Legislator Swiercznski, with second by Legislator Bennett, moved to delete the increase in the Legislators' salaries. Legislator Swiercznski called for a roll call vote, which proceeded as follows:

Legislator Swiercznski	aye
Legislator Vick	nay
Legislator Bennett	nay
Legislator Berger	aye
Legislator Billings	nay
Legislator McMurray	nay
Legislator Schaal	nay

The resolution was defeated five (5) nays; two (2) ayes; 0 absent.

Legislator Swiercznski, with second by Legislator Berger, moved to transfer funds for the appropriation increases in the Preliminary Budget from the Tax Stabilization Fund.

Legislator Vick commented that the County has been able to do some good things with the interest earned on the tax stabilization account, and felt that it would be a mistake to remove funds from this account to cover the increase in appropriations in the Preliminary Budget. Legislator Swiercznski felt the account was originally set up to be used just for this purpose, rather than place an additional tax burden upon the people of the County. Mrs. Basinait, the County Treasurer and Budget Officer, urged the Legislators to seriously think about all the ramifications this type of action might incur. Mrs. Basinait said that Orleans County has a Triple A Moody credit rating, only one of two counties in the state to have such a good rating, and she did not want to lose it.

appropriations in the 1988 Preliminary Budget was taken, and the amendment passed, six ayes; 1 nay, Legislator Schaal; 0 absent.

Roll call vote was taken on the amended resolution, and proceeded as follows:

Legislator Bennett	aye
Legislator Berger	aye
Legislator Billings	aye
Legislator McMurray	aye
Legislator Schaal	nay
Legislator Swiercznski	aye
Legislator Vick	aye

The following resolution was then adopted 6 ayes; 1 nay, Legislator Schaal; 0 absent:

RESOLUTION NO. 421-1187

By Legislator Schaal, who moved the adoption.

Seconded by Legislator Swiercznski.

RESOLUTION AMENDING 1988 PRELIMINARY COUNTY BUDGET RE TRANSFER TO CAPITAL RESERVE APPROPRIATION

RESOLVED, that the portion of the Preliminary County Budget adopted by this Legislature for the year 1988 concerning the appropriation for Transfer to Capital Reserve is hereby amended as follows:

<u>Account</u> No.	<u>Name</u>	<u>Preliminary</u> <u>Figure</u>	<u>Amended</u> <u>Figure</u>
A9950.521	Transfer to Capital Reserve	\$265,000.00	\$211,325.00

Adopted. 7 ayes; 0 nays; 0 absent.

Legislator Schaal said he would like the Finance Committee to reply to the negative comment made by Mr. Dick Eddy at the public hearing for the 1988 Preliminary County Budget. Mr. Schaal said, "My comment is, we have had reduced funding from both Federal and State agencies. That money goes to Orleans County taxpayers, and which contributes to a large percentage of the increase, which Mr. Eddy says is in excess of the inflation rate. We have no control over that. It looks good from the Federal and State agencies' standpoint. In essence, what they have done is shift it to local governments. To arbitrarily say we have had an increase over four years is not correct. We have had to make up the difference of what the State or Federal government no longer contributes

to their programs which we administer. A large portion of our problem is caused by a lack of spending throughout the years by whatever administration happened to be in charge. It comes down to pay now or later, and we are at the point where we have to correct shortsightedness of previous administrations."

Legislator Billings disagreed with Mr. Schaal's comments. Legislator Berger noted the County's percentage of increase is less than the percentage of Federal and State increase.

The Chairman recessed the meeting at 10:15 p.m. and reconvened at 10:25 p.m.

Prior to introducing the resolution to adopt the amended 1988 Preliminary Budget, Legislator Vick stated he would move the resolution "on the basis that I am sure in my thinking that the Board has convinced me that they will be fiscally prudent throughout the coming year, and will lower costs at every opportunity, will minimize expenditures, the hiring of personnel, and placement of new programs for the fiscal year 1988."

The following resolution was introduced:

RESOLUTION NO. 422-1187

By Legislator Vick, who moved the adoption.

Seconded by Legislator Bennett.

RESOLUTION ADOPTING PRELIMINARY COUNTY BUDGET, AS 1988 ORLEANS COUNTY BUDGET

RESOLVED, that the Preliminary Budget adopted October 28, 1987, and amended November 12, 1987, be, and the same hereby is adopted as the Orleans County Budget for the Fiscal Year 1988.

Adopted. 6 ayes; 1 nay, Legislator Swiercznski; 0 absent.

Legislator Bennett commented that "we are the local government, closest to the people. I am not particularly happy with the track record we have. We are the people who are responsible, who have to look people in the eye when they have to drive five miles around because a bridge is out or unsafe. We are in a position to respond to the needs of the people, and that is why we should vote for the budget."

Mr. Dudek stated that it is the intention this year, that even though up-grades and new positions have been budgeted, they will only take affect after they

have been approved by the Legislature.

RESOLUTION NO. 423-1187

By Legislator Bennett, who moved the adoption.

Seconded by Legislator Vick.

The Clerk presented the following communications: A letter of resignation from Dr. Ruth M. Barrett, as County Coroner; a letter from the State Department of Civil Service, acknowledging the County's Deferred Compensation Plan; a letter from Senator Warren Anderson acknowledging the County's resolution regarding the extension of Route 531; a letter of acknowledgment from Mayor Tuohey regarding receipt of the minutes from the Multi-county Solid Waste Study Group; a letter of thanks regarding the County's support in granting the libraries \$1.00 per capita in the County budget, from the Community Free Library in Holley; a copy of the November 10th meeting minutes from the Soils and Water Conservation meeting.

Mr. Vick said that Dr. Chenelly had requested a Finance Committee meeting for December 23rd. Mr. Vick said that because of the size of the expenditure involved, he would like all Legislators to attend the meeting. It will be held during the regular conference session, and the source of funding for the building will be discussed at that time, as well as deciding how to budget for the proposed building. Mr. Vick reported that Wendel Engineers had written Technomarine stating the docking system does not conform - there should be vertical pipes - and asked for reworked drawings by December 4th, or they (Wendel) would be notifying their bonding company. Mr. Vick said that at the last Supervisors' Association meeting, there had been discussion on kennel licensing fees, but nothing had been finalized. Legislators McMurray and Berger reported their usual meetings.

The following resolutions were presented:

Legislator McMurray, with second by Legislator Swiercznski, introduced a resolution approving an agreement between Nassau County and the Orleans County Sheriff's Department providing for the boarding of prisoners. During discussion, Legislator Vick recommended raising the cost to \$65.00 per day, and moved to amend the resolution, to this effect. The proposed increase was to take effect January 1, 1988. Legislator Berger seconded the proposed amendment. Motion carried. Legislator McMurray, with second by Legislator Bennett, moved to table the resolution. Motion carried.

The County Attorney noted that in the specifications for the removal of the bridge, the County has included the requirement the contractor get the permits - the contractors will be instructed, that the County intends to replace the bridge, for their DEC Environmental report. Mr. Young (the County Attorney) also pointed out that the Board has already

hire an engineer to draw preliminary designs for the replacement of the bridge, and that, therefore, this amendment wasn't necessary. The proposed amendment was withdrawn by Mr. Bennett and Mr. Vick.

County of Orleans Budget Fiscal Year 1988

REBUILDING THE BRIDGES

Adopted Orleans County Legislature
November 12, 1987

Cover Design by Laird Ogden

BUDGET MESSAGE 1988

TO THE HONORABLE MEMBERS OF THE ORLEANS COUNTY LEGISLATURE AND
TAXPAYERS OF ORLEANS COUNTY:

These are times when all levels of government are experiencing difficulties in competing with inflation, reduced revenues in State and Federal aid, and corresponding adjustments in local services because of budget constraints. With this budget, your Budget Committee is endeavoring to make the best use of existing resources.

The cost of operating the Public Defender's office has risen to \$123,732.-\$22,694. (or 22%) higher than 1987. This is largely due to the cost of Assigned Counsel and a new position in this office since the adoption of the 1987 budget.

Buildings and Grounds 1988 budget is \$168,080.-\$41,070. (32.3%) above the 1987 budget. This is attributed to the cost of capital projects, ie: the redecoration of the County Court House (\$17,000.) and a copy machine to be used in the County Office Complex (\$14,000.).

In a continuing effort to upgrade and improve our computer system, a Central Data Processing department has been established with a part-time Coordinator hired on a contractual basis at a cost not to exceed \$15,700.

Insurance costs have continued to escalate. In 1987 we were \$57,665. under-budgeted. Since we expect the costs to remain approximately the same in 1988, we have budgeted accordingly. Community College costs continue to rise. We are projecting a total cost of \$475,000. for 1988, an increase of \$125,000. On the other hand, it appears that Education-Handicapped Children costs may be reduced in 1988 from \$927,500. to approximately \$750,000.-one half of which is State reimbursable.

The Sheriff's Department county cost for 1988 is \$909,523., an increase of \$65,357. (7.7%) over 1987. This is attributed partly to the addition of two deputy positions and a clerical position. Jail costs however, are reduced by \$12,479. (6.3%) over 1987, largely due to the concentrated efforts by this department to promote new and innovative programs and to encourage other counties to house prisoners in our jail facility.

Civil Defense projects an increase in County cost of \$14,918. (27.6%). This is a result of decreased Federal Aid. The actual cost of operating the department is 1% less than in 1987.

Community Services county costs are projected at \$276,769.-\$30,468. above 1987 (or 12%). This includes a new position to Coordinate Developmental Disabilities and two other new positions in this department.

Tourism Department shows an increase in county cost to \$59,902.-\$18,654. (45.2%) over 1987. This is due to less than anticipated revenues.

Revenue estimates in some areas are based on limited information. The State and County economic picture need decline only slightly to erode our projected sales tax revenues. Sales tax revenues have been disappointing so far in 1987 and we are, therefore, not increasing our 1987 projection for 1988.

Recognizing the fact that additional funding is needed to stem the continuing deterioration of local bridges and highways, the County Legislature has tentatively approved an appropriation of \$211,325. to a Capital Reserve Equipment Account. In addition to this, we project a levy of \$1,170,294. as the operating cost for the Highway Department for 1988. This includes the replacement of some equipment and the reconstruction of certain roads. This levy is \$23,016. (or 2%) higher than 1987.

As of January 1, 1988 the State has mandated an increase in Shelter Allowance for Home Relief and Aid to Dependent Children recipients. The total cost of this increase in Orleans County is \$359,887. (\$118,861. County Share). The additional cost to the County in the Social Services budget is \$202,911. over 1987, including the Shelter Allowance increase. Social Services is predicting a 1987 surplus of \$150,000. We are recommending the reduction of the 1988 tax levy by this amount.

Since there appears to be a normal possibility of a need for contingencies during the coming fiscal year, we believe a contingency appropriation of \$125,000. provides modest insurance.

We have all heard of the proverb --- "Between a rock and a hard place". This seems to be the natural place for government managers. On the one side- the public demands more and better services- and on the other- the same people demand cost containment within government to keep the lid on taxes. As these pressures mount, government officials intensify their efforts to find new ways to provide essential services at the very least cost to the taxpayers. As we reassess the priorities for our local government services, and better understand the tax burden our citizens are willing to shoulder, we must assure ourselves that the services supplied are those most needed by our citizens and that those services are provided in the most efficient and economical manner.

With these thoughts in mind, we are presenting what we feel is a "good" budget, reflecting accurate, balanced estimates, which will be useful in financial planning and control for Orleans County in 1988. We believe significant gains have been made toward our goals, and we may expect continued progress in the future.

Respectfully submitted,

Mary Basinait

Legislator Vick was given privilege of the floor to discuss the purchase offer received from Mr. Bovenzi, in the Town of Carlton. Mr. Vick felt the County ought to sell the property to Mr. Bovenzi, with the stipulation, that by doing so, the County was not setting a precedent; that since prior owners could not be located, and that since Mr. Bovenzi's property is adjacent to the parcel in question, the County was willing to sell the parcel for the back taxes owed to the County. Legislator Bennett felt that other property owners in the area should be contacted to see if they were interested in the property, and noted that the County does have a policy in place regarding the sale of County-owned property. Mr. Vick agreed, and it was decided to have the County Attorney contact other property owners in the immediate vicinity of the parcel

in question, to see if they were interested in purchasing the parcel, and then bring the question of the sale of this property back to the Board.

Concern was expressed over the closing of the Fruit Avenue Bridge over the Erie-Barge Canal in the Town of Ridgeway, and the following resolution was introduced and adopted:

RESOLUTION NO. 510-1287

By Legislator Berger, who moved the adoption.

Seconded by Legislator Schaal.

RESOLUTION EXPRESSING CONCERN OVER CLOSING OF FRUIT AVENUE BRIDGE OVER THE ERIE-BARGE CANAL IN THE TOWN OF RIDGEWAY AND THE WEIGHT RESTRICTION ON THE BATES ROAD BRIDGE, VILLAGE OF MEDINA

WHEREAS, the New York State Department of Transportation has closed the Fruit Avenue Bridge over the Erie-Barge Canal in the Town of Ridgeway; and

WHEREAS, alternate routes which can be used by emergency vehicles are not very satisfactory, as one is a dirt road; and

WHEREAS, the weight restriction on Bates Road Bridge necessitates three miles additional travel for fire vehicles sending service to the Faith Covenant School adjacent to the bridge;

NOW, THEREFORE, BE IT RESOLVED, that this Legislature does hereby express its concern over the closing of the Fruit Avenue Bridge over the Erie-Barge Canal, Town of Ridgeway and the weight restriction placed on the Bates Road Bridge, Village of Medina and urges that the repairs of these bridges begin as soon as possible; and be it

FURTHER RESOLVED, that copies of this resolution shall be sent to the NYS Department of Transportation, Congressman John J. LaFalce, Assemblyman R. Stephen Hawley, Senator John Daly and Orleans County Fire Coordinator John J. McCarthy.

Adopted. 6 ayes; 0 nays; 1 absent, Legislator McMurray.

Legislator Vick said he had received a call from Wendel Engineers earlier in the week asking why the County hadn't responded to their approval for payment for Technomarine in the amount of \$132,327.00; this is

for materials - none of this has been delivered to the site, and they are saying that the materials are there. Mr. Dudek explained that they were billing for 75% of the materials, with 25% remaining to be delivered. Mr. Vick referred the matter to the County Attorney.

Legislator Bennett brought up the matter of the Dog Pound Contract. Mr. Dudek explained that new regulations have come out regarding Animal Control Officers, which states that in order for animals to be put to sleep, the person doing that has to have a two-year degree in some related field (after 1989). Legislator Vick noted that the Legislature has asked P.A.W.S. several questions regarding their proposed animal shelter, and that as yet, has received nothing in reply. Mr. Vick said he had received nothing from them to indicate that their organization could build their building, and suggested that the County advise them of the opportunity to renew the lease for a six-year period, and ask P.A.W.S. for a reply.

Legislator Billings noted that Dr. Daly is concerned over Ruth Barrett's replacement as County Coroner. Mr. Billings noted that several people were interested in the position. The Monroe County Coroner's office had been contacted to see if Orleans County could contract with them, and they did indicate they would contract back with the hospital in Albion to do some of the simpler autopsies; the problem would be with some of the work done on homicide cases, since there would be a need to preserve evidence. It was decided to contact various doctors to see if any would be willing to serve as County Coroner to replace Dr. Ruth Barrett.

The County Treasurer informed the Board that the Commissioner's house would soon be vacant, as the doctor currently renting, will be moving to other quarters.

There being no further business, motion by Legislator Swiercznski, with second by Legislator Vick, to adjourn the meeting. Motion carried.

Meeting adjourned at 5:15 p.m.

Sine Die.

PROGRAM:

1987 proved to be a year of major changes to the Office. The Office received additional square footage and a new layout; new State funding provided increased home care and case management services; interagency networking activities saw the cementing of an older worker employment initiative and the beginnings of a major attempt to improve public access to in-home services. These were exciting, innovative changes, but were not without their drawbacks. Our initiatives into providing increased in-home services and interagency networking for better access to them, stems from new State monies that are committed in that direction. Meanwhile we continue to struggle with mandates to provide information & referral, outreach, legal, public information, and advocacy services with decreasing funding levels. This has created staff frustration when attempting to meet the challenges of the new programs while continuing the commitments of the existing ones. Invariably new programming requires greater resources and time to implement effectively, leaving existing services to take a back seat.

PROGRAM: Department Highlights of 1987

Employment during 1987 continued to be strong, even though our county unemployment rate averaged higher than that of a comparable period of time in 1986. The number of employed residents of the county actually grew. Many employers in the county, most notable Fisher-Price in Medina, showed growth. During the second and third quarter of 1987 discussions with some employers, both public and private for profit, there were in some cases shortages of applicants. This may be a trend which may continue, especially in the youth category.

One big plus for the county was the opening of the Anchor Bank Operations Center in Albion. Our department has been working very closely with them to help train a portion of their entry level work force. Both classroom training and on-the-job training programs are

SERVICE RESPONSIBILITIES:

To provide Intake/Diversion¹, pre-sentence investigations², and Probation Supervision services³ toward contributing to the system's handling crime problems in a safe, effective, humane and yet economical fashion.

- ¹ Intake/Diversion, where it's the choice of the victim, adjusts cases by counseling and negotiation between offender and victim, without Court action, generally in cases involving marital discord, separated spouses (non-support, custody, and child visitation), children committing crime, runaway and incorrigible youth, neighborhood disputes, minor crimes, first offenses, domestic violence, family fights and disputes.
- ² Investigations attempt to give the Judge a factual picture and an emotional grasp of the human before him so that he can sentence in a manner best suited to the protection of society, the rehabilitation of the defendant and to deter others from committing crime.
- ³ Through understanding, concern, and discipline, the probation officer helps the client avoid further criminal activity and to become a more productive community member.

PROGRAM:

The continuing task of keeping assessment and ownership records and tax maps up-to-date has, as always, taken up the bulk of the time in the department. The Real Property Information Systems Coordinator has been deeply involved in the update of values being carried on by seven of the town assessors. The results of this update will appear on the 1988 assessment roll.

As usual we coordinated processing of assessment rolls, tax rolls and tax bills for the towns, villages and schools, through the Batavia SDEA office. The schools and towns used the new mailer bills this year, and in the main, seem to like them, as an alternative to stuffing envelopes.

The Director coordinated the efforts of several departments in the location, posting, and sale of county-owned tax properties.

PROGRAM:

We will be implementing a computerized hospital insurance program on a new computer this year. We expect to save many hours with this computerized system. We are also planning to use the new computer tax bills and envelope system, which again should save time. We have found that it is very worthwhile to send additional billings on delinquent taxes, but we need to find ways to reduce the workload.

We processed 954 applications for residency for people attending Community College. Each person is required to present himself in our office with proper identification.

1. From the Conference Session
2. With mutual consent of the Committee Chairman and the Chairman of the Legislature
3. From the request of two Legislators
4. From the Chairman of the Legislature.

All items to be placed on the regular Agenda must be received by the Clerk of the Legislature no later than 12:00 p.m. on the Thursday preceding the Regular Meeting. Resolutions must be submitted in draft form as prescribed by the Clerk and must contain essential information.

Draft Resolutions must be accompanied by all appropriate supporting documents such as:

The submitting department will be responsible for the accuracy and completeness of the information contained in the Draft Resolution.

Emergency items, which if left unattended would have a significant negative impact on the County, may be added to the Agenda on the day of the Regular Meeting with a majority vote of the members present at the Conference Session. Such vote will not be in order until the resolution is printed in final form and reviewed by the Chairman, Committee Chairman, as well as the Chief Administrative Officer, County Attorney and Budget Officer, when appropriate.

Conference Session

The Conference Session Agenda shall be prepared after consultation with the Chairman of the Legislature and Standing Committees by the Chief Administrative Officer.

EXECUTIVE SUCCESSION

24. The succession of executive authority to be exercised in the absence of the Chairman of the Orleans County Legislature, (in addition to that already established for emergency situations by Local Law No. 2 of 1980) is as follows:

EXECUTIVE SUCCESSION 1988

Legislator Lorne J. McMurray	At Large
Legislator Kenneth H. Schaal, Jr.	Dist. 1

Legislator Lyndon D. Billings	Dist. 4
Legislator Frank R. Berger	Dist. 2
Legislator Richard Bennett	At Large
Legislator Ted Swiercznski	Dist. 3

Adopted. 7 ayes; 0 nays; 0 absent.

The County Treasurer, Mrs. Mary Basinait, was given privilege of the floor. Mrs. Basinait noted that there had been problems with the Public Defender's budget due to encumbering funds for assigned counsel, prior to an attorney actually beginning work on a case to which he had been assigned. Mrs. Basinait requested permission from the Legislature to discontinue this practice of encumbering funds for Assigned Counsel from the Public Defender's budget as soon as an Attorney is assigned to a case. Mrs. Basinait said it would make more sense to wait until the Attorney actually begins to work on the case, before any money is encumbered. She said she would like to try this procedure for a year, and see if it will help to solve some of the problems that have occurred with the Public Defender's budget. The members of the Legislature agreed to authorize the County Treasurer to use this procedure for a year.

RESOLUTION NO. 14-188

By Legislator McMurray, who moved the adoption.

Seconded by Legislator Berger

Legislator Berger was given privilege of the floor, and read the following article taken from the Medina Journal, dated November 30, 1987:

Report Says WNY Should Seek Tourists From Own Region

BUFFALO, N.Y. (AP) — Western New York should try to attract tourists from the surrounding area instead of other parts of the country, according to a University of Buffalo study.

Most Americans are taking trips closer to home and passing up extended vacations far from where they live, according to a report released Friday by the university's Center for Regional Studies.

"Given the market data and travel patterns, the obvious tourist markets for Western New York are Ohio, Pennsylvania, Ontario and areas within the state," according to Marilyn Reeves, author of the report and professor of environmental planning and design.

Western New York should also do more to promote tourism among those living in the area, the report says.

The report, prepared for the Western New York Economic Development Corp., discourages the area from trying to attract people from other regions of the country.

"This market is not only small, it is difficult to please," the report says. "While those developing tourism fight to capture it, the readily accessible regional market...is largely ignored."

Reeves said Western New York should not try to compete with the Grand Canyon and Disneyland.

She said 51 percent of the total population of the U.S. and Canada is within 750 miles of Western New York and several large cities are within a day's drive. Western New York could increase tourism significantly by encouraging people to take "mini-vacations" in the area.

William Donohue, president of the development agency, said, "To be a success with people outside your area, you have to be a success with your own people first. We're losing a lot of their dollars because local tourists are

not being pitched properly."

"We really don't show (tourists) how they can spend a half-day, a day or two-days within the region," Donohue added.

The report recommended creating a regional tourism commission to promote a range of attractions in Western New York and not just Niagara Falls, the region's main tourist drawing point.

A report last spring by a Baltimore-based tourism consulting company also recommended creating a regional tourism commission.

Tourism is the state's second largest industry behind agriculture.

Motion by Legislator McMurray, with second by Legislator Swiercznski, to adjourn. Motion carried.

Meeting adjourned at 9:10 p.m.

LEGISLATURE MEETING
February 10, 1988

The Chairman called the meeting to order at 7:30 p.m. After the pledge to the flag, the Clerk called the roll, and all Legislators were present.

The Clerk presented the following communications: A copy of the November 19th Board Meeting minutes from Western Regional OTB Corporation; a copy of the annual report from the Sheriff's Department for 1987; a summary of the Orleans County Classification Study, submitted by the Personnel Officer; a report from the County Treasurer on the petty cash accounts for various departments.

Report of Standing Committees: Legislator Billings said he had met with Wayne Hale, the Planning Director, to go over the Planning Board agenda. With reference to Tourism, Mr. Billings explained that there was a resolution on the evening agenda which would allow continuation of the County's Tourism Program, as well as provide for the filling of the Tourism Director vacancy. Mr. Billings noted that a good foundation had been established for the program, and the work should continue on. In reference to the IDA, Mr. Billings said there might be some restructuring in that area.

Legislator Berger said he had met with the Village of Lyndonville, at their board meeting on February 8th, as well as with the Town of Ridgeway.

Legislator McMurray noted that the purchase of the church property located on Platt Street had been discussed in the afternoon at the Conference Session. With reference to pathological services for the County, Mr. McMurray said he had met with the Chief Administrative Officer, the County Attorney and Dr. Forbes to discuss the possibility of Dr. Forbes' taking over the duties of Coroner, as a replacement for Dr. Barrett. Mr. McMurray said he would have more to report at the next meeting.

Legislator Swiercznski noted that the new Developmental Disabilities Coordinator had been appointed, and was starting to contact the people involved in the Preschool Handicapped Children's Education Program. Mr. Swiercznski also had regular meetings with the Nursing Home Administrator and with the Public Health Administrator. Mr. Swiercznski spoke about the water problem in the trailer park located on Gulf Road in the Town of Murray, and said this was

basically a town problem. The County Health Department can only report on the quality of the water - the town issues permits and may have to provide water to the people in the park. Mrs. Joanne Johnson, the Public Health Department Administrator, was in attendance at the, and said her department had been trying to contact the owner of the park, to make sure that water is available to the residents of the park. She noted that it is an on-going problem, and that there is a plan of correction in place for this situation.

Legislator Schaal reported on the Fruit Avenue Bridge situation. Originally the County passed a resolution in favor of rebuilding or refurbishing the bridge, and no reply has been received. The County Highway Superintendent has been requested to remain in contact with the NYS DOT on this matter, and as yet there is nothing positive to report. Senator Daly contacted DOT and was informed that the bridge is not on the five-year plan unless funding changes. Letters have been received from Jack McCarthy and Steve Hawley stating the same thing. There is a informational meeting being held on February 16th in the Carlton Firemen's Recreation Hall at 7:30 p.m. regarding the proposed single span bridge over Marsh Creek at Two Bridges. With regard to the Blood Road Bridge, Mr. Schaal said he had sent letters and made phone calls to the Historical Society and would continue to do so until replies were received on this particular issue. Ron Foley suggested that the County Attorney go over the information to see whether or not they can keep the County from replacing the bridge. With regard to the Court House Roof, the County has received notification from Atlantic Testing Laboratories - the County asked for a determination as to whether or not the dome was ever gold colored, and from the report, it was not. Now, the decision has to be made as to the color for the dome - either gold or silver.

Legislator Bennett met with the County Clerk to discuss problems in that office. Mr. Bennett also noted that the new Orleans County Tourism Guide had been received, and that each Legislator had received copies of a report from Self Insurance and the Treasurer's Office. Mr. Bennett also read a letter which he proposed sending to Stuart Steiner of Genesee Community College requesting the names of students from Orleans County participating in their program.

FURTHER RESOLVED, that this Legislature abolishes one Temporary Typist position and one Stenographer position, and in their place creates two (2) Permanent Senior Typist positions; said positions to be placed in Grade 6, Step 1, with each position to have an annual salary of \$13,264.00.

Adopted. 7 ayes; 0 nays; 0 absent.

Legislator Bennett, with second by Legislator Schaal introduced a resolution adopting Oak Orchard River Marine Park Operations and Management Plan. There was considerable discussion on the Plan. Legislator Billings, with second by Legislator Berger, moved to amend the resolution to include "FURTHER RESOLVED, that this Legislature does hereby authorize the Chief Administrative Officer to advertise for bid, the Management of the Park." Legislator Schaal said that since the County was progressing into Phase II, that it would be inappropriate to ask for bids at the present time for the operation and management of the Park. Legislators Swiercznski and Bennett both agreed that it was a worthwhile project for the future; that perhaps a private operator would be interested in running the Park. Legislator Billings requested a roll call vote on the proposed amendment, which proceeded as follows:

Legislator Billings	Aye
Legislator McMurray	Nay
Legislator Schaal	Nay
Legislator Swiercznski	Nay
Legislator Vick	Nay
Legislator Bennett	Nay
Legislator Berger	Aye

The proposed amendment was defeated.

There was discussion on the hours that the Park would be open to the public. Legislator McMurray suggested opening the Park at 7:00 a.m. and closing it at 10:00 p.m. Legislator Schaal, with second by Legislator McMurray moved to amend the proposed resolution, adjusting the Park hours to 7:00 a.m. through 10:00 p.m. Upon vote, the motion failed; 3 ayes; 4 nays, Legislators Vick, Bennett, Billings and

Swiercznski.

Legislator Bennett, with second by Legislator Schaal, moved to amend the proposed resolution, adjusting the Park hours to 6:00 a.m. through 10:00 p.m. The motion passed; 5 ayes; 2 nays, Legislators Vick and Swiercznski. The following resolution was then adopted, by roll call vote, which proceeded as follows:

Legislator Vick	Aye
Legislator Bennett	Nay
Legislator Berger	Aye
Legislator Billings	Nay
Legislator McMurray	Aye
Legislator Schaal	Aye
Legislator Swiercznski	Aye

Legislator Berger was given privilege of the floor. Mr. Berger stated he had received a telephone call from Mr. Robert Johnroe of Albion in reference to the Director of Weights and Measures position. Mr. Berger said he didn't realize the position was open; that he didn't realize the provisional employee currently in the position had failed the civil service test. No comments were made in reference to this position.

Mr. Berger also read a letter from Mr. Ronald Beu of Medina, New York questioning the recent increase in the bill for garbage and refuse pickup which he received from Albion Disposal, Inc. Mr. Beu stated his current bill from Albion Disposal, Inc. reflected a 33% increase over his previous bill.

Mr. Berger also discussed a purchase order received from the Department of Social Services asking for permission to purchase a total of \$3,004.25 worth of new furniture, noting that some of the new furniture would be placed in the Commissioner's office, and some in the waiting area. The chairs currently in the Commissioner's office would be placed in the office of the Staff Development Coordinator. It was noted that there would be 75% reimbursement on the cost of the furniture. Chairman Vick said he questioned whether or not the furniture selected would be serviceable, as opposed to more institutional type furniture. He suggested sending the purchase order back with the request that more appropriate furniture be chosen.

Legislator Schaal was given privilege of the floor to discuss a proposed office for use by the Legislators when meeting with individuals; an area which would be more private than the meeting room or conference room. It would also be an area for the Chairman to keep private files. Mr. Schaal asked for permission to develop a plan to make an office adjacent to the Chief Administrator's Office, in the Conference Room. He proposed that a 12' x 16' office be constructed in that area for an approximate cost of \$900.00. Mr. Schaal asked that the Board get back to him with its feelings on the matter.

Motion by Legislator Swiercznski, with second by Legislator Bennett, to recess the meeting until 3:00 p.m. on Wednesday, February 17, 1988, at which time the meeting will reconvene. Motion carried.

Meeting recessed at 10:25 p.m.

RECONVENED LEGISLATURE MEETING
February 17, 1988

The Chairman reconvened the meeting at 3:00 p.m. All Legislators were present.

Legislator Schaal was given privilege of the floor and opened the discussion on the proposed long span bridge at Two Bridges in the Town of Carlton. Mr. Schaal noted that one concern raised by the engineers at the Informational Meeting held the previous evening, was "soft" funding versus hard construction costs. Consultant fees for the project would be approximately 10-12% of the total cost, or about \$400,000.00. Mr. Schaal said it would probably be 4 - 6 months before a consultant could be considered. At that time there will have to be a direct cost estimate, and the County would enter into agreement with the State for the consultant the County would be hiring. In some types of projects like this one, the County bears the whole 10%, but Mr. Lewis Gurley, NYS Regional Director, has been using a "soft" match, whereby the County pays the 10%, and is reimbursed 5% by the State. Mr. Schaal said it would probably be July before the County can go to the engineering aspect of the project.

When the project is submitted to Albany it will be given a number and the money for the project will be designated at that time.

Mr. Schaal, with second by Legislator McMurray moved a resolution entitled RESOLUTION ACCEPTING REGION 4 NYS DEPARTMENT OF TRANSPORTATION PROPOSAL FOR THE FUNDING AND CONSTRUCTION OF A LONG SPAN BRIDGE OVER MARSH CREEK ON ROUTE 98 IN TOWN OF CARLTON.

Mr. Young, the County Attorney stated that the NYS Regional Office did not want to be placed ahead of Albany. He suggested rewording the proposed resolution by using the term "plan" rather than "proposal". He also suggested inserting "for the approval of funding and construction" in place of "proposal for the funding and construction". He also said it would be well to include a phrase concerning the realignment of Route 98, north of Route 18 and south of Marsh Creek Road, by turning this portion of the road over to the State control for maintenance after the project was completed. The fact that the State would not allow the replacement of the Marsh Creek Road Bridge was included in the resolution.

Mr. Schaal, with second by Mr. McMurray, moved to

mend the last paragraph of the resolution to read "with the County providing the engineering work as its share of the five percent matching funds." Motion carried.

Mr. Berger, with second by Mr. Schaal, moved to amend the fifth paragraph of the resolution to read "Whereas, the temporary bridge could be replaced with a pedestrian bridge, at least at the same height of the present bridge, providing means for the people of the area to cross Oak Orchard River." Motion carried.

Upon further discussion, Mr. Schaal noted that of the 129 people in attendance at the informational meeting who voted on the proposal for the long span bridge, only 6 voted against it. Mr. Schaal stated he had nothing more to add - everyone except Mr. Berger was at the meeting. It went very well; very informative - more positive than negative. Mr. Schaal said, "In the best interest of the people in the area and the County as a whole, and the total bridge program, with the dollars involved coming into the County, I would strongly suggest that the passage of this resolution take place today. Hopefully, everyone will vote in favor of the proposal." Mr. Schaal said that a decision would have to be made to either proceed or to wait on the temporary bridge.

Comments made by Legislators:

Legislator Bennett: "I think we should do it - we can only gain by it."

Legislator Billings: "Go ahead and do it. At least we will have a temporary bridge, and it would be their (State's) fault." Also, "I think comments made last night about putting in bridge at a lower height than what we have - if we put in lower, there will be legal problems. We have to look at the height we want, if its (the bridge) going to be there for 20 years."

Legislator Schaal: "We will have a recommendation at the next meeting."

John Sage, a Town of Carlton resident, was given privilege of the floor. Mr. Sage said, "I am in favor of this. After hearing last night's comments, I am pretty much in favor of the bridge." George Callard, also of the Town of Carlton stated, "I have always been in favor of the long bridge - only practical solution to the problem. I am concerned over the bridge over Oak Orchard River; that concerns a lot of people. They are trying to protect the upper gorge because of the wildlife. Smaller boats right now, can use the area. A lot of property owners are concerned and want to protect that. It has been discussed to try to protect it and make a conservation area up there. We are trying to determine what the saturation point is on

boats using the river. I would hope that the bridge would be maintained at its present level; its been at that level for a number of years."

Legislator Billings suggested setting aside the resolution and going on to other business, and coming back to the bridge proposal later in the meeting. The other Legislators agreed to do this, and the resolution was set aside.

Discussion:

Cleaning of the Jail: Legislator McMurray stated that the Sheriff's Department is going to assume that responsibility. They are going to set up something using night guards to work it out. Legislator Schaal stated that in talking with the Buildings and Grounds Superintendent, the Sheriff doesn't intend to clean the office space in the jail, using prisoners to do the work. Figures will be available at the next Conference Session showing the number of hours required to clean the offices in the Sheriff's Department.

Emergency Transport Services for Nursing Home: Legislator Swiercznski said there had been a meeting to discuss this situation, and that he didn't feel it appropriate to mention the outcome at this time. Mr. Swiercznski said the problem would be resolved.

The resolution regarding the State's plan for a long span bridge at Two Bridges was voted on at this time. Legislator Swiercznski called for a roll call vote, which proceeded as follows:

Legislator Swiercznski	aye
Legislator Vick	aye
Legislator Bennett	aye
Legislator Berger	aye
Legislator Billings	aye
Legislator McMurray	aye
Legislator Schaal	aye.

The following resolution was adopted:

RESOLUTION NO. 78-288

By Legislator Schaal, who moved the adoption.

Seconded by Legislator McMurray.

RESOLUTION ACCEPTING REGION 4 NYS DEPARTMENT OF TRANSPORTATION PLAN FOR APPROVAL OF THE FUNDING AND CONSTRUCTION OF A LONG SPAN BRIDGE OVER MARSH CREEK ON ROUTE 98 IN TOWN OF CARLTON

WHEREAS, the State of New York Department of

Transportation has extended to the County of Orleans a plan for approval of the funding and construction of a long span bridge over Marsh Creek, at an approximate cost of 3.8 million dollars, and the eventual realignment of Route 98 between Route 18 and Marsh Creek Road; and

WHEREAS, the County's share for this project will be five percent, matching funds; and

WHEREAS, the County has already scheduled the Marsh Creek Road Bridge over Oak Orchard River for demolition, and has determined that it would cost approximately 1.2 million dollars of County funds to replace said bridge in a manner that would satisfy all legal requirements, as well as to reconstruct the highway intersection leading to the bridge; and

WHEREAS, with the construction of a long span bridge over Marsh Creek, the State could not justify the cost of replacement of the Marsh Creek Road bridge over Oak Orchard River, but would allow a temporary bridge over Oak Orchard River during construction of the long span bridge; and

WHEREAS, the temporary bridge could be replaced with a pedestrian bridge at least at the same height of the present bridge, providing means for the people of the area to cross Oak Orchard River; and

WHEREAS, an informational meeting was held on February 16, 1988 in the Town of Carlton to allow the people in the area an opportunity to express their concerns and feelings towards the construction of the long span bridge, with only 6 of 129 persons present voting in opposition to the long span bridge plan;

NOW, THEREFORE, BE IT RESOLVED, that this Legislature does hereby accept the plan from Region 4 State of New York Department of Transportation to seek approval for funding and construction of a long span bridge over Marsh Creek on Route 98 in the Town of Carlton with the above mentioned eventual realignment of Route 98 between Route 18 and Marsh Creek Road, at an approximate cost of 3.8 million dollars, with the County providing the engineering work as its share of the five percent matching funds.

Adopted. 7 ayes; 0 nays; 0 absent.

There was continued discussion on the cleaning of the Jail, with Sheriff David Green in attendance. Sheriff Green said he had talked at budget time, of the possibility of having trustees (prisoners) clean the Jail. There has been a problem, because people are working in the office during the time the trustees

would be cleaning. The Sheriff said it wasn't possible to have the trustee clean the offices. Legislator Schaal agreed with the Sheriff, stating that Buildings and Grounds should clean the offices; it should be their responsibility. The Sheriff said he had talked with the Buildings and Grounds Superintendent, but that he hadn't had an opportunity to report back to the Legislature. Legislator McMurray stated that two people actually clean the Sheriff's office at a time; 4 man-hours a day. Mr. McMurray said the hiring of an additional full-time individual was being considered. Legislator Schaal said he would be introducing a proposal for enough staff to do away with the substitute people. When asked about part-time people to do this, Mr. Schaal noted that already there would be more cleaning to be done due to the construction of the new Community Services building and the Commissioner's House and the property on Platt Street. Part-time people would not solve the problem. Mr. Schaal said he had recommended to the Sheriff that he implement Mr. Swiercznski's suggestion of using a Trustee to clean the hallways and areas that wouldn't require constant supervision.

Mr. Vick said the Cleaning of the Jail would be on the next meeting Agenda under Committee Reports.

Access to Public Records: Mr. Dudek said that the County has received its first request for information, that has been denied by a Department Head. The individual applied to the Sheriff for information, and the Sheriff refused, stating that it was privileged information. The County Attorney denied access. There is a resolution in place in regard to Access to Public Records. In the resolution, an Appeals Committee has been created, which consists of the Chairman of the Legislature, the County Attorney and a Member of the Press. If an individual's request for information is denied, then he submits an appeal to the Appeals Committee, and if the request is denied by the Committee, then it will go to Court. This creates a problem, because the County Attorney would not be able to defend the County because he is on the Appeals Committee. The resolution has to be redone. The Chairman asked Legislator Bennett, along with the County Attorney and Chief Administrative Office to prepare a resolution to correct the problem for the next Legislature meeting.

Insurance: Mr. Dudek said he had received a call from Paul Haines in regard to the insurance for the Health Department. All insurance is placed except for malpractice for the Health Department. There is a new carrier, who would take it with a premium of \$9500.00. However, the new policy would not pick up any undiscovered claims that occurred this year. Only

covers claims reported for year the policy is in effect, as well as for 60 days afterwards. Insurance agency recommended that the County could take a chance in view of the \$30,000.00 difference in the cost. Mr. Dudek said he told the agency to go ahead, the County would take the \$9500.00 alternative. Mr. Dudek said there still might be a chance the County could get the same policy it had before at double premium, with continued coverage. Legislator Swiercznski moved, with second by Legislator McMurray, to have a resolution ready for the next meeting accepting the proposal for the Health Department malpractice insurance at \$9500.00 premium. Motion carried.

Meeting recessed at 4:18 p.m.
Meeting reconvened at 4:25 p.m.

The resolution regarding payment for additional renderings of the proposed Community Services building, which was tabled at the February 10th meeting was removed from the table. During discussion, Mr. Dudek said he had talked with Rick Bald from Lozier, and Mr. Bald said he would change their request to \$1,900.00 instead of \$5,000.00 for the additional renderings. Mr. Bald said he would make the requested changes and come back next week to the Conference Session and present his up-date. He would also make a request to the Legislature for the additional \$1,900.00. Legislator Schaal noted that the Superintendent of Buildings and Grounds was concerned that the exterior of the new building was not in keeping with the other County buildings in the area - both the County Administration Building and the Nursing Home have brick exteriors. The resolution was retabled.

The resolution upgrading the two Parent Aide positions in the Department of Social Services was removed from the table. Legislator Berger explained that the upgrade was being requested primarily because there were other County employees in other Departments who were doing the same work as the Parent Aides at Social Services. However, the Parent Aide positions in the Department of Social Services were in lower Grades on the CSEA Salary Schedule, and the Commissioner felt they should be placed in the same Grade as other employees who are doing the same work. The suggestion was made that perhaps the other employees should have their Grades reduced, to be in line with the Parent Aides. Upon vote, the resolution was defeated, 3 ayes; 4 nays, Legislators Billings, McMurray, Swiercznski and Vick; 0 absent.

The last two items on the agenda, which were withdrawn from the February 10th meeting, were to remain off the agenda. (The first item was the payment to MRB Group for work done on the jail project. Mr.

Dudek was requested to write a letter to MRB requesting justification for their request for payment. The other item on the agenda was the payment to Lozier in regard to the Community Services building.)

Legislator Berger reported to the Board the information on the request for the construction of a pool at Lakeside Beach State Park. On April 11th he had written Assemblyman Hawley and Senator Daly re the construction of a pool in the wooded area rather than in the sunny area. Also a copy of a letter Senator Daly had sent to the Parks commissioner regarding this situation. On April 21st, Mr. Berger received from Soil and Water, copies of letters containing information written by Assemblyman Hawley and Senator Daly. This is the only information he had regarding the construction of a pool at Lakeside. Mr. Berger said he had written to the Assemblyman and Senator today asking for an up-date. Mr. Vick said he had contacted Senator Daly, who said that \$100,000.00 had been appropriated to Parks and Recreation for this project - his suggestion is that we contact the Parks and Recreation commissioner telling him we are aware of the fact that there was an appropriation for this project and ask why something hasn't been done. Mr. Dudek was asked to write for this information.

Legislator Berger also asked about the renting of the piers at the Marine Park; said he had been asked if there was electricity there. It was felt that for the price, there should be power there. Legislator Schaal noted that during discussion on developing the Marine Park, it was decided that the County did not want overnight stays at the Park, and this is why there wasn't any electricity or water at the piers. Mr. Vick said this would be a concern for Phase II.

Legislator Billings, with second by Legislator Schaal, moved to go into executive session to discuss a personnel matter. Motion carried.

Meeting recessed at 4:50 p.m.

Meeting reconvened at 6:50 p.m.

Motion by Legislator Bennett, with second by Legislator Schaal, to adjourn. Motion carried.

Meeting adjourned at 6:50 p.m.

LEGISLATURE MEETING
February 24, 1988

The Chairman called the meeting to order at 7:30 p.m. After the pledge to the flag, the Clerk called the roll and all Legislators were present.

The Clerk presented the following communications: Notification from the Chairman that he would be away from February 25 through March 6, 1988, and that the Vice Chairman would be in charge in his absence; minutes from the February 9th meeting of the Soil and Water Conservation District Board; Notification from HSA of Western New York re proposed interim guidelines for Children's Inpatient Acute Psychiatric Services; the Agenda from the February 25th meeting of the County Planning Board; a letter from Griffith Oil Company, Inc. of Wyoming, New York commending County Fire Coordinator John J. McCarthy and his people for their support and help in a potentially dangerous situation; letters from Supervisor John Fox of the Town of Shelby and from Robert Litchfield of Lyndonville, New York both opposing the rate increase by Albion Disposal and J & I Disposal, respectively; copy of a letter sent by Senator Daly to Mr. Lewis Gurley, Regional Director of the NYS DOT in reference to the Fruit Avenue Bridge and the Bates Road Bridge; a copy of a letter from Ridgeway Town Clerk to Mrs. Joanne Vanderheite, Albion, New York informing her that the Town Board had recommended her appointment to the County Planning Board as Ridgeway's representative; the State Equalization Rates for Orleans County, from NYS Board of Equalization and Assessment.

Report of Standing Committees:

Update on Niagara Scenic Transportation: Legislator Billings said that the County has received the contracts, and that the Director of Planning and Development, Wayne Hale, is working on them. There is nothing new to report on route timetables. The County has no control whatsoever because they are not under contract with us.

Legislator Berger: Attended the Adjourned Legislature Meeting on the 17th; the Department of Social Services Executive Staff meeting on the 23rd; met with the County Historians and the Town Assessors on the 23rd.

MRB Group Project: Legislator McMurray reported that he and Mr. Dudek had contacted the MRB office. They do have a new program to submit to the County, and they

will be appearing at our next Conference Session. In the meantime, they will be sending information that they presented at the last meeting they were here.

Legislator Swiercznski: Reported the usual committee meetings - Nursing Home, Community Services, Public Health; also met with COVA.

Court House Roof Project: Legislator Schaal reported that Tallman & Tallman would be at the next Conference Session to discuss the Court House Roof.

Cleaning Man-hour Requirements: Legislator Schaal noted that everyone had received a list of man-hour requirements as compiled by Buildings and Grounds for the custodial care of the County Buildings. With the hours that are expended, one full-time position, plus one part-time position will be needed to take up the slack caused by the lack of Project HIRE personnel. The second part-time position would be used on an as-needed basis. It was noted that a cleaner spends three hours per evening in Public Health and Community Services. At one time Nursing Home staff used to clean these two areas. If this could be done again, then one part-time position request could be eliminated. The Committee recommendation would be to ask the Nursing Home to pick up Public Health and Community Services, which would allow the part-time person to clean the CD Center, and then clean in the Court House Square area. Mr. Vick asked that the matter be resolved in time for the next Legislature meeting.

Supervisors Association Meeting: Mr. Schaal said he had met with the Supervisors at their monthly meeting. The County Highway Committee proposed that all Towns take over sanding of State roads. The Highway Department is sending out letters requesting a response from the Towns to see whether or not they want to participate in the sanding and salting of State roads. Mr. Schaal said he would report back to the Legislature when all responses had been received.

Office Space for Legislators and Chairman: Legislator Schaal presented five proposals for construction of an office in the Conference Room area. Mr. Schaal felt Mr. Dudek's proposal was the best of the five, and proposed to the Board that the Legislature authorize the Buildings and Grounds Department to begin construction of this office in the northeast corner of the Conference Room, at an approximate cost of \$1,000.00. Legislator Berger suggested moving the wall back, and making the office measurement 8' x 15', and eliminating the "jog" out into the Conference Room. Legislator Billings said, "I would point out that you would run up \$10,000.00 before you get it furnished. I don't think that it's necessary, you can get along

without it. I would oppose it." Mr. Vick stated the office would have to be large enough to accommodate five people, that it couldn't be cut down too much. Mr. Dudek pointed out that the Conference Room could still be used with the table and chairs set up as they have always been, and the office could still be constructed in the northeast corner of the Conference Room. Legislator Schaal said he would have a recommendation for the Board at the next meeting, as well as a resolution for the agenda of the next Legislature meeting.

Space Problem - County Clerk's Office: Legislator Bennett said that another abstract company has requested space. Mrs. Lonnen, the County Clerk, wrote a letter to the company stating she would get back to him at a later date. Mr. Bennett said that a space study would be done to see how to more effectively use the space in the County Clerk's office, and made the suggestion that perhaps the Court people in the County Clerk's office would be moved to the Court House.

Federal & State Excise Taxes: Legislator Bennett said that Mary Basinait, the County Treasurer, and Dave Albanese of the Highway Department are working to get the State and Federal excise tax figures.

Excess Insurance Monies: Legislator Bennett said he was still investigating this; that he is still trying to determine how much of these monies is reimbursable.

Tourism Board: Mr. Bennett stated that he and Legislator Billings attended the Tourism Board meeting, and the Board is very interested in what the Legislature is doing to fill the vacant Tourism Director position.

During the open discussion portion of the meeting, Chairman Vick said he had received a request from Scott Schmidt, an employee of Merrill-Grinnell Funeral Homes, Inc., who expressed interest in the vacant coroner position. Mr. Schmidt said he would seek election to the position in the fall. Mr. Vick said it was his understanding that Dr. Mruczek was not interested in continuing as County Coroner, and would not run for re-election in the fall.

Mr. Vick referred to a resolution adopted by the Board, which stated that all news releases or information of this type be cleared through the Legislature, before being sent out. He then read a letter which Commissioner Hardenbrook proposed to send to Senator Daly and Assemblyman Hawley. The letter was in opposition to the proposed centralization of the Support Collection Unit function to the New York State Department of Social Services. The Commissioner's Association felt the local Support Collection Units

payments as they have in the past; that having the local units do this is a much more efficient way to handle these payments. Chairman Vick requested that a resolution opposing the centralization of the Support Collection Unit function to the NYS Department of Social Services be prepared and placed on the agenda for the next meeting.

Two representatives from P.A.W.S., Doris Bruski and Gretchen Sepik, were given privilege of the floor and read their report to the Legislature. The Legislators were given copies of the report, and one copy is on file in the Legislature Office. In reference to the actual building of the animal shelter, the architect has the plans for finalization, and Job Corps will be doing the construction work. P.A.W.S. will be breaking ground as soon as weather permits.

The meeting was opened for a general question and answer period. Legislator Bennett commented that the \$25,000.00 figure, which would be the County cost for a contract with P.A.W.S., is a considerable increase in cost. The County has budgeted \$22,000.00. Mr. Dudek noted that in the P.A.W.S. budget, personal services includes money that Geary Shenck now receives for the operation of the Dog Pound. Mr. Bennett asked how long would the proposed contract between the County and P.A.W.S. be in effect, and was told that P.A.W.S. would agree to contract for a year, at first. This would give them time to get established. At the end of that year, P.A.W.S. would then renegotiate with the County. When asked if P.A.W.S. planned to continue with their plans, regardless of whether or not the County participates, they said they would go ahead with their plans, regardless. When asked if the County Dog Control officer would be able to get into the shelter at 5:00 p.m., Ms Bruski replied that he would always have access to the shelter. She also said that a farmer in the immediate area, had agreed to take animals other than cats and dogs, until they could be disposed of. Ms Bruski stated that P.A.W.S. was very much aware of the new Ag and Markets law regarding euthanasia of animals. She said that P.A.W.S. hoped to have either a veterinarian and a veterinarian technician who will be willing to do this. Regarding the length of the contract, Legislature Bennett said the proposed contract would have to be in effect for a longer period than one year before he would be willing to agree. Ms Bruski stated that the most P.A.W.S. would be willing to consider is a two-year contract in the beginning. Mr. Vick suggested allowing P.A.W.S. to operate without County funds for a period time, before the County goes into business with them. Ms Bruski said this would create a hardship, and pointed out, that if this were to occur, P.A.W.S. would not have all the animals either. Ms Bruski said a fee would be

charged to anyone leaving a animal at the shelter. There will also be a charge for having an animal spayed or neutered, when an animal is adopted as someone's pet.

When asked about the proposal sent to the County for a five-year contract for the Dog Pound, Legislator Bennett said that a letter had been received, and answered, but as yet, the County has not had a reply. Ms Sepik asked, that if P.A.W.S. were to consider a longer contract, could a rider be included that would provide for a possible cost increase. The County Attorney stated that all terms of the contract can be negotiated.

Mr. Vick asked Ms Bruski and Ms Sepik what their intent was, if they were asking the County to consider a \$25,000.00 contribution. Ms Bruski answered, "Yes. We would like an answer, one way or another." Legislator Schaal said, "The County's contract with the present Dog Pound owner ends this fall. We have to have, in place, another contract either with the current Dog Pound owner, or with P.A.W.S. We also require a facility that will handle all of our needs; a long term contract. We have to be assured you would have a facility operating by January 1, 1989.

Mr. Vick stated that P.A.W.S. had answered the questions of the Board, and referred the matter to the Committee - Legislators McMurray and Schaal - so that they can make a recommendation to the Legislature.

Legislator Billings said, "I think we worry about a dollar here and a dollar there. I think it behooves us to work out a contract with them to help them. I think it's something most of our taxpayers would approve of."

Rho Mitchell, of Christoher-Mitchell Funeral Homes, Inc. was given privilege of the floor. Mr. Mitchell spoke in regard to the coroner situation in the County, and how this relates to the transporting of deceased persons from the scene of death, to the location designated by the coroner. In the past, Mr. Mitchell stated he had worked a great deal with Dr. Ruth Barrett. Dr. Barrett would provide instructions as to where the remains were to be taken, and then she would take over from there. Mr. Mitchell said he performed this service for \$90.00 per trip. These trips were, for the most part, within Orleans County. If the County contracts with Monroe County for Medical Examiner's services, Mr. Mitchell wanted to know about what arrangements had been made to cover the cost for transportation of the remains, both to and from the Monroe County Medical Examiner's office.

The County Attorney stated that the contract with Arnold Gregory Memorial Hospital for coroner's services is good until 1991, and is in effect until that time, or until it is terminated prior to that time. As far as the coroners are concerned, the contract is still in effect. The procedure should continue on as before, until the contract with Arnold Gregory Memorial Hospital is terminated, and the contract with Monroe County Medical Examiner's office goes into effect. Mr. Vick suggested that the County might contract with Funeral Directors to provide transportation of remains of coroners' cases. He also stated that a meeting should be arranged with the coroners to discuss their responsibilities, and asked that Mr. Young and Mr. Dudek make the arrangements for such a meeting.

Meeting recessed at 9:45 p.m.
Meeting reconvened at 9:55 p.m.

This sale and sale of each and every parcel herein is upon the following terms:

1. 7. All parcels are sold subject to the 1988 Town and County tax and the releived 1987-88 school tax. The amount of such unpaid tax shall be announced by the auctioneer prior to the auction of each parcel. The unpaid taxes must be paid prior to April 30, 1988 to avoid further penalty. The unpaid tax must be paid upon payment of the balance of the final bid.
8. The purchaser upon payment of the final bid and the unpaid taxes shall also deliver to the Treasurer a check for all recording fees due to the County Clerk for filing the deed. Such fees will be \$13.00 plus \$2.00 for every \$500.00 or part thereof of the purchase price. For example, if final bid is \$10,000.00, recording fee is \$13.00 plus \$2.00 x (20) or \$53.00.

LEGISLATURE MEETING
March 9, 1988

The Chairman called the meeting to order at 7:30 p.m. After the pledge to the flag, the Clerk called the roll and all legislators were present.

The Clerk presented the following communications: A letter from the Village of Holley requesting exemption for the Village water distribution system; A letter from County Clerk Carol Lonnen informing the Board of the resignation of Dr. Ruth M. Barrett as County Coroner, effective on December 31, 1987, and filed with the County Clerk on February 25, 1988; Also a copy of the County Clerk's letter to the Board of Elections that the Coroner vacancy should be added to the previous notice concerning the General Election to be held on November 8, 1988; Letters from Edwin Crawford, Executive Director of NYSAC acknowledging receipt of resolutions 94-288 and 102-288 adopted by the Legislature at meetings held in February.

Reports of Standing Committees:

Update on Niagara Scenic: Legislator Billings announced that Niagara Scenic is ceasing operations on March 18th. The County is currently doing a survey on transportation needs. Mr. Billings reported that the Regional Planning Board and the Genesee Transportation Council will be meeting tomorrow, the 10th.

P.A.W.S.: Legislator McMurray said that he would have a recommendation prepared and ready for the next Legislature meeting.

Coroners' Contract: Legislator McMurray said that a resolution approving the Coroners' contract will be on the evening agenda.

Nursing Home Staff Cleaning in Health Department: Legislator Swiercznski said he had had discussions with the Nursing Home Administrator, with the result that a resolution approving a part-time person to do the cleaning for Community Services and the Health Department is on the agenda. Mr. Swiercznski reported regular meetings with Nursing Home, Public Health and Community Services.

Cleaning Man-hour Requirements: Legislator Schaal reported that the man-hour requirements for the cleaning of the County buildings demand an increase in

staff by one-and one-half persons. With Nursing Home hiring one part-time person, that would lower the requirements to one person.

Walking Bridge-Town of Carlton: Mr. Schaal said that letters were being sent out in reference to the walking bridge in the Town of Carlton and inviting people to attend a meeting on the 16th of March to discuss this. All legislators are invited.

Salting/Sanding of Roads-Transfer to Towns: Letters had been sent to all Town Supervisors asking whether or not they would consider assuming the salting and sanding of State highways. So far, three towns have responded.

Two Bridges-Town of Carlton: Mr. Schaal said that Keeler Construction had received the permits allowing them to remove the bridge. This work should begin next week. Letters have been received from the State in regard to the match for the long span bridge. The State has indicated they want to retain the engineer at an estimated cost of ten percent of the total project. If the County retained the engineer, at ten percent of the cost of the project, reimbursement received by for the additional five percent. If the project is approved, and the County only wants to include the five percent, the resolution should be rewritten and sent in to the State.

Platt Street Property: Mr. Schaal said that the County now owns that property, and suggested that the County hold any thoughts on it, until the Building and Jail Committees meet together to determine what they want to do.

Space Problems-County Clerk: Legislator Bennett said he had spoken with County Clerk Carol Lonnen in regard to this matter. Mrs. Lonnen is working with the Buildings and Grounds Superintendent, and will be reporting back to the Legislature with their recommendation.

Fuel Excise Tax: Legislator Bennett reported that the County will still have to pay excise tax.

Insurance Update: Mr. Bennett asked Mr. Dudek to report. Mr. Dudek said he had met with Chris Haines of Albion Agencies to determine what the County would lose by going with an out-of-state company. Hartford Insurance will be providing the County with a letter stating they would stand behind Nutmeg Insurance. Mr. Dudek noted that the insurance costs will be much higher if the County does not place their insurance with Nutmeg. The County Attorney said he had talked with the State Insurance Department to see what the

County would lose by going to an out-of-state company, and found that the County would lose the required notification of cancellation, the loss of oversight by the State Insurance Department itself over the insurance company and the back-up the County would have in the event the insurance should go bankrupt.

Legislator Bennett asked for suggestions for topics and/or speakers for the County Supervisors and Legislators Association meetings, and said that the next meeting scheduled for March 20th would have Steve Isaacs from the Cooperative Extension, and his topic would be DISCOVERING ORLEANS COUNTY.

Legislator Berger attended regular meetings with his departments, participated in the interviews for the Director of Weights and Measures position, attended the Soil and Water meeting.

Legislator Schaal, with second by Legislator McMurray, introduced a resolution entitled RESOLUTION

AUTHORIZING CONSTRUCTION OF OFFICE. During discussion, Legislator Berger recommended that construction of the office not jog out into the Conference Room. Mr. Vick pointed out that nine and a half feet is a very narrow room. Legislator McMurray commented, "There is nothing wrong with the basic design. The Conference Room is presently big enough as it is."

Legislator Billings said, "I think the resolution is misleading. I believe materials alone will be \$900.00 and with labor it will run over \$2,000.00. Furnishings will be needed. I think it's inappropriate. It will run into \$10,000.00."

Legislator Schaal said, "All resolutions involving our labor force have always been presented with material cost, excluding labor. Only time when labor is considered, is when we contract it out. I take exception to that because of what has transpired in the past. I went by past practices when I prepared the cost figure for the resolution."

Legislator Bennett, with second by Legislator Berger, moved to amend the resolution, keeping the south wall of the proposed room straight - no jog into the Conference Room. The Chairman recessed the meeting at 9:00 p.m. and reconvened the meeting at 9:15 p.m. Upon vote, the proposed amendment reducing the size of the office, and keeping the south wall straight was defeated. 3 ayes; 4 nays, Legislators Vick, Swiercznski, Schaal and McMurray; 0 absent.

legislator Billings called for a roll call vote. The vote proceeded as follows:

The following resolution was then adopted.

RESOLUTION NO. 126-388

RESOLUTION AUTHORIZING CONSTRUCTION OFFICE

RESOLVED, that this Legislature authorizes the construction of an office within the Conference Room area of the Legislature Chambers, at a cost not to

exceed \$1,000.00.

Adopted. 4 ayes; 3 nays, Legislators Bennett, Berger and Billings; 0 absent.

Legislator Bennett spoke of the Office for the Aging newsletter, and said he had received a call from a citizen who receives the newsletter. The last newsletter included a pamphlet about P.A.W.S., and this particular individual said it made it appear as though the County was soliciting donations to P.A.W.S. animal shelter. This is not the case. Mr. Vick asked Mr. Dudek to look into the matter, and if it is true, then something will have to be published to the effect that the County is not soliciting for the P.A.W. S. animal shelter.

Legislator Swiercznski, with second by Legislator McMurray, moved to adjourn. Motion carried.

Meeting adjourned at 9:20 p.m.

LEGISLATURE MEETING
March 23, 1988

The Chairman called the meeting to order at 7:30 p.m. After the pledge to the flag, the Clerk called the roll, and all Legislators, with the exception of Legislators Billings and McMurray were present. Mr. Billings was on vacation, and Mr. McMurray was hospitalized due to illness.

The Clerk presented the following communications: A letter from Nursing Home Administrator William Cifaratta, along with a copy of the Nursing Home Organizational Chart; A letter from Congressman LaFalce in regard to the Fruit Avenue Bridge and the Bates Road Bridge, along with a copy of a letter the Congressman received from NYS Department of Transportation Commissioner Franklin White explaining the State's viewpoint on the situation.

A copy of a letter from Assemblyman Hawley, along with a copy of Bill A.4744-A which he has introduced in the State Assembly which increases State Revenue Sharing for local governments for the next five years; A copy of the Western NY Inter-County Association meeting minutes from their March 16th meeting; A copy of the minutes from the March 8th meeting of the Soil and Water Conservation District Board; Letters of acknowledge regarding the County's opposition to the Governor's proposal to centralize the Support Collection Unit to the State Department of Social Services from Assemblyman Hawley, Assembly Speaker Mel Miller, State Senate Majority Leader Warren Anderson;

Annual reports from Veterans Service Agency Director John Pratt, Personnel Director Sandra Bower, along with the 1987 Annual Report to the New York State Civil Service Commission; A copy of the minutes from the County Planning Board's February 25th meeting, as well as the agenda for the Board's March 24th meeting.

Report of Standing Committees:

Landfill Host Fees: Legislator Bennett reported that the only way the County can have a Landfill Host Fee is to negotiate - it cannot be legislated.

Legislator Berger reported attending the Conference Session on the 16th; attended the meeting with Assemblyman R. Stephen Hawley on the 19th; attended the Executive Staff Meeting of the Department of Social Services on Tuesday, the 22nd.

PAWS Update: Chairman Vick said he had the Director of Office for the Aging change the statement "Legislature had been cooperating with PAWS" to read that "PAWS had been soliciting the financial assistance of the Legislature", and that he had suggested this information be supplied on a separate sheet of paper rather than as a part of the Aging Newsletter. Legislator Berger said he had spoken with Mrs. Blake and asked that the members of the Legislature receive a copy of the newsletter. Mrs. Blake agreed to this, and all Legislators will be receiving copies in the future.

Legislator Bennett said he had spoken with the people currently leasing the Dog Pound, and they are interested in continuing the lease. However, they want to meet with the Dog Control Officer. Mr. Bennett will have a resolution ready for the next Legislature meeting.

Storage Space Under New Community Services Building: Legislator Swiercznski said he had a meeting two weeks ago discussing this - possibly moving the boiler area to make the space more accessible. Mr. Swiercznski said that another meeting is scheduled for March 30th at 1:30 p.m. to discuss the matter further. He noted that a meeting is scheduled every two weeks in order to get all details worked out.

Thirty-day Payment Delay on Construction: Legislator Swiercznski said that a thirty-day payment delay on construction payments will be included in the bidding process.

Nursing Home: Legislator Swiercznski commented on the Organization Chart which Nursing Home Administrator William Cifaratta had forwarded to each Legislator.

Oak Orchard Bridge Removal: Legislator Schaal reported that demolition was started last week, and the "bridge was in the creek today and will be out tomorrow. Barriers are in place - there will be sufficient barriers." Mr. Schaal met with the Bridge Committee (21 guests, and all Legislators who wanted to attend). There were 15 out of the 21 invited members. The height of the temporary bridge was discussed, and it was unanimous decision to increase the bridge height two feet (2 ft.) higher than the previous bridge. It was also suggested that work begin immediately; ie. the preparations to span the river. It was brought out that the State hadn't accepted the proposal as yet. However, their recommendation was not to wait for the State, but to go ahead with a temporary span. Chairman Vick said he attended the meeting, and spoke in opposition to starting the temporary span. Mr. Schaal said he felt it was a little premature to begin immediately. However, he noted as Committee Chairman,

he was obligated to present the recommendation of the Committee, which was to proceed immediately with the temporary span.

Weights and Measures: Legislator Schaal stated that interviews for the Director of Weights and Measures position will be held on Wednesday, March 30th, at 2:30 p.m.

Vacant Buildings: Legislator Schaal said that a request had been received from the Nursing Home Administrator for utilization of the Commissioner's House. He also stated that a survey is currently being conducted on Jail needs, which involves the Court House area, and that until the survey is completed, there would be no decision on how the Platt Street property would be utilized. In regard to the Commissioner's House, near the Nursing Home, depending on the outcome of that survey, it will be the recommendation of the Committee to do nothing with that property - let it set idle. Chairman Vick commented that when the new Community Services building is completed, there would be additional space in the Nursing Home. Mr. Swiercznski said that Public Health would probably need a couple of the offices for the new program. He said that the only thing his Committee had done was to bring in diagrams to show how the Nursing Home could utilize the Commissioner's House; all they were doing is waiting to see the results of Legislator Schaal's and the Sheriff's Department survey.

Bonding: Legislator Bennett said that a meeting has been arranged to discuss and make arrangements for bonding of the capital projects - Mr. Bennett, the County Attorney, Mr. Dudek and the Chairman will be at the meeting. It will be held on April 6, 1988 at 10:00 a.m. in the County Attorney's office.

Demolition of County-owned Property: Legislators Bennett and McMurray did visit the two properties which are to be torn down due to their dangerous condition. A letter has been received from the Village of Albion to go ahead and remove the property on Smith Street. Supervisor Robert Rice, Town of Albion, said he had yet to contact his complete town board in regard to the property on the Taylor-Hill Road. Mr. Rice will contact Mr. Bennett with a final decision.

In regard to the demolition of these two properties, the County Attorney was asked to contact the prior owners and obtain releases, if possible, from them, stating that they agree with the County in regard to tearing down the property.

Chairman Vick said he had received a letter from Ashley Ward requesting special consideration for an employee

with respect to benefits, and asked Mr. Bennett to look into the matter, and if necessary bring it to the next Conference Session for discussion.

Bus Transportation for the County: Mr. Dudek said he and Wayne Hale had met with representatives from Great Lakes Coach Lines. They have one route that starts in Rochester and goes through the County and continues on into Buffalo, turns around, and goes back along the same route, and ends in Rochester. The Company is interested in servicing the County and they are looking to see what other routes would be beneficial. They would be willing to establish more routes if there was enough interest. If they do stay, they want to contract with the County to obtain the subsidy that Niagara Scenic once had. They are aware of the money promised to the County for the purchase of buses. Great Lakes is primarily a charter service; they have never been involved in servicing a specific route. Mr. Hale felt that in order for them to operate as a charter service in Orleans County, they had to have approval from the County. Mr. Dudek said that a news conference has been scheduled for Monday, March 28th at 2:00 p.m. in order to make the public aware that there is a bus service back in place within the County. The Chairman suggested that the County should talk with RTS, to see what they would be willing to do. Mr. Dudek said that Mr. Hale has a meeting arranged with RTS and noted that to have access to RTS the County would have to be a member of the Transit Authority, which would involve the Authority receiving one-quarter percent on the mortgage tax. In previous talks with RTS, they had nothing to offer to the west.

Chairman Vick said he had received a request from the Town of Putnam Valley Concerned Taxpayers in regard absentee voting on matters concerning revenue bonds in a referendum election in townships designated as "Second Class Towns". They are seeking support for a State law that would give towns designated "Second Class" the same rights as "First Class Towns". The designation is determined by population. Towns with a population of 10,000 and below are "Second Class Towns", above they are "First Class Towns". Legislator Berger recommended passing a resolution in support of of Putnam Valley's resolution.

Incomplete Work at Orleans County Marine Park: Mr. Dudek stated he had talked with Tim Arlington, Wendel Engineers, about work that needs to be completed at the Park. Mr. Arlington had sent a letter to Technomarine, with copies to Mr. Dudek and Mr. Young, the County Attorney, in reference to the bumpers and the work still left to be done on the dock. Mr. Arlington is putting together a list of other items that have yet to be done; he thought that all electrical work had been

completed. Mr. Dudek said he did not, as yet, have the list of incomplete work. Mr. Young said he had sent a letter to the bonding company and to Technomarine, and had received a letter from the claims adjuster of the insurance company. They are investigating contracts right now, and don't want the County to pay any monies out. Mr. Dudek also said he had received a call from Parks Commission, and that any lien the County receives has to be attached to any claim, and that this may delay payment. Mr. Young stated that the County will have to "call" the bond to get the work finished, and that he had already started that process. Mr. Dudek said the electronic keys had not been received as yet - Mr. Arlington was looking into the matter. Legislator Schaal suggested the County Attorney look into the matter of non-payment by the State because of the lien. Mr. Young said the Attorney had filed a lien against the State of New York also and that is why the State will not pay. It was agreed that the County Attorney should pursue the matter.

Chairman Vick said he had been looking at the Advisory Committee Book, and felt that it was not in very good shape, and asked the Chief Administrative Officer and Clerk look into the matter.

Legislator Berger said he had requested in writing that the Chairman change one of his Committee assignments, noting that he would not be able to attend that particular meeting because of a previous commitment. Mr. Vick said he would review committee assignments and see if there is any change he can make.

Legislator Schaal, with second by Legislator Swiercznski, introduced a resolution entitled RESOLUTION AUTHORIZING ENGINEERING FOR ABUTMENTS ON MARSH CREEK ROAD BRIDGE. During discussion, Mr. Swiercznski noted that the original plans were for a two-lane bridge, and asked what would happen if the State plan collapses, and then asked how long it would be before the County has an answer from the State. Mr. Schaal said that the last information received from the State was that they would let the County know in late June or early July. Mr. Schaal noted that the County would be risking \$14,000.00 or part of that amount, and that once bid documents are prepared, the actual abutment work will be bid.

Legislator Bennett commented, "that if the County gets this done, and the State says they won't go ahead with the long span bridge, then the County will have a one-lane bridge, because of the State's decision." Mr. Schaal stated that the Bridge Committee recommended that the County go ahead immediately and proceed with the one-lane bridge. Mr. Schaal noted that if the State does go ahead with the proposal, the County will have to install a traffic bearing, single lane bridge. The estimated cost would be \$150,000.00 - \$300,000.00. There were concerns that if the County proceeded, and the State were to decide not to build the long span bridge, that the County would have spent a great deal of money for nothing. Some of the Legislators felt

that it would be better to wait until the State makes its decision. Legislator Schaal stated that "all statements and concerns are true and valid. The main concern of the populace, and we had a good cross section - business, private citizens and adjacent landowners - indicated that they want a traffic-bearing structure and want some kind of barrier. They were honest about that". The County Attorney stated that if the County were to go ahead with the resolution that part of the work would be of use to the County at a later date, but that environmental assessment forms and plan specifications, costing approximately \$8300.00, would be of no value at all. Legislator Bennett moved to amend the resolution to allow Erdman, Anthony to go ahead with soil borings and survey work immediately, and continue discussion of the project at the next Legislature meeting on April 13th. There was no second to this motion.

Legislator Vick said, "I agree; we indicated at that meeting that it was important to have publicity about the decisions made at the meeting - we have not had any publicity. Therefore, since this is Orleans County taxpayers' money, and we haven't had the opportunity to get any response from all people who may be interested, then we wait a while longer. They are an advisory committee, to bring ideas to the Legislature and hopefully help us make decisions which would benefit the greatest number of people in the most economical way. I do not feel I am doing good by them in terms of the economics we are dealing with. I am not against how it all works out. We have only been into this project for three weeks, and we are asking the State to make a \$4,000,000.00 decision too rapidly. We have moved too rapidly. I ask you to consider that on their behalf."

Legislator Schaal stated, "Because of my responsibility to the Committee, I felt obligated to present that resolution. But in deference to the people of Orleans County, I cannot make an incorrect financial decision that would adversely effect the people of Orleans County."

Legislator Berger called for a roll call vote, which proceeded as follows:

Legislator Berger	aye
Legislator Schaal	nay
Legislator Swiercznski	nay
Legislator Vick	nay
Legislator Bennett	aye;

The resolution was defeated, 2 ayes; 3 nays, Legislators Schaal, Swiercznski and Vick; 2 absent, Legislators Billings and McMurray.

Legislator Bennett was given privilege of the floor, and in the absence of Legislator McMurray, introduced Local Law No. 2 of 1988 entitled A LOCAL LAW INCREASING THE SALARY OF COUNTY CORONERS.

Chairman Vick opened the discussion on Rule No. 14 of the Legislature RULES OF PROCEDURE. Mr. Vick said his interpretation of that rule - "Call the question" was that after the motion to "Call the question" has been made, and seconded, the Chairman would the poll Legislature to determine whether or not 2/3 majority wants to "call the question" at that time. That would mean the vote would have to be 5 to 2 in favor of doing so, and the Chairman would then "call the question". Legislator Berger stated that according to ROBERTS RULES OF ORDER, the motion doesn't have to have a second. Mr. Vick was of the opinion, that if a motion is voted upon, there would have to be a second to the motion. Legislator Schaal felt that the rule needed clarification, and the Chairman designated the County Attorney and Chief Administrative Officer to research and rewrite the rule, and have it ready for the next Legislature meeting.

Referring back to the defeated resolution regarding engineering work to replace the Marsh Creek Road Bridge over Oak Orchard River, Mr. Vick stated that Legislator Schaal will contact the State in order to get their decision on the long span bridge. Mr. Schaal will also obtain information from the engineering firm regarding additional work needed to be done in regard to site analysis, soil borings, etc. for a two-lane bridge as well as for a one-lane bridge, and a report will be made to the Legislature at a later date. Mr. Schaal agreed, stating, "The motion was defeated because we did not have the answers we needed."

Motion by Legislator Schaal, with second by Legislator Swiercznski, to go into executive session to discuss a personnel matter. Motion carried.

Meeting recessed at 10:25 p.m.
Meeting reconvened at 10:53 p.m.

Report of Standing Committees:

Tourism Director Interviews: Legislator Billings reported that interviews have been arranged for the Director of Tourism position, and that he would come back to the Board with a recommendation.

Coroner's Appointment: Legislator McMurray said that a resolution was on the evening agenda, to appoint someone to fill the Coroner vacancy.

Public Safety Building Needs: Legislator McMurray said he would be meeting with the Sheriff to discuss this matter.

Child Care Rates: Commissioner Hardenbrook said that in reference to the Little People's Center, according to State law, Social Services can pay no higher rate for child care services, than they charge the average person, so the Center raised the private rate per day, to the same rate that Social Services is currently paying. Social Services has received a grant from the State for low income families, and they were giving some individuals scholarships and they were not charged the full rate for the day, and consequently, in some cases, private pay individuals ended up paying more per week.

Ambulance Service at Nursing Home: Legislator Swiercznski stated that there is on-going dialogue at

the present time, and that the Legislature will meet on the 20th for further discussion.

New Community Services Building: Legislator Swiercznski stated that a meeting was scheduled for the 20th at 1:30 p.m. to go over the progress of the bidding documents.

Nursing Home Fire and Smoke Alarm: Legislator Swiercznski said they have reviewed that project and it will be placed on the capital projects list for next year. It was explained that this was initiated by the NYS Department of Health regulations. Mr. Swiercznski commented that Buildings and Grounds could handle the installation.

Bridge Projects: Legislator Schaal stated the Highway Department is still entertaining proposals for the three projects authorized by the Board. In regard to the long span bridge, Legislator Schaal said the Highway Department has not had a reply, that the County will probably hear in July.

County Auction: Legislator Bennett reported that he, the County Treasurer and Real Property Tax Director had toured the properties that morning. There are eleven parcels on the list.

Bonding Resolution: Legislator Bennett said this process had been started a week ago, and that he will be meeting with the County Attorney, and a resolution will be prepared for the April 27th meeting.

Dog Pound: Legislator Bennett said a resolution is on the agenda for the Dog Pound.

Smith Street Project: Legislator Bennett said the Village officials have decided that the County can't burn the property on Smith Street. Instead, the Village and Town will have the building demolished approximately 10 days before the auction. Chairman Vick suggested that a policy be prepared covering this type of situation for the next meeting.

Advisory Board: Mr. Dudek reported that the book containing lists of the various advisory boards was being brought up-to-date, and would be ready in a couple of weeks.

The resolution regarding the transportation agreement for the Department of Social Services Medical Transportation Services was withdrawn by Legislator Berger. The Commissioner was to prepare another resolution regarding Medical Transportation Services.

Legislator Billings, with second by Legislator Swiercznski introduced a resolution entitled RESOLUTION OFFERING TERMS AND CONDITIONS OF NEGOTIATION WITH PENN CENTRAL CORPORATION FOR THE HOJACK LINE PROPERTY. During discussion, Legislator McMurray stated that if the County should acquire the property, that it would cause more insurance exposure for the County, noting that it would probably be used for 3-wheel and 4-wheel vehicles. Mr. McMurray stated that the County has many needs within the immediate Court House Square area, and that the \$176,179.00 proposed as an offer to Penn Central would go a long way toward alleviating the parking situation in the Square. Mr. Young, the County Attorney, said that Penn Central's offer to sell was subject to certain terms and conditions. For instance they retained mineral rights of the land, as well as air rights - nothing could be built because of this. Chairman Vick said, that in this case, the County would be merely making an offer, that any sort of final agreement would have to come back to the Board for approval. Legislator Berger said the right-of-way could provide recreation - snow mobiling, cross-country skiing, etc., but with the mineral rights and air rights being held by Penn Central, that would preclude any type of recreational area. Legislator McMurray mentioned the trestle located at Waterport in the Town of Carlton. Currently Penn Central owns the trestle, and has the liability for it; however, it would become the responsibility of the County if the County was to purchase the right-of-way line. Legislator Vick reiterated that by adopting this resolution, the County would not be committing itself, that the resolution would not be binding.

Legislator McMurray moved to table the proposed resolution, in order to give the Board more time to consider the possibility of an offer to purchase the right-of-way.

In referring back to the resolution regarding the offer to purchase the right-of-way, Legislator Billings said that there were many possibilities for the use of the right-of-way and mentioned a county waterline and a monorail, and said "There are many things of this sort. It's criminal that so many have let right-of ways go. I think it's worth negotiating - I would set a lower price to start with."

Upon discussion, Legislator Billings noted that he was "alarmed at the rate we are putting this county in debt". Legislator Swiercznski asked if this bonding covered everything that needs to be done, and Legislator Bennett replied that it did; that the County would not bond \$2,000,000 at once-"won't bond more than we need to ahead of time."

The County Attorney, Tom Young, stated, "I think that is what we ought to do. It gives the Treasurer the ability to make a determination when to borrow and how much." He noted that the County would have to bond the entire cost for the Mental Health Building, and then pay it off with the money received from the State

Legislator Billings called for a roll call vote, which proceeded as follows:

Legislator Bennett, with second by Legislator Billings, introduced a resolution entitled RESOLUTION SETTING DOCKING FEES AT ORLEANS MARINE PARK FOR ESLO SPRING DERBY. There was a great deal of discussion on the resolution authorizing docking fees at the Marine Park for the ESLO Spring Derby. Legislator McMurray stated that he wasn't against giving people a card key which would allow them to come and go for the remainder of the season. Legislator Vick asked if there were records which would enable the County to recover a card key, if a renter forfeits his deposit, and the County Attorney said the County could send the Sheriff to get the card key. Mr. Vick also asked if the County wanted to issue card keys to individuals who were only going to be in the park during the fishing derby. Mr. Vick explained that the regular seasonal renters of the boat slips would have stickers in order to identify them. The lease agreement allows a gate card upon the receipt of a refundable deposit of \$50.00. Mr. Vick stated that the County Highway Superintendent would be in charge of the project.

Legislator Billings asked whether or not the Board should approve the interim lease agreement. Legislator Billings moved, with second by Legislator Swiercznski, to amend the proposed resolution to include "hereby approve interim lease agreement as presented by the County Attorney, which contains a card provision". Upon vote, the motion carried, 4 ayes; 2 nays, Legislators Bennett and McMurray. Legislator McMurray, with second by Legislator Bennett, moved to amend the amendment to include "that these people be allowed in and allowed out (noting that he had no disagreement with the usage of the docks, but that he did with the release of a card). Also to delete No. 14 from the lease agreement". Upon vote, the motion was defeated; 3 ayes, Legislators McMurray, Bennett and Vick; 3 nays, Legislators Swiercznski, Berger and Billings.

The next item listed on the agenda was a resolution which had been withdrawn from an earlier meeting. Legislator Billings raised a point of order, and asked how this resolution had been put on the agenda. The Clerk explained that at an earlier meeting, when resolutions had been withdrawn, and not included under unfinished business or in the regular agenda, it seemed to cause some consternation, and after that particular incident, withdrawn resolutions had been listed under "Unfinished Business" to allow the Legislators to decide how they wanted to handle the resolution in question. After discussion, it was decided that resolutions withdrawn from the agenda by a Legislator should be listed in the regular agenda.

Legislator Billings, with second by Legislator McMurray, requested an executive session to discuss the proposed purchase of the Hojack property.

Meeting recessed at 9:20 p.m.

Meeting reconvened at 9:45 p.m.

The resolution introduced at the April 13th

right-of-way, and tabled at the same meeting, was removed from the table on a motion by Legislator McMurray, with second by Legislator Bennett.

A letter from Assemblyman Hawley acknowledging Resolution No. 191-488 regarding the manner in which the reduction of weight limits are posted on State roads; also a letter from Governor Cuomo's office acknowledging receipt of Resolution No. 191-488; a letter from Timothy Hulbert, Director of Communications & Intergovernmental Relations regarding Resolution No. 191-488;

Report of Standing Committees:

Tourism Director: Legislator Billings said this was an on-going situation at this point; a decision had not been reached.

Public Safety Building Needs: Legislator McMurray noted that this had been discussed in the afternoon at the Conference Session; needs, wants and desires were discussed at a meeting on Monday.

New Community Services Building: Legislator Swiercznski stated at a previous meeting the Committee had addressed the issue to accommodate future expansion, and had drawings redrawn to show proposed expansion.

Ambulance Service at the Nursing Home: Legislator Swiercznski introduced Mr. Howard Cuff from COVA who explained a proposed "Protocol Agreement" regarding the non-emergency transport of patients at the Nursing Home to either Arnold Gregory Memorial Hospital or Medina

Bridge Projects: Legislator Schaal reported that the Route 63 bridge situation had been rectified until replacement. Mr. Schaal stated there would be a resolution on the agenda authorizing preliminary ground work for a bridge over Oak Orchard River, dealing with the substructure of either a single or two-lane, temporary or permanent bridge.

Security at County Building: Legislator Schaal explained that this issued is being addressed, along with the Public Safety Building needs.

Legislator Bennett reported on the affects of the new agricultural exemption rates; last year the assessed value was \$11,449,000, and this year according to the tentative roll, the amount was \$10,371,893, a decrease in the amount in value the ag exemptions will give - the state raised the ceiling.

Advisory Board List: Mr. Dudek gave the Chairman copy of a book of committees, noting that in the past, each legislator had received a copy, but now a copy would be kept in the office. This would be much easier to keep up-to-date.

May 10, 1988

Mrs. Gail Lyman, Chairman
Strawberry Festival Committee
East State Street
Albion, New York 14411

Dear Mrs. Lyman:

In view of the resolution by the Orleans County Legislature to allow the Strawberry Festival Committee to utilize the grounds of the Court House Square, we are advising you of certain guidelines which we expect you and the public to adhere to.

1. Small craft booths may be set up along the grass near the sidewalk areas on the Main Street side of the Square.
2. Craft displayers must not dig holes in the lawn and only light-weight tables, screens and tarpaulins may be set up. Small diameter tent stakes may be used to secure tarpaulins, provided that holes will not be so large that they can't be filled in by the displayer's foot after removal of the stake.
3. No trucks or vehicles of any kind will be allowed on the grass for loading and unloading purposes.
4. No antiques or heavy furniture may be displayed on the Court House grounds or anything else which might be damaging to the lawn.
5. We anticipate that people will have respect for the beauty of the Court House Square and that they will not walk through flower beds and that trash such as paper, cigarette butts, etc. will be properly disposed of.
6. Trash receptacles will be provided by Orleans County.
7. After the festivities are over, it is the responsibility of the Festival Committee to see that the grounds are left in good condition, free of clutter, trash, etc.

Legislator Schaal, with second by Legislator McMurray, introduced a resolution entitled RESOLUTION APPROVING AGREEMENT BY THE COUNTY FOR ICE AND SNOW REMOVAL ON COUNTY AND STATE ROADS. Chairman Vick stated that a resolution of this nature should have the cost involved written in the resolution. Mr. Young, the County Attorney explained that there was no dollar figure for State work; that it depended on size, age of vehicle and wage per hour for each town. Mr. Young noted that the County now contracts with the towns to do County roads at a cost of \$650.00 per mile per season, and that these contracts terminate December 31, 1989. The agreement in the proposed resolution would extend the town contracts through February or March, 1990 at the same rate the towns are currently doing the work for, which would be \$650.00 per mile for sanding and plowing. Legislator Schaal stated that if more information is required he would withdraw the resolution until the next meeting, and have the appropriate figures in the resolution at that time. The resolution was withdrawn at Legislator Schaal's

request.

The resolution entitled RESOLUTION CREATING ORLEANS COUNTY YOUTH BUREAU, tabled at the April 27th meeting on a motion by Legislator Billings, with second by Legislator Bennett, was reintroduced. Adding that the County does need to get bids for this service. Legislator Billings commented that when he had suggested bidding for other services for the park, that he was told the County couldn't do this. Chairman Vick that at that time, the County was not in any position to advertise for bids for various services, because the Park wasn't completed. The following resolution was then adopted.

During discussion Chairman Vick expressed concern as to whether or not the State was definitely going to proceed with the long span bridge, noting that if they didn't, the County would have to replace the Marsh Creek Road Bridge. Mr. Vick expressed concern that the County would be spending money to do borings which were not needed. Legislator Schaal explained, that the resolution would authorize the engineers to proceed with necessary engineering work which will be needed whether a single lane bridge is installed, or a double lane. He also said that this work would have no effect on the NYSDOT proposal. Legislator Schaal stated the County had to be prepared to go ahead with the bridge replacement. LEGISLATURE MEETING

June 8, 1988

The meeting was called to order by Chairman Vick at 7:30 p.m. After the pledge to the flag, the Clerk called the roll and all Legislators were present.

The Clerk presented the following communications: a copy of the Western New York OTB minutes for April 28th; a notice from the Inter-County Association of their June 15th meeting; a letter from the Albion Rotary Club recommending the appointment of Stanley Allen of Medina to the Tourism Board; a letter from the BPOE of Albion inviting the members of the Legislature to their Flag Day Ceremony on June 12th.

Chairman Vick announced that at this time he had the pleasure of making a presentation to a fellow Legislator, and asked Legislator Billings to step forward. Whereupon, Mr. Vick presented Mr. Billings with a bronze plaque honoring him for his years of service as Chairman of the Orleans County Legislature, having served in that capacity from 1984 through 1987.

Report of Standing Committees:

Legislator Billings reported he was working on the Landfill Host Fee situation, as well as the Board vacancies.

Legislator Berger reported auditing bills on June 1st; met with the Office for the Aging, Veterans Service Agency Director and the Job Development Agency Director on June 7th. Mr. Berger noted that the appointment for the Youth Board vacancy was on the evening agenda. Also that Community Action would be sending notification of their recommendation for an appointment to their advisory board.

Legislator McMurray said he would be presenting a name for appointment to the Alternatives to Incarceration Committee. In reference to the veterinarian's services for Dog Control Officer, Mr. McMurray said he and Mr. Shenck (Dog Control Officer) had met with Dr. Harling who had submitted a proposal to the Board, and said that an agreement could be written, less the medicines and hypodermics which the veterinarian will supply. Dr. Harling stated he would prefer not to get involved in a contract the first year, noting that Genesee County has this type of arrangement and their program has been very successful for the past five years. Mr. McMurray said he would have a resolution

for the next meeting.

Nursing Home Space Requirements: Legislator Swiercznski said he would be coming back to the Board at a later date with more information.

Private Sewer and Water Inspections: Legislator Swiercznski noted this was discussed at the afternoon Conference Session. Mrs. Johnson was available at that time to answer any questions (Mrs. Johnson is the Administrator of the County Health Department). The decision was made to leave the Health Department's program as it is - not to make any changes.

Health Board Vacancy: Legislator Swiercznski said the Board of Health had recommended the appointment of Dr. Harvey Blanchet of Medina to replace Dr. Bala. This will be on the agenda for the June 22nd meeting. Mr. Swiercznski also mentioned that he needed recommendations from the other Legislators for the vacancy on the HSA Board of Western New York.

Visitor Center Request to Join Fuel Farm: Legislator Schaal stated that in reviewing the request, it was found they do not have tax exempt status, and they have withdrawn their request to join the County's fuel farm.

Bridge Projects: Legislator Schaal stated that borings had been done on the Oak Orchard Creek bridge, and that the Highway Department was awaiting word from the engineer on the results. The Highway Department is proceeding with the Hurd Road and Kenyonville Road bridge projects.

Legislator Bennett stated he had asked the Clerk to write letters to the Medical Scholarship Committee members whose terms are expiring or have expired to see if they would consider serving another term. Mr. Bennett said he was canvassing the Ethics Committee to see if any of those people would consider reappointment.

During the open discussion portion of the meeting, Legislator Schaal, in answer to questions from constituents attending the meeting, stated that the County has not received a reply from the State on the long span bridge proposal; the State is supposed to notify the County either the end of June or the first part of July in regard to the long span bridge. Referring to the bridge over Marsh Creek, Legislator Schaal noted that if the State was doing survey work in this area, then they must be close to making a decision on the bridge proposal. The legislators were also asked if they had any information regarding a sewer

plant. Chairman Vick replied that he didn't have any information on this, but that a town meeting was to be held on the matter. Mr. Vick noted that, in any case, a sewer district would be a town project and would not involve the County.

The following resolutions were presented:

RESOLUTION NO. 262-688

During discussion of the foregoing resolution, Legislator Billings explained that the Planning Board felt it needed alternate delegates, so that it could carry on its business. Mr. Billings noted that the At-large delegates give the County in-put into the Planning Board, as these people actually represent the Legislature.

Legislator Schaal, with second by Legislator Berger, introduced a resolution entitled RESOLUTION AMENDING 1988 CAPITAL PLAN. During discussion Legislator McMurray questioned the reasoning behind the proposed resolution and Mr. Schaal explained that the most populated portion of the Upper Holley Road had been completed, with the remaining portion of the road being mainly rural and passable, near the Genesee County line. Legislator Bennett, with second by Legislator Berger, introduced a resolution entitled RESOLUTION MODIFYING VACATION CARRY-OVER PROVISION OF MANAGEMENT COMPENSATION PLAN.

There was much discussion on the proposed resolution. Legislator Billings stated that it would make tend to make it an automatic procedure to carry over unused vacation days. Mr. Billings said he felt it was a good idea to have the department heads come back to the Chairman to get permission to carry over vacation days.

Legislator Swiercznski said that the matter should go before the Management Compensation Plan Committee for their review and recommendation. Legislator Bennett disagreed with Legislator Swiercznski, stating that it wasn't necessary to go before the Committee, that the Legislature can decide whether or not to authorize the modification to the Plan; all that was necessary was to either vote for it or against it.

The Chairman said he didn't think it was necessary for a request to carry over five unused vacation days to come before him, if the person was entitled to the five days. He noted that if there was a problem, there was ample provision to deny a request to carry over unused vacation days. However, he did feel that someone from the Legislature Office should be aware of any department head actually carrying over unused vacation time.

Legislator Schaal, when learning that the employee would lose the days, if they were not used, said that since these employees were benefiting the County, he could see no reason to penalize the individual; that it was a policy making decision.

Legislator Billings stated, that since the proposed change would in a sense, make the procedure automatic, that the Legislature should authorize an automatic carry-over of five unused vacation days; that this would be possible, since Personnel would have the records, and could indicate to the employee on their anniversary date, the number of vacation days they are entitled to, and also include, in a separate listing, the unused vacation days.

PROTOCOL AGREEMENT
NON-EMERGENCY TRANSPORTS

This protocol will be used for the purpose of Non-emergency Transports by Central Orleans Volunteer Ambulance, Inc. C.O.V.A.) from the Orleans County Nursing Home to Arnold Gregory Memorial Hospital or the Medina Memorial Hospital only.

Non-Emergency Transports are defined as follows: Any and all transports to the above mentioned medical facility for the purpose of routine x-rays, lab testing, CT scans, doctor, dentist, ophthalmologist, optometrist, hearing ultrasound testing, appointments or any non-life threatening situation.

The Orleans County Nursing Home will within a period of eight (8) to twenty-four (24) hours prior to and for the purpose of establishing time, location (wing), room number, and reason for the transport, notify COVA by phone at 589-4163 or Howard Cuff at his home 589-5925. During Howard Cuff's absence, or at a time when COVA is out of service, there will be a person stationed at COVA headquarters to answer non-emergency calls. Some situations may occur in which the time limits cannot be adhered to. COVA recognizes this and will try to cooperate.

For the purpose of Non-Emergency Transports, COVA will attempt to supply an ambulance with a driver and a medic. In the event a medic is not available, the Orleans County Nursing Home will supply a nurse or nurse's aide to accompany the patient to the designated facility.

The Orleans County Nursing Home will not have to notify the dispatcher of any non-emergency transport. This will be handled by the COVA personnel. COVA will try to arrive approximately fifteen (15) minutes prior to AGMH transports and thirty (30) minutes prior to MMH transports.

The Orleans County Nursing Home will have the patient ready to be transported and have patient information, including the most recent set of vital signs made available to COVA personnel before loading.

In the event COVA is out of service due to conducting emergency medical service, mechanical breakdown, or lack of personnel, it will be the responsibility of COVA to notify the Orleans County Nursing Home and to mutually reschedule the transport of said non-emergency patients.

It is mutually understood by both parties that the County of Orleans alone or acting with the Orleans County Emergency Medical Services coordinator will not and does not have the ability to provide non-emergency transport services as a back-up or alternative to COVA.

Motion by Legislator Bennett, with second by Legislator Schaal, to adjourn. Motion carried.

Meeting adjourned at 8:25 p.m.

LEGISLATURE MEETING
July 13, 1988

The Chairman called the meeting to order at 7:30 p.m. After the pledge to the flag, the Clerk called the roll, and all Legislators, with the exception of Legislator Berger, were present.

Chairman Vick asked everyone to stand for a moment of silence in memory of Maynard "Duke" Reed, who died July 12th. Mr. Reed was Supervisor for the Town of Albion from 1964 through 1975, and in that capacity served as the Town's representative on the County Board of Supervisors. Mr. Reed was Chairman of the Board during the years 1974 and 1975.

After the moment of silence, everyone was seated, and the Clerk presented the following communications:

Minutes of the February 4th meeting of the Oak Orchard Small Watershed Protection District; announced that Local Law No. 2 regarding the increase in salaries for the County Coroners had been filed in Albany; a letter from the Division for Youth stating that Richard Laskowski would serve as the County's Community Program Specialist, replacing Chuck Swan; a letter from Judge Miles commending the County's Physically Handicapped Children's Program; a letter from Public Defender Duane Johnson stating that Robert Slocum had resigned his position as Assistant Public Defender; a request from Highway Superintendent Donald Cooley that Social Service's 1985 Celebrity Stationwagon be assigned to the Highway Department; a copy of the OTB Board meeting minutes from May 26th.

Report of Standing Committees: Legislator Billings stated he had nothing new to report regarding board vacancies, but that resolutions would be forthcoming. Regarding landfill host fees, Mr. Billings stated that nothing could be done unless the County has an agreement with J & I stating that fees or charges will be made. Legislator Schaal requested that the County Attorney contact J & I to see what their position is on host fees. If there is no position, Legislator Schaal said he would like a meeting set up with J & I to get this issue settled, one way or the other. Legislator Bennett stated that a letter had been received from J & I stating they would be willing, and felt that the Board should have a unified approach

before meeting with J & I. Mr. Bennett read the letter from J & I regarding host fees. He noted that the arrangement would be similar to the Town of Albion's arrangement, based on refuse from within the County and disposed within the County. Mr. Schaal noted that six months earlier, it was recommended the County charge \$1.00 per town or cubic yard generated outside the County, with the request that the County contact OSL and request them to charge back \$1.00 per town, and as yet nobody has done that. Mr. Schaal felt that someone should take the initiative, and sit down and discuss this with OSL.

Coordination of Dietitian Services-School Districts: Chairman Vick reported that the school districts had been contacted, and that three districts - Albion, Medina and Lyndonville - contract with the Marriott Corporation for cafeteria services. The corporation provides everything, including the dietitian. Kendall and Holley school districts handle the cafeteria services themselves, using guidelines set by the State.

Public Safety Building Needs: Legislator McMurray noted that Legislator Schaal had touched upon that issue at the afternoon Conference Session. Mr. McMurray said, that in looking over the space available in the Nursing Home, that nothing had really been decided as to solving the the problem of the Sheriff's space needs. The only situation that remained constant, was the probable relocation of the District Attorney's office to the Commissioner's House.

Nursing Home Space Needs: Legislator Swiercznski noted that he and Legislators Schaal and McMurray and Mr. Cifaratta toured the Nursing Home during dinner hour, and were able to see many of the negative situations there. Mr. Swiercznski noted that the rooms were being painted, and cleaned up in general; however, there was not enough space at the Nursing Home. Mr. Swiercznski felt there was nothing to be done until the new Mental Health Services Building was completed.

HSA of Wester New York: Mr. Swiercznski noted that the County has need of a consumer representative to serve on that Board, and asked the other members of the Legislature for their suggestions as to who might be willing to serve on the HSA Board.

Legislator Schaal reported on the various bridge projects, and noted that he would have more information regarding the Kenyonville and Oak Orchard Bridges at the next meeting. He stated that the Lakeside Bridge project should be completed within the month. Mr. Schaal noted that the Highway Building project had been

discussed at the Conference Session. As yet, the County has not had any notification on the Long Span Bridge at Two Bridges. The video equipment purchased by the Highway Department for viewing the State's bridge reports has been received, and is in place. Mr. Schaal again noted, that this equipment is available for use by all County departments, when not being used by the Highway Department.

Medical Scholarship Committee: Legislator Bennett said he had received a recommendation for the remaining vacancy on the Committee, and a resolution would be placed on the agenda for the next meeting. Nothing has been done with regard to the Ethics Committee. Mrs. Bower, the County Personnel Officer, will be setting up a Safety Committee Meeting with the towns, and hopefully the Committee will be able to obtain funds for a Safety Officer.

Identification Badges: CAO Stan Dudek stated that there has been discussion regarding ID Cards for County Employees. Mr. Dudek stated that during the last labor relations committee meeting, security in the County Administration Building was discussed. Also there had been discussion regarding identification for county employees who are required to work in areas outside their offices. Mr. Dudek said the union was in agreement to have a standard ID badge, which would be worn by County employees at all times when they are carrying out their duties as county employees. Mr. Dudek said the photo ID's would be taken by the Sheriff's department, and that the only exception would be the Nursing Staff and the law enforcement people. The Personnel Officer had been working on finding a suitable ID badge, and has found a badge suitable for use by the County. Mr. Dudek reported that the whole project will cost less than \$1,000.00. A resolution authorizing county employees to wear photo ID badges will be on the agenda for the July 27th meeting.

Chairman Vick noted that the New York State Association of Counties will hold its fall conference in Rochester. This year, it has been decided that if a County Board will register every one of its members for the fall conference, then any one of that County's employees can attend any seminar with no registration fee. This would make available about 18 seminars and topics at no cost. Mr. Vick said, that, with the concurrence of the Board, he would register each Legislator at the conference. The Board agreed to register, as Mr. Vick suggested.

Mr. Vick asked Councilwoman Narburgh, from the Town of Carlton, if there were any new developments on

the sewer district in Carlton. Mrs. Narburgh stated that at the moment, everything was at a standstill, but that she was in the process of forming a Committee to study the matter. Legislator Schaal noted that if there was going to be a sewer district, then it would have an effect on Phase II at the Orleans County Marine Park. Mrs. Narburgh reiterated, that currently, everything was "at a standstill".

Legislator Billings said he had received several calls from Lake Alice residents, regarding the enforcement of the 5 mph speed limit on Lake Alice. Mrs. Narburgh said the Town Board had received complaints about water skiing on Lake Alice, and that the residents are forming the Lake Alice Landowners Association, and they are going to see what can be done about the situation. The Sheriff had talked with some of the residents, and they were going to see about abolishing water skiing there. Legislator Bennett said the Sportsmen's Federation had received calls both ways - some were for eliminating the water skiing and others were in favor of continuing to allow it.

The following resolutions were presented:

Legislator Bennett, with second by Legislator Schaal, introduced a resolution entitled RESOLUTION ESTABLISHING A CAPITAL RESERVE FUND FOR EQUIPMENT PURCHASE AND REPLACEMENT. AUTHORIZING COUNTY HIGHWAY SUPERINTENDENT TO REMOVE GULF ROAD BRIDGE. Legislator Bennett moved to amend the resolution to read "Further Resolved, that this bridge shall be replaced at the earliest convenience of the County Highway Department." The proposed amendment was seconded by Legislator Billings. Legislator Schaal stated that the bridge under discussion is on a seasonally used road, possibly used only six months out of the year. Mr. Schaal said that the County receives flag ratings from the State on a monthly basis, and the bridge on Gulf Road is one of the bridges that is flagged. When this happens the Highway Department is supposed to notify the State what is being done to correct the situation. If the bridge were removed, then it could be removed from the "flagged" list. LEGISLATURE MEETING
July 27, 1988

The meeting was called to order by the Chairman at 7:30 p.m. After the pledge to the flag, the Clerk called the roll and all the Legislators were present.

The Clerk presented the following communications: a "Thank You" note from the friends of Maynard 'Duke' Reed for the flowers sent to the funeral home in memory of Mr. Reed; a copy of the County Planning Board June 23rd meeting minutes and notice of the July 28th meeting; notice from the New York State Association of Counties that the 1989 dues for Orleans County would be \$2200.00; a copy of a letter from the Mayor of Lyndonville, Robert M. Harrold, to Jack McCarthy, thanking Mr. McCarthy for his assistance during the wind emergency June 25, 1988.

Report of Standing Committees: Legislator Billings stated he was working on the various board vacancies for his committees;

Coordination of Dietitian Services: Legislator Berger reported that the Nursing Home has a contract with Dietitian Consultants, Inc. who provide food service helper, dietitian technician and dietitian consultant. The County Jail uses the same service, at no charge. Mr. Berger read a report regarding the school districts, noting that Albion, Medina and Lyndonville all contract with the Marriott Corporation, with Kendall and Holley providing their own cafeteria services. The Nutrition Program is partially funded, and apparently it is not necessary to have a dietitian on site at all times; all the work required to put on the program can be done once a week, with the dietitian taking the responsibility of portioning out the food. It was suggested that someone from the companies come in and discuss it. Mr. Berger was to follow-up on this project. Mr. Berger reported attending his regular departmental meetings.

Hazardous Material Clean-up: Legislator McMurray said he had talked with Jack McCarthy about the letter received from DEC. Mr. McCarthy said there was no problem - only with the federal bureaucracy.

Space Needs at Nursing Home: Legislator Swiercznski stated that the County has to wait and see what happens with the new Mental Health Services Building.

Health Systems Agency of WNY: Legislator Swiercznski has been searching for someone who is willing to serve on that board as Consumer Representative.

Bridge Update: Legislator Schaal stated that the last information the Highway Department had received regarding this proposed bridge, was that the papers were leaving Rochester on Friday or Monday, for Albany. The turn-around time is supposed to be two weeks. With regard to the Kenyonville and Oak Orchard Bridges, Mr. Schaal said that the Highway Department will be scheduling time within the next few weeks with recommendations on what should be done with these two projects. Presently, Highway is working on the Lakeside Bridge approach and should be completed mid-August. Right now, the bridge is closed, and people are using the Park entrance. As soon as the approach is completed, the Highway Department will regrade the individual's yard on the east side of the approach.

Medical Scholarship and Ethics Committees: Legislator Bennett reported one vacancy on the Medical Scholarship Committee, and that a resolution was on the agenda to fill that vacancy. With regard to the Ethics Committee, Legislator Bennett stated that letters had been sent to former members, and that two have replied indicating they are willing to serve again. A resolution will be placed on the agenda at the August 10th meeting appointing these individuals.

Safety Program for Self Insurance Participants: Legislator Bennett reported that a meeting had been arranged for Self Insurance participants to discuss a safety program. The County's Personnel and Self Insurance Administrator, Sandra Bower, has arranged for such a meeting at the Village Inn on August 15th at 7:00 p.m. Legislator Bennett stated that legislators should make their reservations with Mrs. Bower, if they plan to attend.

1989 County Budget Process: Legislator Bennett gave a tentative schedule for the 1989 Budget process - Department Heads are to have budgets back to the Budget Officer by August 30th; from October 4 - 6th, the Finance Committee and Budget Officer will review certain budgets with department heads and Legislature committee. The preliminary budget should be adopted October 26th, with the public hearing set for November 17th, and on November 23rd formally adopt the 1989 County Budget. Mr. Bennett said the Budget Officer will be sending a schedule to the legislators.

Identification Badges: Chief Administrative

authorizing County Employees to wear photo identification badges during working hours. This issue has been discussed during committee meetings, and it was felt that the engraved name tags currently worn by the nurses at the Nursing Home are more than adequate. It was felt that certain employees from Probation and Social Services, because of the nature of their work, would not be able to wear photo I.D.'s, but that some sort of identification could be carried in their wallet.

Mrs. Sharon Narburgh, Councilwoman from the Town of Carlton, informed the Board that Robert Higley, had been appointed Supervisor, replacing Manley Whipple, who resigned his position.

The County Attorney, Tom Young, informed the Board that since the last meeting, the Orleans County Electric Utility Agency has met, and passed a resolution, asking that you approve and act and have the Chairman also sign the agreement which will set up a relationship with the Agency and Niagara-Mohawk, giving this power to the County. Also in the agreement it is stated that we will cover any losses they may have if it is determined that distribution of this power to the County is improper. The power is to be distributed in kilowatts and will amount to \$207,000.00 on a County-wide basis. As soon as the resolution is approved by the Legislature and Albany and the Public Service Commission, at that point, County residents would be getting credit on their electrical bill. This is a "getting started" kind of thing. Mr. Young said that six months from now, the Board would probably have an application to accrue low cost power for industrial purposes.

The following resolution was introduced and adopted:

RESOLUTION NO. 341-788

By Legislator Billings, who moved the adoption.

Seconded by Legislator Berger.

Re: Relocation of MH Programs
Project No. NYS-MR-881

Dear DREN:

This letter serves to confirm that the Office of Mental Health endorses Orleans County's selection of the following contractors for the above-referenced project:

<u>TRADE</u>	<u>CONTRACTOR</u>	<u>BID AMOUNT (UNCL. ALTERNATES)</u>
General Construction	A. V. Lombardi, Inc.	\$1,020,000
Plumbing	J & J Piping	79,313
HVAC	J & J Piping	206,826
Electric	Penfield Electric	93,845
Total		\$1,399,984

(It should be noted that in your July 1, 1988 letter, when detailing the four bids, which at that time included Livingston Mechanical for HVAC, you mistakenly failed to include Alternates 1 and 2 (a total of \$34,300). You did, however, seem to include them as "Land Improvements" on the revised Project Justification Form.)

Once again, we would like to express our appreciation for the patience you have shown throughout this process. If you have any questions, please feel free to call me at 518/473-5825.

Re: Relocation of MH Programs
Project No. NYS-MH-961

Dear Dr. Chenelly:

I am pleased to advise you that the Division of the Budget (DOB) has approved a \$281,250 supplement to the previously approved \$686,250 capital construction grant for the County's above-referenced project. As you are aware from past discussions with this office, the actual receipt of any of this \$867,500 grant is contingent upon the County's continued compliance with all applicable codes, rules and regulations.

Within a week or two, you will receive a letter from Richard C. Surles, the OMH Commissioner, formally advising you of DOB's recent approval. (That letter will be very similar to Commissioner Surles' January 26, 1988 letter.) However, given that the County Legislature is meeting on August 10, 1988, by which time you need OMH notification of the supplemental grant funding, I trust that my letter will suffice for the time being.

Finally, I apologize for being unable to gain DOB's approval more expeditiously, but as Tom Butch explained in his July 28, 1988 letter, a combination of DOB's workload and vacation schedules made a more prompt response impossible. Your patience is greatly appreciated.

If you have any comments or questions, please feel free to call Tom or me at (518) 473-5815.

Motion by Legislator Bennett, with second by Legislator McMurray, to adjourn the meeting. Motion carried.

Meeting adjourned at 9:20 p.m.

LEGISLATURE MEETING
August 24, 1988

The Chairman called the meeting to order at 7:30 p.m. After the pledge to the flag, the Clerk called the roll, and all Legislators except Legislator Swiercznski were present.

The Clerk presented the following communications: A copy of the minutes of a special meeting of the Oak Orchard Small Watershed District held on August 12, 1988; noted that the 1987 annual report from the New York State Energy Office had been received and was on file; a letter from Glenn Cooke, Executive Director of the G/FL Regional Planning Council presenting the Council's proposed 1989 budget, and stating that Orleans County's share for 1989 will be \$5,632.96 (same amount as requested in 1988); a copy of the minutes of the August 8th meeting of the Soil and Water Conservation District Board meeting; a letter from the Mayor of Albion, stating that the Village Board had approved the County's request for the Village of Albion to extend the services of its Code Enforcement Officer to the County of Orleans.

Report of Standing Committees: Legislator Billings had nothing new to report on landfill host fees.

Legislator Berger reported attending the following meetings: August 11, the Fishing Derby Kick-off Breakfast; August 15, Right-to-Know meeting; August 16, the Chamber of Commerce Canal Boat ride; August 17, the Legislature Conference Session; August 18, the County Highway Superintendents' Picnic and Meeting.

Legislator McMurray said he had nothing to report on the Lake Alice speed limit problem - that it had been covered in the afternoon conference session. With reference to the DEC authorization, Mr. McMurray stated he had misinterpreted what was needed, and said he would get back to the Board at the next meeting.

Legislator Schaal noted that the Medical Scholarship Committee has not received any applications for the medical scholarship offered by the County. Legislator McMurray said he had discussed the possibility of having a similar program established for nurses. The County Attorney explained that authorization for such a program would have to come from Albany before the County can offer nursing scholarships.

Legislator Schaal said he had no further update on the Long Span Bridge project, and said that the feeling is the paper work is still in the Regional Office; Mr. Schaal said he had asked the Highway Superintendent to correspond with Mr. Gurley and obtain documentation as to where the County stands in order to get an answer. The Highway Department has started preparation for the paving projects on the Carr Road and Kuckville Road, and the East Scott Road Bridge should be removed within the next two weeks. With regard to the sanding/salting contracts, Mr. Schaal reported that all but one town had responded. The Highway has received a number of calls from towns interested in obtaining the salt stored at the Highway Department. The fencing has been completed for the Sheriff's Impound Area at the Highway Department and Mr. Schaal said, that shortly another resolution will be placed on the agenda to complete the project.

Legislator Bennett said that \$70,000 of the \$75,000 budgeted for OTB has been received to date; also that the \$1,000,000 Revenue Anticipation Note is payable at the end of the month. Mr. Bennett said the County Treasurer would be coming to the Board with a recommendation as to whether or not to borrow on a Revenue Anticipation Note for next year, for cash flow purposes. Mr. Bennett stated that Al Peglow was interested in serving on the Oak Orchard Small Watershed District Board, and Mr. Billings said that when the appointments are made, that Mr. Peglow would be appointed for the remainder of the year, and for the following two years.

Mr. Dudek said that a Records Management Seminar was being held on September 22nd, and that he, the County Clerk, the County Treasurer and the Clerk of the Legislature were going to attend. More information on the new law will be obtained at that time.

Mr. Dudek said that Teresa Martilotta had resigned as Executive Housekeeper at the Nursing Home, effective November 14th, and felt that the Board should look at the grade the position is in. Mr. Dudek noted that the new Administrator will have to fill that vacancy.

With regard to the Environmental Bond Act monies, Mr. Dudek said he had sent a copy of the County's Affirmative Action Plan to Tallman and Tallman, to be forwarded to the State as soon as possible. Mr. Tallman was also asked to send a copy of the final specifications to the County Attorney. The County still does not have a signed contract, although a portion of the money has been received. In order to receive the second portion, a signed contract is

sign the contracts. Mr. Dudek noted that there were a lot of restrictions in the contract. The original grant was in 1986, and an extension had to be sent in to the State, and Mr. Dudek felt the County should be ready to begin work first thing in the spring.

The County Attorney reported on the Heinlein Claim as follows: Mr. Young stated he had brought this subject up the previous week, the fact that Mr. Heinlein says he had made a claim in the amount of \$580.00 for materials and clean up time and damages to his house. In talking with Mr. Heinlein's attorney, Mr. Young asked him what the bottom line was, and he came back with \$480.00. The insurance company said they would deny the coverage and representation. (The County has \$5,000.00 deductible.) Mr. Young explained to the other attorney that he didn't have the authority to settle anything, that he would have to receive instructions from the Legislature as to what should be done. Mr. Vick asked the members of the board if they wanted to initiate a settlement, and they indicated they did not. Mr. Vick thanked the County Attorney for his report.

The following resolutions were presented:

RESOLUTION NO. 361-888

During discussion on the resolution regarding the Construction Supervision proposal from Lozier for the new Mental Health Services Building, Mr. Vick said he would like to indicate his displeasure with the way these projects grow on us; although there was no solution to the problem. Mr. Vick stated that the Board had dealt with individual items, not with the terms of the fee schedule, and that the decision to accept Lozier's bid had been made on the basis of the individuals making the presentation. Mr. Vick said that perhaps the Board needed to have a presentation list, showing the costs for everything, so that there would be no surprises. Legislator Schaal said that due to problems the County has had in the past on various projects, that he would prefer to pay a little more to people he knows are going to do the job, than to pay a lesser amount and end up fighting to get the quality of work that is needed for the project.

Meeting adjourned at 5:55 p.m.

LEGISLATURE MEETING
September 28, 1988

The Chairman called the meeting to order at 7:35 p.m., directly after the Public Hearing on Local Law No. 3 of 1988. After the pledge to the flag, the Clerk called the roll, and all legislators were present, with the exception of Legislator McMurray, who was excused because of illness.

Chairman Vick read a proclamation which declared the week of October 2 - 8, 1988 Cornell Cooperative Extension Awareness and National 4-H Week in Orleans County. Michael Paduchak, Chairman of the Orleans County Cooperative Extension Board was in attendance at the meeting, along with Dorothy Dusett and Linda Murphy, also members of the Cooperative Extension Service, as Mr. Vick signed the proclamation.

The Clerk presented the following communications: an invitation from the Farm Bureau to attend their annual dinner meeting on October 19th at the Village Inn;

A copy of a memo to the NYS Supervisors' and County Legislators' Association from Legislator Attilio Contini, the organization's 3rd vice-president, regarding "siting low level radioactive waste disposal site". The memo stated that due to the law and DEC regulations favorable prospective sites in the Adirondacks and/or Catskills cannot be considered, nor can federally owned lands be considered, while areas that have a population of less than 1000 people per square miles could become a favorable site.

A request from the Tourism Advisory Board that Orleans County Marine Park remain open on the same schedule as Lakeside State Park; i.e. closing on October 30, 1988;

Announced that the minutes from the August 25th meeting of OTB are on file in the Office;

A thank you letter from the vice-president of the Human Services Council, Lyn Olcott, for the presentation made by Mr. Vick on September 12th; also a request from Ms Olcott, who is also Director of the Albion Branch of Planned Parenthood, stating that she would like to serve on the Public Health Board;

Notification from the Albion Town Clerk that a new business may be opening near the Civil Defense Center, and that a public hearing would be held on October 12, 1988 at 7:00 p.m. in the Town Hall on Clarendon Road;

A letter from County Attorney Thomas Young, stating that Nicholas G. Jonas, Esq., of Buffalo, New York has been appointed to the full time position of Assistant County Attorney for Social Services;

A request from the County Highway Superintendent that the Chevy Blazer remain in the Highway Department Fleet, to be used by the Administrative Assistant to the Highway Superintendent for the Marine Park; also notice that the Highway Department is instituting a road rating system for all County roads, and that the aforementioned Chevy Blazer will be used for this project as well.

Report of Standing Committees: Legislator Billings stated he had nothing new to report on the Landfill Host Fees or committee appointments.

Legislator Swiercznski stated he was still searching for a Consumer Representative to serve on the Project Review Committee of the Health Systems Agency of Western New York. The Clerk was instructed to send notification to the Human Services Council of this vacancy, since they had expressed an interest in recommending individuals to the various County advisory committees.

Legislator Schaal reported that paving had been completed on the Kuckville, Carr and Salt Works Roads, and that clean up work is continuing. Mr. Schaal stated that other projects were coming to completion, with some spot paving remaining to be done. He noted that the Highway Department has not received any new information on the proposed Long Span Bridge project at Two Bridges. Mr. Vick said he had talked with Mr. Ronald Rohland, who lives on the Hurd Road, regarding a culvert on the east side of Mr. Rohland's driveway; apparently it is two feet above the low spot. Mr. Vick said he had talked with Mike Basinait, the Deputy Highway Superintendent, who said it would be taken care of after the construction period ends. When confronted with the statement that the Salt Works Road in the area of the paving work, had "dropped several inches", Mr. Schaal said the work had been done properly, and that it (the road) would still move.

Legislator Bennett announced that meetings between the Finance Committee and the individual departments would begin October 4, for the purpose of going over their proposed 1989 budgets. Mr. Bennett said he hoped all the Legislators would attend.

The Chief Administrative Officer, Stan Dudek, reported that he had attended the Records Management meeting in Rochester on the 22nd. Mr. Dudek stated that approximately 400 people attended the meeting at

the Convention Center. All counties are taking the new law very seriously. The County has to designate someone to be in charge of the County's Records Management Program by December 31, 1988; the Legislature chairman makes the appointment, which has to be confirmed by the whole Board. Mr. Dudek felt that the position would be a full time position, and stated that the Central Services Committee had discussed this earlier, and felt that it would be a good idea for the Committee to investigate the Records Management Program and all that it entails, to determine what is needed for the County. Mr. Dudek said the new law allowed a Records Management Committee, and it recommended as members, the County Clerk, County Treasurer, County Executive Officer, and the County Historian. The Board agreed to this, and recommended that Legislator Bennett be the legislative representative on the Committee. Mr. Bennett was to let Mrs. Basinait, the County Treasurer, know of her inclusion on the Records Management Advisory Committee.

The following resolutions were presented:

LEGISLATURE MEETING
October 12, 1988

The meeting was called to order at 7:30 p.m. After the pledge to the flag, the Clerk called the roll and all legislators were present.

Chairman Vick asked R. J. Smith, who is the Town of Kendall Highway Superintendent, to step forward, and presented Mr. Smith with a County flag in honor of all the years of service given to the Town of Kendall as Highway Superintendent. Mr. Smith was also given recognition as being the president of the New York State Town Highway Superintendents' Association. Mr. Smith thanked the Board for their recognition, and for the cooperation extended to him since he's been Town Highway Superintendent. Mr. Smith stated that one of his goals during his tenure as Superintendent is to have all the roads in the Town of Kendall with a private home on them, paved. To date, only two unpaved roads with private homes on them remain in Kendall, with the reason being, that they are constructed homes constructed on an unpaved road.

The Clerk presented the following communications:

A copy of a letter received by the Carlton Town Board regarding a boating incident on Lake Alice in which a portion of a boat was damaged while towing a water skier. The owner of the boat felt that the County should pay for the damage done to their boat; a memo from Don White, Tourism Director stating he would be contacting the Towns, Villages and the two Chambers of Commerce asking them to contribute to the matching funds "I Love New York" campaign; a letter from the Orleans County Federation of Sportsmen's Clubs agreeing to a 35 mph speed limit on Lake Alice;

Announced that Local Law No. 3 had been received at the State Department; a copy of a letter of transmittal of filing fee from the County Attorney to Federal Energy Regulatory Commission in reference to the agreement the County has with Niagara Mohawk for the Delivery of Preference Power;

A letter from the NYS Department of Health stating that Mrs. Joyce Church has been granted an extension to continue as Acting Administrator of the Nursing Home, until November 7, 1988; acknowledgment of receipt of resolution 376-888 regarding lifelines and ladders in the Medina Canal Basin;

An invitation from the Orleans County Farm Bureau to attend their annual meeting on October 19th at the Village Inn; Inter-county Association of Western New York will meet on October 19th at the Steuben County Infirmary

Receipt of information on the NYS Low-Level Radioactive Waste Siting Commission; acknowledgment of Resolution 372-888 regarding the Route 18 extension in the Town of Carlton, from Assemblyman R. Stephen Hawley; a letter from Lew Gurley, NYS DOT stating that the Route 98 bridge project is included in the Memorandum of Understanding for the ACTION '88 Bond Program;

In reference to the letter from the Town of Carlton pertaining to the boating incident, Legislator Schaal felt that the boaters were traveling at a speed not prudent for the waterway, and that it was not the County's responsibility. The County Attorney was authorized to prepare a reply to the people involved, stating the County was not responsible.

Report of Standing Committees: Legislator Billings reported that the committee will be reviewing the Landfill Host Fee proposal and will get back to the Board with all the pertinent information. Mr. Billings also noted that the Hulberton Road Bridge had been posted. Chairman Vick noted that the Kuckville Bridge limit had been lowered to 5 Ton, and that he had called John Daly on this matter. Legislator Schaal commented that Senator Daly said he would do all that he could to rectify the situation. Mr. McCarthy, the County Fire Coordinator, informed the Board at the afternoon Conference Session that the only bridge in the Town of Albion that can carry emergency type vehicles is the Route 98 Bridge on Main Street in the village; that there are 62 families that cannot be legally reached by emergency vehicles in the Town of Albion. It's a very serious situation.

Legislator Berger reported attending the budget meeting on October 6th; the Soil and Water Meeting on October 11th; Mr. Berger also read a letter from Charles Pulley, Director of Orleans Community Action Committee in reference to purchasing gas from the County Fuel Farm. Mr. Pulley explained that regular gasoline cost \$0.08 per gallon more at the County Fuel Farm than it does at the Community Action supply. He also explained that the agency purchases additional fuel for programs in Medina and Batavia, rather than have the vehicles return to Albion to "fuel up". Mr. Berger said he was working on the matter of parking privileges at the Marine Park. With reference to the speed limit on the driveway to the County Building, Mr. Berger stated that since it is County land, the State

has nothing to say about it. Mr. Vick asked Mr. Berger to come back to the Board with a recommendation.

Legislator McMurray said he had been working on the 1989 County Budget.

Legislator Swiercznski reported attending his usual meetings with Department Heads; noted that he audited the bills during the month, commenting that one department sent six employees to the same seminar in Batavia, and questioned the necessity for sending six people; stated he was still looking for someone to serve on the Western New York HSA. He also noted that the forms used by Judge Miles certifying payment for family court assigned counsel should be updated, with the correct amount authorized for the service being stated on the form.

Legislator Schaal noted that each legislator had a copy of the engineering survey on the Hurd Road and Kenyonville Road Bridges, and said that there would be a recommendation from the engineers on these two bridges at the next Conference Session. Also that the County would have an update on the soil samples on the Oak Orchard River Bridge. Mr. Schaal stated that survey was done of marina operators in the Point Breeze area, and the resolution on the evening agenda reflects the result of the survey - rental fees were increased by \$50.00 for each size dock.

Legislator Bennett reported that the Finance Committee and the Budget Officer would be presenting the proposed 1989 County Budget the following Wednesday. With reference to sick leave abuse, Mr. Bennett said he and Mr. Dudek had met together to discuss the problem.

The Chief Administrative Officer noted he had given the Board his report in the afternoon during the Conference Session.

LEGISLATURE MEETING
October 26, 1988

The meeting was called to order by the Chairman. After the pledge to the flag, the Clerk called the roll and all the Legislators were present.

The Clerk presented the following communications:

A copy of the financial reports for 1987 from the Council on the Arts and the Cobblestone Society; notification from the NYS Department of State that Local Law No. 3 of 1988 had been filed at their office; a copy of a letter from the County Attorney to Ms Kathleen Curtin regarding a boating incident on Lake Alice in the Town of Carlton;

Requests from the County Treasurer to charge back erroneous taxes to the County and Towns and School Districts; also a request to relevy the unpaid school taxes on the 1988 County and Town Tax Rolls as of November 1, 1988;

A letter from Assembly Speaker Mel Miller stating that funding for the Route 531 extension is included in the transportation bond act scheduled to be voted upon in November; a request to purchase property located in the Town of Albion, from attorney Robert E. Heath, on behalf of William L. and Joyce B. Compson; a copy of the minutes from the October 11th Soil and Water Conservation District Board meeting;

Report of Standing Committees: Legislator Billings reported his usual meetings, with nothing new on the landfill host fee proposal.

Legislator Berger reported that the County Attorney was working on the parking privileges at the Marine Park, and on the speed limit at the County Building. Mr. Berger also attended the Yates Town Board meeting on the 13th, the Legislature Conference Session on the 19th as well as the Farm Bureau Annual Dinner meeting, and the Village of Medina Board meeting on the 25th.

Legislature Swiercznski reported regular meetings with his department heads, and in reference to the HSA vacancy, Mr. Swiercznski said he still had not found anyone to serve on that Board.

Legislator Bennett, in reference to Personnel Policy, said he had met with Mrs. Bower, Personnel

Officer and a representative from the State to consider local Civil Service rules. It was noted that probationary periods can be longer than six (6) months, and Mrs. Bower is putting together a list of titles which could be affected by this ruling. In regard to leaves of absences, Mr. Bennett stated that appointed officials can approve a leave for up to one year. Mr. Bennett stated that Mrs. Bower will be obtaining more rules, in order to compare to the rules the County has in place. In regard to the vacancy in the County Clerk's office, Mr. Bennett stated that at the next Legislature meeting, a resolution would be on the agenda creating a position to take the place of the the microfilm operator position; that individual is retiring.

At this time Mr. Alvin Peglow, the County's new appointee to the Oak Orchard Small Watershed Protection District Administration Board, and Mr. David Mathes, of the County's Soil and Water Conservation District Board were introduced. Mr. Peglow stated he had found out about the previous Watershed Administrative Board meeting, held on October 19th, by reading the notice in the paper. Mr. Peglow said he felt the Board was not satisfied with his appointment; that they were disappointed that Mr. Ognibene was not reappointed. According to Mr. Peglow, Mr. William Miller opened the meeting, and indicated that he had talked with Mr. Vick about Mr. Peglow's appointment. (Mr. Vick commented that if an individual was a home-owner in the district, or owned one acre of land in the district, then that individual was entitled to serve on the Watershed Administration Board.) Mr. Peglow said he felt that Mr. Miller wanted him to resign, but Mr. Peglow informed the Watershed Board, that until the Orleans County Legislature tells him he is no longer on the Watershed Board, then he will continue to attend meetings. Mr. Peglow said he had had problems with the Watershed Project for quite some time. When Phase II of the project was implemented, Mr. Peglow said they went straight through his farm and took off 100 ft. on either channel, and in the process ruined a woods of hard timber. A bridge that went across the old creek, enabling Mr. Peglow to get from one part of his land to the other, was removed, and has not been replaced.

Mr. Mathes said he had problems with the Watershed Board too, that he had been trying to get the Board to construct a dam, and by doing so, raise the water table for the wells in that area. Mr. Mathes said he had asked in May for a suitable design for such a dam, but did not receive one, and since he had the equipment available, Mr. Mathes went ahead and put in a dam on his own volition. He said he received calls from Mr. Ognibene and Mr. Miller, telling him to remove the dam or they would bring suit. Mr. Mathes removed the dam.

Mr. Vick and Mr. Miller had discussed the situation on the phone. Mr. Miller expressed the Board members' concern on the appointment of Mr. Peglow. Mr. Vick said he had talked with one other member of the Watershed Board, and suggested he write to the Legislature indicating why Mr. Peglow shouldn't serve on that Board. Also asked for a list of people from Orleans County who would be eligible to serve on the Board. To date, Mr. Vick has not heard from this individual. Mr. Vick said to Mr. Peglow, "The situation stands as it is, and I would appreciate it if you would notify us when you get notice of the next meeting and we will stand by you." Mr. Vick stated that the County Attorney was in place at the time the resolution passed forming the watershed. The resolution was written that way, because there could be a home-owner who could be affected by the action taken on the Watershed Board and by the Watershed Project. Mr. Mathes said he owned some muck that wasn't worth very much, and stated that he is assessed a ditch tax; also a neighbor of his, Irvine Kennedy is in the same situation. (The ditch came up into some poor muck and Mr. Mathes and Mr. Kennedy were assessed a ditch tax, besides having the water table lowered.) Legislator Billings thanked Mr. Peglow for accepting the appointment. Chairman Vick thanked the Mr. Peglow and Mr. Mathes for attending the meeting.

Motion by Legislator Bennett, with second by Legislator Billings, to adjourn. Motion carried.

Meeting adjourned at 8:35 p.m.

LEGISLATURE MEETING
November 9, 1988

The meeting was called to order by the Chairman at 7:30 p.m. After the pledge to the flag, the Clerk called the roll and all legislators were present (Legislator Berger arrived at 7:40 p.m.).

The Clerk presented the following communications: a resolution from the Clarendon Town Board requesting Legislature support in the matter of the Town becoming the "Lead Agency" in regard to the Genesee-LeRoy Stone Corporation's request to expand their operation; a copy of the minutes from the September 22nd meeting of Western Regional OTB Corporation; a thank you note from the family of Henry Hannan, for the expression of sympathy by the Board; a letter of notification from the New York Power Authority approving a revised transmission rate.

Report of Standing Committees: Legislator Billings reported the usual meetings. Legislator Swiercznski reported that there is still a vacancy on the HSA of Western New York.

Legislator Schaal informed the Board that the bond issue had passed, and the County Highway Department is prepared to apply for every dollar it can get. In reference to the Long Span Bridge at Two Bridges, Mr. Schaal said the Highway Department had received not answer as yet. Also, that fans have been installed on the south side of the Highway building. The Highway Department is still waiting for a reply in reference to the offer to purchase the village barn from the Village of Albion.

Legislator Bennett noted that the budget hearing for the County's 1989 budget is scheduled for the 17th at 7:30 p.m. in the County Court House. In reference to the personnel policy, Mr. Bennett said he is still waiting for a report from the auditor.

Chief Administrative Officer Stan Dudek reported that Orleans and Erie Counties will be the first counties in the State to be receiving hydro power through their contract with UPSA. This service will be started September 28th and Orleans County will be receiving 1900 Kilowatt hours; power that would have gone to other places in the coming year. The savings amounts to approximately \$3.30 per month per household. This is about \$36,000 per month benefit to Orleans County residential consumers. Mr. Dudek said

that eventually the County will be seeking some of the power for commercial purposes.

In reference to the Code Enforcement Officer, Mr. Dudek stated that since the County has opted to go back into the program and have its own Code Enforcement Officer, the State will be sending the necessary documents. Mr. Dudek explained that after discussing the possibility of an agreement with the Village of Albion which would enable the County to use the Village's Code Enforcement Officer, that the cost would be too great. The State DEC in Rochester told Mr. Dudek the County could appoint its own Code Enforcement Officer, and that whoever is appointed would need approximately 120 hours of training. In the meantime, the County Code Enforcement Officer would still be able to take action on any building; that DEC would be there to advise and provide the County with engineers in situations where a building permit is needed. Mr. Dudek recommended that the Board appoint Mr. David Stevenson, the Assistant Buildings and Grounds Superintendent to the position of Orleans County Code Enforcement Officer. Chairman Vick stated that Mr. Stevenson would be appointed to this position with no extra compensation, and would receive 120 hours of needed training within the next 18 months.

Legislator Berger stated he had attended the Soil and Water meeting on the 8th. Since Mr. Roberts is Chairman, Mr. Berger suggested he contact the Chairman of the Oak Orchard Small Watershed Protection District and decide when there should be a meeting. They will have another meeting soon. With regard to the speed limit problem, Mr. Berger felt there wasn't a problem, that since the property belongs to the County, the County can stipulate what the speed limit will be.

Majael Robertson, Chairman of the Clarendon Planning Board, was given privilege of the floor. Mrs. Robertson read a resolution from the Town Board of Clarendon requesting support from the County Legislature that Clarendon be designated the lead agency for the SEQR process pertaining to the proposed expansion of the Genesee LeRoy Stone Quarry. Mrs. Robertson said that the Town feels it can handle the SEQR process and would like the opportunity to do so. The Town Board is very concerned with air pollution, noise level, the blasting operations. Their feeling is that if DEC is designated lead agency, the Town will not have much input.

Legislator Schaal said that he felt, with the information supplied by Mrs. Robertson, the Legislature would go along with her request, and support the Town of Clarendon in its quest to be lead agency in the SEQR process as they have requested. Several Legislators

were hesitant in lending support, until they had talked with Wayne Hale, the Director of Planning and Development. The Chairman recommended that the matter be postponed until the following week, thereby giving time for further research. Mrs. Robertson thanked the Board for their attention and consideration to the Town's problem.

The following resolutions were presented:

RESOLUTION IN OPPOSITION TO S-7959-C WHICH WOULD VIOLATE COUNTY GOVERNMENTS' RIGHT OF HOME RULE BY PRE-EMPTING ANY AND ALL LOCAL SMOKING ORDINANCES

WHEREAS, Section 1399(y) of Senate Bill 7959-C states "the provisions of this article shall govern and take precedence over the provisions of any local law, ordinance, rule, regulations, resolution, charter or administrative code enacted by any political subdivision of the state", thereby pre-empting all local smoking ordinances regardless of whether such ordinances were more restrictive than the provision of S-7959-C; and

WHEREAS, pre-emption would also prohibit all county legislative bodies from making amendments to the

smoking ordinances to more effectively carry out such provisions and enhance the protection of the public health in their respective communities; and

WHEREAS, such pre-emption would violate county governments authority of home rule and would contradict both the philosophy and practice of public health in New York State; and

WHEREAS, under the provisions of S-7959-C, county officials would be designated with the responsibility for enforcement of the minimum statewide smoking restrictions; and

WHEREAS, the penalty provisions contained in S-7959-C are so limited and minimal that they would make effective enforcement virtually impossible; and

WHEREAS, the weak penalty and enforcement provisions would prevent counties from having the ability to effectively carry out their responsibility for enforcement and would, therefore, be likely to result in non-compliance and would reflect negatively upon county governments;

NOW, THEREFORE, BE IT RESOLVED, that the Orleans County Legislature vehemently opposes S-7959-C on the basis of its pre-emption and weak enforcement provisions which are unacceptable to county governments.

RESOLUTION IN SUPPORT OF BILL A12027 TO PROVIDE CONTINUED FUNDING FOR LOCAL HEALTH PLANNING AGENCIES

WHEREAS, New York State has long recognized the importance of health care planning in developing a rational delivery system for the residents of this state and, in fact, has utilized a local health planning system since the mid 1960's; and

WHEREAS, New York's health planning system served as the model for the 1974 National Health Planning Resource and Development Act where upon eight regional health systems agencies (HSA's) were created in New York; and

WHEREAS, despite the value of this health planning

system, federal commitment of resources to the National Health Planning Program began to decline in the early 1980's up until 1986 when the program was completely dissolved; and

WHEREAS, New York's eight HSAs have continued their mission of local health planning through state and local financial support; and

WHEREAS, the existence of these regional planning agencies provides the means for local representation and participation in working toward the development of a health care system that is responsive to the specific needs within communities; and

WHEREAS, county governments as payors and providers of health care services have strong interest in having a health care delivery system that meets the needs of its communities and prevents duplication of services which would unnecessarily increase health care costs; and

WHEREAS, fifty-four county governments provided financial support to HSAs in 1987 testifying to the belief that health planning at the local level is critically important for communities; and

WHEREAS, despite the voluntary support by county governments of these agencies, HSAs have not been assured of state funding throughout this fiscal year; and

WHEREAS, Assembly Bill A12027 would provide a state appropriation to HSAs for the remainder of this fiscal year; and

WHEREAS, local health planning continues to be the most effective manner whereby local needs and views can be advocated;

NOW, THEREFORE, BE IT RESOLVED, that the State Legislature, without delay, secure passage of A12027 to maintain and preserve New York's local health planning system; and be it

Report of Standing Committees: Legislator Billings reported attending the usual meetings with departments.

Legislator Berger reported that the Vehicle and Traffic Law will cover the speed limit situation on County driveways. He will check with the Highway Superintendent to see who would enforce it. County Highway Department could place the speed limit signs. There should be no problem enforcing the speed limit. Mr. Berger attended the County Budget Hearing on the 17th; attended Community Action Training Session at the Village Inn, for Genesee and Orleans Counties, held on the 21st; attended the Department of Social Services Executive Staff Meeting on the 22nd.

Legislator McMurray introduced Mr. Robert Golden, who has served as Probation Director for the past 24 years and was leaving the service of the County to continue working in Probation at the State level. Mr. Golden commented, "I have been saying a lot of farewells, and I did want to especially address the Legislature and thank all of you, and Orleans County for the opportunity to work in the field and to do a number of different programs - I would like to officially thank you. I really have enjoyed this field and associations and the various politically units of the County and the agencies. My thanks and appreciation for 24 years of real satisfaction for me and, hopefully, for the community."

Chairman Vick thanked Mr. Golden and said, "We'd

like to shake your hand before you leave. What's been good for him, and has also been good for us - 24 years of service. I'd like to thank you and express appreciation to you on behalf of the County taxpayers as well." Legislator McMurray stated that Mr. Golden had done a great deal for the Department during his tenure as Director. Mr. Billings said, "The County will miss you very much, and I am glad you are still going to be in the area. I appreciate your work."

Legislator Swiercznski reported his usual meetings with his departments, as did Legislator Bennett.

Legislator Schaal said he had nothing new to report regarding the bridge over Oak Orchard River; the Highway Department has heard nothing from the State, and so cannot develop any sound plans for either a permanent or temporary bridge.

Chief Administrative Officer Stan Dudek said he had requested the Chairman to schedule a special meeting regarding negotiations. Mr. Dudek said he had reached a point where the County will have to decide on final positions, and would like to have negotiations for the first item on the agenda. Chairman Vick said he would have a Conference Session limited to discussion on negotiations.

BUDGET MESSAGE 1989

TO THE HONORABLE MEMBERS OF THE ORLEANS COUNTY LEGISLATURE AND TAXPAYERS OF ORLEANS COUNTY:

Preparation of the budget is a major responsibility that claims long hours of staff time and the full attention of department heads and Legislators during several weeks of the year. While its basic purpose is to give an account of government finances, it also serves as the blueprint for the year's activities. Long range goals are reflected in budget decisions; action steps are translated into budget numbers. As the Federal and State governments continue to reduce aid to local governments, local government officials face the annual task of predicting where the cuts are likely to fall and how much they will eventually effect total revenues.

Submitted herewith for your consideration is the proposed Financial Plan for the County of Orleans for the 1989 fiscal year:

Public Health expenses are reduced but State reimbursement is considerably less and therefore County cost increased \$9505, or 3%. This includes one new part time position, Public Health Technician Trainee.

Mental Health predicts a 2% increase in County cost. Expenses are projected at \$492,607, an increase of \$107,271, while revenues are projected at \$420,987, \$116,117 higher than 1988. This includes a new Staff Social Worker position, which is totally State reimbursed.

The Sheriff's Dept. budget has increased to a County cost of \$995,623, from \$909,523 in 1988 (9%). This includes a new deputy and a clerk position which was approved in 1988, but not budgeted. Jail costs were considerably reduced by revenues received from boarding prisoners (\$692,000). County cost for jail operation is projected at \$191,320, 4% higher than 1988.

Probation Department expects twenty-five percent less State reimbursement for the Domestic Violence program. County cost for this Department is \$308,504, or 16% higher than 1988. This includes one new Probation Officer Trainee position.

The County has aggressively pursued the development of employment and job training programs that have enabled many welfare recipients to become self supporting. As a result, the cost of Home Relief has not increased. However, Medicaid costs continue to be a costly problem which will increase by approximately 9% (\$140,000) in 1989. This amount is totally County dollars. Total increase in the Social Services Department is projected at \$269,629, County cost, 7.63%. This includes one new part time position in Foster Care. The County has suffered State & Federal cuts to some of these human services programs. Through more efficient management of services and funds however, the Department of Social Services, is making a sustained effort to maintain services for those people hit hardest by those cuts and by unemployment.

Orleans County remains committed to the improvement of its highway and bridge systems. In the past resources available have not been sufficient to arrest the deterioration of our roads and bridges. In the Fall of 1988 the County borrowed \$1,900,000 Bond Anticipation Notes and Capital Note of \$100,000 at a rate of 5.83%. Tentative plans are to borrow an additional \$1,000,000 late in 1989. This money is reserved for bridge repairs and reconstruction. Total budget appropriation for the Highway Department, including Machinery Fund, Marine Park and Fuel Farm is \$3,101,392. This is partially offset by Revenues in the amount of \$1,565,714. Again, the County has suffered decreased revenues on the State level, for highways. The decreased State aid has resulted in a higher tax levy for highway purposes. \$233,000 is designated in this budget for the purchase of highway equipment in accordance with the Capital plan. Short term debt in the Highway budget covers the 1989 principal and interest payments for the bridge borrowing. We are using \$50,000 from the Machine Fund as a Surplus to reduce the Highway tax levy, which is \$1,485,678 for 1989.

BUDGET MESSAGE 1989 (con't)

Planning & Development Department projects an increase of \$37,205 County cost over 1988. This includes one new position. Other programs to promote Tourism and expand existing businesses stimulate job development and strengthen our local economy.

Community College expense has escalated to \$515,000 (8% increase), all County money. Education Handicapped Children costs continue to rise. Projections for 1989 are \$830,000, 11% higher than 1988 (50% reimburseable).

Benefits increased by 13%. This was a result of the 27% increase in Blue Cross/Blue Shield in 1988 (which was partially unanticipated) and the increased rates of State Retirement. Also, in 1988 the County was obliged to pick up retirement costs for former CETA employees at their request.

Long Term Debt Service is projected at \$322,384, an increase of \$110,793 (52%) over 1988. This includes principal and interest payments on Serial Bonds for Office Complex, Fuel Farm, County Marine Park, Mental Health Building and County Building Reconstruction. This budget includes \$225,000 contingent fund; \$25,000 appropriation to Industrial Development Corp. and

\$50,000 for Solid Waste, partially offset by the use of \$50,000 Tax Stabilization Reserve Account money.

The 1989 proposed budget will require no increase in the County tax rate. However, where assessments have been increased, the average tax bill will show an increase. At the same time, the funds included in this annual budget will enable the County to maintain and enhance the important network of human, physical and public safety services provided to the residents of our community.

In the final analysis, results of governmental programs and activities should be of primary importance to taxpayers, legislative bodies and others interested in measuring the performance of governmental organizations and public officials. Guidelines offered in this, our annual budget, should help avoid the tendency to focus on a program's amount of activity or some intermediate product rather than on the program's ultimate effectiveness. We hope this budget will clearly communicate to the Legislature and the taxpayers both proposed changes and ongoing policies and their meaning in terms of activities accomplished and projects underway.

Respectfully submitted,

County Attorney Tom Young said he had some problems with the agreement; namely -

1. charges for the software come due upon the signing of the agreement;
2. difficulty in determining what company will be doing maintenance - the County should know what company will be providing maintenance;

Served 715 clients at Family court Intake and Justice Court Diversion; this 6% increase over 1987 is due, in part, to increased activity in Domestic Violence and Persons in Need of Supervision. Conducted 472 Pre-Sentence Investigations; this is a 30% increase over 1987, largely due to increased requests from Justice Courts and out-of-county Courts. Supervised 612 probationers under Court sentences; this is an 11.5% increase over 1987 with the largest increase being in the area of class B misdemeanor sentences. Other Accomplishments: Accomplished above increases with ½ staff position increase. That is, served 159 cases per Probation Officer in 1987 vs. 171 cases per Probation Officer in 1988; net County cost per case was thus reduced 5% (\$155.5/case 1987 vs. \$148/case 1988).

To accomplish this, the department works through the Batavia Office of the Division of Equalization and Assessment to maintain data files on their computer and produce the necessary rolls and bills. In addition to the towns, we also provide them to the schools and villages.

State-mandated tax maps are maintained in the county office, and updated information provided to the assessors for their maps. Various state forms, exemption application blanks, etc. are distributed to the assessors and to the public through the county office.

RESOLUTION REGARDING THE APPROVAL PROCESS OF ON-THE-JOB TRAINING CONTRACTS WITHIN THE JOB DEVELOPMENT DEPARTMENT

WHEREAS, the County of Orleans has received funds through the Jobs Training Partnership Act to conduct employment and training programs for eligible residents of the County; and

WHEREAS, the On-the-Job Training Program has been utilized effectively to help eligible residents of the County to access entry level jobs and has helped to reduce the cost of training new employees of many county-wide private sector employers; and

WHEREAS, a contractual agreement is required outlining the training to be offered by these employers; and

WHEREAS, it has been necessary to obtain the signature of the Chief Elected Official on these Contracts; and

WHEREAS, it would be beneficial to have a policy outlining the basic procedures for developing and approving these On-the-Job Training contracts;

NOW, THEREFORE, BE IT RESOLVED, that the attached procedures be approved to provide a consistent method

of developing and approving On-the-Job Training contracts.

Adopted. 7 ayes; 0 nays; 0 absent.

PROCEDURES FOR APPROVAL OF O.J.T. CONTRACTS

There are generally two scenarios of how O.J.T. Contracts are developed.

1. JDA staff initiates the call on employers or the employer contacts our office directly. In either case the jobs discussed are being filled within 3 or 4 weeks from the date of contact. This "lead time" is used to complete the paperwork involved, refer eligible County residents to the employer for their consideration and to get the necessary approvals and signatures;
2. An employer calls our office and wishes to have an On-the-Job Training Program developed. He either has an eligible client in mind or would be willing to interview referrals from our office but he needs to fill this position(s) within 5 days.

Recommended Procedures

1. In those cases where there is sufficient lead time as described in No. 1 above, the Director of the Orleans County Job Development Agency will forward O.J.T. Contracts for signature by the Chairman of the Legislature prior to any trainee being hired by the employer.
2. In those cases where the employer's needs are more immediate and when the employer has had previously successful contracts and when there are no known reasons why this particular Contract would be prohibitive, the Director of the Job Development Agency, using his best judgment, will tentatively approve the hiring of the trainee and will inform the employer that our commitment of funds is contingent upon obtaining the signature of our Chairman of the County Legislature. It is to be understood that should the employer need to hire the trainee prior to having a fully executed Contract, and then the Contract is not signed by the Chairman, the Contract becomes null and void.

The Director will add an item within the "Terms and Conditions" section of the Contract that explains this requirement. The employer will be made to understand that approval to hire the trainee may be given but the Contract is not fully approved until the signature of the Chairman of

the Orleans County Legislature is obtained.

- 3. To assist the Director of the Job Development Agency and his staff it is understood that no On-the-Job Training Contract utilizing JTPA designated for Orleans County will be used to subsidize any employer outside the Orleans County and/or outside the GLOW Service Delivery Area. The only exception to this is when an employer outside of the Orleans County or the GLOW Service Delivery Area makes a request for assistance and employs a significant number of Orleans County residents. This request will be taken under consideration by the Legislature and may be approved after reviewing the request.

Mr. Berger said the fire chiefs were concerned with the new laws for firefighters - have to have yearly physicals, have to have a physical education program. The Lyndonville School District is allowing the Lyndonville Fire Company to use their school facilities for physical fitness program. With regard to the third investigator position in the Sheriff's Department, Mr. Berger said he had not discussed that with the Sheriff.

However, the Director will try to expedite the money and get it to the County as they promised. Mr. Schaal also reported an eleven percent increase in sales tax over the past three years. He stated that much of that revenue was due in part to the disparity in the County's sales tax during that time. Mr. Schaal said that the Sales Tax people, and the State feel there will be a four percent decrease state-wide during the current year.

Legislator Bennett reported attending regular meetings. In reference to the KYC Waterfront Revitalization Program, Mr. Bennett reported that Planning Director Wayne Hale was contacting all three towns involved, to see whether or not they will continue. Mr. Bennett also stated that Mr. Hale was busy trying to fill the Planner vacancy. A resolution approving the changes to the Management Compensation Plan was on the evening agenda.

Chief Administrative Officer Stanley Dudek stated that once the historical review is done on the Court House Dome project, then bidding can proceed. With regard to negotiations, Mr. Dudek requested that this be discussed at an executive session. He noted that the factfinder has been appointed, and that a meeting will be held on the 7th; also that he had the figures on the cost of going to a 25-year plan on the deputies.

RECONVENED LEGISLATURE MEETING
February 20, 1989

Chairman Vick reconvened the meeting at 7:30 p.m. All legislators were present, along with Mr. Michael Tomaino of Nixon, Hargrave, Devans and Doyle, who is employed by the County, and Mr. Norris Webster.

The Clerk read a letter of resignation from Nicholas Jonas, who served as Attorney for the Department of Social Services. Mr. Jonas resigned his position as Assistant County Attorney for the Department of Social Services effective March 3, 1989. Chairman Vick said he had not had an opportunity to speak with Mr. Jonas with regard to Mr. Jonas's resignation.

Mr. Tomaino had prepared a draft resolution appointing a County Attorney, and copies of this proposed resolution were distributed to the legislators. Mr. Tomaino explained that Mr. Young had indicated that he did not wish to remain on the job through the end of the year, and that for all practical purposes the office was vacant. And now, the Assistant County Attorney was also resigning. Mr. Tomaino said, "I think it's appropriate to appoint a new County Attorney for the balance of Mr. Young's term. I don't feel you can get into any trouble at all. This deals with the reality of the situation." Mr. Tomaino assured the Board that Mr. Young would be providing the releases the County is seeking, as well as a letter from his doctor.

Mr. Tomaino explained to the Board that if they preferred to wait until the letters from Mr. Young had been received, then it would be possible to work with Mr. Webster on an "ad hoc basis", until such time as the letters are received. Then, the Board could adopt the proposed resolution appointing Mr. Webster as County Attorney at that time.

Chairman Vick said that the "County needs to go on. We have got to be able to do something that will allow us to proceed. I believe we are getting good counsel - there comes a time when you have to trust, and then proceed."

Mr. Tomaino rewrote parts of the proposed resolution, and read it back to the Board. The Chairman recessed the meeting to allow the Clerk to prepare the rewritten resolution, so that it could be voted upon.

Meeting recessed at 8:00 p.m.

Meeting reconvened at 8:15 p.m.

Legislator Schaal, with second by Legislator McMurray, moved a resolution entitled "Resolution Appointing Acting County Attorney". There was continued discussion on the matter, and the following resolution was adopted:

LEGISLATURE MEETING

February 22, 1989

The meeting was called to order at 9:05 p.m. by the Chairman. After the pledge to the flag, the Deputy Clerk called the roll and all Legislators were present.

The Deputy Clerk presented the following communications: a note from Deputy Treasurer Lois Klatt, thanking the Legislature for their expression of sympathy on the death of Lois's husband, Paul Klatt, a letter from Sandra Bower regarding the appointment of the Acting Probation Director, and a letter from Assemblyman Hawley, acknowledging receipt of resolution number 39-189, with regards to the speed limit on Lake Alice.

Report of Standing Committees: Legislator Berger reported attendance at the Soil & Water meeting, Legislature meetings and a meeting with Legislator Swiercznski, Sheriff Green, and District Attorney Jim Punch.

Legislator McMurray reported that the Route 18 bridge in Kuckville will be replaced in 1992. New beams will be put in this summer, which will allow the 3 ton restriction to be eliminated. The Blood Road Bridge has been removed. Legislator McMurray reported that the Hurd Road bridge engineering is progressing well and extensive drainage work has been done, along with new guard rails. He said there will be a notice in the newspaper shortly regarding the Bald Eagle Bridge. Legislator McMurray also reported that bids will be opened on March 1 for abutments for the Marsh Creek Road Bridge over Oak Orchard River.

Legislator Swiercznski reported attendance at his normal committee meetings. Legislator Swiercznski also mentioned at this time that he has a couple of resolutions to go on the agenda tonight.

Legislator Bennett said, regarding the host fees, that there is a resolution on tonight's agenda. He reported attendance at the KYC meeting, and said that the towns of Carlton, Kendall and Yates want to continue the program. Legislator Bennett said there is a resolution on tonight's agenda appointing him to that committee. He also reported attendance at the Soil & Water meeting and other committee meetings.

Legislator Schaal said he attended his regular committee meetings.

Mr. Dudek said the Legislature had asked him to

review reports regarding the fuel farm and the Marine Park. He said, regarding the fuel farm, more money was transferred into debt service than was budgeted. The Marine Park had more revenue than expenses. Mr. Dudek said he found that excess revenue was transferred to road fund balance, and after speaking with Mary Basinait, arrangements were made for the funds to be transferred to debt service. Mr. Dudek also reported that the County has received an improper practice charge from the CSEA regarding the ID badges.

Chairman Vick said he has received several communications from other Chief Elected Officials in other counties, and NYSAC, in opposition to the Governor's proposed budget. Chairman Vick said there will be an article forthcoming in the Medina Journal-Register regarding this. He said if this budget is passed, it will put a 6% real property tax increase on the county taxpayers, with no increase in services. Chairman Vick said it is time for us, as local taxpayers, to take a good hard look at what is going on in Albany. He said there has been a trend to force more of these programs on the county as state mandates with no funding to pay for them.

During the open discussion portion of the meeting, Legislator Schaal stated that he was withdrawing the resolution adopting Local Law No. 2 of 1989, regarding political activity of appointed officials and appointed employees. Legislator Schaal withdrew the resolution because of input at the Public Hearing preceding this Legislature Meeting. Legislator Schaal said he intends to develop a more extensive, comprehensive ethics law. Chairman Vick explained to those members of the public that were present at the Legislature Meeting, that this issue would have to be presented again in the form of a resolution, and if it dealt with a local law different than what was presented this evening, there would have to be another public hearing for the new local law.

Chairman Vick said he had a telephone conversation with Jim Wesp, Administrator of the Medina Hospital, who has said that he is concerned that there is not a lot of communication between the Arnold Gregory Memorial Hospital Board and the community, and more information is needed than the residents are aware of. Mr. Wesp said that the residents do not understand the financial plight, and simply raising more money to pay the debt will not solve the problem; patients also need to be provided for the facility. Chairman Vick said he told Mr. Wesp of the Legislature's decision to invite Mr. Wesp to the March 1 Conference Session, and that the Legislature intends to discuss the drug and alcohol abuse program situation.

The following resolutions were presented:

WHEREAS, the Solid Waste Management Act of 1988 mandates municipalities to adopt by September 1, 1992 local laws that require source separation of solid waste into recyclable components, and the New York State Solid Waste Management Plan identified a hierarchy of solid waste management programs, including the need both now and in the future for waste reduction, reuse and recycling, energy recovery and landfilling; and

RECONVENED LEGISLATURE MEETING
March 15, 1989

The Chairman reconvened the meeting at 4:00 p.m. All Legislators were present, with the exception of Legislator Billings, who was excused.

A resolution appointing the Probation Director was introduced by Legislator Berger, seconded by Legislator McMurray. After presentation of the resolution, a motion was made by Legislator McMurray, seconded by Legislator Schaal, to unanimously adopt this resolution. The following resolution was then adopted:

RESOLUTION NO. 139-389

By Legislator Berger, who moved the adoption.

Seconded by Legislator McMurray

RESOLUTION APPOINTING PROBATION DIRECTOR

BE IT RESOLVED, that Edward Fischer is hereby appointed to the position of Director of Probation effective April 1, 1989 at Grade 5, step 5, of the Management Compensation Plan, at a salary of \$31,276, and be it further

RESOLVED, that after completing a six-month probationary period, and receiving a satisfactory evaluation as provided by the Management Compensation Plan, Mr. Fischer will be placed in Grade 5, step 6, at a salary of \$32,159.00.

Unanimously adopted.

During the open discussion portion of the meeting there was discussion regarding Lifeline funds. Legislator Swiercznski said a separate checking account would be established for these funds, so they would not be co-mingled with the hospital's general fund. Chairman Vick said Norris Webster should write a letter to Arnold Gregory, advising them that we are aware that the \$1969.00 of Lifeline funds has been co-mingled with the hospital's general fund. That money is due and returnable to the Lifeline Program.

Chairman Vick read a letter that he received from the County Clerk regarding use of space at the County Clerk's Office. This is regarding the space in the courthouse that will be vacated by the District

Attorney, and the possibility of moving the Court Clerk and her secretary into that building. Legislator Schaal suggested that this be discussed with Judge Miles.

At this time, Legislator Berger moved to waive the rules and present the following resolution:

RESOLUTION NO. 140-389

By Legislator Berger, who moved the adoption.

Seconded by Legislator Schaal

RESOLUTION RESCINDING RESOLUTION NUMBER 133-389

WHEREAS, resolution number 133-389 abolished the position of Senior Public Health Technician in the Orleans County Health Department, because of the inability to recruit a qualified person, and

WHEREAS, a qualified person has since been located to fill the position of Senior Public Health Technician, now therefore, be it

RESOLVED, that resolution number 133-389 be and hereby is rescinded.

Adopted. 6 ayes; 0 nays; 1 absent, Legislator Billings.

During further discussion, there was mention of coroners services having been performed in Erie County, rather than Monroe County, which is the County we have the agreement with. Legislator Berger said that the District Attorney has indicated that he is more satisfied with Monroe County's services now and plans on using them for future needs.

Carol Blake was asked to come in to discuss the Lifeline funds situation. Legislator Swiercznski asked Mrs. Blake why the separate checking account was not set up immediately. Mrs. Blake said, Arnold Gregory hospital has the legal responsibility for the equipment. She said she has spoken with Jim Wesp today and he will set up the account tomorrow. It will be a separate account for Lifeline funds, but still in Arnold Gregory Hospital's name. Mrs. Blake indicated that the Lifeline Program should not be within the Office for the Aging, because that office cannot charge client fees. Mr. Webster indicated that if the name on the account is something other than Arnold Gregory Memorial Hospital, he thinks the money should be saved from bankruptcy proceedings. Chairman Vick asked, can't Carrie be the keeper of that checkbook? It was agreed that Norris Webster and

Carol Blake would discuss this further and decide the best way to handle it. Mrs. Blake will also speak with Jim Wesp tomorrow morning.

Chairman Vick read a letter from COVA regarding a meeting that COVA would like to have with the Legislature and Town and Village officials regarding Self-Insurance, EMS Council, monetary support and the Mutual Aid System. It was decided that this meeting will take place on March 29 at 7:30 p.m. in the Legislature Chambers. Jack McCarthy, Sandra Bower, David Green and David Schubel will also be invited to this meeting

There was brief discussion regarding the reimbursement rate declining at the Nursing Home.

Chairman Vick read a letter that was written to Jack McCarthy by Mayor Sacco, regarding a meeting that had been held on March 13 by the Central County Task Force about the Arnold Gregory Memorial Hospital closing. Mayor Sacco stressed the importance of having a meeting regarding emergency medical services, and he is asking Mr. McCarthy to arrange such a meeting. Chairman Vick turned this over to Legislator Berger, and requested that he contact Mr. McCarthy regarding this.

Legislator Swiercznski made a motion to waive the rules to present a resolution regarding obtaining information on applicants applying for County employment. This was seconded by Legislator Bennett. The following resolution was presented:

Chairman Vick said that his appointees to the Feasibility Task Group regarding an Orleans County Medical Center will be Mr. Zimmerman, Mr. Horn and Mr. Clow.

Legislator Bennett made a motion to adjourn the meeting. Seconded by Legislator Berger.

Meeting adjourned at 5:25 p.m.

LEGISLATURE MEETING

March 22, 1989

The meeting was called to order by Chairman Vick at 7:30 p.m. After the pledge to the flag, the Clerk called the roll, and all Legislators with the exception of Legislator McMurray, were present. Legislator McMurray was excused because of illness.

The Clerk presented the following communications: a copy of the March 14th meeting minutes of the Orleans County Soil and Water Conservation District Board; a copy of the meeting minutes from the February 23rd meeting of the County Planning Board, along with notification that their next meeting is scheduled for March 23rd in Conference Room A-B at the County Office Building; a copy of the 1988 audit report of the Genesee/Finger Lakes Regional Planning Council finances;

A copy of a resolution for a public hearing on Amendment of Zoning Ordinance and the proposed resolution and text of proposed amendment, all from the Town of Clarendon; notification of a meeting pertaining to Solid Waste to be held in Binghamton, and sponsored by the Broome County Cooperative Extension;

A letter from the Town of Ridgeway appointing Russell Rau as their town's representative on the County Planning Board; also a letter from the Town of Yates appointing Louis Salen as their town's alternate representative to the County Planning Board.

Report from Standing Committees: Legislator Bennett recommended referring Mr. Salen's appointment to the Ethics Committee, noting that he was involved with the County IDA, as well as serving as the County's Economic Development Coordinator. Legislator Billings stated he had nothing new to report.

Legislator Berger reported that the Sheriff would be in to speak to the Board in regard to the Third Investigator position for his department. Mr. Berger reported attending the Town of Yates Board meeting on March 9th; the Village of Lyndonville and Town of Ridgeway Board meetings on March 13th; the Soil and Water Conservation District Board and the Village of Medina Board meetings on March 14th; the DWI meeting on March 20th. Mr. Berger reported he had met with the Acting Director of Probation, Mike Dreyfus, and with the newly appointed Director of Probation, Ed Fischer,

this morning, and that everything was arranged. Mr. Fischer is prepared and ready to begin his duties. A letter was sent out regarding the meeting with COVA, scheduled for March 29th, in the Legislature Chambers.

Legislator McMurray reported that a favorable response regarding the property directly south of the County Treasurer's office, and the purchase offer had been forwarded to the owner. With regard to the property located on the corner of West Avenue and West Academy Street, the Village of Albion has accepted the County's purchase offer. Their attorney is to send survey and abstract that they are to provide; as yet the County Attorney doesn't have the necessary papers to examine for title of the property.

Legislator Swiercznski reported attending the usual committee and department head meetings.

Legislator Schaal reported that the Civil Service corrective measure regarding probationary periods had been forwarded to Albany, and the Civil Service Department is awaiting a reply. In regard to the Bridge Accounting, Mr. Schaal stated that "we will have a running account as to where we stand with bridge accounts, on a monthly basis.". Mr. Schaal informed the Board that the Self Insurance Committee will be having monthly meetings. The request from Rides of Niagara Company to be allowed to purchase gas from the Highway Department Fuel Farm was on the agenda to be approved by resolution.

Legislator Bennett reported that host fee figures were being worked on, and that a report to the Legislature would be forthcoming. Mr. Bennett attended the KYC meeting. There were two people from the state who did a good job explaining where the Waterfront Committee stands, and what we as a committee will be doing. As yet, the Towns of Yates and Carlton have not appointed their representatives to the Committee, and when they do, an official meeting will be held. There is still some money available to complete that project. Mr. Bennett attended the Sportsmen's Federation meeting, and there are still some complaints regarding the method in which the County forwards the money (appropriated for them in the County budget) to their organization - they can't understand why it goes through the Tourism Department.

Chief Administrative Officer Stan Dudek reported the steel for the roof of the new Mental Health Services Building is expected to be 30 days late, noting that it will set the project back some. The problem is with the supplier of steel - it will be about one month late. A.V. Lombard is also complaining - they are trying to get the walls ready for the steel.

Mr. Dudek requested a Finance and Administration Committee Meeting regarding the Management Compensation Plan. A determination has to be made as to who is entitled to compensatory time and who is not entitled. An individual from the Fair Labor Standards Board went over all positions in the Management Compensation Plan, and came up with a list. Mr. Dudek felt that the Finance and Administration Committee should meet and put something together in the way of recommendations to the Board, so that a policy can be adopted regarding compensatory time.

Chairman Vick informed the Board about a meeting of mid-management employees only, to discuss how their positions are handled. Apparently some felt they should be treated a little differently than other employees in the Management Compensation Plan. Legislator Berger felt it important to try and find out if there were concerns that needed to be addressed.

With regard to the Bridge at Two Bridges, Legislator Schaal stated that bids had been let for both concrete work and the bridge itself. Mr. Schaal did not have a completion date, although he felt that it shouldn't be any longer than May before the bridge was in place. The Highway Department is proceeding as quickly as possible on the project.

By consensus opinion, the Chairman was authorized to allow Nixon Hargrave, Devans and Doyle to negotiate the final release form, excluding any release for the Workmen's Compensation claim.

The meeting was recessed at 5:15 p.m.

RECONVENED LEGISLATURE MEETING
March 29, 1989

The meeting was reconvened by the Chairman at 7:40 p.m. Present were three representatives from Central Orleans Volunteer Ambulance, Inc., several representatives of the Albion, Holley, Clarendon, Lyndonville, Carlton and Barre Fire Departments, representatives from the Towns of Albion, Barre and Carlton, representatives from the Villages of Albion and Medina, the Orleans County Sheriff, the Orleans County Fire Coordinator, the Administrator and Director of Nursing from the Orleans County Nursing Home, the Administrator of Medina Memorial Hospital and the Administrator of the County Personnel and Self Insurance Department, and the Attorney for the County Self Insurance Program.

The meeting had been called in order to meet with all the agencies previously mentioned to discuss concerns that COVA has regarding its goals for servicing the central area of the County. COVA presented a hand-out containing its long-range goals, and questions that were directed to the Towns, Village, County and EMS personnel in general. A copy is listed below.

Central Orleans Volunteer
AMBULANCE SERVICE INC.
P.O. BOX 145 ALBION, NEW YORK 14411

MARCH 9, 1989

To Whom It May Concern:

The following are the long range goals of COVA.

- 1) Have a County wide crew membership drive
- 2) Formation of a County wide training center with COVA as the coordinating institution offering the following classes:
 - A) Advanced First Aid
 - B) First Responder and Refresher
 - C) Basic Emt and Refresher
 - D) Advanced EMT2-4 and Refresher
 - E) Paramedic and Refresher

- 3) Run EMT2 personnel on COVA's ambulances by 1990
- 4) Set up an AEMT car system for Orleans County by 1991
- 5) Purchase 1 or 2 ambulances
- 6) Establish a more coordinated back up pager system (possibly with COVA's own dispatch center at our base).

With the previous support of the communities, COVA feels that these goals will be able to be met.

The following are questions to the Legislature, Towns and other EMS persons:

- 1) Request to be added to the Mutual Aid System of Orleans County
- 2) Request to be added to County Self-Insurance Plan of Orleans County and does this include Workman's Compensation
- 3) Like to see a more active Local EMS Council with meetings according to it's By-Laws and Constitution
- 4) Any monetary support from the Townships served by COVA

COVA would like to be added to the County Self-Insurance Program. Legislator Schaal asked if it would be possible for COVA to be included in the Self Insurance Program. Self Insurance Attorney David Schubel, stated that COVA and/or any volunteers could be brought into the County Self Insurance Plan. If the organization contracts with the municipality/municipalities they cover then the municipality board would have to agree to include the volunteer organization in the Self Insurance Plan. If this is done, the County would have to enact a Local Law to amend the present Self Insurance Plan to provide coverage to COVA or to the volunteer ambulance corps. Mr. Schubel said this should be done by August 1, 1989, in order to provide coverage for the following year.

As to whether or not, Self Insurance assessments would increase, if COVA were to be included, Mr. Schubel said more information would be needed as to the number of claims incurred by COVA since its existence. If COVA were to be accepted for the Self Insurance Program, any incident would be charged to the town COVA was responding in. The Legislature would have to set the policy. Thirty percent of the Self Insurance Program is based upon experience rating, and seventy percent based upon assessment. Mr. Schubel commented that towns not utilizing the ambulance service would in a sense, be subsidizing the service.

The recommendation was made that COVA request their attorney, Lance Mark, contact County Attorney Norris Webster and Self Insurance Attorney David Schubel regarding COVA's inclusion in the County Self Insurance Program.

There was discussion on allowing COVA to be included in the County's Mutual Aid System. Several of the representatives from the various fire departments were not in favor of this. A representative from the Village of Medina stated that the three towns - Shelby, Ridgeway and Yates -, the Village of Medina, and the Medina Memorial Hospital contract with LaSalle Ambulance - funds are provided in their budgets for LaSalle. Mr. Kennedy felt that if COVA was granted Mutual Aid status then the village would be required to provide back-up to COVA, when they are already providing back-up to their own paid ambulance service - LaSalle. Legislator Bennett suggested that the fire departments and towns should get together and discuss this problem. It was also suggested that this should be discussed at the EMS Council meeting.

Chairman Vick read resolution No. 238, adopted by the Board of Supervisors on July 12, 1979, which created and stated the purpose of the EMS Council. He also asked if a different organization was needed to discuss problems of this nature, if the EMS Council was not able to handle these problems. Mr. McCarthy said that the next meeting for the EMS Council would be held on April 7, at 7:30 p.m.

Mr. Vick requested that Mr. McCarthy call a meeting of the EMS Council and invite the Towns of Albion, Barre, Carlton, Gaines and the Village of Albion to that meeting for the sole purpose of discussing how to solve these problems pertaining to ambulance coverage for the central section of the County. He also suggested that legal council capable of discussing Self Insurance and the mutual aid question be present. Mr. Vick said he would expect recommendations to the Legislature regarding these matters by April 26, 1989 - the date for the second regularly scheduled meeting of the Legislature.

It was noted that there would be a meeting on April 3rd at the Village Hall - Task Force meeting.

Motion by Legislator Bennett, with second by Legislator Schaal, to adjourn the meeting. Motion

carried.

Meeting adjourned at 9:20 p.m.

LEGISLATURE MEETING
April 12, 1989

The meeting was called to order at 7:30 p.m. by the Chairman. After the pledge to the flag, the Clerk called the roll, and all legislators, with the exception of Legislator Billings, were present. Legislator Billings was excused.

The Clerk presented the following communications: Notice of the April 19th meeting of the Inter-County Association of Western New York; thank you cards from the families of Thomas Smith and Raynor Boyce, Sr. for the expression of sympathy sent by the Legislature; a letter inviting the members of the Legislature to attend a luncheon sponsored by the Ladies Auxiliary of the Firemen's Association of the State of New York; the board minutes the the February 23rd meeting of Western Regional OTB; a letter from the Village of Lyndonville requesting their water treatment plant be exempt from the 1989 County taxes.

Jack McCarthy was given privilege of the floor. Mr. McCarthy is the Director of the Office of Disaster Preparedness and also the Orleans County Fire Coordinator. Mr. McCarthy spoke to the Board regarding the need for volunteer firemen and ambulance people to receive injections against the Hepatitis B virus. He explained that the volunteers are still susceptible to the virus, even if they wear gloves and goggles. It is estimated that approximately 400 volunteers in Orleans County would require the injections. The vaccine is given in a series of three injections over a six-month period of time, and costs \$145.00 per person. The total cost for such a project would be approximately \$34,800.00. Legislator Schaal suggested sending out a survey to all fire departments and emergency squads, requesting which people would be affected and would need the injections - the actual numbers are needed. Then it would be necessary to get back with the Self Insurance Committee for discussion, and from there go back to the Towns to see if local officials want to pick up the cost. Mr. Schaal said the Self Insurance Committee would be having its first meeting on Monday, and this problem could be discussed at that time. Mr. McCarthy said that the State is recommending these injections. Mr. Schaal reiterated his proposal for Mr. McCarthy to initiate a survey, and get back to the Legislature with names, numbers and office or position of the individuals requiring the injections. Mr. McCarthy said he would put it in his newsletter the first of the month - it would take 30 days.

Report of Standing Committees: Legislator Berger reported attending his usual meetings. March 30, attended meeting at CD Center, attended the Soil and Water meeting in Batavia and attended another Soil and Water meeting with Legislator Bennett.

Legislator McMurray stated that a resolution relocating the office of the Court Clerk would be on the agenda for the next meeting. The acquisition of parking space was discussed at the Conference Session.

Legislator Swiercznski noted that each Legislator had received a copy of a letter written by George Hinterbichler in reply to a letter that appeared in the Medina Journal Register regarding Social Services Department. He also noted that the Lifeline program had been discussed during the Conference Session. Mr. Swiercznski announced that Social Services Commissioner Patricia Hardenbrook was in the hospital, and that Bill Kennedy, a former member of the Board of Supervisors had passed away.

Legislator Schaal requested time at the next Conference Session to discuss upgrades. Also informed the Board that they would be receiving Capital Project-Bridge Accounting reports on a monthly basis. Mr. Schaal announced that the first meeting of the Self Insurance Committee would be held on Monday evening, April 17th at 7:30 p.m.

Legislator Bennett reported that Wayne Hale and Norris Webster had put together figures on Host Fees and were continuing to work on that project. With regard to the IDA Administration Structure, Mr. Bennett said a meeting of the Committee (Legislators Bennett and McMurray, Board Chairman Vick and two members of the IDA Board) will be held on May 3rd to discuss this. The Great Lakes Coach Lines was discussed in Conference Session. Mr. Bennett stated that the resolution on the evening agenda regarding the ramp on the East side at Point Breeze will be withdrawn, commenting that the ramp will be open and remain free; that repairs are being done. With regard to the Seaway Trail, Mr. Bennett said that funding had been cut from the budget. However, a grant is available, and Tourism Director Don White is to speak to his Board and have them come up with a plan - do the paper work, etc. They will get back to the Board on that. With regard to HUD and Section 8 Housing Project, Mr. Bennett explained that that Department had been authorized 35 additional units, making the total number of units he has charge of 250. There will be an additional \$135,000 coming into the County with the new program. Mr. Bennett said that because of the added responsibility, Mr. Ward has started procedures to upgrade the Clerk position in his office. More

information on that will be forthcoming at a later date.

Mr. Dudek, Chief Administrative Officer, reported that the estimated cost to demolish the house on the Platt Street property, directly south of the Treasurer's Office, is \$3200.00. The County Highway Superintendent is going to put together figures on cost involved in making it into a parking lot. He has also made arrangements for a demolition and debris site to take it.

With regard to compensatory time, Mr. Dudek noted that there are inconsistencies in the way "comp" time is handled for people on the Management Compensation Plan. He is currently in the process of getting information to see how many people are getting "comp" time, etc. A report will be given to the Legislature when all the information is compiled.

Mr. Dudek said he had met with Department Heads and communicated with them in the newsletter, doing a question and answer type of thing, to see that everyone applies the terms of the contract, to see how they are affected. We have gone over all revisions of the contract. But, first part of next week we will have a standardized grievance form that will carry all steps on one form.

Mr. Dudek also said that the State has a new program called "Critical Drivers' Program. You can send the State driver's license numbers, and they will monitor the drivers on their computer.

With regard to the Capital Budget, Mr. Dudek said he had met with Wayne Hale and Legislator Schaal, and Legislator Schaal had met with the County Treasurer. Forms have been prepared and distributed to all departments. Planning will circulate the forms and verify them, and then the forms will be given to Mr. Dudek, who in turn will put them together and report back to the Board.

County Attorney Norris Webster stated he had contacted Lou Salen with regard to his proposed appointment as alternate to the County Planning Board. Mr. Salen stated he had no vote on the IDA Board - he just a director/assistant as far as the IDA is concerned. With regard to the zoning laws, the IDA can disregard a zoning law. Mr. Webster said he felt that Mr. Salen was correct, and did not see any need to refer the matter to the Ethics Committee. If the Legislature wishes to have Mr. Salen on the County Planning Board, Mr. Webster felt there was no problem with it. Chairman Vick polled the Board with regard to Mr. Salen's appointment, and there were five

legislators agreeing to go ahead with the appointment, and one legislator feeling that it should be referred to the Ethics Committee. Mr. Salen's appointment will be placed on the agenda at a later meeting.

During the open discussion portion of the meeting, Councilman Sharon Narburgh, from the Town of Carlton commented that the Marsh Creek Road Bridge is all the way across the river now - really looks good. Legislator Schaal said, "We have fulfilled the promise we made to the people in that area - the bridge is across."

The following resolutions were presented:

After the adoption of the above resolution, Mr. Dudek stated that he had discussed this move with Judge Miles, and he did not have a problem with this arrangement, although he did express concern as to how records would be transferred from the County Clerk to the Court House.

Mr. Dudek spoke to the Board regarding the distribution of surplus food in Orleans County. Community Action, the agency who has handled this previously, has said they will not be getting reimbursement as they have in the past, and will not be able to distribute this surplus food unless they get some assistance. They would be willing to continue with the distribution, if the County would help with the cost - normally, it costs about \$2,000.00 to distribute the food. Mr. Dudek stated he would be receiving more information from Albany regarding the reason for the changes; that it isn't a New York State decision, but a federal decision. Originally, it was designated by this Legislature for Community Action to handle the surplus food distribution. Mr. Dudek noted that the County has never given any funds to Community Action for this project. Legislator Swiercznski suggested that Mr. Pulley, who is the director of Orleans County's Community Action, attend the next Conference Session to discuss this project. The other members of the Board agreed to this, and Mr. Pulley will be scheduled to meet with the Board at that time.

Route 31
Albion, NY 14111

Dear Mr. Pease :

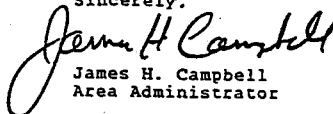

I hereby authorize Orleans County Nursing Home to admit five skilled nursing care residents from Arnold Gregory Memorial Hospital SNF in excess of the Orleans County Nursing Home certified bed capacity. This is being done because Arnold Gregory Memorial Hospital SNF is expected to close on May 21, 1989.

It is expected that when beds open up at your facility, the residents now being admitted from Arnold Gregory Memorial Hospital SNF will be absorbed into your normal resident population and, therefore, other admissions will be held in abeyance until these SNF residents are placed in normal resident rooms.

You are authorized to bill for the patient days generated by this overbedded situation, in excess of your certified bed capacity. These excess days will not be used in future rate calculations to put the facility's annual census over one-hundred percent of capacity when used in the rate calculation.

If you have any questions about this, please call me at 847-4320.

Sincerely,

James H. Campbell

Mr. Fiorito asked if there was any set policy as to how the Chairman makes his appointments. Mr. Vick explained that if a position is filled by appointment of the Chairman of the Legislature, the appointment is made at the beginning of the year. Mr. Vick noted that since he (Mr. Vick) was Chairman of the Legislature the previous year, and had been elected Chairman of the Legislature this year (a continuous term), it was not necessary to reappoint Mr. McCarthy; his appointment continued automatically. However, if someone else had been elected Chairman of the Legislature at the Organizational Meeting, then the new Chairman would make his appointment to that position. Mr. Vick said, "I want to assure you there is no reason for this Legislature to ignore you. We need to seek your opinions. There was an Executive Session here on Monday afternoon with Mr. McCarthy, to discuss certain problems with that office. At that time, I told him I would deliberate and make a decision as to what my actions were going to be. This morning I talked with Paul Wagner and had him talk with the other Coordinators to make sure the office would be covered. Knowing what I was going to do, I had to make arrangements to fill this position. A resolution needed to be adopted by the Legislature to create a temporary Full-time Director of Civil Defense position and provide funding for that position. This was done earlier this evening. The position was unfilled for 10 hours. I needed authorization to fund a temporary individual."

Mr. Fiorito commented that the Fire Advisory Board felt that the Legislature was not responsive to their needs. Mr. Vick said, "Any time the Board wished to be heard by the Legislature, there are three methods to use:

through the Legislator appointed to your Board; through the Temporary Coordinator or by calling the Legislature Office or me at anytime at my home or business. I will see to it your concern is addressed, if I know about it. I have received one communication from your organization, and that was recommending Jack McCarthy. There was nothing to respond to. You are going to have an opportunity to set down and tell me how you feel and who you feel the coordinator should be. There are other ramifications that affect this."

Mr. Clark spoke to the Board and said "Here's the situation. ... comes to me and states the County needs a Coordinator-Disaster man. I thought I could do it. I have been in fire service. We have people to protect and property. We also don't have a coordinator right now. Together we can do it. I can't do it without your help." Mr. Fiorito said the Fire Advisory Board was satisfied with Mr. Clark, that their main concern was that they had no input regarding the job situation.

Legislator Schaal said he had discussed the situation with Mr. Vick. Their main concern was that the position be filled as soon as possible and that the individual would be fire oriented. Mr. Schaal said he felt that the Legislature should revise that office, since the fire service was always complaining and virtually had no input. They had discussed the possibility of separating the Fire Coordinator position from the Civil Defense Director position; and that now might be a good time to work something out. Make the Fire Coordinator position one that is appointed by the fire services; possibly a two or four-year position. That is the reason Mr. Vick appointed a temporary individual - there will be more candidates, more revisions.

Mr. Vick asked if there were any more comments from the Fire Advisory Board. Mr. Fiorito asked if Mr. Vick would discuss the three charges pertaining to Mr. McCarthy's dismissal. Mr. Vick said he could not discuss them, and only could do so if Mr. McCarthy, himself, made them public. If that happened, then he (Mr. Vick) could discuss the charges with the Fire Advisory Board. Mr. Vick told the Board that the permanent position could remain vacant anywhere from four weeks or until the first of the year; that five individuals had expressed an interest in the position.

Mr. Fiorito said, "...the Fire Service will no longer be sitting in the back...we will be knocking on the door," and thanked the Legislature for listening to their concerns.

Chairman Vick recessed the meeting at 8:50 p.m. and reconvened at 8:55 p.m.

Mr. Jack Zimmerman of Medina, New York, who is a member of the Medical Task Force Committee, was given the privilege of the floor. Mr. Zimmerman explained that during the afternoon Conference Session, Curtis Lyman (AGMH Board Member) had proposed to the Legislature that the County finance operations at the Arnold Gregory Memorial Hospital extended care unit until the end of June, which would allow time for the Legislature to investigate the possibility of purchasing the facility. Mr. Zimmerman said that the County had two options:

(1) to go along with Mr. Lyman's request. If that is decided upon, it will be necessary to obtain all financial information pertaining to the facility, also administration requirements and license requirements.

(2) to have the bankruptcy continue and bid on the building. If you could purchase the building, make a decision to use as a nursing home, school or college.

Legislator Billings stated he wouldn't support the Legislature putting the County into any more bonded indebtedness; that if the County put 60 beds in there, the first floor would still be unused. Mr. Billings said the Task Force will be working on the overall picture in the County. Legislator Swiercznski agreed, saying that the County cannot take the debt that is there, that there was no sense in prolonging their hope.

Chairman Vick summed the situation up on behalf of the Legislature by saying, "It would seem to me that the position of this Board and the members of the Advisory Task Force who are here, seems to indicate that because of the financial conditions and situation in hand, and the lateness in the hour we have been approached on this issue, that we find ourselves in the position of wanting to help but not being able to help, when we take into consideration the needs of the constituents and taxpayers across the County."

It was decided to have Mr. Zimmerman look over the financial report from Arnold Gregory and report back to the Legislature, through Legislator Billings. Chairman Vick will call Mr. Lyman and tell him of the Legislature's decision.

Motion by Legislator Swiercznski, with second by Legislator Billings, to recess the meeting subject to recall by the Chairman. Motion carried.

Meeting recessed at 9:15 p.m.

LEGISLATURE MEETING
May 24, 1989

The meeting was called to order by the Chairman at 7:30 p.m. After the pledge to the flag, the Clerk called the roll and all Legislators were present.

The following communications were presented: Notification from the NYS Dept. of State that Local Law No. 2 had been filed; a thank you note for the flowers sent upon the death of John D. Pratt, Sr.; requests from the Yates Town Board, the Yates Town Planning Board and from the Village of Lyndonville for an extension on the proposed Agricultural District No. 10 in the Town of Yates and portions of the Town of Ridgeway; the minutes from the May 9th meeting of the Orleans Count Soil & Water Conservation District Board.

In reference to the letters regarding the Ag District, the Clerk was instructed to send letters and arrange for a conference session to be held on May 31st to discuss the requests of the Yates Planning Board, the Town Board and the Village Board with the people who submitted the petitions for the Ag District.

Report of Standing Committees: Legislator Billings said the he is planning to call a meeting of the Medical Task Force on June 8th. The Health Department has been notified that they have to have a fully licensed engineer on board by October. Mrs. Johnson, the Health Department Administrator, will be at the June 14th conference session to discuss this. Mr. Billings said that Dr. Chenelly, Community Services Department Director is having problems with the Alcoholism Program, noting that one license can be transferred without any problems, but that he hoped to have it resolved shortly. Mr. Billings also commented that Dr. Fernandez has committed himself with Park Ridge, if they decide to locate in this area.

Legislator Berger reported attending the following meetings: April 28th - 4-H Clothing Judge; May 8th - Lyndonville and Ridgeway Board Meetings; May 9th - Orleans County Soil and Water Conservation District Board meeting; May 11th - Yates Town Board meeting; May 15th - Fire Chief's Association meeting; May 16th - EMS meeting; May 17th - Extension interview; May 22nd - Fire Advisory Board Meeting; May 23rd - Medina Board meeting.

Legislator McMurray said that a resolution will be prepared for the June 14th meeting authorizing the bidding for the demolition of the county-owned property directly south of Central Hall. Mr. McMurray requested that the "gasoline levy" be removed from the agenda, and said he would like to go on record as being against a 5

cent tax increase, and send notification to the State to get on with creating a Designated Road Fund for the purpose of building roads and bridges in New York.

Legislator Swiercznski reported attending regular meetings with his departments; also that he attended the dinner at the Nursing Home. Mr. Swiercznski inquired as to whether or not Mr. Dudek had heard anything from the Union regarding drug testing for certain County employees. Mr. Dudek commented that the County did have such a proposal in the contract, but was unsuccessful in getting the language included; that without the language in the contract, the County would be unable to test union employees. Acting County Attorney, Norris Webster stated that in discussing this with other people, he felt the way to handle it was through the laws currently in place. If an employee is using drugs, and it is known that he or she is doing so, and can be proved, then that employee should be dealt with under existing laws.

Legislator Bennett stated, in reference to Host Fees, that he would wait until one more meeting, before the proposed resolution goes into effect. Mr. Bennett said he had met with the Town Supervisors regarding Self Insurance, and discussed with them the possibility of raising the Reserve Account up to \$600,000.00 in 1990 and have the amount increased up to \$1,000,000.00 by 1995. They were very receptive to this proposal. The Self Insurance attorney is looking into getting a rider to limit the County's liability. Mr. Bennett said the Supervisors requested a monthly of all new claimants, and the Self Insurance office will be mailing these out to the Towns. Legislator Schaal commented that the Supervisors want a breakdown-highway, public works, fire companies - so they can see where their liabilities lie. Mr. Schaal announced that the County auction offered a net gain of \$33,389.68. He also presented, by percentages, a breakdown of each department in the County, dispersing loss of revenue sharing in the amount of \$236,250.00. The finance committee will be meeting on June 7th to develop some kind of plan of action to see how the County is going to handle this loss of revenue. The County Treasurer also presented a breakdown of collected and uncollected taxes for 1989. With regard to the Financial Policy, Mr. Schaal said he would be meeting with Mr. Dudek in the near future to form a policy, and noted that on June 7th, the Capital Budget Committee will also be meeting.

Mr. Dudek said he had received a call from Dr. Niak regarding the use of the Commissioner's House. Dr. Niak is only using the House one-half day a week, and would like to sublet it to another doctor for one day a week. Mr. Dudek felt it was something the Board should consider

since there is a doctor shortage in the County.

Acting County Attorney Norris Webster said he had a proceeding going in bankruptcy court to have the Court direct that materials regarding Drug Abuse and Alcoholism Programs be turned over to the County. The Court has appointed a trustee from Batavia, and the hearing is adjourned until next week at two o'clock in the afternoon. Mr. Webster said he didn't know how to judge what the outcome might be.

During the open portion of the meeting, George Callard from the Town of Carlton commented that he had seen the new bridge, and felt that the County Highway Department had done a fine job. He also noted that the little bridge on Marsh Creek and the one over Sawyer Road were built by his father in the 20's.

June 14, 1989

The meeting was called to order by Chairman Vick at 7:30 p.m. After the pledge to the flag, the Clerk called the roll, and all Legislators were present.

The Clerk presented the following communications: Notification of the June 22nd meeting of the Inter-County Association of Western New York; a thank you note from Legislator and Mrs. Richard Bennett for the memorial sent upon the death of Mrs. Bennett's mother; a request from the Village of Lyndonville mayor to delay County action on proposed Ag District No. 10 in the Town of Yates for one year; a resolution from the Town Board of Yates asking the County to exclude setbacks along certain roads within proposed Ag District No. 10; a letter from NYS DEC regarding the Coastal Erosion Hazard Areas Act as it pertains to Orleans County; a request from the Carlton Town Board to create a "No Parking Zone" along Oak Orchard River Road near the intersection with Route 279; announced that a copy of the Report of Examination of the County of Orleans from the NYS Comptroller's Office is on had been received.

Two change proposals from Penfield Electric, Inc.; one approving additional cost to change specified metal halide pole lighting to high pressure sodium (to match existing); and the other covers Niagara Mohawk price increase for the installation of the primary service.

A letter from Assemblyman Hawley and the Governor's office acknowledging receipt of resolution No. 218-589 regarding a regional feasibility study for state veterans nursing home in western New York; April 27th Board meeting minutes from Western Regional OTB Corporation.

Notification from NYS Agriculture and Markets that Orleans County Agricultural District No. 6 is coming up for an 8-year review.

Report of Standing Committees: Legislator Billings explained that the Health Department Engineer position had been discussed at the Conference Session. There are on-going discussions with Park Ridge in regard to the Substance and Alcohol Program contracts. Mr. Billings stated that the Medical Task Force Committee had met, but has taken no action. In regard to the Health Department Engineer, Mrs. Johnson, the Administrator of the Health Department stated that as yet, the engineer had not signed up for his test - he was to apply for the test at the time of his employment.

Legislator Berger attended the adjourned meeting on

May 31st; the LEPC Meeting on June 5th; attended the Jail Ministries Luncheon with Sheriff Green on June 6th; attended the Lyndonville and Ridgeway Board Meetings on June 12th and attended the Soil and Water Conservation District Board meeting, and audited bills on June 13th. Mr. Berger said the Mr. Clark would be in to update the Board since taking over the duties of the CD Director.

Legislator McMurray reported attending regular meetings with his department heads, as did Legislator Swiercznski. Mr. Swiercznski also stated that bids would be let on the smoke alarm system at the Nursing Home.

Legislator Bennett reported that another letter had been received from Great Lakes Coach, saying they still intend to apply. With regard to the Host Fees, Mr. Bennett said that Planning has not received any communications from OSL; they did pave Transit Road. The Solid Waste Committee is going to have a meeting to decide what action should be taken, and until that time the resolution opposing OSL's permit application would remain tabled.

Legislator Schaal reported that the Committee is working on the financial policy. With regard to the capital budget, Mr. Schaal said the Committee is meeting next Wednesday, and a presentation would be made to the Legislature on the 28th.

Chief Administrative Officer Stan Dudek reported he had heard nothing from Dr. Niak with regard to subleasing the Commissioner's House. With reference to the grade level at the Mental Health Services Building, Mr. Dudek said Lozier had received a proposal from Lombard with cost to be \$21,017.00 to redo the grade, to make up the 1 ft. discrepancy. As yet, Mr. Dudek has not had a letter from Lozier stating what they consider their obligation.

Mr. Dudek reported that he, David Albanese of the Highway Department, and an inspector from Niagara Mohawk had met to discuss how to handle shore power at the Marine Park. Currently, there is not enough capacity with the transformer there. We have agreed to put on new three phase service. Provide power (1) to the docks, (2) to the fish cleaning station and (3) to the building. Carl Tuohy had submitted a proposal for this project, since the design for the electric for the docks was not in the contract. Mr. Tuohy's proposal is to prepare design specifications, review bids, decide on the selection of the successful bidder and supervise installation work for a total cost of \$2100.00. The Board felt this was a reasonable cost and told Mr. Dudek to prepare a resolution to this affect for the June 28th Legislature Meeting. Mr. Dudek stated that now, this

information has to be sent in to Parks and Recreation, noting that the same forms that pertain to an historical district project, now have to be filled out for the Park. Mr. Dudek noted that information had been received on the \$60,000 line item in the State budget for '89, and that it probably would be close to two years before it is received.

Acting County Attorney Norris Webster informed the Board he had sent a memo to Legislator Swiercznski with regard to the proposed drug testing for County employees and commented that his findings were negative; that he didn't think the County could do it as a general policy.

Referring to the Lifeline program, Mr. Webster stated the County had made a motion to try to recover Substance and Alcohol Abuse funds, and that he was having limited success with that motion. Mr. Webster said he had been in bankruptcy court three times so far, and that it would probably be two or three more times more before the County finds out what the outcome will be; whether or not these funds are trust fund monies. If they are, then the County might be able to recover these monies. If they are general fund monies paid to the hospital for services to be rendered, then the County will not recover the funds - they will be divided amount the creditors. Mr. Webster stated that when a decision is handed down on the one, then he will see what can be done about the other one. Substance and Alcohol Program funds total approximately \$37,000.00.

With regard to the resolution authorizing benefits for the employee who would be taking care of the Lifeline Program in the Office for the Aging, Mr. Dudek said he had talked with the Union president about this, and it was her opinion that it would be wrong to provide benefits to one employee that would be greater than benefits received by other employees; the Union would grieve it. Mr. Webster said his advice would be not to do it.

Legislator Schaal, with second by Legislator Berger, moved a resolution entitled RESOLUTION AUTHORIZING COUNTY PERSONNEL TO PREPARE I.D. CARDS FOR OTHER MUNICIPALITIES IN ORLEANS COUNTY. Upon discussion, Legislator Bennett stated that there was a problem with performing this service for all the school districts. He was concerned as to where the funds were coming from, and felt that there should be a charge for this service. Mr. Vick agreed and Legislator Berger felt that the municipalities should be charged on a cost basis. Legislator Bennett moved to amend the resolution to delete the school districts, and to charge the remaining municipalities

\$5.00 per I.D. Card. The amendment failed due to the lack of a second. Legislator Berger moved to find out the exact cost of the I.D. Card and charge this amount back to each municipality. Mr. Bennett said that he felt that since County employees have to pay a \$5.00 charge in the event an I.D. Card is lost, then it would be only fair to charge the municipalities that same amount. Mr. Webster stated he had met with PERB on Monday to discuss the I.D. Card situation, and the judge came up with a proposal that everyone seemed satisfied with. The union did not object so much to the amount of the charge, but they didn't want to have any charge until they had a badge that would be designed to fasten more securely than the present I.D. Cards. The judge will be forwarding a letter regarding her decisions, part of which would relate to the discussion on I.D. cards.

Legislator Swiercznski, with second by Legislator Bennett, moved to table the resolution entitled RESOLUTION AUTHORIZING COUNTY PERSONNEL TO PREPARE I.D. CARDS FOR OTHER MUNICIPALITIES IN ORLEANS COUNTY. Upon vote, the motion carried; 6 ayes; 1 nay, Legislator Schaal; 0 absent.

Upon vote, motion carried; 7 ayes; 0 nays; 0 absent. The following resolution was then adopted:

After the adoption of the previous resolution, Legislator Vick stated he was voting against it because he was not sure of the propriety of contracting with a temporary agency.

Legislator Berger, with second by Legislator Swiercznski, moved a resolution approving the purchase of STOP-DWI Equipment from DWI Reserve Fund Balance. Upon discussion, Chairman Vick stated he had a problem with purchasing a radar unit for the NYS State Police, in view of the present situation with the manner in which the State is funding Orleans County. Mr. Vick felt the State Police should be buying the unit themselves. Mr. Berger commented that he would hate to see the State Police stationed in the local barracks suffer because of what the elected officials have done in Albany in regard to the budget. Legislator McMurray agreed with Chairman Vick. Legislator Billings stated that if the purchases are approved, then it should be specified the radar units are the property of Orleans County. Legislator Bennett, with second by Legislator Swiercznski, moved to amend the proposed resolution by deleting the purchase of one radar unit for the State Police, and authorizing the purchase of two radar units for the Sheriff's Department. Chairman Vick opened the meeting to the public. Clark and Pam Stritzel of Point Breeze Road, Kent were in attendance and asked about the status of the high span bridge. Chairman Vick explained that "as recent as approximately five weeks ago, the regional director of the NYS DOT approached the highway committee to (1) arrange for the jurisdiction whereby the State will take Route 98 from Route 18 to the Parkway and the County will assume responsibility for Route 63, north of Lyndonville. Part of the agreement will do this. The County Highway Superintendent is writing for an up-date.

The State also indicated that if the County was willing to downgrade the project from High Span Bridge to something more moderate, in all likelihood, the County would be provided with two additional canal crossings. They asked whether or not it would be appropriate to research this possibility. The County has indicated to the State, that if they would upgrade the present crossing at Two Bridges, and make it safer and keep the character of the community intact, the residents of the Town of Carlton and Orleans County being able to have two

additional canal crossings, that would be appropriate. So far, haven't had any response from them. That is the status. The high span bridge was funded; it was listed as part of the funding for the Transportation Bond Act."

Mrs. Stritzel stated that someone representing the State had requested an archaeological dig on their property; that it was a part of an environmental impact study. Legislator Schaal said the Highway Superintendent would be able to find out what the "dig" was about.

Chairman Vick explained that the proper procedures were carried out in preparation for the construction of a high span bridge. He explained that an alternative to the high span bridge, would be the upgrade to the present crossing, and the upgrade of 2 additional canal crossings. This might entail some more informational hearings in Carlton. The County will advise the Carlton Town Board of any additional information the Highway Superintendent will be receiving from NYS DOT.

Mr. Dudek said he wants to wait until we get it all together and take it up as a package. Legislator Berger commented that within the last week, two people mentioned to him how nice the park is.

Mr. Webster said he thinks everyone received a copy of his memo regarding drug testing. He said he would like to continue to press this. Legislator Berger agreed. Mr. Webster said, regarding the motion on Lifeline Benefits, there is no change from what he reported last time. He does have a call in to an attorney regarding this, and he is awaiting a response. Regarding the local match -Great Lakes STOA, Mr. Webster said there is really no county money in this. LEGISLATURE MEETING
July 12, 1989

The Chairman called the meeting to order at 7:30 p.m. After the pledge to the flag, the Clerk called the roll, and all Legislators, with the exception of Legislator Berger, were present.

The Clerk presented the following communications: notification of the Inter-County Association meeting on July 19th in Penn Yan; a letter of thanks from Albion's Strawberry Festival Committee, for the use of the Court House grounds; a copy of the May 25th meeting minutes from Western Regional OTB; a letter of acknowledgment from Assemblyman Hawley upon receipt of Resolution Nos. 278 and 279 pertaining to the education of handicapped children and overcrowding in County jails; a letter from the Division of Probation and Correctional Alternatives stating that Orleans County's Alternatives to Incarceration Service Plan Update has been approved; a letter of acknowledgment from the Governor's office of resolution No. 278 pertaining to the education of handicapped children; an invitation from ARC for the ribbon cutting ceremony for ARC's West Avenue Supervised Apartments; a letter from Senator Ralph Marino acknowledging receipt of resolution No. 218 in support of a regional feasibility study for a State Veterans Nursing Home in Western New York; a copy of the June 12th Nursing Home Health Committee Meeting minutes; a letter from NYS DOT stating that the 1989-90 State Budget does not include any additional funds for the Rural Public Transportation Coordination Assistance Program, and that the Department will not be soliciting applications for new grants at this time.

Report of Standing Committees: Legislator Billings reported nothing new on the chargebacks for the physically handicapped education program; Legislator McMurray reported attending regular committee meetings; Legislator Swiercznski reported that Tom Anderson the accountant at the Nursing Home has kept up on all items to be included in the rate; that Mr. Anderson was well abreast of those matters. Mr. Swiercznski reported attending the usual departmental meetings, as well as attended the Solid Waste meeting with Legislator Bennett.

Legislator Bennett reported that two towns have taken action on their own, with regard to the Coastal Erosion Hazard Law (Kendall and Yates) and that the Town of Carlton has not taken any action. Mr. Bennett said he hoped that the KYC Committee could handle any necessary action, and that the County would not have to do anything. The three towns could be incorporated under the KYC Committee.

Mr. Bennett met with the I.D.A. earlier in the afternoon, and stated that four interviews will be scheduled for the following week. Resumes will be made available for each Legislator. Mr. Bennett stated that all Legislators would be welcome at the interviews, and that the Committee would start the interviews with Orleans County residents.

With regard to Solid Waste, Legislator Bennett stated he had attended a meeting in the morning, along with Legislators Swiercznski, McMurray and Billings. The County Attorney, Norris Webster, has drawn up a revised resolution to replace the one currently tabled. Mr. Bennett explained that in the near future, the Committee will be recommending to put out bids for a consultant for the EIS statements and SEQR study; only have a 30-day period to do this. The Committee feels that it is best to have a professional do this work. The Board will also have to pass a resolution asking GLOW to take a more active part in looking for a landfill site for the 4-county area.

Legislator Schaal reported that the Finance Committee had met to review the proposed budget reductions as presented by the department heads. The committee recommends sending the following letter:

TO: DEPARTMENT HEADS

FROM: ORLEANS COUNTY LEGISLATURE

DATE: JULY 12, 1989

SUBJECT: BUDGET ADJUSTMENTS - resulting from loss of State Revenue Sharing

We want to thank you and your staff for responding to our request to trim your budget as a result of the County's loss of State Revenue Sharing. We have reviewed your recommendations and have decided that it would be very burdensome to make the necessary adjustments to all budget areas, and that we may not be able to recoup the entire loss of this revenue without undue strain on our programs.

We are, therefore, requesting all Departments to curtail all unnecessary spending in an effort to compensate for this monetary loss. We hope that prudent fiscal management by all Departments can accomplish this goal without increasing workloads.

We also want to remind you that since State Revenue Sharing is a permanent loss, your 1990 budget must reflect that loss.

Legislator Schaal said he would waive the rules and introduce a resolution allowing this letter to be sent to the department heads.

Mr. Schaal also reported that the Finance Committee will be meeting August 2nd at 1:30 p.m. to review the annual audit report - all legislators were invited to attend. Mr. Schaal presented the monthly sales tax report to the Board.

Acting County Attorney Norris Webster, commented that the reports required by DEC, would require an expert. Mr. Webster felt it important to the Towns and to the County to have a consultant respond on behalf of the County. He said that both he and Wayne Hale, Director of Planning and Development, would be working on the project, but that it's very important to have an expert respond for the County.

At this time, Chairman Vick introduced David Mitchell and Irv Allen, of the Albion Lions Club, and Joanne Johnson, the Administrator of the Health Department. Mr. Mitchell and Mr. Allen presented blood testing equipment to Mrs. Johnson. This equipment is used for the detection of diabetes, and was given to the Health Department by the Albion Lions Club.

Richard Clark, the CD Director, was given privilege of the floor. Mr. Clark explained that he received only one bid for a new emergency vehicle, even though he had submitted specifications to every car dealership in the County. Mr. Clark asked the Board whether or not they wanted to accept the bid or rebid the project. He noted that with the amount of mileage on the car, there will be approximately \$3,000 worth of penalties. Mr. Clark explained that the leasing company would be willing to continue leasing the car on a month to month basis, plus mileage. Chairman Vick explained that Mr. Clark had requested a different type of vehicle that he has at the present time; that he would like to be able to proceed, but wants the Board's approval. Mr. Clark explained that he needs a vehicle that has the ability to carry heavy equipment, and that if he ordered a new vehicle now, he would be able to have it the second week in October. Legislator Swiercznski commented that the Regional NYS DOT Office was required, by Audit and Control, to have two bids, in order to make it qualify as a "bidding process". The Acting County Attorney, Mr. Webster disagreed, saying "I don't buy that. If you went out seeking bids, and only got one bid, you can go ahead."

Chairman Vick said he would recess the meeting this evening and discuss it further on the 19th. Mr. Vick said that everyone was wondering why the other

dealerships did not bid, and suggested that Mr. Clark call some of them and ask.

Legislator Billings, with second by Legislator Schaal moved to allow Mr. Clark to go ahead and prepare a resolution awarding the bid to Hartway Motors of Medina. Motion carried. 5 ayes; 1 nay, Legislator Bennett; 1 absent, Legislator Berger.

Legislator Schaal reported that the county-owned property directly south of the Treasurer's office has been removed.

Acting County Attorney Norris Webster reported that there is a title problem to the property on West Academy Street that the County is purchasing from the Village of Albion. The Village Attorney is trying to work it out. Mr. Webster said he would continue to press for the paper work on the property.

WHEREAS, in spite of good faith attempts on the part of the County to move toward such an agreement, no real progress has been made on any of the above issues save only that Orleans Sanitary Landfill has done some remedial work on Transit Road; and

WHEREAS, it has been about three years since these concerns were first raised with respect to the requested expansion permit and the delays experienced evidence a lack of interest or desire on the part of Orleans Sanitary Landfill to conclude the agreement envisioned by Resolution No. 88-289;

NOW, THEREFORE, BE IT RESOLVED, that the Orleans County Legislature make known to the New York State Department of Environmental Conservation its objection to the pending permit applications of Orleans Sanitary Landfill.

Adopted. 6 ayes; 0 nays; 1 absent, Legislator Berger.

After the adoption of the previous resolution,

Legislator McMurray commented, "...what I got out of the meeting today, was that we should be looking for alternatives, because of the present situation and the point being that they have not initiated any personal contact with us to consider Orleans County under any circumstances. What we decided to do was to take the initiative and seek other solutions to the problems, for Orleans County, in the future. We are heading for recycling in 1990, although that is not a cure-all - no markets for the products. We may be faced with the situation of having to look for another place for our garbage."

Acting County Attorney Norris Webster explained that the meeting regarding the landfill situation was with three people from NYS Department of Environmental Conservation. He said, "They favor municipally operated landfills; they think that is the way of the future, with less problems. They (DEC) actually encouraged us to look for sites; something that might be suitable. It would also be a negotiating point with OSL. That was a point that was made. They also said that if we adopted the resolution, we would have to develop it."

Legislator Bennett explained that, "the resolution is clear that the Board is taking this action because we are unhappy with the negotiating process, and that the way Norris has written it, it justifies our action. The mood of the public has changed. Five years ago you proposed buying land...should develop a site where you can have control and not have out of state garbage coming into our county. We learned from DEC - they emphasize the importance of hiring a consultant to respond to the EIS statements to DEC. They won't make a decision in response to public pressure or politics. A professional can do this job and put it (EIS response) in proper language. As far as the SEQOR process is concerned, we will write a letter and ask to be a full participating agency. We are asking to be an 'involved party' status."

Legislator McMurray said, "This is going to require some further study by this entire group to develop some new plans. We should continue to follow up on it."

RESOLUTION NO. 321-789

By Legislator Schaal, who moved the adoption.

Seconded by Legislator Bennett.

The meeting was called to order by the Chairman at 7:30 p.m. After the pledge to the flag, the Clerk called the roll and all Legislators were present.

The Clerk presented the following communications: Acknowledgment of resolution regarding federal grant assistance for flood damage, from Congressman John J. LaFalce; a copy of a letter written by Congressman LaFalce to the Secretary of U. S. D. A. Clayton Yeutter requesting assistance for Niagara and Orleans Counties needed because of the flood damage to the areas; a letter from Senator D'Amato acknowledging the Chairman's request for federal assistance for Orleans County due to the recent flood damage;

A letter of thanks from NYS Electric and Gas for the recognition given to their employees during the recent flood crises in Orleans County; a similar letter from the N. Y. State Police in response to a letter written by Chairman Vick acknowledging their aid during the flood emergency that occurred in Orleans County;

A copy of the July 11 minutes of the Orleans County Soil and Water District Board Meeting.

Report of Standing Committees: Legislator Billings reported that the chargeback to the counties for the age 5-21 PHC-ED Program will be 10% instead of 50%; that he will be checking with HSA regarding the vacancy the Agency referred to; he will be meeting with the Administrator of the Health Department to discuss the situation with the engineer. Mr. Billings reported that the Substance and Alcohol Abuse programs are on-going and that it will be several months before the county gets the agreements back. The Medical Task Force Committee will be meeting on August 24th, and Mrs. Carri Blake of the Office for the Aging will be meeting with the people from Park Ridge to discuss the proposed use of the Arnold Gregory building.

Legislator Berger reported attending the Conference Session with NYS DOT on July 5th; the dedication of the ARC building on West Avenue in Albion on July 9th; attended the Lyndonville and Ridgeway Board meetings on July 10th; attended the Soil and Water Conservation District Board meeting on July 11th; served as a judge at the County 4-H Fair on July 24th and met with Probation, Sheriff and Veterans Departments on the 25th of July. With regard to the Insurance Program for volunteer firemen, Mr. Berger said he had received a tape explaining the program, commenting that only one

insurance company offered this type of insurance; basically it covers disability, life and retirement. Mr. Schaal noted that the County has not received a specific request from the Fire Advisory Board or the Chiefs' Association, and that the County should not pursue something that has not been requested. The other members of the Board agreed.

Legislator McMurray stated that the County is in the process of surveying the lot behind the Treasurer's office, where the proposed parking lot is to be constructed. This is being done to be sure the property lines are correct.

Legislator Swiercznski reported regular meetings with his department heads. Legislator Bennett stated that all the paper work pertaining to the IDA - Administration Structure is in the County Attorney's hands, and that a resolution will be on the next agenda. Mr. Bennett also noted that the IDA should respond to the items that the County was written up for by Audit and Control. Mr. Bennett noted that the County has several former employees who are receiving unemployment insurance, and asked that Mr. Dudek obtain a listing of all ex-County employees who are being paid unemployment insurance.

Legislator Schaal noted that the Finance Committee will be meeting on August 2nd to go over the audit and will come back to the Legislature with recommendations.

Mr. Dudek stated that budget packages will be presented to the departments tomorrow at the team meeting. With regard to the position in the Section 8 Housing Program, Mr. Dudek said he had talked with Personnel, to find out why Mrs. Bower agreed to the change, and was told she was under the impression that the County would lose funding if it wasn't agreed to. The State doesn't require the change. Mrs. Bower then reversed her decision. It was left as to whether or not Mr. Hale could persuade the State that the position should be upgraded. Mr. Dudek explained the position still could be upgraded if the Legislature chooses to do so; however, the title now reflects what the person is doing. The Chairman stated that he felt the Board shouldn't ignore the request, that it should make a decision and reply by letter. The Chairman said he would respond to Mr. Ward and Mr. Hale by letter, and that Mr. Dudek will be discussing this with them to see what can be done.

Mr. Dudek said he had a request from the County Treasurer, as to what happens to an employee's Blue Cross/Blue Shield when that person retires, but is still

covered by his/her spouse. If they are entitled to four years of paid-up health insurance, can that be deferred to a later date? Mr. Dudek was advised to write a letter to the Treasurer indicating that this is taken under consideration, but until a new contract is negotiated, no change is in order; these programs were predicated upon a situation where only one individual was working for the County.

Acting County Attorney, Norris Webster, said he had received word from the Village of Albion's Attorney, Ted Church, that the papers for the Academy Street property will be available by Friday - two days from now. With regard to the request from a prisoner at Midstate Correctional Facility, Mr. Webster explained that he had written and told him that if he wants to submit a proper request, and money to cover the cost, then the material will be sent to him.

The Chairman said he had received a letter regarding the speed limit on Lake Alice, noting that it had not been posted, as yet; asked the Board if the County was going to take responsibility for it. Legislator McMurray suggested that the County go ahead and post the speed limit. The entire Board agreed to this, by a show of hands. It was noted that the transfer of highways Route 63 for Route 98 had been accomplished by the amending of the law by the State. Mr. Vick said he had received a letter from Mr. Gurley of the NYS DOT stating that the signs on the Parkway beginning at the Monroe-Orleans County line and proceeding west, prohibiting commercial use of the Parkway, had been covered, and trucks would now be able to use the Parkway during the bridge weight restrictions and/or construction periods.

During the open discussion portion of the meeting, the reporter from the Medina Journal-Register, Danyl Cook, questioned the Chairman regarding the changes that had taken place in the Probation Department. Mr. Vick explained that a Probation Officer Trainee, who had not yet completed his probationary period, had been discharged, and that he was not at liberty to go into the matter as to why that individual was discharged. Also that Michael Dreyfus had been demoted to Probation Officer II effective July 24th. Mr. Dudek noted that there is a grievance in process because of this situation. Mr. Vick stated that he wanted to comment that Mr. Dreyfus was demoted for what his supervisor considers to be cause, and that until the procedure has drawn to a conclusion, he didn't want to comment any further. In answer to Mr. Cook's question regarding the suspension of Mr. Ellis and Mr. Dreyfus, Mr. Vick stated each was suspended for 30 days, and that he could not answer any more questions. Mr. Cook was told that the

next step in the grievance procedure was arbitration.

Legislator Berger introduced a resolution entitled RESOLUTION IN OPPOSITION TO THE BURNING OF THE AMERICAN FLAG. This was seconded by Legislator McMurray. During discussion, Legislator Billings commented that he did not want to condemn the Supreme Court for interpreting as they see fit. However, Mr. Billings commented, "It's my understanding people well versed in the law have indicated that this (Constitutional amendment) is not the way to go, but should make it a Federal law. Amendment to the Constitution should be reserved to protect the life and liberty of the nation."

Legislator Schaal stated he "would prefer to have it correct. I support the concept but I think it very important that it's totally correct."

Legislator Berger commented, "I agree with you. As Lyn says, a Federal law will take care of this. What burns me is that five Supreme Court justices have the power and authority to override 48 States in dealing with the Federal flag."

Legislator McMurray said, "I agree with Frank. I think it more important because of the fact that it's as sensitive as it is, that we go on record as a Board being against the actual desecration and its (the flag) improper burning rather than get entangled with the actual wording. I would like everybody in the County to know that this Board feels this way. Copies of this resolution should be sent to the necessary people on the State level so that they can support any action taken on a Federal level. We do need to tell how we feel about this, as an entire Board."

Legislator Billings, with second by Legislator Berger, moved to amend the resolution as follows: by changing

the third line of the first paragraph to read "a United States Citizen to desecrate or burn the American Flag in protest, and" and to change the fourth paragraph to read "Now, Therefore, Be it Resolved, that this Legislature condemns the act of burning the American Flag in protest; and be it". Motion to amend carried, with one nay, Legislator Schaal. The Board then responded, with a unanimous second, by adopting following resolution:

RESOLUTION NO. 348-789

By Legislator Berger, who moved the adoption.

Unanimous Second.

RESOLUTION IN OPPOSITION TO THE BURNING OF THE AMERICAN FLAG

WHEREAS, the majority of the members of the United States Supreme Court by a 5 to 4 vote upheld the right of a United States citizen to desecrate or burn the American Flag in protest, and such act has been banned in 48 states; and

WHEREAS, men and women have died to protect the freedom offered within these United States of America; and

WHEREAS, this freedom is symbolized by our American Flag;

NOW, THEREFORE, BE IT RESOLVED, that this Legislature condemns the act of burning the American Flag in protest; and be it

FURTHER RESOLVED, that a copy of this resolution be forwarded to all New York State Counties, to Senator Alfonse D'Amato, Senator Daniel Moynihan, Congressman John J. LaFalce, Congressman Hamilton Fish, Jr., Senator John Daly and Assemblyman R. Stephen Hawley.

Adopted. 7 ayes; 0 nays; 0 absent.

After the adoption of the foregoing resolution, Mr. Schaal commented, that he was in disagreement with wording of the amendment, not with the concept or the intent.

Legislator Swiercznski, with second by Legislator Bennett, moved to waive the rules to allow for the introduction of the following resolution. Motion carried. The following resolution was then adopted.

LEGISLATURE MEETING
August 9, 1989

The Chairman called the meeting to order at 7:30 p.m. After the pledge to the flag, the Clerk called the roll and all Legislators, with the exception of of Legislator Bennett, were present. Legislator Bennett was excused from the meeting.

The Clerk presented the following communications: Notice from the Inter-county Association that their next meeting would be held August 16 at 9:30 a.m. at the Onoville Marina in Cattaraugus County; a letter thanking the Legislature for its support of the L.I.F.E. Consortium initiative from Michael Glover, Assistant to the Superintendent of the Albion Central School District; announced that NYSAC dues for 1990 would be \$2,200.00; announced that a copy of the OTB board minutes from their June 22/23rd meeting were on file in the Clerk's office; a letter from the Mayor of the Village of Albion expressing disappointment that the Village Fire Marshall was denied access to the Orleans County Fire Frequency by the Fire Advisory Board; a letter from Donald Manley commending the Nursing Home for the care given to his parents.

A letter from Assemblyman Hawley acknowledging receipt of the County's resolution requesting federal support for flood damage, along with copies of letters written by Mr. Hawley to various state and federal officials pertaining to this matter; a letter of acknowledgment from Assemblyman Hawley regarding the County's resolution in opposition to the burning of the American flag.

Report of Standing Committees: Legislator Billings stated that the next Medical Task Force Committee would be held August 31. Mr. Billings stated that another meeting would be held on the 25th with Park Ridge in regard to the Arnold Gregory. It was also noted that Medina Memorial Hospital had offered \$500,000 for the Arnold Gregory. The old hospital building is scheduled to be sold at a later date.

Legislator Berger stated that the Insurance Program had been referred to the fire chiefs and the municipalities. He said there would be a meeting on the 21st to find out the decision of the fire chiefs. With regard to uncollected fines, Mr. Berger had contacted the D.A. regarding this on the 2nd and 9th, and as yet had not received a reply from him. Mr. Berger met with Probation on July 22nd, July 31st, and August 3rd at 9:15 a.m., DWI meeting on August 3rd in the afternoon and met with the Sheriff, D. A. and Veterans Service Agency on

August 9th.

Legislator McMurray reported that the Highway Department is checking the flow of traffic in the immediate area of the proposed parking lot south of Central Hall. He noted that the site is quite low, and that permission had been received from the homeowner on the south side of the parking lot, to grade the property down to level for the parking ramp in the back of the lot.

Legislator Swiercznski reported attending regular committee meetings with his departments, and noted that there is a resolution on the agenda to award the smoke alarm system for the nursing home. Legislator Schaal reported the usual meetings. Legislator Billings commented that the committee is working on a new draft for the IDA Administration structure. Not too much has changed.

The Chief Administrative Officer said he had met with the Planning Director and the Housing Coordinator with regard to the upgrade request in the Section 8 Housing program. Mr. Dudek explained that the problem could be solved by keeping the same title, and requiring the employee to do more than she does now; this will have to be negotiated with the Union. The employee is willing to accept this as an upgrade. With regard to the Court House roof, advertising for bids is in process, and the County is in compliance with minority businesses.

Mr. Vick said he had discussed the Marine Park lease agreement and the rules for the park with some of the people from the State, and they would like the County to hold a lottery to determine who is allowed to dock their boat at the Marine Park. It was suggested to hold it one year early, in order to give those who are not allowed to dock at the Park, an opportunity to make other provisions for docking their boat.

Mr. Vick said he had a request from Mike Dreyfus asking for permission to release to the press his version of the events that lead to the actions of June 3rd and July 21st. The Chairman said that he had no reason not to grant Mr. Dreyfus permission, that he wanted the Board to know of the request. The County Attorney stated that it wouldn't be appropriate for Mr. Vick to sign a statement giving permission; that Mr. Dreyfus really doesn't need the Board's permission. Mr. Vick explained that the County has a rule regarding press releases, and felt that perhaps this is the reason for Mr. Dreyfus' request. If that was the reason for the request, then the Board agreed to go ahead and give permission pursuant to the County's rule regarding press releases. The Clerk

was instructed to call Mr. Dreyfus and tell him of the Board's decision.

The Chairman announced that he had received a notice from SEMO that Dick Clark had completed requirements for one of the emergency management programs, and that the County will be receiving a check for \$3,037 as the County's share of that program.

Mr. Vick said he had received an invitation to attend a Joint Veterans Council meeting regarding a health care facility in western New York, and said he would be unable to attend. Mr. Berger was authorized to attend the meeting as the Chairman's representative.

With regard to the Inter-county Association of Western New York, the Chairman commented that the County's attendance had not been very good. Mr. Dudek explained that due to the number of meetings being held on the day normally scheduled for the Inter-County meeting, it was not possible for the County's representatives to attend.

The County Attorney stated that he had received a "sample agreement" from Genesee County pertaining to the IDA. He explained that item 2, page 1 under "services" stated the "Agency is to hire staff with the approval of the Legislature. The Agency shall have the right to discharge such staff without approval of the Legislature". The question was, to whom is the director accountable and how would the appointment process work. The Committee felt that the director should be responsible to the IDA Board. Hiring should be done with the IDA deciding on who they want and their choice being forwarded to the Legislature for final approval. The Committee wanted to go along these lines. The purpose of the agreement is to allow money to be paid by the County to the IDA for these services. Legislator Billings stated he agreed with this premise, and felt that if the director is no longer the IDA's choice, then they (the IDA) should have the opportunity to remove him, noting that the Legislature still has control through appointments to the IDA Board. The County Attorney said that the agreement is terminable on 60 days notice. The Management Compensation Plan will have to be changed - the position will have to be removed. Mr. Dudek explained that the Planning Director is determining the

amount to be funded by the County. The contract extends until the end of next year. The current director will continue on a temporary basis - this will be done by a contract between Mr. Salen (the current director) and the IDA.

Legislator Billings, with second by Legislator McMurray, moved to have a resolution placed on the August 16th agenda accepting the agreement for funding the IDA director, and describing the functions of the office. Motion carried. Mr. Dudek noted that there will be several more resolutions pertaining to this change between the IDA and the County.

The question was raised as to whether or not it would be a good idea to have a speed limit in the Two Bridges area in the Town of Carlton. The Clerk was instructed to call the County Highway Superintendent and request that he look into the matter.

When asked about to the appointment of the new IDA director, Legislator Billings explained that as soon as the IDA Board meets, they will appoint a new director; that the Legislature had notified the IDA Board of its recommendation for the position.

Legislator Swiercznski, with second by Legislator McMurray, moved to go into executive session to discuss information relating to future investigations which will imperil effective law enforcement if disclosed. Motion carried.

Meeting recessed for executive session at 8:50 p.m.

Meeting reconvened at 9:15 p.m.

NOW, THEREFORE, BE IT RESOLVED, that there be, and hereby is created in the Orleans County Sheriff's Department one additional position of Deputy Sheriff at Grade 6 in the AFSCME Wage Schedule.

The privilege of the floor was given to Mr. Dudek. With reference to Department Head evaluations, Mr. Dudek asked the Board how they intended to handle the department head evaluations. Last year, there was a question of Mr. Dudek doing evaluations on department heads, especially those in the same grade as Mr. Dudek. The current policy calls for Mr. Dudek to do evaluations. If the Board decides to go ahead and do evaluations, a policy needs to be formalized - the Management Compensation Plan needs to be revised to reflect this.

Legislator Billings said, "I don't feel the Board should do it because we don't have contact with the people. If he (Mr. Dudek) has something he is uncomfortable with, then he should come to us." Legislator Swiercznski agreed.

There was discussion on a department head's request for a six-month review of his annual evaluation. It was noted that the policy does not provide for a six month

review of a department head's evaluation. During further discussion, Legislator Schaal stated that Mr. Dudek should review all department heads and bring back to the Legislature in executive session, anything he feels uncomfortable with or any problems; i.e., department heads who do not warrant an increase.

Motion by Legislator Schaal, with second by Legislator Billings, that the Chief Administrative Officer review department heads as per the current policy, but prior to presenting them to the Department Head, they will come before the Legislature for evaluation. Motion carried.

Mr. Dudek said he had received a request from Steuben County's Data Processing Department for a copy of Orleans County's Self Insurance Program and asked if the Board was in favor of sending Steuben County the program. After discussion, Legislator Schaal, with second by Legislator McMurray, moved to "afford Steuben County the benefit of the Self Insurance Computer program". Motion carried.

Legislator Berger stated he had put on each desk three different job descriptions that Mr. Pratt, the director of the Veterans Service Agency, performs in the office he holds, and asked if anyone had read them. Mr. Berger felt that this information would affect Mr. Pratt's position. Legislator Schaal explained that the Compensation Committee had thoroughly reviewed Mr. Pratt's request for an upgrade, and while they were able to increase the number of points for Mr. Pratt's position, they were not able to increase the points enough to merit an upgrade. Mr. Billings said the Board could "red circle" him and give him another step; that something should be done - it should be voted up or down. Legislator Swiercznski, with second by Legislator Berger, moved to have a resolution "red circling" Mr. Pratt's position, and authorizing another step.

Mr. Dudek informed the Board that there was enough surplus property to have an auction. After discussion, Legislator Berger requested that Mr. Dudek seek proposals from auctioneers and prepare a resolution hiring an auctioneer and setting the date and time for an auction of surplus county property.

Legislator McMurray, with second by Legislator Billings, moved to recess the meeting, subject to recall by the Chairman. Motion carried.

Meeting recessed at 10:05 p.m.

RECONVENED LEGISLATURE MEETING
August 16, 1989

The Chairman reconvened the meeting at 4:50 p.m. All legislators were present.

The proposed agreement between the County and the IDA was discussed, and the legislators all agreed that the agreement should refer to "legislator members" rather than "legislator member". The County Attorney was instructed to make this correction.

The following resolutions were adopted:

RESOLUTION NO. 373-889

By Legislator Bennett, who moved the adoption.

Seconded by Legislator Berger.

The Chairman called the meeting to order at 7:30 p.m. After the pledge to the flag, the Clerk called the roll, and all legislators, except Legislator Swiercznski, were present. Legislator Swiercznski was excused.

The Clerk presented the following communications: a copy of the minutes of the July 18th County Youth Board meeting; a notice that the August Youth Board meeting would be held on Monday, August 21st at 3:15 p.m.; a copy of the minutes of the August 7th Nursing Home meeting.

Report of Standing Committees: Legislator Buildings reported that the Engineer position at the County Health Department is being phased out. With regard to the Alcohol and Substance Abuse contracts, Mr. Billings noted that the agreements were on the evening agenda for approval. Mr. Billings reported that the Medical Task Force Committee will be holding its next meeting on August 31, 1989. He also told the Board that the Arts Council will be receiving funding through the Youth Board next year.

Legislator Berger reported that he had contacted the D. A., and the Mr. Punch is looking into the matter of uncollected fines. Mr. Berger reported attending the Village of Lyndonville and Town of Ridgeway meetings on August 14th; attended the meeting on the 16th with the State Parks and Recreation Office at the Legislature chambers; attended Community Action's 25th anniversary luncheon on the 18th; attended the West Battalion's drill in Ridgeway held on the 20th; attended the Fire Chief's Association meeting in Barre on August 21st and attended the Supervisors and Legislators Association meeting on August 22nd.

Legislator McMurray reported regular departmental meetings and noted that in regard to the parking lot south of the Treasurer's office, the gas company had moved the gas lines, and the lot had been surveyed and they were waiting for the highway to begin work.

Legislator Bennett said he had attended the Chaffee Landfill open house the previous Friday. Mr. Bennett commented that there is a great deal of difference in the attitude of that particular landfill operator and the one who operates the landfill in Orleans County.

Legislator Schaal reported regular departmental meetings.

Chief Administrative Officer Stan Dudek reported that when he receives the job description for the requested change for the Section 8 Housing clerical position, he will meet with the Union. With regard to the Court House roof, he noted that one bid had been delivered earlier in the day. Mr. Dudek said he had not heard from Mr. Tuohy regarding Phase II for the Marine Park. In regard to funding for the Park, Mr. Dudek said he planned to use \$200,000 from the previous grant for the park, plus this year's grant of \$60,000.

Mr. Dudek reported that he had sent out requests for proposals to four auctioneers for the County's surplus property auction, and as yet had not received a response from any of them - they had until the 21st to reply.

Specifications for this years' insurance are almost finished. Mr. Dudek said he only had a few more additions to it, and that they would be sent out in the middle of September; they have to be back by December 1st. Mr. Dudek said that since 1981, the County had paid out \$250,000 worth of claims and \$1,057,000 worth of premiums. The County Attorney, Norris Webster, said he had heard nothing from the Village of Albion's attorney regarding the property on the corner of West Academy Street and West Avenue. In regard to the Dragon bankruptcy matter, the County Attorney explained that a plan was proposed and filed in court, and that he had filed objections to the plan because it didn't provide for the back taxes due to the County. Mr. Webster said he had discussed a plan with their attorney, but that the County cannot do very much because of the bankruptcy proceedings.

The Chairman said he had a letter from Lew Gurley saying that the Kuckville Bridge will be repaired and weight restrictions removed by Labor Day; read a letter from the EMS Council re the membership proposal presented to the Legislature and noted that the next meeting will be held September 20th at the CD Center.

Bathrick, Director of DEC Division of Lands and Forests stating that they have reviewed Orleans Agricultural District No. 6 and endorsed continuation of the district; copies of the July 11th and August 24th Board meeting minutes of Orleans County Soil and Water Conservation District.

Report of Standing Committees: Legislator Billings reported that the County Health Department will be contracting for engineering services in 1990. The Medical Task Force Committee has recommended looking into the possibility of expanding the nursing homes within the County. With regard to the Arnold Gregory, no bids have been accepted for the facility. At the time of the auction, the participants will be seated around a table and the bidding process will be handled in that manner.

Legislator Berger reported that the District Attorney is working on the uncollected fines problem. Mr. Berger reported attending the Soil and Water Conservation District Board meeting of August 24th;

attended the Western New York Veterans Administration Nursing Home information meeting in Hamburg, New York. The Director of the VA Hospital in Buffalo strongly recommends establishing the nursing home in Batavia, since the residents could share services with the VA hospital already in Batavia. Legislator Berger attended the Fire Advisory Board meeting on the 28th; the Self Insurance meeting on the 29th, also met with Probation; picked up the soil from the ten towns at the Highway Department on September 5th, and met with the Public Defender on the 5th; met with Probation at 9:15 a.m. on September 7th and attended a pre-sentencing meeting; attended the earth mixing ceremony at Buffalo Naval and Servicemen's Park for the Korean War Memorial; attended the Village of Lyndonville and Town of Ridgeway board meetings on September 11th; met with the County Judge, the Sheriff, the District Attorney, and representatives from Probation, Social Services regarding the letters from Mayor Tuohey and Nancy Berger who expressed concern that there was no follow-up at the County level after individuals were "picked up" and released by the police. Mr. Berger explained that the problem was due to a lack of communication, that most people do not understand just what officials can and cannot do.

Legislator McMurray attended usual meetings with department heads. Mr. McMurray said the situation with the parking area on Platt Street had not changed, so there was nothing new to report; toured the new Mental Health Services building and felt it would take the balance of this month to finish it up.

Legislator Swiercznski reported usual meeting with department heads. The Nursing Home survey was completed two weeks ago, and the Administrator will be coming in to review it with the Board.

Legislator Bennett reported that the Solid Waste Task Force Advisory Committee had met in the morning, and that proposals are ready to go out for the engineer. Mr. Bennett said that interviews will be conducted on October 18, with the possibility of making an appointment that same day. The entire Board was invited to attend the interviews.

Legislator Schaal reported the first budget meeting with a department will be held September 27th, with the remainder of the meetings scheduled for October 2nd, 3rd and 4th. Notification of the meetings will be sent out to the appropriate people.

Chief Administrative Officer Stan Dudek reported that the job description for the proposed position change in Section 8 Housing had been presented to Civil Service

and that Albany was reviewing it now, and that the Board would be able to finalize its decision at the next meeting. With regard to Phase II at the Marine Park, Mr. Dudek stated he had not heard from Mr. Tuohy in three weeks.

Mr. Dudek explained that a resolution was on the agenda which would allow vacancies in County positions to be filled by the usual procedure, rather than by filling vacancies only after the Legislature has adopted a resolution authorizing vacancies to be filled. During discussion, Legislator Schaal commented that he was still in favor of having the request made by the Department Head to the Legislature for permission to fill vacancies. Legislator Billings, with second by Legislator Berger, moved to allow vacancies to be filled through the usual procedure. Upon moved, the motion was defeated. 3 ayes; 4 nays, Legislators Bennett, McMurray, Schaal and Swiercznski; 0 absent. Legislator Schaal said he would withdraw the proposed resolution at the appropriate time.

County Attorney Norris Webster, said that a protest had been made in regard to the awarding of the bid for the telephone service at the Mental Health Services Building. Mr. Webster was of the opinion that the bid the County accepted was the lowest bid and did meet specifications, and felt that the County would not have any serious problem with the bid.

With reference to the grading problem at the Mental Health Services Building, Chairman Vick noted that the Board had discussed getting figures from an outside source for correction of the problem. Mr. Vick said a quotation of \$22,000 had been received. Final preparation for seeding would be done by someone else, and would cost \$6,000.00. The other option was to allow Lozier and Lombard to correct the problem at a cost of \$18,672.00, with the actual cost of preparation and seeding to remain at \$6,000.00. Legislator Swiercznski suggested the County Attorney draw up a resolution for the evening agenda regarding this matter.

Sharon Narburgh, Councilman from the Town of Carlton, asked the Board for more information regarding the bridge at Two Bridges, noting that surveyors had been in the area surveying the creek and the land on both sides of the new bridge. Mrs. Narburgh said that the residents were upset because of this. Mr. Vick said the County Highway Superintendent would be contacted regarding this, and someone would contact her with information.

Legislator Berger, with second by Legislator McMurray, moved to waive the rules and add the resolution

prepared by Mr. Webster regarding the grading situation and site preparation and seeding at the new Mental Health Services building to the agenda. Motion carried.

The following resolutions were presented:

LEGISLATURE MEETING
September 27, 1989

The Chairman called the meeting to order at 7:30 p.m. After the pledge to the flag, the Clerk called the roll, and all Legislators, with the exception of Legislators Bennett and Berger, were present. Legislator Bennett arrived later in the meeting at 8:00 p.m.; Legislator Berger was excused.

The Clerk presented the following communications: a resolution from Columbia County opposing the burning of the American Flag; a note from Mr. John Oravec stating that he could not accept membership on the County Fishery Advisory Committee at the present time, but would be willing to serve in a year or two; a letter of acknowledgment from Assemblyman Hawley upon receipt of the County's resolution requesting an amendment to the State Highway Law; a letter from Doherty Communications Corporation stating recent changes in their business and how it would affect the County's contract with them; letters of acknowledgment from Senator Dale Volker, Assemblymen Hawley, Kelleher, and Davidsen regarding the County's resolution concerning the cap on Social Services administrative expenditures; OTB's annual report for 1988; an acknowledgment from the David Whittier family for the flowers sent by the Board in Mr. Whittier's memory.

Report of Standing Committees: Legislator Billings stated that the problem with the County Health Department's engineer situation had been settled; that the Medical Task Force Committee will be meeting Thursday night at 7:30 p.m.; that he was searching for someone to fill the vacancy on the HSA board.

Legislator McMurray told the Board that the parking lot was pretty much at a "standstill"; that he had toured the new Mental Health Services Building and that it is coming along fairly well. It would probably be 30 days before Community Services would be able to move in. Mr. McMurray reported there was a problem between the general contractor and one of the sub-contractors regarding corrections that need to be made. Mr. McMurray said he had attended the Federal Affordable Housing Program sponsored by Senator D'Amato and who presented the program for the Western New York area. There is a bill in the Senate sponsored by Senators D'Amato and Cranston, and is designed after Senator Daly's program for New York State for the first-time home buyer who doesn't have a downpayment, but can afford payments. The program will come into New York State after the first of the year.

Legislator Swiercznski reported his usual meetings

with his department heads.

Legislator Schaal told the Board that the first round of departmental budget meetings were held in the Treasurer's Office earlier in the day. More meetings are scheduled for next Monday, Tuesday and Wednesday, and will be finished by Wednesday. A report will be given to the Legislature.

Chief Administrator's report: With regard to the position in the Section 8 Housing Program, Mr. Dudek said he was meeting with the Union president on Thursday to negotiate an upgrade. Right now he is waiting for approval of the job description from NYS Civil Service. Mr. Dudek said he had called Mr. Tuohey regarding Phase II for the Marine Park, and was told everything would be complete in two weeks, but as yet had not heard from Mr. Tuohey. Mr. Dudek said there was a problem with some of the drafting. The Courthouse Roof Project will have a different contractor. The County will have to get a new affirmative action plan submitted. Mr. Dudek stated that he had received final approval of the Historic Preservation Grant, as well as the forms that have to be submitted in order to receive funding. The County Attorney will have to review the specifications to decide if there will be a problem awarding the bid to the secondary bidder.

County Attorney's Report: Mr. Webster said he had looked at the findings and recommendations made by the State in reference to the County's foreclosed property policy. There are two parts of the report dealing with County-owned property. One indicates their recommendation that we collect rents for occupied properties and secure those that are unoccupied. Mr. Webster said that was a practical matter. The policy regarding accepting bids from former owners after the property has been taken by the County, with the bid to be unpaid taxes, penalties, etc., Mr. Webster indicated that there was a decision made by the Court of Appeals supporting that kind of policy on behalf of the County, saying it's appropriate for a County to do this; that there seems to be ample support for the policy the County has in affect at the present time.

During the Open Discussion portion of the meeting, Christopher Trimm was given privilege of the floor. Mr. Trimm explained that his wife Christine is employed in the County Personnel Office. He stated that there were some problems in that Department, and requested the Legislature meet with him and Mrs. Trimm in executive session to discuss the matter. The County Attorney agreed that this would be appropriate since it is a personnel matter, and it was decided by the Board to meet

in executive session with Mr. and Mrs. Trimm next Wednesday, October 4, 1989 at 2:30 p.m.

Legislator Bennett explained that he had talked with the Director of the Real Property Tax Service office, and was told that Mr. Rupert Kenny, the Real Property Tax Coordinator, would be retiring the end of October. The Director, Mrs. Downey, had suggested filling the vacant Real Property Information Systems technician position upon Mr. Kenny's retirement, and leaving the Real

Property Tax Coordinator position vacant. After discussion, it was the concensus of the board to change the Real Property Tax Coordinator from Grade 2 to Grade 1 on the Management Compensation Plan grade schedule. A resolution will be placed on the agenda for the next Legislature meeting to effect this change.

Legislator Berger read a letter from Bill Buyers, Chairman of the Korean War Memorial Committee, thanking him for attending the earth mixing ceremony in Buffalo at the site of the Korean War Memorial (for veterans from the Western New York area) in the Naval and Servicemen's Park. Legislator Berger represented Orleans County and brought soil from each of the ten towns to be used in the ceremony.

Legislator Swiercznski brought the sale of the Arnold Gregory to the Board's attention, suggesting that it would be in the interest of the County to bid on the property. Two area hospitals - Park Ridge of Rochester and St. Jerome's of Batavia - have expressed an interest in purchasing the facility for use as a nursing home. Chairman Vick stated that the County will have to decide on the maximum amount it would be willing to pay for that facility, and if the bidding goes beyond that, then the County would not bid any higher. Legislator Swiercznski suggested that the County Attorney Norris Webster investigate further and decide on the procedure the County should follow. After this the Board can authorize Mr. Webster to act on behalf of the County. The Chairman asked for a consensus on Legislator Swiercznski's suggestion. All of the legislators agreed that this should be done, and Mr. Webster was authorized to proceed. Legislator Schaal requested that the Chief Administrative Officer do research on the asbestos problem to see what would have to be done.

Legislator Swiercznski, with second by Legislator Billings, moved to recess the meeting, subject to the call of the Chairman. Motion carried.

Meeting recessed at 3:13 p.m.

LEGISLATURE MEETING
October 11, 1989

The Chairman called the meeting to order at 7:30 p.m. After the pledge to the flag, the Clerk called the roll, and all legislators were present.

The Clerk presented the following communications: a letter from Tallman and Tallman, Architects of Ithaca, New York recommending that the County accept the bid from Leo J. Roth Corporation for the Court House roof replacement; letters of acknowledgment from Senator Ralph J. Marino, Assemblyman James R. Tallon, Jr., and Assemblyman Robert A. D'Andrea regarding the County's resolution No. 413-989; the August 24th Board minutes from OTB; a letter of transmittal from the County Planning and Development Department re the Source Separation and Recycling Plan - Executive Summary; a letter from the County Attorney requesting permission to develop a policy regarding the County's tax foreclosure proceedings; notification from GLOW Region Solid Waste Management Committee re GLOW Recycling Plan public hearings; a letter from Arthur B. Eddy resigning from the Orleans County Public Utility Agency.

Report of Standing Committees: Legislator Billings reported that the HSA of Western New York appointment was on the meeting agenda;

Legislator Berger reported that a resolution regarding the incinerator was on the agenda, and that the District Attorney is still working on the problem of uncollected fines. Mr. Berger reported attending the Agricultural District Meeting at the 4-H Fair Grounds on September 18th; attended the Legislature meeting on September 20th; met with the Probation Director on the 25th of September; attended budget meetings with his departments on October 2nd and 3rd; attended the Legislature meeting on October 4th; attended the County and Town Historians meeting in Hamlin on October 5th (Mr. Berger noted the nice facility the Historian has in Hamlin in an old schoolhouse - commented that many times Historians do not have facilities in which to store their material); attended a meeting in Batavia on October 6th which was attended by over 600 kids in a Youth Speaks Out against drugs meeting; attended the Soil and Water Conservation District meeting on October 10th.

Legislator McMurray reported regular meetings. Legislator Swiercznski reported reviewing the Nursing Home inspection report - Chairman Vick commented that the State had approved the plan. Mr. Swiercznski also reported attending a meeting at Social Services.

Legislator Bennett reported regular committee meetings. Next Wednesday he will be going over the proposals for the engineer to help the County with the Landfill situation. Mr. Bennett said five proposals had been received.

Legislator Schaal reported that the preliminary budget will be presented to the Board at a later date, after all changes have been made.

Chief Administrative Officer Stan Dudek reported that he had met with the Union regarding the proposed position change in the Section 8 Housing Program, and stated that the Union doesn't see the need for the change; they won't do anything more. With regard to the Court House Roof, the resolution awarding the bids is on the meeting agenda. With regard to Phase II, Mr. Dudek stated that he did get most of the final plans in and has been submitting it to the Code Enforcement Officer for review. It will be filed with the State on the 26th.

County Attorney Norris Webster said there is concern on the part of the State with regard to the County's policy regarding foreclosed properties. Mr. Webster said he felt something could be worked out with the Chief Administrative Officer, the Buildings and Grounds Department and himself in this regard. Mr. Webster said that if the County is the legal owner then, the County could be exposed to liability on the properties. The State feels the County should be collecting rent on the foreclosed properties. Mr. Dudek commented that most of the foreclosed properties are not in very good shape that rent could be charged. Mr. Vick felt that most of the people whose properties were foreclosed were going through hard times, and that if the County got its back taxes, and a little profit when foreclosed properties were redeemed, then that should be enough. Legislator Schaal noted that the County does have a policy in place regarding foreclosed properties, and that just because the State does not agree with it, that doesn't make the County's policy wrong. Mr. Schaal commented that if these people had the money they would have paid their taxes. He did not want to throw anyone out of their home. Mr. Schaal felt the policy currently in place and used by the County was sufficient.

Mr. Webster said he was asked to review the proposed Deputy Director of Veterans Service Agency position. Mr. Webster stated that he did not feel that this position could be taken out of the bargaining unit and placed on the management compensation plan schedule. Mr. Webster will be sending his opinion to Mr. Pratt, Veterans Service Agency Director and to the Legislature.

A roll call vote was taken to waive the rules with the vote as follows: Legislators Bennett, McMurray, Schaal and Vick voted aye; Legislators Berger, Billings and Swiercznski voted nay. Report of Standing Committees: Legislator Billings reported that Sharon Midea was now representing the County on the HSA Board, as a member of the Board of Directors as well as Consumer Representative on the Project Review Committee.

Legislator Berger reported he had attend an EMS meeting and there was concern regarding ambulances, and that another meeting is schedule for Monday night, to discuss the matter further. With reference the advisory board, Mr. Berger explained that the Council is still working on the membership, and will send the Legislature a copy of their recommendations when they are ready.

With regard to uncollected fines, Mr. Berger explained he had talked with the District Attorney, and Mr. Punch will be going through the necessary process to collect the fines.

Mr. Berger reported attending the Division I Soil & Water meeting in Barre on October 12th; critique on emergency situation in Medina on October 16th; October 18th Conference Session and EMS meeting; October 24th Medina village meeting.

Legislator McMurray had nothing new to report. Legislator Swiercznski reported that the Nursing Home was

waiting to hear from the State regarding their inspection; and regular meetings with his departments.

Legislator Schaal reported that the resolutions adopting the tentative 1990 county budget, and setting the date for the public hearing were on the evening agenda.

With reference to the village barn the County is trying to purchase from the village of Albion, Mr. Webster said there is confusion as to where the necessary papers are; that the village board is under the impression that the papers have been delivered to the County Attorney. To date, they have not been delivered to the County Attorney. Chairman Vick advised Mr. Webster to make an official communication to the village board regarding this matter.

Regarding Phase II of the Park, Chief Administrative Officer Stan Dudek stated that the plans were being taken to the Parks Commission the following day.

Mr. Dudek also spoke to the Legislature regarding the development of a policy for grievance procedures for individuals not covered by a union contract. He explained that Article 16 of the Municipal Law requires the County to have such a policy, and that upon researching back through the proceedings, he found a resolution adopted by the Board of Supervisors which provided for such a procedure. A Grievance Board has to be appointed by the Chairman of the Legislature. This Board then makes recommendations, that are to be carried

out by the department head. Mr. Dudek said he would include resolution and procedure in the Management Compensation Plan and in the Highway Benefit Plan.

RESOLUTION AMENDING RESOLUTION NO. 160 OF THE YEAR 1973 WHICH AMENDED RESOLUTION NO. 164 OF THE YEAR 1967 REDISTRIBUTING THE NET COLLECTIONS FROM SALES TAX PURSUANT TO S1262 (A) OF THE TAX LAW OF THE STATE OF NEW YORK

WHEREAS, the County has experienced a reduction in revenues from State Aid in the amount of approximately \$236,000.00 for the year 1990; and

WHEREAS, the School Districts in the County have not experienced such reductions but have received at least as much as in previous years; and

WHEREAS, the County has experienced an increase in costs for education of handicapped children (ARC, BOCES and transportation) from \$16,000.00 expended in 1980 to \$1,200,000.00 budgeted in 1990; and

WHEREAS, the County, by law, pays to the schools all unpaid school real property taxes at the end of the tax collection period so that the schools have no delinquent tax collection expenses; and

WHEREAS, Sales Tax Revenues are now distributed 66.67% to the County, 11.1111% to the school districts and the balance to the Towns and Villages in the County pursuant to S1262(a) of the Tax Law of the State of New York in accordance with Resolution No. 160 of the year 1973; and

WHEREAS, this Legislature wishes to redistribute the Sales Tax Revenues to offset these changes in State Aid and the increases in education expense being absorbed by the County;

NOW, THEREFORE, BE IT RESOLVED that Resolution No. 160 of the year 1973 be and the same hereby is amended as follows:

A. Section 1(a)(1) is amended to change the percent of sales tax monies set aside for County purposes from 66.67 percent to 75.25 percent.

B. Section 1 (a) (2) which provided that 11.1111 percent of sales tax monies to be set aside for educational purposes and distributed to the school districts is hereby repealed.

C. Section 1 (a) (3) is renumbered Section 1 (a) (2);

and be it

FURTHER RESOLVED, that as so amended such Resolution No. 160 of the year 1973 shall read as follows:

Section 1. Section 14 (a) of Resolution No. 164 of the year 1967, as amended is hereby amended to read as follows:

(a) (1) 75.25 percent of such monies is hereby set aside for County purposes and shall be available for any County purposes.

(2) The remainder of such monies shall be allocated quarterly to the Towns of the County of Orleans being the entire area of said County in proportion to their respective populations including population within incorporated Villages, with the latest decennial census taken pursuant to law completed and published prior to the end of the quarter for which the allocation is made which special census must include the entire area of the County. Such amounts allocated to the entire County shall be applied first to reduce County Taxes levied upon real property in the several Towns in such area. Any balance remaining shall then be applied first to reduce general Town Taxes levied upon real property in such area. Any Town by local law, ordinance or resolution, however, may provide that the amounts which would be so applied to reduce the County Taxes and general town taxes levied upon real property in such town shall be paid directly to such town to be used for any town purpose. If any Village, other than a Village within a County having a population of one million or more and containing not more than three towns by local law, ordinance or resolution shall so provide, the amounts which would be so applied to reduce the County and general town taxes levied upon real property in such Village shall be paid directly to such Village in lieu of such tax reduction. Where any Village has elected to be paid directly as provided in the subdivision, the amount to be paid to such Village shall be determined by the ratio that the full valuation of real property in the Village or portion thereof within the town in which such Village is located bears to the full valuation of real property in the entire town. If a Village, wholly or partially within a town has so elected to be paid directly, but the Town in which such Village is located has not elected, the amount allocated to the Town in which such Village is wholly or partially situated shall be applied to reduce County taxes and general town taxes in the area of the Town outside such Village. If the amount allocated to a town

exceeds the amount of the County taxes and general town taxes levied upon real property in the Town, the excess shall be apportioned between the town and each Village, if any, wholly or partially situated therein, in the ratios that the full valuation of real property in each such Village or portion thereof within the Town, and the full valuation of real property in the portion of the Town outside such village or Villages, respectively, bear to the aggregate full valuation of the entire town. The share of such Village shall be paid directly to such Village. The share of the town shall be applied, first, to reduce taxes levied for part-town activities, and any balance remaining shall be paid directly to the town, to be used only for part-town activities. The amount to be applied in reduction of County taxes and general town taxes in each town may be determined on the basis of the ratio which the full valuation of real property in each town bears to the aggregate full valuation of real property in all of the towns in such County.

In the alternative, the amount to be applied in reduction of County taxes and general town taxes in each town may be determined on the basis of the respective populations of the several towns in such County, determined in accordance with the latest federal census or special population census taken pursuant to section twenty of the general municipal law, completed and published prior to the end of the quarter for which allocation is made, which special census must include the entire area of the County.

Any local law, ordinance or resolution enacted by a Town or Village pursuant to this subdivision shall only be effective for the calendar year or years subsequent to its enactment and, further, shall only be effective if it is mailed by registered or certified mail to the chief fiscal officer of the County in which the Town or Village is located before the first day of September preceding the calendar year for which the election is made of such local law, ordinance or resolution. Such local law, ordinance or resolution shall remain in effect for subsequent, calendar years until rescinded by local law, ordinance or resolution, but the enactment shall rescind the election only if it is mailed, in the same manner already provided for in the subdivision, to the chief fiscal officer of the County in which the town or Village is located before the first day of September preceding the calendar year for which the rescission is to apply.

The provisions of this Resolution eliminating the portion of such sales tax monies set aside for educational purposes shall take effect July 1, 1990, and written notice of the adoption of this Resolution shall be given by the Clerk of the Legislature to the school

authorities of the school districts in the County pursuant to Sl262(e) of the Tax Law.

RESOLUTION IN OPPOSITION TO THE SITING OF A LOW-LEVEL RADIOACTIVE WASTE FACILITY IN ALLEGANY COUNTY

WHEREAS, the Allegany County Board of Legislators has, through its Planning and Historical Committee, investigated the proposed siting of a low-level radioactive waste facility in said County, and found that such a facility is not suitable for Allegany County; and

WHEREAS, reasons for not allowing such a facility in Allegany County are as follows:

1. the close proximity of the area to the Clarendon-Linden Fault and to several geologic thrust faults under said area, which exacerbate the potential for facility failure should an earthquake occur;
2. the mineral resources, particularly oil and natural gas in the area are abundant based on levels of past exploration and the siting of such facility could eliminate the extraction of these resources;
3. the close proximity of such area to the Genesee River, a major ground water discharge zone, which serves as a source of potable water for residents north of said area along its entire course to Lake Ontario;
4. the great distance of said area from major low-level radioactive waste generators in New York State, creating an increased probability and threat of vehicular accident in the transporting of radioactive waste, thereby heightening the danger to residential communities and compromising the public safety;

NOW, THEREFORE, BE IT RESOLVED, that this Legislature does hereby support Allegany County in its opposition to the siting of a low-level radioactive waste disposal facility in Allegany County and urges the NYS

Low-level Radioactive Waste Siting Commission thoroughly investigate the social, economic and environmental issues and concerns expressed in this resolution.

Motion by Legislator Billings, with second by Legislator Swiercznski, to adjourn. Motion carried.

Meeting adjourned at 8:30 p.m.

LEGISLATURE MEETING
December 13, 1989

The meeting was called to order by Chairman William Vick. After the pledge to the flag, the Clerk called the roll and all legislators were present.

The Clerk presented the following communications: Minutes from the October 26th meeting of the Western Regional OTB Corporation; notice of a public hearing to be held December 14, 1989 for the purpose of considering the passage of a proposed Zoning Ordinance for the Town of Yates; a copy of the October 26th County Planning Board minutes, as well as the agenda for the November 30th meeting; a letter from the Village of Lyndonville in support of the County's resolution establishing a County Radio Communication Task Force; notice of the NYS Supervisors' and County Legislators' Association 40th annual winter conference scheduled for January 21-24, 1990 in Corning, New York.

Report of Standing Committees: Legislator Billings reported his usual departmental meetings; Legislator Berger told the Board that the District Attorney was working on the problem of uncollected fines; also attended a Probation meeting on December 1st; met with the Sheriff on December 5th; attended the presentation of longevity awards to Probation Department members on December 7th; attended the Soil and Water Conservation District Board meeting on December 12th as well as the public hearing on proposed Ag District No. 10; audited the bills on December 13th.

Legislator McMurray told the Board that the siding is being applied to the District Attorney's new offices and will be completed shortly. Legislator McMurray said, "I will not be here at the next meeting and because of this I will take a few minutes to thank you - all of my cohorts here and others who have been so easy to work with. I have enjoyed working with all of you and I wish each and everyone of you well in the new year, and the new legislators who will be coming on. I want to take this opportunity to thank each and every one of you for being friends through the six years I have been here."

Legislator Swiercznski attended the usual committee meetings for Social Services and Division for Youth. Legislator Bennett expressed concern and asked how the cleaning crew was making out at the County Administration Building and the new Mental Health Services Building. Mr. Dudek said that everything was going well - that the whole crew is being moved from one building to the other and that the work was getting done, even though the Buildings and Grounds Department was shorthanded.

Legislator Schaal reported that a resolution was on the evening agenda to adopt the County Budget for 1990.

Chief Administrative Officer Stan Dudek reported that the office supply bids were opened today, and that he has not had a chance to look at them. He noted that paper bids received seemed to be a good price. Recycled paper is 25% more than regular paper, and Mr. Dudek felt the county would not be able to use it.

With regard to insurance proposals, Mr. Dudek said they were to be in the office on Friday - that was the deadline date set in the request for proposals. Four different companies have picked up specifications.

Mr. Dudek said he was trying to get information together on a drug free work place program - legislation requires the County to have such a policy in place; federal grants will be affected by this. He noted that there is a feeling that the State will need to comply. Jim Parker, who is involved in the County's EAP Program is working on a policy. A person convicted of drug use has to report it within 10 days - this is a federal law pertaining to places receiving federal monies.

County Attorney Norris Webster reported on the trolley line as it relates to the landfill - the County does need a title. Abstract company received information that the County does not own it; that it was sold to Michael Matthews. The County does not have any ownership in the trolley right-of-way, some of which goes to the landfill.

With regard to the old village barn, Mr. Webster said he had nothing new to report. There is some activity - he has spoken with Mr. Church, the village attorney, about it. Mr. Webster and Mr. Church are to have a meeting, which has not materialized. Mr. Webster said that a resolution is on the agenda to set aside funds for that purchase, if the title is cleared.

During the open discussion portion of the meeting, Medina Journal-Register reporter Dan Cook asked Chairman Vick if the County had heard back from the State with regard to the County's request to have the Civil Service office investigated. Mr. Vick said that they (State Civil Service) had written back that they were going to deny us (County) the preliminary report on the agency's operation. Mr. Cook asked if that meant that anyone from the State is going to come down, or not. Mr. Vick said, "At this point in time, I have no response from the Civil Service Department.".

The following resolutions were presented:

BUDGET MESSAGE 1990

TO THE HONORABLE MEMBERS OF THE ORLEANS COUNTY LEGISLATURE AND TAXPAYERS OF ORLEANS COUNTY:

A "Good" budget is a careful analysis of policy as set up, and then a detailed plan of expenditures and revenues to enable these policies to be implemented. It is a tool to be used to guide the policymakers (the Legislature) in their decisions. It should be an accurate plan of control based on past experience, and current policy, and should reflect necessary detail only.

Obviously, budgets and budgeting, mean different things to different people, depending on vantage point and interest. For example, to a finance director, a "good" budget reflects accurate, balanced estimates, useful in financial planning and control. To a taxpayer, a "good" budget is "too low" for those programs favored by the individual taxpayer and "too high" as an aggregate of all programs.

We have attempted in this, our 1990 budget, to consolidate these thoughts into a plan that is acceptable to the taxpayers and provides the funds necessary to maintain the level of human and public safety services which our Orleans County residents have ascribed to. Submitted herewith for your consideration is the proposed Financial Plan for the County of Orleans for the 1990 fiscal year:

Areas that reflect a substantial increase in 1990 spending include: Buildings and Grounds Dept., up from \$384,138 adjusted budget in 1989 to \$418,190 in 1990. Additional costs in this department are the result of the acquisition of the new Mental Health Building and District Attorney's building and subsequently the inclusion of one new cleaner position. The increase in the Sheriff's Department (from \$1,068,681 to \$1,192,170) is due to an increase in insurance costs (\$38,500 in 1989 to \$49,367 in 1990), cost of replacement of vehicles, and the additional cost of personal services from \$879,638, adjusted 1989 budget, to \$923,758 for 1990. County Cost is up by 16%. The Jail County Cost increased by 23% in 1990, due to the increase in personal services (from \$545,530, adjusted 1989 budget, to \$605,000 in 1990.) However, we continue to offset much of the jail expense by boarding

prisoners (Revenue Account A2264) from other Counties. The Sheriff has estimated an additional \$50,000 in revenue, or a total of \$865,000 from this source for 1990. Animal Control shows an increase from \$58,158 to \$76,307 in appropriations (31%) due to the purchase of an incinerator (\$25,000) which is part of the Capital Plan. Civil Defense (A3640) shows an increase in appropriations from \$74,567 to \$91,607 (25%) due in large part to the appropriation of \$10,000 for the repair of the fire tower and loss of some Federal reimbursement.

Social Services has increased from \$9,446,828 to \$9,822,095, or 4% from 1989. The increase is in Administration (salaries) and Aid to Dependent Children, which increased from \$2,663,000 in 1989 to \$2,845,932 in 1990. This is partially offset by 24.8% State and 46.6% Federal reimbursement, which in some programs results in less reimbursement in 1990 for Social Services. Medical Management Information System (M.M.I.S.) indicates an increase from \$1,740,000 to \$1,940,556 (11.53%) from 1989. Home Relief shows a decrease from \$1,163,400 in 1989 to \$1,091,150 (6.21%) partially due to the efforts of the County Government to address unemployment and improve economic conditions through promotion and development of Tourism and the Job Training & Development Programs.

Handicapped Children Education (ARC and BOCES) and transportation (A2960.465) have risen from \$830,000 budgeted in 1989 to \$1,207,830 in 1990 (46%) in spite of strict cost containment measures and careful monitoring of programs. In the past ten years, this budget has reflected an increase from \$30,000 budgeted (\$16,500 actually spent) in 1980, resulting in an average increase of \$117,783 (or 39.26%) annually. Community Colleges (A2490.465) have risen from \$500,000 in 1989 to \$515,000 in 1990.

An increase of \$107,000 from 1989 to \$157,000 in 1990 has been appropriated for Solid Waste. This is an ongoing problem of huge proportions which the County Government is trying to provide for in conjunction with the GLOW program, along with Genesee, Livingston and Wyoming Counties.

BUDGET MESSAGE 1990 (con't)

The Highway Budget shows a decrease in appropriations from \$3,146,470 (adjusted budget) in 1989 to \$2,967,591 in 1990. However, County Cost has increased from \$1,535,678 in 1989 to \$1,652,416 in 1990 (8%). This is due to the loss of some State revenues. This includes Road Fund Debt Service (Short Term for Bridges) of \$131,200. This will be totally offset by interest earned on Bond Anticipation Notes (Bridge borrowings) investments. It also includes the operation of the Fuel Farm and the Orleans County Park Administration, for which \$50,675 has been appropriated, and \$59,675 budgeted as revenues. The \$9,000 excess funds from the Parks is transferred to (Long Term) Debt Service Fund.

We have designated \$80,000 in surplus from Debt Service, earned from investment of borrowed Serial Bond funds. This money is to be used to reduce the tax levy. The surplus from Capital Reserve (\$224,357) is money set aside to partially offset the cost of the Capital Plan, and will also reduce the tax levy.

As public servants we are continuing the never-ending struggle to provide essential services to the Community despite the rising costs, difficult State mandates and unprecedented decrease in State reimbursements. We realize that we must carefully monitor the fiscal affairs of Orleans County in the coming months as shortfalls continue to overshadow fiscal operations. The Orleans County Legislature has instituted budgeting disciplines in an effort to compensate for the loss of State Revenue Sharing (over \$236,000 annually) which the State cancelled in April 1989. This left a huge gap in our revenues, with less money to be used as a surplus to reduce the 1990 tax levy and also, less revenue to balance the 1990 budget. In this budget we have conscientiously worked to balance public needs with fiscal responsibility. We hope this proposed budget will yield the resources to continue to provide essential services at the least possible cost to the taxpayers.

Respectfully submitted,

MARY B. BASINAIT
Budget Officer

PROGRAM:

We are constantly trying to improve our budgeting process and make it more informative for the Legislature and the tax payers. This year we added two new features at the request of the tax payers group; an additional column which indicates the total appropriations with benefits and the number of employees in each department.

We were able in 1989 to make adjustments to budgets on a regular basis and for the most part were successful in keeping most departments within limits.

PROGRAM:

The money we receive is from the federally funded Jobs Training Partnership Act and is sent to our county to provide employment and training programs to those economically disadvantaged, target residents with barriers to employment and dislocated workers. During the last fiscal year we served 228 youth and adults with a variety of programs and services. Listed below are some statistics which show who we served and how well we did.

- 67 or 50% of all the adults we served were public assistance recipients. This number has increased significantly from previous years, primarily due to our close working relationship with the Department of Social Services. During the year, 47 recipients completed some type of training program. Of the 47 - 22 or 47% entered unsubsidized employment. Average wage at placement was \$4.66 per hour.

PROGRAM:

The department served 651 clients through Family Court Intake and Justice Court Diversion. Although lower than 1988, the diversity and complexity of the cases resulted in increased workloads.

We conducted a total of 503 pre-sentence investigations; an increase of 7% over 1988 and 38% over the past two years. The increases are due in part to our efforts to assist local Justice Courts and the increase in alcohol/drug related crimes.

Our supervision caseload of 491, although somewhat lower than 1988, was more intense, again due to the increased number of clients involved with drugs and alcohol.

PROGRAM:

We had good luck with our investment program in 1989, due partly to a more aggressive approach, but largely to more money to invest and decent rates. The fact that we didn't pay Retirement until December 15th gave us extra investment capital. Borrowing early for repayment of BAN's (bridges) also provided more interest earning monies:
