LEGISLATURE MEETING

January 30, 1985

The meeting was called to order by Chairman Billings at 7:30 p.m. After the pledge to the flag, the Clerk called the roll and all legislators were present.

Stephen Hawley, Assembly Speaker Stanley Fink and from the office of the Governor;

Board meeting minutes from the Soil and Water Conservation District Board for the month of January; A copy of a letter from Phillip J. Nelson, Ass't State Conservationist for Water Resources in reference to the Oak Orchard Small Watershed District.

Report of Standing Committees: Legislator Bennett noted that the Legislature had received a report on Social Services Title XX Program, and would like to do a review of Community Services programs to see what is mandated in that department. Legislators Cook and Swiercznski reported attending the usual meetings.

Legislator McMurray attended town and village meetings, and Legislator Vick attended the Waterfront Revitalization Meeting. Legislator Berger reported attendance at the usual meetings.

During the open discussion portion of the meeting, Supervisor Bob Winters of the Town of Ridgeway had given privilege of the floor. The Town of Ridgeway had received a letter from the County Health Department asking the Town to pay two fifty dollar fees for water tests/inspections performed by the Health Department. The letter stated that the payment was overdue, and if the Town did not submit payment, then the matter would be turned over to the County Attorney. Supervisor Winters asked the Board what service the Health Department actually performed for the Town, in order to charge these fees. He stated that the Town of Ridgeway took its own water samples, and transported them to the Laboratory in Batavia - the Health Department did not do this. Mr. Winters felt there ought to be more cooperation among the municipalities. During discussion of the situation, Legislators Bennett and McMurray agreed with Mr. Winters, and felt it wasn't "right" for municipalities to be charged a fee. It was decided that Legislator Swiercznski would meet with Mr. Staebble of the Health Department and report back to the Legislature at a later date. Mr. Winters thanked the

Legislators for allowing him to speak to them of the Town of Ridgeway's problem.

Announced the February and March schedule for Steve Hawley's "Listen-in" program.

Chairman Billings announced that remodelling work on the jail has already begun, and is expected to be completed next week.

During the open discussion portion of the meeting Mr. Dudek discussed the County Electric Agency. He commented that the Legislature had not appointed anyone to the advisory board, and that names were needed in order to make these appointments. Mr. Dudek explained that it was getting close to the time when the actual allocations to the County Electric Agency would be made, as well as the amount of power to be allocated. Mr. Billings said that Tim Spellman, Economic Development Coordinator, was working on the problem also, and would get back to the Legislature. Mr. Dudek said that there was a group challenging the formation of municipal power agencies; that he had received a letter requesting everything the County had on the subject. He also noted that the County could get its first allocation in July, and a decision has to be made

as to how the County Electric Agency is going to distribute this power. Therefore, it is important that the appointments be made to the County Electric Agency Board as soon as possible. At the suggestion of Legislator Vick, it was decided that each legislator would bring names of interested persons to the next meeting, and individuals would be selected and appointed at that time.

At this time, Legislator Vick introduced Local Law No. 2-Intro of 1985 entitled A LOCAL LAW INCREASING THE SALARIES OF VARIOUS EMPLOYEES OF THE COUNTY OF ORLEANS APPOINTED OR ELECTED FOR A DEFINITE TERM.

The Clerk presented the following communications: A letter from Senator John Daly, along with a copy of Senate Bill 4310-A, which he is supporting, and which will appropriate additional state funds for the Employee Specific Skills Training Grant Program. Part of this money would be allocated to BOCES for the workers displaced by the Owens Illinois and Abex closings.

Chairman Billings requested that Mrs. Hardenbrook notify the Legislature if and when she plans to do this, so that they are aware of the situation.

The following resolutions were presented:

Legislator Vick, with second by Legislator Cook, introduced a resolution approving a preventive maintenance and service agreement with CMW Ener-gineering, which would provide maintenance and service on the heating and cooling air conditioning equipment at the County Administration Building. Mr. Dudek explained that at the time the agreement was put on the agenda, it was felt that such an agreement would be beneficial to the County. However, he noted that since then, a one-day computer training program has been made available with the cost to be \$150.00 for the day. This would enable the trainee to become familiar with the computer controlling the heat/air conditioning equipment at the County Building. And with this ability, the person would be able to determine what should be done to put the equipment back in working order, without having to call a serviceman from Buffalo. The legislators agreed that this was a good idea, and it was decided that David Stevenson from the Buildings and Grounds Department should be the one to attend the training session. The suggestion was also made to have someone from Buildings and Grounds open the County Building Monday morning, and check the equipment to make sure everything is working properly. After this discussion, Legislator Vick moved to table this resolution. This was seconded by Legislator Cook. Motion carried. The resolution was tabled.

Legislator Berger attended the various town and

village board meetings in his district. Also attended the Soil and Water Conservation District meeting, as well as the usual committee meetings.

Legislator Vick explained that Judge Miles had formed a committee to put together 8 x 10 photographs of County Court Judges, going back many years. The question has been raised as to where these photographs should be hung. It was suggested that the east side of the corridor on the first floor in the Courthouse would be a satisfactory place for the pictures. After further discussion, it was the consensus of opinion to go ahead with this arrangement - Mr. Vick said he would notify the Buildings and Grounds Department to proceed. Mr. Vick explained that Judge Miles would be having a dedication ceremony after the pictures were hung, with the family members of the various County Court Judges in attendance, as well as representatives from the Office of Court Administration, and the members of the Legislature - more information on this would be forthcoming.

During the open discussion portion of the meeting, privilege of the floor was given to Paul Fancher, who explained to the Legislators that he was interested in forming a Hotline for Orleans County. Mr. Fancher explained he had talked to various people in the western New York area, to see about starting such a service for Orleans County. He said Assemblyman Hawley had advised him to come to the County Legislature. Legislator Swiercznski said he appreciated what Mr. Fancher was attempting to do. However, Mr. Swiercznski explained that there are approximately 74 counseling programs currently operating within the County. Mr. Fancher was advised by Mr. Swiercznski to talk with Robert Galbreath, Chairman of the Community Services Board.

Legislator Swiercznski commented on the fact that the flags were not put out around the Courthouse Square on the Fourth of July. After discussion, it was decided to have the Buildings and Grounds Superintendent attend the next Conference Session, to decide on a plan to ensure that the flags would be put out on the proper holidays.

LEGISLATURE MEETING

July 24, 1985

The meeting was called to order at 7:30 p.m. by the Chairman. After the pledge to the flag, the Clerk called the roll and all legislators were present.

The Clerk presented the following communications: A letter from Hugh James, Chairman of the Orleans County Chambers of Commerce Tourism Board re the "I Love NY" Matching Funds Application for 1985-86, asking that the Tourism Board be designated as the Agency to receive the Matching Funds.

Letter of resignation from T. Stacy Wood, as a member of the Orleans County Industrial Agency, the GLOW Private Industry Council, and the Orleans County Solid Waste Disposal Task Force.

Announcement from Town Board of Ridgeway that a public hearing to amend the Zoning Ordinance for Town of Ridgeway would be held July 19, 1985 at 4:45 p.m. at the Ridgeway Town Hall. Announced that minutes from the July 9th meeting of the Soil & Water District were received and were on file in the Clerk's office.

Letter from Norris L. Webster, resigning his position as Assistant Orleans County Attorney, to be effective July 14, 1985; A letter from County Attorney Thomas Young, announcing the appointment of John C. Gavenda to the position of Assistant County Attorney, effective July 15, 1985; A letter of disclosure from Legislator William L. Vick re intention to submit a sealed bid at the County Surplus Equipment Sale.

Letters of acknowledgement re the resolution adopted by the County supporting bills allowing teachers to buy their military credit from the NYS Retirement System.

Report of Standing Committees: Legislator Cook reported attending the usual meetings. Legislator Bennett attended the Sportsmen's Association Meeting, as well as the Solid Waste meeting. Mr. Bennett noted that they were working on a "Home Rule Message" in regard to controlling garbage, and that a meeting would be held with the various town and village officials before the paper goes to Albany. Mr. Bennett felt that the assemblymen and senators would be much more in favor of such a Home Rule Message, if everyone concerned were completely behind it.

Legislator Swiercznski had nothing new to report to the Legislature. Legislator Berger reported attending regular meetings, along with town and village board meetings. Mr. Berger also attended the Tourism Board meeting, and in reference to the applicaiton for funds, the Tourism Board had received a letter extending the deadline date for filing, on August 13th.

Legislator Vick said he had talked with Doug Strickland, the Director of Weights and Measures for the County. Mr. Strickland will be retiring the end of the year, and Mr. Vick felt this would be a good time to centralize that office. Mr. Vick said he had spoken with Mrs. Downey about possibly using a portion of the Real Property Tax Office for the Weights and Measures Department; also he had talked with the Buildings and Grounds Superintendent about storing the equipment used by the Weights and Measures Director. Mr. Vick mentioned that since the current director uses his own vehicle in the performance of his job, that a truck would have to be purchased by the County for the new director - more information will be forthcoming on this at the next Conference Session. There was discussion on the appointment of a new Weights and Measures Director. Mr. Dudek pointed out that according to the NYS Department of Agriculture and Markets, this position is a competitive Civil Service position, and must be filled from a list made up of people who have taken, and passed, the civil service test. The appointment is made from one of the top three persons on the list. After further discussion, Legislator Swiercznski, with second by Legislator Bnnett, moved to waive the rules, in order to allow for the introduction of the following resolution:

RESOLUTION NO. 249-785

With reference to the Tourism Board letter, Legislator Bennett commented that he would like to see the Medina Chamber of Commerce handle the whole

project. Legislator Swiercznski commented that it would be a good idea to have an Orleans County Chamber of Commerce.

Legislator Berger said he had a report from the Commissioner of Social Services re the Cluster Home project. Mr. Dudek explained that the Commissioner had agreed to come before the Board to make the report, but he felt it wasn't necessary, as everyone had received a copy.

RESOLUTION URGING AMENDMENT OF CHAPTER 828 OF THE LAWS OF 1985 ("FOSS" LEGISLATION) BEFORE NOVEMBER 30, 1985.

WHEREAS, on June 6, 1985, the New York State Court of Appeals decided in the case of Foss v. City of Rochester, et al that Article 19 of the Real Property Tax Law (the "homestead law") was unconstitutional as applied to Monroe County taxes within the City of Rochester (a homestead jurisdiction); and

WHEREAS, to cure this constitutional defect, the New York State Legislature enacted Chapter 828 of the Laws of 1985, which was signed by Governor Cuomo on August 2, 1985; and

WHEREAS, as acknowledged by Governor Cuomo in his approval Memorandum, "(t)here are a number of defects in the bill that will require correction"; and

WHEREAS, these serious defects, which in of themselves may render the legislation unconstitutional, include the following:

- (1) the legislation requires the approval of the budgets of all counties in the state by the legislative bodies of each town and city within the county with regard to each municipality's allocable share of such budget.
- (2) the legislation contains no remedy or redress for a county local municipality refuses to approve its share of a county budget or does not act in a timely fashion,

(3) the legislation supersedes all other laws, including any inconsistent provisions of county charters, thus wreaking havoc with current county budget adoption procedures,

(4) pursuant to the legislation, a county no longer levies its own taxes; rather, they are levied by each town and city "on behalf of the county", thus raising serious questions concerning the ownership of county tax liens and potentially undermining the validity of a county's tax delinquency enforcement remedies,

(5) because of definitional changes, the legislation does not apply to county special district charges, thus causing financial detriment to residential taxpayers paying such charges in homestead jurisdictions,

(6) the serious questions raised as to a county's budget and taxing authority may adversely affect county credit ratings, may impair a county's ability to borrow money, and may constitutionally impair a county's current obligations, and

WHEREAS, the defects in the legislation are so grave and the potential damage to all counties in the State of New York so overwhelming that the legislation, insofar as it applies to counties, must be amended before November 30, 1985.

NOW THEREFORE BE IT RESOLVED BY THE LEGISLATURE OF THE COUNTY OF ORLEANS as follows:

Section 1. This body most urgently requests that the Legislature and the Governor of the State of New York amend Chapter 828 of the Laws of 1985, entitled "AN ACT to amend the county law and the real property tax law, in relation to apportionment of certain tax district levies using assessment rolls of approved assessing units and levy of taxes in counties and school districts and to repeal certain provisions of the real property tax law relating thereto", insofar as it applies to counties, so that the defects recited above are cured by Chapter Amendments before November 30, 1985.

Section 2. The Clerk of the Legislature is directed to send certified copies of this resolution to the following:

Senate Majority Leader Warren M. Anderson
Speaker of the Assembly Stanley Fink
Governor Mario M. Cuomo

The Clerk presented the following communications: Letters from the towns of Albion, Gaines and Shelby requesting the County grant an increase in the Snow and Ice Agreement as of January 1, 1986 in the amount of \$100.00 per mile for plowing and \$100.00 per mile for sanding of County roads.

Mr. Vick noted that originally the house was slated to be sold at county auction. Then it was decided to give the house to the Housing Council for renovation, and eventually to be sold by the Housing Council. After more discussion, the Legislature decided to retain the house, and possibly demolish the house, and sell the land at county auction. This was to be done, if the village of Medina agreed to it, and if the report from the Buildings and Grounds Department indicates the building should be demolished.

Burnell Bingaman, Superintendent of the Buildings and Grounds Department informed the Legislature that he, David Stevenson, Buildings and Grounds Foreman, and Ashely Ward, Section 8 Housing Coordinator had inspected the property, and found it to be worthwhile in saving. Mr. Bingaman reported the location was fairly good - there are many nice homes on the street. Village utilities are available for the house. Some remodelling work had been done on the inside, and it was their opinion that the house was structurally sound. Mr. Bingaman felt that it would cost approximately \$20,000.00 to make the house livable. After further discussion, it was decided by the Legislature, to keep the house as it is, and put it back on the list of county-owned properties to be sold at auction.

A motion adopted by the County Assessors Association, as follows: "The Assessors feel that they have done their best to prepare good assessment rolls and do not wish to become involved in tax policy or setting of county equalization rates."

The minutes from the August 29th Board Meeting of the Western Regional OTB Corporation.

The report from Standing Committees: Legislators Bennett and Cook reported the usual meetings, and work with their departments on budgets.

Legislator Swiercznski reported meeting with the budget committee and County department heads to go over their budgets. Mr. Swiercznski also attended the Albion and Gaines Town Board meetings, and informed the board that he will be meeting with the Community Services Board to review resumes' for the Director's position in Community Services.

Legislator Berger reported attendance at the Division I Soil and Water meeting on the 26th, as well as the budget committee meeting with his department heads on the 2nd. Mr. Berger attended the regular meeting of the Soil and Water Conservation District on October 8th.

Legislator Vick told the board he had held budget committee meetings all week - commended Mr. Swiercznski for "hanging in there" for all the committee meetings. Mr. Vick told the board that a meeting had been held to discuss the drainage problem at the County Administration Building caused by the parking lot - water is draining off the parking area, causing soil erosion on the adjacent property. The Chief Administrative Officer, Mr. Dudek, and the County Highway Superintendent, Roger Peterson, were in attendance. It was decided that Mr. Dudek will get together with the County Attorney, and the landowner, Mr. Donald Freeman, and the Highway Superintendent and execute a document which will hold the County harmless while operating on Mr. Freeman's property. Gerald Scharping from Soil and Water had been contacted, and he felt that such a project would cost approximately \$2,000.00. Mr. Vick felt that Mr. Freeman should be made aware that he would be responsible for seeding the area, after the project is completed. Mr. Dudek suggested that the County allow Soil and Water to work on the project, as they have the expertise to do the job. This was agreed to by the Board.

The Supervisor from the Town of Shelby, Mr. Kenneth Schaal, was given privilege of the floor. Mr. Schaal spoke to the board in reference to the I.D.A. proposal for the S. A. Cook property - Triplex taking over the property. Mr. Schaal was not pleased with the way the project was handled - he said the payment-in-lieu of taxes offered was not acceptable. He asked that in the future, more consideration be given to the taxpayer and to the municipality involved - that the municipality be kept better informed. Mr. Billings explained that it's very difficult to induce businesses to come into the County, and that some concessions have to be made. He did agree that perhaps communication

between the I.D.A. Board and the municipalities concerned, could be improved upon.

The following resolutions were presented:

After the adoption of resolutions, the County Attorney, Thomas Young, was given privilege of the floor to discuss the solid waste problem, and what was being proposed. Mr. Young explained that this was discussed in Sub-committee, and the Committee went with the concept that the County desires to control the flow of garbage, and has to respond in a positive manner to the proposal. This particular proposal would seek to address the problem that municipalities run into when they try to control an area of business ordinarily done

by the private sector - municipalities can be sued for anti-trust. Once the State passes this proposed law, the County is then authorized to adopt a local law seeking new contracts for solid waste disposal - this would be done by the County on behalf of the towns and villages. It would not be mandatory, but would be discretionary - available to all towns and villages in the County. In a sense, this law would create a Solid Waste District. However, it is necessary for the proposal to be presented to the towns and villages, to obtain their input, and hopefully they will be in favor of such a proposal. Legislator Bennett said it would be presented to the towns at the next Supervisors' Association meeting in November. Then it will have to be taken to the villages. The County Attorney felt that the law was written loosely enough so that there shouldn't be any objections to it, but said that at least half the towns would have to be in favor of it, in order for the State to pass the law.

Mr. Dudek informed the board that a letter had been received from the Housing Council with an offer to purchase the property on Erin Road - also asked if he was scheduled to be on the agenda. Mr. Dudek asked the board how it should be handled. Legislator Bennett suggested that a letter be written stating that the County will accept the full amount of taxes owed for the property. This was agreed to by the board.

Mr. Dudek told the board that a request had been received from a County Highway employee, who had been injured on the job, to have the County continue to pay his Blue Cross/Blue Shield benefits, even though his sick leave had run out. This employee is currently receiving workers' compensation. Mr. Dudek explained that this would not be done for an employee covered by the union contract. Mr. Young explained that it is matter of policy, and asked the board's decision on the question. Mr. Dudek felt that it was a legal matter, noting that the I.R.S. is getting more critical in seeing that all income is reported. He said they would have a report on the matter for the next meeting.

Legislator Bennett mentioned that the Supervisors' Association would be meeting on October 15th and would be discussing equalization rates.

Legislator Bennett moved, with second by Legislator Cook, to adjourn. Motion carried.

Meeting adjourned at 8:30 p.m.

LEGISLATURE MEETING
October 23, 1985

The meeting was called to order by the Chairman at 7:35 p.m. After the pledge to the flag, the Clerk called the roll and all legislators were present.

The Clerk presented the following communications: A letter from the County Treasurer requesting permission to charge back erroneous taxes to the County and respective towns and schools; A request from the County Treasurer for permission to relevy unpaid school taxes which are to be added to the 1986 County and Town Tax Rolls of the respective towns as of November 1, 1985;

Reports from the Agricultural Advisory Districting Committee and from the Orleans County Planning Board recommending continuation of Orleans Agricultural District No. 4 (Kendall Ag District);

A letter of acknowledgement from Speaker Stanley Fink in reference to Assembly Bill 8294 requiring volunteer ambulance services to be staffed by only EMS-trained personnel;

A letter from H.L. Perry, Canal Permit Agent, to Mark Taylor, Canal Road, Holley, New York offering Mr. Taylor a revocable canal permit to occupy and manage State land consisting of a canal quarry on the south side of the Canal Road, adjoining his property;

Minutes from the Oak Orchard Small Watershed Protection District August 12, 1985 meeting; Letters of acknowledgement from Governor Cuomo's office and from Majority Leader Warren Anderson re EMS-trained personnel for the staffing of volunteer ambulance services.

Report of Standing Committees: Legislator Berger attended the Yates Town Board meeting, the Tourism Board meeting, regular Staff meetings at the Department of Social Services, as well as meeting to review applications for the position of Nursing Home Administrator. (Mr. Dudek announced that four interviews had been arranged with applicants for that position to be held on November 7th beginning at 3:00 p.m.)

Legislator Vick attended the Supervisors' Association meeting to discuss equalization rates, etc.; also held several budget meetings and

finalization meetings on the budget.

Legislator Swiercznski reported attending the board meetings for the towns of Albion and Gaines, as well as the Public Health Board Meeting and Community Services Board Meeting. Mr. Swiercznski met with the hospital group, and will have another special Community Services meeting tomorrow night.

Legislator Cook attended the usual meetings, as well as meeting with the Real Property Tax Director.

Legislator Bennett attended the Supervisors' Association meeting, and the Fishery Advisory Board meeting, and met with his department heads. Mr. Bennett noted that the county once again provided sanitary facilities for the fishermen during the fishing derby. Ron Foley of the Parks Commission and Ned Holmes from the Seagrant Board met with the Carlton Town Board and the impression the town board had was that Mr. Foley, upon agreement with the town, would provide sanitary facilities during the fishing derby. In reference to keeping Lakeside Park open for a longer period of time, Mr. Bennett said the state felt that Riverside Park could handle the fishermen who would be in the County for the derby. Mr. Billings thought that if pressure could be applied, then maybe the closing date for Lakeside could be extended for next year.

During the open discussion portion of the meeting, Mr. Billings welcomed class members from Lyndonville Central School, who were attending the meeting as part of the Youth in Government program in their school, and proceeded to explain the procedure followed by the Legislature in preparing for the meeting.

The following resolutions were presented:

Legislator Bennett said we should make it known to the Chambers of Commerce that we would be willing to match their funds to a certain extent. Legislator Vick agreed that this would be a good idea and suggested that a resolution be presented regarding this before the end of the year.

Legislator Vick made a motion to authorize the County Treasurer to rework the Nursing Home budget by reflecting an additional \$59,534 in revenues, and the same amount to be added to the contingency fund. This was seconded by Legislator McMurray. All agreed.

BUDGET**

BUDGET MESSAGE 1986

TO THE HONORABLE MEMBERS OF THE ORLEANS COUNTY LEGISLATURE AND TAXPAYERS
OF ORLEANS COUNTY:

Each year the job of managing governments becomes a little more complex. This is especially true in the financial arena, where new requirements and procedures tend to enter the public sector with greater frequency. Fortunately or not, we live in a society that expects elected officials to be on top of these developments, and to respond with policy decisions that enhance their jurisdiction's financial performance and credibility. This proposed 1986 Budget represents this Committee's best estimate of the fiscal needs of this community for the ensuing year.

Budgetary estimates are restrained, with revenues projected prudently, and expenses realistically. Each department head was requested to evaluate all existing and possible new sources of revenue appropriate to their operations with an eye towards increasing non-tax revenue.

Many of the programs in our budget are mandated by State Law. This Proposed Financial Plan will require a total expenditure of \$20,083,905 - \$8,568,936 (or 43%) of which is estimated for Social Services - in wholly mandated programs. Public Safety costs have increased by \$189,561 over last year, but revenues - largely from housing prisoners from other counties - has compensated for the increased costs by an additional projected revenue amount of \$277,651 (47%).

Debt Service (General Fund) shows an appropriation of \$66,840 (9770-7) as interest due on Revenue Anticipation Notes, which were moneys borrowed for cash flow purposes in anticipation of the payment of Federal and State reimbursements. This amount is offset by an appropriate amount of investment revenue, which will be available to pay the interest expense when the notes mature in April. The need for a \$100,000 budget note in 1984, to cover a deficit in Social Services did not materialize. We recommend the 1985 tax moneys raised to cover this appropriation be used for a cash surplus to reduce the 1986 taxes.

Our community, as well as all other municipalities in New York State is experiencing unprecedented insurance levels. In 1985 the cost of insurance amounted to \$185,495, which was 52% (or \$97,025) more than was budgeted. We believe that the cost in 1986 will exceed \$344,288 and we have budgeted accordingly. This results in a 282% increase over 1985. Other major appropriation and revenue changes include: Education of Handicapped Children expense estimated at \$588,220 (50% of which is reimbursable) is an increase of 29% over 1985; Interest Income is reduced \$100,000 (or 33%) because of lower interest rates, and less money available for investment. We are faced with a loss of Federal Revenue Sharing Funds commencing with Federal fiscal year 1986-87.

We have to the best of our ability, accounted for, and reported, on our financial operations in a manner that is consistent with established New York State standards better known as Generally Accepted Accounting Principles, or GAAP.

We believe that we are presenting a "good" budget to the Legislature, and the taxpayers of Orleans County, reflecting accurate, balanced estimates, which we hope will be useful in the financial planning and control for the year 1986. We have, in a spirit of cooperation, accomplished much in the past year. We look forward to continued progress during the coming year.

Respectfully submitted,

Mary B. Basinait

LEGISLATURE MEETING
December 11, 1985

The meeting was called to order at 7:30 p.m. All legislators were present.

Report of Standing Committees: Legislator Vick reported he and Mr. Dudek had attended a meeting in Seneca Falls. The topic of the meeting was the Yates County Self Insurance Program and was presented by Penco of New York State. The main idea of the program was that instead of paying for insurance to cover the County's loss, payment is made to cut the County's loss in half. Enabling legislation has been passed by the Assembly to allow counties to pool with towns. However, this has been held up in the Senate because the bill does not have an over-sight responsibility for the State Insurance Department. Mr. Vick explained that the County has to find out by February 1st if the County can renew its premium, or will it have to take what is offered. If the county decides to selfinsure, then the issue will have to be addressed, and an attorney and a safety engineer will be needed for inspections - it is not an easy issue to decide.

Mr. Dudek informed the Board that the County's general liability insurance had been extended to the end of January and that the Nursing Home will continue to be covered. Medical malpractice for Mental Health and Public Health Departments had been cancelled - it may be extended for a month. Public Officials' Liability (elected officials) will not be renewed. They will not be covered as of January 1, 1986.

The comment was made that the Court System has awarded such large sums of money for claims, that insurance companies do not want to insure municipalities.

Legislator Berger reported attending the budget hearing on the 14th, as well as the Ag District Hearing in Kendall on the 20th. He reported meeting with staff at the Department of Social Services on the 26th, as well as attending the interviews for the Director of Weights and Measures position on the 27th. Mr. Berger also attended the Soil and Water Conservation District Meeting the previous meeting.

Legislators McMurray and Swiercznski reported attending the usual department head meetings. legislator Schaal had not report other than what had been discussed in the Conference Session in the afternoon.

Legislator Bennett reported that the KYC Waterfront

meeting will be held on December 17th at the Carlton Firemen's Recreation Hall at 8:00 p.m. The legislators were invited to attend. Mr. Bennett said he felt that the Committee had done a good job - had put together a good program, one that should work out well, if there is follow-through.

The following resolutions were presented:

Legislator Bennett introduced a resolution to pay a claim from the Capital Project Account H7180 from Wendel Engineers re Oak Orchard River Marine Park. This was seconded by Legislator Vick. In some counties the Director uses a van (Genesee and Wyoming counties) and the Director in Livingston County has a pick-up truck. There was general discussion on how a vehicle should be funded, and it was decided to increase the 1986 Social Services Equipment account by \$4,000.00 in exchange for the transfer of a 1984 Cavalier Wagon to the Director of Weights and Measures. This would be decided at the next meeting.

There was discussion on Mr. Pulley's concern over ARC's application for Federal funds. If ARC were to have a transportation service, they would be in competition to CATS. Mr. Dudek said Mr. Pulley would be getting figures to him as to how this would affect CATS.

There was discussion on the resolution, with Legislator McMurray stating that \$6,000.00 was a little high for this type of study, and suggesting that perhaps the Director of Planning and Development could do this work. Mr. Dudek said that Mr. Rountree felt that he didn't have the expertise to formulate a satisfactory plan, but that he would be working with the architects, and helping whenever possible. Mr. Dudek recommended that the Legislature go ahead and approve the plan. The following resolution was then adopted:

Legislator McMurray, with second by Legislator Berger, introduced a resolution setting salaries of officers and management employees commencing January 1, 1986. During discussion of this resolution, Legislator Vick commented on the fact that it reduced the salary of the Director of Weights and Measures, and stated that the individual who had accepted the position had accepted the position at a higher salary. Mr. Vick felt that it was improper to change the salary at this time. Legislator Schaal, said, after looking over the Compensation Plan, he felt that if certain salary corrections were not made, then the Compensation Plan would be destroyed. Mr. Schaal commented that at the time the earlier resolutions were made and adopted, not enough thought had been given to the matter, and that

it would be better for all concerned to admit to an error, and to correct that error. Otherwise, the Legislature would be creating a "Pandora's Box". Legislator Berger agreed with Mr. Schaal. Legislator Bennett commented that he agreed, and had felt this way at the last meeting. Legislator Bennett stated that he was not happy with the salary listed for the legislators, and moved to amend the resolution, to read that Orleans County Legislator salary be listed at \$6,000.00. The motion failed for lack of a second.

Mr. Dudek commented that earlier, the board had mentioned the possibility of reconvening the Salary Study Committee, and Chairman Billings suggested that this be done, at the first opportunity.

The following resolution was presented and adopted:

In looking back over the 1985 year, it was a busy but unexciting year. The Legislature was required to spend an inordinate amount of time on fiscal matters due to uncontrollable growth in state mandated programs and the overall loss in federal revenue. The Legislature worked long and hard and set aside their differences of opinion to make decisions which were for the best interests of the people of Orleans County. On behalf of the County Legislature, Rich Bennett, Frank Berger, Ray Cook, Lorne McMurray, Ken Schaal, Ted Swiercznski, and Bill Vick, it is my pleasure to submit this report to the people of Orleans County.

On the fiscal side, a number of positive things happened. Sales tax receipts were \$300,000 more than anticipated. In addition, receipts for the housing of out-of-county prisoners exceeded the budget by more than \$200,000. With Social Services spending down nearly \$500,000, it would seem the county would end up with a sizeable surplus, but it was not to be. Early in January, the county received notice that the insurance cost would nearly double, wiping out the entire amount in the county's contingency fund. Later in the year, the county received notice that, as a result of a fiscal 1980 audit to Home and Infirmary accounts, the county would have to repay more than \$150,000 in overpayments to the State. Another negative issue was the cost of the preschool

handicapped childrens program which exceeded the budget by more than \$150,000. In six years this program, mandated by the State, has grown from less than \$48,000 to \$620,000 in 1985 and has become a major uncontrollable burden for counties across the state.

These items, coupled with \$70,000 of overspending by the County Highway Department, left the county with a minimal increase in fund balance of \$36,000 at years end.

The Veterans Office was busy in the spring processing veterans exemptions applications as a result of the Alternative Veterans Exemption Act. This resulted in over 1750 applicants receiving a tax break. Congress provided a 3.1% increase in pension and compensation rates for veterans in the latter part of the year which also helped those who served our country.

The Sheriff's Department was the first in New York State to be accredited through the New York State Sheriff's Association. The department had to meet special criteria in order to maintain accreditation by upgrading training thus making the department more professional and better qualified to serve residents. The Alternatives to Incarceration Program began this year whereby the Judge sentences individuals to community work rather than a jail sentence in certain cases.

The Court of Appeals handed down a decision argued by the Attorney for the Department of Social Services whereby when an applicant under the age of 21 applies for public assistance, it was found that the parents are still responsible for that child. This was the first time an Orleans County Attorney ever obtained a unanimous decision from the Court of Appeals.

In 1985 there was a decrease in the number of persons requiring public assistance. With the help of the Home Energy Assistance Program, there were 1950 Orleans County households that met the fuel needs.

The Social Services Department applied for and received a grant for a program for Teenage Pregnancy. Social Services will play a major role in administering the program with assistance from many different agencies throughout the county.

In the work relief program, project HIRE, there were 221 recipients assigned to work relief work sites and the total valued of work relief hours was \$199,278 for the year. This was a savings of \$88,795 in public assistance and food stamps as a result of clients either finding employment or being sanctioned for failure to comply with agency work rules.

The County was pleased to celebrate the 25th Anniversary of the Home and Infirmary on August 25 with a reception for county residents and a renaming of the Infirmary to Orleans County Nursing Home. In December, the Nursing Home welcomed a new Administrator.

The Office for the Aging received a grant award for \$25,000 for the home delivered meals program. These monies will be used to remodel the kitchen of the Nutrition Program. In the Health Department, a new Public Health nurse position was created to handle the increased work load. That Department received a commendation from the New York State Health Department for having 100% of children attending school fully immunized. The Community Services Department functioned at a great disadvantage for much of 1986 due to the resignation of the Director and several key staff. In spite of this disadvantage, we continued to provide quality mental health services to the people of Orleans County because of the extra effort made by the staff. Not only did they continue to provide quality service, they also served an average number of clients.

Tourism was a big issue with the engineering work on Oak Orchard River Park going smoothly and an increase in the fishing industry along the lake towns. Senator Daly came to the County's aid with the availability of Fisheries Grant money totalling \$100,000 for improving facilities for fishing and tourism.

The year found the Planning and Development Department involved in many areas with numerous accomplishments. Perhaps the greatest time commitment was the preparation of the local Waterfront

Revitalization Program with the three northern towns in the county. This effort will be completed by July, 1986. In mid-year, we saw the results of an engineering study which recommended the county not participate in a joint county incineration project with Genesee County. The Legislature reviewed the possibilities of creating local refuse districts to better deal with solid waste problems should an emergency arise and after presentation to the towns and villages, submitted a request for Home Rule Message. The Department was actively involved in meetings of Falls Road Shippers Association to monitor the impact of the Owen-Illinois closing and the sale of Conrail.

In the economic development area, visits were made to all manufacturers in the county in 1985. These visits helped to service many needs of local employers which staff attempted to address. The IDA authorized two bonds one for \$522,000 for the expansion of Shelby Crushed Stone and the second offered an inducement resolution for \$500,000 in an attempt to assist the utilization of Albion Main Shopping Center.

The County obtained membership in the Western New York Economic Development Council in 1985. We succeeded in bringing the Director, Mr. William Donohue to Orleans County, who reviewed presentations from various segments of the local economy.

The Highway Department had a busy season reconstructing six highways, removing the Clarks Mills Bridge in Holley, installing a new bridge on Woodchuck Alley in Kendall, and installing new road signs and guardrails throughout the county.

The Buildings and Grounds Department completed many projects to improve the buildings including new sidewalks and handicapped ramps at the Nursing Home. They put a new roof on the Highway garage and installed dry wells to take away storm water at Central Hall and the Court House. In the jail two steel partitions were constructed in the women's cell block and the offices were remodeled and expanded. A new speaker system was installed in the Court House and a client-attorney room was completed for confidential consultation.

In response to requests from county residents, Orleans County Genesee Community College to offer seven credit courses at the Albion High School in the Fall. This made it easier for residents to continue their education closer to home.

The Legislature offered eligible county employees early retirement and 30 employees took advantage of this opportunity. This left vacancies open in many departments and job possibilities for residents in the county.

Except for professional level positions, the filling of vacancies has not been difficult with more

than 500 individuals applications on hand in various departments and on civil service lists.

The year began with an impasse in CSEA negotiations which ultimately settled in April with a two year contract. The union representing the Sheriff's department employees, AFSCME, began negotiations but were unable to resolve major issues by the end of the year.

The Legislature worked on and established a Management Compensation Plan to include management, confidential, and elected officials. This was set up as a step and grade system for salaries and increments.

Even though unemployment is a main concern today, during 1985 Orleans County saw a 22% turnover in employment. In addition, this does not reflect the vacancies brought about by the early retirements at the end of the year.

My compliments to the members of the various advisory boards, department heads, and people of Orleans County for all their efforts. With the coming year, the County Legislature will again endeavor to wisely anticipate the needs of county residents and properly manage and control tax dollars.

PROGRAM County Historian C.W. Lattin carried out his duties in 1985 much the same as in previous years. He wrote fifty-two weekly columns on various subjects under the heading Bethinking of Old Orleans. He also spoke to all the fourth grade students in Orleans County on local history at various times during 1985. Tours were also conducted by him at the Cobblestone Museum Complex in Childs for around 900 students. He also led tours of fourth grades from Albion through the Court House, Legislative Chambers, County Clerk's office and Pullman memorial Church. Unnumberable adult tours were also given at the Cobblestone Museum and the County Square.

The Historian was also asked to speak before various civic GROUPS on Local history. He was also active on the Orleans County Chambers of Commerce Tourism Board. In the fall of 1985 he assisted in the writing of a booklet entitled To Preserve and Educate published by the Cobblestone Society.

PROGRAM Our program year ran from July 1, 1984 through June 30, 1985. This program year could be characterized as not meeting all enrollment and placement goals. Economically, things began picking up in the 2nd quarter of 1985. Statistically, 30% of the people completing some type of training program received unsubsidized employment. It has become increasingly difficult to identify occupational demand areas for which JTPA eligible residents could be trained. Opportunities in the Rochester-Monroe County area presented most of the significant gains in available employment. However, in the 2nd quarter of 1985, local employers began identifying new hires or recalling laid off workers. The closing of the Owens-Illinois plant in Brockport and the announcement of the closing of the ABEX plant in June created a significant high number of dislocated workers. Prospects for 1986 are good. Many local employers indicate the possibility of new hires are good. The percentage of youth to be served in Orleans County with JTPA funds remains a major problem. Some legislative relief is necessary.

Highlights

- the establishment of 2 Resource and Placement Centers to aid the large number of dislocated workers who were laid off from Owens Illinois and Abex. Each center attained better than average success in helping these workers find new employment. Each center either directly or indirectly assisted about 55% of these workers find new employment.

- The number of OJT contracts written in 1985 quadrupled the number written one year before. Most of these were written in the second half of 1985 and is witness of the increased hiring projected by local employers and those employers in Monroe County.
- Summer program of 1985 was one of the largest programs run. Dollars for this ten week program have increased the last two years. 123 youth were served.
- A very successful Machinist training program was run. 9 out of the 12 were placed.
- ABE and GED continue to be a very popular program. 10 classes are being operated and they are full.

SERVICE RESPONSIBILITIES

To provide Intake/Diversion¹, pre-sentence investigations², and Probation supervision services³, toward contributing to the system's handling crime problems in a safe, effective, humane and yet economical fashion.

- 1 Intake/Diversion, where it's the choice of the victim, adjusts cases by counseling and negotiation between offender and victim, without Court action, generally in cases involving marital discord, separated spouses (non-support, custody, and child visitation), children committing crime, runaway and incorrigible youth, neighborhood disputes, minor crimes, first offenses, domestic violence, family fights and disputes.
- 2 Investigations attempt to give the Judge a factual picture and an emotional grasp of the human before him so that he can sentence in a manner best suited to the protection of society, the rehabilitation of the defendant and to deter others from committing crime.
- 3 Through understanding, concern, and discipline, the probation officer helps the client avoid further criminal activity and to become a more productive community member.

PROGRAM The Orleans County Public Defender's Office consists of two part-time attorneys: The Public Defender, Assistant Public Defender and a full time secretary. These attorneys share responsibility for providing legal representation to poor persons charged in twenty-two (22) Town and Village Courts and in County Court. Representation of defendants charged with certain violations, misdemeanors and felonies involves, among other things: Appearance at arraignment, discovery demands, pre-trial motions and hearings, trial and post-trial motions. Additionally appeals may be taken which involve legal research, preparation of a law brief and oral argument in the Appellate Division if the appeal is not submitted.

Other matters involve probation violations - revocation matters, extradition-habeas corpus, §440 CPL matters and parole revocation hearings. It is my sense the work load has increased through representation of inmates at both the Albion and Orleans Correctional Facilities. We are representing these inmates regarding their appeals from denial of parole.

The actual number of recorded matters handled by this office in 1985 was 534 criminal charges. That figure does not seem to take into account matters other than criminal charges.

Based on our figures to date, the number of cases projected to be handled in 1986 will approach approximately 800.

* Print out indicates \$21,650 for assigned counsel while present budget sets such at \$16,000.

PROGRAM

The major project of 1985 was implementing on the assessment rolls the new property values generated by the update of assessments by all town assessors. Even though this work resulted in a \$57.9 million increase in assessed valuation of the county, more exemptions and larger county and town expenses offset the increase to the point that the decrease in actual tax rates was very small.

Processing of tax rolls and bills for towns, schools and two villages went relatively smoothly in our second year of involvement, and products were delivered in good time.

The Director and assessors have attended several training sessions during the year, to add to their expertise and to comply with State requirements for continuing education credits.

There seems to be an increasing awareness of this department as a source of much information about property in the county. The regular workload of updating property records and tax maps, assisting assessors, attorneys, realtors and taxpayers increases yearly as more property transfers take place, and more new legislation and state rules and regulations are formulated.

PROGRAM

- ① Total Budget less than in 1984 as Youth At Risk Program Coordinator transferred to Probation payroll, but still remained a part of Youth Bureau staff.

The Youth Bureau continued its service in 1985 of providing or funding a wide range of youth services.

As the accompanying documentation illustrates, we had contact with 2,049 youngsters in nine different program areas.

The Rent-A-Kid and Youth At Risk Programs, two direct administered services continued their development and growth. (See attached comments.)

Undoubtedly, one of the highlights of 1985 was our Annual Youth Recognition Awards Banquet honoring thirteen youngsters for their special service to the community. The event was attended by more than eighty people and the youngsters in addition to receiving Youth Bureau Plaques and Commendation, also received a personalized letter highlighting their accomplishments from Governor Cuomo.

Such release shall run to the County and release the County from any claim or debt or liability to the person or corporation signing the release as a result of the County's conveyance of the property to the offeror. Releases from individuals or corporations holding easements on the property will not be required.

7. (a) The County in its sole discretion may reject any offers to sell parcels privately and may, in addition to any requirements set forth herein, require or impose such other additional restrictions or conditions on any sale of property.

LEGISLATURE MEETING

March 26, 1986

The meeting was called to order at 7:30 p.m. by the Chairman. After the pledge to the flag, the Clerk called the roll, and all legislators were present with the exception of Legislator Berger, who was excused from the meeting, due to illness.

The Clerk presented the following communications: Notice from the NYS Department of State that Local Law No. 1 of 1986 had been filed; a copy of the Soil and Water Conservation District minutes for the March 11th meeting;

A copy of the Genesee/Finger Lakes Regional Planning Council 1985 Financial Audit; a letter from Cubmaster Robert P. Elkins, Cub Scout Pack #35, requesting the use of one of the County's surplus typewriters;

A letter from Sheriff Green designating Stan Dudek to represent the Sheriff at the upcoming union negotiations.

Report of Standing Committees: Legislator Vick reported meeting with Senator Daly in Albany, during the Legislative Conference. Mr. Vick presented the plan the County has for Oak Orchard River Marine Park, and indicated that the County was displeased with the amount of State aide it was to receive. Mr. Vick said they came to the conclusion that the County may have to curtail some of its design for the park - most likely the launching ramp. Senator Daly indicated that the County may be able to get approximately \$125,000 in State aid. However, Mr. Vick felt that the County may have to spend \$50,000 - \$60,000 of its own money to receive this higher level of funding. Mr. Vick said that Assemblyman Hawley and Senator Daly would be at the Legislature Chambers on April 8th in the afternoon to discuss this funding. Apparently, an archeological report from the area is needed by DEC. Legislator Vick also gave a brief report on FRS and its status as far as congressional support is concerned, and asked that letters be sent to congressman from this area urging that they support the continuance of Revenue Sharing. Mr. Vick reported that a member of the Treasurer's staff had been elected to the Board of Trustees of the

Arnold Gregory Memorial Hospital.

Legislators Swiercznski, Schaal, Bennett and McMurray all reported attending their usual departmental meetings.

Chairman Billings mentioned that the U.S. Department of Agriculture representative, Mr. York Knapp had advised him of a feed grain program available to area farmers, and which is available for a two-week period of time. The sign-up procedure is rather lengthy, and the Department has been urging those interested farmers to sign up as soon as possible. Adopted. 7 ayes; 0 nays; 0 absent.

Privilege of the Floor: Legislator Vick spoke in reference to the Western New York OTB office, located in Orleans County, and said that funds received in Orleans County so far this year, totalled \$8,269.00, and increase of \$2,663.00 over last year.

Legislator McMurray spoke to the Legislators in reference to a request received from Probation Director Robert Golden, asking for permission to hire a former employee as a temporary clerical person, to fill vacancies which will be forthcoming in his Department. Mr. Golden had interviewed applicants from the Civil Service list, but had not been able to find anyone willing to accept a temporary position; two of the people he interviewed were only interested in full-time employment. During discussion of the matter, Mr. Dudek mentioned that there were three girls who had expressed interest in the position, and felt that the position should be filled through the use of the Civil Service list of eligible stenographers. After continued discussion by the Legislators, during which time it was mentioned that it wasn't the intent of the Legislature to put people who had retired back to work, and that he should continue to look for a replacement through the usual channels, Mr. Dudek was instructed to meet with Mr. Golden and explain to him the views of the Legislature.

Legislator McMurray also said he had been requested by the STOP DWI Coordinator to present to the Board a request from the New York State Police to purchase an Alca-sensor Unit. The State Police would like the County to use County funds to purchase the unit. It was discussed at a DWI Coordinating Committee meeting, and there was some objection in doing this. Legislator Schaal felt that the recommendation to purchase this equipment for the State Police should come from that Committee, and that the matter should be referred back to them. Legislator Swiercznski felt that if the State Police were generating revenues for the County in the number of DWI arrests, then some of the funds should be used to purchase this equipment for them. Chairman Billings suggested that it might be helpful if a representative from the State Police were to speak to the Committee, and to the Legislature.

With reference to the Deferred Compensation proposal, Mr. Dudek informed the Board that he had sent a survey form to those who would be eligible for deferred compensation, with a return date of April 15th. Mr. Dudek will report back to the Board with the results of the survey at a later date.

Legislator Schaal inquired as to the status of the Management Compensation Committee. Mr. Dudek reported that the Committee had met, and that Carri Blake, the

Office for the Aging Director had been appointed Vice-chairman of the Committee. Mr. Dudek said a meeting is scheduled for the 10th, with two more meetings to follow. A report will be given to the Board within six to eight weeks, and a recommendation on upgrades would be made at that time.

Legislator Vick mentioned the Jones Commission and its recommendation on the proposed insurance bill which is before the Legislature. Mr. Vick said he had received a letter from Senator Warren Anderson in reference to this urging that pressure be brought to bear on the Governor and the Legislature for the passage of this bill. After discussion, Legislator Vick moved, with second by Legislator Berger, that the Chairman of the Legislature write a letter on behalf of the Legislature to the Governor and to the appropriate parties supporting the findings of the Jones Commission, and urge the Governor to support the Commission and its findings. Motion carried, with 6 ayes and 1 nay, Legislator Bennett.

Legislator Schaal informed the Board that figures in reference to the number of fuel storage tanks are being put together. Mr. Dudek noted that the storage tanks have to be registered by May 8th. However, if some of the storage tanks can be closed, then they can be registered as abandoned tanks. The decision has to be made as to who will be looking into the matter and will actually be closing the tanks. Legislator Schaal expected to have more information for the Board at a later date.

Mr. Dudek said he had spoken with the Mayor of Albion, Joe Sacco, about the property the County was interested in obtaining from the Village. A meeting will be held the 23rd to discuss the purchase; a purchase price of not less than \$30,000.00 was discussed.

Legislator Berger reminded the Board of the meeting on the 10th at 4:00 p.m. with Senator Daly to discuss Oak Orchard River Marine Park.

Motion by Legislator Schaal, with second by Legislator Bennett, to adjourn. Motion carried.

Meeting adjourned at 9:35 p.m.

SPECIAL LEGISLATURE MEETING
April 19, 1986

The meeting was called to order at 11:50 a.m. by the Chairman. After the pledge to the flag, the Clerk called the roll, and all Legislators, with the exception of Legislator McMurray, were present.

Legislator Vick was given privilege of the floor, and stated that the auction went very well; that the County did make some money on it. Legislator Vick mentioned two areas which concerned him. One was in reference to the piece of property located in the Town of Yates, Tax Map No. 23.00-1-35, about which Mr. Woodworth spoke, and informed those present that he considered himself as the owner of this particular property, and not the County. According to County records, the owner is listed as "Unknown Owner". Mr. Vick requested the County Attorney to investigate this further and report back to the Legislature. The other concern was with the Crowner property (Tax Map No. 115.00-1-26) located in the Town of Barre, which sold for \$900.00. Mr. Vick felt the County should not approve of that particular sale, since \$2933.12 was owed in back taxes.

After further discussion, Legislator Schaal moved, with second by Legislator Bennett, to accept the bids received at the County Auction except for the piece of property located in the Town of Yates, and listed as Tax Map No. 25.00-1-35. Legislator Vick moved to amend this resolution to exclude the Crowner property, located in the Town of Barre, and listed as Tax Map No. 115.00-1-26, and to deal with it individually. This was seconded by Legislator Berger. Legislator Swiercznski said the County should go ahead and accept the bid for that property, so that the property could be placed back on the tax rolls. The County Treasurer agreed. The amendment was withdrawn, and the original resolution was then voted upon and adopted, as follows:

RESOLUTION NO. 165-486

By Legislator Schaal, who moved the adoption.

Seconded by Legislator Bennett.

RESOLUTION APPROVING SALE OF COUNTY-OWNED PROPERTIES

BE IT FURTHER RESOLVED, that the standard form quitclaim tax deeds be prepared for the separate parcels and delivered to the County Treasurer for execution and delivery upon receipt of the balance of the purchase price set forth in the said deed.

Adopted. 6 ayes; 0 nays; 1 absent, Legislator McMurray.

Charles Barone and Glenn Stalker appeared before the Board to request an extension to allow for the final payment on the property for which they submitted a bid. They felt this was necessary in order to secure a loan from a bank for the balance of their bid. Legislator Vick stated that on advice of Counsel, that since the auction was presented to the people on specific terms, it would be totally unfair to anyone else to make an exception as to method of payment. Legislator Swiercznski suggested that they go ahead and apply for a loan, and then if they needed an extension, come back to the Legislature at that time with their request. The other members of the Legislature agreed to this procedure.

Legislator Vick also stated he had received a letter from the Director of Civil Defense requesting consideration for an upgrade. Mr. Vick noted this letter was late in getting to him, and asked if the Legislature felt the letter should be forwarded to the Management Compensation Committee. After discussion, it was agreed to forward the letter to the Committee.

Motion by Legislator Bennett, with second by Legislator Vick, to adjourn. Motion carried.

Meeting adjourned at 12:30 p.m.

LEGISLATURE MEETING

April 23, 1986

The meeting was called to order by Chairman Lyndon Billings at 7:30 p.m. After the pledge to the flag, the Clerk called the roll and all Legislators were present.

The Clerk presented the following communications: Letter of acknowledgement from Assemblyman R. Stephen Hawley in response from resolution 120-386 requesting State Aid for Oak Orchard River Marine Park. Mr. Hawley said that he and Senator Daly were successful in securing a \$125,000 appropriation for the Park in the 1986-87 Budget.

A memo from Robert Tirsch, Youth Bureau Director, inviting the members of the Legislature to the 1986 Youth Recognition Awards Banquet on May 7th at 6:00 p.m. at the Elks Club.

Announced that copies of the minutes of the April 8th meeting of the Soil and Water Conservation Board were on file in the Clerk's office; a copy of the minutes of the March 17th meeting of the Fishery Advisory Board had been received and were on file; also copies of the minutes from the February 20th and April 17th meetings of the Oak Orchard Small Watershed Protection District had been received and were on file.

Announced that the financial statement from the Cooperative Extension Association of Orleans County had been received and was on file in the office.

A letter from Mr. R. Wells Harrison, Waterport, New York, expressing his concern that sport fishing in Orleans County was being hurt by the continuance of the sport of snagging salmon in Oak Orchard Creek. He said that brown and rainbow trout, as well as young salmon were being caught at the same time as the adult salmon, and felt that this would eventually destroy sport fishing in Orleans County. The Clerk was instructed to write a letter to Mr. Harrison expressing the Legislators' concern and to refer the matter to the Fishery Advisory Board.

Chairman Billings said he had received notification that there is money appropriated to study the Route 531 Extension on out through the County line - that \$30,000 had been obtained to do a study. Legislator Berger said he had contacted three people in reference to an aerial study that had been done, but as yet, had not been able to find any information on it.

Standing Committee Reports: Legislator Bennett said that the Tourism Board had made a recommendation back to the Joint Committee meeting in reference to port-a-johns and a dumpster for the Waterport Dam

area. Mr. Bennett said some felt that it may not be necessary to put in a dumpster, as there wasn't as much trash and debris as expected.

Legislator Schaal said he attended regular town board meetings. He said he and Legislator Berger had been named to a Committee on Emergency Food and Shelter for people in Orleans County. This is a national program and Orleans County has been allocated \$7,933.00. Mr. Berger explained that the money has to be spent by September 30th and the program involves the whole County. The program is set up on the board system and applications for aid will be taken from various organizations. The next meeting will be May 5th. Legislator Swiercznski said he had been contacted by Betty Hassel, who was very surprised at this Committee. Mrs. Hassel's organization had food closets that could handle this type of program. Mr. Swiercznski said this program had been run by Community Action a couple of years ago.

Legislator Swiercznski said that Community Services had scheduled a meeting for May 8th to go over its programs for the next three years, and asked the Chairman and Mr. Dudek to be in attendance.

Legislator McMurray reported regular meetings with department heads.

Legislator Berger reported meeting with Senator Daly on April 10th. Also met with Yates Town Board on that date, in the evening; attended the Village of Lyndonville and Town of Ridgeway meetings on April 14th; the County Property Auction on April 19th; the Emergency Food and Shelter Meeting on April 22nd, and attended the Village of Medina meeting the previous evening. Mr. Berger said Mayor Tuohy asked if the County had liability insurance on county-owned properties, with people living in them. Mr. Berger was advised that the County does carry this type of insurance for these properties. Mr. Berger said the CD Director also asked about the heroism award that is given in the fall. The lady who saved the children from the fire on Ridge Road in the Town of Gaines was mentioned as a possibility. Mr. Berger felt that it would be all right to nominate her, even though she was not a resident of Orleans County. This was agreed upon.

Legislator Vick attended the usual meetings. Mr. Vick said he felt that the designation of a tow-away zone in the Waterport Dam area provided the Sheriff with the means to clear up some of the problems. Mr. Vick also presented a letter from the NYS School for the Blind in Batavia in reference as to whether or not the County preferred to have the school go ahead and provide transportation for the summer school program for students from Orleans County. It

was decided to allow the school to go ahead and do the transportation as they have done previously in the past.

Mr. Vick mentioned the six-month projection Bill Cifaratta, Administrator of the County Nursing Home, and Tom Anderson had presented. Mr. Vick noted that the letter received from them didn't really indicate the cash flow problems, and said he would like them to address the issue, and suggested that Mr. Cifaratta and Mr. Anderson attend the next Conference Session. It was also mentioned that there were four unpaid accounts totalling \$30,000.00 at the County Nursing Home. Mr. Vick said he would like to turn these accounts over to the County Attorney for collection. There was discussion on the problems encountered at the Nursing Home, and Legislator Bennett suggested that this should be discussed when both Mr. Cifaratta and Mr. Anderson are in attendance. Legislator Berger said a letter had been sent to the Treasurer, himself, Mr. Bennett and Mr. Vick stating that the Nursing Home was in need of another clerical person to relieve Mr. Anderson of some of the clerical work, and to give him more time to do the work he should be doing - including trying to collect fees from patients.

There was discussion on the status of the computer for the Nursing Home. Mr. Dudek explained that the hardware was there, but there was no software suitable for the needs of the Nursing Home.

Legislator Berger moved to waive the rules to allow for discussion of a letter from Planning and Development Director, Patrick Rountree, in regards to a grant applicaiton submitted by ARC to Genesee/Finger Lakes Regional Planning Council, proposing to build a childhood development center on North Clinton Street in Albion. This motion was seconded by Legislator Bennett. Motion carried. Legislator Berger explained that the proposed facility would take the place of ARC

Rainbow Preschool located at 151 Platt Street in Albion, and that the Legislature had ten days to comment to the Regional Planning Council on the proposal. Mr. Billings explained that he would reply to the Council on behalf of the County Legislature, and explain the County's views on the matter. Legislator Bennett noted, at this time, that Mr. Billings is now Chairman of the Genesee/Finger Lakes Regional Planning Council.

Privilege of the floor was given to Mr. Dudek. Mr. Dudek explained that he had reviewed the proposed changes needed at the Department of Social Services with David Stevenson, Buildings and Grounds Foreman. These changes were in reference to the installation of the State computers. Basically, it will take about 3-1/2 months to complete the work to be done by the Buildings and Grounds people. The cost will be approximately \$15,000.00 for labor and \$6,000.00 for materials. It will mean that the Buildings and Grounds people will not be able to undertake any major projects for other County departments. The main concern is what account funds will be taken from to cover the expenses for this project. Mr. Dudek noted that the County does have money in the Buildings and Grounds capital project account, and requested that a resolution be prepared for the next Legislature meeting stating what account the costs for this project will be charged to. A resolution covering this project will be on the agenda for the next Legislature meeting.

Legislator Schaal moved to go into executive session to discuss a personnel matter. This was seconded by Legislator Bennett. Motion carried.

Recessed at 8:30 p.m.
Reconvened at 9:05 p.m.

Motion by Legislator Swiercznski, second by Legislator Vick, to adjourn the meeting. Motion carried.

Meeting adjourned at 9:05 p.m.

LEGISLATURE MEETING

July 9, 1986

The meeting was called to order at 7:40 p.m. by the Chairman. After the pledge to the flag, the Clerk called the roll and all legislators were present.

The Clerk presented the following communications: A memo from NYSAC in reference to the defeat of the Court Facilities Bill which would have mandated statewide local court facilities construction and/or renovation.

A letter from Pamela Rush, Carlton Town Clerk, stating the Carlton Town Board had authorized their Highway Superintendent to purchase and install Tow Away signs along Park Avenue and Park Avenue Extension. Another letter from Mrs. Rush, stating that the Carlton Town Board is in favor of tourism and fishing in their community and that the Board will do everything in its power to insure that the Town of Carlton can accommodate the needs of tourists during their stay in the Town of Carlton.

Announced that a copy of the minutes from the May 29th and June 24th meetings of the Oak Orchard Small Watershed Protection District are on file in the office.

Report of Standing Committees: Legislator Bennett met with Planning Director Patrick Rountree; also announced that the Federation of Sportsmen will meet on Tuesday night.

Legislator Schaal said he had given his committee reports during the Conference Session.

Legislators Swiercznski and McMurray reported regular meetings with their department heads.

Legislator Berger reported attending the Erie-Niagara Water Resource Management meeting in Niagara Falls on July 1st, and noted that this region contains Genesee, Wyoming and Orleans Counties. Mr. Berger sent a letter to Region 8 requesting that in the future, they name the counties involved in a particular region, in order to have more participation from all counties. Mr. Berger attended the Soil and Water meeting on July 8th and the Workshop Session of the Legislature on July 2nd.

Legislator Vick reported attending the usual meetings.

Chairman Billings opened the meeting to those in attendance. Mr. Jack Patterson, Barre Center, was given privilege of the floor. Mr. Patterson said, "I'm very concerned about the proposed raise in the county

sales tax; it's a detriment to the county. We are more or less, in a depressed situation, and to lose any more business because of the sales tax would be bad. Genesee and Monroe counties would benefit, and we would be hurting ourselves."

Chairman Billings explained that the Legislature is investigating any proposals for income for the county. That the sales tax is still only a viable possibility for raising revenue for the county.

Ann Corbin, President of the Albion Chapter of the Business and Professional Women's Club was given privilege of the floor. Mrs. Corbin said, "I am the owner of a small business - we purchased the Landauer building. It would just devastate what we are trying to do with Albion. People work in Rochester, they shop in Rochester. This would only take people away. We would be 100 percent for a 6 percent sales tax, to try to draw in surrounding counties."

Mark White, Barre Center, and owner of a Recreation Vehicle Service business, was given privilege of the floor. Mr. White said, "I draw people from as far away as Erie County for RV supplies and service. It is still going to make those people who drive distances think. It is hard to draw people in, but we do do it."

Jerome Pawlak, Bells Store in Albion, was given privilege of the floor. Mr. Pawlak said, "We are quite concerned with this situation. Fellow-store owners in Erie County - we have spoken to them, and they have had some sales loss in stores in the out-lying areas. They have experienced sales decreases, along with friends of theirs who own car dealerships or who are appliance dealers; their customers go somewhere else to do their shopping."

Mr. Patterson stated he had talked with quite a few people about the proposed increase in sales tax, and it was the consensus that it would be utterly wrong, and that an increase in property tax would be wrong also.

Legislator Schaal said, "I am the one who raised the proposal in Conference Session. It was done to get public reaction. Put your fears to rest, this body has discussed the proposal, and we would not even request such an increase without a survey or public referendum. It was an alternative to raising the property tax. Your concerns are understood. At this point, it's just a discussion - that's all."

Legislator Vick said, "One comment. We discussed going with a "grantsman". We have invited people in from agencies in New York State that have the kind of funding that we are talking about. Senator Daly mentioned that if we don't spend some of our own money, then we can't expect money from the State of New York."

... we have to make some investment to obtain more funding."

Legislator Berger said, "I agree with what's been said. However, there are things that have to be done. We have looked at some of the things that need to be done over a long period of time, and feel we should start planning to do a little bit at a time. One method of funding is a sales tax, another - property tax, and a third, as was suggested in the newspaper "Letter to the Editor" column - a county lottery. If you can think of any other alternatives, we would be more than willing to hear them."

The Chairman thanked everyone for coming to the meeting to express their feelings on the increase in sales tax proposal.

Legislator Swiercznski handed out pictures of Oak Orchard River Marine Park at Point Breeze, Town of Carlton, commenting that it should be mowed. Mr. Swiercznski felt that if it was supposed to be a county park, then it should look like one, and suggested that the County Highway Department send down a crew to cut the grass. Legislator Schaal agreed, "Saying that if the County owned property, then it should be taken care of."

RESOLUTION NO. 267-786

By Legislator Vick, who moved the adoption.

Seconded by Legislator Schaal.

RESOLUTION ACCEPTING CONCEPTUAL FINANCE PLAN FOR FURTHER CONSTRUCTION OF OAK ORCHARD PARK

WHEREAS, final engineering drawings have been presented to the County; and

WHEREAS, the Legislature believes the completion of this marine project would add substantially to the economic strength of the County;

NOW, THEREFORE, BE IT RESOLVED, that alternative No. 7 of the April 17, 1986 proposal be approved in concept, with the addition of six finger dock units, bring the total number to 36 finger dock units (72 slips); and be it

FURTHER RESOLVED, that the Finance Committee be directed to prepare a financing plan for such project, which would include the utilization of State grants, County funding and bonding.

Adopted. 5 ayes; 2 nays, Legislators Bennett and Swiercznski; 0 absent.

A resolution tabled at the July 9th meeting entitled RESOLUTION AUTHORIZING PREPARATION OF BONDING RESOLUTION was removed from the table by Legislator Schaal. During discussion of the fuel farm listed in the resolution, the County Highway Superintendent stated that he had presented specifications to the Legislature, as requested, and was instructed to go ahead with the bid. This was before Mr. Peterson was aware of the fact that the fuel farm was to be included in the Capital Budget Plan. The County Attorney commented that any projects to be covered by the bonding resolution would have to be approved through

the SEQR process, which takes a considerable amount of time. He felt that preliminarily, that environmental work that has to be done before any arrangement can be made. Mr. Peterson said that he had applied for a building permit, and supplied the proper people with all the information needed. It was pointed out that a permit for a fuel farm is not required, until after January 1, 1987. The County Attorney did not see a need to accept the projects until after permits have been received.

The County Attorney said his understanding was that these Capital Projects would be listed in the resolution with estimated costs, with the total cost for all listed projects being \$1,000,000.00. That would be \$1,000,000.00 to use - mix and match - among that group of projects. Legislator Swiercznski asked whether or not bond anticipation notes should be obtained, then at the time a final total is obtained for these projects, the County could go through bonding. The County Attorney explained that before bond anticipation notes can be issued, a bonding resolution has to be adopted; that how much the County borrows would depend on when the projects come up. Mr. Young said he felt the general intent was, that since the market is good right now, and the County should go for the bonding and get low interest, fixed now, at 15 years; that the timing was right to go ahead with the bonding now.

Legislator Swiercznski protested, saying that it would be better to borrow smaller amounts, as the projects come up, rather than borrow so much, all at once. Mr. Young explained that the bonding resolution did not call for any expenditure on any particular project, only authorizes himself and the County Treasurer to retain Fiscal Advisors and Bond Counsel to prepare a prospectus, obtain Moody ratings and legal opinions in connection with the anticipated bond issue. The following resolution was adopted:

RESOLUTION NO. 268-786

By Legislator Schaal, who moved the adoption.

Seconded by Legislator Vick.

**RESOLUTION AUTHORIZING PREPARATION OF BONDING
RESOLUTION**

WHEREAS, the County Legislature has identified a number of capital projects which are necessary to improve or maintain the effectiveness of operating departments or will have a significant beneficial impact to the local economy; and

WHEREAS, the cost of the projects makes it

impossible to finance them from current revenues; and

WHEREAS, current rates are at the lowest levels in recent years making the long term bonding on these items an attractive and prudent alternative;

NOW, THEREFORE, BE IT RESOLVED, that the County Attorney be and hereby is authorized to prepare a bonding resolution which will include the following projects:

1. Fuel Farm	\$ 85,000
2. Dog Pound and Incinerator	51,000
3. Court House Roof Replacement	35,000
4. Renovations and Improvement in Highway Department Building	70,000

Legislator Berger was given privilege of the floor. Mr. Berger said he had received calls from local gas station operators who have large piles of used tires, with no place to dispose of them; the companies won't take them and the landfill will not take them. Mr. Billings explained that it was a town problem, and Mr. Bennet said that J & I Disposal would take tires if the tires were cut in half. Mr. Berger said he would get back to the station owners with this information.

County Attorney Thomas J. Young, said that at the last meeting a proposal from the Village of Albion had been received on the clean-up of the lot (the Alberg building and the building adjacent to it), and the tax situation between the County and the Village. Mr. Young explained that since the Village had purchased a new street sweeper, their proposal was to sign title of their old street sweeper over to the County, in return for the County to aid in the clean-up of the lot in the downtown area of Albion, and for the "forgiving" of the County taxes on the same properties. The County Attorney asked the pleasure of the Board in this matter. The County Highway Superintendent stated that the used sweeper was worth at least \$2,000.00, (the amount owed in back taxes) and that his department would be able to use that equipment. The Board agreed to accept the Village's proposal, and instructed the County Attorney to go ahead and prepare an agreement.

Legislator Berger requested the Clerk to contact photographer who took the official picture of the Legislature, and ask him to reprint the photograph, as well as retouch the photograph taken two years ago; there were two faded spots on the picture.

Chairman Billings initiated discussion regarding the purchase of a mower for the Nursing Home. Mr. Dudek explained that the tractor that is currently being used is in need of repair, which is estimated to cost about \$1,000, plus about \$500 for labor. Mr. Dudek said a 3 cylinder diesel John Deere could be purchased for \$5619.00. Legislator Schaal moved to waive the rules to add a resolution for this purchase. This was seconded by Legislator Berger. Legislator Bennett suggested that this purchase could be made locally at a lesser cost. Chairman Billings suggested obtaining additional proposals. Legislator Swiercznski suggested the possibility of hiring someone to mow, rather than purchase the equipment. Chairman Billings requested that the Chief Administrative Officer look into prices for the purchase.

Legislator Berger moved to recess the meeting. Meeting recessed at 4:20 p.m.

LEGISLATURE MEETING

August 13, 1986

The meeting was called to order by the Chairman. After the pledge to the flag, the Clerk called the roll and all legislators were present.

The Clerk presented the following communications: Notice from NYSAC that the 1987 dues for Orleans County would be \$2100.00;

A letter from the NYS Department of Civil Service stating that Louis Salen can be appointed to be position of Economic Development Specialist under Section 211 of the Retirement and Social Security Law;

A request from Mrs. Helen P. Heath for continued support from the County for libraries, even though it is expected that Revenue Sharing Funds will not be available;

A letter from Senator John B. Daly acknowledging Chairman Billing's letter re binding arbitration for police, fire units and deputy sheriffs;

A letter from NYSAC requesting the County designate a person to vote on its behalf at the fall business meeting;

A letter from Sandra Bower, Administrator of Personnel and Self Insurance recommending that the requests for changes in job titles or salary grades be held until a reclassification can be carried out by the State Civil Service representative;

A letter from NYSAC in reference to the State take-over of the school-age physically handicapped children's program; also a letter in reference to revision of Article VI of the Public Health Law re eligibility of all counties to receive Public Health State Aid;

A letter from the Orleans County Farm Bureau inviting the legislators and their families to the annual Farm Bureau Picnic on August 31 at the Orleans County 4-H Fair Grounds, beginning at 1:00 p.m.;

A letter from Lucien A. Morin, Monroe County Executive, requesting that the Orleans County Legislature designate a member of the Legislature to represent it on the Genesee Transportation Council Policy Committee;

Report of Standing Committees: Legislators

Bennett, Schaal and Swiercznski all reported usual department head meetings.

Legislator Berger attended a Mini Conference at the Social Services Department on the 24th, attended the dedication of the sewer plant in Medina on the 29th, attended the Management survey Study on the 30th, the Soil and Water Booth at the 4-H Fair Grounds the 6th through the 8th, met with the Social Services Commissioner and Director of the Office for the Aging on the 11th, also attended the Village of Lyndonville and Town of Ridgeway meetings on the 11th.

Legislator Vick reported that at the last Town of Carlton Board meeting, the issue of insurance was discussed. The Municipal Insurance Agency is not licensed to do business in New York State. NYSAC has put together a program, and from all indications, it looks like an opportunity for Orleans County to reduce insurance costs. Legislator Vick also noted that the Fishery Advisory Board recommended that a boat ramp be built on Johnson's Creek; also that four different agencies (including Orleans County) handle trash pick-up during the fishing derby. Nothing definite was resolved along those lines.

In reference to the Hojack Line, Chairman Billings said that the County intended to hold on to the Hojack for a while, thereby keeping its options open. This will give the County more time to look into the situation.

During the open discussion portion of the meeting, Mrs. Mike Ricci was given privilege of the floor. Mrs. Ricci said she thought she was scheduled for 7:30 p.m. Mr. Billings explained that ordinarily during the evening meeting, time was given to anyone to speak to the Legislature during the open discussion portion of the meeting; it was not necessary to give definite times.

Mrs. Ricci explained that she represented Orleans Association, Inc., the Tourism Support Group. Mrs. Ricci asked the Legislature for its answer to their request for budget monies. Also asked if the Legislature had any plans to appoint a Tourism Director. Mr. Billings explained that the Legislature was still considering the matter of funding. In reference to a Tourism Director, Mr. Billings said the Legislature would be appointing someone to this position. Mrs. Ricci said the Association felt that a full time director is needed - a paid director as well as a paid staff. She said the Association is made up of business people who wouldn't have much time to devote to such a project, but that they would be willing to work as volunteers. Mrs. Ricci explained that the Association is in the beginning stages of working with Genesee County, and hopefully, later on

will be working with Niagara County on projects that affect tourism in all three counties. It was felt that the Association needed support from facilities that are available in neighboring counties. Mrs. Ricci said she would be glad to answer any questions the Legislature might have.

The question was asked when a decision would be made as to the budget monies and the appointment of a director. The Chairman said that the Legislature would be getting together before the next meeting, and perhaps something would be decided upon then.

Hugh James, who was with the Association explained that in reference to the Hojack Line, there is an Orleans County Association of Snow Mobilers who use the Hojack as a trail for operating across the County.

Chairman Billings stated it was his opinion that the County should keep the Hojack, as it may be used later on. Legislator Vick explained that the County has entertained an option to retain the land right-of-way. He explained that the County was also concerned with the trestle. As it is now, it is a tremendous liability to the County. Mr. Vick said that the matter has to be given more thought before a decision is made. Chairman Billings explained that NYSDOT owns the right-of-way. By law, it refers to the County, then to the State then to the Landowner. The State owns the right-of-way.

The following resolutions were presented:

RESOLUTION NO. 275-886

By Legislator Bennett, who moved the adoption.

Seconded by Legislator Schaal.

Legislator Bennett, with second by Legislator Vick, introduced a resolution appointing Louis Salen to the position of Economic Development Specialist. During discussion, Legislator McMurray said, that with the Planning and Development Director leaving, maybe not enough time has been taken to consider this appointment. Mr. McMurray said, "I think that under those circumstances, whereby we are losing a valuable individual, perhaps we should take a stronger look as to the kind of individual we need to move this County along. I have not been comfortable with Mr. Salen's appointment.....because of that I am asking that this resolution be withdrawn and more consideration be given to that position."

Legislator Bennett said, "I take exception to Legislator McMurray's comments. I feel that the County needs something he (Mr. Salen) can provide, which is continuity. He's been involved as Chairman of the IDA and is involved with Planning and Development. I would like to see it come to a vote and get it over with."

Legislator Vick said, "On Lou's behalf, he has been involved in one specific situation which has begun to come to fruition within our County, and I have been pleased with him in this situation."

Legislator Vick, with second by Legislator Bennett, introduced a resolution approving the management compensation plan recommendations as presented by the Committee. During discussion, Legislator McMurray said he felt the resolution ought to be tabled, noting that according to earlier conversations, several employees were not given an opportunity to speak to the Legislature in reference to salary increases. Legislator Bennett questioned a portion of the Committee's recommendation on Page 8. Legislator Vick explained that basically this plan is a review process, and final recommendation will be given to the Legislature. Mr. Vick felt that if everyone was satisfied with this plan as "policy statement", the Legislature should deal with it now. Legislator McMurray stated, that if Mr. Cooley and Mr. Pratt were allowed to explain their position to the Legislature, there wasn't any reason to belabor the point, but to go ahead and vote on the proposed resolution.

County Attorney Thomas Young stated, "It is my understanding that in approving this resolution you are not approving salary increases or decreases, they would have to come before the Legislature at a later date - this is just for the record." Legislator Vick agreed saying, "This individual has to have a review to qualify for increase. You still have the right to deny or add it for review."

It was decided by the Legislature to ask Mr. John Pratt of the Veterans Service Agency and Donald Cooley, General Foreman of the Highway Department to attend the next Conference Session on August 27th.

Adopted. 6 ayes; 1 nay, Legislator Vick; 0 absent.

In voting "No" on the resolution awarding the bids for the fuel farm, Legislator Vick explained he did this, not because he was against the fuel farm, but because he was for following good financial procedures.

Legislator Berger commented that there were 14 people in attendance, representing the Tourism Group.

Legislator Schaal asked about the access ramp signs for the Town of Carlton. Mr. Dudek explained that he had received a reply from Glenn Cook of the Genesee Finger Lakes Regional Planning Council; also noted that it was not the Highway Department responsibility. NYS Department of Transportation is aware of the request.

Legislator McMurray said he had received a request from Probation Director Bob Golden to carry over vacation days. Mr. Golden had twelve unused vacation days. According to policy Mr. Golden is allowed to carry over five vacation days - he loses the remaining seven.

In reference to the archeological digs, the people involved are finishing up, and a report will be available. Legislator Vick said he had spoken with Pat Rountree and Wayne Hale of the Planning and Economic Department in reference to this, and they felt there wouldn't be any problem once the survey goes to Albany (the County may have to send somebody down to move it through). Mr. Vick said he had thought of sending the document to Senator Daly and Assemblyman Hawley for them to review, to see whether or not they might be able to help.

Mr. Dudek said he had received a request for a special leave of absence for Mrs. Susan Gaylord, who is employed in the Department of Social Services. Mr. Dudek pointed out that Mrs. Gaylord had taken four leaves of absence since 1979 - all maternity leaves. The leave she is requesting is for the remaining weeks of summer in order to take care of her children. Mr. Dudek felt that if this were done, it would set a precedent, and others might want to have the same type of leave. Mrs. Gaylord said that she would resign her position from Social Services if the leave isn't granted.

Legislator Schaal moved to deny the request for a special leave of absence for Mrs. Susan Gaylord. This was seconded by Legislator Vick. Motion carried. Mrs. Gaylord's leave of absence request was denied.

Mr. Dudek informed the Legislature that a \$15,000.00 grant for tourism is available. The State would like the County to be specific as to what projects will be done with the monies from the grant. A decision has to be made by the first week in September.

Moved by Legislator Swiercznski, with second by Legislator McMurray, to adjourn. Motion carried.

Meeting adjourned at 9:20 p.m.

LEGISLATURE MEETING

August 27, 1986

The meeting was called to order by the Chairman. After the pledge to the flag, the Clerk called the roll and all legislators, with the exception of Legislator Berger, were present. Legislator Berger was excused from the meeting.

There were no communications to be presented to the Legislature. The report of Standing Committees is as follows:

Legislator Vick reported the usual meetings with his departments. Mr. Vick stated he had received notice from the State that they would like to cut back on the County's proposed Park Plan in Carlton. The State proposed to cut back on the number of parallel boat slips, in the area where the County Park is directly across from the proposed State Marina. This will reduce the anticipated revenue to the County when the Park is opened. Mr. Vick also said he had talked with Randall Klatt, who is interested in supervising the Park. Mr. Klatt felt that some additional salary would be in order, if this position is given to him. Mr. Vick said he had not received a final report on the archeological digs going on in the Park area.

Legislators McMurray, Swiercznski, Schaal and Bennett reported attending the usual meetings with their departments.

The following resolutions were presented:

Minutes of the September 9th meeting of the Soil and Water Conservation District.

Report of Standing Committees: Legislators Schaal, Swiercznski, McMurray and Vick reported attending the usual meetings.

Legislator Bennett said he had audited bills this month. Mr. Bennett asked if a response had been received in reference to a landlocked parcel located in the Town of Yates. This parcel was to have been auctioned off on April 19th, but a landowner who owned the surrounding land claimed ownership, thereby making it impossible for the County to auction off the property. The County Attorney said a survey had been done, and that as a result, the County does claim ownership; the County does have an abstract of title for this particular parcel. Mr. Young said he had not received a reply from the landowner's attorney in reference to this matter. Mr. Bennett said the County

should send a letter stating that the County does have ownership of the property, and that it will be sold at the next auction for County-owned property. The County Attorney was instructed to send a registered letter to this effect, return receipt requested.

Legislator Berger attended the Town of Yates Board meeting on September 11th; met at the Legislature offices on the 17th; and on the 18th saw the formal architect's rendering of a building on Ohio Street in Medina. Mr. Berger also attended a Department of Social Services Staff Meeting on the 23rd of September.

Legislator Vick, with second by Legislator McMurray, introduced a resolution entitled "Resolution Authorizing Various Public Improvements In and For the County of Orleans, New York, at a Total Maximum Estimated Cost of \$778,900 and Authorizing the Issuance of \$746,745 Serial Bonds and \$32,155 Capital Notes of Said County to Pay the Cost Thereof".

Upon Discussion, Legislator Bennett moved to amend the resolution, omitting section "e". This was seconded by Legislator Swiercznski. Legislator Bennett said he felt it was risky business - borrowing monies to spend on State property. Legislator Swiercznski agreed, stating that there were other items which had higher priorities than section "e", and that this section should be deleted. Legislator Berger commented that one of the criteria mentioned by the State in trying to get funds for Oak Orchard River Marine Park, was that the County was going to have to put up matching funds in order to obtain more State monies, and this resolution would do that. Mr. Berger felt that the County should do its share towards getting these monies. Legislator Schaal asked for a recess to caucus.

Meeting recessed at 8:00 p.m.

Meeting reconvened at 8:05 p.m.

Chairman Billings explained that this resolution would have to be adopted before the County could authorize bond anticipation notes. The Legislature will have to adopt a resolution for each project listed in the proposed resolution.

Legislator Bennett read a letter received from Wayne Hale in reference to a proposed study for the extension of Route 531 from Monroe County into Orleans County. There was some discussion. Legislator Berger said he had been trying to contact people who had done aerial photos of a proposed extension of 490 into Orleans County back in the 50's but has not been able to find any information on this. Chairman Billings said the proposal was for a feasibility study on the proposed extension. Legislator Swiercznski felt the County ought to put a "few dollars" into the study in order to get people from our Orleans County involved. Legislator Schaal said the Board should wait for more information on the matter.

Legislator Bennett, with second by Legislator Swiercznski, moved to adjourn. Motion carried.

Meeting adjourned at 8:35 p.m.

LEGISLATURE MEETING

October 8, 1986

The meeting was called to order at 7:30 p.m. by the Chairman. After the pledge to the flag, the Clerk called the roll and all legislators were present.

The Clerk presented the following communications and letters: an invitation from the Orleans County Farm Bureau to attend their annual meeting to be held on October 22nd at the Erie Inn in Knowlesville;

Two resolutions adopted by the Past and Present Supervisors Association - one asking more help for the County Sheriff to enable him to have more road patrol coverage during the night-time hours; and the other requesting the State Police to provide more help to the Sheriff's Department in providing more road patrols during the night-time hours.

A memo from NYSAC stating that the probability for General Revenue Sharing to continue is doubtful, and thanking all the counties for their involvement in contacting their Congressional representatives to continue with FRS funding.

A letter from the State Commissioner of Social Services acknowledging the reappointment of Mrs. Patricia Hardenbrook as Orleans County Commissioner of Social Services.

A letter from Assemblyman R. Stephen Hawley acknowledging receipt of resolution 307-886 in reference to increasing per capita funding formula for Youth Bureau Programs.

A thank-you letter from Clarendon's Town Board for publication of the Night Quarantine Notice for Dogs in Orleans County.

September 9, 1986 minutes from the Oak Orchard Small Watershed Protection District meeting and the Soil and Water Conservation District meeting.

Report of Standing Committees: Legislator Vick reported attendance at Budget Committee meetings. Mr. Vick also asked the County Attorney about research into a parcel of landlocked property located in the Town of Yates, which was to have been sold at the County auction this past April 19th. Mr. Young said he had contacted the attorney of the individual who claimed to own the parcel, but had not heard from the attorney. A title search had been completed, and this search proved ownership by the County. Therefore, the parcel would be offered for sale at the County auction next year.

Legislator Berger met with the Budget Committee to discuss the Department of Social Services and County

Nursing Home budgets, as well as attended regular monthly meetings.

Legislator McMurray reported regular monthly meetings. Also brought up the fact that Legislator Schaal had told him of a dangerous road condition, on the Salt Works Road in the Town of Shelby. A portion of that road - from the place in the "S" curve on the Salt Works Road where the County Highway Department stopped repaving, to where the Blair Road meets the Salt Works Road - is very slippery under normal driving conditions, and when the road is wet, it makes travel on that portion of the road very dangerous. The road is signed, warning of an "S" curve, as well as speed limit signs being placed in the area. However, Legislator Schaal said that two accidents have occurred on that portion of the Salt Works Road. Both legislators were of the opinion that something should be done. Legislator McMurray said the County Highway Superintendent estimated the cost to be \$13,000.00 in order to correct the situation. The problem is that there is not enough money in the Highway budget to cover this road repair.

After further discussion, Legislator Schaal moved to waive the rules to allow for the introduction of a resolution authorizing the County Highway Superintendent to repair this section of the Salt Works Road. Legislator McMurray seconded the motion. Motion carried.

Legislators Swiercznski and Bennett reported regular departmental meetings.

RESOLUTION IN SUPPORT OF STATE LEGISLATION REGARDING SOLID WASTE DISPOSAL

WHEREAS, the Federal "Resource Conservation and Recovery Act of 1976" required states to designate an official state agency with principal responsibility for preparing, updating and overseeing implementation of a state solid waste management plan required by the Federal "Resource Conservation and Recovery Act of 1976"; and

WHEREAS, the State Department of Environmental Conservation in Chapter 425 of the Laws of 1976, constituting the New York State Resource Recovery Act, was given responsibility to, and did, develop and file a draft New York State Comprehensive Resource Recovery Plan; and

WHEREAS, in 1980 comprehensive legislation was enacted (Chapter 552 of the Laws of 1980) which continued the Department of Environmental Conservation as the official agency with responsibility for the management of all solid waste in the State of New York, consistent with State Resource Recovery policies; and

WHEREAS, the action of the Department of Environmental Conservation, to date, has failed to produce an effective state policy and plan for the disposal of solid waste throughout New York State; and

WHEREAS, the burden of dealing with the numerous problems associated with solid waste collection, disposal and resource recovery has increasingly fallen upon local county, city, town and village governments; and

- B) The ability to determine that all solid waste within County boundaries be disposed at a specific site or resource recovery facility;
- C) The ability to assure a regular solid waste management, disposal, and handling service together with the ability to establish from time to time necessary charges for the service provided;

In reference to the resolution on Solid Waste, the County Attorney said the Home Rule Law had been introduced by Assemblyman Hawley, but that it didn't get out of Assembly. The Legislative Commission on Solid Waste Management had asked why this was necessary. Their concern seems to be that the municipalities would be competing with private business.

Legislator Vick reintroduced a resolution tabled at the September 24th meeting approving a service agreement with the Data General Corporation, covering the computer installed in the Treasurer's office. Legislator Vick said that if the County didn't have this agreement, computer repair would cost \$95.00 per hour, which includes travel, but does not include parts. If it were necessary to call for repair work on the computer, companies with service agreements would be taken care of first by Data General, and then all other service calls would be handled on a first

come-first serve basis. The consideration has to be whether or not to go ahead without an agreement, and take a chance, or to approve the agreement, and authorize the necessary transfers in order to cover the payment for the agreement. After further discussion, the resolution was tabled once more, to allow Mr. Dudek more time to look into the matter. The suggestion was made that funds could be paid into the Repair Account A1615 to cover necessary repairs to the computer, and to handle the servicing of the computer in this manner.

LEGISLATURE MEETING
October 22, 1986

The meeting was called to order by the Chairman at 7:30 p.m. After the pledge to the flag, the Clerk called the roll, and all legislators were present. The County Treasurer and Budget Officer, Mary B. Basinait was also in attendance at the meeting.

The Clerk presented the following letters and communications:

A letter from the Village of Lyndonville, recommending the appointment of Roger L. Woodworth to the County Planning Board;

Notice from the Town of Alabama Town Board stating that a public hearing would be held October 29, 1986 at 7:30 p.m. in the South Alabama Fire Hall on Judge Road for the purpose of allowing interested parties to comment on the proposed zoning law;

A letter from Brenda Cook protesting the proposal to rent the horse arena on the 4-H Junior Fair Grounds for storage purposes. Mrs. Cook stated that originally the arena was built for 4-Hers, and that whatever organization made this proposal, was actually taking the building away from the kids who raised the money to construct the building in the first place. Mrs. Cook was very much against the idea of renting the arena for storage.

A letter from Wells Harrison, Waterport, New York in reference to the formation of the new Tourism Advisory Board. Mr. Harrison felt more people representing the fishing area should be on the Board, and in particular mentioned Richard Hoffman and Hugh James, as being two individuals who have spent considerable amount of personal time promoting fishing in Orleans County, and who would be very helpful on the Tourism Board.

An invitation from Sigma, Inc., Medina, New York to attend their open house on November 1, 1986.

Legislator Bennett in reference to the letter from Mrs. Cook, commented that perhaps when the resolution authorizing funds to the Extension is adopted, the resolution should state that all the funds are to go directly to the 4-H, with no funds going to the other projects.

Legislator Vick, stated that the funding for the Anchor Bank project, which is to go through the County

IDA, should come from Tax Stabilization monies, as opposed to making changes in the County Budget. Chairman Billings said that the IDA Board is suggesting that the County get a guarantee from Anchor Bank stating they will be here five years, and if they leave before that time, the funds are to be paid back to the County with interest.

Legislator Bennett expressed concern that nothing was put in the budget for solid waste.

Report from Standing Committees: Legislator Berger reported attending the Town of Yates board meeting on October 9th; attended the Soil and Water Conservation District Meeting on October 14th; and regular meetings with department heads.

Legislator McMurray reported he had met with the County Highway Superintendent Roger Peterson, and County Attorney Tom Young and representatives of Conrail to discuss the County Line Road and Bennetts Road projects and said that the Shelby Basin Project was also discussed. The County Line Road project involves removing a railroad bridge. Mr. McMurray said Conrail as well as the County will check on insurance coverage before any demolition work is done. And Conrail will help cover some of the costs involved in the bridge removal - details for this are being worked out now. Mr. McMurray said that since that portion of County Line Road is not in use, it will be a barricaded situation; i.e., the bridge will not be replaced.

Legislator Swiercznski reported attending the usual meetings, as well as meeting with Community Action tomorrow at 4:00 p.m. Mr. Swiercznski also mentioned a newspaper article concerning payment of a check from OTB of Western New York to the County of Orleans, and commented that he introduced Resolution No. 128 on July 18, 1973 which authorized the County of Orleans to participate in the Western Regional Off-Track Betting Corporation.

Legislator Schaal stated he wanted it to be on record in reference to access ramps to the Ontario State Parkway from Archibald Road in Town of Carlton. Mr. Schaal wanted to know the status of this request.

Legislator Berger asked if a letter had been sent to Niagara Mohawk stating that the County did not want the power poles installed around Court House Square. Mr. Dudek explained that Niagara Mohawk will remove the poles, but it wouldn't be right away, as the Company has cut down on overtime, and the poles will be removed during regular hours. Mr. Dudek also explained that it might be that the power company will bring the poles down State Street, instead of Park Street - the village

of Albion has given them permission. Legislator Swiercznski stated that the whole square is in the National Registry, and that the poles will be removed because of this.

Legislator Bennett said he had attended the KYC meeting, with the towns of Kendall, Yates and Carlton all represented. Grant monies are available; however, the plan has not been approved by the State Department, and won't be until March. There are in excess of \$40,000.00 worth of grants. Mr. Bennett said he and Mr. DeRoller have decided these projects should come from the towns with the County standing by, ready to help them, if the towns so desire. Mr. Bennett said he was concerned that the County was getting ahead of itself - the projects have to come from the Towns, to the County, and not vice-versa.

Mr. Bennett also said he had attended a meeting of the Fishery Advisory Board the previous Monday evening. That board felt very hurt and rejected at the County's actions in disbanding the Fishery Advisory Board. Mr. Bennett suggested that the Chairman write a letter thanking the members of the board for all their work and for the interest they have shown in helping the County with its promotional efforts.

Mr. Dudek spoke to the Legislature and told them an error had been made in the resolution creating the Tourism Advisory Board. The County Extension had been inadvertently left off the list of membership. It was in the original proposed resolution, but the Extension was omitted through error. After discussion, it was agreed by all the Legislators, to add the County Extension to the resolution.

The following resolutions were presented:

RECESSED LEGISLATURE MEETING
November 13, 1986

The Chairman reconvened the meeting at 9:35 p.m., directly after the Public Hearing on the County's 1987 Budget, and 1987 FRS Budget. All legislators were present.

Mrs. Avis Downey, the Director of the County's Real Property Tax Service Department was in attendance at the meeting and explained to the Board, the equalization rate, as received from the State, and what it means. Mrs. Downey said she would not make a recommendation as to which rates the County should use. She explained that the State rates represent market value survey levels existing several years earlier than current market value. The rates on the list handed to the Board members were based on figures dating back to July 1, 1983. If the equalization rate is 100 percent or more, it doesn't mean that the municipality is valuing property at more than its full value. An equalization rate is merely a measurement, not a judgment. Using 100 percent valuation doesn't mean higher taxes or less State aid. Actual values are rising faster than the assessed values - an update will help to reverse this trend.

In reference to receiving equalization rates from the State, Mrs. Downey explained that the County would have to request the equalization rates from the State prior to September 1st of any given year. Once this is done, that request remains in effect until the County rescinds the request. The County would then be required to use the equalization rate to apportion the County taxes.

Another option is for the County to establish its own equalization rate. It was noted that in the event this was done, the County would be responsible for defending their rates, if any type of court action occurred because of the rates. The County Attorney said in the case of state equalization rates, the State would stand behind their rate.

There was discussion of the assessing done by the various towns. Mrs. Downey said she felt that all of the towns were close to 100 percent, regardless of what the State rates show. Mrs. Downey stated that at the present time, six towns were in favor of an update, and two other towns had made verbal commitments for an update. There was further discussion, and Legislaor Bennett moved to go with 100% equalization rate. This was seconded by Legislator McMurray. Legislator Vick called for a roll call vote, which went as follows:

Legislator Vick	Nay
Legislator Bennett	Aye
Legislator Berger	Aye

Legislator Billings	Nay
Legislator McMurray	Aye
Legislator Schaal	Aye
Legislator Swiercznski	Nay

The following resolution was then adopted:

RESOLUTION NO. 404-1186

By Legislator Bennett, who moved the adoption.

Seconded by Legislator McMurray.

RESOLUTION ADOPTING EQUALIZATION RATES

RESOLVED, that the following equalization rates for the respective towns in the County be adopted by this Legislature for the apportionment of the 1987 County taxes:

TOWN	RATE
Albion	100%
Barre	100%
Carlton	100%
Clarendon	100%
Gaines	100%
Kendall	100%
Murray	100%
Ridgeway	100%
Shelby	100%
Yates	100%

Adopted. 4 ayes; 3 nays, Legislators Vick, Billings and Swiercznski; 0 absent.

After the adoption of the above, Legislator Bennett commented that he felt that the Legislature had to be consistent.

Legislator Vick agreed, stating that he felt the State rates were not correct, but that his vote reflected the fact that the County has to solve the problem in a different way.

Legislator Schaal said, "I would like to echo Bill's sentiments."

Legislator Billings said his vote reflected the feelings of his constituents.

Legislator Vick, with second by Legislator Swiercznski, moved to increase the Libraries Account A7410.465 from \$14,000 to \$38,496.00. During discussion, Legislator Schaal noted that this increase was substantially more than a 4% increase. He felt that the increase should be 4% on \$16,000; that giving the entire request was a 100% increase, which is

totally against the committee guidelines. Legislator Vick replied that among all those people in attendance, there was not one request to lower the appropriation - there was not one detrimental remark made about any department; that it appeared they were all for the Library funding - which forced him to come to the conclusion that the people in Orleans County felt this amendment was in order.

Legislator Schaal agreed with Legislator Vick that an increase should be given, although the increase should be 4%. Legislator Schaal moved to amend the amendment to read \$16,000 plus 4%. There was no second.

Legislator Schaal requested a roll call vote on the proposed increase for the Libraries, from \$14,000 to \$38,496. The vote was as follows:

Legislator Schaal	Nay
Legislator Swiercznski	Aye
Legislator Vick	Aye
Legislator Bennett	Nay
Legislator Berger	Nay
Legislator Billings	Aye
Legislator McMurray	Aye

The motion carried, 4 ayes; 3 nays; 0 absent.

Legislator Swiercznski, with second by Legislator McMurray, moved to increase County Extension Budget 8750.467 from \$218,975 to \$227,734. The motion passed, with Legislator Bennett voting "Nay".

Legislator Bennett, with second by Legislator Schaal, moved to remove the Sportsmen's Federation from the Tourism Board Budget, and place it as a line item in the County Budget as it was in the past. Upon vote, the motion was defeated, with Legislators Bennett and Schaal voting in favor of the motion.

Legislator McMurray, with second by Legislator Schaal, moved to decrease the Legislature Personal Services Account 1010.1 from \$56,700 to \$52,500, thereby retaining the Legislators' salary at their 1986 level. Legislator Schaal called for a roll call vote. The vote was as follows:

Legislator Schaal	Nay
Legislator Swiercznski	Nay
Legislator Vick	Nay
Legislator Bennett	Nay
Legislator Berger	Nay
Legislator Billings	Aye
Legislator McMurray	Aye.

The motion was defeated, 2 ayes; 5 nays; 0 absent.

Legislator Bennett, with second by Legislator Swiercznski, moved to increase Community Action Budget Account A6324.418 from \$33,000 to \$36,500 to defray costs of Eastern Orleans Community Center, so that Nutrifare can remain in Holley. Legislator Bennett called for roll call vote, and the vote was as follows:

Legislator Bennett	Aye
Legislator Berger	Nay
Legislator Billings	Aye
Legislator McMurray	Nay
Legislator Schaal	Aye
Legislator Swiercznski	Aye
Legislator Vick	Aye

The motion carried, 5 ayes; 2 nays; 0 absent.

The following resolution was presented, and upon request of Legislator Vick, a roll call vote was taken:

Legislator Vick	Aye

ORLEANS COUNTY

BUDGET

For The Year 1987

MARY B. BASINAIT

BUDGET OFFICER

November 13, 1986

Cover Design by Laird Ogden

BUDGET MESSAGE 1987

TO THE HONORABLE MEMBERS OF THE ORLEANS COUNTY LEGISLATURE AND
TAXPAYERS OF ORLEANS COUNTY:

The Annual Budget is the adopted plan of operation for municipal units. The purpose for local governments is to adhere to the wishes and needs of the constituency by providing services to the extent of available resources. In these times of shrinking resources and expanding demands, it is imperative that the budget be both understandable and meaningful to all concerned parties. Since budgeting requires the allocation of scarce resources among competing demands, it is essentially a form of applied economics. The point is not simply to cut back, but to do so without undermining the government, or its services to the taxpayers. The Budget Committee has attempted to set priorities, and thereby deal with a broad range of discretionary budget options. With this goal in mind, your Budget Officer and the Budget Committee present this proposed budget for the fiscal year 1987.

Computers have established more clearly defined service levels and provided information that allows Department Heads to better control their resources and manage their own programs. By and large, departmental budget requests were reasonable and well within guidelines. The Committee made no cuts in programs, but did reduce appropriations for contractual expenses, operating costs and operating supplies in many areas. In like manner, projected revenues were analyzed and increased in several areas where trend analysis indicated it would be appropriate.

State mandates of local expenditures continue to be a major issue in the County. This Proposed Financial Plan will require a total expenditure of \$21,699,263--\$8,785,735 (or 40%) of which is projected for Social Services--in wholly mandated programs. Through more efficient management of services and funds, this department is making a sustained effort to maintain services for those hit hardest by reduced Federal Aid and by unemployment. Medicaid, Aid to Dependent Children and Home Relief continue to be expensive problem areas to all Counties.

Estimates in cost, again in mandated programs, for Education-Handicapped Children has escalated to a staggering \$927,500, an increase of \$339,280 (or 58%) above the budgeted amount of 1986. With the increased emphasis on community-based services for the Handicapped, there is a need to review the respective programmatic and fiscal responsibilities of local government.

While local efforts to control serious crime are showing positive results, the 1986 level of crime was higher than in previous years. Felony arrests have increased. The concern is that with the epidemic of the usage of the drug "crack" the crime rates will increase. Concentration on criminal activity must continue, therefore, to claim a significant share of County resources, and despite very difficult fiscal circumstances, the Budget Committee has recommended increased funding for police, prosecution and correction programs. Cost-effective, community-based programs, ie: Alternative to Incarceration, have been newly designed and initiated both to

provide appropriate sanctions for non-violent offenders and ensure the safety of the community. Revenues (\$618,000) have been budgeted in anticipation of the continued practice of boarding prisoners in the County Jail for other Counties.

Orleans County is committed to the improvement of its highway systems since the Governing Board feels that effectively maintained highways and bridges are fundamental to the industrial development and economic growth of the County. The 1987 Highway Budget has been tentatively approved for \$2,707,771, an increase of \$441,111 over 1986. Revenues have been increased by \$215,669 over 1986, resulting in a total levy to the taxpayers for the Highway Budget of \$1,147,278. The Budget Committee has been forced to deal with the loss of Federal Revenue Sharing moneys in the amount of approximately \$300,000 which we received since 1973, and used in recent years to help fund the Highway department. Therefore, the total amount of \$1,147,278, is part of the tax levy. The Highway levy was reduced from \$1,206,829 by the use of unappropriated Federal Revenue funds of \$59,551.

During 1986, the Capital Budgeting process was initiated which will have continuing impact over the next several years. In the past, capital improvements and major equipment needs were examined only one year in advance, that is, during the preparation of the annual budget for the forthcoming year. The approach, while serving us well in the past, does not adequately address the complexity of County's government and responsibilities and aging infrastructure. Several years of "tight" budgeting has caused deferral on many major equipment purchases. Consequently, part of the increase in the Highway Budget can be directly attributed to the Capital Budget Plan. However, it is the Committee's hope that Capital Budget Planning will help avoid significant capital expenditures fluctuation and yet maintain existing services and expenditures.

In the final analysis, results of governmental programs and activities are of primary importance to voters, legislative bodies and others interested in measuring the performance of governmental organizations and public officials. The Orleans County Legislature can once again look toward a year of accomplishment. We feel this budget plan will be useful in the fiscal planning and control for 1987.

Respectfully submitted,

Mary B. Basinait

Legislator Vick told the Board he, Legislators Bennett and McMurray had met with the Public Defender to discuss budget overruns in that department. The majority of the overruns were from assigned counsel expenses - not enough funds were budgeted in this area. The Committee authorized the County Treasurer to go ahead and pay outstanding vouchers. Prior to budget

time next year, the Public Defender is going to set down with the Budget Officer to decide exactly the amount to be budgeted so that this doesn't occur again.

Mr. Dudek asked for a change in the resolution regarding the purchase of jackets for Highway Department employees, not to exceed \$40.00 per jacket, and each employee shall be eligible to receive one jacket in each year.

The County Attorney said he'd been asked to serve on the Committee and Resolutions Committee of NYSAC, and had sent a letter of acceptance. Motion by Legislator Schaal, with second by Legislator Vick, to extend congratulations to the County Attorney. Motion carried.

Motion by Legislator Bennett, with second by Legislator Schaal, to recess the meeting, subject to recall by the Chairman. Motion carried.

December 23, 1986

The meeting was called to order by the Chairman at 7:30 p.m. After the pledge to the flag, the Clerk called the roll, and all legislators, with the exception of Legislator Berger who was excused, were present.

The Clerk presented the following communications: A letter from John Staebble, resigning his position as Administrator of the Health Department;

A letter from Soil and Water Conservation District recommending that Legislators Billings and Berger be reappointed to that Board; a letter from the Chairman of the Orleans County Republican Committee recommending that Robert E. Batt be appointed Republican Election Commissioner;

Report of Standing Committees: Legislator Bennett reported attending the Fish and Wildlife Management Act Board meeting on the 12th, noting that George Blackburn's term on that Board is to expire soon.

Legislator Vick spoke in regards to sales tax, and said the County Treasurer had been in contact with State people who indicate the County is going to be over the estimates for 1986. There is a question as to whether the County is receiving the amount of sales tax it's supposed to receive - information in this regard is very hard to obtain.

Legislator Schaal reported regular meetings, and noted that new carpeting has been installed in the Legislature Office.

Legislator Swiercznski reported regular meetings. Mr. Swiercznski also noted that he had been meeting with a group on transportation needs within the County, and said he would like this placed under Planning and Development, so that Wayne Hale can be the contact person. There was some discussion on how the County could check to see if these figures were accurate - that all businesses were reporting their sales tax correctly, so that Orleans County would be getting its correct portion of the sales tax. Mrs. Basinait suggested making an appointment with the appropriate people in Albany, and going to their offices to discuss the whole procedure. Legislator Swiercznski concurred, saying "We have got to know how they figure the sales tax for each county."

Legislator Vick, with second by Legislator Schaal, introduced a resolution approving an agreement between Chief Administrative Officer and the Office of Personnel and Self Insurance re Computer Programming. There was much discussion on approving this contract. Legislator Vick said that a number of proposals had been received, but that Mr. Dudek's was the lowest one. Mr. Dudek explained that he would be working on this program on his own time. Legislator Vick moved to allow the contract between Self-Insurance/Personnel Office and Chief Administrative Officer, on a one-time only basis. This was seconded by Legislator Schaal. Motion carried. The following resolution was then adopted:

We worked very closely with the Budget Committee throughout the year. Reports were processed monthly and a determined effort was made to keep the individual budgets under control. Some changes were made in the budget format for 1987, which more closely follow Audit and Control guidelines. Capital Budgeting was implemented in 1986 and incorporated in the 1987 operating budget and wherever necessary.

PROGRAM:

1986 turned out to be a very good year for us in regard to the placement of the unemployed, low income people into unsubsidized employment. It was much improved over the 1985 fiscal year. I believe that our economic condition in the county has improved significantly which has aided us in being able to help people find employment. Several employers have taken on new employees thereby increasing the total number of employed for the county. It is interesting to note that our county's unemployment figures for October 1986 was 5.68%, the lowest I can ever remember since becoming involved in employment and training programs.

SERVICE RESPONSIBILITIES

To provide Intake/Diversion¹, pre-sentence investigations², and Probation supervision services³, toward contributing to the system's handling crime problems in a safe, effective, humane and yet economical fashion.

- 1 Intake/Diversion, where it's the choice of the victim, adjusts cases by counseling and negotiation between offender and victim, without Court action, generally in cases involving marital discord, separated spouses (non-support, custody, and child visitation), children committing crime, runaway and incorrigible youth, neighborhood disputes, minor crimes, first offenses, domestic violence, family fights and disputes.
- 2 Investigations attempt to give the Judge a factual picture and an emotional grasp of the human before him so that he can sentence in a manner best suited to the protection of society, the rehabilitation of the defendant and to deter others from committing crime.
- 3 Through understanding, concern, and discipline, the probation officer helps the client avoid further criminal activity and to become a more productive community member.

PROGRAM:

There have been no special projects in the department in 1986 - most of our work is the continuing task of keeping assessment and ownership records and tax maps up-to-date, and assistance to the assessors and to the public.

As usual we coordinated processing of assessment rolls, tax rolls and tax bills for towns, villages and schools through the Batavia SDEA office, and it went smoothly and in good time.

The Director and the assessors attended various training sessions throughout the year, to gain information and to satisfy the required continuing education credits. New legislation and SDEA rules and regulations keep everything in a constant change of change and sometimes confusion, so it is necessary to keep in close contact with the Batavia and Albany offices of SDEA. Frequent county director meetings and training schools help to accomplish this.

PROGRAM: An amount of \$6,493 was placed in the DWI Reserve Fund for two reasons, less expenditures and more revenues than projected. Due to the fact that some DWI expenses are budgeted directly in Orleans County Departments all expenses are not listed in the DWI program budget, but are covered by DWI program revenues. Expenditures in this light include \$9,869 DWI Probation Officer, \$8,000 DWI Counselor and \$3,742.54 Sheriff DWI Patrol and Court Time.

ENFORCEMENT ACTIVITY: Arrests totaled 243 with each police agency responsible for the following percentages. Sheriff 20.1%, Albion 6.9%, Holley 22.2%, Medina 12.3%, Park Police 2.4% and State Police 35.3%. The total of 243 arrests compares with 248 (1983), 208 (1984), 149 (1985) with other years. The average BAC level for 1986 was .167 which has dropped from .185 from earlier years, which generally indicates better enforcement.

(See Attached Probation Report)

Public Information and Education remained very strong in the program as many presentations were made in the school and to the general public.

The program continues to have impact as personal injuries and fatalities continue to remain low as compared with a few years earlier. A combination of factors; tougher DWI laws, increased seat belt use, age 21 could be partially responsible for this encouraging trend.

Legislator Vick introduced a resolution authorizing the sale of County-owned property in the Town of Shelby. This was seconded by Legislator McMurray. In discussion of this resolution, it was pointed out that the house on the property had burned since the County had foreclosed. The County does carry fire insurance on all foreclosed properties, and so did not suffer loss due to the house burning. Legislator Schaal moved to amend the resolution, with the addition of the following sentence: "provided that the County Attorney and Treasurer will not complete this transaction until the Treasurer receives appropriate settlement on insurance proceeds." This was seconded by Legislator McMurray. Upon vote, the motion to add the amendment was passed, 4 ayes; 3 nays, Legislators Vick, Bennett, and Billings.

The following comments were made - Chairman Billings said he felt the County should get payment for back taxes on the lot only, since the house had burned and would no longer be considered part of the assessment. Legislator Berger and Legislator Bennett agreed with the Chairman. Legislator Schaal said, "I am voting for it, because anybody who does not pay his taxes is penalizing all the taxpayers. This property would be subject to sale in April anyway, and at that time, it would have to be sold. I don't feel anything we do in this area is incorrect. I am sorry they are in such unfortunate circumstances. If the house hadn't burned down it would have been sold in April."

Legislator Vick was concerned about setting a precedent, if this sale was approved, since the County would be accepting payment for property in an amount that would be less than the amount of back taxes actually due, and whether or not this action could be used against the County at a later date.

Legislator Berger felt that in this case, the assessed value of the land should be used in determining the amount to be accepted when the land is redeemed by the owner.

The County Attorney explained that the \$3700.00 amount was determined as the fair market value for the property - land only, since the house had burned down.

Mr. Young did not feel that a legal precedent would be set by selling the property in this manner.

Legislator Vick moved to table the resolution. This was seconded by Legislator Bennett. Upon vote, the motion was defeated, 3 ayes; 4 nays.

The Chairman put the proposed resolution to vote, and the following resolution was adopted:

Legislator Vick said he was voting "No" because of concern in setting a precedent - there was no problem with passing the resolution in favor of the people but that he could not vote "Aye" for that reason.

Legislator Vick introduced Local Law No. 1 of 1987 entitled A LOCAL LAW INCREASING THE SALARIES OF VARIOUS EMPLOYEES OF THE COUNTY OF ORLEANS APPOINTED OR ELECTED FOR A DEFINITE TERM.

Legislator brought up the subject of "Deferred Comp"; he felt that something should be done towards agreeing to a plan - that a resolution would be needed

at the next meeting to seek proposals. Legislator Schaal suggested doing another survey to see how many would be interested, and explain to the employees that the new survey was being done because of the change in the tax situation.

Legislator Swiercznski commented on the ad for the County Highway Superintendent position. In another matter, Mr. Dudek said he had met with a representative from Niagara Mohawk in reference to the routing of the utility lines around Court House Square. Niagara Mohawk would like the County to share in the expense of rerouting the lines - the cost for doing this was approximately \$12,000.00. Legislator Schaal suggested they go to the National Historic Preservation Society, since the whole Court House Square area is in the National Registry. Legislator McMurray said the Legislature should go on record as opposing the installation of power lines around the Court House Square. Legislator Swiercznski agreed, saying the Square should be protected. The County Attorney suggested that a letter be written approving of the longer route for the power lines, but without the authorization of any County money, and send a copy of the letter to the National Registry. This was agreed upon by the entire Legislature.

Mr. Dudek brought up the subject of a telephone system for the Highway Department. He made the suggestion that the Highway Department be given the telephone system currently installed in the Legislature Office, and that the Legislature then purchase a new system, with the capability of adding three more telephones. Legislator Schaal moved to waive the rules to allow for the introduction of a resolution in reference to the telephone system. This was seconded by Legislator Berger. The following resolution was adopted:

RESOLUTION NO. 31-187

Legislator Vick reported that the County had received notice from the State Tax Bureau that the County had been overpaid approximately \$90,000.00 and, therefore, Orleans County would not receive January's allocation. Mr. Vick said he felt there was a problem with a firm that wasn't properly reporting the sales tax to the State, and that if need be, he would contact Senator Daly or Assemblyman Hawley about the matter. Mr. Vick felt that this wouldn't cause a cash flow problem for the County.

Legislator Schaal moved to go into executive session to discuss a personnel matter. This was seconded by Legislator Berger. Motion carried.

LEGISLATURE MEETING

January 28, 1987

The Chairman called the meeting to order at 7:30 p.m. The Clerk called the roll and all Legislators were present.

The Clerk presented the following communications: A letter from the Town of Murray recommending the appointment of Mr. Arthur Hendel to the County Planning Board;

A letter from Assemblyman Hawley re the Advisory Task Force for Handicapped Children's Education Program and a copy of a letter from State Education Department Commissioner Gordon M. Ambach, re the same Task Force;

A letter from Governor Cuomo's office acknowledging the receipt of Resolution No. 465-1287;

Announced that the New York State Association of Counties spring conference would be held at the Albany Hilton March 8 - 10, 1987.

Report of Standing Committees: Legislator Bennett reported attending the first Tourism Board Meeting, and said all members were present. He and Legislator Vick attended the SPOC Meeting, and said that members of that organization would be attending the February 11th meeting of the Legislature. Mr. Bennett said there would be a meeting of the Solid Waste Committee on Wednesday, February 4th at 3:00 p.m.

Legislator Schaal attended the usual committee meetings, and then introduced Mr. Arthur Fagan, Supervisor from the Town of Clarendon, and Mr. Thomas Persia, Councilman from the Town of Clarendon.

Legislator Swiercznski reported attending the usual committee and department meetings.

Legislator McMurray attended the DWI Coordinating Committee meeting, the Youth Board meeting with Legislator Schaal, and the Soil and Water Dinner Meeting.

Legislator Berger attended the Lifeline Meeting on the 15th, the Chamber of Commerce and Legislative Breakfast, the Soil and Water Conservation District Meeting on the 12th, and attended the Tourism Board meeting on the 21st, and felt the meeting was very well organized.

Legislator Vick attended the Soil and Water Meeting, the SPOC organization meeting, as well as a couple of special Finance Committee meetings.

During the open discussion portion of the meeting Supervisor Art Fagan was given privilege of the floor to address the Legislature. Mr. Fagan said the Town was having a problem with its youth program; the Town of Clarendon was not getting its reimbursement back from the State, and the Board was trying to find out more about how the program was run. Mr. Billings said the funding was determined upon a per capita basis. Mr. Bennett explained that the Village of Holley, the Town of Murray and the Town of Clarendon all appointed representatives to one Joint Recreation Commission, and this commission in turn determines the budget, and is given funding through the Youth Bureau. Mr. Schaal explained that the Youth Bureau itself, does not have control over the program - the Commission has the control. The Youth Bureau assists in the application process. However, financial statements and records have to be kept, and the necessary paper work has to be submitted along the application in order to get the fifty percent reimbursement back from the State. The County has no control over the Commission. Mr. Fagan said he had written to Mr. Piedimonte, Town of Murray Supervisor, and to Mr. Strong, Mayor of the Village of Holley, and he was still waiting for replies. Mr. Berger suggested contacting Mr. Tirsch, the Director of the Youth Bureau to get more information, and direction as to what procedure to use to get something done.

Motion by Legislator McMurray, to adjourn the meeting. This was seconded by Legislator Bennett. Motion carried.

Meeting adjourned at 10:00 P.m.

LEGISLATURE MEETING
February 11, 1987

The Vice-Chairman called the meeting to order at 7:30 p.m. The Deputy Clerk called the roll and all Legislators were present, with the exception of Chairman Billings and Legislator Vick.

Mr. James Farnham and Ms Chris Bartholomew, President and Vice-President of SPOC, were in attendance. Legislator Bennett said he had asked Mr. Farnham and Ms. Bartholomew to come tonight. Mr. Farnham said he and Ms. Bartholomew represent a recently reformed citizens group consisting of members from the towns of Albion, Gaines and Murray. Mr. Farnham presented a report which covered various information about the possible expansion of the Orleans Landfill, including aspects that would be detrimental to the area. Mr. Farnham said that the Town of Albion has recently made DEC the lead agency concerning the possible increased volume and expansion of the landfill. If DEC approves of the expansion, the Town of Albion will agree. Mr. Farnham asked that the Legislature do whatever it can to combat the increase in volume and the expansion of the landfill. Mr. Farnham also asked if there is a possibility of an agreement with Genesee and other surrounding counties. He mentioned that there will be a meeting on February 18 at 7:00 p.m. at the Albion Town Hall with DEC. Legislator Bennett said that, as a Legislature, we are concerned, and as a Solid Waste Committee, Legislator Vick and I would be glad to meet with you. Legislator Bennett said that they will be meeting with Monroe and Genesee Counties on February 19. Ms. Bartholomew remarked that DEC has been very amenable and have offered to help sort through all the records concerning the landfill. In response to a question from Legislator Schaal, Mr. Farnham said the group is very interested in the proposal of the waste energy development with Genesee County. Ms. Bartholomew said there has been discussion about the possibility of recycling. After further discussion, Legislator Swiercznski expressed his appreciation for the concerns of the group. Ms. Bartholomew asked if it would be appropriate for the Legislature to make its opinions known to DEC. Legislator Bennett replied that there is a resolution regarding solid waste on tonight's agenda, and a copy will be sent to DEC.

The Deputy Clerk presented the following communications: a letter from Senator Daly acknowledging receipt of resolution number 465-1286, a

resolution adopted by the Past & Present Supervisors Association in support of expansion or new construction of NYS Correctional Facilities within Orleans County, a letter from Dr. Fernandez regarding the power outage on February 10, a letter from Senator Daly acknowledging receipt of resolution number 17-187, a letter from Gerald Crotty acknowledging receipt of resolution number 17-187, a letter from Assemblyman Hawley acknowledging receipt of resolution number 465-1286, a letter from Carl Levandowski regarding reappointment to the ABC Board, and a memo from NYSAC regarding the March 10 special business meeting.

Report of Standing Committees: Legislator Swiercznski reported attendance at the usual meetings. Legislator Schaal attended the regular meetings. Legislator Bennett attended the usual meetings. Legislator Bennett suggested at this time that it might be worthwhile to us to back the position of the Supervisors Association regarding the correctional facilities, and meet with DEC and see if they could heat an additional facility by means of burning garbage. We should pass a resolution indicating that we are in favor if DEC will help us with our solid waste situation. Legislator McMurray reported attendance at the usual meetings. Legislator Berger attended his usual meetings, including a Solid Waste meeting on February 4, Village of Lyndonville and Town of Ridgeway meetings on February 9, and, Soil and Water meeting on February 10.

NOTWITHSTANDING ANY RESOLUTION HERETOFORE ADOPTED, BE IT RESOLVED, that the following terms of auction for County-owned property for the auction to be held April 11, 1987 at 10:00 a.m., be approved by this Legislature as follows:

**TERMS OF AUCTION
ORLEANS COUNTY TAX PROPERTY AUCTION
APRIL 11, 1987, 10:00 A.M.**

This is the sale at public auction of various parcels of real property which have been conveyed to the County of Orleans by final judgment under the so-called In Rem Tax Foreclosure Proceedings. This sale is ordered by various resolutions of the Orleans County Legislature and is in accordance with the appropriate provisions of the Real Property Tax Law.

This sale and sale of each and every parcel herein is upon the following terms:

1. All sales are made subject to confirmation and approval thereof by the Orleans County Legislature, which confirmation and approval will be requested at a special meeting of the said Legislature to be held this day at 11:00 a.m. The resolution of confirmation will be immediately available at the close of said special meeting.
2. At least 25% of the final bid for each parcel shall be paid to the Clerk of these proceedings prior to the start of the special Legislature meeting above stated. Payment shall be in cash or by a good check upon a New York State financial institution.
3. The balance of the successful and accepted bid for each parcel shall be paid in cash or by certified

check to the Orleans County Treasurer, 34 East Park Street, Albion, New York, 14411, no later than Friday, May 1, 1987 between 9:00 a.m. and 5:00 p.m. unless extended by the Legislature.

4. The County of Orleans is not required to send any notice to the purchaser or purchasers, and if the purchaser or purchasers neglect to pay the balance due and call at the Orleans County Treasurer's Office at the above stated time the successful bid shall at 5:00 p.m. on Friday, May 1, 1987 be deemed conclusively to be abandoned, the deposit retained by the County as liquidation damages and the parcel in question disposed of in such manner as the County determines without notice to or benefit to the defaulting purchaser.
5. Upon payment of the balance, as above provided, the County of Orleans will deliver a standard form quitclaim tax deed which shall describe the parcel in the same manner as in the In Rem Foreclosure deed to the County and which shall quitclaim all of the right, title and interest of the County of Orleans in and to the said parcel. The said deed shall name as grantee the successful confirmed bidder and shall state the amount of the successful confirmed bid. The County of Orleans will execute no warranties concerning the parcel or the title thereto and will not deliver or be responsible for abstracts, title searches, surveys, maps or other documents concerning the parcel whatsoever.
6. The deed shall contain a condition and covenant that Orleans County shall in no event be or become liable for any defect in the title so conveyed for any cause whatsoever, or that no claim or demand of any nature shall ever be made against said Orleans County arising from such sale or conveyance or any proceedings leading thereto.
7. All parcels are sold subject to the 1987 Town and County tax and the relieved 1986-87 school tax. The amount of such unpaid tax shall be announced by the auctioneer prior to the auction of each parcel. The unpaid taxes must be paid prior to April 30, 1987 to avoid further penalty. The unpaid tax must be paid upon payment of the balance of the final bid.
8. The purchaser upon payment of the final bid and the unpaid taxes shall also deliver to the Treasurer a check for all recording fees due to the County Clerk for filing the deed. Such fees will be \$13.00 plus \$2.00 for every \$500.00 or part thereof of the purchase price. For example, if final bid

is \$10,000.00, recording fee is \$13.00 plus \$2.00 x (20) or \$53.00.

9. The successful and confirmed purchaser shall take the parcel "as is" upon delivery of the above stated deed, in such condition as the same exists at that date and subject to all alleged possessory or other claims and all covenants, easements and restrictions of record.
10. The various parcels have been available for view by any and all interested parties prior to this sale. No adjournment in bidding shall be allowed for further viewing of any parcel.
11. The various parcels shall be offered from the list of parcels previously available in such order and manner as the auctioneer shall deem proper.

RESOLUTION IN SUPPORT OF STATE LEGISLATION REGARDING SOLID WASTE DISPOSAL

WHEREAS, the Federal "Resource Conservation and Recovery Act of 1976" required states to designate an official state agency with principal responsibility for preparing, updating and overseeing implementation of a state solid waste management plan required by the Federal "Resource Conservation and Recovery Act of 1976"; and

WHEREAS, the State Department of Environmental Conservation in Chapter 425 of the Laws of 1976, constituting the New York State Resource Recovery Act, was given responsibility to, and did, develop and file a draft New York State Comprehensive Resource Recovery Plan; and

WHEREAS, in 1980 comprehensive legislation was enacted (Chapter 552 of the Laws of 1980) which continued the Department of Environmental Conservation as the official agency with responsibility for the management of all solid waste in the State of New York, consistent with State Resource Recovery policies; and

WHEREAS, the action of the Department of Environmental Conservation, to date, has failed to produce an effective state policy and plan for the disposal of solid waste throughout New York State; and

WHEREAS, the burden of dealing with the numerous problems associated with solid waste collection, disposal and resource recovery has increasingly fallen upon local county, city, town and village governments; and

WHEREAS, an integral element in solving the problems associated with solid waste on the local level is the ability of the local government to enact meaningful local laws;

NOW, THEREFORE, BE IT RESOLVED, that this legislative body does hereby request that the State Legislature adopt and approve legislation that will enable Counties to enact local laws to deal with the solid waste problems; which laws would authorize local provisions for:

- A) The exclusive control and management of all solid waste and of all materials, and other products or resources derived therefrom; subject to state oversight to ensure the applicability of the State-action exemption to the Sherman Anti-trust Act;
- B) The ability to determine that all solid waste within County boundaries be disposed at a specific site or resource recovery facility;
- C) The ability to assure a regular solid waste management, disposal, and handling service together with the ability to establish from time to time necessary charges for the service provided;
- D) The ability to prohibit the disposal or processing of any solid waste collected from or generated by sources outside of the boundary of the County;
- E) The ability to make necessary assurances to the holders of any bonds or obligations issued; and

WHEREAS, in his budget, Governor Cuomo has promised to submit legislation to recover unclaimed consumer deposits on beverage containers (this may yield \$48.2 million if his assumptions are correct), this Legislature urges that these recovered monies be made available to local governments for use in long term solid waste solutions

and be it

FURTHER RESOLVED, that certified copies of this resolution be forwarded to Governor Mario Cuomo, the Legislative Commission on Solid waste Management, the leaders of the Senate and Assembly, Senator Daly, Assemblyman Hawley, NYS Association of Counties; and Inter-County Association of Western New York.

Legislator Swiercznski asked Mr. Hudnut, reporter for the Journal Register, about the article on canal bridges. Mr. Swiercznski wanted to know why Orleans County was not included in the survey that was being carried out by NYSDOT. Mr. Hudnut stated the survey was being conducted by the NYSDOT Buffalo Region, and that Orleans County was not a part of this region. Mr. Swiercznski expressed his concern over the poor condition of canal bridges within Orleans County and felt that it would be beneficial to have Orleans County included in the survey, and suggested that someone from NYSDOT be invited to come and speak to the Legislature about this. Mr. Dudek suggested that he would talk with Mr. Cooley, from the County Highway Department, and have him contact DOT on the matter.

Legislator Berger read an article from a monthly periodical regarding a video available to local municipalities that has to do with developing hometown jobs. The contact person was Nancy Stark of the National Association of Towns and Townships. Mr. Berger suggested that Mr. Dudek contact Ms Stark and obtain a copy of the video for the Legislature to review, and if the video was really beneficial, then it could be shown to the members of the Past and Present Supervisors Association.

After the presentation of the resolutions, Mr. Schaal asked that a letter from Jack McCarthy, Director of the Office of Disaster Preparedness be read. The letter concerned a loss of water at the County Administration Building and the County Nursing Home, and the procedure that was followed when this event occurred. Mr. McCarthy suggested that an outside connection of the water line be installed at the County Nursing Home, in case the water line had to be shut down, so that water would be available for the Nursing Home. The Chairman explained this had been taken care of - a tank truck will be parked at the top of the hill in front of the County Administration Building, attached to the hydrant, and the water will run down through the existing lines into the Nursing Home. This arrangement meets with Health Department approval.

The Chairman appointed members to two committees:

Committee to Review Deferred Compensation Proposals: Mary Basinait, Treasurer; Sandra Bower, Personnel Officer; Stanley Dudek, CAO; and the members of the Administration and Finance Committee, Legislator William Vick, Chairman and Legislator Richard Bennett.

Computer Advisory Committee: Legislators William Vick and Frank Berger; Stanley Dudek, CAO; Frank Zona, and two others to be named at a later date, preferably from outside the County. (Names are to be given to the Chairman next week.)

Report of Standing Committees: Legislator Vick reported a Finance Committee meeting on the fuel farm charges. Mr. Vick and Mr. Schaal attended the last Fire Chiefs' Association meeting in reference to the rescue vehicle. Mr. Vick said he explained the contents of the resolution adopted by the Legislature, and indicated what the intent of the Legislature was in passing such a resolution. The Association would like to put additional pressure on the State Legislature (through the County Legislature) to obtain additional

funding. They have formed a committee, and invited any Legislator who wanted to do so, to make a trip to Albany, to visit State legislators who are involved in this type funding. Chairman Billings said he had asked the Fire Coordinator to arrange a meeting with the Fire Chiefs to discuss this matter, but hadn't received confirmation of such a meeting. Also, that Assemblyman Hawley had written, but had not received any answer.

Legislator Berger visited the Town of Yates on the 9th, re bridge problem, also attended the Town Board meeting; visited the County Nursing Home on the 10th; participated in the interviews for the position of Director of Public Health; Village of Lyndonville and Town of Ridgeway meetings on the 13th; the Soil and Water Conservation District Board meeting on the 14th; the Soil and Water meeting in Syracuse on the 15th and 16th; attended the meeting on bridges on the 22nd.

Legislators McMurray, Swiercznski and Schaal reported the usual meetings. Legislator Bennett had been on vacation.

The privilege of the floor was given to Mrs. William Narburgh, of the Bridges area. Mr. and Mrs. Narburgh own a grocery store at The Bridges. There were thirty people in attendance at the meeting, most of them were residents and/or business people from the Bridges area, and Mrs. Narburgh was the spokesman for the group. She explained that they were mainly concerned with what will happen to the bridges in the area, and the effect that the closing/repairing of these bridges will have on the County, and in particular the Point Breeze area and The Bridges area. The group was also concerned about the weight limits on the bridges. She felt that if the Roue 18 bridge were closed, along with the bridge over Oak Orchard, near Vic's, it would put more stress on the Route 98 bridge, and wondered if that bridge was capable of standing more traffic, than it currently handles. Mrs. Narburgh noted that some tourists were going to Niagara County, because of the facilities that county has to offer, and she said that if the bridges were closed it would have even a worse impact on the County's tourism business. Mrs. Narburgh also noted that emergency vehicles have to detour around The Bridges area. There is concern in that regard.

Donald Cooley, County Highway Superintendent, said safe detours would be provided while work was being done on the Bridges. These routes would be made available to emergency crews - firemen, ambulances - as well as to other truckers who would have to by-pass the area because of the weight limits. Mr. Cooley said that there would be some inconvenience, but it would be handled in the best way possible, to make the situation

easier for everyone.

Legislator Schaal explained that he had been working closely with the Highway Superintendent, and informed the group that there were 18 bridges which had been flagged, and 6 that had been closed, and that more would be closed in the future. He and Mr. Cooley were putting figures together to determine the cost of repairing/replacing these bridges, and would present them to the Legislature in order for bonding whatever money is necessary to repair and/or replace these 18 bridges over the next one to three years. Mr. Schaal told the group that a definite plan of action would be formulated within the next sixty days.

Legislator Vick told the group there were three options for the County bridge over Oak Orchard (near Vic's), and asked for their opinions:

1. Close the bridge and remove it and not have the bridge over Oak Orchard;
2. Close the bridge right away and put in a new bridge at a higher level;
3. replace the bridge at its present level.

Several comments were made: If the bridge was removed entirely, there was concern that accidents would be increased, turning west from Route 98, onto Route 18. The question was asked whether or not there was enough room for approaches to a new bridge, if the level of the bridge was raised. Several asked that the County bridge over Oak Orchard not be closed at the same time the State has the Route 18 bridge closed. The majority of the group was in favor of replacing the bridge. One person said that the design of the bridge replacement should be in keeping with the area; that the new bridge should not be a "modern monstrosity", which would destroy the uniqueness of The Bridges. Many of the tourists like the atmosphere of The Bridges. Several of the group agreed that the old fashioned setting of the area should be maintained and preserved.

The question was asked about shoring up the two bridges - the one over Marsh Creek, and the one over Oak Orchard River. Mr. Cooley said there would be no problem with shoring up the Marsh Creek bridge, but that doing this with the Oak Orchard bridge would be quite an expensive project. Mr. Hoffman stated the need for development on the west side of Oak Orchard River, and noted that that the State had not begun work on that project as yet. Mr. Billings said the members of the Board had been invited to a groundbreaking ceremony scheduled for Friday, May 15th to signify the beginning of construction of the development of the west side of Oak Orchard River, at Point Breeze.

Legislator Bennett stated that he agreed with the suggestion that all the bridges should not be closed at the same time. And in reference to the bridge over Oak Orchard River, Mr. Bennett said that he wanted the bridge replaced, no matter what it looked like, because he felt it was the area itself that was unique, and not just the bridges.

Legislator Vick gave a brief report on the status of Oak Orchard River Marine Park. Mr. Vick said that approval for permits to develop the east side had been received, and only needed to be signed, and sent back. Phase I of the project will be going out for bids - there was a question on the types of dockage that will be installed - and will be completed this year. It was noted that another grant could be obtained from the last bond issue, which would amount to \$191,000.00. If this was applied for, the project would have to wait until January 1988 for the funds to be available. Legislator Bennett said he would rather not wait, but would like to go ahead with the project, now.

There was continued discussion on the bridge repair/replacement at The Bridges. Legislator Schaal noted that safety would come first. Mr. Schaal told the group that after the Legislature had prioritized the work needed to be done, it would then determine what the cost for the projects would be, and decide how the work is to be financed.

Hugh James commented, "I would like to commend you legislators for the positive attitude you have taken this evening. Economic development is not only the County's problem, but is the Town of Carlton's problem too. I think a positive approach has been heard, and we need to push development of the community; the economic impact will be sizable."

There was discussion on the permits which would allow emergency vehicles and residents of Lakeside Beach to use the State access road to get to their residences, since lowering the weight limit on the bridge over Johnsons Creek by the County Highway Department. Tom Young, the County Attorney, had talked with Mr. Foley of the Parks and Recreation Commission to clear up a problem in the language of the permits. Mr. Foley told Mr. Young at that time, that the County could apply for another permit when the bridge is actually closed. The road from the Park to Lakeside Park shall be barricaded according to instructions from

the State.

Legislator Swiercznski spoke to the Board about hiring a consulting engineer for the County Highway Department. Mr. Billings agreed, saying that an engineer was needed to look at the bridges and decide whether or not it should be done and the type of structure that should be used. It was decided to draw up specs for advertising for a consulting engineer for the County Highway Department, and have a resolution ready for the next meeting.

Report of Standing Committees: Legislator Bennett said he attended a couple of Tourism sessions with Legislator Berger, Wayne Hale and Kelly Wadhams; attended a Fishery Advisory Committee meeting Monday evening, at which time the Committee discussed the Park, and felt that it would be wise to wait and apply for a grant of approximately \$150,000.00, even if it meant delaying the Park project for one more year.

Legislators Schaal, Swiercznski, McMurray reported their usual meetings.

Legislator Berger reported attending the County Auction/Legislature meeting on May 2nd; a Tourism meeting on May 5th; Legislature meetings on May 6th; Gaines Ag District Public Hearing on May 6th at 7:30 p.m.; on May 11th the Village of Lyndonville and Town of Ridgeway meetings; May 12th, the monthly Soil and Water Meeting.

During the open discussion of the meeting, the privilege of the floor was given to Dick Hoffman, Town of Carlton and Bob McGaffick, Albion, who invited the members of the Legislature to a fishing contest to be held June 13th at Point Breeze. Everything is to be furnished, only requirement is for the legislators to be there at 6:00 a.m., when breakfast will be served, with fishing on the lake scheduled afterwards. Mr. Hoffman said the contest is a promotional contest, to kick-off the American Heart Association's Lake Ontario Fishing Derby scheduled for June 16-28, 1987 and September 4-7, 1987. The contest is between the Buffalo and Rochester TV news broadcasters, and Jack Kemp has been invited, along with Senators D'Amato and Moynihan. There was discussion on Oak Orchard River Marine Park in the Town of Carlton. Mr. McGaffick said that at a meeting of the Fishing Board, which is a sub-committee of the Tourism Board, it was voted upon to wait and apply for the grant, and proceed with the Park next year. Legislator Vick said that it would be possible to let the contract this summer and have construction completed for Phase I, by April 1st of next year. Mr. Vick asked Mr. McGaffick if he would still feel that way in reference to waiting, if dockage could be made available for the Derby next year. Mr. Vick said there was a chance that the County would not get any more money from the State, if the County did not start spending what it has, towards the development of the Park. Legislator Berger commented that the State wanted the County to be a "partner"; that the State looked very favorably toward self-help.

Mr. Stuart Thomas of the County Health Department gave a report on the landfill situation within the County, and handed out a brief, typewritten report explaining the situation.

Mr. Billings asked who intended to attend the groundbreaking ceremony to be held on Friday, the 15th on the west side of Oak Orchard Creek. Legislators Swiercznski and McMurray will attend along with Chairman Billings.

In response to a question from the floor on the bridge situation, Legislator Vick said the Highway Superintendent was going to get a per hour rate from Erdmann and Anthony, with the thought of repairing at least one bridge, possibly three. Mr. Cooley was also going to get quotes from two other firms that manufacture bridges. LEGISLATURE MEETING

May 27, 1987

The meeting was called to order by the Chairman at 7:30 p.m. After the pledge to the flag, the Clerk called the roll and all legislators were present.

The Clerk presented the following communications: Minutes from the May 12th meeting of the Soil and Water District; a letter from Councilwoman Uldine Jurhs thanking the Legislature for their cooperation in providing the necessary funding to establish the sub-stations requested by Sheriff Green; minutes from the April 30th meeting of the Genesee/Finger Lakes Regional Planning Council; a copy of a letter from SLC Consultants/Constructors, Inc., Lockport, New York to the County Highway Superintendent re the Highway Department's pad for the Fuel Farm; a letter of thanks for the Legislature's consideration in allowing the New Colony Camp Coalition, Inc., Kent, New York to redeem the Coalition properties in the Town of Carlton; a letter from the Murray Town Board regarding the appointment of Josephine Rayburn, Holley, New York to the County Planning Board.

Report of Standing Committees: Legislators Swiercznski, Schaal, Bennett and McMurray, reported attending their usual departmental meetings. Legislator Vick reported attending the Tourism Board meeting and a Finance Committee meeting. Legislator Berger attended the Yates Town Board meeting on May 14th, the Supervisors' Association meeting on May 19th, attended the Tourism Board meeting on May 20th, and presented the awards to the Senior Citizen recipients on May 27th - also stopped at the Job Development Agency, Veterans Service Agency and the Nursing Home. At the last Village of Lyndonville meeting, the board commented on their satisfaction in having the Sheriff's car stationed in their village and in the Town of Yates.

During open discussion, Sharon Narburgh, of Two Bridges and several others from that area, were given the privilege of the floor. Mrs. Narburgh said she had expected the Carlton Town Board to be in attendance, but was told they had attended the Conference Session in the afternoon. Chairman Billings stated that an engineering firm had been given authority to summarize the bridge situation in the County and to prioritize what should be done in regard to the bridge situation. Mr. Billings said that repairs would be started on the Route 18 Bridge on the Monday, after school closes. As far as the County's bridges, Mr.

Billings explained that there is no schedule, as the Highway Superintendent is not sure what has to be done - a report will be prepared and presented to the Legislature at a later date. Legislator Schaal stated that the bridge at Lakeside has No. 1 priority, and that the Highway Department is moving very quickly in that area. Legislature Bennett asked those in attendance what their feeling was as to removing the bridge between Vic's and Narbie's, noting the Town Board was on record as opposing that idea. Mrs. Narburgh said they would also prefer to have the three bridges in the area. Hugh James said that the KYC Board felt that the environment and conservation aspects of the area were more important in the upper gorge, and that development should be restricted to the lower area. It was felt that the bridge would serve this purpose - keeping development to the lower portion of the river, and the upper area maintained for wildlife.

Legislator Schaal introduced a resolution authorizing the County Highway Superintendent to hire Erdman, Anthony, Associates as engineers for the Highway Department. This was seconded by Legislator Swiercznski. During discussion, Legislator Vick said he would not recommend passage of this resolution, because there was no rate schedule. Legislator Bennett suggested amending the resolution authorizing costs not to exceed \$3,000.00. Motion by Legislator Vick, with second by Legislator Bennett, to table the resolution until more information can be obtained. Motion carried.

County Attorney, Tom Young, was given privilege of the floor to discuss the contract documents for Oak Orchard River Marine Park. Mr. Young recommended that someone familiar with the project look at the plans to make sure everything the County requires is included. Mr. Young said there would be a pre-bid meeting to be held June 15 on the site, with the County would opening bids July 1st. The contract provides 5% recoverage from the payments, with the engineer authorized to act as the County's agent in approving the progress of the work. Claims are to be submitted to the engineer, who has 10 days to accept the claim and present it to the Legislature for payment, with the County making payment within 10 days. Mr. Young recommended changing this to 20 days in order to allow time for adoption of the resolution authorizing payment. There were other changes Mr. Young recommended, and the Legislature authorized Mr. Young to write a letter to Wendel Engineers stating the changes.

Mr. Dudek mentioned that the fish cleaning station was not included on the plans, and felt that, according to the resolution, the Legislature should be able to go to the Fishery Advisory Board and say - "this is where the station is going to be.". Legislator Vick said that the Legislature had requested the Fishery Advisory Board to come up with plans for a fish cleaning station which would be feasible, about 12 months ago, and the County would install it. Mr. Vick said he hadn't heard or seen any plans for such a station. Legislator Bennett said that Mr. Hale, the Planning and Development Department Director had the plans. Mr. Bennett explained that it simply wasn't a matter of finding a fish cleaning station that will work, but one that can be maintained economically after it's built and installed. Mr. Bennett said he was at fault, because he hadn't realized the entire Legislature wanted to see a plan, and stated he would have copies of all the fish cleaning stations that had been given to the Planning and Development Director made for each legislator. Legislator Swiercznski said, "The whole situation was left that there was nothing that had been approved at that site. DEC is having a problem

approving plans for this area. It was what they were going to do with the residue that caused the problem. It was left that DEC was to come back with what we are to do with residue, and we would go from there." Legislator Bennett explained that the reason the County did a separate resolution was that the fish cleaning station would not be shown on the plans for the Park.

After more discussion, Legislator Swiercznski moved to recess the meeting until 4:00 p.m. Friday. Legislator McMurray seconded the motion. Motion carried.

Meeting recessed at 9:15 p.m.

LEGISLATURE MEETING

June 10, 1987

The meeting was called to order at 7:30 p.m. by the Chairman. After the pledge to the flag, the Clerk called the roll and all Legislators were present.

The privilege of the floor was given to Glenn Cooke, Executive Director of the Genesee/Finger Lakes Regional Planning Council. Mr. Cooke presented board members with the annual report of the Council, and proceeded to give an overview of the activities of the past year, as well as upcoming projects for the Council. Mr. Cooke thanked all the board members for their support during the past year, and especially Mr. Billings, who served as Chairman of the Council. Mr. Cooke stated that Mr. Billings would be running for that position once more, at the annual meeting scheduled for June 11th. Since June 11, 1987 is the 10th anniversary of the Council, the annual meeting is to be held on the "Spirit of Rochester" - after the meeting, a luncheon is scheduled, as well as a cruise on the lake.

The Clerk presented the following communications: A petition from a group of citizens on West Park Street in the village of Albion, re housing problem; tenants are authorized this housing through Section 8 housing program, thereby, indirectly involving the County; a copy of the April 23rd minutes of the Assessors' Association meeting;

A letter from Cooperative Extension Coordinator Shirley Bright stating the Extension will continue to purchase gasoline through state contract, and did not want (at the present time) to purchase gasoline through the County Highway Department.

A letter from NYS Department of Transportation giving their maintenance schedule for summer 1987 for Orleans County; a letter from NYS Agriculture and Markets acknowledging receipt of review documents for Orleans Agricultural District No. 5 (Gaines Ag District); stating a determination of district consistency will be made by the Commissioner within the next sixty days;

Acknowledgment from Assemblyman R. Stephen Hawley regarding Resolution No. 197-587 re reimbursement formula for all probation services; notice of the Inter-County Association meeting to be held in Victor, New York at the Sunrise Hill Inn at 9:30 a.m.

A letter from County Attorney, Thomas Young, re right-of-way over privately owned property near Lakeside Park; a request from County Treasurer Mary Basinait amending resolution 446-1286 increasing Chase-Lincoln Bank designation to \$3,000,000.00.

Report of Standing Committees: Legislator Bennett spoke in reference to the petition from West Park Street residents, stating that it is primarily concerned with the environment. The County is involved because it concerns the subsidized rent program. The apartment house is in good shape; the problem is there are a quite a few children, with no place to play. Also there is a water erosion problem involved. The landlord was contacted in this regard, and Mr. Bennett said he would like to wait two or three weeks to see what the landlord does. And if there are no results by that time, perhaps a meeting can be held with the Village of Albion Board and Ashley Ward to see what can be done to allay some of these problems. Mr. Bennett said he had attended a Solid Waste meeting earlier in the day, and that the next meeting would be a purpose and goal-setting session, with a definite written statement being prepared to bring back to the Legislature for consideration.

Legislators Schaal, Swiercznski, McMurray reported usual meeting attendance. Legislator Berger met with the CSEA team on the 9th, and attended a Soil and Water meeting the previous evening. Legislature Vick reported a short financial committee meeting, noting there was a little problem with assigned counsel in the Public Defender's office being over its budget. Mr. Vick also reported on the first meeting of the Computerization Committee, and felt the committee would have a proposal for the Board in about 90 days.

In reference to deferred comp, Mr. Dudek said he should have a recommendation by the first meeting in July. The proposals are being studied, to determined which one will be the best for the County.

RE: 1987 CSEA Negotiations Case #M86-453

Gentlemen:

In accordance with the provisions of the Taylor Law enclosed herewith, you will find a copy of the Fact Finding Report and Recommendations in above matter prepared by Margery Gootnick, Fact Finder, dated June 10, 1987.

The fact finding report covers three issues:

1. Sick Leave
 - A) County position: reduce number of days from 18 to 15 per year.
 - B) CSEA position: leave 18 days intact
2. Salary increases
Both parties agree that 4% plus step in 1987 and 4% plus step in 1988 is acceptable.
3. Retroactivity
Both parties appear agreeable to making contract retroactive to January 1, 1987.

It is significant to note that a number of issues were agreed to between the County and CSEA pending a complete agreement. Those "agreed upon" issues are as follows:

- 10.1 Streamline procedure for job posting
- 21.1 Add step & foster children to bereavement leave
- 50.2 Per diem procedure for meal allowance

- 41.4 Provision of annual physicals at Nursing Home
- 14.8 Summer hours
- 41.1 Uniform allowance instead of uniforms
- 47.4 Three longevity steps of \$300 each
- 45.1 Increase in standby pay
- 29 New employee will pay 15% of BC/BS for three years
- 18.4 Delete sick leave incentive
- Consolidated salary schedule
- Removal of three bargaining positions

The above issues would be part of a new contract should an agreement between the County and CSEA be ratified. These issues will not be addressed should the County and CSEA not reach an agreement.

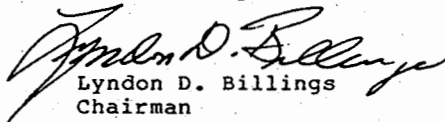

Based upon the above and the lengthy negotiations between the parties to date it is my recommendation that the dispute between the CSEA and the County be settled as follows:

1. Sick days 15 days in 1987
15 days in 1988
2. Salary 4% plus increment 1/1/87 and 1/1/88
3. All contract terms to be retroactive to January 1, 1987 provided an agreement is approved by July 1, 1987.
4. All other items as set forth above as they were previously negotiated.

In making this recommendation, it is my intent that an appropriate contract integrating this recommendation be prepared and executed by both parties.

If this recommendation cannot be implemented, both parties will lose the benefits heretofore preliminary agreed upon.

Respectfully submitted,

Lyndon D. Billings
Chairman

Legislator Vick, with second by Legislator Bennett, moved to recess the meeting subject to recall by the Chairman. Motion carried.

Meeting recessed at 6:20 p.m.

LEGISLATURE MEETING

June 24, 1987

The meeting was called to order by Chairman Lyndon Billings at 7:30 p.m. After the pledge to the flag, the Clerk called the roll, and all legislators were present.

Mrs. Sharon Narburgh was given the privilege of the floor, and presented a petition containing 541 names of people, who, for the most part, are residents of the Town of Carlton. The petition was in response to the proposed repairs to the bridges in the Two Bridges area. The people who signed the petitions were in favor of leaving the bridges as they are; i.e., not removing the bridge over Oak Orchard Creek, and keeping the bridge over Marsh Creek. Mrs. Narburgh noted that there is much concern in the Two Bridges area, over what the County is going to do with regard to the bridges, and asked the Board to state their position. She explained that there are many rumors about the possibility of removing the bridge over Oak Orchard River, and noted that the people in the Town of Carlton do not want this to happen.

Legislator Schaal explained that the bridges had been discussed at the last conference Session. The Legislature had instructed him to come up with an engineering proposal to upgrade the bridge over Marsh Creek; i.e., make that bridge the No. 2 priority. The bridge near Lakeside Park, over Johnsons Creek is No. 1 priority. The bridge over Johnsons Creek will be completed this year. The Marsh Creek bridge was chosen because of the fact that it can be upgraded, and because it seems to get more traffic than the other bridge. Mr. Schaal explained that a complete bridge survey will be done, which will be presented within the next few weeks, and will contain the information we need to make the proper decisions on the county bridges. A decision as to what will happen to the bridge over Oak Orchard River has not been made.

The question was raised as to whether or not more deputies from the Sheriff's department could be stationed at Two Bridges. Many delivery trucks are using the bridges, even though the weight limit has been lowered. Legislator Schaal said he and Legislator McMurray would speak to the Sheriff about a concentrated effort by his department to stop the large trucks from using the bridges. Mr. Billings said he would also write the State Police and request a State Trooper be sent to The Bridges, to "crack down" on the

truckers who are driving over the bridges illegally.

Hugh James spoke to the Board about the hazardous condition on route 279, in Waterport, going north over the bridge. Mr. James said, that for years, the stop sign was for the people coming off the bridge, but that the State had changed the signs around, so that people coming over the bridge heading north had the right of way. Mr. James was concerned because of the confusion this created. He noted that the people drive at a fast speed through this area, and was concerned that an accident might occur.

The question was raised as to whether or not, Route 279, going south from Route 18, could be used for a detour around the bridges. Mr. Billings said Mr. Cooley would be asked to look into this possibility.

Manley Whipple, Supervisor from the Town of Carlton, asked if the Sawyer Road bridge could be checked by the engineer, noting that it receives a lot more traffic, with the work being done at the Bridges. Legislator Schaal said that it is on the Capital Plan. He explained that the next phase after Marsh Creek Bridge is the survey, after which bridges will be prioritized.

Mr. Billings thanked everyone for attending and expressing their concerns regarding the bridge repairs in the Two Bridges area.

The clerk presented the following communications: a copy of the minutes from the June 9th meeting of the Soil and Water Conservation District Board; a copy of the May 28th meeting of the Planning Board;

Two resolutions from the Carlton Town Board - one stating the Board's intention to accept responsibility for garbage collection at the Lake Alice Boat Launch/Ramp, and the other stating that the Carlton Town Board agreed with the petition as presented to the Legislature, requesting the repair of the bridges at Two Bridges, or if the bridge over Oak Orchard River is replaced, that it shall be raised only two feet, and no higher.

Report of Standing Committees: Legislator Bennett said he had the privilege of attending the BPW awards ceremony the previous Monday evening, as the County Treasurer, Mary B. Basinait, and the County Nursing Home, Director of Nurses, Joyce Church, were presented the "Woman of the Year" award in their respective fields.

Legislators Schaal, Swiercznski and McMurray reported their usual meetings.

Legislator Berger reported usual meetings, as well as attendance at the NYS Supervisors' and County Legislators' Association Conference in Olean, New York. Mr. Berger noted that there was an exceptional presentation on the Physically Handicapped Children's Education Program. Mr. Dudek was requested to send for literature on Cortland County's program.

Legislator Vick said the Finance Committee had met to go over the Capital Budget Plan, and said he would go into detail as to proposals for the Plan, after the meeting.

The following resolutions were presented:

After the adoption of this resolution, Chairman Billings explained that the Union had filed a grievance because the person working in the temporary position was working out of class. Ms Woodcook, who is the acting director, agreed to accept this effective date. RESOLUTION APPROVING YOUTH BOARD PROGRAMS FOR 1988

RESOLVED, that this Legislature does hereby approve the Youth Board Programs for 1988; and be it

FURTHER RESOLVED, that the proposed "Policy on Funding" as presented at the July 22nd Conference Session by the Director of the Youth Bureau is also approved by this Legislature (copy is attached).

Adopted. 7 ayes; 0 nays; 0 absent.

POLICY ON FUNDING
ORLEANS COUNTY YOUTH BOARD
August 12, 1987

BACKGROUND

Whereas, for the past five years the Youth Board has chosen to allocate all dollars to previously funded programs rather than defunding an existing program to fund a new or expanded service.

Whereas, the need for these existing services can clearly be justified, this policy has resulted in very few new services being funded since all existing dollars were previously allocated. Occasionally, new dollars were created when a program found other funding sources and elected not to reapply or were defunded because the need for the service diminished.

Whereas, the Youth Board is recommending a change in this policy at this time.

Therefore, Let It Be Resolved that in an attempt to create new funds the following funding policy is adopted:

- a. If a service is submitted for funding and the Youth Board agrees that the need exists, they can elect to cut up to 10 percent of all projects approved for renewal in order to fund those new

services.

- b. The only exception to this would be projects that would have received new funding after 1988. They would be exempt from any decreases for a period up to three years at the discretion of the Youth Board, after such time would be included in any across the board decreases.
- c. An existing agency could apply for additional "new" funds providing the activity was a new or expanded service.
- d. This policy of up to 10 percent per year would only be in effect if a service was submitted for which documented need could be justified. If in the determination of the Youth Board, no such program(s) could be demonstrated no decreases or renewal projects would occur.
- e. This policy would be independent of any additional "new" State Aid that was legislatively created by the State. The Youth Board may implement this policy in addition to allocating new State Aid if need for new or expanded services is demonstrated. New State Aid could be used for existing, new, or expanded services as demonstrated by need or as outlined by the State.
- f. This policy is designed to address need where need is well established but not to financially cut any single program to support a new initiative. Except for the exclusion already noted in (b) this policy would fall equally on all renewal projects which avoids having one project phased out at the expense of a new initiative.
- g. This policy does not exclude the option that the Youth Board may elect not to fund an existing program based on due cause. If these funds were allocated to a new or expanded service, section (b) of this policy would apply.

Therefore, Let It Be Resolved, that this policy would be in effect commencing January 1, 1988 so its impact would not surface until program year 1989.

Therefore, Let It Be Resolved, that once the Youth Board and Legislature approve of this Policy, a notice to all currently funded agencies would be sent informing them of the change. This would give a one year advance notice to all.

RESOLVED, that this Legislature does hereby approve the 1987-88 Agreement between the County of Orleans and the County Employees Unit, Orleans County Local #837, Civil Service Employees Association, Inc.

Adopted. 7 ayes; 0 nays; 0 absent.

After the adoption of this resolution, the Chief Administrator Officer explained the changes in the CSEA contract, noting that the major changes were in the reduction of the number of sick leave days allowed the employees during the year, and the addition of the disability benefit for the employees covered by this contract.

Legislator Swiercznski said, "I feel that we have been fair to both parties." Chairman Billings commented, "I feel we have worked very hard to keep our employees happy." Legislator Berger noted that the County would be negotiating both the AFSCME Contract in the Sheriff's Department and the CSEA Contract in two years, at the same time.

Legislator Schaal stated that he had met with the Medical Scholarship Committee, and they had recommended that the County give David Cameron a scholarship. There was also discussion at the meeting in regard to the fact that Dr. David Hicks had opted not to come back to the County, and the Committee had recommended that the County follow through with the contract, and demand repayment. Mr. Schaal said the matter had, or would be turned over to the County Attorney.

Legislator Swiercznski said that the Kick-Off Breakfast for the Orleans County Fishing Derby would be held at the Village Inn at 7:30 a.m.

Legislator Vick asked that the Part-time Caretaker for Oak Orchard River Marine Park be notified to cover any signs at the Park that authorized parking, indicating that there will be no parking in that area during construction.

LEGISLATURE MEETING
August 26, 1987

The meeting was called to order at 7:30 p.m. After the pledge of allegiance to the flag, the Clerk called the roll and all legislators were present.

The Clerk presented a notice from the NYS Supervisors' and County Legislators' Association that the dues for the following year would be \$375.00.

Report from Standing Committees: Legislators Bennett, Schaal, Swiercznski and McMurray reported the usual meetings.

Legislator Berger attended the Yates Town Board Meeting on August 13th, also the Canal Ride; attended the Supervisors Association picnic on August 18th and the Legislators' picnic on the 19th, the Highway Superintendents' meeting on the 20th and the Extension Breakfast and Farm Tour on the 21st.

Legislator Vick reported the usual meetings with his departments.

Mrs. Sharon Narburgh was given privilege of the floor. Mrs. Narburgh asked if anything new had transpired with regard to the Two Bridges area. Legislator Schaal said the engineers report had been received on Monday, but that the Legislator had not been advised of the report. Legislator Vick commented that the Legislature was concentrating on the No. 1 priority - the Marsh Creek Road Bridge over Oak Orchard River. Mrs. Narburgh said she, Bob Brown, Senator Daly and Assemblyman Hawley had met with the NYS DOT representative in Rochester in reference to the Route 18 Bridge. The DOT representative said they would definitely try to coincide whatever the County decides to do on these bridges with the Route 18 bridge repair.

Mrs. Narburgh informed the Board there were still a lot of people abusing the weight limit on the bridge. The people have also been asking how the County is going to handle dock space that will be available at the Park. Legislator Vick said it would probably be done by means of a lottery, with the good tenants remaining year after year, noting that the County had not reached that point as yet.

The following resolutions were presented:

Mr. Dudek explained that one doctor had sent a check to Dr. Mruczek, repaying his loan. Dr. Mruczek was forwarding the check to the County. The Clerk presented the following communications: A request from the County Treasurer to transfer funds into the Indigent Court Service account; also a request from the County Treasurer to place a reminder notice in the Lake Country Pennysaver and Medina Pennysaver that October 7th is the last day to pay taxes before they are published.

Notified the Board that a copy of the proposed Furness Parkway Water District in the Town of Shelby had been filed in the Clerk's office by the State Comptroller.

Legislator Vick met with the Town Assessors, and the Director of the Real Property Tax Office. Mr. Vick also said that the rebidding of the transportation for the physically handicapped children's program had resulted in a net savings of \$56,500.00. Legislator Schaal moved to waive the rules and allow for the introduction of a resolution accepting the transportation bid.

Chairman Billings welcomed a group of people from the Town of Carlton, who had come to the meeting to hear decisions had been made in regard to the bridge situation at Two Bridges. Mr. Billings turned the meeting over to Legislator Schaal said he would entertain questions from the floor. Mrs. Sharon Narburgh noted that in the afternoon, the comment had been made that it was the Town's responsibility to control development in the upper river; also the Town

had control over the speed limit. Mrs. Narburgh said the group was under the impression that the County Sheriff had the responsibility of enforcing the speed limit. Mr. Schaal explained that the Town Board can control development in that area - that it is not up to the County to make those decisions. Mr. Schaal also explained that the engineers doing the study had estimated that it would take between six months to a year; that it couldn't be done in a shorter period of time. Mr. Schaal explained, once again, that the bridge was being removed upon the recommendation of the engineering study; that if it was left in place, and just closed, it would be a liability to the County. He pointed out that the proposed resolution included a feasibility to either repair and/or replace both bridges, as well as the possibility of raising the Marsh Creek Road Bridge level.

The following resolutions were presented:

Legislator Schaal, with second by Legislator Berger, introduced a resolution approving the closing of the Marsh Creek Road Bridge over Oak Orchard River. After discussion, Mr. Schaal requested a roll call vote, which went as follows:

RECESSED LEGISLATURE MEETING
September 30, 1987

The Chairman reconvened the meeting at 7:30 p.m. All legislators were present.

Legislator Swiercznski was given the privilege of the floor, and introduced Dr. Drew Chenelly, Director of the County's Community Services Department.

Dr. Chenelly explained to the Legislature that he had new information on funding for the proposed addition to the County Administration Building. There is a line item in the State budget of over \$700,000.00 for this building. The County will not receive a letter for final approval until HSA approves, and they cannot do this until October 12th, when they will meet. Dr. Chenelly said that the County will be responsible for 6 percent of the cost of the building. There will be an additional cost to the County the first few years for the operation of the building. Legislator Schaal asked about possible "hidden" costs that might occur in the future, and Dr. Chenelly said that there were no "hidden" costs, that this year, it was written into law that this program would be 100 percent funded. This was done to assuage any County concerns along these lines.

The County Attorney agreed with Dr. Chenelly, and after reading through the law, saying that the method of funding was written into the law.

Dr. Chenelly recommended to the Legislature, that they hire Lozier as the architects for the proposed building. After more discussion, the Legislators agreed, and Legislator Schaal moved, with second by Legislator Swiercznski, to allow the introduction of a resolution designating the architect for the addition to the County Administration Building. Motion carried.

A letter of from Warren Anderson acknowledging receipt of Resolution No. 244-687 re per diem payments for Sentenced State Ready Prisoners.

Report of Standing Committees:

Legislators Bennett, Schaal, Swiercznski and McMurray reported regular meetings. Legislator Berger attended a budget meeting at the Nursing Home on the 29th, a Soil and Water Conservation District Board meeting on the 30th, and an adjourned Legislature Meeting on the same date, a meeting at the Office for the Aging on the 6th, Town of Yates Board meeting on the 8th. Legislator Vick said he had inspected the marina at Oak Orchard River Marine Park.

During the open discussion portion of the meeting, the privilege of the floor was given to Gretchen Sepik and Jerim Klapper representing the People's Animal Welfare Society (P.A.W.S.) who presented the organizations's proposal to and request for financing

from the County. Mr. Klapper explained that since their last meeting with Mr. Dudek, that much research had been done on the construction and maintenance of an animal shelter. Mrs. Doris Bruski had donated 8 acres of her land located south of Ridge Road, on the east side of the Gaines Basin Road. The Town of Gaines Planning Board has approved the site. Mr. Klapper introduced Mr. Norbert Housner, who presented drawings and floor plans for the proposed animal shelter.

Mr. Klapper explained that at the time of P.A.W.S. incorporation, they waived law enforcement powers - this would be roughly equivalent to a dog control officer. Mr. Dudek and Mr. Young and the Board of Directors urged that the organization obtain S.P.C.A. status, and Mr. Klapper said he had an appointment in New York on November 2nd to discuss P.A.W.S. proposed application to the S.P.C.A. There were two items missing - law enforcement power and a facility. The organization will be granted S.P.C.A. status provided they are in the process of moving on a facility. Mr. Klapper said he would report back to the Legislature at a later date on the outcome of the meeting.

Mr. Klapper explained the budget to the Legislature, and said that the organization is requesting the sum of \$25,000.00 from the County. This is to pay for the incinerator to be used at the shelter. Mr. Klapper explained the organization was asking for \$22,875.00, about \$3,000.00 more than the County's current operating cost. He said the proposal may or may not include a dog control officer to deliver the dogs to the shelter and to operate the incinerator. Mr. Klapper said he had attempted to talk with the current dog control officer, but that nothing concrete had been settled as yet.

Mr. Klapper asked for a letter of intent contingent upon whatever agreement the County and P.A.W.S. decide upon, would bind us mutually. Mr. Klapper explained that the completion time for the shelter is October 1988. Mr. Klapper said he wanted an indication from the Legislature that discussions would continue, in order to be able to tell the S.P.C.A. that the organization was negotiating with the County. Legislator Vick asked if P.A.W.S. had plans similar to Lollipop Farm, that would reduce their requirements for revenue, and Mr. Klapper said, "If you mean, we would assume responsibility the County now has, I would say no. If we had a contract, it would be negotiable." Mr. Klapper said the County Dog Control Officer would have 24-hour access to the shelter.

Mr. Klapper thanked the members of the Legislature for allowing him and the other members of P.A.W.S. to present their proposal.

Legislator Schaal gave a brief overview of the situation at Two Bridges as it now stands. He explained that there was no way to put in a single span bridge over the gorge - the only way to have a single span bridge is to rehabilitate the bridge that is already there.
