to renovate our building in a manner that focuses on effectively sealing all interior rooms and exterior access points. Each room is enclosed in 12", interlocking insulated panels which are designed to form an airtight seal. For additional protection, butyl caulk is applied at each joint to accommodate any flaws in the panels.

Caulk is also applied to seal any openings into the panels, including plug outlets, doorways, sprinklers, and anything else that could allow air flow. Our doors are fiberglass, weather stripped and employ a drop seal to press additional weather stripping against the floor when closed to maximize the seal all the way around.

II. MERV-13 HEPA FILTRATION SYSTEM

The purification of air throughout our facility is a top priority for both the health of the plants and the environment we subject our employees and the local community to. In an effort to target and reduce contamination, mold, bacteria, odor, dust, and fumes, we employ a variety of filtration systems in all rooms where marihuana plants are grown.

Each room will utilize clean room grade HEPA filtration units filtering down to 0.01um and providing up to 5 complete air changes per hour. These units also utilize a carbon filter which focuses directly on the removal of smells and volatile organic compounds.

In addition to the HEPA filters, each room will have Puradigm units to help reduce airborne and surface contaminates, and Agrify Bluezone UV filtration units, known to destroy 99.9%+ of both bacteria and mold. Both of these systems aid in odor elimination and containment.
As filters age, they become clogged with impurities, and ultimately less effective. As such, we will develop a maintenance schedule to inspect the filtration units regularly and to replace them per the manufacturer’s recommendation or at an expedited pace based on their usage in these environments.

III. VIBRATION MITIGATION
Exterior mounted cooling equipment is mounted on isolation pads to dramatically reduce vibrations that would otherwise be created by such large equipment.

IV. EVALUATING THE EFFECTIVENESS OF NOISE, DUST, VIBRATIONS, ODOR & FUME CONTROL MEASURES
Key site leadership roles will be trained to assess the production and escape of odors, dust, fumes and glare from the facility. We also anticipate a strong and friendly relationship with the local communities and will welcome feedback about any exhaust from the building. Should these assessments or the community ever determine that our levels are beyond acceptable, we will re-evaluate this plan and engage professionals to further refine our practices and properly mitigate the problem.
J. Spent Water & Soil Safety Plan
Spent Water & Soil Safety Plan

Wastewater Treatment Plan:
Wastewater generated during the cultivation of marihuana of marihuana products shall be disposed of in compliance with all applicable state and local laws and regulations. Despite the amount of water used in the cultivation process, there is very little water waste. The majority of water is used by the plants or evaporated out of the collection dishes upon which the plants sit. Any water that is used to rinse the plants or clean the facility or for any other purpose shall be rendered clean through both reverse osmosis and UV light after standard filtration methods, and either reused by the facility or discharged through a monitoring man hole where it can be monitored to comply with all local ordinances.

The Cultivation Facility will include an Ecowater RO purification system. Ecowater Purification Systems are the leading water filtration manufacturer in the industry, helping cultivators diagnose and solve every water problem imaginable. Ecowater designs systems to treat any water source including city water, well water, nutrient runoff water, wastewater, and condensate runoff.

Soil Safety Plan
The cultivation facility will not use soil – instead, all media for the purposes of growing plants will be rockwool, a lightweight hydroponic substrate made from spinning molten basaltic rock into fine fibers which are then formed in a range of cubes. This product will be disposed of through the grinder and mixed with biological waste in a locked dumpster.
K. Security Plan
SECURITY PLAN

Tycoon I Operations is committed to being a leader in Michigan's cannabis industry and a trusted resource for the communities, consumers and clients we service. Essential to fulfilling this commitment is our ability to effectively protect our product from criminal repurposing throughout the facilities.

This Security, Surveillance and Diversion Prevention Plan details the physical and electronic security measures we employ to deter, detect, and inhibit the theft, diversion, and loss of Marijuana, and to prevent unauthorized conduct with respect to the storage and dispensing of Marijuana.

We have extensively researched and designed our Grow Facility to maximize security. The facility shall be built with enhanced security and stringent safety features to eliminate any potential for diversion. Our facility will be equipped with numerous motion sensors and exterior intrusion sensors that will be linked to local law enforcement. To prevent unauthorized entry and stop diversion, theft, or loss of marijuana, every square inch of the facility shall be continually monitored by high definition security cameras and commercial-grade equipment. Security systems will be positioned so they closely monitor activities at strategic risk points and watch for any strange behavior or movement. Marijuana shall not be visible to any person from the exterior of the Grow Facility.

We will create a culture of responsibility, accountability, and strict security surrounding all aspects of the facility. The stringent operating procedures outlined below demonstrate a commitment to employee and public safety above all other operating values. From receipt to sale, we are committed to preventing diversion by implementing a comprehensive security strategy. Employees will be extensively trained to understand that security is a primary obligation for everyone at our facility.

We will have comprehensive security policies and procedures for the Grow Facility, which address measures to deter and prevent unauthorized entrance into areas containing marijuana and theft of marijuana at the facility. Employees will receive on-going training regarding our security protocol and the Site Manager shall ensure all employees follow policies and procedures regarding the security of the facility. The Site Manager shall implement and maintain employee training policies and procedures for security training. All employees shall aid in the security of the Grow Facility through prevention, awareness, reporting, and responsible incident management. All employees shall be required to immediately report security breaches and incidents of non-compliance to their supervisor, and in case of sudden emergency, immediately to law enforcement by either striking a panic button or calling law enforcement directly.

We will make our facility available and open to inspection, at all times, for law enforcement, representatives of the Department and law enforcement, when necessary to perform their duties.

PHYSICAL SECURITY

The facility shall be designed to maximize security and stop the potential for diversion. Access to the secure facility shall include safety and security mechanisms that prevent unauthorized entry. All doors will be burglary-resistant material, with commercial-grade, non-residential locks. Additionally, exterior doors, as well as limited access area entries, will be automatic locking and equipped with electric strike and keypad access hardware. All doors are setup to fail secure, which means in the event of a power failure, the doors will remain locked and only be accessible via a master key.
The Grow Facility’s main entrance vestibule shall include a mantrap to control passage from the public access area to the limited access area. We will strive to install Underwriter’s Lab (UL) approved locks and lock cylinders, which are rated as burglary resistant. We will also install local alarms on all fire exits and other perimeter doors not authorized for employee or visitor use. Our alarm system will be monitored after business hours with live monitoring through a licensed security monitoring company. If there are ever any after-hours issues, the live monitoring system will be linked directly to law enforcement and the Site Director, among other key personnel.

We shall ensure that trees, bushes, and other foliage outside of the premises do not allow people to conceal themselves from sight. The surveillance system’s cameras shall be capable of certain identification of persons (including facial features), license plates, vehicles, the immediate surrounding areas, and any activities occurring within any area of the premises, and the parking area, and within twenty feet (20’) of all entry and exit points of the premises. Cameras will cover every square inch of the facility.

To provide first responders with immediate access into our facility during a time of emergency or inspection, we will install a Knox Rapid Access System to remove any barriers to entry when first responders respond to an emergency call.

**LIGHTING**

Exterior lights at all points of entry and exit shall remain constantly illuminated to allow for recording. Lighting on the outside perimeter shall allow cameras the ability to record any suspicious activity. Timed-delay switches shall be used to turn off non-essential interior lights, which shall not remain lit after employees have left the facility. Motion detecting lights shall be installed in areas that are entered and exited infrequently. The exterior of the facility shall be lit by commercial LED light fixtures sufficient to facilitate twenty-four-hour surveillance. Exterior lights in the parking area will remain on from dusk until dawn.

**SECURITY EQUIPMENT**

Our security equipment shall be designed, installed, and maintained to deter and prevent unauthorized entrance and theft of marijuana products at the facility. Security equipment shall be installed by a commercial, licensed service provider. All equipment shall be compliant with Department rules and all state and local laws, regulations, ordinances, and other requirements.

**ENTRY AND EXIT ELECTRONIC EQUIPMENT AND PLACEMENT**

Our entry and exit electronic access equipment will consist of the following:

- Electric strike locks on all doors in the Grow Facility with the ability to override access control for emergency exit even during a power outage.
- RFID proximity card access control devices for all interior doors and all exterior entrances and exits into the Grow Facility.
- Access control system that allows for programming or uploading individual user permissions and allowed entry times, as well as operations-specific information including employee photos.
- A backup power supply system that immediately provides power for at least twenty-four (24) hours in the event of a power outage.
- Main system operating equipment will be kept in the security room, a limited access area.
• Access control system that monitors and records:
  o Identification of employees or visitors entering and exiting.
  o Date and time of entry and exit.
  o Length of time in specific area.
  o Any unauthorized attempts for access.

ALARM SYSTEM

We shall have a professionally monitored security alarm system installed at our facility. Monitoring of the alarm system shall be twenty-four (24) hours a day, seven (7) days a week. We shall notify the Department of any intent to change our security alarm service provider. Upon request, we will make available to the Department all information related to the alarm system, monitoring, and alarm activity. The alarm system shall consist of the following:

• Appropriate equipment necessary to monitor activity inside and outside the Grow Facility, including:
  o All entrances and exits.
  o Roof hatches.
  o Rooms with exterior windows.
  o Rooms with exterior walls.
  o Rooms containing marijuana.
  o Rooms containing safes or vaults.

• A backup power supply system that immediately provides power in the event of a power outage.

• Main system operating equipment is kept in the Main Office Surveillance/IT Room, a limited access area.

• All telephone junction boxes or rooms where alarm telephone circuits terminate are locked, tamper-protected, and all labels or tags identifying these alarm circuits have been removed.

ALARM SYSTEM COMMUNICATION

The alarm system shall include an electronic or mechanical system that, upon activation, is programmed to send a prerecorded voice message, via telephone, radio frequency, or other communication system, to appropriate law enforcement authorities or other emergency services. In addition, the alarm system shall be equipped with a failure notification system that notifies the alarm monitoring service provider of the system failure via audio, text, visual, or audiovisual message, within a maximum of five (5) minutes of such failure.

ALARM SYSTEM TESTING

We shall bi-annually conduct an onsite inspection and test of the entire alarm system to determine needed repairs and adjustments.

ALARM SYSTEM RECORDS

We shall keep and maintain alarm system records and will make available to the Department all
information related to the alarm system, monitoring, and alarm activity. These records shall include the following:

- The name of the alarm installation and monitoring service provider.
- Copies of service contracts.
- A map of the Grow Facility showing the location and operation of each alarm system component including alarm telephone circuits.
- A list of authorized users.
- Manufacturers' instructions for operating and maintaining the equipment.
- Testing and maintenance logs.
- Reports of any incidents triggering an alarm.
- Reports of any interruption in monitoring and/or complete failure of the system, including the length of the interruption period.

SURVEILLANCE SYSTEM

We shall have a fully operational electronic surveillance system installed at our facility. We shall notify the Department of the intent to make any changes to the surveillance system. Upon request, we will make available to the Department all information related to the electronic surveillance system installed at our facility. The surveillance system shall consist of the following:

- Appropriate equipment necessary to video record activity inside and outside the Grow Facility, including:
  - All entrances and exits into and out of the Grow Facility.
  - Roof hatches or skylights.
  - Rooms with exterior windows.
  - Rooms with exterior walls.
  - Rooms containing safes or vaults.
  - All entrances and exits of security rooms and limited access areas.
- Appropriate equipment to record keycard entry and exit activity of all our employees and visitors.
- A backup power supply system that immediately provides power in the event of a power outage.
- A dedicated safe or vault to store all entry/exit records and video recordings in the Office Surveillance/IT Room, in a limited access area.
- Main system operating equipment is kept in the main office Surveillance/IT Room.

VIDEO SURVEILLANCE EQUIPMENT

Our video surveillance equipment will consist of the following:

- Network video recorders with a record rate of a minimum of thirty (30) frames per second.
- Cameras with a minimum resolution of 1920 x 1080 pixels.
• Cameras with infrared capabilities to capture images in low or no lighting conditions.
• Cameras with capabilities to identify activity occurring within twenty feet (20') from all points of entry and exits into and out of the exterior of the Grow Facility.
• Video monitors.
• Digital archiving device.
• Capabilities to produce a color still photograph from any camera image, live, or recorded.
• Capabilities to accurately display the time and date on recorded images or video
• Color printer that can immediately produce a clear, color still photo, either live or recorded, with a resolution of 9600 dpi and the image quality is relative to the camera being used to capture the image.

CAMERA COVERAGE PLACEMENT

We will install at least One Hundred (100) security cameras. The security cameras will be permanently mounted and in a fixed location. Each camera at the Grow Facility shall be placed in a location that allows the camera to clearly record activity occurring within twenty feet (20') of all points of entry and exit on the Grow Facility. The cameras will cover every square inch of the facility. The cameras shall allow for the clear and certain identification of any person, including facial features, and activities, including sales or transfers, in all areas of the Grow Facility. The security cameras shall monitor and record all areas of the Grow Facility including:

• All areas where marijuana or products are present, including activities related to:
  o Weighing, packaging, and labeling.
  o Storing, preparing for sale, loading/unloading, or moved within the Grow Facility.
  o Waste Disposal
• Limited-access areas and security rooms, including transfers between rooms and areas.
• Areas storing a surveillance system storage device with at least one (1) camera recording the access points to the secured surveillance recording area.
• All entrances and exits into and out of the exterior of the Grow Facility, recording both indoor and outdoor vantage points.
• Outdoor trash receptacles.
• Roof hatches or skylights.
• Rooms with exterior windows.
• Rooms containing safes or vaults.
• All areas where cash is counted, transferred, or stored.
• All areas where records are stored.

Cameras shall not be installed in bathrooms or any other area where a legitimate expectation of privacy exists. Camera placement shall ensure:

• Visibility of activities is not obstructed by lighting equipment covers, fixtures, or other equipment.
• A clear and certain identification of all individuals and activity at the Grow Facility.
• Identification of activity occurring within twenty feet (20') from all points of entry and exit into and out of the exterior of the Grow Facility.

SURVEILLANCE FAILURE NOTIFICATION

The surveillance system shall include a failure notification system that alerts the Site Director and other key site personnel of any interruption in surveillance and/or the complete failure of the monitoring system. The notification shall be within a maximum of five (5) minutes of such failure via audio, text, visual, or audiovisual message. Additionally, an alarm shall signal the Security Officer on duty whenever an unauthorized entry is attempted.

SURVEILLANCE TESTING

We shall ensure that the surveillance system is properly maintained for playback quality so that images can be seen and the identity of all individuals and activity in surveillance areas are captured. We will schedule and oversee all required maintenance of security equipment in accordance with manufacturer recommendations. Any equipment failure identified shall be corrected as soon as possible. All security equipment shall be in good working order and shall be inspected and tested at regular intervals.

INFORMATION TECHNOLOGY SECURITY

We shall ensure the security of our hardware, software, data, and communications networks, including the following information technology (IT) maintenance:

• Software registration.
• Security patches.
• Malicious software prevention.
• Account management.
• Security status and network access monitoring.
• Disposal and redeployment.
• Employee IT security training.
• Vulnerability assessments.

Access to protected information shall be restricted to essential employees only. Access may be granted to authorized representatives of the Department and other government officials if necessary to perform their official duties. Examples of protected information include:

• Security and cash management procedures.
• Asset and inventory lists.
- Network data.
- Floor plans of critical areas.
- Password and code records.
- Customer records.
- Employee records.

PRODUCT SAFETY AND SECURITY

We shall develop and implement procedures that ensure product safety and security and are compliant with the rules set forth by the Department and all applicable state and local laws, regulations, ordinances, and other requirements. Procedures shall include measures that:

- Minimize the risk of diversion or theft of marijuana.
- Minimize the risk of contamination from incoming materials.
- Ensure proper storage conditions that maintain the quality and purity of our marijuana products.

MATERIAL RECEIVING

All deliveries shall be verified at the front entrance to the facility before allowed access to the loading areas. All materials received will be documented. No material may be received unless its shipping documentation matches the corresponding purchase order or separate approval is given by the Site Manager. Employees shall notify the Site Manager of any shipment discrepancy immediately and shipment may not be accepted without the Site Manager’s approval.

PRODUCT STORAGE SECURITY

Storage areas shall be designed to provide adequate lighting, ventilation, temperature, humidity, space, and equipment. All storage areas shall be maintained in a clean and orderly condition, free from infestation of pests, and in accordance with our security measures and Security Plan. The Grow Facility Manager shall ensure secure containers containing marijuana products remain dry, well ventilated, have temperature-control features to avoid extreme temperature fluctuations and appropriate odor-control features. These proper storage environments ensure product storage does not lead to product contamination or loss of quality.

The storage areas containing marijuana products shall be designed for security and ease of maintenance. We shall establish product storage and security policies and procedures compliant with the rules set forth by the Department and all applicable state and local laws, regulations, ordinances, and other requirements. Under no circumstances may any product be transferred without following our policies and procedures and all the rules set forth by the
Department and all applicable state and local laws, regulations, ordinances, and other requirements. Storage policies and procedures shall include:

- All equipment and any areas used for the processing or storage of marijuana shall be securely locked unless in use.
- All areas used for the storage of marijuana shall be on a time lock and only accessible during regular business hours.
- Inventory shall be reviewed and documented at the beginning and close of each day.
- All areas where marijuana product is stored will be monitored by the surveillance system.

**DIVERSION PREVENTION**

Investigation of possible diversion and developing policies to prevent it will be conducted by a team of our senior officials, including our CEO, COO, and Director of Compliance. Collectively, they will be known as the Diversion Prevention Team or DPT. The team will have multiple responsibilities including:

- Investigating allegations of diversion
- Developing policies and procedures to prevent diversion
- Managing performance improvement measures
- Providing overall direction for the program.
- Reporting confirmed cases of diversion to law enforcement

The DPT will also integrate information from external sources and environmental factors to improve safety and security at facilities. External sources and environmental factors may include news reports, trade and patient associations, law enforcement bulletins, et cetera. Standard operating procedures shall be updated to incorporate new sources of information and prevent diversion.

**WORKING WITH LAW ENFORCEMENT**

We deeply value and respect the work of local law enforcement. Police officers are on the front lines protecting our safety. Therefore, our Company, through the DPT, will form a partnership with law enforcement. This partnership will be rooted in a shared responsibility for the safety of the community. Upon request, law enforcement will have access to employee records and Grow Facility operations. Company will also engage with first responders like EMS and fire to establish emergency response protocols. This will create a close working relationship and enhance our ability to provide a secure and positive experience for our employees and the community.

To provide first responders with immediate access into our facility during a time of emergency or inspection, we will install a Knox Rapid Access System to remove any barriers to entry when first responders respond to an emergency call.
EMPLOYEE TRAINING

We know that having a trained and educated workforce is paramount to having an effective diversion strategy. Therefore, a considerable amount of time, resources, and energy will be devoted to ongoing diversion prevention training. The training curriculum will be conducted by the DPT. At a minimum, the training curriculum shall include:

- Compliance regulations for grow facilities.
- State laws and agency rules regulating the use of marijuana.
- Strategies for preventing diversion.
- Criminal and civil consequences for diverting product.
- Security and safety standard operating procedures.
- Chain of command for reporting diversion.
- Incident management.
- Daily operating procedures.

Diversion prevention trainings are mandatory for every new employee. Additionally, each employee shall be required to participate in quarterly continuing education trainings on diversion. Training materials will be outcome driven. Employees will be given real world examples of diversion and taught the appropriate response. Teaching the material through the learning principles of problem solving, discussion, and feedback will empower and increase understanding and retention of the training. This process of integrating knowledge will develop a culture of shared values, perspectives, and become the way of daily conduct and purpose at the Grow Facility.

Employees will have access to diversion prevention training materials at all times. There will be no excuse and zero tolerance for not knowing the proper policies and procedures. Well-maintained employee training records displaying documented training dates and subject matter will preserve and increase compliance, continuity and understanding of all guidelines, security procedures, safety, and incident response. Employee training records will become a written testament of the detailed information and accountability of security education.

INVESTIGATION OF DIVERSION

Due to intense and robust security operations, we do not anticipate diversion at our facility. However, it is important to be prepared for any scenario. We have developed an enhanced investigation procedure for any allegations or reports of potential diversion. Any allegation or report will be fully and immediately investigated by the DPT with established processes and timeframes.

Security policies developed by our Company outline that the first step of investigation is to preserve all possible evidence. Evidence needs to be persevered for the investigation and may be used in future disciplinary matters. The second step of investigation shall be to review all camera footage and other relevant information technology. Each marijuana product is tracked from seed to sale. Therefore, if diversion occurred, it will likely appear in an audit of the tracking software. The third step of investigation will be to interview the employee who engaged or
allegedly engaged in diversion. This step can only be executed if enough evidence is gathered to narrow down the suspect. The goal of the interview is to get the subject to confess how they diverted product to prevent future incidents from occurring. The fourth step of investigation will be to report the confirmed incident of diversion and suspect to law enforcement and the Department. The Site Manager shall be the point of contact for all law enforcement inquires and will turn over all relevant evidence to law enforcement and the Department. The final step of investigation is to develop policies and procedures to prevent the incident from happening again. Once new policies have been developed by the DPT, an all staff training shall be given. The training will be a top down review of all security policies including any updated procedures.

INCIDENT RESPONSE

We shall establish incident response procedures addressing any incident that may occur, including natural disaster, unauthorized access, theft, or IT security breach. Procedures shall be in accordance with the rules set forth by the Department and all applicable state and local laws, regulations, ordinances, and other requirements. Procedures for general emergency and incident management, containment, and corrective measures shall be thoroughly detailed. The Director of Compliance shall ensure the appropriate response procedures are followed. All employees shall receive incident response training annually. The Site Manager shall determine the category and severity of the incident and determine the next best course of action. All discussions, decisions, and activities shall be documented.

We shall immediately notify appropriate law enforcement authorities and the Department immediately after the discovery of a reportable incident as defined by state and local laws, regulations, ordinances, and other requirements. Examples of an incident may include, but are not limited to:

- Theft or physical loss of marijuana or confidential records.
- Breach of our network servers.
- Robbery or unauthorized entry in the Grow Facility.
- Threats of violence to the Grow Facility, employees, or visitors.
- Bomb threats.
- Any criminal activity.
- Civil disturbances.
- Hazardous spills.
- Infectious disease epidemic.
- Serious accidents.
- Fires.
- Earthquakes.
- Floods.
- Windstorms or tornadoes.
INCIDENT REPORTING

Anyone with knowledge or a reasonable suspicion of an incident is instructed to make an immediate report to the Grow Facility Manager or the Site Manager. The person reporting the incident shall complete the Incident Log.

- Date and time of occurrence or suspected occurrence.
- Names and contact information of parties involved and any witnesses.
- Description of incident.
- Completed Suspect Description Forms, if applicable.
- Any evidence supportive of the event (unless law enforcement is required on scene or en route).

We shall notify appropriate law enforcement authorities and the Department immediately after discovering the following:

- Discrepancies identified during inventory; diversion, theft, or loss of marijuana; or any criminal action involving an employee.
- Theft, robbery, or burglary; sale to minors; diversion of marijuana or marijuana products; or any other crime related to marijuana.
- Any suspicious act involving the sale, cultivation, distribution, processing, or production of marijuana by any person.
- Unauthorized destruction of marijuana.
- Any loss or unauthorized alteration of records.
- An alarm activation or other event that requires a response by public safety personnel.
- Integrity of the inventory management system compromised.
- An IT security breach.
- The failure of any security alarm system due to a loss of electrical power or mechanical malfunction that is expected to last longer than eight (8) hours.
- Any other breach of security defined by the rules set forth by the Department.

UNAUTHORIZED ENTRY/ROBBERY CONTAINMENT AND CORRECTIVE PROCEDURES

In the event a threat is present to persons, cash, or product due to unauthorized entry, employees shall be trained to perform the following:
- Notify law enforcement utilizing a panic alarm, only if it can be safely done without being obvious to the robber.
- Do not resist the robber or use or encourage the use of weapons or force against the robber.
- Try to inform the robber of any potential surprises (e.g., an employee is due back from lunch or the building alarm is set to be tested).
- Try to keep employees and visitors, if applicable, calm during the robbery.
- Try to alert other employees of the situation using pre-determined signals or text messages, only if safe to do so.
- Follow the robber’s commands in order to shorten the time of the incident. Do not argue with the robber, but do not volunteer to help.
- If the robber demands a certain amount of money or product, only give them that amount.
- Be observant in order to be a good witness. Try to remember:
  - The number of robbers.
  - The physical characteristics of the robber(s), such as weight, scars, tattoos, hair color, or speech patterns.
  - The clothing worn by the robber(s).
  - Any names used by the robber(s).
  - A description of any weapons shown, such as barrel length and color, color of the grip, or automatic or revolver.
- If the robber uses a note, try to place it out of sight to retain it as evidence.
- Do not follow a robber.
- Secure the Grow Facility and place a notice that the business is closed due to an emergency.
- Call the police and ambulance, as needed, immediately and request that witnesses stay or obtain their contact information.
- Provide aid to injured people.
- Do not discuss the robbery with any outside parties until police and management has given authority to do so.
- Do not estimate the amount of money or product that was taken until an inventory has been performed.

Corrective procedures that may be required to return conditions to a normalized and secure state:
- Change all security codes.
- Replace locks and issue keys only to authorized employees.
• Ensure any video of the incident is archived.
• Restore security devices and/or apparatus to working condition.
• Repair any physical damage to the Grow Facility.
• Provide employees and visitors, if applicable, counseling, as needed.
• Perform a security re-training as soon as possible.
• Modify Employee Access Control Log as deemed appropriate.

INTERNAL THEFT/BURGLARY CONTAINMENT AND CORRECTIVE PROCEDURES

In the event a threat is present to persons, cash, product due to internal theft or burglary, employees shall be trained to perform the following:

• Identify missing or compromised assets.
• Gather, remove, recover, and secure sensitive materials to prevent further loss or access.
• Power down, recycle or remove security equipment known to be compromised.
• Where possible, secure the premises for possible analysis by the Department and law enforcement.
• Gather and secure any evidence of illegal entry for review by the Department and law enforcement.
• Where possible, record identities of any party who might be a possible witness to events.
• Preserve video recordings and Visitor logs for review by the Department and law enforcement.

Corrective procedures that may be required to return conditions to a normalized and secure state:

• Retrieve or restore assets where possible.
• Store all sensitive materials and products in a secure manner (e.g., lockable cabinets or storage areas/container).
• Replace locks and issue keys only to authorized employees. Update the Employee Access Control Log as necessary.
• Restore security devices and/or apparatus to working condition.
• Remove and retain unauthorized equipment from network and/or area.
• Implement physical security devices and improvements (e.g., equipment cables, alarms) as deemed appropriate.
• Perform a security re-training as soon as possible.
FIRE PROCEDURES

If a fire does not present an immediate danger to personal safety, one (1) employee shall try to extinguish the fire. If a fire presents an immediate danger to personal safety, a fire alarm shall be pulled and a call to 911 shall be immediately made and evacuation of the building shall occur all at once.

Evacuation of Grow Facility

Any director or manager may determine the need to evacuate. Reasons for evacuation may include:

- Fire.
- Bomb threat.
- A hostile or violent employee, visitor, or unknown person.
- Power outage.
- Earthquake.
- Water or gas leak.
- Hazardous spill.
- Robbery or hostage situation.

The Site Manager shall ensure that all employees and visitors, if applicable:

- DO NOT gather in lobbies.
- DO NOT open a door without first checking for heat.
- DO NOT touch any suspicious items or suspected bombs.
- DO NOT run or panic.
- DO NOT re-enter the building until authorized.
- DO assist disabled individuals or others who need assistance. Evacuate disabled individuals or others who need assistance ONLY under the direction of authorized emergency personnel or when there is an immediate threat to personal safety and security.

INCIDENT CONTAINMENT

The Site Manager, in coordination with the appropriate department directors or managers, shall determine and implement the appropriate activities and processes required to quickly contain and minimize the immediate impact to personal safety, the Grow Facility, and other affected parties. Containment activities shall be designed to:

- Minimize harm to individuals.
- Counteract the immediate threat.
• Prevent propagation or expansion of the incident.
• Minimize actual and potential damage.
• Restrict knowledge of the incident to authorized employees.
• Preserve information relevant to the incident.

The Site Manager, in coordination with the appropriate department directors or managers, shall determine and implement the appropriate activities and processes to quickly:
• Secure the environment.
• Restore the environment to its normalized state.

The Site Manager shall be actively engaged throughout the incident to assess the progress of all containment and corrective measures and determine at what point the incident can be considered resolved.

INCIDENT CONTAINMENT AND CORRECTIVE PROCEDURES

The Site Manager shall determine and implement the appropriate procedures required to quickly contain and minimize the immediate impact of an incident, as well as to quickly restore circumstances to a normalized, secure state. Containment and corrective measures shall be designed with the primary objectives of:
• Minimizing harm.
• Counteracting the immediate threat.
• Preventing propagation or expansion of the incident.
• Minimizing the actual and potential damage.
• Restricting knowledge of the incident to authorized employees.
• Preserving information relevant to the incident.
• Securing the environment.
• Restoring the environment to its normalized state.

POST-INCIDENT REVIEW, REPORT, AND FOLLOW UP

The Site Manager shall hold a Post-Incident Review after each incident has been resolved. The Post-Incident Review shall be scheduled within two (2) to three (3) weeks of the incident’s resolution and shall involve:
• Appropriate personnel, which may include affected parties.
• Examination of the incident and all related activities and events.
• Discussion on proposed changes to policy, processes, and safeguards.
All incident activities, from receipt of the initial report through post-incident review, shall be documented. The Site Manager shall ensure all events are recorded, assembling these records in preparation and performance of the post-incident review, and ensuring all records are preserved for review. The following shall be included, at a minimum, in the Post-Incident Report:

- A description of incident events with specific timelines.
- Employee(s) involved.
- Non-Employees involved.
- Impact to affected parties.
- Discussions, decisions, and assignments made.
- Successful and unsuccessful activities.
- Notifications required or recommended.
- Steps taken for containment and resolution.
- Recommendations for prevention and remediation (short-term and long-term).
- Identification of policy and procedure gaps.
- Results of post-incident review.
- Any necessary follow-up actions.

The Post-Incident Report shall be distributed to the Site Manager, the Grow Facility Manager, and all other relevant parties for review. The Site Manager shall ensure the appropriate employees are assigned to any follow-up actions. The Site Manager shall document the completion of all follow-up actions in the Post-Incident Report and distribute an updated copy.

SECURITY SYSTEM RECORDS

We shall keep all necessary books and records in order to render a full account of all operations conducted at the Grow Facility under our license for the year to date and the five (5) years prior. We shall keep books and records of the Grow Facility from the previous six (6) months (or the complete copies of such records) in the Grow Facility at all times. All marijuana related records shall be retained in the inventory management system. All surveillances recordings shall be retained, at a minimum for at least sixty (60) days, unless in instances of investigation or inspection by the Department, through its investigators, agents, auditors, or the state police, in which case the licensee shall retain the recordings until such time as the department notifies the licensee that the recordings may be destroyed. Our standard operating procedures shall detail the maintenance of records and measures for addressing and reporting any loss or unauthorized alteration of records. The Department, upon request, shall have full access to all Grow Facility records and surveillance recordings.

We shall keep and maintain security and surveillance system records and recordings in the Grow Facility and copies stored on a secure cloud storage. These records shall include, at a minimum, the following:

- The name of the surveillance equipment installation service provider and all equipment manufacturers.
- Copies of any service contracts.
- A map of the Grow Facility showing the location and operation of each surveillance system component, including the direction of camera coverage.
- A list of authorized users.
- Manufacturers’ instructions for operating and maintaining the equipment.
- Testing and maintenance logs.
- Reports of any incidents of unauthorized entry.
- Employee Access Control Logs.
- Visitor Registration Logs.
- Authorized Visitor Access Control Logs.
- Incident Logs and Post-Incident Reports.
- Reports of any interruption in monitoring and/or complete failure of the system, including the length of the interruption period.
- A log of the recordings, which includes:
  - The identities of the employee or employees responsible for monitoring the video surveillance system.
  - The identity of the employee who removed the recording from the video surveillance system.
  - The identity of the employee who destroyed any recording.
- Video surveillance recordings shall be:
  - In a digital format that ensures authentication of the recording as being legitimately captured without alterations.
  - Easily accessible and in a format that allows for viewing and copying.
  - Embedded with the date and time without significantly obscuring the picture.

We will maintain a log of all recordings, which will include a minimum:
- The identities of the employee or employees responsible for monitoring the video surveillance system.
- The identity of the employee who removed the recording from the video surveillance system storage device and the time and date removed.
- The identity of the employee who destroyed any recording.

Video surveillance recordings shall be stored on an NVR that is server-based with storage as required to meet recording rate and retention. This system shall be password-protected and separate from any other equipment in the Grow Facility. The files and video surveillance recordings shall be available for inspection, upon request, by authorized representatives of the Department and other government officials when necessary to perform their official duties.

After the expiration of the retention period, and before selling or closing the facility, the surveillance video recordings shall be erased, destroyed, or otherwise disposed. We shall not destroy any surveillance video recordings if we have knowledge or should have knowledge of any ongoing criminal, civil, administrative, or other official investigations or proceedings for which the recording may contain relevant information. Additionally, we shall not destroy any surveillance
video recordings in instances of investigation or inspection by the Department, through its investigators, agents, auditors, or the state police, in which case the recordings shall be retained until such time as the Department notifies us that the recordings may be destroyed.
**Security and Surveillance Equipment Room Access List**

This is the current list of individuals having access to our Security and Surveillance Equipment Storage Room. Only those on this list are essential to maintain security and surveillance operations. All others will be denied access to the Security and Surveillance Equipment Room.

This list is available to the Department or authorized agents immediately upon request.

ADDITIONAL DOCUMENTS
CERTIFICATE OF AMENDMENT TO THE ARTICLES OF ORGANIZATION

Pursuant to the provisions of Act 23, Public Acts of 1993, the undersigned executes the following Certificate of Amendment:

The Identification number assigned by the Bureau is: 802483853
The name of the limited liability company is: HELLER INVESTMENT HOLDINGS, LLC
The date of filing the original Articles of Organization was: 7/17/2020

Complete only those articles being amended.

Article I

The name of the limited liability company as amended, is: TYCOON I OPERATIONS, LLC

The amendment was approved by unanimous vote of all the members entitled to vote.

This document must be signed by a member, manager, or an authorized agent:

ARTICLES OF ORGANIZATION
For use by DOMESTIC LIMITED LIABILITY COMPANY

Pursuant to the provisions of Act 23, Public Acts of 1993, the undersigned executes the following Articles:

Article I

The name of the limited liability company is:

MELLER INVESTMENT HOLDINGS, LLC

Article II

Unless the articles of organization otherwise provide, all limited liability companies formed pursuant to 1993 PA 23 have the purpose of engaging in any activity within the purposes for which a limited liability company may be formed under the Limited Liability Company Act of Michigan. You may provide a more specific purpose:

Article III

The duration of the limited liability company if other than perpetual is:

Article IV

The street address of the registered office of the limited liability company and the name of the resident agent at the registered office (P.O. Boxes are not acceptable):

1. Agent Name: CSC-LAWYERS INCORPORATING SERVICE (COMPANY)
2. Street Address: 601 ABBOT ROAD
   Apt/Suite/Other:
   City: EAST LANSING
   State: MI
   Zip Code: 48823
3. Registered Office Mailing Address:
   P.O. Box or Street Address: 601 ABBOT ROAD
   Apt/Suite/Other:
   City: EAST LANSING
   State: MI
   Zip Code: 48823

Article V

(Insert any desired additional provision authorized by the Act; attach additional pages if needed.)

THE COMPANY SHALL BE MANAGED BY ONE OR MORE MANAGERS.

Signed this 17th Day of July, 2020 by the organizer(s):

Corporations, Securities & Commercial Licensing Bureau
WE ASSIGNED YOU AN EMPLOYER IDENTIFICATION NUMBER

Thank you for applying for an Employer Identification Number (EIN). We assigned you EIN 85-2192285. This EIN will identify you, your business accounts, tax returns, and documents, even if you have no employees. Please keep this notice in your permanent records.

When filing tax documents, payments, and related correspondence, it is very important that you use your EIN and complete name and address exactly as shown above. Any variation may cause a delay in processing, result in incorrect information in your account, or even cause you to be assigned more than one EIN. If the information is not correct as shown above, please make the correction using the attached tear-off stub and return it to us.

Based on the information received from you or your representative, you must file the following form(s) by the date(s) shown.

Form 941 01/31/2021
Form 940 01/31/2021

If you have questions about the form(s) or the due dates(s) shown, you can call us at the phone number or write to us at the address shown at the top of this notice. If you need help in determining your annual accounting period (tax year), see Publication 558, Accounting Periods and Methods.

We assigned you a tax classification based on information obtained from you or your representative. It is not a legal determination of your tax classification and is not binding on the IRS. If you want a legal determination of your tax classification, you may request a private letter ruling from the IRS under the guidelines in Revenue Procedure 2004-1, 2004-1 I.R.B. 1 (or superseding Revenue Procedure for the year at issue). Note: Certain tax classification elections can be requested by filing Form 8832, Entity Classification Election. See Form 8832 and its instructions for additional information.
If you are required to deposit for employment taxes (Forms 941, 943, 940, 944, 945, CT-1, or 1042), excise taxes (Form 720), or income taxes (Form 1120), you will receive a Welcome Package shortly which includes instructions for making your deposits electronically through the Electronic Federal Tax Payment System (EFTPS). A Personal Identification Number (PIN) for EFTPS will also be sent to you under separate cover. Please activate the PIN once you receive it, even if you have requested the services of a tax professional or representative. For more information about EFTPS, refer to Publication 966, Electronic Choices to Pay All Your Federal Taxes. If you need to make a deposit immediately, you will need to make arrangements with your Financial Institution to complete a wire transfer.

The IRS is committed to helping all taxpayers comply with their tax filing obligations. If you need help completing your returns or meeting your tax obligations, Authorized e-file Providers, such as Reporting Agents (payroll service providers) are available to assist you. Visit the IRS Web site at www.irs.gov for a list of companies that offer IRS e-file for business products and services. The list provides addresses, telephone numbers, and links to their Web sites.

IMPORTANT REMINDERS:
* Keep a copy of this notice in your permanent records. This notice is issued only one time and IRS will not be able to generate a duplicate copy for you. You may give a copy of this document to anyone asking for proof of your EIN.
* Use this EIN and your name exactly as they appear at the top of this notice on all your federal tax forms.
* Refer to this EIN on your tax-related correspondence and documents.
* Provide future officers of your organization with a copy of this notice.

Your name control associated with this EIN is TYCO. You will need to provide this information, along with your EIN, if you file your returns electronically.

If you have questions about your EIN, you can contact us at the phone number or address listed at the top of this notice. If you write, please tear off the stub at the bottom of this notice and include it with your letter. Thank you for your cooperation.

TYCOON I OPERATIONS LLC
DARYL HELLER SOLE MBR
2055 CROOKS RD STE B
ROCHESTER HLS MI 48309
OPERATING AGREEMENT
OF
TYCOON I OPERATIONS, LLC

THIS OPERATING AGREEMENT (this “Agreement”) is entered into and made effective as of July 22, 2020 (the “Effective Date”) by and between TYCOON I OPERATIONS, LLC, a Michigan limited liability company (the “Company”), and TYCOON HOLDINGS, LLC, a Michigan limited liability company and sole member of the Company (the “Member”).

Background

A. The Company was formed on July 22, 2020 as a Michigan limited liability company.

B. The undersigned desires to memorialize its rights and obligations with respect to the Company pursuant to the terms of this Agreement.

Agreement

In consideration of the foregoing background and for other good and valuable consideration, the receipt and sufficiency of which is hereby acknowledged, and intending to be legally bound hereby, the parties agree as follows:

ARTICLE I
DEFINITIONS

The following capitalized terms used in this Agreement shall have the following meanings (unless otherwise expressly provided herein):

“Act” means the Michigan Limited Liability Company Act, as amended.

“Business” means the principal business of the Company, which shall be to own and manage investments.

“Capital Contribution” means any contribution of cash or property to the Company, or any obligation to contribute cash or property to the Company, whenever made.

“Certificate” means the Articles of Organization as filed by the organizer of the Company with the Department of State of the State of Michigan, as amended.

“Interest” means the Member’s entire interest in the Company.
“Person” means any individual, trust, partnership, corporation, limited liability company or entity.

ARTICLE II
FORMATION OF COMPANY

2.1 Formation. The Company has been organized as a Michigan limited liability company by executing and delivering the Certificate in accordance with and pursuant to the Act.

2.2 Name. The name of the Company is Tycoon I Operations, LLC.

2.3 Registered Office. The address of the registered office of the Company shall be The CSC – Lawyers Incorporating Service, 601 Abbot Road, East Lansing, Michigan 48823, or at such other place as the Member may from time to time determine. The registered office of the Company may be changed from time to time by amending the Certificate in accordance with the Act. The Company may maintain such other offices, including, but not limited to, a principal place of business as the Member shall determine.

2.4 Purpose. The purposes of the Company shall be (a) to advance and grow the Business, (b) to engage in all other lawful business authorized pursuant to the Act, and (c) to make, enter into and perform any contracts and other undertakings, and to engage in any activities and transactions as may be ancillary to or necessary or advisable to carry out the foregoing purposes.

2.5 Term. The term of the Company shall be perpetual unless the Company is earlier dissolved in accordance with the provisions of this Agreement.

ARTICLE III
CAPITAL CONTRIBUTIONS; LOANS; DISTRIBUTIONS

3.1 Capital Contributions. The Company shall keep a record of all Capital Contributions made by the Member. The Member shall not be required to make any Capital Contribution to the Company not specifically agreed to in writing between the Member and the Company.

3.2 Loans. Any and all loans made to the Company by the Member shall not be considered Capital Contributions.

3.3 Distributions. Distributions shall be made to the Member (in cash or in kind) at such times and in such amounts determined by the Member and as permitted by applicable law.
ARTICLE IV
MEMBER

4.1 Member. The name and address of the Member is:

Tycoon Holdings, LLC
2055 Crooks Road, Suite B
Rochester Hills, MI 48309

4.2 Management. The Company shall be initially managed by Heller Investment Holdings, LLC.

4.3 Right to Rely on Member. Any Person dealing with the Company may rely (without duty of further inquiry) upon a certificate signed by a designee of the Member as to:
(a) the identity of the Member; (b) the existence or non-existence of any fact or facts which constitute a condition precedent to acts by the Member or which are in any manner germane to the affairs of the Company; (c) the Persons who are authorized to execute and deliver any instrument or document of the Company; or (d) any act or omission by the Company or any other matter whatsoever involving the Company or the Member.

4.4 Authority to Designate Officers. The Member may elect, appoint or designate, by resolution or otherwise, individuals as officers of the Company and delegate to such officers such powers, authority and responsibilities as are (i) set forth in the designation or delegation, and (ii) necessary to carry out and implement the management decisions of the Member. The Member may remove any officer, with or without cause, at any time. Any officer may resign at any time by giving written notice to the Company. Any resignation shall take effect as of the date of the Company's receipt of such notice or at any later time specified in such notice (unless such officer is otherwise removed prior to such date); and unless otherwise specified in such notice, the acceptance of the resignation shall not be necessary to make it effective. Unless the Member decides otherwise, if the title to an officer of the Company is one commonly used for officers of a business corporation, the assignment of such title shall constitute the delegation to such individual of the authority and duties that are normally associated with that office. The current officers of the Company are as set forth on Schedule A attached hereto, as may be amended from time to time.

4.5 Liability of Member and Officers. Neither the Member nor any officer, agent or representative of the Member, or officer of the Company, shall be liable to the Company or to the Members, as applicable, for (i) the performance of, or the failure to perform, any act or duty on behalf of the Company if, in good faith, the Members or officer determined that such conduct was in the best interests of the Company and such conduct did not constitute fraud, gross negligence or reckless or intentional misconduct, (ii) the termination of the Company and this Agreement pursuant to the terms hereof, and (iii) the performance of, or the failure to perform, any act on behalf of the Company in good faith reliance on advice of legal counsel, accountants or other professional advisors to the Company.
4.6 Indemnification. The Company shall indemnify, defend and hold the Member and the officers, agents and representatives of the Member, and each officer of the Company and, in the discretion of the Member, each employee of the Company, harmless from and against any expense, loss, damage or liability incurred or connected with, or any claim, suit, demand, loss, judgment, liability, cost or expense (including reasonable attorneys’ fees) arising from or related to, the Company or any act or omission of such Member (or officer, agent or representative of the Member) or officer (or employee) and amounts paid in settlement of any of the foregoing, to the fullest extent provided or allowed by the laws of the State of Michigan. The Company may advance to any such Person the costs of defending any claim, suit or action against such Person.

4.7 Title to Company Property. All real and personal property shall be acquired in the name of the Company and title to any property so acquired shall vest in the Company itself rather than in the Member.

ARTICLE V
ACCOUNTING AND TAX MATTERS

5.1 Accounting Principles. The Company’s financial statements shall be prepared and its profits and losses shall be determined in accordance with methods of accounting selected by the Member, which need not be the same as the method of accounting used for tax purposes.

5.2 Returns and Other Elections. The Member shall cause the preparation and timely filing of all tax returns required to be filed by the Company pursuant to the Code and all other tax returns deemed necessary and required in each jurisdiction in which the Company does business. All elections permitted to be made by the Company under federal or state laws shall be made by the Member in its sole discretion. So long as the Company has only one member, the Company shall be treated as a disregarded entity for income tax purposes.

ARTICLE VI
TRANSFERS: ADDITIONAL MEMBERS

6.1 Transferability of Membership Interest. The Member’s Interest in the Company is freely transferable or assignable, in whole or in part, either voluntarily or by operation of law.

6.2 Admission of Additional Members. Additional members of the Company may be admitted to the Company at the direction of the Member only if a new operating agreement or an amendment and restatement of this Agreement is executed by such additional member or members.
ARTICLE VII
DISSOLUTION AND LIQUIDATION

7.1 Dissolution.

(a) The Company shall be dissolved and its affairs wound up and terminated only upon the determination of the Member. The dissolution or bankruptcy of the Member or the occurrence of any other event that terminates the continued membership of the Member shall not cause a dissolution of the Company.

(b) Dissolution of the Company shall be effective on the day on which an event described in Section 7.1(a) above occurs, but the Company shall not terminate until articles of dissolution shall be filed with the Department of State of the State of Michigan and the assets of the Company are distributed as provided in Section 7.2 below. Notwithstanding the dissolution of the Company, prior to the termination of the Company, the business of the Company and the affairs of the Member shall continue to be governed by this Agreement.

7.2 Winding Up. Upon dissolution, the Company shall continue until the winding up of the affairs of the Company is completed and a certificate of dissolution has been filed pursuant to the Act. Upon the winding up of the Company, the Company’s property shall be distributed (a) first to creditors, including the Member if the Member is a creditor, to the extent permitted by law, in satisfaction of the Company’s liabilities, and (b) then to the Member. Distributions shall be in cash or property or partly in both, as determined by the Member.

ARTICLE VIII
MISCELLANEOUS PROVISIONS

8.1 Notices. Any notice, demand or communication required or permitted to be given by any provision of this Agreement shall be in writing and shall be deemed to have been delivered (a) two business days after being sent by registered or certified United States mail, or (b) upon delivery if hand delivered, sent via facsimile transmission or electronic mail. If delivered to the Member, such notice shall be delivered to his address as it appears in Section 4.1 above. If to the Company, such notice shall be delivered to its principal place of business.

8.2 Governing Law. This Agreement, and the application and interpretation hereof, shall be subject to and governed exclusively by its terms and by the laws of the State of Michigan, without regard to its conflicts of laws provisions.

8.3 Construction. Whenever the singular number is used in this Agreement and when required by the context, the same shall include the plural and vice versa, and the masculine gender shall include the feminine and neuter genders and vice versa. Unless expressly stated otherwise, Section and Article references herein shall refer to the Sections and Articles of this Agreement.

8.4 Waivers. No waiver by any party of the breach of any provision hereof shall be deemed to constitute a waiver of any continuing or subsequent breach of such provision or any other provision hereof.
8.5 **Severability.** If any provision of this Agreement or the application thereof to any Person or circumstance shall be invalid, illegal or unenforceable to any extent, the remainder of this Agreement and the application thereof shall not be affected and shall be enforceable to the fullest extent permitted by law, provided that the essential purpose of this Agreement is not frustrated.

8.6 **Heirs, Successors and Assigns.** The covenants, terms, provisions and agreements herein contained shall be binding upon, and inure to the benefit of, the parties hereto and, except as otherwise provided to the contrary, their respective heirs, executors, administrators, legal representatives, successors and permitted assigns.

8.7 **Entire Agreement.** This Agreement embodies the entire agreement and understanding between the parties hereto with respect to the subject matter hereof and supersedes all prior agreements and understandings relating to such subject matter.

[SIGNATURES APPEAR ON FOLLOWING PAGE]
IN WITNESS WHEREOF, the parties hereto have caused this Agreement to be signed as of the Effective Date.

STAFFING PLAN

Summary of Job Creation, Compensation and Budget

As discussed in detail below, we anticipate creating approximately 59 jobs at our Orion Township Cultivation Facility.

<table>
<thead>
<tr>
<th>Type of Marijuana Facility</th>
<th>Proposed Location</th>
<th>Total Jobs Per Facility</th>
<th>Expected Annual Payroll</th>
</tr>
</thead>
<tbody>
<tr>
<td>Cultivation Facility</td>
<td>Orion Township</td>
<td>59</td>
<td>$3,750,000.00</td>
</tr>
</tbody>
</table>

We pay our cultivation facility employees a minimum hourly wage of $15. We also provide a generous benefit package that includes the following:

- Health Insurance
- Paid Holidays
- Paid Time Off
- 401K Plan with 2% Match
- Performance Incentives

Out of our 3.75MM expected annual payroll, Tycoon I Operations expects to allocate $630,000 toward benefits for all full-time employees!

We intend to source our employees first from Orion Township, then into the surrounding regional area. Our job listings will always be listed in the Orion Township area first to accumulate as many qualified candidates as possible.

Attached is a table of the proposed positions at our Orion Cultivation Facility:

Planning Commission Case: PC-2021-26
Parcels Number: 09-35-477-001 & 09-35-477-002
Property Address: 180 Premier Drive
Applicant: Tycoon I Operations LLC
Request: Excess Grow
Date: February 12, 2021

The aforementioned application was reviewed for compliance with the location requirements of Article VI of Ordinance No. 154 and the finds are detailed below:

Article V, 1. – The Facility must be located in the Township’s IP (Industrial Park) district: The parcels are zoned IP (Industrial Park) as required.

Article V, 2 – The Facility cannot be within one thousand five hundred (1,500) feet of a “church” in the Township: Article VI, 7 states that the distances specified in the Ordinance shall be measured from building edge to building edge. The applicant stated within their application that the facility is more than the required 1,500 feet. Using GIS, a measurement was taken from the edge of the property where the building is located (for simplicity vs. from edge of building which is further) to the edge of the closest church and it was over 1,600 feet.

Article VI, 3 – The Facility cannot be within two thousand (2,000) feet of a residence located in a R-1, R-2, R-3, SF, SE, SR, RM or MHP zoning district: Article VI, 7 states that the distances specified in the Ordinance shall be measured from building edge to building edge. The applicant stated within their application that the facility is more than the required 2,000 feet. Using GIS, a measurement was taken from the edge of the property where the building is located (for simplicity vs. from edge of building which is further) to the edge of the closest residential property line (for simplicity) and it was 2,500 feet.

Article VI, 4 – The Facility cannot be within two thousand five hundred (2,500) feet of a registered “school” within the Township: Article VI, 7 states that the distances specified in the Ordinance shall be measured from building edge to building edge. The applicant stated within their application that the facility is more than the required 2,500 feet. The closest school is over 2 miles from the parcel. (Scripps and Stadium Rds.)
Article VI, 5 – The Facility shall not have an ingress or egress on a street or road that has an average traffic volume in excess of six thousand (6,000) vehicles per day, as calculated by averaging the three (3) most recent Average Annual Daily Traffic (AADT) counts (as available), as reported by Southeast Michigan Council of Governments (SEMCOG). The building has ingress and egress off of Premier Drive. SEMCOG’s website does not contain any traffic count reports for Premier Dr.

Article VI, 6- The Facility shall not have an ingress or egress on a street or road that directly also serves as an ingress or egress to a residential road or property located in a R-1, R-2, R-3, SF, SE, SR, RM or MHP zoning district. The building has both ingress or egress off of Premier Dr. Premier Dr. does not serve as an ingress and/or egress to any property located in a R-1, R-2, R-3, SF, SE, SR, RM or MHP zoning district.

Article VI, 7 - Distances specified in this Ordinance shall be measured from building edge to building edge. The measurements, unless noted differently, were measured from building edge to proposed building edge.

Article VI, 8 – If the Facility shall need a variance from what is set forth in Article VI Sections one (1) through six (6) above, the Applicant may submit a formal request for a variance to the Zoning Board of Appeals (“ZBA”). The ZBA shall only consider a variance request that is no more than fifteen percent (15%) out of compliance with the above location regulations: The applicant is not requesting any variances from the ZBA.

Article VI, 9 – It is the Township’s intention that Growers, Processors, Safety Compliance Facilities and Secured Transporters may operate within the same building under the following conditions: each licensed entity remains distinct and separate within different working area and separate record keeping systems: The applicant is requesting an Excess Grow - facility only.

Article VI, 10 –The location shall meet all applicable Ordinances and promulgated standards of the Township and, prior to opening, shall demonstrate to the Township that it meets the rules and regulations promulgated by the State Mariujana Regulatory Agency (MRA):

ITEMS TO BE ADDRESSED: These items are unknown at this time. It is recommended that any approval be conditioned upon this requirement.

Article VI, 11 – The Facility location shall conform to all standards of the zoning district in which it is located: This condition has been met. The building itself has received site plan approval.
Article VI, 12 – If the Facility location is currently vacant land, the applicant must submit a site plan and building plans with the Application. The application is for an improved parcel that has received site plan approval.

Article VI, 14 – Based upon an application for or amendment of a Conditional Rezoning, PUD, or other use Development Agreement of sufficient specificity, it is within the sole discretion and judgment of the Township Board of Trustees to consider and waive any or all of the Location Requirements of this Article VI based upon any or all of 3 factors listed in Article VI 14 a,b, and c.: The applicant is not requesting any waivers.

Summary: I have reviewed the application as it relates to Ordinance No. 154 Article VI – Location Requirements. I am agreeable with the recommendation to approve this application with the conditions that:

1. The applicant meets all other applicable Township Ordinances and promulgated standards of the Township and, prior to opening, shall demonstrate to the Township that it meets the rules and regulations promulgated by the State Mariujana Regulatory Agency (MRA).

Re: Marihuana Facility Permit Application; Tycoon I Operations, LLC  
180 Premier Drive, Orion Charter Township, MI 48359  
Excess Grow 3 of 3

Dear Madam Clerk:

Please find attached a Marihuana Facility Permit Application and all exhibits for three Excess Grow permits to operate at 180 Premier Drive, Orion Charter Township, MI 48359. This application represents three of three of the excess grow permits.

If the Township believes any additional information or materials are required for this filing, please do not hesitate to contact us. Kindly direct all communications regarding this application to Aaron Fogleman either by phone at 248.920.8770 or by email at licensing@gloriouscanna.com.

We look forward to contributing significantly to the Township through economic development, training and employment, education and outreach, and to becoming a valuable community partner.

Thank you for your consideration.
ORION ORDINANCE 154 INITIAL PERMIT APPLICATION
Ordinance 154, Licensed Marihuana Facilities Ordinance

Pursuant to the Charter Township of Orion Ordinance 154, Licensed Marihuana Facilities Ordinance, the following application is intended to collect information and documentation establishing the applicant’s conformance with the ordinance. All applicants should note that the approval of a Marihuana Permit will be based upon the accuracy and completeness of the information provided. In the event applications are received in excess of the permitted number of locations within the Ordinance or two or more applicants have similar qualifications, the Charter Township of Orion reserves its right to approve a permit which in the opinion of the Township best meets its goals and safeguards as set forth in the Ordinance. No financial or other right is established by the payment of the non-refundable application fee. All applications for renewal of a permit shall be reviewed per the standards set forth in the Ordinance. The Charter Township of Orion reserves the right to approve or deny the permit based upon the failure of any applicant to establish to the satisfaction of the Township any requirement, standard or goal of the Ordinance. The applicant understands this determination may involve a subjective interpretation of the application. Any permit granted by the Township is contingent upon the State of Michigan granting a state license for the specific license applied for under this ordinance.

   Name: Please see Organization Structure in Exhibit 1
   Name of Authorized Signer: ____________________________
   Address: ____________________________
   Interest or Affiliation: ____________________________

### SECTION B- FACILITY LOCATION

7. Name of proposed facility: Oakland Business Park, Building B

8. Location of proposed facility: 180 Premier Drive
   Orion Charter Township, MI 48359
9. Please provide a preliminary floor plan sketch showing the location of all facility operations within an existing building, or for new construction a site plan for the parcel. Attach as Exhibit “A”
   ☐ Document(s) attached. If not attached, why not and when is applicant expected to supplement: __________________________

10. With respect to the location of the facility, please state with specificity the exact location, address, suite number and, if necessary, the location of the facility within a building or the parcel of land. This location should include the distance in feet from each property line. Attach as Exhibit “B”
   ☐ Document(s) attached.
   If not attached, why not and when is applicant expected to supplement: ____________

11. Please provide evidence of the Applicant’s property interest in the proposed location.
    Provide copies of documentation showing a legal and enforceable property interest. Attach as Exhibit “C”.
   ☐ Document(s) attached.
   If not attached, why not and when is applicant expected to supplement: ____________

12. Please confirm and establish that the facility is located within the Township’s Industrial Park district (“IP”); is not within 1,500 feet of a church; is not within 2,000 feet of a residence located in the R-1, R-2, R-3, SF, SE, SR, RM or MHP Zoning Districts; is not within 2500 feet of a registered school and does not have ingress or egress on a street or road that has an average traffic volume in excess of 6,000 vehicles per day as calculated and reported by Southeast Michigan Counsel of Governments. Further, please show that the facility does not have an ingress or egress on a street or road that serves as an ingress or egress to a residential road or property located in a R-1, R-2, R-3, SF, SE, SR, RM or MHP Zoning District. For each of the above criteria, please attach any and all documents which will permit the Township to calculate compliance with the Licensed Marihuana Facilities Ordinance No. 154. At a minimum, provide a map showing the facility and measured distances (building edge to building edge).
   Attach as Exhibit “D”.
   ☐ Documents attached.
   If not attached, why not and when is applicant expected to supplement: ____________

a) Is the Facility located in the Township’s IP (Industrial Park District) zoning district?
   ☐ Yes □ No
b) Is the Facility more than one thousand five hundred (1,500) feet of any church in the Township?

☐ Yes     □ No

c) Is the Facility more than two thousand (2,000) feet of any residence located in an R-1, R-2, R-3, SF, SE, SR, RM, or MHP zoning district?

☐ Yes     □ No

d) Is the Facility more than two thousand five hundred (2,500) feet of any registered school within the Township.

☐ Yes     □ No

For 10-12 above, please provide a map showing the facility and measured distances (building edge to building edge.)

e) Does the facility have an ingest or egress on a street or road that has an average traffic volume of six thousand (6,000) or less vehicles per day, as calculated by averaging the three (3) most recent Average Annual Daily Traffic (AADT) counts (as available), as reported on the Southeast Michigan Council of Governments (SEMCOG) per the site semcog.org/Traffic-Counts?

☐ Yes     □ No

f) Does the Facility have an ingest or egress on a street or road that does not also serve as an ingest or egress to a residential road or property located in a TR-1, R-2, R-3, SF, SE, SR, RM, or MHP zoning district?

☐ Yes     □ No

Name of Facility ingest/egress Street or road: Premier Drive

13. Please state whether the Applicant will seek a variance from the Zoning Board of Appeals pursuant to Article 6(8) of the Orion Licensed Marijuana Facilities Ordinance No. 154.

☐ Yes     ☑ No

If variance will be sought, specify location category(s) pursuant to Art 6 (1)-(6): ___________________________
For each category variance sought, state the percentage the applicant will seek: _______%
(Not to exceed 15%)

SECTION C- FACILITY REQUIREMENTS

14. When available, submit to the Township a copy of the Applicant’s application for a license submitted to the State of Michigan, Department of Licensing and Regulatory Affairs, for each facility permit requested.
   Attach as Exhibit “E”.
   ☐ Document(s) attached.
   If not attached, why not and when is applicant expected to supplement: ______________
   Phase 2 application with the state of Michigan requires a permit and signed attestation from the municipality. We expect to submit our application with the state by 03/01/2021.

15. Is consumption and/or use of marihuana prohibited at the Facility?
   ☐ ☐ Yes ☐ No

16. Will all activity related to the Facility be done indoors?
   ☐ ☐ Yes ☐ No

17. Will all Marihuana contained within the building be in a locked Facility in accordance with the Michigan Medical Marihuana Act, MCL 333.26421 et seq., as amended (“MMMA”), the Michigan Medical Marihuana Facilities Licensing Act, MCL 333.27101, et seq., and the Michigan Regulation and Taxation of Marihuana Act, MCL 333.27951, et seq., as amended (“MRTMA”) as amended?
   ☐ ☐ Yes ☐ No

18. Please set forth an operations statement, plan and or outline showing that all facility activities shall occur indoors and in a building which is locked.
   Attach as Exhibit “F”
   ☐ Document(s) attached.
   If not attached, why not and when is applicant expected to supplement: ______________

19. Will all necessary building, electrical, plumbing and mechanical permits obtained for any portion of the structure in which electrical wiring, lighting and/or watering devices are located?
   ☐ Yes ☐ No
20. When available and prior to the issuance of any permit, the Applicant must submit all necessary building, electrical, plumbing and mechanical permits, as well as documented approval by the Orion Fire department showing compliance with the Michigan Fire Protection Code and confirmation that the storage of any chemical, herbicide, pesticide and or fertilizer has also been approved by the Orion Fire Department. 
Attach as Exhibit “G”.
☑ Document(s) attached. 
If not attached, why not and when is applicant expected to supplement: ____________________________

21. In any portion of the structure where the storage of any chemicals such as herbicides, pesticides, and/or fertilizers, do you agree to be subject to inspection and approval by the Orion Fire Department to ensure compliance with the Michigan Fire protection Code?

☑ Yes        □ No

22. Will you ensure that no other uses, other than accessory uses, will be permitted within the same Facility other than those associated with cultivating, processing, transporting or testing marihuana? 

☑ Yes        □ No

23. Please state and/or provide documentation showing the plan that all litter and waste will be properly and safely removed and will not constitute a source of contamination in areas where marihuana is exposed. Further, please include how the applicant will dispose of rubbish so as to minimize the development of odor and minimize the potential for development of waste odor and waste from becoming an attracted, harborage or breeding place for pests. Please include a detailed description of the ventilation system. Attach as Exhibit “H.”
☑ Document(s) attached. 
If not attached, why not and when is applicant expected to supplement: ____________________________

a) Will litter and waste be properly removed and the operating systems for waste disposal maintained in an adequate manner so that they do not constitute a source of contamination in areas where marihuana is exposed?

☒ Yes        □ No

b) Will floors, walls and ceilings be constructed in such a manner that they may be adequately cleaned and kept clean and in good repair?

☒ Yes        □ No
c) Will there be there adequate screening or other protection against entry of pests, and will rubbish be disposed of so as to minimize the development of odor, minimize the potential for development of waste odor, and minimize the potential for waste becoming an attractant harborage or breeding places for pests?

X Yes  □ No

d) Will all buildings, fixtures and other facilities be maintained in a sanitary condition?

X Yes  □ No

e) Will each Facility center provide its occupants with adequate and readily accessible toilet facilities that will be/are maintained in a sanitary condition and in good repair?

X Yes  □ No

24. Please state how the Applicant intends to avoid excessive noise, dust, vibrations, glare, fumes or odors detectable to the normal senses beyond the boundaries of the property. Attach as Exhibit “I”.

☑ Document(s) attached.
If not attached, why not and when is applicant expected to supplement: ____________________________

___________________________________________________________________________________________

a) Will each Facility be operated in a manner that does not create excessive noise, dust, vibrations, glare, fumes or odors detectable to the normal senses beyond the boundaries of the property on which that Marihuana Facility will operate/operates or in violation of any other ordinance?

☑ Yes  □ No

25. Please provide the plan and supporting documentation showing that all disposal systems for spent water and spent soil have been adequately and safely disposed of and accounted for. Attach as Exhibit “J”.

☑ Document(s) attached.
If not attached, why not and when is applicant expected to supplement: ____________________________

___________________________________________________________________________________________

26. Please provide a security and safety plan, and at a minimum showing the facilities surveillance systems and continuous monitoring systems of the entire premise as required by the ordinance. Attach as Exhibit “K”.

☑ Document(s) attached.
If not attached, why not and when is applicant expected to supplement: ____________________________

7 1735
a) Will the Facility continuously monitor the entire premises with surveillance systems that include security cameras operating 24 hours a day, 7 days a week, every day of the year, and will these recordings be maintained for a period of at least 30 days?

☐ Yes ☐ No

27. Please state and/or show the exterior signage or advertising identifying the facility. Attach as Exhibit “L”.
☐ Document(s) attached.
If not attached, why not and when is applicant expected to supplement: ______________________ 
The facility will only show the numbers associated with its address ______________________

a) Do you understand and agree that any exterior signage or advertising identifying the Facility as a marihuana facility is prohibited?

☐ Yes ☐ No

SECTION D- BUSINESS OPERATIONS AND SECURITY

28. Active business operations shall not be open outside of the hours of 7am and 9pm.

LIST OF DOCUMENTS TO PROVIDE WITH APPLICATION

(Where applicable, an attached document(s) may satisfy more than one requested document. If so, please identify the appropriate responsive Exhibit or document in the space provided.)

Application Documents

Exhibit A & B: Floor plan or drawings to scale and elevations as required by Orion Township Ordinance No. 154 with location plan showing surrounding area as required by Ordinance.
✓ Document Attached. If not, why not: _______________________________________

Exhibit C: Copy of Proof of Ownership, Purchase Agreement, Lease, or options for the site where the Marihuana Facility will be operated. (If leased, signed document by owner consenting of the lease to the site for a Marihuana Facility).
✓ Document Attached. If not, why not: _______________________________________

Exhibit D: Copy of map and/or other documents in response to question 15.
✓ Document Attached. If not, why not: _______________________________________

Exhibit E: Copy of the Applicant's application for license submitted to the State of Michigan, Department of Licensing and Regulatory Affairs.
☐ Document Attached. If not, why not: Not submitted yet. Expected 03/01/2021

Exhibit F: Copy of operations statement, plan and or outline showing facility activities shall occur indoors and in locked building (question 21).
✓ Document Attached. If not, why not: _______________________________________

Exhibit G: Copy of all necessary building, electrical, plumbing and mechanical permits, as well as documented approval by the Orion Fire Department showing compliance. (question 23)
✓ Document Attached. If not, why not: _______________________________________

Exhibit H: Copy of plan for litter and waste removal and detailed description of ventilation system. (question 26)
✓ Document Attached. If not, why not: _______________________________________

Exhibit I: Copy of plan to avoid excessive noise, dust, vibrations, glare, fumes or odors. (question 27)
✓ Document Attached. If not, why not: _______________________________________

Exhibit J: Copy of plan and supporting documents showing disposal of spent water and soil safety plan. (question 28)
✓ Document Attached. If not, why not: _______________________________________

Exhibit K: Description of a security and safety plan as required in the Orion Township Ordinance No. 154 for Licensed Marihuana Facility. (question 29)
✓ Document Attached. If not, why not: _______________________________________
Exhibit L: Any proposed text or graphical materials to be shown on the exterior of the proposed facility. (question 30)
☐ Document Attached. If not, why not: **Exterior will only show building numbers.**

Additional Documents

1. Copy of Articles of Incorporation or Limited Liability company or Partnership Agreement or assumed name certificate.

A. & B. Facility Floor Plan
C. Lease Agreement
COMMERCIAL LEASE

This lease (the Lease), is entered into on November 1, 2020, between Premier Drive Tycoon I, LLC, with an address at 1615 S Telegraph Rd, Bloomfield Hills, MI (Landlord), and Tycoon I Operations, LLC (Tenant) on the terms and conditions listed below.

1. Description of the Premises. Landlord owns the real property, improvements and any and all structures thereon located at 180 Premier Drive, Orion Township, MI 48359 ("Premises"), consisting of approx. 72,000 square feet. Tenant shall have the right to use the Premises to conduct its daily business operations and for any ancillary or related purposes including the operation of a marijuana business.

2. Basic Lease provisions. The basic Lease provisions are stated below and further explained in the section referenced to the right of each provision:

(a) Term: 10 years
(b) Commencement Date: February 1, 2021
(c) Termination date: October 31, 2030
(d) Options: 1 option to renew for additional 10 years
(e) Monthly installment amount: $75,000 or $12.50; per square foot;
(f) Security deposit: $75,000.00
(g) Use: Tenant’s desired business operation

(See §3)
(See §3)
(See §3)
(See §3)
(See §4)
(See §5)
(See §10)

3. Term. This Lease shall be for a term stated in section 2(a) commencing on the date stated in section 2(b) (the Commencement Date) and terminating on the date stated in section 2(c). The rent for the first month shall be prorated from date of occupancy, if the date of occupancy is after the first day of the month. Each succeeding lease year shall begin on the anniversary of the same date and continue until the termination of the Lease. Provided that Tenant is not in default under this Lease at the end of the then current Lease term, Tenant shall have the right to renew the term of this Lease for the option period stated in section 2(d) by giving Landlord written notice of Tenant’s intent to renew the Lease at least 120 days before the expiration of the then current term. The renewal shall be on the same terms and conditions as in this Lease, except that the minimum rent for each renewal term shall be increased by a percentage equal to the percentage increase in the Consumers Price Index (Bureau of Labor Statistics Washington, D.C., all Cities) (CPI) during the preceding term. The percentage increase shall be determined by comparing the latest available CPI before the Commencement Date of the Lease or the prior term, whichever shall apply, and the latest available CPI on or before the expiration of the immediately preceding initial or renewal lease term. The word “term” as used in this Lease shall include any renewal term.

4. Minimum rent. Tenant shall pay to Landlord as rent the sum stated in section 2(e), payable in monthly installments due in advance, on the first day of each month during the term of this Lease. All rent shall be paid to Landlord at the address set forth above or at such other address as Landlord may designate in writing, without any prior demand and without any deduction or offset.

If Tenant shall fail to pay any amount due from it to Landlord under this Lease when that amount shall be due, a one-time late charge of $50.00 shall be assessed and thereafter the amount of rent not paid shall be subject to a service charge until that amount is paid at the lesser of the rate of 5% per month or the highest rate permitted by law.

1747
5. Security deposit. Tenant, contemporaneously with the execution of this Lease, has deposited with Landlord the sum stated in section 2(f) as a security deposit. The deposit shall be held by Landlord, without liability for interest, as security for the faithful performance by Tenant of all the terms, covenants, and conditions of this Lease to be kept and performed by Tenant during the term of this Lease.

If Tenant fails to keep and perform any of its covenants of this Lease, Landlord at its option may appropriate and apply the entire deposit, or so much as may be necessary, to compensate Landlord for loss or damage sustained by Landlord due to Tenant’s breach. If the entire deposit or any portion is appropriated and applied by Landlord for the payment of overdue rent or other sums due and payable to Landlord by Tenant, Tenant shall, on the written demand of Landlord, forthwith remit to Landlord a sufficient amount in cash to restore the security to the original sum deposited. Tenant’s failure to do so within 5 days after receipt of demand shall constitute a breach of this Lease.

6. Taxes. Tenant shall pay or cause to be paid all real property taxes and special assessments levied against the Building including the Premises. Tenant shall pay all personal property taxes assessed against any personal property owned by Tenant on the Premises.

7. Maintenance and repair. Tenant shall maintain and repair and keep the Premises in good condition and repair, including the exterior windows and the electrical system. Landlord shall, at tenants expense, make all other repairs and replacements to the Building, including those of a structural or capital nature. Landlord shall, at tenants expense, enter into an annual maintenance contract with a licensed heating and mechanical firm for the maintenance of the heating and air conditioning equipment during the term. Landlord shall be obligated to make repairs only after Tenant has given Landlord written notice of the need for the repair, and only if the repair was not caused by the negligence or willful act of Tenant, its agents, employees, invitees, or licensees.

Tenant shall provide and pay for its own regular janitorial service to maintain the Premises in a neat and clean condition. Tenant shall be responsible for all repairs or replacements to the Building occasioned by the negligence or willful act of Tenant, its agents, employees, invitees, or licensees.

8. Utilities. Tenant shall have all utilities servicing the Premises metered in its own name and shall pay all charges and deposits for the utilities provided to or used in the Premises during the term of this Lease. Tenant shall also pay 100% of the water and sewer bill. Landlord shall not be liable in damages should the furnishing of any utilities be interrupted by fire or other casualty, accident, strike, labor dispute or disagreement, the making of any necessary repairs or improvements, or any other causes beyond the reasonable control of Landlord.

9. Liability insurance. Tenant shall indemnify Landlord and save Landlord harmless from any liability or claim for damages that may be asserted against Landlord by reason of any accident or casualty occurring on or about the Premises. Tenant shall, at its own cost and expense, obtain and keep in force a policy or policies of public liability insurance with an insurance company approved by Landlord, with liability coverage of an amount as recommended by Landlord’s insurance agent that, for the initial coverage, shall be not less than $1 million for injury or death to any one person, $3 million for injury or death to more than one person, and $500,000 regarding damage to property. Tenant shall furnish Landlord with certificates or other evidence acceptable to Landlord indicating that the insurance is in effect and providing that Landlord shall be notified in writing at least 30 days before cancellation of any material change in or renewal of the policy. All insurance policies shall name Landlord and any persons designated by Landlord as insured parties.

Any insurance maintained by either party pursuant to this section or under this Lease shall contain a
clause or endorsement under which the insurer waives all rights of subrogation against the other party, its
agents or employees, regarding losses payable under the policy.

Any personal property kept on the Premises by Tenant shall be at Tenant’s sole risk.

10. Use. Tenant shall use and occupy the Premises for the purpose stated in section 2(g) and for no other
purpose without the prior written consent of Landlord. Tenant shall not intentionally and knowingly use
the Premises for any purpose or in any manner in violation of any State law, local ordinance, rule or
regulation adopted or imposed by the City in which the Premises is situated. Tenant shall not deface or
injure the Premises or the Building, permit anything to be done on the Premises tending to create a
nuisance or to disturb other tenants in the Building, or permit any activity in the Premises that will result
in an increase of any premium, or cancellation of a policy, for insurance on the Premises or the Building.

11. Construction of leasehold improvements. Landlord grants Tenant express consent to construct
certain leasehold improvements as may be required for Tenant’s use. The cost of Tenant’s leasehold
improvements shall be paid for by Tenant. The improvements shall be constructed in a good and
workmanlike manner.

12. Operations. Tenant’s operations in conjunction with the Premises shall meet the requirements set
forth below.

a. Tenant shall keep all garbage and refuse in the kind of container specified by Landlord. If Landlord
shall provide or designate a service for picking up refuse and garbage, Tenant shall use the same at
Tenant’s cost. Tenant shall pay the cost of removal of any of Tenant’s refuse or rubbish.

b. Tenant shall keep the Premises at a temperature sufficiently high to prevent freezing of water in any
pipes and fixtures.

c. Tenant shall keep the outside areas immediately adjoining the Premises clean and free from dirt and
rubbish to the satisfaction of Landlord, and Tenant shall not place or permit any obstructions or
merchandise in those areas. Tenant shall water and maintain any flowers, shrubs, and trees located
immediately adjoining the Premises.

d. Tenant shall only store and/or stock in the Premises goods, wares, and merchandise that Tenant intends
to offer for sale at retail.

e. Tenant shall conduct its business in the Premises in a dignified manner and in accordance with high
standards of store operation.

13. Restrictions on Tenant’s activities. Without Landlord’s written consent, Tenant shall not engage in
the activities listed below.

a. Tenant shall not operate all or any part of its business in the Premises in any manner that is inconsistent
with its intended use of the Premises.

b. Tenant shall not conduct any auction, fire, going-out-of-business, or bankruptcy sales in the Premises.

c. Tenant shall not operate or permit to be operated on the Premises any coin or token operated vending
machines or similar devices for the sale of goods, wares, merchandise, food, beverages, or service,
including, without limitation, pay telephones, pay lockers, scale, and amusement devices without Landlord’s prior written consent.

d. Tenant and Tenant’s employees and agents shall not solicit business in the parking or other common areas of the Building, nor shall Tenant or its employees or agents distribute any handbills or other advertising matter in or on automobiles parked in the parking area or in other common areas without Landlord’s prior written consent.

e. Tenant and its employees and agents shall not park any vehicle on the Building land except in areas that are designated by Landlord for that use.

14. Assignment and subletting. Tenant agrees not to sell, assign, mortgage, pledge, or in any manner transfer this Lease or sublet the Premises or any portion of the Premises without the prior written consent of Landlord. Notwithstanding any assignment or subletting, Tenant shall remain fully liable on this Lease. Landlord’s right to assign this Lease is and shall remain unqualified. On any transfer of Landlord’s interest in the Premises in which the purchaser assumes all obligations under this Lease, Landlord shall be free of all obligations of Landlord under this Lease and shall not be subject to any liability resulting from any act or omission or event occurring after the conveyance. Tenant agrees to recognize the transferee as Landlord, and Tenant further agrees, at Landlord’s request, to execute and deliver such documents and estoppel letters as Landlord may request to assist in that transfer.

15. Estoppel letter. On not less than 10 days’ prior written notice from Landlord, Tenant shall sign and deliver to Landlord an estoppel letter that

a. certifies that this Lease is unmodified and in full force and effect (or, if modified, states the nature of the modification and certifies that this Lease, as so modified, is in full force and effect);

b. acknowledges that there are not, to Tenant’s knowledge, any uncured defaults on the part of Landlord or specifying the default if any are claimed;

c. certifies the date to which all forms of rent have been paid; and

d. certifies the amount, if any, of the security deposit paid to Landlord.

Tenant’s failure to deliver such an estoppel letter within the 10 days shall be conclusive on Tenant that

a. this Lease is in full force and effect, without modification except as may be represented by Landlord;

b. there are no uncured defaults in Landlord’s performance;

c. not more than one month’s rent has been paid in advance; and

d. no security deposit has been paid except as may be represented by Landlord.

16. Acceptance of Premises. The occupancy by Tenant of the Premises shall constitute an acknowledgment by Tenant that the Premises are then in the condition called for by this Lease.

17. Damage or destruction. If, during the term of this Lease, the Premises shall be partially or totally destroyed by fire or other casualty covered by insurance so as to become partially or totally untenable,
the same shall be repaired as promptly as possible with the insurance proceeds unless this Lease is terminated. In the event of damage or destruction, if this Lease is not terminated, the rent shall be abated proportionately to the loss of use suffered by Tenant.

If, during the term of this Lease, the Premises shall be partially or totally destroyed by fire or other casualty, and the cost of restoring the Premises to its condition prior to the damage shall equal or exceed 40 percent of its fair replacement value immediately prior to the damage, or if the Premises are damaged by any casualty not insured against by Landlord, Landlord shall have the right to terminate this Lease by giving Tenant written notice of its election to do so within 15 days after the date on which the damage occurs. On the giving of notice, the Lease shall terminate as of the date on which damage occurred and the rent shall be adjusted to that date. In default of notice by Landlord, this Lease shall continue and Landlord shall cause the Premises to be repaired or restored with due diligence.

18. Condemnation. If the whole or any part of the Premises shall be taken by any public authority under the power of eminent domain, the term of this Lease shall cease on that part to be taken from the day the possession is acquired by the public authority and the rent shall be paid up to that date. If the portion of the Premises taken substantially impairs the usefulness of the Premises for the purpose for which the Premises were leased, Tenant shall have the right either to terminate this Lease or to continue in the possession of the remainder of the Premises under the terms and conditions of this Lease except that the rentals shall be reduced in proportion to the amount of the Premises taken, and in the latter event, Landlord shall promptly restore the remainder to a reasonably tenantable condition. All damages awarded for the taking shall belong to and be the property of Landlord.

19. Alterations and signage. No improvements, alterations, additions, or physical changes shall be made on the Premises by Tenant without the prior written consent of Landlord.

Tenant agrees that it will not place or maintain on any exterior door, wall, or window of the Premises any signs, awning or canopy, or advertising matter, or other thing of any kind and will not place or maintain any decoration, lettering, or advertising matter on the glass of any window or door of the Premises that is not in conformity with all applicable governmental rules and regulations and the rules and regulations of the Building as set forth by Landlord and further, without first obtaining Landlord's prior written approval. Tenant further agrees to maintain such sign, awning, canopy, decoration, lettering, advertising matter, or other thing as may be approved in good condition and repair at all times. Tenant further acknowledges that Landlord may, at its option, regulate the lettering size, style, and color of Tenant's sign so that all signs in the Building are of a like size, color, style of lettering, and like material. Tenant agrees that it will conform its sign to that as regulated by Landlord for the general use in the Building, regardless of how and in what manner Tenant normally designs its name for use in its sign and further regardless of whether or not Tenant uses the form and style of its sign as a trademark.

All alterations and improvements, but not movable equipment and trade fixtures, put in at the expense of Tenant shall be the property of Landlord and shall remain on and be surrendered with the Premises at the termination of the Lease; provided, however, that Landlord may require that Tenant remove the alterations and improvements and repair any damages to the Premises caused by the removal.

20. Remedies and default. If Tenant shall default in the payment of any sums to Landlord when due and shall not cure such default within 7 days; or if Tenant shall default in the performance of any other covenant or condition of the Lease and shall not cure such other default within 30 days after written notice from Landlord specifying the default; or if Tenant or its agent shall falsify any report to be furnished to Landlord pursuant to the terms of this Lease; or in case Tenant shall be adjudicated a bankrupt or make any assignment for the benefit of creditors; then, in any such event, Landlord may
either (a) accelerate the full balance of the rental payable for the remainder of the term and sue for such sums or Landlord may terminate this Lease or (b) reenter the Premises, without terminating this Lease, and dispossess Tenant or any other occupant of the Premises and remove Tenant's effects and relet the same for the account of Tenant for such rent and on such terms as shall be satisfactory to Landlord, crediting the proceeds, first to the costs and expense of reentry, alterations and additions, and the expense of reletting, and then to the unpaid rent and the other amounts due during the remainder of the term. Tenant shall remain liable to Landlord for any unpaid balance.

In case suit shall be brought for recovery of possession of the Premises, for the recovery of any rent or any other amount due under the provisions of this Lease, or because of the breach of any other covenant on the part of Tenant to be kept or performed, and a breach shall be established, Tenant shall pay to Landlord all expenses incurred, including reasonable attorney fees, which shall be deemed to have been incurred on the commencement of the default and shall be enforceable whether or not the action is prosecuted to judgment.

21. **Access to Premises.** Landlord shall have the right to enter on the Premises at all reasonable hours to inspect and for access to the Premises to install, maintain, use, repair, and replace pipes, ducts, lights, conduits, plants, wires, floor coverings, and all other mechanical equipment serving the Premises.

22. **Rules and regulations.** Landlord reserves the right to adopt from time to time rules and regulations for the operation of the Building that are not inconsistent with the provisions of this Lease. Tenant and its agents, employees, invitees, and licensees shall comply with all those rules and regulations. Any such rules shall not dictate the days or time of business operation.

23. **Waiver.** The failure of Landlord to insist on a strict performance of any of the terms, covenants, or conditions of this Lease or rules and regulations of the Building shall not be deemed a waiver of any subsequent breach or default in the terms, covenants, and conditions or rules and regulations. This Lease may not be changed, modified, or discharged orally.

24. **Notices.** All notices required under this Lease shall be in writing and shall be deemed to have been given if either delivered personally or mailed by certified or registered mail to Landlord or to Tenant at their respective addresses set forth above or to such other address as either party may furnish in writing during the term of this Lease.

25. **Quiet enjoyment.** Landlord covenants and agrees with Tenant, its successors, and assigns that on Tenant’s paying the rent and observing and performing all the terms, covenants, and conditions on Tenant’s part to be performed and observed, Tenant may peaceably and quietly hold, have, occupy, possess, and enjoy the Premises for the full term of this Lease.

26. **Subordination to mortgage.** Any mortgage now or hereafter placed on the Premises shall be deemed to be prior in time and senior to the rights of Tenant under this Lease. Tenant subordinates all of its interest in the leasehold estate created by this Lease to the lien of any mortgage. Tenant shall, at Landlord’s request, execute any additional documents necessary to indicate this subordination including, if requested, an estoppel letter as set forth in section 15. If Tenant fails to supply the estoppel letter, the provisions in section 15 to cover that failure shall apply. Notwithstanding the foregoing, Tenant’s possession of the Premises under this Lease shall not be disturbed by any mortgagee, owner, or holder of note secured by a mortgage placed on the Premises, unless Tenant shall breach any of the provisions of this Lease and the lease term of Tenant’s right to possession shall have been lawfully terminated in accordance with the provisions of this Lease.
27. **Building revisions by Landlord.** Landlord reserves the absolute right at any time and from time to time to make changes or revisions in the Building, including such changes to the parking lot, driveways, signs, and sidewalks, by making additions to, subtractions from, or rearrangements of the improvements in the Building, as long as the revisions do not materially affect Tenant's use of the Premises.

28. **Holding over.** If Tenant remains in possession of the Premises after the expiration or termination of the Lease, it shall be deemed to be occupying the Premises as a tenant from month to month, subject to all the conditions, provisions, and obligations of this Lease insofar as the same can be applicable to month-to-month tenancy, except that the rent shall increase to 2 times the rent owing at the end of the lease term. The month-to-month tenancy shall be cancelable by either party on 30 days' written notice to the other.

29. **Recording.** Tenant shall not record this Lease without the written consent of Landlord; however, on the request of either party the other party shall join in the execution of a memorandum or so-called “short form” of this Lease for the purpose of recordation. The memorandum or short form of this Lease shall describe the parties, the Premises, and the term of this Lease and shall incorporate this Lease by reference.

30. **Captions and headings.** The captions and headings used in this Lease are intended only for convenience and are not to be used in construing this Lease.

31. **Applicable law.** This Lease shall be construed under the laws of the state of Michigan. Venue for any disputes under this agreement shall lie in Oakland, Michigan. If any provision of this Lease or the application to any person or circumstances shall, to any extent, be invalid or unenforceable, the remainder of this Lease shall not be affected and each provision of this Lease shall be valid and enforceable to the fullest extent permitted by law.

32. **Successors.** This Lease and the covenants and conditions shall inure to the benefit of and be binding on Landlord, its successors, and assigns and shall be binding on Tenant and permitted assigns of Tenant.

33. **Effective date.** The parties have caused this agreement to be signed and shall be effective as of the day and year first above written.

*(signature page to follow)*
IN WITNESS WHEREOF, the parties have respectively signed and sealed this Lease as of the day and year first above written.

Business & Operations Plan

PREAMBLE:
Tycoon I Operations, LLC ("Applicant") will strictly comply at all times with applicable state law and local ordinance codes, including rules and emergency rules that may, from time to time, be promulgated by the state or Orion Township. All business activities will take place indoors in a locked facility. Applicant has retained a law firm with established expertise in Michigan marihuana law to ensure continuing education and compliance with the laws as they evolve. The statements made in this application are made with a clear and thorough understanding of state and local requirements as they exist on the date of application, but the operations of Applicant will be amended to comply with all future derivations of the state and municipal laws.

I. OVERVIEW
Applicant is a Michigan limited liability company formed to operate twenty four (24) commercial marihuana GROWER (Class C) facilities whose primary mission is to provide a source of high-quality marihuana to processors and provisioning centers across the state of Michigan.

II. ADMINISTRATION
A. Location & Zoning
   i. Buffers
      a. The distances described are measured horizontally between the nearest property lines.
      b. The facility is not within 1,000 feet of any educational institution or school, college or university, church, house of worship or other religious facility, licensed child care, preschool, public library, or public or private park.
   ii. Applicant is leasing the property pursuant to the attached lease and the owner/lessor of the property authorizes the use of the property as a marihuana facility in the lease agreement, which is attached.

B. Organizational Structure
   i. The Applicant is organized as a Michigan limited liability company and is in good standing.
   ii. The members, owners, directors, officers, and managers of the Applicant are listed in the Organization Structure.
iii. The members, owners, directors, officers, and managers of Applicant meet all eligibility requirements to own and operate a marihuana grower facility as set forth in state law and local ordinance.

a. No member, owner, director, officer, manager or any person having an ownership interest in the application has an interest in a secure transport facility license or a safety compliance facility license.

b. The Applicant meets all eligibility requirements to own and operate a marihuana grower facility as set forth in state law and local ordinance.

iv. The Applicant has never applied for been granted any commercial license or certificate issued by a licensing authority in Michigan or any other jurisdiction that has been denied, restricted, suspended, revoked or not renewed.

C. Permits & Licenses

i. This Business and Operations Plan is submitted as an addendum to the applications for Ten Orion Township permits to operate a business and the Orion Township special use/site plan application.

ii. All operations in this Business and Operations Plan will comply with regulations issued by the Department of Licensing and Regulatory Affairs (LARA).

iii. Applicant intends to apply for, obtain, operate, and comply with a state license to operate a grower facility under the MMFLA and MRTMA.

iv. The business will not open for operation until it receives a state license to operate under the MMFLA and MRTMA and all applicable permits and licenses from Orion Township.

v. Upon granting of a permit to operate a grower facility, Applicant will prominently display the original Orion Township permit at the Permitted Premises in a location where it can be easily viewed by the public, law enforcement, and administrative authorities.

vi. At all times the facility will hold a valid local Permit and State Commercial Marihuana Facility License for a Grower.

vii. In addition to complying with the Orion Township Ordinance Authorizing and Permitting Commercial Marihuana Facilities, Applicant will comply with all Township Ordinances, including without limitation, the Township Zoning Ordinance, as well as the requirements of the County Road Commission, County
Building Inspector, County Drain Commissioner, District Health Department, Soil Erosion Officer, County Conservation Service, areas fire departments, Michigan Department of Natural Resources, Michigan Department of Environmental Quality, and any other applicable township, county, state and federal statutes.

viii. Applicant will have available, at all times, documentation that local and State sales tax requirements, including any requirement for a license, are satisfied.

ix. Applicant will provide updated operational and security plans to Orion Township upon request and prior to any proposed changes in its operations.

D. Inspections
i. Applicant will provide access to the facility for inspection to any federal, state, or local law enforcement officer to ensure compliance with the permit.

ii. Applicant consents to inspections as required in the MMFLA and pursuant to the Orion Township ordinance.

III. OPERATIONS
Applicant proposes 24 state-licenses in a single marihuana grower facility for the cultivation, drying, trimming, curing, and packaging of marihuana for sale to a processor or provisioning center pursuant to the requirements and restrictions of the Marihuana Facilities Licensing Act, PA 281 of 2016, and all future derivations thereof. This facility will be located in a secure industrial facility.

A. Compliance with State Regulations
Applicant will meet all operating regulations established by LARA and the Marihuana Licensing Board for Growers, including without limitation, any standards, procedures, and requirements for:

i. quality control
ii. chain of custody
iii. marihuana storage
iv. waste disposal
v. labeling and packaging
vi. storage of chemicals

B. Description of the Facility
Applicant’s facility will be used exclusively for the cultivation, drying, trimming, curing, and packaging of legal usable marihuana for sale to processors or provisioning centers.

C. Entry to Facility
Generally, the public will not be allowed entry to the facility. Notwithstanding the forgoing, Applicant will not allow entry to the facility to anyone under the age of 18.
D. Employees
Applicant anticipates having between fifteen (15) and (65) full and part-time employees, as many as possible of whom will be local community residents. None of Applicant’s employees will be registered primary caregivers during the employment with Applicant. Please reference the staffing plan for a detailed list of potential positions.

E. General Policies
i. Applicant will only sell or transfer marihuana to a processor or provisioning center.

ii. Applicant will only use secure transporters in the distribution or exchange of marihuana or currency with processors or provisioning centers.

iii. Applicant will not promote the unlawful use of marihuana or any other drug or provide or otherwise make marihuana available to any person who is not legally authorized to receive Marihuana under state law.

iv. No owner, the Applicant, or any employee of Applicant will grow marihuana in the Permitted Premises for his or her own use.

v. The following activities are prohibited on the Permitted Premises:
   a. the sale, consumption, or use of alcohol, or controlled substances;
   b. smoking or consumption of marihuana.

F. Cultivation Plan
i. Propagation
   a. Lighting
   b. Watering
   c. Nutrient Application
   d. Integrated Pesticide Management
ii. Harvesting and Trimming
iii. Drying and Curing
iv. Packaging
v. Distribution
   a. All marihuana products will be validated from a verified transport manifest, created from the statewide monitoring system. The manifest includes a detailed form with the number of packages and detailed content for confirmation/validation with secure transporters and purchasers of the shipment (processors or provisioning centers).
   b. Each transport shipment will be processed in the following manner:
      1. Entry of shipped inventory into the statewide monitoring system.
      2. Confirmation with Secure Transporter of valid and verified transport manifest, including product count, weight of each package or item
c. State certified scales will be used to verify and weigh all marihuana, in whatever form.

G. Inventory Management
i. Applicant will not control or have on the Permitted Property an amount of marihuana plants or usable marihuana that exceeds any amount permitted by the state License or the Township permit.

ii. Tracking and Monitoring
Applicant will use a third-party inventory control and tracking system to interface with the statewide monitoring system. The third-party inventory control and tracking system will have the capabilities necessary to comply with the requirements applicable to a grower licensee:

a. Track all marihuana plants and packages;
b. Track lot and batch information throughout the entire chain of custody;
c. Track transportation of product;
d. Track marihuana waste;
e. Track all marihuana product transfers;
f. Track sales and returns;
g. Track marihuana plant, batch, and product destruction;
h. Perform batch recall tracking;
i. Report and track loss, theft, or diversion of marihuana products;
j. Receive testing results electronically from a safety compliance facility;
k. Provide access to state agencies and law enforcement as required;
l. Report all inventory discrepancies.

iii. Applicant will enter all transactions, current inventory, and other information into the statewide monitoring system as required by the MMFLA, the Marihuana Tracking Act, and any associated regulations.

iv. Inventory reconciliation - At the end of each day, physical inventory counts will be reconciled with the third-party inventory control and tracking system.

v. Returns

H. Quality Control
i. Sampling (by Licensed Safety Compliance Facility)

ii. Batch Testing (by Licensed Safety Compliance Facility)

iii. Transport to Safety Compliance Facility (by Secured Transporter)

I. Signage and Advertising
i. Applicant has no proposed signage at this time, but will amend this plan accordingly and provide the township with its sign permit application if and when it does wish to propose signage.

ii. Applicant will not display pictures, photographs, drawings or other depictions of Marihuana or Marihuana Paraphernalia on the outside of the Permitted Premises, nor will such pictures, photographs, drawings, or other depictions of Marihuana or Marihuana Paraphernalia be visible outside of the Permitted Premises on the Permitted Property.

iii. The words "Marihuana," "or" "cannabis," and any other words, used or intended to convey the presence or availability of Marihuana will not appear on the outside of the Permitted Premises, nor will "Marihuana," "or" "cannabis," and any other words, used or intended to convey the presence or availability of Marihuana be visible outside of the Permitted Premises on the Permitted Property.

J. Visibility of activities
   i. All activities of the facility, including without limitation, the cultivation, harvesting, trimming, drying, curing and packaging of Marihuana, and all other related activity permitted under Applicant's License or Permit will occur indoors.

   ii. No marihuana or paraphernalia shall be displayed or kept in the facility so as to be visible from outside the Permitted Premises.

K. Security
   i. Plan
   Applicant will maintain, at all times, a centrally-monitored security and alarm system on the premises that meets or exceeds state regulatory requirement.
   Applicant will maintain policies and procedures to include:

   a. Regular drills of the security protocols and emergency plans;
   b. Controlled and restricted access to the Permitted Property and Permitted Premises to employees, agents, and owners of Applicant, and law enforcement or state or local authorities as necessary to ensure Applicant's compliance with state and local laws.
   c. Internal and external cameras with 24-hour monitoring and off-site recording;
   d. Installed panic buttons
   e. Limitations on the amount of currency and marihuana stored onsite;
   f. Cooperation and coordination with local law enforcement;
   g. Permitted premises will only be able to be accessed through a combination of security locks and access codes; and
   h. The ability to remain operational during a power outage with battery back-up.

   ii. Security Surveillance Cameras
Security surveillance cameras will be installed to monitor all entrances, along with the interior and exterior of the premises, which will capture all areas of the property unless otherwise prohibited by law, including unobstructed video surveillance of all enclosed areas, unless prohibited by law, including all points of entry and exit that shall be appropriate for the normal lighting conditions of the area under surveillance.

iii. Security Recordings and Documentation
   a. All security recordings and documentation will be preserved for at least 30 days and made available upon request by any law enforcement.

iv. Robbery and Burglary Alarm System
Applicant will employ an alarm system that meets state requirements and obtains state approval. Specifically,

   a. Applicant will employ a centrally alarmed and monitored security system that will be monitored 24 hours a day, 7 days a week for the Permitted Premises pursuant to the attached service agreement.
   b. There will be a perimeter alarm on all entry points and perimeter windows of the Permitted Premises.
   c. A failure notification system will provide an audible, text, or visual notification of any failure in the surveillance system. A panic button and alarm will directly notify the local law enforcement agency having primary jurisdiction.

v. Storage of Marihuana and Currency
   a. Applicant will store usable marihuana that is not otherwise in the process of being dried, trimmed, cured, packaged, or distributed including packaged and un-packaged usable marihuana, and currency in a secured locked safe that is permanently affixed to the premises.

L. Ventilation Plan/Air Filtration System
   i. Applicant’s facility operation and design will provide sufficient measures and means to minimize any impact to adjacent uses, including the control of odor by maintaining and operating an air filtration system so that no odor is detectable outside the Permitted Premises.

   ii. Applicant’s equipment and methods to control odor include a comprehensive air filtration system, consisting of
       a. Activated Carbon Filters.
       b. Heavy Duty Ventilation Fans.

   iv. Details and specifications of the equipment used for Applicant’s ventilation and air filtration plan are attached.
v. The total enclosed space in which harvested marijuana will be stored amounts to approximately 300 sq. feet. Applicant will use an advanced filtration system rated appropriately for the area.

vi. The air filtration system will be maintained in working order at all times and will be in use at all times. Filters will be changed a minimum of once every 365 days.

vii. In addition to the use of an air filtration system, Applicant will mitigate odors by keeping doors and windows closed at all times, except the minimum amount of time needed to allow ingress and egress to the building.

M. Toxic/Flammable/Hazardous Materials
i. Applicant’s use of toxic, flammable, or other harmful, hazardous, or combustible materials will be limited to plant nutrients and pesticides and cleaning products. The facility may use the following nutrients and pesticides:

   a. CocoTech Bloom A
   b. CocoTech Grow A
   c. CocoTech Premier Nutrient
   d. FloraBloom Nutrient System
   e. FloraGrow Nutrient System
   f. Golden Tree Plant Food.
   g. Nutra Green 5-10-5 plus Micronutrients Foliar Spray
   h. Diatomaceous Earth
   i. Neem Oil
   j. PyGanic Pro Pyrethrin 5% MGK Miticide

ii. The facility may use the following commercial cleaning products, along with the following household products: materials regulated by government agencies:

   a. Ultra Dawn Lemon Dish Soap
   b. Nature’s Source Toilet Bowl Cleaner
   c. Fantastik Antibacterial Heavy Duty All Purpose Cleaner
   d. Windex Original Glass Cleaner
   e. Novo Foaming Instant Hand Sanitizer
   f. QuickSan Food Contact and Surface Sanitizer

iii. The materials will be stored in secured and ventilated cabinets. All combustible or reactive materials will be stored separately.

iv. Materials will be handled, stored, and disposed according to specifications in each Material Safety Data Sheet.

Inspector:

TOM KATICH
(248) 343 2012
plmbinspector@oriontownship.org

I agree this permit is only for the work described, and does not grant permission for additional or related work which requires separate permits. I understand that this permit will expire and become null and void if work is not started within 180 days, or if work is suspended or abandoned for a period of 180 days at any time after work has commenced, and that I am responsible for assuring all required inspections are requested in conformance with the applicable code.

I hereby certify that the proposed work is authorized by the owner to make this application as his authorized agent. I agree to conform to all applicable laws of the State of Michigan and the local jurisdiction. All information on the permit application is accurate to the best of my knowledge.

PAYMENT OF PERMIT FEE CONSTITUTES ACCEPTANCE OF THE ABOVE TERMS.
H. Litter & Waste Removal Plan
Litter & Waste Removal Plan

All biological waste product will be rendered unrecognizable by grinding it in an industrial grinder and combining it with other non-consumable solid waste, including the media in which we cultivate plants, Rockwool. The inclusion of inert material renders the combined solid waste unusable. All waste will be stored in a locked dumpster that is emptied at minimum once per week.

The company intends to employ particulate filtration in areas where waste is stored and processed, which minimizes potential exposure and impact to the outside environment. The facility, which is designed around large water chillers, is designed to circulate air rather than ventilating it. This process helps to avoid excess exposure of odors to the surrounding community.
I. Noise, Dust, Vibrations, Glare & Fumes Plan
Noise, Dust, Vibrations, Glare, Fumes or Odors Plan

Excessive Noise, Dust, Vibrations, Glare and Marijuana odors emanating from our facilities are a valid concern for the community and our neighbors. This plan details the measures deployed to ensure that minimal noise, dust, vibration, glare, fume or offensive odor is emitted from the facility, the response if it occurs and that the measures remain effective over time.

This plan is our commitment to the Orion Township that we will be in compliance with regulations of the city and the administrative rules and that we will not operate in a manner creating noise, dust, vibration, glare, fumes, or odors detectable to normal senses beyond the boundaries of the property.

We will not vent noxious dust, odors, gases or fumes to surrounding areas.

We will mitigate dust and noxious odors by engaging in the following activities:

1. Adequate design measures to seal the building;  
2. Utilizing a heating, ventilation, and cooling (HVAC) System designed to move an appropriate amount of air (cfm) throughout the facility to disperse odors;  
3. Using industry leading MERV-13 HEPA filters in addition to FILTR, Blue Zone & Puradigm units in each room throughout the facility.

I. DESIGN MEASURES TO SEAL THE BUILDING

We intend to renovate our building in a manner that focuses on effectively sealing all interior rooms and exterior access points. Each room is enclosed in 12”, interlocking insulated panels which are designed to form an airtight seal. For additional protection, butyl caulk is applied at each joint to accommodate any flaws in the panels.

Caulk is also applied to seal any openings into the panels, including plug outlets, doorways, sprinklers, and anything else that could allow air flow. Our doors are fiberglass, weather stripped and employ a drop seal to press additional weather stripping against the floor when closed to maximize the seal all the way around.

II. MERV-13 HEPA FILTRATION SYSTEM

The purification of air throughout our facility is a top priority for both the health of the plants and the environment we subject our employees and the local community to. In an effort to target and reduce contamination, mold, bacteria, odor, dust, and fumes, we employ a variety of filtration systems in all rooms where marihuana plants are grown.

Each room will utilize clean room grade HEPA filtration units filtering down to 0.01um and providing up to 5 complete air changes per hour. These units also utilize a carbon filter which focuses directly on the removal of smells and volatile organic compounds.

In addition to the HEPA filters, each room will have Puradigm units to help reduce airborne and surface contaminates, and Agrify Bluezone UV filtration units, known to destroy 99.9%+ of both bacteria and mold. Both of these systems aid in odor elimination and containment.
As filters age, they become clogged with impurities, and ultimately less effective. As such, we will develop a maintenance schedule to inspect the filtration units regularly and to replace them per the manufacturer's recommendation or at an expedited pace based on their usage in these environments.

III. VIBRATION MITIGATION
Exterior mounted cooling equipment is mounted on isolation pads to dramatically reduce vibrations that would otherwise be created by such large equipment.

IV. EVALUATING THE EFFECTIVENESS OF NOISE, DUST, VIBRATIONS, ODOR & FUME CONTROL MEASURES

Key site leadership roles will be trained to assess the production and escape of odors, dust, fumes and glare from the facility. We also anticipate a strong and friendly relationship with the local communities and will welcome feedback about any exhaust from the building. Should these assessments or the community ever determine that our levels are beyond acceptable, we will re-evaluate this plan and engage professionals to further refine our practices and properly mitigate the problem.
J. Spent Water & Soil Safety Plan
Spent Water & Soil Safety Plan

Wastewater Treatment Plan:
Wastewater generated during the cultivation of marihuana of marihuana products shall be disposed of in compliance with all applicable state and local laws and regulations. Despite the amount of water used in the cultivation process, there is very little water waste. The majority of water is used by the plants or evaporated out of the collection dishes upon which the plants sit. Any water that is used to rinse the plants or clean the facility or for any other purpose shall be rendered clean through both reverse osmosis and UV light after standard filtration methods, and either reused by the facility or discharged through a monitoring man hole where it can be monitored to comply with all local ordinances.

The Cultivation Facility will include an Ecowater RO purification system. Ecowater Purification Systems are the leading water filtration manufacturer in the industry, helping cultivators diagnose and solve every water problem imaginable. Ecowater designs systems to treat any water source including city water, well water, nutrient runoff water, wastewater, and condensate runoff.

Soil Safety Plan
The cultivation facility will not use soil – instead, all media for the purposes of growing plants will be rockwool, a lightweight hydroponic substrate made from spinning molten basaltic rock into fine fibers which are then formed in a range of cubes. This product will be disposed of through the grinder and mixed with biological waste in a locked dumpster.
K. Security Plan
SECURITY PLAN

Tycoon I Operations is committed to being a leader in Michigan’s cannabis industry and a trusted resource for the communities, consumers and clients we service. Essential to fulfilling this commitment is our ability to effectively protect our product from criminal repurposing throughout the facilities.

This Security, Surveillance and Diversion Prevention Plan details the physical and electronic security measures we employ to deter, detect, and inhibit the theft, diversion, and loss of Marijuana, and to prevent unauthorized conduct with respect to the storage and dispensing of Marijuana.

We have extensively researched and designed our Grow Facility to maximize security. The facility shall be built with enhanced security and stringent safety features to eliminate any potential for diversion. Our facility will be equipped with numerous motion sensors and exterior intrusion sensors that will be linked to local law enforcement. To prevent unauthorized entry and stop diversion, theft, or loss of marijuana, every square inch of the facility shall be continually monitored by high definition security cameras and commercial-grade equipment. Security systems will be positioned so they closely monitor activities at strategic risk points and watch for any strange behavior or movement. Marijuana shall not be visible to any person from the exterior of the Grow Facility.

We will create a culture of responsibility, accountability, and strict security surrounding all aspects of the facility. The stringent operating procedures outlined below demonstrate a commitment to employee and public safety above all other operating values. From receipt to sale, we are committed to preventing diversion by implementing a comprehensive security strategy. Employees will be extensively trained to understand that security is a primary obligation for everyone at our facility.

We will have comprehensive security policies and procedures for the Grow Facility, which address measures to deter and prevent unauthorized entrance into areas containing marijuana and theft of marijuana at the facility. Employees will receive on-going training regarding our security protocol and the Site Manager shall ensure all employees follow policies and procedures regarding the security of the facility. The Site Manager shall implement and maintain employee training policies and procedures for security training. All employees shall aid in the security of the Grow Facility through prevention, awareness, reporting, and responsible incident management. All employees shall be required to immediately report security breaches and incidents of non-compliance to their supervisor, and in case of sudden emergency, immediately to law enforcement by either striking a panic button or calling law enforcement directly.

We will make our facility available and open to inspection, at all times, for law enforcement, representatives of the Department and law enforcement, when necessary to perform their duties.

PHYSICAL SECURITY

The facility shall be designed to maximize security and stop the potential for diversion. Access to the secure facility shall include safety and security mechanisms that prevent unauthorized entry. All doors will be burglary-resistant material, with commercial-grade, non-residential locks. Additionally, exterior doors, as well as limited access area entries, will be automatic locking and equipped with electric strike and keycard access hardware. All doors are setup to fail secure, which means in the event of a power failure, the doors will remain locked and only be accessible via a master key.
The Grow Facility's main entrance vestibule shall include a mantrap to control passage from the public access area to the limited access area. We will strive to install Underwriter's Lab (UL) approved locks and lock cylinders, which are rated as burglary resistant. We will also install local alarms on all fire exits and other perimeter doors not authorized for employee or visitor use. Our alarm system will be monitored after business hours with live monitoring through a licensed security monitoring company. If there are ever any after-hours issues, the live monitoring system will be linked directly to law enforcement and the Site Director, among other key personnel.

We shall ensure that trees, bushes, and other foliage outside of the premises do not allow people to conceal themselves from sight. The surveillance system's cameras shall be capable of certain identification of persons (including facial features), license plates, vehicles, the immediate surrounding areas, and any activities occurring within any area of the premises, and the parking area, and within twenty feet (20') of all entry and exit points of the premises. Cameras will cover every square inch of the facility.

To provide first responders with immediate access into our facility during a time of emergency or inspection, we will install a Knox Rapid Access System to remove any barriers to entry when first responders respond to an emergency call.

LIGHTING

Exterior lights at all points of entry and exit shall remain constantly illuminated to allow for recording. Lighting on the outside perimeter shall allow cameras the ability to record any suspicious activity. Timed-delay switches shall be used to turn off non-essential interior lights, which shall not remain lit after employees have left the facility. Motion detecting lights shall be installed in areas that are entered and exited infrequently. The exterior of the facility shall be lit by commercial LED light fixtures sufficient to facilitate twenty-four-hour surveillance. Exterior lights in the parking area will remain on from dusk until dawn.

SECURITY EQUIPMENT

Our security equipment shall be designed, installed, and maintained to deter and prevent unauthorized entrance and theft of marijuana products at the facility. Security equipment shall be installed by a commercial, licensed service provider. All equipment shall be compliant with Department rules and all state and local laws, regulations, ordinances, and other requirements.

ENTRY AND EXIT ELECTRONIC EQUIPMENT AND PLACEMENT

Our entry and exit electronic access equipment will consist of the following:

- Electric strike locks on all doors in the Grow Facility with the ability to override access control for emergency exit even during a power outage.
- RFID proximity card access control devices for all interior doors and all exterior entrances and exits into the Grow Facility.
- Access control system that allows for programming or uploading individual user permissions and allowed entry times, as well as operations-specific information including employee photos.
- A backup power supply system that immediately provides power for at least twenty-four (24) hours in the event of a power outage.
- Main system operating equipment will be kept in the security room, a limited access area.
• Access control system that monitors and records:
  o Identification of employees or visitors entering and exiting.
  o Date and time of entry and exit.
  o Length of time in specific area.
  o Any unauthorized attempts for access.

ALARM SYSTEM

We shall have a professionally monitored security alarm system installed at our facility. Monitoring of the alarm system shall be twenty-four (24) hours a day, seven (7) days a week. We shall notify the Department of any intent to change our security alarm service provider. Upon request, we will make available to the Department all information related to the alarm system, monitoring, and alarm activity. The alarm system shall consist of the following:

• Appropriate equipment necessary to monitor activity inside and outside the Grow Facility, including:
  o All entrances and exits.
  o Roof hatches.
  o Rooms with exterior windows.
  o Rooms with exterior walls.
  o Rooms containing marijuana.
  o Rooms containing safes or vaults.

• A backup power supply system that immediately provides power in the event of a power outage.

• Main system operating equipment is kept in the Main Office Surveillance/IT Room, a limited access area.

• All telephone junction boxes or rooms where alarm telephone circuits terminate are locked, tamper-protected, and all labels or tags identifying these alarm circuits have been removed.

ALARM SYSTEM COMMUNICATION

The alarm system shall include an electronic or mechanical system that, upon activation, is programmed to send a prerecorded voice message, via telephone, radio frequency, or other communication system, to appropriate law enforcement authorities or other emergency services. In addition, the alarm system shall be equipped with a failure notification system that notifies the alarm monitoring service provider of the system failure via audio, text, visual, or audiovisual message, within a maximum of five (5) minutes of such failure.

ALARM SYSTEM TESTING

We shall bi-annually conduct an onsite inspection and test of the entire alarm system to determine needed repairs and adjustments.

ALARM SYSTEM RECORDS

We shall keep and maintain alarm system records and will make available to the Department all
information related to the alarm system, monitoring, and alarm activity. These records shall include the following:

- The name of the alarm installation and monitoring service provider.
- Copies of service contracts.
- A map of the Grow Facility showing the location and operation of each alarm system component including alarm telephone circuits.
- A list of authorized users.
- Manufacturers’ instructions for operating and maintaining the equipment.
- Testing and maintenance logs.
- Reports of any incidents triggering an alarm.
- Reports of any interruption in monitoring and/or complete failure of the system, including the length of the interruption period.

SURVEILLANCE SYSTEM

We shall have a fully operational electronic surveillance system installed at our facility. We shall notify the Department of the intent to make any changes to the surveillance system. Upon request, we will make available to the Department all information related to the electronic surveillance system installed at our facility. The surveillance system shall consist of the following:

- Appropriate equipment necessary to video record activity inside and outside the Grow Facility, including:
  - All entrances and exits into and out of the Grow Facility.
  - Roof hatches or skylights.
  - Rooms with exterior windows.
  - Rooms with exterior walls.
  - Rooms containing safes or vaults.
  - All entrances and exits of security rooms and limited access areas.
- Appropriate equipment to record keycard entry and exit activity of all our employees and visitors.
- A backup power supply system that immediately provides power in the event of a power outage.
- A dedicated safe or vault to store all entry/exit records and video recordings in the Office Surveillance/IT Room, in a limited access area.
- Main system operating equipment is kept in the main office Surveillance/IT Room.

VIDEO SURVEILLANCE EQUIPMENT

Our video surveillance equipment will consist of the following:

- Network video recorders with a record rate of a minimum of thirty (30) frames per second.
- Cameras with a minimum resolution of 1920 x 1080 pixels.
• Cameras with infrared capabilities to capture images in low or no lighting conditions.
• Cameras with capabilities to identify activity occurring within twenty feet (20') from all points of entry and exits into and out of the exterior of the Grow Facility.
• Video monitors.
• Digital archiving device.
• Capabilities to produce a color still photograph from any camera image, live, or recorded.
• Capabilities to accurately display the time and date on recorded images or video.
• Color printer that can immediately produce a clear, color still photo, either live or recorded, with a resolution of 9600 dpi and the image quality is relative to the camera being used to capture the image.

CAMERA COVERAGE PLACEMENT

We will install at least One Hundred (100) security cameras. The security cameras will be permanently mounted and in a fixed location. Each camera at the Grow Facility shall be placed in a location that allows the camera to clearly record activity occurring within twenty feet (20') of all points of entry and exit on the Grow Facility. The cameras will cover every square inch of the facility. The cameras shall allow for the clear and certain identification of any person, including facial features, and activities, including sales or transfers, in all areas of the Grow Facility. The security cameras shall monitor and record all areas of the Grow Facility including:

• All areas where marijuana or products are present, including activities related to:
  o Weighing, packaging, and labeling.
  o Storing, preparing for sale, loading/unloading, or moved within the Grow Facility.
  o Waste Disposal
• Limited-access areas and security rooms, including transfers between rooms and areas.
• Areas storing a surveillance system storage device with at least one (1) camera recording the access points to the secured surveillance recording area.
• All entrances and exits into and out of the exterior of the Grow Facility, recording both indoor and outdoor vantage points.
• Outdoor trash receptacles.
• Roof hatches or skylights.
• Rooms with exterior windows.
• Rooms containing safes or vaults.
• All areas where cash is counted, transferred, or stored.
• All areas where records are stored.

Cameras shall not be installed in bathrooms or any other area where a legitimate expectation of privacy exists. Camera placement shall ensure:

• Visibility of activities is not obstructed by lighting equipment covers, fixtures, or other equipment.
• A clear and certain identification of all individuals and activity at the Grow Facility.
• Identification of activity occurring within twenty feet (20') from all points of entry and exit into and out of the exterior of the Grow Facility.

SURVEILLANCE FAILURE NOTIFICATION

The surveillance system shall include a failure notification system that alerts the Site Director and other key site personnel of any interruption in surveillance and/or the complete failure of the monitoring system. The notification shall be within a maximum of five (5) minutes of such failure via audio, text, visual, or audiovisual message. Additionally, an alarm shall signal the Security Officer on duty whenever an unauthorized entry is attempted.

SURVEILLANCE TESTING

We shall ensure that the surveillance system is properly maintained for playback quality so that images can be seen and the identity of all individuals and activity in surveillance areas are captured. We will schedule and oversee all required maintenance of security equipment in accordance with manufacturer recommendations. Any equipment failure identified shall be corrected as soon as possible. All security equipment shall be in good working order and shall be inspected and tested at regular intervals.

INFORMATION TECHNOLOGY SECURITY

We shall ensure the security of our hardware, software, data, and communications networks, including the following information technology (IT) maintenance:

• Software registration.
• Security patches.
• Malicious software prevention.
• Account management.
• Security status and network access monitoring.
• Disposal and redeployment.
• Employee IT security training.
• Vulnerability assessments.

Access to protected information shall be restricted to essential employees only. Access may be granted to authorized representatives of the Department and other government officials if necessary to perform their official duties. Examples of protected information include:

• Security and cash management procedures.
• Asset and inventory lists.
- Network data.
- Floor plans of critical areas.
- Password and code records.
- Customer records.
- Employee records.

PRODUCT SAFETY AND SECURITY

We shall develop and implement procedures that ensure product safety and security and are compliant with the rules set forth by the Department and all applicable state and local laws, regulations, ordinances, and other requirements. Procedures shall include measures that:

- Minimize the risk of diversion or theft of marijuana.
- Minimize the risk of contamination from incoming materials.
- Ensure proper storage conditions that maintain the quality and purity of our marijuana products.

MATERIAL RECEIVING

All deliveries shall be verified at the front entrance to the facility before allowed access to the loading areas. All materials received will be documented. No material may be received unless its shipping documentation matches the corresponding purchase order or separate approval is given by the Site Manager. Employees shall notify the Site Manager of any shipment discrepancy immediately and shipment may not be accepted without the Site Manager’s approval.

PRODUCT STORAGE SECURITY

Storage areas shall be designed to provide adequate lighting, ventilation, temperature, humidity, space, and equipment. All storage areas shall be maintained in a clean and orderly condition, free from infestation of pests, and in accordance with our security measures and Security Plan. The Grow Facility Manager shall ensure secure containers containing marijuana products remain dry, well ventilated, have temperature-control features to avoid extreme temperature fluctuations and appropriate odor-control features. These proper storage environments ensure product storage does not lead to product contamination or loss of quality.

The storage areas containing marijuana products shall be designed for security and ease of maintenance. We shall establish product storage and security policies and procedures compliant with the rules set forth by the Department and all applicable state and local laws, regulations, ordinances, and other requirements. Under no circumstances may any product be transferred without following our policies and procedures and all the rules set forth by the

1790
Department and all applicable state and local laws, regulations, ordinances, and other requirements. Storage policies and procedures shall include:

- All equipment and any areas used for the processing or storage of marijuana shall be securely locked unless in use.
- All areas used for the storage of marijuana shall be on a time lock and only accessible during regular business hours.
- Inventory shall be reviewed and documented at the beginning and close of each day.
- All areas where marijuana product is stored will be monitored by the surveillance system.

DIVERSION PREVENTION

Investigation of possible diversion and developing policies to prevent it will be conducted by a team of our senior officials, including our CEO, COO, and Director of Compliance. Collectively, they will be known as the Diversion Prevention Team or DPT. The team will have multiple responsibilities including:

- Investigating allegations of diversion
- Developing policies and procedures to prevent diversion
- Managing performance improvement measures
- Providing overall direction for the program.
- Reporting confirmed cases of diversion to law enforcement

The DPT will also integrate information from external sources and environmental factors to improve safety and security at facilities. External sources and environmental factors may include news reports, trade and patient associations, law enforcement bulletins, et cetera. Standard operating procedures shall be updated to incorporate new sources of information and prevent diversion.

WORKING WITH LAW ENFORCEMENT

We deeply value and respect the work of local law enforcement. Police officers are on the front lines protecting our safety. Therefore, our Company, through the DPT, will form a partnership with law enforcement. This partnership will be rooted in a shared responsibility for the safety of the community. Upon request, law enforcement will have access to employee records and Grow Facility operations. Company will also engage with first responders like EMS and fire to establish emergency response protocols. This will create a close working relationship and enhance our ability to provide a secure and positive experience for our employees and the community.

To provide first responders with immediate access into our facility during a time of emergency or inspection, we will install a Knox Rapid Access System to remove any barriers to entry when first responders respond to an emergency call.
EMPLOYEE TRAINING

We know that having a trained and educated workforce is paramount to having an effective diversion strategy. Therefore, a considerable amount of time, resources, and energy will be devoted to ongoing diversion prevention training. The training curriculum will be conducted by the DPT. At a minimum, the training curriculum shall include:

- Compliance regulations for grow facilities.
- State laws and agency rules regulating the use of marijuana.
- Strategies for preventing diversion.
- Criminal and civil consequences for diverting product.
- Security and safety standard operating procedures.
- Chain of command for reporting diversion.
- Incident management.
- Daily operating procedures.

Diversion prevention trainings are mandatory for every new employee. Additionally, each employee shall be required to participate in quarterly continuing education trainings on diversion. Training materials will be outcome driven. Employees will be given real world examples of diversion and taught the appropriate response. Teaching the material through the learning principles of problem solving, discussion, and feedback will empower and increase understanding and retention of the training. This process of integrating knowledge will develop a culture of shared values, perspectives, and become the way of daily conduct and purpose at the Grow Facility.

Employees will have access to diversion prevention training materials at all times. There will be no excuse and zero tolerance for not knowing the proper policies and procedures. Well-maintained employee training records displaying documented training dates and subject matter will preserve and increase compliance, continuity and understanding of all guidelines, security procedures, safety, and incident response. Employee training records will become a written testament of the detailed information and accountability of security education.

INVESTIGATION OF DIVERSION

Due to intense and robust security operations, we do not anticipate diversion at our facility. However, it is important to be prepared for any scenario. We have developed an enhanced investigation procedure for any allegations or reports of potential diversion. Any allegation or report will be fully and immediately investigated by the DPT with established processes and timeframes.

Security policies developed by our Company outline that the first step of investigation is to preserve all possible evidence. Evidence needs to be persevered for the investigation and may be used in future disciplinary matters. The second step of investigation shall be to review all camera footage and other relevant information technology. Each marijuana product is tracked from seed to sale. Therefore, if diversion occurred, it will likely appear in an audit of the tracking software. The third step of investigation will be to interview the employee who engaged or
allegedly engaged in diversion. This step can only be executed if enough evidence is gathered to narrow down the suspect. The goal of the interview is to get the subject to confess how they diverted product to prevent future incidents from occurring. The fourth step of investigation will be to report the confirmed incident of diversion and suspect to law enforcement and the Department. The Site Manager shall be the point of contact for all law enforcement inquiries and will turn over all relevant evidence to law enforcement and the Department. The final step of investigation is to develop policies and procedures to prevent the incident from happening again. Once new policies have been developed by the DPT, an all staff training shall be given. The training will be a top down review of all security policies including any updated procedures.

INCIDENT RESPONSE

We shall establish incident response procedures addressing any incident that may occur, including natural disaster, unauthorized access, theft, or IT security breach. Procedures shall be in accordance with the rules set forth by the Department and all applicable state and local laws, regulations, ordinances, and other requirements. Procedures for general emergency and incident management, containment, and corrective measures shall be thoroughly detailed. The Director of Compliance shall ensure the appropriate response procedures are followed. All employees shall receive incident response training annually. The Site Manager shall determine the category and severity of the incident and determine the next best course of action. All discussions, decisions, and activities shall be documented.

We shall immediately notify appropriate law enforcement authorities and the Department immediately after the discovery of a reportable incident as defined by state and local laws, regulations, ordinances, and other requirements. Examples of an incident may include, but are not limited to:

- Theft or physical loss of marijuana or confidential records.
- Breach of our network servers.
- Robbery or unauthorized entry in the Grow Facility.
- Threats of violence to the Grow Facility, employees, or visitors.
- Bomb threats.
- Any criminal activity.
- Civil disturbances.
- Hazardous spills.
- Infectious disease epidemic.
- Serious accidents.
- Fires.
- Earthquakes.
- Floods.
- Windstorms or tornadoes.
INCIDENT REPORTING

Anyone with knowledge or a reasonable suspicion of an incident is instructed to make an immediate report to the Grow Facility Manager or the Site Manager. The person reporting the incident shall complete the Incident Log.

- Date and time of occurrence or suspected occurrence.
- Names and contact information of parties involved and any witnesses.
- Description of incident.
- Completed Suspect Description Forms, if applicable.
- Any evidence supportive of the event (unless law enforcement is required on scene or en route).

We shall notify appropriate law enforcement authorities and the Department immediately after discovering the following:

- Discrepancies identified during inventory; diversion, theft, or loss of marijuana; or any criminal action involving an employee.
- Theft, robbery, or burglary; sale to minors; diversion of marijuana or marijuana products; or any other crime related to marijuana.
- Any suspicious act involving the sale, cultivation, distribution, processing, or production of marijuana by any person.
- Unauthorized destruction of marijuana.
- Any loss or unauthorized alteration of records.
- An alarm activation or other event that requires a response by public safety personnel.
- Integrity of the inventory management system compromised.
- An IT security breach.
- The failure of any security alarm system due to a loss of electrical power or mechanical malfunction that is expected to last longer than eight (8) hours.
- Any other breach of security defined by the rules set forth by the Department.

UNAUTHORIZED ENTRY/ROBBERY CONTAINMENT AND CORRECTIVE PROCEDURES

In the event a threat is present to persons, cash, or product due to unauthorized entry, employees shall be trained to perform the following:
• Notify law enforcement utilizing a panic alarm, only if it can be safely done without being obvious to the robber.
• Do not resist the robber or use or encourage the use of weapons or force against the robber.
• Try to inform the robber of any potential surprises (e.g., an employee is due back from lunch or the building alarm is set to be tested).
• Try to keep employees and visitors, if applicable, calm during the robbery.
• Try to alert other employees of the situation using pre-determined signals or text messages, only if safe to do so.
• Follow the robber's commands in order to shorten the time of the incident. Do not argue with the robber, but do not volunteer to help.
• If the robber demands a certain amount of money or product, only give them that amount.
• Be observant in order to be a good witness. Try to remember:
  ○ The number of robbers.
  ○ The physical characteristics of the robber(s), such as weight, scars, tattoos, hair color, or speech patterns.
  ○ The clothing worn by the robber(s).
  ○ Any names used by the robber(s).
  ○ A description of any weapons shown, such as barrel length and color, color of the grip, or automatic or revolver.
• If the robber uses a note, try to place it out of sight to retain it as evidence.
• Do not follow a robber.
• Secure the Grow Facility and place a notice that the business is closed due to an emergency.
• Call the police and ambulance, as needed, immediately and request that witnesses stay or obtain their contact information.
• Provide aid to injured people.
• Do not discuss the robbery with any outside parties until police and management has given authority to do so.
• Do not estimate the amount of money or product that was taken until an inventory has been performed.

Corrective procedures that may be required to return conditions to a normalized and secure state:
• Change all security codes.
• Replace locks and issue keys only to authorized employees.
• Ensure any video of the incident is archived.
• Restore security devices and/or apparatus to working condition.
• Repair any physical damage to the Grow Facility.
• Provide employees and visitors, if applicable, counseling, as needed.
• Perform a security re-training as soon as possible.
• Modify Employee Access Control Log as deemed appropriate.

INTERNAL THEFT/BURGLARY CONTAINMENT AND CORRECTIVE PROCEDURES

In the event a threat is present to persons, cash, product due to internal theft or burglary, employees shall be trained to perform the following:

• Identify missing or compromised assets.
• Gather, remove, recover, and secure sensitive materials to prevent further loss or access.
• Power down, recycle or remove security equipment known to be compromised.
• Where possible, secure the premises for possible analysis by the Department and law enforcement.
• Gather and secure any evidence of illegal entry for review by the Department and law enforcement.
• Where possible, record identities of any party who might be a possible witness to events.
• Preserve video recordings and Visitor logs for review by the Department and law enforcement.

Corrective procedures that may be required to return conditions to a normalized and secure state:

• Retrieve or restore assets where possible.
• Store all sensitive materials and products in a secure manner (e.g., lockable cabinets or storage areas/container).
• Replace locks and issue keys only to authorized employees. Update the Employee Access Control Log as necessary.
• Restore security devices and/or apparatus to working condition.
• Remove and retain unauthorized equipment from network and/or area.
• Implement physical security devices and improvements (e.g., equipment cables, alarms) as deemed appropriate.
• Perform a security re-training as soon as possible.
FIRE PROCEDURES

If a fire does not present an immediate danger to personal safety, one (1) employee shall try to extinguish the fire. If a fire presents an immediate danger to personal safety, a fire alarm shall be pulled and a call to 911 shall be immediately made and evacuation of the building shall occur all at once.

Evacuation of Grow Facility

Any director or manager may determine the need to evacuate. Reasons for evacuation may include:

- Fire.
- Bomb threat.
- A hostile or violent employee, visitor, or unknown person.
- Power outage.
- Earthquake.
- Water or gas leak.
- Hazardous spill.
- Robbery or hostage situation.

The Site Manager shall ensure that all employees and visitors, if applicable:

- DO NOT gather in lobbies.
- DO NOT open a door without first checking for heat.
- DO NOT touch any suspicious items or suspected bombs.
- DO NOT run or panic.
- DO NOT re-enter the building until authorized.
- DO assist disabled individuals or others who need assistance. Evacuate disabled individuals or others who need assistance ONLY under the direction of authorized emergency personnel or when there is an immediate threat to personal safety and security.

INCIDENT CONTAINMENT

The Site Manager, in coordination with the appropriate department directors or managers, shall determine and implement the appropriate activities and processes required to quickly contain and minimize the immediate impact to personal safety, the Grow Facility, and other affected parties. Containment activities shall be designed to:

- Minimize harm to individuals.
- Counteract the immediate threat.
• Prevent propagation or expansion of the incident.
• Minimize actual and potential damage.
• Restrict knowledge of the incident to authorized employees.
• Preserve information relevant to the incident.

The Site Manager, in coordination with the appropriate department directors or managers, shall determine and implement the appropriate activities and processes to quickly:
• Secure the environment.
• Restore the environment to its normalized state.

The Site Manager shall be actively engaged throughout the incident to assess the progress of all containment and corrective measures and determine at what point the incident can be considered resolved.

INCIDENT CONTAINMENT AND CORRECTIVE PROCEDURES

The Site Manager shall determine and implement the appropriate procedures required to quickly contain and minimize the immediate impact of an incident, as well as to quickly restore circumstances to a normalized, secure state. Containment and corrective measures shall be designed with the primary objectives of:
• Minimizing harm.
• Counteracting the immediate threat.
• Preventing propagation or expansion of the incident.
• Minimizing the actual and potential damage.
• Restricting knowledge of the incident to authorized employees.
• Preserving information relevant to the incident.
• Securing the environment.
• Restoring the environment to its normalized state.

POST-INCIDENT REVIEW, REPORT, AND FOLLOW UP

The Site Manager shall hold a Post-Incident Review after each incident has been resolved. The Post-Incident Review shall be scheduled within two (2) to three (3) weeks of the incident’s resolution and shall involve:
• Appropriate personnel, which may include affected parties.
• Examination of the incident and all related activities and events.
• Discussion on proposed changes to policy, processes, and safeguards.
All incident activities, from receipt of the initial report through post-incident review, shall be documented. The Site Manager shall ensure all events are recorded, assembling these records in preparation and performance of the post-incident review, and ensuring all records are preserved for review. The following shall be included, at a minimum, in the Post-Incident Report:

- A description of incident events with specific timelines.
- Employee(s) involved.
- Non-Employees involved.
- Impact to affected parties.
- Discussions, decisions, and assignments made.
- Successful and unsuccessful activities.
- Notifications required or recommended.
- Steps taken for containment and resolution.
- Recommendations for prevention and remediation (short-term and long-term).
- Identification of policy and procedure gaps.
- Results of post-incident review.
- Any necessary follow-up actions.

The Post-Incident Report shall be distributed to the Site Manager, the Grow Facility Manager, and all other relevant parties for review. The Site Manager shall ensure the appropriate employees are assigned to any follow-up actions. The Site Manager shall document the completion of all follow-up actions in the Post-Incident Report and distribute an updated copy.

SECURITY SYSTEM RECORDS

We shall keep all necessary books and records in order to render a full account of all operations conducted at the Grow Facility under our license for the year to date and the five (5) years prior. We shall keep books and records of the Grow Facility from the previous six (6) months (or the complete copies of such records) in the Grow Facility at all times. All marijuana related records shall be retained in the inventory management system. All surveillances recordings shall be retained, at a minimum for at least sixty (60) days, unless in instances of investigation or inspection by the Department, through its investigators, agents, auditors, or the state police, in which case the licensee shall retain the recordings until such time as the department notifies the licensee that the recordings may be destroyed. Our standard operating procedures shall detail the maintenance of records and measures for addressing and reporting any loss or unauthorized alteration of records. The Department, upon request, shall have full access to all Grow Facility records and surveillance recordings.

We shall keep and maintain security and surveillance system records and recordings in the Grow Facility and copies stored on a secure cloud storage. These records shall include, at a minimum, the following:

- The name of the surveillance equipment installation service provider and all equipment manufacturers.
- Copies of any service contracts.
• A map of the Grow Facility showing the location and operation of each surveillance system component, including the direction of camera coverage.

• A list of authorized users.

• Manufacturers’ instructions for operating and maintaining the equipment.

• Testing and maintenance logs.

• Reports of any incidents of unauthorized entry.

• Employee Access Control Logs.

• Visitor Registration Logs.

• Authorized Visitor Access Control Logs.

• Incident Logs and Post-Incident Reports.

• Reports of any interruption in monitoring and/or complete failure of the system, including the length of the interruption period.

• A log of the recordings, which includes:
  o The identities of the employee or employees responsible for monitoring the video surveillance system.
  o The identity of the employee who removed the recording from the video surveillance system.
  o The identity of the employee who destroyed any recording.

• Video surveillance recordings shall be:
  o In a digital format that ensures authentication of the recording as being legitimately captured without alterations.
  o Easily accessible and in a format that allows for viewing and copying.
  o Embedded with the date and time without significantly obscuring the picture.

We will maintain a log of all recordings, which will include a minimum:

• The identities of the employee or employees responsible for monitoring the video surveillance system.

• The identity of the employee who removed the recording from the video surveillance system storage device and the time and date removed.

• The identity of the employee who destroyed any recording.

Video surveillance recordings shall be stored on an NVR that is server-based with storage as required to meet recording rate and retention. This system shall be password-protected and separate from any other equipment in the Grow Facility. The files and video surveillance recordings shall be available for inspection, upon request, by authorized representatives of the Department and other government officials when necessary to perform their official duties.

After the expiration of the retention period, and before selling or closing the facility, the surveillance video recordings shall be erased, destroyed, or otherwise disposed. We shall not destroy any surveillance video recordings if we have knowledge or should have knowledge of any ongoing criminal, civil, administrative, or other official investigations or proceedings for which the recording may contain relevant information. Additionally, we shall not destroy any surveillance
video recordings in instances of investigation or inspection by the Department, through its investigators, agents, auditors, or the state police, in which case the recordings shall be retained until such time as the Department notifies us that the recordings may be destroyed.
Security and Surveillance Equipment Room Access List

This is the current list of individuals having access to our Security and Surveillance Equipment Storage Room. Only those on this list are essential to maintain security and surveillance operations. All others will be denied access to the Security and Surveillance Equipment Room.

This list is available to the Department or authorized agents immediately upon request.

WE ASSIGNED YOU AN EMPLOYER IDENTIFICATION NUMBER

Thank you for applying for an Employer Identification Number (EIN). We assigned you EIN 85-2192285. This EIN will identify you, your business accounts, tax returns, and documents, even if you have no employees. Please keep this notice in your permanent records.

When filing tax documents, payments, and related correspondence, it is very important that you use your EIN and complete name and address exactly as shown above. Any variation may cause a delay in processing, result in incorrect information in your account, or even cause you to be assigned more than one EIN. If the information is not correct as shown above, please make the correction using the attached tear-off stub and return it to us.

Based on the information received from you or your representative, you must file the following form(s) by the date(s) shown.

Form 941 01/31/2021
Form 940 01/31/2021

If you have questions about the form(s) or the due dates(s) shown, you can call us at the phone number or write to us at the address shown at the top of this notice.

If you need help in determining your annual accounting period (tax year), see Publication 588, Accounting Periods and Methods.

We assigned you a tax classification based on information obtained from you or your representative. It is not a legal determination of your tax classification and is not binding on the IRS. If you want a legal determination of your tax classification, you may request a private letter ruling from the IRS under the guidelines in Revenue Procedure 2004-1, 2004-1 I.R.B. 1 (or superseding Revenue Procedure for the year at issue). Note: Certain tax classification elections can be requested by filing Form 8832, Entity Classification Election. See Form 8832 and its instructions for additional information.
If you are required to deposit for employment taxes (Forms 941, 943, 940, 944, 945, CT-1, or 1042), excise taxes (Form 720), or income taxes (Form 1120), you will receive a Welcome Package shortly which includes instructions for making your deposits electronically through the Electronic Federal Tax Payment System (EFTPS). A Personal Identification Number (PIN) for EFTPS will also be sent to you under separate cover. Please activate the PIN once you receive it, even if you have requested the services of a tax professional or representative. For more information about EFTPS, refer to Publication 966, Electronic Choices to Pay All Your Federal Taxes. If you need to make a deposit immediately, you will need to make arrangements with your Financial Institution to complete a wire transfer.

The IRS is committed to helping all taxpayers comply with their tax filing obligations. If you need help completing your returns or meeting your tax obligations, Authorized e-file Providers, such as Reporting Agents (payroll service providers) are available to assist you. Visit the IRS Web site at www.irs.gov for a list of companies that offer IRS e-file for business products and services. The list provides addresses, telephone numbers, and links to their Web sites.

IMPORTANT REMINDERS:

* Keep a copy of this notice in your permanent records. This notice is issued only one time and IRS will not be able to generate a duplicate copy for you. You may give a copy of this document to anyone asking for proof of your EIN.

* Use this EIN and your name exactly as they appear at the top of this notice on all your federal tax forms.

* Refer to this EIN on your tax-related correspondence and documents.

* Provide future officers of your organization with a copy of this notice.

Your name control associated with this EIN is TVCO. You will need to provide this information, along with your EIN, if you file your returns electronically.

If you have questions about your EIN, you can contact us at the phone number or address listed at the top of this notice. If you write, please tear off the stub at the bottom of this notice and include it with your letter. Thank you for your cooperation.
OPERATING AGREEMENT
OF
TYCOON I OPERATIONS, LLC

THIS OPERATING AGREEMENT (this “Agreement”) is entered into and made effective as of July 22, 2020 (the “Effective Date”) by and between TYCOON I OPERATIONS, LLC, a Michigan limited liability company (the “Company”), and TYCOON HOLDINGS, LLC, a Michigan limited liability company and sole member of the Company (the “Member”).

Background

A. The Company was formed on July 22, 2020 as a Michigan limited liability company.

B. The undersigned desires to memorialize its rights and obligations with respect to the Company pursuant to the terms of this Agreement.

Agreement

In consideration of the foregoing background and for other good and valuable consideration, the receipt and sufficiency of which is hereby acknowledged, and intending to be legally bound hereby, the parties agree as follows:

ARTICLE I
DEFINITIONS

The following capitalized terms used in this Agreement shall have the following meanings (unless otherwise expressly provided herein):

“Act” means the Michigan Limited Liability Company Act, as amended.

“Business” means the principal business of the Company, which shall be to own and manage investments.

“Capital Contribution” means any contribution of cash or property to the Company, or any obligation to contribute cash or property to the Company, whenever made.

“Certificate” means the Articles of Organization as filed by the organizer of the Company with the Department of State of the State of Michigan, as amended.

“Interest” means the Member’s entire interest in the Company.
“Person” means any individual, trust, partnership, corporation, limited liability company or entity.

ARTICLE II
FORMATION OF COMPANY

2.1 Formation. The Company has been organized as a Michigan limited liability company by executing and delivering the Certificate in accordance with and pursuant to the Act.

2.2 Name. The name of the Company is Tycoon I Operations, LLC.

2.3 Registered Office. The address of the registered office of the Company shall be The CSC – Lawyers Incorporating Service, 601 Abbot Road, East Lansing, Michigan 48823, or at such other place as the Member may from time to time determine. The registered office of the Company may be changed from time to time by amending the Certificate in accordance with the Act. The Company may maintain such other offices, including, but not limited to, a principal place of business as the Member shall determine.

2.4 Purpose. The purposes of the Company shall be (a) to advance and grow the Business, (b) to engage in all other lawful business authorized pursuant to the Act, and (c) to make, enter into and perform any contracts and other undertakings, and to engage in any activities and transactions as may be ancillary to or necessary or advisable to carry out the foregoing purposes.

2.5 Term. The term of the Company shall be perpetual unless the Company is earlier dissolved in accordance with the provisions of this Agreement.

ARTICLE III
CAPITAL CONTRIBUTIONS; LOANS; DISTRIBUTIONS

3.1 Capital Contributions. The Company shall keep a record of all Capital Contributions made by the Member. The Member shall not be required to make any Capital Contribution to the Company not specifically agreed to in writing between the Member and the Company.

3.2 Loans. Any and all loans made to the Company by the Member shall not be considered Capital Contributions.

3.3 Distributions. Distributions shall be made to the Member (in cash or in kind) at such times and in such amounts determined by the Member and as permitted by applicable law.
ARTICLE IV

MEMBER

4.1 Member. The name and address of the Member is:

Tycoon Holdings, LLC
2055 Crooks Road, Suite B
Rochester Hills, MI48309

4.2 Management. The Company shall be initially managed by Heller Investment Holdings, LLC.

4.3 Right to Rely on Member. Any Person dealing with the Company may rely (without duty of further inquiry) upon a certificate signed by a designee of the Member as to: (a) the identity of the Member; (b) the existence or non-existence of any fact or facts which constitute a condition precedent to acts by the Member or which are in any manner germane to the affairs of the Company; (c) the Persons who are authorized to execute and deliver any instrument or document of the Company; or (d) any act or omission by the Company or any other matter whatsoever involving the Company or the Member.

4.4 Authority to Designate Officers. The Member may elect, appoint or designate, by resolution or otherwise, individuals as officers of the Company and delegate to such officers such powers, authority and responsibilities as are (i) set forth in the designation or delegation, and (ii) necessary to carry out and implement the management decisions of the Member. The Member may remove any officer, with or without cause, at any time. Any officer may resign at any time by giving written notice to the Company. Any resignation shall take effect as of the date of the Company’s receipt of such notice or at any later time specified in such notice (unless such officer is otherwise removed prior to such date); and unless otherwise specified in such notice, the acceptance of the resignation shall not be necessary to make it effective. Unless the Member decides otherwise, if the title to an officer of the Company is one commonly used for officers of a business corporation, the assignment of such title shall constitute the delegation to such individual of the authority and duties that are normally associated with that office. The current officers of the Company are as set forth on Schedule A attached hereto, as may be amended from time to time.

4.5 Liability of Member and Officers. Neither the Member nor any officer, agent or representative of the Member, or officer of the Company, shall be liable to the Company or to the Members, as applicable, for (i) the performance of, or the failure to perform, any act or duty on behalf of the Company if, in good faith, the Members or officer determined that such conduct was in the best interests of the Company and such conduct did not constitute fraud, gross negligence or reckless or intentional misconduct, (ii) the termination of the Company and this Agreement pursuant to the terms hereof, and (iii) the performance of, or the failure to perform, any act on behalf of the Company in good faith reliance on advice of legal counsel, accountants or other professional advisors to the Company.
4.6 Indemnification. The Company shall indemnify, defend and hold the Member and the officers, agents and representatives of the Member, and each officer of the Company and, in the discretion of the Member, each employee of the Company, harmless from and against any expense, loss, damage or liability incurred or connected with, or any claim, suit, demand, loss, judgment, liability, cost or expense (including reasonable attorneys’ fees) arising from or related to, the Company or any act or omission of such Member (or officer, agent or representative of the Member) or officer (or employee) and amounts paid in settlement of any of the foregoing, to the fullest extent provided or allowed by the laws of the State of Michigan. The Company may advance to any such Person the costs of defending any claim, suit or action against such Person.

4.7 Title to Company Property. All real and personal property shall be acquired in the name of the Company and title to any property so acquired shall vest in the Company itself rather than in the Member.

ARTICLE V
ACCOUNTING AND TAX MATTERS

5.1 Accounting Principles. The Company’s financial statements shall be prepared and its profits and losses shall be determined in accordance with methods of accounting selected by the Member, which need not be the same as the method of accounting used for tax purposes.

5.2 Returns and Other Elections. The Member shall cause the preparation and timely filing of all tax returns required to be filed by the Company pursuant to the Code and all other tax returns deemed necessary and required in each jurisdiction in which the Company does business. All elections permitted to be made by the Company under federal or state laws shall be made by the Member in its sole discretion. So long as the Company has only one member, the Company shall be treated as a disregarded entity for income tax purposes.

ARTICLE VI
TRANSFERS: ADDITIONAL MEMBERS

6.1 Transferability of Membership Interest. The Member’s Interest in the Company is freely transferable or assignable, in whole or in part, either voluntarily or by operation of law.

6.2 Admission of Additional Members. Additional members of the Company may be admitted to the Company at the direction of the Member only if a new operating agreement or an amendment and restatement of this Agreement is executed by such additional member or members.
ARTICLE VII
DISSOLUTION AND LIQUIDATION

7.1 Dissolution.

(a) The Company shall be dissolved and its affairs wound up and terminated only upon the determination of the Member. The dissolution or bankruptcy of the Member or the occurrence of any other event that terminates the continued membership of the Member shall not cause a dissolution of the Company.

(b) Dissolution of the Company shall be effective on the day on which an event described in Section 7.1(a) above occurs, but the Company shall not terminate until articles of dissolution shall be filed with the Department of State of the State of Michigan and the assets of the Company are distributed as provided in Section 7.2 below. Notwithstanding the dissolution of the Company, prior to the termination of the Company, the business of the Company and the affairs of the Member shall continue to be governed by this Agreement.

7.2 Winding Up. Upon dissolution, the Company shall continue until the winding up of the affairs of the Company is completed and a certificate of dissolution has been filed pursuant to the Act. Upon the winding up of the Company, the Company’s property shall be distributed (a) first to creditors, including the Member if the Member is a creditor, to the extent permitted by law, in satisfaction of the Company’s liabilities, and (b) then to the Member. Distributions shall be in cash or property or partly in both, as determined by the Member.

ARTICLE VIII
MISCELLANEOUS PROVISIONS

8.1 Notices. Any notice, demand or communication required or permitted to be given by any provision of this Agreement shall be in writing and shall be deemed to have been delivered (a) two business days after being sent by registered or certified United States mail, or (b) upon delivery if hand delivered, sent via facsimile transmission or electronic mail. If delivered to the Member, such notice shall be delivered to his address as it appears in Section 4.1 above. If to the Company, such notice shall be delivered to its principal place of business.

8.2 Governing Law. This Agreement, and the application and interpretation hereof, shall be subject to and governed exclusively by its terms and by the laws of the State of Michigan, without regard to its conflicts of laws provisions.

8.3 Construction. Whenever the singular number is used in this Agreement and when required by the context, the same shall include the plural and vice versa, and the masculine gender shall include the feminine and neuter genders and vice versa. Unless expressly stated otherwise, Section and Article references herein shall refer to the Sections and Articles of this Agreement.

8.4 Waivers. No waiver by any party of the breach of any provision hereof shall be deemed to constitute a waiver of any continuing or subsequent breach of such provision or any other provision hereof.
8.5 **Severability.** If any provision of this Agreement or the application thereof to any Person or circumstance shall be invalid, illegal or unenforceable to any extent, the remainder of this Agreement and the application thereof shall not be affected and shall be enforceable to the fullest extent permitted by law, provided that the essential purpose of this Agreement is not frustrated.

8.6 **Heirs, Successors and Assigns.** The covenants, terms, provisions and agreements herein contained shall be binding upon, and inure to the benefit of, the parties hereto and, except as otherwise provided to the contrary, their respective heirs, executors, administrators, legal representatives, successors and permitted assigns.

8.7 **Entire Agreement.** This Agreement embodies the entire agreement and understanding between the parties hereto with respect to the subject matter hereof and supersedes all prior agreements and understandings relating to such subject matter.

[SIGNATURES APPEAR ON FOLLOWING PAGE]
IN WITNESS WHEREOF, the parties hereto have caused this Agreement to be signed as of the Effective Date.

</tbody>
</table>

We pay our cultivation facility employees a minimum hourly wage of $15. We also provide a generous benefit package that includes the following:

- Health Insurance
- Paid Holidays
- Paid Time Off
- 401K Plan with 2% Match
- Performance Incentives

Out of our 3.75MM expected annual payroll, Tycoon I Operations expects to allocate $630,000 toward benefits for all full-time employees!

We intend to source our employees first from Orion Township, then into the surrounding regional area. Our job listings will always be listed in the Orion Township area first to accumulate as many qualified candidates as possible.

Attached is a table of the proposed positions at our Orion Cultivation Facility:

<table>

TO: The Charter Township of Orion Planning Commission
FROM: Tammy Girling, Planning & Zoning Director
DATE: January 12, 2021
RE: PC-2021-__, Tycoon I, LLC, Ordinance 154 Applications

As requested, I am providing suggested motions for the abovementioned projects. Please feel free to modify the language. The verbiage below could substantially change based upon the Planning Commissions findings of facts for the project. Any additional findings of facts should be added to the motion below.

PLEASE NOTE: THIS SUGGESTED MOTION CAN BE USED FOR THE MEDICAL CLASS “C” GROWING FACILITIES FOR PC-2021-10 THROUGH PC-2021-17 AND PC-2021-32 THROUGH 35. EACH CASE REQUIRES A SEPARATE MOTION.

Ordinance #154 – Medical Class “C” Growing Facilities

I move to grant/not grant approval of the application, as required per Ord. #154, for PC-2021-__, Tycoon I, LLC, for a Medical Class “C” growing facility, located at 180 Premier Dr., (parcel 09-35-477-001 & 09-35-477-002) based on the finds of fact that the operation does/does not meet the following location requirements:
• Is located in and IP zoning district
• Is located in a building that meets all the distance requirements shown in Ord. 154
• Is located in a building that has an ingress/egress road with less than 6,000 vehicles/day.
• Is located in a building that has an ingress/egress road that does not service as a road that also serves for residential zoning.

If motion is grant approval - conditioned upon:

1. The applicant meets all applicable Township Ordinances and promulgated standards of the Township and, prior to opening, shall demonstrate to the Township that it meets the rules and regulations promulgated by the State Medical Marihuana Licensing Board.

PLEASE NOTE: THIS SUGGESTED MOTION CAN BE USED FOR THE EXCESS GROW FACILITIES FOR PC-2021-18 THROUGH PC-2021-26. EACH CASE REQUIRES A SEPARATE MOTION.

Ordinance #154 – Excess Grow Facilities

I move to grant/not grant approval of the application, as required per Ord. #154, for PC-2021-___, Tycoon I, LLC, for an Excess Grow facility, located at 180 Premier Dr., (parcel 09-35-477-001 & 09-35-477-002) based on the finds of fact that the operation does/does not meet the following location requirements:
Is located in and IP zoning district
Is located in a building that meets all the distance requirements shown in Ord. 154
Is located in a building that has an ingress/egress road with less than 6,000 vehicles/day.
Is located in a building that has an ingress/egress road that does not service as a road that also serves for residential zoning.

If motion is grant approval - conditioned upon:

1. The applicant meets all applicable Township Ordinances and promulgated standards of the Township and, prior to opening, shall demonstrate to the Township that it meets the rules and regulations promulgated by the State Medical Marihuana Licensing Board.

PLEASE NOTE: THIS SUGGESTED MOTION CAN BE USED FOR THE ADULT-USE CLASS “C” GROW FACILITIES FOR PC-2021-27 THROUGH PC-2021-31. EACH CASE REQUIRES A SEPARATE MOTION.

Ordinance #154 – Adult-Use Class “C” Grow Facility

I move to grant/not grant approval of the application, as required per Ord. #154, for PC-2021-__, Tycoon I, LLC, for an Adult-Use Class “C” Grow facility, located at 180 Premier Dr., (parcel 09-35-477-001 & 09-35-477-002) based on the finds of fact that the operation does/does not meet the following location requirements:

- Is located in and IP zoning district
- Is located in a building that meets all the distance requirements shown in Ord. 154
- Is located in a building that has an ingress/egress road with less than 6,000 vehicles/day.
- Is located in a building that has an ingress/egress road that does not service as a road that also serves for residential zoning.

If motion is grant approval - conditioned upon:

1. The applicant meets all applicable Township Ordinances and promulgated standards of the Township and, prior to opening, shall demonstrate to the Township that it meets the rules and regulations promulgated by the State Medical Marihuana Licensing Board.
CHARTER TOWNSHIP OF ORION
ORDINANCE No. 154 APPLICATION REVIEW

Planning Commission Case:   PC-2021-27
Parcel Number:  09-35-477-001 & 09-35-477-002
Property Address:  180 Premier Drive
Applicant:  Tycoon I Operations LLC
Request: Class C Grow – Adult Use
Date: February 12, 2021

The aforementioned application was reviewed for compliance with the location requirements of Article VI of Ordinance No. 154 and the finds are detailed below:

Article V, 1. – The Facility must be located in the Township’s IP (Industrial Park) district: The parcels are zoned IP (Industrial Park) as required.

Article V, 2 – The Facility cannot be within one thousand five hundred (1,500) feet of a “church” in the Township: Article VI, 7 states that the distances specified in the Ordinance shall be measured from building edge to building edge. The applicant stated within their application that the facility is more than the required 1,500 feet. Using GIS, a measurement was taken from the edge of the property where the building is located (for simplicity vs. from edge of building which is further) to the edge of the closest church and it was over 1,600 feet.

Article VI, 3 – The Facility cannot be within two thousand (2,000) feet of a residence located in a R-1, R-2, R-3, SF, SE, SR, RM or MHP zoning district: Article VI, 7 states that the distances specified in the Ordinance shall be measured from building edge to building edge. The applicant stated within their application that the facility is more than the required 2,000 feet. Using GIS, a measurement was taken from the edge of the property where the building is located (for simplicity vs. from edge of building which is further) to the edge of the closest residential property line (for simplicity) and it was 2,500 feet.

Article VI, 4 – The Facility cannot be within two thousand five hundred (2,500) feet of a registered “school” within the Township: Article VI, 7 states that the distances specified in the Ordinance shall be measured from building edge to building edge. The applicant stated within their application that the facility is more than the required 2,500 feet. The closest school is over 2 miles from the parcel. (Scripps and Stadium Rds.)
Article VI, 5 – The Facility shall not have an ingress or egress on a street or road that has an average traffic volume in excess of six thousand (6,000) vehicles per day, as calculated by averaging the three (3) most recent Average Annual Daily Traffic (AADT) counts (as available), as reported by Southeast Michigan Council of Governments (SEMCOG): The building has ingress and egress off of Premier Drive. SEMCOG’s website does not contain any traffic count reports for Premier Dr.

Article VI, 6- The Facility shall not have an ingress or egress on a street or road that directly also serves as an ingress or egress to a residential road or property located in a R-1, R-2, R-3, SF, SE, SR, RM or MHP zoning district. The building has both ingress or egress off of Premier Dr. Premier Dr. does not serve as an ingress and/or egress to any property located in a R-1, R-2, R-3, SF, SE, SR, RM or MHP zoning district.

Article VI, 7 - Distances specified in this Ordinance shall be measured from building edge to building edge. The measurements, unless noted differently, were measured from building edge to proposed building edge.

Article VI, 8 – If the Facility shall need a variance from what is set forth in Article VI Sections one (1) through six (6) above, the Applicant may submit a formal request for a variance to the Zoning Board of Appeals (“ZBA”). The ZBA shall only consider a variance request that is no more than fifteen percent (15%) out of compliance with the above location regulations: The applicant is not requesting any variances from the ZBA.

Article VI, 9 – It is the Township’s intention that Growers, Processors, Safety Compliance Facilities and Secured Transporters may operate within the same building under the following conditions: each licensed entity remains distinct and separate within different working area and separate record keeping systems: The applicant is requesting a Class C Grow – Adult Use only.

Article VI, 10 – The location shall meet all applicable Ordinances and promulgated standards of the Township and, prior to opening, shall demonstrate to the Township that it meets the rules and regulations promulgated by the State Mariujana Regulatory Agency (MRA):

ITEMS TO BE ADDRESSED: These items are unknown at this time. It is recommended that any approval be conditioned upon this requirement.

Article VI, 11 – The Facility location shall conform to all standards of the zoning district in which it is located: This condition has been met. The building itself has received site plan approval.
Article VI, 12 – If the Facility location is currently vacant land, the applicant must submit a site plan and building plans with the Application: The application is for an improved parcel that has received site plan approval.

Article VI, 14 – Based upon an application for or amendment of a Conditional Rezoning, PUD, or other use Development Agreement of sufficient specificity, it is within the sole discretion and judgment of the Township Board of Trustees to consider and waive any or all of the Location Requirements of this Article VI based upon any or all of 3 factors listed in Article VI 14 a,b, and c.: The applicant is not requesting any waivers.

Summary: I have reviewed the application as it relates to Ordinance No. 154 Article VI – Location Requirements. I am agreeable with the recommendation to approve this application with the conditions that:

1. The applicant meets all other applicable Township Ordinances and promulgated standards of the Township and, prior to opening, shall demonstrate to the Township that it meets the rules and regulations promulgated by the State Mariujana Regulatory Agency (MRA).

Re: Marihuana Facility Permit Application; Tycoon I Operations, LLC  
180 Premier Drive, Orion Charter Township, MI 48359  
Adult-Use Class C Grow 1 of 5  

Dear Madam Clerk:  

Please find attached a Marihuana Facility Permit Application and all exhibits for five Adult Use Class C Grow permits to operate at 180 Premier Drive, Orion Charter Township, MI 48359. This application represents one of five of the Adult Use Class C grow permits.  

If the Township believes any additional information or materials are required for this filing, please do not hesitate to contact us. Kindly direct all communications regarding this application to Aaron Fogleman either by phone at 248.920.8770 or by email at licensing@gloriouscanna.com.  

We look forward to contributing significantly to the Township through economic development, training and employment, education and outreach, and to becoming a valuable community partner.  

Thank you for your consideration.
ORION ORDINANCE 154 INITIAL PERMIT APPLICATION
Ordinance 154, Licensed Marihuana Facilities Ordinance

Pursuant to the Charter Township of Orion Ordinance 154, Licensed Marihuana Facilities Ordinance, the following application is intended to collect information and documentation establishing the applicant’s conformance with the ordinance. All applicants should note that the approval of a Marihuana Permit will be based upon the accuracy and completeness of the information provided. In the event applications are received in excess of the permitted number of locations within the Ordinance or two or more applicants have similar qualifications, the Charter Township of Orion reserves its right to approve a permit which in the opinion of the Township best meets its goals and safeguards as set forth in the Ordinance. No financial or other right is established by the payment of the non-refundable application fee. All applications for renewal of a permit shall be reviewed per the standards set forth in the Ordinance. The Charter Township of Orion reserves the right to approve or deny the permit based upon the failure of any applicant to establish to the satisfaction of the Township any requirement, standard or goal of the Ordinance. The applicant understands this determination may involve a subjective interpretation of the application. Any permit granted by the Township is contingent upon the State of Michigan granting a state license for the specific license applied for under this ordinance.

SECTION A- APPLICANT

1. Name of Applicant: Tycoon I Operations, LLC

5. If the Applicant or owner or any operator is a licensed caregiver under the Michigan Medical Marihuana Act, please list their name and address, and caregiver ID number issued by the State of Michigan. N/A

6. For any corporation or other legal entity who has a financial interest or affiliation with the requested permit, please state the following:

Name: Please see Organization Structure in Exhibit 1
Name of Authorized Signer: ____________________________
Address: ____________________________
Interest or Affiliation: ____________________________

**SECTION B- FACILITY LOCATION**

7. Name of proposed facility: Oakland Business Park, Building B

8. Location of proposed facility: 160 Premier Drive

Orion Charter Township, MI 48359
9. Please provide a preliminary floor plan sketch showing the location of all facility operations within an existing building, or for new construction a site plan for the parcel. Attach as Exhibit “A”
   ☒ Document(s) attached. If not attached, why not and when is applicant expected to supplement: ____________________________

10. With respect to the location of the facility, please state with specificity the exact location, address, suite number and, if necessary, the location of the facility within a building or the parcel of land. This location should include the distance in feet from each property line. Attach as Exhibit “B”
   ☒ Document(s) attached.
   If not attached, why not and when is applicant expected to supplement: _______________

11. Please provide evidence of the Applicant’s property interest in the proposed location. Provide copies of documentation showing a legal and enforceable property interest. Attach as Exhibit “C”.
   ☒ Document(s) attached.
   If not attached, why not and when is applicant expected to supplement: _______________

12. Please confirm and establish that the facility is located within the Township’s Industrial Park district (“IP”); is not within 1,500 feet of a church; is not within 2,000 feet of a residence located in the R-1, R-2, R-3, SF, SE, SR, RM or MHP Zoning Districts; is not within 2500 feet of a registered school and does not have ingress or egress on a street or road that has an average traffic volume in excess of 6,000 vehicles per day as calculated and reported by Southeast Michigan Counsel of Governments. Further, please show that the facility does not have an ingress or egress on a street or road that serves as an ingress or egress to a residential road or property located in a R-1, R-2, R-3, SF, SE, SR, RM or MHP Zoning District. For each of the above criteria, please attach any and all documents which will permit the Township to calculate compliance with the Licensed Marihuana Facilities Ordinance No. 154. At a minimum, provide a map showing the facility and measured distances (building edge to building edge). Attach as Exhibit “D”.
   ☒ Documents attached.
   If not attached, why not and when is applicant expected to supplement: _______________

 a) Is the Facility located in the Township’s IP (Industrial Park District) zoning district?

   ☒ Yes ☐ No
b) Is the Facility more than one thousand five hundred (1,500) feet of any church in the Township?

☐ Yes  ☐ No

c) Is the Facility more than two thousand (2,000) feet of any residence located in an R-1, R-2, R-3, SF, SE, SR, RM, or MHP zoning district?

☐ Yes  ☐ No

d) Is the Facility more than two thousand five hundred (2,500) feet of any registered school within the Township.

☐ Yes  ☐ No

For 10-12 above, please provide a map showing the facility and measured distances (building edge to building edge.)

e) Does the facility have an ingress or egress on a street or road that has an average traffic volume of six thousand (6,000) or less vehicles per day, as calculated by averaging the three (3) most recent Average Annual Daily Traffic (AADT) counts (as available), as reported on the Southeast Michigan Council of Governments (SEMCOG) per the site semcog.org/Traffic-Counts?

☐ Yes  ☐ No

f) Does the Facility have an ingress or egress on a street or road that does not also serve as an ingress or egress to a residential road or property located in a TR-1, R-2, R-3, SF, SE, SR, RM, or MHP zoning district?

☐ Yes  ☐ No

Name of Facility ingress/egress Street or road: Premier Drive

13. Please state whether the Applicant will seek a variance from the Zoning Board of Appeals pursuant to Article 6(8) of the Orion Licensed Marihuana Facilities Ordinance No. 154.

☐ Yes  ☒ No

If variance will be sought, specify location category(s) pursuant to Art 6 (1)- (6):
For each category variance sought, state the percentage the applicant will seek: _______%
(Not to exceed 15%)

**SECTION C- FACILITY REQUIREMENTS**

14. When available, submit to the Township a copy of the Applicant’s application for a
license submitted to the State of Michigan, Department of Licensing and Regulatory
Affairs, for each facility permit requested.
Attach as Exhibit “E”.
☐ Document(s) attached.

If not attached, why not and when is applicant expected to supplement: ____________________
Phase 2 application with the state of Michigan requires a permit and signed attestation from the municipality.
we expect to submit our application with the state by 03/01/2021.

15. Is consumption and/or use of marihuana prohibited at the Facility?

☐ □ Yes          □ No

16. Will all activity related to the Facility be done indoors?

☐ □ Yes          □ No

17. Will all Marihuana contained within the building be in a locked Facility in accordance
with the Michigan Medical Marihuana Act, MCL 333.26421 et seq., as amended
(“MMMA”), the Michigan Medical Marihuana Facilities Licensing Act, MCL
333.27101, et seq., and the Michigan Regulation and Taxation of Marihuana Act, MCL
333.27951, et seq., as amended (“MRTMA”) as amended?

☐ □ Yes          □ No

18. Please set forth an operations statement, plan and or outline showing that all facility
activities shall occur indoors and in a building which is locked.
Attach as Exhibit “F”
☐ Document(s) attached.

If not attached, why not and when is applicant expected to supplement: ____________________

19. Will all necessary building, electrical, plumbing and mechanical permits obtained for any
portion of the structure in which electrical wiring, lighting and/or watering devices are
located?

☐ Yes          □ No
20. When available and prior to the issuance of any permit, the Applicant must submit all necessary building, electrical, plumbing and mechanical permits, as well as documented approval by the Orion Fire department showing compliance with the Michigan Fire Protection Code and confirmation that the storage of any chemical, herbicide, pesticide and or fertilizer has also been approved by the Orion Fire Department. 
Attach as Exhibit “G”.
☑ Document(s) attached.
If not attached, why not and when is applicant expected to supplement: __________________________

21. In any portion of the structure where the storage of any chemicals such as herbicides, pesticides, and/or fertilizers, do you agree to be subject to inspection and approval by the Orion Fire Department to ensure compliance with the Michigan Fire protection Code?

☑ Yes ☐ No

22. Will you ensure that no other uses, other than accessory uses, will be permitted within the same Facility other than those associated with cultivating, processing, transporting or testing marihuana?

☑ Yes ☐ No

23. Please state and/or provide documentation showing the plan that all litter and waste will be properly and safely removed and will not constitute a source of contamination in areas where marihuana is exposed. Further, please include how the applicant will dispose of rubbish so as to minimize the development of odor and minimize the potential for development of waste odor and waste from becoming an attracted, harborage or breeding place for pests. Please include a detailed description of the ventilation system. Attach as Exhibit “H.”

☑ Document(s) attached.
If not attached, why not and when is applicant expected to supplement: __________________________

a) Will litter and waste be properly removed and the operating systems for waste disposal maintained in an adequate manner so that they do not constitute a source of contamination in areas where marihuana is exposed?

☒ Yes ☐ No

b) Will floors, walls and ceilings be constructed in such a manner that they may be adequately cleaned and kept clean and in good repair?

☒ Yes ☐ No

6
1836
c) Will there be adequate screening or other protection against entry of pests, and will rubbish be disposed of so as to minimize the development of odor, minimize the potential for development of waste odor, and minimize the potential for waste becoming an attractant harborage or breeding places for pests?

X Yes □ No

d) Will all buildings, fixtures and other facilities be maintained in a sanitary condition?

X Yes □ No

e) Will each Facility center provide its occupants with adequate and readily accessible toilet facilities that will be/are maintained in a sanitary condition and in good repair?

X Yes □ No

24. Please state how the Applicant intends to avoid excessive noise, dust, vibrations, glare, fumes or odors detectable to the normal senses beyond the boundaries of the property. Attach as Exhibit “I”.

☑ Document(s) attached.
If not attached, why not and when is applicant expected to supplement: _____________________________ _____________________________

a) Will each Facility be operated in a manner that does not create excessive noise, dust, vibrations, glare, fumes or odors detectable to the normal senses beyond the boundaries of the property on which that Marihuana Facility will operate/operates or in violation of any other ordinance?

☑ Yes □ No

25. Please provide the plan and supporting documentation showing that all disposal systems for spent water and spent soil have been adequately and safely disposed of and accounted for.
Attach as Exhibit “J”.
☑ Document(s) attached.
If not attached, why not and when is applicant expected to supplement: _____________________________

26. Please provide a security and safety plan, and at a minimum showing the facilities surveillance systems and continuous monitoring systems of the entire premise as required by the ordinance.
Attach as Exhibit “K”.
☑ Document(s) attached.
If not attached, why not and when is applicant expected to supplement: _____________________________
a) Will the Facility continuously monitor the entire premises with surveillance systems that include security cameras operating 24 hours a day, 7 days a week, every day of the year, and will these recordings be maintained for a period of at least 30 days?

☐ Yes  ☐ No

27. Please state and/or show the exterior signage or advertising identifying the facility. Attach as Exhibit “L”.
☐ Document(s) attached.
If not attached, why not and when is applicant expected to supplement: ___________________________
The facility will only show the numbers associated with its address ___________________________

a) Do you understand and agree that any exterior signage or advertising identifying the Facility as a marihuana facility is prohibited?

☐ Yes  ☐ No

SECTION D- BUSINESS OPERATIONS AND SECURITY

28. Active business operations shall not be open outside of the hours of 7am and 9pm.

2. I affirm that I
   
   a. That I am at least 21 years of age.
   
   b. Have never been indicted or charged with or arrested for, convicted of, plead guilty, or nolo contendere to a felony or to a controlled substance related misdemeanor.

3. I have not previously had a business license permit or registration denied or revoked or suspended by Orion Township.

Dated: 02/09/2021

Print name: Daryl Heller
A. & B. Facility Floor Plan
C. Lease Agreement
COMMERCIAL LEASE

This lease (the Lease), is entered into on November 1, 2020, between Premier Drive Tycoon I, LLC, with an address at 1615 S Telegraph Rd, Bloomfield Hills, MI (Landlord), and Tycoon I Operations, LLC (Tenant) on the terms and conditions listed below.

1. Description of the Premises. Landlord owns the real property, improvements and any and all structures thereon located at 180 Premier Drive, Orion Township, MI 48359 ("Premises"), consisting of approx. 72,000 square feet. Tenant shall have the right to use the Premises to conduct its daily business operations and for any ancillary or related purposes including the operation of a marijuana business.

2. Basic Lease provisions. The basic Lease provisions are stated below and further explained in the section referenced to the right of each provision:

(a) Term: 10 years (See §3)
(b) Commencement Date: February 1, 2021 (See §3)
(c) Termination date: October 31, 2030 (See §3)
(d) Options: 1 option to renew for additional 10 years (See §3)
(e) Monthly installment amount: $75,000 or $12.50; per square foot; (See §4)
(f) Security deposit: $75,000.00 (See §5)
(g) Use: Tenant's desired business operation (See §10)

3. Term. This Lease shall be for a term stated in section 2(a) commencing on the date stated in section 2(b) (the Commencement Date) and terminating on the date stated in section 2(c). The rent for the first month shall be prorated from date of occupancy, if the date of occupancy is after the first day of the month. Each succeeding lease year shall begin on the anniversary of the same date and continue until the termination of the Lease.

Provided that Tenant is not in default under this Lease at the end of the then current Lease term, Tenant shall have the right to renew the term of this Lease for the option period stated in section 2(d) by giving Landlord written notice of Tenant's intent to renew the Lease at least 120 days before the expiration of the then current term. The renewal shall be on the same terms and conditions as in this Lease, except that the minimum rent for each renewal term shall be increased by a percentage equal to the percentage increase in the Consumers Price Index (Bureau of Labor Statistics Washington, D.C., all Cities) (CPI) during the preceding term. The percentage increase shall be determined by comparing the latest available CPI before the Commencement Date of the Lease or the prior term, whichever shall apply, and the latest available CPI on or before the expiration of the immediately preceding initial or renewal lease term. The word “term” as used in this Lease shall include any renewal term.

4. Minimum rent. Tenant shall pay to Landlord as rent the sum stated in section 2(e), payable in monthly installments due in advance, on the first day of each month during the term of this Lease. All rent shall be paid to Landlord at the address set forth above or at such other address as Landlord may designate in writing, without any prior demand and without any deduction or offset.

If Tenant shall fail to pay any amount due from it to Landlord under this Lease when that amount shall be due, a one-time late charge of $50.00 shall be assessed and thereafter the amount of rent not paid shall be subject to a service charge until that amount is paid at the lesser of the rate of 5% per month or the highest rate permitted by law.
5. Security deposit. Tenant, contemporaneously with the execution of this Lease, has deposited with Landlord the sum stated in section 2(f) as a security deposit. The deposit shall be held by Landlord, without liability for interest, as security for the faithful performance by Tenant of all the terms, covenants, and conditions of this Lease to be kept and performed by Tenant during the term of this Lease.

If Tenant fails to keep and perform any of its covenants of this Lease, Landlord at its option may appropriate and apply the entire deposit, or so much as may be necessary, to compensate Landlord for loss or damage sustained by Landlord due to Tenant’s breach. If the entire deposit or any portion is appropriated and applied by Landlord for the payment of overdue rent or other sums due and payable to Landlord by Tenant, Tenant shall, on the written demand of Landlord, forthwith remit to Landlord a sufficient amount in cash to restore the security to the original sum deposited. Tenant’s failure to do so within 5 days after receipt of demand shall constitute a breach of this Lease.

6. Taxes. Tenant shall pay or cause to be paid all real property taxes and special assessments levied against the Building including the Premises. Tenant shall pay all personal property taxes assessed against any personal property owned by Tenant on the Premises.

7. Maintenance and repair. Tenant shall maintain and repair and keep the Premises in good condition and repair, including the exterior windows and the electrical system. Landlord shall, at tenants expense, make all other repairs and replacements to the Building, including those of a structural or capital nature. Landlord shall, at tenants expense, enter into an annual maintenance contract with a licensed heating and mechanical firm for the maintenance of the heating and air conditioning equipment during the term. Landlord shall be obligated to make repairs only after Tenant has given Landlord written notice of the need for the repair, and only if the repair was not caused by the negligence or willful act of Tenant, its agents, employees, invitees, or licensees.

Tenant shall provide and pay for its own regular janitorial service to maintain the Premises in a neat and clean condition. Tenant shall be responsible for all repairs or replacements to the Building occasioned by the negligence or willful act of Tenant, its agents, employees, invitees, or licensees.

8. Utilities. Tenant shall have all utilities servicing the Premises metered in its own name and shall pay all charges and deposits for the utilities provided to or used in the Premises during the term of this Lease. Tenant shall also pay 100% of the water and sewer bill. Landlord shall not be liable in damages should the furnishing of any utilities be interrupted by fire or other casualty, accident, strike, labor dispute or disagreement, the making of any necessary repairs or improvements, or any other causes beyond the reasonable control of Landlord.

9. Liability insurance. Tenant shall indemnify Landlord and save Landlord harmless from any liability or claim for damages that may be asserted against Landlord by reason of any accident or casualty occurring on or about the Premises. Tenant shall, at its own cost and expense, obtain and keep in force a policy or policies of public liability insurance with an insurance company approved by Landlord, with liability coverage of an amount as recommended by Landlord’s insurance agent that, for the initial coverage, shall be not less than $1 million for injury or death to any one person, $3 million for injury or death to more than one person, and $500,000 regarding damage to property. Tenant shall furnish Landlord with certificates or other evidence acceptable to Landlord indicating that the insurance is in effect and providing that Landlord shall be notified in writing at least 30 days before cancellation of any material change in or renewal of the policy. All insurance policies shall name Landlord and any persons designated by Landlord as insured parties.

Any insurance maintained by either party pursuant to this section or under this Lease shall contain a
clause or endorsement under which the insurer waives all rights of subrogation against the other party, its
agents or employees, regarding losses payable under the policy.

Any personal property kept on the Premises by Tenant shall be at Tenant’s sole risk.

10. Use. Tenant shall use and occupy the Premises for the purpose stated in section 2(g) and for no other
purpose without the prior written consent of Landlord. Tenant shall not intentionally and knowingly use
the Premises for any purpose or in any manner in violation of any State law, local ordinance, rule or
regulation adopted or imposed by the City in which the Premises is situated. Tenant shall not deface or
injure the Premises or the Building, permit anything to be done on the Premises tending to create a
nuisance or to disturb other tenants in the Building, or permit any activity in the Premises that will result
in an increase of any premium, or cancellation of a policy, for insurance on the Premises or the Building.

11. Construction of leasehold improvements. Landlord grants Tenant express consent to construct
certain leasehold improvements as may be required for Tenant’s use. The cost of Tenant’s leasehold
improvements shall be paid for by Tenant. The improvements shall be constructed in a good and
workmanlike manner.

12. Operations. Tenant’s operations in conjunction with the Premises shall meet the requirements set
forth below.

a. Tenant shall keep all garbage and refuse in the kind of container specified by Landlord. If Landlord
shall provide or designate a service for picking up refuse and garbage, Tenant shall use the same at
Tenant’s cost. Tenant shall pay the cost of removal of any of Tenant’s refuse or rubbish.

b. Tenant shall keep the Premises at a temperature sufficiently high to prevent freezing of water in any
pipes and fixtures.

c. Tenant shall keep the outside areas immediately adjoining the Premises clean and free from dirt and
rubbish to the satisfaction of Landlord, and Tenant shall not place or permit any obstructions or
merchandise in those areas. Tenant shall water and maintain any flowers, shrubs, and trees located
immediately adjoining the Premises.

d. Tenant shall only store and/or stock in the Premises goods, wares, and merchandise that Tenant intends
to offer for sale at retail.

e. Tenant shall conduct its business in the Premises in a dignified manner and in accordance with high
standards of store operation.

13. Restrictions on Tenant’s activities. Without Landlord’s written consent, Tenant shall not engage in
the activities listed below.

a. Tenant shall not operate all or any part of its business in the Premises in any manner that is inconsistent
with its intended use of the Premises.

b. Tenant shall not conduct any auction, fire, going-out-of-business, or bankruptcy sales in the Premises.

c. Tenant shall not operate or permit to be operated on the Premises any coin or token operated vending
machines or similar devices for the sale of goods, wares, merchandise, food, beverages, or service,
including, without limitation, pay telephones, pay lockers, scale, and amusement devices without Landlord’s prior written consent.

d. Tenant and Tenant’s employees and agents shall not solicit business in the parking or other common areas of the Building, nor shall Tenant or its employees or agents distribute any handbills or other advertising matter in or on automobiles parked in the parking area or in other common areas without Landlord’s prior written consent.

e. Tenant and its employees and agents shall not park any vehicle on the Building land except in areas that are designated by Landlord for that use.

14. Assignment and subletting. Tenant agrees not to sell, assign, mortgage, pledge, or in any manner transfer this Lease or sublet the Premises or any portion of the Premises without the prior written consent of Landlord. Notwithstanding any assignment or subletting, Tenant shall remain fully liable on this Lease. Landlord’s right to assign this Lease is and shall remain unqualified. On any transfer of Landlord’s interest in the Premises in which the purchaser assumes all obligations under this Lease, Landlord shall be free of all obligations of Landlord under this Lease and shall not be subject to any liability resulting from any act or omission or event occurring after the conveyance. Tenant agrees to recognize the transferee as Landlord, and Tenant further agrees, at Landlord’s request, to execute and deliver such documents and estoppel letters as Landlord may request to assist in that transfer.

15. Estoppel letter. On not less than 10 days’ prior written notice from Landlord, Tenant shall sign and deliver to Landlord an estoppel letter that

a. certifies that this Lease is unmodified and in full force and effect (or, if modified, states the nature of the modification and certifies that this Lease, as so modified, is in full force and effect);

b. acknowledges that there are not, to Tenant’s knowledge, any uncured defaults on the part of Landlord or specifying the default if any are claimed;

c. certifies the date to which all forms of rent have been paid; and

d. certifies the amount, if any, of the security deposit paid to Landlord.

Tenant’s failure to deliver such an estoppel letter within the 10 days shall be conclusive on Tenant that

a. this Lease is in full force and effect, without modification except as may be represented by Landlord;

b. there are no uncured defaults in Landlord’s performance;

c. not more than one month’s rent has been paid in advance; and

d. no security deposit has been paid except as may be represented by Landlord.

16. Acceptance of Premises. The occupancy by Tenant of the Premises shall constitute an acknowledgment by Tenant that the Premises are then in the condition called for by this Lease.

17. Damage or destruction. If, during the term of this Lease, the Premises shall be partially or totally destroyed by fire or other casualty covered by insurance so as to become partially or totally untenable,
the same shall be repaired as promptly as possible with the insurance proceeds unless this Lease is terminated. In the event of damage or destruction, if this Lease is not terminated, the rent shall be abated proportionately to the loss of use suffered by Tenant.

If, during the term of this Lease, the Premises shall be partially or totally destroyed by fire or other casualty, and the cost of restoring the Premises to its condition prior to the damage shall equal or exceed 40 percent of its fair replacement value immediately prior to the damage, or if the Premises are damaged by any casualty not insured against by Landlord, Landlord shall have the right to terminate this Lease by giving Tenant written notice of its election to do so within 15 days after the date on which the damage occurs. On the giving of notice, the Lease shall terminate as of the date on which damage occurred and the rent shall be adjusted to that date. In default of notice by Landlord, this Lease shall continue and Landlord shall cause the Premises to be repaired or restored with due diligence.

18. Condemnation. If the whole or any part of the Premises shall be taken by any public authority under the power of eminent domain, the term of this Lease shall cease on that part to be taken from the day the possession is acquired by the public authority and the rent shall be paid up to that date. If the portion of the Premises taken substantially impairs the usefulness of the Premises for the purpose for which the Premises were leased, Tenant shall have the right either to terminate this Lease or to continue in the possession of the remainder of the Premises under the terms and conditions of this Lease except that the rentals shall be reduced in proportion to the amount of the Premises taken, and in the latter event, Landlord shall promptly restore the remainder to a reasonably tenantable condition. All damages awarded for the taking shall belong to and be the property of Landlord.

19. Alterations and signage. No improvements, alterations, additions, or physical changes shall be made on the Premises by Tenant without the prior written consent of Landlord.

Tenant agrees that it will not place or maintain on any exterior door, wall, or window of the Premises any signs, awning or canopy, or advertising matter, or other thing of any kind and will not place or maintain any decoration, lettering, or advertising matter on the glass of any window or door of the Premises that is not in conformity with all applicable governmental rules and regulations and the rules and regulations of the Building as set forth by Landlord and further, without first obtaining Landlord’s prior written approval. Tenant further agrees to maintain such sign, awning, canopy, decoration, lettering, advertising matter, or other thing as may be approved in good condition and repair at all times. Tenant further acknowledges that Landlord may, at its option, regulate the lettering size, style, and color of Tenant’s sign so that all signs in the Building are of a like size, color, style of lettering, and like material. Tenant agrees that it will conform its sign to that as regulated by Landlord for the general use in the Building, regardless of how and in what manner Tenant normally designs its name for use in its sign and further regardless of whether or not Tenant uses the form and style of its sign as a trademark.

All alterations and improvements, but not moveable equipment and trade fixtures, put in at the expense of Tenant shall be the property of Landlord and shall remain on and be surrendered with the Premises at the termination of the Lease; provided, however, that Landlord may require that Tenant remove the alterations and improvements and repair any damages to the Premises caused by the removal.

20. Remedies and default. If Tenant shall default in the payment of any sums to Landlord when due and shall not cure such default within 7 days; or if Tenant shall default in the performance of any other covenant or condition of the Lease and shall not cure such other default within 30 days after written notice from Landlord specifying the default; or if Tenant or its agent shall falsify any report to be furnished to Landlord pursuant to the terms of this Lease; or in case Tenant shall be adjudicated a bankrupt or make any assignment for the benefit of creditors; then, in any such event, Landlord may
either (a) accelerate the full balance of the rental payable for the remainder of the term and sue for such sums or Landlord may terminate this Lease or (b) reenter the Premises, without terminating this Lease, and dispossess Tenant or any other occupant of the Premises and remove Tenant's effects and relet the same for the account of Tenant for such rent and on such terms as shall be satisfactory to Landlord, crediting the proceeds, first to the costs and expense of reentry, alterations and additions, and the expense of reletting, and then to the unpaid rent and the other amounts due during the remainder of the term. Tenant shall remain liable to Landlord for any unpaid balance.

In case suit shall be brought for recovery of possession of the Premises, for the recovery of any rent or any other amount due under the provisions of this Lease, or because of the breach of any other covenant on the part of Tenant to be kept or performed, and a breach shall be established, Tenant shall pay to Landlord all expenses incurred, including reasonable attorney fees, which shall be deemed to have been incurred on the commencement of the default and shall be enforceable whether or not the action is prosecuted to judgment.

21. **Access to Premises.** Landlord shall have the right to enter on the Premises at all reasonable hours to inspect and for access to the Premises to install, maintain, use, repair, and replace pipes, ducts, lights, conduits, plants, wires, floor coverings, and all other mechanical equipment serving the Premises.

22. **Rules and regulations.** Landlord reserves the right to adopt from time to time rules and regulations for the operation of the Building that are not inconsistent with the provisions of this Lease. Tenant and its agents, employees, invitees, and licensees shall comply with all those rules and regulations. Any such rules shall not dictate the days or time of business operation.

23. **Waiver.** The failure of Landlord to insist on a strict performance of any of the terms, covenants, or conditions of this Lease or rules and regulations of the Building shall not be deemed a waiver of any subsequent breach or default in the terms, covenants, and conditions or rules and regulations. This Lease may not be changed, modified, or discharged orally.

24. **Notices.** All notices required under this Lease shall be in writing and shall be deemed to have been given if either delivered personally or mailed by certified or registered mail to Landlord or to Tenant at their respective addresses set forth above or to such other address as either party may furnish in writing during the term of this Lease.

25. **Quiet enjoyment.** Landlord covenants and agrees with Tenant, its successors, and assigns that on Tenant’s paying the rent and observing and performing all the terms, covenants, and conditions on Tenant’s part to be performed and observed, Tenant may peaceably and quietly hold, have, occupy, possess, and enjoy the Premises for the full term of this Lease.

26. **Subordination to mortgage.** Any mortgage now or hereafter placed on the Premises shall be deemed to be prior in time and senior to the rights of Tenant under this Lease. Tenant subordinates all of its interest in the leasehold estate created by this Lease to the lien of any mortgage. Tenant shall, at Landlord’s request, execute any additional documents necessary to indicate this subordination including, if requested, an estoppel letter as set forth in section 15. If Tenant fails to supply the estoppel letter, the provisions in section 15 to cover that failure shall apply. Notwithstanding the foregoing, Tenant’s possession of the Premises under this Lease shall not be disturbed by any mortgagee, owner, or holder of note secured by a mortgage placed on the Premises, unless Tenant shall breach any of the provisions of this Lease and the lease term of Tenant’s right to possession shall have been lawfully terminated in accordance with the provisions of this Lease.
27. **Building revisions by Landlord.** Landlord reserves the absolute right at any time and from time to time to make changes or revisions in the Building, including such changes to the parking lot, driveways, signs, and sidewalks, by making additions to, subtractions from, or rearrangements of the improvements in the Building, as long as the revisions do not materially affect Tenant’s use of the Premises.

28. **Holding over.** If Tenant remains in possession of the Premises after the expiration or termination of the Lease, it shall be deemed to be occupying the Premises as a tenant from month to month, subject to all the conditions, provisions, and obligations of this Lease insofar as the same can be applicable to month-to-month tenancy, except that the rent shall increase to 2 times the rent owing at the end of the lease term. The month-to-month tenancy shall be cancelable by either party on 30 days’ written notice to the other.

29. **Recording.** Tenant shall not record this Lease without the written consent of Landlord; however, on the request of either party the other party shall join in the execution of a memorandum or so-called “short form” of this Lease for the purpose of recordation. The memorandum or short form of this Lease shall describe the parties, the Premises, and the term of this Lease and shall incorporate this Lease by reference.

30. **Captions and headings.** The captions and headings used in this Lease are intended only for convenience and are not to be used in construing this Lease.

31. **Applicable law.** This Lease shall be construed under the laws of the state of Michigan. Venue for any disputes under this agreement shall lie in Oakland, Michigan. If any provision of this Lease or the application to any person or circumstances shall, to any extent, be invalid or unenforceable, the remainder of this Lease shall not be affected and each provision of this Lease shall be valid and enforceable to the fullest extent permitted by law.

32. **Successors.** This Lease and the covenants and conditions shall inure to the benefit of and be binding on Landlord, its successors, and assigns and shall be binding on Tenant and permitted assigns of Tenant.

33. **Effective date.** The parties have caused this agreement to be signed and shall be effective as of the day and year first above written.

*(signature page to follow)*
IN WITNESS WHEREOF, the parties have respectively signed and sealed this Lease as of the day and year first above written.

Tycoon | Operations, LLC

Business & Operations Plan

PREAMBLE:
Tycoon | Operations, LLC ("Applicant") will strictly comply at all times with applicable state law and local ordinance codes, including rules and emergency rules that may, from time to time, be promulgated by the state or Orion Township. All business activities will take place indoors in a locked facility. Applicant has retained a law firm with established expertise in Michigan marihuana law to ensure continuing education and compliance with the laws as they evolve. The statements made in this application are made with a clear and thorough understanding of state and local requirements as they exist on the date of application, but the operations of Applicant will be amended to comply with all future derivations of the state and municipal laws.

I. OVERVIEW
Applicant is a Michigan limited liability company formed to operate twenty four (24) commercial marihuana GROWER (Class C) facilities whose primary mission is to provide a source of high-quality marihuana to processors and provisioning centers across the state of Michigan.

II. ADMINISTRATION
   A. Location & Zoning
      i. Buffers
         a. The distances described are measured horizontally between the nearest property lines.
         b. The facility is not within 1,000 feet of any educational institution or school, college or university, church, house of worship or other religious facility, licensed child care, preschool, public library, or public or private park.
      ii. Applicant is leasing the property pursuant to the attached lease and the owner/lessor of the property authorizes the use of the property as a marihuana facility in the lease agreement, which is attached.
   B. Organizational Structure
      i. The Applicant is organized as a Michigan limited liability company and is in good standing.
      ii. The members, owners, directors, officers, and managers of the Applicant are listed in the Organization Structure.
iii. The members, owners, directors, officers, and managers of Applicant meet all eligibility requirements to own and operate a marihuana grower facility as set forth in state law and local ordinance.

   a. No member, owner, director, officer, manager or any person having an ownership interest in the application has an interest in a secure transport facility license or a safety compliance facility license.

   b. The Applicant meets all eligibility requirements to own and operate a marihuana grower facility as set forth in state law and local ordinance.

iv. The Applicant has never applied for been granted any commercial license or certificate issued by a licensing authority in Michigan or any other jurisdiction that has been denied, restricted, suspended, revoked or not renewed.

C. Permits & Licenses
   i. This Business and Operations Plan is submitted as an addendum to the applications for Ten Orion Township permits to operate a business and the Orion Township special use/site plan application.

   ii. All operations in this Business and Operations Plan will comply with regulations issued by the Department of Licensing and Regulatory Affairs (LARA).

   iii. Applicant intends to apply for, obtain, operate, and comply with a state license to operate a grower facility under the MMFLA and MRTMA.

   iv. The business will not open for operation until it receives a state license to operate under the MMFLA and MRTMA and all applicable permits and licenses from Orion Township.

   v. Upon granting of a permit to operate a grower facility, Applicant will prominently display the original Orion Township permit at the Permitted Premises in a location where it can be easily viewed by the public, law enforcement, and administrative authorities.

   vi. At all times the facility will hold a valid local Permit and State Commercial Marihuana Facility License for a Grower.

   vii. In addition to complying with the Orion Township Ordinance Authorizing and Permitting Commercial Marihuana Facilities, Applicant will comply with all Township Ordinances, including without limitation, the Township Zoning Ordinance, as well as the requirements of the County Road Commission, County
Building Inspector, County Drain Commissioner, District Health Department, Soil Erosion Officer, County Conservation Service, areas fire departments, Michigan Department of Natural Resources, Michigan Department of Environmental Quality, and any other applicable township, county, state and federal statutes.

viii. Applicant will have available, at all times, documentation that local and State sales tax requirements, including any requirement for a license, are satisfied.

ix. Applicant will provide updated operational and security plans to Orion Township upon request and prior to any proposed changes in its operations.

D. Inspections
i. Applicant will provide access to the facility for inspection to any federal, state, or local law enforcement officer to ensure compliance with the permit.

ii. Applicant consents to inspections as required in the MMFLA and pursuant to the Orion Township ordinance.

III. OPERATIONS
Applicant proposes 24 state-licenses in a single marihuana grower facility for the cultivation, drying, trimming, curing, and packaging of marihuana for sale to a processor or provisioning center pursuant to the requirements and restrictions of the Marihuana Facilities Licensing Act, PA 281 of 2016, and all future derivations thereof. This facility will be located in a secure industrial facility.

A. Compliance with State Regulations
Applicant will meet all operating regulations established by LARA and the Marihuana Licensing Board for Growers, including without limitation, any standards, procedures, and requirements for:

i. quality control
ii. chain of custody
iii. marihuana storage
iv. waste disposal
v. labeling and packaging
vi. storage of chemicals

B. Description of the Facility
Applicant’s facility will be used exclusively for the cultivation, drying, trimming, curing, and packaging of legal usable marihuana for sale to processors or provisioning centers.

C. Entry to Facility
Generally, the public will not be allowed entry to the facility. Notwithstanding the forgoing, Applicant will not allow entry to the facility to anyone under the age of 18.
D. Employees
Applicant anticipates having between fifteen (55) and (65) full and part-time employees, as many as possible of whom will be local community residents. None of Applicant’s employees will be registered primary caregivers during the employment with Applicant. Please reference the staffing plan for a detailed list of potential positions.

E. General Policies
i. Applicant will only sell or transfer marihuana to a processor or provisioning center.

ii. Applicant will only use secure transporters in the distribution or exchange of marihuana or currency with processors or provisioning centers.

iii. Applicant will not promote the unlawful use of marihuana or any other drug or provide or otherwise make marihuana available to any person who is not legally authorized to receive Marihuana under state law.

iv. No owner, the Applicant, or any employee of Applicant will grow marihuana in the Permitted Premises for his or her own use.

v. The following activities are prohibited on the Permitted Premises:
   a. the sale, consumption, or use of alcohol, or controlled substances;
   b. smoking or consumption of marihuana.

F. Cultivation Plan
i. Propagation
   a. Lighting
   b. Watering
   c. Nutrient Application
   d. Integrated Pesticide Management

ii. Harvesting and Trimming

iii. Drying and Curing

iv. Packaging

v. Distribution
   a. All marihuana products will be validated from a verified transport manifest, created from the statewide monitoring system. The manifest includes a detailed form with the number of packages and detailed content for confirmation/validation with secure transporters and purchasers of the shipment (processors or provisioning centers).
   b. Each transport shipment will be processed in the following manner:
      1. Entry of shipped inventory into the statewide monitoring system.
      2. Confirmation with Secure Transporter of valid and verified transport manifest, including product count, weight of each package or item
c. State certified scales will be used to verify and weigh all marihuana, in whatever form.

G. Inventory Management
   i. Applicant will not control or have on the Permitted Property an amount of marihuana plants or usable marihuana that exceeds any amount permitted by the state License or the Township permit.

   ii. Tracking and Monitoring
       Applicant will use a third-party inventory control and tracking system to interface with the statewide monitoring system. The third-party inventory control and tracking system will have the capabilities necessary to comply with the requirements applicable to a grower licensee:

       a. Track all marihuana plants and packages;
       b. Track lot and batch information throughout the entire chain of custody;
       c. Track transportation of product;
       d. Track marihuana waste;
       e. Track all marihuana product transfers;
       f. Track sales and returns;
       g. Track marihuana plant, batch, and product destruction;
       h. Perform batch recall tracking;
       i. Report and track loss, theft, or diversion of marihuana products;
       j. Receive testing results electronically from a safety compliance facility;
       k. Provide access to state agencies and law enforcement as required;
       l. Report all inventory discrepancies.

   iii. Applicant will enter all transactions, current inventory, and other information into the statewide monitoring system as required by the MMFLA, the Marihuana Tracking Act, and any associated regulations.

   iv. Inventory reconciliation - At the end of each day, physical inventory counts will be reconciled with the third-party inventory control and tracking system.

   v. Returns

H. Quality Control
   i. Sampling (by Licensed Safety Compliance Facility)

   ii. Batch Testing (by Licensed Safety Compliance Facility)

   iii. Transport to Safety Compliance Facility (by Secured Transporter)

I. Signage and Advertising

1867
i. Applicant has no proposed signage at this time, but will amend this plan accordingly and provide the township with its sign permit application if and when it does wish to propose signage.

ii. Applicant will not display pictures, photographs, drawings or other depictions of Marihuana or Marihuana Paraphernalia on the outside of the Permitted Premises, nor will such pictures, photographs, drawings, or other depictions of Marihuana or Marihuana Paraphernalia be visible outside of the Permitted Premises on the Permitted Property.

iii. The words "Marihuana," or "cannabis," and any other words, used or intended to convey the presence or availability of Marihuana will not appear on the outside of the Permitted Premises, nor will "Marihuana," or "cannabis," and any other words, used or intended to convey the presence or availability of Marihuana be visible outside of the Permitted Premises on the Permitted Property.

J. Visibility of activities
   i. All activities of the facility, including without limitation, the cultivation, harvesting, trimming, drying, curing and packaging of Marihuana, and all other related activity permitted under Applicant’s License or Permit will occur indoors.

   ii. No marihuana or paraphernalia shall be displayed or kept in the facility so as to be visible from outside the Permitted Premises.

K. Security
   i. Plan
      Applicant will maintain, at all times, a centrally-monitored security and alarm system on the premises that meets or exceeds state regulatory requirement. Applicant will maintain policies and procedures to include:

      a. Regular drills of the security protocols and emergency plans;
      b. Controlled and restricted access to the Permitted Property and Permitted Premises to employees, agents, and owners of Applicant, and law enforcement or state or local authorities as necessary to ensure Applicant’s compliance with state and local laws.
      c. Internal and external cameras with 24-hour monitoring and off-site recording;
      d. Installed panic buttons
      e. Limitations on the amount of currency and marihuana stored onsite;
      f. Cooperation and coordination with local law enforcement;
      g. Permitted premises will only be able to be accessed through a combination of security locks and access codes; and
      h. The ability to remain operational during a power outage with battery back-up.

   ii. Security Surveillance Cameras
Security surveillance cameras will be installed to monitor all entrances, along with the interior and exterior of the premises, which will capture all areas of the property unless otherwise prohibited by law, including unobstructed video surveillance of all enclosed areas, unless prohibited by law, including all points of entry and exit that shall be appropriate for the normal lighting conditions of the area under surveillance.

iii. Security Recordings and Documentation
   a. All security recordings and documentation will be preserved for at least 30 days and made available upon request by any law enforcement.

iv. Robbery and Burglary Alarm System
Applicant will employ an alarm system that meets state requirements and obtains state approval. Specifically,
   a. Applicant will employ a centrally alarmed and monitored security system that will be monitored 24 hours a day, 7 days a week for the Permitted Premises pursuant to the attached service agreement.
   b. There will be a perimeter alarm on all entry points and perimeter windows of the Permitted Premises.
   c. A failure notification system will provide an audible, text, or visual notification of any failure in the surveillance system. A panic button and alarm will directly notify the local law enforcement agency having primary jurisdiction.

v. Storage of Marihuana and Currency
   a. Applicant will store usable marihuana that is not otherwise in the process of being dried, trimmed, cured, packaged, or distributed including packaged and un-packaged usable marihuana, and currency in a secured locked safe that is permanently affixed to the premises.

L. Ventilation Plan/Air Filtration System
   i. Applicant’s facility operation and design will provide sufficient measures and means to minimize any impact to adjacent uses, including the control of odor by maintaining and operating an air filtration system so that no odor is detectable outside the Permitted Premises.

   ii. Applicant’s equipment and methods to control odor include a comprehensive air filtration system, consisting of
       a. Activated Carbon Filters.
       b. Heavy Duty Ventilation Fans.

   iv. Details and specifications of the equipment used for Applicant’s ventilation and air filtration plan are attached.
v. The total enclosed space in which harvested marihuana will be stored amounts to approximately 300 sq. feet. Applicant will use an advanced filtration system rated appropriately for the area.

vi. The air filtration system will be maintained in working order at all times and will be in use at all times. Filters will be changed a minimum of once every 365 days.

vii. In addition to the use of an air filtration system, Applicant will mitigate odors by keeping doors and windows closed at all times, except the minimum amount of time needed to allow ingress and egress to the building.

M. Toxic/Flammable/Hazardous Materials
i. Applicant’s use of toxic, flammable, or other harmful, hazardous, or combustible materials will be limited to plant nutrients and pesticides and cleaning products. The facility may use the following nutrients and pesticides:
   a. CocoTech Bloom A
   b. CocoTech Grow A
   c. CocoTech Premier Nutrient
   d. FloraBloom Nutrient System
   e. FloraGrow Nutrient System
   f. Golden Tree Plant Food.
   g. Nutra Green 5-10-5 plus Micronutrients Foliar Spray
   h. Diatomaceous Earth
   i. Neem Oil
   j. PyGanic Pro Pyr-methrin 5% MGK Miticide

ii. The facility may use the following commercial cleaning products, along with the following household products: materials regulated by government agencies:
   a. Ultra Dawn Lemon Dish Soap
   b. Nature’s Source Toilet Bowl Cleaner
   c. Fantastik Antibacterial Heavy Duty All Purpose Cleaner
   d. Windex Original Glass Cleaner
   e. Novo Foaming Instant Hand Sanitizer
   f. QuickSan Food Contact and Surface Sanitizer

iii. The materials will be stored in secured and ventilated cabinets. All combustible or reactive materials will be stored separately.

iv. Materials will be handled, stored, and disposed according to specifications in each Material Safety Data Sheet.
N. Waste Product Disposal
Applicant will dispose of unusable or waste marihuana in accordance with the MMFLA, MRTMA, and applicable local ordinance guidelines to prevent the waste marihuana from being possessed or ingested by any person and animal.

i. Applicant’s current, preliminary waste disposal plan consists of shredding and grinding damaged and unusable plants, roots, seeds, stalks and harvested marihuana and mixing it with one of several lawful over-the-counter products, such as sawdust or cat litter to render it unusable, unrecognizable, and unpalatable, and then discarding in secured bags as part of its solid waste disposal.

ii. The State of Michigan’s Marihuana Licensing Board may require or suggest as a part of its regulations, expected sometime in November, one or more alternative waste disposal options including, but not limited to, waste disposal through the secured transporter system, waste mitigation through THC extraction methods (rendering the marihuana waste product inert) or some other method. Applicant warrants that it will comply with all state and local requirements as to waste disposal, but further commits to its current preliminary plan to render all marihuana waste unrecognizable, unusable and inaccessible regardless of state or local requirements.

IV. COMMUNITY RESPONSIBILITY AND CONCLUSION
Although marihuana has been used as a medicine across the globe for hundreds of years, its commercial production and sale is new to us, this state, and your community. We appreciate the opportunity to show Orion Township that Marihuana can be safe and accessible to a community while providing jobs and local economic growth. We look forward to being productive and responsible community partners, and will work with the Township toward that goal.

PAYMENT OF PERMIT FEE CONSTITUTES ACCEPTANCE OF THE ABOVE TERMS.
H. Litter & Waste Removal Plan
Litter & Waste Removal Plan

All biological waste product will be rendered unrecognizable by grinding it in an industrial grinder and combining it with other non-consumable solid waste, including the media in which we cultivate plants, Rockwool. The inclusion of inert material renders the combined solid waste unusable. All waste will be stored in a locked dumpster that is emptied at minimum once per week.

The company intends to employ particulate filtration in areas where waste is stored and processed, which minimizes potential exposure and impact to the outside environment. The facility, which is designed around large water chillers, is designed to circulate air rather than ventilating it. This process helps to avoid excess exposure of odors to the surrounding community.
I. Noise, Dust, Vibrations, Glare & Fumes Plan
Noise, Dust, Vibrations, Glare, Fumes or Odors Plan

Excessive Noise, Dust, Vibrations, Glare and Marijuana odors emanating from our facilities are a valid concern for the community and our neighbors. This plan details the measures deployed to ensure that minimal noise, dust, vibration, glare, fume or offensive odor is emitted from the facility, the response if it occurs, and that the measures remain effective over time.

This plan is our commitment to the Orion Township that we will be in compliance with regulations of the city and the administrative rules and that we will not operate in a manner creating noise, dust, vibration, glare, fumes, or odors detectable to normal senses beyond the boundaries of the property.

We will not vent noxious dust, odors, gases or fumes to surrounding areas.

We will mitigate dust and noxious odors by engaging in the following activities:

1. Adequate design measures to seal the building;
2. Utilizing a heating, ventilation, and cooling (HVAC) System designed to move an appropriate amount of air (cfm) throughout the facility to disperse odors;
3. Using industry leading MERV-13 HEPA filters in addition to FILTR, Blue Zone & Puradigm units in each room throughout the facility.

I. DESIGN MEASURES TO SEAL THE BUILDING

We intend to renovate our building in a manner that focuses on effectively sealing all interior rooms and exterior access points. Each room is enclosed in 12" insulated paneling which are designed to form an airtight seal. For additional protection, butyl caulk is applied at each joint to accommodate any flaws in the panels.

Caulk is also applied to seal any openings into the panels, including plug outlets, doorways, sprinklers, and anything else that could allow air flow. Our doors are fiberglass, weather stripped and employ a drop seal to press additional weather stripping against the floor when closed to maximize the seal all the way around.

II. MERV-13 HEPA FILTRATION SYSTEM

The purification of air throughout our facility is a top priority for both the health of the plants and the environment we subject our employees and the local community to. In an effort to target and reduce contamination, mold, bacteria, odor, dust, and fumes, we employ a variety of filtration systems in all rooms where marijuana plants are grown.

Each room will utilize clean room grade HEPA filtration units filtering down to 0.01um and providing up to 5 complete air changes per hour. These units also utilize a carbon filter which focuses directly on the removal of smells and volatile organic compounds.

In addition to the HEPA filters, each room will have Puradigm units to help reduce airborne and surface contaminates, and Agrify Bluezone UV filtration units, known to destroy 99.9%+ of both bacteria and mold. Both of these systems aid in odor elimination and containment.
As filters age, they become clogged with impurities, and ultimately less effective. As such, we will develop a maintenance schedule to inspect the filtration units regularly and to replace them per the manufacturer’s recommendation or at an expedited pace based on their usage in these environments.

III. VIBRATION MITIGATION
Exterior mounted cooling equipment is mounted on isolation pads to dramatically reduce vibrations that would otherwise be created by such large equipment.

IV. EVALUATING THE EFFECTIVENESS OF NOISE, DUST, VIBRATIONS, ODOR & FUME CONTROL MEASURES

Key site leadership roles will be trained to assess the production and escape of odors, dust, fumes and glare from the facility. We also anticipate a strong and friendly relationship with the local communities and will welcome feedback about any exhaust from the building. Should these assessments or the community ever determine that our levels are beyond acceptable, we will re-evaluate this plan and engage professionals to further refine our practices and properly mitigate the problem.
J. Spent Water & Soil Safety Plan
Spent Water & Soil Safety Plan

Wastewater Treatment Plan:
Wastewater generated during the cultivation of marihuana of marihuana products shall be disposed of in compliance with all applicable state and local laws and regulations. Despite the amount of water used in the cultivation process, there is very little water waste. The majority of water is used by the plants or evaporated out of the collection dishes upon which the plants sit. Any water that is used to rinse the plants or clean the facility or for any other purpose shall be rendered clean through both reverse osmosis and UV light after standard filtration methods, and either reused by the facility or discharged through a monitoring man hole where it can be monitored to comply with all local ordinances.

The Cultivation Facility will include an Ecowater RO purification system. Ecowater Purification Systems are the leading water filtration manufacturer in the industry, helping cultivators diagnose and solve every water problem imaginable. Ecowater designs systems to treat any water source including city water, well water, nutrient runoff water, wastewater, and condensate runoff.

Soil Safety Plan
The cultivation facility will not use soil — instead, all media for the purposes of growing plants will be rockwool, a lightweight hydroponic substrate made from spinning molten basaltic rock into fine fibers which are then formed in a range of cubes. This product will be disposed of through the grinder and mixed with biological waste in a locked dumpster.
K. Security Plan
SECURITY PLAN

Tycoon I Operations is committed to being a leader in Michigan's cannabis industry and a trusted resource for the communities, consumers and clients we service. Essential to fulfilling this commitment is our ability to effectively protect our product from criminal repurposing throughout the facilities.

This Security, Surveillance and Diversion Prevention Plan details the physical and electronic security measures we employ to deter, detect, and inhibit the theft, diversion, and loss of Marijuana, and to prevent unauthorized conduct with respect to the storage and dispensing of Marijuana.

We have extensively researched and designed our Grow Facility to maximize security. The facility shall be built with enhanced security and stringent safety features to eliminate any potential for diversion. Our facility will be equipped with numerous motion sensors and exterior intrusion sensors that will be linked to local law enforcement. To prevent unauthorized entry and stop diversion, theft, or loss of marijuana, every square inch of the facility shall be continually monitored by high definition security cameras and commercial-grade equipment. Security systems will be positioned so they closely monitor activities at strategic risk points and watch for any strange behavior or movement. Marijuana shall not be visible to any person from the exterior of the Grow Facility.

We will create a culture of responsibility, accountability, and strict security surrounding all aspects of the facility. The stringent operating procedures outlined below demonstrate a commitment to employee and public safety above all other operating values. From receipt to sale, we are committed to preventing diversion by implementing a comprehensive security strategy. Employees will be extensively trained to understand that security is a primary obligation for everyone at our facility.

We will have comprehensive security policies and procedures for the Grow Facility, which address measures to deter and prevent unauthorized entrance into areas containing marijuana and theft of marijuana at the facility. Employees will receive on-going training regarding our security protocol and the Site Manager shall ensure all employees follow policies and procedures regarding the security of the facility. The Site Manager shall implement and maintain employee training policies and procedures for security training. All employees shall aid in the security of the Grow Facility through prevention, awareness, reporting, and responsible incident management. All employees shall be required to immediately report security breaches and incidents of non-compliance to their supervisor, and in case of sudden emergency, immediately to law enforcement by either striking a panic button or calling law enforcement directly.

We will make our facility available and open to inspection, at all times, for law enforcement, representatives of the Department and law enforcement, when necessary to perform their duties.

PHYSICAL SECURITY

The facility shall be designed to maximize security and stop the potential for diversion. Access to the secure facility shall include safety and security mechanisms that prevent unauthorized entry. All doors will be burglary-resistant material, with commercial-grade, non-residential locks. Additionally, exterior doors, as well as limited access area entries, will be automatic locking and equipped with electric strike and key card access hardware. All doors are setup to fail secure, which means in the event of a power failure, the doors will remain locked and only be accessible via a master key.
The Grow Facility’s main entrance vestibule shall include a mantrap to control passage from the public access area to the limited access area. We will strive to install Underwriter’s Lab (UL) approved locks and lock cylinders, which are rated as burglary resistant. We will also install local alarms on all fire exits and other perimeter doors not authorized for employee or visitor use. Our alarm system will be monitored after business hours with live monitoring through a licensed security monitoring company. If there are ever any after-hours issues, the live monitoring system will be linked directly to law enforcement and the Site Director, among other key personnel.

We shall ensure that trees, bushes, and other foliage outside of the premises do not allow people to conceal themselves from sight. The surveillance system’s cameras shall be capable of certain identification of persons (including facial features), license plates, vehicles, the immediate surrounding areas, and any activities occurring within any area of the premises, and the parking area, and within twenty feet (20’) of all entry and exit points of the premises. Cameras will cover every square inch of the facility.

To provide first responders with immediate access into our facility during a time of emergency or inspection, we will install a Knox Rapid Access System to remove any barriers to entry when first responders respond to an emergency call.

LIGHTING

Exterior lights at all points of entry and exit shall remain constantly illuminated to allow for recording. Lighting on the outside perimeter shall allow cameras the ability to record any suspicious activity. Timed-delay switches shall be used to turn off non-essential interior lights, which shall not remain lit after employees have left the facility. Motion detecting lights shall be installed in areas that are entered and exited infrequently. The exterior of the facility shall be lit by commercial LED light fixtures sufficient to facilitate twenty-four-hour surveillance. Exterior lights in the parking area will remain on from dusk until dawn.

SECURITY EQUIPMENT

Our security equipment shall be designed, installed, and maintained to deter and prevent unauthorized entrance and theft of marijuana products at the facility. Security equipment shall be installed by a commercial, licensed service provider. All equipment shall be compliant with Department rules and all state and local laws, regulations, ordinances, and other requirements.

ENTRY AND EXIT ELECTRONIC EQUIPMENT AND PLACEMENT

Our entry and exit electronic access equipment will consist of the following:

- Electric strike locks on all doors in the Grow Facility with the ability to override access control for emergency exit even during a power outage.
- RFID proximity card access control devices for all interior doors and all exterior entrances and exits into the Grow Facility.
- Access control system that allows for programming or uploading individual user permissions and allowed entry times, as well as operations-specific information including employee photos.
- A backup power supply system that immediately provides power for at least twenty-four (24) hours in the event of a power outage.
- Main system operating equipment will be kept in the security room, a limited access area.
• Access control system that monitors and records:
  o Identification of employees or visitors entering and exiting.
  o Date and time of entry and exit.
  o Length of time in specific area.
  o Any unauthorized attempts for access.

ALARM SYSTEM

We shall have a professionally monitored security alarm system installed at our facility. Monitoring of the alarm system shall be twenty-four (24) hours a day, seven (7) days a week. We shall notify the Department of any intent to change our security alarm service provider. Upon request, we will make available to the Department all information related to the alarm system, monitoring, and alarm activity. The alarm system shall consist of the following:

• Appropriate equipment necessary to monitor activity inside and outside the Grow Facility, including:
  o All entrances and exits.
  o Roof hatches.
  o Rooms with exterior windows.
  o Rooms with exterior walls.
  o Rooms containing marijuana.
  o Rooms containing safes or vaults.
• A backup power supply system that immediately provides power in the event of a power outage.
• Main system operating equipment is kept in the Main Office Surveillance/IT Room, a limited access area.
• All telephone junction boxes or rooms where alarm telephone circuits terminate are locked, tamper-protected, and all labels or tags identifying these alarm circuits have been removed.

ALARM SYSTEM COMMUNICATION

The alarm system shall include an electronic or mechanical system that, upon activation, is programmed to send a prerecorded voice message, via telephone, radio frequency, or other communication system, to appropriate law enforcement authorities or other emergency services. In addition, the alarm system shall be equipped with a failure notification system that notifies the alarm monitoring service provider of the system failure via audio, text, visual, or audiovisual message, within a maximum of five (5) minutes of such failure.

ALARM SYSTEM TESTING

We shall bi-annually conduct an onsite inspection and test of the entire alarm system to determine needed repairs and adjustments.

ALARM SYSTEM RECORDS

We shall keep and maintain alarm system records and will make available to the Department all
information related to the alarm system, monitoring, and alarm activity. These records shall include the following:

- The name of the alarm installation and monitoring service provider.
- Copies of service contracts.
- A map of the Grow Facility showing the location and operation of each alarm system component including alarm telephone circuits.
- A list of authorized users.
- Manufacturers’ instructions for operating and maintaining the equipment.
- Testing and maintenance logs.
- Reports of any incidents triggering an alarm.
- Reports of any interruption in monitoring and/or complete failure of the system, including the length of the interruption period.

SURVEILLANCE SYSTEM

We shall have a fully operational electronic surveillance system installed at our facility. We shall notify the Department of the intent to make any changes to the surveillance system. Upon request, we will make available to the Department all information related to the electronic surveillance system installed at our facility. The surveillance system shall consist of the following:

- Appropriate equipment necessary to video record activity inside and outside the Grow Facility, including:
  - All entrances and exits into and out of the Grow Facility.
  - Roof hatches or skylights.
  - Rooms with exterior windows.
  - Rooms with exterior walls.
  - Rooms containing safes or vaults.
  - All entrances and exits of security rooms and limited access areas.
- Appropriate equipment to record keycard entry and exit activity of all our employees and visitors.
- A backup power supply system that immediately provides power in the event of a power outage.
- A dedicated safe or vault to store all entry/exit records and video recordings in the Office Surveillance/IT Room, in a limited access area.
- Main system operating equipment is kept in the main office Surveillance/IT Room.

VIDEO SURVEILLANCE EQUIPMENT

Our video surveillance equipment will consist of the following:

- Network video recorders with a record rate of a minimum of thirty (30) frames per second.
- Cameras with a minimum resolution of 1920 x 1080 pixels.
• Cameras with infrared capabilities to capture images in low or no lighting conditions.
• Cameras with capabilities to identify activity occurring within twenty feet (20') from all points of entry and exits into and out of the exterior of the Grow Facility.
• Video monitors.
• Digital archiving device.
• Capabilities to produce a color still photograph from any camera image, live, or recorded.
• Capabilities to accurately display the time and date on recorded images or video
• Color printer that can immediately produce a clear, color still photo, either live or recorded, with a resolution of 9600 dpi and the image quality is relative to the camera being used to capture the image.

CAMERA COVERAGE PLACEMENT

We will install at least One Hundred (100) security cameras. The security cameras will be permanently mounted and in a fixed location. Each camera at the Grow Facility shall be placed in a location that allows the camera to clearly record activity occurring within twenty feet (20') of all points of entry and exit on the Grow Facility. The cameras will cover every square inch of the facility. The cameras shall allow for the clear and certain identification of any person, including facial features, and activities, including sales or transfers, in all areas of the Grow Facility. The security cameras shall monitor and record all areas of the Grow Facility including:

• All areas where marijuana or products are present, including activities related to:
  • Weighing, packaging, and labeling.
  • Storing, preparing for sale, loading/unloading, or moved within the Grow Facility.
  • Waste Disposal
• Limited-access areas and security rooms, including transfers between rooms and areas.
• Areas storing a surveillance system storage device with at least one (1) camera recording the access points to the secured surveillance recording area.
• All entrances and exits into and out of the exterior of the Grow Facility, recording both indoor and outdoor vantage points.
• Outdoor trash receptacles.
• Roof hatches or skylights.
• Rooms with exterior windows.
• Rooms containing safes or vaults.
• All areas where cash is counted, transferred, or stored.
• All areas where records are stored.

Cameras shall not be installed in bathrooms or any other area where a legitimate expectation of privacy exists. Camera placement shall ensure:

• Visibility of activities is not obstructed by lighting equipment covers, fixtures, or other equipment.
• A clear and certain identification of all individuals and activity at the Grow Facility.
• Identification of activity occurring within twenty feet (20') from all points of entry and exit into and out of the exterior of the Grow Facility.

SURVEILLANCE FAILURE NOTIFICATION

The surveillance system shall include a failure notification system that alerts the Site Director and other key site personnel of any interruption in surveillance and/or the complete failure of the monitoring system. The notification shall be within a maximum of five (5) minutes of such failure via audio, text, visual, or audiovisual message. Additionally, an alarm shall signal the Security Officer on duty whenever an unauthorized entry is attempted.

SURVEILLANCE TESTING

We shall ensure that the surveillance system is properly maintained for playback quality so that images can be seen and the identity of all individuals and activity in surveillance areas are captured. We will schedule and oversee all required maintenance of security equipment in accordance with manufacturer recommendations. Any equipment failure identified shall be corrected as soon as possible. All security equipment shall be in good working order and shall be inspected and tested at regular intervals.

INFORMATION TECHNOLOGY SECURITY

We shall ensure the security of our hardware, software, data, and communications networks, including the following information technology (IT) maintenance:

• Software registration.
• Security patches.
• Malicious software prevention.
• Account management.
• Security status and network access monitoring.
• Disposal and redeployment.
• Employee IT security training.
• Vulnerability assessments.

Access to protected information shall be restricted to essential employees only. Access may be granted to authorized representatives of the Department and other government officials if necessary to perform their official duties. Examples of protected information include:

• Security and cash management procedures.
• Asset and inventory lists.
- Network data.
- Floor plans of critical areas.
- Password and code records.
- Customer records.
- Employee records.

PRODUCT SAFETY AND SECURITY

We shall develop and implement procedures that ensure product safety and security and are compliant with the rules set forth by the Department and all applicable state and local laws, regulations, ordinances, and other requirements. Procedures shall include measures that:

- Minimize the risk of diversion or theft of marijuana.
- Minimize the risk of contamination from incoming materials.
- Ensure proper storage conditions that maintain the quality and purity of our marijuana products.

MATERIAL RECEIVING

All deliveries shall be verified at the front entrance to the facility before allowed access to the loading areas. All materials received will be documented. No material may be received unless its shipping documentation matches the corresponding purchase order or separate approval is given by the Site Manager. Employees shall notify the Site Manager of any shipment discrepancy immediately and shipment may not be accepted without the Site Manager’s approval.

PRODUCT STORAGE SECURITY

Storage areas shall be designed to provide adequate lighting, ventilation, temperature, humidity, space, and equipment. All storage areas shall be maintained in a clean and orderly condition, free from infestation of pests, and in accordance with our security measures and Security Plan. The Grow Facility Manager shall ensure secure containers containing marijuana products remain dry, well ventilated, have temperature-control features to avoid extreme temperature fluctuations and appropriate odor-control features. These proper storage environments ensure product storage does not lead to product contamination or loss of quality.

The storage areas containing marijuana products shall be designed for security and ease of maintenance. We shall establish product storage and security policies and procedures compliant with the rules set forth by the Department and all applicable state and local laws, regulations, ordinances, and other requirements. Under no circumstances may any product be transferred without following our policies and procedures and all the rules set forth by the
Department and all applicable state and local laws, regulations, ordinances, and other requirements. Storage policies and procedures shall include:

- All equipment and any areas used for the processing or storage of marijuana shall be securely locked unless in use.
- All areas used for the storage of marijuana shall be on a time lock and only accessible during regular business hours.
- Inventory shall be reviewed and documented at the beginning and close of each day.
- All areas where marijuana product is stored will be monitored by the surveillance system.

DIVERSION PREVENTION

Investigation of possible diversion and developing policies to prevent it will be conducted by a team of our senior officials, including our CEO, COO, and Director of Compliance. Collectively, they will be known as the Diversion Prevention Team or DPT. The team will have multiple responsibilities including:

- Investigating allegations of diversion
- Developing policies and procedures to prevent diversion
- Managing performance improvement measures
- Providing overall direction for the program.
- Reporting confirmed cases of diversion to law enforcement

The DPT will also integrate information from external sources and environmental factors to improve safety and security at facilities. External sources and environmental factors may include news reports, trade and patient associations, law enforcement bulletins, et cetera. Standard operating procedures shall be updated to incorporate new sources of information and prevent diversion.

WORKING WITH LAW ENFORCEMENT

We deeply value and respect the work of local law enforcement. Police officers are on the front lines protecting our safety. Therefore, our Company, through the DPT, will form a partnership with law enforcement. This partnership will be rooted in a shared responsibility for the safety of the community. Upon request, law enforcement will have access to employee records and Grow Facility operations. Company will also engage with first responders like EMS and fire to establish emergency response protocols. This will create a close working relationship and enhance our ability to provide a secure and positive experience for our employees and the community.

To provide first responders with immediate access into our facility during a time of emergency or inspection, we will install a Knox Rapid Access System to remove any barriers to entry when first responders respond to an emergency call.
EMPLOYEE TRAINING

We know that having a trained and educated workforce is paramount to having an effective diversion strategy. Therefore, a considerable amount of time, resources, and energy will be devoted to ongoing diversion prevention training. The training curriculum will be conducted by the DPT. At a minimum, the training curriculum shall include:

- Compliance regulations for grow facilities.
- State laws and agency rules regulating the use of marijuana.
- Strategies for preventing diversion.
- Criminal and civil consequences for diverting product.
- Security and safety standard operating procedures.
- Chain of command for reporting diversion.
- Incident management.
- Daily operating procedures.

Diversion prevention trainings are mandatory for every new employee. Additionally, each employee shall be required to participate in quarterly continuing education trainings on diversion. Training materials will be outcome driven. Employees will be given real world examples of diversion and taught the appropriate response. Teaching the material through the learning principles of problem solving, discussion, and feedback will empower and increase understanding and retention of the training. This process of integrating knowledge will develop a culture of shared values, perspectives, and become the way of daily conduct and purpose at the Grow Facility.

Employees will have access to diversion prevention training materials at all times. There will be no excuse and zero tolerance for not knowing the proper policies and procedures. Well-maintained employee training records displaying documented training dates and subject matter will preserve and increase compliance, continuity and understanding of all guidelines, security procedures, safety, and incident response. Employee training records will become a written testament of the detailed information and accountability of security education.

INVESTIGATION OF DIVERSION

Due to intense and robust security operations, we do not anticipate diversion at our facility. However, it is important to be prepared for any scenario. We have developed an enhanced investigation procedure for any allegations or reports of potential diversion. Any allegation or report will be fully and immediately investigated by the DPT with established processes and timeframes.

Security policies developed by our Company outline that the first step of investigation is to preserve all possible evidence. Evidence needs to be persevered for the investigation and may be used in future disciplinary matters. The second step of investigation shall be to review all camera footage and other relevant information technology. Each marijuana product is tracked from seed to sale. Therefore, if diversion occurred, it will likely appear in an audit of the tracking software. The third step of investigation will be to interview the employee who engaged or
allegedly engaged in diversion. This step can only be executed if enough evidence is gathered to narrow down the suspect. The goal of the interview is to get the subject to confess how they diverted product to prevent future incidents from occurring. The fourth step of investigation will be to report the confirmed incident of diversion and suspect to law enforcement and the Department. The Site Manager shall be the point of contact for all law enforcement inquires and will turn over all relevant evidence to law enforcement and the Department. The final step of investigation is to develop policies and procedures to prevent the incident from happening again. Once new policies have been developed by the DPT, an all staff training shall be given. The training will be a top down review of all security policies including any updated procedures.

INCIDENT RESPONSE

We shall establish incident response procedures addressing any incident that may occur, including natural disaster, unauthorized access, theft, or IT security breach. Procedures shall be in accordance with the rules set forth by the Department and all applicable state and local laws, regulations, ordinances, and other requirements. Procedures for general emergency and incident management, containment, and corrective measures shall be thoroughly detailed. The Director of Compliance shall ensure the appropriate response procedures are followed. All employees shall receive incident response training annually. The Site Manager shall determine the category and severity of the incident and determine the next best course of action. All discussions, decisions, and activities shall be documented.

We shall immediately notify appropriate law enforcement authorities and the Department immediately after the discovery of a reportable incident as defined by state and local laws, regulations, ordinances, and other requirements. Examples of an incident may include, but are not limited to:

- Theft or physical loss of marijuana or confidential records.
- Breach of our network servers.
- Robbery or unauthorized entry in the Grow Facility.
- Threats of violence to the Grow Facility, employees, or visitors.
- Bomb threats.
- Any criminal activity.
- Civil disturbances.
- Hazardous spills.
- Infectious disease epidemic.
- Serious accidents.
- Fires.
- Earthquakes.
- Floods.
- Windstorms or tornadoes.
INCIDENT REPORTING

Anyone with knowledge or a reasonable suspicion of an incident is instructed to make an immediate report to the Grow Facility Manager or the Site Manager. The person reporting the incident shall complete the Incident Log.

- Date and time of occurrence or suspected occurrence.
- Names and contact information of parties involved and any witnesses.
- Description of incident.
- Completed Suspect Description Forms, if applicable.
- Any evidence supportive of the event (unless law enforcement is required on scene or en route).

We shall notify appropriate law enforcement authorities and the Department immediately after discovering the following:

- Discrepancies identified during inventory; diversion, theft, or loss of marijuana; or any criminal action involving an employee.
- Theft, robbery, or burglary; sale to minors; diversion of marijuana or marijuana products; or any other crime related to marijuana.
- Any suspicious act involving the sale, cultivation, distribution, processing, or production of marijuana by any person.
- Unauthorized destruction of marijuana.
- Any loss or unauthorized alteration of records.
- An alarm activation or other event that requires a response by public safety personnel.
- Integrity of the inventory management system compromised.
- An IT security breach.
- The failure of any security alarm system due to a loss of electrical power or mechanical malfunction that is expected to last longer than eight (8) hours.
- Any other breach of security defined by the rules set forth by the Department.

UNAUTHORIZED ENTRY/ROBBERY CONTAINMENT AND CORRECTIVE PROCEDURES

In the event a threat is present to persons, cash, or product due to unauthorized entry, employees shall be trained to perform the following:
• Notify law enforcement utilizing a panic alarm, only if it can be safely done without being obvious to the robber.

• Do not resist the robber or use or encourage the use of weapons or force against the robber.

• Try to inform the robber of any potential surprises (e.g., an employee is due back from lunch or the building alarm is set to be tested).

• Try to keep employees and visitors, if applicable, calm during the robbery.

• Try to alert other employees of the situation using pre-determined signals or text messages, only if safe to do so.

• Follow the robber’s commands in order to shorten the time of the incident. Do not argue with the robber, but do not volunteer to help.

• If the robber demands a certain amount of money or product, only give them that amount.

• Be observant in order to be a good witness. Try to remember:
  o The number of robbers.
  o The physical characteristics of the robber(s), such as weight, scars, tattoos, hair color, or speech patterns.
  o The clothing worn by the robber(s).
  o Any names used by the robber(s).
  o A description of any weapons shown, such as barrel length and color, color of the grip, or automatic or revolver.

• If the robber uses a note, try to place it out of sight to retain it as evidence.

• Do not follow a robber.

• Secure the Grow Facility and place a notice that the business is closed due to an emergency.

• Call the police and ambulance, as needed, immediately and request that witnesses stay or obtain their contact information.

• Provide aid to injured people.

• Do not discuss the robbery with any outside parties until police and management has given authority to do so.

• Do not estimate the amount of money or product that was taken until an inventory has been performed.

Corrective procedures that may be required to return conditions to a normalized and secure state:

• Change all security codes.

• Replace locks and issue keys only to authorized employees.
• Ensure any video of the incident is archived.
• Restore security devices and/or apparatus to working condition.
• Repair any physical damage to the Grow Facility.
• Provide employees and visitors, if applicable, counseling, as needed.
• Perform a security re-training as soon as possible.
• Modify Employee Access Control Log as deemed appropriate.

INTERNAL THEFT/BURGLARY CONTAINMENT AND CORRECTIVE PROCEDURES

In the event a threat is present to persons, cash, product due to internal theft or burglary, employees shall be trained to perform the following:

• Identify missing or compromised assets.
• Gather, remove, recover, and secure sensitive materials to prevent further loss or access.
• Power down, recycle or remove security equipment known to be compromised.
• Where possible, secure the premises for possible analysis by the Department and law enforcement.
• Gather and secure any evidence of illegal entry for review by the Department and law enforcement.
• Where possible, record identities of any party who might be a possible witness to events.
• Preserve video recordings and Visitor logs for review by the Department and law enforcement.

Corrective procedures that may be required to return conditions to a normalized and secure state:

• Retrieve or restore assets where possible.
• Store all sensitive materials and products in a secure manner (e.g., lockable cabinets or storage areas/container).
• Replace locks and issue keys only to authorized employees. Update the Employee Access Control Log as necessary.
• Restore security devices and/or apparatus to working condition.
• Remove and retain unauthorized equipment from network and/or area.
• Implement physical security devices and improvements (e.g., equipment cables, alarms) as deemed appropriate.
• Perform a security re-training as soon as possible.
FIRE PROCEDURES

If a fire does not present an immediate danger to personal safety, one (1) employee shall try to extinguish the fire. If a fire presents an immediate danger to personal safety, a fire alarm shall be pulled and a call to 911 shall be immediately made and evacuation of the building shall occur all at once.

Evacuation of Grow Facility

Any director or manager may determine the need to evacuate. Reasons for evacuation may include:

- Fire.
- Bomb threat.
- A hostile or violent employee, visitor, or unknown person.
- Power outage.
- Earthquake.
- Water or gas leak.
- Hazardous spill.
- Robbery or hostage situation.

The Site Manager shall ensure that all employees and visitors, if applicable:

- DO NOT gather in lobbies.
- DO NOT open a door without first checking for heat.
- DO NOT touch any suspicious items or suspected bombs.
- DO NOT run or panic.
- DO NOT re-enter the building until authorized.
- DO assist disabled individuals or others who need assistance. Evacuate disabled individuals or others who need assistance ONLY under the direction of authorized emergency personnel or when there is an immediate threat to personal safety and security.

INCIDENT CONTAINMENT

The Site Manager, in coordination with the appropriate department directors or managers, shall determine and implement the appropriate activities and processes required to quickly contain and minimize the immediate impact to personal safety, the Grow Facility, and other affected parties. Containment activities shall be designed to:

- Minimize harm to individuals.
- Counteract the immediate threat.
- Prevent propagation or expansion of the incident.
- Minimize actual and potential damage.
- Restrict knowledge of the incident to authorized employees.
- Preserve information relevant to the incident.

The Site Manager, in coordination with the appropriate department directors or managers, shall determine and implement the appropriate activities and processes to quickly:

- Secure the environment.
- Restore the environment to its normalized state.

The Site Manager shall be actively engaged throughout the incident to assess the progress of all containment and corrective measures and determine at what point the incident can be considered resolved.

INCIDENT CONTAINMENT AND CORRECTIVE PROCEDURES

The Site Manager shall determine and implement the appropriate procedures required to quickly contain and minimize the immediate impact of an incident, as well as to quickly restore circumstances to a normalized, secure state. Containment and corrective measures shall be designed with the primary objectives of:

- Minimizing harm.
- Counteracting the immediate threat.
- Preventing propagation or expansion of the incident.
- Minimizing the actual and potential damage.
- Restricting knowledge of the incident to authorized employees.
- Preserving information relevant to the incident.
- Securing the environment.
- Restoring the environment to its normalized state.

POST-INCIDENT REVIEW, REPORT, AND FOLLOW UP

The Site Manager shall hold a Post-Incident Review after each incident has been resolved. The Post-Incident Review shall be scheduled within two (2) to three (3) weeks of the incident’s resolution and shall involve:

- Appropriate personnel, which may include affected parties.
- Examination of the incident and all related activities and events.
- Discussion on proposed changes to policy, processes, and safeguards.
All incident activities, from receipt of the initial report through post-incident review, shall be documented. The Site Manager shall ensure all events are recorded, assembling these records in preparation and performance of the post-incident review, and ensuring all records are preserved for review. The following shall be included, at a minimum, in the Post- Incident Report:

- A description of incident events with specific timelines.
- Employee(s) involved.
- Non-Employees involved.
- Impact to affected parties.
- Discussions, decisions, and assignments made.
- Successful and unsuccessful activities.
- Notifications required or recommended.
- Steps taken for containment and resolution.
- Recommendations for prevention and remediation (short-term and long-term).
- Identification of policy and procedure gaps.
- Results of post-incident review.
- Any necessary follow-up actions.

The Post- Incident Report shall be distributed to the Site Manager, the Grow Facility Manager, and all other relevant parties for review. The Site Manager shall ensure the appropriate employees are assigned to any follow-up actions. The Site Manager shall document the completion of all follow-up actions in the Post- Incident Report and distribute an updated copy.

SECURITY SYSTEM RECORDS

We shall keep all necessary books and records in order to render a full account of all operations conducted at the Grow Facility under our license for the year to date and the five (5) years prior. We shall keep books and records of the Grow Facility from the previous six (6) months (or the complete copies of such records) in the Grow Facility at all times. All marijuana related records shall be retained in the inventory management system. All surveillances recordings shall be retained, at a minimum for at least sixty (60) days, unless in instances of investigation or inspection by the Department, through its investigators, agents, auditors, or the state police, in which case the licensee shall retain the recordings until such time as the department notifies the licensee that the recordings may be destroyed. Our standard operating procedures shall detail the maintenance of records and measures for addressing and reporting any loss or unauthorized alteration of records. The Department, upon request, shall have full access to all Grow Facility records and surveillance recordings.

We shall keep and maintain security and surveillance system records and recordings in the Grow Facility and copies stored on a secure cloud storage. These records shall include, at a minimum, the following:

- The name of the surveillance equipment installation service provider and all equipment manufacturers.
- Copies of any service contracts.
• A map of the Grow Facility showing the location and operation of each surveillance system component, including the direction of camera coverage.
• A list of authorized users.
• Manufacturers’ instructions for operating and maintaining the equipment.
• Testing and maintenance logs.
• Reports of any incidents of unauthorized entry.
• Employee Access Control Logs.
• Visitor Registration Logs.
• Authorized Visitor Access Control Logs.
• Incident Logs and Post-Incident Reports.
• Reports of any interruption in monitoring and/or complete failure of the system, including the length of the interruption period.
• A log of the recordings, which includes:
  o The identities of the employee or employees responsible for monitoring the video surveillance system.
  o The identity of the employee who removed the recording from the video surveillance system.
  o The identity of the employee who destroyed any recording.
• Video surveillance recordings shall be:
  o In a digital format that ensures authentication of the recording as being legitimately captured without alterations.
  o Easily accessible and in a format that allows for viewing and copying.
  o Embedded with the date and time without significantly obscuring the picture.

We will maintain a log of all recordings, which will include a minimum:
• The identities of the employee or employees responsible for monitoring the video surveillance system.
• The identity of the employee who removed the recording from the video surveillance system storage device and the time and date removed.
• The identity of the employee who destroyed any recording.

Video surveillance recordings shall be stored on an NVR that is server-based with storage as required to meet recording rate and retention. This system shall be password-protected and separate from any other equipment in the Grow Facility. The files and video surveillance recordings shall be available for inspection, upon request, by authorized representatives of the Department and other government officials when necessary to perform their official duties.

After the expiration of the retention period, and before selling or closing the facility, the surveillance video recordings shall be erased, destroyed, or otherwise disposed. We shall not destroy any surveillance video recordings if we have knowledge or should have knowledge of any ongoing criminal, civil, administrative, or other official investigations or proceedings for which the recording may contain relevant information. Additionally, we shall not destroy any surveillance
video recordings in instances of investigation or inspection by the Department, through its investigators, agents, auditors, or the state police, in which case the recordings shall be retained until such time as the Department notifies us that the recordings may be destroyed.
Security and Surveillance Equipment Room Access List

This is the current list of individuals having access to our Security and Surveillance Equipment Storage Room. Only those on this list are essential to maintain security and surveillance operations. All others will be denied access to the Security and Surveillance Equipment Room.

This list is available to the Department or authorized agents immediately upon request.

ARTICLES OF ORGANIZATION
For use by DOMESTIC LIMITED LIABILITY COMPANY

Pursuant to the provisions of Act 23, Public Acts of 1993, the undersigned executes the following Articles:

Article I

The name of the limited liability company is:

HELLER INVESTMENT HOLDINGS, LLC

Article II

Unless the articles of organization otherwise provide, all limited liability companies formed pursuant to 1993 PA 23 have the purpose of engaging in any activity within the purposes for which a limited liability company may be formed under the Limited Liability Company Act of Michigan. You may provide a more specific purpose:

Article III

The duration of the limited liability company if other than perpetual is:

Article IV

The street address of the registered office of the limited liability company and the name of the resident agent at the registered office (P.O. Boxes are not acceptable):

1. Agent Name: CSC-LAWYERS INCORPORATING SERVICE (COMPANY)
2. Street Address: 601 ABBOT ROAD
   Apt/Suite/Other: 
   City: EAST LANSING
   State: MI
   Zip Code: 48823
3. Registered Office Mailing Address:
   P.O. Box or Street Address: 601 ABBOT ROAD
   Apt/Suite/Other: 
   City: EAST LANSING
   State: MI
   Zip Code: 48823

Article V

(Insert any desired additional provision authorized by the Act; attach additional pages if needed.)

THE COMPANY SHALL BE MANAGED BY ONE OR MORE MANAGERS.

Signed this 17th Day of July, 2020 by the organizer(s):

1913
Date of this notice: 07-31-2020

Employer Identification Number: 85-2192285

Form: SS-4

Number of this notice: CP 575 A

For assistance you may call us at: 1-800-829-4933

WE ASSIGNED YOU AN EMPLOYER IDENTIFICATION NUMBER

Thank you for applying for an Employer Identification Number (EIN). We assigned you EIN 85-2192285. This EIN will identify you, your business accounts, tax returns, and documents, even if you have no employees. Please keep this notice in your permanent records.

When filing tax documents, payments, and related correspondence, it is very important that you use your EIN and complete name and address exactly as shown above. Any variation may cause a delay in processing, result in incorrect information in your account, or even cause you to be assigned more than one EIN. If the information is not correct as shown above, please make the correction using the attached tear-off stub and return it to us.

Based on the information received from you or your representative, you must file the following form(s) by the date(s) shown.

Form 941 01/31/2021
Form 940 01/31/2021

If you have questions about the form(s) or the due date(s) shown, you can call us at the phone number or write to us at the address shown at the top of this notice. If you need help in determining your annual accounting period (tax year), see Publication 538, Accounting Periods and Methods.

We assigned you a tax classification based on information obtained from you or your representative. It is not a legal determination of your tax classification and is not binding on the IRS. If you want a legal determination of your tax classification, you may request a private letter ruling from the IRS under the guidelines in Revenue Procedure 2004-1, 2004-1 I.R.B. 1 (or superseding Revenue Procedure for the year at issue). Note: Certain tax classification elections can be requested by filing Form 8832, Entity Classification Election. See Form 8832 and its instructions for additional information.
If you are required to deposit for employment taxes (Forms 941, 943, 940, 944, 945, CT-1, or 1042), excise taxes (Form 720), or income taxes (Form 1120), you will receive a Welcome Package shortly which includes instructions for making your deposits electronically through the Electronic Federal Tax Payment System (EFTPS). A Personal Identification Number (PIN) for EFTPS will also be sent to you under separate cover. Please activate the PIN once you receive it, even if you have requested the services of a tax professional or representative. For more information about EFTPS, refer to Publication 966, Electronic Choices to Pay All Your Federal Taxes. If you need to make a deposit immediately, you will need to make arrangements with your Financial Institution to complete a wire transfer.

The IRS is committed to helping all taxpayers comply with their tax filing obligations. If you need help completing your returns or meeting your tax obligations, Authorized e-file Providers, such as Reporting Agents (payroll service providers) are available to assist you. Visit the IRS Web site at www.irs.gov for a list of companies that offer IRS e-file for business products and services. The list provides addresses, telephone numbers, and links to their Web sites.

IMPORTANT REMINDERS:

* Keep a copy of this notice in your permanent records. This notice is issued only one time and IRS will not be able to generate a duplicate copy for you. You may give a copy of this document to anyone asking for proof of your EIN.

* Use this EIN and your name exactly as they appear at the top of this notice on all your federal tax forms.

* Refer to this EIN on your tax-related correspondence and documents.

* Provide future officers of your organization with a copy of this notice.

Your name control associated with this EIN is TYCO. You will need to provide this information, along with your EIN, if you file your returns electronically.

If you have questions about your EIN, you can contact us at the phone number or address listed at the top of this notice. If you write, please tear off the stub at the bottom of this notice and include it with your letter. Thank you for your cooperation.
OPERATING AGREEMENT
OF
TYCOON I OPERATIONS, LLC

THIS OPERATING AGREEMENT (this “Agreement”) is entered into and made effective as of July 22, 2020 (the “Effective Date”) by and between TYCOON I OPERATIONS, LLC, a Michigan limited liability company (the “Company”), and TYCOON HOLDINGS, LLC, a Michigan limited liability company and sole member of the Company (the “Member”).

Background

A. The Company was formed on July 22, 2020 as a Michigan limited liability company.

B. The undersigned desires to memorialize its rights and obligations with respect to the Company pursuant to the terms of this Agreement.

Agreement

In consideration of the foregoing background and for other good and valuable consideration, the receipt and sufficiency of which is hereby acknowledged, and intending to be legally bound hereby, the parties agree as follows:

ARTICLE I
DEFINITIONS

The following capitalized terms used in this Agreement shall have the following meanings (unless otherwise expressly provided herein):

“Act” means the Michigan Limited Liability Company Act, as amended.

“Business” means the principal business of the Company, which shall be to own and manage investments.

“Capital Contribution” means any contribution of cash or property to the Company, or any obligation to contribute cash or property to the Company, whenever made.

“Certificate” means the Articles of Organization as filed by the organizer of the Company with the Department of State of the State of Michigan, as amended.

“Interest” means the Member’s entire interest in the Company.
“Person” means any individual, trust, partnership, corporation, limited liability company or entity.

ARTICLE II
FORMATION OF COMPANY

2.1 Formation. The Company has been organized as a Michigan limited liability company by executing and delivering the Certificate in accordance with and pursuant to the Act.

2.2 Name. The name of the Company is Tycoon I Operations, LLC.

2.3 Registered Office. The address of the registered office of the Company shall be The CSC – Lawyers Incorporating Service, 601 Abbot Road, East Lansing, Michigan 48823, or at such other place as the Member may from time to time determine. The registered office of the Company may be changed from time to time by amending the Certificate in accordance with the Act. The Company may maintain such other offices, including, but not limited to, a principal place of business as the Member shall determine.

2.4 Purpose. The purposes of the Company shall be (a) to advance and grow the Business, (b) to engage in all other lawful business authorized pursuant to the Act, and (c) to make, enter into and perform any contracts and other undertakings, and to engage in any activities and transactions as may be ancillary to or necessary or advisable to carry out the foregoing purposes.

2.5 Term. The term of the Company shall be perpetual unless the Company is earlier dissolved in accordance with the provisions of this Agreement.

ARTICLE III
CAPITAL CONTRIBUTIONS; LOANS; DISTRIBUTIONS

3.1 Capital Contributions. The Company shall keep a record of all Capital Contributions made by the Member. The Member shall not be required to make any Capital Contribution to the Company not specifically agreed to in writing between the Member and the Company.

3.2 Loans. Any and all loans made to the Company by the Member shall not be considered Capital Contributions.

3.3 Distributions. Distributions shall be made to the Member (in cash or in kind) at such times and in such amounts determined by the Member and as permitted by applicable law.
ARTICLE IV
MEMBER

4.1 Member. The name and address of the Member is:

Tycoon Holdings, LLC
2055 Crooks Road, Suite B
Rochester Hills, MI 48309

4.2 Management. The Company shall be initially managed by Heller Investment Holdings, LLC.

4.3 Right to Rely on Member. Any Person dealing with the Company may rely (without duty of further inquiry) upon a certificate signed by a designee of the Member as to: (a) the identity of the Member; (b) the existence or non-existence of any fact or facts which constitute a condition precedent to acts by the Member or which are in any manner germane to the affairs of the Company; (c) the Persons who are authorized to execute and deliver any instrument or document of the Company; or (d) any act or omission by the Company or any other matter whatsoever involving the Company or the Member.

4.4 Authority to Designate Officers. The Member may elect, appoint or designate, by resolution or otherwise, individuals as officers of the Company and delegate to such officers such powers, authority and responsibilities as are (i) set forth in the designation or delegation, and (ii) necessary to carry out and implement the management decisions of the Member. The Member may remove any officer, with or without cause, at any time. Any officer may resign at any time by giving written notice to the Company. Any resignation shall take effect as of the date of the Company's receipt of such notice or at any later time specified in such notice (unless such officer is otherwise removed prior to such date); and unless otherwise specified in such notice, the acceptance of the resignation shall not be necessary to make it effective. Unless the Member decides otherwise, if the title to an officer of the Company is one commonly used for officers of a business corporation, the assignment of such title shall constitute the delegation to such individual of the authority and duties that are normally associated with that office. The current officers of the Company are as set forth on Schedule A attached hereto, as may be amended from time to time.

4.5 Liability of Member and Officers. Neither the Member nor any officer, agent or representative of the Member, or officer of the Company, shall be liable to the Company or to the Members, as applicable, for (i) the performance of, or the failure to perform, any act or duty on behalf of the Company if, in good faith, the Members or officer determined that such conduct was in the best interests of the Company and such conduct did not constitute fraud, gross negligence or reckless or intentional misconduct, (ii) the termination of the Company and this Agreement pursuant to the terms hereof, and (iii) the performance of, or the failure to perform, any act on behalf of the Company in good faith reliance on advice of legal counsel, accountants or other professional advisors to the Company.
4.6 Indemnification. The Company shall indemnify, defend and hold the Member and the officers, agents and representatives of the Member, and each officer of the Company and, in the discretion of the Member, each employee of the Company, harmless from and against any expense, loss, damage or liability incurred or connected with, or any claim, suit, demand, loss, judgment, liability, cost or expense (including reasonable attorneys’ fees) arising from or related to, the Company or any act or omission of such Member (or officer, agent or representative of the Member) or officer (or employee) and amounts paid in settlement of any of the foregoing, to the fullest extent provided or allowed by the laws of the State of Michigan. The Company may advance to any such Person the costs of defending any claim, suit or action against such Person.

4.7 Title to Company Property. All real and personal property shall be acquired in the name of the Company and title to any property so acquired shall vest in the Company itself rather than in the Member.

ARTICLE V
ACCOUNTING AND TAX MATTERS

5.1 Accounting Principles. The Company’s financial statements shall be prepared and its profits and losses shall be determined in accordance with methods of accounting selected by the Member, which need not be the same as the method of accounting used for tax purposes.

5.2 Returns and Other Elections. The Member shall cause the preparation and timely filing of all tax returns required to be filed by the Company pursuant to the Code and all other tax returns deemed necessary and required in each jurisdiction in which the Company does business. All elections permitted to be made by the Company under federal or state laws shall be made by the Member in its sole discretion. So long as the Company has only one member, the Company shall be treated as a disregarded entity for income tax purposes.

ARTICLE VI
TRANSFERS; ADDITIONAL MEMBERS

6.1 Transferability of Membership Interest. The Member’s Interest in the Company is freely transferable or assignable, in whole or in part, either voluntarily or by operation of law.

6.2 Admission of Additional Members. Additional members of the Company may be admitted to the Company at the direction of the Member only if a new operating agreement or an amendment and restatement of this Agreement is executed by such additional member or members.
ARTICLE VII
DISSOLUTION AND LIQUIDATION

7.1 Dissolution.

(a) The Company shall be dissolved and its affairs wound up and terminated only upon the determination of the Member. The dissolution or bankruptcy of the Member or the occurrence of any other event that terminates the continued membership of the Member shall not cause a dissolution of the Company.

(b) Dissolution of the Company shall be effective on the day on which an event described in Section 7.1(a) above occurs, but the Company shall not terminate until articles of dissolution shall be filed with the Department of State of the State of Michigan and the assets of the Company are distributed as provided in Section 7.2 below. Notwithstanding the dissolution of the Company, prior to the termination of the Company, the business of the Company and the affairs of the Member shall continue to be governed by this Agreement.

7.2 Winding Up. Upon dissolution, the Company shall continue until the winding up of the affairs of the Company is completed and a certificate of dissolution has been filed pursuant to the Act. Upon the winding up of the Company, the Company’s property shall be distributed (a) first to creditors, including the Member if the Member is a creditor, to the extent permitted by law, in satisfaction of the Company’s liabilities, and (b) then to the Member. Distributions shall be in cash or property or partly in both, as determined by the Member.

ARTICLE VIII
MISCELLANEOUS PROVISIONS

8.1 Notices. Any notice, demand or communication required or permitted to be given by any provision of this Agreement shall be in writing and shall be deemed to have been delivered (a) two business days after being sent by registered or certified United States mail, or (b) upon delivery if hand delivered, sent via facsimile transmission or electronic mail. If delivered to the Member, such notice shall be delivered to his address as it appears in Section 4.1 above. If to the Company, such notice shall be delivered to its principal place of business.

8.2 Governing Law. This Agreement, and the application and interpretation hereof, shall be subject to and governed exclusively by its terms and by the laws of the State of Michigan, without regard to its conflicts of laws provisions.

8.3 Construction. Whenever the singular number is used in this Agreement and when required by the context, the same shall include the plural and vice versa, and the masculine gender shall include the feminine and neuter genders and vice versa. Unless expressly stated otherwise, Section and Article references herein shall refer to the Sections and Articles of this Agreement.

8.4 Waivers. No waiver by any party of the breach of any provision hereof shall be deemed to constitute a waiver of any continuing or subsequent breach of such provision or any other provision hereof.
8.5 **Severability.** If any provision of this Agreement or the application thereof to any Person or circumstance shall be invalid, illegal or unenforceable to any extent, the remainder of this Agreement and the application thereof shall not be affected and shall be enforceable to the fullest extent permitted by law, provided that the essential purpose of this Agreement is not frustrated.

8.6 **Heirs, Successors and Assigns.** The covenants, terms, provisions and agreements herein contained shall be binding upon, and inure to the benefit of, the parties hereto and, except as otherwise provided to the contrary, their respective heirs, executors, administrators, legal representatives, successors and permitted assigns.

8.7 **Entire Agreement.** This Agreement embodies the entire agreement and understanding between the parties hereto with respect to the subject matter hereof and supersedes all prior agreements and understandings relating to such subject matter.

[SIGNATURES APPEAR ON FOLLOWING PAGE]
IN WITNESS WHEREOF, the parties hereto have caused this Agreement to be signed as of the Effective Date.

STAFFING PLAN

Summary of Job Creation, Compensation and Budget

As discussed in detail below, we anticipate creating approximately 59 jobs at our Orion Township Cultivation Facility.

<table>
<thead>
<tr>
<th>Type of Marijuana Facility</th>
<th>Proposed Location</th>
<th>Total Jobs Per Facility</th>
<th>Expected Annual Payroll</th>
</tr>
</thead>
<tbody>
<tr>
<td>Cultivation Facility</td>
<td>Orion Township</td>
<td>59</td>
<td>$3,750,000.00</td>
</tr>
</tbody>
</table>

We pay our cultivation facility employees a minimum hourly wage of $15. We also provide a generous benefit package that includes the following:

- Health Insurance
- Paid Holidays
- Paid Time Off
- 401K Plan with 2% Match
- Performance Incentives

Out of our 3.75MM expected annual payroll, Tycoon I Operations expects to allocate $630,000 toward benefits for all full-time employees!

We intend to source our employees first from Orion Township, then into the surrounding regional area. Our job listings will always be listed in the Orion Township area first to accumulate as many qualified candidates as possible.

Attached is a table of the proposed positions at our Orion Cultivation Facility:

CHARTER TOWNSHIP OF ORION
ORDINANCE No. 154 APPLICATION REVIEW

Planning Commission Case:   PC-2021-28
Parcel Number:  09-35-477-001 & 09-35-477-002
Property Address:  180 Premier Drive
Applicant:  Tycoon I Operations LLC
Request: Class C Grow – Adult Use
Date: February 12, 2021

The aforementioned application was reviewed for compliance with the location requirements of Article VI of Ordinance No. 154 and the finds are detailed below:

Article V, 1. – The Facility must be located in the Township’s IP (Industrial Park) district: The parcels are zoned IP (Industrial Park) as required.

Article V, 2 – The Facility cannot be within one thousand five hundred (1,500) feet of a “church” in the Township: Article VI, 7 states that the distances specified in the Ordinance shall be measured from building edge to building edge. The applicant stated within their application that the facility is more than the required 1,500 feet. Using GIS, a measurement was taken from the edge of the property where the building is located (for simplicity vs. from edge of building which is further) to the edge of the closest church and it was over 1,600 feet.

Article VI, 3 – The Facility cannot be within two thousand (2,000) feet of a residence located in a R-1, R-2, R-3, SF, SE, SR, RM or MHP zoning district: Article VI, 7 states that the distances specified in the Ordinance shall be measured from building edge to building edge. The applicant stated within their application that the facility is more than the required 2,000 feet. Using GIS, a measurement was taken from the edge of the property where the building is located (for simplicity vs. from edge of building which is further) to the edge of the closest residential property line (for simplicity) and it was 2,500 feet.

Article VI, 4 – The Facility cannot be within two thousand five hundred (2,500) feet of a registered “school” within the Township: Article VI, 7 states that the distances specified in the Ordinance shall be measured from building edge to building edge. The applicant stated within their application that the facility is more than the required 2,500 feet. The closest school is over 2 miles from the parcel. (Scripps and Stadium Rds.)
Article VI, 5 – The Facility shall not have an ingress or egress on a street or road that has an average traffic volume in excess of six thousand (6,000) vehicles per day, as calculated by averaging the three (3) most recent Average Annual Daily Traffic (AADT) counts (as available), as reported by Southeast Michigan Council of Governments (SEMCOG): The building has ingress and egress off of Premier Drive. SEMCOG’s website does not contain any traffic count reports for Premier Dr.

Article VI, 6- The Facility shall not have an ingress or egress on a street or road that directly also serves as an ingress or egress to a residential road or property located in a R-1, R-2, R-3, SF, SE, SR, RM or MHP zoning district. The building has both ingress or egress off of Premier Dr. Premier Dr. does not serve as an ingress and/or egress to any property located in a R-1, R-2, R-3, SF, SE, SR, RM or MHP zoning district.

Article VI, 7 - Distances specified in this Ordinance shall be measured from building edge to building edge. The measurements, unless noted differently, were measured from building edge to proposed building edge.

Article VI, 8 – If the Facility shall need a variance from what is set forth in Article VI Sections one (1) through six (6) above, the Applicant may submit a formal request for a variance to the Zoning Board of Appeals (“ZBA”). The ZBA shall only consider a variance request that is no more than fifteen percent (15%) out of compliance with the above location regulations: The applicant is not requesting any variances from the ZBA.

Article VI, 9 – It is the Township’s intention that Growers, Processors, Safety Compliance Facilities and Secured Transporters may operate within the same building under the following conditions: each licensed entity remains distinct and separate within different working area and separate record keeping systems: The applicant is requesting a Class C Grow – Adult Use only.

Article VI, 10 –The location shall meet all applicable Ordinances and promulgated standards of the Township and, prior to opening, shall demonstrate to the Township that it meets the rules and regulations promulgated by the State Marijuan Regulatory Agency (MRA):

ITEMS TO BE ADDRESSED: These items are unknown at this time. It is recommended that any approval be conditioned upon this requirement.

Article VI, 11 – The Facility location shall conform to all standards of the zoning district in which it is located: This condition has been met. The building itself has received site plan approval.
Article VI, 12 – If the Facility location is currently vacant land, the applicant must submit a site plan and building plans with the Application. The application is for an improved parcel that has received site plan approval.

Article VI, 14 – Based upon an application for or amendment of a Conditional Rezoning, PUD, or other use Development Agreement of sufficient specificity, it is within the sole discretion and judgment of the Township Board of Trustees to consider and waive any or all of the Location Requirements of this Article VI based upon any or all of 3 factors listed in Article VI 14 a,b, and c.: The applicant is not requesting any waivers.

Summary: I have reviewed the application as it relates to Ordinance No. 154 Article VI – Location Requirements. I am agreeable with the recommendation to approve this application with the conditions that:

1. The applicant meets all other applicable Township Ordinances and promulgated standards of the Township and, prior to opening, shall demonstrate to the Township that it meets the rules and regulations promulgated by the State Mariujana Regulatory Agency (MRA).

Re: Marihuana Facility Permit Application; Tycoon I Operations, LLC  
180 Premier Drive, Orion Charter Township, MI 48539  
Adult-Use Class C Grow 2 of 5

Dear Madam Clerk:

Please find attached a Marihuana Facility Permit Application and all exhibits for five Adult Use Class C Grow permits to operate at 180 Premier Drive, Orion Charter Township, MI 48359. This application represents two of five of the Adult Use Class C grow permits.

If the Township believes any additional information or materials are required for this filing, please do not hesitate to contact us. Kindly direct all communications regarding this application to Aaron Fogleman either by phone at 248.920.8770 or by email at licensing@gloriuscanna.com.

We look forward to contributing significantly to the Township through economic development, training and employment, education and outreach, and to becoming a valuable community partner.

Thank you for your consideration.
ORION ORDINANCE 154 INITIAL PERMIT APPLICATION
Ordinance 154, Licensed Marihuana Facilities Ordinance

Pursuant to the Charter Township of Orion Ordinance 154, Licensed Marihuana Facilities Ordinance, the following application is intended to collect information and documentation establishing the applicant’s conformance with the ordinance. All applicants should note that the approval of a Marihuana Permit will be based upon the accuracy and completeness of the information provided. In the event applications are received in excess of the permitted number of locations within the Ordinance or two or more applicants have similar qualifications, the Charter Township of Orion reserves its right to approve a permit which in the opinion of the Township best meets its goals and safeguards as set forth in the Ordinance. No financial or other right is established by the payment of the non-refundable application fee. All applications for renewal of a permit shall be reviewed per the standards set forth in the Ordinance. The Charter Township of Orion reserves the right to approve or deny the permit based upon the failure of any applicant to establish to the satisfaction of the Township any requirement, standard or goal of the Ordinance. The applicant understands this determination may involve a subjective interpretation of the application. Any permit granted by the Township is contingent upon the State of Michigan granting a state license for the specific license applied for under this ordinance.

SECTION A- APPLICANT

1. Name of Applicant: **Tycoon 1 Operations, LLC**
   Authorized Signer (of not an individual): **Daryl Heller**
   Address of Applicant: **2055 Crooks Rd, Suite B**
   Rochester Hills, MI 48309
   Phone Number: **248.920.8770**
   Email Address: **licensing@gloriouscanna.com**
   Sole Proprietor □ Partnership □
   Corporation □ Limited Liability Company ✓
   □Other: ____________________

2. If entity is Sole Proprietor, state Owner/Proprietor’s date of birth: __________ and provide a copy of photo identification.

3. If other than Sole Proprietor, list name, address and date of birth of all owners and provide copies of photo identification and percentage of ownership.
4. Name and address, phone number, date of birth and photo identification of all anticipated employees of facilities not listed as owners. (This information must be provided and supplemented before any future employee not listed begins working at facility)

5. If the Applicant or owner or any operator is a licensed caregiver under the Michigan Medical Marihuana Act, please list their name and address, and caregiver ID number issued by the State of Michigan, N/A.

6. For any corporation or other legal entity who has a financial interest or affiliation with the requested permit, please state the following:

Name: Please see Organization Structure in Exhibit I
Name of Authorized Signer: ________________________________
Address: ________________________________________________

Interest or Affiliation: ____________________________________

SECTION B- FACILITY LOCATION

7. Name of proposed facility: Oakland Business Park, Building B

8. Location of proposed facility: 180 Premier Drive

Orion Charter Township, MI 48359

1932
9. Please provide a preliminary floor plan sketch showing the location of all facility operations within an existing building, or for new construction a site plan for the parcel. Attach as Exhibit “A”
   ☐ Document(s) attached. If not attached, why not and when is applicant expected to supplement: ____________________________

10. With respect to the location of the facility, please state with specificity the exact location, address, suite number and, if necessary, the location of the facility within a building or the parcel of land. This location should include the distance in feet from each property line. Attach as Exhibit “B”
   ☐ Document(s) attached.
   If not attached, why not and when is applicant expected to supplement: ________________

11. Please provide evidence of the Applicant’s property interest in the proposed location. Provide copies of documentation showing a legal and enforceable property interest. Attach as Exhibit “C”.
   ☐ Document(s) attached.
   If not attached, why not and when is applicant expected to supplement: ________________

12. Please confirm and establish that the facility is located within the Township’s Industrial Park district (“IP”); is not within 1,500 feet of a church; is not within 2,000 feet of a residence located in the R-1, R-2, R-3, SF, SE, SR, RM or MHP Zoning Districts; is not within 2500 feet of a registered school and does not have ingress or egress on a street or road that has an average traffic volume in excess of 6,000 vehicles per day as calculated and reported by Southeast Michigan Counsel of Governments. Further, please show that the facility does not have an ingress or egress on a street or road that serves as an ingress or egress to a residential road or property located in a R-1, R-2, R-3, SF, SE, SR, RM or MHP Zoning District. For each of the above criteria, please attach any and all documents which will permit the Township to calculate compliance with the Licensed Marijuana Facilities Ordinance No. 154. At a minimum, provide a map showing the facility and measured distances (building edge to building edge). Attach as Exhibit “D”.
   ☐ Documents attached.
   If not attached, why not and when is applicant expected to supplement: ____________________________

a) Is the Facility located in the Township’s IP (Industrial Park District) zoning district?

☐ Yes ☐ No
b) Is the Facility more than one thousand five hundred (1,500) feet of any church in the Township?

☐ Yes    ☐ No

c) Is the Facility more than two thousand (2,000) feet of any residence located in an R-1, R-2, R-3, SF, SE, SR, RM, or MHP zoning district?

☐ Yes    ☐ No

d) Is the Facility more than two thousand five hundred (2,500) feet of any registered school within the Township.

☐ Yes    ☐ No

For 10-12 above, please provide a map showing the facility and measured distances (building edge to building edge.)

e) Does the facility have an ingress or egress on a street or road that has an average traffic volume of six thousand (6,000) or less vehicles per day, as calculated by averaging the three (3) most recent Average Annual Daily Traffic (AADT) counts (as available), as reported by the Southeast Michigan Council of Governments (SEMCOG) per the site semcog.org/Traffic-Counts?

☐ Yes    ☐ No

f) Does the Facility have an ingress or egress on a street or road that does not also serve as an ingress or egress to a residential road or property located in a TR-1, R-2, R-3, SF, SE, SR, RM, or MHP zoning district?

☐ Yes    ☐ No

Name of Facility ingress/egress Street or road: Premier Drive

13. Please state whether the Applicant will seek a variance from the Zoning Board of Appeals pursuant to Article 6(8) of the Orion Licensed Marihuana Facilities Ordinance No. 154.

☐ Yes    ☐ No

If variance will be sought, specify location category(s) pursuant to Art 6 (1)-(6):
For each category variance sought, state the percentage the applicant will seek: ______%  
(Not to exceed 15%)

**SECTION C- FACILITY REQUIREMENTS**

14. When available, submit to the Township a copy of the Applicant’s application for a license submitted to the State of Michigan, Department of Licensing and Regulatory Affairs, for each facility permit requested. 
Attach as Exhibit “E”.
☐ Document(s) attached.

If not attached, why not and when is applicant expected to supplement: ________________

Phase 2 application with the state of Michigan requires a permit and signed attestation from the municipality. We expect to submit our application with the state by 03/01/2021.

15. Is consumption and/or use of marihuana prohibited at the Facility?

☐ ☐ Yes ☐ No

16. Will all activity related to the Facility be done indoors?

☐ ☐ Yes ☐ No

17. Will all Marihuana contained within the building be in a locked Facility in accordance with the Michigan Medical Marihuana Act, MCL 333.26421 et seq., as amended (“MMMA”), the Michigan Medical Marihuana Facilities Licensing Act, MCL 333.27101, et seq., and the Michigan Regulation and Taxation of Marihuana Act, MCL 333.27951, et seq., as amended (“MRTMA”) as amended?

☐ ☐ Yes ☐ No

18. Please set forth an operations statement, plan and or outline showing that all facility activities shall occur indoors and in a building which is locked. 
Attach as Exhibit “F”
☐ Document(s) attached.

If not attached, why not and when is applicant expected to supplement: ________________

19. Will all necessary building, electrical, plumbing and mechanical permits obtained for any portion of the structure in which electrical wiring, lighting and/or watering devices are located?

☐ Yes ☐ No
20. When available and prior to the issuance of any permit, the Applicant must submit all necessary building, electrical, plumbing and mechanical permits, as well as documented approval by the Orion Fire department showing compliance with the Michigan Fire Protection Code and confirmation that the storage of any chemical, herbicide, pesticide and or fertilizer has also been approved by the Orion Fire Department. 
Attach as Exhibit “G”.
☑ Document(s) attached.
If not attached, why not and when is applicant expected to supplement: ____________________

21. In any portion of the structure where the storage of any chemicals such as herbicides, pesticides, and/or fertilizers, do you agree to be subject to inspection and approval by the Orion Fire Department to ensure compliance with the Michigan Fire protection Code?

☑ Yes ☐ No

22. Will you ensure that no other uses, other than accessory uses, will be permitted within the same Facility other than those associated with cultivating, processing, transporting or testing marihuana?

☑ Yes ☐ No

23. Please state and/or provide documentation showing the plan that all litter and waste will be properly and safely removed and will not constitute a source of contamination in areas where marihuana is exposed. Further, please include how the applicant will dispose of rubbish so as to minimize the development of odor and minimize the potential for development of waste odor and waste from becoming an attracted, harborage or breeding place for pests. Please include a detailed description of the ventilation system. Attach as Exhibit “H.”
☑ Document(s) attached.
If not attached, why not and when is applicant expected to supplement: ____________________

a) Will litter and waste be properly removed and the operating systems for waste disposal maintained in an adequate manner so that they do not constitute a source of contamination in areas where marihuana is exposed?

☒ Yes ☐ No

b) Will floors, walls and ceilings be constructed in such a manner that they may be adequately cleaned and kept clean and in good repair?

☒ Yes ☐ No
c) Will there be adequate screening or other protection against entry of pests, and will rubbish be disposed of so as to minimize the development of odor, minimize the potential for development of waste odor, and minimize the potential for waste becoming an attractant harborage or breeding places for pests?

X Yes ☐ No

d) Will all buildings, fixtures and other facilities be maintained in a sanitary condition?

X Yes ☐ No

e) Will each Facility center provide its occupants with adequate and readily accessible toilet facilities that will be/are maintained in a sanitary condition and in good repair?

X Yes ☐ No

24. Please state how the Applicant intends to avoid excessive noise, dust, vibrations, glare, fumes or odors detectable to the normal senses beyond the boundaries of the property. Attach as Exhibit “I”.

☑ Document(s) attached.

If not attached, why not and when is applicant expected to supplement: __________________________

a) Will each Facility be operated in a manner that does not create excessive noise, dust, vibrations, glare, fumes or odors detectable to the normal senses beyond the boundaries of the property on which that Marihuana Facility will operate/operates or in violation of any other ordinance?

☑ Yes ☐ No

25. Please provide the plan and supporting documentation showing that all disposal systems for spent water and spent soil have been adequately and safely disposed of and accounted for.

Attach as Exhibit “J”.

☑ Document(s) attached.

If not attached, why not and when is applicant expected to supplement: __________________________

26. Please provide a security and safety plan, and at a minimum showing the facilities surveillance systems and continuous monitoring systems of the entire premise as required by the ordinance.

Attach as Exhibit “K”.

☑ Document(s) attached.

If not attached, why not and when is applicant expected to supplement: __________________________
a) Will the Facility continuously monitor the entire premises with surveillance systems that include security cameras operating 24 hours a day, 7 days a week, every day of the year, and will these recordings be maintained for a period of at least 30 days?

☐ Yes ☐ No

27. Please state and/or show the exterior signage or advertising identifying the facility.  
Attach as Exhibit “L”.
☐ Document(s) attached.
If not attached, why not and when is applicant expected to supplement: ______________________
The facility will only show the numbers associated with its address ______________________

a) Do you understand and agree that any exterior signage or advertising identifying the Facility as a marihuana facility is prohibited?

☐ Yes ☐ No

SECTION D- BUSINESS OPERATIONS AND SECURITY

28. Active business operations shall not be open outside of the hours of 7am and 9pm.

AFFIRMATION OF STAKEHOLDERS, AGENTS OR EMPLOYEES
FOR A LICENSED MARIHUANA FACILITY

1. I _______ Daryl Heller __________ make this affirmation in support of the

   Application for a permit with the Charter Township of Orion for a Marihuana facility

   located at 180 Premier Drive, Orion Charter Township, MI 48359

2. I affirm that I

   a. That I am at least 21 years of age.

   b. Have never been indicted or charged with or arrested for, convicted of, plead

      guilty, or nolo contendere to a felony or to a controlled substance related

      misdemeanor.

3. I have not previously had a business license permit or registration denied or revoked or

   suspended by Orion Township.

   Dated: 02/09/2021

   Print name: Daryl Heller
C. Lease Agreement
COMMERCIAL LEASE

This lease (the Lease), is entered into on November 1, 2020, between Premier Drive Tycoon I, LLC, with an address at 1615 S Telegraph Rd, Bloomfield Hills, MI (Landlord), and Tycoon I Operations, LLC (Tenant) on the terms and conditions listed below.

1. Description of the Premises. Landlord owns the real property, improvements and any and all structures thereon located at 180 Premier Drive, Orion Township, MI 48359 ("Premises"), consisting of approx. 72,000 square feet. Tenant shall have the right to use the Premises to conduct its daily business operations and for any ancillary or related purposes including the operation of a marijuana business.

2. Basic Lease provisions. The basic Lease provisions are stated below and further explained in the section referenced to the right of each provision:

(a) Term: 10 years (See §3)
(b) Commencement Date: February 1, 2021 (See §3)
(c) Termination date: October 31, 2030 (See §3)
(d) Options: 1 option to renew for additional 10 years (See §3)
(e) Monthly installment amount: $75,000 or $12.50; per square foot; (See §4)
(f) Security deposit: $75,000.00 (See §5)
(g) Use: Tenant’s desired business operation (See §10)

3. Term. This Lease shall be for a term stated in section 2(a) commencing on the date stated in section 2(b) (the Commencement Date) and terminating on the date stated in section 2(c). The rent for the first month shall be prorated from date of occupancy, if the date of occupancy is after the first day of the month. Each succeeding lease year shall begin on the anniversary of the same date and continue until the termination of the Lease.

Provided that Tenant is not in default under this Lease at the end of the then current Lease term, Tenant shall have the right to renew the term of this Lease for the option period stated in section 2(d) by giving Landlord written notice of Tenant’s intent to renew the Lease at least 120 days before the expiration of the then current term. The renewal shall be on the same terms and conditions as in this Lease, except that the minimum rent for each renewal term shall be increased by a percentage equal to the percentage increase in the Consumers Price Index (Bureau of Labor Statistics Washington, D.C., all Cities) (CPI) during the preceding term. The percentage increase shall be determined by comparing the latest available CPI before the Commencement Date of the Lease or the prior term, whichever shall apply, and the latest available CPI on or before the expiration of the immediately preceding initial or renewal lease term. The word “term” as used in this Lease shall include any renewal term.

4. Minimum rent. Tenant shall pay to Landlord as rent the sum stated in section 2(e), payable in monthly installments due in advance, on the first day of each month during the term of this Lease. All rent shall be paid to Landlord at the address set forth above or at such other address as Landlord may designate in writing, without any prior demand and without any deduction or offset.

If Tenant shall fail to pay any amount due from it to Landlord under this Lease when that amount shall be due, a one-time late charge of $50.00 shall be assessed and thereafter the amount of rent not paid shall be subject to a service charge until that amount is paid at the lesser of the rate of 5% per month or the highest rate permitted by law.
5. **Security deposit.** Tenant, contemporaneously with the execution of this Lease, has deposited with Landlord the sum stated in section 2(f) as a security deposit. The deposit shall be held by Landlord, without liability for interest, as security for the faithful performance by Tenant of all the terms, covenants, and conditions of this Lease to be kept and performed by Tenant during the term of this Lease.

If Tenant fails to keep and perform any of its covenants of this Lease, Landlord at its option may appropriate and apply the entire deposit, or so much as may be necessary, to compensate Landlord for loss or damage sustained by Landlord due to Tenant’s breach. If the entire deposit or any portion is appropriated and applied by Landlord for the payment of overdue rent or other sums due and payable to Landlord by Tenant, Tenant shall, on the written demand of Landlord, forthwith remit to Landlord a sufficient amount in cash to restore the security to the original sum deposited. Tenant’s failure to do so within 5 days after receipt of demand shall constitute a breach of this Lease.

6. **Taxes.** Tenant shall pay or cause to be paid all real property taxes and special assessments levied against the Building including the Premises. Tenant shall pay all personal property taxes assessed against any personal property owned by Tenant on the Premises.

7. **Maintenance and repair.** Tenant shall maintain and repair and keep the Premises in good condition and repair, including the exterior windows and the electrical system. Landlord shall, at tenants expense, make all other repairs and replacements to the Building, including those of a structural or capital nature. Landlord shall, at tenants expense, enter into an annual maintenance contract with a licensed heating and mechanical firm for the maintenance of the heating and air conditioning equipment during the term. Landlord shall be obligated to make repairs only after Tenant has given Landlord written notice of the need for the repair, and only if the repair was not caused by the negligence or willful act of Tenant, its agents, employees, invitees, or licensees.

Tenant shall provide and pay for its own regular janitorial service to maintain the Premises in a neat and clean condition. Tenant shall be responsible for all repairs or replacements to the Building occasioned by the negligence or willful act of Tenant, its agents, employees, invitees, or licensees.

8. **Utilities.** Tenant shall have all utilities servicing the Premises metered in its own name and shall pay all charges and deposits for the utilities provided to or used in the Premises during the term of this Lease. Tenant shall also pay 100% of the water and sewer bill. Landlord shall not be liable in damages should the furnishing of any utilities be interrupted by fire or other casualty, accident, strike, labor dispute or disagreement, the making of any necessary repairs or improvements, or any other causes beyond the reasonable control of Landlord.

9. **Liability insurance.** Tenant shall indemnify Landlord and save Landlord harmless from any liability or claim for damages that may be asserted against Landlord by reason of any accident or casualty occurring on or about the Premises. Tenant shall, at its own cost and expense, obtain and keep in force a policy or policies of public liability insurance with an insurance company approved by Landlord, with liability coverage of an amount as recommended by Landlord’s insurance agent that, for the initial coverage, shall be not less than $1 million for injury or death to any one person, $3 million for injury or death to more than one person, and $500,000 regarding damage to property. Tenant shall furnish Landlord with certificates or other evidence acceptable to Landlord indicating that the insurance is in effect and providing that Landlord shall be notified in writing at least 30 days before cancellation of any material change in or renewal of the policy. All insurance policies shall name Landlord and any persons designated by Landlord as insured parties.

Any insurance maintained by either party pursuant to this section or under this Lease shall contain a
clause or endorsement under which the insurer waives all rights of subrogation against the other party, its agents or employees, regarding losses payable under the policy.

Any personal property kept on the Premises by Tenant shall be at Tenant’s sole risk.

10. Use. Tenant shall use and occupy the Premises for the purpose stated in section 2(g) and for no other purpose without the prior written consent of Landlord. Tenant shall not intentionally and knowingly use the Premises for any purpose or in any manner in violation of any State law, local ordinance, rule or regulation adopted or imposed by the City in which the Premises is situated. Tenant shall not deface or injure the Premises or the Building, permit anything to be done on the Premises tending to create a nuisance or to disturb other tenants in the Building, or permit any activity in the Premises that will result in an increase of any premium, or cancellation of a policy, for insurance on the Premises or the Building.

11. Construction of leasehold improvements. Landlord grants Tenant express consent to construct certain leasehold improvements as may be required for Tenant’s use. The cost of Tenant’s leasehold improvements shall be paid for by Tenant. The improvements shall be constructed in a good and workmanlike manner.

12. Operations. Tenant’s operations in conjunction with the Premises shall meet the requirements set forth below.

a. Tenant shall keep all garbage and refuse in the kind of container specified by Landlord. If Landlord shall provide or designate a service for picking up refuse and garbage, Tenant shall use the same at Tenant’s cost. Tenant shall pay the cost of removal of any of Tenant’s refuse or rubbish.

b. Tenant shall keep the Premises at a temperature sufficiently high to prevent freezing of water in any pipes and fixtures.

c. Tenant shall keep the outside areas immediately adjoining the Premises clean and free from dirt and rubbish to the satisfaction of Landlord, and Tenant shall not place or permit any obstructions or merchandise in those areas. Tenant shall water and maintain any flowers, shrubs, and trees located immediately adjoining the Premises.

d. Tenant shall only store and/or stock in the Premises goods, wares, and merchandise that Tenant intends to offer for sale at retail.

e. Tenant shall conduct its business in the Premises in a dignified manner and in accordance with high standards of store operation.

13. Restrictions on Tenant’s activities. Without Landlord’s written consent, Tenant shall not engage in the activities listed below.

a. Tenant shall not operate all or any part of its business in the Premises in any manner that is inconsistent with its intended use of the Premises.

b. Tenant shall not conduct any auction, fire, going-out-of-business, or bankruptcy sales in the Premises.

c. Tenant shall not operate or permit to be operated on the Premises any coin or token operated vending machines or similar devices for the sale of goods, wares, merchandise, food, beverages, or service,
including, without limitation, pay telephones, pay lockers, scale, and amusement devices without Landlord's prior written consent.

d. Tenant and Tenant's employees and agents shall not solicit business in the parking or other common areas of the Building, nor shall Tenant or its employees or agents distribute any handbills or other advertising matter in or on automobiles parked in the parking area or in other common areas without Landlord's prior written consent.

e. Tenant and its employees and agents shall not park any vehicle on the Building land except in areas that are designated by Landlord for that use.

14. Assignments and subletting. Tenant agrees not to sell, assign, mortgage, pledge, or in any manner transfer this Lease or sublet the Premises or any portion of the Premises without the prior written consent of Landlord. Notwithstanding any assignment or subletting, Tenant shall remain fully liable on this Lease. Landlord's right to assign this Lease is and shall remain unqualified. On any transfer of Landlord's interest in the Premises in which the purchaser assumes all obligations under this Lease, Landlord shall be free of all obligations of Landlord under this Lease and shall not be subject to any liability resulting from any act or omission or event occurring after the conveyance. Tenant agrees to recognize the transferee as Landlord, and Tenant further agrees, at Landlord's request, to execute and deliver such documents and estoppel letters as Landlord may request to assist in that transfer.

15. Estoppel letter. On not less than 10 days' prior written notice from Landlord, Tenant shall sign and deliver to Landlord an estoppel letter that

a. certifies that this Lease is unmodified and in full force and effect (or, if modified, states the nature of the modification and certifies that this Lease, as so modified, is in full force and effect);

b. acknowledges that there are not, to Tenant's knowledge, any uncured defaults on the part of Landlord or specifying the default if any are claimed;

c. certifies the date to which all forms of rent have been paid; and

d. certifies the amount, if any, of the security deposit paid to Landlord.

Tenant's failure to deliver such an estoppel letter within the 10 days shall be conclusive on Tenant that

a. this Lease is in full force and effect, without modification except as may be represented by Landlord;

b. there are no uncured defaults in Landlord's performance;

c. not more than one month's rent has been paid in advance; and

d. no security deposit has been paid except as may be represented by Landlord.

16. Acceptance of Premises. The occupancy by Tenant of the Premises shall constitute an acknowledgment by Tenant that the Premises are then in the condition called for by this Lease.

17. Damage or destruction. If, during the term of this Lease, the Premises shall be partially or totally destroyed by fire or other casualty covered by insurance so as to become partially or totally untenable,
the same shall be repaired as promptly as possible with the insurance proceeds unless this Lease is terminated. In the event of damage or destruction, if this Lease is not terminated, the rent shall be abated proportionately to the loss of use suffered by Tenant.

If, during the term of this Lease, the Premises shall be partially or totally destroyed by fire or other casualty, and the cost of restoring the Premises to its condition prior to the damage shall equal or exceed 40 percent of its fair replacement value immediately prior to the damage, or if the Premises are damaged by any casualty not insured against by Landlord, Landlord shall have the right to terminate this Lease by giving Tenant written notice of its election to do so within 15 days after the date on which the damage occurs. On the giving of notice, the Lease shall terminate as of the date on which damage occurred and the rent shall be adjusted to that date. In default of notice by Landlord, this Lease shall continue and Landlord shall cause the Premises to be repaired or restored with due diligence.

18. Condemnation. If the whole or any part of the Premises shall be taken by any public authority under the power of eminent domain, the term of this Lease shall cease on that part to be taken from the day the possession is acquired by the public authority and the rent shall be paid up to that date. If the portion of the Premises taken substantially impairs the usefulness of the Premises for the purpose for which the Premises were leased, Tenant shall have the right either to terminate this Lease or to continue in the possession of the remainder of the Premises under the terms and conditions of this Lease except that the rentals shall be reduced in proportion to the amount of the Premises taken, and in the latter event, Landlord shall promptly restore the remainder to a reasonably tenantable condition. All damages awarded for the taking shall belong to and be the property of Landlord.

19. Alterations and signage. No improvements, alterations, additions, or physical changes shall be made on the Premises by Tenant without the prior written consent of Landlord.

Tenant agrees that it will not place or maintain on any exterior door, wall, or window of the Premises any signs, awning or canopy, or advertising matter, or other thing of any kind and will not place or maintain any decoration, lettering, or advertising matter on the glass of any window or door of the Premises that is not in conformity with all applicable governmental rules and regulations and the rules and regulations of the Building as set forth by Landlord and further, without first obtaining Landlord’s prior written approval. Tenant further agrees to maintain such sign, awning, canopy, decoration, lettering, advertising matter, or other thing as may be approved in good condition and repair at all times. Tenant further acknowledges that Landlord may, at its option, regulate the lettering size, style, and color of Tenant’s sign so that all signs in the Building are of a like size, color, style of lettering, and like material. Tenant agrees that it will conform its sign to that as regulated by Landlord for the general use in the Building, regardless of how and in what manner Tenant normally designs its name for use in its sign and further regardless of whether or not Tenant uses the form and style of its sign as a trademark.

All alterations and improvements, but not moveable equipment and trade fixtures, put in at the expense of Tenant shall be the property of Landlord and shall remain on and be surrendered with the Premises at the termination of the Lease; provided, however, that Landlord may require that Tenant remove the alterations and improvements and repair any damages to the Premises caused by the removal.

20. Remedies and default. If Tenant shall default in the payment of any sums to Landlord when due and shall not cure such default within 7 days; or if Tenant shall default in the performance of any other covenant or condition of the Lease and shall not cure such other default within 30 days after written notice from Landlord specifying the default; or if Tenant or its agent shall falsify any report to be furnished to Landlord pursuant to the terms of this Lease; or in case Tenant shall be adjudicated a bankrupt or make any assignment for the benefit of creditors; then, in any such event, Landlord may
either (a) accelerate the full balance of the rental payable for the remainder of the term and sue for such sums or Landlord may terminate this Lease or (b) reenter the Premises, without terminating this Lease, and dispossess Tenant or any other occupant of the Premises and remove Tenant's effects and relet the same for the account of Tenant for such rent and on such terms as shall be satisfactory to Landlord, crediting the proceeds, first to the costs and expense of reentry, alterations and additions, and the expense of reletting, and then to the unpaid rent and the other amounts due during the remainder of the term. Tenant shall remain liable to Landlord for any unpaid balance.

In case suit shall be brought for recovery of possession of the Premises, for the recovery of any rent or any other amount due under the provisions of this Lease, or because of the breach of any other covenant on the part of Tenant to be kept or performed, and a breach shall be established, Tenant shall pay to Landlord all expenses incurred, including reasonable attorney fees, which shall be deemed to have been incurred on the commencement of the default and shall be enforceable whether or not the action is prosecuted to judgment.

21. Access to Premises. Landlord shall have the right to enter on the Premises at all reasonable hours to inspect and for access to the Premises to install, maintain, use, repair, and replace pipes, ducts, lights, conduits, plants, wires, floor coverings, and all other mechanical equipment serving the Premises.

22. Rules and regulations. Landlord reserves the right to adopt from time to time rules and regulations for the operation of the Building that are not inconsistent with the provisions of this Lease. Tenant and its agents, employees, invitees, and licensees shall comply with all those rules and regulations. Any such rules shall not dictate the days or time of business operation.

23. Waiver. The failure of Landlord to insist on a strict performance of any of the terms, covenants, or conditions of this Lease or rules and regulations of the Building shall not be deemed a waiver of any subsequent breach or default in the terms, covenants, and conditions or rules and regulations. This Lease may not be changed, modified, or discharged orally.

24. Notices. All notices required under this Lease shall be in writing and shall be deemed to have been given if either delivered personally or mailed by certified or registered mail to Landlord or to Tenant at their respective addresses set forth above or to such other address as either party may furnish in writing during the term of this Lease.

25. Quiet enjoyment. Landlord covenants and agrees with Tenant, its successors, and assigns that on Tenant's paying the rent and observing and performing all the terms, covenants, and conditions on Tenant's part to be performed and observed, Tenant may peaceably and quietly hold, have, occupy, possess, and enjoy the Premises for the full term of this Lease.

26. Subordination to mortgage. Any mortgage now or hereafter placed on the Premises shall be deemed to be prior in time and senior to the rights of Tenant under this Lease. Tenant subordinates all of its interest in the leasehold estate created by this Lease to the lien of any mortgage. Tenant shall, at Landlord's request, execute any additional documents necessary to indicate this subordination including, if requested, an estoppel letter as set forth in section 15. If Tenant fails to supply the estoppel letter, the provisions in section 15 to cover that failure shall apply. Notwithstanding the foregoing, Tenant's possession of the Premises under this Lease shall not be disturbed by any mortgagee, owner, or holder of note secured by a mortgage placed on the Premises, unless Tenant shall breach any of the provisions of this Lease and the lease term of Tenant's right to possession shall have been lawfully terminated in accordance with the provisions of this Lease.
27. Building revisions by Landlord. Landlord reserves the absolute right at any time and from time
to time to make changes or revisions in the Building, including such changes to the parking lot, driveways,
signs, and sidewalks, by making additions to, subtractions from, or rearrangements of the improvements
in the Building, as long as the revisions do not materially affect Tenant's use of the Premises.

28. Holding over. If Tenant remains in possession of the Premises after the expiration or termination of
the Lease, it shall be deemed to be occupying the Premises as a tenant from month to month, subject to all
the conditions, provisions, and obligations of this Lease insofar as the same can be applicable to month-
to-month tenancy, except that the rent shall increase to 2 times the rent owing at the end of the lease term.
The month-to-month tenancy shall be cancelable by either party on 30 days' written notice to the other.

29. Recording. Tenant shall not record this Lease without the written consent of Landlord; however, on
the request of either party the other party shall join in the execution of a memorandum or so-called "short
form" of this Lease for the purpose of recordation. The memorandum or short form of this Lease shall
describe the parties, the Premises, and the term of this Lease and shall incorporate this Lease by reference.

30. Captions and headings. The captions and headings used in this Lease are intended only for
convenience and are not to be used in construing this Lease.

31. Applicable law. This Lease shall be construed under the laws of the state of Michigan. Venue for any
disputes under this agreement shall lie in Oakland, Michigan. If any provision of this Lease or the
application to any person or circumstances shall, to any extent, be invalid or unenforceable, the remainder
of this Lease shall not be affected and each provision of this Lease shall be valid and enforceable to the
fullest extent permitted by law.

32. Successors. This Lease and the covenants and conditions shall inure to the benefit of and be binding
on Landlord, its successors, and assigns and shall be binding on Tenant and permitted assigns of Tenant.

33. Effective date. The parties have caused this agreement to be signed and shall be effective as of the
day and year first above written.

(signature page to follow)
IN WITNESS WHEREOF, the parties have respectively signed and sealed this Lease as of the day and year first above written.

Tycoon I Operations, LLC

Business & Operations Plan

PREAMBLE:
Tycoon I Operations, LLC ("Applicant") will strictly comply at all times with applicable state law and local ordinance codes, including rules and emergency rules that may, from time to time, be promulgated by the state or Orion Township. All business activities will take place indoors in a locked facility. Applicant has retained a law firm with established expertise in Michigan marihuana law to ensure continuing education and compliance with the laws as they evolve. The statements made in this application are made with a clear and thorough understanding of state and local requirements as they exist on the date of application, but the operations of Applicant will be amended to comply with all future derivations of the state and municipal laws.

I. OVERVIEW
Applicant is a Michigan limited liability company formed to operate twenty four (24) commercial marihuana GROWER (Class C) facilities whose primary mission is to provide a source of high-quality marihuana to processors and provisioning centers across the state of Michigan.

II. ADMINISTRATION
A. Location & Zoning
   i. Buffers

   a. The distances described are measured horizontally between the nearest property lines.

   b. The facility is not within 1,000 feet of any educational institution or school, college or university, church, house of worship or other religious facility, licensed child care, preschool, public library, or public or private park.

   ii. Applicant is leasing the property pursuant to the attached lease and the owner/lessor of the property authorizes the use of the property as a marihuana facility in the lease agreement, which is attached.

B. Organizational Structure
   i. The Applicant is organized as a Michigan limited liability company and is in good standing.

   ii. The members, owners, directors, officers, and managers of the Applicant are listed in the Organization Structure.
iii. The members, owners, directors, officers, and managers of Applicant meet all eligibility requirements to own and operate a marihuana grower facility as set forth in state law and local ordinance.

   a. No member, owner, director, officer, manager or any person having an ownership interest in the application has an interest in a secure transport facility license or a safety compliance facility license.

   b. The Applicant meets all eligibility requirements to own and operate a marihuana grower facility as set forth in state law and local ordinance.

iv. The Applicant has never applied for been granted any commercial license or certificate issued by a licensing authority in Michigan or any other jurisdiction that has been denied, restricted, suspended, revoked or not renewed.

C. Permits & Licenses

i. This Business and Operations Plan is submitted as an addendum to the applications for Ten Orion Township permits to operate a business and the Orion Township special use/site plan application.

ii. All operations in this Business and Operations Plan will comply with regulations issued by the Department of Licensing and Regulatory Affairs (LARA).

iii. Applicant intends to apply for, obtain, operate, and comply with a state license to operate a grower facility under the MMFLA and MRTMA.

iv. The business will not open for operation until it receives a state license to operate under the MMFLA and MRTMA and all applicable permits and licenses from Orion Township.

v. Upon granting of a permit to operate a grower facility, Applicant will prominently display the original Orion Township permit at the Permitted Premises in a location where it can be easily viewed by the public, law enforcement, and administrative authorities.

vi. At all times the facility will hold a valid local Permit and State Commercial Marihuana Facility License for a Grower.

vii. In addition to complying with the Orion Township Ordinance Authorizing and Permitting Commercial Marihuana Facilities, Applicant will comply with all Township Ordinances, including without limitation, the Township Zoning Ordinance, as well as the requirements of the County Road Commission, County
Building Inspector, County Drain Commissioner, District Health Department, Soil Erosion Officer, County Conservation Service, areas fire departments, Michigan Department of Natural Resources, Michigan Department of Environmental Quality, and any other applicable township, county, state and federal statutes.

viii. Applicant will have available, at all times, documentation that local and State sales tax requirements, including any requirement for a license, are satisfied.

ix. Applicant will provide updated operational and security plans to Orion Township upon request and prior to any proposed changes in its operations.

D. Inspections

i. Applicant will provide access to the facility for inspection to any federal, state, or local law enforcement officer to ensure compliance with the permit.

ii. Applicant consents to inspections as required in the MMFLA and pursuant to the Orion Township ordinance.

III. OPERATIONS

Applicant proposes 24 state-licenses in a single marihuana grower facility for the cultivation, drying, trimming, curing, and packaging of marihuana for sale to a processor or provisioning center pursuant to the requirements and restrictions of the Marihuana Facilities Licensing Act, PA 281 of 2016, and all future derivations thereof. This facility will be located in a secure industrial facility.

A. Compliance with State Regulations

Applicant will meet all operating regulations established by LARA and the Marihuana Licensing Board for Growers, including without limitation, any standards, procedures, and requirements for:

i. quality control
ii. chain of custody
iii. marihuana storage
iv. waste disposal
v. labeling and packaging
vi. storage of chemicals

B. Description of the Facility

Applicant’s facility will be used exclusively for the cultivation, drying, trimming, curing, and packaging of legal usable marihuana for sale to processors or provisioning centers.

C. Entry to Facility

Generally, the public will not be allowed entry to the facility. Notwithstanding the forgoing, Applicant will not allow entry to the facility to anyone under the age of 18.
D. Employees  
Applicant anticipates having between fifteen (15) and (65) full and part-time employees, as many as possible of whom will be local community residents. None of Applicant’s employees will be registered primary caregivers during the employment with Applicant. Please reference the staffing plan for a detailed list of potential positions.

E. General Policies  
   i. Applicant will only sell or transfer marihuana to a processor or provisioning center.

   ii. Applicant will only use secure transporters in the distribution or exchange of marihuana or currency with processors or provisioning centers.

   iii. Applicant will not promote the unlawful use of marihuana or any other drug or provide or otherwise make marihuana available to any person who is not legally authorized to receive Marihuana under state law.

   iv. No owner, the Applicant, or any employee of Applicant will grow marihuana in the Permitted Premises for his or her own use.

   v. The following activities are prohibited on the Permitted Premises:
      a. the sale, consumption, or use of alcohol, or controlled substances;
      b. smoking or consumption of marihuana.

F. Cultivation Plan  
   i. Propagation  
      a. Lighting  
      b. Watering  
      c. Nutrient Application  
      d. Integrated Pesticide Management

   ii. Harvesting and Trimming

   iii. Drying and Curing

   iv. Packaging

   v. Distribution  
      a. All marihuana products will be validated from a verified transport manifest, created from the statewide monitoring system. The manifest includes a detailed form with the number of packages and detailed content for confirmation/validation with secure transporters and purchasers of the shipment (processors or provisioning centers).

      b. Each transport shipment will be processed in the following manner:
         1. Entry of shipped inventory into the statewide monitoring system.
         2. Confirmation with Secure Transporter of valid and verified transport manifest, including product count, weight of each package or item
c. State certified scales will be used to verify and weigh all marihuana, in whatever form.

G. Inventory Management

i. Applicant will not control or have on the Permitted Property an amount of marihuana plants or usable marihuana that exceeds any amount permitted by the state License or the Township permit.

ii. Tracking and Monitoring
Applicant will use a third-party inventory control and tracking system to interface with the statewide monitoring system. The third-party inventory control and tracking system will have the capabilities necessary to comply with the requirements applicable to a grower licensee:

a. Track all marihuana plants and packages;
b. Track lot and batch information throughout the entire chain of custody;
c. Track transportation of product;
d. Track marihuana waste;
e. Track all marihuana product transfers;
f. Track sales and returns;
g. Track marihuana plant, batch, and product destruction;
h. Perform batch recall tracking;
i. Report and track loss, theft, or diversion of marihuana products;
j. Receive testing results electronically from a safety compliance facility;
k. Provide access to state agencies and law enforcement as required;
l. Report all inventory discrepancies.

iii. Applicant will enter all transactions, current inventory, and other information into the statewide monitoring system as required by the MMFLA, the Marihuana Tracking Act, and any associated regulations.

iv. Inventory reconciliation - At the end of each day, physical inventory counts will be reconciled with the third-party inventory control and tracking system.

v. Returns

H. Quality Control

i. Sampling (by Licensed Safety Compliance Facility)

ii. Batch Testing (by Licensed Safety Compliance Facility)

iii. Transport to Safety Compliance Facility (by Secured Transporter)

I. Signage and Advertising
i. Applicant has no proposed signage at this time, but will amend this plan accordingly and provide the township with its sign permit application if and when it does wish to propose signage.

ii. Applicant will not display pictures, photographs, drawings or other depictions of Marihuana or Marihuana Paraphernalia on the outside of the Permitted Premises, nor will such pictures, photographs, drawings, or other depictions of Marihuana or Marihuana Paraphernalia be visible outside of the Permitted Premises on the Permitted Property.

iii. The words "Marihuana," or "cannabis," and any other words, used or intended to convey the presence or availability of Marihuana will not appear on the outside of the Permitted Premises, nor will "Marihuana," or "cannabis," and any other words, used or intended to convey the presence or availability of Marihuana be visible outside of the Permitted Premises on the Permitted Property.

J. Visibility of activities
   i. All activities of the facility, including without limitation, the cultivation, harvesting, trimming, drying, curing and packaging of Marihuana, and all other related activity permitted under Applicant’s License or Permit will occur indoors.

   ii. No marihuana or paraphernalia shall be displayed or kept in the facility so as to be visible from outside the Permitted Premises.

K. Security
   i. Plan
   Applicant will maintain, at all times, a centrally-monitored security and alarm system on the premises that meets or exceeds state regulatory requirement. Applicant will maintain policies and procedures to include:

   a. Regular drills of the security protocols and emergency plans;
   b. Controlled and restricted access to the Permitted Property and Permitted Premises to employees, agents, and owners of Applicant, and law enforcement or state or local authorities as necessary to ensure Applicant’s compliance with state and local laws.
   c. Internal and external cameras with 24-hour monitoring and off-site recording;
   d. Installed panic buttons
   e. Limitations on the amount of currency and marihuana stored onsite;
   f. Cooperation and coordination with local law enforcement;
   g. Permitted premises will only be able to be accessed through a combination of security locks and access codes; and
   h. The ability to remain operational during a power outage with battery back-up.

   ii. Security Surveillance Cameras
Security surveillance cameras will be installed to monitor all entrances, along with the interior and exterior of the premises, which will capture all areas of the property unless otherwise prohibited by law, including unobstructed video surveillance of all enclosed areas, unless prohibited by law, including all points of entry and exit that shall be appropriate for the normal lighting conditions of the area under surveillance.

iii. Security Recordings and Documentation
   a. All security recordings and documentation will be preserved for at least 30 days and made available upon request by any law enforcement.

iv. Robbery and Burglary Alarm System
Applicant will employ an alarm system that meets state requirements and obtains state approval. Specifically,
   a. Applicant will employ a centrally alarmed and monitored security system that will be monitored 24 hours a day, 7 days a week for the Permitted Premises pursuant to the attached service agreement.
   b. There will be a perimeter alarm on all entry points and perimeter windows of the Permitted Premises
   c. A failure notification system will provide an audible, text, or visual notification of any failure in the surveillance system. A panic button and alarm will directly notify the local law enforcement agency having primary jurisdiction.

v. Storage of Marihuana and Currency
   a. Applicant will store usable marihuana that is not otherwise in the process of being dried, trimmed, cured, packaged, or distributed including packaged and un-packaged usable marihuana, and currency in a secured locked safe that is permanently affixed to the premises.

L. Ventilation Plan/Air Filtration System
i. Applicant’s facility operation and design will provide sufficient measures and means to minimize any impact to adjacent uses, including the control of odor by maintaining and operating an air filtration system so that no odor is detectable outside the Permitted Premises.

ii. Applicant’s equipment and methods to control odor include a comprehensive air filtration system, consisting of
   a. Activated Carbon Filters.
   b. Heavy Duty Ventilation Fans.

iv. Details and specifications of the equipment used for Applicant’s ventilation and air filtration plan are attached.
v. The total enclosed space in which harvested marihuana will be stored amounts to approximately 300 sq. feet. Applicant will use an advanced filtration system rated appropriately for the area.

vi. The air filtration system will be maintained in working order at all times and will be in use at all times. Filters will be changed a minimum of once every 365 days.

vii. In addition to the use of an air filtration system, Applicant will mitigate odors by keeping doors and windows closed at all times, except the minimum amount of time needed to allow ingress and egress to the building.

M. Toxic/Flammable/Hazardous Materials
i. Applicant’s use of toxic, flammable, or other harmful, hazardous, or combustible materials will be limited to plant nutrients and pesticides and cleaning products. The facility may use the following nutrients and pesticides:

   a. CocoTech Bloom A
   b. CocoTech Grow A
   c. CocoTech Premier Nutrient
   d. FloraBloom Nutrient System
   e. FloraGrow Nutrient System
   f. Golden Tree Plant Food.
   g. Nutra Green 5-10-5 plus Micronutrients Foliar Spray
   h. Diatomaceous Earth
   i. Neem Oil
   j. PyGanic Pro Pyrpermthrin 5% MGK Miticide

ii. The facility may use the following commercial cleaning products, along with the following household products: materials regulated by government agencies:

   a. Ultra Dawn Lemon Dish Soap
   b. Nature’s Source Toilet Bowl Cleaner
   c. Fantasik Antibacterial Heavy Duty All Purpose Cleaner
   d. Windex Original Glass Cleaner
   e. Novo Foaming Instant Hand Sanitizer
   f. QuickSan Food Contact and Surface Sanitizer

iii. The materials will be stored in secured and ventilated cabinets. All combustible or reactive materials will be stored separately.

iv. Materials will be handled, stored, and disposed according to specifications in each Material Safety Data Sheet.
N. Waste Product Disposal
Applicant will dispose of unusable or waste marihuana in accordance with the MMFLA, MRTMA, and applicable local ordinance guidelines to prevent the waste marihuana from being possessed or ingested by any person and animal.

i. Applicant’s current, preliminary waste disposal plan consists of shredding and grinding damaged and unusable plants, roots, seeds, stalks and harvested marihuana and mixing it with one of several lawful over-the-counter products, such as sawdust or cat litter to render it unusable, unrecognizable, and unpalatable, and then discarding in secured bags as part of its solid waste disposal.

ii. The State of Michigan’s Marihuana Licensing Board may require or suggest as a part of its regulations, expected sometime in November, one or more alternative waste disposal options including, but not limited to, waste disposal through the secured transporter system, waste mitigation through THC extraction methods (rendering the marihuana waste product inert) or some other method. Applicant warrants that it will comply with all state and local requirements as to waste disposal, but further commits to its current preliminary plan to render all marihuana waste unrecognizable, unusable and inaccessible regardless of state or local requirements.

IV. COMMUNITY RESPONSIBILITY AND CONCLUSION
Although marihuana has been used as a medicine across the globe for hundreds of years, its commercial production and sale is new to us, this state, and your community. We appreciate the opportunity to show Orion Township that Marihuana can be safe and accessible to a community while providing jobs and local economic growth. We look forward to being productive and responsible community partners, and will work with the Township toward that goal.
G. Township Permits & Compliance

PAYMENT OF PERMIT FEE CONSTITUTES ACCEPTANCE OF THE ABOVE TERMS.
H. Litter & Waste Removal Plan
Litter & Waste Removal Plan

All biological waste product will be rendered unrecognizable by grinding it in an industrial grinder and combining it with other non-consumable solid waste, including the media in which we cultivate plants, Rockwool. The inclusion of inert material renders the combined solid waste unusable. All waste will be stored in a locked dumpster that is emptied at minimum once per week.

The company intends to employ particulate filtration in areas where waste is stored and processed, which minimizing potential exposure and impact to the outside environment. The facility, which is designed around large water chillers, is designed to circulate air rather than ventilating it. This process helps to avoid excess exposure of odors to the surrounding community.
I. Noise, Dust, Vibrations, Glare & Fumes Plan
Noise, Dust, Vibrations, Glare, Fumes or Odors Plan

Excessive Noise, Dust, Vibrations, Glare and Marijuana odors emanating from our facilities are a valid concern for the community and our neighbors. This plan details the measures deployed to ensure that minimal noise, dust, vibration, glare, fume or offensive odor is emitted from the facility, the response if it occurs, and that the measures remain effective over time.

This plan is our commitment to the Orion Township that we will be in compliance with regulations of the city and the administrative rules and that we will not operate in a manner creating noise, dust, vibration, glare, fumes, or odors detectable to normal senses beyond the boundaries of the property.

We will not vent noxious dust, odors, gases or fumes to surrounding areas.

We will mitigate dust and noxious odors by engaging in the following activities:

1. Adequate design measures to seal the building;
2. Utilizing a heating, ventilation, and cooling (HVAC) System designed to move an appropriate amount of air (cfm) throughout the facility to disperse odors;
3. Using industry leading MERV-13 HEPA filters in addition to FILTR, Blue Zone & Puradigm units in each room throughout the facility.

I. DESIGN MEASURES TO SEAL THE BUILDING

We intend to renovate our building in a manner that focuses on effectively sealing all interior rooms and exterior access points. Each room is enclosed in 12", interlocking insulated panels which are designed to form an airtight seal. For additional protection, butyl caulk is applied at each joint to accommodate any flaws in the panels.

Caulk is also applied to seal any openings into the panels, including plug outlets, doorways, sprinklers, and anything else that could allow air flow. Our doors are fiberglass, weather stripped and employ a drop seal to press additional weather stripping against the floor when closed to maximize the seal all the way around.

II. MERV-13 HEPA FILTRATION SYSTEM

The purification of air throughout our facility is a top priority for both the health of the plants and the environment we subject our employees and the local community to. In an effort to target and reduce contamination, mold, bacteria, odor, dust, and fumes, we employ a variety of filtration systems in all rooms where marihuana plants are grown.

Each room will utilize clean room grade HEPA filtration units filtering down to 0.01um and providing up to 5 complete air changes per hour. These units also utilize a carbon filter which focuses directly on the removal of smells and volatile organic compounds.

In addition to the HEPA filters, each room will have Puradigm units to help reduce airborne and surface contaminates, and Agrify Bluezone UV filtration units, known to destroy 99.9%+ of both bacteria and mold. Both of these systems aid in odor elimination and containment.
As filters age, they become clogged with impurities, and ultimately less effective. As such, we will develop a maintenance schedule to inspect the filtration units regularly and to replace them per the manufacturer’s recommendation or at an expedited pace based on their usage in these environments.

III. VIBRATION MITIGATION
Exterior mounted cooling equipment is mounted on isolation pads to dramatically reduce vibrations that would otherwise be created by such large equipment.

IV. EVALUATING THE EFFECTIVENESS OF NOISE, DUST, VIBRATIONS, ODOR & FUME CONTROL MEASURES

Key site leadership roles will be trained to assess the production and escape of odors, dust, fumes and glare from the facility. We also anticipate a strong and friendly relationship with the local communities and will welcome feedback about any exhaust from the building. Should these assessments or the community ever determine that our levels are beyond acceptable, we will re-evaluate this plan and engage professionals to further refine our practices and properly mitigate the problem.
J. Spent Water & Soil Safety Plan
Spent Water & Soil Safety Plan

Wastewater Treatment Plan:
Wastewater generated during the cultivation of marihuana of marihuana products shall be disposed of in compliance with all applicable state and local laws and regulations. Despite the amount of water used in the cultivation process, there is very little water waste. The majority of water is used by the plants or evaporated out of the collection dishes upon which the plants sit. Any water that is used to rinse the plants or clean the facility or for any other purpose shall be rendered clean through both reverse osmosis and UV light after standard filtration methods, and either reused by the facility or discharged through a monitoring man hole where it can be monitored to comply with all local ordinances.

The Cultivation Facility will include an Ecowater RO purification system. Ecowater Purification Systems are the leading water filtration manufacturer in the industry, helping cultivators diagnose and solve every water problem imaginable. Ecowater designs systems to treat any water source including city water, well water, nutrient runoff water, wastewater, and condensate runoff.

Soil Safety Plan
The cultivation facility will not use soil – instead, all media for the purposes of growing plants will be rockwool, a lightweight hydroponic substrate made from spinning molten basaltic rock into fine fibers which are then formed in a range of cubes. This product will be disposed of through the grinder and mixed with biological waste in a locked dumpster.
K. Security Plan
SECURITY PLAN

Tycoon I Operations is committed to being a leader in Michigan’s cannabis industry and a trusted resource for the communities, consumers and clients we service. Essential to fulfilling this commitment is our ability to effectively protect our product from criminal repurposing throughout the facilities.

This Security, Surveillance and Diversion Prevention Plan details the physical and electronic security measures we employ to deter, detect, and inhibit the theft, diversion, and loss of Marijuana, and to prevent unauthorized conduct with respect to the storage and dispensing of Marijuana.

We have extensively researched and designed our Grow Facility to maximize security. The facility shall be built with enhanced security and stringent safety features to eliminate any potential for diversion. Our facility will be equipped with numerous motion sensors and exterior intrusion sensors that will be linked to local law enforcement. To prevent unauthorized entry and stop diversion, theft, or loss of marijuana, every square inch of the facility shall be continually monitored by high definition security cameras and commercial-grade equipment. Security systems will be positioned so they closely monitor activities at strategic risk points and watch for any strange behavior or movement. Marijuana shall not be visible to any person from the exterior of the Grow Facility.

We will create a culture of responsibility, accountability, and strict security surrounding all aspects of the facility. The stringent operating procedures outlined below demonstrate a commitment to employee and public safety above all other operating values. From receipt to sale, we are committed to preventing diversion by implementing a comprehensive security strategy. Employees will be extensively trained to understand that security is a primary obligation for everyone at our facility.

We will have comprehensive security policies and procedures for the Grow Facility, which address measures to deter and prevent unauthorized entrance into areas containing marijuana and theft of marijuana at the facility. Employees will receive on-going training regarding our security protocol and the Site Manager shall ensure all employees follow policies and procedures regarding the security of the facility. The Site Manager shall implement and maintain employee training policies and procedures for security training. All employees shall aid in the security of the Grow Facility through prevention, awareness, reporting, and responsible incident management. All employees shall be required to immediately report security breaches and incidents of non-compliance to their supervisor, and in case of sudden emergency, immediately to law enforcement by either striking a panic button or calling law enforcement directly.

We will make our facility available and open to inspection, at all times, for law enforcement, representatives of the Department and law enforcement, when necessary to perform their duties.

PHYSICAL SECURITY

The facility shall be designed to maximize security and stop the potential for diversion. Access to the secure facility shall include safety and security mechanisms that prevent unauthorized entry. All doors will be burglary-resistant material, with commercial-grade, non-residential locks. Additionally, exterior doors, as well as limited access area entries, will be automatic locking and equipped with electric strike and keypad access hardware. All doors are setup to fail secure, which means in the event of a power failure, the doors will remain locked and only be accessible via a master key.
The Grow Facility's main entrance vestibule shall include a mantrap to control passage from the public access area to the limited access area. We will strive to install Underwriter's Lab (UL) approved locks and lock cylinders, which are rated as burglary resistant. We will also install local alarms on all fire exits and other perimeter doors not authorized for employee or visitor use. Our alarm system will be monitored after business hours with live monitoring through a licensed security monitoring company. If there are ever any after-hours issues, the live monitoring system will be linked directly to law enforcement and the Site Director, among other key personnel.

We shall ensure that trees, bushes, and other foliage outside of the premises do not allow people to conceal themselves from sight. The surveillance system's cameras shall be capable of certain identification of persons (including facial features), license plates, vehicles, the immediate surrounding areas, and any activities occurring within any area of the premises, and the parking area, and within twenty feet (20') of all entry and exit points of the premises. Cameras will cover every square inch of the facility.

To provide first responders with immediate access into our facility during a time of emergency or inspection, we will install a Knox Rapid Access System to remove any barriers to entry when first responders respond to an emergency call.

**LIGHTING**

Exterior lights at all points of entry and exit shall remain constantly illuminated to allow for recording. Lighting on the outside perimeter shall allow cameras the ability to record any suspicious activity. Timed-delay switches shall be used to turn off non-essential interior lights, which shall not remain lit after employees have left the facility. Motion detecting lights shall be installed in areas that are entered and exited infrequently. The exterior of the facility shall be lit by commercial LED light fixtures sufficient to facilitate twenty-four-hour surveillance. Exterior lights in the parking area will remain on from dusk until dawn.

**SECURITY EQUIPMENT**

Our security equipment shall be designed, installed, and maintained to deter and prevent unauthorized entrance and theft of marijuana products at the facility. Security equipment shall be installed by a commercial, licensed service provider. All equipment shall be compliant with Department rules and all state and local laws, regulations, ordinances, and other requirements.

**ENTRY AND EXIT ELECTRONIC EQUIPMENT AND PLACEMENT**

Our entry and exit electronic access equipment will consist of the following:

- Electric strike locks on all doors in the Grow Facility with the ability to override access control for emergency exit even during a power outage.
- RFID proximity card access control devices for all interior doors and all exterior entrances and exits into the Grow Facility.
- Access control system that allows for programming or uploading individual user permissions and allowed entry times, as well as operations-specific information including employee photos.
- A backup power supply system that immediately provides power for at least twenty-four (24) hours in the event of a power outage.
- Main system operating equipment will be kept in the security room, a limited access area.
• Access control system that monitors and records:
  o Identification of employees or visitors entering and exiting.
  o Date and time of entry and exit.
  o Length of time in specific area.
  o Any unauthorized attempts for access.

**ALARM SYSTEM**

We shall have a professionally monitored security alarm system installed at our facility. Monitoring of the alarm system shall be twenty-four (24) hours a day, seven (7) days a week. We shall notify the Department of any intent to change our security alarm service provider. Upon request, we will make available to the Department all information related to the alarm system, monitoring, and alarm activity. The alarm system shall consist of the following:

• Appropriate equipment necessary to monitor activity inside and outside the Grow Facility, including:
  o All entrances and exits.
  o Roof hatches.
  o Rooms with exterior windows.
  o Rooms with exterior walls.
  o Rooms containing marijuana.
  o Rooms containing safes or vaults.

• A backup power supply system that immediately provides power in the event of a power outage.

• Main system operating equipment is kept in the Main Office Surveillance/IT Room, a limited access area.

• All telephone junction boxes or rooms where alarm telephone circuits terminate are locked, tamper-protected, and all labels or tags identifying these alarm circuits have been removed.

**ALARM SYSTEM COMMUNICATION**

The alarm system shall include an electronic or mechanical system that, upon activation, is programmed to send a prerecorded voice message, via telephone, radio frequency, or other communication system, to appropriate law enforcement authorities or other emergency services. In addition, the alarm system shall be equipped with a failure notification system that notifies the alarm monitoring service provider of the system failure via audio, text, visual, or audiovisual message, within a maximum of five (5) minutes of such failure.

**ALARM SYSTEM TESTING**

We shall bi-annually conduct an onsite inspection and test of the entire alarm system to determine needed repairs and adjustments.

**ALARM SYSTEM RECORDS**

We shall keep and maintain alarm system records and will make available to the Department all
information related to the alarm system, monitoring, and alarm activity. These records shall include the following:

- The name of the alarm installation and monitoring service provider.
- Copies of service contracts.
- A map of the Grow Facility showing the location and operation of each alarm system component including alarm telephone circuits.
- A list of authorized users.
- Manufacturers’ instructions for operating and maintaining the equipment.
- Testing and maintenance logs.
- Reports of any incidents triggering an alarm.
- Reports of any interruption in monitoring and/or complete failure of the system, including the length of the interruption period.

SURVEILLANCE SYSTEM

We shall have a fully operational electronic surveillance system installed at our facility. We shall notify the Department of the intent to make any changes to the surveillance system. Upon request, we will make available to the Department all information related to the electronic surveillance system installed at our facility. The surveillance system shall consist of the following:

- Appropriate equipment necessary to video record activity inside and outside the Grow Facility, including:
  - All entrances and exits into and out of the Grow Facility.
  - Roof hatches or skylights.
  - Rooms with exterior windows.
  - Rooms with exterior walls.
  - Rooms containing safes or vaults.
  - All entrances and exits of security rooms and limited access areas.
- Appropriate equipment to record keycard entry and exit activity of all our employees and visitors.
- A backup power supply system that immediately provides power in the event of a power outage.
- A dedicated safe or vault to store all entry/exit records and video recordings in the Office Surveillance/IT Room, in a limited access area.
- Main system operating equipment is kept in the main office Surveillance/IT Room.

VIDEO SURVEILLANCE EQUIPMENT

Our video surveillance equipment will consist of the following:

- Network video recorders with a record rate of a minimum of thirty (30) frames per second.
- Cameras with a minimum resolution of 1920 x 1080 pixels.
• Cameras with infrared capabilities to capture images in low or no lighting conditions.
• Cameras with capabilities to identify activity occurring within twenty feet (20’) from all points of entry and exits into and out of the exterior of the Grow Facility.
• Video monitors.
• Digital archiving device.
• Capabilities to produce a color still photograph from any camera image, live, or recorded.
• Capabilities to accurately display the time and date on recorded images or video
• Color printer that can immediately produce a clear, color still photo, either live or recorded, with a resolution of 9600 dpi and the image quality is relative to the camera being used to capture the image.

CAMERA COVERAGE PLACEMENT

We will install at least One Hundred (100) security cameras. The security cameras will be permanently mounted and in a fixed location. Each camera at the Grow Facility shall be placed in a location that allows the camera to clearly record activity occurring within twenty feet (20’) of all points of entry and exit on the Grow Facility. The cameras will cover every square inch of the facility. The cameras shall allow for the clear and certain identification of any person, including facial features, and activities, including sales or transfers, in all areas of the Grow Facility. The security cameras shall monitor and record all areas of the Grow Facility including:

• All areas where marijuana or products are present, including activities related to:
  o Weighing, packaging, and labeling.
  o Storing, preparing for sale, loading/unloading, or moved within the Grow Facility.
  o Waste Disposal
• Limited-access areas and security rooms, including transfers between rooms and areas.
• Areas storing a surveillance system storage device with at least one (1) camera recording the access points to the secured surveillance recording area.
• All entrances and exits into and out of the exterior of the Grow Facility, recording both indoor and outdoor vantage points.
• Outdoor trash receptacles.
• Roof hatches or skylights.
• Rooms with exterior windows.
• Rooms containing safes or vaults.
• All areas where cash is counted, transferred, or stored.
• All areas where records are stored.

Cameras shall not be installed in bathrooms or any other area where a legitimate expectation of privacy exists. Camera placement shall ensure:

• Visibility of activities is not obstructed by lighting equipment covers, fixtures, or other equipment.
• A clear and certain identification of all individuals and activity at the Grow Facility.
• Identification of activity occurring within twenty feet (20') from all points of entry and exit into and out of the exterior of the Grow Facility.

SURVEILLANCE FAILURE NOTIFICATION

The surveillance system shall include a failure notification system that alerts the Site Director and other key site personnel of any interruption in surveillance and/or the complete failure of the monitoring system. The notification shall be within a maximum of five (5) minutes of such failure via audio, text, visual, or audiovisual message. Additionally, an alarm shall signal the Security Officer on duty whenever an unauthorized entry is attempted.

SURVEILLANCE TESTING

We shall ensure that the surveillance system is properly maintained for playback quality so that images can be seen and the identity of all individuals and activity in surveillance areas are captured. We will schedule and oversee all required maintenance of security equipment in accordance with manufacturer recommendations. Any equipment failure identified shall be corrected as soon as possible. All security equipment shall be in good working order and shall be inspected and tested at regular intervals.

INFORMATION TECHNOLOGY SECURITY

We shall ensure the security of our hardware, software, data, and communications networks, including the following information technology (IT) maintenance:

• Software registration.
• Security patches.
• Malicious software prevention.
• Account management.
• Security status and network access monitoring.
• Disposal and redeployment.
• Employee IT security training.
• Vulnerability assessments.

Access to protected information shall be restricted to essential employees only. Access may be granted to authorized representatives of the Department and other government officials if necessary to perform their official duties. Examples of protected information include:

• Security and cash management procedures.
• Asset and inventory lists.
• Network data.
• Floor plans of critical areas.
• Password and code records.
• Customer records.
• Employee records.

PRODUCT SAFETY AND SECURITY

We shall develop and implement procedures that ensure product safety and security and are compliant with the rules set forth by the Department and all applicable state and local laws, regulations, ordinances, and other requirements. Procedures shall include measures that:

• Minimize the risk of diversion or theft of marijuana.
• Minimize the risk of contamination from incoming materials.
• Ensure proper storage conditions that maintain the quality and purity of our marijuana products.

MATERIAL RECEIVING

All deliveries shall be verified at the front entrance to the facility before allowed access to the loading areas. All materials received will be documented. No material may be received unless its shipping documentation matches the corresponding purchase order or separate approval is given by the Site Manager. Employees shall notify the Site Manager of any shipment discrepancy immediately and shipment may not be accepted without the Site Manager’s approval.

PRODUCT STORAGE SECURITY

Storage areas shall be designed to provide adequate lighting, ventilation, temperature, humidity, space, and equipment. All storage areas shall be maintained in a clean and orderly condition, free from infestation of pests, and in accordance with our security measures and Security Plan. The Grow Facility Manager shall ensure secure containers containing marijuana products remain dry, well ventilated, have temperature-control features to avoid extreme temperature fluctuations and appropriate odor-control features. These proper storage environments ensure product storage does not lead to product contamination or loss of quality.

The storage areas containing marijuana products shall be designed for security and ease of maintenance. We shall establish product storage and security policies and procedures compliant with the rules set forth by the Department and all applicable state and local laws, regulations, ordinances, and other requirements. Under no circumstances may any product be transferred without following our policies and procedures and all the rules set forth by the
Department and all applicable state and local laws, regulations, ordinances, and other requirements. Storage policies and procedures shall include:

- All equipment and any areas used for the processing or storage of marijuana shall be securely locked unless in use.
- All areas used for the storage of marijuana shall be on a time lock and only accessible during regular business hours.
- Inventory shall be reviewed and documented at the beginning and close of each day.
- All areas where marijuana product is stored will be monitored by the surveillance system.

DIVERSION PREVENTION

Investigation of possible diversion and developing policies to prevent it will be conducted by a team of our senior officials, including our CEO, COO, and Director of Compliance. Collectively, they will be known as the Diversion Prevention Team or DPT. The team will have multiple responsibilities including:

- Investigating allegations of diversion
- Developing policies and procedures to prevent diversion
- Managing performance improvement measures
- Providing overall direction for the program.
- Reporting confirmed cases of diversion to law enforcement

The DPT will also integrate information from external sources and environmental factors to improve safety and security at facilities. External sources and environmental factors may include news reports, trade and patient associations, law enforcement bulletins, et cetera. Standard operating procedures shall be updated to incorporate new sources of information and prevent diversion.

WORKING WITH LAW ENFORCEMENT

We deeply value and respect the work of local law enforcement. Police officers are on the front lines protecting our safety. Therefore, our Company, through the DPT, will form a partnership with law enforcement. This partnership will be rooted in a shared responsibility for the safety of the community. Upon request, law enforcement will have access to employee records and Grow Facility operations. Company will also engage with first responders like EMS and fire to establish emergency response protocols. This will create a close working relationship and enhance our ability to provide a secure and positive experience for our employees and the community.

To provide first responders with immediate access into our facility during a time of emergency or inspection, we will install a Knox Rapid Access System to remove any barriers to entry when first responders respond to an emergency call.
EMLOYEE TRAINING

We know that having a trained and educated workforce is paramount to having an effective diversion strategy. Therefore, a considerable amount of time, resources, and energy will be devoted to ongoing diversion prevention training. The training curriculum will be conducted by the DPT. At a minimum, the training curriculum shall include:

- Compliance regulations for grow facilities.
- State laws and agency rules regulating the use of marijuana.
- Strategies for preventing diversion.
- Criminal and civil consequences for diverting product.
- Security and safety standard operating procedures.
- Chain of command for reporting diversion.
- Incident management.
- Daily operating procedures.

Diversion prevention trainings are mandatory for every new employee. Additionally, each employee shall be required to participate in quarterly continuing education trainings on diversion. Training materials will be outcome driven. Employees will be given real world examples of diversion and taught the appropriate response. Teaching the material through the learning principles of problem solving, discussion, and feedback will empower and increase understanding and retention of the training. This process of integrating knowledge will develop a culture of shared values, perspectives, and become the way of daily conduct and purpose at the Grow Facility.

Employees will have access to diversion prevention training materials at all times. There will be no excuse and zero tolerance for not knowing the proper policies and procedures. Well-maintained employee training records displaying documented training dates and subject matter will preserve and increase compliance, continuity and understanding of all guidelines, security procedures, safety, and incident response. Employee training records will become a written testament of the detailed information and accountability of security education.

INVESTIGATION OF DIVERSION

Due to intense and robust security operations, we do not anticipate diversion at our facility. However, it is important to be prepared for any scenario. We have developed an enhanced investigation procedure for any allegations or reports of potential diversion. Any allegation or report will be fully and immediately investigated by the DPT with established processes and timeframes.

Security policies developed by our Company outline that the first step of investigation is to preserve all possible evidence. Evidence needs to be persevered for the investigation and may be used in future disciplinary matters. The second step of investigation shall be to review all camera footage and other relevant information technology. Each marijuana product is tracked from seed to sale. Therefore, if diversion occurred, it will likely appear in an audit of the tracking software. The third step of investigation will be to interview the employee who engaged or
allegedly engaged in diversion. This step can only be executed if enough evidence is gathered to narrow down the suspect. The goal of the interview is to get the subject to confess how they diverted product to prevent future incidents from occurring. The fourth step of investigation will be to report the confirmed incident of diversion and suspect to law enforcement and the Department. The Site Manager shall be the point of contact for all law enforcement inquires and will turn over all relevant evidence to law enforcement and the Department. The final step of investigation is to develop policies and procedures to prevent the incident from happening again. Once new policies have been developed by the DPT, an all staff training shall be given. The training will be a top down review of all security policies including any updated procedures.

INCIDENT RESPONSE

We shall establish incident response procedures addressing any incident that may occur, including natural disaster, unauthorized access, theft, or IT security breach. Procedures shall be in accordance with the rules set forth by the Department and all applicable state and local laws, regulations, ordinances, and other requirements. Procedures for general emergency and incident management, containment, and corrective measures shall be thoroughly detailed. The Director of Compliance shall ensure the appropriate response procedures are followed. All employees shall receive incident response training annually. The Site Manager shall determine the category and severity of the incident and determine the next best course of action. All discussions, decisions, and activities shall be documented.

We shall immediately notify appropriate law enforcement authorities and the Department immediately after the discovery of a reportable incident as defined by state and local laws, regulations, ordinances, and other requirements. Examples of an incident may include, but are not limited to:

- Theft or physical loss of marijuana or confidential records.
- Breach of our network servers.
- Robbery or unauthorized entry in the Grow Facility.
- Threats of violence to the Grow Facility, employees, or visitors.
- Bomb threats.
- Any criminal activity.
- Civil disturbances.
- Hazardous spills.
- Infectious disease epidemic.
- Serious accidents.
- Fires.
- Earthquakes.
- Floods.
- Windstorms or tornadoes.
INCIDENT REPORTING

Anyone with knowledge or a reasonable suspicion of an incident is instructed to make an immediate report to the Grow Facility Manager or the Site Manager. The person reporting the incident shall complete the Incident Log.

- Date and time of occurrence or suspected occurrence.
- Names and contact information of parties involved and any witnesses.
- Description of incident.
- Completed Suspect Description Forms, if applicable.
- Any evidence supportive of the event (unless law enforcement is required on scene or en route).

We shall notify appropriate law enforcement authorities and the Department immediately after discovering the following:

- Discrepancies identified during inventory; diversion, theft, or loss of marijuana; or any criminal action involving an employee.
- Theft, robbery, or burglary; sale to minors; diversion of marijuana or marijuana products; or any other crime related to marijuana.
- Any suspicious act involving the sale, cultivation, distribution, processing, or production of marijuana by any person.
- Unauthorized destruction of marijuana.
- Any loss or unauthorized alteration of records.
- An alarm activation or other event that requires a response by public safety personnel.
- Integrity of the inventory management system compromised.
- An IT security breach.
- The failure of any security alarm system due to a loss of electrical power or mechanical malfunction that is expected to last longer than eight (8) hours.
- Any other breach of security defined by the rules set forth by the Department.

UNAUTHORIZED ENTRY/ROBBERY CONTAINMENT AND CORRECTIVE PROCEDURES

In the event a threat is present to persons, cash, or product due to unauthorized entry, employees shall be trained to perform the following:
• Notify law enforcement utilizing a panic alarm, only if it can be safely done without being obvious to the robber.

• Do not resist the robber or use or encourage the use of weapons or force against the robber.

• Try to inform the robber of any potential surprises (e.g., an employee is due back from lunch or the building alarm is set to be tested).

• Try to keep employees and visitors, if applicable, calm during the robbery.

• Try to alert other employees of the situation using pre-determined signals or text messages, only if safe to do so.

• Follow the robber’s commands in order to shorten the time of the incident. Do not argue with the robber, but do not volunteer to help.

• If the robber demands a certain amount of money or product, only give them that amount.

• Be observant in order to be a good witness. Try to remember:
  o The number of robbers.
  o The physical characteristics of the robber(s), such as weight, scars, tattoos, hair color, or speech patterns.
  o The clothing worn by the robber(s).
  o Any names used by the robber(s).
  o A description of any weapons shown, such as barrel length and color, color of the grip, or automatic or revolver.

• If the robber uses a note, try to place it out of sight to retain it as evidence.

• Do not follow a robber.

• Secure the Grow Facility and place a notice that the business is closed due to an emergency.

• Call the police and ambulance, as needed, immediately and request that witnesses stay or obtain their contact information.

• Provide aid to injured people.

• Do not discuss the robbery with any outside parties until police and management has given authority to do so.

• Do not estimate the amount of money or product that was taken until an inventory has been performed.

Corrective procedures that may be required to return conditions to a normalized and secure state:

• Change all security codes.

• Replace locks and issue keys only to authorized employees.
• Ensure any video of the incident is archived.
• Restore security devices and/or apparatus to working condition.
• Repair any physical damage to the Grow Facility.
• Provide employees and visitors, if applicable, counseling, as needed.
• Perform a security re-training as soon as possible.
• Modify Employee Access Control Log as deemed appropriate.

INTERNAL THEFT/BURGLARY CONTAINMENT AND CORRECTIVE PROCEDURES

In the event a threat is present to persons, cash, product due to internal theft or burglary, employees shall be trained to perform the following:

• Identify missing or compromised assets.
• Gather, remove, recover, and secure sensitive materials to prevent further loss or access.
• Power down, recycle or remove security equipment known to be compromised.
• Where possible, secure the premises for possible analysis by the Department and law enforcement.
• Gather and secure any evidence of illegal entry for review by the Department and law enforcement.
• Where possible, record identities of any party who might be a possible witness to events.
• Preserve video recordings and Visitor logs for review by the Department and law enforcement.

Corrective procedures that may be required to return conditions to a normalized and secure state:

• Retrieve or restore assets where possible.
• Store all sensitive materials and products in a secure manner (e.g., lockable cabinets or storage areas/container).
• Replace locks and issue keys only to authorized employees. Update the Employee Access Control Log as necessary.
• Restore security devices and/or apparatus to working condition.
• Remove and retain unauthorized equipment from network and/or area.
• Implement physical security devices and improvements (e.g., equipment cables, alarms) as deemed appropriate.
• Perform a security re-training as soon as possible.
FIRE PROCEDURES

If a fire does not present an immediate danger to personal safety, one (1) employee shall try to extinguish the fire. If a fire presents an immediate danger to personal safety, a fire alarm shall be pulled and a call to 911 shall be immediately made and evacuation of the building shall occur all at once.

Evacuation of Grow Facility

Any director or manager may determine the need to evacuate. Reasons for evacuation may include:

- Fire.
- Bomb threat.
- A hostile or violent employee, visitor, or unknown person.
- Power outage.
- Earthquake.
- Water or gas leak.
- Hazardous spill.
- Robbery or hostage situation.

The Site Manager shall ensure that all employees and visitors, if applicable:

- DO NOT gather in lobbies.
- DO NOT open a door without first checking for heat.
- DO NOT touch any suspicious items or suspected bombs.
- DO NOT run or panic.
- DO NOT re-enter the building until authorized.
- DO assist disabled individuals or others who need assistance. Evacuate disabled individuals or others who need assistance ONLY under the direction of authorized emergency personnel or when there is an immediate threat to personal safety and security.

INCIDENT CONTAINMENT

The Site Manager, in coordination with the appropriate department directors or managers, shall determine and implement the appropriate activities and processes required to quickly contain and minimize the immediate impact to personal safety, the Grow Facility, and other affected parties. Containment activities shall be designed to:

- Minimize harm to individuals.
- Counteract the immediate threat.
• Prevent propagation or expansion of the incident.
• Minimize actual and potential damage.
• Restrict knowledge of the incident to authorized employees.
• Preserve information relevant to the incident.

The Site Manager, in coordination with the appropriate department directors or managers, shall determine and implement the appropriate activities and processes to quickly:

• Secure the environment.
• Restore the environment to its normalized state.

The Site Manager shall be actively engaged throughout the incident to assess the progress of all containment and corrective measures and determine at what point the incident can be considered resolved.

INCIDENT CONTAINMENT AND CORRECTIVE PROCEDURES

The Site Manager shall determine and implement the appropriate procedures required to quickly contain and minimize the immediate impact of an incident, as well as to quickly restore circumstances to a normalized, secure state. Containment and corrective measures shall be designed with the primary objectives of:

• Minimizing harm.
• Counteracting the immediate threat.
• Preventing propagation or expansion of the incident.
• Minimizing the actual and potential damage.
• Restricting knowledge of the incident to authorized employees.
• Preserving information relevant to the incident.
• Securing the environment.
• Restoring the environment to its normalized state.

POST-INCIDENT REVIEW, REPORT, AND FOLLOW UP

The Site Manager shall hold a Post-Incident Review after each incident has been resolved. The Post-Incident Review shall be scheduled within two (2) to three (3) weeks of the incident’s resolution and shall involve:

• Appropriate personnel, which may include affected parties.
• Examination of the incident and all related activities and events.
• Discussion on proposed changes to policy, processes, and safeguards.
All incident activities, from receipt of the initial report through post-incident review, shall be documented. The Site Manager shall ensure all events are recorded, assembling these records in preparation and performance of the post-incident review, and ensuring all records are preserved for review. The following shall be included, at a minimum, in the Post- Incident Report:

- A description of incident events with specific timelines.
- Employee(s) involved.
- Non-Employees involved.
- Impact to affected parties.
- Discussions, decisions, and assignments made.
- Successful and unsuccessful activities.
- Notifications required or recommended.
- Steps taken for containment and resolution.
- Recommendations for prevention and remediation (short-term and long-term).
- Identification of policy and procedure gaps.
- Results of post-incident review.
- Any necessary follow-up actions.

The Post- Incident Report shall be distributed to the Site Manager, the Grow Facility Manager, and all other relevant parties for review. The Site Manager shall ensure the appropriate employees are assigned to any follow-up actions. The Site Manager shall document the completion of all follow-up actions in the Post- Incident Report and distribute an updated copy.

SECURITY SYSTEM RECORDS

We shall keep all necessary books and records in order to render a full account of all operations conducted at the Grow Facility under our license for the year to date and the five (5) years prior. We shall keep books and records of the Grow Facility from the previous six (6) months (or the complete copies of such records) in the Grow Facility at all times. All marijuana related records shall be retained in the inventory management system. All surveillances recordings shall be retained, at a minimum for at least sixty (60) days, unless in instances of investigation or inspection by the Department, through its investigators, agents, auditors, or the state police, in which case the licensee shall retain the recordings until such time as the department notifies the licensee that the recordings may be destroyed. Our standard operating procedures shall detail the maintenance of records and measures for addressing and reporting any loss or unauthorized alteration of records. The Department, upon request, shall have full access to all Grow Facility records and surveillance recordings.

We shall keep and maintain security and surveillance system records and recordings in the Grow Facility and copies stored on a secure cloud storage. These records shall include, at a minimum, the following:

- The name of the surveillance equipment installation service provider and all equipment manufacturers.
- Copies of any service contracts.
- A map of the Grow Facility showing the location and operation of each surveillance system component, including the direction of camera coverage.

- A list of authorized users.

- Manufacturers' instructions for operating and maintaining the equipment.

- Testing and maintenance logs.

- Reports of any incidents of unauthorized entry.

- Employee Access Control Logs.

- Visitor Registration Logs.

- Authorized Visitor Access Control Logs.

- Incident Logs and Post-Incident Reports.

- Reports of any interruption in monitoring and/or complete failure of the system, including the length of the interruption period.

- A log of the recordings, which includes:
  - The identities of the employee or employees responsible for monitoring the video surveillance system.
  - The identity of the employee who removed the recording from the video surveillance system.
  - The identity of the employee who destroyed any recording.

- Video surveillance recordings shall be:
  - In a digital format that ensures authentication of the recording as being legitimately captured without alterations.
  - Easily accessible and in a format that allows for viewing and copying.
  - Embedded with the date and time without significantly obscuring the picture.

We will maintain a log of all recordings, which will include a minimum:

- The identities of the employee or employees responsible for monitoring the video surveillance system.

- The identity of the employee who removed the recording from the video surveillance system storage device and the time and date removed.

- The identity of the employee who destroyed any recording.

Video surveillance recordings shall be stored on an NVR that is server-based with storage as required to meet recording rate and retention. This system shall be password-protected and separate from any other equipment in the Grow Facility. The files and video surveillance recordings shall be available for inspection, upon request, by authorized representatives of the Department and other government officials when necessary to perform their official duties.

After the expiration of the retention period, and before selling or closing the facility, the surveillance video recordings shall be erased, destroyed, or otherwise disposed. We shall not destroy any surveillance video recordings if we have knowledge or should have knowledge of any ongoing criminal, civil, administrative, or other official investigations or proceedings for which the recording may contain relevant information. Additionally, we shall not destroy any surveillance
video recordings in instances of investigation or inspection by the Department, through its investigators, agents, auditors, or the state police, in which case the recordings shall be retained until such time as the Department notifies us that the recordings may be destroyed.
Security and Surveillance Equipment Room Access List

This is the *current* list of individuals having access to our Security and Surveillance Equipment Storage Room. Only those on this list are essential to maintain security and surveillance operations. All others will be denied access to the Security and Surveillance Equipment Room.

This list is available to the Department or authorized agents immediately upon request.

I. Organizational Structure
ADDITIONAL DOCUMENTS
CERTIFICATE OF AMENDMENT TO THE ARTICLES OF ORGANIZATION
For use by DOMESTIC LIMITED LIABILITY COMPANY

Pursuant to the provisions of Act 23, Public Acts of 1993, the undersigned executes the following Certificate of Amendment:

The identification number assigned by the Bureau is: 802483853
The name of the limited liability company is: HELLER INVESTMENT HOLDINGS, LLC
The date of filing the original Articles of Organization was: 7/17/2020

Complete only those articles being amended.

Article I

The name of the limited liability company as amended, is:
TYCOON I OPERATIONS, LLC

The amendment was approved by unanimous vote of all the members entitled to vote.

This document must be signed by a member, manager, or an authorized agent:

FILING ENDORSEMENT

This is to Certify that the CERTIFICATE OF AMENDMENT TO THE ARTICLES OF ORGANIZATION for

TYCOON I OPERATIONS, LLC

ID Number: 802483853

received by electronic transmission on July 22, 2020, is hereby endorsed.

Filed on July 22, 2020, by the Administrator.

The document is effective on the date filed, unless a subsequent effective date within 90 days after received date is stated in the document.

In testimony whereof, I have hereunto set my hand and affixed the Seal of the Department, in the City of Lansing, this 22nd day of July, 2020.

Linda Clegg, Interim Director
Corporations, Securities & Commercial Licensing Bureau

2011
ARTICLES OF ORGANIZATION
For use by DOMESTIC LIMITED LIABILITY COMPANY

Pursuant to the provisions of Act 23, Public Acts of 1993, the undersigned executes the following Articles:

**Article I**

The name of the limited liability company is:

HELLER INVESTMENT HOLDINGS, LLC

**Article II**

Unless the articles of organization otherwise provide, all limited liability companies formed pursuant to 1993 PA 23 have the purpose of engaging in any activity within the purposes for which a limited liability company may be formed under the Limited Liability Company Act of Michigan. You may provide a more specific purpose:

**Article III**

The duration of the limited liability company if other than perpetual is:

**Article IV**

The street address of the registered office of the limited liability company and the name of the resident agent at the registered office (P.O. Boxes are not acceptable):

1. **Agent Name:** CSC-LAWYERS INCORPORATING SERVICE (COMPANY)
2. **Street Address:** 601 ABBOT ROAD
   
   City: EAST LANSING
   
   State: MI
   
   Zip Code: 48823
3. **Registered Office Mailing Address:**
   
   P.O. Box or Street Address: 601 ABBOT ROAD
   
   City: EAST LANSING
   
   State: MI
   
   Zip Code: 48823

**Article V**

(Insert any desired additional provision authorized by the Act; attach additional pages if needed.)

THE COMPANY SHALL BE MANAGED BY ONE OR MORE MANAGERS.

Signed this 17th Day of July, 2020 by the organizer(s):

2013
Date of this notice: 07-31-2020
Employer Identification Number: 85-2192285
Form: SS-4
Number of this notice: CP 575

For assistance you may call us at:
1-800-829-4933

IF YOU WRITE, ATTACH THE
STUB OF THIS NOTICE.

WE ASSIGNED YOU AN EMPLOYER IDENTIFICATION NUMBER

Thank you for applying for an Employer Identification Number (EIN). We assigned you EIN 85-2192285. This EIN will identify you, your business accounts, tax returns, and documents, even if you have no employees. Please keep this notice in your permanent records.

When filing tax documents, payments, and related correspondence, it is very important that you use your EIN and complete name and address exactly as shown above. Any variation may cause a delay in processing, result in incorrect information in your account, or even cause you to be assigned more than one EIN. If the information is not correct as shown above, please make the correction using the attached tear-off stub and return it to us.

Based on the information received from you or your representative, you must file the following form(s) by the date(s) shown.

Form 941 01/31/2021
Form 940 01/31/2021

If you have questions about the form(s) or the due date(s) shown, you can call us at the phone number or write to us at the address shown at the top of this notice. If you need help in determining your annual accounting period (tax year), see Publication 538, Accounting Periods and Methods.

We assigned you a tax classification based on information obtained from you or your representative. It is not a legal determination of your tax classification and is not binding on the IRS. If you want a legal determination of your tax classification, you may request a private letter ruling from the IRS under the guidelines in Revenue Procedure 2004-1, 2004-1 I.R.B. 1 (or superseding Revenue Procedure for the year at issue). Note: Certain tax classification elections can be requested by filing Form 8832, Entity Classification Election. See Form 8832 and its instructions for additional information.
If you are required to deposit for employment taxes (Forms 941, 943, 940, 944, 945, CT-1, or 1042), excise taxes (Form 720), or income taxes (Form 1120), you will receive a Welcome Package shortly which includes instructions for making your deposits electronically through the Electronic Federal Tax Payment System (EFTPS). A Personal Identification Number (PIN) for EFTPS will also be sent to you under separate cover. Please activate the PIN once you receive it, even if you have requested the services of a tax professional or representative. For more information about EFTPS, refer to Publication 946, Electronic Choices to Pay All Your Federal Taxes. If you need to make a deposit immediately, you will need to make arrangements with your Financial Institution to complete a wire transfer.

The IRS is committed to helping all taxpayers comply with their tax filing obligations. If you need help completing your returns or meeting your tax obligations, Authorized e-file Providers, such as Reporting Agents (payroll service providers) are available to assist you. Visit the IRS Web site at www.irs.gov for a list of companies that offer IRS e-file for business products and services. The list provides addresses, telephone numbers, and links to their Web sites.

IMPORTANT REMINDERS:

* Keep a copy of this notice in your permanent records. This notice is issued only one time and IRS will not be able to generate a duplicate copy for you. You may give a copy of this document to anyone asking for proof of your EIN.

* Use this EIN and your name exactly as they appear at the top of this notice on all your federal tax forms.

* Refer to this EIN on your tax-related correspondence and documents.

* Provide future officers of your organization with a copy of this notice.

Your name control associated with this EIN is TYCO. You will need to provide this information, along with your EIN, if you file your returns electronically.

If you have questions about your EIN, you can contact us at the phone number or address listed at the top of this notice. If you write, please tear off the stub at the bottom of this notice and include it with your letter. Thank you for your cooperation.
Return this part with any correspondence so we may identify your account. Please correct any errors in your name or address.

TYCOON I OPERATIONS LLC
DARYL WELLES JR MBR
2055 CROOKS RD STE B
ROCHESTER HLS MI 48309
OPERATING AGREEMENT
OF
TYCOON I OPERATIONS, LLC

THIS OPERATING AGREEMENT (this "Agreement") is entered into and made effective as of July 22, 2020 (the "Effective Date") by and between TYCOON I OPERATIONS, LLC, a Michigan limited liability company (the "Company"), and TYCOON HOLDINGS, LLC, a Michigan limited liability company and sole member of the Company (the "Member").

Background

A. The Company was formed on July 22, 2020 as a Michigan limited liability company.

B. The undersigned desires to memorialize its rights and obligations with respect to the Company pursuant to the terms of this Agreement.

Agreement

In consideration of the foregoing background and for other good and valuable consideration, the receipt and sufficiency of which is hereby acknowledged, and intending to be legally bound hereby, the parties agree as follows:

ARTICLE I
DEFINITIONS

The following capitalized terms used in this Agreement shall have the following meanings (unless otherwise expressly provided herein):

"Act" means the Michigan Limited Liability Company Act, as amended.

"Business" means the principal business of the Company, which shall be to own and manage investments.

"Capital Contribution" means any contribution of cash or property to the Company, or any obligation to contribute cash or property to the Company, whenever made.

"Certificate" means the Articles of Organization as filed by the organizer of the Company with the Department of State of the State of Michigan, as amended.

"Code" means the Internal Revenue Code of 1986, as amended, or corresponding provisions of subsequent superseding federal revenue laws.

"Interest" means the Member’s entire interest in the Company.
“Person” means any individual, trust, partnership, corporation, limited liability company or entity.

ARTICLE II
FORMATION OF COMPANY

2.1 Formation. The Company has been organized as a Michigan limited liability company by executing and delivering the Certificate in accordance with and pursuant to the Act.

2.2 Name. The name of the Company is Tycoon I Operations, LLC.

2.3 Registered Office. The address of the registered office of the Company shall be The CSC – Lawyers Incorporating Service, 601 Abbot Road, East Lansing, Michigan 48823, or at such other place as the Member may from time to time determine. The registered office of the Company may be changed from time to time by amending the Certificate in accordance with the Act. The Company may maintain such other offices, including, but not limited to, a principal place of business as the Member shall determine.

2.4 Purpose. The purposes of the Company shall be (a) to advance and grow the Business, (b) to engage in all other lawful business authorized pursuant to the Act, and (c) to make, enter into and perform any contracts and other undertakings, and to engage in any activities and transactions as may be ancillary to or necessary or advisable to carry out the foregoing purposes.

2.5 Term. The term of the Company shall be perpetual unless the Company is earlier dissolved in accordance with the provisions of this Agreement.

ARTICLE III
CAPITAL CONTRIBUTIONS; LOANS; DISTRIBUTIONS

3.1 Capital Contributions. The Company shall keep a record of all Capital Contributions made by the Member. The Member shall not be required to make any Capital Contribution to the Company not specifically agreed to in writing between the Member and the Company.

3.2 Loans. Any and all loans made to the Company by the Member shall not be considered Capital Contributions.

3.3 Distributions. Distributions shall be made to the Member (in cash or in kind) at such times and in such amounts determined by the Member and as permitted by applicable law.
ARTICLE IV
MEMBER

4.1 **Member.** The name and address of the Member is:

Tycoon Holdings, LLC
2055 Crooks Road, Suite B
Rochester Hills, MI 48309

4.2 **Management.** The Company shall be initially managed by Heller Investment Holdings, LLC.

4.3 **Right to Rely on Member.** Any Person dealing with the Company may rely (without duty of further inquiry) upon a certificate signed by a designee of the Member as to: (a) the identity of the Member; (b) the existence or non-existence of any fact or facts which constitute a condition precedent to acts by the Member or which are in any manner germane to the affairs of the Company; (c) the Persons who are authorized to execute and deliver any instrument or document of the Company; or (d) any act or omission by the Company or any other matter whatsoever involving the Company or the Member.

4.4 **Authority to Designate Officers.** The Member may elect, appoint or designate, by resolution or otherwise, individuals as officers of the Company and delegate to such officers such powers, authority and responsibilities as are (i) set forth in the designation or delegation, and (ii) necessary to carry out and implement the management decisions of the Member. The Member may remove any officer, with or without cause, at any time. Any officer may resign at any time by giving written notice to the Company. Any resignation shall take effect as of the date of the Company’s receipt of such notice or at any later time specified in such notice (unless such officer is otherwise removed prior to such date); and unless otherwise specified in such notice, the acceptance of the resignation shall not be necessary to make it effective. Unless the Member decides otherwise, if the title to an officer of the Company is one commonly used for officers of a business corporation, the assignment of such title shall constitute the delegation to such individual of the authority and duties that are normally associated with that office. The current officers of the Company are as set forth on Schedule A attached hereto, as may be amended from time to time.

4.5 **Liability of Member and Officers.** Neither the Member nor any officer, agent or representative of the Member, or officer of the Company, shall be liable to the Company or to the Members, as applicable, for (i) the performance of, or the failure to perform, any act or duty on behalf of the Company if, in good faith, the Members or officer determined that such conduct was in the best interests of the Company and such conduct did not constitute fraud, gross negligence or reckless or intentional misconduct, (ii) the termination of the Company and this Agreement pursuant to the terms hereof, and (iii) the performance of, or the failure to perform, any act on behalf of the Company in good faith reliance on advice of legal counsel, accountants or other professional advisors to the Company.
4.6 **Indemnification.** The Company shall indemnify, defend and hold the Member and the officers, agents and representatives of the Member, and each officer of the Company and, in the discretion of the Member, each employee of the Company, harmless from and against any expense, loss, damage or liability incurred or connected with, or any claim, suit, demand, loss, judgment, liability, cost or expense (including reasonable attorneys' fees) arising from or related to, the Company or any act or omission of such Member (or officer, agent or representative of the Member) or officer (or employee) and amounts paid in settlement of any of the foregoing, to the fullest extent provided or allowed by the laws of the State of Michigan. The Company may advance to any such Person the costs of defending any claim, suit or action against such Person.

4.7 **Title to Company Property.** All real and personal property shall be acquired in the name of the Company and title to any property so acquired shall vest in the Company itself rather than in the Member.

**ARTICLE V**

**ACCOUNTING AND TAX MATTERS**

5.1 **Accounting Principles.** The Company's financial statements shall be prepared and its profits and losses shall be determined in accordance with methods of accounting selected by the Member, which need not be the same as the method of accounting used for tax purposes.

5.2 **Returns and Other Elections.** The Member shall cause the preparation and timely filing of all tax returns required to be filed by the Company pursuant to the Code and all other tax returns deemed necessary and required in each jurisdiction in which the Company does business. All elections permitted to be made by the Company under federal or state laws shall be made by the Member in its sole discretion. So long as the Company has only one member, the Company shall be treated as a disregarded entity for income tax purposes.

**ARTICLE VI**

**TRANSFERS; ADDITIONAL MEMBERS**

6.1 **Transferability of Membership Interest.** The Member's Interest in the Company is freely transferable or assignable, in whole or in part, either voluntarily or by operation of law.

6.2 **Admission of Additional Members.** Additional members of the Company may be admitted to the Company at the direction of the Member only if a new operating agreement or an amendment and restatement of this Agreement is executed by such additional member or members.
ARTICLE VII
DISSOLUTION AND LIQUIDATION

7.1 Dissolution.

(a) The Company shall be dissolved and its affairs wound up and terminated only upon the determination of the Member. The dissolution or bankruptcy of the Member or the occurrence of any other event that terminates the continued membership of the Member shall not cause a dissolution of the Company.

(b) Dissolution of the Company shall be effective on the day on which an event described in Section 7.1(a) above occurs, but the Company shall not terminate until articles of dissolution shall be filed with the Department of State of the State of Michigan and the assets of the Company are distributed as provided in Section 7.2 below. Notwithstanding the dissolution of the Company, prior to the termination of the Company, the business of the Company and the affairs of the Member shall continue to be governed by this Agreement.

7.2 Winding Up. Upon dissolution, the Company shall continue until the winding up of the affairs of the Company is completed and a certificate of dissolution has been filed pursuant to the Act. Upon the winding up of the Company, the Company’s property shall be distributed (a) first to creditors, including the Member if the Member is a creditor, to the extent permitted by law, in satisfaction of the Company’s liabilities, and (b) then to the Member. Distributions shall be in cash or property or partly in both, as determined by the Member.

ARTICLE VIII
MISCELLANEOUS PROVISIONS

8.1 Notices. Any notice, demand or communication required or permitted to be given by any provision of this Agreement shall be in writing and shall be deemed to have been delivered (a) two business days after being sent by registered or certified United States mail, or (b) upon delivery if hand delivered, sent via facsimile transmission or electronic mail. If delivered to the Member, such notice shall be delivered to his address as it appears in Section 4.1 above. If to the Company, such notice shall be delivered to its principal place of business.

8.2 Governing Law. This Agreement, and the application and interpretation hereof, shall be subject to and governed exclusively by its terms and by the laws of the State of Michigan, without regard to its conflicts of laws provisions.

8.3 Construction. Whenever the singular number is used in this Agreement and when required by the context, the same shall include the plural and vice versa, and the masculine gender shall include the feminine and neuter genders and vice versa. Unless expressly stated otherwise, Section and Article references herein shall refer to the Sections and Articles of this Agreement.

8.4 Waivers. No waiver by any party of the breach of any provision hereof shall be deemed to constitute a waiver of any continuing or subsequent breach of such provision or any other provision hereof.
8.5 **Severability.** If any provision of this Agreement or the application thereof to any Person or circumstance shall be invalid, illegal or unenforceable to any extent, the remainder of this Agreement and the application thereof shall not be affected and shall be enforceable to the fullest extent permitted by law, provided that the essential purpose of this Agreement is not frustrated.

8.6 **Heirs, Successors and Assigns.** The covenants, terms, provisions and agreements herein contained shall be binding upon, and inure to the benefit of, the parties hereto and, except as otherwise provided to the contrary, their respective heirs, executors, administrators, legal representatives, successors and permitted assigns.

8.7 **Entire Agreement.** This Agreement embodies the entire agreement and understanding between the parties hereto with respect to the subject matter hereof and supersedes all prior agreements and understandings relating to such subject matter.

[SIGNATURES APPEAR ON FOLLOWING PAGE]
IN WITNESS WHEREOF, the parties hereto have caused this Agreement to be signed as of the Effective Date.

STAFFING PLAN

Summary of Job Creation, Compensation and Budget

As discussed in detail below, we anticipate creating approximately 59 jobs at our Orion Township Cultivation Facility.

<table>
<thead>
<tr>
<th>Type of Marijuana Facility</th>
<th>Proposed Location</th>
<th>Total Jobs Per Facility</th>
<th>Expected Annual Payroll</th>
</tr>
</thead>
<tbody>
<tr>
<td>Cultivation Facility</td>
<td>Orion Township</td>
<td>59</td>
<td>$3,750,000.00</td>
</tr>
</tbody>
</table>

We pay our cultivation facility employees a minimum hourly wage of $15. We also provide a generous benefit package that includes the following:

- Health Insurance
- Paid Holidays
- Paid Time Off
- 401K Plan with 2% Match
- Performance Incentives

Out of our 3.75MM expected annual payroll, Tycoon I Operations expects to allocate $630,000 toward benefits for all full-time employees!

We intend to source our employees first from Orion Township, then into the surrounding regional area. Our job listings will always be listed in the Orion Township area first to accumulate as many qualified candidates as possible.

Attached is a table of the proposed positions at our Orion Cultivation Facility:

CHARTER TOWNSHIP OF ORION
ORDINANCE No. 154 APPLICATION REVIEW

Planning Commission Case: PC-2021-29
Parcel Number: 09-35-477-001 & 09-35-477-002
Property Address: 180 Premier Drive
Applicant: Tycoon I Operations LLC
Request: Class C Grow – Adult Use
Date: February 12, 2021

The aforementioned application was reviewed for compliance with the location requirements of Article VI of Ordinance No. 154 and the finds are detailed below:

Article V, 1. – The Facility must be located in the Township’s IP (Industrial Park) district: The parcels are zoned IP (Industrial Park) as required.

Article V, 2 – The Facility cannot be within one thousand five hundred (1,500) feet of a “church” in the Township: Article VI, 7 states that the distances specified in the Ordinance shall be measured from building edge to building edge. The applicant stated within their application that the facility is more than the required 1,500 feet. Using GIS, a measurement was taken from the edge of the property where the building is located (for simplicity vs. from edge of building which is further) to the edge of the closest church and it was over 1,600 feet.

Article VI, 3 – The Facility cannot be within two thousand (2,000) feet of a residence located in a R-1, R-2, R-3, SF, SE, SR, RM or MHP zoning district: Article VI, 7 states that the distances specified in the Ordinance shall be measured from building edge to building edge. The applicant stated within their application that the facility is more than the required 2,000 feet. Using GIS, a measurement was taken from the edge of the property where the building is located (for simplicity vs. from edge of building which is further) to the edge of the closest residential property line (for simplicity) and it was 2,500 feet.

Article VI, 4 – The Facility cannot be within two thousand five hundred (2,500) feet of a registered “school” within the Township: Article VI, 7 states that the distances specified in the Ordinance shall be measured from building edge to building edge. The applicant stated within their application that the facility is more than the required 2,500 feet. The closest school is over 2 miles from the parcel. (Scripps and Stadium Rds.)
Article VI, 5 – The Facility shall not have an ingress or egress on a street or road that has an average traffic volume in excess of six thousand (6,000) vehicles per day, as calculated by averaging the three (3) most recent Average Annual Daily Traffic (AADT) counts (as available), as reported by Southeast Michigan Council of Governments (SEMCOG): The building has ingress and egress off of Premier Drive. SEMCOG’s website does not contain any traffic count reports for Premier Dr.

Article VI, 6 – The Facility shall not have an ingress or egress on a street or road that directly also serves as an ingress or egress to a residential road or property located in a R-1, R-2, R-3, SF, SE, SR, RM or MHP zoning district. The building has both ingress or egress off of Premier Dr. Premier Dr. does not serve as an ingress and/or egress to any property located in a R-1, R-2, R-3, SF, SE, SR, RM or MHP zoning district.

Article VI, 7 - Distances specified in this Ordinance shall be measured from building edge to building edge. The measurements, unless noted differently, were measured from building edge to proposed building edge.

Article VI, 8 – If the Facility shall need a variance from what is set forth in Article VI Sections one (1) through six (6) above, the Applicant may submit a formal request for a variance to the Zoning Board of Appeals (“ZBA”). The ZBA shall only consider a variance request that is no more than fifteen percent (15%) out of compliance with the above location regulations. The applicant is not requesting any variances from the ZBA.

Article VI, 9 – It is the Township’s intention that Growers, Processors, Safety Compliance Facilities and Secured Transporters may operate within the same building under the following conditions: each licensed entity remains distinct and separate within different working area and separate record keeping systems: The applicant is requesting a Class C Grow – Adult Use only.

Article VI, 10 – The location shall meet all applicable Ordinances and promulgated standards of the Township and, prior to opening, shall demonstrate to the Township that it meets the rules and regulations promulgated by the State Mariujana Regulatory Agency (MRA):

ITEMS TO BE ADDRESSED: These items are unknown at this time. It is recommended that any approval be conditioned upon this requirement.

Article VI, 11 – The Facility location shall conform to all standards of the zoning district in which it is located: This condition has been met. The building itself has received site plan approval.
Article VI, 12 – If the Facility location is currently vacant land, the applicant must submit a site plan and building plans with the Application. The application is for an improved parcel that has received site plan approval.

Article VI, 14 – Based upon an application for or amendment of a Conditional Rezoning, PUD, or other use Development Agreement of sufficient specificity, it is within the sole discretion and judgment of the Township Board of Trustees to consider and waive any or all of the Location Requirements of this Article VI based upon any or all of 3 factors listed in Article VI 14 a,b, and c.: The applicant is not requesting any waivers.

Summary: I have reviewed the application as it relates to Ordinance No. 154 Article VI – Location Requirements. I am agreeable with the recommendation to approve this application with the conditions that:

1. The applicant meets all other applicable Township Ordinances and promulgated standards of the Township and, prior to opening, shall demonstrate to the Township that it meets the rules and regulations promulgated by the State Mariujana Regulatory Agency (MRA).

Re: Marihuana Facility Permit Application; Tycoon I Operations, LLC  
180 Premier Drive, Orion Charter Township, MI 48359  
Adult-Use Class C Grow 3 of 5

Dear Madam Clerk:

Please find attached a Marihuana Facility Permit Application and all exhibits for five Adult Use Class C Grow permits to operate at 180 Premier Drive, Orion Charter Township, MI 48359. This application represents three of five of the adult use Class C grow permits.

If the Township believes any additional information or materials are required for this filing, please do not hesitate to contact us. Kindly direct all communications regarding this application to Aaron Fogleman either by phone at 248.920.8770 or by email at licensing@gloriouscanna.com.

We look forward to contributing significantly to the Township through economic development, training and employment, education and outreach, and to becoming a valuable community partner.

Thank you for your consideration.
ORION ORDINANCE 154 INITIAL PERMIT APPLICATION
Ordinance 154, Licensed Marihuana Facilities Ordinance

Pursuant to the Charter Township of Orion Ordinance 154, Licensed Marihuana Facilities Ordinance, the following application is intended to collect information and documentation establishing the applicant’s conformance with the ordinance. All applicants should note that the approval of a Marihuana Permit will be based upon the accuracy and completeness of the information provided. In the event applications are received in excess of the permitted number of locations within the Ordinance or two or more applicants have similar qualifications, the Charter Township of Orion reserves its right to approve a permit which in the opinion of the Township best meets its goals and safeguards as set forth in the Ordinance. No financial or other right is established by the payment of the non-refundable application fee. All applications for renewal of a permit shall be reviewed per the standards set forth in the Ordinance. The Charter Township of Orion reserves the right to approve or deny the permit based upon the failure of any applicant to establish to the satisfaction of the Township any requirement, standard or goal of the Ordinance. The applicant understands this determination may involve a subjective interpretation of the application. Any permit granted by the Township is contingent upon the State of Michigan granting a state license for the specific license applied for under this ordinance.

**SECTION B- FACILITY LOCATION**

7. Name of proposed facility: Oakland Business Park, Building B

8. Location of proposed facility: 180 Premier Drive

   Orion Charter Township, MI 48359
9. Please provide a preliminary floor plan sketch showing the location of all facility operations within an existing building, or for new construction a site plan for the parcel. Attach as Exhibit “A”
   🆓 Document(s) attached. If not attached, why not and when is applicant expected to supplement: ____________________________

10. With respect to the location of the facility, please state with specificity the exact location, address, suite number and, if necessary, the location of the facility within a building or the parcel of land. This location should include the distance in feet from each property line. Attach as Exhibit “B”
    🆓 Document(s) attached.
    If not attached, why not and when is applicant expected to supplement: ______________

11. Please provide evidence of the Applicant’s property interest in the proposed location. Provide copies of documentation showing a legal and enforceable property interest. Attach as Exhibit “C”.
    🆓 Document(s) attached.
    If not attached, why not and when is applicant expected to supplement: ______________

12. Please confirm and establish that the facility is located within the Township’s Industrial Park district (“IP”); is not within 1,500 feet of a church; is not within 2,000 feet of a residence located in the R-1, R-2, R-3, SF, SE, SR, RM or MHP Zoning Districts; is not within 2500 feet of a registered school and does not have ingress or egress on a street or road that has an average traffic volume in excess of 6,000 vehicles per day as calculated and reported by Southeast Michigan Counsel of Governments. Further, please show that the facility does not have an ingress or egress on a street or road that serves as an ingress or egress to a residential road or property located in a R-1, R-2, R-3, SF, SE, SR, RM or MHP Zoning District. For each of the above criteria, please attach any and all documents which will permit the Township to calculate compliance with the Licensed Marihuana Facilities Ordinance No. 154. At a minimum, provide a map showing the facility and measured distances (building edge to building edge). Attach as Exhibit “D”.
    🆓 Documents attached.
    If not attached, why not and when is applicant expected to supplement: ______________

a) Is the Facility located in the Township’s IP (Industrial Park District) zoning district?
   🆓 Yes  □ No
b) Is the Facility more than one thousand five hundred (1,500) feet of any church in the Township?

☐ Yes  ☐ No

c) Is the Facility more than two thousand (2,000) feet of any residence located in an R-1, R-2, R-3, SF, SE, SR, RM, or MHP zoning district?

☐ Yes  ☐ No

d) Is the Facility more than two thousand five hundred (2,500) feet of any registered school within the Township.

☐ Yes  ☐ No

For 10-12 above, please provide a map showing the facility and measured distances (building Edge to building edge.)

e) Does the facility have an ingress or egress on a street or road that has an average traffic volume of six thousand (6,000) or less vehicles per day, as calculated by averaging the three (3) most recent Average Annual Daily Traffic (AADT) counts (as available), as reported ng the Southeast Michigan Council of Governments (SEMCOG) per the site semcog.org/Traffic-Counts?

☐ Yes  ☐ No

f) Does the Facility have an ingress or egress on a street or road that does not also serve as an ingress or egress to a residential road or property located in a TR-1, R-2, R-3, SF, SE, SR, RM, or MHP zoning district?

☐ Yes  ☐ No

Name of Facility ingress/egress Street or road: Premier Drive

13. Please state whether the Applicant will seek a variance from the Zoning Board of Appeals pursuant to Article 6(8) of the Orion Licensed Marijuana Facilities Ordinance No. 154.

☐ Yes  ☒ No

If variance will be sought, specify location category(s) pursuant to Art 6 (1)- (6): ________________________________

______________________________________________________________

2035
For each category variance sought, state the percentage the applicant will seek: _______%
(Not to exceed 15%)

SECTION C - FACILITY REQUIREMENTS

14. When available, submit to the Township a copy of the Applicant’s application for a license submitted to the State of Michigan, Department of Licensing and Regulatory Affairs, for each facility permit requested.
   Attach as Exhibit “E”.
   ☐ Document(s) attached.
   If not attached, why not and when is applicant expected to supplement: _______________
   Phase 2 application with the state of Michigan requires a permit and signed attestation from the municipality. we expect to submit our application with the state by 03/01/2021.

15. Is consumption and/or use of marihuana prohibited at the Facility?
   ☐ ☐ Yes ☐ No

16. Will all activity related to the Facility be done indoors?
   ☐ ☐ Yes ☐ No

17. Will all Marihuana contained within the building be in a locked Facility in accordance with the Michigan Medical Marihuana Act, MCL 333.26421 et seq., as amended (“MMMA”), the Michigan Medical Marihuana Facilities Licensing Act, MCL 333.27101, et seq., and the Michigan Regulation and Taxation of Marihuana Act, MCL 333.27951, et seq., as amended (“MRTMA”) as amended?
   ☐ ☐ Yes ☐ No

18. Please set forth an operations statement, plan and or outline showing that all facility activities shall occur indoors and in a building which is locked.
   Attach as Exhibit “F”
   ☑ Document(s) attached.
   If not attached, why not and when is applicant expected to supplement: _______________

19. Will all necessary building, electrical, plumbing and mechanical permits obtained for any portion of the structure in which electrical wiring, lighting and/or watering devices are located?
   ☐ Yes ☐ No
20. When available and prior to the issuance of any permit, the Applicant must submit all necessary building, electrical, plumbing and mechanical permits, as well as documented approval by the Orion Fire Department showing compliance with the Michigan Fire Protection Code and confirmation that the storage of any chemical, herbicide, pesticide and or fertilizer has also been approved by the Orion Fire Department. 
Attach as Exhibit “G”.
Ø Document(s) attached.
If not attached, why not and when is applicant expected to supplement: ____________________________
_____________________________________________________________________________________
_____________________________________________________________________________________

21. In any portion of the structure where the storage of any chemicals such as herbicides, pesticides, and/or fertilizers, do you agree to be subject to inspection and approval by the Orion Fire Department to ensure compliance with the Michigan Fire protection Code?

Ø Yes
□ No

22. Will you ensure that no other uses, other than accessory uses, will be permitted within the same Facility other than those associated with cultivating, processing, transporting or testing marihuana?

Ø Yes
□ No

23. Please state and/or provide documentation showing the plan that all litter and waste will be properly and safely removed and will not constitute a source of contamination in areas where marihuana is exposed. Further, please include how the applicant will dispose of rubbish so as to minimize the development of odor and minimize the potential for development of waste odor and waste from becoming an attracted, harborage or breeding place for pests. Please include a detailed description of the ventilation system. Attach as Exhibit “H.”
Ø Document(s) attached.
If not attached, why not and when is applicant expected to supplement: ____________________________
_____________________________________________________________________________________
_____________________________________________________________________________________

a) Will litter and waste be properly removed and the operating systems for waste disposal maintained in an adequate manner so that they do not constitute a source of contamination in areas where marihuana is exposed?

X Yes
□ No

b) Will floors, walls and ceilings be constructed in such a manner that they may be adequately cleaned and kept clean and in good repair?

X Yes
□ No
c) Will there be adequate screening or other protection against entry of pests, and will rubbish be disposed of so as to minimize the development of odor, minimize the potential for development of waste odor, and minimize the potential for waste becoming an attractant harborage or breeding places for pests?

☐ Yes  ☐ No

d) Will all buildings, fixtures and other facilities be maintained in a sanitary condition?

☐ Yes  ☐ No

e) Will each Facility center provide its occupants with adequate and readily accessible toilet facilities that will be/are maintained in a sanitary condition and in good repair?

☐ Yes  ☐ No

24. Please state how the Applicant intends to avoid excessive noise, dust, vibrations, glare, fumes or odors detectable to the normal senses beyond the boundaries of the property. Attach as Exhibit “I”.

☐ Document(s) attached. If not attached, why not and when is applicant expected to supplement: ________________

a) Will each Facility be operated in a manner that does not create excessive noise, dust, vibrations, glare, fumes or odors detectable to the normal senses beyond the boundaries of the property on which that Marihuana Facility will operate/operates or in violation of any other ordinance?

☐ Yes  ☐ No

25. Please provide the plan and supporting documentation showing that all disposal systems for spent water and spent soil have been adequately and safely disposed of and accounted for.

Attach as Exhibit “J”.

☐ Document(s) attached. If not attached, why not and when is applicant expected to supplement: ________________

26. Please provide a security and safety plan, and at a minimum showing the facilities surveillance systems and continuous monitoring systems of the entire premise as required by the ordinance.

Attach as Exhibit “K”.

☐ Document(s) attached. If not attached, why not and when is applicant expected to supplement: ________________
a) Will the Facility continuously monitor the entire premises with surveillance systems that include security cameras operating 24 hours a day, 7 days a week, every day of the year, and will these recordings be maintained for a period of at least 30 days?

☑ Yes ☐ No

27. Please state and/or show the exterior signage or advertising identifying the facility. Attach as Exhibit “L”.
☐ Document(s) attached.
If not attached, why not and when is applicant expected to supplement: ______________________
The facility will only show the numbers associated with its address ______________________

a) Do you understand and agree that any exterior signage or advertising identifying the Facility as a marihuana facility is prohibited?

☑ Yes ☐ No

A. & B. Facility Floor Plan
C. Lease Agreement
COMMERCIAL LEASE

This lease (the Lease), is entered into on November 1, 2020, between Premier Drive Tycoon I, LLC, with an address at 1615 S Telegraph Rd, Bloomfield Hills, MI (Landlord), and Tycoon I Operations, LLC (Tenant) on the terms and conditions listed below.

1. Description of the Premises. Landlord owns the real property, improvements and any and all structures thereon located at 180 Premier Drive, Orion Township, MI 48359 ("Premises"), consisting of approx. 72,000 square feet. Tenant shall have the right to use the Premises to conduct its daily business operations and for any ancillary or related purposes including the operation of a marihuana business.

2. Basic Lease provisions. The basic Lease provisions are stated below and further explained in the section referenced to the right of each provision:

   (a) Term: 10 years  
   (b) Commencement Date: February 1, 2021  
   (c) Termination date: October 31, 2030  
   (d) Options: 1 option to renew for additional 10 years  
   (e) Monthly installment amount: $75,000 or $12.50; per square foot;  
   (f) Security deposit: $75,000.00  
   (g) Use: Tenant's desired business operation

(See §3)  
(See §3)  
(See §3)  
(See §3)  
(See §4)  
(See §4)  
(See §5)  
(See §10)

3. Term. This Lease shall be for a term stated in section 2(a) commencing on the date stated in section 2(b) (the Commencement Date) and terminating on the date stated in section 2(c). The rent for the first month shall be prorated from date of occupancy, if the date of occupancy is after the first day of the month. Each succeeding lease year shall begin on the anniversary of the same date and continue until the termination of the Lease.

Provided that Tenant is not in default under this Lease at the end of the then current Lease term, Tenant shall have the right to renew the term of this Lease for the option period stated in section 2(d) by giving Landlord written notice of Tenant's intent to renew the Lease at least 120 days before the expiration of the then current term. The renewal shall be on the same terms and conditions as in this Lease, except that the minimum rent for each renewal term shall be increased by a percentage equal to the percentage increase in the Consumers Price Index (Bureau of Labor Statistics Washington, D.C., all Cities) (CPI) during the preceding term. The percentage increase shall be determined by comparing the latest available CPI before the Commencement Date of the Lease or the prior term, whichever shall apply, and the latest available CPI on or before the expiration of the immediately preceding initial or renewal lease term. The word "term" as used in this Lease shall include any renewal term.

4. Minimum rent. Tenant shall pay to Landlord as rent the sum stated in section 2(e), payable in monthly installments due in advance, on the first day of each month during the term of this Lease. All rent shall be paid to Landlord at the address set forth above or at such other address as Landlord may designate in writing, without any prior demand and without any deduction or offset.

If Tenant shall fail to pay any amount due from it to Landlord under this Lease when that amount shall be due, a one-time late charge of $50.00 shall be assessed and thereafter the amount of rent not paid shall be subject to a service charge until that amount is paid at the lesser of the rate of 5% per month or the highest rate permitted by law.
5. **Security deposit.** Tenant, contemporaneously with the execution of this Lease, has deposited with Landlord the sum stated in section 2(f) as a security deposit. The deposit shall be held by Landlord, without liability for interest, as security for the faithful performance by Tenant of all the terms, covenants, and conditions of this Lease to be kept and performed by Tenant during the term of this Lease.

If Tenant fails to keep and perform any of its covenants of this Lease, Landlord at its option may appropriate and apply the entire deposit, or so much as may be necessary, to compensate Landlord for loss or damage sustained by Landlord due to Tenant's breach. If the entire deposit or any portion is appropriated and applied by Landlord for the payment of overdue rent or other sums due and payable to Landlord by Tenant, Tenant shall, on the written demand of Landlord, forthwith remit to Landlord a sufficient amount in cash to restore the security to the original sum deposited. Tenant's failure to do so within 5 days after receipt of demand shall constitute a breach of this Lease.

6. **Taxes.** Tenant shall pay or cause to be paid all real property taxes and special assessments levied against the Building including the Premises. Tenant shall pay all personal property taxes assessed against any personal property owned by Tenant on the Premises.

7. **Maintenance and repair.** Tenant shall maintain and repair and keep the Premises in good condition and repair, including the exterior windows and the electrical system. Landlord shall, at tenants expense, make all other repairs and replacements to the Building, including those of a structural or capital nature. Landlord shall, at tenants expense, enter into an annual maintenance contract with a licensed heating and mechanical firm for the maintenance of the heating and air conditioning equipment during the term. Landlord shall be obligated to make repairs only after Tenant has given Landlord written notice of the need for the repair, and only if the repair was not caused by the negligence or willful act of Tenant, its agents, employees, invitees, or licensees.

Tenants shall provide and pay for its own regular janitorial service to maintain the Premises in a neat and clean condition. Tenant shall be responsible for all repairs or replacements to the Building occasioned by the negligence or willful act of Tenant, its agents, employees, invitees, or licensees.

8. **Utilities.** Tenant shall have all utilities servicing the Premises metered in its own name and shall pay all charges and deposits for the utilities provided to or used in the Premises during the term of this Lease. Tenant shall also pay 100% of the water and sewer bill. Landlord shall not be liable in damages should the furnishing of any utilities be interrupted by fire or other casualty, accident, strike, labor dispute or disagreement, the making of any necessary repairs or improvements, or any other causes beyond the reasonable control of Landlord.

9. **Liability insurance.** Tenant shall indemnify Landlord and save Landlord harmless from any liability or claim for damages that may be asserted against Landlord by reason of any accident or casualty occurring on or about the Premises. Tenant shall, at its own cost and expense, obtain and keep in force a policy or policies of public liability insurance with an insurance company approved by Landlord, with liability coverage of an amount as recommended by Landlord's insurance agent that, for the initial coverage, shall be not less than $1 million for injury or death to any one person, $3 million for injury or death to more than one person, and $500,000 regarding damage to property. Tenant shall furnish Landlord with certificates or other evidence acceptable to Landlord indicating that the insurance is in effect and providing that Landlord shall be notified in writing at least 30 days before cancellation of any material change in or renewal of the policy. All insurance policies shall name Landlord and any persons designated by Landlord as insured parties.

Any insurance maintained by either party pursuant to this section or under this Lease shall contain a
clause or endorsement under which the insurer waives all rights of subrogation against the other party, its agents or employees, regarding losses payable under the policy.

Any personal property kept on the Premises by Tenant shall be at Tenant’s sole risk.

10. Use. Tenant shall use and occupy the Premises for the purpose stated in section 2(g) and for no other purpose without the prior written consent of Landlord. Tenant shall not intentionally and knowingly use the Premises for any purpose or in any manner in violation of any State law, local ordinance, rule or regulation adopted or imposed by the City in which the Premises is situated. Tenant shall not deface or injure the Premises or the Building, permit anything to be done on the Premises tending to create a nuisance or to disturb other tenants in the Building, or permit any activity in the Premises that will result in an increase of any premium, or cancellation of a policy, for insurance on the Premises or the Building.

11. Construction of leasehold improvements. Landlord grants Tenant express consent to construct certain leasehold improvements as may be required for Tenant’s use. The cost of Tenant’s leasehold improvements shall be paid for by Tenant. The improvements shall be constructed in a good and workmanlike manner.

12. Operations. Tenant’s operations in conjunction with the Premises shall meet the requirements set forth below.

   a. Tenant shall keep all garbage and refuse in the kind of container specified by Landlord. If Landlord shall provide or designate a service for picking up refuse and garbage, Tenant shall use the same at Tenant’s cost. Tenant shall pay the cost of removal of any of Tenant’s refuse or rubbish.

   b. Tenant shall keep the Premises at a temperature sufficiently high to prevent freezing of water in any pipes and fixtures.

   c. Tenant shall keep the outside areas immediately adjoining the Premises clean and free from dirt and rubbish to the satisfaction of Landlord, and Tenant shall not place or permit any obstructions or merchandise in those areas. Tenant shall water and maintain any flowers, shrubs, and trees located immediately adjoining the Premises.

   d. Tenant shall only store and/or stock in the Premises goods, wares, and merchandise that Tenant intends to offer for sale at retail.

   e. Tenant shall conduct its business in the Premises in a dignified manner and in accordance with high standards of store operation.

13. Restrictions on Tenant’s activities. Without Landlord’s written consent, Tenant shall not engage in the activities listed below.

   a. Tenant shall not operate all or any part of its business in the Premises in any manner that is inconsistent with its intended use of the Premises.

   b. Tenant shall not conduct any auction, fire, going-out-of-business, or bankruptcy sales in the Premises.

   c. Tenant shall not operate or permit to be operated on the Premises any coin or token operated vending machines or similar devices for the sale of goods, wares, merchandise, food, beverages, or service,
including, without limitation, pay telephones, pay lockers, scale, and amusement devices without Landlord’s prior written consent.

d. Tenant and Tenant’s employees and agents shall not solicit business in the parking or other common areas of the Building, nor shall Tenant or its employees or agents distribute any handbills or other advertising matter in or on automobiles parked in the parking area or in other common areas without Landlord’s prior written consent.

e. Tenant and its employees and agents shall not park any vehicle on the Building land except in areas that are designated by Landlord for that use.

14. Assignment and subletting. Tenant agrees not to sell, assign, mortgage, pledge, or in any manner transfer this Lease or sublet the Premises or any portion of the Premises without the prior written consent of Landlord. Notwithstanding any assignment or subletting, Tenant shall remain fully liable on this Lease. Landlord’s right to assign this Lease is and shall remain unqualified. On any transfer of Landlord’s interest in the Premises in which the purchaser assumes all obligations under this Lease, Landlord shall be free of all obligations of Landlord under this Lease and shall not be subject to any liability resulting from any act or omission or event occurring after the conveyance. Tenant agrees to recognize the transferee as Landlord, and Tenant further agrees, at Landlord’s request, to execute and deliver such documents and estoppel letters as Landlord may request to assist in that transfer.

15. Estoppel letter. On not less than 10 days’ prior written notice from Landlord, Tenant shall sign and deliver to Landlord an estoppel letter that

a. certifies that this Lease is unmodified and in full force and effect (or, if modified, states the nature of the modification and certifies that this Lease, as so modified, is in full force and effect);

b. acknowledges that there are not, to Tenant’s knowledge, any uncured defaults on the part of Landlord or specifying the default if any are claimed;

c. certifies the date to which all forms of rent have been paid; and

d. certifies the amount, if any, of the security deposit paid to Landlord.

Tenant’s failure to deliver such an estoppel letter within the 10 days shall be conclusive on Tenant that

a. this Lease is in full force and effect, without modification except as may be represented by Landlord;

b. there are no uncured defaults in Landlord’s performance;

c. not more than one month’s rent has been paid in advance; and

d. no security deposit has been paid except as may be represented by Landlord.

16. Acceptance of Premises. The occupancy by Tenant of the Premises shall constitute an acknowledgment by Tenant that the Premises are then in the condition called for by this Lease.

17. Damage or destruction. If, during the term of this Lease, the Premises shall be partially or totally destroyed by fire or other casualty covered by insurance so as to become partially or totally untenable,
the same shall be repaired as promptly as possible with the insurance proceeds unless this Lease is
terminated. In the event of damage or destruction, if this Lease is not terminated, the rent shall be abated
proportionately to the loss of use suffered by Tenant.

If, during the term of this Lease, the Premises shall be partially or totally destroyed by fire or other
casualty, and the cost of restoring the Premises to its condition prior to the damage shall equal or exceed
40 percent of its fair replacement value immediately prior to the damage, or if the Premises are damaged
by any casualty not insured against by Landlord, Landlord shall have the right to terminate this Lease by
giving Tenant written notice of its election to do so within 15 days after the date on which the damage
occurs. On the giving of notice, the Lease shall terminate as of the date on which damage occurred and
the rent shall be adjusted to that date. In default of notice by Landlord, this Lease shall continue and
Landlord shall cause the Premises to be repaired or restored with due diligence.

18. Condemnation. If the whole or any part of the Premises shall be taken by any public authority under
the power of eminent domain, the term of this Lease shall cease on that part to be taken from the day the
possession is acquired by the public authority and the rent shall be paid up to that date. If the portion of
the Premises taken substantially impairs the usefulness of the Premises for the purpose for which the
Premises were leased, Tenant shall have the right either to terminate this Lease or to continue in the
possession of the remainder of the Premises under the terms and conditions of this Lease except that the
rentals shall be reduced in proportion to the amount of the Premises taken, and in the latter event,
Landlord shall promptly restore the remainder to a reasonably tenantable condition. All damages awarded
for the taking shall belong to and be the property of Landlord.

19. Alterations and signage. No improvements, alterations, additions, or physical changes shall be made
on the Premises by Tenant without the prior written consent of Landlord.

Tenant agrees that it will not place or maintain on any exterior door, wall, or window of the Premises any
signs, awning or canopy, or advertising matter, or other thing of any kind and will not place or maintain
any decoration, lettering, or advertising matter on the glass of any window or door of the Premises that is
not in conformity with all applicable governmental rules and regulations and the rules and regulations of
the Building as set forth by Landlord and further, without first obtaining Landlord’s prior written
approval. Tenant further agrees to maintain such sign, awning, canopy, decoration, lettering, advertising
matter, or other thing as may be approved in good condition and repair at all times. Tenant further
acknowledges that Landlord may, at its option, regulate the lettering size, style, and color of Tenant’s sign
so that all signs in the Building are of a like size, color, style of lettering, and like material. Tenant agrees
that it will conform its sign to that as regulated by Landlord for the general use in the Building, regardless
of how and in what manner Tenant normally designs its name for use in its sign and further regardless of
whether or not Tenant uses the form and style of its sign as a trademark.

All alterations and improvements, but not moveable equipment and trade fixtures, put in at the expense of
Tenant shall be the property of Landlord and shall remain on and be surrendered with the Premises at the
termination of the Lease; provided, however, that Landlord may require that Tenant remove the
alterations and improvements and repair any damages to the Premises caused by the removal.

20. Remedies and default. If Tenant shall default in the payment of any sums to Landlord when due and
shall not cure such default within 7 days; or if Tenant shall default in the performance of any other
coovenant or condition of the Lease and shall not cure such other default within 30 days after written
notice from Landlord specifying the default; or if Tenant or its agent shall falsify any report to be
furnished to Landlord pursuant to the terms of this Lease; or in case Tenant shall be adjudicated a
bankrupt or make any assignment for the benefit of creditors; then, in any such event, Landlord may
either (a) accelerate the full balance of the rental payable for the remainder of the term and sue for such sums or Landlord may terminate this Lease or (b) reenter the Premises, without terminating this Lease, and dispossess Tenant or any other occupant of the Premises and remove Tenant's effects and relet the same for the account of Tenant for such rent and on such terms as shall be satisfactory to Landlord, crediting the proceeds, first to the costs and expense of reentry, alterations and additions, and the expense of reletting, and then to the unpaid rent and the other amounts due during the remainder of the term. Tenant shall remain liable to Landlord for any unpaid balance.

In case suit shall be brought for recovery of possession of the Premises, for the recovery of any rent or any other amount due under the provisions of this Lease, or because of the breach of any other covenant on the part of Tenant to be kept or performed, and a breach shall be established, Tenant shall pay to Landlord all expenses incurred, including reasonable attorney fees, which shall be deemed to have been incurred on the commencement of the default and shall be enforceable whether or not the action is prosecuted to judgment.

21. Access to Premises. Landlord shall have the right to enter on the Premises at all reasonable hours to inspect and for access to the Premises to install, maintain, use, repair, and replace pipes, ducts, lights, conduits, plants, wires, floor coverings, and all other mechanical equipment serving the Premises.

22. Rules and regulations. Landlord reserves the right to adopt from time to time rules and regulations for the operation of the Building that are not inconsistent with the provisions of this Lease. Tenant and its agents, employees, invitees, and licensees shall comply with all those rules and regulations. Any such rules shall not dictate the days or time of business operation.

23. Waiver. The failure of Landlord to insist on a strict performance of any of the terms, covenants, or conditions of this Lease or rules and regulations of the Building shall not be deemed a waiver of any subsequent breach or default in the terms, covenants, and conditions or rules and regulations. This Lease may not be changed, modified, or discharged orally.

24. Notices. All notices required under this Lease shall be in writing and shall be deemed to have been given if either delivered personally or mailed by certified or registered mail to Landlord or to Tenant at their respective addresses set forth above or to such other address as either party may furnish in writing during the term of this Lease.

25. Quiet enjoyment. Landlord covenants and agrees with Tenant, its successors, and assigns that on Tenant’s paying the rent and observing and performing all the terms, covenants, and conditions on Tenant’s part to be performed and observed, Tenant may peaceably and quietly hold, have, occupy, possess, and enjoy the Premises for the full term of this Lease.

26. Subordination to mortgage. Any mortgage now or hereafter placed on the Premises shall be deemed to be prior in time and senior to the rights of Tenant under this Lease. Tenant subordinates all of its interest in the leasehold estate created by this Lease to the lien of any mortgage. Tenant shall, at Landlord’s request, execute any additional documents necessary to indicate this subordination including, if requested, an estoppel letter as set forth in section 15. If Tenant fails to supply the estoppel letter, the provisions in section 15 to cover that failure shall apply. Notwithstanding the foregoing, Tenant’s possession of the Premises under this Lease shall not be disturbed by any mortgagee, owner, or holder of note secured by a mortgage placed on the Premises, unless Tenant shall breach any of the provisions of this Lease and the lease term of Tenant’s right to possession shall have been lawfully terminated in accordance with the provisions of this Lease.
27. **Building revisions by Landlord.** Landlord reserves the absolute right at any time and from time to time to make changes or revisions in the Building, including such changes to the parking lot, driveways, signs, and sidewalks, by making additions to, subtractions from, or rearrangements of the improvements in the Building, as long as the revisions do not materially affect Tenant’s use of the Premises.

28. **Holding over.** If Tenant remains in possession of the Premises after the expiration or termination of the Lease, it shall be deemed to be occupying the Premises as a tenant from month to month, subject to all the conditions, provisions, and obligations of this Lease insofar as the same can be applicable to month-to-month tenancy, except that the rent shall increase to 2 times the rent owing at the end of the lease term. The month-to-month tenancy shall be cancelable by either party on 30 days’ written notice to the other.

29. **Recording.** Tenant shall not record this Lease without the written consent of Landlord; however, on the request of either party the other party shall join in the execution of a memorandum or so-called “short form” of this Lease for the purpose of recordation. The memorandum or short form of this Lease shall describe the parties, the Premises, and the term of this Lease and shall incorporate this Lease by reference.

30. **Captions and headings.** The captions and headings used in this Lease are intended only for convenience and are not to be used in construing this Lease.

31. **Applicable law.** This Lease shall be construed under the laws of the state of Michigan. Venue for any disputes under this agreement shall lie in Oakland, Michigan. If any provision of this Lease or the application to any person or circumstances shall, to any extent, be invalid or unenforceable, the remainder of this Lease shall not be affected and each provision of this Lease shall be valid and enforceable to the fullest extent permitted by law.

32. **Successors.** This Lease and the covenants and conditions shall inure to the benefit of and be binding on Landlord, its successors, and assigns and shall be binding on Tenant and permitted assigns of Tenant.

33. **Effective date.** The parties have caused this agreement to be signed and shall be effective as of the day and year first above written.

*(signature page to follow)*
IN WITNESS WHEREOF, the parties have respectively signed and sealed this Lease as of the day and year first above written.

Tycoon 1 Operations, LLC

Business & Operations Plan

PREAMBLE:
Tycoon 1 Operations, LLC ("Applicant") will strictly comply at all times with applicable state law and local ordinance codes, including rules and emergency rules that may, from time to time, be promulgated by the state or Orion Township. All business activities will take place indoors in a locked facility. Applicant has retained a law firm with established expertise in Michigan marihuana law to ensure continuing education and compliance with the laws as they evolve. The statements made in this application are made with a clear and thorough understanding of state and local requirements as they exist on the date of application, but the operations of Applicant will be amended to comply with all future derivations of the state and municipal laws.

I. OVERVIEW
Applicant is a Michigan limited liability company formed to operate twenty four (24) commercial marihuana GROWER (Class C) facilities whose primary mission is to provide a source of high-quality marihuana to processors and provisioning centers across the state of Michigan.

II. ADMINISTRATION
   A. Location & Zoning
      i. Buffers
         a. The distances described are measured horizontally between the nearest property lines.
         b. The facility is not within 1,000 feet of any educational institution or school, college or university, church, house of worship or other religious facility, licensed child care, preschool, public library, or public or private park.

      ii. Applicant is leasing the property pursuant to the attached lease and the owner/lessor of the property authorizes the use of the property as a marihuana facility in the lease agreement, which is attached.

   B. Organizational Structure
      i. The Applicant is organized as a Michigan limited liability company and is in good standing.
      ii. The members, owners, directors, officers, and managers of the Applicant are listed in the Organization Structure.
iii. The members, owners, directors, officers, and managers of Applicant meet all eligibility requirements to own and operate a marihuana grower facility as set forth in state law and local ordinance.

   a. No member, owner, director, officer, manager or any person having an ownership interest in the application has an interest in a secure transport facility license or a safety compliance facility license.

   b. The Applicant meets all eligibility requirements to own and operate a marihuana grower facility as set forth in state law and local ordinance.

iv. The Applicant has never applied for been granted any commercial license or certificate issued by a licensing authority in Michigan or any other jurisdiction that has been denied, restricted, suspended, revoked or not renewed.

C. Permits & Licenses

i. This Business and Operations Plan is submitted as an addendum to the applications for Ten Orion Township permits to operate a business and the Orion Township special use/site plan application.

ii. All operations in this Business and Operations Plan will comply with regulations issued by the Department of Licensing and Regulatory Affairs (LARA).

iii. Applicant intends to apply for, obtain, operate, and comply with a state license to operate a grower facility under the MMFLA and MRTMA.

iv. The business will not open for operation until it receives a state license to operate under the MMFLA and MRTMA and all applicable permits and licenses from Orion Township.

v. Upon granting of a permit to operate a grower facility, Applicant will prominently display the original Orion Township permit at the Permitted Premises in a location where it can be easily viewed by the public, law enforcement, and administrative authorities.

vi. At all times the facility will hold a valid local Permit and State Commercial Marihuana Facility License for a Grower.

vii. In addition to complying with the Orion Township Ordinance Authorizing and Permitting Commercial Marihuana Facilities, Applicant will comply with all Township Ordinances, including without limitation, the Township Zoning Ordinance, as well as the requirements of the County Road Commission, County
Building Inspector, County Drain Commissioner, District Health Department, Soil Erosion Officer, County Conservation Service, areas fire departments, Michigan Department of Natural Resources, Michigan Department of Environmental Quality, and any other applicable township, county, state and federal statutes.

viii. Applicant will have available, at all times, documentation that local and State sales tax requirements, including any requirement for a license, are satisfied.

ix. Applicant will provide updated operational and security plans to Orion Township upon request and prior to any proposed changes in its operations.

D. Inspections

i. Applicant will provide access to the facility for inspection to any federal, state, or local law enforcement officer to ensure compliance with the permit.

ii. Applicant consents to inspections as required in the MMFLA and pursuant to the Orion Township ordinance.

III. OPERATIONS

Applicant proposes 24 state-licenses in a single marihuana grower facility for the cultivation, drying, trimming, curing, and packaging of marihuana for sale to a processor or provisioning center pursuant to the requirements and restrictions of the Marihuana Facilities Licensing Act, PA 281 of 2016, and all future derivations thereof. This facility will be located in a secure industrial facility.

A. Compliance with State Regulations

Applicant will meet all operating regulations established by LARA and the Marihuana Licensing Board for Growers, including without limitation, any standards, procedures, and requirements for:

i. quality control
ii. chain of custody
iii. marihuana storage
iv. waste disposal
v. labeling and packaging
vi. storage of chemicals

B. Description of the Facility

Applicant’s facility will be used exclusively for the cultivation, drying, trimming, curing, and packaging of legal usable marihuana for sale to processors or provisioning centers.

C. Entry to Facility

Generally, the public will not be allowed entry to the facility. Notwithstanding the forgoing, Applicant will not allow entry to the facility to anyone under the age of 18.
D. Employees
Applicant anticipates having between fifteen (15) and (65) full and part-time employees, as many as possible of whom will be local community residents. None of Applicant’s employees will be registered primary caregivers during the employment with Applicant. Please reference the staffing plan for a detailed list of potential positions.

E. General Policies
   i. Applicant will only sell or transfer marihuana to a processor or provisioning center.
   
   ii. Applicant will only use secure transporters in the distribution or exchange of marihuana or currency with processors or provisioning centers.
   
   iii. Applicant will not promote the unlawful use of marihuana or any other drug or provide or otherwise make marihuana available to any person who is not legally authorized to receive Marihuana under state law.
   
   iv. No owner, the Applicant, or any employee of Applicant will grow marihuana in the Permitted Premises for his or her own use.
   
   v. The following activities are prohibited on the Permitted Premises:

      a. the sale, consumption, or use of alcohol, or controlled substances;
      b. smoking or consumption of marihuana.

F. Cultivation Plan
   i. Propagation
      a. Lighting
      b. Watering
      c. Nutrient Application
      d. Integrated Pesticide Management
   ii. Harvesting and Trimming
   iii. Drying and Curing
   iv. Packaging
   v. Distribution

      a. All marihuana products will be validated from a verified transport manifest, created from the statewide monitoring system. The manifest includes a detailed form with the number of packages and detailed content for confirmation/validation with secure transporters and purchasers of the shipment (processors or provisioning centers).
      b. Each transport shipment will be processed in the following manner:
         1. Entry of shipped inventory into the statewide monitoring system.
         2. Confirmation with Secure Transporter of valid and verified transport manifest, including product count, weight of each package or item
c. State certified scales will be used to verify and weigh all marihuana, in whatever form.

G. Inventory Management

i. Applicant will not control or have on the Permitted Property an amount of marihuana plants or usable marihuana that exceeds any amount permitted by the state License or the Township permit.

ii. Tracking and Monitoring
Applicant will use a third-party inventory control and tracking system to interface with the statewide monitoring system. The third-party inventory control and tracking system will have the capabilities necessary to comply with the requirements applicable to a grower licensee:

a. Track all marihuana plants and packages;
b. Track lot and batch information throughout the entire chain of custody;
c. Track transportation of product;
d. Track marihuana waste;
e. Track all marihuana product transfers;
f. Track sales and returns;
g. Track marihuana plant, batch, and product destruction;
h. Perform batch recall tracking;
i. Report and track loss, theft, or diversion of marihuana products;
j. Receive testing results electronically from a safety compliance facility;
k. Provide access to state agencies and law enforcement as required;
l. Report all inventory discrepancies.

iii. Applicant will enter all transactions, current inventory, and other information into the statewide monitoring system as required by the MMFLA, the Marihuana Tracking Act, and any associated regulations.

iv. Inventory reconciliation - At the end of each day, physical inventory counts will be reconciled with the third-party inventory control and tracking system.

v. Returns

H. Quality Control

i. Sampling (by Licensed Safety Compliance Facility)

ii. Batch Testing (by Licensed Safety Compliance Facility)

iii. Transport to Safety Compliance Facility (by Secured Transporter)

I. Signage and Advertising
i. Applicant has no proposed signage at this time, but will amend this plan accordingly and provide the township with its sign permit application if and when it does wish to propose signage.

ii. Applicant will not display pictures, photographs, drawings or other depictions of Marihuana or Marihuana Paraphernalia on the outside of the Permitted Premises, nor will such pictures, photographs, drawings, or other depictions of Marihuana or Marihuana Paraphernalia be visible outside of the Permitted Premises on the Permitted Property.

iii. The words "Marihuana," or "cannabis," and any other words, used or intended to convey the presence or availability of Marihuana will not appear on the outside of the Permitted Premises, nor will "Marihuana," or "cannabis," and any other words, used or intended to convey the presence or availability of Marihuana be visible outside of the Permitted Premises on the Permitted Property.

J. Visibility of activities
   i. All activities of the facility, including without limitation, the cultivation, harvesting, trimming, drying, curing and packaging of Marihuana, and all other related activity permitted under Applicant's License or Permit will occur indoors.

   ii. No marihuana or paraphernalia shall be displayed or kept in the facility so as to be visible from outside the Permitted Premises.

K. Security
   i. Plan
   Applicant will maintain, at all times, a centrally-monitored security and alarm system on the premises that meets or exceeds state regulatory requirement.
   Applicant will maintain policies and procedures to include:
      a. Regular drills of the security protocols and emergency plans;
      b. Controlled and restricted access to the Permitted Property and Permitted Premises to employees, agents, and owners of Applicant, and law enforcement or state or local authorities as necessary to ensure Applicant's compliance with state and local laws.
      c. Internal and external cameras with 24-hour monitoring and off-site recording;
      d. Installed panic buttons
      e. Limitations on the amount of currency and marihuana stored onsite;
      f. Cooperation and coordination with local law enforcement;
      g. Permitted premises will only be able to be accessed through a combination of security locks and access codes; and
      h. The ability to remain operational during a power outage with battery back-up.

   ii. Security Surveillance Cameras

2069
Security surveillance cameras will be installed to monitor all entrances, along with the interior and exterior of the premises, which will capture all areas of the property unless otherwise prohibited by law, including unobstructed video surveillance of all enclosed areas, unless prohibited by law, including all points of entry and exit that shall be appropriate for the normal lighting conditions of the area under surveillance.

iii. Security Recordings and Documentation
   a. All security recordings and documentation will be preserved for at least 30 days and made available upon request by any law enforcement.

iv. Robbery and Burglary Alarm System
   Applicant will employ an alarm system that meets state requirements and obtains state approval. Specifically,
   a. Applicant will employ a centrally alarmed and monitored security system that will be monitored 24 hours a day, 7 days a week for the Permitted Premises pursuant to the attached service agreement.
   b. There will be a perimeter alarm on all entry points and perimeter windows of the Permitted Premises.
   c. A failure notification system will provide an audible, text, or visual notification of any failure in the surveillance system. A panic button and alarm will directly notify the local law enforcement agency having primary jurisdiction.

v. Storage of Marihuana and Currency
   a. Applicant will store usable marihuana that is not otherwise in the process of being dried, trimmed, cured, packaged, or distributed including packaged and un-packaged usable marihuana, and currency in a secured locked safe that is permanently affixed to the premises.

L. Ventilation Plan/Air Filtration System
   i. Applicant’s facility operation and design will provide sufficient measures and means to minimize any impact to adjacent uses, including the control of odor by maintaining and operating an air filtration system so that no odor is detectable outside the Permitted Premises.

   ii. Applicant’s equipment and methods to control odor include a comprehensive air filtration system, consisting of
       a. Activated Carbon Filters.
       b. Heavy Duty Ventilation Fans.

   iv. Details and specifications of the equipment used for Applicant’s ventilation and air filtration plan are attached.
v. The total enclosed space in which harvested marihuana will be stored amounts to approximately 300 sq. feet. Applicant will use an advanced filtration system rated appropriately for the area.

vi. The air filtration system will be maintained in working order at all times and will be in use at all times. Filters will be changed a minimum of once every 365 days.

vii. In addition to the use of an air filtration system, Applicant will mitigate odors by keeping doors and windows closed at all times, except the minimum amount of time needed to allow ingress and egress to the building.

M. Toxic/Flammable/Hazardous Materials
   i. Applicant’s use of toxic, flammable, or other harmful, hazardous, or combustible materials will be limited to plant nutrients and pesticides and cleaning products. The facility may use the following nutrients and pesticides:
   
   a. CocoTech Bloom A
   b. CocoTech Grow A
   c. CocoTech Premier Nutrient
   d. FloraBloom Nutrient System
   e. FloraGrow Nutrient System
   f. Golden Tree Plant Food.
   g. Nutra Green 5-10-5 plus Micronutrients Foliar Spray
   h. Diatomaceous Earth
   i. Neem Oil
   j. PyGanic Pro Pyrmyethrin 5% MGK Miticide

   ii. The facility may use the following commercial cleaning products, along with the following household products: materials regulated by government agencies:

   a. Ultra Dawn Lemon Dish Soap
   b. Nature’s Source Toilet Bowl Cleaner
   c. Fantastik Antibacterial Heavy Duty All Purpose Cleaner
   d. Windex Original Glass Cleaner
   e. Novo Foaming Instant Hand Sanitizer
   f. QuickSan Food Contact and Surface Sanitizer

   iii. The materials will be stored in secured and ventilated cabinets. All combustible or reactive materials will be stored separately.

   iv. Materials will be handled, stored, and disposed according to specifications in each Material Safety Data Sheet.
N. Waste Product Disposal
Applicant will dispose of unusable or waste marihuana in accordance with the MMFLA, MRTMA, and applicable local ordinance guidelines to prevent the waste marihuana from being possessed or ingested by any person and animal.

i. Applicant’s current, preliminary waste disposal plan consists of shredding and grinding damaged and unusable plants, roots, seeds, stalks and harvested marihuana and mixing it with one of several lawful over-the-counter products, such as sawdust or cat litter to render it unusable, unrecognizable, and unpalatable, and then discarding in secured bags as part of its solid waste disposal.

ii. The State of Michigan’s Marihuana Licensing Board may require or suggest as a part of its regulations, expected sometime in November, one or more alternative waste disposal options including, but not limited to, waste disposal through the secured transporter system, waste mitigation through THC extraction methods (rendering the marihuana waste product inert) or some other method. Applicant warrants that it will comply with all state and local requirements as to waste disposal, but further commits to its current preliminary plan to render all marihuana waste unrecognizable, unusable and inaccessible regardless of state or local requirements.

IV. COMMUNITY RESPONSIBILITY AND CONCLUSION
Although marihuana has been used as a medicine across the globe for hundreds of years, its commercial production and sale is new to us, this state, and your community. We appreciate the opportunity to show Orion Township that Marihuana can be safe and accessible to a community while providing jobs and local economic growth. We look forward to being productive and responsible community partners, and will work with the Township toward that goal.

2078
H. Litter & Waste Removal Plan
Litter & Waste Removal Plan

All biological waste product will be rendered unrecognizable by grinding it in an industrial grinder and combining it with other non-consumable solid waste, including the media in which we cultivate plants, Rockwool. The inclusion of inert material renders the combined solid waste unusable. All waste will be stored in a locked dumpster that is emptied at minimum once per week.

The company intends to employ particulate filtration in areas where waste is stored and processed, which minimizes potential exposure and impact to the outside environment. The facility, which is designed around large water chillers, is designed to circulate air rather than ventilating it. This process helps to avoid excess exposure of odors to the surrounding community.
I. Noise, Dust, Vibrations, Glare & Fumes Plan
Noise, Dust, Vibrations, Glare, Fumes or Odors Plan

Excessive Noise, Dust, Vibrations, Glare and Marijuana odors emanating from our facilities are a valid concern for the community and our neighbors. This plan details the measures deployed to ensure that minimal noise, dust, vibration, glare, fume or offensive odor is emitted from the facility, the response if it occurs, and that the measures remain effective over time.

This plan is our commitment to the Orion Township that we will be in compliance with regulations of the city and the administrative rules and that we will not operate in a manner creating noise, dust, vibration, glare, fumes, or odors detectable to normal senses beyond the boundaries of the property.

We will not vent noxious dust, odors, gases or fumes to surrounding areas.

We will mitigate dust and noxious odors by engaging in the following activities:

1. Adequate design measures to seal the building;
2. Utilizing a heating, ventilation, and cooling (HVAC) System designed to move an appropriate amount of air (cfm) throughout the facility to disperse odors;
3. Using industry leading MERV-13 HEPA filters in addition to FILTR, Blue Zone & Puradigm units in each room throughout the facility.

I. DESIGN MEASURES TO SEAL THE BUILDING

We intend to renovate our building in a manner that focuses on effectively sealing all interior rooms and exterior access points. Each room is enclosed in 12", interlocking insulated panels which are designed to form an airtight seal. For additional protection, butyl caulk is applied at each joint to accommodate any flaws in the panels.

Caulk is also applied to seal any openings into the panels, including plug outlets, doorways, sprinklers, and anything else that could allow air flow. Our doors are fiberglass, weather stripped and employ a drop seal to press additional weather stripping against the floor when closed to maximize the seal all the way around.

II. MERV-13 HEPA FILTRATION SYSTEM

The purification of air throughout our facility is a top priority for both the health of the plants and the environment we subject our employees and the local community to. In an effort to target and reduce contamination, mold, bacteria, odor, dust, and fumes, we employ a variety of filtration systems in all rooms where marihuana plants are grown.

Each room will utilize clean room grade HEPA filtration units filtering down to 0.01um and providing up to 5 complete air changes per hour. These units also utilize a carbon filter which focuses directly on the removal of smells and volatile organic compounds.

In addition to the HEPA filters, each room will have Puradigm units to help reduce airborne and surface contaminates, and Agrify Bluezone UV filtration units, known to destroy 99.9%+ of both bacteria and mold. Both of these systems aid in odor elimination and containment.
As filters age, they become clogged with impurities, and ultimately less effective. As such, we will develop a maintenance schedule to inspect the filtration units regularly and to replace them per the manufacturer's recommendation or at an expedited pace based on their usage in these environments.

III. VIBRATION MITIGATION
Exterior mounted cooling equipment is mounted on isolation pads to dramatically reduce vibrations that would otherwise be created by such large equipment.

IV. EVALUATING THE EFFECTIVENESS OF NOISE, DUST, VIBRATIONS, ODOR & FUME CONTROL MEASURES

Key site leadership roles will be trained to assess the production and escape of odors, dust, fumes and glare from the facility. We also anticipate a strong and friendly relationship with the local communities and will welcome feedback about any exhaust from the building. Should these assessments or the community ever determine that our levels are beyond acceptable, we will re-evaluate this plan and engage professionals to further refine our practices and properly mitigate the problem.
J. Spent Water & Soil Safety Plan
Spent Water & Soil Safety Plan

Wastewater Treatment Plan:
Wastewater generated during the cultivation of marihuana of marihuana products shall be disposed of in compliance with all applicable state and local laws and regulations. Despite the amount of water used in the cultivation process, there is very little water waste. The majority of water is used by the plants or evaporated out of the collection dishes upon which the plants sit. Any water that is used to rinse the plants or clean the facility or for any other purpose shall be rendered clean through both reverse osmosis and UV light after standard filtration methods, and either reused by the facility or discharged through a monitoring man hole where it can be monitored to comply with all local ordinances.

The Cultivation Facility will include an Ecowater RO purification system. Ecowater Purification Systems are the leading water filtration manufacturer in the industry, helping cultivators diagnose and solve every water problem imaginable. Ecowater designs systems to treat any water source including city water, well water, nutrient runoff water, wastewater, and condensate runoff.

Soil Safety Plan
The cultivation facility will not use soil – instead, all media for the purposes of growing plants will be rockwool, a lightweight hydroponic substrate made from spinning molten basaltic rock into fine fibers which are then formed in a range of cubes. This product will be disposed of through the grinder and mixed with biological waste in a locked dumpster.
K. Security Plan
SECURITY PLAN

Tycoon I Operations is committed to being a leader in Michigan's cannabis industry and a trusted resource for the communities, consumers and clients we service. Essential to fulfilling this commitment is our ability to effectively protect our product from criminal repurposing throughout the facilities.

This Security, Surveillance and Diversion Prevention Plan details the physical and electronic security measures we employ to deter, detect, and inhibit the theft, diversion, and loss of Marijuana, and to prevent unauthorized conduct with respect to the storage and dispensing of Marijuana.

We have extensively researched and designed our Grow Facility to maximize security. The facility shall be built with enhanced security and stringent safety features to eliminate any potential for diversion. Our facility will be equipped with numerous motion sensors and exterior intrusion sensors that will be linked to local law enforcement. To prevent unauthorized entry and stop diversion, theft, or loss of marijuana, every square inch of the facility shall be continually monitored by high definition security cameras and commercial-grade equipment. Security systems will be positioned so they closely monitor activities at strategic risk points and watch for any strange behavior or movement. Marijuana shall not be visible to any person from the exterior of the Grow Facility.

We will create a culture of responsibility, accountability, and strict security surrounding all aspects of the facility. The stringent operating procedures outlined below demonstrate a commitment to employee and public safety above all other operating values. From receipt to sale, we are committed to preventing diversion by implementing a comprehensive security strategy. Employees will be extensively trained to understand that security is a primary obligation for everyone at our facility.

We will have comprehensive security policies and procedures for the Grow Facility, which address measures to deter and prevent unauthorized entrance into areas containing marijuana and theft of marijuana at the facility. Employees will receive ongoing training regarding our security protocol and the Site Manager shall ensure all employees follow policies and procedures regarding the security of the facility. The Site Manager shall implement and maintain employee training policies and procedures for security training. All employees shall aid in the security of the Grow Facility through prevention, awareness, reporting, and responsible incident management. All employees shall be required to immediately report security breaches and incidents of non-compliance to their supervisor, and in case of sudden emergency, immediately to law enforcement by either striking a panic button or calling law enforcement directly.

We will make our facility available and open to inspection, at all times, for law enforcement, representatives of the Department and law enforcement, when necessary to perform their duties.

PHYSICAL SECURITY

The facility shall be designed to maximize security and stop the potential for diversion. Access to the secure facility shall include safety and security mechanisms that prevent unauthorized entry. All doors will be burglary-resistant material, with commercial-grade, non-residential locks. Additionally, exterior doors, as well as limited access area entries, will be automatic locking and equipped with electric strike and keypad access hardware. All doors are setup to fail secure, which means in the event of a power failure, the doors will remain locked and only be accessible via a master key.
The Grow Facility’s main entrance vestibule shall include a mantrap to control passage from the public access area to the limited access area. We will strive to install Underwriter’s Lab (UL) approved locks and lock cylinders, which are rated as burglary resistant. We will also install local alarms on all fire exits and other perimeter doors not authorized for employee or visitor use. Our alarm system will be monitored after business hours with live monitoring through a licensed security monitoring company. If there are ever any after-hours issues, the live monitoring system will be linked directly to law enforcement and the Site Director, among other key personnel.

We shall ensure that trees, bushes, and other foliage outside of the premises do not allow people to conceal themselves from sight. The surveillance system’s cameras shall be capable of certain identification of persons (including facial features), license plates, vehicles, the immediate surrounding areas, and any activities occurring within any area of the premises, and the parking area, and within twenty feet (20’) of all entry and exit points of the premises. Cameras will cover every square inch of the facility.

To provide first responders with immediate access into our facility during a time of emergency or inspection, we will install a Knox Rapid Access System to remove any barriers to entry when first responders respond to an emergency call.

LIGHTING

Exterior lights at all points of entry and exit shall remain constantly illuminated to allow for recording. Lighting on the outside perimeter shall allow cameras the ability to record any suspicious activity. Timed-delay switches shall be used to turn off non-essential interior lights, which shall not remain lit after employees have left the facility. Motion detecting lights shall be installed in areas that are entered and exited infrequently. The exterior of the facility shall be lit by commercial LED light fixtures sufficient to facilitate twenty-four-hour surveillance. Exterior lights in the parking area will remain on from dusk until dawn.

SECURITY EQUIPMENT

Our security equipment shall be designed, installed, and maintained to deter and prevent unauthorized entrance and theft of marijuana products at the facility. Security equipment shall be installed by a commercial, licensed service provider. All equipment shall be compliant with Department rules and all state and local laws, regulations, ordinances, and other requirements.

ENTRY AND EXIT ELECTRONIC EQUIPMENT AND PLACEMENT

Our entry and exit electronic access equipment will consist of the following:

- Electric strike locks on all doors in the Grow Facility with the ability to override access control for emergency exit even during a power outage.
- RFID proximity card access control devices for all interior doors and all exterior entrances and exits into the Grow Facility.
- Access control system that allows for programming or uploading individual user permissions and allowed entry times, as well as operations-specific information including employee photos.
- A backup power supply system that immediately provides power for at least twenty-four (24) hours in the event of a power outage.
- Main system operating equipment will be kept in the security room, a limited access area.
• Access control system that monitors and records:
  o Identification of employees or visitors entering and exiting.
  o Date and time of entry and exit.
  o Length of time in specific area.
  o Any unauthorized attempts for access.

ALARM SYSTEM

We shall have a professionally monitored security alarm system installed at our facility. Monitoring of the alarm system shall be twenty-four (24) hours a day, seven (7) days a week. We shall notify the Department of any intent to change our security alarm service provider. Upon request, we will make available to the Department all information related to the alarm system, monitoring, and alarm activity. The alarm system shall consist of the following:

• Appropriate equipment necessary to monitor activity inside and outside the Grow Facility, including:
  o All entrances and exits.
  o Roof hatches.
  o Rooms with exterior windows.
  o Rooms with exterior walls.
  o Rooms containing marijuana.
  o Rooms containing safes or vaults.
• A backup power supply system that immediately provides power in the event of a power outage.
• Main system operating equipment is kept in the Main Office Surveillance/IT Room, a limited access area.
• All telephone junction boxes or rooms where alarm telephone circuits terminate are locked, tamper-protected, and all labels or tags identifying these alarm circuits have been removed.

ALARM SYSTEM COMMUNICATION

The alarm system shall include an electronic or mechanical system that, upon activation, is programmed to send a prerecorded voice message, via telephone, radio frequency, or other communication system, to appropriate law enforcement authorities or other emergency services. In addition, the alarm system shall be equipped with a failure notification system that notifies the alarm monitoring service provider of the system failure via audio, text, visual, or audiovisual message, within a maximum of five (5) minutes of such failure.

ALARM SYSTEM TESTING

We shall bi-annually conduct an onsite inspection and test of the entire alarm system to determine needed repairs and adjustments.

ALARM SYSTEM RECORDS

We shall keep and maintain alarm system records and will make available to the Department all
information related to the alarm system, monitoring, and alarm activity. These records shall include the following:

- The name of the alarm installation and monitoring service provider.
- Copies of service contracts.
- A map of the Grow Facility showing the location and operation of each alarm system component including alarm telephone circuits.
- A list of authorized users.
- Manufacturers’ instructions for operating and maintaining the equipment.
- Testing and maintenance logs.
- Reports of any incidents triggering an alarm.
- Reports of any interruption in monitoring and/or complete failure of the system, including the length of the interruption period.

SURVEILLANCE SYSTEM

We shall have a fully operational electronic surveillance system installed at our facility. We shall notify the Department of the intent to make any changes to the surveillance system. Upon request, we will make available to the Department all information related to the electronic surveillance system installed at our facility. The surveillance system shall consist of the following:

- Appropriate equipment necessary to video record activity inside and outside the Grow Facility, including:
  - All entrances and exits into and out of the Grow Facility.
  - Roof hatches or skylights.
  - Rooms with exterior windows.
  - Rooms with exterior walls.
  - Rooms containing safes or vaults.
  - All entrances and exits of security rooms and limited access areas.
- Appropriate equipment to record keycard entry and exit activity of all our employees and visitors.
- A backup power supply system that immediately provides power in the event of a power outage.
- A dedicated safe or vault to store all entry/exit records and video recordings in the Office Surveillance/IT Room, in a limited access area.
- Main system operating equipment is kept in the main office Surveillance/IT Room.

VIDEO SURVEILLANCE EQUIPMENT

Our video surveillance equipment will consist of the following:

- Network video recorders with a record rate of a minimum of thirty (30) frames per second.
- Cameras with a minimum resolution of 1920 x 1080 pixels.
• Cameras with infrared capabilities to capture images in low or no lighting conditions.
• Cameras with capabilities to identify activity occurring within twenty feet (20') from all points of entry and exits into and out of the exterior of the Grow Facility.
• Video monitors.
• Digital archiving device.
• Capabilities to produce a color still photograph from any camera image, live, or recorded.
• Capabilities to accurately display the time and date on recorded images or video.
• Color printer that can immediately produce a clear, color still photo, either live or recorded, with a resolution of 9600 dpi and the image quality is relative to the camera being used to capture the image.

CAMERA COVERAGE PLACEMENT

We will install at least One Hundred (100) security cameras. The security cameras will be permanently mounted and in a fixed location. Each camera at the Grow Facility shall be placed in a location that allows the camera to clearly record activity occurring within twenty feet (20') of all points of entry and exit on the Grow Facility. The cameras will cover every square inch of the facility. The cameras shall allow for the clear and certain identification of any person, including facial features, and activities, including sales or transfers, in all areas of the Grow Facility. The security cameras shall monitor and record all areas of the Grow Facility including:

• All areas where marijuana or products are present, including activities related to:
  • Weighing, packaging, and labeling.
  • Storing, preparing for sale, loading/unloading, or moved within the Grow Facility.
  • Waste Disposal
• Limited-access areas and security rooms, including transfers between rooms and areas.
• Areas storing a surveillance system storage device with at least one (1) camera recording the access points to the secured surveillance recording area.
• All entrances and exits into and out of the exterior of the Grow Facility, recording both indoor and outdoor vantage points.
• Outdoor trash receptacles.
• Roof hatches or skylights.
• Rooms with exterior windows.
• Rooms containing safes or vaults.
• All areas where cash is counted, transferred, or stored.
• All areas where records are stored.

Cameras shall not be installed in bathrooms or any other area where a legitimate expectation of privacy exists. Camera placement shall ensure:

• Visibility of activities is not obstructed by lighting equipment covers, fixtures, or other equipment.
• A clear and certain identification of all individuals and activity at the Grow Facility.
• Identification of activity occurring within twenty feet (20') from all points of entry and exit into and out of the exterior of the Grow Facility.

SURVEILLANCE FAILURE NOTIFICATION

The surveillance system shall include a failure notification system that alerts the Site Director and other key site personnel of any interruption in surveillance and/or the complete failure of the monitoring system. The notification shall be within a maximum of five (5) minutes of such failure via audio, text, visual, or audiovisual message. Additionally, an alarm shall signal the Security Officer on duty whenever an unauthorized entry is attempted.

SURVEILLANCE TESTING

We shall ensure that the surveillance system is properly maintained for playback quality so that images can be seen and the identity of all individuals and activity in surveillance areas are captured. We will schedule and oversee all required maintenance of security equipment in accordance with manufacturer recommendations. Any equipment failure identified shall be corrected as soon as possible. All security equipment shall be in good working order and shall be inspected and tested at regular intervals.

INFORMATION TECHNOLOGY SECURITY

We shall ensure the security of our hardware, software, data, and communications networks, including the following information technology (IT) maintenance:

• Software registration.
• Security patches.
• Malicious software prevention.
• Account management.
• Security status and network access monitoring.
• Disposal and redeployment.
• Employee IT security training.
• Vulnerability assessments.

Access to protected information shall be restricted to essential employees only. Access may be granted to authorized representatives of the Department and other government officials if necessary to perform their official duties. Examples of protected information include:

• Security and cash management procedures.
• Asset and inventory lists.
• Network data.
• Floor plans of critical areas.
• Password and code records.
• Customer records.
• Employee records.

PRODUCT SAFETY AND SECURITY

We shall develop and implement procedures that ensure product safety and security and are compliant with the rules set forth by the Department and all applicable state and local laws, regulations, ordinances, and other requirements. Procedures shall include measures that:

• Minimize the risk of diversion or theft of marijuana.
• Minimize the risk of contamination from incoming materials.
• Ensure proper storage conditions that maintain the quality and purity of our marijuana products.

MATERIAL RECEIVING

All deliveries shall be verified at the front entrance to the facility before allowed access to the loading areas. All materials received will be documented. No material may be received unless its shipping documentation matches the corresponding purchase order or separate approval is given by the Site Manager. Employees shall notify the Site Manager of any shipment discrepancy immediately and shipment may not be accepted without the Site Manager’s approval.

PRODUCT STORAGE SECURITY

Storage areas shall be designed to provide adequate lighting, ventilation, temperature, humidity, space, and equipment. All storage areas shall be maintained in a clean and orderly condition, free from infestation of pests, and in accordance with our security measures and Security Plan. The Grow Facility Manager shall ensure secure containers containing marijuana products remain dry, well ventilated, have temperature-control features to avoid extreme temperature fluctuations and appropriate odor-control features. These proper storage environments ensure product storage does not lead to product contamination or loss of quality.

The storage areas containing marijuana products shall be designed for security and ease of maintenance. We shall establish product storage and security policies and procedures compliant with the rules set forth by the Department and all applicable state and local laws, regulations, ordinances, and other requirements. Under no circumstances may any product be transferred without following our policies and procedures and all the rules set forth by the
Department and all applicable state and local laws, regulations, ordinances, and other requirements. Storage policies and procedures shall include:

- All equipment and any areas used for the processing or storage of marijuana shall be securely locked unless in use.
- All areas used for the storage of marijuana shall be on a time lock and only accessible during regular business hours.
- Inventory shall be reviewed and documented at the beginning and close of each day.
- All areas where marijuana product is stored will be monitored by the surveillance system.

DIVERSION PREVENTION

Investigation of possible diversion and developing policies to prevent it will be conducted by a team of our senior officials, including our CEO, COO, and Director of Compliance. Collectively, they will be known as the Diversion Prevention Team or DPT. The team will have multiple responsibilities including:

- Investigating allegations of diversion
- Developing policies and procedures to prevent diversion
- Managing performance improvement measures
- Providing overall direction for the program.
- Reporting confirmed cases of diversion to law enforcement

The DPT will also integrate information from external sources and environmental factors to improve safety and security at facilities. External sources and environmental factors may include news reports, trade and patient associations, law enforcement bulletins, et cetera. Standard operating procedures shall be updated to incorporate new sources of information and prevent diversion.

WORKING WITH LAW ENFORCEMENT

We deeply value and respect the work of local law enforcement. Police officers are on the front lines protecting our safety. Therefore, our Company, through the DPT, will form a partnership with law enforcement. This partnership will be rooted in a shared responsibility for the safety of the community. Upon request, law enforcement will have access to employee records and Grow Facility operations. Company will also engage with first responders like EMS and fire to establish emergency response protocols. This will create a close working relationship and enhance our ability to provide a secure and positive experience for our employees and the community.

To provide first responders with immediate access into our facility during a time of emergency or inspection, we will install a Knox Rapid Access System to remove any barriers to entry when first responders respond to an emergency call.
EMPLOYEE TRAINING

We know that having a trained and educated workforce is paramount to having an effective diversion strategy. Therefore, a considerable amount of time, resources, and energy will be devoted to ongoing diversion prevention training. The training curriculum will be conducted by the DPT. At a minimum, the training curriculum shall include:

- Compliance regulations for grow facilities.
- State laws and agency rules regulating the use of marijuana.
- Strategies for preventing diversion.
- Criminal and civil consequences for diverting product.
- Security and safety standard operating procedures.
- Chain of command for reporting diversion.
- Incident management.
- Daily operating procedures.

Diversion prevention trainings are mandatory for every new employee. Additionally, each employee shall be required to participate in quarterly continuing education trainings on diversion. Training materials will be outcome driven. Employees will be given real world examples of diversion and taught the appropriate response. Teaching the material through the learning principles of problem solving, discussion, and feedback will empower and increase understanding and retention of the training. This process of integrating knowledge will develop a culture of shared values, perspectives, and become the way of daily conduct and purpose at the Grow Facility.

Employees will have access to diversion prevention training materials at all times. There will be no excuse and zero tolerance for not knowing the proper policies and procedures. Well-maintained employee training records displaying documented training dates and subject matter will preserve and increase compliance, continuity and understanding of all guidelines, security procedures, safety, and incident response. Employee training records will become a written testament of the detailed information and accountability of security education.

INVESTIGATION OF DIVERSION

Due to intense and robust security operations, we do not anticipate diversion at our facility. However, it is important to be prepared for any scenario. We have developed an enhanced investigation procedure for any allegations or reports of potential diversion. Any allegation or report will be fully and immediately investigated by the DPT with established processes and timeframes.

Security policies developed by our Company outline that the first step of investigation is to preserve all possible evidence. Evidence needs to be persevered for the investigation and may be used in future disciplinary matters. The second step of investigation shall be to review all camera footage and other relevant information technology. Each marijuana product is tracked from seed to sale. Therefore, if diversion occurred, it will likely appear in an audit of the tracking software. The third step of investigation will be to interview the employee who engaged or
allegedly engaged in diversion. This step can only be executed if enough evidence is gathered to narrow down the suspect. The goal of the interview is to get the subject to confess how they diverted product to prevent future incidents from occurring. The fourth step of investigation will be to report the confirmed incident of diversion and suspect to law enforcement and the Department. The Site Manager shall be the point of contact for all law enforcement inquires and will turn over all relevant evidence to law enforcement and the Department. The final step of investigation is to develop policies and procedures to prevent the incident from happening again. Once new policies have been developed by the DPT, an all staff training shall be given. The training will be a top down review of all security policies including any updated procedures.

INCIDENT RESPONSE

We shall establish incident response procedures addressing any incident that may occur, including natural disaster, unauthorized access, theft, or IT security breach. Procedures shall be in accordance with the rules set forth by the Department and all applicable state and local laws, regulations, ordinances, and other requirements. Procedures for general emergency and incident management, containment, and corrective measures shall be thoroughly detailed. The Director of Compliance shall ensure the appropriate response procedures are followed. All employees shall receive incident response training annually. The Site Manager shall determine the category and severity of the incident and determine the next best course of action. All discussions, decisions, and activities shall be documented.

We shall immediately notify appropriate law enforcement authorities and the Department immediately after the discovery of a reportable incident as defined by state and local laws, regulations, ordinances, and other requirements. Examples of an incident may include, but are not limited to:

- Theft or physical loss of marijuana or confidential records.
- Breach of our network servers.
- Robbery or unauthorized entry in the Grow Facility.
- Threats of violence to the Grow Facility, employees, or visitors.
- Bomb threats.
- Any criminal activity.
- Civil disturbances.
- Hazardous spills.
- Infectious disease epidemic.
- Serious accidents.
- Fires.
- Earthquakes.
- Floods.
- Windstorms or tornadoes.
INCIDENT REPORTING

Anyone with knowledge or a reasonable suspicion of an incident is instructed to make an immediate report to the Grow Facility Manager or the Site Manager. The person reporting the incident shall complete the Incident Log.

- Date and time of occurrence or suspected occurrence.
- Names and contact information of parties involved and any witnesses.
- Description of incident.
- Completed Suspect Description Forms, if applicable.
- Any evidence supportive of the event (unless law enforcement is required on scene or en route).

We shall notify appropriate law enforcement authorities and the Department immediately after discovering the following:

- Discrepancies identified during inventory; diversion, theft, or loss of marijuana; or any criminal action involving an employee.
- Theft, robbery, or burglary; sale to minors; diversion of marijuana or marijuana products; or any other crime related to marijuana.
- Any suspicious act involving the sale, cultivation, distribution, processing, or production of marijuana by any person.
- Unauthorized destruction of marijuana.
- Any loss or unauthorized alteration of records.
- An alarm activation or other event that requires a response by public safety personnel.
- Integrity of the inventory management system compromised.
- An IT security breach.
- The failure of any security alarm system due to a loss of electrical power or mechanical malfunction that is expected to last longer than eight (8) hours.
- Any other breach of security defined by the rules set forth by the Department.

UNAUTHORIZED ENTRY/ROBBERY CONTAINMENT AND CORRECTIVE PROCEDURES

In the event a threat is present to persons, cash, or product due to unauthorized entry, employees shall be trained to perform the following:
• Notify law enforcement utilizing a panic alarm, only if it can be safely done without being obvious to the robber.

• Do not resist the robber or use or encourage the use of weapons or force against the robber.

• Try to inform the robber of any potential surprises (e.g., an employee is due back from lunch or the building alarm is set to be tested).

• Try to keep employees and visitors, if applicable, calm during the robbery.

• Try to alert other employees of the situation using pre-determined signals or text messages, only if safe to do so.

• Follow the robber’s commands in order to shorten the time of the incident. Do not argue with the robber, but do not volunteer to help.

• If the robber demands a certain amount of money or product, only give them that amount.

• Be observant in order to be a good witness. Try to remember:
  o The number of robbers.
  o The physical characteristics of the robber(s), such as weight, scars, tattoos, hair color, or speech patterns.
  o The clothing worn by the robber(s).
  o Any names used by the robber(s).
  o A description of any weapons shown, such as barrel length and color, color of the grip, or automatic or revolver.

• If the robber uses a note, try to place it out of sight to retain it as evidence.

• Do not follow a robber.

• Secure the Grow Facility and place a notice that the business is closed due to an emergency.

• Call the police and ambulance, as needed, immediately and request that witnesses stay or obtain their contact information.

• Provide aid to injured people.

• Do not discuss the robbery with any outside parties until police and management has given authority to do so.

• Do not estimate the amount of money or product that was taken until an inventory has been performed.

Corrective procedures that may be required to return conditions to a normalized and secure state:

• Change all security codes.

• Replace locks and issue keys only to authorized employees.
• Ensure any video of the incident is archived.
• Restore security devices and/or apparatus to working condition.
• Repair any physical damage to the Grow Facility.
• Provide employees and visitors, if applicable, counseling, as needed.
• Perform a security re-training as soon as possible.
• Modify Employee Access Control Log as deemed appropriate.

INTERNAL THEFT/BURGLARY CONTAINMENT AND CORRECTIVE PROCEDURES

In the event a threat is present to persons, cash, product due to internal theft or burglary, employees shall be trained to perform the following:

• Identify missing or compromised assets.
• Gather, remove, recover, and secure sensitive materials to prevent further loss or access.
• Power down, recycle or remove security equipment known to be compromised.
• Where possible, secure the premises for possible analysis by the Department and law enforcement.
• Gather and secure any evidence of illegal entry for review by the Department and law enforcement.
• Where possible, record identities of any party who might be a possible witness to events.
• Preserve video recordings and Visitor logs for review by the Department and law enforcement.

Corrective procedures that may be required to return conditions to a normalized and secure state:

• Retrieve or restore assets where possible.
• Store all sensitive materials and products in a secure manner (e.g., lockable cabinets or storage areas/container).
• Replace locks and issue keys only to authorized employees. Update the Employee Access Control Log as necessary.
• Restore security devices and/or apparatus to working condition.
• Remove and retain unauthorized equipment from network and/or area.
• Implement physical security devices and improvements (e.g., equipment cables, alarms) as deemed appropriate.
• Perform a security re-training as soon as possible.
FIRE PROCEDURES

If a fire does not present an immediate danger to personal safety, one (1) employee shall try to extinguish the fire. If a fire presents an immediate danger to personal safety, a fire alarm shall be pulled and a call to 911 shall be immediately made and evacuation of the building shall occur all at once.

Evacuation of Grow Facility

Any director or manager may determine the need to evacuate. Reasons for evacuation may include:

- Fire.
- Bomb threat.
- A hostile or violent employee, visitor, or unknown person.
- Power outage.
- Earthquake.
- Water or gas leak.
- Hazardous spill.
- Robbery or hostage situation.

The Site Manager shall ensure that all employees and visitors, if applicable:

- DO NOT gather in lobbies.
- DO NOT open a door without first checking for heat.
- DO NOT touch any suspicious items or suspected bombs.
- DO NOT run or panic.
- DO NOT re-enter the building until authorized.
- DO assist disabled individuals or others who need assistance. Evacuate disabled individuals or others who need assistance ONLY under the direction of authorized emergency personnel or when there is an immediate threat to personal safety and security.

INCIDENT CONTAINMENT

The Site Manager, in coordination with the appropriate department directors or managers, shall determine and implement the appropriate activities and processes required to quickly contain and minimize the immediate impact to personal safety, the Grow Facility, and other affected parties. Containment activities shall be designed to:

- Minimize harm to individuals.
- Counteract the immediate threat.
• Prevent propagation or expansion of the incident.
• Minimize actual and potential damage.
• Restrict knowledge of the incident to authorized employees.
• Preserve information relevant to the incident.

The Site Manager, in coordination with the appropriate department directors or managers, shall determine and implement the appropriate activities and processes to quickly:
• Secure the environment.
• Restore the environment to its normalized state.

The Site Manager shall be actively engaged throughout the incident to assess the progress of all containment and corrective measures and determine at what point the incident can be considered resolved.

INCIDENT CONTAINMENT AND CORRECTIVE PROCEDURES

The Site Manager shall determine and implement the appropriate procedures required to quickly contain and minimize the immediate impact of an incident, as well as to quickly restore circumstances to a normalized, secure state. Containment and corrective measures shall be designed with the primary objectives of:
• Minimizing harm.
• Counteracting the immediate threat.
• Preventing propagation or expansion of the incident.
• Minimizing the actual and potential damage.
• Restricting knowledge of the incident to authorized employees.
• Preserving information relevant to the incident.
• Securing the environment.
• Restoring the environment to its normalized state.

POST-INCIDENT REVIEW, REPORT, AND FOLLOW UP

The Site Manager shall hold a Post-Incident Review after each incident has been resolved. The Post-Incident Review shall be scheduled within two (2) to three (3) weeks of the incident’s resolution and shall involve:
• Appropriate personnel, which may include affected parties.
• Examination of the incident and all related activities and events.
• Discussion on proposed changes to policy, processes, and safeguards.
All incident activities, from receipt of the initial report through post-incident review, shall be documented. The Site Manager shall ensure all events are recorded, assembling these records in preparation and performance of the post-incident review, and ensuring all records are preserved for review. The following shall be included, at a minimum, in the Post-incident Report:

- A description of incident events with specific timelines.
- Employee(s) involved.
- Non-Employees involved.
- Impact to affected parties.
- Discussions, decisions, and assignments made.
- Successful and unsuccessful activities.
- Notifications required or recommended.
- Steps taken for containment and resolution.
- Recommendations for prevention and remediation (short-term and long-term).
- Identification of policy and procedure gaps.
- Results of post-incident review.
- Any necessary follow-up actions.

The Post-incident Report shall be distributed to the Site Manager, the Grow Facility Manager, and all other relevant parties for review. The Site Manager shall ensure the appropriate employees are assigned to any follow-up actions. The Site Manager shall document the completion of all follow-up actions in the Post-incident Report and distribute an updated copy.

SECURITY SYSTEM RECORDS

We shall keep all necessary books and records in order to render a full account of all operations conducted at the Grow Facility under our license for the year to date and the five (5) years prior. We shall keep books and records of the Grow Facility from the previous six (6) months (or the complete copies of such records) in the Grow Facility at all times. All marijuana related records shall be retained in the inventory management system. All surveillances recordings shall be retained, at a minimum for at least sixty (60) days, unless in instances of investigation or inspection by the Department, through its investigators, agents, auditors, or the state police, in which case the licensee shall retain the recordings until such time as the department notifies the licensee that the recordings may be destroyed. Our standard operating procedures shall detail the maintenance of records and measures for addressing and reporting any loss or unauthorized alteration of records. The Department, upon request, shall have full access to all Grow Facility records and surveillance recordings.

We shall keep and maintain security and surveillance system records and recordings in the Grow Facility and copies stored on a secure cloud storage. These records shall include, at a minimum, the following:

- The name of the surveillance equipment installation service provider and all equipment manufacturers.
- Copies of any service contracts.
• A map of the Grow Facility showing the location and operation of each surveillance system component, including the direction of camera coverage.

• A list of authorized users.

• Manufacturers' instructions for operating and maintaining the equipment.

• Testing and maintenance logs.

• Reports of any incidents of unauthorized entry.

• Employee Access Control Logs.

• Visitor Registration Logs.

• Authorized Visitor Access Control Logs.

• Incident Logs and Post-incident Reports.

• Reports of any interruption in monitoring and/or complete failure of the system, including the length of the interruption period.

• A log of the recordings, which includes:
  
  o The identities of the employee or employees responsible for monitoring the video surveillance system.
  
  o The identity of the employee who removed the recording from the video surveillance system.
  
  o The identity of the employee who destroyed any recording.

• Video surveillance recordings shall be:
  
  o In a digital format that ensures authentication of the recording as being legitimately captured without alterations.
  
  o Easily accessible and in a format that allows for viewing and copying.
  
  o Embedded with the date and time without significantly obscuring the picture.

We will maintain a log of all recordings, which will include a minimum:

• The identities of the employee or employees responsible for monitoring the video surveillance system.

• The identity of the employee who removed the recording from the video surveillance system storage device and the time and date removed.

• The identity of the employee who destroyed any recording.

Video surveillance recordings shall be stored on an NVR that is server-based with storage as required to meet recording rate and retention. This system shall be password-protected and separate from any other equipment in the Grow Facility. The files and video surveillance recordings shall be available for inspection, upon request, by authorized representatives of the Department and other government officials when necessary to perform their official duties.

After the expiration of the retention period, and before selling or closing the facility, the surveillance video recordings shall be erased, destroyed, or otherwise disposed. We shall not destroy any surveillance video recordings if we have knowledge or should have knowledge of any ongoing criminal, civil, administrative, or other official investigations or proceedings for which the recording may contain relevant information. Additionally, we shall not destroy any surveillance
video recordings in instances of investigation or inspection by the Department, through its investigators, agents, auditors, or the state police, in which case the recordings shall be retained until such time as the Department notifies us that the recordings may be destroyed.
Security and Surveillance Equipment Room Access List

This is the current list of individuals having access to our Security and Surveillance Equipment Storage Room. Only those on this list are essential to maintain security and surveillance operations. All others will be denied access to the Security and Surveillance Equipment Room.

This list is available to the Department or authorized agents immediately upon request.

WE ASSIGNED YOU AN EMPLOYER IDENTIFICATION NUMBER

Thank you for applying for an Employer Identification Number (EIN). We assigned you EIN 85-2192285. This EIN will identify you, your business accounts, tax returns, and documents, even if you have no employees. Please keep this notice in your permanent records.

When filing tax documents, payments, and related correspondence, it is very important that you use your EIN and complete name and address exactly as shown above. Any variation may cause a delay in processing, result in incorrect information in your account, or even cause you to be assigned more than one EIN. If the information is not correct as shown above, please make the correction using the attached tear-off stub and return it to us.

Based on the information received from you or your representative, you must file the following form(s) by the date(s) shown.

Form 941 01/31/2021
Form 940 01/31/2021

If you have questions about the form(s) or the due dates(s) shown, you can call us at the phone number or write to us at the address shown at the top of this notice. If you need help in determining your annual accounting period (tax year), see Publication 580, Accounting Periods and Methods.

We assigned you a tax classification based on information obtained from you or your representative. It is not a legal determination of your tax classification and is not binding on the IRS. If you want a legal determination of your tax classification, you may request a private letter ruling from the IRS under the guidelines in Revenue Procedure 2004-1, 2004-1 I.R.B. 1 (or superseding Revenue Procedure for the year at issue). Note: Certain tax classification elections can be requested by filing Form 8832, Entity Classification Election. See Form 8832 and its instructions for additional information.
If you are required to deposit for employment taxes (Forms 941, 943, 940, 944, 945, CT-1, or 1042), excise taxes (Form 720), or income taxes (Form 1120), you will receive a Welcome Package shortly which includes instructions for making your deposits electronically through the Electronic Federal Tax Payment System (EFTPS). A Personal Identification Number (PIN) for EFTPS will also be sent to you under separate cover. Please activate the PIN once you receive it, even if you have requested the services of a tax professional or representative. For more information about EFTPS, refer to Publication 966, Electronic Choices to Pay All Your Federal Taxes. If you need to make a deposit immediately, you will need to make arrangements with your Financial Institution to complete a wire transfer.

The IRS is committed to helping all taxpayers comply with their tax filing obligations. If you need help completing your returns or meeting your tax obligations, Authorized e-file Providers, such as Reporting Agents (payroll service providers) are available to assist you. Visit the IRS Web site at www.irs.gov for a list of companies that offer IRS e-file for business products and services. The list provides addresses, telephone numbers, and links to their Web sites.

IMPORTANT REMINDERS:

* Keep a copy of this notice in your permanent records. This notice is issued only one time and IRS will not be able to generate a duplicate copy for you. You may give a copy of this document to anyone asking for proof of your EIN.

* Use this EIN and your name exactly as they appear at the top of this notice on all your federal tax forms.

* Refer to this EIN on your tax-related correspondence and documents.

* Provide future officers of your organization with a copy of this notice.

Your name control associated with this EIN is TYCO. You will need to provide this information, along with your EIN, if you file your returns electronically.

If you have questions about your EIN, you can contact us at the phone number or address listed at the top of this notice. If you write, please tear off the stub at the bottom of this notice and include it with your letter. Thank you for your cooperation.
OPERATING AGREEMENT
OF
TYCOON I OPERATIONS, LLC

THIS OPERATING AGREEMENT (this "Agreement") is entered into and made effective as of July 22, 2020 (the "Effective Date") by and between TYCOON I OPERATIONS, LLC, a Michigan limited liability company (the "Company"), and TYCOON HOLDINGS, LLC, a Michigan limited liability company and sole member of the Company (the "Member").

Background

A. The Company was formed on July 22, 2020 as a Michigan limited liability company.

B. The undersigned desires to memorialize its rights and obligations with respect to the Company pursuant to the terms of this Agreement.

Agreement

In consideration of the foregoing background and for other good and valuable consideration, the receipt and sufficiency of which is hereby acknowledged, and intending to be legally bound hereby, the parties agree as follows:

ARTICLE I
DEFINITIONS

The following capitalized terms used in this Agreement shall have the following meanings (unless otherwise expressly provided herein):

"Act" means the Michigan Limited Liability Company Act, as amended.

"Business" means the principal business of the Company, which shall be to own and manage investments.

"Capital Contribution" means any contribution of cash or property to the Company, or any obligation to contribute cash or property to the Company, whenever made.

"Certificate" means the Articles of Organization as filed by the organizer of the Company with the Department of State of the State of Michigan, as amended.

"Code" means the Internal Revenue Code of 1986, as amended, or corresponding provisions of subsequent superseding federal revenue laws.

"Interest" means the Member’s entire interest in the Company.
“Person” means any individual, trust, partnership, corporation, limited liability company or entity.

ARTICLE II
FORMATION OF COMPANY

2.1 Formation. The Company has been organized as a Michigan limited liability company by executing and delivering the Certificate in accordance with and pursuant to the Act.

2.2 Name. The name of the Company is Tycoon I Operations, LLC.

2.3 Registered Office. The address of the registered office of the Company shall be The CSC – Lawyers Incorporating Service, 601 Abbot Road, East Lansing, Michigan 48823, or at such other place as the Member may from time to time determine. The registered office of the Company may be changed from time to time by amending the Certificate in accordance with the Act. The Company may maintain such other offices, including, but not limited to, a principal place of business as the Member shall determine.

2.4 Purpose. The purposes of the Company shall be (a) to advance and grow the Business, (b) to engage in all other lawful business authorized pursuant to the Act, and (c) to make, enter into and perform any contracts and other undertakings, and to engage in any activities and transactions as may be ancillary to or necessary or advisable to carry out the foregoing purposes.

2.5 Term. The term of the Company shall be perpetual unless the Company is earlier dissolved in accordance with the provisions of this Agreement.

ARTICLE III
CAPITAL CONTRIBUTIONS; LOANS; DISTRIBUTIONS

3.1 Capital Contributions. The Company shall keep a record of all Capital Contributions made by the Member. The Member shall not be required to make any Capital Contribution to the Company not specifically agreed to in writing between the Member and the Company.

3.2 Loans. Any and all loans made to the Company by the Member shall not be considered Capital Contributions.

3.3 Distributions. Distributions shall be made to the Member (in cash or in kind) at such times and in such amounts determined by the Member and as permitted by applicable law.
ARTICLE IV
MEMBER

4.1 Member. The name and address of the Member is:

Tycoon Holdings, LLC
2055 Crooks Road, Suite B
Rochester Hills, MI 48309

4.2 Management. The Company shall be initially managed by Heller Investment Holdings, LLC.

4.3 Right to Rely on Member. Any Person dealing with the Company may rely (without duty of further inquiry) upon a certificate signed by a designee of the Member as to: (a) the identity of the Member; (b) the existence or non-existence of any fact or facts which constitute a condition precedent to acts by the Member or which are in any manner germane to the affairs of the Company; (c) the Persons who are authorized to execute and deliver any instrument or document of the Company; or (d) any act or omission by the Company or any other matter whatsoever involving the Company or the Member.

4.4 Authority to Designate Officers. The Member may elect, appoint or designate, by resolution or otherwise, individuals as officers of the Company and delegate to such officers such powers, authority and responsibilities as are (i) set forth in the designation or delegation, and (ii) necessary to carry out and implement the management decisions of the Member. The Member may remove any officer, with or without cause, at any time. Any officer may resign at any time by giving written notice to the Company. Any resignation shall take effect as of the date of the Company’s receipt of such notice or at any later time specified in such notice (unless such officer is otherwise removed prior to such date); and unless otherwise specified in such notice, the acceptance of the resignation shall not be necessary to make it effective. Unless the Member decides otherwise, if the title to an officer of the Company is one commonly used for officers of a business corporation, the assignment of such title shall constitute the delegation to such individual of the authority and duties that are normally associated with that office. The current officers of the Company are as set forth on Schedule A attached hereto, as may be amended from time to time.

4.5 Liability of Member and Officers. Neither the Member nor any officer, agent or representative of the Member, or officer of the Company, shall be liable to the Company or to the Members, as applicable, for (i) the performance of, or the failure to perform, any act or duty on behalf of the Company if, in good faith, the Members or officer determined that such conduct was in the best interests of the Company and such conduct did not constitute fraud, gross negligence or reckless or intentional misconduct, (ii) the termination of the Company and this Agreement pursuant to the terms hereof, and (iii) the performance of, or the failure to perform, any act on behalf of the Company in good faith reliance on advice of legal counsel, accountants or other professional advisors to the Company.
4.6 **Indemnification.** The Company shall indemnify, defend and hold the Member and the officers, agents and representatives of the Member, and each officer of the Company and, in the discretion of the Member, each employee of the Company, harmless from and against any expense, loss, damage or liability incurred or connected with, or any claim, suit, demand, loss, judgment, liability, cost or expense (including reasonable attorneys' fees) arising from or related to, the Company or any act or omission of such Member (or officer, agent or representative of the Member) or officer (or employee) and amounts paid in settlement of any of the foregoing, to the fullest extent provided or allowed by the laws of the State of Michigan. The Company may advance to any such Person the costs of defending any claim, suit or action against such Person.

4.7 **Title to Company Property.** All real and personal property shall be acquired in the name of the Company and title to any property so acquired shall vest in the Company itself rather than in the Member.

**ARTICLE V**

**ACCOUNTING AND TAX MATTERS**

5.1 **Accounting Principles.** The Company's financial statements shall be prepared and its profits and losses shall be determined in accordance with methods of accounting selected by the Member, which need not be the same as the method of accounting used for tax purposes.

5.2 **Returns and Other Elections.** The Member shall cause the preparation and timely filing of all tax returns required to be filed by the Company pursuant to the Code and all other tax returns deemed necessary and required in each jurisdiction in which the Company does business. All elections permitted to be made by the Company under federal or state laws shall be made by the Member in its sole discretion. So long as the Company has only one member, the Company shall be treated as a disregarded entity for income tax purposes.

**ARTICLE VI**

**TRANSFERS: ADDITIONAL MEMBERS**

6.1 **Transferability of Membership Interest.** The Member’s Interest in the Company is freely transferable or assignable, in whole or in part, either voluntarily or by operation of law.

6.2 **Admission of Additional Members.** Additional members of the Company may be admitted to the Company at the direction of the Member only if a new operating agreement or an amendment and restatement of this Agreement is executed by such additional member or members.
ARTICLE VII
DISSOLUTION AND LIQUIDATION

7.1 Dissolution.

(a) The Company shall be dissolved and its affairs wound up and terminated only upon the determination of the Member. The dissolution or bankruptcy of the Member or the occurrence of any other event that terminates the continued membership of the Member shall not cause a dissolution of the Company.

(b) Dissolution of the Company shall be effective on the day on which an event described in Section 7.1(a) above occurs, but the Company shall not terminate until articles of dissolution shall be filed with the Department of State of the State of Michigan and the assets of the Company are distributed as provided in Section 7.2 below. Notwithstanding the dissolution of the Company, prior to the termination of the Company, the business of the Company and the affairs of the Member shall continue to be governed by this Agreement.

7.2 Winding Up. Upon dissolution, the Company shall continue until the winding up of the affairs of the Company is completed and a certificate of dissolution has been filed pursuant to the Act. Upon the winding up of the Company, the Company’s property shall be distributed (a) first to creditors, including the Member if the Member is a creditor, to the extent permitted by law, in satisfaction of the Company’s liabilities, and (b) then to the Member. Distributions shall be in cash or property or partly in both, as determined by the Member.

ARTICLE VIII
MISCELLANEOUS PROVISIONS

8.1 Notices. Any notice, demand or communication required or permitted to be given by any provision of this Agreement shall be in writing and shall be deemed to have been delivered (a) two business days after being sent by registered or certified United States mail, or (b) upon delivery if hand delivered, sent via facsimile transmission or electronic mail. If delivered to the Member, such notice shall be delivered to his address as it appears in Section 4.1 above. If to the Company, such notice shall be delivered to its principal place of business.

8.2 Governing Law. This Agreement, and the application and interpretation hereof, shall be subject to and governed exclusively by its terms and by the laws of the State of Michigan, without regard to its conflicts of laws provisions.

8.3 Construction. Whenever the singular number is used in this Agreement and when required by the context, the same shall include the plural and vice versa, and the masculine gender shall include the feminine and neuter genders and vice versa. Unless expressly stated otherwise, Section and Article references herein shall refer to the Sections and Articles of this Agreement.

8.4 Waivers. No waiver by any party of the breach of any provision hereof shall be deemed to constitute a waiver of any continuing or subsequent breach of such provision or any other provision hereof.
8.5 **Severability.** If any provision of this Agreement or the application thereof to any Person or circumstance shall be invalid, illegal or unenforceable to any extent, the remainder of this Agreement and the application thereof shall not be affected and shall be enforceable to the fullest extent permitted by law, provided that the essential purpose of this Agreement is not frustrated.

8.6 **Heirs, Successors and Assigns.** The covenants, terms, provisions and agreements herein contained shall be binding upon, and inure to the benefit of, the parties hereto and, except as otherwise provided to the contrary, their respective heirs, executors, administrators, legal representatives, successors and permitted assigns.

8.7 **Entire Agreement.** This Agreement embodies the entire agreement and understanding between the parties hereto with respect to the subject matter hereof and supersedes all prior agreements and understandings relating to such subject matter.

[SIGNATURES APPEAR ON FOLLOWING PAGE]
IN WITNESS WHEREOF, the parties hereto have caused this Agreement to be signed as of the Effective Date.

**STAFFING PLAN**

**Summary of Job Creation, Compensation and Budget**

As discussed in detail below, we anticipate creating approximately 59 jobs at our Orion Township Cultivation Facility.

<table>
<thead>
<tr>
<th>Type of Marijuana Facility</th>
<th>Proposed Location</th>
<th>Total Jobs Per Facility</th>
<th>Expected Annual Payroll</th>
</tr>
</thead>
<tbody>
<tr>
<td>Cultivation Facility</td>
<td>Orion Township</td>
<td>59</td>
<td>$3,750,000.00</td>
</tr>
</tbody>
</table>

We pay our cultivation facility employees a minimum hourly wage of $15. We also provide a generous benefit package that includes the following:

- Health Insurance
- Paid Holidays
- Paid Time Off
- 401K Plan with 2% Match
- Performance Incentives

Out of our 3.75MM expected annual payroll, Tycoon I Operations expects to allocate $630,000 toward benefits for all full-time employees!

We intend to source our employees first from Orion Township, then into the surrounding regional area. Our job listings will always be listed in the Orion Township area first to accumulate as many qualified candidates as possible.

Attached is a table of the proposed positions at our Orion Cultivation Facility:

CHARTER TOWNSHIP OF ORION
ORDINANCE No. 154 APPLICATION REVIEW

Planning Commission Case: PC-2021-30
Parcel Number: 09-35-477-001 & 09-35-477-002
Property Address: 180 Premier Drive
Applicant: Tycoon I Operations LLC
Request: Class C Grow – Adult Use
Date: February 12, 2021

The aforementioned application was reviewed for compliance with the location requirements of Article VI of Ordinance No. 154 and the finds are detailed below:

Article V, 1. – The Facility must be located in the Township’s IP (Industrial Park) district: The parcels are zoned IP (Industrial Park) as required.

Article V, 2 – The Facility cannot be within one thousand five hundred (1,500) feet of a “church” in the Township: Article VI, 7 states that the distances specified in the Ordinance shall be measured from building edge to building edge. The applicant stated within their application that the facility is more than the required 1,500 feet. Using GIS, a measurement was taken from the edge of the property where the building is located (for simplicity vs. from edge of building which is further) to the edge of the closest church and it was over 1,600 feet.

Article VI, 3 – The Facility cannot be within two thousand (2,000) feet of a residence located in a R-1, R-2, R-3, SF, SE, SR, RM or MHP zoning district: Article VI, 7 states that the distances specified in the Ordinance shall be measured from building edge to building edge. The applicant stated within their application that the facility is more than the required 2,000 feet. Using GIS, a measurement was taken from the edge of the property where the building is located (for simplicity vs. from edge of building which is further) to the edge of the closest residential property line (for simplicity) and it was 2,500 feet.

Article VI, 4 – The Facility cannot be within two thousand five hundred (2,500) feet of a registered “school” within the Township: Article VI, 7 states that the distances specified in the Ordinance shall be measured from building edge to building edge. The applicant stated within their application that the facility is more than the required 2,500 feet. The closest school is over 2 miles from the parcel. (Scripps and Stadium Rds.)
Article VI, 5 – The Facility shall not have an ingress or egress on a street or road that has an average traffic volume in excess of six thousand (6,000) vehicles per day, as calculated by averaging the three (3) most recent Average Annual Daily Traffic (AADT) counts (as available), as reported by Southeast Michigan Council of Governments (SEMCOG): The building has ingress and egress off of Premier Drive. SEMCOG’s website does not contain any traffic count reports for Premier Dr.

Article VI, 6 - The Facility shall not have an ingress or egress on a street or road that directly also serves as an ingress or egress to a residential road or property located in a R-1, R-2, R-3, SF, SE, SR, RM or MHP zoning district. The building has both ingress or egress off of Premier Dr. Premier Dr. does not serve as an ingress and/or egress to any property located in a R-1, R-2, R-3, SF, SE, SR, RM or MHP zoning district.

Article VI, 7 - Distances specified in this Ordinance shall be measured from building edge to building edge. The measurements, unless noted differently, were measured from building edge to proposed building edge.

Article VI, 8 – If the Facility shall need a variance from what is set forth in Article VI Sections one (1) through six (6) above, the Applicant may submit a formal request for a variance to the Zoning Board of Appeals (“ZBA”). The ZBA shall only consider a variance request that is no more than fifteen percent (15%) out of compliance with the above location regulations: The applicant is not requesting any variances from the ZBA.

Article VI, 9 – It is the Township’s intention that Growers, Processors, Safety Compliance Facilities and Secured Transporters may operate within the same building under the following conditions: each licensed entity remains distinct and separate within different working area and separate record keeping systems: The applicant is requesting a Class C Grow – Adult Use only.

Article VI, 10 – The location shall meet all applicable Ordinances and promulgated standards of the Township and, prior to opening, shall demonstrate to the Township that it meets the rules and regulations promulgated by the State Mariujana Regulatory Agency (MRA):

ITEMS TO BE ADDRESSED: These items are unknown at this time. It is recommended that any approval be conditioned upon this requirement.

Article VI, 11 – The Facility location shall conform to all standards of the zoning district in which it is located: This condition has been met. The building itself has received site plan approval.
Article VI, 12 – If the Facility location is currently vacant land, the applicant must submit a site plan and building plans with the Application: The application is for an improved parcel that has received site plan approval.

Article VI, 14 – Based upon an application for or amendment of a Conditional Rezoning, PUD, or other use Development Agreement of sufficient specificity, it is within the sole discretion and judgment of the Township Board of Trustees to consider and waive any or all of the Location Requirements of this Article VI based upon any or all of 3 factors listed in Article VI 14 a,b, and c.: The applicant is not requesting any waivers.

Summary: I have reviewed the application as it relates to Ordinance No. 154 Article VI – Location Requirements. I am agreeable with the recommendation to approve this application with the conditions that:

1. The applicant meets all other applicable Township Ordinances and promulgated standards of the Township and, prior to opening, shall demonstrate to the Township that it meets the rules and regulations promulgated by the State Mariujana Regulatory Agency (MRA).

Tamara Girling
Planning & Zoning Director

Re: Marihuana Facility Permit Application; Tycoon I Operations, LLC  
180 Premier Drive, Orion Charter Township, MI 48359  
Adult-Use Class C Grow 4 of 5

Dear Madam Clerk:

Please find attached a Marihuana Facility Permit Application and all exhibits for five Adult Use Class C Grow permits to operate at 180 Premier Drive, Orion Charter Township, MI 48359. This application represents four of five of the Adult Use Class C grow permits.

If the Township believes any additional information or materials are required for this filing, please do not hesitate to contact us. Kindly direct all communications regarding this application to Aaron Fogleman either by phone at 248.920.8770 or by email at licensing@gloriuscanna.com.

We look forward to contributing significantly to the Township through economic development, training and employment, education and outreach, and to becoming a valuable community partner.

Thank you for your consideration.
ORION ORDINANCE 154 INITIAL PERMIT APPLICATION
Ordinalce 154, Licensed Marihuana Facilities Ordinance

Pursuant to the Charter Township of Orion Ordinance 154, Licensed Marihuana Facilities Ordinance, the following application is intended to collect information and documentation establishing the applicant’s conformance with the ordinance. All applicants should note that the approval of a Marihuana Permit will be based upon the accuracy and completeness of the information provided. In the event applications are received in excess of the permitted number of locations within the Ordinance or two or more applicants have similar qualifications, the Charter Township of Orion reserves its right to approve a permit which in the opinion of the Township best meets its goals and safeguards as set forth in the Ordinance. No financial or other right is established by the payment of the non-refundable application fee. All applications for renewal of a permit shall be reviewed per the standards set forth in the Ordinance. The Charter Township of Orion reserves the right to approve or deny the permit based upon the failure of any applicant to establish to the satisfaction of the Township any requirement, standard or goal of the Ordinance. The applicant understands this determination may involve a subjective interpretation of the application. Any permit granted by the Township is contingent upon the State of Michigan granting a state license for the specific license applied for under this ordinance.

5. If the Applicant or owner or any operator is a licensed caregiver under the Michigan Medical Marihuana Act, please list their name and address, and caregiver ID number issued by the State of Michigan. N/A

6. For any corporation or other legal entity who has a financial interest or affiliation with the requested permit, please state the following:

Name: Please see Organization Structure in Exhibit I
Name of Authorized Signer: ________________________________
Address: ________________________________

Interest or Affiliation: ________________________________

**SECTION B- FACILITY LOCATION**

7. Name of proposed facility: **Oakland Business Park, Building B**

8. Location of proposed facility: **180 Premier Drive**

    Orion Charter Township, MI 48359
9. Please provide a preliminary floor plan sketch showing the location of all facility operations within an existing building, or for new construction a site plan for the parcel. Attach as Exhibit “A”
   ☐ Document(s) attached. If not attached, why not and when is applicant expected to supplement: ________________

10. With respect to the location of the facility, please state with specificity the exact location, address, suite number and, if necessary, the location of the facility within a building or the parcel of land. This location should include the distance in feet from each property line. Attach as Exhibit “B”
    ☐ Document(s) attached.
    If not attached, why not and when is applicant expected to supplement: ________________

11. Please provide evidence of the Applicant’s property interest in the proposed location. Provide copies of documentation showing a legal and enforceable property interest. Attach as Exhibit “C”.
    ☐ Document(s) attached.
    If not attached, why not and when is applicant expected to supplement: ________________

12. Please confirm and establish that the facility is located within the Township’s Industrial Park district (“IP”); is not within 1,500 feet of a church; is not within 2,000 feet of a residence located in the R-1, R-2, R-3, SF, SE, SR, RM or MHP Zoning Districts; is not within 2,500 feet of a registered school and does not have ingress or egress on a street or road that has an average traffic volume in excess of 6,000 vehicles per day as calculated and reported by Southeast Michigan Counsel of Governments. Further, please show that the facility does not have an ingress or egress on a street or road that serves as an ingress or egress to a residential road or property located in a R-1, R-2, R-3, SF, SE, SR, RM or MHP Zoning District. For each of the above criteria, please attach any and all documents which will permit the Township to calculate compliance with the Licensed Marijuana Facilities Ordinance No. 154. At a minimum, provide a map showing the facility and measured distances (building edge to building edge). Attach as Exhibit “D”.
    ☐ Documents attached.
    If not attached, why not and when is applicant expected to supplement: ________________

a) Is the Facility located in the Township’s IP (Industrial Park District) zoning district?

    ☐ Yes □ No
b) Is the Facility more than one thousand five hundred (1,500) feet of any church in the Township?

☐ Yes  □ No

c) Is the Facility more than two thousand (2,000) feet of any residence located in an R-1, R-2, R-3, SF, SE, SR, RM, or MHP zoning district?

☐ Yes  □ No

d) Is the Facility more than two thousand five hundred (2,500) feet of any registered school within the Township.

☐ Yes  □ No

For 10-12 above, please provide a map showing the facility and measured distances (building Edge to building edge.)

e) Does the facility have an ingress or egress on a street or road that has an average traffic volume of six thousand (6,000) or less vehicles per day, as calculated by averaging the three (3) most recent Average Annual Daily Traffic (AADT) counts (as available), as reported on the Southeast Michigan Council of Governments (SEMCOG) per the site semcog.org/Traffic-Counts?

☐ Yes  □ No

f) Does the Facility have an ingress or egress on a street or road that does not also serve as an ingress or egress to a residential road or property located in a TR-1, R-2, R-3, SF, SE, SR, RM, or MHP zoning district?

☐ Yes  □ No

Name of Facility ingress/egress Street or road: Premier Drive

13. Please state whether the Applicant will seek a variance from the Zoning Board of Appeals pursuant to Article 6(8) of the Orion Licensed Marihuana Facilities Ordinance No. 154.

□ Yes  ☒ No

If variance will be sought, specify location category(s) pursuant to Art 6 (1)-(6): __________
For each category variance sought, state the percentage the applicant will seek: _____%  
(Not to exceed 15%)

**SECTION C- FACILITY REQUIREMENTS**

14. When available, submit to the Township a copy of the Applicant’s application for a 
license submitted to the State of Michigan, Department of Licensing and Regulatory 
Affairs, for each facility permit requested. 
Attach as Exhibit “E”. 
☐ Document(s) attached. 
If not attached, why not and when is applicant expected to supplement: ________________ 
Phase 2 application with the state of Michigan requires a permit and signed attestation from the municipality. 
we expect to submit our application with the state by 03/01/2021. 

15. Is consumption and/or use of marihuana prohibited at the Facility? 
☐ ☐ Yes ☐ No

16. Will all activity related to the Facility be done indoors? 
☐ ☐ Yes ☐ No

17. Will all Marihuana contained within the building be in a locked Facility in accordance 
with the Michigan Medical Marihuana Act, MCL 333.26421 et seq., as amended 
☐ ☐ Yes ☐ No

18. Please set forth an operations statement, plan and or outline showing that all facility 
activities shall occur indoors and in a building which is locked. 
Attach as Exhibit “F” 
☐ Document(s) attached. 
If not attached, why not and when is applicant expected to supplement: ________________

19. Will all necessary building, electrical, plumbing and mechanical permits obtained for any 
portion of the structure in which electrical wiring, lighting and/or watering devices are located? 
☐ Yes ☐ No
20. When available and prior to the issuance of any permit, the Applicant must submit all necessary building, electrical, plumbing and mechanical permits, as well as documented approval by the Orion Fire department showing compliance with the Michigan Fire Protection Code and confirmation that the storage of any chemical, herbicide, pesticide and or fertilizer has also been approved by the Orion Fire Department.

Attach as Exhibit "G".

☐ Document(s) attached.

If not attached, why not and when is applicant expected to supplement: ______________________

21. In any portion of the structure where the storage of any chemicals such as herbicides, pesticides, and/or fertilizers, do you agree to be subject to inspection and approval by the Orion Fire Department to ensure compliance with the Michigan Fire protection Code?

☐ Yes

☐ No

22. Will you ensure that no other uses, other than accessory uses, will be permitted within the same Facility other than those associated with cultivating, processing, transporting or testing marihuana?

☐ Yes

☐ No

23. Please state and/or provide documentation showing the plan that all litter and waste will be properly and safely removed and will not constitute a source of contamination in areas where marihuana is exposed. Further, please include how the applicant will dispose of rubbish so as to minimize the development of odor and minimize the potential for development of waste odor and waste from becoming an attracted, harborage or breeding place for pests. Please include a detailed description of the ventilation system. Attach as Exhibit "H."

☐ Document(s) attached.

If not attached, why not and when is applicant expected to supplement: ______________________

a) Will litter and waste be properly removed and the operating systems for waste disposal maintained in an adequate manner so that they do not constitute a source of contamination in areas where marihuana is exposed?

☒ Yes

☐ No

b) Will floors, walls and ceilings be constructed in such a manner that they may be adequately cleaned and kept clean and in good repair?

☒ Yes

☐ No
c) Will there be adequate screening or other protection against entry of pests, and will rubbish be disposed of so as to minimize the development of odor, minimize the potential for development of waste odor, and minimize the potential for waste becoming an attractant harborage or breeding places for pests?

	☒ Yes ☐ No

d) Will all buildings, fixtures and other facilities be maintained in a sanitary condition?

	☒ Yes ☐ No

e) Will each Facility center provide its occupants with adequate and readily accessible toilet facilities that will be/are maintained in a sanitary condition and in good repair?

	☒ Yes ☐ No

24. Please state how the Applicant intends to avoid excessive noise, dust, vibrations, glare, fumes or odors detectable to the normal senses beyond the boundaries of the property. Attach as Exhibit “I”.

☐ Document(s) attached.

If not attached, why not and when is applicant expected to supplement: ________________________________

__________________________________________________________________________________________

a) Will each Facility be operated in a manner that does not create excessive noise, dust, vibrations, glare, fumes or odors detectable to the normal senses beyond the boundaries of the property on which that Marihuana Facility will operate/operates or in violation of any other ordinance?

☐ Yes ☐ No

25. Please provide the plan and supporting documentation showing that all disposal systems for spent water and spent soil have been adequately and safely disposed of and accounted for.

Attach as Exhibit “J”.

☐ Document(s) attached.

If not attached, why not and when is applicant expected to supplement: ________________________________

__________________________________________________________________________________________

26. Please provide a security and safety plan, and at a minimum showing the facilities surveillance systems and continuous monitoring systems of the entire premise as required by the ordinance.

Attach as Exhibit “K”.

☐ Document(s) attached.

If not attached, why not and when is applicant expected to supplement: ________________________________

__________________________________________________________________________________________
a) Will the Facility continuously monitor the entire premises with surveillance systems that include security cameras operating 24 hours a day, 7 days a week, every day of the year, and will these recordings be maintained for a period of at least 30 days?

☐ Yes  □ No

27. Please state and/or show the exterior signage or advertising identifying the facility.
   Attach as Exhibit "L".
   □ Document(s) attached.
   If not attached, why not and when is applicant expected to supplement: ____________________________
   The facility will only show the numbers associated with its address ____________________________

a) Do you understand and agree that any exterior signage or advertising identifying the Facility as a marihuana facility is prohibited?

☐ Yes  □ No

SECTION D- BUSINESS OPERATIONS AND SECURITY

28. Active business operations shall not be open outside of the hours of 7am and 9pm.

A. & B. Facility Floor Plan
C. Lease Agreement
COMMERCIAL LEASE

This lease (the Lease), is entered into on November 1, 2020, between Premier Drive Tycoon I, LLC, with an address at 1615 S Telegraph Rd, Bloomfield Hills, MI (Landlord), and Tycoon I Operations, LLC (Tenant) on the terms and conditions listed below.

1. Description of the Premises. Landlord owns the real property, improvements and any and all structures thereon located at 180 Premier Drive, Orion Township, MI 48359 ("Premises"), consisting of approx. 72,000 square feet. Tenant shall have the right to use the Premises to conduct its daily business operations and for any ancillary or related purposes including the operation of a marihuana business.

2. Basic Lease provisions. The basic Lease provisions are stated below and further explained in the section referenced to the right of each provision:

(a) Term: 10 years (See §3)
(b) Commencement Date: February 1, 2021 (See §3)
(c) Termination date: October 31, 2030 (See §3)
(d) Options: 1 option to renew for additional 10 years (See §3)
(e) Monthly installment amount: $75,000 or $12.50; per square foot; (See §4)
(f) Security deposit: $75,000.00 (See §5)
(g) Use: Tenant's desired business operation (See §10)

3. Term. This Lease shall be for a term stated in section 2(a) commencing on the date stated in section 2(b) (the Commencement Date) and terminating on the date stated in section 2(c). The rent for the first month shall be prorated from date of occupancy, if the date of occupancy is after the first day of the month. Each succeeding lease year shall begin on the anniversary of the same date and continue until the termination of the Lease.

Provided that Tenant is not in default under this Lease at the end of the then current Lease term, Tenant shall have the right to renew the term of this Lease for the option period stated in section 2(d) by giving Landlord written notice of Tenant’s intent to renew the Lease at least 120 days before the expiration of the then current term. The renewal shall be on the same terms and conditions as in this Lease, except that the minimum rent for each renewal term shall be increased by a percentage equal to the percentage increase in the Consumers Price Index (Bureau of Labor Statistics Washington, D.C., all Cities) (CPI) during the preceding term. The percentage increase shall be determined by comparing the latest available CPI before the Commencement Date of the Lease or the prior term, whichever shall apply, and the latest available CPI on or before the expiration of the immediately preceding initial or renewal lease term. The word “term” as used in this Lease shall include any renewal term.

4. Minimum rent. Tenant shall pay to Landlord as rent the sum stated in section 2(e), payable in monthly installments due in advance, on the first day of each month during the term of this Lease. All rent shall be paid to Landlord at the address set forth above or at such other address as Landlord may designate in writing, without any prior demand and without any deduction or offset.

If Tenant shall fail to pay any amount due from it to Landlord under this Lease when that amount shall be due, a one-time late charge of $50.00 shall be assessed and thereafter the amount of rent not paid shall be subject to a service charge until that amount is paid at the lesser of the rate of 5% per month or the highest rate permitted by law.
5. **Security deposit.** Tenant, contemporaneously with the execution of this Lease, has deposited with Landlord the sum stated in section 2(f) as a security deposit. The deposit shall be held by Landlord, without liability for interest, as security for the faithful performance by Tenant of all the terms, covenants, and conditions of this Lease to be kept and performed by Tenant during the term of this Lease.

If Tenant fails to keep and perform any of its covenants of this Lease, Landlord at its option may appropriate and apply the entire deposit, or so much as may be necessary, to compensate Landlord for loss or damage sustained by Landlord due to Tenant's breach. If the entire deposit or any portion is appropriated and applied by Landlord for the payment of overdue rent or other sums due and payable to Landlord by Tenant, Tenant shall, on the written demand of Landlord, forthwith remit to Landlord a sufficient amount in cash to restore the security to the original sum deposited. Tenant's failure to do so within 5 days after receipt of demand shall constitute a breach of this Lease.

6. **Taxes.** Tenant shall pay or cause to be paid all real property taxes and special assessments levied against the Building including the Premises. Tenant shall pay all personal property taxes assessed against any personal property owned by Tenant on the Premises.

7. **Maintenance and repair.** Tenant shall maintain and repair and keep the Premises in good condition and repair, including the exterior windows and the electrical system. Landlord shall, at tenants expense, make all other repairs and replacements to the Building, including those of a structural or capital nature. Landlord shall, at tenants expense, enter into an annual maintenance contract with a licensed heating and mechanical firm for the maintenance of the heating and air conditioning equipment during the term. Landlord shall be obligated to make repairs only after Tenant has given Landlord written notice of the need for the repair, and only if the repair was not caused by the negligence or willful act of Tenant, its agents, employees, invitees, or licensees.

Tenant shall provide and pay for its own regular janitorial service to maintain the Premises in a neat and clean condition. Tenant shall be responsible for all repairs or replacements to the Building occasioned by the negligence or willful act of Tenant, its agents, employees, invitees, or licensees.

8. **Utilities.** Tenant shall have all utilities servicing the Premises metered in its own name and shall pay all charges and deposits for the utilities provided to or used in the Premises during the term of this Lease. Tenant shall also pay 100% of the water and sewer bill. Landlord shall not be liable in damages should the furnishing of any utilities be interrupted by fire or other casualty, accident, strike, labor dispute or disagreement, the making of any necessary repairs or improvements, or any other causes beyond the reasonable control of Landlord.

9. **Liability insurance.** Tenant shall indemnify Landlord and save Landlord harmless from any liability or claim for damages that may be asserted against Landlord by reason of any accident or casualty occurring on or about the Premises. Tenant shall, at its own cost and expense, obtain and keep in force a policy or policies of public liability insurance with an insurance company approved by Landlord, with liability coverage of an amount as recommended by Landlord’s insurance agent that, for the initial coverage, shall be not less than $1 million for injury or death to any one person, $3 million for injury or death to more than one person, and $500,000 regarding damage to property. Tenant shall furnish Landlord with certificates or other evidence acceptable to Landlord indicating that the insurance is in effect and providing that Landlord shall be notified in writing at least 30 days before cancellation of any material change in or renewal of the policy. All insurance policies shall name Landlord and any persons designated by Landlord as insured parties.

Any insurance maintained by either party pursuant to this section or under this Lease shall contain a
clause or endorsement under which the insurer waives all rights of subrogation against the other party, its
agents or employees, regarding losses payable under the policy.

Any personal property kept on the Premises by Tenant shall be at Tenant’s sole risk.

10. Use. Tenant shall use and occupy the Premises for the purpose stated in section 2(g) and for no other
purpose without the prior written consent of Landlord. Tenant shall not intentionally and knowingly use
the Premises for any purpose or in any manner in violation of any State law, local ordinance, rule or
regulation adopted or imposed by the City in which the Premises is situated. Tenant shall not deface or
injure the Premises or the Building, permit anything to be done on the Premises tending to create a
nuisance or to disturb other tenants in the Building, or permit any activity in the Premises that will result
in an increase of any premium, or cancellation of a policy, for insurance on the Premises or the Building.

11. Construction of leasehold improvements. Landlord grants Tenant express consent to construct
certain leasehold improvements as may be required for Tenant’s use. The cost of Tenant’s leasehold
improvements shall be paid for by Tenant. The improvements shall be constructed in a good and
workmanlike manner.

12. Operations. Tenant’s operations in conjunction with the Premises shall meet the requirements set
forth below.

a. Tenant shall keep all garbage and refuse in the kind of container specified by Landlord. If Landlord
shall provide or designate a service for picking up refuse and garbage, Tenant shall use the same at
Tenant’s cost. Tenant shall pay the cost of removal of any of Tenant’s refuse or rubbish.

b. Tenant shall keep the Premises at a temperature sufficiently high to prevent freezing of water in any
pipes and fixtures.

c. Tenant shall keep the outside areas immediately adjoining the Premises clean and free from dirt and
rubbish to the satisfaction of Landlord, and Tenant shall not place or permit any obstructions or
merchandise in those areas. Tenant shall water and maintain any flowers, shrubs, and trees located
immediately adjoining the Premises.

d. Tenant shall only store and/or stock in the Premises goods, wares, and merchandise that Tenant intends
to offer for sale at retail.

e. Tenant shall conduct its business in the Premises in a dignified manner and in accordance with high
standards of store operation.

13. Restrictions on Tenant’s activities. Without Landlord’s written consent, Tenant shall not engage in
the activities listed below.

a. Tenant shall not operate all or any part of its business in the Premises in any manner that is inconsistent
with its intended use of the Premises.

b. Tenant shall not conduct any auction, fire, going-out-of-business, or bankruptcy sales in the Premises.

c. Tenant shall not operate or permit to be operated on the Premises any coin or token operated vending
machines or similar devices for the sale of goods, wares, merchandise, food, beverages, or service,
including, without limitation, pay telephones, pay lockers, scale, and amusement devices without Landlord’s prior written consent.

d. Tenant and Tenant’s employees and agents shall not solicit business in the parking or other common areas of the Building, nor shall Tenant or its employees or agents distribute any handbills or other advertising matter in or on automobiles parked in the parking area or in other common areas without Landlord’s prior written consent.

e. Tenant and its employees and agents shall not park any vehicle on the Building land except in areas that are designated by Landlord for that use.

14. **Assignment and subletting.** Tenant agrees not to sell, assign, mortgage, pledge, or in any manner transfer this Lease or sublet the Premises or any portion of the Premises without the prior written consent of Landlord. Notwithstanding any assignment or subletting, Tenant shall remain fully liable on this Lease. Landlord’s right to assign this Lease is and shall remain unqualified. On any transfer of Landlord’s interest in the Premises in which the purchaser assumes all obligations under this Lease, Landlord shall be free of all obligations of Landlord under this Lease and shall not be subject to any liability resulting from any act or omission or event occurring after the conveyance. Tenant agrees to recognize the transferee as Landlord, and Tenant further agrees, at Landlord’s request, to execute and deliver such documents and estoppel letters as Landlord may request to assist in that transfer.

15. **Estoppel letter.** On not less than 10 days’ prior written notice from Landlord, Tenant shall sign and deliver to Landlord an estoppel letter that

a. certifies that this Lease is unmodified and in full force and effect (or, if modified, states the nature of the modification and certifies that this Lease, as so modified, is in full force and effect);

b. acknowledges that there are not, to Tenant’s knowledge, any unsecured defaults on the part of Landlord or specifying the default if any are claimed;

c. certifies the date to which all forms of rent have been paid; and

d. certifies the amount, if any, of the security deposit paid to Landlord.

Tenant’s failure to deliver such an estoppel letter within the 10 days shall be conclusive on Tenant that

a. this Lease is in full force and effect, without modification except as may be represented by Landlord;

b. there are no unsecured defaults in Landlord’s performance;

c. not more than one month’s rent has been paid in advance; and

d. no security deposit has been paid except as may be represented by Landlord.

16. **Acceptance of Premises.** The occupancy by Tenant of the Premises shall constitute an acknowledgment by Tenant that the Premises are then in the condition called for by this Lease.

17. **Damage or destruction.** If, during the term of this Lease, the Premises shall be partially or totally destroyed by fire or other casualty covered by insurance so as to become partially or totally untenable,
the same shall be repaired as promptly as possible with the insurance proceeds unless this Lease is
terminated. In the event of damage or destruction, if this Lease is not terminated, the rent shall be abated
proportionately to the loss of use suffered by Tenant.

If, during the term of this Lease, the Premises shall be partially or totally destroyed by fire or other
casualty, and the cost of restoring the Premises to its condition prior to the damage shall equal or exceed
40 percent of its fair replacement value immediately prior to the damage, or if the Premises are damaged
by any casualty not insured against by Landlord, Landlord shall have the right to terminate this Lease by
giving Tenant written notice of its election to do so within 15 days after the date on which the damage
occurs. On the giving of notice, the Lease shall terminate as of the date on which damage occurred and
the rent shall be adjusted to that date. In default of notice by Landlord, this Lease shall continue and
Landlord shall cause the Premises to be repaired or restored with due diligence.

18. Condemnation. If the whole or any part of the Premises shall be taken by any public authority under
the power of eminent domain, the term of this Lease shall cease on that part to be taken from the day the
possession is acquired by the public authority and the rent shall be paid up to that date. If the portion of
the Premises taken substantially impairs the usefulness of the Premises for the purpose for which the
Premises were leased, Tenant shall have the right either to terminate this Lease or to continue in the
possession of the remainder of the Premises under the terms and conditions of this Lease except that the
rentals shall be reduced in proportion to the amount of the Premises taken, and in the latter event,
Landlord shall promptly restore the remainder to a reasonably tenantable condition. All damages awarded
for the taking shall belong to and be the property of Landlord.

19. Alterations and signage. No improvements, alterations, additions, or physical changes shall be made
on the Premises by Tenant without the prior written consent of Landlord.

Tenant agrees that it will not place or maintain on any exterior door, wall, or window of the Premises any
signs, awning or canopy, or advertising matter, or other thing of any kind and will not place or maintain
any decoration, lettering, or advertising matter on the glass of any window or door of the Premises that is
not in conformity with all applicable governmental rules and regulations and the rules and regulations of
the Building as set forth by Landlord and further, without first obtaining Landlord’s prior written
approval. Tenant further agrees to maintain such sign, awning, canopy, decoration, lettering, advertising
matter, or other thing as may be approved in good condition and repair at all times. Tenant further
acknowledges that Landlord may, at its option, regulate the lettering size, style, and color of Tenant’s sign
so that all signs in the Building are of a like size, color, style of lettering, and like material. Tenant agrees
that it will conform its sign to that as regulated by Landlord for the general use in the Building, regardless
of how and in what manner Tenant normally designs its name for use in its sign and further regardless of
whether or not Tenant uses the form and style of its sign as a trademark.

All alterations and improvements, but not moveable equipment and trade fixtures, put in at the expense of
Tenant shall be the property of Landlord and shall remain on and be surrendered with the Premises at the
termination of the Lease; provided, however, that Landlord may require that Tenant remove the
alterations and improvements and repair any damages to the Premises caused by the removal.

20. Remedies and default. If Tenant shall default in the payment of any sums to Landlord when due and
shall not cure such default within 7 days; or if Tenant shall default in the performance of any other
covenant or condition of the Lease and shall not cure such other default within 30 days after written
notice from Landlord specifying the default; or if Tenant or its agent shall falsely any report to be
furnished to Landlord pursuant to the terms of this Lease; or in case Tenant shall be adjudicated a
bankrupt or make any assignment for the benefit of creditors; then, in any such event, Landlord may
either (a) accelerate the full balance of the rental payable for the remainder of the term and sue for such sums or Landlord may terminate this Lease or (b) reenter the Premises, without terminating this Lease, and dispossess Tenant or any other occupant of the Premises and remove Tenant's effects and relet the same for the account of Tenant for such rent and on such terms as shall be satisfactory to Landlord, crediting the proceeds, first to the costs and expense of reentry, alterations and additions, and the expense of reletting, and then to the unpaid rent and the other amounts due during the remainder of the term. Tenant shall remain liable to Landlord for any unpaid balance.

In case suit shall be brought for recovery of possession of the Premises, for the recovery of any rent or any other amount due under the provisions of this Lease, or because of the breach of any other covenant on the part of Tenant to be kept or performed, and a breach shall be established, Tenant shall pay to Landlord all expenses incurred, including reasonable attorney fees, which shall be deemed to have been incurred on the commencement of the default and shall be enforceable whether or not the action is prosecuted to judgment.

21. Access to Premises. Landlord shall have the right to enter on the Premises at all reasonable hours to inspect and for access to the Premises to install, maintain, use, repair, and replace pipes, ducts, lights, conduits, plants, wires, floor coverings, and all other mechanical equipment serving the Premises.

22. Rules and regulations. Landlord reserves the right to adopt from time to time rules and regulations for the operation of the Building that are not inconsistent with the provisions of this Lease. Tenant and its agents, employees, invitees, and licensees shall comply with all those rules and regulations. Any such rules shall not dictate the days or time of business operation.

23. Waiver. The failure of Landlord to insist on a strict performance of any of the terms, covenants, or conditions of this Lease or rules and regulations of the Building shall not be deemed a waiver of any subsequent breach or default in the terms, covenants, and conditions or rules and regulations. This Lease may not be changed, modified, or discharged orally.

24. Notices. All notices required under this Lease shall be in writing and shall be deemed to have been given if either delivered personally or mailed by certified or registered mail to Landlord or to Tenant at their respective addresses set forth above or to such other address as either party may furnish in writing during the term of this Lease.

25. Quiet enjoyment. Landlord covenants and agrees with Tenant, its successors, and assigns that on Tenant's paying the rent and observing and performing all the terms, covenants, and conditions on Tenant's part to be performed and observed, Tenant may peaceably and quietly hold, have, occupy, possess, and enjoy the Premises for the full term of this Lease.

26. Subordination to mortgage. Any mortgage now or hereafter placed on the Premises shall be deemed to be prior in time and senior to the rights of Tenant under this Lease. Tenant subordinates all of its interest in the leasehold estate created by this Lease to the lien of any mortgage. Tenant shall, at Landlord's request, execute any additional documents necessary to indicate this subordination including, if requested, an estoppel letter as set forth in section 15. If Tenant fails to supply the estoppel letter, the provisions in section 15 to cover that failure shall apply. Notwithstanding the foregoing, Tenant's possession of the Premises under this Lease shall not be disturbed by any mortgagee, owner, or holder of note secured by a mortgage placed on the Premises, unless Tenant shall breach any of the provisions of this Lease and the lease term of Tenant's right to possession shall have been lawfully terminated in accordance with the provisions of this Lease.
27. Building revisions by Landlord. Landlord reserves the absolute right at any time and from time to time to make changes or revisions in the Building, including such changes to the parking lot, driveways, signs, and sidewalks, by making additions to, subtractions from, or rearrangements of the improvements in the Building, as long as the revisions do not materially affect Tenant’s use of the Premises.

28. Holding over. If Tenant remains in possession of the Premises after the expiration or termination of the Lease, it shall be deemed to be occupying the Premises as a tenant from month to month, subject to all the conditions, provisions, and obligations of this Lease insofar as the same can be applicable to month-to-month tenancy, except that the rent shall increase to 2 times the rent owing at the end of the lease term. The month-to-month tenancy shall be cancelable by either party on 30 days’ written notice to the other.

29. Recording. Tenant shall not record this Lease without the written consent of Landlord; however, on the request of either party the other party shall join in the execution of a memorandum or so-called “short form” of this Lease for the purpose of recordation. The memorandum or short form of this Lease shall describe the parties, the Premises, and the term of this Lease and shall incorporate this Lease by reference.

30. Captions and headings. The captions and headings used in this Lease are intended only for convenience and are not to be used in construing this Lease.

31. Applicable law. This Lease shall be construed under the laws of the state of Michigan. Venue for any disputes under this agreement shall lie in Oakland, Michigan. If any provision of this Lease or the application to any person or circumstances shall, to any extent, be invalid or unenforceable, the remainder of this Lease shall not be affected and each provision of this Lease shall be valid and enforceable to the fullest extent permitted by law.

32. Successors. This Lease and the covenants and conditions shall inure to the benefit of and be binding on Landlord, its successors, and assigns and shall be binding on Tenant and permitted assigns of Tenant.

33. Effective date. The parties have caused this agreement to be signed and shall be effective as of the day and year first above written.

*(signature page to follow)*
IN WITNESS WHEREOF, the parties have respectively signed and sealed this Lease as of the day and year first above written.

F. Operations Plan
Tycoon I Operations, LLC

Business & Operations Plan

PREAMBLE:
Tycoon I Operations, LLC ("Applicant") will strictly comply at all times with applicable state law and local ordinance codes, including rules and emergency rules that may, from time to time, be promulgated by the state or Orion Township. All business activities will take place indoors in a locked facility. Applicant has retained a law firm with established expertise in Michigan marihuana law to ensure continuing education and compliance with the laws as they evolve. The statements made in this application are made with a clear and thorough understanding of state and local requirements as they exist on the date of application, but the operations of Applicant will be amended to comply with all future derivations of the state and municipal laws.

I. OVERVIEW
Applicant is a Michigan limited liability company formed to operate twenty four (24) commercial marihuana GROWER (Class C) facilities whose primary mission is to provide a source of high-quality marihuana to processors and provisioning centers across the state of Michigan.

II. ADMINISTRATION
   A. Location & Zoning
      i. Buffers

         a. The distances described are measured horizontally between the nearest property lines.

         b. The facility is not within 1,000 feet of any educational institution or school, college or university, church, house of worship or other religious facility, licensed child care, preschool, public library, or public or private park.

      ii. Applicant is leasing the property pursuant to the attached lease and the owner/lessor of the property authorizes the use of the property as a marihuana facility in the lease agreement, which is attached.

   B. Organizational Structure
      i. The Applicant is organized as a Michigan limited liability company and is in good standing.

      ii. The members, owners, directors, officers, and managers of the Applicant are listed in the Organization Structure.
iii. The members, owners, directors, officers, and managers of Applicant meet all eligibility requirements to own and operate a marihuana grower facility as set forth in state law and local ordinance.

   a. No member, owner, director, officer, manager or any person having an ownership interest in the application has an interest in a secure transport facility license or a safety compliance facility license.

   b. The Applicant meets all eligibility requirements to own and operate a marihuana grower facility as set forth in state law and local ordinance.

iv. The Applicant has never applied for been granted any commercial license or certificate issued by a licensing authority in Michigan or any other jurisdiction that has been denied, restricted, suspended, revoked or not renewed.

C. Permits & Licenses
i. This Business and Operations Plan is submitted as an addendum to the applications for Ten Orion Township permits to operate a business and the Orion Township special use/site plan application.

ii. All operations in this Business and Operations Plan will comply with regulations issued by the Department of Licensing and Regulatory Affairs (LARA).

iii. Applicant intends to apply for, obtain, operate, and comply with a state license to operate a grower facility under the MMFLA and MRTMA.

iv. The business will not open for operation until it receives a state license to operate under the MMFLA and MRTMA and all applicable permits and licenses from Orion Township.

v. Upon granting of a permit to operate a grower facility, Applicant will prominently display the original Orion Township permit at the Permitted Premises in a location where it can be easily viewed by the public, law enforcement, and administrative authorities.

vi. At all times the facility will hold a valid local Permit and State Commercial Marihuana Facility License for a Grower.

vii. In addition to complying with the Orion Township Ordinance Authorizing and Permitting Commercial Marihuana Facilities, Applicant will comply with all Township Ordinances, including without limitation, the Township Zoning Ordinance, as well as the requirements of the County Road Commission, County
Building Inspector, County Drain Commissioner, District Health Department, Soil Erosion Officer, County Conservation Service, areas fire departments, Michigan Department of Natural Resources, Michigan Department of Environmental Quality, and any other applicable township, county, state and federal statutes.

viii. Applicant will have available, at all times, documentation that local and State sales tax requirements, including any requirement for a license, are satisfied.

ix. Applicant will provide updated operational and security plans to Orion Township upon request and prior to any proposed changes in its operations.

**D. Inspections**

i. Applicant will provide access to the facility for inspection to any federal, state, or local law enforcement officer to ensure compliance with the permit.

ii. Applicant consents to inspections as required in the MMFLA and pursuant to the Orion Township ordinance.

**III. OPERATIONS**

Applicant proposes 24 state-licenses in a single marihuana grower facility for the cultivation, drying, trimming, curing, and packaging of marihuana for sale to a processor or provisioning center pursuant to the requirements and restrictions of the Marihuana Facilities Licensing Act, PA 281 of 2016, and all future derivations thereof. This facility will be located in a secure industrial facility.

**A. Compliance with State Regulations**

Applicant will meet all operating regulations established by LARA and the Marihuana Licensing Board for Growers, including without limitation, any standards, procedures, and requirements for:

i. quality control
ii. chain of custody
iii. marihuana storage
iv. waste disposal
v. labeling and packaging
vi. storage of chemicals

**B. Description of the Facility**

Applicant’s facility will be used exclusively for the cultivation, drying, trimming, curing, and packaging of legal usable marihuana for sale to processors or provisioning centers.

**C. Entry to Facility**

Generally, the public will not be allowed entry to the facility. Notwithstanding the forgoing, Applicant will not allow entry to the facility to anyone under the age of 18.
D. Employees
Applicant anticipates having between fifteen (55) and (65) full and part-time employees, as many as possible of whom will be local community residents. None of Applicant's employees will be registered primary caregivers during the employment with Applicant. Please reference the staffing plan for a detailed list of potential positions.

E. General Policies
   i. Applicant will only sell or transfer marihuana to a processor or provisioning center.
   
   ii. Applicant will only use secure transporters in the distribution or exchange of marihuana or currency with processors or provisioning centers.
   
   iii. Applicant will not promote the unlawful use of marihuana or any other drug or provide or otherwise make marihuana available to any person who is not legally authorized to receive Marihuana under state law.
   
   iv. No owner, the Applicant, or any employee of Applicant will grow marihuana in the Permitted Premises for his or her own use.
   
   v. The following activities are prohibited on the Permitted Premises:
      a. the sale, consumption, or use of alcohol, or controlled substances;
      b. smoking or consumption of marihuana.

F. Cultivation Plan
   i. Propagation
      a. Lighting
      b. Watering
      c. Nutrient Application
      d. Integrated Pesticide Management
   
   ii. Harvesting and Trimming
   iii. Drying and Curing
   iv. Packaging
   v. Distribution
      a. All marihuana products will be validated from a verified transport manifest, created from the statewide monitoring system. The manifest includes a detailed form with the number of packages and detailed content for confirmation/validation with secure transporters and purchasers of the shipment (processors or provisioning centers).
      b. Each transport shipment will be processed in the following manner:
         1. Entry of shipped inventory into the statewide monitoring system.
         2. Confirmation with Secure Transporter of valid and verified transport manifest, including product count, weight of each package or item.
c. State certified scales will be used to verify and weigh all marihuana, in whatever form.

G. Inventory Management
   i. Applicant will not control or have on the Permitted Property an amount of marihuana plants or usable marihuana that exceeds any amount permitted by the state License or the Township permit.

   ii. Tracking and Monitoring
      Applicant will use a third-party inventory control and tracking system to interface with the statewide monitoring system. The third-party inventory control and tracking system will have the capabilities necessary to comply with the requirements applicable to a grower licensee:

      a. Track all marihuana plants and packages;
      b. Track lot and batch information throughout the entire chain of custody;
      c. Track transportation of product;
      d. Track marihuana waste;
      e. Track all marihuana product transfers;
      f. Track sales and returns;
      g. Track marihuana plant, batch, and product destruction;
      h. Perform batch recall tracking;
      i. Report and track loss, theft, or diversion of marihuana products;
      j. Receive testing results electronically from a safety compliance facility;
      k. Provide access to state agencies and law enforcement as required;
      l. Report all inventory discrepancies.

   iii. Applicant will enter all transactions, current inventory, and other information into the statewide monitoring system as required by the MMFLA, the Marihuana Tracking Act, and any associated regulations.

   iv. Inventory reconciliation - At the end of each day, physical inventory counts will be reconciled with the third-party inventory control and tracking system.

   v. Returns

H. Quality Control
   i. Sampling (by Licensed Safety Compliance Facility)

   ii. Batch Testing (by Licensed Safety Compliance Facility)

   iii. Transport to Safety Compliance Facility (by Secured Transporter)

I. Signage and Advertising
i. Applicant has no proposed signage at this time, but will amend this plan accordingly and provide the township with its sign permit application if and when it does wish to propose signage.

ii. Applicant will not display pictures, photographs, drawings or other depictions of Marihuana or Marihuana Paraphernalia on the outside of the Permitted Premises, nor will such pictures, photographs, drawings, or other depictions of Marihuana or Marihuana Paraphernalia be visible outside of the Permitted Premises on the Permitted Property.

iii. The words "Marihuana," or "cannabis," and any other words, used or intended to convey the presence or availability of Marihuana will not appear on the outside of the Permitted Premises, nor will "Marihuana," or "cannabis," and any other words, used or intended to convey the presence or availability of Marihuana be visible outside of the Permitted Premises on the Permitted Property.

J. Visibility of activities

i. All activities of the facility, including without limitation, the cultivation, harvesting, trimming, drying, curing and packaging of Marihuana, and all other related activity permitted under Applicant's License or Permit will occur indoors.

ii. No marihuana or paraphernalia shall be displayed or kept in the facility so as to be visible from outside the Permitted Premises.

K. Security

i. Plan

Applicant will maintain, at all times, a centrally-monitored security and alarm system on the premises that meets or exceeds state regulatory requirement.

Applicant will maintain policies and procedures to include:

a. Regular drills of the security protocols and emergency plans;
b. Controlled and restricted access to the Permitted Property and Permitted Premises to employees, agents, and owners of Applicant, and law enforcement or state or local authorities as necessary to ensure Applicant’s compliance with state and local laws.
c. Internal and external cameras with 24-hour monitoring and off-site recording;
d. Installed panic buttons
e. Limitations on the amount of currency and marihuana stored onsite;
f. Cooperation and coordination with local law enforcement;
g. Permitted premises will only be able to be accessed through a combination of security locks and access codes; and
h. The ability to remain operational during a power outage with battery back-up.

ii. Security Surveillance Cameras
Security surveillance cameras will be installed to monitor all entrances, along with the interior and exterior of the premises, which will capture all areas of the property unless otherwise prohibited by law, including unobstructed video surveillance of all enclosed areas, unless prohibited by law, including all points of entry and exit that shall be appropriate for the normal lighting conditions of the area under surveillance.

iii. Security Recordings and Documentation
   a. All security recordings and documentation will be preserved for at least 30 days and made available upon request by any law enforcement.

iv. Robbery and Burglary Alarm System
Applicant will employ an alarm system that meets state requirements and obtains state approval. Specifically,

   a. Applicant will employ a centrally alarmed and monitored security system that will be monitored 24 hours a day, 7 days a week for the Permitted Premises pursuant to the attached service agreement.
   b. There will be a perimeter alarm on all entry points and perimeter windows of the Permitted Premises
   c. A failure notification system will provide an audible, text, or visual notification of any failure in the surveillance system. A panic button and alarm will directly notify the local law enforcement agency having primary jurisdiction.

v. Storage of Marihuana and Currency
   a. Applicant will store usable marihuana that is not otherwise in the process of being dried, trimmed, cured, packaged, or distributed including packaged and un-packaged usable marihuana, and currency in a secured locked safe that is permanently affixed to the premises.

L. Ventilation Plan/Air Filtration System
   i. Applicant’s facility operation and design will provide sufficient measures and means to minimize any impact to adjacent uses, including the control of odor by maintaining and operating an air filtration system so that no odor is detectable outside the Permitted Premises.

   ii. Applicant’s equipment and methods to control odor include a comprehensive air filtration system, consisting of
       a. Activated Carbon Filters.
       b. Heavy Duty Ventilation Fans.

   iv. Details and specifications of the equipment used for Applicant’s ventilation and air filtration plan are attached.
v. The total enclosed space in which harvested marihuana will be stored amounts to approximately 300 sq. feet. Applicant will use an advanced filtration system rated appropriately for the area.

vi. The air filtration system will be maintained in working order at all times and will be in use at all times. Filters will be changed a minimum of once every 365 days.

vii. In addition to the use of an air filtration system, Applicant will mitigate odors by keeping doors and windows closed at all times, except the minimum amount of time needed to allow ingress and egress to the building.

M. Toxic/Flammable/Hazardous Materials
i. Applicant’s use of toxic, flammable, or other harmful, hazardous, or combustible materials will be limited to plant nutrients and pesticides and cleaning products. The facility may use the following nutrients and pesticides:

- a. CocoTech Bloom A
- b. CocoTech Grow A
- c. CocoTech Premier Nutrient
- d. FloraBloom Nutrient System
- e. FloraGrow Nutrient System
- f. Golden Tree Plant Food.
- g. Nutra Green 5-10-5 plus Micronutrients Foliar Spray
- h. Diatomaceous Earth
- i. Neem Oil
- j. PyGanic Pro Pyrethrin 5% MGK Miticide

ii. The facility may use the following commercial cleaning products, along with the following household products: materials regulated by government agencies:

- a. Ultra Dawn Lemon Dish Soap
- b. Nature’s Source Toilet Bowl Cleaner
- c. Fantastik Antibacterial Heavy Duty All Purpose Cleaner
- d. Windex Original Glass Cleaner
- e. Novo Foaming Instant Hand Sanitizer
- f. QuickSan Food Contact and Surface Sanitizer

iii. The materials will be stored in secured and ventilated cabinets. All combustible or reactive materials will be stored separately.

iv. Materials will be handled, stored, and disposed according to specifications in each Material Safety Data Sheet.
N. Waste Product Disposal
Applicant will dispose of unusable or waste marihuana in accordance with the MMFLA, MRTMA, and applicable local ordinance guidelines to prevent the waste marihuana from being possessed or ingested by any person and animal.

i. Applicant’s current, preliminary waste disposal plan consists of shredding and grinding damaged and unusable plants, roots, seeds, stalks and harvested marihuana and mixing it with one of several lawful over-the-counter products, such as sawdust or cat litter to render it unusable, unrecognizable, and unpalatable, and then discarding in secured bags as part of its solid waste disposal.

ii. The State of Michigan’s Marihuana Licensing Board may require or suggest as a part of its regulations, expected sometime in November, one or more alternative waste disposal options including, but not limited to, waste disposal through the secured transporter system, waste mitigation through THC extraction methods (rendering the marihuana waste product inert) or some other method. Applicant warrants that it will comply with all state and local requirements as to waste disposal, but further commits to its current preliminary plan to render all marihuana waste unrecognizable, unusable and inaccessible regardless of state or local requirements.

IV. COMMUNITY RESPONSIBILITY AND CONCLUSION
Although marihuana has been used as a medicine across the globe for hundreds of years, its commercial production and sale is new to us, this state, and your community. We appreciate the opportunity to show Orion Township that Marihuana can be safe and accessible to a community while providing jobs and local economic growth. We look forward to being productive and responsible community partners, and will work with the Township toward that goal.

H. Litter & Waste Removal Plan
Litter & Waste Removal Plan

All biological waste product will be rendered unrecognizable by grinding it in an industrial grinder and combining it with other non-consumable solid waste, including the media in which we cultivate plants, Rockwool. The inclusion of inert material renders the combined solid waste unusable. All waste will be stored in a locked dumpster that is emptied at minimum once per week.

The company intends to employ particulate filtration in areas where waste is stored and processed, which minimizes potential exposure and impact to the outside environment. The facility, which is designed around large water chillers, is designed to circulate air rather than ventilating it. This process helps to avoid excess exposure of odors to the surrounding community.
I. Noise, Dust, Vibrations, Glare & Fumes Plan
Noise, Dust, Vibrations, Glare, Fumes or Odors Plan

Excessive Noise, Dust, Vibrations, Glare and Marijuana odors emanating from our facilities are a valid concern for the community and our neighbors. This plan details the measures deployed to ensure that minimal noise, dust, vibration, glare, fume or offensive odor is emitted from the facility, the response if it occurs, and that the measures remain effective over time.

This plan is our commitment to the Orion Township that we will be in compliance with regulations of the city and the administrative rules and that we will not operate in a manner creating noise, dust, vibration, glare, fumes, or odors detectable to normal senses beyond the boundaries of the property.

We will not vent noxious dust, odors, gases or fumes to surrounding areas.

We will mitigate dust and noxious odors by engaging in the following activities:

1. Adequate design measures to seal the building;
2. Utilizing a heating, ventilation, and cooling (HVAC) System designed to move an appropriate amount of air (cfm) throughout the facility to disperse odors;
3. Using industry leading MERV-13 HEPA filters in addition to FILTR, Blue Zone & Puradigm units in each room throughout the facility.

I. DESIGN MEASURES TO SEAL THE BUILDING

We intend to renovate our building in a manner that focuses on effectively sealing all interior rooms and exterior access points. Each room is enclosed in 12", interlocking insulated panels which are designed to form an airtight seal. For additional protection, butyl caulk is applied at each joint to accommodate any flaws in the panels.

Caulk is also applied to seal any openings into the panels, including plug outlets, doorways, sprinklers, and anything else that could allow air flow. Our doors are fiberglass, weather stripped and employ a drop seal to press additional weather stripping against the floor when closed to maximize the seal all the way around.

II. MERV-13 HEPA FILTRATION SYSTEM

The purification of air throughout our facility is a top priority for both the health of the plants and the environment we subject our employees and the local community to. In an effort to target and reduce contamination, mold, bacteria, odor, dust, and fumes, we employ a variety of filtration systems in all rooms where marihuana plants are grown.

Each room will utilize clean room grade HEPA filtration units filtering down to 0.01μm and providing up to 5 complete air changes per hour. These units also utilize a carbon filter which focuses directly on the removal of smells and volatile organic compounds.

In addition to the HEPA filters, each room will have Puradigm units to help reduce airborne and surface contaminates, and Agrify Bluezone UV filtration units, known to destroy 99.9%+ of both bacteria and mold. Both of these systems aid in odor elimination and containment.
As filters age, they become clogged with impurities, and ultimately less effective. As such, we will develop a maintenance schedule to inspect the filtration units regularly and to replace them per the manufacturer’s recommendation or at an expedited pace based on their usage in these environments.

III. VIBRATION MITIGATION
Exterior mounted cooling equipment is mounted on isolation pads to dramatically reduce vibrations that would otherwise be created by such large equipment.

IV. EVALUATING THE EFFECTIVENESS OF NOISE, DUST, VIBRATIONS, ODOR & FUME CONTROL MEASURES

Key site leadership roles will be trained to assess the production and escape of odors, dust, fumes and glare from the facility. We also anticipate a strong and friendly relationship with the local communities and will welcome feedback about any exhaust from the building. Should these assessments or the community ever determine that our levels are beyond acceptable, we will re-evaluate this plan and engage professionals to further refine our practices and properly mitigate the problem.
J. Spent Water & Soil Safety Plan
Spent Water & Soil Safety Plan

Wastewater Treatment Plan:
Wastewater generated during the cultivation of marihuana of marihuana products shall be disposed of in compliance with all applicable state and local laws and regulations. Despite the amount of water used in the cultivation process, there is very little water waste. The majority of water is used by the plants or evaporated out of the collection dishes upon which the plants sit. Any water that is used to rinse the plants or clean the facility or for any other purpose shall be rendered clean through both reverse osmosis and UV light after standard filtration methods, and either reused by the facility or discharged through a monitoring man hole where it can be monitored to comply with all local ordinances.

The Cultivation Facility will include an Ecocater RO purification system. Ecocater Purification Systems are the leading water filtration manufacturer in the industry, helping cultivators diagnose and solve every water problem imaginable. Ecocater designs systems to treat any water source including city water, well water, nutrient runoff water, wastewater, and condensate runoff.

Soil Safety Plan
The cultivation facility will not use soil — instead, all media for the purposes of growing plants will be rockwool, a lightweight hydroponic substrate made from spinning molten basaltic rock into fine fibers which are then formed in a range of cubes. This product will be disposed of through the grinder and mixed with biological waste in a locked dumpster.
K. Security Plan
SECURITY PLAN

Tycoon I Operations is committed to being a leader in Michigan’s cannabis industry and a trusted resource for the communities, consumers and clients we service. Essential to fulfilling this commitment is our ability to effectively protect our product from criminal repurposing throughout the facilities.

This Security, Surveillance and Diversion Prevention Plan details the physical and electronic security measures we employ to deter, detect, and inhibit the theft, diversion, and loss of Marijuana, and to prevent unauthorized conduct with respect to the storage and dispensing of Marijuana.

We have extensively researched and designed our Grow Facility to maximize security. The facility shall be built with enhanced security and stringent safety features to eliminate any potential for diversion. Our facility will be equipped with numerous motion sensors and exterior intrusion sensors that will be linked to local law enforcement. To prevent unauthorized entry and stop diversion, theft, or loss of marijuana, every square inch of the facility shall be continually monitored by high definition security cameras and commercial-grade equipment. Security systems will be positioned so they closely monitor activities at strategic risk points and watch for any strange behavior or movement. Marijuana shall not be visible to any person from the exterior of the Grow Facility.

We will create a culture of responsibility, accountability, and strict security surrounding all aspects of the facility. The stringent operating procedures outlined below demonstrate a commitment to employee and public safety above all other operating values. From receipt to sale, we are committed to preventing diversion by implementing a comprehensive security strategy. Employees will be extensively trained to understand that security is a primary obligation for everyone at our facility.

We will have comprehensive security policies and procedures for the Grow Facility, which address measures to deter and prevent unauthorized entrance into areas containing marijuana and theft of marijuana at the facility. Employees will receive on-going training regarding our security protocol and the Site Manager shall ensure all employees follow policies and procedures regarding the security of the facility. The Site Manager shall implement and maintain employee training policies and procedures for security training. All employees shall aid in the security of the Grow Facility through prevention, awareness, reporting, and responsible incident management. All employees shall be required to immediately report security breaches and incidents of non-compliance to their supervisor, and in case of sudden emergency, immediately to law enforcement by either striking a panic button or calling law enforcement directly.

We will make our facility available and open to inspection, at all times, for law enforcement, representatives of the Department and law enforcement, when necessary to perform their duties.

PHYSICAL SECURITY

The facility shall be designed to maximize security and stop the potential for diversion. Access to the secure facility shall include safety and security mechanisms that prevent unauthorized entry. All doors will be burglary-resistant material, with commercial-grade, non-residential locks. Additionally, exterior doors, as well as limited access area entries, will be automatic locking and equipped with electric strike and keypad access hardware. All doors are setup to fail secure, which means in the event of a power failure, the doors will remain locked and only be accessible via a master key.
The Grow Facility’s main entrance vestibule shall include a mantrap to control passage from the public access area to the limited access area. We will strive to install Underwriter’s Lab (UL) approved locks and lock cylinders, which are rated as burglary resistant. We will also install local alarms on all fire exits and other perimeter doors not authorized for employee or visitor use. Our alarm system will be monitored after business hours with live monitoring through a licensed security monitoring company. If there are ever any after-hours issues, the live monitoring system will be linked directly to law enforcement and the Site Director, among other key personnel.

We shall ensure that trees, bushes, and other foliage outside of the premises do not allow people to conceal themselves from sight. The surveillance system’s cameras shall be capable of certain identification of persons (including facial features), license plates, vehicles, the immediate surrounding areas, and any activities occurring within any area of the premises, and the parking area, and within twenty feet (20') of all entry and exit points of the premises. Cameras will cover every square inch of the facility.

To provide first responders with immediate access into our facility during a time of emergency or inspection, we will install a Knox Rapid Access System to remove any barriers to entry when first responders respond to an emergency call.

**LIGHTING**

Exterior lights at all points of entry and exit shall remain constantly illuminated to allow for recording. Lighting on the outside perimeter shall allow cameras the ability to record any suspicious activity. Timed-delay switches shall be used to turn off non-essential interior lights, which shall not remain lit after employees have left the facility. Motion detecting lights shall be installed in areas that are entered and exited infrequently. The exterior of the facility shall be lit by commercial LED light fixtures sufficient to facilitate twenty-four-hour surveillance. Exterior lights in the parking area will remain on from dusk until dawn.

**SECURITY EQUIPMENT**

Our security equipment shall be designed, installed, and maintained to deter and prevent unauthorized entrance and theft of marijuana products at the facility. Security equipment shall be installed by a commercial, licensed service provider. All equipment shall be compliant with Department rules and all state and local laws, regulations, ordinances, and other requirements.

**ENTRY AND EXIT ELECTRONIC EQUIPMENT AND PLACEMENT**

Our entry and exit electronic access equipment will consist of the following:

- Electric strike locks on all doors in the Grow Facility with the ability to override access control for emergency exit even during a power outage.
- RFID proximity card access control devices for all interior doors and all exterior entrances and exits into the Grow Facility.
- Access control system that allows for programming or uploading individual user permissions and allowed entry times, as well as operations-specific information including employee photos.
- A backup power supply system that immediately provides power for at least twenty-four (24) hours in the event of a power outage.
- Main system operating equipment will be kept in the security room, a limited access area.
• Access control system that monitors and records:
  o Identification of employees or visitors entering and exiting.
  o Date and time of entry and exit.
  o Length of time in specific area.
  o Any unauthorized attempts for access.

ALARM SYSTEM

We shall have a professionally monitored security alarm system installed at our facility. Monitoring of the alarm system shall be twenty-four (24) hours a day, seven (7) days a week. We shall notify the Department of any intent to change our security alarm service provider. Upon request, we will make available to the Department all information related to the alarm system, monitoring, and alarm activity. The alarm system shall consist of the following:

• Appropriate equipment necessary to monitor activity inside and outside the Grow Facility, including:
  o All entrances and exits.
  o Roof hatches.
  o Rooms with exterior windows.
  o Rooms with exterior walls.
  o Rooms containing marijuana.
  o Rooms containing safes or vaults.

• A backup power supply system that immediately provides power in the event of a power outage.

• Main system operating equipment is kept in the Main Office Surveillance/IT Room, a limited access area.

• All telephone junction boxes or rooms where alarm telephone circuits terminate are locked, tamper-protected, and all labels or tags identifying these alarm circuits have been removed.

ALARM SYSTEM COMMUNICATION

The alarm system shall include an electronic or mechanical system that, upon activation, is programmed to send a prerecorded voice message, via telephone, radio frequency, or other communication system, to appropriate law enforcement authorities or other emergency services. In addition, the alarm system shall be equipped with a failure notification system that notifies the alarm monitoring service provider of the system failure via audio, text, visual, or audiovisual message, within a maximum of five (5) minutes of such failure.

ALARM SYSTEM TESTING

We shall bi-annually conduct an onsite inspection and test of the entire alarm system to determine needed repairs and adjustments.

ALARM SYSTEM RECORDS

We shall keep and maintain alarm system records and will make available to the Department all
information related to the alarm system, monitoring, and alarm activity. These records shall include the following:

- The name of the alarm installation and monitoring service provider.
- Copies of service contracts.
- A map of the Grow Facility showing the location and operation of each alarm system component including alarm telephone circuits.
- A list of authorized users.
- Manufacturers’ instructions for operating and maintaining the equipment.
- Testing and maintenance logs.
- Reports of any incidents triggering an alarm.
- Reports of any interruption in monitoring and/or complete failure of the system, including the length of the interruption period.

SURVEILLANCE SYSTEM

We shall have a fully operational electronic surveillance system installed at our facility. We shall notify the Department of the intent to make any changes to the surveillance system. Upon request, we will make available to the Department all information related to the electronic surveillance system installed at our facility. The surveillance system shall consist of the following:

- Appropriate equipment necessary to video record activity inside and outside the Grow Facility, including:
  - All entrances and exits into and out of the Grow Facility.
  - Roof hatches or skylights.
  - Rooms with exterior windows.
  - Rooms with exterior walls.
  - Rooms containing safes or vaults.
  - All entrances and exits of security rooms and limited access areas.
- Appropriate equipment to record keycard entry and exit activity of all our employees and visitors.
- A backup power supply system that immediately provides power in the event of a power outage.
- A dedicated safe or vault to store all entry/exit records and video recordings in the Office Surveillance/IT Room, in a limited access area.
- Main system operating equipment is kept in the main office Surveillance/IT Room.

VIDEO SURVEILLANCE EQUIPMENT

Our video surveillance equipment will consist of the following:

- Network video recorders with a record rate of a minimum of thirty (30) frames per second.
- Cameras with a minimum resolution of 1920 x 1080 pixels.
• Cameras with infrared capabilities to capture images in low or no lighting conditions.
• Cameras with capabilities to identify activity occurring within twenty feet (20') from all points of entry and exits into and out of the exterior of the Grow Facility.
• Video monitors.
• Digital archiving device.
• Capabilities to produce a color still photograph from any camera image, live, or recorded.
• Capabilities to accurately display the time and date on recorded images or video
• Color printer that can immediately produce a clear, color still photo, either live or recorded, with a resolution of 9600 dpi and the image quality is relative to the camera being used to capture the image.

CAMERA COVERAGE PLACEMENT

We will install at least One Hundred (100) security cameras. The security cameras will be permanently mounted and in a fixed location. Each camera at the Grow Facility shall be placed in a location that allows the camera to clearly record activity occurring within twenty feet (20') of all points of entry and exit on the Grow Facility. The cameras will cover every square inch of the facility. The cameras shall allow for the clear and certain identification of any person, including facial features, and activities, including sales or transfers, in all areas of the Grow Facility. The security cameras shall monitor and record all areas of the Grow Facility including:

• All areas where marijuana or products are present, including activities related to:
  o Weighing, packaging, and labeling.
  o Storing, preparing for sale, loading/unloading, or moved within the Grow Facility.
  o Waste Disposal
• Limited-access areas and security rooms, including transfers between rooms and areas.
• Areas storing a surveillance system storage device with at least one (1) camera recording the access points to the secured surveillance recording area.
• All entrances and exits into and out of the exterior of the Grow Facility, recording both indoor and outdoor vantage points.
• Outdoor trash receptacles.
• Roof hatches or skylights.
• Rooms with exterior windows.
• Rooms containing safes or vaults.
• All areas where cash is counted, transferred, or stored.
• All areas where records are stored.

Cameras shall not be installed in bathrooms or any other area where a legitimate expectation of privacy exists. Camera placement shall ensure:

• Visibility of activities is not obstructed by lighting equipment covers, fixtures, or other equipment.
• A clear and certain identification of all individuals and activity at the Grow Facility.
- Identification of activity occurring within twenty feet (20') from all points of entry and exit into and out of the exterior of the Grow Facility.

SURVEILLANCE FAILURE NOTIFICATION

The surveillance system shall include a failure notification system that alerts the Site Director and other key site personnel of any interruption in surveillance and/or the complete failure of the monitoring system. The notification shall be within a maximum of five (5) minutes of such failure via audio, text, visual, or audiovisual message. Additionally, an alarm shall signal the Security Officer on duty whenever an unauthorized entry is attempted.

SURVEILLANCE TESTING

We shall ensure that the surveillance system is properly maintained for playback quality so that images can be seen and the identity of all individuals and activity in surveillance areas are captured. We will schedule and oversee all required maintenance of security equipment in accordance with manufacturer recommendations. Any equipment failure identified shall be corrected as soon as possible. All security equipment shall be in good working order and shall be inspected and tested at regular intervals.

INFORMATION TECHNOLOGY SECURITY

We shall ensure the security of our hardware, software, data, and communications networks, including the following information technology (IT) maintenance:

- Software registration.
- Security patches.
- Malicious software prevention.
- Account management.
- Security status and network access monitoring.
- Disposal and redeployment.
- Employee IT security training.
- Vulnerability assessments.

Access to protected information shall be restricted to essential employees only. Access may be granted to authorized representatives of the Department and other government officials if necessary to perform their official duties. Examples of protected information include:

- Security and cash management procedures.
- Asset and inventory lists.
• Network data.
• Floor plans of critical areas.
• Password and code records.
• Customer records.
• Employee records.

PRODUCT SAFETY AND SECURITY

We shall develop and implement procedures that ensure product safety and security and are compliant with the rules set forth by the Department and all applicable state and local laws, regulations, ordinances, and other requirements. Procedures shall include measures that:
• Minimize the risk of diversion or theft of marijuana.
• Minimize the risk of contamination from incoming materials.
• Ensure proper storage conditions that maintain the quality and purity of our marijuana products.

MATERIAL RECEIVING

All deliveries shall be verified at the front entrance to the facility before allowed access to the loading areas. All materials received will be documented. No material may be received unless its shipping documentation matches the corresponding purchase order or separate approval is given by the Site Manager. Employees shall notify the Site Manager of any shipment discrepancy immediately and shipment may not be accepted without the Site Manager’s approval.

PRODUCT STORAGE SECURITY

Storage areas shall be designed to provide adequate lighting, ventilation, temperature, humidity, space, and equipment. All storage areas shall be maintained in a clean and orderly condition, free from infestation of pests, and in accordance with our security measures and Security Plan. The Grow Facility Manager shall ensure secure containers containing marijuana products remain dry, well ventilated, have temperature-control features to avoid extreme temperature fluctuations and appropriate odor-control features. These proper storage environments ensure product storage does not lead to product contamination or loss of quality.

The storage areas containing marijuana products shall be designed for security and ease of maintenance. We shall establish product storage and security policies and procedures compliant with the rules set forth by the Department and all applicable state and local laws, regulations, ordinances, and other requirements. Under no circumstances may any product be transferred without following our policies and procedures and all the rules set forth by the
Department and all applicable state and local laws, regulations, ordinances, and other requirements. Storage policies and procedures shall include:

- All equipment and any areas used for the processing or storage of marijuana shall be securely locked unless in use.
- All areas used for the storage of marijuana shall be on a time lock and only accessible during regular business hours.
- Inventory shall be reviewed and documented at the beginning and close of each day.
- All areas where marijuana product is stored will be monitored by the surveillance system.

DIVERSION PREVENTION

Investigation of possible diversion and developing policies to prevent it will be conducted by a team of our senior officials, including our CEO, COO, and Director of Compliance. Collectively, they will be known as the Diversion Prevention Team or DPT. The team will have multiple responsibilities including:

- Investigating allegations of diversion
- Developing policies and procedures to prevent diversion
- Managing performance improvement measures
- Providing overall direction for the program.
- Reporting confirmed cases of diversion to law enforcement

The DPT will also integrate information from external sources and environmental factors to improve safety and security at facilities. External sources and environmental factors may include news reports, trade and patient associations, law enforcement bulletins, et cetera. Standard operating procedures shall be updated to incorporate new sources of information and prevent diversion.

WORKING WITH LAW ENFORCEMENT

We deeply value and respect the work of local law enforcement. Police officers are on the front lines protecting our safety. Therefore, our Company, through the DPT, will form a partnership with law enforcement. This partnership will be rooted in a shared responsibility for the safety of the community. Upon request, law enforcement will have access to employee records and Grow Facility operations. Company will also engage with first responders like EMS and fire to establish emergency response protocols. This will create a close working relationship and enhance our ability to provide a secure and positive experience for our employees and the community.

To provide first responders with immediate access into our facility during a time of emergency or inspection, we will install a Knox Rapid Access System to remove any barriers to entry when first responders respond to an emergency call.
EMPLOYEE TRAINING

We know that having a trained and educated workforce is paramount to having an effective diversion strategy. Therefore, a considerable amount of time, resources, and energy will be devoted to ongoing diversion prevention training. The training curriculum will be conducted by the DPT. At a minimum, the training curriculum shall include:

- Compliance regulations for grow facilities.
- State laws and agency rules regulating the use of marijuana.
- Strategies for preventing diversion.
- Criminal and civil consequences for diverting product.
- Security and safety standard operating procedures.
- Chain of command for reporting diversion.
- Incident management.
- Daily operating procedures.

Diversion prevention trainings are mandatory for every new employee. Additionally, each employee shall be required to participate in quarterly continuing education trainings on diversion. Training materials will be outcome driven. Employees will be given real world examples of diversion and taught the appropriate response. Teaching the material through the learning principles of problem solving, discussion, and feedback will empower and increase understanding and retention of the training. This process of integrating knowledge will develop a culture of shared values, perspectives, and become the way of daily conduct and purpose at the Grow Facility.

Employees will have access to diversion prevention training materials at all times. There will be no excuse and zero tolerance for not knowing the proper policies and procedures. Well-maintained employee training records displaying documented training dates and subject matter will preserve and increase compliance, continuity and understanding of all guidelines, security procedures, safety, and incident response. Employee training records will become a written testament of the detailed information and accountability of security education.

INVESTIGATION OF DIVERSION

Due to intense and robust security operations, we do not anticipate diversion at our facility. However, it is important to be prepared for any scenario. We have developed an enhanced investigation procedure for any allegations or reports of potential diversion. Any allegation or report will be fully and immediately investigated by the DPT with established processes and timeframes.

Security policies developed by our Company outline that the first step of investigation is to preserve all possible evidence. Evidence needs to be preserved for the investigation and may be used in future disciplinary matters. The second step of investigation shall be to review all camera footage and other relevant information technology. Each marijuana product is tracked from seed to sale. Therefore, if diversion occurred, it will likely appear in an audit of the tracking software. The third step of investigation will be to interview the employee who engaged or
allegedly engaged in diversion. This step can only be executed if enough evidence is gathered to narrow down the suspect. The goal of the interview is to get the subject to confess how they diverted product to prevent future incidents from occurring. The fourth step of investigation will be to report the confirmed incident of diversion and suspect to law enforcement and the Department. The Site Manager shall be the point of contact for all law enforcement inquires and will turn over all relevant evidence to law enforcement and the Department. The final step of investigation is to develop policies and procedures to prevent the incident from happening again. Once new policies have been developed by the DPT, an all staff training shall be given. The training will be a top down review of all security policies including any updated procedures.

INCIDENT RESPONSE

We shall establish incident response procedures addressing any incident that may occur, including natural disaster, unauthorized access, theft, or IT security breach. Procedures shall be in accordance with the rules set forth by the Department and all applicable state and local laws, regulations, ordinances, and other requirements. Procedures for general emergency and incident management, containment, and corrective measures shall be thoroughly detailed. The Director of Compliance shall ensure the appropriate response procedures are followed. All employees shall receive incident response training annually. The Site Manager shall determine the category and severity of the incident and determine the next best course of action. All discussions, decisions, and activities shall be documented.

We shall immediately notify appropriate law enforcement authorities and the Department immediately after the discovery of a reportable incident as defined by state and local laws, regulations, ordinances, and other requirements. Examples of an incident may include, but are not limited to:

- Theft or physical loss of marijuana or confidential records.
- Breach of our network servers.
- Robbery or unauthorized entry in the Grow Facility.
- Threats of violence to the Grow Facility, employees, or visitors.
- Bomb threats.
- Any criminal activity.
- Civil disturbances.
- Hazardous spills.
- Infectious disease epidemic.
- Serious accidents.
- Fires.
- Earthquakes.
- Floods.
- Windstorms or tornadoes.
INCIDENT REPORTING

Anyone with knowledge or a reasonable suspicion of an incident is instructed to make an immediate report to the Grow Facility Manager or the Site Manager. The person reporting the incident shall complete the Incident Log.

- Date and time of occurrence or suspected occurrence.
- Names and contact information of parties involved and any witnesses.
- Description of incident.
- Completed Suspect Description Forms, if applicable.
- Any evidence supportive of the event (unless law enforcement is required on scene or en route).

We shall notify appropriate law enforcement authorities and the Department immediately after discovering the following:

- Discrepancies identified during inventory; diversion, theft, or loss of marijuana; or any criminal action involving an employee.
- Theft, robbery, or burglary; sale to minors; diversion of marijuana or marijuana products; or any other crime related to marijuana.
- Any suspicious act involving the sale, cultivation, distribution, processing, or production of marijuana by any person.
- Unauthorized destruction of marijuana.
- Any loss or unauthorized alteration of records.
- An alarm activation or other event that requires a response by public safety personnel.
- Integrity of the inventory management system compromised.
- An IT security breach.
- The failure of any security alarm system due to a loss of electrical power or mechanical malfunction that is expected to last longer than eight (8) hours.
- Any other breach of security defined by the rules set forth by the Department.

UNAUTHORIZED ENTRY/ROBBERY CONTAINMENT AND CORRECTIVE PROCEDURES

In the event a threat is present to persons, cash, or product due to unauthorized entry, employees shall be trained to perform the following:
- Notify law enforcement utilizing a panic alarm, only if it can be safely done without being obvious to the robber.
- Do not resist the robber or use or encourage the use of weapons or force against the robber.
- Try to inform the robber of any potential surprises (e.g., an employee is due back from lunch or the building alarm is set to be tested).
- Try to keep employees and visitors, if applicable, calm during the robbery.
- Try to alert other employees of the situation using pre-determined signals or text messages, only if safe to do so.
- Follow the robber's commands in order to shorten the time of the incident. Do not argue with the robber, but do not volunteer to help.
- If the robber demands a certain amount of money or product, only give them that amount.
- Be observant in order to be a good witness. Try to remember:
  - The number of robbers.
  - The physical characteristics of the robber(s), such as weight, scars, tattoos, hair color, or speech patterns.
  - The clothing worn by the robber(s).
  - Any names used by the robber(s).
  - A description of any weapons shown, such as barrel length and color, color of the grip, or automatic or revolver.
- If the robber uses a note, try to place it out of sight to retain it as evidence.
- Do not follow a robber.
- Secure the Grow Facility and place a notice that the business is closed due to an emergency.
- Call the police and ambulance, as needed, immediately and request that witnesses stay or obtain their contact information.
- Provide aid to injured people.
- Do not discuss the robbery with any outside parties until police and management has given authority to do so.
- Do not estimate the amount of money or product that was taken until an inventory has been performed.

Corrective procedures that may be required to return conditions to a normalized and secure state:
- Change all security codes.
- Replace locks and issue keys only to authorized employees.
• Ensure any video of the incident is archived.
• Restore security devices and/or apparatus to working condition.
• Repair any physical damage to the Grow Facility.
• Provide employees and visitors, if applicable, counseling, as needed.
• Perform a security re-training as soon as possible.
• Modify Employee Access Control Log as deemed appropriate.

INTERNAL THEFT/BURGLARY CONTAINMENT AND CORRECTIVE PROCEDURES

In the event a threat is present to persons, cash, product due to internal theft or burglary, employees shall be trained to perform the following:

• Identify missing or compromised assets.
• Gather, remove, recover, and secure sensitive materials to prevent further loss or access.
• Power down, recycle or remove security equipment known to be compromised.
• Where possible, secure the premises for possible analysis by the Department and law enforcement.
• Gather and secure any evidence of illegal entry for review by the Department and law enforcement.
• Where possible, record identities of any party who might be a possible witness to events.
• Preserve video recordings and Visitor logs for review by the Department and law enforcement.

Corrective procedures that may be required to return conditions to a normalized and secure state:

• Retrieve or restore assets where possible.
• Store all sensitive materials and products in a secure manner (e.g., lockable cabinets or storage areas/container).
• Replace locks and issue keys only to authorized employees. Update the Employee Access Control Log as necessary.
• Restore security devices and/or apparatus to working condition.
• Remove and retain unauthorized equipment from network and/or area.
• Implement physical security devices and improvements (e.g., equipment cables, alarms) as deemed appropriate.
• Perform a security re-training as soon as possible.
FIRE PROCEDURES

If a fire does not present an immediate danger to personal safety, one (1) employee shall try to extinguish the fire. If a fire presents an immediate danger to personal safety, a fire alarm shall be pulled and a call to 911 shall be immediately made and evacuation of the building shall occur all at once.

Evacuation of Grow Facility

Any director or manager may determine the need to evacuate. Reasons for evacuation may include:

- Fire.
- Bomb threat.
- A hostile or violent employee, visitor, or unknown person.
- Power outage.
- Earthquake.
- Water or gas leak.
- Hazardous spill.
- Robbery or hostage situation.

The Site Manager shall ensure that all employees and visitors, if applicable:

- DO NOT gather in lobbies.
- DO NOT open a door without first checking for heat.
- DO NOT touch any suspicious items or suspected bombs.
- DO NOT run or panic.
- DO NOT re-enter the building until authorized.
- DO assist disabled individuals or others who need assistance. Evacuate disabled individuals or others who need assistance ONLY under the direction of authorized emergency personnel or when there is an immediate threat to personal safety and security.

INCIDENT CONTAINMENT

The Site Manager, in coordination with the appropriate department directors or managers, shall determine and implement the appropriate activities and processes required to quickly contain and minimize the immediate impact to personal safety, the Grow Facility, and other affected parties. Containment activities shall be designed to:

- Minimize harm to individuals.
- Counteract the immediate threat.
• Prevent propagation or expansion of the incident.
• Minimize actual and potential damage.
• Restrict knowledge of the incident to authorized employees.
• Preserve information relevant to the incident.

The Site Manager, in coordination with the appropriate department directors or managers, shall determine and implement the appropriate activities and processes to quickly:
• Secure the environment.
• Restore the environment to its normalized state.

The Site Manager shall be actively engaged throughout the incident to assess the progress of all containment and corrective measures and determine at what point the incident can be considered resolved.

INCIDENT CONTAINMENT AND CORRECTIVE PROCEDURES

The Site Manager shall determine and implement the appropriate procedures required to quickly contain and minimize the immediate impact of an incident, as well as to quickly restore circumstances to a normalized, secure state. Containment and corrective measures shall be designed with the primary objectives of:
• Minimizing harm.
• Counteracting the immediate threat.
• Preventing propagation or expansion of the incident.
• Minimizing the actual and potential damage.
• Restricting knowledge of the incident to authorized employees.
• Preserving information relevant to the incident.
• Securing the environment.
• Restoring the environment to its normalized state.

POST-INCIDENT REVIEW, REPORT, AND FOLLOW UP

The Site Manager shall hold a Post-Incident Review after each incident has been resolved. The Post-Incident Review shall be scheduled within two (2) to three (3) weeks of the incident's resolution and shall involve:
• Appropriate personnel, which may include affected parties.
• Examination of the incident and all related activities and events.
• Discussion on proposed changes to policy, processes, and safeguards.
All incident activities, from receipt of the initial report through post-incident review, shall be documented. The Site Manager shall ensure all events are recorded, assembling these records in preparation and performance of the post-incident review, and ensuring all records are preserved for review. The following shall be included, at a minimum, in the Post-Incident Report:

- A description of incident events with specific timelines.
- Employee(s) involved.
- Non-Employees involved.
- Impact to affected parties.
- Discussions, decisions, and assignments made.
- Successful and unsuccessful activities.
- Notifications required or recommended.
- Steps taken for containment and resolution.
- Recommendations for prevention and remediation (short-term and long-term).
- Identification of policy and procedure gaps.
- Results of post-incident review.
- Any necessary follow-up actions.

The Post-Incident Report shall be distributed to the Site Manager, the Grow Facility Manager, and all other relevant parties for review. The Site Manager shall ensure the appropriate employees are assigned to any follow-up actions. The Site Manager shall document the completion of all follow-up actions in the Post-Incident Report and distribute an updated copy.

SECURITY SYSTEM RECORDS

We shall keep all necessary books and records in order to render a full account of all operations conducted at the Grow Facility under our license for the year to date and the five (5) years prior. We shall keep books and records of the Grow Facility from the previous six (6) months (or the complete copies of such records) in the Grow Facility at all times. All marijuana related records shall be retained in the inventory management system. All surveillances recordings shall be retained, at a minimum for at least sixty (60) days, unless in instances of investigation or inspection by the Department, through its investigators, agents, auditors, or the state police, in which case the licensee shall retain the recordings until such time as the department notifies the licensee that the recordings may be destroyed. Our standard operating procedures shall detail the maintenance of records and measures for addressing and reporting any loss or unauthorized alteration of records. The Department, upon request, shall have full access to all Grow Facility records and surveillance recordings.

We shall keep and maintain security and surveillance system records and recordings in the Grow Facility and copies stored on a secure cloud storage. These records shall include, at a minimum, the following:

- The name of the surveillance equipment installation service provider and all equipment manufacturers.
- Copies of any service contracts.
- A map of the Grow Facility showing the location and operation of each surveillance system component, including the direction of camera coverage.
- A list of authorized users.
- Manufacturers’ instructions for operating and maintaining the equipment.
- Testing and maintenance logs.
- Reports of any incidents of unauthorized entry.
- Employee Access Control Logs.
- Visitor Registration Logs.
- Authorized Visitor Access Control Logs.
- Incident Logs and Post-incident Reports.
- Reports of any interruption in monitoring and/or complete failure of the system, including the length of the interruption period.
- A log of the recordings, which includes:
  - The identities of the employee or employees responsible for monitoring the video surveillance system.
  - The identity of the employee who removed the recording from the video surveillance system.
  - The identity of the employee who destroyed any recording.
- Video surveillance recordings shall be:
  - In a digital format that ensures authentication of the recording as being legitimately captured without alterations.
  - Easily accessible and in a format that allows for viewing and copying.
  - Embedded with the date and time without significantly obscuring the picture.
We will maintain a log of all recordings, which will include a minimum:
- The identities of the employee or employees responsible for monitoring the video surveillance system.
- The identity of the employee who removed the recording from the video surveillance system storage device and the time and date removed.
- The identity of the employee who destroyed any recording.

Video surveillance recordings shall be stored on an NVR that is server-based with storage as required to meet recording rate and retention. This system shall be password-protected and separate from any other equipment in the Grow Facility. The files and video surveillance recordings shall be available for inspection, upon request, by authorized representatives of the Department and other government officials when necessary to perform their official duties.

After the expiration of the retention period, and before selling or closing the facility, the surveillance video recordings shall be erased, destroyed, or otherwise disposed. We shall not destroy any surveillance video recordings if we have knowledge or should have knowledge of any ongoing criminal, civil, administrative, or other official investigations or proceedings for which the recording may contain relevant information. Additionally, we shall not destroy any surveillance
video recordings in instances of investigation or inspection by the Department, through its investigators, agents, auditors, or the state police, in which case the recordings shall be retained until such time as the Department notifies us that the recordings may be destroyed.
## Security and Surveillance Equipment Room Access List

This is the **current** list of individuals having access to our Security and Surveillance Equipment Storage Room. Only those on this list are essential to maintain security and surveillance operations. All others will be denied access to the Security and Surveillance Equipment Room.

This list is available to the Department or authorized agents immediately upon request.

WE ASSIGNED YOU AN EMPLOYER IDENTIFICATION NUMBER

Thank you for applying for an Employer Identification Number (EIN). We assigned you EIN 05-2192285. This EIN will identify you, your business accounts, tax returns, and documents, even if you have no employees. Please keep this notice in your permanent records.

When filing tax documents, payments, and related correspondence, it is very important that you use your EIN and complete name and address exactly as shown above. Any variation may cause a delay in processing, result in incorrect information in your account, or even cause you to be assigned more than one EIN. If the information is not correct as shown above, please make the correction using the attached tear-off stub and return it to us.

Based on the information received from you or your representative, you must file the following form(s) by the date(s) shown.

Form 941 01/31/2021
Form 940 01/31/2021

If you have questions about the form(s) or the due dates(s) shown, you can call us at the phone number or write to us at the address shown at the top of this notice. If you need help in determining your annual accounting period (tax year), see Publication 538, Accounting Periods and Methods.

We assigned you a tax classification based on information obtained from you or your representative. It is not a legal determination of your tax classification and is not binding on the IRS. If you want a legal determination of your tax classification, you may request a private letter ruling from the IRS under the guidelines in Revenue Procedure 2004-1, 2004-1 I.R.B. 1 (or superseding Revenue Procedure for the year at issue). Note: Certain tax classification elections can be requested by filing Form 8832, Entity Classification Election. See Form 8832 and its instructions for additional information.
If you are required to deposit for employment taxes (Forms 941, 943, 940, 944, 945, CT-1, or 1042), excise taxes (Form 720), or income taxes (Form 1120), you will receive a Welcome Package shortly which includes instructions for making your deposits electronically through the Electronic Federal Tax Payment System (EFTPS). A Personal Identification Number (PIN) for EFTPS will also be sent to you under separate cover. Please activate the PIN once you receive it, even if you have requested the services of a tax professional or representative. For more information about EFTPS, refer to Publication 966, Electronic Choices to Pay All Your Federal Taxes. If you need to make a deposit immediately, you will need to make arrangements with your Financial Institution to complete a wire transfer.

The IRS is committed to helping all taxpayers comply with their tax filing obligations. If you need help completing your returns or meeting your tax obligations, Authorized e-file Providers, such as Reporting Agents (payroll service providers) are available to assist you. Visit the IRS Web site at www.irs.gov for a list of companies that offer IRS e-file for business products and services. The list provides addresses, telephone numbers, and links to their Web sites.

IMPORTANT REMINDERS:

* Keep a copy of this notice in your permanent records. This notice is issued only one time and IRS will not be able to generate a duplicate copy for you. You may give a copy of this document to anyone asking for proof of your EIN.
* Use this EIN and your name exactly as they appear at the top of this notice on all your federal tax forms.
* Refer to this EIN on your tax-related correspondence and documents.
* Provide future officers of your organization with a copy of this notice.

Your name control associated with this EIN is TYCO. You will need to provide this information, along with your EIN, if you file your returns electronically.

If you have questions about your EIN, you can contact us at the phone number or address listed at the top of this notice. If you write, please tear off the stub at the bottom of this notice and include it with your letter. Thank you for your cooperation.

OPERATING AGREEMENT
OF
TYCOON I OPERATIONS, LLC

THIS OPERATING AGREEMENT (this "Agreement") is entered into and made effective as of July 22, 2020 (the "Effective Date") by and between TYCOON I OPERATIONS, LLC, a Michigan limited liability company (the "Company"), and TYCOON HOLDINGS, LLC, a Michigan limited liability company and sole member of the Company (the "Member").

Background

A. The Company was formed on July 22, 2020 as a Michigan limited liability company.

B. The undersigned desires to memorialize its rights and obligations with respect to the Company pursuant to the terms of this Agreement.

Agreement

In consideration of the foregoing background and for other good and valuable consideration, the receipt and sufficiency of which is hereby acknowledged, and intending to be legally bound hereby, the parties agree as follows:

ARTICLE I
DEFINITIONS

The following capitalized terms used in this Agreement shall have the following meanings (unless otherwise expressly provided herein):

"Act" means the Michigan Limited Liability Company Act, as amended.

"Business" means the principal business of the Company, which shall be to own and manage investments.

"Capital Contribution" means any contribution of cash or property to the Company, or any obligation to contribute cash or property to the Company, whenever made.

"Certificate" means the Articles of Organization as filed by the organizer of the Company with the Department of State of the State of Michigan, as amended.

"Code" means the Internal Revenue Code of 1986, as amended, or corresponding provisions of subsequent superseding federal revenue laws.

"Interest" means the Member's entire interest in the Company.
“Person” means any individual, trust, partnership, corporation, limited liability company or entity.

ARTICLE II
FORMATION OF COMPANY

2.1 Formation. The Company has been organized as a Michigan limited liability company by executing and delivering the Certificate in accordance with and pursuant to the Act.

2.2 Name. The name of the Company is Tycoon I Operations, LLC.

2.3 Registered Office. The address of the registered office of the Company shall be The CSC – Lawyers Incorporating Service, 601 Abbot Road, East Lansing, Michigan 48823, or at such other place as the Member may from time to time determine. The registered office of the Company may be changed from time to time by amending the Certificate in accordance with the Act. The Company may maintain such other offices, including, but not limited to, a principal place of business as the Member shall determine.

2.4 Purpose. The purposes of the Company shall be (a) to advance and grow the Business, (b) to engage in all other lawful business authorized pursuant to the Act, and (c) to make, enter into and perform any contracts and other undertakings, and to engage in any activities and transactions as may be ancillary to or necessary or advisable to carry out the foregoing purposes.

2.5 Term. The term of the Company shall be perpetual unless the Company is earlier dissolved in accordance with the provisions of this Agreement.

ARTICLE III
CAPITAL CONTRIBUTIONS; LOANS; DISTRIBUTIONS

3.1 Capital Contributions. The Company shall keep a record of all Capital Contributions made by the Member. The Member shall not be required to make any Capital Contribution to the Company not specifically agreed to in writing between the Member and the Company.

3.2 Loans. Any and all loans made to the Company by the Member shall not be considered Capital Contributions.

3.3 Distributions. Distributions shall be made to the Member (in cash or in kind) at such times and in such amounts determined by the Member and as permitted by applicable law.
ARTICLE IV
MEMBER

4.1 Member. The name and address of the Member is:

Tycoon Holdings, LLC
2055 Crooks Road, Suite B
Rochester Hills, MI 48309

4.2 Management. The Company shall be initially managed by Heller Investment Holdings, LLC.

4.3 Right to Rely on Member. Any Person dealing with the Company may rely (without duty of further inquiry) upon a certificate signed by a designee of the Member as to:
(a) the identity of the Member; (b) the existence or non-existence of any fact or facts which constitute a condition precedent to acts by the Member or which are in any manner germane to the affairs of the Company; (c) the Persons who are authorized to execute and deliver any instrument or document of the Company; or (d) any act or omission by the Company or any other matter whatsoever involving the Company or the Member.

4.4 Authority to Designate Officers. The Member may elect, appoint or designate, by resolution or otherwise, individuals as officers of the Company and delegate to such officers such powers, authority and responsibilities as are (i) set forth in the designation or delegation, and (ii) necessary to carry out and implement the management decisions of the Member. The Member may remove any officer, with or without cause, at any time. Any officer may resign at any time by giving written notice to the Company. Any resignation shall take effect as of the date of the Company’s receipt of such notice or at any later time specified in such notice (unless such officer is otherwise removed prior to such date); and unless otherwise specified in such notice, the acceptance of the resignation shall not be necessary to make it effective. Unless the Member decides otherwise, if the title to an officer of the Company is one commonly used for officers of a business corporation, the assignment of such title shall constitute the delegation to such individual of the authority and duties that are normally associated with that office. The current officers of the Company are as set forth on Schedule A attached hereto, as may be amended from time to time.

4.5 Liability of Member and Officers. Neither the Member nor any officer, agent or representative of the Member, or officer of the Company, shall be liable to the Company or to the Members, as applicable, for (i) the performance of, or the failure to perform, any act or duty on behalf of the Company if, in good faith, the Members or officer determined that such conduct was in the best interests of the Company and such conduct did not constitute fraud, gross negligence or reckless or intentional misconduct, (ii) the termination of the Company and this Agreement pursuant to the terms hereof, and (iii) the performance of, or the failure to perform, any act on behalf of the Company in good faith reliance on advice of legal counsel, accountants or other professional advisors to the Company.
4.6 **Indemnification.** The Company shall indemnify, defend and hold the Member and the officers, agents and representatives of the Member, and each officer of the Company and, in the discretion of the Member, each employee of the Company, harmless from and against any expense, loss, damage or liability incurred or connected with, or any claim, suit, demand, loss, judgment, liability, cost or expense (including reasonable attorneys' fees) arising from or related to, the Company or any act or omission of such Member (or officer, agent or representative of the Member) or officer (or employee) and amounts paid in settlement of any of the foregoing, to the fullest extent provided or allowed by the laws of the State of Michigan. The Company may advance to any such Person the costs of defending any claim, suit or action against such Person.

4.7 **Title to Company Property.** All real and personal property shall be acquired in the name of the Company and title to any property so acquired shall vest in the Company itself rather than in the Member.

**ARTICLE V**

**ACCOUNTING AND TAX MATTERS**

5.1 **Accounting Principles.** The Company’s financial statements shall be prepared and its profits and losses shall be determined in accordance with methods of accounting selected by the Member, which need not be the same as the method of accounting used for tax purposes.

5.2 **Returns and Other Elections.** The Member shall cause the preparation and timely filing of all tax returns required to be filed by the Company pursuant to the Code and all other tax returns deemed necessary and required in each jurisdiction in which the Company does business. All elections permitted to be made by the Company under federal or state laws shall be made by the Member in its sole discretion. So long as the Company has only one member, the Company shall be treated as a disregarded entity for income tax purposes.

**ARTICLE VI**

**TRANSFERS: ADDITIONAL MEMBERS**

6.1 **Transferability of Membership Interest.** The Member’s Interest in the Company is freely transferable or assignable, in whole or in part, either voluntarily or by operation of law.

6.2 **Admission of Additional Members.** Additional members of the Company may be admitted to the Company at the direction of the Member only if a new operating agreement or an amendment and restatement of this Agreement is executed by such additional member or members.
ARTICLE VII
DISSOLUTION AND LIQUIDATION

7.1 Dissolution.

(a) The Company shall be dissolved and its affairs wound up and terminated only upon the determination of the Member. The dissolution or bankruptcy of the Member or the occurrence of any other event that terminates the continued membership of the Member shall not cause a dissolution of the Company.

(b) Dissolution of the Company shall be effective on the day on which an event described in Section 7.1(a) above occurs, but the Company shall not terminate until articles of dissolution shall be filed with the Department of State of the State of Michigan and the assets of the Company are distributed as provided in Section 7.2 below. Notwithstanding the dissolution of the Company, prior to the termination of the Company, the business of the Company and the affairs of the Member shall continue to be governed by this Agreement.

7.2 Winding Up. Upon dissolution, the Company shall continue until the winding up of the affairs of the Company is completed and a certificate of dissolution has been filed pursuant to the Act. Upon the winding up of the Company, the Company’s property shall be distributed (a) first to creditors, including the Member if the Member is a creditor, to the extent permitted by law, in satisfaction of the Company’s liabilities, and (b) then to the Member. Distributions shall be in cash or property or partly in both, as determined by the Member.

ARTICLE VIII
MISCELLANEOUS PROVISIONS

8.1 Notices. Any notice, demand or communication required or permitted to be given by any provision of this Agreement shall be in writing and shall be deemed to have been delivered (a) two business days after being sent by registered or certified United States mail, or (b) upon delivery if hand delivered, sent via facsimile transmission or electronic mail. If delivered to the Member, such notice shall be delivered to his address as it appears in Section 4.1 above. If to the Company, such notice shall be delivered to its principal place of business.

8.2 Governing Law. This Agreement, and the application and interpretation hereof, shall be subject to and governed exclusively by its terms and by the laws of the State of Michigan, without regard to its conflicts of laws provisions.

8.3 Construction. Whenever the singular number is used in this Agreement and when required by the context, the same shall include the plural and vice versa, and the masculine gender shall include the feminine and neuter genders and vice versa. Unless expressly stated otherwise, Section and Article references herein shall refer to the Sections and Articles of this Agreement.

8.4 Waivers. No waiver by any party of the breach of any provision hereof shall be deemed to constitute a waiver of any continuing or subsequent breach of such provision or any other provision hereof.
8.5 **Severability.** If any provision of this Agreement or the application thereof to any Person or circumstance shall be invalid, illegal or unenforceable to any extent, the remainder of this Agreement and the application thereof shall not be affected and shall be enforceable to the fullest extent permitted by law, provided that the essential purpose of this Agreement is not frustrated.

8.6 **Heirs, Successors and Assigns.** The covenants, terms, provisions and agreements herein contained shall be binding upon, and inure to the benefit of, the parties hereto and, except as otherwise provided to the contrary, their respective heirs, executors, administrators, legal representatives, successors and permitted assigns.

8.7 ** Entire Agreement.** This Agreement embodies the entire agreement and understanding between the parties hereto with respect to the subject matter hereof and supersedes all prior agreements and understandings relating to such subject matter.

[SIGNATURES APPEAR ON FOLLOWING PAGE]
IN WITNESS WHEREOF, the parties hereto have caused this Agreement to be signed as of the Effective Date.

STAFFING PLAN

Summary of Job Creation, Compensation and Budget

As discussed in detail below, we anticipate creating approximately 59 jobs at our Orion Township Cultivation Facility.

<table>
<thead>
<tr>
<th>Type of Marijuana Facility</th>
<th>Proposed Location</th>
<th>Total Jobs Per Facility</th>
<th>Expected Annual Payroll</th>
</tr>
</thead>
<tbody>
<tr>
<td>Cultivation Facility</td>
<td>Orion Township</td>
<td>59</td>
<td>$3,750,000.00</td>
</tr>
</tbody>
</table>

We pay our cultivation facility employees a minimum hourly wage of $15. We also provide a generous benefit package that includes the following:

- Health Insurance
- Paid Holidays
- Paid Time Off
- 401K Plan with 2% Match
- Performance Incentives

Out of our 3.75MM expected annual payroll, Tycoon I Operations expects to allocate $630,000 toward benefits for all full-time employees!

We intend to source our employees first from Orion Township, then into the surrounding regional area. Our job listings will always be listed in the Orion Township area first to accumulate as many qualified candidates as possible.

Attached is a table of the proposed positions at our Orion Cultivation Facility:

CHARTER TOWNSHIP OF ORION
ORDINANCE No. 154 APPLICATION REVIEW

Planning Commission Case: PC-2021-31
Parcel Number: 09-35-477-001 & 09-35-477-002
Property Address: 180 Premier Drive
Applicant: Tycoon I Operations LLC
Request: Class C Grow – Adult Use
Date: February 12, 2021

The aforementioned application was reviewed for compliance with the location requirements of Article VI of Ordinance No. 154 and the finds are detailed below:

Article V, 1. – The Facility must be located in the Township’s IP (Industrial Park) district: The parcels are zoned IP (Industrial Park) as required.

Article V, 2 – The Facility cannot be within one thousand five hundred (1,500) feet of a “church” in the Township: Article VI, 7 states that the distances specified in the Ordinance shall be measured from building edge to building edge. The applicant stated within their application that the facility is more than the required 1,500 feet. Using GIS, a measurement was taken from the edge of the property where the building is located (for simplicity vs. from edge of building which is further) to the edge of the closest church and it was over 1,600 feet.

Article VI, 3 – The Facility cannot be within two thousand (2,000) feet of a residence located in a R-1, R-2, R-3, SF, SE, SR, RM or MHP zoning district: Article VI, 7 states that the distances specified in the Ordinance shall be measured from building edge to building edge. The applicant stated within their application that the facility is more than the required 2,000 feet. Using GIS, a measurement was taken from the edge of the property where the building is located (for simplicity vs. from edge of building which is further) to the edge of the closest residential property line (for simplicity) and it was 2,500 feet.

Article VI, 4 – The Facility cannot be within two thousand five hundred (2,500) feet of a registered “school” within the Township: Article VI, 7 states that the distances specified in the Ordinance shall be measured from building edge to building edge. The applicant stated within their application that the facility is more than the required 2,500 feet. The closest school is over 2 miles from the parcel. (Scripps and Stadium Rds.)
Article VI, 5 – The Facility shall not have an ingress or egress on a street or road that has an average traffic volume in excess of six thousand (6,000) vehicles per day, as calculated by averaging the three (3) most recent Average Annual Daily Traffic (AADT) counts (as available), as reported by Southeast Michigan Council of Governments (SEMCOG): The building has ingress and egress off of Premier Drive. SEMCOG’s website does not contain any traffic count reports for Premier Dr.

Article VI, 6- The Facility shall not have an ingress or egress on a street or road that directly also serves as an ingress or egress to a residential road or property located in a R-1, R-2, R-3, SF, SE, SR, RM or MHP zoning district. The building has both ingress or egress off of Premier Dr. Premier Dr. does not serve as an ingress and/or egress to any property located in a R-1, R-2, R-3, SF, SE, SR, RM or MHP zoning district.

Article VI, 7 - Distances specified in this Ordinance shall be measured from building edge to building edge. The measurements, unless noted differently, were measured from building edge to proposed building edge.

Article VI, 8 – If the Facility shall need a variance from what is set forth in Article VI Sections one (1) through six (6) above, the Applicant may submit a formal request for a variance to the Zoning Board of Appeals (“ZBA”). The ZBA shall only consider a variance request that is no more than fifteen percent (15%) out of compliance with the above location regulations: The applicant is not requesting any variances from the ZBA.

Article VI, 9 – It is the Township’s intention that Growers, Processors, Safety Compliance Facilities and Secured Transporters may operate within the same building under the following conditions: each licensed entity remains distinct and separate within different working area and separate record keeping systems: The applicant is requesting a Class C Grow – Adult Use only.

Article VI, 10 – The location shall meet all applicable Ordinances and promulgated standards of the Township and, prior to opening, shall demonstrate to the Township that it meets the rules and regulations promulgated by the State Marijuan Regulatory Agency (MRA):

ITEMS TO BE ADDRESSED: These items are unknown at this time. It is recommended that any approval be conditioned upon this requirement.

Article VI, 11 – The Facility location shall conform to all standards of the zoning district in which it is located: This condition has been met. The building itself has received site plan approval.
Article VI, 12 – If the Facility location is currently vacant land, the applicant must submit a site plan and building plans with the Application. The application is for an improved parcel that has received site plan approval.

Article VI, 14 – Based upon an application for or amendment of a Conditional Rezoning, PUD, or other use Development Agreement of sufficient specificity, it is within the sole discretion and judgment of the Township Board of Trustees to consider and waive any or all of the Location Requirements of this Article VI based upon any or all of 3 factors listed in Article VI 14 a,b, and c.: The applicant is not requesting any waivers.

Summary: I have reviewed the application as it relates to Ordinance No. 154 Article VI – Location Requirements. I am agreeable with the recommendation to approve this application with the conditions that:

1. The applicant meets all other applicable Township Ordinances and promulgated standards of the Township and, prior to opening, shall demonstrate to the Township that it meets the rules and regulations promulgated by the State Mariujana Regulatory Agency (MRA).

Re: Marihuana Facility Permit Application; Tycoon I Operations, LLC  
180 Premier Drive, Orion Charter Township, MI 48359  
Adult-Use Class C Grow 5 of 5

Dear Madam Clerk:

Please find attached a Marihuana Facility Permit Application and all exhibits for five Adult Use Class C Grow permits to operate at 180 Premier Drive, Orion Charter Township, MI 48359. This application represents five of five of the Adult Use Class C grow permits.

If the Township believes any additional information or materials are required for this filing, please do not hesitate to contact us. Kindly direct all communications regarding this application to Aaron Fogleman either by phone at 248.920.8770 or by email at licensing@gloriouscanna.com.

We look forward to contributing significantly to the Township through economic development, training and employment, education and outreach, and to becoming a valuable community partner.

Thank you for your consideration.
ORION ORDINANCE 154 INITIAL PERMIT APPLICATION
Ordinance 154, Licensed Marihuana Facilities Ordinance

Pursuant to the Charter Township of Orion Ordinance 154, Licensed Marihuana Facilities Ordinance, the following application is intended to collect information and documentation establishing the applicant’s conformance with the ordinance. All applicants should note that the approval of a Marihuana Permit will be based upon the accuracy and completeness of the information provided. In the event applications are received in excess of the permitted number of locations within the Ordinance or two or more applicants have similar qualifications, the Charter Township of Orion reserves its right to approve a permit which in the opinion of the Township best meets its goals and safeguards as set forth in the Ordinance. No financial or other right is established by the payment of the non-refundable application fee. All applications for renewal of a permit shall be reviewed per the standards set forth in the Ordinance. The Charter Township of Orion reserves the right to approve or deny the permit based upon the failure of any applicant to establish to the satisfaction of the Township any requirement, standard or goal of the Ordinance. The applicant understands this determination may involve a subjective interpretation of the application. Any permit granted by the Township is contingent upon the State of Michigan granting a state license for the specific license applied for under this ordinance.

SECTION A- APPLICANT

1. Name of Applicant: Tycoon I Operations, LLC
   Authorized Signer (of not an individual): Daryl Heller

   Address of Applicant: 2055 Crooks Rd, Suite B
   Rochester Hills, MI 48309

5. If the Applicant or owner or any operator is a licensed caregiver under the Michigan Medical Marihuana Act, please list their name and address, and caregiver ID number issued by the State of Michigan. N/A

6. For any corporation or other legal entity who has a financial interest or affiliation with the requested permit, please state the following:

Name: Please see Organization Structure in Exhibit I
Name of Authorized Signer: 
Address: 
Interest or Affiliation: 

**SECTION B - FACILITY LOCATION**

7. Name of proposed facility: Oakland Business Park, Building B

8. Location of proposed facility: 180 Premier Drive

Orion Charter Township, MI 48359
9. Please provide a preliminary floor plan sketch showing the location of all facility operations within an existing building, or for new construction a site plan for the parcel. Attach as Exhibit “A”
   ☑ Document(s) attached. If not attached, why not and when is applicant expected to supplement: ______________________________________________________________________________________

10. With respect to the location of the facility, please state with specificity the exact location, address, suite number and, if necessary, the location of the facility within a building or the parcel of land. This location should include the distance in feet from each property line. Attach as Exhibit “B”
   ☑ Document(s) attached.
   If not attached, why not and when is applicant expected to supplement: ______________________________________________________________________________________

11. Please provide evidence of the Applicant’s property interest in the proposed location. Provide copies of documentation showing a legal and enforceable property interest. Attach as Exhibit “C”.
   ☑ Document(s) attached.
   If not attached, why not and when is applicant expected to supplement: ______________________________________________________________________________________

12. Please confirm and establish that the facility is located within the Township’s Industrial Park district (“IP”); is not within 1,500 feet of a church; is not within 2,000 feet of a residence located in the R-1, R-2, R-3, SF, SE, SR, RM or MHP Zoning Districts; is not within 2500 feet of a registered school and does not have ingress or egress on a street or road that has an average traffic volume in excess of 6,000 vehicles per day as calculated and reported by Southeast Michigan Counsel of Governments. Further, please show that the facility does not have an ingress or egress on a street or road that serves as an ingress or egress to a residential road or property located in a R-1, R-2, R-3, SF, SE, SR, RM or MHP Zoning District. For each of the above criteria, please attach any and all documents which will permit the Township to calculate compliance with the Licensed Marihuana Facilities Ordinance No. 154. At a minimum, provide a map showing the facility and measured distances (building edge to building edge). Attach as Exhibit “D”.
   ☑ Documents attached.
   If not attached, why not and when is applicant expected to supplement: ______________________________________________________________________________________

a) Is the Facility located in the Township’s IP (Industrial Park District) zoning district?
   ☑ Yes          ☐ No
b) Is the Facility more than one thousand five hundred (1,500) feet of any church in the Township?

☑ Yes ☐ No

c) Is the Facility more than two thousand (2,000) feet of any residence located in an R-1, R-2, R-3, SF, SE, SR, RM, or MHP zoning district?

☑ Yes ☐ No

d) Is the Facility more than two thousand five hundred (2,500) feet of any registered school within the Township.

☑ Yes ☐ No

For 10-12 above, please provide a map showing the facility and measured distances (building Edge to building edge.)

e) Does the facility have an ingress or egress on a street or road that has an average traffic volume of six thousand (6,000) or less vehicles per day, as calculated by averaging the three (3) most recent Average Annual Daily Traffic (AADT) counts (as available), as reported on the Southeast Michigan Council of Governments (SEMCOG) per the site semcog.org/Traffic-Counts?

☑ Yes ☐ No

f) Does the Facility have an ingress or egress on a street or road that does not also serve as an ingress or egress to a residential road or property located in a TR-1, R-2, R-3, SF, SE, SR, RM, or MHP zoning district?

☑ Yes ☐ No

Name of Facility ingress/egress Street or road: Premier Drive

13. Please state whether the Applicant will seek a variance from the Zoning Board of Appeals pursuant to Article 6(8) of the Orion Licensed Marijuana Facilities Ordinance No. 154.

☑ Yes ☐ No

If variance will be sought, specify location category(s) pursuant to Art 6 (1)-(6):

____________________________________

____________________________________

____________________________________

2236
For each category variance sought, state the percentage the applicant will seek:_____ %
(Not to exceed 15%)

SECTION C- FACILITY REQUIREMENTS

14. When available, submit to the Township a copy of the Applicant’s application for a license submitted to the State of Michigan, Department of Licensing and Regulatory Affairs, for each facility permit requested.
Attach as Exhibit “E”.
☐ Document(s) attached.
If not attached, why not and when is applicant expected to supplement:_____________

Phase 2 application with the state of Michigan requires a permit and signed attestation from the municipality. We expect to submit our application with the state by 03/01/2021.

15. Is consumption and/or use of marihuana prohibited at the Facility?

☐ ☐ Yes ☐ No

16. Will all activity related to the Facility be done indoors?

☐ ☐ Yes ☐ No

17. Will all marihuana contained within the building be in a locked Facility in accordance with the Michigan Medical Marihuana Act, MCL 333.26421 et seq., as amended (“MMMA”), the Michigan Medical Marihuana Facilities Licensing Act, MCL 333.27101, et seq., and the Michigan Regulation and Taxation of Marihuana Act, MCL 333.27951, et seq., as amended (“MRTMA”) as amended?

☐ ☐ Yes ☐ No

18. Please set forth an operations statement, plan and or outline showing that all facility activities shall occur indoors and in a building which is locked.
Attach as Exhibit “F”
☐ Document(s) attached.
If not attached, why not and when is applicant expected to supplement:_____________

19. Will all necessary building, electrical, plumbing and mechanical permits obtained for any portion of the structure in which electrical wiring, lighting and/or watering devices are located?

☐ Yes ☐ No
20. When available and prior to the issuance of any permit, the Applicant must submit all necessary building, electrical, plumbing and mechanical permits, as well as documented approval by the Orion Fire department showing compliance with the Michigan Fire Protection Code and confirmation that the storage of any chemical, herbicide, pesticide and/or fertilizer has also been approved by the Orion Fire Department.

Attach as Exhibit “G”.
☐ Document(s) attached.
If not attached, why not and when is applicant expected to supplement: ____________________________

21. In any portion of the structure where the storage of any chemicals such as herbicides, pesticides, and/or fertilizers, do you agree to be subject to inspection and approval by the Orion Fire Department to ensure compliance with the Michigan Fire protection Code?

☐ Yes ☐ No

22. Will you ensure that no other uses, other than accessory uses, will be permitted within the same Facility other than those associated with cultivating, processing, transporting or testing marihuana?

☐ Yes ☐ No

23. Please state and/or provide documentation showing the plan that all litter and waste will be properly and safely removed and will not constitute a source of contamination in areas where marihuana is exposed. Further, please include how the applicant will dispose of rubbish so as to minimize the development of odor and minimize the potential for development of waste odor and waste from becoming an attracted, harborage or breeding place for pests. Please include a detailed description of the ventilation system. Attach as Exhibit “H.”

☐ Document(s) attached.
If not attached, why not and when is applicant expected to supplement: ____________________________

a) Will litter and waste be properly removed and the operating systems for waste disposal maintained in an adequate manner so that they do not constitute a source of contamination in areas where marihuana is exposed?

☒ Yes ☐ No

b) Will floors, walls and ceilings be constructed in such a manner that they may be adequately cleaned and kept clean and in good repair?

☒ Yes ☐ No
c) Will there be adequate screening or other protection against entry of pests, and will rubbish be disposed of so as to minimize the development of odor, minimize the potential for development of waste odor, and minimize the potential for waste becoming an attractant harborage or breeding places for pests?

☐ Yes  ☑ No

d) Will all buildings, fixtures and other facilities be maintained in a sanitary condition?

☐ Yes  ☑ No

e) Will each Facility center provide its occupants with adequate and readily accessible toilet facilities that will be/are maintained in a sanitary condition and in good repair?

☐ Yes  ☑ No

24. Please state how the Applicant intends to avoid excessive noise, dust, vibrations, glare, fumes or odors detectable to the normal senses beyond the boundaries of the property. Attach as Exhibit “I”.

☒ Document(s) attached.

If not attached, why not and when is applicant expected to supplement: __________________________

______________________________

a) Will each Facility be operated in a manner that does not create excessive noise, dust, vibrations, glare, fumes or odors detectable to the normal senses beyond the boundaries of the property on which that Marihuana Facility will operate/operates or in violation of any other ordinance?

☐ Yes  ☑ No

25. Please provide the plan and supporting documentation showing that all disposal systems for spent water and spent soil have been adequately and safely disposed of and accounted for.

Attach as Exhibit “J”.

☒ Document(s) attached.

If not attached, why not and when is applicant expected to supplement: __________________________

______________________________

26. Please provide a security and safety plan, and at a minimum showing the facilities surveillance systems and continuous monitoring systems of the entire premise as required by the ordinance.

Attach as Exhibit “K”.

☒ Document(s) attached.

If not attached, why not and when is applicant expected to supplement: __________________________
a) Will the Facility continuously monitor the entire premises with surveillance systems that include security cameras operating 24 hours a day, 7 days a week, every day of the year, and will these recordings be maintained for a period of at least 30 days?

☑ Yes ☐ No

27. Please state and/or show the exterior signage or advertising identifying the facility.
   Attach as Exhibit “L”.
   ☐ Document(s) attached.
   If not attached, why not and when is applicant expected to supplement: __________________________
   The facility will only show the numbers associated with its address

a) Do you understand and agree that any exterior signage or advertising identifying the Facility as a marihuana facility is prohibited?

☑ Yes ☐ No

SECTION D - BUSINESS OPERATIONS AND SECURITY

28. Active business operations shall not be open outside of the hours of 7am and 9pm.

AFFIRMATION OF STAKEHOLDERS, AGENTS OR EMPLOYEES
FOR A LICENSED MARIHUANA FACILITY

1. I ______________ Daryl Heller ___________ make this affirmation in support of the Application for a permit with the Charter Township of Orion for a Marihuana facility located at _____________ 180 Premier Drive, Orion Charter Township, MI 48359 ___________.

2. I affirm that I
   a. That I am at least 21 years of age.
   b. Have never been indicted or charged with or arrested for, convicted of, plead guilty, or nolo contendere to a felony or to a controlled substance related misdemeanor.

3. I have not previously had a business license permit or registration denied or revoked or suspended by Orion Township.

Dated: 02/09/2021

Print name: Daryl Heller
A. & B. Facility Floor Plan
C. Lease Agreement
COMMERCIAL LEASE

This lease (the Lease), is entered into on **November 1, 2020**, between Premier Drive Tycoon I, LLC, with an address at 1615 S Telegraph Rd, Bloomfield Hills, MI (Landlord), and Tycoon I Operations, LLC (Tenant) on the terms and conditions listed below.

1. **Description of the Premises.** Landlord owns the real property, improvements and any and all structures thereon located at **180 Premier Drive, Orion Township, MI 48359** ("Premises"), consisting of approx. 72,000 square feet. Tenant shall have the right to use the Premises to conduct its daily business operations and for any ancillary or related purposes including the operation of a marihuana business.

2. **Basic Lease provisions.** The basic Lease provisions are stated below and further explained in the section referenced to the right of each provision:

   (a) **Term:** **10 years**
   (b) **Commencement Date:** **February 1, 2021**
   (c) **Termination date:** **October 31, 2030**
   (d) **Options:** **1 option to renew for additional 10 years**
   (e) **Monthly installment amount:** **$75,000 or $12.50; per square foot**;
   (f) **Security deposit:** **$75,000.00**
   (g) **Use:** **Tenant's desired business operation**

3. **Term.** This Lease shall be for a term stated in section 2(a) commencing on the date stated in section 2(b) (the Commencement Date) and terminating on the date stated in section 2(c). The rent for the first month shall be prorated from date of occupancy, if the date of occupancy is after the first day of the month. Each succeeding lease year shall begin on the anniversary of the same date and continue until the termination of the Lease.

   Provided that Tenant is not in default under this Lease at the end of the then current Lease term, Tenant shall have the right to renew the term of this Lease for the option period stated in section 2(d) by giving Landlord written notice of Tenant’s intent to renew the Lease at least 120 days before the expiration of the then current term. The renewal shall be on the same terms and conditions as in this Lease, except that the minimum rent for each renewal term shall be increased by a percentage equal to the percentage increase in the Consumers Price Index (Bureau of Labor Statistics Washington, D.C., all Cities) (CPI) during the preceding term. The percentage increase shall be determined by comparing the latest available CPI before the Commencement Date of the Lease or the prior term, whichever shall apply, and the latest available CPI on or before the expiration of the immediately preceding initial or renewal lease term. The word “term” as used in this Lease shall include any renewal term.

4. **Minimum rent.** Tenant shall pay to Landlord as rent the sum stated in section 2(e), payable in monthly installments due in advance, on the first day of each month during the term of this Lease. All rent shall be paid to Landlord at the address set forth above or at such other address as Landlord may designate in writing, without any prior demand and without any deduction or offset.

   If Tenant shall fail to pay any amount due from it to Landlord under this Lease when that amount shall be due, a one-time late charge of **$50.00** shall be assessed and thereafter the amount of rent not paid shall be subject to a service charge until that amount is paid at the lesser of the rate of 5% per month or the highest rate permitted by law.
5. **Security deposit.** Tenant, contemporaneously with the execution of this Lease, has deposited with Landlord the sum stated in section 2(f) as a security deposit. The deposit shall be held by Landlord, without liability for interest, as security for the faithful performance by Tenant of all the terms, covenants, and conditions of this Lease to be kept and performed by Tenant during the term of this Lease.

If Tenant fails to keep and perform any of its covenants of this Lease, Landlord at its option may appropriate and apply the entire deposit, or so much as may be necessary, to compensate Landlord for loss or damage sustained by Landlord due to Tenant’s breach. If the entire deposit or any portion is appropriated and applied by Landlord for the payment of overdue rent or other sums due and payable to Landlord by Tenant, Tenant shall, on the written demand of Landlord, forthwith remit to Landlord a sufficient amount in cash to restore the security to the original sum deposited. Tenant’s failure to do so within 5 days after receipt of demand shall constitute a breach of this Lease.

6. **Taxes.** Tenant shall pay or cause to be paid all real property taxes and special assessments levied against the Building including the Premises. Tenant shall pay all personal property taxes assessed against any personal property owned by Tenant on the Premises.

7. **Maintenance and repair.** Tenant shall maintain and repair and keep the Premises in good condition and repair, including the exterior windows and the electrical system. Landlord shall, at tenants expense, make all other repairs and replacements to the Building, including those of a structural or capital nature. Landlord shall, at tenants expense, enter into an annual maintenance contract with a licensed heating and mechanical firm for the maintenance of the heating and air conditioning equipment during the term. Landlord shall be obligated to make repairs only after Tenant has given Landlord written notice of the need for the repair, and only if the repair was not caused by the negligence or willful act of Tenant, its agents, employees, invitees, or licensees.

Tenant shall provide and pay for its own regular janitorial service to maintain the Premises in a neat and clean condition. Tenant shall be responsible for all repairs or replacements to the Building occasioned by the negligence or willful act of Tenant, its agents, employees, invitees, or licensees.

8. **Utilities.** Tenant shall have all utilities servicing the Premises metered in its own name and shall pay all charges and deposits for the utilities provided to or used in the Premises during the term of this Lease. Tenant shall also pay 100% of the water and sewer bill. Landlord shall not be liable in damages should the furnishing of any utilities be interrupted by fire or other casualty, accident, strike, labor dispute or disagreement, the making of any necessary repairs or improvements, or any other causes beyond the reasonable control of Landlord.

9. **Liability insurance.** Tenant shall indemnify Landlord and save Landlord harmless from any liability or claim for damages that may be asserted against Landlord by reason of any accident or casualty occurring on or about the Premises. Tenant shall, at its own cost and expense, obtain and keep in force a policy or policies of public liability insurance with an insurance company approved by Landlord, with liability coverage of an amount as recommended by Landlord’s insurance agent that, for the initial coverage, shall be not less than $1 million for injury or death to any one person, $3 million for injury or death to more than one person, and $500,000 regarding damage to property. Tenant shall furnish Landlord with certificates or other evidence acceptable to Landlord indicating that the insurance is in effect and providing that Landlord shall be notified in writing at least 30 days before cancellation of any material change in or renewal of the policy. All insurance policies shall name Landlord and any persons designated by Landlord as insured parties.

Any insurance maintained by either party pursuant to this section or under this Lease shall contain a
clause or endorsement under which the insurer waives all rights of subrogation against the other party, its agents or employees, regarding losses payable under the policy.

Any personal property kept on the Premises by Tenant shall be at Tenant’s sole risk.

10. Use. Tenant shall use and occupy the Premises for the purpose stated in section 2(g) and for no other purpose without the prior written consent of Landlord. Tenant shall not intentionally and knowingly use the Premises for any purpose or in any manner in violation of any State law, local ordinance, rule or regulation adopted or imposed by the City in which the Premises is situated. Tenant shall not deface or injure the Premises or the Building, permit anything to be done on the Premises tending to create a nuisance or to disturb other tenants in the Building, or permit any activity in the Premises that will result in an increase of any premium, or cancellation of a policy, for insurance on the Premises or the Building.

11. Construction of leasehold improvements. Landlord grants Tenant express consent to construct certain leasehold improvements as may be required for Tenant’s use. The cost of Tenant’s leasehold improvements shall be paid for by Tenant. The improvements shall be constructed in a good and workmanlike manner.

12. Operations. Tenant’s operations in conjunction with the Premises shall meet the requirements set forth below.

   a. Tenant shall keep all garbage and refuse in the kind of container specified by Landlord. If Landlord shall provide or designate a service for picking up refuse and garbage, Tenant shall use the same at Tenant’s cost. Tenant shall pay the cost of removal of any of Tenant’s refuse or rubbish.

   b. Tenant shall keep the Premises at a temperature sufficiently high to prevent freezing of water in any pipes and fixtures.

   c. Tenant shall keep the outside areas immediately adjoining the Premises clean and free from dirt and rubbish to the satisfaction of Landlord, and Tenant shall not place or permit any obstructions or merchandise in those areas. Tenant shall water and maintain any flowers, shrubs, and trees located immediately adjoining the Premises.

   d. Tenant shall only store and/or stock in the Premises goods, wares, and merchandise that Tenant intends to offer for sale at retail.

   e. Tenant shall conduct its business in the Premises in a dignified manner and in accordance with high standards of store operation.

13. Restrictions on Tenant’s activities. Without Landlord’s written consent, Tenant shall not engage in the activities listed below.

   a. Tenant shall not operate all or any part of its business in the Premises in any manner that is inconsistent with its intended use of the Premises.

   b. Tenant shall not conduct any auction, fire, going-out-of-business, or bankruptcy sales in the Premises.

   c. Tenant shall not operate or permit to be operated on the Premises any coin or token operated vending machines or similar devices for the sale of goods, wares, merchandise, food, beverages, or service,
including, without limitation, pay telephones, pay lockers, scale, and amusement devices without Landlord’s prior written consent.

d. Tenant and Tenant’s employees and agents shall not solicit business in the parking or other common areas of the Building, nor shall Tenant or its employees or agents distribute any handbills or other advertising matter in or on automobiles parked in the parking area or in other common areas without Landlord’s prior written consent.

e. Tenant and its employees and agents shall not park any vehicle on the Building land except in areas that are designated by Landlord for that use.

14. Assignment and subletting. Tenant agrees not to sell, assign, mortgage, pledge, or in any manner transfer this Lease or sublet the Premises or any portion of the Premises without the prior written consent of Landlord. Notwithstanding any assignment or subletting, Tenant shall remain fully liable on this Lease. Landlord’s right to assign this Lease is and shall remain unqualified. On any transfer of Landlord’s interest in the Premises in which the purchaser assumes all obligations under this Lease, Landlord shall be free of all obligations of Landlord under this Lease and shall not be subject to any liability resulting from any act or omission or event occurring after the conveyance. Tenant agrees to recognize the transferee as Landlord, and Tenant further agrees, at Landlord’s request, to execute and deliver such documents and estoppel letters as Landlord may request to assist in that transfer.

15. Estoppel letter. On not less than 10 days’ prior written notice from Landlord, Tenant shall sign and deliver to Landlord an estoppel letter that

a. certifies that this Lease is unmodified and in full force and effect (or, if modified, states the nature of the modification and certifies that this Lease, as so modified, is in full force and effect);

b. acknowledges that there are not, to Tenant’s knowledge, any uncured defaults on the part of Landlord or specifying the default if any are claimed;

c. certifies the date to which all forms of rent have been paid; and

d. certifies the amount, if any, of the security deposit paid to Landlord.

Tenant’s failure to deliver such an estoppel letter within the 10 days shall be conclusive on Tenant that

a. this Lease is in full force and effect, without modification except as may be represented by Landlord;

b. there are no uncured defaults in Landlord’s performance;

c. not more than one month’s rent has been paid in advance; and

d. no security deposit has been paid except as may be represented by Landlord.

16. Acceptance of Premises. The occupancy by Tenant of the Premises shall constitute an acknowledgment by Tenant that the Premises are then in the condition called for by this Lease.

17. Damage or destruction. If, during the term of this Lease, the Premises shall be partially or totally destroyed by fire or other casualty covered by insurance so as to become partially or totally untenable,
the same shall be repaired as promptly as possible with the insurance proceeds unless this Lease is
terminated. In the event of damage or destruction, if this Lease is not terminated, the rent shall be abated
proportionately to the loss of use suffered by Tenant.

If, during the term of this Lease, the Premises shall be partially or totally destroyed by fire or other
casualty, and the cost of restoring the Premises to its condition prior to the damage shall equal or exceed
40 percent of its fair replacement value immediately prior to the damage, or if the Premises are damaged
by any casualty not insured against by Landlord, Landlord shall have the right to terminate this Lease by
giving Tenant written notice of its election to do so within 15 days after the date on which the damage
occurs. On the giving of notice, the Lease shall terminate as of the date on which damage occurred and
the rent shall be adjusted to that date. In default of notice by Landlord, this Lease shall continue and
Landlord shall cause the Premises to be repaired or restored with due diligence.

18. Condemnation. If the whole or any part of the Premises shall be taken by any public authority under
the power of eminent domain, the term of this Lease shall cease on that part to be taken from the day the
possession is acquired by the public authority and the rent shall be paid up to that date. If the portion of
the Premises taken substantially impairs the usefulness of the Premises for the purpose for which the
Premises were leased, Tenant shall have the right either to terminate this Lease or to continue in the
possession of the remainder of the Premises under the terms and conditions of this Lease except that the
rentals shall be reduced in proportion to the amount of the Premises taken, and in the latter event,
Landlord shall promptly restore the remainder to a reasonably tenantable condition. All damages awarded
for the taking shall belong to and be the property of Landlord.

19. Alterations and signage. No improvements, alterations, additions, or physical changes shall be made
on the Premises by Tenant without the prior written consent of Landlord.

Tenant agrees that it will not place or maintain on any exterior door, wall, or window of the Premises any
signs, awning or canopy, or advertising matter, or other thing of any kind and will not place or maintain
any decoration, lettering, or advertising matter on the glass of any window or door of the Premises that is
not in conformity with all applicable governmental rules and regulations and the rules and regulations of
the Building as set forth by Landlord and further, without first obtaining Landlord’s prior written
approval. Tenant further agrees to maintain such sign, awning, canopy, decoration, lettering, advertising
matter, or other thing as may be approved in good condition and repair at all times. Tenant further
acknowledges that Landlord may, at its option, regulate the lettering size, style, and color of Tenant’s sign
so that all signs in the Building are of a like size, color, style of lettering, and like material. Tenant agrees
that it will conform its sign to that as regulated by Landlord for the general use in the Building, regardless
of how and in what manner Tenant normally designs its name for use in its sign and further regardless of
whether or not Tenant uses the form and style of its sign as a trademark.

All alterations and improvements, but not moveable equipment and trade fixtures, put in at the expense of
Tenant shall be the property of Landlord and shall remain on and be surrendered with the Premises at the
termination of the Lease; provided, however, that Landlord may require that Tenant remove the
alterations and improvements and repair any damages to the Premises caused by the removal.

20. Remedies and default. If Tenant shall default in the payment of any sums to Landlord when due and
shall not cure such default within 7 days; or if Tenant shall default in the performance of any other
covenant or condition of the Lease and shall not cure such other default within 30 days after written
notice from Landlord specifying the default; or if Tenant or its agent shall falsify any report to be
furnished to Landlord pursuant to the terms of this Lease; or in case Tenant shall be adjudicated a
bankrupt or make any assignment for the benefit of creditors; then, in any such event, Landlord may
either (a) accelerate the full balance of the rental payable for the remainder of the term and sue for such sums or Landlord may terminate this Lease or (b) reenter the Premises, without terminating this Lease, and dispossess Tenant or any other occupant of the Premises and remove Tenant's effects and relet the same for the account of Tenant for such rent and on such terms as shall be satisfactory to Landlord, crediting the proceeds, first to the costs and expense of reentry, alterations and additions, and the expense of reletting, and then to the unpaid rent and the other amounts due during the remainder of the term. Tenant shall remain liable to Landlord for any unpaid balance.

In case suit shall be brought for recovery of possession of the Premises, for the recovery of any rent or any other amount due under the provisions of this Lease, or because of the breach of any other covenant on the part of Tenant to be kept or performed, and a breach shall be established, Tenant shall pay to Landlord all expenses incurred, including reasonable attorney fees, which shall be deemed to have been incurred on the commencement of the default and shall be enforceable whether or not the action is prosecuted to judgment.

21. **Access to Premises.** Landlord shall have the right to enter on the Premises at all reasonable hours to inspect and for access to the Premises to install, maintain, use, repair, and replace pipes, ducts, lights, conduits, plants, wires, floor coverings, and all other mechanical equipment serving the Premises.

22. **Rules and regulations.** Landlord reserves the right to adopt from time to time rules and regulations for the operation of the Building that are not inconsistent with the provisions of this Lease. Tenant and its agents, employees, invitees, and licensees shall comply with all those rules and regulations. Any such rules shall not dictate the days or time of business operation.

23. **Waiver.** The failure of Landlord to insist on a strict performance of any of the terms, covenants, or conditions of this Lease or rules and regulations of the Building shall not be deemed a waiver of any subsequent breach or default in the terms, covenants, and conditions or rules and regulations. This Lease may not be changed, modified, or discharged orally.

24. **Notices.** All notices required under this Lease shall be in writing and shall be deemed to have been given if either delivered personally or mailed by certified or registered mail to Landlord or to Tenant at their respective addresses set forth above or to such other address as either party may furnish in writing during the term of this Lease.

25. **Quiet enjoyment.** Landlord covenants and agrees with Tenant, its successors, and assigns that on Tenant's paying the rent and observing and performing all the terms, covenants, and conditions of Tenant's part to be performed and observed, Tenant may peaceably and quietly hold, have, occupy, possess, and enjoy the Premises for the full term of this Lease.

26. **Subordination to mortgage.** Any mortgage now or hereafter placed on the Premises shall be deemed to be prior in time and senior to the rights of Tenant under this Lease. Tenant subordinates all of its interest in the leasehold estate created by this Lease to the lien of any mortgage. Tenant shall, at Landlord's request, execute any additional documents necessary to indicate this subordination including, if requested, an estoppel letter as set forth in section 15. If Tenant fails to supply the estoppel letter, the provisions in section 15 to cover that failure shall apply. Notwithstanding the foregoing, Tenant's possession of the Premises under this Lease shall not be disturbed by any mortgagee, owner, or holder of note secured by a mortgage placed on the Premises, unless Tenant shall breach any of the provisions of this Lease and the lease term of Tenant's right to possession shall have been lawfully terminated in accordance with the provisions of this Lease.
27. Building revisions by Landlord. Landlord reserves the absolute right at any time and from time to time to make changes or revisions in the Building, including such changes to the parking lot, driveways, signs, and sidewalks, by making additions to, subtractions from, or rearrangements of the improvements in the Building, as long as the revisions do not materially affect Tenant’s use of the Premises.

28. Holding over. If Tenant remains in possession of the Premises after the expiration or termination of the Lease, it shall be deemed to be occupying the Premises as a tenant from month to month, subject to all the conditions, provisions, and obligations of this Lease insofar as the same can be applicable to month-to-month tenancy, except that the rent shall increase to 2 times the rent owing at the end of the lease term. The month-to-month tenancy shall be cancelable by either party on 30 days’ written notice to the other.

29. Recording. Tenant shall not record this Lease without the written consent of Landlord; however, on the request of either party the other party shall join in the execution of a memorandum or so-called “short form” of this Lease for the purpose of recordation. The memorandum or short form of this Lease shall describe the parties, the Premises, and the term of this Lease and shall incorporate this Lease by reference.

30. Captions and headings. The captions and headings used in this Lease are intended only for convenience and are not to be used in construing this Lease.

31. Applicable law. This Lease shall be construed under the laws of the state of Michigan. Venue for any disputes under this agreement shall lie in Oakland, Michigan. If any provision of this Lease or the application to any person or circumstances shall, to any extent, be invalid or unenforceable, the remainder of this Lease shall not be affected and each provision of this Lease shall be valid and enforceable to the fullest extent permitted by law.

32. Successors. This Lease and the covenants and conditions shall inure to the benefit of and be binding on Landlord, its successors, and assigns and shall be binding on Tenant and permitted assigns of Tenant.

33. Effective date. The parties have caused this agreement to be signed and shall be effective as of the day and year first above written.

*(signature page to follow)*
IN WITNESS WHEREOF, the parties have respectively signed and sealed this Lease as of the day and year first above written.

F. Operations Plan
Tycoon I Operations, LLC

Business & Operations Plan

PREAMBLE:
Tycoon I Operations, LLC ("Applicant") will strictly comply at all times with applicable state law and local ordinance codes, including rules and emergency rules that may, from time to time, be promulgated by the state or Orion Township. All business activities will take place indoors in a locked facility. Applicant has retained a law firm with established expertise in Michigan marihuana law to ensure continuing education and compliance with the laws as they evolve. The statements made in this application are made with a clear and thorough understanding of state and local requirements as they exist on the date of application, but the operations of Applicant will be amended to comply with all future derivations of the state and municipal laws.

I. OVERVIEW
Applicant is a Michigan limited liability company formed to operate twenty four (24) commercial marihuana GROWER (Class C) facilities whose primary mission is to provide a source of high-quality marihuana to processors and provisioning centers across the state of Michigan.

II. ADMINISTRATION
   A. Location & Zoning
      i. Buffers
         a. The distances described are measured horizontally between the nearest property lines.
         b. The facility is not within 1,000 feet of any educational institution or school, college or university, church, house of worship or other religious facility, licensed child care, preschool, public library, or public or private park.

         ii. Applicant is leasing the property pursuant to the attached lease and the owner/lessor of the property authorizes the use of the property as a marihuana facility in the lease agreement, which is attached.

   B. Organizational Structure
      i. The Applicant is organized as a Michigan limited liability company and is in good standing.

      ii. The members, owners, directors, officers, and managers of the Applicant are listed in the Organization Structure.
iii. The members, owners, directors, officers, and managers of Applicant meet all eligibility requirements to own and operate a marihuana grower facility as set forth in state law and local ordinance.

   a. No member, owner, director, officer, manager or any person having an ownership interest in the application has an interest in a secure transport facility license or a safety compliance facility license.

   b. The Applicant meets all eligibility requirements to own and operate a marihuana grower facility as set forth in state law and local ordinance.

iv. The Applicant has never applied for been granted any commercial license or certificate issued by a licensing authority in Michigan or any other jurisdiction that has been denied, restricted, suspended, revoked or not renewed.

C. Permits & Licenses
   i. This Business and Operations Plan is submitted as an addendum to the applications for Ten Orion Township permits to operate a business and the Orion Township special use/site plan application.

   ii. All operations in this Business and Operations Plan will comply with regulations issued by the Department of Licensing and Regulatory Affairs (LARA).

   iii. Applicant intends to apply for, obtain, operate, and comply with a state license to operate a grower facility under the MMFLA and MRTMA.

   iv. The business will not open for operation until it receives a state license to operate under the MMFLA and MRTMA and all applicable permits and licenses from Orion Township.

   v. Upon granting of a permit to operate a grower facility, Applicant will prominently display the original Orion Township permit at the Permitted Premises in a location where it can be easily viewed by the public, law enforcement, and administrative authorities.

   vi. At all times the facility will hold a valid local Permit and State Commercial Marihuana Facility License for a Grower.

   vii. In addition to complying with the Orion Township Ordinance Authorizing and Permitting Commercial Marihuana Facilities, Applicant will comply with all Township Ordinances, including without limitation, the Township Zoning Ordinance, as well as the requirements of the County Road Commission, County
Building Inspector, County Drain Commissioner, District Health Department, Soil Erosion Officer, County Conservation Service, areas fire departments, Michigan Department of Natural Resources, Michigan Department of Environmental Quality, and any other applicable township, county, state and federal statutes.

viii. Applicant will have available, at all times, documentation that local and State sales tax requirements, including any requirement for a license, are satisfied.

ix. Applicant will provide updated operational and security plans to Orion Township upon request and prior to any proposed changes in its operations.

D. Inspections

i. Applicant will provide access to the facility for inspection to any federal, state, or local law enforcement officer to ensure compliance with the permit.

ii. Applicant consents to inspections as required in the MMFLA and pursuant to the Orion Township ordinance.

III. OPERATIONS

Applicant proposes 24 state-licenses in a single marihuana grower facility for the cultivation, drying, trimming, curing, and packaging of marihuana for sale to a processor or provisioning center pursuant to the requirements and restrictions of the Marihuana Facilities Licensing Act, PA 281 of 2016, and all future derivations thereof. This facility will be located in a secure industrial facility.

A. Compliance with State Regulations

Applicant will meet all operating regulations established by LARA and the Marihuana Licensing Board for Growers, including without limitation, any standards, procedures, and requirements for:

i. quality control
ii. chain of custody
iii. marihuana storage
iv. waste disposal
v. labeling and packaging
vi. storage of chemicals

B. Description of the Facility

Applicant’s facility will be used exclusively for the cultivation, drying, trimming, curing, and packaging of legal usable marihuana for sale to processors or provisioning centers.

C. Entry to Facility

Generally, the public will not be allowed entry to the facility. Notwithstanding the forgoing, Applicant will not allow entry to the facility to anyone under the age of 18.
D. Employees
Applicant anticipates having between fifteen (15) and (65) full and part-time employees, as many as possible of whom will be local community residents. None of Applicant’s employees will be registered primary caregivers during the employment with Applicant. Please reference the staffing plan for a detailed list of potential positions.

E. General Policies
   i. Applicant will only sell or transfer marihuana to a processor or provisioning center.

   ii. Applicant will only use secure transporters in the distribution or exchange of marihuana or currency with processors or provisioning centers.

   iii. Applicant will not promote the unlawful use of marihuana or any other drug or provide or otherwise make marihuana available to any person who is not legally authorized to receive Marihuana under state law.

   iv. No owner, the Applicant, or any employee of Applicant will grow marihuana in the Permitted Premises for his or her own use.

   v. The following activities are prohibited on the Permitted Premises:
      a. the sale, consumption, or use of alcohol, or controlled substances;
      b. smoking or consumption of marihuana.

F. Cultivation Plan
   i. Propagation
      a. Lighting
      b. Watering
      c. Nutrient Application
      d. Integrated Pesticide Management
   ii. Harvesting and Trimming
   iii. Drying and Curing
   iv. Packaging
   v. Distribution
      a. All marihuana products will be validated from a verified transport manifest, created from the statewide monitoring system. The manifest includes a detailed form with the number of packages and detailed content for confirmation/validation with secure transporters and purchasers of the shipment (processors or provisioning centers).
      b. Each transport shipment will be processed in the following manner:
         1. Entry of shipped inventory into the statewide monitoring system.
         2. Confirmation with Secure Transporter of valid and verified transport manifest, including product count, weight of each package or item

2268
G. Inventory Management
i. Applicant will not control or have on the Permitted Property an amount of marihuana plants or usable marihuana that exceeds any amount permitted by the state License or the Township permit.

ii. Tracking and Monitoring
Applicant will use a third-party inventory control and tracking system to interface with the statewide monitoring system. The third-party inventory control and tracking system will have the capabilities necessary to comply with the requirements applicable to a grower licensee:

a. Track all marihuana plants and packages;
b. Track lot and batch information throughout the entire chain of custody;
c. Track transportation of product;
d. Track marihuana waste;
e. Track all marihuana product transfers;
f. Track sales and returns;
g. Track marihuana plant, batch, and product destruction;
h. Perform batch recall tracking;
i. Report and track loss, theft, or diversion of marihuana products;
j. Receive testing results electronically from a safety compliance facility;
k. Provide access to state agencies and law enforcement as required;
l. Report all inventory discrepancies.

iii. Applicant will enter all transactions, current inventory, and other information into the statewide monitoring system as required by the MMFLA, the Marihuana Tracking Act, and any associated regulations.

iv. Inventory reconciliation - At the end of each day, physical inventory counts will be reconciled with the third-party inventory control and tracking system.

v. Returns

H. Quality Control
i. Sampling (by Licensed Safety Compliance Facility)

ii. Batch Testing (by Licensed Safety Compliance Facility)

iii. Transport to Safety Compliance Facility (by Secured Transporter)

I. Signage and Advertising
i. Applicant has no proposed signage at this time, but will amend this plan accordingly and provide the township with its sign permit application if and when it does wish to propose signage.

ii. Applicant will not display pictures, photographs, drawings or other depictions of Marihuana or Marihuana Paraphernalia on the outside of the Permitted Premises, nor will such pictures, photographs, drawings, or other depictions of Marihuana or Marihuana Paraphernalia be visible outside of the Permitted Premises on the Permitted Property.

iii. The words "Marihuana," or "cannabis," and any other words, used or intended to convey the presence or availability of Marihuana will not appear on the outside of the Permitted Premises, nor will "Marihuana," or "cannabis," and any other words, used or intended to convey the presence or availability of Marihuana be visible outside of the Permitted Premises on the Permitted Property.

J. Visibility of activities
   i. All activities of the facility, including without limitation, the cultivation, harvesting, trimming, drying, curing and packaging of Marihuana, and all other related activity permitted under Applicant’s License or Permit will occur indoors.

   ii. No marihuana or paraphernalia shall be displayed or kept in the facility so as to be visible from outside the Permitted Premises.

K. Security
   i. Plan
      Applicant will maintain, at all times, a centrally-monitored security and alarm system on the premises that meets or exceeds state regulatory requirement. Applicant will maintain policies and procedures to include:

      a. Regular drills of the security protocols and emergency plans;
      b. Controlled and restricted access to the Permitted Property and Permitted Premises to employees, agents, and owners of Applicant, and law enforcement or state or local authorities as necessary to ensure Applicant’s compliance with state and local laws.
      c. Internal and external cameras with 24-hour monitoring and off-site recording;
      d. Installed panic buttons
      e. Limitations on the amount of currency and marihuana stored onsite;
      f. Cooperation and coordination with local law enforcement;
      g. Permitted premises will only be able to be accessed through a combination of security locks and access codes; and
      h. The ability to remain operational during a power outage with battery back-up.

   ii. Security Surveillance Cameras
Security surveillance cameras will be installed to monitor all entrances, along with the interior and exterior of the premises, which will capture all areas of the property unless otherwise prohibited by law, including unobstructed video surveillance of all enclosed areas, unless prohibited by law, including all points of entry and exit that shall be appropriate for the normal lighting conditions of the area under surveillance.

iii. Security Recordings and Documentation
   a. All security recordings and documentation will be preserved for at least 30 days and made available upon request by any law enforcement.

iv. Robbery and Burglary Alarm System
Applicant will employ an alarm system that meets state requirements and obtains state approval. Specifically,

   a. Applicant will employ a centrally alarmed and monitored security system that will be monitored 24 hours a day, 7 days a week for the Permitted Premises pursuant to the attached service agreement.
   b. There will be a perimeter alarm on all entry points and perimeter windows of the Permitted Premises
   c. A failure notification system will provide an audible, text, or visual notification of any failure in the surveillance system. A panic button and alarm will directly notify the local law enforcement agency having primary jurisdiction.

v. Storage of Marihuana and Currency
   a. Applicant will store usable marihuana that is not otherwise in the process of being dried, trimmed, cured, packaged, or distributed including packaged and un-packaged usable marihuana, and currency in a secured locked safe that is permanently affixed to the premises.

I. Ventilation Plan/Air Filtration System
   i. Applicant’s facility operation and design will provide sufficient measures and means to minimize any impact to adjacent uses, including the control of odor by maintaining and operating an air filtration system so that no odor is detectable outside the Permitted Premises.

   ii. Applicant’s equipment and methods to control odor include a comprehensive air filtration system, consisting of
       a. Activated Carbon Filters.
       b. Heavy Duty Ventilation Fans.

   iv. Details and specifications of the equipment used for Applicant’s ventilation and air filtration plan are attached.
v. The total enclosed space in which harvested marihuana will be stored amounts to approximately 300 sq. feet. Applicant will use an advanced filtration system rated appropriately for the area.

vi. The air filtration system will be maintained in working order at all times and will be in use at all times. Filters will be changed a minimum of once every 365 days.

vii. In addition to the use of an air filtration system, Applicant will mitigate odors by keeping doors and windows closed at all times, except the minimum amount of time needed to allow ingress and egress to the building.

**M. Toxic/Flammable/Hazardous Materials**

i. Applicant’s use of toxic, flammable, or other harmful, hazardous, or combustible materials will be limited to plant nutrients and pesticides and cleaning products. The facility may use the following nutrients and pesticides:

   a. CocoTech Bloom A
   b. CocoTech Grow A
   c. CocoTech Premier Nutrient
   d. FloraBloom Nutrient System
   e. FloraGrow Nutrient System
   f. Golden Tree Plant Food.
   g. Nutra Green 5-10-5 plus Micronutrients Foliar Spray
   h. Diatomaceous Earth
   i. Neem Oil
   j. PyGanic Pro Pyrethrin 5% MGK Miticide

ii. The facility may use the following commercial cleaning products, along with the following household products: materials regulated by government agencies:

   a. Ultra Dawn Lemon Dish Soap
   b. Nature’s Source Toilet Bowl Cleaner
   c. Fantastik Antibacterial Heavy Duty All Purpose Cleaner
   d. Windex Original Glass Cleaner
   e. Novo Foaming Instant Hand Sanitizer
   f. QuickSan Food Contact and Surface Sanitizer

iii. The materials will be stored in secured and ventilated cabinets. All combustible or reactive materials will be stored separately.

iv. Materials will be handled, stored, and disposed according to specifications in each Material Safety Data Sheet.
N. Waste Product Disposal
Applicant will dispose of unusable or waste marihuana in accordance with the MMFLA, MRTMA, and applicable local ordinance guidelines to prevent the waste marihuana from being possessed or ingested by any person and animal.

i. Applicant’s current, preliminary waste disposal plan consists of shredding and grinding damaged and unusable plants, roots, seeds, stalks and harvested marihuana and mixing it with one of several lawful over-the-counter products, such as sawdust or cat litter to render it unusable, unrecognizable, and unpalatable, and then discarding in secured bags as part of its solid waste disposal.

ii. The State of Michigan’s Marihuana Licensing Board may require or suggest as a part of its regulations, expected sometime in November, one or more alternative waste disposal options including, but not limited to, waste disposal through the secured transporter system, waste mitigation through THC extraction methods (rendering the marihuana waste product inert) or some other method. Applicant warrants that it will comply with all state and local requirements as to waste disposal, but further commits to its current preliminary plan to render all marihuana waste unrecognizable, unusable and inaccessible regardless of state or local requirements.

IV. COMMUNITY RESPONSIBILITY AND CONCLUSION
Although marihuana has been used as a medicine across the globe for hundreds of years, its commercial production and sale is new to us, this state, and your community. We appreciate the opportunity to show Orion Township that Marihuana can be safe and accessible to a community while providing jobs and local economic growth. We look forward to being productive and responsible community partners, and will work with the Township toward that goal.

PAYMENT OF PERMIT FEE CONSTITUTES ACCEPTANCE OF THE ABOVE TERMS.
H. Litter & Waste Removal Plan
Litter & Waste Removal Plan

All biological waste product will be rendered unrecognizable by grinding it in an industrial grinder and combining it with other non-consumable solid waste, including the media in which we cultivate plants, Rockwool. The inclusion of inert material renders the combined solid waste unusable. All waste will be stored in a locked dumpster that is emptied at minimum once per week.

The company intends to employ particulate filtration in areas where waste is stored and processed, which minimizes potential exposure and impact to the outside environment. The facility, which is designed around large water chillers, is designed to circulate air rather than ventilating it. This process helps to avoid excess exposure of odors to the surrounding community.
I. Noise, Dust, Vibrations, Glare & Fumes Plan
Noise, Dust, Vibrations, Glare, Fumes or Odors Plan

Excessive Noise, Dust, Vibrations, Glare and Marijuana odors emanating from our facilities are a valid concern for the community and our neighbors. This plan details the measures deployed to ensure that minimal noise, dust, vibration, glare, fume or offensive odor is emitted from the facility, the response if it occurs, and that the measures remain effective over time.

This plan is our commitment to the Orion Township that we will be in compliance with regulations of the city and the administrative rules and that we will not operate in a manner creating noise, dust, vibration, glare, fumes, or odors detectable to normal senses beyond the boundaries of the property.

We will not vent noxious dust, odors, gases or fumes to surrounding areas.

We will mitigate dust and noxious odors by engaging in the following activities:

1. Adequate design measures to seal the building;
2. Utilizing a heating, ventilation, and cooling (HVAC) System designed to move an appropriate amount of air (cfm) throughout the facility to disperse odors;
3. Using industry leading MERV-13 HEPA filters in addition to FILTR, Blue Zone & Puradigm units in each room throughout the facility.

I. DESIGN MEASURES TO SEAL THE BUILDING

We intend to renovate our building in a manner that focuses on effectively sealing all interior rooms and exterior access points. Each room is enclosed in 12", interlocking insulated panels which are designed to form an airtight seal. For additional protection, butyl caulk is applied at each joint to accommodate any flaws in the panels.

Caulk is also applied to seal any openings into the panels, including plug outlets, doorways, sprinklers, and anything else that could allow air flow. Our doors are fiberglass, weather stripped and employ a drop seal to press additional weather stripping against the floor when closed to maximize the seal all the way around.

II. MERV-13 HEPA FILTRATION SYSTEM

The purification of air throughout our facility is a top priority for both the health of the plants and the environment we subject our employees and the local community to. In an effort to target and reduce contamination, mold, bacteria, odor, dust, and fumes, we employ a variety of filtration systems in all rooms where marihuana plants are grown.

Each room will utilize clean room grade HEPA filtration units filtering down to 0.01um and providing up to 5 complete air changes per hour. These units also utilize a carbon filter which focuses directly on the removal of smells and volatile organic compounds.

In addition to the HEPA filters, each room will have Puradigm units to help reduce airborne and surface contaminates, and Agrify Bluezone UV filtration units, known to destroy 99.9%+ of both bacteria and mold. Both of these systems aid in odor elimination and containment.
As filters age, they become clogged with impurities, and ultimately less effective. As such, we will develop a maintenance schedule to inspect the filtration units regularly and to replace them per the manufacturer's recommendation or at an expedited pace based on their usage in these environments.

III. VIBRATION MITIGATION
Exterior mounted cooling equipment is mounted on isolation pads to dramatically reduce vibrations that would otherwise be created by such large equipment.

IV. EVALUATING THE EFFECTIVENESS OF NOISE, DUST, VIBRATIONS, ODOR & FUME CONTROL MEASURES

Key site leadership roles will be trained to assess the production and escape of odors, dust, fumes and glare from the facility. We also anticipate a strong and friendly relationship with the local communities and will welcome feedback about any exhaust from the building. Should these assessments or the community ever determine that our levels are beyond acceptable, we will re-evaluate this plan and engage professionals to further refine our practices and properly mitigate the problem.
J. Spent Water & Soil Safety Plan
Spent Water & Soil Safety Plan

Wastewater Treatment Plan:
Wastewater generated during the cultivation of marihuana of marihuana products shall be disposed of in compliance with all applicable state and local laws and regulations. Despite the amount of water used in the cultivation process, there is very little water waste. The majority of water is used by the plants or evaporated out of the collection dishes upon which the plants sit. Any water that is used to rinse the plants or clean the facility or for any other purpose shall be rendered clean through both reverse osmosis and UV light after standard filtration methods, and either reused by the facility or discharged through a monitoring man hole where it can be monitored to comply with all local ordinances.

The Cultivation Facility will include an Ecowater RO purification system. Ecowater Purification Systems are the leading water filtration manufacturer in the industry, helping cultivators diagnose and solve every water problem imaginable. Ecowater designs systems to treat any water source including city water, well water, nutrient runoff water, wastewater, and condensate runoff.

Soil Safety Plan
The cultivation facility will not use soil – instead, all media for the purposes of growing plants will be rockwool, a lightweight hydroponic substrate made from spinning molten basaltic rock into fine fibers which are then formed in a range of cubes. This product will be disposed of through the grinder and mixed with biological waste in a locked dumpster.
K. Security Plan
SECURITY PLAN

Tycoon I Operations is committed to being a leader in Michigan’s cannabis industry and a trusted resource for the communities, consumers and clients we service. Essential to fulfilling this commitment is our ability to effectively protect our product from criminal repurposing throughout the facilities.

This Security, Surveillance and Diversion Prevention Plan details the physical and electronic security measures we employ to deter, detect, and inhibit the theft, diversion, and loss of Marijuana, and to prevent unauthorized conduct with respect to the storage and dispensing of Marijuana.

We have extensively researched and designed our Grow Facility to maximize security. The facility shall be built with enhanced security and stringent safety features to eliminate any potential for diversion. Our facility will be equipped with numerous motion sensors and exterior intrusion sensors that will be linked to local law enforcement. To prevent unauthorized entry and stop diversion, theft, or loss of marijuana, every square inch of the facility shall be continually monitored by high definition security cameras and commercial-grade equipment. Security systems will be positioned so they closely monitor activities at strategic risk points and watch for any strange behavior or movement. Marijuana shall not be visible to any person from the exterior of the Grow Facility.

We will create a culture of responsibility, accountability, and strict security surrounding all aspects of the facility. The stringent operating procedures outlined below demonstrate a commitment to employee and public safety above all other operating values. From receipt to sale, we are committed to preventing diversion by implementing a comprehensive security strategy. Employees will be extensively trained to understand that security is a primary obligation for everyone at our facility.

We will have comprehensive security policies and procedures for the Grow Facility, which address measures to deter and prevent unauthorized entrance into areas containing marijuana and theft of marijuana at the facility. Employees will receive on-going training regarding our security protocol and the Site Manager shall ensure all employees follow policies and procedures regarding the security of the facility. The Site Manager shall implement and maintain employee training policies and procedures for security training. All employees shall aid in the security of the Grow Facility through prevention, awareness, reporting, and responsible incident management. All employees shall be required to immediately report security breaches and incidents of non-compliance to their supervisor, and in case of sudden emergency, immediately to law enforcement by either striking a panic button or calling law enforcement directly.

We will make our facility available and open to inspection, at all times, for law enforcement, representatives of the Department and law enforcement, when necessary to perform their duties.

PHYSICAL SECURITY

The facility shall be designed to maximize security and stop the potential for diversion. Access to the secure facility shall include safety and security mechanisms that prevent unauthorized entry. All doors will be burglary-resistant material, with commercial-grade, non-residential locks. Additionally, exterior doors, as well as limited access area entries, will be automatic locking and equipped with electric strike and keycard access hardware. All doors are setup to fail secure, which means in the event of a power failure, the doors will remain locked and only be accessible via a master key.
The Grow Facility’s main entrance vestibule shall include a mantrap to control passage from the public access area to the limited access area. We will strive to install Underwriter’s Lab (UL) approved locks and lock cylinders, which are rated as burglary resistant. We will also install local alarms on all fire exits and other perimeter doors not authorized for employee or visitor use. Our alarm system will be monitored after business hours with live monitoring through a licensed security monitoring company. If there are ever any after-hours issues, the live monitoring system will be linked directly to law enforcement and the Site Director, among other key personnel.

We shall ensure that trees, bushes, and other foliage outside of the premises do not allow people to conceal themselves from sight. The surveillance system’s cameras shall be capable of certain identification of persons (including facial features), license plates, vehicles, the immediate surrounding areas, and any activities occurring within any area of the premises, and the parking area, and within twenty feet (20’) of all entry and exit points of the premises. Cameras will cover every square inch of the facility.

To provide first responders with immediate access into our facility during a time of emergency or inspection, we will install a Knox Rapid Access System to remove any barriers to entry when first responders respond to an emergency call.

LIGHTING

Exterior lights at all points of entry and exit shall remain constantly illuminated to allow for recording. Lighting on the outside perimeter shall allow cameras the ability to record any suspicious activity. Timed-delay switches shall be used to turn off non-essential interior lights, which shall not remain lit after employees have left the facility. Motion detecting lights shall be installed in areas that are entered and exited infrequently. The exterior of the facility shall be lit by commercial LED light fixtures sufficient to facilitate twenty-four-hour surveillance. Exterior lights in the parking area will remain on from dusk until dawn.

SECURITY EQUIPMENT

Our security equipment shall be designed, installed, and maintained to deter and prevent unauthorized entrance and theft of marijuana products at the facility. Security equipment shall be installed by a commercial, licensed service provider. All equipment shall be compliant with Department rules and all state and local laws, regulations, ordinances, and other requirements.

ENTRY AND EXIT ELECTRONIC EQUIPMENT AND PLACEMENT

Our entry and exit electronic access equipment will consist of the following:

- Electric strike locks on all doors in the Grow Facility with the ability to override access control for emergency exit even during a power outage.
- RFID proximity card access control devices for all interior doors and all exterior entrances and exits into the Grow Facility.
- Access control system that allows for programming or uploading individual user permissions and allowed entry times, as well as operations-specific information including employee photos.
- A backup power supply system that immediately provides power for at least twenty-four (24) hours in the event of a power outage.
- Main system operating equipment will be kept in the security room, a limited access area.
• Access control system that monitors and records:
  o Identification of employees or visitors entering and exiting.
  o Date and time of entry and exit.
  o Length of time in specific area.
  o Any unauthorized attempts for access.

ALARM SYSTEM

We shall have a professionally monitored security alarm system installed at our facility. Monitoring of the alarm system shall be twenty-four (24) hours a day, seven (7) days a week. We shall notify the Department of any intent to change our security alarm service provider. Upon request, we will make available to the Department all information related to the alarm system, monitoring, and alarm activity. The alarm system shall consist of the following:

• Appropriate equipment necessary to monitor activity inside and outside the Grow Facility, including:
  o All entrances and exits.
  o Roof hatches.
  o Rooms with exterior windows.
  o Rooms with exterior walls.
  o Rooms containing marijuana.
  o Rooms containing safes or vaults.
• A backup power supply system that immediately provides power in the event of a power outage.
• Main system operating equipment is kept in the Main Office Surveillance/IT Room, a limited access area.
• All telephone junction boxes or rooms where alarm telephone circuits terminate are locked, tamper-protected, and all labels or tags identifying these alarm circuits have been removed.

ALARM SYSTEM COMMUNICATION

The alarm system shall include an electronic or mechanical system that, upon activation, is programmed to send a prerecorded voice message, via telephone, radio frequency, or other communication system, to appropriate law enforcement authorities or other emergency services. In addition, the alarm system shall be equipped with a failure notification system that notifies the alarm monitoring service provider of the system failure via audio, text, visual, or audiovisual message, within a maximum of five (5) minutes of such failure.

ALARM SYSTEM TESTING

We shall bi-annually conduct an onsite inspection and test of the entire alarm system to determine needed repairs and adjustments.

ALARM SYSTEM RECORDS

We shall keep and maintain alarm system records and will make available to the Department all
information related to the alarm system, monitoring, and alarm activity. These records shall include the following:

- The name of the alarm installation and monitoring service provider.
- Copies of service contracts.
- A map of the Grow Facility showing the location and operation of each alarm system component including alarm telephone circuits.
- A list of authorized users.
- Manufacturers' instructions for operating and maintaining the equipment.
- Testing and maintenance logs.
- Reports of any incidents triggering an alarm.
- Reports of any interruption in monitoring and/or complete failure of the system, including the length of the interruption period.

SURVEILLANCE SYSTEM

We shall have a fully operational electronic surveillance system installed at our facility. We shall notify the Department of the intent to make any changes to the surveillance system. Upon request, we will make available to the Department all information related to the electronic surveillance system installed at our facility. The surveillance system shall consist of the following:

- Appropriate equipment necessary to video record activity inside and outside the Grow Facility, including:
  - All entrances and exits into and out of the Grow Facility.
  - Roof hatches or skylights.
  - Rooms with exterior windows.
  - Rooms with exterior walls.
  - Rooms containing safes or vaults.
  - All entrances and exits of security rooms and limited access areas.
- Appropriate equipment to record keycard entry and exit activity of all our employees and visitors.
- A backup power supply system that immediately provides power in the event of a power outage.
- A dedicated safe or vault to store all entry/exit records and video recordings in the Office Surveillance/IT Room, in a limited access area.
- Main system operating equipment is kept in the main office Surveillance/IT Room.

VIDEO SURVEILLANCE EQUIPMENT

Our video surveillance equipment will consist of the following:

- Network video recorders with a record rate of a minimum of thirty (30) frames per second.
- Cameras with a minimum resolution of 1920 x 1080 pixels.
- Cameras with infrared capabilities to capture images in low or no lighting conditions.
- Cameras with capabilities to identify activity occurring within twenty feet (20') from all points of entry and exits into and out of the exterior of the Grow Facility.
- Video monitors.
- Digital archiving device.
- Capabilities to produce a color still photograph from any camera image, live, or recorded.
- Capabilities to accurately display the time and date on recorded images or video
- Color printer that can immediately produce a clear, color still photo, either live or recorded, with a resolution of 9600 dpi and the image quality is relative to the camera being used to capture the image.

**CAMERA COVERAGE PLACEMENT**

We will install at least One Hundred (100) security cameras. The security cameras will be permanently mounted and in a fixed location. Each camera at the Grow Facility shall be placed in a location that allows the camera to clearly record activity occurring within twenty feet (20') of all points of entry and exit on the Grow Facility. The cameras will cover every square inch of the facility. The cameras shall allow for the clear and certain identification of any person, including facial features, and activities, including sales or transfers, in all areas of the Grow Facility. The security cameras shall monitor and record all areas of the Grow Facility including:

- All areas where marijuana or products are present, including activities related to:
  - Weighing, packaging, and labeling.
  - Storing, preparing for sale, loading/unloading, or moved within the Grow Facility.
  - Waste Disposal
- Limited-access areas and security rooms, including transfers between rooms and areas.
- Areas storing a surveillance system storage device with at least one (1) camera recording the access points to the secured surveillance recording area.
- All entrances and exits into and out of the exterior of the Grow Facility, recording both indoor and outdoor vantage points.
- Outdoor trash receptacles.
- Roof hatches or skylights.
- Rooms with exterior windows.
- Rooms containing safes or vaults.
- All areas where cash is counted, transferred, or stored.
- All areas where records are stored.

Cameras shall not be installed in bathrooms or any other area where a legitimate expectation of privacy exists. Camera placement shall ensure:

- Visibility of activities is not obstructed by lighting equipment covers, fixtures, or other equipment.
- A clear and certain identification of all individuals and activity at the Grow Facility.
- Identification of activity occurring within twenty feet (20") from all points of entry and exit into and out of the exterior of the Grow Facility.

SURVEILLANCE FAILURE NOTIFICATION

The surveillance system shall include a failure notification system that alerts the Site Director and other key site personnel of any interruption in surveillance and/or the complete failure of the monitoring system. The notification shall be within a maximum of five (5) minutes of such failure via audio, text, visual, or audiovisual message. Additionally, an alarm shall signal the Security Officer on duty whenever an unauthorized entry is attempted.

SURVEILLANCE TESTING

We shall ensure that the surveillance system is properly maintained for playback quality so that images can be seen and the identity of all individuals and activity in surveillance areas are captured. We will schedule and oversee all required maintenance of security equipment in accordance with manufacturer recommendations. Any equipment failure identified shall be corrected as soon as possible. All security equipment shall be in good working order and shall be inspected and tested at regular intervals.

INFORMATION TECHNOLOGY SECURITY

We shall ensure the security of our hardware, software, data, and communications networks, including the following information technology (IT) maintenance:

- Software registration.
- Security patches.
- Malicious software prevention.
- Account management.
- Security status and network access monitoring.
- Disposal and redeployment.
- Employee IT security training.
- Vulnerability assessments.

Access to protected information shall be restricted to essential employees only. Access may be granted to authorized representatives of the Department and other government officials if necessary to perform their official duties. Examples of protected information include:

- Security and cash management procedures.
- Asset and inventory lists.
• Network data.
• Floor plans of critical areas.
• Password and code records.
• Customer records.
• Employee records.

PRODUCT SAFETY AND SECURITY

We shall develop and implement procedures that ensure product safety and security and are compliant with the rules set forth by the Department and all applicable state and local laws, regulations, ordinances, and other requirements. Procedures shall include measures that:

• Minimize the risk of diversion or theft of marijuana.
• Minimize the risk of contamination from incoming materials.
• Ensure proper storage conditions that maintain the quality and purity of our marijuana products.

MATERIAL RECEIVING

All deliveries shall be verified at the front entrance to the facility before allowed access to the loading areas. All materials received will be documented. No material may be received unless its shipping documentation matches the corresponding purchase order or separate approval is given by the Site Manager. Employees shall notify the Site Manager of any shipment discrepancy immediately and shipment may not be accepted without the Site Manager’s approval.

PRODUCT STORAGE SECURITY

Storage areas shall be designed to provide adequate lighting, ventilation, temperature, humidity, space, and equipment. All storage areas shall be maintained in a clean and orderly condition, free from infestation of pests, and in accordance with our security measures and Security Plan. The Grow Facility Manager shall ensure secure containers containing marijuana products remain dry, well ventilated, have temperature-control features to avoid extreme temperature fluctuations and appropriate odor-control features. These proper storage environments ensure product storage does not lead to product contamination or loss of quality.

The storage areas containing marijuana products shall be designed for security and ease of maintenance. We shall establish product storage and security policies and procedures compliant with the rules set forth by the Department and all applicable state and local laws, regulations, ordinances, and other requirements. Under no circumstances may any product be transferred without following our policies and procedures and all the rules set forth by the
Department and all applicable state and local laws, regulations, ordinances, and other requirements. Storage policies and procedures shall include:

- All equipment and any areas used for the processing or storage of marijuana shall be securely locked unless in use.
- All areas used for the storage of marijuana shall be on a time lock and only accessible during regular business hours.
- Inventory shall be reviewed and documented at the beginning and close of each day.
- All areas where marijuana product is stored will be monitored by the surveillance system.

DIVERSION PREVENTION

Investigation of possible diversion and developing policies to prevent it will be conducted by a team of our senior officials, including our CEO, COO, and Director of Compliance. Collectively, they will be known as the Diversion Prevention Team or DPT. The team will have multiple responsibilities including:

- Investigating allegations of diversion
- Developing policies and procedures to prevent diversion
- Managing performance improvement measures
- Providing overall direction for the program.
- Reporting confirmed cases of diversion to law enforcement

The DPT will also integrate information from external sources and environmental factors to improve safety and security at facilities. External sources and environmental factors may include news reports, trade and patient associations, law enforcement bulletins, et cetera. Standard operating procedures shall be updated to incorporate new sources of information and prevent diversion.

WORKING WITH LAW ENFORCEMENT

We deeply value and respect the work of local law enforcement. Police officers are on the front lines protecting our safety. Therefore, our Company, through the DPT, will form a partnership with law enforcement. This partnership will be rooted in a shared responsibility for the safety of the community. Upon request, law enforcement will have access to employee records and Grow Facility operations. Company will also engage with first responders like EMS and fire to establish emergency response protocols. This will create a close working relationship and enhance our ability to provide a secure and positive experience for our employees and the community.

To provide first responders with immediate access into our facility during a time of emergency or inspection, we will install a Knox Rapid Access System to remove any barriers to entry when first responders respond to an emergency call.
EMPLOYEE TRAINING

We know that having a trained and educated workforce is paramount to having an effective diversion strategy. Therefore, a considerable amount of time, resources, and energy will be devoted to ongoing diversion prevention training. The training curriculum will be conducted by the DPT. At a minimum, the training curriculum shall include:

- Compliance regulations for grow facilities.
- State laws and agency rules regulating the use of marijuana.
- Strategies for preventing diversion.
- Criminal and civil consequences for diverting product.
- Security and safety standard operating procedures.
- Chain of command for reporting diversion.
- Incident management.
- Daily operating procedures.

Diversion prevention trainings are mandatory for every new employee. Additionally, each employee shall be required to participate in quarterly continuing education trainings on diversion. Training materials will be outcome driven. Employees will be given real world examples of diversion and taught the appropriate response. Teaching the material through the learning principles of problem solving, discussion, and feedback will empower and increase understanding and retention of the training. This process of integrating knowledge will develop a culture of shared values, perspectives, and become the way of daily conduct and purpose at the Grow Facility.

Employees will have access to diversion prevention training materials at all times. There will be no excuse and zero tolerance for not knowing the proper policies and procedures. Well-maintained employee training records displaying documented training dates and subject matter will preserve and increase compliance, continuity and understanding of all guidelines, security procedures, safety, and incident response. Employee training records will become a written testament of the detailed information and accountability of security education.

INVESTIGATION OF DIVERSION

Due to intense and robust security operations, we do not anticipate diversion at our facility. However, it is important to be prepared for any scenario. We have developed an enhanced investigation procedure for any allegations or reports of potential diversion. Any allegation or report will be fully and immediately investigated by the DPT with established processes and timeframes.

Security policies developed by our Company outline that the first step of investigation is to preserve all possible evidence. Evidence needs to be persevered for the investigation and may be used in future disciplinary matters. The second step of investigation shall be to review all camera footage and other relevant information technology. Each marijuana product is tracked from seed to sale. Therefore, if diversion occurred, it will likely appear in an audit of the tracking software. The third step of investigation will be to interview the employee who engaged or
allegedly engaged in diversion. This step can only be executed if enough evidence is gathered to narrow down the suspect. The goal of the interview is to get the subject to confess how they diverted product to prevent future incidents from occurring. The fourth step of investigation will be to report the confirmed incident of diversion and suspect to law enforcement and the Department. The Site Manager shall be the point of contact for all law enforcement inquires and will turn over all relevant evidence to law enforcement and the Department. The final step of investigation is to develop policies and procedures to prevent the incident from happening again. Once new policies have been developed by the DPT, an all staff training shall be given. The training will be a top down review of all security policies including any updated procedures.

INCIDENT RESPONSE

We shall establish incident response procedures addressing any incident that may occur, including natural disaster, unauthorized access, theft, or IT security breach. Procedures shall be in accordance with the rules set forth by the Department and all applicable state and local laws, regulations, ordinances, and other requirements. Procedures for general emergency and incident management, containment, and corrective measures shall be thoroughly detailed. The Director of Compliance shall ensure the appropriate response procedures are followed. All employees shall receive incident response training annually. The Site Manager shall determine the category and severity of the incident and determine the next best course of action. All discussions, decisions, and activities shall be documented.

We shall immediately notify appropriate law enforcement authorities and the Department immediately after the discovery of a reportable incident as defined by state and local laws, regulations, ordinances, and other requirements. Examples of an incident may include, but are not limited to:

- Theft or physical loss of marijuana or confidential records.
- Breach of our network servers.
- Robbery or unauthorized entry in the Grow Facility.
- Threats of violence to the Grow Facility, employees, or visitors.
- Bomb threats.
- Any criminal activity.
- Civil disturbances.
- Hazardous spills.
- Infectious disease epidemic.
- Serious accidents.
- Fires.
- Earthquakes.
- Floods.
- Windstorms or tornadoes.
INCIDENT REPORTING

Anyone with knowledge or a reasonable suspicion of an incident is instructed to make an immediate report to the Grow Facility Manager or the Site Manager. The person reporting the incident shall complete the Incident Log.

- Date and time of occurrence or suspected occurrence.
- Names and contact information of parties involved and any witnesses.
- Description of incident.
- Completed Suspect Description Forms, if applicable.
- Any evidence supportive of the event (unless law enforcement is required on scene or en route).

We shall notify appropriate law enforcement authorities and the Department immediately after discovering the following:

- Discrepancies identified during inventory; diversion, theft, or loss of marijuana; or any criminal action involving an employee.
- Theft, robbery, or burglary; sale to minors; diversion of marijuana or marijuana products; or any other crime related to marijuana.
- Any suspicious act involving the sale, cultivation, distribution, processing, or production of marijuana by any person.
- Unauthorized destruction of marijuana.
- Any loss or unauthorized alteration of records.
- An alarm activation or other event that requires a response by public safety personnel.
- Integrity of the inventory management system compromised.
- An IT security breach.
- The failure of any security alarm system due to a loss of electrical power or mechanical malfunction that is expected to last longer than eight (8) hours.
- Any other breach of security defined by the rules set forth by the Department.

UNAUTHORIZED ENTRY/ROBBERY CONTAINMENT AND CORRECTIVE PROCEDURES

In the event a threat is present to persons, cash, or product due to unauthorized entry, employees shall be trained to perform the following:
- Notify law enforcement utilizing a panic alarm, only if it can be safely done without being obvious to the robber.
- Do not resist the robber or use or encourage the use of weapons or force against the robber.
- Try to inform the robber of any potential surprises (e.g., an employee is due back from lunch or the building alarm is set to be tested).
- Try to keep employees and visitors, if applicable, calm during the robbery.
- Try to alert other employees of the situation using pre-determined signals or text messages, only if safe to do so.
- Follow the robber’s commands in order to shorten the time of the incident. Do not argue with the robber, but do not volunteer to help.
- If the robber demands a certain amount of money or product, only give them that amount.
- Be observant in order to be a good witness. Try to remember:
  - The number of robbers.
  - The physical characteristics of the robber(s), such as weight, scars, tattoos, hair color, or speech patterns.
  - The clothing worn by the robber(s).
  - Any names used by the robber(s).
  - A description of any weapons shown, such as barrel length and color, color of the grip, or automatic or revolver.
- If the robber uses a note, try to place it out of sight to retain it as evidence.
- Do not follow a robber.
- Secure the Grow Facility and place a notice that the business is closed due to an emergency.
- Call the police and ambulance, as needed, immediately and request that witnesses stay or obtain their contact information.
- Provide aid to injured people.
- Do not discuss the robbery with any outside parties until police and management has given authority to do so.
- Do not estimate the amount of money or product that was taken until an inventory has been performed.

Corrective procedures that may be required to return conditions to a normalized and secure state:
- Change all security codes.
- Replace locks and issue keys only to authorized employees.
• Ensure any video of the incident is archived.
• Restore security devices and/or apparatus to working condition.
• Repair any physical damage to the Grow Facility.
• Provide employees and visitors, if applicable, counseling, as needed.
• Perform a security re-training as soon as possible.
• Modify Employee Access Control Log as deemed appropriate.

INTERNAL THEFT/BURGLARY CONTAINMENT AND CORRECTIVE PROCEDURES

In the event a threat is present to persons, cash, product due to internal theft or burglary, employees shall be trained to perform the following:

• Identify missing or compromised assets.
• Gather, remove, recover, and secure sensitive materials to prevent further loss or access.
• Power down, recycle or remove security equipment known to be compromised.
• Where possible, secure the premises for possible analysis by the Department and law enforcement.
• Gather and secure any evidence of illegal entry for review by the Department and law enforcement.
• Where possible, record identities of any party who might be a possible witness to events.
• Preserve video recordings and Visitor logs for review by the Department and law enforcement.

Corrective procedures that may be required to return conditions to a normalized and secure state:

• Retrieve or restore assets where possible.
• Store all sensitive materials and products in a secure manner (e.g., lockable cabinets or storage areas/container).
• Replace locks and issue keys only to authorized employees. Update the Employee Access Control Log as necessary.
• Restore security devices and/or apparatus to working condition.
• Remove and retain unauthorized equipment from network and/or area.
• Implement physical security devices and improvements (e.g., equipment cables, alarms) as deemed appropriate.
• Perform a security re-training as soon as possible.
FIRE PROCEDURES

If a fire does not present an immediate danger to personal safety, one (1) employee shall try to extinguish the fire. If a fire presents an immediate danger to personal safety, a fire alarm shall be pulled and a call to 911 shall be immediately made and evacuation of the building shall occur all at once.

Evacuation of Grow Facility

Any director or manager may determine the need to evacuate. Reasons for evacuation may include:

- Fire.
- Bomb threat.
- A hostile or violent employee, visitor, or unknown person.
- Power outage.
- Earthquake.
- Water or gas leak.
- Hazardous spill.
- Robbery or hostage situation.

The Site Manager shall ensure that all employees and visitors, if applicable:

- DO NOT gather in lobbies.
- DO NOT open a door without first checking for heat.
- DO NOT touch any suspicious items or suspected bombs.
- DO NOT run or panic.
- DO NOT re-enter the building until authorized.
- DO assist disabled individuals or others who need assistance. Evacuate disabled individuals or others who need assistance ONLY under the direction of authorized emergency personnel or when there is an immediate threat to personal safety and security.

INCIDENT CONTAINMENT

The Site Manager, in coordination with the appropriate department directors or managers, shall determine and implement the appropriate activities and processes required to quickly contain and minimize the immediate impact to personal safety, the Grow Facility, and other affected parties. Containment activities shall be designed to:

- Minimize harm to individuals.
- Counteract the immediate threat.
- Prevent propagation or expansion of the incident.
- Minimize actual and potential damage.
- Restrict knowledge of the incident to authorized employees.
- Preserve information relevant to the incident.

The Site Manager, in coordination with the appropriate department directors or managers, shall determine and implement the appropriate activities and processes to quickly:

- Secure the environment.
- Restore the environment to its normalized state.

The Site Manager shall be actively engaged throughout the incident to assess the progress of all containment and corrective measures and determine at what point the incident can be considered resolved.

INCIDENT CONTAINMENT AND CORRECTIVE PROCEDURES

The Site Manager shall determine and implement the appropriate procedures required to quickly contain and minimize the immediate impact of an incident, as well as to quickly restore circumstances to a normalized, secure state. Containment and corrective measures shall be designed with the primary objectives of:

- Minimizing harm.
- Counteracting the immediate threat.
- Preventing propagation or expansion of the incident.
- Minimizing the actual and potential damage.
- Restricting knowledge of the incident to authorized employees.
- Preserving information relevant to the incident.
- Securing the environment.
- Restoring the environment to its normalized state.

POST-INCIDENT REVIEW, REPORT, AND FOLLOW UP

The Site Manager shall hold a Post-Incident Review after each incident has been resolved. The Post-Incident Review shall be scheduled within two (2) to three (3) weeks of the incident's resolution and shall involve:

- Appropriate personnel, which may include affected parties.
- Examination of the incident and all related activities and events.
- Discussion on proposed changes to policy, processes, and safeguards.
All incident activities, from receipt of the initial report through post-incident review, shall be documented. The Site Manager shall ensure all events are recorded, assembling these records in preparation and performance of the post-incident review, and ensuring all records are preserved for review. The following shall be included, at a minimum, in the Post-incident Report:

- A description of incident events with specific timelines.
- Employee(s) involved.
- Non-Employees involved.
- Impact to affected parties.
- Discussions, decisions, and assignments made.
- Successful and unsuccessful activities.
- Notifications required or recommended.
- Steps taken for containment and resolution.
- Recommendations for prevention and remediation (short-term and long-term).
- Identification of policy and procedure gaps.
- Results of post-incident review.
- Any necessary follow-up actions.

The Post-incident Report shall be distributed to the Site Manager, the Grow Facility Manager, and all other relevant parties for review. The Site Manager shall ensure the appropriate employees are assigned to any follow-up actions. The Site Manager shall document the completion of all follow-up actions in the Post-incident Report and distribute an updated copy.

SECURITY SYSTEM RECORDS

We shall keep all necessary books and records in order to render a full account of all operations conducted at the Grow Facility under our license for the year to date and the five (5) years prior. We shall keep books and records of the Grow Facility from the previous six (6) months (or the complete copies of such records) in the Grow Facility at all times. All marijuana related records shall be retained in the inventory management system. All surveillances recordings shall be retained, at a minimum for at least sixty (60) days, unless in instances of investigation or inspection by the Department, through its investigators, agents, auditors, or the state police, in which case the licensee shall retain the recordings until such time as the department notifies the licensee that the recordings may be destroyed. Our standard operating procedures shall detail the maintenance of records and measures for addressing and reporting any loss or unauthorized alteration of records. The Department, upon request, shall have full access to all Grow Facility records and surveillance recordings.

We shall keep and maintain security and surveillance system records and recordings in the Grow Facility and copies stored on a secure cloud storage. These records shall include, at a minimum, the following:

- The name of the surveillance equipment installation service provider and all equipment manufacturers.
- Copies of any service contracts.
• A map of the Grow Facility showing the location and operation of each surveillance system component, including the direction of camera coverage.

• A list of authorized users.

• Manufacturers’ instructions for operating and maintaining the equipment.

• Testing and maintenance logs.

• Reports of any incidents of unauthorized entry.

• Employee Access Control Logs.

• Visitor Registration Logs.

• Authorized Visitor Access Control Logs.

• Incident Logs and Post-Incident Reports.

• Reports of any interruption in monitoring and/or complete failure of the system, including the length of the interruption period.

• A log of the recordings, which includes:
  
  o The identities of the employee or employees responsible for monitoring the video surveillance system.

  o The identity of the employee who removed the recording from the video surveillance system.

  o The identity of the employee who destroyed any recording.

• Video surveillance recordings shall be:
  
  o In a digital format that ensures authentication of the recording as being legitimately captured without alterations.

  o Easily accessible and in a format that allows for viewing and copying.

  o Embedded with the date and time without significantly obscuring the picture.

We will maintain a log of all recordings, which will include a minimum:

• The identities of the employee or employees responsible for monitoring the video surveillance system.

• The identity of the employee who removed the recording from the video surveillance system storage device and the time and date removed.

• The identity of the employee who destroyed any recording.

Video surveillance recordings shall be stored on an NVR that is server-based with storage as required to meet recording rate and retention. This system shall be password-protected and separate from any other equipment in the Grow Facility. The files and video surveillance recordings shall be available for inspection, upon request, by authorized representatives of the Department and other government officials when necessary to perform their official duties.

After the expiration of the retention period, and before selling or closing the facility, the surveillance video recordings shall be erased, destroyed, or otherwise disposed. We shall not destroy any surveillance video recordings if we have knowledge or should have knowledge of any ongoing criminal, civil, administrative, or other official investigations or proceedings for which the recording may contain relevant information. Additionally, we shall not destroy any surveillance
video recordings in instances of investigation or inspection by the Department, through its investigators, agents, auditors, or the state police, in which case the recordings shall be retained until such time as the Department notifies us that the recordings may be destroyed.
Security and Surveillance Equipment Room Access List

This is the current list of individuals having access to our Security and Surveillance Equipment Storage Room. Only those on this list are essential to maintain security and surveillance operations. All others will be denied access to the Security and Surveillance Equipment Room.

This list is available to the Department or authorized agents immediately upon request.

I. Organizational Structure
ADDITIONAL DOCUMENTS
CERTIFICATE OF AMENDMENT TO THE ARTICLES OF ORGANIZATION
For use by DOMESTIC LIMITED LIABILITY COMPANY

Pursuant to the provisions of Act 23, Public Acts of 1993, the undersigned executes the following Certificate of Amendment:

The identification number assigned by the Bureau is: 802483853
The name of the limited liability company is: HELLER INVESTMENT HOLDINGS, LLC
The date of filing the original Articles of Organization was: 7/17/2020

Complete only those articles being amended.

Article I

The name of the limited liability company as amended, is: TYCOON I OPERATIONS, LLC

The amendment was approved by unanimous vote of all the members entitled to vote.

This document must be signed by a member, manager, or an authorized agent:

HELLER INVESTMENT HOLDINGS, LLC

ID Number: 802483853

received by electronic transmission on July 17, 2020, is hereby endorsed.

Filed on July 17, 2020, by the Administrator.

The document is effective on the date filed, unless a subsequent effective date within 90 days after received date is stated in the document.

In testimony whereof, I have hereunto set my hand and affixed the Seal of the Department, in the City of Lansing, this 17th day of July, 2020.

Linda Clegg, Interim Director
Corporations, Securities & Commercial Licensing Bureau
WE ASSIGNED YOU AN EMPLOYER IDENTIFICATION NUMBER

Thank you for applying for an Employer Identification Number (EIN). We assigned you EIN 85-2192285. This EIN will identify you, your business accounts, tax returns, and documents, even if you have no employees. Please keep this notice in your permanent records.

When filing tax documents, payments, and related correspondence, it is very important that you use your EIN and complete name and address exactly as shown above. Any variation may cause a delay in processing, result in incorrect information in your account, or even cause you to be assigned more than one EIN. If the information is not correct as shown above, please make the correction using the attached tear-off stub and return it to us.

Based on the information received from you or your representative, you must file the following form(s) by the date(s) shown.

Form 941  01/31/2021
Form 940  01/31/2021

If you have questions about the form(s) or the due dates(s) shown, you can call us at the phone number or write to us at the address shown at the top of this notice. If you need help in determining your annual accounting period (tax year), see Publication 558, Accounting Periods and Methods.

We assigned you a tax classification based on information obtained from you or your representative. It is not a legal determination of your tax classification and is not binding on the IRS. If you want a legal determination of your tax classification, you may request a private letter ruling from the IRS under the guidelines in Revenue Procedure 2004-1, 2004-1 I.R.B. 1 (or superseding Revenue Procedure for the year at issue). Note: Certain tax classification elections can be requested by filing Form 8832, Entity Classification Election. See Form 8832 and its instructions for additional information.
If you are required to deposit for employment taxes (Forms 941, 943, 940, 944, 945, CT-1, or 1042), excise taxes (Form 720), or income taxes (Form 1120), you will receive a Welcome Package shortly which includes instructions for making your deposits electronically through the Electronic Federal Tax Payment System (EFTPS). A Personal Identification Number (PIN) for EFTPS will also be sent to you under separate cover. Please activate the PIN once you receive it, even if you have requested the services of a tax professional or representative. For more information about EFTPS, refer to Publication 966, Electronic Choices to Pay All Your Federal Taxes. If you need to make a deposit immediately, you will need to make arrangements with your Financial Institution to complete a wire transfer.

The IRS is committed to helping all taxpayers comply with their tax filing obligations. If you need help completing your returns or meeting your tax obligations, Authorized e-file Providers, such as Reporting Agents (payroll service providers) are available to assist you. Visit the IRS Web site at www.irs.gov for a list of companies that offer IRS e-file for business products and services. The list provides addresses, telephone numbers, and links to their Web sites.

IMPORTANT REMINDERS:

* Keep a copy of this notice in your permanent records. This notice is issued only one time and IRS will not be able to generate a duplicate copy for you. You may give a copy of this document to anyone asking for proof of your EIN.

* Use this EIN and your name exactly as they appear at the top of this notice on all your federal tax forms.

* Refer to this EIN on your tax-related correspondence and documents.

* Provide future officers of your organization with a copy of this notice.

Your name control associated with this EIN is TYCO. You will need to provide this information, along with your EIN, if you file your returns electronically.

If you have questions about your EIN, you can contact us at the phone number or address listed at the top of this notice. If you write, please tear off the stub at the bottom of this notice and include it with your letter. Thank you for your cooperation.
Keep this part for your records.

Return this part with any correspondence so we may identify your account. Please correct any errors in your name or address.

OPERATING AGREEMENT
OF
TYCOON I OPERATIONS, LLC

THIS OPERATING AGREEMENT (this "Agreement") is entered into and made effective as of July 22, 2020 (the "Effective Date") by and between TYCOON I OPERATIONS, LLC, a Michigan limited liability company (the "Company"), and TYCOON HOLDINGS, LLC, a Michigan limited liability company and sole member of the Company (the "Member").

Background

A. The Company was formed on July 22, 2020 as a Michigan limited liability company.

B. The undersigned desires to memorialize its rights and obligations with respect to the Company pursuant to the terms of this Agreement.

Agreement

In consideration of the foregoing background and for other good and valuable consideration, the receipt and sufficiency of which is hereby acknowledged, and intending to be legally bound hereby, the parties agree as follows:

ARTICLE I
DEFINITIONS

The following capitalized terms used in this Agreement shall have the following meanings (unless otherwise expressly provided herein):

"Act" means the Michigan Limited Liability Company Act, as amended.

"Business" means the principal business of the Company, which shall be to own and manage investments.

"Capital Contribution" means any contribution of cash or property to the Company, or any obligation to contribute cash or property to the Company, whenever made.

"Certificate" means the Articles of Organization as filed by the organizer of the Company with the Department of State of the State of Michigan, as amended.

"Code" means the Internal Revenue Code of 1986, as amended, or corresponding provisions of subsequent superseding federal revenue laws.

"Interest" means the Member's entire interest in the Company.
“Person” means any individual, trust, partnership, corporation, limited liability company or entity.

ARTICLE II
FORMATION OF COMPANY

2.1 Formation. The Company has been organized as a Michigan limited liability company by executing and delivering the Certificate in accordance with and pursuant to the Act.

2.2 Name. The name of the Company is Tycoon I Operations, LLC.

2.3 Registered Office. The address of the registered office of the Company shall be The CSC – Lawyers Incorporating Service, 601 Abbot Road, East Lansing, Michigan 48823, or at such other place as the Member may from time to time determine. The registered office of the Company may be changed from time to time by amending the Certificate in accordance with the Act. The Company may maintain such other offices, including, but not limited to, a principal place of business as the Member shall determine.

2.4 Purpose. The purposes of the Company shall be (a) to advance and grow the Business, (b) to engage in all other lawful business authorized pursuant to the Act, and (c) to make, enter into and perform any contracts and other undertakings, and to engage in any activities and transactions as may be ancillary to or necessary or advisable to carry out the foregoing purposes.

2.5 Term. The term of the Company shall be perpetual unless the Company is earlier dissolved in accordance with the provisions of this Agreement.

ARTICLE III
CAPITAL CONTRIBUTIONS; LOANS; DISTRIBUTIONS

3.1 Capital Contributions. The Company shall keep a record of all Capital Contributions made by the Member. The Member shall not be required to make any Capital Contribution to the Company not specifically agreed to in writing between the Member and the Company.

3.2 Loans. Any and all loans made to the Company by the Member shall not be considered Capital Contributions.

3.3 Distributions. Distributions shall be made to the Member (in cash or in kind) at such times and in such amounts determined by the Member and as permitted by applicable law.
ARTICLE IV
MEMBER

4.1 Member. The name and address of the Member is:

Tycoon Holdings, LLC
2055 Crooks Road, Suite B
Rochester Hills, MI 48309

4.2 Management. The Company shall be initially managed by Heller Investment Holdings, LLC.

4.3 Right to Rely on Member. Any Person dealing with the Company may rely (without duty of further inquiry) upon a certificate signed by a designee of the Member as to: (a) the identity of the Member; (b) the existence or non-existence of any fact or facts which constitute a condition precedent to acts by the Member or which are in any manner germane to the affairs of the Company; (c) the Persons who are authorized to execute and deliver any instrument or document of the Company; or (d) any act or omission by the Company or any other matter whatsoever involving the Company or the Member.

4.4 Authority to Designate Officers. The Member may elect, appoint or designate, by resolution or otherwise, individuals as officers of the Company and delegate to such officers such powers, authority and responsibilities as are (i) set forth in the designation or delegation, and (ii) necessary to carry out and implement the management decisions of the Member. The Member may remove any officer, with or without cause, at any time. Any officer may resign at any time by giving written notice to the Company. Any resignation shall take effect as of the date of the Company's receipt of such notice or at any later time specified in such notice (unless such officer is otherwise removed prior to such date); and unless otherwise specified in such notice, the acceptance of the resignation shall not be necessary to make it effective. Unless the Member decides otherwise, if the title to an officer of the Company is one commonly used for officers of a business corporation, the assignment of such title shall constitute the delegation to such individual of the authority and duties that are normally associated with that office. The current officers of the Company are as set forth on Schedule A attached hereto, as may be amended from time to time.

4.5 Liability of Member and Officers. Neither the Member nor any officer, agent or representative of the Member, or officer of the Company, shall be liable to the Company or to the Members, as applicable, for (i) the performance of, or the failure to perform, any act or duty on behalf of the Company if, in good faith, the Members or officer determined that such conduct was in the best interests of the Company and such conduct did not constitute fraud, gross negligence or reckless or intentional misconduct, (ii) the termination of the Company and this Agreement pursuant to the terms hereof, and (iii) the performance of, or the failure to perform, any act on behalf of the Company in good faith reliance on advice of legal counsel, accountants or other professional advisors to the Company.
4.6 **Indemnification.** The Company shall indemnify, defend and hold the Member and the officers, agents and representatives of the Member, and each officer of the Company and, in the discretion of the Member, each employee of the Company, harmless from and against any expense, loss, damage or liability incurred or connected with, or any claim, suit, demand, loss, judgment, liability, cost or expense (including reasonable attorneys' fees) arising from or related to, the Company or any act or omission of such Member (or officer, agent or representative of the Member) or officer (or employee) and amounts paid in settlement of any of the foregoing, to the fullest extent provided or allowed by the laws of the State of Michigan. The Company may advance to any such Person the costs of defending any claim, suit or action against such Person.

4.7 **Title to Company Property.** All real and personal property shall be acquired in the name of the Company and title to any property so acquired shall vest in the Company itself rather than in the Member.

**ARTICLE V**

**ACCOUNTING AND TAX MATTERS**

5.1 **Accounting Principles.** The Company's financial statements shall be prepared and its profits and losses shall be determined in accordance with methods of accounting selected by the Member, which need not be the same as the method of accounting used for tax purposes.

5.2 **Returns and Other Elections.** The Member shall cause the preparation and timely filing of all tax returns required to be filed by the Company pursuant to the Code and all other tax returns deemed necessary and required in each jurisdiction in which the Company does business. All elections permitted to be made by the Company under federal or state laws shall be made by the Member in its sole discretion. So long as the Company has only one member, the Company shall be treated as a disregarded entity for income tax purposes.

**ARTICLE VI**

**TRANSFERS; ADDITIONAL MEMBERS**

6.1 **Transferability of Membership Interest.** The Member's Interest in the Company is freely transferable or assignable, in whole or in part, either voluntarily or by operation of law.

6.2 **Admission of Additional Members.** Additional members of the Company may be admitted to the Company at the direction of the Member only if a new operating agreement or an amendment and restatement of this Agreement is executed by such additional member or members.
ARTICLE VII
DISSOLUTION AND LIQUIDATION

7.1 Dissolution.

(a) The Company shall be dissolved and its affairs wound up and terminated only upon the determination of the Member. The dissolution or bankruptcy of the Member or the occurrence of any other event that terminates the continued membership of the Member shall not cause a dissolution of the Company.

(b) Dissolution of the Company shall be effective on the day on which an event described in Section 7.1(a) above occurs, but the Company shall not terminate until articles of dissolution shall be filed with the Department of State of the State of Michigan and the assets of the Company are distributed as provided in Section 7.2 below. Notwithstanding the dissolution of the Company, prior to the termination of the Company, the business of the Company and the affairs of the Member shall continue to be governed by this Agreement.

7.2 Winding Up. Upon dissolution, the Company shall continue until the winding up of the affairs of the Company is completed and a certificate of dissolution has been filed pursuant to the Act. Upon the winding up of the Company, the Company’s property shall be distributed (a) first to creditors, including the Member if the Member is a creditor, to the extent permitted by law, in satisfaction of the Company’s liabilities, and (b) then to the Member. Distributions shall be in cash or property or partly in both, as determined by the Member.

ARTICLE VIII
MISCELLANEOUS PROVISIONS

8.1 Notices. Any notice, demand or communication required or permitted to be given by any provision of this Agreement shall be in writing and shall be deemed to have been delivered (a) two business days after being sent by registered or certified United States mail, or (b) upon delivery if hand delivered, sent via facsimile transmission or electronic mail. If delivered to the Member, such notice shall be delivered to his address as it appears in Section 4.1 above. If to the Company, such notice shall be delivered to its principal place of business.

8.2 Governing Law. This Agreement, and the application and interpretation hereof, shall be subject to and governed exclusively by its terms and by the laws of the State of Michigan, without regard to its conflicts of laws provisions.

8.3 Construction. Whenever the singular number is used in this Agreement and when required by the context, the same shall include the plural and vice versa, and the masculine gender shall include the feminine and neuter genders and vice versa. Unless expressly stated otherwise, Section and Article references herein shall refer to the Sections and Articles of this Agreement.

8.4 Waivers. No waiver by any party of the breach of any provision hereof shall be deemed to constitute a waiver of any continuing or subsequent breach of such provision or any other provision hereof.

§2323
8.5 **Severability.** If any provision of this Agreement or the application thereof to any Person or circumstance shall be invalid, illegal or unenforceable to any extent, the remainder of this Agreement and the application thereof shall not be affected and shall be enforceable to the fullest extent permitted by law, provided that the essential purpose of this Agreement is not frustrated.

8.6 **Heirs, Successors and Assigns.** The covenants, terms, provisions and agreements herein contained shall be binding upon, and inure to the benefit of, the parties hereto and, except as otherwise provided to the contrary, their respective heirs, executors, administrators, legal representatives, successors and permitted assigns.

8.7 **Entire Agreement.** This Agreement embodies the entire agreement and understanding between the parties hereto with respect to the subject matter hereof and supersedes all prior agreements and understandings relating to such subject matter.

STAFFING PLAN

Summary of Job Creation, Compensation and Budget

As discussed in detail below, we anticipate creating approximately 59 jobs at our Orion Township Cultivation Facility.

<table>
<thead>
<tr>
<th>Type of Marijuana Facility</th>
<th>Proposed Location</th>
<th>Total Jobs Per Facility</th>
<th>Expected Annual Payroll</th>
</tr>
</thead>
<tbody>
<tr>
<td>Cultivation Facility</td>
<td>Orion Township</td>
<td>59</td>
<td>$3,750,000.00</td>
</tr>
</tbody>
</table>

We pay our cultivation facility employees a minimum hourly wage of $15. We also provide a generous benefit package that includes the following:

- Health Insurance
- Paid Holidays
- Paid Time Off
- 401K Plan with 2% Match
- Performance Incentives

Out of our 3.75MM expected annual payroll, Tycoon I Operations expects to allocate $630,000 toward benefits for all full-time employees!

We intend to source our employees first from Orion Township, then into the surrounding regional area. Our job listings will always be listed in the Orion Township area first to accumulate as many qualified candidates as possible.

Attached is a table of the proposed positions at our Orion Cultivation Facility:

TO: The Charter Township of Orion Planning Commission  
FROM: Tammy Girling, Planning & Zoning Director  
DATE: January 12, 2021  
RE: PC-2021-__, Tycoon I, LLC, Ordinance 154 Applications

As requested, I am providing suggested motions for the abovementioned projects. Please feel free to modify the language. The verbiage below could substantially change based upon the Planning Commissions findings of facts for the project. Any additional findings of facts should be added to the motion below.

PLEASE NOTE: THIS SUGGESTED MOTION CAN BE USED FOR THE MEDICAL CLASS “C” GROWING FACILITIES FOR PC-2021-10 THROUGH PC-2021-17 AND PC-2021-32 THROUGH 35. EACH CASE REQUIRES A SEPARATE MOTION.

Ordinance #154 – Medical Class “C” Growing Facilities

I move to grant/not grant approval of the application, as required per Ord. #154, for PC-2021-__, Tycoon I, LLC, for a Medical Class “C” growing facility, located at 180 Premier Dr., (parcel 09-35-477-001 & 09-35-477-002) based on the finds of fact that the operation does/does not meet the following location requirements:
- Is located in and IP zoning district
- Is located in a building that meets all the distance requirements shown in Ord. 154
- Is located in a building that has an ingress/egress road with less than 6,000 vehicles/day.
- Is located in a building that has an ingress/egress road that does not service as a road that also serves for residential zoning.

If motion is grant approval - conditioned upon:

1. The applicant meets all applicable Township Ordinances and promulgated standards of the Township and, prior to opening, shall demonstrate to the Township that it meets the rules and regulations promulgated by the State Medical Marihuana Licensing Board.

PLEASE NOTE: THIS SUGGESTED MOTION CAN BE USED FOR THE EXCESS GROW FACILITIES FOR PC-2021-18 THROUGH PC-2021-26. EACH CASE REQUIRES A SEPARATE MOTION.

Ordinance #154 – Excess Grow Facilities

I move to grant/not grant approval of the application, as required per Ord. #154, for PC-2021-__, Tycoon I, LLC, for an Excess Grow facility, located at 180 Premier Dr., (parcel 09-35-477-001 & 09-35-477-002) based on the finds of fact that the operation does/does not meet the following location requirements:
Is located in and IP zoning district
Is located in a building that meets all the distance requirements shown in Ord. 154
Is located in a building that has an ingress/egress road with less than 6,000 vehicles/day.
Is located in a building that has an ingress/egress road that does not service as a road that also serves for residential zoning.

If motion is grant approval - conditioned upon:

1. The applicant meets all applicable Township Ordinances and promulgated standards of the Township and, prior to opening, shall demonstrate to the Township that it meets the rules and regulations promulgated by the State Medical Marihuana Licensing Board.

PLEASE NOTE: THIS SUGGESTED MOTION CAN BE USED FOR THE ADULT-USE CLASS “C” GROW FACILITIES FOR PC-2021-27 THROUGH PC-2021-31. EACH CASE REQUIRES A SEPARATE MOTION.

Ordinance #154 – Adult-Use Class “C” Grow Facility

I move to grant/not grant approval of the application, as required per Ord. #154, for PC-2021-__, Tycoon I, LLC, for an Adult-Use Class “C” Grow facility, located at 180 Premier Dr., (parcel 09-35-477-001 & 09-35-477-002) based on the finds of fact that the operation does/does not meet the following location requirements:
• Is located in and IP zoning district
• Is located in a building that meets all the distance requirements shown in Ord. 154
• Is located in a building that has an ingress/egress road with less than 6,000 vehicles/day.
• Is located in a building that has an ingress/egress road that does not service as a road that also serves for residential zoning.

If motion is grant approval - conditioned upon:

1. The applicant meets all applicable Township Ordinances and promulgated standards of the Township and, prior to opening, shall demonstrate to the Township that it meets the rules and regulations promulgated by the State Medical Marihuana Licensing Board.
CHARTER TOWNSHIP OF ORION
ORDINANCE No. 154 APPLICATION REVIEW

Planning Commission Case:   PC-2021-32
Parcel Number:  09-35-477-001 & 09-35-477-002
Property Address:  180 Premier Drive
Applicant:  Tycoon I Operations LLC
Request: Class “C” Grower - Medical
Date: February 12, 2021

The aforementioned application was reviewed for compliance with the location requirements of Article VI of Ordinance No. 154 and the finds are detailed below:

Article V, 1. – The Facility must be located in the Township’s IP (Industrial Park) district:  The parcels are zoned IP (Industrial Park) as required.

Article V, 2 – The Facility cannot be within one thousand five hundred (1,500) feet of a “church” in the Township: Article VI, 7 states that the distances specified in the Ordinance shall be measured from building edge to building edge. The applicant stated within their application that the facility is more than the required 1,500 feet. Using GIS, a measurement was taken from the edge of the property where the building is located (for simplicity vs. from edge of building which is further) to the edge of the closest church and it was over 1,600 feet.

Article VI, 3 – The Facility cannot be within two thousand (2,000) feet of a residence located in a R-1, R-2, R-3, SF, SE, SR, RM or MHP zoning district:  Article VI, 7 states that the distances specified in the Ordinance shall be measured from building edge to building edge. The applicant stated within their application that the facility is more than the required 2,000 feet. Using GIS, a measurement was taken from the edge of the property where the building is located (for simplicity vs. from edge of building which is further) to the edge of the closest residential property line (for simplicity) and it was 2,500 feet.

Article VI, 4 – The Facility cannot be within two thousand five hundred (2,500) feet of a registered “school” within the Township: Article VI, 7 states that the distances specified in the Ordinance shall be measured from building edge to building edge. The applicant stated within their application that the facility is more than the required 2,500 feet. The closest school is over 2 miles from the parcel. (Scripps and Stadium Rds.)
Article VI, 5 – The Facility shall not have an ingress or egress on a street or road that has an average traffic volume in excess of six thousand (6,000) vehicles per day, as calculated by averaging the three (3) most recent Average Annual Daily Traffic (AADT) counts (as available), as reported by Southeast Michigan Council of Governments (SEMCOG). The building has ingress and egress off of Premier Drive. SEMCOG’s website does not contain any traffic count reports for Premier Dr.

Article VI, 6- The Facility shall not have an ingress or egress on a street or road that directly also serves as an ingress or egress to a residential road or property located in a R-1, R-2, R-3, SF, SE, SR, RM or MHP zoning district. The building has both ingress or egress off of Premier Dr. Premier Dr. does not serve as an ingress and/or egress to any property located in a R-1, R-2, R-3, SF, SE, SR, RM or MHP zoning district.

Article VI, 7 - Distances specified in this Ordinance shall be measured from building edge to building edge. The measurements, unless noted differently, were measured from building edge to proposed building edge.

Article VI, 8 – If the Facility shall need a variance from what is set forth in Article VI Sections one (1) through six (6) above, the Applicant may submit a formal request for a variance to the Zoning Board of Appeals (“ZBA”). The ZBA shall only consider a variance request that is no more than fifteen percent (15%) out of compliance with the above location regulations. The applicant is not requesting any variances from the ZBA.

Article VI, 9 – It is the Township’s intention that Growers, Processors, Safety Compliance Facilities and Secured Transporters may operate within the same building under the following conditions: each licensed entity remains distinct and separate within different working area and separate record keeping systems. The applicant is requesting a Class “C” Grow - Medical facility only.

Article VI, 10 – The location shall meet all applicable Ordinances and promulgated standards of the Township and, prior to opening, shall demonstrate to the Township that it meets the rules and regulations promulgated by the State Marijuana Regulatory Agency (MRA):

ITEMS TO BE ADDRESSED: These items are unknown at this time. It is recommended that any approval be conditioned upon this requirement.

Article VI, 11 – The Facility location shall conform to all standards of the zoning district in which it is located: This condition has been met. The building itself has received site plan approval.

2332
Article VI, 12 – If the Facility location is currently vacant land, the applicant must submit a site plan and building plans with the Application: The application is for an improved parcel that has received site plan approval.

Article VI, 14 – Based upon an application for or amendment of a Conditional Rezoning, PUD, or other use Development Agreement of sufficient specificity, it is within the sole discretion and judgment of the Township Board of Trustees to consider and waive any or all of the Location Requirements of this Article VI based upon any or all of 3 factors listed in Article VI 14 a,b, and c.: The applicant is not requesting any waivers.

Summary: I have reviewed the application as it relates to Ordinance No. 154 Article VI – Location Requirements. I am agreeable with the recommendation to approve this application with the conditions that:

1. The applicant meets all other applicable Township Ordinances and promulgated standards of the Township and, prior to opening, shall demonstrate to the Township that it meets the rules and regulations promulgated by the State Mariujana Regulatory Agency (MRA).

Re: Marihuana Facility Permit Application; Tycoon I Operations, LLC  
180 Premier Drive, Orion Charter Township, MI 48359  
Medical Class C Grow 1 of 4

Dear Madam Clerk:

Please find attached a Marihuana Facility Permit Application and all exhibits for four Medical Class C Grow permits to operate at 180 Premier Drive, Orion Charter Township, MI 48359. This application represents one of four of the medical permits.

If the Township believes any additional information or materials are required for this filing, please do not hesitate to contact us. Kindly direct all communications regarding this application to Aaron Fogleman either by phone at 248.920.8770 or by email at licensing@gloriouscanna.com.

We look forward to contributing significantly to the Township through economic development, training and employment, education and outreach, and to becoming a valuable community partner.

Thank you for your consideration.

ORION ORDINANCE 154 INITIAL PERMIT APPLICATION  
Ordinance 154, Licensed Marihuana Facilities Ordinance

Pursuant to the Charter Township of Orion Ordinance 154, Licensed Marihuana Facilities Ordinance, the following application is intended to collect information and documentation establishing the applicant’s conformance with the ordinance. All applicants should note that the approval of a Marihuana Permit will be based upon the accuracy and completeness of the information provided. In the event applications are received in excess of the permitted number of locations within the Ordinance or two or more applicants have similar qualifications, the Charter Township of Orion reserves its right to approve a permit which in the opinion of the Township best meets its goals and safeguards as set forth in the Ordinance. No financial or other right is established by the payment of the non-refundable application fee. All applications for renewal of a permit shall be reviewed per the standards set forth in the Ordinance. The Charter Township of Orion reserves the right to approve or deny the permit based upon the failure of any applicant to establish to the satisfaction of the Township any requirement, standard or goal of the Ordinance. The applicant understands this determination may involve a subjective interpretation of the application. Any permit granted by the Township is contingent upon the State of Michigan granting a state license for the specific license applied for under this ordinance.

SECTION A- APPLICANT

1. Name of Applicant: Tycoon I Operations, LLC  
   Authorized Signer (of not an individual): Daryl Heller  
   Address of Applicant: 2055 Crooks Rd, Suite B  
   Rochester Hills, MI 48309  
   Phone Number: 248.920.8770  
   Email Address: licensing@gloriouscanna.com  
   Sole Proprietor □ Partnership □  
   Corporation □ Limited Liability Company✓  
   □Other: ________________

2. If entity is Sole Proprietor, state Owner/Proprietor’s date of birth: ___________ and provide a copy of photo identification.

3. If other than Sole Proprietor, list name, address and date of birth of all owners and provide copies of photo identification and percentage of ownership.

5. If the Applicant or owner or any operator is a licensed caregiver under the Michigan Medical Marihuana Act, please list their name and address, and caregiver ID number issued by the State of Michigan. N/A

6. For any corporation or other legal entity who has a financial interest or affiliation with the requested permit, please state the following:

   Name: Please see Organization Structure in Exhibit I
   Name of Authorized Signer: 
   Address: 
   Interest or Affiliation: 

**SECTION B- FACILITY LOCATION**

7. Name of proposed facility: Oakland Business Park, Building B

8. Location of proposed facility: 180 Premier Drive

   Orion Charter Township, MI 48359
9. Please provide a preliminary floor plan sketch showing the location of all facility operations within an existing building, or for new construction a site plan for the parcel. Attach as Exhibit “A”
   ☐ Document(s) attached. If not attached, why not and when is applicant expected to supplement: __________

10. With respect to the location of the facility, please state with specificity the exact location, address, suite number and, if necessary, the location of the facility within a building or the parcel of land. This location should include the distance in feet from each property line. Attach as Exhibit “B”
   ☐ Document(s) attached.
   If not attached, why not and when is applicant expected to supplement: __________

11. Please provide evidence of the Applicant’s property interest in the proposed location. Provide copies of documentation showing a legal and enforceable property interest. Attach as Exhibit “C”.
   ☐ Document(s) attached.
   If not attached, why not and when is applicant expected to supplement: __________

12. Please confirm and establish that the facility is located within the Township’s Industrial Park district (“IP”); is not within 1,500 feet of a church; is not within 2,000 feet of a residence located in the R-1, R-2, R-3, SF, SE, SR, RM or MHP Zoning Districts; is not within 2500 feet of a registered school and does not have ingress or egress on a street or road that has an average traffic volume in excess of 6,000 vehicles per day as calculated and reported by Southeast Michigan Counsel of Governments. Further, please show that the facility does not have an ingress or egress on a street or road that serves as an ingress or egress to a residential road or property located in a R-1, R-2, R-3, SF, SE, SR, RM or MHP Zoning District. For each of the above criteria, please attach any and all documents which will permit the Township to calculate compliance with the Licensed Marihuana Facilities Ordinance No. 154. At a minimum, provide a map showing the facility and measured distances (building edge to building edge).
   Attach as Exhibit “D”.
   ☐ Documents attached.
   If not attached, why not and when is applicant expected to supplement: __________

a) Is the Facility located in the Township’s IP (Industrial Park District) zoning district?

☐ Yes ☐ No
b) Is the Facility more than one thousand five hundred (1,500) feet of any church in the Township?

☑ Yes ☐ No

c) Is the Facility more than two thousand (2,000) feet of any residence located in an R-1, R-2, R-3, SF, SE, SR, RM, or MHP zoning district?

☑ Yes ☐ No

d) Is the Facility more than two thousand five hundred (2,500) feet of any registered school within the Township.

☑ Yes ☐ No

For 10-12 above, please provide a map showing the facility and measured distances (building Edge to building edge.)

e) Does the facility have an ingress or egress on a street or road that has an average traffic volume of six thousand (6,000) or less vehicles per day, as calculated by averaging the three (3) most recent Average Annual Daily Traffic (AADT) counts (as available), as reported on the Southeast Michigan Council of Governments (SEMCOG) per the site semcog.org/Traffic-Counts?

☑ Yes ☐ No

f) Does the Facility have an ingress or egress on a street or road that does not also serve as an ingress or egress to a residential road or property located in a TR-1, R-2, R-3, SF, SE, SR, RM, or MHP zoning district?

☑ Yes ☐ No

Name of Facility ingress/egress Street or road: Premier Drive

13. Please state whether the Applicant will seek a variance from the Zoning Board of Appeals pursuant to Article 6(8) of the Orion Licensed Marihuana Facilities Ordinance No. 154.

☐ Yes ☒ No

If variance will be sought, specify location category(s) pursuant to Art 6 (1)-(6): ________________

______________________________

2338
For each category variance sought, state the percentage the applicant will seek: _____%  
(Not to exceed 15%)

**SECTION C - FACILITY REQUIREMENTS**

14. When available, submit to the Township a copy of the Applicant's application for a license submitted to the State of Michigan, Department of Licensing and Regulatory Affairs, for each facility permit requested.  
Attach as Exhibit “E”.  
☐ Document(s) attached.  
If not attached, why not and when is applicant expected to supplement: ________________________  
Phase 2 application with the state of Michigan requires a permit and signed attestation from the municipality.  
we expect to submit our application with the state by 03/01/2021.

15. Is consumption and/or use of marihuana prohibited at the Facility?

☐ ☐ Yes ☐ No

16. Will all activity related to the Facility be done indoors?

☐ ☐ Yes ☐ No

17. Will all Marihuana contained within the building be in a locked Facility in accordance with the Michigan Medical Marihuana Act, MCL 333.26421 et seq., as amended (“MMMA”), the Michigan Medical Marihuana Facilities Licensing Act, MCL 333.27101, et seq., and the Michigan Regulation and Taxation of Marihuana Act, MCL 333.27951, et seq., as amended (“MRTMA”) as amended?

☐ ☐ Yes ☐ No

18. Please set forth an operations statement, plan and or outline showing that all facility activities shall occur indoors and in a building which is locked.  
Attach as Exhibit “F”  
☐ Document(s) attached.  
If not attached, why not and when is applicant expected to supplement: ________________________  
________________________________________________________________________

19. Will all necessary building, electrical, plumbing and mechanical permits obtained for any portion of the structure in which electrical wiring, lighting and/or watering devices are located?

☐ Yes ☐ No  

5
20. When available and prior to the issuance of any permit, the Applicant must submit all necessary building, electrical, plumbing and mechanical permits, as well as documented approval by the Orion Fire department showing compliance with the Michigan Fire Protection Code and confirmation that the storage of any chemical, herbicide, pesticide and or fertilizer has also been approved by the Orion Fire Department. 
Attach as Exhibit “G”.
☐ Document(s) attached.
If not attached, why not and when is applicant expected to supplement: __________________________

21. In any portion of the structure where the storage of any chemicals such as herbicides, pesticides, and/or fertilizers, do you agree to be subject to inspection and approval by the Orion Fire Department to ensure compliance with the Michigan Fire protection Code?

☐ Yes  ☐ No

22. Will you ensure that no other uses, other than accessory uses, will be permitted within the same Facility other than those associated with cultivating, processing, transporting or testing marihuana?

☐ Yes  ☐ No

23. Please state and/or provide documentation showing the plan that all litter and waste will be properly and safely removed and will not constitute a source of contamination in areas where marihuana is exposed. Further, please include how the applicant will dispose of rubbish so as to minimize the development of odor and minimize the potential for development of waste odor and waste from becoming an attracted, harborage or breeding place for pests. Please include a detailed description of the ventilation system. Attach as Exhibit “H.”

☐ Document(s) attached.
If not attached, why not and when is applicant expected to supplement: __________________________

a) Will litter and waste be properly removed and the operating systems for waste disposal maintained in an adequate manner so that they do not constitute a source of contamination in areas where marihuana is exposed?

☒ Yes  ☐ No

b) Will floors, walls and ceilings be constructed in such a manner that they may be adequately cleaned and kept clean and in good repair?

☒ Yes  ☐ No
c) Will there be there adequate screening or other protection against entry of pests, and will rubbish be disposed of so as to minimize the development of odor, minimize the potential for development of waste odor, and minimize the potential for waste becoming an attractant harborage or breeding places for pests?

X Yes □ No

d) Will all buildings, fixtures and other facilities be maintained in a sanitary condition?

X Yes □ No

e) Will each Facility center provide its occupants with adequate and readily accessible toilet facilities that will be/are maintained in a sanitary condition and in good repair?

X Yes □ No

24. Please state how the Applicant intends to avoid excessive noise, dust, vibrations, glare, fumes or odors detectable to the normal senses beyond the boundaries of the property. Attach as Exhibit “I”.

☑ Document(s) attached.
If not attached, why not and when is applicant expected to supplement: __________________________

a) Will each Facility be operated in a manner that does not create excessive noise, dust, vibrations, glare, fumes or odors detectable to the normal senses beyond the boundaries of the property on which that Marijuana Facility will operate/operates or in violation of any other ordinance?

☑ Yes □ No

25. Please provide the plan and supporting documentation showing that all disposal systems for spent water and spent soil have been adequately and safely disposed of and accounted for.
Attach as Exhibit “J”.
☑ Document(s) attached.
If not attached, why not and when is applicant expected to supplement: __________________________

26. Please provide a security and safety plan, and at a minimum showing the facilities surveillance systems and continuous monitoring systems of the entire premise as required by the ordinance.
Attach as Exhibit “K”.
☑ Document(s) attached.
If not attached, why not and when is applicant expected to supplement: __________________________
a) Will the Facility continuously monitor the entire premises with surveillance systems that include security cameras operating 24 hours a day, 7 days a week, every day of the year, and will these recordings be maintained for a period of at least 30 days?

☐ Yes  ☐ No

27. Please state and/or show the exterior signage or advertising identifying the facility. Attach as Exhibit “L”.
☐ Document(s) attached.
If not attached, why not and when is applicant expected to supplement: ____________________
The facility will only show the numbers associated with its address ____________________

a) Do you understand and agree that any exterior signage or advertising identifying the Facility as a marihuana facility is prohibited?

☐ Yes  ☐ No

SECTION D- BUSINESS OPERATIONS AND SECURITY

28. Active business operations shall not be open outside of the hours of 7am and 9pm.

AFFIRMATION OF STAKEHOLDERS, AGENTS OR EMPLOYEES
FOR A LICENSED MARIHUANA FACILITY

1. I, Daryl Heller, make this affirmation in support of the
Application for a permit with the Charter Township of Orion for a Marihuana facility
located at 180 Premier Drive, Orion Charter Township, MI 48359.

2. I affirm that I
   a. That I am at least 21 years of age.
   b. Have never been indicted or charged with or arrested for, convicted of, plead
guilty, or nolo contendere to a felony or to a controlled substance related
   misdemeanor.

3. I have not previously had a business license permit or registration denied or revoked or
   suspended by Orion Township.

Dated: 02/09/2021

Print name: Daryl Heller
A. & B. Facility Floor Plan
C. Lease Agreement
COMMERCIAL LEASE

This lease (the Lease), is entered into on November 1, 2020, between Premier Drive Tycoon I, LLC, with an address at 1615 S Telegraph Rd, Bloomfield Hills, MI (Landlord), and Tycoon I Operations, LLC (Tenant) on the terms and conditions listed below.

1. Description of the Premises. Landlord owns the real property, improvements and any and all structures thereon located at 180 Premier Drive, Orion Township, MI 48359 ("Premises"), consisting of approx. 72,000 square feet. Tenant shall have the right to use the Premises to conduct its daily business operations and for any ancillary or related purposes including the operation of a marihuana business.

2. Basic Lease provisions. The basic Lease provisions are stated below and further explained in the section referenced to the right of each provision:

(a) Term: 10 years
(b) Commencement Date: February 1, 2021
(c) Termination date: October 31, 2030
(d) Options: 1 option to renew for additional 10 years
(e) Monthly installment amount: $75,000 or $12.50; per square foot;
(f) Security deposit: $75,000.00
(g) Use: Tenant’s desired business operation

3. Term. This Lease shall be for a term stated in section 2(a) commencing on the date stated in section 2(b) (the Commencement Date) and terminating on the date stated in section 2(c). The rent for the first month shall be prorated from date of occupancy, if the date of occupancy is after the first day of the month. Each succeeding lease year shall begin on the anniversary of the same date and continue until the termination of the Lease.

Provided that Tenant is not in default under this Lease at the end of the then current Lease term, Tenant shall have the right to renew the term of this Lease for the option period stated in section 2(d) by giving Landlord written notice of Tenant’s intent to renew the Lease at least 120 days before the expiration of the then current term. The renewal shall be on the same terms and conditions as in this Lease, except that the minimum rent for each renewal term shall be increased by a percentage equal to the percentage increase in the Consumers Price Index (Bureau of Labor Statistics Washington, D.C., all Cities) (CPI) during the preceding term. The percentage increase shall be determined by comparing the latest available CPI before the Commencement Date of the Lease or the prior term, whichever shall apply, and the latest available CPI on or before the expiration of the immediately preceding initial or renewal lease term. The word “term” as used in this Lease shall include any renewal term.

4. Minimum rent. Tenant shall pay to Landlord as rent the sum stated in secion 2(e), payable in monthly installments due in advance, on the first day of each month during the term of this Lease. All rent shall be paid to Landlord at the address set forth above or at such other address as Landlord may designate in writing, without any prior demand and without any deduction or offset.

If Tenant shall fail to pay any amount due from it to Landlord under this Lease when that amount shall be due, a one-time late charge of $50.00 shall be assessed and thereafter the amount of rent not paid shall be subject to a service charge until that amount is paid at the lesser of the rate of 5% per month or the highest rate permitted by law.

2353
5. Security deposit. Tenant, contemporaneously with the execution of this Lease, has deposited with Landlord the sum stated in section 2(f) as a security deposit. The deposit shall be held by Landlord, without liability for interest, as security for the faithful performance by Tenant of all the terms, covenants, and conditions of this Lease to be kept and performed by Tenant during the term of this Lease.

If Tenant fails to keep and perform any of its covenants of this Lease, Landlord at its option may appropriate and apply the entire deposit, or so much as may be necessary, to compensate Landlord for loss or damage sustained by Landlord due to Tenant’s breach. If the entire deposit or any portion is appropriated and applied by Landlord for the payment of overdue rent or other sums due and payable to Landlord by Tenant, Tenant shall, on the written demand of Landlord, forthwith remit to Landlord a sufficient amount in cash to restore the security to the original sum deposited. Tenant’s failure to do so within 5 days after receipt of demand shall constitute a breach of this Lease.

6. Taxes. Tenant shall pay or cause to be paid all real property taxes and special assessments levied against the Building including the Premises. Tenant shall pay all personal property taxes assessed against any personal property owned by Tenant on the Premises.

7. Maintenance and repair. Tenant shall maintain and repair and keep the Premises in good condition and repair, including the exterior windows and the electrical system. Landlord shall, at tenants expense, make all other repairs and replacements to the Building, including those of a structural or capital nature. Landlord shall, at tenants expense, enter into an annual maintenance contract with a licensed heating and mechanical firm for the maintenance of the heating and air conditioning equipment during the term. Landlord shall be obligated to make repairs only after Tenant has given Landlord written notice of the need for the repair, and only if the repair was not caused by the negligence or willful act of Tenant, its agents, employees, invitees, or licensees.

Tenant shall provide and pay for its own regular janitorial service to maintain the Premises in a neat and clean condition. Tenant shall be responsible for all repairs or replacements to the Building occasioned by the negligence or willful act of Tenant, its agents, employees, invitees, or licensees.

8. Utilities. Tenant shall have all utilities servicing the Premises metered in its own name and shall pay all charges and deposits for the utilities provided to or used in the Premises during the term of this Lease. Tenant shall also pay 100% of the water and sewer bill. Landlord shall not be liable in damages should the furnishing of any utilities be interrupted by fire or other casualty, accident, strike, labor dispute or disagreement, the making of any necessary repairs or improvements, or any other causes beyond the reasonable control of Landlord.

9. Liability insurance. Tenant shall indemnify Landlord and save Landlord harmless from any liability or claim for damages that may be asserted against Landlord by reason of any accident or casualty occurring on or about the Premises. Tenant shall, at its own cost and expense, obtain and keep in force a policy or policies of public liability insurance with an insurance company approved by Landlord, with liability coverage of an amount as recommended by Landlord's insurance agent that, for the initial coverage, shall be not less than $1 million for injury or death to any one person, $3 million for injury or death to more than one person, and $500,000 regarding damage to property. Tenant shall furnish Landlord with certificates or other evidence acceptable to Landlord indicating that the insurance is in effect and providing that Landlord shall be notified in writing at least 30 days before cancellation of any material change in or renewal of the policy. All insurance policies shall name Landlord and any persons designated by Landlord as insured parties.

Any insurance maintained by either party pursuant to this section or under this Lease shall contain a
clause or endorsement under which the insurer waives all rights of subrogation against the other party, its agents or employees, regarding losses payable under the policy.

Any personal property kept on the Premises by Tenant shall be at Tenant’s sole risk.

10. Use. Tenant shall use and occupy the Premises for the purpose stated in section 2(g) and for no other purpose without the prior written consent of Landlord. Tenant shall not intentionally and knowingly use the Premises for any purpose or in any manner in violation of any State law, local ordinance, rule or regulation adopted or imposed by the City in which the Premises is situated. Tenant shall not deface or injure the Premises or the Building, permit anything to be done on the Premises tending to create a nuisance or to disturb other tenants in the Building, or permit any activity in the Premises that will result in an increase of any premium, or cancellation of a policy, for insurance on the Premises or the Building.

11. Construction of leasehold improvements. Landlord grants Tenant express consent to construct certain leasehold improvements as may be required for Tenant’s use. The cost of Tenant’s leasehold improvements shall be paid for by Tenant. The improvements shall be constructed in a good and workmanlike manner.

12. Operations. Tenant’s operations in conjunction with the Premises shall meet the requirements set forth below.

a. Tenant shall keep all garbage and refuse in the kind of container specified by Landlord. If Landlord shall provide or designate a service for picking up refuse and garbage, Tenant shall use the same at Tenant’s cost. Tenant shall pay the cost of removal of any of Tenant’s refuse or rubbish.

b. Tenant shall keep the Premises at a temperature sufficiently high to prevent freezing of water in any pipes and fixtures.

c. Tenant shall keep the outside areas immediately adjoining the Premises clean and free from dirt and rubbish to the satisfaction of Landlord, and Tenant shall not place or permit any obstructions or merchandise in those areas. Tenant shall water and maintain any flowers, shrubs, and trees located immediately adjoining the Premises.

d. Tenant shall only store and/or stock in the Premises goods, wares, and merchandise that Tenant intends to offer for sale at retail.

e. Tenant shall conduct its business in the Premises in a dignified manner and in accordance with high standards of store operation.

13. Restrictions on Tenant’s activities. Without Landlord’s written consent, Tenant shall not engage in the activities listed below.

a. Tenant shall not operate all or any part of its business in the Premises in any manner that is inconsistent with its intended use of the Premises.

b. Tenant shall not conduct any auction, fire, going-out-of-business, or bankruptcy sales in the Premises.

c. Tenant shall not operate or permit to be operated on the Premises any coin or token operated vending machines or similar devices for the sale of goods, wares, merchandise, food, beverages, or service,
including, without limitation, pay telephones, pay lockers, scale, and amusement devices without Landlord’s prior written consent.

d. Tenant and Tenant’s employees and agents shall not solicit business in the parking or other common areas of the Building, nor shall Tenant or its employees or agents distribute any handbills or other advertising matter in or on automobiles parked in the parking area or in other common areas without Landlord’s prior written consent.

e. Tenant and its employees and agents shall not park any vehicle on the Building land except in areas that are designated by Landlord for that use.

14. **Assignment and subleasing.** Tenant agrees not to sell, assign, mortgage, pledge, or in any manner transfer this Lease or sublet the Premises or any portion of the Premises without the prior written consent of Landlord. Notwithstanding any assignment or subletting, Tenant shall remain fully liable on this Lease. Landlord’s right to assign this Lease is and shall remain unqualified. On any transfer of Landlord’s interest in the Premises in which the purchaser assumes all obligations under this Lease, Landlord shall be free of all obligations of Landlord under this Lease and shall not be subject to any liability resulting from any act or omission or event occurring after the conveyance. Tenant agrees to recognize the transferee as Landlord, and Tenant further agrees, at Landlord’s request, to execute and deliver such documents and estoppel letters as Landlord may request to assist in that transfer.

15. **Estoppel letter.** On not less than 10 days’ prior written notice from Landlord, Tenant shall sign and deliver to Landlord an estoppel letter that

a. certifies that this Lease is unmodified and in full force and effect (or, if modified, states the nature of the modification and certifies that this Lease, as so modified, is in full force and effect);

b. acknowledges that there are not, to Tenant’s knowledge, any uncured defaults on the part of Landlord or specifying the default if any are claimed;

c. certifies the date to which all forms of rent have been paid; and

d. certifies the amount, if any, of the security deposit paid to Landlord.

Tenant’s failure to deliver such an estoppel letter within the 10 days shall be conclusive on Tenant that

a. this Lease is in full force and effect, without modification except as may be represented by Landlord;

b. there are no uncured defaults in Landlord’s performance;

c. not more than one month’s rent has been paid in advance; and

d. no security deposit has been paid except as may be represented by Landlord.

16. **Acceptance of Premises.** The occupancy by Tenant of the Premises shall constitute an acknowledgment by Tenant that the Premises are then in the condition called for by this Lease.

17. **Damage or destruction.** If, during the term of this Lease, the Premises shall be partially or totally destroyed by fire or other casualty covered by insurance so as to become partially or totally untenable,
the same shall be repaired as promptly as possible with the insurance proceeds unless this Lease is
terminated. In the event of damage or destruction, if this Lease is not terminated, the rent shall be abated
proportionately to the loss of use suffered by Tenant.

If, during the term of this Lease, the Premises shall be partially or totally destroyed by fire or other
casualty, and the cost of restoring the Premises to its condition prior to the damage shall equal or exceed
40 percent of its fair replacement value immediately prior to the damage, or if the Premises are damaged
by any casualty not insured against by Landlord, Landlord shall have the right to terminate this Lease by
giving Tenant written notice of its election to do so within 15 days after the date on which the damage
occurs. On the giving of notice, the Lease shall terminate as of the date on which damage occurred and
the rent shall be adjusted to that date. In default of notice by Landlord, this Lease shall continue and
Landlord shall cause the Premises to be repaired or restored with due diligence.

18. Condemnation. If the whole or any part of the Premises shall be taken by any public authority under
the power of eminent domain, the term of this Lease shall cease on that part to be taken from the day the
possession is acquired by the public authority and the rent shall be paid up to that date. If the portion of
the Premises taken substantially impairs the usefulness of the Premises for the purpose for which the
Premises were leased, Tenant shall have the right either to terminate this Lease or to continue in the
possession of the remainder of the Premises under the terms and conditions of this Lease except that the
rentals shall be reduced in proportion to the amount of the Premises taken, and in the latter event,
Landlord shall promptly restore the remainder to a reasonably tenantable condition. All damages awarded
for the taking shall belong to and be the property of Landlord.

19. Alterations and signage. No improvements, alterations, additions, or physical changes shall be made
on the Premises by Tenant without the prior written consent of Landlord.

Tenant agrees that it will not place or maintain on any exterior door, wall, or window of the Premises any
signs, awning or canopy, or advertising matter, or other thing of any kind and will not place or maintain
any decoration, lettering, or advertising matter on the glass of any window or door of the Premises that is
not in conformity with all applicable governmental rules and regulations and the rules and regulations of
the Building as set forth by Landlord and further, without first obtaining Landlord’s prior written
approval. Tenant further agrees to maintain such sign, awning, canopy, decoration, lettering, advertising
matter, or other thing as may be approved in good condition and repair at all times. Tenant further
acknowledges that Landlord may, at its option, regulate the lettering size, style, and color of Tenant’s sign
so that all signs in the Building are of a like size, color, style of lettering, and like material. Tenant agrees
that it will conform its sign to that as regulated by Landlord for the general use in the Building, regardless
of how and in what manner Tenant normally designs its name for use in its sign and further regardless of
whether or not Tenant uses the form and style of its sign as a trademark.

All alterations and improvements, but not moveable equipment and trade fixtures, put in at the expense of
Tenant shall be the property of Landlord and shall remain on and be surrendered with the Premises at the
termination of the Lease; provided, however, that Landlord may require that Tenant remove the
alterations and improvements and repair any damages to the Premises caused by the removal.

20. Remedies and default. If Tenant shall default in the payment of any sums to Landlord when due and
shall not cure such default within 7 days; or if Tenant shall default in the performance of any other
coovenant or condition of the Lease and shall not cure such other default within 30 days after written
notice from Landlord specifying the default; or if Tenant or its agent shall falsify any report to be
furnished to Landlord pursuant to the terms of this Lease; or in case Tenant shall be adjudicated a
bankrupt or make any assignment for the benefit of creditors; then, in any such event, Landlord may

2357
either (a) accelerate the full balance of the rental payable for the remainder of the term and sue for such sums or Landlord may terminate this Lease or (b) reenter the Premises, without terminating this Lease, and dispossess Tenant or any other occupant of the Premises and remove Tenant's effects and relet the same for the account of Tenant for such rent and on such terms as shall be satisfactory to Landlord, crediting the proceeds, first to the costs and expense of reentry, alterations and additions, and the expense of reletting, and then to the unpaid rent and the other amounts due during the remainder of the term. Tenant shall remain liable to Landlord for any unpaid balance.

In case suit shall be brought for recovery of possession of the Premises, for the recovery of any rent or any other amount due under the provisions of this Lease, or because of the breach of any other covenant on the part of Tenant to be kept or performed, and a breach shall be established, Tenant shall pay to Landlord all expenses incurred, including reasonable attorney fees, which shall be deemed to have been incurred on the commencement of the default and shall be enforceable whether or not the action is prosecuted to judgment.

21. Access to Premises. Landlord shall have the right to enter on the Premises at all reasonable hours to inspect and for access to the Premises to install, maintain, use, repair, and replace pipes, ducts, lights, conduits, plants, wires, floor coverings, and all other mechanical equipment serving the Premises.

22. Rules and regulations. Landlord reserves the right to adopt from time to time rules and regulations for the operation of the Building that are not inconsistent with the provisions of this Lease. Tenant and its agents, employees, invitees, and licensees shall comply with all those rules and regulations. Any such rules shall not dictate the days or time of business operation.

23. Waiver. The failure of Landlord to insist on a strict performance of any of the terms, covenants, or conditions of this Lease or rules and regulations of the Building shall not be deemed a waiver of any subsequent breach or default in the terms, covenants, and conditions or rules and regulations. This Lease may not be changed, modified, or discharged orally.

24. Notices. All notices required under this Lease shall be in writing and shall be deemed to have been given if either delivered personally or mailed by certified or registered mail to Landlord or to Tenant at their respective addresses set forth above or to such other address as either party may furnish in writing during the term of this Lease.

25. Quiet enjoyment. Landlord covenants and agrees with Tenant, its successors, and assigns that on Tenant's paying the rent and observing and performing all the terms, covenants, and conditions on Tenant's part to be performed and observed, Tenant may peaceably and quietly hold, have, occupy, possess, and enjoy the Premises for the full term of this Lease.

26. Subordination to mortgage. Any mortgage now or hereafter placed on the Premises shall be deemed to be prior in time and senior to the rights of Tenant under this Lease. Tenant subordinates all of its interest in the leasehold estate created by this Lease to the lien of any mortgage. Tenant shall, at Landlord's request, execute any additional documents necessary to indicate this subordination including, if requested, an estoppel letter as set forth in section 15. If Tenant fails to supply the estoppel letter, the provisions in section 15 to cover that failure shall apply. Notwithstanding the foregoing, Tenant's possession of the Premises under this Lease shall not be disturbed by any mortgagee, owner, or holder of note secured by a mortgage placed on the Premises, unless Tenant shall breach any of the provisions of this Lease and the lease term of Tenant's right to possession shall have been lawfully terminated in accordance with the provisions of this Lease.
27. Building revisions by Landlord. Landlord reserves the absolute right at any time and from time to
time to make changes or revisions in the Building, including such changes to the parking lot, driveways,
signs, and sidewalks, by making additions to, subtractions from, or rearrangements of the improvements
in the Building, as long as the revisions do not materially affect Tenant’s use of the Premises.

28. Holding over. If Tenant remains in possession of the Premises after the expiration or termination of
the Lease, it shall be deemed to be occupying the Premises as a tenant from month to month, subject to all
the conditions, provisions, and obligations of this Lease insofar as the same can be applicable to month-
to-month tenancy, except that the rent shall increase to 2 times the rent owing at the end of the lease term.
The month-to-month tenancy shall be cancelable by either party on 30 days’ written notice to the other.

29. Recording. Tenant shall not record this Lease without the written consent of Landlord; however, on
the request of either party the other party shall join in the execution of a memorandum or so-called “short
form” of this Lease for the purpose of recordation. The memorandum or short form of this Lease shall
describe the parties, the Premises, and the term of this Lease and shall incorporate this Lease by reference.

30. Captions and headings. The captions and headings used in this Lease are intended only for
convenience and are not to be used in construing this Lease.

31. Applicable law. This Lease shall be construed under the laws of the state of Michigan. Venue for any
disputes under this agreement shall lie in Oakland, Michigan. If any provision of this Lease or the
application to any person or circumstances shall, to any extent, be invalid or unenforceable, the remainder
of this Lease shall not be affected and each provision of this Lease shall be valid and enforceable to the
fullest extent permitted by law.

32. Successors. This Lease and the covenants and conditions shall inure to the benefit of and be binding
on Landlord, its successors, and assigns and shall be binding on Tenant and permitted assigns of Tenant.

33. Effective date. The parties have caused this agreement to be signed and shall be effective as of the
day and year first above written.

(signature page to follow)
IN WITNESS WHEREOF, the parties have respectively signed and sealed this Lease as of the day and year first above written.

Tycoon I Operations, LLC

Business & Operations Plan

PREAMBLE:
Tycoon I Operations, LLC ("Applicant") will strictly comply at all times with applicable state law and local ordinance codes, including rules and emergency rules that may, from time to time, be promulgated by the state or Orion Township. All business activities will take place indoors in a locked facility. Applicant has retained a law firm with established expertise in Michigan marihuana law to ensure continuing education and compliance with the laws as they evolve. The statements made in this application are made with a clear and thorough understanding of state and local requirements as they exist on the date of application, but the operations of Applicant will be amended to comply with all future derivations of the state and municipal laws.

I. OVERVIEW
Applicant is a Michigan limited liability company formed to operate twenty four (24) commercial marihuana GROWER (Class C) facilities whose primary mission is to provide a source of high-quality marihuana to processors and provisioning centers across the state of Michigan.

II. ADMINISTRATION
A. Location & Zoning
   i. Buffers
      a. The distances described are measured horizontally between the nearest property lines.
      b. The facility is not within 1,000 feet of any educational institution or school, college or university, church, house of worship or other religious facility, licensed child care, preschool, public library, or public or private park.
   ii. Applicant is leasing the property pursuant to the attached lease and the owner/lessor of the property authorizes the use of the property as a marihuana facility in the lease agreement, which is attached.

B. Organizational Structure
   i. The Applicant is organized as a Michigan limited liability company and is in good standing.
   ii. The members, owners, directors, officers, and managers of the Applicant are listed in the Organization Structure.
iii. The members, owners, directors, officers, and managers of Applicant meet all eligibility requirements to own and operate a marijuana grower facility as set forth in state law and local ordinance.

   a. No member, owner, director, officer, manager or any person having an ownership interest in the application has an interest in a secure transport facility license or a safety compliance facility license.

   b. The Applicant meets all eligibility requirements to own and operate a marijuana grower facility as set forth in state law and local ordinance.

iv. The Applicant has never applied for been granted any commercial license or certificate issued by a licensing authority in Michigan or any other jurisdiction that has been denied, restricted, suspended, revoked or not renewed.

C. Permits & Licenses

i. This Business and Operations Plan is submitted as an addendum to the applications for Ten Orion Township permits to operate a business and the Orion Township special use/site plan application.

ii. All operations in this Business and Operations Plan will comply with regulations issued by the Department of Licensing and Regulatory Affairs (LARA).

iii. Applicant intends to apply for, obtain, operate, and comply with a state license to operate a grower facility under the MMFLA and MRTMA.

iv. The business will not open for operation until it receives a state license to operate under the MMFLA and MRTMA and all applicable permits and licenses from Orion Township.

v. Upon granting of a permit to operate a grower facility, Applicant will prominently display the original Orion Township permit at the Permitted Premises in a location where it can be easily viewed by the public, law enforcement, and administrative authorities.

vi. At all times the facility will hold a valid local Permit and State Commercial Marihuana Facility License for a Grower.

vii. In addition to complying with the Orion Township Ordinance Authorizing and Permitting Commercial Marihuana Facilities, Applicant will comply with all Township Ordinances, including without limitation, the Township Zoning Ordinance, as well as the requirements of the County Road Commission, County
Building Inspector, County Drain Commissioner, District Health Department, Soil Erosion Officer, County Conservation Service, areas fire departments, Michigan Department of Natural Resources, Michigan Department of Environmental Quality, and any other applicable township, county, state and federal statutes.

viii. Applicant will have available, at all times, documentation that local and State sales tax requirements, including any requirement for a license, are satisfied.

ix. Applicant will provide updated operational and security plans to Orion Township upon request and prior to any proposed changes in its operations.

D. Inspections
i. Applicant will provide access to the facility for inspection to any federal, state, or local law enforcement officer to ensure compliance with the permit.

ii. Applicant consents to inspections as required in the MMFLA and pursuant to the Orion Township ordinance.

III. OPERATIONS
Applicant proposes 24 state-licenses in a single marihuana grower facility for the cultivation, drying, trimming, curing, and packaging of marihuana for sale to a processor or provisioning center pursuant to the requirements and restrictions of the Marihuana Facilities Licensing Act, PA 281 of 2016, and all future derivations thereof. This facility will be located in a secure industrial facility.

A. Compliance with State Regulations
Applicant will meet all operating regulations established by LARA and the Marihuana Licensing Board for Growers, including without limitation, any standards, procedures, and requirements for:

i. quality control
ii. chain of custody
iii. marihuana storage
iv. waste disposal
v. labeling and packaging
vi. storage of chemicals

B. Description of the Facility
Applicant’s facility will be used exclusively for the cultivation, drying, trimming, curing, and packaging of legal usable marihuana for sale to processors or provisioning centers.

C. Entry to Facility
Generally, the public will not be allowed entry to the facility. Notwithstanding the forgoing, Applicant will not allow entry to the facility to anyone under the age of 18.
D. Employees
Applicant anticipates having between fifteen (15) and (65) full and part-time employees, as many as possible of whom will be local community residents. None of Applicant’s employees will be registered primary caregivers during the employment with Applicant. Please reference the staffing plan for a detailed list of potential positions.

E. General Policies
   i. Applicant will only sell or transfer marihuana to a processor or provisioning center.

   ii. Applicant will only use secure transporters in the distribution or exchange of marihuana or currency with processors or provisioning centers.

   iii. Applicant will not promote the unlawful use of marihuana or any other drug or provide or otherwise make marihuana available to any person who is not legally authorized to receive Marihuana under state law.

   iv. No owner, the Applicant, or any employee of Applicant will grow marihuana in the Permitted Premises for his or her own use.

   v. The following activities are prohibited on the Permitted Premises:
      a. the sale, consumption, or use of alcohol, or controlled substances;
      b. smoking or consumption of marihuana.

F. Cultivation Plan
   i. Propagation
      a. Lighting
      b. Watering
      c. Nutrient Application
      d. Integrated Pesticide Management
   ii. Harvesting and Trimming
   iii. Drying and Curing
   iv. Packaging
   v. Distribution
      a. All marihuana products will be validated from a verified transport manifest, created from the statewide monitoring system. The manifest includes a detailed form with the number of packages and detailed content for confirmation/validation with secure transporters and purchasers of the shipment (processors or provisioning centers).
      b. Each transport shipment will be processed in the following manner:
         1. Entry of shipped inventory into the statewide monitoring system.
         2. Confirmation with Secure Transporter of valid and verified transport manifest, including product count, weight of each package or item
c. State certified scales will be used to verify and weigh all marihuana, in whatever form.

G. Inventory Management
i. Applicant will not control or have on the Permitted Property an amount of marihuana plants or usable marihuana that exceeds any amount permitted by the state License or the Township permit.

ii. Tracking and Monitoring
Applicant will use a third-party inventory control and tracking system to interface with the statewide monitoring system. The third-party inventory control and tracking system will have the capabilities necessary to comply with the requirements applicable to a grower licensee:

   a. Track all marihuana plants and packages;
   b. Track lot and batch information throughout the entire chain of custody;
   c. Track transportation of product;
   d. Track marihuana waste;
   e. Track all marihuana product transfers;
   f. Track sales and returns;
   g. Track marihuana plant, batch, and product destruction;
   h. Perform batch recall tracking;
   i. Report and track loss, theft, or diversion of marihuana products;
   j. Receive testing results electronically from a safety compliance facility;
   k. Provide access to state agencies and law enforcement as required;
   l. Report all inventory discrepancies.

iii. Applicant will enter all transactions, current inventory, and other information into the statewide monitoring system as required by the MMFLA, the Marihuana Tracking Act, and any associated regulations.

iv. Inventory reconciliation - At the end of each day, physical inventory counts will be reconciled with the third-party inventory control and tracking system.

v. Returns

H. Quality Control
i. Sampling (by Licensed Safety Compliance Facility)

ii. Batch Testing (by Licensed Safety Compliance Facility)

iii. Transport to Safety Compliance Facility (by Secured Transporter)

I. Signage and Advertising
i. Applicant has no proposed signage at this time, but will amend this plan accordingly and provide the township with its sign permit application if and when it does wish to propose signage.

ii. Applicant will not display pictures, photographs, drawings or other depictions of Marihuana or Marihuana Paraphernalia on the outside of the Permitted Premises, nor will such pictures, photographs, drawings, or other depictions of Marihuana or Marihuana Paraphernalia be visible outside of the Permitted Premises on the Permitted Property.

iii. The words "Marihuana, "or "cannabis," and any other words, used or intended to convey the presence or availability of Marihuana will not appear on the outside of the Permitted Premises, nor will "Marihuana, "or "cannabis," and any other words, used or intended to convey the presence or availability of Marihuana be visible outside of the Permitted Premises on the Permitted Property.

J. Visibility of activities
   i. All activities of the facility, including without limitation, the cultivation, harvesting, trimming, drying, curing and packaging of Marihuana, and all other related activity permitted under Applicant’s License or Permit will occur indoors.

   ii. No marihuana or paraphernalia shall be displayed or kept in the facility so as to be visible from outside the Permitted Premises.

K. Security
   i. Plan
   Applicant will maintain, at all times, a centrally-monitored security and alarm system on the premises that meets or exceeds state regulatory requirement.
   Applicant will maintain policies and procedures to include:
   
a. Regular drills of the security protocols and emergency plans;
b. Controlled and restricted access to the Permitted Property and Permitted Premises to employees, agents, and owners of Applicant, and law enforcement or state or local authorities as necessary to ensure Applicant’s compliance with state and local laws.
c. Internal and external cameras with 24-hour monitoring and off-site recording;
d. Installed panic buttons
   e. Limitations on the amount of currency and marihuana stored onsite;
f. Cooperation and coordination with local law enforcement;
g. Permitted premises will only be able to be accessed through a combination of security locks and access codes; and
   h. The ability to remain operational during a power outage with battery back-up.

   ii. Security Surveillance Cameras
Security surveillance cameras will be installed to monitor all entrances, along with the interior and exterior of the premises, which will capture all areas of the property unless otherwise prohibited by law, including unobstructed video surveillance of all enclosed areas, unless prohibited by law, including all points of entry and exit that shall be appropriate for the normal lighting conditions of the area under surveillance.

iii. Security Recordings and Documentation
   a. All security recordings and documentation will be preserved for at least 30 days and made available upon request by any law enforcement.

iv. Robbery and Burglary Alarm System
Applicant will employ an alarm system that meets state requirements and obtains state approval. Specifically,
   a. Applicant will employ a centrally alarmed and monitored security system that will be monitored 24 hours a day, 7 days a week for the Permitted Premises pursuant to the attached service agreement.
   b. There will be a perimeter alarm on all entry points and perimeter windows of the Permitted Premises.
   c. A failure notification system will provide an audible, text, or visual notification of any failure in the surveillance system. A panic button and alarm will directly notify the local law enforcement agency having primary jurisdiction.

v. Storage of Marihuana and Currency
   a. Applicant will store usable marihuana that is not otherwise in the process of being dried, trimmed, cured, packaged, or distributed including packaged and un-packaged usable marihuana, and currency in a secured locked safe that is permanently affixed to the premises.

L. Ventilation Plan/Air Filtration System
   i. Applicant’s facility operation and design will provide sufficient measures and means to minimize any impact to adjacent uses, including the control of odor by maintaining and operating an air filtration system so that no odor is detectable outside the Permitted Premises.

   ii. Applicant’s equipment and methods to control odor include a comprehensive air filtration system, consisting of
      a. Activated Carbon Filters.
      b. Heavy Duty Ventilation Fans.

   iv. Details and specifications of the equipment used for Applicant’s ventilation and air filtration plan are attached.
v. The total enclosed space in which harvested marihuana will be stored amounts to approximately 300 sq. feet. Applicant will use an advanced filtration system rated appropriately for the area.

vi. The air filtration system will be maintained in working order at all times and will be in use at all times. Filters will be changed a minimum of once every 365 days.

vii. In addition to the use of an air filtration system, Applicant will mitigate odors by keeping doors and windows closed at all times, except the minimum amount of time needed to allow ingress and egress to the building.

M. Toxic/Flammable/Hazardous Materials
i. Applicant’s use of toxic, flammable, or other harmful, hazardous, or combustible materials will be limited to plant nutrients and pesticides and cleaning products. The facility may use the following nutrients and pesticides:

   a. CocoTech Bloom A
   b. CocoTech Grow A
   c. CocoTech Premier Nutrient
   d. FloraBloom Nutrient System
   e. FloraGrow Nutrient System
   f. Golden Tree Plant Food.
   g. Nutra Green 5-10-5 plus Micronutrients Foliar Spray
   h. Diatomaceous Earth
   i. Neem Oil
   j. PyGanic Pro Pyrmetrin 5% MGK Miticide

ii. The facility may use the following commercial cleaning products, along with the following household products: materials regulated by government agencies:

   a. Ultra Dawn Lemon Dish Soap
   b. Nature’s Source Toilet Bowl Cleaner
   c. Fantastik Antibacterial Heavy Duty All Purpose Cleaner
   d. Windex Original Glass Cleaner
   e. Novo Foaming Instant Hand Sanitizer
   f. QuickSan Food Contact and Surface Sanitizer

iii. The materials will be stored in secured and ventilated cabinets. All combustible or reactive materials will be stored separately.

iv. Materials will be handled, stored, and disposed according to specifications in each Material Safety Data Sheet.
N. Waste Product Disposal
Applicant will dispose of unusable or waste marihuana in accordance with the MMFLA, MRTMA, and applicable local ordinance guidelines to prevent the waste marihuana from being possessed or ingested by any person and animal.

i. Applicant's current, preliminary waste disposal plan consists of shredding and grinding damaged and unusable plants, roots, seeds, stalks and harvested marihuana and mixing it with one of several lawful over-the-counter products, such as sawdust or cat litter to render it unusable, unrecognizable, and unpalatable, and then discarding in secured bags as part of its solid waste disposal.

ii. The State of Michigan's Marihuana Licensing Board may require or suggest as a part of its regulations, expected sometime in November, one or more alternative waste disposal options including, but not limited to, waste disposal through the secured transporter system, waste mitigation through THC extraction methods (rendering the marihuana waste product inert) or some other method. Applicant warrants that it will comply with all state and local requirements as to waste disposal, but further commits to its current preliminary plan to render all marihuana waste unrecognizable, unusable and inaccessible regardless of state or local requirements.

IV. COMMUNITY RESPONSIBILITY AND CONCLUSION
Although marihuana has been used as a medicine across the globe for hundreds of years, its commercial production and sale is new to us, this state, and your community. We appreciate the opportunity to show Orion Township that Marihuana can be safe and accessible to a community while providing jobs and local economic growth. We look forward to being productive and responsible community partners, and will work with the Township toward that goal.

H. Litter & Waste Removal Plan
Litter & Waste Removal Plan

All biological waste product will be rendered unrecognizable by grinding it in an industrial grinder and combining it with other non-consumable solid waste, including the media in which we cultivate plants, Rockwool. The inclusion of inert material renders the combined solid waste unusable. All waste will be stored in a locked dumpster that is emptied at minimum once per week.

The company intends to employ particulate filtration in areas where waste is stored and processed, which minimizes potential exposure and impact to the outside environment. The facility, which is designed around large water chillers, is designed to circulate air rather than ventilating it. This process helps to avoid excess exposure of odors to the surrounding community.
I. Noise, Dust, Vibrations, Glare & Fumes Plan
Noise, Dust, Vibrations, Glare, Fumes or Odors Plan

Excessive Noise, Dust, Vibrations, Glare and Marijuana odors emanating from our facilities are a valid concern for the community and our neighbors. This plan details the measures deployed to ensure that minimal noise, dust, vibration, glare, fume or offensive odor is emitted from the facility, the response if it occurs, and that the measures remain effective over time.

This plan is our commitment to the Orion Township that we will be in compliance with regulations of the city and the administrative rules and that we will not operate in a manner creating noise, dust, vibration, glare, fumes, or odors detectable to normal senses beyond the boundaries of the property.

We will not vent noxious dust, odors, gases or fumes to surrounding areas.

We will mitigate dust and noxious odors by engaging in the following activities:

1. Adequate design measures to seal the building;
2. Utilizing a heating, ventilation, and cooling (HVAC) System designed to move an appropriate amount of air (cfm) throughout the facility to disperse odors;
3. Using industry leading MERV-13 HEPA filters in addition to FILTR, Blue Zone & Puradigm units in each room throughout the facility.

I. DESIGN MEASURES TO SEAL THE BUILDING

We intend to renovate our building in a manner that focuses on effectively sealing all interior rooms and exterior access points. Each room is enclosed in 12”, interlocking insulated panels which are designed to form an airtight seal. For additional protection, butyl caulk is applied at each joint to accommodate any flaws in the panels.

Caulk is also applied to seal any openings into the panels, including plug outlets, doorways, sprinklers, and anything else that could allow air flow. Our doors are fiberglass, weather stripped and employ a drop seal to press additional weather stripping against the floor when closed to maximize the seal all the way around.

II. MERV-13 HEPA FILTRATION SYSTEM

The purification of air throughout our facility is a top priority for both the health of the plants and the environment we subject our employees and the local community to. In an effort to target and reduce contamination, mold, bacteria, odor, dust, and fumes, we employ a variety of filtration systems in all rooms where marihuana plants are grown.

Each room will utilize clean room grade HEPA filtration units filtering down to 0.01um and providing up to 5 complete air changes per hour. These units also utilize a carbon filter which focuses directly on the removal of smells and volatile organic compounds.

In addition to the HEPA filters, each room will have Puradigm units to help reduce airborne and surface contaminates, and Agrify Bluezone UV filtration units, known to destroy 99.9%+ of both bacteria and mold. Both of these systems aid in odor elimination and containment.
As filters age, they become clogged with impurities, and ultimately less effective. As such, we will develop a maintenance schedule to inspect the filtration units regularly and to replace them per the manufacturer's recommendation or at an expedited pace based on their usage in these environments.

III. VIBRATION MITIGATION
Exterior mounted cooling equipment is mounted on isolation pads to dramatically reduce vibrations that would otherwise be created by such large equipment.

IV. EVALUATING THE EFFECTIVENESS OF NOISE, DUST, VIBRATIONS, ODOR & FUME CONTROL MEASURES

Key site leadership roles will be trained to assess the production and escape of odors, dust, fumes and glare from the facility. We also anticipate a strong and friendly relationship with the local communities and will welcome feedback about any exhaust from the building. Should these assessments or the community ever determine that our levels are beyond acceptable, we will re-evaluate this plan and engage professionals to further refine our practices and properly mitigate the problem.
J. Spent Water & Soil Safety Plan
Spent Water & Soil Safety Plan

Wastewater Treatment Plan:
Wastewater generated during the cultivation of marihuana of marihuana products shall be disposed of in compliance with all applicable state and local laws and regulations. Despite the amount of water used in the cultivation process, there is very little water waste. The majority of water is used by the plants or evaporated out of the collection dishes upon which the plants sit. Any water that is used to rinse the plants or clean the facility or for any other purpose shall be rendered clean through both reverse osmosis and UV light after standard filtration methods, and either reused by the facility or discharged through a monitoring man hole where it can be monitored to comply with all local ordinances.

The Cultivation Facility will include an Ecowater RO purification system. Ecowater Purification Systems are the leading water filtration manufacturer in the industry, helping cultivators diagnose and solve every water problem imaginable. Ecowater designs systems to treat any water source including city water, well water, nutrient runoff water, wastewater, and condensate runoff.

Soil Safety Plan
The cultivation facility will not use soil — instead, all media for the purposes of growing plants will be rockwool, a lightweight hydroponic substrate made from spinning molten basaltic rock into fine fibers which are then formed in a range of cubes. This product will be disposed of through the grinder and mixed with biological waste in a locked dumpster.
K. Security Plan
SECURITY PLAN

Tycoon I Operations is committed to being a leader in Michigan’s cannabis industry and a trusted resource for the communities, consumers and clients we service. Essential to fulfilling this commitment is our ability to effectively protect our product from criminal repurposing throughout the facilities.

This Security, Surveillance and Diversion Prevention Plan details the physical and electronic security measures we employ to deter, detect, and inhibit the theft, diversion, and loss of Marijuana, and to prevent unauthorized conduct with respect to the storage and dispensing of Marijuana.

We have extensively researched and designed our Grow Facility to maximize security. The facility shall be built with enhanced security and stringent safety features to eliminate any potential for diversion. Our facility will be equipped with numerous motion sensors and exterior intrusion sensors that will be linked to local law enforcement. To prevent unauthorized entry and stop diversion, theft, or loss of marijuana, every square inch of the facility shall be continually monitored by high definition security cameras and commercial-grade equipment. Security systems will be positioned so they closely monitor activities at strategic risk points and watch for any strange behavior or movement. Marijuana shall not be visible to any person from the exterior of the Grow Facility.

We will create a culture of responsibility, accountability, and strict security surrounding all aspects of the facility. The stringent operating procedures outlined below demonstrate a commitment to employee and public safety above all other operating values. From receipt to sale, we are committed to preventing diversion by implementing a comprehensive security strategy. Employees will be extensively trained to understand that security is a primary obligation for everyone at our facility.

We will have comprehensive security policies and procedures for the Grow Facility, which address measures to deter and prevent unauthorized entrance into areas containing marijuana and theft of marijuana at the facility. Employees will receive on-going training regarding our security protocol and the Site Manager shall ensure all employees follow policies and procedures regarding the security of the facility. The Site Manager shall implement and maintain employee training policies and procedures for security training. All employees shall aid in the security of the Grow Facility through prevention, awareness, reporting, and responsible incident management. All employees shall be required to immediately report security breaches and incidents of non-compliance to their supervisor, and in case of sudden emergency, immediately to law enforcement by either striking a panic button or calling law enforcement directly.

We will make our facility available and open to inspection, at all times, for law enforcement, representatives of the Department and law enforcement, when necessary to perform their duties.

PHYSICAL SECURITY

The facility shall be designed to maximize security and stop the potential for diversion. Access to the secure facility shall include safety and security mechanisms that prevent unauthorized entry. All doors will be burglary-resistant material, with commercial-grade, non-residential locks. Additionally, exterior doors, as well as limited access area entries, will be automatic locking and equipped with electric strike and keycard access hardware. All doors are setup to fail secure, which means in the event of a power failure, the doors will remain locked and only be accessible via a master key.
The Grow Facility’s main entrance vestibule shall include a mantrap to control passage from the public access area to the limited access area. We will strive to install Underwriter’s Lab (UL) approved locks and lock cylinders, which are rated as burglary resistant. We will also install local alarms on all fire exits and other perimeter doors not authorized for employee or visitor use. Our alarm system will be monitored after business hours with live monitoring through a licensed security monitoring company. If there are ever any after-hours issues, the live monitoring system will be linked directly to law enforcement and the Site Director, among other key personnel.

We shall ensure that trees, bushes, and other foliage outside of the premises do not allow people to conceal themselves from sight. The surveillance system’s cameras shall be capable of certain identification of persons (including facial features), license plates, vehicles, the immediate surrounding areas, and any activities occurring within any area of the premises, and the parking area, and within twenty feet (20’) of all entry and exit points of the premises. Cameras will cover every square inch of the facility.

To provide first responders with immediate access into our facility during a time of emergency or inspection, we will install a Knox Rapid Access System to remove any barriers to entry when first responders respond to an emergency call.

LIGHTING

Exterior lights at all points of entry and exit shall remain constantly illuminated to allow for recording. Lighting on the outside perimeter shall allow cameras the ability to record any suspicious activity. Timed-delay switches shall be used to turn off non-essential interior lights, which shall not remain lit after employees have left the facility. Motion detecting lights shall be installed in areas that are entered and exited infrequently. The exterior of the facility shall be lit by commercial LED light fixtures sufficient to facilitate twenty-four-hour surveillance. Exterior lights in the parking area will remain on from dusk until dawn.

SECURITY EQUIPMENT

Our security equipment shall be designed, installed, and maintained to deter and prevent unauthorized entrance and theft of marijuana products at the facility. Security equipment shall be installed by a commercial, licensed service provider. All equipment shall be compliant with Department rules and all state and local laws, regulations, ordinances, and other requirements.

ENTRY AND EXIT ELECTRONIC EQUIPMENT AND PLACEMENT

Our entry and exit electronic access equipment will consist of the following:

- Electric strike locks on all doors in the Grow Facility with the ability to override access control for emergency exit even during a power outage.
- RFID proximity card access control devices for all interior doors and all exterior entrances and exits into the Grow Facility.
- Access control system that allows for programming or uploading individual user permissions and allowed entry times, as well as operations-specific information including employee photos.
- A backup power supply system that immediately provides power for at least twenty-four (24) hours in the event of a power outage.
- Main system operating equipment will be kept in the security room, a limited access area.
• Access control system that monitors and records:
  o Identification of employees or visitors entering and exiting.
  o Date and time of entry and exit.
  o Length of time in specific area.
  o Any unauthorized attempts for access.

ALARM SYSTEM

We shall have a professionally monitored security alarm system installed at our facility. Monitoring of the alarm system shall be twenty-four (24) hours a day, seven (7) days a week. We shall notify the Department of any intent to change our security alarm service provider. Upon request, we will make available to the Department all information related to the alarm system, monitoring, and alarm activity. The alarm system shall consist of the following:

• Appropriate equipment necessary to monitor activity inside and outside the Grow Facility, including:
  o All entrances and exits.
  o Roof hatches.
  o Rooms with exterior windows.
  o Rooms with exterior walls.
  o Rooms containing marijuana.
  o Rooms containing safes or vaults.
• A backup power supply system that immediately provides power in the event of a power outage.
• Main system operating equipment is kept in the Main Office Surveillance/IT Room, a limited access area.
• All telephone junction boxes or rooms where alarm telephone circuits terminate are locked, tamper-protected, and all labels or tags identifying these alarm circuits have been removed.

ALARM SYSTEM COMMUNICATION

The alarm system shall include an electronic or mechanical system that, upon activation, is programmed to send a prerecorded voice message, via telephone, radio frequency, or other communication system, to appropriate law enforcement authorities or other emergency services. In addition, the alarm system shall be equipped with a failure notification system that notifies the alarm monitoring service provider of the system failure via audio, text, visual, or audiovisual message, within a maximum of five (5) minutes of such failure.

ALARM SYSTEM TESTING

We shall bi-annually conduct an onsite inspection and test of the entire alarm system to determine needed repairs and adjustments.

ALARM SYSTEM RECORDS

We shall keep and maintain alarm system records and will make available to the Department all
information related to the alarm system, monitoring, and alarm activity. These records shall include the following:

- The name of the alarm installation and monitoring service provider.
- Copies of service contracts.
- A map of the Grow Facility showing the location and operation of each alarm system component including alarm telephone circuits.
- A list of authorized users.
- Manufacturers' instructions for operating and maintaining the equipment.
- Testing and maintenance logs.
- Reports of any incidents triggering an alarm.
- Reports of any interruption in monitoring and/or complete failure of the system, including the length of the interruption period.

SURVEILLANCE SYSTEM

We shall have a fully operational electronic surveillance system installed at our facility. We shall notify the Department of the intent to make any changes to the surveillance system. Upon request, we will make available to the Department all information related to the electronic surveillance system installed at our facility. The surveillance system shall consist of the following:

- Appropriate equipment necessary to video record activity inside and outside the Grow Facility, including:
  - All entrances and exits into and out of the Grow Facility.
  - Roof hatches or skylights.
  - Rooms with exterior windows.
  - Rooms with exterior walls.
  - Rooms containing safes or vaults.
  - All entrances and exits of security rooms and limited access areas.
- Appropriate equipment to record keycard entry and exit activity of all our employees and visitors.
- A backup power supply system that immediately provides power in the event of a power outage.
- A dedicated safe or vault to store all entry/exit records and video recordings in the Office Surveillance/IT Room, in a limited access area.
- Main system operating equipment is kept in the main office Surveillance/IT Room.

VIDEO SURVEILLANCE EQUIPMENT

Our video surveillance equipment will consist of the following:

- Network video recorders with a record rate of a minimum of thirty (30) frames per second.
- Cameras with a minimum resolution of 1920 x 1080 pixels.
- Cameras with infrared capabilities to capture images in low or no lighting conditions.
- Cameras with capabilities to identify activity occurring within twenty feet (20’) from all points of entry and exits into and out of the exterior of the Grow Facility.
- Video monitors.
- Digital archiving device.
- Capabilities to produce a color still photograph from any camera image, live, or recorded.
- Capabilities to accurately display the time and date on recorded images or video.
- Color printer that can immediately produce a clear, color still photo, either live or recorded, with a resolution of 9600 dpi and the image quality is relative to the camera being used to capture the image.

CAMERA COVERAGE PLACEMENT

We will install at least One Hundred (100) security cameras. The security cameras will be permanently mounted and in a fixed location. Each camera at the Grow Facility shall be placed in a location that allows the camera to clearly record activity occurring within twenty feet (20’) of all points of entry and exit on the Grow Facility. The cameras will cover every square inch of the facility. The cameras shall allow for the clear and certain identification of any person, including facial features, and activities, including sales or transfers, in all areas of the Grow Facility. The security cameras shall monitor and record all areas of the Grow Facility including:

- All areas where marijuana or products are present, including activities related to:
  - Weighing, packaging, and labeling.
  - Storing, preparing for sale, loading/unloading, or moved within the Grow Facility.
  - Waste Disposal.
- Limited-access areas and security rooms, including transfers between rooms and areas.
- Areas storing a surveillance system storage device with at least one (1) camera recording the access points to the secured surveillance recording area.
- All entrances and exits into and out of the exterior of the Grow Facility, recording both indoor and outdoor vantage points.
- Outdoor trash receptacles.
- Roof hatches or skylights.
- Rooms with exterior windows.
- Rooms containing safes or vaults.
- All areas where cash is counted, transferred, or stored.
- All areas where records are stored.

Cameras shall not be installed in bathrooms or any other area where a legitimate expectation of privacy exists. Camera placement shall ensure:

- Visibility of activities is not obstructed by lighting equipment covers, fixtures, or other equipment.
- A clear and certain identification of all individuals and activity at the Grow Facility.
• Identification of activity occurring within twenty feet (20’) from all points of entry and exit into and out of the exterior of the Grow Facility.

SURVEILLANCE FAILURE NOTIFICATION

The surveillance system shall include a failure notification system that alerts the Site Director and other key site personnel of any interruption in surveillance and/or the complete failure of the monitoring system. The notification shall be within a maximum of five (5) minutes of such failure via audio, text, visual, or audiovisual message. Additionally, an alarm shall signal the Security Officer on duty whenever an unauthorized entry is attempted.

SURVEILLANCE TESTING

We shall ensure that the surveillance system is properly maintained for playback quality so that images can be seen and the identity of all individuals and activity in surveillance areas are captured. We will schedule and oversee all required maintenance of security equipment in accordance with manufacturer recommendations. Any equipment failure identified shall be corrected as soon as possible. All security equipment shall be in good working order and shall be inspected and tested at regular intervals.

INFORMATION TECHNOLOGY SECURITY

We shall ensure the security of our hardware, software, data, and communications networks, including the following information technology (IT) maintenance:

• Software registration.
• Security patches.
• Malicious software prevention.
• Account management.
• Security status and network access monitoring.
• Disposal and redeployment.
• Employee IT security training.
• Vulnerability assessments.

Access to protected information shall be restricted to essential employees only. Access may be granted to authorized representatives of the Department and other government officials if necessary to perform their official duties. Examples of protected information include:

• Security and cash management procedures.
• Asset and inventory lists.
• Network data.
• Floor plans of critical areas.
• Password and code records.
• Customer records.
• Employee records.

PRODUCT SAFETY AND SECURITY

We shall develop and implement procedures that ensure product safety and security and are compliant with the rules set forth by the Department and all applicable state and local laws, regulations, ordinances, and other requirements. Procedures shall include measures that:

• Minimize the risk of diversion or theft of marijuana.
• Minimize the risk of contamination from incoming materials.
• Ensure proper storage conditions that maintain the quality and purity of our marijuana products.

MATERIAL RECEIVING

All deliveries shall be verified at the front entrance to the facility before allowed access to the loading areas. All materials received will be documented. No material may be received unless its shipping documentation matches the corresponding purchase order or separate approval is given by the Site Manager. Employees shall notify the Site Manager of any shipment discrepancy immediately and shipment may not be accepted without the Site Manager’s approval.

PRODUCT STORAGE SECURITY

Storage areas shall be designed to provide adequate lighting, ventilation, temperature, humidity, space, and equipment. All storage areas shall be maintained in a clean and orderly condition, free from infestation of pests, and in accordance with our security measures and Security Plan. The Grow Facility Manager shall ensure secure containers containing marijuana products remain dry, well ventilated, have temperature-control features to avoid extreme temperature fluctuations and appropriate odor-control features. These proper storage environments ensure product storage does not lead to product contamination or loss of quality.

The storage areas containing marijuana products shall be designed for security and ease of maintenance. We shall establish product storage and security policies and procedures compliant with the rules set forth by the Department and all applicable state and local laws, regulations, ordinances, and other requirements. Under no circumstances may any product be transferred without following our policies and procedures and all the rules set forth by the
Department and all applicable state and local laws, regulations, ordinances, and other requirements. Storage policies and procedures shall include:

- All equipment and any areas used for the processing or storage of marijuana shall be securely locked unless in use.
- All areas used for the storage of marijuana shall be on a time lock and only accessible during regular business hours.
- Inventory shall be reviewed and documented at the beginning and close of each day.
- All areas where marijuana product is stored will be monitored by the surveillance system.

DIVERSION PREVENTION

Investigation of possible diversion and developing policies to prevent it will be conducted by a team of our senior officials, including our CEO, COO, and Director of Compliance. Collectively, they will be known as the Diversion Prevention Team or DPT. The team will have multiple responsibilities including:

- Investigating allegations of diversion
- Developing policies and procedures to prevent diversion
- Managing performance improvement measures
- Providing overall direction for the program.
- Reporting confirmed cases of diversion to law enforcement

The DPT will also integrate information from external sources and environmental factors to improve safety and security at facilities. External sources and environmental factors may include news reports, trade and patient associations, law enforcement bulletins, et cetera. Standard operating procedures shall be updated to incorporate new sources of information and prevent diversion.

WORKING WITH LAW ENFORCEMENT

We deeply value and respect the work of local law enforcement. Police officers are on the front lines protecting our safety. Therefore, our Company, through the DPT, will form a partnership with law enforcement. This partnership will be rooted in a shared responsibility for the safety of the community. Upon request, law enforcement will have access to employee records and Grow Facility operations. Company will also engage with first responders like EMS and fire to establish emergency response protocols. This will create a close working relationship and enhance our ability to provide a secure and positive experience for our employees and the community.

To provide first responders with immediate access into our facility during a time of emergency or inspection, we will install a Knox Rapid Access System to remove any barriers to entry when first responders respond to an emergency call.
EMPLOYEE TRAINING

We know that having a trained and educated workforce is paramount to having an effective diversion strategy. Therefore, a considerable amount of time, resources, and energy will be devoted to ongoing diversion prevention training. The training curriculum will be conducted by the DPT. At a minimum, the training curriculum shall include:

- Compliance regulations for grow facilities.
- State laws and agency rules regulating the use of marijuana.
- Strategies for preventing diversion.
- Criminal and civil consequences for diverting product.
- Security and safety standard operating procedures.
- Chain of command for reporting diversion.
- Incident management.
- Daily operating procedures.

Diversion prevention trainings are mandatory for every new employee. Additionally, each employee shall be required to participate in quarterly continuing education trainings on diversion. Training materials will be outcome driven. Employees will be given real world examples of diversion and taught the appropriate response. Teaching the material through the learning principles of problem solving, discussion, and feedback will empower and increase understanding and retention of the training. This process of integrating knowledge will develop a culture of shared values, perspectives, and become the way of daily conduct and purpose at the Grow Facility.

Employees will have access to diversion prevention training materials at all times. There will be no excuse and zero tolerance for not knowing the proper policies and procedures. Well-maintained employee training records displaying documented training dates and subject matter will preserve and increase compliance, continuity and understanding of all guidelines, security procedures, safety, and incident response. Employee training records will become a written testament of the detailed information and accountability of security education.

INVESTIGATION OF DIVERSION

Due to intense and robust security operations, we do not anticipate diversion at our facility. However, it is important to be prepared for any scenario. We have developed an enhanced investigation procedure for any allegations or reports of potential diversion. Any allegation or report will be fully and immediately investigated by the DPT with established processes and timeframes.

Security policies developed by our Company outline that the first step of investigation is to preserve all possible evidence. Evidence needs to be persevered for the investigation and may be used in future disciplinary matters. The second step of investigation shall be to review all camera footage and other relevant information technology. Each marijuana product is tracked from seed to sale. Therefore, if diversion occurred, it will likely appear in an audit of the tracking software. The third step of investigation will be to interview the employee who engaged or
allegedly engaged in diversion. This step can only be executed if enough evidence is gathered to narrow down the suspect. The goal of the interview is to get the subject to confess how they diverted product to prevent future incidents from occurring. The fourth step of investigation will be to report the confirmed incident of diversion and suspect to law enforcement and the Department. The Site Manager shall be the point of contact for all law enforcement inquires and will turn over all relevant evidence to law enforcement and the Department. The final step of investigation is to develop policies and procedures to prevent the incident from happening again. Once new policies have been developed by the DPT, an all staff training shall be given. The training will be a top down review of all security policies including any updated procedures.

INCIDENT RESPONSE

We shall establish incident response procedures addressing any incident that may occur, including natural disaster, unauthorized access, theft, or IT security breach. Procedures shall be in accordance with the rules set forth by the Department and all applicable state and local laws, regulations, ordinances, and other requirements. Procedures for general emergency and incident management, containment, and corrective measures shall be thoroughly detailed. The Director of Compliance shall ensure the appropriate response procedures are followed. All employees shall receive incident response training annually. The Site Manager shall determine the category and severity of the incident and determine the next best course of action. All discussions, decisions, and activities shall be documented.

We shall immediately notify appropriate law enforcement authorities and the Department immediately after the discovery of a reportable incident as defined by state and local laws, regulations, ordinances, and other requirements. Examples of an incident may include, but are not limited to:

- Theft or physical loss of marijuana or confidential records.
- Breach of our network servers.
- Robbery or unauthorized entry in the Grow Facility.
- Threats of violence to the Grow Facility, employees, or visitors.
- Bomb threats.
- Any criminal activity.
- Civil disturbances.
- Hazardous spills.
- Infectious disease epidemic.
- Serious accidents.
- Fires.
- Earthquakes.
- Floods.
- Windstorms or tornadoes.
INCIDENT REPORTING

Anyone with knowledge or a reasonable suspicion of an incident is instructed to make an immediate report to the Grow Facility Manager or the Site Manager. The person reporting the incident shall complete the Incident Log.

- Date and time of occurrence or suspected occurrence.
- Names and contact information of parties involved and any witnesses.
- Description of incident.
- Completed Suspect Description Forms, if applicable.
- Any evidence supportive of the event (unless law enforcement is required on scene or en route).

We shall notify appropriate law enforcement authorities and the Department immediately after discovering the following:

- Discrepancies identified during inventory; diversion, theft, or loss of marijuana; or any criminal action involving an employee.
- Theft, robbery, or burglary; sale to minors; diversion of marijuana or marijuana products; or any other crime related to marijuana.
- Any suspicious act involving the sale, cultivation, distribution, processing, or production of marijuana by any person.
- Unauthorized destruction of marijuana.
- Any loss or unauthorized alteration of records.
- An alarm activation or other event that requires a response by public safety personnel.
- Integrity of the inventory management system compromised.
- An IT security breach.
- The failure of any security alarm system due to a loss of electrical power or mechanical malfunction that is expected to last longer than eight (8) hours.
- Any other breach of security defined by the rules set forth by the Department.

UNAUTHORIZED ENTRY/ROBBERY CONTAINMENT AND CORRECTIVE PROCEDURES

In the event a threat is present to persons, cash, or product due to unauthorized entry, employees shall be trained to perform the following:
• Notify law enforcement utilizing a panic alarm, only if it can be safely done without being obvious to the robber.

• Do not resist the robber or use or encourage the use of weapons or force against the robber.

• Try to inform the robber of any potential surprises (e.g., an employee is due back from lunch or the building alarm is set to be tested).

• Try to keep employees and visitors, if applicable, calm during the robbery.

• Try to alert other employees of the situation using pre-determined signals or text messages, only if safe to do so.

• Follow the robber’s commands in order to shorten the time of the incident. Do not argue with the robber, but do not volunteer to help.

• If the robber demands a certain amount of money or product, only give them that amount.

• Be observant in order to be a good witness. Try to remember:
  o The number of robbers.
  o The physical characteristics of the robber(s), such as weight, scars, tattoos, hair color, or speech patterns.
  o The clothing worn by the robber(s).
  o Any names used by the robber(s).
  o A description of any weapons shown, such as barrel length and color, color of the grip, or automatic or revolver.

• If the robber uses a note, try to place it out of sight to retain it as evidence.

• Do not follow a robber.

• Secure the Grow Facility and place a notice that the business is closed due to an emergency.

• Call the police and ambulance, as needed, immediately and request that witnesses stay or obtain their contact information.

• Provide aid to injured people.

• Do not discuss the robbery with any outside parties until police and management has given authority to do so.

• Do not estimate the amount of money or product that was taken until an inventory has been performed.

Corrective procedures that may be required to return conditions to a normalized and secure state:

• Change all security codes.

• Replace locks and issue keys only to authorized employees.
• Ensure any video of the incident is archived.
• Restore security devices and/or apparatus to working condition.
• Repair any physical damage to the Grow Facility.
• Provide employees and visitors, if applicable, counseling, as needed.
• Perform a security re-training as soon as possible.
• Modify Employee Access Control Log as deemed appropriate.

INTERNAL THEFT/BURGLARY CONTAINMENT AND CORRECTIVE PROCEDURES

In the event a threat is present to persons, cash, product due to internal theft or burglary, employees shall be trained to perform the following:

• Identify missing or compromised assets.
• Gather, remove, recover, and secure sensitive materials to prevent further loss or access.
• Power down, recycle or remove security equipment known to be compromised.
• Where possible, secure the premises for possible analysis by the Department and law enforcement.
• Gather and secure any evidence of illegal entry for review by the Department and law enforcement.
• Where possible, record identities of any party who might be a possible witness to events.
• Preserve video recordings and Visitor logs for review by the Department and law enforcement.

Corrective procedures that may be required to return conditions to a normalized and secure state:

• Retrieve or restore assets where possible.
• Store all sensitive materials and products in a secure manner (e.g., lockable cabinets or storage areas/container).
• Replace locks and issue keys only to authorized employees. Update the Employee Access Control Log as necessary.
• Restore security devices and/or apparatus to working condition.
• Remove and retain unauthorized equipment from network and/or area.
• Implement physical security devices and improvements (e.g., equipment cables, alarms) as deemed appropriate.
• Perform a security re-training as soon as possible.
FIRE PROCEDURES

If a fire does not present an immediate danger to personal safety, one (1) employee shall try to extinguish the fire. If a fire presents an immediate danger to personal safety, a fire alarm shall be pulled and a call to 911 shall be immediately made and evacuation of the building shall occur all at once.

Evacuation of Grow Facility

Any director or manager may determine the need to evacuate. Reasons for evacuation may include:

- Fire.
- Bomb threat.
- A hostile or violent employee, visitor, or unknown person.
- Power outage.
- Earthquake.
- Water or gas leak.
- Hazardous spill.
- Robbery or hostage situation.

The Site Manager shall ensure that all employees and visitors, if applicable:

- DO NOT gather in lobbies.
- DO NOT open a door without first checking for heat.
- DO NOT touch any suspicious items or suspected bombs.
- DO NOT run or panic.
- DO NOT re-enter the building until authorized.
- DO assist disabled individuals or others who need assistance. Evacuate disabled individuals or others who need assistance ONLY under the direction of authorized emergency personnel or when there is an immediate threat to personal safety and security.

INCIDENT CONTAINMENT

The Site Manager, in coordination with the appropriate department directors or managers, shall determine and implement the appropriate activities and processes required to quickly contain and minimize the immediate impact to personal safety, the Grow Facility, and other affected parties. Containment activities shall be designed to:

- Minimize harm to individuals.
- Counteract the immediate threat.
- Prevent propagation or expansion of the incident.
- Minimize actual and potential damage.
- Restrict knowledge of the incident to authorized employees.
- Preserve information relevant to the incident.

The Site Manager, in coordination with the appropriate department directors or managers, shall determine and implement the appropriate activities and processes to quickly:

- Secure the environment.
- Restore the environment to its normalized state.

The Site Manager shall be actively engaged throughout the incident to assess the progress of all containment and corrective measures and determine at what point the incident can be considered resolved.

INCIDENT CONTAINMENT AND CORRECTIVE PROCEDURES

The Site Manager shall determine and implement the appropriate procedures required to quickly contain and minimize the immediate impact of an incident, as well as to quickly restore circumstances to a normalized, secure state. Containment and corrective measures shall be designed with the primary objectives of:

- Minimizing harm.
- Counteracting the immediate threat.
- Preventing propagation or expansion of the incident.
- Minimizing the actual and potential damage.
- Restricting knowledge of the incident to authorized employees.
- Preserving information relevant to the incident.
- Securing the environment.
- Restoring the environment to its normalized state.

POST-INCIDENT REVIEW, REPORT, AND FOLLOW UP

The Site Manager shall hold a Post-Incident Review after each incident has been resolved. The Post-Incident Review shall be scheduled within two (2) to three (3) weeks of the incident's resolution and shall involve:

- Appropriate personnel, which may include affected parties.
- Examination of the incident and all related activities and events.
- Discussion on proposed changes to policy, processes, and safeguards.
All incident activities, from receipt of the initial report through post-incident review, shall be documented. The Site Manager shall ensure all events are recorded, assembling these records in preparation and performance of the post-incident review, and ensuring all records are preserved for review. The following shall be included, at a minimum, in the Post- Incident Report:

- A description of incident events with specific timelines.
- Employee(s) involved.
- Non-Employees involved.
- Impact to affected parties.
- Discussions, decisions, and assignments made.
- Successful and unsuccessful activities.
- Notifications required or recommended.
- Steps taken for containment and resolution.
- Recommendations for prevention and remediation (short-term and long-term).
- Identification of policy and procedure gaps.
- Results of post-incident review.
- Any necessary follow-up actions.

The Post- Incident Report shall be distributed to the Site Manager, the Grow Facility Manager, and all other relevant parties for review. The Site Manager shall ensure the appropriate employees are assigned to any follow-up actions. The Site Manager shall document the completion of all follow-up actions in the Post- Incident Report and distribute an updated copy.

SECURITY SYSTEM RECORDS

We shall keep all necessary books and records in order to render a full account of all operations conducted at the Grow Facility under our license for the year to date and the five (5) years prior. We shall keep books and records of the Grow Facility from the previous six (6) months (or the complete copies of such records) in the Grow Facility at all times. All marijuana related records shall be retained in the inventory management system. All surveillances recordings shall be retained, at a minimum for at least sixty (60) days, unless in instances of investigation or inspection by the Department, through its investigators, agents, auditors, or the state police, in which case the licensee shall retain the recordings until such time as the department notifies the licensee that the recordings may be destroyed. Our standard operating procedures shall detail the maintenance of records and measures for addressing and reporting any loss or unauthorized alteration of records. The Department, upon request, shall have full access to all Grow Facility records and surveillance recordings.

We shall keep and maintain security and surveillance system records and recordings in the Grow Facility and copies stored on a secure cloud storage. These records shall include, at a minimum, the following:

- The name of the surveillance equipment installation service provider and all equipment manufacturers.
- Copies of any service contracts.
- A map of the Grow Facility showing the location and operation of each surveillance system component, including the direction of camera coverage.
- A list of authorized users.
- Manufacturers' instructions for operating and maintaining the equipment.
- Testing and maintenance logs.
- Reports of any incidents of unauthorized entry.
- Employee Access Control Logs.
- Visitor Registration Logs.
- Authorized Visitor Access Control Logs.
- Incident Logs and Post-Incident Reports.
- Reports of any interruption in monitoring and/or complete failure of the system, including the length of the interruption period.
- A log of the recordings, which includes:
  - The identities of the employee or employees responsible for monitoring the video surveillance system.
  - The identity of the employee who removed the recording from the video surveillance system.
  - The identity of the employee who destroyed any recording.
- Video surveillance recordings shall be:
  - In a digital format that ensures authentication of the recording as being legitimately captured without alterations.
  - Easily accessible and in a format that allows for viewing and copying.
  - Embedded with the date and time without significantly obscuring the picture.

We will maintain a log of all recordings, which will include a minimum:
- The identities of the employee or employees responsible for monitoring the video surveillance system.
- The identity of the employee who removed the recording from the video surveillance system storage device and the time and date removed.
- The identity of the employee who destroyed any recording.

Video surveillance recordings shall be stored on an NVR that is server-based with storage as required to meet recording rate and retention. This system shall be password-protected and separate from any other equipment in the Grow Facility. The files and video surveillance recordings shall be available for inspection upon request, by authorized representatives of the Department and other government officials when necessary to perform their official duties.

After the expiration of the retention period, and before selling or closing the facility, the surveillance video recordings shall be erased, destroyed, or otherwise disposed. We shall not destroy any surveillance video recordings if we have knowledge or should have knowledge of any ongoing criminal, civil, administrative, or other official investigations or proceedings for which the recording may contain relevant information. Additionally, we shall not destroy any surveillance video recordings if
video recordings in instances of investigation or inspection by the Department, through its investigators, agents, auditors, or the state police, in which case the recordings shall be retained until such time as the Department notifies us that the recordings may be destroyed.
Security and Surveillance Equipment Room Access List

This is the current list of individuals having access to our Security and Surveillance Equipment Storage Room. Only those on this list are essential to maintain security and surveillance operations. All others will be denied access to the Security and Surveillance Equipment Room.

This list is available to the Department or authorized agents immediately upon request.

Linda Clegg, Interim Director
Corporations, Securities & Commercial Licensing Bureau
Date of this notice: 07-31-2020
Employer Identification Number: 85-2192285
Form: SS-4
Number of this notice: CP 575 A
For assistance you may call us at: 1-800-829-4933

WE ASSIGNED YOU AN EMPLOYER IDENTIFICATION NUMBER

Thank you for applying for an Employer Identification Number (EIN). We assigned you EIN 85-2192285. This EIN will identify you, your business accounts, tax returns, and documents, even if you have no employees. Please keep this notice in your permanent records.

When filing tax documents, payments, and related correspondence, it is very important that you use your EIN and complete name and address exactly as shown above. Any variation may cause a delay in processing, result in incorrect information in your account, or even cause you to be assigned more than one EIN. If the information is not correct as shown above, please make the correction using the attached tear-off stub and return it to us.

Based on the information received from you or your representative, you must file the following form(s) by the date(s) shown.

Form 941 01/31/2021
Form 940 01/31/2021

If you have questions about the form(s) or the due dates(s) shown, you can call us at the phone number or write to us at the address shown at the top of this notice. If you need help in determining your annual accounting period (tax year), see Publication 538, Accounting Periods and Methods.

We assigned you a tax classification based on information obtained from you or your representative. It is not a legal determination of your tax classification and is not binding on the IRS. If you want a legal determination of your tax classification, you may request a private letter ruling from the IRS under the guidelines in Revenue Procedure 2004-1, 2004-1 I.R.R. 1 (or superseding Revenue Procedure for the year at issue). Note: Certain tax classification elections can be requested by filing Form 8832, Entity Classification Election. See Form 8832 and its instructions for additional information.
If you are required to deposit for employment taxes (Forms 941, 943, 944, 945, CT-1, or 1042), excise taxes (Form 720), or income taxes (Form 1120), you will receive a Welcome Package shortly which includes instructions for making your deposit electronically through the Electronic Federal Tax Payment System (EFTPS). A Personal Identification Number (PIN) for EFTPS will also be sent to you under separate cover. Please activate the PIN once you receive it, even if you have requested the services of a tax professional or representative. For more information about EFTPS, refer to Publication 966, Electronic Choices to Pay All Your Federal Taxes. If you need to make a deposit immediately, you will need to make arrangements with your financial institution to complete a wire transfer.

The IRS is committed to helping all taxpayers comply with their tax filing obligations. If you need help completing your returns or meeting your tax obligations, Authorized e-file Providers, such as Reporting Agents (payroll service providers) are available to assist you. Visit the IRS Web site at www.irs.gov for a list of companies that offer IRS e-file for business products and services. The list provides addresses, telephone numbers, and links to their Web sites.

IMPORTANT REMINDERS:

* Keep a copy of this notice in your permanent records. This notice is issued only one time and IRS will not be able to generate a duplicate copy for you. You may give a copy of this document to anyone asking for proof of your EIN.

* Use this EIN and your name exactly as they appear at the top of this notice on all your federal tax forms.

* Refer to this EIN on your tax-related correspondence and documents.

* Provide future officers of your organization with a copy of this notice.

Your name control associated with this EIN is TYCO. You will need to provide this information, along with your EIN, if you file your returns electronically.

If you have questions about your EIN, you can contact us at the phone number or address listed at the top of this notice. If you write, please tear off the stub at the bottom of this notice and include it with your letter. Thank you for your cooperation.
Return this part with any correspondence so we may identify your account. Please correct any errors in your name or address.

OF
TYCOON I OPERATIONS, LLC

THIS OPERATING AGREEMENT (this "Agreement") is entered into and made effective as of July 22, 2020 (the "Effective Date") by and between TYCOON I OPERATIONS, LLC, a Michigan limited liability company (the "Company"), and TYCOON HOLDINGS, LLC, a Michigan limited liability company and sole member of the Company (the "Member").

Background

A. The Company was formed on July 22, 2020 as a Michigan limited liability company.

B. The undersigned desires to memorialize its rights and obligations with respect to the Company pursuant to the terms of this Agreement.

Agreement

In consideration of the foregoing background and for other good and valuable consideration, the receipt and sufficiency of which is hereby acknowledged, and intending to be legally bound hereby, the parties agree as follows:

ARTICLE I
DEFINITIONS

The following capitalized terms used in this Agreement shall have the following meanings (unless otherwise expressly provided herein):

"Act" means the Michigan Limited Liability Company Act, as amended.

"Business" means the principal business of the Company, which shall be to own and manage investments.

"Capital Contribution" means any contribution of cash or property to the Company, or any obligation to contribute cash or property to the Company, whenever made.

"Certificate" means the Articles of Organization as filed by the organizer of the Company with the Department of State of the State of Michigan, as amended.

"Code" means the Internal Revenue Code of 1986, as amended, or corresponding provisions of subsequent superseding federal revenue laws.

"Interest" means the Member's entire interest in the Company.
“Person” means any individual, trust, partnership, corporation, limited liability company or entity.

ARTICLE II
FORMATION OF COMPANY

2.1 Formation. The Company has been organized as a Michigan limited liability company by executing and delivering the Certificate in accordance with and pursuant to the Act.

2.2 Name. The name of the Company is Tycoon I Operations, LLC.

2.3 Registered Office. The address of the registered office of the Company shall be The CSC – Lawyers Incorporating Service, 601 Abbot Road, East Lansing, Michigan 48823, or at such other place as the Member may from time to time determine. The registered office of the Company may be changed from time to time by amending the Certificate in accordance with the Act. The Company may maintain such other offices, including, but not limited to, a principal place of business as the Member shall determine.

2.4 Purpose. The purposes of the Company shall be (a) to advance and grow the Business, (b) to engage in all other lawful business authorized pursuant to the Act, and (c) to make, enter into and perform any contracts and other undertakings, and to engage in any activities and transactions as may be ancillary to or necessary or advisable to carry out the foregoing purposes.

2.5 Term. The term of the Company shall be perpetual unless the Company is earlier dissolved in accordance with the provisions of this Agreement.

ARTICLE III
CAPITAL CONTRIBUTIONS; LOANS; DISTRIBUTIONS

3.1 Capital Contributions. The Company shall keep a record of all Capital Contributions made by the Member. The Member shall not be required to make any Capital Contribution to the Company not specifically agreed to in writing between the Member and the Company.

3.2 Loans. Any and all loans made to the Company by the Member shall not be considered Capital Contributions.

3.3 Distributions. Distributions shall be made to the Member (in cash or in kind) at such times and in such amounts determined by the Member and as permitted by applicable law.
ARTICLE IV
MEMBER

4.1 Member. The name and address of the Member is:

Tycoon Holdings, LLC
2055 Crooks Road, Suite B
Rochester Hills, MI 48309

4.2 Management. The Company shall be initially managed by Heller Investment Holdings, LLC.

4.3 Right to Rely on Member. Any Person dealing with the Company may rely (without duty of further inquiry) upon a certificate signed by a designee of the Member as to: (a) the identity of the Member; (b) the existence or non-existence of any fact or facts which constitute a condition precedent to acts by the Member or which are in any manner germane to the affairs of the Company; (c) the Persons who are authorized to execute and deliver any instrument or document of the Company; or (d) any act or omission by the Company or any other matter whatsoever involving the Company or the Member.

4.4 Authority to Designate Officers. The Member may elect, appoint or designate, by resolution or otherwise, individuals as officers of the Company and delegate to such officers such powers, authority and responsibilities as are (i) set forth in the designation or delegation, and (ii) necessary to carry out and implement the management decisions of the Member. The Member may remove any officer, with or without cause, at any time. Any officer may resign at any time by giving written notice to the Company. Any resignation shall take effect as of the date of the Company’s receipt of such notice or at any later time specified in such notice (unless such officer is otherwise removed prior to such date); and unless otherwise specified in such notice, the acceptance of the resignation shall not be necessary to make it effective. Unless the Member decides otherwise, if the title to an officer of the Company is one commonly used for officers of a business corporation, the assignment of such title shall constitute the delegation to such individual of the authority and duties that are normally associated with that office. The current officers of the Company are as set forth on Schedule A attached hereto, as may be amended from time to time.

4.5 Liability of Member and Officers. Neither the Member nor any officer, agent or representative of the Member, or officer of the Company, shall be liable to the Company or to the Members, as applicable, for (i) the performance of, or the failure to perform, any act or duty on behalf of the Company if, in good faith, the Members or officer determined that such conduct was in the best interests of the Company and such conduct did not constitute fraud, gross negligence or reckless or intentional misconduct, (ii) the termination of the Company and this Agreement pursuant to the terms hereof, and (iii) the performance of, or the failure to perform, any act on behalf of the Company in good faith reliance on advice of legal counsel, accountants or other professional advisors to the Company.
4.6 Indemnification. The Company shall indemnify, defend and hold the Member and the officers, agents and representatives of the Member, and each officer of the Company and, in the discretion of the Member, each employee of the Company, harmless from and against any expense, loss, damage or liability incurred or connected with, or any claim, suit, demand, loss, judgment, liability, cost or expense (including reasonable attorneys' fees) arising from or related to, the Company or any act or omission of such Member (or officer, agent or representative of the Member) or officer (or employee) and amounts paid in settlement of any of the foregoing, to the fullest extent provided or allowed by the laws of the State of Michigan. The Company may advance to any such Person the costs of defending any claim, suit or action against such Person.

4.7 Title to Company Property. All real and personal property shall be acquired in the name of the Company and title to any property so acquired shall vest in the Company itself rather than in the Member.

ARTICLE V
ACCOUNTING AND TAX MATTERS

5.1 Accounting Principles. The Company’s financial statements shall be prepared and its profits and losses shall be determined in accordance with methods of accounting selected by the Member, which need not be the same as the method of accounting used for tax purposes.

5.2 Returns and Other Elections. The Member shall cause the preparation and timely filing of all tax returns required to be filed by the Company pursuant to the Code and all other tax returns deemed necessary and required in each jurisdiction in which the Company does business. All elections permitted to be made by the Company under federal or state laws shall be made by the Member in its sole discretion. So long as the Company has only one member, the Company shall be treated as a disregarded entity for income tax purposes.

ARTICLE VI
TRANSFERS: ADDITIONAL MEMBERS

6.1 Transferability of Membership Interest. The Member’s Interest in the Company is freely transferable or assignable, in whole or in part, either voluntarily or by operation of law.

6.2 Admission of Additional Members. Additional members of the Company may be admitted to the Company at the direction of the Member only if a new operating agreement or an amendment and restatement of this Agreement is executed by such additional member or members.
ARTICLE VII
DISSOLUTION AND LIQUIDATION

7.1 Dissolution.

(a) The Company shall be dissolved and its affairs wound up and terminated only upon the determination of the Member. The dissolution or bankruptcy of the Member or the occurrence of any other event that terminates the continued membership of the Member shall not cause a dissolution of the Company.

(b) Dissolution of the Company shall be effective on the day on which an event described in Section 7.1(a) above occurs, but the Company shall not terminate until articles of dissolution shall be filed with the Department of State of the State of Michigan and the assets of the Company are distributed as provided in Section 7.2 below. Notwithstanding the dissolution of the Company, prior to the termination of the Company, the business of the Company and the affairs of the Member shall continue to be governed by this Agreement.

7.2 Winding Up. Upon dissolution, the Company shall continue until the winding up of the affairs of the Company is completed and a certificate of dissolution has been filed pursuant to the Act. Upon the winding up of the Company, the Company’s property shall be distributed (a) first to creditors, including the Member if the Member is a creditor, to the extent permitted by law, in satisfaction of the Company’s liabilities, and (b) then to the Member. Distributions shall be in cash or property or partly in both, as determined by the Member.

ARTICLE VIII
MISCELLANEOUS PROVISIONS

8.1 Notices. Any notice, demand or communication required or permitted to be given by any provision of this Agreement shall be in writing and shall be deemed to have been delivered (a) two business days after being sent by registered or certified United States mail, or (b) upon delivery if hand delivered, sent via facsimile transmission or electronic mail. If delivered to the Member, such notice shall be delivered to his address as it appears in Section 4.1 above. If to the Company, such notice shall be delivered to its principal place of business.

8.2 Governing Law. This Agreement, and the application and interpretation hereof, shall be subject to and governed exclusively by its terms and by the laws of the State of Michigan, without regard to its conflicts of laws provisions.

8.3 Construction. Whenever the singular number is used in this Agreement and when required by the context, the same shall include the plural and vice versa, and the masculine gender shall include the feminine and neuter genders and vice versa. Unless expressly stated otherwise, Section and Article references herein shall refer to the Sections and Articles of this Agreement.

8.4 Waivers. No waiver by any party of the breach of any provision hereof shall be deemed to constitute a waiver of any continuing or subsequent breach of such provision or any other provision hereof.
8.5 **Severability.** If any provision of this Agreement or the application thereof to any Person or circumstance shall be invalid, illegal or unenforceable to any extent, the remainder of this Agreement and the application thereof shall not be affected and shall be enforceable to the fullest extent permitted by law, provided that the essential purpose of this Agreement is not frustrated.

8.6 **Heirs, Successors and Assigns.** The covenants, terms, provisions and agreements herein contained shall be binding upon, and inure to the benefit of, the parties hereto and, except as otherwise provided to the contrary, their respective heirs, executors, administrators, legal representatives, successors and permitted assigns.

8.7 **Entire Agreement.** This Agreement embodies the entire agreement and understanding between the parties hereto with respect to the subject matter hereof and supersedes all prior agreements and understandings relating to such subject matter.

[SIGNATURES APPEAR ON FOLLOWING PAGE]
IN WITNESS WHEREOF, the parties hereto have caused this Agreement to be signed as of the Effective Date.

STAFFING PLAN

Summary of Job Creation, Compensation and Budget

As discussed in detail below, we anticipate creating approximately 59 jobs at our Orion Township Cultivation Facility.

<table>
<thead>
<tr>
<th>Type of Marijuana Facility</th>
<th>Proposed Location</th>
<th>Total Jobs Per Facility</th>
<th>Expected Annual Payroll</th>
</tr>
</thead>
<tbody>
<tr>
<td>Cultivation Facility</td>
<td>Orion Township</td>
<td>59</td>
<td>$3,750,000.00</td>
</tr>
</tbody>
</table>

We pay our cultivation facility employees a minimum hourly wage of $15. We also provide a generous benefit package that includes the following:

- Health insurance
- Paid Holidays
- Paid Time Off
- 401K Plan with 2% Match
- Performance Incentives

Out of our 3.75MM expected annual payroll, Tycoon I Operations expects to allocate $630,000 toward benefits for all full-time employees!

We intend to source our employees first from Orion Township, then into the surrounding regional area. Our job listings will always be listed in the Orion Township area first to accumulate as many qualified candidates as possible.

Attached is a table of the proposed positions at our Orion Cultivation Facility:

CHARTER TOWNSHIP OF ORION
ORDINANCE No. 154 APPLICATION REVIEW

Planning Commission Case:   PC-2021-33
Parcel Number:  09-35-477-001 & 09-35-477-002
Property Address:  180 Premier Drive
Applicant:  Tycoon I Operations LLC
Request: Class “C” Grower - Medical
Date: February 12, 2021

The aforementioned application was reviewed for compliance with the location requirements of Article VI of Ordinance No. 154 and the finds are detailed below:

Article V, 1. – The Facility must be located in the Township’s IP (Industrial Park) district: The parcels are zoned IP (Industrial Park) as required.

Article V, 2 – The Facility cannot be within one thousand five hundred (1,500) feet of a “church” in the Township: Article VI, 7 states that the distances specified in the Ordinance shall be measured from building edge to building edge. The applicant stated within their application that the facility is more than the required 1,500 feet. Using GIS, a measurement was taken from the edge of the property where the building is located (for simplicity vs. from edge of building which is further) to the edge of the closest church and it was over 1,600 feet.

Article VI, 3 – The Facility cannot be within two thousand (2,000) feet of a residence located in a R-1, R-2, R-3, SF, SE, SR, RM or MHP zoning district: Article VI, 7 states that the distances specified in the Ordinance shall be measured from building edge to building edge. The applicant stated within their application that the facility is more than the required 2,000 feet. Using GIS, a measurement was taken from the edge of the property where the building is located (for simplicity vs. from edge of building which is further) to the edge of the closest residential property line (for simplicity) and it was 2,500 feet.

Article VI, 4 – The Facility cannot be within two thousand five hundred (2,500) feet of a registered “school” within the Township: Article VI, 7 states that the distances specified in the Ordinance shall be measured from building edge to building edge. The applicant stated within their application that the facility is more than the required 2,500 feet. The closest school is over 2 miles from the parcel. (Scripps and Stadium Rds.)
Article VI, 5 – The Facility shall not have an ingress or egress on a street or road that has an average traffic volume in excess of six thousand (6,000) vehicles per day, as calculated by averaging the three (3) most recent Average Annual Daily Traffic (AADT) counts (as available), as reported by Southeast Michigan Council of Governments (SEMCOG): The building has ingress and egress off of Premier Drive. SEMCOG’s website does not contain any traffic count reports for Premier Dr.

Article VI, 6- The Facility shall not have an ingress or egress on a street or road that directly also serves as an ingress or egress to a residential road or property located in a R-1, R-2, R-3, SF, SE, SR, RM or MHP zoning district. The building has both ingress or egress off of Premier Dr. Premier Dr. does not serve as an ingress and/or egress to any property located in a R-1, R-2, R-3, SF, SE, SR, RM or MHP zoning district.

Article VI, 7 - Distances specified in this Ordinance shall be measured from building edge to building edge. The measurements, unless noted differently, were measured from building edge to proposed building edge.

Article VI, 8 – If the Facility shall need a variance from what is set forth in Article VI Sections one (1) through six (6) above, the Applicant may submit a formal request for a variance to the Zoning Board of Appeals (“ZBA”). The ZBA shall only consider a variance request that is no more than fifteen percent (15%) out of compliance with the above location regulations: The applicant is not requesting any variances from the ZBA.

Article VI, 9 – It is the Township’s intention that Growers, Processors, Safety Compliance Facilities and Secured Transporters may operate within the same building under the following conditions: each licensed entity remains distinct and separate within different working area and separate record keeping systems: The applicant is requesting a Class “C” Grow - Medical facility only.

Article VI, 10 – The location shall meet all applicable Ordinances and promulgated standards of the Township and, prior to opening, shall demonstrate to the Township that it meets the rules and regulations promulgated by the State Mariujana Regulatory Agency (MRA):

ITEMS TO BE ADDRESSED: These items are unknown at this time. It is recommended that any approval be conditioned upon this requirement.

Article VI, 11 – The Facility location shall conform to all standards of the zoning district in which it is located: This condition has been met. The building itself has received site plan approval.
Article VI, 12 – If the Facility location is currently vacant land, the applicant must submit a site plan and building plans with the Application. The application is for an improved parcel that has received site plan approval.

Article VI, 14 – Based upon an application for or amendment of a Conditional Rezoning, PUD, or other use Development Agreement of sufficient specificity, it is within the sole discretion and judgment of the Township Board of Trustees to consider and waive any or all of the Location Requirements of this Article VI based upon any or all of 3 factors listed in Article VI 14 a,b, and c.: The applicant is not requesting any waivers.

Summary: I have reviewed the application as it relates to Ordinance No. 154 Article VI – Location Requirements. I am agreeable with the recommendation to approve this application with the conditions that:

1. The applicant meets all other applicable Township Ordinances and promulgated standards of the Township and, prior to opening, shall demonstrate to the Township that it meets the rules and regulations promulgated by the State Mariujana Regulatory Agency (MRA).

Re: Marihuana Facility Permit Application; Tycoon I Operations, LLC  
180 Premier Drive, Orion Charter Township, MI 48359  
Medical Class C Grow 2 of 4

Dear Madam Clerk:

Please find attached a Marihuana Facility Permit Application and all exhibits for four Medical Class C Grow permits to operate at 180 Premier Drive, Orion Charter Township, MI 48359. This application represents two of four of the medical permits.

If the Township believes any additional information or materials are required for this filing, please do not hesitate to contact us. Kindly direct all communications regarding this application to Aaron Fogelman either by phone at 248.920.8770 or by email at licensing@gloriouscanna.com.

We look forward to contributing significantly to the Township through economic development, training and employment, education and outreach, and to becoming a valuable community partner.

Thank you for your consideration.

ORION ORDINANCE 154 INITIAL PERMIT APPLICATION
Ordinance 154, Licensed Marihuana Facilities Ordinance

Pursuant to the Charter Township of Orion Ordinance 154, Licensed Marihuana Facilities Ordinance, the following application is intended to collect information and documentation establishing the applicant’s conformance with the ordinance. All applicants should note that the approval of a Marihuana Permit will be based upon the accuracy and completeness of the information provided. In the event applications are received in excess of the permitted number of locations within the Ordinance or two or more applicants have similar qualifications, the Charter Township of Orion reserves its right to approve a permit which in the opinion of the Township best meets its goals and safeguards as set forth in the Ordinance. No financial or other right is established by the payment of the non-refundable application fee. All applications for renewal of a permit shall be reviewed per the standards set forth in the Ordinance. The Charter Township of Orion reserves the right to approve or deny the permit based upon the failure of any applicant to establish to the satisfaction of the Township any requirement, standard or goal of the Ordinance. The applicant understands this determination may involve a subjective interpretation of the application. Any permit granted by the Township is contingent upon the State of Michigan granting a state license for the specific license applied for under this ordinance.

Name of Authorized Signer: 
Address: 
Interest or Affiliation: 

**SECTION B- FACILITY LOCATION**

7. Name of proposed facility: Oakland Business Park, Building B

8. Location of proposed facility: 180 Premier Drive

Orion Charter Township, MI 48359
9. Please provide a preliminary floor plan sketch showing the location of all facility operations within an existing building, or for new construction a site plan for the parcel. Attach as Exhibit “A”
   ✔ Document(s) attached. If not attached, why not and when is applicant expected to supplement: ________________________________

10. With respect to the location of the facility, please state with specificity the exact location, address, suite number and, if necessary, the location of the facility within a building or the parcel of land. This location should include the distance in feet from each property line.
    Attach as Exhibit “B”
    ✔ Document(s) attached.
    If not attached, why not and when is applicant expected to supplement: ________________

11. Please provide evidence of the Applicant’s property interest in the proposed location.
    Provide copies of documentation showing a legal and enforceable property interest.
    Attach as Exhibit “C”.
    ✔ Document(s) attached.
    If not attached, why not and when is applicant expected to supplement: ________________

12. Please confirm and establish that the facility is located within the Township’s Industrial Park district (“IP”); is not within 1,500 feet of a church; is not within 2,000 feet of a residence located in the R-1, R-2, R-3, SF, SE, SR, RM or MHP Zoning Districts; is not within 2,500 feet of a registered school and does not have ingress or egress on a street or road that has an average traffic volume in excess of 6,000 vehicles per day as calculated and reported by Southeast Michigan Counsel of Governments. Further, please show that the facility does not have an ingress or egress on a street or road that serves as an ingress or egress to a residential road or property located in a R-1, R-2, R-3, SF, SE, SR, RM or MHP Zoning District. For each of the above criteria, please attach any and all documents which will permit the Township to calculate compliance with the Licensed Marihuana Facilities Ordinance No. 154. At a minimum, provide a map showing the facility and measured distances (building edge to building edge).
    Attach as Exhibit “D”.
    ✔ Documents attached.
    If not attached, why not and when is applicant expected to supplement: ________________

a) Is the Facility located in the Township’s IP (Industrial Park District) zoning district?
   ✔ Yes       □ No
b) Is the Facility more than one thousand five hundred (1,500) feet of any church in the Township?

☐ Yes         □ No

c) Is the Facility more than two thousand (2,000) feet of any residence located in an R-1, R-2, R-3, SF, SE, SR, RM, or MHP zoning district?

☐ Yes         □ No

d) Is the Facility more than two thousand five hundred (2,500) feet of any registered school within the Township.

☐ Yes         □ No

For 10-12 above, please provide a map showing the facility and measured distances (building edge to building edge.)

e) Does the facility have an ingress or egress on a street or road that has an average traffic volume of six thousand (6,000) or less vehicles per day, as calculated by averaging the three (3) most recent Average Annual Daily Traffic (AADT) counts (as available), as reported by the Southeast Michigan Council of Governments (SEMCOG) per the site semcog.org/Traffic-Counts?

☐ Yes         □ No

f) Does the Facility have an ingress or egress on a street or road that does not also serve as an ingress or egress to a residential road or property located in a TR-1, R-2, R-3, SF, SE, SR, RM, or MHP zoning district?

☐ Yes         □ No

Name of Facility ingress/egress Street or road: Premier Drive

13. Please state whether the Applicant will seek a variance from the Zoning Board of Appeals pursuant to Article 6(8) of the Orion Licensed Marihuana Facilities Ordinance No. 154.

□ Yes         ☒ No

If variance will be sought, specify location category(s) pursuant to Art 6 (1)-(6):

____________________________________________

____________________________________________

2438
For each category variance sought, state the percentage the applicant will seek: _____%  
(Not to exceed 15%)

**SECTION C- FACILITY REQUIREMENTS**

14. When available, submit to the Township a copy of the Applicant’s application for a  
license submitted to the State of Michigan, Department of Licensing and Regulatory  
Affairs, for each facility permit requested.  
Attach as Exhibit “E”.  
☐ Document(s) attached.  
If not attached, why not and when is applicant expected to supplement: ________________  
Phase 2 application with the state of Michigan requires a permit and signed attestation from the municipality.  
we expect to submit our application with the state by 03/01/2021.

15. Is consumption and/or use of marihuana prohibited at the Facility?  
☐ ☐ Yes ☐ No  

16. Will all activity related to the Facility be done indoors?  
☐ ☐ Yes ☐ No  

17. Will all Marihuana contained within the building be in a locked Facility in accordance  
with the Michigan Medical Marihuana Act, MCL 333.26421 et seq., as amended  
(“MMMA”), the Michigan Medical Marihuana Facilities Licensing Act, MCL  
333.27101, et seq., and the Michigan Regulation and Taxation of Marihuana Act, MCL  
333.27951, et seq., as amended (“MRTMA”) as amended?  
☐ ☐ Yes ☐ No  

18. Please set forth an operations statement, plan and or outline showing that all facility  
activities shall occur indoors and in a building which is locked.  
Attach as Exhibit “F”  
☐ Document(s) attached.  
If not attached, why not and when is applicant expected to supplement: ________________  

19. Will all necessary building, electrical, plumbing and mechanical permits obtained for any  
portion of the structure in which electrical wiring, lighting and/or watering devices are  
located?  
☐ Yes ☐ No
20. When available and prior to the issuance of any permit, the Applicant must submit all necessary building, electrical, plumbing and mechanical permits, as well as documented approval by the Orion Fire department showing compliance with the Michigan Fire Protection Code and confirmation that the storage of any chemical, herbicide, pesticide and or fertilizer has also been approved by the Orion Fire Department. 
Attach as Exhibit “G”.
☐ Document(s) attached.
If not attached, why not and when is applicant expected to supplement: ____________________________

21. In any portion of the structure where the storage of any chemicals such as herbicides, pesticides, and/or fertilizers, do you agree to be subject to inspection and approval by the Orion Fire Department to ensure compliance with the Michigan Fire protection Code?

☐ Yes □ No

22. Will you ensure that no other uses, other than accessory uses, will be permitted within the same Facility other than those associated with cultivating, processing, transporting or testing marihuana?

☐ Yes □ No

23. Please state and/or provide documentation showing the plan that all litter and waste will be properly and safely removed and will not constitute a source of contamination in areas where marihuana is exposed. Further, please include how the applicant will dispose of rubbish so as to minimize the development of odor and minimize the potential for development of waste odor and waste from becoming an attracted, harborage or breeding place for pests. Please include a detailed description of the ventilation system. Attach as Exhibit “H.”
☐ Document(s) attached.
If not attached, why not and when is applicant expected to supplement: ____________________________

a) Will litter and waste be properly removed and the operating systems for waste disposal maintained in an adequate manner so that they do not constitute a source of contamination in areas where marihuana is exposed?

☑ Yes □ No

b) Will floors, walls and ceilings be constructed in such a manner that they may be adequately cleaned and kept clean and in good repair?

☑ Yes □ No
c) Will there be there adequate screening or other protection against entry of pests, and will rubbish be disposed of so as to minimize the development of odor, minimize the potential for development of waste odor, and minimize the potential for waste becoming an attractant harborage or breeding places for pests?

☑ Yes ☐ No

d) Will all buildings, fixtures and other facilities be maintained in a sanitary condition?

☑ Yes ☐ No

e) Will each Facility center provide its occupants with adequate and readily accessible toilet facilities that will be/are maintained in a sanitary condition and in good repair?

☑ Yes ☐ No

24. Please state how the Applicant intends to avoid excessive noise, dust, vibrations, glare, fumes or odors detectable to the normal senses beyond the boundaries of the property. Attach as Exhibit "I".
☑ Document(s) attached.
If not attached, why not and when is applicant expected to supplement: ________________

a) Will each Facility be operated in a manner that does not create excessive noise, dust, vibrations, glare, fumes or odors detectable to the normal senses beyond the boundaries of the property on which that Marihuana Facility will operate/operates or in violation of any other ordinance?

☑ Yes ☐ No

25. Please provide the plan and supporting documentation showing that all disposal systems for spent water and spent soil have been adequately and safely disposed of and accounted for.
Attach as Exhibit "J".
☑ Document(s) attached.
If not attached, why not and when is applicant expected to supplement: ________________

26. Please provide a security and safety plan, and at a minimum showing the facilities surveillance systems and continuous monitoring systems of the entire premise as required by the ordinance.
Attach as Exhibit "K".
☑ Document(s) attached.
If not attached, why not and when is applicant expected to supplement: ________________
a) Will the Facility continuously monitor the entire premises with surveillance systems that include security cameras operating 24 hours a day, 7 days a week, every day of the year, and will these recordings be maintained for a period of at least 30 days?

☐ Yes  ☐ No

27. Please state and/or show the exterior signage or advertising identifying the facility.
   Attach as Exhibit “L”.
   ☐ Document(s) attached.
   If not attached, why not and when is applicant expected to supplement: ____________________________
   The facility will only show the numbers associated with its address

a) Do you understand and agree that any exterior signage or advertising identifying the Facility as a marihuana facility is prohibited?

☐ Yes  ☐ No

SECTION D- BUSINESS OPERATIONS AND SECURITY

28. Active business operations shall not be open outside of the hours of 7am and 9pm.

SECTION F- BACKGROUND

31. Have you previously operated in this Township or any other County, City, or State under a Medical or adult use Marijuana/Marihuana License or Permit?

☐ Yes □ No

32. Have any of the previously issued licenses or permits mentioned above been revoked or suspended?

□ Yes ☑ No

If yes, provide an explanation for the revocation/suspension below.

__________________________________________________________________________

__________________________________________________________________________

33. Is the Applicant or Authorized Signer currently licensed by any governmental agency to engage in any business?

☑ Yes □ No

34. If yes to questions 31, 32, or 33, please list each such license or permit held, the city or state in which it is held, and expiration date thereof.

State of Michigan license to operate marijuana cultivation facilities.

__________________________________________________________________________

__________________________________________________________________________

35. Has the Applicant or any stakeholder been convicted or incarcerated for a felony within the past ten (10) years or ever been convicted of an illegal substance related felony?

□ Yes ☐ No

If yes, list the associated criminal case number(s), the statute(s) violated, the date(s) of conviction, the date(s) of imposition of probation and/or parole, and the name and address of the sentencing court.

AFFIRMATION OF STAKEHOLDERS, AGENTS OR EMPLOYEES
FOR A LICENSED MARIHUANA FACILITY

1. I ______ Daryl Heller _________ make this affirmation in support of the
   Application for a permit with the Charter Township of Orion for a Marihuana facility
   located at 180 Premier Drive, Orion Charter Township, MI 48359.

2. I affirm that I
   a. That I am at least 21 years of age.
   b. Have never been indicted or charged with or arrested for, convicted of, plead
er guilty, or nolo contendere to a felony or to a controlled substance related
   misdemeanor.

3. I have not previously had a business license permit or registration denied or revoked or
   suspended by Orion Township.

Dated: 02/09/2021

Print name: Daryl Heller

2448
A. & B. Facility Floor Plan
C. Lease Agreement
COMMERCIAL LEASE

This lease (the Lease), is entered into on November 1, 2020, between Premier Drive Tycoon I, LLC, with an address at 1615 S Telegraph Rd, Bloomfield Hills, MI (Landlord), and Tycoon I Operations, LLC ( Tenant) on the terms and conditions listed below.

1. Description of the Premises. Landlord owns the real property, improvements and any and all structures thereon located at 180 Premier Drive, Orion Township, MI 48359 ("Premises"), consisting of approx. 72,000 square feet. Tenant shall have the right to use the Premises to conduct its daily business operations and for any ancillary or related purposes including the operation of a marijuana business.

2. Basic Lease provisions. The basic Lease provisions are stated below and further explained in the section referenced to the right of each provision:

(a) Term: 10 years (See §3)
(b) Commencement Date: February 1, 2021 (See §3)
(c) Termination date: October 31, 2030 (See §3)
(d) Options: 1 option to renew for additional 10 years (See §3)
(e) Monthly installment amount: $75,000 or $12.50; per square foot; (See §4)
(f) Security deposit: $75,000.00 (See §5)
(g) Use: Tenant’s desired business operation (See §10)

3. Term. This Lease shall be for a term stated in section 2(a) commencing on the date stated in section 2(b) (the Commencement Date) and terminating on the date stated in section 2(c). The rent for the first month shall be prorated from date of occupancy, if the date of occupancy is after the first day of the month. Each succeeding lease year shall begin on the anniversary of the same date and continue until the termination of the Lease.

Provided that Tenant is not in default under this Lease at the end of the then current Lease term, Tenant shall have the right to renew the term of this Lease for the option period stated in section 2(d) by giving Landlord written notice of Tenant’s intent to renew the Lease at least 120 days before the expiration of the then current term. The renewal shall be on the same terms and conditions as in this Lease, except that the minimum rent for each renewal term shall be increased by a percentage equal to the percentage increase in the Consumers Price Index (Bureau of Labor Statistics Washington, D.C., all Cities) (CPI) during the preceding term. The percentage increase shall be determined by comparing the latest available CPI before the Commencement Date of the Lease or the prior term, whichever shall apply, and the latest available CPI on or before the expiration of the immediately preceding initial or renewal lease term. The word “term” as used in this Lease shall include any renewal term.

4. Minimum rent. Tenant shall pay to Landlord as rent the sum stated in section 2(e), payable in monthly installments due in advance, on the first day of each month during the term of this Lease. All rent shall be paid to Landlord at the address set forth above or at such other address as Landlord may designate in writing, without any prior demand and without any deduction or offset.

If Tenant shall fail to pay any amount due from it to Landlord under this Lease when that amount shall be due, a one-time late charge of $50.00 shall be assessed and thereafter the amount of rent not paid shall be subject to a service charge until that amount is paid at the lesser of the rate of 5% per month or the highest rate permitted by law.

1
2453
5. **Security deposit.** Tenant, contemporaneously with the execution of this Lease, has deposited with Landlord the sum stated in section 2(f) as a security deposit. The deposit shall be held by Landlord, without liability for interest, as security for the faithful performance by Tenant of all the terms, covenants, and conditions of this Lease to be kept and performed by Tenant during the term of this Lease.

If Tenant fails to keep and perform any of its covenants of this Lease, Landlord at its option may appropriate and apply the entire deposit, or so much as may be necessary, to compensate Landlord for loss or damage sustained by Landlord due to Tenant’s breach. If the entire deposit or any portion is appropriated and applied by Landlord for the payment of overdue rent or other sums due and payable to Landlord by Tenant, Tenant shall, on the written demand of Landlord, forthwith remit to Landlord a sufficient amount in cash to restore the security to the original sum deposited. Tenant’s failure to do so within 5 days after receipt of demand shall constitute a breach of this Lease.

6. **Taxes.** Tenant shall pay or cause to be paid all real property taxes and special assessments levied against the Building including the Premises. Tenant shall pay all personal property taxes assessed against any personal property owned by Tenant on the Premises.

7. **Maintenance and repair.** Tenant shall maintain and repair and keep the Premises in good condition and repair, including the exterior windows and the electrical system. Landlord shall, at tenants expense, make all other repairs and replacements to the Building, including those of a structural or capital nature. Landlord shall, at tenants expense, enter into an annual maintenance contract with a licensed heating and mechanical firm for the maintenance of the heating and air conditioning equipment during the term. Landlord shall be obligated to make repairs only after Tenant has given Landlord written notice of the need for the repair, and only if the repair was not caused by the negligence or willful act of Tenant, its agents, employees, invitees, or licensees.

Tenant shall provide and pay for its own regular janitorial service to maintain the Premises in neat and clean condition. Tenant shall be responsible for all repairs or replacements to the Building occasioned by the negligence or willful act of Tenant, its agents, employees, invitees, or licensees.

8. **Utilities.** Tenant shall have all utilities servicing the Premises metered in its own name and shall pay all charges and deposits for the utilities provided to or used in the Premises during the term of this Lease. Tenant shall also pay 100% of the water and sewer bill. Landlord shall not be liable in damages should the furnishing of any utilities be interrupted by fire or other casualty, accident, strike, labor dispute or disagreement, the making of any necessary repairs or improvements, or any other causes beyond the reasonable control of Landlord.

9. **Liability insurance.** Tenant shall indemnify Landlord and save Landlord harmless from any liability or claim for damages that may be asserted against Landlord by reason of any accident or casualty occurring on or about the Premises. Tenant shall, at its own cost and expense, obtain and keep in force a policy or policies of public liability insurance with an insurance company approved by Landlord, with liability coverage of an amount as recommended by Landlord’s insurance agent that, for the initial coverage, shall be not less than $1 million for injury or death to any one person, $3 million for injury or death to more than one person, and $500,000 regarding damage to property. Tenant shall furnish Landlord with certificates or other evidence acceptable to Landlord indicating that the insurance is in effect and providing that Landlord shall be notified in writing at least 30 days before cancellation of any material change in or renewal of the policy. All insurance policies shall name Landlord and any persons designated by Landlord as insured parties.

Any insurance maintained by either party pursuant to this section or under this Lease shall contain a
clause or endorsement under which the insurer waives all rights of subrogation against the other party, its agents or employees, regarding losses payable under the policy.

Any personal property kept on the Premises by Tenant shall be at Tenant’s sole risk.

10. Use. Tenant shall use and occupy the Premises for the purpose stated in section 2(g) and for no other purpose without the prior written consent of Landlord. Tenant shall not intentionally and knowingly use the Premises for any purpose or in any manner in violation of any State law, local ordinance, rule or regulation adopted or imposed by the City in which the Premises is situated. Tenant shall not deface or injure the Premises or the Building, permit anything to be done on the Premises tending to create a nuisance or to disturb other tenants in the Building, or permit any activity in the Premises that will result in an increase of any premium, or cancellation of a policy, for insurance on the Premises or the Building.

11. Construction of leasehold improvements. Landlord grants Tenant express consent to construct certain leasehold improvements as may be required for Tenant’s use. The cost of Tenant’s leasehold improvements shall be paid for by Tenant. The improvements shall be constructed in a good and workmanlike manner.

12. Operations. Tenant’s operations in conjunction with the Premises shall meet the requirements set forth below.

a. Tenant shall keep all garbage and refuse in the kind of container specified by Landlord. If Landlord shall provide or designate a service for picking up refuse and garbage, Tenant shall use the same at Tenant’s cost. Tenant shall pay the cost of removal of any of Tenant’s refuse or rubbish.

b. Tenant shall keep the Premises at a temperature sufficiently high to prevent freezing of water in any pipes and fixtures.

c. Tenant shall keep the outside areas immediately adjoining the Premises clean and free from dirt and rubbish to the satisfaction of Landlord, and Tenant shall not place or permit any obstructions or merchandise in those areas. Tenant shall water and maintain any flowers, shrubs, and trees located immediately adjoining the Premises.

d. Tenant shall only store and/or stock in the Premises goods, wares, and merchandise that Tenant intends to offer for sale at retail.

e. Tenant shall conduct its business in the Premises in a dignified manner and in accordance with high standards of store operation.

13. Restrictions on Tenant’s activities. Without Landlord’s written consent, Tenant shall not engage in the activities listed below.

a. Tenant shall not operate all or any part of its business in the Premises in any manner that is inconsistent with its intended use of the Premises.

b. Tenant shall not conduct any auction, fire going-out-of-business, or bankruptcy sales in the Premises.

c. Tenant shall not operate or permit to be operated on the Premises any coin or token operated vending machines or similar devices for the sale of goods, wares, merchandise, food, beverages, or service,
including, without limitation, pay telephones, pay lockers, scale, and amusement devices without Landlord’s prior written consent.

d. Tenant and Tenant’s employees and agents shall not solicit business in the parking or other common areas of the Building, nor shall Tenant or its employees or agents distribute any handbills or other advertising matter in or on automobiles parked in the parking area or in other common areas without Landlord’s prior written consent.

e. Tenant and its employees and agents shall not park any vehicle on the Building land except in areas that are designated by Landlord for that use.

14. Assignment and subletting. Tenant agrees not to sell, assign, mortgage, pledge, or in any manner transfer this Lease or sublet the Premises or any portion of the Premises without the prior written consent of Landlord. Notwithstanding any assignment or subletting, Tenant shall remain fully liable on this Lease. Landlord’s right to assign this Lease is and shall remain unqualified. On any transfer of Landlord’s interest in the Premises in which the purchaser assumes all obligations under this Lease, Landlord shall be free of all obligations of Landlord under this Lease and shall not be subject to any liability resulting from any act or omission or event occurring after the conveyance. Tenant agrees to recognize the transferee as Landlord, and Tenant further agrees, at Landlord’s request, to execute and deliver such documents and estoppel letters as Landlord may request to assist in that transfer.

15. Estoppel letter. On not less than 10 days’ prior written notice from Landlord, Tenant shall sign and deliver to Landlord an estoppel letter that

a. certifies that this Lease is unmodified and in full force and effect (or, if modified, states the nature of the modification and certifies that this Lease, as so modified, is in full force and effect);

b. acknowledges that there are not, to Tenant’s knowledge, any uncured defaults on the part of Landlord or specifying the default if any are claimed;

c. certifies the date to which all forms of rent have been paid; and

d. certifies the amount, if any, of the security deposit paid to Landlord.

Tenant’s failure to deliver such an estoppel letter within the 10 days shall be conclusive on Tenant that

a. this Lease is in full force and effect, without modification except as may be represented by Landlord;

b. there are no uncured defaults in Landlord’s performance;

c. not more than one month’s rent has been paid in advance; and

d. no security deposit has been paid except as may be represented by Landlord.

16. Acceptance of Premises. The occupancy by Tenant of the Premises shall constitute an acknowledgment by Tenant that the Premises are then in the condition called for by this Lease.

17. Damage or destruction. If, during the term of this Lease, the Premises shall be partially or totally destroyed by fire or other casualty covered by insurance so as to become partially or totally untenable,
the same shall be repaired as promptly as possible with the insurance proceeds unless this Lease is
terminated. In the event of damage or destruction, if this Lease is not terminated, the rent shall be abated
proportionately to the loss of use suffered by Tenant.

If, during the term of this Lease, the Premises shall be partially or totally destroyed by fire or other
casualty, and the cost of restoring the Premises to its condition prior to the damage shall equal or exceed
40 percent of its fair replacement value immediately prior to the damage, or if the Premises are damaged
by any casualty not insured against by Landlord, Landlord shall have the right to terminate this Lease by
giving Tenant written notice of its election to do so within 15 days after the date on which the damage
occurs. On the giving of notice, the Lease shall terminate as of the date on which damage occurred and
the rent shall be adjusted to that date. In default of notice by Landlord, this Lease shall continue and
Landlord shall cause the Premises to be repaired or restored with due diligence.

18. Condemnation. If the whole or any part of the Premises shall be taken by any public authority under
the power of eminent domain, the term of this Lease shall cease on that part to be taken from the day the
possession is acquired by the public authority and the rent shall be paid up to that date. If the portion of
the Premises taken substantially impairs the usefulness of the Premises for the purpose for which the
Premises were leased, Tenant shall have the right either to terminate this Lease or to continue in the
possession of the remainder of the Premises under the terms and conditions of this Lease except that the
rentals shall be reduced in proportion to the amount of the Premises taken, and in the latter event,
Landlord shall promptly restore the remainder to a reasonably tenantable condition. All damages awarded
for the taking shall belong to and be the property of Landlord.

19. Alterations and signage. No improvements, alterations, additions, or physical changes shall be made
on the Premises by Tenant without the prior written consent of Landlord.

Tenant agrees that it will not place or maintain on any exterior door, wall, or window of the Premises any
signs, awning or canopy, or advertising matter, or other thing of any kind and will not place or maintain
any decoration, lettering, or advertising matter on the glass of any window or door of the Premises that is
not in conformity with all applicable governmental rules and regulations and the rules and regulations of
the Building as set forth by Landlord and further, without first obtaining Landlord’s prior written
approval. Tenant further agrees to maintain such sign, awning, canopy, decoration, lettering, advertising
matter, or other thing as may be approved in good condition and repair at all times. Tenant further
acknowledges that Landlord may, at its option, regulate the lettering size, style, and color of Tenant’s sign
so that all signs in the Building are of a like size, color, style of lettering, and like material. Tenant agrees
that it will conform its sign to that as regulated by Landlord for the general use in the Building, regardless
of how and in what manner Tenant normally designs its name for use in its sign and further regardless of
whether or not Tenant uses the form and style of its sign as a trademark.

All alterations and improvements, but not moveable equipment and trade fixtures, put in at the expense of
Tenant shall be the property of Landlord and shall remain on and be surrendered with the Premises at the
termination of the Lease; provided, however, that Landlord may require that Tenant remove the
alterations and improvements and repair any damages to the Premises caused by the removal.

20. Remedies and default. If Tenant shall default in the payment of any sums to Landlord when due and
shall not cure such default within 7 days; or if Tenant shall default in the performance of any other
covenant or condition of the Lease and shall not cure such other default within 30 days after written
notice from Landlord specifying the default; or if Tenant or its agent shall falsify any report to be
furnished to Landlord pursuant to the terms of this Lease; or in case Tenant shall be adjudicated a
bankrupt or make any assignment for the benefit of creditors; then, in any such event, Landlord may
either (a) accelerate the full balance of the rental payable for the remainder of the term and sue for such sums or Landlord may terminate this Lease or (b) reenter the Premises, without terminating this Lease, and dispossess Tenant or any other occupant of the Premises and remove Tenant's effects and relet the same for the account of Tenant for such rent and on such terms as shall be satisfactory to Landlord, crediting the proceeds, first to the costs and expense of reentry, alterations and additions, and the expense of reletting, and then to the unpaid rent and the other amounts due during the remainder of the term. Tenant shall remain liable to Landlord for any unpaid balance.

In case suit shall be brought for recovery of possession of the Premises, for the recovery of any rent or any other amount due under the provisions of this Lease, or because of the breach of any other covenant on the part of Tenant to be kept or performed, and a breach shall be established, Tenant shall pay to Landlord all expenses incurred, including reasonable attorney fees, which shall be deemed to have been incurred on the commencement of the default and shall be enforceable whether or not the action is prosecuted to judgment.

21. Access to Premises. Landlord shall have the right to enter on the Premises at all reasonable hours to inspect and for access to the Premises to install, maintain, use, repair, and replace pipes, ducts, lights, conduits, plants, wires, floor coverings, and all other mechanical equipment serving the Premises.

22. Rules and regulations. Landlord reserves the right to adopt from time to time rules and regulations for the operation of the Building that are not inconsistent with the provisions of this Lease. Tenant and its agents, employees, invitees, and licensees shall comply with all those rules and regulations. Any such rules shall not dictate the days or time of business operation.

23. Waiver. The failure of Landlord to insist on a strict performance of any of the terms, covenants, or conditions of this Lease or rules and regulations of the Building shall not be deemed a waiver of any subsequent breach or default in the terms, covenants, and conditions or rules and regulations. This Lease may not be changed, modified, or discharged orally.

24. Notices. All notices required under this Lease shall be in writing and shall be deemed to have been given if either delivered personally or mailed by certified or registered mail to Landlord or to Tenant at their respective addresses set forth above or to such other address as either party may furnish in writing during the term of this Lease.

25. Quiet enjoyment. Landlord covenants and agrees with Tenant, its successors, and assigns that on Tenant’s paying the rent and observing and performing all the terms, covenants, and conditions on Tenant’s part to be performed and observed, Tenant may peaceably and quietly hold, have, occupy, possess, and enjoy the Premises for the full term of this Lease.

26. Subordination to mortgage. Any mortgage now or hereafter placed on the Premises shall be deemed to be prior in time and senior to the rights of Tenant under this Lease. Tenant subordinates all of its interest in the leasehold estate created by this Lease to the lien of any mortgage. Tenant shall, at Landlord’s request, execute any additional documents necessary to indicate this subordination including, if requested, an estoppel letter as set forth in section 15. If Tenant fails to supply the estoppel letter, the provisions in section 15 to cover that failure shall apply. Notwithstanding the foregoing, Tenant’s possession of the Premises under this Lease shall not be disturbed by any mortgagee, owner, or holder of note secured by a mortgage placed on the Premises, unless Tenant shall breach any of the provisions of this Lease and the lease term of Tenant’s right to possession shall have been lawfully terminated in accordance with the provisions of this Lease.
27. **Building revisions by Landlord.** Landlord reserves the absolute right at any time and from time to time to make changes or revisions in the Building, including such changes to the parking lot, driveways, signs, and sidewalks, by making additions to, subtractions from, or rearrangements of the improvements in the Building, as long as the revisions do not materially affect Tenant’s use of the Premises.

28. **Holding over.** If Tenant remains in possession of the Premises after the expiration or termination of the Lease, it shall be deemed to be occupying the Premises as a tenant from month to month, subject to all the conditions, provisions, and obligations of this Lease insofar as the same can be applicable to month-to-month tenancy, except that the rent shall increase to 2 times the rent owing at the end of the lease term. The month-to-month tenancy shall be cancelable by either party on 30 days’ written notice to the other.

29. **Recording.** Tenant shall not record this Lease without the written consent of Landlord; however, on the request of either party the other party shall join in the execution of a memorandum or so-called “short form” of this Lease for the purpose of recordation. The memorandum or short form of this Lease shall describe the parties, the Premises, and the term of this Lease and shall incorporate this Lease by reference.

30. **Captions and headings.** The captions and headings used in this Lease are intended only for convenience and are not to be used in construing this Lease.

31. **Applicable law.** This Lease shall be construed under the laws of the state of Michigan. Venue for any disputes under this agreement shall lie in Oakland, Michigan. If any provision of this Lease or the application to any person or circumstances shall, to any extent, be invalid or unenforceable, the remainder of this Lease shall not be affected and each provision of this Lease shall be valid and enforceable to the fullest extent permitted by law.

32. **Successors.** This Lease and the covenants and conditions shall inure to the benefit of and be binding on Landlord, its successors, and assigns and shall be binding on Tenant and permitted assigns of Tenant.

33. **Effective date.** The parties have caused this agreement to be signed and shall be effective as of the day and year first above written.

_(signature page to follow)_
IN WITNESS WHEREOF, the parties have respectively signed and sealed this Lease as of the day and year first above written.

Tycoon I Operations, LLC

Business & Operations Plan

PREAMBLE:
Tycoon I Operations, LLC ("Applicant") will strictly comply at all times with applicable state law and local ordinance codes, including rules and emergency rules that may, from time to time, be promulgated by the state or Orion Township. All business activities will take place indoors in a locked facility. Applicant has retained a law firm with established expertise in Michigan marihuana law to ensure continuing education and compliance with the laws as they evolve. The statements made in this application are made with a clear and thorough understanding of state and local requirements as they exist on the date of application, but the operations of Applicant will be amended to comply with all future derivations of the state and municipal laws.

I. OVERVIEW
Applicant is a Michigan limited liability company formed to operate twenty four (24) commercial marihuana GROWER (Class C) facilities whose primary mission is to provide a source of high-quality marihuana to processors and provisioning centers across the state of Michigan.

II. ADMINISTRATION
A. Location & Zoning
   i. Buffers
      a. The distances described are measured horizontally between the nearest property lines.
      b. The facility is not within 1,000 feet of any educational institution or school, college or university, church, house of worship or other religious facility, licensed child care, preschool, public library, or public or private park.
   ii. Applicant is leasing the property pursuant to the attached lease and the owner/lessor of the property authorizes the use of the property as a marihuana facility in the lease agreement, which is attached.

B. Organizational Structure
   i. The Applicant is organized as a Michigan limited liability company and is in good standing.
   ii. The members, owners, directors, officers, and managers of the Applicant are listed in the Organization Structure.
iii. The members, owners, directors, officers, and managers of Applicant meet all eligibility requirements to own and operate a marihuana grower facility as set forth in state law and local ordinance.

   a. No member, owner, director, officer, manager or any person having an ownership interest in the application has an interest in a secure transport facility license or a safety compliance facility license.

   b. The Applicant meets all eligibility requirements to own and operate a marihuana grower facility as set forth in state law and local ordinance.

iv. The Applicant has never applied for been granted any commercial license or certificate issued by a licensing authority in Michigan or any other jurisdiction that has been denied, restricted, suspended, revoked or not renewed.

C. Permits & Licenses

   i. This Business and Operations Plan is submitted as an addendum to the applications for Ten Orion Township permits to operate a business and the Orion Township special use/site plan application.

   ii. All operations in this Business and Operations Plan will comply with regulations issued by the Department of Licensing and Regulatory Affairs (LARA).

   iii. Applicant intends to apply for, obtain, operate, and comply with a state license to operate a grower facility under the MMFLA and MRTMA.

   iv. The business will not open for operation until it receives a state license to operate under the MMFLA and MRTMA and all applicable permits and licenses from Orion Township.

   v. Upon granting of a permit to operate a grower facility, Applicant will prominently display the original Orion Township permit at the Permitted Premises in a location where it can be easily viewed by the public, law enforcement, and administrative authorities.

   vi. At all times the facility will hold a valid local Permit and State Commercial Marihuana Facility License for a Grower.

   vii. In addition to complying with the Orion Township Ordinance Authorizing and Permitting Commercial Marihuana Facilities, Applicant will comply with all Township Ordinances, including without limitation, the Township Zoning Ordinance, as well as the requirements of the County Road Commission, County
Building Inspector, County Drain Commissioner, District Health Department, Soil Erosion Officer, County Conservation Service, areas fire departments, Michigan Department of Natural Resources, Michigan Department of Environmental Quality, and any other applicable township, county, state and federal statutes.

viii. Applicant will have available, at all times, documentation that local and State sales tax requirements, including any requirement for a license, are satisfied.

ix. Applicant will provide updated operational and security plans to Orion Township upon request and prior to any proposed changes in its operations.

D. Inspections
   i. Applicant will provide access to the facility for inspection to any federal, state, or local law enforcement officer to ensure compliance with the permit.

   ii. Applicant consents to inspections as required in the MMFLA and pursuant to the Orion Township ordinance.

III. OPERATIONS
Applicant proposes 24 state-licenses in a single marihuana grower facility for the cultivation, drying, trimming, curing, and packaging of marihuana for sale to a processor or provisioning center pursuant to the requirements and restrictions of the Marihuana Facilities Licensing Act, PA 281 of 2016, and all future derivations thereof. This facility will be located in a secure industrial facility.

A. Compliance with State Regulations
Applicant will meet all operating regulations established by LARA and the Marihuana Licensing Board for Growers, including without limitation, any standards, procedures, and requirements for:

   i. quality control
   ii. chain of custody
   iii. marihuana storage
   iv. waste disposal
   v. labeling and packaging
   vi. storage of chemicals

B. Description of the Facility
Applicant’s facility will be used exclusively for the cultivation, drying, trimming, curing, and packaging of legal usable marihuana for sale to processors or provisioning centers.

C. Entry to Facility
Generally, the public will not be allowed entry to the facility. Notwithstanding the forgoing, Applicant will not allow entry to the facility to anyone under the age of 18.
D. Employees
Applicant anticipates having between fifteen (55) and (65) full and part-time employees, as many as possible of whom will be local community residents. None of Applicant's employees will be registered primary caregivers during the employment with Applicant. Please reference the staffing plan for a detailed list of potential positions.

E. General Policies
   i. Applicant will only sell or transfer marihuana to a processor or provisioning center.

   ii. Applicant will only use secure transporters in the distribution or exchange of marihuana or currency with processors or provisioning centers.

   iii. Applicant will not promote the unlawful use of marihuana or any other drug or provide or otherwise make marihuana available to any person who is not legally authorized to receive Marihuana under state law.

   iv. No owner, the Applicant, or any employee of Applicant will grow marihuana in the Permitted Premises for his or her own use.

   v. The following activities are prohibited on the Permitted Premises:
      a. the sale, consumption, or use of alcohol, or controlled substances;
      b. smoking or consumption of marihuana.

F. Cultivation Plan
   i. Propagation
      a. Lighting
      b. Watering
      c. Nutrient Application
      d. Integrated Pesticide Management
   ii. Harvesting and Trimming
   iii. Drying and Curing
   iv. Packaging
   v. Distribution
      a. All marihuana products will be validated from a verified transport manifest, created from the statewide monitoring system. The manifest includes a detailed form with the number of packages and detailed content for confirmation/validation with secure transporters and purchasers of the shipment (processors or provisioning centers).
      b. Each transport shipment will be processed in the following manner:
         1. Entry of shipped inventory into the statewide monitoring system.
         2. Confirmation with Secure Transporter of valid and verified transport manifest, including product count, weight of each package or item
c. State certified scales will be used to verify and weigh all marihuana, in whatever form.

G. Inventory Management
  i. Applicant will not control or have on the Permitted Property an amount of marihuana plants or usable marihuana that exceeds any amount permitted by the state License or the Township permit.

  ii. Tracking and Monitoring
  Applicant will use a third-party inventory control and tracking system to interface with the statewide monitoring system. The third-party inventory control and tracking system will have the capabilities necessary to comply with the requirements applicable to a grower licensee:

    a. Track all marihuana plants and packages;
    b. Track lot and batch information throughout the entire chain of custody;
    c. Track transportation of product;
    d. Track marihuana waste;
    e. Track all marihuana product transfers;
    f. Track sales and returns;
    g. Track marihuana plant, batch, and product destruction;
    h. Perform batch recall tracking;
    i. Report and track loss, theft, or diversion of marihuana products;
    j. Receive testing results electronically from a safety compliance facility;
    k. Provide access to state agencies and law enforcement as required;
    l. Report all inventory discrepancies.

  iii. Applicant will enter all transactions, current inventory, and other information into the statewide monitoring system as required by the MMFLA, the Marihuana Tracking Act, and any associated regulations.

  iv. Inventory reconciliation - At the end of each day, physical inventory counts will be reconciled with the third-party inventory control and tracking system.

  v. Returns

H. Quality Control
  i. Sampling (by Licensed Safety Compliance Facility)

  ii. Batch Testing (by Licensed Safety Compliance Facility)

  iii. Transport to Safety Compliance Facility (by Secured Transporter)

I. Signage and Advertising
i. Applicant has no proposed signage at this time, but will amend this plan accordingly and provide the township with its sign permit application if and when it does wish to propose signage.

ii. Applicant will not display pictures, photographs, drawings or other depictions of Marihuana or Marihuana Paraphernalia on the outside of the Permitted Premises, nor will such pictures, photographs, drawings, or other depictions of Marihuana or Marihuana Paraphernalia be visible outside of the Permitted Premises on the Permitted Property.

iii. The words "Marihuana, "or "cannabis," and any other words, used or intended to convey the presence or availability of Marihuana will not appear on the outside of the Permitted Premises, nor will "Marihuana, "or "cannabis," and any other words, used or intended to convey the presence or availability of Marihuana be visible outside of the Permitted Premises on the Permitted Property.

J. Visibility of activities

i. All activities of the facility, including without limitation, the cultivation, harvesting, trimming, drying, curing and packaging of Marihuana, and all other related activity permitted under Applicant’s License or Permit will occur indoors.

ii. No marihuana or paraphernalia shall be displayed or kept in the facility so as to be visible from outside the Permitted Premises.

K. Security

i. Plan

Applicant will maintain, at all times, a centrally-monitored security and alarm system on the premises that meets or exceeds state regulatory requirement. Applicant will maintain policies and procedures to include:

   a. Regular drills of the security protocols and emergency plans;
   b. Controlled and restricted access to the Permitted Property and Permitted Premises to employees, agents, and owners of Applicant, and law enforcement or state or local authorities as necessary to ensure Applicant’s compliance with state and local laws.
   c. Internal and external cameras with 24-hour monitoring and off-site recording;
   d. Installed panic buttons
   e. Limitations on the amount of currency and marihuana stored onsite;
   f. Cooperation and coordination with local law enforcement;
   g. Permitted premises will only be able to be accessed through a combination of security locks and access codes; and
   h. The ability to remain operational during a power outage with battery back-up.

ii. Security Surveillance Cameras
Security surveillance cameras will be installed to monitor all entrances, along with the interior and exterior of the premises, which will capture all areas of the property unless otherwise prohibited by law, including unobstructed video surveillance of all enclosed areas, unless prohibited by law, including all points of entry and exit that shall be appropriate for the normal lighting conditions of the area under surveillance.

iii. Security Recordings and Documentation
   a. All security recordings and documentation will be preserved for at least 30 days and made available upon request by any law enforcement.

iv. Robbery and Burglary Alarm System
   Applicant will employ an alarm system that meets state requirements and obtains state approval. Specifically,
   a. Applicant will employ a centrally alarmed and monitored security system that will be monitored 24 hours a day, 7 days a week for the Permitted Premises pursuant to the attached service agreement.
   b. There will be a perimeter alarm on all entry points and perimeter windows of the Permitted Premises.
   c. A failure notification system will provide an audible, text, or visual notification of any failure in the surveillance system. A panic button and alarm will directly notify the local law enforcement agency having primary jurisdiction.

v. Storage of Marihuana and Currency
   a. Applicant will store usable marihuana that is not otherwise in the process of being dried, trimmed, cured, packaged, or distributed including packaged and un-packaged usable marihuana, and currency in a secured locked safe that is permanently affixed to the premises.

L. Ventilation Plan/Air Filtration System
   i. Applicant’s facility operation and design will provide sufficient measures and means to minimize any impact to adjacent uses, including the control of odor by maintaining and operating an air filtration system so that no odor is detectable outside the Permitted Premises.

   ii. Applicant’s equipment and methods to control odor include a comprehensive air filtration system, consisting of
       a. Activated Carbon Filters.
       b. Heavy Duty Ventilation Fans.

   iv. Details and specifications of the equipment used for Applicant’s ventilation and air filtration plan are attached.
v. The total enclosed space in which harvested marihuana will be stored amounts to approximately 300 sq. feet. Applicant will use an advanced filtration system rated appropriately for the area.

vi. The air filtration system will be maintained in working order at all times and will be in use at all times. Filters will be changed a minimum of once every 365 days.

vii. In addition to the use of an air filtration system, Applicant will mitigate odors by keeping doors and windows closed at all times, except the minimum amount of time needed to allow ingress and egress to the building.

M. Toxic/Flammable/Hazardous Materials
i. Applicant’s use of toxic, flammable, or other harmful, hazardous, or combustible materials will be limited to plant nutrients and pesticides and cleaning products. The facility may use the following nutrients and pesticides:

   a. CocoTech Bloom A
   b. CocoTech Grow A
   c. CocoTech Premier Nutrient
   d. FloraBloom Nutrient System
   e. FloraGrow Nutrient System
   f. Golden Tree Plant Food.
   g. Nutra Green 5-10-5 plus Micronutrients Foliar Spray
   h. Diatomaceous Earth
   i. Neem Oil
   j. PyGanic Pro Pyrethrin 5% MGK Miticide

ii. The facility may use the following commercial cleaning products, along with the following household products: materials regulated by government agencies:

   a. Ultra Dawn Lemon Dish Soap
   b. Nature’s Source Toilet Bowl Cleaner
   c. Fantastik Antibacterial Heavy Duty All Purpose Cleaner
   d. Windex Original Glass Cleaner
   e. Novo Foaming Instant Hand Sanitizer
   f. QuickSan Food Contact and Surface Sanitizer

iii. The materials will be stored in secured and ventilated cabinets. All combustible or reactive materials will be stored separately.

iv. Materials will be handled, stored, and disposed according to specifications in each Material Safety Data Sheet.
N. Waste Product Disposal
Applicant will dispose of unusable or waste marihuana in accordance with the MMFLA, MRTMA, and applicable local ordinance guidelines to prevent the waste marihuana from being possessed or ingested by any person and animal.

i. Applicant’s current, preliminary waste disposal plan consists of shredding and grinding damaged and unusable plants, roots, seeds, stalks and harvested marihuana and mixing it with one of several lawful over-the-counter products, such as sawdust or cat litter to render it unusable, unrecognizable, and unpalatable, and then discarding in secured bags as part of its solid waste disposal.

ii. The State of Michigan’s Marihuana Licensing Board may require or suggest as a part of its regulations, expected sometime in November, one or more alternative waste disposal options including, but not limited to, waste disposal through the secured transporter system, waste mitigation through THC extraction methods (rendering the marihuana waste product inert) or some other method. Applicant warrants that it will comply with all state and local requirements as to waste disposal, but further commits to its current preliminary plan to render all marihuana waste unrecognizable, unusable and inaccessible regardless of state or local requirements.

IV. COMMUNITY RESPONSIBILITY AND CONCLUSION
Although marihuana has been used as a medicine across the globe for hundreds of years, its commercial production and sale is new to us, this state, and your community. We appreciate the opportunity to show Orion Township that Marihuana can be safe and accessible to a community while providing jobs and local economic growth. We look forward to being productive and responsible community partners, and will work with the Township toward that goal.

I agree this permit is only for the work described, and does not grant permission for additional or related work which requires separate permits. I understand that this permit will expire, and become null and void if work is not started within 180 days, or if work is suspended or abandoned for a period of 180 days at any time after work has commenced; and that I am responsible for assuring all required inspections are requested in conformance with the applicable code.

I hereby certified that the proposed work is authorized by the owner to make this application as his authorized agent. I agree to conform to all applicable laws of the State of Michigan and the local jurisdiction. All information on the permit application is accurate to the best of my knowledge.

PAYMENT OF PERMIT FEE CONSTITUTES ACCEPTANCE OF THE ABOVE TERMS.
H. Litter & Waste Removal Plan
Litter & Waste Removal Plan

All biological waste product will be rendered unrecognizable by grinding it in an industrial grinder and combining it with other non-consumable solid waste, including the media in which we cultivate plants, Rockwool. The inclusion of inert material renders the combined solid waste unusable. All waste will be stored in a locked dumpster that is emptied at minimum once per week.

The company intends to employ particulate filtration in areas where waste is stored and processed, which minimizes potential exposure and impact to the outside environment. The facility, which is designed around large water chillers, is designed to circulate air rather than ventilating it. This process helps to avoid excess exposure of odors to the surrounding community.
I. Noise, Dust, Vibrations, Glare & Fumes Plan
Noise, Dust, Vibrations, Glare, Fumes or Odors Plan

Excessive Noise, Dust, Vibrations, Glare and Marijuana odors emanating from our facilities are a valid concern for the community and our neighbors. This plan details the measures deployed to ensure that minimal noise, dust, vibration, glare, fume or offensive odor is emitted from the facility, the response if it occurs, and that the measures remain effective over time.

This plan is our commitment to the Orion Township that we will be in compliance with regulations of the city and the administrative rules and that we will not operate in a manner creating noise, dust, vibration, glare, fumes, or odors detectable to normal senses beyond the boundaries of the property.

We will not vent noxious dust, odors, gases or fumes to surrounding areas.

We will mitigate dust and noxious odors by engaging in the following activities:

1. Adequate design measures to seal the building;
2. Utilizing a heating, ventilation, and cooling (HVAC) System designed to move an appropriate amount of air (cfm) throughout the facility to disperse odors;
3. Using industry leading MERV-13 HEPA filters in addition to FILTR, Blue Zone & Puradigm units in each room throughout the facility.

I. DESIGN MEASURES TO SEAL THE BUILDING

We intend to renovate our building in a manner that focuses on effectively sealing all interior rooms and exterior access points. Each room is enclosed in 12”, interlocking insulated panels which are designed to form an airtight seal. For additional protection, butyl caulk is applied at each joint to accommodate any flaws in the panels.

Caulk is also applied to seal any openings into the panels, including plug outlets, doorways, sprinklers, and anything else that could allow air flow. Our doors are fiberglass, weather stripped and employ a drop seal to press additional weather stripping against the floor when closed to maximize the seal all the way around.

II. MERV-13 HEPA FILTRATION SYSTEM

The purification of air throughout our facility is a top priority for both the health of the plants and the environment we subject our employees and the local community to. In an effort to target and reduce contamination, mold, bacteria, odor, dust, and fumes, we employ a variety of filtration systems in all rooms where marihuana plants are grown.

Each room will utilize clean room grade HEPA filtration units filtering down to 0.01um and providing up to 5 complete air changes per hour. These units also utilize a carbon filter which focuses directly on the removal of smells and volatile organic compounds.

In addition to the HEPA filters, each room will have Puradigm units to help reduce airborne and surface contaminates, and Agrify Bluezone UV filtration units, known to destroy 99.9%+ of both bacteria and mold. Both of these systems aid in odor elimination and containment.
As filters age, they become clogged with impurities, and ultimately less effective. As such, we will develop a maintenance schedule to inspect the filtration units regularly and to replace them per the manufacturer’s recommendation or at an expedited pace based on their usage in these environments.

III. VIBRATION MITIGATION
Exterior mounted cooling equipment is mounted on isolation pads to dramatically reduce vibrations that would otherwise be created by such large equipment.

IV. EVALUATING THE EFFECTIVENESS OF NOISE, DUST, VIBRATIONS, ODOR & FUME CONTROL MEASURES

Key site leadership roles will be trained to assess the production and escape of odors, dust, fumes and glare from the facility. We also anticipate a strong and friendly relationship with the local communities and will welcome feedback about any exhaust from the building. Should these assessments or the community ever determine that our levels are beyond acceptable, we will re-evaluate this plan and engage professionals to further refine our practices and properly mitigate the problem.
J. Spent Water & Soil Safety Plan
Spent Water & Soil Safety Plan

Wastewater Treatment Plan:
Wastewater generated during the cultivation of marihuana of marihuana products shall be disposed of in compliance with all applicable state and local laws and regulations. Despite the amount of water used in the cultivation process, there is very little water waste. The majority of water is used by the plants or evaporated out of the collection dishes upon which the plants sit. Any water that is used to rinse the plants or clean the facility or for any other purpose shall be rendered clean through both reverse osmosis and UV light after standard filtration methods, and either reused by the facility or discharged through a monitoring man hole where it can be monitored to comply with all local ordinances.

The Cultivation Facility will include an Ecowater RO purification system. Ecowater Purification Systems are the leading water filtration manufacturer in the industry, helping cultivators diagnose and solve every water problem imaginable. Ecowater designs systems to treat any water source including city water, well water, nutrient runoff water, wastewater, and condensate runoff.

Soil Safety Plan
The cultivation facility will not use soil – instead, all media for the purposes of growing plants will be rockwool, a lightweight hydroponic substrate made from spinning molten basaltic rock into fine fibers which are then formed in a range of cubes. This product will be disposed of through the grinder and mixed with biological waste in a locked dumpster.
K. Security Plan
SECURITY PLAN

Tycoon 1 Operations is committed to being a leader in Michigan’s cannabis industry and a trusted resource for the communities, consumers and clients we service. Essential to fulfilling this commitment is our ability to effectively protect our product from criminal repurposing throughout the facilities.

This Security, Surveillance and Diversion Prevention Plan details the physical and electronic security measures we employ to deter, detect, and inhibit the theft, diversion, and loss of Marijuana, and to prevent unauthorized conduct with respect to the storage and dispensing of Marijuana.

We have extensively researched and designed our Grow Facility to maximize security. The facility shall be built with enhanced security and stringent safety features to eliminate any potential for diversion. Our facility will be equipped with numerous motion sensors and exterior intrusion sensors that will be linked to local law enforcement. To prevent unauthorized entry and stop diversion, theft, or loss of marijuana, every square inch of the facility shall be continually monitored by high definition security cameras and commercial-grade equipment. Security systems will be positioned so they closely monitor activities at strategic risk points and watch for any strange behavior or movement. Marijuana shall not be visible to any person from the exterior of the Grow Facility.

We will create a culture of responsibility, accountability, and strict security surrounding all aspects of the facility. The stringent operating procedures outlined below demonstrate a commitment to employee and public safety above all other operating values. From receipt to sale, we are committed to preventing diversion by implementing a comprehensive security strategy. Employees will be extensively trained to understand that security is a primary obligation for everyone at our facility.

We will have comprehensive security policies and procedures for the Grow Facility, which address measures to deter and prevent unauthorized entrance into areas containing marijuana and theft of marijuana at the facility. Employees will receive on-going training regarding our security protocol and the Site Manager shall ensure all employees follow policies and procedures regarding the security of the facility. The Site Manager shall implement and maintain employee training policies and procedures for security training. All employees shall aid in the security of the Grow Facility through prevention, awareness, reporting, and responsible incident management. All employees shall be required to immediately report security breaches and incidents of non-compliance to their supervisor, and in case of sudden emergency, immediately to law enforcement by either striking a panic button or calling law enforcement directly.

We will make our facility available and open to inspection, at all times, for law enforcement, representatives of the Department and law enforcement, when necessary to perform their duties.

PHYSICAL SECURITY

The facility shall be designed to maximize security and stop the potential for diversion. Access to the secure facility shall include safety and security mechanisms that prevent unauthorized entry. All doors will be burglary-resistant material, with commercial-grade, non-residential locks. Additionally, exterior doors, as well as limited access area entries, will be automatic locking and equipped with electric strike and keypad access hardware. All doors are setup to fail secure, which means in the event of a power failure, the doors will remain locked and only be accessible via a master key.
The Grow Facility’s main entrance vestibule shall include a mantrap to control passage from the public access area to the limited access area. We will strive to install Underwriter’s Lab (UL) approved locks and lock cylinders, which are rated as burglary resistant. We will also install local alarms on all fire exits and other perimeter doors not authorized for employee or visitor use. Our alarm system will be monitored after business hours with live monitoring through a licensed security monitoring company. If there are ever any after-hours issues, the live monitoring system will be linked directly to law enforcement and the Site Director, among other key personnel.

We shall ensure that trees, bushes, and other foliage outside of the premises do not allow people to conceal themselves from sight. The surveillance system’s cameras shall be capable of certain identification of persons (including facial features), license plates, vehicles, the immediate surrounding areas, and any activities occurring within any area of the premises, and the parking area, and within twenty feet (20’) of all entry and exit points of the premises. Cameras will cover every square inch of the facility.

To provide first responders with immediate access into our facility during a time of emergency or inspection, we will install a Knox Rapid Access System to remove any barriers to entry when first responders respond to an emergency call.

**LIGHTING**

Exterior lights at all points of entry and exit shall remain constantly illuminated to allow for recording. Lighting on the outside perimeter shall allow cameras the ability to record any suspicious activity. Timed-delay switches shall be used to turn off non-essential interior lights, which shall not remain lit after employees have left the facility. Motion detecting lights shall be installed in areas that are entered and exited infrequently. The exterior of the facility shall be lit by commercial LED light fixtures sufficient to facilitate twenty-four-hour surveillance. Exterior lights in the parking area will remain on from dusk until dawn.

**SECURITY EQUIPMENT**

Our security equipment shall be designed, installed, and maintained to deter and prevent unauthorized entrance and theft of marijuana products at the facility. Security equipment shall be installed by a commercial, licensed service provider. All equipment shall be compliant with Department rules and all state and local laws, regulations, ordinances, and other requirements.

**ENTRY AND EXIT ELECTRONIC EQUIPMENT AND PLACEMENT**

Our entry and exit electronic access equipment will consist of the following:

- Electric strike locks on all doors in the Grow Facility with the ability to override access control for emergency exit even during a power outage.
- RFID proximity card access control devices for all interior doors and all exterior entrances and exits into the Grow Facility.
- Access control system that allows for programming or uploading individual user permissions and allowed entry times, as well as operations-specific information including employee photos.
- A backup power supply system that immediately provides power for at least twenty-four (24) hours in the event of a power outage.
- Main system operating equipment will be kept in the security room, a limited access area.
• Access control system that monitors and records:
  o Identification of employees or visitors entering and exiting.
  o Date and time of entry and exit.
  o Length of time in specific area.
  o Any unauthorized attempts for access.

ALARM SYSTEM

We shall have a professionally monitored security alarm system installed at our facility. Monitoring of the alarm system shall be twenty-four (24) hours a day, seven (7) days a week. We shall notify the Department of any intent to change our security alarm service provider. Upon request, we will make available to the Department all information related to the alarm system, monitoring, and alarm activity. The alarm system shall consist of the following:

• Appropriate equipment necessary to monitor activity inside and outside the Grow Facility, including:
  o All entrances and exits.
  o Roof hatches.
  o Rooms with exterior windows.
  o Rooms with exterior walls.
  o Rooms containing marijuana.
  o Rooms containing safes or vaults.

• A backup power supply system that immediately provides power in the event of a power outage.

• Main system operating equipment is kept in the Main Office Surveillance/IT Room, a limited access area.

• All telephone junction boxes or rooms where alarm telephone circuits terminate are locked, tamper-protected, and all labels or tags identifying these alarm circuits have been removed.

ALARM SYSTEM COMMUNICATION

The alarm system shall include an electronic or mechanical system that, upon activation, is programmed to send a prerecorded voice message, via telephone, radio frequency, or other communication system, to appropriate law enforcement authorities or other emergency services. In addition, the alarm system shall be equipped with a failure notification system that notifies the alarm monitoring service provider of the system failure via audio, text, visual, or audiovisual message, within a maximum of five (5) minutes of such failure.

ALARM SYSTEM TESTING

We shall bi-annually conduct an onsite inspection and test of the entire alarm system to determine needed repairs and adjustments.

ALARM SYSTEM RECORDS

We shall keep and maintain alarm system records and will make available to the Department all
information related to the alarm system, monitoring, and alarm activity. These records shall include the following:

- The name of the alarm installation and monitoring service provider.
- Copies of service contracts.
- A map of the Grow Facility showing the location and operation of each alarm system component including alarm telephone circuits.
- A list of authorized users.
- Manufacturers’ instructions for operating and maintaining the equipment.
- Testing and maintenance logs.
- Reports of any incidents triggering an alarm.
- Reports of any interruption in monitoring and/or complete failure of the system, including the length of the interruption period.

SURVEILLANCE SYSTEM

We shall have a fully operational electronic surveillance system installed at our facility. We shall notify the Department of the intent to make any changes to the surveillance system. Upon request, we will make available to the Department all information related to the electronic surveillance system installed at our facility. The surveillance system shall consist of the following:

- Appropriate equipment necessary to video record activity inside and outside the Grow Facility, including:
  - All entrances and exits into and out of the Grow Facility.
  - Roof hatches or skylights.
  - Rooms with exterior windows.
  - Rooms with exterior walls.
  - Rooms containing safes or vaults.
  - All entrances and exits of security rooms and limited access areas.
- Appropriate equipment to record keycard entry and exit activity of all our employees and visitors.
- A backup power supply system that immediately provides power in the event of a power outage.
- A dedicated safe or vault to store all entry/exit records and video recordings in the Office Surveillance/IT Room, in a limited access area.
- Main system operating equipment is kept in the main office Surveillance/IT Room.

VIDEO SURVEILLANCE EQUIPMENT

Our video surveillance equipment will consist of the following:

- Network video recorders with a record rate of a minimum of thirty (30) frames per second.
- Cameras with a minimum resolution of 1920 x 1080 pixels.
- Cameras with infrared capabilities to capture images in low or no lighting conditions.
- Cameras with capabilities to identify activity occurring within twenty feet (20’) from all points of entry and exits into and out of the exterior of the Grow Facility.
- Video monitors.
- Digital archiving device.
- Capabilities to produce a color still photograph from any camera image, live, or recorded.
- Capabilities to accurately display the time and date on recorded images or video
- Color printer that can immediately produce a clear, color still photo, either live or recorded, with a resolution of 9600 dpi and the image quality is relative to the camera being used to capture the image.

CAMERA COVERAGE PLACEMENT

We will install at least One Hundred (100) security cameras. The security cameras will be permanently mounted and in a fixed location. Each camera at the Grow Facility shall be placed in a location that allows the camera to clearly record activity occurring within twenty feet (20’) of all points of entry and exit on the Grow Facility. The cameras will cover every square inch of the facility. The cameras shall allow for the clear and certain identification of any person, including facial features, and activities, including sales or transfers, in all areas of the Grow Facility. The security cameras shall monitor and record all areas of the Grow Facility including:

- All areas where marijuana or products are present, including activities related to:
  - Weighing, packaging, and labeling.
  - Storing, preparing for sale, loading/unloading, or moved within the Grow Facility.
  - Waste Disposal
- Limited-access areas and security rooms, including transfers between rooms and areas.
- Areas storing a surveillance system storage device with at least one (1) camera recording the access points to the secured surveillance recording area.
- All entrances and exits into and out of the exterior of the Grow Facility, recording both indoor and outdoor vantage points.
- Outdoor trash receptacles.
- Roof hatches or skylights.
- Rooms with exterior windows.
- Rooms containing safes or vaults.
- All areas where cash is counted, transferred, or stored.
- All areas where records are stored.

Cameras shall not be installed in bathrooms or any other area where a legitimate expectation of privacy exists. Camera placement shall ensure:

- Visibility of activities is not obstructed by lighting equipment covers, fixtures, or other equipment.
- A clear and certain identification of all individuals and activity at the Grow Facility.
• Identification of activity occurring within twenty feet (20’) from all points of entry and exit into and out of the exterior of the Grow Facility.

SURVEILLANCE FAILURE NOTIFICATION

The surveillance system shall include a failure notification system that alerts the Site Director and other key site personnel of any interruption in surveillance and/or the complete failure of the monitoring system. The notification shall be within a maximum of five (5) minutes of such failure via audio, text, visual, or audiovisual message. Additionally, an alarm shall signal the Security Officer on duty whenever an unauthorized entry is attempted.

SURVEILLANCE TESTING

We shall ensure that the surveillance system is properly maintained for playback quality so that images can be seen and the identity of all individuals and activity in surveillance areas are captured. We will schedule and oversee all required maintenance of security equipment in accordance with manufacturer recommendations. Any equipment failure identified shall be corrected as soon as possible. All security equipment shall be in good working order and shall be inspected and tested at regular intervals.

INFORMATION TECHNOLOGY SECURITY

We shall ensure the security of our hardware, software, data, and communications networks, including the following information technology (IT) maintenance:

• Software registration.
• Security patches.
• Malicious software prevention.
• Account management.
• Security status and network access monitoring.
• Disposal and redeployment.
• Employee IT security training.
• Vulnerability assessments.

Access to protected information shall be restricted to essential employees only. Access may be granted to authorized representatives of the Department and other government officials if necessary to perform their official duties. Examples of protected information include:

• Security and cash management procedures.
• Asset and inventory lists.
• Network data.
• Floor plans of critical areas.
• Password and code records.
• Customer records.
• Employee records.

PRODUCT SAFETY AND SECURITY

We shall develop and implement procedures that ensure product safety and security and are compliant with the rules set forth by the Department and all applicable state and local laws, regulations, ordinances, and other requirements. Procedures shall include measures that:

• Minimize the risk of diversion or theft of marijuana.
• Minimize the risk of contamination from incoming materials.
• Ensure proper storage conditions that maintain the quality and purity of our marijuana products.

MATERIAL RECEIVING

All deliveries shall be verified at the front entrance to the facility before allowed access to the loading areas. All materials received will be documented. No material may be received unless its shipping documentation matches the corresponding purchase order or separate approval is given by the Site Manager. Employees shall notify the Site Manager of any shipment discrepancy immediately and shipment may not be accepted without the Site Manager’s approval.

PRODUCT STORAGE SECURITY

Storage areas shall be designed to provide adequate lighting, ventilation, temperature, humidity, space, and equipment. All storage areas shall be maintained in a clean and orderly condition, free from infestation of pests, and in accordance with our security measures and Security Plan. The Grow Facility Manager shall ensure secure containers containing marijuana products remain dry, well ventilated, have temperature-control features to avoid extreme temperature fluctuations and appropriate odor-control features. These proper storage environments ensure product storage does not lead to product contamination or loss of quality.

The storage areas containing marijuana products shall be designed for security and ease of maintenance. We shall establish product storage and security policies and procedures compliant with the rules set forth by the Department and all applicable state and local laws, regulations, ordinances, and other requirements. Under no circumstances may any product be transferred without following our policies and procedures and all the rules set forth by the
Department and all applicable state and local laws, regulations, ordinances, and other requirements. Storage policies and procedures shall include:

- All equipment and any areas used for the processing or storage of marijuana shall be securely locked unless in use.
- All areas used for the storage of marijuana shall be on a time lock and only accessible during regular business hours.
- Inventory shall be reviewed and documented at the beginning and close of each day.
- All areas where marijuana product is stored will be monitored by the surveillance system.

DIVERSION PREVENTION

Investigation of possible diversion and developing policies to prevent it will be conducted by a team of our senior officials, including our CEO, COO, and Director of Compliance. Collectively, they will be known as the Diversion Prevention Team or DPT. The team will have multiple responsibilities including:

- Investigating allegations of diversion
- Developing policies and procedures to prevent diversion
- Managing performance improvement measures
- Providing overall direction for the program.
- Reporting confirmed cases of diversion to law enforcement

The DPT will also integrate information from external sources and environmental factors to improve safety and security at facilities. External sources and environmental factors may include news reports, trade and patient associations, law enforcement bulletins, et cetera. Standard operating procedures shall be updated to incorporate new sources of information and prevent diversion.

WORKING WITH LAW ENFORCEMENT

We deeply value and respect the work of local law enforcement. Police officers are on the front lines protecting our safety. Therefore, our Company, through the DPT, will form a partnership with law enforcement. This partnership will be rooted in a shared responsibility for the safety of the community. Upon request, law enforcement will have access to employee records and Grow Facility operations. Company will also engage with first responders like EMS and fire to establish emergency response protocols. This will create a close working relationship and enhance our ability to provide a secure and positive experience for our employees and the community.

To provide first responders with immediate access into our facility during a time of emergency or inspection, we will install a Knox Rapid Access System to remove any barriers to entry when first responders respond to an emergency call.
EMPLOYEE TRAINING

We know that having a trained and educated workforce is paramount to having an effective diversion strategy. Therefore, a considerable amount of time, resources, and energy will be devoted to ongoing diversion prevention training. The training curriculum will be conducted by the DPT. At a minimum, the training curriculum shall include:

- Compliance regulations for grow facilities.
- State laws and agency rules regulating the use of marijuana.
- Strategies for preventing diversion.
- Criminal and civil consequences for diverting product.
- Security and safety standard operating procedures.
- Chain of command for reporting diversion.
- Incident management.
- Daily operating procedures.

Diversion prevention trainings are mandatory for every new employee. Additionally, each employee shall be required to participate in quarterly continuing education trainings on diversion. Training materials will be outcome driven. Employees will be given real world examples of diversion and taught the appropriate response. Teaching the material through the learning principles of problem solving, discussion, and feedback will empower and increase understanding and retention of the training. This process of integrating knowledge will develop a culture of shared values, perspectives, and become the way of daily conduct and purpose at the Grow Facility.

Employees will have access to diversion prevention training materials at all times. There will be no excuse and zero tolerance for not knowing the proper policies and procedures. Well-maintained employee training records displaying documented training dates and subject matter will preserve and increase compliance, continuity and understanding of all guidelines, security procedures, safety, and incident response. Employee training records will become a written testament of the detailed information and accountability of security education.

INVESTIGATION OF DIVERSION

Due to intense and robust security operations, we do not anticipate diversion at our facility. However, it is important to be prepared for any scenario. We have developed an enhanced investigation procedure for any allegations or reports of potential diversion. Any allegation or report will be fully and immediately investigated by the DPT with established processes and timeframes.

Security policies developed by our Company outline that the first step of investigation is to preserve all possible evidence. Evidence needs to be persevered for the investigation and may be used in future disciplinary matters. The second step of investigation shall be to review all camera footage and other relevant information technology. Each marijuana product is tracked from seed to sale. Therefore, if diversion occurred, it will likely appear in an audit of the tracking software. The third step of investigation will be to interview the employee who engaged or
allegedly engaged in diversion. This step can only be executed if enough evidence is gathered to narrow down the suspect. The goal of the interview is to get the subject to confess how they diverted product to prevent future incidents from occurring. The fourth step of investigation will be to report the confirmed incident of diversion and suspect to law enforcement and the Department. The Site Manager shall be the point of contact for all law enforcement inquires and will turn over all relevant evidence to law enforcement and the Department. The final step of investigation is to develop policies and procedures to prevent the incident from happening again. Once new policies have been developed by the DPT, an all staff training shall be given. The training will be a top down review of all security policies including any updated procedures.

INCIDENT RESPONSE

We shall establish incident response procedures addressing any incident that may occur, including natural disaster, unauthorized access, theft, or IT security breach. Procedures shall be in accordance with the rules set forth by the Department and all applicable state and local laws, regulations, ordinances, and other requirements. Procedures for general emergency and incident management, containment, and corrective measures shall be thoroughly detailed. The Director of Compliance shall ensure the appropriate response procedures are followed. All employees shall receive incident response training annually. The Site Manager shall determine the category and severity of the incident and determine the next best course of action. All discussions, decisions, and activities shall be documented.

We shall immediately notify appropriate law enforcement authorities and the Department immediately after the discovery of a reportable incident as defined by state and local laws, regulations, ordinances, and other requirements. Examples of an incident may include, but are not limited to:

- Theft or physical loss of marijuana or confidential records.
- Breach of our network servers.
- Robbery or unauthorized entry in the Grow Facility.
- Threats of violence to the Grow Facility, employees, or visitors.
- Bomb threats.
- Any criminal activity.
- Civil disturbances.
- Hazardous spills.
- Infectious disease epidemic.
- Serious accidents.
- Fires.
- Earthquakes.
- Floods.
- Windstorms or tornadoes.
INCIDENT REPORTING

Anyone with knowledge or a reasonable suspicion of an incident is instructed to make an immediate report to the Crow Facility Manager or the Site Manager. The person reporting the incident shall complete the Incident Log.

- Date and time of occurrence or suspected occurrence.
- Names and contact information of parties involved and any witnesses.
- Description of incident.
- Completed Suspect Description Forms, if applicable.
- Any evidence supportive of the event (unless law enforcement is required on scene or en route).

We shall notify appropriate law enforcement authorities and the Department immediately after discovering the following:

- Discrepancies identified during inventory; diversion, theft, or loss of marijuana; or any criminal action involving an employee.
- Theft, robbery, or burglary; sale to minors; diversion of marijuana or marijuana products; or any other crime related to marijuana.
- Any suspicious act involving the sale, cultivation, distribution, processing, or production of marijuana by any person.
- Unauthorized destruction of marijuana.
- Any loss or unauthorized alteration of records.
- An alarm activation or other event that requires a response by public safety personnel.
- Integrity of the inventory management system compromised.
- An IT security breach.
- The failure of any security alarm system due to a loss of electrical power or mechanical malfunction that is expected to last longer than eight (8) hours.
- Any other breach of security defined by the rules set forth by the Department.

UNAUTHORIZED ENTRY/ROBBERY CONTAINMENT AND CORRECTIVE PROCEDURES

In the event a threat is present to persons, cash, or product due to unauthorized entry, employees shall be trained to perform the following:
• Notify law enforcement utilizing a panic alarm, only if it can be safely done without being obvious to the robber.

• Do not resist the robber or use or encourage the use of weapons or force against the robber.

• Try to inform the robber of any potential surprises (e.g., an employee is due back from lunch or the building alarm is set to be tested).

• Try to keep employees and visitors, if applicable, calm during the robbery.

• Try to alert other employees of the situation using pre-determined signals or text messages, only if safe to do so.

• Follow the robber’s commands in order to shorten the time of the incident. Do not argue with the robber, but do not volunteer to help.

• If the robber demands a certain amount of money or product, only give them that amount.

• Be observant in order to be a good witness. Try to remember:
  o The number of robbers.
  o The physical characteristics of the robber(s), such as weight, scars, tattoos, hair color, or speech patterns.
  o The clothing worn by the robber(s).
  o Any names used by the robber(s).
  o A description of any weapons shown, such as barrel length and color, color of the grip, or automatic or revolver.

• If the robber uses a note, try to place it out of sight to retain it as evidence.

• Do not follow a robber.

• Secure the Grow Facility and place a notice that the business is closed due to an emergency.

• Call the police and ambulance, as needed, immediately and request that witnesses stay or obtain their contact information.

• Provide aid to injured people.

• Do not discuss the robbery with any outside parties until police and management has given authority to do so.

• Do not estimate the amount of money or product that was taken until an inventory has been performed.

Corrective procedures that may be required to return conditions to a normalized and secure state:

• Change all security codes.

• Replace locks and issue keys only to authorized employees.
- Ensure any video of the incident is archived.
- Restore security devices and/or apparatus to working condition.
- Repair any physical damage to the Grow Facility.
- Provide employees and visitors, if applicable, counseling, as needed.
- Perform a security re-training as soon as possible.
- Modify Employee Access Control Log as deemed appropriate.

INTERNAL THEFT/BURGLARY CONTAINMENT AND CORRECTIVE PROCEDURES

In the event a threat is present to persons, cash, product due to internal theft or burglary, employees shall be trained to perform the following:

- Identify missing or compromised assets.
- Gather, remove, recover, and secure sensitive materials to prevent further loss or access.
- Power down, recycle or remove security equipment known to be compromised.
- Where possible, secure the premises for possible analysis by the Department and law enforcement.
- Gather and secure any evidence of illegal entry for review by the Department and law enforcement.
- Where possible, record identities of any party who might be a possible witness to events.
- Preserve video recordings and Visitor logs for review by the Department and law enforcement.

Corrective procedures that may be required to return conditions to a normalized and secure state:

- Retrieve or restore assets where possible.
- Store all sensitive materials and products in a secure manner (e.g., lockable cabinets or storage areas/container).
- Replace locks and issue keys only to authorized employees. Update the Employee Access Control Log as necessary.
- Restore security devices and/or apparatus to working condition.
- Remove and retain unauthorized equipment from network and/or area.
- Implement physical security devices and improvements (e.g., equipment cables, alarms) as deemed appropriate.
- Perform a security re-training as soon as possible.
FIRE PROCEDURES

If a fire does not present an immediate danger to personal safety, one (1) employee shall try to extinguish the fire. If a fire presents an immediate danger to personal safety, a fire alarm shall be pulled and a call to 911 shall be immediately made and evacuation of the building shall occur all at once.

Evacuation of Grow Facility

Any director or manager may determine the need to evacuate. Reasons for evacuation may include:

- Fire.
- Bomb threat.
- A hostile or violent employee, visitor, or unknown person.
- Power outage.
- Earthquake.
- Water or gas leak.
- Hazardous spill.
- Robbery or hostage situation.

The Site Manager shall ensure that all employees and visitors, if applicable:

- DO NOT gather in lobbies.
- DO NOT open a door without first checking for heat.
- DO NOT touch any suspicious items or suspected bombs.
- DO NOT run or panic.
- DO NOT re-enter the building until authorized.
- DO assist disabled individuals or others who need assistance. Evacuate disabled individuals or others who need assistance ONLY under the direction of authorized emergency personnel or when there is an immediate threat to personal safety and security.

INCIDENT CONTAINMENT

The Site Manager, in coordination with the appropriate department directors or managers, shall determine and implement the appropriate activities and processes required to quickly contain and minimize the immediate impact to personal safety, the Grow Facility, and other affected parties. Containment activities shall be designed to:

- Minimize harm to individuals.
- Counteract the immediate threat.
• Prevent propagation or expansion of the incident.
• Minimize actual and potential damage.
• Restrict knowledge of the incident to authorized employees.
• Preserve information relevant to the incident.

The Site Manager, in coordination with the appropriate department directors or managers, shall determine and implement the appropriate activities and processes to quickly:

• Secure the environment.
• Restore the environment to its normalized state.

The Site Manager shall be actively engaged throughout the incident to assess the progress of all containment and corrective measures and determine at what point the incident can be considered resolved.

**INCIDENT CONTAINMENT AND CORRECTIVE PROCEDURES**

The Site Manager shall determine and implement the appropriate procedures required to quickly contain and minimize the immediate impact of an incident, as well as to quickly restore circumstances to a normalized, secure state. Containment and corrective measures shall be designed with the primary objectives of:

• Minimizing harm.
• Counteracting the immediate threat.
• Preventing propagation or expansion of the incident.
• Minimizing the actual and potential damage.
• Restricting knowledge of the incident to authorized employees.
• Preserving information relevant to the incident.
• Securing the environment.
• Restoring the environment to its normalized state.

**POST-INCIDENT REVIEW, REPORT, AND FOLLOW UP**

The Site Manager shall hold a Post-Incident Review after each incident has been resolved. The Post-Incident Review shall be scheduled within two (2) to three (3) weeks of the incident’s resolution and shall involve:

• Appropriate personnel, which may include affected parties.
• Examination of the incident and all related activities and events.
• Discussion on proposed changes to policy, processes, and safeguards.
All incident activities, from receipt of the initial report through post-incident review, shall be documented. The Site Manager shall ensure all events are recorded, assembling these records in preparation and performance of the post-incident review, and ensuring all records are preserved for review. The following shall be included, at a minimum, in the Post- Incident Report:

- A description of incident events with specific timelines.
- Employee(s) involved.
- Non-Employees involved.
- Impact to affected parties.
- Discussions, decisions, and assignments made.
- Successful and unsuccessful activities.
- Notifications required or recommended.
- Steps taken for containment and resolution.
- Recommendations for prevention and remediation (short-term and long-term).
- Identification of policy and procedure gaps.
- Results of post-incident review.
- Any necessary follow-up actions.

The Post- Incident Report shall be distributed to the Site Manager, the Grow Facility Manager, and all other relevant parties for review. The Site Manager shall ensure the appropriate employees are assigned to any follow-up actions. The Site Manager shall document the completion of all follow-up actions in the Post- Incident Report and distribute an updated copy.

SECURITY SYSTEM RECORDS

We shall keep all necessary books and records in order to render a full account of all operations conducted at the Grow Facility under our license for the year to date and the five (5) years prior. We shall keep books and records of the Grow Facility from the previous six (6) months (or the complete copies of such records) in the Grow Facility at all times. All marijuana related records shall be retained in the inventory management system. All surveillances recordings shall be retained, at a minimum for at least sixty (60) days, unless in instances of investigation or inspection by the Department, through its investigators, agents, auditors, or the state police, in which case the licensee shall retain the recordings until such time as the department notifies the licensee that the recordings may be destroyed. Our standard operating procedures shall detail the maintenance of records and measures for addressing and reporting any loss or unauthorized alteration of records. The Department, upon request, shall have full access to all Grow Facility records and surveillance recordings.

We shall keep and maintain security and surveillance system records and recordings in the Grow Facility and copies stored on a secure cloud storage. These records shall include, at a minimum, the following:

- The name of the surveillance equipment installation service provider and all equipment manufacturers.
- Copies of any service contracts.
• A map of the Grow Facility showing the location and operation of each surveillance system component, including the direction of camera coverage.

• A list of authorized users.

• Manufacturers’ instructions for operating and maintaining the equipment.

• Testing and maintenance logs.

• Reports of any incidents of unauthorized entry.

• Employee Access Control Logs.

• Visitor Registration Logs.

• Authorized Visitor Access Control Logs.

• Incident Logs and Post-Incident Reports.

• Reports of any interruption in monitoring and/or complete failure of the system, including the length of the interruption period.

• A log of the recordings, which includes:
  o The identities of the employee or employees responsible for monitoring the video surveillance system.
  o The identity of the employee who removed the recording from the video surveillance system.
  o The identity of the employee who destroyed any recording.

• Video surveillance recordings shall be:
  o In a digital format that ensures authentication of the recording as being legitimately captured without alterations.
  o Easily accessible and in a format that allows for viewing and copying.
  o Embedded with the date and time without significantly obscuring the picture.

We will maintain a log of all recordings, which will include a minimum:

• The identities of the employee or employees responsible for monitoring the video surveillance system.

• The identity of the employee who removed the recording from the video surveillance system storage device and the time and date removed.

• The identity of the employee who destroyed any recording.

Video surveillance recordings shall be stored on an NVR that is server-based with storage as required to meet recording rate and retention. This system shall be password-protected and separate from any other equipment in the Grow Facility. The files and video surveillance recordings shall be available for inspection, upon request, by authorized representatives of the Department and other government officials when necessary to perform their official duties.

After the expiration of the retention period, and before selling or closing the facility, the surveillance video recordings shall be erased, destroyed, or otherwise disposed. We shall not destroy any surveillance video recordings if we have knowledge or should have knowledge of any ongoing criminal, civil, administrative, or other official investigations or proceedings for which the recording may contain relevant information. Additionally, we shall not destroy any surveillance
video recordings in instances of investigation or inspection by the Department, through its investigators, agents, auditors, or the state police, in which case the recordings shall be retained until such time as the Department notifies us that the recordings may be destroyed.
Security and Surveillance Equipment Room Access List

This is the current list of individuals having access to our Security and Surveillance Equipment Storage Room. Only those on this list are essential to maintain security and surveillance operations. All others will be denied access to the Security and Surveillance Equipment Room.

This list is available to the Department or authorized agents immediately upon request.

WE ASSIGNED YOU AN EMPLOYER IDENTIFICATION NUMBER

Thank you for applying for an Employer Identification Number (EIN). We assigned you EIN 85-2192285. This EIN will identify you, your business accounts, tax returns, and documents, even if you have no employees. Please keep this notice in your permanent records.

When filing tax documents, payments, and related correspondence, it is very important that you use your EIN and complete name and address exactly as shown above. Any variation may cause a delay in processing, result in incorrect information in your account, or even cause you to be assigned more than one EIN. If the information is not correct as shown above, please make the correction using the attached tear-off stub and return it to us.

Based on the information received from you or your representative, you must file the following form(s) by the date(s) shown.

Form 941 01/31/2021
Form 940 01/31/2021

If you have questions about the form(s) or the due date(s) shown, you can call us at the phone number or write to us at the address shown at the top of this notice. If you need help in determining your annual accounting period (tax year), see Publication 558, Accounting Periods and Methods.

We assigned you a tax classification based on information obtained from you or your representative. It is not a legal determination of your tax classification and is not binding on the IRS. If you want a legal determination of your tax classification, you may request a private letter ruling from the IRS under the guidelines in Revenue Procedure 2004-1, 2004-1 I.R.B. 1 (or superseding Revenue Procedure for the year at issue). Note: Certain tax classification elections can be requested by filing Form 8832, Entity Classification Election. See Form 8832 and its instructions for additional information.

Date of this notice: 07-31-2020
Employer Identification Number: 85-2192285
Form: SS-4
Number of this notice: CP 575 A
For assistance you may call us at: 1-800-829-4933
IF YOU WRITE, ATTACH THE STUB OF THIS NOTICE.
If you are required to deposit for employment taxes (Forms 941, 943, 940, 944, 945, CT-1, or 1042), excise taxes (Form 720), or income taxes (Form 1120), you will receive a Welcome Package shortly which includes instructions for making your deposits electronically through the Electronic Federal Tax Payment System (EFTPS). A Personal Identification Number (PIN) for EFTPS will also be sent to you under separate cover. Please activate the PIN once you receive it, even if you have requested the services of a tax professional or representative. For more information about EFTPS, refer to Publication 966, Electronic Choices to Pay All Your Federal Taxes. If you need to make a deposit immediately, you will need to make arrangements with your Financial Institution to complete a wire transfer.

The IRS is committed to helping all taxpayers comply with their tax filing obligations. If you need help completing your returns or meeting your tax obligations, Authorized e-file Providers, such as Reporting Agents (payroll service providers) are available to assist you. Visit the IRS Web site at www.irs.gov for a list of companies that offer IRS e-file for business products and services. The list provides addresses, telephone numbers, and links to their Web sites.

IMPORTANT REMINDERS:

* Keep a copy of this notice in your permanent records. This notice is issued only one time and IRS will not be able to generate a duplicate copy for you. You may give a copy of this document to anyone asking for proof of your EIN.

* Use this EIN and your name exactly as they appear at the top of this notice on all your federal tax forms.

* Refer to this EIN on your tax-related correspondence and documents.

* Provide future officers of your organization with a copy of this notice.

Your name control associated with this EIN is TYCO. You will need to provide this information, along with your EIN, if you file your returns electronically.

If you have questions about your EIN, you can contact us at the phone number or address listed at the top of this notice. If you write, please tear off the stub at the bottom of this notice and include it with your letter. Thank you for your cooperation.

2519
Keep this part for your records.

Return this part with any correspondence so we may identify your account. Please correct any errors in your name or address.

CINCINNATI OH 45909-0023

TYCOON I OPERATIONS LLC
DARYL MELLER SOLE MBR
2055 CROOKS RD STE B
ROCHESTER HLS MI 48309
OPERATING AGREEMENT
OF
TYCOON I OPERATIONS, LLC

THIS OPERATING AGREEMENT (this "Agreement") is entered into and made effective as of July 22, 2020 (the "Effective Date") by and between TYCOON I OPERATIONS, LLC, a Michigan limited liability company (the "Company"), and TYCOON HOLDINGS, LLC, a Michigan limited liability company and sole member of the Company (the "Member").

Background

A. The Company was formed on July 22, 2020 as a Michigan limited liability company.

B. The undersigned desires to memorialize its rights and obligations with respect to the Company pursuant to the terms of this Agreement.

Agreement

In consideration of the foregoing background and for other good and valuable consideration, the receipt and sufficiency of which is hereby acknowledged, and intending to be legally bound hereby, the parties agree as follows:

ARTICLE I
DEFINITIONS

The following capitalized terms used in this Agreement shall have the following meanings (unless otherwise expressly provided herein):

"Act" means the Michigan Limited Liability Company Act, as amended.

"Business" means the principal business of the Company, which shall be to own and manage investments.

"Capital Contribution" means any contribution of cash or property to the Company, or any obligation to contribute cash or property to the Company, whenever made.

"Certificate" means the Articles of Organization as filed by the organizer of the Company with the Department of State of the State of Michigan, as amended.

"Code" means the Internal Revenue Code of 1986, as amended, or corresponding provisions of subsequent superseding federal revenue laws.

"Interest" means the Member’s entire interest in the Company.
“Person” means any individual, trust, partnership, corporation, limited liability company or entity.

ARTICLE II
FORMATION OF COMPANY

2.1 Formation. The Company has been organized as a Michigan limited liability company by executing and delivering the Certificate in accordance with and pursuant to the Act.

2.2 Name. The name of the Company is Tycoon I Operations, LLC.

2.3 Registered Office. The address of the registered office of the Company shall be The CSC – Lawyers Incorporating Service, 601 Abbot Road, East Lansing, Michigan 48823, or at such other place as the Member may from time to time determine. The registered office of the Company may be changed from time to time by amending the Certificate in accordance with the Act. The Company may maintain such other offices, including, but not limited to, a principal place of business as the Member shall determine.

2.4 Purpose. The purposes of the Company shall be (a) to advance and grow the Business, (b) to engage in all other lawful business authorized pursuant to the Act, and (c) to make, enter into and perform any contracts and other undertakings, and to engage in any activities and transactions as may be ancillary to or necessary or advisable to carry out the foregoing purposes.

2.5 Term. The term of the Company shall be perpetual unless the Company is earlier dissolved in accordance with the provisions of this Agreement.

ARTICLE III
CAPITAL CONTRIBUTIONS; LOANS; DISTRIBUTIONS

3.1 Capital Contributions. The Company shall keep a record of all Capital Contributions made by the Member. The Member shall not be required to make any Capital Contribution to the Company not specifically agreed to in writing between the Member and the Company.

3.2 Loans. Any and all loans made to the Company by the Member shall not be considered Capital Contributions.

3.3 Distributions. Distributions shall be made to the Member (in cash or in kind) at such times and in such amounts determined by the Member and as permitted by applicable law.
ARTICLE IV
MEMBER

4.1 Member. The name and address of the Member is:

Tycoon Holdings, LLC
2055 Crooks Road, Suite B
Rochester Hills, MI 48309

4.2 Management. The Company shall be initially managed by Heller Investment Holdings, LLC.

4.3 Right to Rely on Member. Any Person dealing with the Company may rely (without duty of further inquiry) upon a certificate signed by a designee of the Member as to: (a) the identity of the Member; (b) the existence or non-existence of any fact or facts which constitute a condition precedent to acts by the Member or which are in any manner germane to the affairs of the Company; (c) the Persons who are authorized to execute and deliver any instrument or document of the Company; or (d) any act or omission by the Company or any other matter whatsoever involving the Company or the Member.

4.4 Authority to Designate Officers. The Member may elect, appoint or designate, by resolution or otherwise, individuals as officers of the Company and delegate to such officers such powers, authority and responsibilities as are (i) set forth in the designation or delegation, and (ii) necessary to carry out and implement the management decisions of the Member. The Member may remove any officer, with or without cause, at any time. Any officer may resign at any time by giving written notice to the Company. Any resignation shall take effect as of the date of the Company’s receipt of such notice or at any later time specified in such notice (unless such officer is otherwise removed prior to such date); and unless otherwise specified in such notice, the acceptance of the resignation shall not be necessary to make it effective. Unless the Member decides otherwise, if the title to an officer of the Company is one commonly used for officers of a business corporation, the assignment of such title shall constitute the delegation to such individual of the authority and duties that are normally associated with that office. The current officers of the Company are as set forth on Schedule A attached hereto, as may be amended from time to time.

4.5 Liability of Member and Officers. Neither the Member nor any officer, agent or representative of the Member, or officer of the Company, shall be liable to the Company or to the Members, as applicable, for (i) the performance of, or the failure to perform, any act or duty on behalf of the Company if, in good faith, the Members or officer determined that such conduct was in the best interests of the Company and such conduct did not constitute fraud, gross negligence or reckless or intentional misconduct, (ii) the termination of the Company and this Agreement pursuant to the terms hereof, and (iii) the performance of, or the failure to perform, any act on behalf of the Company in good faith reliance on advice of legal counsel, accountants or other professional advisors to the Company.
4.6 **Indemnification.** The Company shall indemnify, defend and hold the Member and the officers, agents and representatives of the Member, and each officer of the Company and, in the discretion of the Member, each employee of the Company, harmless from and against any expense, loss, damage or liability incurred or connected with, or any claim, suit, demand, loss, judgment, liability, cost or expense (including reasonable attorneys’ fees) arising from or related to, the Company or any act or omission of such Member (or officer, agent or representative of the Member) or officer (or employee) and amounts paid in settlement of any of the foregoing, to the fullest extent provided or allowed by the laws of the State of Michigan. The Company may advance to any such Person the costs of defending any claim, suit or action against such Person.

4.7 **Title to Company Property.** All real and personal property shall be acquired in the name of the Company and title to any property so acquired shall vest in the Company itself rather than in the Member.

**ARTICLE V**

**ACCOUNTING AND TAX MATTERS**

5.1 **Accounting Principles.** The Company’s financial statements shall be prepared and its profits and losses shall be determined in accordance with methods of accounting selected by the Member, which need not be the same as the method of accounting used for tax purposes.

5.2 **Returns and Other Elections.** The Member shall cause the preparation and timely filing of all tax returns required to be filed by the Company pursuant to the Code and all other tax returns deemed necessary and required in each jurisdiction in which the Company does business. All elections permitted to be made by the Company under federal or state laws shall be made by the Member in its sole discretion. So long as the Company has only one member, the Company shall be treated as a disregarded entity for income tax purposes.

**ARTICLE VI**

**TRANSFERS; ADDITIONAL MEMBERS**

6.1 **Transferability of Membership Interest.** The Member’s Interest in the Company is freely transferable or assignable, in whole or in part, either voluntarily or by operation of law.

6.2 **Admission of Additional Members.** Additional members of the Company may be admitted to the Company at the direction of the Member only if a new operating agreement or an amendment and restatement of this Agreement is executed by such additional member or members.
ARTICLE VII
DISSOLUTION AND LIQUIDATION

7.1 Dissolution.

(a) The Company shall be dissolved and its affairs wound up and terminated only upon the determination of the Member. The dissolution or bankruptcy of the Member or the occurrence of any other event that terminates the continued membership of the Member shall not cause a dissolution of the Company.

(b) Dissolution of the Company shall be effective on the day on which an event described in Section 7.1(a) above occurs, but the Company shall not terminate until articles of dissolution shall be filed with the Department of State of the State of Michigan and the assets of the Company are distributed as provided in Section 7.2 below. Notwithstanding the dissolution of the Company, prior to the termination of the Company, the business of the Company and the affairs of the Member shall continue to be governed by this Agreement.

7.2 Winding Up. Upon dissolution, the Company shall continue until the winding up of the affairs of the Company is completed and a certificate of dissolution has been filed pursuant to the Act. Upon the winding up of the Company, the Company’s property shall be distributed (a) first to creditors, including the Member if the Member is a creditor, to the extent permitted by law, in satisfaction of the Company’s liabilities, and (b) then to the Member. Distributions shall be in cash or property or partly in both, as determined by the Member.

ARTICLE VIII
MISCELLANEOUS PROVISIONS

8.1 Notices. Any notice, demand or communication required or permitted to be given by any provision of this Agreement shall be in writing and shall be deemed to have been delivered (a) two business days after being sent by registered or certified United States mail, or (b) upon delivery if hand delivered, sent via facsimile transmission or electronic mail. If delivered to the Member, such notice shall be delivered to his address as it appears in Section 4.1 above. If to the Company, such notice shall be delivered to its principal place of business.

8.2 Governing Law. This Agreement, and the application and interpretation hereof, shall be subject to and governed exclusively by its terms and by the laws of the State of Michigan, without regard to its conflicts of laws provisions.

8.3 Construction. Whenever the singular number is used in this Agreement and when required by the context, the same shall include the plural and vice versa, and the masculine gender shall include the feminine and neuter genders and vice versa. Unless expressly stated otherwise, Section and Article references herein shall refer to the Sections and Articles of this Agreement.

8.4 Waivers. No waiver by any party of the breach of any provision hereof shall be deemed to constitute a waiver of any continuing or subsequent breach of such provision or any other provision hereof.
8.5 **Severability.** If any provision of this Agreement or the application thereof to any Person or circumstance shall be invalid, illegal or unenforceable to any extent, the remainder of this Agreement and the application thereof shall not be affected and shall be enforceable to the fullest extent permitted by law, provided that the essential purpose of this Agreement is not frustrated.

8.6 **Heirs, Successors and Assigns.** The covenants, terms, provisions and agreements herein contained shall be binding upon, and inure to the benefit of, the parties hereto and, except as otherwise provided to the contrary, their respective heirs, executors, administrators, legal representatives, successors and permitted assigns.

8.7 **Entire Agreement.** This Agreement embodies the entire agreement and understanding between the parties hereto with respect to the subject matter hereof and supersedes all prior agreements and understandings relating to such subject matter.

[SIGNATURES APPEAR ON FOLLOWING PAGE]
IN WITNESS WHEREOF, the parties hereto have caused this Agreement to be signed as of the Effective Date.

STAFFING PLAN

Summary of Job Creation, Compensation and Budget

As discussed in detail below, we anticipate creating approximately 59 jobs at our Orion Township Cultivation Facility.

<table>
<thead>
<tr>
<th>Type of Marijuana Facility</th>
<th>Proposed Location</th>
<th>Total Jobs Per Facility</th>
<th>Expected Annual Payroll</th>
</tr>
</thead>
<tbody>
<tr>
<td>Cultivation Facility</td>
<td>Orion Township</td>
<td>59</td>
<td>$3,750,000.00</td>
</tr>
</tbody>
</table>

We pay our cultivation facility employees a minimum hourly wage of $15. We also provide a generous benefit package that includes the following:

- Health Insurance
- Paid Holidays
- Paid Time Off
- 401K Plan with 2% Match
- Performance Incentives

Out of our 3.75MM expected annual payroll, Tycoon I Operations expects to allocate $630,000 toward benefits for all full-time employees!

We intend to source our employees first from Orion Township, then into the surrounding regional area. Our job listings will always be listed in the Orion Township area first to accumulate as many qualified candidates as possible.

Attached is a table of the proposed positions at our Orion Cultivation Facility:

CHARTER TOWNSHIP OF ORION
ORDINANCE No. 154 APPLICATION REVIEW

Planning Commission Case: PC-2021-34
Parcel Number: 09-35-477-001 & 09-35-477-002
Property Address: 180 Premier Drive
Applicant: Tycoon I Operations LLC
Request: Class “C” Grower - Medical
Date: February 12, 2021

The aforementioned application was reviewed for compliance with the location requirements of Article VI of Ordinance No. 154 and the finds are detailed below:

Article V, 1. – The Facility must be located in the Township’s IP (Industrial Park) district: The parcels are zoned IP (Industrial Park) as required.

Article V, 2 – The Facility cannot be within one thousand five hundred (1,500) feet of a “church” in the Township: Article VI, 7 states that the distances specified in the Ordinance shall be measured from building edge to building edge. The applicant stated within their application that the facility is more than the required 1,500 feet. Using GIS, a measurement was taken from the edge of the property where the building is located (for simplicity vs. from edge of building which is further) to the edge of the closest church and it was over 1,600 feet.

Article VI, 3 – The Facility cannot be within two thousand (2,000) feet of a residence located in a R-1, R-2, R-3, SF, SE, SR, RM or MHP zoning district: Article VI, 7 states that the distances specified in the Ordinance shall be measured from building edge to building edge. The applicant stated within their application that the facility is more than the required 2,000 feet. Using GIS, a measurement was taken from the edge of the property where the building is located (for simplicity vs. from edge of building which is further) to the edge of the closest residential property line (for simplicity) and it was 2,500 feet.

Article VI, 4 – The Facility cannot be within two thousand five hundred (2,500) feet of a registered “school” within the Township: Article VI, 7 states that the distances specified in the Ordinance shall be measured from building edge to building edge. The applicant stated within their application that the facility is more than the required 2,500 feet. The closest school is over 2 miles from the parcel. (Scripps and Stadium Rds.)
Article VI, 5 – The Facility shall not have an ingress or egress on a street or road that has an average traffic volume in excess of six thousand (6,000) vehicles per day, as calculated by averaging the three (3) most recent Average Annual Daily Traffic (AADT) counts (as available), as reported by Southeast Michigan Council of Governments (SEMCOG). The building has ingress and egress off of Premier Drive. SEMCOG’s website does not contain any traffic count reports for Premier Dr.

Article VI, 6 - The Facility shall not have an ingress or egress on a street or road that directly also serves as an ingress or egress to a residential road or property located in a R-1, R-2, R-3, SF, SE, SR, RM or MHP zoning district. The building has both ingress or egress off of Premier Dr. Premier Dr. does not serve as an ingress and/or egress to any property located in a R-1, R-2, R-3, SF, SE, SR, RM or MHP zoning district.

Article VI, 7 - Distances specified in this Ordinance shall be measured from building edge to building edge. The measurements, unless noted differently, were measured from building edge to proposed building edge.

Article VI, 8 – If the Facility shall need a variance from what is set forth in Article VI Sections one (1) through six (6) above, the Applicant may submit a formal request for a variance to the Zoning Board of Appeals (“ZBA”). The ZBA shall only consider a variance request that is no more than fifteen percent (15%) out of compliance with the above location regulations. The applicant is not requesting any variances from the ZBA.

Article VI, 9 – It is the Township’s intention that Growers, Processors, Safety Compliance Facilities and Secured Transporters may operate within the same building under the following conditions: each licensed entity remains distinct and separate within different working area and separate record keeping systems. The applicant is requesting a Class “C” Grow - Medical facility only.

Article VI, 10 – The location shall meet all applicable Ordinances and promulgated standards of the Township and, prior to opening, shall demonstrate to the Township that it meets the rules and regulations promulgated by the State Marijuana Regulatory Agency (MRA):

ITEMS TO BE ADDRESSED: These items are unknown at this time. It is recommended that any approval be conditioned upon this requirement.

Article VI, 11 – The Facility location shall conform to all standards of the zoning district in which it is located: This condition has been met. The building itself has received site plan approval.

2532
Article VI, 12 – If the Facility location is currently vacant land, the applicant must submit a site plan and building plans with the Application: The application is for an improved parcel that has received site plan approval.

Article VI, 14 – Based upon an application for or amendment of a Conditional Rezoning, PUD, or other use Development Agreement of sufficient specificity, it is within the sole discretion and judgment of the Township Board of Trustees to consider and waive any or all of the Location Requirements of this Article VI based upon any or all of 3 factors listed in Article VI 14 a,b, and c.: The applicant is not requesting any waivers.

Summary: I have reviewed the application as it relates to Ordinance No. 154 Article VI – Location Requirements. I am agreeable with the recommendation to approve this application with the conditions that:

1. The applicant meets all other applicable Township Ordinances and promulgated standards of the Township and, prior to opening, shall demonstrate to the Township that it meets the rules and regulations promulgated by the State Mariujana Regulatory Agency (MRA).

Re: Marihuana Facility Permit Application; Tycoon I Operations, LLC  
180 Premier Drive, Orion Charter Township, MI 48359  
Medical Class C Grow 3 of 4

Dear Madam Clerk:

Please find attached a Marihuana Facility Permit Application and all exhibits for four Medical Class C Grow permits to operate at 180 Premier Drive, Orion Charter Township, MI 48359. This application represents three of four of the medical permits.

If the Township believes any additional information or materials are required for this filing, please do not hesitate to contact us. Kindly direct all communications regarding this application to Aaron Fogleman either by phone at 248.920.8770 or by email at licensing@gloriuscanna.com.

We look forward to contributing significantly to the Township through economic development, training and employment, education and outreach, and to becoming a valuable community partner.

Thank you for your consideration.
Pursuant to the Charter Township of Orion Ordinance 154, Licensed Marihuana Facilities Ordinance, the following application is intended to collect information and documentation establishing the applicant’s conformance with the ordinance. All applicants should note that the approval of a Marihuana Permit will be based upon the accuracy and completeness of the information provided. In the event applications are received in excess of the permitted number of locations within the Ordinance or two or more applicants have similar qualifications, the Charter Township of Orion reserves its right to approve a permit which in the opinion of the Township bes: meets its goals and safeguards as set forth in the Ordinance. No financial or other right is established by the payment of the non-refundable application fee. All applications for renewal of a permit shall be reviewed per the standards set forth in the Ordinance. The Charter Township of Orion reserves the right to approve or deny the permit based upon the failure of any applicant to establish to the satisfaction of the Township any requirement, standard or goal of the Ordinance. The applicant understands this determination may involve a subjective interpretation of the application. Any permit granted by the Township is contingent upon the State of Michigan granting a state license for the specific license applied for under this ordinance.

SECTION A- APPLICANT

1. Name of Applicant: Tycoon I Operations, LLC  
   Authorized Signer (of not an individual): Daryl Heller  
   Address of Applicant: 2055 Crooks Rd, Suite B  
   Rochester Hills, MI 48309

5. If the Applicant or owner or any operator is a licensed caregiver under the Michigan Medical Marihuana Act, please list their name and address, and caregiver ID number issued by the State of Michigan. N/A

6. For any corporation or other legal entity who has a financial interest or affiliation with the requested permit, please state the following:

Name: Please see Organization Structure in Exhibit I
Name of Authorized Signer: __________________________
Address: __________________________
Interest or Affiliation: __________________________

**SECTION B - FACILITY LOCATION**

7. Name of proposed facility: Oakland Business Park, Building B

8. Location of proposed facility: 180 Premier Drive

Orion Charter Township, MI 48359
9. Please provide a preliminary floor plan sketch showing the location of all facility
operations within an existing building, or for new construction a site plan for the
parcel. Attach as Exhibit "A"
☑ Document(s) attached. If not attached, why not and when is applicant expected to
supplement: __________________________

10. With respect to the location of the facility, please state with specificity the exact location,
address, suite number and, if necessary, the location of the facility within a building or the
parcel of land. This location should include the distance in feet from each property line.
Attach as Exhibit "B"
☑ Document(s) attached.
If not attached, why not and when is applicant expected to supplement: ____________

11. Please provide evidence of the Applicant's property interest in the proposed location.
Provide copies of documentation showing a legal and enforceable property interest.
Attach as Exhibit "C".
☑ Document(s) attached.
If not attached, why not and when is applicant expected to supplement: ____________

12. Please confirm and establish that the facility is located within the Township’s Industrial
Park district ("IP"); is not within 1,500 feet of a church; is not within 2,000 feet of a
residence located in the R-1, R-2, R-3, SF, SE, SR, RM or MHP Zoning Districts; is not
within 2500 feet of a registered school and does not have ingress or egress on a street or
road that has an average traffic volume in excess of 6,000 vehicles per day as calculated
and reported by Southeast Michigan Counsel of Governments. Further, please show that
the facility does not have an ingress or egress on a street or road that serves as an ingress
or egress to a residential road or property located in a R-1, R-2, R-3, SF, SE, SR, RM or
MHP Zoning District. For each of the above criteria, please attach any and all documents
which will permit the Township to calculate compliance with the Licensed Marihuana
Facilities Ordinance No. 154. At a minimum, provide a map showing the facility and
measured distances (building edge to building edge).
Attach as Exhibit "D".
☑ Documents attached.
If not attached, why not and when is applicant expected to supplement: ____________

a) Is the Facility located in the Township’s IP (Industrial Park District) zoning district?

☑ Yes     ☐ No
b) Is the Facility more than one thousand five hundred (1,500) feet of any church in the Township?

☑ Yes □ No

c) Is the Facility more than two thousand (2,000) feet of any residence located in an R-1, R-2, R-3, SF, SE, SR, RM, or MHP zoning district?

☑ Yes □ No

d) Is the Facility more than two thousand five hundred (2,500) feet of any registered school within the Township.

☑ Yes □ No

For 10-12 above, please provide a map showing the facility and measured distances (building Edge to building edge.)

e) Does the facility have an ingress or egress on a street or road that has an average traffic volume of six thousand (6,000) or less vehicles per day, as calculated by averaging the three (3) most recent Average Annual Daily Traffic (AADT) counts (as available), as reported by the Southeast Michigan Council of Governments (SEMCOG) per the site semcog.org/Traffic-Counts?

☑ Yes □ No

f) Does the Facility have an ingress or egress on a street or road that does not also serve as an ingress or egress to a residential road or property located in a TR-1, R-2, R-3, SF, SE, SR, RM, or MHP zoning district?

☑ Yes □ No

Name of Facility ingress/egress Street or road: Premier Drive

13. Please state whether the Applicant will seek a variance from the Zoning Board of Appeals pursuant to Article 6(8) of the Orion Licensed Marihuana Facilities Ordinance No. 154.

☑ Yes □ No

If variance will be sought, specify location category(s) pursuant to Art 6 (1)- (6):
For each category variance sought, state the percentage the applicant will seek:_______%  
(Not to exceed 15%)  

SECTION C- FACILITY REQUIREMENTS  

14. When available, submit to the Township a copy of the Applicant’s application for a  
license submitted to the State of Michigan, Department of Licensing and Regulatory  
Affairs, for each facility permit requested.  
Attach as Exhibit “E”.  
☐ Document(s) attached.  
If not attached, why not and when is applicant expected to supplement: ______________________.  
Phase 2 application with the state of Michigan requires a permit and signed attestation from the municipality.  
We expect to submit our application with the state by 03/01/2021.  

15. Is consumption and/or use of marihuana prohibited at the Facility?  
☐ ☐ Yes ☐ No  

16. Will all activity related to the Facility be done indoors?  
☐ ☐ Yes ☐ No  

17. Will all Marihuana contained within the building be in a locked Facility in accordance  
with the Michigan Medical Marihuana Act, MCL 333.26421 et seq., as amended  
(“MMMA”), the Michigan Medical Marihuana Facilities Licensing Act, MCL  
333.27101, et seq., and the Michigan Regulation and Taxation of Marihuana Act, MCL  
333.27951, et seq., as amended (“MRTMA”) as amended?  
☐ ☐ Yes ☐ No  

18. Please set forth an operations statement, plan and or outline showing that all facility  
activities shall occur indoors and in a building which is locked.  
Attach as Exhibit “F”  
☐ Document(s) attached.  
If not attached, why not and when is applicant expected to supplement: ________________________  

19. Will all necessary building, electrical, plumbing and mechanical permits obtained for any  
portion of the structure in which electrical wiring, lighting and/or watering devices are  
located?  
☐ Yes ☐ No  

2539
20. When available and prior to the issuance of any permit, the Applicant must submit all necessary building, electrical, plumbing and mechanical permits, as well as documented approval by the Orion Fire department showing compliance with the Michigan Fire Protection Code and confirmation that the storage of any chemical, herbicide, pesticide and or fertilizer has also been approved by the Orion Fire Department.
Attach as Exhibit “G”.
☑ Document(s) attached.
If not attached, why not and when is applicant expected to supplement: ________________

21. In any portion of the structure where the storage of any chemicals such as herbicides, pesticides, and/or fertilizers, do you agree to be subject to inspection and approval by the Orion Fire Department to ensure compliance with the Michigan Fire protection Code?

☑ Yes    ☐ No

22. Will you ensure that no other uses, other than accessory uses, will be permitted within the same Facility other than those associated with cultivating, processing, transporting or testing marihuana?

☑ Yes    ☐ No

23. Please state and/or provide documentation showing the plan that all litter and waste will be properly and safely removed and will not constitute a source of contamination in areas where marihuana is exposed. Further, please include how the applicant will dispose of rubbish so as to minimize the development of odor and minimize the potential for development of waste odor and waste from becoming an attracted, harborage or breeding place for pests. Please include a detailed description of the ventilation system. Attach as Exhibit “H.”
☑ Document(s) attached.
If not attached, why not and when is applicant expected to supplement: ________________

a) Will litter and waste be properly removed and the operating systems for waste disposal maintained in an adequate manner so that they do not constitute a source of contamination in areas where marihuana is exposed?

☒ Yes    ☐ No

b) Will floors, walls and ceilings be constructed in such a manner that they may be adequately cleaned and kept clean and in good repair?

☒ Yes    ☐ No
c) Will there be there adequate screening or other protection against entry of pests, and will rubbish be disposed of so as to minimize the development of odor, minimize the potential for development of waste odor, and minimize the potential for waste becoming an attractant harborage or breeding places for pests?

☐ Yes  ☐ No

d) Will all buildings, fixtures and other facilities be maintained in a sanitary condition?

☐ Yes  ☐ No

e) Will each Facility center provide its occupants with adequate and readily accessible toilet facilities that will be/are maintained in a sanitary condition and in good repair?

☐ Yes  ☐ No

24. Please state how the Applicant intends to avoid excessive noise, dust, vibrations, glare, fumes or odors detectable to the normal senses beyond the boundaries of the property. Attach as Exhibit “I”.

☑ Document(s) attached.

If not attached, why not and when is applicant expected to supplement: __________________________

______________________________
a) Will each Facility be operated in a manner that does not create excessive noise, dust, vibrations, glare, fumes or odors detectable to the normal senses beyond the boundaries of the property on which that Marihuana Facility will operate/operates or in violation of any other ordinance?

☑ Yes  ☐ No

25. Please provide the plan and supporting documentation showing that all disposal systems for spent water and spent soil have been adequately and safely disposed of and accounted for.

Attach as Exhibit “J”.

☑ Document(s) attached.

If not attached, why not and when is applicant expected to supplement: __________________________

______________________________

26. Please provide a security and safety plan, and at a minimum showing the facilities surveillance systems and continuous monitoring systems of the entire premise as required by the ordinance.

Attach as Exhibit “K”.

☑ Document(s) attached.

If not attached, why not and when is applicant expected to supplement: __________________________

2541
a) Will the Facility continuously monitor the entire premises with surveillance systems that include security cameras operating 24 hours a day, 7 days a week, every day of the year, and will these recordings be maintained for a period of at least 30 days?

☐ Yes ☐ No

27. Please state and/or show the exterior signage or advertising identifying the facility.
   Attach as Exhibit “L”.
   □ Document(s) attached.
   If not attached, why not and when is applicant expected to supplement: _______________________________
   The facility will only show the numbers associated with its address

a) Do you understand and agree that any exterior signage or advertising identifying the Facility as a marihuana facility is prohibited?

☐ Yes ☐ No

SECTION D- BUSINESS OPERATIONS AND SECURITY

28. Active business operations shall not be open outside of the hours of 7am and 9pm.

SECTION F. BACKGROUND

31. Have you previously operated in this Township or any other County, City, or State under a Medical or adult use Marijuana/Marihuana License or Permit?

☐ Yes      □ No

32. Have any of the previously issued licenses or permits mentioned above been revoked or suspended?

□ Yes      ☑ No

If yes, provide an explanation for the revocation/suspension below.

__________________________________________________________________________
__________________________________________________________________________

33. Is the Applicant or Authorized Signer currently licensed by any governmental agency to engage in any business?

☑ Yes      □ No

34. If yes to questions 31, 32, or 33, please list each such license or permit held, the city or state in which it is held, and expiration date thereof.

State of Michigan license to operate marihuana cultivation facilities.
__________________________________________________________________________
__________________________________________________________________________
__________________________________________________________________________

35. Has the Applicant or any stakeholder been convicted or incarcerated for a felony within the past ten (10) years or ever been convicted of an illegal substance related felony?

□ Yes      ☑ No

If yes, list the associated criminal case number(s), the statute(s) violated, the date(s) of conviction, the date(s) of imposition of probation and/or parole, and the name and address of the sentencing court.

__________________________________________________________________________
__________________________________________________________________________
__________________________________________________________________________
I HEREBY CERTIFY UNDER OATH AND PENALTY OF PERJURY THAT ALL THE INFORMATION CONTAINED IN THIS APPLICATION IS COMPLETE, TRUE AND ACCURATE. I UNDERSTAND THAT ANY OMISSIONS OR INACCURATE INFORMATION OF THE APPLICANT, MY AGENTS OR EMPLOYEES WILL DISQUALIFY MY APPLICATION FROM CONSIDERATION.

2. I affirm that I
   a. That I am at least 21 years of age.
   b. Have never been indicted or charged with or arrested for, convicted of, plead
      guilty, or nolo contendere to a felony or to a controlled substance related
      misdemeanor.

3. I have not previously had a business license permit or registration denied or revoked or
   suspended by Orion Township.

Dated: 02/09/2021

Print name: Daryl Heller
A. & B. Facility Floor Plan
C. Lease Agreement
COMMERCIAL LEASE

This lease (the Lease), is entered into on November 1, 2020, between Premier Drive Tycoon I, LLC, with an address at 1615 S Telegraph Rd, Bloomfield Hills, MI (Landlord), and Tycoon I Operations, LLC (Tenant) on the terms and conditions listed below.

1. Description of the Premises. Landlord owns the real property, improvements and any and all structures thereon located at 180 Premier Drive, Orion Township, MI 48359 ("Premises"), consisting of approx. 72,000 square feet. Tenant shall have the right to use the Premises to conduct its daily business operations and for any ancillary or related purposes including the operation of a marihuana business.

2. Basic Lease provisions. The basic Lease provisions are stated below and further explained in the section referenced to the right of each provision:

(a) Term: 10 years (See §3)
(b) Commencement Date: February 1, 2021 (See §3)
(c) Termination date: October 31, 2030 (See §3)
(d) Options: 1 option to renew for additional 10 years (See §3)
(e) Monthly installment amount: $75,000 or $12.50; per square foot; (See §4)
(f) Security deposit: $75,000.00 (See §5)
(g) Use: Tenant’s desired business operation (See §10)

3. Term. This Lease shall be for a term stated in section 2(a) commencing on the date stated in section 2(b) (the Commencement Date) and terminating on the date stated in section 2(c). The rent for the first month shall be prorated from date of occupancy, if the date of occupancy is after the first day of the month. Each succeeding lease year shall begin on the anniversary of the same date and continue until the termination of the Lease.

Provided that Tenant is not in default under this Lease at the end of the then current Lease term, Tenant shall have the right to renew the term of this Lease for the option period stated in section 2(d) by giving Landlord written notice of Tenant’s intent to renew the Lease at least 120 days before the expiration of the then current term. The renewal shall be on the same terms and conditions as in this Lease, except that the minimum rent for each renewal term shall be increased by a percentage equal to the percentage increase in the Consumers Price Index (Bureau of Labor Statistics Washington, D.C., all Cities) (CPI) during the preceding term. The percentage increase shall be determined by comparing the latest available CPI before the Commencement Date of the Lease or the prior term, whichever shall apply, and the latest available CPI on or before the expiration of the immediately preceding initial or renewal lease term. The word “term” as used in this Lease shall include any renewal term.

4. Minimum rent. Tenant shall pay to Landlord as rent the sum stated in section 2(e), payable in monthly installments due in advance, on the first day of each month during the term of this Lease. All rent shall be paid to Landlord at the address set forth above or at such other address as Landlord may designate in writing, without any prior demand and without any deduction or offset.

If Tenant shall fail to pay any amount due from it to Landlord under this Lease when that amount shall be due, a one-time late charge of $50.00 shall be assessed and thereafter the amount of rent not paid shall be subject to a service charge until that amount is paid at the lesser of the rate of 5% per month or the highest rate permitted by law.

1

2553
5. **Security deposit.** Tenant, contemporaneously with the execution of this Lease, has deposited with Landlord the sum stated in section 2(f) as a security deposit. The deposit shall be held by Landlord, without liability for interest, as security for the faithful performance by Tenant of all the terms, covenants, and conditions of this Lease to be kept and performed by Tenant during the term of this Lease.

If Tenant fails to keep and perform any of its covenants of this Lease, Landlord at its option may appropriate and apply the entire deposit, or so much as may be necessary, to compensate Landlord for loss or damage sustained by Landlord due to Tenant's breach. If the entire deposit or any portion is appropriated and applied by Landlord for the payment of overdue rent or other sums due and payable to Landlord by Tenant, Tenant shall, on the written demand of Landlord, forthwith remit to Landlord a sufficient amount in cash to restore the security to the original sum deposited. Tenant's failure to do so within 5 days after receipt of demand shall constitute a breach of this Lease.

6. **Taxes.** Tenant shall pay or cause to be paid all real property taxes and special assessments levied against the Building including the Premises. Tenant shall pay all personal property taxes assessed against any personal property owned by Tenant on the Premises.

7. **Maintenance and repair.** Tenant shall maintain and repair and keep the Premises in good condition and repair, including the exterior windows and the electrical system. Landlord shall, at tenants expense, make all other repairs and replacements to the Building, including those of a structural or capital nature. Landlord shall, at tenants expense, enter into an annual maintenance contract with a licensed heating and mechanical firm for the maintenance of the heating and air conditioning equipment during the term.

Landlord shall be obligated to make repairs only after Tenant has given Landlord written notice of the need for the repair, and only if the repair was not caused by the negligence or willful act of Tenant, its agents, employees, invitees, or licensees.

Tenant shall provide and pay for its own regular janitorial service to maintain the Premises in a neat and clean condition. Tenant shall be responsible for all repairs or replacements to the Building occasioned by the negligence or willful act of Tenant, its agents, employees, invitees, or licensees.

8. **Utilities.** Tenant shall have all utilities servicing the Premises metered in its own name and shall pay all charges and deposits for the utilities provided to or used in the Premises during the term of this Lease. Tenant shall also pay 100% of the water and sewer bill. Landlord shall not be liable in damages should the furnishing of any utilities be interrupted by fire or other casualty, accident, strike, labor dispute or disagreement, the making of any necessary repairs or improvements, or any other causes beyond the reasonable control of Landlord.

9. **Liability insurance.** Tenant shall indemnify Landlord and save Landlord harmless from any liability or claim for damages that may be asserted against Landlord by reason of any accident or casualty occurring on or about the Premises. Tenant shall, at its own cost and expense, obtain and keep in force a policy or policies of public liability insurance with an insurance company approved by Landlord, with liability coverage of an amount as recommended by Landlord's insurance agent that, for the initial coverage, shall be not less than $1 million for injury or death to any one person, $3 million for injury or death to more than one person, and $500,000 regarding damage to property. Tenant shall furnish Landlord with certificates or other evidence acceptable to Landlord indicating that the insurance is in effect and providing that Landlord shall be notified in writing at least 30 days before cancellation of any material change in or renewal of the policy. All insurance policies shall name Landlord and any persons designated by Landlord as insured parties.

Any insurance maintained by either party pursuant to this section or under this Lease shall contain a
clause or endorsement under which the insurer waives all rights of subrogation against the other party, its agents or employees, regarding losses payable under the policy.

Any personal property kept on the Premises by Tenant shall be at Tenant’s sole risk.

10. **Use.** Tenant shall use and occupy the Premises for the purpose stated in section 2(g) and for no other purpose without the prior written consent of Landlord. Tenant shall not intentionally and knowingly use the Premises for any purpose or in any manner in violation of any State law, local ordinance, rule or regulation adopted or imposed by the City in which the Premises is situated. Tenant shall not deface or injure the Premises or the Building, permit anything to be done on the Premises tending to create a nuisance or to disturb other tenants in the Building, or permit any activity in the Premises that will result in an increase of any premium, or cancellation of a policy, for insurance on the Premises or the Building.

11. **Construction of leasehold improvements.** Landlord grants Tenant express consent to construct certain leasehold improvements as may be required for Tenant’s use. The cost of Tenant’s leasehold improvements shall be paid for by Tenant. The improvements shall be constructed in a good and workmanlike manner.

12. **Operations.** Tenant’s operations in conjunction with the Premises shall meet the requirements set forth below.

   a. Tenant shall keep all garbage and refuse in the kind of container specified by Landlord. If Landlord shall provide or designate a service for picking up refuse and garbage, Tenant shall use the same at Tenant’s cost. Tenant shall pay the cost of removal of any of Tenant’s refuse or rubbish.

   b. Tenant shall keep the Premises at a temperature sufficiently high to prevent freezing of water in any pipes and fixtures.

   c. Tenant shall keep the outside areas immediately adjoining the Premises clean and free from dirt and rubbish to the satisfaction of Landlord, and Tenant shall not place or permit any obstructions or merchandise in those areas. Tenant shall water and maintain any flowers, shrubs, and trees located immediately adjoining the Premises.

   d. Tenant shall only store and/or stock in the Premises goods, wares, and merchandise that Tenant intends to offer for sale at retail.

   e. Tenant shall conduct its business in the Premises in a dignified manner and in accordance with high standards of store operation.

13. **Restrictions on Tenant’s activities.** Without Landlord’s written consent, Tenant shall not engage in the activities listed below.

   a. Tenant shall not operate all or any part of its business in the Premises in any manner that is inconsistent with its intended use of the Premises.

   b. Tenant shall not conduct any auction, fire, going-out-of-business, or bankruptcy sales in the Premises.

   c. Tenant shall not operate or permit to be operated on the Premises any coin or token operated vending machines or similar devices for the sale of goods, wares, merchandise, food, beverages, or service,
including, without limitation, pay telephones, pay lockers, scale, and amusement devices without Landlord's prior written consent.

d. Tenant and Tenant's employees and agents shall not solicit business in the parking or other common areas of the Building, nor shall Tenant or its employees or agents distribute any handbills or other advertising matter in or on automobiles parked in the parking area or in other common areas without Landlord's prior written consent.

e. Tenant and its employees and agents shall not park any vehicle on the Building land except in areas that are designated by Landlord for that use.

14. Assignment and subletting. Tenant agrees not to sell, assign, mortgage, pledge, or in any manner transfer this Lease or sublet the Premises or any portion of the Premises without the prior written consent of Landlord. Notwithstanding any assignment or subletting, Tenant shall remain fully liable on this Lease. Landlord's right to assign this Lease is and shall remain unqualified. On any transfer of Landlord's interest in the Premises in which the purchaser assumes all obligations under this Lease, Landlord shall be free of all obligations of Landlord under this Lease and shall not be subject to any liability resulting from any act or omission or event occurring after the conveyance. Tenant agrees to recognize the transferee as Landlord, and Tenant further agrees, at Landlord's request, to execute and deliver such documents and estoppel letters as Landlord may request to assist in that transfer.

15. Estoppel letter. On not less than 10 days' prior written notice from Landlord, Tenant shall sign and deliver to Landlord an estoppel letter that

a. certifies that this Lease is unmodified and in full force and effect (or, if modified, states the nature of the modification and certifies that this Lease, as so modified, is in full force and effect);

b. acknowledges that there are not, to Tenant's knowledge, any uncured defaults on the part of Landlord or specifying the default if any are claimed;

c. certifies the date to which all forms of rent have been paid; and

d. certifies the amount, if any, of the security deposit paid to Landlord.

Tenant's failure to deliver such an estoppel letter within the 10 days shall be conclusive on Tenant that

a. this Lease is in full force and effect, without modification except as may be represented by Landlord;

b. there are no uncured defaults in Landlord's performance;

c. not more than one month's rent has been paid in advance; and

d. no security deposit has been paid except as may be represented by Landlord.

16. Acceptance of Premises. The occupancy by Tenant of the Premises shall constitute an acknowledgment by Tenant that the Premises are then in the condition called for by this Lease.

17. Damage or destruction. If, during the term of this Lease, the Premises shall be partially or totally destroyed by fire or other casualty covered by insurance so as to become partially or totally untenantable,
the same shall be repaired as promptly as possible with the insurance proceeds unless this Lease is terminated. In the event of damage or destruction, if this Lease is not terminated, the rent shall be abated proportionately to the loss of use suffered by Tenant.

If, during the term of this Lease, the Premises shall be partially or totally destroyed by fire or other casualty, and the cost of restoring the Premises to its condition prior to the damage shall equal or exceed 40 percent of its fair replacement value immediately prior to the damage, or if the Premises are damaged by any casualty not insured against by Landlord, Landlord shall have the right to terminate this Lease by giving Tenant written notice of its election to do so within 15 days after the date on which the damage occurs. On the giving of notice, the Lease shall terminate as of the date on which damage occurred and the rent shall be adjusted to that date. In default of notice by Landlord, this Lease shall continue and Landlord shall cause the Premises to be repaired or restored with due diligence.

18. Condemnation. If the whole or any part of the Premises shall be taken by any public authority under the power of eminent domain, the term of this Lease shall cease on that part to be taken from the day the possession is acquired by the public authority and the rent shall be paid up to that date. If the portion of the Premises taken substantially impairs the usefulness of the Premises for the purpose for which the Premises were leased, Tenant shall have the right either to terminate this Lease or to continue in the possession of the remainder of the Premises under the terms and conditions of this Lease except that the rentals shall be reduced in proportion to the amount of the Premises taken, and in the latter event, Landlord shall promptly restore the remainder to a reasonably tenantable condition. All damages awarded for the taking shall belong to and be the property of Landlord.

19. Alterations and signage. No improvements, alterations, additions, or physical changes shall be made on the Premises by Tenant without the prior written consent of Landlord.

Tenant agrees that it will not place or maintain on any exterior door, wall, or window of the Premises any signs, awning or canopy, or advertising matter, or other thing of any kind and will not place or maintain any decoration, lettering, or advertising matter on the glass of any window or door of the Premises that is not in conformity with all applicable governmental rules and regulations and the rules and regulations of the Building as set forth by Landlord and further, without first obtaining Landlord's prior written approval. Tenant further agrees to maintain such sign, awning, canopy, decoration, lettering, advertising matter, or other thing as may be approved in good condition and repair at all times. Tenant further acknowledges that Landlord may, at its option, regulate the lettering size, style, and color of Tenant’s sign so that all signs in the Building are of a like size, color, style of lettering, and like material. Tenant agrees that it will conform its sign to that as regulated by Landlord for the general use in the Building, regardless of how and in what manner Tenant normally designs its name for use in its sign and further regardless of whether or not Tenant uses the form and style of its sign as a trademark.

All alterations and improvements, but not moveable equipment and trade fixtures, put in at the expense of Tenant shall be the property of Landlord and shall remain on and be surrendered with the Premises at the termination of the Lease; provided, however, that Landlord may require that Tenant remove the alterations and improvements and repair any damages to the Premises caused by the removal.

20. Remedies and default. If Tenant shall default in the payment of any sums to Landlord when due and shall not cure such default within 7 days; or if Tenant shall default in the performance of any other covenant or condition of the Lease and shall not cure such other default within 30 days after written notice from Landlord specifying the default; or if Tenant or its agent shall falsify any report to be furnished to Landlord pursuant to the terms of this Lease; or in case Tenant shall be adjudicated a bankrupt or make any assignment for the benefit of creditors; then, in any such event, Landlord may
either (a) accelerate the full balance of the rental payable for the remainder of the term and sue for such sums or Landlord may terminate this Lease or (b) reenter the Premises, without terminating this Lease, and dispossess Tenant or any other occupant of the Premises and remove Tenant’s effects and relet the same for the account of Tenant for such rent and on such terms as shall be satisfactory to Landlord, crediting the proceeds, first to the costs and expense of reentry, alterations and additions, and the expense of reletting, and then to the unpaid rent and the other amounts due during the remainder of the term. Tenant shall remain liable to Landlord for any unpaid balance.

In case suit shall be brought for recovery of possession of the Premises, for the recovery of any rent or any other amount due under the provisions of this Lease, or because of the breach of any other covenant on the part of Tenant to be kept or performed, and a breach shall be established, Tenant shall pay to Landlord all expenses incurred, including reasonable attorney fees, which shall be deemed to have been incurred on the commencement of the default and shall be enforceable whether or not the action is prosecuted to judgment.

21. Access to Premises. Landlord shall have the right to enter on the Premises at all reasonable hours to inspect and for access to the Premises to install, maintain, use, repair, and replace pipes, ducts, lights, conduits, plants, wires, floor coverings, and all other mechanical equipment serving the Premises.

22. Rules and regulations. Landlord reserves the right to adopt from time to time rules and regulations for the operation of the Building that are not inconsistent with the provisions of this Lease. Tenant and its agents, employees, invitees, and licensees shall comply with all those rules and regulations. Any such rules shall not dictate the days or time of business operation.

23. Waiver. The failure of Landlord to insist on a strict performance of any of the terms, covenants, or conditions of this Lease or rules and regulations of the Building shall not be deemed a waiver of any subsequent breach or default in the terms, covenants, and conditions or rules and regulations. This Lease may not be changed, modified, or discharged orally.

24. Notices. All notices required under this Lease shall be in writing and shall be deemed to have been given if either delivered personally or mailed by certified or registered mail to Landlord or to Tenant at their respective addresses set forth above or to such other address as either party may furnish in writing during the term of this Lease.

25. Quiet enjoyment. Landlord covenants and agrees with Tenant, its successors, and assigns that on Tenant’s paying the rent and observing and performing all the terms, covenants, and conditions on Tenant’s part to be performed and observed, Tenant may peaceably and quietly hold, have, occupy, possess, and enjoy the Premises for the full term of this Lease.

26. Subordination to mortgage. Any mortgage now or hereafter placed on the Premises shall be deemed to be prior in time and senior to the rights of Tenant under this Lease. Tenant subordinates all of its interest in the leasehold estate created by this Lease to the lien of any mortgage. Tenant shall, at Landlord’s request, execute any additional documents necessary to indicate this subordination including, if requested, an estoppel letter as set forth in section 15. If Tenant fails to supply the estoppel letter, the provisions in section 15 to cover that failure shall apply. Notwithstanding the foregoing, Tenant’s possession of the Premises under this Lease shall not be disturbed by any mortgagee, owner, or holder of note secured by a mortgage placed on the Premises, unless Tenant shall breach any of the provisions of this Lease and the lease term of Tenant’s right to possession shall have been lawfully terminated in accordance with the provisions of this Lease.
27. **Building revisions by Landlord.** Landlord reserves the absolute right at any time and from time to time to make changes or revisions in the Building, including such changes to the parking lot, driveways, signs, and sidewalks, by making additions to, subtractions from, or rearrangements of the improvements in the Building, as long as the revisions do not materially affect Tenant’s use of the Premises.

28. **Holding over.** If Tenant remains in possession of the Premises after the expiration or termination of the Lease, it shall be deemed to be occupying the Premises as a tenant from month to month, subject to all the conditions, provisions, and obligations of this Lease insofar as the same can be applicable to month-to-month tenancy, except that the rent shall increase to 2 times the rent owing at the end of the lease term. The month-to-month tenancy shall be cancelable by either party on 30 days’ written notice to the other.

29. **Recording.** Tenant shall not record this Lease without the written consent of Landlord; however, on the request of either party the other party shall join in the execution of a memorandum or so-called “short form” of this Lease for the purpose of recordation. The memorandum or short form of this Lease shall describe the parties, the Premises, and the term of this Lease and shall incorporate this Lease by reference.

30. **Captions and headings.** The captions and headings used in this Lease are intended only for convenience and are not to be used in construing this Lease.

31. **Applicable law.** This Lease shall be construed under the laws of the state of Michigan. Venue for any disputes under this agreement shall lie in **Oakland, Michigan.** If any provision of this Lease or the application to any person or circumstances shall, to any extent, be invalid or unenforceable, the remainder of this Lease shall not be affected and each provision of this Lease shall be valid and enforceable to the fullest extent permitted by law.

32. **Successors.** This Lease and the covenants and conditions shall inure to the benefit of and be binding on Landlord, its successors, and assigns and shall be binding on Tenant and permitted assigns of Tenant.

33. **Effective date.** The parties have caused this agreement to be signed and shall be effective as of the day and year first above written.

*(signature page to follow)*
IN WITNESS WHEREOF, the parties have respectively signed and sealed this Lease as of the day and year first above written.

F. Operations Plan
Tycoon I Operations, LLC

Business & Operations Plan

PREAMBLE:
Tycoon I Operations, LLC ("Applicant") will strictly comply at all times with applicable state law and local ordinance codes, including rules and emergency rules that may, from time to time, be promulgated by the state or Orion Township. All business activities will take place indoors in a locked facility. Applicant has retained a law firm with established expertise in Michigan marihuana law to ensure continuing education and compliance with the laws as they evolve. The statements made in this application are made with a clear and thorough understanding of state and local requirements as they exist on the date of application, but the operations of Applicant will be amended to comply with all future derivations of the state and municipal laws.

I. OVERVIEW
Applicant is a Michigan limited liability company formed to operate twenty four (24) commercial marihuana GROWER (Class C) facilities whose primary mission is to provide a source of high-quality marihuana to processors and provisioning centers across the state of Michigan.

II. ADMINISTRATION
A. Location & Zoning
   i. Buffers
      a. The distances described are measured horizontally between the nearest property lines.
      b. The facility is not within 1,000 feet of any educational institution or school, college or university, church, house of worship or other religious facility, licensed child care, preschool, public library, or public or private park.

   ii. Applicant is leasing the property pursuant to the attached lease and the owner/lessor of the property authorizes the use of the property as a marihuana facility in the lease agreement, which is attached.

B. Organizational Structure
   i. The Applicant is organized as a Michigan limited liability company and is in good standing.

   ii. The members, owners, directors, officers, and managers of the Applicant are listed in the Organization Structure.
iii. The members, owners, directors, officers, and managers of Applicant meet all eligibility requirements to own and operate a marihuana grower facility as set forth in state law and local ordinance.

   a. No member, owner, director, officer, manager or any person having an ownership interest in the application has an interest in a secure transport facility license or a safety compliance facility license.

   b. The Applicant meets all eligibility requirements to own and operate a marihuana grower facility as set forth in state law and local ordinance.

iv. The Applicant has never applied for been granted any commercial license or certificate issued by a licensing authority in Michigan or any other jurisdiction that has been denied, restricted, suspended, revoked or not renewed.

C. Permits & Licenses

   i. This Business and Operations Plan is submitted as an addendum to the applications for Ten Orion Township permits to operate a business and the Orion Township special use/site plan application.

   ii. All operations in this Business and Operations Plan will comply with regulations issued by the Department of Licensing and Regulatory Affairs (LARA).

   iii. Applicant intends to apply for, obtain, operate, and comply with a state license to operate a grower facility under the MMFLA and MRTMA.

   iv. The business will not open for operation until it receives a state license to operate under the MMFLA and MRTMA and all applicable permits and licenses from Orion Township.

   v. Upon granting of a permit to operate a grower facility, Applicant will prominently display the original Orion Township permit at the Permitted Premises in a location where it can be easily viewed by the public, law enforcement, and administrative authorities.

   vi. At all times the facility will hold a valid local Permit and State Commercial Marihuana Facility License for a Grower.

   vii. In addition to complying with the Orion Township Ordinance Authorizing and Permitting Commercial Marihuana Facilities, Applicant will comply with all Township Ordinances, including without limitation, the Township Zoning Ordinance, as well as the requirements of the County Road Commission, County.
Building Inspector, County Drain Commissioner, District Health Department, Soil Erosion Officer, County Conservation Service, areas fire departments, Michigan Department of Natural Resources, Michigan Department of Environmental Quality, and any other applicable township, county, state and federal statutes.

viii. Applicant will have available, at all times, documentation that local and State sales tax requirements, including any requirement for a license, are satisfied.

ix. Applicant will provide updated operational and security plans to Orion Township upon request and prior to any proposed changes in its operations.

D. Inspections

i. Applicant will provide access to the facility for inspection to any federal, state, or local law enforcement officer to ensure compliance with the permit.

ii. Applicant consents to inspections as required in the MMFLA and pursuant to the Orion Township ordinance.

III. OPERATIONS

Applicant proposes 24 state-licenses in a single marihuana grower facility for the cultivation, drying, trimming, curing, and packaging of marihuana for sale to a processor or provisioning center pursuant to the requirements and restrictions of the Marihuana Facilities Licensing Act, PA 281 of 2016, and all future derivations thereof. This facility will be located in a secure industrial facility.

A. Compliance with State Regulations

Applicant will meet all operating regulations established by LARA and the Marihuana Licensing Board for Growers, including without limitation, any standards, procedures, and requirements for:

i. quality control
   ii. chain of custody
   iii. marihuana storage
   iv. waste disposal
   v. labeling and packaging
   vi. storage of chemicals

B. Description of the Facility

Applicant’s facility will be used exclusively for the cultivation, drying, trimming, curing, and packaging of legal usable marihuana for sale to processors or provisioning centers.

C. Entry to Facility

Generally, the public will not be allowed entry to the facility. Notwithstanding the foregoing, Applicant will not allow entry to the facility to anyone under the age of 18.
D. Employees
Applicant anticipates having between fifteen (15) and (65) full and part-time employees, as many as possible of whom will be local community residents. None of Applicant’s employees will be registered primary caregivers during the employment with Applicant. Please reference the staffing plan for a detailed list of potential positions.

E. General Policies
i. Applicant will only sell or transfer marihuana to a processor or provisioning center.

ii. Applicant will only use secure transporters in the distribution or exchange of marihuana or currency with processors or provisioning centers.

iii. Applicant will not promote the unlawful use of marihuana or any other drug or provide or otherwise make marihuana available to any person who is not legally authorized to receive Marihuana under state law.

iv. No owner, the Applicant, or any employee of Applicant will grow marihuana in the Permitted Premises for his or her own use.

v. The following activities are prohibited on the Permitted Premises:
   a. the sale, consumption, or use of alcohol, or controlled substances;
   b. smoking or consumption of marihuana.

F. Cultivation Plan
i. Propagation
   a. Lighting
   b. Watering
   c. Nutrient Application
   d. Integrated Pesticide Management

ii. Harvesting and Trimming

iii. Drying and Curing

iv. Packaging

v. Distribution
   a. All marihuana products will be validated from a verified transport manifest, created from the statewide monitoring system. The manifest includes a detailed form with the number of packages and detailed content for confirmation/validation with secure transporters and purchasers of the shipment (processors or provisioning centers).
   b. Each transport shipment will be processed in the following manner:
      1. Entry of shipped inventory into the statewide monitoring system.
      2. Confirmation with Secure Transporter of valid and verified transport manifest, including product count, weight of each package or item
c. State certified scales will be used to verify and weigh all marihuana, in whatever form.

G. Inventory Management
i. Applicant will not control or have on the Permitted Property an amount of marihuana plants or usable marihuana that exceeds any amount permitted by the state License or the Township permit.

ii. Tracking and Monitoring
Applicant will use a third-party inventory control and tracking system to interface with the statewide monitoring system. The third-party inventory control and tracking system will have the capabilities necessary to comply with the requirements applicable to a grower licensee:

a. Track all marihuana plants and packages;
b. Track lot and batch information throughout the entire chain of custody;
c. Track transportation of product;
d. Track marihuana waste;
e. Track all marihuana product transfers;
f. Track sales and returns;
g. Track marihuana plant, batch, and product destruction;
h. Perform batch recall tracking;
i. Report and track loss, theft, or diversion of marihuana products;
j. Receive testing results electronically from a safety compliance facility;
k. Provide access to state agencies and law enforcement as required;
l. Report all inventory discrepancies.

iii. Applicant will enter all transactions, current inventory, and other information into the statewide monitoring system as required by the MMFLA, the Marihuana Tracking Act, and any associated regulations.

iv. Inventory reconciliation - At the end of each day, physical inventory counts will be reconciled with the third-party inventory control and tracking system.

v. Returns

H. Quality Control
i. Sampling (by Licensed Safety Compliance Facility)

ii. Batch Testing (by Licensed Safety Compliance Facility)

iii. Transport to Safety Compliance Facility (by Secured Transporter)

I. Signage and Advertising
i. Applicant has no proposed signage at this time, but will amend this plan accordingly and provide the township with its sign permit application if and when it does wish to propose signage.

ii. Applicant will not display pictures, photographs, drawings or other depictions of Marihuana or Marihuana Paraphernalia on the outside of the Permitted Premises, nor will such pictures, photographs, drawings, or other depictions of Marihuana or Marihuana Paraphernalia be visible outside of the Permitted Premises on the Permitted Property.

iii. The words "Marihuana, "or "cannabis," and any other words, used or intended to convey the presence or availability of Marihuana will not appear on the outside of the Permitted Premises, nor will "Marihuana, "or "cannabis," and any other words, used or intended to convey the presence or availability of Marihuana be visible outside of the Permitted Premises on the Permitted Property.

J. Visibility of activities

i. All activities of the facility, including without limitation, the cultivation, harvesting, trimming, drying, curing and packaging of Marihuana, and all other related activity permitted under Applicant’s License or Permit will occur indoors.

ii. No marihuana or paraphernalia shall be displayed or kept in the facility so as to be visible from outside the Permitted Premises.

K. Security

i. Plan
Applicant will maintain, at all times, a centrally-monitored security and alarm system on the premises that meets or exceeds state regulatory requirement. Applicant will maintain policies and procedures to include:

a. Regular drills of the security protocols and emergency plans;
b. Controlled and restricted access to the Permitted Property and Permitted Premises to employees, agents, and owners of Applicant, and law enforcement or state or local authorities as necessary to ensure Applicant’s compliance with state and local laws.
c. Internal and external cameras with 24-hour monitoring and off-site recording;
d. Installed panic buttons
e. Limitations on the amount of currency and marihuana stored onsite;
f. Cooperation and coordination with local law enforcement;
g. Permitted premises will only be able to be accessed through a combination of security locks and access codes; and
h. The ability to remain operational during a power outage with battery back-up.

ii. Security Surveillance Cameras
Security surveillance cameras will be installed to monitor all entrances, along with the interior and exterior of the premises, which will capture all areas of the property unless otherwise prohibited by law, including unobstructed video surveillance of all enclosed areas, unless prohibited by law, including all points of entry and exit that shall be appropriate for the normal lighting conditions of the area under surveillance.

iii. Security Recordings and Documentation
   a. All security recordings and documentation will be preserved for at least 30 days and made available upon request by any law enforcement.

iv. Robbery and Burglary Alarm System
Applicant will employ an alarm system that meets state requirements and obtains state approval. Specifically,

   a. Applicant will employ a centrally alarmed and monitored security system that will be monitored 24 hours a day, 7 days a week for the Permitted Premises pursuant to the attached service agreement.
   b. There will be a perimeter alarm on all entry points and perimeter windows of the Permitted Premises.
   c. A failure notification system will provide an audible, text, or visual notification of any failure in the surveillance system. A panic button and alarm will directly notify the local law enforcement agency having primary jurisdiction.

v. Storage of Marihuana and Currency
   a. Applicant will store usable marihuana that is not otherwise in the process of being dried, trimmed, cured, packaged, or distributed including packaged and un-packaged usable marihuana, and currency in a secured locked safe that is permanently affixed to the premises.

I. Ventilation Plan/Air Filtration System
   i. Applicant’s facility operation and design will provide sufficient measures and means to minimize any impact to adjacent uses, including the control of odor by maintaining and operating an air filtration system so that no odor is detectable outside the Permitted Premises.

   ii. Applicant’s equipment and methods to control odor include a comprehensive air filtration system, consisting of
      a. Activated Carbon Filters.
      b. Heavy Duty Ventilation Fans.

   iv. Details and specifications of the equipment used for Applicant’s ventilation and air filtration plan are attached.
v. The total enclosed space in which harvested marihuana will be stored amounts to approximately 300 sq. feet. Applicant will use an advanced filtration system rated appropriately for the area.

vi. The air filtration system will be maintained in working order at all times and will be in use at all times. Filters will be changed a minimum of once every 365 days.

vii. In addition to the use of an air filtration system, Applicant will mitigate odors by keeping doors and windows closed at all times, except the minimum amount of time needed to allow ingress and egress to the building.

M. Toxic/Flammable/Hazardous Materials
i. Applicant’s use of toxic, flammable, or other harmful, hazardous, or combustible materials will be limited to plant nutrients and pesticides and cleaning products. The facility may use the following nutrients and pesticides:
   
   a. CocoTech Bloom A
   b. CocoTech Grow A
   c. CocoTech Premier Nutrient
   d. FloraBloom Nutrient System
   e. FloraGrow Nutrient System
   f. Golden Tree Plant Food.
   g. Nutra Green 5-10-5 plus Micronutrients Foliar Spray
   h. Diatomaceous Earth
   i. Neem Oil
   j. PyGanic Pro Pyrethrin 5% MGK Miticide

ii. The facility may use the following commercial cleaning products, along with the following household products: materials regulated by government agencies:

   a. Ultra Dawn Lemon Dish Soap
   b. Nature’s Source Toilet Bowl Cleaner
   c. Fantastik Antibacterial Heavy Duty All Purpose Cleaner
   d. Windex Original Glass Cleaner
   e. Novo Foaming Instant Hand Sanitizer
   f. QuickSan Food Contact and Surface Sanitizer

iii. The materials will be stored in secured and ventilated cabinets. All combustible or reactive materials will be stored separately.

iv. Materials will be handled, stored, and disposed according to specifications in each Material Safety Data Sheet.
N. Waste Product Disposal
Applicant will dispose of unusable or waste marihuana in accordance with the MMFLA, MRTMA, and applicable local ordinance guidelines to prevent the waste marihuana from being possessed or ingested by any person and animal.

i. Applicant’s current, preliminary waste disposal plan consists of shredding and grinding damaged and unusable plants, roots, seeds, stalks and harvested marihuana and mixing it with one of several lawful over-the-counter products, such as sawdust or cat litter to render it unusable, unrecognizable, and unpalatable, and then discarding in secured bags as part of its solid waste disposal.

ii. The State of Michigan’s Marihuana Licensing Board may require or suggest as a part of its regulations, expected sometime in November, one or more alternative waste disposal options including, but not limited to, waste disposal through the secured transporter system, waste mitigation through THC extraction methods (rendering the marihuana waste product inert) or some other method. Applicant warrants that it will comply with all state and local requirements as to waste disposal, but further commits to its current preliminary plan to render all marihuana waste unrecognizable, unusable and inaccessible regardless of state or local requirements.

IV. COMMUNITY RESPONSIBILITY AND CONCLUSION
Although marihuana has been used as a medicine across the globe for hundreds of years, its commercial production and sale is new to us, this state, and your community. We appreciate the opportunity to show Orion Township that Marihuana can be safe and accessible to a community while providing jobs and local economic growth. We look forward to being productive and responsible community partners, and will work with the Township toward that goal.

PAYMENT OF PERMIT FEE CONSTITUTES ACCEPTANCE OF THE ABOVE TERMS.
H. Litter & Waste Removal Plan
Litter & Waste Removal Plan

All biological waste product will be rendered unrecognizable by grinding it in an industrial grinder and combining it with other non-consumable solid waste, including the media in which we cultivate plants, Rockwool. The inclusion of inert material renders the combined solid waste unusable. All waste will be stored in a locked dumpster that is emptied at minimum once per week.

The company intends to employ particulate filtration in areas where waste is stored and processed, which minimizes potential exposure and impact to the outside environment. The facility, which is designed around large water chillers, is designed to circulate air rather than ventilating it. This process helps to avoid excess exposure of odors to the surrounding community.
I. Noise, Dust, Vibrations, Glare & Fumes Plan
Noise, Dust, Vibrations, Glare, Fumes or Odors Plan

Excessive Noise, Dust, Vibrations, Glare and Marijuana odors emanating from our facilities are a valid concern for the community and our neighbors. This plan details the measures deployed to ensure that minimal noise, dust, vibration, glare, fume or offensive odor is emitted from the facility, the response if it occurs, and that the measures remain effective over time.

This plan is our commitment to the Orion Township that we will be in compliance with regulations of the city and the administrative rules and that we will not operate in a manner creating noise, dust, vibration, glare, fumes, or odors detectable to normal senses beyond the boundaries of the property.

We will not vent noxious dust, odors, gases or fumes to surrounding areas.

We will mitigate dust and noxious odors by engaging in the following activities:

1. Adequate design measures to seal the building;
2. Utilizing a heating, ventilation, and cooling (HVAC) System designed to move an appropriate amount of air (cfm) throughout the facility to disperse odors;
3. Using industry leading MERV-13 HEPA filters in addition to FILTR, Blue Zone & Puradigm units in each room throughout the facility.

I. DESIGN MEASURES TO SEAL THE BUILDING

We intend to renovate our building in a manner that focuses on effectively sealing all interior rooms and exterior access points. Each room is enclosed in 12”, interlocking insulated panels which are designed to form an airtight seal. For additional protection, butyl caulk is applied at each joint to accommodate any flaws in the panels.

Caulk is also applied to seal any openings into the panels, including plug outlets, doorways, sprinklers, and anything else that could allow air flow. Our doors are fiberglass, weather stripped and employ a drop seal to press additional weather stripping against the floor when closed to maximize the seal all the way around.

II. MERV-13 HEPA FILTRATION SYSTEM

The purification of air throughout our facility is a top priority for both the health of the plants and the environment we subject our employees and the local community to. In an effort to target and reduce contamination, mold, bacteria, odor, dust, and fumes, we employ a variety of filtration systems in all rooms where marijuana plants are grown.

Each room will utilize clean room grade HEPA filtration units filtering down to 0.01um and providing up to 5 complete air changes per hour. These units also utilize a carbon filter which focuses directly on the removal of smells and volatile organic compounds.

In addition to the HEPA filters, each room will have Puradigm units to help reduce airborne and surface contaminants, and Agrify Bluezone UV filtration units, known to destroy 99.9%+ of both bacteria and mold. Both of these systems aid in odor elimination and containment.
As filters age, they become clogged with impurities, and ultimately less effective. As such, we will develop a maintenance schedule to inspect the filtration units regularly and to replace them per the manufacturer's recommendation or at an expedited pace based on their usage in these environments.

III. VIBRATION MITIGATION
Exterior mounted cooling equipment is mounted on isolation pads to dramatically reduce vibrations that would otherwise be created by such large equipment.

IV. EVALUATING THE EFFECTIVENESS OF NOISE, DUST, VIBRATIONS, ODOR & FUME CONTROL MEASURES
Key site leadership roles will be trained to assess the production and escape of odors, dust, fumes and glare from the facility. We also anticipate a strong and friendly relationship with the local communities and will welcome feedback about any exhaust from the building. Should these assessments or the community ever determine that our levels are beyond acceptable, we will re-evaluate this plan and engage professionals to further refine our practices and properly mitigate the problem.
J. Spent Water & Soil Safety Plan
Spent Water & Soil Safety Plan

Wastewater Treatment Plan:
Wastewater generated during the cultivation of marihuana of marihuana products shall be disposed of in compliance with all applicable state and local laws and regulations. Despite the amount of water used in the cultivation process, there is very little water waste. The majority of water is used by the plants or evaporated out of the collection dishes upon which the plants sit. Any water that is used to rinse the plants or clean the facility or for any other purpose shall be rendered clean through both reverse osmosis and UV light after standard filtration methods, and either reused by the facility or discharged through a monitoring man hole where it can be monitored to comply with all local ordinances.

The Cultivation Facility will include an Ecowater RO purification system. Ecowater Purification Systems are the leading water filtration manufacturer in the industry, helping cultivators diagnose and solve every water problem imaginable. Ecowater designs systems to treat any water source including city water, well water, nutrient runoff water, wastewater, and condensate runoff.

Soil Safety Plan
The cultivation facility will not use soil – instead, all media for the purposes of growing plants will be rockwool, a lightweight hydroponic substrate made from spinning molten basaltic rock into fine fibers which are then formed in a range of cubes. This product will be disposed of through the grinder and mixed with biological waste in a locked dumpster.
K. Security Plan
SECURITY PLAN

Tycoon I Operations is committed to being a leader in Michigan's cannabis industry and a trusted resource for the communities, consumers and clients we service. Essential to fulfilling this commitment is our ability to effectively protect our product from criminal repurposing throughout the facilities.

This Security, Surveillance and Diversion Prevention Plan details the physical and electronic security measures we employ to deter, detect, and inhibit the theft, diversion, and loss of Marijuana, and to prevent unauthorized conduct with respect to the storage and dispensing of Marijuana.

We have extensively researched and designed our Grow Facility to maximize security. The facility shall be built with enhanced security and stringent safety features to eliminate any potential for diversion. Our facility will be equipped with numerous motion sensors and exterior intrusion sensors that will be linked to local law enforcement. To prevent unauthorized entry and stop diversion, theft, or loss of marijuana, every square inch of the facility shall be continually monitored by high definition security cameras and commercial-grade equipment. Security systems will be positioned so they closely monitor activities at strategic risk points and watch for any strange behavior or movement. Marijuana shall not be visible to any person from the exterior of the Grow Facility.

We will create a culture of responsibility, accountability, and strict security surrounding all aspects of the facility. The stringent operating procedures outlined below demonstrate a commitment to employee and public safety above all other operating values. From receipt to sale, we are committed to preventing diversion by implementing a comprehensive security strategy. Employees will be extensively trained to understand that security is a primary obligation for everyone at our facility.

We will have comprehensive security policies and procedures for the Grow Facility, which address measures to deter and prevent unauthorized entrance into areas containing marijuana and theft of marijuana at the facility. Employees will receive on-going training regarding our security protocol and the Site Manager shall ensure all employees follow policies and procedures regarding the security of the facility. The Site Manager shall implement and maintain employee training policies and procedures for security training. All employees shall aid in the security of the Grow Facility through prevention, awareness, reporting, and responsible incident management. All employees shall be required to immediately report security breaches and incidents of non-compliance to their supervisor, and in case of sudden emergency, immediately to law enforcement by either striking a panic button or calling law enforcement directly.

We will make our facility available and open to inspection, at all times, for law enforcement, representatives of the Department and law enforcement, when necessary to perform their duties.

PHYSICAL SECURITY

The facility shall be designed to maximize security and stop the potential for diversion. Access to the secure facility shall include safety and security mechanisms that prevent unauthorized entry. All doors will be burglary-resistant material, with commercial-grade, non-residential locks. Additionally, exterior doors, as well as limited access area entries, will be automatic locking and equipped with electric strike and keycard access hardware. All doors are setup to fail secure, which means in the event of a power failure, the doors will remain locked and only be accessible via a master key.
The Grow Facility’s main entrance vestibule shall include a mantrap to control passage from the public access area to the limited access area. We will strive to install Underwriter’s Lab (UL) approved locks and lock cylinders, which are rated as burglary resistant. We will also install local alarms on all fire exits and other perimeter doors not authorized for employee or visitor use. Our alarm system will be monitored after business hours with live monitoring through a licensed security monitoring company. If there are ever any after-hours issues, the live monitoring system will be linked directly to law enforcement and the Site Director, among other key personnel.

We shall ensure that trees, bushes, and other foliage outside of the premises do not allow people to conceal themselves from sight. The surveillance system’s cameras shall be capable of certain identification of persons (including facial features), license plates, vehicles, the immediate surrounding areas, and any activities occurring within any area of the premises, and the parking area, and within twenty feet (20’) of all entry and exit points of the premises. Cameras will cover every square inch of the facility.

To provide first responders with immediate access into our facility during a time of emergency or inspection, we will install a Knox Rapid Access System to remove any barriers to entry when first responders respond to an emergency call.

LIGHTING

Exterior lights at all points of entry and exit shall remain constantly illuminated to allow for recording. Lighting on the outside perimeter shall allow cameras the ability to record any suspicious activity. Timed-delay switches shall be used to turn off non-essential interior lights, which shall not remain lit after employees have left the facility. Motion detecting lights shall be installed in areas that are entered and exited infrequently. The exterior of the facility shall be lit by commercial LED light fixtures sufficient to facilitate twenty-four-hour surveillance. Exterior lights in the parking area will remain on from dusk until dawn.

SECURITY EQUIPMENT

Our security equipment shall be designed, installed, and maintained to deter and prevent unauthorized entrance and theft of marijuana products at the facility. Security equipment shall be installed by a commercial, licensed service provider. All equipment shall be compliant with Department rules and all state and local laws, regulations, ordinances, and other requirements.

ENTRY AND EXIT ELECTRONIC EQUIPMENT AND PLACEMENT

Our entry and exit electronic access equipment will consist of the following:

- Electric strike locks on all doors in the Grow Facility with the ability to override access control for emergency exit even during a power outage.
- RFID proximity card access control devices for all interior doors and all exterior entrances and exits into the Grow Facility.
- Access control system that allows for programming or uploading individual user permissions and allowed entry times, as well as operations-specific information including employee photos.
- A backup power supply system that immediately provides power for at least twenty-four (24) hours in the event of a power outage.
- Main system operating equipment will be kept in the security room, a limited access area.
• Access control system that monitors and records:
  o Identification of employees or visitors entering and exiting.
  o Date and time of entry and exit.
  o Length of time in specific area.
  o Any unauthorized attempts for access.

ALARM SYSTEM

We shall have a professionally monitored security alarm system installed at our facility. Monitoring of the alarm system shall be twenty-four (24) hours a day, seven (7) days a week. We shall notify the Department of any intent to change our security alarm service provider. Upon request, we will make available to the Department all information related to the alarm system, monitoring, and alarm activity. The alarm system shall consist of the following:

• Appropriate equipment necessary to monitor activity inside and outside the Grow Facility, including:
  o All entrances and exits.
  o Roof hatches.
  o Rooms with exterior windows.
  o Rooms with exterior walls.
  o Rooms containing marijuana.
  o Rooms containing safes or vaults.
• A backup power supply system that immediately provides power in the event of a power outage.
• Main system operating equipment is kept in the Main Office Surveillance/IT Room, a limited access area.
• All telephone junction boxes or rooms where alarm telephone circuits terminate are locked, tamper-protected, and all labels or tags identifying these alarm circuits have been removed.

ALARM SYSTEM COMMUNICATION

The alarm system shall include an electronic or mechanical system that, upon activation, is programmed to send a prerecorded voice message, via telephone, radio frequency, or other communication system, to appropriate law enforcement authorities or other emergency services. In addition, the alarm system shall be equipped with a failure notification system that notifies the alarm monitoring service provider of the system failure via audio, text, visual, or audiovisual message, within a maximum of five (5) minutes of such failure.

ALARM SYSTEM TESTING

We shall bi-annually conduct an onsite inspection and test of the entire alarm system to determine needed repairs and adjustments.

ALARM SYSTEM RECORDS

We shall keep and maintain alarm system records and will make available to the Department all
information related to the alarm system, monitoring, and alarm activity. These records shall include the following:

- The name of the alarm installation and monitoring service provider.
- Copies of service contracts.
- A map of the Grow Facility showing the location and operation of each alarm system component including alarm telephone circuits.
- A list of authorized users.
- Manufacturers’ instructions for operating and maintaining the equipment.
- Testing and maintenance logs.
- Reports of any incidents triggering an alarm.
- Reports of any interruption in monitoring and/or complete failure of the system, including the length of the interruption period.

SURVEILLANCE SYSTEM

We shall have a fully operational electronic surveillance system installed at our facility. We shall notify the Department of the intent to make any changes to the surveillance system. Upon request, we will make available to the Department all information related to the electronic surveillance system installed at our facility. The surveillance system shall consist of the following:

- Appropriate equipment necessary to video record activity inside and outside the Grow Facility, including:
  - All entrances and exits into and out of the Grow Facility.
  - Roof hatches or skylights.
  - Rooms with exterior windows.
  - Rooms with exterior walls.
  - Rooms containing safes or vaults.
  - All entrances and exits of security rooms and limited access areas.
- Appropriate equipment to record keycard entry and exit activity of all our employees and visitors.
- A backup power supply system that immediately provides power in the event of a power outage.
- A dedicated safe or vault to store all entry/exit records and video recordings in the Office Surveillance/IT Room, in a limited access area.
- Main system operating equipment is kept in the main office Surveillance/IT Room.

VIDEO SURVEILLANCE EQUIPMENT

Our video surveillance equipment will consist of the following:

- Network video recorders with a record rate of a minimum of thirty (30) frames per second.
- Cameras with a minimum resolution of 1920 x 1080 pixels.
- Cameras with infrared capabilities to capture images in low or no lighting conditions.
- Cameras with capabilities to identify activity occurring within twenty feet (20’) from all points of entry and exits into and out of the exterior of the Grow Facility.
- Video monitors.
- Digital archiving device.
- Capabilities to produce a color still photograph from any camera image, live, or recorded.
- Capabilities to accurately display the time and date on recorded images or video.
- Color printer that can immediately produce a clear, color still photo, either live or recorded, with a resolution of 9600 dpi and the image quality is relative to the camera being used to capture the image.

CAMERA COVERAGE PLACEMENT

We will install at least One Hundred (100) security cameras. The security cameras will be permanently mounted and in a fixed location. Each camera at the Grow Facility shall be placed in a location that allows the camera to clearly record activity occurring within twenty feet (20’) of all points of entry and exit on the Grow Facility. The cameras will cover every square inch of the facility. The cameras shall allow for the clear and certain identification of any person, including facial features, and activities, including sales or transfers, in all areas of the Grow Facility. The security cameras shall monitor and record all areas of the Grow Facility including:

- All areas where marijuana or products are present, including activities related to:
  - Weighing, packaging, and labeling.
  - Storing, preparing for sale, loading/unloading, or moved within the Grow Facility.
  - Waste Disposal
- Limited-access areas and security rooms, including transfers between rooms and areas.
- Areas storing a surveillance system storage device with at least one (1) camera recording the access points to the secured surveillance recording area.
- All entrances and exits into and out of the exterior of the Grow Facility, recording both indoor and outdoor vantage points.
- Outdoor trash receptacles.
- Roof hatches or skylights.
- Rooms with exterior windows.
- Rooms containing safes or vaults.
- All areas where cash is counted, transferred, or stored.
- All areas where records are stored.

Cameras shall not be installed in bathrooms or any other area where a legitimate expectation of privacy exists. Camera placement shall ensure:

- Visibility of activities is not obstructed by lighting equipment covers, fixtures, or other equipment.
- A clear and certain identification of all individuals and activity at the Grow Facility.
- Identification of activity occurring within twenty feet (20') from all points of entry and exit into and out of the exterior of the Grow Facility.

SURVEILLANCE FAILURE NOTIFICATION

The surveillance system shall include a failure notification system that alerts the Site Director and other key site personnel of any interruption in surveillance and/or the complete failure of the monitoring system. The notification shall be within a maximum of five (5) minutes of such failure via audio, text, visual, or audiovisual message. Additionally, an alarm shall signal the Security Officer on duty whenever an unauthorized entry is attempted.

SURVEILLANCE TESTING

We shall ensure that the surveillance system is properly maintained for playback quality so that images can be seen and the identity of all individuals and activity in surveillance areas are captured. We will schedule and oversee all required maintenance of security equipment in accordance with manufacturer recommendations. Any equipment failure identified shall be corrected as soon as possible. All security equipment shall be in good working order and shall be inspected and tested at regular intervals.

INFORMATION TECHNOLOGY SECURITY

We shall ensure the security of our hardware, software, data, and communications networks, including the following information technology (IT) maintenance:

- Software registration.
- Security patches.
- Malicious software prevention.
- Account management.
- Security status and network access monitoring.
- Disposal and redeployment.
- Employee IT security training.
- Vulnerability assessments.

Access to protected information shall be restricted to essential employees only. Access may be granted to authorized representatives of the Department and other government officials if necessary to perform their official duties. Examples of protected information include:

- Security and cash management procedures.
- Asset and inventory lists.
• Network data.
• Floor plans of critical areas.
• Password and code records.
• Customer records.
• Employee records.

PRODUCT SAFETY AND SECURITY

We shall develop and implement procedures that ensure product safety and security and are compliant with the rules set forth by the Department and all applicable state and local laws, regulations, ordinances, and other requirements. Procedures shall include measures that:

• Minimize the risk of diversion or theft of marijuana.
• Minimize the risk of contamination from incoming materials.
• Ensure proper storage conditions that maintain the quality and purity of our marijuana products.

MATERIAL RECEIVING

All deliveries shall be verified at the front entrance to the facility before allowed access to the loading areas. All materials received will be documented. No material may be received unless its shipping documentation matches the corresponding purchase order or separate approval is given by the Site Manager. Employees shall notify the Site Manager of any shipment discrepancy immediately and shipment may not be accepted without the Site Manager’s approval.

PRODUCT STORAGE SECURITY

Storage areas shall be designed to provide adequate lighting, ventilation, temperature, humidity, space, and equipment. All storage areas shall be maintained in a clean and orderly condition, free from infestation of pests, and in accordance with our security measures and Security Plan. The Grow Facility Manager shall ensure secure containers containing marijuana products remain dry, well ventilated, have temperature-control features to avoid extreme temperature fluctuations and appropriate odor-control features. These proper storage environments ensure product storage does not lead to product contamination or loss of quality.

The storage areas containing marijuana products shall be designed for security and ease of maintenance. We shall establish product storage and security policies and procedures compliant with the rules set forth by the Department and all applicable state and local laws, regulations, ordinances, and other requirements. Under no circumstances may any product be transferred without following our policies and procedures and all the rules set forth by the

2596
Department and all applicable state and local laws, regulations, ordinances, and other requirements. Storage policies and procedures shall include:

- All equipment and any areas used for the processing or storage of marijuana shall be securely locked unless in use.
- All areas used for the storage of marijuana shall be on a time lock and only accessible during regular business hours.
- Inventory shall be reviewed and documented at the beginning and close of each day.
- All areas where marijuana product is stored will be monitored by the surveillance system.

DIVERSION PREVENTION

Investigation of possible diversion and developing policies to prevent it will be conducted by a team of our senior officials, including our CEO, COO, and Director of Compliance. Collectively, they will be known as the Diversion Prevention Team or DPT. The team will have multiple responsibilities including:

- Investigating allegations of diversion
- Developing policies and procedures to prevent diversion
- Managing performance improvement measures
- Providing overall direction for the program.
- Reporting confirmed cases of diversion to law enforcement

The DPT will also integrate information from external sources and environmental factors to improve safety and security at facilities. External sources and environmental factors may include news reports, trade and patient associations, law enforcement bulletins, et cetera. Standard operating procedures shall be updated to incorporate new sources of information and prevent diversion.

WORKING WITH LAW ENFORCEMENT

We deeply value and respect the work of local law enforcement. Police officers are on the frontline protecting our safety. Therefore, our Company, through the DPT, will form a partnership with law enforcement. This partnership will be rooted in a shared responsibility for the safety of the community. Upon request, law enforcement will have access to employee records and Grow Facility operations. Company will also engage with first responders like EMS and fire to establish emergency response protocols. This will create a close working relationship and enhance our ability to provide a secure and positive experience for our employees and the community.

To provide first responders with immediate access into our facility during a time of emergency or inspection, we will install a Knox Rapid Access System to remove any barriers to entry when first responders respond to an emergency call.
EMPLOYEE TRAINING

We know that having a trained and educated workforce is paramount to having an effective diversion strategy. Therefore, a considerable amount of time, resources, and energy will be devoted to ongoing diversion prevention training. The training curriculum will be conducted by the DPT. At a minimum, the training curriculum shall include:

- Compliance regulations for grow facilities.
- State laws and agency rules regulating the use of marijuana.
- Strategies for preventing diversion.
- Criminal and civil consequences for diverting product.
- Security and safety standard operating procedures.
- Chain of command for reporting diversion.
- Incident management.
- Daily operating procedures.

Diversion prevention trainings are mandatory for every new employee. Additionally, each employee shall be required to participate in quarterly continuing education trainings on diversion. Training materials will be outcome driven. Employees will be given real world examples of diversion and taught the appropriate response. Teaching the material through the learning principles of problem solving, discussion, and feedback will empower and increase understanding and retention of the training. This process of integrating knowledge will develop a culture of shared values, perspectives, and become the way of daily conduct and purpose at the Grow Facility.

Employees will have access to diversion prevention training materials at all times. There will be no excuse and zero tolerance for not knowing the proper policies and procedures. Well-maintained employee training records displaying documented training dates and subject matter will preserve and increase compliance, continuity and understanding of all guidelines, security procedures, safety, and incident response. Employee training records will become a written testament of the detailed information and accountability of security education.

INVESTIGATION OF DIVERSION

Due to intense and robust security operations, we do not anticipate diversion at our facility. However, it is important to be prepared for any scenario. We have developed an enhanced investigation procedure for any allegations or reports of potential diversion. Any allegation or report will be fully and immediately investigated by the DPT with established processes and timeframes.

Security policies developed by our Company outline that the first step of investigation is to preserve all possible evidence. Evidence needs to be persevered for the investigation and may be used in future disciplinary matters. The second step of investigation shall be to review all camera footage and other relevant information technology. Each marijuana product is tracked from seed to sale. Therefore, if diversion occurred, it will likely appear in an audit of the tracking software. The third step of investigation will be to interview the employee who engaged or
allegedly engaged in diversion. This step can only be executed if enough evidence is gathered to narrow down the suspect. The goal of the interview is to get the subject to confess how they diverted product to prevent future incidents from occurring. The fourth step of investigation will be to report the confirmed incident of diversion and suspect to law enforcement and the Department. The Site Manager shall be the point of contact for all law enforcement inquires and will turn over all relevant evidence to law enforcement and the Department. The final step of investigation is to develop policies and procedures to prevent the incident from happening again. Once new policies have been developed by the DPT, an all staff training shall be given. The training will be a top down review of all security policies including any updated procedures.

INCIDENT RESPONSE

We shall establish incident response procedures addressing any incident that may occur, including natural disaster, unauthorized access, theft, or IT security breach. Procedures shall be in accordance with the rules set forth by the Department and all applicable state and local laws, regulations, ordinances, and other requirements. Procedures for general emergency and incident management, containment, and corrective measures shall be thoroughly detailed. The Director of Compliance shall ensure the appropriate response procedures are followed. All employees shall receive incident response training annually. The Site Manager shall determine the category and severity of the incident and determine the next best course of action. All discussions, decisions, and activities shall be documented.

We shall immediately notify appropriate law enforcement authorities and the Department immediately after the discovery of a reportable incident as defined by state and local laws, regulations, ordinances, and other requirements. Examples of an incident may include, but are not limited to:

- Theft or physical loss of marijuana or confidential records.
- Breach of our network servers.
- Robbery or unauthorized entry in the Grow Facility.
- Threats of violence to the Grow Facility, employees, or visitors.
- Bomb threats.
- Any criminal activity.
- Civil disturbances.
- Hazardous spills.
- Infectious disease epidemic.
- Serious accidents.
- Fires.
- Earthquakes.
- Floods.
- Windstorms or tornadoes.
INCIDENT REPORTING

Anyone with knowledge or a reasonable suspicion of an incident is instructed to make an immediate report to the Grow Facility Manager or the Site Manager. The person reporting the incident shall complete the Incident Log.

- Date and time of occurrence or suspected occurrence.
- Names and contact information of parties involved and any witnesses.
- Description of incident.
- Completed Suspect Description Forms, if applicable.
- Any evidence supportive of the event (unless law enforcement is required on scene or en route).

We shall notify appropriate law enforcement authorities and the Department immediately after discovering the following:

- Discrepancies identified during inventory; diversion, theft, or loss of marijuana; or any criminal action involving an employee.
- Theft, robbery, or burglary; sale to minors; diversion of marijuana or marijuana products; or any other crime related to marijuana.
- Any suspicious act involving the sale, cultivation, distribution, processing, or production of marijuana by any person.
- Unauthorized destruction of marijuana.
- Any loss or unauthorized alteration of records.
- An alarm activation or other event that requires a response by public safety personnel.
- Integrity of the inventory management system compromised.
- An IT security breach.
- The failure of any security alarm system due to a loss of electrical power or mechanical malfunction that is expected to last longer than eight (8) hours.
- Any other breach of security defined by the rules set forth by the Department.

UNAUTHORIZED ENTRY/ROBBERY CONTAINMENT AND CORRECTIVE PROCEDURES

In the event a threat is present to persons, cash, or product due to unauthorized entry, employees shall be trained to perform the following:
• Notify law enforcement utilizing a panic alarm, only if it can be safely done without being obvious to the robber.

• Do not resist the robber or use or encourage the use of weapons or force against the robber.

• Try to inform the robber of any potential surprises (e.g., an employee is due back from lunch or the building alarm is set to be tested).

• Try to keep employees and visitors, if applicable, calm during the robbery.

• Try to alert other employees of the situation using pre-determined signals or text messages, only if safe to do so.

• Follow the robber's commands in order to shorten the time of the incident. Do not argue with the robber, but do not volunteer to help.

• If the robber demands a certain amount of money or product, only give them that amount.

• Be observant in order to be a good witness. Try to remember:
  o The number of robbers.
  o The physical characteristics of the robber(s), such as weight, scars, tattoos, hair color, or speech patterns.
  o The clothing worn by the robber(s).
  o Any names used by the robber(s).
  o A description of any weapons shown, such as barrel length and color, color of the grip, or automatic or revolver.

• If the robber uses a note, try to place it out of sight to retain it as evidence.

• Do not follow a robber.

• Secure the Grow Facility and place a notice that the business is closed due to an emergency.

• Call the police and ambulance, as needed, immediately and request that witnesses stay or obtain their contact information.

• Provide aid to injured people.

• Do not discuss the robbery with any outside parties until police and management has given authority to do so.

• Do not estimate the amount of money or product that was taken until an inventory has been performed.

Corrective procedures that may be required to return conditions to a normalized and secure state:

• Change all security codes.

• Replace locks and issue keys only to authorized employees.
• Ensure any video of the incident is archived.
• Restore security devices and/or apparatus to working condition.
• Repair any physical damage to the Grow Facility.
• Provide employees and visitors, if applicable, counseling, as needed.
• Perform a security re-training as soon as possible.
• Modify Employee Access Control Log as deemed appropriate.

INTERNAL THEFT/BURGLARY CONTAINMENT AND CORRECTIVE PROCEDURES

In the event a threat is present to persons, cash, product due to internal theft or burglary, employees shall be trained to perform the following:

• Identify missing or compromised assets.
• Gather, remove, recover, and secure sensitive materials to prevent further loss or access.
• Power down, recycle or remove security equipment known to be compromised.
• Where possible, secure the premises for possible analysis by the Department and law enforcement.
• Gather and secure any evidence of illegal entry for review by the Department and law enforcement.
• Where possible, record identities of any party who might be a possible witness to events.
• Preserve video recordings and Visitor logs for review by the Department and law enforcement.

Corrective procedures that may be required to return conditions to a normalized and secure state:

• Retrieve or restore assets where possible.
• Store all sensitive materials and products in a secure manner (e.g., lockable cabinets or storage areas/container).
• Replace locks and issue keys only to authorized employees. Update the Employee Access Control Log as necessary.
• Restore security devices and/or apparatus to working condition.
• Remove and retain unauthorized equipment from network and/or area.
• Implement physical security devices and improvements (e.g., equipment cables, alarms) as deemed appropriate.
• Perform a security re-training as soon as possible.
FIRE PROCEDURES

If a fire does not present an immediate danger to personal safety, one (1) employee shall try to extinguish the fire. If a fire presents an immediate danger to personal safety, a fire alarm shall be pulled and a call to 911 shall be immediately made and evacuation of the building shall occur all at once.

Evacuation of Grow Facility

Any director or manager may determine the need to evacuate. Reasons for evacuation may include:

- Fire.
- Bomb threat.
- A hostile or violent employee, visitor, or unknown person.
- Power outage.
- Earthquake.
- Water or gas leak.
- Hazardous spill.
- Robbery or hostage situation.

The Site Manager shall ensure that all employees and visitors, if applicable:

- DO NOT gather in lobbies.
- DO NOT open a door without first checking for heat.
- DO NOT touch any suspicious items or suspected bombs.
- DO NOT run or panic.
- DO NOT re-enter the building until authorized.
- DO assist disabled individuals or others who need assistance. Evacuate disabled individuals or others who need assistance ONLY under the direction of authorized emergency personnel or when there is an immediate threat to personal safety and security.

INCIDENT CONTAINMENT

The Site Manager, in coordination with the appropriate department directors or managers, shall determine and implement the appropriate activities and processes required to quickly contain and minimize the immediate impact to personal safety, the Grow Facility, and other affected parties. Containment activities shall be designed to:

- Minimize harm to individuals.
- Counteract the immediate threat.
• Prevent propagation or expansion of the incident.
• Minimize actual and potential damage.
• Restrict knowledge of the incident to authorized employees.
• Preserve information relevant to the incident.

The Site Manager, in coordination with the appropriate department directors or managers, shall determine and implement the appropriate activities and processes to quickly:

• Secure the environment.
• Restore the environment to its normalized state.

The Site Manager shall be actively engaged throughout the incident to assess the progress of all containment and corrective measures and determine at what point the incident can be considered resolved.

INCIDENT CONTAINMENT AND CORRECTIVE PROCEDURES

The Site Manager shall determine and implement the appropriate procedures required to quickly contain and minimize the immediate impact of an incident, as well as to quickly restore circumstances to a normalized, secure state. Containment and corrective measures shall be designed with the primary objectives of:

• Minimizing harm.
• Counteracting the immediate threat.
• Preventing propagation or expansion of the incident.
• Minimizing the actual and potential damage.
• Restricting knowledge of the incident to authorized employees.
• Preserving information relevant to the incident.
• Securing the environment.
• Restoring the environment to its normalized state.

POST-INCIDENT REVIEW, REPORT, AND FOLLOW UP

The Site Manager shall hold a Post-Incident Review after each incident has been resolved. The Post-Incident Review shall be scheduled within two (2) to three (3) weeks of the incident’s resolution and shall involve:

• Appropriate personnel, which may include affected parties.
• Examination of the incident and all related activities and events.
• Discussion on proposed changes to policy, processes, and safeguards.
All incident activities, from receipt of the initial report through post-incident review, shall be documented. The Site Manager shall ensure all events are recorded, assembling these records in preparation and performance of the post-incident review, and ensuring all records are preserved for review. The following shall be included, at a minimum, in the Post-Incident Report:

- A description of incident events with specific timelines.
- Employee(s) involved.
- Non-Employees involved.
- Impact to affected parties.
- Discussions, decisions, and assignments made.
- Successful and unsuccessful activities.
- Notifications required or recommended.
- Steps taken for containment and resolution.
- Recommendations for prevention and remediation (short-term and long-term).
- Identification of policy and procedure gaps.
- Results of post-incident review.
- Any necessary follow-up actions.

The Post-Incident Report shall be distributed to the Site Manager, the Grow Facility Manager, and all other relevant parties for review. The Site Manager shall ensure the appropriate employees are assigned to any follow-up actions. The Site Manager shall document the completion of all follow-up actions in the Post-Incident Report and distribute an updated copy.

SECURITY SYSTEM RECORDS

We shall keep all necessary books and records in order to render a full account of all operations conducted at the Grow Facility under our license for the year to date and the five (5) years prior. We shall keep books and records of the Grow Facility from the previous six (6) months (or the complete copies of such records) in the Grow Facility at all times. All marijuana related records shall be retained in the inventory management system. All surveillances recordings shall be retained, at a minimum for at least sixty (60) days, unless in instances of investigation or inspection by the Department, through its investigators, agents, auditors, or the state police, in which case the licensee shall retain the recordings until such time as the department notifies the licensee that the recordings may be destroyed. Our standard operating procedures shall detail the maintenance of records and measures for addressing and reporting any loss or unauthorized alteration of records. The Department, upon request, shall have full access to all Grow Facility records and surveillance recordings.

We shall keep and maintain security and surveillance system records and recordings in the Grow Facility and copies stored on a secure cloud storage. These records shall include, at a minimum, the following:

- The name of the surveillance equipment installation service provider and all equipment manufacturers.
- Copies of any service contracts.
• A map of the Grow Facility showing the location and operation of each surveillance system component, including the direction of camera coverage.

• A list of authorized users.

• Manufacturers' instructions for operating and maintaining the equipment.

• Testing and maintenance logs.

• Reports of any incidents of unauthorized entry.

• Employee Access Control Logs.

• Visitor Registration Logs.

• Authorized Visitor Access Control Logs.

• Incident Logs and Post-Incident Reports.

• Reports of any interruption in monitoring and/or complete failure of the system, including the length of the interruption period.

• A log of the recordings, which includes:
  o The identities of the employee or employees responsible for monitoring the video surveillance system.
  o The identity of the employee who removed the recording from the video surveillance system.
  o The identity of the employee who destroyed any recording.

• Video surveillance recordings shall be:
  o In a digital format that ensures authentication of the recording as being legitimately captured without alterations.
  o Easily accessible and in a format that allows for viewing and copying.
  o Embedded with the date and time without significantly obscuring the picture.

We will maintain a log of all recordings, which will include a minimum:

• The identities of the employee or employees responsible for monitoring the video surveillance system.

• The identity of the employee who removed the recording from the video surveillance system storage device and the time and date removed.

• The identity of the employee who destroyed any recording.

Video surveillance recordings shall be stored on an NVR that is server-based with storage as required to meet recording rate and retention. This system shall be password-protected and separate from any other equipment in the Grow Facility. The files and video surveillance recordings shall be available for inspection, upon request, by authorized representatives of the Department and other government officials when necessary to perform their official duties.

After the expiration of the retention period, and before selling or closing the facility, the surveillance video recordings shall be erased, destroyed, or otherwise disposed. We shall not destroy any surveillance video recordings if we have knowledge or should have knowledge of any ongoing criminal, civil, administrative, or other official investigations or proceedings for which the recording may contain relevant information. Additionally, we shall not destroy any surveillance
video recordings in instances of investigation or inspection by the Department, through its investigators, agents, auditors, or the state police, in which case the recordings shall be retained until such time as the Department notifies us that the recordings may be destroyed.
Security and Surveillance Equipment Room Access List

This is the current list of individuals having access to our Security and Surveillance Equipment Storage Room. Only those on this list are essential to maintain security and surveillance operations. All others will be denied access to the Security and Surveillance Equipment Room.

This list is available to the Department or authorized agents immediately upon request.

WE ASSIGNED YOU AN EMPLOYER IDENTIFICATION NUMBER

Thank you for applying for an Employer Identification Number (EIN). We assigned you EIN 85-2192285. This EIN will identify you, your business accounts, tax returns, and documents, even if you have no employees. Please keep this notice in your permanent records.

When filing tax documents, payments, and related correspondence, it is very important that you use your EIN and complete name and address exactly as shown above. Any variation may cause a delay in processing, result in incorrect information in your account, or even cause you to be assigned more than one EIN. If the information is not correct as shown above, please make the correction using the attached tear-off stub and return it to us.

Based on the information received from you or your representative, you must file the following form(s) by the date(s) shown.

Form 941 01/31/2021
Form 940 01/31/2021

If you have questions about the form(s) or the due dates shown, you can call us at the phone number or write to us at the address shown at the top of this notice. If you need help in determining your annual accounting period (tax year), see Publication 538, Accounting Periods and Methods.

We assigned you a tax classification based on information obtained from you or your representative. It is not a legal determination of your tax classification and is not binding on the IRS. If you want a legal determination of your tax classification, you may request a private letter ruling from the IRS under the guidelines in Revenue Procedure 2004-1, 2004-1 I.R.B. 1 (or superseding Revenue Procedure for the year at issue). Note: Certain tax classification elections can be requested by filing Form 8832, Entity Classification Election. See Form 8832 and its instructions for additional information.
If you are required to deposit for employment taxes (Forms 941, 943, 940, 944, 945, CT-1, or 1042), excise taxes (Form 720), or income taxes (Form 1120), you will receive a Welcome Package shortly which includes instructions for making your deposits electronically through the Electronic Federal Tax Payment System (EFTPS). A Personal Identification Number (PIN) for EFTPS will also be sent to you under separate cover. Please activate the PIN once you receive it, even if you have requested the services of a tax professional or representative. For more information about EFTPS, refer to Publication 946, Electronic Choices to Pay All Your Federal Taxes. If you need to make a deposit immediately, you will need to make arrangements with your Financial Institution to complete a wire transfer.

The IRS is committed to helping all taxpayers comply with their tax filing obligations. If you need help completing your returns or meeting your tax obligations, Authorized e-file Providers, such as Reporting Agents (payroll service providers) are available to assist you. Visit the IRS Web site at www.irs.gov for a list of companies that offer IRS e-file for business products and services. The list provides addresses, telephone numbers, and links to their Web sites.

IMPORTANT REMINDERS:

* Keep a copy of this notice in your permanent records. This notice is issued only one time and IRS will not be able to generate a duplicate copy for you. You may give a copy of this document to anyone asking for proof of your EIN.
* Use this EIN and your name exactly as they appear at the top of this notice on all your federal tax forms.
* Refer to this EIN on your tax-related correspondence and documents.
* Provide future officers of your organization with a copy of this notice.

Your name control associated with this EIN is TYCO. You will need to provide this information, along with your EIN, if you file your returns electronically.

If you have questions about your EIN, you can contact us at the phone number or address listed at the top of this notice. If you write, please tear off the stub at the bottom of this notice and include it with your letter. Thank you for your cooperation.
OPERATING AGREEMENT
OF
TYCOON I OPERATIONS, LLC

THIS OPERATING AGREEMENT (this "Agreement") is entered into and made effective as of July 22, 2020 (the "Effective Date") by and between TYCOON I OPERATIONS, LLC, a Michigan limited liability company (the "Company"), and TYCOON HOLDINGS, LLC, a Michigan limited liability company and sole member of the Company (the "Member").

Background

A. The Company was formed on July 22, 2020 as a Michigan limited liability company.

B. The undersigned desires to memorialize its rights and obligations with respect to the Company pursuant to the terms of this Agreement.

Agreement

In consideration of the foregoing background and for other good and valuable consideration, the receipt and sufficiency of which is hereby acknowledged, and intending to be legally bound hereby, the parties agree as follows:

ARTICLE I
DEFINITIONS

The following capitalized terms used in this Agreement shall have the following meanings (unless otherwise expressly provided herein):

"Act" means the Michigan Limited Liability Company Act, as amended.

"Business" means the principal business of the Company, which shall be to own and manage investments.

"Capital Contribution" means any contribution of cash or property to the Company, or any obligation to contribute cash or property to the Company, whenever made.

"Certificate" means the Articles of Organization as filed by the organizer of the Company with the Department of State of the State of Michigan, as amended.

"Code" means the Internal Revenue Code of 1986, as amended, or corresponding provisions of subsequent superseding federal revenue laws.

"Interest" means the Member's entire interest in the Company.
“Person” means any individual, trust, partnership, corporation, limited liability company or entity.

ARTICLE II
FORMATION OF COMPANY

2.1 Formation. The Company has been organized as a Michigan limited liability company by executing and delivering the Certificate in accordance with and pursuant to the Act.

2.2 Name. The name of the Company is Tycoon I Operations, LLC.

2.3 Registered Office. The address of the registered office of the Company shall be The CSC – Lawyers Incorporating Service, 601 Abbot Road, East Lansing, Michigan 48823, or at such other place as the Member may from time to time determine. The registered office of the Company may be changed from time to time by amending the Certificate in accordance with the Act. The Company may maintain such other offices, including, but not limited to, a principal place of business as the Member shall determine.

2.4 Purpose. The purposes of the Company shall be (a) to advance and grow the Business, (b) to engage in all other lawful business authorized pursuant to the Act, and (c) to make, enter into and perform any contracts and other undertakings, and to engage in any activities and transactions as may be ancillary to or necessary or advisable to carry out the foregoing purposes.

2.5 Term. The term of the Company shall be perpetual unless the Company is earlier dissolved in accordance with the provisions of this Agreement.

ARTICLE III
CAPITAL CONTRIBUTIONS; LOANS; DISTRIBUTIONS

3.1 Capital Contributions. The Company shall keep a record of all Capital Contributions made by the Member. The Member shall not be required to make any Capital Contribution to the Company not specifically agreed to in writing between the Member and the Company.

3.2 Loans. Any and all loans made to the Company by the Member shall not be considered Capital Contributions.

3.3 Distributions. Distributions shall be made to the Member (in cash or in kind) at such times and in such amounts determined by the Member and as permitted by applicable law.
ARTICLE IV

MEMBER

4.1 Member. The name and address of the Member is:

Tycoon Holdings, LLC
2055 Crooks Road, Suite B
Rochester Hills, MI 48309

4.2 Management. The Company shall be initially managed by Heller Investment Holdings, LLC.

4.3 Right to Rely on Member. Any Person dealing with the Company may rely (without duty of further inquiry) upon a certificate signed by a designee of the Member as to:
(a) the identity of the Member;
(b) the existence or non-existence of any fact or facts which constitute a condition precedent to acts by the Member or which are in any manner germane to the affairs of the Company;
(c) the Persons who are authorized to execute and deliver any instrument or document of the Company; or
(d) any act or omission by the Company or any other matter whatsoever involving the Company or the Member.

4.4 Authority to Designate Officers. The Member may elect, appoint or designate, by resolution or otherwise, individuals as officers of the Company and delegate to such officers such powers, authority and responsibilities as are (i) set forth in the designation or delegation, and (ii) necessary to carry out and implement the management decisions of the Member. The Member may remove any officer, with or without cause, at any time. Any officer may resign at any time by giving written notice to the Company. Any resignation shall take effect as of the date of the Company’s receipt of such notice or at any later time specified in such notice (unless such officer is otherwise removed prior to such date); and unless otherwise specified in such notice, the acceptance of the resignation shall not be necessary to make it effective. Unless the Member decides otherwise, if the title to an officer of the Company is one commonly used for officers of a business corporation, the assignment of such title shall constitute the delegation to such individual of the authority and duties that are normally associated with that office. The current officers of the Company are as set forth on Schedule A attached hereto, as may be amended from time to time.

4.5 Liability of Member and Officers. Neither the Member nor any officer, agent or representative of the Member, or officer of the Company, shall be liable to the Company or to the Members, as applicable, for (i) the performance of, or the failure to perform, any act or duty on behalf of the Company if, in good faith, the Members or officer determined that such conduct was in the best interests of the Company and such conduct did not constitute fraud, gross negligence or reckless or intentional misconduct, (ii) the termination of the Company and this Agreement pursuant to the terms hereof, and (iii) the performance of, or the failure to perform, any act on behalf of the Company in good faith reliance on advice of legal counsel, accountants or other professional advisors to the Company.
4.6 **Indemnification.** The Company shall indemnify, defend and hold the Member and the officers, agents and representatives of the Member, and each officer of the Company and, in the discretion of the Member, each employee of the Company, harmless from and against any expense, loss, damage or liability incurred or connected with, or any claim, suit, demand, loss, judgment, liability, cost or expense (including reasonable attorneys' fees) arising from or related to, the Company or any act or omission of such Member (or officer, agent or representative of the Member) or officer (or employee) and amounts paid in settlement of any of the foregoing, to the fullest extent provided or allowed by the laws of the State of Michigan. The Company may advance to any such Person the costs of defending any claim, suit or action against such Person.

4.7 **Title to Company Property.** All real and personal property shall be acquired in the name of the Company and title to any property so acquired shall vest in the Company itself rather than in the Member.

**ARTICLE V**

**ACCOUNTING AND TAX MATTERS**

5.1 **Accounting Principles.** The Company's financial statements shall be prepared and its profits and losses shall be determined in accordance with methods of accounting selected by the Member, which need not be the same as the method of accounting used for tax purposes.

5.2 **Returns and Other Elections.** The Member shall cause the preparation and timely filing of all tax returns required to be filed by the Company pursuant to the Code and all other tax returns deemed necessary and required in each jurisdiction in which the Company does business. All elections permitted to be made by the Company under federal or state laws shall be made by the Member in its sole discretion. So long as the Company has only one member, the Company shall be treated as a disregarded entity for income tax purposes.

**ARTICLE VI**

**TRANSFERS: ADDITIONAL MEMBERS**

6.1 **Transferability of Membership Interest.** The Member's Interest in the Company is freely transferable or assignable, in whole or in part, either voluntarily or by operation of law.

6.2 **Admission of Additional Members.** Additional members of the Company may be admitted to the Company at the direction of the Member only if a new operating agreement or an amendment and restatement of this Agreement is executed by such additional member or members.
ARTICLE VII
DISSOLUTION AND LIQUIDATION

7.1 Dissolution.

(a) The Company shall be dissolved and its affairs wound up and terminated only upon the determination of the Member. The dissolution or bankruptcy of the Member or the occurrence of any other event that terminates the continued membership of the Member shall not cause a dissolution of the Company.

(b) Dissolution of the Company shall be effective on the day on which an event described in Section 7.1(a) above occurs, but the Company shall not terminate until articles of dissolution shall be filed with the Department of State of the State of Michigan and the assets of the Company are distributed as provided in Section 7.2 below. Notwithstanding the dissolution of the Company, prior to the termination of the Company, the business of the Company and the affairs of the Member shall continue to be governed by this Agreement.

7.2 Winding Up. Upon dissolution, the Company shall continue until the winding up of the affairs of the Company is completed and a certificate of dissolution has been filed pursuant to the Act. Upon the winding up of the Company, the Company’s property shall be distributed (a) first to creditors, including the Member if the Member is a creditor, to the extent permitted by law, in satisfaction of the Company’s liabilities, and (b) then to the Member. Distributions shall be in cash or property or partly in both, as determined by the Member.

ARTICLE VIII
MISCELLANEOUS PROVISIONS

8.1 Notices. Any notice, demand or communication required or permitted to be given by any provision of this Agreement shall be in writing and shall be deemed to have been delivered (a) two business days after being sent by registered or certified United States mail, or (b) upon delivery if hand delivered, sent via facsimile transmission or electronic mail. If delivered to the Member, such notice shall be delivered to his address as it appears in Section 4.1 above. If to the Company, such notice shall be delivered to its principal place of business.

8.2 Governing Law. This Agreement, and the application and interpretation hereof, shall be subject to and governed exclusively by its terms and by the laws of the State of Michigan, without regard to its conflicts of laws provisions.

8.3 Construction. Whenever the singular number is used in this Agreement and when required by the context, the same shall include the plural and vice versa, and the masculine gender shall include the feminine and neuter genders and vice versa. Unless expressly stated otherwise, Section and Article references herein shall refer to the Sections and Articles of this Agreement.

8.4 Waivers. No waiver by any party of the breach of any provision hereof shall be deemed to constitute a waiver of any continuing or subsequent breach of such provision or any other provision hereof.
8.5 **Severability.** If any provision of this Agreement or the application thereof to any Person or circumstance shall be invalid, illegal or unenforceable to any extent, the remainder of this Agreement and the application thereof shall not be affected and shall be enforceable to the fullest extent permitted by law, provided that the essential purpose of this Agreement is not frustrated.

8.6 **Heirs, Successors and Assigns.** The covenants, terms, provisions and agreements herein contained shall be binding upon, and inure to the benefit of, the parties hereto and, except as otherwise provided to the contrary, their respective heirs, executors, administrators, legal representatives, successors and permitted assigns.

8.7 **Entire Agreement.** This Agreement embodies the entire agreement and understanding between the parties hereto with respect to the subject matter hereof and supersedes all prior agreements and understandings relating to such subject matter.

[SIGNATURES APPEAR ON FOLLOWING PAGE]
IN WITNESS WHEREOF, the parties hereto have caused this Agreement to be signed as of the Effective Date.

STAFFING PLAN

Summary of Job Creation, Compensation and Budget:

As discussed in detail below, we anticipate creating approximately 59 jobs at our Orion Township Cultivation Facility.

<table>
<thead>
<tr>
<th>Type of Marijuana Facility</th>
<th>Proposed Location</th>
<th>Total Jobs Per Facility</th>
<th>Expected Annual Payroll</th>
</tr>
</thead>
<tbody>
<tr>
<td>Cultivation Facility</td>
<td>Orion Township</td>
<td>59</td>
<td>$3,750,000.00</td>
</tr>
</tbody>
</table>

We pay our cultivation facility employees a minimum hourly wage of $15. We also provide a generous benefit package that includes the following:

- Health Insurance
- Paid Holidays
- Paid Time Off
- 401K Plan with 2% Match
- Performance Incentives

Out of our 3.75MM expected annual payroll, Tycoon I Operations expects to allocate $630,000 toward benefits for all full-time employees!

We intend to source our employees first from Orion Township, then into the surrounding regional area. Our job listings will always be listed in the Orion Township area first to accumulate as many qualified candidates as possible.

Attached is a table of the proposed positions at our Orion Cultivation Facility:

The aforementioned application was reviewed for compliance with the location requirements of Article VI of Ordinance No. 154 and the finds are detailed below:

Article V, 1. – The Facility must be located in the Township’s IP (Industrial Park) district: The parcels are zoned IP (Industrial Park) as required.

Article V, 2 – The Facility cannot be within one thousand five hundred (1,500) feet of a “church” in the Township: Article VI, 7 states that the distances specified in the Ordinance shall be measured from building edge to building edge. The applicant stated within their application that the facility is more than the required 1,500 feet. Using GIS, a measurement was taken from the edge of the property where the building is located (for simplicity vs. from edge of building which is further) to the edge of the closest church and it was over 1,600 feet.

Article VI, 3 – The Facility cannot be within two thousand (2,000) feet of a residence located in a R-1, R-2, R-3, SF, SE, SR, RM or MHP zoning district: Article VI, 7 states that the distances specified in the Ordinance shall be measured from building edge to building edge. The applicant stated within their application that the facility is more than the required 2,000 feet. Using GIS, a measurement was taken from the edge of the property where the building is located (for simplicity vs. from edge of building which is further) to the edge of the closest residential property line (for simplicity) and it was 2,500 feet.

Article VI, 4 – The Facility cannot be within two thousand five hundred (2,500) feet of a registered “school” within the Township: Article VI, 7 states that the distances specified in the Ordinance shall be measured from building edge to building edge. The applicant stated within their application that the facility is more than the required 2,500 feet. The closest school is over 2 miles from the parcel. (Scripps and Stadium Rds.)
Article VI, 5 – The Facility shall not have an ingress or egress on a street or road that has an average traffic volume in excess of six thousand (6,000) vehicles per day, as calculated by averaging the three (3) most recent Average Annual Daily Traffic (AADT) counts (as available), as reported by Southeast Michigan Council of Governments (SEMCOG): The building has ingress and egress off of Premier Drive. SEMCOG’s website does not contain any traffic count reports for Premier Dr.

Article VI, 6- The Facility shall not have an ingress or egress on a street or road that directly also serves as an ingress or egress to a residential road or property located in a R-1, R-2, R-3, SF, SE, SR, RM or MHP zoning district. The building has both ingress or egress off of Premier Dr. Premier Dr. does not serve as an ingress and/or egress to any property located in a R-1, R-2, R-3, SF, SE, SR, RM or MHP zoning district.

Article VI, 7 - Distances specified in this Ordinance shall be measured from building edge to building edge. The measurements, unless noted differently, were measured from building edge to proposed building edge.

Article VI, 8 – If the Facility shall need a variance from what is set forth in Article VI Sections one (1) through six (6) above, the Applicant may submit a formal request for a variance to the Zoning Board of Appeals (“ZBA”). The ZBA shall only consider a variance request that is no more than fifteen percent (15%) out of compliance with the above location regulations: The applicant is not requesting any variances from the ZBA.

Article VI, 9 – It is the Township’s intention that Growers, Processors, Safety Compliance Facilities and Secured Transporters may operate within the same building under the following conditions: each licensed entity remains distinct and separate within different working area and separate record keeping systems: The applicant is requesting a Class “C” Grow - Medical facility only.

Article VI, 10 –The location shall meet all applicable Ordinances and promulgated standards of the Township and, prior to opening, shall demonstrate to the Township that it meets the rules and regulations promulgated by the State Marijuan Regulatory Agency (MRA):

ITEMS TO BE ADDRESSED: These items are unknown at this time. It is recommended that any approval be conditioned upon this requirement.

Article VI, 11 – The Facility location shall conform to all standards of the zoning district in which it is located: This condition has been met. The building itself has received site plan approval.
Article VI, 12 – If the Facility location is currently vacant land, the applicant must submit a site plan and building plans with the Application. The application is for an improved parcel that has received site plan approval.

Article VI, 14 – Based upon an application for or amendment of a Conditional Rezoning, PUD, or other use Development Agreement of sufficient specificity, it is within the sole discretion and judgment of the Township Board of Trustees to consider and waive any or all of the Location Requirements of this Article VI based upon any or all of 3 factors listed in Article VI 14 a,b, and c.: The applicant is not requesting any waivers.

Summary: I have reviewed the application as it relates to Ordinance No. 154 Article VI – Location Requirements. I am agreeable with the recommendation to approve this application with the conditions that:

1. The applicant meets all other applicable Township Ordinances and promulgated standards of the Township and, prior to opening, shall demonstrate to the Township that it meets the rules and regulations promulgated by the State Marijuana Regulatory Agency (MRA).

Re: Marihuana Facility Permit Application; Tycoon I Operations, LLC  
180 Premier Drive, Orion Charter Township, MI 48359  
Medical Class C Grow 4 of 4

Dear Madam Clerk:

Please find attached a Marihuana Facility Permit Application and all exhibits for four Medical Class C Grow permits to operate at 180 Premier Drive, Orion Charter Township, MI 48359. This application represents four of four of the medical permits.

If the Township believes any additional information or materials are required for this filing, please do not hesitate to contact us. Kindly direct all communications regarding this application to Aaron Fogleman either by phone at 248.920.8770 or by email at licensing@gloriouscanna.com.

We look forward to contributing significantly to the Township through economic development, training and employment, education and outreach, and to becoming a valuable community partner.

Thank you for your consideration.
Pursuant to the Charter Township of Orion Ordinance 154, Licensed Marihuana Facilities Ordinance, the following application is intended to collect information and documentation establishing the applicant’s conformance with the ordinance. All applicants should note that the approval of a Marihuana Permit will be based upon the accuracy and completeness of the information provided. In the event applications are received in excess of the permitted number of locations within the Ordinance or two or more applicants have similar qualifications, the Charter Township of Orion reserves its right to approve a permit which in the opinion of the Township best meets its goals and safeguards as set forth in the Ordinance. No financial or other right is established by the payment of the non-refundable application fee. All applications for renewal of a permit shall be reviewed per the standards set forth in the Ordinance. The Charter Township of Orion reserves the right to approve or deny the permit based upon the failure of any applicant to establish to the satisfaction of the Township any requirement, standard or goal of the Ordinance. The applicant understands this determination may involve a subjective interpretation of the application. Any permit granted by the Township is contingent upon the State of Michigan granting a state license for the specific license applied for under this ordinance.

SECTION A- APPLICANT

1. Name of Applicant: Tycoon I Operations, LLC
   Authorized Signer (of not an individual): Daryl Heller

   Address of Applicant: 2055 Crooks Rd, Suite B

   Rochester Hills, MI 48309

5. If the Applicant or owner or any operator is a licensed caregiver under the Michigan Medical Marihuana Act, please list their name and address, and caregiver ID number issued by the State of Michigan, N/A

6. For any corporation or other legal entity who has a financial interest or affiliation with the requested permit, please state the following:

   Name: Please see Organization Structure in Exhibit 1
   Name of Authorized Signer: __________________________
   Address: __________________________________________
   Interest or Affiliation: ____________________________

SECTION B- FACILITY LOCATION

7. Name of proposed facility: Oakland Business Park, Building B

8. Location of proposed facility: 180 Premier Drive

Orion Charter Township, MI 48359
9. Please provide a preliminary floor plan sketch showing the location of all facility operations within an existing building, or for new construction a site plan for the parcel. Attach as Exhibit “A”
   ☐ Document(s) attached. If not attached, why not and when is applicant expected to supplement: ____________________________

10. With respect to the location of the facility, please state with specificity the exact location, address, suite number and, if necessary, the location of the facility within a building or the parcel of land. This location should include the distance in feet from each property line. Attach as Exhibit “B”
   ☐ Document(s) attached.
   If not attached, why not and when is applicant expected to supplement: ______________

11. Please provide evidence of the Applicant’s property interest in the proposed location. Provide copies of documentation showing a legal and enforceable property interest. Attach as Exhibit “C”.
   ☐ Document(s) attached.
   If not attached, why not and when is applicant expected to supplement: ______________

12. Please confirm and establish that the facility is located within the Township’s Industrial Park district (“IP”); is not within 1,500 feet of a church; is not within 2,000 feet of a residence located in the R-1, R-2, R-3, SF, SE, SR, RM or MHP Zoning Districts; is not within 2500 feet of a registered school and does not have ingress or egress on a street or road that has an average traffic volume in excess of 6,000 vehicles per day as calculated and reported by Southeast Michigan Counsel of Governments. Further, please show that the facility does not have an ingress or egress on a street or road that serves as an ingress or egress to a residential road or property located in a R-1, R-2, R-3, SF, SE, SR, RM or MHP Zoning District. For each of the above criteria, please attach any and all documents which will permit the Township to calculate compliance with the Licensed Marihuana Facilities Ordinance No. 154. At a minimum, provide a map showing the facility and measured distances (building edge to building edge).
   Attach as Exhibit “D”.
   ☐ Documents attached.
   If not attached, why not and when is applicant expected to supplement: ______________

   a) Is the Facility located in the Township’s IP (Industrial Park District) zoning district?
      ☐ Yes   ☐ No
b) Is the Facility more than one thousand five hundred (1,500) feet of any church in the Township?

☐ Yes ☐ No

c) Is the Facility more than two thousand (2,000) feet of any residence located in an R-1, R-2, R-3, SF, SE, SR, RM, or MHP zoning district?

☐ Yes ☐ No

d) Is the Facility more than two thousand five hundred (2,500) feet of any registered school within the Township.

☐ Yes ☐ No

For 10-12 above, please provide a map showing the facility and measured distances (building Edge to building edge.)

c) Does the facility have an ingress or egress on a street or road that has an average traffic volume of six thousand (6,000) or less vehicles per day, as calculated by averaging the three (3) most recent Average Annual Daily Traffic (AADT) counts (as available), as reported at the Southeast Michigan Council of Governments (SEMCOG) per the site semcog.org/Traffic-Counts?

☐ Yes ☐ No

f) Does the Facility have an ingress or egress on a street or road that does not also serve as an ingress or egress to a residential road or property located in a TR-1, R-2, R-3, SF, SE, SR, RM, or MHP zoning district?

☐ Yes ☐ No

Name of Facility ingress/egress Street or road: Premier Drive

13. Please state whether the Applicant will seek a variance from the Zoning Board of Appeals pursuant to Article 6(8) of the Orion Licensed Marihuana Facilities Ordinance No. 154.

☐ Yes ☒ No

If variance will be sought, specify location category(s) pursuant to Art 6 (1)-(6):__________________________
For each category variance sought, state the percentage the applicant will seek: _____%  
(Not to exceed 15%)  

SECTION C - FACILITY REQUIREMENTS  

14. When available, submit to the Township a copy of the Applicant’s application for a  
license submitted to the State of Michigan, Department of Licensing and Regulatory  
Affairs, for each facility permit requested.  
Attach as Exhibit “E”.  
☐ Document(s) attached.  
If not attached, why not and when is applicant expected to supplement:  
Phase 2 application with the State of Michigan requires a permit and signed attestation from the municipality.  
we expect to submit our application with the state by 03/01/2021.  

15. Is consumption and/or use of marihuana prohibited at the Facility?  
☐ ☐ Yes ☐ No  

16. Will all activity related to the Facility be done indoors?  
☐ ☐ Yes ☐ No  

17. Will all Marihuana contained within the building be in a locked Facility in accordance  
with the Michigan Medical Marihuana Act, MCL 333.26421 et seq., as amended  
(“MMMA”), the Michigan Medical Marihuana Facilities Licensing Act, MCL  
333.27101, et seq., and the Michigan Regulation and Taxation of Marihuana Act, MCL  
333.27951, et seq., as amended (“MRTMA”) as amended?  
☐ ☐ Yes ☐ No  

18. Please set forth an operations statement, plan and or outline showing that all facility  
activities shall occur indoors and in a building which is locked.  
Attach as Exhibit “F”  
☐ Document(s) attached.  
If not attached, why not and when is applicant expected to supplement:  

__________________________________________________________________________  

19. Will all necessary building, electrical, plumbing and mechanical permits obtained for any  
portion of the structure in which electrical wiring, lighting and/or watering devices are  
located?  
☐ Yes ☐ No
20. When available and prior to the issuance of any permit, the Applicant must submit all necessary building, electrical, plumbing and mechanical permits, as well as documented approval by the Orion Fire department showing compliance with the Michigan Fire Protection Code and confirmation that the storage of any chemical, herbicide, pesticide and or fertilizer has also been approved by the Orion Fire Department. 
Attach as Exhibit “G”.
☑ Document(s) attached.
If not attached, why not and when is applicant expected to supplement: ______________________

21. In any portion of the structure where the storage of any chemicals such as herbicides, pesticides, and/or fertilizers, do you agree to be subject to inspection and approval by the Orion Fire Department to ensure compliance with the Michigan Fire protection Code?

☑ Yes ☐ No

22. Will you ensure that no other uses, other than accessory uses, will be permitted within the same Facility other than those associated with cultivating, processing, transporting or testing marihuana?

☑ Yes ☐ No

23. Please state and/or provide documentation showing the plan that all litter and waste will be properly and safely removed and will not constitute a source of contamination in areas where marihuana is exposed. Further, please include how the applicant will dispose of rubbish so as to minimize the development of odor and minimize the potential for development of waste odor and waste from becoming an attracted, harborage or breeding place for pests. Please include a detailed description of the ventilation system. Attach as Exhibit “H.”
☑ Document(s) attached.
If not attached, why not and when is applicant expected to supplement: ______________________

a) Will litter and waste be properly removed and the operating systems for waste disposal maintained in an adequate manner so that they do not constitute a source of contamination in areas where marihuana is exposed?

X Yes ☐ No

b) Will floors, walls and ceilings be constructed in such a manner that they may be adequately cleaned and kept clean and in good repair?

X Yes ☐ No
c) Will there be there adequate screening or other protection against entry of pests, and will rubbish be disposed of so as to minimize the development of odor, minimize the potential for development of waste odor, and minimize the potential for waste becoming an attractant harborage or breeding places for pests?

☐ Yes  ☐ No

d) Will all buildings, fixtures and other facilities be maintained in a sanitary condition?

☐ Yes  ☐ No

e) Will each Facility center provide its occupants with adequate and readily accessible toilet facilities that will be/are maintained in a sanitary condition and in good repair?

☐ Yes  ☐ No

24. Please state how the Applicant intends to avoid excessive noise, dust, vibrations, glare, fumes or odors detectable to the normal senses beyond the boundaries of the property. Attach as Exhibit “I”.

☒ Document(s) attached.

If not attached, why not and when is applicant expected to supplement:  

a) Will each Facility be operated in a manner that does not create excessive noise, dust, vibrations, glare, fumes or odors detectible to the normal senses beyond the boundaries of the property on which that Marihuana Facility will operate/operates or in violation of any other ordinance?

☐ Yes  ☐ No

25. Please provide the plan and supporting documentation showing that all disposal systems for spent water and spent soil have been adequately and safely disposed of and accounted for.

Attach as Exhibit “J”.

☒ Document(s) attached.

If not attached, why not and when is applicant expected to supplement:  

26. Please provide a security and safety plan, and at a minimum showing the facilities surveillance systems and continuous monitoring systems of the entire premise as required by the ordinance.

Attach as Exhibit “K”.

☒ Document(s) attached.

If not attached, why not and when is applicant expected to supplement:  

7 2641
a) Will the Facility continuously monitor the entire premises with surveillance systems that include security cameras operating 24 hours a day, 7 days a week, every day of the year, and will these recordings be maintained for a period of at least 30 days?

☐ Yes  □ No

27. Please state and/or show the exterior signage or advertising identifying the facility. Attach as Exhibit “L”.
□ Document(s) attached.
If not attached, why not and when is applicant expected to supplement: ____________________________
The facility will only show the numbers associated with its address ____________________________

a) Do you understand and agree that any exterior signage or advertising identifying the Facility as a marijuana facility is prohibited?

☐ Yes  □ No

SECTION D- BUSINESS OPERATIONS AND SECURITY

28. Active business operations shall not be open outside of the hours of 7am and 9pm.

   suspended by Orion Township.

 Dated: 02/09/2021

Print name: Daryl Heller
A. & B. Facility Floor Plan
C. Lease Agreement
COMMERCIAL LEASE

This lease (the Lease), is entered into on November 1, 2020, between Premier Drive Tycoon I, LLC, with an address at 1615 S Telegraph Rd, Bloomfield Hills, MI (Landlord), and Tycoon I Operations, LLC (Tenant) on the terms and conditions listed below.

1. Description of the Premises. Landlord owns the real property, improvements and any and all structures thereon located at 180 Premier Drive, Orion Township, MI 48359 ("Premises"), consisting of approx. 72,000 square feet. Tenant shall have the right to use the Premises to conduct its daily business operations and for any ancillary or related purposes including the operation of a marijuana business.

2. Basic Lease provisions. The basic Lease provisions are stated below and further explained in the section referenced to the right of each provision:

(a) Term: 10 years
(See §3)
(b) Commencement Date: February 1, 2021
(See §3)
(c) Termination date: October 31, 2030
(See §3)
(d) Options: 1 option to renew for additional 10 years
(See §3)
(e) Monthly installment amount: $75,000 or $12.50; per square foot;
(See §4)
(f) Security deposit: $75,000.00
(See §5)
(g) Use: Tenant's desired business operation
(See §10)

3. Term. This Lease shall be for a term stated in section 2(a) commencing on the date stated in section 2(b) (the Commencement Date) and terminating on the date stated in section 2(c). The rent for the first month shall be prorated from date of occupancy, if the date of occupancy is after the first day of the month. Each succeeding lease year shall begin on the anniversary of the same date and continue until the termination of the Lease.

Provided that Tenant is not in default under this Lease at the end of the then current Lease term, Tenant shall have the right to renew the term of this Lease for the option period stated in section 2(d) by giving Landlord written notice of Tenant's intent to renew the Lease at least 120 days before the expiration of the then current term. The renewal shall be on the same terms and conditions as in this Lease, except that the minimum rent for each renewal term shall be increased by a percentage equal to the percentage increase in the Consumers Price Index (Bureau of Labor Statistics Washington, D.C., all Cities) (CPI) during the preceding term. The percentage increase shall be determined by comparing the latest available CPI before the Commencement Date of the Lease or the prior term, whichever shall apply, and the latest available CPI on or before the expiration of the immediately preceding initial or renewal lease term. The word “term” as used in this Lease shall include any renewal term.

4. Minimum rent. Tenant shall pay to Landlord as rent the sum stated in section 2(e), payable in monthly installments due in advance, on the first day of each month during the term of this Lease. All rent shall be paid to Landlord at the address set forth above or at such other address as Landlord may designate in writing, without any prior demand and without any deduction or offset.

If Tenant shall fail to pay any amount due from it to Landlord under this Lease when that amount shall be due, a one-time late charge of $50.00 shall be assessed and thereafter the amount of rent not paid shall be subject to a service charge until that amount is paid at the lesser of the rate of 5% per month or the highest rate permitted by law.

2653
5. Security deposit. Tenant, contemparaneously with the execution of this Lease, has deposited with Landlord the sum stated in section 2(f) as a security deposit. The deposit shall be held by Landlord, without liability for interest, as security for the faithful performance by Tenant of all the terms, covenants, and conditions of this Lease to be kept and performed by Tenant during the term of this Lease.

If Tenant fails to keep and perform any of its covenants of this Lease, Landlord at its option may appropriate and apply the entire deposit, or so much as may be necessary, to compensate Landlord for loss or damage sustained by Landlord due to Tenant's breach. If the entire deposit or any portion is appropriated and applied by Landlord for the payment of overdue rent or other sums due and payable to Landlord by Tenant, Tenant shall, on the written demand of Landlord, forthwith remit to Landlord a sufficient amount in cash to restore the security to the original sum deposited. Tenant's failure to do so within 5 days after receipt of demand shall constitute a breach of this Lease.

6. Taxes. Tenant shall pay or cause to be paid all real property taxes and special assessments levied against the Building including the Premises. Tenant shall pay all personal property taxes assessed against any personal property owned by Tenant on the Premises.

7. Maintenance and repair. Tenant shall maintain and repair and keep the Premises in good condition and repair, including the exterior windows and the electrical system. Landlord shall, at tenants expense, make all other repairs and replacements to the Building, including those of a structural or capital nature. Landlord shall, at tenants expense, enter into an annual maintenance contract with a licensed heating and mechanical firm for the maintenance of the heating and air conditioning equipment during the term. Landlord shall be obligated to make repairs only after Tenant has given Landlord written notice of the need for the repair, and only if the repair was not caused by the negligence or willful act of Tenant, its agents, employees, invitees, or licensees.

Tenant shall provide and pay for its own regular janitorial service to maintain the Premises in a neat and clean condition. Tenant shall be responsible for all repairs or replacements to the Building occasioned by the negligence or willful act of Tenant, its agents, employees, invitees, or licensees.

8. Utilities. Tenant shall have all utilities servicing the Premises metered in its own name and shall pay all charges and deposits for the utilities provided to or used in the Premises during the term of this Lease. Tenant shall also pay 100% of the water and sewer bill. Landlord shall not be liable in damages should the furnishing of any utilities be interrupted by fire or other casualty, accident, strike, labor dispute or disagreement, the making of any necessary repairs or improvements, or any other causes beyond the reasonable control of Landlord.

9. Liability insurance. Tenant shall indemnify Landlord and save Landlord harmless from any liability or claim for damages that may be asserted against Landlord by reason of any accident or casualty occurring on or about the Premises. Tenant shall, at its own cost and expense, obtain and keep in force a policy or policies of public liability insurance with an insurance company approved by Landlord, with liability coverage of an amount as recommended by Landlord’s insurance agent that, for the initial coverage, shall be not less than $1 million for injury or death to any one person, $3 million for injury or death to more than one person, and $500,000 regarding damage to property. Tenant shall furnish Landlord with certificates or other evidence acceptable to Landlord indicating that the insurance is in effect and providing that Landlord shall be notified in writing at least 30 days before cancellation of any material change in or renewal of the policy. All insurance policies shall name Landlord and any persons designated by Landlord as insured parties.

Any insurance maintained by either party pursuant to this section or under this Lease shall contain a
clause or endorsement under which the insurer waives all rights of subrogation against the other party, its agents or employees, regarding losses payable under the policy.

Any personal property kept on the Premises by Tenant shall be at Tenant's sole risk.

10. Use. Tenant shall use and occupy the Premises for the purpose stated in section 2(g) and for no other purpose without the prior written consent of Landlord. Tenant shall not intentionally and knowingly use the Premises for any purpose or in any manner in violation of any State law, local ordinance, rule or regulation adopted or imposed by the City in which the Premises is situated. Tenant shall not deface or injure the Premises or the Building, permit anything to be done on the Premises tending to create a nuisance or to disturb other tenants in the Building, or permit any activity in the Premises that will result in an increase of any premium, or cancellation of a policy, for insurance on the Premises or the Building.

11. Construction of leasehold improvements. Landlord grants Tenant express consent to construct certain leasehold improvements as may be required for Tenant's use. The cost of Tenant's leasehold improvements shall be paid for by Tenant. The improvements shall be constructed in a good and workmanlike manner.

12. Operations. Tenant's operations in conjunction with the Premises shall meet the requirements set forth below.

a. Tenant shall keep all garbage and refuse in the kind of container specified by Landlord. If Landlord shall provide or designate a service for picking up refuse and garbage, Tenant shall use the same at Tenant's cost. Tenant shall pay the cost of removal of any of Tenant's refuse or rubbish.

b. Tenant shall keep the Premises at a temperature sufficiently high to prevent freezing of water in any pipes and fixtures.

c. Tenant shall keep the outside areas immediately adjoining the Premises clean and free from dirt and rubbish to the satisfaction of Landlord, and Tenant shall not place or permit any obstructions or merchandise in those areas. Tenant shall water and maintain any flowers, shrubs, and trees located immediately adjoining the Premises.

d. Tenant shall only store and/or stock in the Premises goods, wares, and merchandise that Tenant intends to offer for sale at retail.

e. Tenant shall conduct its business in the Premises in a dignified manner and in accordance with high standards of store operation.

13. Restrictions on Tenant's activities. Without Landlord's written consent, Tenant shall not engage in the activities listed below.

a. Tenant shall not operate all or any part of its business in the Premises in any manner that is inconsistent with its intended use of the Premises.

b. Tenant shall not conduct any auction, fire, going-out-of-business, or bankruptcy sales in the Premises.

c. Tenant shall not operate or permit to be operated on the Premises any coin or token operated vending machines or similar devices for the sale of goods, wares, merchandise, food, beverages, or service.
including, without limitation, pay telephones, pay lockers, scale, and amusement devices without Landlord’s prior written consent.

d. Tenant and Tenant’s employees and agents shall not solicit business in the parking or other common areas of the Building, nor shall Tenant or its employees or agents distribute any handbills or other advertising matter in or on automobiles parked in the parking area or in other common areas without Landlord’s prior written consent.

e. Tenant and its employees and agents shall not park any vehicle on the Building land except in areas that are designated by Landlord for that use.

14. Assignment and subletting. Tenant agrees not to sell, assign, mortgage, pledge, or in any manner transfer this Lease or sublet the Premises or any portion of the Premises without the prior written consent of Landlord. Notwithstanding any assignment or subletting, Tenant shall remain fully liable on this Lease. Landlord’s right to assign this Lease is and shall remain unqualified. On any transfer of Landlord’s interest in the Premises in which the purchaser assumes all obligations under this Lease, Landlord shall be free of all obligations of Landlord under this Lease and shall not be subject to any liability resulting from any act or omission or event occurring after the conveyance. Tenant agrees to recognize the transferee as Landlord, and Tenant further agrees, at Landlord’s request, to execute and deliver such documents and estoppel letters as Landlord may request to assist in that transfer.

15. Estoppel letter. On not less than 10 days’ prior written notice from Landlord, Tenant shall sign and deliver to Landlord an estoppel letter that

a. certifies that this Lease is unmodified and in full force and effect (or, if modified, states the nature of the modification and certifies that this Lease, as so modified, is in full force and effect);

b. acknowledges that there are not, to Tenant’s knowledge, any uncured defaults on the part of Landlord or specifying the default if any are claimed;

c. certifies the date to which all forms of rent have been paid; and

d. certifies the amount, if any, of the security deposit paid to Landlord.

Tenant’s failure to deliver such an estoppel letter within the 10 days shall be conclusive on Tenant that

a. this Lease is in full force and effect, without modification except as may be represented by Landlord;

b. there are no uncured defaults in Landlord’s performance;

c. not more than one month’s rent has been paid in advance; and

d. no security deposit has been paid except as may be represented by Landlord.

16. Acceptance of Premises. The occupancy by Tenant of the Premises shall constitute an acknowledgment by Tenant that the Premises are then in the condition called for by this Lease.

17. Damage or destruction. If, during the term of this Lease, the Premises shall be partially or totally destroyed by fire or other casualty covered by insurance so as to become partially or totally untenable,
the same shall be repaired as promptly as possible with the insurance proceeds unless this Lease is terminated. In the event of damage or destruction, if this Lease is not terminated, the rent shall be abated proportionately to the loss of use suffered by Tenant.

If, during the term of this Lease, the Premises shall be partially or totally destroyed by fire or other casualty, and the cost of restoring the Premises to its condition prior to the damage shall equal or exceed 40 percent of its fair replacement value immediately prior to the damage, or if the Premises are damaged by any casualty not insured against by Landlord, Landlord shall have the right to terminate this Lease by giving Tenant written notice of its election to do so within 15 days after the date on which the damage occurs. On the giving of notice, the Lease shall terminate as of the date on which damage occurred and the rent shall be adjusted to that date. In default of notice by Landlord, this Lease shall continue and Landlord shall cause the Premises to be repaired or restored with due diligence.

18. Condemnation. If the whole or any part of the Premises shall be taken by any public authority under the power of eminent domain, the term of this Lease shall cease on that part to be taken from the day the possession is acquired by the public authority and the rent shall be paid up to that date. If the portion of the Premises taken substantially impairs the usefulness of the Premises for the purpose for which the Premises were leased, Tenant shall have the right either to terminate this Lease or to continue in the possession of the remainder of the Premises under the terms and conditions of this Lease except that the rentals shall be reduced in proportion to the amount of the Premises taken, and in the latter event, Landlord shall promptly restore the remainder to a reasonably tenantable condition. All damages awarded for the taking shall belong to and be the property of Landlord.

19. Alterations and signage. No improvements, alterations, additions, or physical changes shall be made on the Premises by Tenant without the prior written consent of Landlord.

Tenant agrees that it will not place or maintain on any exterior door, wall, or window of the Premises any signs, awning or canopy, or advertising matter, or other thing of any kind and will not place or maintain any decoration, lettering, or advertising matter on the glass of any window or door of the Premises that is not in conformity with all applicable governmental rules and regulations and the rules and regulations of the Building as se: forth by Landlord and further, without first obtaining Landlord's prior written approval. Tenant further agrees to maintain such sign, awning, canopy, decoration, lettering, advertising matter, or other thing as may be approved in good condition and repair at all times. Tenant further acknowledges that Landlord may, at its option, regulate the lettering size, style, and color of Tenant's sign so that all signs in the Building are of a like size, color, style of lettering, and like material. Tenant agrees that it will conform its sign to that as regulated by Landlord for the general use in the Building, regardless of how and in what manner Tenant normally designs its name for use in its sign and further regardless of whether or not Tenant uses the form and style of its sign as a trademark.

All alterations and improvements, but not moveable equipment and trade fixtures, put in at the expense of Tenant shall be the property of Landlord and shall remain on and be surrendered with the Premises at the termination of the Lease; provided, however, that Landlord may require that Tenant remove the alterations and improvements and repair any damages to the Premises caused by the removal.

20. Remedies and default. If Tenant shall default in the payment of any sums to Landlord when due and shall not cure such default within 7 days; or if Tenant shall default in the performance of any other covenant or condition of the Lease and shall not cure such other default within 30 days after written notice from Landlord specifying the default; or if Tenant or its agent shall falsify any report to be furnished to Landlord pursuant to the terms of this Lease; or in case Tenant shall be adjudicated a bankrupt or make any assignment for the benefit of creditors; then, in any such event, Landlord may
either (a) accelerate the full balance of the rental payable for the remainder of the term and sue for such sums or Landlord may terminate this Lease or (b) reenter the Premises, without terminating this Lease, and dispossess Tenant or any other occupant of the Premises and remove Tenant's effects and relet the same for the account of Tenant for such rent and on such terms as shall be satisfactory to Landlord, crediting the proceeds, first to the costs and expense of reentry, alterations and additions, and the expense of reletting, and then to the unpaid rent and the other amounts due during the remainder of the term. Tenant shall remain liable to Landlord for any unpaid balance.

In case suit shall be brought for recovery of possession of the Premises, for the recovery of any rent or any other amount due under the provisions of this Lease, or because of the breach of any other covenant on the part of Tenant to be kept or performed, and a breach shall be established, Tenant shall pay to Landlord all expenses incurred, including reasonable attorney fees, which shall be deemed to have been incurred on the commencement of the default and shall be enforceable whether or not the action is prosecuted to judgment.

21. Access to Premises. Landlord shall have the right to enter on the Premises at all reasonable hours to inspect and for access to the Premises to install, maintain, use, repair, and replace pipes, ducts, lights, conduits, plants, wires, floor coverings, and all other mechanical equipment serving the Premises.

22. Rules and regulations. Landlord reserves the right to adopt from time to time rules and regulations for the operation of the Building that are not inconsistent with the provisions of this Lease. Tenant and its agents, employees, invitees, and licensees shall comply with all those rules and regulations. Any such rules shall not dictate the days or time of business operation.

23. Waiver. The failure of Landlord to insist on a strict performance of any of the terms, covenants, or conditions of this Lease or rules and regulations of the Building shall not be deemed a waiver of any subsequent breach or default in the terms, covenants, and conditions or rules and regulations. This Lease may not be changed, modified, or discharged orally.

24. Notices. All notices required under this Lease shall be in writing and shall be deemed to have been given if either delivered personally or mailed by certified or registered mail to Landlord or to Tenant at their respective addresses set forth above or to such other address as either party may furnish in writing during the term of this Lease.

25. Quiet enjoyment. Landlord covenants and agrees with Tenant, its successors, and assigns that on Tenant's paying the rent and observing and performing all the terms, covenants, and conditions on Tenant's part to be performed and observed, Tenant may peaceably and quietly hold, have, occupy, possess, and enjoy the Premises for the full term of this Lease.

26. Subordination to mortgage. Any mortgage now or hereafter placed on the Premises shall be deemed to be prior in time and senior to the rights of Tenant under this Lease. Tenant subordinates all of its interest in the leasehold estate created by this Lease to the lien of any mortgage. Tenant shall, at Landlord's request, execute any additional documents necessary to indicate this subordination including, if requested, an estoppel letter as set forth in section 15. If Tenant fails to supply the estoppel letter, the provisions in section 15 to cover that failure shall apply. Notwithstanding the foregoing, Tenant's possession of the Premises under this Lease shall not be disturbed by any mortgagee, owner, or holder of note secured by a mortgage placed on the Premises, unless Tenant shall breach any of the provisions of this Lease and the lease term of Tenant's right to possession shall have been lawfully terminated in accordance with the provisions of this Lease.
27. Building revisions by Landlord. Landlord reserves the absolute right at any time and from time to time to make changes or revisions in the Building, including such changes to the parking lot, driveways, signs, and sidewalks, by making additions to, subtractions from, or rearrangements of the improvements in the Building, as long as the revisions do not materially affect Tenant's use of the Premises.

28. Holding over. If Tenant remains in possession of the Premises after the expiration or termination of the Lease, it shall be deemed to be occupying the Premises as a tenant from month to month, subject to all the conditions, provisions, and obligations of this Lease insofar as the same can be applicable to month-to-month tenancy, except that the rent shall increase to 2 times the rent owing at the end of the lease term. The month-to-month tenancy shall be cancelable by either party on 30 days' written notice to the other.

29. Recording. Tenant shall not record this Lease without the written consent of Landlord; however, on the request of either party the other party shall join in the execution of a memorandum or so-called "short form" of this Lease for the purpose of recordation. The memorandum or short form of this Lease shall describe the parties, the Premises, and the term of this Lease and shall incorporate this Lease by reference.

30. Captions and headings. The captions and headings used in this Lease are intended only for convenience and are not to be used in construing this Lease.

31. Applicable law. This Lease shall be construed under the laws of the state of Michigan. Venue for any disputes under this agreement shall lie in Oakland, Michigan. If any provision of this Lease or the application to any person or circumstances shall, to any extent, be invalid or unenforceable, the remainder of this Lease shall not be affected and each provision of this Lease shall be valid and enforceable to the fullest extent permitted by law.

32. Successors. This Lease and the covenants and conditions shall inure to the benefit of and be binding on Landlord, its successors, and assigns and shall be binding on Tenant and permitted assigns of Tenant.

33. Effective date. The parties have caused this agreement to be signed and shall be effective as of the day and year first above written.

(signature page to follow)
IN WITNESS WHEREOF, the parties have respectively signed and sealed this Lease as of the day and year first above written.

Business & Operations Plan

PREAMBLE:
Tycoon I Operations, LLC ("Applicant") will strictly comply at all times with applicable state law and local ordinance codes, including rules and emergency rules that may, from time to time, be promulgated by the state or Orion Township. All business activities will take place indoors in a locked facility. Applicant has retained a law firm with established expertise in Michigan marihuana law to ensure continuing education and compliance with the laws as they evolve. The statements made in this application are made with a clear and thorough understanding of state and local requirements as they exist on the date of application, but the operations of Applicant will be amended to comply with all future derivations of the state and municipal laws.

I. OVERVIEW
Applicant is a Michigan limited liability company formed to operate twenty four (24) commercial marihuana GROWER (Class C) facilities whose primary mission is to provide a source of high-quality marihuana to processors and provisioning centers across the state of Michigan.

II. ADMINISTRATION
A. Location & Zoning
   i. Buffers
      a. The distances described are measured horizontally between the nearest property lines.

      b. The facility is not within 1,000 feet of any educational institution or school, college or university, church, house of worship or other religious facility, licensed child care, preschool, public library, or public or private park.

   ii. Applicant is leasing the property pursuant to the attached lease and the owner/lessor of the property authorizes the use of the property as a marihuana facility in the lease agreement, which is attached.

B. Organizational Structure
   i. The Applicant is organized as a Michigan limited liability company and is in good standing.

   ii. The members, owners, directors, officers, and managers of the Applicant are listed in the Organization Structure.
iii. The members, owners, directors, officers, and managers of Applicant meet all eligibility requirements to own and operate a marihuana grower facility as set forth in state law and local ordinance.

a. No member, owner, director, officer, manager or any person having an ownership interest in the application has an interest in a secure transport facility license or a safety compliance facility license.

b. The Applicant meets all eligibility requirements to own and operate a marihuana grower facility as set forth in state law and local ordinance.

iv. The Applicant has never applied for been granted any commercial license or certificate issued by a licensing authority in Michigan or any other jurisdiction that has been denied, restricted, suspended, revoked or not renewed.

C. Permits & Licenses

i. This Business and Operations Plan is submitted as an addendum to the applications for Ten Orion Township permits to operate a business and the Orion Township special use/site plan application.

ii. All operations in this Business and Operations Plan will comply with regulations issued by the Department of Licensing and Regulatory Affairs (LARA).

iii. Applicant intends to apply for, obtain, operate, and comply with a state license to operate a grower facility under the MMFLA and MRTMA.

iv. The business will not open for operation until it receives a state license to operate under the MMFLA and MRTMA and all applicable permits and licenses from Orion Township.

v. Upon granting of a permit to operate a grower facility, Applicant will prominently display the original Orion Township permit at the Permitted Premises in a location where it can be easily viewed by the public, law enforcement, and administrative authorities.

vi. At all times the facility will hold a valid local Permit and State Commercial Marihuana Facility License for a Grower.

vii. In addition to complying with the Orion Township Ordinance Authorizing and Permitting Commercial Marihuana Facilities, Applicant will comply with all Township Ordinances, including without limitation, the Township Zoning Ordinance, as well as the requirements of the County Road Commission, County
Building Inspector, County Drain Commissioner, District Health Department, Soil Erosion Officer, County Conservation Service, areas fire departments, Michigan Department of Natural Resources, Michigan Department of Environmental Quality, and any other applicable township, county, state and federal statutes.

viii. Applicant will have available, at all times, documentation that local and State sales tax requirements, including any requirement for a license, are satisfied.

ix. Applicant will provide updated operational and security plans to Orion Township upon request and prior to any proposed changes in its operations.

D. Inspections
i. Applicant will provide access to the facility for inspection to any federal, state, or local law enforcement officer to ensure compliance with the permit.

ii. Applicant consents to inspections as required in the MMFLA and pursuant to the Orion Township ordinance.

III. OPERATIONS
Applicant proposes 24 state-licenses in a single marihuana grower facility for the cultivation, drying, trimming, curing, and packaging of marihuana for sale to a processor or provisioning center pursuant to the requirements and restrictions of the Marihuana Facilities Licensing Act, PA 281 of 2016, and all future derivations thereof. This facility will be located in a secure industrial facility.

A. Compliance with State Regulations
Applicant will meet all operating regulations established by LARA and the Marihuana Licensing Board for Growers, including without limitation, any standards, procedures, and requirements for:

i. quality control
ii. chain of custody
iii. marihuana storage
iv. waste disposal
v. labeling and packaging
vi. storage of chemicals

B. Description of the Facility
Applicant’s facility will be used exclusively for the cultivation, drying, trimming, curing, and packaging of legal usable marihuana for sale to processors or provisioning centers.

C. Entry to Facility
Generally, the public will not be allowed entry to the facility. Notwithstanding the forgoing, Applicant will not allow entry to the facility to anyone under the age of 18.
D. Employees
Applicant anticipates having between fifteen (15) and (65) full and part-time employees, as many as possible of whom will be local community residents. None of Applicant’s employees will be registered primary caregivers during the employment with Applicant. Please reference the staffing plan for a detailed list of potential positions.

E. General Policies
i. Applicant will only sell or transfer marihuana to a processor or provisioning center.

ii. Applicant will only use secure transporters in the distribution or exchange of marihuana or currency with processors or provisioning centers.

iii. Applicant will not promote the unlawful use of marihuana or any other drug or provide or otherwise make marihuana available to any person who is not legally authorized to receive Marihuana under state law.

iv. No owner, the Applicant, or any employee of Applicant will grow marihuana in the Permitted Premises for his or her own use.

v. The following activities are prohibited on the Permitted Premises:
   a. the sale, consumption, or use of alcohol, or controlled substances;
   b. smoking or consumption of marihuana.

F. Cultivation Plan
i. Propagation
   a. Lighting
   b. Watering
   c. Nutrient Application
   d. Integrated Pesticide Management

ii. Harvesting and Trimming

iii. Drying and Curing

iv. Packaging

v. Distribution
   a. All marihuana products will be validated from a verified transport manifest, created from the statewide monitoring system. The manifest includes a detailed form with the number of packages and detailed content for confirmation/validation with secure transporters and purchasers of the shipment (processors or provisioning centers).
   b. Each transport shipment will be processed in the following manner:
      1. Entry of shipped inventory into the statewide monitoring system.
      2. Confirmation with Secure Transporter of valid and verified transport manifest, including product count, weight of each package or item
c. State certified scales will be used to verify and weigh all marihuana, in whatever form.

G. Inventory Management
i. Applicant will not control or have on the Permitted Property an amount of marihuana plants or usable marihuana that exceeds any amount permitted by the state License or the Township permit.

ii. Tracking and Monitoring
Applicant will use a third-party inventory control and tracking system to interface with the statewide monitoring system. The third-party inventory control and tracking system will have the capabilities necessary to comply with the requirements applicable to a grower licensee:

a. Track all marihuana plants and packages;
b. Track lot and batch information throughout the entire chain of custody;
c. Track transportation of product;
d. Track marihuana waste;
e. Track all marihuana product transfers;
f. Track sales and returns;
g. Track marihuana plant, batch, and product destruction;
h. Perform batch recall tracking;
i. Report and track loss, theft, or diversion of marihuana products;
j. Receive testing results electronically from a safety compliance facility;
k. Provide access to state agencies and law enforcement as required;
l. Report all inventory discrepancies.

iii. Applicant will enter all transactions, current inventory, and other information into the statewide monitoring system as required by the MMFLA, the Marihuana Tracking Act, and any associated regulations.

iv. Inventory reconciliation - At the end of each day, physical inventory counts will be reconciled with the third-party inventory control and tracking system.

v. Returns

H. Quality Control
i. Sampling (by Licensed Safety Compliance Facility)

ii. Batch Testing (by Licensed Safety Compliance Facility)

iii. Transport to Safety Compliance Facility (by Secured Transporter)

I. Signage and Advertising

2671
i. Applicant has no proposed signage at this time, but will amend this plan accordingly and provide the township with its sign permit application if and when it does wish to propose signage.

ii. Applicant will not display pictures, photographs, drawings or other depictions of Marihuana or Marihuana Paraphernalia on the outside of the Permitted Premises, nor will such pictures, photographs, drawings, or other depictions of Marihuana or Marihuana Paraphernalia be visible outside of the Permitted Premises on the Permitted Property.

iii. The words "Marihuana," or "cannabis," and any other words, used or intended to convey the presence or availability of Marihuana will not appear on the outside of the Permitted Premises, nor will "Marihuana," or "cannabis," and any other words, used or intended to convey the presence or availability of Marihuana be visible outside of the Permitted Premises on the Permitted Property.

J. Visibility of activities

i. All activities of the facility, including without limitation, the cultivation, harvesting, trimming, drying, curing and packaging of Marihuana, and all other related activity permitted under Applicant’s License or Permit will occur indoors.

ii. No marihuana or paraphernalia shall be displayed or kept in the facility so as to be visible from outside the Permitted Premises.

K. Security

i. Plan

Applicant will maintain, at all times, a centrally-monitored security and alarm system on the premises that meets or exceeds state regulatory requirement. Applicant will maintain policies and procedures to include:

a. Regular drills of the security protocols and emergency plans;
b. Controlled and restricted access to the Permitted Property and Permitted Premises to employees, agents, and owners of Applicant, and law enforcement or state or local authorities as necessary to ensure Applicant’s compliance with state and local laws;
c. Internal and external cameras with 24-hour monitoring and off-site recording;
d. Installed panic buttons
e. Limitations on the amount of currency and marihuana stored onsite;
f. Cooperation and coordination with local law enforcement;
g. Permitted premises will only be able to be accessed through a combination of security locks and access codes; and
h. The ability to remain operational during a power outage with battery back-up.

ii. Security Surveillance Cameras
Security surveillance cameras will be installed to monitor all entrances, along with the interior and exterior of the premises, which will capture all areas of the property unless otherwise prohibited by law, including unobstructed video surveillance of all enclosed areas, unless prohibited by law, including all points of entry and exit that shall be appropriate for the normal lighting conditions of the area under surveillance.

iii. Security Recordings and Documentation
   a. All security recordings and documentation will be preserved for at least 30 days and made available upon request by any law enforcement.

iv. Robbery and Burglary Alarm System
Applicant will employ an alarm system that meets state requirements and obtains state approval. Specifically,
   a. Applicant will employ a centrally alarmed and monitored security system that will be monitored 24 hours a day, 7 days a week for the Permitted Premises pursuant to the attached service agreement.
   b. There will be a perimeter alarm on all entry points and perimeter windows of the Permitted Premises
   c. A failure notification system will provide an audible, text, or visual notification of any failure in the surveillance system. A panic button and alarm will directly notify the local law enforcement agency having primary jurisdiction.

v. Storage of Marihuana and Currency
   a. Applicant will store usable marihuana that is not otherwise in the process of being dried, trimmed, cured, packaged, or distributed including packaged and un-packaged usable marihuana, and currency in a secured locked safe that is permanently affixed to the premises.

L. Ventilation Plan/Air Filtration System
i. Applicant’s facility operation and design will provide sufficient measures and means to minimize any impact to adjacent uses, including the control of odor by maintaining and operating an air filtration system so that no odor is detectable outside the Permitted Premises.

ii. Applicant’s equipment and methods to control odor include a comprehensive air filtration system, consisting of
   a. Activated Carbon Filters.
   b. Heavy Duty Ventilation Fans.

iv. Details and specifications of the equipment used for Applicant’s ventilation and air filtration plan are attached.
v. The total enclosed space in which harvested marihuana will be stored amounts to approximately 300 sq. feet. Applicant will use an advanced filtration system rated appropriately for the area.

vi. The air filtration system will be maintained in working order at all times and will be in use at all times. Filters will be changed a minimum of once every 365 days.

vii. In addition to the use of an air filtration system, Applicant will mitigate odors by keeping doors and windows closed at all times, except the minimum amount of time needed to allow ingress and egress to the building.

M. Toxic/Flammable/Hazardous Materials
   i. Applicant’s use of toxic, flammable, or other harmful, hazardous, or combustible materials will be limited to plant nutrients and pesticides and cleaning products. The facility may use the following nutrients and pesticides:

   a. CocoTech Bloom A
   b. CocoTech Grow A
   c. CocoTech Premier Nutrient
   d. FloraBloom Nutrient System
   e. FloraGrow Nutrient System
   f. Golden Tree Plant Food.
   g. Nutra Green 5-10-5 plus Micronutrients Foliar Spray
   h. Diatomaceous Earth
   i. Neem Oil
   j. PyGanic Pro Pyrithrin 5% MGK Miticide

   ii. The facility may use the following commercial cleaning products, along with the following household products: materials regulated by government agencies:

   a. Ultra Dawn Lemon Dish Soap
   b. Nature’s Source Toilet Bowl Cleaner
   c. Fantastik Antibacterial Heavy Duty All Purpose Cleaner
   d. Windex Original Glass Cleaner
   e. Novo Foaming Instant Hand Sanitizer
   f. QuickSan Food Contact and Surface Sanitizer

   iii. The materials will be stored in secured and ventilated cabinets. All combustible or reactive materials will be stored separately.

   iv. Materials will be handled, stored, and disposed according to specifications in each Material Safety Data Sheet.
N. Waste Product Disposal
Applicant will dispose of unusable or waste marihuana in accordance with the MMFLA, MRTMA, and applicable local ordinance guidelines to prevent the waste marihuana from being possessed or ingested by any person and animal.

i. Applicant’s current, preliminary waste disposal plan consists of shredding and grinding damaged and unusable plants, roots, seeds, stalks and harvested marihuana and mixing it with one of several lawful over-the-counter products, such as sawdust or cat litter to render it unusable, unrecognizable, and unpalatable, and then discarding in secured bags as part of its solid waste disposal.

ii. The State of Michigan’s Marihuana Licensing Board may require or suggest as a part of its regulations, expected sometime in November, one or more alternative waste disposal options including, but not limited to, waste disposal through the secured transporter system, waste mitigation through THC extraction methods (rendering the marihuana waste product inert) or some other method. Applicant warrants that it will comply with all state and local requirements as to waste disposal, but further commits to its current preliminary plan to render all marihuana waste unrecognizable, unusable and inaccessible regardless of state or local requirements.

IV. COMMUNITY RESPONSIBILITY AND CONCLUSION
Although marihuana has been used as a medicine across the globe for hundreds of years, its commercial production and sale is new to us, this state, and your community. We appreciate the opportunity to show Orion Township that Marihuana can be safe and accessible to a community while providing jobs and local economic growth. We look forward to being productive and responsible community partners, and will work with the Township toward that goal.

PAYMENT OF PERMIT FEE CONSTITUTES ACCEPTANCE OF THE ABOVE TERMS
H. Litter & Waste Removal Plan
Litter & Waste Removal Plan

All biological waste product will be rendered unrecognizable by grinding it in an industrial grinder and combining it with other non-consumable solid waste, including the media in which we cultivate plants, Rockwool. The inclusion of inert material renders the combined solid waste unusable. All waste will be stored in a locked dumpster that is emptied at minimum once per week.

The company intends to employ particulate filtration in areas where waste is stored and processed, which minimizes potential exposure and impact to the outside environment. The facility, which is designed around large water chillers, is designed to circulate air rather than ventilating it. This process helps to avoid excess exposure of odors to the surrounding community.
I. Noise, Dust, Vibrations, Glare & Fumes Plan
Noise, Dust, Vibrations, Glare, Fumes or Odors Plan

Excessive Noise, Dust, Vibrations, Glare and Marijuana odors emanating from our facilities are a valid concern for the community and our neighbors. This plan details the measures deployed to ensure that minimal noise, dust, vibration, glare, fume or offensive odor is emitted from the facility, the response if it occurs, and that the measures remain effective over time.

This plan is our commitment to the Orion Township that we will be in compliance with regulations of the city and the administrative rules and that we will not operate in a manner creating noise, dust, vibration, glare, fumes, or odors detectable to normal senses beyond the boundaries of the property.

We will not vent noxious dust, odors, gases or fumes to surrounding areas.

We will mitigate dust and noxious odors by engaging in the following activities:

1. Adequate design measures to seal the building;
2. Utilizing a heating, ventilation, and cooling (HVAC) System designed to move an appropriate amount of air (cfm) throughout the facility to disperse odors;
3. Using industry leading MERV-13 HEPA filters in addition to FILTR, Blue Zone & Puradigm units in each room throughout the facility.

I. DESIGN MEASURES TO SEAL THE BUILDING

We intend to renovate our building in a manner that focuses on effectively sealing all interior rooms and exterior access points. Each room is enclosed in 12", interlocking insulated panels which are designed to form an airtight seal. For additional protection, butyl caulk is applied at each joint to accommodate any flaws in the panels.

Caulk is also applied to seal any openings into the panels, including plug outlets, doorways, sprinklers, and anything else that could allow air flow. Our doors are fiberglass, weather stripped and employ a drop seal to press additional weather stripping against the floor when closed to maximize the seal all the way around.

II. MERV-13 HEPA FILTRATION SYSTEM

The purification of air throughout our facility is a top priority for both the health of the plants and the environment we subject our employees and the local community to. In an effort to target and reduce contamination, mold, bacteria, odor, dust, and fumes, we employ a variety of filtration systems in all rooms where marihuana plants are grown.

Each room will utilize clean room grade HEPA filtration units filtering down to 0.01um and providing up to 5 complete air changes per hour. These units also utilize a carbon filter which focuses directly on the removal of smells and volatile organic compounds.

In addition to the HEPA filters, each room will have Puradigm units to help reduce airborne and surface contaminates, and Agrify Bluezone UV filtration units, known to destroy 99.9%+ of both bacteria and mold. Both of these systems aid in odor elimination and containment.
As filters age, they become clogged with impurities, and ultimately less effective. As such, we will develop a maintenance schedule to inspect the filtration units regularly and to replace them per the manufacturer's recommendation or at an expedited pace based on their usage in these environments.

III. VIBRATION MITIGATION
Exterior mounted cooling equipment is mounted on isolation pads to dramatically reduce vibrations that would otherwise be created by such large equipment.

IV. EVALUATING THE EFFECTIVENESS OF NOISE, DUST, VIBRATIONS, ODOR & FUME CONTROL MEASURES

Key site leadership roles will be trained to assess the production and escape of odors, dust, fumes and glare from the facility. We also anticipate a strong and friendly relationship with the local communities and will welcome feedback about any exhaust from the building. Should these assessments or the community ever determine that our levels are beyond acceptable, we will re-evaluate this plan and engage professionals to further refine our practices and properly mitigate the problem.
J. Spent Water & Soil Safety Plan
Spent Water & Soil Safety Plan

Wastewater Treatment Plan:
Wastewater generated during the cultivation of marihuana of marihuana products shall be disposed of in compliance with all applicable state and local laws and regulations. Despite the amount of water used in the cultivation process, there is very little water waste. The majority of water is used by the plants or evaporated out of the collection dishes upon which the plants sit. Any water that is used to rinse the plants or clean the facility or for any other purpose shall be rendered clean through both reverse osmosis and UV light after standard filtration methods, and either reused by the facility or discharged through a monitoring man hole where it can be monitored to comply with all local ordinances.

The Cultivation Facility will include an Ecowater RO purification system. Ecowater Purification Systems are the leading water filtration manufacturer in the industry, helping cultivators diagnose and solve every water problem imaginable. Ecowater designs systems to treat any water source including city water, well water, nutrient runoff water, wastewater, and condensate runoff.

Soil Safety Plan
The cultivation facility will not use soil – instead, all media for the purposes of growing plants will be rock wool, a lightweight hydroponic substrate made from spinning molten basaltic rock into fine fibers which are then formed in a range of cubes. This product will be disposed of through the grinder and mixed with biological waste in a locked dumpster.
K. Security Plan
SECURITY PLAN

Tycoon I Operations is committed to being a leader in Michigan’s cannabis industry and a trusted resource for the communities, consumers and clients we service. Essential to fulfilling this commitment is our ability to effectively protect our product from criminal repurposing throughout the facilities.

This Security, Surveillance and Diversion Prevention Plan details the physical and electronic security measures we employ to deter, detect, and inhibit the theft, diversion, and loss of Marijuana, and to prevent unauthorized conduct with respect to the storage and dispensing of Marijuana.

We have extensively researched and designed our Grow Facility to maximize security. The facility shall be built with enhanced security and stringent safety features to eliminate any potential for diversion. Our facility will be equipped with numerous motion sensors and exterior intrusion sensors that will be linked to local law enforcement. To prevent unauthorized entry and stop diversion, theft, or loss of marijuana, every square inch of the facility shall be continually monitored by high definition security cameras and commercial-grade equipment. Security systems will be positioned so they closely monitor activities at strategic risk points and watch for any strange behavior or movement. Marijuana shall not be visible to any person from the exterior of the Grow Facility.

We will create a culture of responsibility, accountability, and strict security surrounding all aspects of the facility. The stringent operating procedures outlined below demonstrate a commitment to employee and public safety above all other operating values. From receipt to sale, we are committed to preventing diversion by implementing a comprehensive security strategy. Employees will be extensively trained to understand that security is a primary obligation for everyone at our facility.

We will have comprehensive security policies and procedures for the Grow Facility, which address measures to deter and prevent unauthorized entrance into areas containing marijuana and theft of marijuana at the facility. Employees will receive on-going training regarding our security protocol and the Site Manager shall ensure all employees follow policies and procedures regarding the security of the facility. The Site Manager shall implement and maintain employee training policies and procedures for security training. All employees shall aid in the security of the Grow Facility through prevention, awareness, reporting, and responsible incident management. All employees shall be required to immediately report security breaches and incidents of non-compliance to their supervisor, and in case of sudden emergency, immediately to law enforcement by either striking a panic button or calling law enforcement directly.

We will make our facility available and open to inspection, at all times, for law enforcement, representatives of the Department and law enforcement, when necessary to perform their duties.

PHYSICAL SECURITY

The facility shall be designed to maximize security and stop the potential for diversion. Access to the secure facility shall include safety and security mechanisms that prevent unauthorized entry. All doors will be burglary-resistant material, with commercial-grade, non-residential locks. Additionally, exterior doors, as well as limited access area entries, will be automatic locking and equipped with electric strike and access hardware. All doors are setup to fail secure, which means in the event of a power failure, the doors will remain locked and only be accessible via a master key.
The Grow Facility’s main entrance vestibule shall include a mantrap to control passage from the public access area to the limited access area. We will strive to install Underwriter’s Lab (UL) approved locks and lock cylinders, which are rated as burglary resistant. We will also install local alarms on all fire exits and other perimeter doors not authorized for employee or visitor use. Our alarm system will be monitored after business hours with live monitoring through a licensed security monitoring company. If there are ever any after-hours issues, the live monitoring system will be linked directly to law enforcement and the Site Director, among other key personnel.

We shall ensure that trees, bushes, and other foliage outside of the premises do not allow people to conceal themselves from sight. The surveillance system’s cameras shall be capable of certain identification of persons (including facial features), license plates, vehicles, the immediate surrounding areas, and any activities occurring within any area of the premises, and the parking area, and within twenty feet (20’) of all entry and exit points of the premises. Cameras will cover every square inch of the facility.

To provide first responders with immediate access into our facility during a time of emergency or inspection, we will install a Knox Rapid Access System to remove any barriers to entry when first responders respond to an emergency call.

LIGHTING

Exterior lights at all points of entry and exit shall remain constantly illuminated to allow for recording. Lighting on the outside perimeter shall allow cameras the ability to record any suspicious activity. Timed-delay switches shall be used to turn off non-essential interior lights, which shall not remain lit after employees have left the facility. Motion detecting lights shall be installed in areas that are entered and exited infrequently. The exterior of the facility shall be lit by commercial LED light fixtures sufficient to facilitate twenty-four-hour surveillance. Exterior lights in the parking area will remain on from dusk until dawn.

SECURITY EQUIPMENT

Our security equipment shall be designed, installed, and maintained to deter and prevent unauthorized entrance and theft of marijuana products at the facility. Security equipment shall be installed by a commercial, licensed service provider. All equipment shall be compliant with Department rules and all state and local laws, regulations, ordinances, and other requirements.

ENTRY AND EXIT ELECTRONIC EQUIPMENT AND PLACEMENT

Our entry and exit electronic access equipment will consist of the following:

- Electric strike locks on all doors in the Grow Facility with the ability to override access control for emergency exit even during a power outage.
- RFID proximity card access control devices for all interior doors and all exterior entrances and exits into the Grow Facility.
- Access control system that allows for programming or uploading individual user permissions and allowed entry times, as well as operations-specific information including employee photos.
- A backup power supply system that immediately provides power for at least twenty-four (24) hours in the event of a power outage.
- Main system operating equipment will be kept in the security room, a limited access area.
• Access control system that monitors and records:
  o Identification of employees or visitors entering and exiting.
  o Date and time of entry and exit.
  o Length of time in specific area.
  o Any unauthorized attempts for access.

ALARM SYSTEM

We shall have a professionally monitored security alarm system installed at our facility. Monitoring of the alarm system shall be twenty-four (24) hours a day, seven (7) days a week. We shall notify the Department of any intent to change our security alarm service provider. Upon request, we will make available to the Department all information related to the alarm system, monitoring, and alarm activity. The alarm system shall consist of the following:

• Appropriate equipment necessary to monitor activity inside and outside the Grow Facility, including:
  o All entrances and exits.
  o Roof hatches.
  o Rooms with exterior windows.
  o Rooms with exterior walls.
  o Rooms containing marijuana.
  o Rooms containing safes or vaults.

• A backup power supply system that immediately provides power in the event of a power outage.

• Main system operating equipment is kept in the Main Office Surveillance/IT Room, a limited access area.

• All telephone junction boxes or rooms where alarm telephone circuits terminate are locked, tamper-protected, and all labels or tags identifying these alarm circuits have been removed.

ALARM SYSTEM COMMUNICATION

The alarm system shall include an electronic or mechanical system that, upon activation, is programmed to send a prerecorded voice message, via telephone, radio frequency, or other communication system, to appropriate law enforcement authorities or other emergency services. In addition, the alarm system shall be equipped with a failure notification system that notifies the alarm monitoring service provider of the system failure via audio, text, visual, or audiovisual message, within a maximum of five (5) minutes of such failure.

ALARM SYSTEM TESTING

We shall bi-annually conduct an onsite inspection and test of the entire alarm system to determine needed repairs and adjustments.

ALARM SYSTEM RECORDS

We shall keep and maintain alarm system records and will make available to the Department all
information related to the alarm system, monitoring, and alarm activity. These records shall include the following:

- The name of the alarm installation and monitoring service provider.
- Copies of service contracts.
- A map of the Grow Facility showing the location and operation of each alarm system component including alarm telephone circuits.
- A list of authorized users.
- Manufacturers’ instructions for operating and maintaining the equipment.
- Testing and maintenance logs.
- Reports of any incidents triggering an alarm.
- Reports of any interruption in monitoring and/or complete failure of the system, including the length of the interruption period.

SURVEILLANCE SYSTEM

We shall have a fully operational electronic surveillance system installed at our facility. We shall notify the Department of the intent to make any changes to the surveillance system. Upon request, we will make available to the Department all information related to the electronic surveillance system installed at our facility. The surveillance system shall consist of the following:

- Appropriate equipment necessary to video record activity inside and outside the Grow Facility, including:
  - All entrances and exits into and out of the Grow Facility.
  - Roof hatches or skylights.
  - Rooms with exterior windows.
  - Rooms with exterior walls.
  - Rooms containing safes or vaults.
  - All entrances and exits of security rooms and limited access areas.
- Appropriate equipment to record keycard entry and exit activity of all our employees and visitors.
- A backup power supply system that immediately provides power in the event of a power outage.
- A dedicated safe or vault to store all entry/exit records and video recordings in the Office Surveillance/IT Room, in a limited access area.
- Main system operating equipment is kept in the main office Surveillance/IT Room.

VIDEO SURVEILLANCE EQUIPMENT

Our video surveillance equipment will consist of the following:

- Network video recorders with a record rate of a minimum of thirty (30) frames per second.
- Cameras with a minimum resolution of 1920 x 1080 pixels.
• Cameras with infrared capabilities to capture images in low or no lighting conditions.
• Cameras with capabilities to identify activity occurring within twenty feet (20') from all points of entry and exits into and out of the exterior of the Grow Facility.
• Video monitors.
• Digital archiving device.
• Capabilities to produce a color still photograph from any camera image, live, or recorded.
• Capabilities to accurately display the time and date on recorded images or video.
• Color printer that can immediately produce a clear, color still photo, either live or recorded, with a resolution of 9600 dpi and the image quality is relative to the camera being used to capture the image.

CAMERA COVERAGE PLACEMENT

We will install at least One Hundred (100) security cameras. The security cameras will be permanently mounted and in a fixed location. Each camera at the Grow Facility shall be placed in a location that allows the camera to clearly record activity occurring within twenty feet (20') of all points of entry and exit on the Grow Facility. The cameras will cover every square inch of the facility. The cameras shall allow for the clear and certain identification of any person, including facial features, and activities, including sales or transfers, in all areas of the Grow Facility. The security cameras shall monitor and record all areas of the Grow Facility including:

• All areas where marijuana or products are present, including activities related to:
  o Weighing, packaging, and labeling.
  o Storing, preparing for sale, loading/unloading, or moved within the Grow Facility.
  o Waste Disposal
• Limited-access areas and security rooms, including transfers between rooms and areas.
• Areas storing a surveillance system storage device with at least one (1) camera recording the access points to the secured surveillance recording area.
• All entrances and exits into and out of the exterior of the Grow Facility, recording both indoor and outdoor vantage points.
• Outdoor trash receptacles.
• Roof hatches or skylights.
• Rooms with exterior windows.
• Rooms containing safes or vaults.
• All areas where cash is counted, transferred, or stored.
• All areas where records are stored.

Cameras shall not be installed in bathrooms or any other area where a legitimate expectation of privacy exists. Camera placement shall ensure:

• Visibility of activities is not obstructed by lighting equipment covers, fixtures, or other equipment.
• A clear and certain identification of all individuals and activity at the Grow Facility.
• Identification of activity occurring within twenty feet (20') from all points of entry and exit into and out of the exterior of the Grow Facility.

SURVEILLANCE FAILURE NOTIFICATION

The surveillance system shall include a failure notification system that alerts the Site Director and other key site personnel of any interruption in surveillance and/or the complete failure of the monitoring system. The notification shall be within a maximum of five (5) minutes of such failure via audio, text, visual, or audiovisual message. Additionally, an alarm shall signal the Security Officer on duty whenever an unauthorized entry is attempted.

SURVEILLANCE TESTING

We shall ensure that the surveillance system is properly maintained for playback quality so that images can be seen and the identity of all individuals and activity in surveillance areas are captured. We will schedule and oversee all required maintenance of security equipment in accordance with manufacturer recommendations. Any equipment failure identified shall be corrected as soon as possible. All security equipment shall be in good working order and shall be inspected and tested at regular intervals.

INFORMATION TECHNOLOGY SECURITY

We shall ensure the security of our hardware, software, data, and communications networks, including the following information technology (IT) maintenance:

• Software registration.
• Security patches.
• Malicious software prevention.
• Account management.
• Security status and network access monitoring.
• Disposal and redeployment.
• Employee IT security training.
• Vulnerability assessments.

Access to protected information shall be restricted to essential employees only. Access may be granted to authorized representatives of the Department and other government officials if necessary to perform their official duties. Examples of protected information include:

• Security and cash management procedures.
• Asset and inventory lists.
• Network data.
• Floor plans of critical areas.
• Password and code records.
• Customer records.
• Employee records.

PRODUCT SAFETY AND SECURITY

We shall develop and implement procedures that ensure product safety and security and are compliant with the rules set forth by the Department and all applicable state and local laws, regulations, ordinances, and other requirements. Procedures shall include measures that:

• Minimize the risk of diversion or theft of marijuana.
• Minimize the risk of contamination from incoming materials.
• Ensure proper storage conditions that maintain the quality and purity of our marijuana products.

MATERIAL RECEIVING

All deliveries shall be verified at the front entrance to the facility before allowed access to the loading areas. All materials received will be documented. No material may be received unless its shipping documentation matches the corresponding purchase order or separate approval is given by the Site Manager. Employees shall notify the Site Manager of any shipment discrepancy immediately and shipment may not be accepted without the Site Manager's approval.

PRODUCT STORAGE SECURITY

Storage areas shall be designed to provide adequate lighting, ventilation, temperature, humidity, space, and equipment. All storage areas shall be maintained in a clean and orderly condition, free from infestation of pests, and in accordance with our security measures and Security Plan. The Grow Facility Manager shall ensure secure containers containing marijuana products remain dry, well ventilated, have temperature-control features to avoid extreme temperature fluctuations and appropriate odor-control features. These proper storage environments ensure product storage does not lead to product contamination or loss of quality.

The storage areas containing marijuana products shall be designed for security and ease of maintenance. We shall establish product storage and security policies and procedures compliant with the rules set forth by the Department and all applicable state and local laws, regulations, ordinances, and other requirements. Under no circumstances may any product be transferred without following our policies and procedures and all the rules set forth by the
Department and all applicable state and local laws, regulations, ordinances, and other requirements. Storage policies and procedures shall include:

- All equipment and any areas used for the processing or storage of marijuana shall be securely locked unless in use.
- All areas used for the storage of marijuana shall be on a time lock and only accessible during regular business hours.
- Inventory shall be reviewed and documented at the beginning and close of each day.
- All areas where marijuana product is stored will be monitored by the surveillance system.

DIVERSION PREVENTION

Investigation of possible diversion and developing policies to prevent it will be conducted by a team of our senior officials, including our CEO, COO, and Director of Compliance. Collectively, they will be known as the Diversion Prevention Team or DPT. The team will have multiple responsibilities including:

- Investigating allegations of diversion
- Developing policies and procedures to prevent diversion
- Managing performance improvement measures
- Providing overall direction for the program.
- Reporting confirmed cases of diversion to law enforcement

The DPT will also integrate information from external sources and environmental factors to improve safety and security at facilities. External sources and environmental factors may include news reports, trade and patient associations, law enforcement bulletins, et cetera. Standard operating procedures shall be updated to incorporate new sources of information and prevent diversion.

WORKING WITH LAW ENFORCEMENT

We deeply value and respect the work of local law enforcement. Police officers are on the front lines protecting our safety. Therefore, our Company, through the DPT, will form a partnership with law enforcement. This partnership will be rooted in a shared responsibility for the safety of the community. Upon request, law enforcement will have access to employee records and Grow Facility operations. Company will also engage with first responders like EMS and fire to establish emergency response protocols. This will create a close working relationship and enhance our ability to provide a secure and positive experience for our employees and the community.

To provide first responders with immediate access into our facility during a time of emergency or inspection, we will install a Knox Rapid Access System to remove any barriers to entry when first responders respond to an emergency call.
EMPLOYEE TRAINING

We know that having a trained and educated workforce is paramount to having an effective diversion strategy. Therefore, a considerable amount of time, resources, and energy will be devoted to ongoing diversion prevention training. The training curriculum will be conducted by the DPT. At a minimum, the training curriculum shall include:

- Compliance regulations for grow facilities.
- State laws and agency rules regulating the use of marijuana.
- Strategies for preventing diversion.
- Criminal and civil consequences for diverting product.
- Security and safety standard operating procedures.
- Chain of command for reporting diversion.
- Incident management.
- Daily operating procedures.

Diversion prevention trainings are mandatory for every new employee. Additionally, each employee shall be required to participate in quarterly continuing education trainings on diversion. Training materials will be outcome driven. Employees will be given real world examples of diversion and taught the appropriate response. Teaching the material through the learning principles of problem solving, discussion, and feedback will empower and increase understanding and retention of the training. This process of integrating knowledge will develop a culture of shared values, perspectives, and become the way of daily conduct and purpose at the Grow Facility.

Employees will have access to diversion prevention training materials at all times. There will be no excuse and zero tolerance for not knowing the proper policies and procedures. Well-maintained employee training records displaying documented training dates and subject matter will preserve and increase compliance, continuity and understanding of all guidelines, security procedures, safety, and incident response. Employee training records will become a written testament of the detailed information and accountability of security education.

INVESTIGATION OF DIVERSION

Due to intense and robust security operations, we do not anticipate diversion at our facility. However, it is important to be prepared for any scenario. We have developed an enhanced investigation procedure for any allegations or reports of potential diversion. Any allegation or report will be fully and immediately investigated by the DPT with established processes and timeframes.

Security policies developed by our Company outline that the first step of investigation is to preserve all possible evidence. Evidence needs to be persevered for the investigation and may be used in future disciplinary matters. The second step of investigation shall be to review all camera footage and other relevant information technology. Each marijuana product is tracked from seed to sale. Therefore, if diversion occurred, it will likely appear in an audit of the tracking software. The third step of investigation will be to interview the employee who engaged or
allegedly engaged in diversion. This step can only be executed if enough evidence is gathered to narrow down the suspect. The goal of the interview is to get the subject to confess how they diverted product to prevent future incidents from occurring. The fourth step of investigation will be to report the confirmed incident of diversion and suspect to law enforcement and the Department. The Site Manager shall be the point of contact for all law enforcement inquiries and will turn over all relevant evidence to law enforcement and the Department. The final step of investigation is to develop policies and procedures to prevent the incident from happening again. Once new policies have been developed by the DPT, an all staff training shall be given. The training will be a top down review of all security policies including any updated procedures.

INCIDENT RESPONSE

We shall establish incident response procedures addressing any incident that may occur, including natural disaster, unauthorized access, theft, or IT security breach. Procedures shall be in accordance with the rules set forth by the Department and all applicable state and local laws, regulations, ordinances, and other requirements. Procedures for general emergency and incident management, containment, and corrective measures shall be thoroughly detailed. The Director of Compliance shall ensure the appropriate response procedures are followed. All employees shall receive incident response training annually. The Site Manager shall determine the category and severity of the incident and determine the next best course of action. All discussions, decisions, and activities shall be documented.

We shall immediately notify appropriate law enforcement authorities and the Department immediately after the discovery of a reportable incident as defined by state and local laws, regulations, ordinances, and other requirements. Examples of an incident may include, but are not limited to:

- Theft or physical loss of marijuana or confidential records.
- Breach of our network servers.
- Robbery or unauthorized entry in the Grow Facility.
- Threats of violence to the Grow Facility, employees, or visitors.
- Bomb threats.
- Any criminal activity.
- Civil disturbances.
- Hazardous spills.
- Infectious disease epidemic.
- Serious accidents.
- Fires.
- Earthquakes.
- Floods.
- Windstorms or tornadoes.
INCIDENT REPORTING

Anyone with knowledge or a reasonable suspicion of an incident is instructed to make an immediate report to the Grow Facility Manager or the Site Manager. The person reporting the incident shall complete the Incident Log.

- Date and time of occurrence or suspected occurrence.
- Names and contact information of parties involved and any witnesses.
- Description of incident.
- Completed Suspect Description Forms, if applicable.
- Any evidence supportive of the event (unless law enforcement is required on scene or en route).

We shall notify appropriate law enforcement authorities and the Department immediately after discovering the following:

- Discrepancies identified during inventory; diversion, theft, or loss of marijuana; or any criminal action involving an employee.
- Theft, robbery, or burglary; sale to minors; diversion of marijuana or marijuana products; or any other crime related to marijuana.
- Any suspicious act involving the sale, cultivation, distribution, processing, or production of marijuana by any person.
- Unauthorized destruction of marijuana.
- Any loss or unauthorized alteration of records.
- An alarm activation or other event that requires a response by public safety personnel.
- Integrity of the inventory management system compromised.
- An IT security breach.
- The failure of any security alarm system due to a loss of electrical power or mechanical malfunction that is expected to last longer than eight (8) hours.
- Any other breach of security defined by the rules set forth by the Department.

UNAUTHORIZED ENTRY/ROBBERY CONTAINMENT AND CORRECTIVE PROCEDURES

In the event a threat is present to persons, cash, or product due to unauthorized entry, employees shall be trained to perform the following:
• Notify law enforcement utilizing a panic alarm, only if it can be safely done without being obvious to the robber.

• Do not resist the robber or use or encourage the use of weapons or force against the robber.

• Try to inform the robber of any potential surprises (e.g., an employee is due back from lunch or the building alarm is set to be tested).

• Try to keep employees and visitors, if applicable, calm during the robbery.

• Try to alert other employees of the situation using pre-determined signals or text messages, only if safe to do so.

• Follow the robber’s commands in order to shorten the time of the incident. Do not argue with the robber, but do not volunteer to help.

• If the robber demands a certain amount of money or product, only give them that amount.

• Be observant in order to be a good witness. Try to remember:
  o The number of robbers.
  o The physical characteristics of the robber(s), such as weight, scars, tattoos, hair color, or speech patterns.
  o The clothing worn by the robber(s).
  o Any names used by the robber(s).
  o A description of any weapons shown, such as barrel length and color, color of the grip, or automatic or revolver.

• If the robber uses a note, try to place it out of sight to retain it as evidence.

• Do not follow a robber.

• Secure the Grow Facility and place a notice that the business is closed due to an emergency.

• Call the police and ambulance, as needed, immediately and request that witnesses stay or obtain their contact information.

• Provide aid to injured people.

• Do not discuss the robbery with any outside parties until police and management has given authority to do so.

• Do not estimate the amount of money or product that was taken until an inventory has been performed.

Corrective procedures that may be required to return conditions to a normalized and secure state:

• Change all security codes.

• Replace locks and issue keys only to authorized employees.
• Ensure any video of the incident is archived.
• Restore security devices and/or apparatus to working condition.
• Repair any physical damage to the Grow Facility.
• Provide employees and visitors, if applicable, counseling, as needed.
• Perform a security re-training as soon as possible.
• Modify Employee Access Control Log as deemed appropriate.

INTERNAL THEFT/BURGLARY CONTAINMENT AND CORRECTIVE PROCEDURES

In the event a threat is present to persons, cash, product due to internal theft or burglary, employees shall be trained to perform the following:

• Identify missing or compromised assets.
• Gather, remove, recover, and secure sensitive materials to prevent further loss or access.
• Power down, recycle or remove security equipment known to be compromised.
• Where possible, secure the premises for possible analysis by the Department and law enforcement.
• Gather and secure any evidence of illegal entry for review by the Department and law enforcement.
• Where possible, record identities of any party who might be a possible witness to events.
• Preserve video recordings and Visitor logs for review by the Department and law enforcement.

Corrective procedures that may be required to return conditions to a normalized and secure state:

• Retrieve or restore assets where possible.
• Store all sensitive materials and products in a secure manner (e.g., lockable cabinets or storage areas/container).
• Replace locks and issue keys only to authorized employees. Update the Employee Access Control Log as necessary.
• Restore security devices and/or apparatus to working condition.
• Remove and retain unauthorized equipment from network and/or area.
• Implement physical security devices and improvements (e.g., equipment cables, alarms) as deemed appropriate.
• Perform a security re-training as soon as possible.
FIRE PROCEDURES

If a fire does not present an immediate danger to personal safety, one (1) employee shall try to extinguish the fire. If a fire presents an immediate danger to personal safety, a fire alarm shall be pulled and a call to 911 shall be immediately made and evacuation of the building shall occur all at once.

Evacuation of Grow Facility

Any director or manager may determine the need to evacuate. Reasons for evacuation may include:

- Fire.
- Bomb threat.
- A hostile or violent employee, visitor, or unknown person.
- Power outage.
- Earthquake.
- Water or gas leak.
- Hazardous spill.
- Robbery or hostage situation.

The Site Manager shall ensure that all employees and visitors, if applicable:

- DO NOT gather in lobbies.
- DO NOT open a door without first checking for heat.
- DO NOT touch any suspicious items or suspected bombs.
- DO NOT run or panic.
- DO NOT re-enter the building until authorized.
- DO assist disabled individuals or others who need assistance. Evacuate disabled individuals or others who need assistance ONLY under the direction of authorized emergency personnel or when there is an immediate threat to personal safety and security.

INCIDENT CONTAINMENT

The Site Manager, in coordination with the appropriate department directors or managers, shall determine and implement the appropriate activities and processes required to quickly contain and minimize the immediate impact to personal safety, the Grow Facility, and other affected parties. Containment activities shall be designed to:

- Minimize harm to individuals.
- Counteract the immediate threat.
• Prevent propagation or expansion of the incident.
• Minimize actual and potential damage.
• Restrict knowledge of the incident to authorized employees.
• Preserve information relevant to the incident.

The Site Manager, in coordination with the appropriate department directors or managers, shall determine and implement the appropriate activities and processes to quickly:
• Secure the environment.
• Restore the environment to its normalized state.

The Site Manager shall be actively engaged throughout the incident to assess the progress of all containment and corrective measures and determine at what point the incident can be considered resolved.

INCIDENT CONTAINMENT AND CORRECTIVE PROCEDURES

The Site Manager shall determine and implement the appropriate procedures required to quickly contain and minimize the immediate impact of an incident, as well as to quickly restore circumstances to a normalized, secure state. Containment and corrective measures shall be designed with the primary objectives of:
• Minimizing harm.
• Counteracting the immediate threat.
• Preventing propagation or expansion of the incident.
• Minimizing the actual and potential damage.
• Restricting knowledge of the incident to authorized employees.
• Preserving information relevant to the incident.
• Securing the environment.
• Restoring the environment to its normalized state.

POST-INCIDENT REVIEW, REPORT, AND FOLLOW UP

The Site Manager shall hold a Post-Incident Review after each incident has been resolved. The Post-Incident Review shall be scheduled within two (2) to three (3) weeks of the incident's resolution and shall involve:
• Appropriate personnel, which may include affected parties.
• Examination of the incident and all related activities and events.
• Discussion on proposed changes to policy, processes, and safeguards.
All incident activities, from receipt of the initial report through post-incident review, shall be documented. The Site Manager shall ensure all events are recorded, assembling these records in preparation and performance of the post-incident review, and ensuring all records are preserved for review. The following shall be included, at a minimum, in the Post-Incident Report:

- A description of incident events with specific timelines.
- Employee(s) involved.
- Non-employees involved.
- Impact to affected parties.
- Discussions, decisions, and assignments made.
- Successful and unsuccessful activities.
- Notifications required or recommended.
- Steps taken for containment and resolution.
- Recommendations for prevention and remediation (short-term and long-term).
- Identification of policy and procedure gaps.
- Results of post-incident review.
- Any necessary follow-up actions.

The Post-Incident Report shall be distributed to the Site Manager, the Grow Facility Manager, and all other relevant parties for review. The Site Manager shall ensure the appropriate employees are assigned to any follow-up actions. The Site Manager shall document the completion of all follow-up actions in the Post-Incident Report and distribute an updated copy.

SECURITY SYSTEM RECORDS

We shall keep all necessary books and records in order to render a full account of all operations conducted at the Grow Facility under our license for the year to date and the five (5) years prior. We shall keep books and records of the Grow Facility from the previous six (6) months (or the complete copies of such records) in the Grow Facility at all times. All marijuana related records shall be retained in the inventory management system. All surveillances recordings shall be retained, at a minimum for at least sixty (60) days, unless in instances of investigation or inspection by the Department, through its investigators, agents, auditors, or the state police, in which case the licensee shall retain the recordings until such time as the department notifies the licensee that the recordings may be destroyed. Our standard operating procedures shall detail the maintenance of records and measures for addressing and reporting any loss or unauthorized alteration of records. The Department, upon request, shall have full access to all Grow Facility records and surveillance recordings.

We shall keep and maintain security and surveillance system records and recordings in the Grow Facility and copies stored on a secure cloud storage. These records shall include, at a minimum, the following:

- The name of the surveillance equipment installation service provider and all equipment manufacturers.
- Copies of any service contracts.
• A map of the Grow Facility showing the location and operation of each surveillance system component, including the direction of camera coverage.

• A list of authorized users.

• Manufacturers’ instructions for operating and maintaining the equipment.

• Testing and maintenance logs.

• Reports of any incidents of unauthorized entry.

• Employee Access Control Logs.

• Visitor Registration Logs.

• Authorized Visitor Access Control Logs.

• Incident Logs and Post-incident Reports.

• Reports of any interruption in monitoring and/or complete failure of the system, including the length of the interruption period.

• A log of the recordings, which includes:
  o The identities of the employee or employees responsible for monitoring the video surveillance system.
  o The identity of the employee who removed the recording from the video surveillance system.
  o The identity of the employee who destroyed any recording.

• Video surveillance recordings shall be:
  o In a digital format that ensures authentication of the recording as being legitimately captured without alterations.
  o Easily accessible and in a format that allows for viewing and copying.
  o Embedded with the date and time without significantly obscuring the picture.

We will maintain a log of all recordings, which will include a minimum:

• The identities of the employee or employees responsible for monitoring the video surveillance system.

• The identity of the employee who removed the recording from the video surveillance system storage device and the time and date removed.

• The identity of the employee who destroyed any recording.

Video surveillance recordings shall be stored on an NVR that is server-based with storage as required to meet recording rate and retention. This system shall be password-protected and separate from any other equipment in the Grow Facility. The files and video surveillance recordings shall be available for inspection, upon request, by authorized representatives of the Department and other government officials when necessary to perform their official duties.

After the expiration of the retention period, and before selling or closing the facility, the surveillance video recordings shall be erased, destroyed, or otherwise disposed. We shall not destroy any surveillance video recordings if we have knowledge or should have knowledge of any ongoing criminal, civil, administrative, or other official investigations or proceedings for which the recording may contain relevant information. Additionally, we shall not destroy any surveillance
video recordings in instances of investigation or inspection by the Department, through its investigators, agents, auditors, or the state police, in which case the recordings shall be retained until such time as the Department notifies us that the recordings may be destroyed.
**Security and Surveillance Equipment Room Access List**

This is the *current* list of individuals having access to our Security and Surveillance Equipment Storage Room. Only those on this list are essential to maintain security and surveillance operations. All others will be denied access to the Security and Surveillance Equipment Room.

This list is available to the Department or authorized agents immediately upon request.

ADDITIONAL DOCUMENTS
CERTIFICATE OF AMENDMENT TO THE ARTICLES OF ORGANIZATION

For use by DOMESTIC LIMITED LIABILITY COMPANY

Pursuant to the provisions of Act 23, Public Acts of 1993, the undersigned executes the following Certificate of Amendment:

The identification number assigned by the Bureau is: 802483853

The name of the limited liability company is: HELLER INVESTMENT HOLDINGS, LLC

The date of filing the original Articles of Organization was: 7/17/2020

Complete only those articles being amended.

Article I

The name of the limited liability company as amended, is:
TYCOON I OPERATIONS, LLC

The amendment was approved by unanimous vote of all the members entitled to vote.

This document must be signed by a member, manager, or an authorized agent:

FILING ENDORSEMENT

This is to Certify that the CERTIFICATE OF AMENDMENT TO THE ARTICLES OF ORGANIZATION

for

TYCOON I OPERATIONS, LLC

ID Number: 802483653

received by electronic transmission on July 22, 2020, is hereby endorsed.

Filed on July 22, 2020, by the Administrator.

The document is effective on the date filed, unless a subsequent effective date within 90 days after received date is stated in the document.

In testimony whereof, I have hereunto set my hand and affixed the Seal of the Department, in the City of Lansing, this 22nd day of July, 2020.

Linda Clegg, Interim Director
Corporations, Securities & Commercial Licensing Bureau
ARTICLES OF ORGANIZATION
For use by DOMESTIC LIMITED LIABILITY COMPANY

Pursuant to the provisions of Act 23, Public Acts of 1993, the undersigned executes the following Articles:

Article I
The name of the limited liability company is:

HELLER INVESTMENT HOLDINGS, LLC

Article II
Unless the articles of organization otherwise provide, all limited liability companies formed pursuant to 1993 PA 23 have the purpose of engaging in any activity within the purposes for which a limited liability company may be formed under the Limited Liability Company Act of Michigan. You may provide a more specific purpose:

Article III
The duration of the limited liability company if other than perpetual is:

Article IV
The street address of the registered office of the limited liability company and the name of the resident agent at the registered office (P.O. Boxes are not acceptable):

1. Agent Name: CSC-LAWYERS INCORPORATING SERVICE (COMPANY)
2. Street Address: 601 ABBOT ROAD
   Apt/Suite/Others:
   City: EAST LANSING
   State: MI Zip Code: 48823
3. Registered Office Mailing Address:
   P.O. Box or Street Address: 601 ABBOT ROAD
   Apt/Suite/Others:
   City: EAST LANSING
   State: MI Zip Code: 48823

Article V
(Insert any desired additional provision authorized by the Act; attach additional pages if needed.)
THE COMPANY SHALL BE Managed BY ONE OR MORE MANAGERS.

Signed this 17th Day of July, 2020 by the organizer(s):

Date of this notice: 07-31-2020
Employer Identification Number: 85-2192285
Form: SS-4
Number of this notice: CP 575 A
For assistance you may call us at: 1-800-829-4933

If you write, attach the stub of this notice.

We Assigned You an Employer Identification Number

Thank you for applying for an Employer Identification Number (EIN). We assigned you EIN 85-2192285. This EIN will identify you, your business accounts, tax returns, and documents, even if you have no employees. Please keep this notice in your permanent records.

When filing tax documents, payments, and related correspondence, it is very important that you use your EIN and complete name and address exactly as shown above. Any variation may cause a delay in processing, result in incorrect information in your account, or even cause you to be assigned more than one EIN. If the information is not correct as shown above, please make the correction using the attached tear-off stub and return it to us.

Based on the information received from you or your representative, you must file the following form(s) by the date(s) shown.

Form 941 01/31/2021
Form 940 01/31/2021

If you have questions about the form(s) or the due dates(s) shown, you can call us at the phone number or write to us at the address shown at the top of this notice. If you need help in determining your annual accounting period (tax year), see Publication 538, Accounting Periods and Methods.

We assigned you a tax classification based on information obtained from you or your representative. It is not a legal determination of your tax classification and is not binding on the IRS. If you want a legal determination of your tax classification, you may request a private letter ruling from the IRS under the guidelines in Revenue Procedure 2004-1, 2004-1 I.R.B. 1 (or superseding Revenue Procedure for the year at issue). Note: Certain tax classification elections can be requested by filing Form 8832, Entity Classification Election. See Form 8832 and its instructions for additional information.
If you are required to deposit for employment taxes (Forms 941, 943, 940, 944, 945, CT-1, or 1042), excise taxes (Form 720), or income taxes (Form 1120), you will receive a Welcome Package shortly which includes instructions for making your deposits electronically through the Electronic Federal Tax Payment System (EFTPS). A Personal Identification Number (PIN) for EFTPS will also be sent to you under separate cover. Please activate the PIN once you receive it, even if you have requested the services of a tax professional or representative. For more information about EFTPS, refer to Publication 966, Electronic Choices to Pay All Your Federal Taxes. If you need to make a deposit immediately, you will need to make arrangements with your Financial Institution to complete a wire transfer.

The IRS is committed to helping all taxpayers comply with their tax filing obligations. If you need help completing your returns or meeting your tax obligations, Authorized e-file Providers, such as Reporting Agents (payroll service providers) are available to assist you. Visit the IRS Web site at www.irs.gov for a list of companies that offer IRS e-file for business products and services. The list provides addresses, telephone numbers, and links to their Web sites.

IMPORTANT REMINDERS:

* Keep a copy of this notice in your permanent records. This notice is issued only one time and IRS will not be able to generate a duplicate copy for you. You may give a copy of this document to anyone asking for proof of your EIN.

* Use this EIN and your name exactly as they appear at the top of this notice on all your federal tax forms.

* Refer to this EIN on your tax-related correspondence and documents.

* Provide future officers of your organization with a copy of this notice.

Your name control associated with this EIN is TYCO. You will need to provide this information, along with your EIN, if you file your returns electronically.

If you have questions about your EIN, you can contact us at the phone number or address listed at the top of this notice. If you write, please tear off the stub at the bottom of this notice and include it with your letter. Thank you for your cooperation.
OPERATING AGREEMENT
OF
TYCOON I OPERATIONS, LLC

THIS OPERATING AGREEMENT (this “Agreement”) is entered into and made effective as of July 22, 2020 (the “Effective Date”) by and between TYCOON I OPERATIONS, LLC, a Michigan limited liability company (the “Company”), and TYCOON HOLDINGS, LLC, a Michigan limited liability company and sole member of the Company (the “Member”).

Background

A. The Company was formed on July 22, 2020 as a Michigan limited liability company.

B. The undersigned desires to memorialize its rights and obligations with respect to the Company pursuant to the terms of this Agreement.

Agreement

In consideration of the foregoing background and for other good and valuable consideration, the receipt and sufficiency of which is hereby acknowledged, and intending to be legally bound hereby, the parties agree as follows:

ARTICLE I
DEFINITIONS

The following capitalized terms used in this Agreement shall have the following meanings (unless otherwise expressly provided herein):

“Act” means the Michigan Limited Liability Company Act, as amended.

“Business” means the principal business of the Company, which shall be to own and manage investments.

“Capital Contribution” means any contribution of cash or property to the Company, or any obligation to contribute cash or property to the Company, whenever made.

“Certificate” means the Articles of Organization as filed by the organizer of the Company with the Department of State of the State of Michigan, as amended.

“Interest” means the Member’s entire interest in the Company.
“Person” means any individual, trust, partnership, corporation, limited liability company or entity.

ARTICLE II
FORMATION OF COMPANY

2.1 Formation. The Company has been organized as a Michigan limited liability company by executing and delivering the Certificate in accordance with and pursuant to the Act.

2.2 Name. The name of the Company is Tycoon I Operations, LLC.

2.3 Registered Office. The address of the registered office of the Company shall be The CSC – Lawyers Incorporating Service, 601 Abbot Road, East Lansing, Michigan 48823, or at such other place as the Member may from time to time determine. The registered office of the Company may be changed from time to time by amending the Certificate in accordance with the Act. The Company may maintain such other offices, including, but not limited to, a principal place of business as the Member shall determine.

2.4 Purpose. The purposes of the Company shall be (a) to advance and grow the Business, (b) to engage in all other lawful business authorized pursuant to the Act, and (c) to make, enter into and perform any contracts and other undertakings, and to engage in any activities and transactions as may be ancillary to or necessary or advisable to carry out the foregoing purposes.

2.5 Term. The term of the Company shall be perpetual unless the Company is earlier dissolved in accordance with the provisions of this Agreement.

ARTICLE III
CAPITAL CONTRIBUTIONS; LOANS; DISTRIBUTIONS

3.1 Capital Contributions. The Company shall keep a record of all Capital Contributions made by the Member. The Member shall not be required to make any Capital Contribution to the Company not specifically agreed to in writing between the Member and the Company.

3.2 Loans. Any and all loans made to the Company by the Member shall not be considered Capital Contributions.

3.3 Distributions. Distributions shall be made to the Member (in cash or in kind) at such times and in such amounts determined by the Member and as permitted by applicable law.
ARTICLE IV
MEMBER

4.1 Member. The name and address of the Member is:

Tycoon Holdings, LLC
2055 Crooks Road, Suite B
Rochester Hills, MI 48309

4.2 Management. The Company shall be initially managed by Heller Investment Holdings, LLC.

4.3 Right to Rely on Member. Any Person dealing with the Company may rely (without duty of further inquiry) upon a certificate signed by a designee of the Member as to:
(a) the identity of the Member; (b) the existence or non-existence of any fact or facts which constitute a condition precedent to acts by the Member or which are in any manner germane to the affairs of the Company; (c) the Persons who are authorized to execute and deliver any instrument or document of the Company; or (d) any act or omission by the Company or any other matter whatsoever involving the Company or the Member.

4.4 Authority to Designate Officers. The Member may elect, appoint or designate, by resolution or otherwise, individuals as officers of the Company and delegate to such officers such powers, authority and responsibilities as are (i) set forth in the designation or delegation, and (ii) necessary to carry out and implement the management decisions of the Member. The Member may remove any officer, with or without cause, at any time. Any officer may resign at any time by giving written notice to the Company. Any resignation shall take effect as of the date of the Company’s receipt of such notice or at any later time specified in such notice (unless such officer is otherwise removed prior to such date); and unless otherwise specified in such notice, the acceptance of the resignation shall not be necessary to make it effective. Unless the Member decides otherwise, if the title to an officer of the Company is one commonly used for officers of a business corporation, the assignment of such title shall constitute the delegation to such individual of the authority and duties that are normally associated with that office. The current officers of the Company are as set forth on Schedule A attached hereto, as may be amended from time to time.

4.5 Liability of Member and Officers. Neither the Member nor any officer, agent or representative of the Member, or officer of the Company, shall be liable to the Company or to the Members, as applicable, for (i) the performance of, or the failure to perform, any act or duty on behalf of the Company if, in good faith, the Members or officer determined that such conduct was in the best interests of the Company and such conduct did not constitute fraud, gross negligence or reckless or intentional misconduct, (ii) the termination of the Company and this Agreement pursuant to the terms hereof, and (iii) the performance of, or the failure to perform, any act on behalf of the Company in good faith reliance on advice of legal counsel, accountants or other professional advisors to the Company.
4.6 Indemnification. The Company shall indemnify, defend and hold the Member and
the officers, agents and representatives of the Member, and each officer of the Company and, in
the discretion of the Member, each employee of the Company, harmless from and against any
expense, loss, damage or liability incurred or connected with, or any claim, suit, demand, loss,
judgment, liability, cost or expense (including reasonable attorneys' fees) arising from or related
to, the Company or any act or omission of such Member (or officer, agent or representative of the
Member) or officer (or employee) and amounts paid in settlement of any of the foregoing, to the
fullest extent provided or allowed by the laws of the State of Michigan. The Company may
advance to any such Person the costs of defending any claim, suit or action against such Person.

4.7 Title to Company Property. All real and personal property shall be acquired in the
name of the Company and title to any property so acquired shall vest in the Company itself rather
than in the Member.

ARTICLE V
ACCOUNTING AND TAX MATTERS

5.1 Accounting Principles. The Company's financial statements shall be prepared and
its profits and losses shall be determined in accordance with methods of accounting selected by
the Member, which need not be the same as the method of accounting used for tax purposes.

5.2 Returns and Other Elections. The Member shall cause the preparation and timely
filing of all tax returns required to be filed by the Company pursuant to the Code and all other tax
returns deemed necessary and required in each jurisdiction in which the Company does business.
All elections permitted to be made by the Company under federal or state laws shall be made by
the Member in its sole discretion. So long as the Company has only one member, the Company
shall be treated as a disregarded entity for income tax purposes.

ARTICLE VI
TRANSFERS: ADDITIONAL MEMBERS

6.1 Transferability of Membership Interest. The Member's Interest in the Company is
freely transferable or assignable, in whole or in part, either voluntarily or by operation of law.

6.2 Admission of Additional Members. Additional members of the Company may be
admitted to the Company at the direction of the Member only if a new operating agreement or an
amendment and restatement of this Agreement is executed by such additional member or members.
ARTICLE VII
DISSOLUTION AND LIQUIDATION

7.1 Dissolution.

(a) The Company shall be dissolved and its affairs wound up and terminated only upon the determination of the Member. The dissolution or bankruptcy of the Member or the occurrence of any other event that terminates the continued membership of the Member shall not cause a dissolution of the Company.

(b) Dissolution of the Company shall be effective on the day on which an event described in Section 7.1(a) above occurs, but the Company shall not terminate until articles of dissolution shall be filed with the Department of State of the State of Michigan and the assets of the Company are distributed as provided in Section 7.2 below. Notwithstanding the dissolution of the Company, prior to the termination of the Company, the business of the Company and the affairs of the Member shall continue to be governed by this Agreement.

7.2 Winding Up. Upon dissolution, the Company shall continue until the winding up of the affairs of the Company is completed and a certificate of dissolution has been filed pursuant to the Act. Upon the winding up of the Company, the Company’s property shall be distributed (a) first to creditors, including the Member if the Member is a creditor, to the extent permitted by law, in satisfaction of the Company’s liabilities, and (b) then to the Member. Distributions shall be in cash or property or partly in both, as determined by the Member.

ARTICLE VIII
MISCELLANEOUS PROVISIONS

8.1 Notices. Any notice, demand or communication required or permitted to be given by any provision of this Agreement shall be in writing and shall be deemed to have been delivered (a) two business days after being sent by registered or certified United States mail, or (b) upon delivery if hand delivered, sent via facsimile transmission or electronic mail. If delivered to the Member, such notice shall be delivered to his address as it appears in Section 4.1 above. If to the Company, such notice shall be delivered to its principal place of business.

8.2 Governing Law. This Agreement, and the application and interpretation hereof, shall be subject to and governed exclusively by its terms and by the laws of the State of Michigan, without regard to its conflicts of laws provisions.

8.3 Construction. Whenever the singular number is used in this Agreement and when required by the context, the same shall include the plural and vice versa, and the masculine gender shall include the feminine and neuter genders and vice versa. Unless expressly stated otherwise, Section and Article references herein shall refer to the Sections and Articles of this Agreement.

8.4 Waivers. No waiver by any party of the breach of any provision hereof shall be deemed to constitute a waiver of any continuing or subsequent breach of such provision or any other provision hereof.
8.5 Severability. If any provision of this Agreement or the application thereof to any Person or circumstance shall be invalid, illegal or unenforceable to any extent, the remainder of this Agreement and the application thereof shall not be affected and shall be enforceable to the fullest extent permitted by law, provided that the essential purpose of this Agreement is not frustrated.

8.6 Heirs, Successors and Assigns. The covenants, terms, provisions and agreements herein contained shall be binding upon, and inure to the benefit of, the parties hereto and, except as otherwise provided to the contrary, their respective heirs, executors, administrators, legal representatives, successors and permitted assigns.

8.7 Entire Agreement. This Agreement embodies the entire agreement and understanding between the parties hereto with respect to the subject matter hereof and supersedes all prior agreements and understandings relating to such subject matter.

[SIGNATURES APPEAR ON FOLLOWING PAGE]
IN WITNESS WHEREOF, the parties hereto have caused this Agreement to be signed as of the Effective Date.

STAFFING PLAN

Summary of Job Creation, Compensation and Budget

As discussed in detail below, we anticipate creating approximately 59 jobs at our Orion Township Cultivation Facility.

<table>
<thead>
<tr>
<th>Type of Marijuana Facility</th>
<th>Proposed Location</th>
<th>Total Jobs Per Facility</th>
<th>Expected Annual Payroll</th>
</tr>
</thead>
<tbody>
<tr>
<td>Cultivation Facility</td>
<td>Orion Township</td>
<td>59</td>
<td>$3,750,000.00</td>
</tr>
</tbody>
</table>

We pay our cultivation facility employees a minimum hourly wage of $15. We also provide a generous benefit package that includes the following:

- Health Insurance
- Paid Holidays
- Paid Time Off
- 401K Plan with 2% Match
- Performance Incentives

Out of our 3.75MM expected annual payroll, Tycoon | Operations expects to allocate $630,000 toward benefits for all full-time employees!

We intend to source our employees first from Orion Township, then into the surrounding regional area. Our job listings will always be listed in the Orion Township area first to accumulate as many qualified candidates as possible.

Attached is a table of the proposed positions at our Orion Cultivation Facility:

Administrative Procedures & Standards

30.01 Site Plan Review Procedures, Standards & Condominium Requirements

17) Landscape plan, including location and type of shrubs, trees, and other live plant material.

18) Location, sizes, and types of existing trees that are four (4) inches or greater in caliper, measured twelve (12) inches above grade, except that trees listed as Prohibited Plant Material need be shown only if they measure twelve (12) inches or greater in caliper. Only trees that measure twelve (12) inches or greater in caliper need be shown in wooded areas, clusters, or hedgerows, provided that the boundaries and predominant species of such area, are indicated.

19) All existing and proposed easements.

20) Designation of fire lanes.

c. Building and structure details, including (amended 05.04.20):

1) Location, height, and outside dimensions of all proposed buildings or structures, including all mechanical equipment placed on the roof. (amended 08.06.07)

2) Building floor plans.

3) Total floor area.

4) Obscuring walls or berm locations with cross sections, where required.

5) Building elevations, drawn to a scale of one (1) inch equals four (4) feet, or to another scale approved by the Enforcement Officer and adequate to determine compliance with the requirements of this Ordinance.

6) Sections, elevations/ color perspective drawings/photos or other visual aids showing architectural quality. Drawings shall also indicate final color schemes for exterior surfaces. (added 01.02.07)

7) Information on building materials, and complimentary color schemes. This shall include presentation of material sample boards. Material sample boards shall be presented at the time of consideration by the Planning Commission. (added 01.02.07)

8) Details of windows, recesses, roof over hangs, awnings, gables, soffit, roof design and roofing materials. (added 01.02.07)

9) Location and screening of roof mounted or ground mounted mechanical equipment or transformers and methods/materials used for screening. All such equipment shall be screened to minimize its visibility from adjacent roadways and abutting property lines. Screening shall be at least one (1) foot above the height of the mechanical equipment or transformers. The screening material shall be compatible with the building material and general architecture. Landscape materials or other screening structures shall not interfere with ventilation or access for maintenance. (added 01.02.07 amended 08.06.07)

10) Information on masonry materials, siding or other materials, and patterns used for building exterior. (added 01.02.07)

d. Information concerning utilities, drainage, and related matters, including:

1) Location of sanitary sewers and septic systems, existing and proposed.

2) Location and size of watermains, well sites, and building service, existing and proposed.

3) Location of hydrants, existing and proposed.

4) Location of storm sewers, existing and proposed.

Charter Township of Orion Zoning Ordinance 78

Revised 05/21/20

Page 30 - 9
Should any light fixture regulated under this Section, or the type of light source therein, be changed after the permit has been issued, a change request must be submitted to the Building Department for administrative approval, together with adequate information to ensure compliance with the Zoning Ordinance, which must be received prior to substitution.

Section 27.12 – Tree and Woodlands Protection (amended 08.03.00)

A. Declaration and Purposes.

1. Declaration.

Uncontrolled development of the Township could result in an unregulated and, in many cases, unnecessary removal of trees and related resources, and other forms of vegetation and natural resources and processes. Regulation of the removal of tree resources will achieve a preservation of important physical, aesthetic, recreational, and economic assets for both present and future generations. Specifically, it is found that:

a. Woodlands provide for public safety through the prevention of erosion, siltation, and flooding.

b. Woodland growth protects public health through the absorption of air pollutants and contamination, including the reduction of excessive noise and mental and physical damage related to noise pollution.

c. Trees, vegetation, and associated natural resources provide a material aspect of the character of the Township.

d. Trees and woodland growth serve as an essential component of the general welfare by maintaining natural beauty, recreation, and irreplaceable natural heritage.

e. Trees and woodlands increase the economic value of land for most uses.

2. Purposes.

The purposes of this Section are as follows, to be applied throughout the Township:

a. To prohibit the unnecessary removal of trees on undeveloped land.

b. To discourage the unnecessary removal of trees and woodland resources in connection with the development of land.

c. To provide for the protection, preservation, proper maintenance, and use of trees and woodlands in order to minimize disturbance to them and to prevent damage from erosion and siltation, a loss of wildlife and vegetation, and/or from the destruction of the natural habitat.

d. To protect the woodlands (including woodland resources) for their economic support of local property values when allowed to remain unclipped and/or unharvested in whole or in significant part, and for their natural beauty, character, and geological, ecological, or historical significance.

e. To provide for the paramount public concern for these natural resources in the interest of the health, safety, and general welfare of the residents of this Township, in keeping with Article IV, Section 52 of the Michigan Constitution of 1963, and the intent of the Michigan Natural Resources and Environmental Protection Act, PA 451 of 1994.

B. Definitions.

The following definitions shall apply in the interpretation of this Section:
1. **Bona Fide Agricultural Use.** Agricultural use means land devoted as the principal use for the production of plants and animals useful to humans, including forages and sod crops; grains, feed crops, and field crops; dairy and dairy products; poultry and poultry products; livestock, including breeding and grazing of cattle, swine, captive cervidae, and similar animals; berries; herbs; flowers; seeds; grasses; nursery stock; fruits; vegetables; Christmas trees; and other similar uses and activities. The management and harvesting of a woodlot is not an agricultural use under this act.

2. **Building Envelope.** The area of a building enclosed or to be enclosed by the exterior walls of the principal building on the property, and any other area designated in this Ordinance as such.

3. **Clear-cutting.** The removal within any five (5) year period of more than twenty percent (20%) of the total number of protected trees located on a parcel of land without a tree removal permit.

4. **Commercial Nursery.** A licensed plant or tree nursery in relation to those trees planted and growing on the premises of the licensee, which are planted and grown for sale to the general public in the ordinary course of the licensee’s business.

5. **Diameter Breast Height (d.b.h.).** A tree’s diameter in inches measured by diameter tape at four and one-half (4 1/2) feet above the ground. On multi-stem trees, the largest diameter stem shall be measured.

6. **Drip Line.** An imaginary vertical line extending downward from the outermost tips of the tree branch to the ground.

7. **Landmark Tree.** Shall mean any tree which stands apart from neighboring trees due to the size, form, species or historic significance. Criteria pertaining to the size of landmark trees is listed in Section L of these regulations.

8. **Parcel.** All contiguous land situated in a lot or plot of land owned by a person.

9. **Person.** An individual, partnership, corporation, association, or other legal entity. For the purposes of this definition, an individual or entity shall mean and include all individuals in an immediate family, and all entities in which an individual has more than a ten percent (10%) interest.

10. **Protected Tree.** Any tree having a diameter breast height (d.b.h.) of four (4) inches or greater and subject to the regulations of this Ordinance.

11. **Remove or Removal.** The act of removing or terminating the life of a tree by digging up or cutting down, or the effective removal through damage that would reasonably be expected to ultimately terminate the life of a tree.

12. **Transplant.** The relocation of a tree from one place to another on the same property.

13. **Tree.** Any self-supporting, woody plant of a species which normally grows to an overall height of fifteen (15) feet or more.

14. **Tree Survey.** A scaled drawing (one (1) inch shall not exceed one hundred (100) feet) which provides the following information: location of all protected trees (i.e., trees having four (4) inches or greater d.b.h.) plotted by accurate techniques, and the common or botanical name of those trees and their d.b.h.

15. **Undeveloped.** A parcel of land that has not been improved. With respect to land which is partially improved by virtue of a building(s) or other improvement(s) located on a portion of the land, the portion of the land which does not contain the building(s) or other improvements(s) shall be considered undeveloped.

16. **Woodland.** A stand of trees identified on the Township’s Woodland Area Map.

C. Tree Removal Permit Required.
1. **Requirements.** A person shall not remove, transplant, or destroy, or cause to be removed, transplanted, or destroyed, on any undeveloped land in the Township, any protected tree (i.e., a tree having a d.b.h. of four (4) inches or greater) without first obtaining a Tree Removal Permit subject to the exceptions enumerated in Paragraph D below, "Exceptions".

2. **Plat or Site Plan Approval.** A subdivision plat and/or a site condominium or site plan shall not be approved by the Township until it has been reviewed and approved based upon the requirements for a Tree Removal Permit.

3. **Site Development Standards.** In addition to other requirements of this Section, compliance with the following standards is required in all developments:

   a. **Structures.** The applicant shall designate the location of all proposed structures or building sites and the area around them to be disturbed. Such designation shall be made with the objective of preserving protected trees, and the Planning Commission or Building Official, as the case may be, shall have discretion to require reasonable adjustments in this regard during the approval process.

   b. **Building Sites.** For each building site in a development, the applicant shall designate the "building envelope," which shall be the area enclosed or to be enclosed by the exterior walls of the proposed structure on the property, plus a reasonable area beyond such walls up to fifteen (15) feet, so long as the building or structure is not in any required setback. With the objective of preserving trees, and also allowing reasonable development, the fifteen (15) feet beyond each wall may be re-allocated so that the total distance on both sides of the exterior walls is thirty (30) feet (e.g., ten (10) feet on one side and twenty (20) feet on the other). The same treatment shall be authorized for areas beyond the front and back walls.

   c. **Activities Within Building Envelope.** A Tree Removal Permit shall not be required for construction of structures or improvements or other activities within a building envelope.

   d. **Activities Outside Building Envelope.** Subject to the exceptions enumerated in this provision, and in Paragraph D below, a tree removal permit shall be required to remove or cut a protected tree outside of the area designated for structures and building envelopes. The Planning Commission or Building Official, as the case may be, may issue an advanced written waiver of the requirement for a tree removal permit or mitigation when it is shown that tree removal is necessary and there is no reasonable alternative in connection with building location road access, driveways, utilities, septic fields or other disturbances customarily required for the particular development. The Planning Commission or Building Official may confer with other Township personnel and/or consultants in making decisions under this Section.

   e. **Minimum Preservation Requirement.** For parcels five (5) acres or greater, the applicant shall preserve and leave standing and undamaged a minimum of eighty percent (80%) of the total number of protected trees on the lot having a d.b.h. of four (4) inches or greater. However, trees contained within the designated building envelope, streets, drives, and parking areas, or within required drainage or utility improvement areas and/or driveway and sidewalk areas, as determined by the Building Official or designee, shall not be included in the calculation for determining the required minimum preservation percentage.

D. **Exceptions.**

Notwithstanding the requirements of Paragraph 3 above, the following activities shall be permitted without a Tree Removal Permit, unless otherwise prohibited by statute or other ordinance provision.

1. **Parcels Less Than Five Acres.** Tree removal on a parcel containing less than five (5) acres. For the purpose of calculating the size of a parcel, all contiguous land owned in common by one (1) owner, shall be included in determining total acreage. The term "one owner" in this provision shall include all persons in an immediate family, and all entities in which an individual has more than a ten percent (10%) interest. This provision shall not exempt parcels from regulations under the terms of this Ordinance at the time of application for approval of plats, site plans, condominiums or other land divisions. *(amended 11 15.01)*
2. **Activities Within Building Envelope or Building Site.** No tree removal permit shall be required for construction of structures or other activities within a building envelope or building site. This shall include roads, road rights-of-way, driveways, essential utilities, retention/detention ponds, or septic fields.

3. **Bona Fide Agricultural Use.** Tree removal or transplanting occurring during use of land for bona fide agricultural operations. In determining whether the land has a bona fide agricultural operation, the nature of the use, the duration of its operation, and other relevant factors shall be considered.

4. **Commercial Nursery.** Tree removal or transplanting occurring during use of land for the operation of a commercial nursery that is licensed with the State of Michigan and has previously been in operation on the property for three (3) years or more, or the property owner records an affidavit that the commercial nursery shall continue in active operation for a period of no less than five (5) years.

5. **Emergencies.** Actions made necessary by an emergency, such as tornado, windstorm, flood, freeze, dangerous and infectious insect infestation or disease, or other disaster, in order to prevent injury or damage to persons or property or restore order, and where it would be contrary to the interest of the public, or to the health or safety of one (1) or more persons to defer cutting pending submission and processing of a permit application. Unless life and property would be threatened, this exception shall not apply unless and until the Township Supervisor, or the Supervisor's designee, has approved the removal.

6. **Governmental Agencies.** Tree trimming, removal, or transplanting performed by, or on behalf of, governmental entities, Road Commission or agencies to the limited extent necessary to achieve authorized objectives of the entities or agencies.

7. **Public Utilities.** Repair or maintenance work performed by public utilities necessitating the trimming or cutting of trees to the limited extent necessary to achieve authorized objectives of the utility.

8. **Dead or Damaged Trees.** Removal or trimming of dead or damaged trees, provided the Township has first confirmed in writing the dead or damaged condition upon request of the property owner.

9. **Nominal Activity.** Where the activity involves the removal or transplanting of three (3) or fewer trees having six (6) inches or greater d.b.h. within a one (1) year period, and is not related to the development of a parcel or construction of a building or structure.

10. **Tree Management.** Where a tree management plan prepared by a State of Michigan registered forester or other natural resource professional who is qualified to prepare such a plan is submitted to and approved by the Building Official or designee, who may confer with the Township expert at his or her discretion, tree cutting may occur in accordance with the plan without a permit. To qualify under this exception, tree management activity shall be for the purpose of reducing the density of trees so as to promote and maintain the health and viability of the remaining trees and/or for forest or woodland improvements generally; for promotion of wildlife habitat; for facilitation of appropriate forest-related or woodland-related recreational activities, including but not limited to hunting; and for other similarly acceptable silvicultural practices. The management plan shall include the means by which cut trees shall be removed from the property with the least possible damage to remaining trees. The person seeking approval and exemption under this provision may be required to establish an escrow with the Building Official for the purpose of covering the costs of the Township's expert.

E. **Application for Tree Removal Permit.**

1. **Application and Fee.** A person seeking a Tree Removal Permit must submit a written application to the Township Clerk and pay the permit application fee as established by resolution of the Township Board.

2. **Time of Application.** Application for a Tree Removal Permit shall be made before removing, cutting, or transplanting trees. Where the site is proposed for development necessitating site plan, site condominium or plat review, application for a Tree Removal Permit shall be made prior to or concurrent with site plan or final preliminary plat submittal. Where development of one (1) single-family home is proposed (on parcels of five
Article XXVII

27.12 Tree and Woodlands Protection

(5) acres or more), application for tree removal permit shall be made prior to or concurrent with the building permit application.

3. One (1) Single-Family Building Site. For one (1) single-family building site on parcels of five (5) acres or more, the permit application shall include four (4) copies of a plan drawn to scale containing the following information:

a. Property Dimensions. The boundaries and dimensions of the property, and the location of any existing and proposed structure or improvement, and a statement identifying the type of structure or improvement.

b. Inventory of Trees. Location of all existing protected trees identified by common or botanical name. Trees proposed to remain, to be transplanted, or to be removed shall be so designated. The Building Official or designee may waive detailed tree inventory requirements for those areas of the site where proposed development will not impact regulated trees.

c. Tree Protection. A statement describing how trees intended to remain will be protected during development.

d. Easements and Setbacks. Location and dimension of existing and proposed easements, as well as all setbacks required by the Zoning Ordinance.

e. Grade Changes. Designation and description of grade changes proposed for the property.

f. Intended Tree Replacement. A cost estimate for any proposed tree replacement program, with a detailed explanation including the number, size, and species.

g. Tree Identification. A statement that all trees being retained will be identified by some method such as painting, flagging, etc., and, where protective barriers are necessary, that they will be erected before work starts.

h. Structures, Building Envelope, Utilities, and Driveway. The plan shall show the structures, building envelope, utilities, and driveway as existing and/or proposed on the property.

4. Other Developments. For other developments, including site plans, site condominiums or subdivisions, the permit applicant shall provide ten (10) copies of a plan containing the same information required for one (1) single-family building site, and the following additional information:

a. Plan. A topographical survey sealed by a registered engineer or registered surveyor shall be shown on the plat.

b. Tree Survey. A tree survey prepared by a State of Michigan registered forester, arborist, or landscape architect for all areas for which a Tree Removal Permit is required.

c. For larger sites over ten (10) acres in size containing more than one hundred (100) regulated trees, the Planning Commission may waive the detailed tree inventory requirements where it can be demonstrated that the proposed development will not impact woodland areas.

5. For All Developments. For all developments, any proposed tree relocation or replacement, consistent with Paragraph H, below, shall be specified in the application, including a drawing and detailed explanation of the proposal.

F. Application Review Procedure.

1. Staff Review. The Building Official or designee shall review the submitted Tree Removal Permit application to verify that the applicant has provided all required information. Completed applications shall be referred to the appropriate consultants. Upon request of either the applicant or the Township, the Township may conduct

2736

Revised 05/21/20

Charter Township of Orion Zoning Ordinance 78

Page 27 - 54
2. **Reviewing Authority.** Where the site is proposed for development necessitating site plan review, site condominium or plat approval by the Township Planning Commission, the Planning Commission shall be responsible for granting or denying the application for a Tree Removal Permit (subject to affirmation, reversal, or modification by the Township Board, with respect to plat approvals). Where site plan review or plat approval by the Planning Commission is not required by ordinance, the grant or denial of the Tree Removal Permit application shall be the responsibility of the Building Official or designee, following the right and opportunity of the Building Official or designee to confer with consultants. Where the use of a consultant is reasonably required, the property owner shall establish an escrow in an amount determined by Township Board resolution establishing fees, out of which the consultant’s fee shall be paid. The decision to grant or deny a permit shall be governed by the review standards enumerated in Paragraph G, below.

3. **Denial of Tree Removal Permit.** Whenever an application for a Tree Removal Permit is denied, the permit applicant shall be notified, in writing, of the reasons for denial. If such decision is made by the Planning Commission or Township Board, it shall be a part of the minutes of the meeting at which action on a site plan, site condominium or plat review was taken. Denial of a tree removal permit may be appealed to the Zoning Board of Appeals, in accordance with the provisions of this Ordinance.

4. **Tree Removal Permit.** Whenever an application for a Tree Removal Permit is granted, the reviewing authority shall:

   a. **Conditions.** Attach to the granting of the permit any reasonable conditions considered necessary by the reviewing authority to ensure the intent of this Ordinance will be fulfilled and to minimize damage to, encroachment in, or interference with natural resources and processes within wooded areas, including, without any limitation, the trees to be preserved.

   b. **Completion of Operations.** Fix a reasonable time, up to a maximum of eighteen (18) months, to complete tree removal, transplanting, and replacement operations, ensuring that plantings occur at correct times of the year. Such time may be extended, upon written request submitted thirty (30) days before expiration of the original permit, by the body or entity that approved the original permit.

   c. **Security.** Require the permit grantee to file with the Township a cash or irrevocable bank letter of credit in an amount reasonably determined necessary by the Township to ensure compliance with the Tree Removal Permit conditions and this Ordinance in regard to transplanting and replacement of trees; provided, however, that security shall only be required if the developer is to perform the transplanting and/or replacement after six (6) months following grant of a permit, or to perform the transplanting and/or replacement after issuance of a Certificate of Occupancy. The security requirement may also be waived at the direction of the Planning Commission or Building Official. *(amended 08.15.16)*

   d. **Term of Permit.** A tree removal permit issued under this paragraph shall be null and void if commencement of work permitted under the permit has not been commenced within a reasonable time, not to exceed twelve (12) months. In addition, a permit shall be void after the expiration of eighteen (18) months from the date of issuance. A six (6) month extension may be granted upon written request to the body or entity that approved the original permit. The request must be received forty-five (45) days before expiration of the original permit.

5. **Time for Decision.** Where a single, one-family home on a parcel five (5) acres or more is proposed, or where a site plan, site condominium, or plat review is required, the Township's decision on the application shall be issued within sixty (60) days of the date of the Township's receipt of a complete application for a Tree Removal Permit or from the time that the application is considered administratively complete; or if the application under this Section is being considered in conjunction with a companion application for development approval involving the same property, the Township's decision on the application under this Section shall be made concurrent with the decision on the other development proposal.
Article XXVII

G. Application Review Standards.

The following standards shall govern the granting or denial of an application for Tree Removal Permit:

1. Limitation. Removal or transplanting of protected trees shall be subject to the Minimum Preservation Requirement set forth in Paragraph C (3), above, for site development, and removal or transplanting of protected trees shall otherwise be limited to instances where:

   a. Necessary for Construction. Removal or transplanting is necessary for the construction of a building, structure, or other site improvement, and the permit applicant has shown there is no feasible and prudent location alternative on site for improvement; or

   b. Disease, Damage, Etc. The tree(s) is demonstrated to the Township Building Official to be diseased, damaged, or in danger of falling; be located too close to existing or proposed buildings or structures; interfere with existing utility service or drainage; create unsafe vision clearance; or be in violation of other ordinances or regulations.

2. Minimum Preservation Requirements. Unless otherwise exempt from the regulations of this Ordinance, all sites shall maintain a minimum preservation as required in Subsection (C)(3)(e), above.

3. Preservation and Conservation. Tree preservation and conservation shall be of paramount concern and importance; provided, however, that an application shall not be denied solely because of the presence of trees on the site.

4. Developmental Alternatives. Preservation and conservation of wooded areas, trees, woody vegetation, wildlife, and related natural resources and processes shall have priority over development when there are feasible and prudent location alternatives on site for proposed buildings, structures, or other site improvements.

5. Diversity of Species. A diversity of tree species shall be maintained where feasible.

6. Clear-Cutting. Where the proposed activity consists of land clearing, or clear-cutting, it shall be limited to areas to be improved for roadways, sidewalks, drainage, and utilities and areas necessary for the construction of buildings, structures, or other site improvements as shown on an approved site plan, site condominium or subdivision plat. Clear-cutting of more than twenty percent (20%) of a site (excluding areas essential for development such as roads, drainage utilities, buildings etc.) shall be prohibited.

7. Relocation or Replacement. The proposed activity shall include necessary provisions for tree relocation or replacement, in accordance with Paragraph H, and tree protection, in accordance with Paragraph I.

H. Tree Relocation or Replacement.

1. Requirement Established. For each protected tree required to be preserved under the terms and standards set forth above, and which is permitted to be removed by permit granted under this Section, the applicant shall replace or relocate trees according to the replacement tree requirements set forth below.

2. Replacement Tree Requirements.

   a. Replacement trees shall have shade potential and/or other characteristics comparable to the removed trees, shall be State Department of Agriculture Nursery Grade No. 1 or better, and must be approved by the Township prior to planting. Replacement trees must be staked, fertilized, and mulched, and watered, and shall be guaranteed by the applicant for two (2) years. An agreement together with appropriate security (cash or letter of credit) in a form approved by the Township, shall be provided in connection with such guaranty.

   b. Trees usable for replacement trees may be transplanted on site using appropriate and accepted procedures and precautions.
Article XXVII
General Provisions

27.12 Tree and Woodlands Protection

c. For deciduous trees, replacement shall be on a one-for-one basis. For example, for each tree removed, a replacement tree shall be planted. All replacement trees shall have a d.b.h. of at least two (2) inches. All evergreen replacement trees shall be at least six (6) feet tall.

d. One (1) landmark tree shall be replaced at a rate of one (1) inch of replacement tree for each d.b.h. inch of landmark tree removed.

e. Trees listed in Section 27.05 (E) shall not be permitted as replacement trees.

f. The Planning Commission shall be authorized to waive a portion or all of the tree replacement requirements when site factors, tree conditions, or development requirements preclude reasonable actions to conform with this Section, and the applicant proposes a contribution to the Tree Fund, created in Paragraph M, below, in an amount reasonably related to the cost of the tree replacement being waived.

3. Replacement Tree Location.

a. Township Approval Required. The Township shall approve tree relocation or replacement locations. To the extent feasible and desirable, trees shall be relocated or replaced on site and within the same general area as trees removed, provided that survival shall not be jeopardized by improvements or activities.

b. Relocation or Replacement Off-Site. Where it is not feasible and desirable to relocate or replace trees on site, as determined by the Township decision-maker under this Section, relocation or replacement may be made at another location in the Township, approved as part of the permit. This shall not preclude reasonable actions to conform with this Section or contributions to the Tree Fund, created in Paragraph M, below, in an amount reasonably related to the cost of the tree replacement being waived.

I. Tree Protection During Construction.

1. Placing Materials Near Tree. No person may conduct any activity within the drip line of any protected tree designated to remain, including, but not limited to, placing solvents, building material, construction equipment, or soil deposits within the drip line.

2. Attachments to Trees. During construction, no person shall attach any device to any remaining protected tree except for the protection of a tree in accordance with forestry procedures.

3. Protective Barrier. Before development, land-clearing, filling, or any land alteration for which a Tree Removal Permit is required, the applicant shall erect and maintain suitable barriers to protect remaining trees. Protective barriers shall remain in place until the Township authorizes their removal or issues a final Certificate of Occupancy, whichever occurs first. Wood, metal or other substantial material shall be utilized in the construction of barriers. Barriers are required for all trees designated to remain, except in the following cases:

a. Rights-of-Way and Easements. Street right-of-way and utility easements may be cordoned by placing stakes a minimum of fifty (50) feet apart and tying ribbon, plastic tape, rope, etc., from stake to stake along the outside perimeters of areas to be cleared.

b. Large, Separate Areas. Large property areas separate from the construction or land clearing area, onto which no equipment will travel or be stored, may also be cordoned off as described in Subparagraph (a) above.

1. Display of Permit. The tree removal permit grantee shall conspicuously display the permit on site. The permit grantee shall display the permit continuously while trees are being removed or replaced or while activities authorized under the permit are performed. The permit grantee shall allow Township representatives to enter
Article XXVII  General Provisions

27.12 Tree and Woodlands Protection

and inspect the premises at any reasonable time, and failure to allow inspection shall constitute a violation of this Section.

2. **Stop Work: Withholding Certificate of Occupancy.** The Building Official may issue a stop work order if this Section is being violated, or if the Permitee is failing to conform with any conditions attached to a Tree Removal Permit. In addition, the Building Official may withhold issuance of a Certificate of Occupancy until a violation or conformance with a condition has been cured; provided, however, the Building Official may, in his or her discretion, issue a temporary Certificate of Occupancy, conditioned upon the posting of reasonable security coupled with an agreement in a form approved by the Township guaranteeing the cure of a violation or condition.

3. **Pursuit of Court Relief.** In addition to all other remedies available, the Township may issue a citation or initiate Circuit Court litigation to achieve compliance with this Section.

K. Historic or Landmark Trees.

A nomination for designation shall be brought up for consideration by the Planning Commission.

1. Any Township property owner may nominate a tree within their own property boundaries for designation as a landmark tree or historic tree. If nominated, the Planning Commission shall review the nomination request and if determined to meet the criteria listed below, shall be placed on the Township’s Landmark Tree Inventory.

2. The Planning Commission may designate a tree, upon nomination, as a historic tree upon finding that one (1) or more of the following unique characteristics exist:

   a. The tree is the predominant tree within a distinct scenic or aesthetically valued setting.

   b. The tree is of unusual age or size for that species in this climatic and geographic location. (Examples include trees listed on the Register of Big Trees or the Michigan Botanical Club as large trees.)

   c. The tree has gained prominence due to unusual form or botanical characteristics.

   d. The tree has some historical significance to the Township.

3. The Building Department shall maintain an inventory of all nominated and designated Historic Landmark Trees.

4. A permit shall be required to remove any landmark or historic tree. Any historic tree shall be replaced on a 1-to-1 caliper inch basis. For example, a 48" landmark tree shall be replaced by 24 two-inch trees. This replacement requirement may be waived if, in the opinion of the Planning Commission and after review by the Township's consultant, the health/condition of the tree is such that it should not be counted.
L. Landmark Trees.

1. The following landmark trees shall be protected under this Section:

M. Tree Fund.

1. A Tree Fund is hereby created as the depository for all moneys proposed to be paid by applicants in lieu of tree replacement or relocation, as provided in this Section.

2. The Township Board shall administer the Tree Fund, with the objective of pursuing the planting of trees within the Township. In the administration of the Tree Fund, the Township Board shall, if reasonably feasible, attempt to purchase and install trees within a reasonable proximity of the development in connection with which funds have been paid to the Tree Fund.

Section 27.13 – Regulated Uses (added 03.04.02)

A. Intent and Purpose.
### Section 27.12 – Tree and Woodlands Protection

#### C. Tree Removal Permit Required.

1. Requirements. A person shall not remove, transplant, or destroy, or cause to be removed, transplanted, or destroyed, on any undeveloped land in the Township, any protected tree (i.e., a
   tree having a d.b.h. of four (4) inches or greater) without first obtaining a Tree Removal Permit
   subject to the exceptions enumerated in Paragraph D below, "Exceptions".

2. Plat or Site Plan Approval. A subdivision plat and/or a site condominium or site plan shall not be
   approved by the Township until it has been reviewed and approved based upon the requirements
   for a Tree Removal Permit.

3. Site Development Standards. In addition to other requirements of this Section, compliance with
   the following standards is required in all developments:

   a. Structures. The applicant shall designate the location of all proposed structures or building sites
      and the area around them to be disturbed. Such designation shall be made with the objective of
      preserving protected trees, and the Planning Commission or Building Official, as the case may be,
      shall have discretion to require reasonable adjustments in this regard during the approval process.

   b. Building Sites. For each building site in a development, the applicant shall designate the “building
      envelope,” which shall be the area enclosed or to be enclosed by the exterior walls of the proposed
      structure on the property, plus a reasonable area beyond such walls up to fifteen (15) feet, so long
      as the building or structure is not in any required setback. With the objective of preserving trees,
      and also allowing reasonable development, the fifteen (15) feet beyond each wall may be re-
      allocated so that the total distance on both sides of the exterior walls is thirty (30) feet (e.g., ten
      (10) feet on one side and twenty (20) feet on the other). The same treatment shall be authorized
      for areas beyond the front and back walls.

   c. Activities Within Building Envelope. A Tree Removal Permit shall not be required for construction
      of structures or improvements or other activities within a building envelope.

   d. Activities Outside Building Envelope. Subject to the exceptions enumerated in this provision, and
      in Paragraph D below, a tree removal permit shall be required to remove or cut a protected tree
      outside of the area designated for structures and building envelopes. The Planning Commission or
      Building Official, as the case may be, may issue an advanced written waiver of the requirement for
      a tree removal permit or mitigation when it is shown that tree removal is necessary and there is
      no reasonable alternative in connection with building location road access, driveways, utilities,
      septic fields or other disturbances customarily required for the particular development. The
      Planning Commission or Building Official may confer with other Township personnel and/or
      consultants in making decisions under this Section.

   e. Minimum Preservation Requirement. For parcels five (5) acres or greater, the applicant shall
      preserve and leave standing and undamaged a minimum of eighty percent (80%) of the total
      number of protected trees on the lot having a d.b.h. of four (4) inches or greater. However, trees
      contained within the designated building envelope, streets, drives, and parking areas, or within
      required drainage or utility improvement areas and/or driveway and sidewalk areas, as
      determined by the Building Official or designee, shall not be included in the calculation for
      determining the required minimum preservation percentage.

#### D. Exceptions.

Notwithstanding the requirements of Paragraph 3 above, the following activities shall be permitted
without a Tree Removal Permit, unless otherwise prohibited by statute or other ordinance
provision.

1. Parcels Less Than Five Acres. Tree removal on a parcel containing less than five (5) acres. For the
   purpose of calculating the size of a parcel, all contiguous land owned in common by one (1) owner,
   shall be included in determining total acreage. The term “one owner” in this provision shall include
   all persons in an immediate family, and all entities in which an individual has more than a ten
   percent (10%) interest. This provision shall not exempt parcels from regulations under the terms
of this Ordinance at the time of application for approval of plats, site plans, condominiums or other land divisions. (amended 11.15.01)

2. Activities Within Building Envelope or Building Site. No tree removal permit shall be required for construction of structures or other activities within a building envelope or building site. This shall include roads, road rights-of-way, driveways, essential utilities, retention/detention ponds, or septic fields.

3. Bona Fide Agricultural Use. Tree removal or transplanting occurring during use of land for bona fide agricultural operations. In determining whether the land has a bona fide agricultural operation, the nature of the use, the duration of its operation, and other relevant factors shall be considered.

4. Commercial Nursery. Tree removal or transplanting occurring during use of land for the operation of a commercial nursery that is licensed with the State of Michigan and has previously been in operation on the property for three (3) years or more, or the property owner records an affidavit that the commercial nursery shall continue in active operation for a period of no less than five (5) years.

5. Emergencies. Actions made necessary by an emergency, such as tornado, windstorm, flood, freeze, dangerous and infectious insect infestation or disease, or other disaster, in order to prevent injury or damage to persons or property or restore order, and where it would be contrary to the interest of the public, or to the health or safety of one (1) or more persons to defer cutting pending submission and processing of a permit application. Unless life and property would be threatened, this exception shall not apply unless and until the Township Supervisor, or the Supervisor's designee, has approved the removal.

6. Governmental Agencies. Tree trimming, removal, or transplanting performed by, or on behalf of, governmental entities, Road Commission or agencies to the limited extent necessary to achieve authorized objectives of the entities or agencies.

7. Public Utilities. Repair or maintenance work performed by public utilities necessitating the trimming or cutting of trees to the limited extent necessary to achieve authorized objectives of the utility.

8. Dead or Damaged Trees. Removal or trimming of dead or damaged trees, provided the Township has first confirmed in writing the dead or damaged condition upon request of the property owner.

9. Nominal Activity. Where the activity involves the removal or transplanting of three (3) or fewer trees having six (6) inches or greater d.b.h. within a one (1) year period, and is not related to the development of a parcel or construction of a building or structure.

10. Tree Management. Where a tree management plan prepared by a State of Michigan registered forester or other natural resource professional who is qualified to prepare such a plan is submitted to and approved by the Building Official or designee, who may confer with the Township expert at his or her discretion, tree cutting may occur in accordance with the plan without a permit. To qualify under this exception, tree management activity shall be for the purpose of reducing the density of trees so as to promote and maintain the health and viability of the remaining trees and/or for forest or woodland improvements generally; for promotion of wildlife habitat; for facilitation of appropriate forest-related or woodland-related recreational activities, including but not limited to hunting; and for other similarly acceptable silvicultural practices. The management plan shall include the means by which cut trees shall be removed from the property with the least possible damage to remaining trees. The person seeking approval and exemption under this provision may be required to establish an escrow with the Building Official for the purpose of covering the costs of the Township's expert.

E. Application for Tree Removal Permit.

4. Other Developments. For other developments, including site plans, site condominiums or subdivisions, the permit applicant shall provide ten (10) copies of a plan containing the same information required for one (1) single-family building site, and the following additional information:
a. Plan. A topographical survey sealed by a registered engineer or registered surveyor shall be shown on the plat.

b. Tree Survey. A tree survey prepared by a State of Michigan registered forester, arborist, or landscape architect for all areas for which a Tree Removal Permit is required.

c. For larger sites over ten (10) acres in size containing more than one hundred (100) regulated trees, the Planning Commission may waive the detailed tree inventory requirements where it can be demonstrated that the proposed development will not impact woodland areas.

F. Application Review Procedure.

4. Tree Removal Permit. Whenever an application for a Tree Removal Permit is granted, the reviewing authority shall:

   a. Conditions. Attach to the granting of the permit any reasonable conditions considered necessary by the reviewing authority to ensure the intent of this Ordinance will be fulfilled and to minimize damage to, encroachment in, or interference with natural resources and processes within wooded areas, including, without any limitation, the trees to be preserved.

   b. Completion of Operations. Fix a reasonable time, up to a maximum of eighteen (18) months, to complete tree removal, transplanting, and replacement operations, ensuring that plantings occur at correct times of the year. Such time may be extended, upon written request submitted thirty (30) days before expiration of the original permit, by the body or entity that approved the original permit.

   c. Security. Require the permit grantee to file with the Township a cash or irrevocable bank letter of credit in an amount reasonably determined necessary by the Township to ensure compliance with the Tree Removal Permit conditions and this Ordinance in regard to transplanting and replacement of trees; provided, however, that security shall only be required if the developer is to perform the transplanting and/or replacement after six (6) months following grant of a permit, or to perform the transplanting and/or replacement after issuance of a Certificate of Occupancy. The security requirement may also be waived at the direction of the Planning Commission or Building Official. (amended 08.15.16)

   d. Term of Permit. A tree removal permit issued under this paragraph shall be null and void if commencement of work permitted under the permit has not been commenced within a reasonable time, not to exceed twelve (12) months. In addition, a permit shall be void after the expiration of eighteen (18) months from the date of issuance. A six (6) month extension may be granted upon written request to the body or entity that approved the original permit. The request must be received forty-five (45) days before expiration of the original permit.

G. Application Review Standards.

The following standards shall govern the granting or denial of an application for Tree Removal Permit:

1. Limitation. Removal or transplanting of protected trees shall be subject to the Minimum Preservation Requirement set forth in Paragraph C (3), above, for site development, and removal or transplanting of protected trees shall otherwise be limited to instances where:

   a. Necessary for Construction. Removal or transplanting is necessary for the construction of a building, structure, or other site improvement, and the permit applicant has shown there is no feasible and prudent location alternative on site for improvement; or

   b. Disease, Damage, Etc. The tree(s) is demonstrated to the Township Building Official to be diseased, damaged, or in danger of falling; be located too close to existing or proposed buildings or structures; interfere with existing utility service or drainage; create unsafe vision clearance; or be in violation of other ordinances or regulations.

2. Minimum Preservation Requirements. Unless otherwise exempt from the regulations of this Ordinance, all sites shall maintain a minimum preservation as required in Subsection (C)(3)(e), above.
3. Preservation and Conservation. Tree preservation and conservation shall be of paramount concern and importance; provided, however, that an application shall not be denied solely because of the presence of trees on the site.

4. Developmental Alternatives. Preservation and conservation of wooded areas, trees, woody vegetation, wildlife, and related natural resources and processes shall have priority over development when there are feasible and prudent location alternatives on site for proposed buildings, structures, or other site improvements.

5. Diversity of Species. A diversity of tree species shall be maintained where feasible.

6. Clear-Cutting. Where the proposed activity consists of land clearing, or clear-cutting, it shall be limited to areas to be improved for roadways, sidewalks, drainage, and utilities and areas necessary for the construction of buildings, structures, or other site improvements as shown on an approved site plan, site condominium or subdivision plat. Clear-cutting of more than twenty percent (20%) of a site (excluding areas essential for development such as roads, drainage utilities, buildings etc.) shall be prohibited.

7. Relocation or Replacement. The proposed activity shall include necessary provisions for tree relocation or replacement, in accordance with Paragraph H, and tree protection, in accordance with Paragraph I.

H. Tree Relocation or Replacement.

1. Requirement Established. For each protected tree required to be preserved under the terms and standards set forth above, and which is permitted to be removed by permit granted under this Section, the applicant shall replace or relocate trees according to the replacement tree requirements set forth below.

2. Replacement Tree Requirements.

   a. Replacement trees shall have shade potential and/or other characteristics comparable to the removed trees, shall be State Department of Agriculture Nursery Grade No. 1 or better, and must be approved by the Township prior to planting. Replacement trees must be staked, fertilized, and mulched, and watered, and shall be guaranteed by the applicant for two (2) years. An agreement together with appropriate security (cash or letter of credit) in a form approved by the Township, shall be provided in connection with such guaranty.

   b. Trees usable for replacement trees may be transplanted on site using appropriate and accepted procedures and precautions.

   c. For deciduous trees, replacement shall be on a one-for-one basis. For example, for each tree removed, a replacement tree shall be planted. All replacement trees shall have a d.b.h. of at least two (2) inches. All evergreen replacement trees shall be at least six (6) feet tall.

   d. One (1) landmark tree shall be replaced at a rate of one (1) inch of replacement tree for each d.b.h. inch of landmark tree removed.

   e. Trees listed in Section 27.05 (E) shall not be permitted as replacement trees.

   f. The Planning Commission shall be authorized to waive a portion or all of the tree replacement requirements when site factors, tree conditions, or development requirements preclude reasonable actions to conform with this Section, and the applicant proposes a contribution to the Tree Fund, created in Paragraph M, below, in an amount reasonably related to the cost of the tree replacement being waived.

3. Replacement Tree Location.

   a. Township Approval Required. The Township shall approve tree relocation or replacement locations. To the extent feasible and desirable, trees shall be relocated or replaced on site and within the same general area as trees removed, provided that survival shall not be jeopardized by improvements or activities.

   b. Relocation or Replacement Off-Site. Where it is not feasible and desirable to relocate or replace trees on site, as determined by the Township decision-maker under this Section, relocation or
replacement may be made at another location in the Township, approved as part of the permit. This shall not preclude reasonable actions to conform with this Section or contributions to the Tree Fund, created in Paragraph M, below, in an amount reasonably related to the cost of the tree replacement being waived.

I. Tree Protection During Construction.

1. Placing Materials Near Tree. No person may conduct any activity within the drip line of any protected tree designated to remain, including, but not limited to, placing solvents, building material, construction equipment, or soil deposits within the drip line.

2. Attachments to Trees. During construction, no person shall attach any device to any remaining protected tree except for the protection of a tree in accordance with forestry procedures.

3. Protective Barrier. Before development, land-clearing, filling, or any land alteration for which a Tree Removal Permit is required, the applicant shall erect and maintain suitable barriers to protect remaining trees. Protective barriers shall remain in place until the Township authorizes their removal or issues a final Certificate of Occupancy, whichever occurs first. Wood, metal or other substantial material shall be utilized in the construction of barriers. Barriers are required for all trees designated to remain, except in the following cases:

   a. Rights-of-Way and Easements. Street right-of-way and utility easements may be cordoned by placing stakes a minimum of fifty (50) feet apart and tying ribbon, plastic tape, rope, etc., from stake to stake along the outside perimeters of areas to be cleared.

   b. Large, Separate Areas. Large property areas separate from the construction or land clearing area, onto which no equipment will travel or be stored, may also be cordoned off as described in Subparagraph (a) above.

1. Display of Permit. The tree removal permit grantee shall conspicuously display the permit on site. The permit grantee shall display the permit continuously while trees are being removed or replaced or while activities authorized under the permit are performed. The permit grantee shall allow Township representatives to enter and inspect the premises at any reasonable time, and failure to allow inspection shall constitute a violation of this Section.

2. Stop Work: Withholding Certificate of Occupancy. The Building Official may issue a stop work order if this Section is being violated, or if the Permittee is failing to conform with any conditions attached to a Tree Removal Permit. In addition, the Building Official may withhold issuance of a Certificate of Occupancy until a violation or conformance with a condition has been cured; provided, however, the Building Official may, in his or her discretion, issue a temporary Certificate of Occupancy, conditioned upon the posting of reasonable security coupled with an agreement in a form approved by the Township guaranteeing the cure of a violation or condition.

3. Pursuit of Court Relief. In addition to all other remedies available, the Township may issue a citation or initiate Circuit Court litigation to achieve compliance with this Section.

K. Historic or Landmark Trees.

A nomination for designation shall be brought up for consideration by the Planning Commission.

1. Any Township property owner may nominate a tree within their own property boundaries for designation as a landmark tree or historic tree. If nominated, the Planning Commission shall review the nomination request and if determined to meet the criteria listed below, shall be placed on the Township’s Landmark Tree Inventory.

2. The Planning Commission may designate a tree, upon nomination, as a historic tree upon finding that one (1) or more of the following unique characteristics exist:

   a. The tree is the predominant tree within a distinct scenic or aesthetically valued setting.

   b. The tree is of unusual age or size for that species in this climatic and geographic location. (Examples include trees listed on the Register of Big Trees or the Michigan Botanical Club as large trees.)
c. The tree has gained prominence due to unusual form or botanical characteristics.

d. The tree has some historical significance to the Township.

3. The Building Department shall maintain an inventory of all nominated and designated Historic Landmark Trees.

4. A permit shall be required to remove any landmark or historic tree. Any historic tree shall be replaced on a 1-to-1 caliper inch basis. For example, a 48" landmark tree shall be replaced by 24 two-inch trees. This replacement requirement may be waived if, in the opinion of the Planning Commission and after review by the Township's consultant, the health/condition of the tree is such that it should not be counted.

L. Landmark Trees.

1. The following landmark trees shall be protected under this Section:

M. Tree Fund.

1. A Tree Fund is hereby created as the depository for all monies proposed to be paid by applicants in lieu of tree replacement or relocation, as provided in this Section.

2. The Township Board shall administer the Tree Fund, with the objective of pursuing the planting of trees within the Township. In the administration of the Tree Fund, the Township Board shall, if reasonably feasible, attempt to purchase and install trees within a reasonable proximity of the development in connection with which funds have been paid to the Tree Fund.
