Salen be appointed to the County Planning Board as Representative and Alternate Representative respectively;

A letter from Dr. John Mosher opposing OSL's proposed expansion; a letter from the Orleans County Federation of Sportsmen's Clubs, Inc. stating they were opposed to OSL's expansion; an agenda and minutes from the January 9th meeting of the Orleans County Soil and Water Conservation District Board; a letter from NYS Department of Agriculture and Markets stating that Orleans Agricultural District No. 7 in the Town of Shelby is slated for its eighth year review;

A letter from C. W. Lattin resigning his position as Records Management Officer for the County; announced that the annual report from the Board of Elections had been received; a letter from the Christmas Judging Committee of the Greater Albion Chamber of Commerce and a Certificate of Merit for the County's display of Christmas decorations during the holiday season.

Legislator Berger, with second by Legislator Bower, moved to accept Mr. Lattin's resignation. Motion carried. Legislator McCarthy, with second by Legislator Bennett, moved to accept Mr. Blackburn's resignation. Motion carried. Letters are to be sent to each individual.

Legislator Berger stated that he had received a letter from Bill Miller, attorney for the Oak Orchard Small Watershed District, along with the by-laws of the District; this was after many letters had been sent requesting these by-laws.

Legislator Bower reported attending the Village of

Holley Board meeting, as well as the Town of Yates and Village of Lyndonville board meetings. Mr. Bower attended the Mental Health Board meeting and the Board of Health Meeting. He noted that the entire Board of Health was totally against the proposed expansion of the Landfill. Mr. Bower asked for copies of the minutes of the hearing regarding the mobile home park in the town of Clarendon during which fines were levied but not collected. Mr. Bower attended the Town of Kendall board meeting, and the annual County Planning Board dinner meeting.

Legislator Berger attended the Town of Yates meeting on January 11th; the special Legislature meeting on January 15th, as well as the meeting regarding the Landfill on the same date; attended a Probation Meeting, Soil & Water Conservation District Board Meeting and an EMS meeting on the 17th. Mr. Berger noted that the EMS Council will be meeting on a monthly basis until they have everything taken care of. Mr. Berger met with Assemblyman R. Stephen Hawley in Medina on January 20th; attended the breakfast with Congressman LaFalce sponsored by the Chamber of Commerce on January 22nd; attended the Task Force Meeting on radios on the 22nd and met with the Sheriff, County Treasurer, Mrs. Tuohey and the County Treasurer on January 24th.

Chief Administrative Officer Dudek stated that Blue Shield does not offer 2-person plans. The State will allow them to do this but they choose not to do it. Blue Cross does not offer 2-person plan. Blue Cross said that several years ago they allowed this, but they were sued by Blue Shield - it's still in Court. It keeps going back to the State Insurance Department.

Legislator McCarthy met with the Highway Superintendent, his Assistant, the Deputy Highway Superintendent and Legislator Bennett and discussed their program for the summer, and the remainder of the year. Mr. McCarthy met with Dave Stevenson to discuss the problems at the new building. He noted that Mr. Stevenson gave him a list of these problems, which was distributed to the Legislators. There was discussion on a walk connecting the Infirmary and the County Administration Building. Mr. McCarthy also met with Wayne Hale and Don White on the 18th. On January 24th Mr. McCarthy met with the County Highway Superintendent, his Assistant and Mr. Tuohey to discuss the Orleans County Marine Park Phase II proposal.

Legislators Swiercznski and Bennetts had nothing new to report, just the usual committee meetings.

Legislator Tuohey met with department heads and discussed their budgets. Met with Dave Green, Jim Punch and Dean Holland and emphasized to them that they need to adhere to their budgets; that it's "going to be tight". Mrs. Tuohey also attended the meeting in which Mr. Lattin resigned as Records Management Officer. Mrs. Tuohey announced that the sales tax receipts for this month were \$145,314 less than last year at this time. This is the lowest amount that the County has received since 1987, and represents a considerable decrease in cash flow. Mrs. Tuohey explained that this money is actually the sales tax for the last quarter of 1989, and is received in January.

The Chief Administrative Officer stated that work is to begin on the Court House Project shortly. Interior work will be done first, and then the second week scaffolding will be set up and work will commence on the outside.

The County Attorney Norris Webster noted that in view of the special concern the Board has with the landfill expansion, he had another interview with another attorney. He stated that the first attorney had suggested that the County could have the ability to enact a local law that could control the flow of garbage and operation of a landfill in the County. Mr. Webster said they would be exploring that possibility of enacting a local law to control the situation.

Chairman Billings asked Mr. George Follet to step forward, and presented him with a proclamation signed by the Chairman on behalf of the County, declaring the week of February 5 - 11, 1990 as Literacy Volunteer Week in Orleans County.

During the open discussion portion of the meeting Dan Cook of the Journal Register asked if anyone had been in contact with the landfill officials over the last month or so; or if they had contacted the County. The Chairman said "No.". Legislator Swiercznski commented, "They were supposed to meet with the Town tonight, but there was a conflict and they will be meeting on January 31st. We hope to go to that meeting - a few of us."

Mr. Gil Wolcott, Albion, New York was given privilege of the floor to address the board in regard to the appointment of a Director of Weights and Measures. Mr. Wolcott gave out a packet of information he had put together explaining his situation in regard to the appointment. Mr. Wolcott noted he had passed the test and was on the list; that the person in the

position was provisional and had not passed the test; (he had taken it twice and failed). Mr. Wolcott said he had spoken with Albany, and was told that since a provisional person was in the position, the test should be offered every year. Mr. Wolcott stated he had been interested since 1985, and felt he met the qualifications for the job, and that he had passed the Civil Service test, and asked that he be considered for the job.

Report of Standing Committees: Legislator Tuohey reported attending a Probation Meeting on February 1st; attended two meetings with the County Treasurer and Personnel Officer regarding Self Insurance and Civil Service matters; attended the Town of Barre board meeting and the Radio Task Force Committee meeting;

also attended the Town of Shelby Board meeting. Mrs. Tuohy explained they were concerned with the radio situation and with recycling.

Legislator Bennett attended the Soil and Water Conservation District Board meeting; had a luncheon meeting with Dr. Chenelly, director of Mental Health; and stated that he would meet with the Public Health Department Director after the Board of Health meeting.

Legislator Swiercznski reported regular meetings with his departments; Legislator McCarthy reported meeting with the Highway Superintendent and the Chief Administrative Officer; also had three meetings with the Buildings and Grounds Department.

Legislator Berger attended the Fire Advisory Board meeting January 29th; attended the Div. I Soil and Water Training in Batavia January 30th and 31st; attended the Probation Meeting February 1st; attended the Town of Ridgeway Board meeting on February 6th; attended the LEPC Meeting on February 8th, also the Town of Yates Board meeting; attended a meeting with the village of Lyndonville on February 12th and attended the Soil and Water meeting for local Counties on February 13th.

Legislator Bower reported attending regular meetings, and noted he spent the day in the County meeting with Jim Hancock, Job Development Coordinator; Jack Pease, Nursing Home Director; Chris Covell; and with Rob Tirsch, Director of the Youth Bureau.

During the open discussion portion of the meeting reporter Dan Cook asked if any action had been taken regarding the landfill. Chairman Billings stated that no action had been taken; that the County is discussing strategies.

Mr. Bob Brown, of the Bridges, in the Town of Carlton was given privilege of the floor. Mr. Brown stated he was very concerned with the Route 18 bridge over Oak Orchard Creek, noting that the bridge had been downgraded to 8 Ton last fall. Mr. Brown stated he was very interested in the possibility of some kind of follow-up to "keep things moving". Legislator McCarthy said he would meet with the NYS Regional Engineer in Albion, and from there meet with Mr. Gurley, the Regional Director, in Rochester, and that he would get a written report back to Mr. Brown regarding this bridge. Mr. Brown expressed concern that with attention focusing on the Route 98 bridge over Marsh Creek, the Route 18 bridge would not be given a very high priority. He noted that it was a great

inconvenience for the farmers and businesses in the area to have the bridge down-graded to such a low tonnage. Mr. Bill Harrington and Mr. David Krull also spoke to the Board and expressed their concern with the current weight limit on the Route 18 bridge.

Chairman Billings said he had met with Supervisor Higley and Senator Daly and that he was trying to move things along more quickly. Legislators Bennett and Bower commented that it might be a good idea to have another public hearing on the Route 98 bridge and Legislator Swiercznski noted that the County can't keep changing it's mind; that a public hearing had already been held and after that hearing, it was decided to go with the Route 98 bridge. Chairman Billings said that bond monies voted for the Route 98 bridge could not be transferred over to the Route 18 bridge. Legislator Bennett suggested that it would be a good idea to find out if there are any other options open to the County with regard to the bridge situation, when meeting with Senator Daly, and if there are, perhaps look at the proposal again. Legislator Bower agreed. Legislator Berger suggested that the three gentlemen write to Senator Daly and express their concerns, stating all that has happened to the Route 18 bridge and the affect it has had on their businesses and farming operations.

Legislator Bower spoke to the Board regarding the amount of time that has passed when the County first started working on the landfill situation, to the present and noted that the problem still has not been solved. He stated he did not want the situation with the County Code of Ethics to continue on for such a long period of time, and presented a comprehensive Orleans County Ethics Law prepared by Attorney Thomas J. Young, and said he was referring it to the Ethics Committee. Copies were given to each member of the Board. Mr. Bower noted that the State already has its Ethics Law in place at the present time.

RESOLUTION NO. 96-290

By Legislator Berger, who moved the adoption.

RESOLUTION SUPPORTING AMENDMENTS TO THE WORKER'S
COMPENSATION LAW

WHEREAS, the New York State Association of Self-Insured Counties has promulgated a list of legislative priorities for the year 1990; and

WHEREAS, said Association's top priority is the introduction and adoption of legislation to correct abuses in the Workers' Compensation System; and

WHEREAS, the New York State Association of Self-Insured Counties represent approximately forty-five counties as well as New York City and it is the opinion of this County Legislature that the legislative priorities promulgated by this organization are in the best interest of the County of Orleans;

NOW, THEREFORE, BE IT RESOLVED that this Legislature does hereby support the amendments to the Workers' Compensation Law as expressed by the NYS Association of Self-Insured Counties as set forth in its 1990 legislative priorities list, including the introduction and adoption of legislation to correct abuses in the Workers' Compensation System; and be it

FURTHER RESOLVED, that the Clerk of this County Legislature is hereby authorized and directed to forward a copy of this Resolution to the following representatives: Governor Mario Cuomo, Assemblyman Robert A. D'Andrea, Assemblyman Arnold Proskin, Assemblyman Glenn H. Harris, Senator Joseph L. Bruno, Senator Hugh T. Farley, Senator James J. Lack, Senator John B. Daly, Assemblyman R. Stephen Hawley, Assemblyman Frank J. Barbara, NYS Association of Counties, NYS State Supervisors' and County Legislators' Association and the Chairman of the County Legislative Boards.

NYS ASSOCIATION OF SELF INSURED COUNTIES
LEGISLATIVE PRIORITIES FOR 1990

1. Top priority is introduction and adoption of Legislation to correct abuses in the Workers' Compensation System. Our Association, whose members represent approximately 45 counties as well as New York City, is alarmed at the escalation of stress and psychic trauma claims, many of which result from the ordinary day-to-day "stress" of the workplace.

This type of claim must be contained, and we have proposed an amendment to Section 10 of the Workers' Compensation Law to add a new subdivision (3) which we are making efforts to have introduced at this session of the Legislature. Our proposal takes into account measures passed in New Mexico, Massachusetts and Michigan. This amendment would limit stress claims in such a way as to bar any employee from receiving compensation in connection with "stress" arising out of legitimate business decisions.

The proposals is: "WCL S10 (3). Notwithstanding any other provisions of this chapter, there shall be no liability for compensation for mental or emotional stress, psychic trauma, psychiatric disorder, or mental illness, or for physical disability due to any such condition, whether characterized as an accident or as an occupational disease, where such condition arose out of a bona fide personnel or managerial or business action including, but not limited to, transfer, promotion, termination, demotion, or job evaluation action, or out of the terms, conditions or incidents of employment."

2. Support Passage of S.454-b. This bill would repeal Dole vs Dow and would provide for a modest increase in Workers' Compensation benefits.

Only New York State and Illinois permit third-party over actions. In the other 48 states, the manufacturer is solely responsible and cannot sue the employer. Accident statistics in New York State show that Dole vs Dow has not resulted in less accidents or any safer working conditions than any of the 48 states which do not allow employees to sue via the "back door".

Sen. James J. Lack's bill (S.454-b) this session is expected to continue the controversy between some labor groups, the Business Council, Chamber of Commerce, public entities, and, of course, those attorneys who do not want any erosion of their "base."

To quote Robert H. Bauge, a well-know insurance authority, if "liberal courts continue to expand Dole vs Dow doctrine, 'safe workplace' and other doctrines, the (Workers' Compensation) system will ultimately lose its utility....Third-party over, dual capacity and safe workplace are tools which have been used to undermine the intent of the original No-fault Workers' Compensation Law.... Until and unless the NYS system returns to the basic universal principal of contract law-a

promise for a promise-(The employer will compensate the injured employee regardless of fault and the employee will not sue his employer regardless of fault), the whole system is in jeopardy..."

3. Oppose S.4695. (A6674 passed last session, but the Senate bill did not.) This legislation would require carriers to pay the claimant's attorney fee when the employer loses a controversy, applies for modification or appeals a decision and loses. Why shouldn't the playing field be fair when reasonable people disagree? It is estimated conservatively that 12 to 18 percent of claims are questionable or fictitious. This added barrier would reduce reasonable controversies and cause fictitious claims to soar. Such a concept is grossly unfair.
4. Urge Amendment to State OSHA Law defining Standards of Compliance. Section 27-a of the Labor Law imposes an obligation to provide "employment and a place of employment which are free from recognized hazards.." The absence of a definition for such terms enables the Department of Labor and its inspectors to classify any perceived problem as a "recognized hazard" without regard for the fiscal or legal implications of their demands for corrective action.

RESOLUTION NO. 97-290

By Legislator Berger, who moved the adoption.

Seconded by Legislator Tuohey.

RESOLUTION URGING THE NEW YORK STATE LEGISLATURE TO AMEND THE WORKER'S COMPENSATION LAW DEFINING COMPENSABLE MENTAL STRESS AND ESTABLISHING A STANDARD FOR DISTINGUISHING LEGITIMATE CLAIMS RESULTING FROM ORDINARY DAY-TO-DAY BUSINESS DECISIONS

WHEREAS, the non-physical, highly subjective nature of workers' compensation mental stress claims has led 33 states to define mental stress through either statute or case law; and

WHEREAS, the absence of a similar definition in New York State has created an area of abuse which must be addressed by the Legislature, since it is reasonable to expect a deluge of these cases as a result of a number of decisions in recent years including *Rackley v County of Rensselaer*, 141 A.D. 2d 232 (1988); and

WHEREAS, it is imperative that the Legislature re-establish a reasonable standard for mental stress claims and re-introduce rationality into the method by which they are adjudicated; and

WHEREAS, if the present disturbing trend is allowed to continue, it will bankrupt counties and drive more businesses out of New York State thus jeopardizing our State's economic future; and

WHEREAS, a proposal has been presented to the Labor Committees of the Senate and Assembly by a coalition including the New York State Association of Self-Insured Counties, the Business Council of New York, Inc., the New York Chamber of Commerce and Industries, the New York State Self-Insurers' Association, the New York State Association of Counties and the New York State Chapter of Public Risk Insurance Management Association (PRIMA); and

WHEREAS, this proposal would amend Section 1, Subdivision 7 of Section 2 of the Workers' Compensation Law by excluding claims for mental injury from the ordinary day-to-day personnel decisions such as disciplinary action, work evaluation, job transfer, demotion, promotion, salary review or termination of employment, and would require that a compensable stressful employment condition be extraordinary and unusual in comparison to the pressures and tensions experienced by others performing similar work;

NOW, THEREFORE, BE IT RESOLVED, that the Orleans County Legislature strongly supports the coalition's proposal and urges the New York State Legislature to take immediate action to close this "loophole" in the law which permits very costly abuse; and be it

FURTHER RESOLVED, that copies of this resolution be sent to Governor Mario Cuomo, the Honorable Ralph J. Marino, the Honorable Melvin Miller, Senator James J. Lack, Assemblyman Frank J. Barbaro, Senator John B. Daly, Assemblyman R. Stephen Hawley, New York State Association of Counties and the New York State Supervisors' and County legislators' Association.

LEGISLATURE MEETING

March 14, 1990

The meeting was called to order by the chairman at 7:30 p.m. After the pledge to the flag, the clerk called the roll and all legislators were present.

The Clerk presented the following communications: a letter of resignation from Public Health Director M. Joanne Johnson, to take effect April 13, 1990;

A letter from the Cobblestone Society recommending that Bill Lattin be appointed to the Tourism Advisory Board as their organization's representative; a letter from State Motor Vehicle Commissioner Patricia B. Adduci noting that special license plates were available for Orleans County Legislators; a letter of thanks from the Korean War Memorial Committee of Western New York for the \$500.00 contribution made by Orleans County.

Letters from the Town of Yates and the County Assessors' Association requesting that the County, Town and Schools set the Aged 65 Exemption Limit at \$10,500; a letter from the Town of Ridgeway stating that their resolution requesting that an 1991 update be carried out, is rescinded.

Announcement from the Inter-County Association of Western New York stating that the March 15th meeting will be held in Medina at the Apple Grove Inn, beginning at 9:30 a.m.; a notice of a public hearing scheduled for April 9, 1990 on the Genesee Leroy Stone Corporation Application and draft environment impact statement, to be held at the Holley Junior-Senior High School at 7:00 p.m.

Report of Standing Committees: Legislator Bower reported that the Certificate of Need for Orleans County is to be discussed at the State level in April, to be voted on at a later date. Mr. White stated that in answer to the question as to whether or not Park Ridge could apply to the Finger Lakes Region, as well as HSA of Western New York, they cannot; attended the Town of Albion; had meetings with Jack Pease and with Carri Blake on March 13th; attended the Town of Gaines meeting on March 13th and mentioned that there is the possibility of the Town purchasing property on Ridge Road; met with Social Services Commissioner Patricia Hardenbrook and later in the afternoon, met with Youth Bureau Director Rob Tirsch.

Legislator Berger attended the Radio Task Force meeting March 6th. They are involved in a study to

determine if the County's antenna is enough or if it needs a booster. A meeting is scheduled for a later date, dependent upon the results of the report. On March 1st, Mr. Berger attended the Soil and Water Conservation District Board meeting; attended the Village of Lyndonville Board meeting; attended the Landfill meeting on March 5th; attended the interviews for the Safety Officer position and computer interviews; attended the Town of Yates meeting March 8th; Health Department meeting on March 9th; attended the Hawley Conference in Albany March 11-13th; attended the unemployment and community service opening on March 14th; also noted that the Sheriff presented the Citizen's Award to Dana Woolston. Mr. Woolston is the young man who pulled Deputy Whittaker out from under the vehicle at the time when the Deputy was hurt so badly.

Legislator McCarthy spoke in reference to the Route 18 bridge and stated that he had tried to contact Mr. Gurley the NYS DOT Regional Director, but had been unable to do so. Mr. McCarthy noted that Senator Daly and/or Mr. Bob Waters would be getting back to the Board next week regarding this matter. Mr. McCarthy attended seven committee meetings, as well as attended the NYS Association of Counties Conference in Albany March 11-13th.

Legislator Swiercznski reported attended regular meetings with his departments.

Legislator Bennett stated that a Hepatitis B immunization clinic was scheduled for March 28th. Mr. Bennett commented that eight people had received shots for Hepatitis A; this was in reference to the Hepatitis outbreak in Brockport.

Legislator Tuohey stated she had attended most of the Safety Committee meetings. Mrs. Tuohey stated that she had toured the Nursing Home and agreed with the Administrator Jack Pease, that it needs some upgrading. In conjunction with the trip to Albany, Mrs. Tuohey stated she had an opportunity to look over the 800 megahertz system of the City of Albany police force. The gentleman who designed the system spoke, and he will be in Batavia to speak to Genesee County. They will let Orleans County know when, so that the Radio Task Force can attend.

Legislator Berger said he spoke with the Director of Region 8 - DEC regarding the situation in Morton. He asked that the County wait a month before speaking to the newspapers regarding the barrels stored in Morton.

Chief Administrative Officer Stan Dudek told the Board that the Telephone Service bids had been received, opened and reviewed and recommended that the County go with RCI a subsidiary of Rochester Telephone. Mr. Dudek stated that company was the low bidder, and also had the fastest dialing equipment. Mr. Dudek said the County would save \$8500.00 on long distance service by going with RCI.

With regard to the Radio Task Force Committee, Mr. Dudek noted that the original resolution required an April 1st report, and stated that it would not be feasible to do this; he said it would be a few more months to put everything together.

With regard to the village of Albion barns, the County Attorney stated that he had spoken with the village attorney, who said that the document in question was being held up by the IRS. Mayor Sacco was going to look into the matter. Chairman Billings stated that he felt the Board should go and look at the buildings again, noting that he was no longer sure the County could use them.

Legislator Swiercznski suggested that the County Attorney send a letter and say "time is of the essence" and see if that produces any results. The Board agreed, and Legislator Swiercznski, with second by Legislator Bower, moved to authorize the County Attorney send a letter to the village stating that it either closes by a specified date, or else the County will be done with it. Allow the village 15 days to reply. Upon vote, motion carried.

Pierson Root, president of the Orleans County Farm Bureau, and Bruce Krenning were given privilege of the floor. Mr. Root thanked the Board for the funds put into the County's water management program and for the work with the project. He also questioned whether or not it was necessary for the County to add on to the Infirmary, when there is an organization coming into the County also proposing a similar project for the Arnold Gregory.

Mr. Krenning said he was designated to speak to the Board on behalf of the Farm Bureau, and noted that the "dump is an issue". Mr. Krenning stated that the Bureau's position is that "they hope that the current situation does not have to get any larger than it has to be, and that we can continue to find other means to get rid of our trash."

Mr. Krenning also commented on the State's

"regionalization of money for schools." The State is making an attempt to change funding of school systems. There are two factors involved - one is school attendance-the State has tried for years to change that, and Mr. Krenning felt the Assembly would pass that proposal. Mr. Krenning felt that input from the County is needed on that bill. He stated that the regionalization of money for schools involves aid coming to the district, based on teachers' salaries within the district. Orleans County teachers' salaries would not be as high as, for example, teachers from Suffolk County. School districts in Orleans County would not get as much. Mr. Krenning said he felt the County should keep track of the situation

With regard to environmental liability, Mr. Krenning stated there is a bill before the State Legislature, that will probably pass-it does not cost any money. It determines who can be held liable - not only the County and Towns, but the farm community as well, for practices deemed necessary and approved in the past. Mr. Krenning felt this (liability) could come back to the County and Towns.

Chairman Billings thanked Mr. Root and Mr. Krenning for coming, and congratulated the Farm Bureau for being first in the State to come out in their membership goal.

Sharon Midea, the County's representative to the Health Systems Agency of Western New York was given privilege of the floor. Mrs. Midea stated she decided to attend the meeting after last Thursday's meeting with the Village of Albion. Mrs. Midea told the Board that any applications that HSA received in 1990 will be acted upon in 1991 - that was their rule. The Project Review Committee will meet April 22nd, and the Board of Directors meets the week after that. The rules are set by the State Health Department.

Chairman Billings stated that the Chief Administrative Officer Stan Dudek will set up a meeting with Dr. McBride of HSA and someone from Park Ridge and he would notify Mrs. Midea of the exact time.

Report of Standing Committees: Legislator Bower reported his regular meetings; Legislator McCarthy said that he had nothing new to report with regard to the Route 18 bridge. Mr. McCarthy said that the State has not changed its plan, and that the first project they will take care of is the bridge over Marsh Creek - it won't be a \$6,000,000 bridge, but will cost about \$1,900,000. As to whether or not the monies originally designated for the bridge will remain in the County, Mr. McCarthy said he could not get a clear answer to that question. Mr. McCarthy has an appointment with Lou Gurley, Regional Director of the NYS Department of Transportation in Rochester on Monday, and he is asking for something in writing with regard as to whether or not these funds will remain in Orleans County.

Legislator Bennett reported his usual meetings. He noted that the Hepatitis B clinic for firemen, deputies, etc. had started today, and Mrs. Johnson, Director of the Health Department, stated that only 25 people had come into the Health Department for their inoculations. Mrs. Johnson said that next time the time for the clinic will be broadcast over the monitors the night before - 7:30 a.m. until 11:00 a.m. and 2:00 p.m. until 6:00 p.m.

There was discussion on the procedure to be followed when an employee resigns his or her position. This was in conjunction with the Safety Officer's resignation. Mr. Dudek stated he was directed to see whether or not the Safety Officer could change his schedule, and to date, Mr. Dudek had not heard from him - he did not reply to the original letter, nor has he resigned his position. Legislator McCarthy suggested sending another letter, certified mail, return receipt requested, and get the matter resolved.

Legislator Swiercznski noted that recycling will get "moving" in the County on April 22nd and reported his usual departmental meetings. Mr. Swiercznski also requested that Legislator McCarthy ask Mr. Gurley what the State's program is for a four-lane highway across Orleans County, either Route 31A or 104.

Legislator Berger reported attending the Inter-county meeting on March 15th at the Apple Grove, with Legislators Bower and Tuohey; also attended a meeting with the Safety Committee, Personnel and the Sheriff; met with the Real Property Tax Director on March 19th; attended an emergency Legislature meeting on March 21st and an EMS meeting at 7:30 p.m.; met with Civil Service and the Sheriff on March 22nd at 10:00

a.m., attended the dedication of the new NYS Dept. of Labor offices at 11:00 a.m. and met with the Courts, Youth Bureau, Mental Health, Judge Miles, Probation, Social Services and the schools. Mr. Berger stated they still have not addressed the original reason for meeting, and that is the problem of kids getting into trouble on Main Street; attended a meeting at the CD Center at 9:00 a.m. on March 23rd and met with Probation at the Legislature Office later in the day; met with CD Director at the Legislature Office on March 26th, also met with the Committee interested in getting applications for the nursing home proposals "batched", and met with the STOP DWI people at 2:00 p.m., also with the Medina Canal Task Force at 5:00 p.m.

The Chief Administrative Officer, Stan Dudek, said he had met with the Radio Communications Committee on April 24th. The study that was done showed some of the problems, and the Committee is trying to come up with the type of towers that will be needed to implement the 800 service. Mr. Dudek said that notices will go out shortly, and a meeting will be scheduled at the County Administration Building to discuss the matter further.

County Attorney, Norris Webster, spoke about the old trolley right-of-way the County recently sold, and stated that the purchasers had asked the County to refund their money. Legislator Bennett stated that a resolution should be prepared for the next meeting authorizing the return of the \$1,000.00. Mr. Webster expressed concern regarding the price established in previous resolutions dealing with sale of trolley "right-of-ways", that set the price at \$100.00. Mr. Webster said consideration should be given and price set according to the size of the parcel, and that with the Board's approval, he would take care of the matter. The Board agreed.

With regard to the purchase of the village barn, Mr. Webster stated he did send out a letter to the village stating "time is of the essence", and gave them 20 days to produce the proper paper work. The letter was sent to the village attorney, and Mr. Webster is waiting to hear.

Chairman Billings called a recess at 8:15 p.m.

Meeting was reconvened at 8:25 p.m.

Discussion was held on the Marine Park bids. Legislator Bouwer asked if the bid amount was over and above the amount the County is getting for the grant. Legislator Billings stated that the grant is for \$260,000.00 - that it would be about \$30,000.00 short of the amount of the bids. Legislator McCarthy stated, "...met the other day and thought Mr. Tuohey had given his option. Really couldn't see any way to cut anything of a substantial saving nature. This is the cheapest way Gus could figure out. It involves \$30,000 of county money. We thought possibly at the end of the year the maximum amount would be \$30,000 with maybe a minimum of \$15,000 - \$20,000." Legislator Bower felt that the second set of restrooms were not needed.

Chairman Billings explained that the building is needed in order to provide the electrical services, and noted that whatever the County does has to be approved by the State. Mr. Dudek explained that the building is also needed to store equipment. Also that complaints had been received about shower facilities, or lack of them. The restroom was originally in the plan and (building) was needed to funnel electric service down to the docks. The current service is not big enough to handle shore power. Mr. Dudek said that the plans have been approved; the County has submitted all minority information...it appears that (the) County has met that part of the procedure. Mr. Dudek noted that not all the work has been completed, that there still remains some unfinished work.

Mr. Dudek said that the County might receive \$3,000 - \$4,000 in revenue in the operation of the park for this year. Mr. McCarthy agreed, commenting that there might be additional revenue for casual dockage. Mr. McCarthy said there were 6 docks vacant, and the Highway Department was in the process of advertising to try and get them rented. Mr. Dudek noted that one of the major concerns is that without the availability of electricity and showers, the docks are not as attractive.

Legislator Bower stated that the County should not concentrate all of this money in this one area. Legislator Tuohey commented, "On one hand, here you are willing to hire a grantsman (referring to the resolution withdrawn earlier in the meeting, which agreed to hire Stuart Brown Associates) to look for

money, and when you have an opportunity to have the money, you turn it down. You are talking out of both sides of your mouth." Legislator McCarthy said, "I believed that this thing was paid for completely by state monies. We have a bond and payments, and if we rent every slip, we can't make it. I cannot see putting one more dollar of county money in that project."

Legislator Bennett stated, "I never was in favor of a County park and voted against it from the start....the most important thing is putting in a fish cleaning station - take one item at a time and build the thing."

Mr. Dudek said, "I think they (state) would approve modified plans. I am sure if we take something back and scale it down, they will approve it. It is a time requirement. The original grant was an '87 grant and we would have to apply for an extension to the grant. Maybe go to individual contractors and negotiate."

Legislator Swiercznski commented, "This is the only thing the County has - it's a class act. Let's make sure we keep moving."

Legislator Tuohey asked if it would be possible to reconsider her abstention in the vote on awarding the bids for the park. She stated, "I would like to vote for the project because I feel it's in the best interest of the County to go ahead and finish it."

Legislator McCarthy said, "I feel this is improper and a definite conflict of interest for Mrs. Tuohey to vote on her husband's work." Legislator Bennett said, "I don't see where it's a conflict of interest but only a matter of getting the job done. I support Mrs. Tuohey's decision."

Legislator Tuohey was granted permission by the Board to reconsider her vote on the resolution awarding the bids for the Marine Park, and change her vote to an "aye" vote. Resolution No. 235-490, which was defeated earlier in the meeting, was then declared to be adopted by the board as follows:

RESOLUTION NO. 235-490

By Legislator McCarthy, who moved the adoption.

A letter from Jeffrey Fuller to redeem his property located in the Town of Ridgeway (resolution is on the evening agenda to do this).

Report of Standing Committees: Legislator Swiercznski reported regular meetings with his departments; Legislator Bennett reported attending the Health Board meeting, and noted that Andrew Lucyszyn, the new Health Department Director was in attendance at the Legislature meeting. Mr. Bennett stated that Mr. Lucyszyn had suggested that EMS funding come through the Health Department. This would allow the Health Department to obtain more reimbursement. With regard to the Hepatitis B Clinic, Mr. Bennett reported 72 people had come in for their first inoculation, with 20 receiving their "booster" shots. Mr. Bennett stated that this is an on-going program. Legislator Bennett said that the Health Department had completed their billing of Medicare up through 1989.

Legislator Tuohey reported meeting with the Sheriff on the E-911 committee, and that there would be a presentation at the next Conference Session. Mrs. Tuohey said that cost-wise, the program looks pretty good. Mrs. Tuohey also attended an 800 Megahertz meeting. Chairman Billings stated that he had spoken with Senator Daly and Assemblyman Hawley regarding the appropriation in the State Budget for the County's use towards this radio system, and there is \$100,000 designated for the County in the State budget.

Legislator Bower reported regular meetings with his departments. Mr. Bower attended the Town of Yates Board meeting and said there is concern with the snow removal contract. The Town will be meeting with all highway superintendents and supervisors to discuss renegotiations of the contract. Legislator McCarthy said he and Legislator Bennett had met with them and asked them to come up with a figure, as to what they feel would be a fair amount. As yet, they have not gotten back to Mr. McCarthy.

Legislator Berger reported attending the Firemen's Awards Banquet on May 12th; Fire Chiefs' Meeting in Holley on the 14th; attended the Police Chiefs' Meeting on the 16th, also a meeting with Personnel, a meeting with the Sheriff on E-911, and with the County Treasurer. The 16th was also Nursing Home Week and most of the Legislators were in attendance for lunch. Legislator McCarthy reported that he and Legislator Bennett met with the Town highway superintendents, and was still waiting for more

information regarding their request for renegotiations on the snow removal contract. Mr. McCarthy reported that Buildings and Grounds had completed the grass seeding at the Mental Health Building, and the cost for the project dropped from \$8800 to \$1600. Also that the Buildings and Grounds Department was ready to start the ramp at the County Jail. The largest cost will be a retaining wall to hold the stones against the side of the building. Mr. McCarthy asked if any legislator objected to removing the stones for a distance of 40 ft. - this would cut costs in half, even though it would necessitate cleaning the wall. Mr. McCarthy estimated that \$2,000.00 would be saved. There was no objection by the Board to removing the stones.

With regard to the Highway Department projects, Mr. McCarthy reported that everything had been delayed because of the weather. The work on the County Line project is almost complete, with only black-topping remaining to be done.

Singling out one department head for a special privilege with no discussion at all as to whether this will be in lieu of a proposed raise for 1991...his salary was set for a year - we are setting a precedent." Legislator Berger suggested having the County Attorney draw up a five year contract. Legislator Bennett stated that "the time for us to have brought this up was when he (Dr. Chenelly) was in here to discuss it. I have committed myself to uphold my end of the bargain. We have people who work 40 hours per week, some 35 hours per week, and now will have one who works 30 hours per week". Mr. Dudek commented that if Dr. Chenelly were paid the same as those who work for him at the Clinic, he would be making \$60,000.00 per year. Legislator Bennett said that the previous Board agreed to do this, but wouldn't discuss it until there was a "No. 2 Person" in Mental Health. Legislator Tuohey attended the Team Meeting on July 26th and went over budget guidelines; attended the Drug Press Conference on July 30th. Mrs. Tuohey complemented the Sheriff and other law enforcement people who participated in and made it possible for the many arrests made, thereby taking many drug dealers/users off the streets in Orleans County; attended a meeting with PEBSCO representative regarding the County's Deferred Comp program - PEBSCO will be

continuing with the County's plan; attended Probation Meeting on August 2nd; attended the Barre Town Board meeting - they passed a resolution raising Senior Citizens Exemption, and also asked about recycling. Mrs. Tuohey attended a Safety Meeting on August 7th, and an 800 Megahertz Committee Meeting.

Legislator Bennett attended a meeting with the Highway Department and spent a great deal of time at the County Fair, at the Soil and Water Booth. Legislators Swiercznski and McCarthy attended their usual committee meetings.

Legislator Bower attended the usual committee meetings. Mr. Bower noted that a "Luau" was held for the residents of the nursing home, complete with a roasting pig.

Legislator Berger reported attending a meeting with the Sheriff re the drug situation in the County on July 30th, also attended a STOP-DWI meeting on July 30th; met with the Probation director on August 2nd; attended a finance meeting at the Nursing Home on August 3rd; attended the "800" Megahertz Meeting on Tuesday, August 7th; Legislator Berger also worked in the Soil and Water Conservation District booth at the 4-H Fair on August 2nd and 3rd.

Chief Administrative Officer Stan Dudek handed out summaries of the capital plan showing the lists of projects after the Board had decided which projects would remain and which should be deleted. With reference to Blue Shield for 1989, Mr. Dudek noted that "they are making money on our medical insurance premiums".

With reference to space problems currently experienced by the Health Department and Probation Department. Mr. Dudek had met with directors from both departments and discussed the possibility of moving the Health Department into the unfinished area of the Mental Health Building, and placing Probation in the area of the Nursing Home currently occupied by the Health Department. If this were done, it would "free up" some space on the Square - the second floor of Central Hall would be available and could be utilized by either the District Attorney or the Sheriff. It would be necessary to look at financing for the project. Mr. Dudek noted that there was still some bond monies left that could be used to renovate the area in the Mental Health Building basement. This is just one possibility of solving the space problem.

During the open discussion portion of the meeting, Mrs. Connie Mosher of the Town of Gaines was given

privilege of the floor. Mrs. Mosher explained that she had read the account of the GLOW meeting, and wasn't sure what it meant. Mrs. Mosher noted that there seemed to be a great deal of effort to get recycling going. She said that if the Town of Albion allows OSL to expand, it will give OSL more room, and asked if anyone had taken a long view of that situation - County doing recycling and the Town of Albion making a decision on OSL. Mrs. Mosher felt there should be more pressure placed on the Town to close it (landfill) down and have a County site for its own municipal waste. Mrs. Mosher said her group had a video put out by scientists, and noted that in a lot of cases materials are not reduced to "ash", and stated that she was at the meeting to ask if the Board had thought about what they were doing - benefiting OSL with the recycling program. Mrs. Mosher said she really didn't know what the County could do, because the County can't really say "yes" or "no". She noted that OSL wanted to quadruple the landfill - a mile long and two and a half times higher than it is now. It will "grace" the entrance to Albion. It affects the County in various ways. Mrs. Mosher stated she would just like to see something happen - she thought the County needs its own landfill.

Mr. Dudek commented that even though the County hasn't land use powers, it did hire an attorney to prepare an ordinance, and shared it with the Towns - the County did research, etc. It was noted that the Town was very "prickly" about it.

Mr. Don Stirk spoke with regard to incinerator ash, and noted that there is a regional ash broker for 3-4 state area, who has guaranteed to take hundreds of thousands of tons monthly and two of the sites offered to anybody for disposal are OSL and Chaffee Landfill - OSL is already targeted as a disposal site for incinerator ash. Mr. Stirk said that incinerator ash from Roswell Park in Buffalo is being received at OSL. He also said there is concrete evidence of offsite contamination of ground water - tests were done by State Health Department and DEC. Mr. Stirk said that anything the County could do would be greatly appreciated. Mrs. Mosher and Mr. Stirk thanked the Board for allowing them to express their views at the meeting.

Legislator Tuohey, with second by Legislator Berger moved for an executive session to allow for the discussion of a personnel matter. Motion carried.

Adopted. 6 ayes; 0 nays; 1 abstention, Legislator Bower; 0 absent.

Motion by Legislator Swiercznski, with second by Legislator Bennett to adjourn the meeting. Motion carried.

Meeting adjourned at 6:50 p.m.

LEGISLATURE MEETING

August 22, 1990

The Chairman called the meeting to order at 4:30 p.m. After the pledge to the flag, the Clerk called the roll, and all the legislators were present, with the exception of Legislator Berger, who was excused.

The Clerk presented the following communications: a copy of the most current State Equalization Rates received from the NYS Division of Equalization and Assessment; a letter from the Town of Gaines stating that the Town would update their assessment records for the properties in the township, providing the County would use the NYS Division of Equalization and Assessment equalization rates when figuring next year's tax rates;

A letter of resignation from Orleans County District Attorney James P. Punch, effective September 4, 1990;

A letter from Thomas Sekuterski of Depew, New York complementing the County on the Development of Orleans County Marine Park in the Town of Carlton, also complementing David Albanese for the supervision he does at the Park. Mr. Sekuterski rents one of the boat slips at the Park.

Announced that 43 letters had been received since the previous meeting in favor of the Park Ridge Proposal for the old Arnold Gregory Memorial Hospital building; announced that 70 letters had been received in favor of expansion by the County Nursing Home.

Report of Standing Committees: Legislator Tuohey reported attending the "800" Megahertz meeting on Tuesday; interviewed three companies to determine who would draw up the bid specifications for the radio system - they will be back on September 28th. Mrs. Tuohey attended the Clarendon Town Board meeting and announced that the Board had reversed their resolution regarding the Park Ridge Proposal; attended the Self Insurance meeting to discuss the budget for the coming year; attended the public hearing on the 15th regarding Ag District No. 6. Mrs. Tuohey also attended the Inter-County Meeting in Cattaraugus County - the program was on the E911. She noted that they had started in 1983, and that even though Orleans County had just begun the process, Orleans County was further ahead than Cattaraugus County. Mrs. Tuohey attended

the Fire Chiefs' meeting in Hulberton; participated in a safety inspection of the County Highway Department with the Safety Committee, and told the Board that the Department rated pretty well.

Legislators Bennett and Swiercznski reported their usual meetings. Legislator Swiercznski said he had attended a presentation on a recycling program for Orleans County.

Legislator McCarthy reported attending the usual meetings. Mr. McCarthy said he had met with Highway and they were concerned with the costs of snow plowing and sanding of County roads. He noted that several town highway superintendents were at a Conference Session to present their proposal for an increase in the rates that are currently being charged. They asked for a total cost of \$2,000 per lane mile for sanding and snow plowing. Mr. McCarthy felt this was a fair figure. However, Mr. McCarthy said the Committee had presented increases beginning with a total of \$1,850 per lane mile for sanding and snow plowing for the 1991-92 season, and a one hundred dollar (\$100.00) a year increase over the next four years (\$1,950.00; \$2,050.00; \$2,150.00; \$2,250.00). The Highway Superintendents were going back to their Boards to present these increases. They will get back to the Highway Committee as soon as possible. Mr. McCarthy felt this would help relieve the problem. He reported that the Buildings and Grounds Department had started work on the ramp at the jail; also that work on the parking lot at the County Administration Building and the Mental Health Building would probably begin on Saturday.

Legislator Bower report his regular meetings. He also said he had met officials from the Orleans County Nursing Home, Park Ridge and Medina, and said that everyone (Board members) would be getting a copy of the minutes. HSA, Jack Pease and Mr. Bower met with these people, and Mr. Bower said that there was not much change in their positions.

Mrs. Connie Mosher, (SPOC - Stop Polluting Orleans County) was given privilege of the floor and asked if the Board would adopt a resolution opposing OSI's request to increase daily intake at the Transit Road site. Mrs. Mosher said she realized the County was not part of the process, but felt it was important for the people of the County to know that their Legislature has taken a stand. Legislator Swiercznski stated that the Legislature has already passed two of this type resolution since the first of the year.

Legislator Swiercznski, with second by Legislator

Bennett, moved to waive the rules to allow the addition of several resolutions to the agenda. Motion carried. 6 ayes; 0 nays; 1 absent, Legislator Berger. (Legislator Tuohey commented that she didn't like to add last minute resolutions to the agenda.)

The following resolutions were presented:

LEGISLATURE MEETING
October 10, 1990

The Vice-chairman called the meeting to order at 4:30 p.m. After the pledge to the flag, the Clerk called the roll, and all legislators except Legislator Billings, were present.

The Clerk presented the following communications: August 23rd meeting minutes from Western Regional OTB Corp.; announced that the Nutrifare Spaghetti Dinner scheduled for October 24th will begin at 4:30 p.m. and continue thru 7:00 p.m.; announced that the 50th Anniversary of the Cobblestone Society Dinner will be held at the Village Inn, Childs, New York beginning at 6:30 p.m.

Report of Standing Committees: Legislator McCarthy reported that Buildings and Grounds has almost completed the handicapped ramp at the County Jail.

Legislators Bower, Bennett and Swiercznski reported attending their usual meetings.

Legislator Tuohey attended Finance Committee meetings on the budget on Monday, Tuesday and Wednesday. Mrs. Tuohey said she appreciated the attendance of the other Legislators at these budget meetings. Mrs. Tuohey attended the Town of Barre board meeting Monday evening at which time, the Town voted to go with the \$2,000 for the 800 megahertz radio project; also noted that the Shelby Town Board also voted to go with the \$2,000 towards the 800 megahertz radio project. Mrs. Tuohey attended the Safety Committee meeting, and Personnel meeting; also announced that the Awards banquet will be held on November 27th at the Village Inn.

Legislator Berger attended the Medina Canal Task Force Dedication on September 28, marking the completion of the dockage and lighting system; attended budget meetings October 1st, 2nd and 3rd, as well as the Town of Ridgeway board meeting, noting that Ridgeway has agreed to contribute \$1,000 to the County's 800 Megahertz Radio Project; attended a Probation meeting on October 4th; attended a meeting at the Treasurer's office October 5th; attended a self Insurance Meeting, Safety Committee meeting and Awards Committee meeting on October 9th, as well as the Soil and Water meeting with Legislator Bennett on October 9th.

Dan Cook, reporter for the Medina Journal Register, (referring to the applications submitted by the County, Medina Memorial Hospital and Park Ridge regarding the nursing home situation in the County) commented that the Health Committee had suggested the County cut back to 80 beds. Mr. Bower commented that if the County did this it would cost the taxpayers roughly \$210,000 a year. And in addition, the County would still have to install boilers (which were included in the expansion plan). Legislator Tuohey commented that Park Ridge had stated that they could not operate an eighty bed nursing home - it would not be feasible, and if this is the case for Park Ridge, why should it be feasible for the County?

Legislator Berger commented that "nursing homes are more operational with a profit. It helps cover expenses they (Park Ridge) have in hospital operations. That is the same concern that Medina Hospital has. My concern is for the people in the County which we have to provide for. Our Infirmary has to meet standards and there are certain things we have to do. It was unfortunate that Albion (Hospital) had to go down; however, the County would still have to do this. We had plans on doing this. We have to do it."

Mr. Cook asked if another meeting is scheduled with Park Ridge, the Health Committee and Medina Memorial Hospital. Mr. Bower stated that he was not aware of any future meeting.

Mr. George Callard, Town of Carlton, invited the Board members to the 30th Anniversary celebration of the Cobblestone Society. A dinner is to be held at the Village Inn on November 10th at 7:00 p.m., with a guest speaker from Lancaster, New York.

Mr. Cook asked if the Board had heard from Mercy Flight, and was told that no new communications had been received.

RESOLUTION NO. 464-1090

By Legislator Tuohey, who moved the adoption.

Seconded by Legislator McCarthy.

RESOLUTION AUTHORIZING CHANGES IN THE OFFICE OF THE DISTRICT ATTORNEY

WHEREAS, the Governor has appointed an interim District Attorney for Orleans County; and

WHEREAS, Resolution No. 415-890 created new positions and salaries for the District Attorney's Office;

NOW, THEREFORE, BE IT RESOLVED, that Resolution No. 415-890 is hereby rescinded by this Legislature, with the stipulation that the salaries for the First Assistant District Attorney and the Second Assistant District Attorney revert to \$18,313.00 and \$12,500.00 respectively, the same as they were budgeted and approved at the beginning of the 1990 calendar year; and be it

FURTHER RESOLVED, that this Legislature does hereby rescind Resolution No. 436-990 and re-establishes the annual salary for the District

Attorney at \$52,000.00, as budgeted for the calendar year 1990.

Adopted. 6 ayes; 0 nays; 1 absent, Legislator Billings.

After the adoption of the previous resolution, Conrad Cropsey, the newly appointed District Attorney made the following statement: "I am sorry I have to be here today. On Sept. 12, you cut the District Attorney's salary, in order to pay for third District Attorney. Even though it's contrary to County law, you cut my salary - as I made you aware in closed session.

I know my predecessor felt it was necessary to have three positions to do a good job. I agree - it is necessary, to do a good job. I have not filled that position because a couple of weeks ago I was told..I went to see about filing it...I was told that wasn't what you meant. I don't doubt that but unfortunately I and all the other candidates could only judge you and what you meant by what your words were - they are in writing....I am told you are withdrawing the pay raises you gave to the two Assistants. Pay raises as I have shown you, place the Assistants' salaries into line with what's being paid in other counties. You did this back in August, before I had anything to do with this Legislature, before I announced my candidacy. But now you are withdrawing them. I guess you think its smart now when you couldn't cut my pay, to place it back to where it was supposed to be....I am interested in law enforcement in this County. I have told you to keep my salary as it is, to keep the Assistants' pay raises, so that we can resolve this difficult situation in private session.

It was mentioned (that) I should give up my practice to work full time on a part-time position. No District Attorney in Orleans has been told to give up his practice. If you have a full time District Attorney, the law states that you have to pay significantly more than you paid my predecessor. I have put in 80-90 hours a week to do this job. I can't help it if the Governor felt, and the people on the caucus felt, I had the most experience to do the best job. I would like to do the best job. I am here in good faith. I have told you I will consent to a cut in pay for these people who are out several nights a week, keeping our homes safe. I feel terrible about starting here under these circumstances. I urge you to re-evaluate the situation.....can't believe you are starting things with a fight. I hope that time will show we can work together."

Legislator Tuohey commented that "Jim Punch ran an excellent office within the framework of his budget and that is all we are asking you to do until the end of the year."

Legislator Bower explained that the "salary was established for 1990 - \$52,000 for the D.A. and \$18,313 and \$12,500 for the two assistant positions. Those two figures were not reduced - they took the job at that. The D.A. came and said they will have more work because we will not have a D.A. - that we will have to make an effort in this situation, with Milford Phinney running the shop. I agreed with going with the three assistants and to elevate their pay - because we didn't have a D.A. If we had been told we would have a D.A., I would have agreed to continue with the status quo. Why should they expect more money? Only reason for the raise was because of the additional work.

There was further discussion and more "words" and Vice-Chairman Berger declared Mr. Cropsey out of order, and continued with the meeting.

Legislator McCarthy, with second by Legislator Bennett, moved to waive the rules to allow for the introduction of the following resolutions. Motion carried.

LEGISLATURE MEETING
November 14, 1990

The Chairman called the meeting to order at 4:30 p.m. After the pledge to the flag, the Clerk called the roll, and five Legislators were present, with Legislators Bower and Tuohey absent.

The Clerk presented the following communications: A letter from the Village Board of Holley stating they would be interested in a County-wide Garbage District; OTB Minutes from the September 27th Board meeting; a letter of acknowledgment from NYSAC regarding Resolution No. 281-590; a letter from Gordon Ritterbandt requesting an increase in rate of mileage;

A letter from the County Treasurer requesting permission to relevy unpaid school taxes on the 1991 County and Town Tax Rolls; a letter from the County Treasurer requesting permission to charge back erroneous taxes to the County and the respective Towns and Schools;

A notice from the County Planning Board stating their November meeting will be held on the 29th in Conference Room C at the County Administration Building; a letter from Lorraine Limina, resigning from the Orleans County Board of Health; a request from the Town Clerks and Tax Collectors, that the last day of the month printed as the due date printed on the County and Town tax bills - this year they will be printed in that manner;

A letter from Donald Butts, Principal of the Albion Primary School expressing disapproval of the Board's action in reducing sales tax revenue to the schools; also a similar letter from David Gee, Superintendent of the Medina School District, also from Ronald L. Sodoma, Superintendent of the Albion School District; Election Commissioner Certification from Democrat County Committee Chairman Teresa Martilotta recommending that Angelo A. Ricci, Albion, New York be appointed to the office of Commissioner of Elections for the term beginning January 1, 1991.

The County Treasurer spoke to the Board to tell them of the change in payment to the NYS Retirement System. The State has changed it's method in computing payments made by local municipalities to the NYS Retirement System. According to the State, the new system allows the Counties a "savings", so called

because, in some instances, certain Counties will not have to submit a payment to the Retirement System next year, or they may have to submit a smaller payment, thereby "saving" money. Orleans County has approximately \$190,000 in savings, because the County elected to pay the entire amount due the Retirement System, for its employees. This was done prior to the change authorized by the State. Instead of returning the overpayment to the Counties who have paid the entire amount, the State will hold the monies, and pay the Counties interest. Another part of the change made by the State, is that the State will be able to take 35% of what is called the County's "savings", and Mrs. Basinait said that there is another bill in the Legislature, which will allow the State to take another 35%. This bill is before the Senate right now, but it has indicated they the bill will be passed, without difficulty. Mrs. Basinait learned of this at the GFOA meeting earlier this fall. There are two lawsuits against the State - one brought by the Civil Service Employees Association and the other by the Treasurer's Association.

Legislator Bennett, with second by Legislator Swiercznski, moved to accept Mrs. Limina's resignation from the Orleans County Board of Health, with regret, and to thank her for serving on the Board. Motion carried.

Report of Standing Committees: Legislator Swiercznski reported attending his usual committee meetings. Also spoke of the problem the Village of Medina is having with J & I Disposal - they have contacted the Attorney General - J & I have raised their rates considerably.

Legislator Berger reported meeting with the Sheriff, D. A. at the Treasurer's office on November 1st; went to Genesee County with the Sheriff, to see the Genesee County Sheriff to discuss their Crime Victim's Assistance Program; met with Dick Clark at the C.D. Center to discuss the situation with the well on November 9th; attended the Safety Meeting; the Awards Meeting and the Soil and Water Conservation Board meeting on November 13th.

RESOLUTION OPPOSING REVISIONS TO FRESHWATER WETLANDS MAPS AND CLASSIFICATION REGULATIONS PROPOSED BY THE NEW YORK STATE DEPARTMENT OF ENVIRONMENTAL CONSERVATION

WHEREAS, the New York State Department of Environmental Conservation has proposed changes to its regulations for mapping and classifying freshwater wetlands (6 NYCRR Part 664) for the purpose of bringing the State into conformance with Federal "no net loss" policy;

WHEREAS, Orleans County already has approximately 10,380 acres of State-designated wetlands, comprising 4.1% of the total acreage of the County; and

WHEREAS, the existing State wetland regulations have prevented significant conversion of wetlands in the County and therefore sustained the "no net loss" policy; and

WHEREAS, the Draft Environmental Impact Statement on the proposed revisions does not adequately address the quantity and locations of additional wetland

subject to regulation, thereby making it difficult to identify impacts on property owners; and

Legislator Swiercznski, with second by Legislator Bennett, moved to recess the meeting subject to the call of the Chairman. Motion carried.

Meeting recessed subject to the call of the Chairman at 5:30 p.m.

LEGISLATURE MEETING
November 28, 1990

The Chairman called the meeting to order at 4:30 p.m. After the pledge to the flag, the Clerk called the roll and all Legislators were present.

The Clerk presented the following communications: A letter from the County Federation of Sportsmen's Clubs vigorously opposing the practice of snagging of fish, noting that this opinion reflects the opinion of some 1,000 subsidiary club members and sportsmen in Orleans County; minutes from the August 27th meeting of the Orleans County Fire Advisory Board; minutes from the October 25th meeting of the County Planning Board; agenda and minutes from the November 13th meeting of the Soil and Water Conservation Board;

Update from the Youth Board Director for the week ending November 2, 1990; a letter from the Executive Director of ARC explaining how children are placed in preschool programs, and how they would continue to be placed in the program;

A request from John, Mark and Maureen J. Torrey to have two parcels of land included in Orleans Agricultural Dist. No. 1; a letter from several individuals opposing the County's proposal to discontinue giving a share of its sales tax to the school districts; also a similar letter from the Barre Grange;

A request from Dr. David Hicks, Rochester, New York, who was a recipient of funds from the County Medical Scholarship Program, to be allowed to repay the grant to the County; a copy of the minutes from the December 26, 1989 Medical Scholarship Committee.

Prior to the report of Standing Committees, Legislator George Bower gave a presentation regarding the situation with the County Nursing Home, Medina Memorial Hospital and Park Ridge. Mr. Bower introduced himself to those in attendance at the meeting, and stated, "With respect to the Nursing Home crises - I am not anti-Park Ridge or Medina Hospital. I am for Orleans County and what is best for Orleans County. I would like to explain my position with respect to the Nursing Home expansion." Mr. Bower explained a graph representing cost figures on the Nursing Home, explaining that he had read through prior copies of the Proceedings of the Legislature, and found that nothing

had been done to counteract the deficit. Mr. Bower explained that by increasing the number of beds at the County Nursing Home, the Nursing Home would become self-supporting. Mr. Bower said he felt the Committee had suggesting reducing the number of beds at the Nursing Home in order to allow Park Ridge to apply for more beds. He said, "You have used the phrase "private sector" to the public with regard to paying taxes - they (Park Ridge) will not be paying taxes."

With regard to County debt, Mr. Bower said, "Nobody wants County debt - there's good debt and bad debt. I think the Marina was "bad debt" - most people in the County can't afford boats and docking fees. The Nursing Home would be "good debt". If we expend the debt for this facility, it will be paid by the residents through their payments. Run properly and staffed properly, with beds filled, the residents will pay for the debt of the Nursing Home."

"We are here because the Arnold Gregory Memorial Hospital wasn't run very well. Nobody really took a look at what was going on. Because of this, we have turned friends into enemies and that is not good in a small community. You know, every board - Legislature Board, Health Board or Hospital Board - is a very important position and we should take it as such. It is not a tea party, not a social club for the affluent - it's to make sure the Nursing Home is run properly, the hospital is run properly. It's really very important to take part in the Board."

"I for one - only speaking for myself, I have nothing to gain (because) I don't live here, I live in Holley. I have nothing to gain either way. I have looked at facts, have talked to the people, and believe it or not, the silent majority are in favor of the Nursing Home. I believe it's the way to go. I believe the real difference between myself, Mr. Bloom and Mr. Eddy, whom I respect, is that you care about the building and I care about the people. I am in support of expansion over Park Ridge. Thank you very much."

Report of Standing Committees: Legislator Berger reported attending the Inter County Association meeting in Kanona Lake on November 15th; the Fire Chiefs' meeting in Kendall on November 19th, also met with Sheriff Green on the 19th; met with the District Attorney on the 26th (4 times with the D. A.), present with the County Treasurer at the budget hearing; attended the County Awards Banquet on November 27th, and today met to discuss County waste haulers and the 800 radio MHz study.

Legislator McCarthy met with the Highway Department on three separate occasions; also with the Buildings and Grounds Department, and with the Director of Weights and Measures. Legislator Swiercznski reported attending his usual committee meetings.

Legislator Bennett reported his usual meetings; also noted that he had the pleasure of representing the Legislature at the 4-H Volunteer Recognition Night. Mr. Bennett also said he was asked about the letters sent out by the County Attorney regarding "games of chance".

Mr. Webster, the County Attorney, said, "There is provision in the State law dealing with Games of Chance that says that in any township, where the Sheriff is designated as the person policing these games, that a certain part of the proceeds - filing fees and percentage of the proceeds - that part is to be turned over in total to the County because we are providing that service of policing the games. That is what that is for. I sent letters out to every town that had a local law authorizing games of chance and I never heard anything in response to that.

The County Treasurer, Mary Basinait, said she had received a check from the Town of Clarendon in the amount of \$20.00. Mrs. Basinait, said, "It's been on the books and we have just gotten around to enforcing it."

Mr. Webster explained, "If a town passes a local law allowing games of chance, then this financial arrangement comes into effect. If the town has its own police force, okay; constables don't count. If the town doesn't have its own police force, then they must designate the County Sheriff, and if they do, then the County Sheriff's Department gets the money."

Mrs. Tuohey commented that the Sheriff doesn't have any option with regard to policing games of chance - he has to do this.

Legislator Tuohey attended the budget meeting with the District Attorney; attended the budget hearing on November 26th; attended an EAP Meeting on the 27th, a safety inspection of the Nursing Home also on the 27th, and attended the Awards Banquet Dinner on Tuesday evening November 27th, and attended the Radio Communications meeting held earlier today.

Legislator Swiercznski announced that the Cooperative Extension is having its Annual Dinner on Monday evening.

Mr. Rocco Sidari was given privilege of the floor and spoke to the issue pertaining to the AGM Hospital, Nursing Home and Medina Memorial Hospital. Mr. Sidari said, "With reference to AGM Hospital building/Park Ridge proposal, it did come up - that it's not a tax base for the community. You made mention time and again to Dick Eddy and Dick Bloom, I want you to include me and the rest of the Committee. I am the one that mentioned Dick Bloom for Chairman of that Committee. You represent some 30,000 in Orleans County, and we represent a few thousand concerned with the Park Ridge situation. I haven't changed my feelings yet. I am still going to be working until told differently. We will still be working to support Park Ridge."

Dick Bloom, Chairman of the Citizens Health Committee was given privilege of the floor and commented, "I have two comments (1)--George and I talked on the 17th of October and he is correct that responsibility does attach itself, whether it's here or as trustee of a hospital - one responsibility is to communicate. Mr. Bower said he would get figures to us in support of his stand, and was asked again on October 30th, and today we received those figures. We on the Committee feel that it's important for private capital to come in and revitalize the community. I don't expect it's fair to expect our Committee to respond. We are following it through, and we would like to sit down with some of you. Some disagree with what we already have done - this started March 8th, and has been a long time coming. On January 24th, the State committee of Health will make a final decision.....we asked to defer beds to Park Ridge in order to make it feasible for them to open the AGM building, and I have had no response. I do take exception to one figure - you show a profit in 1989, your auditors report does not show a profit." Legislator Tuohey responded, noting, "...listed on here is depreciation and amortization - it's strictly a book loss."

Mr. Henry Pawlak was given the privilege of the floor. Mr. Pawlak is a member of the Citizens Health Committee. Mr. Pawlak said, "I made a point (re tax exempt status of the proposal for AGM building) of stating that it was exempt - I thought everyone knew. I had a talk with John Kettle (Anchor Bank Manager) and he says they have a projected loss of \$250,000 if the AGM proposal goes down the drain - liens etc.....I have requested information from Heritage Foundation. The tendency is to go into privatization."

With regard to the portion of the resolution requiring all overnight out-of-county travel being approved by Legislature resolution, Legislator Bower said, "I believe that if you looked at them - the money you are going to pick up is minimal....most department heads will bring back something valuable to the County (from meetings they attend).

WHEREAS, this Legislature wishes to limit and cap the dollar amount of the next collections from sales tax to be paid to the School Districts to the dollar

amount that is paid in the calendar year 1990;

NOW, THEREFORE, BE IT RESOLVED, that Resolution No. 160 of the Year 1973 and Section 14(a) of Resolution 164 of the Year 1967 be and the same hereby is amended as follows:

A) Section 14(a)(2) is amended to add the following phrase, to wit, provided, however, that the monies hereby set aside and to be so distributed and paid shall not exceed, in the calendar year 1991 and all years thereafter, the dollar amount of the monies so set aside, distributed and paid in the calendar year 1990 and any portion of such 11.1111 percent of such monies in excess of the said dollar amount so set aside, distributed and paid to the School Districts in 1990 shall be and hereby are set aside for County purposes and shall be available for any County purpose. Said Section 14(a) as so amended shall read as follows:

(a)(1) 66.67 percent of such monies is hereby set aside for County purposes and shall be available for any County purposes

(2) 11.1111 percent of such monies is hereby set aside, pursuant to Section 1262(a) of the Tax Law of the State of New York for educational purposes and shall be distributed and paid quarterly to the several school districts in the County pursuant to the provisions of Section 1262(a) of said Tax Law, as amended, provided, however, that the monies hereby set aside and to be so distributed and paid shall not exceed, in the calendar year 1991 and all years thereafter, the dollar amount of the monies so set aside, distributed and paid in the calendar year 1990 and any portion of such 11.1111 percent of such monies in excess of the said dollar amount so set aside, distributed and paid to the School Districts in 1990 shall be and hereby are set aside for County purposes and shall be available for any County purpose.

(3) The remainder of such monies shall be allocated quarterly to the Towns of the County of Orleans being the entire area of said County in proportion to their respective populations including population within incorporated Villages determined in accordance with the latest decennial census or special census taken pursuant to law completed and published prior to the end of the quarter for which the allocation is made which special census must include the entire area of the County. Such amounts allocated to the entire County shall be applied first to reduce County

Taxes levied upon real property in the several Towns in such area. Any balance remaining shall then be applied first to reduce general Town Taxes levied upon real property in such area. Any Town by local law, ordinance or resolution, however, may provide that the amounts which would be so applied to reduce the County Taxes and general town taxes levied upon real property in such town shall be paid directly to such town to be used for any town purpose. If any Village, other than a Village within a County having a population of one million or more and containing not more than three towns by local law, ordinance or resolution shall so provide, the amounts which would be so applied to reduce the County and general town taxes levied upon real property in such Village shall be paid directly to such Village in lieu of such tax reduction. Where any Village has elected to be paid directly as provided in the subdivision, the amount to be paid to such Village shall be determined by the ratio that the full valuation of real property in the Village or portion thereof within the town in which such Village is located bears to the full valuation of real property in the entire town. If a Village, wholly or partially within a town has so elected to be paid directly, but the Town in which such Village is located has not elected, the amount allocated to the Town in which such Village is wholly or partially situated shall be applied to reduce County taxes and general town taxes in the area of the Town outside such Village. If the amount allocated to a town exceeds the amount of the County taxes and general town taxes levied upon real property in the Town, the excess shall be apportioned between the town and each Village, if any, wholly or partially situated therein, in the ratios that the full valuation of real property in each such Village or portion thereof within the Town, and the full valuation of real property in the portion of the Town outside such Village or Villages, respectively, bear to the aggregate full valuation of the entire town. The share of such Village shall be paid directly to such Village. The share of the town shall be applied, first to reduce taxes levied for part-town activities, and any balance remaining shall be paid directly to the town, to be used only for part-town activities. The amount to be applied in reduction of County taxes and general town taxes in each town may be determined on the basis of the ratio which the full valuation of real property in each town bears to the aggregate full valuation of real property in all of the towns in such County.

In the alternative, the amount to be applied in reduction of County taxes and general town taxes in each town may be determined on the basis of the respective populations of the several towns in such County, determined in accordance with the latest federal census or special population census taken pursuant to section twenty of the General Municipal Law, completed and published prior to the end of the quarter for which allocation is made, which special census must include the entire area of the County.

Any local law, ordinance or resolution enacted by a Town or Village pursuant to this subdivision shall only be effective for the calendar year or years subsequent to its enactment and, further, shall only be effective if it is mailed by registered or certified mail to the chief fiscal officer of the County in which the Town or Village is located before the first day of September preceding the calendar year for which the election is made of such local law, ordinance or resolution. Such local law, ordinance or resolution shall remain in effect for subsequent, calendar years until rescinded by local law, ordinance or resolution, but the enactment shall rescind the election only if it is mailed, in the same manner already provided for in the subdivision, to the chief fiscal officer of the County in which the Town or Village is located before the first day of September preceding the calendar year for which the rescission is to apply; and be it

FURTHER RESOLVED, that written notice of the adoption of this Resolution shall be given by the Clerk of the Legislature to the school authorities of the school districts in the County pursuant to Section 1262(e) Tax Law, at least six (6) months prior to the commencement of their fiscal years.

BUDGET FISCAL YEAR 1991

Adopted Orleans County Legislature

BUDGET MESSAGE 1991

TO THE HONORABLE MEMBERS OF THE ORLEANS COUNTY LEGISLATURE AND TAXPAYERS OF ORLEANS COUNTY:

Fiscal responsibility in the public sector starts with the preparation of meaningful financial facts - i.e., the County budget. However, fiscal responsibility is not just sound financial reporting, it is also the efficient management of resources, the elimination of waste, the improvement of productivity, and the use of modern management techniques. These are essential to any public official in making operating and planning decisions and in exercising control over government funds. In this, our proposed 1991 operating budget, we have endeavored to provide the Orleans County Legislature the means to control annual operations and to plan for the future. This objective reflects our best assessment of the directions the county government should take in satisfying its fiscal responsibilities.

We have developed, through our Capital Budget Plan, a three year plan to identify necessary resource commitments and program expectations. The projects or purchases selected for 1991 are listed in the respective operating budgets and also in its entirety on page 42. We have appropriated \$100,000 from the Machinery Fund to help offset major tax increases in the three year Capital Plan.

To avoid year-end surprises which can be caused by unrealistic revenue estimates or program cost overruns, we have subjected our revenues to an especially critical review to identify any weaknesses in assumptions and to assure that proper consideration has been given to changing tax bases. We have increased sales tax revenue by \$75,264, a 2% increase.

Many of the County Departments show a decrease in County cost for 1991 as compared to 1990. This was possible through changes in the State Retirement billing, and through concentrated efforts on the part of the Department Heads and the Finance and Budget Committee. The Education portion of the budget, however, showed

an increase of \$339,737 (32%) County cost which represents \$90,000 (17%) increase for Community College costs and \$254,212 increase (49%) in Education Handicapped Children, and a reduction of \$4,475 for Medical Scholarships.

Public Safety services, i.e., Sheriff and Jail, increased from \$1,285,698 County cost in 1990 to \$1,301,908 for 1991 (1%). This was largely attributed to increased salaries in accordance with the union contract and the additional cost of Policeman's Retirement, which was approved by the State Legislature. Probation costs to the County are increased by \$19,448 (6%) over 1990. Social Services County costs have risen from \$3,997,726 to \$4,238,684 (6% increase). This is a direct result of state mandated allowances for Medicaid (MMIS) and Aid to Dependent Children (ADC). In addition to this increase for 1991, it is expected that these same costs will escalate in 1990 to about \$68,000 County share above the 1990 budget estimate. This will, of necessity, reduce the 1990 fund balance. Office for the Aging shows an increase of \$4,065 (12%) from 1990, attributable to increased cost of the Homemakers and the Nutrition programs. County Highway costs will be decreased by \$123,856 (7%) plus \$200,000 will be designated from the Road and Machinery Funds as a surplus to reduce the Highway levy. Debt Service costs are partially offset by \$160,530 realized from interest on invested money from that account.

The County ended Financial Year 1989 with a marginally positive General Fund balance and projects that it will end Financial Year 1990 also with a marginal positive fund balance, unless sales tax performance continues to post negative growth through the rest of the year.

A budget needs to be an agreement between the executive and legislative branches as to what goals will, or will not, be pursued in the coming year. Since we are in an era when most budget debate focuses on where to cut, we are presenting a budget which provides essential County services and programs at an affordable cost to the taxpayer.

Respectfully submitted,

During discussion of the previous resolution, the Board members expressed concern regarding the service that GLOW was providing for Orleans County. The County Attorney explained that the people from GLOW have been working on the "larger picture". They have been talking about a plan for a four-county consortium, not a plan for Orleans County only. GLOW has put out a generic law that could be adopted by a town that says there will be mandatory recycling set by the board - nothing that would help the County-wide pick up. They have no specifications for bidding a project that is being anticipated by Orleans County.

Legislator Berger noted that Cornell University has done research regarding recycling, etc. that is available and asked if GLOW uses their information. Mr. Berger noted that there is a booklet from GLOW and that it contains all the information that the Cornell booklet contains. Legislator McCarthy said that Cornell has taken on the education part of the recycling project from GLOW.

Legislator Tuohy asked if the Committee was getting specifications together to go out for bid for roadside pick-up. She said the Town Boards in her districts were asking about this. It was noted that some of the towns had gone forward and gotten containers out for recycling, and the Chairman commented that the Village of Albion had done this also. Legislator Bennett stated that GLOW did provide some plans that the Town of Barre did use. Legislator Bower said that was his concern - the towns have proceeded on their own and said he wanted to know what GLOW is doing.

Legislator Berger, with second by Legislator
Bower, introduced a resolution entitled RESOLUTION
ESTABLISHING THE SALARY FOR THE DISTRICT ATTORNEY FOR
CALENDAR YEAR 1991. During discussion, the District
Attorney, Mr. Cropsey, said, "I would like to make it
clear. I had proposed that the District Attorney's
salary be reduced so that a Third Assistant District
Attorney position could be created. In September, the
Legislature agreed to it (third position). I do not
agree that this be reduced to \$42,000 without a third
position. I feel I should have \$52,000, the same as
Mr. Punch received, as long as I do not get a third
assistant."

The County Attorney said, "My opinion is that when he ran for the office (of District Attorney), that started a new term. It is my feeling the Legislature may set the salary for that position. You are not saddled with the salary that was in place for Mr. Punch."

Legislator McCarthy noted, "When Mr. Green was elected sheriff, they said he was elected to the job at that salary. I feel Mr. Cropsey deserves the same courtesy."

When asked if he wanted a third assistant, Mr. Cropsey said, "I don't know if I can get a third assistant.....Consequently, I wouldn't want to keep my salary at \$52,000 unless I could get a third assistant at \$13,125. You had cut me, eliminated the one-quarter secretary position - that money I proposed to give to Mr. Church. I am still asking that that money go to Mr. Church. He is now receiving \$12,500 and in 1991, he will be receiving \$13,125. I am still asking you to allow me to use that \$3,000 for Mr. Church's salary."

Legislator Swiercznski said, "I think to get it squared away - let's get it done next Friday." The rest of the Board agreed and the resolution setting the District Attorney's salary for 1991 was tabled until January 4, 1991.

Legislator Berger, with second by Legislator Bennett, introduced a resolution entitled RESOLUTION REINSTATING PREVIOUS CONTINUOUS FULL-TIME EMPLOYMENT CREDIT WITH THE COUNTY OF ORLEANS. During discussion, Mr. Dudek explained that basically, the Board had authorized the same privilege for the Director of the Health Department, Andrew Lucyszyn, and the Tourism Director, Don White. Legislator Bower felt the real problem was with the longevity, and asked Mr. Dudek to make a list of county employees who may qualify for longevity that have a break in service somewhere along the line. Mr. Dudek noted that when the Board did the resolution regarding the request for the Tourism Director, that everybody who voted on Mr. White's resolution agreed that longevity would be included. When asked how this situation was handled with Union people, Mr. Dudek explained that Union people are covered under the contract. The following resolution was then adopted:

PROGRAM: The Orleans County Department of History during 1990 presented 52 weekly columns on local history in the Medina and Albion newspapers. A photographic display mounted on four panels about the Art and Architectural treasures in the Historic Court House District was created for traveling use. The historian spoke (lectured) on various historical topics to a number of local groups and organizations both within and outside the county. A favorite topic was one on Stained Glass Windows. In the spring the historian traveled to Albany to take a course on state and local history presented by the State Historian for certification. An historic marker paid for by this department, was mounted at the Albion First Free Methodist Church in June. Plans were made for more markers to be erected in the Historic Court District. Several busloads of adults, a class from the Gennett School of Science and Man, and students toured the Historic Court House Square under the guidance of the historian.

PROGRAM: The funding we receive to operate our programs is federal and while each year we receive approximately 2 - 3% less, it is not affected by the recent New York State budget deficit problems. In fact, when the economy declines and the number of people unemployed rises dramatically, our funding actually increases. We expect 1991 to be especially difficult for the residents of Orleans County.

It is our primary objective to utilize the funding we receive to provide employment and training services to income eligible and dislocated residents of Orleans County. During 1990 it became increasingly difficult to locate employment opportunities for trainees who completed programs. During 1990, 142 trainees completed some type of training program with 90 being placed in unsubsidized employment. This represents a 63% placement rate. Adult completers averaged \$5.28 per hour at placement while youth completers averaged \$4.09 per hour.

The number of new welfare recipients began increasing in July and August and continued to rise through the end of 1990. This was atypical as compared to recent years (1988 & 89) when the number of welfare recipients was actually decreasing. Our responsibility to the Department of Social Services continues to be a strong one.

N.Y. State - Indigent inmates - not charged with crimes		\$ 7,048.40

* This is an increase of \$1,981.05 over 1989 revenues and a 295 % increase over the budgeted amount of \$4,000.00.

PROGRAM:

The Orleans County Public Defender's Office consists of three (3) part-time attorneys and a full time secretary, who is a certified Legal Assistant. The attorneys share responsibility of providing legal representation to poor persons charged in twenty-two (22) Town and Village Courts and in County Court. Representation of defendants charged with certain violations, misdemeanors and felonies involves, among other things: appearances at arraignments, discovery demands, pre-trial motions and hearings, trial, post-trial motions, revocation of probation and parole revocation hearings. Additionally, appeals may be taken which involve legal research, preparation of a law brief and oral argument in the Appellate Division, if the appeal is not submitted.

The Office handles other matters out of the Orleans and Albion Correctional Facilities concerning § 440 CPL matters, appeal from denial of parole; appeal from revocation of parole; Habeas Corpus and Parole Rescission hearings. These matters generated income of \$7,048.40. At this time there is serious question whether these matters will be funded in 1991 due to New York State budget cutbacks.

PROGRAM: The continuing job of keeping assessment and ownership and tax map records up to date has taken up most of the time in the dept. We coordinated processing and produced assessment and tax rolls for the four villages, five schools, and the towns and county. Most of this work was overseen by the Real Property System Coordinator, who does an excellent job. More of the towns are acquiring their own PC's. The work which is done on these PC's by the assessors is transferred to the main file at the Batavia office. The Director coordinated the efforts of the Treasurer's office, the Legislature, Buildings & Grounds in the location, posting, and sale of county-owned property.

CHAIRMAN'S ANNUAL REPORT
TO THE LEGISLATURE

Aging

Meals on Wheels continued to deliver meals to approximately 300 individuals throughout the county, and group meals were provided at five sites in the county as Senior Citizens meals. The Aging Department provided training and placement opportunities for individuals age 55 and over in cooperation with Job Development.

The Annual Walk-a-Thon was very successful raising over \$9400. The Department also provides Lifeline Emergency Response systems to frail individuals along with housekeeper and/or personal care aid.

The Aging Department obtained a grant from the State to improve some serious housing energy efficiency problems to Seniors. Some of these improvements were furnace repairs, roof repairs, and electrical and plumbing repairs.

Buildings and Grounds

This Department had an unusually busy year in 1990, including complete landscaping of the new Mental Health Building and complete set up of Records Management Center. The set up involved assembling storage shelves, painting labels on the floor, installing lights and a temperature control unit for mildew prevention. The Department constructed a handicapped ramp for the jail, began work on the Court House Square parking lot, and did extensive painting on parking lots, and painting of several offices around Court House Square.

Civil Defense

The year 1990 was the year of disasters with Orleans County getting hit hard by high winds, heavy rains, power failure. Some of the major fires and disasters, in some cases were Emergency Declarations were passed were: Village of Lyndonville, Feb. 16th State of Emergency declared for safety due to many trees and wires down; Kendall, Feb. 17 & 18, high winds knocked out power for two days; Barre, July 13, tire dump fire on Hemlock Ridge Road (two days); Albion, Oct 5 - 589 phone exchange throughout county out of service effecting all fire and emergency lines; Lyndonville, Oct. 13th - no phone service at Lyndonville Fire District due to cable being cut; and responded to 91 mutual aid or incident calls.

As for the improvements to the physical maintenance of the center - new doors and repaired windows on smoke house and electrical outlet, new smoke simulator in service for training, new VCR, TV, and tables in training room, painting, washing of floors and walls, repaired well pump.

County Clerk

The County Clerk office showed Deed transfers are 11% less than last year as decreases in mortgages, miscellaneous records, and other filings are realized while mortgage discharges, mortgage assignments, Lis Pendens and transcripts of judgments show increases in 1990. As an agent for the Federal Government, we accepted 342 passport applications.

Records Management grant monies provided staff to continue the identification, packing, and transfer of archival records to the Records Center while also disposing of a few obsolete documents.

The Motor Vehicle office processed 302 snowmobile transactions, 6,200 original registrations and 44,000 other types of transactions including renewals, duplicates and amendments. Total fees collected for the NYS Commissioner of Motor Vehicles was \$1,371,865. Sales tax collected on behalf of NYS Taxation & Finance totalled about \$259,000.

Elections

Each year, Elections must update the list of all registered voters in our County. The lists are then printed into 300 books which includes approximately 18,000 registered voters.

There is a total of 156 election inspectors that are named by both political parties. The Election office conducts five training classes for instructions on election laws and a refresher of procedures for primary and general election days.

In August, the Election Office sends out mail check cards to every registered voter in Orleans County. In 1990, 17,976 cards were sent out with 879 returned to the U.S. Post Office. This is an indication that 879 people moved either within or out of the county.

The November General Elections had a turnout of 10,713 voters which is a 68% turnout of the public in Orleans County.

Highway

We had a busy, productive year and some of the projects accomplished are: striped 170 miles of county and town roads, washed salt and sand from all county bridges; did extensive ditch and shoulder maintenance to county roads, maintained snow and ice control on all county parking lots. We improved the county roads by picking up litter and tires, installing culvert pipe and related ditch work.

The fuel farm pumped 277,159 gallons of fuel this year with a total of 28 accounts being serviced by this operation.

The Marine Park Phase II project began and is complete up to 98% adding a fish cleaning station, electrical service to the docks, and a shower house and operation center for the park. The park is very much in demand by boaters and has filled all slips for the season.

The Highway Department completely constructed four county roads, surface treated 10 county roads, and paved the parking lots at the County Office Building and Mental Health Building.

History

During 1990, the Orleans County Department of History presented 52 weekly columns on local history in the Medina and Albion newspapers. A photographic display mounted on four panels about the Art and Architectural treasures in the Historic Court House District was created for traveling use. The historian spoke (lectured) on various historical topics to a number of local groups and organizations both within and outside the county. A favorite topic was one on Stained Glass Windows. An historic marker was mounted at the Albion First Free Methodist Church. Several busloads of adults, a class from the Gennett School of Science and man, and students toured the Historic Court House Square under the guidance of the historian.

Job Development Department

We served 366 individual participants this year, a 63% increase.

Our department is continually working with area employers, educators, and other public professionals to identify employment opportunities, labor area demands, or shortages and programs to address the needs of the residents of our county. Our continued success is dependent upon a cooperative and supporting relationship with a variety of agencies such as the Orleans County Legislature, the G.L.O.W. Private

Industry Council, the Department of Labor and Social Services, organized labor, community based organizations, educational leaders in the community, local Chambers of Commerce, the County I.D.A., and area private sector employers.

Mental Health

1990 marked the first full year of operation for the Orleans County Mental Health Services from its new facility. Approximately, three thousand people received 5,818 units of service through the mental health clinic.

This year was the first full year of operation for the Psychosocial Club, a recreational program for the chronically mentally ill and the first full year of operation for the supervised community residence began in 1990. Except for acute inpatients treatment, Orleans County now offers a full continuum of services to those in need of assistance through the mental health system. The 24 hour emergency services as well as consultation services to the Orleans County jail and area hospitals and nursing homes served more people than ever before.

The department began the full implementation of computerization this year. All administrative functions, including budgeting, bookkeeping, billing, scheduling, statistical reports, and word processing were fully computerized.

Nursing Home

The Nursing Home continues the renovations that began in 1989 to the patient care areas with painting, and modifications as prescribed by the state. The stage located in the dining room was removed to enlarge and remodel the room for residents.

We continue the Certificate of Need process for the addition and renovation project which is badly needed in order to bring the facility more up to date.

Personnel and Civil Service

The Personnel Office serves two basic functions which are to administer Civil Service Law in Orleans County and to serve as the central personnel agency for County government. The Office is responsible for the administration of civil service law for all the towns and villages, and each school district including Orleans Niagara BOCES in the county.

Functions of this office include preparation of the salary schedule, administration of civil service examinations, salary surveys, orientation of new

employees including identification cards, maintenance of detailed employment history for all civil Service employees in the County, the review of the qualifications of all appointees to Civil Service positions, advising individual employees of their rights, benefits and responsibilities under the law and under collective bargaining agreements, providing assistance and information concerning retirement matters, handling unemployment claims, and organizing the Annual Employee Recognition Banquet.

Planning & Development

The department organized the establishment of an office paper recycling program with staff providing technical assistance to departments. This effort diverted over 5 tons of high grade paper from landfilling to recycling.

The Local Waterfront Revitalization Program, for future enhancement and conservation of the 25 miles county lakeshore was completed. The Kendall-Yates-Carlton Board made revisions of coastal maps and authorized submittal of the document for required state review.

The Planning Department prepared 43 reports on local zoning actions for mandated review by the County Planning Board. This involved research of the local zoning code and state and county development policy. The Department provided technical assistant to the towns of Kendall, Carlton, Clarendon, and Yates which included preparation of drafts of local zoning provisions.

Probation

The department served 483 clients at Family Court Intake and Justice Court Diversion. During 1990 we developed more rigid criteria for Intake Services, thus the number of clients diminished.

The department filed 80 Violations of Probation and conducted 23 Conditional Release Investigations for Hearing by the Alternatives to Incarceration Conditional Release Commission. Two inmates were given early release.

Although the actual numbers were lower in 1990 the level and intensity was higher due to the much increased incidence of substance abuse related crimes.

Public Defender

The Public Defender's Office has responsibility of providing legal representation to poor persons charged in 22 Town and Village Courts and in County

Court. Representation of defendants charged with certain violations, misdemeanors and felonies involves, among other things: appearances at arraignments, discovery demands, pre-trial motions and hearings, trials, post-trial motions, revocation of probation and parole revocation hearings. Additionally, appeals may be taken which involve legal research, preparation of a law brief and oral argument in the Appellate Division, if the appeal is not submitted.

The Office handles other matters out of the Orleans and Albion Correctional Facilities concerning appeal from denial of parole; appeal from revocation of parole; Habeas Corpus and Parole Rescission hearings. These matters generated income of \$7,048. At this time there is serious question whether these matters will be funded in 1991 due to the State budget cutbacks.

Real Property Tax Service Agency

The department coordinated processing and produced assessment and tax rolls for the four villages, five school districts, and the towns and county. Most of this work was overseen by the Real Property System Coordinator. More of the towns are acquiring their own Personal Computer. The work which is done on these computers by the assessors is transferred to the main file at the Batavia office.

The Director coordinated the efforts of the Treasurer's office, the Legislature, Buildings and Grounds in the location, posting, and sale of county-owned property in preparation for the county auction.

Self-Insurance

The Orleans County Self-Insurance Plan is responsible for Workers' Compensation cases for all County, Town, and Village Employees and Volunteer Firefighters. We enforce appointments and encourage safety programs to reduce health risks and high costs.

A \$15,000 state grant was received for use in training County, Town, and Village on-the-job safety. The grant was awarded by the Department of Labor and with the exerted efforts of all involved, safety will continue to be enforced and we will continue to offer training and guidance to promote safety. By doing this, we hope to help decrease the number and extent to accidents and injuries, therefore, decreasing the cost of the Plan.

Sheriff

The DWI arrests were up with a total of 125 arrests making this the highest count we have ever had.

Our investigators were busy with speaking engagements and crimes they investigated. We had the largest number of arrests involving drugs, however, we found many young people dealing in drugs.

The marine patrol had both boats in operation this season on Lake Ontario, Lake Alice and Oak Orchard Creek. With the summer season, the number of fishermen and tourists coming to our county, these areas were very busy.

The revenue for housing prisoners from outside counties was considerably lower at \$773,016. When the front office staff is moved across the street, the present office space would be converted into recreation area. The present recreation area would be converted to house approximately six more inmates which would help to bring our revenue up.

Social Services

The Department of Social Services experienced a rough year in 1990 - caseloads increased, costs escalated, and staff were asked to do more with less.

Several additions to programs were implemented. The Job Opportunities and Basic Skills Program is to provide clients with training, schooling, etc. to obtain skills which will remove them from the public assistance rolls. Transitional Medicaid and Day Care is also an attempt to assist families in making the transition from public assistance to employment. Medicaid eligibility was expanded to children one year of age through five, plus pregnant women.

Among the other programs in the department 1,595 households received \$506,263 in Home Energy Assistance; \$27,541 was recovered by the Fraud Unit; \$319,617 was recovered by the Resource Unit; and \$1,690,763 was collected by the Child Support Unit. We tried to shift our focus in Child and Family Services to prevention services, thus reducing the number of children in foster care and institutions.

Tourism Department

Orleans County is funded through the I Love New York Matching program which enables us to generate a successful promotional campaign. Another program we support is the cooperative programs with Niagara Frontier Region and Seaway Trail, Inc.

In 1990 we printed and distributed 40,000 county travel guides and participated in four travel and sport shows and two regional shows.

The department purchased and erected 15 historical markers, one in each of 10 towns, four villages and the County marker placed at the Pullman Church in the Village of Albion. A new program we conducted was a theme, photo and logo contest that involved all citizens in all areas of the county. A local artist created a poster which will be produced as the cover to our new travel guide. This poster depicts the primary attractions of Orleans County.

Veterans

In 1990, veterans of Orleans County received 5332 days of hospital in-patient care at the Department of Veterans Affairs Medical Center located at Batavia, New York and 1922 days at the Department of Veterans Affairs Medical Center located at Buffalo, New York for a total of 7254 days at these two Medical Centers. A total of 77 veterans of this county died during 1990. This office was contacted by 115 new veterans inquiring about services.

The United States Congress provided raises in pension paid to veterans, their dependents and survivors. There was a 5.4% increase in pension and compensation rates effective December 1, 1990.

Youth Bureau

The Youth Bureau continued Youth-At-Risk, At-Risk Employment, Parents Anonymous Programs for needs of the youth in Orleans County. The department prepared a Comprehensive Youth Survey which was distributed to the Youth Board for final approval. We are working together with the coordination of the school for its distribution and completion.

RESOLUTION AUTHORIZING THE FILLING OF VACANCIES IN VARIOUS COUNTY DEPARTMENTS

WHEREAS, Resolution No. 546-1290 requires a resolution from the Legislature before any vacancy can be filled; and

WHEREAS, requests to fill vacancies have been received from several County Departments:

NOW, THEREFORE, BE IT RESOLVED, that this Legislature does hereby authorize the vacancies listed below to be filled:

<u>Department</u>	<u>Position</u>
Social Services	Sr.Acct-Clk Typist (1)
Social Services	Coordinator, Child Support Enforcement (1)

Adopted. 7 ayes; 0 nays; 0 absent.

With regard to the aforementioned resolution, Social Services Commissioner, Mrs. Patricia Hardenbrook said these positions were very much needed. She

explained that the Child Support Enforcement Unit collected approximately 1.5 million dollars, and that some of that money is in cash. One person receives the money, another person is required to assist in counting the money, and a third person is required to go to the bank to make the deposit. The person in the Senior Account Clerk Typist position oversees the Account Clerk Typist and the Typist. With the filling of the Coordinator position, the County will save approximately \$5,000, since the new Coordinator will be placed in the Management Compensation Plan salary schedule at the first step. Mrs. Hardenbrook explained that the Typist position had been filled, but that the Account Clerk Typist position was still vacant. Mrs. Hardenbrook went on to explain that previously Judge Miles felt that it was better for child support to be paid to the Child Support Unit in Social Services, to be distributed the following day. She said the Department could be reducing the staff sometime in the year because the State is going to be collecting the money.

RESOLUTION NO. 10-191

By Legislator Berger, who moved the adoption.

Seconded by Legislator Tuohey.

RESOLUTION ESTABLISHING THE SALARY FOR THE DISTRICT ATTORNEY FOR CALENDAR YEAR 1991

RESOLVED, that this Legislature does hereby authorize the salary for the Orleans County District Attorney for the calendar year 1991 to be set at \$42,000.00.

Adopted. 6 ayes; 1 nay, Legislator Swiercznski; 0 absent.

During discussion of the foregoing resolution, Legislator Bower asked if any reply had been received from the State in regard to whether or not the election of a new District Attorney will be considered an extension of the previous District Attorney's position, or considered a new term. The County Attorney, Mr. Webster, said that he had not received a reply. The County Treasurer, Mrs. Basinait, noted that if it happens that the State considers Mr. Cropsey's election to the office of District Attorney a continuation of the previous District Attorney's term, and the salary has to be continued at the \$52,000 level, then the Board can correct the situation at a later date.

Legislator Bower, with second by Legislator Berger, moved a resolution approving travel for employees of various County departments. This particular resolution included two legislators, along with other County employees. There was discussion on this. Legislator Bennett said, "I think if we don't limit ourselves in travel, then we are no better than the State Legislature. Have all travel voted on - including legislators." Legislator Bower said, "It's hard for me to believe - I think we are talking about a salary of \$8400.00 for legislators, also with some getting Blue Shield, although I do not (get Blue Shield). Are you going to limit my travel also?" Legislator Berger, with second by Legislator Bower, moved to amend the resolution, by striking the two legislators' names from the resolution. Motion carried; 5 ayes; 2 nays, Legislators Bennett and Tuohey; 0 absent. After further discussion, the resolution was withdrawn. Legislator Tuohey said she wanted to see a list of each meeting the employees planned to attend.

RESOLUTION NO. 11-191

By Legislator Tuohey, who moved the adoption.

Seconded by Legislator Swiercznski.

RESOLUTION NO. 13-191

By Legislator Berger, who moved the adoption.

Seconded by Legislator Tuohey.

RESOLUTION SETTING THE TIME FOR REGULAR MEETINGS OF THE
LEGISLATURE

RESOLVED, that the regular meetings of the Legislature (after the annual organizational meeting), shall begin at 4:30 p.m. in the afternoon, instead of 7:30 p.m. in the evening.

Adopted. 7 ayes; 0 nays; 0 absent.

At the end of the meeting several things were discussed:

1) Legislator Bennett suggested amending the Rules of Procedure, and only process requests to fill vacancies on the last meeting of the month. Mr. Bennett felt it would be better way to handle the requests, and would save the County money. The Chairman said this could be discussed at a later time.

2) Legislator Bower suggested changing the Conference Session time to 3:30 with the meeting starting at 5:30 p.m. Legislator McCarthy agreed with Mr. Bower. However, Legislator Berger commented that by changing the times of the Conference Session and Legislature Meetings, it would probably be 7:30 or 8:30 in the evening before they were through. Legislator Swiercznski commented, and Legislator Tuohey agreed, that more people have attended Legislature meetings when they have begun at 4:30 p.m.; there was more public participation.

3) Chairman Billings noted that he had seen ads in school publications urging people in the district to bring in their preschool children for free testing.

This pertains to the Preschool Physically Handicapped Children's Education Program.

Legislator Swiercznski introduced a resolution entitled "Resolution Requesting School Districts and Providers of Preschool Handicapped Education Program Services to Minimize Costs". There was a unanimous second. The following resolution was then adopted:

RESOLUTION NO. 14-191

By Legislator Swiercznski, who moved the adoption.

Unanimous Second

RESOLUTION REQUESTING SCHOOL DISTRICTS AND PROVIDERS OF PRESCHOOL HANDICAPPED EDUCATION PROGRAM SERVICES TO MINIMIZE COSTS

WHEREAS, the New York State Legislature and Governor Cuomo have rolled back the State share of funding for preschool programs to fifty percent (50%) reimbursement for the 1991 budget thereby increasing the County cost of this program by \$181,481.00 to \$953,884.00; and

WHEREAS, the Orleans County Legislature has provided in its 1991 budget a figure of \$1,876,005 for these programs; and

WHEREAS, the program, since 1980 when it was \$36,000, has escalated to the amount of \$1,876,005.00 for 1991, an increase to the taxpayers of Orleans County of 5000% over 10 years; and

WHEREAS, the Orleans County Taxpayer is making major sacrifices to the infrastructure of Orleans County in order to maintain social programs;

NOW, THEREFORE, BE IT RESOLVED, that the Orleans County Legislature instructs you to make every effort to contain waste and live within the dollars provided in the 1991 budget by your benefactors, the Orleans County taxpayers.

Adopted. 7 ayes 0 nays; 0 absent.

The County Treasurer, Mrs. Basinait, said she had received a voucher from the Cooperative Extension for 1991. She noted that there was discussion that outside agencies that receive money from the County should be cut two percent, and asked direction from the Board. Mrs. Basinait said she couldn't make payment until there was a contract in place with the County, and in

order to have a contract, she needed to know the amount of funding to be appropriated for the Extension - the amount originally approved in the budget or that amount, less 2%. Mrs. Basinait said this information is needed for all contracts the County has with outside agencies.

Legislator Bennett asked about committee appointments, and Mr. Billings said that the committees are in effect, until they are changed.

Legislator McCarthy, with second by Legislator Swiercznski, moved to adjourn. Motion carried.

Meeting adjourned at 3:45 p.m.

LEGISLATURE MEETING
January 9, 1991

The Chairman called the meeting to order at 4:30 p.m.. After the pledge to the flag, the Clerk called the roll, and all Legislators were present.

The Clerk presented the following communications: A request from Walter Weatherbee asking to have his land included in the Clarendon Agricultural District; a letter from Governor Cuomo's office acknowledging receipt of Resolution No. 521-1190; a letter from the Soil and Water Conservation District agreeing to a 2% reduction in their funding received from the County; also from the Swan Library of Albion.

Report of Standing Committees: Legislator Tuohey reported attended the Safety Committee Meeting, and the Town of Clarendon Board Meeting - the Town of Clarendon is going to get into recycling.

Legislator Bennett announced that the Past & Present Association of the County Supervisors and Legislators will hold their January meeting at the Apple Grove in Medina at 7:00 p.m.

Legislators Swiercznski and McCarthy reported attending their usual meetings with department heads.

Legislator Berger reported attending the Safety Committee Meeting, the Soil and Water Meeting and the Town of Ridgeway Board Meeting. Legislator Bower reported attending his usual meetings with department heads.

During the open discussion portion of the meeting, the Chief Administrative Officer explained that the people who were to attend the Conference Session earlier in the afternoon - from RAM Communications - were not able to attend, but would attend the next regularly scheduled Conference Session. Legislator Berger noted that the CSEA ratified the mileage change, from 22.5 cents to 26 cents per mile. Chairman Billings asked about the situation regarding the jail modifications, and Mr. Dudek said there was a resolution on the agenda pertaining to that.

Legislator McCarthy said that he had looked at the former D.A.'s office, prior to the Sheriff's offices moving to that location. He said there were two modifications to be completed. One, the painting is almost completed, and two, Buildings and Grounds will

be enclosing porch on the southeast side of the building. Mr. McCarthy said everything was progressing well. He noted that the Probation offices were being painted at the present time. Chairman Billings reported that the Assistant Buildings and Grounds Superintendent Dave Stevenson, and his wife, who were injured in an automobile accident, in November, were still in the hospital at the Erie County Medical Center, but that they would be moved shortly.

Mr. Billings noted that a letter had been received from the NYS Department of Law with regard to the County and Townships of Orleans County receiving a portion of the fines imposed upon Orleans Sanitary Landfill. The letter stated this action had to be authorized by the New York State Legislature; legislation authorizing this has to be adopted by the Legislature. Mr. Billings said that a resolution is being drafted and would be ready for the next meeting, requesting that the State Legislature authorize distribution of these fines to the County and to the Townships of Orleans County.

After the adoption of the resolutions, Legislator Bower referred to the Arnold Gregory Memorial Hospital building, and noted that the State now says that the building is not conducive for the facility that Park Ridge is proposing - not up to standards for a nursing home. He noted that Park Ridge will tear it down and build additional nursing home beds. Mr. Bower asked if the Board could go on record as unanimously supporting the expansion of the Orleans County Nursing Home. Legislator Swiercznski said that he felt the Legislature has already indicated this by the resolution previously adopted backing the expansion, but also approving of the expansion by providing funding for one year to get the project started. In reference to this, Legislator Bennett commented that he still felt it was a matter of private versus public funding. Legislator Tuohey stated that the last resolution stated that this Board did not oppose "batching" the applications, and felt that the question should be whether the Board wants to let that resolution stand. Legislator Swiercznski asked if it

would be feasible to continue with the Nursing Home expansion, under the present budget constraints, or to only refurbish the Nursing Home. Legislator McCarthy commented that the County was going to refurbish the Jail for additional income, and felt that the project should continue at the Nursing Home.

Legislator Berger, with second by Legislator Swiercznski, moved to adjourn. Motion carried. Meeting adjourned at 6:30 p.m.

Report of Standing Committees: Legislator Tuohey reported attending a meeting with the District Attorney with Legislator Berger, to discuss personnel problems in the D.A.'s office; Mrs. Tuohey also attended a meeting with the Probation Department on the 16th, and the EMS Council meeting at the C.D. Center on the 16th; attended Assemblyman Hawley's hearing on the 19th and attended the Fire Chief's Association meeting in Lyndonville on the 21st.

Legislator Bennett reported attending several meetings with his various departments, and asked the Legislators to be sure and notice the orange ribbons recently put up around the Square in honor of the United States forces serving in the Mid-East conflict against Iran. Mr. Bennett said the Flower Station in Albion, Personal Touch in Medina, and the Town of Barre Garbage Club donated the ribbons, along with the American Legion.

Legislators Swiercznski and McCarthy reported attending their usual meetings with their department heads.

Legislator Berger reported attending the Town of Yates Board meeting on January 10th; the Town of Ridgeway meeting and the Fire Awards Banquet on January 12th; the Village of Lyndonville's meeting on January 14th; a meeting with the Probation Department and the EMS Council on January 16th; on January 17th, Mr. Berger was at the Legislature Office, Soil and Water Conservation District Board offices; met with Wayne Hale, Director of Planning and Development, with regard to State land useage-dealing with tourism; attended the Hawley get-together on January 19th and on January 21st attended the Chamber of Commerce meeting in Medina, and the Fire Chief's Association meeting in Lyndonville; attended the Village of Medina Board meeting on January 22nd. Mr. Berger said he had spoken with the DWI Coordinator in Niagara County regarding the DWI Program in that County. The problem with the program is follow-up - no County department will volunteer to do follow-up, the responsibility seems to be passed from one department to the other.

Legislator Bower attended the Youth Board meeting the previous evening - January 22nd. The director's resignation has gone into effect. Chairman Billings,

Legislators Swiercznski and Bower met with Mr. Swan a couple of weeks ago to try to strengthen the Youth Board - it rarely has a quorum. Five members were at the meeting - there have been three resignations, and one member doesn't qualify. This individual will be notified. Next Thursday, the Board will have a list of those who have resigned and a list of people who want to be active on the Youth Board. Mr. Bower said he would have a resolution appointing new members to the Youth Board - they will be meeting the third Tuesday of the month, at 7:00 p.m. At that time, the Board will consider the direction and goals for the Youth Board in the future. The Interim Director, Stan Dudek, will be reporting back to the Legislature with recommendations for the Youth Board. He will be trying to get an active Youth Board in place. Chairman Billings thanked Mr. Bower for his report.

The County Treasurer, Mary Basinait, and Finance Committee Chairman Marcia Tuohey, handed out copies of the year-end report. Mrs. Basinait noted that the cash balance at year's end was better than anticipated. Mrs. Tuohey reported that the departments have handed in their 2% reduction recommendations and that the next step is for the Finance Committee to meet with the County Treasurer, and go through them. The Finance Committee will be recommending that \$177,047.00 of the 2% total consisting of \$210,617.00 be put into the Contingent Fund, with the difference being put into a Highway Reserve Fund, since the difference is actually funds from the Highway Department, and cannot be included in the Contingent Fund.

During the open discussion portion of the meeting, Michael Weisenberg of Kendall was given privilege of the floor, and said he was concerned about the raises listed in the Local Law, and asked where the funds were coming from in order for these raises to go into effect. Chairman Billings explained that these salary increases were included in the 1991 budget. Mr. Weisenberg said he was concerned about more debt being incurred for these increases. Mr. Billings explained that the County cannot go into debt for salary increases, only for capital projects.

Legislator Tuohey said that a letter from Jim Tompkins of Architectural Finishes, Ind. of Barker had been received by the County Treasurer, requesting information on the Moses Fence Company property, which the County had taken in the last In Rem Foreclosure procedure. Architectural Finishes, Ind. is interested in purchasing the property from the County, for back taxes. Mrs. Basinait in turn, had referred the letter to Mrs. Tuohey, since she is the Chairman of the Finance Committee. Mrs. Tuohey asked the County

Attorney, Norris Webster, the status of the property. Mr. Webster went through the entire In Rem Procedure used by the County. Mr. Webster also said the Steve Isaacs, from the County I.D.A., has been working on this project, and found that the Moses Fence Company is in bankruptcy. This further complicates the matter, and raises a question with regard to the County's status in the matter - the County will have to contact the bankruptcy trustees.

Mr. Webster said the SBA stated they had sold the property to someone sometime ago. In checking with the County Clerk, those records do not disclose a deed with regard to selling this property to anyone else. There will be a question with regard to title because of the In Rem and depending when the sale occurred.

Legislator McCarthy said that particular property was sold at auction, attended by only one person, who purchased the property from the Federal government for \$50,000.00 cash - Mr. Frank Lakey. Mr. Lakey, who lives in Niagara County, has a quit claim deed from the Federal government. Mr. McCarthy, who works for a Realtor, said Mr. Lake listed the property for sale and signed a listing agreement, as the owner and presented the Realtor with a legal looking document from the Federal government that says he is the owner.

Legislator Tuohey stated that the bottom line is the County getting almost \$23,000.00 worth of back taxes. Mr. Webster said that once the County determines what liens there are against the property, it will be placed in the next In Rem and the County will continue its next foreclosure procedure. Mrs. Basinait explained that there are back taxes due on that property since 1987. She also noted, that the resolution dealing with the sale of properties taken In Rem, says that if its a commercial property, it can be listed for sale right away. Legislator Tuohey asked the County Attorney if he was going to check the title further and Mr. Webster explained that there really isn't anything the County should or has to do right now - the County is protected. As yet, the County has not notified the other three lien holders that the County Treasurer has mentioned. The County can't offer this property right away - it has to be part of the In Rem foreclosure procedure in order to give people time to redeem it, if they so desire.

Legislator Tuohey asked Mr. Webster to take the letter from Architectural Finishes, Ind. and write a reply to explain the situation.

During discussion of the previous resolution, Legislator Bennett commented, "I realize we have to save money, but I am in favor of this (local law) because of the commitment made in the past with the unions. However, this is the last of these I am going to vote for." Legislator Berger said he would rather see a specific amount given to a person, noting that if someone earned \$40,00 a year, that person would be getting a higher increase than someone who earns \$20,000 a year. There was discussion on whether or not Legislator Bower should vote on the resolution, since there might be a conflict of interest. Mr. Bower and the Administrator of Personnel and Self Insurance, Sandra Bower, are husband and wife. Mr. Bower decided to abstain from voting for this reason.

RESOLUTION AUTHORIZING THE DEMOLITION OF DAMAGED AND DILAPIDATED STRUCTURE ON COUNTY-OWNED PROPERTY

WHEREAS, the County of Orleans in the deed consummating the last In Rem Tax Foreclosure Proceeding acquired title to the following described parcel:

Parcel No. 7 Harry P. Loss
Tax Map No. 73.06-3-91 246 E. Bank Street
 Albion, New York 14411
Being known as 246 E. Bank Street, 66.00x123.00';

and

WHEREAS, in accordance with Resolution No. 108-386, the Buildings and Grounds Department has

inspected the subject property and determined that the structure thereon is so dilapidated as to be beyond reasonable renovation or rehabilitation and that the same may be a hazard or nuisance and has reported such condition to this Legislature;

NOW, THEREFORE, BE IT RESOLVED, that this Legislature does hereby authorize the Buildings and Grounds Department to demolish the structure on the above mentioned parcel and to make the premises safe and secure so that the same does not constitute a hazard or nuisance; said demolition is subject to approval of the County Attorney.

Adopted. 7 ayes; 0 nays; 0 absent.

After the adoption of the previous resolution, the County Attorney said he wanted to have someone say it (the property) violated the code. The village of Albion code enforcement officer said he would do it, but then discovered that it was county-owned property, and felt the County Code Enforcement Officer should do it. Mr. Stevenson is in the hospital, and won't be back to work for quite some time. Mr. Webster thought that the County could contact the village once more, under the circumstances. Mr. Webster wanted photographs taken of the property before the demolition is started, also he wanted to be sure the property has gone through the second stage of the In Rem Procedure and that there are no liens or judgments on the property.

Legislator McCarthy stated that the problem with the property is the safety factor - the County has installed snow fence in front of it and has done the best that it can to keep people from entering the property. Mr. Webster again reiterated, that he was concerned about whether or not there are any liens or judgments against the property.

Legislator Bower spoke about volunteering at the Nursing Home. Legislator Swiercznski had spoken earlier about volunteering to drive patients to the doctor and/or hospital, and commented that it helped the patients and the Nursing Home, as well as the personal satisfaction he received from doing this. Legislator Bower said that the Nursing Home was looking for volunteers to pass water to the patients between 9:00 and 9:30, additional help on LIFELINE and to transfer patients from the Nursing Home to doctors' offices and/or hospitals. Mr. Bower said there were many opportunities for volunteers at the Nursing Home.

Legislator Berger had several requests from the Sheriff's Department:

- 1) Pay raise for Ellen Tuohey? The Board said her pay should be raised to \$6.00 per hour;
- 2) Information regarding the move of the Sheriff's Office from the Jail to Cunneen Hall. CAO Stan Dudek said that it would be best to receive approval from the State for the site, and at that time, move the offices. The County is waiting for State approval.
- 3) Information regarding gun permits. Judge Punch contacted the Sheriff and his clerical staff seems to have free time and would be willing to help out doing pistol permits. The Board saw no problem with this arrangement. The permit will be issued in

the Sheriff's Office, and the clerical and all necessary paper work will be handled in the Judge's office. The Board agreed to this.

- 4.) Information regarding an Agreement with the MRB Group. Mr. Dudek will be looking into the matter.
- 5.) Office Space for the Victims' Assistance Program. The Sheriff mentioned the Historian's Office. It was suggested that he talk with the Buildings and Grounds Superintendent to see what space is available.

Legislator Berger said he would get back to the Sheriff with this information.

Legislator McCarthy asked if it would be possible to arrange to have the Red Cross use the facilities at the Health Department for one afternoon in order to allow for County Employees, who wish to do so, donate blood to be used for our troops who are serving in Saudi Arabia and the Persian Gulf. Chairman Billings said there would be no problem with that, and suggested arranging for a time when the Legislature would be meeting so they could participate.

Health Department Administrator Andy Lucyszyn told the Board that the Governor's bill on Early Intervention for 0-3 Year Olds - Physically Handicapped Program would be passed this year. The State Health Department is holding an informational meeting on February 26th at 1:30 p.m. - with all involved in the PHC-Ed. Program invited to attend.

Mr. Dudek mentioned that the Buildings and Grounds Superintendent and Assistant Superintendent have been out of the Step and Grade system. After discussion, Legislator Tuohy suggested referring the matter to the Finance Committee.

There was discussion on the equipment formerly designated for use by the District Attorney. There is a copier, a FAX machine and a computer. Legislator Bower said that the Sheriff had asked that the computer be placed in his office. John Pratt, Veterans Service Agency Director, had also requested the computer. Mr. Dudek explained that based on the needs the Sheriff has, it would be best to place the computer in the Sheriff's Office. Motion by Legislator Berger, with second by Legislator Swiercznski, to authorize the placement of the computer in the Sheriff's Department. Motion carried.

With reference to the FAX machine, Legislator Bower moved, with second by Legislator Berger, to authorize the placement of the FAX machine in the Health Department office. Motion carried.

Legislator Swiercznski, with second by Legislator Berger, motioned to recess the meeting, subject to the call of the Chairman. Motion carried.

Meeting recessed at 6:20 p.m.

Chairman Billings, upon a request from Legislator Swiercznski, called for a moment of silence in memory of Justin Roberts who died the previous week. Mr. Roberts had served as a member of the Orleans County Board of Supervisors many years ago.

The Clerk presented the following communications: Minutes from the February 26th Board of Health Meeting; minutes from the January 28th Fire Advisory Board Meeting; minutes from the September 26, 1990 and January 16, 1991 Orleans County Local EMS Council meetings; an announcement from the Orleans County Local EMS Council that the next meeting will be held March 20th in Albion, at 7:30 p.m. along with an agenda for that meeting; minutes from the February 7th meeting of the Orleans County Planning Board, an agenda for their February 28th meeting and a schedule of meetings for 1991; announced that the NYSAC Spring Conference will be held March 10 -12, 1991 at the Albany Hilton Hotel.

evening and that the solid waste problem was discussed.

Legislator McCarthy reported attending his regular meetings. Mr. McCarthy said he had inspected the property in the Town of Yates, for which the County had been cited, and upon further investigation, Mr. McCarthy said that apparently the Town had done away with that particular law. However, there were five unlicensed vehicles on the property, and an old boat. The Chairman asked if these vehicles could be removed, since they were on county-owned property. The County Attorney said he would look into the matter.

Legislator Berger attended the Yates Town Board meeting on February 14th; the Magistrates Meeting at the Jail on February 18th, with the Sheriff from Livingston County speaking on a Work Release Program; Mr. Berger also attended the Fire Chiefs' Meeting in Medina. Mr. Berger said the Village of Medina board meeting had been cancelled, and would be held this evening - the 27th.

During the open discussion portion of the meeting Dan Cook, reporter from the Journal-Register, asked if anything had been received from the NYS Health Department regarding the request for additional beds for the Nursing Home. Chairman Billings said nothing had been received, and noted that the NYS Health Commissioner David Axelrod had been taken ill and was in an intensive care unit at a hospital in Washington.

During discussion on the previous resolution, Chief Administrative Officer Stanley Dudek explained how the Central Typewriter Repair account was formed, and the purpose of the account. The fund eliminated many of the individual maintenance agreements previously held by many of the Departments. (The account had originally been called in the resolution "Equipment Repair Account". Chairman Billings spoke to the Board regarding the solid waste problem. He said the problem had been discussed at the Supervisors' and Legislators' Meeting on the 26th, and that they were "pretty much in agreement with the direction we are going...Don't know if (any of) you have seen a copy of the Cooperation Agreement Norris has put together...I think we are coming to the point where we need some support from this Board."

Legislator Bower said he had been asked, by several different people, what about the elderly, or those who only have the need for one bag of trash to be picked up once a month. Chairman Billings said the question was brought up at the Supervisors' Meeting regarding seasonal people - he noted that there are people from all over the County who are away for six months out of the year - those people would not be satisfied with what the County is proposing. Legislator Tuohey said that fees can always be lowered, but that she felt the County should go ahead and get quotations, and see what the costs will be; that it might even be necessary to rebid the project.

CAO Stan Dudek said that decisions have to be made on a number of things - (1) Number of bags to be picked up, (2) Size of the bags, (3) The means of identifying parcels to be included in the district. He also said it was necessary to have this information within the next few weeks. With regard to the parcels to be included, Legislator Tuohey said that it should be up to the Town Assessors.

With regard as to whether or not to charge churches, schools, municipalities, fire companies, etc., the County Attorney felt the charge should be straight across the board - that everyone should pay. These are "user fees".

With regard to mobile home parks - Mr. Dudek explained that they will have an option - anyone in the park who wants a pick-up will contract with the company.

Chairman Billings reiterated that a Municipal Agreement had been put together by the County Attorney, and could be sent out to the Towns and Villages. Motion by Legislator Swiercznski, with second by Legislator McCarthy, authorizing the Chairman to mail out the Municipal Agreements to the Towns and Villages, along with a cover letter explaining what the County is proposing. The County Attorney will draft a letter for the Chairman to include with the Municipal Agreement.

Legislator McCarthy requested that the Marine Park be listed on the March 13th Conference Session Agenda, as a discussion item.

The Board also decided to place a resolution authorizing bidding on the County's garbage proposal on the agenda for the March 13th meeting.

Motion by Legislator Bower, with second by Legislator Swiercznski, to adjourn. Motion carried.

Meeting adjourned at 6:45 p.m.

Mr. Bower noted that the Sheriff had not submitted a program to prevent drunk driving, and that Sheriff Green also said he did not want to attend outside meetings. Legislator Berger said he had attended a regional meeting, and that the majority of the STOP DWI programs are operated out of the Sheriff's Department or the District Attorney's office. Legislator Bower said he would like to see what the Sheriff is proposing to stop DWI, noting that there was nothing like this in his proposal. Mr. Bower felt there should be.

Mr. Dudek said that there was a STOP DWI plan that was adopted by the Committee last year, and is in place, even though there are a number of parts of that plan that have to be approved by the State. There were some weaknesses in the plan that the Sheriff has to address. It was noted that the Coordinator administers the STOP DWI funds, under the direction of the Committee. Legislator Swiercznski did not foresee any problems with the Sheriff serving as Coordinator. Legislator Bennett suggested appointing Sheriff Green as Temporary Coordinator for three months, to see how it works out, and if the Board feels that it isn't working in the Sheriff's Department, then change it, and appoint another Coordinator.

Legislator Bennett, with second by Legislator Berger moved to amend the resolution, appointing Sheriff Green Temporary Orleans County STOP DWI

Coordinator for a three-month period of time. Upon vote, motion passed, 4 ayes; 2 nays, Legislators Bower and McCarthy; 1 absent, Legislator Tuohey. The following resolution was adopted:

Adopted. 4 ayes; 2 nays, Legislators Bower and McCarthy; 1 absent, Legislator Tuohey.

Legislator Berger, with second by Legislator Bennett moved a resolution authorizing the Sheriff to fill the Undersheriff position. During discussion, it was noted that Dick Metz of Medina will be the person to replace Undersheriff Merle Fredericks, when he retires. The point was raised as to whether or not the new Undersheriff would have to give up his retirement upon his appointment. Legislators McCarthy and Bower expressed concern over this, and Legislator Bennett said it was not the concern of the Legislature. Legislator Bower asked the County Attorney to look into the matter. The following resolution was then adopted:

RESOLUTION NO. 150-391

Legislator Swiercznski, with second by Legislator Bower, introduced a resolution approving an agreement between the County and the Sportsmen's Federation. During discussion, Legislator Berger said he had a problem with the County's funding for the Sportsmen's Federation being used to sponsor a child to the Conservation Club Camp. Mr. Berger felt that other organizations might make similar requests for the County to sponsor other children for camp.

Mr. Peter Germeo, President of the Sportsmen's Federation was given privilege of the floor. Mr. Germeo said that many individual sportsmen's clubs had dropped from their organization, and funds are needed from the County. Mr. Berger reiterated that the only thing he objected to as the County sponsoring six children to go to Conservation Club Camp. Chairman Billings said he would speak with Mr. Germeo regarding the matter.

Legislator McCarthy moved to call the question, and the following resolution was adopted:

RESOLUTION OPPOSING GOVERNOR'S PLAN FOR "DAY REPORTING" FOR CERTAIN CONVICTED FELONS RATHER THAN INCARCERATION

WHEREAS, there is a plan to allow "Day Reporting" for certain convicted felons, rather than having these individuals incarcerated for the length of their sentence; and

WHEREAS, this is being suggested under the guise of saving the taxpayers money; and

WHEREAS, prison inmates are provided certain privileges, which cost a great deal of money, such as -

- inmates are paid up to \$120.00 per week, while taxpayers pay all their expenses;
- inmates are paid by private industry while on work release with their families receiving welfare during this time;
- inmates can receive a college education while

in prison, at the expense of the taxpayers;

- inmates are provided with four conjugal visits a year with their families, regardless of the type of sentence they are serving;
- inmates are provided with elective and cosmetic surgery;
- special temporary "bubbles" are constructed to serve as gymnasiums for the inmates, at a cost of \$30,000,000 to the taxpayers and use approximately 430 gallons of fuel oil per day for each such gymnasium;
- inmates are provided with HBO and cable T.V., as well as being entertained by outside guests, DJ's and live music for their enjoyment; and

WHEREAS, it would seem to be more feasible to cut some of these privileges from the prison program, in order to help balance the budget, rather than allow inmates who are serving a sentence for various serious crimes, to be given the opportunity to be released from prison, reporting to a correctional facility near their home on a daily basis;

NOW, THEREFORE, BE IT RESOLVED, that this Legislature does hereby oppose any plan which would allow "Day Reporting" by convicted felons to nearby prisons, rather than having these inmates serve their sentence inside a correctional facility; and be it

FURTHER RESOLVED, that in order to cut back on expenses, this Legislature is in favor of eliminating some of the aforementioned privileges from the prison program.

Adopted. 6 ayes; 0 nays; 1 absent, Legislator Tuohey.

The resolution regarding salary increases for part-time clerks in the Board of Elections was withdrawn from the agenda.

Mr. Peter Germeo was given privilege of the floor and spoke to the issue of snagging salmon. Mr. Germeo said that trout were being caught along with the salmon; that trout are always running with the salmon. Mr. Germeo said that in the law book, nothing south of Sandy Creek shall be snagged, only fished. He said he understood that snagging would be limited only to the month of October.

Legislator Swiercznski said he had discussed with the Tourism Director, Don White, the prospect of obtaining the dollar impact banning snagging of salmon would have on our area. Mr. White will report back at a later date.

Legislator Berger requested that copies of minutes of meetings held by the Orleans County Sportsmen's Federation be sent to the Clerk of the Legislature, office to be on file.

Jack Reuther, of the Lake Alice Home Owners Association, spoke to the Board regarding the Sheriff's boat patrol, and asked that the Board purchase a boat for use by the Sheriff's Department (even a used boat) and noted that the Legislature had agreed to this a year ago. Chairman Billings explained that the Sheriff does have a boat to use for patrolling; however, it does need to be repaired. The Sheriff can still patrol on Lake Alice.

Motion by Legislator McCarthy, with second by Legislator Swiercznski, to adjourn the meeting. Motion carried.

Meeting adjourned at 6:00 p.m.

LEGISLATURE MEETING
April 10, 1991

The meeting was called to order by Chairman Lyndon Billings at 5:00 p.m. After the pledge to the flag, the Clerk called the roll, and all Legislators were present.

The Clerk presented the following communications: Announced that the next Inter-county Meeting would be held April 15th in Stafford, Genesee County, New York; announced that the minutes from the March 21st Inter-county meeting were on file; letters from the Villages of Holley, Lyndonville and Albion requesting tax exempt status for their sewer and water system; a letter of acknowledgment from the Governor's office regarding Resolution No. 168-391; extended an invitation to the Board members to the Genesee/Orleans Youth Bureau scheduled for April 16th at the County Administration Building; announced that minutes from the March 19th meeting of the Youth Board were on file.

Standing Committee reports: Legislator Swiercznski reported attending his usual meetings; announced that the Town of Albion has a grant to extend the village water line from the old Bemis Bag plant to the County Nursing Home. The Town is asking the County to share in the expenses that exceed the estimated \$170,000 cost for this extension;

Legislator Bennett attended his usual meetings, and announced that the next Supervisors and County Legislators Meeting will be held at Ricci's at 7:30 p.m. on April 16th;

Legislator Tuohy attended the pre-bid conference on the proposed garbage pick-up bid; attended the Clarendon Town Board meeting where there was discussion on the garbage proposal.

Legislator Bower reported attending his usual meetings, and announced that he would be unable to attend the Youth Bureau open house, and asked the other legislators to try and attend the open house.

Legislator Berger attended the Knowlesville bridge dedication with Legislator Swiercznski and Chairman Billings on March 29th; attended the Safety Committee meeting and the MRB Group meeting on April 2nd (the Town of Ridgeway meeting was cancelled); attended a STOP DWI meeting with the Sheriff and Chief

Administrative Officer on April 11th; attended the village of Lyndonville meeting on April 8th, and the Soil and Water Conservation District Board meeting on April 9th.

Legislator McCarthy reported attending regular departmental meetings; also meeting on Weights and Measures, which will be reported on at a later date. Mr. McCarthy noted that the new machine to print cards at the fuel farm has been installed and is in use. Mr. McCarthy gave each legislator a print out showing the disbursements of fuel, and the income received; also gave each legislator a copy of the bridge proposals received from various engineers.

Norris Webster, County Attorney, reported he had received a telephone call from the County's insurance company carrying the policy on property owned by the County, the Moses Fence Company. It seems that Mr. Lake, who is in the process of buying this property, has also insured it with the same company. The question is, who should carry the insurance on the property. Mr. Webster noted that there are still some liens against the property, and felt that it would be best leaving the County's insurance in place.

With regard to the County's solid waste disposal-recycling project, Mr. Webster said that many of the towns and villages who had replied to his letter were concerned about the cost and recycling. There seemed to be some confusion - that even though the contract talks about recycling, and would comply with the State law (when that law comes into effect) requiring recycling, that is not what these municipalities are considering; their main concern is cost. Chairman Billings said he had asked Mr. Dudek to prepare a news release regarding recycling.

During the open discussion, Medina Journal reporter Dan Cook asked if the County had receive confirmation with regard to "bed batching" from NYS Health Commissioner Axelrod. Legislator Swiercznski said that the County had received approval from the State Health Department a couple of weeks ago, but nothing actually from Commissioner Axelrod.

Legislator Berger someone had spoken to him about having to park at the far end of the parking lot at the County Administration Building. Mr. Berger said he was under the impression that County employees were to park at the far side of the parking lot, allowing the general public to park nearer to the building. The suggestion was made to designate a specified area for public parking; nothing definite was decided upon.

Legislator Swiercznski, with second by Legislator McCarthy, moved to waive the rules to allow for the addition of a resolution extending date for receipt of solid waste disposal bids to the agenda. Motion carried.

The following resolutions were presented:

RESOLUTION NO. 169-491

Legislator Berger removed the resolution pertaining to the agreement between the Sheriff's Department and MRB Group authorizing MRB to prepare bid specs for the Jail renovations from the table. There was general discussion on the proposal. Mr. Dudek said he had met with the MRB Group to discuss what needs to be done, and commented that if there were more time, the County people could do most of the work - the exception being the move of the dispatch center. MRB did agree to lower their fee from \$25,000.00 to \$19,500.00. Mr. Dudek said this was done because MRB had included the \$4,000.00 owed to them from their previous agreement with the County - actually MRB reduced their fee by \$1,500.00. With regard to financing the proposed project, Legislator Tuohey said it would be accomplished by bonding, to be carried out under the direction of the County Treasurer and the County Attorney, (with no outside assistance). Since the County will not have to hire a Consultant/Advisor to do the bonding, this will result in a savings.

Legislator Berger moved, with second by Legislator Tuohey, to amend the resolution removed from the table, by changing the fee being charged by MRB from \$25,000 to \$19,500. Motion carried. The following resolution was then presented:

LEGISLATURE MEETING
May 8, 1991

The Chairman called the meeting to order at 4:30 p.m. After the pledge to the flag, the Clerk called the roll and all legislators were present.

The Clerk presented the following communications: a letter of acknowledgment from Governor's Cuomo's office regarding resolution No. 169-491; announced that the Western NY OTB Board Meeting minutes for March 28th were on file; announced that Inter-county Association meeting will be held at the Sunrise Hill Inn, in Farmington, New York; announced that the Board was invited to the "Homecoming Tribute" to be held by Sheret Post #35 American Legion of Albion during the Annual Strawberry Festival, Saturday, June 15, 1991 on the Court House steps.

Report of Standing Committees: Legislator Tuohey attended the "Bootstrap" meeting on Section 8 Housing; the Leadership Meeting with Legislators Bennett and Billings on April 30th - sponsored by the Extension; attended the Safety Committee meeting; attended the Trash Bid Opening; attended the Barre Town Board Meeting on May 6th (Legislator Tuohey said she had taken a copy of the low bid to the meeting for that Board to consider); attended the EAP Meeting Tuesday morning, May 7th - funding from the machines was discussed.

Legislator Bennett reported attending his usual committee meetings. Mr. Bennett also noted that Mr. Sidari had asked him to request permission for the Legion to use the Court House steps for their "Homecoming Tribute" scheduled for June 15th. Motion by Legislator McCarthy, with second by Legislator Bennett, to allow the Sheret Post #35 American Legion to use the steps for this ceremony. Motion passed unanimously.

Legislator Swiercznski reported attending his usual committee meetings;

Legislator McCarthy reported attending his regular committee meetings. Mr. McCarthy said he met with a representative from the Village of LeRoy, to discuss their trash/garbage pickup procedure. The Village of LeRoy picks up on a per bag basis. Garbage and leave bags are sold in grocery stores. Garbage bags sell for \$1.05 (the store is allowed to add \$.05 per bag) plus

7% sales tax. Leaf bags are sold for \$.55 each, plus the 7% sales tax. Mr. McCarthy said that garbage recycling is a temporary item. Three trucks are involved. There is a \$130.00 charge at the beginning of each year, plus the cost of the bags. Mr. McCarthy said he felt Orleans County's proposal was much more reasonable. He was going to check with North Tonawanda, who also charges on a per bag basis. Mr. McCarthy said it was a very complicated bidding process.

Chairman Billings announced that the next Genesee Regional Fingerlakes Planning Board Council will be held on June 13th on the "Spirit of Rochester" at 11:00 a.m.

Motion by Legislator McCarthy, second by Legislator Bower, to adjourn the meeting. Motion carried.

Meeting adjourned at 5:25 p.m.

LEGISLATURE MEETING

June 12, 1991

The Chairman called the meeting to order at 4:30 p.m. After the pledge to the flag, the Clerk called the roll, and all legislators were present.

The Clerk presented the following communications: notification of the Inter-county meeting scheduled for June 20th at the Apple Grove Inn - Orleans County is host county; a letter from NYS DEC regarding their proposed amendment to Freshwater Wetlands Mapping and Classification Regulations; the annual report from the Orleans County Mental Health Department;

An invitation from Sheret Post No. 35 - American Legion to attend their "Homecoming Tribute" to the Persian Gulf vets scheduled for 12:30 p.m., June 15th on the Court House Steps; a letter from the Kendall Town Board appointing Paul Gray to the County Planning Board as their representative; copies of resolutions from the Cortland County Legislature regarding their support for "PINS" (Persons in Need of Supervision) legislation, Parental Financial Obligation legislation, Increase in Age of Compulsory Education legislation;

A letter from NYS Ag & Markets stating they had conducted a field review on January 23rd on Orleans Agricultural District No. 1; February 25, 1991 minutes from Orleans County Fire Advisory Board meeting; April 25, 1991 minutes from Western Regional OTB Corporation; a letter of acknowledgment from Senator Daly regarding the County's resolutions on State support for the Orleans County Soil and Water Conservation District and support for a motorcycle safety fund; a request from Torrey Farms, Inc. requesting that certain parcels of their land be included in Orleans Agricultural District No. 2;

A letter from the Barre Town Board stating that they do not wish to sign a Municipal Cooperation Agreement for County-wide curbside pick-up, and recycling; a letter from the Barre Town Board stating they do not intend to participate in the proposed County-wide Solid Waste Curbside Pick-up and Recycling Plan at this time;

A letter from the Ridgeway Town Board stating they had adopted a resolution stating the Town of Ridgeway is in favor that the County retain the position of Orleans County Real Property Tax Director as full-time

for at least one year; a letter from the Ridgeway Town Board stating they were in favor of the Trash Collection and Recycling bid as presented by the County's C.A.O. Stan Dudek at their meeting.

A letter from John Fox, Supervisor, Town of Shelby, stating the Shelby Town Board is in favor of the County's efforts to secure a solid waste contract for the entire County.

Report from Standing Committees: Legislator Tuohy attended the Barre Town Board meeting, where the solid waste situation was discussed on June 3rd; attended the EAP meeting on June 4th, as well as the Safety Committee meeting at 10:00 and the Clarendon Town Board meeting on solid waste at 7:30 p.m.; met with the solid waste contractor regarding any problems that might arise;

Legislators Bennett and Swiercznski attended their regular department head meetings, with Legislator Swiercznski attending the Gaines Town Board meeting;

Legislator McCarthy attended his regular meetings. Legislator McCarthy reported that one of the employees of the contractor doing the paving on County Line Road suffered a heart attack and died, despite CPR given by two County employees. Mr. McCarthy also reported that the County bridge on Oak Orchard River Road had been reinspected, and the weight restriction was being lifted, with repair costs being \$1,000 to install guard rails; also that the Eagle Harbor Road bridge south of Waterport was reinspected, and the cost for repairs is approximately one-third of the initial estimate. Mr. McCarthy reported that if telephone panel in the jail does not have to be moved, it would save the County \$36,000 - noting that it was something that should be considered. Mr. McCarthy also attended a Senior Citizen meeting in Medina, as well as several municipal meetings dealing with the County's solid waste plan, and said there was concern among the senior citizens about the cost of the plan on those individuals who are on fixed incomes.

Legislator Berger attended the Yates Solid Waste hearing on May 23rd; the STOP DWI meeting and Medina meeting on May 28th; the dedication of the historical marker in Knowlesville honoring the farmer who first settled in the community; the Safety Meeting on the afternoon of June 4th, as well as the E911 meeting in the evening - the fire chiefs marked out the ends of their districts, and the beginning of the neighboring fire department; the Medical Scholarship meeting on June 5th; did the auditing during the afternoon of June 11th and attended the Soil and Water Meeting in the

evening. Legislator Berger said he had written to and had received a letter from Senator Daly regarding the costs involved in order for a DWI offender to get their license back, due to the fact that the offender is required to attend a course at a community college (Orleans County does not have its own community college, and, therefore, the County's offender has to attend a community college in another county - usually Genesee Community College). Mr. Berger said he did not feel the County should have to pay 1/3 of the cost for a County resident and 1/3 of the cost for a State resident. Senator Daly felt that the DWI offender should pay for 1/3 of the cost. Mr. Berger had written to Assemblyman Hawley to see if he could do something about this in the Assembly. Both Senator Daly and Assemblyman Hawley were surprised of the County's responsibility in this situation.

Legislator Bower attended his usual department head meetings, as well as the Village of Lyndonville meeting on Monday evening and the Carlton meeting on Tuesday.

County Attorney Norris Webster spoke of a purchase offer on property in Knowlesville. The United Methodist Church of Knowlesville wishes to purchase a parcel of land that is the old trolley right-of-way. Mr. Webster said he had contacted the three other property owners around this parcel, and had received letters from them indicating that they had no objection to the transfer of this property to the church. Legislator McCarthy said he had checked with a realtor regarding the value of the parcel in question, and that it has limited retail value. Legislator Bennett suggested that the Church write a letter to the Legislature requesting to purchase this parcel for the sum of \$150.00. Chairman Billings agreed, stating that if there are no objections, then the board can act upon the purchase offer at a later meeting.

During the open discussion portion of the meeting, Mr. Elton Hellert, a lakefront property owner in the Town of Yates (Lane 8), was given privilege of the floor. Mr. Hellert was concerned about having to pay then entire amount for garbage pick-up, when he was only a seasonal resident at the lake during the summer months. Mr. Hellert noted that he, and many others, were also paying the same amount at their residences located elsewhere in the County, and in some instances paying for the same service in a different county. One property owner asked how to get out of paying the garbage fee. Another property owner noted that there were laws in certain townships that restrict the time for staying at the lake. This individual stated he had tried to get the designation changed, but the reason

that he was given for not doing it, was that there were no emergency services during the winter - the road to his cottage was just a right-of-way.

Mr. Dan Gnoza, a resident of Amherst, owner of a seasonal cottage in the Town of Yates, noted that everyone already pays for garbage pick-up at their home - that they do not need the service the County will be providing at their cottages. Mr. Gnoza also felt there should have been better notification of the meeting being held today. Legislator McCarthy said that Mr. Hellert had said he owned a cottage in Yates, and he did not want to pay the proposed \$177.00 fee for garbage pick-up. Mr. McCarthy asked Mr. Hellert to attend the meeting and express his views.

Legislator Berger, said he had seen Mr. Hellert the previous morning, and asked if he had attended the solid waste meeting held May 15th in the Court House or the Town of Yates meeting held on May 23rd. Mr. Berger said, "I have been down some of the roads - I suggest letting them make their own arrangements and get a dumpster. We went through this about five years ago. Again, we are requested by the towns and villages. The County has asked towns to get back to us by June 7th, in order (for the County) to get back to the bidder by June 15th."

Mr. Peter Stelianou of Lyndonville said he had property in the Town of Cuba, and they always sent him notices whenever the town is planning to do something that would involve him simply because he owns property in the Town of Cuba.

When asked Ms Boudlaw asked if in essence the Legislature was saying there is nothing it could do, that the people would have to go back to the township. Chairman Billings said, "No. The decision is here - how to bill, and other pertinent details involving the proposal."

Mr. Duggan, who owns lakefront property in Town of Yates, noted that cottage owners are not in residence for six months of the year, and asked if the Board would consider breaking the payment down to cover a three-month time period cottage owners are in residence. Mr. Duggan said he would be agreeable to that proposal.

With regard to the billing, Mr. Billing explained that if a property owner has two houses on one property, then he (the property owner) will be billed twice.

WHEREAS, an examination and analysis of the 1990 Decennial Census Data reveals the following adjusted

Average population per Legislator 9,983 and overall deviation of 10.63%; and

WHEREAS, the overall deviation using the 1990 Census figures is 10.63%, somewhat less than the overall deviation found in the Court approved plan using the 1980 Census figures; and

WHEREAS, various Court decisions have held that deviations of under 10% are de minimus and that districting plans having such de minimus deviations are prima facie constitutionally valid and that deviations of up to 11.9% are justified by the need to respect the boundaries of towns within a county;

RESOLUTION SUPPORTING NEW YORK STATE SENATE BILL S.6095 AND ASSEMBLY BILL A.8498 REGARDING MEDICAID AND WELFARE REFORM AND SENATE BILL S.6008 REGARDING MANDATE RELIEF IN GENERAL TO LOCALITIES

WHEREAS, Senate Bill S.6095 and Assembly Bill A.8498, co-sponsored by Senator John B. Daly and Assemblyman Tallon, creates systems of "manage care" for Medicaid recipients by designating doctors and medical providers who are approved by the Medicaid Program, similar to the procedure used by Health Management Organizations (HMO's) in the private insurance field; and

WHEREAS, the aforementioned bills provide for a 30-day residency requirement before an individual can receive NYS Public Welfare Aid and also requires able-bodied public welfare recipients to find employment after receiving 90 days of public assistance; and

WHEREAS, said bills also provide other cost containment features such as a guarantee for the Department of Social Services to obtain bank data on financial resources of welfare applicants, provides an evaluation program for costly home health personal care programs and extends Medicaid utilization thresholds to ADC and SSI assistance programs; and

WHEREAS, Senate Bill S.6008 focuses on mandate relief for localities by providing, for example, the prompt payment of state aid or assessment of interest penalties, the revision of road maintenance standards and bid ceilings for highway and bridge projects, and by permitting school districts to lease rather than having to build new buildings for short-term uses and also allows them flexibility on mandates on instructional programs;

NOW, THEREFORE, BE IT RESOLVED, that the Orleans County Legislature does hereby support Senate Bill S.6095 and Assembly Bill A.8498 calling for Medicaid and Public Welfare Reform and urges its passage by the Assembly; and be it

FURTHER RESOLVED, that the Orleans County legislature is in support of Senate Bill S.6008 regarding relief from state mandates for localities and urges that the Assembly pass a similar bill which will ensure mandate relief to localities, which is so desperately needed; and be it

interviews were set for 7:00 p.m.

Legislator McCarthy said he felt the County was "way ahead of the garbage situation". Mr. McCarthy noted that when he discussed this with legislators from other counties at the NYS Supervisors and County Legislators Association Conference, they were all surprised at the price the county received on its bid - they felt it was a very good price.

Legislator McCarthy, with second by Legislator Berger, moved to adjourn. Motion carried.

Meeting adjourned at 5:40 p.m.

LEGISLATURE MEETING
June 26, 1991

The meeting was called to order by the Chairman at 4:30 p.m. After the pledge to the flag, the Clerk called the roll and all legislators were present.

The Clerk presented the following communications: a request and a check in the amount of \$150.00, from the Knowlesville United Methodist Church of Knowlesville for the purchase of a parcel of land adjoining the church property (resolution is on the agenda to approve the purchase); announced that a copy of the Inter-county Association minutes from the May 16th meeting is on file; a request from Betty and Paul Plowe, to add a parcel of land to Orleans Agricultural District No. 2 (Barre Ag District); a letter from O. Joyce White urging the Board to adopt the early retirement plan for Orleans County; announced that a copy of the May 23rd County Planning Board minutes is on file, also a copy of the minutes of the June 11th Soil and Water Conservation District Board meeting.

Report of Standing Committees: Legislator Tuohey attended the Supervisors' Meeting at the Village Inn on June 18th. On June 19th, at 8:00 a.m. Mrs. Tuohey attended the Cooperative Extension Leadership meeting, the Probation Department meeting at 2:30 p.m., the Special Board Meeting at 5:00 p.m.; attended the Inter-county Meeting at the Apple Grove Inn on June 20th, as well as the Assessors Meeting at the Town of Albion.

Legislator Bennett reported attend his usual meetings; also said he had been asked by the parents in the Girls Soft Ball League to use the field next to the Civil Defense Center. Mr. Bennett was advised to check with the County Attorney regarding the County's liability if the League was to use the field, also to check with Dick Clark and Legislator McCarthy.

Legislators Swiercznski and McCarthy attended their usual meetings. Legislator McCarthy reported he had met with Mr. Bingaman, Buildings and Grounds Superintendent, regarding "money-saving" changes in the County Jail's renovation project. The County might be able to save approximately \$36,000.00 if the telephone panel does not have to be moved. Legislator McCarthy said he would report back to the Board with a more detailed recommendation.

Legislator Berger reported attending the meeting with the School Board Chairmen on June 12th; the Regional Fingerlakes Planning Council meeting and the Town of Yates Board meeting on June 13th; the Strawberry Festival on June 15th; the Finance Committee meeting on June 17th; the E911 Meeting in Buffalo and Special Board meeting on June 19th; the Inter-county Association meeting at the Apple Grove on June 20th (Orleans County was host county); reported a drainage problem in hamlet of Knowlesville, which he and Gerald Scharping investigated; did the auditing on June 25th.

Legislator Bower attended his regular meetings, as well as the meeting in Holley regarding the County's Solid Waste Plan and felt that it was very well accepted.

A gentlemen spoke to the Board about the high water level in the lake, and said he had attended a meeting in Rochester regarding the situation. The Authority said they were not going to release more water because they felt the current level was needed for navigation purposes, and for power - there seemed to be no concern regarding the lakefront damage the high water level was causing.

County Attorney Norris Webster said he had spoken with the contractor regarding a possibility to have an arrangement for residents the County defines as seasonal. Mr. Webster said the County will have to decide how this will be done, most likely using the tax rolls. He noted that not all residents placed and designated on tax rolls as seasonal, are in actuality seasonal.

Mr. Harry Anderson and Don Enderby both emphatically informed the Board that they did not want the County's Solid Waste Plan, nor did they need it. Several seasonal residents from the Town of Yates spoke regarding to the plowing of roads in the winter, and asked how trash pick-up/recycling could be carried on if the roads were not plowed. Jack Zimmerman of Medina asked if the contractor would be amenable to a fifty percent (50%) adjustment, or possibly only bill for one-quarter of the year. Legislator Tuohey said that it had been proposed to the contractor to charge lakefront seasonal residents for six months, instead of twelve. The contractor is looking into that. Concern was expressed by Mary Penter, of the possibility of trash left by weekend people, being scattered, because the pickup would not occur until the end of the week. Legislator Berger explained that the contractor has said he will arrange his routes so that lakefront properties will be picked up on Monday.

County Attorney Norris Webster explained that the County is operating under the State; that after September 30, 1991, every County (in New York State) shall have their plan and shall be taking care of their garbage and recycling. Orleans County is to be the Lead Agency. We have attempted to address this as a County so that we will be in line with the State law; so that Orleans County will be in compliance with the State law.

Chairman Billings said, "We will listen to everybody and take what you say into consideration. We appreciate your coming out."

Legislator Bennett, with second by Legislator Swiercznski, moved to waive the rules to allow the addition of six more resolutions to the agenda. Motion carried.

The following resolutions were presented:

Legislator Berger mentioned that there had been a question regarding the swimming ability of one of the deputies on Marine Patrol, and noted, that it had never been a requirement for the Marine Patrol. Legislator Berger said he hoped this would take care of the matter.

Legislator Bower said, "It bothers me about the beginning swimmers being in a boat and being told not to get out of the boat to get someone in the water. This type of policy bothers me - beginning swimmer on the boat."

With regard to a voucher submitted by Mental Health paying for a boat ride on the "Miss Apple Grove Inn" for certain clients, as part of their therapy program, Legislator Berger asked how the Board felt about paying the voucher. Legislator Tuohey said, "I think there should be a letter along with the payment

that we feel they are being a little too generous with the taxpayers dollars."

Legislator Tuohey asked how the Board felt about going to bid for the County's insurance coverage. After discussion, it was the consensus of opinion that the Chief Administrative Officer should advertise for bids for the County's insurance coverage.

County Attorney Norris Webster noted that he had changed the penalties on the late payment of solid waste disposal user fee, so that they are the same as the penalties for late taxes. Mr. Webster also advised the Board that they should be thinking about the charge for every parcel receiving solid waste disposal and recycling services. At this point, Legislator Tuohey said she proposed to give the towns (who are participating and, therefore, collecting) \$1.00 for each parcel receiving the service in their town and/or village.

RESOLUTION APPROVING AMENDED GENERAL CHARTER OF POLICY
OF THE ORLEANS COUNTY MEDICAL SCHOLARSHIP BOARD

BE IT RESOLVED, that this Legislature does hereby approve the "Amended General Charter of Policy of the Orleans County Medical Scholarship Board", which reads as follows (added sections are underlined):

AMENDED GENERAL CHARTER OF POLICY
ORLEANS COUNTY MEDICAL SCHOLARSHIP BOARD

WHEREAS, Chapter 964 of the Laws of Nineteen Hundred Sixty-Three did add a new section 610-a to the Education Law authorizing County scholarships for professional education in medicine; and

WHEREAS, by Resolution No. 126, adopted on September 8, 1966, the Orleans County Board of Supervisors found a need for continuous medical services in this County and did thereby create the Orleans County Medical Scholarship Board to implement such chapter for this County; and

WHEREAS, such Medical Scholarship Board has heretofore appointed and organized and wished to establish a given policy of guidance in its workings in order to carry out the intent of such resolution and such chapter,

NOW, THEREFORE, the Orleans County Medical Scholarship Board does hereby determine the following to be its policies to amend its General Chapter of Policy as follows:

1. That the scope of such Board is limited to the authority granted in such resolution and chapter and that its sole purpose is to determine methods which best implement the same with regard to Orleans County; and that the contents of such resolution and chapter are incorporated hereby by reference.

2. That all requests for appropriation made to the Orleans County Legislature shall be based on due regard for the need and demand for scholarship grants, as hereinafter outlined, for the academic year commencing during the county fiscal year. That the

public's money shall be so granted as prudently as possible; and that this Board shall estimate its need for appropriation as closely as possible for the following academic year and present the same to the Legislature for timely consideration in connection with the budget adopted for each fiscal year.

3. That such scholarships shall be granted only to residents of New York State who will qualify under Chapter 964, Laws of New York, 1963, who have satisfactorily completed a premedical course in college, who have been admitted to a duly approved medical school in this state, as defined in such chapter, and who also are determined by this Board, in its discretion, to be recipients of such scholarships. That in exercising such discretion, this Board shall consider;

(a) the general willingness of the recipient to practice medicine in Orleans County as a general practitioner and/or family doctor, and particularly to serve a general area of the County found by this Board to be in need of medical service;

(b) the financial need of the recipient for such a scholarship and the amount thereof; and

(c) that normally preference shall be given to Orleans County residents.

4. That upon awarding any such scholarships, the Board shall determine the amount of the same, provided, however, that the maximum award for any one recipient shall not exceed \$18,000.00 nor shall any award exceed \$4,500.00 to any one recipient for any one scholastic year. The \$18,000.00 maximum may be awarded in the discretion of the Board over four years of medical school or over a longer time including medical school, internship and post-graduate study. The amount of the award and the duration of the award shall be in the discretion of the Medical Scholarship Board after considering the financial need of the recipient measured as to his own available resources, the probable cost of the school or hospital selected, and reduced by any other scholarships available to the recipient. It will be the policy of the Board to grant a scholarship or scholarships, annually to a qualified recipient, or recipients, for the period necessary to complete his medical training and internship subject to the standards set forth above.

5. That the recipient of any such County medical scholarship shall agree, in writing, to devote his/her full time to the practicing of medicine in a mutually agreed upon area within the County, where it is

determined that there is need for medical service, for a period immediately following his/her licensing and/or internship as a physician equal to the one year for each \$3,000.00 assistance received by the recipient that he/she receives financial assistance from this Board. This Board and the recipient, with approval of the Orleans County Legislature, may by mutual consent alter these terms for cause or reason found to be good and sufficient by this Board. Such causes or reasons may include, but are not limited to:

- (a) A recipient who does not complete his/her course of study for any reason;
- (b) A recipient who, upon licensing is found to have abilities which should not be restrained by such an Agreement;
- (c) A change or shift in areas in need of medical service;
- (d) A recipient who desires to enroll in postgraduate studies may be allowed to commence his Orleans County Practice following the completion of postgraduate work.

That the recipient of any such scholarship from this County shall so contract with this Board and such contract shall provide that if the recipient does not perform the same, that he/she shall repay to this Board the amounts of all advances including the payment of interest at a rate determined by the Orleans County Legislature Board not to exceed 15% per annum computed from the date of such failure, refusal or grant inception. Any amounts so repaid shall be available for future scholarship grants.

6. That nothing herein contained shall act as an automatic grant of scholarship to any person who desires to study medicine, but that such grant shall be considered in connection with the probable need for adding or replacing general practitioners within the County. That this Board shall study and determine, in its best judgment, from time to time such needs of the County, measured with the number of applicants and the funds available for this program.

7. That this Board may grant any such scholarship only within the funds appropriated for the same by the Orleans County Legislature. It may also conditionally grant any such scholarship to a person, while completing the final year of a proper premedical course, within the amount of its appropriation, so that such student may be assured and plan for the continuance of his/her medical education.

8. That no person shall be granted or refused a

scholarship solely on the basis of sex, race, color or religion.

9. Board Organization.

- (a) The Board shall consist of nine (9) members with terms as set forth in Resolution No. 126, adopted by the Board of Supervisors on September 8, 1966.
- (b) Officers of the Board shall be a Chairman, a Vice-Chairman and a Secretary. These officers shall be elected by the Board from its body annually. The Chairman shall call such special meetings as he deems necessary, shall preside at all meetings and shall act as the executive officer of the Board. The Vice-Chairman shall act as Chairman in his absence, or at his request. The Secretary shall keep accurate records of all proceedings and meetings of the Board and be responsible for all correspondence necessary in the conduct of the Board's affairs.
- (c) That all agreements made on the part of this Board shall be signed by the Chairman or Vice-Chairman and attested to by the Secretary. That these same persons shall also make all necessary changes and required reports and requests to the Orleans County Legislature on behalf of this Board and all necessary certifications to the County Treasurer for the payment of funds to the recipients of scholarships.
- (d) Regular meetings of the Board shall be held at a time and place to be agreed upon by the Board and special meetings may be called at the pleasure of the Chairman or upon 5-days notice, at the written request of three members. The Chairman shall cancel any regular meetings should the need for the same not exist, causing timely notice to all Board members.

10. Surveys.

- (a) It shall be the responsibility of the members of the Board, who are physicians, to keep the Board informed on medical needs of the County, and with pertinent facts regarding the practice of medicine as needed by the Board in its work.

- (b) It shall be the responsibility of the members of the Board engaged in education to keep accurate information regarding the interest of qualified students of the County in medicine, and to keep the schools of the County advised of the opportunities for students qualified to enter medicine.

11. Relationship with County Legislature.

It shall be the responsibility of the Chairman of the Legislature, acting as a member of the Board to appoint two (2) liaison members between the Board and the County Legislature.

12. Publicity.

The Chairman of the Medical Scholarship Board shall annually appoint one or more members to prepare and distribute such accounts of the actions of the Board as necessary to further the work of the Board.

13. That those general policies may be amended by the Scholarship Board from time to time, in order to implement the purposes of such resolution and such chapter, or any additions or amendments to the same, and as this Board continues to analyze the problems of furnishing medical services to the people of Orleans County. No such amendment or change, however, shall affect any contract theretofore entered into without the mutual consent of the recipient.

FOR COUNTY EMPLOYEES WITH CERTAIN RESTRICTIONS

WHEREAS, this Legislature is considering ways to further reduce County expenditures for the remainder of 1991; and

WHEREAS, the proposal has been made that the Legislature allow County employees to take unpaid leave, for up to a maximum of ten days, without losing the ability to continue to accumulate sick leave time during the month the unpaid leave is used, provided such leave does not violate the terms of the union contract; and

WHEREAS, said leave is to be granted at the discretion of the department head;

NOW, THEREFORE, BE IT RESOLVED, that this Legislature does hereby authorize a maximum of ten days unpaid leave for County employees, without said employees losing their ability to accumulate sick leave time during the month the unpaid leave is used, provided such leave does not violate the terms of the union contract; and be it

Legislator Tuohey requested input from the Board in regard to information to be included in the Budget Officer's letter regarding the preparation of the 1992 County Budget. After discussion, it was the consensus of the Board, that the following information should be incorporated in the Budget Officer's letter:

1. Contractual portion of the Budget:

Department Heads should "Hold the Line" - the contractual budget should remain the same as for the 1991. The only exceptions will be in areas where the Department Head knows definitely that the State is going to mandate an increase in certain programs. In that case, actual state mandated increases should be included in the department's budget.

2. Personal Services:

- a). No Upgrades.
- b). No salary increases for those who have reached the top step in their grade. The only increases will be a step increase as stipulated in the union contracts currently in place in the County.

Legislator Berger read a letter addressed to the County C.D. Director Dick Clark regarding the State Outreach Training Program. The Program is sponsored through the NYS Department of State and the Office of Fire Prevention and Control (OFPC), and due to State budget cuts, the Dept. of State and the OFPC made the decision to reduce the training hour allocation of the Program, and to reduce the number of State Fire Instructors throughout the State. Orleans County, instead of having two such instructors, would have only one instructor. Mr. Berger was very much in opposition to this reduction, and the following resolution was presented:

RESOLUTION NO. 345-791

By Legislator Berger, who moved the adoption.

Seconded by Legislator McCarthy.

RESOLUTION IN SUPPORT OF RESTORATION OF FUNDING FOR THE DEPARTMENT OF STATE AND OFFICE OF FIRE PREVENTION AND CONTROL (OFPC) STATE OUTREACH TRAINING PROGRAM

WHEREAS, the enactment of the New York State budget for the current fiscal year forces reductions in the various branches of the State government; and

WHEREAS, the Department of State and the Office of Fire Prevention and Control (OFPC), in order to comply with the State budget, have made the decision to reduce the training hour allocation of the State Outreach Training Program and to reduce the number of State Fire Instructors throughout the State; and

WHEREAS, this reduction in training will impair the ability of fire departments to have individuals who are properly trained in the use of firefighting apparatus and in the most up-to-date firefighting methods; and

WHEREAS, this impairment will effect the safety of the firefighters themselves, and the safety of the people they are serving;

NOW, THEREFORE, BE IT RESOLVED, that this Legislature does hereby support the restoration of funding for the Department of State and the Office of Fire Prevention and Control (OFPC) Outreach Training Program; and be it

FURTHER RESOLVED, that this Legislature does hereby urge the Department of State and the Office of Fire Prevention and Control (OFPC) to continue to maintain the State Outreach Training Program at its previous level, with the same number of State training hours for each County participating in said Program and to continue the policy of having a minimum of two (2) State Fire Instructors assigned per County.

Adopted. 5 ayes; 2 nays, Legislators Bennett and Billings; 0 absent.

Legislator Bennett said he had spoken with Mr. Thomas Gebhardt who recently purchased the manse to the Pullman Church. Mr. Gebhardt was planning to put in a parking lot in back of the house, which would back up to the County's proposed parking lot for Central Hall. Mr. Gebhardt was interested in being able to use the entrance/exit to the County's parking lot. The matter was referred to Legislator McCarthy, chairman of the Buildings and Grounds Committee. Mr. McCarthy informed the Board that the Central Hall parking lot was to be paved this September.

Legislator Bennett also said he had spoken with the Dog Control Officer Geary Shenck who had decided to remain at the County Dog Pound on Wednesday afternoons, instead of being out on the road. Mr. Shenck asked that the Board be made aware of the change in his scheduling.

Legislator Berger, with second by Legislator Swiercznski, moved to recess the meeting subject to recall by the Chairman. Motion carried.

Report of Standing Committees: Legislator Tuohey attended regular committee meetings; on August 12th met with Probation Director regarding that Department's projected budget; met with Acting Real Property Tax Director; attended EAP Meeting and Safety Meeting on August 13th; attended the Shelby Town Board Meeting on August 13th. Mrs. Tuohey said there were questions regarding the County's recycling/collection program - they seemed anxious to get started. Mrs. Tuohey also attended a Self-Insurance Meeting.

Legislators Bennett and Swiercznski attended their usual committee meetings.

Legislator McCarthy informed the Board that there was a house on East Bank Street, owned by the County that should be torn down. With regard to the parking lot, south of Central Hall, Mr. McCarthy said it was proceeding very well, and said that the property owner just south of the parking lot, Louis Morris, was in favor of the installation of a retention wall. The County Attorney will contact Mr. Morris and talk further regarding this. Mr. McCarthy noted that two trees had been moved to the lawn in front of the County Clerk/Legislature Building, replacing two trees which were diseased, and had been removed. With regard to the proposed handicapped ramp on the south side of Central Hall, Mr. McCarthy said the decision had been made to use treated lumber for its construction, as well as for the steps which will be installed next to the ramp.

Legislature Berger attended - the Alternatives to Incarceration Meeting on July 26th; an emergency meeting of the Fire Advisory Board on July 29th; the special Conference Session and Meeting on the budget held on July 31st. Mr. Berger also attended - a meeting on the Local Law held on August 2nd, and worked at the Soil and Water booth at the 4-H Fair on August 2nd, and the Ridgeway Town Board meeting on August 6th. On August 7th, Mr. Berger visited the Niagara Falls Police Department with Sheriff Green regarding the E911 service; attended a meeting at the Sheriff's Department regarding E911, delivered proceedings to Medina, Ridgeway, Lyndonville and Yates Town and Village Clerks; attended the Safety Meeting on August 13th; attended the Soil & Water Conservation Board meeting on August 13th and participated in the County Extension tour from 8:45 a.m. to 12 noon and the Self Insurance meeting at 1:00 p.m. on August 14th.

A representative from Lomond Shores (along the shores of Lake Ontario, in the Town of Kendall), spoke to the Board with reference to year-round residents being treated the same as seasonal people in regard to

the County's solid waste recycling/collection program. It was felt by those who lived along the lake year-round, that it was unfair of the Board to provide only six-months of service, the same as seasonal residents. This leaves the remaining six months of the year that these residents have to contract individually with the County's waste collector/hauler.

The privilege of the floor was given to Wayne Hale, County Planning & Development Director, Kevin Voorhees of Barton Loguidice and Janice Cotino to discuss the County Solid Waste Recycling/Collection Program. Mr. Hale gave a report on his meeting with Grayton Company, the firm who will do the publicity and education work for the County's solid waste program, if the Board has no problem with this proposal. A resolution is on the agenda to approve the agreement.

The representatives from Barton & Loguidice spoke with regard to the County's position statement regarding GLOW's solid waste plans. There were few issues to focus on - there might be some questions when the other counties recommend. Legislator Swiercznski explained, "We are now exporting garbage, for the next five years. The statement was made what if we have to take care of our own further on down the line.....how it should be addressed in there (the plan) on that level. I think it should be in the plan. I feel someday this will be needed."

The question was raised as to whether a site should be sought in Orleans County or in the GLOW region. Legislator Bennett said, "...have to work as a GLOW unit. The GLOW counties should come up with a landfill. If not, have Orleans County look for a site of its own, after a three-year time period."

Mr. Hale stated that this was one of the items discussed at the DEC meeting. DEC said that long-term exportation of garbage would be discouraged. Every two years the plan is to be up-dated. Mr. Hale felt the County should not speculate on what the long-term DEC regulations will be on the exportation of garbage.

Mr. Voorhees explained that he has to make sure that this is what the County wants in the plan - a landfill to serve four (4) counties, a county-wide system. He felt that some counties may stop short of what Orleans is doing regarding licensing, etc. This information has to be submitted to the State in September - this plus the SEQR part of the plan. Mrs. Tuohey said there should be included provision for some towns to "opt out" of the plan, if they choose to do so. It should not be limited to the three towns that have currently decided to exclude themselves from the

County's plan. Mr. Voorhees assured the Board he could write the plan that way, to include those provisions. He was there to obtain the Board's consensus as to what he should put in the plan to submit to the State. He said he will write the position statement covering the County's recycling/collection program, as well as the option for towns to "opt out" of the program. Location for a proposed landfill site is not an issue to be answered at this point. The Legislative Board agreed to go along with Kevin's proposed position statement.

The following resolutions were presented:

RESOLUTION ADOPTING LOCAL LAW NO. 2-INTRO OF THE YEAR 1991 ENTITLED "SOLID WASTE DISPOSAL AND SANITARY LANDFILL LAW OF THE COUNTY OF ORLEANS" AS LOCAL LAW NO. 2 OF THE YEAR 1991

WHEREAS, Local Law No. 2-Intro of the year 1991 was introduced at a Reconvened Meeting of the Legislature held on June 19, 1991; and

WHEREAS, a public hearing on said Local Law was held on July 10, 1991 at 6:30 p.m. at which time all interested parties were heard;

NOW, THEREFORE, BE IT RESOLVED, that this Legislature does here adopt Local Law No. 2-Intro of the Year 1991 as Local Law No. 2 of the Year 1991, which reads as follows:

I. TITLE

This local law shall be known as the "Solid Waste Disposal and Sanitary Landfill Law of the County of Orleans".

II LEGISLATIVE FINDINGS AND PURPOSE OF LOCAL LAW

A. Waste disposal activities in Orleans County are increasing to such an extent that the quality of life of County residents is threatened.

B. Undesirable aspects of waste disposal include the proliferation on County highways of garbage truck traffic that is unsightly, noisy, malodorous, dangerous to pedestrians and other traffic, and damaging to roadways.

C. Furthermore, expansion of solid waste disposal activity within the county, including expanded acreage and increased height, is likely to be unsightly and to have

deleterious effects on property values associated with adjacent or nearby landfill operation and upon the tax bases of local municipalities.

- D. The need for landfill cover at sanitary landfills has also resulted in an undesirable proliferation of ponds throughout the County created by mining and removal of fill material.
- E. Solid waste landfills are by their very nature potentially dangerous to County residents and the surrounding natural environment and pose threats to water tables, nearby creeks and streams, and other bodies of water. Geology varies throughout Orleans County in such a way that the danger of contamination is also variable and unpredictable. The possibility of water table contamination is of especial concern in Orleans County since most County residents rely on private wells rather than on municipal water systems. Contamination of water supplies may be very expensive or impossible to remediate.
- F. Recycling of solid waste within Orleans County should be encouraged in the interests of conserving natural resources and reducing reliance on sanitary landfills for waste disposal. Recycling reduces demand for landfill space, reduces the level of landfill-related activities, and extends the usable lifetimes of landfills.
- G. Landfill space within Orleans County is being filled at such a rate that available space for waste generated by County residents is being limited.
- H. Private landfill operation in Orleans County unavoidable and adversely affects the community in a manner that imposes a burden on its citizens that outweighs the advantages of having local waste disposal available and the economic benefits of having such facilities as ongoing business concerns and employers.
- I. The operation of sanitary landfills in a community is a subject of legitimate interest and concern to its residents, making it desirable that County residents have access to as much accurate, current information

about the scope and effect of landfill operations, and the interaction of landfill operators with government, as possible.

- J. Solid waste regulation under the New York Environmental Conservation Law (ECL) is inadequate to relieve the Legislature's concerns.
- K. The Legislature intends by this Local Law to regulate the operation of sanitary landfills within Orleans County in order to promote a clean, wholesome, prosperous, and attractive environment for the community, and to ensure the availability of solid waste disposal for County residents now and in the future.
- L. The Legislature recognizes, furthermore, that the easy availability of solid waste disposal in landfills makes recycling less attractive. The legislature intends that this Local Law shall indirectly make recycling economically more attractive, in accordance with the State Solid Waste Management Policy (N.Y. Env. Cons. Law Sec. 27-0106).
- M. The County intends, furthermore, to reduce the risk of pollution from solid waste disposal operations and to minimize the level of other undesirable aspects of landfill operation by restricting their scope and size.
- N. The Legislature intends through this Local law to exercise its police power under the Municipal Home Rule Law for the physical and mental well-being, safety, and health of its citizens. In so doing, the Legislature expressly intends to regulate and restrict sanitary landfill operations within the County that might otherwise be permitted under the ECL.

III. DEFINITIONS

The following definitions shall apply to this Local Law:

- A. Person: any individual, public or private corporation, governmental subdivision or agency, partnership, joint venture, or other legal entity.

- B. Sanitary Landfill: any disposal area for solid wastes in or upon the ground. The meaning of this term shall include any landfill within the meaning of 6 NYCRR Part 360-1 and shall include any facility or operation for which the New York State Department of Environmental Conservation has issued a permit for landfill operation or for which an application is pending.
- C. Sanitary Landfill Operation: the conduct of the business of accepting, depositing, moving, and covering solid waste at a sanitary landfill.
- D. Operator: any person engaging in sanitary landfill operation.
- E. Solid Waste: any discarded materials, substances or objects, including garbage, refuse, sludge, and industrial or commercial waste, including without limitation all items defined as "solid waste" under 6 NYCRR Part 360-1.
- F. DEC: The New York Department of Environmental Conservation.

IV. EXEMPTIONS

This Local Law does not apply to disposal of manure in normal farming operations; landspreading of seepage by state-permitted haulers; recycling operations or facilities such as junkyards, citizen recycling programs, municipal recycling operations, or salvage dealers; or landfilling activities consisting solely of clean earth, rock, or gravel fill.

V. PERMIT REQUIREMENT

- A. No person shall operate a sanitary landfill within the municipal borders of the County of Orleans after the effective date of this local Law unless he has applied for and obtained a permit for such operation from the County.
- B. The Clerk of the Legislature shall prescribe and make available an appropriate form of application. All applications shall be submitted to the Clerk of the Legislature, who shall promptly refer them to the County

Legislature, which shall have the power and authority to review and grant or deny such permits on the basis of the specific standards and criteria set forth herein.

C. In approving any permit application, the Legislature may attach such reasonable conditions as it shall deem necessary and advisable in the public interest in furtherance of the purposes of this Local Law, including but not limited to access by representatives of the County for inspection, monitoring, or testing, and closure and post-closure plans.

D. Each application shall state:

1. the full name of the person seeking a permit and whether that person is an individual, corporation, partnership, joint venture, or other legal entity; if the applicant is not an individual, the application shall set forth the names of all parent corporations, shareholders, partners, joint venturers, or other beneficial owners of the entity seeking a permit, unless the applicant is a publicly held corporation, and the names of all officers of an applicant that is a corporation, and officers and shareholders of any parent corporations;

2. the precise boundaries of the property on which landfill operations are or will be conducted, the names of all owners of interests in the property, and the nature of those interests;

3. the proposed maximum daily, monthly, quarterly, and annual rates of solid waste disposal at the proposed sanitary landfill (measured in tons);

4. the specific anticipated sources of solid waste to be disposed of at the sanitary landfill during the term of the permit;

5. the specific anticipated sources of fill material to be used at the sanitary landfill during the term of the permit.

E. Each application shall include analyses of the following impacts of the proposed operations and shall set forth any measures of the applicant proposes to employ to ameliorate them:

1. visual impacts;
2. noise;
3. odor;
4. traffic;
5. offset mining activities and related hauling activities;
6. surface water and groundwater resources; and
7. property values.

To the extent these matters are fully discussed in an completed environmental impact statement, the application may incorporate those discussions by reference. The application shall also include a discussion of any plans by the operator for rehabilitation of the site or portions of the site after closure.

- F. Each application shall be accompanied by (1) topographical maps, certified by a licensed surveyor, that show both the existing and the proposed vertical and area limits of the landfill site and the dimensions or outline of existing and proposed liners; and (2) a copy of the applicant's application to DEC and all accompanying materials.

- G. Preconditions to permit issuance.

1. An application for a permit or renewal permit shall be approved by the Legislature if it finds that the landfill operations or mining activities contemplated thereby would not (a) result in a violation of any provisions of this Local Law, and in particular, the limitations set forth in paragraph VI below, or (b) result in violations of provisions of any other applicable County, town or village law or regulation (including without limitation any zoning restrictions that affect mining activities).

2. For a period of 10 years after the effective date of revocation of a permit by the legislature as provided in this Local Law, no new permit shall be issued to the holder of that permit or to any related person. For purposes of this provision, the term "related person" shall include, without limitation, any member of the immediate family of an individual whose permit has been revoked; any corporation or other entity in which he or any entity controlled by him has

any beneficial interest; any subsidiary, parent corporation, or other corporation related to a corporation whose permit has been revoked; or any corporation or other entity whose beneficial owners include any persons who were beneficial owners of a corporation or other entity whose permit has been revoked, or members of the immediate family of such beneficial owners.

3. No permit renewal shall be issued unless the applicant has held at least one public information meeting to discuss its application and to respond to questions and issues raised by the residents and other interested persons. At least one such meeting shall be held in the town or towns in which landfill operations are to be conducted. The meeting shall be held after an application is filed but before the Legislature acts upon it. The applicant shall prepare a written summary of all questions asked at any meeting and the applicant's responses; the summary shall become part of his application. The applicant shall publish a notice of the meeting and its purpose in local print and broadcast media at least 7 days prior to the meeting.

4. Moreover, no permit or renewal permit shall be issued unless the applicant shall have tendered the permit and application fees required under this Local Law.

H. In approving any permit application, the Legislature shall specify the effective date and the term of the permit. No permit or renewal permit shall be issued for a term of more than two years from its effective date; the legislature may in its discretion issue a permit or renewal permit for a term of less than two years.

I. No person holding a permit under this Local Law shall continue to operate a sanitary landfill within the municipal borders of the County of Orleans after the expiration of his permit unless he has applied for and obtained a renewal permit from the County. Applications for renewal permits shall be made and considered in the same manner and subject to the same criteria as an application for an original permit.

- J. Upon the sale or other transfer of ownership of a permitted sanitary landfill, or upon any sale of stock or interest in a corporation, partnership, joint venture, or other entity holding a permit, the term of the permit shall automatically terminate. Permits shall not be transferable.
- K. Each permit or renewal application shall be accompanied by a nonrefundable application fee of \$25,000 which shall defray the administrative and technical costs of its review and of participation by the County in environmental review proceedings.
- L. Before any permit is issued under this Local Law, and on or before each anniversary of its effective date, each permit holder shall pay to the County of Orleans an annual permit fee in the amount of \$1,000.00 which shall defray the cost of reviewing and maintaining records concerning the facility.

VI. SPECIFIC RESTRICTIONS ON LANDFILLING ACTIVITIES

A. Prohibition on Hazardous Waste

No commercial hazardous waste treatment, storage, or disposal facility shall be located, built, operated, or expanded within the County of Orleans.

B. Height Restriction

No person shall conduct sanitary landfill operations in such a manner that the height of the resulting landfill, after completion of operations and after the application of cover, exceeds the lesser of the final elevation contained in the application submitted by the applicant and approved by the Legislature in granting the permit, or 50 feet above the mean elevation of the property prior to the commencement of landfill operations, whichever is less.

C. Tonnage Limitation

1. No person shall dispose of or allow disposal of solid waste at a sanitary landfill in excess of the proposed monthly, quarterly, and annual tonnage amounts stated in the operator's approved application.

2. In any event, no landfill operator shall accept, dispose of, or allow disposal of more than 70,000 tons of solid waste per quarter, or 228,000 tons per calendar year.

3. For the calendar year in which this Local Law is enacted, amounts of solid waste disposed of prior to the effective date of this provision shall be disregarded. However, the permissible tonnage for the balance of such year shall be reduced by the ratio of days remaining in the year to the total number of days in the year.

4. Unless otherwise prescribed by the Legislature, tonnage shall be determined by incoming scale weights certified by a weighmaster.

D. County-wide Tonnage Restriction

No more than 70,000 tons of solid waste per quarter or 228,000 tons of solid waste per year, in the aggregate, shall be disposed of at sanitary landfills within the County of Orleans. Any other provision of this Local Law notwithstanding, the Legislature shall not issue a permit if the quarterly or annual tonnage proposed in a permit application, aggregated with the quarterly or annual tonnage stated in the applications for all other permits that have been issued, would exceed 70,000 tons of solid waste per quarter or 228,000 tons of solid waste per year.

E. Sources of Waste

Solid waste generated from outside the borders of Orleans County may not exceed 85 percent of all solid waste, measured in tons, accepted or disposed of at any sanitary landfill during any month.

F. Hours of Operation

An operator may accept delivery of waste or cover only during the hours of 7 a.m. to 5 p.m. Monday through Friday, except that an operator may accept delivery of waste from residents of Orleans County during the hours of 7 a.m. to 12 noon on Saturdays. In weeks where waste disposal has not taken place because of a weekday holiday, however, an operator may accept delivery of waste or cover during the hours of 7 a.m. to 5 p.m. on

Saturdays. Landfill operations other than accepting delivery of waste or cover are permitted only during the hours of 7 a.m. to 8 p.m. Monday through Friday.

VII. REPORTING AND PUBLIC INFORMATION

A. Every operator shall file with the County, on or before the 10th day of each month, a report on such forms as the Clerk of the Legislature shall designate, setting forth:

1. the total tonnage of solid waste disposed of at the sanitary landfill in the previous calendar month;

2. the specific sources of all waste disposed of at the sanitary landfill during the previous calendar month and the number of tons from each source, together with a statement as to the percentages of waste, measured in tons, disposed of at the sanitary landfill that was generated from outside Orleans County during the previous calendar month;

3. the total tonnage of solid waste disposed of at the landfill during the current calendar year;

4. the number of truck trips (broken down by disposal trucks and cover soil trucks) into the landfill during each day of the previous calendar month.

B. The accuracy of all information filed pursuant to subdivision A shall be certified under oath by the operator or, if the operator is not an individual, a partner or officer.

C. An operator shall upon request from the County supply or provide access to any additional information reasonably necessary to verify the accuracy of reports filed pursuant to subdivision A. Legislator Bower introduced, with second by Legislator Bennett, the resolution approving agreements with various agencies for the Department of Social Service. Commissioner of Social Services, Patricia Hardenbrook, was given privilege of the floor to explain the contract with Genesee Community College. There are currently nine County employees in the Social Services Department who attend Genesee Community College through a program offered by the State. The only County cost is the charge-back, which the County pays to GCC for each resident attending the College. Mrs. Hardenbrook explained that every County Dept. of Social Services has the ability to provide this program to its employees. CAO Stan Dudek commented that if the State was going to do this, then the County should not have to pay the charge-back. After further discussion, Legislator Swiercznski amended the resolution to read that GCC will have to pick up the charge-back costs to the County. The other Board members agreed to this and the following resolution was then adopted:

Legislator Tuohey, with second by Legislator Berger, moved a resolution entitled RESOLUTION SETTING DATE FOR PUBLIC HEARING PERTAINING TO SALE OF COUNTY-OWNED PROPERTY IN TOWN OF CARLTON. During discussion of the resolution, County Attorney Norris Webster explained that there is a provision in the Real Property Tax Law that says once a County has acquired property by tax deed it may advertise a public hearing to determine the amount for which the property can be sold. Mr. Webster stated that was his reason for drawing up the resolution as he did. Chairman Billings said, "I maintain there was an error. We are not selling the property back to them. An error was made either in the town or downstairs." After further discussion, the following resolution was then

presented:

August 28, 1991

The Clerk presented the following communications: The County Planning Board's report on Orleans Ag District No. 2 (Barre Ag Dist.); May 20th minutes of the Orleans County Fire Advisory Board meeting; acknowledgment of the County's resolution on Mandate Reduction from NYSAC, also resolution No. 259-591; notice from Genesee-Orleans Youth Bureau re September 4th meeting; a letter from Senator Daly regarding the County's resolution to eliminate the Consumer Protection Board; a letter of acknowledgment from the NYS Department of Ag & Markets upon receipt of materials for the State Eight Year Review of Orleans Agricultural District No. 7; a copy of a letter from Shelby Town Supervisor John Fox to NYS DOT in Rochester regarding a traffic count at the intersection of the Medina Senior Highway School Driveway where it enters Route 31; notice of the September 12th meeting of the Intercounty Association of Western New York to be held at the Hillside Inn, in Wyoming, New York.

Report of Standing Committees: Legislators Bennett and Swiercznski reported attending their usual committee meetings.

Legislator McCarthy reported on the leak in one of the fuel tank lines at the County Highway Fuel Farm. Mr. McCarthy, the County Highway Superintendent Donald Cooley, and Assistant to the Superintendent David Albanese had met with the State DEC regarding the leak. Part of the problem was because of incorrect installation of the tanks/lines at the outset. The tanks did not leak, but one of the lines did. Mr. McCarthy said approximately 300 gallons of gas was lost. The tanks will be checked manually at the beginning of each work day and the results logged in a record book. (There is also a mechanical means in checking the level of the gas tanks.)

Legislator McCarthy reported that the parking lot at Central Hall is progressing. The County will pick up about 14 additional parking places, and if the Gebhardt parking area is used, that will add an additional six parking spaces. The Assistant

Buildings & Grounds Superintendent had received a quotation of \$858.00 for rental of equipment to install curbing at the parking lot, (A resolution authorizing this is on the agenda for the meeting.) With reference to the ramp at Central Hall, Mr. McCarthy explained that the proposed handicapped entrance would not be at the primary entrance (as required in the law) and the County does not have to have it immediately. Within two years, a handicapped ramp will be installed at the front entrance, and Mr. McCarthy said it would be less costly if it (the ramp) was installed now, rather than wait. Mr. McCarthy felt that the County should reply to Mr. Gebhardt regarding his offer to allow the County the use of the parking area behind his Main Street property.

Legislator Berger attended the Intercounty Meeting held in Onoville in Allegany County on August 15th; met on the gas leak on August 20th; attended the Jail bid opening on August 21st at 10:00 a.m., met with RAM Communications at 10:30 a.m. and with the Probation Department at 2:30 p.m.; visited the NYS Barge Canal Tug "Urger" in Medina on August 23rd; attended the Fire Advisory Board Meeting on August 26th; attended the STOP DWI Meeting at 8:00 a.m. on August 27th and met with Don Metzger, Director of the Mental Health Department at 10:30 a.m.

The question of whether or not to go ahead with the painting of the radio tower at the C.D. Center was discussed. It was noted that if the County went with the new proposed radio system from RAM Communications, then the tower would not be used with that particular system. However, it was noted that since there is a genuine need for the tower to be painted, and used until the decision is finally made, it would be best to go ahead and paint the tower. It was the consensus of the Board to go ahead with the painting of the tower at the C.D. Center. The decision was made to request the date the project will be completed.

Mr. Dudek reported that recycling bins had been delivered to the old J & I site, noting that CID had permission to use it. However, he did not know when the bins will be delivered. The Solid Waste Program began October 1st, whether or not the bins had been delivered.

Legislator Bower asked if any thought had been given to the use of dumpsters in mobile home parks and in resort areas - whether or not this would help with some of the problems. Mr. Dudek said that he and the County Attorney were preparing a letter for the "seasonals" regarding this, saying that we (the County) would be willing to consider this, that the first step will be to determine the number of properties involved. With regard to mobile home parks, the decision is optional - the owners have control over some of this.

During discussion on Resolution No. 450-1091, Legislators Tuohey and McCarthy pointed out that the County has to have cost estimates in order to decide whether or not to go ahead with the project, and that the only way to determine what the costs will be is to continue and bid the project. County Attorney Norris Webster informed the Board of a legal point to be considered by pointing out that the Towns and Villages had signed agreements and contributed funding to the County to aid in the radio study and spec preparation costs. Mr. Webster felt that the Towns and Villages would like to know the approximate costs involved in the project, before the County decides whether or not to continue.

WHEREAS, this Legislature adopted Resolution No. 547-1290 on December 12, 1990, amending Resolution No. 160 of the Year 1973 and Resolution No. 164 of the year 1967 by limiting the dollar amount of the net collections from sales tax to be paid to the school districts in the year 1991 and all years thereafter to the amount paid in the year 1990 with the excess to be paid to the County for any County purpose; and

WHEREAS, this Legislature now wishes to limit and cap the dollar amount of the sales tax to be paid to the School Districts to one-half of the dollar amount paid to said School Districts in the calendar year 1990 and to limit and cap the dollar amount of the sales tax to be paid to the Towns and Villages of the County, to the dollar amount that is paid to said Towns and Villages in the calendar year 1991;

NOW, THEREFORE, BE IT RESOLVED, that Resolution No. 547-1290, Resolution No. 160 of the Year 1973 and Section 14(a) of Resolution 164 of the Year 1967 be and the same hereby are amended as follows:

A) Section 14(a)(2) is amended to add the following phrase, to wit, provided, however, that the monies hereby set aside and to be so distributed and paid shall not exceed, in the calendar year 1992 and all years thereafter, one-half the dollar amount of the monies so set aside, distributed and paid in the calendar year 1990 and any portion of such 11.1111 percent of such monies in excess of the said dollar amount so set aside, distributed and paid to the School Districts in 1990 shall be and hereby are set aside for County purposes and shall be available for any County purpose.

B) Section 14 (a) (3) is amended to add the following phrase at the end of the first sentence of such subparagraph, to wit: provided, however, that the monies hereby allocated to the Towns and Villages of the County of Orleans shall not exceed in the calendar year 1992 and all years thereafter, the dollar amount of the monies so allocated and paid in the calendar year 1991 and any portion of such monies in excess of the said dollar amount so allocated and paid in the calendar year 1991 shall be and hereby are set aside for County purposes and shall be available for any County purpose.

(C) Said Section 14(a) as so amended shall read as follows:

(a)(1) 66.67 percent of such monies is hereby set aside for County purposes and shall be available for any County purposes

(2) 11.1111 percent of such monies is hereby set aside, pursuant to Section 1262(a) of the Tax Law of the State of New York for educational purposes and shall be distributed and paid quarterly to the several school districts in the County pursuant to the provisions of Section 1262(a) of said Tax Law, as amended, provided, however, that the monies hereby set aside and to be so distributed and paid

shall not exceed, in the calendar year 1992 and all years thereafter, one-half the dollar amount of the monies so set aside, distributed and paid in the calendar year 1990 and any portion of such 11.1111 percent of such monies in excess of the said dollar amount so set aside, distributed and paid to the School Districts in 1990 shall be and hereby are set aside for County purposes and shall be available for any County purpose.

(3) The remainder of such monies shall be allocated quarterly to the Towns of the County of Orleans being the entire area of said County in proportion to their respective populations including population within incorporated Villages determined in accordance with the latest decennial census or special census taken pursuant to law completed and published prior to the end of the quarter for which the allocation is made which special census must include the entire area of the County, provided, however, that the monies hereby allocated to the Towns and Villages of the County of Orleans shall not exceed in the calendar year 1991 and all years thereafter, the dollar amount of the monies so allocated and paid in the calendar year 1991 and any portion of such monies in excess of the said dollar amount so allocated and paid in the calendar year 1991 shall be and hereby are set aside for County purposes and shall be available for any County purpose. Such amounts allocated to the entire County shall be applied first to reduce County Taxes levied upon real property in the several Towns in such area. Any balance remaining shall then be applied first to reduce general Town Taxes levied upon real property in such area. Any Town by local law, ordinance or resolution, however, may provide that the amounts which would be so applied to reduce the County Taxes and general town taxes levied upon real property in such town shall be paid directly to such town to be used for any town purpose. If any Village, other than a Village within a County having a population of one million or more and containing not more than three towns by local law, ordinance or resolution shall so provide, the amounts which would be so applied to reduce the County and general town taxes levied upon real property in such Village shall be paid directly to such Village in lieu of such tax reduction. Where any Village has elected to be paid directly as provided in the subdivision, the amount to be paid to such Village shall be determined by the ratio that the full valuation of real property in the Village or portion thereof within the town in which such Village is located

bears to the full valuation of real property in the entire town. If a Village, wholly or partially within a town has so elected to be paid directly, but the Town in which such Village is located has not elected, the amount allocated to the Town in which such Village is wholly or partially situated shall be applied to reduce County taxes and general town taxes in the area of the Town outside such Village. If the amount allocated to a town exceeds the amount of the County taxes and general town taxes levied upon real property in the Town, the excess shall be apportioned between the town and each Village, if any, wholly or partially situated therein, in the ratios that the full valuation of real property in each such Village or portion thereof within the Town, and the full valuation of real property in the portion of the Town outside such Village or Villages, respectively, bear to the aggregate full valuation of the entire town. The share of such Village shall be paid directly to such Village. The share of the town shall be applied, first to reduce taxes levied for part-town activities, and any balance remaining shall be paid directly to the town, to be used only for part-town activities. The amount to be applied in reduction of County taxes and general town taxes in each town may be determined on the basis of the ratio which the full valuation of real property in each town bears to the aggregate full valuation of real property in all of the towns in such County.

In the alternative, the amount to be applied in reduction of County taxes and general town taxes in each town may be determined on the basis of the respective populations of the several towns in such County, determined in accordance with the latest federal census or special population census taken pursuant to section twenty of the General Municipal Law, completed and published prior to the end of the quarter for which allocation is made, which special census must include the entire area of the County.

Any local law, ordinance or resolution enacted by a Town or Village pursuant to this subdivision shall only be effective for the calendar year or years subsequent to its enactment and, further, shall only be effective if it is mailed by registered or certified mail to the chief fiscal officer of the County in which the Town or Village is located before the first day of September preceding the calendar year for which the election is made of such local law, ordinance or resolution. Such local law, ordinance or

resolution shall remain in effect for subsequent, calendar years until rescinded by local law, ordinance or resolution, but the enactment shall rescind the election only if it is mailed, in the same manner already provided for in the subdivision, to the chief fiscal officer of the County in which the Town or Village is located before the first day of September preceding the calendar year for which the rescission is to apply; and be it

FURTHER RESOLVED, that written notice of the adoption of this Resolution shall be given by the Clerk of the Legislature to the school authorities of the school districts and the authorities of the Towns and Villages in the County pursuant to Section 1262(e) Tax Law.

Motion by Legislator McCarthy, with second by Legislator Bennett, to adjourn. Motion carried.

Meeting adjourned at 6:00 p.m.

LEGISLATURE MEETING
November 27, 1991

The Chairman called the meeting to order at 4:30 p.m. After the pledge to the flag, the Clerk called the roll and all Legislators were present.

The Clerk presented the following communications: minutes from the November 12th Soil & Water meeting, notice of the December 4th Orleans County Youth Board meeting, a letter protesting the County's mandatory Solid Waste Program from Warren & Marsha Gates, a letter from John Pratt, Veterans Service Agency Director, protesting the reduction of that position to Grade 3, from its present Grade 4, also to protest the County's policy on departmental and interdepartmental "social events", minutes of the August 26th Fire Advisory board meeting, a letter from Jewell Buckman Post No. 529 of Holley endorsing Fred DeFilipps for the position of County Director of the Veterans Service Agency.

Report of Standing Committees: Legislators Tuohey, Bennett and Swiercznski reported regular meetings with their County department heads; Legislator McCarthy announced that the Slade Road Bridge had been opened; Legislator Berger attended the Yates Town Board meeting November 14th, the Culver Road muck fire on November 15th and 16th, attended the Fire Chiefs' meeting in Shelby on November 18th, met with the Sheriff on November 19th, attended a Probation meeting in Medina on November 20th, was at the Legislature office on November 25th and attended the Village of Medina board meeting on November 26th. Legislator Bower attended his regular meetings with his department heads. CAO Stanley Dudek informed the Legislature that insurance proposals would be opened on Monday.

Privilege of the floor was given to Harlow Fisher, Kendall Central School District Superintendent, and David Gee, Medina Central School District Superintendent. Mr. Fisher said, "I apologize to be, once again, forced to stand before you for your inappropriate action on sales tax." Mr. Fisher said that several meetings could be arranged to discuss mutual problems, seek solutions and to avoid an adversarial relationship. However, Mr. Fisher said that by acting on it (sales tax) in the afternoon and then notifying the school boards that very same evening, the Legislature had chosen an attitude of confrontation. Mr. Fisher said, "We have no

alternative than to denounce your lack of consideration for the children of Orleans County." The Legislature was asked regarding to responses they had received on their action - whether or not the responses indicate a support for the Legislature's action.

Legislator Bower said that in respect to phone calls pertaining to the Legislature's action on sales tax, he had received twenty calls - 19 from Holley and 1 from Albion. The calls from Holley were in support of the Legislature's action. He noted that in the Village of Holley, the citizens had seen the problem between the teachers and the school board - that of the teachers' raises being "only 8% over the next two years", while many of the callers were on Social Security, some were getting "0%" raises. Mr. Bower noted that "this time, when it was time to vote on the sales tax for schools I voted in favor of reducing the sales tax to schools - the only question in my mind tonight is whether or not a 50% cutback is enough."

Legislator Berger said, "In defense of schools, some schools are locked into a two-year contract. The problem I have is that we (county) are involved in education more than we ever were before. We have to pay for DWI courses at GCC, also for "Born to 5 Year Olds" in the PHC Education Program. We are not taking it away, we are putting more into it. We are mandated to do that - we don't have a choice. Also the fact that the attitude seems to be that the sales tax monies to schools was a gift - an inerrant right. At the time this was initiated, the County was also receiving Federal Revenue Sharing monies - we no longer get FRS monies, but the schools are still receiving sales tax monies."

Legislator Tuohey said, "One thing I have got to say is that the sympathy seems to be with the Legislature and what they are doing. I was asked to speak to a group a month ago, and thought the reason was to defend the upcoming Legislature budget. Instead there was discussion on the school budget and the consensus of opinion was that they (schools) should be more accountable for what they spend. The telephone calls I have received have been in our favor."

Superintendent Gee said, "In the past two years, we have had to come here and meet in a confrontational situation. It is an education - whether it's a gift or what, we would hope to look for mutual solutions to common problems. It appears that it has failed. That has not come to pass."

Chairman Billings said, "No phone calls. Letters received were school board letters or people in the

schools, and some were done by secretarial staff in the school. I am not getting a ground swell (of school support)."

Mr. Dudek pointed out that in addition to the cuts already made on the budget, the County has 30 less positions, that \$380,000 in personal services had been cut. Mr. Dudek said, "The County has never been in a situation like we have this year - talking about two less road patrol deputies. The increase in school districts is what we have reduced in personal services."

Chairman Billings noted that "other organizations whose total budgets comes from us (the County) have been cut completely".

Privilege of the floor was given to Ann Paris, from the Orleans Coalition Against Domestic Violence organization. Ms Paris expressed concern about increased incidents in Orleans County in times of stress and during the holiday season - concerned about maintaining the status quo. That organization was requesting that there be no cuts or lay-offs in services that pertain to domestic violence aid. They were concerned about how budget cuts would affect the services provided by the Probation Department - after hours and on weekends. Ms Joyce Murphy also from the Coalition said their main purpose is to be supportive of those agencies who are being cut, as they relate to domestic violence - battered women and battered children. She noted that around holiday time the number of battering incidents increase. The organization representatives mainly wanted to express their concerns as to how budget cuts would affect the aforementioned services.

Meeting recessed at 6:10 p.m.

Meeting reconvened at 6:15 p.m.

RESOLUTION TO AUTHORIZE AN AGREEMENT TO PLACE STATE OFFICE OF MENTAL HEALTH EMPLOYEES AT THE ORLEANS COUNTY DEPARTMENT OF MENTAL HEALTH

WHEREAS, state funding for mental health services has traditionally been underfunded in Western New York as opposed to other regions in the state and

WHEREAS, the state budget crisis has precipitated drastic changes in the configuration of services in Western New York; and

WHEREAS, to enable the Western Region to maintain the level of state funding and state funded services the New York State Office of Mental Health has proposed to divert funding from inpatient services to community based services; and

WHEREAS, the initial proposal to divert this funding is through the use of state clinical positions based in the community; and

WHEREAS, the state employees will generate income which will be the property of the Orleans County Department of Mental Health; and

WHEREAS, this will result in a net reduction to the county share for mental health services; and

WHEREAS, this agreement will not incur costs to the county, now therefore be it

RESOLVED, that this Legislature does hereby authorize the placement of New York State Office of Mental Health employees within programs operated by the Orleans County Department of Mental Health, and be it further

RESOLVED, that the Orleans County Community Services Board shall reduce its service levels if the State of New York removes its shared state staff or fails to replace the shared state staff with equivalent state Office of Mental Health funds.

Adopted. 5 ayes; 2 nays, Legislators Bower and Swiercznski; 0 absent.

During discussion on the foregoing resolution, Legislator Bower said he felt ... "the State should give the money to the County and allow the County to provide the additional service. Instead, the County is getting shortchanged, and the people in Orleans County are getting shortchanged, because the State workers will receive 40% more in salary (than the County workers)." Legislator Swiercznski, asked the Board to consider very carefully noting that "twice we voted against this". Legislator Swiercznski said the Board was being coerced into voting for the State proposal. Legislator Bower requested the County Attorney to look

into the matter and see exactly how much power the Community Services Board has.

LEGISLATURE MEETING
December 11, 1991

The meeting was called to order by the Chairman at 4:30 p.m. After the pledge to the flag, the Clerk called the roll, and all Legislators were present.

The Clerk presented the following communications:

A letter from James Watts objecting to the proposed budget cuts to ARC; a letter from Cindy Oppel regarding the importance of subsidized day care for single, working parents; minutes of the October 24th OTB Meeting; a letter from the Town of Barre requesting that the Legislature honor Mr. VanLieshout's request to allow his parcel of land to remain in Orleans Agricultural District No. 2; a letter from Bruce Bozard, Agricultural Consultant expressing concern to the County's proposed 30% cut in funding to Cooperative Extension; an order from Barre Town Board Establishing the Town of Barre Water District No. 1.

Motion by Legislator Swiercznski, with second by Legislator Bower, to add the packet of proposed resolutions to the meeting agenda. Motion carried.

In referring to ARC, Legislator McCarthy said, "Upset with the way ARC has handled their budget request. I don't feel volume phone calls to my home/business telephone, tying up my telephone for thirty minutes or more, is the way to go. We have never shut anybody out. I would like to go on record as saying that I object strongly to volume telephone calls received on my home/business telephone."

Legislator Tuohey said, "I agree. I was appalled at having some of the children calling."

Legislator Swiercznski informed the Board, that someone had come into his place of business regarding a survey for a house ARC is planning to buy on McKinstry Street, in Albion. Legislator McCarthy suggested that the Chairman write to Mr. Guthrie regarding this matter.

Legislator Bennett said, "I can't help but feel that there is an understanding in the community that somehow we are getting our 'jollies' out of these cuts. Some of those who have called, think I enjoy it. The record should show that we do not enjoy it -- it has to be done."

ORLEANS COUNTY BUDGET

FISCAL YEAR 1992

ADOPTED DECEMBER 11, 1991

Carol Culhane

BUDGET MESSAGE 1992

TO THE HONORABLE MEMBERS OF THE ORLEANS COUNTY LEGISLATURE
AND TAXPAYERS OF ORLEANS COUNTY:

A financial crisis is affecting more than half of the nation's counties, forcing them to cut expenditures and find new revenue sources. Orleans County is one of the counties currently being "pushed to the limit." We are hampered by mandated programs without funding, and restricted by a lack of revenue options. Added to this, the recession has undoubtedly magnified our problems. Our effort has been to prepare a comprehensive financial plan for all services and programs provided by the County, while taking into consideration the drastic cuts in County revenues, as well as the additional costs of services. Submitted herewith is the County of Orleans preliminary 1992 budget, which includes program and staff reductions, reduced aid to schools and other non-county agencies.

While many of the County Departments show a decrease in their 1992 county cost as compared to 1991, there are exceptions. The Legislature budget indicates an increase of \$80,959. The reason for this is that we formerly credited the Off Track Betting revenues to the Legislature budget. However, in the interest of more responsible accounting, it was decided to discontinue that practice. OTB revenues are now considered "Unassigned." The actual Legislature expense is almost exactly the same as 1991.

A change in the Chief Administrative Officer budget in personal services resulted in an increase. Again, it was the opinion of the Committee that one part-time person (formerly charged to the Clerk of the Legislature) should be transferred to the CAO's budget. Otherwise that budget is the same as 1991. The Clerk's budget is reduced accordingly.

Real Property Tax Services show a decrease in county cost of \$6,349 (9%) because of personnel changes, a full-time position reduced to part-time, and since a new Director has been appointed, the salary was adjusted down accordingly. The County Clerk budget was reduced by \$4,218 (8%) county cost by cutting one part-time position.

The County Attorney budget is reduced in county cost from \$53,572 in 1991 to \$46,135 (16%) in 1992. This was accomplished through personnel changes and a reduction in secretarial services.

Buildings & Grounds Department county cost is reduced by \$41,114 (18%), due to an increase in reimbursements from Nursing Home and Mental Health building maintenance, and a cut in contractual expense.

Sheriff Department county cost is reduced by \$87,880 (7%). This was possible through additional DWI revenues, two positions abolished and equipment cuts amounting to \$30,000. Jail county cost increased by \$402,457 over 1991 due to the very significant loss of revenue in prisoner housing (\$388,000). Actual expenses for the jail are listed at \$900,462 for 1992 as opposed to \$903,628 for 1991, a decrease of \$3,166. Probation Department eliminated one probation officer position, but state reimbursement is \$36,648 (18%) lower than 1991, resulting in only a slight decrease in county cost in this department.

Public Health has cut two positions, but increased appropriation for Homemaker Services from \$125,000 in 1991 to \$225,000 (80%) in 1992. However, this appropriation is almost totally reimbursed by Medicaid, Medicare and other insurance.

Social Services Administration reduced personal services by seven positions \$216,082 (approximately \$54,020 county cost) and contractual expenses by \$13,405 (\$3,351 county cost.) Social Services programs show an increase of \$396,760, which is reimbursed approximately 75%, resulting in an additional \$99,190 in county cost.

Tourism Department has been abolished, with the I LOVE NY Program to be administered by the Planning Department. Youth Department has been eliminated, with services contracted to Genesee County at a county cost of \$19,959 as opposed to \$40,514 in 1991.

Highway Department budget, which includes Road, Machinery, Park Administration, Fuel Farm, etc. is decreased by \$143,393 (county cost). Furthermore, surplus funds of \$248,000 in the Road and Machine fund balance are being applied to reduce the Highway levy. The Fuel Farm debt was repaid in full in 1991.

Education costs have escalated to a new high; i.e. Community College is to cost \$750,000 (an increase of \$140,000 or 23%); Education Handicapped Children is anticipated to cost \$1,086,216 (an increase of \$313,813 or 41%). As a result of these increased mandated educational costs, which the county cannot control, it was necessary to cut Sales Tax aid to Schools by one-half of the 1990 amount, or approximately \$325,000. As a result, this budget includes \$425,000 in increased Sales Tax revenue (\$325,000 Schools, plus \$100,000 projected increase in sales tax receipts for fiscal year 1992). Villages and Towns share of Sales Tax has been capped at the 1991 level.

BUDGET MESSAGE 1992 (CON'T)

Non-county agencies have suffered cuts as well: County Extension \$74,452; Community Action \$11,384; Soil and Water \$8,638; ARC \$20,845; Libraries \$12,459. Other non-county agency contributions have been eliminated entirely; ie: Cobblestone, Council of Arts, Soil and Water Management. County funding for these groups totaled \$26,554 in 1991.

Since the Mental Health Building Capital Project has been completed, we closed out this account and transferred the balance (\$100,000) to Debt Service. \$45,000 was used to further reduce the tax levy.

No salary increases have been indicated except for a "step increment" (about \$180 to \$200 each) for those eligible. A total of fifteen full and five part time positions have been eliminated. Employee benefits have increase by approximately \$155,000, most of which is attributed to increased Medical insurance.

It was necessary to borrow 1.5 million dollars in January of 1991 to provide cash flow. This must be repaid in January 1992. Interest on this money was offset by investment earnings.

For the second year in a row, we were assessed under the heading "Contribution to NYS", \$142,772 against savings from which the County benefited as a result of the Projected Unit Credit (PUC)

method of calculating amounts due to the Retirement System. We are informed that a similar charge will be assessed in 1992. This money is withheld from State checks due the County. This was not budgeted in our 1991 budget because we were assured in 1990 that it was a "one time" charge. We have budgeted \$90,366 for 1992.

Due to reduced revenues in 1991, and higher than anticipated expenses, we expect to end Financial Year 1991 with a negative balance of approximately \$500,000. To reduce the impact of this deficit, we borrowed \$250,000 on a Budget note which will be repaid in 1992 from budgeted money in Short Term Debt Service.

Cutback management is painful, but not impossible. Yet in doing this, we have exercised care in applying those cuts--both in programs and in revenues, for there are some programs that can be curtailed without seriously jeopardizing our community's economic foundation, while others are close to being indispensable. If we are to maintain all kinds of services, they must be paid for. If we do not want to pay for them, we must be prepared to reduce them. Making those kinds of decisions isn't easy, but it is what community leadership is all about.

Respectfully submitted,

Mary B. Basinait

PROGRAM:

In 1991 the Office successfully completed the Senior Citizen Energy Packaging Program which assisted 55 Seniors in obtaining major weatherization and energy repairs to their homes. Repairs totalling \$137,193 were completed which resulted in annual energy savings of \$16,690 for these individuals. Funding for this program ended Oct. 31, 1991. While we believed we could have continued to obtain excellent results had funding been extended, we were very proud of the substantial improvements made to Seniors' housing.

PROGRAM: It is our primary goal to utilize the funding we receive to provide employment and training activities to income eligible residents of Orleans County. We also receive some money to provide services to laid off or dislocated workers. This program has no income eligibility criteria. We also administer the Department of Social Services employment programs.

We provided services to 339 unduplicated adults and youth. We provided work experience to 102 economically disadvantaged youth in our Summer Youth Employment Program. As it was last year, 1991 proved to be a difficult year for placing trainees in unsubsidized jobs. While the employer's in our County did not experience major reductions in their workforce, the number of employment opportunities did not increase.

PROGRAM: The Probation Department provided service to 612 clients through Family Court Intake and Justice Court Diversion in 1991. Although slightly lower than 1990, many of the cases involved violence or the threat thereof and this required more intensive supervision.

We provided 493 pre-sentence investigations for the Courts. As anticipated, nearly 75% of these investigations were drug/alcohol related. 25 violations were filed with the clients returning to Court for resentencing. We processed 46 Diversion cases.

Our Supervision caseload was 496, a slight increase over the previous year. Due to the continued increase in drug/alcohol related cases, many more night-checks and home visits were required.

This is a decrease of \$277.66 from 1990 revenues and a 69% increase over the budgeted amount of \$8,000.00.

PROGRAM: The Orleans County Public Defender's Office consists of three (3) part-time attorneys and a full time secretary, who is a certified Legal Assistant. The attorneys share responsibility of providing legal representation to poor persons charged in twenty-two (22) Town and Village Courts and in County Court. Representation of defendants charged with certain violations, misdemeanors and felonies involves, among other things: appearances at arraignments, discovery demands, pre-trial motions and hearings, trial, post-trial motions, revocation of probation and parole revocation hearings. Appeals may be taken which involve legal research, preparation of a law brief and oral argument in the Appellate Division.

The Office handles other matters out of the Orleans and Albion Correctional Facilities concerning § 440 CPL matters, appeal from denial of parole; appeal from revocation of parole; Habeas Corpus and Parole Rescission Hearings. These matters generated income of \$11,544.64. The assigned counsel budget appeared to be in good shape, however, we again went over budget due to unknown factors. By way of example: A Rochester attorney was assigned in 1984 to a Vozelman appeal. The appeal was finally argued in October and decided in November. The Attorney submitted a \$1,300.00 bill. I didn't have a clue that such appeal was out there.

The Orleans County Self-Insurance Plan is responsible for Workers' Compensation cases for all County, Town and Village Employees and Orleans County Volunteer Firefighters. We enforce appointments and encourage safety programs to reduce health risks and high costs. We are required to keep a Reserve Account and apportion costs between participants on an annual basis.

With the exerted efforts of the Safety Committee, the Safety Officer and the Administrator of Self-Insurance, safety will continue to be enforced and we will continue to offer training and guidance to promote safety. By doing this we hope to help decrease the number and extent of accidents and injuries, therefore, decreasing the cost of the Plan.

PROGRAM:

The fiscal crisis faced by New York State in preparing the 1991-92 budget, prompted the implementation of dramatic changes for the youth bureau. The result of the delayed state budget was a 35% reduction of the major funding allocated by the department.

In April, the county entered into agreement with neighboring Genesee County, for the operation of the Youth Bureau.

All staff and direct service programs within the department were either eliminated or absorbed by other county agencies. As the above financial figures indicate, this accounted for a considerable savings to the county.

The primary mission of the Youth Bureau remains planning and allocating funds provided by the state for youth service programs.

Legislator Tuohey, with second by Legislator Swiercznski, introduced a resolution establishing new bidding and/or purchasing procedures/policies. Mr. Dudek explained this was necessary due to a change in State law. At this time Mr. Dudek pointed out that there is a resolution requiring all equipment purchases over \$200.00 come before the Legislature for approval. Other types of purchases over \$200.00 require the approval of the Chief Administrative Officer only. Legislator Bennett felt the Finance Chairman should be involved in the process, stating "I am not in favor of by-passing the Legislature". Legislator Tuohey asked, if it was the recommendation of the Chief Administrative Officer to require that not only equipment, but all purchases over \$200.00 come before the Legislature. Mr. Dudek stated that it was his opinion that if the item to be purchased is in the Department's budget, then there should be no problem making the purchase. If the item was not in the Department's budget, it should come before the Legislature for approval. Legislator Tuohey agreed, reiterating "If the item is in the budget they should be authorized to okay it. If it is not in the budget, then they (department heads) have to come to the Legislature for approval."

RESOLUTION NO. 17-192

By Legislator Tuohey, who moved the adoption.

RESOLUTION ESTABLISHING BIDDING AND/OR PURCHASING POLICIES AND PROCEDURES FOR THE COUNTY OF ORLEANS

BE IT RESOLVED, that this resolution sets forth the bidding and/or purchasing policies of the County of Orleans in order to meet the requirements of General Municipal Law, Section 104-b, as follows:

Purpose

Goods and services which are not required by law to be procured pursuant to competitive bidding must be procured in a manner so as to assure the prudent and economical use of public moneys, in the best interests

of the taxpayers, to facilitate the acquisition of goods and services of maximum quality at the lowest possible cost under the circumstances, and to guard against favoritism, improvidence, extravagance, fraud and corruption. To further these objectives, the governing board is adopting internal policies and procedures governing all procurement of goods and services which are not required to be made pursuant to the competitive bidding requirements of the General Municipal Law, Section 103 or of any other general, special or local law.

Procedures for Determining Whether Procurements are Subject to Bidding

The procedures for determining whether a procurement of goods and services is subject to competitive bidding and documenting the basis for any determination that competitive bidding is not required by law is as follows:

Generally the official(s) responsible for making the particular procurement will make the determination of whether competitive bidding is required. In making this determination, the following questions must be considered -

1. Is the proposed procurement a purchase contract or a contract for public work?
2. If it is, will the combined total of similar procurements made by all County Departments exceed the applicable threshold, and if so, do any exceptions apply.
3. If not, what type of procurement is it?

The procuring official must document the basis for any determination that competitive bidding is not required. This documentation may include evidence of written or verbal quotes that the price of the item or service will not exceed the bidding limits. The official may also document the amount expended in previous years in comparison with the threshold to show that the bidding will not be required. The documentation must also state how it was determined whether the procurement was a purchase or a contract for public work.

Statutory Exceptions from these Policies and Procedures

Except for procurements made pursuant to General Municipal Law, Section 103(3) (through county

contracts) or Section 104 (through state contract, State Finance Law, Section 175-b (from agencies for the blind or severely handicapped), Correction Law, Section 186 (articles manufactured in correctional institutions) or the items excepted herein (see below), alternative proposals or quotations for goods and services shall be secured by use of written requests for proposals, written quotations, verbal quotations or any other method of procurement which furthers the purposes of General Municipal Law, Section 104-b.

When this situation exists, the procurement of goods or services will be at the discretion of the department head. Documentation as to the nature of the emergency and shall be sent to the Chief Administrative Officer, within five (5) working days of such procurement.

5. ADEQUATE DOCUMENTATION:

Documentation of actions taken in connection with each such method of procurement is required as follows:

Documentation of quotes must be made on an approved form and maintained by the ordering department for the same period of time as the corresponding purchase or contract.

Documentation, acceptable to the Chief Administrative Officer must be provided whenever the required number of quotes are not provided.

6. AWARDS TO OTHER THAN LOWEST RESPONSIBLE DOLLAR OFFERER:

Whenever any contract is awarded to other than the lowest responsible dollar offerer, the reasons such an award furthers the purpose of General Municipal Law, Section 104-b as set forth herein above shall be documented as follows:

The purchasing official must clearly state the reason, in writing, on the quotation form for any award made to other than the lowest offered.

7. INPUT FROM OFFICERS:

Comments concerning the policies and procedures shall be solicited from officers of the political subdivision or district therein involved in the procurement process prior to the enactment of the policies and procedures, and will be solicited from time to time hereafter.

8. A. PURCHASE ORDERS AND CONTRACTS:

All commitments or orders in excess of \$50.00 shall be either by a contract awarded by the Legislature or purchase order signed by the appropriate officials. No contract shall be recommended or purchase order released until after determining that unencumbered appropriations are sufficient to cover such obligation.

Supplies used by various departments should be uniform whenever practical. The Chief Administrative Officer is authorized to require a department to reconsider specification or quantity of material if it appears County interests could be better served. In the event agreement cannot be reached, the Chairman shall make the final determination.

All contracts which exceed \$1,000 or which extend for more than one year must be reviewed by the County Attorney and submitted to the Legislature for approval.

Purchase orders totaling less than \$200 may be released to the vendor by the ordering department except for printing. Orders of \$200 or more or which are for printing shall require the approval of the Chief Administrative Officer and certification from the Treasurer that funds are available before being released.

Distribution of the purchase order set shall be as follows:

1. Copies marked Vendor and Voucher will be mailed or delivered to the supplier.
2. Copy marked Computer will be sent to the Treasurer's Office.
3. Copy marked Department/Receiving will be kept at the originating department until receipt of the goods or services.

Once order is completed to department head's satisfaction, this copy is signed and forwarded along with invoices and other related material to the Clerk of the Legislature's office. If the payment is for a purchase made from a state bid, a copy of the appropriate section of the state award must be attached.

Vendors' signatures shall not be required on any claims against the County if such claim is in payment of an agreement previously approved by the Orleans County Legislature, or if such claim is in payment of goods or services totaling \$200 or less.

Any modifications to an approved order shall be confirmed in writing.

B. HIGHWAY DEPARTMENT:

As an exception to the preceding purchase order procedure, the Highway Department may release purchase orders below the building limits to the vendor without any further approval except as follows: Section 133 of the Highway Law establishes a county road machinery fund from which the highway superintendent may make purchases for equipment, buildings, and supplies. Any purchase of new machinery of a value in excess of one thousand dollars (\$1,000), but less than five thousand dollars (\$5,000) in order to become effective, may be approved, in writing, by the County Legislature's Highway Committee. Purchases of new machinery or equipment in excess of \$5,000 must be approved by the Legislature.

C. NURSING HOME:

As an exception to the preceding purchase order procedure, the Nursing Home may release purchase orders for operating supplies directly to the vendor, but must submit orders for equipment in excess of \$200 to the Chief Administrative Officer for approval.

C. BLANKET PURCHASE ORDERS:

In certain circumstances, orders are placed with certain vendors numerous times each month. To eliminate the need for processing many small orders, a department may use a "Blanket" Purchase Order. The estimated value of items to be acquired during the month will be placed on the order prior to release to the vendor. Computer copies will be sent to the Treasurer for encumbrance. The voucher along with all the individual invoices will be processed at the end of the month and a new "Blanket" order issued for the following month.

A department desiring to use this system must submit a list of proposed vendors, estimated average monthly amounts to be authorized and the reason a blanket order is desired for the approval of the Chief Administrative Officer. Once this has been obtained, no further approval of subsequent "Blanket" orders are necessary even though they may exceed the \$200 limit, unless a single item is over \$200.

9. ANNUAL REVIEW:

The governing board shall annually review these policies and procedures. The Chief Administrative Officer shall be responsible for conducting an annual review of the procurement policy and for an evaluation of the internal control structure established to ensure compliance with the procurement policy.

10. UNINTENTIONAL FAILURE TO COMPLY:

The unintentional failure to fully comply with the provisions of the General Municipal Law, Section 104-b shall not be grounds to void action taken or give rise to a cause of action against the County of Orleans, or any officer or employee thereof.

This policy shall go into effect January 1, 1992 and will be reviewed annually.

Report of Standing Committees: Legislator Tuohey reported attending a Leadership Meeting in Medina, Soil & Water Conservation District Meeting, attended the Mental Health Board meeting with Co-legislator McCarthy, as well as regular Departmental meetings with Real Property Tax Director, County Treasurer and the Legislature Chairman.

Legislator Bennett met with Sheriff Green and prison board on the 9th, a Probation meeting in Medina on the 15th, and IDA meeting on the 17th and Supervisors' and Legislators' meeting on the 21st.

Legislator Swiercznski reported several meetings with Buildings & Grounds, along with Legislator Bower; also met with the Highway Committee, attended the Supervisors' and Legislators' meeting on the 21st, and attended the prison meeting with Legislator Bennett.

Legislator McCarthy reported attending a Tourism meeting on the 15th, the Community Services Board meeting on the 16th, and met with three members of the Ridgeway Town Board on the 20th.

Legislator Billings had nothing to report.

Legislator Bower reported that in the last two weeks he had met with the Buildings & Grounds Department, the Highway Committee and attended the Department of Social Services monthly meeting, on Monday met with the Office for the Aging, earlier this afternoon he had met with the Administrator of the Nursing Home, and attended the Carlton Town Board meeting, noting that there was a County Planning Board problem there. Attended the Barre Town Board meeting. There was a representative from the gas company who informed the Board they would like to install their gas line at the same time the water line is installed - they had already attended the Albion Town Board meeting regarding this. The meeting was well attended. Mr. Bower said he had been asked to be a member of the Standing Committee on Transportation for NYSAC, which he will accept.

Chairman Berger attended the Yates Town Board meeting on the 9th, attended the Ridgeway Fire Company meeting with Mrs. Tuohey on the 11th, attended the Village of Lyndonville Board meeting on the 13th, attended the Soil & Water Annual Meeting on the 14th, attended the Chamber of Commerce breakfast on the 17th, also met with Jim Hancock on the 17th, attended the Fire Chiefs Association meeting in Albion on the 20th, represented the County at a reception given by the PIC-GLOW organization honoring Mrs. Gioia, Craig Yunker and Steve Hawley.

During the open discussion portion of the meeting, the privilege of the floor was given to Messrs. Paul and Scott Heiligenthaler. Paul Heiligenthaler spoke first. Mr. Heiligenthaler said he had come with a prepared statement, and would be glad to answer any questions after he was through. He noted that prior to January 1, 1992 he had contacted every Legislator, with the exception of Mr. Billings, and had expressed an interest in the job held by Bruce Schmidt. At this point Mr. Heiligenthaler read his statement - a copy is on file in the Legislature Office.

Mr. Heiligenthaler stated that the position (First Assistant County Attorney) should be given to any interested candidate who is qualified and a citizen of Orleans County. Mr. Heiligenthaler also commented that the Legislators he had spoken with agreed, and said they would support him. He also commented that the "process and procedure used by the Board and County Attorney David Schubel in making decisions as to who should be appointed (hired) be analyzed and changed." Regarding the Board's appointment of County Attorney and Attorney for Self Insurance Program, Mr. Heiligenthaler again expressed concern regarding "process and procedure as to how these appointments

were made." He said he did not understand why the County is not run "more like a business" - did not understand why "interviews were not conducted for these positions". Mr. Heiligenthaler said he felt that all candidates interested in the position should be interviewed, and a determination made as to who is best qualified for the position. Mr. Heiligenthaler stated that he was in attendance at the meeting to "change the procedures for appointments and ensure that the taxpayers received the best person." Mr. Heiligenthaler said, "I was not given an opportunity because of procedures or lack thereof. I am asking you Legislators to rescind and all appointments made in which simple businesslike procedures were not applied."

Legislator Tuohey replied, "I resent the implication that I did not apply good business practices to my position on the Board. You are assuming that I don't. You called me and I gave you support, and also gave two other people support, by encouraging each of you to apply for the position." I contacted the individuals who work with Mr. Schmidt, and found out that he is doing an excellent job. I felt it was good for the County and the taxpayers to continue with Mr. Schmidt since he has been a good County Attorney - there is no break in continuity with his reappointment."

Chairman Berger agreed with Mrs. Tuohey, and told Mr. Heiligenthaler that he, himself, had given Mr. Heiligenthaler the same advice.

Several more comments were made by Mr. Heiligenthaler, at which time Mrs. Tuohey left the room.

Chairman Billings commented that according to the Rules of Procedure, individuals were given privilege of the floor for five minutes, and Mr. Heiligenthaler had been considerably longer than five minutes.

Chairman Berger noted that they (the Heiligenthalers') had already taken more than five minutes, and said to Mr. Heiligenthaler, "If you would continue please." Mr. Scott Heiligenthaler was recognized and commented on the courtesy that should be extended to those who speak to the Board.

When asked how "he" (Mr. Schmidt) was informed of the position and recommended, Chairman Berger explained that he had several lawyers call regarding the position, and that he had told each one to apply for the position. With regard to recommendations, Mr. Berger said that he had contacted the Social Services

Department and the individuals Mr. Schmidt worked with at Social Services, and everyone there was very satisfied with his work.

Chairman Berger recessed the meeting at 5:05 p.m. and reconvened at 5:10 p.m.
