December 23, 1974

Mr. Maynard Reed  
Chairman, Board of Supervisors  
Orleans County  
County Building  
Albion, New York 14411

Dear Mr. Reed:

On September 16, 1974, President Ford issued a proclamation which announced a reconciliation program for Vietnam era draft evaders and those who are military deserters. This program is conditional upon performing a period of reconciliation service normally for an 18 to 24 month period. The Selective Service System has been delegated the responsibility for the establishment, implementation and administration of this amnesty program.

Recently, I met with Colonel Vosler, a representative of the Selective Service System to discuss the possibility that jobs created in public service agencies using CETA funds could be made available as a means of helping a young person find amnesty.

Please consider using some of your CETA Title II monies in a job that will promote health, safety, or general interest of the community for placing persons seeking amnesty. There is a requirement that such jobs be with non-profit or government organizations and that they not interfere with the competitive labor market.

The State Employment Service is cooperating with the State Selective Service System and is willing to provide the same services to a draft evader or military deserter that are provided to any other job applicant.

If you are willing to cooperate in this program, please contact your local Employment Service office and let them know about the potential availability of a job. You also may want to consider writing or calling the New York State Headquarters of the Selective Service System at the Federal Building, 411 Broadway, Albany, New York 12207. The telephone number is Area Code 518—472-3607 or 3610.

Very truly yours,  
William L. O'Toole

January 10, 1975

County Board of Supervisors  
Albion, New York 14411

Gentlemen:

I am writing on behalf of the Christian Social Concerns Committee of the Lyndonville United Methodist Church and am seeking clarification of an article reporting one of your recent Board meetings as it appeared in the Medina Journal-Register. The subject: alternative service for returning draft evaders and deserters.

Your action in question, as you represent us in our local county government, is the immediate dismissal of the request of the Department of Labor for possible alternative service in Orleans County for returning draft evaders and deserters. It is our understanding that the President of the United States set up this possibility for the return of some of our citizens who took exception to our country's military involvement in southeastern Asia.

It is possible for us to understand the personal feelings of the individuals on the Board; but hard to understand the dismissal of a request through the due process of law as set up by the President of the United States.

The request for clarification comes from the fact that possibly the reporter left some points made at the meeting out of the article. We are wondering if any attempt was made to investigate the possibilities of alternative service jobs in the county. If not, we request that you reconsider the motion and investigate the public service job possibilities available in Orleans County.

I would welcome a response from the Board as to its action in this matter so that I can report to my committee.

Yours for good government,

Harry Maines, Chr.  
Christian Social Concerns

HEM/m  
cc George Bane, Supervisor, Town of Yates

The consensus of the Board seemed to be that jobs under the CETA program should be given to those who had served their country and were unemployed. It was felt that Mr. Maines should be sent a letter clarifying the Board's position in this matter.

It was moved by Supervisor Piedimonte and seconded by Supervisor Batchellor that the Clerk be instructed to send a letter to Mr. Maines to clarify the Board's position in the above matter.

Carried.

The Clerk read the following letter concerning the Barre Agricultural District.

January 8, 1975

Office of the Board of Supervisors  
of Orleans County  
Court House  
Albion, New York 14411

Gentlemen:

In response to your letter of December 17, 1974 requesting a one thirty day extension for the agricultural district in the Towns of Barre, Albion, Shelby, and Clarendon, unfortunately, can not be granted. In accordance to the Agriculture and Markets Law, Article 25AA, Section 303, Subdivision four, the county legislative body shall act to adopt, reject or modify a proposal no later than one hundred eighty days from the date the proposal was submitted to the county. In your letter it states that June 4, 1974, the Board of Supervisors was in receipt of the plan. The term for formation ended on December 4, 1974.

As a result of this circumstance in order for the county to adopt an agricultural district plan, the process must start from the beginning with individual landowners submitting their petition for creation of a district.

Questions you may have regarding the formation of a district or additional information about the law, I shall be pleased to answer. Under separate cover, I am forwarding our publication entitled "County Guidelines for Creation of Agricultural Districts."

#### **RESOLUTION REQUESTING RECONSIDERATION OF BARRE AGRICULTURE DISTRICT BY DEPT. OF ENVIRONMENTAL CONSERVATION**

RESOLVED, that upon reviewing the contents of the letter from the New York State Department of Environmental Conservation dated January 8, 1975, by Henry H. Stebbins, Office of Environmental Analysis, that this Board request the said Department of Environmental Conservation to review its action as outlined in said letter and to grant

the extension requested in our letter of December 17, 1974 in regards to the Agriculture District to be formed in the Towns of Barre, Albion, Shelby, and Clarendon, and be it

FURTHER RESOLVED, that this Board point out to the Department of Environmental Conservation the difficulties encountered in making the referrals and records required under the Agriculture and Markets Law, especially pointing out that the petition was returned to the petitioners and was not available for reconsideration and refile by this Board until September 5, 1975, and be it

FURTHER RESOLVED, that this Board urge the Department of Environmental Conservation to consider the date of the second filing as the date of the original petition so that the same date falls within the 180 days set forth in the Agriculture and Markets Law as the time limit in which the legislative bodies must act on such proposal, and be it

FURTHER RESOLVED, that copies of this resolution be forwarded to Hon. Lloyd Paterson, Hon. Stephen Hawley and Mr. Ogden Reid, Commissioner of Environmental Conservation.

Adopted. 347 ayes; 0 nays; 1 absent, Supervisor Plummer (25).

Chairman Reed announced that he had received a letter from Assemblyman Hawley stating that he had received the Board's resolution on Malpractice Insurance and had talked to several doctors on this matter and assured the Chairman that some legislation regarding this would probably be introduced in the Legislature this session.

The Clerk presented the report from the Department of Audit and Control on the examination of the fiscal affairs of the Genesee/Finger Lakes Regional Planning Board. Ordered filed.

Jeff Astles, County Planner, stated that the County would be receiving a letter from the Regional Planning Board stating that Gov. Carey would be designating the Regional Board as the funding agency for funds allocated from the Federal Government to the State and thus to the Region. The requirements for a funding agency are quite complex. Each County will be asked to send letters of support for the Regional Planning Board to be such funding agency. The other choice would be the Monroe County Pure Waters Agency and Orleans County would seem to have a better chance of receiving funds if the monies are handled by the Regional Planning Board.

Supervisor Kubatek said "I have one matter. I have been criticized in editorials in the Medina Paper - for instance today's, more or less accusing me that I have taken no further steps in the lawsuit against the County. I want to say at this time that - and I want it on the record - if they check back in the Proceedings they will see that I have questioned the County Attorney as to what action is being taken. I am sure the County Attorney would tell you I have talked with him on numerous occasions other than at Board meetings and I will again at this time - Mr. Attorney, where do we stand on this issue? I would like the facts brought out now for the record as to where we go from here?"

Mr. Church replied that "To the best of my knowledge it was not reassigned. It was first assigned to Judge Kelly, then Judge Ryan and since Judge Ryan died has not been reassigned. I wrote a letter some time ago asking to what Judge it has been assigned to and I have not received any information on it."

Supervisor Kubatek - "At this time I again ask the County Attorney to write another letter and get some type of answer on this."

Supervisor Paduchak - "But you are asking the County to do something you instigated - you instigated the suit against the County in the first instance."

Supervisor Kubatek - "We are waiting for an answer on this, we have given this to the Courts and have not heard anything on this".

Supervisor Paduchak - "But what is your attorney doing on this? You want the County to foot the bill and I don't think that's right. Your attorney should be working on this because you instigated the suit. We are the defendant you are the plaintiff."

Supervisor Kubatek - "I will get back to my attorney."

Supervisor Reed - "It would seem to me we have gone into this thing in good faith and we have given it to the courts."

Supervisor Paduchak - "I can not see where the County should be to blame all the time either."

Supervisor Reed - "I can't see why either. In other words if the courts don't come up with an answer - we have given them every opportunity to make a decision."

Supervisor Paduchak - "I certainly think if I instituted a suit I would be after my own attorney to see what's going on."

Supervisor Reed - "I don't think I would in this case. The County is trying to find out what's going on."

Supervisor Paduchak - "On the other hand we are trying to use the same attorney for both sides."

Supervisor Kubatek - "Ok - I will ask this question. I see here that we have a reapportionment committee—what is that committee doing?"

Supervisor Batchellor — "We are waiting to get an answer from the courts."

Supervisor Kubatek—"Thank you George. At least you gave me the answer." Secondly, we asked the County Planning Board to look into various forms of government and come back to recommend what their feelings were. I asked Jeff here tonight to ask at what point you are at."

Jeff Astles — "The County Government Committee of the County Planning Board is presenting it's report to the County Planning Board

next Thursday night. At that point it will be made public and copies will be available. We will have performed our function. The County Government Committee and Planning Board are citizens who are concerned and presented a lot of volunteer time and effort. I am pleased and think you will be pleased with the results."

## **SPECIAL MEETING**

### **Monday, February 3, 1975**

A special meeting of the Board of Supervisors was called to order at 10:15 a.m., by the Chairman, for the purpose of approving agreement between the State of New York and the County for CETA funds; and to take any necessary action on the request from DOT regarding trial jury selection.

Privilege of the floor was granted to James Hancock, Manpower Coordinator. Mr. Hancock explained that under the CETA Title VI Program the County is required to spend a portion of the money allotted the County on jobs in state facilities. Six jobs have been allotted to the Albion Correctional Facility and one job to the Iroquois Drug Center in Medina. The State Department of Labor requires that either they contract with the state agency or the County can contract for these jobs. Mr. Hancock said that he felt it would be better for the County to be the contracting agency. Mr. Hancock requested that the Chairman of the Board be authorized to execute the necessary agreements for allotting Title VI monies to the Albion Correctional Facility and the Iroquois Center.

#### **RESOLUTION NO. 22**

By Supervisor Batchellor, who moved the adoption.

Seconded by Supervisor Plummer.

#### **RESOLUTION APPROVING AGREEMENT BETWEEN ORLEANS COUNTY AND STATE AGENCIES**

RESOLVED, that the agreements herewith presented between the County of Orleans and the Albion Correctional Facility and the State Drug Abuse Control Commissions for positions allotted under Title VI of the CETA Program be approved, and the Chairman of this Board be authorized to execute same in the name of the County.

Unanimously adopted.

The Clerk read a letter from the State Department of Transportation asking whether Orleans County operated under Article 18 of the State Judiciary Law or Article 16 for the selection of trial jurors. Referred to the Legislative Committee.

It was moved by Supervisor Swiercznski and seconded by Supervisor Piedimonte that the meeting be adjourned. Carried.

Adjourned at 10 :45 a.m.

## **REGULAR MEETING**

### **Thursday, February 6, 1975**

The meeting was called to order by the Chairman at 10:15 a.m.. The Clerk called the roll and all Supervisors were present, except Supervisor Kemp who was excused because of a death in his family.

It was moved by Supervisor Bane and seconded by Supervisor Piedimonte that the reading of the minutes of the previous meeting be dispensed with and the same approved as prepared by the Clerk.

Carried.

Privilege of the floor was granted to the County Treasurer, Mrs. Basinait. Mrs. Basinait asked the Board to give some thought to delaying the two year In Rem proceeding and continuing to foreclose on the four year plan. She felt that because of the economy many people might have a difficult time paying their delinquent taxes to redeem their property. The County Treasurer stated that if we use the two year plan there will be approximately 252 parcels in the foreclosure, on three years it would be about 175. She said the County now owns 46 pieces of property at this time. It was questioned whether the law as written for Orleans County is permissive or mandatory for a two year In Rem. Supervisor Swiercznski said that even with the two year plan it would take three years before the property would be taken and five or six years with the four year plan.

Supervisor Piedimonte questioned whether or not the breakdown of County and Town Tax rates could not be shown on the tax bills for the other towns as is now being done for the Town of Murray. It was stated that this would be very costly and take a great deal more work. The only reason the Town of Murray has the breakdwon is because they have a different Age 65 exemption figure.

#### **RESOLUTION EXTENDING SNOW REMOVAL CONTRACT WITH STATE OF NEW YORK**

WHEREAS, the County of Orleans, pursuant to Subdivision 2 of Section 12 of the Highway Law, as amended, relating to Snow Removal and Ice Control on certain State Highways in the Towns and Villages of said County, heretofore entered into agreements with New York State for such purposes, and

WHEREAS, the County of Orleans and the State of New York again desire to enter into a contract agreement for Snow and Ice Control pursuant to said provisions of law, providing for removal of ice and

WHEREAS, the towns and other municipalities in the County of Orleans have expended considerable funds in the acquisition of equipment and training of personnel for use in snow removal and ice control in numbers exceeding the amount of equipment and personnel needed for the proper maintenance of town and county roads alone, and

WHEREAS, such policy was adopted without the advice and input from county and local officials and citizens, and

WHEREAS, the policy if adopted will reduce substantially the revenue from the Department of Transportation paid to the county and various municipalities therein as reimbursement for equipment,

materials and labor furnished for snow removal and ice control on state highways, now therefore be it

RESOLVED, that this Board unanimously requests the Legislature of the State of New York to pass legislation giving to counties with a population of less than 100,000 the option of continuing to perform snow and ice control work on state highways within their boundaries with their own personnel and equipment but paid for by the State of New York or, the alternative of allowing the State of New York to perform such functions on state highways, and be it

FURTHER RESOLVED, that certified copies of this resolution be forwarded to Governor Hugh Carey, Senator Lloyd Paterson, Senator Warren Anderson, Assemblyman Steingut, Assemblyman Stephen Hawley, Assemblyman Perry Duryea, and the New York State Department of Transportation.

January 17, 1975

Ms. Uldine D. Jurhs  
Clerk  
Board of Supervisors of the  
County of Orleans  
Ossining Union Free School District  
Administration Building  
Court House  
Albion, New York 14411

Dear Ms. Jurhs:

On behalf of Commissioner Preiser I hereby acknowledge the receipt of your Board's Resolution #280 dated December 5, 1974.

This Department recognizes the extra financial burden that has been placed on the County for the cost of maintenance of prisoners who have absconded from the Albion Correctional Facility. May I point out that your community and its leaders were very supportive of the reopening of the facility as a factor in the County's economy and that I am sure the financial benefits have greatly exceeded the cost to which the resolution addresses itself. Furthermore, the Albion Correctional Facility has been designated as a minimum security facility so that abscondance is more than a probability. Even where these inmates have been screened carefully before being allowed to be transferred to this minimum security facility so that abscondance is more than a probability. Even where these inmates have been screened carefully before being allowed to be transferred to this minimum security type facility, this Department regrets as much as the community that abscondances do occur and will do all in its power to see that they do not occur.

In order to hopefully alleviate the financial burden, Superintendent Reid of the Albion Correctional Facility has assured us that he will pick up an absconder from the County jail within 24 hours after notification. This, of course, can only be done if the judge is not detaining the absconder in the County jail for any period of time. I hope that this step by the Department will help your County in terms of money spent for transportation and maintenance. I wish to use this opportunity to express our appreciation for the splendid cooperation which this Department and the Albion Correctional Facility have received from the community and the County of Orleans.

Sincerely yours,

Dr. Wlm. Van Eekeren  
Deputy Commissioner

#### **RESOLUTION OPPOSING PROPOSED CONSOLIDATION OF TITLE II CONTRACTS**

WHEREAS, this Board is informed that all programs under Title II of the Comprehensive Employment and Training Act of 1973 will terminate on June 30, 1975, rather than the original date for termination as previously determined, some of which extend to December 31, 1975, and

WHEREAS, many employers taking part in the Title II program and hiring employees under such program, anticipated the continuation of Title II funds through December 31, 1975 and have not anticipated or budgeted transition funds to allow the continuation of Title II employees from June 30, 1975 to December 31, 1975, and

WHEREAS, the County of Orleans is experiencing a continually rising unemployment rate, and

WHEREAS, the early termination of some of the C.E.T.A. programs will falsely picture the unemployment rate for the County of Orleans in that employees shown as employed for unemployment rate purposes as of June 30, 1975 will on July 1, 1975 again become unemployed, and

WHEREAS, the County of Orleans and various employers did enter into the C.E.T.A. programs in good faith and with good intentions and

despite short notice did implement all programs adopted by the County and did file all allocation forms promptly, now therefore be it

RESOLVED, that this Board unanimously opposes the proposed consolidation of Title II contracts under the Comprehensive Employment and Training Act of 1973 to the effect that all such programs would end on June 30, 1975, and be it

February 4, 1975

Orleans County Board of Supervisors  
Court House Square  
Albion, New York 14411

Attn: Michael Paduchak, Chairman  
Probation Committee

Re: Group Home

Dear Sirs:

We hereby respectfully request that the Orleans County Board of Supervisors send a resolution to Governor Hugh Carey and the N.Y.S. Division of Budget asking their support for funds now in the proposed Division for Youth budget, which would allow for the establishment of a group home in Orleans County.

We feel a group home for Orleans County should be supported for the following reasons:

1. We need an alternative between **probation** (leaving the person in his own home) and **jail**.
2. We feel we can deal with many offenders in our own community better than private institutions in Rochester, Syracuse, or Albany or the large public institutions.
3. 7-bed group homes are about one-half the cost (\$7000) of sending a person to a large institution or other Division for Youth facilities (average cost \$14,500).
4. The group home concept is backed by many local people--both Judge Hamilton Doherty and Dr. Guy Walters and others, New York

State--the Division of Budget has allowed funds to the Division for Youth increase from its present 60 group homes to 132, and nationally.

5. The money (and Orleans County citizens pay State taxes too) is going to be spend elsewhere in the state if not in Orleans County. Let's get Orleans County's share of tax contributions and have this valuable service for our community.

Very truly yours,

Robert E. Golden  
Director of Probation

After some discussion the following motion was adopted.

It was moved by Supervisor Swierczyski and seconded by Supervisor Plummer that the consideration of establishment of group homes in Orleans County be tabled until the March 6th meeting of the Board.

Carried.

Mr. Golden also presented the following proposal for continuation of the Intake Outreach Program.

February 4, 1975

Orleans County Board of Supervisors  
Court House Square  
Albion, New York 14411

Attn: Michael Paduchak, Chairman  
Probation Committee

**Re: Extension of the Intake Outreach Program**

Dear Sirs:

The probation department would like to extend and expand in some areas its Federally-funded Intake Outreach Project. As detailed in our budget meeting and request 8/5/74, we feel that it has been successful in its purpose of **increasing** our contact with West Virginian and black migrants at the Intake level and making contact earlier at a more workable stage.

The figures support this. Blacks, West Virginians and Puerto Ricans--percentage of total Probation caseload:

	1972	1974:
Informal — Intake .....	15%	43%
Formal Actions — Investigation .....	33%	26%
Formal Actions — Supervision .....	34%	29%
Formal Actions — Arrests .....	43%	38%

Thus we've achieved our goal of increasing contact with these groups at the informal level and their arrests and convictions have reduced (we can't necessarily take credit for the reduction since there are many other factors that may have contributed.)

#### Financial implications to Orleans County:

1. \$45,435.60 is in the 1975 County Budget for continuation of the Program.
2. The County will have to contribute 10% of total project costs. (Prior project was totally Federally funded).
3. State will reimburse roughly 50% of County costs.  
Therefore—cost breakdown for project running 6/1/75-5/31/76:
 

Federal .....	\$51,769.00
State .....	2,005.00
County .....	3,748.00
4. County cost 1975—(7/12) ..... \$ 2,184.00  
County cost 1976—(5/12) ..... 1,560.00

#### Service Implications:

1. Ability to continue on thusfar successful Intake program
2. Expansion to include all rural poor
3. Addition of following services:
  - a. Release on Recognizance
  - b. Release Under Supervision
  - c. Intake/Diversion for local courts
  - d. Volunteer Coordination
  - e. County Agencies' Aide Training
  - f. Rural poor alcoholic outreach

Therefore, I respectfully seek the Board's approval of this proposal, seeking the continuation of this program.

Respectfully submitted,

Robert E. Golden  
Director of Probation

Privilege of the floor was granted to Mr. Max Jones, representing the Orleans County Snowmobile Association. Mr. Jones said the County Snowmobile Clubs were interested in finding out how they could get back some of the money for Orleans County paid to the State in snowmobile registrations. At the present time there are 1300 snowmobiles registered from Orleans County and only 455 sleds belong to snowmobile club members. This means that the members of the clubs are spending their money to make trails and mark them with appropriate signs for the safety of the many who ride them from within and without the County. The State of New York received a grant of one or two million dollars from the Federal Government for bicycle trails and bicycle riders do not have to be registered or carry liability insurance as do snowmobile owners. It will cost each of the five snowmobile clubs in the County approximately \$360.00 to provide the necessary signs, etc. for the trails. These clubs are located in Barre, Kendall, Holley, Lyndonville and Carlton. Supervisor Piedimonte said that he had found out that anything done to receive reimbursement must be done on the County as a whole. Supervisor Paduchak stated that the clubs have been very helpful in avoiding problems from snowmobile users — that if he received any complaints he gave them to the Snowmobile Club and they usually took care of the problem.

Supervisor Batchellor said he would set up a meeting with the Association, the Sheriff and County Clerk on the 24th of March at the Barre Fire Hall to see if it can be determined how some of the money could be returned to the County.

Marnard Reed, Chairman  
Orleans County Board of Supervisors  
Albion, New York 14411

RE: Kubatek v. County of Orleans

Dear Mr. Reed:

In an attempt to ascertain the status of the reapportionment proceeding above mentioned in Supreme Court in the State of New York, I have again contacted Judge Cook of the Supreme Court.

A copy of his reply is enclosed herewith.

Obviously nothing can happen on this matter until after March 24th,

since the Judge is otherwise engaged to that point. Since I expect to be out of town until the early part of April, nothing further can be done in regards to this reapportionment matter until after that time.

Hopefully, a new proposal or alternative proposal can be finalized for presentation to the Court later this Spring.

Yours very truly,

RE: Kubatek v. County of Orleans

Dear Mr. Church:

In response to yours of February 14th, an additional search has been made for the missing file with no success.

Justice Marshall indicated that I am still assigned to this matter. I will be out of Criminal Term and back in Civil on March 17th but that week will be pretty well covered with sentencing and previous civil commitments.

Very truly yours,

#### **RESOLUTION URGING GOVERNOR CAREY TO INCLUDE FUNDS IN STATE BUDGET FOR "GROUP HOME" FOR THE COUNTY OF ORLEANS**

RESOLVED, that at the request of the Orleans County Probation Department this Board does unanimously request Governor Hugh Carey and the New York State Division of Budget to provide funds in the forthcoming State Budget to allow the establishment of a "Group Home" in and for Orleans County for the following reasons:

1. We need an alternative between probation (leaving the person in his own home) and jail.
2. We feel we can deal with many offenders in our own community better than private institutions in Rochester, Syracuse or Albany or the large public institutions.
3. 7-bed group homes are about one-half the cost (\$7000) of sending a person to a large institution or other Division for Youth facilities (average cost \$14,500)
4. The group home concept is backed by many local people — both Judge Hamilton Doherty and the Director of the Mental Health Clinic and others in Orleans County. The Division of Budget has allowed funds to the Division for Youth increase from its present 60 group homes to 132, and nationally.
5. Orleans County citizens pay State taxes too and should be allowed to share in this valuable service for our community.

BE IT FURTHER RESOLVED, that copies of this resolution be forwarded to the Hon. Hugh Carey, Governor of the State of New York, the New York State Division for the Budget, New York State Division for Youth and the Orleans County Probation Department.

Unanimously adopted.

Before the adoption of the above resolution, Supervisor Kemp said "my concern is that these children will be going to school with other children in the County and they obviously are problem children — what

effect will that have on the other children. I know it would be better for the ones in the homes but what of the problems it could create for the schools."

## **SPECIAL MEETING Thursday, March 27, 1975**

A special meeting of the Board of Supervisors was called to order at 10:50 a.m., by the Chairman, for the purpose of considering realignment with the Buffalo Region Health Planning Council, rather than the Genesee Region Health Planning Council. The Clerk called the roll and all Supervisors were present except Supervisor Plummer.

The Clerk read the following letters:

March 24, 1975

Mr. Maynard Reed, Chairman  
Board of Supervisors  
County of Orleans  
Court House  
Albion, NY 14411

Dear Mr. Reed:

As I explained briefly over the phone, many agencies and institutions have been asked by Governor Carey to advise him as to what each feels is the most appropriate health planning region in their area. I am also, well aware that the Orleans County Board of Supervisors has considered the possibility of the Western New York region as being more appropriate. Whatever the desire of the board, it is necessary to advise the governor by this Thursday in order that your advice be timely in his designation process.

The Board of Directors of the Genesee Region Health Planning Council has formally taken a position of supporting the existing ten county health planning region. I have enclosed a copy of the Board of Director's response to the governor's request in order that the Orleans County Board of Supervisor's may consider the information it contains in their deliberations.

Although my appearance before the board on April 3rd will be after the response deadline, I would be happy to discuss this topic along with the others already on the agenda should the board desire.

Very truly yours,

  
Bob Vogel  
Planning Associate

March 25, 1975

Kevin M. Cahill, M.D.  
Special Assistant to the  
Governor for Health Affairs  
State of New York  
Executive Chamber  
Albany, New York 12224

Dear Dr. Cahill:

This is in response to your March 11, 1975, letter regarding a plan for regionalization for development of health systems agencies. Be advised that at its March 24, 1975, meeting, the Orleans County Health Planning Committee unanimously endorsed the alignment of Orleans County with the Western New York Health Systems Agency. Orleans County presently is in the Rochester Region and would thus like to terminate this association in favor of aligning itself with the Western New York Region.

Our reasons for requesting this alignment are as follows:

1. Orleans County is geographically contiguous to:

- A. Monroe County
- B. Genesee County
- C. Niagara County

Monroe County is a metropolitan county. Niagara and Genesee counties are rural counties, as is Orleans, and as such, Orleans County's health care system tends to identify and associate with these two counties' health care system. Examples of this identification and association include:

- A. Medical Societies of Orleans, Genesee and Niagara share one Executive Director
  - B. Niagara and Orleans County share a Board of Cooperative Educational Services, which provides main source of nurse aid and LPN education and recruitment for county residents and health care facilities.
  - C. Orleans County Veteran medical referrals are made to Genesee County-V.A. Hospital in Batavia, New York.
  - D. Orleans County Health Department as well as Medina Memorial Hospital contracts with Genesee County Laboratory for lab services.
  - E. Twenty-five percent of patient admissions to Medina Memorial Hospital come from Niagara County.
2. Orleans County Medical Society is aligned with Eighth District Medical Society (Western New York).
  3. Orleans County is aligned with the Erie Region P.S.R.O. (Western New York) (P.L. 92-603).
  4. Orleans County is aligning itself with the Lakes Areas Emergency Medical System (Western New York) (P.L. 93-154).
  5. Blue Cross and Medicare intermediary association by Orleans Hospitals:  
  
Both hospitals come under Western New York office jurisdiction for rate setting and audit review.
  6. All public utility offices for Orleans County are located in Western New York region.
  7. All banks in Orleans County have home offices in Western New York.
  8. SMSA (Standard Metropolitan Statistical Association)  
  
-For Rochester Region without Orleans County is 1,201,100  
-For Western New York Region with Orleans County is 1,776,800  
-Orleans County 38,200

\*Aligning Orleans County with Western New York Region would comply with Health Systems Agency Law by insuring Rochester Region and Western New York Region with a population of "Not less than 500,000 or more than 3,000,000".

9. Hospital Referrals

- To Western New York Area - 75%
- To Rochester Area - 25%

10. Medical Staff Referrals

- To Western New York Area - 67%
- To Rochester Area - 33%

11. N.I.O.G.A. - Niagara, Orleans, Genesee shared library service

12. Niagara Frontier Association of Villages-Orleans County villages aligned with Western New York Region

13. State Assembly and Senate District; Congressional District are aligned with Western New York Region.

14. District I New York State Nurses Association-Orleans County in Western New York Region.

15. Medina Memorial Hospital is in Western New York Hospital Association.

16. Medina Memorial Hospital is exploring the possibility of affiliating with Millard Fillmore Hospital.

This request has the endorsement of the following organizations:

1. Orleans County Dental Society
2. Orleans County Medical Society
3. Medina Memorial Hospital
4. Arnold Gregory Memorial Hospital
5. Orchard Manor Nursing Home and Health Related Facility
6. Orleans County Board of Supervisors
7. Orleans County Health Planning Committee

Also, the present Regional Health Planning Council, Genesee Region Health Planning Council (B-Agency) does not object to this proposed realignment.

It must be noted that Orleans County is presently included in the Rochester Region for the following agencies:

1. Regional Health Department
2. Regional Medical Program (although Orleans County hospitals have utilized Lakes Area Regional Medical Program programs)
3. Comprehensive Health B-Agency District
4. A-95 Planning Agency Region

However, for the previously stated reasons, we definitely feel that Orleans County should be aligned with the Western New York Region.

Enclosed is a map which outlines this proposed Health System Agency with Orleans County in the Western New York Region.

The Chairman said he had attended a meeting of the County CHP Committee and it was the feeling of that body that Orleans County should request alignment with the Buffalo Region for health planning purposes.

Supervisor Paduchak questioned the matter of hospital referrals — he said he believed that the figure of 75% to Western New York Area was erroneous. That many people went to the Rochester Area hospitals. He questioned whether changing health planning areas would effect medical service of those wishing to go to Rochester hospitals. County Planner Astles said that alignment with either district did not effect medical service.

Recessed at 11:10 a.m., reconvened at 11:20 a.m.

Discussion of the benefits of joining the Buffalo region and the cost involved took place. The cost was not known at this time but it was felt it would not be more than the present cost to Genesee Region Health Planning Council, Inc.

Supervisor Swiercznski said that the only action necessary at this time would be a letter of the intention of this Board to be realigned with the Buffalo Region to be sent to Dr. Cahill, Special Assistant to the Governor for Health Affairs.

The following resolution was adopted.

#### **'RESOLUTION NO. 87**

By Supervisor Batchellor, who moved the adoption.

Seconded by Supervisor Piedimonte.

#### **RESOLUTION AUTHORIZING LETTER OF INTENT TO JOIN THE WESTERN NEW YORK HEALTH SYSTEMS AGENCY**

RESOLVED, that this Board send a letter to Kevin M. Cahill, M.D., Special Assistant to the Governor for Health Affairs, expressing its wish to be aligned with the Western New York Health Systems Agency rather than continuing the present alignment with the Rochester Region Health Planning Council, and that the Board does hereby endorse the letter dated March 25, 1975, to Dr. Cahill from Mrs. Betty Hassall, Chairman of the Orleans County Health Planning Committee.

Unanimously adopted.

## **REGULAR MEETING**

### **Thursday, April 3, 1975**

The meeting was called to order at 10:15 a.m., by the Chairman. The Clerk called the roll and all Supervisors were found present.

It was moved by Supervisor Piedimonte and seconded by Supervisor Bane that the reading of the minutes of the previous meeting be dispensed with and the same approved as prepared by the Clerk.

Carried.

Privilege of the floor was granted to Sheriff Williams. The Sheriff said he again was requesting the approval to purchase four patrol vehicles for his department. The Sheriff stated that by the time new cars were received, the present cars would have between 50 and 100 thousand miles on them. Discussion took place as to the possibility of buying two compact cars for use of the civil section of the Sheriff's department. The Sheriff said that in time that might be done but this year he needed the new patrol vehicles.

The Chairman said he would refer this matter back to the Sheriff's Committee. Supervisor Kemp said that his committee had discussed this matter several times. He said that the Sheriff's Department is an important part of County government and if we are going to have a Sheriff's Department we certainly must equip it with automobiles. I do not know of anybody better versed and who knows the necessities of that department better than the Sheriff. It seems to me that we have wasted a great deal of time — if we have to get 1976 cars which will cost more money and if there is an attempt to hold these old cars over to the point that they are worthless and at present they are worth perhaps \$2,000, I see no point in delaying the purchase of new cars. We are all in favor of moving towards economy but it has been proven in the past that it is more economical to trade these cars every year. Therefore, I would like to move the following resolution.

#### **RESOLUTION NO. 88**

By Supervisor Kemp, who moved the adoption.

Seconded by Supervisor Bane.

#### **RESOLUTION AUTHORIZING ADVERTISEMENT FOR BIDS AND PURCHASE OF FOUR AUTOMOBILES FOR THE ORLEANS COUNTY SHERIFF'S DEPARTMENT**

RESOLVED, that the Purchasing and Printing Committee of this Board be, and hereby is, authorized to advertise for bids and to purchase (4) four, new 1975, four-door sedan automobiles for use of the Sheriff's Department, three (3) 1974 four-door Chevrolet and one (1)

1971 Plymouth four-door automobiles to be traded-in towards purchase of same, and specifications to be provided.

Adopted. 348 ayes; 1 nay, Supervisor Swiercznski (24); 0 absent.

Privilege of the floor was granted to Mr. Robert Vogel of the Rochester Health Planning Council. Discussion of the audit of the Infirmary and Oak Orchard Manor Nursing Home took place. Mr. Vogel explained the procedures which were agreed to by both parties and said as soon as both parties accepted the figures of the audit, they could proceed with the comparison.

Mr. Vogel and the Deputy Director of the Health Council requested that the Board release the payment of the funds due the Council from Orleans County. Mrs. Hassall, Orleans County CHP Chairperson, stated that her committee had recommended that the money be released and did not feel that the payment should be contingent on the completion of the audit. After much discussion, Supervisor Batchellor moved the following resolution:

#### **RESOLUTION NO. 89**

By Supervisor Batchellor, who moved the adoption.

Seconded by Supervisor Kubatek.

#### **RESOLUTION AUTHORIZING PAYMENT TO GENESEE REGION HEALTH PLANNING COUNCIL**

RESOLVED, that the sum of \$6,372.00 is hereby authorized to be paid to the Genesee Region Health Planning Council for Orleans County portion of matching funds for calendar year 1975 for regional comprehensive health planning.

Unanimously adopted.

Recessed at 11:20 a.m., reconvened at 11:40 a.m.

#### **RESOLUTION NO. 90**

By Supervisor Swiercznski, who moved the adoption.

Seconded by Supervisor Kemp.

#### **RESOLUTION APPOINTING MEMBERS OF THE FIRE ADVISORY BOARD**

RESOLVED, that, upon recommendation of the Orleans County Fire Advisory Board, the following changes in membership be approved:

William Jewsbury — Kendall — replacing Horace Crawford who is deceased, Ronald Armstrong — Albion — replacing Emanuel Burgio who is no longer chief, these appointments will be effective immediately and expire December 31, 1975, and they shall serve at no compensation.

Unanimously adopted.

The Clerk read a letter from David M. Green, Director of the Office of Natural Disaster and Civil Defense, announcing a seminar to be held in Batavia, N. Y., April 15, 16, 17, 1975, and asking any Board members to attend who might be interested.

It was moved by Supervisor Batchellor and seconded by Supervisor Bane that a leave of absence, without pay, for Chester Wagner a Jailor at the County Jail, be granted for a period of three months, beginning April 17, 1975.

Carried.

It was moved by Supervisor Batchellor, seconded by Supervisor Bane, and carried, the bills for serving dog summons as read and presented by the Clerk, be approved as follows:

March 21, 1975

Mr. Uldine D. Jurhs, Clerk  
Board of Supervisors  
Orleans County  
County Building  
Albion, N.Y. 14411

Dear Mr. Jurhs:

Because of the difficult fiscal picture this year, it seems prudent to warn you that an advancement of the date of closure of the State-operated Respiratory Disease Clinics is a distinct possibility. This may not occur, and we do not know at this time. However, it points up the desirability of completion of plans for your county's takeover of your TB program as soon as possible.

Would you please advise this office of your plans as soon as possible? We will be glad to be of whatever assistance we can in your planning.

Sincerely yours,  
JAMES M. JUDD, M.D.

TO: Mr. George Bane, Supervisor, Town of Yates

FROM: John H. Staebler, Administrator, Orleans County Health Department

SUBJECT: Respiratory Disease Clinics

Telephone conference with Mr. Albert Burke, Supervisor, Town of Avon, who is in charge of the Health Programs Committee in Livingston County. This telephone conference was held at your request on 3/31/75 in reference to the tentative joint tuberculosis control program with Livingston County and other counties in the Rochester Region. Nothing has been decided or accomplished by the Livingston County legislators to date on this matter. Mr. Burke said Livingston County will come to a decision as far as the Livingston County program is concerned contingent upon or subject to what the other counties decide to do. This decision should be reached in their meeting Wednesday, April 2, 1975. He will be in touch with us on the developments following this meeting.

As a note of interest he noted that if Livingston County ran their respiratory clinic independently, the estimated cost would be \$40,000.00. Livingston's population is in excess of 54,000 so our estimated cost independently would be sizeable.

Mr. Burke's telephone number is 716-926-2440.

#### **RESOLUTION NO. 91**

By Supervisor Bane, who moved the adoption.

Seconded by Supervisor Kemp.

#### **RESOLUTION EXPRESSING INTEREST IN REGIONAL TB CONTROL PROGRAM**

FURTHER RESOLVED, that one Sr. Account-Clerk-Typist position be created in the Orleans County Department of Social Services at the salary set for that position.

### RESOLUTION REQUESTING THE ENACTMENT OF LEGISLATION TO HOLD HARMLESS COUNTIES FROM INCREASES IN THE YEAR 1975 OVER THE YEAR 1974, IN THE COST OF PUBLIC ASSISTANCE.

WHEREAS, by reason of adverse economic conditions caused by inflation and recession over the past several years, the numbers of persons in need of public assistance has become even greater, resulting in greatly increasing the cost of public assistance to the taxpayers of the counties in the State of New York, including Orleans County, and

WHEREAS, because it is of great importance that the taxpayers of Orleans County be made aware of the ever increasing cost of public assistance and of the ever increasing burden that is being placed upon them by reason thereof, there is hereinafter set forth the cost of public assistance incurred by Orleans County for the years 1973 and 1974, to wit:

	1973	1974
Aid to Dependent Children .....	\$1,082,273.56	\$1,318,926.47
Home Relief .....	253,606.08	346,618.00
Medical Assistance .....	1,483,905.41	1,490,454.00
Total .....	\$2,819,785.05	\$3,155,998.47

WHEREAS, during the month of January, 1975, the County of Orleans has experienced a continuing escalation in the cost of public assistance in that there has been expended therefore during said month of January, 1975, the following sums:

Aid to Dependent Children .....	\$148,898.09
Home Relief .....	43,408.17
Medical Assistance .....	171,324.84
Total .....	\$363,631.10

WHEREAS, by reason thereof, it appears feasible to project that during the year 1975, the cost of public assistance will continue to escalate and spiral, and

WHEREAS, the ever increasing and overwhelming cost of public assistance has become a burden of catastrophic proportions and beyond the ability of many of the taxpayers of Orleans County to pay, with the result that many taxpayers will be faced with the possible loss of homes

and possessions which, in turn, will cause ever increasing numbers of taxpayers, themselves, to become in need of public assistance and thereby cause the cost of public assistance to continue to escalate and spiral, and

WHEREAS, by reason of the aforesaid, the matter of public assistance over the years has been a matter of continuing and ever growing concern to this Board, and

WHEREAS, it is the sense of this Board that it is wholly inequitable and unfair that the taxpayers of Orleans County be expected to sustain and carry the ever increasing tax load placed upon them by reason of the ever increasing costs of public assistance, and

WHEREAS, the matter of public assistance is not and should not be a local matter confined to Orleans County for the reason that the cost of public assistance has been mandated upon Orleans County by the State and Federal governments and because the necessity therefor has been incurred by problems which are in scope State and National and should be and must be provided for by additional funding from the State and Federal Governments, therefore be it

RESOLVED, that the Orleans County Board of Supervisors respectfully requests that legislation be enacted by the State and Federal Governments to provide to Orleans County and to all other counties similarly situated additional funding so that all expenditures made for public assistance by the County of Orleans during the year 1975 in excess of the expenditures made for public assistance by the County during the year 1974, be reimbursed to the County to the end that the County of Orleans, for all expenditures for public assistance made during 1975 in excess of the expenditures therefor made during 1974, shall be held harmless, and be it

FURTHER RESOLVED, that the Clerk of this Board be and she hereby is directed to forward certified copies of this resolution to each of the following:

Hon. Gerald R. Ford, President of the United States  
Hon. Jacob K. Javits, U. S. Senator  
Hon. James L. Buckley, U. S. Senator  
Hon. Hugh L. Carey, Governor  
State Senator Lloyd Paterson

BASIC WORK RULES FOR EMPLOYEES OF THE COUNTY OF ORLEANS, NEW YORK

The below rules will apply to all county employees. Provided, however that, in the case of any rule contrary to or in conflict with the provisions of any contract between the County and a recognized bargaining unit, as to the employees covered by such contract the provisions of such contract shall govern.

County office shall be open for the conduct of business and convenience of the public in strict accordance with the hours prescribed by the Board of Supervisors.

Employees of the County of Orleans do not punch a time clock but punctuality is important for the smooth and efficient operation of County Departments the same as any other business. Accordingly employees are expected to be on hand and ready for work at the appointed time. They are likewise expected to stay on the job until 5:00 p.m. or whenever their work day is finished. Promptness and a full day's work are a good indication of interest in your job.

Employment of any person by the County of Orleans shall be subject to the Civil Service Rules as adopted by the Board of Supervisors and approved by the New York State Civil Service Commission on April 22, 1961. Pay periods shall be based upon the regular working hours of that department.

LEAVE OF ABSENCE

All applications for a leave of absence by any employee paid from County funds shall be made to the Board of Supervisors, which Board shall determine whether or not same be granted, and if granted, shall fix and prescribe the terms and conditions thereof, taking into consideration Rule XIX of the County Civil Service Rules.

EDUCATION LEAVE OF ABSENCE

After one year of continuous employment by the County, an employee shall be granted a leave of absence for a period of up to two years in order to attend an accredited school full time, provided that the courses to be taken are of mutual benefit to the employee and the employer. Provided, however, any employee may have education leave to attend a course of study of six weeks or less duration which course shall be of mutual benefit to the employee and employer. Provided further that any employee who has a contractual obligation to return to work for employer following completion of such courses for which education leave is granted shall be not required to have continuous employment of one year.

During such leave of absence, no compensation shall be paid to the employee, excepting only to the extent that any such compensation is reimbursed to the employer from some other source.

ABSENCE FOR JURY DUTY

Employees who are drawn for jury duty shall be paid the difference between the compensation received for such jury duty, excluding travel pay received in connection therewith, and their regular rate of compensation.

VACATION ELIGIBILITY

(a) All regular full-time employees who have been continuously employed by the County shall be entitled to vacations with pay earned on an annual basis determined from anniversary date in accordance with the following schedule:

<u>YEARS OF EMPLOYMENT</u>	<u>WORK DAYS VACATION</u>
1 thru 4 years	10 days
After 4 years	11 days
After 5 years	12 days
After 6 years	13 days
After 7 years	14 days
After 8 thru 13 years	15 days
After 13 thru 20 years	20 days
After 20 years	25 days

Provided however, that each employee may take (5) five days of his first years vacation eligibility after his first six (6) months of employment.

(b) Vacations earned during one (1) anniversary year shall not become the property of the employee and shall not be taken or paid for until the commencement of the next anniversary year and must be taken during that said anniversary year, excepting however, that any employee shall be entitled to five (5) days vacation after his first six months of employment as above set forth. Upon the death or termination, all of the employee's vacation time earned during the previous anniversary year, but not yet taken by the employee or paid by the employer, shall be paid to the employee or his estate.

(c) Vacations shall be taken by the employee and paid by the employer on the basis of his applicable work day, week and salary or hourly rate at the time he takes his vacation or is paid for it.

(d) As far as possible, vacations shall be granted to employees at the time most desirable to them, but the final right to determine the time of vacation for any employee is expressly reserved to the Employer in order to insure orderly operation of its business.

(e) Vacation pay shall be paid to the employee at the commencement of his vacation.

(f) Vacation eligibility shall continue to be earned on a pro rata basis for the first 20 work days an employee is on unpaid leave during any calendar year. No vacation eligibility shall be earned by an employee on unpaid leave in excess of twenty (20) work days in any calendar month. When unpaid leave in a calendar year is in excess of twenty (20) work days in the aggregate, vacation eligibility for one (1) month will be forfeited for each twenty (20) work days of unpaid leave.

#### RETIREMENT

The County shall continue the present coverage of employees under the 1/60 New York State Retirement Plan, retroactive to 1938, except as amended, enlarged and modified by Section 75-i of the Retirement and Social Security Law of the State of New York together with the benefits of Sub-division k of Section 41, Sub-division g of Section 43, both of the Retirement and Social Security Law of the State of New York, and Sub-division 4 of Section 243 of the Military Law all as are presently in effect, as adopted by the Orleans County Board of Supervisors on December 8, 1970. Effective January 1, 1972, the additional benefits provided under Section 41-j and Section 60-b both of the Retirement and Social Security Law of the State of New York, shall be provided.

#### SICK LEAVE

(a) Each full time employee after one complete calendar month of employment or the major portion thereof shall earn 1-1/2 days of paid sick leave for each month in which the employee works or is fully compensated, or major portion thereof, which leave may be accumulated to a maximum of one hundred fifty days (150) and such sick leave shall accumulate and may be taken after one calendar month.

Such leave may be taken only in the event of sickness, which shall be defined as illness, bodily injury or quarantine. A physician's certificate shall be required after five (5) days of sickness and in the case of protracted sickness such a certificate must be presented at the end of each calendar month of absence, following the calendar month in which the employee starts his sick leave. The time limit required for physician's certificates as hereinabove set forth shall not apply if there is some non-medical reason beyond the employee's control why the employee cannot get a certificate on time.

(b) When an employee's accumulated sick leave has been exhausted due to illness, employer may upon request by employee and with approval of the Board of Supervisors, grant extended sick pay at the rate of one-half the sick leave provided in the first paragraph herein, for periods of 30 days. Before granting any such request for extended sick pay, the Board of Supervisors may request a doctor's statement and/or a physical examination and report by a physician designated by the County.

Employees who have had continuous employment with the County for one year and who are unable to perform the duties of their employment because of injuries received in or illness caused by the service of the County, and who are awarded Workmen's Compensation Benefits during any period that they are unable to work because of such injury or illness, shall receive a supplemental sum equal to the difference between their normal wages from the County and their compensation benefits received during such disability. In no event shall such supplementary pay continue for a period in excess of 6 months from the first day of the initial disability period.

Time off while receiving such supplemental pay shall not be considered as sick leave and such time shall not be deducted from the employee's accrued sick leave.

#### PERSONAL LEAVE

Each full time permanent employee shall be granted five (5) days of personal leave with pay during each calendar year following the completion of 12 months of such employment. Provided, however, that after 6 months of such employment an employee may take 2-1/2 days of the 5 days to be earned during the first 12 months of such employment.

Such leave shall not be paid if not taken and shall not be carried over into any succeeding calendar year or years. Such leave may be taken only after notice to the Employer and then only if the taking of such leave will not interfere with the Employer's orderly operation of its business. If personal leave time is available to him under the provisions of this paragraph, any person who is absent from work for personal reasons shall be charged only for the time he is actually away from his work.

#### FUNERAL LEAVE

Each full time permanent employee shall be granted the following days of leave in the event of the following deaths:

- |   |        |

#### PHYSICAL EXAMINATION

Each person employed by the County of Orleans shall, before starting such employment, undergo a physical examination by a physician of his or her choice and furnish a report of such examination to the department head who shall in turn file it with the Executive Secretary of the Orleans County Self Insurance Fund. The report of physical examination shall be in such form as may be prescribed by the Insurance Committee of the Board of Supervisors. The cost of such examination shall be a proper county charge, the maximum fee to be paid to be set by the Board of Supervisors.

MEMO FROM THE BOARD OF SUPERVISORS CONCERNING 1975 SALARY SCHEDULE

Seniority increments have been eliminated from the work rule, to be effective during 1975.

All salaries have been evaluated and special adjustments have been made in all salaries to allow each employee an increase over his or her 1974 salary.

This procedure was implemented in order that positions would be bracketed in relation to work and responsibility involved, in anticipation of the County adopting a minimum salary and the maximum salary for each position in the County. In this salary schedule, the positions marked "adjusted salary" will be the salary paid for the year 1975.

Steps	Base Salary 1	2	3	4	5
Charge Nurses	\$ 8,550.00	8,817.50	9,085.00	9,352.50	9,620.00
RN's Infirmary	8,250.00	8,517.50	8,785.00	9,052.50	9,320.00
LPN's Infirmary	6,950.00	7,217.50	7,485.00	7,752.50	8,020.00

Before the adoption of the above resolution, Supervisor Paduchak made the following statement: "the salary committee has worked hard in trying to come up with a workable salary schedule for the year 1975. Some adjustments were made and we used some advice from a consultant who gave us some information as far as the salary structure in this county is concerned. Possibly no rule can be given to the percentages or increases but possibly we used the fact that some of these people have salaries that in some cases are reaching the point where they are coming into the range of their department heads. This is something we won't go into but hopefully in the next year we will have a salary schedule that will bracket the employee into the position and they will know when they start to work for the county they will know the exact amount they can expect to receive in the next few years for the job category they are in."

#### **RESOLUTION NO. 111**

By Supervisor Swiercznski, who moved the adoption.

Seconded by Supervisor Piedimonte.

#### **RESOLUTION APPROVING MORTGAGE TAX APPOINTMENTS**

RESOLVED, that the Mortgage Tax apportionments appearing in the foregoing warrant be adopted by the Board and the said warrant be approved and delivered to the County Treasurer.

Unanimously adopted.

Adjourned at 12:05 p.m., until 10:00 a.m. May 8, 1975.

### **REGULAR MEETING Thursday, May 8, 1975**

The meeting was called to order at 10:00 a.m., by the Chairman. The Clerk called the roll and all Supervisors were found present.

It was moved by Supervisor Swiercznski and seconded by Supervisor Piedimonte that the reading of the minutes of the previous meeting be dispensed with and the same approved as prepared by the Clerk.

Carried.

Privilege of the floor was granted to Mr. William Hansen, Genesee County's representative on the Rochester-Genesee Regional Transportation Authority. Mr. Hansen said "we are an authority without authority". We have no authority to commence any project in your county unless you request it. You nominate two men and their names go to the Governor and he picks one of them to represent you in authority. Mr. Hansen then introduced Mr. Robert Aex, Executive Director of the Rochester-Genesee Regional Transportation Authority.

Mr. Aex said we are not here to sell you anything but to give you any information you require. Chairman Reed said Mr. Pulley of the Community Action Committee had requested that members of the Authority be invited to this meeting to find out if there was any help available for funding the transportation system run by CAC. Mr. Pulley said that whenever they applied for funds for the system, they were told the funding would have to go through the Transportation Authority.

Mr. Aex said, "that the authority was set up to include Orleans County among the eight county region included in the authority. The Regional Transportation Authority's function, should any county become a member, is to try to seek the maximum state and federal funding available for whatever you are interested in. If you become a member and you wanted to seek funds for the transportation system run by CAC, we would file applications for such aid. The funding would be based on 50% Federal and 25% from your County for operating costs. Capital assistance can also be given for the purchase of buses, etc.. If you became a member of the authority an additional  $\frac{1}{4}\%$  of 1% would be levied on the present mortgage tax and this would go to the authority to be used for operating costs and transportation in Orleans County.

Supervisor Paduchak asked Mr. Aex whether federal funds for operating the transportation system under CAC could be used since CAC is partially funded by federal funds. Mr. Aex said he thought funds could not be used twice but that there might be extenuating circumstances.

Supervisor Batchellor asked that if there was an operating deficit, could the authority assess the county to make up the difference. Mr. Aex said that it would be on the formula of 50% federal, 25% state and 25% county. These funds would come out of the county budget, whereas the additional mortgage tax would not.

Supervisor Swiercznski asked if the County would be directly responsible for operating the transportation system in Orleans County or would the Authority be responsible. Mr. Aex replied that the County would have 100% control over operating the system if the County elected to do so. Supervisor Batchellor asked if the Authority operated on weighted voting and Mr. Aex replied that it does — Orleans County would have two votes, the same as Genesee and Wayne County.

Jeff Astles asked if other people in the County couldn't claim discrimination since the CATS system only serves certain people. Mr. Aex replied that he did not know if that would be the case.

Further discussion followed — the matter was referred to the Planning and Development Committee for recommendation.

Privilege of the floor was granted to Mr. Eugene Wisczewski, Western New York Health Planning Council. Mr. Wisczewski explained the structure of the WNY Health Planning Council. He stressed that local input into health planning and decision making is very important. The County would have representation on the Board of Directors. Mr. Wisczewski said the Governor has indicated that Orleans County should be a part of the Western New York Health Planning Region and has forwarded that recommendation to the Secretary of HEW who would have to ratify the decision. Mr. Wisczewski introduced Mr. Raymond Foley, Vice President of the Council. Mr. Foley said he had been a member of the council for six years and it has been very gratifying to see that the members do have good representation in the planning and decision making process. The Council feels local input is of great importance.

Mr. Wisczewski said the Western New York Region would welcome a member from Orleans County to their Ad Hoc Committee immediately. The Committee will be working on the Article 28 Project Review.

The first steps to become members of the Buffalo Region would be (1) a resolution from this Board to the Regional Health Director in Rochester requesting Orleans County be released from the Rochester Region. (2) Resolution to the Regional Health Director in Buffalo requesting that Orleans County become part of the Western New York Health Planning Council. (3) Resolution to Regional Mental Hygiene Director indicating that Orleans County wishes to be realigned with the Buffalo region.

Mr. Wisczewski said funding was not an important point at this time. The point was made that Orleans County has already paid their share to Genesee Health Planning Council for 1975.

Privilege of the floor was granted to Judge Doherty who informed the Board that he felt the salaries given to the Court Reporter and Clerks of Family and Surrogate's Court were not sufficient. He said he did not feel that the VMC report had placed those positions in the proper category. He said that he was very concerned that Mrs. Fenty, the Court Reporter, would look for another position and could not be replaced easily.

Mayor Rodden, Chairman of the Mental Health Board also addressed the Board in regards to the salaries of several employees of the Mental Health Department. She said the County would lose the services of some very qualified people if the salaries were not raised. The Mental Health Board is also having difficulty recruiting the services of a psychologist at the salary set in the salary schedule.

The Probation Director, Robert E. Golden, also expressed the opinion that his Probation Officers were not treated fairly. He asked the Board to reconsider the salaries for Probation Officers.

The Finance Committee said they would take the matter under consideration.

Privilege of the floor was granted to Mr. Paul Acri of the Orleans County Taxpayers Association. Mr. Acri questioned whether the Budget Director had made reports to the Board of Supervisors as he had promised to do when he took the job. Mr. Acri said he felt an oral report should be made regularly and written reports submitted quarterly. He asked if that was being done. Mr. Kubatek replied that his predecessors had not been required to do that and he felt OCTA was being unfair to him. He said that he had been receiving reports from the Departments and was working closely on the budget problems. Discussion followed.

Supervisor Paduchak said he would like to say a few words. "All of us in public office could go to seminars weekly and then we would not receive any credit from the taxpayers association that we would be putting in time. False accusations were made here this morning by the taxpayers association that we only spend 40 hours as legislators. I made some fast addition and we meet two times a month that's twelve months a year. Each evening session runs about 18 hours a year and the regular day sessions about 24 hours. That totals 42 hours; what about the annual session and committee meetings. They say we are not doing anything. In defence of the opposition party — the fact that one legislator here today was criticized unfairly by the taxpayers association for not reporting on his duties as budget officer. Why should the taxpayers association come forward at this time and ask for a report when they did not ask the former budget officers for a report. As to one man committees which the association objects to; many times I meet with department heads to obtain information necessary for committee meetings. They say they have the facts and I don't think they do have the facts."

Orleans County Board of Supervisors  
Albion, N. Y. 14411

Western Regional Off Track Betting Corporation  
Box 4467  
Batavia, N. Y. 14202

RESOLVED, by the Medina Area Business, Inc., 534 Main St., Medina, N. Y. 14103, that any off track betting parlor to be opened in Orleans County, be located in Medina, N. Y. for the following reasons:

1. that the heaviest population of Orleans County is located in the western end of the county.
2. Medina has a thriving and growing business and trade center and is better located than any other village in the county to serve as an off track betting location by virtue of its central location to the villages of Albion, Middleport, Barker, Gasport and Lyndonville and surrounding area Knowlesville and other smaller hamlets.
3. a location in Albion would not attract business from the Middleport, Barker, etc. area and the people from the eastern end of the county, Holley, Fancher, etc., are more likely expected to be attracted to a betting parlor in Brockport or Monroe County area.
4. a toll free area covers Medina, Albion, Lyndonville, Knowlesville, Millville, Middleport and involves a population area greater than encompassed within the Albion telephone area.

FURTHER RESOLVED, that Medina Area Business, Inc., requests and does hereby request all governmental bodies and persons having jurisdiction exercise their authority and influence in prevailing upon whatever body has jurisdiction to make certain that such off track betting parlor be located in Medina, N. Y. and further that appropriate resolutions and communications be forwarded to the necessary agencies and parties and further that copies thereof be transmitted to Medina Area Business, Inc.

**REGULAR MEETING  
May 22, 1975**

The regular meeting of the Board of Supervisors was called to order at 8:00 p.m. by the Chairman. All Supervisors being present.

Privilege of the floor was granted to Raymond Pahura, Economic Development Coordinator. Mr. Pahura said he had requested to appear before the Board for the purpose of informing the Board that the EEA or PEP program is definitely being phased out. The money for this program will run out at the end of the first payroll in June. The County has received approximately one-half million dollars under this program. We have twenty-two employees under the program. What do we do with these employees? Most are eligible for unemployment insurance under the act passed by Congress but many departments have not budgeted for these employees for the rest of the year. Perhaps only four departments have money to carry these employees. If you are going to lay off these employees, they should be advised as a courtesy, two weeks in advance. We had hoped to carry all twenty-two through until the end of June but because of the retroactive pay increases, this will not be possible. We are paying a little over \$14,000 a month to pay these employees. Mr. Pahura said he only administers the program and does not create the jobs or decide who will be laid off. Supervisor Paduchak asked if these employees could be transferred to the CETA program. Mr. Pahura replied that they could but that there is no extra money in that program at this time to take over these employees. The Clerk read the following letter from Mr. Hancock, Manpower Coordinator:

May 22, 1975

Board of Supervisors  
Court House Square  
Albion, New York 14411

Gentlemen of the Board of Supervisors:

This short letter is in response to several concerns that have been communicated to me over the past few weeks concerning the continuance of the Title II Program of CETA.

I recently attended a meeting in Albany this past Monday and was informed of the possibility of the continuance of the Title II Program for the next fiscal year.

Indications are that there is a bill near the president's desk ready for signing that would accomplish the following items: 1.) Continuance of the Title II program for another year. 2.) The lengthening of the Title VI program for another six months. 3.) The implementation of a summer program for disadvantaged youth for 1975.

Whereas this has not been confirmed, they indicated that this was a favorable option.

I will be attending another meeting at the Statler Hilton in Buffalo on June 3 to hopefully find out more concrete information concerning this most important bill.

I would advise that for purposes of tonight's meeting that no major decisions be made concerning CETA or PEP programs until we find out more about this bill that now lies on the President's desk.

After the meeting on June 3rd, I will be able to hopefully supply more information for you and definitely, have more to report for your June 5th Board of Supervisors' meeting.

Sincerely,  
JAMES E. HANCOCK  
County of Orleans Manpower Programs

JEH/kz

Mr. Pahura said that Mr. Hancock was not saying that he will receive money to take over the EEA people. All of the people under the EEA program are county employees. It appears right now that with the first payroll in June we may need a little money to meet that payroll. At this time I would advise the department heads as to what action you will take in regard to these employees. Supervisor Swiercznski suggested that each Supervisor contact the department head responsible to him and see if that department really needs the employee. It was suggested that all departments would respond that they did need them.

Mr. Pahura reported that he had instituted the necessary application

for the Village of Albion to get funds for water, also Mr. Pahura said his grant had been approved until June 30, 1976.

Supervisor Kubatek said that the budget adopted for 1975 was so tight that we are in trouble unless we curtail expenses. Social Services will, if there is no change in the economic situation, run about a million dollars over their budget. Mr. Nenni said he had several employees under the CETA and EEA program and was concerned about it phasing out. Several of the positions are mandated by the State and must be kept, and there is no provision in the Social Services budget to keep them on the payroll.

Privilege of the floor was granted to Mr. William Metcalf, Orleans County Soil Conservation District. Mr. Metcalf said that the work plan for Oak Orchard Creek Watershed had been approved by Washington and now must be sent to the New York State Department of Environmental Conservation for approval. He requested a resolution from the Board authorizing the Soil Conservation District to submit the plan for approval. The plan must also be approved by an engineer and it was suggested that the Engineer in the Genesee County Highway Department could review the plan for both Orleans and Genesee County's.

Carried.

Recessed at 9:00 p.m., reconvened at 9:05 p.m.

Privilege of the floor was granted to the County Planner, Jeff Astles. Mr. Astles reported that he had attended the meeting with DEC regarding building permits and that Orleans County was the only County represented.

Mr. Astles informed the Board that he had received a letter from DEC stating that Counties should make the appeals on the flood maps for the towns. He said this would mean cutting out specific areas which were objectionable and documenting them. DEC requested this be done by May 30th, which of course, is not possible. Mr. Astles said he would write to DEC asking for an extension.

Mr. Astles reported that he had at the request of Mr. Pulley, attended a meeting with people from the State. The State has \$45,000 which will be distributed to three counties, one of which is Orleans, to form a rural demonstration transportation program. They would select a county and provide funds for a system which would serve the same type of clients that CATS now serves, therefore, Orleans County has a good chance of being selected for this program. The local government would probably have to put up matching funds. It was noted that the County has been funding CATS. It will probably be about another month before the County knows if they will receive these funds.

The Clerk read a letter from the Genesee/Finger Lakes Regional Planning Board asking review and action upon a contract between the County and the Planning Board for technical planning services to be rendered by the County under the Unified Work Program of the Genesee Transportation Study. Mr. Astles said he would not be able to devote a great deal of time to the project but that he felt the County should participate. Referred to the Planning Committee for recommendations and also review by the County Attorney.

Supervisor Plummer asked if the Board would consider funding CATS for an additional period of time until other funds could be found. Supervisor Kubatek said the County just does not have the money to continue this for any period of time. Supervisor Kemp suggested that we should wait and see what the County does about joining the Transportation Authority. Further discussion took place but no action was taken. Referred to the CAC Committee and Finance Committee.

The Clerk read a letter from Dr. Platman, Regional Director of the Western New York Regional Mental Hygiene Office, indicating he would consider the request of this Board to transfer to that office from the Rochester Area. Ordered filed.

It was moved by Supervisor Swiercznski and seconded by Supervisor Piedimonte that the minutes of the previous meeting be dispensed with and the same approved as prepared by the Clerk.

Carried.

Privilege of the floor was granted to James Hancock, Manpower Coordinator. Mr. Hancock said because of the veto of the Federal bill appropriating more funds for CETA Title VI, we are still in a state of limbo waiting to know if more money will be appropriated. We have unexpended funds in our Title VI program to carry the Title II employees through September 30, 1975. The EEA or PEP monies will run out June 13th. Mr. Hancock presented a list of some jobs which can be carried for three months with Title 6 unexpended monies. Mr. Hancock said that he would like to know what the status of these jobs will be at the end of the three months.

Supervisor Kubatek said the Finance Committee recommended going along with the extension of these jobs for three months. But the Finance Committee wants the Department Heads and committee's to take a hard look at all positions and if they find there are some that can be eliminated, then let the employee know so that they can begin looking for other employment. We don't want to build an empire here.

Mr. Hancock said there are two jobs which don't appear on the EEA list which will be transferred to the Title 6 program. These are Asst. EDA Coordinator and one Deputy Sheriff position.

Supervisor Paduchak reported that the Judicial Committee had met with the County Clerk regarding a mandate from the State Department of Taxation and Finance which requires the Motor Vehicle Department to check for an affidavit from the buyer and seller stating how much money a car was purchased or sold for and this must be checked against a book provided by the State and if lower than the book price an additional sales tax must be collected which can later be rebated to the purchaser upon submission of an affidavit. The members of the Board agreed that this would cause a hardship on the County Clerk's Office and he should refuse to collect this extra tax. The following resolution was adopted.

#### **RESOLUTION OPPOSING POLICING OF COLLECTION OF SALES TAX FOR N.Y. STATE**

WHEREAS, the State Department of Taxation and Finance has man-

dated a new procedure for collecting the tax on the casual sale of motor vehicles which procedure will become effective July 1, 1975, and

WHEREAS, such mandate will burden the agencies issuing motor vehicle licenses in the various localities and will specifically create an undue burden and hardship on the Office of the County Clerk of the County of Orleans, the issuing agency, for the County of Orleans, and

WHEREAS, such burden will be financial and physical since the County of Orleans has adopted its budget and staffing plans for the year 1975 and such budget and staffing plans contain no provision for the additional work of policing the sales tax on casual sales as reported by those licensing vehicles in the County of Orleans and such burden will further be physical in that the County of Orleans lacks sufficient storage space or work area to provide for the proper administration of policing and collection duties imposed on the Office of the County Clerk of the County of Orleans by such mandate of the Department of Taxation and Finance, now therefore be it

RESOLVED, that this Board of Supervisors opposes the mandates of the State Department of Taxation and Finance and requests that such mandate be rescinded, and be it

## **SPECIAL MEETING**

### **Friday, June 27, 1975**

A special meeting of the Board of Supervisors was held in the Supervisor's Room, Court House, Albion, N.Y., Friday, June 27, 1975, for the purpose of considering the Fact Finders' report on the salary dispute between the County and C.S.E.A. representing the Sheriff's Department employees.

The Chairman called the meeting to order at 4:05 p.m., the Clerk called the roll and all Supervisors were found present.

The County Attorney reviewed the Fact Finders report. Mr. Church informed the Board that they had ten days to report on their decision regarding the Fact Finders Report, however, since there was no cover letter with the report, he was not sure just when the ten days would be up. The options open to the Board are (1) to accept the report and if the union also accepts the report that would be the agreement for 1975-1976 between the County and the CSEA for the Sheriff's Department employees; (2) reject the report entirely or in part, in which case a Legislature hearing would have to be held. The report calls for a \$750 across the Board increase for employees in the Sheriff's Department, the County had offered 7% increase the union had requested \$1000 across the Board. The County Attorney said that most of the other points in the report seemed to be something the County could accept.

WHEREAS, the growing of fruit creates a long term commitment by the producer often spanning generations since many years are required from the time of planting an orchard until such time as the orchard becomes bearing to an extent which makes it economically feasible for the farmer to continue operation of his fruit farming operation, and

WHEREAS, local fruit growers have during this recent growing season invested to date approximately \$250 per acre in the preparation and treatment of the orchards, and

Mr. Maynard Reed, Chairman

Court House

Dear Mr. Reed:

The Department has contacted Mrs. Janet Baldwin who meets the qualifications of a Public Health Supervising Nurse. She has been interviewed and approved by Miss Eleanor Hall, Nursing Consultant, from the New York State Department of Health, Rochester Regional Office.

Your consideration in this matter will be appreciated.

**RESOLUTION AUTHORIZING ADVERTISING FOR BIDS AND  
PURCHASE OF MATERIAL FOR STORAGE BUILDING**

RESOLVED, that the County Superintendent of Highways and the Highway Committee of this Board be, and hereby are authorized to advertise for bids for the purchase of material to construct a building for the storage of salt and sand to be located next to the County Highway Building; said building to be 50' x 70' of metal construction, open to the south. Specifications to be prepared by the County Highway Superintendent.

Unanimously adopted.

The following discussion took place before the adoption of the above resolutions:

Supervisor Paduchak said in seconding the resolution that "as a member of the Finance Committee I reluctantly second the resolution. There is a limit to what we can afford, it is going to hurt us in the preparation of the 1976 budget even though we will receive all but about \$ 250,000 from federal and state revenue. We will have to include \$ 250,000 in the 1976 budget on top of what is anticipated for the year 1976. The counties have asked for some relief from this situation as far as social services budgets are concerned but the courts have not seen fit to allow this. Other agencies are asking the federal government to intervene and help us out in this situation but there is no help forthcoming from that. It doesn't matter if it is from the federal coffers or the state coffers or the local coffers it is all going to cost us additional funds. Our problem is that everybody is trying to build up a utopia sort of government in this country. This is something we can not afford. It has just hit us in the face now, we have to look at our priorities to see what we can afford and what we can not afford. So I reluctantly second this motion because of the need the county is forced into that is all I have to say. I do not know how we are going to come out with the 1976 budget with this amount added on top of the \$ 15,000 deficit that we had to make up as far as this year's budget was concerned and which will have to be raised next year."

Supervisor Kubatek said "just yesterday as a result of a newspaper article, I received several calls at home from people who are very much annoyed by the costs and they blamed the county. I tried to tell them that our hands are tied. We will have to do something — either try dragging these people into court on the legal side or something. I assume our people are checking to see that these people are authorized to receive aid."

Supervisor Reed said that "there is no question that we will have to come up with the money but on the other hand if you don't fight against some of this stuff and let them know what you feel — this way we are taking this stuff standing up".

Supervisor Piedimonte said "but the state mandates that we have to do this — somewhere along the line we should get some help".

Supervisor Reed — "if all the counties in the state would stand together something might be done about this." Supervisor Batchellor said, "one county did resist paying and they were served with a court order to pay". Supervisor Reed said "maybe that's what is needed more court orders and maybe they would know there is opposition to this".

Supervisor Swiercznski said "we voted to back the counties down state in this — two have already gone to court — at least the Judge ordered it and showed that they were fighting it — we ought to fight this at this point. We are going to saddle our taxpayers with a \$ 5 tax rate increase — strictly for welfare and this is bad. They can put me in jail I am voting no right now. I am not going to saddle my taxpayers — many are on fixed incomes and everybody is strapped. I am not going to appropriate this kind of money right now. We haven't got it.

Supervisor Kubatek said "we are working on a time element — we will be lucky if we get the money." Supervisor Swiercznski said "Too Bad". Supervisor Kubatek said "sure it's too bad. But what are county employees supposed to do to do their job and what is the County Treasurer supposed to do. I am in agreement with you about fighting this — let's get our state representatives down here or get the County Officers Association to fight this."

Supervisor Swiercznski said "if we don't have the money then don't pay them". Supervisor Kubatek said "if you don't want to raise the money then you tell them what they are going to do when it comes time because I don't want my phone ringing." The County Attorney said "we must have money to meet the payrolls because the general fund has been used to pay the deficit in social services". Supervisor Swiercznski said, "I will vote to appropriate \$ 100,000 to the general fund but none for welfare."

Supervisor Batchellor said "when you get all done the Judge would tell you to pay this — nobody likes it — you knew this was coming up way last fall. You knew it would be short this spring." Supervisor Paduchak said "I will take my lumps on this — I knew we would be short but not this much because of the economy, we did not know it would be up this much." Supervisor Batchellor "The County is broke right now." Supervisor Paduchak said "we are in the same shape as New York City right now." Supervisor Piedimonte said "I think we should protest this." It was noted that a resolution had been sent previously protesting this. Supervisor Zelazny said, "I think social services should have the power to curb payments to recipients percentage wise and not to give them all that they come and ask for." Supervisor Paduchak noted that the state charged the county \$ 700.00 late charges for our retirement bill because we did not have the money to pay it on time. But the state owed him his gas tax money and never paid him any interest on it.

After further discussion Supervisor Kubatek requested a recess. Recessed at 1:45 p.m., reconvened at 2:00 p.m.

Supervisor Kubatek said that during the recess the Finance Committee, County Attorney and County Treasurer had met to see if we could borrow less than the \$ 900,000 but there didn't seem to be an alternative but to borrow the whole amount. It requires approximately \$ 600,000 each month to operate the County. We receive approximately \$ 400,000 in revenues, we have already received most of the revenue for September. Supervisor Piedimonte asked how much of the \$ 600,000 goes to social services and was told approximately \$ 320,000. Supervisor Batchellor said the problem is we have been using the general fund to pay the social services deficit each month and we have a cash flow problem. Supervisor Piedimonte said he would be willing to vote to borrow enough money to pay all the county bills except social services and we should let the courts tell us we have to pay social services.

Supervisor Kemp said "we keep laying the blame on social services but we are the ones responsible for what goes on up there". This is something we should have taken up with those above us a long time ago and told them we cannot afford to pay the costs of social services.

Supervisor Paduchak replied that we cannot legislate how much people on social services will get, the state mandates this.

Supervisor Piedimonte said I want to pay the county bills but I don't want to pay the social service bills. I know there are some people on welfare who need it but there are too many young people walking the street getting welfare who are able to work.

It was moved by Supervisor Piedimonte and seconded by Supervisor Batchellor that the County Historian, Arden McAllister, be authorized to attend the State Historian's meeting in Rochester, September 22, 1975, at county expense.

Carried.

Supervisor Zelazny discussed a request from the 4-H to add \$ 500 to the budget for the Extension Service to be used for prize money for the County Fair. Referred to the Finance Committee.

## **REGULAR MEETING**

### **Thursday, September 18, 1975**

The meeting was called to order at 8:15 p.m. by the Chairman. The Clerk called the roll and all Supervisors were found present.

It was moved by Supervisor Piedimonte and seconded by Supervisor Plummer that the reading of the minutes of the previous meeting be dispensed with and the same approved as prepared by the Clerk.

Carried.

Privilege of the floor was granted to Mr. Don Smith and his committee on the Historical Calendar for the Bi-Centennial. Mr. Smith presented a calendar to each Supervisor and thanked them for their support of the Bi-Centennial Committee.

The District Attorney, Curtis L. Lyman, and Mr. Frank Zona, Welfare Investigator, appeared at the meeting at the request of the Board to discuss ways in which any welfare fraud could be combated.

Mr. Lyman said that since he took office there had been only 17 cases out of approximately 1700 that had any possibility of prosecution, so that percentage-wise those that we are talking about are not great. Out of the 17 there are 15 making restitution, the 16th case the person is out of the state and will probably never be available for prosecution. The 17th case had an indictment and the Judge sentenced the person to one year in jail. The County is now taking care of her children and the only good which may come out of it is that it may be a deterrent to others. Mr. Zona explained how he investigates cases and said there are very few people who are breaking the law. Several Supervisors questioned Mr. Lyman and Mr. Zona, particularly about absent parents and whether these fathers could not be found and made to pay towards their children's support. Mr. Lyman praised the work Mr. Zona was doing and said he was making a very valuable contribution.

The Clerk read a letter from the Commissioner of Social Services requesting that the salary of Staff Development Coordinator be increased to the same base salary as Grade B Supervisor, retroactive to January 1, 1975. It was moved by Supervisor Swiercznski and seconded by Supervisor Plummer that Mr. Nenni's request be granted, retroactive to September 1, 1975. After discussion the motion was withdrawn and the matter referred to the Salary Study Committee.

The Clerk read a letter from Commissioner Nenni, dated September 15, 1975, requesting the creation of the position of Activity Leader with an increase in salary for Mrs. Mildred Buck of \$400.00. It was moved by Supervisor Piedimonte and seconded by Supervisor Kubatek that this matter also be referred to the Salary Study Committee.

Carried.

The Clerk read a letter from Commissioner Nenni, dated September 15, 1975, requesting payment of mileage for three students from Brockport State College. After discussion the matter was tabled to clarify the amount of mileage.

The Clerk read a letter from the Village of Medina informing the Board that "The Village of Medina will provide nonemergent transportation service for patients at the Orleans County Infirmary to and from the Arnold Gregory Hospital for a period of one month ending October 10, 1975. The charge for this service will be \$35.00 per transport. The Village will be unable to provide the service after the October 10, 1975 date, due to several factors including the cost to the Village for additional manpower."

It was moved by Supervisor Batchellor, seconded by Supervisor Kemp, and carried, that the following Clerk's bill for bringing action against delinquent dog owners, as presented and read by the Clerk, be allowed as claimed and that the Clerk be directed to certify same to the County Treasurer for payment.

## **REGULAR MEETING**

### **Thursday, October 2, 1975**

The meeting was called to order at 10:30 a.m., by the Chairman. The Clerk called the roll and all Supervisors were found present.

It was moved by Supervisor Piedimonte and seconded by Supervisor Bane that the reading of the minutes of the previous meeting be dispensed and the same approved as prepared by the Clerk.

Carried.

Mrs. Carri Blake, Director of the Office for the Aging, presented the following information on the proposed "Nutrition for the Elderly" plan.

#### **NUTRITION PROJECTS FOR THE ELDERLY TITLE VII OF THE OLDER AMERICANS ACT**

This program is designed to provide good nutrition and recreational opportunities for Senior Citizens. The program is necessary because good nutrition and socialization opportunities contribute heavily to good mental and physical health. Many older Americans do not eat nutritional meals for several reasons:

1. they do not know how to cook adequate meals (especially widowed men).
2. they are not motivated to cook nutritional meals, when they have to eat by themselves
3. they do not have the physical capabilities to grocery shop or move around a kitchen to cook.
4. they cannot afford nutritional food

Lack of good nutrition has been proven to lead to physical and mental deterioration. Dr. Jean Mayer, a Harvard University nutritionist, has stated that; "Nutrition must play a major role in preventive medicine, which in turn is our major hope to lengthen and improve the life of our citizens while reducing the cost of our health system." (New York Times, Wednesday, June 19, 1974) Another aging services expert, Dr. Herbert Seltzer of Daughters of Jacob Gerontology Center, Manhattan, has stated that "Most elderly Americans living alone — rich or poor — do not consume an adequate diet . . . Good eating habits are especially important to elderly because they are conducive to better health." (Staten Island Advance, April 19, 1972)

The program allows meals to be provided at central sites for people over age 60 and their spouses. The meal must provide  $\frac{1}{3}$  of the minimum daily nutrition requirements. The project sites may be in several types of buildings (i.e. church, masonic lodge, hospital, school, restaurant)

A suggested cost for the meals is posted at each site. Each participant then pays what he feels he is able. No one may be refused a meal because of the inability to pay for it.

In Orleans County the Home Services Agency, which presently sponsors Meals on Wheels, has agreed to subcontract from the Office of the Aging to run the program. The project is funded 90% through Federal Funds and 10% through local funds.

I anticipate an approximate budget of \$60,000/year to open and operate three sites in Orleans County (Medina, Albion, and Holley). The three sites would in total serve about 100 meals per day. (This number is a project requirement). The Orleans County share of this would be \$6,000.

This \$6,000 can be easily realized if the project can keep one person out of the Infirmary. It presently costs \$8,113.95/ year to care for a single person in a skilled nursing bed and \$4,303.35/ year for care in a health related bed. Good nutrition does maintain good health and can improve bad health. It can help a person remain in his own home rather than enter an institution.

The Orleans County share of \$6,000 can be reduced by applying for New York State Recreation for the Elderly funds. Orleans County's shares is approximately \$2,700 (\$.50 per person over age 60 in the County). These funds can be used as part of local share for a nutrition project. This would make the County's actual cash outlay about \$3,300 (\$2,700 (Recreational Funds) + \$3,300 (County Funds) = \$6,000).

In Orleans County there are 5,523 people over age 60. 1,380 of these people or 25% have incomes below poverty guidelines (1970 Census). This 25% may be considered prime targets for poor nutrition. We can help them improve their diets, maintain their physical health and maintain their mental health. A project site in Texas has noticed these results:

"Senior Citizens who were once unkempt now appear dressed in their best clothes, with their hair fixed perfectly. People who were withdrawn and almost bitter are now the first to greet visitors and sell newcomers on the program. (Food and Nutrition, August 1975) Obviously mental health is often aided just as much as physical health is by these projects.

Mrs. Blake was asked if this would be a 365 day situation and she answered that meals would be served five days per week.

Supervisor Paduchak asked what would happen to the Meals on Wheels Program and was told that this would continue for those persons who were home-bound. It was noted that a suggested price for meals would be posted but that persons would pay what they felt they could afford. Supervisor Paduchak said that it did not seem fair that some people could get meals for nothing when those getting Meals on Wheels had to pay for them. The question was asked if there were enough persons interested in this program and if they could serve 100 meals per day. Mrs. Blake said they would have to average this number per week per day. Mrs. Eddy and Supervisor Reed said they had visited these programs in other county's and found them very successful. Mrs. Blake

was asked to present letters from senior citizens in support of this program at the next Board meeting.

Recessed at 11:15 a.m., reconvened at 11:25 a.m.

#### **RESOLUTION EXPRESSING SUPPORT FOR FEDERAL REVENUE SHARING PROGRAM**

WHEREAS, the County of Orleans is a local government division of the State of New York participating in many and various programs and services required for the benefit of its citizens most of which programs and services are mandated by the government of the United States of America, the State of New York or various regulatory agencies thereof, and

WHEREAS, the County of Orleans has limited economic resources being a primarily agricultural area with a current unemployment rate of approximately 15%, said county having been designated in the past as a depressed area for the purposes of various Federal and State programs, and

WHEREAS, the taxpayers of the County of Orleans can not survive any further increases in tax rate to provide the services mandated by the State and Federal Governments, and

WHEREAS, the Orleans County Board of Supervisors has since the inception of revenue sharing by the Federal Government attempted to use the funds received through revenue sharing in a manner which will provide necessary services and at the same time reduce any possible increase in tax rate and to that end the County of Orleans has in the past used funds from revenue sharing in the fields of public safety, both in the Sheriff's Department and in the establishment of a Fire Training Center, in the area of transportation by the improvement of many County roads and highways which were in a deteriorated condition, in the field of public health by the completion of a solid waste study for the County of Orleans and in the area of fiscal efficiency by the partial funding of a state real property tax mapping program, and

WHEREAS, it is anticipated and estimated that in the event that revenue sharing funds are not received by the County of Orleans at at least the level of those funds received during the calendar year 1975 that the average tax rate in the County of Orleans will increase by approximately \$3.44 per thousand dollars, and

WHEREAS, the County of Orleans has investigated all other means of revenue and does presently have in effect a County sales tax at the maximum amount allowed by the State of New York, now therefore be it

RESOLVED, that this Board of Supervisors does request the Congress of the United States to enact and the President of the United States to sign legislation extending Federal Revenue Sharing Programs designated to maintain revenue sharing funds to be received by the County of Orleans and other county's similarly effected at a level not less than the amounts received during the calendar year 1975, taking into consideration from time to time inflationary effects on such revenue sharing funds, and be it

FURTHER RESOLVED, that this Board of Supervisors does request the Congress of the United States to take such other steps as may reasonably result in the reduction of economic pressures against rural areas such as the County of Orleans, and be it

Y., for the purpose of discussing the ambulance agreement between the County of Orleans and Midland Ambulance Service, Inc., and taking any necessary action in connection with same.

The meeting was called to order by Chairman Reed at 11:45 a.m. The Clerk called the roll and all Supervisors were found present, except Supervisor Paduchak who was excused.

The County Attorney explained that there were two points which need to be discussed (1) insurance coverage, the County was requiring five hundred thousand to one million coverage and Midland Ambulance Service, Inc., wished the coverage to be set at 1-3 hundred thousand; (2) initial payment of Midland to enable them to earn their cash flow at the start of business.

After discussion of the above matters with Mr. and Mrs. Jensen of Midland Ambulance Service, Inc., the following motion was adopted:

It was moved by Supervisor Swiercznski and seconded by Supervisor Batchellor that the limits of 1-3 hundred thousand dollars be provided by Midland Ambulance Service, Inc., naming the County of Orleans as an insured will be sufficient; (2) that the County pay to Midland Ambulance Service, Inc., the sum of \$2,333.33 as consideration for the agreement and the balance of \$28,000.00 be paid in equal installments monthly expect that for the first six months of the agreement the payments shall be made semi-monthly; (3) that the starting date shall be 9:00 a.m., October 17, 1975.

Discussion of the 1976 budget took place. Supervisor Batchellor said if you cut this budget when the departments say they are already down to the bone, what will you do about October when they run out of money?

Supervisor Paduchak said that the Finance Committee had department heads before the committee sometimes several times and had cut as much as they could out of the budget. He said there would be no purpose in Supervisors Batchellor, Kubatek and himself going to the department heads again. It was suggested that the Chairman appoint a committee to replace Supervisors Paduchak, Batchellor and Kubatek to see if any further cuts could be made with the departments of which they are committee chairman.

The meeting was called to order at 10:00 a.m. by the Chairman. The Clerk called the roll and all Supervisors were found present.

Privilege of the floor was granted to Mr. Carmen Shang, Counsel to the Commissioner of the New York State Department of Social Services. Mr. Shang had been invited to appear before the Board to clarify several questions the members had regarding Medicaid, etc.

Mr. Shang said "The Medicaid Program is a mandated program— a Federally mandated program. The Federal Government passes a so-called welfare program and the State can either participate in those programs or not. If the State chooses to participate they are entitled to Federal reimbursement if they meet all the requirements of the Federal Government. Many times, it's true in New York State that you far exceed the cost of aiding the sick, which is surprising a lot of people to the extent which it does exceed the subsistence program. There are several reasons for this. The State is setting up a Medicaid State Wide Payment System over the next two or three years to build up a computer capability Statewide on the Medicaid Program. At the present time we do not have the capability to tell whether Medicaid providers are billing correctly. We can not tell whether the recipient is receiving Medicaid in Orleans and at the same time Rochester or some place else in the State." Mr. Shang said different guidelines will be established but that it is not a State take-over it's just trying to get a handle on the Medicaid assistance thru essentially the billing and payments of it. More discussion of the Medicaid program took place between the Board and Mr. Shang.

Supervisor Paduchak said "I have some facts and figures that I would like to give to Mr. Shang so that the general public will have an idea of why it is costing us so much in certain categories. At the present time, the Commissioner has informed me we have 16 vacant beds in our Infirmary. I was on this Board at the time when that project was instigated. It was built. The State came and said you must provide some facility to take care of the indigent people. We in good faith bothered to provide a place for the indigent person. Now we find ourselves in a position where we have 35 patients in private facilities where the taxpayer is paying approximately \$35.00 a day for their keep. Mind you, we still have 16 beds vacant in our Infirmary. The State and Federal Government and the County of Orleans are putting money in percentage-wise for the operation of our Infirmary by paying the salaries and up-keep, etc. On the other hand they are paying for the 35 patients that we have in the private institutions. So, therefore, I have to answer to my constituents on the street when he asks me about the cost of the private patients being in there. The County of Orleans is paying two times for these 16 vacancies. The Federal Government is paying two times and the State government is paying two times for these vacancies. The man in the street is forced to pay all these taxes and we must have some relief. We can put these 16 people in the Infirmary and fill our institution to its capacity where we only have to pay a rate of \$22.00 per day in one category and \$11.00 in another. Any other ones in private institutions — this does not take care of the doctors and drugs and we must have sunk in another \$180,000.00 a year for these people."

Mr. Shang said "let me see if I understand this? It is a case where you have vacancies in the County Infirmary which could be filled by you by transferring patients from private nursing homes into the County Infirmary."

Mr. Nenni said "I could give you just a few more details. We have 96 skilled nursing home beds. We have our own County Home and Infirmary which consists of 96 skilled nursing home beds and 37 health related beds. Out health related beds are all filled. We have no vacant beds in that category. We have 16 vacant beds in the skilled nursing home category but we also have 35 patients in private nursing homes because of the freedom of choice of where the patient wishes to go. I know this is in the Federal regulations that a person eligible for Medicaid has their own free choice of nursing home or hospital and this is one of the reasons why we have such a great deficit here in the County and we are in a financial bind."

Mr. Shang said "it is true that there is a Federal regulation upon freedom of choice. There is a twist to it. Let us assume all of the nursing homes will meet all the medical needs of a patient. We have said in the past — at least the legal office has — I am only speaking now for the legal office of the State Department of Social Services — we have said in the past that if you have a private nursing home and a county infirmary in the Village of Albion, say, that can meet the needs of a patient, we have said that the freedom of choice notwithstanding that person can be required to go into the county infirmary unless they can show the nursing home part of the county home or whatever it is, unless they show some compelling reason why they shouldn't go there. Those

compelling reasons usually are most of the time because they are not going to get the kind of medical care they feel the infirmity doctor would have the best for them. Again, let me caution you there are a lot of factors. You will notice I mentioned the Village of Albion. That means that everything is right here. The person is now going to say the reason I want to go some place else is because I will be closer to my relatives and because the two places are right side by side. It is not a question of travel for relatives to visit or travel to the home or anything like that. In a situation I have just described, the legal office has held that there is no reason that person can't go to the County Infirmary — for in this case it would be a lower cost. Because, we have a law in the books that seems to in a case like this, seems a conflict with the freedom of choice law and that law provides that persons who are applicants have in this case medical assistance are required to use first other governmental sources or benefits that are available to them. The County nursing home in this case would be one of those governmental sources of medical care that they can go to. It is like a resource to them that they should use first before they go to the private."

Supervisor Paduchak said "now if I understand you correctly, if a person is indigent and we have to provide for his care, the only way that he would be placed in a private institution would be by extenuating circumstances, that he would be closer to his family. Could he use that as an excuse. Because of one mile travel, because of the family, that we would have to be forced to pay \$13.00 per day more for that person kept in a private nursing home."

Mr. Shang said "it is a judgmental thing. I can't give you the exact set of rules for each case. It is just judgmental."

Supervisor Paduchak — "could our Commissioner of Social Services be the one who could place in the infirmary to fill up the beds that are now vacant without any loss of Federal or State aid to us those in private nursing homes? Because let's face it, even if we put them in there, the Federal Government and State Government are going to save money and we are going to save money."

Mr. Shang — "In the first instance, the local Commissioner makes the determination. That determination is subject to review by the State or the auditors for the State and Federal Government later. But he does make it as to the correctness of that determination in the first instance."

Supervisor Paduchak — "Thank you, that's all I need to hear for today."

Mr. Shang — let me caution you — it is a judgmental thing in each particular case. That the person is going to get the medical care that he needs — all of it — that there are no other factors that justified going to a private nursing home. I have only mentioned one, there may be others. Being near relatives, some people establish an emotional reason for preferring not to be in a county home. As you know older people have this thing about anything that is called a county home or county infirmary. Just don't want to go. I am just pointing out that that is a factor to be considered."

Supervisor Paduchak — "In some instances people were going to be placed in a private institution from my area, the family has contacted me — we don't want that person to be placed in the infirmary because it is degrading to their character. It is an alms house. But we are faced with a \$180,000 cost here and if you put that two-fold that is \$360,000 that someone has to come up with, and we are hollering help."

Supervisor Batchellor — "if Mr. Nenni makes a determination that any person shall go to our Infirmary instead of a private nursing home, and we get into trouble, will your legal department back us up in this position?"

Mr. Shang — we have in the past there is no reason why we wouldn't in the future. There haven't been that many cases. I am relying on my memory and it goes back, the instances that I am recalling, go back several years, but I do recall. Any place I go, and if I am asked a question like this, and I give an answer, I have got to say that is my own opinion. When I go back to Albany I inform the Commissioner and the other people that this is the opinion that I have given, and hopefully they won't change it. But I am here answering questions from you and I am here without the benefit of my policy makers and my Commissioner."

Supervisor Paduchak — "Mr. Shang, would you, say, by the last week in November, be able to give us an opinion from your office to the Commissioner and a copy of that letter to this Board relative to what we have discussed here in our predicament, as far as beds and patients are concerned, and I think we can resolve this by the 1st of December. I think that if any transition of patients must be accomplished, I think we could do it, as of the 1st of December and take care of it on a monthly basis. Is that satisfactory to you?"

Mr. Shang — Questions like this, we will supply written answers."

Mr. Nenni — "I want to make one comment. The State Health Dept. insists that these patients who apply for Medicaid are eligible still for their choice. There seems to be a controversy. We are hearing something different from what we heard from the State Health Department."

Mr. Shang — There is no question what the law says, that a person entitled to medical assistance can decide freely where they want to get that medical assistance. There is no question about that. I am not saying that that is not what the law implies. I am just saying that our office, the legal department for the State Social Services Department, has confronted this I think in specific cases and looked at individual cases in the past and have thought that the freedom of choice provision should not be just strictly applied in every case. If there is no basis for choosing any higher cost private nursing home over modern, newly built county nursing homes that provides all the services, the same service at a lower cost, it just doesn't seem reasonable."

Supervisor Paduchak — "Theoretically, this freedom of choice could put the County of Orleans in a very precarious position, if they had that right of freedom of choice. We have the institution and if they were allowed to exercise their right of freedom of choice, we could be

operating an infirmary without any patients, theoretically if that is right, and I figure that is wrong. There is that possibility, if it was allowed to go right down to the letter of the law."

Mr. Shang — "in other places in the state we have situations where the county has felt the same way."

Mr. Shang was asked to inspect our County Infirmary before he leaves the County. Mr. Nenni said "we have good care if not better care than any private nursing home in New York State."

Mr Shang — "this is the situation we are in. Our state law requires two agencies to run the Medicaid Program. The State Dept. of Social Services has the responsibility for recipients and determination of eligibility for medicaid assistance and applications for all eligibility requirements. Whereas, the State Health Dept. is responsible for establishment and maintenance of health and medical care standards. There are two agencies that have big responsibilities."

Mr. Church — "You indicated that the Commissioner could make the determination of persons who could be moved from private nursing homes to the Infirmary. What would happen in the event the review processes and determination was made somewhere along the line and it was determined that the Commissioner was in error. Does this effect our reimbursement?"

Mr. Shang — "I believe it would. It would go back for the purpose of equalization and review, I think."

Supervisor Piedimonte — "I would like you to take a message back to your commissioner from Orleans County. Tell him that we in Orleans County can not stand and afford any more of their mandates. I am serious, tell him that they better review them over before they make any more because you are going to have to stop somewhere — we are all going to end up like New York City."

Supervisor Reed — "How many people are involved in making these mandates — 4,6,8,12"

Mr. Shang — "There are lots of them. We went through a situation with Orange County — the county was saying they could not afford to appropriate any more money for welfare for the balance of the county's fiscal year. We had a fairly easy time in court with those cases because the State law, the constitution put all those provisions efficiently, to provide public assistance and medicaid assistance to those persons entitled to it, very clear. It is very clear the County is required to have sufficiency in appropriating. The Commissioner has the responsibility in the first instance to estimate what monies are going to be needed by the county to provide public assistance and medicaid assistance for the fiscal year. If the county does not appropriate in accordance with those estimates or if the estimates are low and you come towards the end of the fiscal year, the county is required to make sufficient county appropriations. Now that is the State law at the present time and it is clear."

Supervisor Paduchak — "You say as far as the taxpayers are concerned in this county we are faced with a substantial increase in the county budget. We have probably a medium income community but the only thing is we are asking people to pay taxes, much greater than last year, and we are asking them to pay for these patients in private institutions when we could care for them in our own. We want to fill our institution and if it is allowed to continue the same as it is now we are all going to be in a financial strait."

Supervisor Swiercznski — Asked Mr. Shang about the screening program for children. The County now pays \$28.00 for an examination and could pay up to \$35.00 per day because the children under the Social Services care have to be examined once a year from the age of 1-21 years of age. We have to pick them up to take them to the examination. They have school physicals — why isn't this good enough for these people?"

Mr. Shang — "One of the reasons that comes to mind was that all of the children wouldn't be covered thru the school examination. Because under the Education Law we can't do it. Further discussion of this problem took place. It was decided that this problem should be investigated further.

Privilege of the floor was granted to Mr. Paul Acri representing the Orleans County Taxpayers Association. Mr. Acri submitted the following points for which he requested answers. 1. "We would like to know the approximate number of dollars raise per thousand in taxes. 2. We would like to know if we can stay under the Constitutional Property Tax Limit and still not have a deficit budget. 3. We would like to know if the County will have to borrow more money this year to cover other departments which exceed their budgets. 4. We would like to know, with the present state of the economy, if the budget for social services will be enough for 1976 without borrowing next fall."

Mr. Acri was informed that the tax rates have not been computed yet and no answer could be given at this time as to the increase in tax rates. We are under our constitutional tax limit but it is getting close to the limit. The Budget Officer said in answer to the 3rd question that as of now all the departments are within their budgets, we are going to transfer money from the Contingent Fund to the Community College account. In answer to the 4th question we don't anticipate having to borrow for social services in 1976 but we cannot be sure what the State may mandate in 1976. The County Attorney said the biggest amount of the money borrowed this year was on revenue anticipation notes. If the State and Federal Government paid their share on time we would not have had to borrow such a large amount. We cannot put enough in our county tax levy to cover the anticipated revenue from the State and Federal Government. Supervisor Piedimonte said the Commissioner had taken the three highest years and computed an average which hopefully will be enough to cover 1976.

Mr. Luther Burroughs showed the Board a copy of a budget from another county which he hoped the County of Orleans might follow.

November 10, 1975

Honorable Board of Supervisors  
Court House  
Albion, New York

My dear Mr. Chairman and All Members of this Board:

I wish at this time to announce that I will be retiring from office of Commissioner of Social Services for the County of Orleans at the end of this year, 1975.

It has been indeed a great pleasure and satisfaction working with you gentlemen and most appreciative for the fine cooperation and consideration given me over the years, setting aside any differences we may have had at times in no reflection of any one holding public office. With all sincerity I certainly cherish our friendship.

I would feel remised by not extending my gratitude and many thanks to our County Attorney, Ted Church and Tom Mack for their invaluable legal advice. They have both been a great asset to myself and the department.

In closing, I must say during the years connected with Social Services have been a great challenge and rewarding experience but must admit that my job became quite frustrating on many occasions but fully occupied to become bored.

Thank you all for giving me the opportunity to serve you so many years.

Most sincerely,  
Art

Chairman Reed said on behalf of the entire Board I think we should say thank you to Art, it has been a pleasure working with you.

Supervisor Swiercznski said I have worked with Art since I have been on the Board and we have had our ups' and downs' but I will say he has been a very conservative gentlemen and very conscientious. I don't know of many departments where the man goes down there in the morning at 8:00 a.m. and turns the heat up or down and I am sure he will be missed by all of us. He can laugh at us still here working when he retires.

Mr. Nenni said he had one request that he would like to be paid for the vacation he has coming this year but will not be taking during the year. The County Attorney said he would look into the legality of paying this. Several Supervisors said they thought Mr. Nenni deserved to be paid for this.

The Clerk read a letter from the County Treasurer regarding transfer of funds for Community Colleges and the following resolution was adopted:

#### **RESOLUTION URGING SUPPORT OF FEDERAL REVENUE SHARING PROGRAM**

WHEREAS, the County of Orleans, New York, has been receiving vitally needed fiscal assistance through the General Revenue Sharing Program, and

WHEREAS, these funds are received directly from the Federal Government with a minimum of restrictions and technical processing which enables the County of Orleans, New York, to use the money for locally determined priority needs thereby meeting the needs and requirements of the citizens of the County of Orleans, and

WHEREAS, the County of Orleans has utilized its entitlements under the General Revenue Sharing Program in accordance with determinations of the Orleans County Board of Supervisors and the public interest for purposes of public safety, public transportation, public libraries and general government, as shown on the attached sheet which is hereby made a part hereof, and

WHEREAS, the towns and villages within the County of Orleans have received additional amounts of Revenue Sharing Monies under the General Revenue Sharing Program of the United States and have likewise utilized its entitlements for purposes of public safety, public transportation and general government, and

WHEREAS, despite general revenue sharing, the current rate of inflation is also undermining the ability of the County Government to provide the central services within a reasonable and acceptable level of taxation, the proposed tax rate for the County of Orleans based on the tentative budget for the fiscal year 1976 will be approximately 150% increased over the 1975 tax rate, and

WHEREAS, the General Revenue Sharing Program, approved by Congress in 1973, will terminate at the end of 1976 unless the program is continued by the 94th Congress, and

WHEREAS, the termination of the General Revenue Sharing Program will force the County of Orleans to either curtail certain essential services or effect a substantial increase in the tax rate as estimated in the tentative budget for 1976, a loss of revenue under the General Revenue Sharing Program, without a reduction of necessary services would result in an increase in tax rate of approximately \$6.00 per thousand or an additional 25% increase, and

WHEREAS, the County of Orleans has an employment rate of approximately 14%, and

WHEREAS, the officials of the New York State Employment Office have anticipated no substantial decrease in said employment rate during the next twelve month period, and

WHEREAS, the County of Orleans has a limited tax base, the majority of taxpayers being farmers and owners of single family or two family residences, resulting in any tax increase being felt directly by the small property owner, small farmer and small business man within the County of Orleans, now therefore be it

RESOLVED, that the Orleans County Board of Supervisors on behalf of the citizens and taxpayers of the County of Orleans, New York, endorse the continuation of the General Revenue Sharing Program of the United States of America and request the 94th Congress to re-enact the program during its first session in order to insure that vitally needed Federal assistance will continue to be provided to the citizens of Orleans County, New York, and of the other municipalities within the County of Orleans, and be it

FURTHER RESOLVED, that the Orleans County Board of Supervisors on behalf of the citizens and taxpayers of Orleans County, New York, urge Gerald R. Ford, President of the United States, to sign such legislation upon the enactment of the same by the Congress, and be it

FURTHER RESOLVED, that certified copies of this resolution be forwarded immediately to the Hon. Gerald R. Ford, President of the United States; the Hon. Jacob K. Javits, United States Senator; Hon. James Buckley, United States Senator; Hon. John J. LaFalce, member of Congress; the National Association of Counties and the New York State Association of Counties.

It was moved by Supervisor Bane and seconded by Supervisor Batchellor that the reading of the minutes of the previous meeting be dispensed with and the same approved as prepared by the Clerk.

Carried.

Privilege of the floor was granted to Dr. Walters. Dr. Walters explained some of the problems his department would face if Orleans County goes with the Buffalo Health Planning Area:

1. The distance between Albion and Rochester versus the distance between Albion and Buffalo — this using Albion as a central point. The staff would have to split their time because some of the patients now in Rochester would still have use of their services.

2. Rochester now provides services we do not have in this community for mental health and alcoholism which Buffalo may not be able to provide for Orleans County. As of now, Dr. Walters said, he usually has no problem getting emergency care for mental health and alcoholism patients in Rochester facilities.

3. If we go westward we must realign with mental retardation centers in that area.

Supervisor Swiercznski said, "no matter which region we align with, some patients may have to be moved."

Supervisor Swiercznski suggested the matter be referred to the County CHP.

It was moved by Supervisor Batchellor, seconded by Supervisor Kubatek, and carried, that the following Dog Enumerator's bills, as presented and read by the Clerk, be allowed as claimed and that the Clerk be directed to certify same to the County Treasurer for payment.

Unanimously adopted.

#### **A CRITIQUE OF THE STATE ENVIRONMENTAL QUALITY REVIEW**

# 1 It is too verbose and wordage needs editing.

# 2 In general its statements are not positive and many of its positive statements are too generalized.

DETAIL:

##### **SECTION .00**

Mentions state agencies and local government. What state agencies and what sector of local government, these must be identified.

##### **SECTION .01**

Impact statement by what agency. Mentions minimum procedure and refers to B & C of .08. There is no C. It is alright to have more than one agency make comments on impact but one agency with proper expertise on the particular matter should govern a decision on permit. Any other procedure will mean chaos and unwarranted delay in permit issuance.

## SECTION .02

Federal participation: No comment. This will be governed by 1969 Federal Law.

## SECTION .03

Involving more than one agency? An agency with proper expertise must govern. Permittee should not have to deal with more than one agency.

## SECTION .04

Ambiguous: Action allowed before 6/1/76 should not be subject to review.

## SECTION .05

OK. Questions: who keeps impact records, where and how long?

## SECTION .06

Too vague: Positive statements needed on what agencies govern impact statement on each continued type of affected category of environment.

## SECTION .07

A definite time period is a must for decisions. Delay can be harmful to state or region economy. What provision has been made for personnel to assist the state commissioner in making some final decisions? Can local agencies make all final decisions?

## SECTION .08

This Environmental Act is mandated by State Government. Therefore state must make the decision as to what local or state agency has necessary expertise to judge each category of impact statements. Edit the present wordage and use space for delineation as to who and why.

## SECTION .09

Agency rule making. This proposes rule of commission instead of law. A prime instance of Bureaucratic instead of Legislative control. This could give a local commission or agency composed of well meaning but uninformed dogooders, domination of the economy of an area. We do not think that this would accord with the wishes of the Legislature.

## SECTION .10

Fees and costs. A standard fee for each category of impact statement is a must. The State must set the amount. Any other procedure will lead to chaos. An applicant has a right to such protection.

## APPENDAGE A

Fairly well written and gives some needed explanations.

## APPENDAGE B

There must be a mandated order of procedure, otherwise an agency can take off in any direction it chooses. This will defeat orderly procedure and could cause unnecessary delay in the granting of permits and this alone could have an adverse affect on an area economy. Because of the diversity of the environmental impact, a separate set of rules are necessary for each subject. We suggest that some of the space given to excess verbosity be given over to said rules. This Act should not be implemented until such rules are completed and published.

## APPENDIX C

Until the rules are completed and published, courts will be reluctant to penalize infringements. No Bureau or commission should be empowered to assess penaltees.

### TYPE #1

This is a good list and rules for impact statements for each should be catalogued in this section.

One exception we note is in the matter of pesticide application on more than 1500 contiguous acres needs a more precise definition. Many areas such as the mucklands of New York have a great deal more than 1500 contiguous acres devoted to a single crop that is protected by a U.S. Extension Service recommended pesticide. The Extension Service is better informed for safe use of a pesticide. More so than any commission or commissioner who probably wouldn't know the name of the pesticide or its intended use.

### TYPE #2

A good list that needs editing collecting taxes, aid to dependent children, pension requirement, loans and mortgages, borrowing and like matters are none of the Environmental Agencies DAMN business and have no place in the Review of the Act.

Edwin Weeks  
Advisor 11/12/75

Supervisor Reed suggested that provision be made for taxpayers to pay their taxes in two installments. Referred to the Equalization Committee for recommendation.

WHEREAS, the Orleans County Home and Infirmary now has skilled nursing care beds which are empty which results in an increased cost of care per patient, and

WHEREAS, skilled nursing care patients under the Medicaid provisions of the law and who are residents of the County of Orleans and whose care is being paid for by the County of Orleans Medicaid Program, such care being rendered in skilled nursing care facilities other than the Orleans County Home and Infirmary, and costing the County of Orleans, the State of New York and the United States Government twice for the same care, and

WHEREAS, the filling of the vacant skilled nursing care beds in the Orleans County Home and Infirmary would result in a tax saving to the taxpayers of the County of Orleans, and

WHEREAS, this Board of Supervisors has been informed by the New York State Department of Social Services that the Orleans County Commissioner of Social Services may in appropriate cases exercise his judgement in placing Medicaid patients needing skilled nursing home care in the Orleans County Home and Infirmary rather than other skilled nursing home facilities, now therefore be it

RESOLVED, that the Orleans County Commissioner of Social Service is hereby authorized, requested and directed to exercise his judgment in the placement of Medicaid patients needing skilled nursing home care by placing patients meeting the necessary criteria in the Orleans County Home and Infirmary to the end that skilled nursing care

beds in the Orleans County Home and Infirmary shall be fully occupied,  
and be it

**FURTHER RESOLVED**, that this resolution shall become effective on receipt of the County of Orleans Board of Supervisors of a written opinion authorizing the execution of such judgement by the Orleans County Commissioner of Social Services from the New York State Department of Social Services.

The Chairman thanked the committee for their work and said he felt that the survey would be very useful.

Privilege of the floor was granted to Mr. Charles Pulley, Director of the Community Action Program. Mr. Pulley informed the Board that CAC had been granted Federal funds for a "Winterization Program" for Orleans County residents who meet the criteria. Mr. Pulley also said that because Genesee County has no Community Action Program the Federal Government had instructed him to make application for funds for Genesee County. Mr. Pulley requested that one person be appointed as a member of the Advisory Board for the Winterization Program. Also requested was transfer of the two labor positions now under the Board of Supervisors but working under Community Action in the clean-up program, to Community Action so that they could do other work for Community Action. December 1, 1975

Honorable Board of Supervisors  
Court House  
Albion, New York 14411

Attention: Mr. Theodore Swiercznski, Chairman Social Services Committee

Gentlemen:

I respectfully request additional funds of \$170,000 for the three (3) categories of Public Assistance and Medical Assistance, Broken down as follows:

1. Home Relief — Appropriation No. 6140.4. \$10,000 of which \$5,000 being the local share.

2. Aid to Dependent Children — Appropriation No. 6109.4. \$120,000 of which \$30,000 being the local share.

3. Medical Assistance — Appropriation No. 6101.4. \$40,000, of which \$10,000 being the local share.

Total amount of local share for the three (3) categories is in the amount of \$45,000.

Respectfully yours,

Arthur Nenni  
Commissioner

Supervisor Paduchak said, "For the first time in a number of years that I have been on this Board, I would like to rise to the occasion and talk on my feet because I figure I can speak a little better and think a little better on my feet than I can sitting down. In good faith, this Board voted to increase, a request for the Social Services Department in the amount of \$900,000.00 or something in that area, because that department was in dire straits of financial help and we as Legislators of this Board figured that we should rise to the occasion and provide funds to bail them out. This we did. Yesterday, Supervisor Piedimonte and I took the occasion to go up to the Infirmary, and in a couple instances pull a couple of cases which we questioned. We want to know where does the moral obligation for some of the citizens in this county lie to the fact of self-sufficiency upon their own well being. In one case, gainfully employed by Eastman Kodak, receiving a net income of \$144.00 a week, home completely paid for with no obligations whatsoever, and Social Services was requested to give a grant of some 300 and odd dollars to pay the man's electric bill that was not paid. Where does this end? Another case, the unemployment had run out. Eventually this person came up to apply for social service for a 42 or 45 dollar grant. Where is the obligation of the individual. When I was 16 years old, my father had to go and borrow \$500.00 to pay for my operation at the Arnold Gregory Hospital. And what are we paying today to Social Services, 92 and 120-some dollars per day per patient in those institutions. Gentlemen, the Federal Government and State Government has created such a monstrous program that we can no longer fund it. We are asking for help. We can no longer fund these programs. We are going to have another case this afternoon where you are going to be dictated to, and this dictation I do not like. I am going to start my 9th two-year term on this Board and gentlemen, this is the worst situation we ever came to. It's time to call a halt. I believe to be my brother's keeper, but how much of my brother can I keep or my constituents? And if we keep up, we are forced to contribute and contribute and contribute to this cause. To some of these people who do not have the guts to provide for themselves. I figure it is time for us to say "NO" and I will vote "NO" to this resolution. Thank you, Mr. Chairman. I offer we turn it down."

Supervisor Swiercznski said, "I believe this will put us over our taxable limit."

Supervisor Reed said, "There has got to be a halt to it. When you have people riding around in Cadillac cars and drawing more money than people who are working and got to support this kind of stuff."

Supervisor Batchellor said, "I think Supervisor Paduchak showed a couple of good examples of the complaints we receive from people in our towns."

Supervisor Paduchak said, I have another example of an individual, a young man, a football player of proportions, and strong as an ox and this summer I saw that man riding around in an automobile with two 6-packs next to him and his name appears on an application for home relief. Now how can I honestly and conscientiously provide more funds for situations like this that transpire in this county and in other counties and in New York City. I think, gentlemen, we are going to be forced into the same situation as New York, right here in Orleans County if we do not take a stand sooner or later."

After further discussion the following resolution was adopted.

#### **RESOLUTION NO. 290**

By Supervisor Paduchak, who moved the adoption.

Seconded by Supervisor Swiercznski.

#### **RESOLUTION DENYING THE REQUEST FOR AN ADDITIONAL APPROPRIATION FOR THE DEPARTMENT OF SOCIAL SERVICES FOR THE YEAR 1975**

WHEREAS, the budget adopted by the Orleans County Board of Supervisors for the year 1975 contained an appropriation in the amount of \$5,021,205.74, and

WHEREAS, such appropriated amount was determined insufficient and the additional sum of \$900,000.00 was appropriated by the Orleans County Board of Supervisors for the Department of Social Services at the request of said department on September 4, 1975, which increased appropriation required the borrowing of \$900,000.00 by the County of Orleans in September, 1975, and

WHEREAS, the Orleans County Department of Social Services has now requested an additional appropriation of \$170,000.00, being the amount now determined to be needed by the County Department of Social Services for the continuation of all programs, including payroll, for the year 1975, and

WHEREAS, the Orleans County Department of Social Services now has an unexpended balance of the appropriated amount for said department the sum of \$370,877.23, and

WHEREAS, the County of Orleans is presently faced with a budget for the Social Services Department for the year 1976 approximately 20% higher than the appropriations for 1975, and

WHEREAS, the County of Orleans is approaching the constitutional tax limit allowed under the Constitution of the State of New York and has taken all steps to keep the revenues raised by taxation under such constitutional limit while still offering necessary services and therefore the County of Orleans is committed to increasing appropriations only where such increases are proven absolutely necessary in the opinion of this Board, now therefore be it

RESOLVED, that the request of the Orleans County Department of Social Services for an additional appropriation of \$170,000.00 for the year 1975 be denied and be it

FURTHER RESOLVED, that copies of this resolution be forwarded to the New York State Commissioner of Social Services; Hon. Hugh Carey, Governor of the State of New York; Congressman John LaFalce; Senator Lloyd Paterson; Assemblyman R. Stephen Hawley and the Orleans County Commissioner of Social Services.

#### **RESOLUTION MAKING SUPPLEMENTAL APPROPRIATION FOR LEGISLATIVE BOARD CONTRACTUAL EXPENSES-CONSULTANT SERVICES (1010-4) AND PROVIDING FUNDS THEREFORE, PURSUANT TO SECTIONS 363 and 365 OF THE COUNTY LAW.**

WHEREAS, the amounts required to be appropriated and expended annually for public welfare purposes by the federal, state and local governments are reaching staggering proportions; and

WHEREAS, if these expenditures continue to increase and accelerate, local governments will find it extremely difficult to finance the local share of welfare expenditures out of the limited revenue available from real property taxes; and

WHEREAS, the system for the delivery of public assistance in the United States is embodied in the Federal Social Security Act and various state laws which are, for the most part, a reflection of the system imposed by the federal government; and

WHEREAS, there is a need for an innovative and more rational approach in the system for furnishing public assistance to needy persons; and

WHEREAS, such a system should be uniform in its application throughout the United States and can only be achieved by congressional and presidential action; and

WHEREAS, notwithstanding the well known deficiencies in the public welfare system, Congress has not seen fit to develop new legislation which would repeal existing welfare legislation and enact in place thereof legislation which would establish a more rational system for the furnishing of public assistance; and

WHEREAS, it appears to the Orleans County Board of Supervisors that legislative action on the federal level may only come about if the existing welfare legislation is challenged in the federal courts; and

WHEREAS, it further appears to the Board of Supervisors that the mass of federal and state legislation dealing with public welfare may contain constitutional infirmities which should be challenged by appropriate legal action instituted in the federal court system; and

WHEREAS, that in, the Orleans County Board of Supervisors does deem it advisable and desirable to cooperate with the Orange County Legislature and other contributing county legislative bodies in the engagement of special legal counsel to inquire into the matter of the constitutionality and validity of both federal and state welfare laws and to institute appropriate legal action, together with such other county's, if such an examination indicates that such legal action is warranted; and

WHEREAS, the Board of Supervisors desires to make a supplemental appropriation to cover the expense which will be incurred for such services:

**BE IT RESOLVED AS FOLLOWS:**

1. That in addition to the amount appropriated in the current budget for Legislative Board-Contractual Expenses-Consultant Services (1010-4), the further sum of \$2,500.00 is hereby appropriated for said purpose, the funds therefor to be provided from the Contingent Fund (A1990).
2. That the Treasurer of Orleans County be authorized to make said transfer.
3. That no expenditures shall be authorized to be made from the aforesaid appropriation unless and until other county legislative bodies have adopted resolutions appropriating, in the aggregate, at least the sum of \$40,000.00 for the aforesaid purpose, and no such expenditure shall be made without further authorization of this Board.
4. That the Chairman of the Orleans County Board of Supervisors, or such other members of the Board of Supervisors as he may designate, shall be authorized to consult with the representatives of such other counties for the purpose of interviewing and selecting the attorney or attorneys to be retained to make the aforesaid inquiry into the constitutionality and validity of federal and state welfare legislation.

5. The aforesaid sum of not less than \$2,500.00 shall be expended only on the consent of this Board of Supervisors by resolution duly adopted, and after a full report on any proposals for the selection of legal counsel and the legal action anticipated shall have been made and offered in support of said resolution.

## **RESOLUTION NO. 298**

By Supervisor Swiercznski, who moved the adoption.

## **RESOLUTION PUTTING IN EFFECT A MORATORIUM ON WAGE INCREASES**

BE IT RESOLVED, that this Board of Supervisors place in effect a moratorium on wage increases beginning January 1, 1976 and ending December 31, 1976 for all county employees and officers. The county has a very high unemployment rate, 14.1%, the farmers have had a disastrous year because of the apple and grain situation and we are barely within the taxable limits in the county.

This Board realizes that there is presently a contract in effect negotiated as required by the State Taylor Law with the Civil Service Employees Association representing some of the Social Service Department employees. This contract provides for an increase in salary for the year 1976.

We would request the cooperation of the employees covered by this union in helping Orleans County reduce the tentative budget for the year 1976 by voluntarily agreeing to a suspension of any increases in base salary from this date to January 1, 1977. We make this extraordinary request only as a last resort alternative to reduction in work force.

Unanimously adopted.

Supervisor Zelazny said he had talked with Mr. Grabowski about the contract for the Dog Pound and Mr. Grabowski said he would not ask for an increase in rate because of the fiscal problems the County is having, but he would like a clause included to give ninety days notice if the agreement is to be cancelled. Supervisor Batchellor said he thought Mr. Grabowski should be commended for not increasing his rate even though costs had gone up.

#### **RESOLUTION NO. 299**

By Supervisor Zelazny, who moved the adoption.

Seconded by Supervisor Batchellor.

#### **RESOLUTION AUTHORIZING AGREEMENT BETWEEN THE COUNTY OF ORLEANS AND JOSEPH GRABOWSKI FOR THE CARE OF DOGS IN ORLEANS COUNTY**

RESOLVED, that the agreement herewith presented between the County of Orleans and Joseph Grabowski, (1) to provide all necessary equipment and appliances for the humane keeping of dogs within the County of Orleans be, and the same hereby is, approved at the monthly compensation of \$300.00, to be paid upon monthly vouchers submitted to the Board of Supervisors; (2) to provide all labor and services necessary for the care of dogs picked up by representatives, agents or employees of the County of Orleans and delivered to him for keeping, is hereby approved by this Board at the monthly compensation of \$200.00, to be paid upon presentation of monthly vouchers and that the Chairman of this Board is hereby authorized to execute said agreements in the name of the County, effective January 1, 1976 through December 31, 1976.

Unanimously adopted.

Supervisor Kemp said, "Mr. Chairman, after what has transpired here this morning in reference to Orleans County here with the financial situation that we are in due to the welfare load that we are trying to carry, I feel that this County independently should make themselves heard and known not only to the legislative body of New York State but also on a Federal level, of the very lucrative guidelines which are set up by the State that we have to follow in doling out money to the recipients of this County. It has become so lucrative that the incentive for an individual to sustain himself or herself has practically been destroyed and that this County feels that it is now time and really too late and steps should have been taken long ago, for these rules and guidelines to be tightened up so these recipients are not able to receive as much as they are at the present time. That this County is in terrible financial condition now. We cannot carry this burden any longer and if these guidelines are not going to be lowered, then it is up to the State or Federal Government to dole out some money for this County because we just cannot carry it. And this information should be sent to our state legislators and our federal legislators so that they know the situation Orleans County is in; and I think we should take this independent stand by ourselves, together with the backing which we are going to give Orange County, and I would like that in the following resolution:

#### **RESOLUTION NO. 300**

By Supervisor Kemp, who moved the adoption.

Seconded by Supervisor Zelazny

**RESOLUTION REQUESTING STATE AND FEDERAL GOVERNMENTS TO PAY FOR MANDATED PROGRAMS FOR THE SOCIAL SERVICES DEPT.**

WHEREAS, the Orleans County Board of Supervisors has been requested to increase the appropriation for services to recipients issued through the Orleans County Department of Social Services by \$1,070,000.00 over the 1975 appropriation, and

WHEREAS, the largest portion of this increase is a direct result of mandates for levels of services and care issued by the New York State Department of Social Services, the United States Department of Health, Education and Welfare, together with other State and Federal agencies, and

WHEREAS, the payment of the local share of these additional mandated costs will push the County of Orleans to the very limit of its Constitutional taxing power if such mandated programs are allowed to continue without increased State and Federal aid, and

WHEREAS, the approximate Constitutional taxing power of the County of Orleans is \$3,100,000 and that the tentative budget for the year 1976, as the same is proposed to be modified will result in a tax levy of \$2,635,00, leaving a very slight margin for such additional appropriations as may be required for various purposes during the year 1976, now therefore be it

RESOLVED, that due to the disasterous financial situation in which the County of Orleans finds itself due to State and Federal mandates in the field of social services together with other areas, that this Board request the Legislature of the State of New York, the Governor of the State of New York, the Congress of the United States and the President of the United States, together with the various agencies of the State and Federal Government, provide sufficient funds to the County of Orleans and other similar situated county's, to absorb and pay in full any increases in mandated expenses over the level of the adopted budget for the year 1975, and be it

FURTHER RESOLVED, that certified copies of this resolution be forwarded to the President of the United States, Gerald R. Ford; Senator Jacob Javits; Senator James Buckley; Congressman John LaFalce; Governor Hugh Carey; Senator Lloyd Paterson and Assemblyman Stephen Hawley.

Privilege of the floor was granted to Mrs. Carri Blake, Director of the Office for the Aging. Mrs. Blake asked if the Board could find some way to advance the sum of \$500.00 to the Office for the Aging to buy supplies to have the I.D. pictures taken of senior citizens so that they can participate in the discount program. The senior citizens do not wish the Board to pay for this program but only advance money so that the program can be started. The matter was referred to the County Attorney to check on the legal aspects of such an advance.

The Clerk read the following telegram addressed to the Chairman and dated December 8, 1975, from the State Commissioner of Social Services:

"I have been informed that Orleans County will run out of public assistance and medical assistance funds in the next few days, and thereafter will be unable to pay bills for both medical care and services and public assistance to needy, eligible persons in Orleans County. I have also been informed that the County Board of Supervisors has refused to appropriate additional funds as required by State law so that the Orleans County Department of Social Services has sufficient funds available for the provision of medical assistance and public assistance for the balance of the fiscal year to eligible persons. If this is true, I will have no alternative but to request that the State Attorney General commence immediate action against appropriate County officials. Signed — Stephen Berger, Commissioner

The Board adjourned to the Court Room because the Board room could not accomodate the crowd present. Approximately 90 persons were present in the Court Room.

Mr. Vincent Cardone, Medina, N.Y., read the following letter written by him which appeared in the Medina Daily Journal-Register, Inc.

# An Open Letter To The Editor And All County Taxpayers--

A parasitical monster - the creature of federal and state elected officials and of appointed administrative bureaucrats - THE DEPARTMENT OF PUBLIC WELFARE OF ORLEANS COUNTY - is devouring the body and blood that goes to make up Orleans County.

The time has come for the people of Orleans County to take a stand or face the consequences of potential loss of their homes and other kinds of real property that they may own.

The Orleans County tentative budget for 1976 is \$11,879,304.04. This is almost a 400 per cent increase in ten years. The amount tentatively to be raised by real property taxes for 1976 by the Orleans County Board of Supervisors is \$3,001,975.23. Last year the 1975 levy was \$1,251,909.33. This means an increase of \$1,750,065.90 in one year.

THIS IS ONLY THE BEGINNING. No one knows if this is going to be enough. Under state and federal law we as property owners must pay the Orleans County welfare costs even if they go to tens of millions of dollars in one year. This is preposterous, outrageous and

intolerable. I say the time has come for real property taxpayers of Orleans County to do what others have done:

1. File immediate protests by phone, letter, telegram to members of the Orleans County Board of Supervisors, our state and federal legislators and others at the state and federal level. (The Orleans County Board of Supervisors is meeting tomorrow - Wednesday, Dec. 10, 1975, at 10 a.m. to pass the budget.)

2. Strike by refusing to pay your taxes unless the County Board of Supervisors adopts a budget that does not exceed last year's.

3. Demand that the Board of Supervisors immediately pass a resolution directed to the State Legislature restoring to four (4) years the period of time that must elapse before the county can take over one's property for non-payment of taxes. (Note: - The Orleans County Board of Supervisors recently requested the legislature to pass a law, which it did, reducing from four (4) to three (3) years the time required before the county can take over one's property for non-payment of real property taxes.)

4. Take immediate individual and group action of every legitimate form to bring about a revision of our tax and governmental structures that are in the public interest.

Orleans County and all property holders are in serious trouble. For the owners, the situation has reached crisis proportions. Anyone who owns a home, a farm, or any other type of real property, - commercial, recreational or undeveloped land - faces the immediate fact that a large and substantial increase in real estate taxes is about to be levied on every piece of property not exempted from taxes. The tentative county budget calls for an increase of over 100 per cent from last year.

Whether people realize it or not, the power to tax is the power to destroy. Taxes can be so large as to result in a confiscation (take over) of your property by the government. As soon as the real property tax is levied, the tax assessment made against every parcel of land becomes a tax lien on the property. The tax is somewhat like someone placing a mortgage on your property - **ONLY WORSE** - because:

1. It is placed against your property without your consent;
2. Severe penalties increase the lien if you do not pay it within approximately 30 days;
3. You, as a property owner, receive only an indirect benefit from every tax dollar paid. The great bulk of it, over 50 p.c., goes to support the persons on public welfare and a considerable

amount of the remainder goes to support programs and public employees who are not needed, but who have their feet in the public trough,

4. Worst of all, the county can take title to your property if you do not pay your taxes for three (3) years.

The time has come for drastic action to be taken by the people of our Orleans County who are obligated to pay real estate taxes.

For reasons that don't make any sense to me, real property, even though mortgaged to the hilt, has to carry the burden of:

1. State, County and Town taxes;
2. Village taxes;
3. School taxes.

It is my position that the real property tax, as it affects the people of this state and particularly Orleans County, has become, and is, arbitrary and discriminatory and of questionable constitutionality. I say this even though I recognize that certain aspects of the real property law have been tested and upheld in the courts.

We can and must do something at the local level to bring taxes down to a fair and responsible level.

The Board of Supervisors is meeting at the Orleans County Courthouse to pass on the annual budget tomorrow. I suggest that we all show up there en masse to make known to the Board of Supervisors our positions and feelings regarding the county budget and the taxes they are about to impose.

VINCENT D. CARDONE

Mr. Cardone expressed the opinion that the Board should adopt a budget for 1976 no higher than the budget for 1975. He said although the Board felt they had made sufficient cuts in the proposed budget he felt that was not enough.

Mr. Cardone questioned the need for so many people in the Sheriff's Department and made a comparison between Montgomery County and Orleans County. Sheriff-Elect White explained various aspects of the Sheriff's Budget and the comparison between Montgomery County pointing out that the Jail budget for Orleans was less than that for Montgomery County.

Supervisor Paduchak in addressing the gathering said that "if I must go to jail to help lower your taxes than I will go to jail".

Budget Officer Kubatek explained the cuts which the Board intends to make in the 1976 budget and informed those present that the Board had taken a stand on the additional appropriation requested for the Department of Social Services, reading the above mentioned telegram to the Board from the State Department of Social Services. After much discussion the meeting was adjourned for lunch at 12:15 p.m.

#### AFTERNOON SESSION

Reconvened at 1:30 p.m., all Supervisors present.

The Clerk read the following letter from Stephen Heard, Administrator of the County Home and Infirmary:

December 12, 1975

Honorable Board of Supervisors:

Attention: Mr. Theodore Swiercznski, Chairman Social Services Committee

Gentlemen:

The Orleans County Home and Infirmary Survey by the Health Department was completed on November 18, 1975.

On December 12, 1975, I received their findings. I believe Mr. Reed also received this material.

The problem at hand is this. We are faced with deficiencies in the Nursing Department. The deficiency is that we do not have sufficient nursing coverage in the nursing home to cover the standard 24-hour nursing services.

To relay the deficiency that I received, this is a direct quote:

"F135 — There is no licensed Nurse on two or more evening and night shifts per week on one of the two skilled nursing units. A total of 22 shifts lacked sufficient licensed staff for the period October 12, 1975 through November 1, 1975."

What this all means is that due to days off, sick time etc., we do not have enough nurses to cover the evening shifts, and night shifts.

The law states that each shift must have nursing coverage for each nursing unit.

Due to the problem of scheduling and the present staff we are unable to meet the code.

In the letter I received from Dr. Hafner, he states this- "Please note that the condition and statutory requirement for nursing services are not met. We will not be able to recommend continuation of the Provider Agreement in the Title XVIII-XIX Programs if this deficiency is not corrected immediately."

Our agreement expires January 31, 1976. What this means is that if we do not comply we will lose our reimbursement.

I am requesting four (4) additional full time L.P.N. positions be budgeted for the year 1976 to comply with the code.

I realize we are in times of hardship, but this problem should be brought to your immediate attention.

If you have any questions, please feel free to contact me.

Sincerely yours,

Stephen T. Heard, Administrator  
Orleans County Home Infirmary

After much discussion the following resolution was adopted:

#### **RESOLUTION NO. 311**

By Supervisor Batchellor, who moved the adoption.

Seconded by Supervisor Zelazny.

#### **RESOLUTION REGARDING MANDATE OF ADDITIONAL PERSONNEL AT COUNTY HOME & INFIRMARY**

WHEREAS, the Orleans County Home and Infirmary has received the results of a survey by the New York State Department of Health made on November 18, 1975, which, among other things, lists the following deficit in staffing:

"There is no licensed Nurse on two or more evening and night shifts per week on one of the two skilled nursing units. A total of 22 shifts lacked sufficient licensed staff for the period October 12, 1975 through November 1, 1975."

and

WHEREAS, the correction of such deficiency would require an additional four full-time Licensed Practical Nurses at an expense of approximately \$27,800.00 per annum, and

WHEREAS, a letter dated December 10, 1975, from Dr. Haefner the following statement is made:

"Please note that the condition and statutory requirement for nursing services are not met. We will not be able to recommend continuation of the Provider Agreement in the Title XVIII-XIX Programs if this deficiency is not corrected immediately."

and

WHEREAS, the County of Orleans, and in particular the Department of Social Services, is undergoing extreme difficulties in arriving at a realistic budget for the year 1976 in an amount when compiled with the other County expenses will result in a real property tax levy within the Constitutional Tax Limit established by the Constitution of the State of New York, and

WHEREAS, requests have been made to the New York State Department of Social Services for clarification in regards to the transfer of patients into the Orleans County Home and Infirmary, which clarification was to be forwarded to the Board by November 30, 1975, but which the Board is now informed has been drafted but due to its "delicate" nature must be reviewed by many people and therefore no approximation of the time when such clarification will be delivered to this Board has been received, and

WHEREAS, such clarification is imperative to the Board of Supervisors adopting a balanced economically feasible budget, now therefore be it

RESOLVED, that this Board review the request of the New York State Department of Health for additional personnel keeping in mind the far reaching effects of additional state and federal mandates and projecting the same to future budgets to determine whether or not this mandate can be complied with without creating additional undue financial burdens on the taxpayers of Orleans County, and be it

FURTHER RESOLVED, that when a determination is made that a copy therefore be forwarded to Stephen T. Heard, Administrator, Orleans County Home and Infirmary; Stephen Berger, Commissioner, New York State Department of Social Services; Senator Lloyd Paterson and Assemblyman Stephen Hawley.

## RESOLUTION NO. 317

### RESOLUTION REQUIRING APPROVAL BY THIS BOARD OF ALL PAYMENTS TO THE GENESEE/FINGER LAKES REGIONAL PLANNING BOARD

RESOLVED, that before any payments can be made on County vouchers to the Genesee/Finger Lakes Regional Planning Board, they be approved by this Board of Supervisors.

Unanimously adopted.

Privilege of the floor to Mr. Stephen Heard, Administrator of the County Home and Infirmary. Mr. Heard said in compliance with the request of the Board of Supervisors he had made a comparison of the cost of hiring four full time LPN's versus hiring eight part time LPN's and the cost was as follows:

4 full time LPN's, salaries and benefits, full cost	\$39,759.66
Salaries and benefits reimbursed to County 75% — County Share	\$9,939.91

8 part-time LPN's, no benefits because they do not work the required hours to be eligible for benefits — total cost of \$29,081.52 — County share \$7,270.38. Making of saving of \$2,669.53.

6 LPN's part-time are equivalent to 3 full time positions at a cost of \$5,452.79. In other words a saving of \$4,487.12.

Mr. Heard said, "I feel to do it right, I must request 8 part-time positions. The bottom line would be six, to be able to get by. In other words, another \$1,800.00 difference between 6 and 8. County would have to spend an additional \$5,452.79. These positions would be filled effective January 1, 1976 and this will solve the problem to meet the State requirements."

Supervisor Kubatek said, "Last time you were here, correct me if I am wrong, didn't you say this was mandated by the Health Department and you didn't feel that it was necessary."

Mr. Heard: "I said this was mandated by the code and I felt at the present time if we had everybody there at the present time, we would just get by with the skin of our teeth. Now when the Health Department came in there and did a quarterly staff report, in that report there were 22 shifts that were not actually covered with enough LPN's to meet the code. Our problem is when people are unable to come to work because they are sick."

Chairman Reed said, "let's refer this to the committee to come up with an answer."

The Budget Officer, Stanley Kubatek, reported that at this time the amount of appropriations less Interfund Revenues is \$11,511,138.18. Revenues, less Interfund Transfers is \$8,922,095.61. The amount to be raised by taxation is \$2,589,042.57.

Supervisor Batchellor asked the Budget Officer to give a run down on some of the cuts which were made in the budget.

Supervisor Kubatek reported the following changes:

Social Services Administration, personal services, original request \$549,820.00 was reduced to \$473,290.40.

Public Home and Infirmary, original request of \$683,096.49 was reduced to \$647,085.00.

Social Services Program, Medicaid Assistance request of \$2,052,000.00 was cut to \$1,853,000.00.

Aid to Dependent Children original request was \$1,665,500.00 was reduced to \$1,535,000.00.

Home Relief original request of \$600,000.00 was reduced to \$500,000.00.

Total Social Services including social service programs, the original request of \$6,184,366.71 was reduced to \$5,622,055.40.

Supervisor Paduchak, said "We are hoping the State Legislature follows through on revamping the social services programs. If it doesn't, we are going to be in bad shape. This is something we can probably live with, if they do not do anything. Contrary to Mr. Nenni's advice, we feel that we all must voice our objections to the high costs of social services programs on the state and federal level to our state legislators and congressmen. It is high time that these people take some consideration of the hard times that these people have to pay to the programs for social services. Nowhere in the law is there a guarantee that a person's property will not be dispossessed by the County just for social services programs. I think this is something we must pass to our legislators that some ceiling must be placed on local taxation for social services programs, especially in the counties hit the hardest. This is needed. We would like to cut more, but in reality I cannot see how we can cut more that what we have and still not jeopardize the possibility of undue hardship ensuing. We cut this thing down to probably more than we should have but we hope that the economy stays stable and this is a livable budget.

Commissioner Nenni said, "jotting down these figures the budget officer read — our social services programs including personal services cuts is \$562,000.00 approximately. Now we are \$170,000.00 short. We will be by the end of the month. That means that \$170,000.00 is going to be paid shortly after January 1st out of the 1976 budget. Between the \$562,000 and the \$170,000 deficit we are going to be in a deficit of \$732,000.00. I am going to make another prediction here. That by September 1st, in the event the State Legislature doesn't make drastic cuts in the welfare program, we are going to be one and one-half million dollars short."

Supervisor Swiercznski said, "Mr. Nenni, I beg to differ with you, but I think this Board is going to take some things in hand. They have taken a strong measure here already. We are already in the process of going to court. We are not going to sit idly back like we have before at this point. We are going to be up to Social Services more personally. I think we are all going to be up there. We are going to be on those departments. We are going to make the people do with the very essentials. There will be no more frills given. And if we have to go to court on every item, we sure as heck will. This thing of giving — over-doing it, so that they are living better than the taxpayers. These days are over and this Board is going to take it upon itself to go up there and really put the clamp on."

Mr. Nenni — "Mr. Swiercznski, I am not doubting that you would go to court. I hope that you succeed in challenging the courts, and I hope you succeed in getting legislation thru whereby these welfare programs are cut drastically, so that we are back in operation as we were a few years ago."

Supervisor Paduchak — "we are faced with one position at the present time. We asked something from the State that was promised to us by the 3rd week in November, the 1st week in December. It isn't here. An answer which would save us 10 or 12 thousand dollars a month, but its state money, federal money or our money. We are paying for it. It didn't take them long to get a telegram down to us for not appropriating any money when we are scraping the barrel now from both the taxpayer and from our own treasury. There is just a limit of how much we can spend and I don't think we are getting the cooperation. I think they would get in there and work as hard as possible about getting us that ruling we wanted about putting these people in the Infirmary to save both state money and federal money and our money. Evidently it is just spend-spend-spend as far as the state and federal governments are concerned. Let me tell you gentlemen, and all you fellows in the same position as I am, as far as the town tax rates are concerned, there is nothing to worry about. They fluctuate anywhere from 10¢ to \$1.00 — Why? Because we aren't mandated for programs. We can run our own show. When we are in a bind, we can cut our spending, but we cannot do it here because we are dictated to and this dictation is what costs taxpayers money."

Supervisor Kemp said, "I think everything has already been covered as far as that is concerned. I think the unfortunate part of it is that if we could set our own guidelines within the county instead of having to follow the guidelines set up by the state, we could take care of our problems much better ourselves. But you have to follow the guidelines of the state. This is where the problem is. It is pretty hard to adopt an economy budget when you have to follow the guidelines of the state, when it is as lucrative for the recipients as they are at the present time."

Supervisor Zelazny, "I believe the Board went in the right direction in cutting the budget. But there is going to be a lot more to do for the Board to get after the state legislators and to keep letting them know. Really I am sort of baffled because the state wants to cut their social services, yet we are powerless to do any cutting. I think that is all we can do, keep on fighting the State Legislature and let them know how we stand."

Supervisor Kubatek said, "as Budget Officer, first, I think we are going to run into trouble with the budget we are about, I think, to adopt. I think, possibly, that we might, if we are lucky, make it thru the end of the year. However, it's going to take a lot of time on the Board and a lot of effort on the various department heads, and they are going to have to be told as we are told that we have to spend, and they are going to have to be told that they are going to have to stay within the means that we are providing for them. I think that we have got to watch it very closely and if need be, we will have to lay off people, if we run into trouble earlier this year. I cannot see running into the point where we are going to have to borrow and I agree with Mr. Nenni, I think we are going to have a problem. As a Supervisor and having a good look of working on this budget, I am more convinced now than ever before, and I was convinced before, that there is definitely a need for a full time man, whether we call him an administrator or whatever the case may be. But the time has come that we are operating in a lot of money, we have to

have somebody that various department heads are going to have to come up here to answer to daily. I think we should start considering that during the coming year. That is all I have to say. Except that, I go along with this budget only because of the fact that we are running on a deadline date. But I still say you are going to be in trouble. I hope not. I hope I am wrong."

Supervisor Plummer — "I think we are going to work like the devil so that we don't have to borrow money next fall."

Supervisor Piedimonte said, "I feel that the Board worked very hard on this budget and I feel that we have a realistic budget, and that there is no fat in this budget. And another thing, I would like to say is that when our budget officer makes the statement that we are going to be in trouble, you are taking a negative attitude in this thing to begin with, and that is the wrong outlook to have — starting the new year."

Supervisor Kubatek — "I am sorry, but that is the way it goes. That is the way I feel."

Supervisor Piedimonte — "Well that is the wrong attitude to have."

Supervisor Reed said, "Well, all I can say to you is — best wishes, and I think you are going to need them. Now if someone wants to move on this budget."

A Resolution Making Appropriations For the Conduct of the Orleans County Government for the Fiscal Year 1976.

Whereas, this Board by resolution dated December 18, 1975, has adopted a budget for the fiscal year 1976.

RESOLVED, that the several amounts specified in such budget in the column entitled, "Adopted", be and they hereby are appropriated for the objects and purposes specified, effective January 1, 1976.

STATE OF NEW YORK  
COUNTY OF ORLEANS

SS:

I, Uldine D. Jurhs, Clerk of the Board of Supervisors of the County of Orleans in the State of New York DO HEREBY CERTIFY that the foregoing resolution was duly adopted by the said Board of Supervisors at an Annual Meeting duly called and regularly held on the 18th day of December, 1975 by a two-thirds vote of all the members elected to said board.

I FURTHER CERTIFY that I have compared the foregoing copy of said resolution with the original thereof now remaining on file in my office and that the foregoing copy is a true and correct copy of said original resolution and of the whole thereof.

IN WITNESS WHEREOF, I have hereunto set my hand and the official seal of said Board of Supervisors this 18th day of December, 1975.

ULDINE D. JURHS  
Clerk, Board of Supervisors of the  
County of Orleans, N. Y.

It was moved by Supervisor Paduchak and seconded by Supervisor Kubatek that all Supervisors be authorized to attend the Supervisors' and County Legislators' Association meeting at Glen Falls, N. Y., January 18-21, 1976, at county expense.

Carried.

The Clerk read a notice of a public hearing being held by the NYS Senate Committee regarding Auto Body Repair Shops. The meeting is January 27, 1976 at 10:00 a.m., in Albany.

The Clerk read a letter dated December 16, 1975 from Carmen Shang, Acting Counsel for the NYS Department of Social Services. Mr. Shang apologized for the delay in sending the opinion on freedom of choice of providers by medicaid recipients. He said "I'm sure that you can appreciate my position and realize that a matter of this importance, which could potentially change Department policy, requires review by and comments from other persons."

#### **RESOLUTION NO. 331**

By Supervisor Paduchak, who moved the adoption.

Seconded by Supervisor Bane.

#### **RESOLUTION REQUESTING THE N. Y. S. LEGISLATURE TO MANDATE DECREASES TO WELFARE RECIPIENTS**

WHEREAS, the New York State Legislature did pass certain legislation effective July 1, 1974 mandating a 10% increase of benefits to welfare recipients; and

WHEREAS, such increase together with the many other mandated increases legislated by the New York State Legislature has created for all of the taxpayers of the State of New York an unnecessary hardship and has created an added burden to the already over-burdened people; and

WHEREAS, such mandated increases in many instances have allowed greater income to welfare recipients than **earned by many workers**; and

WHEREAS, such mandated increase has eliminated in many instances an inducement or incentive on the part of welfare recipients to find, obtain and keep employment when such benefits are equal to or greater than the amount they can earn now, therefore be it...

RESOLVED, that the Orleans County Board of Supervisors by this Resolution go on record requesting the New York State Legislature and Governor Carey to initiate the legislation necessary to reduce the mandated increases of benefits to welfare recipients by 10% and to do each and every other thing necessary to give the taxpayers of the State of New York and in particular those in the County of Orleans much needed tax relief; and, be it further

RESOLVED, that a certified copy of this Resolution be filed with Assemblyman R. Stephen Hawley, Senator Lloyd Paterson, and Governor Carey.

**RESOLUTION REQUESTING INQUIRY INTO SOCIAL SERVICE COSTS**

WHEREAS, this Board has been informed that Orleans County has the highest percentage of persons receiving public assistance during the year 1974 of any of the counties in New York State with more than a quarter of the population receiving such aid, and

WHEREAS, the cost of the administration and operation of the social service programs in the County of Orleans accounts for \$5,222,000.00, representing more than 50% of the total Orleans County budget for all departments, and

WHEREAS, to reduce the amount to be raised by real property taxes in the County of Orleans below the Constitutional Tax Limit it is necessary for the Board of Supervisors to take drastic steps including the elimination of positions and the freeze of wage increases for 1976, therefore be it

RESOLVED, that this Board request the New York State Department of Social Services and the Commissioner of Social Services to conduct an inquiry to determine the reason for the apparently unusual percentage of persons receiving public assistance within the County of Orleans and to make recommendations as to ways and means of reducing not only the number of persons receiving assistance but also reducing the total cost of the social services programs in the County of Orleans to the State of New York, the United States of America, and the County of Orleans, and be it

TO THE COUNTY HOME AND INFIRMARY.**

WHEREAS, the Orleans County Home and Infirmary has at this time, and has had for some period of time, approximately thirteen empty patient beds in the skilled nursing section of the Home and Infirmary, and

WHEREAS, the County of Orleans is required to maintain sufficient staff and facilities to care for all patients who could be housed in the skilled nursing home facility, and

WHEREAS, there are more than twenty-five patients eligible and receiving Medicaid assistance who are receiving long-term skilled nursing care in a facility outside of the Orleans County Home and Infirmary, the cost to the County of Orleans, the State of New York and the United States of America in providing care for these patients under Medicaid at these outside facilities is in excess of the cost of providing the same care in the Orleans County Home and Infirmary, and

WHEREAS, the County of Orleans has complained on various occasions to the State Department of Social Services and the various representatives thereof of the situation and requested permission to transfer patients receiving Medicaid assistance to the Orleans County Home and Infirmary and specifically were informed by Mr. Carmen Shang, Counsel to the State Commissioner of Social Services, that the local commissioner of social services has the right, under certain circumstances, to transfer patients, and was to receive a written opinion to the County of Orleans to this effect, no opinion in regards to the transfer of Medicaid patients in writing has been received from the State Department of Social Services, and

WHEREAS, the cost of the social welfare programs within the County of Orleans has reached a point where it is now an unbearable burden on the taxpayers of the County of Orleans, and

WHEREAS, this Board finds it necessary to take all possible steps to reduce the cost of the various social welfare programs within the County of Orleans, now therefore be it

RESOLVED, that effective January 1, 1976, the Orleans County Commissioner of Social Services, or the person acting in his stead, shall make arrangements to immediately fill all long-term skilled nursing home beds in the Orleans County Home and Infirmary by transferring such patients from other long-term skilled nursing home facilities or by admitting patients discharged from hospitals but needing long-term skilled nursing home care, and be it

FURTHER RESOLVED, that copies of this resolution shall be forwarded to the Orleans County Department of Social Services, the Administrator of the Orleans County Department of Social Services, the Administrator of the Orleans County Home and Infirmary, the New York State Commissioner of Social Services, Arnold Gregory Memorial Hospital, Medina Memorial Hospital and Oak Orchard Manor Nursing Home.

#### **RESOLUTION NO. 339**

By Supervisor Batchellor, who moved the adoption.

#### **RESOLUTION ADOPTING SALARY SCHEDULE FOR THE YEAR 1976**

BE IT RESOLVED, that this Board of Supervisors does adopt for the Salary Schedule for all Orleans County Officers and Employees for the year 1976 the salary schedule in effect for such officers and employees on December 31, 1975.

Unanimously adopted.

It was moved by Supervisor Paduchak and seconded by Supervisor Plummer that the agreements between the County and Sawyer Road Coalition, Inc., and First United Presbyterian Church of Medina, for rental of space for the Probation Department be approved at \$25.00 per month for each location.

Supervisor Reed asked what takes place at these places? Supervisor Paduchak said it enables the Probation Officer's to meet with their clientele. Supervisor Kubatek said, "once before when this came up and in discussion with my Town Justices, they were opposed to this they felt it made it too easy for violators of the law."

Supervisor Paduchak said he would withdraw his motion. Supervisor Plummer also withdrew his second.

It was moved by Supervisor Bane and seconded by Supervisor Kemp that we appoint Mr. Morrison as Sr. Public Health Engineer on a one year probation at a salary of \$17,000.00 per year.

Supervisor Kubatek said, "on the basis that only \$13,000 was budgeted for this position and also on the basis that there is some question in some minds whether this individual can do the job, I ask my colleague's to vote against this motion."

Supervisor Kemp said, "in view of the fact that there is a great possibility of the County losing its certification unless this position is filled, I feel that all of us should take a very close look at this to see that we do not put the County in jeopardy and it eventually will be more costly for the County than it would be to fill this position. I too dislike very, very much having to be told what we can or can not do, but it looks to me at the present time that we have no alternative and I do feel that for the good of the County we have no choice but to fill this vacancy which we have been trying to fill for the last two and one-half years. I feel we should go along with the appointment of this person."

Supervisor Reed said, "the position has been vacant for 2½ years, just what more are we going to get right now in the way of services that we have not had in the last 2½ years? I can not see what we can expect."

Supervisor Kemp, "the fact is that after this person is certified I have been told that those things that an Engineer has to sign can be acted upon much more quickly, now these things must be sent to Rochester for approval."

Supervisor Kubatek said, "here we are again faced with the edict of the State saying that we are going to fill this position or that they are going to cut our aid. I am not questioning whether this position is needed but some of us are not convinced that this is the person to fill the position."

Supervisor Piedimonte said, "I am willing to let the man prove himself, we are not signing a contract with him, we should not sign a contract with anyone to guarantee them a job where we have to keep someone we do not want."

On roll call vote the motion was defeated. 191 to 181. Supervisors Kubatek, Reed and Zelazny, voting nay.

#### **RESOLUTION NO. 340**

By Supervisor Kemp, who moved the adoption.

Seconded by Supervisor Bane.

#### **RESOLUTION AUTHORIZING TRANSFER OF CETA EMPLOYEE TO REGULAR COUNTY PAYROLL AND FILLING OF VACANT CETA POSITION**

RESOLVED, that the Sheriff be authorized to transfer Deputy Sheriff Sevor from the C.E.T.A. payroll to the regular County payroll, and be it

FURTHER RESOLVED, that the Sheriff be authorized to fill the vacant Deputy Sheriff position under the C.E.T.A. program until June 30, 1976.

Unanimously adopted.

## **RESOLUTION NO. 341**

By Supervisor Swiercznski, who moved the adoption.

Seconded by the entire Board.

### **RESOLUTION — INTENT TO PARTICIPATE IN WELFARE REFORM PROGRAM**

WHEREAS, Counties have continually, by passing resolution upon resolution, individually as well as collectively, requested the State and Federal Legislators to adopt legislation, thereby reforming the present ultra-liberal welfare program to a conservative program, a program providing only for the truly needy, but eliminating the free loaders; and

WHEREAS, the tax burden placed upon the citizenry by the present program is beyond endurance and it cannot, and it will not, be tolerated any longer; now, therefore, be it

RESOLVED, that, in order to eliminate the possibility of a New York City bankruptcy dilemma happening to Counties in the State of New York, the County of Orleans, New York, will participate in the following manner, as adopted at a meeting of Counties on December 15, 1975, not out of disobedience, but because of economic necessity:

1. Each County reexamine eligibility standards, helping only the indigent as determined by the local agency; grant public assistance to 75% and not at the present 100%, and make income allowance rules standard through all programs, eliminating different rules in each program.
2. Delete all programs imposed by the State and not mandated by the Federal Government.
3. Limit the 30 and 1/3 program to six months with a maximum of \$100 per month allowance.
4. Counties will not start any new Federal or State programs until the start of the Counties' next fiscal year.
5. Assign all able-bodied recipients of Aid to Dependent Children and Aid to Families with Dependent Children to public work relief projects.
6. A single employable person who quits his or her job intentionally, thereby reducing their earning capacity, would be entitled to no public assistance.
7. Eliminate the present "Aid to Continue" rule in fair hearings. This will do away with ineligible clients receiving money only because they asked for a fair hearing.
8. Eliminate the "cost plus" method of determining nursing home rates and eliminate retroactive adjustments. Allow \$15.00 per month for personal needs at a nursing home or infirmary, not \$28.50, as it is now, and such allowance to be used only by patient.

9. Eliminate limit on restricted grants. Many recipients cannot handle money and need controls. Let the local agency determine who needs these controls and how tightly the grant must be controlled.

10. Counties will terminate any program that loses reimbursement from the State and/or Federal Government; and be it further

RESOLVED, that, in the event the State and Federal Legislators do not take action to reform welfare to a more reasonable program, a program providing only for the truly needy, on or before April 1, 1976, the County of Orleans, along with other Counties, will adopt our own action to cut welfare costs; and it is further

RESOLVED, that the County of Orleans agrees to contribute to the expenses incurred by the proposed seven-member committee, comprised of five legislators and two social services commissioners as agreed upon at the meeting of Counties on December 15, 1975, and any legal support to defend our action in Court, in the event it becomes necessary.

Unanimously adopted.

#### **RESOLUTION NO. 342**

By Supervisor Bane, who moved the adoption.

Seconded by Supervisor Swiercznski.

#### **RESOLUTION AUTHORIZING PAYMENT OF CLAIMS AGAINST THE COUNTY**

WHEREAS, the Auditing Committee has audited and allowed Claims No. 6927 to No. 7137, inclusive, aggregating \$46,160.31, and Claims No. 713-718, inclusive, (Road Fund), aggregating \$5,980.43, and No. 1303-1327, inclusive, (Machinery Fund), aggregating \$4,383.67, now therefore be it

RESOLVED, that unanimous consent be granted to pay these claims and the Clerk and Highway Superintendent be directed to draw demand orders on the County Treasurer in payment of said claims.

Unanimously adopted.

Supervisor Paduchak said, Mr. Chairman, on behalf of this Board I would wish you a happy retirement and probably sometimes we did not see eye to eye on everything but it has been a pleasure to work with you."

Supervisor Reed responded, "It has been just as much a pleasure for me to work with you. I have enjoyed it and I certainly wish each of you all the success in the world in the coming year."

Adjourned at 12:20 p.m.

Sine die.

ANNUAL REPORT  
ORLEANS COUNTY PROBATION DEPARTMENT

January 1, 1975 - December 31, 1975

DEDICATION

David O. Hagerman

October 2, 1919 to August 16, 1975  
Probation Officer - October 18, 1965 to August 16, 1975

We, of the Orleans County Probation Department, do hereby dedicate our 1975 work and the Annual Report to David O. Hagerman, Probation Officer II, Probation Officer, career Army veteran of two wars, star football player, but most of all a human being of immense energy. Dave both worked and played hard, with vitality, skill, and a sense of perfection that stimulated all his spiritual beneficiaries -- we, his co-workers, his clients, other workers in the criminal justice and social work fields, his wife and children, and all of the persons he so dynamically, yet tenderly, touched.

As great a probation officer as Dave was, he was even a greater father and his wonderful children are a living tribute to his goodness. His wife Phyllis was a beautiful match for his drive and generosity.

We miss Dave: he provided the warmth of two friends, in addition to doing the work of two people. He kept us on an even keel, helping us through his energy to do the improbable, but through his sense of humor not to grieve the impossible.

Dave will continue to inspire all of us, the legacy of ten years work a constant reminder of the gratitude we owe and anxiously accord this "bigger than life" man.

\* \* \* \* \*

Death dealt hard with us this year in a combined personal and professional way. In addition to Dave, we lost Ann Nevin's husband Bill, a devoted and effective Medina policeman; our friend in Family and County Court, Mildred Penty; the State Director of Probation to whom I'd grown personally close through my work on the Probation Commission, Walter Dunbar, and my father, Eugene F. Golden, an Elmira, New York policeman for 32 years and Chief there 13 years. We miss them all, but feel confident in our belief that they still help and guide us from above.

Respectfully submitted,

*Robert F. Golden*

## DEFINITION OF PROBATION

"Probation is a community based governmental agency primarily established to protect society by aiding, through utilization of social work principles, individuals and their families who are involved or are about to be involved in the Juvenile or Criminal Justice System."<sup>1</sup> Accordingly, our service endeavors to provide opportunity for our client to realize increased self-determination in meeting his needs and those of his family, friends, and society.<sup>2</sup>

INTAKE - Through INTAKE (the "sifting" and "screening" process), where possible and prudent, cases are adjusted by treatment without Court action. Otherwise, they are referred to Court. This process is used principally in the handling of children's cases, young offenders, marital problems, and offenses and crimes arising out of domestic difficulties.

Probation Officers, through intake counseling, give advice and enlist the cooperation of spouses, parents, school authorities, police, and private citizens and community resources, in an effort to adjust cases without Court action where such adjustment seems in the best interest of all concerned. It is helpful in re-uniting families, conciliating spouses, assisting in settling family and neighborhood quarrels and minor criminal matters.

Through a Federal project we extended the Intake process to Justice Courts beginning 9/15/75.

### INVESTIGATION

The investigation attempts to examine and evaluate the defendant's exact role in and his attitude before, during and after the crime; any past record; his social history including the emotional and economic atmosphere of his home, his relationships with parents, brothers and sisters, his school adjustment, achievement in comparison to ability, relationship with teachers and fellow students, work and military experiences, habits and leisure-time activities, religious contacts, etc. All this is to help the Judge have a factual picture and an emotional grasp of the human before him so that he can sentence in a manner best suited to the protection of society, the rehabilitation of the defendant and to deter others from committing crime.

The Pre-sentence Investigation then is used by Probation Departments, Correction Institutions, Child Welfare, or Mental Health Clinics as the keystone for planning social casework with the client. If, for instance, a person is placed on probation and transferred to another probation department, the investigation is sent to the receiving department so they can develop a comprehensive plan in dealing with the defendant. If he then violates and is sent to an institution, the investigation accompanies him to the institution, so the institution can deal with him in a significant fashion including educational and vocational training. Then, when he is released on parole, the parole department uses the investigation in their planning for the defendant. Investigations done in 1975 were as follows:

There has been a 32% increase in the number of investigations in 1975 as opposed to 1974. Thus, this year we have had an average of 19 investigations per month as opposed to 14 per month in 1974 with the same number of staff to do them.

### SUPERVISION

Through understanding, concern and discipline, and through an assortment of treatment methods concentrating on assisting the client to draw upon his own resources and those of

## Supervision ---

the community, the Probation Officer helps the client avoid further criminal activity and, when applicable, to realize greater personal potential, enhancing his self-esteem and his becoming a more productive person and member of his community.

The Method of supervision includes devising a plan of treatment tailored to each individual probationer based on review and evaluation of the pre-sentence investigation. Running records are kept on each probationer containing factual data as to the probationer's performance, as well as an evaluation of his behavior and attitudes, and in the process of recording each case in this fashion, the plan of treatment is continually being updated to meet changing circumstances and needs.

The Success of Supervision:

Of the 285 Probationers we've supervised this year 12 committed additional crimes = 4.2%.

Another 14 - violated by absconding or not reporting = 4.9%.

Therefore:

- 90.9% of our clients over the last year cooperated with Probation and the Court.
- 95.8% stayed out of criminal difficulty.

#### Supervision/Welfare Caseload

At one of this department's meetings with the Board of Supervisors respecting budget, one of the supervisors suggested that probably most of our caseload of convicted criminals was also on welfare, a perception I would suspect might be shared as well by the general public.

We decided to canvas the supervision caseload and came up with the following figures:

of 201 Probation Cases --

Supported by working parents or spouse	41	20.2%

#### SUPPORT BUREAU

Support Bureaus are created in each County by the Family Court Act to receive and disburse funds pursuant to any Court Order of the Court. The Orleans County Probation Department handles this function. Money is received from Respondents in Family Court Support cases and also on occasion, from Supreme Court cases, and in fines and restitutions in Criminal Court cases. Records are kept of all transactions and money is disbursed by the Support Bureau according to Court Orders. In 1975 over \$278,466.57 was received by the Support Bureau in 8,530 individual transactions from an average caseload of 362 active Support cases. In certain instances money is disbursed directly to the Orleans County Department of Social Services as recovery to assistance applied to the Dependents. In many other instances the support provided to Dependents reduces the amount of public assistance which the County must provide.

The Support Bureau is composed of a bookkeeper, who keeps the records and handles receiving and disbursement of all money and a Support Bureau Clerk, who handles calls of complaint or explanation in the average 362 cases, does personal interviews in Albion, Medina and Holley with both Respondents as to their ability to support and with Petitioners as to their needs, makes contacts with employers, types letters, gathers information from Petitioners for Petitions and composes the Petitions, and does other duties generally relating to the functions of the Support Bureau. A Probation Officer has general supervision over the operations of the Support Bureau and is responsible for initiating Court proceedings if a Support Order is not being followed. Another purpose of having a Probation Officer in that position is to provide availability of counseling in problems of visitation, which frequently occur, and to provide assistance to individuals involved in a complex and emotionally exhausting problem associated with marital

## Support Bureau ---

## break-up.

A large number of changes have been made in the Support Bureau to provide for better monitoring of support payments, a system for receiving telephone complaints during specified hours so that Support Bureau personnel can be more organized in their work schedules, and greatly improved communication with the Orleans County Department of Social Services to reduce the possibilities of fraud and misunderstandings and to insure that there will be active efforts at collection in all Welfare cases. The present staff setup of the Support Bureau, and especially the highly efficient work of Mrs. Anna Barnard, the Support Bureau Clerk, has allowed more frequent contact by letter and phone with various Respondents and this has had tendency to keep cases more up-to-date, or to return them to Family Court for proper review while the issues involved were fairly clear. Total Support Bureau collections have increased by approximately 17.5% over the previous year.

The services of the Orleans County Support Bureau are free. Family Court provides a method of determining support disputes without charge to the Petitioner and Respondent and the making of payments through the Support Bureau has the effect of limiting contact between Petitioner and Respondent where emotions tend to be very high, and also provide accurate records which also tends to lessen potential areas of support dispute between Petitioners and Respondents.

While the law provides for stiff penalties (up to six months in jail) for "wilful" violations of support orders, it is frequently difficult to enforce support against "deserting fathers" who have neither steady employment or residence and who are willing to move from place to place in order to avoid their support obligations. The problem becomes even more complex when the Respondent is in another state and the Petitioner must rely upon the facilities in another state to enforce a support obligation. The large number of "deserting fathers" throughout the country makes it impossible for police agencies to trace such persons and frequently the Petitioner (wife or former wife) is the most effective source of information as to a father's whereabouts. Even so, the successful obtaining of support for children depends mostly on the good will or sense of responsibility of the father and to obtain such "good will" depends considerably on the concern and tact of the persons in the Support Bureau.

RUNAWAY FATHERS

Much has been made recently of "runaway fathers". Federal Government instituted what's known as the IV-D program, which is a special effort to get fathers to support children and allows for a "bounty" to be paid to ex-spouses and spouses who are on welfare for whatever support can be obtained from the father of the children. The program anticipates that with the "bounty" the wives and ex-wives will help the agencies locate fathers and obtain sufficient data in order to collect support. Also, the January 25 issue of Parade magazine had a lengthy article on the Massachusetts Child Support Enforcement Unit, which the Federal Department of Health, Education, and Welfare has rated as "one of the best in the nation, particularly in its vigorous efforts to locate absent parents and enforcing support through the courts."

Last year they collected \$21,000,000 from 22,000 parents. They have a state-wide staff of 81 caseworkers and 39 social service technicians; the number of administrators and clerical staff and cost of administration and computer service is not mentioned.

How does this compare with Orleans County?

	<u>Money Collected</u>	<u>Number of Clients</u>	<u>Amount Collected Per Client</u>

In 1975 we collected support on behalf of Department of Social Services clients, which either reduced the County's Welfare expenditures or directly reimbursed Social Services as follows:

Reimbursement to Orleans County	
Department of Social Services	\$ 61,906.48
Reimbursement to other Department of	
Social Services Departments	5,441.00
Paid directly to Petitioner on Welfare	38,662.00

---

TOTAL COLLECTED ON DSS CLIENTS      \$105,903.48

As can be seen the financially "depressed" County of Orleans compares not badly with the nationally-applauded Massachusetts Child Support Enforcement Unit. With the amount collected per client in cases involving Welfare, we came particularly close.

Further, I would suspect that our performance was at considerably less cost than the Massachusetts agency. On a relative basis we use less staff persons; further note that we involve only one-third professional caseworkers that Massachusetts does and depend more on the work of a technician, which is a further savings in salary costs.

Further, because the Support Bureau is part of a larger department, that is, Probation, and because we are nevertheless small which cuts down on intra-office communication costs and the necessity for people at the top of the organizational chart, I would guess that our administration, clerical, and bookkeeping costs are considerably less on a per-client basis as well.

#### IV-D and "Bounty" System:

If Orleans County is an example, the new IV-D program which, according to John Svahn, Administrator of the Federal Social and Rehabilitation Service, "can save the taxpayers \$1.2 billion a year," instead, in bureaucratic red tape, new regulations, and the "bounty" system more likely will cost the taxpayers \$1.2 billion.

### The "Bounty" System

In Orleans County the impact of the "bounty system", thus far, has been to pay wives or ex-wives the \$20 per month "bounty" for clients who have paid their support regularly without "hassle" anyway. Thus it hasn't increased the amount of support paid or increased the reimbursement to the taxpayers for Welfare expenditures. Instead, it has cost us all by paying out the "bounty" in cases where no "bounty" was necessary.

In fairness certainly the "bounty" system hasn't been given sufficient time to show measurable effects, but the fact of the matter is that the majority of support cases pay as a result of the Court Order and the pressures which can be applied by a reasonably diligent support bureau and the Court. Therefore, I question whether the "bounty" system is going to be worth what it directly costs let alone the bureaucracy required to administer it.

## PROGRAM INNOVATIONS

### I. INTAKE-OUTREACH PROGRAM - FINAL EVALUATION

#### A. Success of Program

The intention of this program was to increase Intake contact with persons who would come here as part of the seasonal businesses, that is, farming and canning factories, commonly called migrants, and the settled groups comprising generally Blacks, West Virginians, and Puerto Ricans. In 1972, these groups constituted a disproportionate amount of our supervision and investigation work, 33% and 34%, and yet, only 15% of our Intake work. Further, when they did use Intake, a process by which problems can be solved informally rather than with Court action (particularly useful in family matters, one of the most active aspects of police and Court work), their situation had so seriously deteriorated (for instance, assaults had become so serious that possible serious injury or fatality existed, or lack of control over children had been so long lasting that informal efforts to bolster the parents' supervision was impractical), we decided to try to get these groups to use us more often and sooner at the Intake level.

We frankly feel we have been successful. There are many variables which make figures subject to different interpretations but nevertheless, there is no doubt that over the past 18 months of the program, there was a considerable percentage reduction in our contact with the target clientele at the formal level. We further feel we have made inroads into these communities, toward encouraging them to use the legitimate agencies of the County rather than taking matters into their own hands in a criminal fashion, and there was a considerable increase in the percentage they constitute of Intake work as shown in the Final Evaluation:

## FINAL EVALUATION

- I. & II. The project has increased probation services, particularly intake, for migrants, has increased the migrant's use of community resources and we believe has improved services, as demonstrated and suggested by the following figures:

A. Number of Target Clientele Served at:	1972	3/1/74 - 2/28/75*
	Migrants/All Clients = Percentage	Migrants/All Clients = Percentage
1. All Migrants		
a. Intake	57/384 = 14.8%	181/445 = 40.7%
b. Investigation	50/140 = 35.7%	48/169 = 28.4%
c. Supervision	62/192 = 32.3%	59/228 = 25.9%
d. TOTAL MIGRANTS	169	288
2. Black Migrants		
a. Intake	38/384 = 9.9%	122/445 = 27.4%
b. Investigation	33/140 = 23.6%	35/169 = 20.7%
c. Supervision	38/192 = 19.8%	41/228 = 17.9%
3. West Virginian Migrants		
a. Intake	13/384 = 3.4%	49/445 = 11.0%
b. Investigation	14/140 = 10.0%	9/169 = 5.3%
c. Supervision	20/192 = 10.4%	16/228 = 7.0%
4. Puerto Ricans and American Indian		
a. Intake	2/384 = .5%	10/445 = 2.2%
b. Investigation	3/140 = 2.1%	4/169 = 2.4%
c. Supervision	4/192 = 2.0%	2/228 = .9%

Observations: These statistics indicate one of the major elements of the overall goal of the project has been accomplished; whereas we tripled our contact with migrants at the Intake level, we slightly reduced numerically our contact with them at the formal investigation and supervision levels. On a percentage basis we reduced our contact with them at these two formal levels even more significantly.

Breaking it down as to each cultural grouping reflects the same trend.

B. Target Clientele referred to Community Agencies	1972		3/1/74 - 2/28/75	
	Number	Percentage	Number	Percentage
a. Intake	25	44.0%	109	60.2%
b. Investigation	2	4.0%	29	60.4%
c. Supervision	16	25.8%	37	62.7%
TOTAL	43	25.4%	175	60.8%

Observations: We quadrupled the number of target clientele that we referred to community agencies and more than doubled referral frequency percentagewise

As shown by the percentages, we were already making fairly good use of the community resources at the Intake level, but where we considerably increased our use of community agencies was at investigation and supervision.

The increase from 4% to 60.4% at the investigation level reflects that this project made a special effort at developing what we describe as "enriched probation," whereby, through the use of community agencies, we substitute for the traditional resources that have been considered in deciding that a person would be a "good probation risk," that is, solid family backing, strong employment and economic situation, either good education or active use of educational opportunities. Therefore, where migrants in particular would have been institutionally discriminated against because they would be most apt to lack in these traditional resources, we attempted to substitute for these lacks through the use of community resources and through greatly increased contact and support on our own part.

We recommended probation in 27 of 42 target clientele investigations or 64.2% March, 1974 through February, 1975 as opposed to 19 of 46 cases, or 41.3% in 1972, which indicates our greater reliance on probation as a recommendation and also our use of community agencies, as a substitute for traditional resources.

Further, there were 175 cases referred to community agencies that were referred a total of 401 times or slightly over an average of two agencies per case.

FINAL EVALUATION

With respect to the criteria that we developed for calling a contact a referral contact as opposed to an information-gathering contact, we considered referral contacts as follows:

1. initial contacts made to involve another agency in our case;
2. consultant-type contacts for mutual planning with an agency on a case; and
3. follow-up contacts for purpose of coordinating ours and other agencies activities.

Comparing the number of 401 case-referrals made with the 1444 contacts it can be seen that 3.6 referral agencies were made per referral.

FINAL EVALUATION

Further the total number of case contacts and the considerable number of personal contacts made in addition to the number of contacts made out in the community are testimony to the efforts of the four project staff members and the considerable work they put into their jobs and into reaching out to the migrants.

3. Puerto Ricans and American Indians	9/256 = 3.5%		7/393 = 1.8%

Observations: These figures show that the total number of migrants arrested and jailed has nearly doubled, since 1972; although in comparison with total arrests and jailings in the county they've dropped considerably from constituting 46.2% of arrests to 38.5%.

Undersheriff Donald White explains that 1972 was the first year that the new jail was in use and when they moved in from Niagara County Jail, January 1972, they had only six inmates, by far the least they've had in several years. Further, the County Judge and Town Justices were

more reluctant to incarcerate when the county had to pay the extra cost of housing them in Niagara County Jail, while the new Orleans County Jail was under construction. (This certainly suggests the need for a Release on Recognizance program, a suggestion to which Undersheriff White agrees and offers his cooperation.)

Further, Undersheriff White points out that there is not only a greater use of the jail since we do have the facilities and the capacity, but further there has been considerable increase in police personnel throughout the county and in the sheriff's department and they are simply making more arrests.

With respect to E. whereas there was a small numerical increase in migrants who appeared in the County and Family Court, the increase was only approximately 10% in comparison with the total number of persons who appeared in those two courts increasing over 35% and the target clientele's appearances in County and Family Court reduced from 28.9% in 1972 to 20.1% March 1974-February 1975. A fact that considerably affected the use of Courts generally in the county, particularly County and Family Courts, was a change of Judgeships. The police agencies, the District Attorney's office, and schools were frankly very reluctant to take juvenile delinquency and PINS matters into Family Court and felony matters into County Court, because of the Judge presiding at the time -- he made prosecution a very complicated and traumatic affair. At that time, our thrust at Intake involved encouraging the police agencies and the schools, and making it as easy as possible for them to bring to Court matters that really required the court's attention rather than allowing serious matters simply "to ride." With the legislative change requiring the District Attorney to be involved in Justice Courts, many matters were handled at the Justice Court level, which could have been felony cases.

Now, with the change in Judgeships, particularly at the Family Court level, these same agencies

are very anxious to go to Court and our thrust has had to go in the opposite direction. Now, we are encouraging the schools and police not to be so quick to go to Court.

Beyond this, of course, there are two other conditioning factors. One very generalized is that there has been a considerable increase in arrests on a nationwide basis.

Also, there are two other less commonly seen factors. We are putting much more concentration on the use of police and law in our society in terms of solving problems and consequently the police have been reinforced by increases in staff and salaries, to make more arrests. Secondly, this is a trend we have particularly encouraged in our target clientele."

As expressed, in our evaluation draft, we hoped to encourage our target clientele's use of the police and courts to settle their problems rather than retaliating in a criminal fashion. This can be seen by the number of instances (See C) in which we referred target clientele to the police and used the police as a resource; also by the increase in the amount that we used Court as a referral resource. Thus, we have probably somewhat contributed to their increased contact with both the police and courts. Supporting this, the black outreach worker feels that the people from his culture are much more willing to call police and do seem to be getting some cooperation from the police agencies now, and getting help with their family offense, assault, and theft problems.

Thus we felt that the Intake-Outreach Project made its services particularly available to the "migrant clientele" who have in the past been reluctant to use these services. As a result, we increased our contact with them at the Intake counseling level 350% and further, have been able to assist these clients at an earlier and more workable stage with their marital problems and their problems with their children. Consequently we successfully encouraged the County to seek and the New York State Division of Criminal Justice Services to grant an extension of this project. We consequently retained the specialized staff who have made such strides in this area and broadened the project as follows:

- (1) Expanded the present project to include not only those persons who have migrated to Orleans County as part of the farming industry, but the rural poor generally in Orleans County.
- (2) The addition of the following project components
  - a. Release On Recognizance and Release Under Supervision - Release on Recognizance (ROR) - staff persons interview new County Jail inmates, assessing potential for safe release into the community pending disposition of the case.

Release Under Supervision (RUS) - the offender is permitted to return to the community under certain conditions and under the supervision of the project staff.

We have just begun these programs, delaying them until we got the Diversion Program well underway so as not to confuse the concepts.

Thus far in 1975 we've done five ROR investigations. Two had other outstanding warrants, one was bailed out, one was sentenced, and the fifth case we recommended against release. We've yet to receive any RUS cases.

- b. Intake/Diversion Program for the Local Courts - Project screens, evaluates, and provides intensive adjustment counseling to offenders meeting diversion criteria in lieu of Court proceedings and dispositions. There is extensive use of community resources. The recommendations of LEAA's A Guide to Improved Handling of Misdemeanor Offenders, were utilized. This concept has been further endorsed by the President's Task Force on Prisoner Rehabilitation, "The Criminal Offender, What Should Be Done?" and "The Challenge of Crime in Free Society" report.

Because the New York State Division of Probation had successfully set up a Justice Court Diversion Program in conjunction with their Schenectady project, and subsequently employed the Director of the project and part of his staff as the New York State Probation Testing and Implementation Team, we invited the Testing and Implementation Team to assist us in setting up our Justice Court Diversion Program.

Through their assistance, Diversion has gone quite smoothly. Supervisor Ann Nevin and PTIT representative, Raymond Chaires, personally met with small groups of justices, the president of the Bar Association, the District Attorney, and Public Defender, Sheriff's Department, and other police agencies, frequently during the even-

ings and generally gained their confidence and support in the Diversion program. Further the department made presentations to the Orleans County Bar Association and the Justices Association. From September 16 through December 20 of 22 cases referred to us we recommended that 16 be accepted into our program and the Court did so order, meaning six were referred back to Court for prosecution. At the end of 1975 one of the 16 cases was referred back to Court for prosecution; three cases were deemed successful and recommended for dismissal; 12 remained under counseling. None of these 16 persons got into further criminal difficulty.

- c. County Agencies' Aide Training Program - through the consultation of Dr. Judith Albino, Director of Motivational and Behavioral Sciences, State University of New York at Buffalo, Orleans Probation will coordinate a training program for Probation and other County agencies' staffs toward understanding and dealing with the rural poor. There is considerable interest for such a program among community agencies, including Social Services, Public Health, Mental Health, and County Extension.
- d. Rural Poor Alcoholic/Outreach Program - Alcoholic Anonymous and other alcoholism programs are generally acknowledged to have been principally middle-class oriented with the poor and even more particularly the rural poor making little use of such services.

Further, in an Orleans County study, a Genesee-Finger Lakes Regional Planning Study, and Volume II of the Violence Commission Report, under Dr. Milton Eisenhower, alcohol is demonstrated to be a catalytic agent in many crimes and severe family problems.

Through a teamwork approach through the Alcoholic Unit of the Orleans County Mental Health Clinic, Project provided intensive outreach services to the rural poor alcoholic in Orleans County beginning July, 1975.

## 2. BRANCH OFFICES

The Probation Department continued to use the Youth Move Office in the Village Hall, Medina, New York, Monday and Wednesday afternoons where six officers, two outreach workers and volunteers take reports. We rent at \$60 per month from the Village of Medina.

We owe thanks to the First Methodist Church in Lyndonville, and Rev. Ray Hazlett, who allow us to use their church offices each Wednesday for a couple of hours to take reports in Lyndonville.

The Eastern Orleans Community Center in Holley has for the past three years allowed us to use their facilities to take reports and so we thank them and their director, Jim Scharping.

Since July, 1975 we've been taking reports at Cariken Manor Breakfast Facility Thursday afternoons and we thank the Sawyer Road Coalition, Inc. for their hospitality.

\* \* \* \* \*

We feel that this decentralization of service and yet centralization of administration and staff communication capabilities has been very effective in terms of encouraging people to use our Intake service with the hopes of avoiding serious criminal difficulty; and secondly, with respect to doing Pre-Sentence Investigations and supervising younger persons on Probation, who, because of the various locations in which we take reports, can not excuse themselves due to transportation problems and have to fully accept the responsibility for making their Probation reports rather than depending upon relatives or friends to get them there.

Thus, the number of places in which we are willing to take reports and are able to do so due to the arrangements we have made and the generosity of the churches mentioned and the Orleans Community Center, there are very few of our clients who can't walk to one of the reporting centers, even if that walk be two or three miles in length.

## 3. USE OF INTERN VOLUNTEERS AND CITIZEN VOLUNTEERS

During this past year we have had eight intern volunteers on staff, which adds another dimension to our work and gives us the capability to give more intense attention to cases at no added expense to the County. Further it gives public-spirited citizens an outlet for their generosity. Four of the interns were seniors in social work at SUNY Brockport; one was a senior in sociology at Brockport; two were sophomores in Human Services at Genesee Community College, and one was a senior in sociology from Roberts Wesleyan College.

The social work seniors from SUNY Brockport put in two full days per week, working on a teamwork basis with probation officers on supervision and intake cases and pre-sentence investigations. The senior in sociology from SUNY Brockport worked full time for two months during the summer and also worked full time afternoons for three weeks in August doing all aspects of Probation work, also on a teamwork basis with the probation officers. The senior from Roberts Wesleyan did a research project on recidivists' characteristics, which showed no significant results.

The enthusiasm and fresh ideas of the student interns are beneficial not only to the clients but also to the Probation Department staff having a positive effect on helping the staff keep things in perspective. A vote of thanks is also owed to Robert O. Monaghan who has supervised three different probationers throughout the year, spending every Wednesday afternoon with us. Since several probation officers are taking reports in Medina Wednesday afternoons, it's an ideal time to have volunteers in the main office. In addition, Bob has done initial interviews for pre-sentence investigations and for persons placed on Probation. This is particularly valuable to us because of the occasionally heavy County Court arraignment and sentencing days. It provides us with the opportunity to have immediate contact following either plea or sentence. In addition, on a one-to-one counselling basis we used ten additional citizen volunteers, who were able to fulfill the particular needs of ten of our clients.

We developed an orientation packet for volunteers as well as an orientation format that can be used by new probation officers, outreach workers, and volunteers.

We continue to recruit volunteers and have an orientation program scheduled for February.

#### 4. SEMINARS AND TRAINING

Michael E. Dreyfus, Probation Officer II and office training coordinator, attended a three-day workshop on Training at the Probation Training Academy, carrying with him many ideas including the orientation format for training we had developed. The format also involved a check-off list of all steps and areas covered in the orientation which would become part of each new probation officer's and volunteer's personnel folder. This Orleans County format was adopted by the State and has become the State form distributed to all other county departments.

At a three-day Spring seminar on developing the State manual for probation officers, Director Robert E. Golden participated generally in developing the chapter on supervision and specifically recommended a change in the method of assessing the workload of each probation officer; this change was adopted. Further major changes were made through the insistence of Golden, John Bongiovanni, Administrator of the Buffalo Division Office, and Richard Nels, Director of Oswego County Probation in the chapter on Intake. Also Golden and Bongiovanni were invited to write an alternative chapter highlighting their concerns. Ann Nevin, Project Supervisor, in Orleans County Probation, Bongiovanni, and Golden did collaborate on a new chapter on Intake which has been submitted to the main division office in Albany for consideration.

New probation officers Kathleen W. Dreyfus and Jeannette Riley attended the required 70-hour, two-week Introduction to Probation session at the Probation Academy.

Stephen C. Didas attended a 35-hour (one week) training session in Group Counselling.

In a joint training session given in the conference room at the Hunt Building, Albion, three of our officers -- Ann Nevin, Michael Dreyfus, and Kathleen Dreyfus -- participated in a

social work training course presented by Dr. Marion Wijnberg of the School of Social Work, University of Buffalo. The course was presented one day per week for two hours for 13 weeks. The course was approved for credit by the New York State Division of Probation.

Stephen C. Didas graduated in June from Niagara University with his Masters Degree in Guidance Counselling. Steve's additional training has been of benefit not only to his clients, but to the rest of the department.

#### 5. RELATIONSHIPS WITH OTHER AGENCIES

Through the alcoholism outreach program we were involved particularly with two new services. (1) We've received referrals from both hospitals and have used them as a resource for clients who are patients there. The hospital social workers at both Albion and Medina hospitals have cooperated with us in this program (see also Alcoholism Outreach, page 21). (2) With our change in perspective as to the needs of rural poor alcoholics the Mental Health Clinic and Ralph Buongiorno have developed for our clients a mandatory AA-type session with our being allowed to force our probationers' attendance at such classes. As a result of having this class we have reached persons who we never have been able to reach before with respect to their problem drinking. The fact that these people have been in the Mental Health Clinic class has forced them to at least recognize their drinking problem and in the majority of cases have dealt with it in rather drastic measures. Several have quit drinking completely after a long-standing habit and several have from this class gone into in-patient care, and are making a genuine attempt to deal with their drinking problem.

The alcohol problems in criminal-justice agencies is a critical area as alcoholic abuse is frequently involved, particularly in violent crimes. We see this new approach by the Mental Health Clinic and our department as particularly critical not only to the alcoholic, but also to the safety of the community.

Another agency that we've developed close contact with, once again through our joint efforts with the Mental Health Clinic, is the J. L. Norris Clinic in Rochester (a section of the State Hospital designed to deal exclusively with alcoholics). Since September of 1975 three of our clients have agreed to in-patient treatment (approximately a month in duration at the J. L. Norris Clinic). In addition, we had two of our clients with alcohol abuse problems enter the Buffalo Veterans Administration Hospital for in-patient treatment.

During 1975 Probation was the third highest referral source for Child Abuse complaints to Albany. The local Child Protective Unit, who ultimately has the responsibility for investigating these matters, has recently advised us that they have been pleased with our referrals and feel they have been appropriate. We have worked with them jointly on several cases and feel a relationship has developed which provides improved services.

The news of the Iroquois Rehabilitation Center's possible closing is certainly bad news to us. We have an excellent working relationship with the Office of Drug Abuse Services, including Iroquois. They help us to develop a urinalysis program, instructing a couple of

our officers in the method of taking samples, and have actually done the urinalysis for us. This, of course, would be used in clients' cases that have involved past drug abuse. Further they have done printing for us at their very expert printing shop. In addition to providing us with cheap informational material for public education, it has also provided the residents at Iroquois with on-the-job training in meaningful work. Further Dr. Robert O'Toole, psychiatrist at the facility, provided our professional staff with a training program on drug and alcohol abuse and treatment implications, spending about two hours per week for five weeks with us.

#### 6. INNOVATIVE USE OF JAIL

During the last two years because of the increased size of our staff, we have had a greater ability to follow clients and gather information to sustain violations. Due to a better relationship with the jail and the personnel at the Sheriff's Department, and also through the cooperation of local judges, we have used jail more as a rehabilitative tool along the lines of "short, sharp, shock" treatment. Through the use of split and intermittent sentences with Probation sentences we have been able to make periodic jail a disciplinary tactic in conjunction with in-the-community counselling. We feel that through this method we have been able to convince some of our clients, of ours and the Court's seriousness in enforcing Conditions of Probation. As a result we feel that we've been able to get greater conformance on the part of our probationers, thereby avoiding the expensive step of the State correctional facility or Division For Youth facility. In effect we've added an intermediate step in dealing with the acting-out probationer. Rather than having to go the final step of complete incarceration or waiting until a probationer does further damage in the community, we can use this alternative measure.

7. CIVIL SERVICE "DEADBEATS"?

There is an old joke, "Do you work for a living?" "No, I'm Civil Service." There has also been a lot of publicity about "no-show jobs", particularly in the politically-appointed area.

A review of our office during 1975 shows that we really work and furthermore "show" for our jobs, even more than required. All of our staff are willing and do work nights and weekends when required.

Last year the Probation Department staff put in extra work time amounting to 14 weeks and 3 days:

-Vacation and personal leave days earned but not taken = 12 days  
-Compensatory time earned but not taken (424 hrs. 10 min) = 61 days

Further, during 1975, our staff had accumulated 725<sup>73</sup> sick days earned: of these they took 94. Two persons who had chronic illnesses and were hospitalized, accounted for 50% of those days, meaning that the remainder of our staff of 14, took an average of 3.8 sick days apiece during 1975.

Not only did the staff "show up", they put out a great deal of work:

Total Contacts*Made on Probation Department cases:	
Personal contacts	9364 (office & others)
Home visits	3942
Telephone	4617
Letters	2724
	<hr/> 20,647

Furthermore, the Support Bureau received 8,520 payments and mailed out 5,935 checks for a total of 14,465 Transactions.

The staff went above and beyond the call of duty in addition to time:

Three probation officers have become certified foster parents so we can take in clients on an emergency basis. Last year we took in four young clients in such circumstances. (If Monroe County Detention had been used, it would have cost the County \$77.00 per day per client.)

Further, we recruited, trained and utilized many volunteers (see p.22), an additional pressure and workload for the staff. We developed four of our own foster homes so we could maintain clients in the community rather than employ the expensive alternative of institutionalization.

The staff willingly participated in additional training and education, frequently on their own time and expense, and in community-interest activities: Alcoholism Task Force, Group Home Task Force, Mental Association, 4-H, Jaycees, Marian House.

## CASELOAD AND COST ANALYSIS

## A. CASELOAD

TYPE OF CASES	Number of Cases 1975	Average Per Month	Case Unit Weights	Average Case Units Per Month
<u>INTAKE</u>				
Given Information Only	60	5.0	.25	1.3
1st Interview Adjustment	75	6.3	.50	3.2
Given Counseling	311	70.0	1.25	87.5
INVESTIGATION	227	18.9	3.00	56.7
SUPERVISION	285	161.1	1.00	161.1
SUPPORT	443	362.4	.20	72.5
SUPPORT PROBATION	4	2.5	1.00	2.5
TOTALS	1405	626.2	N/A	384.8

As can be seen by the above figures, we dealt with 1405 cases during 1975 and that generally means families because in almost all instances we deal with both husband and wife, and sometimes children, or with child and parents. We could double that figure of 1405 in terms of the number of people we actually counseled. Subtracting the cases in the first two categories where generally only one contact was made, it still leaves 1270 cases with which the Department has had an on-going contact during 1975.

In terms of the average number of cases in which the Department was involved on a per-month basis, the total is 575.8 cases per month divided up among five Probation Officers through 9/8/75, then six Probation Officers for the remainder of 1975.

The State Division of Probation, in order to try to assess caseloads based on the demands of different types of cases devised a numerical weight to be given to each different type of case using the probation supervision case as the standard, that is, one case unit. Assessing our caseload using these unit weights shows that the Probation Department supervised 384.8 case units per month on the average which is slightly more than 64 cases per Officer with six officers. Nevertheless, we feel that we have been able to give probably the best attention to our caseload in many years, since the LEAA Project, which has given us an additional probation officer and because of the work of the outreach workers and the intern and citizen volunteers.

The 40% recidivism rate (that is, persons committing additional crimes) as reported earlier in this report, a considerable decrease over the 9.0% rate in 1974, is also far below the 35 to 70% recidivism rate ascribed to persons coming out of jail. Considering the cost of Probation as compared to institutionalization, both financial in terms of the expense of care, and the cost in terms of human resources where a person is virtually in cold storage, Probation is by far the most economical service. It is the contention of this writer, and of many studies done recently in the field of criminal justice, that we've yet to really try Probation seriously as a

correction method. That is, we have yet to really invest time and expense in developing a strong Probation service compared to the large amounts of money that we have expended in correctional and institutional care. Interestingly, this same phenomenon is mirrored elsewhere in the institutional care arena, community health clinics versus mental hospitals, the home and public health nursing versus medical hospitals, community mental health retardation clinics and caseworkers versus the institutions for the mentally retarded.

We're gradually beginning to see that for the most part, putting people into institutions is not only far more expensive than attempting to deal with them in the community, but also far less successful in terms of their eventual adjustment and productivity as members of the community.

#### B. COST ANALYSIS OF 1975 ORLEANS COUNTY PROBATION SUPERVISION

##### 1. Total Cost of Department:

County Budget	\$ 94,056.02
Fringe Benefits	\$ 27,772.10
LEAA	\$ 31,107.96
CETA	\$ 7,379.61 (Salary and Fringes)
<b>TOTAL</b>	<b>\$160,315.69</b>

##### 2. Method of Figuring                      Average Cost Per Case

per total number of cases (1405)	\$114.10
per average/caseload/month (626.2)	\$256.01
per average case units per month (384.8)	\$416.60

##### 3. Comparison With Confinement

Probation Per Client Per Year	Institutions Per Client Per Year
	\$ 8,400 - Orleans County Jail
	\$16,000 - Correctional Facilities (Attica, etc.)
\$416.60	\$17,000 - Private Institutions (Gateway, Hillside, Baker, Hall, etc.)
	\$23,000 - New York State Agricultural Industrial School

C. SUPPORT BUREAU COST VERSUS AMOUNT COLLECTED

Support Bureau Clerk	\$ 6,469.00
Bookkeeper	7,865.58
Probation Officer*	4,082.20
Fringe Benefits	7,021.11
Stamps	794.40
Supplies	1,000.00
	<hr/>
Total Cost	\$ 27,232.29
Total Support Collections	\$276,184.68
	<hr/>

\* We estimate 1/2 of Probation Officer's time is expended in supervising the Support Bureau, approving reports to the Court and violations and appearing in Court on Support violations.

Therefore, at a cost of \$27 thousand, \$276 thousand was collected in support. Many of these funds went directly to Social Services in reimbursement for aid they'd given, and much of the remainder lessened the amount of Welfare aid needed or the necessity of a family's receiving Welfare at all. (See also page 10. for breakdown of money collected in reimbursement to Welfare.)

The State Jail Report, when completed, will become part of this report.

I would like to point out the absence of any serious problems in the Jail with the prisoners during the year. This speaks well for the Correction Officers and their training.

January 6, 1976

The Staff of Deputies are also to be complimented on their performance during the year. Here again training and interest in service is a key factor. We, as a Department, would like to acknowledge the cooperation we have received from all area Law Enforcement, Auxilary Police, and Fire Emergency Services.

I would like to thank the Sheriff's Committee and the Board of Supervisors for their cooperation and understanding we received in the past year.

Respectfully submitted,

To The Honorable Board of Supervisors  
Albion, New York

Gentlemen:

Central registration began on December 5, 1974 and continued at our office through September 4, 1975. As of January 1, 1976, there were 15,119 registered voters in the county. Throughout the year, 354 people were registered by the Central Board of Elections and 1277 by the district boards of inspectors.

In addition to the regular registration hours of the Board of Elections, every high school in the county was visited by the Board for the purpose of registering voters and distributing absentee ballot applications. 334 voters were registered at the schools and an additional 112 registrations were taken by the Board by providing a registration booth at the Orleans County Junior Fair. The Orleans County Infirmary and the Orchard Manor Nursing Home were also visited. Registrations were taken and absentee ballot applications were distributed. Cancellations totaled 936, leaving 16,260 persons eligible to vote at the general election.

This year, new legislation permitted transfers of registration by mail. A registered voter who moved to another residence within the county could transfer his registration and enrollment by mail by completing a transfer application and returning it to the Board of Elections. The Board must then compare the signature and other information with the signature and information on the record on file. If such information agrees, the Board may proceed with the transfer of registration and enrollment to the new address. The Board shall then notify each applicant of its decision to accept or reject each such application.

Not only does this office take registrations at this time, but we also gather necessary information that permits us to cancel various registrations throughout the year and to distribute absentee registration and ballot application form and afford persons the opportunity to change their party affiliation, if desired.

Pursuant to Section 394 of the Election Law, a post card is mailed to every registered voter, at the close of central registration to determine whether such voter still resides at his registration address. This communication also notifies the voter of the days and hours of the ensuing general election, his election district and polling place and the fact that he must re-register if he has moved from the address where he last registered. Within one week after the conclusion of local registration, a similar card is mailed to each voter who registered at such local registration.

Pursuant to Section 405, the law mandates a purge list begin in the second week in December and be completed in the third week in January. All permanent records and data related to more than 16,000 enrolled voters have to be individually examined to verify if the registrant has voted at least once in a general election during the past two years. All those that have not, must be notified by mail of the impending cancellation of their status as a registered voter, unless they fill out, sign and return the re-instatement request form within three weeks of the date of the postmark on the notification. After this three week interval, the newly compiled list of voters is made in conjunction with the needs of Section 191, sub.1-a. All persons not voting in 4 years are purged and cancelled with appropriate notice sent.

Prior to March 1, 1975, according to Section 377 of the law, the Board of Elections prints the enrollment digests by towns and election districts, listing every registered voter, his address and party affiliation. In addition to these enrollment digests, lists are printed for village, school district and special elections.

In order to designate candidate names eligible to appear on a ballot, petitions must be circulated, signed and filed. Many of these petitions are filed with the Board of Elections, others with the State Board of Elections in Albany. In the filing of these petitions, the Board of Elections must review all nominating petitions and rule on their validity.

The Board staff conducted training for inspectors of election in October and 31 individuals were trained and tested.

The General Election was conducted by the Board on November 4, 1975. State, County and Town officers were elected. 370 absentee ballots were mailed for the election. A total of 13, 510 registrants cast ballots, representing 83% of those eligible.

The hours for the general election were from 6:00 A.M. to 9:00 P.M. with the Board of Elections remaining open during the entire period to handle the many questions and problems of voters and inspectors of the various districts. The two voting machine custodians remained on hand at the office of the Board during this period of time to go out on calls to the various polling places when machine problems arose. The office is maintained open that night until supplies are returned from every election.

New legislation this year required the chairman of the board of inspectors to report election results by telephone or delivery to the county board of elections. The Board remained open after the close of the polls to receive and tabulate these voting results. Running totals, by district were posted on a large

tally board displayed in the Grand Jury room as results were made known. Several county offices made their telephones available as three extra girls helped receive election results as quickly as possible. These telephones were also used by the news media for their reporting purposes.

Following the election, all voting machines are re-canvassed and results certified to the State Board of Elections. Due to the close vote in the race for the office of Supervisor in the Town of Barre, the two voting machines, the poll records, absentee ballots and all election supplies in both districts were impounded and a special re-canvass had to be conducted at another time.

The continued updating of names and addresses of Orleans County residents in our office, as mandated by law, results in many requests for information from various departments and agencies.

## Annual Report of Orleans County Veterans Service Agency - 1975

This office is maintained by the County of Orleans to serve veterans and their dependents under authority of Article 17 of the Executive Law of the State of New York. In 1975, this office had 5601 contacts. The definition of a contact is when a veteran or his dependent requests a service of this office. We had 4047 veteran contacts, 1428 dependent contacts, 30 servicemen contacts and 96 others. A detailed statistical summary is attached.

The Veterans Administration furnished 8837 days of hospital care to veterans who are residents of this county: 5623 at Batavia VA Hospital, 2014 at Buffalo VA Hospital and 1200 at Canandaigua and other VA Hospitals. This represents a 12.1 increase over 1974. The cost of this medical care, along with drugs, prosthetic appliances and out-patient care has an estimated cash value of \$820,000.

During 1975, the U. S. Congress increased education benefits paid to Viet Nam Era veterans by 22.7%, non-service connected pension by 8% and service connected compensation benefits by 12.2%. According to the U. S. Veterans Administration, \$1,252,482 was paid to veterans and their dependents in this county for compensation and pension and \$692,366 was paid in education benefits, therefore, \$1,944,848 was actually paid in cash and \$820,000 is the estimated cash value of medical care for a total of \$2,764,848 benefits afforded veterans who are residents of this county.

Effective April 1, 1975, this office ceased registering young men for the Selective Service System since the President of the U. S. suspended the provision of the law which required all male youths to register upon attaining age eighteen. This action was made possible by the fact that the U. S. Armed Forces have been able to attract enough volunteers to meet their needs.

There were a total of 57 veterans who died during 1975. The County of Orleans provided 27 headstones to mark their graves.

This office expresses its appreciation to the Orleans County Board of Supervisors, to the Director and staff of the U. S. Veterans Administration Regional Office at Buffalo, to the Directors and staffs of the Batavia, Bath, Buffalo, Canandaigua and Syracuse Veterans Administration Hospitals, to veteran organizations and to other federal, state and county agencies for their cooperation and assistance during 1975.

Respectively submitted,

3 February 1976

TO: Orleans County Board of Supervisors

FROM: David M. Green, Director  
Orleans County Office of  
Natural Disaster and Civil Defense

SUBJECT: Annual Report for Orleans County Office of  
Natural Disaster and Civil Defense for period  
of 1 January 1975 to 31 December 1975

Gentlemen:

I hereby submit the Annual Report for the Orleans County Office of Natural Disaster and Civil Defense.

The following is a summary of this office's activities for the year 1975. We will attempt to show benefiting compensation to the county for monies expended through efforts put forth by the paid and volunteer staff and through reimbursement under Public Law 606. Under PL 606 we are reimbursed fifty percent in matching funds for administrative expenses.

Since 1971 when Civil Defense began to prepare to meet the dangers of peacetime disasters as well as nuclear attack, the benefits have been overwhelming. Efforts for emergency service and rescue are coordinated through this office during the initial disaster and are carried out through the state and federal level where necessary. During the past 12 months our volunteer services were called upon to assist in many areas as will be explained throughout the report.

It is my responsibility to organize, recruit, and train the volunteers for our various services. I must also see that our plans and annexes are reviewed and updated where necessary. Periodic tests and exercises are conducted through this office for the various services as well. Surplus Property, Excess Property, and Matching Funds are also secured through this office. We must also maintain records for goods and money received.

Early 1972 the Fire Service was also placed under my jurisdiction. We secure training for the departments and maintain all such records.

During the early part of 1974 we were also given the responsibilities of County Energy Coordinator. A correspondence file with Albany is maintained in this office along with county correspondence.

Late in 1975, it was necessary for this office to coordinate efforts to replace our ambulance service which was terminated rather abruptly. Within approximately five (5) weeks a new service was established.

## CIVIL DEFENSE DUTIES:

1. Several county agencies have taken advantage of the items available at the surplus property warehouse in Canandaigua. This year the choice was not as plentiful or varied as it has been in the past. Our purchases amounted to \$1,069.09, however, total value of the property was \$6,731.00. The following agencies made purchases this year:

1. Orleans County Highway	13. Albion Fire Dept.
2. Kendall Highway	14. East Shelby Fire Dept.
3. Shelby Highway	15. Kendall Fire Dept.
4. Gaines Highway	16. Village of Albion
5. Albion Highway	17. Shelby Fire Dept.
6. Carlton Highway	18. Carlton Fire Dept.
7. Barre Highway	19. Medina Fire Dept.
8. Clarendon Highway	20. County Maintenance Crew
9. Clarendon Fire Dept.	21. County 4-H
10. Albion Legion Sheret Post	22. County Infirmary
11. Sheriff's Dept.	
12. Hulberton Fire Dept.	

We were fortunate enough to purchase a polygraph machine valued at \$1500.00 for \$75.00. This will be available to the county police agencies which will save them the inconvenience of making an appointment with another county for this service.

2. The Excess Property Program left a lot to be desired this past year, although, in December we were notified that we would be eligible for three (3) 1/2 ton pick up trucks if we wanted them. Since they were located in Niagara Falls, we confirmed the order. In some cases, the items offered are not in good condition. Therefore, it is best if we are able to inspect the vehicles before plans are made for pickup.
3. Several organizations have toured the Civil Defense Center during the past year. During the tours, movies are shown followed by a description of the duties which come under this office.
4. All schools in Orleans County have a "Go Home Plan" which is to be used during an emergency whether an impending attack or natural disaster. In the event that it is impossible to utilize this plan, shelter drills are held in the schools to instruct the pupils in the proper ways of taking cover in the event of nuclear attack. The Go Home Plans must be updated each year.
5. A MET refresher course was conducted during the past year. Monthly classes were held at the Arnold Gregory Hospital for those interested in renewing their MET cards. Records for this were maintained by our office.
6. Service annexes were reviewed, however, updating has not as yet been completed. Most annexes are sufficient as they are since we recently completed a Planning and Operations Course conducted by Cornell University.
7. Mr. Robert Willigens was engaged to exchange radiological kits in shelters at Federal and State expense. We also have kits available for use in school science classes.

8. This year we conducted a county wide disaster drill. We simulated a plane crash with 60 victims involved. All emergency services were used throughout the county. Members from the fire service, police, highway departments, Red Cross, and the two hospitals in the county took part. We also had assistance from a disaster assistance unit which was formed recently. This group is made up of professional law people who have been trained in identification of victims following a disaster. Orleans County has two men who are members of the team. This was the first exercise of this type in Western New York where this team was utilized.
9. Weekly radio checks are run from the Civil Defense Center on the following radios:
  1. Each Monday the school monitors are checked. We are fortunate to have radios in eight (8) schools in Orleans County. Emergency messages are given to the schools concerning the weather or impending attack.
  2. Citizens Radio Club tests are conducted each Tuesday night by Mark Porter, who is our Communications Officer, and his staff. This is necessary as we depend on these people for assistance during storms and breakdowns of other means of communications.
  3. Fire radios are also checked each Tuesday for the same purpose.
10. I attended monthly meetings of the Western District Directors Association. These meetings are held to keep us informed and also gives us a chance to solve common problems. Also, this year, I was elected president of the Association and my secretary was elected recording secretary. The Association is made up of directors and staff members from 10 counties and four cities in the Western District.
11. The County Fire Service conducted nine (9) training courses this year. This office sets up the schedule for the courses and the division of Fire Prevention and Control for the State of New York furnishes the instructors. Over 230 men completed various courses offered.
 

This year we also offered a training course on maintaining breathing apparatus. Each department sent two (2) men to be trained in the repair of Scott Air Paks.

A County Workshop is also sponsored by this office for the Fire and Rescue personnel. During the morning session, two (2) speakers were available from the State of New York Division of Fire Prevention and Control and in the afternoon we had five (5) instructors on the County Fire Training Grounds teaching extrication from automobiles.
12. Our SCUBA team was activated on four (4) occasions this year. Also, men donated their time getting a truck equipped with a box on it to take to the scene of a drowning or whatever to be used for changing and equipment.
13. The Auxiliary Police served over 6,000 hours during the past year. They have served at parades, carnivals, County political functions, the County Fair, and assisted the Sheriff's Dept. on patrol and in the dispatch room. This year we began a program of placing mobile Citizen's Band Radios in their cars. By doing so, they have communications while on parade duty and during emergency conditions in which they are called to assist. The Auxiliary Police also took part in the County wide drill and have had several training classes at their monthly meetings.

14. Monthly newsletters are sent to the Orleans County Fire Departments and Emergency Squads.
15. The following items were purchased through this office:
  1. New uniforms and equipment for the Auxiliary Police
  2. Four mobile radios for the Auxiliary Police
  3. Additional equipment for the Citizen's Radio Service
  4. Replacement monitor for fire station
  5. Polygraph
16. The training grounds was used on an average of three time a week during the good weather. Lights were installed at each corner and the training tower has been enclosed on two sides.
17. The dispatch room handles emergency calls for nine (9) county fire departments, and we are in the process of taking over calls for a tenth. The handicapped person is working out well and has proven to be extremely beneficial in the operation of the dispatch room.
18. I am still attending arson school in Rochester. I also completed a 40 hour course at the New York State Academy of Fire Science in November. I feel this training will be very beneficial to the fire service in Orleans County.
19. I have attended meetings and taken surveys of the energy situation in the County as Energy Coordinator. This year, we had to process form for some of the factories to get oil and propane gas because of the cut back of natural gas.
20. This year our office was asked by the Board of Supervisors to work with the Towns and Village of Albion in securing an ambulance service to take care of Albion, Barre, Gaines, Carlton, and the Village of Albion.
21. A financial report is attached to indicate the savings to the county through this office.
22. The following is the number of calls the Fire Service in Orleans County responded to:

DEPT.	FIRE CALLS	FALSE ALARMS	EMERGENCY AND AMBULANCE CALLS
Albion Fire Dept.	85	16	53
Barre Fire Dept.	27	5	6

This office wishes to express our appreciation to the Orleans County Board of Supervisors, other county departments and agencies and the many other organizations we have worked with during the past year. We would also like to thank the many volunteers who have made our programs workable.

Respectfully submitted,

Arden R. McAllister  
*County Historian*

January 28, 1976

HISTORIAN'S ANNUAL REPORT

Mr. Cary Lattin's retirement as County Historian was delayed until April 1, 1975 when Arden McAllister was sworn in. The new historian wishes to include in this report a commendation of the work of Mr. Lattin and his wife, Avis, for the excellent collection and efficient filing system which they left in the historian's office.

The historian represented the county at the spring meeting of the County Historians. This conference was held at the Canal Museum in Syracuse on May 16 and 17. This was useful not only for information on the canal's history but also for future plans. On the 22nd of September the historian attended the combined meeting of County Historians and County Officers in Rochester. On that evening there was also a testimonial dinner to honor the Lattins for their contributions to state-wide interest in history.

The year has been especially busy for the History Department because of the Bi-Centennial ~~and~~ of the nation and the Sequi-centennial of the county. As part of these activities Cary Lattin prepared a brochure for the county which was well received. He also directed the initial distribution of the brochures through the students in the public and parochial schools of the county.

Historian McAllister attended most of the monthly meetings of the Orleans County Centennial Corporation and participated in or attended the following projects: distribution of brochures; sesqui-centennial celebration of Albion's First Presbyterian Church; pre-planning session for State Bi-centennial Barge; re-opening celebration of the Tower in Mt. Albion cemetery on July 4, 1975; ceremony to honor veteran of the Revolution, Samuel Cook at Clarendon; Kangaroo Court and Stock Auction on August 20; Pioneer Picnic at Lakeside park on September 6; Bi-centennial Calendar sale; presentation of Bi-centennial flag and Liberty Tree at Court House square on October 25.

The historian also served on a Research Committee and is writing a section for a

page 2

book on the history of Orleans County, another project for the centennial celebrations in 1976.

Several students and others have come to the office for aid in research projects. This Bi-centennial year has resulted in numerous requests for genealogical research from people in several states. This has involved much correspondence. The Genealogical Society of Western New York asked for and received aid in a questionnaire on county and town resources and records. This information on Orleans County was published in one of their books. A fourth grade class from Albion ~~xxxx~~ was taken on a conducted tour of the Court House. This department also furnished some information on conservation and wildlife for the 4H Conservation day in May.

The historian prepared two slide presentations, one on a general development of the county and another on the Canal. These talks were given in 1975 to the Daughters of American Colonists in Lyndonville, The Lion's Club in Albion, <sup>GW</sup>Teespath Club in Middleport. The historian participated in an interview concerning the road culvert for Channel 2 - TV.

A major part of the time was spent on research and writing weekly articles under the by-line, "Orleans Memories". These were carried every week in the Albion Advertiser and the Medina Journal-Register. The pattern of brevity and a photograph was carried on from Mr. Lattin's "Out of the Past" articles which ceased on April 1.

There were numerous events of historic significance during 1975. Carry Lattin retired after 17 years of faithful service as county historian with a state-wide reputation. Construction of a new BOCES school (Board of Cooperative Educational Services) west of Medina was well under way by year's end. A new county flag was designed. Bayex Inc., a Toronto firm, began building a new plant east of Albion to manufacture auto accessories. The A & P Stores closed throughout Western New York. A new Medical Center was opened near the Medina Memorial Hospital. A new branch of the Lockport Savings Bank was built in Medina. Sheriff John Williams retired and under-sheriff Donald White won this office. Republicans regained control of the Board of Supervisors in the November elections when <sup>(Independents)</sup> Walter Zelazny (R) ~~was elected~~ and Ray Cook (D) lost to Stanley Dudek (R). Francis Mayman (D) replaced Maynard Reed (D) in Albion. Mr. Reed retired. George Batchellor held his seat by only one vote in Barre.

Respectfully submitted,

The County Attorney discussed the Order to show cause on motion for preliminary injunction with temporary restraining order - regarding dismissal of "Homemakers", which was received by the County and is returnable in Supreme Court on January 6, 1976. Also, the Board was informed that the C.S.E.A. had entered an Improper Practice Charge against the County with PERB.

The Board was also informed of the following Mailgram and Telegram:

"I have been informed that the Orleans County Board of Supervisors has ordered the Orleans County Commissioner of Social Services to transfer Medicaid patients from private nursing homes to the County Infirmary effective January 1, 1976.

Pursuant to the legal authority vested in this department and me as Executive Deputy Commissioner of the New York State Dept. of Social Service under Sections 20 and 34 of the Social Service Law, you and the staff of the Orleans County Dept. of Social Services are directed not to transfer these patients as ordered. If this direction is not carried out, I will be compelled to exercise all of the enforcement remedies available under the law including withholding all federal and state monies, court action on injunctive relief and such other court or other action as may be available to the state against public officers who intentionally ignore or act in contravention of the laws they are sworn to uphold. Let me remind you that such a precipitant move would, in my opinion, constitute a threat to the public health of citizens of New York State."

Signed - Philip L. Toia, Executive Deputy Commissioner, New York State Dept. of Social Services.

"I have been informed that the Orleans County Board of Supervisors has instructed the County Commissioner of Social Services to eliminate the position of Homemakers within the County Department of Social Services after December 31, 1975, and, I understand that there are no alternatives acceptable means to provide Homemakers services. It is my understanding that a

significant proportion of the services of Homemakers in Orleans County are directly related to the protection of the welfare of children. If this is true, the health, safety and well-being of children in your county will be endangered. I am constrained to take all necessary actions to prevent this, including appropriate court action."

Signed - Philip L. Toia, Executive Deputy Commissioner, New York State Dept. of Social Services.

It was moved by Supervisor Swiercznski, seconded by the whole Board, and carried, that the County Attorney be requested to write a letter to the New York State Department of Social Services saying, "we have been waiting for two months for an opinion from your department which was promised by Mr. Shang, your Counsel; however, it seems that in retribution you are right there in a minute. But, when we are looking for facts, we cannot get them. You promised us back in November that we were going to have an opinion immediately, and we have no answer at this point."

Supervisor Paduchak said, "I have been fighting on this double taxation and honestly believe it is wrong and the man on the street believes it is wrong. I have two children that are going to grow up trillions of dollars in debt. The state government is shaky, the county government is taxed to the hilt, almost. What are these two children of mine going to have if everything is going to be mortgaged to the hilt, when they grow up? It's ridiculous! They have no outlook, no reason in the world why they should work in anticipation of taking over when they turn the age to be able to exercise their prerogative of voting and taking their place in society. There won't be any society left really. Now here we, as common people, try to do something to cut our own expenses. We have begged for someone to help us and there is no one to help us. All they keep doing is mandating this, you have got to pay for it whether you like it or not, and if you can't afford it you go borrow to pay for it. Well, boys, there is a limit as to how much you can do. You will notice this year, as I start, I am not raising my voice. I am trying to be nice and sedate about this whole thing. I have just about had it. I just can't take it any longer. For myself, it doesn't matter. My years are getting along too, but I have two children that I am worried about. They aren't going to have anything. They won't even be able to pay for this when they get older."

Supervisor Kemp said, "Well, in answer to Mike. I think it's up to this legislative body here and every other legislative body, to counteract this so that the children too have a future. We are going through a pretty bad time at the present time, and it seems as though with all the brains we have in the world, we should be able to straighten it out."

Supervisor Batchellor said, "May I ask the County Attorney a question? Along with one of those things that you get served, I understand that the Legal Aide served us on behalf of the two homemakers."

County Attorney - "No, it was on behalf of the recipients of the public assistance. There were six names - I don't have the papers - but on behalf of six specifically named people with their addresses and a column or list of about twenty others."

Supervisor Nayman asked, "How many people have been transferred to the Infirmary?" Supervisor Swiercznski said, "About five and there are about ten vacancies." It was pointed out that the beds at the Infirmary were trying to be filled by putting people in them who wished to be moved and by those discharged from hospitals, but needing Infirmary care.

Supervisor Piedimonte said, "If this is the case and we have some empty beds up there, I think it's time that those empty beds be filled and even if we have got to go out and get a person that is paying for his own way in some other nursing home."

RESOLUTION NO. 19

By Supervisor Paduchak, who moved the adoption.

Seconded by Supervisor Kubatek.

RESOLUTION CONCERNING INTEREST ON COLLECTION OF TAXES BILLED JANUARY, 1976

WHEREAS, due to various problems and errors, the tax rolls and warrants and the statements showing the amount of taxes due on the various properties in the Towns constituting the County of Orleans were not ready or available for delivery to the collecting officers of the said Towns or for mailing pursuant to Section 922 of the Real Property Tax Law on January 2, 1976, and

WHEREAS, as a result thereof, the statement of taxes due will not be received by the owners of property in the County of Orleans until after January 5, 1976, thereby reducing the period of time within which the taxes can be paid without penalty pursuant to Section 924 of the Real Property Tax Law, and

WHEREAS, it is the desire of the Board of Supervisors by this Resolution, to constitute the same as a Home Rule Message requesting the enactment by the New York State Legislature of a special law for the benefit of the taxpayers of the County of Orleans in 1976 allowing the payment of taxes without interest for a period of thirty (30) days after the receipt of the tax roll and warrants by the collecting officer notwithstanding the provisions of Section 924.

NOW, THEREFORE, BE IT RESOLVED, that the New York State Assembly and the New York State Senate be requested to enact a special law to amend the Real Property Tax Law in relation to interest on the collection of taxes in the County of Orleans in the year 1976 and providing thereby that taxes shall be received by the Collecting Officer without interest on or before a date thirty (30) days after the day in January of 1976 that the collecting officer shall be in receipt of the tax roll and warrants. On all taxes received after such date there shall be added interest of 1 per centum for the balance of the month of February, 1976 and an additional 1/2 of 1 per centum for each additional month or fraction until such taxes are paid or until return of unpaid taxes to the County Treasurer pursuant to law, and be it further

RESOLVED, that a copy of this Home Rule Message be transmitted to the Hon. R. Stephen Hawley, Assemblyman and to the Hon. Lloyd Paterson, Senator, along with such additional statements, requests or information necessary for the enactment of the aforesaid special law.

The Chairman appointed the following as members of the Salary Study Committee for 1976:

Albert Kemp, Chairman  
Ashley Ward  
Howard Lake  
Robert Vance  
Luther Burroughs

Chairman Plummer said, "I consider it an honor and a challenge to be chosen to lead the Board of Supervisors in 1976. We have many problems ahead of us.

Welfare is our primary concern. We must seek welfare reform on state and federal levels. We have already instigated actions calling a meeting on January 31st with Steve Hawley, Senator Paterson and Congressman LaFalce, our representative in Washington. We also have plans for investigative measures on welfare give-aways. We no longer tolerate misrepresentation by fraudulent claims. We will consider applicants for the position of Social Services Commissioner and will appoint the most qualified and dedicated person for this job.

I will expect initiative and dedicated service from each member of their respective committee. We plan to inform each department head that he or she must live within their budget. Except for Social Services; I see no reason why this cannot be done. We will be keeping a close watch in each and every place; investigate the possibility of cutting down and cutting out in certain departments. And I expect cooperation from all County employees to maintain their budgets and continue to do the very best of their ability, to do a good job; each and everyone of you watch that budget and stay within it. I don't expect there will be enough money for Social Services.

I am looking forward to 1976 and hope that some of these issues can be resolved at the federal and state levels to help us out in this social service program. We will try to do better next year, as far as next year is concerned."

Adjourned at 2:15 p.m., until January 22, 1976 at 8:00 p.m.

A special meeting of the Board of Supervisors was held in the Supervisors' Room, Court House, Albion, New York, Friday, January 16, 1976, for the following purposes:

1. To review applications for the position of Commissioner of Social Services.
2. Appointment of Orleans County Director to Off-Track Betting Corporation.
3. Appointment of member of Orleans County Industrial Development Agency.
4. Report by the County Attorney on any pending court actions and to take any necessary action by the Board of Supervisors.

Recessed at 10:42 a.m., reconvened at 11:05 a.m..

Supervisor Kemp reviewed the applications for the position of Commissioner. The Taxpayers Association was informed they would be allowed to have two persons from their group attend the interviews on January 22, 1976 at 9:30 a.m..

The County Attorney reviewed the injunction requiring retention of the "Homemakers" and the unfair labor practice which will be heard.

Chairman Plummer asked each member of the Board to submit the names of two people they would like to serve on the Industrial Development Agency. Members will be chosen from the nominees.

Supervisor Dudek moved that Gerald F. Monagan be appointed as the Director from Orleans County to the Off-Track Betting Corporation.

Supervisor Swiercznski objected because the requirements of Rule No. 20 had not been met. Supervisor Nayman asked if Mr. Hubbell had indicated he wanted to give up the position on OTB. Supervisor Paduchak said the appointment was at the pleasure of the Board of Supervisors.

Supervisor Swiercznski asked that this matter be tabled.

It was moved by Supervisor Swiercznski and seconded by Supervisor Bane that the meeting be adjourned.

Carried.

Adjourned at 11:55 a.m..

REGULAR MEETING  
Tuesday, January 27, 1976

The meeting was called to order at 8:05 p.m., by the Chairman. The Clerk called the roll and all Supervisors were present, except Supervisor Batchellor who was in the hospital.

It was moved by Supervisor Piedimonte and seconded by Supervisor Bane that the reading of the minutes of the previous meeting be dispensed with and the same approved as prepared by the Clerk.

Privilege of the floor was granted to Mr. Alan McKenna. Mr. McKenna asked what was the status of the check for \$5,000.00 from the County to him, which was due as per the agreement between the County and Mr. McKenna for use of his land for solid waste disposal. Mr. McKenna was informed that he had not met the stipulation in the agreement pertaining to his putting up a \$20,000.00 bond or other security. Mr. McKenna said that he felt the fact that he had performed satisfactorily for one year should be security enough to satisfy the agreement. The County Attorney said, "The County could take that as approved security if they wanted to pass a resolution doing so." The matter was referred to the Solid Waste Committee for 1976 and the former committee for 1975 to meet with Mr. McKenna on this matter.

Privilege of the floor was granted to Jeff Astles, Planning Director. Mr. Astles presented the following report on Traffic Safety Boards as requested by the Chairman.

**ORLEANS COUNTY PLANNING BOARD**

Court House Square  
Albion, New York 14411

MEMORANDUM

TO: Board of Supervisors, County Attorney  
FROM: Geoffrey C. Astles  
RE: Traffic Safety Advisory Board

This is in response to expressed concern over possible financial obligation by the County in the establishment of a Traffic Safety Advisory Board (TSAB).

It costs noting to establish such a board. Authorization for any TSAB expenses has to be made by the Board of Supervisors, if they so desire.

Once a TSAB is formed, the County and its constituent municipalities may apply for funding for traffic and highway safety programs and equipment. Two types of funding exist: (1) Per Capita and (2) Discretionary.

Per Capita:

Based on funding available to the extent of 7.5¢ per capita. Requires matching funds in either dollars or "in-kind" services. I talked to Joe Lynn, who is a Highway Safety Program Representative

for New York State, and he stated that any matching fund could be written off as an "in-kind" contribution because, the County has a highway dept. and a sheriff's dept. Because these County agencies are involved in highway safety, money spent by these agencies fulfills the "in-kind" service requirement.

Secondly, any municipality applying for per capita funds will be subject to and responsible for its own matching fund. The County will not be liable for the matching funds of any town or village.

Discretionary Grant:

This is an outright grant not requiring any expenses from applicant. In addition there is no limit place upon the amount of dollars an applicant may request as is the case with the per capita funding.

Udine D. Jurhs, Clerk  
Board of Supervisors  
Orleans County  
Court House  
Albion, New York 14411

January 19, 1976

Dear Mr. Jurhs:

I am responding to your letter of December 26, 1975 to which you attached a certified copy of a Resolution adopted by the Board "Requesting Inquiry into Social Service Costs."

I assume that the Board based its estimate of 25% of the County being in receipt of public assistance during 1974 on the information contained in the Statistical Supplement to our Annual Report for 1974. The information contained in the report does indicate that, as of December 31, 1974, 1975 persons were in receipt of public assistance (5.1%), and 7423 persons (19.3%) were authorized to receive Medical Assistance only. These statistics are based on reports submitted by the Orleans County Department of Social Services to this Department. In a further review with the County Agency, we have since learned that the figures submitted for Medical Assistance only were incorrect. Currently, there are 1321 persons authorized to receive Medical Assistance only, and we estimate that a somewhat lesser number were so authorized in 1974. Using the current figure, we find that 3.4% of the population is authorized to receive Medical Assistance only, for a combined percentage of 8.5%, which is only slightly higher than the Upstate figure of 6.9%. The Agency will be submitting correct figures for the next submission period.

This Department has set as one of its first priorities, the strengthening of the management of the welfare system, and the elimination of ineligibility and overpayment. We have reorganized our Division of Income Maintenance to provide for a Bureau of Operations with a field staff whose role is to work with the local district staff towards meeting this goal. Staff of the Bureau has already been in contact with the Orleans County Department of Social Services.

I know you are also aware that Governor Carey will be submitting proposals to the current session of the State Legislature, the passage of which will result in significant reductions in the cost of Medical Assistance for both the State and local districts.

Sincerely,

Stephen Berger

It was moved by Supervisor Piedimonte and seconded by Supervisor Dudek that David Green, Director of the Office of Natural Disaster, be authorized to attend a NYS Fire Coordinators meeting in Syracuse on January 23 and 24, 1976 at county expense.

Privilege of the floor was granted to James Hancock, Manpower Coordinator. Mr. Hancock said, "Title I of CETA is the mainstay of the different CETA Programs. When and if present unemployment rates go down, Title II and VI may be discontinued, but Title I will continue to fund manpower programs throughout the country.

The types of programs under Title I are quite varied and diverse but the services rendered remain simply, employment and training. Our major Title I program in Orleans County is a Work Experience program under which we have a youth and adult program. Our Youth Experience Program allows high school students to work ten hours a week at minimum wage in various non-profit agencies throughout the County. Only economically disadvantaged youth may work under this program.

Our Adult Work Experience is for adults who for one reason or another, are not job ready. These people work full time with the objective in mind of transitioning them into unsubsidized jobs, either with the employing agency or elsewhere.

Individual Referral is a Title I program in which people are trained at various institutions for certain occupational skills. On-The-Job Training is a program that places individuals with employers and the employers have to pay only part of their salary.

A proposal has recently been submitted for a class-size training program in Machining for 15 trainees at BOCES in Medina. This should be starting within the next few weeks.

We are also planning to run a GED, high school equivalency class in the near future.

All these Title I programs have one major objective in mind, placement of the participants into meaningful, unsubsidized employment."

Mr. Hancock requested the members to have any individuals interested in these training programs to contact him. Mr. Hancock also requested the creation of the position of Job Developer at a salary of \$8,500.00 under the CETA Program. The State Manpower Division is recommending this position - the person employed would work three days in the State Unemployment Office and two days in the Manpower Office each week. The main purpose of this job would be to place individuals in private industry rather than on the public payrolls. Mr. Hancock introduced Ms. Boydon and Mr. Reeves from the State Department of Labor.

RESOLUTION NO. 33

By Supervisor Batchellor, who moved the adoption.

Seconded by Supervisor Dudek.

RESOLUTION CREATING THE POSITION OF JOB DEVELOPER UNDER THE CETA PROGRAM

RESOLVED, that pursuant to the request of James Hancock, Manpower Coordinator, the position of Job Developer under the CETA Program be, and hereby is created at an annual salary of \$8,500.00, and be it

FURTHER RESOLVED, that Mr. Hancock be authorized to advertise in the usual manner to fill this position with an unemployed person in accordance with the CETA Program, said individual to work three days in the Orleans County Branch of the New York State Employment Office and two days per week in the Manpower Office. Said position to be entirely funded from funds obtained under the CETA Program.

Unanimously adopted.

Before the adoption of the above resolution, Supervisor Nayman asked, "Is this position at no cost to Orleans County?"

Mr. Hancock said that it would not cost the County anything. It was pointed out that the job training program had been around since 1961, whereas the other CETA programs are just to "help people over the hump".

It was moved by Supervisor Kemp and seconded by Supervisor Swiercznski that a leave of absence, without pay, be granted to Mrs. Susan Allen employed as a food service helper in the County Home and Infirmary, for the period March 1, 1976 to March 1, 1977.

WHEREAS, the State Commission of Correction has issued minimum standards for county jails which are proposed to take effect May 1, 1976, and

WHEREAS, new visiting areas permitting physical contact would be required at a considerable expense to the county, and

WHEREAS, the searching of visitors would be allowed by electronic means only thereby raising the possibility of contraband and dangerous material being brought into a secure facility at the risk of property damage or personal injury to staff and inmates, and

WHEREAS, Orleans County, while having one of the most up-to-date facilities in the State, has neither space nor personnel available to implement the necessities of the proposed minimum standards, and

WHEREAS, the thousands of additional dollars that would be required to implement said minimum standards would place further burden on the already overtaxed residents of our county, with no corresponding increase in the efficiency of jail operation, now therefore be it

RESOLVED, that the Orleans County Board of Supervisors strenuously objects to the implementation of said minimum standards and also opposes the confirmation of Herman Swartz as Chairman of the New York State Commission of Correction, and be it

FURTHER RESOLVED, that copies hereof be forwarded to Governor Hugh L. Carey, the New York State Commission of Correction, Senator Lloyd Paterson, Assemblyman Stephen Hawley, NYS Association of Counties and the Association of Towns.

Re: Employment Status of County Planner

Dear Mr. Plummer:

At its January 26th meeting, the Regional Board authorized enactment of a sub-contract with your county in the amount of \$5,000.00 for the support of the county's planning program. Hopefully this could clear the way for the establishment of Geoffrey Astles as a direct employee of Orleans County and resolve at last the difficult situation we have been in for the last few weeks.

The intended effective dates of the sub-contract are March 1, 1976, to June 15, 1976. The March 1 beginning date was established because of the time required to process the contract at the State level. To ensure the availability of planning services to Orleans County during the next month, the Executive Committee authorized extension of Geoff's employment by the Board until February 29, 1976.

We will be meeting with Geoff and State officials during the next two months to suggest a similar contract for services during the period July 1976 - June 1977 and will keep you informed as to progress.

If you have any questions, please feel free to call me at any time.

Sincerely,

Larry O. Stid  
Acting Director

MEMBER COUNTIES: GENESEE LIVINGSTON MONROE ONTARIO ORLEANS SENECA WAYNE YATES

Mr. Astles explained that, "the contract year goes from June to June. We are in the middle of the planning contract. With this renewal will be the transfer of money to the County to do the work that we have already contracted to the Regional Board to do. They will, in turn, have issued sub-contracts which will give us the money back to do the work between March and the end of June. The last third or fourth of that contract year. So it's a third of \$15,000 or \$5,000.00. What this will mean is that I approve contracts, starting March 1st, I will be a County employee. That in part, Regional dues and the portion of my salary for this contract period. That money will be sent back to the County to pay me. Right now, the County is paying 1/3 of my salary for the contract period between March and June. That will stay the same except that the money will be coming back to the County so that I will be getting a County check. You are also paying 1/3 of my fringe benefits."

Supervisor Swiercznski said, "Otherwise, this means at this point, that we will no longer be a member of Regional, there will be no Regional Planning only local planning."

Mr. Astles, "You are still going to be a member. There are three payments that the County makes.

1. Dues and fees to the Regional Planning Board; that is the privilege of belonging.
2. 1/3 of my salary, salary expenses.
3. Then whatever work programs we do, whatever work programs we write, if we in the past have had the Regional Board do that, we have to pay for the share of the work that they do.

So starting in March, I will be doing all that work so that the only payments will be for my salary and the dues and fees which, in an earlier meeting in January, we decided we are going to hold up to see how the dust settles. I don't know whether that has been paid or not. Until the fees and dues are paid, I guess technically you don't belong to the Regional Planning Board."

Supervisor Swiercznski, "Do we really need it - the way they are going to use their own planning from now on. As long as we have a Planning Director."

Supervisor Nayman, "We get a lot of approvals in the County."

Supervisor Swiercznski, "We can do it ourselves."

Supervisor Nayman, "But you have a lot of things done on a Regional level that you cannot do on a County level - has to be approved by someone higher than the County level."

Mr. Astles, "I was in Albany yesterday, talking to the State. What the State is doing is dismantling their State Planning Program. They are dumping the administration on the regions. Starting in July contract approvals and work programs will require approval at the Regional level. The Regional Planning Board will be playing a larger part than in the past. I guess what I recommend is that if you want to pay your fees and dues, pay half of it - 6 or 12 months."

Supervisor Nayman, "In looking at the things in dollars and cents, which Mr. Stid presented at our meeting which Mr. Dudek and Mr. Plummer attended, on the transfer of funds. Merely what we are doing here is shuffling a group of funds back and forth and the routes that the checks are going to take will be in a different direction. Jeff will become a County employee under this plan. He will receive all County benefits which are quite similar to the ones he is receiving now and hopefully in the long run, believe it or not, the County of Orleans might save a few dollars in the tax bill. So of this recommended procedure, hopefully again, budget wise, we will save a few dollars. I would recommend that this action be taken."

February 3, 1976

Paul I. Miles, Esq.  
Orleans County Attorney  
East Bank Street  
Albion, New York 14411

Dear Mr. Miles:

I am in receipt of your letter of January 7, 1976, replying to my telegram concerning the transfer of Medicaid patients from private nursing homes to the Orleans County Infirmary.

Regarding the request by the Board of Supervisors for a ruling from Mr. Carmen Shang, I understand that Mr. Shang has had a draft of a ruling in the process of review for some time, and that on December 16, 1975 he wrote to the Board explaining the reasons for the delay. While we regret not being able to rule as promptly as the Board desired, I am certain you must realize that the matter in question goes beyond the boundaries of Orleans County; it in fact involves policy that is meant to apply nationally. Hence our insistence that thorough research and consultation with persons inside and outside the department take place before such a ruling is finalized and issued.

Concerning the Board's resolution, however, I must point out that such action epitomizes the "arbitrary authority" the free choice provision is designed to protect against and which formed the very basis for the policy. A determination to transfer patients en masse from one nursing home to another based on cost factors alone is quite different from a determination to place a patient initially in a particular facility after reviewing appropriate social, medical and economic factors.

Studies have shown that transferring patients from one facility to another may have detrimental effects on their health, even to the extent of death. Under the circumstances, I had no choice but to respond to the resolution immediately in the interest of public health and safety and direct that the transfers not be made.

It is, of course, our hope that all of us, as responsible officials, can work together more closely in order to avoid actions with potentially harmful impact that can occur in the absence of such a relationship.

Sincerely,

  
Philip L. Toia  
Executive Deputy Commissioner

The County Attorney read the following letter.

State University of New York

Office of the University Counsel  
and Vice Chancellor for Legal Affairs

February 3, 1976

Paul Miles, Esq.  
Orleans County Attorney  
343 Main Street  
Medina, New York 14103

Dear Mr. Miles:

As we discussed on the twenty-first of January, I have set out the background and the questions the University wishes to raise with respect to Orleans' payment of operating chargebacks.

Recently, several community colleges have received copies of Resolution number 308 of the Board of Supervisors of Orleans County. It is dated December 10, 1975 and so precedes your assumption of the position of County Attorney. I have enclosed a copy of the resolution.

The resolution indicates that Orleans County refuses to pay operating chargebacks generated by a student's participation in non-credit courses. First let me say that all non-credit courses which are recreational, avocational, or social group in nature are expected to be self-sustaining and the counties would not be asked to support their students in these programs by payment of an operating chargeback.

As for those non-credit courses which are vocational, remedial, community service or continuing education oriented, they form part of the regular operating costs of the college. Students enrolled in these courses would generate liability for operating charges to be paid by their counties of residence under section 6305 of the Education Law.

The law and regulations enacted pursuant to it do not make payment of any part of the operating charge discretionary with the county of residence. Rather, once non-resident students attend a community college, the payment is mandatory.

Subdivision 6305(2) of the Education Law provides that a

..."college may elect to charge to and collect from each county within the state which has issued a certificate of residence...an allocable portion of the local sponsor's share of the operating costs of such community college attributable to such non-resident students, computed on a per student basis..."

Thus, the election, if any, is exercised by the college. Subdivisions 3 and 4 further provide that:

(3) "[t]he chief fiscal officer of each county,...shall, upon application and submission to him of satisfactory evidence, issue to any person desiring to enroll in a community college as a non-resident student, a certificate of residence showing that said person is a resident of said county." (emphasis supplied); and

(4) "[t]he president of the college is responsible for submitting to the chief fiscal officers of the counties of residence the names of students and a voucher for the amount payable by the county."

There is no discretion in a county of residence to alter the chargeback rate which has been computed according to section 602.6 of the Code of Standards and Procedures for the Administration and Operation of Community Colleges. That section provides:

"Such allocable portion shall be deemed to be an amount equal to the community college sponsor's contribution to the operating expenses per full-time equivalent student... attending the community college from the sponsorship area, in the annual operating budget of the college as approved by the State University trustees." (8 N.Y.C.R.R. 602.6)

Also of interest may be a 1955 opinion of the Comptroller numbered 7685.

The State University Trustees in setting up the operating chargeback system, recognized that unless the counties of residence were charged according to the preceding formula, community colleges would, in effect, be subsidizing the education of students who resided in other counties.

I will be available to discuss the matter with you further at your convenience so that we may resolve the problem, or at least narrow the issues. In the meanwhile if you have any questions, please contact me.

Sincerely yours,

Joyce Yaple Villa

February 17, 1976

Orleans County Board of Supervisors  
Court House  
Albion, New York

Dear Sirs:

Last week the Orleans County Taxpayers Association called for the resignation of any county employee who is receiving a government pension. Since this statement applies to me, as County Historian, I hereby resign my present position of Orleans County Historian.

This action is in no way to be construed as in agreement with the O.C.T.A. point of view. I believe that the Historian should have a feeling of confidence and acceptance by the people of the county. As for myself, I cannot function in this office under an aura of resentment and ill-feeling.

The effective date of this resignation is open for the convenience of the Board. I would suggest March 31, 1976.

Sincerely,

It was moved by Supervisor Paduchak, seconded by Supervisor Batchellor, and carried, that the letter from Mr. McAllister be tabled.

The Clerk read the following resolutions adopted by the Orleans County Taxpayers Association.

## Resolutions Of Orleans County Taxpayers Association

### RETIREMENT

Whereas the retirement system set up for governmental employees is very liberal and was instituted for those public employees who retire, the Orleans County Taxpayers Association calls for the voluntary resignation of any town or county employee who is presently drawing both salary and retirement at the same time.

### HIGHWAY

Whereas the County of Orleans is in serious financial trouble we are opposed to the purchase of any new equipment for the Highway Department at this time or in the near future.

### SHERIFF

Whereas the Sheriffs budget has tripled in the last 9 years the Orleans County Taxpayers Association opposes any new appointments in the Sheriffs Department that would result in any increase in expenses or number of personnel for that department.

### SOCIAL SERVICES

The Orleans County Taxpayers Association definitely feels that the new Social Services Commissioner should be selected from outside the present Social Services Department . We would like the Board of Supervisors to seek additional applications on a statewide basis with the salary open for negotiation.

The Clerk informed the Board that the New York State Department of Audit and Control was initiating an examination of the Genesee/Finger Lakes Regional Planning Board.

RESOLUTION APPOINTING ORLEANS COUNTY COMMISSIONER OF SOCIAL SERVICES

RESOLVED, that Jerim Klapper, Kent, N. Before the adoption of the above resolution, Supervisor Bane, said, "I cannot go along with that appointment." Supervisor Kubatek said, "I ask that the members of the Board vote this down and that they consider appointing Ms. Helen Brinsmaid

as Acting Commissioner, which would give her time to prove what she could do with the job and at the same time give this Board time to advertise and continue looking further for a commissioner." Supervisor Bane said, "That is what I wished to say, I should have been given the chance to say it." Supervisor Kemp said, "My understanding is that under the Social Welfare Law we do not have the right to bring someone from the department to Acting Commissioner as long as we have qualified applicants." The County Attorney replied that that was correct.

#### RESOLUTION NO. 48

By Supervisor Paduchak, who moved the adoption.

Seconded by Supervisor Kemp.

#### RESOLUTION REGARDING EFFECTIVE DATE OF APPOINTMENT OF COMMISSIONER

RESOLVED, that the appointment of Jerim Klapper as Orleans County Commissioner of Social Services shall become effective March 8, 1976.

Unanimously adopted.

After the adoption of the resolution, Supervisor Kemp requested the Clerk to notify Mr. Klapper of his appointment.

Supervisor Batchellor said Mrs. Detwiler of the Probation Department had called him and asked him to invite the Board to attend the meeting on "Criminal Justice Systems" on March 26, 1976.

Supervisor Kemp said, "You recall back in December there was a resolution passed where we abolished the position of two Senior Welfare Examiners. Action was delayed for one month and then it was delayed another month, up until the first of March. It is my understanding that if we follow through on this, that according to the rules of the union, the bumping procedure which they follow up there will work right down into the departments that we are using to recover money which we are able to get into the County. We have another problem, the Account-Clerk Typist that was serving the Commissioner and the Acting Commissioner fell and broke her hip. Now she is going to retire permanently and the CETA employee who was in there and understands the position quite well, and the duties, will also be eliminated. If this procedure is followed through. It would seem to me that we would be wise with a new commissioner coming in, to rescind this motion and let the new commissioner study this a little bit. Give him a little time to see if he can come up with something better than we have tried to accomplish."

After further discussion the following motion was voted on and defeated:

It was moved by Supervisor Kemp and seconded by Supervisor Paduchak that the resolution abolishing the two Senior Welfare Examiner positions in the Social Services Department, be amended to change the effective date of the resolution to April 1, 1976. Upon roll call vote the motion was defeated. 121 ayes, Supervisors' Plummer (25), Kemp (20), Paduchak (22), and Dudek (54), voting aye; 251 nays, Supervisors' Nayman (65), Batchellor (21), Swiercznski (24), Piedimonte (46), Kubatek (72) and Bane (23), voting nay; 0 absent.

Supervisor Piedimonte said, "Being Finance Chairman, I would like to ask the Social Services Committee to look into the aspects of amending this Title 20 program immediately. I believe we have 14 or 15 programs that are not mandated by the State and I would like this done because of budgetary reasons. I would also like the Social Services Committee to look into the matter of coming up with a fee per bed so that we can rent our empty beds; we have in our Infirmary. I also believe that we

will not be able to move these medicaid patients so, therefore, I would like to see about renting some of this bed space for extra revenue. I would like the Committee to work on that."

Supervisor Kemp said, "It is my understanding that the beds are down to 6 beds at the present time."

Supervisor Swiercznski said, "I would like to say that we had a Soil and Water meeting today and it was reported that Steuben County got \$240,000, Soil and Water did, to hire unemployed people to work on community service projects. This is a federal job opportunities money, and it could be used for parks, repair of cemeteries and our biggest one that we have been thinking about is clearing streams of debris. The Soil and Water Board called Congressman LaFalce's office and he is going to get us the paper work we need to apply for these funds."

Supervisor Piedimonte suggested that taxes should be pro-rated on properties built after the May 1st assessing deadline because he feels that these persons are going without paying taxes. It was noted that the Real Property Tax Law would have to be amended to allow this and it would be very difficult to figure tax rates because a cut off date is needed for this purpose.

Supervisor Kubatek said, "I would request the County Treasurer to give us the names of any people from the Rehabilitation Center and the Albion Correctional Facility who are attending community colleges." Supervisor Kubatek also questioned the mini-bus purchased by CATS. Supervisor Swiercznski said there is still discussion of this by the Board of Directors.

Supervisor Kubatek read a statement from the Medina Pennysaver issued by OCTPA. The statement said, "Mr. LaMont and the OCTPA reject the idea of raising the 1-1/2% tax limit to 2%. We need reduction in expenditures and not increase in revenue." Supervisor Kubatek said, "The reason I bring this up is that I have had several people call me to ask if we were going to do this. Perhaps Mr. LaMont can explain where they got this from."

Mr. LaMont said, "The reason that from the looks of the overrun in Social Services you can only have a 30% increase in the budget from this year to next before you reach the constitutional tax limit. That is our interpretation of it. The overrun in Social Services and the normal increase looks like we will be over this. The two alternatives are to cut expenses or raise the constitutional tax limit by referendum. We are saying we are opposed to that move if it should be brought up, and we feel expenses should be cut. In other words, we are anticipating this happening from the overrun in Social Services. I would like to be enlightened on the details of this debt exclusion. We would like to know what the tax limit would be for 1976."

#### RESOLUTION APPOINTING NEGOTIATING TEAM FOR COUNTY OF ORLEANS

RESOLVED, that the Chairman of this Board and the County Attorney be appointed as the County's negotiating team to conduct negotiations with employee unions.

Unanimously adopted.

Supervisor Nayman said, "As you people remember from both the news media and from newspapers and TV and radio, the Genesee Finger Lakes Regional Planning Board is in a little bit of a problem and has become quite a well known situation. As a result of the resignation of Dr. Denslow who was the Executive Director of the program, he in turn went through the policy and dispensed with three of his employees, one of which was the planner we have in Orleans County - Geoffrey Astles. The Genesee Finger Lakes Regional Planning Board is presently in the process of reorganization. It has been found that a lot of the claims that have been made against the Planning Board were not quite true as originally stated, and in order to make the thing a more reasonable situation they have attempted to reduce some of the staff. Their intention of reducing the staff is not, of course, their intention to eliminate the three planners; they are actually resident planners in various counties, and one of them, of course, being our county. Right at the moment, I would like to ask Jeff Astles to review again, probably for the 50th time, the method of funding of his job and how it is presently set up and what is planned. Jeff could you do that?"

Mr. Astles - "The system that the county has been operating under since it became a member of the Regional Planning Board was to sign a contract with the Regional Planning Board, agreeing to pay the Regional Planning Board 1/3 of my salary, its membership dues and its portion towards the 701 planning program. The system as it now stands through the end of this month is exactly that. In other words the money appropriated in the 1976 budget is 1/3 of my salary, the membership dues and the county's portion of the 701 planning program. The proposal that is being made and was discussed briefly at the last meeting is that the Regional Planning Board now wants to transfer me and two other planners to their respective counties. Make them county employees. So this would entail, as far as Orleans County is concerned that they would simply keep 1/3 of my salary, pay their membership dues and their portion of the 701 comprehensive planning program and the Regional Planning Board will pay the 2/3 remainder of my salary. Essentially, what we are doing is changing the flow of money from the county. In the past it has been from the county to the Regional Planning Board so that the Regional Planning Board could give me its pay check. Well, what happens now is that Regional would send its portion to the County and I will become a county employee and receive a county check. So unless you want me to add to that, that is how it is proposed."

Supervisor Nayman, "That is exactly the point. Right now, we are paying 1/3 of Jeff's salary to the Regional Planning Board and the other 2/3 State and Federal funds, is that correct? The cash flow that is under proposal now, to have Jeff become a county employee would be the same. I shouldn't say that the cash flow would be the same, the dollar amount would be the same; but the cash flow - the county would keep 1/3 of Jeff's salary and the State and Federal Government would reimburse the Regional Planning Board, 2/3 of his salary, and they would in turn contract with

the County of Orleans for Jeff's services and we would be reimbursed the 2/3 of his salary. This program would make it possible to have the same services at no increased cost to the County. It is with this in mind that I would like to create a position in the County, of Orleans County Planner and also to include under this any other duties that may be assigned by the Board of Supervisors at a salary of \$13,364.00."

Mr. Astles, "If it is at the pleasure of the Board, then the position can be in an exempt Civil Service classification, the same as other department heads."

Supervisor Kubatek, "Mr. Chairman, at this time, again I would like to ask the Board that they consider rather than appointing and making this position that perhaps the Board would consider the abolishment of the County Planning position and that of possibly the Economic Development Coordinator. This is not to be construed as any dissatisfaction with the performance of either Mr. Astles or Mr. Pahura, but I ask this because I feel that it is time that we give serious consideration to creating the position of County Administrator. I believe that both of these gentlemen would certainly qualify to apply for that position if it were created. I think that we should give it serious consideration and go in that direction."

Supervisor Swiercznski, "I think Mr. Kubatek's discussion is well taken. However, we are in a contract at this point, I think until June 30th, with Regional. So that this would give time perhaps for the Finance Committee and the Planning and Development Committee to come with an answer to this. We have four months. We have signed a contract and there is nothing to be done at this point."

Supervisor Kubatek, "Seeing that this is probably going to go through - I am sure it will - I think this will be a good time, while Mr. Astles is working in this position, that he and the County Planning Board again study and get back to this on the possibility of a County Administrator."

REGULAR MEETING  
Thursday, March 4, 1976

The meeting was called to order at 11:15 a.m., by the Chairman. The Clerk called the roll and all Supervisors were found present.

It was moved by Supervisor Batchellor and seconded by Supervisor Paduchak that the reading of the minutes of the previous meeting be dispensed with and the same approved as prepared by the Clerk.

Carried.

The Clerk read a resolution adopted by the Orleans County Planning Board which stated in part, "While agreeing with the goal of proper mined land reclamation, nevertheless recommends that the proposed rules and regulations promulgated by the New York State Department of Environmental Conservation be withdrawn and rewritten to make said rules and regulations more specific and appropriate." Also presented was the following statement made by the Planning Board at the public hearing held on February 24, 1976:

PUBLIC HEARING STATEMENT  
at  
MINED LAND RECLAMATION HEARINGS  
HAMBURG, NEW YORK FEBRUARY 24, 1976  
by  
ORLEANS COUNTY PLANNING BOARD

The Orleans County Planning Board has reviewed the proposed rules and regulations designed to implement the New York State Mined Land Reclamation Law.

We agree in principle that it is both desirable and necessary to protect land from improperly operated mines.

We do, however, state the following concerns about the proposed method of implementation:

1. Exemption of municipal mining operations from these regulations appears to us to be unjust. A municipally run mine which is improperly operated is as much of an environmental problem as a private operation which is similarly run. We believe there should be no municipal exemption from these regulations.
2. The Planning Board's meetings with local sand and gravel operators focused on the fact that environmental regulations have a definite economic impact upon those who will be regulated.

As a result of this economic impact there exists the possibility that economic interests will look elsewhere where the costs of environmental protection are lower.

We therefore believe that consideration should be given to requiring that an "economic impact statement" accompany all rules and regulations designed to protect the environment. Such a policy would develop a balance

3. There is a distinct need to protect the mining operator from irresponsible environmental challenge. Unnecessary delay costs mining operations money. We therefore suggest that a mechanism be established making private and public environmental groups financially responsible for costs which are a result of delays caused by unnecessary environmental challenge.

The Mined Land Reclamation Law obligates the mining operator to a bond, in certain circumstances environmentalists should also be financially responsible.

4. There is a need to establish criteria by which the size of the operators bond will be determined. While we appreciate the difficulty of this task, we also feel current regulations are too vague.
5. The 90 day waiting period for DEC decisions on application appears to be excessive and may cause undue delay to seasonally run operations which rely upon summer weather conditions. Road construction and road improvement programs are two areas which may be affected.

We appreciate the opportunity to express our views.

Sincerely,

*William Lyman, Jr.*

William Lyman, Jr.

It was moved by Supervisor Paduchak and seconded by Supervisor Nayman, that the offer from Mr. Basinait be rejected.

Carried.

The Clerk read a letter from Mr. Arden McAllister, County Historian, dated February 29, 1976, withdrawing his resignation from that position.

Supervisor Paduchak said, "Mr. Chairman, regarding this issue, I was the one who tabled the original request that he wanted to resign and here is a situation whereby this position is just a token salary. We ask some of these dedicated people to help us out in certain instances and it is too bad that the Historian position should come under attack for the simple reason that \$1550.00 salary in no way compensates for the job. Even though it is a part time position he has to take his time to do research and it is, I think, the dedicated people who in some instances are receiving retirement benefits from other sources who are helping us out. I think it would be a bad situation whereby we would not be able to have a qualified person take these positions if they are receiving retirement pay. So, therefore, I would like to move that Mr. McAllister's resignation withdrawal request be allowed. Seconded by Supervisor Kubatek, and carried.

Supervisor Dudek introduced the following Local Law:

COUNTY OF ORLEANS  
LOCAL LAW NO. 1 OF THE YEAR 1976  
A LOCAL LAW DELEGATING TO THE ORLEANS COUNTY  
SHERIFF THE POWERS GRANTED UNDER SECTION  
209-m OF THE GENERAL MUNICIPAL LAW TO THE  
CHIEF EXECUTIVE OFFICER OF THE COUNTY OF ORLEANS

BE IT ENACTED by the Board of Supervisors of the County of Orleans, New York, as follows:

SECTION 1. Pursuant to the provisions of Section 209-m, Paragraph Three of the General Municipal Law, and the appropriate provisions of the Municipal Home Rule Law, the County of Orleans, a government defined in said General Municipal Law, does hereby delegate to the Orleans County Sheriff the power of the Chief Executive Officer of the County of Orleans under said Section 209-m of the General Municipal Law whenever he deems that the public interest requires it, to request the Chief Executive Officer of any other local government to detail, assign and make available for duty and use in the County of Orleans any part of the forces, equipment and supplies of the Police Department, Police Force or Parkway Police Force of the local government of which the request is made, all pursuant to and subject to the provisions of said Section 209-m of the General Municipal Law as may from time to time be amended.

SECTION 2. This local law shall take effect immediately.

Discussion of the above Local Law centered around the point of whether the Board was giving the Sheriff authority which should stay in the hands of the Chairman of the Board. Mr. Miles said that the statute of section 209-M was followed in the wording of the law which clearly restricted the authority given to the Sheriff by this Local Law.

It was moved by Supervisor Swiercznski and seconded by Supervisor Batchellor that the Local Law be returned to the County Attorney to change the reading to include "as far as police matters are concerned." Carried.

#### RESOLUTION APPROVING MEMORANDUM OF AGREEMENT BETWEEN THE COUNTY OF ORLEANS AND THE FIRST METHODIST CHURCH, ALBION, NEW YORK

RESOLVED, that the agreement between the First Methodist Church, Albion, New York, and the County of Orleans for use of space at 113 E. State Street, Albion, New York, be and hereby is, renewed for the year 1976 pursuant to Clause 7 of the 1975 agreement.

Unanimously adopted.

Supervisor Kemp said, "At the last meeting I asked for a motion that the Social Services Welfare Examiners positions not be abolished. It was denied. The committee had a meeting with the Acting Commissioner and with department heads last week. These employees have taken a Civil Service test and the results are expected to come through next month. There will be a lot of shuffling up there, which is going to confuse them if these positions are abolished. It seems that at the time we abolished these positions there was instituted by the State a recovery program concerning delinquent parents. We are now receiving quite a bit of money and the people who are recovering this money are the ones we intend to abolish. The cost to the County of these people is only 12-1/2% and we are recovering about \$900.00 per month. I believe we should extend that time of abolishing these two positions until our new commissioner gets in there and has more time to study this."

After further discussion the following resolution was adopted.

#### RESOLUTION NO. 66

By Supervisor Kemp, who moved the adoption.

Seconded by Supervisor Dudek.

#### RESOLUTION AMENDING EFFECTIVE DATE OF RESOLUTION NO. 31 OF THE YEAR 1976

RESOLVED, that the effective date of Resolution No. 319 adopted by the Orleans County Board of Supervisors on December 18, 1975, and amended by Resolutions No. 10 and 31 of 1976, be and hereby is amended to delay the date of abolishment of two Sr. Welfare Examiner positions in the Orleans County Department of Social Services to May 1, 1976.

Adopted. 211 ayes; 161 nays, Supervisors' Kubatek (72), Nayman (65) and Swiercznski (24), voting nay; 0 absent.

Supervisor Paduchak said, "From time to time this County has been forced to expand. The problem has always come up about adequate facilities for offices. At one time, when the jail was built plans called for additional office space here. At the present time most office space is rented from Albion Industrial Center - 11,000 and some odd square feet. An opportunity has been presented to the County of Orleans to purchase property vacated by the Grant's Store, Main Street, Albion. Total square feet - 22,600. The Committee and Board members have viewed this. There will have to be some extensive renovation as far as rooms are concerned. In the long run, the County will have space for adequate expansion at what we believe minimal cost to the County. The Committee would like to propose an option to purchase this property for \$175,000.00.

Further discussion of the proposal took place and the following resolution was adopted.

Supervisor Nayman said, "On the 8th of March our new Social Services Commissioner takes over and I would like to see something from the Board of Supervisors, some general guidelines as to how he should operate. Supervisor Kemp said, "I am sure that when the new Commissioner gets in here that we will be having a committee meeting with him and with representatives from the Board."

It was decided that the whole Board would meet with Mr. Klapper to discuss the problems of the department.

I would like a letter sent to the OCTA asking them for time, dates, persons, etc."

Supervisor Piedimonte said, "I feel that they started to do a good thing but they did not come up with any positive ways to do this. They just pick and I feel this picking should stop."

Supervisor Nayman said, "At the last meeting I read comments made by the OCTA regarding the alleged use of an Orleans County pick-up during fishing season at the Thousand Islands and I asked that a letter be sent registered mail, with a return receipt." Supervisor Nayman asked the Clerk if that had been done. The Clerk replied that a letter had been sent certified mail with request for a return receipt, requesting the information as outlined in the Board's resolution. The letter was sent to Mr. Roger LaMont, President of the Orleans County Taxpayers Association. The return receipt was received and had been signed by Mr. George LaMont. Thus far, the Clerk had received no answer.

Supervisor Dudek said he had been handed a letter that afternoon. Supervisor Paduchak read the letter from the Orleans County Taxpayers Association which was signed by Mr. Vincent Cardone, Counsel. The letter was dated March 18, 1976, and read as follows:

"The Orleans County Taxpayers Association acknowledges receipt of your letter dated March 5th, 1976, a photocopy of which is attached hereto.

Please be advised that the taxpayers association stands on the statement as originally reported relative to the Orleans County pick-up truck referred to in your letter. In the instant case, the association is desirous of treating in confidence the source of its information.

It should be a simple matter to check the records of the County Highway Department to determine when the pick-up truck was in the area in question. We assume that daily records are kept on each of the vehicles as well as mileage and gas consumption. This should be obtainable from the Orleans County Highway Department office.

We would appreciate your advising us as to the results of your investigation. It is the position of this association that where matters of this nature are brought to the attention of the board as a governmental body has the requisite authority to make the necessary inquiry."

It was pointed out that the ad in the paper did not say that it was a County Highway Department pick-up truck.

Supervisor Paduchak said, "Gentlemen, I stated previously I am not in a position to fight with the OCTA and I will not do it, but they made the statement and we told them to give us the information in connection with this situation and they did not give it to us, but said we should check our records. This is not our job. If they made the allegation, it is up to them to give us the necessary information we asked for as per our letter which stated, 'you are requested to give all the facts including dates, places, times and persons, as known, concerning the alleged use of an Orleans County pick-up alleged to have been seen during fishing season (or any other time) at the Thousand Islands.' This we did not get. We got a letter that they cannot give us anything else."

Supervisor Nayman said, "I agree with you, but I think maybe these allegations are a defamation of character of the Board or the Highway Department." The County Attorney said, "They have not made it plain it is a general statement. I do not think it could be called defamation of character. Who knows if this occurred."

Supervisor Piedimonte said they could have been mistaken, that it was not a County truck.

Supervisor Kubatek said, "You might be right. There is a Town of Orleans up near the Thousand Islands." Supervisor Nayman said, "There is also a Town of Albion up there."

Supervisor Dudek said, "In our letter we asked for information but we did not ask them to divulge their source of information. We did not look for that or anything that would implicate any individual. It was a simple request and the fact that they chose not to answer it is, I think, enough to consider the matter closed until they come forth with something more substantial."

Chairman Plummer said, "I do not want to bicker with them."

Supervisor Paduchak - "Mr. Chairman, our position is, it is not fair to criticize our departments, if we ask for information and they won't give it to us. When they want information, we try to give it to them. We tried to be good to them, but they haven't been good to us."

Supervisor Kubatek - "I feel we should look into it, but they are making it difficult. They are just saying "fishing season". What fishing season? If we had something to go on, month or date. They don't have to give us their source, I know, but they don't have to give it to us. I might go fishing in February."

Supervisor Nayman - "It could be twelve months out of the year or any year in the last few years."

Supervisor Paduchak - "There is a Port Gibson up there with a business that sells snowplow equipment. The Town of Kendall truck could have been seen up there picking up some equipment."

Supervisor Dudek - "I think we should not allow ourselves to be put in the position to have to prove something exists or something did not happen. You cannot prove flying saucers exist or don't exist, and this is the same thing. We should ignore them unless they give us something to work with."

Supervisor Batchellor - "I think we should tell them, they started this and they should give us the information or print a retraction. I myself have given them a great deal of information from the Board office. I think we deserve specifics or a retraction."

Supervisor Nayman - "We do not have to have persons, just the date, time and places rather than having to go back over the last year's records. We should get an answer or they should print a retraction in the same papers and the same size."

#### RESOLUTION NO. 78

By Supervisor Batchellor, who moved the adoption.

Seconded by Supervisor Nayman.

#### RESOLUTION REQUESTING SPECIFIC INFORMATION CONCERNING ALLEGED USE OF ORLEANS COUNTY PICK-UP TRUCK AT THE THOUSAND ISLANDS.

RESOLVED, that the Clerk be instructed to send another letter to the President of the Orleans County Taxpayers Association again, requesting that they supply in writing, specific information as to persons, times, and places, where an Orleans County Pick-Up truck is alleged to have been seen at the Thousand Islands during fishing season and if they cannot or will not supply the necessary information to investigate this allegation then the Taxpayers Association should print a retraction of the allegation.

The Clerk presented the recommendations of the Orleans County Planning Board and the Orleans County Agricultural Advisory Committee in relation to the proposed Kendall Agricultural District. The Planning Board recommended that the Board of Supervisors not approve the proposed district until the following issues have been resolved to the satisfaction of the Board of Supervisors:

1. The district as mapped crosses county boundary lines which is illegal and must be modified.
2. Due to the passage of time between the signing of petitions and their submission, property ownership has changed in a number of cases.
3. Kendall is currently exploring possibilities for water and sewer facility funding and, as the attached communication indicates, does not wish to jeopardize that option by the creation of an agricultural district.
4. There is also some questions as to the agricultural quality of some portions of the district.

The Agricultural Advisory Committee unanimously endorsed creation of the Kendall Agricultural District as proposed.

It was moved by Supervisor Paduchak and seconded by Supervisor Bane that the matter of the creation of the Kendall Agricultural District be tabled until the next meeting to enable the Board to consider the recommendations of the Planning Board and the Advisory Board. Unanimously adopted.

The Clerk read several bills for serving dog summons'. The question of paying 20¢ per mile was raised.

Carried.

Privilege of the floor was granted to Mr. Richard Laskowski, Field Representative for the New York State Division for Youth. Mr. Laskowski explained that the function of the Division for Youth is two-fold. First to provide services and rehabilitation facilities for kids who get into trouble and commit some kind of juvenile offense and either voluntarily or through family court are placed with the Division for Youth. Mr. Laskowski said the agency runs a wide range of programming, such as training schools, community based programs such as Urban Homes, research programs to solve the problems of youth. The second phase is preventative services in providing seed money, providing state aid to local communities so that they can run and operate a wide range of services going from recreational to more intensive programs. Mr. Laskowski said the cost of one youth incarcerated at a training school runs about \$24,000.00 per year, and that is the reason the stress is on preventative services.

The state aid formula is based on youth population. The county can count all the youth from 1-20 in the county at \$2.25 per capita, aid is given on a 50% state, 50% local basis. At the present time the towns can count the youths in the entire town, plus the village can count the youths in the village and the county can count all of the youths. However, in the future a plan called County Comprehensive Planning will be going into effect, which will allow counting the youths just once. This single count will be in effect after April 1, 1977, which means the count would be the entire youth population times \$2.25. Mr. Laskowski said the County of Orleans would be eligible for approximately \$69,000.00 plus another \$50,000.00 for a Youth Bureau, which would be a county-wide agency. All this would be available with matching funds from the County or from other agencies on a matching fund basis.

Mr. Laskowski said the things really necessary at this point would be a letter of intent from the Chairman of the Board of Supervisors expressing the desire in examining the feasibility of comprehensive planning in Orleans County. That would not entail a commitment to spend any money. First a citizens' advisory committee would be appointed which would be called a Comprehensive Planning Committee or steering committee, which would be made up of representatives from every municipality, providers of services, Family Court, Probation, and other citizens. This committee under the guidance of the Division for Youth would take a look at the local programming and the needs for the future. This study would cost about 3-4 thousand dollars, one-half of which would be reimbursed. This committee would consider whether a Youth Bureau would be feasible in Orleans County. Such an agency would be responsible for the youth programs in the county including the paper work connected with same. No action was taken on the proposal for a study. The Chairman said the matter would be considered by the Board.

Privilege of the floor was granted to Mrs. Lenore Beach, Centennials Coordinator. Mrs. Beach informed the Board that there were a lot of county flags left and urged them to encourage people to purchase them.

Mrs. Beach said, "Orleans County can be very proud. We are one of the most active counties in this state. There are seven counties in the state that aren't doing a thing. Orleans County is one of the most active."

Mrs. Beach informed the Board that the committee was working on the County History Book. This is an up-date from "Signor's Landmarks of Orleans County." It will be about 350 pages, with about 100 pages of pictures. The Eddy Printing Corporation are printing the book at cost; the book will be 6" x 9", hardbound, in red leatherette, and will sell for approximately \$5.00.

Many towns are building floats. A Committee has been set up to judge and select some of the best floats. The floats are going to go from parade to parade. A schedule is being set up. The Centennial Slide presentation prepared by Bob Hoffman is being given free of charge to those groups asking to have it presented.

Orleans County will host a state-wide conference at the Court House on June 5, 1976, in connection with the Bicentennial.

In July, activities on the canal are being planned, with boats and various activities in the villages, such as sidewalk sales, etc. On June 19th and 20th at the 4-H Fairgrounds in Knowlesville, an artifacts weekend will be held with many displays. On July 4th, the re-dedication of the "Tower" will be held. The State barge will be coming to Medina and the County will have their own barge pulled by a land-based mule. This barge is being constructed by Mr. Carl Petronio, Jr. The pageant will be held August 19-22nd at Pine Hill. The Arts Development Service in New York State are supplying a technical director for lighting and sound. Many people are volunteering their services for the many events scheduled.

Privilege of the floor was granted to representatives of the libraries in the County. Mr. Paul Bower was spokesman for the group. Mr. Bower expressed the hope that the County would again this year give the libraries the same share of Federal Revenue funds as they received in 1975. He pointed out that the libraries provide recreational and informational services to all the people in the county. He said he was afraid that if the county did not continue their funding that other funding sources might likewise curtail their help and the libraries would be in a difficult situation. He said the FRS funds had allowed the Swan Library to do some maintenance programs which otherwise could not have been completed.

Supervisor Piedimonte said, "This county is in a very bad financial problem. We are looking in every direction to try and cut costs wherever we can, and I feel, in my own opinion, if we can cut this library down it will help the Board an awful lot. And it's too bad that we have to cut a library because of social service mandated programs. Where a library everybody uses it, and over at Social Services there is just a few of them, and it's too bad that our tax dollars have to be distributed that way. But in my opinion, I would like to cut it in half."

Supervisor Paduchak said, "I really feel that when this money was allocated in the first instance to the libraries, the library boards were aware of the fact that we would continue the funding if we were able to, and if we were in a bind or needed financial relief for our financial programs, then we would have to consider limiting the program and accordingly compensate them at a different rate than they are getting. You knew the situation would change from year to year, and this was the way it was brought up in the first instance, when we met with the various boards."

Mr. Bower agreed that they understood this, however, he said one of the problems in running libraries is that they never know how much they are going to have at the beginning of the year.

Further discussion of the financial situation of the libraries took place. Supervisor Kubatek said, "Actually, one of the purposes of Federal Revenue Sharing is to spend it for the whole community. I can't think of a better place this money can be spent than in the libraries."

Supervisor Plummer said, "I think we should go along and give them the money this year, but next year let's get your house in order."

Mrs. Dorothy Haines, a member of the Swan Library Board of Directors, said, "I just want to make one point. We came here to let you know we care and we listened to Mr. Laskowski tell about the youth program, all those thousand of dollars. Well, we have existing youth programs and we would be happy to do more, so think about the library when you are thinking about the youth of Orleans County."

Supervisor Kubatek said, "I believe we have a request put in for the library. The amount was the same as they received last year and I do so move that this amount be placed in the libraries." Seconded by Supervisor Nayman.

Supervisor Paduchak said, "I do not see that it is appropriate at this time to bring this up before this Board." Supervisor Swiercznski asked for a brief recess.

Recessed at 8:55 p.m., reconvened at 9:05 p.m.

Supervisor Dudek said, "Because of the fact that I would like more time to look at this, I would request this be put over until the next meeting under Rule 12 of the County Rules of Procedure."

It was moved by Supervisor Batchellor and seconded by Supervisor Paduchak that one person from each party in the Board of Election office be authorized to attend the Election Commissioners Seminar at Syracuse, N. Y., May 10-11, 1976, at county expense.

REGULAR MEETING  
Thursday, May 6, 1976

The meeting was called to order at 10:35 a.m., by the Chairman. The Clerk called the roll and all Supervisors were found present.

It was moved by Supervisor Bane and seconded by Supervisor Batchellor that the reading of the minutes of the previous meeting be dispensed with and the same be approved as prepared by the Clerk.

Carried.

Privilege of the floor was granted to Mrs. Carri Blake, Director of the Office for the Aging. Mrs. Blake presented the following proposed budget for her department for the period April 1, 1976-March 31, 1977, which must be submitted to the State of New York for their fiscal year beginning April 1, 1976:

BUDGET FOR APRIL 1, 1976 - MARCH 31, 1977

	Budget as presently Approved	Possible New Budget
NEW FEDERAL (1976) MONEY	\$33,713	\$40,000
OLD FEDERAL (1975) MONEY	6,718	10,268
COUNTY SHARE	6,041	7,088
TOTAL	\$46,472	\$57,356

TOTAL INCREASE	\$10,885
Total Federal Increase	9,837
Total County Increase	1,047

New Money Could Be Used For:

1. Promote Outreach Worker to full time at \$5,500/yr. plus \$1,455 fringe	COST \$4,685
2. Implement a homemaker service	
Position A 18 hrs/wk at \$3/hr	\$2,808
Position B 18 hrs/wk at \$3/hr	2,808
Social Security for A & B	329
Mileage	1,200
	7,145
Contributions from clients (estimated)	- 945
Total	6,200
	<u>10,885</u>

Reasoning

1. Outreach Worker is extremely over burdened at 15 hrs/wk and is consistently working over (without pay) just to keep up. Outreach into the Community is a primary objective of the Office and necessary to make our resources known. No other staff member has time to help.

2. Many people need help to keep their homes clean, buy groceries, or do laundry because of physical problems. Obtaining this help may mean the difference between remaining in one's own home or entering an institution. A homemaker service conducted by our Office would provide twelve 3 hour slots of service a week. Each client would be assigned one three hour slot only. The homemaker would spend that time in either cleaning the home or doing necessary outside errands such as shopping or laundry.

The service will not be able to provide help to individuals who need daily aid and will provide no personal care whatsoever.

Clients will be accepted by meeting certain physical and/or social criteria. Clients will be able to pay a suggested fee, but will not be required to do so. Their contribution will be anonymous and of their own choosing, based on what they feel able to contribute.

Mrs. Blake pointed out that the "homemaker services" would be for people over the age of 60 within the County. She said she feels this service can be provided cheaper by her department than by the Social Services Department. The service might consist of paying bills for those who can not get out; helping people just out of the hospital; helping widowers get started on their own after the death of their wife, etc. The purpose of the service is to help keep people in their own homes rather than having them go to an institution.

Supervisor Paduchak asked, "What has happened to the fair hearing on the homemakers?" The County Attorney replied, "We are dealing with two subjects, (1) does the service have to be performed, (2) does it have to be performed by the two homemakers." The State says the service does have to be performed for people over 60, it has not been determined whether it has to be performed by the two people in question.

Supervisor Paduchak said, "At the fair hearing it was shown that the Homemakers were performing services that were not required and in many cases there were teenagers in the home who would refuse to help take care of the home. I think this is wrong. For senior citizens who need this help I would rather see it done by the Office for the Aging than Social Services."

The County Attorney said, "The Commissioner feels this service can be done by other agencies and not necessarily by county employees."

Supervisor Kemp said, "It is the feeling of the Commissioner and the Committee that if we can come up with like services the State will accept it. We are not sure at this time, whether or not they will. It looks as if they will demand the services be performed but we do feel if we can establish these positions in the Office for the Aging they will accept them. With the difference in reimbursement it would be cheaper than doing it thru Social Services."

Mrs. Blake said she would like to call the positions "Home Aid" to differentiate from persons taking care of children versus older people.

Supervisor Batchellor asked if other staff people could not do this work. Mrs. Blake said they did not have time but that Mrs. Robertson would be determining the eligibility of persons requiring the service.

Supervisor Kubatek questioned whether the department was asking for additional funds for their budget. He said at the time the budget was adopted the positions were asked for and disapproved. Supervisor Kemp pointed out that the \$6,718 should have been encumbered from the 1975 budget and this was not done. Supervisor Swiercznski said because of the difference in fiscal years between the state and county, no funds would need to be appropriated for 1976 until the 1977 budget, then the additional \$1,047.00 would be put in the 1977 budget for the first three months of 1977. These positions would have to be created by this Board at a later date, just because the money is budgeted does not automatically create the positions.

Supervisor Dudek questioned the percentage of reimbursement shown in the budget and requested further clarification on the figures before a decision is made.

Chairman Plummer said, "This service must be performed and if it can be done cheaper by this department then I think we should put it there, it would shift one duty from the Social Services Department."

The matter of approval of the budget was delayed until later in the meeting to enable Mrs. Blake to clarify the reimbursement question.

Privilege of the floor was granted to James Hancock, Manpower Coordinator. Mr. Hancock requested that the Chairman send a letter to the New York State Department of Labor expressing the Board's disapproval of the 18 month limitation of employment of C.E.T.A. employees. It was requested that it be pointed out in the letter that if these people are laid off after 18 months they will probably be on unemployment or welfare and in addition new persons would have to be trained to take their place.

Mr. Hancock provided the Board members with a list of the persons on the C.E.T.A. program showing their date of employment and the date when their employment will end. Mr. Hancock also informed the Board that Orleans County will receive \$109,635 for the 1976 Title II Summer Program.

STATE OF NEW YORK  
DEPARTMENT OF SOCIAL SERVICES

1450 WESTERN AVENUE • ALBANY 12243

STEPHEN BERGER  
Commissioner

April 30, 1976

Uldine D. Jurhs, Clerk  
Orleans County Board of Supervisors  
Court House  
Albion, New York 14411

Dear Ms. Uldine:

I have received the Resolution adopted by the Orleans County Board of Supervisors which calls for a number of changes in the social services programs which we offer in New York State. I share your concern with the increasing costs of these programs to local governments. However, despite our financial crises, we must not allow ourselves to forget our primary mission which is to provide relief for the citizens of this state who are truly in need. While several of the changes which you propose are steps which I agree would be desirable, others would severely hinder our overall efforts to provide essential help to those who most desperately need it.

Furthermore, some of the steps you recommend require amendments to Federal law or regulations until such time as those laws or regulations are, in fact, changed, the State and local districts have the responsibility to comply, and the State must enforce those requirements.

My hope is that through discussion of resolutions such as yours we can work toward the evolution of a more rational and more workable social services system in this state. With this view in mind, I would like to comment specifically on each item contained in your Resolution:

Item 1: Each county re-examine eligibility standards, helping only the indigent as determined by the local agency; grant public assistance at 75% and not at the present 100%, and make income allowance rules standard throughout all programs, eliminating different rules in each program.

Eligibility standards for Federal programs must be applied equally statewide. We cannot have individual county discretion and still obtain Federal financial reimbursement. Public assistance grants and allowances are established by the State Legislature; any reduction in grants would thus require legislative action to change the Social Services Law. I would not, however, support such action at this time as the grant level currently provided barely meets the basic maintenance and sustenance needs of most recipients. This Department is currently reviewing the possibility of making income allowance rules standard throughout all programs, but many program variations are required by Federal law.

Item 2: Delete all programs imposed by the State and not mandated by the Federal Government.

New York State offers a wide range of social programs, perhaps wider than any other state. In view of current economic conditions and the fiscal realities we face, it is appropriate to reassess the services we are providing.

Eliminating all non-Federally mandated programs would, however, cripple our efforts to improve the lives of the state's poorest citizens. This action would mean eliminating much of the Medicaid program, all Home Relief and most Title XX services. As you know, earlier this year the Governor recommended legislation which would have cut our Medicaid program to the extent possible without actually endangering the lives of people who must rely on it for their medical care by eliminating as many optional services as could responsibly be deleted. With the exception of some non-prescription drugs, the Legislature restored all the optional services the Governor had proposed eliminating. While we must be constantly striving to avoid any unnecessary expenses, I cannot support your proposal which would cut back on the core services so vital to our overall programs. Instead, we must concentrate on those programs which support families and children in their own homes and which encourage self-sufficiency, but which are not necessarily Federally mandated. Operation of only Federally mandated programs would, in the long run, be extremely costly.

Item 3: Limit the 30 and 1/3 program to six months with a maximum of \$100 per month allowance.

With the current economic situation, many employed ADC recipients through the 30 and 1/3 disregard have more disposable income than many of the working poor. Because of this inequity, we have officially proposed that the Social Security Act be amended and have submitted suggested alternatives to the appropriate Congressional committees. We proposed the following alternatives as a substitute for 30 and 1/3.

Alternative I: All employed ADC recipients would receive \$100 disregard to meet work related expenses. In addition, child care would be paid up to a maximum of \$125 per month. It is our experience that the majority of employed ADC mothers do not utilize the child care services provided by organized day care centers as other type child care is readily available at much lower costs. Thus the \$125 maximum is not an unreasonable amount for child care.

Alternative II: All employed recipients would receive \$100 disregard to meet work related expenses. In addition child care would be provided up to a maximum of \$225 per month. This proposal would enable the employed recipient to utilize the child care provided by organized day care facilities. This recognizes the fact that formal day care is more costly because of enriched programming.

If the individuals were not employed on a full-time basis the \$100 work expense and the cost of child care would be pro-rated. These alternatives do not provide an incentive, but do eliminate any work disincentives. In other words, the employed ADC recipient will not fall below the welfare standard.

Historically, welfare has been available to those individuals and families who are unable to work. Once a recipient is employed and has the ability to be self-maintaining, he should be removed from the welfare rolls. The effect of the proposed alternatives in New York State would be:

Family of 4 -- no child care

Basic Allowance	\$258
Shelter	<u>218</u>
	\$476
Cut-off point	\$576 monthly
	\$6900 annually

For the same family of 4 with child care of \$125 the cut-off point would be \$701 per month and \$8400 per year. For the family of 4 with child care of \$225 per month the cut-off point is \$801 per month or \$9600 per year.

While this Department prefers one of the above alternatives if it is determined that an incentive is required to provide the ADC recipient with motivation to improve their employment capacity we would propose the following formula.

Alternative Work Incentive: The monthly exemption of earned income for ADC recipients should be the first \$100 plus one-third of the next \$300, and one-fifth of the remainder of such monthly income. For less than full-time employment the \$100 would be pro-rated. This \$100 would be a flat amount for work expenses exclusive of child care. In cases where there are child care costs, such costs should be deducted after all exemptions have been applied. This would result in the work expense being deducted from the gross income and the exemption then being applied on the remainder. Under this alternative, the cut-off point for the family of four without child care expenses would be \$9,000 per year and with child care expenses it would be \$12,000. These are more reasonable figures than the current cut-off points which are \$14,500 and \$29,000, respectively.

Item 4: Counties will not start any new Federal or State programs until the start of the counties' next fiscal year.

Legislation at the Federal and State level frequently carries an effective date that does not coincide with the local social services districts fiscal year, partly because the Federal government, the State and local districts have different fiscal years. The Federal fiscal year commences on October 1, the State fiscal year on April 1, New York City's fiscal year on July 1, and that of local social services districts outside New York City on January 1. For its programs, the Federal government determines the effective date and State Government generally follows suit. I do realize the difficulties generated by start dates which postdate local district budget cycles. However, the mismatched State and local fiscal years do, and will continue to, cause problems and we will, whenever it is within our jurisdiction, make every effort to take the county fiscal year into consideration.

Item 5: Assign all able-bodied recipients of Aid to Dependent Children and Aid to Families with Dependent Children to public work relief projects.

Review of our work relief program is now in progress, with a view toward strengthening the current program and recommending appropriate modifications. However, work relief programs, while socially more desirable, are often more expensive than providing regular public assistance because of the additional costs for work-related expenses such as travel or child care for the recipient. As you know, however, all employable HR and ADC recipients, except WIN registrants, are required to report to the State Employment Service every two weeks to pick up their grant checks and for manpower services. We must work closely with the Employment Service to insure that these recipients are, in fact, referred to available jobs. In addition, in districts where there is a WIN program in operation, it must take priority over any work relief projects.

Item 6: A single employable person who quits his or her job intentionally, thereby reducing their earning capacity, would be entitled to public assistance for a limited period only.

Single employable persons are generally recipients of the Home Relief program. State law currently provides that any person who voluntarily terminates his employment or voluntarily reduces his earning capacity for the purpose of qualifying for Home Relief shall be disqualified from receiving such assistance for 75 days from such termination. This provision is an adequate safeguard against persons who deliberately quit their jobs to become welfare recipients.

Item 7: Eliminate the present "Aid to Continue" rule in fair hearings. This will do away with ineligible clients receiving money only because they asked for a fair hearing.

The requirement for aid continuance in public assistance cases is founded in Federal constitutional law, case law from the United States Supreme Court and the Code of Federal Regulations. Goldberg v. Kelly, 397 US 254 (1970), states that welfare recipients should not have their aid terminated without an opportunity to contest the basis of a discontinuance and to produce evidence in rebuttal. Federal Regulations (45 CFR 205.10) further maintain that a fair hearing procedure shall include the giving of timely and adequate notice. Timely notice is defined as a notice mailed at least 10 days before the date upon which the action would become effective. These regulations also state that the due process standards of Goldberg v. Kelly must be followed. Therefore, it is clear that we have no choice but to comply with the aid continuance requirement.

Item 8: Eliminate the "cost plus" method of determining nursing home rates and eliminate retroactive adjustments. Allow \$15.00 per month for personal needs at a nursing home or infirmary, not \$28.50 as it is now.

Cost Based Rates -- I would agree that the "cost plus" methods previously followed are inappropriate and have often resulted in excessive costs. Federal Regulations (CFR 250.30 implementing Section 249 of PL 92-603) effective July 1, 1976, require that states are to reimburse nursing homes on a cost-related basis. This Department opposes the July 1, 1976 regulations and advocates repealing them. Rates should, however, be cost-related. The Legislature has, with some major modifications, accepted the Governor's suggestion that more stringent controls be imposed on the rate setting system for nursing homes. The Department of Health has been directed to establish a minimum of five criteria related to the quality of care provided and has been directed to link the rate setting procedure more directly to these criteria.

Retroactive Rate Adjustment -- While it is essential to have procedures for adjusting rates retroactively, I would agree that the system was seriously abused in the past. Beginning in December 1975, the State has adopted a much more stringent policy on retroactive reimbursement than had previously prevailed.

Replacing the \$28.50 personal incidental allowance with a \$15.00 allowance -- The present allowance of \$28.50 is based upon the old AABD allowance of \$17.00 and had evolved to \$28.50 by our decision to "pass on" a portion of subsequent social security benefit increases. I think it is a reasonable amount, particularly when it is such a miniscule portion of total Medicaid expenditures. It is very important, however, that we insure that such allowances do, in fact, go to the elderly who deserve the dignity of being able to purchase their own personal items. While I agree that ways must be found to control costs in the nursing home industry, this goal can better be accomplished through tighter management and more accountability than by cutting incidental allowances for patients.

Item 9: Eliminate limit on restricted grants. Many recipients cannot handle money and need controls. Let the local agency determine who needs these controls and how tightly the grant must be controlled.

The limitation on restricted grants is also part of the Social Security Act and would require Congressional action to change. The Department has continually opposed the limitation of 10% on restricted payments and will continue to work for passage of legislation to change this requirement.

Item 10: Counties will terminate any program that loses reimbursement from the State and/or Federal government.

If a local social services district loses State or Federal reimbursement for a mandated program because it is not in compliance with State or Federal statute or regulation, that district is still required to provide the service and the State must take the appropriate action to insure that the mandate is carried out.

Finally, I want to thank you for communicating to me your feelings on these important issues. I shall do all that I can to assist county social services departments in carrying out their responsibilities in the most efficient manner possible, and I trust that you will lend your support in that effort.

Sincerely,

Philip Iria  
Executive Deputy Commissioner

Reconvened at 1:40 p.m., all Supervisors present.

Supervisor Swiercznski read the following item from the Albion Advertiser which was in the paper 100 years ago, "Tramps complain because there are no soup houses in Albion."

Privilege of the floor was granted to Commissioner Klapper. Mr. Klapper said that Supervisor Kemp had asked him to come to the meeting and speak on the question of Homemakers.

Mr. Klapper said, "First, homemaker services are mandated, there is no question about that. There are nine services mandated under Title XX and homemakers is one of them."

Supervisor Paduchak asked Mr. Klapper if homemaker services had to be provided where there were teenaged people in the home who should be capable of taking care of the home and family. Mr. Klapper answered no. He said, "Homemaking services are to be provided where deemed necessary and appropriate. Those services must be provided if there is a need. Second, the question is what kind of homemaking and who is going to provide it. The department has calls for various services including S.S.I. In reviewing the services program over the last year, my feeling is, the predominant amount of homemaking services were for the aged. This Board said these homemaking services are not required and I concur. Every year the department assumes more and more services to the community that the community itself should be providing. My feeling is we should put community services back into the community wherever possible. Our department essentially is an informational and planning function to work with the community to help it build up its Inter-Agency Council and its community services so that they can begin to work better. This county has an Office of the Aging and that means a number of services within the community delivered to the aging. Since the predominant amount of work of the homemakers was for the aging and since the Office for the Aging is established and provides services for senior citizens other than homemaking that that is where that function resides so that it can be better coordinated at a community level. Those services should lie with the Office for the Aging where they have expertise. We don't have expertise for everything in the county. I was asked about family planning under Title XX and I said those services are provided. I am planning on having a part of the department just for information and referral services. I am reducing the Title XX budget to that end.

One of the concerns of the Board might be that if this money is appropriated to the Office for the Aging and the fair hearings go against us, you might be stuck with four homemakers instead of two. It is a calculated risk but we would still have to go outside the department to provide those services."

Unanimously adopted.

The Clerk read a letter from the Governor's office acknowledging receipt of Resolution No. 100. Ordered filed.

Received a letter from the Department of Audit and Control acknowledging receipt of Local Law No. 1.

Presented the Annual Report of the Western Regional Off-Track Betting Corporation.

Supervisor Kubatek asked that the resolution appropriating monies to libraries be removed from the table.

Supervisor Dudek said, "After the meeting I contacted one of the librarian's and arranged a meeting with the Division for Youth. There is a good chance of separating the funds libraries use for their youth programs. There's \$34,000 Orleans County could use that we are not using. If they separate the costs for those programs we can get matching funds for any monies we give to the libraries. The librarians will be having another meeting, I would like to table this until we get these figures together. We may be able to continue on the same level of funding. The Division for Youth thinks this can be worked out without any problems. The only question might be use of FRS funds - it would be only a matter of paperwork. The cost to the county would be less."

Supervisor Kubatek asked if anything had been done about a Traffic Safety Board. Mr. Astles was asked to have someone at the next meeting to explain the details.

Supervisor Kubatek said you have had a chance to study the recommendations of the Delinquent Tax Committee regarding putting foreclosed property up for auction, what is your opinion?

Supervisor Paduchak said, "This is probably one of the last things that you as a legislator have to do with real property as far as your towns are concerned. I can not see where we should put ourselves in a position of selling this property on the Court House steps. It should be sold by the individual Supervisor at the site. Monroe County a few years ago sold away their beach this way."

Supervisor Kubatek said, "This has come up several times, we represent all the people in the County and it is up to us to get this property back on the tax roll. These people have three years to redeem the property, they get notices and they will get notices of this, I would move on this."

Supervisor Piedimonte said, "I feel that if somebody has bad luck maybe they need just a little more time. I would like to give the individual supervisor who knows the case the time then if after you have tried to get it back on the roll put that piece up for auction."

Supervisor Batchellor said, "I do not think it should be left to the individual supervisor. I think it could be a committee so it would not be a one man show."

Supervisor Swiercznski said, "Some of these properties have been as long as six years. You must set a precedent and say after a certain length of time we have done everything possible. You must do something to get these properties back on the tax roll."

The County Attorney suggested that it would be possible to wait a year after the foreclosure to include those properties in the auction. He said any plan must be uniform in nature. The program at present is no program. The whole matter of each sale is subject to confirmation by this Board.

Tabled until the next meeting to allow the committee to consider revisions.

#### RESOLUTION NO. 115

By Supervisor Bane, who moved the adoption.

Seconded by Supervisor Batchellor.

#### RESOLUTION AUTHORIZING PAYMENT OF CLAIMS AGAINST THE COUNTY

WHEREAS, the Auditing Committee has audited and allowed Claims No. 7811-8059, inclusive, aggregating \$41,396.73, and FRS Claim No. 1080 aggregating \$7,335.00, and No. 788-825, inclusive, (Road Fund), aggregating \$75,295.49, and No. 1448-1477, inclusive, (Machinery Fund), aggregating \$8,079.97, now therefore be it

RESOLVED, that unanimous consent be granted to pay these claims and the Clerk and Highway Superintendent be directed to draw demand orders on the County Treasurer in payment of said claims.

Adjourned at 3:00 p.m., until May 20, 1976 at 8:00 p.m.

REGULAR MEETING  
Thursday, May 20, 1976

The meeting was called to order at 8:00 p.m., by the Chairman. The Clerk called the roll and all Supervisors were present except Supervisor Batchellor who was excused because of illness.

It was moved by Supervisor Piedimonte and seconded by Supervisor Bane that the reading of the minutes of the previous meeting be dispensed with and the same be approved as prepared by the Clerk.

Carried.

Privilege of the floor was granted to Mrs. Mary G. Zangerle, Librarian from Lee-Whedon Memorial Library, Medina, N. Y., representing the county librarians. Mrs. Zangerle said, "Having pursued alternative funding through the N.Y.S. Division for Youth we would like to ask the Board of Supervisors for the same allocations as last year.

Two of our county libraries were advised by their boards not to participate in this grant as it would not be advantageous at this time. We feel the short time allowed for preparation of this application did not give us the opportunity to explore all possibilities. The amount of time required in preparation and administration of this grant seems out of proportion to the benefits it offers. Propositions should not be entered in haste. Given time we might be able to coordinate efforts between the county libraries and between the communities and the libraries serving them. No matter what allocations are forthcoming from this board I intend to apply for matching funds through the state but feel that total participation across the county is necessary for this to be equitable.

We realize we must seek additional funding. I, personally, am attending a seminar/workshop on the budget crunch next week in Buffalo. It seems to me when our own local support is abandoning the libraries on all sides it's hard to imagine that we might gain the sympathies of outside funding agencies. But we'll try!

Again I would like to urge the gentlemen on this board to seriously reconsider and approve allocations comparable to last year's for our county libraries."

Supervisor Piedimonte asked, if we seek funds through the State Division for Youth do we have to form a Youth Bureau? Supervisor Dudek said, "It would not require formation of a Youth Bureau. It was a suggestion made for coming years, it would not be required for matching funds."

Supervisor Piedimonte noted that Revenue Sharing Funds to the County will be \$40,000 less this year.

Supervisor Dudek said, "Based on the program there is a chance of picking up \$8-9 thousand dollars in state aid. If the availability of state aid can help then it is something we have to work at. With Revenue Sharing \$40,000 less this year, someone will have to have less."

Chairman Plummer said, "Under this program the libraries could get more money then last year."

Mrs. Lyman, from the Swan Library, said, "We would be accountable to another department within State government. There could be complications between the executive branch and the education branch of government."

Supervisor Paduchak noted that his relations with the Division for Youth had always been very good.

Recessed at 8:15 p.m., reconvened at 8:20 p.m.

It was moved by Supervisor Piedimonte and seconded by Supervisor Kubatek that the question of appropriating funds to the county libraries be tabled until the next meeting of the Board.

Social Services Committee  
Honorable Board of Supervisors  
Albion, New York 14411

Gentlemen:

I. Following is a brief summary of the results of the April 8, 1976 mailing of 700 certification letters in Public Assistance.

- a. 14 cases were closed as a direct result of the letter. This will result in a savings to the taxpayers of approximately \$13,600 over a six (6) month period provided those clients do not reapply and certify for continued assistance during that period.
- b. An additional 33 cases were closed during the approximate time period following the April 8 mailing, and although we can not say for certain, many may have been the result of that letter. (For instance, certain clients appeared in the Department as a result of the certification request, and informed us that they no longer need assistance since they had found employment, etc.) Those 33 cases will result in a savings to the taxpayers of approximately \$29,000 over a six (6) month period provided those cases are not reopened.

II. Following is a summary of the results of the case closings of the 16-20 year olds which required emancipated minors to show cause as to why their parents could not provide primary support rather than the Department of Social Services. (The Commissioner acted "on behalf of said minors" and ordered both parents and minors into Court to show cause for proceedings earlier this month. 25 cases were closed prior to Court action. Amount of savings to the County over a six (6) month period would have been \$12,000, had we not received notification of a state wide class action which temporarily restrains the order which forbids the enforcement of the new regulations under Home Relief. Until such determination is made, we are informed these cases must remain open.

III. a. ADC - present caseload size is 481, 49 being opened during the month of April, but 73 closed.

b. HR - present caseload size is 259, 63 opened during the month of April, but 72 closed.

IV. Budget Figures for ADC, 1976. The monthly budget allocation should be approximately \$128,000. In January, \$203,000 was expended (more than \$75,000 over the monthly budget). Last month, actual expenditures for April had dropped to \$164,000 - \$37,000 over budget. All of which represents a decrease in budget such that we may reach our budget line, barring major catastrophes by September 1. We estimate that the budget may drop an additional \$10,000 in May.

V. Budget Figures for Home Relief, 1976. The monthly budget line for HR is approximately \$41,600. In January, we expended \$63,000 of HR money, \$21,300 over budget. Last month we spent \$53,800, approximately \$12,000 over budget. (\$12,000 over the monthly budget lines as opposed to \$21,000 over budget in January.) We estimate that HR may drop an additional three to four thousand dollars in May. Barring any major catastrophe, we will reach our budget line by September 1.

I am guardingly optimistic about the PA rolls. No one can say for certain what has caused the drop in the monthly rolls, and I feel it is unrealistic to attribute it to the Department entirely. Let me say then, it is a combination of slightly better economic conditions, a slight improvement in the job market, a tightening down by the Department of state and local procedures, and renewed efforts of the Investigation Unit.

I do not know, at this point, by how much the total amount of expenditures for Public Assistance will exceed the annual budget allocation; but it will exceed it. The most important thing is, at this point and time, that we may very well be able to lower monthly expenditures to an approved level of expenditures.

Very truly yours,

  
Jerim Klapper, Commissioner  
Orleans Co. Dept. Social Services

The Clerk read the following report to the Board of Supervisors concerning the upcoming hearing on the Reclassification of Surface Waters in the Genesee River Basin, presented by the Planning Board Staff.

"On May 14, 1976 I met with Mr. Paul Schmeid of the New York State Department of Environmental Conservation to review the proposed reclassification of surface waters within the Genesee River Basin and its potential impact upon Orleans County.

After review of DEC river basin maps, and conversation with Mr. Schmeid, I discovered that no water system in Orleans County are connected with the Genesee River Basin and, further, that those tributaries and subtributaries listed in the new reclassification system do not include any county creeks, streams or drainage systems.

Upon such discovery I determined that the reclassification of surface waters within the Genesee River Basin can be ignored by Orleans County since it will not affect us."

The Clerk read a letter from Raymond T. Schuler, Commissioner of the NYS Dept. of Transportation, dated May 7, 1976, urging support for H.R. 13138 and S3306.

Supervisor Piedimonte said at a meeting in Syracuse it was stated that the Penn Central (now Conrail) would probably start paying taxes next year.

Supervisor Paduchak asked the County Attorney to investigate the possibility of charging back the unpaid railroad taxes to the schools. The County has paid the schools the unpaid taxes and should be reimbursed.

A statement was read from Senator Buckley regarding Revenue Sharing. Ordered filed.

#### RESOLUTION APPROVING AGREEMENTS FOR PRIVATE ADMISSION TO THE ORLEANS COUNTY HOME AND INFIRMARY AND MEDICAID ADMISSION AGREEMENT TO ORLEANS COUNTY HOME AND INFIRMARY

RESOLVED, that this Board does hereby approve the agreements herewith presented by the Social Services Committee of this Board, namely, Private Admission Agreement to the Skilled Nursing Facility of the Orleans County Home and Infirmary; the Private

Admission Agreement to the Health Related Facility of the Orleans County Home and Infirmary and the Medicaid Admission Agreement to the Health Related Facility of the Orleans County Home and Infirmary.

Adopted. 351 ayes; 0 nays; 1 absent, Supervisor Batchellor (21).

Recessed at 9:00 p.m., reconvened at 9:15 p.m.

Supervisor Swiercznski announced that the Board was invited to tour Bayex Co. on June 3rd and have lunch at the Village Inn.

It was moved by Supervisor Swiercznski that this Board pass a resolution requesting Genesee Community College to refrain from sending advertising into Orleans County. Motion withdrawn at the request of the Chairman of the Finance Committee who requested that any action be deferred until after the meeting with representatives of the college.

Chairman Plummer asked for a resolution rescinding approval by this Board for classes to be held by Genesee Community College in Orleans County. Supervisor Piedimonte requested that this matter also be deferred until after the meeting with college officials.

The County Attorney announced the decision of the arbitrator in the matter of Orleans County and C.S.E.A. regarding the Social Service unit contract. "The grievance is sustained. The County shall forthwith pay all members of the bargaining unit the appropriate pro-rated share of the 1976 salary, increment, and longevity increases contained in the Agreement, and subsequently continue to pay members of the bargaining unit at the 1976 rates."

Supervisor Piedimonte said, "This comes as a hard blow at hard times. We need some studies, (1) to eliminate the County Highway Department, and I am sincere, and (2) consolidation of the police forces in the County. In the Village of Holley, the budget is \$65,000, Albion \$111,000, and Medina \$150,000. Medina has eleven men and two cars; Albion, has eight men and two cars; Holley has four men. A study should be made to consolidate the police forces and charge back to the towns. Each town has a highway department, our county budget for the highway is something like \$600,000. We could have something like a metro police force or a charge-back of some kind. In the Highway Department we have the building up there, maybe we could make offices out of it. We still have to have a County Highway Superintendent by law."

Referred to the Planning and Development Committee.

Supervisor Kubatek said, "I would like to have this Board set aside a day for the Board to get together and go with the Highway Superintendent around the county and look at the roads and decide as a Board which roads need fixing and which roads will be fixed in what order. Also, we get a lot of calls about drainage problems. We should get a study of the drainage problems and perhaps set up a drainage system in the county." Referred to the Highway Committee.

RESOLUTION RE: TERM OF DIRECTOR TO WESTERN REGIONAL OFF-TRACK BETTING CORPORATION

RESOLVED, that effective immediately Mr. James Hubbell's term as Orleans County Director on the Board of Directors of the Western Regional Off-Track Betting Corporation be, and the same hereby is, terminated.

Adopted. Supervisors' Plummer, Kemp, Paduchak, Piedimonte, Dudek and Bane voting Aye (190); Supervisors' Nayman, Swiercznski and Kubatek voting Nay (161); Absent Supervisor Batchellor (21).

Before the adoption of the above resolution the following discussion took place:

Supervisor Nayman, "What is the purpose of the removal of Mr. Hubbell. I understand he is one of the people who has voted against pay increases and put forth the position of the people of the County of Orleans as far as any money saving thing they could do as far as cutting down expenses and operating costs. I am just wondering what prompted this termination."

Supervisor Swiercznski, "I think it is politics at this point."

Chairman Plummer, "It has been politics all along."

Supervisor Paduchak, "All right, Mr. Swiercznski, you realize it is politics. I am not going to put that under the rug. When you appointed two people before-hand we went along with you. We wanted to do this thing the 1st of January and it was thrown back at us. I honestly tried to get an honorable solution, it did not come forth. I have a resolution on the floor, Mr. Chairman."

Supervisor Kubatek, "Is there any way to table this until the next meeting.?"

Supervisor Paduchak, "I have waited since January, Mr. Kubatek, and I talked to you and nothing has come from you."

Supervisor Kubatek, "I feel Mr. Hubbell has done a good job. I have heard no complaints of what he has done so far. It is an unpaid job."

Supervisor Paduchak, "Mr. Chairman, I call for a vote."

Supervisor Nayman, "Can we table this under the rules?"

Supervisor Dudek, "That rule applies only to appropriation of money."

Supervisor Paduchak, after adoption of resolution, submitted the name of Mr. Martin Basinait, Albion, N. Y., to be the Orleans County Director on the Western Regional Off-Track Betting Corporation. Said appointment to be effective in thirty days.

Adjourned at 9:35 p.m., until 10:00 a.m., June 3, 1976.

The meeting was called to order at 10:15 a.m., by the Chairman. The Clerk called the roll and all Supervisors were present except Supervisor Kemp, who was excused because of illness.

It was moved by Supervisor Bane and seconded by Supervisor Swiercznski that the reading of the minutes of the previous meeting be dispensed with and the same be approved as prepared by the Clerk.

Privilege of the floor was granted to representatives of the Orleans Council on the Arts to present the Bi-Centennial Quilt made up of thirty-five blocks of scenic and historic areas of the County located in all ten townships. Twenty-five women did the applique' work on the blocks under the direction of Ruth Pettit. Designs were provided by Veronica Thompson and Kay Carlson. About ten ladies did the quilting. It is planned that the quilt will be exhibited first at the Centennials' week-end to be held June 19-20th, which is the 150th anniversary of the County. Then it will be shown at various times in the four libraries in the County. Finally, it will be presented to the County to be hung in an appropriate area in the Court House, to be hopefully, again shown at the Tri-Centennial. All persons present at the meeting exclaimed at the beauty of the quilt and the fine work which went into producing it.

#### RESOLUTION ACCEPTING BICENTENNIAL QUILT

WHEREAS, the Orleans Council on the Arts has presented to the County of Orleans a Bicentennial Quilt containing thirty-five hand sewn blocks of scenic and historical sites in the ten Towns of the County, and

WHEREAS, this quilt in addition commemorates the 150th Anniversary of the County of Orleans, and

WHEREAS, this quilt employs the artistry of more than twenty-five women throughout the County who designed the various blocks and did all of the stitchery and the quilting, and

WHEREAS, this quilt is a priceless recognition of the historical importance of our County as portrayed by talented, active and knowledgeable members of our County community, and

WHEREAS, the said quilt will be on display at various bicentennial celebrations during the year 1976 and will thereafter be placed on permanent display in the County Buildings for the benefit of posterity.

NOW, THEREFORE, be it by acclamation resolved that the Orleans County Board of Supervisors accepts the Orleans County Bicentennial Quilt on behalf of all of the citizens of the County, and

BE IT FURTHER RESOLVED that the Orleans Council on the Arts and all of those who participated in the design and creation of the Bicentennial Quilt be, and they hereby are, extended the unanimous appreciation of the County for their efforts, and

BE IT FURTHER RESOLVED that an appropriate cabinet be constructed to permanently house the Orleans County Bicentennial Quilt in such manner that it will be protected for posterity and conspicuously displayed in such place in the County Buildings as may be directed by the Board of Supervisors at the close of the various bicentennial celebrations.

Unanimously adopted.

Privilege of the floor was granted to Robert Golden, Probation Director. Mr. Golden said, "After an on-site inspection by their Sr. Program Analyst Andrea Vachss, New York State Division of Criminal Justice Services is considering granting a six-month extension on the Probation Outreach Program, allowing the department to maintain the supervisor position and one outreach worker. The total cost would be \$13,323.73 (shared by Federal, State and County government). The County share would be \$1,267.20. This program and its various components have been successful in providing public safety at a very reasonable cost and in effect save the taxpayers money. Therefore, I request that the Board take such action that will allow the Probation Department to continue the project in geared-down fashion for the remainder of 1976."

Mr. Golden described three cases where the taxpayers were saved money and lives perhaps were salvaged. Matter referred to the Finance Committee for recommendation at next Board meeting.

Mr. Paul I. Miles,  
County Attorney  
County of Orleans  
Office of County Attorney  
343 Main Street  
Medina, New York 14103

Dear Mr. Miles:

5% Penalty

Upon the expiration of the warrant a tax collector shall add 5% to each tax returned to the county treasurer (\$936 RPTL).

You state that the county treasurer has always extended the warrant to May 1 - this is the date the warrant expires. All taxes paid on May 1 or with a United States postmark of May 1 should have been received by the town tax collector without the 5% penalty. This

year since May 1 was on a Saturday the time the town tax collector should collect taxes was extended to Monday, May 3 (General Construction Law, §20). The 5% penalty should not have been charged on taxes collected on May 3rd or with a United States postmark of May 3rd.

I trust the above is helpful.

Very truly yours,

ARTHUR LEVITT  
State Comptroller

#### RESOLUTION AUTHORIZING COMMUNITY PARTICIPATION IN COMPREHENSIVE PLANNING AND MANAGEMENT ASSISTANCE PROGRAM

WHEREAS, the County of Orleans, in order to provide for a planning study contributing to an overall program for its future community development, desires to participate in the Federal-State Comprehensive Planning and Management Assistance Program as authorized by Section 701 of the Housing Act of 1954, as amended, and Article 26 of the New York State Executive Law, and

WHEREAS, the New York State Division of Community Affairs of the New York State Department of State, is the official State planning agency designated to administer the Housing Act of 1954, as amended, now therefore, be it

RESOLVED, that the Board of Supervisors of the County of Orleans hereby requests the New York State Division of Community Affairs to provide planning assistance with such financial assistance as may be provided by the United State Department of Housing and Urban Development, under authority of Section 701 of the Housing Act of 1954, as amended. Such planning assistance is more particularly described in the project application.

RESOLVED, that if the aforesaid application is approved and accepted by both the Director of the New York State Division of Community Affairs and the Department of Housing and Urban Development, the County of Orleans shall enter into a formal agreement with the New York State Division of Community Affairs to undertake the project described in the approved application and to pay to the State of New York its share of the estimated total cost of the said project, together with such other terms and conditions as may be deemed necessary and appropriate to carry out the said project.

RESOLVED, that the County of Orleans hereby agrees to have available, in the year the project is to be completed, the sum of Two Thousand and Five Hundred dollars (\$2,500.00) or so much thereof as may be necessary to contribute a sum not to exceed 16.67 per centum (16.67%) of the total cost of said project, to be paid to the State of New York, on condition that the above-mentioned application is approved by both the Department of Housing and Urban Development and the Director of the New York State Division of Community Affairs of the New York State Department of State.

RESOLVED, that the County of Orleans shall assume the costs of operating and maintaining its own planning board or commission including such services as clerical personnel, office space, equipment, materials, communication and travel, as such costs cannot be charged to the Comprehensive Planning and Management Assistance Program,

RESOLVED, that the Chairman of the Board of Supervisors of the County of Orleans be and hereby is authorized and empowered to execute in the name of the County of

Orleans all necessary applications, contracts and agreements to implement and carry out the purposes specified in this resolution.

Supervisor Dudek said, "As everyone knows, the government under which we operate was set up a number of years ago, and on a temporary basis. If we continue to operate that way, I guess the problems -- the Planning Board was referred that problem, to see what they could come up with and they have been working on it for several years now. It is a complicated problem. I was at a meeting last week in which an individual was down from the Division of Community Affairs and it has come to our attention that there is a possibility of receiving some assistance from the State of New York as far as some planning and surveying to make some recommendations to the County on what would be the best form of government, what some of the legal problems that we might have that we could avoid by operating a certain way. They would also be willing to take a look and see whether the administration of the County should be handled differently and whether we should consider a charter. This service is available without any cost to the County and it could be implemented by a letter of request from the Chairman of the Board of Supervisors. As I understand, within a period of six weeks or so, several individuals from the State would come down. They would meet with each member of the Board, the heads of various departments, possibly some members of the Planning Board who have been involved with some of these studies. They would prepare recommendations on where we are, what we need today, maybe what we should do and what we can do - that sort of thing - and give us something more concrete to work with; maybe combining some of their suggestions with some of the work that the Planning Board has done and some of the areas that we have that we are knowledgeable in and maybe we could get this thing off on something positive. It seems like it would be a good idea. There is no cost to this program. I think it would get off on a positive note, with some action being taken."

Supervisor Paduchak said, "Supervisor Dudek talked with me about this regarding the reapportionment of the County, we are in a position of waiting for the courts. I told Stanley of the possibility that we should ask the Department of State to come in here and give us this study on reapportionment. I think there are two categories we are interested in - studies and evaluation of municipal management problems and legislative reapportionment."

Supervisor Kubatek said, "There was a law suit instituted, sent to the Supreme Court and the County, we never received an answer back on it, and I would like to find out what the court's standing is on it. The last study that we made and was adopted by the Board with some "nay" votes was that the larger townships would have an additional supervisor and the results have never come back and I think we are entitled to an answer."

Supervisor Paduchsk, "All well and good on that point, but this is a different matter regarding County Government. I think we should avail ourselves of this."

Supervisor Nayman said, "If there is no cost to the County, what are the binding results of this thing, if someone comes up with some ideas?"

Supervisor Dudek, "There is nothing compulsory about this service, it is up to us to institute any action."

Supervisor Paduchak read the following excerpt from the bulletin from the Division for Community Affairs, "the divisions duties would provide local officials at their request, advice, consultation, technical assistance, information and for certain purposes, financial assistance to help them both in providing day to day services and making and implementing community development and plans for the future."

Supervisor Dudek said, "This came as a direct result of a Governmental Committee of the County Planning Board and it is their recommendation."

Supervisor Swiercznski said, "It was said, to find a permanent form of government. I don't know how much more permanent we can be. We have been here 150 years."

## GENESEE COMMUNITY COLLEGE

June 17, 1976

Orleans County Board of Supervisors  
County Building  
Albion, New York 14411

Gentlemen:

As per your request in our meeting on Wednesday, June 16, at the Albion Central School Administration Building, I wish to provide my estimate on the amount of capital chargeback that would be saved by continuing off-campus credit programs in Orleans County.

Using Fall 1975 and Spring 1976 Orleans County off-campus enrollment figures as a guide, the total capital chargeback for those semesters was \$5460. This figure is an estimate based on 194 part-time registrations. Again, I wish to point out that effective September 1976, should an equal number of students register for part-time courses at off-campus centers in

Orleans County, there would be no capital chargeback to the county for those registrations. In addition, I hope that you will agree that credit offerings in Orleans County provide a service and convenience, as well as save travel time and costs, for the residents of your county who desire to pursue a college education.

I hope this information will be of some assistance to you.

Sincerely,

Kenneth F. Witt  
Director of Special Programs

RESOLUTION AUTHORIZING AGREEMENT BETWEEN THE STATE OF NEW YORK DIVISION OF CRIMINAL JUSTICE SERVICES AND THE COUNTY OF ORLEANS

BE IT RESOLVED, that the Amendment to the Agreement between the New York State Division of Criminal Justice Services and the County of Orleans as herewith presented, for the Intake-Outreach Program (L.E.A.A.) in the Orleans County Department of Probation, be and the same hereby is approved by this Board and the Chairman of this Board is authorized to execute the same in the name of the County of Orleans.

Adopted. 276 ayes; 2 nays, Supervisor Swiercznski (24) and Supervisor Kubatek (72); 0 absent.

Supervisor Kubatek said, "Supervisor Dudek presented to us a new plan for support to the libraries; however, I checked with our local librarian and as far as I am concerned -- in fact, in my discussion with her, I still leave my motion as presented on the floor that the libraries be given the same amount of money as last year."

Supervisor Piedimonte said, "Our revenue sharing was cut \$40,000 regardless of what you read in the papers. I know Mr. Dudek had good intentions but that is strictly for youth."

Supervisor Dudek, "That is only separating that portion of the things that continue to qualify for state aid."

Supervisor Piedimonte, "They can't even buy a book with it."

Supervisor Dudek, "Yes they can buy books with it. The youth program goes up to age 21, and there are books that are used for their programs. I did this to help us save some money for the county. It is up to the Board about what they want to do. But to me, the County's cost of this is going to be reduced about \$5,000; and if you would rather go along with Stan's motion and have it cost \$18,000 and still have the libraries receive less benefits, it is your choice."

Supervisor Paduchak, "There seems to be some question about this program that Mr. Dudek has presented to the Board. I know we have tabled it, to vote on this, from meeting to meeting. Stan, would it be possible for you to get something in writing to this Board, from the director in Buffalo - pro or con; is this money available to libraries?"

Supervisor Dudek, "I am sure he could come down here. I went through the budgets the libraries prepared and submitted to the State. They had been approved by the State in the two cases of the Albion and Medina libraries. Both of them are going to be receiving more money than they have in the past. Lyndonville, because they don't participate, would receive the same amount and Holley would have some of its state aid and an additional amount would have to be given to Holley because their Youth Program is relatively small."

Supervisor Paduchak, "It seems to be a confusing issue because we don't have anything in writing of what the Division for Youth will offer in this program. That is why I ask Stan, if you can get the representative in Buffalo to give us something on paper. Then I think the Board will not be faced with the confusion of whether it is right, or whether it's wrong; whether it is available or whether it is not available."

Supervisor Dudek, "The point is, it is available. The money has been approved by the state. The figures that I have given on this set here, are the same amounts that Mr. Laskowski has accepted from each library. The libraries gave us these figures. These aren't figures that I have made up. These are figures that are eligible for state aid based on what the libraries submitted to this director. So the libraries are well aware of what can be done, and what can't be done. These are the amounts of money they will have for reimbursement. And I would like to ask Supervisor Kubatek if, in discussing it with the librarian in Medina, they felt that they would rather have the expenditures of last year or the money that might be available under this program."

Supervisor Kubatek, "Some of the libraries that took the initiative to apply for state aid felt that they were being discriminated against."

Supervisor Dudek, "They all took the initiative; the ones that have the ability to qualify for it."

Supervisor Swiercznski, "I think we have made a commitment to the libraries. Now let's give them this money and get it over with, and from now on let them work on a new program; get ready for next year's budget. I think they need it as much as the sheriff needs money for revenue sharing or public transportation. I think libraries are just as important."

Supervisor Kemp, "Mr. Chairman, I was absent from the past meeting and I wonder if the Board has had the opportunity to see any of the proposed budgets of the libraries. Has anyone examined them, ever seen one of them? For this very reason I think we should see them all. Now, if we haven't seen their proposed budgets, and don't know what financial condition they are in, I think we should have the privilege of examining their proposed budgets before we allocate any money."

Supervisor Swiercznski, "Libraries themselves come up with the quota on whatever money they have got for these libraries. And I think, whatever you are talking about, what little they get down there, they need."

Supervisor Dudek, "But the fact is, out of that \$40,000 that we are getting in federal revenue sharing, somebody is going to have to have less. The proposal I have here with the state aid funds allows us to cut down that budget and still there is additional monies, even for the libraries."

After further discussion, the County Attorney was asked if the State would guarantee the money. Mr. Miles replied, "Mr. Laskowski called me about this, and I raised the question to guarantee the money. He said it is set up, as the one that approves it. The proposed contract, as submitted, was revised to make it executor, so that we don't get the state aid, we don't have to pay it. This man tells me that he is the man who approves the state aid, and that state aid comes under the contract if we do it."

Supervisor Kemp asked, "Does that mean we hold up our county payment until we get the state aid?"

County Attorney Miles, "What he said it would be contingent upon - the only requirement - would be the county putting up the money, and that is contingent upon the state paying us. It would be done all at the same time. They would notify us that they accepted the contract, state aid would be coming, and then we pay the money."

The discussion continued on, and after a short time, Supervisor Dudek said, "I would like to table this until the next time we meet for several reasons. One is that I would like to contact Mr. Laskowski, to see if he could be here. I would like to receive budgets for all the libraries that are coming here, and have available the application to the state for the grant so that we can see what they are doing with the programs."

Recessed at 9:20 p.m., reconvened at 9:25 p.m.

It was moved by Supervisor Dudek and seconded by Supervisor Paduchak that the question of county aid to libraries be tabled until the next meeting of the Board to enable the libraries to submit their budgets to the Board and to receive in writing assurance from the state regarding aid.

Carried. 188 ayes; 184 nays, Supervisors' Nayman (65), Swiercznski (24), Kubatek (72) and Bane (23) voting nay; 0 absent.

Supervisor Bane informed the Board that he had attended a meeting with Livingston County relative to the Mount Morris T.B. Clinic. He said the proposed budget will be \$2500 less next year. The per capita cost will be 27-1/3¢ rather than .34¢.

RESOLUTION AUTHORIZING LETTER OF INTENT TO PARTICIPATE IN T.B. CLINIC FOR 1976-77

BE IT RESOLVED, that the Clerk be authorized to notify Livingston County that Orleans County intends to participate in the Mount Morris Tuberculosis Clinic for fiscal year 1976-1977.

Unanimously adopted.

Supervisor Kubatek moved that the original resolution to sell at auction property owned by the County which had been taken in the In Rem foreclosure Proceedings be amended to insure that properties taken in the foreclosure would not be sold at auction until one year had elapsed but that sales of foreclosed property would continue as in the past giving each Supervisor the opportunity to give the former owner a chance to purchase the property back from the County, seconded by Supervisor Nayman.

Carried.

It was moved by Supervisor Paduchak and seconded by Supervisor Swiercznski that the property shall be sold on the site at public auction per the request of the local legislator.

Carried. 300 ayes; 1 nay, Supervisor Kubatek (72), 0 absent.

The County Attorney said, "My interpretation of the original resolution as proposed, and the amendment clarifies that one year gap does not restrict the supervisor from bringing in a motion to sell the property. What we are talking about is that a year gap, after the foreclosure, and year gap, then will be the sale by auction. You have got a year to negotiate. After the year then there is the procedure of the sale."

Supervisor Batchellor moved to amend the resolution to provide that these properties be sold by August 31 of the following year, seconded by Supervisor Bane, and carried.

The following resolution was adopted as amended:

RESOLUTION NO. 151

June 21, 1976

Mrs. Uldine D. Jurhs, Clerk  
Office of the Board of Supervisors  
of Orleans County  
Court House  
Albion, New York 14411

Dear Mrs. Jurhs:

Thank you for your letter of June 18, 1976 indicating that you would like to formally end our mutual agreement to offer extension classes in Orleans County locations.

As we indicated in our earlier meetings and conversations, our general feeling is that these extension offerings are a service to communities without two year colleges, and we are most anxious that we only offer such services in communities expressing a positive desire to have them.

On behalf of all of us, we do want to thank you for the cooperation you have given us during our past years of providing extension offerings, as well as for your hospitality and cooperation in meeting with us.

Please be assured, that should you later change your mind, we will always be ready to discuss the feasibility of re-activating our extension offering to Orleans County.

Again, with much thanks and appreciation for your past cooperation, and please be assured that effective September 1, 1976, we will no longer offer any extension courses in Orleans County.

Sincerely,

  
Stuart Steiner

WHEREAS, only official election returns, certified after the completion of official canvasses, can be used and relied upon for election decisions,

NOW THEREFORE BE IT RESOLVED, that the Orleans County Board of Supervisors respectfully petitions the New York State Legislature to repeal Chapter 234 of the Laws of 1975, and

The Board was notified that the sum of \$12,655 would probably be available for vocational education for 1977 through the manpower program.

Supervisor Swiercznski requested that the following resolution be removed from the table.

Moved by Supervisor Swiercznski, seconded by Supervisor Nayman, that the sum of \$18652.50 be appropriated from the Federal Revenue Sharing Account C7415.0 for County Public Libraries, and be it

Holley Community Library.....	3,272.50
Yates Community Library.....	2,436.00

It was moved by Supervisor Dudek and seconded by Supervisor Paduchak, that the above resolution be amended to read that money be appropriated from the contingency account and matching funds be applied for from the State of New York. The amount would be \$24,172.60 to be distributed as per the following. Under it \$10,352.40 would be matched by funds from New York State and there would be additional appropriation to the libraries to be sure that all libraries receive at least the same amount as they received in the previous year.

Library	'75	1976 State Aid	1976 County Share	1976 County Additional	1976 Total

Supervisor Swiercznski said, "It appears the libraries are being sold down the drain."

Supervisor Dudek said, "The libraries aren't being sold down the drain. There are several points I would like to make. First of all, two libraries in the County have approved budgets that haven't designated anything in anticipation of FRS."

Supervisor Kubatek, "The libraries in Medina did say they would take into consideration what they thought the county may give them. It is not marked as FRS but they did consider it."

Supervisor Dudek, "I have their budget here for anyone who would like to see it."

Supervisor Kubatek, "I said it is not marked. You may have it -- it's not marked."

Supervisor Paduchak, "I don't think we are here to argue the merits of one library against the other. The issue on the floor is whether we are going to appropriate some county funds to these libraries in the county. This is the only thing I am going to listen to."

RESOLUTION NO. 158

By Supervisor Piedimonte, who moved the adoption.

Seconded by Supervisor Swiercznski.

RESOLUTION GRANTING COUNTY EMPLOYEES INCREASE IN SALARY

In full recognition of the economic problems of the County of Orleans and the taxpayers, and

In recognition of the importance to the County and its taxpayers of the dedicated service of county employees and the continuation thereof, and

In order to treat all employees of the County of Orleans in an equal manner, therefore

BE IT RESOLVED, that all of the employees of the County, with the exception of elected officials, shall receive a wage increase for the year 1976, which increase shall be computed as 7% of the 1975 wage or salary, excepting longevity increments, with a maximum increase of \$750 per employee.

Adopted. 246 ayes; 126 nays, Supervisors' Kubatek (72) and Dudek (54) voting nay; 0 absent.

Before adoption of the above resolution the following discussion took place.

Supervisor Kubatek asked, "Where are we going to get the money for this raise?"

County Attorney, "The money is available, as I understand it, after talking to the County Treasurer, in combination with various contingency funds, including some of the Federal Revenue Sharing."

Supervisor Piedimonte, "We have the money. Using up all of our contingency accounts will be sufficient to cover these wage increases, and they had the Social Services increase in their budget. We lack about \$4,000.00. It is going to cost us about \$111,579.00."

Supervisor Nayman, "The last resolution just took money out of the contingent fund."

Supervisor Dudek, "But we made more money available out of the FRS."

Supervisor Kubatek, "Just to clear the air a little bit. Number one, as the Budget Officer of this present budget we are living with, I want to bring it to the attention of all of us here and to the public that at one point, the newspapers and the taxpayers association has criticized the budget committee for putting in certain monies for welfare costs and I believe if I check the records now, it will show that we are expecting quite a deficiency at the end of the year in welfare. Secondly, the Finance Committee recommended an increase for all county employees that was rejected by this Board, that would have resulted in smaller increases and a savings to the County. Now Mr. Piedimonte said we would have money in the contingency account and I take it that he means we are not going to have to borrow money. He can say that this is all correct because this money could have been used at the end of the year to offset some of the other expenses, and an expected deficit that we will be going into. And I cannot, even though I feel that all employees should be treated equally, I think perhaps this Board should consider an increase for those not covered by contract in the future year and not for this year."

Supervisor Dudek, "I have one question. There is no determination of exactly what point that raise should start from. That is the question I have."

County Attorney, "It is calculated to be arranged for the year 1976. The time of payment would have to be determined by the people that compute the wages. It would be computed in the middle and added to this in the same manner as Social Services increase is being computed. It takes apparently, a couple of months for the computation to be made."

Supervisor Paduchak, "This isn't a good thing we are faced with but it all stems with and let's be honest with ourselves, we were taken to court and lost the case and just to pay Social Services employees because they are union people and I feel that everybody in this County should be treated the same. If we lost the case just for the Social Services Department that means we lost the case for all the employees in this County. Therefore, I feel that we should treat them all equally, whether they are union or non-union. Let's all bury the hatchet, and start from scratch. These things happen, when you have employees you have dissension within the ranks. So maybe this dissension will be closed by our action here tonight, not just with the employees, but with the taxpayers and everyone else. I know we are all pouring money into the county coffers and our own townships but it all goes back to the fact that we lost the court case regarding salaries."

Supervisor Dudek, "The financial situation keeps coming back to me. The picture of the County. Where we are going to be at the end of the year. There is no question that there are problems there. I could go along with the thinking that there should be equalization of wages, and we had an effective date starting now. We lost the case, though employees who weren't covered by the agreement don't expect to get anything. There was nothing set aside for them. Another factor is that there has been something in the area of 20 percent increase for insurance for all departments. Much of the social services budget was reimbursed by state and federal but much of what we are spending now will not be and it is kind of a hard decision for me to make, but I can appreciate the fact that employees who are loyal and valuable and that they should be treated somewhat fairly. But also I believe that the County is in financial trouble and I would prefer to see it effective from the middle of the year."

Supervisor Batchellor, "I personally think all County employees are deserving of it. I don't see why these non-union people should be expected not to receive anything when everyone else is. I mean, it just doesn't add up to me."

Supervisor Kubatek, "I don't think it is Mr. Dudek's or my intention that they are not worthy of an increase. We are both in agreement that an increase is due. However, his is a little bit different than mine. I just feel that the money was budgeted for Social Services in anticipation of the court battle, but wasn't budgeted for non-union employees. My own idea is for the year 1977 that we give one an increase and perhaps not the other."

Supervisor Paduchak, "But you know when we talked to these people a year ago it was the same thing -- promises do not put bread on the table."

Supervisor Dudek, "I would like to point out though, that fact that they were treated differently back at the beginning of the year. One of them was granted an increase and the other was not. The fact that the money was budgeted for one and not the other was treating them differently. I think they are equally deserving. We are forced to pay one group. On the other one, we have some choice, and I think a compromise might be in order rather than go with the whole amount."

Supervisor Plummer, "How would you like to be setting there doing the work, and not a union member and the same work is done by a union member, and he gets a raise and you don't?"

Supervisor Nayman, "I feel that all employees should be treated equally and I would suggest that we bring this up for a vote and let's find out the true feelings."

Carried.

Privilege of the floor was granted to Mr. Robert Patrick, NYS Board of Equalization and Assessment, to explain the ARLM System.

Mr. Patrick said, "The State Board came to the conclusion that the only way the job of assessing could be performed properly was by using the power of the computer. So we developed various computer systems to assist the assessor to do his job and the first system developed is what we called the ARLM System. ARLM stands for - assessment, roll and levy module. What the system is pretty much are the accounting procedures that the assessor now does either partly on a computer or for much of his work manually. The system includes the basic things such as creating assessment rolls and tax bills and includes many more features for the assessors such as producing the property transfers, etc., that he has to send into Albany, produces his assessors annual report, which if you talk to some of these assessors, I am sure they will tell you that if the system can do that it's probably worth it just on that value alone. It also produces things like assessment notices, all sorts of reports which are helpful to the assessors, exemption listings, cross-reference listings which gives him his roll in account number sequence and also alphabetic sequence, so he can easily check his file and keep it up-to-date. It also has an extremely good up-to-date procedure that he can - as changes do occur - that he can feed them right into his assessment roll, get back new totals on the roll that he can check right away.

What has been happening to the system. It has gained a lot of popularity throughout the state. We have an auxilliary office in Batavia and we handle the 17 counties in the western part of the state and over half of the counties are off and running on this ARLM system. It is a system which is being readily accepted and put to use. I would like to invite any of you people to come down to our office in Batavia where you can actually see the system running, see all these various reports that it does produce and just by getting a little closer to it, you can get an understanding of what the whole thing does. I am here independently of Mr. Hronsky, we do not go around as a team. Kenwalt has been involved in a few of the projects in this part of the state that we have worked with. They are certainly very qualified to fulfill the proposal they are making to you. I am not here saying you should enter into a contract with Kenwalt, I am saying I don't think you could go wrong if you did."

In answer to a question, Mr. Patrick stated that the State Board would assist any county in the start up procedure to get on the system which means the time training it takes to convert from whatever system you are now running on, to get onto the ARLM system. They would provide that service without any computer charge. Once the conversion is made the county would be switched to their own computer or to a service bureau.

Privilege of the floor was granted to Mr. Peter Hronsky of Kenwalt Evaluation Service, Inc., Buffalo, N. Y. Mr. Hronsky presented a proposal for converting the system presently used by Orleans County to ARLM system. He explained that the duties of his firm would be to provide support for the conversion in training the assessors, providing technical guidance and working with the State Board. The fee for the proposal would be \$8900. There may be some charge for paper and additional key punching. Discussion of the acquiring of the tapes from Marine Midland took place along with further explanation of the process of conversion. It was pointed out that the proposal did not include processing of the tax bills and tax rolls but only conversion to the ARLM system. Mr. Hronsky was requested to present a proposal for processing the tax work which could be presented to the Board at their next meeting.

Recessed at 10:40 a.m., reconvened at 11:15 a.m.

Agreements between the State of New York and the County for administration of the Swine Flu Program were presented and tabled.

Adjourned at 12:15 until July 14, 1976 at 10:00 a.m.

ADJOURNED REGULAR MEETING  
Wednesday, July 14, 1976

The meeting was called to order at 10:15 a.m., by the Chairman. The Clerk called the roll and all Supervisors were found present.

Privilege of the floor was granted to Mr. Robert Patrick, State Board of Equalization and Assessment. Mr. Patrick said, "Having read through the proposal of Kenwalt, I am quite convinced that what you have there is a good contract. There is one other item I would like to throw out to you people for your consideration that we feel is extremely important in all tax administration and that is a follow-up of the ARLM system. The matching of your tax map files which are starting to be produced with the ARLM system. The reason this is very important is that as a result of these two programs you have a file of tax map information and you have assessment roll files upon which the taxes will be levied. You really need to merge these two files together so that you know that you have one to one correspondence between what is on your maps, the delineation of the parcels and what is on the assessment rolls as far as what the taxes are going to be collected. We strongly urge you to consider as a follow-up to getting on the ARLM system to entertain a proposal from the contractor to take your ARLM file and your tax mapping file which the mapping contractor will produce, match them together, see if there are discrepancies and if there are discrepancies on the tax map file, that are not on your assessment roll file and vice versa. Then set up some mechanism to correct these discrepancies. It is very important to make sure you have on your assessment roll file what you are collecting taxes on. This could be done in a couple of ways, Kenwalt could either create another proposal when the conversion is actually done to get into this matching between the ARLM file or if you do not choose to go with the ARLM, you still have the same situation where you could match your map file against the assessment roll file. So I just wanted to point out that this is not contained in this present proposal. The present proposal ends with the conversion from the Marine Midland tapes to the ARLM system."

Supervisor Piedimonte, "You said that we could come over there almost any time - I would like to go over and see that."

Mr. Patrick, "I really would like to get some in-pur back on this mapping thing. We feel that it is a very critical thing. Some discussion, something on your part to either add on an additional contract with these people at this time or at least to entertain a proposal in the near future to do so."

Mr. Peter Hronsky, Kenwalt Evaluation Service, Inc., presented the proposal for conversion of Orleans County tax records to the ARLM system. The fee would be \$8900 plus additional fees as detailed in the agreement. In addition the fee for processing the tax rolls and tax bills would be \$1626.00 for the first 16,000 parcels and \$10.16 for each additional 100 parcels processed. The County would also supply the necessary forms.

It was pointed out that matching of the tax map files and the assessment rolls should be done no matter what company is contracted with to do the processing of the tax rolls. The proposal from Kenwalt does not include any matching of tax map files and assessment files. The tax maps are not completed at this point but when completed the tax map number will be put on the tax rolls eventually. Further discussion of the processing of the tax rolls clarified several points. It was pointed out that stuffing of the envelopes and mailing out the bills would still be the responsibility of the town collectors.

Supervisor Dudek said, "The committee went through the tax reports and some of the information that was available through this system and in talking with Arnie at least - I guess he ought to speak for himself - but he seems in favor because of the additional information that would be available under this new system. There is something like 20 additional reports that are available from this. Different breakdowns."

Mr. Basinait, "I would like to say from the tax standpoint, this is an excellent tax accounting system. I think it is great for the future and for what it will provide for the assessor in his annual reports and any information that you want, it seems to be right there. I would like to go on record for it."

Supervisor Nayman, "I think the system is great, the only question I have is what do we do in the Town of Albion, we do not have a tax collector."

It was pointed out that it is the Town's responsibility to mail out the tax bills and provide for the collecting until turned over to the County Treasurer.

Privilege of the floor was granted to Commissioner Klapper, who said, "We had an explosion yesterday in the boiler room. There had to be some repairs done and I have talked to the Deputy Commissioner and he is here this morning also. The course of action and repairing the boiler is going to be expensive. I tell you the only thing I have got to say, after yesterday, thank God it wasn't any worse. We were just lucky and whatever the cost, my feeling is that this -- despite the financial crunch - \$5,000 or more, isn't worth anybody's eyesight or their heads on their shoulders. Mr. Ward is going to describe it, and discuss the course of action on repairing the boiler. Mr. Stevenson is here to provide technical assistance on what he is proposing."

Mr. Ward showed the Board one of the bolts which blew out of the boiler. The bolt was bent out of shape. He said, "It takes a pretty good explosion to make something like this come out. Pieces of insulation were also blown out. The bricks in the rear of the boiler were completely collapsed. We have always tried to hold the line on the budget and always tried to keep the expenses down, but at this point - I know there is a crunch on tax dollars - I think we are comparing a possible loss of life and this over-shadows money. As far as yesterday is concerned we are insured. Insurance will cover most of the repairs."

Mr. Ward described the procedures which were followed after the explosion and the condition of the boilers. Further discussion of the boilers continued and the following resolution was adopted.

Supervisor Paduchak said, "It's a fact that the last couple of weeks we have had trouble with county owned property. The Board should take some action of posting all property the county owns. This would let the public know that those individuals living there are not the owner nor do they have any jurisdiction over that property."

County Attorney, "The properties are covered by insurance for fire and major liability. I don't know what benefits there would be from it other than the people living there don't have any right to live there. A list should be published and given to the Sheriff and Buildings Department so that they can check and protect these properties."

Supervisor Paduchak, "I don't want to take a hard nosed approach, but I feel the county should protect these properties."

Supervisor Batchellor, "I think we should take the hard nosed approach, because when they are off the rolls, our taxes are more."

It is also a provision that preference be given to residents of Orleans County. The grant is available for a maximum of six years and the recipient enters an agreement to practice medicine in Orleans County for as many years as he or she received assistance.

In each of the years 1966, 1967 and 1968 the budget appropriation was returned unused for lack of applicants. In the Fall of 1969 the first grant was made to Arthur W. Mruzcek of Corfu, New York. Arthur received his degree in medicine in 1973 from the State University Medical School at Buffalo and served a one year internship at Meyer Memorial Hospital. He then entered a three year residency program specializing in ophthalmology which will conclude in June 1977. Dr. Mruzcek purchased a home on West Center Street in Medina where he now resides with his wife Donna and two children. He has a completely equipped office in his home where he has hours by appointment and has plans for construction of a new office building in the near future.

One recipient under the program, David Novelli of West Seneca withdrew after one year because of a desire to serve in an urban rather than a rural area. He immediately repaid the grant he had received.

In 1971 a grant was approved for Edward D'Orazio, Jr. of Albion, New York. He received his medical degree from State University of New York Upstate Medical Center at Syracuse in 1975 and is now in residency there. He plans to return to Orleans County, in approximately two years, to establish a practice in general family medicine and surgery.

In 1972 the application of Frank L. Cutson of Elma, New York was approved for studies at New York University School of Medicine in New York City. Frank received his degree in May, 1976 and has accepted a residency at the Medical University of South Carolina at Charleston, S.C. where a very highly regarded program in Family Medicine is conducted. Dr. Cutson also looks forward to his return to Orleans County where he plans to have a general practice.

Also in 1972 a grant was authorized for Joseph Misiti of Medina, New York who attended the State University Medical School at Buffalo, N.Y.. Dr. Misiti received his degree in May, 1976 and is now serving a residency at Meyer Memorial Hospital in Buffalo. It is expected that he will return to Orleans County as a general practitioner and surgeon in 1979.

Since January of this year 39 inquiries have been received. One of these was an application from an Orleans County resident and since the individual was highly qualified a grant was reserved for this Fall. However, just this week, the application has been withdrawn and further consideration and screening will have to take place.

Last Fall, in the face of your many budget problems, our committee suggested that the item for the Medical Scholarship be reduced from \$15,000. annually to \$12,000.. We hope you will be able to appropriate the same sum for 1977 for this very valuable program.

On behalf of the members of the Orleans County Medical Scholarship Board, and all the residents of Orleans County, I wish to thank and commend the Board of Supervisors for their continued support of the medical scholarship program. You are about to view the dividends from your investment as these fine young doctors return to provide a continuity of health care in our rural area.

Albion, New York 14411

Dear Mr. Kemp:

In response to your request last week, we are furnishing you with photostatic copies of all firm quotations that we have in our files covering the repairs of the boilers.

Please find enclosed Wm. Summerhays original quotation for the installation of a complete section of the boilers at the rear tube sheets, plus a update figure of \$1740/boiler for this replacement. Enclosed are copies of Buckpitt Company's quotation for installing the firewe control, automatic gas valve, firing cock, and a replacement of the two (2) high pressure cutoff switches totaling \$3035. Buckpitt's quotation also includes a outstanding amount owing them for repairs already completed on July 13, and July 14. We have already received a bill from Summerhays totaling \$376.77 of which a portion of that will be reimbursed by Hartford Steam Boiler Insurance Company. We have already received a bill from Summerhays totaling \$264.45 for the emergency repair on the rupture of boiler #1. This has been mailed to the insurance company.

Also included is Summerhaus quotation to retube both boilers for the sum of \$4704.

It appears that the three (3) quotations total \$11,219. However, you will note that Buckpitt's quotation of July 21, 1976 allows that there may be additional charges for work on boiler #1 if required for the efficiency and safety check. Also, there is a small balance on Summerhaus bill mentioned above.

Very truly yours,

Ashley Ward  
Deputy Commissioner

Supervisor Piedimonte reported that by changing the forms for insurance physicals, the matter of physicals for volunteer firemen on the east side of the county, had been resolved.

Supervisor Piedimonte asked the County Attorney to discuss further the matter of the request of the personnel in the Health Department for the 7% increase.

County Attorney, "The original resolution exempts anyone who has received a salary increase during 1976. \$750 was for the full year and the concept as I understand it, was that those persons who had received \$750 in the same job would not receive an increase. Therefore, the question is whether the trainees who become sanitarians are changing their jobs. I know from the discussion there was a question raised as to how was this different from the Sheriff's Department where there were deputies who became sargent's and the Chief Deputy who became the Undersheriff. It would seem to me that with the Sheriff's Department there was a definite change of jobs. Whereas, the sanitarian's, as I understand it, are doing the same things. But whereas when they became permanent employees they received their increase. Looking at it from a legal viewpoint, they were in the same job when they received their increase, whereas the Sheriff's Department people changed jobs. However, it is up to the Board whether or not they receive their increases."

Supervisor Piedimonte, "My opinion is we should go along with what the attorney recommends."

Supervisor Dudek, "Normally you do not give raises to individuals, you give them to the positions that people occupy. A general increase such as this should go to the position. If someone was working at a lesser rate because he did not have the experience, and if the top salary for that position is increased, than he should get it."

It was moved by Supervisor Batchellor and seconded by Supervisor Piedimonte that the two sanitarian's and the environmental health technician in the Public Health Department not be granted the 7% increase on top of the increase already received during 1976.

It was moved by Supervisor Nayman and seconded by Supervisor Kemp that the above motion be tabled until the question of whether there is a difference between the trainee positions and the permanent positions.

Privilege of the floor was granted to Mr. Jerim Klapper, Commissioner of Social Services. Mr. Klapper presented the organizational chart for reorganization of the Orleans County Social Services Department which he has put into effect. He informed the Board that this is an attempt to make the departments within the Social Services Department more accountable to the administration and so that each department will have a better understanding of the programs. Under the separation of services program which was put into effect in 1971, there was no real accountability. Under the reorganization the Commissioner reports directly to the Social Services Committee, the Deputy Commissioner to the Commissioner, and the executive staff to the Commissioner. The executive staff is made up of ten people who are department heads, one new position was created, that of Director of Medical Assistance. The executive staff meets with the Commissioner 1/2 day each week to discuss major problems to give their expertise to arrive at a consensus as to what should be done to solve the problems.

Under the reorganization the following Advisory Committee's have been formed:

Services	Community Relations
Advocacy	Management/Personnel
Planning	

Mr. Klapper described the functions of the various committee's and how they relate to the department programs. He informed the Board that the New York State Department of Social Services contacted him after he had reorganized the department and wish to consider it as a model for reorganizing departments throughout the State. Mr. Klapper will be making a presentation of the reorganization in Albany later this year.

In relation to the reorganization plan, Mr. Klapper requested a continuation of the positions created under C.E.T.A. and the abolishment of one Case Worker position and the creation of one Senior Case Worker position for Child Services. Action on these matters taken later in this meeting.

Mr. Klapper told the Board that the welfare investigations have resulted in uncovering several fraud cases. Also as a result of these investigations, several cases have been closed and others lowered.

Mr. Klapper discussed the status of the department's budget. He said, "Because of a better employment situation in the County and the various reforms taken in the department, most categories of assistance are now approximately within their monthly appropriations. Medical Assistance, frankly, is uncontrollable at this point." He described various methods to cut costs but that thus far nothing has worked.

He said, "Social Services delivers a high quality of services. The Infirmary now has twelve paying patients but also twelve empty beds. The paid patients have done a number of things that heretofore where there has been a stigma of welfare that is no longer true. The paid patients are happy, the building is clean, the staff is very sensitive to the needs of the patients, there is an advisory committee to check patient profiles each month, and they have a good activities program. It is A-No. 1 in the State. In spite of the problems with the budget, I have a very positive attitude about the department. We have a top-notch staff and it is melting into a good cohesive unit."

Supervisor Kemp said, "I feel the Commissioner deserves a lot of credit for what he has done. We are very satisfied. He deserves credit for getting welfare down to where we have a handle on it. As for the medicaid problem, we are not happy with it or is the Commissioner. Unless it is revised or else the federal government takes it over entirely, I don't think there is anything we can do about it. As far as the State taking it over, they aren't in any better position than we are. They want to give these people so much money and make it more attractive for them to stay on the rolls, there are lots who could work and don't have the incentive to."

Mr. Klapper said, "The bad news is the deficit will be in excess of one million dollars. If we had continued to spend monies at the rate we did in the first quarter of the year, the deficit would not have been one million it would have been two million."

Further discussion of the budget by categories took place. The question of supporting Erie County in their law suit was raised. It was decided to wait until further developments occurred in the case, since Orleans County had tried to withhold payments last year and were threatened with loss of state aid.

Unanimously adopted.

LOCAL LAW NUMBER 2-1976-INTRO  
 LOCAL LAW NO. 2 of 1976  
 COUNTY OF ORLEANS, NEW YORK

A LOCAL LAW CREATING THE ORLEANS COUNTY TRAFFIC SAFETY BOARD AND ESTABLISHING  
IT'S FUNCTIONS

BE IT ENACTED by the Board of Supervisors of the County of Orleans as follows:

- SECTION 1. There is hereby created and established the Orleans County Traffic Safety Board to be composed of fifteen (15) members interested in traffic safety and traffic problems to be appointed by the Orleans County Board of Supervisors.
- SECTION 2. Each member of the Orleans County Traffic Safety Board shall be a resident and qualified elector of the County of Orleans. - SECTION 3. The term of office of each member of the said Board shall be three (3) years excepting that the members first appointed shall be appointed as follows: Five (5) for a term of one (1) year; five (5) for a term of two (2) years and five (5) for a term of three (3) years. Upon the expiration of the term of office of any member, his successor shall be appointed to membership for a term of three (3) years.

SECTION 7. This Local Law shall take effect immediately.

It was moved by Supervisor Dudek and seconded by Supervisor Batchellor that this Board of Supervisors go on record as unanimously opposing the installation of the minimum security facility in the Town of Shelby because of the detrimental effect on residents in the surrounding area and possible harmful impact to Orleans County as far as the cost to the County of a facility of that type.

Supervisor Dudek said, "Neighboring counties also are involved. The Village Board of Medina has gone on record as opposing this. We had a meeting where nearly 300 people were in attendance. The over-whelming majority were unanimous in their opposition to this facility. The first we heard about this was a week ago last Tuesday, so they called for a meeting this last Thursday, it wasn't a choice of whether we wanted it or whether we were going to have any input, it was coming. The residents up in that area have a reason to be fearful, there is no security planned for that other than some correctional people. The people who are going to be occupying that place have up to two years to go on their sentence. There is a question of work release programs where they will be taking jobs away from people in the County. The Albion facility now has more than 100 people working from that facility taking jobs that our own residents could possibly be performing. There's a question of costs for the Sheriff's Department, that when people escape they have to be housed in our facility. Sometimes their families move into our county and go on welfare. There's a lot of reasons other than just the personal feelings of the residents but I am sure the people in the Town of Shelby would appreciate the support of the Orleans County Board on this matter."

Supervisor Batchellor said, "I second that motion. I am getting a lot of calls from the people in my township, they are worried about the escape possibility. There is absolutely no security up there."

Supervisor Swiercznski, "We don't want any more on welfare, that's for sure."

Supervisor Batchellor, "We have had people offer to carry petitions to get this thing stopped. They are up in arms about it up in that end of the town."

Supervisor Dudek, "I would also like to add to that that copies be sent to the State Correction Department, Governor Carey, State senator and assemblyman, and our representatives in Congress."

Supervisor Swiercznski, "Well, I will tell you, I am very surprised at a couple of members of this Board. I live right back of the one over here and I am probably closer to this any of you, I heard you people holler so loud when they took the drug addicts out of there. Now they are bringing some business back. I heard about the run-aways, but they don't happen to stop here they run for the big city. And for the amount of money that they are going to bring into the County, and they are going to open it whether you want them to or not, and people have a few scare tactics but I live right behind it, and this is minimum security and there have been three or four walk right out of there, but did they bother anybody?"

Supervisor Dudek, "There have been thirty-two who have escaped from there in the last few months and out of those ten have committed further crimes. We have housed those escapees from there for a total of 600 and some days."

Supervisor Swiercznski, "If I was Hawley and Paterson I would forget Orleans County, I don't blame them a bit."

Supervisor Batchellor, "Remember when we built this jail, we had to have maximum security and we couldn't keep these people over here more than a year and these people have two years to serve."

Supervisor Kubatek, "Hawley said he had no knowledge beforehand of this coming in here, and someone said Paterson told them the same thing."

Supervisor Kubatek, "Can we table this, I request we table it until the next meeting."

Supervisor Batchellor, "If we table this they will be here before the next meeting."

Supervisor Dudek, "There are some new developments that will take place in the next few days that make it important that it be done now. Two weeks from now may be too late. It's up to the Board if they want to table it, that's fine, but I just believe that the people in that area would appreciate the help on this. Very little benefit will be derived by the County in bringing this facility in here."

Supervisor Paduchak, "How many escapees did they have from the drug center?"

Supervisor Swiercznski, "Plenty, they were walking around."

Supervisor Kubatek, "The security is tighter on something like this here."

Supervisor Paduchak, "I read in the paper about the clamor when they closed the drug center. I don't think the State will put hardened criminals in there who have failed to be rehabilitated without screening them thoroughly."

Supervisor Kubatek, "I withdraw my motion to table this but can we have a recess."

Recessed at 10:45 p.m., reconvened at 10:50 p.m.

Supervisor Nayman, "I request this be tabled, I can not make a judgment on this one way or another at this time."

Supervisor Batchellor, "Put yourself in the people's shoes up there, living alone with hardened criminals right near by and you are bound to get escapes and they are scared stiff and I don't blame them one bit."

Supervisor Dudek, "Property values will be effected. There are people who bought lots planning to build out there, now they are afraid to because they might not be able to sell."

Supervisor Nayman, "The only information I have right now is what I read in the newspapers. From what I gather they are not going to put hardened criminals in there they are going to screen these people very carefully before they put them into this facility."

Supervisor Paduchak, "If you go on this route you must also condemn all those people who are walking the street on parole. He is the same type of person, the only thing is institutions have seen fit to allow this person his freedom to go out on the street and report periodically to someone. I see no difference here. That person on the street can band together with someone and continue on a crime wave or whatever he wants to do."

Supervisor Dudek, "I would like to withdraw my motion, a vote of support by a simple majority of the Board I don't believe would be that useful. Its a problem we have and the overwhelming majority are opposed to this facility. We will have to continue the fight in the Shelby-Medina area."

It was moved by Supervisor Paduchak, seconded by Supervisor Swiercznski, and carried, that the meeting be adjourned.

Adjourned at 11:00 p.m., until September 2, 1976 at 10:00 a.m.

The meeting was called to order at 10:00 a.m., by the Chairman. The Clerk called the roll and all Supervisors were found present.

It was moved by Supervisor Piedimonte and seconded by Supervisor Bane that the reading of the minutes of the previous meeting be dispensed with and the same be approved as prepared by the Clerk.

Carried.

Privilege of the floor was granted to Mr. Raymond Pahura, Economic Development Coordinator. Mr. Pahura reported on the Local Public Works Act recently passed by Congress. He informed the Board that this act would provide 100% grant money for communities whose unemployment rate was higher than the national average, which rate has been established at 6.5%. In May and June respectively, the unemployment rate in Orleans County was 13.5 and 13.9%. Mr. Pahura said that indications are that those with the highest unemployment rate would get top priority for funds. All grants will be processed through regional Economic Development offices. Eligible for grants will be municipal offices, court houses, libraries, schools, police and fire stations, detention facilities, water and sewer facilities, light, water and sewer lines, streets and roads - including curbs, recreational facilities, convention centers, civic centers, museums, health, education and social services facilities. Grant monies will not be allocated for engineering studies. A municipality might spend money for such studies and have a grant denied. Construction must start within ninety days after grant is approved. This grant will not pay for land acquisition.

Supervisor Paduchak said, "On the county level, we have a project, the county complex, which was shelved because of lack of money. This project will be two million plus, I think we should submit an application for a grant for this project."

Supervisor Dudek said, "I am not familiar with the project in question, but we have discussed perhaps remodeling the school a few streets over, it seems like that might offer a real possibility for office space."

Supervisor Paduchak, "The plans we have formulated for construction would be mostly court space and remodeling the present offices."

#### RESOLUTION AUTHORIZING APPLICATION FOR GRANT UNDER THE PUBLIC WORKS IMPROVEMENT ACT

RESOLVED, that Raymond C. Pahura, Economic Development Coordinator, be and hereby is, authorized to submit an application on behalf of the County of Orleans for a grant under the Public Works Improvement Act for funds to construct an addition to the County Court House Complex as per plans prepared by Charles Brennan, Architect.

Unanimously adopted.

Privilege of the floor to Jerim Klapper, Commissioner of Social Services. Mr. Klapper informed the Board that the anticipated deficit in his department will be approximately \$1,160,000 with \$290,000 being the local share. Also that it appears that only the local share will need to be borrowed because the state has stepped up its reimbursement schedule so that the county is getting them in on a monthly basis.

Mr. Klapper said, "That is the background of what I wanted to talk to you about this morning. I am here to ask you to consider an alternative to what I anticipate otherwise might be your action at this board meeting or a subsequent board meeting and that would be to withhold funds for the balance of the year, as was done last year. First of all, there is none more aware of the accelerating cost of welfare than my department, unless it is you. I know that the board has been called upon by the Orleans County Taxpayers Association and perhaps others to support the action recently taken by Erie County. I agree with parts of Mr. Lamont's letter and I disagree with other parts. My feeling is that the case of Toia vs Erie County will be decided strictly on the basis of constitutionality, not how local areas are suffering because of what they feel is an undue tax bind. And the law is the law. My responsibility is to my staff and public charge, and that charge is to provide funds for the indigent and to uphold the law of New York State. Any action that I would take in support to stay that law would raise a serious question as to my competency as a public administrator. But that is not the basis upon which I am proposing this. I want to see that the board and the county go on record for something that will work and it is strictly my opinion, but I feel that withholding funds is only at best a stop gap measure, whereas, the whole issue of public assistance will not be solved by the judiciary and the courts, but it will be decided by the Legislature thru the political process."

Mr. Klapper suggested that the first step he has taken is to plan a conference to be held September 22nd. He said that at this point it is a tri-county meeting, Orleans, Wyoming and Genesee counties, which will also hopefully be attended by some of the Board of Supervisors and some of the state legislators as well as public groups, the taxpayers and officials from Social Services, to an end to pick some pieces of model legislation that have been proposed or else to draft some new pieces of legislation to put to the next session of the Legislature. Mr. Klapper discussed further plans for such a seminar and his feelings on the matter of providing help for the indigent.

The County Attorney said he agreed with the Commissioner. He explained that the Erie County decision will probably be upheld by higher courts. He also outlined three areas which perhaps the County could ask for some things to be done.

1. Urge the Governor to use his powers to revise some portions of the Social Services requirements in the state to cut out a lot of expenditures which would mean a lot to small counties like Orleans.
2. Change some of the state laws. Perhaps a special session of the State Legislature.
3. Congressional activities to take some of this out of state hands and to get more money back into New York State. Perhaps authorize certain officers from this county to actively participate with the other counties in going to Albany and in making attempts to set down with the Governor and Legislators to emphasize face to face the problems this county has.

The Clerk read a letter from the Orleans County Taxpayers Association dated August 23, 1976, which read as follows:

The Orleans County Taxpayers Association urges the Orleans County Board of Supervisors to take immediate steps to join with other Counties in seeking a reduction in Welfare costs. To the extent that it is legally proper and feasible, we urge:

1. That formal steps be taken to participate in the legal action that is now being undertaken by Erie County against the State of New York. Other Counties have

already adopted resolutions to do this. A hearing is scheduled to start tomorrow in New York Supreme Court, Buffalo, New York.

2. Refuse to appropriate any further funds other than those already budgeted for Welfare in Orleans County.

3. Urge the Governor of New York State to call a Special Session of the Legislature to deal with the Welfare and to provide immediate relief to Counties facing financial crises resulting from State mandated programs.

A letter was read from the State Board of Equalization and Assessment directed to the Director of Real Property Tax Service, dated August 20, 1976, informing him that the tax map maintenance plan has been approved. The letter also stressed the importance of matching in 100% agreement the tax map file and the assessment roll file. Ordered filed.

RESOLVED, that the Chairman of this Board or his designate, be authorized to cast the eight votes allotted to the County of Orleans at the annual meeting of the New York State Association of Counties.

Unanimously adopted.

The Clerk read letters from several citizens of the Town of Shelby protesting establishment of a correctional facility at the Iroquois site.

Supervisor Dudek said he had a petition with 990 signatures also protesting the camp.

Supervisor Dudek also reported on the trip to another facility at Monterey which he and several other persons from Shelby had visited. The camp at Monterey served inmates averaging 17-1/2 years of age. After interviewing many nearby residents it appeared that the people of that area would rather not have the camp there.

After much discussion of the proposed camp and its probable effect on the community, Supervisor Kubatek was requested by the Chairman to set up a meeting for the members of the Board to tour the proposed site.

REGULAR MEETING  
Thursday, September 16, 1976

The meeting was called to order at 8:00 p.m., by the Chairman. The Clerk called the roll and all Supervisors were found present.

It was moved by Supervisor Dudek and seconded by Supervisor Batchellor that the Rules of Procedure be waived to allow a spokesman from the Town of Shelby to address the Board in relation to the establishment of a correctional camp in the Town of Shelby.

Carried.

Supervisor Dudek requested the County Attorney to explain the rules and discuss the procedure for speaking.

County Attorney, "As far as the rules of conduct here for presentation of questions. This Board is on record to the extent that those who wish to present an issue need to present that prior to the meeting so that it is determined who is going to be here and who is going to speak, but that was not done in this instance and that apparently is the reason for Supervisor Dudek's motion to waive the rules. It would mean in order to maintain decorum that the chairman could justifiably look to a spokesman from this group, if it is one group, to express the opinions and desires. I think everyone here should recognize that this is not in any way to stop this from being a public meeting. The regular meetings and special meetings of the Board of Supervisors are in all respects public meetings. I think you can recognize that there is a space problem - you are standing up and there are no chairs other than those that are here, and no space for them. It is unfortunate that it wasn't known that such a group as this would be here or perhaps arrangements could have been made to use the court room. Unfortunately, there is a criminal trial in process and in spite of the fact that Judge Doherty has extended to us the use of the court room if they don't need it, they are in the process of using it. The jury is out deliberating and they are asking for evidence to be stated to them. So that there is just no way to go any place else so that you can all sit. I again want to repeat that the rules of the Board are that actually no one does speak unless there is a pre-arrangement. That wasn't done, but a motion was made and seconded to waive those rules. But I would submit that a representative of this group should be determined to speak."

Supervisor Dudek, "As the elected representative of the people from the Town of Shelby, I would like to present some information here on the facility. As I understand it, there is someone here from the Correctional Department of the State to refute any wrong information that I might give you. But I put together a sheet of some of the reasons that I personally have voiced in opposition to the camp. Considering that, we also considered the positive aspects. I would like to give you those first. The facility would employ in the area of 50 people, about 20 of those people would be new jobs, the remaining would be transferred from other state institutions. It is estimated that somewhere in the area of 70 per cent of those people would be or become residents of Orleans County. Most of the purchases for the facility would be on state bid and would be purchased from outside the County. I understand that the purchases that would be made locally would be food stuffs and some hardware type items. There would be some benefits also for those who provide public transportation because of the release program for the inmates to go home on furloughs and the relatives that might come up to see the inmates. The inmates would be working on projects in the refuge and would also be available for other projects in the surrounding community. Those are what I had as the major positive reasons for someone who might want a facility.

Some of the ones I have for the negatives are, first of all, property values. Talking with some local realtors the land in the immediate area would probably become more difficult to sell, it would have to sell it seems at lower prices and as you move further away from the facility that would become less of a problem. Second would be

public safety. The proposed facility would offer no physical obstacles for an inmate to escape. If he really wanted to, the correctional people admit that he would be able to. The only real deterrent to him from escaping is the knowledge that he would be locked up again in a maximum security facility if he did escape. The promise is that there would be no convicted murderers or rapists. However, it seems it might be difficult that it is sure, that that is accurate information, with plea bargaining as popular as it is. The probability that the facility would cause danger is unknown. We don't know that it will happen for sure. But the possibility is going to be increased. And because the inmates will be working in many different areas in the county in many communities, on many different work projects it exposes a greater number of people to any possible threat. They would be under supervision while they are in this area, but there is still a possibility.

Another negative is peace of mind. There is no question that a feeling of uneasiness will be in the community if a camp is established. It will increase to a point of fear, at least in some of the people, if an escape occurs. And that would remain a problem until he was apprehended or until he was proven to be out of the area. The things we are most concerned with are children who might be left alone or with a sitter, or women who are home alone at night and the elderly. And those concerns seem unavoidable and they are confirmed to us in the discussions that we had with the people in the Camp Monterey area. The same situation exists when they do have that type of problem.

Here are some other issues. These are facts as I understand them. According to the Social Services Commissioner, experience with the Albion facility shows that there have been 6 to 8 cases of people who have moved into the area to be near their family, but that is about it. But there are no current cases. It doesn't seem like the welfare problem is really a big problem. State officials have pledged that there will be no work release programs from the facility. I think it is important because right now there are some 60 people that are in college or on work release from Albion and they are taking jobs away from people in the community. In addition to that, the money isn't circulated in the community, it is sent back to the families wherever they may reside. There has been talk about college costs. And again, state officials have again said that there would be no cost to the county because of an inmate's attendance at either a community college or BOCES program. I have some questions as to whether there would be a shared cost with any regularly scheduled BOCES program if they were to be a participant in it. We know that in the last 14 months, the Sheriff's Department has had costs somewhere in the area of \$12,000.00 because of lock up time. The state officials say that future claims could be prevented if they were returned at once to the state but in any event, any cost of any lock up time or any attempting to find or to capture an escapee would not be recoverable from the state. Court costs are reimbursable from the state in full. Anything an inmate is arrested for and brought to trial including jury pay, court costs and public defender are eligible for reimbursement. There is some question as to whether the proposed use of the facility is the best one. There certainly seems to be a lot of potential for use for it and the community expressed some desire to work together if they have the chance to do so, to find another inhabitant of that facility.

I came to some conclusions while looking at those things. First of all in terms of sheer number of people it seems, apparent that there is going to be a far greater number of people that are inconvenienced or adversely affected by the opening of the facility than would benefit from it. And those that are most adversely affected don't benefit from it. The trip to Monterey - it has been there for 20 years and shown it has not benefited the area very greatly. A lot of state owned land in the area has been developed, has been improved, but the area shows very little growth, houses range from poor to very modest. The only private enterprise in the small area seems to be a small store and several taverns. The people who went to Monterey viewed it as an economically depressed and stagnant area. In discussing the situation with the residents of Monterey, it indicated that while it was there and they had to live with it, if they had a choice of having it in their community or not to have it there, the majority chose not to have it. I think it was 11 out of 14 we talked to.

The fifth reason is that opposition to the facility comes from a wide range of responsible groups from various areas in the county. Here are some of the people who have expressed opposition to it: The Shelby Town Board, the Barre Town Board, the Alabama Town Board, the Medina Village Board, the Board of Education, the Medina area Senior Citizens, Shelby Fire Department, East Shelby Fire Department, the Medina Police Department and the Orleans County Sheriff. In addition to that, some people who discount the value of it, in any event 1000 signatures have been placed on petitions from various areas of the county which indicate a broad support for opposition to it. I have here a letter from the East Shelby Volunteer Fire Department and I also have one from the Shelby Volunteer Fire Department. With that, I would like to move that the Board of Supervisors, for the reasons I have mentioned, go on record as opposing the establishment of the Iroquois Camp in the Town of Shelby."

Supervisor Batchellor, "Being from the Town of Barre, the Clerk has a resolution with the Town of Barre seal on it, that our Town Board voted unanimously against it. If she would read that."

The Clerk read the resolution from the Barre Town Board opposing the establishment of the camp. Also read was a resolution from the Alabama Town Board in opposition to the camp.

Supervisor Dudek also presented a letter from the principal of Oakfield-Alabama Central School addressed to Mr. Howard Larson, Wild Life Service.

Supervisor Batchellor seconded the motion of Supervisor Dudek.

Privilege of the floor was granted to Mr. Thomas Schirmer, Superintendent of the Medina Central Schools, to be spokesman for those present opposing the establishment of the correctional camp in the Town of Shelby.

Mr. Schirmer said, "Once again I would like to state that, the Medina Central School Board is vehemently opposed to the installation of the minimum security prison at Iroquois. Obviously, our concerns are related to the safety of the children who live in the proximity of the area. These children 5 to 18 have to wait in the early morning hours before it is daylight and they get home after it is dark at night with their bus runs. Even if there existed, which it does not, precautions to insure 100% safety, the apprehensions, we believe, our administrators in the district believe, that the apprehensions and the fears of the children and the people living within the area are sufficient to cause negative effects on the educational process in their district. In addition to that, if the lease arrangement is signed, and obviously it is not, and it becomes a reality, the prison does, I will no longer permit those federally owned lands, 10,000 acres which have been used by school districts in the area for environmental education and conservation, to be used by the children of the Medina School Districts. In addition to that, I am sure the Supervising Principal of Oakfield-Alabama concurs, and I would expect that the districts of Erie, Niagara, Genesee and Orleans County will feel the same way. So in any event, hopefully the installation will not occur. I have talked with Boston again today, and Washington today, and the Governor's office today - and the Governor is no help, of course - but both Boston and Washington and the Department of Interior has indicated that they wish to see a local elected official indication of some sort. Either positive or negative, obviously, and they would use that in their consideration. In addition, one of the criteria that is going to be used in considering whether or not to sign the lease is whether or not the facility will be compatible with the area. Now, obviously, it isn't compatible with the neighbors in the area. It doesn't matter whose district they are in. And certainly, since those acres of land are going to be available to private and educational use, their original intent is conservation, I would be most concerned if the lease arrangement was signed. Obviously, the Board of Supervisors will concur and do all in their power to let the Department of Interior know of their concerns and ours. Thank you."

Privilege of the floor was granted to Ms. Hilda Simmons representing the NYS Department of Correction. Ms. Simmons said, "I don't want to engage in a debate with

most of the spectators in this room - they have heard from me or met me before. I would like to go over a couple of the points Mr. Dudek made with regard to the facility. Beginning with the positive effects of the facility. There are about 55 jobs that will be at the facility. Added to that the department has hired about 39 to 45 people who were employed at the facility when it was a drug center. They are residents of this county and most of them are residents of that immediate area. They were laid off from their jobs when the facility closed. They have since been rehired by the Department and are now working at Attica and Albion facilities so rather than just the 50 or so jobs that come in terms of Iroquois, there are an additional 35 or 40 people who have been rehired as a result of that facility going in. So it is really closer to 100 jobs as opposed to 50 and a particular concern is that should the facility not open those people will be laid off again so there will be at least 40 or 50 people who lose jobs. No that includes correction officers, a large number of whom are from this area or Genesee County as well as civilian employees.

Secondly, with regard to economic benefits. The budget of the facility is about \$900,000 a year - while major purchases are done by state contract and are purchased centrally, there will probably be between two and three thousand dollars worth of goods and services purchased locally every month. That ranges from perishables, eggs, vegetables, things like that to perhaps laundry services and any number of those things along those lines. The estimate is between \$2000 and \$3000 a month. That is money that will be spent locally.

The Security issue, I think is the one that brings most of you here, I would simply say that granted, there is no fence around that facility, but if there was a fence that would not prevent an inmate at a facility of getting out. An inmate that wants to leave one of our facilities always can find a way to leave whether it has a 100 ft. wall or no wall. The evidence, however, and I think it is important when you look at something like this, is that our department's past record in operating camps, and we operate five, the one that would be similar to Iroquois would be Camp Adirondack in Clinton County. It is an adult camp, it's been operating 4 years and never in the 4 years that it has been operating has there been a walk-away from the camp."

Ms. Simmons described other camps and their security, and also made the following statement regarding the individuals who would be assigned to the camp, "He must be 21 years or older, within two years of parole consideration, preference to people who live in the western part of the state, no conviction for violent crime, murder, serious assault against another person. The basis of that decision is based on the crime that they commit, not the pleas bargaining afterwards. So in other words, we have someone committed a murder, which they plea bargained to something else, that would not make them eligible for the facility. It is based on the charge that they were originally arrested for and that they are physically able to work at the camp." Ms. Simmons said, "Because of our past history with these camps, I think it might be useful to give us a chance for a year and try it and if the community is dissatisfied, if this body of Supervisors is dissatisfied at the end of that year, then we can reevaluate then and if need be, the department could leave, but I think that the evidence is on our side."

Further discussion of the various aspects of the establishment of the camp were discussed and the following resolution was adopted on roll call vote:

#### RESOLUTION NO. 224

By Supervisor Dudek, who moved the adoption.

Seconded by Supervisor Batchellor.

#### RESOLUTION OPPOSING USE OF IROQUOIS REHABILITATION CENTER AS CORRECTIONAL FACILITY

RESOLVED, that this Board of Supervisors does hereby go on record as opposing the establishment of a correctional camp at the Iroquois Rehabilitation Center, Town of Shelby, Orleans County, New York, for the following reasons:

1. In terms of sheer numbers it is apparent that far more people will be adversely affected from the opening of the camp than would benefit from it.

2. Those residents adversely affected, will not be the ones who benefit from it.

3. The trip to Camp Monterey, in existence for nearly twenty years, showed that the area has not benefited greatly from the facility. While much state owned land has been improved, the area showed little growth, housing ranges from poor to very modest, a small store and several taverns comprise most of the "private enterprise" in the area. The general opinion is that it appears to be an economically stagnant depressed area.

4. Discussion with residents of Monterey indicate that while they have learned to "live with it", if they had the choice of having or not having the facility in the area, they would choose against it.

5. Opposition to the facility has come from a wide ranging, responsible group, among these are:

Shelby Town Board  
Barre Town Board  
Alabama Town Board  
Medina Village Board  
Medina Board of Education

Medina Area Senior Citizens  
Shelby Fire Department  
East Shelby Fire Department  
Medina Police Department  
Orleans County Sheriff

6. Petitions with name and addresses of over one thousand residents of the County indicate opposition from a broad area.

BE IT FURTHER RESOLVED, that the Clerk of this Board send certified copies of this resolution to Mr. Howard N. Larson, Regional Director, Department of Interior; Mr. Howard Moon, Department of Interior; Governor Hugh Carey and the Commissioner of the New York State Department of Correction; Mr. James Pulliam, U.S. Dept. of Interior.

WHEREAS, the State Commission of Correction has issued Minimum Standards for County Jails which are proposed to take effect October 1, 1976, and

WHEREAS, new visitation areas permitting physical contact would be required at a considerable expense to the County, and

WHEREAS, the searching of visitors would be allowed only by electronic means thereby raising the possibility of contraband and dangerous materials being brought into a secure facility, and

WHEREAS, Orleans County, while having one of the most up-to-date facilities in the State, has neither space nor personnel to implement the proposed Minimum Standards, and

WHEREAS, the thousands of additional dollars that would be required to implement the said Minimum Standards would place further burden on the already over-taxed residents of this County, with no corresponding increase in the efficiency of Jail operation, now therefore be it

RESOLVED, that the Orleans County Board of Supervisors strenuously objects to the implementation of said Minimum Standards, and be it

FURTHER RESOLVED, that copies hereof be forwarded to Governor Hugh L. Carey, New York State Commission of Correction, Senator Lloyd Paterson, Assemblyman R. Stephen Hawley, New York State Association of Counties, and the Association of Towns.

It was moved by Supervisor Paduchak and seconded by Supervisor Piedimonte that the County Attorney, County Highway Superintendent, Administrator of the Health Department and the County Planner be authorized to attend the regional meeting on the implementation of the State Environmental Quality Review Act to be held in Avon, N. Y., on October 15, 1976, at county expense.

The Board received a letter from Dr. Blanchet, Vice President of the Orleans County Board of Health, dated September 17, 1976, concerning the proposed Orleans County Sanitary Code. After discussion, Supervisor Bane informed the Board that he would set-up a meeting between the Board of Supervisors and the Board of Health to discuss the proposed Sanitary Code.

Privilege of the floor was granted to a representative of Charles Brennan, Architect. He said, "Back in June 1974 we were commissioned by the Board of Supervisors to analyze the space needs of the various governmental facilities in this building, the county office building next to this and the adjacent miscellaneous allotted spaces. We have done this and you received this report last June 1975. This report contained the history, procedures and design of the expansion program, some plans, cost estimates of designing, the construction schedule and conclusions. We concluded at that time that a renovation project in this building plus an addition of 9000 square feet between the Court House building and the office building and jail was the recommended solution for alleviating some of the problems at that time. This addition, of course, was going to be a very non-statement type of build-

ing, something that would blend with the existing facilities. After the report was issued, apparently at that time, decision was made to fold up the project for economic reasons.

Recently we were asked to meet with Mr. Plummer and Mr. Pahura to look at the possibility of filing an affidavit for the federal grant under the Public Works Program. We reviewed the documents that had to be filed and the first thing that became obvious, was that the Federal Government is evidently looking for these projects to be acted upon very quickly to get construction under way. All their documents are geared in that direction. When you started looking into this, talking about certifying construction documents including specifications and the construction to begin in 90 days, this is unrealistic. If you took a minimum time for bidding a project it would take a minimum of one month, it would take a month to analyze the bids and get the contracts and a maximum of three months to get a project underway, actually for the contractor to be out there digging. So this I think would be the maximum of the best possible positions to be in for applying for this federal money.

However, in reviewing their guidelines they do offer the option of doing the design in conjunction with the construction process. In other words, this is what we call phase construction. The architect would be working on a certain portion of the building and the contractor would be out and doing foundations, etc. They do offer that option in their guidelines. However, the documents that we have reviewed for you are all geared for completion of working drawings. Our work has been a preliminary document.

We were asked to (1) review, up-date the cost of the building; (2) take a look at what would be our possible alternatives or options as far as our involvement in the project, in order to help get this underway. The original estimated cost on the project was \$1,219,375. On to that of course, we added contingent costs of 10-20 per cent, architects fees, administrative funds, also equipment, legal funds. Relating that to the time period, I guess 20-21 months, we estimated we would have to up the cost of the project to \$1,366,000. We are talking about an approximate 20% increase in costs.

Now, how we feel we can help obtain some of the federal money. The first option and the least expensive I guess, depending on the way you look at it, would be to make and submit it as it is. Now we would assist in filling out the rest of the application, but with the understanding that we would not go into any great depths as far as filling out the application."

It was explained that the existing plans do not list the materials to be used, etc. The fee to do the necessary work to submit an application based on an hourly rate would be a maximum of \$1400. To do the necessary work to have a complete and detailed plan would cost approximately \$50,000. This money would have to be paid from county funds and would not be part of the federal grant.

No action was taken on the proposed project.

It was moved by Supervisor Kemp and seconded by Supervisor Bane that a leave of absence, without pay, be granted to Linda Belson, Caseworker in the Department of Social Services, for the period of twelve months, effective October 15, 1976.

Carried.

The Clerk read the following communications:

Letter from J. Roger Barber, Commissioner of Agriculture and Markets, dated September 27, 1976, stressing the importance of the position of Sealer of Weights and Measures and requesting that localities not cut budgets for said department.

Governor Carey's office - acknowledging receipt of Resolutions No. 224 and 236 adopted by this Board.

Letter from Dr. H. J. Blanchet submitting his resignation as coroner, effective October 1, 1976.

It was moved by Supervisor Bane and seconded by Supervisor Kubatek that Dr. Blanchet's resignation as coroner be accepted with regret.

Carried.

Recessed at 10:50 a.m., reconvened at 11:10 a.m.

### RESOLUTION

Expenditures for county activities doubled in the interval between 1967 and 1976 and if continued at the present rate of increase, could reach \$20 million by 1980. The Orleans County Planning Board has been studying ways in which the cost of county government activities can be controlled. At the same time, implementation of the County Master Plan seems to require some modification in the form of government. While this latter requirement needs much future study and thought, some immediate steps can be taken which would appear to generate substantial savings to the county without placing restrictions on any changes subjected by the continuing studies.

One of the changes to the present procedure which would have immediate effect in controlling the costs is the addition of an administrative co-ordinator. The duties performed by this person would have immediate effect by increasing efficiency and avoiding duplication of effort into the establishment of procedures which have long been practiced by industry that would insure optimum use of county equipment and facilities.

Proper assignment of duties to this person would allow the Orleans County Board of Supervisors time to develop strategies for meeting future needs more effectively.

Specifically, the Orleans County Planning Board has revised Section B of the February 1975 report and wishes to recommend the following position description.

A position should be created which is directly responsible to the Board of Supervisors. This position would perform the primary functions of advisor, coordinator, researcher and public relation advocate for the Board. All functions should be at the direction of the Board of Supervisors as delineated by the Chairman.

- a. Attend all regular meetings of the Board of Supervisors and committees and such special meetings as it may direct, and recommend such measures as he may deem appropriate.
- b. Establish, subject to the approval of the Board of Supervisors, and maintain as its agent, a uniform purchasing system to provide for the purchase, sale, rental, and servicing of materials, equipment and services for the County and units, including inspection, supervision and determination as to the quality, quantity and conformity with specifications, and be responsible for compliance therewith. To organize, develop and manage a centralized storage room for office supplies and to oversee the need for distribution of supplies to individual departments.
- c. As budget advisor, to oversee and make recommendations to the Board of Supervisors concerning the previous months bills. In

addition, assist in the preparation of a preliminary budget and provide a comparison of appropriations and expenditures at monthly meetings of the governing body.

- d. To assist in negotiating contracts for the Board of Supervisors.
- e. To sell or lease surplus, obsolete, and unused supplies, materials and equipment, under such rules and regulations as delegated by the Board of Supervisors.
- f. To function as a researcher in developing facts for labor contract negotiations.
- g. To serve as a communication link to facilitate the flow of pertinent information among county departments.
- h. To maintain an updated inventory on all county equipment and real property including plans of all space currently occupied.
- i. To research and advise individual committees of the Board at the discretion of the Chairman.
- j. To coordinate press releases and media relations for county functions including public appearances by Board members.
- k. Monitor pertinent state and national legislation, keeping the Board informed of progress of bills through committees.
- l. To provide communication links with villages.
- m. Have such other powers and perform such other duties as may be conferred upon him by the Board of Supervisors.

Such a position would require basic qualifications of any applicant. It is recommended that any applicant have at least two years experience and a college degree or three years experience and an associate degree or a minimum of five years and governmental or business experience and no college education. College education in political science, business or related field with a demonstrated ability to work with people as well as verbal and written communications skills in preferred. Adequate knowledge in municipal finances procedures and practices should also be required.

Supervisor Kubatek said, "I think we should have a committee report back to the Board with recommendations on this."

A letter was read from the Association of Chairmen of Legislative Boards, reporting on the meeting at Concord Hotel between the Chairmen and Commissioner Toia. Ordered filed.

The Board received a letter from Mrs. Sandra Bower thanking them for the appointment as Personnel Officer. Ordered filed.

Supervisor Paduchak asked the Clerk if she had received any communication from the State Department of Social Services relative to the question of "Freedom of Choice" for patients at the infirmary. The Clerk replied that she had not to this date received any answer from that department.

It was moved by Supervisor Kubatek and seconded by Supervisor Bane that one Probation Officer be authorized to attend the symposium in Canandaigua, October 26 thru October 27, 1976, at county expense.

Carried.

Copies of letters addressed to the Genesee County Legislature were read to the Board. One letter was from Legislator Edwin D. Nearing of the Schuyler County Legislature dated September 27, 1976, favoring correctional camps. The other letter was from Robert P. Cordary, Madison County Sheriff, dated September 28, 1976, also favoring such camps. Ordered filed.

The Clerk presented a "Plan of Work, Environmental Impact Statement and Work Plan Agreement", for the Oak Orchard Watershed, accompanied by a letter from the State Conservationist Robert L. Hilliard. The letter read in part, "I'm pleased to inform you that on September 2, 1976, Federal Assistance was authorized for the installation of works of improvement in the Oak Orchard Watershed in Orleans and Genesee Counties, New York. This assistance is furnished under Public Law-566, the Watershed Protection and Flood Prevention Act.

In the near future, our District Conservationist will contact you and arrange for a meeting on this action. At this meeting, we can discuss the formation of a Small Watershed Protection District, project funding, land rights, scheduling and construction."

Mr. Clayton Plummer, Chairman  
Orleans County Board of Supervisors

Dear Mr. Plummer:

Because of the Genesee County Legislature's keen interest in the proposed State correctional camp facility in the Town of Shelby in Orleans County, we have initiated several lines of inquiry in an attempt to garner as much information as possible on the success of similar correctional camps in New York State.

As a result, all information we have received to this date on the operation of camps at Monterey, Georgetown and Pharsalis in New York State has been satisfactory, and all in the affirmative. Therefore, the Genesee County Legislature, being fully cognizant of the fact that it has no direct involvement in this matter because the proposed facility's location is within the jurisdiction of Orleans County, it nevertheless felt, because of its unique location and proximity (between Attica in Wyoming County and Shelby in Orleans County) it was

incumbent upon its elected representatives to indicate their sentiments because of its possible effect upon Genesee County residents.

Therefore, we are pleased to advise you that, at its regularly scheduled meeting on Wednesday morning, October 13, 1976, the majority of the Genesee County Legislature voted favorably by 6 to 2 relative to the feasibility of the establishment of the proposed Iroquois Correction Camp Facility.

Genesee County Legislature

October 18, 1976

Although two members of our County Legislature voted in opposition, they stated they did so due to the concern of their residents in three of the northern Genesee County townships which border on Orleans County and are adjacent to the Town of Shelby.

In any event, we felt that this more or less advisory expression of opinion by the members of our County Legislature might prove of guidance and benefit to both the Orleans County Board of Supervisors and the United States Department of Interior in formulating their decision relative to the implementation of this unique facility.

Ms. Uldine D. Jurhs  
Clerk  
Orleans County Board of Supervisors  
Courthouse  
Albion, New York 14411

Dear Ms. Jurhs:

This acknowledges your September 17 letter and enclosed resolution opposing the use of the Iroquois National Wildlife Refuge as a minimum security correctional center by New York State Department of Corrections.

From a refuge management stand point, the Fish and Wildlife Service does not oppose the proposal to use a portion of the refuge as a correctional center. The Service anticipates numerous benefits to the refuge and community from work projects accomplished by the prisoners. However, we appreciate the sensitive nature of this matter and the need for public involvement before any decision is reached.

The Service's Northeast Regional Director Howard Larsen has indicated he will not execute an agreement with New York State Department of Corrections until he is confident there is local support for this proposal. No decision is expected before mid-November in order to provide ample opportunity for all parties to express their opinion on this proposal.

Thank you for advising us of your feelings. If you wish to discuss this proposal further, feel free to contact Regional Director Larsen at U.S. Post Office and Courthouse, Boston, Massachusetts 02109 telephone 617-223-2961.

Sincerely yours,

Director

It was moved by Supervisor Batchellor and seconded by Supervisor Bane that the sum of \$1,160,000 be appropriated to the Department of Social Services for the remainder of 1976 as outlined in the above letter. Upon roll call vote the motion was defeated. 69 ayes, Supervisors Batchellor (21), Plummer (25) and Bane (23); 303 nays, Supervisors Nayman (65), Kemp (20), Swiercznski (24), Paduchak (22), Piedimonte (46), Kubatek (72), and Dudek (54), voting nay; 0 absent.

Before the vote on the above motion, the County Attorney pointed out to the members that the Department of Social Services would be out of money by approximately November 10, 1976, and that time would be required to prepare the necessary papers prior to that time in order to borrow the necessary funds to keep the department going. Further discussion of the resolution pointed out that the courts have threatened legislators with personal liability if funds are not supplied for social service programs. Also, Supervisor Paduchak stated that this Board had a previous resolution to hold spending at 1976 budget levels.

After defeat of the appropriation resolution, Supervisor Paduchak made the following statement:

"I would like to take this opportunity to make a statement. This is in no way reflecting on what Mr. Klapper is doing. This is just a vote on my behalf in opposition to the State and Federal government for not doing anything as far as welfare reform is concerned. The general people on the dole are receiving in some instances more than people are that are working and I don't think this is a situation where you are asking some person that is working and is paying his taxes that he should contribute so much that another person can just sit by and receive his dole for not doing a thing. The time has come where some other measures and some drastic measures should be instigated as far as welfare reform is concerned. Both at this county and on the state level, because we can no longer afford it."

Chairman Plummer pointed out that Erie County had taken this to court and lost and that this county would need the money in November.

Supervisor Piedimonte, "I will agree with you that we have got to have the money. But where in the world are we going to have welfare reform when you have got enough votes for New York City to control the rest of us and whatever they do we are going to have to take. This is wrong. I know majority rules, but by gosh this is ruling too much."

Supervisor Dudek, "Mr. Klapper pointed out a month ago that he is working on welfare reform - there is a meeting scheduled for tomorrow and personally I am going to attend - I can't see having a meeting to discuss welfare reforms and explain our problems and then voting to make that sort of appropriation tonight. I think we have got to be realistic on this - we know we have got to do it sooner or later."

Supervisor Swiercznski, "I think you have got to have this kind of a vote at least so that a telegram goes off from the Commissioner's office tomorrow that the county turned it down. We aren't going to do this willingly, we are going to have to do this somewhere along the line. We all know that. But in the meantime we know we are trying to put up the fight our constituents are asking for. They are burdened. We all know that. Way over-burdened and it's a shame we have to cut other services to pay for that one right down the line. It isn't right but it is the best answer we have got right now until we do get some legislation thru both in Albany and Washington to change it or to change our formula. We are going to be stuck with it."

Supervisor Kubatek, "Last year, around this same time, the Board of Supervisors took an awful beating answering questions, comments and criticisms over the welfare thing and then thru the Board of Supervisors a meeting with our federal and state representatives was held at the school where people who had the power to make the changes were present. I would like to see us demand an answer to find out what they have done since then. Have they come up with any solutions or recommended any reforms or what."

Chairman Plummer, "Let me just state this. A group of people went to Albany - there were probably a couple of hundred of us who were going to meet with the Governor. He didn't show up. Reforms were proposed by those who went to Albany, Steve Hawley conducted the meeting. This man got up and said "in no way will I let it come before my committee". He stopped it right there. This man was out of New York City. He is chairman of the social services committee in the Assembly."

Further discussion followed. It was suggested that a record of the time be kept for when a telegram is sent to Commissioner Toia and when an answer is received.

The Board was notified that Local Law No. 2 of 1976 was received and filed with the Department of State on September 20, 1976.

The Clerk presented a copy of the Proposed Water Dist. No. 1, Town of Ridgeway, received from the Department of Audit and Control. Ordered filed.

A letter was received from the Town of Ridgeway calling upon the Board of Supervisors to thoroughly and speedily explore the establishment of a County owned and operated sanitary landfill facility for the protection of all of the citizens of Orleans County.

Supervisor Swiercznski, "If the county gets into running a landfill it would cost about \$250-300 thousand dollars. This man is asking 40-50 thousand dollars - it's cheap."

Supervisor Dudek, "We had a committee meeting with representatives of DEC, the County Health Department, County Planner and Mr. McKenna. We discussed the site now and in the future. The site has a capacity of 1-2 years. Then Mr. McKenna will be required to open up the other side of the road at a cost for reports and studies of about \$20,000. DEC and the Health Department have told us that the site will be approved, the only problem Mr. McKenna may have is insufficient funds. The agreement between the County and Mr. McKenna provided for

his posting a bond and the county paying him a sum of money, neither of things was done. It would be difficult to make the agreement stick. He would agree to a contract with the County for \$10,000 plus \$25,000 from the towns. This is down from the \$40,000 originally requested. Also, within a year he would have the site across the road approved. The \$25,000 would come from the towns who contract with Mr. McKenna. He would agree to a three year contract at a fixed price. The committee feels we would then have time to look for another site. The cost just to operate a landfill is approximately \$100,000 a year. To purchase the site and equipment would be about a quarter of a million dollars. The important thing now is to get a contract and make sure the site has a capacity for a number of years at a fixed cost."

Supervisor Plummer asked why the towns of Barre, Carlton and Kendall were not included in the figures provided by Supervisor Dudek. Carlton, Kendall and Barre already contract with a concern for solid waste disposal.

Supervisor Dudek said these contractors use the landfill operated by McKenna.

Supervisor Paduchak pointed out that the increased cost to the contractors by an increase in rates is included in the towns' agreements.

Supervisor Dudek, "We on the solid waste committee feel this is not the ideal solution but it seems to be the best we can do, we are open to suggestions."

Supervisor Kemp, "I think we are having a rerun of what happened three years ago. Frankly, I think the less we say about this at the present time the better off we will be."

Supervisor Dudek, "The only problem is that a lot of the towns will not have a place to dump after the first of the year."

The Board received a letter from Janice Warne Cummings, Superintendent of the Albion Correctional Facility, dated October 12, 1976, bringing to the attention of the Board Section 606 of the Correction Law, regarding payment by the state of expenses incurred for inmate's from a state facility.

Unanimously adopted.

Adjourned at 10:05 p.m., until 10:00 a.m., November 4, 1976.

REGULAR MEETING  
Thursday, November 4, 1976

The meeting was called to order at 10:00 a.m., by the Chairman. The Clerk called the roll and all Supervisors were found present.

It was moved by Supervisor Swieczniski and seconded by Supervisor Piedimonte that the reading of the minutes of the previous meeting be dispensed with and the same be approved as prepared by the Clerk.

Carried.

Privilege of the floor was granted to Mr. Richard Laskowski, New York State Division for Youth, who was requested to appear before the Board to discuss the establishment of a County Youth Board and related matters.

Mr. Laskowski explained that in order to meet the April 1, 1977 deadline for compliance with the new regulations for county youth programs, the first requirement was for a letter of intent to participate in a comprehensive survey of youth programs in the county and the intent to establish a county youth board. Orleans County has met this requirement by having filed a letter of intent to participate.

The next step is to continue with the preliminary survey for comprehensive county youth services. Much work has already been done in this area. Mr. Laskowski presented the survey form which would be used. It was suggested that perhaps a C.E.T.A. worker could be used in doing some of the survey work. He told the Board that much of the information was already available in the county and it would be a matter of pulling this information out of the various areas.

The next requirement would be the establishment of a County Youth Board on a volunteer basis. In a county the size of Orleans a full-time staff would not be required. The County Youth Board should consist of between 13 and 28 persons, 50% should be persons connected with youth programs, such as a representative of the courts, etc. Youth should also be represented on the board along with representatives of each village and town. The Division for Youth would give training to the members of the Youth Board. No action was taken.

Privilege of the floor was granted to Mrs. Carri Blake, Director of the Office for the Aging and Mr. Fred Dixon a representative of the Salvation Army. Mrs. Blake explained that funds are available under Title VII for a nutrition program for the elderly on a 10% local share - 90% federal share. The Salvation Army are willing to supply the local share and run the program. Hopefully this program would supply one hot meal a day for approximately 100 persons, with centers being established in Holley, Medina and Albion. It was also hoped that the Office for the Aging and a Salvation Army office could be established jointly - this would reduce costs and make it easier to administer the program. Mr. Dixon discussed some of the nutrition programs being administered by the Salvation Army in other areas. Mrs. Blake said that she and Mr. Dixon were at this meeting to seek the support of the Board of Supervisors for this joint program.

Several Supervisors expressed concern that there were not enough elderly persons interested in such a program. It was requested that more accurate figures be presented to the Board before making a decision on whether or not to support the program.

Supervisor Kubatek said, "I would like to see the committee investigate the Office for the Aging and their programs".

Mrs. Blake and Mr. Dixon said they would gather the necessary figures which the Board requested.

Privilege of the floor was granted to Mr. Donald Goodwin representing the pharmacists in the County. Mr. Goodwin presented the following "Prescription Cost Study and Recommendation" to the Board of Supervisors. The pharmacists requested the County make up the difference between the \$1.80 paid for the preparation of medicaid prescriptions and what they determine to be the actual cost to the pharmacist for the preparation of the prescription.

PREScription COST STUDY AND RECOMMENDATION:

1. Current fee of \$1.80 was instituted in 1968.

Container cost has tripled.

Wage cost(Professional) \$3.30/hr to \$9.00 plus.

2. Cost Study (Goodwin's Pharmacy)

	<u>1975</u>	<u>1976 Estimate</u>
Overhead Expense(Salaries, Heat, Light etc)	\$2.21	\$2.40
Container	.15	.15
Interest on Investment	.07	.07
Profit (10% of average Rx - \$5.50)	<u>.55</u>	<u>.55</u>
	\$2.98	\$3.17
New Program: Difference between EAC & Actual		.25
Allowance for MAC difference		....
Time for paper work	.25	.25
Estimated extra paper work		.15
Increment for compounding		<u>.10</u>
		\$3.92

3. Recommendations: County to pay difference between the \$1.80 State allowance and realistic cost figures.....

Realistic	\$3.92
State	- 1.80
County	\$2.12/Rx

New fee (\$3.92) should have built-in increases based on cost of living or inflation rate.....

If 8% inflation.....\$3.92/.92	\$4.26
	<u>-1.80</u>
	\$2.46

If payments are delayed beyond 30 days, pharmacies should be allowed a 1½% service charge.

Mr. Goodwin informed the Board that the pharmacists had not had an increase from the medicaid program since 1968 and the State of New York had now come out with new fee schedules for drugs which increased the cost and paper work for the pharmacists. Also, the cost of containers and various other costs have risen greatly since 1968. The pharmacists do not wish to boycott preparing medicaid prescriptions but do feel that they can not continue to lose money on these prescriptions.

The Board was informed that Rockland County had adopted a resolution to pay the pharmacists in that county the difference between the \$1.80 and their actual cost for medicaid prescription preparation. After much discussion, the Chairman said the Board would consider a resolution to the State of New York and various others requesting an increase from the \$1.80 presently paid for filling medicaid prescriptions.

Adjourned at 12:05 p.m., reconvened at 1:30 p.m., all Supervisors present.

The Clerk presented a letter and application from H.U.D. concerning the Village of Albion and Village of Medina, referred to the Supervisors from the Towns of Albion, Shelby and Ridgeway.

A letter was received from the Department of Correctional Services, dated October 28, 1976, re: claims for costs under Section 606 of the Correction Law. The following resolution was adopted:

RESOLUTION NO. 257

By Supervisor Paduchak, who moved the adoption.

Unanimously adopted.

The Clerk presented the following communications:

A letter from D.E.C. acknowledging receipt of Resolution No. 255. Ordered filed.

The Accountants' Report for WOTB, dated September 30, 1976. Ordered filed.

The Comprehensive Annual Social Services Program Plan for New York State. Supervisor Kemp reported that the Social Services Committee had reviewed this with Commissioner Klapper and several changes had been made in the program at the Orleans County Department of Social Services.

A notice of a public hearing to be held November 18, 1976, by an Assembly Committee on Reapportionment.

A letter and resolution from Albion Federal Savings & Loan Association, dated October 22, 1976, protesting an reduction in bus service by Greyhound Bus Lines. It was pointed out that the reduction of service had been rescinded by the bus company. Several Supervisors felt that if the company was losing money they could not be expected to continue service. The matter was tabled for further study.

#### RESOLUTION NO. 258

By Supervisor Paduchak, who moved the adoption.

Seconded by Supervisor Batchellor.

#### RESOLUTION APPROVING MORTGAGE TAX APPORTIONMENTS

RESOLVED, that the Mortgage Tax apportionments appearing in the foregoing warrant be adopted by the Board and the said warrant be approved and delivered to the County Treasurer.

Unanimously adopted.

The Clerk read the telegram Commissioner Klapper sent to Commissioner Toia on October 25, 1976 at approximately 11:00 a.m., relaying the information that the Board of Supervisors on October 21, 1976, had defeated a resolution to appropriate additional funds for the Department of Social Services. Also read was the telegram received at 4:30 p.m. October 25, 1976, from Commissioner Toia which read as follows:

"I have received a telegram from Orleans County Social Services Commissioner Jerim Klapper informing me that the Orleans County Board of Supervisors defeated a resolution for a \$1,160,000 deficiency appropriation for public assistance and care programs for the balance of 1976. Pursuant to the Social Services Law, the State Constitution, and several court cases, including Toia v. Regan in the New York Court of Appeals and Beame v. Lavine in the U.S. Supreme Court, it is the duty of county legislative bodies to make sufficient appropriations for all public assistance and care programs required by the Social Services Law. It is the Orleans County Board of Supervisors' duty to make the appropriation which Commissioner Klapper has requested. I sincerely hope that the recent litigation on this subject has made this duty clear and that further litigation in Orleans County will be unnecessary."

Supervisor Piedimonte introduced Resolution No. 259 appropriating \$1,160,000 to the Department of Social Services for the remainder of 1976; seconded by Supervisor Dudek.

Supervisor Paduchak said, "What we tried to do on this Board in voting against the appropriation resolution when originally introduced was - we are a poor county and we are being saddled with these mandates and continuously being forced to pay more than we are able to pay. We knew we would be forced to appropriate this money but what we tried to do was call attention to the fact that welfare reform is a necessity in this state. I will reluctantly vote yes on this resolution."

Supervisor Kubatek asked, "Where is the money going to come from? How can you vote on appropriating this money when you don't have the money?"

The County Attorney said, "This appropriation really adds to the 1976 budget, it is the same thing, you get it by taxes. Now in this instance, you have got to appropriate the \$1,160,000 which according to the facts should have been in the 1976 budget. That is going to come to the county in two immediate ways, first, the State's share, approximately 75%, is going to be paid during the balance of 1976. The other part or roughly \$316,500 will have to be paid by a budget note and paid next year. The only way it can be borrowed is by having the budget up-dated. This is one of the things where the appropriation really is revising the budget to show that the funds will be coming in those two ways. Really it is putting over from 1976 to 1977."

Supervisor Swiercznski, "I would like to bring out that you are saying you are going to borrow \$316,500 and the statement was made by the County Treasurer that she started the year out last year with \$30,000 and this year she wants to start out with \$200,000. She has \$200,000 in a savings account - we should use that and then only have to borrow \$100,500. This is one of the problems you have with the Budget Officer and the County Treasurer having the same job. She wants to look good with a surplus. I say use what we have got and don't over borrow. The taxpayers are strapped now."

Supervisor Kubatek, "The Finance Committee in preparing the 1976 budget recommended the proper amount of money to cover the department and this Board cut it out of the budget and it was mentioned that the departments would have to live within their budget. When we hired the new commissioner the comment was made that we would be able to live within the budget adopted by this Board. What did Social Services do to cut down, as far as laying off people. What did they do to stay within that budget. Now we are asking the taxpayers to put this back in."

Supervisor Kemp, "At the time we were talking about the budget last year I do not recall anyone even believing that the social services could live within that budget and frankly speaking, it has been proven so far this year that had there not been drastic cuts made, the deficiency would be twice what it is right now. And I will tell you the Commissioner and the committee that has been working with him deserves a lot of credit for being able to get this down to what it is at the present time. I just hope that in the winter time that it does not escalate. Let us hope that we can hold it there. The budget we are working on was not a realistic budget."

Supervisor Kubatek, "Going back in rebuttal to your comment, George Batchellor and I predicted at budget time last year that by the cuts that were made we would be running approximately 1.5 million short this year."

Supervisor Kemp, "How much did the former Commissioner tell us we would be short a year ago, was it not two million dollars based upon the money we were spending at that time."

Supervisor Batchellor, "We also had to pick up the \$170,000 from last year."

Upon roll call vote the resolution was adopted.

RESOLUTION AUTHORIZING ADDITIONAL APPROPRIATION TO VARIOUS ACCOUNTS IN THE DEPARTMENT OF SOCIAL SERVICES

WHEREAS, an appropriation of \$5,622,055.40 was included in the County Budget for the Department of Social Services for the calendar and fiscal year 1976, to cover the County's share of the Social Services programs for the year 1976, and the cost of these programs to the County has exceeded said sum:

BE IT RESOLVED, that the additional sum of \$1,160,000.00 be appropriated as follows for the remainder of 1976:

- (1) \$ 36,652.16 to Account No. 6010.0 Welfare Administration
- (2) \$ 28,904.66 to Account No. 6030.0 Public Home & Infirmary
- (3) \$512,485.60 to Account No. 6101.4 Medical Assistance
- (4) \$ 29,015.52 to Account No. 6103.4 Old, Age, Ab, AD
- (5) \$430,423.11 to Account No. 6109.4 Aid to Dependent Children
- (6) \$108,865.95 to Account No. 6140.4 Home Relief
- (7) \$ 13,653.00 to Account No. 6129.4 State Training Schools

The County Treasurer appeared before the Board. Mrs. Basinait said, "The two hundred thousand you are talking about was where I said if we are lucky we will have that amount as a cash surplus at the end of the year but right now the checking account is nil. We have paid our medical rolls and payrolls for Social Services. Our advances are in for the month, we will have no more money coming in and there are payrolls and medical rolls to pay for October. If you use everything we have now, you will be right back where we were last year. You will be borrowing not only on a budget note but on revenue anticipation."

Supervisor Dudek, "Where you get the money from is one problem, regardless of where you get it from you still need the same amount of money, the cost is there. If you borrow it there is a good chance on the current rates of interest there will be very little cost to the county. It is just a matter of postponing it for a period of time and that is just what happened last year. We have to be realistic on this and you talk about a balanced budget, we can't keep postponing this until next year."

After further discussion the following resolution was adopted:

There would be more careful monitoring of the people who use the landfill by use of permits."

#### RESOLUTION APPROVING AGREEMENT WITH MIDLAND AMBULANCE SERVICE, INC., AND AUTHORIZING CHAIRMAN TO SIGN AGREEMENT

RESOLVED; that the agreement to amend the contract with Midland Ambulance Service, Inc., in relation to the rates paid for transportation, be approved by this Board and the Chairman of this Board be and hereby is authorized to execute same in the name of the County.

Unanimously adopted.

Supervisor Batchellor informed the Board that the new weathervane has been installed on top of the Court House cupola.

Supervisor Kemp told the Board that the Mental Health Department wishes to have created two positions of part-time Psychiatrist and a Staff Psychologist. Dr. Terry told the committee that she has \$4,000 of state money in her budget for these positions for the remainder of 1976.

Supervisor Paduchak asked if the Board shouldn't take a close look at creating any new positions with state money because if the funds are withdrawn, the burden falls back on the county. He suggested the matter be tabled.

Supervisor Kemp agreed to table the matter in order to have Dr. Terry explain her request to the Board.

It was moved by Supervisor Piedimonte, seconded by Supervisor Swiercznski, and carried, that the meeting be adjourned.

Adjourned at 8:45 p.m., until 10:00 a.m. on December 2, 1976.

ANNUAL SESSION  
Fourth Day  
Thursday, December 2, 1976

The meeting was called to order at 10:20 a.m., by the Chairman. The Clerk called the roll and all Supervisors were found present.

Supervisor Bane informed the Board that he had requested that Ms. Kathy Murphy and Mr. Peter Dumanian from the Mental Health Dept. be present at this meeting to answer any questions the members might have regarding the vouchers which had been rejected by the Auditing Committee.

Supervisor Kubatek asked for an explanation of certain items, such as purchase of magazines, plaster molds, wood working equipment, etc.

It was explained that these items are used in the "Socialization Program" conducted by the Mental Health Dept. for patients just released from hospitals, etc., to help them adjust to the outside world and everyday situations. The money is in the budget for these programs.

The Chairman noted that even though the Mental Health Board approves these programs, they should also be brought to the attention of the committee from this Board.

Privilege of the floor to Ray Pahura who discussed the new Real Property Tax exemptions for business. It was again pointed out that this law will go into effect unless modified by each municipality.

Supervisor Dudek said, "It is imperative we have a county meeting of the various taxing bodies."

The Clerk was instructed to set up such a meeting for December 8th at 8:00 p.m. at the Court House and to invite School Boards, Village Boards and Town Boards.

Privilege of the floor was granted to James Hancock, Manpower Coordinator. Mr. Hancock discussed the narrative he is preparing for submission to the State for CETA VI. Mr. Hancock presented the following "Information Bulletin".

This bulletin addressed to CETA Planning and Operational Staff, briefly describes important aspects of the Emergency Job Programs Extension Act of 1976, which extends title VI of CETA. Assuming familiarity with public service employment and other programs under titles II and VI of the Comprehensive Employment and Training Act, it emphasizes the changes brought about by the new legislation. It does not include elements of more specific interest (i.e., Secretary's reallocation authority, redefinition of Indian tribe eligibility, establishment of national unemployment statistics commission, etc.). Examples which highlight alternate approaches for CETA prime sponsors in different programmatic situations are provided in an addendum. As an information piece, this bulletin does not transmit policy nor mandate work generating activity.

#### I. Purpose

Two primary purposes are put forward in the new legislation:

- A. To maintain the number of public service jobs at the June 30, 1976 level; and
- B. To initiate a new program design viz, any funds over and above what is necessary to maintain June 30, 1976 public service job levels, or to carry October 22, 1976 levels into the fiscal year must be expended on project-activities. We do not anticipate any substantial amount of activity in this new program design. Project activity will be limited, undertaken in addition to ongoing title VI activity only if prime sponsors have sufficient additional funds to permit such undertakings.

## II. Background

In essence, the legislation provides for an extension of the basic title VI program. There should be, for most, no major disruption of local operational activity. There are some "ground rule" changes, however, that will require some modification of current procedures. These have to do with new eligibility requirements, and the necessity for applying these criteria to at least <sup>75%</sup> ~~half~~ of the participants brought into the program after grants are executed.

## III. Ground Rule Changes

1. Prime sponsors should prepare plans that continue presently (enrolled participants in title VI positions.

2. As vacancies arise, they must be filled according to the <sup>75/25</sup> ~~50/50~~ requirement, namely, that at least <sup>seventy five</sup> ~~one-half~~ of new hires must meet new eligibility requirements. Additionally equitable service to the four categories of eligibility should be provided and new procedures for verification should be implemented.

### A. <sup>75/25</sup> ~~50/50~~ Requirement

At least <sup>75%</sup> ~~half~~ of all title VI participants hired after grant approval must meet the new eligibility criteria. All participants in project activities must meet the new requirements. Prime sponsors may use the old title VI criteria to fill vacancies that arise due to attrition in non-project public service jobs, so long as the overall <sup>75/25</sup> ~~50/50~~ requirement is met.

Rehires complicate the picture somewhat. Congress intends that prime sponsors have the option of rehiring persons laid off because of the "quota" contained in the provisions of section

96.24 (e) and (f) of the Regulations. The <sup>75/75</sup>~~50/50~~ requirement applies to enrollment over and above rehires previously laid-off.

B. New Eligibility Requirements

Congress has defined and set participation requirements for a new eligibility category, that of low income long term unemployed persons. Two requirements must be met:

1. The family of the participant must have a gross family income at or below 70% of the BLS lower living standard income level. Nationwide, that level for an urban family of four was \$9588 on May 5, 1976; the 70% figure is approximately \$6700. Regional and urban/rural differentials based upon family size will be made available in the near future, before grants are executed and operational activity must begin.

2. One of four other criteria must be met as well --

-- a family member must be an AFDC recipient or

-- The participant must have been receiving

unemployment compensation for at least 15 weeks; or

-- The participant must have been unemployed for 15

or more weeks, if ineligible for UI benefits; or

-- The participant must have exhausted unemployment compensation benefits.

C. Equitable Service

A new requirement is that prime sponsors should serve the four categories of eligibility in proportions comparable to the composition of the unemployed population. Although labor market information may not be available, the Congress expects that all four target groups will be equitably served. Welfare

recipients, UI exhaustees, persons ineligible for UI who have been unemployed for 15 weeks or more, and persons who have received UI benefits for at least 15 weeks, should all be served in title VI programs.

#### D. Verification of Eligibility

Close coordination of direct non-financial agreements with SESAs and public assistance agencies may be necessary to verify participant eligibility. Because the criteria are relatively simple for such agencies to confirm, prime sponsors may be able to preclude future audit; exceptions and disallowed costs by establishing liaison. Additionally, SESAs will inform UI recipients as they reach the fifteenth week, or exhaustion status, of their eligibility for title VI project activity. Prime sponsors should maintain close contact to ensure that persons are not referred to non-existent positions.

#### E. Computing Family Income

As the regulations now read, the three month "annualization" method of computing family income, previously prohibited, is now in most cases mandated. Although the issue is not yet settled, this may later apply to title I economically disadvantaged and underemployed persons as well. Until and if resolved in this manner and published in the Federal Register, prime sponsor should plan to retrain eligibility workers and other intake personnel to use different methods of computing family income for the different titles of the Act. Title VI eligibility must be computed by annualization and comparison to annual family income; title I eligibility must not be computed by annualization.

#### F. Administrative and Operational Costs

Recognizing that projects as well as other PSE activities necessarily involve a variety of direct costs, the Congress relaxed administrative cost limitations. Fifteen per cent may now be utilized for costs other than wages and fringe benefits, including the acquisition and rental or leasing of supplies and equipment, materials and real property, supervisory wages, training and supportive services, as well as traditional administrative costs.

#### G. UI Costs

The Special Unemployment Assistance (SUA) program rather than CETA funds is to be charged for unemployment compensation for PSE participants. ~~States are to arrange administrative procedures to~~ provide for credits for past payments. The purpose of this change is to avoid the diversion of funds from providing jobs to providing unemployment assistance.

#### IV. Funding Levels

The Title VI Extension continues the program through September 30, 1977. The continuing resolution which appropriates funds expires on March 31, 1977. We are seeking clarity to reconcile these conflicting actions, but have not yet obtained resolution. In any event, funds will be provided in the near future that will be sufficient to continue June 30, 1976 public service job levels into the fiscal year.

It was moved by Supervisor Dudek and seconded by Supervisor Piedimonte that the sum of \$4,000.00 shown under account 3110.4 Polygraph School in the Sheriff's 1977 budget, be deleted from the 1977 County Budget.

Adopted. 300 ayes; 0 nays; 1 absent, Supervisor Kubatek (72).

Further discussion of the Sheriff's 1977 budget took place, particularly the purchase of new radios and automobiles. Supervisor Paduchak suggested that perhaps the radios could be purchased with a grant to be obtained through the Traffic Safety Board.

It was moved by Supervisor Paduchak and seconded by Supervisor Dudek that the sum of \$45,000.00 received by the County from anti-recession funds be used as a cash surplus to reduce the 1977 county levy.

Adopted. 300 ayes; 0 nays; 1 absent, Supervisor Kubatek (72).

It was pointed out that this surplus was not included in the original tentative budget because the County had not received the money at the time the budget was prepared.

The Sheriff appeared before the Board at the Board's request. Supervisor Dudek asked the Sheriff to inform the Board as to the mileage on the cars presently being used by the department.

Sheriff White told the Board that he had seven vehicles - four marked cars and three unmarked cars. Sheriff White said, "On the four marked vehicles, we have 140,000 miles on a couple and 115,000 miles on the other couple. The car the criminal investigator drives is a 1972 and it has 107,000 miles on it. The car the Undersheriff drives is a 1973 and has 84,000-86,000 miles on it. That one was smashed up and repainted."

Supervisor Swiercznski remarked that, "The one with 84,000 and yours, you could save two vehicles. I agree you have to have four new marked vehicles."

Supervisor Paduchak, "I think we should try to balance the budget out as far as vehicle purchases are concerned and we should get back to the point where we buy a certain number of vehicles every year."

Sheriff White, "Actually we don't buy unmarked cars every year. We buy them every two-three years. The only cars we buy are the marked cars and every time that we buy them we have over 100,000 miles on them. We got on an economy kick and it is costing me \$6,000 on major repairs because we didn't buy any cars last year. We are talking about \$25,000 for six automobiles and as you know, these cars are reduced in horsepower with the intention to reduce not only maintenance but gasoline. When we talk about \$25,000 and I expect somewhere between five and seven hundred dollars returned, there is a possibility of \$4200 or more for the sale of those six automobiles."

Further discussion of the automobiles and type of tires used on the automobiles took place.

Supervisor Swiercznski, "What about this thing on "Flak Jackets"? This \$2,000. Let's face it. The State Police don't have them. I don't know of nay police department around here that has them."

Sheriff White, "I am saying that those "Flak Jackets" are essential to human life, and you are talking about \$100 a man."

Supervisor Dudek, "We all know that there was a bill passed recently - \$50,000 automatic benefits for the family of a policeman killed in the line of duty. That is just one single cost. Unlike the troopers, especially at night, the deputies are called upon by themselves. This is a one-time purchase that is going to last more than one year. I believe it is a responsible and reasonable request."

Supervisor Nayman, "On the light bars - what are we talking, four for \$800, do you have them now?"

Sheriff White, "No we don't, just the twin light that has proven unable to cut density and fog and adverse weather and make it a safer stop. The ones we have now are sixteen years old."

Supervisor Swiercznski, "These are things that could be obtained through the Traffic Safety Council."

Supervisor Nayman, "Can these things be obtained under this traffic safety thing?"

Sheriff, "I don't know."

Discussion of salary increases for the Sheriff and Undersheriff took place. Supervisor Kemp pointed out that on the survey of eleven counties, the committee came up with a minimum salary of \$16,000 and a maximum of \$19,000 for the Sheriff.

Supervisor Nayman questioned jail expenses for tobacco, matches, etc.

Sheriff White, "I have been fighting these things. It is my opinion that if a guy has got a drug habit, I should also supply his drugs too. This is what the Correction's Department says I have to do. I have got to give him a toothbrush, cigarettes, toothpaste, afro-picks, etc. I am fighting this all the time."

After further discussion of the possibility of obtaining some of the requested items through the Traffic Safety Committee, the meeting was adjourned at 12:00 p.m., on the motion of Supervisor Piedimonte, seconded by Supervisor Nayman, and carried.

ANNUAL SESSION  
Sixth Day  
Thursday, December 9, 1976

The meeting was called to order at 10:30 a.m., by the Chairman. The Clerk called the roll and all Supervisors were found present.

Mr. Alan McKenna was present at the meeting to discuss with the Board a new agreement for solid waste disposal in the county.

Supervisor Dudek informed the Board that the committee felt there was nothing further it could do without approval from the whole Board. Each town which has a contract with Mr. McKenna for solid waste have various expiration dates on them making it difficult to negotiate an agreement on a county-wide basis.

Supervisor Piedimonte expressed the opinion that an agreement should be reached on a county level. He said, "I feel that somewhere in the neighborhood of \$10,000 would be a fair price to offer Mr. McKenna."

Supervisor Kubatek, "I think Mr. McKenna does have a problem and he is doing a good service for the county and doing a good job on it. I think we have got to help him out. At the present time the towns are all in situations where they just can't get out of it. The committee could work it out and get the whole thing straightened out for next year."

Supervisor Batchellor, "I have been on this committee 2, 3, 4 years, it is always put it off and get together later. Well, we are together this morning. Let's get this settled."

Discussion of various agreements between Mr. McKenna and the towns took place.

Supervisor Piedimonte said, "I think that we should definitely consider an agreement for 1977 until we get things straightened out. I would like to think and say that \$10,000.00 would be a fair figure for 1977."

Supervisor Kubatek, "If it is acceptable with Mr. McKenna, I will second the motion."

Chairman Plummer, "The motion was made by Supervisor Piedimonte, and seconded by Supervisor Kubatek to give Mr. McKenna the \$10,000.00 supplement for taking care of the garbage for 1977."

Supervisor Piedimonte, "And we will start working on 1978 and 1979 in the spring."

Supervisor Kubatek, "We don't know what position will be taken with the individual towns or if Mr. McKenna will accept this."

After more discussion, Supervisor Dudek said, "I think it's inappropriate at this time to be spending money until we get this stuff on paper and we know exactly all the things that are included in it. I request that this be tabled until the next meeting under Rule 12. Give the town attorney, the landfill committee and Mr. McKenna, time to get things on paper. We can't come in here and in a half hour spend \$10,000.00 without knowing what we agree to, exactly where we stand, what everybody is agreeing to. Then we appropriate that money and you go out of here, we are subject to different interpretations as to what we said today. If we have it on paper, we know what we are talking about."

Motion to appropriate \$10,000.00 to Mr. McKenna, tabled.

RESOLUTION NO. 297

Supervisor Piedimonte, "They are out. There is nothing in the budget for them. We do expect to be able to keep 60% of the jobs but we don't know right now."

Supervisor Swiercznski, "I really think this Board has done as well as they could do under the circumstances. I think it is commendable under the cuts we have made in personal services, I appreciate the time the committee has put in on it."

Supervisor Paduchak, "I will vote yes on this budget on the basis the committee has done a magnificent job. They had pit-falls but probably a new era as far as personnel is concerned has come out of this."

Supervisor Piedimonte, "I would like to thank the people who worked on this and Mary Basinait, the Budget Officer. They worked hard on it. There are a certain amount of taxpayers that you couldn't satisfy if you gave them no tax at all. And I am serious when I say that."

RESOLUTION AUTHORIZING AGREEMENT BETWEEN THE COUNTY AND ALAN MCKENNA

ANNUAL SESSION  
Seventh Day  
Tuesday, December 14, 1976

The meeting was called to order at 10:10 a.m., by the Chairman. The Clerk called the roll and all Supervisors were found present.

Privilege of the floor was granted to Mr. Stuart Brown. Mr. Brown was invited to attend the meeting to explain the services which he performs as a "Grantsman" for Wyoming County.

Mr. Brown said, "For the last six months I have worked for the County of Wyoming and also providing additional assistance to towns and villages in Wyoming County in securing state and federal aid for a number of programs. I think there is a real need for this kind of service, particularly in small rural areas. I think many of us have begun to realize that in order to carry out many of the improvements that we need in our communities if we don't have assistance from the state and federal governments, we are not going to be able to fund those projects."

Mr. Brown decribed the types of assistance he is rendering in Wyoming County. Wyoming County provides him with an office, telephone and part-time clerical help. They pay him on a per diem basis, averaging two days per week, plus mileage for travel within the county. He stressed the importance of personal contacts with Albany and Washington in following grant applications.

Mr. Brown told the Board that he could be available to Orleans County on a per diem basis of \$150.00 per day, the county to provide office space, telephone and part-time clerical help, plus mileage for travel within the county. He suggested that perhaps two days a week for six months to one year on a trial basis might be feasible. Mr. Brown was asked about paying him on a percentage of grants received, he replied that Wyoming County had considered that idea but decided on the per diem payment. Mr. Brown informed the Board that he preferred the per diem arrangement.

The matter was referred to the Planning and Development Committee for their recommendation.

It was moved by Supervisor Kubatek and seconded by Supervisor Paduchak that the County Planner be requested to attend a meeting on Coastal Zone Management in Syracuse, December 20, 1976, at county expense; any member of this Board is also authorized to attend said meeting at county expense.

Carried.

Supervisor Batchellor said, "We had a committee meeting about who is going to be running Jeff. The County Board, County Planning Board or the Planning Committee of this Board of Supervisors. I think a decision must be made so that Jeff has one boss. Maybe the Board should tell him everything he should do. Somebody should have the authority."

Supervisor Nayman, "We had a committee meeting and spent quite a lot of time and detail discussing this. There are several things that come under the County Planner's job. (1) The 701 Program which provides the majority of the revenue to pay for that particular department and we feel there should not be anything in the way of allowing him to complete that particular type of work. It takes about 40% of his time throughout the year to do this. The County Planning Board and the routine things that go along with it takes about 15% of his time. He works with the towns and villages, he has outside programs, he has DEC programs.

So just to enlighten the Board on what has been obtained through his office, I know there was some concern about what work he does, and that maybe he had an extra bit of free time here and there. Last year the 701 Program was completed and what was necessary for funding for last year. The Planning Board activities were carried on as they should be. He worked with various organizations, he has contributed in getting aid for the Council on the Arts at \$15,000; a grant for the Village of Albion at \$90,000; worked with Program Funding on alcoholism grant of \$65,000; 701 Program \$12,500; worked on flood control maps for villages and towns; Ag Districts; public works programs; and now the Traffic Safety Board; HSA; worked on DEC rules and regulations. He is not sitting and doing nothing. In the committee we felt we should provide some sort of outline of what his job requirements should be. Working with the 701 Program again, since it is the major funding for his department will be the primary thing again this year, nothing should interfere with that that would create any problems in successfully completing it.

(2) Working with the County Planning Board on their normal routine business and then with the remainder of the time, about 40% of the time, working as he has been, supplying information, working on program grant applications, these types of things.

In order to get something as a procedure, the committee is suggesting these things as outlined be the normal procedure and when some town or the county calls for information, or some organization or the committee, if it is something he can get within a couple of hours, something that will not take him more than a day, if he has the time to do it and can meet his deadline on these other projects, that he goes ahead and does it. If the County Planning Board or other agency or organization has a project of short duration he can fit into his schedule he can do it, however, any major project that comes up should first be cleared through the committee to give him some direction and enable him to budget his time. This is the suggestion of the committee to the County Board that this be implemented."

It was pointed out that when the County Planner was appointed the resolution read in part, "said Planner shall perform the duties of planner of the County of Orleans and any other duties assigned by the Board of Supervisors."

For the Year 1977

# BUDGET MESSAGE 1977

## TO THE HONORABLE BOARD OF SUPERVISORS AND TAXPAYERS OF ORLEANS COUNTY:

Your Budget Officer and Finance Committee in conformance with Article 7 of the County Law, herewith submit our recommendations for a Tentative Budget that we feel is necessary to carry out County functions for the year beginning January 1, 1977:

Total Appropriation	\$ 13,491,448.41
LESS: Estimated Revenues	10,562,914.41
General Fund Surplus	145,000.00
Federal Revenue	
Unappropriated funds	54,045.00

### AMOUNT TO BE RAISED BY

#### REAL PROPERTY TAX

2,729,489.00

### TOTAL APPROPRIATIONS

\$ 13,491,448.41

Appropriations have increased \$791,517 over those of 1976. Major contributions to this increase is an adjustment in salaries which was not completed at the time of the adoption of the 1976 budget, but made retro-active to January 1, 1976. Also, a budget note was necessary for Social Services programs in November. This amount (\$316,500) was County share, and incorporated into the 1977 budget.

Increased total anticipated revenues offset a part of the increase in appropriations. This increase is estimated to be \$435,383.

Estimated sales tax revenues have been increased to \$1,700,000, which is an increase of \$172,000. Assessed valuation, for County purposes, increased during the year by approximately \$2,614,000 and the amount to be raised by taxes has been increased by \$202,089.

We are unable to include in this tentative budget a 1977 salary schedule since negotiations with the bargaining agency for the Social Services Department, the Sheriff's Department and others are not completed.

Our Contingency Fund has been increased to cover possible unforeseen expenses. Court costs for County Court have been increased due to the fact that the County will be involved in two murder trials in 1977. Reserve for taxes is increased because unpaid taxes for 1976 were several thousand dollars higher than usual.

The Social Services Department has presented a budget, which was accepted by the Finance Committee and the Budget Officer, and ultimately by the Board of Supervisors at the preliminary hearing, which does not exceed the 1976 expenditures for Social Services Program. Even though this budget represents 52% of the 1977 budget, we feel that it is realistic.

Cost to County figures are added this year for further information. They are estimated to the best of our ability and total \$4,491,132. This amount less the \$1,700,000 sales tax revenue, equals a cost to the County of \$2,791,132(Tax Levy).

Due to our strong desire in maintaining efficient handling of County funds, the County Treasurer's Office has continued to maintain a diligent policy of income investment and revenue management which has been most effective in helping us to stabilize the County tax rate.

Present economics dictate policies of close scrutiny of all County operations and expenditures as well as a most careful review of any new County commitments. The Finance Committee has taken a position that any new programs must be viewed with caution, and any new employees must be given very close consideration.

I wish to thank all Department Heads, whom I feel cooperated to the fullest extent with us by living within their 1976 Budget, and in presenting a budget for 1977 that could be accepted by the Board of Supervisors and the Taxpayers. Also, my deepest appreciation to my Finance and Budget Committee, consisting of Finance Committee Chairman, James Piedimonte, Albert Kemp, George Bane, Stanley Kubatek and Chairman of the Board of Supervisors, Clayton Plummer. They have worked diligently in helping to prepare this budget.

Respectfully submitted,

*Mary B. Basinait*

ANNUAL SESSION  
Eighth Day  
Tuesday, December 21, 1976

The meeting was called to order at 11:15 a.m., by the Chairman. The Clerk called the roll and all Supervisors were found present.

Privilege of the floor was granted to James Hancock, Manpower Coordinator. Mr. Hancock informed the Board that Orleans County had received enough additional money to retain some positions under the CETA Program for one or two months. After the new funds are allocated a decision must be made as to what positions can be retained. Each department head should now ascertain the positions they wish to retain and those which should be abolished.

The Clerk informed the Board that a notice had been received from the Public Service Commission cancelling the hearing on increase in telephone rates for New York Telephone.

The Clerk read a letter from Martin Basinait, Off-Track Betting Director for Orleans County, dated December 16, 1976. Mr. Basinait informed the Board that it is estimated that Orleans County will receive approximately \$27,713 profit in 1977. The Board was also requested to support legalized All-Sports Betting legislation.

Several Supervisors expressed the feeling that they could not act on such a request until they had time to study the proposed legislation and to get some indication of how their constituents feel on this subject.

Supervisor Paduchak suggested that perhaps this Board should instead urge the Legislature to reverse any decision to tax 20% on all winnings.

A letter from Louis Monacelli, Staff Development Coordinator in the Orleans County Department of Social Services, dated December 15, 1976, informed the Board that their staff's feelings on the reorganization of that department were "There is now administrative unity; units' functions are better defined and are no longer fragmented. Workers feel that they now have a better idea of how other jobs are performed as well as their own. They work closer together and are kept more informed on changes within their unit as well as in the Agency. Workers are now able to perform a set of related tasks through to completion; they also know their own caseload better.

On the other hand, some workers feel there is a lack of communication within the Agency and that some disharmony exists because the full effects of the reorganization are not yet realized. Many expressed the desire to have training session to explain the functions of each unit. (Some have already been conducted)."

The Clerk presented a Proposal for Organization of a Regional Council for the eight county Genesee/Finger Lakes Regional Planning Board. The members requested time to study the proposal.

Presented a memorandum outlining the proposals from Commissioner of Social Services Toia to be presented to the Legislature for welfare reform.

Chairman,  
County Board of Supervisors

Dear Chairman:

The State Commission of Correction feels that it is imperative at this time to express its concern with respect to recent budget cuts being imposed by many county officials responsible for the approval of budgets for county jails.

Historically, county officials have been unwilling to appropriate adequate funds for jails. Other important services are given priority due to the fact that those services are more visible and attractive to the public and therefore gain public support. It naturally follows that when local governments are experiencing financial difficulties, it is often the jails that are primary targets for reduced expenditures. This fact has severe implications, especially when one considers that most county correctional facilities have been under-staffed and under-funded in normal circumstances.

The Commission strongly urges that there be made available adequate resources for local correctional facility administrators to meet their statutory responsibilities. It further advises that while the official in charge (sheriff, superintendent, commissioner) is responsible for the administration of the jail, the responsibility for providing a detention/correctional facility adequate for the proper care, custody, supervision, and legal classification of those committed to it rests with the legislative body of that jurisdiction. The Commission emphasizes that facility administrators cannot be asked to do faithfully that for which they have insufficient resources.

Therefore, the Commission wishes to go on record as cautioning all county governmental bodies that in the event

December 13, 1976

the Commission determines that a particular facility does not have the proper resources to safely, securely and legally house inmates, the Commission will be forced, pursuant to its legislative mandate, to take steps to close that facility. It will be the responsibility of the county legislature to take whatever steps it feels appropriate to comply with the State Constitution as it relates to the treatment of offenders within each county and, most importantly, in a manner acceptable to the public.

The Commission remains available to provide whatever advice and assistance may be deemed appropriate at any given time; however, it cannot and will not acquiesce to substandard conditions in any correctional facility.

We are aware of the extraordinary fiscal problems which currently beset every level of government and thank you for your consideration of our particular concerns. Hopefully, we will together address and work through our perplexing problems to meet wisely our mutual responsibilities.

Sincerely yours,

Stephen Chinlund

County Clerk, Francis A. Rumble, presented a list of new regulations proposed by the Commissioner of Motor Vehicles, some of which are electronic devices, which Mr. Rumble said may be of help; but one regulation would put a Security Officer in each local Motor Vehicle Office to check daily receipts against license forms, etc.

Mr. Rumble said he objected to such a proposal. He said, "My office is open for audit by the Department of Audit and Control any time they wish to come in. We have reliable people in our office and do not feel we need any additional person to check on security. If the State insists in bringing in someone, I will insist that he post a bond with me."

RESOLVED, that the salary of Stephen Heard, Administrator of the Orleans County Home and Infirmary, be increased from \$10,700.00 to \$12,500.00, effective January 1, 1977.

Unanimously adopted.

It was moved by Supervisor Kubatek and seconded by Supervisor Swiercznski that the meeting be adjourned. Adjourned at 12:20 p.m., until 10:00 a.m. December 30, 1976.

ANNUAL SESSION  
Ninth Day  
Thursday, December 30, 1976

The meeting was called to order at 10:00 a.m., by the Chairman. The Clerk called the roll and all Supervisors were found present.

Privilege of the floor was granted to the County Treasurer, Mary Basinait. Mrs. Basinait informed the Board that as a result of surplus sales tax monies, over and above the amount estimated for reduction of county taxes, the sum of \$18,373.98 would be apportioned to the towns to be used for town outside purposes. Mrs. Basinait also informed the Board that the last quarter sales tax check was below the amount estimated for that period.

Privilege of the floor was granted to Ms. Lenore Beach, Centennials Corporation Coordinator. Ms. Beach reported that the Centennials Corporation had turned over to the County Treasurer a check in the amount of \$800.00. Also fifty-five county flags would be turned over to the County Historian. With this, the corporation turned back to the county a sum over and above the \$2,025.00 given to the corporation by the county.

Ms. Beach also mentioned that the Orleans Centennials has a picture and a paragraph in the New York State magazine.

As of November 1, 1976, Orleans County Centennials Corporation had raised \$35,921.83 and expended \$30,000.57, leaving a profit of \$5,900.00. After checking with IRS, the remaining money after payment of all bills was divided, \$1,500.00 between four non-profit corporations, namely, Orleans County Chapter of the DAR, the Medina Historical Society, the Yates Historical Society and the Cobblestone Society; the remainder, approximately \$1,500.00, was turned over to the newly formed Orleans County Historical Society. The records of the Centennials Corporation were also turned over to the County Historical Society as were the history books.

It was moved by Supervisor Batchellor, seconded by Supervisor Swiercznski, and carried unanimously, that a letter of appreciation be sent to the following directors of the Orleans County Centennials Corporation in appreciation of the many hours of hard work given voluntarily to make such a great success of the celebration in Orleans County:

The County Planner, Jeff Astles, discussed briefly changes in the Flood Insurance Program and Flood Maps.

Recessed at 10:15 a.m., reconvened at 10:45 a.m.

Supervisor Kemp said, "I would like to at this time, after the Salary Study Committee having spent as much time on this salary structure for Orleans County, I would like to present the resolution for the adoption of the salary study starting as of January 1, 1977. The Salary Committee having finalized the study as to include the method of paying Orleans County employees, recommends the adoption of the step and grade system of Orleans County as a mathematical instrument to be used as of January 1, 1977 for establishing and maintaining salaries of Orleans County employees. I would like to add to that, that from time to time it might be possible to change a grade if a job description is changed or for any other valid reason. At the present time all positions are graded with the exception of four or five which we will meet and place in their proper positions, and as new positions, if they do occur at any time, why they will also have to be re-evaluated and placed in their proper grade. With this in view, Mr. Chairman, I would like to adopt this new salary schedule as a method of dealing with the employees of Orleans County."

Supervisor Dudek, "I think in looking back, that there was a considerable amount of work done - probably the first time perhaps that all the jobs have been evaluated and that there is an amount based on each job, based on the job content itself, and it is an orderly method of paying and I am in favor of it."

Supervisor Piedimonte, "It is a real fair way, in my estimation, it puts every employee based on the eleven county comparison right in the slot that they belong in."

#### RESOLUTION NO. 321

By Supervisor Kemp, who moved the adoption.

Seconded by Supervisor Piedimonte.

#### RESOLUTION ADOPTING STEP AND GRADE SALARY PLAN FOR ORLEANS COUNTY EMPLOYEES

WHEREAS, THE Salary Study Committee have finalized the Step and Grade Salary Plan as a method of paying Orleans County Employees, now therefore be it

RESOLVED, that this Board does hereby adopt the Step and Grade Salary Plan as recommended by the Salary Study Committee as a method for paying Orleans County Employees effective January 1, 1977.

Unanimously adopted.

Supervisor Kemp, "Mr. Chairman, as long as we are on that subject, I feel that for the many, many hours that the committee spent on this that the members of the Committee should be recognized by this Board of Supervisors in some way. I certainly think "Thank You" from the Board is going to be very small compensation, but they at least should be recognized and I would like Luther Burroughs, Howard Lake, Ashley Ward and Robert Vance to be recognized for the amount of time that they have devoted without any compensation and it would run into the hundreds of hours which we have been working on this for over a year."

RESOLUTION NO. 322

By Supervisor Kemp, who moved the adoption.

Seconded by Supervisor Swiercznski.

RESOLUTION OF APPRECIATION TO THE MEMBERS OF THE SALARY STUDY COMMITTEE

RESOLVED, that this Board of Supervisors does hereby express their appreciation to the members of the Salary Study Committee, namely, Luther Burroughs, Robert Vance, Howard Lake and Ashley Ward, for the many hours of time they devoted to the formulation of the Step and Grade Salary Plan, without any compensation for their time, and be it

FURTHER RESOLVED, that the Clerk of this Board convey to the members of the Salary Study Committee this Board's appreciation for their many hours of unselfish labor on behalf of the County of Orleans.

Unanimously adopted.

Supervisor Piedimonte, "There was an article in the D & C that Monroe County officials are going to go to Albany to lobby for welfare reform, I think we ought to join them."

It was moved by Supervisor Piedimonte and seconded by Supervisor Swiercznski that any member of this Board and the Commissioner of Social Services be authorized to attend a meeting in Albany to urge state officials for welfare reform.

Carried.

The Clerk mentioned that she had received a receipt from Commissioner Toia's office that the resolution requesting an answer to this Board's request concerning "Patient Freedom of Choice" had been received by his office.

The following progress report on Oak Orchard Creek Watershed Project was presented:

NEW YORK STATE  
OAK ORCHARD CREEK WATERSHED PROJECT  
Genesee and Orleans Counties  
Soil and Water Conservation Districts  
Annual Progress Summary FY 1976

THE PROJECT IN BRIEF. Authorized for operations September 2, 1976. Estimated completion is in FY 1981. Area -- 39,860 acres. Sponsors -- Genesee County Soil and Water Conservation District, Genesee County Legislature, Orleans County Board of Supervisors and Orleans County Soil and Water Conservation District. Estimated total cost \$5,302,400 (\$3,158,900 PL-566 and \$2,143,500 other). The primary soil and water resource problem is periodic inundation of high value vegetable crops in about 6,560 acres of muckland. Excess runoff from the upland areas flood the muck on an annual basis, even though the present channels in the problem areas are adequate in depth and capacity for drainage purposes. Sheet erosion rates of up to 6.4 tons per acre per year occur on steep cropland. The

muckland is damaged by wind erosion. Land use in the watershed is 34% cropland (upland), 16.5% cropland (muck), 13% open land formerly cropped, 4.1% pastureland, 19.4% forest land, 4.0% urban land and 8.8% other land.

PROGRESS IN LAND TREATMENT. Application of the accelerated land treatment measure program shown in Table 1 of the work plan has not yet begun. There are 130 upland farms and 100 muckland farms in the watershed. Of the 147 cooperators 109 have basic conservation plans and 45% of the land area within the watershed is under District Agreement. Approximately 25% of the planned cropland practices have been applied. About 30% of the pastureland is managed under conservation management system. There are 5,831 acres of adequately treated land in the watershed. Approximately 18,560 acres of the watershed are adequately protected.

PROGRESS IN STRUCTURAL MEASURES. Planned structural measures include 100 structures for water control and 90 miles of channel work. Construction of the channel work has not yet begun although about 10% of the water control measures are in place.

The sponsors are in the process of forming a small watershed protection district, as require by State Law.

## **ORLEANS COUNTY PLANNING BOARD**

151 Platt Street  
Albion, N.Y. 14411

December 21, 1976

County of Orleans  
Board of Supervisors  
Court House Square  
Albion, New York 14411

Dear Supervisors:

As directed I attended the State Coastal Zone Management meeting on Monday, December 20, 1976, in Syracuse. I wish to file the following report.

The meeting opened promptly at 10:30 A. M. with Hank Williams providing a repetitious, dull recap of the status of the CZM program in New York State. He was not informative, provided nothing new or of value. It was essentially the same speech I have heard on three previous occasions.

Mr. Williams did note that this meeting was the result of a meeting held in September. (Note: the Division of State Planning had 3 months to prepare for the meeting.)

Next Mr. Williams introduced Mr. William Reeder, retired Cornell professor in group dynamics and social interaction, Mr. Reeder had never been mentioned on any agenda. From this point on the program degenerated into almost complete irrelevancy.

Mr. Reeder had each of us list 3 problems in reference to the coastal zone. Mr. Reeder then listed these on the blackboard - all 37 different types of problems the group had identified. Next, by show of hands each person identified which problem he felt most important. After going thru the list of 37, 9 problems most identified were left - presumably to be discussed.

However, now each person had to indicate his priorities for the 9 problems left. After repeating the show of hands routine, the 5 most identified problems were listed and discussion groups were developed. By now it is noon and I assumed we were finally going to discuss some issues. Wrong again.

Now rooms had to be assigned for each discussion group. After 15 minutes of mass chaos rooms were assigned all over Syracuse University campus, some as far as 15 minutes away - if you knew where you were going. Another 20 minute discussion ensued as to how to locate various meeting places.

By now it is 12:30 and the only accomplishment has been identification of a problem, development of groups and assignment of room locations.

I finally thought we would break for a half hour lunch. I wasn't so lucky.

Mr. Reeder now had to explain to us the steps involved in the "problem solving process". Attached find a 20 step process he read to the group.

Next came a lecture on how a discussion group functions, based on Professor Reeder's as yet unpublished study entitled, "Theories from the 25 Year Research Program on Directive Factors in the Beliefs, Disbeliefs, and Social Actions of Persons and Organizations." (See attached)

By now it is nearly 1:00 P. M. and Hank Williams explains we will break for an hour lunch, returning to our groups at 2:00 P. M. After group discussion the general group will meet at 3:00 P. M. and we will be finished by 3:30 P. M.

Out of an entire day only one hour would be spent discussing any CZM issues. The final kicker came when the State Planning Division decided to briefly look in on each group, rather than participating in the discussions. This is significant because in addition to wasting an entire day, the State Division of Planning, the one group who would be able to provide answers to specific questions, wouldn't participate.

At this point I said the hell with it, grabbed lunch and headed home. The meeting was a total flop, an insult to the intelligence of everyone in the room, irrelevant, poorly organized, unnecessary and resulted in a completely wasted day.

The day was completely in character with the entire CZM Program as I have come to know it.

I will continue to monitor CZM events and will notify our coastal towns of any pertinent actions taken by the State.

Sincerely,

Geoffrey C. Astles  
Director of Planning

GCA/mt  
enc:

It was moved by Supervisor Swiercznski, seconded by Supervisor Kubatek, that a copy of the foregoing letter be forwarded to Assemblyman Hawley, Senator Warren Anderson, Assemblyman Stanley Steingut, the Governor and anyone else the Clerk feels should receive a copy.

Supervisor Paduchak, "Are we going to jeopardize our County Planner's status if we go and send this letter of ridicule to these officers?"

Supervisor Dudek, "I think it may not be a prudent thing to do to forward that letter to some other people. It's not unlike many meetings that I have attended in different areas. The State especially has a tendency to run many meetings that way. One, he's made the report back to us. Rather than jeopardize some other programs or possible even some benefits in the future, that program itself, I don't think it would be a wise thing to send that letter."

Supervisor Kubatek, "I will withdraw my second."

Supervisor Paduchak, "Before the Board takes any action, I think Mr. Astles should have the opportunity to elaborate on the report he has given to this Board. I know I have been to those meetings and I would like to write something like this down and send it someplace but I don't think we want to jeopardize our county position as far as planning is concerned."

Mr. Astles, "I felt that since you sent me to this meeting you deserved an explanation of exactly what happened and that is exactly what happened. I would say that if you decided to send it back to Hank Williams you will have virtually killed any possibility of joining any program and its potential benefits in March which is going to be next year's funding council. I would have to agree with Supervisor Dudek, it probably would jeopardize the county's relationship with the State's divisional planning and would very seriously hurt any potential chances or opportunities that might be available in the future in the coastal zone management program."

Supervisor Kubatek, "You don't think you are going to get anything anyway, do you.?"

Mr. Astles, "No, my own personal opinion is no, but I don't know that you want to take that kind of formal opinion. The only thing I felt was that that is why I attached the copy of the materials that were passed out. That is exactly what happened that day. Virtually nothing was accomplished and I am not saying that it is true in the future thinking that the CZM Program may undertake."

After further discussion, Supervisor Swiercznski withdrew his motion to send the letter. The Chairman suggested that Mr. Astles draft a letter in less strong terms and send it to Mr. Williams.

The Clerk presented the following communications:

Letter from Lyndonville Central School dated December 16, 1976, informing the Board that their Board of Education enacted a Resolution supporting the new law Chapter 278, Laws of 1976, regarding Tax Exemption on New Construction, on December 13, 1976.

Letter from the County Attorney, re: Anti-Trust action brought by the New York State Attorney General against certain manufacturers of locks. Referred to the Buildings & Grounds Committee.

From Assemblyman Hawley, dated December 27, 1976, acknowledging receipt of Resolution No. 317 opposing regulations of the Commissioner of Motor Vehicles relative to stationing of a "Security Officer" in each local office.

From Senator Javits, dated December 21, 1976, acknowledging receipt of the resolution concerning reimbursement to pharmacists.

It was moved by Supervisor Nayman and seconded by Supervisor Dudek that Arnold Basinait, Director of Real Property Tax Service, be authorized to attend the public hearings on 1977 Agricultural Value Factors for Computing Agricultural Value Assessment Ceilings, to be held January 26, 1977 in East Aurora, at county expense.

Carried.

RESOLUTION AUTHORIZING COUNTY TREASURER TO TRANSFER MONIES

RESOLVED, that the County Treasurer be, and hereby is authorized to make transfer of monies within accounts where possible, to take care of any overdraft.

Unanimously adopted.

Supervisor Dudek, "We have some tentative agreements with Genesee County for the use of our jail facility. As you know, we had a contract for several years now where we received \$20,000 for their use of our facility and the Public Safety Committee felt that that should be up-dated in view of the fact that we have an increasing number of prisoners. The agreement we reached, to be approved by this Board, we would still maintain a \$20,000 figure but that figure would be utilized at a cost of \$20.00 per each prisoner day that they have people in our facility. If we went backwards on it this year they would have paid us over \$30,000 because they did utilize it to a far greater extent than in past years. We talked about a two year agreement with option for each party to terminate upon ninety days written notice. The rest of the agreement would remain the same. Genesee County has discussed it and those terms are agreeable to them. The rate will be \$20,000 guaranteed plus \$20.00 prisoner days over that amount. After the contracts are prepared we can take formal action on it."

Supervisor Kemp pointed out that Monroe County was charging \$29.00 a day so that \$20.00 seemed a fair sum.

RESOLUTION NO. 328

By Supervisor Swiercznski, who moved the adoption.

RESOLUTION AUTHORIZING AGREEMENT BETWEEN THE COUNTY OF ORLEANS AND JOSEPH GRABOWSKI FOR THE CARE OF DOGS IN ORLEANS COUNTY.

RESOLVED, that the agreements herewith presented between the County of Orleans and Joseph Grabowski, (1) to provide all necessary equipment and appliances for the humane keeping of dogs within the County of Orleans be, and the same hereby is, approved at the monthly compensation of \$350.00, to be paid upon monthly vouchers submitted to the Board of Supervisors; (2) to provide all labor and services necessary for the care of dogs picked up by representatives, agents or employees of the County of Orleans and delivered to him for keeping, is hereby approved by this Board at the monthly compensation of \$200.00, to be paid upon presentation of monthly vouchers and that the Chairman of this Board is hereby authorized to execute said agreements in the name of the County, effective January 1, 1977 through December 31, 1977.

Unanimously adopted.

Supervisor Kubatek, "The Town Board of Ridgeway asked that I bring up to this Board and ask this Board to take some type of action in the event that as you are aware that apparently Orleans County is not going to get any funds through the Public Works Improvement Program. It was our opinion that we should look into how the selections were made. How it was computerized and how who was going to get what was decided. In other words, it is kind of hard for us to swallow that we in the county have requested funds for sewer lines, water lines and other types of construction we felt were necessary for the county as a whole, and being one of the highest unemployed areas in the state and we were not given consideration. Yet you read where some of the other counties, such as Niagara, are getting it for highway garages and town halls."

Mr. Miles, County Attorney, "I put in a call to Congressman LaFalce's office and was not able to talk to him but I did talk to his counsel, who indicated that this was something that he felt was a little beyond the control of the congressional people, that this was a computerized situation. I did request some assistance to our county, all municipalities, for a rundown on how the computer was programmed, what criteria was used and how were the determinations made. I really did not get a satisfactory answer that there would be something forthcoming from the Congressman's office. It is my understanding from the papers that Congressman Conable has promised the counties of Genesee and Livingston that out of his office he will deliver to them documentation as to the manner in which the program was setup in the computer and what criteria was used. It would seem that the federal act was very loosely drawn and there was certainly no guarantee that any municipality in the state would get anything. We really can't complain there but it was entirely possible that something was done along the line in setting it up that hurt rural areas. Very possibly the thing could be challenged, whether it could be challenged in court is a very serious question, but at least it could be challenged on the floor of Congress. From what I understand our congressional district got more percentage-wise than most other congressional districts it's just unfortunate that Orleans County did not get anything. I would have to say personally that I am a little disappointed that our congressman isn't taking more interest in us down here. I did say that many times we feel Orleans County is on the map in November and not any other time. It does seem that if Congressman Conable can get the information that Congressman LaFalce can get that information for our district. The only place to go for this is our federal legislators, it is not a state matter. I would be glad to go to any meetings or go with any member of this Board that might decide to meet with Genesee or Livingston counties to see where we go, the county ought to do something rather than sit and take it."

Supervisor Kubatek, "I would like to move to have the County Attorney draft a letter to Congressman LaFalce asking him to supply us with the same kind of information that Congressman Conable is willing to supply to his district and

recommend that the Finance Committee meet with Genesee County and their attorney to see what we can come up with."

Supervisor Nayman, "The Village of Albion and the Town of Albion have discussed setting up some kind of challenge to this thing to find out how the computer was programed in selecting these various projects. I really wonder in my own mind and it has been voiced by a number of people, do we need another five million dollar museum and tourist trap?

In doing this I don't think it should be done by one town or one county, it should be done on a regional basis, county's of our size who have no city or maybe a small city. I would like to put this proposal out and request that we do contact Genesee or Livingston County."

Supervisor Paduchak, "The whole criteria that the applications were supposed to be based on were was the unemployment situation in the community involved. I see our neighboring city received millions with an unemployment rate of about half of what ours is. No way can I rationalize that a 5% rate will warrant 8-10 million in that community where the record shows the rate in our county is between 10-13% and not one dollar was funneled into this area."

Supervisor Dudek, "I think any letter to our congressman trying to investigate this needs to list all the programs applied for within the county and request if anything in the applications itself maybe disqualified them or made them less important than some others. If that is so, maybe there was something more we could have done to become eligible for it, we should be made aware of this."

It was moved by Supervisor Kubatek and seconded by Supervisor Paduchak that the County Attorney be requested to send letters to the municipalities within Orleans County asking them to document the project applications and also to write to our federal representatives requesting additional information as to the criteria, etc., for selecting projects; the County Attorney will also contact the County Attorney's of Genesee, Livingston and Chautauqua county's.
