Legislator Swiercznski, with second by Legislator Bennett introduced a resolution entitled "Resolution Regarding Assessment Update and Budgets". Mr. Swiercznski commented, "I think after last night's meeting (Supervisors Association Meeting held February 25, 1992 at the Village Inn), this is a big thing to the taxpayers. We can do this much ourselves - take the lead. I don't know of any other way we can do it.

Legislator Billings asked about the budget for 1994, and Mr. Swiercznski said this Board would be in a position to adopt the 1994 budget. County Attorney David Schubel asked, "Is this to memorialize the sentiment of the Legislature, or to make it binding? I don't think it can be binding."

Legislator Tuohey commented, "The easiest thing now is to promote this. There isn't anyone who votes more against spending money than I do. I just think it's poor fiscal planning to say something like this.. It's a good idea, the intention is good, but realistically, I don't think you can do it." Legislator Swiercznski replied, "I think this will force us to look to use other revenues. At least it will be our notice to the taxpayers." Legislator Bennett, said "Somewhere along the way, we have to give people some hope." Legislator McCarthy noted, "If we put this thing in, and in a year or two we have to go against it, we are not going to look very intelligent." Chairman Berger said, "If we change the wording in the fourth paragraph to 'the County of Orleans will endeavor to cap...', it would show that we are making a conscientious effort to keep the taxes down." The following resolution was then adopted:

RESOLUTION NO. 134-292

By Legislator Swiercznski, who moved the adoption.

Seconded by Legislator Bennett.

FURTHER RESOLVED, that residents along the existing line should be notified in writing of the County's intent to abandon maintenance of the existing line once the new line is completed.

Legislator McCarthy said he would not be able to attend the Legislature Meeting scheduled for May 2nd, immediately after the property auction. Legislator Berger polled the Board members as to who will be able to attend the meeting, and the remaining Board members said they would be in attendance.

With regard to the cut in State aide to the Probation Department, Legislator Bennett reported that the County had budgeted 34% State reimbursement, and the County will be receiving 33% reimbursement. It was noted that there is a new law in place that will allow counties to charge Probation Department clients a fee - it was not known exactly what impact, if any, this would have on the County budget.

defective;

NOW, THEREFORE, BE IT RESOLVED, that this Legislature does hereby reject all bids received; and be it

FURTHER RESOLVED, that said bid specifications be corrected, and that the project be rebid.

RESOLUTION NO. 258-592

By Legislator Swiercznski, who moved the adoption.

Seconded by Legislator Tuohey.

RESOLUTION AUTHORIZING CARETAKER TO RESIDE AT ORLEANS COUNTY MARINE PARK

BE IT RESOLVED, that the Caretaker of Orleans County Marine Park be, and hereby is authorized to reside at said Park for security purposes, from April 23, 1992 until November 1, 1992, at no additional cost to the County.

Adopted. 4 ayes; 1 nay, Legislator Bennett; 2 absent, Legislators Bower and McCarthy.

The Chairman had received several letters which he brought to the attention of the Board. One letter from NYS Senator John R. Kuhl, Jr., was in regard to legislation he and Assemblyman Donald R. Davidsen have introduced, calling upon Congress to allow New York State to be divided into two states, essentially by separating New York City and its surrounding region from the rest of the State. After discussion, and upon a vote, it was decided to write a letter supporting such legislation. The outcome of the vote was four Legislators in favor of such action, and one (Legislator Billings) opposed. Two legislators were absent from the meeting.

The "NACO Alert" received April 22nd, discussed the recycling and Interstate Transport of Solid Waste provisions of RCRA Reauthorization Bill (S.976) of Senator Baucus, Chairman of the Environmental Protection. The Recycling portion gives large corporations multiple options for achieving the specified utilization rates by recycling, reusing or minimizing packaging. The Board was opposed to this provision. The provision regarding Interstate Transport

of Solid Waste was referred to the Solid Waste Committee. Legislator Billings in reference to the company that is buying land, in Orleans County with the intention of having a landfill and/or recycling plant. Mr. Billings said they have made application to DEC, and the Town (Albion) is asking for "Lead Agency" status. DEC is asking if the County wants to be "Lead Agency". After discussion, it was suggested that the County Attorney meet with Wayne Hale and review the situation, and possibly write a letter to DEC stating that DEC should be "Lead Agency" as they have in the past.

The Chairman also mentioned two articles in the "County News", Vol. 24, No. 7, dated April 13, 1992. One was the matter of withholding Social Security exemption for election workers. After discussion, it was determined that this was actually a Town issue. The other article involved the establishment of a local government postal rate. After discussion, it was decided to have a resolution to this effect on the May 13 meeting agenda.

Mr. Berger also announced that the Village of Medina had been selected as the site of the 1992 NYS Duck Calling Championship & Wildlife Festival - it will be held September 19 & 20, 1992. Also that the Albion Strawberry Festival Committee has asked for permission to use the Court House lawn and parking lot on June 12 & 13, 1992, for their annual festival. A resolution will be on the May 13th meeting agenda authorizing the use of the Court House Grounds.

There was discussion on the signs for the County Buildings - the Board agreed to have the Buildings and Grounds Superintendent research the matter.

There was discussion on requiring the inmates of the County Jail to use their own health insurance, if they have such a policy, rather than have expenses covered by such policies paid by the County. The County Attorney said in order for a County to proceed with such a policy, that a local law has to be enacted, and that he would draw up such a law.

With regard to fees for the Physically Handicapped Program, the comment was made that the Legislature should be setting any fees for this program, and not the Board of Health.

Motion by Legislator Tuohey, with second by Legislator Bennett, to go into executive session to discuss a personnel matter. Motion carried.

The meeting recessed at 12:15 p.m. and reconvened at 12:25 p.m.

Legislator Billings, with second by Legislator Tuohey, moved to adjourn. Motion carried.

Meeting adjourned at 12:25 p.m.

LEGISLATURE MEETING
May 13, 1992

The meeting was called to order by the Chairman at 4:30 p.m. After the pledge to the flag, the Clerk called the roll and all Legislators were present.

The Clerk presented the following communications: A letter from Richard Failing commending Dave Albanese for the excellent way the Marine Park is taken care of and for the good service provided by him and his staff to those who use the park;

A letter of acknowledgment from Senator Daly upon receipt of the County Legislature's resolution supporting a residency requirement for welfare and Medicaid services; a letter from the Village of Albion Attorney Sanford L. Church, stating that the Village Code Enforcement Officer is not empowered to make the requested inspections as stated in the County's resolution No. 136-392; a letter from the Governor's office acknowledging receipt of the County's resolutions Nos. 81-292, 92-292, 94-292, 96-292, 106-292, 108-292 and 139-392; Letters from Assemblyman Hawley acknowledging receipt of the County's resolution supporting a veterans' nursing home in Western New York and the County's resolution regarding the snagging of Pacific Salmon; a letter from the Community Action Board of Directors regarding the appointment of Salome Riley to their Board, representing Legislator Swiercznski;

Announced that a review copy of the Solid Waste Management Plan/Final Generic Environmental Impact Statement was on file in the Clerk's office; announced that the Intercounty Association of Western New York will meet on May 21, 1992 at the Sodus Bay Heights Country Club at Sodus Point, New York, with the Wayne County Planning Department presenting the program; announced that the 1991 Annual Report of the Western Regional OTB Corporation was on file in the Clerk's office; a letter from NYS DEC regarding the County's stand on DEC's proposal to amend Great Lakes tributary fishing regulations and/or documents prepared to support that proposal; announced that Local Law No. 1 of the Year 1992 had been filed as of April 3, 1992;

Minutes from the April 14th Soil and Water Conservation District Meeting; a letter from Past Dept. Commander of the American Legion, Arnold Swanson

regarding the County's efforts to help secure a Veterans' Nursing Home in Western New York - Mr. Swanson is the Consultant for the WNY State Veterans Nursing Home Task Force; a letter to Dick Clark, Orleans County CD Director, commending him (and other emergency agencies) in his prompt response to the emergency situation at Orchard Manor Nursing Home; a copy of the March 26th County Planning Board Minutes; a request from the Village of Holley to exempt their water system from County taxes; a letter from the President of the Yates Community Library Board, James Flint, expressing the Board's appreciation for the Legislature's financial support for the Library.

Motion by Legislator McCarthy, with second by Legislator Swiercznski, to add three resolutions to the agenda. One resolution to pay accounts payable claims, one resolution in support of the creation of an RC & D Area and another to create a position in the Buildings and Grounds Department. Legislator Billings, with second by Legislator Tuohey moved to amend, allowing only the resolution authorizing payment of claims to be added.

There was discussion on the resolutions proposed to be added to the agenda. Legislator Tuohey stated that in adding resolutions in this manner, the other Legislators did not have an opportunity to study the resolutions and obtain necessary background material on each proposed resolution. Chairman Berger stated that the Board had discussed the resolution on the creation of an RC & D area "quite often" and felt that the Board should move ahead and work with the other counties. In regard to adding resolutions to the agenda, Legislator Billings said, "We go through this week after week - the others (RC&D resolution and Buildings & Grounds position) are not earthshaking, they can wait."

Legislator Bower disagreed, and said he felt that the resolution creating the position in Buildings and Grounds was very important - a man is coming back to work in that department, dislodging a worker who is very much needed at this time. If this position is not created, it will be necessary to go out and hire someone else at a later date to do the mowing, when in fact, we could keep the person already doing that work. As it is, he will have to be terminated from his position, thereby creating another person for which the County will have to pay unemployment insurance, due to a mistake the County made some time ago. Mr. Bower said the position is needed, and funds are available in the budget to pay for the position. The County Attorney reported (referring to the resolution creating the position in the Buildings and Grounds Department) that he met with Special Counsel Saturday morning, and

he, in turn, communicated to the CSEA Attorney on Monday, and there was no response from CSEA until Thursday afternoon - "so it would have been very difficult to introduce this resolution in a timely fashion. I think there was still some discussions with CSEA Counsel on Friday."

Legislator Billings moved to amend to vote individually on each resolution to be added to the agenda. Motion carried - 4 ayes; 3 nays, Legislators Berger, Bower and Swiercznski; 0 absent.

Legislator McCarthy, with second by Legislator Bower, moved to add the resolution authorizing payment of claims to the meeting agenda. Motion carried, 7 ayes; 0 nays; 0 absent.

Legislator Swiercznski, with second by Legislator Bower, moved to add the resolution creating the Buildings and Grounds Department position to the agenda. Motion carried, 5 ayes; 2 nays, Legislators Bennett and Billings; 0 nays.

Legislator Swiercznski, with second by Legislator McCarthy, moved to add the resolution pertaining to the RC & D Area to the agenda. Motion carried. 4 ayes; 3 nays, Legislators Bennett, Billings and Tuohey; 0 absent.

Report of Standing Committees: Legislator Swiercznski reported meetings with Highway, Social Services and Nursing Home; attended a special meeting concerning the resolution requesting inspection of housing for welfare recipients. There is a resolution on the agenda to rescind that particular resolution; attended a special meeting with Buildings and Grounds.

Legislator Bennett reported attending the LEPC meeting. Mr. Bennett said he was uncertain as to the responsibilities of the Committee, and was concerned that it may end up more as a public relations committee. Legislator Bennett attended the County In Rem Property Auction, and met with Sheriff Green, also attended the special meeting concerning housing inspection for welfare recipients with Legislators Swiercznski and Tuohey. Mr. Bennett also attended the Soil and Water meeting.

Legislator Tuohey attended the E911 meeting on April 30th, the Barre Town Board meeting on Monday, the Clarendon Town Board meeting on Tuesday, Zoning meeting on Wednesday at the County Office Building, Shelby Town Board meeting on Tuesday evening - there was concern expressed regarding sharing with the County, the revenues the Town collects on the games of chance held

within the Town. The forms the Town uses pertaining to the "games of chance" actually cost more than the amount of revenue collected. The County gets 2% of the revenue collected. The County Attorney stated "that the law is very clear on the distribution of proceeds - the supervisor should look into the fact that the Town has the ability to charge more for the forms. The two organizations which use the forms are fire companies. The law is very clear." Legislator Tuohey also attended a safety meeting this Wednesday morning.

Legislator Billings said he had talked with Wayne Hale of the Planning Department, and that all the other meetings he had attended had already been reported.

Legislator Bower reported to the Board on the Orleans County Mobile Work Crew project. Mr. Bower said, "On quite a few occasions you hear about county departments not cooperating with one another - that if they did, things might be better. Well, for about the last six months, Ted (Legislator Swiercznski) and I have been working on this project. Several months ago, it was suggested to look into getting public assistance people to do work that ordinarily would go undone. The cooperation we received from Social Services, the Job Development Agency, Highway Department and Safety Department has been outstanding.

"We interviewed for and hired a Crew Leader, and acquired the old Social Services station wagon for transportation. I visited Tuesday, after the crew had been picked up - six workers were heading out to work at the Marine Park. This afternoon I went down to the Park and there were seven individuals working..... I talked with all but two, and they all seemed happy to be working.

"The project is going very well and there seems to be interest from the Towns and Villages. As of 2:00 p.m., at least four have been dropped from the assistance rolls.....found there were other jobs (that paid) more than minimum wage. If they are not happy they will be looking for jobs elsewhere. The cooperation has been outstanding."

Legislator Billings noted that these workers were paid \$5.00 per hour, which was deducted from their aid.

Legislator Bower said he had spoken with Safety Officer Craig Lape, and Mr. Lape will talk with the workers concerning proper safety procedures.

Chairman Berger signed the Sheriff's contract, attended the GLOW meeting in Batavia, attended the Solid Waste meeting, and the LEPC meeting on April

23rd; attended the Awards Dinner on April 25th; met with PIC Director and visited the Marine Park with Legislators Bower and Swiercznski on April 27th; attended the E911 meeting, presented the Violent Crimes proclamation April 30th; attended the County In Rem Property auction and special Legislature meeting on May 2nd; visited the Legislature Office and attended the Ridgeway Town Board meeting on May 5th; attended the Youth Bureau Awards Dinner on May 6th; attended the 800 Megahertz pre-bid meeting on May 8th; attended the RC&D meeting in Batavia with four other counties (p.m.) and the Lyndonville Village Board meeting on the evening of May 11th; attended the Buildings and Grounds meeting with Legislators Swiercznski and Bower on May 12th, and the Soil & Water meeting on the evening of May 12th with Legislator Bennett; attended the exit audit on the County Nursing Home on May 13th.

The following resolutions were presented:

Discussion prior to the adoption of the previous resolution: Legislator Tuohey asked if the adoption of this resolution would make the County financially liable, if they should start leaching, etc. Legislator Billings replied that "it shouldn't make us any more (liable) than the ones we already have. This impacts only GLOW."

Legislator Bennett commented that, "State DEC seems to think the County should be somewhat responsible for McKenna's Landfill. First thing you do is contract to send everything out of state, and then you're alright."

Why not Monroe County who took garbage in there? Why not the Town of Albion that permitted the facility? They came up with five names that took garbage there, and one of the biggest names involved was Thomas J. Lipton and they weren't even mentioned. I hope you can explain (this) to the bureaucrats we have working for the State when you go on Friday. I think we should be taking them to court and challenging them." Legislator Tuohey said, "I think this is a good question to ask when we go on Friday. Why should we continue on down the road with this, when we may become liable." Legislator Billings said, "The other point is they're saying that we authorized the disposal of hazardous waste. We never authorized the disposal of hazardous waste. I just want to point out every thing we can....we did have permits back around '81, but we also had a contract then."

Legislator Tuohey said, "I guess we're digressing to something we were going to discuss later. But I was concerned when I read through these, after reading that letter, are we just opening up the door for more lawsuits?" Legislator Bennett commented that DEC is the agency that governs landfills, and he felt DEC should take responsibility for their own actions.

Legislator Swiercznski said the County should authorize Mr. Schubel to retain legal expertise, that he didn't think the County was equipped to handle this type of situation.

The resolution regarding the RC&D area was introduced by Legislator Bennett, with second by Legislator Billings. After discussion, Legislator Bower, with second by Legislator Tuohey, moved to table the resolution, because more information was needed. Upon vote, the resolution was tabled until the May 27th meeting, 4 ayes; 3 nays, Legislators Bennett, Berger and Billings; 0 absent.

Chairman Berger announced that

- Inter-county meeting will be held in Sodas

Point, and that he will be attending, if any other Board members would like to attend the meeting with him;

- that the replies from the School Superintendents regarding their salaries, etc. will be given to Mr. Dudek so that he can collate the figures and report back to the Board.

Legislator Tuohey was given the floor, and informed the members that as of the end of last month (April), 45% of the \$6,680 Legislature Travel Appropriation had been used, leaving a balance of \$3,776 for the remainder of the year. Mrs. Tuohey said she wanted the Board to be aware of the amount left in their travel budget.

In reference to the letter from DEC regarding the McKenna Landfill which Mr. Berger received, County Attorney David Schubel said he had written a memo to Albion Agencies, Inc. regarding this letter, and in the last paragraph had mentioned the need for special counsel in this matter, thereby putting the insurance carrier on notice. Tracey, from Haines, called and said they (insurance carrier) will not be providing representation for the County, and that a letter will be forthcoming on the matter. Mr. Schubel said it would be in the best interest of the County to authorize him to start talking with various law firms with the intention of contracting with one to represent the County in this matter. The Board agreed and gave Mr. Schubel authorization to proceed. Mr. Schubel said that apparently DEC was basing its intentions toward the County, based on contracts the County had with Mr. McKenna during 1974-81. An informational meeting is being held in Avon, New York, at the NYS DEC offices on Friday, May 15, 1992. More information will be available at that time.

Legislator Bennett introduced Local Law No. 2-Intro of the Year 1992 entitled "A Local Law Bringing Within the Civil Service of the State of New York all Employees of the Orleans County Sheriff's Office Exempt by Reason of the Authority of Flaherty v Milliken 193 N.Y. 564.

RESOLUTION OPPOSING CHAPTER 55 OF THE LAWS OF 1992 OF THE STATE OF NEW YORK WHICH IS PART OF THE OMNIBUS REVENUE BILL TO BECOME EFFECTIVE JUNE 1, 1992, WHICH CHARGES A \$1.00 FEE PER MONTH FOR ALL PAGING DEVICES.

WHEREAS, this Legislature is aware of Chapter 55 of the Laws of 1992 of the State of New York which is part of the Omnibus Revenue Bill; and

WHEREAS, Chapter 55 of the Laws of 1992 will certainly put a hardship on many citizens of Orleans County, such as lifeline users, business people who carry pagers, hospital personnel, and any municipal governments; and

WHEREAS, this Legislature is disturbed by what has become common practice by the New York State Legislature of attaching something this critical, and which will have a considerable impact on citizens both young and old, not only of this County, but of the "Family" of New York as well, to a much larger segment of legislation which for whatever reason must be passed; and

WHEREAS, this Chapter 55 of the Laws of 1992 is enigmatic at best and this Legislature vehemently opposes Chapter 55 of the Laws of 1992;

NOW, THEREFORE, BE IT RESOLVED, that this Legislature be and hereby goes on record as vehemently opposing any further "hidden taxes" that will put an extra burden on our citizens; and be it

Legislator Swiercznski, with second by Legislator Bower, introduced a resolution entitled RESOLUTION AUTHORIZING FILLING OF VACANCIES IN HIGHWAY DEPARTMENT. Upon discussion, it was explained that temporary laborers help with the summer programs. Legislator McCarthy noted that even though these two people would help only to direct traffic at work sites, they have to be well screened, and trained, because if there is an error, when directing traffic around work sites, then it would leave the County open to liability. Legislator McCarthy moved to amend the proposed resolution, to read "two (2) full time temporary laborer positions, whose total salary is not to exceed \$5,000", and Mrs. Tuohey felt this would be

acceptable. Legislator Billings said "He's got staff up there" and regarding the part-time permanent Typist position, suggested that the Administrative Assistant to the Superintendent could fill in when the secretary is on vacation. Legislator Billings tabled the resolution.

Motion by Legislator McCarthy, with second by Legislator Billings, to recess the meeting, subject to recall by the Chairman. Motion carried.

Meeting recessed at 6:45 p.m.

LEGISLATURE MEETING
June 24, 1992

The Chairman called the meeting to order at 5:00 p.m. After the pledge to the flag, the Clerk called the roll and all Legislators were present.

The Clerk presented the following communications: May 28th County Planning Board minutes; a notice from the Town of Yates of a public hearing on an ordinance to amend the Town of Yates Zoning Ordinance; a letter sent to CD Director Dick Clark dated June 9 approving the amendment to the County's 1991-92 plan for the Kodak Grant settlement, and another letter to Mr. Clark dated June 12 approving the County's expenditure plan for the 1992-93 Kodak Grant settlement; request from Kludt Brothers in the Town of Kendall to include two parcels of land in the Kendall Agricultural District (Tax Map Nos. 11-1-19.114 and 11-1-8); a letter of acknowledgment from Senator Daly regarding the County's resolution No. 139-392 on income maintenance eligibility requirements for Social Services aid.

Report of Standing Committees: Legislator McCarthy met with the Director of the Health Department, twice to go over budget reductions, and did manage to reduce the Health Department budget 3.7%; met with the Director of Mental Health to go over budget reductions for that department, and noted that the reductions had been submitted to the County Treasurer;

Legislator Billings said he had nothing special to report.

Legislator Bower reported usual committee meetings, and commended Sylvia Baker in the Social Services Department for the good work she is doing in respect to welfare fraud. With reference to the Mobile Work Crew, Mr. Bower suggested to the Board that another such Crew be established. He noted that since the first Work Crew was established, 14 people have been removed from the welfare rolls - 10 quit the project, and gotten employment in the private sector, and 4 have been sanctioned. The County has saved money through the project.

Mr. Bower said he would like to get another Mobile Work Crew started, made up of women who would go around and do cleaning projects. It would require that another Work Experience Crew Leader position be created and placed in the Buildings and Grounds Department,

because of the type of work these people would be performing. The salary for the Work Experience Crew Leader position will be set at an hourly rate of \$8.00. An automobile would also be needed to transport these people.

Mr. Bower told the Board that he would like to go forward with this project, and asked the Board for a consensus. After discussion, the Board agreed to have a resolution for the July 8th meeting creating the second Work Experience Crew Leader position, with authorization to advertise for and permission to fill the newly created position.

Legislator Swiercznski met with his usual departments, going over budgets in reference to the requested 2% budget reduction.

Legislator Bennett reported his usual departmental meetings and informed the Board of the possibility that New York State will transfer the Domestic Violence Program to the Department of Social Services. He will report back to the Board, as soon as something definite is known. Mr. Bennett reported that Sheriff Green has been doing food comparisons regarding cost per inmate per day, with other similar facilities and produced the following figures:

Orleans County	\$3.76/per day/per inmate;
Genesee County	4.12/per day/per inmate;
Livingston County	4.43/per day/per inmate;
Niagara County	5.47/per day/per inmate;
Wyoming County	will have a contract with a daily cost of \$5.00/per inmate.

Mr. Bennett said the Sheriff had checked regarding double bunking of inmates, and had found that the County can double bunk its own inmates, but cannot double bunk inmates from another facility.

Legislator Tuohey attended the Mental Health meeting; attended meetings with the County Treasurer/Budget Officer on June 16th, 17th, 18th, and 19th to discuss budget and finances; attended the County Supervisors' and Legislators' Meeting at the Village Inn, where Assemblyman R. Stephen Hawley was the speaker; met with County Highway Superintendent Donald Cooley and David Albanese; attended the Public Health Board meeting the 23rd and the Nursing Home meeting this morning, the 24th.

The following resolutions were presented:

Legislator Bower, with second by Legislator Swiercznski, introduced a resolution entitled RESOLUTION AUTHORIZING FILLING OF VACANCY IN DEPARTMENT OF SOCIAL SERVICES. During discussion it was explained that this was a Youth Care Worker position, and was involved in the Cluster Home Program. There are three cluster homes in Orleans County, currently serving a total of seven boys. It was explained that if these cluster homes were not available, then these boys would be placed in a public institution, such as Industry. The cost for institutionalizing these boys is \$100 a day, with 50% of the cost being paid by the County. The County now pays \$20/day to foster parents to care for these children. Normally, in the Cluster Home Program, there is one Coordinator, supervised by the Director of Services; two full time Youth Care Workers and one part-time Youth Care Worker. The Youth Care Worker works with these children after school and on weekends, assisting in study and recreation. There was further discussion on the effectiveness of the program, after which Mr. Neilans, Director of Services, was asked to return to the Board at their next Conference Session, along with Commissioner Hardenbrook, with facts and figures regarding the Cluster Home Program. RESOLUTION ADOPTING SEXUAL HARASSMENT POLICY

RESOLVED, that this Legislature adopts the following, as the official "Sexual Harassment Policy for Orleans County":

COUNTY OF ORLEANS
SEXUAL HARASSMENT POLICY

BACKGROUND

Orleans County believes in the dignity of the individual and recognizes the rights of all people to equal opportunities. In this regard, the County has had a long-standing policy of protecting and safeguarding the rights and opportunities of all people to seek, obtain, and hold employment without subjugation to sexual harassment or discrimination of any kind in the workplace.

POLICY

As with discrimination involving race, sex, color religion, age, sexual orientation, disability, and national origin, Orleans County also prohibits sex discrimination, including sexual harassment of its employees in any form. The County will take all steps necessary to prevent and stop the occurrence of sexual harassment in the workplace.

1. This policy applies to all County employees and all personnel in a contractual relationship with the County. Depending on the extent of the County's exercise of control, this policy may be applied to the conduct of non-County employees with respect to sexual harassment of County employees in the workplace.
2. This sexual harassment policy includes, but is not limited to, inappropriate forms of behavior described by the Equal Employment Opportunity Commission which are detailed on pages 2 & 3 herein under the Definition of Sexual Harassment.
3. All Elected Officials, Department Heads and supervisory personnel are responsible for ensuring a work environment free from unsolicited, unwelcome and intimidating sexual overtures.

Supervisors must take immediate and appropriate corrective action, when instances of sexual harassment come to their attention, to assure compliance with this policy.

4. Any employee who is found to have committed an act of sexual harassment may be subject to disciplinary action as provided by County

operating procedures and may include termination. Additionally, retaliation against any employee who has filed a sex discrimination or sexual harassment complaint is illegal and may result in disciplinary action.

Intimidation, coercion, threats, reprisal or discrimination against any employee for complaining about harassment, as described in this policy, is prohibited.

5. All employees will be held responsible and accountable for avoiding or eliminating the prohibited conduct. Employees are to be encouraged to report violations of this policy to their supervisor and/or to the Personnel Office.

All County employees are encouraged to take the time to familiarize themselves with this policy and its procedures.

DEFINITION OF SEXUAL HARASSMENT

- A. Submission to such conduct is made either explicitly or implicitly a term or condition of an individual's employment;

-OR-

- B. Submission to or rejection of such conduct by an individual is used as the basis for employment decisions, such as promotion, transfer, or termination, affecting such individual;

-OR-

- C. Such conduct has the purpose or effect of unreasonably interfering with an individual's work performance or creating an intimidating, hostile or offensive working environment.

2. Sexual harassment refers to behavior that is not welcome, that is personally offensive, that fails to respect the rights of others, that lowers morale and that, therefore, interferes with an employee's work performance and effectiveness or creates an intimidating, hostile or offensive working environment.

Specific forms of behavior that Orleans County

considers sexual harassment include, but are not limited to, the following:

- A. VERBAL:
Abusive verbal language related to an employee's sex, including sexual innuendos, slurs, suggestive or derogatory or insulting comments or sounds, whistling, jokes of a sexual nature, sexual propositions and threats.

Sexually oriented comments about an employee's body that are unwelcome and/or unreasonably interfere with an employee's work performance or create an intimidating, hostile, or offensive working environment.

Any sexual advance that is unwelcome or any demand for sexual favors.

- B. NON-VERBAL:

Abusive written language, showing or displaying pornographic or sexually explicit objects or pictures, graphic commentaries, leering, or obscene gestures in the workplace such that it unreasonably interferes with an employee's work performance or creates an intimidating, hostile, or offensive working environment.

- C. PHYSICAL:

Unwelcomed physical contact, including touching, petting, pinching, coerced sexual intercourse, assault or persistent brushing up against a person's body.

PROCEDURE

1. Employees are encouraged to report incidents of sexual harassment to their supervisor as soon as possible after their occurrence.

All supervisors are responsible for immediately informing the Personnel Office when violations of this policy come to their attention.

NOTE: If the employee's supervisor is believed to be involved in the incident, the report should be made directly to the Personnel Office.

2. If an employee believes he/she has been sexually harassed and would like to obtain guidance as to how to proceed in filing a complaint, that

employee should contact the Personnel Office for an appointment.

3. Employees may file complaints of sex discrimination or sexual harassment with the Personnel Office. Assistance with filling out the complaint form is available from the Personnel Office.
4. All complaints will be handled in a timely and confidential manner. In no event will information concerning a complaint be released by the County to third parties or to anyone within County employment who is not directly involved in the investigation.
5. Investigation of a complaint will normally include conferring with the parties involved and any named or apparent witnesses. The particular facts of the allegation will be examined individually, with a review of the nature of the behavior and the context in which the incident(s) occurred.

No action will be taken without the concurrence of the employee, and confidentiality will be maintained throughout the investigatory process.

The Personnel Office will also investigate cases in which a supervisor requests or requires assistance.

6. Employees who believe they have been unjustly charged with sexual harassment will be afforded every opportunity to offer and present information in their defense. Such information will be confidential.
7. Any employee who participates in this procedure may do so without fear of retaliation. Retaliation against any employee who has filed a sex discrimination or sexual harassment complaint is illegal and may result in disciplinary action.
8. An employee who is found to have committed an act of sexual harassment may be subject to disciplinary action as provided by County operating procedures and may include termination.
9. Nothing in this policy should be construed as in any way limiting employee's rights to utilize the grievance procedure, or to file a complaint with the NYS Division of Human Rights or the U.S. Equal Employment Opportunity Commission, or to take any legal action which they may deem advisable.

Legislator Tuohey explained to the Board that it was time for the County Clerk to renew leases with the abstract companies who work in her office. Last year the lease was \$1400.00. Mrs. Tuohey said that she and Legislator McCarthy were thinking of raising it to \$1500.00 per year. There was discussion on the matter, and the following schedule was decided upon:

The lease will be renewed for two and a half years (2-1/2 yrs.), to expire December 31, 1994. With the fees to be -

1992 - 1993	\$1500.00
1993 - 1994	1600.00.

The Board agreed on the term of the lease, as well as the fees to be charged.

County Attorney David Schubel spoke to the Board regarding the policy recently adopted, where he and the Chief Administrative Officer have to review all bid specifications. Mr. Schubel suggested that the policy be changed, so that a "sign off" slip is attached to the specifications, so that the Department Head "signs off" on the specifications. The Department Head then forwards them to the Chief Administrative Officer, who checks through the specifications and "signs off". The specifications are then forwarded to the County Attorney who checks them from the legal viewpoint. The Board was asked to consider such a change.

Report of Standing Committees: Legislator McCarthy reported meetings with the Health Department, the Mental Health Department regarding their shared staff (with NYS people) and the meeting in Batavia this

morning; Legislator Billings said he had nothing special to report to the Board regarding his departments; Legislator Bower reported his usual departmental meetings;

Legislator Swiercznski reported meetings with the Highway Department, Buildings and Grounds, Social Services, the Nursing Home, and attended the meeting in Batavia with the Genesee Region Transportation Council and the meeting in Holley regarding the proposed landfill; Legislator Tuohey reported regular meetings with the Health Department, the Mental Health Department, EAP, with Chris Covell regarding the PHC Education Program Transportation bids;

Chairman Berger attended the Village of Lyndonville meeting July 13th; the Western NY Intercounty Association meeting in Penn Yan on July 16th; two CSEA Hearings on July 17th, and attended the Genesee Transportation Regional Council meeting in Batavia.

Open Discussion: Gasper Pecorella of Albion, New York in referring to the elimination of the Marine Boat Patrol in the Sheriff's budget, commented that "if this goes through" they (Legislature) can pack their bag today, if someone dies (due to the lack of a Boat Patrol), and the decision of the Legislature to eliminate the Boat Patrol.

Chairman Berger said, "The Sheriff wasn't told to take out the Boat Patrol. Each Department was asked to eliminate 2 percent. All departments did, except for the Sheriff, District Attorney and the Board of Elections. The Committee went over the budgets, but did not tell them where to take the 2% from their budget....Niagara County is six million dollars in the hole....Monroe County is forty-two million dollars in the hole. We are trying to prevent this from happening in Orleans County - trying to cut expenses."

Sheriff Green said, "The reason for being here is not to criticize the Legislature. We know you have a difficult task. You have worked very hard to keep the tax levy at a base where we can all live with it. We understand that. However, we have come to the point in my department where we are at the end of our rope. We can't cut services to the public. We are here to show you that you have a lot of support to keep public safety; to keep working to serve the people of the County even though you are getting requests to cut the budget and make the tax levy lower. I would just like to explain for a moment just what I did with my budget. I first met with my staff and went over everything we could do to try and comply with the 2%

cut. We have tried very, very hard to do this. We looked at it and the only thing we saw that we could cut - the only thing we had left would be to cut the boat patrol or to cut a full time position. We did not want to cut a full time position, so if we had to make a cut, we knew it would have to be the boat patrol.

I have met on several occasions, with Mrs. Basinait and with Mrs. Tuohey and I want to say they have worked very hard with me to help me do the best that I could do with these cuts. I do want to say this, not to pat anybody on the back, but without Mrs. Basinait and Marcia Tuohey, who helped me and kept me in line better than any other people have, to try and stay within my budget; they have been a great deal of help. So I am not here, certainly, to criticize them. But, out of all those meetings, there is just no other place to make these cuts without cutting services to the public. I met with the Finance Committee. I met with the Public Safety Committee - Mr. Billings and Mr. Bennett have been very helpful to me also. We tried to do this. The only thing we had left to cut, in my opinion, was the boat or a full time deputy position. I chose to cut the boat. I think it's a mistake. I think it's a mistake to have us be at the end of our rope, that we have to make these kind of cuts. I'm saying to you, as an obligation I have to the people who elect me. We cannot do anything more. We need your help. We cannot cut our budget any more, and still try and continue to give the services. We just cannot do it. We have to look at other alternatives, we have to look at other ways of doing this, because I have no other choice but to do this, and I don't want to do it, and the Legislature doesn't want to do it. We have got to look at something different, because we are at the end of our rope. If we didn't have such a dedicated staff that has worked on a shoestring the last two years - not that anybody wants a pat on the back or to be considered a martyr, but they have done the best they can do with very little money. The budget was very skimpy. So I just want to say, that Orleans County is still the best place to live....."

Sheriff Green read the following quotation: "The original purpose of government is to protect the life and property of citizens. Over the years government has added on many additional programs and services. Many of them are nice, helpful, and even necessary. But they are all meaningless, if the citizens are not safe in their own home. Let's face it, if the government fails to provide protection for its citizens, it has failed in its ultimate responsibility." Sheriff Green further stated, "I honestly think we are at that level. We're going to

fail you citizens, if we don't get some help with our budget."

Mr. Don Morowski, Buffalo, New York was given the privilege of the floor, and stated that he owned a summer cottage on Hanlon Drive at Lake Alice in Waterport. Mr. Morowski is a member of the Lake Alice Waterfront Association, and explained that before the boat patrol, there were many marine accidents, due to unsafe boating practices, and that since the boat patrol, boaters have been much more safety conscious, and there have been fewer accidents. He also said that the Association had worked very hard to establish a speed limit. He felt that if the boat patrol were eliminated, all the good boating practices and rules that have been established would be done away with. Mr. Morowski asked the Board to reinstate the boat patrol.

Chairman Berger noted, once again, that the Board did not tell the Sheriff to eliminate the boat patrol, only to cut his budget 2%, and left the decision as to where the cuts were to be made, up to the Sheriff.

Mr. John McKissick of Dillsburg, Pennsylvania read a statement to the Board regarding an experience he had on Lake Ontario involving the rescue of two men by the Sheriff's boat patrol on May 15th. One person, on his boat, had fallen into the water, and another had jumped in to try and help. The water temperature was forty-seven degrees, and even though there were two charter boats near the McKissick party, they did not respond (although one boat did obtain the position of the McKissock boat). The Sheriff's Boat Patrol was approximately 4-1/2 miles away and within 10-12 minutes had reached the two men, pulled them to safety and proceeded to take them to shore and transport to Medina Hospital. The Boat Patrol then returned and towed the McKissock boat back to shore.

As a means to help fund the Boat Patrol, Mr. McKissock recommended to the Board that they establish a \$50.00 recreation boat permit for every out of state boat using Orleans County as the entry to recreational areas. He said, "New York registrants are paying already, but we tourists could and should help." Noting that "these permits might not cover all the expense but they would help, and help is why I am here today". Mr. McKissock said he had attached a copy of his thank you letter to Sheriff Green for the record, and also a check for \$50.00 for his boat permit - "if you implement my suggestion. If not, give it to an Orleans County charity of your choice." Mr. McKissock thanked the Board for allowing him to speak.

Mr. Al McKissock, brother of John McKissock, said, "My son was one of the men in the water - he went in to take a life preserver to the man in the water. I stood there for twenty minutes, and I thought sure I was going to lose him. We were getting no help from anyone close by and finally out over the horizon comes this speed boat....it was the prettiest sight I have ever seen. Thank you."

David Reis, Kent, New York was given privilege of the floor, and spoke to the issue, commenting on the savings the County was losing, due to the cut in the boat patrol.

Sheriff Green stated that in making the requested reduction, he lacked approximately \$10,000 - \$11,000 in order to come up to the full 2% reduction. There remained only two options to accomplish this. One option was to eliminate the boat patrol. The second to eliminate a deputy sheriff position - Sheriff Green chose to eliminate the boat patrol.

Legislator Tuohey stated that according to the print-out received from the Treasurer's office, the place for the Sheriff to cut the 2% would be from the overtime, rather than discontinue the boat patrol, which is 75% funded. The Sheriff disagreed, stating that was not the case, and asked if the County Treasurer had discussed overtime with her (Mrs. Tuohey). Mrs. Tuohey said the County Treasurer had told her of the Sheriff's reasons for not taking the remainder of the 2% cut from overtime, but that she did not agree with the Sheriff's reasoning, and still felt the remaining 2% should come from overtime.

Sheriff Green commented that in 1991, \$82,166.00 was budgeted for overtime, part-timers and for cook's overtime, and that \$82,200.00 was actually spent in this category. Mrs. Tuohey again reiterated that according to the print-out, dated July 17, 1992, the Sheriff could cut \$10,000.00 from overtime. Sheriff Green asked, that if he were to agree, and took the remaining portion of the 2% cut from the amount allotted for overtime (instead of eliminating the boat patrol), and the Department ran out of funds for overtime before the end of the year, if the Legislature would work with him in providing the necessary funding to cover the shortfall due to cutting overtime. Legislator Tuohey said, "The Legislature will work with you." The Sheriff said that under those circumstances, he would agree to take the remaining portion of the 2% cut (approximately \$10,000) from overtime, and would restore the marine boat patrol.

Legislator Swiercznski said, "There is no right or

wrong -- I personally can live with the \$10,000 coming out of it (overtime). Let him get the boat back into the water, so that people will be safe.....I am saying this to resolve the issue." Sheriff Green said, "I will do whatever you suggest I do here. I am sure, in my own mind, at the end of the year, we will be behind that \$10,000.00."

When there seemed to be an inference that Sheriff Green cut the boat patrol, in order to have so many citizens speak to the issue, in favor of keeping the boat patrol, Sheriff Green said, "Are you trying to say I did this deliberately to get these people here? Since 1966, I have been in emergency services - it's been my whole life, fire service, Disaster Coordinator and now Sheriff. Do you think I would jeopardize all of those people down to the lake just to get all these people here? I was doing the only thing I could do, in my opinion - it was the only choice I had. Where else was I going to cut? Take a fulltime position and put them out of work? That was the only other choice I had.

Emerson Young, Rick Harmer, John Anderson of Medina, John Daniels all spoke in support of retaining the marine boat patrol. Larry Manning, who is a Lieutenant in the Sheriff's Department, supervising the Road Patrol, and is also the President of the Local Chapter of AFSCME, Council 82, spoke to the Legislature. On behalf of the Local Chapter of AFSCME, Lt. Manning stated that the Union's recommendation is that there be no cuts in the Sheriff's Department. Lt. Manning, also stated, that as a Deputy working for the Department, he had worked for the Sheriff's Department for 18 years, and "has worked for three different Sheriffs, and they all had the same problems - it has always been overtime." Lt. Manning said, "When you cut the overtime money, you cut having a deputy coming in to work overtime, and you end up working alone on the road."

Legislator Bower noted that this same situation came about last year with the Department of Social Services, and that he and the Social Services Committee had set down with the Commissioner, Mrs. Hardenbrook, to see where such cuts could be made and at least eight positions were cut. Mr. Bower said the Committee told the Commissioner that "you don't have to agree with what we did in making the cut, we want you to use some imagination and creative thinking in making it work, and she did. You know, the department functions today as well or better than ever. So it can be done. I don't have all the answers, but I would love to sit down and look at your budget." The Sheriff said he would be glad to have Mr. Bower do this - he welcomed

his help.

Legislator Tuohey requested a recess. The Chairman recessed the meeting at 5:30 p.m. and reconvened at 5:33 p.m.

At this time Ann Fitzak also spoke to the Board and stated she felt that the Sheriff's Department was not the place to make cuts. Legislator Billings said, "Perhaps, we should all be putting pressure to put more New York State Troopers on patrol in Orleans County." Rick Smith of Gaines, commented "I would rather pay \$20,000 for a Deputy (Sheriff) than \$40,000 for a (State) Trooper."

A gentlemen representing Oak Point Marine told the Board that the Sheriff's boat is needed. Gene Christopher of 4 C's Marina asked "What are the chances of having the boat in the water tomorrow a.m.?" Mr. Christopher asked if there were any funds in Tourism, and commented that if this Marine Patrol is cut, the "security blanket" goes away, and suggested the Board go after "guys who are doing a sloppy job."

Chairman Berger thanked everyone for their attendance at the meeting. Sheriff Green stated that the "boat will be back in the water tomorrow morning."

The following resolutions were presented:

RESOLUTION ADOPTING ORLEANS COUNTY "NEW DRIVER RECORD CHECK" POLICY AND PROCEDURE

RESOLVED, that this Legislature does hereby adopt the following, as the Orleans County "New Driver Record Check" Policy and Procedure, which shall go into effect immediately:

ORLEANS COUNTY POLICY AND PROCEDURE

Subject: New Driver Record Check

Effective Date: _____ Resolution # _____

Revision Date: _____ Resolution # _____

Originator: Orleans County Legislature

Background

The operation of a motor vehicle in the delivery of county services presents one of the greatest exposures to a liability loss that the county can face.

Even though accidents cannot be totally eliminated, the frequency can be reduced, and the potential liability may be lowered if the number of unsafe drivers can be minimized.

This is the basis for the April 1, 1992 recommendation by the county's insurance carrier, the Hartford. Among other things, they request the county to obtain a licensed driver file search on newly hired drivers. The Legislature concurs with this recommendation, and in response, have developed this policy.

Policy

1. Before the final selection of a candidate is made for any position which may require the employee to drive a county vehicle, a licensed driver file search check will be made. This includes current non-driver employees being considered for promotions. The results of the check will be evaluated against the attached guidelines. Before any candidate who fails to meet these guidelines can be hired, the department head must notify the Legislature in writing. This notification must clearly indicate why the candidate should be selected in spite of a questionable driving records. Once the notification has been given, the department may proceed to fill the vacancy.
2. All employees who drive either a county vehicle or their own vehicle in the performance of their duties for the county, must provide the county with a copy of their current driver license. These records will be maintained as part of the employees personnel files.

Procedure

The Personnel Office will create and maintain a list of all positions which require an employee to drive a county vehicle, as well as a list of those positions where an employee may be required to use their own vehicle (employees who are reimbursed for mileage on a regular basis). This list will be periodically reviewed to insure that driver license information is current. A copy will be provided to county departments upon request.

Each department head is responsible to obtain and evaluate the required licensed driver file search. To obtain a record check prior to the hiring or promotion of an employee to a driving position, the attached form should be completed and forwarded to the Albion Agencies. They will get the report and return it to you, usually within two days. This will be provided without cost to the county.

Legislator Billings, with second by Legislator McCarthy, moved to adjourn the meeting. Motion carried.

Meeting adjourned at 6:18 p.m.

SPECIAL LEGISLATURE MEETING
July 27, 1992

The Chairman called the meeting to order at 3:00 p.m. The Clerk called the roll and all Legislators were present.

Legislator Billings, with second by Legislator Bennett, moved a resolution entitled "Resolution Requesting the Enactment of A Special Law" (resolution requests the NYS Legislature to amend the Constitution allowing Orleans County to impose a hotel or motel tax.)

Legislator Billings said, "My feeling is that this would not really impact on the people of Orleans County, as much as if we went back to raising property taxes. Most places you go.....you have all run into this type of situation. I would ask that this resolution require a 2/3's majority vote in order to pass."

It was noted that this law would apply to hotels, motels, bed & breakfasts, campgrounds, etc. County Attorney David Schubel said that by enacting this resolution, it would request the State Legislature to pass legislation amending the NYS Constitution to allow Orleans County to impose a hotel or motel tax. Mr. Schubel explained that part of the Home Rule Law stated that when a body without a chief elected officer, makes a "home rule request", a 2/3's majority vote is required.

Legislator Bower asked if someone would collect this new tax, the same as sales tax, and the County Attorney responded by saying that "it would have to be processed by the County Treasurer, and would require filing a return with the County Treasurer. Then it would follow that any enforcement would be County responsibility. The people will have to voluntarily file a return."

Legislator Billings said that revenue from the proposed "bed tax" would be between \$30,000.00 and \$50,000.00. Legislator Tuohey felt that if the Treasurer's office would have to handle the program then it would require "at least another part-time, even full-time person". She also mentioned that the determination would have to be made as to who will be "policing" the program in order to get a correct count, as well as where the revenues from this program would

be designated - general fund or a specific department?

Legislator Bennett said, "We would be foolish not to at least get Home Rule Legislation done - we can decide later."

In answer to the question "What happens next?", County Attorney said that the Assembly has taken a position on taxes -- it won't do it unless there is a Home Rule Law -- they are trying to avoid it as a political issue.

The resolution as originally presented was voted on by roll call vote, which proceeded as follows:

Legislator Bennett	Aye
Legislator Berger	Aye
Legislator Billings	Aye
Legislator Bower	Nay
Legislator McCarthy	Aye
Legislator Swiercznski	Nay

LEGISLATURE MEETING
August 12, 1992

The Chairman called the meeting to order at 4:40 p.m., immediately after the two public hearings on Local Laws Nos. 4 and 5. After the pledge to the flag, the Clerk called the roll, and all legislators were present.

The Clerk presented the following communications:

Announced that the Intercounty Meeting will be held in Cattaraugus County at the Onoville Marina, with the business meeting to begin at 9:30 followed by lunch and a boat ride; a request from Sandra Bower, Personnel and Self Insurance Administrator regarding the replacement of all original ID badges, also whether or not it is the intent of the Legislature to provide ID badges for all new employees, or only for those who do field work; letters of acknowledgment from NYSAC for Resolutions Nos. 252-492 and 382-792;

Equalization rates from the NYS Division of Equalization & Assessment which are to be used in the 1993 apportionment of the County tax levy; an estimate from the County Highway Department in the amount of \$10,700 for the installation of a fire hydrant at the Orleans County Marine Park for firefighting system and an estimate from the Carlton Fire Department for equipment for marine firefighting system.

Chairman Berger presented a report, dated August 10, 1992, regarding state of emergency for Orleans County farmers for the month of July, as follows:

JULY IN ORLEANS COUNTY

1. Three times the normal rainfall.
2. Twenty-five percent (25%) less heat units to make crops grow.
3. Ten million dollars (\$10,000,000.00) lost as of now.
4. Thirty-one thousand (31,000) acres of corn in Orleans County - crop is okay now, but will not mature without heat and dryness.
5. Ten thousand (10,000) acres of wheat - 20%-30% is already lost, and the remainder is damaged.
6. Apples are still good but need heat.

If August does not dry and warm up, the average loss in Orleans County will be 50%. Legislator Berger said

that Larry Meyers at Agriculture, Stabilization and Conservation Service had filed disaster paperwork with Governor Cuomo on August 3, 1992.

Report of Standing Committees:

Legislator Swiercznski reported attending his usual departmental meetings.

Legislator Bennett reported meeting with the Justices' Association on Monday night, and Judge Punch reviewed the work order program (this is on the Legislature agenda). Mr. Bennett said the justices were very willing to try the program, and felt that it would be providing a useful service to the community. It was also felt that it would emphasize the punishment more, since the inmates would be working in the "public eye".

Legislator Tuohey attended the Legislature Meeting on July 27th, the Barre Town Board meeting on Monday night, met with the Sheriff for the implementation of the 911 emergency service, audited the bills and attended the Clarendon Town Board meeting on August 11th.

Legislator McCarthy met with the Director of the Health Department and the Director of Mental Health, and attended the Legislature Meeting on July 27th.

Legislator Billings said he had been pushing to have Orleans County declared a disaster area due to the crop damage. Mr. Billings talked with Larry Meyers of ASCS, urging him to file the necessary papers.

Legislator Bower met with his usual departments, along with Legislator Swiercznski, also met with the justices to discuss overcrowding in the jail.

Chairman Berger attended the GLOW meeting at GCC on July 23rd, attended Legislature meeting on July 27th, attended a local PIC Board meeting at Orleans-Niagara BOCES on July 31st, worked in the Soil and Water Booth at the 4-H Fair August 1st, attended the initial set-up and operation of the County's 911 System August 3rd, attended Ridgeway Town Board meeting August 4th, attended McDonald's 16th Anniversary (along with Mrs. Tuohey) on August 5th, met with Senator Daly in Medina on August 6th, attended a meeting to discuss the Rotary Fish Derby on August 8th, attended the Soil and Water meeting (along with Legislator Bennett) on August 11th, and attended the Safety Meeting at the Legislature Office on August 12th.

Dr. William Nestle, President of the Cobblestone

Society, was given privilege of the floor. Dr. Nestle said he was at the meeting to find out what the Legislature had decided in reply to his letter requesting funding for the Cobblestone Society to aid in the publication of a book on stained glass windows in various buildings (mostly churches) throughout the County. He noted that the Society would not have asked for funding, if it had not been for the fact that the Legislature had given a grant to the Sportsmen's Federation in the amount of \$1,000.00. This was done after funding for similar types of organizations had been eliminated from the 1992 budget. Dr. Nestle said the Cobblestone had felt that since this cut was given to each organization, then it was a fair decision. However, in the light of the grant given to the Sportsmen, the Society had decided to ask for aid in the publication of its forthcoming book.

Legislator McCarthy said, in reply, "I told Bill we had in fact received it. I don't know about anyone else's feeling on the matter, but we got into trouble with the Court House Crosses. To publish a book with a religious theme - we will get into more trouble." The other Board members agreed.

Legislator Bower commented....."some of your members complained about the crosses."

Dr. Nestle said the Society believed that the book has merit - prestige for the County, as well as providing additional funding for the Society.

The following resolutions were then presented:

RESOLVED, that this Legislature does hereby authorize the Administrator of the Orleans County Nursing Home to issue an RFP for dietary services to be used at the facility.

Adopted. 7 ayes; 0 nays; 0 absent.

During discussion on the previous resolution regarding RFP's for dietary services for the Nursing Home, Legislator Tuohey asked if, in the RFP, an option could be included, to replace County people, with people who work for the dietary service. Legislator Bennett felt that such a step would be a mistake, because the County would lose control - the employees would not be directly responsible to the County. Mrs. Tuohey said that she knew of three facilities who used a dietary contract service - the nursing homes and the hospital in Medina. This would be a way of saving on employees, and suggested that such a step should be considered. Legislator Billings said he "would rather see this type of thing, rather than privatizing (the nursing home)." Legislator McCarthy suggested, that the County Jail could be included in the RFP. Mrs. Tuohey said that it was a suggestion that should be considered.

Chairman Berger brought up several items for discussion:

I.D. Badges: The Chief Administrative Officer gave a brief overview of the County's policy regarding I. D. badges, noting that due to a complaint by a union member regarding the size of the I.D. badge, PERB had become involved, and had ordered a smaller size for the I.D. badge. Mr. Dudek explained that "there was money budgeted in Personnel for replacement...the problem is the policy, the way it is now. The union employees do not have to wear the badge unless it is the right size (PERB ruling). The County has to change the policy or furnish the smaller badge. Nursing Home employees already have the badges - there is no problem there." During the discussion that followed, Legislator McCarthy felt that employees who work outside a County office, should wear the badge, and those who spend their workday within a County building should not have to wear the badge. Chairman Berger asked for a vote to determine whether or not the County employees should wear the I.D. badge. The vote proceeded as follows:

Those in favor of "limited" use of I.D. Badges:
Legislators McCarthy, Bower and Tuohy.

Those in favor of wearing the I.D. Badges "all the time": Legislators Bennett, Berger, Billings and Swiercznski.

The decision of the Board was to have all County employees wear I.D. Badges "all the time" during working hours.

Self Insurance Cards: During discussion, Mr. Dudek pointed out that these cards are not required, that Emergency Rooms hold everybody accountable for the debt, whether or not they have a card. Legislator McCarthy pointed out, that originally these cards were for firefighters, who do need the cards, not for regular County employees. Legislator Bower recommended sending Self Insurance Cards for those people who actually need them. Legislator Bennett suggested referring this matter to the Self Insurance Advisory Committee.

Marine Park: In reference to costs for a firefighting system at the Orleans County Marine Park, two proposals had been received.

The County Highway Department had submitted a cost estimate of \$10,700 for the installation of a fire hydrant at the Park.

The C.D. Director had received a proposal from the Carlton Fire Department for firefighting equipment for the Sheriff's Boat in the amount of \$1380.00 and for the Park itself in the amount of \$5220.00.

After discussion, it was the recommendation of the Board to authorize the C. D. Director to (1) determine which is best, and (2) to encumber funds, and to budget for the expense in his 1993 budget. Chairman Berger said he would contact Mr. Clark and advise him of the Board's decision. Mr. Berger also noted that on the 4th the Fire Chief's will be meeting, and that an Emergency meeting for the firemen will be held next week, at which time these matters can be discussed.

Cobblestone Society: Legislator McCarthy said he had spoken with Mr. Nestle, and explained the Board's feelings regarding his request. Mr. Nestle agreed, and said they (Cobblestone Society) might ask for something else from the County - possible some help with maintenance. Mr. McCarthy explained to Mr. Nestle that the County did have a work crew available that might do some type of maintenance work for the organization.

Intercounty Association: Mr. Berger announced that the meeting would be held at the Onoville Marina in Cattaraugus County, and that he would not be able to attend. Legislator McCarthy said he would attend the meeting.

NYSSCLA Survey re State Take-over of Medicaid: Mr. Berger explained that he had received a survey form pertaining to the State Medicaid Take-over. NYSSCLA is canvassing all the Counties, and would like to know if Orleans County is for or against the "take-over" of Medicaid by the State. Mr. Dudek commented that Senator Daly feels that such a take-over shifts the load to upstate New York. Mr. Dudek also reminded the Board that the State will take away 1% of the County's sales tax revenue, if they do take-over the Medicaid program. Three of the legislators were against the State taking over the Medicaid program, with the other four remaining uncertain, stating they did not have enough information on the State's proposal. Mr. Berger said he would send the survey form back to NYSSCLA with a big question mark.

Early Retirement: Mr. Dudek said that the list of eligible employees, which had been received from the State included elected officials, and the early retirement incentive did not include elected officials. He also explained that the cost would be a little less than last year, and that if the Board wanted to go ahead with the Early Retirement Incentive Program, a local law would have to be passed by September 22nd. Therefore, a local law would have to be introduced at the next meeting, with a public hearing and the adoption of the local law to be scheduled for the September 9th meeting.

Legislator Swiercznski requested that a survey be conducted to find out how many employees are interested in early retirement. Legislators Bennett, Billings and Tuohy were not in favor of early retirement. However, Legislator Bower said, "(that since) we offered it last time, then we should do it this time."

Soliciting in County Buildings: It was decided to review the resolution banning solicitation.

Mrs. Halloran was given privilege of the floor. Mrs. Halloran said she was there to make the Legislature aware of a situation in the County Jail. She stated that it dealt with an extremely personal situation. Legislator Swiercznski, with second by Legislator McCarthy, moved to go into executive session. Motion carried.

Meeting recessed at 6:50 p.m.

Meeting reconvened at 7:10 p.m.

County Attorney David Schubel asked, in the case of In Rem Properties, if it would be possible to have a repayment agreement with the County. It was the consensus of the Board, that such an agreement would not be possible.

Motion by Legislator McCarthy, with second by Legislator Billings, to adjourn. Motion carried.

Meeting adjourned at 7:10 p.m.

Legislator Billings reported that the second eight-year review of Ag District No. 3 in the Town of Kendall is proceeding, and that there will be a resolution on the agenda for the next meeting setting the date for the public hearing.

Legislator Bower reported attending his regular departmental meetings.

Legislator Swiercznski attended meetings with the Highway Department, Buildings and Grounds and the Nursing Home; also attended the picnic for the Past and Present Supervisors' and County Legislators' Association at Orleans County Marine Park.

Legislator Bennett reported attending his regular committee meetings; announced that there was a meeting at the C.D. office with the auxiliary police - noting that there was a "mass exodus" of members - for a proposal for more training. All Board members were invited to attend.

Legislator Tuohey attended the Mental Health meeting, the Self Insurance meeting along with Mr. Berger on its projected budget; met at the Health Department with Legislator McCarthy to go over their projected budget; met with the County Treasurer to go over her budget and met with Jack Pease regarding RFP's for food service; audited the bills on Monday and Tuesday, and audited the Nursing Home vouchers for the first time.

Center, (the County emergency services did very well) August 20th; attended a meeting with Legislators Bennett and Billings and Sheriff Green regarding the Jail roof and attended the Planning Committee Meeting on August 26th.

Motion by Legislator Swiercznski, with second by Legislator McCarthy, to adjourn. Motion carried.

Meeting adjourned at 5:10 p.m.

LEGISLATURE MEETING
September 9, 1992

The Chairman called the meeting to order at 4:40 p.m., immediately after the public hearing on Local Law No. 6-Intro of 1992. After the pledge to the flag, the Clerk called the roll, and all Legislators were present.

The Clerk presented the following communications: Formal notification from the NYS Department of State Bureau of State Records that Local Laws Nos. 4 and 5 had been filed August 21, 1992; notification of the Intercounty Meeting to be held September 17th in Seneca Falls, New York.

Report of Standing Committees: Legislator McCarthy reported meetings with the Health Department and Mental Health Department to work on their respective budgets, also a meeting with the Finance Committee earlier in the day.

Legislator Billings reported his usual meetings, and a meeting at the Extension office.

Legislator Bower reported attending his regular meetings. Mr. Bower explained that the second work crew had started working in the Administration Building, and would like to clean carpets. Rental costs for a carpet cleaner are \$279.00 a month, and it will take approximately three months to do the cleaning. Prices have been obtained for the purchase of a carpet cleaner, and two estimates have been received...one for \$1159 and the other for \$995....an attempt is being made to obtain a third estimate, per purchasing policy rules. There are funds in the Buildings and Grounds budget for the purchase. Mr. Bower said Some of the cost can be charged back to the various departments. The Board agreed to go ahead with the purchase, paying for it from the Buildings and Grounds Department budget accounts.

Legislator Swiercznski reported regular committee meetings with the Social Services Department, the Nursing Home, Buildings and Grounds, and Weights and Measures.

Legislator Bennett reported regular committee meetings, commenting that he was on the Jury Board and had never been invited to a meeting. The suggestion was made that he contact the Commissioner of Jurors.

With regard to the roof replacement for the jail, Mr. Bennett said he had spoken with the Buildings and Grounds Superintendent who suggested doing half, at a cost approximately \$8,000, and not replace it all at once. Legislator Bennett stated he would prefer doing the entire roof. Legislator McCarthy noted that the Board had already passed a resolution authorizing bids to get it done. Legislator Bennett also mentioned the different hours for the Buildings and Grounds Department, and commented that he was under the impression the Legislature would "think" about it. Legislator McCarthy said it was his understanding that the Legislature had said "No".

Legislator Tuohey met with the Finance Committee regarding the budget; also met at the Nursing Home with Legislator Bower and Administrator Jack Pease regarding the RFP's for food service; attended the Shelby Town Board meeting on September 8th, and the Safety Meeting earlier this a.m.

Chairman Berger attended the GLOW meeting at GCC on August 27th; attended the Interagency Collaboration meeting in Olean with Commissioner Hardenbrook, Probation Director Dean Holland and James Elmore of the Mental Health Department. The Orleans County Group has a meeting scheduled for September 15th. Attended the ribbon-cutting ceremony at the Jubilee store on September 1st and the Ridgeway Town Board meeting; attended the Union Labor Board Meeting on September 3rd; the Soil and Water meeting on September 8th, as well as the meeting with the DA at 7:30 a.m.; attended the 10:00 a.m. Safety Meeting and gave the Seaway Trail Executive Board Meeting welcome.

Chairman Berger announced that he had signed two proclamations - one for National 4-H Week and the other for Sheriff's Week in Orleans County, September 13 through 19, 1992.

Chief Administrative Officer announced that RAM had finally made their recommendation as to the low bidder on the 800 Megahertz Radio Project, - E.F. Johnson was the low bidder. Mr. Dudek said that the next step would be to meet with people from E.F. Johnson and take a look and see which parts of the bid could be eliminated or postponed and see how the cost can be broken down among the participating municipalities. Legislator Tuohey said that all the towns should be involved before a decision is made by the County. Chairman Berger recommended a meeting with all those involved.

With regard to the meeting with the School Board, Mr. Billings said that the last conversation he had

with a member of the Kendall School Board, it was left that a school board representative would get in touch with the County at a later date to arrange a meeting. At that time, everyone was away on vacation and would be unable to attend. Mr. Berger commented that he would rather spend time "discussing" than determining dinner choices, and opted for a meeting to be held in the Legislature Chambers, rather than having a dinner meeting.

The following resolutions were presented:

Legislator Bower, with second by Legislator Billings, introduced a resolution adopting Local Law No. 6 of the Year 1992 pertaining to an Early Incentive Retirement Plan for the County. During discussion of the resolution, Legislator Bower said, "I would like to thank Stan (for cost figures)...did an excellent job. I still have a difference of opinion that some of the costs that look like they are negative to the County....I view sick days, and vacation and liken it to money in the bank. It's not ours. If we offer this with a shorter window, hopefully we wouldn't replace everybody right away (there could be a savings)." Mr. Dudek said he had checked last year's numbers, and that medical costs will probably be high, while the actual cost for the incentive program may be a little low. 1993's first payment will be \$80,000.00. Mr. Dudek said he felt that the numbers presented were "pretty close". Legislator Billings suggested shortening the "window period". Legislator Bower moved, with second by Legislator Tuohey, to amend the resolution changing the date the "window period" is to end from December 31, 1992 to November 30, 1992. Motion failed. 3 ayes, Legislators Bower, McCarthy and Tuohey; 4 nays, Legislators Bennett, Berger, Billings and Swiercznski; 0 absent. The original resolution was then voted upon as follows:

RESOLUTION REQUESTING NYS DEPARTMENT OF TRANSPORTATION TO CONSTRUCT TURNING LANES AT THE INTERSECTION OF ROUTES 98 AND 18 IN THE TOWN OF CARLTON, ORLEANS COUNTY, NEW YORK

WHEREAS, the NYS Department of Transportation, in response to a request from the Orleans County Legislature made on April 8, 1992, has investigated the necessity of left turn lanes at the intersection of Routes 98 and 18, in the Town of Carlton, by determining the volume of cars turning left and the opposing volume; and

WHEREAS, as a result of said investigation, the NYS DOT, in their letter dated August 12, 1992, has made a determination that the traffic volumes are not large enough to justify the additional left turn lanes at said intersection; and

WHEREAS, in 1972, left turning lanes were constructed at the intersection of Archibald Road and Route 18, as well as at the Lake Ontario State Parkway entrance to Lake Side Beach State Park; and

WHEREAS, it is the opinion of this Legislature and the Orleans County Highway Superintendent, that if the volume of traffic warranted turning lanes at the Archibald Road intersection and at the Lake Ontario State Parkway entrance to Lakeside Beach State Park twenty years ago, that the amount of traffic, especially during the late spring, the summer, and the early fall months, has increased enough over this 20-year period of time to warrant turning lanes at the Route 98/Route 18 intersection in order to accommodate

the boating traffic that uses Route 98 to reach the Orleans County Marine Park, the marinas, and the boat launch located at Point Breeze, as well as the traffic that leaves the Parkway at Route 98 in order to get to Route 18 and to the boat launch located on the west side of Oak Orchard River; and

WHEREAS, the construction of such turning lanes would provide a safe access to Route 98 from Route 18, and from Route 18 to Route 98, not only for the tourists and boaters who use the marina/boat launch facilities at Point Breeze and on the west side of Oak Orchard River during the late spring, summer, and early fall months of the year, but for the year-round residents of the area as well;

NOW, THEREFORE, BE IT RESOLVED, that this Legislature does hereby request the NYS Department of Transportation to reconsider its decision, and to construct turning lanes at the intersection of Routes 98 and 18 in the Town of Carlton; such construction being necessary in order to accommodate the heavier type traffic so prevalent during the late spring, summer, and early fall months; and be it

FURTHER RESOLVED, that copies of this resolution be sent to Senator John B. Daly, Assemblyman R. Stephen Hawley, Assemblyman Matthew Murphy, the NYS Department of Transportation Commissioner Franklin White, NYS DOT Regional Director Lew Gurley, NYS DOT Regional Design Engineer C. E. Moynihan (Region 4), and the Orleans County Highway Superintendent Donald Cooley.

Chairman Berger announced that Intercounty would be held on Thursday, the 17th in Seneca Falls, and that

the NYSAC Fall Conference would be held in Rochester, New York September 21 - 23, 1992. Everyone who intends to attend the Conference on Monday, the 21st, will meet at the Legislature office at 9:00 a.m. and travel to Rochester together.

Chairman Berger announced he had received a letter from the Genesee Fingerlakes Regional Planning Council requesting the County to endorse its Overall Economic Development Program. Mr. Berger read a copy of the letter sent last year, endorsing the Program, and it was the consensus of opinion that a similar letter be sent this year, endorsing the Program.

Chairman Berger noted the letters received from the Director of the Genesee/Orleans Youth Bureau - one explaining the 1993 Comprehensive Plan and the other stating that Ms Kerr-Rosenbeck will be on childrearing leave for a period of time.

Mr. Berger also brought up the costs for veterans' burials versus the cost of burials for Social Service recipients. Legislator Bower said he was checking into that. Commissioner Hardenbrook explained that in either case, the Department of Social Services claims reimbursement on both the Social Service recipients' burials and the veteran's burials.

The Chairman noted that each of the Board members had copies of the Bond Act, (the Bond Act is to be voted on this fall) and suggested they look into it. The County has to decide what projects it will participate in, if the Bond Act, in fact, passes this fall. The applications for the proposed projects have to be in by September 15th. It was explained that Wayne Hale was putting something together in the way of projects. Legislator Swiercznski said, "Someone should know what's going into the project list." Legislator Billings suggested putting "everything" in, and then narrow the project(s) down should the bond act pass. LEGISLATURE MEETING

The Chairman called the meeting to order at 4:45 p.m. immediately after the Conference Session. After the pledge to the flag, the Clerk called the roll and all Legislators were present.

The Clerk presented the following communications: Minutes from the August 11th meeting of the Soil and Water Conservation Board; minutes from the July 22/23rd WNY OTB Board meeting; County Planning Board minutes from the July 23rd meeting; an invitation to attend the Orleans County Farm bureau Annual Dinner Meeting to be held at the Trolley Building at the 4-H Fairgrounds, on October 24, 1992 at 7:15 p.m.

Letters of acknowledgment from Governor Cuomo's office and from Assemblyman R. Stephen Hawley re the County's resolution opposing the proposed NYS Health Department Trauma Protocols; a letter from the USDA Farmers Home Administration regarding a disaster designation for Orleans County, and stating that should such a designation be made, FHA low-interest emergency loans will be available to eligible family-sized farmers who suffered qualifying losses.

Notification from NYS Department of State, Bureau of State Records that Local Law No. 6 of 1992 authorizing the early incentive retirement program for eligible Orleans County employees had been filed September 16, 1992; a copy of a letter from NYS Department of Economic Development Commissioner Vincent Tese stating that the State is able to offer Orleans County a Grant of \$26,315.00 based on the County's request for \$57,500.00.

Report of Standing Committees: Legislator Bower reported attending regular committee meetings, also stated he had audited bills, and had not approved a TIME magazine subscription for the Probation Department. Mr. Bower also commented on the fact that on the Purchase Order for copiers to be purchased through the STOP DWI budget, the only "bid" listed was from Garlock, and noted that it was the policy of the County to obtain three quotations and/or bids. Mr. Dudek commented said he had checked with the Sheriff that the Garlock transaction was submitted with State pricing - there was no comparison with different copiers because the Sheriff's Department was told by Garlock that they (the copiers) were on State Bid.

Legislators Billings and McCarthy reported their usual departmental meetings.

Legislator Tuohey attended the EAP Meeting, and discussed the resolution on the agenda concerning the establishment of a TOPS weight loss program for County employees. The Committee assured Mrs. Tuohey that this would not happen. Legislator Tuohey attended the meeting at GCC at which time the subject of College courses being taught in high schools, by high school teachers, with costs for such courses being charged-back to the County, was discussed; also expansion of GCC's facility in Orleans County was discussed. Legislator Bennett attended several committee meetings, and noted that the DWI Committee did approve the program for 1993, and a resolution authorizing Legislature approval is on the agenda. Mr. Bennett noted that with arrests down, revenues for DWI might be short by \$10,000.00.

Legislator Swiercznski reported his usual committee meetings, and also commented that he had spoken with people from Genesee County and from Monroe County regarding our County's work program for welfare recipients. They were not aware that such a program could be conducted - they were very interested.

Legislator Tuohey, with second by Legislator McCarthy, introduced the next resolution, entitled RESOLUTION ADOPTING PRELIMINARY COUNTY BUDGET FOR THE YEAR 1993. During discussion, Legislator Billings, with second by Legislator Bennett, moved to amend the proposed resolution by increasing the appropriations for the Soil and Water District and the Cooperation Extension back to their 1991 levels, which would increase the proposed 1993 Preliminary County budget by approximately \$82,453.00.

There was much discussion on the proposed amendment to the preliminary budget:

Legislator McCarthy said, "I have no argument to the motion as to the worthiness of the cause.....However, we could not give all of our employees a raise this year. We are out of money."

Legislator Tuohey said, "I think each of the agencies were cut 30% across the board, so that each agency was treated alike. They got exactly what they got last year. I think that if we start to pick or choose, that is when we run into trouble.....we are in a tight budget condition - we are short \$900,000.00." Mrs. Tuohey also reminded Legislator Billings that he had voted in favor of keeping the budget to the 1992 level.

Legislator Bennett said, "I think it's a fine theory to treat everyone the same, across the board. However, we ought to determine where the problems are.....Use libraries as an example. They are (also) funded through the school budget....Have to look at each individual agency...Soil & Water, if we do this, it will be gone...I say put it in the budget."

Legislator Swiercznski said, "I was just going to reiterate what Rich said. Place (them) in the preliminary budget - you can't raise it but you can always put it down or eliminate it."

Legislator Tuohey commented again, "Where is your commitment to the 1992 level. You have to draw the line. They are one of the organizations that receive the most money - they were cut the most, but they were also raised the most. It is not mandated by the County for us to fund them - they have to realize that the well is dry."

Legislator McCarthy commented, "Because of my employment, I was not able to be here for some of the committee meetings. However, the Budget Committee all worked very long and very hard on the budget. I think it's a slap in the face for their hard work. I agree with Marcia."

Chairman Berger felt that "the County's first loyalty should be for County organizations that we, as a County, are bound by law to do (help fund). The other organizations that we are not bound (by law) to do, but that we normally appropriate funding for in the budget, in all likelihood can continue to be funded, if the County can afford it.....These organizations have also been cut by the federal and state governments, and unfortunately they cannot lobby against them, so they come to us for additional funding, and when they feel it necessary, they lobby us for funding."

Legislator Bower said, "Obviously, when these amounts were set, the County still maintained the same priorities. When the situation changes...."

The vote for the proposed amendment proceeded as follows: 3 ayes; 4 nays, Legislators McCarthy, Bower, Tuohey and Berger; 0 absent. The proposed amendment failed:

Chairman Berger then called a vote on the original resolution. Legislator Bennett asked for a roll call vote, which proceeded as follows:

Legislator Bennett	nay
Legislator Berger	aye
Legislator Billings	nay
Legislator Bower	aye
Legislator McCarthy	aye
Legislator Swiercznski	nay
Legislator Tuohey	aye.

The following resolution was then adopted by a vote of 4 ayes; 3 nays, Legislators Bennett, Billings and Swiercznski; 0 absent:

	Total.....	\$468,039.00;

FURTHER RESOLVED, that the public hearing for the Preliminary County Budget for 1993 be held on Monday evening, December 7, 1992 at 7:30 p.m. at the Knights of Columbus, West Avenue, Albion, New York; and be it

FURTHER RESOLVED, that the notice for said public hearing be published in the Albion Advertiser, Inc. and the Medina Journal-Register, Inc.

Adopted. 4 ayes; 3 nays, Legislators Bennett, Billings and Swiercznski.; 0 absent.

Upon voting against the preliminary budget, Legislator Billings commented, "I am voting against the preliminary budget, because it does not meet the requirements of the resolution adopted last February - it does not meet the 1992 budget limit."

Legislator Tuohey, "May I address this? What you are saying to me is that you wanted to raise the preliminary budget by \$82,000.00 - it was voted down. So now, you did not vote for the preliminary budget which is only preliminary. That resolution says that we still - this is not final, we can still go by this resolution. What you are saying is because it is not at that resolution at this point, you are voting against it.....Legislator Billings said, "That's right. This is not to say that I would not vote against it if it was in there."....Legislator Tuohey commented, "But the reason you are voting against it is not -- I don't find it very logical because we are at that point where we are abiding by this resolution."...Legislator Billings said, "Your logic and mine is different."....Chairman Berger, "I understand your comment, but if the amendment had passed, then the money would have been more that what the resolution adopted on February 26th allowed."....Legislator Billings said, "Then I would still have voted against it anyway."

RESOLUTION NO. 523-1092

By Legislator Bower, who moved the adoption.

Seconded by Legislator Bennett.

County Attorney David Schubel was given privilege of the floor. Mr. Schubel explained that the County Sheriff had received a letter notifying him that the Village of Holley had voted not to continue its agreement with the Sheriff's Department for dispatch services. Sheriff Green explained to Mr. Schubel that 75% of the calls dispatched are not E911 calls, and he feels that in the absence of the agreement, the County will be continuing to render the same services without compensation. Chairman Berger asked if it was the desire of the Board to have the County Attorney write a letter to the Village of Holley explaining the situation to the Village Board. Legislator Bennett said he felt that Sheriff Green should sit down with the Attorney and the Village Board and explain the difference in the E911 and general dispatching

service. The County Attorney agreed that this would be a satisfactory way to handle the situation.

Motion by Legislator McCarthy, with second by Legislator Swiercznski, to adjourn. Motion carried.

Meeting adjourned at 5:45 p.m.

LEGISLATURE MEETING
December 9, 1992

The Chairman called the meeting to order at 4:30 p.m. After the pledge to the flag, the Clerk called the roll and all Legislators were present.

A letter from Demerly Technologies regarding the 800 MHz Radio System bid award; a letter from the County Attorney advising that the crosses are not to be put on the Court House Dome, as they have in previous years, due to possible litigation; a letter from Mr. Edward Smith stating that he felt that the fair way to raise funds for the County was through an increase in Sales Tax, rather than an increase in property taxes;

Minutes from the September 16th EMS Meeting; a copy of the minutes from the December 9th Safety Meeting; announced that a notice of the NYS Supervisors & County Legislators Association Regional Workshop is scheduled for January 21, in Geneseo, New York.

Legislator Berger was in the Legislature Office

During the open discussion portion of the meeting, Legislator McCarthy again stipulated that he objected very strenuously to the fact that a minority in this County, who objects to religious type decorations on the Court House, can cause us to remove them. Legislator Billings also agreed and noted that even calls had been received from as far away as the Carolinas and Texas threatening law suits.

ORLEANS COUNTY BUDGET FISCAL YEAR 1993

*Adopted Orleans County Legislature
December 9, 1992*

TO THE HONORABLE MEMBERS OF THE ORLEANS COUNTY LEGISLATURE
 AND TAXPAYERS OF ORLEANS COUNTY:

The fiscal crisis' in local government has been attributed to inflation, recession, increased demand for services and mandates by both the state and federal governments. Despite all of these problems, sufficient revenue must be generated to meet the cost of public services. This fiscal management can be frustrating, since elected officials operate under constraints and are subject to a large number of forces beyond local legislative control ie: state and federal funding, special interest groups, the local economy, etc. We are constantly seeking new sources of financing, and consciously striving to use existing sources more productively. One example is User fees which have been increased as a revenue option in some areas, ie: Mental Health, Probation and Public Health. However, these are often difficult to establish and administer, and are not always viable in the long term.

Reducing expenditures required elected officials and department heads to make hard choices when scaling down programs. Although these difficult decisions were far from easy to make or administer, they were impossible to avoid. The Legislative Board for the past three years has made across-the-board cuts, instituted hiring freezes, (and in 1992, a salary freeze), approved less equipment purchases and fewer supplies and also deferred some maintenance to roads, bridges and buildings. However, this strategy can eventually undermine effective services, and if it is overdone, could force a financial crisis involving massive layoffs, severe reduction of services etc.

Several County Departments have been able to reduce the County support needed to function effectively, where others, because of increased expenses or less State or Federal reimbursement, find it impossible to stay within the 1992 limits. Social Services, including Social Service Programs, is \$272,083 (6.35%), County share, higher than 1992. This is due largely to increased Medicaid costs. A "Mobile Work Crew" program was instituted in May 1992 which has proven successful in reducing costs in Home Relief by about \$20,000 (County share) for 1993.

The 1993 budget for the Sheriff's Department indicates an increase of \$87,411 (7.67%) due to salary increases, which include additional personnel for the work order program. This program is in conjunction with local courts, which is eventually expected to result in increased Jail revenues. Equipment purchases are increased by \$18,470. This includes the purchase of four new cars for the department. The 911 Emergency System has been implemented and is being administered by the Sheriff's department at no cost to the County. The County cost of maintaining the Jail is expected to increase to \$421,054 (87.20%) due almost totally to a decrease of revenues from boarding prisoners (projected loss of \$350,000). Office of Disaster Preparedness \$13,575 (16.35%) higher, due largely to equipment purchases, and building maintenance and repair which is now considered past due. Probation costs have increased by \$35,688 (10.98%) county share, due to decreased State reimbursement and salary increases. One vacant position in this department has been eliminated. The Department of History was consolidated with Veterans Service at a net savings of \$6,462.

Community College costs are expected to escalate by approximately \$75,000 to \$825,000 (10%). Education Handicapped Children is projected to remain at the 1992 level.

Use of Money and Property is reduced by \$45,000, due to low interest rates and less investment potential. State Revenue, as a whole, expected to increase by only \$44,000 in spite of increased mandates. Sales Tax Revenue is increased by \$1,085,269, which includes \$900,000 revenue from a budgeted sales tax increase of 1% (to 8%).

The Highway Department county cost is \$77,476 (5.16%) higher than 1992. However, \$237,789 surplus from the Road and Machine Fund was used to further reduce the Highway Levy. This department faces a loss of about \$80,000 in CHIPS or other State reimbursement in 1993.

The Solid Waste costs increased by \$197,950, and is fully supported by service charges which is indicated in a separate budgeted category. Both the Fuel Farm and the Orleans County Marine Park are operated without county cost.

Outside Agencies, ie: ARC Program, Drug and Alcoholism programs, Community Action, Libraries, Industrial Development, Sportsmen Assoc., are budgeted at the 1992 level. Soil and Water is budgeted at \$25,157 (25% increase) and County Extension at \$185,723 (7% increase over 1992).

Employee benefits are projected to increase by approximately \$152,000 which is largely reflected in the county cost of each department. The balance is due to retirement and medical insurance costs for early retirees. New employees are required to pay 15% of their medical insurance for the first three years of employment. Union contracts were settled at 3.5% increase, plus step, where applicable, for years 1993 and 1994. No salary increases were approved for 1992 except for step increases (\$225.00 average) for those employees who were eligible.

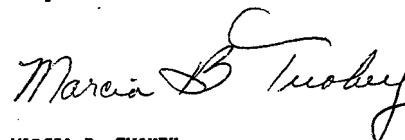

Like the Federal and State governments, Orleans County has faced serious budget shortfalls in the past two years. A priority of the Orleans County Legislature has been to control spending to keep property taxes at a reasonable level. This year the cost of mandated social services and the crucial public safety needs, combine to make an increased tax levy inevitable. However, with a 1% increase in Sales Tax revenue an increase was avoided and we were able to reduce the levy. We have worked to hold down spending in all other areas to minimize the tax burden. The significant cuts in general government expenses that were made last year are continued in this budget.

There is no standard solution for local fiscal pressures, but there is a need for thoughtful policy. We are presenting our 1993 budget in the hope that it is a workable plan which will enable Orleans County to fulfill our fiscal responsibility while still providing the necessary services to our citizens.

Chairman Berger reported attendance at the following: December 10 - Genesee Finger-Lakes Executive Board and regular meeting, also Town of Yates meeting, December 13 - Lois Brandt's retirement party, December 14 - DSS interviews, insurance committee meeting, PIC meeting, December 16 - retirement party for Gerald Scharping, December 21 - Legislature Office, Probation Department, December 22 - employee hearing and solid waste, December 23 - Step

Chairman Berger presented certificates of appreciation to the following retirees: Gerald Scharping - Soil and Water, Pat Hardenbrook - Commissioner of Social Services, Joyce Church - Director of Nurses at Nursing Home, and Duane Johnson, who was not present at the time, who is retiring from his position of Public Defender.

During the open discussion portion of the meeting, Kathleen Rissew presented a petition signed by over 564 people, protesting the removal of the crosses from the courthouse. Chairman Berger indicated that he has contacted seven churches and offered them the crosses. Legislator McCarthy told Ms. Rissew that if the County took this to court and lost it could cost \$50,000 - \$100,000 of taxpayers money. Mr. Schubel said he felt that what would be a problem is having crosses on the highest building in Albion, but it is possible to have a site set aside where there could be items representing different faiths. Legislator Bennett pointed out that the property chosen would need a department to be in charge of it. Mr. Schubel said some guidelines will be needed.

George Callard commented on the number of people retiring and hoped that good judgment will be used in replacing these people. He also asked when the Courthouse and Legislature office will be handicapped accessible. Mr. Schubel said the County is aware of its responsibilities under the Americans With Disabilities Act and it is being addressed. Mr. Dudek said an assessment has just been completed of all the County buildings and a transition plan has to be prepared.

DEPARTMENTAL FEES RECEIVED IN 1992 (please list source):

PROGRAM: It is our primary objective to utilize the funding from both Federal and State sources to provide employment and training services and programs to income eligible residents of Orleans County. Our department also receives funds from Federal sources to provide services and training activities to laid off or dislocated workers. There is no income eligibility criteria so long as we can verify the reason for being laid off and it meets the definition we are given to work with. Our department also administers all of the employment programs and services for the Orleans County Department of Social Services under the J.O.B.S. program. This part of our responsibility has grown significantly in 1992 due to the increased numbers of residents coming onto the welfare rolls.

As part of our J.T.P.A. programs, we provided either employment, training or services to 359 unduplicated adults and youth during our program year (July 1, 1991 thru June 30, 1992. This was a 6% increase over last program year.

PROGRAM:

During 1992 the Probation Department served 657 clients through Family Court Intake and Justice Court Diversion. The number of Court investigations increased by nearly 10% to 537. Similarly, supervision caseloads increased from 496 to 526 (6%). As in the previous year, many cases involved violence and nearly 80% were alcohol or drug related. These increases in the Probation workload were effectively managed, despite the redirection in line staff of one full-time Probation Officer.

As the incidence of crime in New York State continues to escalate, the Orleans County Probation Department continues to pursue intermediate sanctions and other alternatives in an effort to provide community safety at an affordable cost to the individual taxpayers.

PROGRAM: The Orleans County Public Defender's Office consists of three (3) part-time attorneys and a full time Legal Assistant. The attorneys share responsibility of providing legal representation to poor persons charged in twenty-two(22) Town and Village Courts and in County Court. Representation of defendants charged with certain violations, misdemeanors and felonies involves, among other things: appearances at arraignments, discovery demands, pretrials, motions and hearings, trials, post-trial motions, revocation of probation and parole revocation hearings. Appeals may be taken which involve extensive legal research, preparation of a law brief and oral argument in the Appellate Division.

The Office handles other matters out of the Orleans and Albion Correctional Facilities concerning § 440 CPL matters, appeals from denial of parole; appeals from revocation of parole; Habeas Corpus and Parole Rescission Hearings. Our Legal Assistant prepared 111 parole denial briefs. These matters generated income of \$ 11,578.04.

The Public Defender's Office is in dire need of updating its office equipment. Next year we must budget more money.

PROGRAM:

The Orleans County Self-Insurance Plan is responsible for administration and management of Workers' Compensation benefits. Our participants include all county, town and village employees as well as all Orleans County volunteer firefighters. We are required to keep a Reserve Account and apportion costs between participants on an annual basis.

The State Legislature's decision to increase workers' compensation rates in 1990, combined with rapidly growing health care costs and fraudulent use of the system have forced costs out of control. NYSAC has become active in workers' compensation reform and we have volunteered to contribute to this campaign in any way possible.

With continued efforts to enforce safety, we hope to decrease the number and extent of accidents and injuries, therefore, control costs. We have also looked into rehabilitation of those disabled in order to get them back to work. Rehab works for the common good of both the claimant and employer and is a tool that is becoming widely used to reduce compensation costs.

Legislator McCarthy presented a resolution accepting an award from New York State Department of Health for \$5,000.00 to promote tobacco free awareness week. This was seconded by Legislator Bower. During discussion of the resolution, Legislator Bower said this grant is to encourage people not to smoke, while at the same time the County is offering space to the employees to smoke. He said the two do not go together and he feels that to accept this grant would be encouraging the State to waste more of the taxpayers money. Legislator Billings felt that a resolution should be sent to the State Assembly to recommend that this type of funding be ceased. Chairman Berger remarked that this type of money does not go back to the taxpayers if it is not used by this County; it will go to another County. Andy Lucyszyn, who was present at the meeting, said this is not State money; it is a private endowment which makes this money available to the State to use as it sees fit. Legislator Tuohey commented that we accept grants that are matching funds. This will not cost anything so why not take it. At this time, Chairman Berger called the question and the following resolutions were presented:

RESOLUTION SUPPORTING A PHASED-IN STATE TAKEOVER OF THE MEDICAID PROGRAM

WHEREAS, New York is one of the few states in the country which mandates that counties and the City of New York (localities) pay a local Medicaid share, which now costs localities \$3.3 billion a year with a growth factor of 14% per annum; and

WHEREAS, this Medicaid mandate requires localities to dedicate an increasingly larger portion of their local taxes for the State Medicaid program thereby

imposing a back breaking burden on local taxpayers; and

WHEREAS, it is imperative that localities obtain immediate relief from this unbridled growth in the Medicaid program by enactment of effective Medicaid cost-containment; and

WHEREAS, local Medicaid relief must include the immediate acceleration, statutory expansion, and State assumption of the Managed Care program; and

WHEREAS, local Medicaid relief must also include the State assumption of the administrative cost of the Medicaid program; and

WHEREAS, local Medicaid relief must also include a State takeover of the Medicaid program; and

WHEREAS, each phase of a State takeover of the local Medicaid program should include a hold harmless clause to ensure that each locality benefits from the State takeover plan; and

WHEREAS, counties no longer have the fiscal resources to support the local Medicaid share by reliance on continual property tax increases and sales tax increases, and a State takeover of Medicaid would enable counties to administer other necessary local programs in an equitable and productive fashion; and

WHEREAS, the New York State Association of Counties has made Medicaid takeover its NUMBER ONE MANDATE RELIEF PRIORITY FOR 1993 and is advocating that Medicaid takeover be enacted into law concurrent with the adoption of the 1993-94 State budget; and

WHEREAS, Orleans County now wishes to express its support for State Medicaid takeover in accordance with the above recitals and such State takeover be enacted into law on or before March 31, 1993; now, therefore, be it

RESOLVED, that Orleans County supports a phased-in State takeover of the Medicaid program which shall include as a minimum:

- (1) enactment of structural Medicaid cost-containment
- (2) assumption of local Medicaid managed care
- (3) responsibility for all Medicaid administrative costs
- (4) incur all growth in the Medicaid program by

1997

- (5) all additional Medicaid takeover relief agreed to by the Governor, Senate and Assembly;

and, now, therefore, be it

RESOLVED, that copies of this resolution be submitted to Governor Mario M. Cuomo, Senate Majority Leader Ralph J. Marino, Assembly Speaker Saul Weprin, and all members of the New York State Legislature, New York State Association of Counties, Intercounty Association of Western New York, and all other persons, organizations and agencies deemed necessary and proper.

NOTWITHSTANDING ANY RESOLUTION HERETOFORE ADOPTED, BE IT RESOLVED, that the following terms of auction for County-owned property for the auction to be held May 1, 1993 at 10:00 a.m. in the Court Room of the Orleans County Courthouse, Court House Square, Albion, New York, be approved by this Legislature as follows:

TERMS OF AUCTION
ORLEANS COUNTY TAX PROPERTY AUCTION
ORLEANS COUNTY COURTHOUSE
ALBION, NEW YORK
MAY 1, 1993
10:00 A.M.

This is the sale at public auction of various parcels of real property which have been conveyed to the County of Orleans by final judgment under the so-called In Rem Tax Foreclosure Proceedings. This sale is ordered by various resolutions of the Orleans County Legislature and is in accordance with the appropriate provisions of the Real Property Tax Law.

This sale and sale of each and every parcel herein is upon the following terms:

1. All sales are made subject to confirmation and approval thereof by the Orleans County Legislature, which confirmation and approval will

be requested at a special meeting of the said Legislature to be held directly following the auction. The resolution of confirmation will be immediately available at the close of said meeting.

2. At least 25% of the final bid for each parcel shall be paid to the Clerk of these proceedings prior to the start of the special Legislature meeting above stated. Payment shall be in cash or by a good check upon a New York State financial institution.
3. The balance of the successful and accepted bid for each parcel shall be paid in cash or by certified check to the Orleans County Treasurer, Central Hall, 34 East Park Street, Albion, New York, 14411, no later than Friday, May 28, 1993 between 9:00 a.m. and 5:00 p.m. unless extended by the Legislature.
4. The County of Orleans is not required to send any notice to the purchaser or purchasers, and if the purchaser or purchasers neglect to pay the balance due and call at the Orleans County Treasurer's Office at the above stated time the successful bid shall at 5:00 p.m. on Friday, May 28, 1993, be deemed conclusively to be abandoned, the deposit retained by the County as liquidation damages and the parcel in question disposed of in such manner as the County determines without notice to or benefit to the defaulting purchaser.
5. Upon payment of the balance, as above provided, the County of Orleans will deliver a standard form quitclaim tax deed which shall describe the parcel in the same manner as in the In Rem Foreclosure deed to the County and which shall quitclaim all of the right, title and interest of the County of Orleans in and to the said parcel. The said deed shall name as grantee the successful confirmed bidder and shall state the amount of the successful confirmed bid. The County of Orleans will execute no warranties concerning the parcel or the title thereto and will not deliver or be responsible for abstracts, title searches, surveys, maps or other documents concerning the parcel whatsoever.
6. The deed shall contain a condition and covenant that Orleans County shall in no event be or become liable for any defect in the title so conveyed for any cause whatsoever, or that no claim or demand of any nature shall ever be made against said Orleans County arising from such sale or conveyance or any proceedings leading thereto.

7. All parcels are sold subject to the 1993 Town and County tax and the relieved 1992-93 school tax. The amount of such unpaid tax shall be announced by the auctioneer prior to the auction of each parcel. The unpaid taxes must be paid prior to May 28, 1993 to avoid further penalty, and prior to the filing of the deed.
8. The purchaser upon payment of the final bid and the unpaid taxes shall also deliver to the Treasurer a check for all recording fees due to the County Clerk for filing the deed. Such fees will be \$47.00 on each purchase, plus an additional \$2.00 for every \$500.00 or part thereof when the purchase price is \$500.00 or more. For example, if final bid is \$10,000.00, recording fee is \$47.00 plus \$2.00 x (20) or \$87.00.
9. The successful and confirmed purchaser shall take the parcel "as is" upon delivery of the above stated deed, in such condition as the same exists at that date and subject to all alleged possessory or other claims and all covenants, easements and restrictions of record.
10. The various parcels have been available for view by any and all interested parties prior to this sale. No adjournment in bidding shall be allowed for further viewing of any parcel.
11. The various parcels shall be offered from the list of parcels previously available in such order and manner as the auctioneer shall deem proper.
12. The Legislature reserves the right to set minimum opening bids on any or all parcels to be auctioned at any time prior to the auction.

WHEREAS, solid waste disposal is a problem of great concern on a local, national and international level, and

The Chairman reconvened the meeting at 8:00 a.m. All Legislators were present, along with attorney Norris Webster.

Legislator Tuohey introduced resolution number 264-593, which would increase the sales tax. Seconded by Legislator McCarthy.

During discussion of this resolution, Legislator Swiercznski referred to letters that have been written regarding sharing of this tax with the schools. Chairman Berger said he has not received any letters. Legislator Tuohey said she has only seen a letter from one town. Legislator Bennett suggested that after we get our own house in order, we give consideration to donating to certain agencies that have lost funding. Chairman Berger commented that giving it to the schools would be double taxation. Legislator McCarthy feels that the schools have not tried to curtail their spending. Legislator Bower commented that when Orleans County employees receive raises equal to school district employees, he will vote to give some of this tax to the schools. Legislator Billings said the school is a separate entity; the more you jumble the taxes the less it is known what anyone has; everyone should have their own source.

Legislator Bennett introduced a resolution which would adopt Local Law No. 3 of 1993, entitled A Local Law Banning Possession of Firearms and Other Dangerous Weapons in Orleans County Buildings. David Schubel said this local law has been enacted by other counties. Legislator Bower said he will oppose the resolution, not because he is against it; he only opposes the way it is written. There was discussion regarding the bid for solid waste. Legislator Tuohy said it should be rebid. Legislator Bower suggested that the County Attorney research this and come back to the Legislature in three weeks with a recommendation. After further discussion, it was decided to meet on June 30 at 8:00 a.m. to discuss this further.

Legislator Bennett brought up discussion regarding the county's policy on in rem proceedings. David Schubel gave the background on the current policy. Chairman Berger said he has sent a questionnaire to member counties of Intercounty asking if they do or do not allow only the oldest taxes to be paid and how many years the county waits to sell the in rem properties. He read the results of the survey. The County Attorney said there is no statutory authority to allow someone to pay the latest tax only; there needs to be a resolution. Legislator Swiercznski said he feels we should continue with our current policy. Legislator Bower said we have strayed from our policy. Legislator Bennett said anyone should have the right to come to the Legislature and ask for special permission to pay their oldest taxes only.

Chairman Berger mentioned a newspaper article on the legislators' desks, which brings up some points that were discussed when Mr. Gurley was here.

Chairman Berger suggested that Carri Blake attend the Conference Session on July 14 to review the Commissioner of Social Services position.

Legislator Bennett again brought up the subject of delinquent taxes. He asked if there will be a resolution for the next meeting that would reaffirm our policy and we will rescind special considerations that have been given. Chairman Berger said he does not know about rescinding special considerations given as this body had nothing to do with that. He suggested stating that we are reaffirming the established procedure since 1975, dealing with properties. David Schubel said he will meet with the proper committee and the Treasurer to draft the resolution.

Legislator Billings motioned to adjourn; seconded by Legislator Swiercznski. Meeting adjourned at 5:55. p.m.

Legislator Swiercznski, with second by Legislator Billings, moved to recess the meeting to July 21, 1993 at 9:00 a.m. Motion carried. 6 ayes; 1 nay, Legislator McCarthy; 0 absent.

Meeting recessed at 6:25 p.m.

RECONVENED LEGISLATURE MEETING
July 21, 1993

Chairman Berger reconvened the meeting at 9:05 a.m., with all Legislators in attendance

Donald Cooley, David Albanese and Richard Rice from Erdman and Anthony were present to discuss the construction of the fuel farm replacement. Mr.

Albanese distributed copies of a letter written by the County Attorney, indicating that Interface Services, Inc. of Syracuse, N.Y. is the low bidder and the project should be awarded to this company. Also distributed were copies of a letter from Richard Rice regarding the project, and recommending the awarding of the bid to Interface. Mr. Cooley spoke about the design of the system, as did Mr. Rice. Mr. Albanese said a letter has been written by the Village of Albion Fire Marshall indicating that the desired location of installation of the tanks is permissible, according to zoning laws. Mr. Cooley said that he has spoken with representatives of the school, which is the largest single user of the fuel farm, and it was indicated that they intend to continue using the fuel farm. Chairman Berger asked if anyone wanted to move on the bonding resolution. Legislator Swiercznski suggested waiting until the July 28 meeting. Agreed.

There was discussion regarding a letter received from the Clinton County Legislature in support of legislation which would grant counties the option to implement a hotel/motel occupancy tax without need for specific legislation from the State. Legislator Billings said sales tax increases should be treated this same way.

Chairman Berger mentioned a letter he received from Thomas Brachko from Los Angeles County asking for support of legislation which would declare English to be the official language of the United States and tax credit business people who teach their employees English. Chairman Berger said he will write to our State and Federal representatives in support of this legislation.

Legislator Swiercznski reintroduced the subject of the fuel farm. He said he has heard that Barclay and Fowler has expressed an interest in starting a fuel farm. Legislator Billings said this should be considered; if it could be used by all the groups that use ours, it would be a savings to the taxpayers. He said we would insist on a contract stating that the fuel would be sold for a set amount above the state bid per gallon price. Chairman Berger asked what would happen if the price was then raised at the end of the contract period. Legislator Billings said we could then look at constructing a fuel farm.

Chairman Berger spoke about the blacktopping of the canal towpath. He feels it will make it difficult to run on the path, and the hot sun will be shining on it; also there is a concern regarding motorized vehicles using the path.

Chairman Berger referred to a request from the Village

of Medina for the Legislature to write a letter to JC Penney, protesting the closing of the store in Medina. A letter will be written.

Mr. Dudek spoke about the Center for Government Research that the Legislature will be meeting with later this morning. He explained how the group looks into various facets of government, including administration, purchasing and other matters.

Legislator McCarthy moved to recess the meeting, with a second by Legislator Billings. Recessed subject to the call of the Chairman, at 10:00 a.m.

LEGISLATURE MEETING

July 28, 1993

Chairman Berger called the meeting to order at 4:45 p.m. After the pledge to the flag, the Clerk called the roll and all Legislators were present.

The Clerk presented the following communications: reply from Pat Wood of the Park Formation Committee to request for names of Committee members and consultants, copy of letter written by Mary Basinait to Director of Employer Services regarding hours worked for certain employees, letter from NYSAC acknowledging receipt of our resolution which adopted local law #3 of 1993.

Report of Standing Committees: Legislator Swiercznski attended his regular meetings, including Social Services, Nursing Home and Buildings and Grounds; also went to Rochester to a meeting regarding the Fuel Farm.

Legislator Bennett reported attendance at several committee meetings. He said he anticipates the need for a resolution which would add a part-time position to the Animal Control Officer budget, due to a lack of available response to complaints during vacation or sick time. Legislator Bennett asked about the county's compliance with the Indoor Clean Air Act. There was discussion regarding the break room at the County Administration Building; most employees want it to be a smoke free room. A problem is that the breakroom has to be walked through to gain entrance to the rest rooms.

Legislator Tuohey attended her regular meetings; also went to Rochester regarding the Fuel Farm. She also audited the Nursing Home's bills, and went to the meeting in Barre regarding the proposed landfill.

Legislator McCarthy attended his regular meetings. He said that at last night's Health Board meeting it was revealed that there is an increase in rabid raccoons. Legislator McCarthy said that the Health Board voted to change the fee schedule to a \$5.00 increase for profitable organizations and reduce the fee for non-profit organizations.

Legislator Billings attended his regular meetings.

Legislator Bower attended his regular meetings. He also was at the 4-H Fair and said it would be nice to write a letter to the towns in thanks for their contributions to this fair. Chairman Berger said he felt this should come from the sponsors of the fair, rather than the county. Legislator Tuohey thought a letter could be written by Cooperative Extension.

Chairman Berger attended Intercounty on July 15; also spent time at the Legislature Office. He went to the meeting in Rochester regarding the Fuel Farm. On July 19, Chairman Berger attended the Ridgeway Town Meeting. He went to North Tonawanda on July 20 to ride the tug, the Grand Erie, as a canal promotion to Middleport. On July 21, he attended the recessed Legislature Meeting at 9:00 am., then the Center for Governmental Research at 11:00; met with CID representatives at 12:00. On July 23, Chairman Berger discussed Emergency Management concerns with Richard Clark. He was at the Legislature Office the morning of July 27 at 8:00 a.m. and met with representatives regarding Fuel Farm at 9:00 a.m.; then attended HSA meeting in Buffalo. That evening Chairman Berger attended the 4-H Fair, where there was a party for Shirley Bright in honor of her 25th year with Cooperative Extension; also attended the Village of Medina meeting that evening and a radio meeting on July 28.

During open discussion, George Callard complained about burning of houses in the "Bridges" area. Mr. Callard said he called DEC and he was told that the Fire Coordinator authorized this. Chairman Berger said he was not aware of this and would check on it.

Meeting adjourned at 5:40 p.m.

LEGISLATURE MEETING
August 11, 1993

The meeting was called to order by Chairman Berger at 4:35 p.m.

After the pledge to the flag, the Clerk called the roll and all Legislators were present.

The Clerk presented the following communications: invitation to Orleans County Farm Bureau Family Picnic on August 22, Youth Board meeting notice for September 1, notice of Executive Committee Youth Board meeting on August 23, letter from Diane Keane regarding Ed Crawford's health situation, letter from Thomas Brachko thanking the Legislature for support of Home Rules regarding the Language of Government Act and Employer Tax Credit to Teach English, letter from Assemblyman Nesbitt regarding those same Home Rules, which he supports, letter from Senator Daly notifying of elevator service grant, copy of legal notice regarding Village of Medina's Local Law #5, copy of letter to Dick Clark from Gail Culver, Chair of the 4-H Fair Board, thanking Dick for the quick response to the emergency situation at the fair on July 27, letter to Chairman Berger from Wayne Hale expressing Mr. Hale's support of this Legislature's resolution opposing the paving of the canal towpath.

Reports of Standing Committees: Legislator McCarthy attended his regular committee meetings; also attended a meeting this morning regarding Self-Insurance.

Legislator Billings attended his regular meetings. He announced that there will be a meeting of the Agricultural and Farmland Protection Board on Monday. Legislator Billings spoke about having the Shelby Water District reviewed.

Legislator Bower attended his regular meetings.

Legislator Swiercznski attended his regular meetings. He also attended the funeral of Denton Clark, a past Deputy County Clerk.

Legislator Bennett attended his regular meetings.

Legislator Tuohey met with the Commissioner of Social Services and the Mental Health Director on August 4 to discuss expansion of the Cluster Home Program. She audited on August 10, and in reviewing the Physically Handicapped Children's program bills, discovered a large amount of money had been deducted by Chris Covell for questionable charges. This could be challenged by the providers, but it shows that Ms.

Covell is doing a very thorough job of checking these charges. Legislator Tuohey also attended her regular meetings.

Chairman Berger attended a GLOW meeting in Batavia on July 29; also the Team Meeting at the County Office Building. He also spent time at Highway on that date. On July 30, Chairman Berger went to the CID Open House in Chaffee; also toured the landfill area; visited the funeral home for the wife of "Jenks" Johnson who passed away. He spent time at the Soil & Water booth at the 4-H Fair on July 31. He attended the Village of Lyndonville meeting on August 2. On August 8 at 9:00 a.m., Chairman Berger attended an Alert Program at Point Breeze for certifying underwater scuba divers. On August 10, he attended a Soil and Water meeting and on August 11 attended Radio, Safety and Self-Insurance meetings.

Legislator Billings asked Legislator Bennett if the proposed landfill in Barre is in an Agricultural District. Legislator Bennett said he believes it is.

During the Privilege of the Floor portion of the meeting, Legislator Bower said he has been working with Mr. Dudek on health insurance costs for 1994. Legislator Bower said we should take a real close look at insurance costs prior to next year's contract.

Legislator Bower said he has been asked about passengers "going along for the ride" in County vehicles, with the driver to whom the car is assigned. The County Attorney said it is not appropriate for a non-employee to be riding in a county vehicle. He said it is not specifically addressed in the county handbook. Legislator Bower said he is referring to this situation during working hours. He said the liability really bothers him. He is not concerned with employees who are on call and have their families in the vehicles during time off. Legislator Swiercznski suggested giving 1099's at the end of the year. Legislator Bower said that is another issue. Chairman Berger suggested forming a committee to look into this. Legislator McCarthy volunteered to serve on this committee. Legislator Bower volunteered also; only after having no one else offer.

Chairman Berger spoke of a letter both he and Legislator Billings received from Ruth Samborski, asking for a Senior Citizens discount, presumably for solid waste pickup.

Legislator Bower spoke about Richard Harter, who has requested authorization for partial payment of taxes. He said Mr. Harter has always been very good in paying his taxes and due to hard times he is asking for an extension. Mr. Harter explained his request to the Legislature.

Legislator Billings moved to recess the meeting until September 1 at 8:00 a.m., seconded by Legislator Bower. Carried. Meeting recessed at 6:05 p.m.

RECESSED MEETING
September 1, 1993

The Chairman reconvened the meeting at 8:15 a.m.

Legislator Tuohey moved for an Executive Session, with a second from Legislator Billings to discuss upgrades for 1994. Carried.

After the Executive Session, there was discussion regarding the installation of a water line at the Emergency Management Center. Legislator Tuohey said we should not install it until we have a figure in writing from the Town of Albion. Legislator Bennett suggested writing a letter to the Town for a figure. Legislator McCarthy suggested that the Chairman write the letter.

Legislator Bower initiated discussion regarding a cellular phone in the Buildings and Grounds Department, due to Legislator Tuohey's questioning the phone bill when she audited. Legislator Bower explained that there is a monthly charge of \$25.00 for the phone, the balance of the bill was for actual calls. He pointed out that the phone is important for the use of the Work Experience Crew Leader as the County offices are not open during part of her shift, and it saves money to call the workers, rather than using gas to drive around the county. Legislator Bower commented that Home Relief is the only portion of the Social Services budget that has decreased since

1991.

Legislator McCarthy suggested that the Buildings and Grounds Superintendent, or his assistant, be sent to Codes Enforcement School. This would save the \$1800 - \$2000 per year that we are now spending for these services on a contractual basis. Legislator Bower agreed that this would be a good idea. Legislator Swiercznski said he will look into it.

Legislator Billings said Wayne Hale wants to participate in a Seaway Trail Sales Blitz from September 14 - September 17. Seaway Trail will bill Mr. Hale in 1994, since all the 1993 Matching Funds have been allocated. The trip would cost \$1300.00, half of which would be paid for with 1994 I Love NY funds. Legislator Billings moved to allow Mr. Hale to make the trip; second from Legislator McCarthy. A consensus was taken with Legislators Bennett, Swiercznski and Tuohey voting nay. Legislator Bennett commented that Mr. Hale spends too much time on Tourism. Legislator Billings said Tourism is very important, to which Legislator Bennett replied that maybe a Tourism Director should be hired.

Legislator Billings spoke about a company from Canada that wants to locate to Holley. The IDA will donate the property. This company puts together produce packages for restaurants. It would generate 50 - 75 jobs. The packing house would be located 600' back from Route 31. Legislator Billings asked if the County could help put in the driveway. Legislator Swiercznski suggested contacting the County Attorney regarding this.

Returning to the subject of the water line installation, Legislator Swiercznski said he spoke with the Albion Town Clerk, who indicated that there will be no charge for the curb stop if the work is done now, but there would be a charge later on. A meter pit box will be needed if it is over 150' from the line, at a cost of \$300.00. The charge for the water line going past is \$405.00 per year. The Town Clerk will check to see if the County would be exempt from this charge. Legislator Tuohey said she would like these figures in writing.

Legislator Tuohey asked the status of the corner lot in Medina that IDA gave to Mr. Baker. Legislator Billings said it was given to the IDA, who sold it to Bobak.

Legislator Swiercznski asked if the building that used to be Dale's Supermarket in Albion is a county-owned property. He said the roof is falling in and it is dangerous. Legislator Tuohey suggested checking with Bob Harrold.

Legislator Bower said management benefits should be discussed at the next Conference Session.

Legislator Bennett moved to adjourn; seconded by Legislator Billings. Carried. Meeting adjourned at 10:20 a.m.

RECONVENED LEGISLATURE MEETING
November 3, 1993

The Chairman reconvened the meeting at 9:00 a.m.

Legislator Swiercznski was absent.

Pat Wood addressed the Legislature regarding landfills. She distributed reports. Mrs. Wood referred to resolution number 131-293, which requested that DEC amend part 360 regulations, to prohibit landfills or expansion of landfills along the canal. Mrs. Wood went over her report, which includes portions of a lease agreement with OSL, notes from various publications, and a letter from the NYS Department of Health. Mrs. Wood said, in her opinion, the only thing right now standing between Orleans County and expansion of the landfill along the canal

is your Local Law number 2.

After Mrs. Wood's presentation, Legislator Tuohey moved; with a second from Legislator McCarthy, to go into Executive Session. Carried.

After the Executive Session, the meeting was reconvened at 9:40 a.m. David Schubel said he was contacted last year by the OSL bankruptcy trustee, requesting clarification as to the County's position in regard to the effect of Local Law number 2 of 1991. He explained that in 1990, the Town of Albion enacted chapter 49 of their local law which is to regulate landfills within the Town of Albion. In 1991, the County enacted Local Law number 2 which seeks to regulate the operation of landfills in the County. Mr. Schubel said that subsequently, counsel for Waste Management contacted him requesting clarification as to the County's position regarding the Local Law. Mr. Slater, the OSL trustee, and counsel for Waste Management, are of the opinion that the Town of Albion's Local Law would cramp the effects of the County's Local Law number 2. Mr. Schubel said he has had extensive discussions and correspondence with Waste Management. Mr. Schubel said this morning Waste Management is represented by counsel with a proposal. The OSL trustee and Waste Management are prepared to initiate an action. In order to avoid that, they have a proposal to present to the Legislature. Legislator Tuohey said, basically what was just said means that they will sue us. Mr. Schubel agreed that is a distinct possibility.

Legislator Bower said, when we enacted Local Law number 2, it did not say we were preventing the landfill, it just put some restrictions on it. One restriction was, it was 40 feet high, another restriction was on the amount of garbage that comes into the landfill. He said we wanted to make sure that someone could run a landfill and make a profit. Albion changed their law to supercede us. Now we are in a predicament as to where we stand.

Legislator Billings asked the County Attorney if it is correct that there is no way we can set limits on the amounts of garbage coming in. Mr. Schubel said that is his interpretation; it is limited by the DEC and Town permits.

Joseph Zagraniczny, attorney from Bond, Schoeneck & King, representing Waste Management, and Larry Bressman from Waste Management, spoke to the Legislature. Mr. Bressman said we are here to propose something for your consideration, to help resolve something in a manner in which I feel benefits everyone.

Mr. Zagranicznzy explained that Orleans County is a potential responsible party in the McKenna landfill; having been identified as a "PRP" by DEC. He said we are trying to move on with the resolution of a dispute that might arise between the County, Waste Management, or OSL. The settlement does not relate as to whether the Local Law passed by the County applies anywhere outside the Town of Albion. He said, Waste Management will defend, indemnify and hold the County harmless as a result of its actions as an operator of the McKenna landfill. Waste Management will agree to defend the municipalities located within the County, if and when they may be identified as a PRP by DEC. Mr. Zagranicznzy continued that the County has expended a substantial amount of attorneys fees already, in defending themselves as a PRP. In order to defray those costs, Waste Management will agree to pay \$20,000 upon entry of the judgement, \$10,000 by December 31, 1994, and an additional \$10,000 by December 31, 1995. The County will agree to cooperate in the defense of claims raised by the County. Waste Management may need records, testimony from county officials, to effectively defend the County as a PRP. Waste Management will also consent that the County should be an interested agency to return the landfill permit process to the Town of Albion. Waste Management will agree to work with the County regarding hauling the trucks over county roads if a permit is issued to Waste Management.

Legislator Bower said, regarding Local Law number 2, someone made a decision that you could not live within the restrictions. Mr. Bressman said he has reviewed the law. He is not disputing any of those conditions or requirements. He is saying that the County law, in our opinion, does not apply to the Town of Albion. As far as operating a facility, there are extensive costs involved in meeting DEC regulations. He said, we are a business and we have to be profitable. Legislator Bower said Waste Management will be getting two pyramids for the price of one. Mr. Bressman said, as far as the reverse pyramid, that is a requirement of the 360 regulations. He said we are looking to maximize our profits, but we have to be able to do that in conjunction with working with the community. Mr. Bressman said, we went to the Highway Superintendent and asked him for the truck routing he would recommend. We used those recommendations. He said, although your law doesn't apply within the Town of Albion, doesn't mean we're going to overlook it totally.

Legislator Tuohey said, the issues are whether we acknowledge that the Town of Albion law preempts our law, and accepting a settlement as far as your

carrying the banner for us regarding legal lawsuits with DEC, and also for any other municipalities. She said, you would have nothing to say about whether or not that landfill is expanded. Mr. Bressman said we would be an interested party and have input in that process. Mr. Zagraniczny agreed that Legislator Tuohey is right in that the focus is on the defense, as PRP's, of those municipalities within the county. Legislator Tuohey remarked that we have already spent \$65,000 for nothing, and see the potential for a couple of million dollars. Chairman Berger said he does not think any of us were aware, in the beginning, that the County law would not supercede anything else, but according to the government, Town law supercedes County law.

Mrs. Wood said she has learned from DEC that Waste Management has submitted a work order to remediate McKenna's landfill. She said as far as DEC is concerned, there will be no more investigation for anymore PRP's because Waste Management is, or will be, totally responsible for maintaining the landfill if this work order is permitted. Mrs. Wood said she understands that there are other towns that are PRP's, consequently, all the towns will benefit from this. Mr. Bressman said, what we submitted to the State is a work plan that Waste Management developed. It is being reviewed by DEC to see if it meets all their criteria. They will comment back on whether or not it is acceptable, then work will begin to investigate what is occurring at that facility. Mr. Zagraniczny said it is inaccurate that there will be no further investigations into PRP's. He said we have not obligated ourselves to do anything in terms of remediation of that landfill yet.

Chairman Berger said DEC closed the McKenna landfill. They wanted the county to have a sanitarian come in. We did not have one, so they had their people there. DEC said we are at fault, as operators of that landfill. DEC said it was capped wrong. They went above the height that is in our law. DEC had given a permit to OSL on how much they could truck and they were going 15 - 20% over that, but DEC said over 15% is okay. Chairman Berger said he has no faith in DEC. Legislator Tuohey said DEC might not be looking for more PRP's but that does not preclude all the other PRP's from looking for other people to get involved, because if there is a bigger pot, their responsibilities will shrink. She said she suspects that the PRP's will look to other municipalities to become interested parties and be responsible for the closing.

Chairman Berger mentioned that 28 postcards were received from residents of Orleans County, in thanks

for the stand against landfills in the past, and urging continued opposition to any future landfills or expansion.

Legislator Bower asked what Waste Management can do to relieve some of the burden on industries brought into this lawsuit. Mr. Bressman said, once this process moves further along and PRP's know their share of funding, there could be potential for Waste Management, if we have a facility, to help those businesses by offering a facility that would allow them to dispose of their waste; which would help that business.

Legislator Tuohey said part of the cost of the counties, villages and towns in this cleanup is going to come from tax dollars, which a good share of come from companies. They are going to be paying twice. She said, if we want to help them, I think we should go with this agreement.

Mr. Zagranicany said, if you are asking whether Waste Management would commit to defend and indemnify those corporations, the answer is we cannot. Legislator Bower said, if you would take the whole pile and make the lawsuit go away, I'll be happier than I am today.

Mr. Bressman said no matter what happens, we cannot turn this around. Legal action will be taken; there is nothing we can do. Chairman Berger interjected that this refers to legal action on DEC's end. Mr. Bressman said that is correct. Legislator Bower said if you cleaned this and relined it, they will certainly look more favorably toward the people they are bringing the lawsuit against. Mr. Bressman replied that we are doing just that. We have stepped forward and said let's move this process forward. There is no other PRP supporting us. We have to see what is occurring at that site. Moving forward will hopefully keep costs down for all PRP's. The work plan is to help come up with what will be the best way to remediate that site.

Legislator Tuohey said they are proceeding to investigate exactly what needs to be done at the landfill in order to cap it. If DEC says you have to do this and that, it could cost \$7 million. If they have a plan, saying this could be done for a certain amount of money, and it is accepted by DEC, this will be money saved.

Legislator Bower said he wants this County to rest assured that the pile will be moved and brought back to normal. He asked if DEC will go away, once it is moved over? Mr. Bressman said, unfortunately not. There will be extensive work continued to be done

there. Legislator Bower said, why should DEC force Orleans County to pay part of it when we told DEC it was leeching into the canal. They said it was not. Now that it is leeching into the canal, they want Orleans County to pay some of the money.

Mr. Bressman said he is in the same boat as the county, for something they didn't do, but he has to work with the DEC and comply with regulations.

Mrs. Wood said there are four different ways that the landfill can be remediated, including capping it, or doing something to correct the leeching. Mr. Bressman said that moving it might not be the best answer because there is known hazardous waste, which is a major concern to everyone. It is not easy to move it because you cannot take the hazardous waste and move it over here. It would have to go to a hazardous waste disposal facility. He said several issues have to be looked at, including the environment, health safety and economics.

Legislator Bennett said one of the things we forget is in 1990, when this board started working on this, we had alot of forethought that none of the towns came up with. As a past Supervisor, I felt that town law was first because they are the ones that, by the State Constitution, were given garbage problems to deal with. He said, I don't have any problem with the Town of Albion's law coming first, but I am concerned about Orleans County being a PRP. We could have the same problem 20 years from now with OSL. He said, if we make an agreement with you, how can you make me feel comfortable in knowing you're going to fight to prove that we're not a PRP. Mr. Zagraniczny replied that the County and Waste Management are in similar circumstances. We are both transporters of solid waste. He said, if it were a question of Waste Management spending so many dollars to get Orleans County out of it, the answer is maybe. Legislator Bennett said it would be best for the taxpayers in the long run to say that Orleans County cannot be named as a PRP.

Mr. Zagraniczny said even if you have an absolute court ruling that you are not responsible for the McKenna landfill, that does not mean that same ruling will be given on another landfill.

Mr. Bressman said he does not think the County or Waste Management will ever not be a PRP. They will be a PRP, but their portion of the fee has alot to do with the legal battle.

Legislator Bennett asked, before we settle anything, are we going to have any input as a legislative body

before you sign a consent order, or, once we pass this, are we done? Mr. Bressman said he cannot answer that question at this time. He said he would have to speak to the attorneys involved. You will definitely be well informed about how the case is moving forward.

At 10:40 a.m., Legislator Bennett called for a recess; seconded by Legislator Tuohey. Reconvened at 11:00 a.m.

Legislator Bower asked Mr. Bressman if we can reach an agreement that, if it comes to the point that all you have to do is move it to the capped area, that you would do it at no expense to the industries. Mr. Bressman replied that, due to the cost of the potential of moving that facility, at \$20 - \$30 million, I will say no, I will not fund the project. Mr. Bressman said, as far as moving the facility, DEC has come up with numbers of \$11.6 million for remediation. Their remediation at this point is looking at the 360 cap and monitoring.

Legislator Bower said, if you expand, there was a height restriction on that and because it was capped improperly, they allowed you to go up 20 feet, which will give you alot of profit. Legislator Bower said he wants some committment that something will be done for the industries. Mr. Bressman said he is willing to talk with those industries that are involved to see what kind of agreement we can come up with.

Legislator Billings objected to paragraph number seven in the settlement proposal. He felt that the statement, "WMNY shall agree to work with the County in routing the hauling trucks over County roads" should read "through Orleans County roads", rather than "over County roads"

Legislator Tuohey suggested, in agreement with Legislator Bennett, some wording that this resolution is not to be misconstrued that we approve of landfills, or additions to landfills, in the county. Legislator Bennett said that by our agreeing to the fact that Albion's law supercedes ours, it does not mean we are in favor of any landfill in the county.

Mr. Zagraniczny suggested stating that this resolution does not identify approval or disapproval of landfills in the County. Legislator Bennett agreed with that. After further discussion on the addition to the resolution, Legislator Tuohey presented the resolution:

RESOLUTION NO. 576-1193

By Legislator Tuohey, who moved the adoption.

Legislator Bennett requested a roll call vote:

Legislator Tuohey - yes.

Legislator Bennett - with much thought, yes.

Legislator Berger - yes, but with the feeling that there is no other choice.

Legislator Billings - yes.

Legislator Bower - yes, with a statement for the record, that everything possible will be done to alleviate any problems that will be forthcoming to the industries named in this lawsuit.

Legislator McCarthy - yes, with the same statement as Mr. Berger; that we have no other choice.

Chairman Berger read a resolution regarding the purchase of lapel pins. He asked Mr. Hale if the pins will be sold by the County. Mr. Hale replied that you cannot sell them if they are purchased with matching state funds. Legislator Tuohey asked why we keep using a packet boat. Chairman Berger replied because the canal is one of the main things that go through the county. Legislator Tuohey said she would rather use something that depicts the county, like the emblem or the county seal.

Legislator Bower asked the purpose of the pins. Mr. Hale said it is county pride. It will not be used promotionally. Some will be given to other

TO THE HONORABLE MEMBERS OF THE ORLEANS COUNTY LEGISLATURE
AND TAXPAYERS OF ORLEANS COUNTY:

Elected officials throughout the County are finding that there are no easy solutions to the financial crisis confronting their municipalities. The public continues to feel that pressure applied to the right places will encourage the governing body to continue to fund any program. The truth is that revenues cannot keep pace with the demand for services. This is a problem which cannot be denied, or postponed, or reconsidered at a later date -- it must be confronted immediately.

During the past several years it became increasingly clear that the Orleans County budget was caught between an upward trend in program expenses, such as public assistance and Medicaid, over which the County has little or no control, and a downward trend in state and federal funding. To meet this challenge, all departments in County government have been asked to develop a 1994 budget that would close this gap and pay its way, while preserving the most important assets and priority programs for which Orleans County is responsible.

The annual budget is the adopted plan of operation for the municipal unit -- this rather basic statement has far-reaching implications to those concerned with the operations of local governments. The purpose for local government is to adhere to the wishes and needs of the constituency by providing services to the extent of available resources. In these times of shrinking resources and expanding demands, it is imperative that the budget be both understandable and meaningful to all concerned parties.

In response to taxpayers, and in the interest of providing more detailed information to management and the County Legislature, we have recoded many of the specific items formerly included in "Other Contractual" in individual

Social Services and Social Services Programs continue to be the most difficult to control. We are facing a \$400,000 deficit in our 1993 Social Services Programs budget, largely due to the increased cost of Medicaid. The projection for 1994 is even more disturbing with an increase of \$1,128,767 (24.77%) for all Social Services costs...all mandated. This amount is approximately 38% of the total net County cost.

County Attorney's budget is increased by \$19,868 (38%). This increase is due to the costs of arbitration for Labor Counsel challenges concerning more grievances and Outside Counsel for anticipated fees connected with recovery of taxes on bankruptcy parcels. The Public Defender budget is increased by \$29,687 (24.94%) over 1993. This is a result of Assigned Counsel costs. Medical Examiners and Coroners budget provides an increase of \$20,000 (80%) from \$25,000 to \$45,000 in 1994. The 1993 budget is expected to be over projection by about \$25,000.

Buildings and Grounds Department personnel has shown initiative in taking appropriate economical care of public facilities under their supervision. This budget provides for projects to comply with a part of the Americans with Disabilities Act. This is a Federal law which must be taken into consideration.

Contribution to Soil and Water Conservation District is increased to \$42,441 from \$25,157 in 1993 (\$17,284 or 68.7%). County Extension was increased by \$36,000 (19%) to \$221,723.

Purchasing procedures under the direction of the Chief Administrative Officer have been streamlined to obtain the best value for purchased goods and services.

County Clerk revenues are expected to increase by \$39,300. This budget projects a decrease in County cost by \$14,469 (35.92%). Interest and Penalties on Real Property taxes is expected to increase by \$45,000, but due to an increase in volume of uncollectible property taxes, the budgetary provision for uncollected real property taxes is insufficient. We increased this reserve by \$30,000.

Employee benefits are projected to decrease by approximately \$18,121. This is due partially to the early retirement program and the resulting lower salaries and lower retirement costs for new employees, who are now required to pay 15% of their medical insurance for the first three years of employment. Salary increases were 3.5%, plus step where applicable, also in accordance with Union contracts. No upgrades were granted.

The Highway Department has made every effort to obtain the best return from the taxpayers investment in mobile and support equipment. The County Highway has rehabilitated or replaced more than twenty-nine bridges in the past six years, with 72% (21 bridges) of the total number handled by County crews. This department is responsible for the repair and maintenance of two hundred miles of County roads. The Highway budget, including the Machinery fund, is decreased by \$36,703 (2.32%) from the 1993 budget. In addition, the Legislature has elected to use \$150,000 of the Highway fund balance to further reduce the County cost of the Highway department budget, which is \$1,545,615 projected for 1994.

Changes in staffing are occurring -- Departmental requests for new personnel since fiscal year 1993 totalled 13 full time and 5 part time. This was approved to allow increased levels of services in certain departments, ie: Sheriff, Jail, Mental Health, Social Services, Planning and Highway. The additional employees in the Highway department are the crew leaders for the work program - sponsored by Social Services. This program was placed under the supervision of

Short Term Debt Service includes a \$200,000 principal payment and \$27,840 interest payment on the Radio Communications BAN. When the Bond Anticipation Note is replaced (probably in 1994) by a Serial Bond, this debt will be accounted for in Long Term Debt. In April 1993 we issued Revenue Anticipation Notes (RAN) in the amount of \$975,000 at an interest rate of 2.58% as a means of meeting cash flow needs during the fiscal year. We have paid close attention to debt management, endeavoring to control the growth of debt and minimizing the cost of obtaining funds. We have maintained our Moodys "A" rating, and have received better than average rates on borrowings as noted on Page 52 Debt Service.

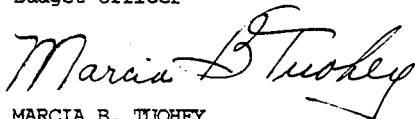

We have increased sales tax revenue by \$1,119,425 based on the 1% additional sales tax and the sales tax history for 1993.

We have made every effort to take a balanced approach while always keeping in mind the legitimate concerns of taxpayers, but also paying attention to the crucial needs of this community. Our goal in this, our 1994 budget, has been to make it more cost effective and responsible to the taxpayers without sacrificing quality.

Respectfully submitted,

Family Court Restitution	541.00	TOTAL:	\$54,254.70

PROGRAM: During 1993, the Probation Department served 439 clients through Family Court Intake and Justice Court Diversion. The decrease from 1992 was due to the mandated transfer of services for victims and perpetrators of Domestic Violence to the Department of Social Services. The number of Court investigations remained relatively the same at 522. There was a slight decrease in the supervision caseload to 489 and as in 1992, many were alcohol and drug related. The above was managed despite a reduction in overall staff from 19 to 18.

Much effort was expended by the department, through the Council of Probation Administrators, to defeat a move by the Division of Budget to reduce State Aid to Probation. The successful efforts resulted in a return of \$79,000 in State Aid to Orleans County.

PROGRAM:

The Orleans County Self-Insurance Plan is responsible for administration and management of Workers' Compensation benefits. Our participants include all county, town and village employees as well as all Orleans County Volunteer Firefighters. We are required to keep a Reserve Account and apportion costs between participants on an annual basis.

The State Legislature's decision to increase Workers' Compensation rates in 1990, combined with rapidly growing health care costs and fraudulent use of the system have forced costs out of control. NYSAC has become active in Workers' Compensation reform and we have volunteered to contribute to this campaign in any way possible.

With continued efforts to enforce safety, we hope to decrease the number and extent of accidents and injuries, therefore, control costs. We have also looked into rehabilitation of those disabled in order to get them back to work. Rehab works for the common good of both the claimant and employer and is a tool that is becoming widely used to reduce compensation costs.

Legislator Bower introduced a resolution authorizing the Director of Mental Health to create and fill a Case Manager position; seconded by Legislator Bennett. Legislator Bower said he does not like to see State employees working with County employees. He also said the current vacant Case Manager position would have to be filled with one of the top three candidates on the Civil Service list, which would eliminate a good worker if this new one is not created. He said he feels this should be a County position, and if the State cuts the funding, he will vote against continuing the position at that time. Legislator Tuohey said the Mental Health Director has indicated that the State and County employees work well together. She said her problem is that we take on State programs that are supposedly 100% funded, and down the road some of the funding stops. Even though it is 100% reimbursed, we still increase our appropriations. She said if this position is not created, it will not jeopardize any services. ault that the State has decided to put all these Mental Health clients back into the community. It doesn't matter whether we have a State or County employee, but it is our responsibility to provide a service to these people. Legislator Callard said as long as we are working within the budget and it is reimbursible, he does not have a problem, but if the funding was lost, he would vote against continuing the position at that time. Legislator Tuohey said she would like to table the resolution until we find out if one person on the Civil Service list is going to opt out, making the current County employee reachable. Chairman Billings said this could be tabled as a money matter. Mr. Schubel's opinion is that our Rules of Procedure state that it can be tabled as a money matter if an appropriation is called for. Resolution tabled.

The following resolution was then adopted:

Legislator Bower introduced a resolution authorizing unpaid leave for County employees; seconded by Legislator Tuohey. Mr. Schubel said the subject of this resolution is considered a subject for negotiation, under the Taylor Law. He said if the Legislature adopts the resolution without discussing it with the union, we would be exposing the County to an unlawful labor practice. Legislator Bower said this was discussed with the union before we adopted this resolution the first time, in prior years. Mr. Schubel said at that time there was a memorandum of agreement with the union. Mr. Schubel will take care of the legalities regarding this resolution. The following resolution was then adopted:

Mr. Dudek said the remedy for the Medina site was discussed at the Radio Committee meeting this morning. This involves about \$10,500.00 that E.F. Johnson wants for putting in the transmitter in the Public Safety building which would solve the problem there. Mr. Dudek said he has called Jay Murray who has indicated that E.F. Johnson is willing to split the cost with the County. He said they requested that the County commit that any other single site problems be solved under the county contract. If we send a letter to that effect, E.F. Johnson will give us a price that is half of what they originally quoted. Mr. Dudek said the feeling of the Radio Committee is if E.F. Johnson is willing to split the cost, then we are willing to pay the half. Legislator Phillips said that this came up again at the Finance Committee, and that Committee felt that they wanted Mr. Dudek to try once more to get E.F. Johnson down. Mr. Dudek replied that he has done all he can. He said if we are going to do it, we should get it started. Mr. Dudek said he will have a resolution on the next agenda regarding this.

Legislator Bennett moved to adjourn; seconded by Legislator Tuohey.

This is the sale at public auction of various parcels of real property which have been conveyed to the County of Orleans by final judgment under the so-called In Rem Tax Foreclosure Proceedings. This sale is ordered by various resolutions of the Orleans County Legislature and is in accordance with the appropriate provisions of the Real Property Tax Law.

This sale and sale of each and every parcel herein is upon the following terms:

1. All sales are made subject to confirmation and approval thereof by the Orleans County Legislature, which confirmation and approval will be requested at a special meeting of the said Legislature to be held directly following the auction. The resolution of confirmation will be

immediately available at the close of said meeting.

2. At least 25% of the final bid for each parcel shall be paid to the Clerk of these proceedings prior to the start of the special Legislature meeting above stated. Payment shall be in cash or by a good check upon a New York State financial institution.
3. The balance of the successful and accepted bid for each parcel shall be paid in cash or by certified check to the Orleans County Treasurer, Central Hall, 34 East Park Street, Albion, New York, 14411, no later than Friday, May 27, 1994 between 9:00 a.m. and 5:00 p.m. unless extended by the Legislature.
4. The County of Orleans is not required to send any notice to the purchaser or purchasers, and if the purchaser or purchasers neglect to pay the balance due and call at the Orleans County Treasurer's Office at the above stated time the successful bid shall at 5:00 p.m. on Friday, May 27, 1994, be deemed conclusively to be abandoned, the deposit retained by the County as liquidation damages and the parcel in question disposed of in such manner as the County determines without notice to or benefit to the defaulting purchaser.
5. Upon payment of the balance, as above provided, the County of Orleans will deliver a standard form quitclaim tax deed which shall describe the parcel in the same manner as in the In Rem Foreclosure deed to the County and which shall quitclaim all of the right, title and interest of the County of Orleans in and to the said parcel. The said deed shall name as grantee the successful confirmed bidder and shall state the amount of the successful confirmed bid. The County of Orleans will execute no warranties concerning the parcel or the title thereto and will not deliver or be responsible for abstracts, title searches, surveys, maps or other documents concerning the parcel whatsoever.
6. The deed shall contain a condition and covenant that Orleans County shall in no event be or become liable for any defect in the title so conveyed for any cause whatsoever, or that no claim or demand of any nature shall ever be made against said Orleans County arising from such sale or conveyance or any proceedings leading thereto.
7. All parcels are sold subject to the 1994 Town and County tax and the relieved 1993-94 school tax.

The amount of such unpaid tax shall be announced by the auctioneer prior to the auction of each parcel. The unpaid taxes must be paid prior to May 27, 1994 to avoid further penalty, and prior to the filing of the deed.

8. The purchaser upon payment of the final bid and the unpaid taxes shall also deliver to the Treasurer a check for all recording fees due to the County Clerk for filing the deed. Such fees will be \$47.00 on each purchase, plus an additional \$2.00 for every \$500.00 or part thereof when the purchase price is \$500.00 or more. Legislator Radzinski introduced a resolution setting up new budget monies in Sheriff accounts; seconded by Legislator Tuohey. Legislator Callard said this resolution was discussed in the Administration and Finance Committee meeting, and in passing this resolution it might establish a cumbersome precedent. Mrs. Heard said she would like to see this handled by a Budget Adjustment Request Form only, rather than also needing a resolution, as this situation could occur frequently. Legislator Tuohey said she would like to see a resolution each time a donation is received so we can see where the donations are coming from, and for how much. After further discussion, Chairman Billings suggested continuing the requirement of a resolution and if it becomes cumbersome we will look at it again. The following resolutions were then adopted:

Legislator Tuohey presented a resolution authorizing the purchase of a bi-directional amplifier, with the cost to be shared by E.F. Johnson. Seconded by Legislator Phillips. Legislator Bower said he thought that all equipment needed to make the radio system work would be paid for by E.F. Johnson. Mr. Dudek explained that the guarantee is that 95% of the locations of 700 points would be covered; not 100%. There is only one building in Medina that has this problem; in the rest of Medina the coverage is acceptable. He further explained that there is nothing in the contract saying that every location in Orleans County will work with the radio system.

Legislator Tuohey said E. F. Johnson has spent money on problem areas in Holley and this is the first time they have asked us to share in any cost. The following resolution was then adopted:

RESOLUTION NO. 96-294

RESOLUTION AUTHORIZING PURCHASE OF BI-DIRECTIONAL AMPLIFIER

WHEREAS, the County and E.F. Johnson have agreed on the equipment necessary to correct radio problems in the Medina Public Safety building, and

Legislator Tuohey presented a resolution creating a Managed Care Plan Coordinator position in the Department of Social Services; seconded by Legislator Callard. Legislator Bennett commented that there is a resolution on this agenda supporting the State takeover of Medicaid. Legislator Tuohey replied that this would have nothing to do with the State takeover; the County would still be responsible for this service; this position would be for the purpose of implementing what the State has told us to do as far as Medicaid. Legislator Phillips commented that if we do not do it, the State will step in and do it. Legislator Tuohey agreed that the State would still tell us we would have to hire someone for this position. The following resolution was then adopted:

Legislator Tuohey presented a resolution supporting the State takeover of Medicaid; seconded by Legislator Phillips. Legislator Tuohey said this is to help promote the entire takeover of the Medicaid program by the State. She said the Senate is proposing a Medicaid alternative to this. It would cap the Medicaid expenditures at the level of the last two quarters of 1993 and the first two quarters of 1994; beyond that the State would assume the cost. Legislator Tuohey said, right now, NYSAC is asking all Counties to pass this resolution. Legislator Bower commented that there might be some savings in Orleans County, but the State taking over will not mean less cost to the New York State taxpayers. Chairman Billings remarked that he does not foresee a change in the administration of the Medicaid program; the State will just pick up the financing. Carol Blake said, the State takeover as we read it now is not to pick up the administration, but

that is an option they are considering thinking about. Legislator Tuohey said if the State has to start doing it, maybe they will do something about costs. Mr. Dudek commented that the County's share of Medicaid costs for last year, necessitated raising an extra million dollars of property taxes. Legislator Bennett said that in our message to the State we should let them know that there needs to be some changes in the policy, as far as the eligibility. Mrs. Blake said the State chooses to provide most of the optional services that are offered. The following resolutions were then adopted:

RESOLUTION NO. 115-294

RESOLUTION SUPPORTING THE STATE TAKEOVER OF MEDICAID

WHEREAS, New York is one of the few states in the country which mandates that counties pay a local Medicaid share, which now costs localities \$3.3 billion a year with a growth factor of 14% per annum; and

WHEREAS, this Medicaid mandate requires localities to dedicate an increasingly larger portion of their local property taxes for the State Medicaid program, thereby imposing a back-breaking burden on homeowners, agriculture and business, and

WHEREAS, it is imperative that localities obtain immediate relief from this unbridled growth in the Medicaid program by enactment of effective Medicaid cost containment, and

WHEREAS, each phase of a State takeover of the local Medicaid program should include a hold harmless clause to ensure that each locality benefits from the State takeover plan, and

WHEREAS, more than half of the 1994 Orleans County property tax levy was a result of Medicaid costs, and

WHEREAS, counties no longer have the fiscal resources to support the local Medicaid share by reliance on continual property tax increases and sales tax increases, and a State takeover of Medicaid would enable counties to administer other necessary local programs in an equitable and productive fashion, and

WHEREAS, the New York State Association of Counties has made Medicaid takeover its NUMBER ONE MANDATE RELIEF PRIORITY FOR 1994, and is advocating that Medicaid takeover be enacted into law concurrent with the adoption of the 1994-95 State budget, and

WHEREAS, the New York State Association of Counties now wishes to express its support for State Medicaid takeover in accordance with the above recitals and such State takeover be enacted into law on or before March 31, 1994, now, therefore, be it

RESOLVED, that the New York State Association of Counties supports the phase-in of a State takeover of the Medicaid program, and be it

Mrs. Heard replied that our first payment for March was about \$120,000 more than last March; part of which is accountable to the increase in our percentage of sales tax. Vice-Chairman Tuohey mentioned that our 1% increase is only effective until 1995. If we plan on extending it, we have to get started. David Schubel indicated that we should have a resolution on the March 23 agenda regarding this.

RESOLUTION URGING THE STATE LEGISLATURE TO AMEND THE CIVIL SERVICE LAW IN RELATION TO APPOINTMENTS

WHEREAS, the New York State Constitution requires appointments and promotions in the Civil Service of the State of New York and all political subdivisions thereof be made according to merit and fitness by competitive examination as much as practicable; and

Legislator Bower introduced a resolution to abolish the collection of fees by the Weights and Measures Department; seconded by Legislator Bennett. Legislator Bower said he feels these fees are wrong and it is a great detriment to small businesses within the County. He added that we are asking these small businesses to collect our sales tax for us. He said he hopes the resolution will not be tabled. Legislator Callard questioned the practicality of eliminating the fees now, since this was adopted in December of last year and the revenues to be gained from the fees were planned as far as the budget. Legislator Radzinski said he agrees with Legislator Bower. He said he has a small business; we collect sales tax and if it's not in on time we're penalized; everything is fees and fees. Legislator Phillips said he agrees it is probably a burden on the small businesses, but if we rescind this fee, we will be opening up the door to every department that charges fees. Legislator Callard said it certainly can be part of the budget making process. He said it seems inconsistent and impractical, four months after the creation of the fees, to move on this at this time. Legislator Tuohey said, for the reason that I would like to see this at least tried, and if the majority feels they should be done away with, the time to do it is during the budget time. She then motioned to postpone this indefinitely; seconded by Legislator Phillips. This motion was voted on, with Legislators Bennett, Bower and Radzinski voting nay. Motion carried.

Legislator Bower moved to recess the meeting until Saturday morning after the auction of County-owned properties; seconded by Legislator Bennett. Carried.

Meeting recessed at 5:00 p.m.

LEGISLATURE MEETING
April 30, 1994

The meeting was reconvened by the Chairman at 11:25 a.m., after the County property auction. All Legislators were present.

Legislator Tuohey initiated discussion regarding the Morton Fire District and the use of the 800 Mhz radio system. She said it was discussed at the Radio meeting on Wednesday morning, regarding keeping Morton on line. The Radio Committee had recommended some time ago that as long as the license is in effect, we will keep them and apply to have them relicensed. The feeling is that the license renewal will not be approved, since we have 800 Mhz; then if the fire service wants to do something about it, it will be their responsibility. Legislator Bennett asked if dispatch is going to keep monitoring it. There was lengthy discussion regarding this. Legislator Tuohey said Morton opted out of the radio system, so why should we keep monitoring them? She said Morton signed a contract to purchase equipment for approximately \$4,000; the equipment was delivered, then a letter was received saying they did not want to stay in the system because of the money not being in their budget. Mr. Dudek mentioned that Morton purchased radios on Monroe County's frequency, after indicating that they did not want the Orleans County radios. Legislator Bennett said this Board has never been asked what should be monitored in the dispatch room, and we are being used as scapegoats. Legislator Bower asked what the Radio Committee says. Legislator Bennett said he thinks everyone on that committee does not want to monitor, except Sheriff Green and Dick Clark. Legislator Bower suggested not monitoring unless we see a problem. Legislator Tuohey said the object of getting into this was to do away with all this; why go back into monitoring it? All Legislators agreed not to continue monitoring.

Legislator Radzinski said the County will rent space from the District Attorney's private office in Medina until we find something in Albion. The rent will be \$500.00 per month, as we have been paying in the past. Chairman Billings said an agreement should be written. It was agreed that David Schubel will contact Mr. Cardone and instruct him to prepare an agreement. Legislator Tuohey said rent should not be paid until the agreement is signed. She also objected to paying \$500.00 per month for the particular space that will be rented from the District Attorney.

Chairman Billings commented that the rent paid will also include the use of Mr. Cardone's office equipment.

Don Metzger attended the meeting to discuss the Clinic Coordinator position in Mental Health. There was discussion regarding the salary paid for comparable positions in other counties. Chairman Billings asked if overtime would have to be paid. Mr. Dudek said we don't really know. He said it's pretty much department heads that are exempt, and even for them there could be some argument. He said he cannot say if this is going to be exempt. Mr. Metzger said he has been honoring requests for "comp" time for the Clinic Director and Deputy Director. Legislator Tuohey commented that every time we say money will solve the problem, it causes another one down the road. A person previously in the position was paid more because she could write prescriptions. Now she is gone, the position still pays the same, and the person going in cannot write prescriptions; we are now paying the person previously in the position on a contractual basis to write prescriptions.

Mr. Metzger said the original ad for the position only stated that the individual be a mental health professional with three years experience. Chairman Billings said he feels that the consensus is that Mr. Metzger readvertise with the lowest possible qualifications listed. Legislator Bower said then Mr. Metzger will have to go a period of time with no one in the position. Legislator Bower said he could live with Grade 5, Step 3 for the position, but he would not fight against it if there were four votes for something else. Legislator Tuohey asked Mr. Metzger if the job description for the Clinic Coordinator is the same as it was before it included writing prescriptions. Mr. Metzger said it is. Legislator Tuohey questioned why, if it was \$26,000 then, why is it now \$37,000. Mr. Metzger replied that the person in the position when it paid \$26,000 left in large part because of the money. Three staff members under her supervision were making more than she was. Legislator Phillips said he would like it clarified as to how many hours per week the job will involve, and whether or not overtime will be paid. Mr. Dudek asked Mr. Metzger if he would expect overtime to be involved in the Clinic Coordinator position. Mr. Metzger said no. Legislator Bower commented that the position should not involve comp time. He said it is self defeating for management positions. Mr. Dudek suggested having the job require a 37.5 hour week. Chairman Billings asked Mr. Metzger if the job could use a 40-hour week. Mr. Metzger said yes. Legislator Bennett said it bothers him that we would create a job at that salary, not including overtime. He said he

would agree with Grade 5, Step 3, or the higher step with a 40-hour week. Legislator Bower said the Health Committee recommends a 40-hour week Grade 5, Step 6, or Grade 5, Step 3 at 35 hours per week. Legislator Phillips again asked about comp time. Legislator Bower said he does not feel there should be comp time, but the County Attorney or Mr. Dudek will have to look into it. Mr. Dudek commented that a 40-hour week would require overtime pay, not comp time. Legislator Bower said, then the position will have no overtime authorized. Legislator Bower moved to present a resolution to create the Clinic Coordinator position, at either Grade 5, Step 6, with a 40-hour week, or Grade 5, Step 3, working a 35-hour week. Seconded by Legislator Bennett. Legislator Tuohey asked why the grade should be increased if it is the same job that was filled previously at Grade 4. Legislator Bower said the main reason is we cannot find anyone to take the job at that salary. The following resolutions were then adopted:

RESOLUTION NO. 217-494

RESOLUTION CREATING POSITION IN MENTAL HEALTH DEPARTMENT

RESOLVED, that this Legislature authorizes the creation of a Clinic Coordinator position in the Mental Health Department to be scheduled at either Grade 5, Step 6, working a 40 hour week, or Grade 5, Step 3, working a 35 hour week, and be it

FURTHER RESOLVED, that the Director of Mental Health is authorized to fill this vacant position.

There was lengthy discussion regarding the fact that a household that has been identified as using "sharps" can no longer put any garbage in plastic bags. It all must be contained in refuse containers. Legislator Tuohey said she has a problem with that. Mr. Dudek explained that C.I.D. has to protect their employees. Mr. Dudek spoke about possible solid waste program changes that have been requested by CID. They include reducing the pickup of white goods to once a month, rather than every week, and eliminating oil containers from recyclables, because they are often not properly cleaned out. These containers would then be put out with garbage. Mr. Dudek said he does not think the changes should be made in the middle of the year, because it's hard to get the message to everybody. Regarding the white goods, CID has to have a truck out every day for the pickup of these items. Mr. Dudek said we will be negotiating for the renewal of the contract.

Legislator Bower introduced a resolution to adopt the Vehicle Use Policy; seconded by Legislator Tuohey. Legislator Tuohey proposed an amendment to the resolution, which would add the inclusion of the Deputy Highway Superintendent and the Animal Control Officer to the 24-hour use assignment category. Legislator Bower seconded the motion. Legislator Tuohey explained that the 24-hour use criteria includes the requirements of the employee being on 24-hour call, and only being able to respond to the crisis with the use of a specially equipped County vehicle. She said both requirements apply to these employees.

Legislator Bower referred to a letter he received from Sheriff Green requesting that the Investigators be included in the 24-hour use assignment.

Legislator Phillips questioned why the "DARE" car is registered to Orleans Ford, but covered by county insurance. Mr. Dudek said he was told by the Sheriff that the car was actually donated to the County. This caused discussion regarding the driver of this car and where he fits into the Policy. Chairman Billings instructed Legislator Radzinski to have the Public Safety Committee look into this.

Legislator Tuohey's proposed amendment was then voted on and carried. The following resolutions were then adopted:

LEGISLATURE MEETING
July 27, 1994

Chairman Billings called the meeting to order at 5:00 p.m. After the pledge to the flag, the Clerk called the roll and all Legislators were present.

The Clerk presented the following communications: copy of letter written by Assemblywoman Hoffman to Commissioner of NYS Parks in support of the acquisition of Fancher Campus, letter of acknowledgment and support from Senator Daly regarding the resolution urging change in the Civil Service Law, notice from N.Y.S. Thruway Authority of a meeting on August 9 addressing the Canal Recreationway Plan, notice of July 28 Planning Board meeting and notice of August 3 Youth Board meeting and August 17 Youth Board picnic.

During open discussion, Legislator Bower said the Mental Health Director would like permission to spend between \$800.00 - \$1,000.00 to have an architect look at space utilization for student interns and other uses. He said they would like to be ready to go by September 1. Legislator Bower said that right now it appears that the basement space would best be used for administration. Legislator Tuohey suggested also considering future use. Legislator Bower also said he has been getting prices on equipment that could be used for the garden at Emergency Management. It could also be used by Buildings and Grounds.

Legislator Radzinski said he has been asked about the possibility of the Legislature funding Babe Ruth. Legislator Tuohey said United Way gives to those organizations. She said if we donate to one, we would have to do it for all these organizations.

Mr. Dudek said that in two weeks there will be a meeting with the department heads to present the budget guidelines. He said that last year we took half of the total cost of Worker's Compensation and

apportioned it on the basis of claims, which resulted in a charge to the Nursing Home of \$102,000.00. The actual claims for the Nursing Home were \$149,000.00. Legislator Tuohey suggested that this would be a good time to go with what they actually spent. It is a reimbursable item, and, with a new Administrator coming on board shortly, it should be realized what the actual costs are, and be dealt with. Legislator Bower agreed. Mr. Dudek suggested that there be a resolution for this, at the next meeting. Legislator Bower suggested looking at other departments that are on the high side and possibly do some adjusting. Chairman Billings said a resolution will be on the next agenda, charging the Nursing Home for actual losses.

The following resolutions were adopted:

He felt that the Legislature should understand what the impact is before we have a public hearing. Legislator Radzinski presented a resolution to approve an application for a seatbelt grant; seconded by Legislator Tuohey. Legislator Bower commented on an article in the newspaper which indicated that previous Chairman Frank Berger, who had signed this grant application without the benefit of a resolution, said it got by the Clerk, the CAO; and Legislators Bennett and Bower who were on the Committee. Legislator Bower said that he was not on that committee, and he does not think Legislator Bennett ever saw the application. He also said he does not think we are asking Stan and the Clerk to review everything, especially if they never really see it. Legislator Bower also mentioned an editorial titled "Tabled Actions Serve No Purpose." He said that title could not be more wrong because by tabling this action we have brought more attention to wearing seatbelts than everything else that has been done. Legislator Bower questioned whether or not there are written seatbelt policies in force, as indicated in the grant application. He said other goals and objectives in the application include visiting 10 primary and secondary schools and 10 service, civic and senior citizen organizations. Legislator Bower checked

with Medina Schools and the Medina Senior Citizens Center and found that there has not been any educational seminar on seatbelts in either place. He said that \$4,356 of the \$10,000 grant has been spent to date. He said 316 tickets have been written, with the state receiving \$25.00 per ticket, or \$7,900, with the state getting an additional \$15.00 per fine; or another \$4,740. During seatbelt road checks, 410 additional tickets were written for various other offenses; all generating surcharges to be paid to the state.

Legislator Radzinski commented that if the seatbelt saves one life, the approximate \$50,000 going to the state in surcharges is nothing.

Legislator Phillips said the state required that all participating agencies have a policy. The grant was applied for by the County to be distributed among all the participating agencies. Legislator Bower said the grant was applied for to be used by Orleans County; then part of it was given to municipalities, which cannot be done until it comes before this Legislature. Legislator Tuohey agreed that the procedure was wrong, but had to agree with Legislator Radzinski that until you get stopped for not wearing a seatbelt, you really don't pay attention to the law. At this point, Legislator Bower moved to amend the resolution to indicate that any remaining funds from this grant will be used for educational purposes; seconded by Legislator Phillips. Legislator Phillips said his understanding is that the grant money is gone, with the exception of \$2,000 that was set aside for Holley. Legislator Bower said that according to the Sheriff there is about \$5600.00 remaining to be used. Legislator Bennett said education was immense when the New York State seatbelt law came into effect. Legislator Phillips said the state is paid a surcharge for every ticket issued, not only for seatbelts, but other offenses also. Chairman Billings said a fine should be set for a wrongdoing; there should not be surcharges to make money for the state. The amendment was then voted on and failed, with Legislators Billings and Bower voting aye. The original resolution was then voted on:

Legislator Bower introduced a resolution authorizing the filling of a vacant Deputy Director position in Mental Health; seconded by Legislator Bennett. Legislator Tuohey said she thought we were going to be given an organizational chart to go over. Legislator Bower said the organizational chart was requested because we did not have the resignation of the Deputy Director; which we later received. Legislator Tuohey asked Don Metzger what the person in this position would be doing. Mr. Metzger said the primary responsibilities start with supervision of the internal billing operation, supervision of Account Clerk Typists, alot of planning that was not included in the original job duties statement, filling in during Director's absence, needs assessment surveys and alot of other related things. Mr. Dudek asked if this is the original job description. Mr. Metzger said it is not. Mr. Dudek said he had seen a job description for this position before Mr. Elmore left, which took away many of the managerial functions, which might not allow us to keep the position as a managerial position. Mr. Metzger said there was a subsequent job duties statement submitted to Personnel, which added duties. After further discussion, Legislator Tuohey tabled the resolution until we see an organizational chart and a job duties statement. Chairman Billings said he will allow this as it is a money matter. The following resolutions were then adopted:

Legislator Radzinski presented a resolution approving the 1994-95 grant application for seatbelt enforcement; seconded by Legislator Callard. Legislator Bower asked how much of the grant would be used for helping the state with its tax problem, and how much will be used for educational purposes in the schools as set forth in the criteria. Chairman Billings asked if this grant money is shared. Legislator Bower said it is shared by Medina and Albion. Legislator Bower moved to amend the resolution to indicate that 50% of the grant money be used for educational purposes; seconded by Legislator Tuohey. Legislator Callard said he cannot believe people are uneducated about the seatbelt law. The amendment was voted on, passing with 6 ayes. Legislator Bennett voted nay. The amended resolution was then voted on as follows:

He said we have taken a good look at this. He has spent alot of time at the Mental Health Department. Legislator Tuohey said the person in the position previously spent alot of time out of the office at meetings, which was part of the problem. She said if the new person does what the title says, okay, rather than spending so much time at community meetings. Mr. Dudek commented that when this was discussed at the last meeting, Civil Service had not approved that title, but they have since approved it. The purpose of the meeting was to discuss repair to the roof at the County Administration Building.

Legislator Bennett explained that the roof started leaking last Friday. He said he agrees with Legislator Radzinski that he would rather see a peaked roof, but, because of the time frame and the emergency of the situation, by the time we hire somebody to find out if the sides could hold the stress, we will be in the middle of the winter and we will have a bunch of unhappy employees.

Legislator Tuohey asked why we didn't know about this sooner? Legislator Bennett said that, according to the Buildings and Grounds Superintendent, the roof started leaking six weeks ago and they put a patch on it. Legislator Bennett said the first he heard about it was last Wednesday. Mr. Dudek said people at the building said it has been leaking continuously since the patch was put on.

Legislator Phillips said we just started a capital program and this repair is not in there. He asked the County Attorney's opinion on the repair being done without going through the bidding process. Mr. Schubel replied that under General Municipal Law, section 103, depending on the expense of the project, competitive bidding or RFP's is the preferred method for proceeding, however, there is a statutory exception that allows a legislative body to determine that an emergency situation exists and the bidding requirement can be suspended. Mr. Schubel said it is his opinion that the leak was severe enough on Friday, necessitating the moving of furniture and computers, to make the situation fall in the parameters of the statutory exception. Chairman Billings said he would like to see the bidding process, but this could be the

last four days that the work can be done.

Legislator Phillips again referred to this not being in the capital plan, and asked what the next surprise is. Legislator Radzinski asked if there is anything else that we don't know about. Legislator Bennett said the roof on the County Clerk's building leaks. It's been taken out of the budget twice because we didn't have money to fix it. Chairman Billings said it is in the capital plan.

Legislator Tuohey asked Legislator Bennett to address the issue of why we will not just patch the roof. Legislator Bennett said Ron Tower and Lee Woolston said you can put the patch on the bottom and it would probably hold going up half way at half the price, but a year from now or whenever you decide to put the rest of it on, you'll be walking and wheeling all over your patch and you will take away from the goodness of the roof you just put on. It is better to put it on as one unit and hopefully get another twenty years out of it.

Legislator Bennett moved to approve the repair of the roof, to be done by Lee's Roofing Service, at a cost of \$46,840.00, to be paid from contingency. Seconded by Legislator Tuohey.

Legislator Bennett said, if we knew about this and planned for it, he would be in favor of a pitched roof.

Chairman Billings asked Susan Heard the balance in contingency. She said it is \$174,338.00.

Legislator Radzinski said next time something major like this comes along, we should be notified. Legislator Tuohey said we all agree with that.

Legislator Radzinski asked about the jail roof - was that bid? Legislator Bennett said yes, and it is the same type of roof. Lee Woolston was the only bidder that could meet the specs.

The following resolution was adopted:

Legislator Tuohey presented a resolution authorizing payment of capital project claims; seconded by Legislator Phillips. Legislator Bennett questioned the logistics of building a flat roof between the existing Nursing Home and the addition. Mr. Dudek said it is due to the extra expense of connecting into the other roof, and the difficulty of having it look right, because there's already a part that juts out and it was too complicated to break that roof line. Legislator Bennett suggested to Mr. Dudek that he bring this up at the next Nursing Home meeting. Legislator Tuohey said she does not think it can be changed now. Legislator Bennett said he thinks it could and if we wanted to, this would be the time. Legislator Bennett said he has heard different Building Code Enforcement Officers question why we were doing a flat roof. Chairman Billings said the cost is the reason. Mr. Dudek will ask at the next Nursing Home meeting what it would cost to change to a pitched roof. The following resolutions were then adopted:

Moved, Bower; second, Phillips.
Adopted. 7 ayes; 0 nays; 0 absent.

David Schubel suggested that the resolution approving the agreement with the Monroe County Medical Examiner's office remain tabled. Legislator Radzinski, who originally moved the resolution, agreed.

Legislator Tuohey moved to remove the resolution approving the 1995 STOP-DWI plan from the table; seconded by Legislator Phillips. Chairman Billings said the plan shows a certain amount of new money and a

certain amount from last year and I don't know where they are making up the difference. He said the plan shows expenses of about \$99,000, but only shows new income of about \$40,000, and with a \$20,000 revenue, it doesn't come up to that. Legislator Phillips said we used to wait until later in the year to see how much money comes from the state. Chairman Billings said we cannot spend money that we don't have from the state yet. He said the plan shows an amount projected from the state, with the rest to be taken from the reserve. He said he understood that was county reserve. Legislator Tuohey said there are funds available from last year in the amount of \$41,606. Legislator Bower added that the expected amount for 1995 is \$57,396. These two figures add up to the total budget. Legislator Phillips said he would still like to wait until after the next DWI meeting to adopt the resolution. Legislator Phillips moved to re-table the resolution; seconded by Legislator Radzinski. All in favor.

Legislator Phillips moved to add a resolution to the agenda to proclaim October 3 - October 8, 1994 as National 4-H week; seconded by Legislator Callard. Carried. The following resolution was then adopted:

RESOLUTION NO. 461-994

RESOLVED, that this Legislature recognizes the hard work and accomplishments of both the volunteers and youth involved in the 4-H Program, and PROCLAIMS the week of October 3, 1994 through October 8, 1994 as NATIONAL 4-H WEEK.

Moved, Phillips. UNANIMOUS SECOND.
Adopted. 7 ayes; 0 nays; 0 absent.

Legislator Bower spoke about a phone call he received from Judge Lake, who said that Sheriff Green had sent him a letter regarding our weekend work program. It said that a Judge cannot sentence anyone to a weekend work detail, other than a class A misdemeanor and

certain felons. That would exclude all violations and all class B misdemeanors, which is basically all of our weekend sentences. Legislator Phillips said Judge Lake has also spoken to him about that. He said the Judges are just going to put them in jail now, rather than use them in the work program. Legislator Bower said he does not know why the state is getting involved in this. Chairman Billings said we have to go to our legislators and get this turned around.

Chairman Billings mentioned a letter sent to the Legislature by Dr. Mruczek regarding eye exams for Civil Service employees. He said this is being looked into.

He also spoke about a letter received from the Albion School District regarding a program requiring high school students to perform community service, and requesting legislative representation at the meeting regarding this. He said the letter was addressed To Whom It May Concern, rather than to any individuals. Chairman Billings said that Legislator Bennett is the closest legislative representative for the school. Legislator Bennett said he would be glad to attend the meeting. Chairman Billings suggested that Legislator Radzinski also attend. Legislator Bennett explained that all the students starting high school this year are required to perform 30 hours of community service before graduating. Legislator Phillips said apparently all the school districts are going to start this program.

Legislator Bennett moved to adjourn; seconded by Legislator Radzinski. Adjourned at 5:20 p.m.

LEGISLATURE MEETING

Adopted. 6 ayes; 0 nays; 1 absent, Legislator Billings.

Legislator Bower tabled a resolution approving the creation and filling of a part-time Case Manager in the Health Department, until he can obtain more information.

The following resolutions were then adopted:

RESOLUTION NO. 468-1094

RESOLUTION APPROVING THE CREATION AND FILLING OF POSITION IN THE HEALTH DEPARTMENT

RESOLVED, that this Legislature approves the creation and filling of a permanent part-time, Registered Nurse position in the Health Department, to provide services for the Infant-Child Health Assessment Program, through the Physically Handicapped Children's Program; said position to be set at Grade 13 of the CSEA Salary Schedule; with reimbursement through a State Grant at 100%, and be it

Legislator Bower presented a resolution approving the creation and filling of a Clerk position in the Health Department. Legislator Tuohey asked if the State grant will run out. She suggested including a "sunset clause" in the resolutions. Mr. Lucyszyn said there is no set date. Legislator Bennett said he would like to see a "sunset" included in these resolutions creating

positions to be funded with State grant money. Legislator Bower agreed.

The following resolution was then adopted:

RESOLUTION NO. 469-1094

RESOLUTION APPROVING THE CREATION AND FILLING OF POSITION IN THE COUNTY HEALTH DEPARTMENT

RESOLVED, that this Legislature approves the creation and filling of a permanent full-time, Clerk position in the County Health Department, to provide clerical services for the Immunization and Lead Poisoning Prevention Programs; said position to be set at Grade 3 of the CSEA salary schedule; reimbursement through State Program Grants at 100%, and be it

FURTHER RESOLVED, that the continuing approval of this position is contingent upon the continuation of State funding.

Moved, Bower; second, Radzinski.

Adopted. 6 ayes; 0 nays; 1 absent, Legislator Billings.

Legislator Bower moved to remove the resolution creating the part-time Case Manager position from the table, since Mr. Lucyszyn is present to answer questions; seconded by Legislator Phillips. All in favor. The resolution was then moved by Legislator Bower, with a second from Legislator Radzinski. Legislator Bower asked Mr. Lucyszyn what the advantage is to the County doing this case managing work, rather than ARC. Mr. Lucyszyn replied that the advantage is hundreds of thousands of dollars for the County. He said there is currently a waiting list of 25 children, at \$214.00 per month. There are over 50 children now that would like to come back home, and more being born every year. He explained that the position is only 40% right now because it is only for five children, but the time will increase as more children are taken on. Legislator Bower commented that the PHCP Coordinator was hired to come in and do this job, and now we are putting alot of people under her. Will there come a time when we will need another person to oversee some of these employees? He said the more people that are put under a manager, the more responsibility there is and the more time consuming that job becomes, to a point that she can't handle it. Mr. Lucyszyn said when she comes to me sometime in the future and says it is beyond her, then I might have to come and ask for someone else. Mr. Dudek asked if ARC will do this if we don't. Mr. Lucyszyn replied that right now ARC is the only organization in the county that can provide

case management services. Mr. Dudek said there is an alternative to the County doing this. Mr. Lucyszyn said yes, if the county wants to pass the dollars on to ARC. Mr. Dudek asked if the County will have a choice as far as how many kids we take into the program. Mr. Lucyszyn said it depends upon our staff, to handle the caseload. Mr. Dudek asked if there will be other services involved, in addition to the case management. Mr. Lucyszyn replied that the homes of the children being released from West Seneca have to be remodeled. Legislator Bennett said it is probably good that the County is in the middle of this, rather than having ARC paying a Case Manager to steer people directly into their program. This way, we will be in between and I think there is an advantage in that to both the families and the taxpayers. Mr. Lucyszyn said ARC will be providing the services for the education and physical therapy that is needed. The following resolutions were then adopted:

RESOLUTION NO. 470-1094

RESOLUTION APPROVING THE CREATION AND FILLING OF POSITION IN THE HEALTH DEPARTMENT

RESOLVED, that this Legislature approves the creation and filling of a permanent, part-time (40% FTE) Case Manager position in the Health Department, to provide Case Management Services for children with developmental disabilities, through West Seneca Developmental Disabilities Services Office; said position to be set at Grade 11 of the CSEA Salary Schedule; with reimbursement at \$214 per month, per child, from the NYS Office of Mental Retardation and Developmental Disabilities.

RESOLVED, that the Orleans County Legislature does hereby authorize the Chairman to execute such documents as are deemed necessary to effect the 1995 County Comprehensive Youth Services Plan with the NYS Division for Youth.

Moved, Phillips; second, Radzinski.

Legislator Phillips withdrew a resolution approving amendments to the Youth Board by-laws. Legislator Bennett asked Legislator Phillips if this is so he can try to get a Legislator on the board as a voting member. Legislator Phillips said that the Director of the Youth Bureau has indicated that the State will not allow a Legislator to be a voting member of this board. Legislator Phillips introduced a resolution authorizing a grant agreement with the U.S. Environmental Protection Agency; seconded by Legislator Bennett. David Schubel referred to a letter he received from the Wyoming County Attorney regarding the legal implications of this project, due to the handling of hazardous waste materials. Mr. Schubel said the only area where some liability might arise if this program becomes successfully implemented is, if the chemicals collected would be incinerated rather than taken to a landfill, as anticipated, they become ash, which goes to the landfill. Once the ash goes to the landfill there is a certain responsibility that passes to GLOW, because even though we did not actually take the chemical, we are the sponsoring agency. If there was any remediation at the landfill that the ash was deposited, there might be the potential of being named a "PRP". He said there is no way to eliminate that risk. They have done everything possible to minimize it as much as possible. Mr. Schubel said the merit of the program outweighs the small risk. Legislator Bennett said he thought there was a ruling that municipalities could not be named as a PRP. Mr. Schubel said that was a lower court decision and it is being appealed. He said it is impossible to have complete immunity from being named, but he thinks GLOW is taking every possible precaution. Legislator Tuohey asked Mr. Schubel if he advises the Legislature to vote against the resolution. Mr. Schubel said no.

The following resolutions were then adopted:

RESOLUTION NO. 485-1094

RESOLUTION AUTHORIZING GRANT AGREEMENT WITH U.S. ENVIRONMENTAL PROTECTION AGENCY

Legislator Radzinski presented a resolution requesting
the State Legislature to enact legislation allowing an
increase in the 911 telephone surcharge; seconded by
Legislator Tuohey. Legislator Tuohey questioned
whether the resolution is saying that we have the
option of doing this; not that we are doing it. She is
against an increase. Legislator Radzinski said yes, it
is just allowing the option. Legislator Tuohey said it
should not be increased to any more than the cost of
covering the 911 service. Mr. Dudek pointed out that
the resolution would allow the surcharge to be used for
such things as operation costs, including training,
personnel and education. Chairman Billings said he
cannot support increasing the surcharge to \$1.00.
Legislator Phillips said there are other counties that
are only charging 20 or 25 cents for the surcharge.

After further discussion, Legislator Tuohey withdrew her second to the resolution. The resolution failed for lack of a second.

Legislator Radzinski presented a resolution supporting legislation to share the cellular 911 surcharge between New York State and county 911 systems; seconded by Legislator Bennett. Legislator Bennett explained that cellular telephone subscribers are currently paying a surcharge of .70 cents per month and the state keeps that money. Legislator Phillips said that right now the cellular calls are being answered by the New York State police, and this would cause the county to have to answer more calls. Legislator Bennett said if the State police are available, they answer the call, otherwise they call us. He said the number of calls taken by the county will not increase. Legislator Phillips said the Sheriff has indicated that the adoption of this resolution would provide about \$1500.00 per month to the county. Legislator Tuohey commented that if the Sheriff did not think his department could handle the calls, she assumes this resolution would not be on the agenda. Legislator Radzinski agreed. Legislator Bennett moved to table the resolution. He suggested scheduling Sheriff Green for the November 9 Conference Session to further explain the resolution. Resolution tabled.

Legislator Radzinski tabled a resolution in support of legislation to extend the enhanced 911 surcharge to wireless telephone services.

The following resolutions were then adopted:

RESOLUTION NO. 493-1094

Prior to the presentation of the next resolution, Legislator Phillips said the Town of Albion has decided to join with the other municipalities for solid waste and recycling services under the county agreement. Mr. Dudek said he told Don Brace that any municipality joining now would have to pay a slightly higher cost. Mr. Brace said Albion would not be interested if that is the case. Mr. Dudek then spoke with a

representative from BFI who agreed to allow Albion to come in at the same price if it is finalized by November 15. Mr. Dudek said he would like to see the resolution include a statement to the effect that the bid award will be contingent on allowing Albion to join at the same cost as other municipalities, if they join by November 15.

Legislator Bennett moved to remove a resolution from the table supporting legislation to share the 911 surcharge between the State and County; seconded by Legislator Phillips. Legislator Bower objected to additional charges, which, in his view, are taxes. Legislator Bennett said we are not imposing a new tax. This is something that is already on our cellular phones. We are asking for a share on a local basis. We are providing the service and the State is keeping the money. Legislator Phillips said he is paying the .70 cents now. It is going to the State and we are doing the work. If we are answering the calls, we are entitled to that money. Chairman Billings suggested that the resolution be amended to recommend that the surcharge be dropped. Legislator Bower moved for this amendment. Legislator Tuohey said if we get even half of this it will help decrease the property taxes. She said if she thought the State would drop the surcharge, she would vote with Legislator Bower, but they are not going to drop it. Legislator Callard seconded the motion to amend the resolution to recommend that the State drop the surcharge. Legislator Bennett said he pays this .70 cent surcharge on his cellular phone, but if he does not want to pay it, he does not have to have the phone. He has control over whether or not he pays it, but if it is put back on his property taxes, he has no control. Therefore, Legislator Bennett opposes the amendment. Legislator Tuohey suggested an alternate proposal - either do away with the surcharge or give us half of it. The amendment was voted on and failed, with Legislators Bennett, Phillips, Radzinski and Tuohey voting nay. The original resolution was then presented:

RESOLUTION NO. 540-1194

RESOLUTION SUPPORTING LEGISLATION TO SHARE, ON AN EQUAL BASIS, THE CELLULAR 911 SURCHARGE BETWEEN THE STATE OF NEW YORK AND COUNTY 911 SYSTEMS, BASED ON THE NUMBER OF SUBSCRIBERS WITHIN A COUNTY

WHEREAS, current New York State Law imposes a \$.70 cent per month 911 surcharge on all cellular telephone subscribers in the State, and

WHEREAS, many cellular telephone service providers

route 911 calls directly to County 911 public service answering points (PSAPs), and

WHEREAS a majority of all cellular 911 calls are answered, relayed or transferred to county 911 PSAPs, and

WHEREAS, answering dispatching and responding to this increasing volume of cellular 911 calls results in significant expenses to counties, and

WHEREAS, sharing the state cellular 911 surcharge would compensate counties for these expenses, be it

RESOLVED, that the Orleans County Legislature supports legislation to share, on an equal basis, the cellular 911 surcharge between the State of New York and county 911 systems, based upon the number of subscribers within a county, and be it

FURTHER RESOLVED, that copies of this resolution be forwarded to Governor Cuomo, New York State representatives and the New York State Association of Counties.

Moved, Radzinski; second, Bennett.

Adopted. 6 ayes; 1 nay, Legislator Bower; 0 absent.

Legislator Radzinski moved to remove a resolution from the table in support of legislation to extend the 911 surcharge to wireless telephone services; seconded by Legislator Bennett. Legislator Tuohey said she agrees with Legislator Bower on this one - if there is no fee now, why start one? Legislator Bennett said they should treat all the phones alike. Legislator Radzinski agreed with Legislator Bennett that if you don't put the 35 cents on these phones everybody will use cordless phones rather than regular ones. Chairman Billings said according to the Sheriff we will be collecting \$5400.00 a month and it is costing about \$1700.00. Legislator Tuohey said if the increase in the line charge comes into being, the money should be put into a capital account because there is going to have to be some upgrading. The following resolution was then adopted:

RESOLUTION NO. 541-1194

RESOLUTION IN SUPPORT OF LEGISLATION TO EXTEND THE ENHANCED 911 SURCHARGE TO WIRELESS TELEPHONE SERVICES

WHEREAS, article 6 of County Law entitles counties to impose a telephone access line surcharge of up to \$.35 cents per month, per line to provide for the costs of obtaining and maintaining the equipment and

telephone services associated with providing an Enhanced 911 Emergency Service, and

WHEREAS, new telephone "wireless" technology such as Personal Communication Services (PCS), Enhanced Specialized Mobile Radio and other forms of wireless telephone service will reduce the number of telephone lines subject to the surcharge and reduce the revenue required to support Enhanced 911 systems, and

WHEREAS, these new mobile wireless telephone systems will require county 911 public service answering points (PSAPs) to install sophisticated location determining technology and add new expenses in order to answer and process these 911 calls, and

WHEREAS, an equivalent 911 surcharge on each wireless telephone or other radio based unit's identifying number will replace lost 911 surcharge revenue and provide and maintain the new equipment required to answer these wireless 911 calls and determine the caller's location, be it

RESOLVED, that the Orleans County Legislature supports legislation extending the Enhanced 911 surcharge to wireless services, and be it

FURTHER RESOLVED, that copies of this resolution be forwarded to Governor Cuomo, members of the New York State Legislature, and the New York State Association of Counties.

Moved, Radzinski; second, Bennett.

Chairman Billings objected to the addition of a resolution to the agenda to authorize the Highway Superintendent to advertise for bids for equipment. LEGISLATURE MEETING
November 23, 1994

The meeting was called to order by the Chairman at 4:25 p.m.

After the pledge to the flag, the Clerk called the roll. All Legislators were present with the exception of Legislator Bower.

The Clerk presented the following communications: resolution adopted by Westchester County supporting the candidacy of Katherine Carsky as third Vice-President of NACO, letter from Daniel and Susan Bellor requesting to purchase a county-owned trolley right of way property.

During open discussion, Daniel Bellor addressed the Legislature regarding his interest in purchasing a county-owned "trolley right-of-way property", in order to restore the property to the way it was. Mr. Bellor presented the County Attorney with a communication from

his attorney.

Douglas Heath, attorney representing David and Ellen Robinson, also spoke regarding this property. Mr. Heath explained that he had spoken with David Schubel in September, expressing interest on behalf of the Robinsons to purchase this trolley right of way land. Mr. Heath explained that his interest in this is to attempt to resolve other issues involving the Robinson land which will only be resolved right now in litigation. Mr. Heath said he is here to try to save the Robinsons tens of thousands of dollars of litigation expense. He said Mr. Schubel had informed him that this body had requested that we contact the adjoining land owners to see if they had any interest in the property. They have now put in this request to the County to purchase the property. Mr. Heath said his interest in the property is only to acquire a right of passage from the Robinson parcel to Allens Bridge Road. Mr. Heath distributed copies of a letter he had written to Chairman Billings, indicating that his clients agree that the Bellors have equal right to purchase the property in question, but they ask that the right to pass across this strip of land be reserved for them, otherwise their property could become landlocked. Mr. Heath mentioned a resolution previously adopted by the Legislature which indicates that any conveyances of these trolley beds would be only to the adjoining landowners. Mr. and Mrs. Robinson are adjoining landowners since their property adjoins that right of way.

Ellen Robinson said we do not want to change anything. The right of way might never even have to be driven across. She explained that there is a driveway on the canal, but they cannot get a legal right of way to drive on it, therefore, they need a legal right of way to get to the road.

The following resolutions were adopted:

Legislator Bennett presented a resolution approving an agreement for Quality Assurance Services for the Health

Department; seconded by Legislator Radzinski. Legislator Tuohey asked about insurance. Mr. Lucyszyn said the individual has insurance. Mr. Dudek said the person who will provide the services is presently a county employee. Chairman Billings mentioned a possible union problem, regarding hiring employees on a contractual basis. Legislator Tuohey asked when the work could be done. Mr. Lucyszyn said on Saturdays and lunch hours. He said there are not that many patients that she has to review, but we have to be on record with the State that someone did it. Legislator Bennett asked how she will know that quality care is provided, as stated in the agreement. Mr. Lucyszyn replied that this is simply an audit of the patients' charts. Legislator Tuohey asked if the head of the department this person works for is aware of this and has given approval. Mr. Lucyszyn said he does not know if approval is necessary since it will be outside of working hours. Legislator Radzinski asked how many hours a week would be involved. Legislator Radzinski presented a resolution approving agreements between Probation and Data Entry Operators; seconded by Legislator Phillips. David Schubel said the agreements had been submitted to him for his approval, as independent contractor agreements. He said to construe these people as independent contractors would be carving out a very aggressive definition of an independent contractor. He said this is routine work of a clerical nature. He suggested that the union could challenge this; it is work that employees do. Legislator Tuohey said other departments have recruited help from Job Development. Mr. Dudek said he spoke with Dean Holland about this. He tried to encourage him to hire a temporary person to do the work. Mr. Holland wants to have the money for this encumbered for next year. Legislator Bennett said he

has no problem with the cost, but agrees that this is something that should be done by an employee. Legislator Radzinski withdrew the resolution.

The following resolutions were then adopted:

Legislator Callard presented a resolution authorizing the County Clerk to submit a grant application; seconded by Legislator Tuohey. Legislator Callard explained that the State is changing from a retention fee reimbursement to a contract reimbursement system,

which will be effective by 1996. In order to bridge the gap between the two, it is encouraging counties to apply for grant money which can be used for equipment or renovations. Legislator Callard said the grant has to be applied for by December 28. If we are approved, we still have the option of whether or not to use the money for that purpose. In exchange for the grant money, we will have to do some additional enforcement work for the State. There are some things that are done in the urban areas that are not done in Orleans County, that we will be accepting responsibility for within Orleans County.

The following resolutions were then adopted:

RESOLUTION NO. 566-1194

RESOLUTION AUTHORIZING COUNTY CLERK TO SUBMIT GRANT APPLICATION

WHEREAS, the request for such grant must be received at NYSDMV by December 28, 1994, with awards to be announced in February, 1995 to those counties which are evaluated and chosen to receive this grant, be it

RESOLVED, that this Legislature authorizes the Orleans County Clerk to submit a grant application; with said grant being presented to the Legislature for acceptance or denial, if grant is awarded.

Moved, Callard; second, Tuohy.

Adopted. 6 ayes; 0 nays; 1 absent, Legislator Bower.

Legislator Bennett presented a resolution authorizing payment for a backhoe rental; seconded by Legislator Phillips. Legislator Bennett said the portion being paid by the Nursing Home is for electrical work done before the addition was started. Legislator Phillips asked about the resolution authorizing the purchase of the backhoe, after the rental is paid. Chairman Billings said he thought it would be combined into one resolution. Mr. Dudek explained that purchases over \$10,000.00 must be bid or purchased under State bid.

The rental payment will be deducted from the value of the backhoe, so the next resolution will authorize the purchase for less than \$10,000.00.

The following resolutions were then adopted:

Legislator Callard presented a report regarding installment payments of property taxes. He surveyed counties throughout the state, with 56 responding. Eight of those counties do have an installment plan, four of which expressed some negativism, and two indicated they are just beginning this program. The remaining two expressed no opinion. Legislator Callard said that he and David Schubel attended a "Supervisors" meeting, and Susan Heard attended a Town Clerks' Association meeting to discuss this subject. It was

found that there is nearly no support on the town level for the adoption of such a plan at this time. Legislator Callard said the Finance Committee feels that the concept is a good one and it could provide some relief to some people, but until this concept is tested and proven more on a statewide basis, it could also cause cash flow ramifications, necessitating additional borrowings and subsequent additional interest expenses. Legislator Callard said the Finance Committee will continue to follow the progress of the installment payment of taxes in the other eight counties.

Legislator Callard said the Legislature encourages all Orleans County residents to attend the Public Hearing on the 1995 budget, which will be held on November 30 at 7:30 p.m.

Legislator Bennett moved to recess the meeting until December 2 at 4:00 p.m.; second by Legislator Tuohey. Carried.

Meeting recessed at 5:15 p.m.

RECESSED MEETING
December 2, 1994

The meeting was reconvened at 4:00 p.m. Legislator Callard presented the resolution to adopt the amended 1995 preliminary budget as the Orleans County budget for 1995. This was seconded by Legislator Tuohey. Legislator Callard indicated that this final budget includes 21 changes from the preliminary budget, leaving a final tax levy of \$7,821,925.00, which represents a reduction of \$55,243.00 from the preliminary budget. This results in a 7.937 average tax rate, which is 6.2 cents per thousand less than that proposed in the preliminary budget.

Stanley Dudek, Budget Officer, reviewed the proposed adjustments to the preliminary budget, indicating the reasons for the increases and decreases in both appropriations and revenues.

Chairman Billings thanked David Callard, Stanley Dudek and Susan Heard for the work they put into the 1995 budget.

A roll call vote was taken and the following resolution was adopted:

RESOLUTION NO. 608-1294

RESOLUTION ADOPTING EQUAL EMPLOYMENT AND

ANTI-DISCRIMINATION POLICY

RESOLVED, that this Legislature adopts the following "Orleans County Equal Employment and Anti-Discrimination Policy" as presented to this Legislature on December 14, 1994, as the official policy:

ORLEANS COUNTY EQUAL EMPLOYMENT AND ANTI-DISCRIMINATION POLICY

This resolution hereby reaffirms the official policy of Orleans County to employ positive business and personnel practices designed to insure the full realization of equal employment opportunities without regard to gender, age, national origin, race, color, veteran status, marital status, religion, or disability.

The resolution shall be posted and promulgated to all County employees.

POLICY

Orleans County is committed to ensuring its employees are able to work with dignity and in a professional atmosphere. Orleans County believes in the dignity of the individual and recognizes an individual's right to equal employment. Orleans County has a long standing policy of protecting and safeguarding the rights and opportunities of all people to seek, obtain, and hold employment without subjugation to discrimination of any kind in the workplace.

Orleans County expects all employees and supervisory personnel to accomplish their work in a businesslike and professional manner with a concern for the well-being of their co-workers. Any harassment of employees by fellow employees, albeit supervisor or co-worker, is not permitted regardless of the working relationship. Orleans County will take all steps necessary to prevent and stop the occurrence of harassment and discrimination in the workplace including, but not limited to, gender, age, national origin, race, color, veteran status, marital status, religion, or disability. All employees, including, but not limited to: elected officials, department heads, and supervisory personnel are responsible for ensuring a work environment free from harassment and discrimination.

This policy applies to all Orleans County employees and all personnel in a contractual relationship with the County. Depending on the extent of the County's exercise of control, this policy may be applied to the conduct of non-County employees with respect to

harassment of County employees in the workplace.

It is unlawful and prohibited to:

- (1) fail to or refuse to hire or to discharge any individual, or otherwise to discriminate against any individual with respect to his compensation, terms, conditions, or privileges of employment, because of such individual's race, color, age, religion, sex, or national origin; or
- (2) limit, segregate, or classify employees or applicants for employment in any way which would deprive or tend to deprive any individual of employment opportunities or otherwise adversely affect an individual's status as an employee, because of such individual's race, color, age, religion, sex, or national origin.

Harassment on the basis of an individual's race, color, age, religion, sex, or national origin is against the law. An ethnic slur or other verbal or physical conduct because of an individual's race, color, age, religion, sex, or national origin constitutes harassment if such creates an intimidating, hostile or offensive working environment, unreasonably interferes with work performance or negatively affects an individual's employment opportunities.

Harassment includes, but is not limited to: "off color" stories or jokes concerning one of the protected statutes listed above; displaying lewd or indecent pictures or other material depicting a particular protected status, denial of employment, promotion, or benefits because an individual is in a protected class.

Supervisors must take immediate and appropriate corrective action when instances of harassment or discrimination come to their attention, to assure compliance with this policy.

Any employee who is found to have committed an act of harassment or discrimination will be subject to disciplinary action including, but not limited to termination. It is also a violation of this policy to retaliate against any employee or other individual who has complained of harassment or discrimination. Intimidation, coercion, threats, reprisal or other forms of discrimination directed at an individual who has complained of harassment or discrimination is prohibited. Any employee who is found to have committed an act of retaliation will be subject to disciplinary action, including, but not limited to, termination.

APPROACHES TO COMPLAINT RESOLUTION

Employees or other individuals who feel aggrieved because of harassment or discrimination have several ways to make their concerns known:

1. Aggrieved persons, who feel comfortable doing so, should directly inform the person engaging in the harassment that such conduct or communication is offensive and must stop.
2. All aggrieved individuals who do not wish to communicate directly with the person whose conduct or communication is offensive, or if direct communication with the offending party has been unavailing, shall contact the offending party's immediate supervisor or Director of Personnel.
3. Aggrieved persons alleging harassment or discrimination by anyone with supervisory authority or alleging failure of supervisor to take immediate action on the individual's complaint shall contact the Director of Personnel.

RESOLUTION NO. 609-1294

RESOLUTION ADOPTING ORLEANS COUNTY SHERIFF'S DEPARTMENT SEXUAL HARASSMENT POLICY

RESOLVED, that this Legislature adopts the following "Orleans County Sheriff's Department Sexual Harassment Policy" as presented to this Legislature on December 14, 1994:

ORLEANS COUNTY SHERIFF'S DEPARTMENT SEXUAL HARASSMENT POLICY

BACKGROUND

The Orleans County Sheriff's Department (the "Department") believes in the dignity of the individual and recognizes the rights of all people to equal opportunities. In this regard, the Department has a policy of protecting and safeguarding the rights and opportunities of all people to seek, obtain, and hold employment without subjugation to sexual harassment or discrimination of any kind in the workplace.

POLICY

As with discrimination involving race, sex, color,

religion, age, sexual orientation, disability, and national origin, the Department also prohibits sex discrimination, including sexual harassment of its employees in any form. The Department will take all steps necessary to prevent and stop the occurrence of sexual harassment in the workplace.

1. This policy applies to all Department employees and all personnel in a contractual relationship with the Department. Depending on the extent of the Department's exercise of control, this policy may be applied to the conduct of non-Department employees with respect to sexual harassment of Department employees in the workplace.
2. This sexual harassment policy includes, but is not limited to, inappropriate forms of behavior described by the Equal Employment Opportunity Commission which are detailed below under the Definition of Sexual Harassment.
3. All elected officials and supervisory personnel are responsible for ensuring a work environment free from unsolicited, unwelcome and intimidating sexual overtures. Supervisors must take immediate and appropriate corrective action, when instances of sexual harassment come to their attention, to assure compliance with this policy.
4. Any employee who is found to have committed an act of sexual harassment may be subject to disciplinary action as provided by Department operating procedures and may include termination. Additionally, retaliation against any employee who has filed a sex discrimination or sexual harassment complaint is illegal and may result in disciplinary action.

Intimidation, coercion, threats, reprisal or discrimination against any employee for complaining in good faith about sexual harassment, as described in this policy, is prohibited.

5. All employees are responsible for promoting a workplace environment free of sexual harassment. Employees are to be encouraged to report violations of this policy in accordance with the procedure outlined below under Procedure for Reporting an Instance of Sexual Harassment.

All department employees are expected to take the time to familiarize themselves with this

policy and its procedures.

6. Nothing in this policy should be construed as in any way limiting an employee's right to utilize the grievance procedure, or to file a complaint with the NYS Division of Human Rights or the US Equal Employment Opportunity Commission, or to take any legal action which they may deem advisable.

DEFINITION OF SEXUAL HARASSMENT

1. Unwelcome sexual advances, requests for sexual favors, and other verbal or physical conduct of a sexual nature constitute sexual harassment when:

A. Submission to such conduct is made either explicitly or implicitly a term or condition of an individual's employment;

- OR -

B. Submission to or rejection of such conduct by an individual is used as the basis for employment decisions, such as promotion, transfer, or termination, affecting such individual;

- OR -

C. Such conduct has the purpose or effect of unreasonably interfering with an individual's work performance or creating an intimidating, hostile or offensive working environment.

2. Sexual harassment refers to behavior that is not welcome, that is personally offensive, and that fails to respect the rights of others. Specific forms of behavior that the Department considers sexual harassment include, but are not limited to, the following:

A. VERBAL

Abusive verbal language related to an employee's sex, including sexual innuendoes, slurs, suggestive or derogatory or insulting comments or sounds, whistling, jokes of a sexual nature, sexual propositions, and threats.

Sexually oriented comments about an employee's body that are unwelcome and/or unreasonably interfere with an employee's work performance or create an intimidating, hostile or offensive working environment.

Any sexual advance that is unwelcome or any demand for sexual favors.

B. Non-Verbal

Abusive written language, showing or displaying pornographic or sexually explicit objects or pictures, graphic commentaries, leering, or obscene gestures in the workplace, such that it unreasonably interferes with an employee's work performance or creates an intimidating, hostile or offensive working environment.

C. Physical

Unwelcome physical contact, including touching, petting, pinching, coerced sexual intercourse, assault, or persistent brushing up against a person's body.

PROCEDURE FOR REPORTING AN INSTANCE OF SEXUAL HARASSMENT

Step 1: An employee who is subjected to sexual harassment shall put the perpetrator "on notice" by advising the individual that such conduct is unwelcome; interferes with the employees work performance; and/or creates an intimidating, hostile or offensive working environment.

In the event that the subjected employee chooses to discuss the matter with a third party employee, such third party employee will remind the subjected employee of the need to put the perpetrator "on notice".

Step 2: If, after having put the perpetrator "on notice", the employee is subjected to an additional incident of sexual harassment by the same perpetrator, or where the original conduct results in a negative employment decision affecting the employee, that employee shall then report the matter to a member of the Sexual Harassment Investigatory Committee.

The Sexual Harassment Investigatory Committee shall consist of two members, one of whom shall be appointed by the Sheriff and the other to be designated by the employee union. The designating body shall immediately communicate its respective selection to all Department employees. Each appointed member shall serve an indefinite term.

The Sexual Harassment Investigatory Committee will handle all complaints in a timely and confidential manner. In no event will information concerning a

complaint be released by the Investigatory Committee to third parties or to anyone not directly involved in the investigation.

Investigation of a complaint will normally include conferring with the parties involved and any named or apparent witnesses; however, no action will be taken without the concurrence of the employee, and confidentiality will be maintained throughout the investigatory process. The particular facts of the allegation will be examined individually, with a review of the nature of the behavior and the context in which the incident occurred.

The Investigatory Committee shall advise the perpetrator that he or she has been charged with an instance of sexual harassment. Employees who believe they have been unjustly charged with sexual harassment will be afforded every opportunity to offer and present information in their defense.

Any employee who participates in this procedure may do so without fear of retaliation. Retaliation against any employee who has filed a sex discrimination or sexual harassment complaint or who participates in the investigation thereof is illegal, and may result in disciplinary action.

The Investigatory Committee shall make a confidential written record of any complaint of sexual harassment, together with the results of any investigation, on an appropriate form. Such form shall be maintained in a secure place for one year from the date of the complaint. At the expiration of the one year period, the form shall be destroyed.

The Investigatory Committee shall also investigate cases in which a supervisor requests or requires assistance.

Step 3: If the complaining employee is subjected to a further instance of sexual harassment by the same perpetrator during this one year period, or where the original conduct resulted in an adverse employment decision, the complaining employee shall so advise the Sexual Harassment Investigatory Committee. At that time, the Investigatory Committee, together with the Sheriff and the union president (or his/her representative), shall conduct an investigation of the new allegation.

Any employee who is found to have committed an act of sexual harassment may be subject to disciplinary action as provided by Department operating procedures. Such disciplinary action may include termination.

Moved, Radzinski; second, Bower.
Adopted. 6 ayes; 0 nays; 1 absent, Legislator Callard.

Schubel said the agreement submitted for his approval included a provision whereby the County would indemnify Dr. Amos and essentially provide the same indemnification provisions against any litigation as that provided to County employees. He explained that Dr. Amos and the other psychologists and psychiatrists are covered under the malpractice policy that is issued to the department of Mental Health, but Dr. Amos's attorney has requested this additional provision. Don Metzger said that other doctors' contracts that are coming up will have the same provision. Chairman Billings asked if this is the first time this request has been made by an independent contractor. Mr. Schubel replied that Dr. Fernandez requested this additional coverage several years ago, but it was turned down. Chairman Billings said this would be setting a new precedent. Legislator Tuohey said there are so many professionals out there and if you give it to one, you have to give it to all of them. Chairman Billings said he is not inclined to go along with this. Legislator Bower said the resolution will stay the same as presented, but the County Attorney is to remove the portion regarding additional insurance coverage from the agreement. The following resolutions were then adopted:

RESOLUTION NO. 619-1294

RESOLUTION APPROVING AGREEMENT WITH PSYCHOLOGIST FOR THE DEPARTMENT OF MENTAL HEALTH

Legislator Bower presented a resolution authorizing the transfer of funds within the Mental Health budget, to be used for architectural costs regarding renovations of the Mental Health basement; seconded by Legislator Bennett. Legislator Bower explained that these funds have to be spent or lost. Chairman Billings objected that the resolution appears that we gave the okay for the renovations. Legislator Bower said it is to save

the money. Legislator Tuohey said it is almost giving approval to go ahead with the project. Legislator Bennett commented that one way we can provide more services is with reinvestment money. He said it would be good to have the architectural plans in place and if the project is gone ahead with in the future, that much will have already been done. Stanley Dudek commented that if we are going to be using that space next year, it is nice to know ahead of time about things you will run across, like code questions and accessibility. He said he would like to see this approved, even if the final project is not approved. If you do approve the final project, you will not have surprises. The following resolutions were then adopted:

RESOLUTION NO. 620-1294

Legislator Bower withdrew a resolution authorizing the transfer of Mental Health funds to the Buildings and Grounds reserve account.

Legislator Bower presented a resolution authorizing the transfer of Community Support Services funds for furnishing renovated offices; seconded by Legislator Tuohey. Legislator Tuohey asked if this money could be used for architectural fees. Don Metzger said it was part of the original package that this \$3600.00 would be used for equipment for the offices that are being vacated upstairs. Legislator Tuohey said she has a problem with the fact that there is a \$2500.00 proposal for engineering when we never gave authority to request proposals. Legislator Bower said when we first talked about this, you said why don't you look into getting the whole basement done. We did talk about this. Legislator Tuohey said there was nothing formal.

Legislator Bower then withdrew the resolution. The following resolutions were then adopted:

Adopted. 6 ayes; 0 nays; 1 absent, Legislator Callard.

Legislator Radzinski said the resolution approving the agreement with the Monroe County Medical Examiner's Office will remain on the table. Legislator Bennett questioned this, saying this has gone on long enough. David Schubel explained that he understood that the District Attorney's Office was going to take care of revising those portions of the agreement that Mr. Schubel felt should be revised. Susan Heard asked if she could have the money set up by purchase order, so it is encumbered. Agreed. Mr. Schubel said his two concerns were concerning limitation of liability and a provision stating that Orleans County will report any County employment vacancies to Monroe County. Legislator Bennett suggested passing the resolution as we want it and sending it to Monroe County. Legislator Radzinski withdrew the resolution. Mrs. Heard asked Andrew Lucyszyn to prepare the purchase order and send it to her.

Legislator Bower said he would like to address the resolution that was tabled at the last meeting approving an agreement for the provision of Quality Assurance Services for the Health Department. ORLEANS COUNTY GOVERNMENT ORGANIZATIONAL CHART

Budget Message

Overview

The enclosed 1995 budget has been carefully developed to maintain desirable services at acceptable levels. Unfortunately, many of the allocations do not reflect a deliberate plan for implementing local priorities, but are rather state required contributions for mandated programs. As in recent years, these mandates continue to have a significant, negative impact on the county budget.

Spending for social services programs in 1995 will increase by \$428,401 to \$6,114,734. This equates to 78.18% of the property tax levy.

Overall, expenditures in the 1995 budget will increase by \$2,188,386, while revenues will increase \$1,872,959. As a result, the county cost of operations will grow by 3.97%. Countywide, assessed property values have risen \$13,705,938 or 1.41%. The result is an increase in the average countywide property tax rate of 2.50%.

Appropriations

The 1995 budget includes eight positions that were not budgeted in 1994, however, all were created during 1994 and all are fully reimbursed by state aid or special grants. Additionally, personal services lines have been increased 3% to provide for a general salary increase in 1995. This is an estimate since bargaining agreements expire at the end of 1994 and negotiations for successor agreements have not been completed.

Employee benefits will increase in 1995 because retirement costs, which have been minimal for several years, have risen to 1.5% of payroll. Medical insurance is expected to increase by 10%.

Allocations for equipment have increased by \$225,801. Much of the expenditure is for required replacement of outdated equipment. In addition, a significant effort will be made to automate labor intensive operations in the Sheriff's Department and the Treasurer's Office. The acquisition of a paver will also upgrade the capabilities of the Highway Department.

Contractual expenses include numerous categories which are listed in the attached line item summary. Of significance, the cost of the solid waste program has decreased \$664,699 as a result of a contract recently awarded to a new vendor. This will have no impact on the property tax levy itself. However, since revenues are raised by fees levied against eligible properties, it

will translate into a substantial saving for the average home owner.

Revenues

The 1995 Budget projects that sales tax revenue will be 5% greater than that budgeted for 1994. This increase of \$323,407 is based on the assumption that the County Legislature will request an extension of the additional 1% sales tax which expires in September of 1995. State aid for the education of handicapped children will increase by \$288,000 in 1995 as a result of state legislation passed in 1994. State aid for probation services will increase by \$41,638. State and Federal aid for most other services will generally remain static, with increases being caused by added spending.

Capital Projects

There are several major capital projects of note budgeted for 1995. Two of these are for the County Clerk Building. The Americans with Disabilities Act requires all county services and programs be accessible by the handicapped in 1995. Renovations will cost \$218,000. The county has obtained a \$75,000 state grant to offset part of the cost. The other project involves the replacement of the slate roof and is expected to cost \$210,000.

The budget includes a \$23,000 allocation towards the cost of these projects. The balance is proposed to be financed with short term borrowings until 1998, when debt on the County Office Building is retired. Long term bonding will then be obtained.

Another proposed project is the conversion of the inefficient heating system in the County Office Building from electricity to natural gas, which is more economical. The estimated payback period for the \$192,000 project is five years.

Enterprise Fund

The County Nursing Home operates as an "enterprise fund" and does not rely on property tax dollars for support. Because of this, Nursing Home expenditures and revenues are not included in the budget totals. This budget however, does include a comprehensive countywide view of all appropriations by category of expenditure (i.e., telephone, office supplies, insurance, etc.). To insure that this view is complete, all county operations, including the Nursing Home, have been included in both the appropriation and revenue report.

Respectfully submitted,

Stanley J. Dudek

Note 3: Lease purchase over 3 years with cost offset by reduction in rental payments to others.

Comments

Mental Health basement renovations not included because of uncertainty about State financing. Project can be added during 1995 since it will require no county dollars.

Engineering services (\$50,000) for long range highway department planning were removed by the finance committee.
