After the recess Chairman Dudek made the following remarks, "I want to thank the members of this Legislature for the faith and confidence you have shown in me by your selection as chairman at such a historic and crucial moment in our county's history.

We begin here a new year, a new decade with a change in our form of government. As I thought last evening about our efforts in rearranging this room, it occurred to me that in addition to being functional, it was somewhat symbolic of the change in form of government itself. The one, semi-circular row, indicating that we all share equally in the rights, responsibilities and power vested in us as legislators. The side by side arrangement, symbolic of our duty and desire to work together, with one common purpose; not to run, but to serve the County of Orleans. And facing the public; indicating our desire for clear and complete communication with the public we represent.

We face some trying times and challenging choices in the weeks ahead. But we have an excellent representation of our county assembled here. We have a farmer, a teacher, an insurance agent, an auto worker, a businessman and an engineer. We have on our Board enough difference of opinion to make our decisions thoughtful and thorough, and enough similiarity to make us compatible and able to achieve our goals. Therefore, I am confident that as long as we remember who we are, and why we're here, working together with the people we represent, the future need not be feared but rather welcomed, and that Orleans County will remain a desirable place to call home."

Letter from the Board of Elections requesting cancellation of computer service contract with Yondata Corporation and other connected services. The County Attorney informed the Legislature that the County has a contract with Yondata until May, 1980. He will contact them to endeavor to get a release from the contract.

Letter from the Board of Elections requesting approval to publish the lists of enrolled voters by March 1, 1980; quotes were received from Eddy Printing Corporation, Albion-Holley Pennysaver and MaCo Graphics, Inc. Medina Journal-Register informed the Board of Elections that they no longer do that type of printing.

Eddy Printing Corporation appeared to be the low bidder. Concern was expressed by several members that there might be a conflict of interest if the bid was awarded to Eddy Printing Corporation since Mr. Eddy is a member of the Legislature. Legislator Eddy submitted the following disclosure statement:

Eddy Printing Corporation

3816 Oak Orchard Road
Albion, New York 14411
716/589-5551 • 546-7750

January 16, 1980

To the Legislature of the County of Orleans:

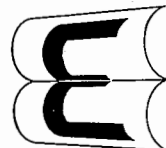

I, the undersigned, Arthur B. Eddy make this letter of disclosure pursuant to Section 803 of the General Municipal Law of the State of New York for the purpose of informing said Legislature that I am an employee of the Eddy Printing Corp. and am also hired by the Eddy Printing Corp. on an occasional consulting basis. I own less than five percent of the outstanding stock of the Eddy Printing Corp.

The Eddy Printing Corp. has previously engaged in business with the County of Orleans and that, upon information and belief, the Eddy Printing Corp. will, in the future, engage in business with the County of Orleans. The remuneration with the Eddy Printing Corp. will not be directly affected as a result of any contracts with the County of Orleans and the duties of my employment will not directly involve the procurement, preparation or performance of any part of a contract between the County of Orleans and the Eddy Printing Corp. In all instances that a claim or other indebtedness exists between the County of Orleans and the Eddy Printing Corp., I will abstain from deliberation thereon or vote thereof.

Respectfully submitted,

ARTHUR B. EDDY

Sworn to before me this 7th
day of February, 1980

Legislator Eddy stated that he is concerned that Mr. Remley who owns Eddy Printing Corporation might be unfairly penalized because of his involvement with the Legislature. He stated that he would abstain from voting on anything connected with Eddy Printing Corporation.

The County Attorney stated that this letter of disclosure comes under Sec. 803 of the General Municipal Law. Section 802 of the law says that where there has been a disclosure of interest and where approval of a contract would not affect the remuneration of said employee as a result of the contract, there would be no prohibition. There is a grey area in the law so it basically is a decision of the Legislature. Mr. Young said that with the disclosure letter being on file and made a part of these proceedings, another letter would not have to be filed at a later date unless there was a change in the arrangements between Mr. Eddy and the corporation.

Mr. Eddy was asked if he was an officer in the corporation and he replied that he is Vice President of the Corporation.

It was moved by Legislator Billings; seconded by Legislator Cook that the rules be waived to take action on the bids for printing the enrollment book.

Carried.

Chairman Dudek asked the Building Committee to consider reconvening the Building Committee to consider use of space in that building plus several of the other properties owned and leased by the County.

There is a possibility that Monroe County may include that bridge on their list of bridges to be repaired.

REGULAR MEETING
Thursday, February 21, 1980

The meeting was called to order by the Chairman. After the pledge to the flag, led by Legislator Nayman, the roll was called and all Legislators were present.

The privilege of the floor was granted to Mr. Robert Balcerzak, Project Engineer for the new county office building. Mr. Balcerzak said that construction progress was excellent and invited the Legislators to stop at the site at any time and look over the progress that is being made. He did ask that the Legislators identify themselves to the Project Superintendent.

Mr. Balcerzak asked that a letter be sent to the plumbing contractor reminding him that he was behind in his work, and unless he properly managed the job, there was a possibility of delay, which would make him liable to countersuit by the county. He noted that it was the obligation of the county to see that all the contractors were on schedule.

A report was given by Mr. Balcerzak on the interior of the building. He noted that the state required a much more sophisticated security system for the Department of Motor Vehicles, than is now in use in the present location. He said he would obtain figures on the cost, and submit them to the Legislature.

With reference to the service counter in the Motor Vehicle Department, Mr. Balcerzak said that the quotation that came back from the company was \$13,500 and only \$9,000 had been set up in the budget to provide for this. He asked the Legislature to authorize him to issue a change order for the additional \$4,500 increase. He said that he was getting quotations for costs on customer writing desks. It was noted that Mr. Piedimonte suggested that the extra counter in the license photo section of the Motor Vehicle Department should be held in abeyance, until a later date. Mr. Francis Rumble, Orleans County Clerk, who attended the meeting with Mr. Balcerzak, noted that the state law requiring photos has been delayed for one year, due to an action by the American Civil Liberties Union. However, counter space would have to be provided for the photo section. Mr. Balcerzak said he was asking for authorization for change orders to cover the cost overrun on the customer service counter and the additional cost for customer writing wall desks, both in the Motor Vehicle Department.

Motion was made by Legislator Piedimonte, seconded by Legislator Berger, to waive the rules of procedure, to allow a resolution on the Project Engineer's request to be placed on the floor. Carried.

RESOLUTION NO. 81

By Legislator Piedimonte, who moved the adoption.

Seconded by Legislator Cook.

\$4,500.00 increase in cost to cover the installation and materials for the Motor Vehicle customer service counter, and be it

FURTHER RESOLVED, that the Project Engineer is authorized to issue an appropriate change order to cover the cost of customer writing desks in the Motor Vehicle public area at a cost not to exceed \$1,745.00, both such change orders to be in accordance with the Project Engineer's report No. 1, dated February 20, 1980, and outlined in paragraphs No. 5 and No. 6, as presented to the Legislature.

Adopted. 7 ayes, 0 nays, 0 absent.

A motion was made by Legislator Piedimonte, seconded by Legislator Berger, requesting the County Attorney to write a letter to the plumbing contractor, as recommended by Mr. Balcerzak. Carried.

The Deputy Clerk presented communications from the following: a letter from Mr. Michael Paduchak, Acting Chairman of the Past and Present Supervisors Association of Orleans County, inviting the Legislators to attend their next meeting; a letter from Lacy, Katzen, Jones & Ryen, Attys. with reference to retainage on the County Office Building, John R. Fox & Sons Construction Co., Inc.; a Disclosure Statement from Insurance Service Agency; a letter from Nixon, Hargrave, Devans & Doyle giving an approving opinion on the County's bond anticipation notes; an amended Disclosure Statement from Mr. Dick Eddy.

The standing committees gave their reports as follows:

Mr. Billings, chairman of the Planning and Economic Development Committee said that the Planning Board had met with IDA and they are in the process of setting up committees to work on various projects.

Mr. Nayman, chairman of the Public Works Committee reported that he and Mr. Rumble had met in the city to try and come up with a copying machine for use in the County Clerk's office. They had had trouble with their copying machine. Mr. Nayman said they had seen a Kodak copier which seemed to copy photostats quite well, and had asked Kodak to supply information with reference to costs, etc., but had not heard from them.

Mr. Dudek noted with reference to people calling in from the Lyndonville area to the Reval Office to set up their appointments, or with questions on the impact statements they received on their property. He said that if the call was going to take very long; if the questions could not be answered quickly, that the County would return their call so that they would not have to have the expense of the toll call.

Mr. Berger, chairman of the Human Services Committee, reported on the various committee meetings of the departments under the Human Services Committee.

Mr. Eddy, chairman of the Ways and Means Committee said that the major activities of his committee had been with union negotiations - the CSEA and with the Sheriff's Deputies. He also noted that one item that should be considered is an Administrative Assistant to the County, and that his committee was beginning to gather information on that, and would be discussed at future committee meetings. He also said that information is being gathered in preparation for the next budget.

Mr. Cook, chairman of the Public Safety Committee noted that March 17, 1980 is scheduled for the first joint meeting with all departments under the Public Safety Committee. With reference to the Traffic Safety Board, Mike Nilsson has sent out questionnaires to see if the Board should be continued. REGULAR MEETING
Thursday, March 6, 1980

The Clerk read the following letter from Virgil H. Hodges, Director of CETA Operations Division, NYS Dept. of Labor, dated February 21, 1980:

"We are pleased to inform you that we have received notification from our Regional Office that your nominee James Draper has been awarded an "Outstanding Worksite Supervisors" award for participation in the 1979 "Summer Youth Employment Program".

It is with a great deal of pride that we make this presentation and compliment your staff on their excellent implementation of last year's program.

In order that we may all share a degree of your pride in accomplishment, we would like to make the presentation to Mr. Draper at our conference in Syracuse on "Youth Perspectives '80-'81" scheduled for March 24th.

Please make whatever arrangements necessary for Mr. Draper's travel to and from Syracuse, and confirm his attendance to us as soon as possible.

Once again on behalf of the CETA Operations Division and the New York State Department of Labor, I would like to personally extend my congratulations to you and your staff, and compliment your excellence in last year's Summer Youth Program."

Chairman Dudek introduced Mr. Draper and extended the Legislature's congratulations on a job well done.

Privilege of the floor was granted to Jerim Klapper, Commissioner of Social Services, Stephen Heard, Administrator of the County Home & Infirmary, and Alan Knutowicz, A.I.A. Mr. Heard presented the "Roofing Report" on the Orleans County Home & Infirmary, dated November 15, 1979, which was prepared by Mr. Knutowicz.

The report included pictures showing the deterioration of the roof at the Infirmary, explained the causes, and made recommendations on corrective measures.

Mr. Knutowicz explained that test holes had been drilled in the present roof. These tests showed that the deck underneath the tarred surface has deteriorated in many places. If the same type of roof is installed it would mean moving the patients during construction. Mr. Knutowicz in his report recommended Plan No. 3 a Pitched Roof at an estimated cost of \$405,000.

Mr. Klapper pointed out that there is some money in the Tax Stabilization Fund which could be used for the roof and paid back from the 75% State reimbursement over a twenty year period.

It was moved by Legislator Billings and seconded by Legislator Nayman to waive the Rules of Procedure to permit consideration of a resolution on engaging an engineer/architect and approving the plan for the roof.

WHEREAS, there has been presented to this Legislature the final report of Alan M. Knutowicz, Architect, on the condition of the roof at the Orleans County Home and Infirmary along, with recommendations for repair and/or replacement of said roof, and

Knutowicz, Spencerport, N. Y., to prepare specifications and bid documents in accordance with Plan No. 3 at a fee for his services not to exceed 6% of the total cost of the project.

Adopted. 7 ayes; 0 nays; 0 absent.

Privilege of the floor was granted to William Kast, Soil Conservation District. Mr. Kast explained the functions of the R. C. & D. Committee. He explained that the U.S. Agriculture Dept. has asked that the people of Orleans County give their views and concerns on the Soil and Water Conservation Program for the next five years. The Plan will be reviewed in five years. Congress passed the Act and now it is up to the people in the County to tell the Dept. of Agriculture what the programs should be.

Privilege of the floor was granted to Joseph Silien, Executive Director of the Rochester Genesee Regional Transportation Authority. Mr. Silien introduced Commissioner Don Cook, Howard Gates, Stan Garver and David Jacobstein members of his staff.

Mr. Silien explained that there are presently four member counties in the Authority, Monroe, Wayne, Livingston and Genesee. Orleans County is eligible to become a member because they were included in the original legislation. If Orleans County decides to join the Authority, then 1/4 of 1% would be added to the mortgage tax for mortgages over \$10,000, and that money would go to the Authority.

The various programs in the member counties were explained and discussed. Mr. Cook explained the proposed rail service from Rochester to Holley. He said that there are three stumbling blocks - Conrail, the State and where to get the equipment. He said that the first two can be overcome but the equipment problem is difficult because there is a shortage of rail equipment.

Mr. Silien suggested that the County meet with Authority representatives and decide on the type of program needed and wanted in the County, the cost and feasibility of funding, before deciding whether or not to join the Authority.

The Clerk presented the following communications:

Resolution from Genesee County re: engaging Richard Alessi as Bond Counsel for the Oak Orchard Watershed Project.

Notice from the Department of State that Local Law No. 2 of 1980 was filed in that office on March 3, 1980.

Report of Standing Committees:

Legislator Nayman reported on the G/F Planning Council meeting he attended. The 1979 audit showed a balance of \$52,466.00 in unexpended funds. This money has been invested. Chairman Dudek has been appointed to the nominating committee of the council. A report given at the meeting indicates that improvement program projects for 80-81 include extension of Rt. 47 from Ridge Road to the Parkway. 83-84 plans are to extend Rt. 490 west to Manitou Road.

Legislator Berger reported on the various meetings he attended in the past month. Community Action is still having a problem getting their money from the Federal Government. The Human Services departments will meet on the 3rd Monday of the month at 4:00 p.m.

Legislator Eddy reported that work on the 1981 budget will begin on May 15th. A letter will be sent to all departments outlining the policy to be followed in preparing their budgets. As a guideline for the present, the committee in considering expenditures, particularly for personnel, has decided to use 95% of all personal services as it appears in the budget as a guideline; 90% for equipment; and 85% of the amount budgeted for travel. One of the reasons for cutting travel is to save costs and reduce the use of fuel.

Legislator Cook reported that the members of the Traffic Safety Board feel that it should be continued. At the next meeting of the Traffic Safety Board a representative from the State will meet with them to give advice, etc.

Legislator Piedimonte reported that Doug Gillette will begin his duties April 21st as a replacement at Soil and Water for Bill Metcalf, who retired. Ducks Unlimited will soon be starting a branch in Orleans County. The committee instructed the Highway Superintendent to put some of the old equipment out for bids to sell several pieces of obsolete equipment.

Legislator Billings reported the Job Development Agency finally received some of the money due them from the State. The Economic Development Committee is trying to coordinate the overall economic development of the county.

Chairman Dudek reported on the meeting he attended sponsored by the Small Communities and Rural Development Board. There is a working group consisting of all agencies that have connection with rural counties. They will be selecting several counties for a pilot program. Mr. Dudek stated that it does seem to be pointing in the right direction to help rural counties.

County Attorney Young reported that with the committee's approval he has reached an understanding with the attorney for Yondata to resolve the matter of the contract for the Board of Elections. The County will be obligated to pay for Feb. and Mar.

Mr. Young also reported that the court hearing which was scheduled concerning payment of legal fees to the attorneys for the Taxpayers Assoc. has been postponed in order to enable both sides to try and reach an agreement.

Legislator Eddy introduced Resolution No. 143; seconded by Legislator Cook.

Legislator Nayman - "I have several thoughts, Mr. Chairman. The first thing we must remember is that this is still a temporary form of government. Obviously a permanent form will be different from what it is right now - but we don't know what it will be at that point. So we don't know that when a permanent form of government is put into effect that this job will be required.

Now if you remember, the promoters of the Legislature and the two or three people really out doing the big promotional work - the big selling point was to cut salaries in the County by \$17,000. We note that at the first meeting there were \$18,000 in new salaries that were added. Also there was a statement made during the campaign that the work load was going to be cut in half, as the legislators will be working on county business alone. Therefore, the Legislature will have 50 per cent more time.

The Supervisors investigated both the County Administrator and Administrative Assistant positions. They ruled out Administrator - I was on the Committee, I remember that - and they felt that the Administrative Assistant should be left in abeyance until such time that a permanent form of government is instituted. The public feeling - the public that has approached me, is that the legislature would then be shirking their duties because the legislature does not want to spend extra time at doing the necessary work.

Along with tonight's actions, it is an item that I believe, is not in the budget. You have already turned down one item for taking another salary out of the contingency fund. I have had calls on this from people who are not in favor of this. As a matter of fact, I had calls and suggestions on how the payment - we don't know how much the payment is going to be, it is not stated in the motion; where is the money coming from, what is the wage going to be? I had a recommendation that the chairman's salary be reduced to help pay for this. I would like to request a roll call vote."

Legislator Piedimonte pointed out that there are no qualifications listed in the resolution. He said, "You should have some sort of qualifications for this person. Are we just going to get somebody off the street and make him County Administrator?"

We have three elected positions in this County. County Clerk, Treasurer and Sheriff. If these people are not doing their job and administrating their departments well, the people have a choice of replacing them at election time. We also have department heads and an administrator of Social Services. This guy does his job well over there - social services takes up half of the budget."

Legislator Piedimonte pointed out that many programs in the county are federally or state mandated. He also stated that he felt it is better to have someone outside the county do the negotiating with county employees.

Legislator Berger read the local law adopted by the Village of Medina which established the position of Village Coordinator. Mr. Berger stated that the Village of Medina had saved time and money by having the position. He also pointed out that many other organizations and businesses have administrators, such as schools and hospitals.

Legislator Eddy presented a chart showing the growth of several county departments over a five year period. He stated that the total county budget has grown 58% - 1.7 million. He stated that he felt money could be saved on coordination of purchasing and mailings. He said that transportation costs are high, that "the different trips that were taken if put on a map would show county vehicles crisscrossing the county, each one may be for a department without coordination."

"On the use of space - we have been talking about microfilming, the storage of records, it is now being operated department by department, we need a coordinator in my opinion, in the worst way. On outreach workers - certainly some of these trips can be combined trips but we need somebody working from this position legally charged with the administration of this county. We just have to use common business practice in the operation of this 17 million dollar business with over 400 employees."

On funding - "We have spent, contracted for about \$21,000 for a negotiator to come in from outside the county to advise us in our labor negotiations. I think a lot more of it could be handled at the local level. Depending on the type of person we get, that possibly that money could go for the salary of the person involved and there could be other contractual obligations that we are spending money to hire experts to come in.

We do face the prospect of a cut in federal funds. It is imperative and our duty to act on this job which I think is extremely needed in the county and I am doing it with my only recommendation to save the county money. If that person can't save his salary once or twice over within a year or a year and a half, I don't think it would be worth it. I am convinced it would be worth it."

"The department heads are doing their jobs well. There is no question of that. But they are obligated to their department. We need somebody

that is obligated to us. What we need is an inflation fighter in this county and this person could do it."

Chairman Dudek, "The growth in County government the tripling we have had in the last 10 years far exceeds inflation. It is growth - it's things like the 24 requests for new positions we have had since January 1st of this year. That is not inflation, that is growth. Those are all brand new."

Mr. Dudek used as an example where savings might be realized, the results of a questionnaire sent to 90 employees last fall, which asked, do your spouses have other Blue Cross/Blue Shield coverage. Out of the 90 there were 64 responses and out of those 46 said yes. Out of those 46 we asked how many would be interested in either doing away with the coverage or receiving a bonus in place of taking those coverages because they were obviously duplicating coverage. It costs about \$850 per every family plan of B.C.B.S. That represents an excess of 30 per cent of county employees that have coverage elsewhere. If that was facted up by 420 employees it would be one item alone that represents \$100,000 per year in county costs. He said we need somebody to present information to us that we need to make the decision with - not to make the decision.

Mr. Dudek stated that he feels the position is needed.

Legislator Billings spoke in favor of creating the position.

Legislator Cook stated that there are all kind of things to be done - purchasing, grants, research analysis. He said that he was in favor of the manager form of government eight years ago. That he spoke at the public hearing in 1977 in favor of it. He said "I believe it is something that is needed and we ought to have it."

Legislator Billings pointed out that when he was Chairman of the Planning Board's Government Committee that body was in favor of an Administrative Assistant.

Chairman Dudek pointed out that if this resolution is adopted, then the Legislature must create a technical job description and qualifications, salary, etc.

After further discussion a motion was made by Legislator Nayman, seconded by Legislator Billings, to call the question. Unanimously carried.

Upon roll call vote the following resolution was adopted.

REGULAR MEETING
Thursday, April 3, 1980

The meeting was called to order at 2:30 p.m., by the Chairman. After the Pledge to the Flag led by Legislator Piedimonte, the Clerk called the roll and all Legislators were present except Legislators Berger and Cook, who were excused.

Privilege of the floor was granted to Jacob Glassner representing the Orleans County Ethics Committee.

Mr. Glassner reported on the first meeting of the Committee. He requested approval of two resolutions suggested by the Committee, one to amend the resolution which established the committee, to make the two alternates voting members. The second resolution concerned the appointment of the alternate members as voting members. Mr. Glassner said that minutes of the meeting would be filed with the Legislature.

Adjourned to the Grand Jury Room to meet with several farmers concerning the revaluation of farm property. There were about thirty persons present. Mr. Leon VanLieshout and Mr. Charles Baldwin made a presentation questioning the appraisal, particularly the classification of land. Great concern was expressed that so much of the land was valued at Grade A. Representatives of K.V.S. were present to answer questions. It was suggested that anyone who did not get an appointment or who still had questions concerning their appraisal, write to K.V.S. and include all the pertinent data concerning the parcel. Letters will be going out in May in answer to the reviews.

The Clerk presented the following communications:

Letter from the Orleans County Farm Bureau, Inc., dated April 1, 1980, re: Resolution adopted by them opposing the acceptance of the revaluation project by the Legislature.

Letter from President of County Veterans Service Officers Association of NYS, dated March 25, 1980, commending the performance of John D. Pratt, Jr., Director of Orleans County Veterans Service Agency.

Legislator Piedimonte reported that the Social Services Department was worried about the wiring for the computer at the new building. At the time the plans were drawn this item was left out because it was not known where it would be going. The cost of putting this in would be about \$3,000 if it is hired done. Mr. Piedimonte informed the Legislature that county personnel could install this themselves and that is what the committee recommends. There was no opposition to this by any members present.

Legislator Piedimonte also reported that the Regional Transportation Authority is interviewing someone to work in the outer areas of the region.

Someone from the Authority will be contacting the county in about three weeks. The County Attorney was directed to contact the County Clerk to find out what the cost of the additional mortgage tax would be. Legislator

Billings asked that the county find out if we can get out of being a member once we have joined. Mr. Young stated that once you are in you are in to stay. The question also needs to be answered as to whether or not the county will be obligated to invest county funds.

Legislator Nayman reported that he had contacted Herb Bothwell regarding interpretation of data if the county goes to a central telephone system at the new building. A tape recorder can be installed to record the calls and the computer in the Treasurer's Office is equipped with a coupler which could be used to interpret the data for billing purposes.

Mr. Nayman also stated that he had been asked if the new Ethics Committee could investigate the "thing" in the paper concerning Legislator Cook. Mr. Nayman also asked why he had not been invited to the meeting the previous evening concerning the Lipton closing. Legislator Billings stated that the committee should have notified the other members of the Legislature. Mr. Billings stated that the Economic Development Coordinator and I.D.A. will be coordinating the Lipton situation.

REGULAR MEETING

Thursday, April, 17, 1980

The meeting was called to order at 7:30 p.m. by the Chairman. After the Pledge to the Flag led by County Attorney Young, the Clerk called the roll and all Legislators' were present except Legislators' Berger and Eddy. Chairman Dudek welcomed students from Kendall Central School. The students were attending the meeting as part of the "Youth in Government" program.

The Clerk presented the following communications:

Notice of informational meeting on Diaz Chemcial Corporation petition for rezoning in Clarendon for plant expansion - April 21, 1980 at 7:30 p.m., Clarendon Town Hall.

The County Attorney explained that the petition concerns about 95 acres in the Town of Clarendon. He explained that about 40 acres of that land will be available to the county as a county industrial park, if the town approves it and the Legislature subsequently sees fit to appropriate necessary money to provide the services to that land - utilities, service roads for access, etc. The expansion itself would be in the Village of Holley and not in the Town of Clarendon. Mr. Young encouraged attendance at the public meeting as did Chairman Dudek. Mr. Dudek explained that it would require some commitment of county funds. Legislator Piedimonte stated that in-kind services such as building roads, etc., might take the place of appropriating county funds.

Mr. Young explained that there is grant money available for 90% of such project costs with a local contribution of 10% which could come from either county or town in-kind services.

Legislator Piedimonte pointed out that it would be especially important to students graduating from college to perhaps provide jobs so that they could stay in the county.

Notice of public hearing in the matter of application of Blue Bird Coach Lines, Inc., to operate a carrier of transportation of passengers in several counties, including Orleans. The County Attorney has sent a letter to DOT requesting information as to whether or not such an application if granted would preclude a similar type of transit authority program in our county.

Letter from Assemblyman Hawley acknowledging receipt of resolutions 137, 140 and 144. Mr. Hawley pointed out that the Agricultural Districts Law is now being reworked and another Commission is being formed to take the place of the Agriculture Resources Commission. This body will have greater responsibility than the old one.

REGULAR MEETING
Thursday, May 8, 1980

The meeting was called to order at 2:30 p.m., by Chairman Dudek. After the Pledge to the Flag the roll was taken and all Legislators' were found present.

Privilege of the floor was granted to representatives of the Regional Office of the Department of Transportation, who brought the Legislature up-to-date on the progress of the Knowlesville Bridge Project.

The two alternatives which had been given tentative approval by the Board of Supervisors were discussed and questions were answered concerning these proposals. Alternate B was favored by the Board of Supervisors.

The majority of persons present seemed to favor Alternate B. Both plans would take a small portion of the Orleans County Fairgrounds and several houses and a business, however, Alternate B would have the least affect on the fairgrounds.

REGULAR MEETING
Thursday, June 19, 1980

The meeting was called to order at 7:30 p.m. by the Chairman. After the Pledge to the Flag led by Legislator Nayman, the Clerk called the roll and all members were found present.

The Clerk presented the following communications:

Letter from Senator Moynihan, dated June 6, 1980, acknowledging receipt of the resolution regarding pass through to local districts of additional Title XX money.

Letter from Judge Miles, dated June 11, 1980, with a copy of the "Amendment to Rules of the Chief Administrator of the Courts Governing Judicial Conduct". This amendment reads in part, "The taking of photographs in or of a courtroom (or), the broadcasting from a courtroom (or) and the telecasting (from) in or of a courtroom any time or on any occasion, whether or not the court is in session is forbidden, unless permission of the chief judge of the Court of Appeals is first obtained. However, this provision shall not apply to applications made to the appropriate court for photographing, taping, or videotaping by or on behalf of the parties to the litigation for the sole purpose of the litigation and not for public dissemination."

Judge Miles explained in his letter that, "This means that no one locally has authority to allow pictures, broadcasting or telecasting at any time for any purpose. I am aware of the fact that on numbers of occasions, the Legislature uses the Courtroom. My personal opinion is that the Legislature and the public should be encouraged to use our beautiful Courtroom. However, this rule involving judicial conduct seems to place it squarely upon my shoulders as the Orleans County Judge to enforce the rules against pictures, broadcasting or telecasting."

Judge Miles suggested that he be notified as soon as possible if there is a request for pictures, etc. in the Courtroom so that he can try to obtain approval from the Chief Judge of the Court of Appeals.

It was suggested that the County Attorney write a letter to the Chief Judge and inquire whether exceptions can be made for the various meetings that are held in the Courtroom.

Presented a copy of the decision by Judge Kasler regarding payment by the County of court expenses in the reapportionment case. Also read a memorandum from the County Attorney dated June 17, 1980, regarding this case. The Chairman suggested that copies of both be given to the members so that they can be prepared to discuss this at the Conference Session on June 30th.

Chairman Dudek stated that the following items would be added to the agenda:

Resolution Terminating Permission of Livingston Abstract Corp. Use of Office Space in County Clerk's and Surrogate's Building.

Resolution Accepting Additional Monies for Section 8 Housing.

Legislator Cook reported that the Public Safety Committee inspected some of the railroad tracks near Knowlesville. There will be a resolution later in the meeting.

Upon motion of Legislator Eddy; second by Legislator Cook, it was moved to table the above resolution. Adopted. 5 ayes; 2 nays, Legislators' Berger and Nayman; 0 absent. Motion was tabled.

Legislator Piedimonte requested that a decision on awarding the bid for the telephone system be delayed.

Legislator Nayman asked about the process for interviewing applicants for the Administrative Assistant position. Mr. Eddy replied that the committee is processing the applicants and would probably interview about 10. All members of the Legislature are welcome to attend the meetings of the committee and/or the interviews.

Chairman Dudek informed the Board that the Election Committee should consist of only two persons, one from each party, therefore, he will make a recommendation at the next meeting.

It was moved by Legislator Piedimonte and seconded by Legislator Eddy that the meeting be recessed until 5 p.m. July 9, 1980.

ADJOURNED REGULAR MEETING
Wednesday, July 9, 1980

The adjourned meeting of the Legislature was called to order at 6:00 p.m. by the Chairman. All Legislators were present.

The County Attorney was requested to speak on the bids for the telephone system at the County Office Building. Mr. Young said that it appears it would be best economically over the long term to take a ten year lease on the telephone system. The original proposal as submitted by Ronco failed to give us a ten year price on the proposal and did not have in there any lease documents. The proposal from Executone had all the required documents in there and had a ten year price. The discussion has been that the difference in cost between Ronco and Executone versus the New York Telephone Company is prohibitive. Obviously the final price will depend on how many telephones are installed in the new building. Through discussion with users of Ronco and Executone concerning service it would appear that there have been some problems with Ronco's service.

Resolution No. 265 was introduced and seconded. Mr. Eddy stated that it was his understanding that the County can reduce the number of instruments installed.

Legislator Piedimonte stated that because of past experience he could not go with Ronco. Ronco sent a repair man out to the Sheriff's Department and he had to borrow tools from the Buildings Department - an electric drill, pliers, etc. Executone says that they can give service very fast, New York Telephone can give us service but there is a difference of \$117,000 over a ten year period. The telephone company is a very large taxpayer in this county so it is hard to vote against them.

RESOLUTION NO. 265

By Legislator Cook, who moved the adoption.

Seconded by Legislator Eddy.

Special Legislature Meeting
July 30, 1980

The meeting was called to order at 5:05 p.m. by the Temporary Acting Chairman, and Mr. Billings led the Pledge to the Flag. The Deputy Clerk called the roll, and four Legislators were present, with Legislators Dudek, Berger and Nayman absent. (Mr. Berger had stated prior to the meeting that he would be late, but would be in attendance, and arrived at 5:15 p.m.)

The Acting Chairman explained the purpose of the Special Meeting and at this time, Mr. Billings made the motion to adopt a resolution authorizing the filing of application with the Economic Development Administration, United States Department of Commerce, United States of America, for a Grant, under the terms of Public Law 93-432 as amended by Public Law 94-487. This was seconded by Mr. Cook.

Mr. Eddy, the Acting Chairman, opened the floor for discussion on the resolution and application, and asked Mr. Larry Witul, the County Economic Development Coordinator, to give a brief explanation on the background to the application. Mr. Witul said that the resolution would enable the County to file an application under Title IX, with the Economic Development Administration. This application would enable the County, with the assistance of Federal funds, to obtain a consultant to identify the problems on the long term deterioration of the County and to come up with solutions to the problems, as they are identified. He said that this application was initiated mainly because of the closing of the Lipton plant in Albion. After EDA had reviewed the proposal, they made a determination that the County should file for the long term adjustment plan - looking at food processing industries in the County and assisting new companies to come into the area; to try to find a suitable replacement for the Lipton Company. He said that this Adjustment Plan is the first phase of the overall program under Title IX, and that once the consultant has completed his report and established a plan of "attack" the County can use this information he has provided to support other applications. There are a broad range of programs which will be available through the Title IX program.

Mr. Billings aid that this would not be limited to food processing industries only, but other types of industries would be investigated also. With reference to the \$80,000.00 grant monies, he said that the 25% provided by the county as its share would also include in-kind services, which would be deductible from the county share, after documentation of the expenditures. Mr. Billings said that the reason this application has to be submitted quickly is that the funds are from the EDA 1980 funds, and this funding will be ending Sept. 30th. Regional Planning will be able to provide the County with a list of qualified consultants for the project.

Mr. Witul said that a management group would oversee the consultant on the project - this group would consist of representatives from the Regional Economic Development group, from the County IDA group, the Economic Development Coordinator, and a regional representative from the EDA. After doing this study, the County will be able to file for additional funds under the Title IX Program; without doing the study, the County could not apply for any other programs.

Mr. Witul said that Orleans County was in a unique situation in that this type of program is usually given to urban areas, and that very few rural counties have this opportunity. Mr. Witul explained the procedure that would be followed after approval by the Legislature in reference to submitting the application, and that after final approval, and the hiring of a consultant, a Sept. 1st date had been decided upon for work to begin.

It was explained that the County Economic Development Committee would have the final decision on which proposals submitted by the consultant, would be acted upon. Mr. Witul said the final process will be decided by the County Legislature.

After this discussion, Mr. Eddy called for a vote on the following resolution:

RESOLUTION NO. 274

By Legislator Billings, who moved the adoption.

Seconded by Legislator Cook.

It is proposed that the State take over the section of Route 31-A now maintained by the County and in return the County would take over maintenance of Route 279 and the portion of the Taylor Hill Road now under the State. Concern was expressed that if the County had to rebuild the Waterport Bridge on 279 it might be a very expensive project. Mr. Dudek requested that Mr. Whitehouse supply the County with the latest inspection report on that bridge. The Legislature discussed the letter from Carri Blake, Director of the Office for the Aging, dated August 15, 1980, which outlined three options available to the County regarding the resolution of the legal services issue.

Chairman Dudek pointed out that as outlined in the letter, the county can challenge the state and not adopt the legal services program thereby jeopardizing state aid for the office. The county can provide legal services through the Community Services, this would mean hiring a Program Coordinator with 100% state funding. There has already been \$926.00 expended for outreach services, this would become a county expense if the Community Services portion is not accepted. Or the county could put the legal aid services in the 3B section but to do that we would have to displace existing programs.

Legislator Piedimonte requested that the county try to bargain with the state - he also said he felt the Bar Association should help in this.

Mr. Young stated that the State will not accept a contract with the Bar Association. The Bar association can not bind their members to the regulations set by the Federal regulations. The regulations would restrict a lawyer from even asking someone to register to vote.

After much discussion concerning all options and the funding for same, the following resolution was adopted.

REGULAR MEETING
Thursday, September 18, 1980

The meeting was called to order at 7:45 p.m., by the Chairman, all members being present. Pledge to the flag was led by Chairman Dudek.

Privilege of the floor was granted to Steve Heard, Administrator of the County Home and Infirmary, and Alan Knutowicz, Architect, to discuss the bids for replacement of the roof at the County Home and Infirmary. Mr. Heard pointed out that it is important to not only consider the serious problem of repairing the roof at the Infirmary for the present time but to look to the future, five or ten years ahead, when comparing the costs.

Mr. Knutowicz reviewed the past history of the roof at the Infirmary and the result of the survey done by his firm and presented to the County, along with recommendations for replacement of the present roof. In the report there were three options for replacement of the roof presented; 1) a coal, tar, gravel, roof system similar to the original; 2) a single ply membrane system; 3) a metal roof system. The metal roof system was recommended. The County voted to request bids for the metal roof system; also included in the bid was insulation and new lights. The total low bid received was slightly less than \$700,000.

Discussion of various alternatives took place. Mr. Knutowicz will report back to the Legislature in two weeks relative to recommendations for cutting out various items to lower the cost of replacement of the roof. Chairman Dudek stated that he will have the Buildings and Grounds Superintendent contact several roofing contractors for their opinion on repair or replacement of the roof. This will allow time to consider all alternatives before a decision is made on repair or replacement of the roof.

The Clerk presented the following correspondence:

Thank you note from the family of Edwin Weeks for the resolution adopted In Memorium.

Letter from Soil and Water Conservation District, dated September 11, 1980, that Geary Schenk has been appointed as an Associate Member to replace Edwin Weeks on that Board.

However, no new participants may be enrolled nor new programs initiated. Mr. Hancock has enough funds to keep this program going for a short time.

Chairman Dudek reminded the members that persons wishing to serve on the committee should request it in writing. Each Legislator should make a recommendation.

It was moved by Legislator Billings, seconded by Legislator Eddy, that the meeting be adjourned. Carried.

Adjourned at 4:50 p.m.

REGULAR MEETING
Thursday, October 16, 1980

The meeting was called to order at 7:30 p.m., by the Chairman. After the Pledge to the Flag led by Legislator Piedimonte, the Clerk called the roll and all members were found present.

Chairman Dudek announced that several citizens were in attendance who had expressed a concern to him about an article which appeared in the newspaper which incorrectly indicated that the Legislature was going to adopt a Sanitary Code for Orleans County. Chairman Dudek explained that the Housing Council, a volunteer group not connected to county government, at one of their meetings discussed the fact that if a code was adopted perhaps some of the housing problems could be corrected. At a committee meeting the Administrator of the County Health Department explained to his committee the benefits and the drawbacks connected with adopting a Sanitary Code. There would be a cost increase to police such a code and many of the problems could be corrected under present laws without adoption of a Sanitary Code. Mr. Dudek said it was just an item that was discussed and as far as he knows there is no intention to adopt this code. In answer to a question, the County Attorney replied that if the Legislature did ever decide to adopt a Sanitary Code it would be subject to a public hearing before it could be considered for adoption.

Privilege of the floor was granted to Charles Biggs, Director of Community Services. Mr. Biggs discussed his request to negotiate to rent the "Pullman House" as quarters for the Day Program currently housed at 113 E. State Street, those quarters are too small for the number of persons involved in the program. A \$400 binder would be required to hold the Pullman House. Mr. Biggs said that the program is 100% funded. Concerns were expressed about renting any additional space since there will be space available at Platt Street when some of the offices are moved. Mr. Biggs was directed to check into costs for both the Pullman House and for use of space at Platt Street to house all the Community Service programs.

Privilege of the floor was granted to Terry Christiansen, representative of Executone. Mr. Christiansen presented several proposals in connection with the telephone system at the new county building, Infirmary and Commissioners house.

The Clerk presented the following communications:

Copy of letter to Assemblyman Hawley from Orleans County Fraternal Association, dated October 3, 1980, re: requesting support of legislation to allow legalized gambling for non-profit organizations.

Notice that Local Law No. 3 of 1980 was filed with the Department of State on September 29, 1980.

Letter from Genesee/Finger Lakes Regional Planning Council, dated October 8, 1980, re: Status of Genesee/Finger Lakes Areawide Housing Opportunity Plan.

Letter from Health Systems Agency of Western New York, Inc., dated October 9, 1980, outlining the services performed for Orleans County and requesting an appropriation of \$2500 for 1981.

Legislator Nayman reported that the County received three proposals for an up-date of the revaluation of property. The proposals are being reviewed and a recommendation will be made at the next meeting.

The Clerk read a list of names of fourteen persons who have expressed an interest in serving on a Reapportionment Committee. Chairman Dudek stated that of these fourteen people seven must be chosen to serve on the committee along with the seven members of the Legislature. The following seven persons were chosen by ballot to serve on the Special Reapportionment Committee:

Ralph Brown, 1285 Oak Orchard River Rd., Waterport, N. Y.

REGULAR MEETING
Thursday, November 20, 1980

The meeting was called to order at 7:30 p.m. by the Chairman. After the Pledge to the Flag led by Legislator Cook, the Clerk called the roll and all members were found present.

Chairman Dudek began the meeting by presenting a plaque to Deputy Sheriff Colin P. Murphy. Chairman Dudek stated that "we often note with interest stories that describe heroic acts of people from across the country and we tend to overlook the same kind of acts that are done by people close to home." Chairman Dudek then read a newspaper account of November 24, 1979, which described the rescue of a woman from the Barge Canal by Deputy Pete Murphy. The plaque presented to Deputy Murphy read as follows: In special recognition of Colin P. Murphy for meritorious conduct on November 24, 1979 in Albion, given by the Orleans County Legislature November 20, 1980.

Privilege of the floor was granted to Robert Tirsch, Director of the Youth Bureau. Mr. Tirsch introduced Mr. Frank Hall, Director of the New York State Division for Youth, Mr. Richard Laskowski, Division for Youth Field Representative and several people from agencies who use the Division for Youth funding.

Mr. Hall spoke briefly to the Legislature about the County Youth Bureau - its programs and its aims. He spoke favorably of the number of programs that have been developed in the past two years and of the commitment of the people involved. He said he was very impressed with the way that program monies had been used in the county's programs. Mr. Hall stated that comprehensive planning had increased the resources available to the counties without increasing their costs.

With reference to next year, Mr. Hall mentioned that possibly some programs might be cut; that all programs would be very closely scrutinized. This would be due to the tight fiscal period the State is in. Mr. Hall and Chairman Dudek then signed the 1981 Comprehensive Plan for Orleans County.

The Clerk presented the following communications:

Letter from Warren Breed, Lyndonville, N. Y., dated November 11, 1980, resigning as a member of the Special Reapportionment Committee.

Letter from Mary C. Kingsley, Medina, N. Y., dated November 13, 1980, supporting funding of the CATS bus system.

Letter from the Superintendent of Lyndonville Central School, dated November 13, 1980, regarding time-payment of school taxes.

Chairman Dudek reported on the NACO meeting in Washington which he attended regarding Federal Revenue Sharing legislation. He said he attended all the meetings, and had stopped at Congressmen LaFalce and Conable's offices. He also met with Senators Moynihan, Javits and Senator-elect D'Amato. The day he was in Washington the Congress had rejected a bill to extend Revenue Sharing for one year, which was NACO's position. They wanted the one-year extension rejected because they felt that they had enough votes to get a three-year extension. Later that day the House did pass that bill.

Chairman Dudek appointed the following persons to the Orleans County Agriculture Advisory Committee:

Legislator James Piedimonte

Farmer Representatives: Eldred Wheelock, Town of Carlton
Albert Bowman, Town of Albion
William Klick, Town of Kendall
Charles Beach, Town of Barre

WAYS & MEANS COMMITTEE

THE BOARD OF SUPERVISORS OF ORLEANS COUNTY
Your Budget Officer and Ways and Means Committee in conformance with Article 7 of the County Law, herewith submit our recommendations for a budget that we feel is conservative, yet should ensure that the Taxpayers of Orleans County will receive a reasonable return on their property tax investment for the year beginning January 1, 1981:

TOTAL APPROPRIATIONS	\$18,637,716
LESS: Estimated Revenues	\$15,170,278
LESS: General Fund Surplus	600,000
LESS: Federal Revenue Fund Surplus	57,100
PLUS: Allowance for Uncollected Taxes & Deferred Tax Revenue	56,000
AMOUNT TO BE RAISED BY REAL PROPERTY TAX	\$ 2,866,338

This proposed budget represents a 4.48% increase in the tax levy over the 1980 approved budget as adopted by the Board of Supervisors on November 29, 1979. This proposal is the result of budget policy guidelines set up by the Ways and Means Committee early last summer. County department heads were directed not to exceed specified spending levels except in certain emergency areas and advised to be thoughtful in the development of priorities to minimize spending requirements in the 1981 budget.

In addition to the budgeting guidelines mentioned above, the Committee has emphasized the problems with the economic condition of the County, and the increased unemployment rate as a result of the closing of the Lipton Plant in the Village of Albion.

The increase in appropriations is \$1,545,800, which is due to a projected rise in the County costs of Medicaid and Home Relief which is anticipated as a result of the closing of the Lipton Plant. We have also considered the inflation rate, increased operational costs, provisions for minimal salary increases and new building expense. This increase is largely offset by an increase of \$1,373,803 in Revenues, which is mostly State and Federal Reimbursement for County programs.

We are pleased to report a \$657,100. cash surplus which we will use to reduce the tax levy. This surplus amount was realized from sales tax receipts in excess of the budgeted amount, a successful competitive bidding system for investments which netted more than was anticipated, increased O.T.B. revenues, and New York State share of the cost of the Tax Revaluation program, which was \$214,887. This also includes a Federal Revenue surplus of \$57,100. The total tax levy is increased by \$122,897 from the 1980 levy.

We have continued our policy of reporting CETA employees and Employee benefits, as well as net County Costs, which we hope will present a more accurate picture to the taxpayers.

Throughout the year, the Administration monitored the monthly expenses carefully, and stressed the need for conservative spending. This position was continued in the budget-making procedures for 1981. New positions and equipment purchases must be kept at a minimum.

With our taxpayers faced with many problems in our County at present, we feel it imperative to keep the growth of the County Budget on a "hold the line" basis.

Respectfully submitted,

Mary B. Basinait

REGULAR MEETING
Thursday, December 18, 1980

The meeting was called to order at 7:45 p.m., by the Chairman. After the Pledge to the Flag the roll was called and all members were found present.

Chairman Dudek welcomed students from Lyndonville Central School to the meeting. The students are part of the Youth in Government Program.

Privilege of the floor was granted to Ms. Barbara Coe from Systems Development Corporation who is the coordinator of the Welfare Management Systems for New York State. Ms. Coe introduced Mr. Anderson, Director of Project Planning and Mr. Ed Miller, Director of Installation for the New York State Welfare Management Systems.

A brief background on the Welfare Management Systems was given, along with information on several counties who are currently using the WMS program. It was explained that a site survey would be done here in Orleans County, along with preliminary studies, to determine how many printers, etc. would be needed, and also the process that would be used so that local workers would have the best access to the system. She said an interface would be done to coordinate local methods and WMS, if needed. It was explained that the Technical Support Unit does the installation of equipment and that after this, county employees are trained. When the system is in full operation on a state-wide basis, it will be the largest informational system in the United States. It is a computerized system to collect, process and store basic eligibility information.

With reference to cost it was explained that there is a contract signed between the County and State covering a two-year time frame. The legislation supporting the WMS provides 100 per cent upfront monies for the county. The contract has been signed by the Attorney General and is now in the Comptroller's office and should be put through by the end of December. The total cost estimate in the contract is \$136,000.00.

The equipment relative to this system is state leased and paid for by the State so that it isn't county equipment, and requires about 400 square feet of space.

There was discussion on whether or not the 100 per cent funding would also apply to the cost involved in relocating the Probation Department to another building, since office space originally planned for that department in the new building, would be used for Social Services and WMS. Chairman Dudek stated that due to the space required by WMS it was necessary to relocate the Probation Department and additional costs would be involved because renovation work would have to be done in the new area for Probation. Ms. Coe stated that she would get together with Commissioner Klapper to get specific cost figures and look into the matter further.

Privilege of the floor was granted to James Morey and Mrs. Janice Burdette from the Local Health Systems Sub-Area Committee. Mr. Morey explained that about a year ago the local committee had requested that the Board of Supervisors include in the 1980 budget a sum of \$2500 for HSA. There was a stipulation that these funds be held to see if there was a local project for 1980. Since there have been no projects for this year, the local committee is requesting that these funds go to the regional HSA office in Buffalo.

Mr. Morey described some of the ways the local committee serves the county in approvals for various applications which must go through the Health Systems Agency. Mrs. Burdette stated that the Buffalo office sends a staff member to the Sub-Area Committee meetings to provide technical advice and

liaison. There was general discussion on the make up of the committee and it was felt that there should be more consumer representatives. Chairman Dudek suggested that the county encumber \$1300 from the 1980 budget to enable the necessary funds to be available in 1981.

A motion was made to encumber the funds. Legislator Billings moved that the motion be tabled. Motion to table received no second, the following resolution was adopted.

The Office expanded its contracts in 1980 by assuming sponsorship of the Nutrition Program for the elderly which is subcontracted to the Salvation Army and by providing legal services under contract to the Orleans Legal Aid Bureau.

A new position was created to satisfy requirements of the NYS Community Services for the Elderly Law and thereby entitle us to increased funding for services. The Coordinator of Services was employed in October 1980 and is responsible for needs assessment and planning activities.

Direct service to clients included outreach visits by an expanded outreach staff (from 1-1/2 - 2 persons), extensive assistance to clients with full program applications, health insurance counseling, basic information and referral and personal counseling.

A pilot program, "Project Share", was developed in conjunction with the Youth Bureau to match up senior citizens and high school students.

Other contracted services included transportation on the CATS mini bus system and homemaker/home health aide services from the Salvation Army. Over 6,000 round trips on CATS were provided and the 14 clients received home care services.

PROGRAM Drug Abuse Services - 1980 Annual Report

1. Suicide Intervention: From mid-1979 to present, we have been instrumental in intervening in some 35 suicide attempts. This has been the result of our outreach component and our emergency care operations. We feel proud in that a certain number of people today are alive as a result of our services.
2. School program: For the school year 1979-1980, we have seen some 3200 school children. (It should be noted that most of these students were seen on three separate occasions with three separate programs during the course of our drug and alcohol prevention/education series.)
3. Number of clients not needing institutionalization as a result of our program: a three month sample taken in 1980 shows some nine clients who either did not need institutionalization or had shortened institutionalization because of our services. We are aware that every client we see does not need institutionalization but this study that we conducted showed people who would have needed institutionalization if it were not for our services. The estimated savings through our intervention work is roughly \$150,000 and these clients are back in society and also back on the tax rolls.
4. Cost effectiveness of our program: As a result of services performed on the local level, these services have been more cost effective, averaging out to the county cost of

\$140.67 per client as against some \$10,000 per year for institutionalization/welfare. If that study is done based on units of service, the cost is even further reduced to \$69.02 per client.

5. Estimate of clients drug free as a result of our services: out of some thirty-six primary clients selected at random that completed our program, we show twenty-eight or almost 77% drug free as a result of our program.

6. One of our proudest accomplishments for 1980 is our school education/criminal justice/parenting workshops program. We have met with all of the 6th grade classes in Orleans County (some thirty classes) as a part of our prevention/education program on drugs and alcohol, utilizing such tools as self-esteem, values clarification, peer group pressure and decision making to help those students make positive choices about drugs. We have taken and are in the process of taking all thirty 6th grade classes through the Criminal Justice system, i.e., the court room to meet with Judge Miles, county jail to meet with Sheriff Green and talk with an inmate. Also, the students meet with the District Attorney and a Probation Officer -- all as a way of preventing and intervening in the drug abuse process. The third component is made up of a parenting workshop to give these parents proper skills in communicating more effectively with their children.

7. Hypoglycemia: We have jointly sponsored a Hypoglycemia (Low Blood Sugar) Seminar showing, as well as making an audio visual aid, how poor nutrition can affect attitude and behavior, i.e., drug and alcohol abuse and criminal behavior. This program has been well received by the people who have utilized it -- who are becoming more aware, as Fuerbach said, "You are what you eat."

8. We are pleased with our participation at the County Fair which brought information of our services to many people with our Human Services Booth. Along with this, we have engaged in many public speaking engagements throughout the County.

9. Another important highlight was the reception of so many fine letters of commendation from school officials, parents and children concerning our school program. These letters are on file in our office for your information.

10. We are pleased to have received a multi-year license for our program from the New York State Division of Substance Abuse Services.

11. We were also gratified concerning our Jail Program wherein our counselors go into the Orleans County Jail and the Albion Correctional Facility during the month to deal with inmates' drug abuse problems.

12. We are pleased of letters sent to all doctors as well as all hospitals in the area, warning them against and suggesting a treatment for phencyclidine (PCP) overdose. We have also contacted area doctors in hopes that they will become sources of referral.

13. We add this accomplishment last, but not least, in that the Director of the agency, Fr. Edward Mangelsdorf, has headed up a Human Services Committee Task Force to do a needs assessment for the Human Services and the Legislature for the year. Some important achievements of this Task Force have been a flow chart showing each Human Service agency and the work they perform and a cost effectiveness instrument vis a vis other county, state and Federal monies. The Task Force is currently studying a list of common needs of both the Human Services and the Orleans County Legislature and will be meeting regularly.

Respectfully submitted,

Fr. Edward R. Mangelsdorf

PROGRAM: In the beginning of 1980, the County of Orleans Industrial Development Agency and the Office of Economic Development had hoped to undertake several projects toward improving the county's economic climate. By April 2, the T.J. Lipton Company announced it would be closing the Albion facility, forcing the County to redirect its objectives for 1980 and concentrate on alleviating this economic setback.

While the closing of the Lipton plant is by no means a highlight, the overall impact this has had on the county will ultimately generate new economic growth. As a result of the shutdown and subsequent publicity, several industrial firms have expressed interest in Orleans County. Both the Industrial Development Agency and the Economic Development Office are actively pursuing these firms in the hope they will establish facilities in this county. In addition to the county's efforts to recruit new businesses, it has also been working with local firms in an attempt to facilitate new growth.

In August, Orleans County applied for and received a \$80,000 Grant from the Economic Development Administration to undertake a Detailed Adjustment Strategy. To develop this strategy, the County Legislature retained the Consulting firm of Battelle Columbus Laboratories. Once completed, Orleans County will have a program suitable for attracting new industry, assisting local business, develop needed facilities and be eligible for additional grant monies from the Economic Development Administration to implement these objectives.

One of the Office's goals for 1980 that has been realized was the creation of the County of Orleans Business and Industry FactBook. To date, this promotional item has been very beneficial in the county's efforts to attract and assist business.

During the coming year, the County's Industrial Development Agency and Economic Development Office look forward to an improved economic climate through the expansion of this area's industrial base. These agencies have worked diligently toward creating new employment opportunities and will continue to do so in 1981.

PROGRAM

The purpose of Cooperative Extension is to help people help themselves through informal, educational programs. Many volunteers serving on program committees, and the Board of Directors - along with staff - are dedicated to making Extension work for all the people. Program accomplishments this past year are evidence of this, in spite of numerous staff changes.

Orleans County Cooperative Extension has sizable facilities to manage. The Association owns both the headquarters building in Albion and the Junior Fairgrounds complex in Knowlesville. Those facilities are valuable as locations for Extension programs, as well as numerous other community activities.

A considerable amount of time has been devoted to answering energy related questions. Some packages were developed in conjunction with Community Action and Social Services, and were moderately successful. People do, however, have a tremendous number of questions on wood burning, stoves and alternative energy sources, that consume a great deal of time.

/over/

Close to five hundred calls were handled in the consumer horticulture area on subjects ranging from what to do about bats to where people can have their soil tested. This area was handled by a part-time aide working through the Green Thumb Program. She also worked with the 4-H Program. It involves a great deal of staff time to answer consumer horticultural questions. We will continue to respond to the questions and problems homeowners have by using our Green Thumb person.

In Orleans County, agriculture continues to be a major source of income - a major industry. Estimates of the total income from agricultural activities here start at \$40,000,000.

Despite lack of processing plants and increasing costs, the agricultural industry continues to be stable. Extension Service helps to keep it that way by providing consultant services. Advice is given to growers and agri-business people on possible and actual dairy-livestock, fruit, farm management, marketing and crop problems.

Classes were held throughout the year on various subjects in Home Economics. Over eight hundred and thirty people have attended these courses this year. Hopefully, they are using the skills taught (Sewing, Using Time Wisely), saving money (Wild Game Cookery, Stretching Your Meat Dollar, Making Yeast Breads), and improving their life styles (Micro-wave Ovens). We were there presenting part of the program at the Inflation Fair, Holiday Faire, and the 4-H Junior Fair.

The *Focus on the Family* is our monthly newsletter with consumer and homemaking information that is sent to about six hundred and forty-four homes per month. We feel that, with our low subscription cost, we are able to reach many families in Orleans County with timely and useful information.

Over two hundred adult volunteer leaders were involved in the Orleans County 4-H Program. Since they serve as the vital line between the program and the youngster, continuous effort was made to expand and strengthen the volunteer leadership system.

Over six hundred youngsters were involved in the "Club" experience. More than six thousand youth were reached through school and youth-serving agency programs like Babysitter Training, Conservation Field Day, Fire Safety, etc.

PROGRAM Programmatically, we service 548 residents of Orleans County in all our programs. We had identified specific target groups within the county from among our eligible population that we planned to prioritize - females and welfare recipients. Examination of year end statistics show that of the total number of people enrolled in our programs, females represented 52% of the total and welfare recipients comprise 42% of the total. We, therefore, did meet our target group goals. If you were to look at our individual program enrollment planned figures, you would see that we were a bit underenrolled throughout the year. The reason for this can be primarily attributed to the fact of cash flow problems. It is difficult to maintain full enrollment according to your plans when the money to pay them is slow in coming. Then when those cash flow problems are corrected, we had a much shorter time to meet our enrollment goals.

Fiscal Year 1980 also brought with it an overall slow down in our economy, both locally and nationally. Despite this, we were able to realize a fairly decent positive termination rate. Of the 548 total people enrolled during FY'80, 334 were terminated, and of these 334, 162 were of a positive nature. This represents approximately a 50% positive termination rate. More importantly, 105 of the 162 positive terminations were people who entered unsubsidized employment in the private and public sectors of our county. This represents a 65% entered unsubsidized employment rate.

New York State Division of Probation Reimbursement: \$70,429.61

PROGRAM - PROBATION REPORT

SERVICE RESPONSIBILITIES: To provide Intake/Diversion, Pre-Sentence Investigations, and Probation Supervision services, toward contributing to the system's handling crime problems in a safe, effective, humane and yet economical fashion.

1980 Achievements:

Intake/Diversion -- we serviced 556 cases -- 66% were successfully screened from Court -- at approximately 1/4 cost of going through Court. Studies demonstrate that persons handled at this level are less apt to commit further crime, than those that go through the formal Court system

Pre-Sentence Investigations -- we have done 266 investigations aiding Courts to sentence with knowledge -- Courts agreed with our recommendations as to jail or no in 96.3% of cases.

Supervision -- we supervised 448 probationers at a comparative cost of \$38 per month for probation vs \$791 for the County Jail, \$1,166 for Attica, and \$3,120 per month at New York State Industrial School. 91.1% of probationers stayed out of further trouble. A State Probation Division study, dated 6/11/80, showed Orleans County Probation filed complaints based on violation of probation conditions at a rate 16% higher than the rest of the State, but on new crimes 7% less, indicating that our enforcement has resulted in greater safety for the community.

* * * *

SPECIFIC EFFORTS:

Victims Assistance Program (CETA) met needs of crime victims in four specific ways during 3/29/79 - 9/28/80:

1. Counseled 210 victims.
2. Dealt with 128 restitution cases, collecting a total of \$22,043.52 for victims of crime, a 65% increase over restitution collected in prior 18 months.
3. Set up and supervised 45 reparation cases, where clients worked off damages for victims directly or through public service work. Further, we set up eight work sites in Medina, Albion, Holley, and Lyndonville with private not-for-profit or public agencies.
4. Arranged and conducted 29 victim-defendant confrontations toward giving the victim an opportunity to ventilate his feelings directly to the person who committed the crime against him and the criminal an opportunity to face up to the person he victimized.

Domestic Violence: To meet this problem we've made four efforts at outside funding which thus far have failed. Despite this, and although our work force has been reduced by two, and our most experienced counselor resigned to move to Colorado, we counseled 80 family offense cases during 1980. Further, we conducted a day-long workshop for Probation, other county agencies, school, and police staff.

Ann P. Nevin and this writer conducted an institute at SUNY Geneseo for probation officers, mental health, private agency, and social services workers from 23 Western New York counties.

We have recruited three volunteer "safe homes," devised a procedure for safe homes' use, that is, whom we would accept, for how long, under what conditions, etc. and developed a co-operative working agreement with Social Services, under Title XX.

Volunteers: During 1980, 21 Orleans County citizens provided 1077 hours or 31 weeks of volunteer service to the Probation Department. They counseled clients, taught art classes, drew posters, did clerical work; four doctors, two professional broadcasters, and one photographer donated their services in developing a diet and behavior program and accompanying slide-cassette show and four persons volunteered to provide "safe homes" for "battered spouses" and their children.

Staff Morale: Indications of high staff morale:

- a. little change-over -- present employees have been here an average of 6.8 years. In fact, two officers and one clerical person came back to work for us from other jobs.
- b. time off earned not always utilized -- 12 weeks of vacation and compensatory time not used in 1980.
- c. higher education at own expense -- four have gotten their Masters in counseling; two others have gotten further related education.
- d. considerable staff involvement in community activities.

PROGRAM

The high point of 1980 for the Real Property Tax Service Agency was the completion of the county-wide revaluation project, and the resulting generation of 100% assessment values. A great deal of the work of the department for the past year has been related to this.

Regular work of the department - update of ownership records and tax maps, assistance to assessors, supplying information to attorneys, lending institutions, real estate agents, other county agencies, and the general public - increases each year.

Arnold Basinait, Director of Real Property Tax Services for the past 12 years, retired in September 1980.

PROGRAM - Administration

The Budget - Continued high unemployment in Orleans County has had an affect on the increase in the Public Assistance caseload. In addition, the Department is experiencing increased expenditures in Medicaid, Child and Family Services and Food Stamps.

Impact on programs pending legislative action - A proposal to increase the level of Public Assistance grants by 15% and convert to a flat grant concept is currently being considered by the New York State Legislature. Enactment of this legislation will reduce local control and increase expenditure.

An inequitable allocation of Title XX funds by the state, together with the need for increased services, will continue to cause financial problems at the local level in terms of unreimbursed overages.

Child Welfare Reform Act - State mandated standards for determining the necessity and effectiveness of each placement may cause problems for this Department since cases will be monitored on an individual basis and determination as to the propriety or inpropriety of the caseworker's decision will be made, and the Department could be sanctioned if the State Review Team rules against a local decision.

WMS - The Welfare Management System will be operational April 1, 1981. Impact on the Agency will be extensive since the department has previously run a manual operation. In October 1981, the Medicaid Management Information System will computerize all Medicaid payments.

Medicaid Dilemma - In 1981, an additional \$390,000 had to be sought from the Legislature, placing Medicaid costs to well over 3.9 million dollars, representing over 50% of the Department's total expenditures. A Medicaid Task Force has been convened to address this problem.

PROGRAM - Home Relief, a category of financial assistance administered by the Public Assistance Division of Social Services, experienced a 23% increase in caseload size during the first six months of 1980. In July, Project HIRE was initiated and the Home Relief caseload was contained at an average of 186 cases per month in contrast to an average of 209 cases per month during the first half of the year. Expenditures for Home Relief increased by 26% when compared to 1979 expenditures.

A new emphasis on permanency planning for children and protection for adults increased the size of the caseload in this Division. There was a decrease in day care, however, due to the economic downturn. Increased costs for institutional care for children has also contributed to increased expenditures in this Division.

Costs for patient care in the Orleans County Home and Infirmary totaled approximately \$450,590 in 1980, making the actual increase in expenditures for Medical Assistance 44% higher than expenditures in 1979. The primary reason for this rise lies in rate increases established by the New York State Department of Health. The Medical Assistance caseload decreased by 626 cases.

There are four major goals to the program.

- # 1 To impact a basic understanding of how local government operates.
- # 2 To provide some suggestions of how the average student/citizen can participate and impact on their community..(see attached)
- # 3 To meet local government officials, department heads and other personnel connected with the operation and functioning of Orleans County government.
- # 4 To expose students to career opportunities.

Special Friends

The Special Friends Program is a preventative program which recruits responsible, mature, adult volunteers to work on a one-to-one basis with children from one-parent or troubled homes.

To be a Special Friend a volunteer must be over 18, male or female, single or married, interested in the welfare of a child, and willing to spend time regularly with him or her. They need not be an expert in child guidance as we have a trained staff of social workers to back up every Special Friends match. While other requirements are few, good character and stability are of the utmost importance. They are also required to pass our screening and training sessions.

Children assessed to be in need of Special Friends may be from a one-parent home, a troubled home, or they may be in a high risk category. Youth may be referred by a parent, school, church, social service, or any other agency. They will be between the ages of 7-14.

Every match will be closely monitored by Special Friends staff. Reports will be made by volunteers, parents and child to monitor progress and insure the satisfaction of client, client's family, and volunteer.

Currently we have recruited and trained eighteen volunteers and anticipate placement soon.

Juvenile Central Registry System

The Youth Bureau initiated and, with the cooperation and assistance of the Sheriff, Albion Police and Medina Police Departments, a Juvenile Central Registry System. The purpose of the system is to accumulate statistical data for the Youth Bureau.

The system incorporates a uniform and centralized system for data collection in Orleans County. Through this data we can spotlight troubled areas within the County involving juveniles, understand the volume and the interrelationship of statistical variables and finally determine the short and long range impact preventive programs (i.e. Juvenile Officer) has on the system.

This system is unique to Orleans County in that prior to this system there wasn't a uniform reporting system. Currently, this data is being used by the ORLEANS COUNTY CRIME FORCE.

The computerization of this system was fully coordinated with the complete cooperation of the Niagara-Orleans BOCES at no cost to the County.

A special acknowledgement to David Schunner, computer instructor at BOCES, for his assistance on this project.

Youth Employment Survey

In an attempt to document Orleans County Youth employment needs the Youth Bureau developed, computerized, implemented and evaluated a Comprehensive Youth employment survey.

This survey was co-sponsored by the following groups.

1. Chamber of Commerce in Medina
Chamber of Commerce in Albion
2. Orleans County Youth Board
3. Orleans County Legislation
4. Job Development Agency
5. Industrial Development Agency

The 52 question employment survey was completed by 2644 students in all 5 Orleans County schools. These were completed in grades 9-12 in the home room period.

The analysis of the report gives -

- 1) the general consensus to a given question

2) the breakdown figure of the school that had the lowest percentage of response, then the figure of the school that had the highest percentage of response to a given question. The remaining school districts fall somewhere in between these two figures.

The questionnaire collected data on past, present, summer and long range employment.

Needs and attitudes.

Copies of the results are available at the Youth Bureau.

A special note of thanks to Sue Brockport for assisting in the computerization of the project.

In addition the Youth Bureau co-sponsored with the probation department the funding of a grant from Nutrition Education Training - State Education Department entitled Star Trek to Better Living.

This slide cassette program depicts the relationship between diet and juvenile criminal behavior-

It is used with Probation clients as it relates to their total lifestyle.

The body chemistry and behavior concept is one of the newest and innovative approaches of impacting on the causes of criminal behavior.

Finally the Youth Bureau serves on a number of Community Service Boards including-

- CO-OP EXT. SERVICE
- NUTRITION ED. TRAINING BOCES
- FOSTER CARE ADVISORY BOARD
- CRIME TASK FORCE
- HOUSING COUNCIL
- FAMILY PLANNING
- ARMORY ACTION COMMITTEE
- LAKE PLAINS YMCA

REGULAR MEETING
Thursday, March 5, 1981

The meeting was called to order at 2:30 p.m. by the Chairman. After the Pledge to the Flag the Clerk called the roll and all members were found present.

Privilege of the floor was granted to Judge Miles who presented his long range plan for renovation of the Court House first floor and basement to be used for court offices and library. Judge Miles stated that the Office of Court Administration can not provide any funds for any reconstruction but can provide funds for carpet, equipment, etc.

Privilege of the floor was granted to Mrs. Helene Clement, Manager of the Lockport office of New York Telephone. Mrs. Clement introduced Mr. Gene Edwards from NYS Telephone who explained the 911 system. Residents of the Town of Yates were in attendance at the meeting and voiced their concerns that they must pay toll calls to Albion, particularly for fire and police calls. They stated that their calling area is very limited. Mrs. Clement stated that the survey done by NY Telephone indicated that toll usage did not warrant free toll service. The residents told her that they felt the survey was not accurate since it did not ask residents their views but was based strictly on usage. Mrs. Clement agreed to take their concerns back to the company to see what alternatives might be available.

Privilege of the floor was granted to Mr. Francis Coleman and Mr. Nigel Chattey who made a presentation on ICONN-ERIE PROJECT. This is a proposed dual project to build an energy island in New York Bay and to link Lake Erie and the Hudson. The following report from the Solid Waste Task Force was presented:

March 19, 1981

Mr. Stanley Dudek, Chairman
Orleans County Legislature
Court House Square
Albion, New York 14411

Dear Chairman Dudek:

The following are the recommendations of the Solid Waste Task Force for the County's Solid Waste disposal need.

SHORT TERM RECOMMENDATION

The Task Force recognizes that the \$ 40,000 budgeted by the County Legislature was reasonable in light of the recent years costs experience with McKenna; by the same token the Task Force felt McKenna's \$ 120,000 annual figure was unreasonable and instructed the Legislature in its preliminary recommendations to renegotiate with McKenna. Concluding that renegotiation, the Task Force has concluded that the renegotiated figure then recommended was still not satisfactory. In conclusion, unless the Legislature can negotiate a more reasonable figure with McKenna, it is the recommendation of this Task Force that the contract be terminated on April 1, 1981.

LONG TERM RECOMMENDATION

While it appears as though a county owned landfill would be the solution to the long term waste disposal needs for the entire County, this Task Force recommends that the County Legislature explore this avenue (publicly owned landfill site) or other means which would affect a long term solution to the County's solid waste disposal needs.

Respectfully Submitted,

Michael Muscarella (by signature)

Michael Muscarella
Spokesman, Solid Waste Task Force

Notice from Regional Planning Council that the Village of Albion has been granted \$483,000 in Community Development Funds.

Copy of letter to County Clerk from Canal Country Abstract Corporation requesting space in the County Clerk's Office.

Resolution from the Murray Town Board which read as follows:

"Motion by Martin, seconded by Charles, that a letter be sent to the Orleans County Legislature stating that in reply to the March 20, 1981 letter from Stanley Dudek, the Town Board of the Town of Murray strongly urges that the lack of a landfill in Orleans County is an intolerable situation; and because the landfill has been a County responsibility; and because the cost of each individual municipality providing separate landfills is prohibitive, the Town Board of the Town of Murray demands that the Orleans County Legislature provide landfill facilities to Orleans County residents without delay. Ayes 5, Nays 0, Absent 0."

Letter from Gaines Town Board, dated April 7, 1981, requesting that Orleans County, the Village of Albion, and the Albion School Board, share with the Town of Gaines the cost of legal fees incurred in the matter of Juzwiak vs. Town of Gaines. This litigation was the result of dissatisfaction with the reassessment of property.

Legislator Nayman supported the position of the Town of Gaines. The other members present did not feel the County should pay part of this bill. Chairman Dudek stated that the County did the revaluation on behalf of the towns and each town adopted the values through their assessor. Valuation is a town responsibility.

The County Attorney advised that although the County could pay such a bill he did not advise doing this since the towns are the only one who can determine the values. The County has no control over the values set by the assessor.

Legislator Piedimonte briefly discussed the question of putting lightning rods on the Home and Infirmary Building.

Chairman Dudek presented the following report from the Special Reapportionment Committee:

Final Report From Orleans County Reapportionment Committee

In October of 1980, the Orleans County Legislature appointed 7 citizen members to work with them to determine a plan of government for Orleans County. That fourteen member committee began its work in November of 1980 by reviewing the 10-year unsettled history of county government. They determined that there were 4 basic questions to be considered:

- 1) Should legislators be allowed to "wear two hats"?
- 2) What should be the legislators term of office?
- 3) How many legislators are needed to do the work required and assure proper representation?
- 4) Where should they be elected from? Districts? At large?, etc.

The committee interviewed representatives from both major political parties, from former "save our supervisors" groups, from the former "Committee for a County Legislature" and from another county legislature. They reviewed information and statistics on other legislative bodies in New York State.

After careful consideration and deliberation, the committee came to these final conclusions regarding the questions being considered:

Question 1. Should legislators be allowed to "wear two hats"?

Because of the ever increasing responsibilities of town, village and county officials and the potential for conflict of interest, county legislators should not be allowed to hold elected positions on town and village boards. This recommendation was submitted to the county legislature, acted on, and is now law.

Question 2. How long should the term of office of a legislator be?

While county government is complex, there does not appear to be any advantage to the public by increasing the term of office to four years. Congressmen and Assemblymen have two year terms and in general it would be in the best interest of the voters to be able to review a legislator's performance every two years.

Questions 3 & 4 have to be considered together.

How many legislators are necessary to do the work required and assure proper representation and where should they be elected from?

To prevent tie votes, impasse and stalemates, it is necessary to keep an uneven number, 5-7-9-or 11. A great deal of time was spent discussing the legislature's work load and committee structure. A reduction to 5 was ruled out because it would virtually eliminate any committee system. That would greatly increase the workload on the legislature as a whole and would reduce representation as well. The potential for reducing cost does not appear to offset the disadvantage of fewer members.

An increase to 9 or 11 members was considered. A larger body may lessen the work load on individual members, but does not insure fairer or better representation. In addition, generally speaking the larger the group the more difficult and time consuming arriving at a decision can become. Also, a comparison to our neighboring county, Genesee, with only 9 legislators while they have 50% more population and a much larger legislature responsibility (community college, airport, etc.), shows 7 to be a reasonable number for our county. Finally, there can be no doubt that an increase by 30% to nine members would be reflected by a proportionate increase in cost to the taxpayers because of the salaries, fringes and expenses involved.

In attempting to determine where legislators should be elected from, the committee felt it was mandatory to maintain the town boundaries. In doing this, one thing soon became apparent. There does not appear to be a better way of dividing the county into districts that preserves town boundaries than the current plan. The constitutional requirement for equality of population in the districts is met exceptionally well by the present plan. In fact the committee could not find another district plan that comes as close or could meet constitutional requirements for equality. The only viable alternative would be to elect everyone at large, but this was unacceptable because of the potential for lack of representation away from the population centers.

The committee considered increasing the number of legislators elected from each district from one to two with one at large for a total of nine. There is, however, no reason to believe that this would improve

representation within the district. It is very likely that both representatives would come from the areas of the district with the largest population. There also is no assurance that, regardless of what part of the district they came from, that the two legislators would always agree. This being the case, it is possible that two representatives from one district could even weaken the representation of a district.

But as important as any of the foregoing reasons for not changing from the present plan is this: Under the present system, no matter where a voter lives in this county they have the opportunity to vote for a majority of the legislative body (one from their district and three at large). This privilege is unique in New York State and one the committee felt was important to preserve.

SUMMARY

The legislature should submit to the voters the present seven member plan of apportionment because when all things are considered, cost, effectiveness and representation, it appears to be the best.

Respectfully submitted,

Stanley Dudek

DEC will give technical assistance and DOT assistance in certain cases but the overall responsibility has not been determined. The County Attorney stated that it was his opinion that the Director of the Office of Natural Disaster would have overall responsibility for coordinating disaster assistance at the direction of the Chairman of the Legislature as provided in New York State Law. Costs for cleanup would be charged to the firm involved.

Moved by Legislator Billings, seconded by Legislator Eddy, that the meeting be adjourned. Carried.

Adjourned at 3:35 p.m.

REGULAR MEETING
Thursday, September 17, 1981

The meeting was called to order at 7:30 p.m. by Chairman Dudek. After the Pledge to the Flag the Clerk called the roll and all members were found present.

Legislator Piedimonte requested that all stand for a moment of silence in memory of James Mignano, Sr., an employee of the Town of Murray Highway Department, who was killed in a tragic accident while working for the Town.

Village of Medina Manager, Emerson Carlton, welcomed the Legislature to the Village of Medina on behalf of Mayor Cobb who could not be present. Mr. Carlton expressed Mayor Cobb's endorsement of holding Legislature meetings throughout the county.

Chairman Dudek informed those citizens present that they were welcome to the privilege of the floor for any concerns they wished to express to the Legislature. No one requested time to speak.

Report of Standing Committees:

Legislator Cook - The report of the Public Safety Task Force has been completed and a news conference will be held on the 18th to give the public an opportunity to review the findings of the committee.

Legislator Billings - Reported that he had attended the Fishery Advisory Board meeting and urged all residents to support the Fishing Derby to be held the first week-end of October. Parks will be open for camping that week-end. The meeting in Lyndonville was well attended and the majority of persons seemed to support the project proposed in the Town of Yates.

Legislator Berger - Reported that he had attended a meeting of the Governor's Advisory Board on Agriculture. There are nine men on this Board, one of whom is from Newfane. Mr. Berger suggested that he be asked to come and talk to the Soil & Water Board.

The Human Services Group are working on coming up with a standard procedure for taking comp time, etc. When the procedure is completed it will be brought before the Legislature with the purpose of adopting it for all employees of the county.

Legislator Nayman - Reported that he had 14 phone calls and 4 walk-in's on the letter that was mailed out to the people who signed the petition. Mr. Nayman asked Mr. Dudek if he would speak to that.

Chairman Dudek - "As you know earlier this year we were contacted through petition by some 1100 people who signed a petition that suggested that they were in favor of weighted voting and wanted a return to 10 members on the county board - it talked about a county legislative body with one representative from each town it didn't talk about a Board of Supervisors. Those 1100 people came from about 850 residences. As you know there has been criticism in the past that there has been a lack of communication, they have made contact with the board and written letters and no one ever got back to them. In the past year I have written over 500 letters regarding different issues and to different individuals who have contacted us. I have responded to a letter which was in the paper with a letter of my own. One of the things we as Legislators do not

do anymore, for example, is take meals at county expense. The cost of mailing those letters was a small fraction of what was spent on meals and it seems far more appropriate to answer the concerns and respond to them than to do some of those other things. So I took the responsibility of contacting them and letting them know why we were doing it."

Legislator Eddy - Several meetings have been held with the Budget Officer and work on the budget is progressing. Meetings with departments have been set for the 28th and 29th.

Legislator Piedimonte - The Highway Department have been trying several different makes of bulldozers and hope to have a recommendation shortly.

Legislator Dudek requested that the Highway Superintendent check the site distance at the Salt Works Road and Fuller Road intersection. Corn has been planted in that area and may be interfering with the site distance in that area.

The Clerk presented the following communications:

Letter from the Association of Towns, dated September 15, 1981, in answer to our inquiry concerning who is responsible in a case of a spill of hazardous materials.

Letter from C. W. Lattin, County Historian, dated 9/15/81, regarding county dates.

Notice of public hearing to be held by the Public Service Commission re: 911 Emergency Telephone.

Letter from Carri Blake, Office for the Aging, dated September 17, 1981, alerting the Legislature to the withdrawal by the Salvation Army from their contract to provide Homemaker/Home Health Aide Services.

REGULAR MEETING
Thursday, October 22, 1981

The meeting was called to order at 7:30 p.m. by Chairman Dudek in the Clarendon Town Hall. After the Pledge to the Flag the Clerk called the roll and all members were found present.

Supervisor Geary Shenck welcomed the Legislature to the Town of Clarendon and invited everyone to have refreshments after the meeting.

The Clerk presented the following communications:

Letter from OTB, dated October 15, 1981, regarding settlement of court action which will result in reduced revenues to municipalities.

Letter from Assemblyman Hawley, dated October 15, 1981, acknowledging receipt of resolutions. Mr. Hawley stated that he supports opposition to Senate Bill #7000. He also supports and will work toward trying to extend the camping season at Lakeside Park.

Invitation from the Albion Chamber of Commerce to participate in the Christmas Parade on November 27, 1981.

Mary B. Basinait, Budget Officer, presented the tentative 1982 county budget.

Chairman Dudek commended the Ways and Means Committee and Mrs. Basinait for the time spent in preparation of the budget.

Privilege of the floor was granted to Gerald Scharping, Manager-Technician of the Orleans County Soil and Water Conservation District. Mr. Scharping presented the proposal for the Orleans County Water Management Program as requested by the Legislature. The proposal sets forth the goals, objectives, needs, etc. required to put this program into operation. Several members of the Soil and Water Conservation Board spoke in support of the proposal. Chairman Dudek reported that \$25,000 has been included in the 1982 tentative budget for this program. It is hoped that the towns and those persons benefiting from this program will also contribute either financially or in-kind to this program to help the county dollars go farther. Priorities will be set for projects. The Legislature will be considering adoption of this proposal at a later date.

Report of Standing Committees:

Legislator Berger stated that the Agricultural Emergency Board is made up of the following persons: Agricultural Stabilization and Conservation Services, Yorke Knapp; Soil Conservation Services, Doug Gillette; Cooperative Extension, Fred Flag; Farmers Home Administration, Jim Navarra. The Legislature does not appoint these persons.

Legislator Nayman reported that training sessions for the assessors are being held by the computer person for Spencer-Fitts and that they are doing a tremendous job.

Legislator Billings reported that the county has tentative approval for the contract with the State for the park plans in Carlton. He also said the publicity on RoRo speaks for itself.

Chairman Dudek stated that he has been in contact with Congressman LaFalce's office seeking information concerning the apparent changes in use of the Conrail line through the county. It appears that they are going to

discontinue maintenance on the section of the line from Brockport into Monroe County. Therefore, it appears that that section of the rail line won't be open to traffic so that this will not be a through line any more. It will serve as a spur from the west as far as Owen-Illinois. Several persons stated that traffic on that line has definitely decreased in the past months.

Thursday, November 5, 1981

Chairman Dudek informed the members that on behalf of the Legislature he had sent a message of congratulations to Mr. Swiercznski and Mr. Munger upon their election to the Legislature. He stated that he has informed all departments to send copies of any correspondence sent to all members of the Legislature to the two newly elected members also.

Privilege of the floor was granted to Mr. Robert Kieffer, General Manager of the Genesee Region of Niagara Mohawk. Mr. Kieffer was asked to come to the meeting to explain the Niagara Mohawk situation regarding the 15 mile limitation in regard to service, etc. and how it will effect employment opportunities for people in Orleans County.

Mr. Kieffer explained that the people who have the 15 mile limitation assigned to them are people who have to respond to emergencies. The company requires that they live handy to those locations. That is a requirement of their work. The union and management some time ago agreed that those people who were looking for jobs to better themselves could bid on them but if there were no requirements for emergencies this would create a problem. Mr. Kieffer stated that there are line crews stationed in Medina, Albion and Brockport. Crews are on call 24 hours a day. There are just as many employees living in Orleans County now as there were before the accounting and business offices were moved to Batavia. Only those on emergency services are required to live within the 15 mile limit.

Letter from Senator Moynihan, dated November 9, 1981, acknowledging receipt of the Legislature's resolution regarding tax exempt status for IDA bonds.

Resolution from the Town of Shelby supporting formation of Orleans County Agriculture District No. 6.

This would prove very expensive to counties and should be left up to the individual counties to use in employee negotiations. Legislator Piedimonte stated that although he will not be a member of the Legislature next year, he would suggest that the Legislature consider charging back the cost of Community Colleges to the towns. He stated that it is not fair to smaller towns, such as the Town of Yates, to be paying more than their fair share for the number of students from their towns who attend community colleges.

A RESOLUTION MAKING APPROPRIATIONS FOR THE CONDUCT OF THE ORLEANS COUNTY GOVERNMENT FOR THE FISCAL YEAR 1982

WHEREAS, this Legislature by Resolution No. 460 dated November 19, 1981, has adopted a budget for the fiscal year 1982.

RESOLVED, that the 1982 tentative budget, as modified by the previous resolution, be adopted as the 1982 budget for Orleans County, provided that the breakdowns by the sub-category of accounts (.1, .2, .4) be adopted with category in total and separate line items to be utilized for informational purposes only.

STATE OF NEW YORK
COUNTY OF ORLEANS

ss:

I, Uldine D. Jurhs, Clerk of the Legislature of the County of Orleans in the State of New York DO HEREBY CERTIFY that the foregoing resolution was duly adopted by the said Legislature at a regular meeting called and regularly held on the 19th day of November, 1981 by a two-thirds vote of all the members elected to said Legislature.

I FURTHER CERTIFY that I have compared the foregoing copy of said resolution with the original thereof now remaining on file in my office and that the foregoing copy is a true and correct copy of said original resolution and of the whole thereof.

IN WITNESS WHEREOF, I have hereunto set my hand and the official seal of said Legislature this 7th day of December, 1981.

Uldine D. Jurhs

ULDINE D. JURHS
Clerk, Legislature of the County of Orleans,
New York

TO THE HONORABLE MEMBERS OF THE ORLEANS COUNTY LEGISLATURE
AND TAXPAYERS OF ORLEANS COUNTY

Your Budget Officer and Ways and Means Committee in conformance with Article 7 of the County Law, herewith submit our recommendations for a budget which we believe wisely allocates the County's financial resources to meet vital needs and provide the greatest benefits for the year beginning January 1, 1982:

TOTAL APPROPRIATIONS (Excl. I.F.)	\$16,924,405
LESS: Estimated Revenues (Excl. I.F.)	\$13,366,430
LESS: General Fund Surplus	750,000
PLUS: Allowance for Uncollected Tax & Deferred Tax Revenue	35,000
AMOUNT TO BE RAISED BY REAL PROPERTY TAX	2,842,975

This proposed budget represents a small decrease (\$48,289) in the amount to be raised by real property tax from the 1981 levy. There are several reasons why a tax decrease was possible: The Budget Department and the Ways and Means Committee continued to closely examine all expenses during the year; our investment revenue was aided by wise investing of idle cash and high rates of interest. Sales tax revenue, in spite of prior projections to the contrary, increased in 1981, and is expected to increase again in 1982. The Budget Committee, with the cooperation of department heads, successfully cut original budget requests by over \$500,000.

The Social Services Revenues and Appropriations are considerably less than those budgeted in 1981. This is due to the fact that Medicaid Management Information System (MMIS) took effect for our County beginning in October 1981. This means that the State will pay Medicaid expenses directly to the vendors and the County will be required to budget only the County share (or approximately 25%).

We have budgeted a minimal amount to initiate a portion of the Battelle Study in the Planning and Economic Development budget. The Planning and Economic Development budget is now combined, since they were merged into one department in 1981.

The CETA revenues and appropriations are lower than the previous year, since major portions of this program have been discontinued by the Federal Government.

We have altered our budget format to some degree to more closely correspond with the Annual Report, as recommended by NYS Audit and Control, and hopefully to provide a clearer, more concise document to be used as a guide in determining financial matters for the County government.

The Budget Committee has attempted with this budget to deal with the real spending and tax problems of Orleans County.

Respectfully submitted,

Mary B. Basinait
Budget Director

Legislator Piedimonte reported that the Highway Department had tried the John Deere bulldozer, however, they still feel that it does not meet the specs, also the visibility is better with the Fiat-Allis. The committee has authorized the purchase of the Fiat-Allis, as per resolution adopted by this Legislature.

Legislator Nayman reported that Community Action has requested action on the fund for buses. Chairman Dudek stated that the County will have to check with the State concerning the escrow account for these funds.

Legislator Billings discussed the problem which might arise in the county if new proposals on the canal are put into operation.

Legislator Berger expressed the concerns of the Board of Health and the Community Services Board regarding the proposed move of these two departments to the Infirmary building. There is concern that the confidentiality of clients might be violated with the space being offered.

Legislator Eddy stated that he had met with the representative of Resource Trading Corporation regarding the computer in the Treasurers Office. Some funding may be needed for some new programs on this computer.

Chairman Dudek reported that Radio Station WJBT in Brockport has requested the County to designate it as the official radio station for Orleans County. The County Attorney reviewed the request and recommends that the County not give this designation.

Legislator Piedimonte in answer to a question from Legislator Berger, reported that the contractor has not begun work on the front steps. He was supposed to enclose them in plastic but no work has begun. Signs for indicating location of various county offices at the new building was discussed.

Legislator Cook stated that regarding the Youth at Risk Program, the only thing left to be done is appointing the person. Privilege of the floor was granted to Rob Tirsch to briefly discuss the program.

Chairman Dudek asked Mr. Nayman about the problems with the property values, the fact that values were being taken from different towns and used in connection with other towns. Mr. Nayman said that Spencer-Fitts is working on the problem.

Legislator Billings reported that J & I has applied for a permit from the Town of Albion to operate a landfill on the McKenna site this would be on the opposite side from the present site. Mr. Billings said it is his understanding that the town has revoked Mr. McKenna's permit on the existing site and unless he applies for a new permit that site may not be available. Several of Orleans Disposal's routes have been taken over by another vendor. The committee is still looking into other sites. Mr. McKenna wants over \$106,000 to renew his contract for next year. Since there were only about 500 landfill permits issued this cost would be excessive.

Chairman Dudek briefly discussed the Building and Fire Code law and the enforcement process.

Busy, very busy! This description of the second year of the Orleans County Legislature cannot convey the complexity of the issues addressed during the year. As usual, a significant number of crisis situations developed, "brush fires" as they are better known. The withdrawal of the Salvation Army from the nutrition and home health aid programs, the threat of losing first bus then rail service, a broken boiler at the Infirmary, federal cutbacks - a seemingly endless list - were the major ones.

Despite the need to attend to the urgent, immediate problems the Legislature was able to meet a major goal established early in the year. That was, to give more priority to future planning and long ignored problems!

Heading this list was the Public Safety Task Force. This group placed emphasis on the prevention of crime, rather than on enforcement. Their recommendations issued as part of a detailed report to the Legislature were incorporated in the 1982 County budget. This effort marks the first major attempt to deal with the "root" causes of crime in Orleans County.

Recognizing that convictions of criminals could be jeopardized by inadequacies in their defense, the County's first permanent office for the Public Defender was established. It is located in the Court House with the other judicial activities. To further aid the process of indigent defense two part-time Assistant Public Defender positions were combined into one.

Other public safety activities of note included:

1. funds in the 1982 budget for the replacement and upgrading of outdated radio and dispatch room equipment.
2. offering a reward which led to the arrest of church vandals;

3. housing prisoners in our jail from other counties producing revenue in excess of \$150,000; and

4. planning the implementation of the State STOP DWI Program.

The County's economic development effort received increased attention. To improve administrative efficiency and coordination, the Departments of Planning and Economic Development were merged together under one directorship. The Industrial Development Agency continued to provide strong leadership in our development efforts. The Agency talked with nearly seventy (70) firms about the possibility of starting or expanding business in our County. The most widely known is the Ro-Ro Port Project.

Provision to begin an active business retention and recruitment program, as recommended in the Battelle report, was incorporated in the 1982 budget.

Other activities in the planning and economic development area included:

1. sponsoring through the Fishery Advisory Board the County's first fishing derby;
2. receiving funding approval for a NYS DOT goods movement study;
3. approving the Ridgeway Agricultural District;
4. securing undeveloped State land in the Town of Carlton for future development; and
5. receiving final approval of our housing rehabilitation program.

The problem of solid waste disposal better known as "garbage" proved to be most challenging. Long ignored, this problem requiring long range planning became a "brush fire" in need of containment. Events seemed to change almost daily. But by year's end, definite direction began to emerge. Private operators appeared interested

and willing to provide for County residents landfill needs. Albion Disposal, a new firm on the scene, has taken over rural pick up, purchased undeveloped McKenna property and received a Town of Albion permit for its future development. They also expect to assume the Villages of Albion and Medina refuse pick up contracts in early 1982.

The Solid Waste Task Force recommended that the County purchase a site as protection for future needs. This is in the process of being implemented. Formal acquisition is expected by late summer of 1982.

The administration and finance of County operations provided its share of challenges as well. Federal elimination of CETA public service funding nearly decimated the Infirmary kitchen staff and severely affected many other departments. Positions were abolished. Some, of necessity, were filled at County cost.

Ironically, County government seemed to benefit from two phenomenon which were devastating to its residents: high interest rates and inflation. High interest rates on invested funds increased County revenues by nearly one-quarter of a million dollars over budgeted estimates, while inflation helped to produce more sales tax revenue than expected.

The additional revenue generated by these two factors combined with an outstanding effort by the Ways and Means Committee helped to produce a 1982 County budget that reduced the amount needed to be raised by real property taxes. This seemingly minor achievement becomes remarkable when compared with the large tax increases in many other western New York counties.

Some other major accomplishments in this area included:

1. completing the Infirmary roof replacement;
2. occupying the new administration building and holding an open house in October;
3. establishing an awards and recognition program;
4. negotiating a two (2) year agreement with Sheriff's Department AFSCME union;
5. establishing an Employee Safety Advisory Committee to implement the State OSHA mandate; and
6. consolidating the services of the Department of Drug Abuse Services and the Alcoholism Services Center into one unit with the Department of Community Services.

Project HIRE continues to be the most successful program instituted by the Legislature. When the project began, Orleans County had approximately thirty (30) workslots in the welfare work experience program. There are now over one hundred (100) in thirty-one (31) different public and non-profit organizations including day care centers, hospitals, school districts, local and county governments, libraries, etc. In 1980 the County averaged twenty (20) placements per month while in 1981 placements averaged fifty-five (55) per month. The total number of hours worked in 1980 was 5951 and in the hours numbered 34,660. Valuing the work hours at \$3.35 per hour this totals \$116,111 for 1981 public service work performed by welfare work experience participants.

From June 1980 through December 1981 one hundred forty-eight (148) public assistance recipients had their benefits terminated for failure to comply with the work experience program. During this same period, one hundred fifty-five (155) recipients were placed in unsubsidized employment, another one hundred five (105) were placed in CETA positions, eight (8) were placed in a Migrant

and Rural Disadvantaged work experience and life skills program. Thus, a total of four hundred sixteen (416) home relief cases have been closed in eighteen (18) months at an estimated savings of \$312,000!

In evaluating all employable recipients it was discovered that over 50% of the home relief caseload were high school dropouts. In cooperation with several area high schools recipients were enrolled in General Education Diploma courses. Thirteen (13) individuals have their high school diplomas, and twenty-nine (29) others have enrolled.

In August the Legislature began holding one of its two official meetings in the towns and villages. This innovative practice is unique in New York State county government, and it has been received exceptionally well by both the public and local officials.

Public contact, considered extremely important by the Legislature, was exhibited in many other ways throughout the year. Some of these included:

1. holding a dozen public hearings and information meetings throughout the County;
2. individual legislators attending more than one hundred (100) different town and/or village board meetings;
3. legislators being present at more than one hundred twenty (120) different meetings of various County boards and agencies including Fire Advisory Board, Fishery Advisory Board, Community Action Committee Board, Planning Board, IDA Board, Youth Board, Community Services Board, Health Board and Soil and Water Conservation District Board as well as others; and
4. attending scores of political, social and fraternal gatherings.

Amongst the successes were disappointments. Principally, these were the failure to end the decade long battle for a permanent form of county government and the inability to secure federal funds for the creation of a million dollar revolving loan fund to encourage economic development.

Much of what has been accomplished this year was a product of the Legislature's move toward more centralized administration. The position of Administrative Assistant to the Legislature was evaluated in December. It was determined that the position had evolved into one of handling many of the day-to-day administrative activities. An upgrade of the position in 1982 with increased responsibilities and authority to carry out these activities is likely.

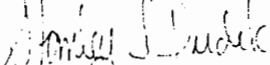

While the concept of appointed central administrator still has its critics, the number of those who believe that eighteen (18) million dollar business of Orleans County government can operate efficiently without a trained professional responsible for the day-to-day operations, continues to decline.

The year ahead should offer interest and challenge. Some of the key issues expected to be considered are the upgrade of the Administrative Assistant to the Legislature's position, conducting a highway study to improve efficiency and to eliminate duplications between various municipalities providing this service, the beginning of a long range program to improve county-wide drainage and water management, and increasing efforts in the areas of job and economic development.

The new year also offers its share of uncertainty and

difficulties. However, if the Legislature receives the same high level of cooperation, dedication and performance from its employees and that same high degree of concern and enthusiasm from the public, who guide us with their service on County boards and agencies, as in the year past, the County can look forward to 1982 with enthusiasm not fear; with pride not doubt.

Respectfully submitted,

Stanley Dudek, Chairman
Orleans County Legislature

PROGRAM

The Office faced numerous changes this year caused by several factors including; increased funding for an employment program, decreased funding from CETA, and the loss of a major subcontractor.

The availability of funding under Title V of the Older Americans Act enabled us to begin an employment program for people over age 55 in April. Six persons have been hired to work 20 hours per week in non-profit and public service agencies. Three are working for the Office, two are working for the Nutrition Program, and one is working for the Cobblestone Museum. The purpose of the program is to provide employment and training opportunities for older people who desire or need employment and who because of their age or abilities are having difficulty finding it. In addition to the actual job site, enrollees are provided with training that will enhance their ability to move to unsubsidized employment.

In June the Office lost its CETA Title VI outreach worker leaving a major gap in our ability to manage our existing caseload. Much of the problem was resolved by in-

creasing the part time outreach worker to full time and by training one Title V worker to act as an assistant to the worker. The outreach worker does all case management activities, service evaluations, and problem resolution activities while the assistant fills out forms, accompanies clients to services when necessary, and makes general visits to specific at risk clients.

The Office lost the Salvation Army as a subcontractor for both its Nutrition Program and its personal care/homemaker program. Requests for Proposals and review criteria were developed to solicit new subcontractors. By year end the First Presbyterian Church of Albion was awarded the Nutrition Project Contract while Genesee County Homemaker Service, Inc. was awarded the personal care/homemaker contract.

Both contracts appear to provide major improvements over past experience in the form of decreased cost for Homemaker/personal care services (from \$8.00 to \$6.05 per hour) and in an extremely creative use of available funds for the Nutrition Program.

A major planning project was undertaken in October: The Office conducted a questionnaire survey of 353 persons over age 60 throughout the County. This is a two phase project; phase one is to collect the data, phase two is to evaluate it and apply it to the Agency's program and goals. During 1981 we completed the data collection phase. The survey was conducted by a group of volunteers and Title V workers, using an instrument and methodology developed by the Administration on Aging.

Finally the Office made major progress in the long range goal of out-stationing services at the primary senior citizen sites of Medina Senior Citizen Center, Albion Nutrifare site, and Holley Community Center. Information and Referral services are available weekly in Albion and Medina and bimonthly in Holley. This has saved people from traveling to Albion for service, has cut down on requests for home visits, and has increased staff productivity.

Specialized assistance that staff is trained to provide includes applications for fuel assistance, Medicare benefits, Social Security, Property Tax Exemptions, State tax refunds ("Circuit Breaker" property tax break), etc. This is a major service of the Office and helps many people bridge the gaps that are all too apparent in many retirement incomes.

PROGRAM During 1981 County Historian C. W. Lattin wrote fifty-two stories under the column heading Bethinking of Old Orleans which appeared in the Albion Advertiser, Journal Register and Albion-Holley Pennysaver weekly. Clippings of historical significance have been saved also from the above mentioned publications and filed in the historian's office under appropriate headings. The historian has been available to speak before various groups about local history and has conducted eight visiting groups through the Court House and surrounding square. On June 14 the Department of History took a very active role in planning the dedication exercises of the Court House District into the National Register. The bronze plaque mounted on the front of the Court House was purchased under the historian's budget. The historian presented to the legislature a framed portrait of Wm. V. N. Barlow, architect of the Court House, to be hung there. Since July 1981 an assistant has been provided through the Office of the Ageing who works up to twenty hours a week.

Throughout 1981 the Department of History assisted students, researchers and genealogists in finding historical information. In November 1981 the County Historian organized a meeting of Village and Town Historians of Orleans County for the first time to discuss common goals and available research materials. Through the historian's efforts a Deputy Town Historian was appointed in the Town of Gaines which is an unprecedented move in Orleans County.

Throughout the fair weather season, C. W. Lattin is actively engaged in promoting local history through the Cobblestone Museum Complex at Childs. One of the various duties of a County History Department is to compile a listing of significant happenings in our county during the year. Here then, follows such a report of 1981:

First off we find that the 1980 census bureau figures give us a modest increase in population in Orleans County since 1970. Next I would mention the booklet "Discover Orleans County" which was a joint effort of the Albion and Medina Chambers of Commerce. Although there have been pro and conevaluations of it, it is certainly to be included among one of our achievements. Surely one of the year's highlights took place on Flag Day when the Orleans County Court House Square District including thirty-four buildings was dedicated into the National Registry with a solemn and impressive ceremony which was in part, conducted by the BPCE Elks. Another event which attracted much attention during October was the county's first Salmon and Trout Derby sponsored by the Orleans County Fisheries Board. I would also mention the seemingly successful attempts of Bald Eagle restoration through the Iroquois National Wildlife Refuge.

Other accomplishments include: the finishing of the Point Breeze boat launching and parking facility complete with rest rooms, the reroofing of the Orleans County Infirmary and completion of the new county office building behind it. Progress also continues on the new Medina Memorial Hospital wing which will be complete early next year and restoration is underway at the Medina Armory.

A contract was finally OK'd for Global Cable television to be installed in Albion. It is also noteworthy to mention the acquisition of the Albion Advertiser by the Medina Journal-Register.

The Clarendon Volunteer Fire Department marked twenty-five years with successful celebration in August. On July Fourth the National Commander of the American Legion dedicated the new Sheret Post Community Building in Albion. Other dignitaries who have passed through Orleans County this last year include: U. S. Senator Daniel Patrick Moynihan, the Hon. Richard M. Rosenbaum, and U. S. Representatives Jack Kemp and Barber Conable.

For people in Lyndonville a new slogan was coined "We Love Lyndonville". It's important to note these creative accomplishments such as the new reading book "I Am Your Reading Partner" by county author, Thomas D'Andrea.

Along with many other events and accomplishments too numerous to mention there were ones hard to resolve such as the Landfill and possible Port off the shoreline in the Town of Yates. A close vote concerning the County Legislature has left that unresolved with 3309 Yes and 4241 No votes. And there are the few things that just shouldn't have happened, such as the Landauer Store closing after 116 years, four men escaping from the Orleans County jail and the awful calamity of arson at Sacred Heart Church in Medina.

PROGRAM

Title IIABC provides such activities as work experience, classroom training and On-The-Job training. This is the main source of funds for employment and training under the CETA legislation. Work experience is a short term or part time work assignment with an employing agency. It is prohibited in the private-for-profit sector. It is designed to enhance employability of individuals through the development of good work habits and basic work skills. It is limited to those individuals who have little or no previous work experience, chronically unemployed or people who are in need of retraining. Classroom Training is any type of skill training which is normally conducted in a classroom setting, such as a school or college or vocational training institution. It is designed to provide individuals with the technical skills and information required to perform a specific job or group of jobs. On-The-Job Training (OJT) is training in the private or public sector given to a participant who has been hired by the employer and who works at his/her site. A training outline is prepared and the participant engages in productive work which provides knowledge and skills essential to the full and adequate performance of the job. The employee receives 50% reimbursement of the trainee's wages during the training period.

Title IID and Title VI are the Public Service Employment Programs funded under CETA. These programs were phased out during 1981. PSE is subsidized employment with public and private non-profit employers who provide public services. Participants are employed by these public employers and are paid equivalent wages of persons similarly employed at the worksites. There was a maximum of 78 weeks for this type of subsidized employment.

Title IV Youth Programs

Programs funded under this youth title are basically work experience type activities. Work experience is a short term or part time work assignment with an employing agency. It is prohibited in the private-for-profit sector. It is designed to enhance the employability of youth between the ages of 14 and 21 through the development of good work habits and basic work skills. Other services emphasized in this program are counseling, vocational exploration and career information and orientation to the world or work.

PROGRAM

The Department of Planning and Development was formed in April, 1981 as a merger of the Office of Planning and the Office of Economic Development. The purpose of the combined Department is to carry out activities which promote wise, efficient use of land and resources thereby creating a better future for the people of Orleans County.

The Department played an instrumental role in guiding decision making in a wide variety of areas including land use, economic development, transportation, management improvement, housing, and recreation and tourism. Staff functions for the County Industrial Development Agency and the Planning Board are carried out by the Department.

Land use planning in the County was fostered through a model town zoning ordinance, town maps, a training seminar conducted for local planning and zoning officials, and general technical assistance provided by staff at town's request. Staff assisted agricultural district organizers in Shelby and Ridgeway, and provided research and coordination throughout the formation of the Ridgeway Agricultural District. The Orleans County

Planning Board reviewed and commented on sixteen local Zoning referrals.

Economic development activities included grant applications, numerous business contacts, and distribution of Discover Orleans County the Albion and Medina Chamber of Commerce promotional booklet. A major project activity initiated by the County of Orleans Industrial Development Agency was recruitment of and assistance to Ro-Ro Orleans, Inc., a proposed cross lake shipping operation between the U.S. and Canada. Under a Title IX Economic Development Administration grant, Battelle-Columbus Laboratories completed a detailed economic adjustment strategy with the substantial assistance of department staff.

The Department participated in activities to promote retention of reliable rail freight service on Conrail's Falls Road Line traversing the County. Other transportation projects included pursuit of Statewide Mass Transportation Operating Assistance funding for Greyhound bus service, Traffic Safety Board projects, and coordination for Section 18 Transportation funding.

The Solid Waste Task Force, staffed by the Department, was organized in January, 1981 to research County refuse disposal problems and recommend both long and short range solutions to the Legislature. In October, 1981 the Task Force recommended that the County pursue a publicly owned, privately operated landfill, supplemented with resource recovery to lengthen landfill life. Implementation of Task Force recommendations has begun.

Other Department activities included dissemination of 1980 Census data, coordination with regional agencies, staff to the Fishery Advisory Board, successful application with the Orleans County Housing Development Council for 50 housing units under HUD's Section 8 Moderate Rehabilitation Program, staffing the Office of Housing Assistance and answering numerous requests for information from the public as well as other County agencies.

DEPARTMENTAL FEES RECEIVED IN 1981

New York State Division of Probation Reimbursement: \$82,441.48

SERVICE RESPONSIBILITIES:

To provide Intake/Diversion, pre-sentence investigations, and Probation supervision services, toward contributing to the system's handling crime problems in a safe, effective, humane and yet economical fashion.

1981 Achievements:

Intake/Diversion:

We have serviced 536 cases at Intake/Diversion--72% were successfully screened from Court--at approximately 1/2 cost of going through Court. Studies demonstrate that persons handled at this level are less apt to commit further crime, than those that go through the formal Court system.

Pre-sentence Investigations:

WE have done 323 pre-sentence investigations (a 31.8% increase over the last two years) aiding Courts to sentence with knowledge--Courts agreed with our recommendations as to jail or no in 91.2% of cases.

Supervision:

We supervised, during 1981, 504 probationers (a 23.8% increase since 1979) at a comparative cost of \$37 per month for probation-vs-\$792 for the County Jail, \$1,607 for Attica, and \$4,750 per month at New York State Industrial School. 92.6% of probationers stayed out of further criminal trouble in 1981. 38 or 7.4% of 507 committed further crimes. 13 or 34% of the new crimes were felonies, whereas 45% of our supervision caseload were felons. Thus, not only did a small percentage of probationers commit new crimes, they tended to commit less serious crimes than for which they were on probation. We filed technical violations (that is, for failure to report, to attend counseling, to advise address change, etc.) at a higher rate than the rest of the state. We only had 3 out of the 504 probationers abscond in 1981, indicating that we are able to keep track of our clients. Coupling this with only 7.4% of our clients committing additional crimes, it appears that we're able to maintain reasonable control of our probation cases.

SPECIFIC EFFORTS

Deferred Prosecution--As a result of discussions in Public Safety Task Force meetings concerning the severely crowded County Court calendar, Probation agreed to accept Deferred Prosecution (or Diversion Cases) from Town and Village Justices to hopefully relieve pressure on them and on County Court, to which Justices refer Felony indictable cases.

Starting with June 17, we have had 17 Deferred Prosecution referrals from the following:

<u>Courts</u>	<u>No. of Cases</u>	<u>Type of Crime</u>	<u>No. of Cases</u>
Albion Village	6	Unauthorized Use of	
Medina	8	Motor Vehicle	2
Kendall	1	Harassment	4
Clarendon	1	Trespass	1
Shelby	1	Petit Larceny	4
		Assault, 3rd	4
		Stolen Property	1
		False Report	1
		Aggravated Harassment	2

As can be seen, although we've had a substantial number of referrals in a short time, none, however, have been for cases which would relieve the pressure on County Court.

Alcoholism and Alcohol Abuse--As part of an effort to identify who is committing crimes in Orleans County, Probation surveyed supervision caseload as of 5/81. We found that 73.3% of our caseload were either intoxicated at the time of offense or regular alcohol abusers. Further, 50.5% of our clients had a parent or parents who abused alcohol. Consequently, we decided to re-emphasize our stress on alcoholism counseling for our clients and recommend (and receive) a probation condition mandating alcoholism counseling in many of our cases. Further, this condition is vigorously enforced and is the condition upon which we file most technical violations.

Also, we sought and received a grant through the Law Enforcement Assistance Act and Community Services for a Juvenile Alcoholism Specialist who will be stationed in our department and will work exclusively with probation clients under 18 and their families, who've been assessed as having alcohol problems.

Efforts on Behalf of Victims--The probation officer and assistant we had in our Victim's Assistance Program were lost to us when the CETA funding ran out 9/30/80. However, we counseled 71 victims of assault, collected \$22,388.00 in 160 cases for victims of crime against property, as well as supervised many cases where probationers worked off damages directly for victim, or through specified hours of community service during 1981.

Respectfully submitted,

Robert E. Golden
Director of Probation

PROGRAM

The Orleans County Public Defender's Office consists of two part-time attorneys and a full time secretary: the Public Defender and his Assistant Public Defender. These attorney share responsibility for indigent defendants charged in 19 town and village courts. They also share the indigent County Court caseload (primarily felonies).

Representation of these individuals can involve an appearance at arraignment, bail hearings, investigation of the facts, a preliminary hearing, pre-trial or plea bargaining conferences, motions, trials, sentencings appeals and probation violations.

The office also represents individuals in habeas corpus proceedings, parole hearings and probation revocation hearings.

Attached is a tally of every charge we represented and it's disposition.

A local law increasing the salaries of various employees of the County of Orleans appointed or elected for a definite term.

Be it enacted by the Legislature of the County of Orleans, New York as follows:

SECTION 1. Pursuant to the provisions of the Municipal Home Rule Law of the State of New York, the salaries of the following County employees are raised as follows, per annum, January 1, 1982.

<u>Employee</u>	<u>Present Salary</u>	<u>Proposed Increased Salary</u>
Personnel Officer	\$ 9,995	\$10,745
Superintendent of Highways	21,000	22,575

Director of Real Property Tax Services	16,500	17,737
Election Commissioners (2)	4,100	4,408
	4,100	4,408

SECTION 2. This local law is adopted subject to referendum on petition pursuant to Section 24, Subdivision 2-h of the Municipal Home Rule Law of the State of New York.

SECTION 3. This local law shall take effect 45 days after adoption hereof, or after approval by the affirmative vote of a majority of the qualified voters of the County of Orleans voting on a proposition for its approval, after petition, whichever first occurs.

Chairman Dudek made assignments to the Standing Committees as follows:

Administration & Finance	Legislator Eddy
Home & Community Services	Legislator Billings
Economic Assistance & Opportunity	Legislator Berger
Public Safety & Transportation	Legislator Cook
Health	Legislator Swiercznski
Special Services	Legislator Munger

Mr. Dudek noted that since quite a bit of work would be done in Conference Session, the legislator assigned to that committee will meet with his departments, and bring any major items to the Conference Session to be placed on the agenda of the Legislature Meeting.

Chairman Dudek mentioned the various highway departments within the County, and asked Mr. Cook, who is chairman of that committee to make recommendations for a task force to look into the efficiencies of these departments with reference to overlap and/or duplication. He also said that the solid waste problem should receive top priority, to be discussed at the earliest possible Conference Session. There was general discussion on this.

Chairman Dudek announced that the next meeting will be the Conference Session to be held on the 20th at 2:30 p.m., and the Legislature meeting will be held the same day, at 7:30 p.m.

Motion by Legislator Billings, seconded by Legislator Berger to adjourn the meeting. Carried.

Meeting adjourned 3:45 p.m.

REGULAR MEETING
Wednesday, January 20, 1982

The meeting was called to order at 7:30 p.m. by the Chairman. After the pledge to the flag, the Clerk called the roll, and all Legislators were present.

Chairman Dudek explained to the Legislature that an Agricultural District had been formed in the Town of Shelby, and introduced Mr. Jeff Smith, who formally presented the Agricultural District to the County. Mr. Dudek noted that this district is rather unique as it is the only one in the County to include property within the corporate limits of a village.

The Clerk presented the following communications: second annual Admissions Evaluation Report on the County Jail; a letter from Veterans Service Agency noting that the new County Administration Building does not have a flag; a letter from the NYS Office for the Aging stating the county has received Grant Award and Budgets for Title III-C-1 and Title III-C-2; notification of a Orleans County School Boards-Administrators meeting.

Chairman Dudek brought to the attention of the Legislature, a State/County Cooperative Gypsy Moth Project, which is 80 percent reimbursable. After considerable discussion, it was decided to apply for a limited educational program for the County.

During the open discussion portion of the meeting, the Chairman asked for reports or comments on projects from the legislators. Legislator Berger reported that he had attended a very good program put on by the Soil and Water Board. Legislator Eddy said he would like to see a projection of the County floor space, and the moves scheduled, by the next meeting. Legislator Swiercznski brought up an old item, noting the consolidation of Veterans Service Agency with Social Services; putting the Veterans Service Agency under Social Services. He felt that if that Agency would lose its identity, then many veterans in Orleans County would be against it. Legislator Berger explained that information regarding this consolidation was being put together, and when it is complete, then the veterans organizations would be approached for their views and opinions.

February 4, 1982

The problem of reapportionment must be solved. Orleans County has operated under a temporary form of government for approximately 10 years. Hopefully we will not continue to so operate for another 30 years as Nassau County did.

The plans submitted by the former Board of Supervisors were disapproved by the voters. The plan submitted by the Orleans County Legislature was voted down by the voters.

A form of County Government acceptable to the voters of Orleans County must be found. Compromise by the various concerned factors is a necessity if such form of government is to be created.

I, for one, am willing to compromise.

Let's start with the people of Orleans County. Let's make an attempt to involve people other than those involved directly with reapportionment during the last few years. The approach to an acceptable form of government must begin with open minds, with no fixed pre-conceived ideas as to the form of government our fine County should operate under.

I propose a new reapportionment committee to study all aspects of the problem and recommend to the Legislature a plan which it sees as meeting the needs of the people of Orleans County. Such a committee should be comprised of representatives of each town as well as others appointed by the Legislature.

This committee would consist of the following:

- 1 Person from each of the 10 towns to be appointed by the Town Supervisor.
- 3 Persons to be appointed by the minority leader of the Legislature.
- 3 Persons to be appointed by the majority leader of the Legislature.
- 1 Person to be appointed by the Chairman of the Legislature.

This makes a total committee of 17 people with County wide representation including the small rural towns.

To encourage an open minded approach, no person who in the past has served on any committee for reapportionment appointed by the Board of Supervisors or County Legislature should be eligible to serve.

No member or former member of the County Planning Board, no legislator or former legislator, no former member of the Board of Supervisors, no Town Board member or former member should be allowed to serve.

The committee should be responsible for selecting its Chairman, Vice Chairman and Secretary.

The County would provide stenographic and clerical help upon request and make arrangements for office and meeting space. Needed materials and backup expertise would also be provided. If deemed necessary, a budget would be established. A progress schedule would be arrived at by the Committee and the Legislature Chairman.

I would also propose that to familiarize the members with the large scale picture of the reapportionment problem that, if possible, arrangements be made with the State Attorney General's Office, or other agencies, to provide historical review and general indoctrination of the Committee members.

The adoption of this proposal would be a bold, courageous and forward moving attempt by this body to reach a solution to the reapportionment problem which has pre-occupied Orleans County government for the past 10 years.

Mr. Chairman, I request that this statement be entered into the minutes of this meeting and the formal proceedings of this body.

The Clerk presented the following communications: letter from Assemblyman Hawley acknowledging receipt of Resolution No. 505 opposing state takeover of off-track betting; letter from Assemblyman Emery, also acknowledging receipt of Resolution No. 505; letter from Senator Daly, also acknowledging receipt of Resolution 505; letter from the County Attorney informing the Legislature that he will be unavailable for the February 4 Conference Session; Schedule of Events for NYSAC's 6th Annual Legislative Conference.

Robert Tirsch introduced a Youth in Government Class from Albion High School. Chairman Dudek spoke to the class, explaining the purpose of the Conference Sessions.

During the Open Discussion, Legislator Cook spoke about a proposed Highway study to investigate the providing of Highway services. A final report should be presented by August 5, 1982. Legislator Cook said he would like to have the committee started by the first or second week in March. This will be taken up at the February 17 Legislature Meeting.

Wednesday, February 17, 1982

The meeting was called to order by the Chairman, at 7:30 p.m. After the pledge to the flag, the Clerk called the roll and all legislators, except for Legislator Munger, who was excused, were present.

Chairman Dudek welcomed students from Albion Central School and their teachers to the meeting. The students were in attendance to observe County government in action.

The Clerk presented the following communications:

Notice from the Inter-county Association of County Legislative Bodies of Western New York with reference to their monthly meeting;

Letter from the Town Board of Clarendon stating that the Town of Clarendon did adopt the NYS Fire Prevention Code.

Letter from the Village of Medina proposing a modification to the Shelby Agriculture District.

Two letters from the County Attorney with reference to the lease between the County of Orleans and the State for Oak Orchard Marine Park Leases.

Letter written by Ms Carri Blake of the Office for the Aging with reference to the 100th birthday of Mrs. John (Ellen) Lowe.

The annual report of Notices of Tort Claims, paid on behalf of the County, as prepared by Albion Agencies, Inc.

During the open discussion portion of the meeting, Legislator Billings read the following statement:

"For more than a decade, Orleans has struggled to establish a permanent and constitutional form of county government, acceptable to the public. During this period, seven plans were submitted to the voters at five different times: November '77, July '78, November '78, November '79, and November '81. All were defeated and no plan ever received support from more than 30 percent of the registered voters. In some cases, more than half of the people who voted in the election never voted on the proposition! During that time, only one plan was ever submitted that had no organized oppositon and was supported by both the Board of Supervisors and the Committee for a County Legislature. At a special election, that plan for a fourteen member Board of Supervisors was defeated by a margin of more than four to one!

While these events were taking place, the County was embroiled in a constant cycle of lawsuits and appeals which to date has cost taxpayers well in excess of one hundred twenty-five thousand dollars.

More important, perhaps, than the cost, is the fact that this unresolved problem has stifled debate over more important issues. Election after election is dominated by discussion and debate over reapportionment while plans for the County's future go unconsidered and unchallenged!

The voting record proves that the general public has never been "very excited" about reapportionment or any specific plan that has been presented. At three public information meetings held last fall, at three different locations on three different nights, a sum total of 13 people appeared! And what of the future? Will there be more interest? More and more is being heard about reapportionment in congressional districts, in state senatorial districts and in assembly districts. Reapportionment will become the one word more unpopular than the word reassessment.

Options brought forth to solve this dilemma are basically the following two:

1. To increase the number of County Board members to 9 or 10. This may increase representation but would also increase cost. This would appear undesirable in an era when all other units of government are cutting back.
2. To form another committee to create yet another plan. This proposal fails to provide any assurance that any plan devised will receive enough legislative support to be placed on the ballot. In addition, it allows no representation for the county's villages, and most important offers nothing to suggest increased likelihood of voter approval.

In view of these factors, I am proposing an innovative new approach through a local law. It would slightly modify the current plan to assure favorable distribution of the at large positions in all future elections, eliminating the major objection to the current plan, thereby making it more acceptable to the voters. In addition, it would become the permanent form of government automatically unless enough voter interest was demonstrated to place it on the ballot. I respectfully request that this report be made a part of the official proceedings and be considered carefully prior to the next meeting when a date for a public hearing may be set.

D. The term of office of all county legislators shall be two (2) years, which term of office shall begin on the first day of January next following their election.

E. The qualifications of a county legislator shall be as provided for in the New York State Election and Public Officers Law and such other provisions of the New York Constitution and State Law, and Orleans County local law as may be applicable.

SECTION 4 - VACANCIES. Vacancies in the Office of County Legislator shall be filled in accordance with Orleans County Local Law No. 2 of 1980.

SECTION 5 - EFFECT OF OTHER LAWS OR ACTS. Any law, ordinance, resolution or other act inconsistent with the provisions hereof shall be superseded by this Local Law.

SECTION 6 - SEPARABILITY. If any clause, sentence, paragraph or section of this Local Law shall be adjudged by any Court of competent jurisdiction to be invalid, such adjudication shall not effect, impair or invalidate the remainder thereof, but shall be confined in its operation to the clause, sentence, paragraph or section thereof directly involved in the proceedings in which such adjudication shall have been rendered.

SECTION 7 - REFERENDUM. This local law shall take effect forty-five (45) days after its adoption hereof, or after approval of the affirmative vote of a majority of the qualified voters of the County of Orleans voting on a proposition for its approval if within forty-five (45) days after its adoption there be filed with the Clerk a petition protesting against this Law in the form provided for in Section 24 of the Municipal Home Rule Law. If any other reapportionment local law is submitted to the electors of the County of Orleans simultaneously with this local law, then the local law which receives the majority vote and which also has the greater number of affirmative votes in the County at large shall be deemed to have been adopted.

Chairman Dudek asked that this Local Law, and the statement previously read by Legislator Billings be included in the minutes of the proceedings, and then asked for comments and questions from the floor. The following remarks were made:

Legislator Cook - The main difference then is that the three at-large candidates; one would have to come from the east, and one from the central and one from the west. Everyone will still vote for the at-large candidates.

Legislator Eddy - One thing that it has done is to ensure that the representation cannot be based on any one particular area of the County. I think it is a good program.

Legislator Swiercznski - I think with Section 3, referring to the candidates at large, if you are going to do that, you are breaking it up into three more districts. You have the four districts, with three overlaying districts. You call for permissive referendum, and I think the people of Orleans County will come up with a petition.

Chairman Dudek explained that this is why this plan is being presented in this manner, to offer the people a chance to put it on the ballot.

At this point, Chairman Dudek presented the members of the Legislature with a copy of the Annual Report of the 1981 Legislature.

REGULAR MEETING
Thursday, March 4, 1982

Mr. Dudek welcomed students from Albion Central School, and their teacher, to the meeting, and explained the procedure used by the Legislature to have resolutions put on the agenda.

The Clerk presented the following communications:

Two letters from Governor Carey's office acknowledging receipt of Resolutions Nos. 45, 65 and 66.

Letter from Assemblyman Hawley acknowledging receipt of Resolution No. 45.

Letter from Francis S. Nayman, Vice-chairman of Past & Present Supervisors' Association of Orleans County requesting that the Position Statement of that organization be presented to the Legislature.

PAST AND PRESENT SUPERVISORS ASSOCIATION OF ORLEANS COUNTY

February 23, 1982
Position Statement

The time has arrived for all people and parties involved in the Orleans County re-apportionment controversy to put all personal feelings and politics aside and arrive at a plan or plans of re-apportionment that the people of Orleans County will accept.

In the past the Board of Supervisors were accused of trying to instigate a plan of government that everyone said attempted to perpetuate themselves in office, that plan was the Board of Supervisor type of Government for Orleans County. Yet, you hear no comments from the so called Tax Payers Association that the Orleans County Legislature is toying with the idea of again attempting to put forth the same plan that was previously rejected by the electorate of the County of Orleans. We would assume that after so many times the same charge of self perpetuation could be leveled at this body. After being rejected a couple of times we feel that the people of Orleans County do not want to accept this plan as a seven member permanent plan of Government.

It is now time to revamp our thinking and get a totally new plan or plans available for the electors of Orleans County to accept or reject.

We have always fought for the right of the people of Orleans County to have the right to accept or reject the type of government that they desire by having the choice of either accepting or rejecting a plan by having the constitutional right to vote on such an important issue, not by having it crammed down their throats.

We propose that a panel of people be drawn from the names on the Orleans County Jurors list - a group large enough to form a committee of 11-; 13-; 15- etc. A committee of over ten would be mandatory. One person would have to come from each of the ten towns in the County and the remainder from any other place in Orleans County. The ones who do not desire, or have the time to serve should be dismissed. This group should have the opportunity to hear a representative from the Office of the Attorney General of the State of New York on the question of what plans are constitutional, also this panel should have the opportunity to call before them any one they wish to gain information and ideas. They should be informed to formulate one, but not more than three plans to be placed before the electors of Orleans County. This procedure, we believe, is the correct avenue to pursue, so that present ideas and political influence does not overshadow the important question of re-apportionment.

After all, we do place our confidence in the people chosen by this method to act as our peers, to judge right from wrong. Why then not let some of these individuals come and help us solve the re-apportionment question by letting an unbiased group of Orleans County residents choose a plan of government themselves.

Michael Paduchak	Francis Nayman	Manley Whipple
Chairman	Vice-Chairman	Secretary-Treasurer
Supervisor Town of Kendall	Supervisor Town of Albion	Past Supervisor Town of Carlton

During the Open Discussion portion of the meeting, the privilege of the floor was granted to Mr. Luther Burroughs, who read a prepared statement with reference to Local Law No. 2-Intro of 1982 concerning the continuation of a seven member legislature with residency requirements.

Any constitutional form of government that is established in Orleans County will have to stay in effect for a minimum of ten years. Therefore, it is important to have the form of government that will be the best for Orleans County and one that will be acceptable to the voters. The Legislature is here to stay. The question then is what type of Legislature would be best? The present government is temporary and will stay in effect until such time as a constitutional government is approved by the electorate.

Since the present at large system was approved by Judge Kasler, there have been several suits as to the constitutionality of the at large system of government. Therefore, if the present system were voted in, the law suit would continue until the Supreme Court declared it constitutional or visa versa.

Three years ago a similar attempt was made to pass a local law with permissive referendum. This also was a reissue of a plan which had been rejected by the electorate. The results are history and in this case, do not let history repeat itself. At that time the Supervisors set a date for a hearing without notification to Judge Kasler and the attorneys for the plaintiff. The Judge would not allow the hearing to be held.

As of February 24, 1982, the attorneys for the plaintiff had received no notification of plans for a hearing. The fact that a residency requirement is added makes it entirely different from Judge Kasler's plan and it seems it must go through the same process as any new plan.

There have been two recent plans for a new politically free reapportionment committee. The method of choosing members of the committee could easily be compromised. The main idea behind both plans is to have all sections of the county represented. Both of the proponents of these plans have tried to convey to the public this fact that this committee represents the county and not the local units of government.

If the present attempt to rush things so the Legislature can get on to their business is the reason for the hurry, the same could be accomplished by this new committee. Instead of spending another hundred-thousand dollars on lawyers fees, let the county spend about eight thousand dollars on a special election in May or June of 1983. At that time the plan or plans adopted by the Legislature could be presented uncluttered by state amendments and political candidates.

The County Attorney commented that no date had been set for the holding of any hearing, so he could not give notice of that. He did inform Mr. Burroughs that the attorney for the plaintiff in the reapportionment matter had been sent all the necessary papers. Mr. Young explained that since this proposal was presented at the last meeting, the question of constitutionality was raised, and he has made petition to the Court in this regard. Notices of this petition had been sent to all the people concerned in the matter, and anyone who wants to, can go along to the hearing when it's presented in Court.

Chairman Dudek presented a proclamation declaring the week of March 21-27, 1982 as EPISCOPAL CHARITIES WEEK.

PROCLAMATION

WHEREAS, The Episcopal Charities Appeal was organized in 1966 by an authorization of the Convention of the Diocese of Western New York; and

WHEREAS, a united appeal was formed to open the base of support to include individuals, businesses, financial institutions and charitable foundations outside the Episcopal Church; and

WHEREAS, this support has allowed the member agencies to grow in number from the original six agencies in 1966 to the present eighteen agencies in 1982; and

WHEREAS, this is the sixteenth consecutive year that Episcopal Charities of Western New York is seeking support not only from Episcopalians but the entire Western New York Community in order to continue the work of these dedicated agencies; and

WHEREAS, the services provided to the people of Western New York include all segments of the community including the urban and rural poor, the elderly, the young, battered women and children regardless of religious affiliation, national origin or financial criteria;

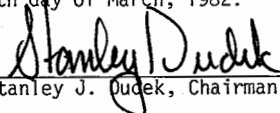

NOW, THEREFORE, I, Stanley J. Dudek, Chairman of the Orleans County Legislature do hereby proclaim the week of March 21 - 27, 1982 as

EPISCOPAL CHARITIES WEEK

in the County of Orleans, and urge all our fellow citizens to join us in supporting this worthwhile Appeal by contributing to its success.

In Witness Whereof, I have caused to be affixed the Seal of the County of Orleans this 4th day of March, 1982.

Chairman Dudek said that recently there had been talk about the possibility of eliminating the OTB betting parlor here in Orleans County. The question seems to be whether or not they are operating at a loss. He noted that the total amount bet in 1982 was \$81,712.00. Mr. Dudek went over figures regarding OTB operating expenses. He noted that Orleans County had received approximately \$52,000.00 as its share of the profits. Mr. Dudek noted that the closing of the OTB parlor should be based on all the facts, and wanted the members of the Legislature to be aware of them.

At the end of the meeting, there was a question and answer period during which time the legislators answered questions from the students. Chairman Dudek asked the members of the Legislature, the County Attorney, the Chief Administrative Officer and the Clerk to introduce themselves.

Legislator Billings moved to adjourn, seconded by Legislator Eddy. Motion carried. Meeting adjourned at 8:50 p.m.

REGULAR MEETING
Wednesday, March 17, 1982

The meeting was called to order by the Chairman at 7:30 p.m. After the pledge to the flag, the Clerk called the roll and Legislators were present.

The privilege of the floor was given to Richard Bennett, Supervisor from the Town of Barre, who welcomed the Legislators to the Town of Barre, noting that the meeting provided an opportunity for the people of Barre to meet all the members of the Legislature.

At this time, the Legislators introduced themselves and gave a brief description of the areas they had charge over, and explained a little of the work carried on in their particular areas.

The Clerk presented the following communications:

A letter from David Traxler, Chairman of the Lyndonville Telephone Committee thanking the Legislature for the resolution supporting their effort to gain a larger toll free calling area.

Certification from the NYS Department of Agriculture and Markets stating the plan as adopted and approved by the Legislature in Resolution No. 436 on November 19, 1981 for the formation of an Agricultural District in the Towns of Ridgeway, Gaines, Shelby, Albion and Barre.

Certified copy of an official order from NYS Department of Transportation designating portions of Route 31, Hulberton Road and Route 237 as a detour during reconstruction of State Route 237 Bridge over the Barge Canal under Project 4118.00, Holley-Ridge Road, SH 582.

Copy of a telegram from Governor Carey, to the United States Secretary of Agriculture recommending the the Farmers Home Administration Loan Program be implemented in Orleans County.

Letter from Assemblyman Stephen Hawley acknowledging receipt of Resolutions No. 65 and 66 with reference to boat and snowmobile patrol, and state-wide mobile radio district program.

Resolutions from the Towns of Barre and Shelby supporting the Orleans County Magistrate's Association in requesting that part of the fines received for DWI arrests be returned to court of local jurisdiction.

The privilege of the floor was given to Luther Burroughs, who presented material he had gathered in reference to Community Colleges. Mr. Burroughs explained that he had made a study of community colleges in September of last year, and mentioned some courses, which he felt shouldn't be charged back to the County; these are credit-free courses. Mr. Burroughs said he would like to have a County committee formed to look into these matters, in order to save the county money. Mr. Dudek thanked Mr. Burroughs for his presentation, and asked if there was anything else the people in attendance would like to discuss. There was a question on full value assessments and whether there might be change in this area. It was noted that the assessment establishes equity in the County and the up-date assures residents the continuation of that equity. Legislator Berger raised the question of whether or not Orleans Travel Bureau made all travel arrangements for the County, and was told that this was not so; that Orleans Travel Bureau was not designated by the County to handle County employees' travel arrangements.

At this point, Chairman Dudek noted that three resolutions were to be added to the agenda; one with reference to the telephone system for the Probation De-

partment, the second with the dog quarantine and the third with the gypsy moth education program. There being no objections, the resolutions were added to the agenda.

Unanimously adopted.

There was discussion on the Chief Administrative Officer position. Legislator Eddy felt that advertisements should be placed in newspapers covering Buffalo, Rochester and Syracuse, and that work should begin on this as soon as possible. Legislator Berger suggested that the job description for this position should be reviewed by each legislator and discussed in conference session.

Chairman Dudek announced that the same procedure would be followed when items were to be listed on the agenda. The Clerk will keep a list of the items and the agenda will be sent out on the Friday preceding the meeting.

Motion by Legislator Eddy, seconded by Legislator Berger, to adjourn.
Motion carried. Meeting adjourned at 8:30 p.m.

LEGISLATURE MEETING
April 21, 1982

The meeting was called to order at 7:30 p.m. by the Chairman. After the pledge to the flag, the Clerk called the roll, and with the exception of Legislator Eddy, who was excused, all the Legislators were present.

Chairman Dudek thanked the members of the Town Board of Carlton for allowing the Legislature to hold its meeting in the Town Hall, and introduced Mrs. Rosalie Appleton, Carlton Town Clerk, who in turn introduced the members of the Town Board who were in attendance.

The Clerk presented the following communications:

Letters from the Villages of Albion, Holley and Lyndonville requesting County exemption on village sewer and water systems;

Letter from the Village of Lyndonville commending Legislator Berger for all the effort and time given to the telephone committee for a wider toll free telephone area;

Letter from Lawrence B. Casey, Coordinator of Services, re conducting a training program to aid county employees involved in family counseling;

Letter from Community Action presenting their audit report for the year ended January 31, 1982;

Letter from OTB presenting the minutes of the Board of Directors meeting held on March 18, 1982.

Letter from the Office of the State Comptroller presenting their Report of Examination of the accounts and fiscal affairs of Orleans County. Mr. Dudek commented that it was a very good report, and that the County Treasurer had done a very good job, noting that the report covered a three-year period.

During the open discussion of the meeting, Mr. Elam spoke with reference to unauthorized use of handicapped parking spaces. It was noted that the violation of this law seemed to be widespread, and there was discussion on what could be done. The Chairman said that a letter would be written to the law enforcement agencies in the County asking them to provide stricter enforcement of the law. Legislator Berger also suggested that perhaps it could be mentioned again in the newspaper, that people who were not handicapped were using parking spaces designated for the handicapped. There was an inquiry about the property listed on the agenda, which was to be sold.

The legislators gave their committee reports. Legislator Munger said he had attended the Genesee/Finger Lakes Regional Planning Committee meeting, and felt that the county should take advantages of their services. He mentioned a video tape they were putting together to do promotions for the counties covered by their area. Mr. Munger said that a risk program being conducted by the Youth Bureau is very successful, and that the schools are cooperating.

Legislator Berger reported he had attended the usual monthly meetings, and mentioned in particular that he had met with all the Town Historians, the previous Saturday. He noted that since the county has a micro film camera, the towns might consider putting their historical records on film, to preserve them. He mentioned it might be possible to buy time from the County to have this done.

Legislator Cook reported that he had attended the regular monthly meetings. He mentioned in particular, that he had attended a meeting in Erie County with Sheriff Green, and Probation Director Robert Golden, on the "Alternative to Jail Sentencing". A meeting will be held on the 22nd, to discuss the DWI Program, and a recommendation will be brought back to the Legislature from this meeting.

Legislator Billings reported that the Fishery Advisory Board is busy working toward their Fishing Derby to be held later in the year. Soil and Water is working toward a drainage program and the landfill situation is still in the working stages.

Chairman Dudek reported on the Inter-County Meeting he attended in Wayne County. They have formed a Wayne County Business Council whose main objective is to form a program presenting Wayne County as a whole, rather than segmenting the county. He noted this program is being run without government involvement; that it is a good example of what can be done when everyone works together.

Legislator Swiercznski reported that Community Services has interviewed a candidate for the position of director. This person is well qualified, and it is hoped he will be at Community Services shortly. Mr. Swiercznski asked if Spencer-Fitts had been contacted, and was told that Mr. Spencer will be at the next Conference Session.

The annual report from the Genesee/Finger Lakes Regional Planning Council.

A letter of resignation from the Assistant Public Defender Shirley Gorman, to be effective on May 28, 1982 at the close of the business day.

A letter of thanks to the County and to the Treasurer in particular, from the Village of Holley officials for the donation of the vault, which was formerly located in the Treasurer's office.

A petition from County Infirmary employees on the three to eleven and eleven to seven shifts, protesting the institution of the shift differential interpretation for non-work hours.

A letter from Louis Monacelli, Director of Administrative Services at the Department of Social Services with instruction on the use of the radio-speaker system at the County Administration Building.

A letter written to Mr. Everett Johnson, County Highway Superintendent extending appreciation and thanks to him and his staff, from the Village of Holley's Superintendent of Public Works.

Reports from the Standing Committees were given. Legislator Cook said that after the DWI Coordinator is appointed, that program would be well underway. The Highway Steering Committee had met last week, and more data is needed to make decisions, and the other members of the Legislature were invited to attend the next meeting.

Legislator Berger reported that he had attended the usual monthly meetings. There was concern about the closing of surgical services at the VA Hospital in Batavia. Also, there was concern about transportation in the County for the various agencies in the County; a meeting on this will be held on the 17th, at 3:00 p.m. in the downstairs conference room at the County Administration Building.

Legislator Munger said that Mr. Walter Spencer and Mr. Larry Fitts of Spencer Fitts had spoken to the legislators at the Conference Session. There is going to be further discussion on the problems involving Community Colleges. Mr. Munger said that he had been asked to be on the Board for the Council on the Arts.

Legislator Swiercznski reported that a new director had been hired for Community Services, Mr. Frank Endres, from Clarence, New York. Mr. Swiercznski felt Mr. Endres will add a great deal to the Community Services Department.

The County will be going ahead with engineering studies to determine the suitability of the land. Mr. Billings also mentioned that Abex has a 6 month project through the Industrial Development Agency, to be finalized on Tuesday.

Legislator Eddy reported that work is still being done on the problem at the License Bureau. Mr. Eddy is also working with the Treasurer with reference to the computer located in the Treasurer's office, and the programs which are available.

There was discussion on the microfilm equipment at the Department of Social Services. Legislator Berger referred to a part of this equipment that is missing and it was his opinion that the County should not have to pay for it; that when the equipment first came in, the company's representatives looked it over, and were taking care of it.

During the open discussion portion of the meeting, Mr. Joseph Grabowski, who is the Town of Barre Highway Superintendent, and a member of the Highway Steering Committee, thanked the Legislature for initiating the Highway Study.

Legislator Swiercznski referred to a letter written to Mayor Tuohy of the Village of Medina, with regard to a possible link-up between Medina and Albion in order for Medina to use the sewage treatment plant in Albion. He noted that the Village of Medina officials were not in favor of it, and felt that the members of the Legislature who represented those towns involved, should have had input into the situation. Chairman Dudek replied that he wanted to go on record as being willing to coordinate such an effort, if this was what was wanted; that the reply had to be sent out immediately, in time to be read at the Village of Medina Board Meeting that same evening.

Motion by Legislator Billings, seconded by Legislator Munger, to approve the purchase offer and option with Lloyd N. Kuhn for proposed site of landfill. There was discussion on this resolution, and Legislator Berger requested that the record show he was against paying \$1,000.00, over and above the purchase price, for the four month option; noting that the property was originally offered to the County for \$60,000.00. Legislator Swiercznski felt the acquisition of the property was a step in the right direction; noting that testing has yet to be done on the property. Legislator Cook was very much in favor of the purchase. Chairman Dudek said that the property was being purchased as a back-up site for a landfill; the property is being held in reserve. At this point, Legislator Billings moved to call the question, whereupon the following resolution was adopted.

LEGISLATURE MEETING

May 19, 1982

The meeting was called to order at 7:30 p.m. by the Chairman. After the pledge to the flag, the Clerk called the roll, and all Legislators were present.

The privilege of the floor was given to Mr. Kenneth Schaal, Supervisor of the Town of Shelby, who welcomed the Legislature to the Town of Shelby, and thanked the Legislature for having the meeting there. Supervisor Schaal said he felt the concept of holding meetings in the various towns was excellent. The members of the Shelby Town Board and the mayor of Medina were introduced.

Mr. Patrick Rountree, Director of Planning & Development was introduced, and on behalf of the County Planning Board Chairman, Jean Cliff, presented the Legislature with a copy of the Model Zoning Law. Mr. Rountree thanked everyone involved in helping put this law together, noting that the Board had received a great deal of cooperation from all concerned.

The Clerk presented the following communications: a letter from Mr. Thomas Whedon, Medina, New York; a letter from the Mayor of Holley, requesting to be on the agenda for the June 16th meeting; a letter from the Governor's office acknowledging receipt of Resolution No. 163; a request from Jim Hancock, Director of Job Development Agency for use of unoccupied office space in the County Administration Building for the summer program; a letter from Duncan W. O'Dwyer, Attorney to the Town of Murray, re: May 29th Rock Festival to be held in Fancher, N.Y.; a copy of a letter from Mr. O'Dwyer to the owners of the Country Gallery in Fancher, N.Y. notifying them of the need to obtain all required permits and approvals for the Rock Festival to be held on May 29th; resolution from the Holley Fire Department and the Murray-Fancher-Hulberton Fire Department protesting the May 29th Rock Festival.

At this time, Mr. Carl Ellison, Eastwing Productions, was introduced. He introduced Mr. Ted Foote and Ms Susan Stafford, owners of the Country Gallery, in Fancher, N.Y., sponsors of the Rock Festival. Mr. Ellison explained that he was handling the promotional aspect of the Rock Festival. Referring to the letters read by the Clerk, Mr. Ellison said he felt the whole thing had been blown out of proportion. He said that between one and two thousand people were expected to attend the concert, and that health and medical facilities had been provided. Security control would be provided. An eight-foot fence was to be erected around the area, and there was to be a main gate.

Mr. Ellison said that the concert had been planned for over 120 days. He explained that he had been in contact with Mr. Piedimonte, Supervisor from the Town of Murray, on a weekly basis, as to the ticket sales; and also with Sheriff Green. Currently, 31 out of town, and 190 local tickets had been sold. When asked why he had waited until this week to get in touch with the County to see about getting a permit, Mr. Ellison said he had contacted his attorney, who read the law, and felt that due to the size of crowd that was expected, the law did not apply. It was stated that they had control over the number of people who would attend the concert through the number of tickets allotted to be sold by Ticketron and at the gate.

When asked about parking facilities, Mr. Ellison said parking would be available in back of the building, within the fenced-in area; that approximately 2 acres would be enclosed by a fence. He felt that 250 cars could be parked in the area.

Sheriff Green said that he was totally against having the rock concert; he felt that there were not the proper facilities for the rock concert, and that parking would be a major problem. He noted that when he had talked with Mr. Ellison

two weeks before, with reference to permits, that nothing had been done, either for mass gathering permit or for the permit from the ABC Board. Sheriff Green again expressed his concern that the promoters would not follow through with their plans as presented to the Legislature.

Representatives from the County Health Department went over the various health codes, and felt that basically the facilities which are to be provided for the rock concert are in compliance. There was further discussion, after which the Legislature recessed at 8:25 and reconvened at 8:35. There was more discussion on limiting the number of tickets sold, if this could be done. Chairman Dudek asked, if Mr. Ellison would be willing to make a commitment to limit the number of tickets to 2000, would he authorize the County Attorney to Ticketron to check on the number of tickets sold. Mr. Ellison said he would be willing to do this. He said he would tell Ticketron to limit the sales for the concert to 1500 tickets, with 500 tickets being sold at the gate. This was agreeable with everyone concerned. Mr. Dudek told the promoter, that if they attract 2500 people they would be in violation of the law, and the penalties would be in force. Mr. Ellison and the owners of the Country Gallery met with the County Attorney to make arrangements for the County Attorney to have access to Ticketron in order to check on the number of tickets sold.

Kelly, chairman of the Wyoming County Board of Supervisors thanking Mr. Dudek for the information received with reference to Genesee Community College.

Report from Standing Committees:

Legislator Cook said he had been away on vacation, and had not attended any meetings.

Legislator Berger reported he had attended the usual meetings. A meeting to discuss burial lots for use by the County had been held. Legislator Berger noted

the high cost of cemetery lots, and said the committee was considering the possibility of a County Cemetery. The committee will meet again to check into the matter further.

Legislator Munger mentioned that he had been contacted with reference to a drainage problem on one of the creeks. He felt that Soil and Water District could take care of it, and it will be referred to them. With reference to Community Colleges, Legislator Munger said he, Legislator Eddy and Chairman Dudek had met with President Steiner of Genesee Community College. It was agreed that anything that shows up in the completed audit as not approved by the State affects Orleans County or any other county, and will be taken care of and rebated on those items. This will go back to about 1977. President Steiner said that nothing could be done on items any further back. Legislator Munger said that the statute of limitations had been brought up on some of the items in question. The County Attorney felt that this didn't apply because it was a continuing relationship between the County and the College. All of these items are being looked into, and Legislator Munger will continue to keep the Legislature up-to-date.

Legislator Eddy noted that he, too, had been working on the Community College situation. He said he had met with the people from SUNY at Brockport and the County Treasurer and they are beginning work on computer use with the Treasurer's Office and Personnel.

Legislator Billings reported that engineers had done some field investigations for the landfill site, and things were progressing very well. So far, they had not run into anything where the land could not be used as a landfill.

Chairman Dudek announced that interviews for the Chief Administrative Officer position will be held on June 16th.

Legislator Swiercznski mentioned the special election, which was brought out during the public hearing on Local Law No. 2 with reference to making the seven-man legislature a permanent form of government. He noted the City of Rochester had a special election by paper ballot, and had a good return on the number of ballots returned by mail. He thought this might be a good way for the County to go, in order to have more of a response from the people. The Chairman asked the County Attorney to look into this to see if it can be done.

After the above resolution was introduced, there was discussion on whether or not the County should pay the bill received from Genesee Community College. Legislator Berger felt that payment should be withheld until the problems the County has with GCC are resolved. However, it was decided that the County Attorney would draft a letter to send along with the payment saying that payment is being made under protest and without prejudice to the County. The members of the Legislature also voted in favor of adding the phrase "without prejudice to the County to recover costs for courses improperly billed" to the original resolution.

Chairman Dudek asked for a moment of silence for L. E. "Woody" Kelly, Chairman of the Wyoming County Board of Supervisors. Legislator Berger asked for a moment of silence in honor of H. L. Vaughn, former Mayor of Holley. Both gentlemen passed away the previous week. The Legislature stood for a moment in silent prayer.

On a motion by Legislator Munger, seconded by Legislator Billings, the meeting was adjourned at 9:10 p.m.

LEGISLATURE MEETING
June 16, 1982

Chairman Dudek called the meeting to order at 7:30 p.m. After the pledge to the flag, the Clerk called the roll and all Legislators were present.

During the open discussion portion of the meeting, there was a question and answer period. Mr. VanOrden from the Village of Holley, asked why nothing had been done about removing the tax on fuel oil within the County. There was considerable discussion on this matter. It was explained that if this were done, it would necessitate raising the property tax, in order to make up for the revenues which would be lost due to the removal of the tax on fuel oil. The suggestion was made to do a highway study in reference to the efficiency of the department. Legislator Cook explained that the County is currently involved in a study; that a committee has been formed to look into methods to improve the efficiency of the various highway departments.

Report of Standing Committees: Legislator Berger reported that he had attended the usual monthly meetings. He also gave out a copy of a letter he had received from the Commissioner of Social Services, Mrs. Patricia Hardenbrook. The letter informed the Legislature of the increase in monies recovered by the Resources Unit during the first six months of their reorganization.

Legislator Cook noted that tonight the County DWI Program will be approved. The Highway Steering Committee is at the point where its starting to formulate a plan with Town Supervisors and Town Superintendents. He presented a report from the Youth Officer in the Sheriff's Department; noting that the position is 50% funded through the Youth Bureau. Mr. Cook said he had attended the usual meetings.

Legislator Eddy reported that work is still being done with the computer in the Treasurer's office, and results should be in next week. Also, that tonight, the deputy position and the clerical position in the Clerk's office would be dealt with later on in the meeting.

Legislator Billings reported that they are still awaiting word on the initial work that has been done on the landfill. With reference to the IDA Board, he said that appointments to that Board will be on the agenda for the next meeting. With reference to the Soil & Water District, Mr. Billings said that one project had been rejected, and the District had been advised to look into another problem area to see if it qualified for aid; they were advised to present a plan to the County.

Legislator Munger reported that he had attended a Youth Board Meeting. They have a project to get kids involved in schools for an award; one top student from the County will be chosen. The school principals have to be contacted about this program. All students nominated will receive an award to wear on their sweater. Legislator Berger suggested that this should be done earlier in the year, noting that school is almost through for this year. Mr. Munger reported that he is still working on the Community College project with reference to the charge backs to the County. With reference to the Monitoring Committee, Mr. Munger said that the contract with Spencer-Fitts will be terminated the end of July.

Legislator Swiercznski said he had attended the normal committee meetings. He suggested that the Legislature meet with all department heads, possibly three times a year, at a Conference Session. He noted that it would give each legislator an opportunity to talk with other department heads, besides those on his own committee. Legislator Cook agreed, suggesting that the Legislature use the Standing Committee listings as a basis for the meetings. Chairman Dudek said he would try to set up a schedule.

The Clerk presented the following communications: Letter from Frances R. Pickin, Department of Anthropology of SUC at Buffalo, requesting permission to do archaeological digging at a site in the Town of Carlton; Letter from the Town of Gaines recommending Robert Kaminski's appointment to the Youth Board; A copy of the OTB Board Minutes; A letter from D. Earl Brown, Jr., MD of the Veterans Administration re VA Hospital in Batavia; A resolution from the Town of Kendall opposing the proposed Local Law on Reapportionment of the Orleans County Government; A copy of a letter from Assemblyman Hawley to NYSDOT re signing on the Lake Ontario State Parkway at Kendall and Point Breeze exits; A letter from W. C. Hennessy, Commissioner, NYSDOT announcing the apportionment of funds under CHIPS Program.

A copy of a letter from Senator Daly to the County Clerk, with reference to the problem at the Motor Vehicle Bureau; A letter from CSEA requesting the establishment of a date for the initial bargaining session; A letter from Stephen Heard, Home and Infirmary Administrator requesting a full-time LPN position, and terminating a RN position; A letter from the County Attorney re property acquired by Small Business Administration; A letter from NYS Dept. of Ag and Markets re Orleans Agricultural District #1, Town of Clarendon; A letter from C. Kevin O'Donoghue, NYS Office of the Comptroller, re Community College chargeback costs; A copy of a letter to the County Attorney from President Steiner of Genesee Community College re chargeback costs; A letter from the County Attorney re mail-in election on the reapportionment plan; A letter from Public Defender appointing Assistant Public Defender; and a Letter from Sheret Post #35 of the American Legion requesting use of the Court Room for their business meetings during their District Convention.

There was discussion on several of the letters that were read. With reference to the request from the American Legion, the Legislature was in agreement to allow them the use of the Court Room for their business meetings. In answer to the letter requesting permission to do archaeological work in the Town of Carlton, the Legislature agreed to permit this work to be done, with the stipulation that the County Historian and/or his representative be on site during the actual "dig". Also, that any artifacts found will become the property of Orleans County. A resolution to this effect will be presented later in the meeting. With reference to the letter from Senator Daly to the County Clerk, it was noted that the "down" time for the computers in the Motor Vehicle Department had not been mentioned. This has been one of the problems. However, it was noted that more training is necessary for the department.

After further discussion, it was decided to ask the Director to attend the next Conference Session of the Legislature to go into a more in-depth discussion on the matter.

Legislator Eddy reported that he had researched the question of sales tax on heating fuels, and noted that if the current sales tax on heating fuels was to be abandoned in Orleans County, it would result in an eleven to fourteen percent increase in County taxes, in general. He suggested the matter could be discussed further at Conference Session.

A letter from the County Health Department with reference to an agreement increasing the Physical Therapist's fees. This was referred to the Clerk with instructions to return the agreement to the Department in order for the proper procedures to be followed.

During the open discussion portion of the meeting, Mr. Battaglia was given the privilege of the floor to discuss his letter, which had been read by the Clerk. At the end of his presentation to the Legislature, the Chairman said that a copy of the procedures for auctioning off county-owned property would be made available to Mr. Battaglia.

After the adoption of the above resolution, Legislator Billings was given the privilege of the floor, whereupon he requested Chairman Dudek to yield the Chair to Temporary Acting Chairman Eddy. Chairman Dudek did so, and Legislator Billings read the following statement:

"The County Legislature has had a vacancy in the position of Chief Administrative Officer since April 9, 1982. During this period, we have advertised the position and received and reviewed more than 60 applications, about 10 percent of which were county residents. By mutual agreement, a number of those considered most qualified were selected and interviewed. Of major concern was that very few had extensive experience in or understanding of county government. In addition, about half of those interviewed were seeking salaries ranging from thirty to forty-five thousand dollars, well in excess of what the board felt was appropriate for the position, and no clear or very strong support emerged for any of the applicants.

Ironically, there seemed to be no real pressure to fill the vacant position (now four months old) because things seemed to be going relatively well. The main reason for this was attributed to the job being done by the Chairman, who has the responsibility for assuming the Chief Administrative Officer's duties during the vacancy. During casual discussion with other legislators, the same general feeling prevailed - he would, indeed, make an excellent candidate for the Chief Administrative Officer position.

Upon further conversation with others, both in and out of government, I have prepared the following summary of these skills and abilities.

He is an understanding person who likes both people and ideas. He is able to relate cooperatively and stimulatingly with others. He has a pleasant, easy to get along with personality, and has high standards of personal integrity. One of his most significant attributes is his ability to be patient, tolerant and flexible in both thinking and acting. He has an outstanding skill in the area of communications - to express problems clearly, to guide by questioning, asking intelligent, searching questions that stimulate, spur and encourage both thinking and working.

He has an excellent measure of technical soundness based on a breadth of experience in various areas. He can employ judgment diplomatically and is a tactful evaluator. He is constantly encouraging others to come up with new, innovative ideas.

It is his belief that the administration of government should be considered a trust directed to the good of the governed. He has shown concern for those in need. He recognizes an obligation to the taxpayer. He understands the need to have limits as well as goals and has the courage and strength, when it's necessary to say no.

But most important of all, he has gained the confidence and respect of the Legislature and the County, not only by virtue of his chairmanship, but by his performance and knowledge. The needs of the County are immediate, with budget preparations upon us and contract negotiations under way. We have asked him to serve, and we are fortunate that he has agreed - at a considerable personal sacrifice - to accept this position.

I am pleased, therefore, to move that Stanley Dudek be appointed Chief Administrative Officer, effective August 5, 1982, at an annual salary of \$27,750.00."

Legislator Swiercznski asked if Mr. Dudek would resign his position as an elected official, and Mr. Dudek replied that he would submit his resignation to be effective August 4, 1982.

A resolution appointing Stanley J. Dudek to the position of Chief Administrative Officer of Orleans County was moved by Legislator Billings, and seconded by Legislator Cook. During the discussion of this resolution, the following comments were made:

Legislator Swiercznski commented that over the years there have been people, supervisors - who were capable of doing this job, and noted that at one point a general statement was made that this position would not be taken by any legislator. He noted that considerable time and money had been spent in both advertising and in interviewing applicants. Legislator Swiercznski felt that it was a "flim-flam".

Legislator Cook said he had every confidence that Mr. Dudek would do a good job and would provide the best possible service to the County.

Legislator Munger noted that he was new to county government; that one of the first people to impress him with his knowledge of county government was Mr. Dudek. He said that many applications from people from various backgrounds had been received, and that with the appointment of Mr. Dudek there would be no need to spend six or seven months to help someone new learn about county government.

Legislator Eddy said he appreciated the fact that nominating a legislator for the position was a departure from what was originally intended. But that in view of the interviews, and in view of Mr. Dudek's performance in filling in for the Chief Administrative Officer for the last four months, and in observation of his past performance as a legislator, Mr. Eddy felt that he was an outstanding person; and that the legislature should not be limited only to the applicants but should be able to consider others as well. Mr. Eddy named several areas in which Mr. Dudek had performed well, and noted that there should be someone on hand to handle the daily problems in the County.

Legislator Billings said that some of the Chairman's salary would be used to make up the new salary for the Chief Administrative Officer.

Legislator Swiercznski called for a roll call vote, after which, the following resolution was adopted.

RESOLUTION NO. 228

By Legislator Billings , who moved the adoption.

Seconded by Legislator Cook.

RESOLUTION APPOINTING THE CHIEF ADMINISTRATIVE OFFICER FOR ORLEANS COUNTY

RESOLVED, that Stanley J. Dudek, Medina, New York, be appointed as Chief Administrative Officer to the Orleans County Legislature, to serve at the pleasure of the Legislature, effective August 5, 1982 at an annual salary of \$27,750.00.

Adopted. 5 ayes. Legislators Berger, Billings, Cook, Eddy, Munger;
1 abstention, Legislator Dudek; 1 nay, Legislator Swiercznski.

After the passage of the above resolution, Mr. Dudek said that he appreciated the confidence the Board had placed in him by asking him to serve in this position.

Mr. Dudek said, "I agonized over this quite a bit. If you go back a few years ago, with reference to the two-hat rule, about town supervisors also acting as legislators, I took the position that they should not act as one. I was the only supervisor taking that position - I tried to do what was best for the people in the County. I will continue to do that. I know relationships will change. I will be an employee of the Legislature. My obligations will be to them and to the people in the County. It is a bittersweet sort of thing, It is the most important position in government - I suppose the judge could have this kind of power. I thank the Board for the opportunity to serve, and for the confidence they have placed in me."

Motion by Legislator Munger, seconded by Legislator Berger, to adjourn the meeting. Motion carried.

Meeting adjourned.

Unanimously adopted.

Legislator Billings told the Legislature that there are two vacancies on the Planning Board; one is for West-at-Large and the other is from the Town of Albion.

Legislator Swiercznski asked about the procedure for filling the vacancy that is currently in the Legislature. The County Attorney explained that under Local Law No. 1 of the year 1980, the Legislature fills the vacancy on the Board. He explained that the Clerk notifies the Legislature that there is a vacancy in the office of the Chairman of the Legislature, that notification of the vacancy on the Board could also be done in that same letter. Legislator Swiercznski asked if the vacancy is held until election, and the County Attorney explained that any vacancy that occurs prior to August 10th; the designation of candidates is to be done under Party nomination, so there is no necessity to circulate petitions. The Party designation is to be signed by the political party officers that they want to nominate a candidate for that particular office. Legislator Swiercznski suggested that it would be a good idea to get that clarified; to send a letter to both parties explaining the process. The County Attorney said he would send a letter to this effect.

The Chief Administrative Officer was asked about the proposal from Wendell Associates. Mr. Dudek informed the Legislature that he felt their price was rather high for the amount of work actually involved. He noted that they were not going to install a new system, only controls. He said he would like to know the pleasure of the Board in this matter. It was agreed that Mr. Dudek would look further into the matter, and report back to the Legislature at the next Conference Session.

There was discussion on the reapportionment situation. Legislator Swiercznski noted that there were several groups interested in presenting plans, and felt that if they weren't given a chance to be heard, then the plan which will be on the ballot in November would only be voted down again. The County Attorney went over the procedure and time schedule that would have to be followed in order to have another plan put on the ballot this November. Mr. Young explained that the County is still subject to the jurisdiction of the Court. Seven or eight plans have been presented to the Court for constitutionality rulings. Mr. Young didn't feel it proper to do something without going back to the Court. If the County attempts to do something without notifying the public and Court and Litigants, without their having their say, there might be some problems.

Motion by Legislator Berger, seconded by Legislator Munger, to recess the meeting, subject to recall at a later date. Motion carried.

Meeting recessed at 8:45 p.m.

ADJOURNED LEGISLATURE MEETING
August 11, 1982

The meeting was called to order by the Acting Chairman at 7:10 p.m. The Clerk called the roll. Five legislators were present, one absent, Legislator Billings. There is one legislator-at-large position that is vacant in the Legislature at the present time.

The following resolution was presented:

RESOLUTION NO. 250

RESOLUTION AMENDING RESOLUTION NO. 232 RE COMMUNITY COLLEGE COMMITTEE APPOINTMENTS

RESOLVED, that this Legislature does hereby amend Resolution No. 232, adopted at the August 5th meeting of the Legislature, to include the County Treasurer, Mary B. Basinait, as a member of the Community College Committee.

Unanimously adopted.

The Chief Administrative Officer, Mr. Dudek, handed out copies of personnel policies to the Legislators. Mr. Dudek gave a brief background on the preparation of the policies, and suggested that the Legislators read them through, to see if there are any changes they would like to make. Mr. Berger noted that in a particular portion, on page 36, No. 10, the word "liquor" should be changed to "alcohol". Mr. Dudek told the legislators that the cost to have the policies printed would be about \$700.00. He explained that these policies and procedures are a simplified version of the original format; that everything is the same. Mrs. Bower, the Personnel Officer, is working on a time sheet to go along with the personnel policies. He said there were provisions in the policy as to how department heads will be affected. The CSEA unit has reviewed the policies and found no problems with it. Mr. Eddy, the Acting Chairman, said that the next step would be to formally adopt the policies and procedures.

There was discussion on a request received from Kathryn Wells, an LPN in the Health Department, in which Ms Wells requested tuition reimbursement for a course she plans to take at Brockport; cost to be \$180.00. She is also requesting to be allowed to work on a part-time basis, so that she can attend classes. She would actually be working 5 hours less per week. The other nurses in the department understand that if this request is granted, they would be making up for the time Ms Wells is at class. Mr. Dudek explained that the Legislature has already said "no" in terms of reimbursement; the question is does the Legislature want to give her time off? Legislator Swiercznski commented that there is no opening in the Health Department for an RN. After further discussion, Legislator Swiercznski said he felt that Ms Wells should have an answer, and it was decided that he and Mr. Dudek would get back to Ms Wells with a decision in the matter.

Legislator Ray Cook introduced Local Law No. 3 of 1982:

A Local Law Providing for a Nine Member Legislature Elected from Nine Separate Legislative Districts.

Be it enacted by the Legislature of the County of Orleans as follows:

SECTION 1--LEGISLATIVE INTENT. It is the intention of the Orleans County Legislature by this Local Law to submit to the Electorate of Orleans County some principal elements of a plan of apportionment for the County. The principal elements of the plan covered by this law are the number of legislators and the number of districts both of which are proposed by this local law to be nine in number. Therefore, the use of multiple member or floterial districts would be eliminated as a permissible element of an Orleans County apportionment plan. The adoption of this Local Law would bring the County a step closer to a permanent plan which would meet the constitutional requirements established by the Supreme Court of the United States and the Court of Appeals of the State of New York. It is further intended that the adoption of this law will bring the County a step toward satisfying various court orders directing the County to adopt a permanent plan of apportionment utilizing the most current 1980 decennial census data.

SECTION 2--GOVERNING BODY. The governing body of the County of Orleans shall be the County Legislature which, except as otherwise provided in this act, shall have and exercise all of the powers and duties of the County together with all of the powers and duties which are now, or hereafter may be conferred or imposed on a governing body of a County. Whenever a reference is made to the Board of Supervisors in any existing local law, resolution or ordinance, or other action, or in any statute, rule, regulation or otherwise of the State of New York, it shall be deemed to mean the Orleans County Legislature.

SECTION 3--COUNTY LEGISLATURE.

A. The County Legislature shall consist of nine (9) persons to be known as County Legislators.

B. There shall be nine (9) separate legislative districts in the County. There shall not be any at large, multiple member or floterial districts.

C. Each County Legislator shall reside in and be elected from a separate legislative district.

D. The nine-member legislature proposed by this local law shall be elected in the general election of 1983 and shall first take office January 1, 1984.

E. The nine separate legislative districts shall be set up and adopted as a local law in sufficient time to enable the timely nomination and election of candidates for the general election of 1983. Such local law setting up the nine districts shall be adopted subject to referendum on petition in accordance with the Municipal Home Rule Law §24 (2) (j). In the event such local law setting up the nine districts is not finally adopted in sufficient time to enable the timely nomination and election of candidates in 1983, or if a petition protesting against such local law be filed requesting a referendum then the configuration of the nine districts shall be determined by the Supreme Court of New York retaining jurisdiction of the reapportionment case against the County entitled Harradine et al. vs Orleans County Legislature.

F. The term of office of all county legislators shall be two (2) years, which term of office shall begin on the first day of January next following their election.

G. The qualifications of a county legislator shall be as provided for in the New York State Election and Public Officers Law and such other provisions of the New York Constitution and State Law and Orleans County local law as may be applicable.

SECTION 4--VACANCIES. Vacancies in the Office of County Legislator shall be filled in accordance with Orleans County Local Law No. 2 of 1980. A vacancy shall be deemed to exist in the office of any county legislator who does not reside in the district from which he was elected.

SECTION 5--EFFECT OF OTHER LAWS OR ACTS. Any law, ordinance, resolution or other act inconsistent with the provisions hereof shall be superseded by this local law.

SECTION 6--SEPARABILITY. If any clause, sentence, paragraph or section of this Local Law shall be adjudged by any court of competent jurisdiction to be invalid, such adjudication shall not effect, impair or invalidate the remainder thereof, but shall be confined in its operation to the clause, sentence, paragraph or section thereof directly involved in the proceedings in which such adjudication shall have been rendered.

SECTION 7--REFERENDUM. This local law shall take effect after its adoption and after approval of the affirmative vote of a majority of the qualified voters of the County of Orleans voting on a proposition for its approval at the same election on November 2, 1982. If any other reapportionment local law is submitted to the electors of the County of Orleans simultaneously with this local law, then the local law which receives the majority vote and which also has the greater number of affirmative votes in the county at large shall be deemed to have been adopted.

Legislator Cook emphasized that he was not necessarily in support of this local law, but was presenting it as a compromise; thereby giving the electorate of Orleans County a choice.

At this point, Mr. Gerald Lynch was given the privilege of the floor, during which time, he informed the legislators of an error in the 1982-83 County Roster; namely, only one legislator was named to the Board of Elections Committee when there should be two - one legislator from each political party. The meeting recessed at 7:41 and reconvened at 7:44. The County Attorney explained that Elections can be kept as an agency, however, the special committee Mr. Lynch is referring to is to be set aside for the Board of Elections. A resolution will be placed on the agenda for the next Legislature Meeting to make the appointments to this special committee.

Motion by Legislator Swiercznski, seconded by Legislator Berger, to adjourn the meeting. Motion carried.

Meeting adjourned at 7:45 p.m.

LEGISLATURE MEETING
August 18, 1982

The meeting was called to order by the Acting Chairman, Arthur B. Eddy, at 7:30 p.m.. After the pledge to the flag, the Clerk called the roll, and all the Legislators were present.

There was a motion by Legislator Berger, seconded by Legislator Cook, to add six more resolutions to the agenda. Motion carried.

Legislator Berger, seconded by Legislator Cook, introduced a resolution to fill the vacancy in the Legislature. During the discussion of this resolution, the County Attorney explained that the vacancy in the Legislature can be filled by the Legislature. Legislator Swiercznski felt that the decision of filling the vacancy had already been made prior to the Legislature meeting, and said he thought it was upto the Legislature to decide. It was his opinion that nominations should be made from the floor to fill the vacancy. Legislator Swiercznski said that he would like to move that Richard Bennett of Barre Center be the Democratic nomination for the vacancy. Legislator Berger moved to amend the original motion, to include a member from the Democratic Party to be considered for the position of Legislator. This was seconded by Legislator Cook. Legislator Billings called for a vote on the amendment. The vote was taken and the amendment was defeated 2 ayes to 4 nays. Whereupon, the vote was taken for the original motion, and the following resolution was adopted.

RESOLUTION NO. 251

By Legislator Berger , who moved the adoption.

Seconded by Legislator Cook.

RESOLUTION FILLING VACANCY IN THE LEGISLATURE

RESOLVED, that pursuant to Local Law No. 2 of the Year 1980, John E. Zimmerman, residing at 308 West Center Street, Medina, New York, is hereby appointed to fill the vacancy caused by the resignation of Stanley Dudek; said appointment to terminate December 31, 1982 in accordance with law.

Adopted. 5 ayes; 1 nay, Legislator Swiercznski.

After the adoption of the above resolution, Legislator Billings asked for the privilege of the floor. Legislator Billings said that "the decision to put Mr. Zimmerman on the Board at this time was done by the Republican members of this Board, and by no one else. I think it was a misquotation in the paper."

Legislator Swiercznski said to Mr. Zimmerman, "I have nothing against you, you are a very talented person."

At this point, Mr. Zimmerman came forward, and was sworn in by Mrs. Lucille Bloom, Deputy County Clerk. The meeting recessed briefly at 7:40 p.m. and reconvened at 7:45 p.m.

RESOLUTION NO. 252

RESOLUTION APPOINTING TEMPORARY ACTING CHAIRMAN

RESOLVED, that Lyndon Billings, is hereby appointed Temporary Acting Chairman of the Orleans County Legislature to fill the vacancy created by the appointment of Arthur B. Eddy to the position of Permanent Chairman of the Legislature; term to expire December 31, 1982.

Adopted. 6 ayes; 1 abstention, Legislator Billings.

The Clerk presented the following petitions and communications:

A letter from the Albion Area Chamber of Commerce Board of Directors re a resolution in support of Orleans County Tourism Booklet and a resolution from the General Meeting of the Albion Chamber of Commerce to join the Medina Chamber of Commerce in applying for state funds for the Orleans County Tourism Booklet.

A letter from Supervisor Ken Schaal, Town of Shelby with reference to the possibility of the Town taking over the roadside mowing of County highways; also the possibility of the County assuming the responsibility of assessing property in the County.

The Standing Committees gave their reports as follows: Legislator Berger reported he had attended a Soil & Water Meeting. Part of the program was to visit Letchworth State Park to look at the bridges and see how they were constructed. They also visited a CCC Soil Erosion Project, that was put into effect over 50 years ago, and was being maintained by the farmers, noting that this would be an example for the farmers of this area to follow. He felt it was a very worthwhile meeting. Legislator Berger had also met with CATS Transportation, and said that everything is settled as far as prices are concerned. He said the other van equipped to handle wheelchairs would be put in use shortly, and another driver would be hired.

Legislator Cook reported that there had been a Highway Committee meeting last week, and that he hoped to have a final report ready by the first meeting in September. He said there were two towns, Barre and Shelby, who were willing to consider taking over some of the County's responsibility. He will be meeting with the Highway Superintendents and Supervisors from these two towns to discuss possible solutions.

Legislator Munger reported that he had attended the regular meetings. He read a portion of a letter received from Spencer-Fitts with reference to County-wide assessing and noted that the only way to have county-wide assessing is to change the County charter.

Legislator Swiercznski said he had received calls about the possibility of jobs being lost in connection with the possible take-over of County highways by Town Highway Departments. Legislator Cook said that at the present time only two out of ten towns had expressed an interest in taking over County highways, and at the present time, nothing definite had been decided upon. Legislator Cook also said that the Committee was working on a record keeping system to be used to keep track of costs for equipment, parts replacement and the number of hours required to do certain jobs.

Mr. Dudek reported that he had met with Legislator Swiercznski and discussed the Leave of Absence request received from an LPN in the Health Department. They had decided to allow the time off that was requested, provided that the nurse work 30 hours per week and use personal leave time, in order to go to school.

The Chief Administrative Officer also reported that the jail roof was being repaired at a savings of approximately \$1000.00. This was done by purchasing the materials locally. Mr. Dudek also reported on various projects he was working on for the Legislature.

COUNTY OF ORLEANS
LOCAL LAW NO. 3 OF 1982

A Local Law Providing for a Nine Member Legislature Elected from Nine Separate Legislative Districts. Be it enacted by the Legislature of the County of Orleans as follows:

SECTION 1-LEGISLATIVE INTENT. It is the intention of the Orleans County Legislature by this Local Law to submit to the Electorate of Orleans County some principal elements of a plan of apportionment for the County. The principal elements of the plan covered by this law are the number of legislators and the number of districts both of which are proposed by this local law to be nine in number.

Therefore, the use of multiple member or floterial districts would be eliminated as a permissible element of an Orleans County apportionment plan. The adoption of this Local Law would bring the County a step closer to a permanent plan which would meet the constitutional requirements established by the Supreme Court of the United States and the Court of Appeals of the State of New York. It is further intended that the adoption of this law will bring the County a step toward satisfying various court orders directing the County to adopt a permanent plan of apportionment utilizing the most current 1980 decennial census data.

SECTION 2-GOVERNING BODY. The governing body of the County of Orleans shall be the County Legislature which, except as otherwise provided in this act, shall have and exercise all of the powers and duties of the County together with all of the powers and duties which are now, or hereafter may be conferred or imposed on a governing body of a County. Whenever a reference is made to the Board of Supervisors in any existing local law, resolution or ordinance, or other action, or in any statute, rule, regulation or otherwise of the State of New York, it shall be deemed to mean the Orleans County Legislature.

SECTION 3-COUNTY LEGISLATURE.

A. The County Legislature shall consist of nine (9) persons to be known as County Legislators.

B. There shall be nine (9) separate legislative districts in the County. There shall not be any at large, multiple member or floterial districts.

C. Each County Legislator shall reside in and be elected from a separate legislative district.

D. The nine-member legislature proposed by this local law shall be elected in the general election of 1983 and shall first take office January 1, 1984.

E. The nine separate legislative districts shall be set up and adopted as a local law in sufficient time to enable the timely nomination and election of candidates for the general election of 1983. Such local law setting up the nine districts shall be adopted subject to referendum on petition in accordance with the Municipal Home Rule Law § 24 (2) (j). In the event such local law setting up the nine districts is not finally adopted in sufficient time to enable the timely nomination and election of candidates in 1983, or if a petition protesting against such local law be filed requesting a referendum then the configuration of the nine districts shall be determined by the Supreme Court of New York retaining jurisdiction of the reapportionment case against the County entitled Harradine et al. vs. Orleans County Legislature.

F. The term of office of all county legislators shall be two (2) years, which term of office shall begin on the first day of January next following their election.

G. The qualifications of a county legislator shall be as provided for in the New York State Election and Public Officers Law and such other provisions of the New York Constitution and State Law and Orleans County Local Law as may be applicable.

SECTION 4-VACANCIES. Vacancies in the Office of County Legislator shall be filled in accordance with Orleans County Local Law No. 2 of 1980. A vacancy shall be deemed to exist in the office of any county legislator who does not reside in the district from which he was elected.

SECTION 6-SEPARABILITY. If any clause, sentence, paragraph or section of this Local Law shall be adjudged by any court of competent jurisdiction to be invalid, such adjudication shall not effect, impair or invalidate the remainder thereof, but shall be confined in its operation to the clause, sentence, paragraph or section thereof directly involved in the proceedings in which such adjudication shall have been rendered.

SECTION 7-REFERENDUM. This local law shall take effect after its adoption and after approval of the affirmative vote of a majority of the qualified voters of the County of Orleans voting on a proposition for its approval at the same election on November 2, 1982. If any other reapportionment local law is submitted to the electors of the County of Orleans simultaneously with this local law, then the local law which receives the majority vote and which also has the greater number of affirmative votes in the county at large shall be deemed to have been adopted.

The purpose and effect of this Local Law is to bring the County a step closer to a permanent Legislature. The Local Law would provide for reapportionment of the County as required by the U. S. Supreme Court establishing the One Man One Vote Rule.

The County Legislature would be increased from its current seven members to nine members. Each of the nine legislators would be elected from a separate legislative district. If this law is approved, the County will be divided into nine areas each comprising a legislative district from which a legislator would be nominated and elected in November of 1983. The design of the nine districts would be done by the Legislature by Local Law in accordance with the Municipal Home Rule Law. If the Legislature does not finally adopt and implement the law in time for the nomination of candidates in 1983 then the Supreme Court will divide the County into nine areas for that election.

All Legislators would hold office for two (2) years. Vacancies would be filled by the Legislature.

RESOLUTION ADOPTING CONRAIL POSITION PAPER

WHEREAS, Orleans County is concerned with recent actions of CONRAIL and the operation of its rail system within the County, and

WHEREAS, the Orleans County Office of Planning and Development has developed a Position Paper on the need for new or remedial actions in legislation affecting CONRAIL,

NOW, THEREFORE, BE IT RESOLVED that this Legislature, on behalf of Orleans County, does hereby adopt and endorse the Position Paper prepared by the Orleans County Department of Planning and Development on the need for new or remedial actions for legislation affecting CONRAIL, and be it

FURTHER RESOLVED, that a copy of the resolution, together with the Position Paper be forwarded to our federal and state representatives, and the Chairmen of Genesee, Monroe and Niagara Counties who are also, or may be affected by CONRAIL actions.

Unanimously adopted.

POSITION PAPER
ON THE NEED FOR NEW OR REMEDIAL ACTIONS
IN LEGISLATION AFFECTING CONRAIL

The purpose of this position paper is to express to Federal and State representatives and agencies what we feel is conduct by the Consolidated Rail Corporation (CONRAIL) that is not in the public interest. Through the acceptance of public subsidy and aide, CONRAIL has an obligation to respond to public concerns, particularly when those concerns are based upon the line's future viability.

CONRAIL is decreasing the utility and value of the Falls Road through its removal of passing track switches and electronic signaling.

If this action was merely a cost cutting move by CONRAIL accomplished by a firm commitment to the line's future, Orleans County's objections would be minimal. However, under the Staggers Act, CONRAIL cannot make a firm commitment. Therefore, the actions by CONRAIL to remove valuable assets of the line jeopardize the future of the line itself. The ability to negotiate a controlled transfer of the line or its sale, should it become necessary, are lessened as an investment in switches would be necessary by the acquiring company.

CONRAIL has expressed that it has no interest in selling the Falls Road. However, in the absence of a firm long term commitment to service on the full 60 mile length, the necessary business and investments confidence to expand or locate along the Falls Road is lost. Also, the opportunity for a sale of the line is blocked.

In the case of the Southern Tier mainline, CONRAIL was cited in court with violating contractual agreements to maintain reliable service. CONRAIL has also obstructed attempts by the State and the Pittsburgh and Lake Erie Railroad to purchase the line.

CONRAIL'S president has pledged to move the company in a "core" system operation as its means to be profitable by 1984 under the Staggers Act. CONRAIL may get out of the branch line business in the process.

The profits in railroading are made on mainline service. Branch line service is, in most cases, a money losing proposition. The Staggers Act has provided the means for CONRAIL to abandon other mainlines such as the Falls Road and Southern Tier route, without ever filing for "legal" abandonment. This occurs by taking lines out of service, downgrading service, and obstructing the sale of branch lines to competing railroads who could operate them as competing mainlines.

CONRAIL could come out of "rail reorganization" in the position of possessing an east-west monopoly in New York State.

CONRAIL'S downgrading of the Falls Road to a branch line status and its violations of contracts to operate the Southern Tier route in a mainline status means that CONRAIL possesses the only mainline east-west route. This would not necessarily be bad (the New York Central operated this way) if firm commitments to service on the Falls Road and Southern Tier routes could be provided. However, using CONRAIL'S "core" system philosophy, CONRAIL seems content to directly or indirectly be promoting branch line service being provided by government backed short line railines.

The Rail Reorganization Act, in addition to creating and aiding CONRAIL, was supposed to encourage competition. Competition is possible in New York State on east-west routes but CONRAIL is obstructing it.

Several profitable railroads including the Norfolk and Southern (including the Delaware and Hudson), the Pittsburgh and Lake Erie, and The Chessie System are competing in New York State with north-south mainline service. Their efforts to compete with CONRAIL on east-west route has been blocked by CONRAIL. Again, this is not necessarily wrong. However, when CONRAIL obstructs competition and yet fails to provide adequate service, the public interest is not served.

The public interest and the public investment is being abused by CONRAIL through the Staggers Act.

CONRAIL facilities have been directly aided by the State Rail Bond Act. In Orleans County, certain grade crossing on the Falls Road were upgraded using funds from the Rail Bond Issue. The State Department of Transportation is currently spending about three million taxpayer dollars on railroad overpasses and culverts for a Falls Road railline that could be abandoned, under the Staggers Act, before those projects are even completed. Yet, CONRAIL feels no obligation to maintain a similar "investment" in "its" facility which is being benefited by public dollars. (In the Southern Tier, seventy million dollars in taxpayer funds have aided that route which CONRAIL has downgraded.)

In Chapter 11 Bankruptcy cases, a court appointed trustee system is used to supervise the operation of the firm. Although CONRAIL was created under a similar organization, there is no requirement, to our knowledge, that involves approval of measures contemplated by CONRAIL to insure that they contribute to both restored profitability and public interest.

If such a system existed, the dismantling of a corporate asset, absent sale, could have been questioned as to whether the public interest has been served.

ACTIONS

Orleans County has neither the in-house expertise nor the staffing capabilities to be intimately familiar with the full affects and limits of the Rail Reorganization Act, the Staggers Act, and State Statutes. However, based upon the factors and reasons outlined above, it seems that inadequacies exist in our laws and abilities to monitor our changing railroad environment. It also appears that measures originally taken to assist CONRAIL in restoring a viable northeastern rail network with a presumption that the general public good would be served have been abused by CONRAIL. With these thoughts in mind, it is requested that our representatives at both the Federal and State level as well as Federal and State Agencies examine laws, rules, procedures, regulation or the lack of them in the following areas:

1. Any contemplated action by CONRAIL that would have the effect of reducing a rail lines physical condition or physical status should be required to document the request based upon need and that the essential service provided by the line would not be jeopardized over the short term future (e.g., 7 yrs.). This would review actions not covered under separate legal due process actions such as filing for abandonment.

2. If not provided by federal or state law, an economic impact assessment of the area affected by a significant rail downgrading should be required. This requirement could be fulfilled by the filing of a legal notice and comment period with ruling by an administrative law system.

3. A better system of accountability to the local public interest should be entered into the Federal and State Law. This would enable actions such as poor service, taking lines out of service, removal of equipment, etc., to be taken into account as factors that may have indirectly prompted and expedited filing for abandonments by chasing traffic off rail lines.

4. That the law states that if public bodies seek to facilitate a sale of a CONRAIL line to another rail company for reasons such as those listed in No. 3 above, that CONRAIL be required to negotiate in good faith.

5. That the powers of eminent domain be extended to public bodies and public benefit corporations to acquire CONRAIL lines on behalf of private firms if CONRAIL does not negotiate in good faith.

6. That public intervention, by means of legal recourse or other means be allowed when evidence is presented that CONRAIL is obstructing competition while at the same time failing to provide acceptable levels of service.

RESOLUTION NO. 282

Seconded by Legislator Munger.

RESOLUTION PETITIONING FOR STATE LEGISLATION FOR SMALL CITIES GRANT PROGRAM

WHEREAS, the U. S. Department of Housing and Urban Development's Community Development Block Grant (CDBG) Small Cities Program provides grant funds for use for such worthwhile activities as economic development, community facilities and housing in towns and villages of under 50,000 in population and in counties such as Orleans County, and

WHEREAS, the existing Federal Small Cities CDBG Program has not equitably met the needs of many rural communities and counties and small cities because of its bureaucratic application complexities, its means of selecting communities and distributing funds, and Federal agency bias toward particular activities, and

WHEREAS, the Federal government has amended the U. S. Department of Housing and Urban Development Program to allow States, on an optional basis, to administer the Small Cities CDBG Program, and

WHEREAS, State administration of the Program should be supported if funds are distributed on an entitlement basis to eligible counties such as Orleans County based upon an established needs formula which considers a county's housing, employment and economic distress factors, and

WHEREAS, such an entitlement system would guarantee that each eligible county would receive funding under the program whereas, at present, under the Federal competitive system, only some counties can qualify for Small Cities CDBG funding, and

WHEREAS, there are sufficient statewide allocations in New York State for the coming years to allow the entitlement system to work effectively, and

WHEREAS, the Orleans County Planning Board, after due consideration, has requested this Legislature to petition the State for appropriate legislation, now, therefore, be it

RESOLVED, that the Orleans County Legislature endorses the concept for New York State administration of the Small Cities CDBG Program provided: 1) that each eligible County is insured an entitlement; 2) that bureaucratic complexities and administrative burdens are reduced; 3) that the eligible counties and communities of New York State are allowed a greater degree of decision-making power in line with the New Federalism concept; and 4) that the State takeover will promote a local system which responds to local needs, and be it further

RESOLVED, that the Orleans County Legislature hereby petitions the State Legislature and Governor's Office to consider enacting legislation providing for such a State takeover of the Small Cities CDBG Program based on the foregoing concept resulting in a direct non-competitive entitlement of funds to eligible counties, and be it

FURTHER RESOLVED, that a certified copy of this resolution be forwarded to Governor Carey, Assembly Speaker Fink, Senate Leader Anderson, Assemblyman Hawley, and Senator Daly.

Unanimously adopted.

After the adoption of the last two resolutions, Legislator Billings commended the Planning Department for getting the material together in time for the evening meeting, so that the resolutions could be presented and voted upon.

In referring back to the Highway Steering Committee Report, Legislator Cook said that it is not conclusive as yet. One thing that had been decided upon was to try to set up some kind of work order system - time study system to determine the costs of various jobs in the Highway Department. Once this is done, the Committee can go back and take another look at the Study. Legislator Billings commended Mr. Cook for all the work he had put in on this project.

Motion by Legislator Swiercznski, seconded by Legislator Cook, to adjourn the meeting. Motion carried.

Meeting adjourned at 8:08 p.m.

LEGISLATURE MEETING
September 15, 1982

The meeting was called to order by Chairman Eddy at 7:30 p.m., after which he expressed thanks to the Town of Gaines for the use of their Town Hall.

After the pledge to the flag, the Deputy Clerk called the roll and all legislators were present.

The following reports were given on standing committees: Legislator Billings reported that he had attended the usual monthly meetings.

Legislator Cook reported that the Highway Study has been partially completed to date.

Legislator Berger reported that he has attended monthly meetings with Towns and Villages and Advisory Boards. He reported on attending a meeting regarding a County brochure, which is all set and running. Hopefully the brochure will be ready in early Spring.

Legislator Munger reported that the Community Colleges Committee has been re-activated, and has had one meeting. There will be another meeting on Tuesday.

Legislator Zimmerman reported that the Legislature will be holding a meeting Thursday night, September 16 at 7:30 at the Albion Middle School auditorium regarding a briefing of County affairs.

Legislator Swiercznski reported that he had attended a meeting this past week with Mental Health, regarding the budget for the coming year. He said the meeting went very well. Legislator Swiercznski also mentioned the meeting to be held at the Middle School auditorium on the evening of September 16, and hopes everyone has a chance to attend.

The Deputy Clerk read the following communications: letter to Chairman Eddy from Senator Daniel Moynihan expressing his thanks for a copy of a letter written to David L. Wilson, division Superintendent of CONRAIL.

A copy of a letter written to Robert Golden, Probation Director from William J. Murphy, NACO President, appointing Mr. Golden to the NACO Criminal Justice and Public Safety Policy Steering Committee.

A memo to State and local elected officials from Richard S. Williamson, Assistant to the President for Intergovernmental Affairs, regarding a Progress Report on Regulatory Relief.

Privilege of the floor was granted to Mr. Francis Powley for presentation of the Ridgeway Agricultural District. Sally Hodges was also present and spoke on the Ag District. Chairman Eddy requested that Mrs. Hodges outline the steps that will now take place, which she did.

Chairman Eddy requested a motion to waive the Rules of Procedure for the purpose of adding a resolution to the agenda regarding the signing of an addendum to the 1981-82 Contract between the County of Orleans and County Employees Unit Orleans County Local #837, also to authorizing the signing of the letter of intent regarding the same contract. Legislator Billings made the motion, which was seconded by Legislator Cook.

During the open discussion portion of the meeting, there was discussion regarding the Farmer's Tour. Legislator Billings said that anyone that was not able to attend missed a good day. He said the tour really provided an awareness of agriculture in our county. Legislator Zimmerman thought the day was very well planned. Chairman Eddy also spoke highly of the Tour.

The following resolutions were presented:

Legislator Berger presented a resolution regarding the awarding of the bid for the Fire Alarm Control Panel for the County Home and Infirmary. After Legislator Munger seconded the resolution, there was discussion regarding whether or not the firm would be doing the installation, or if it would be done by the County Buildings & Grounds Department. Legislator Berger felt the installation should be done by the manufacturer, in case any problem arises. Mr. Dudek said that none of the manufacturers bid on the installation. This will be discussed at the October 7 Conference Session. The following resolutions were passed following this discussion:

RESOLUTION AMENDING PERSONNEL POLICIES

RESOLVED, that this Legislature does hereby amend the Personnel Policies and Procedures adopted August 18, 1982 by Resolution No. 257, as follows:

Under EDUCATION ASSISTANCE

Orleans County will reimburse its employees for the cost of tuition for attending educational courses providing funds are available.

Only full-time permanent employees, after completion of twelve (12) months service, are eligible for County education assistance. Probationary, temporary, and provisional employees will be eligible only if course attendance by them is required by a federal or state funded program in which the County is participating.

Reimbursement will be for 50% of tuition and fees for courses directly related to current job responsibilities and 25% for courses related to career goals within county service.

- A. Courses must be for college credit.
- B. Preference will be given to courses directly related to current job responsibility.
- C. Only one (1) course per employee will be reimbursed unless all funds are not used.

Maximum County authorization shall not exceed a total of \$1500 per fiscal year or \$750 per semester. Maximum amount of reimbursement paid to any employee not to exceed \$150.00 per fiscal year, with payments to be made from departmental appropriations.

Employee is responsible for completing and submitting proper form in duplicate to the Department Head. A statement of career goals must be completed. Final approval for reimbursement must be obtained from the Personnel Officer before starting any course.

Upon completion of approved activity, employee must submit a standard voucher with proof of satisfactory course completion and original receipt substantiating that payment of total cost was made.

No payment will be made unless documents described above are submitted.

Under WORKER'S COMPENSATION

As an employee of Orleans County, you are covered by Worker's Compensation which provides compensation under certain conditions for injury or diseases that are sustained as a direct result of performing your job.

Accidents occasionally happen. While work related injuries are infrequent and most often are minor, the potential for more serious injury cannot be totally eliminated. The proper course of action for an injury during working hours necessarily depends on its type and severity. For any more serious injury the first step is always to get medical attention/treatment as quickly as possible. For more minor injury or accident the supervisor should first be contacted (circumstances permitting), then first aid or medical treatment secured.

Every job related injury must be reported in writing to the department head or his designee at the earliest possible time that circumstances permit. Prompt reporting protects you!

As soon as a job related injury is reported (becomes known to) the department head or his designee the department is required by law to immediately complete and forward a Workmen's Compensation Board standard C-2 form (EMPLOYER'S REPORT OF INJURY). The form includes the necessary personal and earnings data for the employee, the nature of the injury and the time, date and pertinent details of its occurrence.

Completion of the C-2 establishes that an injury has been reported/treated, and if time away from the job becomes necessary it enables the insurance carrier to start payment to the employee promptly.

Under present regulations no Workmen's Compensation benefits are paid for the first five normally scheduled working days after an injury is incurred.

If injury results in loss of time from work and/or possible residual impairment, the Workmen's Compensation Board makes a determination as to eligibility for and amount of benefits to cover medical expense, loss of wages, etc.

Unanimously adopted.

The reports from Standing Committees were as follows: Legislators Billings, Cook, Zimmerman, and Swiercznski reported that they had attended the usual monthly meetings. Legislator Munger said that he had attended the usual meetings, and went on to explain to those in attendance that the At Risk Program is run through the Youth Board, and involves counseling students at school with parental approval. Legislator Berger said he had attended the regular monthly meetings, and had also attended a Magistrates' Meeting, which he found very interesting.

During the open discussion portion of the meeting, Legislator Zimmerman explained that the items which appear on the agenda had been discussed at the conference session. Legislator Cook noted that the conference sessions were open to the general public, just as the regular Legislature meetings.

With reference to the County Budget for 1983, Chairman Eddy explained that with the requests from the department heads for their vital needs, and the declining revenues in the County, that the tax levy will be the largest that the County has had in several years. He said that the Ways & Means Committee does have a process whereby each department head discusses his budget with the Committee, and tries to cut down on his or her requests.

The question was asked if there was some way to cut down on the amount of salt used on the highways in the County - this gentleman felt there was too much salt being used. Legislator Cook said the specific roads would have to be known, as three areas were being dealt with - town, county and state roads. Mr. Dudek noted that the County does contract with the Towns to do sanding and salting of roads. Legislator Cook noted that the County has no control over town highway departments; that the guidelines the County works under are derived from the State. After the above resolution was introduced and seconded, there was discussion: Mr. Dudek explained, that after comparing the cost of 12 or 13 items purchased locally, with the cost of the same items on the bulk bid, the County will realize a 66 percent savings. Chairman Eddy noted that bulk bidding was the "best way to go". Legislator Swiercznski disagreed, commenting that business should be kept in Orleans County, and moved to table the resolution. Legislator Swiercznski also made mention of the fact that the bid for the Proceedings for the Legislature was awarded to Remley and Company, who also employ Mr. Eddy. Mr. Eddy explained that Remley and Company could not exist if it depended on Orleans County for all its business. He noted that there are a number of businesses that have to go out of the County to receive business. Remley and Company bids on a number of printing jobs; ie. County of Monroe, Genesee County, as well as from the state of Kentucky. Mr. Eddy said he felt that a direct dispersion had been made on his character and he wanted to speak to it. He said that his relationship with Remley and Company was covered by the Ethics Committee a number of years ago and it was cleared by that Committee for the Company to bid. Apparently, there were no other bidders. At this point Legislator Billings moved to call the question, whereupon vote was taken and the resolution adopted.

Legislator Swiercznski reported he had attended the usual monthly meetings. He referred to the appointment of Legislator Zimmerman, and said that he felt Mr. Zimmerman should resign as soon as possible, so that Mr. Bennett could take his place and be able to work on the budget. Chairman Eddy said he felt that the subject Mr. Swiercznski brought up should be for Mr. Zimmerman to decide. Mr. Eddy also explained that the County Attorney was in New York City for a bond signing, and noted that the County had received an "A" bond rating, which spoke well for the fiscal management of the County.

Legislator Billings said that interviews are being conducted for the Assistant Planner position. Also that the IDA had interviewed several people and they are in the process of making a recommendation. In reference to the

This will be essential if the State does not adopt a state wide program itself. Legislator Swiercznski felt there ought to be a regular timetable for this project. The County Attorney explained that besides putting together the proposal and resolution, the technical side of the project had to be considered - the actual administration of the project, leasing lines, this type of thing.

Legislator Munger made the suggestion that a letter should be written to the Genesee Finger Lakes Regional Planning Council with reference to the up-coming seminar on Community Colleges, suggesting that the college officials be absent during part of the discussion. The other members of the Legislature agreed that this should be done.

The Standing Committees gave their reports as follows:

Legislators Cook, Munger, Zimmerman, Billings and Swiercznski reported that they had attended their usual monthly meetings for their various departments.

Legislator Berger reported that he had attended the Lake Shore Meeting and noted that the three towns concerned did not have representatives from their Boards at the meeting. He said a great deal of information was given out, and that the State hopes each of the Counties will be doing something. It was felt that the State should give some direction to the project.

During the open discussion portion of the meeting, Legislator Swiercznski read from a newspaper article with reference to Steuben County's handling of the physically handicapped children. He felt this county should back them in some way in their effort to have tuition and transportation charges for physically handicapped children paid for entirely by the State.

RESOLUTION ENDORSING PROCEDURE FOR FINES COLLECTED FOR STOP DWI PROGRAM TO BE PAID DIRECTLY TO COUNTIES ENTITLED TO RECEIVE THEM

WHEREAS, under present law and administrative procedures STOP DWI fines collected by County and City Courts are remitted directly to the counties entitled to receive them; and

WHEREAS, experience to date suggests the above procedures work smoothly and effectively, and provide an adequate audit trail from defendant to county treasury; and

WHEREAS, to the contrary, STOP DWI fines collected in the justice courts are remitted to the Justice Court Fund, which sets aside a portion thereof for potential fine refunds payable under Section 521 of the Vehicle and Traffic Law, and then remits aggregate payments of the remainder to counties on a quarterly basis; and

NOW, THEREFORE, BE IT RESOLVED, that the Orleans County Legislature hereby endorsed a procedure whereby fines collected in the Justice Courts pursuant to the STOP DWI Program be paid directly to the counties entitled to receive them, in the same manner as the County and City Courts presently handle such fines; and also hereby endorses legislation or revision of administrative regulation designed to effect such procedures.

WHEREAS, such conditional license and fine refund were conceived as incentives to the defendant to complete the program successfully; and

WHEREAS, all evidence available to us suggests that the conditional license is the principal incentive operating upon the defendant, and the fine refund is of secondary importance at best; and

WHEREAS, additional STOP-DWI revenues to counties generated by elimination of the fine refund will be put to excellent use by counties in further strengthened anti-DWI programs;

WHEREAS, current law requires formal judicial notice to be taken of the admissibility of BAC evidence gathered by new techniques; and

WHEREAS, such process is cumbersome and delays the introduction of new technology;

NOW, THEREFORE, BE IT RESOLVED, that the Orleans County Legislature endorses proposed amendments to Section 1195 (9) of the Vehicle and Traffic Law whose purpose it is to eliminate formal judicial notice and replace this lengthy procedure with an administrative substitute so as to speed the introduction of new technology.

**ORLEANS COUNTY
BUDGET**

For the year 1983

Mary B. Basinait
Budget Officer

December 2, 1982

BUDGET MESSAGE 1983

TO THE HONORABLE MEMBERS OF THE ORLEANS COUNTY LEGISLATURE
AND TAXPAYERS OF ORLEANS COUNTY

Submitted herewith, for your consideration, is the Proposed Financial Plan for the County of Orleans for the 1983 fiscal year:

TOTAL APPROPRIATIONS (Excluding Interfund)	\$ 18,125,073
LESS: Estimated Revenues (Ex. I.F.)	\$ 14,442,164
LESS: Cash Surplus	\$ 600,000
PLUS: Allowance for Uncollectable Taxes & Deferred Tax Revenue	\$ 41,000
AMOUNT TO BE RAISED BY REAL PROPERTY TAXES	\$ 3,123,909

This proposed budget represents an increase (\$280,934) in the amount to be raised by real property tax from the 1982 levy. This increase is attributable to the higher costs of supplies and materials, increased costs of Home Relief, Medicaid, Education for Handicapped Children, salary increases, and unanticipated radio equipment costs for the Sheriff's department. Our investment program and the Sales Tax Revenues (which have remained stable) are proving to be a major source of County revenue, but due to the present trend toward lower interest rates, we have predicted less revenue for interest earnings in 1983. Debt Service in the 1983 plan reflects an increase for all County purposes of \$76,384. The County Home and Infirmary Serial bonds for the building will be paid off in 1983, and we have recently completed a fifteen year bond sale for the Home and Infirmary Roof and the County Office Complex at an annual rate of 8.6%.

We have continued to budget for Equipment Reserve accounts for the Sheriff's Dept. Dog Control (\$4,000) and the Highway Department (\$25,000).

With this budget, we are striving to contain the 1983 property tax rate, while continuing to sustain the service levels for those in need in our community. This has resulted in some very difficult decisions for the Budget and Finance Committees, but we feel that with the economic trend and local unemployment we were compelled to present a "no frills" set of budget recommendations. It is our sincere hope that by dealing with our difficulties in a forth right manner, the economic well being of our community will be assured.

Respectfully submitted,

MARY B. BASINAIT
Budget Director

Meeting adjourned at 9:00 p.m.

LEGISLATURE MEETING
December 30, 1982

The meeting was called to order by the Chairman at 2:30 p.m. After the pledge to the flag, the Clerk called the roll, and all Legislators were present.

The privilege of the floor was given to Dr. Brian McBride, Director of the Health Systems Agency of Western New York. Dr. McBride presented printed matter on the background of the Health Systems Agency to the Legislators. Dr. McBride referred to the resolution which had been tabled at the previous meeting, and authorized payment to the Agency. He explained that the HSA is a continuation of the planning program and operates under the jurisdiction of the federal and state governments. It provides planning services for the eight Western New York member counties. The Agency also reviews applications that come in from health care delivery providers; anything that has to do with change in key health care systems. He noted that Orleans County had become a member in 1975, after transferring from the Finger Lakes HSA. Dr. McBride went over the record of contributions made by the member counties, and told the Legislature that federal law requires that membership on the HSA be represented on a population basis. A brief question and answer period followed Dr. McBride's presentation.

The Clerk presented the following communications:

A letter from the Carlton Town Board recommending the appointment of Donald DeMallie, Waterport, New York to the Orleans County Youth Board;

A request for a transfer of funds in the Department of Social Services;

A letter from Assemblyman Hawley acknowledging receipt of resolutions 375, 376 and 377; a letter from the Ridgeway Town Board opposing County-wide assessment;

A letter of resignation from David Baird as Social Services Attorney; A letter from Senator Moynihan acknowledging receipt of resolution on "live-in companions"; A letter from the Orleans County Republican Committee recommending the reappointment of Robert E. Batt to the position of Republican Election Commissioner;

A letter from the Shelby Town Board recommending the reappointment of John Fox to the County Planning Board; A letter from the Medina Village Board recommending the appointment of Howard Hibbard, Medina, New York, to the Youth Board, filling the unexpired term of Eugene Wanecski; A letter from the Orleans County Board of Health recommending the appointment of Roger Lamont, Albion, New York, to the Health Board, replacing Francis Kirby;

A letter from Livingston County Board of Supervisors enclosing a copy of their resolution authorizing the formation of service delivery area under the Job Training Partnership Act; two memos from HYSAC - one in reference to sales tax revenues from the sale of automotive fuel other than diesel fuel and the other in reference to payment of dues.

Report of Standing Committees: Legislator Cook reported he had attended the usual meetings. With reference to the Highway Survey Report, Mr. Cook said there would be recommendations made to the Legislature at a later date.

Legislator Berger reported he had attended the usual meetings, and then read from letters from the NYS DOT with reference to signing on the Parkway. He noted that apparently any problems with this situation, had apparently been solved, and now signs will be able to be erected on the Parkway. Mr. Berger also noted that he had received a note from the County Historian with reference to the County Clerk's Building. The building will be 100 years old in December of 1983. Legislator Berger felt that this should be looked into for the coming year, and perhaps an official resolution could be passed acknowledging the centennial of the building; some type of celebration could be held in December.

Legislator Munger reported that he had met with the Community College Committee and a meeting has been arranged to be held in Batavia on January 14th at 3:30 p.m. and Assemblyman Hawley is expected to be at the meeting. All the legislators were invited to attend the meeting. The committee will be going over the approval and disapproval of credit and non-credit courses.

Legislators Zimmerman, Billings and Swiercznski all reported their attendance at the usual monthly meetings.

Legislator Swiercznski made a motion to remove the following items from the agenda: 1) resolution upgrading two positions in Community Services and 2) resolution creating new position in Community Services - 100% funded, Mental Health Youth Worker; and to add to the agenda the following items: 1) resolution setting policy and authorizing payment of claims against the County, 2) resolution approving agreement between County and Rev. Lawrence A. Wager re County Home & Infirmary Chaplain, 3) resolution authorizing transfer of funds in Department of Social Services. This motion was seconded by Legislator Cook. Motion Carried.

The year 1982 was one of decision, relocation and improvement. The major accomplishment of the year was the decision by the voters of our county to make permanent our form of County Government. Finally, after many years of litigation, public debate and endless meetings of county officials as well as interested organizations, a seven-member legislature was adopted through Local Law and public referendum. The new form embraces a legislature with four district legislators and three at-large members. It requires that the three at-large legislators reside in the west, central and east areas of the county, respectively.

Our relocation involved the movement of all of the county's judicial offices into the Court House. The legislature moved to the second floor of the County Clerk Building which provided more space for the public attending legislative sessions as well as much needed office space for the Clerk and Chief Administrative Officer. The relocation of the County Treasurer and the Probation Department to the old "Legion Building" also provided needed space, as well as proximity to the Legislature and Public Safety agencies. At the county's West Avenue location, the Public Health Dept. and Community Services Dept. were relocated into the East wing of the Infirmary building. This put all health related agencies under one roof. As a result of these relocations, rental of space on Platt St. in the Petronio Building was terminated.

Organizational improvement was achieved by the legislature in adopting a committee-of-the-whole system for the discussion of issues and hearing of department and public positions. This took the form of

a full legislature conference session at 2:30 p.m. prior to each of the regular two monthly legislature meetings at 7:30 p.m. One member standing committees were appointed to provide close relationship with all operating departments. This system has proved to be very effective in keeping all members of the legislature well informed on issues they must consider.

Several improvements were made to county property during the year. These included a new roof surface for the jail, surfacing of the parking lot at the County Office Building and the installation of lightning rod, insulation, ventilators and an alarm system at the Infirmary. Nearly all of these improvements as well as the office moves which also included many building renovations were accomplished by our very able and expert Buildings & Grounds Department. They deserve much credit for doing this with skill and efficiency. Micro-film equipment was installed in Social Services to reduce requirements for file cabinets and office space.

Many of these improvements and savings were accomplished through the initiative and follow-through of the Chief Administrative Officer. This full-time attention to coordination of departmental effort and implementation of policy assures success in providing needed services efficiently. Two copiers were purchased resulting in a \$6,000 saving over leasing. Our phone system in the West Avenue buildings was changed from message rate to flat rate saving another \$6,000 per year. Another auto was purchased by Social Services to reduce mileage cost for use of private vehicles. Future improvements in the Sheriff Communication system and the Treasurer's office computer system were planned with the use of technical consultants to prepare

the best specifications for replacement equipment. More savings were assured the county through our bulk purchasing and contract improvement programs.

In the area of public policy, the following was accomplished:

1. Audit and Control approval for the Carlton Landing lease.
2. Two new Agricultural Districts in Shelby and Clarendon.
3. A Highway Steering Committee was appointed and worked to review Highway Services.
4. The Orleans County Personnel Manual was completed to assure uniform employee policy.
5. In house negotiations with the Sheriff's Union resulted in a two-year agreement.
6. Long term bonds for the County Office Building were approved at 6.8% rate.
7. Through an increased State grant, a full-time Deputy Sheriff was assigned to Court.
8. Our Youth-at-Risk program achieved marked success with a reduction of those youth determined to be Juvenile Delinquents.
9. A 1983 Budget was adopted with a 6.8% rate increase while surrounding counties averaged 29%.
10. The Personnel and Self-Insurance Departments were combined to provide better service at lower cost.

The year was filled with economic opportunity activity not only to meet the needs of our less fortunate citizens but with a determined effort to secure much needed private sector jobs. "Project Hire" continued to give our social service recipients an opportunity to work for local government and private agencies in return for their allowances. Our goal of crime prevention among the young has shown success by reduction of the number of court determined juvenile delinquents. Our County received National awards for the Youth-At-Risk, Youth-In-Government, and Project Hire programs.

Nineteen eighty-two saw a continuation of holding the second regular meeting of the warm months in the towns and villages in the county. This practice resulted in good citizen participation and enabled the legislature to meet in all of the towns and villages in the county. The legislature had a special public meeting devoted

to a services review prior to the budget process. In addition to this, all legislators attended many county board, agency, and committee meetings plus town and village board meetings throughout the year. This served as excellent opportunities to gain knowledge of special problems, listen to citizen opinion and become better informed in the performance of their duties for the public.

Although 1982 was a year of high unemployment with resulting slow growth in sales tax revenue and property values, the county did benefit from good interest income, high revenue from the rental of excess jail space, more utilization of welfare-work programs and price stability of food and petroleum products. Despite increasing costs of medicaid and slow State reimbursement payments, we continued to serve the public with efficiency and effectiveness by sound fiscal management.

With continued dedication, the members of the Legislature, in partnership with the Administrative Officer, Department Heads and employees, look forward to 1983 as a year of further improvement for the benefit of those we serve, the Citizens of Orleans County.

HOMEMAKER/PERSONAL CARE SERVICES - 35 persons received a total of 1,204 hours of service under our contract with Genesee County Homemaker Service, Inc. The Office evaluates clients requesting this service in order to assess need and authorize the level of service. Service ranged from 1 to 7 hours per week and is available primarily for active care, not companionship or monitoring while family members are out of the home. A total of \$2,177 of the \$7,211 contract came from client contributions.

CATS - Approximately 250 persons received a total of 4,042 mini bus rides under our contract with Community Action. Transportation was provided to go to medical appointments, shopping, Nutrifare sites, Office for Aging services, personal business, and jobs. In August and September all clients were evaluated by the Office to verify they were over age 60, determine they had transportation needs, and explain the contribution system. A total of \$3,394 of the \$25,400 contract came from client contributions.

LEGAL - Approximately 22 individuals received legal services under our contract with Oak Orchard Legal Services, Inc. Monthly programs are also presented to Senior Citizen groups explaining common legal problems.

NUTRIFARE AND MEALS ON WHEELS - Under our contract with the First Presbyterian Church of Albion, approximately 1,025 people received 28,405 congregate meals and approximately 162 people received 21,531 home delivered meals. All home delivered meals clients are assessed (usually by our Office) prior to service to assure they are homebound and in need of meals. Client contributions total approximately 30% of the Nutrifare budget and 50% of the home delivered meals budget.

OUTREACH CASEMANAGEMENT - Home visits are conducted by one full time outreach worker and a part time outreach assistant. 1,781 visits were made to approximately 455 persons this year. Visits are mainly confined to homebound persons and are made to assist in getting necessary services, filling out forms (such as Medicare, HEAP, tax exemptions, etc.) and providing support to persons who are frail or without families. Referrals usually come from Agencies, neighbors, or self.

INFORMATION & REFERRAL - Approximately 1,500 requests for information were answered this year. Questions covered a wide range from simple (what is Social Security's phone number) to complex (how can I get daily transportation to Strong for chemotherapy). When the problem is best solved by another Agency, a referral is made.

PROGRAM by C. W. Lattin, County Historian

The purpose of a County History Dept. is to collect and preserve historical materials, legends and facts. The historian works as liason for the State Historian to supervise, train and assist other municipal historians and encourage appointment of a local historian in each municipality. The historian prepares a report of significant occurrences in the county each year. He also speaks, teaches, photographs and writes on subjects of historical import, using various media to educate the public. This includes news media, historical events, historical markers and work shops. The county historian works toward the preservation of local architecture and encourages tourism. He works with educational institutions to develop more awareness of local history and gives input into organizing curriculum. This in general, sums up the reasons and need of a county history department.

Now to be more specific: as historian I have written fifty-two stories for the local papers in 1982 under the heading "Bethinking of Old Orleans". Innumerable tours of the Court House Square have been given to various groups including: the Landmark Society of Buffalo, Leroy Senior Citizens, Chemung Historical Society, Cornell Womens Club, Wheatland-Scottsville Historical Society, Rochester Elder Craftsmen, Girl Scouts, Holley Fourth Grade students and St. Paul's Church to name some of them.

As historian I spoke on local history to all the eleventh grade students in Albion High School last February and all the Fourth Grade students in Kendall last March. I've talked before other groups which include: Pittsford Garden Club, Medina Senior Citizens, Medina Catholic Daughters, Kendall Senior Citizens and nineteen student groups of various ages on local history through the museum.

In April and November I organized half-day workshops for our Town and Village historians. I encouraged the appointment of a Village Historian in Albion to a long-standing vacant post.

It was through the Department of History that information was discovered about a 19th Century Liberty Pole. A replica was erected at the Cobblestone Museum during 1982 which was my idea and special project for the year, complete with historic marker.

In April and October I attended three-day meetings of the N.Y.S. County Historians Association and was elected President of the group in October.

With local history now being emphasized in the Fourth Grade, I worked out an outline of local history study with the Albion Middle School Librarian.

With the aid of a Senior Citizen through the Office of the Aging, files in the history office have been kept up to date with various clippings taken from local papers. This assists us in helping researchers which has included students at various levels and genealogists.

The following summary appeared in my column during Jan. 1982.

Vol. IV

1982

No. 52

With the input of each town and village historian we have selectively compiled a few significant highlights which have occurred in Orleans County during 1982. Let's look back!

Albion Edith Anderson, town historian and Dr. Neil Johnson, village historian both point with pride to the completed micro-filming project of Albion newspapers from 1845 - 1980. Neil also points out the finished restoration work and updating of the Albion Middle School which kept the 1930's flavor of the building and was celebrated with a dramatic and musical production entitled "To Albion With Love". This and "Fantasia II", a Christmas musical program were produced by Kate Echaney and Donna Rodden. After several years in the process the Mt. Albion Cemetery Jilly pond was restored and after twenty-seven years as County Clerk, Francis Rumble will retire.

Barre One of the most significant accomplishments this year for Elba-Barre-Clarendon farmers was the digging of a ditch which will drain 3,000 acres of muckland. Accomplished under the "Oak Orchard Small Watershed Protection District", Helen Mathes, Barre Historian says it was more than twenty years coming about. Also a dramatic victory by county-wide vote came to Barre Supervisor Richard Bennett, as he was elected to the Orleans County Legislature. Along with this a permanent form of county government was selected.

Carlton Town Historian Betsy Hoffman notes that a two-part trout and salmon derby took place during two weeks in August and two weeks in October. During the last week of June anthropology students from the University of Buffalo spent five days digging in an unconfirmed Indian site near the Ontario Parkway bridge. She also felt the "Roosevelt Special" was an attraction at the Fair and that plans for the Seaway Trail were significant.

Clarendon Alan Isselhard, town historian feels one of Clarendon's highlights was the "Hands On Contest" for Volunteer Fire Companies sponsored by Duryea Motors which offered a \$500 prize. The only three companies to enter the contest were Fancher-Hulberton-Murray, Holley and Clarendon. FHM won but Clarendon earned over \$500 as part of the fun. He notes that Eastman Kodak is the top Orleans County employer and that two major issues still facing us are landfill and unemployment.

Gaines Deputy Historian Dee Robinson notes the importance of the newly established Cobblestone Resource Center at the Cobblestone Museum. The Cobblestone Society also erected a replica of a 19th Century Liberty Pole which was dedicated "To The People of Gaines" in recognition of the Bi-centennial of the American Eagle. Area farms in a cooperative venture have erected the enormous Lake Ridge Apple storage just west of Childs. The Town of Gaines set a precedent by appointing a deputy historian to assist Mr. J. H. Pratt.

Kendall Historian Kathy Scroger indicates that the Kendall school buildings have been revamped for energy purposes and that Kendall also has a new Post Office building which matches the Town Hall across the street. She also points with pride to the Kendall Championship Soccer Team which was undefeated in Class B, Section V of the Genesee Region. And it was during 1982 that Joseph P. Kirchgessner was charged and convicted of the murder of Ingrid Johnson whose body was retrieved from a Kendall pond.

Murray Historian Marcia DeFilippis was able to procure the bound issues of the Holley Standard 1878 - 1964, a vital resource. She notes the construction of a new bridge on Rt. 237 over the canal, a Rock Concert at Fancher in May, the institution of Cable TV, a new super market in Holley and another successful St. Rocco's Italian Festival. Also one of the most unusual events of 1982 was the Viking Ship "Huekmst" which passed through on the canal in June on its voyage to Norway.

Ridgeway The new railroad bridge at Knowlesville and a new waterline of approximately two miles in length on Rt. 63 are two important construction projects noted by Historian Evelyn Allen. Medina Historian Ceil White updated a village history for Medina's Sesquicentennial which drew throngs of people to well-organized activities. She also indicates that during 1982 Sacred Heart Church was rededicated, Medina Historical Museum was opened, Cable TV installed and Medina's first woman mayor Marcia Touhey took office.

Shelby Historian Alice Zacher feels the following are significant highlights for her township in the past year: Shelly Wilson is the N.Y.S. FFA President and Robin Boyle was selected Orleans County Miss Teenager. The Shelby Baptist Church started its own Christian School and the Planning Board OK'd an Agriculture District. The Job Corps located in Shelby was ranked as the best Job Corps in the United States. The Corps also has a new administration building. Shelby Fire Company has its first woman president and a new \$75,000 truck while East Shelby Fire Company had its mortgage burning.

Yates Virginia Cooper, historian, says that the canning company "Indian Summer" in Lyndonville has expanded with a cold storage for apples used in sauce and juice which in turn has extended the working season and employment. She also indicates that three historic markers have been erected in the township which mark the Tarbox House, First Settler and Lyndonville incorporation and founding of the Fire Company.

There was of course, much, much more. But this gives you a quick glimpse of what has happened in Orleans County during 1982.

PROGRAM

In FY '82, we experienced an approximate 44% decrease in program funds over our 1981 funding levels. This sizeable decrease in program funds came at the same time when local unemployment was on the rise. Due to the loss in funds, we lost five staff positions and the number of unemployed people we were able to serve was down, while the number seeking assistance went up in 1982.

Program performance wise, we had planned in 1982 to have a positive termination rate of 75% and an entered employment rate of 36%. In 1982, our actual performance rates were a little below planned levels. We had a 66% positive termination rate, of which 32% entered employment. It is interesting to note that 63 of the 82 individuals entered employment in private sector jobs. Possible reasons for low placement rates can be contributed to 3 factors: 1) a stagnant national economy which not only causes employers to cut back (layoffs), but which also causes uncertainties among employers in regard to expansion and makes new initiatives risky, 2) a local economy in which the increase of employment opportunities was minimal - unemployment averaged 10% for 1981 and 1982 (October to September), and 3) surrounding labor markets such as Niagara and Monroe - to which significant numbers of Orleans County residents commute for employment - showed significant increases in unemployment. Employment opportunities locally, statewide and nationally have really tightened up in the past year.

(OVER)

During FY '82, we operated Title IIABC, Title IV Y.E.T.P. (Youth Employment and Training Program), Title IV Y.C.C.I.P. (Youth Community Conservation Improvement Project), and Title IV S.Y.E.P. (Summer Youth Employment Program). We also had a small P.I.C. funded program, funded under Title VII.

During Fiscal Year 1982, the Federal Government was re-shaping a national employment and training policy because the CETA legislation was to expire on September 30, 1982. The President and both Houses of Congress felt strongly that there needed to be some type of program to aid the unemployed, the displaced worker and the unskilled. After a year of discussion, the Jobs Training Partnership Act was created to deal with these employment and training problems. This is, as the act depicts, a partnership between local and state governments and the private sector employer. Each has a unique responsibility and definite role. It is hoped that by working together and planning and sharing each other's resources, the complicated and very frustrating problems of the unemployed can be resolved. This new employment and training effort will officially get started on October 1, 1983.

New York State Division of Probation Reimbursement: \$95,509.95

PROGRAM

SERVICE RESPONSIBILITIES:

To provide Intake/Diversion¹, pre-sentence investigations², and Probation supervision services³, toward contributing to the system's handling crime problems in a safe, effective, humane and yet economical fashion.

- ¹ Intake/Diversion, where acceptable to the victim, and prudent, adjusts cases by counseling and negotiation between offender and victim, without Court action, generally in cases involving domestic violence, family fights and disputes, marital discord, separated spouses (non-support, custody, and child visitation), children committing crime, runaway and incorrigible youth, neighborhood disputes, minor crimes, and first offenses.
- ² Investigations attempt to give the Judge a factual picture and an emotional grasp of the human before him so that he can sentence in a manner best suited to the protection of society, the rehabilitation of the defendant and to deter others from committing crime.
- ³ Through understanding, concern, and discipline, the probation officer helps the client avoid further criminal activity and, when applicable, to become a more productive community member.

1982 Achievements:

Intake/Diversion -- We have serviced 587 cases at Intake/Diversion -- 77% were successfully screened from Court, at approximately ¼ cost of going through Court. Studies demonstrate that persons handled at this level are less apt to commit further crime, than those that go through the formal Court system.

Pre-Sentence Investigations -- We have done 248 pre-sentence investigations, aiding Courts to sentence with knowledge -- Courts agreed with our recommendations as to jail or no in 95.6% of cases.

Supervision -- We supervised, during 1982, 446 probationers at a comparative cost of \$49 per month for probation -vs- \$792 for the County Jail, \$1,607 for Attica, and \$4,750 per month at New York State Industrial School.

1982 Highlights:

1. Helped obtain and participated in two grant-funded programs that directly responded to major concerns of 1982 Public Safety Task Force Report; as a result:
 - a. Through "At Risk" Youth Program, Intake has dealt with 382 PINS children, many at an early intervention level. This coordinated project won the National Association of Counties award for County agencies - school projects.
 - b. Through Juvenile Alcoholism Program, 58 under 18-years-old Probation clients and their families received alcoholism counseling.
 Also, through efforts of Dean Holland ("At Risk" Coordinator), Stephen Didas, and Jeannette Riley, Probation Officers, developed excellent working relationships with 5 school districts. Coincidentally, juvenile delinquency intakes decreased by 33%, juvenile delinquent petitions by 62%, and we've utilized detention in only two cases (this last at considerable savings to the County as secure detention costs \$120 per day and non-secure costs \$70 - \$75 per day).
2. Diversion -- despite resistance from several quarters, we've developed a Diversion program (received 46 cases through 1982).
3. Stressed alternative punishments; through 1982:
 - a. Collected \$55,819 in restitution for crime victims; 75% increase over 1981.
 - b. Collected \$2,215 in fines, a 315% increase over 1981.
 - c. Recommended and supervised sentences: 26 Community Service, 13 Restrictive Probation, 3 Intermittent (weekends in jail), 16 Split (jail/Probation); and 11 combinations of the above, in addition to 503 regular Probation cases.
4. For more community safety we decided to emphasize Intake and supervision, with de-emphasis of pre-sentence investigations; pulled all staff, but one officer, off pre-sentence investigations. We've utilized a probation assistant, student interns, and a Project Hire person to do 248 pre-sentence investigations.
5. Domestic Violence -- despite losing the two officers most concerned with the "battered spouse" problem, staff is motivated to continue giving this area high priority. Further, we've added two additional volunteer "safe homes" as refuges for mothers and young children. We counseled 70 victims and 61 offenders.
6. Developed victim-defendant confrontation technique and utilized with good results.

Economies: Moved both Albion main and Medina sub-offices with minimal costs; furnished offices with used, but attractive, furniture and on-sale furnishings; in Medina, partitioned large room into 5 offices (utilizing Community Service-sentenced workers) for \$899.40. Purchased discontinued AT&T equipment for Medina office at 1/3 cost of New York Tel service. Despite \$3,000 in unanticipated additional expenses connected with the two moves (buying copier and phone equipment outright, etc) by careful juggling of personnel we've been able to remain within departmental budget. Nine volunteers have contributed 255 days of work.

Maintained high staff morale -- indicators: (1) 3.78 sick days/person; (2) staff longevity -

1982 Highlights (continued):

8.28 years/person; three staff returned after trying different jobs; (3) community involvement - staff serve on 11 private and 10 public advisory boards.

Enhanced county or county reputation: Coordinate Public Safety Advisory meetings, serve on Negotiation, Rules and Human Services Committees; NACo Criminal Justice Steering, National Migrant Health and State Criminal Justice Proposal Committees.

1983 Goals:

1. Alcohol counseling for 50 probationers (adults 18 and up).
2. For victims, institute Confessions of Judgment.
3. Increase alternative punishment sentences.
4. Training in and implementation of new County Personnel Policy and new State Rules.
5. Develop guidelines for sentence recommendations: jail, alternatives, including community service.
6. Encourage, by referrals, Alateen.
7. Develop criteria for Intake procedures for "At Risk" Youth Project.
8. Investigate more computerization and word processing.

Respectfully submitted,

Robert E. Golden, Director
Orleans County Probation Department

PROGRAM

The Orleans County Public Defender's Office consists of two part-time attorneys: the Public Defender and his Assistant Public Defender and a full-time secretary. These attorneys share responsibility for indigent defendants charged in 19 town and village courts. They also share the indigent County Court caseload (primarily felonies). Representation of these individuals can involve an appearance at arraignment, bail hearings, investigation of facts, a preliminary hearing, pre-trial or plea bargaining conferences, motions, trials, sentencing appeals and probation violations. The office also represents individuals in habeas corpus proceedings, parole hearings and probation revocation hearings.

Attached is a copy of report A and report B that we do for Albany and our office at the year's end.

Tax Map Sales \$ 630.50

PROGRAM

The update and review of values in process for a year and a half was implemented on the 1982 assessment rolls.

The Data Management System in use in the county was converted to the so-called "new" DMT by SDEA Local Services, with the cooperation of the assessors and this office.

Data was provided and application made to the State for Payment 3, and the County received \$35,044 from the State.

Regular work of keeping ownership records and tax maps current, supplying assistance and information to attorneys, surveyors, realtors, lending institutions, etc. continues to increase yearly, along with assistance to assessors in many different ways.

Processing contractor is KVS Inc. and tax mapping is done by Richard J. Roberts. Department personnel are: Avis H. Downey, Director of Real Property Tax Services, J. Rupert Kenny, Real Property Information Systems Coordinator, Frances Schoonover, Sr. Account Clerk-Typist, and Robert Keminski, Real Property Information Systems Technician.

Legislator Cook noted that the policy for making

appointments to various boards and advisory councils has been to have the recommending body, suggest two names to the Legislature, for each vacancy that occurs. He noted that many times it was very difficult for the Towns to find two people who would be willing to serve, and suggested that it might be a good idea to do away with this policy. Chairman Eddy suggested that this problem be discussed at the next Conference Session.

At this time, Legislator Bennett said "I would like to thank everyone for making me feel welcome, and I look forward to working together with you for the benefit of Orleans County".

Chairman Eddy said, "I am truly honored to serve as your Chairman - I feel humble in the confidence placed in me, and I hope in '83 we will continue to act as a team, sharing the burdens of office. One of the pleasures of office, is serving the County." Mr. Eddy went on to speak of many projects and programs carried out by the various departments within the County during 1982, and continued on by saying, "We look forward to '83 - it will be a fascinating year, a challenge. There is a great deal to be done."

Motion by Legislator Cook, seconded by Legislator Berger, to adjourn. Motion carried.

Meeting adjourned at 8:20 p.m.

The cut-off date to accept such advertisements will be February 15th.

Legislator Cook said he had attended the usual meetings. He had attended the STOP DWI quarterly meeting, and the program, in general, had been discussed, and everyone involved was satisfied with it. He said he will have a report on the number of accidents in the County - he noted that DWI arrests were up from last year.

At this point, Legislator Billings mentioned that Lakeside Park's opening date is after the first Fishing Derby, and the closing date is before the second Fishing Derby. SECTION 4 In the event that the Agency, in the course of its activities pursuant to this resolution, determines that an amendment and/or modification of this resolution would be in the best interests of the County and would better enable the County to provide economical, reliable, adequate electric power, the Agency may apply to the Orleans County Legislature for such amendment and/or modification.

SECTION 5 The method of furnishing such electric service once such system is established as aforesaid, consists of

(a) purchasing and/or acquiring low cost hydroelectric power and/or such other economical forms of adequate and reliable electricity as shall be available from the Power Authority of the State of New York, and/or other available sources as may be required to ensure power availability to all the Agency's customers,

Legislator Berger said he had attended the usual meetings and also had attended the annual meeting held by the Village of Medina, the Towns of Shelby and Ridgeway, and the school district. He said many concerns were discussed at this meeting. He noted that the County Brochure was progressing nicely and the committee was aiming for a publication date of approximately the 17th of the month.

Legislator Munger reported that he had attended the usual meetings, and introduced some of the members of the Junior Class from Holley Central School who were in attendance as part of the Youth-in-Government program; he also introduced their teacher Mr. Draper and Mr. Tirsch of the County Youth Bureau who had arranged for the class to attend the meeting.

Legislator Swiercznski had attended the regular meetings for the month.

The other possibility would be that someone from the building crew might be able to do the work.

With reference to the County Registry for scheduling events, Mr. Dudek said he had spoken with Fred Fladd about this to see if the Extension might be able to handle this project.

At this time, Chairman Eddy welcomed the members of the Junior Class from Holley Central School, noting that it was one of the larger delegations who have attended the Legislature meetings under the Youth-in-Government Program. The following resolutions were presented:

Legislator Cook said he believes this will be discussed for our County at the next Public Safety Advisory meeting.

Legislator Munger stated that the County Attorney has run across a problem with county owned properties. Tom Young said there does not seem to be anyone supervising the county owned properties, until such time as they are put up for auction. He recommended reducing the period of time between the time of county ownership and auction; also recommended more supervision of the

properties.

It was moved by Legislator Billings, seconded by Legislator Swiercznski to recess the meeting. Meeting recessed at 8:30 p.m.

RECESSED MEETING
Town Hall, Town of Murray
March 17, 1983

The March 17th meeting of the Orleans County Legislature was held in the Town Hall in the Town of Murray, and was called to order at 7:30 p.m. by the Chairman. After the pledge to the flag, the Clerk called the roll and all the Legislators were present.

Chairman Eddy introduced Mr. Dick Martin, councilman from the Town of Murray, who said "We are happy to have the Legislature meeting here tonight, and to have the Youth in Government class from Albion visiting in the Town of Murray." Mr. Martin also noted that on the 8th of April, the Town of Murray would be celebrating its 175th anniversary.

The Clerk presented the following communications and petitions:

Requests from the following people, to have their property included in the Barre Ag District: Albert C. Davis, Hugh G. Dudley, Herman and Maralee Hicks, Richard F. Miller, Angelo and Alfonso Vigneri, Charles and Mary Torrey, Harold Hazel and Everett Embt of H & E Farms, Edward J. Neal, Ruth B. Hill, Michael J. and Frances E. Muscarella, and Doris Bower.

A letter from the Director of Community Services recommending the reappointment of Dr. Satya Sahukar and Mrs. Dorothy Nassar to the Community Services Board.

A petition requesting the reinstatement of fair premium monies to the State budget. A resolution from the Soil and Water Conservation District Board requesting that the cuts to the 4-H Premium Program be restored.

A letter from Governor Cuomo's secretary acknowledging receipt of Resolution No. 94-383 re the Consolidated Highway Improvement Program. A letter from the Supervisors' and County Legislators' Association of the State of New York with reference to Resolution No. 94-383 concerning the Consolidated Highway Improvement Program.

Report from Standing Committees:

Legislator Bennett reported he had attended six town board meetings, which were very interesting. He had attended the usual monthly meetings, and had met with Mrs. Downey, the Director of the Real Property Tax Office.

Legislator Cook said he had attended the usual

monthly meetings. He had also met with the County Highway Superintendent and bids will be ready for a new and a used gradall and a new and a used excavator. He had also met with Mr. Johnson to discuss the Hanlon Road Bridge, and a meeting is being set up with the Town Carlton Board to obtain their input on the matter.

Legislator Munger said he had met with the County Clerk to discuss the possibility of a third terminal in the Motor Vehicle Department. Mrs. Bloom has been informed that this is not possible, as the County does not process the proper number of licences. Mrs. Bloom would also like to have Robert Hanlon, who is a public relations man, attend a meeting with the Legislature - she felt he may have some good ideas which may improve the office. It was suggested that Mr. Hanlon meet with the Legislature on April 7th. Mr. Munger also reported that a new computer has been ordered for the Treasurer's office.

Legislator Swiercznski reported that he had attended the usual monthly meetings. In reference to the Community Service Board meeting, he reported that it was their intent to reduce the membership on that Board from fifteen to nine, and a resolution to this affect is needed for the next Legislature meeting.

Legislator Berger reported he had attended the regular meetings. A meeting had been held on the County brochure, and it has been given to the printer; hopefully, it will be out on Wednesday. He said the Town of Yates has come up with a couple of resolutions concerned with CHIPS and the DOT Center in Rochester. He felt that it would behoove the other towns in the County to do something similar to the Town of Yates resolutions. Referring to the brochure, Mr. Berger explained that it contained coupons, and that this would be one way to know if the brochure was being used. He also explained that the main idea was to promote tourism in Orleans County.

Mr. Eddy introduced Mr. Clifford Dunn, Town of Murray Highway Superintendent who explained the CHIPS program and the reason for the concern over this program. Mr. Dunn told the group that the Towns are due to lose about 41 percent of the monies promised by the state. The loss would hurt everyone.

The privilege of the floor was given to COVA (Central Orleans Volunteer Ambulance Service, Inc.) representatives. This organization was represented by Mr. Clifford Thom, President; Mr. Mark Heard, a member of the Board and Mr. Walt Sullivan, one of the crew members. Mr. Thom explained that COVA was in need of help; not help with funding, but help in the form of more volunteers. COVA covers the Towns of Barre,

Albion, Carlton and Gaines, an area of approximately 200 square miles, with 24-hour medical service. Mr. Thom went over the various training programs sponsored by COVA, and explained that costs for the organization are met thru family enrollments. The charge is \$15.00 per family, and covers the entire year; their fiscal year begins October 1st, and runs through September 30th. He noted they are able to raise enough money each year to meet all their expenses, and to keep their equipment up-to-date. Their main problem is in obtaining volunteers; if they are out of service, it is mainly because of lack of crew. Mr. Thom thanked the Legislature for allowing them the opportunity to express their needs at the meeting. Mr. Eddy commended the organization for the fine job it's doing. He said it was good to know that there are still people doing volunteer service as represented by COVA. Legislator Bennett also commended Mr. Thom and the COVA organization for the tremendous service it was doing for the four central towns and for the County in general.

LEGISLATURE MEETING

April 21, 1983

The April 21st meeting of the Legislature was held in the Kendall Town Hall, Kendall, New York, and was called to order by Temporary Acting Chairman Lyndon Billings at 7:30 p.m. After the pledge to the flag, the Clerk called the roll, and all legislators, with the exception of Dick Eddy, were present. Legislator Eddy had been excused, and was away on vacation.

The Clerk read the following communications and petitions:

Notice from the Department of State, Records & Law Bureau, stating that Local Law No. 1 of 1983 has been filed;

Requests from the following people to have their land included in the Barre Agricultural District: Donald R. Nesbitt, Sr., Frank Fite, William F. Ferris, and Jesse E. Miller;

A letter from the Town of Kendall recommending the appointment of Mr. Raymond Ernenwein to the County Planning Board, to replace Mr. Cole Hardenbrook, who resigned;

A letter from the Supervisors' and County Legislators' Association acknowledging receipt of Resolution No. 94 re the CHIPS program; a letter from New York State Association of Counties acknowledging receipt of Resolution No. 94 re the CHIPS program;

Certification from the NYS Department of Agriculture and Markets, for Orleans County Agricultural District No. 8 - Towns of Ridgeway and Yates and certification for the modification of Orleans County Agricultural District No. 1 Town of Clarendon, after its eighth year review.

Report of Standing Committees: Legislator Cook reported he had attended the usual Town Board meetings. He said he had talked with the Fire Coordinator, Jack McCarthy, about the new fire and building code, and that there is a bill being presented to delay the implementation of this code.

Legislator Berger reported he had attended the regular town board, village board and committee meetings, and attended the reception given at the Pullman Church celebrating the completion of the County brochure. Mr. Berger said he had attended two meetings of the Task Force for Helping the Elderly, and expects

to have a report ready by the next Legislature meeting.

Legislator Swiercznski said he had attended the usual Town Board meetings in Albion and Gaines, and the regular meetings with the Health and Community Services Boards.

Legislator Munger reported he too had attended the usual meetings. Also he had attended the monthly meeting of the Genesee Finger Lakes Regional Planning Council. The solid waste problem had been discussed at that meeting. He said that there is an indication that the State is proposing the establishment of a new Regional Economic Development Council in the State. Mr. Munger noted that the State is interested in economic development, and they will be taking decision making ability from the local boards. Mr. Munger also reported that the OTB parlor in Orleans County is doing very well - the proceeds have increased by about 20%.

Legislator Bennett noted that all the Legislators had received their copies of the Board of Elections Book of Enrolled Electors

At this point, Chairman Billings introduced Michael Paduchak, Supervisor from the Town of Kendall. Supervisor Paduchak spoke to the Legislature about a problem the Town Board of Kendall was currently involved in with the Orleans County Health Department. The problem stemmed from the fact that the Kendall Town Board allowed certain residents, who lived outside the water district, to tap into the water line without first going through the NYS Department of Environmental Conservation and applying for and receiving a permit. The Orleans County Health Department notified the DEC of the situation. The Town is now involved in hiring an engineer, and spending a great deal of money to straighten the situation out. Mr. Paduchak asked, that in the future, if the need should ever arise, that the County Departments advise the municipalities of any actions which are going to be taken against them. Chairman Billings asked Legislator Swiercznski to look into the matter.

A resident from the Town of Kendall asked why the County sales tax has not been removed from electric and heating bills. Mr. Dudek said a study had been done on this subject and it was found that the amount of money raised by this tax was in excess of \$350,000. He explained that if the County didn't receive this money then, it would have to be raised another way, and that would be through real property taxes. The money was needed to help defray the expense of running County government.

The following resolutions were presented:

RESOLUTION OPPOSING SENATE BILL NO. 2893 AND ASSEMBLY BILL NO. 3618, WHICH WOULD INCREASE THE MAXIMUM WEEKLY WORKERS' COMPENSATION RATE ON A STATEWIDE BASIS

WHEREAS, there has been introduced in the New York State Senate Bill No. 2893 by Senator Pisani, and in the Assembly Bill No. 3618 by Assemblyman Barbaro, and

WHEREAS, this bill, in part, would increase the maximum weekly Workers' Compensation rate from the present \$215 through a series of three steps to \$300 by April 1, 1984, and

WHEREAS, this rate increase would be applied on a statewide basis, regardless of the average weekly wage outside the New York City region, and

WHEREAS, historically and realistically this maximum rate also would be provided for Volunteer Firemen covered by the Volunteer Firemen's Benefit Law, regardless of the factor that they may be unemployed or employed at a much lower weekly wage, and

WHEREAS, the New York State Labor Department statistics indicate there are substantial differences in wages in the various geographic regions of the state, particularly in the New York City area which is more than 50% higher than many counties outside the metropolitan area, and

WHEREAS, this dramatic increase is being proposed at a time when New York State is struggling to create a competitive business climate, and this increase would have a severe impact on the costs of businesses, industries and municipalities as well as New York State itself; now, therefore be it

RESOLVED, that the Orleans County Legislature strongly supports the position of the New York State Association of Self-Insured Counties and Risk Managers in opposing any "blanket rate" increases on a statewide

basis, which in effect erroneously presume that the average weekly wage is the same or similar throughout the state, and be it further

RESOLVED, that the Workers' Compensation Board should be directed to conduct a regional study of wages in geographic areas of the state, similar to the study conducted by the Workers' Compensation Board which in 1980 resulted in the State being divided into four regions and regional Medical Fee Schedules providing a more equitable method for the payment of medical treatment, and be it further

RESOLVED, that the results of such a study be used as a realistic basis for the establishment of regionalized maximum weekly Workers' Compensation benefits and Volunteer Firemen benefits, and be it further

RESOLVED, that the Clerk of this Legislature is authorized and directed to forward copies of this resolution to Gov. Mario Cuomo, Senator John B. Daly, Assemblyman R. Stephen Hawley, the Workers' Compensation Board, the New York State Association of Counties, New York State Supervisors and Legislators Association, the New York State Association of Towns and the New York State Conference of Mayors.

WHEREAS, the County Judge has requested that State legislation amending Section 701 of the County Law be approved allowing him to appoint non-resident attorneys who reside in an adjoining county to prosecute individuals when District Attorney disqualified himself from an individual case, and

WHEREAS, said legislation at the request of the County Judge has been introduced to the State Legislature and it appears that such legislation, if adopted, would allow the County Judge to appoint qualified attorneys who reside in adjoining counties to act as Special District Attorney when the Orleans County District Attorney has disqualified himself, and said legislation has been duly introduced in the State Legislature,

NOW, THEREFORE, BE IT RESOLVED, that the Chairman be, and he hereby is authorized to execute the Home Rule request to the State Legislature that the appropriate amendment be adopted to County Law Section 701.

Unanimously adopted.

Legislator Swiercznski asked the County Attorney about the status of the County-wide Municipal Power Agency. Mr. Young said that the next step would be for the Legislature to adopt the appropriate resolution calling for a referendum. He said that there are bills before the State Legislature which will cover the whole situation. If these bills pass, then the County may not have to go any further. Mr. Young noted that the County

Legislature has already adopted enabling legislation, and that the County only has to wait to see what happens in the State Legislature. Mr. Young said he had spoken with the Chairman of the Energy Committee, and was advised that the Committee is trying to work toward a solution on a State level, and it was the advice of the Energy Committee's Chairman to wait until July, before going ahead on a County level.

Motion by Legislator Billings, seconded by Legislator Munger to adjourn. Motion carried.

The reports from Standing Committees were as follows: Legislator Munger reported that he had attended the usual meetings with his departments, and the Murray Town Board Meeting. Mr. Munger also noted that the agenda and resolutions had been printed on the

new word processor - he felt that it would be a great help in the office.

Legislator Cook reported he had attended town board meetings in Barre, Clarendon and Shelby, also the Public Safety Meeting. With reference to the DWI Program, Mr. Cook said that there was approximately \$30,000.00 in additional funds in that program, and a meeting had been held, with another scheduled for the 22nd, to decide where the funds will be spent. A report with the Committee's recommendation, will be given to the Legislature at a later date. Mr. Cook will be auditing this month.

Legislator Billings had attended the usual meetings. With reference to the landfill situation, Mr. Billings noted that it is an ongoing process, and that meetings are going on presently concerning the situation. Mr. Billings mentioned the Carlton land projects; the proposal for the marina.

Legislator Swiercznski reported he had attended the Public Health and Community Services Board meetings. He also attended the Board Meetings for the Towns of Albion and Gaines.

Legislator Bennett noted that the Legislature had already received its report from the Community College Committee. The Community College Committee found out the County Legislature wasn't auditing bills for Community Colleges, so they will be sent over from the Treasurer's Office to be audited.

Legislator Berger reported attendance at the regular Village and Town Board meetings. The first meeting of the Task Force on Aging was held on June 13th, with 13 people in attendance. The group divided into four committees, and will report back to the Legislature by August 20th. Mr. Berger noted that one group wasn't represented - the Supervisors. Mrs. Hardenbrook will be contacting Mike Paduchak, President of the Association, and ask him to appoint someone from that group.

Legislator Eddy reported he had represented the County at Niagara Falls at an international exchange of flags - Federal, State and Canadian regions were represented. Mr. Eddy also represented the County in the Village of Holley on Flag Day. He noted they had approximately four or five hundred children in attendance at the Flag Day celebration, where he presented the Holley Central School with the County Flag.

At this time Legislator Cook read a Proclamation issued by the County Legislature declaring the week of June 20-26, 1983 as AMATEUR RADIO WEEK. After Mr. Cook

read the proclamation, Mr. Eddy signed the document, noting that it was the Orleans County Amateur Radio Club who made it possible for the members of the Legislature to be able to be reached at their homes through the use of radios, in case of any type of emergency. Mr. Eddy said it was with a great deal of pleasure that he signed the Proclamation on behalf of the County.

Mr. Steven Maier, the Treasurer of the Orleans County Amateur Radio Club was given the privilege of the floor. Mr. Maier explained the reason for the Proclamation was to acquaint the general public with the functions of the Club, and to make their services known and available to anyone throughout the County. He explained that part of Amateur Radio Club Week would be a field days celebration. During that time there would be a world-wide emergency communications drill, in which radio contacts would try to be made around the world. He noted that last year, all fifty states were contacted, along with several countries. Mr. Maier thanked the Legislature for issuing the Proclamation.

After the resolutions were presented, Legislator Swiercznski commented in reference to the Industrial Development Agency. Mr. Swiercznski noted that there were two openings on the agency and asked that the Legislature make the appointments bi-partisan, and asked for the opportunity to submit names to fill the vacancies. He noted that the original concept was to have a balance of power on the IDA Board.

At this point, Mr. Milford Phinney, an attorney in the Village of Medina, was given the privilege of the floor. Mr. Phinney introduced himself, and explained that he was not representing the Bar Association, but was at the meeting as a private citizen - a taxpayer. He said information had come to him, that the County had obtained outside legal counsel to represent certain individuals who hold County positions. Mr. Phinney felt that local county attorneys should have been utilized in this situation, and asked the Legislature to explain the details on the matter.

The Assistant County Attorney, Norris Webster, responded by saying he understood the same question had been asked of the Board in a letter from the Bar Association, and that the County Attorney, as well as, the Chairman of the Legislature had responded to that letter. Mr. Webster noted that the question does involve issues over which the County Attorney, Thomas Young, has control, and his judgment is involved as to what is or is not done in certain situations, not only on behalf of the Board, but other County officers. Mr. Webster felt that, under the circumstances, if the letters did not answer the question satisfactorily, that it would be best to speak with Mr. Young about it.

Legislator Cook said that the matter had been discussed in executive session that afternoon, during the Conference Session. Mr. Cook said he had full confidence in the way Mr. Young was handling the matter. Mr. Eddy said that, under the advisement of counsel, the matter was a legal matter, and not one for lay people to discuss. Legislator Swiercznski agreed, noting that the Board has to depend on the advice of an attorney.

Motion by Legislator Billings, seconded by Legislator Berger, to adjourn. Motion carried.

Meeting adjourned at 8:35 p.m.

A letter from Governor Cuomo designating the Orleans, Genesee, Wyoming and Livingston Consortium as a Service Delivery Area under Section 101 of the Job Partnership Act; a letter of acknowledgment from Governor Cuomo's office re the receipt of Resolution No. 200-683 in regard to the expansion of the Albion Correctional Facility;

Report of Standing Committees: Legislator Cook reported he had attended the usual meetings for his departments.

Legislator Berger reported he had attended the regularly scheduled meetings for his departments. He noted he had attended a special meeting of the Soil and Water Conservation District Board, at which time the Board went over the list of people selected for the construction of drainage ditches on their property.

Legislator Munger said he had been busy attending meetings with his various department heads.

Legislator Billings reported he had attended the usual meetings. Mr. Billings noted that Thomas P. Papadinoff had received a "Citation of Merit" from the Indiana Chapter of American Society of Landscape Architecture for his landscape design plan for the County of Orleans Administration Building.

Legislator Bennett said that a bill had been received from Genesee Community College, and noted that it wouldn't be paid until the Community College Committee had an opportunity to do an audit. The Committee will be meeting within the next two weeks.

Legislator Swiercznski reported he had attended the Public Health and Community Services Board meetings. Mr. Swiercznski invited the other members of the Legislature to attend the next Public Health Board meeting which will be held on July 28th at which time there will be a discussion on fees.

Chairman Eddy announced that at the afternoon Conference Session, it had been his privilege to present certificates to various schools within the County for their participation in the Orleans County Local Government Program and the Orleans County Youth At Risk Program. These certificates were from the National Association of Counties and The National School Boards Association. The County of Orleans also received a similar award.

The privilege of the floor was given to Mr. Charles Pulley, Director of Orleans Community Action Committee, Inc., in order that he might give a report on the Surplus Cheese Distribution. Mr. Pulley noted that from February to June 1983 a total allocation of 38,000 pounds of cheese had been distributed to 7,592 households, affecting 21,571 people. Total expenditures for the operation were \$461.46.

Mr. Pulley also gave a report on CATS (Community Action Transportation System). He noted that last year, there had been discussion on the rates per trip for CATS, and that an adjustment in rates had been made. Mr. Pulley noted that the month of June had been the best month, since the system had been in operation. He noted that if the trend continues, they would have a good year; there would not be a deficit.

At this point, Legislator Bennett read the following proclamation:

**PROCLAMATION

Dated this 7th day of July, 1983.

ORLEANS COUNTY LEGISLATURE
By Arthur B. Eddy, Chairman

Privilege of the floor was given to Mr. Hugh James who spoke to the Legislature with reference to the Tourism Committee. Mr. James said that the matching funds program requires the current designation of the Tourism Promotion Agency to be submitted with the application for matching funds. The application has to be submitted by August 12th. Mr. James noted that last year their budget was \$24,000.00, and that a little over \$15,000.00 had been raised through the local advertising campaign - tourism guide. Mr. James went over the various methods of advertising that were utilized by the Committee. There will be an article this fall in "Outdoor Life" magazine and another article in "Sports Afield" magazine next spring, about Orleans County. Mr. James listed the accomplishments of the Tourism Committee over the past year, on its promotion of Orleans County. Mr. James remarked that there are some

counties who pay for promotional ads in magazines, and asked that the Legislature do something similar for Orleans County. He suggested including funds specifically in the 1984 budget for this purpose, and suggested an amount of \$15,000.00. He said he would submit a formal proposal to the Legislature. Mr. James requested that a resolution be put on the agenda for the next Legislature meeting designating the Tourism Committee. The committee will consist of the same people as last year, with some others from the eastern end of the County.

Mrs. Carol Oschmann of the Kendall Marina was introduced. Mrs. Oschmann suggested a different type of tourism program - a more commercial type program. Mrs. Oschmann felt that it was important to get the backing of more business people, and ask for their cooperation along these lines. There was general discussion during which the suggestion was made that perhaps it would be advantageous to the County to have a County-wide Chamber of Commerce rather than the individual chambers in the various villages. It was felt this would be more productive for the County.

Mr. Pulley was given the privilege of the floor. He noted that Community Action funds had been reduced, and this was causing problems in helping people with their homes - roofing in particular. Mr. Pulley asked for suggestions on where to get materials to be used in this work; he noted that his Agency did not have money for materials. Legislator Berger suggested he call the Medina Area Association of Churches, and that they might be able to help Community Action find materials.

WHEREAS, said resolution, the General Municipal Law and Municipal Home Rule Law provides that resolution No. 26-183 be submitted for the approval of the electors of the County of Orleans;

NOW, THEREFORE, BE IT RESOLVED, that a proposition for the approval of such resolution No. 26-183 of 1983 shall be submitted to the electors of the County of Orleans at the general election to be held November 8, 1983; and be it

FURTHER RESOLVED, that the form of the proposition shall be as follows:

ABSTRACT OF COUNTY PROPOSITION NO. 1

Resolution No. 26-183 of the year 1983 entitled RESOLUTION AUTHORIZING THE COUNTY OF ORLEANS TO ESTABLISH A PUBLIC UTILITY SERVICE PURSUANT TO ARTICLE 14-A OF THE GENERAL MUNICIPAL LAW adopted by

the Orleans County Legislature January 20, 1983 is to be submitted as County Proposition No. 1 and voted on in the County of Orleans at the general election on November 8, 1983

The New York State Power Authority operates hydroelectric power generating plants at Niagara Falls and on the St. Lawrence River. Because of recent increases in the cost of electricity, hydroelectric power generated by the power authority is now cheaper than power generated by other means. Legal actions and expiring contracts may result in a reallocation of this power in the future, making additional low cost hydroelectric power available to municipal electric agencies. The County of Orleans is proposing the creation of a Municipal Electric Agency to service those customers within Orleans County that are not serviced by the Holley Municipal Electric System. The Agency would seek to purchase additional hydroelectric power as it becomes available and would contract with Niagara Mohawk for delivery to County customers. The Agency would exist only as a legal, administrative mechanism to enable county customers to benefit from the availability of cheaper power and would not increase county taxes.

FORM OF SUBMISSION OF COUNTY PROPOSITION NO. 1

County Proposition No. 1

"Shall Orleans County Resolution No. 26-183 of 1983 creating a Municipal Electric Agency to buy hydroelectric power from the Power Authority of the State of New York and to contract with the local public utilities to distribute that hydroelectric power to county residents, be approved?"

and be it

FURTHER RESOLVED, that the Clerk of the Legislature shall cause to be published in accordance with the General Municipal Law, a notice of such election on this proposition in the County newspapers in each week for six (6) consecutive weeks immediately preceding the election and to take such other action as necessary to implement the submission of this proposition at the November 8, 1983 general election.

Unanimously adopted.

After the adoption of the above resolution, County Attorney Tom Young explained the reason for establishing the County Electric Agency. Mr. Young said that currently the Niagara-Mohawk Power Corporation has a contract with the Power Authority of the State of New York, which provides for "set

asides" for rural and residential consumers. When the contract expires, in 1985, these "set asides" will be eliminated. Mr. Young noted that there is only so much power available, and with the creation of the County Electric Agency, the County will be able to preserve some of the power for County use.

Mr. Young said that, although not required by law, it would be a good idea to hold a public hearing on the County Electric Agency, since it is such an important issue.

LEGISLATURE MEETING

August 4, 1983

The meeting was called to order at 7:30 p.m. by the Chairman. After the pledge to the flag, the Clerk called the roll, and with the exception of Legislator Cook, who was on vacation, all Legislators were present.

The following communications and petitions were presented: A copy of a letter from the Town Clerk of Kendall, to Evelyn Allen, President of the Assessors' Association stating that the Town Board of Kendall was in favor of an update;

A letter from Owen H. Johnson, Chairman of the NYS Social Services Committee stating that bill S-4199A allowing employable home relief recipients only 90 days of benefits in a year's period had passed in the Senate, but did not have a sponsor in the Assembly; he would sponsor the bill again in 1984;

A letter from Assemblyman R. Stephen Hawley advising the Legislature that the bill in reference to State funding for the continuing education and training of County Tax Directors was passed in both houses, and was awaiting the Governor's signature;

A letter from Russell Bennett, Associate Counsel Bureau of Maintenance Law, NYS Department of Social Services in reference to bills A4199 and A2264, stating that neither bill passed the State Legislature, before it recessed in June;

A letter from District Attorney Curtis Lyman requesting payment to his office from the DWI Program, in the amount of \$2500.00;

A letter from Genesee Community College in reply to the resolution adopted at the July 21st meeting of the Legislature in reference to the withholding of payment for non-credit courses taken at GCC.

Prior to the report of the standing committees, in referring back to the letter received from Genesee Community College, it was the consensus of opinion that the Legislature had the right to ask for justification of a claim, and it was suggested that perhaps in a week or so, it will be possible for Legislators Eddy and Bennett, the County Treasurer, the Chief Administrative Officer, Mr. VanOrtwick, from Albany, and Mr. Steiner from GCC to get together to discuss the situation, and come to some agreement on the matter.

Report of Standing Committees: Legislator Swiercznski said he had met with his departments, and in particular, mentioned meeting with ARC to discuss their budget. He said there would be further information on it in the near future.

Legislator Billings said he had attended the usual meetings. He noted that Mr. Spellman had met with the legislators earlier in the afternoon and given them a progress report.

Legislator Bennett said he had been away on vacation, and had not met with his departments.

Legislator Berger said he had attended the usual monthly meetings of the towns and villages in his district, plus meetings with his departments. He mentioned he had attended the meeting with the Health Department Board and heard the discussion on charging fees for certain services performed by that department. Mr. Berger also attended a meeting at FMC in Middleport to discuss the Dublin Road Dump; he said the State was going to do further testing there the following week. There was nothing really new to report.

Legislator Munger mentioned the letter which was given to department heads last week in reference to the budget; noting that the budget process has started.

At this point, Legislator Munger introduced Local Law No. 2 of the year 1983 entitled A LOCAL LAW ESTABLISHING A DEPARTMENT OF PUBLIC WORKS FOR THE COUNTY OF ORLEANS.

Motion by Legislator Swiercznski, seconded by Legislator Billings, to recess the meeting. Motion carried. Meeting recessed at 7:50 p.m.

LEGISLATURE MEETING
September 8, 1983

The meeting was called to order at 7:30 p.m. by the Chairman. After the pledge to the flag, the Clerk called the roll, and with the exception of Legislator Bennett, who was ill, all Legislators were present.

The following communications and petitions were presented: A letter from Wendel Engineers P.C. recommending the closing of the bridge on the Pumping Station Road over E. Branch of Sandy Creek;

A letter from Joanne Monaco of the New York Power Authority re the judicial determination sought by the Power Authority in Federal District Court in New York City, as to whether or not public bodies created by local municipalities are qualified to purchase preference hydro power produced by the Power Authority at its Niagara Project.

In reference to the letter received from the Power Authority, Legislator Swiercznski asked if this would have any effect on the referendum this fall. County Attorney, Thomas Young, said it wouldn't have any effect on the election. He explained that the Attorney General had been named to represent Orleans County and any other municipality that is in the process of creating paper agencies; that the County should go ahead with the referendum. If there is a Court determination prior to that time, the County can make its own determination in reference to the referendum.

Report of Standing Committees: Legislator Swiercznski report attendance at the usual meetings. Legislator Billings reported the IDA Board has been working with three corporations in the County; also that the Board was to get together with the Town of Yates, to get their ideas and find out what type of industry they would like to come into their area. Mr. Billings noted that the landfill and solid waste situation is an on-going item, and the County is working with other counties on the matter.

Legislator Cook attended the usual town board meetings, also Traffic Safety Meeting. Mr. Cook said he had met with the Barre Town Board on the highway situation, and noted that the road problem there will be completed by next month. With reference to the Hanlon Road Bypass, Mr. Cook reported the Highway Department was doing a terrific job, and the road should be open to the public in approximately two weeks.

Legislator Berger reported he had attended the usual meetings - towns and villages as well as departmental meetings. Legislator Munger said he had attended a couple of JTPA meetings and PIC meetings. Mr. Munger said he was pleased to learn that the program will be in place shortly, with our people running the show in Orleans County. He explained that the County Budget is being compiled. With reference to the bridge on the Pumping Station Road, Mr. Munger said he had received a number of calls as to when the bridge would be repaired.

Legislator Cook explained that Wendel Engineers is putting together a program as to what can be done in regards to the bridges on County roads which are in need of repair. Wendel Engineers will be presenting to the County suggestions as to which bridges should be worked on first, and what should be done in the line of repairs. Then it will be up to the County to make the final decisions. A preliminary report should be ready by the next Legislature meeting.

Mr. Eddy explained that the County has 75 bridges that it is responsible for - both town and county bridges; this is an on-going project. Mr. Eddy also noted that the GLOW consortia is working together on job training within this district. This is a new concept started within the State as a result of Federal legislation. With reference to the Fishing Derby, recently concluded, Mr. Eddy reported that it was very successful and had 1,371 participants. Mr. Dudek said he had met with people from Sea Grant and they had made some suggestions as to how to improve the Derby. It was noted that the drawing was the biggest prize in the Derby, and it was suggested that perhaps different categories of fish might keep more people interested in fishing.

During the open discussion portion of the meeting, privilege of the floor was granted to Mr. Robert Palmer, who is a county resident. Mr. Palmer asked why the county is the lowest paid county for recipients for Social Security and why the county has the work relief program as it does. He didn't feel the program was fair, because recipients on the work relief program did not receive social security, unemployment, workers' compensation, etc. Mr. Palmer's father also spoke in reference to the Social Service Department. Mr. Young explained to Mr. Palmer that the people on the work program do not earn benefits; they do not earn a "pay check" from the town or county. They are not an employee of the municipality, but are placed in that job for a certain number of hours to earn the check they will receive. Therefore, they do not earn social security, unemployment insurance, workers' compensation, etc. Mr. Eddy referred the matter to Legislator Berger, who is

the chairman of that committee.

The County Attorney informed the Legislature that he was approached by one of the Town Supervisors concerning dog license fees, and was told there was general agreement among the towns to increase fees by \$1.00, splitting the increase with the County; the Town Clerk will get fifty cents (\$.50) and the County will get fifty cents (\$.50). Mr. Cook noted that each town had its own responsibility for its own dog program; it would be very expensive for each town to provide its own dog pound. So the County provides the dog pound. Mr. Young noted that in 1978 a law was passed, and all towns agreed; rather than providing their own dog pound and dog control officer, the County would do it. It is less expense to the taxpayers in general. The fees received by the towns have to be used for dogs, or town clerks salaries for issuing licenses.

Motion by Legislator Billings, seconded by Legislator Cook, to adjourn the meeting. Meeting adjourned at 8:45 p.m.

LEGISLATURE MEETING
Village Hall, Albion, New York
September 22, 1983

The meeting was called to order at 7:30 p.m. by the Chairman. After the pledge to the flag, the Clerk called the roll, and all Legislators were present.

A letter from Mr. Norris Webster, Ridgeway Town Attorney, announcing a public hearing re amending the Town of Ridgeway Zoning Ordinance;

A letter from the Commissioners of Elections in reference to ballot labeling of the Legislator At-Large positions for the general election in November.

Report of Standing Committees: Legislator Bennett had met with the Medical Scholarship Committee. (The Committee will meet again next Thursday at the County Home and Infirmary.) The committee has proposed legislation for the first Legislature meeting in October. They would like to increase the scholarship payment from \$3,000.00 payable over a six-year period, to \$4,500.00 payable over a four-year time period, with the commitment time period on the part of the student, remaining the same - six years. The Community College

Committee met in executive session on Wednesday, the 21st. The County Attorney has written a letter to the State with reference to the County's right to audit community college bills, and the County's right to obtaining the Student's name and course.

Legislator Billings reported that the solid waste situation is still on-going. There have been meetings with J & I Disposal, and they will continue to service the villages. In reference to Soil and Water, Legislator Billings reported that \$45,000 has been committed to various drainage projects throughout the County, noting they are within their budget. The projects will be beneficial to the County. Mr. Billings also said that he had received a call from NYS Department of Environmental Conservation, and they have the maps for the wetlands which DEC has proposed for Orleans County. DEC will be holding two informational meetings and one public hearing on the Wetlands. There is quite a bit of concern by the Soil and Water people. Mr. Dudek noted that a representative from DEC will be at the next Conference Session and make a presentation to the Legislature at that time.

Legislator Swiercznski commented that originally the Board of Supervisors adopted the Wetlands Bill, and designated Soil and Water to be the County's watch agency for this project. Mr. Swiercznski said he had attended the regular meetings - both Public Health and Mental Health board meetings, plus the town board meetings. In answer to a question about the fee structure in the Public Health Department, Legislator Swiercznski said that a reply had been received by the Health Department, and there were a few changes that would have to be made. A report would be made at a later date.

Legislator Munger said he had attended a Town of Albion board meeting. Also that he had met with Mrs. Basinait, the County Budget Officer, and all the departments have turned in their proposed budgets for the coming year. Mr. Munger also announced, that an offer had been made to retain property in the Town of Barre, which would be handled at the next Legislature meeting.

Legislator Cook said he had attended the Barre Town Board meeting. He also had met with Sheriff Green, and Mr. Golden, of the Probation Department and discussed problems they were having.

Legislator Berger said he had attended regular meetings with his departments, and with the towns and villages; also the Soil and Water Meeting. Mr. Berger also attended the meeting on solid waste where the possibility of generating steam and electricity was

discussed. Mr. Berger felt there was a need to extend landfills.

Mr. Thomas Young, the County Attorney, said he had drafted a response to the letter from the Elections Commissioners, and was waiting to obtain the approval of the Legislature before sending the letter to the Board of Elections. Chairman Eddy said this would be taken care of at the end of the Meeting.

Chairman Eddy said he had the privilege of attending the dedication service at the Reflection Pool at Mount Albion Cemetery, in which the Pool was dedicated to the Voluntary Firemen. Mr. Eddy reported that he, along with Legislators Cook and Billings had attended the formal opening of the Hanlon Road Extension. He noted that the final topping has not been put on as yet. Mr. Eddy informed the Legislators that a map had been received from the State of New York showing the proposed development of the west side of Oak Orchard Creek, at Point Breeze. He mentioned that he had attended a planning seminar presented by Mr. Patrick Rountree, Director of the Planning & Development Department, and his assistant Mr. Wayne Hale. The Seminar was attended by approximately 40 people. Mr. Billings informed the Legislators that the Planning Department had received an award from the State Planners Association for the Model Zoning Law authored by Mr. Rountree. The award is the highest award the Association can give. Mr. Rountree will be going to New York to accept the award.

Chairman Eddy extended his thanks to Mayor Rodden, and the Village Trustees for allowing the Legislature the use of the Village Board Room. He noted that this was the first time the Legislature had met in the Village Hall, and in doing so, the Legislature will have held meetings at least once in each village and town hall.

The Privilege of the Floor was given to Mrs. Catherine Monacelli, Clerk of the Village of Albion. Mrs. Monacelli asked if anything had been received from the State in reference to raising the penalty for non-payment of taxes, and asked if the County was considering doing this. Mr. Eddy suggested she contact Mrs. Mary Basinait who would have information on this.

Before the presentation of the resolutions, Legislator Cook withdrew Local Law No. 2 of the year 1983 ESTABLISHING A DEPARTMENT OF PUBLIC WORKS FOR THE COUNTY OF ORLEANS, due to the lack of public support.

Legislator Cook introduced Resolution No. 265-983 Adopting the Job Description for the Position of County Highway Superintendent. This was seconded by Legislator

Munger. The Chairman opened the floor for discussion. Legislator Swiercznski asked if this job description was in accordance with the Law, and Mr. Young replied that County Law didn't give a job description as such, but states that he (the County Highway Superintendent) shall be in charge of all County Highway Systems. Mr. Dudek commented that it's basically the same job description which has been in effect since 1958, the only difference being that the resolution just introduced includes a B.S. in Civil Engineering as a requirement for the County Highway Superintendent. Legislator Swiercznski requested that the Legislature table the resolution, so that he would have time to study it further. Legislator Cook felt this wasn't necessary, as the only new portion was the requirement for a B.S. in Civil Engineering. Legislator Swiercznski also felt with the requirement of a Civil Engineering degree, many capable people within the County would not be considered, even though they might have the experience for the position. Legislator Bennett said he would be in favor of such a job description, with reservations. He felt he might want to hire someone with eight years experience, without a degree. After further discussion, Legislator Berger moved to the previous question. Legislator Swiercznski called for a roll call vote.

The Clerk called the roll, and the vote was as follows:

Legislator Swiercznski	-	Nay
Legislator Bennett	-	Aye
Legislator Berger	-	Aye
Legislator Billings	-	Aye
Legislator Cook	-	Aye
Legislator Eddy	-	Aye
Legislator Munger	-	Aye

The resolution was adopted, 6 ayes; 1 nay, Legislator Swiercznski.

LEGISLATURE MEETING
Town Hall, Town of Carlton
October 20, 1983

The meeting was called to order at 7:30 p.m. by the Chairman. After the pledge to the flag, the Clerk called the roll, and all Legislators were present.

The following communications and petitions were presented: A letter from New York State Association of Counties re the NYS Education Department's Physically Handicapped Program for Children;

A letter from the Orleans County Federation of Sportsmen's Clubs, Inc. in support of a full-time Police and Navigation Deputy to be added to the Orleans County Sheriff's Department;

A letter from KVS Information Systems, Inc. in reference to the non-renewal of their contract by Orleans County.

Report of Standing Committees: Legislator Cook reported he had attended various town board meetings within his district, and attended budget meetings for his departments. Legislators Berger and Swierczski reported attendance at their usual departmental meetings.

Legislator Bennett reported he had attended the usual meeting with his departments. Also that he had met with some of the assessors in reference to the NYS Equalization and Assessment proposal.

Legislator Munger said he had attended the Senior Citizens' meeting in Medina, and reported a very interesting program. After the Senior Citizen Meeting, Legislator Munger visited ARC, where Mr. Ed Guthrie provided him with a tour of the facilities, and explained the various programs sponsored by ARC.

Legislator Billings reported that the IDA would be holding three public hearings on October 25th, in the Legislature Chambers, beginning at 4:00 p.m.. Also, Mr. Billings had with him, plans for the proposed park on the lands leased by the County on the east side of the creek at Point Breeze. These would be available for anyone to look at after the meeting. Mr. Billings also reported that he had attended the Planning Organization Meeting in New York City, where the Hugh Pomeroy Award had been presented to Mr. Patrick Rountree (Director of Planning and Development), and the County, for the local zoning law which Mr. Rountree had written. Mr. Billings

explained that the award was actually given to the County, mainly because the County provided the opportunity; however, Mr. Rountree actually did the work involved in drawing up the local zoning law. It is a very prestigious award.

Chairman Eddy noted that the County had received national awards for the Youth at Risk Project and the Project Hire Program. Mr. Eddy also commented that earlier in the afternoon, during the Conference Session, Mr. Duane Case of Medina had received a Recognition award from the County, for his tremendous effort in fund raising for the senior citizen programs.

Chairman Eddy expressed his appreciation to the Town Board of Carlton for allowing the Legislature the use of the Board Room for its meeting.

During the open discussion portion of the meeting, Mr. Gerald Lynch, a Town of Carlton resident, was given the privilege of the floor. Mr. Lynch commented on the fact that Bayex Corporation is allowed to make a lump sum payment in lieu of taxes. Mr. Lynch asked who decided on how the payment was divided up, and was told by Legislator Billings that the IDA Board makes that decision. He explained that the reason the village received the largest amount, was due to the original cost of the installation of water lines outside the village. The payment in lieu of taxes amount is levied in proportion to what the real taxes would be. Mr. Lynch was protesting because Bayex had to pay approximately only half the amount of school tax that he, himself, had to pay. He felt this unfair. Mr. Eddy explained that the current policy is to limit payments of this sort to 10 years. Mr. Eddy thanked Mr. Lynch for his comments, and said that Economic Development and the IDA Board would be aware of his comments.

The following resolutions were then presented:

The property is not in very good condition and is in a poor drainage area. Mr. Vick asked if the County could choose not to auction that property, but instead raze the property; or possibly turn the property over to the Town of Kendall; and if either of these suggestions could be carried out, what procedure would be followed. There was discussion on this, and the suggestion was made, that if the Town of Kendall wanted to acquire the property, the Town could make an offer on the property to the County the same as a private citizen. The Village of Medina and Town of Gaines had acquired property this way.

Legislator Cook reported that at the Barre Town Board meeting, the Eagle Harbor-West Barre Road had been discussed. Apparently there is a problem with the road. Mr. Dudek advised Mr. Cook to contact the County Highway Superintendent and ask him to check into the matter.

complies with the requirements set forth in Paragraph 5 of this resolution.

(b) Parcels may also be sold privately by the County to a municipality or not-for-profit organization on such terms and conditions as the County by resolution may determine.

(b) If an offer is received from a member of the family of a prior owner or owners, or a mortgagee or lienholder, then prior to acceptance of any such offer, the person making the same shall submit to the County Attorney a fully guaranteed title search, with federal court search, certified by a title company authorized to do business in the State. The title search shall cover the period of time from the acquisition of title by the prior owner through the date of the offer. The County Attorney shall also be furnished with duly executed and acknowledged releases from the prior owner or owners, or any other individual or corporation shown on the title search as having an interest or lien on the property, which interest or lien was, in the opinion of the County Attorney incurred by the prior owner or owners, notwithstanding that the lien or property interest may have been terminated by the In Rem Proceeding. Such release shall run to the County and release the County from any claim or debt or liability to the person or corporation signing the release as a result of the County's conveyance of the property to the offeror. Releases from individuals or corporations holding easements on the property will not be required.

9. All deeds from the County shall be quitclaim deeds without warranty by the county as to the title of the premises, and shall contain a condition and covenant that the County shall in no event be or become liable for any defect in the title so conveyed for any cause whatsoever or that no claim or demand of any nature shall ever be made against

Legislator Munger introduced a resolution proclaiming December 14th, 1983 as Centennial Day for the Orleans County Clerk's Building. This was seconded by Legislator Berger. During the discussion of this resolution, it was noted there was a discrepancy in the dates, and Legislator Billings suggested changing the date in the last paragraph of the resolution to December 17, 1983, as this would coincide more with the actual date the County Clerk began occupancy of the building. RESOLUTION ADOPTING AN AMENDED 1984 COUNTY BUDGET

BE IT RESOLVED, that the 1984 County Budget as

ORLEANS COUNTY
BUDGET
For The Year 1984

MARY B. BASINAIT
BUDGET OFFICER

November 17, 1983

BUDGET MESSAGE 1984

TO THE HONORABLE MEMBERS OF THE ORLEANS COUNTY LEGISLATURE
AND TAXPAYERS OF ORLEANS COUNTY:

Transmitted herewith is the budget for 1984 providing a fiscal plan for the forthcoming year. Each annual budget seems to present special problems and unique conditions.

Again this year we have been presented with a challenging combination of difficult circumstances. These circumstances include a significant rise in the cost of Education for Handicapped Children, from a budgeted amount of \$225,000 in 1983 to an estimated \$350,000 for 1984. Social Services Programs show an increase of \$520,380. This includes Aid to Dependent Children, an increase of \$143,405 (75% reimbursable), while Home Relief increase is approximately \$195,000 (50% reimbursable). Public Safety costs are up approximately \$50,000. This includes the Sheriff's Dept., Jail and Probation. Health (including Public, Mental Health, Alcohol and Narcotics) shows an increase of \$105,516, partly covered by State and Federal reimbursements.

On the brighter side, Social Services expects to receive nearly \$100,000 in a Home Relief Bonus, which is awarded on the basis of a low error rate in Aid to Dependent Children payments. The Social Services department has also been awarded special grants, one of which is The Employment Assistance Program (TEAP) and is 100% State funded. Debt Service shows a decrease of nearly \$50,000 due to the completion of the debt payment on the Home and Infirmary building, in June, 1983. The Home and Infirmary is expected to operate on a cost-contained basis in 1984. A new account, Bridges-County has been established in this budget with an appropriation of \$50,000 contractual money. Also new to the 1984 budget is the Special Grant Fund, which is the Job Training Partnership Act (replacing the CETA program) and is 100% reimbursable.

We have projected an increase of \$100,000 (4%) in Sales Tax revenues, while our estimated Interest and Earnings is \$125,000 less than the projected amount for 1983. This is due to lower interest rates, and the loss of interest revenue of Tax Stabilization money assigned as a tax surplus in the current budget. This budget also assumes that Federal Revenue Sharing funds will be forthcoming and accordingly allocates expenditures to this fund.

The Hanlon Road project in the Town of Carlton, which was unanticipated, cost approximately \$78,000. This combined with a loss of interest revenue due to less cash to invest and lower interest rates, plus higher than

projected Social Services cost, used up available surplus cash in 1983. We are, therefore, recommending the use of Tax Stabilization funds in the amount of \$500,000 to reduce the tax levy for 1984.

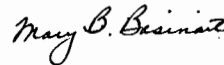

In personnel the 1984 authorized position strength is 475, while in 1981 there were 510 positions. Attrition and CETA accounted for the majority of the changes. Innovative programs have been developed by County employees in order to provide improved service without commensurate staff increases.

Some of the key principles on which the budget has been developed include:

- Basic services are financed at adequate levels.
- Revenue has been estimated at realistic levels, but we have been cautioned by State budget officials to budget additional State Aid very conservatively.
- Reserve policies that afford protection for the future are gradually being funded.
- Employee benefits and salary are maintained at competitive levels.

This budget is intended to provide an overview of Orleans County Government and the finances required to furnish essential public services, which are those services determined to be necessary for the health, safety and desired quality of life of the Community, and for the effective functioning of County Government.

Respectfully submitted,

MARY B. BASINAIT

Don't know what we could have done about it; don't know where else we could come up with the money without hurting other programs".

Chairman Eddy noted that the only other alternative is reductions. Mr. Eddy said he felt that Mrs. Hardenbrook has done a good job and felt that it wasn't wise to go into the following year with a reduced Social Services budget.

Legislator Munger said that he didn't see how the Legislature could do anything else.

RE: Parking Lot Point Breeze Road, Carlton

Dear Stan:

Enclosed herewith you will find a copy of a letter from the Town Clerk's Office of the Town of Carlton requesting that the Orleans County Legislature approve the sale of a county owned parking lot with a stipulation in the deed that no building ever be constructed on the parcel. The Town Board, as expressed in the letter, is interested in having a parcel placed back on the tax roll and questions the current operational efficiency of the parking area.

Since this lot is county property and has been utilized by such, the property should be sold in accordance with §215 of the County Law to the highest responsible bidder after a public auction. I have informed Jim Bell, attorney for Mr. Burnette and Mr. Belicki who own the property to the south of this, that the parcel would be added to the auction scheduled for January 21, 1984.

I believe that there is also a general feeling that the county should, in this particular case, since it has expended monies to take down the building and build a parking lot, at least recover the monies that are outstanding.

In discussing this with Jenks, he indicates that his Department has about \$1,000 involved in destruction of the building and stone for the parking lot. Additionally, the taxes, interest and penalty that the County absorbed on this parcel amounts to approximately \$800-\$1,000. Additionally, for your information, the assessed valuation on the parcel is \$2,300.

If acceptable with the Board, I would suggest that the resolution setting the terms of the auction contain a clause to cover the concern of the Town. In other words, the resolution of the terms of the auction should state as follows:

"that premises identified by Tax Account No. 7.10-1-72 formerly owned by Mark and Laurie Banker, located on Point Breeze Road, be sold with the restriction in the deed that

Mr. Stanley J. Dudek
Page Two

"no building ever be constructed on these premises" and that the parcel be subject to a minimum bid price of \$2,000."

If the Legislature feels that the minimum bid price should be something other than \$2,000, then the resolution should reflect their determination. However, I suggest \$2,000 in that the \$2,000 figure will cover the total cost of the county in this land and is also something less than its presumed fair market value of assessment at \$2,300.

If no party is interested in bidding the \$2,000, then the County can withdraw from the auction and sell it privately to whomever they desire in accordance with the resolution on the sale of county property adopted at one of our recent meetings.

Again, it is necessary in accordance with the resolution on the sale of county-owned property that this restriction be contained in the terms of the auction in order for it to apply to this parcel.

If there are any questions concerning this, please contact my office and I will be in contact with you.

Very truly yours,

Thomas J. Young *jr*
County Attorney

RESOLUTION SETTING TERMS OF AUCTION OF ORLEANS COUNTY TAX PROPERTY

RESOLVED, that the following "Terms of Auction" for county-owned tax property for the auction to be held January 20, 1984, be approved by this Legislature as follows:

TERMS OF AUCTION
ORLEANS COUNTY TAX PROPERTY AUCTION
JANUARY 21, 1984

This is the sale at public auction of various parcels of real property which have been conveyed to the County of Orleans by final judgment under the so-called In Rem Tax Foreclosure Proceedings. This sale is ordered by various resolutions of the Orleans County Legislature and is in accordance with the appropriate provisions of the Real Property Tax Law.

This sale and sale of each and every parcel herein is upon the following terms:

1. All sales are made subject to the confirmation and approval thereof by the Orleans County Legislature, which confirmation and approval will be requested at a special meeting of the said Legislature to be held this day at 11:00 a.m. the resolution of confirmation will be immediately available at the close of said special meeting.
2. At least twenty-five percent (25%) of the final bid for each parcel shall be paid to the Clerk of these proceedings prior to the start of the special Legislature meeting above stated. Payment shall be in cash or by a good check upon a NYS financial institution.
3. The balance of the successful and accepted bid for each parcel shall be paid in cash or by certified check to the Orleans County Treasurer, 34 E. Park Street, Albion, New York, 14411, no later than Friday, February 17, 1984, between 9:00 a.m. and 5:00 p.m. unless extended by the Legislature.
4. The County of Orleans is not required to send any notice to the purchaser or purchasers, and if the purchaser or purchasers neglect to pay the balance due and call at the Orleans County Treasurer's Office at the

above stated time the successful bid shall at 5:00 p.m. on Friday, February 17, 1984 be deemed conclusively to be abandoned, the deposit retained by the County as liquidation damages and the parcel in question disposed of in such manner as the County determines without notice to or benefit to the defaulting purchaser.

5. Upon payment of the balance, as above provided, the County of Orleans will deliver a standard form quitclaim tax deed which shall describe the parcel in the same manner as in the In Rem Foreclosure deed to the County and which shall quitclaim all of the right, title and interest of the County of Orleans in and to the said parcel. The said deed shall name as grantee the successful confirmed bidder and shall state the amount of the successful confirmed bid. The County of Orleans will execute no warranties concerning the parcel or the title thereto and will not deliver or be responsible for abstracts, title, searches, surveys, maps or other documents concerning the parcel whatsoever.

6. The successful and confirmed purchaser shall take the parcel upon delivery of the above stated deed, in such condition as the same exists at that date and subject to all alleged possessory or other claims and all covenants easements and restrictions of record.

7. The various parcels have been available for view by any and all interested parties prior to this sale date. No adjournment in bidding shall be allowed for further viewing of any parcel.

8. The various parcels shall be offered from the list of parcels, previously available, in such order and manner as the auctioneer shall deem proper.

9. The Legislature reserves the right to set minimum opening bids on any or all parcels to be auctioned at any time prior to the auction.

10. The premises identified by Tax Account No. 7.10-1-72 formerly owned by Mark and Laurie Banker, located on Point Breeze Road, be sold with the restriction in the deed that "no building ever be constructed on these premises" and that the parcel be subject to a minimum bid price of \$2,000.00.

Unanimously adopted.

After the adoption of the above resolution, Chairman Eddy opened the floor for comments that anyone might have. Legislator Munger said, "I just want to say that this has been a mighty short trip into politics and it has been a pleasure. I wanted to get into it a couple of years ago, with the idea of learning how the County

runs; its operation. I don't believe anybody can ever learn it all, and I am much wiser than I was a few years ago.

Everyone that works for the County has to be commended. I believe that we have a dedicated group of department heads. They do a real nice job for the County. As far as my own committee is concerned, Lois Brandt, the Clerk of the Legislature; Mary Basinait, the Treasurer; Sandy Bower, Personnel & Self Insurance Administrator; Lucille Bloom, the County Clerk; Tom Young, County Attorney; John Strickland, Weights & Measures Director - all of these make it easy for a Legislator to look good in their committee work. Last year, I had the Youth Bureau as a department, and Rob Tirsch, its director is a very dedicated person. I think, too, that we all agree, that all the people who work for the County are dedicated to their jobs. They may come in with the attitude of its just another job, but they become dedicated employees; that is why the County runs as good as it does. I feel that I am going to be leaving the County in good hands from here on."

The privilege of the floor was given to Mr. Seldon Stewart, Albion, New York. Mr. Stewart asked what the County is going to do about the increase mandated by the Governor. He noted that senior citizens are paying a good deal of taxes for the County and that they can't stand raises all the while. Mr. Stewart noted that his own earning power is limited and that he cannot stand continued raises. Chairman Eddy replied that the increase was brought about by the action of the Governor of New York State.

Motion by Legislator Billings, second by Legislator Cook, to recess the meeting until 7:30 p.m. on December 28, 1984. Carried.

Meeting recessed at 8:25 p.m.

ADJOURNED MEETING
December 28, 1983

The meeting was called to order at 7:30 p.m. by Chairman Dick Eddy. After the pledge to the flag, the Clerk called the roll and all Legislators were present.

The Clerk read the following communications:

A letter from the County Treasurer submitting the list of 1983-84 School taxes (including 7% penalty) to be added to several towns in Orleans County;

A letter from NYSAC acknowledging receipt of resolutions re advancement of funds to counties for the HEAP program; resolution calling for timely reimbursement by the State to the Counties for expenses incurred on behalf of education of the handicapped children and resolution seeking solution to the increasing number of physically handicapped children enrolled in the educational programs.

A letter from Assemblyman R. Stephen Hawley acknowledging receipt of the resolution on reimbursement by the State to the Counties for physically handicapped children's education program;

A letter from Lysabeth A. Hoffman, Town of Carlton Historian re naming of the proposed "pocket park" along Point Breeze Road;

A letter from Michael J. Dowling, Deputy Commissioner of Social Services acknowledging receipt of resolution No. 348-1283 opposing State action regarding increases in basic shelter allowances;

A letter from Patrick Rountree, Director of Planning and Development Department re an appointment to the Orleans County Planning Board;

Report of Standing Committees: Legislator Bennett said he had nothing to report. Legislator Billings referred to the letter from the Carlton Historian re the naming of the "pocket park" and felt the name suggested was certainly eye-catching, and suggested that the County go ahead and get something done with it. He noted that if we were to preserve the dug area it might affect the overall plans.

Legislator Swiercznski reported the Public Health Board would be taking action on the Health code after the first of the year. Legislator Cook said that all the legislators were taking part in the interviews for

the highway superintendent position.

Legislator Berger reported attendance at the usual meetings. He noted that all the legislators had received copies of the report from the Task Force for the Needs of the Elderly, and commented that Commissioner Hardenbrook, Social Services Department and Mrs. Carol Blake, Director of the Office for the Aging should be commended on the report. Legislator Munger had not held any committee meetings.

During the open discussion portion of the meeting, privilege of the floor was given to Mr. Robert Palmer. Mr. Palmer said he was concerned with the manner in which various codes are enforced throughout the county, and mentioned in particular the new fire and building code. Legislator Cook explained that if the town decides not to be the enforcing agency, then the county can enforce the code, and if the county decides against that, then the State will become the enforcing agency. It was further explained, that if there is a County Health Code, then the County Health Department can be called when there is a problem.

The following resolutions were then presented:

The year 1983 saw Orleans County moving ahead in many ways. Our Legislative priority has consistently been job creation as a means of improving the life of our community and reducing dependence on government. We were pleased with success. Through the efforts of our Economic Development Coordinator and the IDA, three substantial projects were begun. Two new businesses and one expansion will add to our employment base. The Legislature also took part in urging New York State to locate a new prison facility at Albion. This will soon become a reality with many new jobs in prospect.

Several administrative projects were undertaken. Computers continued to be part of county government with a new installation in the Treasurer's office. Also a small computer in the Legislature office enabled us to complete a detailed inventory of fixed assets and improve efficiency with word processing services. Social Services now has a computer doing check printing insuring accuracy and efficiency in their operation.

New communications equipment has been installed in the Sheriff's dispatch center. Nearly all emergency equipment within Orleans County is dispatched from the center and public safety has been improved by this addition. Our Youth-At-Risk effort continues to aim at crime prevention. Through early intervention in

the schools, there has been a reduction in youths declared to be Persons in Need of Supervision and Juvenile Delinquents. Our DWI Program has resulted in lower traffic fatalities, personal injury, and property damage. Also, it has received good public acceptance.

The accidental destruction of the Hanlon Road Bridge in Carlton required a solution which would improve safety and allow traffic to resume in the least possible time at a reasonable cost. These goals were met with the construction of a new road section by the Highway Department. An engineering study of County bridges was carried out and a five-year repair and improvement plan was made. Lakeshore Road (Yates), Point Breeze Road, and East Barre Road were rebuilt during the warm months.

All the work on the new County Office Building was completed with the landscaping of the grounds around it. The Commissioner's House near the Infirmary was repaired and painted and it is now occupied on a private rental basis. A Nurses call system was installed at the Infirmary.

A new honor was bestowed on our County when the New York State Association of Planners presented us with the Hugh Pomeroy Award for excellence and innovation in planning and zoning. Our Planning department prepared a site plan for the Carlton Landing Park on lease from New York State. Two towns

revised their zoning laws following the outline of the Model County Ordinance.

The Social Services Department collected over \$100,000 in child support cases, made 12 fraud arrests and helped with 12 adoptions. To reduce the high out-of-county cost for institutionalization, the county has established two Cluster Homes to house troubled youths. "Project Hire" continues to benefit the county and those receiving assistance through public work projects. To better train and provide private employment, the Social Services Employment staff has been combined with our Job Development people.

The Chief Administrative Officer continues to improve County operational efficiency. Through better coordination and effective methods, significant monies were saved during 1983 through this office. The following cost reductions accomplished: equipment purchases \$32,000; supplies \$15,000; contracts \$56,000; personnel \$16,000, and \$30,000 of new revenue was established.

Another year of cooperation among county employees, Department heads, and Legislators has benefitted the citizens of Orleans County. Through the intelligent and dedicated efforts of these people, county government continues to serve the public need with improving effectiveness.

PROGRAM

The Office continued service provision in the areas of transportation, homemaker/personal care aides, outreach visits, legal services, group meals, home delivered meals, information and referral, and HEAP benefits. These services are provided either directly or by contract. The major change in these services occurred in the homemaker/personal care contract. The number of persons served increased to 44 as compared to 37 in 1982. The number of units of service provided increased from 1,209 in 1982 to 2,463 in 1983.

What has been accomplished for these clients is support to non-Medicaid, non-Medicare eligible people who were at risk of nursing home placement. Of the 44 people served 15 are presently receiving service, 2 were transferred to Medicaid or Medicare, 9 recovered, 9 were admitted to a nursing home, 7 are deceased, and 2 moved away. Of the 7 deceased, 5 were very likely nursing home admissions.

Program (cont'd)

Because of a limited budget (\$15,000) for this service, we denied service to some applicants. However the experience with the 44 people accepted did bear out that with home care we can reasonably expect people to remain home longer. An additional note is that \$5,646.37 in contributions came in from clients towards the total cost of \$15,790.68.

A summary of the other services is as follows:

Transportation (via CATS) - 3,522 rides
Outreach visits - avg of 150 home visits/mth
Legal Services - 28
Congregate Meals - 14,406 meals served at 5 sites
Home delivered meals - 10,405
Information & Referral - avg of 130 contacts/mth
HEAP benefits - 600+ approved applications

A new initiative this year was the development of a cooperative agreement with Arnold Gregory Memorial Hospital to operate a Lifeline (Personal Emergency Response) Program. Initial funding was developed by the Office through proposals to United Way and 45 Foundations. A total of \$12,900 funding was received as follows.

United Way - Eastern\$2,000
United Way - Western 2,000
Davenport-Hatch Fndtn 5,000
Curtice Burns/Pro Fac Fndtn 1,500
Gannett Fndtn 1,500
Medina Lions Club 500
Garrett Club 400
 <u>400</u>
	\$12,900

The program started in early November. The responsibilities of the Office and Arnold Gregory are: Office - assess clients for eligibility, install units, test units monthly; Arnold Gregory - man response equipment 24 hrs/day, man response procedure when alarms come in, conduct monthly billing.

By the end of December, 8 clients were on Lifeline with an average age of 81. 4 live in Medina, 3 in Albion and 1 in Kendall.

The other major undertaking by the Office was co-chairing the Legislature's Task Force on Health Care Needs of Elderly Residents. The members of the Task Force did in depth research and discussion of the services we provide, the structure of these services, other options for this structure, needs of elderly persons and demographic trends. The final report was completed at the end of December and

1983 Activity Summary

is scheduled for formal presentation to the Legislature in early February 1984.

The final significant activity the Office developed was the second annual Walk-a-thon, cosponsored by the Medina Jaycees. The Walk-a-thon was held in October and raised \$6,163.86 which was equally divided between the Nutrition Program and the Office. While extremely successful, over half the money was raised by a single individual (Duane Case of Holley). Without major restructuring the event may not be as successful in 1984.

PROGRAM

This year was the first full program year for the DWI Program. Numerous activities occurred which centered around a better coordinated DWI network. These areas included enforcement, prosecution, adjudication, probation, treatment, education, public information and administration.

While arrests more than doubled from pre program years, amounting to 329 arrests from July, 1982 to July, 1983, arrests were reduced by 50% the third and fourth quarter of 1983, indicating the possible initial impact of the general deterrence model of prevention impacting on the community. This was further supported by a DWI Opinion Poll of County residents conducted by the STOP-DWI office.

A sample of 485 individuals were randomly selected from the Orleans County telephone directory. These individuals were contacted by telephone over a two month period of time. Complete confidentiality was exercised with each individual respondents answers. Responses were recorded on computer sheets by the volunteer surveyors with an average of twelve to fourteen minutes allocated to each respondent to complete the interview process over the telephone.

The 485 computer sheets were scanned by SUC Brockport/Data-Processing Unit with the results contained herewithin.

See Attached for Continuation

Those respondents that offered additional comments to questions 22, 102, 129, 148, and 111 as well as other random comments were recorded and are presented in the appendix, along with the survey instrument.

We anticipate that the results of this survey will be published in local newspapers. This report should be viewed as a baseline census, as we hope to repeat this survey in two years to determine if the public perception and attitudes have changed.

Abstract of Results:

The public appears very supportive of the County in trying to effectively reduce the incidence of DWI. There definitely seems to have a positive impact on the drinking and driving segment of the County. I would suspect that the public is supportive of our broad based initiative currently underway.

Conclusions:

It should be noted that our results are similar to a Statewide survey conducted at the 1983 State Fair by the NYS Department of Motor Vehicles. A recap report is attached in the addendum.

In summation, it would appear that the public is in favor of the overall efforts made by the State and County to deal more effectively with the drunk driver. It also appears that the public has placed trust in the County in dealing with their problem. It is particularly enlightening to realize that the public seems to believe and project that the problem is at least partially solvable. A general voice of confidence seemed to be placed in the existing institutions to impact on the problem.

The results seem to further strengthen the general deterrence model and the value of public information and education. This report has given insight as to where the residents of Orleans County stand on this important issue.

Those questions which allow for written comments to be recorded, following the report.

PROGRAM

Issued bonds for TREK, Inc.	\$375,000.00
Cormed, Inc.	272,500.00
TOTAL	\$647,500.00

TREK project for acquisition and renovation of three buildings in Town of Ridgeway, plus installation of new equipment. The project will bring 113 jobs to Orleans County, including 33 new positions.

Cormed project involved expansion of existing facility in Village of Medina and purchase of new equipment. Cormed expects to add 12 new jobs as a result of this project.

I. Economic Development Highlights - 1983

1. Recruitment and Retention

The department and IDA were instrumental factors in the recruitment of TREX, Inc. into Orleans Co. and significant expansions at Bayex Inc. and Cormed, Inc. Total capital investment of the three projects equals nearly \$3.8 million dollars, with estimated annual payrolls of nearly \$3.0 million anticipated within one year. Total new jobs created are projected by the three companies at 70 positions. TREX will also re-locate 80 current employees into the County.

- Two recruitment missions, with a third planned for December, 1983, were conducted in Canada - the primary target area for the County's business recruitment activities. Results of initial trip followed by telephone contact netted nine companies having interest in a U.S. operation within 18 to 24 months.

- 1983 goals stated expansion and retention of industry would be given equal priority to recruitment, as most job growth is generated by local industry. A total of 24 companies, most of the major industrial concerns within the County received at least one in-plant contact call. Several companies including Fisher-Price, Ontario Foods, Sopro, Bernz-O-Matic, Abex, and S.A. Cook received multiple visits.

2. Community Cooperation

Business and government communication and cooperation is an essential element in building a successful development program. Meetings with all 10 towns and 4 of 5 village boards were conducted to discuss services, planning and development incentives. Responses were generally favorable to the County program however, mixed reactions to specific proposal were received.

- Participation with business-orientated groups: Chambers of Commerce, Manufacturers Council, and local development corporations was extensive to increase business awareness of the County's role in fostering development.

3. Marketing Data Revision

Updated the file of available existing buildings, last done by Battelle Organization in 1980-81. Assisted the Regional Planning Council with writing of a business development guide and revised materials on Orleans County.

4. Falls Road Railroad

Assisted the Planning Director in establishing the Falls Road Shippers Association and representation of the County on the Statewide Conrail Task Force.

5. Legislation and Research

Monitored State and Federal legislative proposals affecting economic development. Researched sewer and water fees for industrial users in the County and other Western New York communities.

6. IDA Administration

Worked with IDA members to establish application review guidelines. Summarized payments-in-lieu of taxes schedules and established billing systems.

PROGRAM

In Fiscal Year 1983, we received 30% less funds than we did in Fiscal Year 1982. This was because FY '83 was the phasing out year for the CETA program. As a result, we were not able to provide services to as many clients. We served 70 clients in our Title IIB training program for adults, 13 in our Vocational Education Grant and 26 in our youth employment and training program. We were forced to shut down these programs in March and April because of New York State Department of Labor directives. We serviced 92 in our Summer Youth Employment Program.

Performance-wise, we obtained a 42% entered unsubsidized employment rate in our Title IIB employment and training programs. In other words, 46 out of 109 found jobs as a result of our program and staff efforts.

It is also interesting to note that 35 of the 46 entered employment in the private sector. In our continuing effort to service the public assistance recipient, 45% of the total enrolled in our Title IIB program were welfare clients. 27 public assistance recipients found employment through our efforts. That's a 55% entered employment rate of those recipients enrolled in the program (49).

Other Highlights of 1983

- We continue to provide a meaningful program for High School Equivalency Preparation Youth and adults who have not received their high school diploma have an opportunity to do so through this program. We only served 43 students during this year due to the shortening of the program as CETA wound down. 21 students signed up to take the exam and 17 passed it and received their high school diploma.

- We also offered an Adult Basic Education Program for those people with less than a 9th grade reading level. This program is desperately needed, as more than 60% of all public assistance recipients have below a 9th grade education. Approximately

PROGRAM

SERVICE RESPONSIBILITIES:

To provide Intake/Diversion¹, pre-sentence investigations², and Probation supervision services³, toward contributing to the system's handling crime problems in a safe, effective, humane and yet economical fashion.

¹ Intake/Diversion, where acceptable to the victim, and prudent, adjusts cases by counseling and negotiation between offender and victim, without Court action, generally in cases involving domestic violence, family fights, and disputes, marital discord, separated spouses (non-support, custody, and child visitation), children committing crime, runaway and incorrigible youth, neighborhood disputes, minor crimes, and first offenses.

² Investigations attempt to give the Judge a factual picture and an emotional grasp of the human before him so that he can sentence in a manner best suited to the protection of society, the rehabilitation of the defendant and to deter others from committing crime.

³ Through understanding, concern, and discipline, the probation officer helps the client avoid further criminal activity and, when applicable, to become a more productive community member.

1983 Achievements:

Intake/Diversion -- We have serviced 642 cases at Intake/Diversion --78% were successfully screened from Court, at approximately 1/4 cost of going through Court. Studies demonstrate that persons handled at this level are less apt to commit further crime, than those that go through the formal Court system.

Pre-sentence Investigations -- We have done 268 pre-sentence investigations, aiding Courts to sentence with knowledge -- Courts agreed with our recommendations as to jail or no in 87.5% of cases.

Supervision -- We supervised, during 1983, 443 probationers at a comparative cost of \$52 per month for probation --vs- \$831 for the County Jail, \$1,687 for Attica, and \$4,988 per month at New York State Industrial School.

1983 Highlights:

1. Continued to participate in "At Risk" Youth with two officers with 229 youths served and only 6 had to be sent to Court. P.O. Didas developed recreation/counseling programs with 10 boys involving sports, picnics, refinishing furniture (they get profits) and rebuilding bikes, two days per week.
2. We've stressed alternative punishment in 1983.
 - (a) Collected \$25,218 in restitution (3 times higher than State average)
 - (b) Recommended and supervised sentences: 92 Restitution, 35 Community Service, 41 Fines, 33 Split (Probation/Jail), 4 Weekend Jail and 11 Restrictive Probation, included in 443 Supervision cases.

The probationers, who were to perform Community Service--that is do work for governmental and private-not-for-profit agencies--contributed a total of 833 hours of work, valued at \$3,332.

3. Through voluntary efforts by P.O. Riley and despite verbal resistance, we've continued Diversion services to criminal courts and have opened 44 cases.
4. For more community safety, we continued to emphasize intake and supervision, with de-emphasis of pre-sentence investigation; pulled all staff but one officer, off pre-sentence investigations. We've utilized a probation assistant, student interns, and a Project Hire person to do 269 pre-sentence investigations.
5. Domestic Violence -- We've developed five volunteer "safe homes" as refuges for mothers and young children. We counseled 61 victims and 47 offenders, assisted 19 victims in preparing cases for Court, and housed victims and children in four different instances.
6. Nine volunteers have contributed 2781 hours of work to department.
7. Helped develop training sessions and participated jointly with other agencies: Human Services Conference 6/83; Certificate of Relief 3/83; Learning Disabled 10/83.
8. Provided two Job Workshops for 19 probationers: helped with resume writing; while under supervision thus far this year, 35 probationers have enrolled in ABE/GED courses, with 7 obtaining their GED; 9 have enrolled in college and two more have applied.

9. Maintained high staff morale -- indicators: (a) 4.92 sick days/person excepting S. Didas out 55 days for broken knee and wrist); (b) staff longevity - 9.09 years/person; (c) community involvement - staff serve on 12 private charity and 10 public advisory boards.

One clerical person working on her Associates Degree in Criminal Justice, doing her internship in our office. We've continued our monthly staff groups; have arranged to have a State specialist in group counseling attend and help, with the possibility of trying this method in other departments.

10. We've taken 12 youths on 3 "Scared Straight" type trips to Attica.

11. Enhanced county or county reputation: Seved on County Negotiation, Rules and Human Services Committees; coordinate Public Safety Advisory meetings NACo Criminal Justice Steering, National Migrant Health, State Criminal Justice Proposal and Alcohol Treatment and Crime Committees; American (U.S. and Canadian) Probation and Parole Association's (APPA) Position Papers and Program Committees.

P.O. Didas was guest speaker at State Conference on Youth and Director at APPA Conference and Middle Atlantic States Conference on Corrections. Two officers were panalists in the "Chemical People" programs. Three staff have provided training to six other agencies. P.O. Crowley is coaching soccer and basketball at Lyndonville Schools.

1984 Goals: (1) To develop single-entry, multiple report MIS for three case categories; (2) to increase spouse abuse referrals through public appearances, media and pamphlet distribution; (3) to study feasibility of MIS for pre-sente investigations; (4) to develop word processing; (5) to administer a specializ enforcement-oriented supervision method with at least 50 DWI cases.

Looking Back:

It's frequently asked: "With the county population remaining constant, why are departments, like probation, growing in size?"

Comparing 1973 with 1983 gives us some notion:

Staff	Intake Cases	Investigations	Supervision Cases
9 1973	419	94	179
14 1983	642	286	443
55% Growth	53%	204%	147%

Police and Court activities indicate the same kind of growth. Enforcement of our laws is important and the fact that in each of the last two years there's been a reduction in juvenile delinquency, adult crime and automobile accidents indicates it's been effective.

Respectfully submitted,

 Robert E. Golden
 Director of Probation

PROGRAM

Location of the Real Property Tax Services office was changed in January to the basement of the County Clerk's Building, in the former Motor Vehicle Bureau quarters. Since two members of the department had already been "camping out" there for over a year, this consolidated the department in one location and has made department services more efficient.

The Director completed required training and received certification from the State Division of Equalization and Assessment. Director and assessors also began attending courses and seminars to earn continuing education credits mandated by State Law.

A series of informational articles on general assessment topics was published in local papers, as a public relations effort.

Regular work of assisting assessors, attorneys, realtors, surveyors, lending institutions and the general public has continued to increase. The county assessment file was converted to Version 17 of ARLM, and assessors were trained in this system. Decision was made by the Legislature, on recommendation of the Assessors Association, that computer processing be done by the Local Services Office of SDEA in Batavia, necessitating preparations for the change.

**ORGANIZATION MEETING

ORLEANS COUNTY LEGISLATURE
January 5, 1984**

The meeting was called to order at 7:30 p.m. by the Clerk of the Legislature. Reverend Robert H. Mowatt, pastor of the First Baptist Church, Albion, New York, offered the following prayer:

"Almighty God, if ever a body of legislators needed divine guidance and divine wisdom, it is now, as the Legislature of Orleans County begins a new session, standing upon the threshold of this new year filled with so many challenges.

We pray, O God, that Your blessing will be upon these servants chosen by the people of this area.

Give to each of them a unified strength so that even though they are of diverse opinions, the ultimate good of the whole of the Albion area may take precedence.

May they always remember that what is said and done in these chambers is accomplished in the sight of God. May these legislators always remain loyal to truth and justice so that they will never fear the intrusion of public opinion.

Bless each person here gathered according to his or her deepest need and ability and use each person to the extent that the needs of this area will be met and stability of human enterprise be accomplished.

For the willingness of these men and women to serve in an often thankless role, we render our humble gratitude.

Prosper them and guide them now, and in all future days. Amen."

After the adoption of the above resolution, Legislator Swiercznski asked about the reappointment of the Chief Administrative Officer, and Chairman Billings replied that it was a continuing situation. The County Attorney agreed, saying that when the position was created, the resolution specified that the individual would sit at the pleasure of the Legislature - it is not necessary to reconfirm the position. Legislator Swiercznski felt that the position should be down-graded to Administrative Assistant; whereupon, Legislator Bennett presented the following resolution, which was seconded by Legislator Vick:

RESOLUTION ELIMINATING POSITION OF CHIEF ADMINISTRATIVE OFFICER AND CREATING POSITION OF LEGISLATIVE AIDE

A resolution eliminating the position of Chief Administrative Officer and creating the position of Legislative Aide, as follows:

Section 1: To be appointed by and serve at the pleasure of the governing legislative body.

Section 2: Legislative Aide to report directly to the Legislature and be particularly responsible to the Chairman of the Board.

Section 3: Basic responsibility is to promote economical and efficient coordination of activities and operations of County Government; other duties to include:

- a. Attend meetings of Legislature and its committees as requested.
- b. Attend to County Purchasing matters.

- c. Coordinate activities between departments as directed by the Legislature.
- d. Assist the legislators in special projects and assignments as directed.
- e. Research and recommend long range plans regarding capital improvements, financial planning and general county development.

Section 4: Nothing herein contained shall be construed as modifying or transferring any power, duty, authority of the Legislatue or department head.

Upon discussion of this resolution, Legislator Vick said he was not in agreement with the alignment of present position. Legislator Vick felt the job as it is now defined, is much like a County Executive. If this is necessary, then it should be put on the ballot; he agreed with Mr. Bennett. Legislators Cook and Berger felt there was no reason to change the position as it now stands. Legislator McMurray felt that the Chief Administrative Officer had done a good job, and there was no reason to eliminate the position. Legislator Bennett, second by Legislator Cook, moved to call for the question. Roll call vote was taken, as follows:

Legislator Bennett	Aye
Legislator Berger	Nay
Legislator Billings	Nay

LEGISLATURE MEETING

January 11, 1984

The meeting was called to order at 7:30 p.m. by the Chairman. After the pledge to the flag, the Clerk called the roll and all the Legislators were present.

The Clerk presented a letter from Assemblyman Hawley acknowledging receipt of Resolution No. 348-1283 opposing the Governor's action regarding the increase in basic shelter allowance.

Report of Standing Committees: Legislator Berger reported he had attended regular meetings with departments, towns and villages. He noted that Orren Roberts is now chairman of Soil and Water, replacing David Mathes.

Legislator Vick reported he had met with all department heads covered by committees; general orientation meetings, which went very well.

Legislator McMurray reported he had not had the opportunity to meet with any of his committees.

Legislators Swiercznski, Bennett and Cook reported the usual meetings.

During the open discussion portion of the meeting, Mr. James Rodgers, Town of Gaines was given privilege of the floor. Mr. Rodgers noted that he had attended the previous meeting, and was somewhat disappointed because he felt that the voters of the County had indicated they wanted a change - one of the changes was the resolution proposed by Legislator Bennett, calling for a Legislative Aide instead of a Chief Administrative Officer. It was Mr. Rodgers opinion that the Legislators were elected and paid to run the County. Chairman Billings asked if anyone wanted to respond to Mr. Rodgers, and there being no response, the following resolutions were presented:

The Clerk presented the following communications: A letter from Francis Nayman, Vice Chairman of the Past & Present Supervisors' Association of Orleans County, inviting the members of the Legislature to their next meeting;

A report on the 1983 Orleans County Fishing Derby;

A report from the County Treasurer on the Petty Cash Accounts in the various County departments;

He reported that the Tourism Board was having problems selling enough advertisements to make the State matching funds. He had also met with the Tax Collectors Association to find out about their problems. They were requesting sample bills and roll books so that they can see what they will look like.

Legislator Cook reported he had been meeting with his new departments. Legislator Swiercznski reported that he and Legislator McMurray had a meeting with Probation. He was meeting with Mental and Public Health Boards later in the month, with the issue of fees being discussed at the Health Department.

Legislator Vick reported he had attended the Supervisors' Meeting and also had met with the County Clerk, Treasurer and Motor Vehicle Departments; Mr. Vick also attended negotiations with the Sheriff's

Department.

The privilege of the floor was given to Mr. George Herring of Kendall, New York, who is the County representative on the Western Regional OTB Board. Mr. Herring reported the Corporation had returned more to the municipality this year, than it has ever done before - 22% more. When asked about directors attending conferences in other states, Mr. Herring explained that these conferences were the only contacts the directors had with the people running the race tracks. He explained that the Board has to negotiate every time they change tracks. When asked about the possibility of Albany running OTB, Mr. Herring commented that the Governor had said that he wasn't sure the State could run it any better. One problem they were having was that the Legislature kept taking money away before the Corporation could pay its bills. Mr. Herring told the Legislators they were welcome to attend a meeting, to learn more about OTB.

The following resolutions were presented:

WHEREAS, it would complicate and interfere with the working relationships among the other local criminal justice agencies and probation; and

WHEREAS, it will be less responsive to the local community, victims, police and courts; and

RESOLUTION AMENDING RESOLUTION NO. 56-184 RE APPOINTMENT OF COUNTY HIGHWAY SUPERINTENDENT

RESOLVED, that resolution No. 56-184 adopted at the January 25th meeting of the Legislature is hereby amended to include the following statement:

"said appointment to begin on Wednesday, February 15, 1984."

Adopted. 7 ayes; 0 nays; 0 absent.

Prior to adjournment, Mr. Dudek, in reference to union negotiations with AFSCME, advised the Legislators that the Sheriff's Department had come to terms with the County; and that the contract needed only to be ratified.

Legislator Vick, in commenting on the proposed Coast Guard official to be at the Carlton Land Lease, said he was opposed to this. Mr. Vick was in favor of contacting the Coast Guard to see if this individual could be accommodated at the entrance of the Lake. He felt it would be better to have this arrangement than have a Sheriff's patrol there. Mr. Dudek responded by

saying he had attended a meeting with the Coast Guard, Parks Commission and the State. The Coast Guard said from an operations point of view, they were not going to be involved in law enforcement at all; as far as location goes, it wouldn't matter. Their prime concern is the inspection of boats; doing some search and possibly safety activities. The Parks Commission said they would take into consideration the Coast Guard's request; they were willing to cooperate. Legislator Vick felt that the dockage in the area would be used more for private interests, than for the purpose for which it was intended - that of promoting tourism in the area. In referring to the Coast Guard installation, Legislator Berger made the suggestion, that a stipulation be made that when the west side of Oak Orchard Creek is developed, the installation could be used there; in the meantime, the Carlton Land Lease is the only other place available.

There being no further discussion, motion by Legislator Swiercznski, second by Legislator McMurray, to adjourn. Motion carried.

Meeting adjourned at 8:50 p.m.

LEGISLATURE MEETING

February 22, 1984

The meeting was called to order at 7:30 p.m. by the Chairman. The Clerk called the roll, and all the Legislators were present.

The Clerk presented the following communications: A letter from the NYS Department of Public Service acknowledging receipt of letter and resolution regarding public access to Lake Alice;

Acknowledgement from Assemblyman Hawley, of Resolution 40-184 in reference to local assessment and taxation of State-owned land;

A letter from the National Park Service of the United States Department of the Interior advising the County that the Seaway Trail had been designated a National Recreation Trail (NRT) on December 12, 1983;

Acknowledgement of the County's Resolution opposing an increase in the shelter allowance for public assistance recipients, unless increases are fully reimbursed by the State;

A letter from Mr. George W. Wolfe stating that he would no longer be able to serve on the Medical Scholarship Committee, and thanking the Legislature for making it possible for him to have been a part of the Medical Scholarship Project;

Report of Standing Committees: Legislator Vick reported he had meetings with Jim Hancock and Lucille Bloom; Legislator Berger reported attendance at the regular meetings;

Legislator McMurray reported he had meetings with two of his departments; Legislator Swiercznski reported attendance at the Health Board meeting; Legislator Cook attended a meeting with Luther Burroughs, along with Legislator Bennett, to discuss Community Colleges, and attendance at the Solid Waste meeting in Batavia; Legislator Bennett noted that the biggest item in the last two weeks was a meeting with the Fishery Advisory Board. Mrs. Carol Oschmann had asked the Legislature to allow the funds allotted to the Fishery Advisory Board to be given to the Tourism Board to be used for the Fishing Derby. In reference to the solid waste problem, Mr. Bennett noted that there were four from the County who went to Genesee County to attend the meeting on Solid Waste. He felt it important that Genesee County know that Orleans County is willing to look further, and to

work together with them on a study basis. Mr. Bennett also noted that the County Planning Board meeting had been cancelled.

During the open discussion portion of the meeting, Chairman Billings mentioned the NYSAC Conference in Albany, and noted that it was very important to attend these meetings. He noted that he, the Chief Administrative Officer, the County Attorney were going to attend. Legislator Cook said he and Legislator Berger were going to attend Assemblyman Hawley's conference later in the month.

There was discussion on the proposed deferred compensation plan, and the corporation involved. The County Attorney said that they were a public benefit corporation. Mr. Dudek reported that NACO had investigated and they felt that PEBSO was one of the best corporations to be involved with this type of program.

Chairman Billings, in referring to the letter from Mr. George Wolfe, recommended that a Certificate of Appreciation be sent to Mr. Wolfe for his years of service as a member of the Medical Scholarship Committee.

Legislator Cook reported he had attended the Supervisors' Meeting. Legislator Cook also reported attendance at meetings in Albany with three town supervisors. While there, Legislator Cook attended meetings at DEC and Department of Transportation, and in particular had discussions on the CHIPS Program, and the Fire Code.

Legislator Swiercznski reported attendance at regular meetings - Public and Mental Health Board meetings. Legislator Swiercznski also attended a

meeting on Physically Handicapped Children - Education Program.

Legislator McMurray reported attendance at the usual meetings with his departments, also that he had attended the sessions in Albany.

Legislator Berger attended the regular meetings for his departments, and attended the sessions in Albany. Legislator Berger met with Al Maroli of the State Comptroller's office, to discuss the two different systems of accounting, also discussed this with Michael Scott, and mentioned to both gentlemen of the resolution adopted by this Legislature, and the fact that copies had been sent to both. Mr. Maroli said he had not received a copy. Legislator Berger asked that Mrs. Brandt send a copy of the resolution along with a copy of the original cover letter to Mr. Maroli.

Legislator Vick reported he had made an inspection of all county properties with the Buildings and Grounds people; he had met with Mr. Dudek and the Maintenance Committee to prioritize all the County maintenance problems at this point. Legislator Vick noted he had met with Highway and Buildings and Grounds Departments to discuss the roof repair at the Highway Department; had met with the Board of Health, had attended the meeting on the Physically Handicapped Children-Education Program, attended the Legislative Conference in Albany. While there had met with NYSDOT to see if the ceiling on the CHIPS program could be raised; felt it would be a good idea for the County to go on record in favor of this.

During the open discussion portion of the meeting, the privilege of the floor was given to Larry DiPalma, from Point Breeze, Town of Carlton. Mr. DiPalma had many questions in reference to the proposed park located by the Parkway Overpass near Point Breeze. He asked why the County felt there was a need for a park, and if there were any plans for such a park. (Mr. DiPalma was shown the proposed plans for the area). He noted that there was a definite need for parking space, but felt that the parking area in the proposed park was too far from Point Breeze. There was concern by the residents in the area, that there might be noise problems, people coming and going at all hours, this type of thing might be going on. Mr. DiPalma asked if the fencing currently installed, could be extended to the creek to prevent the public from going to private residences along the creek. It was felt there would be no problem in doing this. There was discussion on the Coast Guard and the auxiliary Coast Guard, and what their patrols would be - the proposed schedules for these patrols. Legislator Berger suggested that the Coast Guard in Rochester be contacted to clarify the matter. When asked who has

final say on construction - what is going to be there, Legislator Billings explained that the County, with approval from the State, would decide on park plans.

A petition containing 27 names, opposing the fee schedule for the testing of water samples and requesting the Legislature to eliminate the proposed fees for testing well water;

Notification from the Inter-County Association stating that the next meeting will be held in Niagara County on April 18th;

Report of Standing Committees: Legislator Vick reported attendance at two Financial Committee meetings; Legislator Berger reported attendance at the usual meetings - towns, villages and committees. He had met with the various Veterans organizations in the County to look into the matter of putting up a suitable memorial with the flag pole, at the County Administration Building. Mr. Rho Mitchell of Albion is working on the project to see what is available. The suggestion has been made to have the inscription read "Dedicated to the Veterans of Orleans County who have served in the Armed Forces of their Country". It was felt that this type of inscription would cover everyone, and every branch of the armed forces. Legislator Berger said that it is hoped that the dedication will be held on May 30, 1984; more information would be forthcoming at the next Board meeting;

Legislator McMurray reported regular meetings with his department heads; also worked with Legislator Vick on the Finance Committee. Mr. McMurray had met with the Highway Superintendent becoming familiar with the Bridge Program;

Legislator Swiercznski attended the regular Town Board meetings at Albion and Gaines; also with the Board of Health and Community Services Board;

Legislator Cook reported attendance at the Town of Clarendon and Barre Board Meetings; also that he and the CAO were working on a mail survey conducted among all the Town Assessors to up-date the County on any problems that might be occurring;

Legislator Bennett reported he had been working with Mr. Rountree, County Planning & Development Director, on the solid waste problem; also reported attendance at the Albion Town Board meeting. Mr. Bennett said he had met with Luther Burroughs of the Community College Committee, and announced that Legislator Cook had called for a Committee meeting on the 18th to discuss further action on Community Colleges to see what progress the Committee has made.

During the open discussion portion of the meeting, the privilege of the floor was given to Mr. and Mrs. Walter Norman (Mr. Norman is Town of Carlton Supervisor), Councilmen John Sage and Kenneth Rush, from the Town of Carlton. They were in attendance to speak to the Carlton Land Lease Development Plan. They were concerned as to whether it would be a regular park, or mainly a parking area for cars with boat trailers, restroom facilities, docking facilities, and a walking ramp to the dock area. Concern was also expressed over a proposal from the Coast Guard Auxiliary to have a trailer located in the park to use as a station. (The comment was made that at one time, plans called for a rustic type building, and it was felt this would be satisfactory; there would be no problem with that type of arrangement.) Question was raised as to who would police the park, and who would actually manage the park.

Legislator Swiercznski suggested, that the Town Board draft a list of rules and regulations, including any restrictions, which would satisfy the Town, and submit this list to the Legislature. It was noted that grants have been received by the County toward the development of this area. Legislator Cook noted that the first \$50,000 received, would be used for the development of a parking lot. Developers would be notified that this phase was being implemented, so that they could submit their proposals for the remaining area, as quickly as possible. With reference to the Coast Guard Auxiliary trailer being located in the park area, Legislator McMurray noted that the State was going to be developing an area on the west side of the creek, and that the auxiliary would be moving to that area when that land is developed. So that, in a sense, the Coast Guard Auxiliary station would be temporary. The suggestion was made that a sign, with park hours on it, could be posted. The responsibility of policing of the area would have to be decided upon. Legislator Swiercznski mentioned that perhaps county people and equipment would have to be utilized to pick up trash, etc. at the park. The representatives of the Town Board asked the Legislature to keep them informed on the progress of the Carlton Land Lease Development.

The following resolutions were presented:

RESOLUTION APPROVING COUNTY POLICY ON EARLY DISMISSAL AND CLOSINGS

RESOLVED, that the following policy on early dismissal and closings, is hereby adopted by this Legislature:

Orleans County Policy on Early Dismissal and Closings

Early Dismissal: An emergency which occurs after employees have reported to work and which requires them to be sent home early.

Notification - The heads of each department will be called by the Legislature Office with notification and approval of early dismissal.

Payment - Employees sent home early will be paid for the balance of the day as if they had worked. Employees absent from work on this day because of compensated leave (sick, personal, vacation) will have their time charged to such leave.

Emergency Closing: An emergency which requires the closing of a county facility before employees report for work.

Notification - Radio Stations in Buffalo WBEN, WKBW and WGR and in Rochester WHAM and WEZO will be notified whenever possible. The Sheriff's Department will be requested to issue an announcement to home monitors.

Payment - All employees affected by the closing will be paid as if they had worked except that if said employee is absent both the last scheduled day before and the next day following the closing, payment will be treated as if the absence was continuous. Example: if employee was sick the day before and the day after the closing, payment will be charged to sick leave.

Exceptions: Because of the mandatory nature of the service provided by the Sheriff, Highway and Home & Infirmary Departments, they will not be considered closed as a result of severe weather conditions, unless specifically announced. Employees unable to report will not be paid unless they are eligible for compensated leave such as personal leave. However, an employee who is unable to report during a period when other offices are closed will be offered "make up" hours whenever possible.

Temporary Employees who are not eligible for benefits will not be paid for early dismissal or closing of County facilities.

Adopted. 7 ayes; 0 nays; 0 absent.

A resolution setting fees for services rendered by the County Health Department was introduced by Legislator Swiercznski, with second by Legislator Cook. During the discussion of the resolution, the Legislators made the following comments: Legislator Cook stated that he was not in favor of fees, per se, but that he would vote for it anyway; "you have to bite the bullet"; Legislator Bennett commented that he was not in favor of the fees; but that he agreed with Legislator Cook's comment. However, Mr. Bennett said, "Mr. Bower convinced me that by charging fees, we lose State reimbursement, that is one of the reasons I have taken

my position." Legislator Berger noted that fees are charged for nursing services, and there are fees involved in this situation - that it was just good business. Legislator Swiercznski felt the amount of State reimbursement lost would be offset by the amount of fees collected. Legislator Vick commented that he concurred with Mr. Bennett's sentiments. Mr. Vick also stated that "I believe in principal with some of the fees, but do not agree with the proposal in total."

The County Attorney asked if the intent is for Health Department to collect the fees, which will then be payable to the General Fund. Legislator Swiercznski said that was the intent.

Legislator Bennett called for a roll call vote, which proceeded as follows:

Legislator Bennett	Nay
Legislator Berger	Aye
Legislator Billings	Aye
Legislator Cook	Aye
Legislator McMurray	Aye
Legislator Swiercznski	Aye
Legislator Vick	Nay

The following resolution was then adopted:

WHEREAS, a large amount of funds have been invested in the marina at Point Breeze, providing the general public with modern restroom facilities, a large, lighted parking area, and boat launching facilities; and

WHEREAS, the Orleans County Fishery Advisory Board has recommended to this Legislature, that a fish-cleaning facility at the Point Breeze Marina would

After the adoption of the above resolution, Legislator Bennett made the motion to recess in order for the Legislature to go into executive session to discuss a personnel matter. This was seconded by Legislator Cook. Upon vote, the motion was carried. Meeting recessed at 7:55 p.m. Reconvened at 8:10 p.m.

In reference to Senator Daly's appearance at the afternoon Conference Session, Legislator Vick noted that Senator Daly will be forwarding to the Legislature a copy of a senate bill which will raise the \$50,000.00 ceiling limit for highway projects.

In discussing the proposed veterans memorial, which will be installed at the County Administration Building, the Chief Administrative Officer, Mr. Dudek, presented drawings of the memorial, explaining that it would be made of marble, with an inscription, and either an eagle or bas-relief of the heads of the presidents as they appear on Mt. Rushmore, at the very top of the memorial. The cost for the memorial would be \$2700.00. In discussing sites for the memorial, a couple of suggestions were made - one in the garden area at the back of the Administration Building, another to the east of the building. The suggestion was made that a definite decision should wait until the next meeting, so that Legislator Berger will be present.

Legislator Vick said he had talked with Judge Miles about the Court House, and the repairs which were needed. Specifically, water damage on the ceiling in the Court Room and the ramp which needs to be completed. Legislator Vick suggested retaining an architect to do a survey on the Court House, and make recommendations as to how the leakage problem should be solved. After much discussion, Chairman Billings suggested that the

Buildings and Grounds Superintendent make a survey of the situation and get back to the Legislature with a report, and after this is done, then a decision in reference to hiring an architect will be made.

Motion by Legislator Cook to adjourn. Second by Legislator Swiercznski. Motion carried.

Meeting adjourned at 8:30 p.m.

LEGISLATURE MEETING

May 9, 1984

The meeting was called to order at 7:30 p.m. by the Chairman. After the pledge to the flag, the Clerk called the roll and all the Legislators were present.

Representatives from the Knight Watch Drum and Bugle Corps were present at the meeting, and were presented a County Flag by Chairman Lyndon Billings and Legislator Richard Bennett.

Mr. Glen Cooke, Executive Director of the Genesee/Finger Lakes Regional Planning Council, was given the privilege of the floor. Mr. Cooke presented each legislator with a copy of the year-end report of the Council, and proceeded to briefly go over each item in the report. Mr. Cooke also mentioned outstanding participation by County representatives, in particular Chairman Billings, Mr. Dudek, Patrick Rountree, from the Planning Department and Tim Spellman, Economic Development Coordinator; also Mr. Eddy and Mr. Munger, former members of the Legislature.

The Clerk presented the following communications: Three requests from property owners in the Town of Carlton to include their land in the Kendall Ag District; a letter from Assemblyman R. Stephen Hawley acknowledging receipt of resolution in reference to the State providing adequate staffing for DEC's solid waste section;

Thank you letter from Dr. Guy Walters, for the Certificate of Appreciation given to him by the Legislature; an invitation from the Youth Bureau to attend the 1984 Youth Recognition Banquet scheduled for May 21, 1984;

Acknowledgement of receipt of resolution 164-484 in reference to the fish cleaning station at Point Breeze, from New York State Office of Parks, Recreation and Historic Preservation - Genesee Region;

Notification from Carri Blake, Director of Office for the Aging of a vacancy on the Aging Advisory Council, and a recommendation that Manley Whipple be appointed to fill this vacancy, also recommended Mr. Whipple to be Aging liaison to the Community Action Board of Directors;

Notification of the Inter-County Association Meeting to be held on May 16, 1984 in Cheektowaga, New York at the Gateway - Holiday Inn.

Report from Standing Committees: Legislator Swiercznski referred to the letter received from Dr. Walters, noting that he would leave a void in the County, especially as he had worked at both the Albion and Medina Hospitals. Legislator Swiercznski reported attendance at the usual meetings.

Legislator Cook reported attendance at town board meetings in Barre and Clarendon, and at the regular department meetings.

Legislator Bennett noted that another Waterfront Revitalization Meeting is scheduled for May 21st at 7:30 p.m. in the Town of Kendall. Mr. Bennett also mentioned that this was in conflict with the Youth Bureau Recognition Banquet, and suggested that something should be worked out so that both programs could be attended by the Legislators. Also that there is a meeting on the 17th at the Park in Carlton.

Legislator Vick reported attendance at the Carlton Town Board meeting, the solid waste meeting and waterfront revitalization meeting in Kendall; also a meeting to finalize the down-grade of position policy and self insurance local law amendment. He noted a conflict with the Youth Bureau Banquet and the Waterfront Revitalization Meeting, and felt that something should be worked out - possibly holding the Revitalization Meeting at a later time.

Legislator McMurray reported attending meetings with his departments, also the Carlton Town Board meeting and the Waterfront Revitalization Meeting. Mr. McMurray attended the ground-breaking ceremony for the Village of Medina sewage treatment plant.

Legislator Berger reported that he attended the Soil and Water Div. I meeting in Perry Center, with nine others from the county; also the local Soil and Water meeting, and the usual department meetings. Mr. Berger said he and Mr. Swiercznski, and Mr. McMurray attended the Village of Medina ground-breaking ceremony for the village sewage treatment plant.

During the open discussion portion of the meeting, Mr. Dudek was asked for a report on the veterans monument discussed at the last meeting. Mr. Dudek said he was waiting for a proposal to be submitted from Brigden Memorials. He noted that the main concern seemed to be the location for the monument; whether in front, to the east, or at the rear of the County Administration Building.

Legislator Berger said there was a committee consisting of himself, Mr. Pratt, Veterans Service

Agency, the VFW commander from Lyndonville, and VFW past-commanders from Medina and Holley, and their opinion was that the garden area next to the rear entrance of the Administration Building would be a good place, as it would be viewed by many people.

Legislator Bennett said he would like to see the monument located on Courthouse Square, noting that during WWII, the people of the County brought scrap iron to the square, as their contribution towards the war effort. He felt it fitting that a monument honoring all those who serve in the Armed Forces be located on the Square.

Legislator Cook said he noted the sentiment involved, however, he felt that the monument would be seen by more people, if it was located at the rear of the County Building.

Legislator McMurray stated that from the beginning, when the project was first brought to the attention of the Legislature, he has been against putting the monument up on the hill; he still feels this way. Mr. McMurray agreed with Mr. Bennett, and said the Legislature should give the matter serious consideration, before locating the monument at the County Building. Mr. McMurray said that many people in the County drive by the Square, just to look at it, because it is so beautiful, and he felt this would be the best location for a veterans monument.

After further discussion, it was decided that the legislators would visit the County Building during the next Conference Session, to view the proposed site for the monument, and make a decision after that.

Legislator Vick introduced a resolution authorizing payment of a Capital Project Claim from the Building Account H1010. Second was by Legislator Bennett. During discussion of the resolution, Mr. Dudek explained that there was concern over the boundaries of the property on which the County Administration Building complex is located. He explained that the former survey seemed to be incorrect, as the new land survey showed that the County owned less land to the south and east of the building, and owned more land to the west of the building than was previously thought. Legislator Vick requested that a copy of the original survey be obtained for comparison purposes.

RESOLUTION NO. 165-584

By Legislator Vick, who moved the adoption.

Seconded by Legislator Bennett.

After the adoption of the above resolution Chairman Billings reported that Mr. Dudek has been doing some research on county sales tax. Chairman Billings said he would like to suggest having the Chairman of the Planning Committee work with the Planning Board and the Chairman of the Finance Committee. He has talked with Tim Spellman, whose office feels that quite a bit of promoting could be done in cooperation with the Chamber of Commerce. Orleans County is not getting anywhere near the money per population they should, as compared to other counties in Western New York; too much money is being spent out of the county. Mr. Dudek reported on other findings which are covered in his report. He added that Chairman Billings has put together a letter to be sent to Audit and Control, requesting that they audit the taxes.

A motion was made by Legislator Cook, seconded by Legislator Berger, that the meeting be adjourned. Meeting adjourned at 8:20 p.m.

Report of the minutes from the Soil & Water Conservation District meeting held on May 8, 1984; Report of the minutes from the May 17th meeting of the Oak Orchard Small Watershed Protection District;

A letter from Mrs. Grace Ilse Williams stating her preference for the Veterans Monument to be located on the Court House lawn;

The County Planning Board report in reference to the 8-year review of the Kendall Agriculture District (Orleans Agricultural District No. 3);

A letter from Assemblyman Hawley in reference to the County's opposition to A.1983-A/S.1520-A, extending binding arbitration to Sheriff bargaining units; also resolution regarding closing of State Employment Office in Albion;

A letter from the Orleans County American Legion, Eighth District stating its preference for the Veterans Monument to be located at the rear entrance of the County Administration Building;

Approval from the NYS Office of Parks, Recreation and Historic Preservation for the County to proceed with parking lot and access road construction at the Carlton Land Lease Site;

A letter from Fred Fladd submitting the Orleans County Agricultural District Advisory Committee 8-year review of the Kendall Agriculture District (Orleans Agricultural District No. 3);

Notification from the Inter-County Association of Western New York of the June 22nd meeting to be held in Cattaraugus County.

Report of Standing Committees: Legislator Swiercznski reported attendance at town board meetings, noting that there was discussion at the Albion meeting

in reference to a building that had been torn down, and the County's involvement in it. He also attended the Public Health and Mental Health Board meetings.

Legislator Cook reported that he had attended his regular meetings. He stated that concern was expressed by the Shelby Town Board, over the FMC dump located within the Town. The Board was very displeased as they felt that FMC and DEC were not keeping them informed as they had agreed to do. The Board would like the County to send letters, on their behalf, to see if they can get the reports from FMC and DEC moving along to the Town Board once more.

Legislator Bennett reported that he has been in contact with Mr. Rountree of the County Planning & Development Department and Mr. Spellman, Economic Development Coordinator, in regards to a Solid Waste meeting to be held within the month. He said there would also be a meeting to discuss sludge disposal on June 19th.

Legislator McMurray reported he had attend regular meetings, noting that the most interesting meeting, and best attended meeting had been the DWI Coordinating meeting.

Legislator Berger reported he had attended the regular town and village board meetings, plus the usual meetings with department heads. Mr. Berger also attended a meeting with the Veterans, to discuss the placement of the Veterans Monument. He also contacted Hugh James of the Tourism Board, who said that the tourism brochure would be coming out soon.

At this point there was general discussion on the Tourism Board. Legislator Bennett noted that four board members were appointed by the Legislature, and that four members each were appointed from the Albion and Medina Area Chambers of Commerce. Legislator Berger commented that their concern should be with tourism itself, not in how to get money to operate. He had asked Mr. James about meetings, noting that there hadn't been any meetings lately. The suggestion was made to have a representative from the Tourism Board, and from the two Chambers of Commerce attend the next Conference Session on June 27, 1984 to give a report. Mr. Berger attended a dedication ceremony for an historical marker in the Town of Gaines, with Legislator Swiercznski.

Legislator Vick reported meeting with Public Health, acting as intermediary with a Town of Murray resident. He also attended an audit meeting at the Treasurer's office, going over the fiscal report; a review control report will try to control that (fiscal report), and will enable the Legislature to better understand these

reports. Legislator Vick gave a brief summary of the financial situation of the County. Mr. Vick commented that County programs ought to be examined by the Legislature to see where expenses, or possibly programs, may be cut; noting that it would soon be time to begin work on the budget. Legislator Vick said he had asked the County Treasurer to send a letter to give the Legislature advice in formulating the budget.

Legislator Cook gave a brief report on Agricultural Exemptions, noting that in some cases they are putting a tax burden to those landowners immediately adjacent to the exempted property. However, Legislator Cook said he felt that Ag districts are necessary, and that the Legislature should be monitoring the situation.

During the open discussion portion of the program, Michael Gehl, Director of the Little People's Center in Medina was given privilege of the floor. Mr. Gehl explained that the Little People's Center was a non-profit organization in Medina, and that they were having financial problems. Currently the Migrant Program, which accounts for half the budget, is considering pulling their children out of the Center, and sending them to a Center located in Kendall. Migrant children from all over the County, involved in the program, would be transported to Kendall, and their parents would have no control over the matter. If this is done, it would mean approximately 10 - 15 lay-offs at the Little People's Center. Mr. Gehl said he would like the Legislature to intercede on behalf of the Little People's Center, in order to prevent this from happening. Legislator Vick said he would look into the matter, and get an explanation as to why this is happening.

Larry DiPalma was given the privilege of the floor, and asked if the Legislature was going to approve a plan for the Carlton Land Lease, and was told that such a resolution would be adopted at the end of the meeting, and after the Town of Carlton citizens attending the meeting had an opportunity to express their concerns and opinions to the Legislature.

Upon discussion, the suggestion was made to call the area "Kame Glacial Park" or "Carlton Marine Park". Mr. Berger commented that the name given to the area would probably be the name everyone used, even though the developer may choose to give the area another name. Mr. Dudek explained the necessity for having a name; that the State used the name "Oak Orchard Marine Park" in referring to all state-owned lands at Point Breeze, and that it was necessary to have a separate name when referring to the area leased by the County, and so it was thought that "Oak Orchard River Marine Park" would be satisfactory.

A letter from Frank Endres, Director of Community Services in reference to the Mental Health Board membership, stating that the Board would be reduced to nine members by January 1, 1985;

Report from Standing Committees: Legislator Bennett reported attendance at the Fishery Advisory Board, noting there was a discussion in reference to signs being placed on roadsides of main highways leading into Orleans County, which say "Welcome to Orleans County - Home of King Salmon ". The sign would have a drawing of the salmon on it. Mr. Bennett also met with Eugene Christopher, and the other committee members to discuss the agreement between Mr. Christopher and the County for the Oak Orchard River Marine Park development. Legislator Bennett also attended a Waterfront Revitalization Meeting.

Legislator McMurray had held meetings with two of his departments.

Legislator Berger said he had attended another Tourism Committee meeting. He said that the Tourism brochure has been published. However, he noted he had been asked to procure two pictures to be used in the brochure, and after considerable time spent in locating the pictures, they were not used. One picture in particular, the Culvert Road, where it passes underneath the Barge Canal would have been well-suited for publication in the brochure. Mr. Berger attended the County Legion meeting, and read the resolution adopted by the Legislature in reference to the Veterans Monument and benefits; attended the TREK ribbon cutting ceremony on Salt Works Road in Medina. Mr. Berger also attended a meeting at the Little People's Center, in reference to the request from Mr Gehl for support of the Center. People from the Center in Kendall were there, along with people from the State; another meeting will be held on this at a later date. During discussion on this, it was brought out, that children are not mandated to attend the Center at Kendall - there is "freedom of choice". It was noted that there is an overflow in the Brockport area, and many of these children will be going to the Kendall Center. Legislator Bennett felt that if there was "freedom of choice", it wasn't necessary for the County to be involved.

Legislator Vick met with his department heads. He also looked in on the Motor Vehicle Bureau, and found no problems there. They are set up to go ahead with photo licensing. Mr. Vick finalized the roof bids with Roger Peterson, and attended an IDA Steering Committee meeting. Legislator Berger asked as to the status of the proceedings for 1983, and was told they would be around the middle of July. In reference to the official pictures being installed in the Legislature Chambers, Mr. Berger was told that this would be done, when the Buildings and Grounds crew had the opportunity - right now they were working on all the outdoor projects which have to be completed, while the weather is good.

In reference to the purchasing of computers for the various departments, Legislator Vick said he had received replies from the departments involved as to the necessity of a computer in their department; what they expect to accomplish through the use of a computer, and he was in the process of reviewing them. Mr. Dudek commented that it would be wise to have the same kind of computer in the Legislature office, so that the programs are interchangeable. This would be especially useful in negotiations, that type of situation.

In reference to the old computer in the Treasurer's office, Mr. Dudek said that Mr. Webster, the Assistant County Attorney had written to Resources Trading Corporation, in an effort to have the computer removed, as was previously agreed upon.

Legislator Cook asked the status of the County Bridge Program. Mr. Dudek said he had talked to the Highway Superintendent about a month and a half ago, in terms of information to submit to the State. Program HBR has to do with bridges, and federal monies that are available for use in such a program. Mr. Dudek noted that the bridge at Two Bridges was not on the priority list submitted to the State by Mr. Peterson. It was felt that Mr. Peterson should have come before the Legislature before submitting the priority list. Mr. Dudek was asked to get the information on bridges for the next meeting.

There was discussion on removing the bridge at Two Bridges, and Legislator Swiercznski felt this should be discussed with the Town.

Referring back to the HBR Program, Mr. Dudek

explained that through this Program, the Federal government will pick up 80% of the costs, the State 15%, with the Counties having only a small percentage of the cost. When asked about in-put into this program, Mr. Dudek explained that the State controls the Federal monies. Local in-put is through the County Highway Superintendent and the State DOT; the State receives the monies on behalf of the regions; they have to determine what is most important.

Legislator McMurray said he had received a request from the Medina Elementary School for permission to video tape the Legislature proceedings, for a history course. It is a New York State History Program, and has to be done this summer. Chairman Billings suggested having the director come to a meeting to discuss the matter. Legislator Berger suggested the director attend the meeting in July and then tape in August.

Chairman Billings said there would be a "Kick-off Breakfast" for the Fishing Derby, and asked how many legislators would be able to attend. He noted that Commissioner Williams and Congressman LaFalce had been asked to attend. Five legislators said they would be attending the breakfast.

With reference to the public hearing being held by the Village of Albion on the State Building Code law, and after discussion, it was agreed that Mr. Dudek would send a letter, saying that the County would not be the enforcing agency, but instead would pass it back to the State.

Motion by Legislator Swiercznski, second by Legislator Vick, to adjourn. Motion carried.

Meeting adjourned at 9:05 p.m.

LEGISLATURE MEETING

July 11, 1984

The meeting was called to order at 7:30 p.m. by Vice Chairman Berger. After the pledge to the flag, the Clerk called the roll and all the Legislators were present, with the exception of Legislator Billings, who was excused.

The Clerk presented the following communications: Notification from the Inter County Association of the meeting scheduled for July 18, 1984 to be held at the Chautauqua Institute, Chautauqua County;

A letter from the Town of Carlton Planning Board stating that the proposal for development of the Carlton land lease is not approved by said board; Notification from Medina Memorial Hospital stating its intention to develop a Long Term Home Health Care Program;

A letter of acknowledgement from Assemblyman John O'Neil with reference to the resolution adopted by this Legislature in support of the Farmland Overburden Aid Act; An acknowledgement letter from Assemblyman R. Stephen Hawley in reference to the Farmland Overburden Aid Act;

Notification from Roland Sanford, that he is resigning from the Gaines Planning Board, thus creating a vacancy on the County Planning Board; Letters from the Fishery Advisory Board and the Chambers of Commerce Tourism Board in support of welcome signs which are to be placed on major highways entering the County.

Letter from Governor Cuomo's office acknowledging receipt of Resolutions No. 199 and 203.

Privilege of the floor was given to Mr. William Gillick, administrator of the Arnold Gregory Memorial Hospital. Mr. Gillick spoke to the legislators on the Lifeline Program, and gave hand-outs to the legislators showing the organizational structure of the Lifeline Program. Mr. Gillick said he had met with Mr. Dudek, Legislator Berger, Carri Blake, Director of the Office for the Aging, Mrs. Babbit and Mrs. Haines from the AGM Hospital Board of Directors, to discuss developmental problems that are being encountered with the Lifeline Program. As proposed in the "hand-outs", the Hospital Board of Trustees would review all program and policy changes - they have authority for all the operations of the Program. The Lifeline Advisory Committee will be made up of 10 members; 6 to be appointed by the AGM Hospital and 4 to be appointed by the Orleans County

Legislature. It is proposed that the committee be given the authority to make decisions regarding selection of clients based upon the recommendations received from the Assessment Committee. The Assessment Committee is made up of representatives from the Social Services Departments of the Albion and Medina Hospitals, along with a representative from the Office for the Aging and a Public Health Nurse. This group makes their recommendations to the Advisory Committee regarding installations. These recommendations are made upon pre-determined criteria. Mr. Gillick explained that the AGM Hospital owns the equipment, and provides the facility from which the Program operates. The County is involved through the Office for the Aging - this agency sought funding through grant applications for the program, and its staff makes assessments during their regular calls on clients receiving help from the Office for the Aging. Legislator Bennett commented that he was not in agreement with the Letter of Understanding originally signed, and was not pleased with the membership on the Advisory Committee. He felt the membership should be 5 appointed from the County and 5 from the Hospital. After further discussion it was decided that a letter would be put together and sent to the Hospital containing the County's proposal. This will be discussed at the Conference Session scheduled for August 8.

Report of Standing Committees: Legislator Swiercznski reported attendance at regular board meetings of the Community Services and Public Health Departments; also attended a Community Action meeting.

Legislator Cook said he attended the Town Board meetings for Barre, Clarendon and Shelby.

Legislator Bennett said he had been busy with the Lifeline Program. Suggested that Mrs. Johnson, Director of Nursing Service at the Public Health Department write a reply to the Medina Hospital in reference to their Long Term Health Care program, and let them know the County's viewpoint on the matter.

Legislator McMurray reported he had been ill, and unable to do very much with his departments.

Legislator Vick reported he had met with the Motor Vehicle Department as well as meeting with the Treasurer, and had audited bills on the previous Friday.

Legislator Berger said he had been on the barge representing the Village of Medina, in Rochester's "Great Canal Caper". Mr. Berger also attended the Lifeline Meeting at the AGM Hospital. On July 9, Mr. Berger attended the Tourism meeting, and noted the calendars he had previously handed out were from that

meeting. All the photographs used in the calendar were from the County Historian's department. Mr. Berger, along with some other officials met with Congressman LaFalce at Oak Orchard Harbor, to discuss Bill H.R. 3678, which has passed the House of Representatives, and is now in the Senate, which provides for the dredging of the Oak Orchard Harbor, as well as other water resource projects which will benefit our County as well as Niagara County. Congressman LaFalce was seeking the County Legislature's support. Mr. Berger reported attendance at his usual meetings with his departments.

After the adoption of the above resolutions, Legislator Swiercznski asked the status of the roof on the Court House. Legislator Vick replied that the Buildings & Grounds people will be doing repairs on that, on a "stop-gap" basis. He noted that there were other projects they had to work on - the project at the County Home & Infirmary, and the fire escapes for Central Hall. Mr. Vick said the superintendent was looking into different kinds of mesh to be used in the dormers on the Court House.

Legislator Cook commented that it would be a good idea for the County Highway Superintendent to put together a prioritized list of highway projects covering a specified period of time. He felt that this might be of help to the Legislators, so they would know exactly

what project was being worked on at a certain time.

There was discussion about the french drain at the Infirmary, which is not working properly. Mr. Dudek said that bids were obtained when the roof was installed with that drain, and the cost for the drain was \$19,000.00. He stated that the Buildings and Grounds people felt there is a better way of doing this, at much less cost, and a meeting is scheduled with Gerald Scharping of Soil and Water to discuss the situation.

Mr. Dudek brought up the matter of a survey that has to be completed, in reference to accessibility to county buildings for the physically handicapped. This survey is tied into Federal Revenue Sharing monies; any County who receives more than \$25,000.00 has to have completed plans, along with a scheduled plan of action, to be implemented before 1986.

There was general discussion on line items for the budget of the District Attorney and the Public Defender. Both departments were over-expended in certain areas, and it was decided to invite both the District Attorney and the Public Defender to attend a meeting on July 25th at 2:30 p.m. to discuss the situation. Vice Chairman Berger recommended that the Finance Committee handle this situation and report back to the Legislature at the next meeting.

Vice Chairman Berger read a letter from Don McHenry, Director of the "I Love New York" program in reference to the WESTERN NEW YORK SUMMER FESTIVAL publication. The program is responsible for the poster, public service announcements, letterhead stationery and press releases. All other efforts are the responsibility of the local chairman. Mr. Berger pointed out that the Orleans County Calendar of Events should have been printed much earlier than it was, as many of the events have already taken place. Mr. Berger said he had sent a letter to the County's local chairman to see if there was a problem, and if so, what could be done about it.

Legislator McMurray removed a resolution from the table authorizing transfers of funds within the County Highway Department. After discussion, Legislator Swiercznski moved, second by Legislator Bennett, to amend the resolution to authorize transfer of funds in the Machinery Maintenance Accounts 5130.2 to 5130.4, in the amount of \$3,000.00. Motion carried. The following resolution was adopted.

Chairman Billings brought to the attention of the Legislators, two meeting attendance requests which had been received from the District Attorney, and explained that he did not want to sign the forms until he had received input from the legislators. There was general discussion, whereupon Legislator Swiercznski made a motion to return the two forms to the District Attorney with the suggestion that only one person from the office attend the meeting, and bring instructional materials back to the office. A request from Albion mayor, the Honorable J. Donald Brace, Jr., requesting the County's help in prosecuting

violators of Village ordinances;

There was general discussion on several communications which had been read. In reference to the letter from Sandstone Park, Inc., requesting tax exempt status, the County Attorney was asked to look into the matter. Legislator Swiercznski noted that it would be up to the town assessor to remove the property from the tax rolls. A letter to that effect is to be sent to the Park officials.

The letter received from the Village of Albion, requesting a prosecutor to handle violations of village ordinances was discussed. The County Attorney said he had written Conrad Cropsey, who is the attorney for the Village of Albion, about this situation. Mr. Young said he would contact the District Attorney, Mr. Lyman, and discuss the matter with him. It was decided that a letter should be sent to Mr. Lyman, along with a copy of Mr. Brace's letter, with the request that Mr. Lyman reply in writing, as to what he felt should be done in this matter of providing a prosecutor for the villages of the County.

Mr. McMurray also met with TREK management in reference to their water problem. The County Highway Superintendent visited the TREK plant during the rainstorm and felt that the problem was created due to blacktopping the area; this added to a problem which had been there for many years. It was noted that TREK had been funded by IDA and that was the reason they called upon the County with their problem. Several people at the meeting suggested that the company hire an engineer to see about remedying the situation. Mr. McMurray also met with Mr. Christopher in reference to the Oak Orchard River Marine Park proposal.

Legislator Berger attended a joint meeting with two groups interested in the Morrison Road site; also attended a meeting at the Cobblestone where a Great Lakes Heritage program was presented. A resolution accepting modification of the Christopher Proposal for Oak Orchard River Marine Park

was introduced by Legislator Bennett, second by Legislator McMurray. There was a great deal of discussion about the modifications proposed by Mr. Christopher. Legislator Berger said, "Remove the camping area and the launching ramp, and what do we have? How do you get down to the piers?" Legislator Vick noted that the modified proposal was a "far cry from the program presented by Mr. Christopher when he was awarded that development". Legislator McMurray said that he had given a great deal of thought to the situation, and said "I still feel the project should move forward, even though the season has come to a close.....I think we owe the people of the County, rather than leaving a pile of stones in a field and doing nothing.....It's time we got started." Legislator Cook said he felt "the whole concept has changed so much. What are we spending money for? Parking lot and dockage - nothing else is coming along." Chairman Billings noted that "State money will be used to pay for everything except for the portable piers." Mr. Billings felt the County shouldn't rush into anything. Legislator Bennett felt that the Legislature should either say "yes" or "no" and get back to Mr. Christopher. Legislator Vick moved to call to the question. Upon vote, the resolution was defeated; 2 ayes, Legislators Bennett and McMurray; 5 nays; 0 absent.

Legislator Cook asked about the Salt Works Road, if it had been discussed in Conference Session, and was told by the Chairman that the situation would be investigated, and that the Chairman would answer the letter to the Town Board. Chairman Billings informed the legislators that there was a vacancy in the Sheriff's Department - that of Corrections Officer - and said that if there were no objections, he would go ahead and sign the form so that the Sheriff can fill the vacancy immediately, rather than go through the usual procedure. There being no objections, Mr. Billings proceeded to sign the form. Legislator Vick raised a question as to how resolutions are distributed, and expressed some concern over this.

Motion by Legislator Bennett, second by Legislator Vick, to adjourn. Motion carried.

Meeting adjourned at 9:15 p.m.

LEGISLATURE MEETING

September 26, 1984

The meeting was called to order at 7:30 p.m. by Chairman Lyndon Billings. After the pledge to the flag, the clerk called the roll and all legislators were present.

The Clerk presented the following communications: An invitation from the Farm Bureau to attend their annual meeting on October 9th; Notification of a MICROCOMPUTERS IN LOCAL GOVERNMENT seminar sponsored by the Supervisors' and County Legislators' Association of the State of New York to be held in Batavia on November 8 - 9, 1984;

Minutes from the August 23rd meeting of the Oak Orchard Small Watershed Protection District; a letter from Dr. Sallah Abbasey of Medina, re lease agreement for Commissioner's house;

A report from the Orleans Agricultural Districting Advisory Committee and a report from the Orleans County Planning Board, each recommending the formation of Orleans Agricultural District No. 9, with modifications as stated in their reports;

A letter from Sandstone Park, Inc. requesting tax exempt status and cancellation of taxes for 1981 through 1983 for Sandstone Park, which is located on East State Street, in the Village of Albion.

Report of Standing Committees: Legislator Bennett said he had met with Mr. Christopher, re the Oak Orchard River Marine Park, and stated that he felt the resolution to be introduced later in the meeting was the correct way to proceed. Mr. Bennett also met with the Planning Board when the Bennett property was discussed.

Legislator Cook reported attendance at regular meetings with department heads, as well as a meeting with some Town of Barre residents, to discuss the road situation.

Legislator Swiercznski reported attendance at regular meetings with his department heads.

Legislator McMurray said he had attended a village of Medina hearing on veterans tax exemptions, as well as meeting with his department heads.

Legislator Berger reported attendance at the following meetings: Town of Yates and Village of Medina

Meetings; Tourism Meeting; Social Services Staff Meeting; County American Legion Meeting, to discuss veterans tax exemption; as well as attending regularly scheduled meetings.

Legislator Vick reported that he had attended the meeting on the land lease, and had met with the Treasurer on budgets. Mr. Vick reported that the french drain was working well at the Infirmary, and that renovations to the jail and court house roof would soon be completed.

Privilege of the floor was given to Mr. Sid Passarell, Highway Superintendent for the Town of Clarendon. Mr. Passarell noted that the County had closed the bridge on the Pumping Station Road, and that this had irritated quite a few of the people. This created a dead end street in place of what had been a two-way street. Mr. Passarell said the people concerned would like a response from the Legislature. Mr. Passarell asked if the County had figures as to cost for a replacement, noting that he had made a couple of calls "around the State", and that he did have working figures. Mr. Passarell then introduced Mr. Ted Natkin, who is a resident of the Town of Clarendon, and lives on the Pumping Station Road.

Mr. Natkin stated that he lived on the Pumping Station Road; that there were five families who lived on that road. He explained that when anyone wanted to drive into Holley, they had to drive to the South Holley Road and make a sharp right hand turn, to go north towards Holley. Usually, it is necessary for the car making the turn to go into the oncoming lane of traffic, in order to complete the turn and proceed to Holley. The village of Holley uses that road daily to reach the Village Water Works Company - many trips are made. Mr. Natkin commented that it is a Town Road, with a County bridge, that does not meet State specifications. Mr. Natkin said at one time, the suggestion was made to purchase the land located at the intersection of the two roads, and make a more workable intersection. This was agreeable, but whereas the owner had agreed, at one time, to sell, he has reconsidered. Mr. Natkin asked if a corrugated bridge similar to the ones installed in the mucklands, could be installed on the Pumping Station Road. Mr. Passarell said he had priced material for this type of bridge, and the cost for two pieces would be \$23,000.00, that would be just for the corrugated bridge. Mr. Passarell also commented that it would be very inconvenient in the wintertime - from the plowing angle, and said he hoped that there would never be an incident where someone gets hurt, and the Town is sued.

There was general discussion on the situation. Legislator Cook commented that the State had flagged the

bridge in September and recommended that it should be closed. Mr. Cook noted that the County was willing to put in a road, if the Town of Clarendon could purchase the property. Apparently, this cannot be done. However, it could be done if the Town would condemn the property and take control of the property. Mr. Cook said he had considered the seriousness of the situation, but, unfortunately, there were other projects which had to be considered. Legislator McMurray felt that the bridge removal should be postponed, in order to meet with all interested parties one more time, to get their input. Mr. Cook agreed. However, Mr. Billings felt that a resolution should be adopted to remove the bridge, to make it official. Legislator Bennett agreed, saying the Supervisor and the Highway Superintendent from the Town of Clarendon, along with someone from the State could be invited to the next Conference Session to discuss the bridge situation.

Legislator Bennett moved to waive the rules, and the following resolution was introduced:

Legislator Berger requested privilege of the floor. Legislator Berger commented on the statement made at a previous meeting in reference to the "taking of other people's motions", when the motions in question have been investigated by the Legislator designated to make the motion. Adopted. 7 ayes; 0 nays; 0 absent.

Prior to the adoption of the above resolution, there was general discussion about the budget. Legislator Swiercznski noted that there were very few people from the general public in attendance at the public hearing held on the County budget. Many County employees were at the hearing and many from ARC attended but it was noted they were people who had a "vested interest". During the discussion, the legislators agreed that the 13.5% increase was mainly from costs which were state mandated, and were not controlled by the County; that if it were only a matter of County costs, the increase would be approximately 5.4%. Legislator Cook commented that this was not just an Orleans County situation, that other counties had larger increases than Orleans County. Legislator Bennett noted that a lot of work had gone into the budget, and commended the committee for the job they had done, and said he would vote for the budget. Legislator Swiercznski agreed with Mr. Bennett, noting that everyone worked very hard on the preliminary budget, and that he too, would vote for the budget.

Legislator Vick thanked everyone for the work they did. He noted that, in retrospect, areas of the budget having to do with small interest groups - education, extension, etc. - would be the areas to look at in the future, when considering areas to be reduced or cut. After further discussion, the resolution was voted upon, and adopted.

BUDGET MESSAGE 1985

TO THE HONORABLE MEMBERS OF THE ORLEANS COUNTY LEGISLATURE
AND TAXPAYERS OF ORLEANS COUNTY:

The 1985 Budget continues to be an annual look at where Orleans County is going and what we are accomplishing. We have made a determined effort to prepare a comprehensive financial plan for all services and programs provided by the County. This documentation of financial policies is a unique aspect of the County's approach to the annual budget. We are continuing to develop our Budget with the belief that basic services should be financed at adequate levels, revenues must be estimated at realistic amounts, reserve policies established over the past few years which afford protection for the future must be continued, employee salary and benefits must remain at competitive levels.

County government is feeling the effects of dwindling tax revenues; and at the same time is faced with escalating costs of providing necessary services.

Guidelines were established by the Orleans County Legislature when the budgeting process began. Among those guidelines were:

- 1) No new programs or expansion of existing programs unless specific justification providing either a) cost reduction, b) mandate, or c) improvement to services to taxpayers at no additional cost was attached to support program.
- 2) No new programs unless submitted through the responsible Orleans County Legislature Committee Chairman, needed both Committee Chairman's and Legislative approval prior to insertion in departmental estimate.
- 3) Estimate for equipment and contractual expenses was to reflect only minimal cost amounts to maintain existing requirements. Any request for budget beyond this had to be accompanied by a justification with an approval. Many of the programs in our budget are mandated by State Law. This Proposed Financial Plan will require a total expenditure of \$19,233,780 - \$8,321,960 (or 44%) of which is estimated for Social Services - in totally mandated programs.

Social Service Programs show an increase of \$534,595 over 1984. The most significant increase is reflected in Medical Assistance (A6101) \$99,000 increase; MMIS (A6102) increase \$167,670; Aid to Dependent Children (A6109) \$261,200; Home Relief (A6140) \$50,000; State Training Schools (A6129) \$45,000. We think it is important to point out that the loss of certain bonus programs and the increased local cost resulting from the shelter allowance increase have compounded fiscal problems in our County. Even more alarming is the continued escalation of local Medicaid costs on an actual dollar basis. The Commissioner of Social Services projects approximately \$100,000 deficit in the 1984 appropriations for this department. As a result, we have recommended a budget note of \$100,000 in this budget to cover the projected deficit.

Home and Infirmary expects a deficit of \$51,000 (A9522) for 1985, based on an average occupancy of 97%. This could change in the event that Genesee County residents are accepted as patients in this facility.

The Mental Health-Private Sector (A4320-ARC Program) shows an increase of \$318,478. This increase is offset by revenues, except for \$15,000 additional transportation costs. The cost for Education of Handicapped Children (A2960) was increased from \$350,000 in 1984 to \$456,650 in 1985. This amount is partially offset by (A3277) 50% State reimbursement.

In a continuing effort to assign appropriations and revenues to a specific department, we have altered the pattern in the Legislative (A1010) budget this year. All office supplies and part of the "other contractual" expense has been more appropriately accounted for in the Clerk/Legislature (A1040) budget. Also Off Track Betting revenues which increased in 1985 to \$75,000 are included in the Legislative (A1010) County cost. The DWI Program (A3315) budget, is credited with only (A2615) \$31,873 in revenues although

BUDGET MESSAGE 1985 (con't)

the total amounts to \$64,108. This balance is assigned to specific departments (i.e.: Probation - \$11,850, District Attorney - \$5,000, Sheriff - \$4,885, etc.) The amount of revenue assigned to these various departments is based on judgment by the DWI Coordinator and the Budget Committee.

Debt Service (General Fund) appropriates \$89,500 (A9762.7) as interest due on Tax Anticipation Notes. This expense is offset by an increased amount of investment revenue which will be reflected in the General Fund balance in the 1984 annual report, and will be available to pay the interest expense when it becomes due on March 15, 1985. The \$1,500,000 principal payment will be made from tax receipts for the fiscal year 1984. The proceeds from this borrowing were used for cash flow purposes during 1984. It may be noted that computer costs have escalated. It is the feeling of the Budget Committee that information obtained from automated systems is an important factor in the operation of today's government.

You will note that the Home and Infirmary Enterprise Fund is no longer listed as part of the budget proper. This information is detailed on Page 24. This change was made in the interest of more efficient operating procedures and in compliance with the GAAP System of accounting.

We have made every attempt to find ways to do things more efficiently and to enhance the revenues to which we are entitled. Nevertheless, projections indicate a need for continued expenditure restraint and careful monitoring of our services and financial picture. The cooperation of all personnel in the County Government towards budget preparation and cost controls has been excellent. We feel we have successfully completed several very difficult years and remained fiscally solvent. With this budget we trust we have provided a fiscal plan for 1985, which will provide the finances required to furnish essential public services.

Respectfully submitted,

MARY B. BASINAÏT

Adopted. 7 ayes; 0 nays; 0 absent.

Prior to adjournment, privilege of the floor was

given to Legislator Cook who suggested that an advertisement be placed in the newspapers and pennysavers asking for volunteers to serve on the various county department advisory boards and committees; he felt this would be a good way to locate new people willing to donate their time for public service.

Legislator McMurray explained that the County Highway Superintendent had asked for volunteers who would be willing to work a night shift doing maintenance work, at regular wages, and be assigned to a night crew. They would work right at the garage, rather than be subject to a night call, at time and a half. It was thought this would be a savings to the County - this would be just during inclement weather.

Motion by Legislator Cook, second by Legislator McMurray, to adjourn. Motion carried.

Meeting adjourned at 8:55 p.m.

LEGISLATURE MEETING

December 12, 1984

The meeting was called to order at 7:35 p.m. by Chairman Lyndon Billings. After the pledge to the flag, the Clerk called the roll, and all legislators, with the exception of Legislator McMurray, were present.

The Clerk presented the following communications: Minutes from the October Board Meeting of OTB;

Notification from the Inter-County Association that the December 19th meeting would be held in Canandaigua, New York, at the Sheraton Inn;

A letter from Henry Stebbins of the NYS Department of Agriculture and Markets that the Orleans Agricultural District No. 3 (Kendall Agricultural District) was approved for continuation, with the second eight year review scheduled for 1992;

Notification from the HSA of Western New York, that Mrs. Suzanne Harling resigned her consumer representative position, and that a new appointment will be needed to fill the vacancy;

Report from Standing Committees: Legislator Cook reported attendance at town board meetings, as well as meetings with various department heads;

Legislator Bennett reported attending the Fishery Advisory Board meeting, and announced that the Fish and Wildlife Management Act Board meeting would be held the following evening;

Legislator Swiercznski reported attendance at the regular meetings, as well as attending the retirement party for Mrs. Canuteson. Mr. Swiercznski also attended town board meetings;

Legislator Berger reported the Extension dinner would be held on the 29th. Mr. Berger also attended the meeting with Aging, and did the auditing of the bills. Mr. Berger attended the first Lifeline Meeting, and regular department meetings;

Legislator Vick attended regular meetings with his departments, as well as with the Salary Adjustment Committee.

The privilege of the floor was given to Mrs. Dorothy Donohue, who lives in the Town of Murray. Mrs. Donohue spoke in reference to the child abuse reporting system;

in particular, the hotline to Albany. Mrs. Donohue noted that when a report is made, the State refers the report to the local Department of Social Services, who in return is required to make a call, within 72 hours, at the home where the reported child abuse is occurring. Mrs. Donohue was mainly concerned with the effect this system has on families who have been reported, but in reality, there is no child abuse occurring. She also noted that in many cases where the child abuse is a reality, the child is removed from the home, for a short while, only to be returned to the same home situation, with no solution to the problem. She asked the legislators to look into the law, and see what can be done to prevent false reports, as well as to investigate what can be done to protect children who are actually being abused.

Mr. Walter Norman, Supervisor of the Town of Carlton, was given privilege of the floor. Mr. Norman thanked the Legislature for its help during the fishing derby. Mr. Norman was in attendance at the meeting to ask the County's position on the bridge across Oak Orchard Creek. Mr. Norman said some of the citizens from Carlton were in favor of retaining the bridge, and others against doing this. Mr. Dudek explained that a resolution had recently been passed, asking the State to designate this section of Route 98 as a "major collector". If this was done, then the bridge would be eligible for Federal funding. Mr. Peterson, the County Highway Superintendent, proposed to have that three-bridge complex treated as one problem area. It was noted, that in order for this area to be a "project area", a study would have to be done, and recommendations be made after the study is completed. Legislator Bennett noted that at the present time, nothing official has been received from the State, but that when the bridge report is released, then this particular bridge will probably be flagged, and then something will have to be done. Legislator Vick suggested that an opinion poll be conducted in order to get the views of the people from the Town of Carlton - how they feel about having a footbridge to replace the current bridge, or possibly demolishing the current bridge and not replacing it at all. Mr. John Sage, councilman from the Town of Carlton, said he had unofficially polled the Town Board, and they were in favor of retaining the bridge. Mr. Norman said that most of the people he had talked with were also in favor of retaining the bridge - he did say that the matter had not been officially discussed by the Town Board. Mr. Norman asked that the Legislature keep the Town Board up-to-date on the situation.

LEGISLATURE MEETING
December 26, 1984

The meeting was called to order at 4:00 p.m. by Chairman Lyndon Billings. After the pledge to the flag, the Clerk called the roll, and all legislators, were present.

There were no communications to present to the Legislature.

Legislator Vick moved to waive the rules to allow the introduction of Local Law No. 4-Intro of 1984. This was seconded by Legislator Cook. Motion carried. Legislator Vick introduced Local Law No. 4-Intro of 1984, providing for Veterans exemption from Real Property Taxes. Mr. Vick explained that this local law would allow for the minimum amount of exemption. Upon discussion, Mr. Berger said he would rather make a proposal of the law originally prepared by County Attorney Tom Young, which allowed the maximum amount of exemption. Mr. Berger commented that it was his understanding that the whole Board had agreed to this at their meeting on November 14. Mr. Dudek explained that if the law introduced by Mr. Vick was defeated, (after going through the procedure for the adoption of a local law) the exemption for the maximum amount would automatically go into effect. Mr. Vick noted that if this law is adopted, and after the Legislature had had an opportunity to study the impact this exemption has on the County, then it would be possible for the Legislature to raise the exemption amount, if they so desired.

Legislator Vick was given privilege of the floor to discuss a request from Wendel Associates, in reference to Oak Orchard Marine Park. They felt it would be appropriate to do soundings and borings, as this would tie in with the Conceptual Plan they have prepared. Mr. Vick asked the board for its permission for Wendel to go ahead with this project, the cost would be approximately \$5600.00. Mr. Dudek explained that it would be necessary for the County to have an agreement with the firm who would be doing these tests. Mr. Vick agreed, and said he would tell them to go ahead and prepare the agreements for the work, and then get back to the Legislature for its approval.

Legislator Swiercznski was given privilege of the floor to discuss the formation of a Computer Committee. Mr. Swiercznski noted that many departments now have computers, and he felt that there should be a committee to coordinate the use of computers in the County. He also suggested that someone on the board write the Governor a letter about Orleans County and its economic development - possibly invite him to come to Orleans County for a visit.

Legislator Berger brought up the matter of the color of all County vehicles. He felt they should all be one color. He also mentioned that the florescent name on vehicles was important in order for them to be seen at night. There was general disussion on this. It was noted that the County highway superintendent had already ordered some of the highway vehicles in brown. Chairman Billings said that the Legislature had adopted the County Seal for use on all County vehicles, and this should be on the highway vehicles as well. Mr. Billings felt that the highway superintendent should not change the colors of county highway vehicles, without first obtaining permission from the Legislature.

Legislator Vick told the Legislature that the point had been reached where it would soon be necessary to sit down with the Oak Orchard Marine Park Committee and

explain what progress had been made to date. Mr. Vick felt that the Legislature should be getting involved. It was decided to meet at a Conference Session and go over the material.

Legislator Swiercznski made a motion to adjourn the meeting. This was seconded by Legislator Vick. Motion carried.

Meeting adjourned at 5:05 p.m.

Sine die.

CHAIRMAN'S 1984 ANNUAL REPORT

To The
Orleans County Legislature

by

LYNDON D. BILLINGS
CHAIRMAN

March 20, 1985

A review of the year 1984 seems typical of many recent years, filled with peaks and valleys. The county continues to be buffeted by the fiscal whims of state legislative and administrative decrees despite a concerted effort to provide a sound administrative program. As an example, in 1984, the state abolished a 20/40 bonus program of reimbursement to Social Service Departments which cost county property taxpayers more than \$100,000. A 50% increase in shelter allowance added another \$165,000 to their 1984 tax cost. Likewise, deliberate year long delays in reimbursement for state mandated programs forced the county to borrow \$1,500,000 in short term notes to maintain a positive cash flow.

Fortunately, the county was able to survive these challenges and end the year in relatively good condition, thanks in part to a general improvement in the local economy. This increased the county sales tax nearly 15% more than was anticipated, enabling us to end the year on a positive note.

One of the major problems addressed by the Legislature was that of Solid Waste Disposal. An engineering report received late in the year is expected to lead to the adoption of a plan of action for future years. Meanwhile, efforts to secure private development of the Oak Orchard River Marine Park site fell through and an engineering firm is preparing formal conceptual plans for Legislative action and

Page 2

possible state aid in 1985.

The county continued to expand computerization into six additional departments. The standardization of both soft and hardware will increase both flexibility and usability of the installation.

Labor relations was another area of peaks and valleys. The employee turnover ratio was approximately 20%, due in part to more job opportunities in general and the higher salaries offered at the new State prison which opened in December. While a successful two year agreement was reached with AFSCME, the union representing the Sheriff's department, the year ended with the County and CSEA, the union representing clerical and nursing home employees, at impasse. On a positive note, the Legislature approved an Employee Assistance Program, designed to assist "troubled" employees and their families. Work is also continuing on the development of a comprehensive management compensation plan.

The Legislature, in compliance with Federal Regulations, completed and approved a Handicapped Accessibility Program designed to make all county programs and services accessible to the handicapped by October of 1986.

The county continues to provide its residents with a broad range of services through its 26 operating departments. In the area of Public Safety & Transportation, a deputy was added to the Sheriff's department to provide one full and one part time officer for navigation enforcement. The Sheriff's department was very busy serving more than 2100 civil papers and investigating more than 450 motor vehicle accidents. DWI arrests in the county totaled 208, down 16% from 1983. In spite of this, traffic fatalities tripled from three in 1983 to nine in 1984. The housing of prisoners from other counties continues to provide substantial revenue for Orleans County, with the 1984 total exceeding \$120,000.

The Probation Department continued its recent effort to encourage alternative sentencing and restitution, and more than \$25,000 (three times the state average) was collected in 1984. The department has also developed six volunteer "safe houses" as refuges for mothers and young children.

The legislature continued its effort to professionalize county departments by filling the vacancy in the County Highway Superintendent position with a Civil Engineer. In 1984, a major effort was made on roadside

drainage improvements. In addition, 6.3 miles of county highway were rebuilt and 10 miles were resurfaced. Several major pieces of equipment were replaced, as was the roof on the highway garage.

In the area of Economic Assistance and Opportunity, the county continued to assist those in need. The Office for the Aging expanded its home delivered meals program by 31 meals and served more than 30,000 meals to senior citizens at the congregate meals sites.

The Veterans office also has been busy assisting veterans and their families with more than 5600 contacts made. During 1984, 65 Orleans County veterans died. The Legislature, in tribute to all the veterans who served in the armed forces from Orleans County, erected a flag and monument at the County Office Complex.

In spite of an improving economic climate, many continue to depend on Social Services.

The average monthly caseload continued high, as follows:

	monthly caseload	average cost
Home Relief	339	263
Aid to dependent children	515	404
Medical Assistance	2019	62
Stamps	1327	

The Job Development Agency continues to try to find work and train the unemployed. Their success rate in

the High School Equivalency Program is 92%. They also manage the county's welfare work program, which performed nearly 74,000 hours of work in public and not-for-profit agencies, at a value of \$247,000. They also closed cases on 85 recipients who failed to comply.

In the Health Services area, the Community Services Department continues to gain increased public confidence in its services since the consolidation of Mental Health, Alcoholism and Drug Abuse into one integrated service. In 1984, nearly 1200 unduplicated clients received treatment, with nearly 5 times as many units of services being delivered.

The Health Department adopted a more stringent sanitary code, and a fee system for services rendered has been instituted. Although started in mid-year, more than \$20,000 was generated by this program.

The County Clerk's office continues to be a major collector of taxes for the State. In 1984, \$2,253,000 was taken in, with nearly \$2,000,000 being sent to New York State. In addition, more than \$150,000 was distributed to towns. The department also implemented the new photo I.D. system for drivers licenses.

The Real Property Tax Office expanded its services to school districts by supervising the processing of

Page 6

school tax rolls and bills. The county recently received notice that Orleans County had the second most accurate level of assessment in New York State, a tribute to the cooperation between the town assessors and the County office.

A major change took place in the way the cost of operating the county Self-Insurance Program is apportioned. Beginning in 1985, the number and costs of a town, village, or the county's claims will be considered, and municipalities with a good safety record will pay less than those with poor records. This action should encourage safer operation and hopefully lead to a reduced number of injuries.

County Legislators continue to maintain contacts with various town and village boards and regular attendance at the Past and Present Supervisors Association meetings.

I am pleased to see an improved spirit of cooperation at this level. It is clear that intermunicipal cooperation will become even more important if the overall service delivery system in the county is to meet the challenge of decreased federal assistance and the public demand for greater efficiency in the use of the property tax dollars at all levels of government.

The Legislature stands ready to work with town, village, and school officials and all the residents of the county, to meet and master these challenges.

PROGRAM

The Orleans County Board of Elections consists of two part time Commissioners and two full time deputy Commissioners. Our responsibility is to conduct the duties of the office as set forth in the New York State Election Law, with special emphasis on the County, Local, and Primary Elections. Registrations are taken at the office throughout the year with applicants registering personally or by mail. A post card is mailed annually by first class mail to each registrant to determine his accurate residence and to inform the registrant of his polling place and the fact that it is, or is not, accessible to physically handicapped voters. Special effort is being made to provide absentee ballot applications and absentee ballot to disabled persons, the military, and persons absent from the county on election day. Lists are printed for each of the four villages for their village elections.

PROGRAM 1984 was a busy year for the Orleans County Historian. Fifty-two stories were prepared for the weekly column Bethinking of Old Orleans. C.W. Lattin spoke to over thirty student groups during regular classes at L.A. Webber High School, Albion Middle School, Albion High School, Kendall Elementary, Oak Orchard Elementary, Medina High School and Holley Intermediate School. He also spoke with over 1000 students at the Cobblestone Museum in Childs during the Spring and Fall of 1984.

Mr. Lattin served as Co-chairman of the Historic Gaines Jubilee and assisted in the design and writing of the Historic Gaines booklet. During the Fall of 1984 he authored a book entitled Architecture Destroyed in Orleans County, N.Y. which was published by the Cobblestone Society. He also toured several Fourth Grade classes through the Court House square and surrounding buildings. This also included a number of adult groups from outside the county. Mr. Lattin has been an active participant on the Orleans County Chambers of Commerce Tourism Board.

PROGRAM

Fiscal Year 1984 for our program began on October 1, 1983 and ran until June 30, 1984. This was the Transitional Year for the new JTPA program. The CETA program ended on September 30, 1983 and we were given this 9 month period to move from CETA to the Jobs Training Partnership Act (JTPA). Four counties were grouped together to form the Genesee-Livingston-Orleans-Wyoming Service Delivery Area, or G.L.O.W. for short. A new Private Industry Council (PIC) was formed to oversee and review programming. This transitional period proved to get off to a slow start as the PIC was attempting to establish procedures, systems and other organizational items. As a result, many counties in our area did not offer much programming or services to area eligible residents. In our case, we did not really get rolling, in terms of offering programs, until January 1984.

PROGRAM The three part-time attorneys; John A. Russelli, Robert H. Slocum, and Conrad Cropsey and one full-time secretary comprise the staff of the Orleans County Public Defender's Office and are responsible for providing legal representation to indigents charged in the twenty local courts, the County Court and the Supreme Court. The caseload of each attorney is primarily representation of persons charged with Penal Law misdemeanors, however, in the past year or two, the number of felonies handled by the office has increased considerably. Vehicle and Traffic law misdemeanors and infractions have also increased considerably to the increased efforts of the various police departments to enforce the DWI laws.

The actual number of matters that the office handled this year are as follows:

Felonies	233
Misdemeanors	640
Violations	226

One of the major changes in the Real Property Tax Service Agency's procedures in 1984 was the change of assessment administration and tax processing to the Local Services Office of the State Division of Equalization and Assessment. The office then became responsible for processing of school tax rolls and bills, for the towns than previously. Problems are being worked out as we go along and the process should be smoother next year.

The department is supervising an update by the assessors of property values in the towns, with the assistance of the State office, as part of the never-ending striving for equity in assessment.
