Supervisors Swiercznski and Paduchak reported on their committee meeting with members of the Mental Health Board and presented the following resolution.

January 20, 1970

Supervisor Ted Swiercznski
Chairman, Health Committee
Orleans County Board of Supervisors
Court House
Albion, New York 14411

Dear Ted:

The Mental Health Board, after study and discussion, would like to recommend approval of a liason between the Department of Social Welfare at the State University of New York at Buffalo and the Mental Health Clinic. This liason would involve the placement of one student, The Reverend Mr. James Proctor, with our Clinic for his field work experience for a period of three to four months, three days a week. Mr. Proctor is sponsored at the University by a grant from the National Institute of Mental Health and is studying for a Master's degree in Social Work with emphasis on Community Organization. Because of his extensive knowledge of Orleans County, previous work with the Ministry of Concern as well as the personal and professional qualities which have made him so successful in his other endeavors, we feel that he would be an asset to our program. Not only would he gain experience, but the Clinic could benefit by his work.

He, of course, would not be salaried. As is indicated in the outline of Mr. Proctor's areas of work, considerable travel about the county would be involved. We feel that he should not have to be personally responsible for the cost involved in travel and recommend that the Board of Supervisors approve payment of mileage at the rate of \$.10 per mile.

As you know, the Mental Health Board has been trying to recruit a full-time Supervising Psychiatric Social Worker since the program's inception. Although we have interviewed several, we did not come to terms with any of our candidates. We now have the opportunity of hiring, on a part-time basis (6 hours per week), a qualified social worker from Wyoming County, Mr. Nathaniel Finch. He would engage in general casework and marital counseling and also supervise Mr. Proctor in his individual casework with clients. We have evaluated Mr. Finch's training and qualifications and recommend that he be appointed part-time Supervising Psychiatric Social Worker at a rate of \$10.00 per hour. This appointment would be contingent upon the formal approval of the Wyoming County Mental Health Board, which has informally indicated its approval.

The hourly rate figured on an annual salary of \$12,000 (our budgeted figure for full-time personnel) is \$8.00. Taking into

consideration the travel time and expenses (at least 80 miles round trip), and the fact that no fringe benefits are involved, we feel that \$10.00 per hour is a fair rate.

Hope the enclosed information is helpful.

Sincerely,
(Mrs. Antoine A. Nassar)
Chairman
Orleans County Mental Health Board

RESOLUTION NO. 12

Seconded by Supervisor Paduchak.

Attention: Mr. Maynard Reed, Chairman
Purchasing & Printing Committee

Honorable Sirs:

Please be advised that we have encumbered sufficient funds of a surplus from last years appropriation to purchase (2) pieces of equipment for the Department of Social Services.

- (1) An accounting machine purchased from Burroughs about nine years ago. This equipment is practically worn out. For the past year we have encountered considerable difficulty. About twice a month at the time the payrolls are being prepared the machine will break down and of course this creates somewhat of a problem. We have struggled along for a year but it has come to a point where a new machine is a necessity.
- (2) The dishwasher used in the kitchen is the original equipment installed at the time of construction ten years ago. This equipment is also beyond repair. We have encountered considerable difficulty trying to keep the machine operating with many repairs in the last couple of years.

May I request the purchasing and printing committee of your respective Board, advertise for bids for the two pieces of equipment separately for the Department of Social Services. Please specify the old accounting machine and dishwasher to be traded in towards the purchase of the new equipment. The bid on the new dishwasher to be

installed by the supplier. Both machines can be inspected at the County Home & Infirmary and specifications are available at the office of the Commissioner of Social Services.

Your consideration will be deeply appreciated.

Respectfully,
ARTHUR NENNI,
Commissioner

**RESOLUTION ON WELFARE, EDUCATION
AND HEALTH**

RESOLVED, that the following resolution be transmitted by the Governor of the State of New York to the President and the Congress of the United States.

We, the undersigned, State and local officials of the state of New York, are now faced with increasing expenditures for welfare, education and medical care which clearly cannot long be financed on the tax base available to State and local governments.

We in New York State have recognized our responsibility to meet these problems. From 1961 to 1968, State and local expenditures in

New York have increased by 85 percent. At the same time, Federal domestic expenditures have increased by only 59 percent.

The Federal Government now collects 63 percent of all tax revenues and 91 percent of the tax which is most responsive to economic growth — the income tax. However, Federal aid to State and local governments amounts to only 13 percent of total Federal spending.

As a result of these factors, we believe that it is imperative that the Federal Government act now to alleviate the fiscal crisis which confronts state and local governments.

Therefore, we urge the President and the Congress to take immediate steps to provide for:

the Federal assumption, on a phased basis, of full responsibility for the financing of welfare;

substantially increased Federal participation in the financing of elementary and secondary education;

the establishment of a national universal health insurance program.

Adopted.

The Clerk presented the following annual reports which were ordered printed in the 1969 proceedings: Election Board, Supervisors Compensation Table, Highway Dept., Forest Practice, ASCS, Veterans Service, Probation, Motor Vehicle, County Clerk, Sealer of Weights & Measures, Self-Insurance, History, Soil Conservation.

NO. 57 OF 1970**

Adopted.

Supervisor Reed suggested that the proceeds from the 1% increase in sales tax be used exclusively to pay the cost of the new jail. He explained that according to his figures based on 7% interest a savings of about a million dollars over a 30 year bond issue could be realized. Supervisors Roberts and Paduchak said that if the money were used to pay the cost of the jail they could vote in favor of the sales tax increase because it would benefit all the taxpayers of the county.

RESOLUTION

of the

Board of Supervisors of the County of Orleans, amending Resolution No. 164 of the year 1967, as amended, which imposed taxes on sales and uses of tangible personal property and on certain services, and on occupancy of hotel rooms, admission charges and club dues, pursuant to Article 29 of the Tax Law of the State of New York.

Be it enacted by the Board of Supervisors of the County of Orleans as follows:

SECTION 1. Section 1 (b) (4) (i) of Resolution No. 164, is hereby amended to read as follows:

"(i) A sale of tangible personal property to any person for any purposes, other than (A) for resale as such or as a physical component part of tangible personal property, or (B) for use by that person in performing the services subject to tax under paragraphs (1), (2), (3) and (5) of subdivision (c) of section two where the property so sold becomes a physical component part of the property upon which the services are performed or where the property so sold is later actually transferred to the purchaser of the service in conjunction with the performance of the service subject to tax. Notwithstanding the preceding provisions of this subparagraph, a sale of any tangible personal property to a contractor, subcontractor or repairman for use or consumption in erecting structures or buildings, or building on, or otherwise adding to, altering, improving or repairing real property, property or land, as the terms real property, property or land are defined in the real property tax law, is deemed to be a retail sale regardless of whether the tangible personal property is to be resold as such before it is so used or consumed."

SECTION 2. Section 4 of Resolution No. 164 is hereby amended by adding thereto a new paragraph to read as follows:

SECTION 4. Imposition of compensating use tax. Except to the extent that property or services have already been or will be

subject to the sales tax under this article, there is hereby imposed on every person a use tax for the use within this (county) on and after August first, nineteen hundred sixty-five, except as otherwise exempted under this article, (A) of any tangible personal property purchased at retail, (B) of any tangible personal property manufactured, processed or assembled by the user if items of the same kind of tangible personal property are offered for sale by him in the regular course of business, (C) of any of the services described in paragraph (1) of subdivision (c) of section two and (D) of any tangible personal property, however acquired, where not acquired for purposes of resale, upon which any of the services described under paragraphs (2) and (3), of subdivision (c) of section two have been performed. For purposes of clause (a) of this section, the tax shall be at the rate of 3 percent of the consideration given or contracted to be given for such property, or for the use of such property, but excluding any credit for tangible personal property accepted in part payment and intended for resale, plus the cost of transportation except where such cost is separately stated in the written contract if any, and on the bill rendered to the purchaser. "For purposes of clause (B) of this section, the tax shall be at the rate of 3 percent of the price at which items of the same kind of tangible personal property are offered for sale by the user, and the mere storage, keeping, retention or withdrawal from storage of tangible personal property by the person who manufactured, processed or assembled such property shall not be deemed a taxable use by him. Notwithstanding the foregoing, for purposes of clause (B) of this section, there shall be no tax on any portion of such price which represents the value added by the user to tangible personal property which he fabricates and installs to the specifications of an addition or capital improvement to real property, property or land, as the terms real property, property or land are defined in the real property tax law, over and above the prevailing normal purchase price prior to such fabrication of such tangible personal property which a manufacturer, producer or assembler would charge an unrelated contractor who similarly fabricated and installed such tangible personal property to the specifications of an addition or capital improvement to such real property, property or land. For purposes of clauses (C) and (D) of this section, the tax shall be at the rate of 3 percent of the consideration given or contracted to be given for the service, including the consideration for any tangible personal property transferred in conjunction with the performance of the service, plus the cost of transportation of property so transferred and of the tangible personal property upon which the service was performed, except where such cost is separately stated in the written contract, if any, and on the bill rendered to the purchaser.

SECTION 3. Subdivision (a) of Section 5 of Resolution No. 164 is hereby amended to read as follows:

(a) The retail sales tax imposed under subdivision (a) of Section 2 and the compensating use tax imposed under Section 4, when computed in respect to tangible personal property whenever manufactured, processed or assembled and used by such manufac-

turer, producer or assembler in the regular course of business within this county, shall be based on the price at which items of the same kind of tangible personal property are offered for sale by him, except to the extent otherwise provided in Section 4 hereof."

SECTION 4. Subdivision (a) of Section 6 of Resolution No. 164 is hereby amended by adding thereto new paragraphs, to be paragraphs thirteen, fourteen and fifteen of such subdivision, to read as follows:

"(13) Motor Vehicles, as such term is defined in section one hundred twenty-five of the vehicle and traffic law, sold by a husband or wife to his or her spouse. Provided, however, this exemption shall not apply if the vendor is a dealer as defined in section four hundred fifteen of the vehicle and traffic law.

(14) Tangible personal property sold to a contractor, sub-contractor or repairman for use or consumption in erecting a structure or building of an organization described in subdivision (a) of section seven, or adding to, altering, improving or repairing real property, property or land, of such an organization, as the terms real property, property or land are defined in the real property tax law; provided, however, no exemption shall exist under this paragraph unless such tangible personal property (i) is to become an integral component part of such structure, building or real property and (ii) is to be resold to such organization as tangible personal property before it has become a part of such structure, building or real property.

(15) Tangible personal property sold by a contractor, sub-contractor or repairman to a person other than an organization described in subdivision (a) of section seven, for whom he is adding to, or improving real property, property or land by a capital improvement, or for whom he is about to do any of the foregoing, if such tangible personal property is to become an integral component part of such structure, building or real property; provided, however, that if such sale is made pursuant to a contract irrevocably entered into before September first, nineteen hundred and sixty-nine, no exemption shall exist under this paragraph unless the sale of such tangible personal property to such contractor, subcontractor or repairman was a taxable retail sale at the time it occurred."

SECTION 5. Section 6 of Resolution No. 164 is hereby amended by adding there to a new subdivision, to be subdivision (g) to read as follows:

"(g) Services otherwise taxable under paragraph (3) of subdivision (c) of section two shall be exempt from tax if performed upon prosthetic aids, hearing aids, or eye glasses and artificial devices designed for the use of a particular individual to correct or alleviate physical incapacity."

SECTION 6. Section 12 of Resolution No. 164 is hereby

amended by adding thereto a new subdivision, to be subdivision (c), to read as follows:

"(C) Subject to the conditions and limitations provided herein, a contractor, subcontractor or repairman shall be allowed a credit for a tax paid pursuant to subdivision (a) of section two or section four on the sale or use of tangible personal property, if he later uses such property in performing a service subject to the tax imposed under paragraph (3) or paragraph (5) of subdivision (c) of section two and such property becomes a physical component part of the property upon which the services are performed or the property is actually transferred to the purchaser of the service in conjunction with the performance of the service subject to tax, or if he later makes a retail sale of such tangible personal property, the acquisition of which would not have been a sale at retail to him but for the last sentence of subparagraph (i) of paragraph (4) of subdivision of section one."

SECTION 7. Section 13 of Resolution No. 164 is hereby amended to read as follows:

"Section 13. Administration and collection. The taxes imposed by this resolution under authority of Article 29 of the Tax Law shall be administered and collected by the State Tax Commission in the same manner as the taxes imposed under article 28 of the Tax Law are administered and collected by such Commission. All of the provisions of said Article 28 relating to or applicable to the administration and collection of the taxes imposed by that article shall apply to the taxes imposed by this resolution, including sections eleven hundred one, eleven hundred six (e), eleven hundred eleven, eleven hundred eighteen (b) eleven hundred nineteen, eleven hundred twenty and eleven hundred thirty-one through eleven hundred forty-seven, together with any amendment thereto, with the same force and effect as if those provisions had been incorporated in full into this resolution except as otherwise provided in section twelve hundred fifty of the Tax Law."

SECTION 8. Subdivision (c) of Section 14 of Resolution No. 164 is hereby amended to read as follows:

"(c) The remainder of such monies shall be applied first to reduce county taxes levied upon real property in the several towns in such area. Any balance remaining shall then be applied to reduce general town taxes levied upon real property in such area. Any town, by local law, ordinance or resolution, however, may provide that the amounts which would be so applied to reduce the county taxes and general town taxes levied upon real property in such town shall be paid directly to such town to be used for any town purpose. If any village, by local law, ordinance or resolution shall so provide, the amounts which would be so applied to reduce the county and general town taxes levied upon real property in such village shall be paid directly to such village in lieu of such tax reduction. Where any

village has elected to be paid directly as provided in this subdivision, the amount to be paid to such village shall be determined by the ratio that the full valuation of real property in the village or portion thereof within the town in which such village is located bears to the full valuation of real property in the entire town. If a village wholly or partially within a town has so elected to be paid directly, but the town in which such village is located has not so elected, the amount allocated to the town in which such village is wholly or partially situated shall be applied to reduce county taxes and general town taxes in the area of the town outside such village. If the amount allocated to a town exceeds the amount of the county taxes and general town taxes levied upon real property in the town, the excess shall be apportioned between the town and each village, if any, wholly or partially situated therein, in the ratios that the full valuation of real property in each such village or portion thereof within the town, and the full valuation of real property in the portion of the town outside of such village or villages, respectively, bear to the aggregate full valuation of the entire town. The share of each such village shall be paid directly to such village. The share of the town shall be applied, first, to reduce taxes levied for part-town activities, and any balance remaining shall be paid directly to the town, to be used only for part-town activities. The amount to be applied in reduction of county taxes and general town taxes in each town for the quarters beginning January first and July first in each year shall be determined on the basis of the ratio which the full valuation of real property in each town bears to the aggregate full valuation of real property in all of the towns in such county. The amount to be applied in reduction of county taxes and general town taxes in each town for the quarters beginning October first and April first in each year shall be determined on the basis of the respective populations of the several towns in such county, determined in accordance with the latest federal census or special population census taken pursuant to section twenty of the general municipal law, completed and published prior to the end of the quarter for which the allocation is made, which special census must include the entire area of the county.

Any local law, ordinance or resolution enacted by a town or village pursuant to this subdivision shall only be effective for the calendar year or years subsequent to its enactment and, further, shall only be effective if it is mailed by registered or certified mail to the chief fiscal officer of the county before the first day of September preceding the calendar year for which the election is made by such local law, ordinance or resolution. Such local law, ordinance or resolution shall remain in effect for subsequent calendar years until rescinded by local law, ordinance or resolution, but the enactment shall rescind the election only if it is mailed, in the same manner already provided for in this subdivision, to the chief fiscal officer of the county before the first day of September preceding the calendar year for which the rescission is to apply."

SECTION 9. Effective Date. This resolution shall take effect on September 1, 1970 except that sections two and three of this

resolution shall take effect immediately and be retroactive to and deemed to be in full force and effect as of March 1, 1968 and except that Section 8 shall take effect January 1, 1970.

The Clerk read the following letter:

To the Orleans County Board of Supervisors

Gentlemen:

A year ago at the request of the New York State Natural Beauty Commission you appointed a committee for scenic roads in Orleans County. Your committee consists of Mr. Henry Hannan and Cary Lattin, Co-chairmen; Mr. Veeder Howard, Mr. Clifford Wise, Mrs. Henry Pollard, Mr. Robert Brown and Mrs. Lavern Wright. This committee was charged with the responsibility of selecting five scenic sites on state roads in the county which could be submitted to the state for inclusion on a new map to be published by the New York State Natural Beauty Commission.

Twice this summer, the committee has met with Mr. Edward Ollinger, Landscape Architect from the State Department of Highways in Rochester. After considerable discussion possibilities were suggested and last week, Mr. Hannan, Mr. Wise and I drove around the county to check and photograph the suggested areas.

The committee wishes to submit the following sites for your approval:

1. Route 31A through Clarendon, Barre, Albion and Shelby;
2. the historic Ridge Road across the county where thirty-one examples of unique cobblestone structures are located, including the cobblestone church and school museums at Childs which are open to the public during the summer months;
3. Mount Albion Cemetery on Route 31 just east of Albion where tourists each summer ask permission to drive through its beautiful Medina Sandstone entrance gate to view the sandstone chapel, the memorial fountain, the Soldiers and Sailors monument and drive its winding roads through pastoral beauty;
4. the Court House Square on Route 98, unique for the beautiful architecture of the Court House, the Victorian Clerk's office building the well-kept lawns and the varied and interesting architecture of seven churches that surround it. Here in one small area one can see law, order, justice and religion at work.
5. the new bridge across Oak Orchard River at Point Breeze which will be completed by 1971. The view from this bridge to the south up the river or to the north toward the lake will be very scenic.

Also, the committee members from Medina wished to nominate (and we all agreed) the canal culvert just east of Medina on Culvert Road although it is not a State highway. We felt it worthy of attention because this culvert and the one near the Eisenhower lock on the St. Lawrence Seaway are the only two in the world where navigable water passes over a highway of any consequence.

If you deem these sites worthy to be submitted for consideration to the New York State Natural Beauty Commission for publication on the proposed map, please advise Mr. Hannan or me so that we may forward the information to the proper authorities.

Respectfully submitted,
Henry Hannan
Cary H. Lattin
Co-chairmen, Scenic Roads Committee

It was moved by Supervisor Paduchak and seconded by Supervisor Johnson that the scenic roads sites as presented by the committee in the foregoing letter be approved and the County Historian be authorized to send a letter to the New York State Natural Beauty Commission requesting inclusion of said sites in the proposed map being prepared by the Commission.

Mrs. Nassar, Chairman of the Mental Health Board, presented the following request, and answered questions from the Board members.

Board of Supervisors of Orleans County
Court House
Albion, New York 14411

ATTENTION: Mr. Ted Swiercznski, Chairman
Health Committee

Gentlemen:

We have recently interviewed Mr. Wayne Daugherty, who has had many years of experience in counseling and community organization work. He is highly recommended by those who have worked with him and is interested in immediate employment at the Mental Health Clinic. As you are aware, we have not been successful in recruiting a full-time psychiatric social worker, and Dr. Walters, our psychiatrist, has been available on a limited basis (one day per week). Recently, Dr. Christopher Pino, our clinical psychologist, submitted his resignation effective August 14, which makes our staff situation even more critical. We do expect, however, to have the services of a full-time psychiatrist beginning August 1, 1970.

In view of our critical staff situation, as well as the availability of Mr. Wayne Daugherty for immediate employment, the Mental Health Board requests that the position of "Mental Health Counselor" be created at an annual salary of \$12,000. Mr. Daugherty would be available on a full-time basis between now and the beginning of the school year, when he will begin work toward his Master's degree in Social Work at the State University of New York at Buffalo. Between September and the end of January he could continue with us on a part-time basis, approximately one day per week. There is a strong possibility that Mr. Daugherty could be placed with our agency, as Mr. Proctor was, for his field placement experience in psychiatric social work.

Unused funds in the Mental Health Budget could be utilized to cover Mr. Daugherty's salary for the balance of this fiscal year. We have discussed the possibility of Mr. Daugherty's employment with Richard Witkowski, of the Regional Office of the New York State Department of Mental Hygiene, and have been assured that the position of Mental Health Counselor is acceptable to them, and that all salary and benefits involved are reimbursable at the rate of 75%.

Thank you for your forthcoming consideration of this matter.

Very truly yours,
Mrs. Antoine A. Nassar
Chairman
Orleans County Mental Health Board

The Board is not usually informed as to action taken by the State and County Health Departments on such matters. Several questions were asked from the floor and members of the Board commented on same. The County has no authority by law to intervene. Mr. Butler asked if the Board would check the following items with the County Planning Board:

Honorable Board of Supervisors

Attention: Mr. William Kennedy, Chairman
Social Services Committee

Gentlemen:

On November 12, 1970, I met with the Social Services Committee to review our budget for the year 1971. At this meeting we also discussed several requests for Rate Increases for the year 1971.

The committee is recommending for your consideration that the burial rate for adults and children over twelve (12) years of age be increased from \$400., which is the present rate to \$650.00., all inclusive. The funeral directors are to provide for the opening of the grave and cement vaults where required by the cemetery. All other items listed in their request are inclusive. The burial rate for children under twelve (12) years of age to be increased to \$400.00. all inclusive also. Still-born be increased from \$75.00 to \$100.00. There are provisions in our burial policies whereby friends or non legally responsible relatives may contribute money not to exceed \$150.00 above amount allowed by the department for burial. This amount remains unchanged.

The committee is recommending for your consideration an increase in boarding home rate for foster children. The boarding home rate for children under twelve years of age be increased from \$80.00 a month to \$85.00 per month. Children twelve years of age and over increased from \$80.00 per month to \$95.00 per month.

I have discussed with the committee a request from Ray Severns Ambulance Service. I wish to request a resolution by your honorable body authorizing me as Commissioner to sign the ambulance contract for the year 1971.

Separate resolutions will be required also for increases in burial rates and boarding home rates for foster children. All new established rates to become effective January 1, 1971.

I trust that the Social Services Committee recommendations meet with your approval.

Respectfully yours

RESOLUTION REQUESTING THE NEW YORK STATE
LEGISLATURE TO PROPOSE A CONSTITUTIONAL AMENDMENT
REQUIRING THE STATE OF NEW YORK TO BEAR
THE FULL COST OF ALL FUTURE STATE MANDATED
PROGRAMS IMPOSED UPON LOCAL GOVERNMENTS

WHEREAS, the New York State Legislature, from time to time, has required units of local government to institute numerous programs; and

WHEREAS, the financing of these state mandated programs requires the expenditure of a substantial amount of funds by every county, city, town, village and school district within the State of New York; and

WHEREAS, said units of local government are being deprived of control over their own financial destinies, as, in some cases, expenditures to finance state mandated programs comprise the largest single portion of their budgets.

RESOLVED that the Orleans County Legislature requests and urges the 1971 session of the New York State Legislature to propose a constitutional amendment which would require the State of New York to bear the full cost of all future state mandated programs imposed upon local governments.

FURTHER RESOLVED that the Clerk of the Board of Supervisors is directed to transmit certified copies of this resolution to the Legislators representing Orleans County in the New York State Senate and Assembly .

WHEREAS the 1971 appropriation in the 1971 Orleans County tentative budget for the Department of Social Services amounts to \$3,233,829.94 being approximately 51% of the Orleans County budget, and

WHEREAS the abovesaid 1971 Department of Social Services' tentative budget requests amount to an increase of \$231,273.93 over the 1970 budget, and

WHEREAS the County of Orleans has been declared a depressed area by an agency of the United States and has one of the lowest per capita income for the State of New York, and

WHEREAS the unemployment rate in the County of Orleans is on

the rise with 1376 having applied for unemployment to date in 1970 compared with 265 for the year 1969.

WHEREAS, the case load of the Orleans County Department of Social Services has increased from 481 in 1965 to 842 estimated for the year 1970, and the budget for Social Services from \$1,324,209 in 1965 to \$3,002,556.01 in 1970, and

WHEREAS the Orleans County Board of Supervisors has been informed that certain additional increases in aid and assistance to recipients are about to be mandated by the State of New York Department of Social Services which increases, if mandated, would increase the 1971 Orleans County Social Services tentative budget by more than \$240,000 with resultant increases in the Orleans County tax rate

NOW, THEREFORE, BE IT RESOLVED that the County of Orleans Board of Supervisors does hereby determine that any mandated increases in the Department of Social Services' appropriation will cause an extreme financial burden on the already over burdened tax payers of the County of Orleans, and

BE IT FURTHER RESOLVED that the real property tax burden on the tax payers of the County has, due greatly to various mandated expenses, risen to a record high, rapidly becoming oppressive; and that the County of Orleans, in cooperation with other rural counties in the state and with the State of New York, encourages a revision in the methods of determining aid paid to the County of Orleans, and other counties, by the State of New York and the United States of America, and

BE IT FURTHER RESOLVED that the Orleans County Board of Supervisors is in favor of all expenses connected with mandated increases in expenditures by the County of Orleans or the various departments thereof shall be paid in full by the government or agency mandating the same, and

RESOLUTION AUTHORIZING PAYMENT OF CLAIMS AGAINST THE COUNTY

WHEREAS, the Auditing Committee has audited and allowed Claims No. 4412 to No. 4572, inclusive, aggregating \$28,531.62, and No. 285 to No. 286, inclusive (Dog Fund), aggregating \$149.09, and No. 1655 to No. 1685, inclusive (Machinery Fund), aggregating \$4,603.95, and No. 896 to No. 903, inclusive (Road Fund), aggregating \$11,456.00, now therefore be it

RESOLVED, that unanimous consent be granted to pay these claims and the Clerk and Highway Superintendent be directed to draw demand orders on the County Treasurer in payment of said claims.

Adopted.

The Clerk presented the report of the expenses of the Board of Elections for 1970, as presented by Election Commissioner Monacelli.

Supervisor Roberts proposed that the Board thank the County Attorney for all the work he did in negotiating the contracts for 1971.

Mr. Church stated that "the year had been very interesting and I thank the Board and individual members for the time they spent. I know what a lot of time the members spend on public business that the public does not realize. I found everyone very cooperative, whether Republican or Democrat. It has been a pleasure working with the Board, the Chairman and the Clerk."

Supervisor Reed moved that the Board extend sincere thanks to the Chairman for the excellent job he has done this year.

Chairman Batchellor said it has been an interesting year and a real experience, at times it has been tough, on the whole though I have enjoyed the year. The Clerk and County Attorney have been very helpful.

Supervisor DePalma said he would like the Board to give some thought to having a full time Purchasing Agent. He said "I feel the savings would justify the cost of the salary."

Adjourned at 11:15 a.m., sine die.

REPORT FOR THE ORLEANS COUNTY

DEPARTMENT OF HISTORY

January 1, 1970 - December 31, 1970

During 1970 the historian has continued to gather and file information which is history in the making and has endeavored to keep an interest in history alive with weekly newspaper articles. Talks have been given before local groups which include church, Rotary, Lions, student and fraternal organizations, J C's, Middleport Study Club. Subjects include local history, folklore, Erie canal and cobblestone architecture. It was a gratifying experience to have the privilege of speaking to the Albion High School student body on Earth Day and to observe the present generation evinced in our environment. A request from the school resulted in a followup on ecology before the elementary and junior high students.

A two-day meeting of the N.Y.S. County Historians Association was hosted by Genesee and Orleans Counties in May. At the Fall meeting of the N.Y.S. County Officers Association, the historian was elected president of the N.Y.S. County Historians Association. In September the historian accepted an invitation of the N.Y.S. American Revolution Bicentennial Commission to a conference in Albany for briefing on plans for the 1976 celebration of the Revolution. In connection with, and in preparation for this celebration, this office has cooperated with the local chapter D.A.R. in compiling cemetery records and other information concerning Revolutionary Soldiers and mapping grave locations.

At the request of the Niagara Frontier Landmarks Society, this office arranged a day tour of Cobblestone Society buildings, the Court House, Pullman Memorial Church, D.A.R. House and three are homes. Two meetings of a scenic roads committee took place with Henry Hannan, Highway Superintendent and the historian acting as co-chairmen. Following recommendations of the committee, scenic areas were photographed and results sent to the state. Research of a trial for author Carl Carmer and genealogical information as requested have been undertaken by this department during the year. Assistance has also been given to Girl Scouts, Boy Scouts and to local as well as foreign students.

This department has maintained an interest in the efforts of the Cobblestone Society to create a good county museum in the basement of the Childs church and to this end, the historian has continued as a society director and has assisted in setting up the annual house tour and auction. Proceeds from these endeavors help to further the work of the museum. The tenth annual cobblestone tour took place in the Marion area of Wayne County. Over 1200 persons visited the nine cobblestone homes that were open. From mid-June until mid-September the cobblestone church museum was open to the public under the direction of John Lovell, a paid curator with volunteers working Sundays. Mr. Howard Pratt, a director of the society and a former country school-teacher, continues to conduct classes at the cobblestone school by appointment. Students and teachers from area schools find this a worthwhile means of acquainting today's students with the experience of attending the rural school of yesteryears. In September the second craft day took place.

1970 has seen drastic changes around the county. In February, the Brodie house on the Court House square was demolished and work was begun on erection of a new jail. A massive sidewalk from the north Court House entrance to State Street was laid and a similar pedestrian thoroughfare from Main Street to the county Square buildings was made and new post lights were installed. The double bridge constructed to carry Lake Ontario Parkway traffic over Oak Orchard River at Point Breeze was completed although not opened to traffic as yet. In Kendall, construction continued on the new high school, Kendall Mills dedicated its new Mt. Olive Baptist church, and Lyndonville's new library was constructed. Economic conditions for this agricultural county took a downward trend. Low prices for the abundant fruit yield plus a large carry-over stock, saw about ten percent of the crop unharvested. Many inhabitants were out of work due to industrial and construction strikes. The Orleans Republican-American, the county's oldest continuously published paper ceased to exist when it was purchased by the Albion Advertiser.

Tree planting projects continue in both Albion and Medina to replace the dead and dying elms. Construction of Medina's Shopping Plaza on Maple Ridge Road got under way, but downtown renewal was deferred due to lack of funds. Ontario Containers, Inc. began operation in the former Heinz complex and Leadex International Corp. purchased the former Swett Foundry Plant. Medina saw other changes too. Following dedication of its new Towne Elementary School on Bates Road in 1969, the former Ensign Avenue School was renovated to house Medina School District Administrative offices this year. Sacred Heart School closed and students along with those from St. Mary's which closed the previous year, were channeled into the public school system.

For the first time in its history, the village of Albion extended its boundaries by annexing approximately 83 acres to the north between Route 98 and Brown Street. This area is to be known as the Newport subdivision and new houses are already under construction. 108 acres on the west side of Route 98 were annexed, extending the north village limits 1360 feet in that area. In June, voters of Albion Central School district approved construction of a new high school. Bemis Bag industry left town but Liptons announced expansion of their business.

As heirs of the past and architects of the future, we can only hope that all our changes are for the best.

A brief history of the county was requested by the N.Y.S. County Officers Association to appear in the December and January issues of its monthly publication THE CONVERSATIONALIST. Following this report, the history is reprinted as a matter of record.

With appreciation and thanks to the Board for their support and cooperation this report is

BRIEF HISTORY OF ORLEANS COUNTY

1824 - 1970

By Cary H. Lattin

Orleans County Historian

ORLEANS is a small Western New York county, population 36,837, situated on the southern shore of Lake Ontario. Its area of 24 x 17 miles is generally flat with elevations ranging from 247 to 737 feet above sea level. About two-thirds of the area is developed farmland but 200 years ago it was a swampy wilderness where "Indians came only for hunting and fishing." To them, the area was known as "the sick country" and early settlers were plagued by fever and ague. Archaeologists have discovered numerous Indian campsites but only one permanent fortification which was probably destroyed about 1650.

Many early explorers by-passed this area, traveling by boat on Lake Ontario from Oswego to Niagara. It was not until 1804 that the first permanent settlers came here to purchase land from the Holland Land Company. After 1809, settlement along the Ridge Road (Route 104) was fairly rapid. However, in 1813 when the Village of Lewiston in Niagara County was burned by the British, many of the pioneers fled, apprehensive that the enemy would raid this territory. However, they soon returned, and development of the area continued.

As an Act of Legislature passed November 12, 1824 Orleans County was erected from Genesee County and became a separate entity on January 1, 1826. Historians are not sure how or for whom the county was named. They do know that the name was evidently chosen as a compromise between two opposing factions. One suggested the name Jackson and the other wanted Adams for John Quincy Adams, the President. No one is quite sure whether Orleans is in honor of Andrew Jackson's spectacular defeat of the British in New Orleans or whether the name honors the French Duc D'Orleans. The first Court House and jail built in 1827 was replaced by the present Greek Revival Court House in 1858. This edifice is architecturally one of the outstanding courthouses in the state.

By the time the Erie Canal was completed in 1825, most of the land had been sold to home seekers. The canal more than any other factor contributed to settlement of this area by providing cheap transportation which aided the local economy. Wheat brought \$1.50 per bushel and at one time the area was known as the "bread basket of the world" before the western plains were developed. Since the soil and climate here are conducive to the culture of fruit, vegetables, grain and livestock, ambitious farmers became prosperous and affluent. Sturdy, beautiful homes were built and most of the unique cobblestone houses erected in the 1840's are still standing, a source of pride to the owners.

In 1837 Medina Sandstone was discovered in Oak Orchard Creek near Medina and quarrying became an important industry. At one time around the turn of the Century forty-eight quarries were in operation employing 1200 men with a payroll of \$3000 a day. This stone was shipped all over the eastern United States to be used for paving and curbing, construction of churches and other public and private buildings.

Dry houses and cooper shops sprang up in many locations following the growth of the fruit-raising industry which produces fruit of excellent quality and flavor. Eventually, however, the dryhouses gave way to canning factories and the quick-freeze process of preserving foods. Twenty years ago there were six large processing plants packing beans, peas, corn and thousands of tons of tomatoes each Fall Season. One such plant processed as much as 1500 tons of tomatoes in a single day. In addition to fruit-raising, Orleans mucklands resulting from the drainage of swamps in the southern area, have produced millions of dollars' worth of lettuce, carrots, potatoes, spinach and onions.

The passing years and the advent of the machine age have wrought many changes in our local economy. The first large industry to bow to change was the quarry business. It became more feasible to use cement than to hire stone cutters. This competition led to the closing of the quarries. At the present time one quarry is still in operation. It is highly mechanized and its modern equipment turns out cut stone in far greater quantities than the early stone cutters ever dreamed possible. Two food processing plants remain in the county today. Labor problems plagued some plants leading to their closing. Others were owned by large companies who found it more expedient to consolidate their holdings or move to areas where longer growing seasons and resultant higher yields make the canning and freezing processes cheaper. Since the closing of the canning factories, the tomato acreage has declined and fruit farmers find it necessary to haul their crops greater distances to the processor. As recent as thirty years ago Medina alone could boast of five foundries, but with the exception of one, these also have closed down. One furniture factory remains, while new on the scene are the manufacture of childrens' toys and Bernz-o-matic products. With the discontinuance of so many factories, residents have found it necessary to find a way of livelihood elsewhere and the county is fast becoming a "bed county" where the inhabitants sleep but find employment in other places.

Agriculture which grosses a yearly twenty-three million dollars, has always been the largest business in the county but it too, has undergone many changes. It has become highly specialized with ever increasing farm acreages, i.e., larger farms and fewer farmers. The small farmer who produced his own milk, meat, eggs, poultry and fruit is no more. Three or four poultry plants have been built in the county where care is mechanized to the point that one man can operate a whole unit. One such building around 500 feet long houses 42,000 chickens. Dairying has decreased somewhat, but beef cattle are still being raised extensively. Horse farming is a recent industry to make the scene in this county, where one of the largest Standardbred breeding farms in the state, is located. Mares from Russia, New Zealand, Norway, Scotland and other countries have been brought here for breeding. Several smaller operations also exist.

Many ethnic groups go to make up the population of the county. Irish laborers came to help dig the Erie Canal, English stone cutters were imported to do the canal stone work, Italian and Polish immigrants arrived to work in the quarries. During World War II, a farm labor shortage necessitated the importation of labor from Jamaica. The following year laborers were brought up from the south and gradually many of them remained as permanent residents, along with some natives of Puerto Rico. Even with the influx of immigrants through the

years, the population has remained almost static, having increased only 6000 in a hundred years. Because it is a predominately agricultural area, no large cities have developed. There are four villages, the largest of which has a population of approximately 6,400.

The Indian paths and trails of the early settlers have given way to 740 miles of good roads that help to transport nearly 10,000 school children to five excellent central schools. Two well-staffed, well-equipped hospitals serve the area, i.e. Medina Memorial and Arnold Gregory in Albion, the only all-electric hospital in the state.

The Lake Ontario shore is fringed with cottages and year-around homes in contrast to woodlands and occasional farmsteads of early settlers. A super parkway built by the state parallels the shore to bring vacationers to a 275 unit trailer park.

CHANGE is the word which expresses most aptly what has happened to this small county during the past 145 years. Whether for better or for worse, its inhabitants have tried to keep abreast of these changing times. Its men have given their lives in the nation's wars, and some have become nationally famous. Its government has tried to make this a good place to live. Its leaders, concerned with ecology and population growth, are planning for the future, and the natives are proud of these endeavors.

HENRY HANNAN
County Supt. of Highways

January 12, 1971

TO: The Board of Supervisors, County of Orleans

FROM: Office of Civil Defense

SUBJECT: Annual Report for Orleans County Civil Defense for period of January 1, 1970 to December 31, 1970.

I hereby submit the Annual Report for Orleans County Civil Defense for March 15, 1970 to December 31, 1970.

It is the feeling of this office that Civil Defense should be exerting an effort to help the people of Orleans County through our Surplus Property Program and Matching Funds Programs. These programs are set up to make a financial saving possible. Solid emergency plans for county schools, hospitals, and factories are also among our goals.

We have begun or completed the following:

1. Set up a program of going to Surplus Property at Canandaigua twice a month. Various items have been purchased by county agencies such as timing lights, desks, beds, chairs, small tools, generators, etc. The Unit Value totals \$55,420.88 and Unit Assessment totals \$1,356.10. This represents a saving of \$54,064.78 for local government agencies.

The following agencies have taken advantage of this plan:

- | | |
|---------------------------|----------------------------|
| 1. Orleans County Highway | 11. Hulberton Fire Dept. |
| 2. Kendall Highway - T | 12. Medina Fire Dept. |
| 3. Shelby Highway - T | 13. Morton Fire Dept. |
| 4. Gaines Highway - T | 14. Albion Fire Dept. |
| 5. Albion Highway - T | 15. East Shelby Fire Dept. |

| 8. Medina Police | 18. Albion Emergency Squad |
| 9. Orleans Co. Sheriff | 19. Barre Fire Dept. |
| 10. Clarendon Fire Dept. | |

2. Have met with and conducted tours of the Emergency Operating center with 13 groups for a total of 253 people. Through these sessions the members of the various organizations have become more aware of the functions of Civil Defense during nuclear attack and/or natural disaster.

- | | |
|-----------------------------|-------------------------------------|
| 1. Medina Stationmasters | 8. Ladies Home Bureau |
| 2. Albion Cub Scouts No. 45 | 9. Xi Alpha Mu - Beta Sigma Phi |

| 5. Albion Senior Citizens | 12. Lyndonville Presbyterian Church |
| 6. Medina Cub Scouts No. 29 | 13. Hamlin Chiefs Meeting |
| 7. East Shelby Ladies Aux. | |

3. A County-Wide Disaster Drill was held in September in which all services in the county participated. Approximately 500 individuals were involved.

Several probable trouble spots were brought to the surface. One of the most serious is the problem concerning communications during such an emergency. One possible solution would be to activate an alternate channel, such as Channel 9 which is the national emergency channel if the FCC would grant permission. This would be used by the Civil Defense Citizens Band.

The lack of necessary supplies also presented problems. It has been suggested that a truck be maintained equipped with sufficient supplies to begin the task of administering first aid to victims until further arrangements can be made.

In past drills, school students served as mock patients. However, because of the many adult facilities in the county we felt that it would be beneficial to the rescue workers to use adults. Many comments were made concerning the removal of these victims, particularly in the number of rescue workers needed to remove individuals from the building.

We have 550 feet of movie film and 80 slides of the drill. These will be used in training throughout the county and to demonstrate another facet of Civil Defense.

4. Observed and critiqued a disaster drill with the Holley Fire Dept. In this instance, school students were used to simulate a school bus accident.

5. Organized a snowmobile team in the county in which 30 people have joined. The main purpose is to take food and/or doctors or other help in time of a snow emergency.

6. Held training courses for: (1) Auxiliary Police - 14; (2) Radiological Monitors - 10; (3) Several First Aid throughout the county. The Auxiliary Police have served approximately 3,000 hours on a voluntary basis during the year of 1970.

7. Attended several county School Shelter Drills where I observed students taking cover in case of nuclear attack. Although Orleans County has a "Go Home Plan" for all schools it may not be feasible to put this plan into effect at the time of attack. Therefore, an alternate plan must be prepared.

8. Have met with all school and hospital administrators for the purpose of establishing a workable evacuation plan in case of an emergency.

9. Worked out an evacuation plan for the Rose Villa Nursing Home in case of an emergency.

10. Engaged Mr. Robert Willigens to exchange Radiological Kits in 15 shelters at Federal and State expenses.

11. The Community Shelter Program (CSP) for the county Steps I and II have been completed and Step III has been submitted for Federal approval. This is moving much faster than anticipated and hopefully will be completed ahead of schedule.

12. The weekly Fire Radio, Amateur, and School monitor tests have been conducted from the EOC. Donald Pritchard, Chief of Communications in Civil Defense and his staff deserve much credit and thanks for this work.

School monitor tests are conducted every Monday morning. Eight schools in the county have monitors which would be used to notify the schools in case of an attack or to receive bad weather warnings.

13. Attended two (2) Civil Defense Conferences, Albany and Rochester. These conferences are very beneficial in that speakers are engaged who demonstrate the need for Civil Defense in various situations which arise. Numerous world events are also discussed.

14. We have revised and updated the Communications and Warning Annex.

15. Processed Matching Funds applications totaling \$2,000.00.

16. Attended and participated in all United States Dept. of Agriculture meetings and drills. These meetings are held to keep us informed as to where food is stored, amount stockpiled, and other pertinent information.

17. Attended ten (10) Civil Defense Western District meetings in Batavia. These meetings keep us informed and up-to-date in regard to Civil Defense programs. Various speakers are available to dispense information from the State level.

18. We also set up a display at the Orleans County Junior 4-H Fair. Literature was available to those interested and questions answered regarding various aspects for the necessity of a working Civil Defense program.

The Communications people also had a radio setup to demonstrate the capability of our RACES Net.

19. A state directed exercise, "Ever Ready", was held in the spring which necessitated activation of our complete staff. These exercises are particularly important in that they present us with numerous problems that must be solved and make us more aware that the unexpected can happen.

This office wishes to express our appreciation to the Orleans County Board of Supervisors, other county department and agencies, and the many other organizations that we have worked with during the past year.

Respectfully submitted,
David M. Green, Director
Orleans County Civil Defense

ANNUAL REPORT OF
ORLEANS COUNTY VETERAN SERVICE AGENCY

1970

January 21, 1971

To the Honorable Board of Supervisors of Orleans County:

I hereby submit the Annual Report of the Orleans County Veterans Service Agency for the calendar year 1970.

WILLIAM H. MURRAY
Director

This office is maintained to advise and assist veterans and their dependents in obtaining benefits and services to which they are entitled as a result of their military service. During calendar year 1970, the requests for services of this office have shown a marked increase from the Viet Nam Era veteran as compared to the diminishing number of requests from the World War I veteran.

It is interesting to note that during 1970, this office had original contacts with 187 recently separated servicemen. It is this group which requires the greatest counseling and services.

The Congress of the United States passed numerous new laws and amendments to existing laws which have affected virtually every veteran in the county. The rates of compensation paid for service connected disabilities was increased and the pension paid to veterans with non-service connected disabilities and to their dependents or survivors, was also increased.

During the year, veterans of this county were furnished 8819 days of hospital care in Veterans Administration Hospitals; 4520 days were furnished at Batavia, 2183 at Buffalo and 2116 at the Canandaigua Veterans Administration Hospital.

There were 53 veteran deaths and 2 servicemen killed in action in 1970. On April 1, 1970, Specialist 4th Class George M. Underdown, age 20, son of Mrs. Frances T. Underdown, 329 Park Avenue, Medina, New York and the late Romeyn Underdown, was killed in action in Viet Nam, while serving with the U.S. Army.

On April 16, 1970, Lance Corporal Paul S. Mandracchia, age 18, died of wounds sustained while serving with the U.S. Marine Corps in Viet Nam. He was the son of Mr. & Mrs. Onofio R. Mandracchia, 6 Jackson Street, Holley, New York.

A statistical summary of the work of this office is attached.

This office wishes to express our appreciation to the Orleans County Board of Supervisors, the State Director of the Division of Veterans Affairs, Manager and staff of the Buffalo Regional Office of the Veterans Administration and the Directors and staffs of the Batavia,

Buffalo and Canandaigua Veterans Administration Hospitals, the Department American Legion and Veterans of Foreign Wars Service Officers, the Batavia Social Security Office, the New York State Department of Labor and to many other agencies and organizations who have assisted and worked with this office during the past year.

Respectively submitted,
WILLIAM H. MURRAY

Four cases of State Sanitary Code violations were documented and the department participated in formal hearings.

The Comprehensive Water and Sewerage Studies for Orleans County have been approved by the State Health Department and the County Board of Supervisors and is being made available for distribution.

The inspection of 44 migrant camps prior to permitting and during occupancy was done by the environmental division of the department. 369 inspections were made of 44 migrant camps from January 1 to December 31, 1970.

MEDICAL CARE AND NURSING:

A school based Rubella program was held in June for all children K-4th grades and a target population of about 4,400 children, 3422 children were immunized with Meruvax by the Commissioner of Health. No untoward reactions were reported. Pre-school and school clinics have immunized 563 children. 300 doses of Rubella vaccine have been distributed to physicians for use in their offices in 1970.

Immunization programs are held in the schools offering smallpox, DPT, measles, rubella and oral polio vaccine; monthly pre-school immunization clinics which were started last year have enlarged considerably. Head start students are also included in this program.

Various approaches are being initiated to expand the referral of patients to the department for Home Health Care by the local physicians and hospitals. From January through November 1970, 223 new cases have been referred with total nursing visits of 4,519, 3526 (78%) of which were therapeutic visits. The nursing staff is comprised of Director (40%) 3 Public Health Nurses, 2 Registered Nurses and 2 Licensed Practical Nurses.

The department was utilized as a shared laboratory with Genesee County for a graduate nursing student from the State University of Buffalo. Also a medical student and a dental student served as Junior Public Health Interns through the summer months for both counties.

The cooperation between Mental Health Clinic and this department continues as the greater need for nursing care in the home becomes evident because of dismissals and referrals from State Hospitals.

The Migrant Health Project Clinics were again conducted by the University of Rochester in Orleans County in 1970 and were held in the Arnold Gregory Hospital facilities. This department provided vaccines as needed by the project. Referred cases from the clinic were given care by this department as follow-up in home care, in communicable disease cases including tuberculosis and venereal disease cases.

Infectious hepatitis cases continued to be reported in 1970 with 113 cases reported in the year. 80 of these cases were reported the first 6 months and 33 the last 6 months. Of these only 6 cases were reported in November and 1 in December. The only transmittal information which this department could obtain after epidemiological investigations was close family contacts and family gatherings. Poorly constructed wells in the county are prevalent, unsanitary sewage disposal methods are present which are felt to be contributory to possible water pollution of creeks, rivers and lake areas where population fishes, wades and swims. The health department was held very strictly to proper construction of wells and sewage disposal systems. Food has been forbidden by the Commissioner of Health to be brought to schools from home for "treats." The schools have been inspected and advised as to careful monitoring of toilet habits and food preparation. Several classes of younger children where 2 or more cases and the teacher have been reported have had gamma globulin administered by the Commissioner. Gamma Globulin has been distributed by this department to practicing physicians for family contacts only.

ANNUAL REPORT

ORLEANS COUNTY PROBATION DEPARTMENT

January 1, 1970 - December 31, 1970

PURPOSE OF PROBATION

The objective of Probation, which is a division of the field of correctional care and a legal, social and personal service operating within the framework of a judicial setting, is to protect society, preserve the family, prevent delinquency and crime and rehabilitate the offender thru INTAKE, INVESTIGATION AND SUPERVISION.

INTAKE - Thru INTAKE (the "sifting" or "screening" process), where possible and practical, cases are adjusted by treatment without Court action. Otherwise, they are referred to Court. This process is used principally in the handling of children's cases, young offenders, marital problems, and offenses and crimes arising out of domestic difficulties.

Probation officers, thru intake service, give advice and counsel to spouses, parents, school authorities, police and private citizens in an effort to adjust cases without Court action where such adjustment is in the best interest of all concerned. It is used to re-unite families, to conciliate spouses, to assist in settling family quarrels and in many instances to obtain support for the children of broken homes.

EVALUATION: Only 23% of all cases handled at Intake and 31% of cases given counseling ultimately required Court action. As a "sifting" process, therefore, I feel this service in Orleans County has been quite successful.

Pronouncements by public officials and the news media would cause you to believe that juveniles cause the majority of trouble; but in Orleans County adults accounted for 78% (246 out of 315) or three-quarters of the cases disposed of at Intake in 1970.

INVESTIGATION: The investigation attempts to examine and evaluate the defendant's exact role in and his attitude before, during and after the crime, any past record; his social history from before birth, including the emotional and economic atmosphere of his home, his relationships with parents, brothers and sisters, his school adjustment, achievement in comparison to ability, relationship with teachers and fellow students, work and military experiences, habits and leisure time activities, religious contacts, etc. All this is to help the Judge have a factual picture and an emotional grasp of the human before him so that he can sentence in a manner best suited to the protection of society, the rehabilitation of the defendant and to deter others from committing crime.

The pre-sentence investigation is then used by Probation Departments, Correction Institutions, Child Welfare, or Mental Health Clinics as the keystone for planning social casework treatment with the individual. If, for instance, a person is placed on probation and transferred to another probation department, the investigation is sent to the receiving department so they can develop a comprehensive and intelligent plan in dealing with the defendant. If he then violates and is sent to an institution, the investigation accompanies him to the institution, so the institution can deal with him in a significant fashion including educational and vocational training. Then, when he is released on parole, the parole department uses the investigation in their planning for the defendant.

The Orleans County Probation Department does investigations for Family Court, County Court, Police Courts, and Justice of the Peace Courts.

SUPERVISISON: Thru Supervision, the Probation Officer tries to induce a positive change in the habits, attitudes, values and/or social relationships of the probationer by guiding him and assisting him to draw upon his own resources and those of the community to achieve these ends.

The method of supervision includes devising a plan of treatment tailored to each individual probationer based on review and evaluation of the pre-sentence investigation. Running records are kept on each

probationer containing factual data as to the probationer's performance, as well as an evaluation of his behavior and attitudes, and in the process of recording each case in this fashion, the plan of treatment is continually being updated to meet changing circumstances and needs.

..... FURTHER EVALUATION

FURTHER EVALUATION

1. SEVERITY OF FAMILY OFFENSES

The past year this office noted with some alarm an apparent increase in the severity of Family Offenses (these generally involve the husband assaulting the wife, but also assaults between parents and children, brothers and sisters, etc.) These serious assaults frequently involve people who would seem otherwise stable, people who have been employed several years at the same job, own their own home and frequently are middle-aged people.

We wonder whether it might not be the frustrations of the speed and impersonality with which we live in the modern world or the changing roles of the sexes, or simply that these matters are more often brought to the attention of authorities, whereas in the past people were anxious to avoid the shame. At any rate, this problem bears watching and evaluating in the future.

2. RUN-AWAY CHILDREN AND RUN-AWAY PARENTS

The problem of run-away children persists as serious in our society. However, a neglected problem which must be as disruptive to the children's lives as run-away parents.

Deserting fathers has been a problem of major scope for many years, but this past year we had the startling experience of four instances of mothers of large families of small children "running away" for two weeks or more without the father or the children having any knowledge as to where they were.

Furthermore, another generally unknown element of our work is our disturbingly frequent experience with rejecting parents.

This situation cuts across all strata of our society from the poorest to the well-to-do and involves parents saying they will have nothing more to do with the child, or even they never wish to see them again.

3. DRUGS

Recently Sheriff John R. Williams addressed the Board of Supervisors and complained about too lenient treatment for drug offenders and stated specifically that too many drug offenders were being placed on probation.

Our office would agree with him that drug abusers are being treated too leniently, but would disagree that too many are being placed on probation, at least in Orleans County.

In fact, there was not a single drug case placed on probation in this county during 1970. (There were drug convictions in Niagara and Erie Counties that were placed on probation there and transferred to the Orleans County Probation Department. All three of these cases adjusted well on probation and have gotten into no further trouble.)

We understand that there are approximately 300 youths who are known to be involved with drugs in the County to say nothing of probably an equal number of adults who abuse drugs.

We agree with the Sheriff that drug abusers in all walks of life are being treated too leniently. However, we would suggest that the fault lies with inability to enforce the law rather than the way in which the Courts are sentencing and, on the contrary, probation would be a much sterner sentence than is frequently given when a drug abuser is convicted only of a violation and fined, or not arrested or convicted at all.

Furthermore, if and when more arrests are made in the drug abuse area, we would submit that the possibility of probation should always be considered, the same as for any other offense; further that it should be granted on the same basis (that is, taking into consideration the protection of society, prevention of further crime and the rehabilitation of the person being sentenced) and in the same fashion as we would an assault, burglary or robbery case.

4. STATE-OPERATED PROBATION SERVICE

On February 8, 1971 the Medina Daily Journal editorialized that the State Department of Probation was "attempting to induce" Orleans County to seek a state-operated agency by holding out the "carrot" (or bait) is a better probation service and not the money the county will be freed from spending.

a. This is part of Governor Rockefeller's program of last year (which is part of his crime-control package of seven different laws) and designed, as he said, "to strengthen Probation."

b. It is the Division of Probation's intention to continue the present probation office in each county that elects to enter the program and the Council of Probation Administrators has taken a similar position, which should help to insure that this always will be the case. I personally was not in favor of state-operation for our county until this

was clear. Therefore, in terms of availability of service the situation will remain exactly the same in Orleans County with the expectation that quality and quantity of service will be improved.

As administrator of this County's department, I take pride in the good work we do, but feel frustrated in our inability to fulfill all our functions properly (which is the situation now and has been for the last six years). In the first 58 months I was director (starting Aug. 15, 1964) we had full staff only 18 months and I trained five new officers in five years. You simply cannot run a good service under such circumstances.

This year the Board of Supervisors had approved a new probation officer position only to take it away in an across county cut, when the fiscal situation became desperate. This new position was badly needed since this year is the first in six years that I've asked for a staff increase despite a nearly 100 per cent growth in responsibilities during that same time period as reported in last and this year's annual reports.

If the state handles probation the same way it has handled parole in terms of adequate staff, training, educational benefits and salaries, then Orleans County can expect to have adequate staff to properly supervise probations (and maybe more people could be safely tried on probation which will save the taxpayers money) and be able to hold onto staff, with officers willing to make probation a career, given the training, educational and financial opportunities, rather than view probation as a stepping stone to other careers as has been generally the case both throughout the state (a recent state-wide study has shown that 60 p.c. of all probation officers have been in their jobs three years or less) and in the county.

The above line of thinking (growth of Probation) is ill-timed in view of the Journal's editorial on Feb. 5, 1971. In that editorial, requests for agency growth seem equated with "a Pentagon complex" (administrators who feel their importance is predicated on the number of employees they have). I can easily plead innocent to that charge both for myself and the profession. Many other sources have called for greater use of probation, principally the President's Crime Commission Report, the Governor's Special Committee of Crime Control Report, the American Bar Association's Report on Probation, and this State's Senate Sub-Committee Reports on Family Court, 1967 and 1970. Unfortunately the probation professionals have been in the background of leadership calling for probation's greater use.

5. NEED FOR ADDITIONAL STAFF

Whether the Orleans County Probation Department becomes state-operated or remains in the county-state partnership, additional staff is needed and I feel is a good investment. In addition to growth in amount of traditional work, over the last couple of years we were concerned about the fact that several defendants were placed on probation without a presentence investigation and had either been or were still on probation out of other Courts. Consequently, this past year we have called Justices, informed them of our knowledge of such cases and where appropriate advised either probation, incarceration or the Elmira Reception Center (for misdemeanants between 16 and 21 years of age) should be considered as possible sentences and urged the Justice to ask us for a presentence investigation to aid him in his decision.

I strongly feel that the presentence investigation helped the Justice, with a fuller knowledge of the case, to sentence in a sterner fashion. Thus in contrast to the public image given probation, our department often has found itself being a sterner disciplinarian than the local police agencies.

This has meant more work for our department, but we feel that it is a necessity for the protection of society and the rehabilitation of the offender, and, therefore, a good investment of time.

6. COST OF PROBATION TO ORLEANS COUNTY

During 1970 Orleans County and New York State spent a total of \$275.12 per probation case in Orleans County. By comparison the State spent \$4825.64 per person in the prisons during the 1969-70 fiscal year and the state-wide average cost per person on probation for 1970 was \$407.87.

7. SUPPORT BUREAU

In April of 1970 the Orleans County Board of Supervisors authorized the probation department to hire an additional Sr. Acc't. Clerk/Typist. The purpose of this addition was to make more economical use of our professional staff.

This Clerk was given the responsibility for keeping track of all support cases that involved the Welfare Department and taking all complaints on all support cases, writing to delinquent support payers and interviewing them as to their employment and financial situation, reasons for delinquency and future prospects and to draw up violations of support orders where the payment delinquency continued. Any problems that involve neglect of the children, visitation or attempts at reconciliation in the family are turned over to a probation officer for adjustment.

In this fashion the probation officers were generally freed to work strictly with the services of intake, investigation and supervision and furthermore it gave us a constant surveillance of the support order cases where welfare was involved.

This is still a large task for one person, as at the end of 1970 we had 457 support order cases and 114 of these involved welfare.

8. INCREASE IN WORK

- a. 70% growth in intake work - 254 cases in 1965 to 430 cases in 1970.
- b. 35% growth investigations from 76 in 1965 to 101 in 1970.
- c. 42% growth in probation cases - 102 cases in 1965 to 145 cases in 1970.
- d. 84% growth in support cases - 248 cases at end of 1964, to 457 cases at end of 1970.

Privilege of the floor was granted to Mrs. Warne, Superintendent of the Albion State Institution and Western Correctional Facility. Mrs. Warne explained the proposed closing of the correctional institution and the plans which the Correction Department propose for making it a narcotics treatment center. She requested the Board to oppose the closing on the grounds that many of the inmates are from Western New York and it would be a hardship on their families if they were moved to another institution.

RESOLUTION NO. 44

By Supervisor Kennedy, who moved the adoption.

Seconded by Supervisor Swiercznski.

**RESOLUTION OPPOSING CLOSING OF ALBION STATE
INSTITUTION AND WESTERN CORRECTIONAL FACILITY**

BE IT RESOLVED, that the Orleans County Board of Supervisors announce its unanimous opposition to the phasing out and closing of Albion State Institution and Western Correctional Facility at Albion, Orleans County, New York, as requested by N A C C and lend its support to the efforts of concerned persons in keeping the Institution and Facility at Albion, as a Correctional Facility for the following reasons:

(a) The inmates come from a 43 County area of upstate New York comprising the 4th, 5th, 6th, 7th and 8th Judicial Districts. The morale benefits of being visited by their family and friends is of enormous value, making the training and rehabilitation of the inmates easier and more lasting. The proposed "phase out" would require the transfer of the approximately 90 inmates to the only other Female Correctional Facility within the Department of Correction near New York City which in turn would practically prohibit visitation by family and friends.

(b) Upstate and Western New York are entitled by law to have the Albion State Institution and Western Correctional Facility at Albion as a female correctional facility to serve those areas. In the absence of this facility, the Upstate and Western areas of New York would be required to transport females to be detained in such a facility to and from Bedford Hills, New York, at considerable expense and inconvenience to each local community involved.

BE IT FURTHER RESOLVED, that certified copies of this resolution be sent to the State Correction Department, Governor Rockefeller, Senator Earl Brydges and Assemblyman Don W. Cook.

Unanimously adopted.

Mr. William Murray, Director of Veterans Service Agency, was granted the privilege of the floor. Mr. Murray brought to the attention of the Supervisors the proposal by the State Director of Selective Service to move the Albion Office of Selective Service to Batavia, thus necessitating all business concerning Orleans County inductees and registrants to be done in Batavia at a cost of additional travel, time and money.

RESOLUTION NO. 45

By Supervisor Swiercznski, who moved the adoption.

Seconded by Supervisor Paduchak.

**RESOLUTION PROTESTING RELOCATION OF
SELECTIVE SERVICE OFFICE**

BE IT RESOLVED, that the Orleans County Board of Supervisors does hereby protest the proposed relocation of the Offices of Selective

Service Board No. 79 from Albion, Orleans County, New York to Batavia, Genesee County, New York and does urge the reconsideration by the New York State Director of Selective Service and the Director of the United States Selective Service and such other persons as may be involved in making such decisions for the following reasons:

a. A great inconvenience would be imposed upon draft registrants and inductees and other persons who have business with the Selective Service Board in that in order to consult with the Board or the staff of the Board, travel to Batavia would be necessitated and there is no public transportation available between Albion and Batavia, New York. Consequently, the only means of transportation is by private automobile and it poses a round trip time of at least one hour. Many of the registrants in Orleans County do not have cars of their own and a trip to Batavia would be next to impossible for them. Persons reporting for pre-induction physicals, or for induction would also have to find ways of getting to Batavia, and on some occasions returning to their home, often at considerable expense.

b. An additional inconvenience would be worked upon the members of the Selective Service Board in that all of the members are engaged in business and meetings of the Selective Service Board requires time away from their business and the relocation of the office in Batavia would necessitate at least an additional hour travel.

c. Whatever economies may be accomplished by the relocation of this office would be minor compared to the additional expenses incurred by registrants, inductees, members and staff in the actual expenses of travel back and forth and the inconvenience incurred; be it

FURTHER RESOLVED, that if economies in the operation of Selective Service Board No. 79 are necessary, that such economies be accomplished by other means rather than the relocating of the Selective Service Office; and be it

FURTHER RESOLVED, that the Clerk of this Board be directed to send certified copies of this resolution to the President of the United States, the Director of the United States Selective Service System, the New York State Director of Selective Service, Senator Jacob Javits, Senator James Buckley, Congressman Barber B. Conable, Jr., and Selective Service Board No. 79.

Unanimously adopted.

The Civil Defense Director, David Green, was granted the privilege of the floor. Mr. Green explained that the Fire Advisory Board was requesting that the County begin replacing the 16 monitors in the area fire stations over a three year period. The present monitors are about 18 years old.

By Supervisor Campbell, who moved the adoption.

RESOLVED, that pursuant to the request of the Fire Advisory Board, by letter dated February 18, 1971, the Fire Coordinator is hereby authorized to replace the 16 monitors in the area fire stations over a three year period at an approximate cost of \$110.00 each.

Adopted.

RESOLUTION NO. 47

By Supervisor Kennedy, who moved the adoption.

Seconded by Supervisor Campbell.

BE IT RESOLVED, that the Board of Supervisors of the County of Orleans does recognize the need for the existance of a female correctional facility within the upstate and western areas of New York State and does further recognize that the per capita costs of the operation and maintenance of the Albion State Institution and Western Correctional Facility are high, and

BE IT FURTHER RESOLVED, that the Board of Supervisors of the County of Orleans does urge Governor, of the State of New York., the Senate and the Assembly of the State of New York and the Commissioner of Correctional Services of the State of New York to take all steps necessary including the amendment of the Laws of the State of New York and the regulations and policies of the Department of Correctional Services to allow the census of the facility to be increased thereby better serving the taxpayers of upstate and western New York, and

BE IT FURTHER RESOLVED that this body does urge the Governor, the Legislature and the Commissioner to consider the following change, among others, to accomplish the census increase:

- (a) Amendments to allow all prison commitments regardless of term of sentence
- (b) Amendments to allow for short term commitments
- (c) Amendments to allow for the detention of females awaiting disposition of their cases
- (c) Amendments to allow the use of the existing facilities and staff as a "half-way-house", including school programs, work programs and community readjustment programs for the geographical area served.

It is the opinion of this body that amendments to provide as set forth in (a), (b) and (c) above would relieve the local communities of an extreme burden on their facilities and staff, and would assure that all females detained thereunder would receive the care and treatment as set forth in the regulations of the Department of Correctional Services.

BE IT FURTHER RESOLVED, that certified copies of this resolution be sent to Nelson A. Rockefeller, Governor State of New York, Commissioner of Correctional Services, Senator Earl W. Brydges and Assemblyman Don W. Cook.

Unanimously adopted.

RESOLVED, pursuant to paragraph 2 -a of Section 29.00 of the Local Finance Law of the State of New York, for the purpose of paying for a new truck for use of the Orleans County Dog Warden - the additional appropriation of \$3,145.00 to Account No. 84-200, Control of Animals in the Orleans County Department of Control of Animals, it is hereby authorized to be issued a budget note of the County of Orleans, New York, in the principal amount of \$3,145.00, such note to be dated on a date to be determined by the Orleans County Treasurer, being the Chief Fiscal Officer of the County of Orleans and shall mature on March 1, 1972, shall bear interest at a rate not to exceed Five per centum (5%) per annum payable at maturity, shall be payable to the buyer of said note, and shall be payable as to both principal and

RESOLUTION NO. 62

By Supervisor Swiercznski, who moved the adoption.

Seconded by Supervisor Paduchak.

WHEREAS, it has been proposed that legislation be introduced in the New York State Legislature which would provide for a plan of revenue sharing between the State and local governments; and

WHEREAS, such proposal provides for the elimination of certain programs presently in effect within the State of New York which allow for the distribution of motor fuel tax, motor vehicle license fees, matching aid, mileage and valuation aid, together with per capita aid, reimbursement for judicial salaries and probation services and reimbursement for welfare administration costs, and

WHEREAS, such proposal would also eliminate all local sales taxes, sharing of mortgage tax revenues and state aid for town highway construction; and

WHEREAS, in return, the State of New York would assume the full cost of all welfare programs together with the financing of the County Court, Surrogate Court, Family Court and probation services in each county, and would distribute to and within each county 15% of the gross revenues derived by the State of New York from all sources; and

WHEREAS, such a proposal would represent a loss to the County of Orleans, and

WHEREAS, such a proposal would merely operate to shift the current burden of taxation from the broader and more available state base through income, sales and excise taxes to the extremely limited source of real estate taxation on a local basis; and

WHEREAS, the denial of sales tax revenues to municipalities and the replacement of it by a paternalistic and unpredictable system of

revenue sharing represents an erosion of local autonomy and a submission to the vagaries and uncertainties of state fiscal policies; and

WHEREAS, such a so-called sharing is a denial of the expressed goal of partnership function between state and local governments whereby the municipalities are left with no discretion or judgment as to fiscal policies; and

WHEREAS, the abolition of revenues through sales tax to municipalities prevents any opportunity for reasonable or rational plans or policies for future expansion, growth, construction or activities in that the availability of revenues will become so uncertain; now therefore, be it

RESOLVED, that the Orleans County Board of Supervisors hereby expresses its unequivocal opposition to the proposed revenue sharing plan and that the Clerk of this Board send a copy of this resolution to Governor Nelson A. Rockefeller, Senator Earl Brydges, Assemblyman Perry B. Duryea, Jr., and to Assemblyman Don Cook.

Mr. DeMarie disagreed that there would be a duplication of services. April 16, 1971

Honorable Theodore Swiercznski
Supervisor
Town of Gaines
RD 4
Albion, New York 14411

Dear Mr. Swiercznski:

There has been a new development regarding the proposal to collocate the Orleans County Draft Board with the Genesee County Board.

On March 31st the House of Representatives passed H.R. 6531, to amend the Military Selective Service Act of 1967. Among the amendments agreed to by the House was an amendment that specifies that local draft boards, clerks, and their attendant records be available in each county. As a result of this action, the National Headquarters of the Selective Service System has ordered that collocation of Boards be in abeyance until it is determined what action the Senate takes on this issue.

The Director of Selective Service for New York tells me that all plans for collocation across the county lines have now been cancelled, and General Services Administration has been asked to withdraw cancellation of leases. According to the Director some intracounty changes may be made in New York State, but the intercounty proposals are set aside.

I will continue to interest myself in this matter and will advise you of further developments.

With kind regards.

Very truly yours,

Barber B. Conable, Jr.

Privilege of the floor was granted to Mr. Donald Groth, a representative of the New York City Off Track Betting Corporation, who appeared at the request of Supervisor Swiercznski. Mr. Groth explained how the system was working in New York City and explained the dangers of infiltration by organized crime into off track betting. Mr. Groth suggested that perhaps a good way for Orleans County would be to get in on a regional basis with another larger area. He advised taking time to consider all aspects of off track betting before attempting to form a corporation. The Chairman appointed Supervisors Swiercznski, Roberts and Paduchak to make a study of off track betting and its possibilities in Orleans County and report back to the Board at a future date.

Chairman Batchellor introduced Mr. Vanheusen from the State Correction Commission, who appeared at the request of the Chairman. Mr. Batchellor said he had requested a representative from the Commission to come to the meeting to explain the proposed use of the Albion State School as a Regional Jail Facility. He said that the Board was concerned because the County is building a new jail at the direction of the State Correction Commission. Mr. Vanheusen explained that the Commissioner had assured him that the Albion facility if converted to a regional facility would be for women prisoners only. The Board questioned him as to "why are we building the third floor of the new jail to house women prisoners?" He said that before the Albion facility could be made regional first the bill had to pass the Legislature and be signed by the Governor and second, funds would have to be appropriated to open and maintain it. He said the Commissioner had acted in good faith in ordering the old jail closed. He explained the difference between the Correction Commission and the Department of Correctional Services. Mr. Vanheusen said the Commission felt there would be no effect on the County Jail if the state school becomes a regional facility.

Commissioner Nenni granted privilege of the floor. Mr. Nenni said that because of the court injunction on medicaid cut-backs, Orleans County would have a deficit of about \$120,000, in 1971.

This is to inform you that during the Election Commissioners' Seminar at Albany, New York, on May 11 and 12, your Election Office was not a viable operation.

At no time, and especially during the period of central registration, is it possible to operate in this manner.

A copy of this letter is being sent to the Secretary of State, John P. Lomenzo.

June 11, 1971

Honorable Board of Supervisors
Court House
Albion, New York

Attention: Mr. William Kennedy, Chairman
Social Services Committee

Gentlemen:

On June 10, 1971, Mr. Breuilly, the Administrator of our County Home & Infirmary and myself, met with Mr. Batchellor, Chairman of the Board and the Social Services Committee to discuss the problem of both Rose Villa Nursing Home and Rose Manor Boarding Home on closing in the very near future. We are attempting to resolve this problem by utilizing the beds we have available in our health related facility and also using the Staff rooms as health-related beds for female. In order to be in compliance with the State Health Department, we will require additional staff. However, by transferring the patients from Rose Villa and Rose Manor to our Facility will more than off-set the cost for the additional staff.

May I request for your consideration that we add two orderlies and three (3) nurses aids to our present staff? This will resolve our problem, at least for the time being.

Your continued cooperation is always appreciated.

Respectfully yours,

ARTHUR NENNI
Commissioner

TAXES ON SALES AND USES OF TANGIBLE PERSONAL
PROPERTY AND ON CERTAIN SERVICES, AND ON OC-
CUPANCY OF HOTEL ROOMS, ADMISSION CHARGES
AND CLUB DUES, PURSUANT TO ARTICLE 29 OF THE
TAX LAW OF THE STATE OF NEW YORK.**

Be it enacted by the Board of Supervisors of the County of Orleans, as follows:

Section 1. Section 1 (b) (4) (i) of Resolution No. 164, of the Year 1967, as amended, is hereby amended to read as follows:

(i) A sale of tangible personal property to any person for any purpose, other than (A) for resale as such or as a physical component part of tangible personal property, or (B) for use by that person in performing the services subject to tax under paragraphs (1), (2), (3) and (5) of Subdivision (c) of section two where the property so sold becomes a physical component part of the property upon which the services are performed or where the property so sold is later actually transferred to the purchaser of the service in conjunction with the performance of the service subject to tax. Notwithstanding the preceding provisions of this subparagraph, a sale of any tangible personal property to a contractor, subcontractor or repairman for use or consumption in erecting structures or buildings, or building on, or otherwise adding to, altering, improving, maintaining, servicing or repairing real property, property or land, as the terms real property, property or land are defined in the real property tax law, is deemed to be a retail sale regardless of whether the tangible property is to be resold as such before it is so used or consumed.

Section 2. Section 2 (b) (i) of Resolution No. 164, of the Year 1967, as amended, hereby is amended to read as follows:

(i) The receipts from every sale of beer, wine or other alcoholic beverages or any other drink of any nature, or from every sale of food and drink of any nature or of food alone, when sold in or by restaurants, taverns or other establishments in this county, or by caterers, including in the amount of such receipts any cover, minimum, entertainment or other charge made to patrons or customers (except those receipts taxed pursuant to subdivision (f) of this section):

(1) in all instances where the sale is for consumption on the premises where sold;

(2) in those instances where the vendor or any person whose services are arranged for by the vendor, after the delivery of the food or drink or on behalf of the vendor for consumption off the premises of the vendor, serves or assists in serving, cooks, heats or provides other services with respect to the food or drink; and

(3) in those instances where the sale is for consumption off the premises of the vendor, except where food (other than sandwiches) or drink or both are (A) sold in an unheated state and, (B) are of a type commonly sold for consumption off the premises and in the same form and condition, quantities and packaging, in establishments which are food stores other than those principally engaged in selling foods prepared and ready to be eaten.

Section 3. Paragraphs (14) and (15) of subdivision (a) of Section 6 of Resolution No. 164, of the Year 1967, as amended, are hereby amended, and a new paragraph (16) is added thereto, to read as follows:

(14) Tangible personal property sold to a contractor, subcontractor or repairman for use in erecting a structure or building of an organization described in subdivision (a) of section seven, or adding to, altering or improving real property, property or land of such an organization, as the terms real property, property or land are defined in the real property tax law; provided, however, no exemption shall exist under this paragraph unless such tangible personal property (i) is to become an integral component part of such structure, building or real property and (ii) is to be resold to such organization as tangible personal property before it has become a part of such structure, building or real property.

(15) Tangible personal property sold to a contractor, subcontractor or repairman for use in maintaining, servicing or repairing real property, property or land of an organization described in subdivision (a) of section seven, as the terms real property, property or land are defined in the real property tax law.

(16) Tangible personal property sold by a contractor, subcontractor or repairman to a person other than an organization described in subdivision (a) of section seven, for whom he is adding to, or improving real property, property or land by a capital improvement, or for whom he is about to do any of the foregoing, if such tangible personal property is to become an integral component part of such structure, building or real property, provided, however, that if such sale is made pursuant to a contract irrevocably entered into before September first, nineteen hundred sixtynine, no exemption shall exist under this paragraph.

Section 4. Subdivision (b) of section 12 of Resolution No. 164, of the year 1967, as amended, is hereby amended to read as follows:

(b) A refund or credit equal to the amount of sales or compensating use tax imposed by article twenty-eight of the tax law and under this resolution, and paid on the sale or use of tangible personal property, shall be allowed the purchaser where such property is later used by the purchaser in performing a service subject to tax under paragraphs (1), (2), (3) or (5) of subdivision (c) of section two or under section four and such property has become a physical component part of the property upon which the service is performed or has been transferred to the purchaser of the service in conjunction with the performance of the service subject to tax or if a contractor, subcontractor or repairman purchases tangible personal property and later makes a retail sale of such tangible personal property, the acquisition of which would not have been a sale at retail to him but for the last sentence of subparagraph (i) of paragraph (4) of subdivision (b) of section one. An application for the refund or credit provided for herein must be filed with the tax commission within the time provided by subdivision (a) of section eleven hundred thirty-nine of the tax law. Such application shall be in such form as the tax commission may prescribe.

The procedure for granting or denying such applications for refund or credit and review of such determinations shall be provided in subdivision (e) of section eleven hundred thirty-nine of the tax law.

Section 5. Subdivision (c) of Section 12 of Resolution No. 164, of the Year 1967, is hereby repealed.

REGULAR MONTHLY MEETING

Thursday, July 8, 1971

The meeting was called to order at 10:30 a.m., by the Chairman. The Clerk called the roll and all Supervisors were found present except Supervisor Roberts who called to say he would be late.

It was moved by Supervisor Paduchak and seconded by Supervisor Reed that the reading of the minutes of the previous meeting be dispensed with and the same approved as prepared by the Clerk.

Carried.

Privilege of the floor was granted to Mr. Arthur Eddy and Mr. Sid Cleveland from the County Planning Board. Mr. Eddy presented the Parks, Recreation and Open Space in Orleans County study prepared by the Regional Planning Board as part of the master plan for Orleans County. Along with the study Mr. Cleveland presented the Outdoor Recreation Development Potential of Orleans County booklet prepared by the Orleans Recreation Committee under the County Extension Service. Mr. Eddy told the Board that thought should be given to long range acquisition of land for a county park.

The Building Committee asked Mr. Robert Burgio to present plans which he had prepared for building an office building for county use. Said building would be leased to the County and would be approximately 8,000 sq. ft. done to County specifications. Referred to the Building Committee for further study.

Supervisor Roberts entered at this time.

Supervisor Swiercznski introduced Mr. Michael DiPaolo from the New York State Recreation Council for the Elderly. Mr. DiPaolo explained that Article 24 of the State Education Law allows municipalities to receive state aid for recreation and education for the elderly based on .25 for each person over 60 years of age in the county. The total Orleans County could receive would be \$1,380.75 for 1971. This would be reimbursed 50% for each dollar spent by the municipality. Mr. DiPaolo explained various ways in which the County and other municipalities could participate. The matter was referred to the Social Services Committee for study.

Mr. Nenni was granted the privilege of the floor. Mr. Nenni said that on the 25th of June he met with several Town Welfare Officers and explained the new state program which goes into effect. He said that after the meeting several expressed the opinion that they might resign because the work load would be increased so much that the salary they are receiving would be inadequate.

The Clerk read the following letter from the Superintendent of Highways to the Dept. of Audit and Control.

July 7, 1971

Mr. Robert A Miller, Principal Accountant
Field Audit Section
NYS DoT - 1220 Washington Avenue
State Campus, Albany, N.Y. 12226

Dear Mr. Miller:

At a meeting held June 24, 1971 at 10:30 A.M. in the Court House, Albion, New York regarding the Field Audit Report, State Snow and Ice Control, 1968-'69 and 1969-'70, with State Officials, the Board of Supervisors, Town Highway Superintendents, Village Officials, and the County Highway Superintendent, it was agreed that in the last 24 years there have been very few, if any, complaints as to the operation of Snow Plowing or Sanding in Orleans County. Nor has there been any criticism of the Record Keeping Methods of the various Superintendents.

The Town Highway Departments are subcontractors of the County for snow removal, and they have done an excellent job in the past. Any discrepancies in the hours reported to DoT was due to a determination by the Auditors that our methods of Bookkeeping were not in accordance with your standards. To the best of my knowledge there is no claim that the work was not done, only that some hours were improperly reported. The relations between the State and all the Municipalities in this County in the past have been very good. As County Highway Superintendent, I regret that something like an audit, the first in this County, should cause any trouble between the State and the several municipalities within the County. Frankly, I feel that to penalize without any warning to the various municipalities involved for using reporting methods which they have used for up to 24 years and which methods are now deemed by your Department to be inadequate, is grossly unfair to the municipalities.

Any possible alterations or adjustments in this matter will be greatly appreciated.

Very truly yours,
Orleans County Highway Superintendent
Henry Hannan

RESOLUTION NO. 141

By Supervisor Kennedy, who moved the adoption.

Seconded by Supervisor Paduchak.

RESOLVED, that unanimous consent be granted to pay these claims and the Clerk and Highway Superintendent be directed to draw demand orders on the County Treasurer in payment of said claims.

Board of Elections
County of Orleans

Dear Commissioners:

Thirty-eight states have now ratified the 26th amendment to the Federal Constitution which reduces the minimum voting age to eighteen for all elections. This amendment became effective immediately which means that eighteen to twenty year olds who have

properly registered and enrolled will be able to vote in this year's primary and general elections.

They may also participate in other areas of the election process such as signing petitions, being candidates for party positions and serving as election inspectors. The Constitutional Amendment does not, however, qualify eighteen to twenty year olds to be candidates for, or hold public offices which have minimum age requirements specified under State Law.

Accordingly, you should begin immediately to incorporate into your permanent files those registration records of the new voters which you have been taking since January.

Sincerely,
John P. Lomenzo
Secretary of State

REGULAR MONTHLY MEETING

Thursday, September 2, 1971

The meeting was called to order at 10:30 a.m., by the Chairman. The Clerk called the roll and all Supervisors were found present except Supervisor DePalma, who was excused.

It was moved by Supervisor Reed and seconded by Supervisor Roberts that the reading of the minutes of the previous meeting be dispensed with and the same approved as prepared by the Clerk.

Privilege of the floor was granted to Mr. Leonard Davis and members of the Concerned Citizens' Committee for the Creation of a New Orleans County Human Relations Commission. The Committee presented the following request to the Board which was discussed in detail by members of the Committee and the Board of Supervisors. Chairman Batchellor requested that Mr. Davis' committee meet with Mr. Sparks and the other members of the Orleans County Human Relations Commission to try to come to an understanding. It was agreed that Chairman Batchellor arrange such a meeting.

This request is submitted by a concerned citizens committee for the establishment of a new Orleans County Human Relations Committee with a paid staff. This citizens committee is aware of the existing Human Relations Committee, but feels that the volunteer nature of that committee renders it ineffective in dealing with all the problems it might deal with. The citizens feel that objectivity and efficiency will be insured by the establishment of a Human Relations Committee which has a paid full time staff.

This citizens committee would like to see a Board of Directors set up to handle all administrative decisions of the new Human Relations Committee. This Board would also handle disbursement of money. This Board of Directors should be selected from representatives of the various agencies representing the poverty target area. The Board will be answerable to the Orleans County Board of Supervisors. The citizens committee would like to see the County Board of Supervisors delegate to the Board of Directors the authority to appoint a volunteer staff to work with the paid staff in this new Human Relations Committee.

The staff of this new Human Relations Committee shall consist of one full time secretary and one full time field representative. They will be hired by the Board of Directors and will be answerable to them as far as office policy goes. They will receive their technical training from the State Division of Human Rights.

This citizens committee would also like to see the guidelines for the new Human Relations Committee established jointly by the new Committee's Board of Directors and the County Board of Supervisors. Further the citizens committee would like to see a member or members of the new Human Relations Committee's Board of Directors notified of, and invited to all county meetings concerning the topic of Human Relations and/or Human Rights.

This concerned citizens committee for the establishment of a new Orleans County Human Relations Committee, further requests an office to house this committee. The new Human Relations Committee will also need equipment for running the office. We further request the sum of \$12,000 to be used for salaries of the two paid staff members and any office supplies which may be required for one year.

We the members of this concerned citizens committee feel that the county has a responsibility to us to insure an effective Human Relations Committee to deal with our problems. We further realize the county's responsibility to create jobs for, and train, poverty area people. The establishment of this new Human Relations Committee will accomplish both these goals.

NEWSPAPER CLIPPING:

ORLEANS GETS JOBS FUNDS, Regional News Service; ALBION - Orleans County will receive \$37,920 from the Emergency Employment Act funds to provide six jobs in the county departments, it was announced yesterday by Raymond Pahura, coordinator of the Orleans Economic Development unit.

Pahura, who attended a state conference in Albany earlier this week, representing Board of Supervisors Chairman George Batchellor of Barre, said the grant was made possible by the \$750 million appropriation by Congress approved July 12 by President Nixon.

Mrs. Erma Ford, Acting Chairman of the Community Action Committee, Inc., and Mrs. Thelma Jenkins, from the Family Planning Division of CAC were granted the privilege of the floor. They explained that the budget for Family Planning was prepared for 1971 on the basis of a 200 case load and approved by the Federal Government on that basis. The case load has now risen to 800 and the budget for Family Planning is depleted. Mrs. Ford requested a grant of \$7,000.00 to finance that department for the remainder of 1971. The Chairman referred the matter to the Finance and Budget Committee for recommendation later in the meeting.

The Clerk read the following letter from the Commissioner of Social Services:

BASIC WORK RULES FOR EMPLOYEES OF THE COUNTY OF ORLEANS, NEW YORK

The below rules shall apply to all county employees. Provided, however that, in the case of any rule contrary to or in conflict with the provisions of any contract between the County and a recognized bargaining unit, as to the employees covered by such contract the provisions of such contract shall govern.

County offices shall be open for the conduct of business and convenience of the public in strict accordance with the hours prescribed by the Board of Supervisors.

Employees of the County of Orleans do not punch a time clock but punctuality is important for the smooth and efficient operation of County Departments the same as any other business. Accordingly employees are expected to be on hand and ready for work at the appointed time. They are likewise expected to stay on the job until 5:00 p.m. or whenever their work day is finished. Promptness and a full day's work are a good indication of interest in your job.

Employment of any person by the County of Orleans shall be subject to the Civil Service Rules as adopted by the Board of Supervisors and approved by the New York State Civil Service Commission on April 22, 1961. Pay periods shall be based upon the regular working hours of that department.

LEAVE OF ABSENCE

All applications for a leave of absence by any employee paid from County funds shall be made to the Board of Supervisors, which Board shall determine whether or not same shall be granted, and if granted, shall fix and prescribe the terms and conditions thereof, taking into consideration Rule XIX of the County Civil Service Rules.

EDUCATION LEAVE OF ABSENCE

After one year of continuous employment by the County, an employee shall be granted a leave of absence for a period of up to two years in order to attend an accredited school full time, provided that the courses to be taken are of mutual benefit to the employee and employer. Provided, however, any employee may have education leave to attend a course of study of six weeks or less duration which course shall be of mutual benefit to the employee and employer. Mr. George Batchellor
Chairman, Orleans County Board of Supervisors
Courthouse Square
Albion, New York 14411

Dear Mr. Batchellor:

We were pleased to have Mr. Pahura attend our Conference on September 20 and 21. We believe the participants representing the grantees benefitted; we in EDA certainly did.

Prior to the Conference we had asked Mr. Pahura to take the Contrary side on the pros and cons of "EDA's Grant Program and Its Administration." In spite of the possibility that anything said by Mr. Pahura might have been interpreted as "biting the hand that feeds him," Mr. Pahura agreed and made a meaningful and constructive contribution as a member of the panel.

He was a credit to himself and to your County Department of Economic Development. We wish to take this opportunity to express our appreciation for sending Mr. Pahura to the Conference and allowing him to participate.

Sincerely,
John J. Curran
Chief, Planning Division

October 19, 1971

Mr. George L. Batchellor
Chairman, Board of Supervisors
c/o Court House
Albion, New York 14411

Dear Mr. Batchellor:

For some time now I have wanted to write you not only to say thank you - but to express a word of appreciation for your Service Officer, Mr. William H. Murray for the many services and duties he performs for the veterans in your area in dealing with this hospital.

There are many cases in which your Service Officer brings the veteran in for examination, waits for him, takes him home, and spends many hours in attempting to work out the veteran's physical and/or

pension problems. These services appear to go unnoticed, unappreciated at times – or at least very little is said to inform the public that real down-to-earth service is being given to veterans and their families every day of the year and not only by the Veterans Administration but by your own County Service Officer whom you gentlemen support by your budget, office space, transportation, etc.

These men serve a vital link with this hospital (in carrying out its mission for the Veterans Administration) and the hometown front. We are doing many more things now for the veterans via the outpatient route – for example, the filling and mailing of prescriptions by our Pharmacy Service, etc. Because we have many elderly veterans living alone who become confused and do not understand, mix-ups do occur. The Service Officer fills this bridge to help them in many ways.

The annual reports you receive from your Service Officer show the total amount of pensions going into your County for veterans residing in your area (which many times go into the seven figures). As you know, these are not issued automatically by the Agency – but are due to the efforts and persistent follow-ups of your Service Officer in helping the veteran complete the papers and appearing on the veteran's behalf before our Agency either in Buffalo or the traveling Rating Boards from Washington, D.C. which periodically visit our area, with the hope that the cases can be adjudicated on-the-spot with a joint home-town presentation of the facts that are needed.

The services we give to the veterans (with which we are charged by law and as a Federal employee) are not only due to our own personal initiative but also to the many fine helping hands and persistent follow-ups which your Service Officer gives this hospital in his dealings with the veterans, with us and the public each day for the year.

I would not feel right in carrying out my duties in the Syracuse Veterans Administration Hospital with its 18-county area (including outpatient treatment for which we are responsible) without saying this word of "thank you" to the people who help make these services available to the veterans and to let the County Supervisory Officials know that there is this extra service being carried out on a continuous basis and being carried out well by your own Service Officer.

Sincerely yours,
M. Michael, Jr.
Hospital Director

Gentlemen,

In regard to the possibility that the Albion plant of Thomas J. Lipton may in the future lose its present facilities for disposal of solid wastes at an existing landfill in the Town of Murray, may I state that I discussed this matter with Arthur Bennett and Joseph Sadler several months ago and assured them that in the event of such a development, the Village of Albion would take steps to arrange for disposal of such material along with solid wastes of the Village at its landfill on Yager Road.

We of the Village of Albion will do everything possible to solve the problem of disposal of such wastes for Lipton's in event of such a problem.

Respectfully,
William A. Monacelli
Mayor, Village of Albion

Supervisor Swiercznski presented the following "Declaration of Position" which was approved at a meeting in Albany which he attended on December 15th.

December 15, 1971

EMERGENCY COALITION OF LOCAL GOVERNMENTS
DECLARATION OF POSITION

This coalition of local governments including school districts is unalterably opposed to any cutbacks, so called freezes or reductions of any kind in state aid to any local governments. The result of such cutbacks will be a further decrease in the essential services to which our residents are entitled and which they have a right to demand. Our local taxing power is already strained to its limit.

The coalition is mindful of the financial difficulties in which the State finds itself and actively supports the Governor's efforts to bring financial relief from the Federal Government to the State as well as to local governments. Many local governments have temporarily survived the cutbacks initiated by the Governor and the Legislature in 1971 by imposing special levies and increasing local taxes so that essential services could be maintained.

While we are averse to postponement of aid (rollbacks) until the next state fiscal year (April 1972), we can accept this device provided that the aid is paid in full in the local government fiscal year for which operating budgets have been established.

Since it is recognized that local governments are subdivisions of the state and derive all of their powers from the state, we call upon the

state to bear the ultimate responsibility of providing for the solvency of localities and the continuation of adequate support for essential services for the people.

The Clerk read communications from Senator James Buckley, Congressman Frank Horton, Senator Earl Brydges acknowledging receipt of resolutions. Ordered filed.

CHAIRMAN'S LETTER OF TRANSMITTAL

November 11, 1971

To The Honorable Board of Supervisors
The County of Orleans
Court House Square
Albion, New York 14411

Gentlemen:

The Board of Mental Health and Mental Retardation presents its Second Annual Report. This report covers our first full year of service to the community.

In August, 1970, we were fortunate to obtain the services of Dr. Guy Walters, previously with us as a part-time consultant, as full-time Director of the program. However, at the same time, Dr. Pino, Clinical Psychologist, resigned. As a result, our program continued to be critically understaffed. We will continue to make every attempt to recruit a full complement of staff.

We view our greatest strength in the quality and dedication of our staff, and in this respect wish to recognize the service of Dr. Guy Walters, Mrs. Mildred Fields, Mrs. Arline Pask, and James Proctor, Trainee.

As indicated in the following report, there are new programs and services, essential aspects of our Mental Health Program, which we would like to have implemented. We hope that the Board of Supervisors can make these programs a reality by providing the financial support necessary.

On behalf of the Board, I would like to express our appreciation for your confidence and support.

Very truly yours,

Patricia Nassar
Chairman
ORLEANS COUNTY MENTAL HEALTH BOARD

DIRECTOR'S REPORT

The year 1970 marked the second year of the establishment of community Mental Health and Mental Retardation services for the County of Orleans. It also marked the year in which a full-time Director joined the staff, having previously served as part-time Director. At this point, the staff included a Director, a Clinical Psychologist, a full-time Mental Health Administrative Assistant, and a part-time stenographer. However, Dr. Pino, Clinical Psychologist, who had been with the Clinic since 1969, resigned effective in September. Several prospective candidates were interviewed in an attempt to fill this vacancy, but as yet the search has proven unfruitful. Recruitment efforts were also directed towards obtaining a Social Worker with a Master's in the field of psychiatry. Several leads were secured, resulting in the possibility of obtaining one of two Social Workers who will complete their Master's during the early part of 1971.

Despite our staff shortages, the Clinic made a continued effort to render as much Mental Health Service as called upon. However, it should be stated that there were some gaps in the services, but no one who needed immediate help was turned away because of lack of staff.

Mr. James Proctor, who was a trainee from the School of Social Work at the University of Buffalo, set up a program for alcoholics. In order to render Mr. Proctor his supervision, a qualified Social Worker with a Master's degree was hired on a part-time basis. All staff members rather liked this experience, and we are hopeful that this can be continued in the future.

During this time, more specifically beginning August 1, the undersigned directed his efforts toward establishing an ongoing relationship with the various municipal agencies, including the County Infirmary, and being on a full-time basis, more services were provided to the local hospitals, nursing homes and boarding homes, on a consultant basis. In general, it can be reasonably stated that from August through the remaining part of 1970, my efforts were directed toward the entrenchment of our services to the community, in addition to seeing all referrals made to the Clinic, as well as discharged patients from the Rochester State Hospital who were residents of the County.

In an effort to provide as much service as possible, a Mental Health Consultant was hired in mid-July. He terminated his services at the end of the year, as he returned to school.

As one would anticipate, the number of referrals increased when more services were available. Hopefully, in the year 1971 there will be further progress made in the direction of better service to the community, including all segments of the socio-economic strata.

Guy M. Walters, M.D.
Director

REVIEW OF SERVICES PROVIDED
BY THE MENTAL HEALTH CLINIC
IN 1970

The year 1970 marked the first full operating year of the Orleans County Mental Health Clinic. Admissions during the year totaled 302, making 486 admissions in all since the opening date, May 14, 1969. Cases terminated during the year numbered 226.

CASELOAD CHARACTERISTICS are indicated as follows:

- 1) There were more females (55.6%) than males (44.4%).
- 2) 85% of the 1970 caseload was between the ages of 15 and 64.
- 3) Almost 95% of the 1970 admissions was Caucasian.
- 4) 28% was referred by self, family, or friends.
22% was referred by county and public agencies.
32% was referred by general practitioners, the Clergy, and lawyers.
12% was referred by the county school systems.
6% was referred by state hospitals and private psychiatrists.
- 5) Over half of the caseload is under Medicaid or has fee waived because of financial problems (53%).
- 6) Diagnostically, there is a fairly even distribution between three main divisions: psychotic disorders, neurotic disorders, personality problems (anti-social behaviors included). A minority of cases comes from mental retardation and drug and alcohol addiction. In the past few months cases with problems relating to drug usage began to appear.

COMMUNITY PROGRAMS started in 1969 continued throughout 1970. Some of the projects were completed and evaluated, such as the Community "Care-Givers" program and the O.E.O. Aide Training program. The services of the Clinic have been made available on an ongoing consultant basis to all community agencies.

Successful efforts have been made to keep close contact with the visiting nurses of the Orleans County Public Health Department by frequent conferences. There has been continued co-operation between the Clinic staff and the Courts and law enforcement agencies, nursing homes, and the County Infirmary.

ALCOHOLICS ANONYMOUS: A local branch was planned and initiated by Mr. Proctor during his two-month placement at the Clinic. A Leadership Training Seminar took place, also, under Mr. Proctor's direction.

REFERRALS have been made throughout 1970 to the Division of Vocational Rehabilitation, a part of the New York State Education Department in Buffalo. Clients who are motivated to seek further training for the purpose of gainful employment are making use of this agency through its area representative.

NARCOTICS GUIDANCE COUNCIL: Aid and support were given by the Clinic Staff in the formation and planning of this agency.

GROUP THERAPY: Weekly sessions have been continued. One group consists of women who experience similar problems and gain in growth by communicating and relating to others. A group of teenagers have also met on a weekly basis with a good measure of success. These young people were referred from other municipal agencies.

Conferences with school administrators and personnel were held, as well as frequent meetings with the Clergy.

PLANNING AHEAD

DAY CARE CENTER:

The establishment of a multi-purpose Day Care Center was, and is, still a priority of the Mental Health Board. A request was made for funding for this purpose for the coming year, but due to the rather difficult economic climate in the community, plus the fact that the community found it necessary to appropriate money for the mandated drug abuse program, it was not possible for 1971.

If it is possible to establish a multi-purpose facility for mental health and mental retardation, the Day Care Center will then be part of the Mental Health Clinic. Utilization of this facility will be devoted to clients who can be maintained within the county, with the objective of preventing hospitalization or readmission to state hospitals. Also, it will be utilized for those persons recently discharged from state hospitals who need further follow-up treatment. This could be in preparation to involvement in a rehabilitation program. It is planned that this shall be open to all forms of mental disorders and mental retardation.

COMMUNITY EDUCATION -- PREVENTION:

Clinic staff members will continue to acquaint the community with the necessity of setting up a program for the prevention of mental breakdowns. The function of the Clinic in this respect will be that of setting up an in-service training program in the local system, wherein Clinic personnel could take an active part, or act as resource people. It is hoped that it will be possible to involve representatives from the school systems, the Clergy, Social Services, Probation and the Courts, the Public Health nurses, and persons who would be representative of the "high-risk" and difficult-to-reach groups. The goals striven for will be:

- 1) to have an informed cross-section of the county population, so that these representatives will be in a much better position to detect early signs of potential mental breakdowns in the future; and
- 2) to anticipate crisis situations and prevent them from occurring.

These goals are presently being pursued by the Clinic's accessibility to the school systems in the county, who continue to refer children with pressing problems to the Clinic. An agreement has also been made to take part in the Board of Co-operative Educational Service's program for the educable and the brain-damaged children.

With the emphasis now being placed throughout the State of New York that each county initiate a program of treatment for drug abuse in the young, the Clinic will serve as a back-up service and will offer treatment to those who need it. Consultant services have been and will continue to be offered in setting up the total program.

A closer relationship will be sought with the local Association for Retarded Children in an effort to learn their needs and offer assistance in solving them.

The Clinic will continue to seek funding for a part-time indigenous worker in an attempt to reach the disadvantaged group. This was not considered economically feasible for 1971, but the item will again be presented in 1972.

RUTH MENDENHALL BARRETT, M. D.

243 S. Main Street
Albion, New York 14411

FROM: Ruth M. Barrett, M.D., Coroner Orleans County
TO: Board of Supervisors of Orleans County
DATE: 10 February 1972

Gentlemen:

The following is a summary report of the activities of one of the Orleans County coroners and of the coroners' pathologist for the year 1971.

Use of Arnold Gregory Memorial Hospital Morgue and Autopsy facilities in the geographic center of the county has greatly decreased the amount of time spent in travel by the physicians responsible for conducting the coroners' work. It has speeded up the handling of cases. I wish to thank you for this centralized facility. The other physicians associated with the office and the undertakers responsible for funeral arrangements of cases falling under the coroners' jurisdiction, have found the system convenient. Doing post mortem examinations in the hospital has made it possible to utilize bacteriologic and x-ray diagnostic facilities easily and quickly. The very high alcohol level in one homicide victim was a significant factor in the decision of the Grand Jury not to indict the person who had caused the injury. The high level of alcohol supported the defendant's contention of defense against an intoxicated individual. In another case a body dead for a considerable time was studied in detail. With the aid of the FBI proper identification of the deceased was made with the resultant Veterans benefits to widow and children.

As you know I appeared before the Joint New York State Legislative Committee on Transportation in support of a bill lowering the level of blood alcohol required for prima facie evidence of intoxication. You will note that in 1971 all homicide victims were intoxicated; 66% of auto drivers were driving while intoxicated; 50% of passengers were intoxicated and 33% of pedestrians were intoxicated. Commissioner Tofany of the Bureau of Motor Vehicles is continuing a study of the association of consumption of alcohol and violence and death related to motor vehicles. I have included the number of positive blood alcohols on automobile drivers, passengers and pedestrians.

During 1971 I handled 60 cases as coroner, 27 of which were autopsied. I also performed 3 autopsies at the direction of other coroners. Attached is a statistical survey of these 63 cases.

Respectfully submitted,

Ruth M. Barrett, M.D.

ANNUAL REPORT

ORLEANS COUNTY PROBATION DEPARTMENT

January 1, 1971 - December 31, 1971

PURPOSE OF PROBATION

The objective of Probation, which is a division of the field of correctional care and a legal, social and personal service operating within the framework of a judicial setting, is to protect society, preserve the family, prevent delinquency and crime and rehabilitate the offender thru INTAKE, INVESTIGATION AND SUPERVISION.

INTAKE - Thru INTAKE (the "sifting" or "screening" process), where possible and practical, cases are adjusted by treatment without Court action. Otherwise, they are referred to Court. This process is used principally in the handling of children's cases, young offenders, marital problems, and offenses and crimes arising out of domestic difficulties.

Probation officers, thru intake service, give advice and counsel to spouses, parents, school authorities, police and private citizens in an effort to adjust cases without Court action where such adjustment is in the best interest of all concerned. It is used to re-unite families, to conciliate spouses, to assist in settling family quarrels and in many instances to obtain support for the children of broken homes.

Figures for 1971 are as follows:

TOTAL During Year	<u>146</u>

EVALUATION: Only 18% (68 of 376) of all cases handled at Intake and 24% (68 of 283) of cases given counseling ultimately required Court action. As a "sifting" process, therefore, I feel this service in Orleans County has been quite successful.

INVESTIGATION: The investigation attempts to examine and evaluate the defendant's exact role in and his attitude before, during and after the crime, any past record; his social history from before birth, including the emotional and economic atmosphere of his home, his relationships with parents, brothers and sisters, his school adjustments, achievement in comparison to ability, relationship with teachers and fellow students, work and military experiences, habits and leisure time activities, religious contacts, etc. All this is to help the Judge have a factual picture and an emotional grasp of the human before him so that he can sentence in a manner best suited to the protection of society, the rehabilitation of the defendant and to deter others from committing crime.

The presentence investigation is then used by Probation Departments, Correction Institutions, Child Welfare, or Mental Health Clinics as the keystone for planning social casework treatment with the individual. If, for instance, a person is placed on probation and transferred to another probation department, the investigation is sent to the receiving department so they can develop a comprehensive and intelligent plan in dealing with the defendant. If he then violates and is sent to an institution, the investigation accompanies him to the institution, so the institution can deal with him in a significant fashion including educational and vocational training. Then, when he is released on parole, the parole department uses the investigation in their planning for the defendant.

The Orleans County Probation Department does investigations for Family Court, County Court, Police Courts, and Justice of the Peace Courts.

SUPERVISION: Thru Supervision, the Probation Officer tries to induce a positive change in the habits, attitudes, values and/or social relationships of the probationer by guiding him and assisting him to draw upon his own resources and those of the community to achieve these ends.

The method of supervision includes devising a plan of treatment tailored to each individual probationer based on review and evaluation of the presentence investigation. Running records are kept on each probationer containing factual data as to the probationer's performance, as well as an evaluation of his behavior and attitudes, and in the process of recording each case in this fashion, the plan of treatment is continually being updated to meet changing circumstances and needs.

EVALUATION

1. Increase in Work -- 1965 thru 1971
The above figures show the following increases:
 - a. 48% growth in intake work - 254 cases in 1965 to 376 cases in 1971.
 - b. 47% growth investigations from 76 in 1965 to 112 in 1971.
 - c. 75% growth in probation cases - 102 cases in 1965 to 179 cases in 1971.
 - d. 62% growth in support cases - 297 cases at the end of 1965, to 482 cases at the end of 1971.
2. Additional Staff:

As of 1/1/72 the Board of Supervisors did grant one additional Probation Officer with the stipulation that he handle the Support Bureau cases. On 1/1/72 we hired Michael E. Dreyfus and were fortunate to have hired someone who had already had 1½ years in probation work. It is Mr. Dreyfus' responsibility to supervise the Support Bureau with the Support Bureau clerk being responsible for keeping track of all support cases which involve Social Services and taking all support complaints and notifying Respondents (persons under order to pay support) when they have fallen into arrears, getting concrete information as to their financial status and drawing violation petitions. Mr. Dreyfus is responsible for being the petitioner in violation proceedings, testifying in Court and doing social casework with the support cases in areas of marriage counseling, visitation and neglect of children.

Although Mr. Dreyfus' position has been a great deal of help in relieving caseload pressures, the need for the fifth probation officer still exists as I feel is shown by the following figures:

<u>TYPES OF CASES</u>		Average Units <u>Per Month</u>
INTAKE INFORMATION ONLY	93/12 mo. = 7.75 x .25*=	2.87 per month
INTAKE COUNSELING	283/12 mo. = 23.65 x .75*=	17.74 per month
INVESTIGATIONS	112 x 5* = 560/12 months=	46.66 per month
SUPERVISION cases at end of December		130.00 end of 12/71
SUPPORT CASES	482 x .2* = 8	96.40 per month
TOTAL Average caseload		292.67 per month

*Casework unit weights given different types of cases with regular supervision case as the standard of 1; case work weights developed by N.Y.S. Division of Probation.

As part of our reimbursement contract, we agreed to the State-caseload standard of 60 cases per officer. The above caseload of 292.67 would, therefore, require 5 probation officers without allowing the director any time to perform any of his supervisory or administrative tasks. Additionally, the 1965 National Commission Report on Crime, "Challenge of Crime in a Free Society" recommended caseloads of 35 per officer.

3. Short-Form Investigations

The state legislature passed a law effective 9/1/71 allowing for short-form reports of presentence investigations. The State Division of Probation devised a two-page form for such use and required departments to use such form in all misdemeanor cases except where the Judge specified otherwise. In preparing this investigation a much broader use is made of clerical staff, much the same as the Orleans County Probation Department has done in the handling of support cases, which does conserve the time of the professional caseworker, the Probation Officer.

Since 9/1/71 we have done 12 short-form reports.

Our tentative conclusions at this point are that first, the method and the short-form report do save much time. Secondly, however, we question the capability of the report to give to the Judge as true a picture of the defendant as a long-form investigation, based on two observations; that the Probation Officer who does the investigation and the Director, who reviews the investigation as supervisor, cannot recall details regarding the person investigated nearly as well as when a long-form investigation is done, and also based on the Courts' sentences as well as discussions with the Judges, it would appear that in several instances the Court had a different impression of the defendant than the Probation Officer who did the investigation.

The practical necessity of the short-form investigation, especially since the new Criminal Procedure Law, which was effective 9/1/71, greatly expanded Probation responsibility to do investigations, is undeniable and further surely the short-form report, which gives the Judge some idea of the defendant before him, is more suitable to the end of reasonable sentences than no investigation at all. But it does appear at first impression, that the short-form investigation falls short in quality of the long form.

Respectfully submitted,

Robert E. Golden
Director of Probation

REPORT FOR THE ORLEANS COUNTY

DEPARTMENT OF HISTORY

January 1, 1971 - December 31, 1971

Construction of Orleans County's new jail and the demolition of the attached Sheriff's quarters which housed the offices of the Election Commissioners led to the removal of these offices to the basement of the Court House along with part of the Sheriff's staff. The Sheriff's office was temporarily located in the department of Civil Defense on the County House Road until the completion of the new jail building. As a result of these office relocations, the department of history was moved from the Court House basement to the former McNall Funeral Home at 156 South Main Street in February. This entailed considerable effort and time in packing and relocating books, records and artifacts. Through it all, an effort was made to keep up with the filing of current happenings as well as the recording of history by photographs.

Assistance has been given Boy Scouts, students in search of information on such subjects as the stone quarry industry, migrant labor, election results in the county during the Hoover and Roosevelt administrations. Location and historic marker information was furnished the N.Y.S. Conservation Department. A search of N.Y.S. laws concerning the erection of Orleans County towns was completed for the N.Y.S. Department of History. Genealogical information concerning census and cemetery records has been given as requested.

A census of the Five Corners Cemetery was taken and indexed in cooperation with the local DAR Registrar. Cemetery records of burial grounds in the Town of Clarendon were received from the Leroy Chapter DAR and have been indexed and filed.

"Out of the Past" pictures and stories appear weekly in the local newspaper as the historian makes an effort to keep history alive and the public interested.

Talks on the Erie Canal, County History and Cobblestone Houses have been given before such groups as the Masonic Lodge, Christ Church, Dairy League Youth Group, Barre Men's Club, County Infirmary, Senior Citizens, AGM hospital Extended Care, Northwestern Frontier Village Officials, Batavia YWCA and IOOF.

The historian as President of the County Historians Association of N.Y.S. made arrangements for, and attended the annual spring meeting in Bay Shore, L.I. and the Fall meeting at Kiamesha Lake. In an effort to influence the N.Y.S. Legislature to pass the history bill, several letters were sent to various lawmakers. Other meetings attended by the historian, included the Annual Conference of Local Historians at Hamburg, annual meeting of the Landmarks Society of the Niagara Frontier in Buffalo, the Western N.Y. American Revolution Bicentennial Forum in Buffalo and a tour of the county conducted by the Orleans County Planning Board.

At the request of Genesee Community College, the historian cooperated in giving the history of Orleans County as part of a

non-credit course in the History of the Holland Land Purchase which was conducted one night each week for four weeks at the Holland Land Office in Batavia.

In an effort to help further the work of the Cobblestone Society in maintaining a county museum, the historian has continued as a director, helped with the house tour, auction, and in finding artifacts and helping with exhibits. Several tours of the museum were conducted by the historian and talks were given to such groups as Senior Citizens from Rochester, YWCA from Kenmore, a childrens' Day Camp from the Rochester area, Senior Citizens from Niagara County, a Lutheran church group from Rochester and others.

Assistance in locating and photographing desirable cobblestone houses to be used in an up-coming cobblestone publication has also been given.

Many changes are taking place in the county. Drug abuse is a real concern to our police departments who are making an effort to combat the problem through education as well as other channels. Local business continues to move out of downtown areas as evidenced by the opening of the Maple Ridge Shopping Plaza, Rt. 31A, Medina and the Ames Plaza, West Avenue, Albion. Fisher-Price Toy Mfgs. continued to expand in Medina where re-zoning has made possible the construction of multiple dwelling houses in the vicinity of State and North Streets as well as the creation of Starling Drive connecting Elizabeth and North Streets where plans are for a 26-lot development. History-minded citizens of Medina Village and Towns of Shelby and Ridgeway succeeded in forming an historical society. 1971 saw the opening of the new county jail, dedication of Yates Community Library in Lyndonville, Kendall's new high school as well as the double bridge over Oak Orchard River on the Lake Ontario Parkway connecting Point Breeze and Lakeside Park. Holley began construction of a new sewage disposal plant while Albion started the building of a new high school. The East Gaines Larger Parish (combined Baptist societies of The Bridges, Kent and East Gaines) purchased property on the Ridge Road east of Childs and began construction of a new church building. The democratic Board of Supervisors has been faced with the ever-rising cost of welfare, complaints of rebellious taxpayers and an urgent need to lure more business interests to the county.

This report is respectfully submitted to the Board of Supervisors whose biographies are listed below and whose continued interest makes it possible for this department to function.

TO: The Board of Supervisors, County of Orleans
FROM: Office of Natural Disaster and Civil Defense
SUBJECT: Annual Report for Orleans County Civil Defense for period of 1 January 1971 to 31 December 1971

Gentlemen:

I hereby submit the Annual Report for Orleans County Office of Natural Disaster and Civil Defense for 1 January 1971 to 31 December 1971.

During the past year, we placed greater emphasis on means of saving the county money. The Surplus Property Program was widely expanded, the Matching Funds Program was utilized, and applications were submitted to the Excess Property Program. A continued effort was made to be prepared for emergencies that might arise in our schools, hospitals, and factories.

We have begun or completed the following:

1. Twice a month representatives from various county agencies visit our surplus property warehouse in Canandaigua. This year, eighteen representatives also visited the Albany warehouse. Various items have been purchased by county agencies such as tools, beds, desks, typewriters, adding machines, generators, electronics lots, compressors, etc. The unit value totals \$92,811.99 while unit assessment totals \$2,778.25. This represents a saving of \$90,033.74 for local government agencies.

The following agencies have taken advantage of this program:

- | | |
|---------------------------|----------------------------|
| 1. Orleans County Highway | 12. Albion Fire Dept. |
| 2. Kendall Highway - T | 13. East Shelby Fire Dept. |
| 3. Shelby Highway - T | 14. Kendall Fire Dept. |
| 4. Gaines Highway - T | 15. Village of Albion |
| 5. Albion Highway - T | 16. Narcotics Office |
| 6. Carlton Highway - T | 17. Albion Emergency Squad |
| 7. Barre Highway - T | 18. Barre Fire Dept. |
| 8. Clarendon Fire Dept. | 19. Ridgeway Fire Dept. |
| 9. Hulberton Fire Dept. | 20. Village of Holley |
| 10. Medina Fire Dept. | 21. Albion Police Dept. |
| 11. Morton Fire Dept. | |

2. Have met with several organizations and viewed our County-wide Disaster Drill films. Tours have been limited since the Sheriff's Dept. has been utilizing the lower level of the EOC. Several individuals and small groups have toured the Center during the past months.

3. A readiness drill was held by the Auxiliary Police and Radio Club last June. After notification, all participants in the drill were prepared and ready at the EOC within 45 minutes.

4. Increased membership in the Orleans County Snowmobile Rescue Team from 30 to 50 members.

5. Held training courses for:

1. Auxiliary Police - 15

2. Scuba Team - 15

3. Several First Aid courses

4. Began work on MET Course for whole County

The Auxiliary Police have served 4,812 hours during the past year. This is all on a volunteer basis and is an increase of 1,812 hours.

6. Organized a SCUBA Rescue Team with 15 members. They are in process of completing a 76 Hour training course. Five tanks and regulators have been purchased for their use.

7. Attended several county school shelter drills where I observed students taking cover in case of nuclear attack. Although Orleans County has a "Go Home Plan" for all schools it may not be feasible to put this plan into effect at the time of attack. Therefore, an alternate plan must be prepared.

8. Have met with all school and hospital administrators to update evacuation plans in case of an emergency.

9. Engaged Mr. Robert Willigans to exchange Radiological Kits 25 shelters at Federal and State expense.

10. All preliminary steps have been completed for the Community Shelter Plan (CSP) and is presently being printed at Dibley Printing in Albion. Printing should be completed in March at which distribution will be made.

11. The weekly Fire Radio, Amateur, and School monitor tests have been conducted from the EOC. Donald Pritchard, Chief of Communications in Civil Defense and his staff deserve credit and thanks for this work.

12. Attended two Civil Defense Conferences in Syracuse.

13. All 14 service annexes are in process of being updated. This work is being done in conjunction with representatives visiting from Cornell University who are conducting a Planning and Operations course.

14. Processed Matching Funds applications totaling \$2,000.00.

15. Attended and participated in all United States Dept. of Agriculture meetings and drills. These meetings are held to keep us informed as to where food is stored, amount stockpiled, and other pertinent information.

16. Attended monthly district meetings which are now being held throughout the 10 county area. Orleans County hosted the November meeting. These meetings keep us informed and up-to-date in regard to Civil Defense programs.

17. Set up a display at the Orleans County Junior 4-H Fair. Literature was available to those interested and questions answered regarding various aspects for the necessity of a working Civil Defense program.

18. Took part in Phase IV of Exercise EVER READY and CDEX-71. Both were State directed and set up to determine our capability in time of need.

19. The following items were purchased through this office:

1. Fire Base station
2. Motorola Quik Call System
3. Four (4) Walki-talkies
4. Five (5) SCUBA tanks and regulators

This office wishes to express our appreciation to the Orleans County Board of Supervisors, other county departments and agencies and the many other organizations that we have worked with during the past year.

Respectfully submitted,
DAVID M. GREEN, Director
Orleans County Office of
Natural Disaster and Civil Defense

ANNUAL REPORT OF ORLEANS COUNTY VETERANS SERVICE AGENCY

1971

This office is maintained to advise and assist veterans and their dependents in obtaining any and all benefits provided under federal, state and local statutes. While all veterans are entitled to, and do use the services provided by this office, the number of Viet Nam Era veterans continues to increase and they make greater usage of the services provided.

Attached is a statistical summary of the number of contacts and services rendered and this reflects a 15% increase in the total number of contacts and 14% increase in the total number of services rendered over the 1970 figures. There was a very sharp increase in the amount of contacts in connection with pension and education.

Additionally, during calendar 1971, veterans of this county were afforded a total of 8887 days of care in Veterans Administration Hospitals. This is virtually the same figure as shown for 1970.

There were 46 veteran deaths during 1971, none of which were in-service deaths. This is the first year since 1965 that we have not suffered a casualty as the result of the Viet Nam War. This office saw 166 new veterans during 1971.

It is estimated that approximately 1.1 million dollars is paid to veterans in this county per year for compensation and pension, 426,000 dollars in hospital care and 480,000 dollars in educational benefits, plus 200,000 dollars in other benefits, for an estimated total figure of 2 million 26 thousand dollars.

Each year, the Congress of the United States amends or enacts new legislation effecting veterans, 1971 was no exception. The personnel of this office finds it necessary to attend frequent conferences conducted by the Veterans Administration to keep abreast of the changes in law and regulations.

We wish to express our appreciation to the Orleans County Board of Supervisors, to the Veterans Administration and to the personnel of the many federal, state and local agencies and to the Service Officers of the American Legion and Veterans of Foreign Wars for the assistance and cooperative effort which they have shown during the past years.

Respectively submitted,
WILLIAM H. MURRAY
 Director

WHEREAS, this Board of Supervisors feels and is of the been informed of the program for the proposed consolidation of Road Test Posts as outlined by the State of New York Department of Motor Vehicles on January 25, 1972, and

WHEREAS, one of the results of this proposed consolidation would be the elimination of a Road Test Post in the County of Orleans, and

WHEREAS, this Board of Supervisors feels and is of the unanimous opinion that the removal of this Road Test Post from the County of Orleans will result in considerable inconvenience to the residents, citizens and taxpayers of this County of Orleans in that they will be required to travel thirty-six miles to and from the proposed consolidated post and that these tests will be required not once as is mentioned in the proposal but additional times when they take their children or other members of their family to the road test site, and

WHEREAS, this Board of Supervisors does feel that the additional inconvenience and expense caused by such additional travel is an unnecessary burden on those residing in the County of Orleans, and

WHEREAS, the proposed consolidated Road Test Post to be located in Brockport, New York, is the second Road Test Post in Monroe County, whereas all other counties in Western New York have no more than one such post and Brockport being in a suburban or urban area which already is suffering from problems created from heavy traffic flows, therefore

Referred to the Public Safety Committee for study and recommendation.

Mr. Pahura presented the 1971 Annual Report of the County Planning Board.

Mr. Sidney Cleveland was granted the privilege of the floor. Mr. Cleveland informed the Board of the negotiations for solving

the solid waste problem caused by the closing of the landfill in the Town of Murray. Mr. Cleveland reported that, effective March 1, 1972, a short term solution has been achieved that will provide for orderly disposal of refuse from industries, municipalities and towns in Orleans County that are served by Leastman Enterprises. The Leastman Landfill site in the Town of Murray has been operating under a six month extension granted by the Town of Murray Town Board. This extension expired March 1, 1972, and the Town of Murray will enforce its current zoning ordinance which prohibits the disposal of refuse transported into the township from outside. The major issue has been the use of the Leastman site on the West Kendall Road to dispose of refuse from Monroe County. Attempts to negotiate the differences between Leastman Enterprises and the Town of Murray were unsuccessful, which will close the Leastman site.

To serve the Orleans County customers of Leastman Enterprises without interruption, an agreement has been signed between Alan McKenna, operator of the Yager Road landfill in the Town of Albion, and Leastman Enterprises. This agreement is to serve only the Orleans County customers of Leastman Enterprises and no refuse shall be transported in from outside of Orleans County. The agreement between Mr. McKenna and Leastman Enterprises has been formulated to meet the requirements of the Orleans County Health Department and to be in the public interest.

Mr. Cleveland thanked the County Attorney for his assistance in the negotiations to achieve the agreement. In completing his report, Mr. Cleveland stressed that this agreement is only a short term solution to the solid waste problems confronting the County. He encouraged the Board to continue to support the efforts of the Planning Board in seeking a long range solution to meet the county's solid waste disposal needs in the next five years.

Supervisor Swiercznski, said I think Mr. Cleveland should be commended for the work he has done and the hours he has given in view of his heavy schedule.

Supervisor Reed said I second that, it was a touchy subject and I think this Board owes Mr. Cleveland a vote of thanks.

Sheriff Williams reported on the progress of phase two of the new jail. He explained that the radio console can not be installed until all the other work is finished because of the damage dust might do to the delicate instruments.

He brought up the point that when Permanent Personal Registration was getting started, Mrs. Lynch was appointed as an instructor and no Democrat was appointed as an instructor.

The Clerk read the following letter:

February 24, 1972

Orleans County Board of Supervisors
Court House Square
Albion, New York 14411

Gentlemen:

This is a report on the operation of the Orleans County Election Office during the week of February 14, 1972.

During the above week the office was not viable for five full business days. The Democratic side was not covered though the Republican side of the aisle was staffed and ready for business.

We are now in the period of Central Registration — probably our one most important function. During the week seven individuals appeared to register. They were turned away because no member of the Democratic party was present to record and certify the information given.

Registrations were not accepted since Section 355 of the 1971-1972 New York State Election Law could not be followed. I quote in part "The board of elections shall keep its office open to receive registrations at all such times and shall, at all such times, keep in attendance at least two members or employees of the board authorized by the board to receive registrations, one such member or employee representing each of the two political parties which, at the last preceding election for governor, cast the highest and the next highest number of votes."

Our present Board of Supervisors was determined, in effect, by two votes. Last week seven Orleans County voters could not register because no member of the Democratic party was in attendance.

Sincerely,

GERALD F. LYNCH
Republican Member
Orleans County Board of Elections

Discussion of the above letter followed. Mr. Monacelli stated that at various times he had contacted the Sheriff and had permission to get Mrs. Hunt to act in the capacity of Democrat Clerk when someone wished to register and the Democrat Clerk was not available.

WHEREAS, in order to maintain the Orleans County Home and Infirmary certification and eligibility to receive state reimbursement and medicaid funds it is necessary that a licensed nursing home administrator be employed at the Orleans County Home and Infirmary, now therefore be it

RESOLVED, that the Orleans County Home and Infirmary Administrator, Gary H. Breuilly, be hereby authorized to attend, at county expense, such courses as are required to comply with the requirements of Section 2896-g. 3 of Article 28-D of the New York State Public Health Law as are approved from time to time by the Orleans County Commissioner of Social Services.

Unanimously adopted.

Supervisor Reed discussed the success of the "hot line" used to Monroe County to receive complaints of welfare fraud.

Mr. Vincent Cardone was granted the privilege of the floor. Mr. Cardone began his remarks by thanking the Board for the privilege of appearing before them. He stated that he had five points he wished to bring before the Board, (1). Taxation in Orleans County. He stated that he felt the property assesment in Orleans County was weighted in favor of rural areas. That there are many inequities in the manner of assessment. Mr. Cardone concluded his remarks on taxation by urging the Board to reconsider their stand of distribution of sales tax revenues. He suggested that the sales tax monies should be divided among the various villages, school districts and the county.

(2). Mr. Cardone discussed various functions of the County Health Dept. He said he hoped that some liaison could be set up between the County Board of Health and various interested groups to develop a program to avoid some of the present problems of communication between the Health Department and the public.

(3). A third point Mr. Cardone brought up related to the Orleans County Legal Aid Bureau. Mr. Cardone said that even though the Board of Supervisors could take no direct action regarding the activities of the Legal Aid Bureau, they could write their Congressman, the President, Senators, etc., protesting the areas of involvement of the Legal Aid Bureau which appear to be contrary to the purposes for which the Legal Aid Bureau was established.

(4). Mr. Cardone then discussed the Social Services Department and the District Attorney's Office. Mr. Cardone feels that the salary of the District Attorney is inadequate, that the District Attorney's Office should be doing more about welfare fraud, etc. He specifically mentioned that he had called the District Attorney requesting Grand Jury investigation of Jim-Cor and received no satisfaction in the matter.

(5) Mr. Cardone's fifth point concerned County Government and local government generally. Mr. Cardone cited various examples of duplication in government. He recommended that perhaps thought should be given to having a County Manager or administrator.

Mr. Reed responded to several points which Mr. Cardone made, particularly the fact that he did not feel that the villages were unequally taxed compared to rural areas.

Supervisor Paduchak brought up the point that the sale of various farms to persons who buy them for homes not as farm land has caused the lowering of the equalization rates.

Mr. Markellis said that "as far as Jim-Cor is concerned, I feel that the County Health Department has done all we could do. When it was a labor camp we were proud of its condition. It has turned into a bad situation. We have identified the problem and the Commissioner has notified the Village of Medina. It now is a multiple dwelling and no longer comes under the farm labor camp code. It is up to the Village of Medina to enforce its rules and regulations."

Adjourned at 12:10 p.m., for lunch at the Town Club to hear a presentation regarding processing tax rolls by Marine Midland.

AFTERNOON SESSION

Reconvened at 2:20 p.m., all Supervisors present.

Supervisor Paduchak said that he would like to go on record that he would like time for a rebuttal to Mr. Cardone's comments, however, in view of the fact that we have other business to attend to, I will forego the privilege.

Mr. Pahura introduced Mr. Fred Allende from the NYS Employment Office. Mr. Allende informed the Board that the County had been awarded 100 job slots for underprivileged young people between the ages of 14 and 21 for summer employment. These jobs would be paid for by the state and the only responsibility the County would have would be supervision and time-keeping.

Supervisor Swiercznski said he felt this would be discrimination against the young people who were children of taxpayers and could not find jobs for the summer.

Several Supervisors agreed that it would be fine to have jobs for taxpayers' children but that the program only allowed for jobs for the underprivileged. It would be a case of turning down the entire program or accepting the limitations of the program.

Supervisor Swiercznski moved that we do not accept this program because it discriminates against the taxpayers.

Chairman asked for a second to Supervisor Swiercznski's motion. There being no second forthcoming, the motion was declared dead.

The following Local Law No. 2 was introduced by Supervisor Paduchak:

The Clerk read the following letter from the County Attorney.

July 5, 1972

Orleans County Board of Supervisors
Court House
Albion, New York 14411

Gentlemen:

At your last regular meeting, an inquiry was made in regard to the possibility of establishing a county wide assessor's office. I was requested to examine into the legalities and possibilities of such an office.

I contacted the Orleans County Director of Real Property Tax Services, Mr. Arnold Basinait, and sought his advice on this matter. We are informed by the New York State Office of Taxation and Equalization that there is no constitutional provision for the establishment by a county of such an office in the absence of a county charter containing provisions for the same. Therefore, until such time as the County of Orleans adopts a county charter providing for a county-wide assessor's office or amendments to the New York State constitution and statutes, the County of Orleans may not create and operate a county wide assessing office.

Yours very truly,

SANFORD L. CHURCH
Orleans County Attorney

The Clerk read the following letter which was referred to the Public Safety Committee for recommendation. Supervisor Paduchak suggested that a boat might be leased at less expense to the County to periodically patrol the Oak Orchard Creek.

June 21, 1972

Mr. George L. Batchellor
Orleans County Board of Supervisors
Orleans County Court House
Albion, New York 14411

Dear Mr. Batchellor:

As Rear Commodore of the Oak Orchard Yacht Club and in behalf of our, over one hundred members, I was asked at our June 19th meeting to request the Board of Supervisors to assist us and other concerned area boaters in the patrol of Oak Orchard Creek.

In recent years the number of boat owners in the state and county has increased considerably, putting many otherwise "land oriented" families on our waterways and in turn placing the responsibility for their safety and well being in the hands of state and county governments. Being myself a member of the Livingston County Board of Supervisors I am fully aware of the fiscal problems facing local governments and the many demands placed upon them, however I think it would behoove your board to take a close look at the Oak Orchard waterfront from a past, present and future point of view. In the past there were fewer boats, mostly belonging to nearby residents and I believe little need for patrolling. Presently there are many more boats permanently moored at Oak Orchard and with the advent of the parkway many additional crafts are placed in the water on weekends only. People from neighboring harbors, state camping sites, etc. visit Oak Orchard Creek regularly during the summer months. There is now need for law enforcement at Oak Orchard particularly on weekends. The future of the Oak Orchard area appears to be very bright with the Federal Government approving over one million dollars to be expended on harbor improvements and the State of New York committing approximately \$300,000.00 for launching and marine facilities. This coupled with the parkway and other local expansion will undoubtedly leave Orleans County little choice, but to direct its Sheriff Dept. to police the Oak Orchard waterways.

Hopefully you can see your way clear to provide some coverage this summer and expand upon the program this fall when preparing your 1973 budget. As you know this program can be run in conjunction with the State of New York Division of Marine and Recreational Vehicles and will provide Orleans County with 50% of all costs including your boat, equipment and personnel.

Speaking for all boat owners at Oak Orchard we appreciate your cooperation in this matter and if I or any member of our club can be of any assistance please don't hesitate to call upon us.

Very truly yours,
JOHN M. SAWYER, JR.

Mr. Sanford L. Church
Orleans County Attorney
3 East Bank Street
Albion, New York 14411

Gentlemen:

This is to inform you that the Board of Health of Genesee County has discussed on several occasions in the past, including at joint Boards of Health meetings, and intends now to discuss and propose to cancel its participation in all contractual services to Orleans County Board of Health of shared personnel as of December 31, 1972.

It is our feeling that the association of the two counties has been mutually beneficial. The expansion of the departments in the past three years, however, forces this Board to consider and propose this action.

The continued loading upon local departments of mandated programs by New York State Department of Health on the already heavy load of normal and necessary public health programs has been assessed by our Board to be an impossible task for our shared personnel to do the proper and adequate job demanded of them by law and by this Board of Health.

The next regular meeting of the Genesee County Board of Health is July 11, 1972 at which time the matter will be finalized for presentation to the Board of Legislators of Genesee County.

Truly yours,

RAYMOND L. WARN, M.D.
President
Genesee County Board of Health

Supervisor Swiercznski said that after reading some newspaper articles and in view of some questions of missing records in the Sheriff's Dept. he would move the following motion.

It was moved by Supervisor Swiercznski and seconded by Supervisor DePalma that his Board request an investigation by the Grand Jury of the Orleans County Sheriff's Department in regard to missing records as in a statement from newspaper by member of that department; investigation would be impartial and give people of Orleans County a thorough picture of what happened to the records.

Discussion followed: Supervisor Roberts said "this sounds political to me."

Supervisor DePalma said "when you start hearing records are missing the taxpayers have a right to know what happened."

Supervisor Roberts said "the records of the Sheriff's Department were just audited by the Department of Audit and Control and nothing was found out of order."

The following supporting cropland conditions will support the board's and advisor's decision.

Severe loss of cash, muckland vegetable, forage, and fruit crops were severely damaged and lost by super-saturated soil, caused by excessive rain during the period of June 20th and June 30th. Rainfall during the period averaged six inches within the county. After a two-week delay to assess the damage to planted crops the following assessment was determined by the board:

To Whom It May Concern:

During the period of July 5-13, in cooperation with the Directors of the Genesee-Orleans Growers Cooperative, I Surveyed the muckland farmers in the Genesee-Orleans area. The purpose of the survey was to determine the extent of the damage to the muck crops resulting from excessive rainfall of recent weeks.

The growers' replies to this survey are summarized on the attached sheets according to the county in which the muck is located and according to the county in which the operator resides.

The total acreage reported represents about 85% of the muckland in the area. The onion acreage reported represents about 85% of the muckland in the area. The onion acreage reported represents nearly 100% of the actual acreage. The shortage is largely in unreported potato, sod, and idle acres.

According to this information provided by growers, 40% of the onion acreage was lost or very seriously damaged. It is very difficult to place a monetary figure on this loss, but some users of this report require a dollar loss figure. A conservative estimate of the loss to the economy of Genesee and Orleans Counties, as a result of the excessive rainfall this summer, would be approximately \$2,225,000.

Board of Supervisors of Orleans County
Court House
Albion, New York 14411

Attention: Mrs. Uldine D. Jurhs, Clerk

Gentlemen:

We have investigated the feasibility of providing "911" Service for the County of Orleans in accordance with your letter of December 3, 1971.

We have examined all Telephone company Central Offices in Orleans County and have determined that the Emergency Telephone number "911" could be provided.

The necessary modifications required at all Central Offices to provide the "911" System carries an 18 month interval from receipt of a firm order.

We have made no attempt to contact County Departments or individuals to determine the type or quantity of necessary equipment or to determine the location of the Emergency Center. Because of this, costs are not available at this time.

Knowing that "911" is feasible for Orleans County, we ask your guidance as to whether we should proceed with a depth study to determine equipment, location and costs. Should you desire to pursue the study of "911", please inform us of the individuals who will be assigned to coordinate this project with us.

If further assistance or information is needed, please call me collect at 716-857-7302.

Very truly yours,
E. Fredericks

Adopted. 300 ayes; 0 nays; 1 abstention; 0 absent.

Before the adoption of the above resolution, Supervisor Kubatek made the following statement: "I would like to ask this Board to think what we are doing. We have taken an oath. As a member of this Board I strongly object and cannot visualize that there is not some indignation in the rest of you over the fact that we as a county board have not been called together to review and discuss the various applicants on such an important position. I understand that several people have either written to or called the highway committee and expressed an interest in the job, but that because the board has not met as a whole to consider all these applicants I do not feel that a sound judgement can be made. We have obligations to our respective parties, but I have to raise an objection anyway. I'm aware of the fact that many of you as I have, received many phone calls from people in regards to who should get the

job. I'm also aware of the fact that plans were made and some manipulating done to try and make some of us look like fools."

Supervisor Reed replied "We did talk with at least one candidate previous to this but it fell through and it seems as if objections like this almost always come from the west end of the county and I think the other members of the board would agree".

Supervisor DePalma said "I understand no formal applications were received by the Board".

Supervisor Kubatek requested he be excused from voting. Granted by the Chairman.

Supervisor Reed, Chairman of the Social Services Committee, presented the following report:

September 7, 1972

FACTS ABOUT ORLEANS COUNTY
INFIRMARY EXPANSION PROJECT

Presently, there are two levels of care at the Infirmary - Nursing Home and Health Related.

The proposal would slightly expand the present levels of care (24 additional nursing home and 23 additional HRF) and add a third, less expensive level of care, as well as services for home-bound aged people (day care and/or meals-on-wheels, etc.) to help them maintain their independence.

There are approximately 50 people on the waiting list. These people are presently in Albion Extended Care Facility, Medina Extended Care Facility, Rochester State Hospital, nursing homes out of the County or in relatives' homes. The cost of just the 26 people we have in the two ECF's is \$35 a day each. Thus, the cost of just these 26 is:

\$ 910 per day
6,370 per month
27,300 per month
332,150 per year

The cost of care for the same 26 patients would be less than half at the Infirmary.

The addition to the lower levels of care will allow us to move patients to the lowest proper level that provide only the care they need at a lower cost. The proposal is to add:

26 nursing home
23 health related
60 boarding home

109 Total

The addition would bring the total to:

60 Boarding Home
60 Health Related Facility

120 Nursing Home

240 Total

These additional beds will not only allow us to take care of our own (Medicaid) patients but also some who are able to pay their own way as the area senior citizens have requested.

An architect is needed to give us an idea of building cost. Approximate costs of care can be figured after general layouts are devised.

The actual building cost should not exceed \$2,000,000.

RESOLUTION NO. 145

By Supervisor Reed, who moved the adoption.

Seconded by Supervisor DePalma.

RESOLUTION AUTHORIZING FEASIBILITY STUDY
FOR ADDITION TO COUNTY HOME AND INFIRMARY

WHEREAS, it appears that there are approximately fifty patients, being county charges, now being cared for in the extended care facilities of various private institutions within the County, at a cost in excess of \$330,000.00 per year, and

WHEREAS, the boarding home facilities available within the County of Orleans either private or public are apparently limited, and

WHEREAS, the facilities of the Orleans County Home and Infirmary are presently operated to a total capacity, and

WHEREAS, it appears that additional nursing home beds, health related beds and boarding home beds are needed in the County of Orleans and the construction of the same and the operation thereof by the County of Orleans would, in all respects be of final benefit to the taxpayers of the County of Orleans, and

WHEREAS, before a final decision can be reached in regard to the construction of such a facility by the County of Orleans a study of the probable cost of construction and operating costs of such facility must be made,

NOW, THEREFORE BE IT RESOLVED, that the Social Services Committee of this Board be authorized to interview and retain an Architect or firm of Architects to investigate and conduct a feasibility study into the feasibility of the County constructing and operating additional nursing home, health related and boarding home beds as an addition to the present County Home and Infirmary.

WHEREAS, no provision was made by the said United States

Government or the government of the State of New York increasing the income eligibility limits for persons eligible for medicaid and/or food stamps, and

WHEREAS, it appearing that in many cases the additional 20% increase in Social Security payments would in fact deprive the recipients thereof in many cases of certain benefits which would result in a net loss to such beneficiaries in that they would no longer be eligible for such medicaid benefits and/or food stamps,

BE IT RESOLVED, that this Board of Supervisors express to the various government officials involved its opposition to the net effect of this increase and urge that such legislation necessary be enacted to raise the maximum income eligibility limits so that eligible beneficiaries of the Social Security program who receive the 20% increase will not be deprived of their medicaid and/or food stamp benefits, and be it

Supervisor Kemp stated that he felt Orleans County residents were being discriminated against under the Disaster act regarding clearing ditches on the muck land. Chairman Batchellor said he would check on the qualifications required to receive aid for that purpose.

Mr. Nenni said that in 1974 and 1975 some of the categories of social services such as aid to disabled, old age and the blind would be taken over by the Federal Government under Social Security, resulting in a saving to the County. It has not yet been determined how many staff will be transferred to this program.

Orleans County Board of Supervisors
Court House Square
Albion, New York 14411

Gentlemen:

Pursuant to your instructions in regard to the request of Thomas Calandra, Esq., for an investigation of the Orleans County Sheriff's Office and the Orleans County District Attorney's Office, which request was made at the last Board meeting, held on November 30, 1972, Mr. Batchellor has made inquiries as to the proper procedure for such an investigation.

After consultation with representatives of the New York State Office for Local Government and the New York State Attorney General's Office we offer the following information:

- 1) The County does have some investigatory powers under the provisions of the County Law. However, since the offices of Sheriff and District Attorney are constitutional offices, the County would have no direct means of taking any disciplinary action if an investigation indicated the same was necessary.
- 2) Article 13 Section 13 of the New York State Constitution provides that the Governor has the disciplinary power of removal over the officers involved.
- 3) Mr. Fischer, the New York State "super cop", we are informed by the Attorney General's Office, is concerned with organized crime unless otherwise directed.
- 4) In an instance involving alleged misfeasance or malfeasance in a constitutional office, the complainant, in this case either Mr. Calandra or Mr. Wagner, should make a complaint in writing, sworn to or verified, setting forth the matters complained of, and direct the same to the Governor.

Yours very truly
Sanford L. Church
Orleans County Attorney

RESOLUTION NO. 220

WHEREAS, following consultation with the Office of Local Government and the Office of the Attorney General of the State of New York, it has been determined that the proper procedure for such an investigation is for the complainant to submit a written complaint, sworn to, to the Governor of the State of New York requesting the Governor to investigate the said offices and to take such action as may be appropriate under Article 13 Section 13 of the Constitution of the State of New York, now therefore be it

RESOLVED, that this Board inform Mr. Thomas Calandra of the results of this Board's investigation and recommend to Mr. Calandra that he or his client file a written complaint sworn to as above outlined, to the Governor of the State of New York requesting such relief as is appropriate under Article 13 Section 13 of the Constitution of the State of New York.

The below rules shall apply to all county employees. Provided, however that, in the case of any rule contrary to or in conflict with the provisions of any contract between the County and a recognized bargaining unit, as to the employees covered by such contract the provisions of such contract shall govern.

County offices shall be open for the conduct of business and convenience of the public in strict accordance with the hours prescribed by the Board of Supervisors.

Employees of the County of Orleans do not punch a time clock but punctuality is important for the smooth and efficient operation of County Departments the same as any other business. Accordingly employees are expected to be on hand and ready for work at the appointed time. They are likewise expected to stay on the job until 5:00 p.m. or whenever their work day is finished. Promptness and a full day's work are a good indication of interest in your job.

Employment of any person by the County of Orleans shall be subject to the Civil Service Rules as adopted by the Board of Supervisors and approved by the New York State Civil Service Commission on April 22, 1961. Pay periods shall be based upon the regular working hours of that department.

LEAVE OF ABSENCE

All applications for a leave of absence by any employee paid from County funds shall be made to the Board of Supervisors, which Board shall determine whether or not same shall be granted, and if granted, shall fix and prescribe the terms and conditions thereof, taking into consideration Rule XIX of the County Civil Service Rules.

EDUCATION LEAVE OF ABSENCE

After one year of continuous employment by the County, an employee shall be granted a leave of absence for a period of up to two years in order to attend an accredited school full time, provided that the courses to be taken are of mutual benefit to the employee and employer. Provided, however, any employee may have education leave to attend a course of study of six weeks or less duration which course shall be of mutual benefit to the employee and employer. Provided further that any employee who has a contractual obligation to return to work for employer following completion of such courses for which education leave is granted shall be not required to have continuous employment of one year.

During such leave of absence, no compensation shall be paid to the employee, excepting only to the extent that any such compensation is reimbursed to the employer from some other source.

ABSENCE FOR JURY DUTY

Employees who are drawn for jury duty shall be paid the difference between the compensation received for such jury duty, excluding travel

pay received in connection therewith, and their regular rate of compensation.

VACATION ELIGIBILITY

(a) All regular full-time employees who have been continuously employed by the County shall be entitled to vacations with pay earned on an annual basis determined from anniversary date in accordance with the following schedule:

YEARS OF EMPLOYMENT	WORK DAYS VACATION

After 4 years	11 days
After 5 years	12 days
After 6 years	13 days
After 7 years	14 days
After 8 thru 13 years	15 days
After 13 thru 20 years	20 days
After 20 years	25 days

Provided however, that each employee may take (5) days of his first years vacation eligibility after his first six (6) months of employment.

(b) Vacations earned during one (1) anniversary year shall not become the property of the employee and shall not be taken or paid for until the commencement of the next anniversary year and must be taken during that said anniversary year, excepting however, that any employee entitled to five (5) days vacation after his first six months of employment as above set forth. Upon the death or termination, all of the employee's vacation time earned during the previous anniversary year, but not yet taken by the employee or paid by the employer, shall be paid to the employee or his estate.

(c) Vacations shall be taken by the employee and paid by the employer on the basis of his applicable work day, week and salary or hourly rate at the time he takes his vacation or is paid for it.

(d) As far as possible, vacations shall be granted to employees at the time most desirable to them, but the final right to determine the time of vacation for any employee is expressly reserved to the Employer in order to insure orderly operation of its business.

(e) Vacation pay shall be paid to the employee at the commencement of his vacation.

(f) Vacation eligibility shall continue to be earned on a pro rata basis for the first 20 work days an employee is on unpaid leave during any calendar year. No eligibility shall be earned by an employee on unpaid leave in excess of 20 days in any calendar year. An employee earning such eligibility shall be entitled to such vacation only if he returns to work upon the termination of his leave for a period of not less than 20 work days.

RETIREMENT

The County shall continue the present coverage of Employees under the 1/60 New York State Retirement Plan, retroactive to 1938, except as amended, enlarged and modified by Section 75-i of the Retirement and Social Security Law of the State of New York together with the benefits of Sub-division k of Section 41, Sub-division g of Section 43,

Such leave may be taken only in the event of sickness, which shall be defined as illness, bodily injury, or quarantine. A physician's certificate shall be required after five (5) days of sickness and in the case of protracted sickness such a certificate must be presented at the end of each calendar month of absence, following the calendar month in which the employee starts his sick leave. The time limit required for physician's certificates as hereinabove set forth shall not apply if there is some non-medical reason beyond the employee's control why the employee cannot get a certificate on time.

(b) When an employee's accumulated sick leave has been exhausted due to illness, employer may upon request by employee and with approval of the Board of Supervisors, grant extended sick pay at the rate of one-half the sick leave provided in the first paragraph herein, for periods of 30 days. 14 COMPUTING FULL VALUATION

For Towns, full valuation of taxable real property is determined by use of values of taxable real property as assessed in 1971 and used for levying taxes for 1972 and the State Equalization Rate based upon such values. For Villages, full valuation is computed by application of the last State Equalization Rate established, prior to the time in the current year that apportionment is made, to the then current assessment roll.

15 PAYMENTS BY PARTICIPANTS

The amount due from each participating town in the self-insurance plan shall be included in the next succeeding tax levy against property taxable by the participant responsible therefor and, when collected, such amount shall be paid over to the County Treasurer not later than February 1, 1973.

The amount due from each participating village, as its share of the annual estimate of expenses of the plan for the fiscal year beginning January 1, 1973, shall be paid the County Treasurer within thirty days after June 1, 1973, the commencement date of such participant's fiscal year.

The county's share of estimated expenses based upon the aggregate of full valuation of all towns as outlined above shall be payable not later than February 1, 1973.

All such assessments received by the County Treasurer shall be credited to the Orleans County Self-Insurance Fund.

REPORT FOR THE ORLEANS COUNTY

DEPARTMENT OF HISTORY

January 1, 1972 – December 31, 1972

1972 found the Department of History relocated in the basement of the Court House after a year's temporary location in the former McNall Funeral Home on Main Street. Although the historian is usually in his office afternoons, there are many invitations to speak at evening meetings within and outside the county. County history was discussed before a church group in Holley, a Welcome Wagon group of newcomers to the area at the cobblestone museum, Kendall High School, inmates of the County Infirmary, Daughters of American Colonists, a busload of sixth-grade children from Medina and a busload of 4-H Club members from Calumet, Wisconsin. In addition, talks have been given on the canal, history of local fire departments, history of Swan Library and talks illustrated with slides on cobblestone architecture, the church and school museums, have been given before the Holland Land Purchase Society of Genesee County, Leroy Historical Society, Pekin M.E. Church group in Niagara County and Christ Church group in Albion.

The historian has conducted tours of the museum for Boy Scout groups as well as Senior Citizen groups from Wayne, Monroe and Niagara counties. Each year proceeds from a house tour conducted by the Cobblestone Society helps to maintain the church and school museums. As an active board member, the historian set up the 1972 tour which was attended by around 600. Research of cobblestone buildings in Wyoming, Livingston and Seneca counties was also done by the historian for material to be used in a book on cobblestone architecture which is being sponsored by the N.Y.S. Council on the Arts through a grant to the Cobblestone Society. Every cobblestone house in this county was also photographed for use in a museum exhibit which provides an historical record of these unique buildings.

As a result of a request from the Central N.Y. Genealogical Society, the historian spent a day at Parma, Monroe County, where he arranged an exhibit of Orleans County genealogical materials, history books, etc. Boy Scouts have been assisted with instruction for Merit Badges and students from Kendall, Holley, and Albion Schools have been helped in research at the office. Out-of-state genealogical inquires have been answered where possible. This department has also endeavored to record history through photographs of current happenings and each week contributes something "Out of the Past" to the local newspaper.

Meetings and workshops attended by the historian include the Congress of Historical Societies in Buffalo, County Officers in Lake Kiamisha, County Historians of N.Y.S. at Lake George, Bi-centennial Forum at RIT in Rochester, and a trip on the canal between Holley and Medina arranged by the Planning Board in conjunction with Brockport SUNY for the purpose of studying its environmental and ecological potential. Time was also given by this department to help judge historical exhibits at the Albion Grammar School.

1972 saw the Village of Medina celebrate its 140th birthday and two new banks, Liberty National and Merchants & Traders opened

branches there. Fisher-Price continued to expand and S.A. Cook opened a new furniture showroom on East Avenue. Fire destroyed the Rignel business and plans for downtown improvements were approved. Albion watched construction of its new high school and saw the last of the Birdseye property (experimental farm on County House Rd.) sold. The establishment of Liberty National's branch bank and the erection of its new building on the site of the former McNall Funeral Home brought back Saturday banking hours to the village. Next door to the bank, Bells expanded to include a Rite Aid department and across the street the last home in the neighborhood was razed to make way for a Carroll's lunch place. Eight new low-income apartment dwellings were constructed on Baker Road in Carlton just off Sawyer Road. Yates inhabitants viewed with mixed emotions the recommendation of a site in their town for a Nuclear Energy Power Plant. Shelby waged and won a battle for water. Apple growers picketed the processor in protest over prices. East Gaines Larger Parish (Baptist) built a new church on Ridge Road east of Childs and Shiloh Baptists rebuilt and enlarged their building at Zig Zag and Crandall Roads. Much new housing was being constructed in the county and as the year closed with the hope that the Vietnam war was near an end, it was revealed that twenty Orleans County men had given their lives in that conflict. The long-awaited reopening of the former Western Reformatory and State School at Albion became a reality as male prisoners began to arrive from other prisons. This is to be a minimum security prison for selected prisoners with a year or less of their sentences to be served. Here an attempt will be made to help them in rehabilitation and adjustment necessary to take their place once again in society.

Three new Town Supervisors took their places on the Board. Yates Supervisor Everett Johnson resigned to become County Superintendent of Highways and was replaced by George Bayne. Stanley Kubatek of Ridgeway defeated William Kennedy and in Clarendon James Campbell was defeated by Albert Kemp. For the first time since 1965 Orleans County had a native son elected to the State Legislature. William Knights Jr. of Knowlesville was elected Assemblyman to represent Orleans, Genesee Wyoming and western Monroe Counties.

Respectfully submitted,

ANNUAL REPORT

ORLEANS COUNTY PROBATION DEPARTMENT

January 1, 1972 - December 31, 1972

PURPOSE OF PROBATION

The objective of Probation, which is a division of the field of correctional care and a legal, social and personal service operating within the framework of a judicial setting, is to protect society, preserve the family, prevent delinquency and crime and rehabilitate the offender thru INTAKE, INVESTIGATION AND SUPERVISION.

INTAKE - Thru INTAKE (the "sifting" or "screening" process), where possible and practical, cases are adjusted by treatment without Court action. Otherwise, they are referred to Court. This process is used principally in the handling of children's cases, young offenders, marital problems, and offenses and crimes arising out of domestic difficulties.

Probation Officers, thru intake service, give advice and counsel to spouses, parents, school authorities, police and private citizens in an effort to adjust cases without Court action where such adjustment is in the best interest of all concerned. It is used to reunite families, to conciliate spouses, to assist in settling family quarrels and in many instances to obtain support for the children of broken homes.

EVALUATION: Only 18% of all cases handled at Intake and 26% of cases given Counseling ultimately required Court action. As a "sifting" process, therefore, I feel this service in Orleans County has been quite successful.

Pronouncements by public officials and the news media would cause you to believe that juveniles cause the majority of trouble; but in Orleans County, adults accounted for 68% (159 out of 235) of the cases.

INVESTIGATION: The investigation attempts to examine and evaluate the defendant's exact role in and his attitude before, during and after the crime; any past record; his social history from before birth, including the emotional and economic atmosphere of his home, his relationships with parents, brothers and sisters, his school adjustment, achievement in comparison to ability, relationship with teachers and fellow students, work and military experiences, habits and leisure time activities, religious contacts, etc. All this is to help the Judge have a factual picture and an emotional grasp of the human before him so that he can sentence in a manner best suited to the protection of society, the rehabilitation of the defendant and to deter others from committing crime.

The pre-sentence investigation is then used by Probation Departments, Correction Institutions, Child Welfare, or Mental Health Clinics as the keystone for planning social casework treatment with the individual. If, for instance, a person is placed on probation and transferred to another probation department, the investigation is sent to the receiving department so they can develop a comprehensive and intelligent plan in dealing with the defendant. If he then violates and is sent to an institution, the investigation accompanies him to the institution, so the institution can deal with him in a significant fashion including educational and vocational training. Then, when he is released on parole, the parole department uses the investigation in their planning for the defendant. Investigations done in 1972 were as follows:

SUPERVISION: Thru Supervision, the Probation Officer tries to induce a positive change in the habits, attitudes, values and/or social relationships of the probationer by guiding him and assisting him to draw upon his own resources and those of the community to achieve these ends.

The Method of supervision includes devising a plan of treatment tailored to each individual probationer based on review and evaluation of the pre-sentence investigation. Running records are kept on each probationer containing factual data as to the probationer's performance, as well as an evaluation of his behavior and attitudes, and in the process of recording each case in this fashion, the plan of treatment is continually being updated to meet changing circumstances and needs.

ANNUAL REPORT OF
ORLEANS COUNTY VETERANS SERVICE AGENCY

1972

The County of Orleans maintains this agency under the provisions of the New York State Statute to advise and assist veterans and their families with reference to any and all benefits to which these beneficiaries may be entitled. During 1972, this office had 5528 contacts from veterans and their dependents, ranging from the Spanish American War thru the Viet Nam Conflict. This represented a 5.6% increase over 1971. Attached you will please find a statistical summary of the services rendered by this agency.

The Veterans Administration reports that in the current federal fiscal year, veterans and their dependents residing in Orleans County will receive \$1,112,048 in pension and compensation benefits and \$382,640 in educational benefits.

During 1972, veterans from Orleans County were afforded 4939 days of hospital care at the Batavia Veterans Administration Hospital, 2637 days care at the Buffalo Veterans Administration Hospital and other Veterans Administration Hospitals and estimated 1250 days for a total of 8826. This compares with 8887 days care in 1971. This slight decline reflects the increased usage of Medicare and Medicaid benefits to which the non-service connected veteran is entitled. Nevertheless, the Veterans Administration afforded \$547,212 worth of hospital bed care during calendar 1972.

The Veterans Administration estimates that there is a total of 4981 living veterans residing in this county. During 1972, 55 veterans died.

During 1972, there were numerous pieces of legislation enacted into law affecting veterans benefits. Compensation benefits were increased by 10%, education benefits were increased an average of 22% and pension benefits were increased 6%.

This agency expresses its appreciation to the Board of Supervisors, other county departments and agencies, to the Department Service Officers of the American Legion and Veterans of Foreign Wars and to the Directors and staffs of the Buffalo Regional Office of the Veterans Administration, the Batavia, Buffalo, Bath and Canandaigua Veterans Administration Hospitals for the services rendered in behalf of veterans and their dependents who reside in Orleans County.

Respectively submitted,

WILLIAM H. MURRAY,
Director

31 January 1973

TO: Board of Supervisors, County of Orleans

FROM: Office of Natural Disaster and Civil Defense

SUBJECT: Annual Report for Orleans County Office of Natural Disaster and Civil Defense for period of 1 January 1972 to 31 December 1972

Gentlemen:

I hereby submit the Annual Report for Orleans County Office of Natural Disaster and Civil Defense for 1 January 1972 to 31 December 1972.

During the past year, we continued to place greater emphasis on means of saving the county money. The Surplus Property Program was widely expanded, the Matching Funds Program was utilized, and applications were submitted to the Excess Property Program. A continued effort was made to be prepared for emergencies that might arise in our schools, hospitals, and factories.

We have begun or completed the following:

1. Twice a month representatives from various county agencies visit our surplus property warehouse in Canandaigua. This year we purchased items valued at \$15,367.87 for a cost of \$1,079.95. This represents a saving of \$14,287.92.

The following agencies have taken advantage of this program:

- | | |
|---------------------------|----------------------------|
| 1. Orleans County Highway | 11. Medina Police Dept. |
| 2. Kendall Highway - T | 12. Albion Police Dept. |
| 3. Shelby Highway - T | 13. Hulberton Fire Dept. |
| 4. Gaines Highway - T | 14. Albion Fire Dept. |
| 5. Albion Highway - T | 15. East Shelby Fire Dept. |
| 6. Carlton Highway - T | 16. Kendall Fire Dept. |
| 7. Barre Highway - T | 17. Village of Albion |
| 8. Clarendon Fire Dept. | 18. Shelby Fire Dept. |
| 9. County Infirmary | 19. Carlton Fire Dept. |
| 10. Sheriff's Dept. | 20. Medina Fire Dept. |

2. Have met with several organizations to discuss the operations of the Natural Disaster and Civil Defense organization. Several individuals and small groups have toured the Center during the past months.

3. Attended several county school shelter drills where I observed students taking cover in case of nuclear attack. Although Orleans County has a "Go Home Plan" for all schools it may not be feasible to put this plan into effect at the time of attack. Therefore, an alternate plan must be prepared.

4. A Medical Emergency Training Course was held in the spring of

1972 at the Albion Recreation Hall. Sixty County residents completed the course. Some of these are members of ambulance crews and others volunteer their free time in the emergency room at the Arnold Gregory Hospital. This course did not require any funds from the County.

5. A training exercise was held for the Auxiliary Police and CD Radio Club members.

6. First Aid class was held for the Auxiliary Police with Robert Woodworth as instructor.

7. All service annexes were updated in conjunction with representatives from Cornell University who conducted a Planning & Operations Course.

8. Engaged Mr. Robert Willigens to exchange radiological kits in shelters at Federal and State expense.

9. Printing was completed on the Community Shelter Plan and same was distributed throughout the County.

10. The weekly Fire Radio, Amateur, and School monitor tests have been conducted from the EOC. Donald Pritchard, Chief of Communications in Civil Defense and his staff deserve credit and thanks for this work.

11. Attended monthly Western District meetings. These meetings keep us informed and up-to-date in regard to Civil Defense programs.

12. Our Fire Training Grounds were approved by the Board of Supervisors. This facility will have a smoke house, a pole tower, simulated tanker fire, and a cross pit and a christmas tree. Hopefully, this will be completed by summer.

13. Began work on a "Call Director". This will be installed in the dispatch room at the jail and will be connected area fire halls. This system will simplify locating fires. At present, seven companies have signed to use this system. Now when a fire call is received a light denoting the particular fire protection area will come on. This will especially aid where Townline and Countyline road are concerned.

14. The County Fire Service held three (3) training courses this year. These were sponsored by the State Office for Local Government.

15. I spoke at several different functions for firemen and reviewed a number of movies.

16. The County Fire Service also made a training movie of the Fire Service equipment and our tank truck operation.

17. Our SCUBA team was used on two (2) occasions. They completed another course which will bring the membership up to approximately 20.

18. The Auxiliary Police have served approximately 4 800 hours during the past year. They have served at parades, carnivals, County political functions, the County Fair, and assisted the Sheriff's Dept. on patrol and in the dispatch room.

19. A program has been started in conjunction with the hospitals and area doctors. Once a month a class is held for the residents who have an Advanced First Aid Card or MET Card. These classes were established to update training and also promote relations between hospitals and volunteer rescue workers.

20. The following items were purchased through this office:

1. Four (4) monitors for Fire Stations
2. Shirts and raincoats for Auxiliary Police
3. Tape demagnetizer for the dispatch room at jail, (this erases the tapes so they can be reused)
4. Equipment for the SCUBA team.

21. A monthly newsletter is sent to Fire Depts. and Emergency Squads.

22. We received 10-2½ ton trucks through the Excess Property Program. The following were recipients of same:

- | | |
|---------------------------|-------------------------------|
| 1. Albion Fire Dept. | 6. Shelby Fire Dept. |
| 2. Village of Albion | 7. Orleans County Highway (2) |
| 3. Gaines Highway | 8. Holley Fire Dept. |
| 4. Town of Albion Highway | 9. Village of Medina |
| 5. Kendall Highway Dept. | |

23. The following is the number of calls the Fire Service in Orleans County responded to:

DEPT.	FIRE CALLS	FALSE ALARMS	EMERGENCY AMBULANCE
Albion Fire Dept.	75	14	57
Barre Fire Dept.	26	10	11

Respectfully submitted,
 DAVID M. GREEN, Director
 Orleans County Office of

The Organization Meeting of the Orleans County Board of Supervisors was held in the Supervisors' Room in the County Court House, Albion, New York on Thursday, January 4, 1973.

The meeting was called to order at 10:30 a.m. by the Clerk, Uldine D. Jurhs. Supervisors representing their respective towns responded to roll call by the Clerk, as follows:

Maynard Reed	Albion	(65)
George L. Batchellor	Barre	(21)
Clayton Plummer	Carlton	(25)
Albert H. Kemp	Clarendon	(20)
Theodore Swiercznski	Gaines	(24)
Michael Paduchak	Kendall	(22)
Thomas DePalma	Murray	(46)
Stanley R. Kubatek	Ridgeway	(72)
Orren J. Roberts	Shelby	(54)
George W. Bane	Yates	(23)

The Clerk announced that the first order of business was the election of a Temporary Chairman and called for nominations.

Supervisor Swiercznski moved that Supervisor Roberts be nominated as Temporary Chairman of the Board, Supervisor Roberts declined the nomination.

Supervisor Reed moved that Supervisor Paduchak be nominated as Temporary Chairman of the Board, seconded by Supervisor Roberts, Supervisor Batchellor moved that nominations be closed, Supervisor Paduchak was unanimously elected Temporary Chairman.

Supervisor Paduchak was presented the gavel by the Clerk and he thanked the Board for the honor of being Temporary Chairman for 1973. The Temporary Chairman declared a recess at 10:32 a.m., reconvened at 10:35 a.m.

Supervisor Paduchak called for nominations for Permanent Chairman of the Board for the year 1973. Supervisor Reed nominated Supervisor Batchellor to serve as Permanent Chairman for 1973; Supervisor Plummer nominated Supervisor Roberts as Permanent Chairman; Supervisor Swiercznski nominated Supervisor DePalma as Permanent Chairman.

Supervisor Bane moved that nominations be closed, seconded by Supervisor Reed, and carried.

On roll call vote Supervisor Roberts received 144 votes; Supervisor DePalma 142 votes; Supervisor Batchellor 86 votes. Temporary Chairman Paduchak announced that a majority of 187 votes was needed to elect a Chairman and no candidate receiving the necessary number of votes the Temporary Chairman declared a recess at 10:40 a.m. Reconvened at 10:50 a.m.

On the second ballot the vote was as follows:

Supervisor Roberts 144 votes
Supervisor DePalma 142 votes
Supervisor Batchellor 86 votes

Temporary Chairman declared a recess at 10:55 a.m., reconvened at 11:05 a.m.

On the 3rd ballot the vote remained the same. Temporary Chairman declared a recess at 11:07 a.m., reconvened at 11:25 a.m.

On the 4th ballot the vote remained the same. Chairman Paduchak said that it appeared no Chairman could be elected at present and since Supervisor Plummer had to leave to attend a funeral, he would adjourn the meeting until Tuesday, January 9, 1973. Adjourned at 11:30 a.m.

ADJOURNED ORGANIZATION MEETING

Tuesday, January 9, 1973

The meeting was called to order by the Temporary Chairman, Supervisor Paduchak, at 10:40 a.m. The Clerk called the roll and all Supervisors were found present.

Temporary Chairman Paduchak announced that a 5th ballot would be taken on the candidates formerly nominated. The vote resulted in 144 votes for Supervisor Roberts, 142 votes for Supervisor DePalma and 86 votes for Supervisor Batchellor.

No candidate receiving a majority the Temporary Chairman declared a recess at 10:45 a.m. Reconvened at 11:00 a.m.

Supervisor DePalma said that in order to expedite the business of the Board, on this occasion I wish to express my thanks for the vote of confidence expressed by some of my colleagues and at this time I wish to withdraw my name from consideration as Chairman of the Board for 1973.

Supervisor Roberts requested a recess of the Board at 11:00 a.m., reconvened at 11:05 a.m.

The Clerk began calling the roll and after several Supervisors had been polled - Supervisor Roberts said I wish to withdraw my name from consideration as it is obvious what the results of this vote will be and make the vote unanimous for Supervisor Batchellor for Chairman for 1973. Temporary Chairman Paduchak declared Supervisor Batchellor Permanent Chairman for the year 1973 and appointed Supervisors Roberts and Reed to escort the Chairman to the Chair.

Chairman Batchellor thanked the members for again selecting him Chairman of the Board and said I will do my best for the ensuing year.

It was moved by Supervisor Reed and seconded by Supervisor Roberts that Mrs. Uldine D. Jurhs be appointed Clerk of the Board for the year 1973 to succeed herself at the salary as set in the 1973 salary schedule, Chairman Batchellor asked if there were any other nominations for Clerk, there being none the vote was carried unanimously.

The Chairman declared a short recess so that the Chairman and Clerk could take their oath of office.

Reconvened at 11:15 a.m.

Chairman Batchellor announced that the next order of business was the adoption of rules of procedure for 1973. Supervisor Kubatek suggested that he would like the rules to include an agenda for Board meetings and that a copy of the minutes of previous meetings be sent to Board members before the next ensuing meeting.

Supervisor Swiercznski said if you have an agenda you will have to have resolutions ready before the Board meeting.

Supervisor Reed stated that the Board has been able to go on the way we have for many years and it has worked very well.

Supervisor Paduchak said the Chairman has been very fair in notifying members of the Board when anything controversial is expected to come up.

Supervisor DePalma said I think we should give more thought to this matter and suggest we table it. Chairman Batchellor suggested we adopt the rules of procedure from 1972 and consider amending them later to comply with Supervisor Kubatek's suggestions.

It was moved by Supervisor DePalma and seconded by Supervisor Bane that the Rules of Procedure, as adopted by the Board for the year 1972, be adopted by the Board for the year 1973.

Unanimously adopted.

MEMORIAL RESOLUTION TO HONORABLE WILLIAM C. KNIGHTS, JR., MEMBER OF ASSEMBLY OF THE STATE OF NEW YORK.

"WHEREAS, the Honorable William C. Knights, Jr., born January 24, 1917 at Knowlesville in the Town of Ridgeway in this County of Orleans, New York, died unexpectedly February 5, 1973 at the age of 56 years from extensive injuries suffered in an automobile accident on January 28 of this year; and

"WHEREAS, Assemblyman Knights has been a lifelong resident of the County of Orleans, actively engaged in his beloved occupation of farming, in addition to conducting a successful real estate, auctioneering, and farm implement business; and

"WHEREAS, in addition to these time consuming businesses, he still found time to devote to the public service beginning with his election in 1955 as a councilman of the Town of Ridgeway, followed by his election as Supervisor of the Town of Ridgeway in which capacity he also served four years on this Board of Supervisors, at all times holding the positions with dignity and honor and always contributing to the operation of good government in both the Town and County; and

"WHEREAS, in the summer of 1972, he chose to seek the nomination of his party for the office of Member of Assembly of the State of New York to represent the 137th Assembly District consisting of the Counties of Orleans, Genesee, Wyoming and the Town of Hamlin, Monroe County, and after waging a most intensive and comprehensive primary campaign, he became the nominee of his party and went on to be elected Assemblyman for the 137th District in the general election on November 7, 1972; and

"WHEREAS, he commenced his service in the office on January 3, 1973 and immediately made a firm impression upon his fellow members of both houses of the State Legislature and the top officials of New York State as a man who was in Albany to do an outstanding job of service to the state government and for his constituents of the 137th District; and

"WHEREAS, it is with much sorrow and regret that the occasion of his untimely death must now be noted, not only as a loss to the members of the public whom he had been able to serve in the State Assembly for such a short time, but particularly as a great personal loss to his beloved wife Mary, his children, grandchildren, mother and other members of his family; now, therefore, be it

"RESOLVED, that this Board of Supervisors does note with deepest regret the sudden death of Honorable William C. Knights, Jr. and does express its sincere sympathy to the members of his family in this time of their bereavement; and be it

"FURTHER RESOLVED, that this memorial resolution be spread upon the minutes of the proceedings of this Board and that a certified copy thereof be forwarded to Mrs. Knights."

Mr. Arnold Basinait, Director

Orleans County
Court House Square
Albion, New York 14411

Dear Mr. Basinait:

This is in reply to your January 9, 1973 letter to Mr. Robert Kitchen of this agency.

There is no foundation to the rumors suggesting smaller New York State Counties might not have to comply with the Assessment Improvement Legislation, as detailed in article 15-A of the Real Property Tax Law. I direct your attention specifically to sections 1534, 1540, and 1542 of that article.

If available, I would appreciate your sending to me copies of any clippings of articles you have seen in the paper recently suggesting the possibility of exemption of smaller counties from the state mandate.

If I can be of further service, please feel free to contact me.

Very truly yours,
William E. Underwood

The following letter was read and ordered filed.

15 February 1973

Honorable James L. Buckley
United States Senate
Washington, D. C.

Dear Senator Buckley:

This is in reply to your letter regarding a letter you received from Mr. George Batchellor, Albion, New York, which concerned an extension of the Emergency loan program, one of the many loan programs administered by the Farmers Home Administration.

We have recently surveyed most of the Farmers Home Administration offices where Emergency loans were previously authorized. We found that there were many farmers who planned to submit an application for an Emergency loan but had not done so on or before the cutoff date established for taking applications. In most of these cases, FHA Offices had supplied blank applications to the farmers. We have not as yet determined how this type of problem may be solved.

The County Supervisors in our Farmers Home Administration Offices realize the plight of many farmers and are assisting family-sized farmers through Operating loans or with Farm Ownership loans. These loans which carry interest rates of 5½ percent and 5 percent, respectively, have no forgiveness provisions and are scheduled for repayment within the borrower's ability to repay. The Operating loans are made for the same purposes for which Emergency loans could be made.

There is currently pending legislation which would eliminate the forgiveness feature, establish a need for credit, and maintain a reasonable interest rate. This would make it possible to restore the Emergency loan authorities which would provide a source of credit to those who are unable to remain in business otherwise.

We assure you that we intend to do everything possible to alleviate various critical emergency situations within the limits of fiscal prudence.

Sincerely,
DARREL A. DUNN
Associate Administrator

Chairman Batchellor announced the following proclamation.

PROCLAMATION

I, George L. Batchellor, Chairman of the Orleans County Board of Supervisors do hereby proclaim March 1-31, 1973, as Sudden Infant Death Syndrome Awareness Month in Orleans County. Sudden Infant Death Syndrome or "crib death" is the leading killer of children under two years of age. This known killer claims ten to fifteen thousand innocent victims per year.

Orleans County is taking part in an effort to call public attention to the need for funds for research into Sudden Infant Death Syndrome. Canisters and posters will be seen in local public places urging the public to make a donation or contact the address listed on the canisters and posters for research. All proceeds go to the National Foundation for Sudden Infant Death Syndrome, 1501 Broadway, New York, N. Y. 10036. This will aid in research projects being continued at Childrens Orthopedic Hospital and Medical Center, Seattle, Washington 98105.

We feel it is time we learn something about this dread disease. Scientists can put men on the moon but are unable to explain the death of a normal healthy baby when autopsy results are inconclusive.

We urge the residents of Orleans County to support this worthwhile project.

Dated at Albion, New York, this 27th day of February, 1973.

FURTHER RESOLVED, that one position of Grade A Supervisor be created in the Department of Social Services at a base salary of \$9,422.40, effective immediately.

Adopted. 372 ayes; 0 nays.

Supervisor Swiercznski said that according to the papers and a letter from the Orleans County CHPC, the committee has tabled our request for approval of enlarging the infirmary until after the opening of Orchard Manor Nursing Home in Medina. We would like to know why they turned it down when there is a waiting list in both the infirmary and Orchard Manor.

Supervisor Paduchak asked if we have to have the approval of the Planning Committee. The Chairman said we did, to get approval from Regional.

Supervisor Batchellor said Mrs. Waters refused to give the list of persons waiting to enter Orchard Manor to the committee so that a comparison could be made to see if there are any duplications on the lists.

Supervisor Reed said in this County you have 10 supervisors representing this County and the people who elected you and I think this is a slap in the face after we had a study made to see if we need to enlarge the infirmary.

Supervisor Swiercznski said the Unified Services Plan is on the Governor's desk and when that goes into effect we will need beds for mental health patients.

ADJOURNED REGULAR MEETING

Friday, May 4, 1973

The meeting was called to order at 10:10 a.m., by the Chairman. The Clerk called the roll and all Supervisors were found present.

Chairman Batchellor opened the meeting by saying, this meeting is a result of a letter from Mr. Leo Carey, Regional Health Planning Council, in which he stated that the "Staff recommendation on the proposed Orleans County Infirmary addition would be disapproval without prejudice." Mr. Leo Carey was granted the privilege of the floor. Mr. Carey stated that with the evidence as presented in the application we can not recommend that the addition is needed. If we submitted this to the State for approval, it would be disapproved on the information we now have available.

Dr. John Hill from Regional was granted the privilege of the floor. "We would like to approve this project - particularly the several levels of care which are part of the plan. But the State is hard about approving any applications these days, unless there is concrete medical evidence."

Supervisor Reed said we have 41 patients outside the County in nursing homes at a cost of \$264,000.00 to the taxpayers in this County.

Mr. Brueilly said the people we are talking about are medical patients but part of the problem is we are only looking at part of the need.

Mr. Harold Hill was granted the privilege of the floor. We are talking about nursing home beds but many need health related facilities - where are you going to put them? The State at the time we built the original infirmary was going to let us have 60 infirmary beds and 40 beds in the home section. At that time we had 105 people in nursing homes. We knew we needed more than 60 beds, finally approval for 90 beds and 28 county home section beds were approved. When we have 41 people in nursing homes waiting to get into the county infirmary and are paying an average of \$30.00 per day when we could take care of these people for about \$16.00 in the infirmary, this should have some bearing on the situation.

Mrs. Pearl Eddy was granted the privilege of the floor. Mrs. Eddy said "I represent the Senior Citizens of Western Orleans County and we have many times requested that senior citizens be able to go to the infirmary as paying patients when the need arises."

Mrs. Hassall, a member of the sub-committee of the County Health Planning Council, was granted the privilege of the floor. "We were told the State would require proof of need. We would have liked some figures from Mrs. Waters as to who was on the Orchard Manor waiting list but we were informed that these figures were not available and we understood there was a duplication of people on the waiting lists; therefore, we decided that we should defer a recommendation until Orchard Manor opens.

Dr. Walters, Director of the Orleans County Mental Health Clinic, said "I am very interested in this project in view of the Unified Services Act, which means the community would have to take on more responsibility for mentally disordered persons. We do have elderly people in this community and only some will be accepted at state hospitals. The rest will have to be cared for in the community. I feel there is a great need for more nursing home beds in Orleans County.

Dr. Hill and Mr. Carey discussed the type of medical evidence needed to be put in the application. Mr. Brueilly and Dr. Walters said they felt this information could be obtained.

Supervisor Kubatek said it would seem to me that you would be able to get the information from Orchard Manor as to who was on their list.

The County Attorney said Orchard Manor is saying we will not tell you anything — it seems somebody should be able to get the information.

Chairman Batchellor said one of the problems facing us today is that Regional has put this on their agenda for Tuesday. How can we get it off? Mr. Carey said this would be arranged.

If was suggested that a petition from the senior citizens in the County requesting the addition so that they could be admitted as paying patients would be a helpful thing to be included in the application. Mrs. Eddy said she would start on that immediately.

Supervisor Reed said the County would be able to take care of the financing of the addition.

Mrs. Nassar asked if the state includes in their survey on the number of beds both private and public - Dr. Hill said yes both are included.

Supervisor Paduchak said we have to answer to the people and the root of the problem is here, not in Albany - how can they know what our needs are?

Supervisor Reed said 75 percent of the taxpayers would be in accord with building the addition.

Recessed at 11:45 a.m., reconvened at 12:00.

Mr. Edward Stackwick was granted the privilege of the floor. Mr. Stackwick requested financial aid to enable him to hire additional young people to work in the Albion Recreation Program this summer to replace the people formerly paid by Neighborhood Youth Corps. It was decided that the Supervisors from the Albion area would meet with Mr. Stackwick to discuss this suggestion.

3. Holley Community — Mrs. Craddock — Holley
4. Lee-Whedon — William Feltz — Medina

We are now supplying services to the public on an improved and expanded basis. Our main objective is to continue expanding and improving these services. Our libraries are an integral part of today's Educational, Economic, Cultural, and Social scene.

Demands and costs are increasing faster than available funds. We are able to survive, but, we do not feel survival is sufficient.

The following uses are included in our request: ordinary and necessary maintenance, operating, and when authorized, capital expenditures, as determined by each board of public library trustees in Orleans County. The four libraries have different needs and varying degrees of importance associated with these needs.

Libraries are specifically listed as eligible beneficiaries of Federal Revenue Sharing in Federal Register (Vol. 38, No. 35, Part III, February 22, 1973); Section 51.31 entitled "Permissible Expenditures".

The amount requested is \$.50 per capita based on Bureau of Census, 1970, Orleans County Population of 37,305. This amounts to \$18,652.50.

The allocation of these monies is to be determined by the Orleans County Joint Library Trustees Committee based upon a schedule that is reflective of population densities served by each of the four county public libraries.

Respectfully,
William Feltz, Chairman

May 24, 1973

Supervisor Swiercznski said the Governor is expected to appoint the Wagering Board this week. Based on these figures Orleans County would receive about \$75-80,000 per year. To enable the County to become a member of the Corporation, a local law subject to permissive referendum would have to be adopted and approved. Supervisor Swiercznski suggested asking Mr. J. B. Walsh, Attorney for the Corporation, to appear at the next meeting of the Board.

Supervisor Kemp reported that "we ran into a little delay in selecting a firm to do our tax mapping because the firms which bid did not have the proper guidelines. We have requested McIntosh & McIntosh and Aero Service Corporation to re-submit their bids as per our specifications, including microfilming the County Clerk's records."

Mr. Perdew from Aero Service Corporation was granted the privilege of the floor. Mr. Perdew explained and showed a sample of a final tax map, he also explained the difference between Orthophoto and Planimetric tax mapping. The bid from Aero Service Corporation for preparation of tax maps for Orleans County was \$185,120 or \$11.57 per parcel for Orthophoto and \$187,360 or \$11.71 per parcel for pencil line drawn planimetric manuscripts. Mr. Perdew said that Orthophoto would be feasible in a rural county such as Orleans.

Mr. Cleveland Mott representing McIntosh & McIntosh was granted the privilege of the floor. Mr. Mott described how his firm would do both types of mapping. Mr. Mott said that Orthophotography would be of value where there were many buildings. McIntosh & McIntosh quoted the following price: Planimetric base mapping \$170,800; Orthophotography \$179,900. Both firms included the price of microfilming in their bid.

Both bids were referred to the Tax Map Committee for recommendation at the July 18th meeting.

Privilege of the floor was granted to Mr. John Walsh, Legislative Counsel for the City of Buffalo, representing the Western Alliance Off-Track Betting Corporation. Mr. Walsh brought the Board up to date on the status of off-track betting in Western New York. He advised that Orleans County should either adopt a resolution to join the Corporation by July 24th or wait until the corporation is in operation. Mr. Walsh explained that the by-laws are still being formulated. Referred to the Off-Track Betting Committee for recommendation at the July 18th meeting.

The Clerk read a letter from Mr. James Hancock dated June 22, 1973, requesting funds for a summer youth work program. Mr. Hancock explained that if the County gave funds to such a project the jobs would be allotted to all the towns on a basis of population.

Mr. Leo Carey was granted the privilege of the floor. Mr. Carey explained that the Genesee Health Planning Council felt a bed study for Orleans County should be made to determine the exact nursing home and health related bed needs. Mr. Carey said the Council would contribute \$2,500.00 and the County would be required to contribute \$2,500.00 to conduct such a study.

Chairman Batchellor said he felt that in order to at least have a chance of getting the addition to the Infirmary approved by the State, this bed study would have to be made.

Adopted. 307 ayes; 0 nays; 1 absent, Supervisor Reed (65).

Privilege of the floor was granted to Mr. Charles Pulley. Mr. Pulley said Mr. Hancock was not able to be present for this meeting so he wished to bring to the attention of the Board the fact that Neighborhood Youth Corps has been funded for 1973 by the Federal Government. However, Mr. Hancock has applications from about forty young people who will not qualify for work under the rules established for Neighborhood Youth Corps and wished the Board to consider going ahead with the Orleans County Summer Youth Work Program previously approved by this Board.

Supervisor Kubatek said he felt that in view of the funding of Neighborhood Youth Corps and because the Orleans County Summer Youth Work Program was established because we were told funds would not be available otherwise, we should not start any new programs.

Supervisor Paduchak said he also felt that no new programs should be started.

Supervisor Swiercznski asked "what are you doing for the youth of Orleans County?". There are no County parks, nothing for the taxpayers kids.

Supervisor Reed arrived at 8:15 p.m.

Reconvened at 9:20 p.m. after much discussion of the solid waste problem. The Clerk read the following letter from the Planning Board.

July 9, 1973

The Honorable Board of Supervisors
Court House Square
Albion, New York 14411

Gentlemen:

The Orleans County Planning Board has been working on a solution to the solid waste problem in our county. The Planning Board will make recommendations regarding solid waste to the Board of Supervisors in the near future. It is also hoped the Regional Planning Board solid waste studies will support our efforts.

The following resolution was approved unanimously at the June 28, 1973 meeting of the Orleans County Planning Board.

The Orleans County Planning Board reaffirms its strong opposition to the disposal of solid waste from the City of Rochester and Monroe County anywhere within Orleans County because:

1. We have not yet solved the Orleans County solid waste problem.
2. The rapid utilization of the land area within approved landfill sites that are needed for future use by the 10 towns and 4 villages in Orleans County.
3. The fact that the City of Rochester and Monroe County have been unable to achieve a long term viable solid waste solution after two years of intensive study. There is concern that the present arrangement to bring solid waste to Orleans County may be extended beyond a 4-month period.
4. The County of Orleans must have control over current solid waste disposal operations.

Furthermore it is hoped that the Orleans County Board of Supervisors would act to control solid waste disposal in the best interest of the people of Orleans County.

Sincerely,
Sidney Cleveland
Vice Chairman
Orleans County Planning Board

RESOLUTION NO. 129

Mr. Vincent Cardone was granted the privilege of the floor. Mr. Cardone thanked the Board for allowing him to appear before them to express some concerns he and many other taxpayers have about the taxing policies of the County. Mr. Cardone discussed at length the problems of Orleans County and its municipalities. He said he felt the Jail Building should have been paid for through bonds over a period of several years rather than paying for it from sales tax revenues. He said the sales tax was put into effect to lower the taxes in all municipalities. Mr. Cardone suggested that the sales tax be split with 1% going to the County, 1% to schools and 1% to villages.

Supervisor Paduchak said that the sales tax was put into effect when the burden of medicaid on the county became so serious.

Supervisor Kubatek said he had called Senator Paterson and requested information concerning the state lottery. Senator Paterson said that the money from the lottery goes into the general fund but is used for schools. Senator Paterson is going to introduce legislation requiring that money from the lottery be kept in a separate account to be used for school purposes.

RESOLUTION SETTING POLICY FOR THE CARE OF TB PATIENTS IN COUNTY

RESOLVED, that the recommendations of the Board of Health setting policy for care of Tb patients in the County of Orleans be adopted as follows:

ADMISSION OF TB PATIENT TO HOSPITAL OR CARE AS OUT-PATIENT:

1. When patient has been diagnosed, Health Department must be notified by submitting Tuberculosis Case Report Card (Tb 1).

2. Health Department makes investigation, fills out Tb 32 form (list of contacts) and makes arrangements for all contacts to be skin tested. If contact has a positive skin reaction, contact receives a chest X-ray through the State Respiratory Disease Clinic.

3. When patient is discharged from hospital, there are two alternatives:

a. Physician should contact Dr. Learn at the State Respiratory Disease Center at Mt. Morris in regard to the patient's present condition, medications and physician's ideas in regard to out-patient treatment. This patient could then be followed by the Chest Clinic, receive chest X-rays, medication and laboratory work free of charge. Each time patient is seen by Chest Clinic Clinician, a report of the visit and chest X-ray would be sent to the patient's physician.

b. The physician can choose to follow the patient privately. The cost of this follow-up would then be carried by the patient and/or his private insurance company.

c. Payment for care in a hospital shall be covered by: (a) self pay, (b) private insurance, (c) medicaid or medicare, (d) county funds.

4. Regardless of how the patient is followed, the Health Department must receive a discharge report from the physician (refer to Public Health Law No. 2225). Said report should include diagnosis or diagnoses on admission, course of illness or hospitalization, reason for discharge, latest sputum report, latest chest X-ray report, discharge diagnosis and recommendations for follow-up. Such summary should be sent to the State Respiratory Disease Center at Mt. Morris if the physician has chosen this alternative.

5. When a patient is followed by a private physician, the Health Department must receive a semi-annual report from the physician. This report must be received in the Health Department by June 30 and December 31, of each year. The report should include diagnosis, clinical status, course of treatment, report of latest sputum examination and report of chest X-ray taken within that six (6) month period. These reports are necessary since the State Health Department reviews the Orleans County Health Department Tuberculosis Roster every six (6) months and it is expected that all pertinent information is recorded.

REGULAR MONTHLY MEETING Thursday, September 6, 1973

The meeting was called to order at 10:30 a.m., by the Chairman. The Clerk called the roll and all Supervisors were found present.

It was moved by Supervisor Reed and seconded by Supervisor Bane that the reading of the minutes of the previous meeting be dispensed with and the same approved as prepared by the Clerk.

Carried.

Supervisor Reed, Chairman of the Solid Waste Committee reported that the Committee, Mr. Sid Cleveland of the County Planning Board and the Chairman of the Board of Supervisors, had interviewed three firms of consulting engineers in order to recommend a firm to prepare plans for solid waste disposal in Orleans County. The Committee recommends the firm of William Larsen, P.E., Civil and Sanitary Engineers, Rochester, N.Y.

In answer to several questions, Mr. Larsen described the experience his firm has had in the field of solid waste disposal — a copy of which is on file with the Clerk.

Mr. Larsen made the following proposal:

Based upon the Outline, we propose to offer Engineering Services in accordance with the Schedule detailed below. Note that certain services are outside the scope of this Engineering Proposal but that we have given an estimated value as a convenience to the Solid Waste Committee. We will be happy to coordinate these services in the manner set forth in the American Society of Engineers Schedule of Recommended Practices.

1. Data Gathering and Situation Review	\$ 2,246.
2. Problem Statement and Analysis of Alternatives	4,360.
3. Decision Making	730.
4. Implementation	10,000.
Total Cost of Engineering in this proposal	\$17,336.

The following costs are outside the scope of this Proposal but are provided herein as a convenience to the Solid Waste Committee in planning their financing:

Item	Suggested Budget Figure
Design of Volume Reduction Plant	\$55,000.
Topo Surveys and Boundary Surveys	12,000.
Geotechnical Services for Groundwater Surveillance and Protection, including drilling, observation wells, open test pits, and Soils Consultant observation and Report	\$10,000.

Supervisor Kemp said I am very much opposed to disposing of solid waste by incineration. It is very wasteful. I would like us to consider recycling waste. Mr. Larsen replied that he was very much in agreement with recycling and his firm would consider such a form of disposal. However he felt that at this point recycling of all materials would have to be for the future but "the longest journey starts with the first step".

The following resolution was adopted.

The Clerk read a letter from the Director of Real Property Tax Services requesting authorization for himself and Mrs. Downey to attend a school in Albany, September 10-14, 1973, at county expense.

Supervisor Kemp, Chairman of the Committee for the Real Property Tax Office, said that in view of the fact the office would be unstaffed if both Mr. Basinait and Mrs. Downey were to attend the school he felt that the Director should be able to bring back any pertinent information to his staff and it would not be necessary for both persons to attend the school. Supervisor Kubatek said he also felt that it was not necessary for both to

attend and that in most cases the department head could bring back any information. The question was raised that a precedent was being set and what would happen in the case of the Board of Elections where all the personnel have been authorized to attend meetings. Many Supervisors felt that this was a different situation, it was suggested that one or the other in the office could attend. The following motion was adopted.

RESOLUTION OF THE BOARD OF SUPERVISORS
OF THE COUNTY OF ORLEANS, AMENDING
RESOLUTION NO. 164, OF THE YEAR 1967,
AS AMENDED, WHICH IMPOSED TAXES ON SALES
AND USES OF TANGIBLE PERSONAL PROPERTY
AND ON CERTAIN SERVICES, AND ON OCCUPANCY
OF HOTEL ROOMS, ADMISSION CHARGES AND CLUB
DUES, PURSUANT TO ARTICLE 29 OF THE
TAX LAW OF THE STATE OF NEW YORK.

Be it enacted by the Board of Supervisors of the County of Orleans, as follows:

Section 1. Section 14 (a) of Resolution No. 164 of the year 1967, as amended is hereby amended to read as follows:

(a) (1) 66.67 percent of such monies is hereby set aside for County purposes and shall be available for any County purposes.

(2) 11.1111 percent of such monies is hereby set aside, pursuant to Section 1262(a) of the Tax Law of the State of New York for educational purposes and shall be distributed and paid quarterly to the several school districts in the County pursuant to the provisions of Section 1262 (a) of said Tax Law, as amended.

(3) The remainder of such monies shall be allocated quarterly to the Towns of the County of Orleans being the entire area of said County in proportion to their respective populations including population within incorporated Villages, with the latest decennial census taken pursuant to law completed and published prior to the end of the quarter for which the allocation is made, which special census must include the entire area of the County. Such amounts allocated to the entire County shall be applied first to reduce County Taxes levied upon real property in the several Towns in such area. Any balance remaining shall then be applied first to reduce general Town taxes levied upon real property in such area. Any Town by local law, ordinance or resolution, however may provide that the amounts which would be so applied to reduce the County Taxes and general town taxes levied upon real property in such town shall be paid directly to such town to be used for any town purpose. If any Village, other than a Village within a County having a population of one million or more and containing not more than three towns, by local law, ordinance or resolution shall so provide, the amounts which would be so applied to reduce the County and general town taxes levied upon real property in such Village shall be paid directly to such Village in lieu of such tax reduction. Where any Village has elected to be paid directly as provided in this subdivision, the amount to be paid to such Village shall be determined by the ratio that the full valuation of real property in the Village or portion thereof within the town in which such Village is located bears to the full valuation of real property in the entire town. If a Village, wholly or partially within a town has so elected to be paid directly, but the Town in which such Village is located has not so elected, the amount allocated to the Town in which such Village is wholly or partially situated shall be applied to reduce County taxes and general town taxes in the area of the Town outside such Village. If the amount allocated to a town exceeds the amount of the County taxes and general town taxes levied upon real property in the Town, the excess shall be apportioned between the town and each Village, if any, wholly or partially situated therein, in the ratios that the full valuation of real property in each such Village or portion thereof within the Town, and the full valuation of real property in the portion of the Town outside of such Village or Villages, respectively, bear to the aggregate full valuation of the entire town. The share of such Village shall be paid directly to such Village. The share of the town shall be applied, first, to reduce taxes levied for part-town activities, and any balance remaining shall be paid directly to the town, to be used only for part-town activities. The amount to be applied in reduction of County taxes and general town taxes in

each town may be determined on the basis of the ratio which the full valuation of real property in each town bears to the aggregate full valuation of real property in all of the towns in such County.

In the alternative, the amount to be applied in reduction of County taxes and general town taxes in each town may be determined on the basis of the respective populations of the several towns in such County, determined in accordance with the latest federal census or special population census taken pursuant to section twenty of the general municipal law, completed and published prior to the end of the quarter for which allocation is made, which special census must include the entire area of the County.

Any local law, ordinance or resolution enacted by a Town or Village pursuant to this subdivision shall only be effective for the calendar year or years subsequent to its enactment and, further, shall only be effective if it is mailed by registered or certified mail to the chief fiscal officer of the County in which the Town or Village is located before the first day of September preceding the calendar year for which the election is made by such local law, ordinance or resolution. Such local law, ordinance or resolution shall remain in effect for subsequent calendar years until rescinded by local law, ordinance or resolution, but the enactment shall rescind the election only if it is mailed, in the same manner already provided for in this subdivision, to the chief fiscal officer of the County in which the Town or Village is located before the first day of September preceding the calendar year for which the rescission is to apply.

Section 2. Effective Date. This resolution shall take effect immediately.

THE COUNTY OF ORLEANS AND THE
CITY OF ROCHESTER

RESOLVED, that the agreement herewith presented between the City of Rochester and the County of Orleans in regard to the repair of certain County highways within the County of Orleans after the use thereof by vehicles owned by or used by the City of Rochester for bringing refuse to a certain landfill located in Orleans County which agreement encompasses the provisions of a certain order entered in Supreme Court, Monroe County, New York, in the action et al., City of Rochester vs. County of Orleans Highway Department and that the Chairman of this Board be authorized to execute said agreement on behalf of the County of Orleans.

Unanimously adopted.

It was moved by Supervisor Paduchak and seconded by Supervisor Roberts that the County Clerk, Francis Rumble, be reimbursed for expenses incurred in attending a meeting in Olean, N. Y., on September 12, 1973. The Chairman stated that he had authorized Mr. Rumble's attendance at this meeting.

Carried.

The Clerk presented a report by David O. Hagerman, Probation Officer II, based on Mr. Hagerman's overseas schooling trip taken in July, 1973. Ordered filed. Supervisor Paduchak said he appreciated Mr. Hagerman's thoughtfulness in providing a copy of his report since the trip was taken at Mr. Hagerman's own expense.

The Clerk read a letter from Assemblyman Cook, dated September 17, 1973, acknowledging receipt of Resolution No. 163. Ordered filed.

The Clerk read a letter from William C. Larsen, P.E., dated September 7, 1973, thanking the Board for their confidence in appointing his firm to work on the Solid Waste Program for Orleans County. Ordered filed.

The Clerk presented a report on Lake Erie-Lake Ontario Waterways. A meeting on the report will be held September 25th at the Niagara-Wheatfield School.

The Clerk read a letter from Dr. James Parke, Acting Commissioner of Health, dated September 19, 1973. Dr. Parke cited action taken by the Yates Town Board as illegal in repealing the Town Ordinance requiring the Orleans County Health Department approval in regard to percolation tests. Chairman Batchellor invited Supervisor Bane to attend a special meeting with the Health Department and Supervisor Bane said he would be happy to attend such a meeting.

Supervisor Kubatek said it had come to his attention that some County employees were living out of the County, he cited Orleans County Civil Service Rule No. 7 which states, "An applicant must be at the time of examination and for at least four months prior thereto a resident of the municipality in which appointment is to be made". The Clerk was instructed to send a notice to all department heads citing this requirement.

Supervisor Paduchak introduced Local Law No. 1 of 1973.

**RESOLUTION SETTING DATE OF PUBLIC HEARING
ON LOCAL NO. 2, 1973**

WHEREAS, Local Law No. 2 of the year 1973 entitled, "LOCAL LAW INCREASING THE SALARY OF THE ORLEANS COUNTY SHERIFF TO \$15,000.00, was introduced at a meeting of the Board of Supervisors of the County of Orleans on the 20th day of September, 1973, be it

RESOLVED, that a public hearing on said Local Law No. of the Year 1973 be held by this Board of Supervisors at the Supervisor's chambers at Albion, New York, on the 4th day of October, 1973, at 10:10 o'clock in the Forenoon on that date, at which time all persons wishing to be heard will be heard for or against the passage of said Local Law, and be it

FURTHER RESOLVED, that notice of such public hearing be published in the Albion Advertiser, Albion, New York, and the Medina Daily Journal-Register, Medina, New York, at least five (5) days prior to the date of such public hearing.

Unanimously adopted.

Supervisor Swiercznski said because of the duties of Controller of Animals being added to the Sheriff's responsibilities and the probability of the County establishing a dog pound, which would also add to the Sheriff's duties, he felt an increase in the salary of the Sheriff was justified.

There was some discussion of the duties of the Dog Warden regarding calls on weekends. Chairman Batchellor said it was understood that the Dog Warden wouldn't answer calls on weekends unless it was an emergency.

Recessed at 8:30 p.m., reconvened at 8:40 p.m.

The Clerk read the recommendations of the Finance and Budget Committee for salaries for county officers and employees for 1974.

RESOLUTION NO. 170

By Supervisor Swiercznski, who moved the adoption.

BASIC WORK RULES FOR EMPLOYEES OF THE COUNTY OF ORLEANS, NEW YORK

The below rules will apply to all county employees. Provided, however that, in the case of any rule contrary to or in conflict with the provisions of any contract between the County and a recognized bargaining unit, as to the employees covered by such contract the provisions of such contract shall govern.

County offices shall be open for the conduct of business and convenience of the public in strict accordance with the hours prescribed by the Board of Supervisors.

Employees of the County of Orleans do not punch a time clock but punctuality is important for the smooth and efficient operation of County Departments the same as any other business. Accordingly employees are expected to be on hand and ready for work at the appointed time. They are likewise expected to stay on the job until 5:00 p.m. or whenever their work day is finished. Promptness and a full day's work are a good indication of interest in your job.

Employment of any person by the County of Orleans shall be subject to the Civil Service Rules as adopted by the Board of Supervisors and approved by the New York State Civil Service Commission on April 22, 1961. Pay periods shall be based upon the regular working hours of that department.

LEAVE OF ABSENCE

All applications for a leave of absence by any employee paid from County funds shall be made to the Board of Supervisors, which Board shall determine whether or not same be granted, and if granted, shall fix and prescribe the terms and conditions thereof, taking into consideration Rule XIX of the County Civil Service Rules.

EDUCATION LEAVE OF ABSENCE

After one year of continuous employment by the County, an employee shall be granted a leave of absence for a period of up to two years in order to attend an accredited school full time, provided that the courses to be taken are of mutual benefit to the employee and the employer. Provided, however, any employee may have education leave to attend a course of study of six weeks or less duration which course shall be of mutual benefit to the employee and employer. Provided further that any employee who has a contractual obligation to return to work for employer following completion of such courses for which education leave is granted shall be not required to have continuous employment of one year.

During such leave of absence, no compensation shall be paid to the employee, excepting only to the extent that any such compensation is reimbursed to the employer from some other source.

ABSENCE FOR JURY DUTY

Employees who are drawn for jury duty shall be paid the difference between the compensation received for such jury duty, excluding travel pay received in connection therewith, and their regular rate of compensation.

VACATION ELIGIBILITY

(a) All regular full-time employees who have been continuously employed by the County shall be entitled to vacations with pay earned on an annual basis determined from anniversary date in accordance with the following schedule:

<u>YEARS OF EMPLOYMENT</u>	<u>WORK DAYS VACATION</u>
1 thru 4 years	10 days
After 4 years	11 days
After 5 years	12 days
After 6 years	13 days
After 7 years	14 days
After 8 thru 13 years	15 days
After 13 thru 20 years	20 days
After 20 years	25 days

Provided however, that each employee may take (5) five days of his first years vacation eligibility after his first six (6) months of employment.

(b) Vacations earned during one (1) anniversary year shall not become the property of the employee and shall not be taken or paid for until the commencement of the next anniversary year and must be taken during that said anniversary year, excepting however, that any employee shall be entitled to five (5) days vacation after his first six months of employment as above set forth. Upon the death or termination, all of the employee's vacation time earned during the previous anniversary year, but not yet taken by the employee or paid by the employer, shall be paid to the employee or his estate.

(c) Vacations shall be taken by the employee and paid by the employer on the basis of his applicable work day, week and salary or hourly rate at the time he takes his vacation or is paid for it.

(c) As far as possible, vacations shall be granted to employees at the time most desirable to them, but the final right to determine the time of vacation for any employee is expressly reserved to the Employer in order to insure orderly operation of its business.

(e) Vacation pay shall be paid to the employee at the commencement of his vacation.

(f) Vacation eligibility shall continue to be earned on a pro rata basis for the first 20 work days an employee is on unpaid leave during any calendar year. No vacation eligibility shall be earned by an employee on unpaid leave in excess of twenty (20) work days in any calendar month. When unpaid leave in a calendar year is in excess of twenty (20) work days in the aggregate, vacation eligibility for one (1) month will be forfeited for each twenty (20) work days of unpaid leave.

RETIREMENT

The County shall continue the present coverage of employees under the 1/60 New York State Retirement Plan, retroactive to 1938, except as amended, enlarged and modified by Section 75-i of the Retirement and Social Security Law of the State of New York together with the benefits of Sub-division k of Section 41, Sub-division g of Section 43, both of the Retirement and Social Security Law of the State of New York, and Sub-division 4 of Section 243 of the Military Law all as are presently in effect, as adopted by the Orleans County Board of Supervisors on December 8, 1970. Effective January 1, 1972, the additional benefits provided under Section 41-j and Section 60-b both of the Retirement and Social Security Law of the State of New York, shall be provided.

SICK LEAVE

(a) Each full-time permanent employee after one complete calendar month of employment or the major portion thereof shall earn 1-1/2 days of paid sick leave for each month in which the employee works or is fully compensated, or major portion thereof, which leave may be accumulated to a maximum of one hundred fifty days (150) and such sick leave shall accumulate and may be taken after one calendar month.

Such leave may be taken only in the event of sickness, which shall be defined as illness, bodily injury, or quarantine. A physician's certificate shall be required after five (5) days of sickness and in the case of protracted sickness such a certificate must be presented at the end of each calendar month of absence, following the calendar month in which the employee starts his sick leave. The County Attorney explained the distribution of sales tax as presented in the resolution prepared by him and which was adopted September 6, 1973. Supervisor Paduchak stated that he would have voted in favor of the sales tax resolution if it had been presented that way originally. He felt the original resolution stating 1/3 to schools, 1/3, to towns and 1/3 to villages, should be rescinded and this resolution adopted.

Supervisor Kubatek moved and Supervisor Reed seconded the motion that the meeting be adjourned. Carried.

Adjourned at 8:55 p.m.

REGULAR MONTHLY MEETING

Thursday, October 4, 1973

The meeting was called to order at 10:45 a.m., by the Chairman. The Clerk called the roll and all Supervisors were found present.

Chairman Batchellor introduced Mr. Sylvester "Bill" Walker, Executive Director of the New York State Supervisors' and County Legislators' Association. Mr. Walker said that he had been charged by the Association with the pleasant duty of visiting all the member counties in New York State. Mr. Walker stressed the Associations' effort in getting all counties in the State at 100 percent participation. He was proud to say Orleans County is among the 100 percent member participants. Mr. Walker requested that Orleans County take a more active part in the meetings of the Association. He mentioned that the Clerk, Mrs. Jurhs, had served on several committees of the Association and was recognized throughout New York State as a very efficient Clerk. The third goal of the Association is focused on education of the public and the members and on getting a better line of communication in the areas where Town Supervisors do not serve at the County level. Mr. Walker stressed the point that the Association is self-supporting without any help from tax resources and said he hoped to interest all counties in advertising in the magazine published by the Association. After some questions from the Board — Mr. Walker thanked the Board for allowing him to appear before them.

Supervisor Reed introduced Mr. Russell Tills, representative of the Albion J-C's. Mr. Tills presented a proposal from the JC's for the disposal of junk cars found within the County. He said they would divide the County into three areas if the other JC's agree to take part in the program, otherwise the Albion group would cover the whole County. Mr. Tills said he thought some arrangement could be worked out with Chamber Bros. in Medina for disposal of the cars. It was mentioned that a new law

had gone into effect in July which might influence the proposal. It was suggested that Mr. Tills contact Mr. Cleveland of the County Planning Board in regard to implementing the J-C's proposal.

George L. Batchellor, Chairman
Board of Supervisors
Albion, New York 14411

Dear Mr. Batchellor:

Several months ago, you appointed three members to a Genesee-Finger Lakes Resource Conservation and Development Steering Committee. This committee has met three times over the summer to do the necessary work in preparation for the appointment of a Resource Conservation Development Council. At their September 18th meeting, they adopted a constitution and by-laws.

The constitution and by-laws establishes a two level operating organization for the RC+D program. At the county level, the RC+D projects will be operated by a county RC+D board. This board is to be made up of a minimum of 8 people. Five of these

people will be the present Soil and Water Conservation District Board. The additional three members or more will be appointed by the County Legislature or the Board of Supervisors. At least one member will be appointed from the County Planning Board.

At the regional level, a 27 member RC+D Council will be appointed. The membership of this Council will consist of three persons from each of the eight counties for a total of 24 with the additional three coming from the regional planning board. The three members from each county to be appointed by the County Legislature or Board of Supervisors should be made up of one Legislator, one member of the Soil and Water Conservation District Board and one at-large member.

As acting chairman of the RC+D Steering Committee, I would appreciate your assistance in securing names and placing on the agenda at the earliest possible date the appointment of persons, both to the county level RC+D board and to the regional level RC+D Council. Please forward the names of those persons appointed to the RC+D Council to me. The organization of these two groups is essential to the continued work in preparing the application and design of the RC+D program. If you have any questions concerning this matter, please feel free to call myself or the chairman of the Soil and Water Conservation District Board.

Thank you for your cooperation.

Sincerely,

Dwight M. Wells, Chairman

Board of Supervisors
County of Orleans
Courthouse Square
Albion, New York 14411

Gentlemen:

For the past twenty years Judges and practicing attorneys have suggested that the physical facilities of the Court be changed. Increasingly, the need for conference rooms, better jury facilities, better acoustics, witness areas, and better lavatory facilities, have become apparent.

We have also had the problem of having both courtrooms on the second floor, without elevator service in either building, and without ramps or other access areas for the handicapped.

Without consulting the County Bar Association or the County Judge, I respectfully offer the following suggestions:

1. That the Board of Supervisors, County Treasurer, County Highway Superintendent, Election Bureau and Historian be moved from the Courthouse to a nearby location (such as the Presbyterian Manse, which I believe could either be rented or purchased.)
2. That the Surrogate's Court be moved to the first floor of the Courthouse, along with the related Court offices, and that the floor be reorganized to meet the needs of a continually more active Family Court and Surrogate.

3. That the upper courtroom be reorganized to provide a jury deliberation room with restroom facilities and at least one conference room for attorneys.

4. That a ramp be provided to allow handicapped persons to have access to the Courthouse.

Your earnest consideration of these suggestions would be greatly appreciated.

Yours very truly,

Curtis L. Lyman

RESOLVED, that this Board does hereby approve the appointment of David Mathes as Grange representative on the Board of Directors of the Orleans County Soil and Water Conservation District, effective January 1, 1974.

November 15, 1973

Chairman
Board of Supervisors of Orleans County
Albion, New York 14411

Dear Sir:

It is the desire of Medina Memorial Hospital to obtain authorization for the performance of coroners' autopsies at this hospital. In view of the fact that we have a duly elected coroner from this end of the county, and the hospital has adequate morgue and autopsy facilities for the conducting of autopsies, as required by the law of the State of New York, as well as a qualified Pathologist for the performance of autopsies, the Medina Memorial Hospital requests that they be included in the negotiations for the renewal of contracts regarding coroners' cases.

Yours truly,

JOHN E. HAMILTON, FACHA
Administrator

RESOLUTION NO. 212

By Supervisor Swiercznski, who moved the adoption.

Seconded by Supervisor Roberts.

RESOLUTION ADOPTING COUNTY BUDGET FOR THE
YEAR 1974

RESOLVED, that the tentative County Budget for 1974, as presented by the Finance and Budget Committee of this Board of Supervisors, be adopted as the County Budget for the year 1974, effective January 1, 1974.

Unanimously adopted.

See BUDGET pages 193-216

Before the adoption of the above resolution, the Budget Committee reviewed the meeting they had with the Taxpayers Group. The Committee met at 9:00 a.m. on November 16th with Mr. Acri, Mr. Burroughs and Mr. Harradine. Each point presented by the taxpayers group was explained and reviewed with them. Supervisor Swiercznski said that when they began their meeting the group suggested that \$300,000.00 could be cut from the budget. After the meeting was over they still felt that perhaps \$165,000.00 could be cut from the budget. The Committee said they felt that it wouldn't be prudent to increase revenues as suggested by the group because the economy was uncertain and the committee felt it would be better to underestimate revenues rather than have them so high that a deficit might develop. Regarding cuts in the Sheriff's Department and the Supervisors budget, the committee had reviewed the funds spent in 1973 thus far and felt that no cuts should be made in the 1974 budget.

Supervisor Swiercznski said that the Board appreciated the efforts of the taxpayers group and that perhaps next year some of their ideas could be adopted.

It was moved by Supervisor Swiercznski and seconded by Supervisor Bane that a memo be sent to all departments asking them to do all they can during this energy crisis.

Carried.

Lists of enrolled voters of the County were printed in entirety by the staff of the Board of Elections and a return of funds to the County of \$200.00 was realized by the sale of such lists at cost. Formerly, these lists were available to the public without charge.

The Board conducted training sessions for Inspectors of Elections during September and 39 inspectors were trained.

Through the co-operation of the Buildings Superintendent, Burrell Binghamon and his staff, the office of the Board of Elections was painted and remodeled during 1973, increasing the useable office space and allowing a more efficient office arrangement.

During 1973, the Staff of the Board of Elections attended training seminars conducted by the New York State Election Commissioners Association and the office of the Secretary of State. In addition, a workshop training for Commissioners and staffs of 11 area counties was hosted by our office.

20 December 1973

TO: Orleans County Board of Supervisors

FROM: David M. Green, Director
Orleans County Office of
Natural Disaster and Civil Defense

SUBJECT: Fire Code

Gentlemen:

I have reviewed the recommendations suggested by the New York State Fire Advisory Board and I feel very definitely that there should be a uniform fire code on the National, State and local level.

There are some considerations that must be taken, however:

1. Who will enforce the fire code?
2. There should be a State Fire Marshal working through the Office of the Attorney General.
3. Enforcement on the local level should be carried out by each town with special training given to the County Fire Coordinator to assist others on local level interpret fire code.

I think that our fire code, if adopted and the State of New York does not adopt a fire code, should be a standard code from N.F.P.A.

Sincerely yours,

David M. Green
Director

The above letter was referred to the Public Safety Committee for recommendation.

It was moved by Supervisor Paduchak and seconded by Supervisor Bane that all Supervisors and the Clerk of the Board be authorized to attend the Winter Conference of the Supervisors' and County Legislators' Association at the Friar Tuck Inn, Town of Catskill, Greene County, January 20-23, 1974, at county expense.

Carried.

Privilege of the floor to Mr. Paul Acri, representing the Taxpayers Association. We have made what we thought were valid suggestions and of interest to the taxpayers of the County. You did not see fit to accept our suggestions, they went in one ear and out the other. All we are interested in is that the taxes be reduced. We strongly feel the salaries for Supervisors and particularly the Chairman, as proposed in the budget, are way out of line and will protest them again. What justification do you have in requesting such an increase? Mr. Acri referred to an article in the newspaper quoting the Taxpayers Association and indicating various salaries of Chairmen in other Counties.

Supervisor Reed said he had contacted the mentioned Counties and there were many errors in the article. The Taxpayers group were using the proposed 1974 figures for Orleans County but in many cases the 1972 and 1973 figures for other counties.

Supervisor Paduchak said I think the Taxpayers Association should retract the article and correct the erroneous report.

Mr. Acri said he would look into the matter but that he still felt the proposed salaries were too high.

Supervisor Paduchak explained that the County can not work under deficit spending and the budget reflected honest anticipation of revenue.

Supervisor Plummer asked what percentage of the population of the county the group represented. Mr. Acri replied that it would not be difficult to get signatures to give you. Every group has certain people who work for the good of the many.

Supervisor Kemp stated that "I have only been on this Board two years but in that time I have discovered that it is almost impossible to hold a full time job and be a Supervisor. Many of these men have to hire others to take their place when they are at meetings." Much more discussion followed. Mr. Acri thanked the Board for their time.

RESOLUTION NO. 255

By Supervisor Reed, who moved the adoption.

Seconded by Supervisor Plummer.

1973 ANNUAL REPORT
OF THE
ORLEANS COUNTY PLANNING BOARD

ORLEANS COUNTY PLANNING BOARD

Court House Square
Albion, New York 14411

January 1974

The Honorable Board of Supervisors
Court House Square
Albion, New York 14411

Gentlemen:

Please accept the enclosed document as the Orleans
County Planning Boards 1973 Annual Report.

In this report you will find a brief discription of
the activities and accomplishments of the Planning Board during
1973. We look back with satisfaction at our successes and look
forward to working on interesting projects in the coming year.
We hope to improve our relationship with the Board of Super-
visors through increased communication and cooperation. This
report is hopefully a beginning in that direction.

Sincerely,

Harry Butler
Chairman
Orleans County Planning Board

Following is a summary of the activities of the Orleans County Planning Board for 1973. We feel that in the past year we have achieved important successes and are looking forward to improving our capabilities.

ZONING REFERRALS

As required by section 239-m of the General Municipal Law, the County Planning Board has been reviewing zoning matters within its jurisdiction. During 1973 the County Planning Board reviewed three rezoning proposals, an inquiry involving property annexation and a proposed roadway location from a public highway to a development. The Board approved the rezoning matters and the annexation proposal and made recommendations concerning location of the highway.

COUNTY DOG POUND COMMITTEE

The Planning Board formed a committee, at the request of the Board of Supervisors, to study the feasibility of a county dog pound and a report of their findings was given to the Board of Supervisors. The Committee was then disbanded as it had accomplished the goals for which it was intended.

PERSONNEL COMMITTEE

A personnel committee was established to review all applications for the position of Director Of Planning and to make a final determination. After advertising the position, a number of interviews were held and a selection was made.

SOLID WASTE

The Solid Waste Committee submitted its report in 1973. In addition, it held many informational meetings which included guest speakers and presentations. Numerous alternative methods of solid waste disposal were investigated, and because of the limitations of cost or practicality, the alternatives were narrowed to that of landfill or incineration landfill.

COUNTY GOVERNMENT

The Committee on county government reorganization has been researching alternative methods of governmental organization and application of these alternatives to Orleans County. Numerous presentations have been held with guest speakers such as Mr. Lutz of Cornell Univeristy who is very knowledgeable on different forms of county government. After studying all alternatives, the committee will determine which type of county government is most applicable to Orleans County. A report will be forthcoming.

NATURAL RESOURCES COMMITTEE

The Natural Resources Committee submitted their report to the Planning Board. Included in the report was a general statement of goals, specific surveys of Agricultural land, Water and Mineral resources, inventories of urban land uses and parks, recreation, open space and related facilities as well as specific recommendations concerning each resource.

701 PROGRAM

Phase I has been completed. Phase II of the 701 Comprehensive Plan was continued during 1973. Following is a breakdown of the financial responsibility for this phase of the 701 Program.

Federal Share	\$ 5,549
State Share	925
County Share	425
Total	\$ 7,399

The Land Use Classification System has been completed by the Genesee/Finger Lakes Regional Planning Board for use in inventorying land use within Orleans County. In addition the land use analysis report has been drafted.

PLANNING TECHNICIAN

Steve Miller, Orleans County Planning Technician, resigned effective July 1. He provided valuable assistance to the Planning Board and we wish him the very best in his future endeavors.

COUNTY PLANNING DIRECTOR

The Orleans County Planning Board with the cooperation of the Genesee/Finger Lakes Regional Planning Board developed the position of Director of Planning. Geoffrey C. Astles was appointed to the position effective Jan. 1, 1974. Geoffrey comes to us from the Huntingdon County, Pennsylvania Planning Office where he was a planning technician.

BERTRAND FLYNN

The Orleans County Planning Board was saddened by the death of one of its members, Bertrand Flynn. Mr. Flynn's enthusiasm and insight into the planning problems, especially zoning, will be greatly missed. Mr. Flynn served as Chairman of the 1973 Zoning Committee and was a member of the Planning Board from October, 1970 until his death in 1973.

ANNUAL REPORT

ORLEANS COUNTY PROBATION DEPARTMENT

January 1, 1973 - December 31, 1973

DEDICATION

JUDGE J. KENNETH SERVÉ

County, Family and Surrogate Courts, January 1961-December 1973

It was with great personal regret that we, the members of the Probation Department, heard of Judge Serve's plans to retire. We pay tribute to him as an extremely fair, conscientious, hard-working Judge, who obviously used his considerable intellect and most of his both working and personal time in sharpening the tools of his trade-knowledge and understanding of the laws of New York State and this Nation. We enjoyed his concern in discussing our mutual clients and also enjoyed the fact that a disagreement with Judge Servé on a specific issue did not affect our basic working relationship. We wish him the best of health and the greatest of enjoyment in his retirement.

ANNUAL REPORT

ORLEANS COUNTY PROBATION DEPARTMENT

January 1, 1973 - December 31, 1973

PURPOSE OF PROBATION

The objective of Probation, which is a division of the field of correctional care and a legal, social and personal service operating within the framework of a judicial setting, is to protect society, preserve the family, prevent delinquency and crime and rehabilitate the offender thru INTAKE, INVESTIGATION AND SUPERVISION.¹ Accordingly, our service endeavors to provide opportunity for our client to realize increased self-determination in meeting his needs and those of his family, friends and society.²

INTAKE - Thru INTAKE (the "sifting" or "screening" process), where possible and practical, cases are adjusted by treatment without Court action. Otherwise, they are referred to Court. This process is used principally in the handling of children's cases, young offenders, marital problems, and offenses and crimes arising out of domestic difficulties.

Probation Officers, thru intake service, give advice and counsel to spouses, parents, school authorities, police and private citizens in an effort to adjust cases without Court action where such adjustment is in the best interest of all concerned. It is used to re-unite families, to conciliate spouses, to assist in settling family quarrels and in many instances to obtain support for the children of broken homes.

EVALUATION: 83% of all cases handled at Intake (and 75% of cases serious enough to require counseling) were successfully screened from Court.

We're proud of our intake and feel that a strong service is important for many reasons, including:

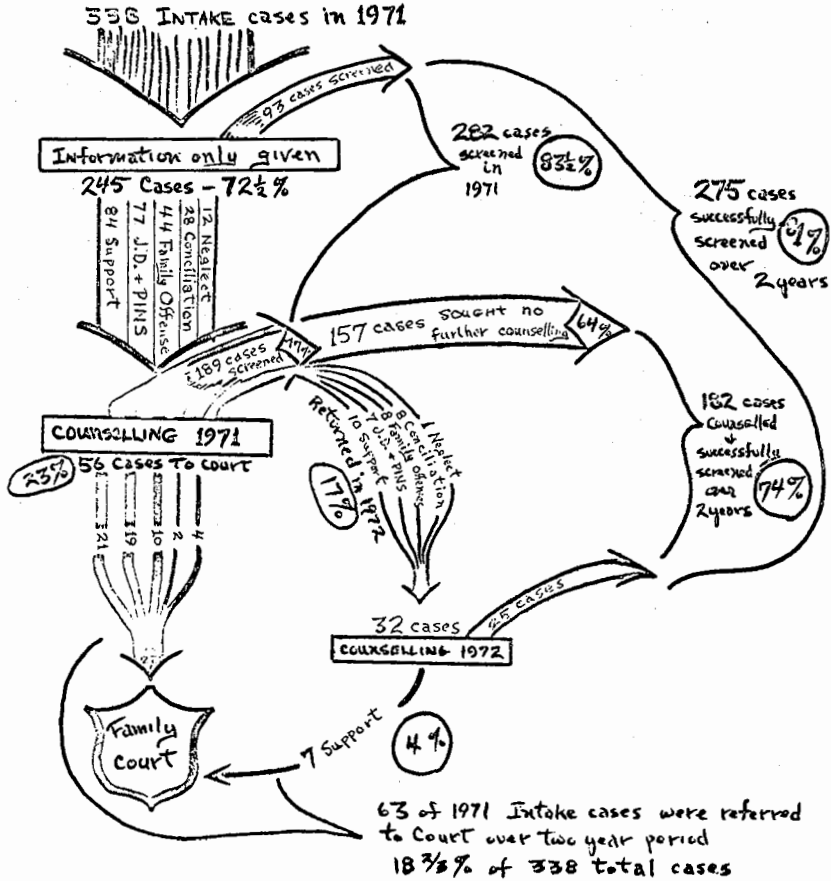

- a. encourage self-reliance - through providing a forum, and even an arbiter, in family difficulties where a couple, or parents and child can discuss their differences and problems in a calmer fashion than is usually possible at an emotion-charged home. The entrance of a third (largely neutral and professional) party encourages the family members to present their problems in a logical rather than an emotional fashion, and the Probation Officer encourages the family members to look into themselves as to how they are contributing to the difficulties and helps each party to see the other's point of view.
- b. economizes the Court's time - free the Court to deal with problems that really require the Court's intervention.

Intake Longevity Study

Over the past few years our Intake service has been equally productive in screening cases from Court. A concern that nagged us was how long-lasting are the effects of the "screening process", that is, do the cases that we

Intake Longevity Study (con't.)

"successfully screen" end up a year or two later returning to the Probation Department and eventually ending up in Court. A volunteer, Janice Felice, (see more on Volunteer Program later in this report) agreed to study our 1971 intake cases to see how many returned in 1972. During 1971 only 188 (68 of 376) of all cases handled at Intake and 19% (56 of 245) of cases given counselling, ultimately required Court action. A study of all the 308 cases that did not require Court action, shows that only 17% of cases returned in 1972 for further counselling, and of these less than a quarter went to Court. Based on these figures, members of this Department are further pleased and confident in the Intake Services that we provide.

INVESTIGATION

The investigation attempts to examine and evaluate the defendant's exact role in and his attitude before, during and after the crime; any past record; his social history from before birth, including the emotional and economic atmosphere of his home, his relationships with parents, brothers and sisters, his school adjustment, achievement in comparison to ability, relationship with teachers and fellow students, work and military experiences, habits and leisure time activities, religious contacts, etc. All this is to help the Judge have a factual picture and an emotional grasp of the human before him so that he can sentence in a manner best suited to the protection of society, the rehabilitation of the defendant and to deter others from committing crime.

The presentence investigation is then used by Probation Departments, Correction Institutions, Child Welfare, or Mental Health Clinics as the keystone for planning social casework treatment with the individual. If, for instance, a person is placed on probation and transferred to another probation department, the investigation is sent to the receiving department so they can develop a comprehensive and intelligent plan in dealing with the defendant. If he then violates and is sent to an institution, the investigation accompanies him to the institution, so the institution can deal with him in a significant fashion including educational and vocational training. Then, when he is released on parole, the parole department uses the investigation in their planning for the defendant. Investigations done in 1973 were as follows:

SUPERVISION

Thru Supervision, the Probation Officer tries to induce a positive change in the habits, attitudes, values and/or social relationships of the probationer by guiding him and assisting him to draw upon his own resources and those of the community to achieve these ends.

The Method of supervision includes devising a plan of treatment tailored to each individual probationer based on review and evaluation of the presentence investigation. Running records are kept on each probationer containing factual data as to the probationer's performance, as well as an evaluation of his behavior and attitudes, and in the process of recording each case in this fashion, the plan of treatment is continually being updated to meet changing circumstances and needs.

Below are the number of 1973 Probation cases:

Therefore:

- a. 87.3% of our clients over the last two years cooperated with probation and the Court.
- b. 92.7% stayed out of criminal difficulty.

SUPPORT BUREAU

Support Bureaus are created in each County by the Family Court Act to receive and disburse funds pursuant to any Court Order of the Court. The Orleans County Probation Department handles this function. Money is received from Respondent in Family Court Support cases and also on occasion, from Supreme Court cases, and in fines and restitutions in Criminal Court cases. Records are kept of all transactions and money is disbursed by the Support Bureau according to Court Orders. In 1973 over \$207,305.60 was received by the Support Bureau in 5,314 individual transactions from an average caseload of 350 active Support cases. In certain instances money is disbursed directly to the Orleans County Department of Social Services as recovery to assistance applied to the dependents. In many other instances the support provided to dependents reduces the amount of Public Assistance which the County must provide.

The Support Bureau is composed of a bookkeeper, who keeps the records and handles receiving and disbursement of all money and a Support Bureau Clerk, who handles calls of complaint or explanation in the average 350 cases, does personal interviews in Albion, Medina and Holley with both Respondents as to their ability to support and Petitioner as to their needs, makes contacts with employers, types letters, gathers information from the Petitioner for and composes Petitions, and does other duties generally relating to the functions of the Support Bureau. A Probation Officer has general supervision over the operations of the Support Bureau and is responsible for initiating Court proceedings if a Support Order is not being followed. Another purpose of having a Probation Officer in that position, is to provide availability of counseling in problems of visitation, which frequently occur, and to provide assistance to individuals involved in a complex and emotionally exhausting problem associated with marital break-up.

A large number of changes have been made in the Support Bureau to provide for letter monitoring of support payments, a system for receiving telephone complaints during specified hours so that Support Bureau personnel can be more organized in their work schedules, and greatly improved communication with the Orleans County Department of Social Services to reduce the possibilities of fraud and misunderstandings and to insure that there will be active efforts at collection in all Welfare cases. The present staff set-up of the Support Bureau, and especially the highly efficient work of Mrs. Dreyfus, the Support Bureau Clerk, has allowed more frequent contact by letter and phone with various Respondents and this has had tendency to keep cases more up to date, or to return them to Family Court for proper review while the issues involved were fairly clear. Total Support Bureau collections have increased by approximately 10% over the previous year.

The services of the Orleans County Support Bureau are free. Family Court provides a method of determining support disputes without charge to the Petitioner and Respondent and the making of payments through the Support Bureau has the effect of limiting contact between Petitioner and Respondent where emotions tend to be very high, and also provide accurate records which also tends to lessen potential areas of support dispute between Petitioners and Respondents.

While the law provides for stiff penalties (up to 6 months in jail) for "wilful" violations of support orders, it is frequently difficult to enforce support against "deserting fathers" who have neither steady employment or residence and who are willing to move from place to place in order to avoid their support obligations. The problem becomes even more complex when the Respondent is in another state and the Petitioner must rely upon the facilities in another state to enforce a support obligation. The large number of "deserting fathers" throughout the country makes it impossible for police agencies to trace such persons and frequently the Petitioner (wife or former wife) is the most effective source of information as to a father's whereabouts. Even so, the successful obtaining of support for children depends mostly on the good will or sense of responsibility of the father and to obtain such "good will" depends considerably on the concern and tact of the persons in the Support Bureau.

Figures for 1973 are as follows:

	<u>Total</u>	<u>Family Court</u>	<u>Supreme Court</u>	<u>Criminal Court</u>

Program Innovations

In many different ways we have tried to increase the effectiveness of the office. All staff members have participated in the efforts, making suggestions, working, putting in extra time, to make the probation department more effective in the community:

1. VOLUNTEER PROGRAM

We have introduced a volunteer program which is modeled after the Denver One-on-One Program. This does not save the probation department time, in fact it ultimately means more work, because cases have to be carefully screened and there has to be a great deal of planning and coordination in the use of volunteers. But it has provided an opportunity to give greater attention to cases which particularly require it. As a result of the gracious and hard work of volunteers, the probation staff who made recommendations participated in orientation, and has wholeheartedly worked with volunteers and where we have been able to successfully integrate a volunteer into the case work pattern our work with that probationer has been highly effective.

2. BEHAVIOR MODIFICATION

Also we were able to engage the services (on a volunteer basis) of Dr. Gary McClure, a professor of psychology, State University at Brockport, and a teacher of behavior modification techniques. Once again through the many extra hours put in by the probation officer and the volunteer in daily visits to the probationer at his home and consulting with Dr. McClure at Brockport, we were able to gain experience with this technique, and to successfully help the three probationers with whom we've tried behavior mod.

3. INTAKE LONGEVITY STUDY

The research aspect of the volunteer program amounted to one person, Janice Felice, but we are surely open and solicitous of more such experiences. Janice worked very hard preparing our Intake-Longevity Study, the results of which are presented earlier in this report and which figures offered a springboard for our migrant outreach program. Janice was screened as any other applicant for a paid position would be. We obtained personal references from her. She was sworn in as a County employee and worked many hours compiling statistics.

4. NEIGHBORHOOD YOUTH CORPS WORKERS

Furthermore, through the use of Neighborhood Youth Corps workers, at no cost to the county, and at a benefit to those youths, we were also able to revamp our office manual and make sufficient copies for additional staff we hired under the Outreach Program, plus many other general tasks to which our regular stenographic staff wouldn't have been able to provide time. Furthermore one of the Neighborhood Youth Corps persons we hired was a probationer and this was revealing to all of us as to the quality of the people with which we deal.

5. MUZAK

Because of the building that we are in and the way in which sound carries from office to office, confidentiality was considerably lessened.

ed. There was little capability of letting your hair down in a counseling session and particularly in marriage counseling situations when both spouses become, and for ventilation purposes should be allowed to be, loud. We did explore the possibility of Muzak and other such music systems which proved to be quite costly as much as \$50 a month and instead decided to try FM radio. Mrs. Detwiler and Mr. Morrissey both donated FM radios to the office and we found that the music does provide some cover for voices and restores considerable confidentiality.

6. BRANCH OFFICES AND EVENING HOURS:

In an effort to reach various corners of the community we did begin Tuesday afternoon reports at the Eastern Orleans Center in Holley, New York through their graciousness and also rented the Youth Move Facilities over the fire hall in Medina where four different officers take reports Mondays and Wednesdays and also can meet with people there on other special occasions. Further we instituted evening hours Tuesday nights from 5:30 to 8:00 p.m. with the six probation officers in the department manning the evening hours on a rotating basis.

7. PETITIONS AND PREPARING COURT HEARINGS

During 1973, due to practical necessity, our office, principally Mrs. Ann Nevin, has been taking all Family Court petitions. Furthermore, we have accepted the responsibility of notifying witnesses for the actual trials and also notifying witnesses for dispositional hearings.

8. POLICE AND AGENCY LIAISON

Court matters, in this writer's opinion, have become very complicated because of the procedural safe guards accorded to all defendants and even more zealously accorded to juveniles. Apparently the view is that juveniles have less knowledge and sophistication with which to defend themselves and are therefore more vulnerable in a Court hearing. Because of these complications, police, schools and other agencies are becoming reluctant and discouraged about taking any but the very serious matters to Family Court although prudence dictates that other cases should receive the sanction of the Court as well. Toward counteracting a tendency away from Family Court, we worked closely with the Medina, Holley and Albion Police Departments, the Orleans County Sheriff's Department, and the New York State BCI in helping to explain intake and also in helping these police agencies prepare particularly Juvenile Delinquency and Persons-In-Need of Supervision petitions, pertaining to children under 16.

TO: Board of Supervisors, County of Orleans

FROM: David M. Green, Director
Orleans County Office of
Natural Disaster and Civil Defense

SUBJECT: Annual Report for Orleans County Office of
Natural Disaster and Civil Defense for period
of 1 January 1973 to 31 December 1973

Gentlemen:

I hereby submit the Annual Report for Orleans County Office of Natural Disaster and Civil Defense for the period of 1 January 1973 to 31 December 1973.

During the past year we continued to place emphasis on means of saving the County money. Our Surplus Property Program was widely expanded, the Matching Funds Program was utilized, and applications were submitted to the Excess Property Program. A continued effort was made to be prepared for emergencies that might arise in our schools, hospitals, and factories.

We have begun or completed the following:

1. Twice a month representatives from various county agencies visit the surplus property warehouse in Canandaigua. Several agencies also sent a representative to the Albany warehouse in October of this year. This year we purchased items valued at \$25,589.57 for a cost of \$1,991.40. This represents a saving of \$23,598.17.

The following agencies have taken advantage of this program:

- | | |
|---------------------------|----------------------------|
| 1. Orleans County Highway | 11. Medina Police Dept. |
| 2. Kendall Highway | 12. Albion Police Dept. |
| 3. Shelby Highway | 13. Halberton Fire Dept. |
| 4. Gaines Highway | 14. Albion Fire Dept. |
| 5. Albion Highway | 15. East Shelby Fire Dept. |
| 6. Carlton Highway | 16. Kendall Fire Dept. |
| 7. Barre Highway | 17. Village of Albion |
| 8. Clarendon Fire Dept. | 18. Shelby Fire Dept. |
| 9. County Infirmary | 19. Carlton Fire Dept. |
| 10. Sheriff's Dept. | 20. Medina Fire Dept. |
2. Have met with several organizations to discuss the operations of the Natural Disaster and Civil Defense organization. Several individuals and small groups have toured the Center during the past months.

3. Attended several county school shelter drills where I observed students taking cover in case of nuclear attack. Although Orleans County has a "Go Home Plan" for all schools it may not be feasible to put this plan into effect at the time of attack. Therefore, an alternate plan must be prepared.
4. Plans and scheduling have been completed for a MBT course to begin in March of 1974. Early planning is necessary in order to have State funds set aside to pay instructors.
5. A training exercise was held for the Auxiliary Police and CD Radio Club members.
6. A new group of Auxiliary Police members was trained and placed on active volunteer duty with the Sheriff's Dept. and also participated in other CDAP activities such as directing traffic at the County 4-H Fair.
7. Several more service annexes were approved as updated during a Planning & Operations Course conducted by Cornell University.
8. Mr. Robert Willigens was again engaged to exchange radiological kits in shelters at Federal and State expense.
9. The weekly Fire Radio, Amateur, and School monitor tests have been conducted from the EOC. Donald Pritchard, Chief of Communications in Civil Defense and his staff deserve credit and thanks for this work.
10. Attended monthly Western District meetings. These meetings keep us informed and up-to-date in regard to Civil Defense programs.
11. The County Fire Service held seven (7) training courses this year. These were sponsored by the State Office for Local Government.
12. Our SCUBA team was activated on four (4) occasions. They completed another course which will bring the membership up to approximately 20.
13. The Auxiliary Police have served approximately 5,000 hours during the past year. They have served at parades, carnivals, County political functions, the County Fair, and assisted the Sheriff's Dept. on patrol and in the dispatch room.
14. A program continued through the year in conjunction with the hospitals and area doctors. Once a month a class is held for the residents who have an Advanced First Aid Card or MBT Card. These classes are held to update training and also promote relations between hospitals and volunteer rescue workers.
15. A monthly newsletter is sent to Fire Departments and Emergency Squads.
16. We received the following items on Excess Property:
 1. Carlton Highway Dept. - 1 - 2 $\frac{1}{2}$ ton truck
 2. Clarendon Highway Dept. - 1 - 2 $\frac{1}{2}$ ton truck
 3. Ridgeway Fire Dept. - 1 - 2 $\frac{1}{2}$ ton truck
 4. Carlton Fire Dept. - 1 jeep

17. The following items were purchased through this office:
1. New summer uniforms for the Auxiliary Police
 2. New electric typewriter - 50% reimbursed by Fed. Govt.
 3. Pace radio for Radio Club
 4. One monitor for Fire Station
 5. Equipment for SCUBA team
18. Our office spent many hours helping along the lake front during the severe lake erosion problem. The fire service spent one week end filling sand bags along Lake Ontario for the Town of Carlton. Sand bags were placed in the highway build-ings in Carlton, Kendall, and Yates. Residents in those areas were able to save much of their property through the cooperation of all agencies. We attended several meetings that were held to explain the type of financial assistance that was available and how to apply for it. We were able to get flood insurance for the Town of Yates, Town of Carlton, and the Town of Kendall. Our office was turned over to the Small Business Administration officials to talk to the people who required assistance in filing claims. At this time, we are still checking with the Small Business Administration in Elmira for information regarding claims for some of the land owners. We also assisted the Village of Lyndonville in securing funds to repair damage at their water treatment plant. The Auxiliary Police and the CB Radio Club were called to Monroe County on mutual aid to help patrol the shore area to prevent looting and vandalism. I would like to thank the many people who helped me in this disaster.
19. The Fire Training Grounds which was completed and dedicated in September will be very beneficial to the fire service and citizens of this County. After complet-ion, the grounds were used an average of three times per week. This, together with the purchase of the new air compressor, is a big step forward for the fire service. The training grounds proved to be comparatively inexpensive as the various fire departments donated their time to construct most of the evolutions. The county and town highway departments also assisted in this undertaking. Most of the materials were donated by various businesses throughout the county. We feel that this was truly a community effort and would like to express our sincere appreciation to all for their help. A special thanks to the Board of Supervisors for approving such a project.
20. The new call director system which is located in the dispatch room at the County jail is working out fine. We now answer for eight (8) fire companies. A total of 458 calls were handled through this system during 1973. The system has saved a great deal of money for the companies involved.

21. The following is the number of calls the Fire Service in Orleans County responded to:

<u>DEPT.</u>	<u>FIRE CALLS</u>	<u>FALSE ALARMS</u>	<u>EMERGENCY AND AMBULANCE CALLS</u>
Albion Fire Dept.	104	11	30
Barre Fire Dept.	36	2	5
Carlton Fire Dept.	36	2	3
Clarendon Fire Dept.	41	1	82
East Shelby Fire Dept.	16	2	
Holley Fire Dept.	41		125
Hulberton Fire Dept.	28	1	2
Kendall Fire Dept.	19	1	113
Lyndonville Fire Dept.	43		
Medina Fire Dept.	74	23	656
Morton Fire Dept.	20		5
Ridgeway Fire Dept.	38	3	
Shelby Fire Dept.	28	2	13

22. I have enjoyed attending arson school in Rochester and feel it will be very beneficial to our county.
23. I also attended several USDA meetings during the year

This office wishes to express our appreciation to the Orleans County Board of Supervisors, other county departments and agencies and the many other organizations that we have worked with during the past year.

Respectfully submitted,

David M. Green, Director
Orleans County Office of
Natural Disaster and Civil Defense

ANNUAL REPORT OF
ORLEANS COUNTY VETERANS SERVICE AGENCY

1973

This office is maintained by the County of Orleans to provide veterans and their dependents with assistance and counsel in obtaining benefits which they are entitled to by virtue of their military service in the U.S. Armed Forces. During 1973, a total of 5,478 contacts were made and 5,772 services rendered. Despite the ending of U.S. participation in the Viet Nam War in 1973, the demand for services of this office were virtually the same as in 1972. Please see the attached for a statistical summary of the services rendered by this office.

Monetary benefits paid to veteran beneficiaries by the Veterans Administration were increased and will exceed an estimated \$2,000,000.

In 1973, veterans from this county were afforded 4,959 days of hospital care at the Batavia Veterans Administration Hospital, 1,944 days at the Buffalo Veterans Administration Hospital and an estimated 1,200 in other Veterans Administration Hospitals for a total of 8,103. Again, this figure is slightly reduced from the previous for two reasons. First, increased usage of Medicare benefits and secondly, the Veterans Administration now furnishes more out-patient care rather than admitting veterans to bed care. The 8,103 days of bed care represents approximately \$600,000 in medical services to veterans who are residents of this county.

During 1973, a total of fifty-five veterans died leaving an estimated veteran population in the county of approximately 5,100. When the local Selective Service Board was moved from Albion to Batavia in 1973, this office took upon itself the added responsibility of registering eighteen-year-olds, as required by the Selective Service Law.

During 1973, Congress enacted legislation increasing veterans and their dependents pension by 10 percent. This was the major piece of legislation affecting veterans.

This office expresses its appreciation to the Board of Supervisors, to other Orleans County Departments, to the management and staff of the Veterans Administration Regional Office at Buffalo and to the Department Service Officer of the American Legion and Veterans of Foreign Wars and especially to the staffs of the Batavia, Buffalo and Canandaigua Veterans Administration Hospitals for the fine working relationship which we have established and enjoyed over the years.

Respectively submitted,

WILLIAM H. MURRAY,
Director

14 COMPUTING FULL VALUATION

For Towns, full valuation of taxable real property is determined by use of values of taxable real property as assessed in 1972 and used for levying taxes for 1973 and the State Equalization Rate based upon such values. For Villages, full valuation is computed by application of the last State Equalization Rate established, prior to the time in the current year that apportionment is made, to the then current assessment roll.

15 PAYMENTS BY PARTICIPANTS

The amount due from each participating town in the self-insurance plan shall be included in the next succeeding tax levy against property taxable by the participant responsible therefor and, when collected, such amount shall be paid over to the County Treasurer not later than February 1, 1974.

The amount due from each participating village, as its share of the annual estimate of expenses of the plan for the fiscal year beginning January 1, 1974, shall be paid the County Treasurer within thirty days after June 1, 1974, the commencement date of such participant's fiscal year.

The county's share of estimated expenses based upon the aggregate of full valuation of all towns as outlined above shall be payable not later than February 1, 1974.

All such assessments received by the County Treasurer shall be credited to the Orleans County Self-Insurance Fund.

REPORT FOR THE ORLEANS COUNTY

DEPARTMENT OF HISTORY

January 1, 1973 — December 31, 1973

Although the historian plans to devote afternoons to office work, it has been necessary to work many evenings during the past year in order to comply with the increased requests for talks before various groups.

Talks on our cobblestone heritage and the canal, illustrated with slides, have been given in Monroe and Ontario Counties as well as various groups in this county. Discussions on local history have been conducted at Albion Grammar, Junior and Senior High Schools as well as other organizations. Classes from St. Joseph's School and Albion High have visited the office from which point the historian conducted a tour of the Court House and county offices with accompanying discourse on county government and significant history of the Court House Square.

Girl and Boy Scouts have been helped with citizenship awards and students from colleges at Buffalo, Geneseo, Brockport and RIT as well as county high schools have been given aid in doing research in various subjects.

AFS students as well as several busloads of people have been given tours of the Cobblestone Museum buildings with accompanying talks on our local history. The historian also arranged a bus tour for a Buffalo group to visit the Court House, surrounding churches, DAR House and cobblestone buildings.

As an active member of the Cobblestone Board, the historian assisted in setting up the annual house tour. This was a feature of Wayne County's Sesqui-centennial celebration. Proceeds from these tours help to maintain our museum.

In addition to a weekly newspaper contribution on history, the historian assisted the coordinator of Extension Services in doing the writeup for a self-conducted historical tour of the county. Help was also given the committee which arranged for the printing of a new county map. This contained a brief history of the county and pictures on pertinent subjects. Assistance has also been given where possible to those doing genealogical research.

Each county in the State was requested to send a painting, picture or artifact which could be used in a display in the Albany office of Senator John R. Dunne in the recently completed

Senate Office Building. This office, accordingly, arranged for 8" x 10" photographs to be taken of the Court House and Cobblestone Church which were framed and sent to Albany, together with a sample of cobblestones and a history of their origin and use in building.

Meetings and workshops attended outside the county include the Spring meeting of the New York State County Historians' Association in Utica and Fall meeting in Troy as well as the Congress of Local Historical Societies in Evans, Genesee County Historical Society in Wayne County and Buffalo and Erie County Historical Society in Buffalo.

1973 found the county mourning the untimely death of its newly elected Assemblyman William Knights, Jr. It saw the opening of 8½ miles of Lake Ontario Parkway between Kendall and Point Breeze, thus making it possible to drive from Lakeside to Rochester via this highway. The worst storm in years battered the shores of Lake Ontario with great damage to property. Carlken Manor opened with 30 families receiving keys to apartments on Baker Road in Carlton. Oak Orchard Yacht Club built a new club house on the west side of the river south of the harbor.

Meals-on-Wheels was introduced in the Medina area and has proved a boon to shut-ins and elderly people unable to cook for themselves. Glad Tidings Baptist Church was dedicated in Medina while Fisher Price opened a new warehouse and Orchard Manor, a facility for the aged, opened on Bates Road.

Liberty Bank and Marine Midland both opened drive-in windows in Albion. Here too, the first woman mayor was elected and Albion's new high school opened for the Fall Semester. Albion Town residents protested the dumping of Monroe County trash in the Yager Road Landfill. Cider apples hit an all-time high at \$7.50 cwt. and due to the energy crisis, water remains in the canal during the winter for use in creating electric power.

The resignation of County Judge Kenneth Serve' took place at year's end and two new members were elected to the Board of Supervisors. Walter Zelazny, Dem. represents the Town of Shelby and James Piedmonte, Rep., comes from the Town of Murray.

Respectfully submitted,

Cary H. Lattin, Historian

ULDINE D. JURHS
Clerk of the Board

ORGANIZATION MEETING

Thursday, January 3, 1974

The Organization Meeting of the Orleans County Board of Supervisors was held in the Supervisors' Room in the County Court House, Albion, New York, on Thursday, January 3, 1974.

The meeting was called to order at 10:30 A.M., by the Clerk, Uldine D. Jurhs; Supervisors representing the ten towns in the county responded to roll call as follows:

Maynard Reed	Albion
George L. Batchellor	Barre
Clayton Plummer	Carlton
Albert Kemp	Clarendon
Theodore Swiercznski	Gaines
Michael Paduchak	Kendall
James Piedimonte	Murray
Stanley R. Kubatek	Ridgeway
Walter Zelazny	Shelby
George W. Bane	Yates

The Clerk announced that the first order of business was the election of a Temporary Chairman, and called for nominations. It was moved by Supervisor Batchellor and seconded by Supervisor Kubatek that Supervisor Kemp be nominated Temporary Chairman. There being no further nominations, it was moved by Supervisor Batchellor and seconded by Supervisor Bane that nominations be closed, motion carried. The Clerk declared Supervisor Kemp Temporary Chairman and presented the gavel to him.

Temporary Chairman Kemp called for nominations for Permanent Chairman for the year 1974. It was moved by Supervisor Kubatek that Supervisor Maynard Reed be nominated for Permanent Chairman for the year 1974; seconded by Supervisor Plummer; Supervisor Swiercznski moved nominations be closed, seconded by Supervisor Bane. The Clerk called the roll and Supervisor Reed was unanimously elected Chairman for the year 1974. Supervisor Kemp appointed Supervisors' Batchellor and Paduchak to escort the new Chairman to the Chair.

Chairman Reed thanked the members for the honor of being Chairman and said with everyone's help we will have a successful year.

Chairman Reed said the next order of business will be nominations for Clerk.

It was moved by Supervisor Batchellor and seconded by Supervisor Bane that Mrs. Uldine D. Jurhs be nominated to succeed herself at the salary as set in the 1974 salary schedule. Chairman Reed asked if there were any other nominations for Clerk; there being none, Supervisor Swiercznski moved, seconded by Supervisor Bane, that nominations be closed. Mrs. Jurhs was unanimously appointed Clerk for the year 1974.

RESOLUTION NO. 1

By Supervisor Swiercznski, who moved the adoption.

Seconded by Supervisor Kubatek.

RESOLUTION APPOINTING COUNTY ATTORNEY

RESOLVED, that Sanford L. Church, of Albion, New York, be, and he hereby is, appointed County Attorney to act as Attorney for the Board of Supervisors, the County of Orleans, and the County Officers, for a term of two years, at a salary of \$10,000 per annum, such salary to be payable at the time and in the manner the salaries of other county officers are paid; and, that in addition thereto, the reasonable disbursement and expenses of the County Attorney incurred in the conduct of County business shall be paid upon the usual monthly vouchers to be audited by this Board of Supervisors.

Unanimously adopted upon roll call vote.

Chairman Reed asked if any old members wished to change seats — the new members were seated.

Recessed at 10:40 A.M., for the Chairman, Clerk and County Attorney to take their oaths of office.

Reconvened at 10:50 A.M.

Privilege of the floor was granted to Mr. Paul Acri, Orleans County Taxpayers Association. Mr. Acri stated that he had found one error in the list of salaries published in the newspaper. Chairman Reed said there were many more than that and you were wrong to publish misleading material.

Mr. Acri presented pages from the Proceedings showing the Supervisors' Compensation Table for the past three years. He said you say you have more work but your expense accounts have not gone up. We still feel an increase in salary is not justified.

Supervisor Kubatek said "I think the Taxpayers Association are sincere in what they are trying to do but I have gone over the time we have to spend on the work of the Board and I think the increase in salary is justified.

Mr. Acri said we would like a breakdown of the expense accounts — how many miles traveled, etc. We would like to have a record of the committee meetings so that we can see just how much time you spend. Supervisor Batchellor said the expense accounts are on file but they can not be taken out of the office. Mr. Acri thanked the Board for their time.

RESOLUTION NO. 2

By Supervisor Paduchak, who moved the adoption.

Seconded by Supervisor Batchellor.

RESOLUTION AMENDING RULES OF PROCEDURE

RESOLVED, that the Rules of Procedure of this Board as adopted January 6, 1947, and subsequently amended, be amended to read as follows:

Rule No. 2 — Monthly Meetings

The regular meetings of the Board after the said annual meeting shall be held on the first and third Thursday of each month, unless said first Thursday shall fall on a holiday, or on the first day of the month, in which event the meetings shall be held on the second and fourth Thursday of the month, the second meeting of the month shall be held in the evening. Any meeting may be adjourned to such date as may be fixed by the adjournment motion.

Rule No. 21 — Majority and Minority Leaders

TO: Orleans County Board of Supervisors

FROM: Lyell Caleb, Chairman
Orleans County Fire Advisory Board

SUBJECT: Recommendation — Fire Coordinator

Dear Chairman and Board Members:

On behalf of the Fire Service of Orleans County, this Advisory Board sincerely recommends that David M. Green be retained as Director of the Orleans County Office of Natural Disaster and Civil Defense.

His dedication to the Fire Service has manifested itself in the many improvements in the program under his leadership. May we refer to some of his accomplishments:

1. Completion of Fire Training Grounds at a nominal cost that should contribute vitally to the improvements of all local Fire Depts.

2. The vastly improved fire dispatching system installed at the Sheriff's Office with eight (8) departments utilizing it at present.

3. Installation of County owned air compressor to supply all departments with tanks of pure air vital to an efficient fire grounds.

4. He is constantly attempting to increase his knowledge by attending fire coordinators conferences and workshops, and only recently completed intensive training with the Rochester Fire Dept. Arson Squad. This experience should prove invaluable in the investigation of fires of suspicious origin.

We feel that at a time when the costs of public services are constantly on the increase it is imperative in that everything possible be done to guarantee the continued existence of the **VOLUNTEER** Fire Service.

We are convinced that with David M. Green as coordinator, the County can be assured in his helping to continue the Orleans County Fire Service in the tradition the people of this County Have come to expect and respect.

Sincerely yours,

Lyell Caleb
Chairman

Supervisor Piedimonte said he had a call from the Holley Fire Chief asking support for Mr. Green's appointment.

Mr. Uldine D. Jurhs, Clerk
Orleans County Board of Supervisors
Court House
Albion, New York 14411

Dear Mr. Jurhs:

This is in response to your letter of 4 January 1974, forwarding a copy of Resolution No. 228 adopted by the Board on 13 December 1973, relative to the flooding which occurred in Orleans County during 1973.

Under the Presidential declaration of major disaster on 21 March 1973, the duration of the catastrophe causing the damage was established as the period 16 March 1973 through 23 March 1973. Federal regulations provide a period of not more than 90 days after the date of declaration as the time frame within which applications for Federal assistance must be filed. Acting under his authority to amend this period, the Federal Coordinating Officer established 21 April 1973 as the deadline for receipt of project applications. County Civil Defense Directors were notified of this deadline on 13 April 1973 and were instructed to notify all applicants and potential applicants. Only the Village of Lyndonville in Orleans County filed for such assistance.

It is noted that a copy of the resolution was sent by you to the Office of Emergency Preparedness (now Federal Disaster Assistance Administration).

With respect to the replacement of or payments for sand and other materials by the Corps of Engineers, it is not known on what basis this claim is made. It is assumed that the materials

were used in Operation Foresight. Normally, however, the furnishing of materials is a local responsibility and contribution under Operation Foresight. A copy of the resolution is being sent to the Buffalo District, Corps of Engineers, so that a check can be made whether there was any deviation from normal policy.

Sincerely,

ARNOLD W. GRUSHKY
Deputy Director of Civil
Defense

The Chairman read the following letter and requested approval of the Board to sign in the name of the County.

Dear Livestock Owner,

Since a large percentage of our local economy is based on agriculture, we need you and your contribution to our economy and we wish to take steps toward forestalling any possible adverse public opinion, which might result in criticism and possible financial loss to yourself or the community.

As you are all familiar with the everyday phrase "agriculture related pollution" and the problems livestock owners are having in dispensing of both solid and liquid wastes, and because of proposed "rules and standards of performance" set forth by the E.P.A. to become effective July 1, 1977, we the Orleans County Board of Supervisors, Orleans County Soil & Water Conservation District, Orleans County Cooperative Extension Service, and the Agricultural and Stabilization Conservation Service, and the Orleans County Planning Board would like to ask for your careful consideration of the problem which is bound to confront all of us.

We feel that by planning now and working together we may be able to forestall more **drastic** and **disagreeable** measures which might be forced on us at some future date. We may possibly be able to solve some problems that livestock men will be con-

fronted with in this area of concern. By establishing locations of existing high concentration of livestock, it would help the planning board direct future development to areas least affected by livestock wastes.

As most of you are co-operators in the Orleans County Soil & Water Conservation District, we feel this is a very good time of year to review or revise your farm conservation plan. If you aren't, we would be pleased to have you become one. If you wish, you may call 589-5959 for an appointment either at your farm or here in the office, at 20 South Main Street, Albion, New York or stop at the office any weekday, 8:00 a.m. - 4:30 p.m. at your convenience.

We feel that with good conservation practices and a little cooperation and understanding with everyone, that the majority of the pollution problems due to agriculture waste in Orleans County can be solved.

Sincerely yours,

Orleans County Soil & Water
Cons. Dist. Chairman

Orleans County Planning Board
Chairman

Maynard Reed
Orleans County Board of Supervisors
Chairman

It was moved by Supervisor Swiercznski and seconded by Supervisor Piedimonte that the Chairman be authorized to sign the above letter.

Supervisor Bane announced that the Republican members of the Board had chosen Supervisor Michael Paduchak to be Minority Leader.

Supervisor Swiercznski said "that the Taxpayers group was probably trying to do the right thing, but that they should get their facts straight". He said that the salary of the Supervisors published in the newspapers by the Taxpayers Association were incorrect, and that the statement of the Group saying Supervisors spend only 40 hours a year on Board business was inaccurate. He said that minutes of meetings of the Board of Health, Mental Health, etc., which Supervisors are required to attend are available for the Group to look at. Supervisor Swiercznski said I have personally gone over my records and can account for

at least 400 hours spent on County business and that does not include telephone calls and other things. I am sure the other Supervisors have about the same amount of time spent on County business.

Supervisor Paduchak said the members of this Board are sick and tired of being ridiculed in the newspapers as doing nothing. I think the public has had enough confidence in us to put us in office and feel we are doing a good job.

Supervisor Piedimonte said I have found out that this job takes a lot more time than I thought it would. I think a Supervisor probably gets about 10 cents an hour. I was called at 4:00 a.m., the other morning because the gates were down at a railroad crossing and a bus was being held up there — I went out and directed traffic.

Supervisor Piedimonte said the Town Highway Superintendents are alarmed about the way the State is taking over sanding and plowing state roads.

It was suggested that a copy of Resolution No. 168 of 1972 be sent to Bernard Perry, Regional Director of DOT, Senator Paterson and Assemblyman Hawley.

Further discussion of the state taking over sanding and plowing of state roads took place.

Recessed for five minutes at 9:50 p.m., reconvened at 9:55 p.m.

Supervisor Swiercznski announced that Supervisor Kubatek had been chosen Majority Leader by the Democrat members of the Board.

Adjourned at 10:00 p.m., until February 7, 1974 at 1:30 p.m.

Privilege of the floor was granted to Mr. Charles Pulley, Director of the Orleans Community Action Committee, Inc. Mr. Pulley requested support from the Board of Supervisors in obtaining a Local Government Communications license. The following resolution was adopted.

RESOLUTION NO. 32

By Supervisor Swiercznski, who moved the adoption.

Seconded by Supervisor Piedimonte.

RESOLUTION SUPPORTING LOCAL GOVERNMENT COMMUNICATIONS LICENSE FOR ORLEANS COMMUNITY ACTION COMMITTEE, INC.

RESOLVED, that the Orleans County Board of Supervisors supports the application of Orleans Community Action Committee, Inc., for a Local Government Communications License, and

WHEREAS, the Orleans Community Action Committee, Inc., was established by resolution of the Orleans County Board of Supervisors in September, 1965. We maintain a representation on the agency's Board of Directors and contribute to the financial support of the agency, be it therefore

RESOLVED, that the Orleans County Board of Supervisors does endorse the Orleans Community Action Committee, Inc., proposed county-wide transportation system, and feel that it will greatly alleviate the transportation problems in the County of Orleans.

Unanimously adopted.

Mr. Pulley also presented the following proposal for the CAC office to be the coordinating office for the energy crisis. The proposal was tabled.

THE ENERGY CRISIS AND ORLEANS COUNTY

1. Introduction:

The Citizens of Orleans County felt the impact of the energy crisis almost immediately. Fuel and gasoline prices are still rising. More and more industries that employ our citizens are beginning to lay-off as a result of the energy crisis.

The poor of Orleans County have been effected the most severely of any of our citizens. It is the poor who live in sub-standard housing without storm windows, efficient heating systems, and other weather proofing measures to conserve fuel. It is the poor who live on fixed, limited incomes and cannot absorb fuel cost increases. It is the poor who will first be immobilized by rising gasoline prices.

Orleans Community Action Committee, in its' role as representative and advocate of poor, is involving itself at many levels in the energy crisis. The agency already has programs to meet the energy crisis, and is preparing an energy-crisis program package for funding. Although we have not been advised of any additional funding presently available, indications are that there will be funds available in the future from state or federal sources.

Orleans Community Action Committee, Inc. is requesting that the Board of Supervisors designate this agency as the agency to coordinate local programs to meet the energy crisis.

2. The Fuel Crisis in Orleans County

Local fuel companies have averaged a 8½ cent increase in fuel oil cost and 10 cents or more increase in Kerosine cost per gallon since November 1973. The Interdepartmental Fuel and Energy Committee, New York State's allotment board for heat fuel, estimates that the average home uses between 1800 and 2000 gallons of heating oil per year. About 50 percent or 60 percent is used during the coldest months of the year. If 50 percent of the total consumption takes place in three months, that means that a total fuel consumption of 900 gallons, (at the 1800 gallon per year rate), or 300 gallons per month. This figure may seem high in that according to some local oil dealers, a 6-room house with an efficient furnace and insulated average only about 250 gallons of fuel per month during the three or four coldest months. However, it is a good estimate for substandard housing that most poor people live in.

At 35 cents a gallon, 300 gallons of heating oil costs \$112.00 (tax included). That is 17 percent of the **gross monthly earnings**

of someone who earns \$8000 a year. At \$7000 a year it is 19 percent of the gross income — at \$6000, 22 percent; \$5000, 27 percent; \$4000, 34 percent; \$3000, 45 percent; \$2000, 67 percent. (The percentages, especially in the cases of \$6,000 to \$8,000 per year, are actually higher because of deduction for taxes).

These prices mean that even our middle income families will feel the pinch and that low-income families may not be able to get fuel at all.

Some of the fuel companies in this county were surveyed to determine policies on fuel deliveries. One fuel company will not deliver less than 100 gallons. Many times the poor cannot afford this much fuel at one time or do not have large enough storage tanks. Some of the fuel companies also deliver only on C.O.D. basis, this may also be a problem for the poor. Many poor families have credit problems for one reason or another and their applications for credit are rejected by the companies. The present form of federal allocation program for heating oil, and the proposed ones, makes no provision for assuring emergency oil deliveries to those who have no oil.

We have received approval to use funds under our O.E.O. grant for Emergency Food and Medical Services to meet emergency fuel needs of low-income persons. In one instance, a family had not received their first Supplemental Security Income check. The oil company policy was C.O.D. deliveries. Community Action Committee authorized delivery and assumed responsibility for payment after 30 days. In another case, a disabled man living alone had spent his social services fuel allotment of \$15.50 per month and had no money to purchase Kerosine. This man had been walking to a local service station getting Kerosine in 5 gallon cans, with several broken ribs. We purchased Kerosine for him with Emergency Food and Medical Service funds.

In response to the immediate needs of the poor living in substandard housing, Community Action and the staff of People's Opportunity instituted a "Button-Up Program" in late December. This program provides manpower (People's Opportunity staff) and material from Emergency Food and Medical Services Fund) for temporary weatherproofing measures such as plastic for windows and caulking. Plans are being made to expand this program.

The need for a convenient, reliable, economical means of transportation for the poor and elderly has long been recognized in this county. That need has increased due to the energy crisis. The Community Action Transportation System will be in operation by April 1, 1974 to meet this need.

3. Community Action: Energy Crisis Center

We feel that Community Action is the logical agency to act as coordinator of programs and services to meet the energy crisis for the following reasons: a) We have some flexibility of funds under Emergency Food and Medical Services and up to 10 percent of our O.E.O. 221 program account could be channeled to meet the energy crisis. b) We have paid staff to handle emergencies. c) Our office is open from 9 to 5 weekdays to receive calls and disperse information. d) Our agency serves the poor who will be most affected by the energy crisis. e) This agency has been the grantee for most federally funded programs and indications are that energy crisis funds will come from the federal level.

Our proposed operation as the Energy Crisis Center will include the following areas: a) Be an information center and an educational medium. b) Have access to emergency supplies of kerosine and firewood for weekends and breakdown period of usual suppliers. c) Establish "hot lines" for emergency fuel and food. d) Disseminate energy-saving tips. e) Act as ombudsmen for the poor in consumer affairs. f) Receive funds and monitor services provided with these funds. g) Central clearinghouse for people's heating or fuel problems. h) Establish "Energy Alert" program where one person is to be the channel of communication for information from federal level to the overall community. i) Ensure that all flexibility in federal grant aid programs is utilized to deal with the energy crisis. j) Aid local government in developing "Castastrophe Plan". k) Assure allocations for the area of needed energy fuels.

Chairman Reed introduced Mr. Jeffrey Astles, the new County Planning Director.

Raymond Pahura was granted the privilege of the floor. Mr. Pahura described the present status of the "Morrison Site". He said it would be some time before any atomic energy plant could be built on the site even if it were decided to build one. At the present time the New York Gas & Electric Co. plan to make more tests to determine if the site should be used as an alternate site.

Mr. Pahura also talked about the Emergency Employment Act Program which will terminate on March 31, 1974. The County will have received approximately \$296,278.00 from the program which has been very beneficial to the economy of the County.

REGULAR MONTHLY MEETING

Thursday, March 21, 1974

The meeting was called to order at 8:00 p.m., by the Chairman. The Clerk called the roll and all Supervisors were found present except Supervisor Plummer who was excused.

Privilege of the floor was granted to Mrs. Cathy Mack, Chairman of the Task Force Committee responsible for the "Survey of the Need for Inpatient Beds in Orleans County". Mrs. Mack reviewed the study and explained how the study was conducted. Dr. John Hill from the Genesee Region Health Planning Council reviewed certain aspects of the survey and answered questions from the Board. Dr. Hill recommended that the recommendation for an independent audit of patient costs be conducted for the County Home and Infirmary and Orchard Manor Nursing Home to determine if the County is receiving full reimbursement for medicaid patients. He cited taxes paid by the Orchard Manor and the reimbursement aspects of patient care as revenues that should be considered and said an audit could go a long way in determining patient costs and point the way to the least expensive methods of care.

Dr. Harvey Blanchet replied that the audit could have restricting effects on future health programs in the county. He said that health officials at the higher levels of state government might use such an audit as the determining factor in supporting county-level health programs.

Supervisor Batchellor said we have no choice but to accept the report and introduced the following resolution:

21 March 1974

TO: Orleans County Supervisors, Mayors,
Fire Chiefs, Police Chiefs, Highway
Superintendents, and Dept. Heads

FROM: David M. Green, Director
Orleans County Office of
Natural Disaster and Civil Defense

SUBJECT: Emergency Energy Information

Gentlemen:

I would like to bring the following information to your attention regarding things that have been done to improve the gasoline situation in our County of Orleans.

On Thursday 14 March 1974 I met with the distributors serving this county to work out a program for equal distribution of gasoline that may come into our county. On Saturday 16 March 1974, I attended a meeting in Albany that was called by General O'Hara to update energy coordinators on recent developments. Another meeting with the local distributors was held on Monday 18 March 1974 to discuss the outcome of the Albany meeting.

I am now in the process of sending a form letter to all service station operators explaining what is being done to help them during the gasoline shortage and to inform them of new developments. We are also available to assist them with any individual problems that they may have in regard to certain odd and even rules.

A letter is also being sent to Albany explaining our particular situation as being a rural area with major industry being farming, and many of our residents working outside of our County. We are in hopes that this will mean a greater fuel allocation for us.

We recently received a complete list of all retail sellers of gasoline in Orleans County. I also attended a meeting with the Regional Planning Board and they are in the process of preparing maps with all service stations spotted which will help in personal contact with these people.

Since emergency services and vehicles have certain exemptions, any questions should be directed to this office.

If I can be of any assistance to you or the people you serve please call and I will try to help in any way possible.

Sincerely yours,

David M. Green
Director

DMG-slm

(1) Considering that State funds were utilized in the development and construction of the above-mentioned facility, the operation of that State Park should be expanded to allow maximum use by the taxpayers of this area and State.

(2) Considering the present energy crisis with all its implications, maximum use of the facility would reduce the need for vacation travel and the consumption of limited gasoline used for this purpose.

It was moved by Supervisor Kubatek and seconded by Supervisor Swiercznski that the above petition be referred to the Genesee State Park Commission and the representatives of Orleans County in the New York State Legislature.

Carried.

Privilege of the floor was granted to Mrs. Ann Golisano, Self-Insurance Administrator. Mrs. Golisano informed the Board that many people covered by the County Self-Insurance program had not submitted physical examination forms to her office as provided for in the County Salary Schedule and the resolution adopted establishing the Self-Insurance Program. Mrs. Golisano said she was particularly concerned because she had no records of any volunteer firemen having had physicals and that they make up the majority of persons covered by insurance. She said there are some 1,236 firemen under the insurance plan. Many Supervisors expressed surprise that firemen were covered under the plan. Mrs. Golisano cited some examples where someone was injured and without a previous physical exam claimed injury for what could have been a long standing condition. She said the insurance fund has a reserve of about \$160,000.00. It was noted that this would not go far if for example twenty firemen were killed fighting a fire. The insurance committee requested Mrs. Golisano to set up a meeting with the committee, the insurance attorney and any interested Supervisors to determine a course of action to remedy the situation.

Privilege of the floor was granted to Mr. James Hancock, Administrator of the Neighborhood Youth Corps In-School and Out-of-School programs. given to such a project from FRS monies. The Clerk was instructed to write to Father Moss and explain the situation.

The salary for District Attorney would have to be about the same as the Judge. A full-time investigator, secretary, etc. for both DA and Public Defender would be needed and even perhaps a car. Supervisor Paduchak reported that legislation is pending in Albany which may change the population requirements for a full-time DA from the present 100,000 to 40,000. He said it will take a while to get more facts together before we can determine if we need a full-time District Attorney.

Guidelines have not yet been received from the Federal Government and until we do receive more information there are some employees who will be considered exempt.

Carried.

Privilege of the floor was granted to Dr. Stockdale, State Department of Social Services, to explain the policy of moving patients from the County Infirmary to other Nursing Homes and Health-Related Facilities. Dr. Stockdale explained that he and his assistants, along with the staff of the Infirmary, evaluate the patients to see if they qualify for a lower level of care and if it is decided that the patient can be moved, the family is called in and the situation is explained to them. Members of the Board questioned whether it was fair to move the patient from a familiar environment when they did not want to be moved. After much discussion the Board and Dr. Stockdale agreed that in the future patients and their families should be made to understand that if the patient improved the possibility of their being moved did exist. It was also agreed that great consideration should be given to the present patients and their families before moving them against their desire.

Supervisor Batchellor, Chairman of the Building Committee, informed the Board that there is a problem with loitering and littering in the parking lot at the Court House. The Sheriff told Supervisor Batchellor that nothing can be done unless the person is caught in the act of littering. A fence was suggested but it was felt more study of the situation was required. It was decided that signs reading "No Loitering and Littering" should be placed in the parking area. The matter was referred to the Building Committee. Supervisor Paduchak and the Probation Committee were also requested to contact the Probation Department and ask them to contact the young people using the parking lot and have a talk with them about the problem.

It was moved by Supervisor Kubatek and seconded by Supervisor Kemp that three members of the Department of Social Services staff be authorized to attend a meeting at Glenmont, N.Y., on June 4 and 5, 1974, at county expense.

RESOLUTION SETTING REGULATIONS FOR VETERANS BURIALS

WHEREAS, the County of Orleans, has from time to time obtained by purchase or otherwise burial plots in the various cemeteries situate within the County of Orleans which plots are to be used for the burial of veterans of the Armed Forces of the United States or members of the Armed Forces of the United States pursuant to the provisions of Section 222 of the County Law of the State of New York, and

WHEREAS, by regulation adopted in 1947, the county policy that the remains of any "veteran" may be buried in such veteran's plots was adopted, and

WHEREAS, there is no central agency designated at this time to authorize the use of these plots on behalf of the County of Orleans nor is there any agency designated to investigate into the eligibility for the remains of any such person to be buried in the plot, and

WHEREAS, in recent months there have been occasions where residents of counties other than the County of Orleans have been buried in the veterans' plots obtained by the County of Orleans and owned by the County of Orleans, and further, there have been instances where a person other than an honorably discharged veteran was interred in the veterans' plots, all without the authority or permission of the County of Orleans or any agency or officer thereof, and

WHEREAS, it appears to this Board that the rules and regulations regarding the use of "veterans' plots" in the various cemeteries within the County of Orleans need to be made more definite and clarified to eliminate confusion among the undertakers and operators of the various cemeteries within the County of Orleans.

NOW THEREFORE, upon the recommendation of William H. Murray, Director of Orleans County Veterans Service Agency, it is hereby resolved that the Orleans County Board of Supervisors adopt the following regulations for the interment of the remains of veterans or members of the Armed Forces of the United States in the various burial plots obtained by the County of Orleans in the cemeteries within the County of Orleans for the purpose of the burial of such remains:

1. The Orleans County Veterans Service Agency, through the Director thereof, is hereby designated the sole agency to authorize the burial of the remains of veterans and members of the Armed Forces in said plots. Requests for such authority shall be made in writing to the Director of the Orleans County Veterans Service Agency and approval therefore granted prior to the opening of any gravesite for the purpose of the burial of such remains. Such application and authorization shall be made on such forms as the Orleans County Veterans Service Agency from time to time promulgates.

2. To be found eligible for burial in the said "burial plots", the veteran must meet the following criteria: (a) His or her last period of service in the U.S. Armed Forces must have been terminated under honorable conditions. (b) That the deceased was, at the time of his death, a legal resident or domiciliary of the County of Orleans or that deceased died within the geographic boundaries of the County of Orleans and the remains have been unclaimed by family, next of kin or other interested persons.

3. A member of the U.S. Armed Forces, on active duty with such armed forces, at the time of his or her death shall also be eligible in said burial plots.

4. Eligibility for burial in said "burial plots" of the remains of either veterans or members of the armed forces shall be determined solely by the Orleans County Veterans Service Agency, or its designated official. In the event that the family or next of kin of the deceased objects to the finding of ineligibility by the Veterans Service Agency, such family or next of kin may appeal in writing to the Orleans County Board of Supervisors for reconsideration. Upon such appeal, the Board of Supervisors shall consult with the Veterans Service Agency, or its designated officer, make a determination as to the correctness of the Veterans Service Agency's finding and report its determination, in writing, to the person or persons making the appeal.

5. These regulations may be amended or modified at any time by the Orleans County Board of Supervisors upon a majority vote of said Board.

6. These rules and regulations shall become effective immediately upon adoption by the Orleans County Board of Supervisors.

REGULAR MEETING
Thursday, June 6, 1974

The meeting was called to order by the Chairman at 10:20 a.m. The Clerk called the roll and all Supervisors were found present.

It was moved by Supervisor Swiercznski and seconded by Supervisor Bane that the reading of the minutes of the previous meeting be dispensed with and the same approved as prepared by the Clerk.

The following letter was read by the Clerk.

May 22, 1974

Mr. Maynard Reed, Chairman
Board of Supervisors
County Court House
Albion, New York 14411

Dear Maynard:

I am writing to you to inform you of a cooperative program that our BOCES and Genesee Community College will probably be involved with this next year. The State University Board of Trustees recently passed regulations permitting a community college to offer any of their programs physically in any adjacent county where no community college exists, provided that some educational unit agrees to act as co-sponsor. I expect that our BOCES board will agree to be that co-sponsor at their next meeting on the 28th of May.

Under this program, we would make arrangements with one of the county school districts to house the program in their facilities after normal school hours. They would be paid for the cost of keeping the building open, etc., by Genesee Community College. (We hope to make arrangements with Albion Central School.) Once this program is established, adults and high school graduates in Orleans County would be able to take almost any course in the Genesee Community College catalog without having to drive to Batavia. (In future years such a program might be available to high school youth as an advanced placement program.) Each person would pay his tuition at the normal credit hour rate, currently \$18.50.

There is a slight implication for the county. The county would contribute their 1 / 3 share of each full time equivalent student just as they now do for full time students attending Genesee Community College in Batavia. Whether this will result in any significant increase or not remains to be seen after an interest survey is taken and potential enrollments are determined. I would judge that this would be minimal for 1974.

I truly believe that this is a wonderful opportunity for the residents of Orleans County. They can have the benefit of college level courses right in their back yard without the expense of capital construction and other costs of a resident institution.

Please be assured that BOCES, as potential co-sponsor, will have the interests of Orleans County foremost in mind in any agreements made with Genesee Community College. There should be no real problems — we've already established a fine working relationship between the two units.

If you have questions, I'll be glad to meet with you or the Board. I'm sure that Dr. Robbins, President of Genesee Community College would be more than glad to discuss this also. Please feel free to call me and I can make necessary arrangements.

Sincerely,

Richard D. Sparks
District Superintendent

dlp

cc: Dr. Cornelius Robbins

Privilege of the floor was granted to Mr. Richard Sparks. Mr. Sparks discussed the program outlined in the above letter. He stated that the actual financial effect on the County could not be known but at the present time the breakdown on costs for a full-time student at Genesee Community College was \$2,150.00 — the State paying \$750.00; Student paying \$550.00; and County of residence paying \$850.00; or \$30.00 per credit hour. Most courses could be taught through this program if there are at least 10-12 students interested in taking a course. The courses would be in the evening hours. Mr. Sparks said the survey which will be conducted in the County to get an idea of the number of persons interested in taking courses should be completed by August and the first classes should begin during the fall term. BOCES will act as the "watch-dog" for the program.

James Hancock was granted the privilege of the floor. Mr. Hancock told the Board that the County Manpower Program had received a grant for the coming year of \$178,695.00 for on-

the-job training programs, institutional training, youth work experience and adult work experience. The Employment Service Office will administer the OJT and institutional training programs but the County will be held accountable for the funds and how they are spent. Mr. Hancock suggested that the County have a contract with the Employment Service on how these funds are to be spent. He also suggested that there should be one person who can be contacted to find out about all the manpower programs. Supervisor Paduchak asked how the funds were broken down as far as administrative costs go. Mr. Hancock said it is 20 percent which goes for administrative costs and 80 percent for the clients. Discussion followed and the following resolution was introduced.

RESOLUTION NO. 120

By Supervisor Paduchak, who moved the adoption.

Seconded by Supervisor Piedimonte.

RESOLUTION APPOINTING MANPOWER COORDINATOR FOR ORLEANS COUNTY

WHEREAS, the State and Federal Governments have revised the various programs to provide jobs within the County of Orleans, and

WHEREAS, such programs are classified generally as "Manpower Programs", and

WHEREAS, the sources of funds and types of programs included within this general classification varied considerably, now therefore be it

RESOLVED, that James Hancock be designated as the "Manpower Coordinator" for the County of Orleans to administer and coordinate all programs falling into the general category of "Manpower" under the general supervision of this Board of Supervisors. Mr. Hancock to serve as such Coordinator at the pleasure of this Board.

Unanimously adopted.

Mr. Hancock informed the Board that the County had received \$75,960.00 for the Summer Youth Work Program. Mr. Hancock said he felt that only 80 jobs could be found in the County and this would expend about \$52,000.00. These jobs have to be in non-profit organizations and municipalities. The youths receiving the jobs have to be from low income families. Mr.

Hancock suggested the remaining monies could be given to Genesee and Wyoming Counties to conduct a summer youth program.

By Supervisor Swiercznski, who moved the adoption.

Carried.

The Clerk read a letter from Congressman Conable informing the Board that the Small Business Administration would be taking applications for those eligible for loan assistance due to the flooding on May 16th and 17th. Ordered filed.

Chairman Reed said "Back on July 9, 1973, the County Planning Board recommended to the Board of Supervisors some solutions for Orleans County solid waste problems. At that time the Board passed a resolution authorizing the appointment of a Solid Waste Committee to make a study of the solid waste problem, and it was passed unanimously. Later the committee was authorized to hire an engineer to make a feasibility study for a County Landfill or another solution to the solid waste problem. At that time this was unanimously adopted by this Board. Now it's a year later and frankly I can not see where we are any farther ahead than one year ago. At this time we should make up our minds and take some action to take care of this problem or hand it back to the towns and let them handle it. What do the rest of you think?"

William Larsen, P.E., was requested to discuss the study his firm has made at the direction of the Solid Waste Committee.

Mr. Larsen said "the sequence of events we have gone through is (1) in the Fall of 1973 we did data gathering, studied past studies and made our own study. In our 1973 memo we said a landfill was the way to go. Planning Board had made recommendation to consider incineration but with the energy crisis this would not be feasible. We suggested a landfill site be picked based on waste generation which would make in it the center of west side of the County. Regarding Mr. McKenna's site the land on the south side has not been approved for a landfill." Mr. Larsen discussed other aspects of their recommendation with the Board — such as a County Landfill would be constructed through taxing all the towns but the maintenance would be paid for on a participation basis. Recycling was discussed but did not seem feasible at this time.

Supervisor Swiercznski said as Chairman of the Solid Waste Committee, it has not been an easy job to reach this stage here. We have taken criticism. Last night we met with the Towns of Ridgeway, Shelby and Yates and the Village of Medina and the matter has been taken to the other town boards — we feel we should take options on several sites in the County so we will not be caught in the same bind Monroe County is.

Supervisor Kubatek said it is like carrying insurance on your house — you hope it never burns but you must have it in case it does.

Supervisor Kemp said "as a member of the Solid Waste Committee, I would like to comment. It seems some of us feel we have wasted our time but we will do well to move slowly on this. We will need a landfill but it will be a few years before it is critical. Orleans County being the size that it is, we will have to draw our waste to a recycling plant outside the County."

More discussion followed — Alan McKenna was asked why he did not seek an application to have the south side of his property approved — he said he had spent the day before in Avon getting an application. The cost of engineering studies was prohibitive. He said he felt he had been bypassed by the Board.

The following resolution was adopted on roll call vote.

RESOLUTION NO. 137

Board of Supervisors
Albion, New York 14411

RE: CHAPTER 992; LAWS OF 1974

Gentlemen:

Under the provisions of the above chapter, which is the Supplemental Budget, provision is made for increase in the salary of all County level Judges to a minimum of \$36,000 effective January 1, 1975. The statute further provides that any counties failing to pay such minimum will lose all State Aid.

The statute further provides for an increase in the salary at the per annum rate of \$6,000 effective July 1, 1974, or \$3,000 from July 1st to December 31st. It provides that, "Such state aid shall be paid with respect to any judge referred to herein and shall be expended by such county * * * and only for the purpose of providing annual compensation to each such judge in an amount which is six thousand dollars greater than the amount of the annual compensation payable to such judge as of the effective date of this provision".

The Director of Administration for the Fourth Judicial Department, Cody B. Bartlett, has advised me that this is a mandated raise and that Audit and Control has been requested to issue an opinion as to whether it is necessary for the Board to adopt a resolution increasing the salary, or whether, on the other hand, it is purely an administrative function whereby the funds will be paid by the State to the county and be passed along to the Judge.

It would seem that a resolution similar to the proposed resolution herewith enclosed would be in order whether or not Audit and Control determines that any action need be taken by the Board.

I respectfully request that the Board adopt the enclosed resolution or one stating the substance thereof at its meeting on June 20, 1974.

Respectfully,

HAMILTON DOHERTY
Orleans County Judge

HD-pb

June 20, 1974

Orleans County Board of Supervisors
Albion, New York

Re: Increase in Salary of County Judge

Gentlemen:

You have been presented with the request of Hon. Hamilton Doherty, Orleans County Judge for the increase of his salary mandated by recent state legislation.

Judge Doherty has discussed this matter with me and requested that I attempt to determine the procedure necessary to enable this increase to be granted him.

First, Chapter 51, of the Laws of 1974 amended the Judiciary Law by mandating in essence that commencing January 1st, 1975, each Judge shall receive \$36,000.00 annually and by further providing that commencing July 1, 1974, the salary of each such Judge shall be increased by \$6,000.00 annually. This increase shall be financed under this legislation by State aid.

Second, I have been advised by the State Department of Audit and Control that they and the Judicial Conference interpret this to be a mandate and that therefore a local law providing for these increases is not necessary.

Third, it is my opinion that if the Board wishes to comply with this mandate, some formal action should be taken by the Board, since the increases will be "funneled" through the County and will appear on our pay schedule. Since Audit and Control does not feel Local Law is necessary, I would advise resolutions be adopted increasing the salary effective July 1, 1974, by \$6,000.00 and making the necessary budget adjustments to appropriations and revenues.

Yours very truly,

Sanford L. Church
Orleans County Attorney

Privilege of the floor was granted to Mr. James Hancock, Manpower Coordinator. Mr. Hancock informed the Board that Orleans County has received a grant under Title II of \$149,798 for additional jobs in the public sector. Under this CETA program after one year these jobs must be made full-time to be paid for by the municipality; 50 percent of the jobs created must be kept. Mr. Hancock said that he feels we will be able to place about twenty people in jobs. Because the County created several jobs under the EEA program these new jobs would be in other municipalities or sections of the public sector. Discussion followed. Privilege of the floor was granted to Mr. Pahura who explained that he had been notified that the County would receive funds under the EEA program to continue until March 31, 1975. We still have four people under this program. The County will also receive a supplemental grant of \$109,715 for new jobs. Application must be made immediately for this grant.

The Clerk read the following letter from the Office of the Aging:

July 16, 1974

Mr. Maynard Reed, Chairman
Orleans County Board of Supervisors
Orleans County Court House
Albion, New York 14411

Dear Mr. Reed:

Our recent telephone conversation conveyed your disappointment that a County Office for the Aging could not be founded in Orleans sooner than January 1, 1975.

I indicated that an ongoing planning process involving this Office, the Orleans Community Action Committee, and Orleans Supervisor George Batchellor, had been unable to set an earlier date. At a meeting early in the year at Albion, it was communicated that your County wished more time for consideration, and would not send personnel to a training session at Albany in February.

However, the Community Action Committee has received the revised application forms for these funds, and the State Office for the Aging has tentatively allocated \$37,843. to Orleans out of Federal Fiscal Year 1975 funds. This would require a local match of approximately \$5,000. to \$6,000.

Under former regulations, Orleans had planned to use \$18,614.88. Federal dollars, with a local match of \$6,204.62. The matching formula has improved, however. Federal funds will now pay for up to 90 percent of services and up to 75 percent of administration costs. Enclosed is a copy of the Federal Regulations detailing this funding.

In response to your desire to speed up the process, this Office can make funds available by October 1, 1974, if the application forms can be completed by the County and processed by this Office in advance of that date, and if required legal and administrative matters can be satisfied to our approval.

I shall be pleased to assist you in preparing the application, and in matters related to programs that have to be addressed in the application.

Yours truly,

John H. Benson
Field Representative

Supervisor Batchellor asked Mr. Whitehouse to clarify whether the Towns received the four hour call-out rate when called out by the State at off-hours. Mr. Whitehouse said that whatever was standard practice for call-outs would be paid on a cost basis to the Towns. The State takeover of plowing and sanding roads in the various towns was discussed. Mr. Whitehouse said the State would be doing some of the most heavily traveled State roads. Supervisor Bane asked why Route 63 was not resurfaced in the Town of Yates but stopped at the Town line. Mr. Whitehouse said funds were not available to do the whole thing.

No action was taken on approving the snow and ice agreement.

Privilege of the floor was granted to Mr. Yorke Knapp, ASC Office Manager. Mr. Knapp explained the pilot program being conducted by the Federal Government in five New York State counties, one of which is Orleans, to pay farmers for opening their ponds and streams to fishing and their lands to hunting under certain regulations established by the Government. Mr. Knapp said there have been 217 farmers offering ponds and 43 landowners opening their lands to hunting and fishing under this program. He said he felt now it was up to the persons using the fishing and hunting grounds to follow the regulations and to request use of these lands from the farmers so that this program might be successful.

Supervisor Swiercznski reported that the Budget Committee had met on Friday, Monday and Tuesday of the past week with Department Heads regarding salaries and expected budgets. Also he reported they met with the Citizens Committee Monday morning and they have some criticisms. "He said I have here a cross-section of letters from various departments." Mr. Astles explained that insofar as possible the lines were drawn to exclude those wishing to be excluded but there were a few properties which were left in to keep a continuity to the district. Mr. Don Raynor a member of the Steering Committee of the Orleans County Council of the Arts, presented the following request:

From: The Steering Committee of the Orleans County Council of the Arts.

For the 1974-75 year, the New York State Legislature appropriated about 30 million dollars to be distributed by the State Council on the Arts to support various art activities in the State. To make sure it all didn't end up in New York City, the Upstate legislators insisted that a portion of this money be distributed among the several counties on a per-capita basis.

Orleans County, had it had an Arts Council, could have received 75 cents for each person in the County, for a total of

27 thousand dollars, without requesting local matching funds. When word of this got back to the Community Action Office from a regional planning meeting, and included the information that this type of aid from the State Council would be an on-going program, we immediately called together a group of people we knew were involved with the arts, or planning, in Orleans, including representatives from the Orleans County Theatre of the Performing Arts, the Friends of the Holley Library, the Ontario Plains Unitarian Society, the Cobblestone Society, and the Sawyer Road Coalition, and held an informational meeting attended by Ms. Patricia Wild from the Rochester Arts Council, who's office is loosely titled a regional arts office. We wanted to find out how to go about forming an official arts council, how to get the funding from the State Council, and to see if we could get funding from other government sources for special arts and crafts programs and projects.

The Arts Council will have as its first priority the job of searching out the artistic resources available within our county. Up to now this job has never been done in an organized manner. From then on its efforts will be to co-ordinate what we have and develop the arts in the county on a year-round basis, to put proposals in for the available State Council funds, to raise local funding for council support, to find available markets for the arts produced here, to introduce arts and crafts education, and to do research in available government programs to see how they can be applied to Orleans County.

As of now we have had an organizational and a constitution and by-laws meeting. In the near future, after appropriate advertising, we will call a public membership meeting, open to all county residents and people who do business here, to formally establish the organization. Also, as the By-laws now stand, there is one position reserved on the Board of Directors for a member of the Board of Supervisors or someone you might designate to fill the position.

At this time, the Steering Committee for the establishment of a Council of the Arts in Orleans County requests a resolution of support for its efforts and activities in establishing the Council, and for your continued support once the organization becomes a reality.

DONALD L. RAYNOR
Albion, Sept. 5, 1974

It was moved by Supervisor Swiercznski and seconded by Supervisor Piedimonte that the above request be referred to the Planning and Development Committee to report back at the next meeting with a recommendation.

Carried.

Privilege of the floor was granted to Ray Pahura who introduced Dr. Douglas Houck. Dr. Houck was Chairman of the Sesqui-Centennial Committee for Franklinville, N. Y., and told the Board about the organization required to have a successful

celebration. Dr. Houck said the first step is to appoint a pre-planning committee. Franklinville hired Rogers Co. to give the expertise necessary for such a project. The next step is to form a non-profit corporation to coordinate all activities. Mr. Pahura said he felt a sum of \$2,000.00 as seed money would be needed to get the project under way and that this money would in all probability be returned if the project was a success.

RESOLUTION NO. 179

By Supervisor Piedimonte, who moved the adoption.

Seconded by Supervisor Kubatek.

**RESOLUTION AUTHORIZING PRE-PLANNING

Sheriff Williams was granted the privilege of the floor. At the request of the Board the Sheriff explained the overtime for the Chief Deputy. He said without Mr. Lake working overtime his department would have to have one more person to do the work. Supervisor Kubatek said it was his understanding that the Chief Deputy would not be paid overtime and that additional compensation was provided in Mr. Lake's salary for that reason.

The report of the County Planning Board and the Agriculture Advisory Bard for the Barre Agricultural District were presented to the Board. Both Boards recommend referring the petition back to petitioners for clarification.

WHEREAS, it further appears that said lots 5 and 6 do not appear on the records of the Orleans County Treasurer as parcels still owned by her as a result of tax sales or tax foreclosure and it being apparent that an error was made in the year 1946, that this Board of Supervisors does authorize the County Treasurer to execute a Quit Claim Deed to the Estate of Francis O'Donnell of said lots 5 and 6 for no additional consideration.

August 29, 1974

Mr. Maynard Reed
Orleans County Board of Supervisors
County Building
Albion, New York 14411

Dear Mr. Reed,

The State Department of Health has informed us that no later than December 31, 1975 they will close the State Respiratory Disease Clinic at Mount Morris. They have suggested that Livingston County take over the operation of the Clinic. At present, it is too extensive an operation to service just one county. Presently the Clinic provides services to fifteen counties. As you are aware under Public Health Law 2202-1 (A), each county is responsible for their own T.B. patients.

In the event we decide to take over the Clinic, we would like to open a line of communication with you as to whether or not you might be interested in contracting with Livingston County for the services now being offered by the New York State Department of Health.

We would be willing to sit down and discuss this with you in the near future. I have facts and figures that I have obtained from the New York State Department of Health. Any cost to you would be 50% reimbursable by the State.

I would hope to hear from you soon regarding this matter.

Very truly yours,

JOHN F. DOUGLASS, JR.,
Chairman

Public Health Committee

The Clerk read a letter from Senator Patterson dated August 16, 1974, re: Bridge over Route 237.
Ordered filed.

The Clerk read the following letter from the Department of Law:

August 8, 1974

Uldine D. Jurhs, Clerk
Board of Supervisors of the
County of Orleans
Courthouse
Albion, N. Y. 14411

Dear Mrs. Jurhs:

This is to acknowledge receipt of a copy of the Resolution adopted by the Board of Supervisors of Orleans County on July 25, 1974, concerning the pricing and supply policies of the major oil companies.

The recent rises in the prices of petroleum products and the apparently inadequate supply of said products, referred to in the Resolution, have indeed had adverse and widespread effects on the economy and have indeed compounded the problems of state and local governmental bodies.

Whether the companies involved in the industry have taken undue advantage of the situation and have compounded the problem, has been receiving the attention of this office at the direction of the Attorney General. The State Antitrust Enforcement Section of this office, of which Assistant Attorney General La Torella is the chief, has been and is conducting a most intensive investigation into possible civil and criminal antitrust violations in the petroleum industry. As part of this investigative effort, a special Grand Jury was convened in March of this year, at the Attorney General's request. The term of the special Grand Jury now has been extended.

The investigation into the petroleum industry has resulted in the following criminal and civil actions to date:

1. **People v. Mobil Oil Corp.**—a criminal indictment returned by the special Grand Jury charging illegal tie-in sales of tires, batteries and accessories.

2. **People v. Asiatic Petroleum Corp. and Shell Oil Co. et al.**—resulting in a consent judgment whereby the defendants must make home heating oil available during the summer at summer prices, instead of holding it off the market in order to wait for higher winter prices. Extensive reporting requirements will aid this office in enforcing the judgment.

3. **People v. Shell Oil Co., et al.**—an action against the seven largest oil companies in which it is charged that they engaged in illegal price behavior, in order to eliminate price competition from the independents.

4. **State v. Mobil Oil Corp.**—an action charging price discrimination and other antitrust violations.

This office is also looking into the reports appearing in the news media that the nation's major petroleum companies in recent weeks have reduced their production of gasoline and have operated their refineries below capacity. If the inquiry discloses sufficient evidence of a violation of the State's antitrust law, such evidence would be presented to the special Grand Jury.

The special Grand Jury is continuing its investigation, and as it takes specific action, such results will become known.

In regard to your comment concerning statewide class actions, the office will consider bringing a class suit in any case whenever there is evidence which indicates that such action may be appropriate. Such actions tend, however, to be extremely complex and protracted. This would be a certainty in any class action seeking damages from the oil companies. Therefore, any decision, on whether or not a class action on behalf of New York entities is appropriate in this matter, will be made only after the completion of a full and thorough investigation of the underlying facts and circumstances and a consideration of all the available evidence.

Of course, should your Board have or acquire any information which it believes relevant to any violation of law by one of more or all of the major petroleum companies, we would appreciate it if you would forward such material to the Antitrust Enforcement Section of this office at Two World Trade Center, New York, New York 10047, for appropriate action. I can assure you it will receive prompt consideration.

Cordially yours,

LOUIS J. LEFKOWITZ

Attorney General

AUGUST L. FIETKAU

Antitrust Enforcement and
Compliance

RESOLUTION NO. 219

By Supervisor Kubatek, who moved the adoption.

**RESOLUTION REJECTING YATES-RIDGEWAY
AGRICULTURAL DISTRICT #1**

BE IT RESOLVED, that whereas it appears that there is dissatisfaction among some of the persons involved with the Agricultural District #1 of the Towns of Yates and Ridgeway as modified, and

WHEREAS, it does not appear at this point that creation of such agricultural district is in the best interests of the towns involved or of many of the owners of real property contained within such district, now therefore be it

RESOLVED, that this Board of Supervisors as the legislative body of the County of Orleans does hereby reject the petition as modified.

Unanimously adopted.

Supervisor Kubatek in moving the resolution stated that "There are people in the district who did not wish to be in it. It doesn't give them the freedom to do with their property what they want. He said agricultural districts are primarily honor systems intended to demonstrate an intent to keep the land for agricultural uses but there are some restrictions on sewer and water line construction in such districts. The laws are vague, either the law is the law, and it's to be complied with for eight years or it's not worth having."

Supervisor Paduchak said "This has been the first district we've been through and some of the people perhaps, did not know what it all entails, in the first place. I don't think we are doing something detrimental today by rejecting it, we want to make sure everybody know what they're getting into." I think Jeff has explained the purpose of a district very well, better than many speakers I have heard at State meetings."

Supervisor Zelazny said this law gives individual farmers the right to create a district.

The Clerk read a letter from Mr. Alvin Peglow one of the petitioners for an Agricultural District in the Town of Barre. The following resolution was adopted in relation to this matter.

RESOLUTION NO. 220

By Supervisor Batchellor, who moved the adoption.

Unanimously adopted.

Mr. Frank Battaglia requested the privilege of the floor. Mr. Battaglia stated he thought the exemption for age 65 exemptions should be raised to the maximum allowed by the State which is \$6500. REGULAR MONTHLY MEETING

Thursday, October 17, 1974

The meeting was called to order at 8:00 p.m., by the Chairman. The Clerk called the roll and all Supervisors were found present.

It was moved by Supervisor Swiercznski and seconded by Supervisor Piedimonte that the reading of the minutes of the previous meeting be dispensed with and the same approved as prepared by the Clerk.

Carried.

Privilege of the floor was granted to Mr. Yorke Knapp, ASC Office Manager. Mr. Knapp stressed the Hunting Access on private lands program. He said the response from users has been very successful and he hoped that the users will use courtesy and tell the farmer when they are going to use the privilege. He suggested that perhaps the Board could urge funding of the program in the future.

Privilege of the floor was granted to Dr. Harvey Blanchet a member of the Public Health Board. Dr. Blanchet urged the adoption of the County Sanitary Code. He discussed the need for a code and the uses and implementation of such a code. He said he felt that the code should be enforced gradually until full compliance can be made—which in his opinion should be in about ten years. The Board having not seen a copy of the code as yet, took no action.

Privilege of the floor was granted to Miss Helen Brinsmaid, Social Services Child Welfare Division, Mrs. Ann Nevin, Probation Officer and Mr. Robert Golden, Probation Director, to discuss the possibility of having "Group Homes" for teenagers having problems at home and with the law, rather than having to send them to more restrictive confinement which does not seem to effectively deal with their problems. Such homes would be bought and run by the Division for Youth of the State of New York and the County would pay a charge for those referred to them. At the present time care for such children averages between \$9,800 and \$16,000 annually for each child.

The Budget Director, Mrs. Basinait, presented the tentative budget for 1975.

TO THE HONORABLE BOARD OF SUPERVISORS:

Your Budget Officer and Finance Committee in conformance with Article 7 of the County Law, herewith submit our recommendations for a tentative Budget that we think necessary to carry out County functions for the year beginning January 1, 1974.

Total Appropriations		\$ 9,710,751.99
Less: Estimated Revenues	\$ 7,873,843.65	
General Fund Surplus	260,000.00	
Federal Revenue Surplus	200,000.00	
Amount to be raised by Tax	<u>1,376,908.34</u>	
		\$ 9,710,751.99

Appropriations have increased by \$821,426.99 over those of 1974. Major contributors to this increase are: Judicial \$331,401.50, Social Services \$5,021,205.74, County Programs \$894,243.53, Highway \$1,152,737.55.

Increased anticipated revenues offset a major part of the increase in appropriations. This increase is estimated to be \$445,839.72. Increase in State aid is \$318,870.61. Increase in Federal aid is estimated at \$757,087.04. The increase in Federal aid is primarily because of the new CETA program which is entirely Federally funded — \$403,731.

Revenue Sharing plays an important part in the anticipated balances at December 31st. This year we have a separate fund for Federal Revenue Sharing. Prior to this year it was included in the General Fund Revenues and was not appropriated in the budget. This year \$200,000 has been appropriated to the Highway Dept. and \$100,000 has been appropriated to the General Fund, earmarked for Personal Services — Sheriff's Dept.

Estimated Sales Tax Revenues for 1975 have been decreased by \$149,550.33. Although our Sales Tax Revenues for 1974 increased by approximately 5%, we find that we over-estimated our sales tax revenues by \$175,000. The 1973 budget shows 100% of the Sales Tax Revenues for eight months and 66⅔% for the other four months. This was used to pay the balance of the Jail indebtedness.

Assessed valuation, for County purposes, increased during the year by approx. three million and the amount to be raised by taxes has been increased by \$602,630.27.

There are also \$186,340.39 in unpaid taxes on property assessed to Penn Central, which we have to absorb.

Attached to the tentative budget is the 1974 salary for the County of Orleans. Unfortunately, through no fault of ours, we are unable to provide accurate salary schedules for the forthcoming year. Normally, negotiations with the recognized bargaining agency for the members of the Social Services Dept. and the Sheriff's Dept. are well under way, or completed, by this time of the year. This year a challenge was made by the Civil Service Employees Association which fought for representation of the Social Services Employees. Following a public hearing held by the State Public Employees Relations Board, an election was held on 9/23/74 at the Dept. of Social Services, and as a result CSEA has now been declared the collective bargaining agent for those employees. The order from PERB designating CSEA was not received until Monday of this week — or 10/21/74. Consequently, the County negotiating team was unable to commence negotiations until October 23rd, and obviously, no conclusions were reached as to salaries and other negotiable items as of this date. Hopefully, negotiations will reach a stage prior to the adoption of the final budget when accurate figures will be available.

We thank all Department Heads, Committee Chairmen and the Chairman of the Board for their efforts and cooperation.

Respectfully submitted,

Mary Basinait, Budget Officer
Theodore Swiercznski, Chairman, Finance Committee
George Batchellor, Member Finance Committee
Michael Paduchak, Member Finance Committee

Recessed at 11:00 a.m., reconvened at 11:05 a.m. Supervisor Plummer arrived at this time.

Supervisor Kemp questioned whether the salary study conducted by Value Management Consultants was used in this budget. The Budget Committee said that it had not been because it would take further study to implement it.

Supervisor Kubatek asked whether the salaries were done on a percentage basis and Supervisor Swiercznski responded that it had to be because of negotiations with the union which were not yet completed.

It was moved by Supervisor Swiercznski and seconded by Supervisor Batchellor that the preliminary budget as presented, be approved.

Carried.

RESOLUTION NO. 242

By Supervisor Swiercznski, who moved the adoption.

Re: Western Regional Off-Track
Betting Corporation
Status Report

Dear Chairman Batchellor:

The Western Region Off-Track Betting Corporation was founded on September 26, 1973. Its plan of operation was not accepted by the Racing and Wagering Board of the State of New York until April 1, 1974. Upon this action, the Corporation was able to enter into rental agreements for branch sites, to contract for construction of betting parlors, and to train personnel to serve customers.

On Thursday, May 2, 1974, six branches were opened for business: three in Monroe County, two in Erie County and one in Niagara County. Pending success of these pilot parlors, further expansion was delayed for a short time. The interim proved beneficial to management by allowing time to evaluate the impact the new industry had on the communities where betting parlors were placed and to review the statistics generated by the betting activity in these parlors. This resulted in formulating a sound policy for studied selectivity for other branch locations regarding community concern, accessibility to public, types of traffic, parlor location pattern and upgrading certain neighborhood environments.

The knowledge, so gained, was indispensable when an expansion program was initiated during July of this year. With such guidelines, the Corporation was able to add seven more branches and the Dial-A-Bet facility to the original six parlors. The following is a list of the parlors of the Corporation and the dates they were opened:

**Western Regional Off-Track Betting Corporation
Branch Locations**

Chautauqua County:

Address	City	Date Opened
81 E. Fifth Street,	Dunkirk	September 17, 1974
212 Pine Street,	Jamestown	October 10, 1974

Erie County:

25 E. Huron Street,	Buffalo	May 2, 1974
1290 Abbott Road,	Lackawanna	May 2, 1974
D&L Plaza,	Depew	September 13, 1974
3175 Sheridan Drive,	Amherst	September 24, 1974
Central Park Plaza,	Buffalo	October 1, 1974
100 Grant Street,	Buffalo	October 5, 1974

Genesee County:

Telephone Betting,	Batavia	August 26, 1974
113 Main Street,	Batavia	August 29, 1974

Monroe County:

20 Broad Street, Rochester ----- May 2, 1974
 416 E. Main Street, Rochester ----- May 2, 1974
 Southtown Plaza, Henrietta ----- May 2, 1974
 630 W. Ridge Road, Rochester ----- August 27, 1974
 1287 Clinton Avenue N., Rochester ----- September 20, 1974
 196-198 Lyell Avenue, Rochester ----- October 11, 1974
 Bull's Head, Rochester ----- October 19, 1974

Niagara County:

1201 Main Street, Niagara Falls ----- May 2, 1974

Steuben County:

58 Market Street, Corning ----- September 27, 1974

Wayne County:

130 Main Street, Newark ----- September 12, 1974

Aided by the popularity of the Kentucky Derby and the Preakness Races which are held during May, the Gross Handle during this first month of business made the Corporation an "instant success". Statistics which verify this statement are obvious in the following monthly record of the Corporation's Gross Handle:

1974	
May	\$ 738,371
June	1,089,547
July	1,292,790
August	1,506,323
September	1,565,808

For the first five months of business, the Corporation had a Gross Handle of \$6,192,839. While this amount is most impressive, Gross Handle will be significantly increased by the continued expansion of betting outlets planned by management before the close of the year. They are as follows:

No. of Parlors	County Where Located
1	Cattaraugus County
1	Chautauqua County
8	Erie County
1	Livingston County
7	Monroe County
2	Niagara County
1	Seneca County
1	Steuben County

When the above facilities are opened, the number of betting branches of the Corporation will total 36 in addition to the Telephone Betting Center.

This network of branch offices when completed will make the Western Regional Off-Track Betting Corporation an important business institution in Western New York; employing approximately 700 people with an annual payroll in excess of 2 million dollars.

The anticipated Gross Handle for the eight months of 1974 in which the Corporation will be doing business is behind the projected schedule for the year. This deficit has served to incite the staff of the Corporation to even greater activity in the hope of recouping the "paper loss" estimated in the goal they set for themselves. Over and above this momentary setback, Net Revenues Available for Distribution will be earned by the Corporation this year and the money will be disbursed by the Board of Directors at the proper time.

The Western Regional Off-Track Betting Corporation has effectively met the challenges of any new enterprise and has proven its stability. The handicap of the Special Betting District has thwarted some of the success which might otherwise have been enjoyed by the eastern area of the region. The Court litigations enforced on the Corporation and at least one of its branches has had a most negative effect on the business atmosphere which the company is attempting to create. The 5 per cent Surtax is a direct affront to the clientele who are the very core of the people who are most likely to support our Corporation. But, in spite of these frustrations, our business has continued to grow.

With the continued moral support of their respective legislatures, the Board of Directors will lead and guide the Western Regional Off-Track Betting Corporation to goals far beyond the optimistic expectations. The revenues that will be distributed to the participating municipalities in the near future are certain to become a significant source of revenue for their yearly budgets.

Respectfully submitted,

JAMES W. HUBBELL

Board of Director
Western Regional Off-Track
Betting Corporation

November 6, 1974

Mr. Everett Johnson
Superintendent of Highways
Orleans County
Court House
Albion, New York 14411

Dear Mr. Johnson

This office is in receipt of a resolution passed by the Board of Supervisors on October 25, 1974, that alleges waste of energy, questionable practices and general misconduct on the part of various employees of the Department of Transportation.

Because of the serious nature of the charges and the time and effort of the introduction of the resolution by Supervisor Batchellor, seconded by Supervisor Kemp and its publication and dissemination to various offices and agencies, I made an investigation of the matter.

I found that it concerns the use of state trucks with attached snow plows being operated on our state highways for a very short period for the specific purpose of adequately training new operators that will be utilized this coming season for snow plowing obligations that have been newly taken over by the Department.

My investigation indicates that this was a necessary operation that should be engaged in by any responsible subdivision of Government that has snow plowing obligations and that the small amount of energy expended in this activity is more than justified by the ultimate efficiency in operation and the saving of life and property that will result in utilizing trained people for this dangerous activity.

I regret any misunderstanding on the part of the supervisors concerned, and I wish you would convey my explanation to these individuals as well as the board at its next meeting. I also assure you of our continued cooperation with the County of Orleans in all of our endeavors.

Very truly yours,
A.J. Kopczynski
Regional Director

AND EXPLANATORY STATEMENTS**

SCHEDULES SHOWING BUDGET DETAILS:

Schedule 3—Estimated Cash Surpluses at End of Present Fiscal Year.

Schedule 3—Statement of Reserve Funds.

APPENDICES:

Appendix 2—Construction Fund, County Road Fund Projects.

Part 1 — Unexpended Balances of Appropriations.

Part 2 — Construction Projects Approved by State for Which No Appropriation or Partial Appropriations Have Been Made.

TO THE HONORABLE BOARD OF SUPERVISORS:

Your Budget Officer and Finance Committee in conformance with Article 7 of the County Law, herewith submit our recommendations for a Tentative Budget that we think necessary to carry out County functions for the year beginning January 1, 1975.

Total Appropriations		\$10,059,581.56
Less: Estimated Revenues	\$8,347,672.23	
General Fund Surplus	260,000.00	
Federal Revenue Surplus	200,000.00	
Amount to be raised by Tax	<u>1,251,909.33</u>	\$10,059,581.56

Appropriations have increased by \$1,170,256.56 over those of 1974. Major contributors to this increase are: Judicial \$331,401.50, Social Services \$5,021,205.74, County Programs \$894,243.53, Highway \$1,152,737.55.

Increased total anticipated revenues offset a major part of the increase in appropriations. This increase is estimated to be \$919,669.10. Increase in State Aid is \$247,310.02. Increase in Federal Aid is estimated at \$817,087.04. The increase in Federal Aid is primarily because of the new CETA program which is entirely Federally funded- \$403,731.00.

Revenue Sharing plays an important part in the anticipated balances on December 31st. This year we have a separate fund for Federal Revenue Sharing. Prior to this year it was included in the General Fund Revenues and was not appropriated in the budget. This year \$200,000 has been appropriated to the General Fund, earmarked for Personal Services- Sheriff's Department.

Estimated Sales Tax Revenues for 1975 have been decreased by \$149,550.33. Although our Sales Tax Revenues for 1974 increased by approximately 5%, we find that we over-estimated our 1974 Sales Tax revenues by \$175,000. The 1973 Budget shows 100% of the Sales Tax Revenues for eight months and 66 2/3% for the other four months. This was used to pay the balance of the Jail indebtedness.

Assessed valuation, for County purposes, increased during the year by approximately three million and the amount to be raised by taxes has been increased by \$468,633.26.

There are also \$186,340.39 in unpaid taxes on property assessed to Penn Central, which we have had to absorb.

Attached to the tentative budget is the 1974 salary for the County of Orleans. Unfortunately, through no fault of ours, we are unable to provide accurate salary schedules for the forthcoming year. Normally, negotiations with the recognized bargaining agency for the members of the Social Services Dept. and the Sheriff's Dept. are well under way, or completed, by this time of the year. This year a challenge was made by the Civil Service Employees Association which fought for representation of the Social Services Employees. Following a public hearing held by the State Public Employees Relations Board, an election was held on 9/23/74 at the Dept. of Social Services, and as a result CSEA has now been declared the collective bargaining agent for those employees. The order from PERB designating CSEA was not received until Monday of this week -or 10/21/74. Consequently, the County negotiating team was unable to commence negotiations until October 23rd, and obviously, no conclusions were reached as to salaries and other negotiable items as of this date. Hopefully, negotiations will reach a stage prior to the adoption of the final budget when accurate figures will be available.

We thank all Department Heads, Committee Chairmen and the Chairman of the Board for their efforts and cooperation.

The final budget for the year 1975 herewith presented by the Budget Officer and the Finance Committee to the Board of Supervisors has been reviewed and modified since the presentation of the tentative budget.

Conferences have been held with all major department heads within the County to find areas where the budget could be reduced. Areas for increased revenues have also been examined.

The final budget shows total appropriations of \$10,059,581.56. Revenues other than from the levy of taxes amounts to \$8,347,672.23. The amount to be raised by Real Property taxes levy has been reduced by \$110,000.00 to \$1,251,909.33. This reduction results from increased anticipated reimbursement from the State and Federal sources for services rendered the Social Services department by general county employees (\$60,000) and for programs in the Public Health Department (\$40,000).

Unfortunately, even this decrease in tax levy will result in increased tax rates for many. We all know that costs have increased in the last year. The cost of goods and services purchased by the County has increased just as the cost to the householder has increased. Certain services must and will be furnished by the county. The cost of gasoline, electricity, food, paper, as well as labor necessary to provide these services has increased and it is expected there will be further increases.

It should be pointed out that among other expenses mandated, the County must reimburse the School Districts of the County for unpaid school taxes in the total amount of approximately \$364,000. In addition unpaid taxes on the Penn Central Railroad property, on the County Tax Rolls amounts to \$186,340.39.

The hardest hit by the slightly higher County tax rates will be the taxpayers within the Villages of the County. The governing bodies of all the Villages in the County have this year elected to receive their share of County Sales Tax revenue in cash. Last year similar amounts were deducted from the County and Town taxes levied on real property within the villages. Therefore, the 1974 Town and County tax rates were lower than the proposed 1975 tax rates.

However, it is expected that the Villages will receive in cash from the County the approximate amounts from the sales tax as follows:

Albion	\$73,970.96
Holley	27,132.42
Lyndonville	11,547.95
Medina	95,073.09

It should be noted that the County Board of Supervisors has no control over how the Villages spend these contributions from the County Sales Tax monies. It is hoped that such amount will be used to reduce the tax levies of the respective Village governments thereby reducing the combined tax rate of County, Town and Village taxes.

In addition to the amounts received by the Villages in cash from the County Sales Tax, the ten towns within the County will be credited with a total of \$311,923.23 to be applied to the reduction of the tax levy outside the incorporated villages.

A comparison of the proposed tax rates with the rates of the County tax in recent years will show that proposed rates for the various towns are at approximately the same level or lower as those established for 1972.

Your committee is of the opinion that in view of increased overall costs and inflationary economy since the year 1972 that the budget herewith submitted is the lowest budget possible which will continue to provide for the mandated, necessary and desired services of the County of Orleans.

Respectfully submitted,

Mary B. Basinait, Budget Officer

The Clerk read the following letter:

December 9, 1974

Mr. Maynard Reed
 Chairman
 Orleans County Legislature
 3662 Eagle Harbor Road
 Albion, New York 14411

Dear Mr. Reed:

This is a follow up to my previous correspondence of May 17, 1974 regarding the functions and responsibilities of County and City Fuel Coordinators in working with the State Emergency Fuel Office.

Your Fuel Coordinator, David Green, has been doing an outstanding job in working with my office on solving emergency hardships which have been occurring in your area. Although both the gasoline and the heating oil situations have improved over the past few months and no major problems are anticipated this winter, the Fuel Coordinator continues to occupy a critical position in the overall success of the Federal allocation program. A significant number of hardships continue to occur throughout New York State and the County Coordinator serves as the first contact point for the allocation system.

One of the serious problems confronting us at this time is the impact of the "interruption" of natural gas supplies to the majority of manufacturing and commercial enterprises utilizing this fuel source. Because of a shortage of natural gas, these

"interruptible" gas customers will be forced to obtain alternate fuel supplies to continue their business operations.

Another major problem is a coal shortage, due to the coal strike in the bituminous coal industry and depressed production of anthracite coal. Bituminous coal shortages could directly affect hospitals, utilities that provide electricity for all types of uses, and industrial consumers, thereby further aggravating the employment situation. Anthracite shortages will affect small commercial users and residential end users.

The County/City Fuel Coordinator will again serve as the first contact point and the advocate for both coal users and interruptible gas customers experiencing hardships in obtaining alternate fuel supplies. Continued business activities in all areas of the state will depend on the capacity of the Fuel Coordinator to take prompt and effective action in obtaining relief for these types of fuel consumers. As you can appreciate, it is very important to keep all components of the economy active in these times of economic uncertainty in the nation as a whole.

In general, the outlook for the 1974-1975 winter season is not as desperate as that which occurred last year. We are not, however, beyond the danger point. This heating season is expected to be much colder than last year. In addition, the Middle East situation is once again growing tense, and fuel supplies could be interrupted at any time.

For all of the above reasons I would like to reemphasize the necessity for your continued support of the role performed by David Green. Without this assistance, the State hardship set-aside program and the Federal allocation program would be unable to meet the needs of the many fuel users that are still experiencing supply difficulties.

If you have any further questions or should like to discuss this matter, please feel free to call me or my Deputy, John Edwards, here in Albany at (518) 474-7927.

Thank you for your cooperation to date and I assure you that your continued interest is deeply appreciated.

Sincerely,
A. C. O'HARA

Town of Albion	\$12.12
----------------	---------

Central registration began on December 6, 1973 and continued at our office through August 28, 1974. As of January 1, 1974 there were 16,114 registered voters in the county. An additional 512 were registered by the Central Office of the Board of Elections and 1174 by the district boards of inspectors. Cancellations totaled 1946 leaving 15,854 eligible to vote at the General Election.

In addition to the regular registration hours of the Board of Elections, every high school in the county was visited by the Board for the purpose of registering voters and distributing absentee ballot applications. 271 voters were registered at the schools and an additional 96 registrations were taken by the Board by providing a registration booth at the Orleans County Junior Fair. The Orleans County Infirmary was visited. Registrations were taken and absentee ballot applications were distributed.

Not only does this office take registrations at this time, but we also gather necessary information that permits us to cancel various registrations throughout the year and to distribute absentee registration and ballot application forms and afford persons the opportunity to change their party affiliation, if desired.

Pursuant to Section 394 of the Election Law, a post card is mailed to every registered voter, at the close of central registration, to determine whether such voter still resides at his registration address. This communication also notifies the voter of days and hours of the ensuing General Election, his election district and polling place and the fact that he must re-register if he has moved from the address where he last registered. Within one week after the conclusion of local registration, a similar card is mailed to each voter who registered at such local registration.

Pursuant to Section 405, the Law mandates a Purge List begin in the second week in December and be completed in the third week in January. All permanent records and data related to the more than 15,000 enrolled voters have to be individually examined to verify if the registrant has voted at least once in a General Election during the past two years. All those that have not must be notified by mail of the impending cancellation of their status as a registered voter unless they fill out, sign and return the re-instatement request form within three weeks of the date of the postmark on the notification. After this three week interval, the newly compiled list of voters is made in conjunction with the needs of Section 191 sub. 1-a. All persons not voting in 4 years are purged and cancelled with appropriate notice sent.

Prior to March 1, 1974, according to Section 377 of the Law, the Board of Elections prints the enrollment digests by election districts and towns, listing every registered voter. In addition to these enrollment digests, lists are printed for village, school district and special elections.

In order to designate candidates names eligible to appear on a ballot, petitions must be circulated, signed and filed. Many of these petitions are filed with the Board of Elections, others with the State Board of Elections in Albany. In the filing of these petitions, the Board of Elections must review all nominating petitions and rule on their validity.

A Primary Election, on September 10, 1974 and the General Election on November 5, 1974 were conducted by the Board. Six County officers were certified as elected at the General Election. Absentee ballots were used for the first time in the 1974 Primary Election and 60 ballots were mailed upon request. 380 absentee ballots were mailed for the General Election. A total of 12,510 registrants cast ballots at the General Election, representing 79% of those eligible.

The Board staff conducted training for inspectors of election in September and 43 individuals were trained and tested.

Consolidation of election districts at local registration was again offered to the Towns by the Board of Elections. Six Townships chose to consolidate and the total savings is estimated at \$1400.

The General Election was held on November 5, 1974 and the hours were from 6:00 A.M. to 9:00 P.M. with the Board of Elections office open during the entire period to handle the many questions and problems of voters and inspectors of the various election districts. The two voting machine custodians remained on hand at the office of the Board during this period of time to go out on calls to the various polling places when machine problems arose. The office is maintained open that night until supplies are returned from every election district.

Following the Primary and General Election, all voting machines are re-canvassed and the results certified to the State Board of Elections.

This office is in reality an office of Vital Statistics of the most current information available on a County-wide basis. Periodically, the villages report deaths in order that we may remove the deceased person from the current registration list. The continual updating of names and addresses, as mandated by the Election Law, of Orleans County residents in our office results in many requests for information from the Courts, Social Services Department, Social Security Administration, Attorneys, Private Agencies, and individuals. This office is one source of names and addresses to the Federal and County Courts for use as potential jurors. In fact, this office provides many such services for several County Departments.

In addition, to the regular routine work of the Board of Elections, the printing and duplicating of forms and various material is performed for many other County Departments.

14 COMPUTING FULL VALUATION

For Towns, full valuation of taxable real property is determined by use of values of taxable real property as assessed in 1973 and used for levying taxes for 1974 and the State Equalization Rate based upon such values. For Villages, full valuation is computed by application of the last State Equalization Rate established, prior to the time in the current year that apportionment is made, to the then current assessment roll.

15 PAYMENTS BY PARTICIPANTS

The amount due from each participating town in the self-insurance plan shall be included in the next succeeding tax levy against property taxable by the participant responsible therefor and, when collected, such amount shall be paid over to the County Treasurer not later than February 1, 1975.

The amount due from each participating village, as its share of the annual estimate of expenses of the plan for the fiscal year beginning January 1, 1975, shall be paid the County Treasurer within thirty days after June 1, 1975, the commencement date of such participant's fiscal year.

The county's share of estimated expenses based upon the aggregate of full valuation of all towns as outlined above shall be payable not later than February 1, 1975.

All such assessments received by the County Treasurer shall be credited to the Orleans County Self-Insurance Fund.

FROM: David M. Green, Director

Natural Disaster and Civil Defense

SUBJECT: Annual Report for Orleans County Office of
Natural Disaster and Civil Defense for period
of 1 January 1974 to 31 December 1974

Gentlemen:

I hereby submit the Annual Report for the Orleans County Office of Natural Disaster and Civil Defense for the period of 1 January 1974 to 31 December 1974.

During the past year we have continued to place emphasis on saving the County money. Our Surplus Property Program was widely expanded, the Matching Funds Program was utilized, and applications were submitted to the Excess Property Program. A continued effort was made to be prepared for emergencies that might arise in our schools, hospitals, and factories.

We have begun or completed the following:

1. It is now possible to send representatives from various county agencies to the surplus property warehouse four (4) times a month instead of two (2) as was the case in past years. This year we purchased items valued at \$6,429.00 for a cost of \$666.25. This represents a saving of \$5,762.75

The following agencies have taken advantage of this program:

- | | |
|---------------------------|---|
| 1. Orleans County Highway | 13. Hulberton Fire Dept. |
| 2. Kednall Highway | 14. Albion Fire Dept. |
| 3. Shelby Highway | 15. East Shelby Fire Dept. |
| 4. Gaines Highway | 16. Kendall Fire Dept. |
| 5. Albion Highway | 17. Village of Albion |
| 6. Carlton Highway | 18. Shelby Fire Dept. |
| 7. Barre Highway | 19. Carlton Fire Dept. |
| 8. Clarendon Fire Dept. | 20. Medina Fire Dept. |
| 9. County Infirmary | 21. County Maintenance Crew |
| 10. Sheriff's Dept. | 22. County 4-H |
| 11. Medina Police Dept. | 23. Village of Holley (Supplies to
furnish a doctors office) |
| 12. Albion Police Dept. | |
2. I have met with several organizations to discuss the operations of the Natural Disaster and Civil Defense organization. Several individuals and small groups have toured the Center during the past months.
 3. Orleans County has a "Go-Home Plan" for all schools. We update this every year to insure operability. In case of an emergency, we must get the children home. In the event that it is impossible to utilize this plan, shelter drills are held in the schools to instruct the pupils in the proper ways of taking cover in case of a nuclear attack.
 4. A MBT course was held during March 1974 with 50 students completing the classes.
 5. A training exercise was held to the Auxiliary Police and the CB Radio Club members.
 6. A new group of Auxiliary Police members was trained and placed on active volunteer duty with the Sheriff's Dept. and also participated in other CDAP activities such as directing traffic at the County 4-H Fair.
 7. Service annexes were approved as updated during the past year as a result of a Planning and Operations Course which had previously been conducted by Cornell University.

8. Mr. Robert Willigens was again engaged to exchange radiological kits in shelters at Federal and State expense.
9. The weekly Fire Radio, Amateur, and School monitor tests have been conducted from the EOC. Donald Pritchard, Chief of Communications in Civil Defense and his staff deserve credit and thanks for this work.
10. I attended monthly meetings of the Western District Directors Association. These meetings are held to keep us informed and also gives us a chance to solve common problems.
11. The County Fire Service held 10 training courses this year. These were sponsored by the State Office for Local Government. Over 200 men completed the various courses offered.
12. Our county workshop was a huge success this year. We sold 438 tickets to this program and featured the internationally known lecturer of fire ground tactics Emanuel Fried. He conducted a one day session at the Albion school.
13. Our SCUBA team was activated on eight (8) occasions this year.
14. The Auxiliary Police served over 5,000 hours during the past year. They have served at parades, carnivals, County political functions, the County Fair, and assisted the Sheriff's Dept. on patrol and in the dispatch room.
15. A program continued through the year in conjunction with the hospitals and area doctors. Once a month a class is held for the residents who have an Advanced First Aid Card or Met Card. These classes are held to update training and also promote relations between hospitals and volunteer rescue workers.
16. A monthly newsletter is sent to Fire Departments and Emergency Squads.
17. The following items were purchased through this office:
 1. New uniforms and equipment for the Auxiliary Police
 2. Equipment for the SCUBA team
 3. Additional equipment for the Radio Club
 4. A training film was made by our County Fire Service
18. Our office spent many hours in the Village of Albion and other parts of the County when we had the heavy rain storms that caused flooding. We attended several meetings and collected data to help local officials get enough information to declare a disaster in this county. Our office was turned over to the Small Business Administration official to discuss the necessary steps in filing claims in order to get assistance. Much credit should go to the area fire departments for their work in the disaster.
19. Our fire training grounds was used on an average of three (3) to four (4) times a week. We hope to make some improvements on the grounds this year.
20. The dispatch room at the County Jail is working out fine. We now have the capability of having two (2) dispatchers working at the same time. We have hired a handicapped person to work on the busy times and this will be very beneficial. The dispatch room now answers for nine (9) County Fire Departments.
21. The following is the number of calls the Fire Service in Orleans County responded to:

DEPT.	FIRE CALLS	FALSE ALARMS	EMERGENCY AND AMBULANCE CALLS
Albion Fire Dept.	131	38	43
Barre Fire Dept.	27	2	4
Carlton Fire Dept.	10	2	4
Clarendon Fire Dept.	54	1	98
East Shelby Fire Dept.	13	1	2
Holley Fire Dept.	16	5	123
Hulberton Fire Dept.	41		5
Kendall Fire Dept.	26		89
Lyndonville Fire Dept.	34		10
Medina Fire Dept.	81	25	58
Morton Fire Dept.	32	2	5
Ridgeway Fire Dept.	39	4	1
Shelby Fire Dept.	35	1	10

22. I am still attending arson school in Rochester and feel it will be very beneficial to the Fire Service.
23. I also attended several USDA meetings during the year.
24. Our office assumed the responsibility of Energy Coordinator. We processed many forms to secure gas for several service stations throughout the county. Also, we were able to get gas through the State Set-aside for the schools and other agencies in the County.

We processed several applications for salesmen in the county in order to get gas stamps. I also attended three meetings in Albany on the energy situation.

This office wishes to express our appreciation to the Orleans County Board of Supervisors, other county departments and agencies and the many other organizations we have worked with during the past year.

To the Honorable Board of Supervisors of Orleans County:

I hereby submit the Annual Report of the Orleans
County Veterans Service Agency for the calendar year 1974.

William H. Murray
Director

Annual Report of
Orleans County Veterans Service Agency - 1974

The Orleans County Veterans Service Agency, which was established in 1945 as directed by state statute, serves veterans and their dependents or survivors by advising, counseling and assisting in obtaining state and federal benefits and services. Attached is a statistical summary of the services rendered during calendar 1974.

It is interesting to note that the work load of this office increased by 6.3% over the previous year and further that the Viet Nam Era veteran now requires more services than the World War II veteran. This reflects the many changes in federal statutes wherein the Viet Nam Era veteran is entitled to all benefits as administered by the U. S. Veterans Administration and additionally these veterans are attending college, technical schools or are enrolled in on-the-job training or apprenticeship programs which are available to them alone. Perhaps because of present day economics, the percentage of Viet Nam Era veterans who have or are taking advantage of educational benefits exceeds the percentage rate of all previous wars.

During 1974, the Congress enacted legislation which raised compensation rates paid to veterans with service connected disabilities, amended the pension law and educational benefits, therefore, veterans and their dependents will receive approximately two and one half million dollars in direct payment and services from the U. S. Veterans Administration. This represents the fifth largest source of income from the federal government to residents of Orleans County.

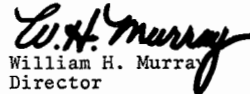

During 1974, 52 veterans of this county died and we saw 109 new veterans. Twenty-two county stones were provided to mark the graves of deceased veterans.

Medical care and treatment afforded by the U. S. Veterans Administration at the Batavia, Buffalo and Canandaigua Hospitals and the Rochester Out-Patient Clinic is a very important source of health care for veterans of this county. In 1974, veterans received 4406 days of hospital care at Batavia Veterans Administration Hospital, 2277 days at Buffalo and an estimated 1200 days in other hospitals. This does represent a slight decline from the previous year. The impact of Medicare and Medicaid as well as private health care insurance plans, along with the U. S. Veterans Administration's change in policy whereby they now treat patients for non-service connected disabilities on an out-patient basis, is responsible for this slight decline.

The 93rd Congress enacted legislation liberalizing benefits to all veterans. For example, the compensation paid to a totally disabled service connected veteran with one dependent is now \$620 per month. This is in addition to Social Security and we have veterans now receiving in excess of \$950 per month tax free income.

This office expresses its appreciation to the Orleans County Board of Supervisors, to the Director and staff of the U. S. Veterans Administration Regional Office at Buffalo, to the Directors and staffs of the Batavia, Bath, Buffalo, Canandaigua and Syracuse Veterans Administration Hospitals, to veteran organizations and to other federal, state and county agencies for their cooperation and assistance during 1974.

Respectively submitted,

William H. Murray
Director

DEFINITION OF PROBATION

"Probation is a community based governmental agency primarily established to protect society by aiding, through utilization of social work principles, individuals and their families who are involved or are about to be involved in the Juvenile or Criminal Justice System."¹ Accordingly, our service endeavors to provide opportunity for our client to realize increased self-determination in meeting his needs and those of his family, friends and society.²

INTAKE - Thru INTAKE (the "sifting" and "screening" process), where possible and prudent, cases are adjusted by treatment without Court action. Otherwise, they are referred to Court. This process is used principally in the handling of children's cases, young offenders, marital problems, and offenses and crimes arising out of domestic difficulties.

Probation Officers, thru intake counseling, give advice and enlist the cooperation of spouses, parents, school authorities, police and, private citizens and community resources in an effort to adjust cases without Court action where such adjustment seems in the best interest of all concerned. It is helpful in re-uniting families, conciliating spouses, assisting in settling family and neighborhood quarrels and minor criminal matters.

Analysis: Total disposed of - we've left 49 cases open for counseling at the end of 1974 opposed to 29 at the end of 1973, so we dealt with approximately the same number of cases.

Comparison with 1973 continued - - -

Information Only - the considerable reduction here would indicate that we dealt with more cases on a counseling, rather than perfunctory basis (349 cases counseled in 1974 compared to 297 in 1973) and further that the public more appropriately sought our services in 1974 than in 1973.

Referred to Petition - Comparison shows slight drop, but the consistency of the low percentage and number of cases requiring Court action continues to point up the effectiveness of Intake.

Adjusted by Probation Officer - Slight growth in this area, but not sufficient to indicate any trend.

Referred to Community Agency - denotes growth here, indicating our better use of community resources and we believe directly related to the efforts of our three Officers working on Intake, Ann Nevin, Michael Dreyfus and Stephen Didas, in opening communication with and gaining the cooperation of community agencies. Actually there were several instances where community agencies and Probation worked on a team-work basis with cases making the statistical separation between adjustment by Probation Officer and referral to community agency an artificial one.

Over-all analysis and Termination without Adjustment - the reduction in this last category as well as the growth in the number of cases counseled, referred and adjusted indicates our ability to follow through and more effectively deal with cases, our intake work being considerably enhanced by the special LEAA funded Intake project (to be analyzed in detail later in this report).

We're proud of our Intake and feel that a strong service is important for many reasons, including:

a. encourage self-reliance -- through providing a forum, and even an arbiter, in family difficulties where a couple, or parents and child can discuss their differences and problems in a calmer fashion than is usually possible at an emotion-charged home. The entrance of a third (largely neutral and professional) party encourages the family members to present their problems in a logical rather than an emotional fashion, and the Probation Officer encourages the family members to look into themselves as to how they are contributing to the difficulties and helps each party to see the other's point of view.

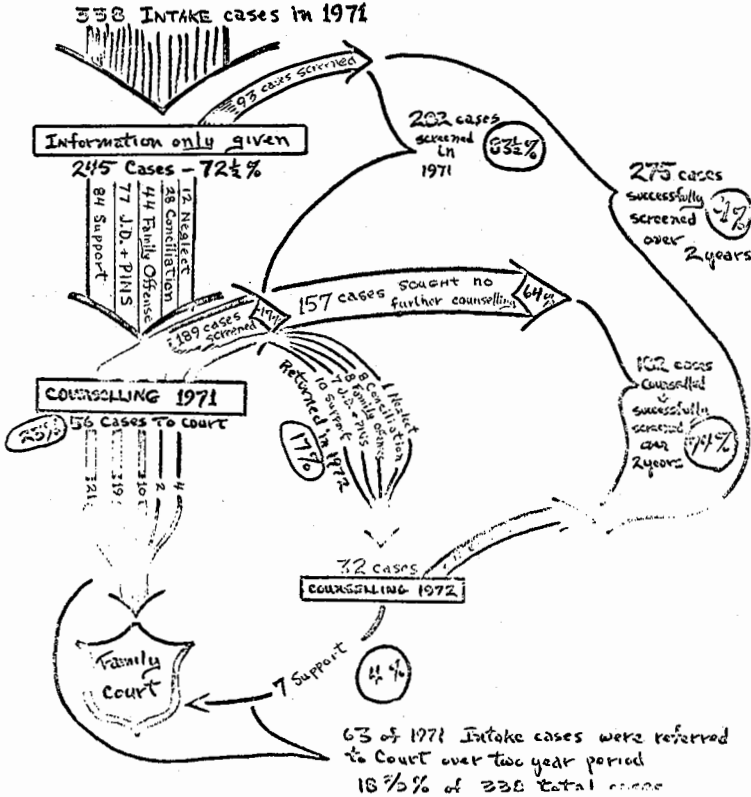

b. economizes the Court's time - frees the Court to deal with problems that really require the Court's intervention.

Intake Longevity Study

Over the past few years our Intake service has been equally productive in screening cases from Court. A concern that nagged us was how long-lasting are the effects of the "screening process", that is, do the cases that we

Intake Longevity Study (con't.)

"successfully screen" end up a year or two later returning to the Probation Department and eventually ending up in Court. A volunteer, Janice Felice, (see more on Volunteer Program later in this report) agreed to study our 1971 intake cases to see how many returned in 1972. During 1971 only 18% (68 of 376) of all cases handled at Intake and 19% (56 of 245) of cases given counselling, ultimately required Court action. A study of all the 308 cases that did not require Court action, shows that only 17% of cases returned in 1972 for further counselling, and of these less than a quarter went to Court. Based on these figures, members of this Department are further pleased and confident in the Intake Services that we provide.

INVESTIGATION

The investigation attempts to examine and evaluate the defendant's exact role in and his attitude before, during and after the crime; any past record; his social history including the emotional and economic atmosphere of his home, his relationships with parents, brothers and sisters, his school adjustment, achievement in comparison to ability, relationship with teachers and fellow students, work and military experiences, habits and leisure-time activities, religious contacts, etc. All this is to help the Judge have a factual picture and an emotional grasp of the human before him so that he can sentence in a manner best suited to the protection of society, the rehabilitation of the defendant and to deter others from committing crime.

The Pre-sentence Investigation is then used by Probation Departments, Correction Institutions, Child Welfare, or Mental Health Clinics as the keystone for planning social casework with the client. If, for instance, a person is placed on probation and transferred to another probation department, the investigation is sent to the receiving department so they can develop a comprehensive plan in dealing with the defendant. If he then violates and is sent to an institution, the investigation accompanies him to the institution, so the institution can deal with him in a significant fashion including educational and vocational training. Then, when he is released on parole, the parole department uses the investigation in their planning for the defendant. Investigations done in 1973 were as follows:

SUPERVISION

Through understanding, concern and discipline, and through an assortment of treatment methods concentrating on assisting the client to draw upon his own resources and those of the community, the Probation Officer helps the client avoid further criminal activity and, when applicable, to realize greater personal potential, enhancing his self-esteem and his becoming a more productive person and member of his community.

The Method of supervision includes devising a plan of treatment tailored to each individual probationer based on review and evaluation of the pre-sentence investigation. Running records are kept on each probationer containing factual data as to the probationer's performance, as well as an evaluation of his behavior and attitudes, and in the process of recording each case in this fashion, the plan of treatment is continually being updated to meet changing circumstances and needs.

Therefore:

- a. 80% of our clients over the last year cooperated with Probation and the Court.
- b. 91% stayed out of criminal difficulty.

SUPPORT BUREAU

Support Bureaus are created in each County by the Family Court Act to receive and disburse funds pursuant to any Court Order of the Court. The Orleans County Probation Department handles this function. Money is received from Respondents in Family Court Support cases and also on occasion, from Supreme Court cases, and in fines and restitutions in Criminal Court cases. Records are kept of all transactions and money is disbursed by the Support Bureau according to Court Orders. In 1974 over \$236,808.54 was received by the Support Bureau in 5,813

individual transactions from an average caseload of 335 active Support cases. In certain instances money is disbursed directly to the Orleans County Department of Social Services as recovery to assistance applied to the Dependents. In many other instances the support provided to Dependents reduces the amount of Public Assistance which the County must provide.

The Support Bureau is composed of a bookkeeper, who keeps the records and handles receiving and disbursement of all money and a Support Bureau Clerk, who handles calls of complaint or explanation in the average 335 cases, does personal interviews in Albion, Medina and Holley with both Respondents as to their ability to support and with Petitioners as to their needs, makes contacts with employers, types letters, gathers information from Petitioners for Petitions and composes the Petitions, and does other duties generally relating to the functions of the Support Bureau. A Probation Officer has general supervision over the operations of the Support Bureau and is responsible for initiating Court proceedings if a Support Order is not being followed. Another purpose of having a Probation Officer in that position is to provide availability of counseling in problems of visitation, which frequently occur, and to provide assistance to individuals involved in a complex and emotionally exhausting problem associated with marital break-up.

A large number of changes have been made in the Support Bureau to provide for better monitoring of support payments, a system for receiving telephone complaints during specified hours so that Support Bureau personnel can be more organized in their work schedules, and greatly improved communication with the Orleans County Department of Social Services to reduce the possibilities of fraud and misunderstandings and to insure that there will be active efforts at collection in all Welfare cases. The present staff set-up of the Support Bureau, and especially the highly efficient work of Mrs. Dreyfus, the Support Bureau Clerk, has allowed more frequent contact by letter and phone with various Respondents and this has had tendency to keep cases more up to date, or to return them to Family Court for proper review while the issues involved were fairly clear. Total Support Bureau collections have increased by approximately 14.1% over the previous year.

The services of the Orleans County Support Bureau are free. Family Court provides a method of determining support disputes without charge to the Petitioner and Respondent and the making of payments through the Support Bureau has the effect of limiting contact between Petitioner and Respondent where emotions tend to be very high, and also provide accurate records which also tends to lessen potential areas of support dispute between Petitioners and Respondents.

While the law provides for stiff penalties (up to 6 months in jail) for "wilful" violations of support orders, it is frequently difficult to enforce support against "deserting fathers" who have neither steady employment or residence and who are willing to move from place to place in order to avoid their support obligations. The problem becomes even more complex when the Respondent is in another state and the Petitioner must rely upon the facilities in another state to enforce a support obligation. The large number of "deserting fathers" throughout the country makes it impossible for police agencies to trace such persons and frequently the Petitioner (wife or former wife) is the most effective source of in-

formation as to a father's whereabouts. Even so, the successful obtaining of support for children depends mostly on the good will or sense of responsibility of the father and to obtain such "good will" depends considerably on the concern and tact of the persons in the Support Bureau.

PROGRAM INNOVATIONS

1. INTAKE-OUTREACH PROGRAM

A. Success of Program

The intention of this program was to increase Intake contact with persons who would come here as part of the seasonal businesses, that is, farming and canning factories, commonly called migrants, the settled groups comprising generally Blacks, West Virginians, and Puerto Ricans. These groups constituted a disproportionate amount of our supervision and investigation work, 33% and 34%, and yet, only 15% of our Intake work. Further, when they did use Intake, a process by which problems can be solved informally rather than with Court action (particularly useful in family matters, one of the most active aspects of police and court work), their situation had so seriously deteriorated (for instance, assaults had become so serious that possible serious injury or fatality existed, or lack of control over children had been so long lasting that informal efforts to bolster the parents' supervision was impractical), we decided to try to get these groups to use us more often and sooner at the

Intake level.

We frankly feel we have been successful. There are many variables which make figures subject to different interpretations but nevertheless, there is no doubt that over the past fourteen months of the program, there has been a considerable reduction of our contact with the target clientele at the formal level. We further feel we have made inroads into these communities, toward encouraging them to use the legitimate agencies of the County rather than taking matters into their own hands in a criminal fashion, and there's been a considerable increase in the percentage they constitute of Intake work:

Number of cases:	1972			11/01/73-10/31/74		
	MI-GRANTS/CLIENTS	ALL PERCENTAGE MIGRANTS		MI-GRANTS/CLIENTS	ALL PERCENTAGE MIGRANTS	
Information Only	17	118	14.4%	14	73	19%
Counseling.	39	258	15.1%	141	335	42%
TOTALS	56	376	14.6%	155	408	38%

and a decrease in their percentage of formal contact with Probation and the police:

	1972	11/01/73-10/31/74
Investigations	33%	26%
Supervision	34%	29%
Arrests	43%	38%

The four members of the Outreach staff, two Probation Officers and two Outreach Workers (a Black and a West Virginian) made special efforts to be available personally to clients, family and other community agencies as part of the Outreach efforts. Even though it's improbable that all contacts were committed to the "day sheets" that each of the workers kept, the following recorded contacts are indicative of the special efforts made at "availability".

Number of contacts for year 11/01/73-10/31/74:

5,140 total contacts

2,046 client contacts - thus 40% of our contacts were with clients directly

2,485 contacts were made outside the office - thus 46.5% of contacts were made "in the field", at clients' homes, school, jobs, community agencies and not from behind a desk.

3,814 personal contacts - rather than phone or letter, again stressing the "availability" of the project staff.

993 referral contacts - this reflects the efforts of the project staff to enlist the help of other agencies and the efforts at a co-ordinated, teamwork approach toward mutual clients.

Thus we feel that the Intake-Outreach Project has made its services particularly available to the "migrant clientele" who have in the past been reluctant to use these services. As a result, we've increased our contact with them at the Intake counseling level 350% and further, have been able to assist these clients at an earlier and more workable stage with their marital problems and their problems with their children. Consequently we hope to encourage the County to seek and the New York State Division of Criminal Justice Services to grant an extension of this project. We consequently hope to retain the specialized staff who have made such strides in this area and to broaden the project as follows:

- (1) Extension and expansion of the present project to include not only those persons who have migrated to Orleans County as part of the farming industry, but the rural poor generally in Orleans County.
- (2) The addition of the following project components:
 - a. Release on Recognizance - staff person interviews new county jail inmates assessing potential for safe release to the community pending disposition of the case. From 11/01/73 through 10/31/74, 569 persons were held in the Orleans County Jail pending trial; of these 224 were Black, West Virginian, or Puerto Rican migrants. Numerous of these were bailed out prior to trial, but the number that could not make bail was substantial.
 - b. Release under Supervision - the offender is permitted to return to the community under certain conditions and under the supervision of Project staff.
 - c. Intake/Diversion Program for the Local Courts - Project will screen, evaluate, and provide intensive adjustment counseling to offenders meeting diversion criteria in lieu of Court proceedings and dispositions. There will also be extensive use of community resources. The recommendations of LEAA's A Guide To Improved Handling Of Misdemeanor Offenders, will be utilized. This concept has been further endorsed by the President's Task Force on Prisoner Rehabilitation, "The Criminal Offender, What Should Be Done?" and "The Challenge of Crime in Free Society" report.
 - d. Volunteer Program - volunteers, including criminal justice clients, will be recruited, trained, and used on a selective basis -- matching their talent with client needs. Probation Officers will not only function as client advocates, but also as team managers of both indigenous workers and volunteers.
 - e. County Agencies' Aide Training Program - through the continued cooperation of New York State Migrant Center at SUNY at Geneseo, New York, Orleans Probation will co-ordinate a training program for Probation and other County agencies' staffs toward understanding and dealing with the rural poor. There is considerable interest for such a program among community agencies, including Social Services, Public Health, Mental Health, and County Extension. Further, there is a great deal of interest in participating in and providing the training from not only the Geneseo Migrant Center but also a media specialist from Alfred University and Dr. Judith Albino, Director of Motivational and Behavioral Sciences, State University of New York at Buffalo.
 - f. Rural Poor Alcoholic/Outreach Program - Alcoholic Anonymous and other alcoholism programs are generally acknowledged to have been principally middle-class oriented with the poor and even more, particularly the rural poor making little use of such services.

Further, in an Orleans County study, a Genesee-Finger Lakes Regional Planning Study, and Volume 11 of the Violence Commission Report, under Dr. Milton Eisenhower, alcohol is demonstrated to be a catalytic agent in many crimes and severe family problems.

Through a teamwork approach through the Alcoholic Unit of the Orleans County Mental Health Clinic, Project will provide intensive outreach services to the rural poor alcoholic.

2. BRANCH OFFICES:

The Probation Department continues to use the Youth Move Office in the Village Hall, Medina, New York, Monday and Wednesday afternoons where five officers take reports. We rent at \$60 per month from the Village of Medina.

We owe thanks to the First Methodist Church in Lyndonville, and Rev. Ray Hazlitt, who allow us to use their church offices each Wednesday for a couple of hours to take reports in Lyndonville.

St. John's Episcopal Church, Medina, has on occasion allowed us to use their facilities. We thank them and the Rev. Benjamin Moss.

The Eastern Orleans Community Center in Holley has for the past three years allowed us to use their facilities to take reports and so we thank them and their director, Jim Sharping.

In conjunction with the Intake-Outreach program, in order to be particularly available to the black migrants, a large number of whom reside in Carlken Manor and Coloney Camp, and to the West Virginians who reside on Transit Road, we did set up offices at the Old School House on the Kent Road, equidistant between those two communities. After three months we felt that the facility was really having an impact and people were really making use of the enhanced availability of the Probation staff. However, a fire on May 4th incapacitated this historic structure. Repairs have yet to be made to the facility to allow us to re-use it, although insurance matters have been settled and such repairs should occur in the near future. We were renting this facility through the Federal Funds allowed for the Intake-Outreach program.

* * * * *

We feel that this decentralization of service and yet centralization of administration and staff communication capabilities has been very effective in terms of encouraging people to use our Intake service with the hopes of avoiding serious criminal difficulty; and secondly, with respect to doing Pre-Sentence Investigations and supervising younger persons on Probation who, because of the various locations in which we take reports, can not excuse themselves due to transportation problems and have to fully accept the responsibility for making their Probation reports rather than depending upon relatives or friends to get them there.

Thus, the number of places in which we are willing to take reports and are able to do so due to the arrangements we have made and the generosity of the churches mentioned and the Orleans Community Center, there are very few of our clients who can't walk to one of the reporting centers, even if that walk be two or three miles in length.

3. USE OF THE INTERN VOLUNTEERS and CITIZEN VOLUNTEERS

During this past year, we've had four intern-volunteers on staff which adds another dimension to our work and gives us the capability to give much more intense attention to cases at no added expense to the County. Further it gives public-spirited citizens an outlet for their generosity. Mrs. Patricia Sullivan, from Genesee Community College, worked with us two full days a week during the summer and dealt with ten Probation cases and did one Pre-Sentence Investigation under the supervision of the Probation Officers assigned to the cases. She effectively developed a kind of rapport with a couple of clients which, because of time limitations, we had failed to develop.

Joseph Walker and Joan Copperwheat, seniors in the School of social Work at SUNY, Brockport, worked two full days per week starting September through December 1974 and supervised, on a teamwork basis with Probation Officers, a total of 19 Probation cases, three Intake cases, and four Pre-Sentence Investigations. As in the instance of Pat, Joan and Joe made considerable contributions to the dimensions of effective counseling.

John Davis, a Program Funding Inc. intern, worked the full week with us for six weeks in September and October. We had hoped to use John as a Court Liaison, that is, have him attend all Hearings where we had either done Pre-Sentence Investigations or anticipated a possible Probation sentence, or at least Probation involvement, either along conciliation lines in Family Court, or Pre-Sentence Investigation. Both we and John found that he could not handle the emotional pressures involved in dealing with people on such a personal and frequently crisis basis, so that unfortunately for both John and the Department, we departed our professional relationship.

In general, we feel the use of interns and further, of citizen volunteers of which we presently have 10, to be a very effective method with certain of our clients, particularly those who do not know how to develop the personal relationships so necessary for a fruitful and contented family life and school or job adjustment. The volunteers can devote much more personal time to such clients and thus, give them experience in forming close personal relationships, helping them in this crucial aspect of life since family, employment, and school problems are frequently factors in a person's getting into criminal difficulty.

Further, the use of citizen volunteers enhances the public knowledge of the Probation Department and the use of intern-volunteers from colleges and universities opens to us other possibilities of services from those institutions, for instance, assistance in staff training and research projects.

In fact, a Genesee Community College student, Janice Felice, is responsible for doing the bulk of the work in collecting figures that contributed to the Intake Longevity Study, quoted earlier in this report.

CASELOAD AND COST ANALYSIS

A. CASELOAD

TYPE OF CASES	Number of Cases 1974	Average per Month	Case Unit Weights	Average Case Units per Month
<u>INTAKE</u>				
Given Information Only	73	6.1	.25	1.5
1st Interview Adjustment	84	7.0	.50	3.5

SUPPORT	421	345.0	.20	69.0
SUPPORT PROBATION	11	7.6	1.00	7.6
TOTALS	1,221	575.8	N/A	338.4

As can be seen by the above figures, we dealt with 1,221 cases during 1974, and that generally means families because in almost all instances we deal with both husband and wife, and sometimes children, or with child and parents. We could double that figure of 1,221 in terms of the number of people we actually counseled. Subtracting the cases in the first two categories where generally only one contact was made, it still leaves 1,064 cases with which the Department has had an on-going contact during 1974.

In terms of the average number of cases in which the Department was involved on a per-month basis, the total is 575.8 cases per month divided up among five Probation Officers.

The State Division of Probation, in order to try to assess caseloads based on the demands of different types of cases devised a numerical weight to be given to each different type of case using the probation supervision case as the standard, that is, one case unit. Assessing our caseload using these unit weights shows that the Probation Department supervised 338.4 case units per month on the average which is slightly more than 66 cases per Officer. Nevertheless, we feel that we have been able to give probably the best attention to our caseload in many years, since the LEAA Project which has given us an additional probation officer and because of the work of the outreach workers and the intern and citizen volunteers.

The 9% recidivism rate (that is, persons committing additional crimes) as reported earlier in this report, although a slight increase over the 7.3% rate in 1973, is still far below the 35 to 70% recidivism rate ascribed to persons coming out of jail. Considering the cost of Probation as compared to institutionalization, both financial in terms of the expense of care, and the cost in terms of human resources where a person is virtually in cold storage, Probation is by far the most economical service. It is the contention of this writer, and of many studies done recently in the field of criminal justice, that we've yet to really try Probation seriously as a correction method. That is, we have yet to really invest time and expense in developing a strong Probation service compared to the large amounts of money that we have expended in correctional and institutional care. Interestingly, this same phenomenon is mirrored elsewhere in the institutional care arena, community health clinics versus mental hospitals, the home and public health nursing versus medical hospitals, community mental health retardation clinics and case workers versus the institutions for the mentally retarded.

We're gradually beginning to see that for the most part, putting people into institutions is not only far more expensive than attempting to deal with them in the community, but also far less successful in terms of their eventual adjustment and productivity as members of the community.

B. COST ANALYSIS OF 1974 ORLEANS COUNTY PROBATION SUPERVISION:

1. Total Cost of Department:

County Budget	\$95,676.98
Fringe Benefits	\$26,095.02
LEAA	\$31,609.56
<hr/>	
TOTAL	\$ 153,381.56

2. Method of Figuring Average Cost per Case

per total number of cases (1,221)	\$125.31
per average caseload/month(575.8)	\$265.72
per average case <u>units</u> per month(338.4)	\$452.13

3. COMPARISON WITH CONFINEMENT:

Probation
Per Client per Year

Institutions
Per Client per Year

	\$ 7,800 - Orleans County Jail
	12,500 - Correctional Facilities (Attica, etc.)
\$ 452.13	13,500 - Private Institutions (Gateway, Hillside, Baker Hall, etc.)
	17,000 - New York State Agricultural Industrial School

C. SUPPORT BUREAU COST versus AMOUNT COLLECTED:

Support Bureau Clerk	\$ 6,261.00
Bookkeeper	7,311.00
Probation Officer*	4,587.00
Fringe Benefits	6,611.70
Stamps	650.00
Supplies	1,000.00
<hr/>	
Total Cost	\$ 26,420.70
Total Support Collections	\$234,495.70
<hr/>	

* We estimate 1/2 of Probation Officer's time is expended in supervising the Support Bureau, approving reports to the Court and violations and appearing in Court on Support violations.

Therefore, at a cost of \$26-1/2 thousand, \$234-1/2 thousand was collected in support. Many of these funds went directly to Social Services in reimbursement for aid they'd given, and much of the remainder lessened the amount of Welfare aid needed or the necessity of a family's receiving Welfare at all.

Sheriff's Dept.

Yearly report of the Orleans County Sheriff for the Year 1974

The Sheriff's Department received a total of 4,238 complaints during the year, and in answering these complaints, patrolling the highways, and checking properties within the County the Men traveled a total of 352,567 miles.

The Men made a total of 862 Motor Vehicle Arrests and made 272 arrests of other types as a result of complaints received.

There were a total of 1,624 SETS of fingerprints taken for various reasons by the men of the Department.

There were 29 different types of schools attended by a total of 105 people for a total of 3,136 school hours spent. These schools were in addition to the in-service training attended within our own training program.

The dog warden who now works under the supervision of the Sheriff, answered a total of 937 complaints, during the year. These complaints are in addition to the complaints received within the villages of Medina, Albion, and Holley, who for the most part, take care of their own dog problems.

In the Civil Department of the Sheriff's Office, We received, Booked, and acted upon a total of 1,235 civil mandates.

As a result of the various types of executions and mandates, the amount of cash handled by this department, totaled \$130,778.04. Of this amount, the County received in fees the amount of \$13,294.17.

The State Jail Report, which will be completed for the Department of Correction, Albany, New York will be added to and made a part of this report as soon as completed.

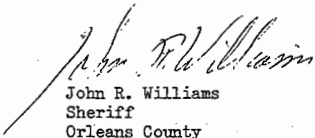

As a preface to the jail report, I would like to present the following figures. There were a total of 25,534 meals served to the inmates of the Jail in 1974, at a cost of \$19,601.17 for food. This amounted to a total cost of .77 cents per meal.

In submitting this report, I would like to point out the absence of any serious problems in the Jail with the prisoners during the year. This speaks well for the work of the Correction Officers and the training they have received, and also to Dr. Walters and his staff at the mental Health Department.

The staff of Deputies are also to be complimented on their activities during the year and we as a Department would like to acknowledge the cooperation we have received from the State Police, Medina, Albion, Holley, and Lyndonville Police Departments, and a special mention to the Aux. Police, who did their usual good job during the year. Without the help and cooperation of all of the above mentioned people, our job would certainly have been much harder.

I would also like to thank My committee and the Board of Supervisors for the cooperation we received from them in the year past.

Respectfully Submitted;

John R. Williams

REPORT FOR THE ORLEANS COUNTY
DEPARTMENT OF HISTORY
January 1, 1974 - December 31, 1974

The privilege of attending the workshops conducted by the N.Y.S. County Historian's Association at county expense is much appreciated. These meetings are a good source of learning and the historian attended the annual Spring meeting in Madison County and the Fall meeting in Canandaigua. Other meetings at which the historian was present were the Seminar on Use of the Barge Canal at SUNY in Brockport and the Congress of local historians in Buffalo.

Since 1976 will be the Sesquicentennial of the County as well as the Bicentennial of our Nation, committees have been formed for the celebration and the historian has participated in their meetings. In connection with the county's birthday observance, the Board of Supervisors has announced a contest for the purpose of designing a county flag. Another project already begun, which has been supported by the historian, is the formation of an Orleans County Historical Monument Corporation whose aim is to raise money to restore the Soldiers & Sailors Monument in Mt Albion Cemetery as well as to provide a maintenance fund. This unique monument honors all men from this county who gave their lives in the Civil War and plans are under way for its rededication on July 4, 1976.

In addition to keeping the office open afternoons, the historian has appeared before various groups to speak on historical subjects. This includes Albion Lions, Medina Senior Citizens, Middleport High School, Eagle Harbor Community Center, Holley Junior High School and Holley Senior Citizens. Students from

Holley, Kendall and Albion have been in the office for help and research. A class from Medina visited the office and toured the Court House Square. The historian also helped judge exhibits at Albion Middle School History Fair and has helped numerous college students in research work.

The historian has maintained his interest in the Cobblestone Society by setting up the annual house tour which helps to support the county's only museum. He also gave talks on local history before several busloads of people from other areas who visited the museum. A map was also made by the historian on which are located all cobblestone houses in the county together with house number, owner, and any available history as well as references to previous publications concerning any of the buildings. Photographs have also been taken of these structures so that there will be a permanent record of this unique type of architecture.

"Out of the Past" has also been continued in the weekly issue of the Albion Advertiser as a means of keeping the public aware of and interested in history.

Cemetery records compiled by the DAR have been copied and are now on file in this office. This material is used extensively by those doing genealogical research. Many requests for this type of information are received in this office and answered as time allows.

1974 saw many changes in the county with tape-recorded Supervisors' Proceedings and the second Democrat Board Chairman in fifty years. It saw the last operating stone quarry in the county (Hulberton) closing down. A decrease in school enrollments throughout the area was evident while Albion and vicinity suffered severe flooding with a ten-hour deluge of rain. This village returned the first woman mayor to office for another four-year term, while Medina saw the expansion of Fisher-Price and

Berns-C-matic industries. After about seventy years in limbo Oak Orchard Harbor became the object of government concern and through a \$1.2 million Federal Grant, the actual work on reconstruction of piers and breakwall began. \$355,000 was also included in the State budget for further development of Lakeside Beach State Park. This year also marks the retirement of this historian. While I have not accomplished many things I had planned to do, I hope that information I have collected will be of use and an aid to future generations.

Cary H. Lattin, Historian
