Legislator Callard presented a resolution authorizing County participation in the Conrail tax assessment litigation; seconded by Legislator Radzinski. The County Attorney explained that this litigation was commenced by Conrail in 1993. Conrail is alleging that their tax assessments are at a higher ratio than other similarly situated commercial and industrial properties. Mr. Schubel said defendants named include five counties, a number of school districts and several other municipalities. He explained that because this is a class action, even though Orleans County was not named, we will be bound by the court's decision. Mr. Schubel said the named County defendants have estimated that the defense costs on the part of the municipalities will be about \$200,000.00. Chautauqua, Erie and Monroe Counties have been doing alot of the legal defense work. Chautauqua and the other named counties have requested contributions from the other counties that will be bound by this litigation. Chautauqua County is designated as the depository for the contributions. Legislator Bennett said we are being put in the position of defending an assessment that we did not put on Conrail. He also said that Conrail has had some problems and it is vital to the agricultural community to have the railroad for the exporting of our products. Legislator Bennett said maybe we should not be fighting Conrail for this money; maybe we should be helping them and make sure they are going to be here. Legislator Billings replied that Conrail wants to dispose of this line. He said we need it for agriculture and other industries. Legislator Bennett suggested discussing this at the next meeting with the school boards. Mr. Schubel indicated that the County Attorneys are going to be meeting in February at the NYSAC Conference and this can be discussed. RESOLUTION NO. 91-296

ADOPTING PROPERTY IMPROVEMENT POLICY

RESOLVED, that this Legislature adopts the following Property Improvement Policy:

**PROPERTY IMPROVEMENT POLICY**

***Policy***

It shall be the policy of the Orleans County Legislature to require legislative approval of any project involving renovation to or construction on any County property.

***Purpose***

The purpose of this policy is to:

1. Insure that all of the impacts and effects of a project have been considered.
2. To avoid the utilization of County resources on projects unlikely to be approved as proposed.
3. To prevent the "over commitment" of County resources and insure timely completion of approved projects.

### ***Procedure***

"Projects" shall be defined as the renovation, remodeling, construction or reconstruction of any County property, including HVAC and utilities. It also includes the relocation of any office. "Projects" shall exclude minor redecoration or rearranging, as well as routine and emergency repair or maintenance. Proposed projects should be described in summary on a work order and presented to the department's Legislative Committee. This should generally be done *before* requesting the Buildings and Grounds Department to do any extensive planning, drafting or pricing.

If the Legislative Committee approves the project, it will be scheduled for discussion at a conference session. If legislative approval is obtained at the conference session, the Legislature Chairman and the Committee Chairman will sign the work order, and the department may proceed with the project (subject to existing procedures, such as competitive building, purchase orders, etc.) All projects that involve relocation of offices, new construction or significant reconstruction must be approved by a resolution of the Legislature.

Once Legislative approval has been obtained, the Highway committee will establish a priority list and oversee the project's progress unless the Legislature, in approving the project, has assigned this responsibility to another committee. In addition, the Buildings & Grounds Superintendent (unless another Department Head has been assigned responsibility for a specific project by the Legislature) will submit a progress report to the Legislature by the first meeting of every month.

This policy applies to all County departments and is effective immediately.

Legislator Radzinski presented a resolution setting the date and terms of the auction for county-owned properties; second by Legislator Billings. Mrs. Heard asked if Section 7 of the resolution could be changed by adding the words "including any relieved charges". Agreed. Legislator Billings asked if the building in Fancher that the IDA is developing is in In Rem. Mrs. Heard said it will go In Rem approximately April 10 of this year. Legislator Billings asked if that date could be moved up. Mrs. Heard replied that the 30-day "courtesy letter" will go out next week; the date could not be moved up. Legislator Billings said our policy exempts commercial properties from being required to go to auction. Mrs. Heard said the earliest the property could be taken by the county is late August, unless we can process one parcel. Legislator Bennett said he does not think we should. Mr. Schubel said it has always been the policy to complete the In Rem before the end of the year to allow the taxpayers to redeem their property.

The following resolution was then adopted:

RESOLUTION NO. 103-296

SETTING DATE AND TERMS FOR AUCTION OF COUNTY-OWNED TAX PROPERTIES

NOTWITHSTANDING ANY RESOLUTION HERETOFORE ADOPTED, BE IT RESOLVED, that the following terms of auction for County-owned property for the auction to be held May 4, 1996 at 10:00 a.m. in the Court Room of the Orleans County Courthouse, Court House Square, Albion, New York, be approved by this Legislature as follows:

TERMS OF AUCTION  
ORLEANS COUNTY TAX PROPERTY AUCTION  
ORLEANS COUNTY COURTHOUSE  
ALBION, NEW YORK  
MAY 4, 1996  
10:00 A.M.

This is the sale at public auction of various parcels of real property which have been conveyed to the County of Orleans by final judgment under the so-called In Rem Tax Foreclosure Proceedings. This sale is ordered by various resolutions of the Orleans County Legislature and is in accordance with the appropriate provisions of the Real Property Tax Law.

This sale and sale of each and every parcel herein is upon the following terms:

1. All sales are made subject to confirmation and approval thereof by the Orleans County Legislature, which confirmation and approval will be requested at a special meeting of the said Legislature to be held directly following the auction. The resolution of confirmation will be immediately available at the close of said meeting.
2. At least 25% of the final bid for each parcel shall be paid to the Clerk of these proceedings prior to the start of the special Legislature meeting above stated. Payment shall be in cash or by a good check upon a New York State financial institution.
3. The balance of the successful and accepted bid for each parcel shall be paid in cash or by certified check to the Orleans County Treasurer, Central Hall, 34 East Park Street, Albion, New York, 14411, no later than Friday, May 31, 1996 between 9:00 a.m. and 5:00 p.m. unless extended by the Legislature.
4. The County of Orleans is not required to send any notice to the purchaser or purchasers, and if the purchaser or purchasers neglect to pay the balance due and

call at the Orleans County Treasurer's Office at the above stated time the successful bid shall at 5:00 p.m. on Friday, May 31, 1996, be deemed conclusively to be abandoned, the deposit retained by the County as liquidation damages and the parcel in question disposed of in such manner as the County determines without notice to or benefit to the defaulting purchaser.

5. Upon payment of the balance, as above provided, the County of Orleans will deliver a standard form quitclaim tax deed which shall describe the parcel in the same manner as in the In Rem Foreclosure deed to the County and which shall quitclaim all of the right, title and interest of the County of Orleans in and to the said parcel. The said deed shall name as grantee the successful confirmed bidder and shall state the amount of the successful confirmed bid. The County of Orleans will execute no warranties concerning the parcel or the title thereto and will not deliver or be responsible for abstracts, title searches, surveys, maps or other documents concerning the parcel whatsoever.

6. The deed shall contain a condition and covenant that Orleans County shall in no event be or become liable for any defect in the title so conveyed for any cause whatsoever, or that no claim or demand of any nature shall ever be made against said Orleans County arising from such sale or conveyance or any proceedings leading thereto.

7. All parcels are sold subject to the 1996 Town and County tax, including any relieved charges and the 1996 recycling waste fee. The amount of such unpaid tax shall be announced by the auctioneer prior to the auction of each parcel. The balance of the bid, plus the 1996 taxes, must be paid by May 31, 1996, prior to the filing of the deed.

8. The purchaser upon payment of the final bid and the unpaid taxes shall also deliver to the Treasurer a check for all recording fees due to the County Clerk for filing the deed. Such fees will be \$47.00 on each purchase, plus an additional \$2.00 for every \$500.00 or part thereof when the purchase price is \$500.00 or more. For example, if final bid is \$10,000.00, recording fee is \$47.00 plus \$2.00 x (20) or \$87.00.

9. The successful and confirmed purchaser shall take the parcel "as is" upon delivery of the above stated deed, in such condition as the same exists at that date and subject to all alleged possessory or other claims and all covenants, easements and restrictions of record.

10. The various parcels have been available for view by any and all interested parties prior to this sale. No adjournment in bidding shall be allowed for further viewing of any parcel.

11. The various parcels shall be offered from the list of parcels previously available in such order and manner as the auctioneer shall deem proper.

12. The Legislature reserves the right to set minimum opening bids on any or all parcels to be auctioned at any time prior to the auction.

Legislator Bennett asked for an explanation of the program. Legislator Billings explained that the Feds pay  $\frac{3}{4}$  this year and  $\frac{1}{2}$  next year, and the person that is hired cannot be let go. Legislator Bower said the employee has to be kept

on after the funds are gone. Chairman Tuohey said you have to keep that individual, but if someone else leaves, you do not have to keep the numbers up. Legislator Bower asked if this binds us into hiring someone. Chairman Tuohey said no, it just authorizes the application.

Legislator Billings introduced a resolution authorizing the Sheriff to purchase a "tracking dog"; seconded by Legislator Bower. Legislator Billings said the Treasurer had expressed concern about setting up an account for this. Legislator Billings suggested to her, after speaking with Chairman Tuohey and Legislator Callard, having someone outside of the county collect the donations and donate the dog; then we can authorize the Sheriff to keep the dog. Legislator Bower said he received a call from a former Legislator suggesting that this be looked into, because we did have such a dog some time ago. Legislator Bower said he would like to table this until we look into it further. Legislator Billings withdrew the resolution.

#### LEGISLATURE MEETING

April 24, 1996

The meeting was called to order by Chairman Tuohey at 4:30 PM.

After the pledge to the flag, the Clerk called the roll and all Legislators were present.

The Clerk presented the following communications: copy of a legal notice regarding proposed amendments to the Town of Kendall's zoning ordinance and map, request from Upward Bound for a Proclamation for TRIO Recognition Day, OTB January minutes, Community Action Board attendance, announcement of GLOW Workshop on May 17, announcement of Youth Recognition Banquet on May 7, March Planning Board minutes and April agenda, letter written by the County Attorney to Lance Mark regarding Wright property in Kendall.

During Open Discussion, George Callard inquired as to the status of handicapped access to the Legislature chambers. Chairman Tuohey said the Board is still looking into where to put an elevator. Mr. Callard asked about the possibility of holding the meetings in another location. Chairman Tuohey said one of the alternatives is to move the meetings to the courthouse; a handicapped ramp could be installed for access to the second floor courtroom.

Chairman Tuohey spoke about criteria for upgrades for next year. She said last year all the upgrade requests were considered at one time. Chairman Tuohey distributed copies of the letter that was sent to department heads last year. She said Mr. Dudek would like to know if there should be any changes. Mr. Dudek said the Finance Committee reviewed this earlier today and thought we should follow the same guidelines as last year, since it worked well. He said we want to begin by presenting this to the department heads at the next team meeting. Chairman Tuohey asked about restricting upgrades from being requested for the sole reason that the employee is at the top step of their grade. Legislator Bower said he thinks that is the poorest reason to request an upgrade. All agreed that this will be spelled out in the letter to the department heads. Mr. Dudek will redraft the letter with this inclusion.

Chairman Tuohey said the State is offering an early retirement incentive. Mr. Dudek said we will obtain a list from the Retirement System of all the eligible employees. A plan has to be prepared to show savings, but it is not necessary to abolish the positions. He said we want to consider the union's position. Legislator Bennett asked what the savings was from the last two times that early retirement was offered. Mr. Dudek explained that because there is not a wide range between the starting and top salaries, we did not really save that much by replacing vacated positions with employees being paid entry level salaries. Chairman Tuohey said Mr. Dudek will proceed with looking into the early retirement.

Chairman Tuohey asked Mrs. Heard about the Ward house. Mrs. Heard said she received a call from the U.S. Marshall. He called to inquire about how to go about paying the 1996 taxes on property that was confiscated by Drug Enforcement. The property is being rented for \$150.00 per month. Mrs. Heard said she would accept the \$150.00 per month as partial payment for property taxes. We thought the house would be sold and the proceeds would be divided between the different agencies. Legislator Bower said there are court proceedings that are holding up some of these sales. He said we assumed this property could be sold and funds could go back into the Drug Task Force. He asked Mr. Schubel to look into this.

Mrs. Heard said she is seeing an increase in the bills for enrollment in Community Colleges for the Fall 1995 and Spring 1996 semesters. She said there was a chargeback rate adjustment. She said there are about 100 more students and wondered if that could be related to the Fisher-Price closing. It appears to be high school students that are taking college credit courses. It probably will be over budget. Chairman Tuohey said she spoke with Darlene Benton, who said there

are fifteen high school students taking the college courses. She said it involves 238 credit hours. She also said 78 of the full-time students are as a result of the Fisher-Price closing. They will be attending until the Spring of 1997. The full-time rate, which is 30 credit hours, is \$1370.00. Next year it will go down to \$1290.00.

Legislator Callard moved to add three resolutions to the agenda; seconded by Legislator Billings. Carried.

Moved, Callard; second, Bower.

Adopted. 7 ayes; 0 nays; 0 absent.

Legislator Beedon presented a resolution authorizing the abolishing of the Third Assistant District Attorney position; seconded by Legislator Billings. Legislator Bower said he thinks this is a mistake. Chairman Tuohey said one of the reasons we made the District Attorney position full time is because Mr. Cardone said he could handle the district courts. Legislator Bower said the justice courts are tough to man. He said they were never as busy as they are now. Chairman Tuohey said perhaps he can work with less DA nights which would help if the Justices will work with him. Legislator Beedon said Mr. Cardone was asked if he will be back in three months asking for a Third Assistant and he said absolutely not. Legislator Bennett said we have to try it. If it does not work, we have to be able to go backwards and correct the situation.

The following resolutions were then adopted:

Legislator Bower introduced a resolution approving an agreement between the Health Department and Infomed; seconded by Legislator Radzinski. Andrew Lucyszyn explained that two Billing Clerks had been sent to New Jersey for training on the new STAT form, which allows the Health Department to do their billing. This was a group training for all new users of this program. Now an on site workshop with Infomed is required to work out the details as to how the program can be used.

David Schubel indicated that the agreement does not set a cap on the amount allowed for travel. It was agreed that the travel would be approved not to exceed \$1,000.00. The following resolution was then adopted:

Legislator Bennett presented a resolution awarding a proposal for an energy study at the County Office Building; seconded by Legislator Billings. Legislator Billings asked what is provided in the \$7,500.00 cost. Mr. Dudek explained that the company will look at all the energy use in the building and recommend what equipment needs to be replaced to save energy. They project that the system could pay for itself in seven years by converting from electricity to natural gas. They will also re-engineer the air intake, which has been a constant source of irritation. Chairman Tuohey said that if this company is hired to do any phase of the energy conversion, this \$7,500.00 is waived. The following resolutions were then adopted:

RESOLUTION NO. 249-696

AWARDING PROPOSAL FOR ENERGY STUDY AT COUNTY OFFICE

## LEGISLATURE MEETING

July 10, 1996

The meeting was called to order by the Chairman at 4:30 PM. After the pledge to the flag, the Clerk called the roll. All Legislators were present, with the exception of Legislator Billings.

The Clerk presented the following communications: notice of July Intercounty meeting, letter of acknowledgment from Assemblyman Nesbitt regarding resolution opposing the Wicks Mandate.

Susan Heard distributed the 1996 Analysis of Monthly Cash Receipts and Disbursements, covering through June. Legislator Beedon asked if we are still waiting for money from the State. Mrs. Heard said we are waiting. Legislator Bower asked if we are waiting more than usual. Mrs. Heard replied that we are just starting to feel it.

During Open Discussion, Chairman Tuohey asked Stanley Dudek to report on various matters. The first discussion was regarding the status of Courthouse Square renovations. Mr. Dudek said he has spoken with Rick Lord, who had met with Stan and Wayne Hale. Mr. Lord has indicated that by the end of the week he will have a letter to the State Advocate for the Disabled, seeking a decision as to whether or not we can use the chair lift to the courthouse as an alternative to an elevator. Mr. Lord felt that due to the historic concerns, the requirement for an elevator might be waived. There is an exception for historic buildings. Then in about a week Mr. Lord thinks he can have a draft of a design of what might be acceptable if we put an elevator on the south side of this building, and possibly expanded office space. We should have something in about a week to ten days.

There was discussion regarding a request from the State to share usage of the County Fuel Farm. The State has requested that the cost per gallon be lowered from .20 above cost to a much lower rate. Mr. Dudek prepared a report which shows the effect of lowering the rate to .17 per gallon for all users. It also indicates that the 1995 operating costs of the Fuel Farm amounted to \$63,991.00. Approximately half of that cost is debt service. There is not much that can be done to reduce operating costs. The State has indicated that they would use

approximately 55,000 gallons per year. This would increase revenue to the county, if the per gallon charge remains at .20, by \$11,000.00. Mr. Dudek said if the rate was reduced to .17 per gallon for all users, the revenue would remain about the same as it is now. He said one of the bigger expenses is the repayment of the fuel leak. About \$26,000.00 remains to be paid. Legislator Bower said it could be reduced to .18 per gallon which would pay the debt a little faster. Legislator Bennett said the State could not build their own facility with the \$11,000.00 it would cost them annually for fuel at .20 per gallon, so why should we lower our charge. Chairman Tuohey said she does not think the State will want to participate for a .17 per gallon charge. Mr. Dudek said that, as Legislators, you should take issue with the State wasting taxpayers dollars by building their own fuel facility. Chairman Tuohey requested that Mr. Dudek draft a letter of response to Lewis Gurley, indicating that there will be a .17 cent per gallon charge and also pointing out that, as taxpayers, we do not feel that they should build their own facility. Legislator Bennett said he does not want it set at .17. Legislator Bower agreed. He said we should build up a cushion. Mr. Dudek suggested leaving the rate at .20 until the debt is paid off, then drop it to .17. Agreed. This will be offered in the letter to Mr. Gurley, based on usage of 55,000 gallons annually. A copy of the letter will be sent to our State representatives, including Commissioner of Transportation, John Daly. All agreed.

There was also discussion regarding Early Retirement. Mr. Dudek said he has an estimate of what the cost would be if early retirement was taken by those that are interested. The numbers actually say between 50 and 75% of payroll is what you have to pay. Mr. Dudek used 75%, but some would probably be less. These figures are the extra cost that you will have to send into retirement to allow these people that extra credit. Mr. Dudek said a decision will have to be made because this involves a local law. The process will have to be started by the next meeting. Legislator Bower asked Mr. Dudek to prepare figures on what would be saved over a two year period if these employees retire. It was agreed by all, with the exception of Legislator Bennett, to begin the local law process to offer the early retirement.

Mr. Dudek said the EAP Committee is running short of funds. They have requested to organize a raffle. All in favor.

Legislator Bennett said there is a problem with the air conditioning at the County Administration Building. It broke down two days last week. Mr. Dudek said there was an emergency resolution for this last year. Legislator Bennett said there should be three proposals. Agreed. Mr. Dudek said he will ask Ron Tower to talk to someone at Buildings Control and Services, which is the company that is performing the energy study at the building. This should be looked at in terms of the whole system.

The following resolutions were then presented:

Six student interns are coming in. We would like to have a place for them to work. Chairman Tuohey asked what the status is. Don Metzger said the staff lounge in the basement is probably 80-90% done. The conference room is about 10% lower than that. There have been no initiatives upstairs yet at all. There is only two weeks left between now and September 1. Mr. Metzger said, in his estimation, it has been a slow project. They would have to make a big push to make it by September 1. He suggested delaying for a couple of weeks and looking into the provisions of an "on-call" contract. Legislator Bennett tabled the resolution.

Legislator Bower presented a resolution authorizing the Director of Mental Health to request proposals regarding privatization; seconded by Legislator Beedon. Chairman Tuohey said she feels that we, as Legislators, have the duty to provide services in the most cost effective way. She said the Community Services Board, together with the Mental Health Director, has suggested looking into privatization. Legislator Tuohey said she thinks we have a responsibility to these people that we appoint, to the service recipients, employees and taxpayers, to explore any cost saving ideas. This resolution offers an opportunity to explore the options. It does not in any way commit this board to privatization of the Mental Health Department. I will vote in favor of this - just to look into it.

Legislator Bower said he has been serving on County boards for many years. He said he knows how hard it is to get good quality people to serve on these boards. Legislator Bower said he has listened to the pros and cons; Board members have made trips to find out as much as they can. He said we have assured the employees that we will do as much as we possibly could to guarantee their jobs.

Legislator Bower said he feels that he has an obligation to do what that board has asked. He does not think he has the same obligation to vote for privatization. He said he thinks we have to support the Mental Health Board in their endeavors to do as good a job as they can for the people of Orleans County.

Legislator Bennett said that right from day one when Mr. Metzger suggested that we take this action, he had an uncomfortable feeling that it wasn't something he thought was a particularly good idea. He said his personal feelings on this have nothing to do with his respect for the Mental Health Board or Don Metzger. Legislator Bennett said he thinks privatization is a buzz word; an inside thing that everybody wants to hear about today. He said he has privatized certain things within his own business and different companies that do jobs for him do not listen as well as his own employees. He said the bottom line is, the buck stops with the Legislature. When there are complaints, whether it's privatized or public employees, we are the ones that will have to take the bottom line flack for services, and the bottom line of what we expect from a department and what we hope to get from it. Legislator Bennett said his own feeling is he cannot vote for this because he feels that in order to serve the public and serve the people that need the service, the best way that we can control it is to keep our employees and our own organization; not put another layer of beauracracy between us and the service we are trying to provide.

Legislator Billings said he agrees with Legislator Bennett. He said he had indicated earlier on his opposition to this situation. He said he thinks we lose some control; we have no guarantee of the services we will get.

Chairman Tuohey said she feels this has to go one step further to see if there is a savings; how can you make a judgment call on something you don't know anything about. She said she feels we have to go one step further to make a really educated decision.

Legislator Radzinski said he agrees with Chairman Tuohey. He said we should give Mr. Metzger and the Board a chance to look at the proposals.

Chairman Tuohey suggested that the committee go over some of the steps that were contained in the RFP proposal; possibly cutting out a couple of them. Legislator Bower said that by no means are we going to rush this through. Chairman Tuohey said it is not fair to keep the employees hanging. She said you should be able to tell within a couple of weeks after the return of the proposals.

Legislator Beedon said his vote today is not a vote for privatization; it is a vote to explore it. A roll call vote was then taken, with Legislators Bennett and Billings voting nay:

Legislator Bennett introduced a resolution approving a cellular phone use agreement for a Highway employee; seconded by Legislator Billings. Legislator Bower said the reason this was taken off last time was because there was no one here that could answer why this employee needs a cellular phone when he has a radio. Legislator Bennett said he has discussed this with the Highway Department. There are times when he needs the phone for direct access to a plumber or electrician for the Park. Legislator Bower said it is easy to say "it's just \$11.00". Well if all 26 department heads wanted one, we couldn't refuse when we allow it for someone who has a plumbing problem, and he has a radio. All department heads do not have radios. I think we have to justify using the taxpayers money; especially when all it's for is a plumbing problem. Legislator Bower said he only has to get on the radio and tell dispatch that there is a plumbing problem. The following resolution was then adopted:

#### RESOLUTION NO. 319-896

Prior to the adoption of the following resolution, County Attorney, David Schubel, noted this resolution adopts one of the first workplace violence policies

in the state. Mr. Schubel said the CSEA union went along with this policy. The following resolutions were adopted:

## RESOLUTION NO. 350-996

### ADOPTING POLICY AGAINST WORKPLACE VIOLENCE

WHEREAS, Orleans County has a long standing policy of protecting and safeguarding the rights and opportunities of all people to seek, obtain, and hold employment in an environment free from intimidation and physical or verbal violence, be it

RESOLVED, that this Legislature adopts the following "Policy Against Workplace Violence" as an official policy of the County of Orleans:

### POLICY AGAINST WORKPLACE VIOLENCE

#### I. POLICY

It is the policy of Orleans County to provide an employment and business environment free from violence.

#### II. REGULATIONS

A. It shall be a violation of Orleans County for anyone who is authorized to recommend or take personnel actions affecting an employee, or who is otherwise authorized to transact business or perform other acts or services on behalf of Orleans County:

1.

To make real or perceived threats, or engage in acts of physical or verbal violence in the workplace.

2.

To recommend, impose, grant, withhold or refuse to take any personnel or other action consistent with his or her duties and responsibilities because of workplace violence or as a reprisal against an employee or other individual who has complained about or reported workplace violence.

3.

To disregard and fail to investigate allegations of workplace violence whether reported by the employee or individual who is the subject of the alleged violence or a witness, and to fail to take immediate corrective action in the event misconduct has occurred.

- B. It shall also be a violation of this policy for any employee, or other individual, to abuse another through conduct or communication of a violent nature and constituting workplace violence as defined above. Whenever such misconduct exists, prompt and corrective action consistent with the discipline provisions set forth in Orleans County policies is required.
- C. Whenever there is an abuse of authority or neglect of responsibility, the supervisor or other responsible individual is required to take prompt and corrective action consistent with the discipline provisions of Orleans County policies.
- D. The violation of this policy can result in discipline and discharge for employees; and such penalties, sanctions and impositions against other individuals or parties as may be available to the County, given the nature of the contractual or business relationship or subject to a collective bargaining agreement that may be established with such parties or individuals.

### III. TIMELINESS FOR INITIATING COMPLAINTS OR GRIEVANCES

Employee grievance procedures have time limits. If a workplace violence complaint or grievance is made through one of the forums, time limits must be observed. There are no express time limits for initiating complaints and grievances under this policy, however, every effort should be made to file such complaints as soon as possible, while facts and potential testimony of witnesses, if any, are still fresh.

### IV. APPROACHES TO COMPLAINT RESOLUTION

Employees or other individuals who feel aggrieved because of workplace violence have several ways to make their concerns known.

- A. Aggrieved persons who feel comfortable doing so should directly inform the person engaging in the violent behavior that such conduct or communication is inappropriate and must stop.
- B. All aggrieved individuals who do not wish to communicate directly with the person whose conduct or communication is inappropriate, or if direct communication with the offending party has been unavailing or would constitute a risk of harm, shall contact the offending party's immediate supervisor and/or the Chief Administrative Officer for counseling and assistance.
- C. Aggrieved persons alleging either workplace violence by anyone with supervisory authority, or failure by supervision to take immediate action on the individual's complaint, may also file a formal grievance

in accordance with the provisions of the appropriate grievance procedure.

Regardless of the means selected for resolving the problem, the initiation of a complaint of workplace violence will not cause any reflection on the complainant nor will it affect such person's future dealings with the County, the employee's employment, compensation or work assignments.

#### V. RESPONSIBILITY OF MANAGEMENT

All levels of management have a special responsibility for implementation of this policy. If behavior is observed which violates this policy, the person observing such behavior shall bring the matter to the attention of the supervisor responsible for that area, and, in turn, the Orleans County Threat Assessment Team. If an employee or other individual files a complaint, the Supervisor with whom the complaint is filed shall inform the complainant of his or her rights under this policy and attempt a correction. When a problem is beyond the capability of such Supervisor to effectively correct, the matter shall be referred to the Chief Administrative Officer who shall then notify the appropriate members of the Threat Assessment Team for appropriate action.

In all cases and regardless of the individual's remedial measures that have been undertaken, the Supervisor to whom the complaint has been referred shall provide the Chief Administrative Officer with a complete written report of each complaint. The Chief Administrative Officer shall then disseminate the report to the appropriate members of the Threat Assessment Team. This report must be submitted within ten (10) days of the date the complaint was first filed with the management representative. Such report shall minimally include:

- A. Date of receipt of complaint.
- B. Identification of complainant.
- C. Identification of the party or parties and the actions complained of, including all relevant background facts and circumstances.

Legislator Callard presented a resolution which would enact a one week sales and use tax clothing and footwear exemption; seconded by Legislator Beedon. Chairman Tuohey said she believes all the Legislators have received letters from the Medina and Albion Chambers of Commerce asking that this resolution be

adopted. The State will be exempting these items from sales tax during that week and the County has been requested to do the same. Mr. Dudek said that Monroe, Niagara and Wyoming Counties are adopting the resolution; Genesee County is voting on it today. Erie County is not adopting it. Legislator Bower said this is part of the tax that is used to run the county government. Now we are going to exempt people who are buying clothing during that week. Other taxpayers that do not make these purchases at that time do not receive an exemption. He said he cannot support this resolution. Legislator Billings said he goes along with Legislator Bower to an extent. He said it is subsidizing the clothing industry; why should that industry be picked out? Legislator Billings said with the surrounding counties adopting this, he feels we have to support it. Legislator Bennett said if we were really going to help anyone with this, it should be done at Christmas or school shopping time. Chairman Tuohey said she feels that as long as the two Chambers of Commerce have requested this, they must feel that it will benefit the local merchants. She will support it. The following resolutions were then adopted:

#### RESOLUTION NO. 449-1196

#### ENACTING ONE WEEK SALES AND USE TAX CLOTHING AND FOOTWEAR EXEMPTION

Legislator Radzinski presented a resolution authorizing the transfer of funds from the Mental Health budget to the Computer services budget; seconded by Legislator Beedon. Susan Heard said money should not be moved from one department to another in December. She said if it is the intention of the Legislature to allow this purchase, the money should be encumbered in the Mental Health budget. Legislator Billings asked Don Metzger where the money is coming from. Mr. Metzger said it is unspent state aid. Legislator Billings asked what the funds were originally intended for. Mr. Metzger replied that it was intended to support the CSS Program, but there are extra funds this year. Legislator Billings asked if the money is encumbered, can we change the way it is to be spent after the first of the year. Mr. Metzger said the authorization from the state is to purchase computers and software and that cannot be changed. Mr. Dudek suggested having the resolution just approve the encumbrance of funds. Legislator Bennett asked when the state decided that there are extra dollars to be spent. Mr. Metzger said this is money we would not be spending. When we notified the state they authorized the use of it for the computers. Legislator Bennett asked if any county cost could be eliminated with this money. He asked how this affects the privatization factor. Mr. Metzger said we have not even finished our review of the process. If we privatized, we would have to be paid for whatever we turn over. Mr. Dudek said these dollars were part of money that was already budgeted. That means some other appropriation lines have not been spent. Chairman Tuohey withdrew the resolution because it is not correct procedure. Mr. Metzger will prepare another resolution to be placed on the December 30 agenda. He will also attend the Conference Session on that date.

Legislator Beedon presented a resolution approving a flex time schedule for the Probation Department; seconded by Legislator Billings. Legislator Bennett said

Legislator Bennett presented a resolution to authorize filling a vacancy in the Buildings and Grounds Department; seconded by Legislator Radzinski. Stanley Dudek said two people were transferred from the Nursing Home to Buildings and Grounds. The Nursing Home is just reimbursing us for one. Legislator Bennett withdrew the resolution.

The following resolutions were then adopted:

#### RESOLUTION NO. 499-1296

## Budget Message 1997

### Overview

The development of a budget is probably the single most essential tool available to local officials for implementing legislative priorities and exercising control over local government operations. In this, our 1997 proposed budget, the finance committee has endeavored to provide the resources necessary to implement legislative objectives in a fiscally responsible way. It has not been easy. The original county cost of departmental requests would have increased taxes by more than 24%! In cooperation with finance committee requests, departments prioritized suggested reductions and adjustments. These were carefully scrutinized and applied where reasonable, reducing the county cost by \$1,616,265.

Under this proposed plan, the 1997 property tax levy will increase by \$233,392 or 2.62% for an average rate of \$8.10. Spending will increase by \$1,193,195 or 2.71% to \$45,183,686 while revenues are projected to grow \$839,803 or 2.35% for a total of \$36,507,235. This results in a county cost of \$8,676,451 an increase of \$353,392 or 4.25%.

The 1996 general fund balance is projected to be \$500,000 or \$10,000 more than a year ago. This entire balance has been applied to the 1997 budget as has \$100,000 of road fund balance, reducing the tax levy to \$8,116,451 a 2.96% increase. Meanwhile, the assessed value of county property has increased only slightly \$3,354,336 or .34% to \$1,002,586,043.

***The "bottom line," is an increase of 21 cents per thousand in the average***

### Appropriations

The 1997 budget includes 10 positions not budgeted in 1996. Two of these are in the probation department, funded through a state grant. Four are deputy sheriff positions, funded primarily with a federal COPS grant. The county share has been offset by reducing allocations for overtime. The final four include three State mandated correction officer positions, and one part time jail nurse.

***These mandated positions have forced the cost of operating the county jail to increase \$157,391 or 15.96%***

Additionally, personnel services lines have been increased 2% to provide for a general salary increase in 1997 in accordance with guidelines established by the Legislature.

Although retirement costs will be 3% of payroll, only 1.5% has been budgeted, the balance to be paid from, and nearly depleting, a special local retirement reserve account. Medical insurance is expected to increase by 3%.

Allocations for equipment have decreased by \$89,875 to \$379,638. Nearly all of the expenditure is for replacement of outdated equipment.

Contractual expenses include numerous categories detailed in the budget. The overall cost will increase by \$561,086 or 2%. Major increases include:

- \$125,000 for Community Colleges
- \$122,287 for aid to dependant children
- \$47,000 for home relief
- \$147,453 for road paving

***Of significance, the fee for solid waste collection will remain the same at \$140.80 per parcel.***

### Revenues

The 1997 budget projects that sales tax revenue will be 5.2% greater than that budgeted for 1996 but equal to the actual 1995 receipts. This increase of \$386,266 assumes that the County Legislature will request an extension of the additional 1% sales tax that expires November 30, 1997. While federal aid will improve by \$275,135, state aid will fall \$281,526.

### Capital Projects

Major capital projects budgeted for 1997 include:

- Replacement of a van and 4 patrol cars
- Replace loader
- Increased allocation for road maintenance & improvement
- Replace emergency management vehicle
- Allocation for fire training tower

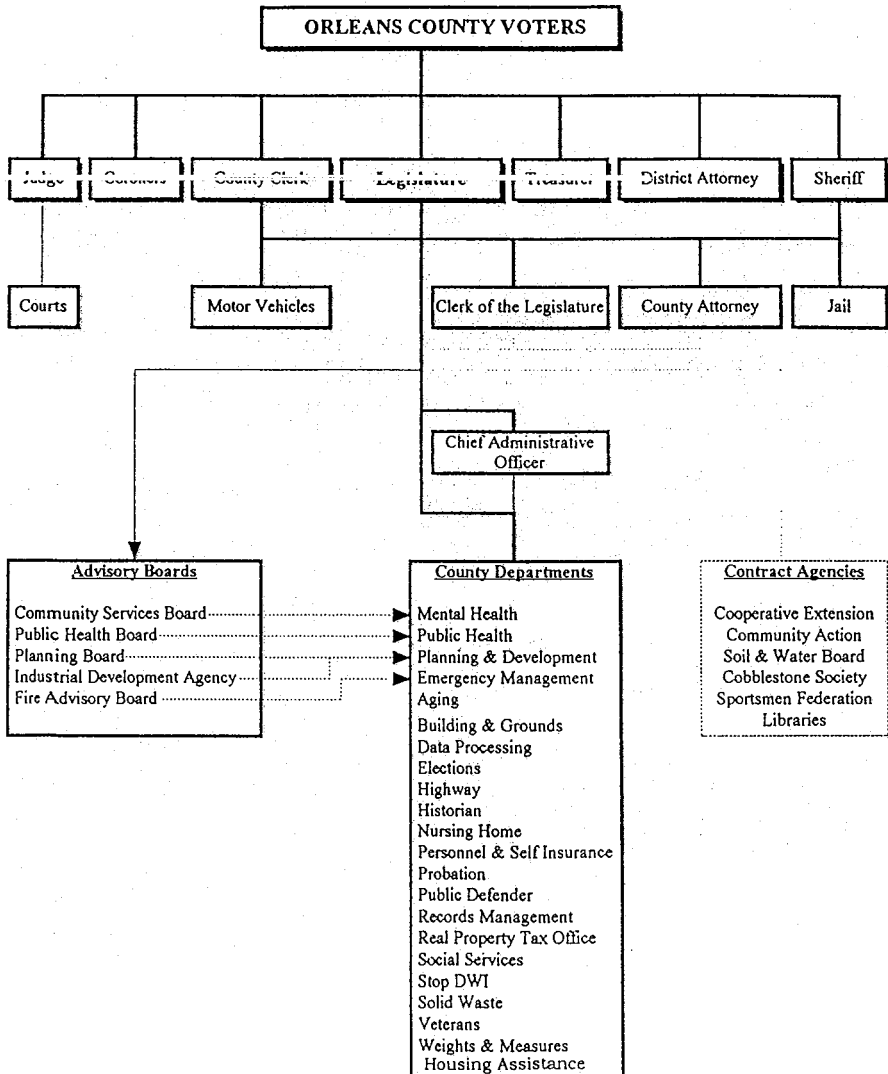

### Enterprise Fund

The County Nursing Home operates as an "enterprise fund" and does not rely on property tax dollars for support. There have however been significant delays in obtaining approval for rate increases as well as changes in reimbursement methodologies. As a result, the Nursing Home budget includes the possibility of having to borrow \$197,247 to meet their 1997 obligations.

Respectfully presented,  
Stanley J. Dudek  
Budget Officer

Mr. Dudek indicated that the installation of the elevator will affect the roof on the building and suggested that the two projects be tied together. Legislator Billings said he understands that we can use the original \$70,000 for the roof survey also. He also said he is not happy with the idea of installing an elevator. Legislator Bower asked what the alternative is. Legislator Billings replied that the Legislature meetings could be held elsewhere. Chairman Tuohey said we are going to move ahead by going with the elevator and office design space. Chairman Tuohey asked if increasing the \$34,000 is going to come out of the elevator grant. Mr. Dudek said we will have to make sure it does not. Chairman Tuohey said she does not mind combining this into one project but does not want to have the money that was granted for the roof project to be used for the elevator. Legislator Billings moved to table the resolution. The motion failed due to lack of a second. David

Schubel said all this resolution is doing is accepting a proposal. The successful and confirmed purchaser shall take the parcel "as is" upon delivery of the above stated deed, in such condition as the same exists at that date and subject to all alleged possessory or other claims and all covenants, easements and restrictions of record.

The various parcels have been available for view by any and all interested parties

Legislator Bower asked Mr. Dudek about a travel request that was made by a Public Health employee. Mr. Dudek explained that this employee had requested to attend a conference in Saratoga dealing with comedy. He said he had held up on approving the request pending more information. Legislator Bower said he asked Andy Lucyszyn to attend this meeting today for the purpose of justifying this request. Mr. Lucyszyn said the employee is the department's Health Educator. The conference is about humor, comedy and how to improve one's health through those means. This employee does use those techniques in her work. Mr. Lucyszyn said this is tied in with the Health Educators Conference that will be held statewide. Orleans County is the only county that is 100% reimbursed for this program. He said he approved three days of travel for this, rather than the entire five days of the conference. Legislator Bennett said he does not feel this is necessary. Legislator Beedon commented that he uses humor in his job every day. A majority of the Board verbally approved the request, therefore Mr. Dudek will sign the approval.

Legislator Callard presented a resolution transferring monies into the Chief Administrative Officer's budget; seconded by Legislator Bower. Mr. Dudek said there is a need to focus on training for Supervisors. One of the important topics will be regarding county policies. Mr. Dudek said he attended a meeting where he learned that lawsuits regarding workplace practices are going to be the trend for the next decade. One of the reasons this is happening is that if you can win a suit on harassment or discrimination as an attorney, you do not have to get big money in a settlement to get your fees. Because it's a discrimination suit, your fees will be paid if you win something less than a large award. One of the points made, which is a section of law, is that an employer is responsible for acts of its agents and supervisory employees, regardless of whether the acts were specifically authorized or forbidden, and whether the employer knew it or should have known it. Mr. Dudek said we have to put a lot of effort into training supervisors so they will recognize the proper actions when they see it and that they will do something about it.

The following resolutions were then adopted:

Legislator Bower presented a resolution to fill the vacant Program Director position in the Mental Health Department, at step 4; seconded by Legislator Callard. Donald Metzger, Mental Health Director, explained that a lengthy process of advertising and interviewing was conducted, with a result of three legitimate applicants. Two of those three turned the position down due to amount of salary. One current employee indicated that she is interested in the position, but felt she should be given more than the step 1 salary. She requested a minimum of \$32,000. She is currently making about \$28,500. The salary for this position at step 4 would \$32,155. Legislator Bower indicated that this employee also currently earns beeper pay. She would not in the new position. Mr. Metzger said recently the new position of Supervising Social Worker was created at a salary of \$30,365. That position does not have near the responsibilities of the Program Director position.

Chairman Tuohey announced that she will be attending the CLAS Conference in Chautauqua County from June 8 through June 10.

Legislator Bower moved to adjourn; seconded by Legislator Beedon. Meeting adjourned at 5:20 pm.

**LEGISLATURE MEETING**

June 11, 1997

The meeting was called to order by the Chairman at 4:30 PM. After the pledge to the flag, the Clerk called the roll. All Legislators were present.

The Clerk presented the following communications: copy of letter written by the Wyoming County Sheriff to the Orleans County Emergency Management Coordinator, expressing gratitude for participation and assistance with the search for Samantha Zaldivar, notice of June Intercounty meeting, GLOW Solid Waste financial statements and graphic analysis for 1996.

During Open Discussion, Highway Superintendent Donald Cooley spoke about

paving roads. Mr. Cooley said he had budgeted for certain portions of Lakeshore and Hindsburg Roads. He informed the Legislature of costs to do additional work. The cost of the additional paving on Lakeshore Rd. would be about \$300,000; using our own manpower. Platten Rd. would have to be contracted out. There are two culverts on that road that need attention before the road is paved. That roadwork would be around \$500,000. Chairman Tuohey asked if Platten Rd. is scheduled for next year. Mr. Cooley said it is in the capital plan for next year. Legislator Billings said, the only thing that is left on the Lakeshore Rd. is the two miles from Kendall Rd. to Countyline Rd. Mr. Cooley said that is correct. He said there was \$600,000 for Peter Smith Rd. all the way to Countyline Rd. for next year. Chairman Tuohey asked Mr. Cooley how soon this can be started. Mr. Cooley said there are certain stretches that are bad and he wants to start grinding them right away.

Chairman Tuohey said she received a letter from the Town of Shelby requesting permission from the County for erection of a sign on a county-owned parcel, on the east side of Rt. 31. All agreed to allow this.

Legislator Bower motioned to adjourn the meeting; second by Legislator Billings. All in favor. Meeting adjourned at 5:00 pm.

## **LEGISLATURE MEETING**

June 25, 1997

The meeting was called to order by the Chairman at 4:30 PM. After the pledge to the flag, the Clerk called the roll. All Legislators were present.

The Clerk presented the following communications: Resolution adopted by Suffolk County requesting State to roll back cost of State Constitutional Convention, letter of congratulations to Chairman Tuohey on her appointment to the Board of Directors of NYS Association of Chairs of County Legislative Boards, letters from Assemblymen Nesbitt and Seaman acknowledging receipt of resolutions regarding Lake Ontario water level, notice of June Planning Board meeting and May minutes, resolution adopted by Steuben County urging State legislation regarding reimbursement for parole violation hearings, notice of July Intercounty meeting, letter of acknowledgment from Governor's Office for resolution regarding Lake Ontario water level, minutes of April OTB meeting.

Chairman Tuohey thanked Legislators Billings and Bower for participating in the lakefront tour.

During Open Discussion, Ron Tower spoke to the Board about the plans for the elevator to be installed in the County Clerk's building. Mr. Tower reviewed the preliminary drawings. Chairman Tuohey asked Mr. Tower about a door being put in to go into the boiler room from outside. Mr. Tower said he has mentioned this to Crawford and Stearns, and was told this would not be a problem. Legislator Callard asked Mr. Tower if the cost estimate submitted last year is compatible with these current plans. Mr. Tower said yes. Legislator Bower said he thinks the plans look good and we should continue on to the next step. Legislator Callard agreed. Legislator Billings said the space situation should be looked into more first.

Wayne Hale presented an overview of the proposed Capital Plan for 1998 – 2000. Mr. Hale said 57 projects have been requested. Legislator Bennett asked if items involving expansion of dispatch services could be included. Legislator Callard said no, that is a separate issue. Legislator Callard said there will be a proposal at the next meeting to allocate funds to conduct a road study, to help determine which roads are in the most need of repair. He said we are going to recommend that \$50,000 be allocated for this, which may be offset by research that has been done by Cornell.

Mr. Hale said there are three tourism projects in the plan for 1998, for which funding is available, at either 20 or 50% local match. Mr. Hale said he has talked

with the Canal Corp. about improving the canal and the culvert. He has received application forms. Mr. Hale said he would like to see a cooperative project between the county and the municipalities that are included in the state canal plan. Chairman Tuohey asked where the revenue would come from for the proposed Marine Park project. Mr. Hale said this project would be eligible under the Clean Air Clean Water Bond Act. The guidelines have not been published yet. Mr. Hale said the Seaway Trail Plan that he had previously presented included diversifying the waterfront beyond fishing, to target families, senior citizens and boaters.

Chairman Tuohey said this proposal is about .80 cents per thousand on the tax rate, for the 1998 capital projects. Legislator Callard said that is correct, but to keep in mind that the highways are the largest percent. He said this plan will be presented for approval at the next meeting. We will also propose a study for highways.

Legislator Billings said there had been discussion with Wayne by the Committee about conducting a space study. Mr. Hale said that, in looking at the capital projects requested, the issue of space kept coming up. He suggested looking at space needs on a countywide basis. Key people in the departments could be interviewed regarding space needs. Legislator Billings said we are talking about all the county buildings; we should look at what we have and how to better utilize it. Chairman Tuohey commented that everyone needs more space. She suggested starting with one area. Mr. Hale said he would like to see a committee formed to work on this. Mr. Dudek suggested starting with the County Office Building. Legislator Bennett said a space study makes sense, as long as it doesn't affect the plans for this building. Legislator Billings said you have to look at this building before you spend half a million putting an elevator in; it might be better for us to move out. Legislator Bower said we looked at that for four years, and came to the conclusion that it was not in the best interest of the taxpayers. Legislator Bennett said he thinks we made a conscientious decision to stay here the day we bought the elevator. Legislator Billings said he did not make that decision. Legislator Radzinski indicated that he is not totally in favor of the elevator. Chairman Tuohey said we have the elevator, and she feels that the purchase of the elevator was a commitment for us to remain in this building. That was what the majority wanted.

Legislator Bennett moved to waive the rules to add two resolutions to today's agenda; seconded by Legislator Bower. Carried, with Legislator Billings abstaining.

The following resolutions were then presented:

### **LEGISLATURE MEETING**

July 9, 1997

The meeting was called to order by the Chairman at 4:30 PM. After the pledge to the flag, the Clerk called the roll. All Legislators were present, with the exception of Legislator Billings.

The Clerk presented the following communications: letters of acknowledgment from Senator D'Amato and NYSAC regarding resolution adopted pertaining to the ISTE Act.

During Open Discussion, Mr. Dudek informed the Legislature that a request was received from the State for use of radio tower space. They want to use the shorter of the two towers. They offered to conduct a frequency study and stress analysis of the tower to make sure it would support the weight of the antennas. The State would be responsible for the studies if we allow them to use the tower. The Radio Committee is in favor of this. There was concern that the tower would need strengthening, so this would be a way to find out the strength and stability of that tower. Before we proceed on the development of an agreement, we would like a consensus of the Board. Legislator Bower said he thought this would be a good idea. Legislator Bennett also agreed that this should be done. Chairman Tuohey also agreed. Mr. Dudek said he will give information to the County Attorney to incorporate into an agreement. Hopefully it will be on the next agenda.

The County Attorney indicated that the Village of Lyndonville has requested to purchase one of the Sheriff's cars that will no longer be used by the Sheriff's Department. The Village is willing to pay \$1,000 for the vehicle. The vehicle would be garaged in Lyndonville, and the Village would maintain the car. They would like the car to be insured under the County's coverage. Mr. Schubel said it could present a problem having it characterized as an outright sale. He suggested

having an intermunicipal agreement between the County and the Village, whereby the County would retain title. It would be a benefit to have the car housed in Lyndonville. The Deputy could go directly to work in Lyndonville, rather than having to drive here first. Legislator Bower said this is worth looking at. Mr. Schubel said there is a concern about our Deputy driving a car that the County does not own. Would be beneficial if the title remained in the County's name. Chairman Tuohey asked if Lyndonville will reimburse the County for the insurance. Mr. Schubel said he will look further into this and he will relay the feelings of this Board to the Village Board members at their meeting.

Legislator Bower said he received a call this morning that he considered urgent, and he had to talk to Ms. Buell in the Nursing Home. Legislator Bower called 589-7004 and reached a recording. He did not know if Ms. Buell was off for the day, on vacation or what. Legislator Bower then called the Administrative Secretary. He reached another recording. His next call was to the Administrator, and he reached another recording. Legislator Bower then spoke to someone in activities. Legislator Bower finally got the message to Ms. Buell through someone in Maintenance. Legislator Bower said if a person wants to get someone into the Nursing Home and they get the runaround, they will be frustrated. Legislator Bower called Brockport, Medina and Park Ridge and was able to speak with someone at all three places. Chairman Tuohey asked Legislator Bower if he called the direct line? Legislator Bower said, no, he called as if he didn't know the direct line. Chairman Tuohey said she gets the same message when she calls other department heads. Legislator Bower said he would like to talk to someone when he places a call. He said he thinks we should look into it.

Legislator Beedon moved to waive the rules to add a resolution to today's agenda; seconded by Legislator Bennett. All in favor.

Chairman Tuohey said the Management Plan was amended to create a committee to make recommendations regarding the Management Plan. The appointments to the committee are made by the Chairman, with approval by the rest of the Legislators. Chairman Tuohey appointed Carol Lonnen, Beverly Parmale, Susan Rustay, Dean Holland, Stanley Dudek, Sandra Bower and David Schubel to the committee.

Legislator Bennett asked why there are two people from the same office. He thought it would be better to include more offices. Chairman Tuohey said Carol Lonnen is an elected official and was chosen in that capacity. Susan heard said, if you want an elected official, I'll serve. Chairman Tuohey then changed the appointment of Carol Lonnen to that of Susan Heard.

The Treasurer distributed a Sales Tax Report covering 1/1/97 through 6/30/97. Also distributed Analysis of Monthly Cash Receipts and Disbursements through June.

The following resolutions were then presented:

Legislator Callard presented a resolution authorizing the purchase of a building and the issuance of serial bonds; second by Legislator Beedon. Chairman Tuohey asked if this precludes us from obtaining additional funds if needed. The County Attorney said no, we would have to adopt an amended resolution. Chairman Tuohey asked if the use of the bond money is limited to just the particular building being purchased, or can it be used for work on the office that will be vacated by dispatch. Mr. Dudek said it is pretty much geared just for the building being purchased, because of the differences in the useful life and structures of the buildings. Chairman Tuohey commented that when we get into other areas, we will have to consider another bond issue. Mr. Dudek said that is correct. Legislator Callard said that hopefully we will blend it into one bond. This will get it started.

The following resolution was then adopted:

RESOLUTION NO. 366-897

Such bonds shall contain substantially the recital of validity clause provided for in Section 52.00 of the Local Finance Law, and shall otherwise be in such form and contain such recitals, in addition to those required by Section 51.00 of the Local Finance Law, as the County Treasurer shall determine consistent with the provisions of the Local Finance Law.

Section 7. The validity of such bonds and bond anticipation notes may be contested only if:

- 1) Such obligations are authorized for an object or purpose for which said County is not authorized to expend money, or
- 2) The provisions of law which should be complied with at the date of publication of this resolution are not substantially complied with, and an action, suit or proceeding contesting such validity is commenced within twenty days after the date of such publication, or

Legislator Callard made a motion to remove from the table a resolution regarding Local Law #4; seconded by Legislator Bower. All in favor.

Mr. Schubel commented about the resolution adopting Local Law No. 4. He said he made the revisions in the dates and added sentence to Section 2 of the Local Law. Although it was discussed, he did not add a requirement about entering into

an intermunicipal agreement with the villages for the demolition, since he does not foresee a problem. All the towns in the county have the ability under their Unsafe Building Law to put the demolition cost on the town taxes.

The following resolution was then adopted:

RESOLUTION NO. 381-997

ADOPTING LOCAL LAW NO. 4 OF 1997

ADOPTING LOCAL LAW NO. 4 OF 1997 ENTITLED A LOCAL LAW PROVIDING FOR THE COLLECTION OF CERTAIN DELINQUENT VILLAGE TAXES BY THE COUNTY OF ORLEANS

WHEREAS, there was introduced at a regular meeting of the Orleans County Legislature held on July 23, 1997, Local Law No. 4-Intro of 1997, and a public hearing was held on August 27, 1997, at which time all persons wishing to speak were heard, be it

RESOLVED, that this Legislature adopts Local Law No. 4-Intro of 1997 as Orleans County Local Law No. 4 of 1997, which reads as follows:

Be it enacted by the Legislature of the County of Orleans, as follows:

Section 1      LEGISLATIVE INTENT

The purpose of this Local Law is to provide for the collection by the County of Orleans of certain delinquent Village taxes in accordance with Section 1442 of the Real Property Tax Law of the State of New York.

Section 2      RESOLUTION BY VILLAGES

Any Village lying within the County of Orleans may elect each year to have its delinquent Village taxes collected by the County of Orleans in accordance with Section 1442 of the Real Property Tax Law of the State of New York. In any year in which a Village shall make such a determination, it shall cause a certified copy of the resolution of the Village Board authorizing such action to be provided to the Orleans County Treasurer and the Clerk of the Orleans County Legislature. Such resolution shall be adopted by the Village Board no earlier than October 15 of each year and shall be applicable to taxes levied in June of that year. The certified copies shall be delivered as set forth above, no later than November 15 of that year. Notwithstanding the foregoing provisions of this section 2, a Village may adopt a continuing resolution as provided for hereinafter in Section 5 of this Local Law.

Section 3      TRANSMISSION OF DELINQUENT TAXES FROM THE VILLAGE TO THE COUNTY

Not later than 15 days after the adoption of the resolution required by Section 2 of this Local Law, the Village Board shall transmit to the Orleans County Treasurer in such form as may be prescribed by the County Treasurer, the account of all unpaid taxes and certificate of delinquencies. Upon delivery to the County Treasurer of the account and certificate of unpaid village taxes, a penalty of five percentum (5%) shall be added to each amount correctly due and owing. The amount of penalty and interest accumulated on any delinquent account at the time such account is transmitted to the County Treasurer shall be included in and be deemed part of the amount of the unpaid tax for purposes of payments to the Village from the County Treasurer and for purposes of computing the additional percentage to be levied by the Orleans County Legislature. Following such transmission, the delinquent taxes, with interest, may be paid to the Orleans County Treasurer at any time prior to relevy of said taxes by the Orleans County Legislature. The payment of delinquent taxes will not be accepted by the County Treasurer after relevy of unpaid taxes.

#### Section 4      PAYMENT OF DELINQUENT TAXES BY THE COUNTY TO THE VILLAGE

After transmission of delinquent Village taxes by the Village to the Orleans County Treasurer, the County Treasurer shall make payment of such taxes, together with interest and penalties in accordance with the provisions of Section 1442 of the Real Property Tax Law of the State of New York. The County Treasurer will pay to the Village Treasurer the amount of the delinquent taxes, including interest accumulated to the time of the return of the tax roll by the Village Treasurer to the Village Board of Trustees, on or before the first day of April following the receipt of the account and certification of delinquent Village taxes. Provided however, that the County Treasurer shall retain the 5% penalty imposed pursuant to paragraph (a) of subdivision four of section fourteen hundred thirty-six of the Real Property Tax Law.

#### Section 5      CONTINUING RESOLUTION

Notwithstanding the provisions of section 2 of this local law, a Village may elect to have its resolution provide that such resolution shall continue in effect until rescinded. Any Village after a period of at least one year from the adoption of such resolution may rescind such election by the adoption of a resolution to such effect, which resolution shall be adopted and filed in the same manner as the original resolution. Upon the adoption of a rescinding resolution, the provisions of this local law shall cease to be applicable to such Village and the provisions of the laws in force therein prior to such election, relating to the foreclosure of tax liens, shall again become applicable to such Village, together with any amendments to such laws. Neither an election to adopt the provisions of this local law, nor an election to rescind the same, shall affect any action or proceeding for foreclosure of a tax lien commenced prior to such election or rescission and such action or proceeding may be continued in the same manner as though such election or rescission had not been made.

Section 6      FULL JURISDICTION

Nothing herein shall be construed to limit the authority of the Orleans County Legislature and/or Orleans County Treasurer to enforce and collect delinquent County taxes as otherwise provided by law.

Section 7      EFFECTIVE DATE

This act shall take effect JANUARY 1, 1998.

Legislator Callard moved to adjourn; seconded by Legislator Beedon. Meeting adjourned at 4:55 p.m.

**LEGISLATURE MEETING**

September 24, 1997

The meeting was called to order by the Chairman at 4:30 PM. After the pledge to the flag, the Clerk called the roll. All Legislators were present.

The Clerk presented the following communications: announcement of 25<sup>th</sup> anniversary celebration of Regional Action Phone, Inc., notice of October Youth Board meeting, notice of Farm Bureau annual meeting, resolution adopted by Orange County requesting State to reimburse Counties 100% for parole violation assigned counsel, notice from State of filing of Local Law #4, resolutions adopted by Towns of Clarendon and Shelby in support of the relocation of the County Sheriff's Office.

The County Treasurer presented information regarding real property tax issues. She said there have been some dramatic changes in the laws over the past couple of years. One is the time frame which has reduced the payment schedule in half. The other is the requirement that all interested parties have to be notified at the same time as the property owner. Orleans County had a two year foreclosure proceeding, whereby, the first year we would notify the property owner and foreclose against him, and the second year we would order title searches for forty or fifty parcels to foreclose on mortgage and lien holders. The problem this year is, even after I mailed out the warning letter advising that the tax laws have changed, I still have approximately 450 parcels left that I need to order title searches on. The abstract companies who have done forty or fifty in the past cannot handle this volume. Mrs. Heard said she has discussed this with Wyoming and Genesee Counties. They have entered into an agreement with a law firm which specializes in foreclosure actions. She has contacted this firm regarding having them handle just this year's 1995 Tax Foreclosure. Mrs. Heard said they

advised her that they can accommodate us. The expense is added to the taxpayer, who has already been warned of the charge. When they pay me, I pay them. The firm handles all aspects of the procedure, including title searches. Mrs. Heard said she would like to enter into an agreement to have the 1995 tax foreclosure handled by this firm for at least this year. Legislator Bower said this was discussed at the Finance Committee meeting this morning and it was suggested that Susan address the Board. He said it was felt that this would be the best way to go. Legislator Beedon said, if they foreclose, instead of the usual fifteen or twenty parcels at the auction, you would have a much larger amount. Mrs. Heard said with the 90% that normally pay, there would be 46-50 parcels. Legislator Bennett asked if there were 3 quotes obtained for this service. Mr. Schubel said he only knows this one firm. Chairman Tuohey said Susan is under a time constraint. Legislator Bennett asked when this law took effect. Mrs. Heard replied that it started in January of '95, but you had to follow the procedure through; we gave taxpayers notice earlier this year. I was hoping more would pay than did. Legislator Billings said we have always had a three year period. Mrs. Heard said this is actually two years and ten months, which ends in October of '97. She said that someone who pays their '97 taxes is not avoiding foreclosure. She said they have to pay the most recent taxes due before the older ones can be paid. Chairman Tuohey said Mrs. Heard has made a recommendation; she has taken it to the Finance Committee, where it was discussed thoroughly. It was also approved by the attorney. I would be in favor of it. Legislator Billings said he would not go along with it at this point. Chairman Tuohey said this would be to hire this firm for this year, to give Susan and David the opportunity to look into another avenue if this continues. Mrs. Heard said she thinks as the years evolve, the 2600 people that don't pay their taxes on time will understand they can no longer be behind as they have been.

Mrs. Heard distributed a timetable. She said previously it was five years, and five months, before a piece went to auction, or when the sixth tax bill was due. Under this procedure, the '95 taxes will go from January of '95; in November of '95 we file the tax lien, and in October of '97 we begin foreclosure proceedings. Mrs. Heard said there are a lot of taxpayers who have fallen behind and cannot catch up. She said that in 1995 a Local Law was passed to extend the time frame by one year. She said she would like to see a Local Law that would make this a permanent extension. She said that without the extension, you would sell people's houses in two years and five months. On a '97 tax, you would start foreclosure proceeding October of '98, which is one year and ten months; by the time procedure ends and it is taken to auction, it is down to the two years, five months. Legislator Bower said Mrs. Heard is asking to go back to three years and five months and make that permanent. Chairman Tuohey asked if this would help alleviate the problem of coming up with 400 properties. Mrs. Heard said that she thinks it will eventually. The County Attorney said under the Local Law, it can be either three or four years. Legislator Bennett said the longer we can give them, the better. He said he'll do anything he can to help a person save property. Chairman Tuohey explained that this would keep it as it is now. If we did not have the Local Law, it would revert back to two years and five months. David Schubel said the real difference is we always foreclose against the property owner

first; then against the lienholder. Legislator Bennett said we can go by state law, but are not required to have an auction. We can hold it for a year. Legislator Beedon said it is humane to give the additional year. Mr. Schubel said we always had three years. This proposal is to continue that. He said you always had a three year redemption period, but took two years to foreclose, so they had five years to redeem. Mrs. Heard said she would like to have a Local Law adopted that would extend the time period to at least what she is recommending. Legislators Beedon, Bower, Callard and Tuohey were in favor of this. Legislator Radzinski said he would like to see it be extended for four years. Chairman Tuohey said the resolution will be on the next agenda. Legislator Bennett said we all agree to the extension; where we disagree is the length of extension.

Legislator Callard moved to waive the rules to add a resolution to today's agenda; seconded by Legislator Bower. All in favor.

The following resolutions were then presented:

Legislator Bennett presented a resolution approving a cellular phone use agreement for the Weights and Measures Director. Seconded by Legislator Beedon. He said this will take effect for the 1998 budget. Chairman Tuohey said if this is for 1998, she did not know why it is on the agenda. Legislator Bower said we should discuss all cell phones. He said let's find out how they are being used and what they are costing. He said most of them are not needed. He suggested reviewing them all for next year's budget purposes. Legislator Bower said this is a good place to start pinching pennies. Legislator Billings moved to amend the resolution to authorize purchase of the phone immediately. Legislator Beedon seconded the motion. Legislator Billings said he is in the truck; he has to go back to the office to take calls; the phone would be a time saving factor. Legislator Bower said this is one of the better ones we put forth, but I think we should look at them all. Legislator Billings said, if it saves him time, it saves the County money. Upon a vote, the amendment failed, with Legislators Bennett, Bower, Callard and Tuohey voting against it. Legislator Bennett said he would be in favor of letting this pend for the '98 budget when we look at the whole package, as Legislator Bower suggested. Legislator Callard questioned having the resolution at all. He said the purchase is in the budget request; why not withdraw it? Legislator Bennett moved to withdraw the resolution; seconded by Legislator Bower. The motion passed, with Legislators Beedon, Billings and Radzinski opposed. Legislator Bower said he wants to see the bills for the phones that have been approved for this year. Chairman Tuohey said this is one of the advantages of the Legislators taking turns auditing; we see things like this. Legislator Bower said every time that phone is dialed locally in this County, you put a dime in the pot and taxpayers have to pay that dime. He said if you want to make ten calls, put ten dimes in. Mr. Dudek said we are looking at reducing costs. He said we have recently changed our long distance calls. He said there is not a lot of competition right now for providing local services.

The following resolutions were then adopted:

Chairman Tuohey referred to the resolution authorizing payment from the Buildings and Grounds budget that was tabled at the September 24 meeting. Legislator Bennett said that last he heard, the chiller system was working. Chairman Tuohey said it was not working today. Legislator Bennett said he will leave the resolution tabled at this time.

There was discussion regarding meeting dates during November and December. Chairman Tuohey said the second scheduled meeting of November would be November 26, which is the day before Thanksgiving. Last year that meeting was cancelled and one was held on the day after the Public Hearing on the budget. That would be December 2, which is a Tuesday. All agreed to this date and to meet at 2:00. The second regularly scheduled meeting in December would fall on December 24. Last year we changed the meeting from the fourth Wednesday in December to December 30. All agreed on that date. Both meetings will be at 2:00.

Joseph Cardone, Dennis Wittman and Kirby Trask attended the session to speak about a grant application for funding to develop a Crime Victims Assistance Program in Orleans County. Mr. Wittman is the Director of the Crime Victims Board in Genesee County. Mr. Trask also works for the Genesee County unit. Mr. Cardone explained that a grant application was submitted that would create a Crime Victims unit in Orleans County, rather than this County continuing to be part of the unit run by Genesee County. Mr. Cardone said if this grant is received, there will be no additional dollars spent by Orleans County. This service is already routed through the District Attorney's office, therefore, there is currently funding in place. Mr. Cardone reviewed the grant application. He said that he has met with Mr. Dudek and Legislator Bower, and talked about the possibility of space being made available in the Public Safety Building for the unit. Mr.

Cardone indicated that he has received letters of support from Judge Punch, Sheriff Green, and the Director of Probation. He said the funds would be renewed annually. Mr. Cardone said the deadline for submission of the grant was last Wednesday, but they have been given an extension through this past Tuesday. He said he has submitted the application on condition of Legislature approval.

Mr. Wittman said that Orleans has been part of the Genesee County program for eleven years. Over \$160,000 has come from the program to Orleans County. He said there is ample funding for this program in New York State right now. Mr. Wittman said this grant would run under a special fiscal cycle which would be from 10/1/97-9/30/98. He said if the application should fail for some reason, Orleans County could submit its own request in December.

Kirby Trask addressed the Legislature. He said he has been with the Genesee County unit for five years. Mr. Wittman said if this grant is awarded, Mr. Kirby would be a tremendous asset to Orleans County as Director of the program. Chairman Tuohey commented that names of prospective employees should not be included in the application. She also said that Orleans County has a step and grade system, and the salaries shown on the application may not be the salaries for the positions. Legislator Billings said there also is the question of whether or not these are Civil Service positions. Mr. Cardone said the salary structure can be dealt with; also that Mr. Trask does not have to be the Coordinator. Chairman Tuohey asked when our present arrangement with Genesee County expires. Mr. Wittman said it ends June 30, 1998.

After Mr. Cardone, Mr. Wittman and Mr. Trask left, Legislator Bower said the only discussion we had about this was that if we go along with this grant, office space will be needed. Chairman Tuohey said we are currently covered under the Genesee County Crime Victims program through next June. She said she thinks this money will be available next year. Legislator Beedon motioned to waive the rules to present a resolution approving this grant application; seconded by Legislator Billings. All in favor. Legislator Bower moved to amend the resolution by indicating that the names shown in application for Assistant and Director of program shall be deleted from application; seconded by Legislator Beedon. All in favor. Legislator Bennett then moved to amend; to have the resolution state that the application will be changed to read that the working hours will be set by the County; rather than a forty hour week. Legislator Bower seconded the motion. All in favor. The resolution as amended was adopted, as follows:

#### RESOLUTION NO. 415-1097

AUTHORIZING DISTRICT ATTORNEY TO SUBMIT GRANT APPLICATION

RESOLVED, that this Legislature authorizes the District Attorney to submit a grant application to the New York State Crime Victims Board for the

funding and creation of a Crime Victims/Witness Unit in Orleans County, with the stipulation that names shown on application for persons to be appointed to positions covered by grant will be stricken from the application; also the reference to a forty-hour work week will be changed to read "work hours to be set by the County".

Moved, Beedon; second, Billings.

Adopted. 6 ayes; 1 nay, Legislator Bennett; 0 absent.

Legislator Beedon moved to adjourn; seconded by Legislator Callard. All in favor.

Legislator Callard said there were adjustments made to sales tax during the month of October. He said the State had overpaid us and we had to compensate for that. He said we are still \$50,000 over budget. We are not sure yet whether this was an aberration during the month of October, but it does appear that there is some slowing down in the rate of growth in sales tax.

Legislator Callard said the Finance Committee did a preliminary review of the budget. He said there will be no tax increase. Legislator Callard said it is important to make clear to the public that during the time of revaluation, tax rates will go down anyway. What you have to look at is the dollar amount to be raised by taxes; the total levy. The Finance Committee, in conjunction with each member of this Legislature has met and discussed the budget. We are confident that the total to be raised by taxes will be less for next year than it was for this year. He said the preliminary budget will be presented at the next meeting. Chairman Tuohey thanked the Finance Committee, Legislators Callard and Bower, who were here every day meeting with the department heads, to come up with a very affordable budget. Legislator Bower said he thinks it is a good

budget. He said we worked long and hard. He said there was a lot of cooperation from the department heads and the budget and finance officers. Legislator Bower said it is a good sound budget and will be a decrease over last years spending. Legislator Callard said that Legislator Billings, who is the Chairman of the Solid Waste Committee, recommended that there be no increase in solid waste charges for 1998.

Chairman Tuohey introduced J.T. Gidley, Supervisor of Town of Ridgeway, and Russell Martino, Supervisor of Town of Yates. Mr. Gidley and Mr. Martino presented the Legislature with a resolution supporting the relocation of the Sheriff's civil office. This resolution was signed by, and presented on behalf of, all ten of the Town Supervisors.

#### LEGISLATURE MEETING

December 2, 1997

The meeting was called to order by the Chairman at 2:00 PM. After the pledge to the flag, the Clerk called the roll. All Legislators were present.

The Clerk presented the following communications: October Planning Board minutes, letter of resignation from Planning Board from Jean Benson. Legislator Bennett suggested sending a letter to Ms. Benson, expressing gratitude for her years served on the Planning Board.

During Open Discussion, Legislator Beedon moved to waive the rules to add three resolutions to today's agenda; seconded by Legislator Billings. All in favor.

Legislator Bower said that during the budget sessions, the Legislators worked together with the department heads. He said that when the Legislators and department heads get together and talk, we have a better handle on what we can do for each other. Legislator Bower suggested that, starting next year, we have regular meetings with all the department heads. Legislator Bennett said there is already a monthly meeting at which Stan meets with department heads; we should make an effort to be there. Legislator Beedon said he thinks it would demonstrate support for the department heads. Legislator Bower said it's tough to get an idea of what's going on in the departments when you're busy with your own, as a Legislator. Chairman Tuohey said she has talked with two department heads who said that this was tried once before. Legislator Billings said everyone had come in with their gripes. Legislator Bower said you have to have the right Legislative Chairman to make it work. Chairman Tuohey said there is a lot of merit to Legislator Bower's suggestion. She said there are very few times when all the department heads and Legislators get together to exchange ideas. She said she has attended the department head meetings a couple of times and felt that they were not as open as they would be if there was not a Legislator in attendance. Chairman Tuohey said a better suggestion is to bring them here and have something a little less formal. Legislator Bower said if we try it once a month for a year, I think the tendency to open up would be there. Mr. Dudek said one thing he feels most department heads miss is clear direction from the Legislature as a whole. Legislator Billings said we would all have to be committed to coming. Legislator Bennett said, if we are going to go in different directions, it won't do any good. Chairman Tuohey said, does everyone have to agree with everyone else? Chairman Tuohey said we have a committee system. The way that's supposed to work is that the committee meets with department heads, they bring up issues, then that committee either nixes them or tells them to appear at the Conference Session. That is when we hear about that department head's programs, problems, or whatever. The one thing that has fallen down is the Committee system, as far as meeting with department heads. Legislator Bower said this is not meant to abolish the committee system; that has a different purpose. Legislator Billings said it used to be that the whole Legislature knew what was going on in committee meetings. Legislator Bower said it depends on what each Legislator decides is important enough to bring back. Mr. Dudek said maybe there's a need for some sort of workshop to discuss operation of county government, and how the departments relate to the Legislature; and what you want to accomplish. Have

a session for yourselves to work on before you go to next step. Legislator Bower suggested telling the department heads before the end of the year that these meetings will take place next year. Chairman Tuohey asked if the Board would be interested in her attending the next team meeting and telling them. Chairman Billings said that, at this point, we're not in agreement ourselves. Mr. Dudek said this is something that other counties are also looking at; trying to bring everyone together. Chairman Tuohey asked Mrs. Heard what she thinks, as a department head, of having these meetings. Mrs. Heard said at the Finance Committee meetings, she spends time hearing about other departments' problems, which do not apply to her. She said she would rather it be this group with just herself. Legislator Bower said, you might overlap with departments and you don't even realize it. Mrs. Heard said you will also find that some people will not talk and others will agree with whatever you say. Mr. Schubel said he thinks the general feeling among department heads is that the Legislature does not recognize how hard they work, how much responsibility they assume; also that they are overpaid when they are not. He said he thinks department heads feel that other employees have collective bargaining units which provides a formal approach to present feelings; they feel they do not have a forum to use to bring issues of concern. Mr. Schubel said he thinks if the Legislature goes with this, they should be prepared for department heads to give candid opinions. Legislator Beedon said sometimes we need to be under fire to build a foundation again.

The following resolutions were then presented:

Mr. Dudek said it will be approved by the Computer Technology Committee. We will have a presentation on the content of the website so you can see how it is set up. Legislator Bennett said we need to have a definite policy set up on what this will be used for. He said he would like to know how many departments have access to the internet. Legislator Bennett introduced a resolution to transfer monies into the Buildings and Grounds budget; seconded by Legislator Callard. Mrs. Heard asked if the work to be paid for by these funds will be completed in 1997, or should it be set up in the reserve account. Chairman Tuohey said she does not think it can be done in 1997. Mrs. Heard said the resolution should authorize moving of the funds into the Buildings and Grounds Reserve. Legislator Bennett motioned to table the resolution; seconded by Legislator Billings. All in favor.

Carri Blake presented background on a grant application for Domestic Violence services. She said she just received notice last week that these funds can be applied for, with no county cost involved. The grant provides additional monies to entities mandated to provide caseworker services to domestic violence victims. With these funds, we would propose to do a couple of things we had planned to do with funds from an earlier grant, but we had received less than applied for. One thing we took out was computer connection to town Justices, which would let them know immediately if a person before them has a history of domestic violence. Another thing we propose to add back in is a transportation system for domestic violence victims; also we currently fund a support group, with 50% federal and 50% local dollars. I would transfer the support group to this grant, so there would be no local cost. Legislator Bennett asked if all the Justices have modems. Ms. Blake said they have the computers; we propose to provide the modem and the software.

The following resolution was then adopted:

#### RESOLUTION NO. 508-1297

Legislator Bennett presented a resolution regarding the transfer of funds from Buildings & Grounds; seconded by Legislator Beedon. Legislator Callard presented a resolution regarding the enactment of a one week sales and use tax on clothing exemption; seconded by Legislator Beedon. Legislator Bennett stated it does not seem fair that we give special interest groups a break, for example, those who sell cars. He suggested that if this is done again, why not give everyone a break on sales tax, like car dealers and others. Legislator Bennett also stated that he will not vote for this again unless it exempts everybody. However, Legislator Beedon mentioned that as of December 1, 1999, this will become a law of the State. Legislator Bower stated that an issue that concerns him is that we are one of the few counties that have a sales tax on fuel oil. People can hardly pay their taxes, but still have to pay their fuel tax, something should be addressed, even though it will be costly. The County Treasurer said that last year it amounted to about \$1,000,000 in revenue. Legislator Callard said that it is important for the public to understand most of the counties in the State are doing this and we will be the exception if we do not offer an exemption. After further discussion, the following resolution was then adopted:

Legislator Bower presented a resolution amending Orleans County Health Department environmental health fee schedule; seconded by Legislator Beedon. Legislator Bennett questioned the reason for this change. Andy Lucyszyn said that the State requires that we raise 20% of our cost in the Environmental Health Division. The last time we did this was about 5 years ago. Since then, we have dropped below the 20% of our operating costs. This year the State has reminded us that we must make this increase somewhere. Essentially, we are forced to raise somebody's fees, either restaurants, hotels or private residences. Legislator Bennett asked how much money this entails, to which Mr. Lucyszyn stated \$30,000. Mr. Lucyszyn said if we don't do this, the State will reduce their cost and we'll have to pay more. He also stated that even with the increase, our fees are still lower than any of the surrounding counties' fees. The following resolution was then adopted:

**ORGANIZATIONAL MEETING  
ORLEANS COUNTY LEGISLATURE**

January 5, 1998

Legislator Tuohey called the meeting to order at 2:00 p.m.

The Clerk called the roll. All Legislators, with the exception of Legislator Billings, were present.

Reverend W.E. Moss presented the invocation.

Legislator Radzinski nominated Legislator Marcia Tuohey to serve as Chairman for 1998 and 1999. He said Legislator Tuohey has done an outstanding job over the last two years. Legislator Callard said he is pleased to second the motion. As there were no further nominations, a vote was taken with all six Legislators present voting aye.

Legislator Callard nominated Legislator Ronald Radzinski to serve as Vice-Chairman. Legislator Callard said Legislator Radzinski has been an exceptional Vice-Chairman over the past two years. Legislator Beedon seconded the nomination. As there were no further nominations, a vote was taken with all six Legislators in attendance voting aye.

Chairman Tuohey thanked her colleagues for their continued support. She said that two years ago she had said that good government is accomplished by all of us working together and believes that this has been the case. She said that spirit of cooperation enabled us to adopt, in 1997, the lowest tax levy in twenty years. While Social Services needs have decreased, public safety needs are increasing. We will continue to pledge our efforts and assistance to the consolidation of more municipal services. Chairman Tuohey said this county government has been, and will continue to be, a team effort.

Legislator Beedon motioned to add a resolution to the agenda; second by Legislator Bower. All in favor.

A recess was taken for the Chairman and Vice-Chairman to sign their oaths of office.

## LEGISLATURE MEETING

January 14, 1998

The meeting was called to order by the Chairman at 4:30 PM. After the pledge to the flag, the Clerk called the roll. All Legislators were present.

The Clerk presented the following communications: Cornell Cooperative Extension 1997 Annual Report, copy of application of Barre Town Board for Water District number 4, letter of resignation from IDA Board from Charles Benson.

The Treasurer distributed a Sales Tax Report for 1997.

During Open Discussion, Victoria Pratt spoke about applying to HUD for the small cities community block grant. She said we had applied in 1996 for a three-year, 2.7 million dollar project. Funding is again available, but just for one year, and a maximum of \$600,000. Ms. Pratt said the IDA Board is in support of her coming before the Legislature. She said the County has to be the applicant. Legislator Bennett asked if the next agenda would be soon enough for a resolution authorizing the application. Ms. Pratt said two Public Hearings are necessary before applying, but that time frame would work. The application is due March 2. Legislator Bennett told Ms. Pratt to submit a resolution for the January 28 meeting.

Jim Vosteen from Waterport spoke about a local farmer who has installed hail cannons. He said that some farmers went to a seminar in Michigan. Someone out there sold them. If you buy them and use them in accordance to what the seller stipulates, the seller will cover your crop if you get hit by hail. The farmer who has purchased them, sets them off; they are supposed to go off ten minutes before a storm. Mr. Vosteen said the noise is very irritating. He said he has been told by experts that there is no way these things will work. They will not stop hail. Mr. Vosteen said he lives three miles away and it rains his windows. Mr. Vosteen said there is something in the agricultural law about the right to farm, using sound practices, but this doesn't come under that. Mr. Vosteen said he'd be willing to

get letters from scientists. Chairman Tuohey asked the County Attorney if we have jurisdiction over this. Legislator Billings said this was reviewed by the Agricultural and Farmland Board, and has been sanctioned by the state. The County Attorney said he is willing to review this. Mr. Vosteen said he would like someone specific to talk with about this. Legislator Billings suggested that he speak with Elaine Wendt at Cooperative Extension. Legislator Bennett asked who decides if something is a sound agricultural practice. The County Attorney said that is up to Agriculture and Markets.

Chairman Tuohey announced that the County is being given an award tomorrow by hospice. At their annual meeting, they select individuals or organizations for outstanding service. Orleans County has been chosen because of the use of the building.

Chairman Tuohey read a letter that she had written to department heads regarding committee meetings. She said this was discussed at the team meeting, and the letter is more or less an outcome of that. The letter instructs the department heads to call this office regarding scheduled committee meetings, so Stan can put a listing in the weekly report, so any Legislator who wants to attend will be aware of the meetings. Chairman Tuohey said there was also discussion at the team meeting regarding Legislator Bower's suggestion of having meetings between the Legislature and department heads. Chairman Tuohey said that, overall they seem to feel that it probably would be good to try it.

Mr. Dudek said he has talked with Rick Lord from the State Office of Historic Preservation about the dilemma we have regarding the grant for the courthouse. Mr. Dudek said they will be meeting with the engineer on Friday. They will be going to the Ontario County courthouse in the morning. Ontario County has done a lot of renovations to their building, which we want to look at and see if any of it could apply here. Mr. Dudek said that after that meeting, they will come back here and look at everything we consider doing to this building and the courthouse and try to come up with a plan to address all the problems. Legislator Billings presented a resolution rescinding resolution number 31-198 regarding the removal of a parcel from the 1997 In Rem Proceedings; seconded by Legislator Beedon. The County Attorney explained that at a previous meeting it

was authorized to withdraw this parcel from the County In Rem proceedings, because the Village of Medina had also foreclosed on it. It then became apparent that we had included the property in our first year In Rem proceedings. Legislator Bower said he does not think people should be living in the house. Legislator Bennett asked how many houses we have that we would have to have eviction proceedings on. Mrs. Heard said probably almost half of the ones that we take. The County Attorney said it is his feeling that this county has traditionally had a protracted In Rem proceeding that is not really consistent with the practice of other counties. He said it is his understanding that, from a policy standpoint, it was the opinion of the legislative body to accommodate taxpayers as much as possible. He said that many counties have a list of their in rem properties and once the in rem begins, they follow the statutory proceeding very strictly and go through the six week publication process; as soon as that's run, they conclude the foreclosure process, take their deed and sell the properties off immediately, thereby eliminating this liability issue. From a liability standpoint, you are correct, but there are a lot of other issues you have to look at. Legislator Bower said he also looks out for the taxpayers, but the person living in that building is not a taxpayer. Legislator Bennett said you have to give them every chance they can to save their home. Chairman Tuohey said that many times just before the auction, they come and pay their taxes. She said they would not do that if they had been evicted. Legislator Bower asked about liability coverage. Mr. Dudek said the county is covered for \$2,000,000. Mr. Schubel said this was the subject of extended discussion at the NYSAC meeting. He said some counties take their judgement and the judge directs that as part of the court order, the tax enforcement officer execute a deed conveying the parcel to the county. He said it is a policy issue as well as a legal one. Mr. Schubel said there is no uniformity throughout the state of New York as to how to handle this. The following resolution was then adopted:

#### RESOLUTION NO. 84-298

#### RESCINDING RESOLUTION NUMBER 31-198 REGARDING REMOVAL OF PARCEL FROM IN REM PROCEEDING

Legislator Beedon motioned to bring a resolution authorizing a purchase for the Buildings and Grounds Department from the table; seconded by Legislator Billings. Legislator Bennett was opposed. During Open Discussion, Legislator Beedon said he has looked at the Orleans County web site. He mentioned that e-mail can be sent to Frank Zona from the site.

The Treasurer distributed the Analysis of Monthly Cash Receipts and Disbursements through January, 1998. Mrs. Heard said the cash flow for January is a little less than last year. She said she thinks this is because tax bills had a date of February 2<sup>nd</sup> to pay taxes, so the towns did not get tax money to Treasurer until the following week.

The following resolution was then adopted:

**RESOLUTION NO. 89-298**

**APPROVING AGREEMENT BETWEEN SOCIAL SERVICES AND RURAL

This is the sale at public auction of various parcels of real property which have  
been conveyed in the County of Orleans by final judgment under the so-called In  
Rem Tax Foreclosure Proceedings. This sale is ordered by various resolutions of  
the Orleans County Legislature and is in accordance with the appropriate  
provisions of the Real Property Tax Law.

This sale and sale of each and every parcel herein is upon the following terms:

All sales are made subject to confirmation and approval thereof by the Orleans  
County Legislature, which confirmation and approval will be requested at a special  
meeting of the said Legislature to be held directly following the auction. The  
resolution of confirmation will be immediately available at the close of said  
meeting.

At least 25% of the final bid for each parcel shall be paid to the Clerk of these  
proceedings prior to the start of the special Legislature meeting above stated.  
Payment shall be in cash or by a good check upon a New York State financial  
institution.

The balance of the successful and accepted bid for each parcel shall be paid in cash  
or by certified check to the Orleans County Treasurer, Central Hall, 34 East Park  
Street, Albion, New York, 14411, no later than Friday, May 29, 1998 between  
9:00 AM and 5:00 PM unless extended by the Legislature.

The County of Orleans is not required to send any notice to the purchaser or  
purchasers, and if the purchaser or purchasers neglect to pay the balance due and

call at the Orleans County Treasurer's Office at the above stated time the successful bid shall at 5:00 PM on Friday, May 29, 1998, be deemed conclusively to be abandoned, the deposit retained by the County as liquidation damages and the parcel in question disposed of in such manner as the County determines without notice to or benefit to the defaulting purchaser.

Upon payment of the balance, as above provided, the County of Orleans will deliver a standard form quitclaim tax deed which shall describe the parcel in the same manner as in the In Rem Foreclosure deed to the County and which shall quitclaim all of the right, title and interest of the County of Orleans in and to the said parcel. The said deed shall name as grantee the successful confirmed bidder and shall state the amount of the successful confirmed bid. The County of Orleans will execute no warranties concerning the parcel or the title thereto and will not deliver or be responsible for abstracts, title searches, surveys, maps or other documents concerning the parcel whatsoever.

The deed shall contain a condition and covenant that Orleans County shall in no event be or become liable for any defect in the title so conveyed for any cause whatsoever, or that no claim or demand of any nature shall ever be made against said Orleans County arising from such sale or conveyance or any proceedings leading thereto.

All parcels are sold subject to the 1998 Town and County tax, including any relieved charges and the 1998 recycling waste fee. The amount of such unpaid tax shall be announced by the auctioneer prior to the auction of each parcel. The unpaid taxes must be paid prior to May 29, 1998 to avoid further penalty, and prior to the filing of the deed.

The purchaser upon payment of the final bid and the unpaid taxes shall also deliver to the Treasurer a check for all recording fees due to the County Clerk for filing the deed. Such fees will be \$49.00 on each purchase, plus an additional \$2.00 for every \$500.00 or part thereof when the purchase price is \$500.00 or more. For example, if final bid is \$10,000.00, recording fee is \$49.00 plus \$2.00 x (20) or \$89.00.

The successful and confirmed purchaser shall take the parcel "as is" upon delivery of the above stated deed, in such condition as the same exists at that date and subject to all alleged possessory or other claims and all covenants, easements and restrictions of record.

The various parcels have been available for view by any and all interested parties prior to this sale. No adjournment in bidding shall be allowed for further viewing of any parcel.

The various parcels shall be offered from the list of parcels previously available in such order and manner as the auctioneer shall deem proper.

The Legislature reserves the right to set minimum opening bids on any or all parcels to be auctioned at any time prior to the auction.

WHEREAS, it is now necessary to increase the financing for the reconstruction portion of such project, now, therefore, be it

RESOLVED, by the County Legislature of the County of Orleans, New York, as follows:

Section 1. The reconstruction of a building in the County of Orleans, New York, to provide public safety facilities, including site improvement, origin furnishings, equipment, machinery and apparatus, is now hereby authorized at a new maximum estimated cost of \$1,780,000.

Section 2. The plan for the financing of such specific object or purpose is as follows:

- a) By the issuance of \$300,000 serial bonds of said County heretofore authorized to be issued therefore pursuant to a bond resolution duly adopted by the County Legislature of said County on August 27, 1997; and
- b) By the issuance of the additional \$1,480,000 serial bonds of said County herein authorized.

Section 3. It is hereby determined that the period of probable usefulness of the aforesaid specific object or purpose is fifteen years, pursuant to subdivision 12(a)(2) of paragraph a of Section 11.00 of the Local Finance Law, it being hereby determined that the reconstruction of such building will convert the same into at least Class "B" construction as defined in subdivision 11 of paragraph a of Section

11.00 of the Local Finance Law, computed from October 2, 1997, the date of the first bond anticipation note issued therefore.

Section 4. The faith and credit of said County of Orleans, New York, are hereby irrevocably pledged for the payment of the principal of and interest on such bonds as the same respectively become due and payable. An annual appropriation shall be made in each year sufficient to pay the principal of and interest on such bonds becoming due and payable in such year. There shall annually be levied on all the taxable real property of said County, a tax sufficient to pay the principal of and interest on such bonds as the same shall become due.

Section 5. Subject to the provisions of the Local Finance Law, the power to authorize the issuance of and to sell bond anticipation notes in anticipation of the issuance and sale of the serial bonds herein authorized, including renewals of such notes, is hereby delegated to the County Treasurer, the chief fiscal officer. Section 7. The validity of such bonds and bond anticipation notes may be contested only if:

1) Such obligations are authorized for an object or purpose for which said County is not  
authorized to expend money, or

2) The provisions of law which should be complied with at the date of publication of this resolution are not substantially complied with,

and an action, suit or proceeding contesting such validity is commenced within twenty days after the date of such publication, or

Roll call. Adopted. 7 ayes; 0 nays; 0 absent

After adoption of the above resolution, Mr. Schubel asked why section A refers to \$300,000. Mrs. Heard responded that that figure is the amount borrowed originally. This amends it to add the amount shown in section B. Chairman Tuohey said it was originally \$500,000. Mrs. Heard said yes, but \$200,000 of that was for the purchase of the building; the other \$300,000 for apparatus, equipment, etc. You are issuing the additional money for the reconstruction of the building. The \$200,000 was for the purchase. The balance of \$300,000 that is left from the original borrowing is for reconstruction. Mrs. Heard said we are adding this additional for the financing of the reconstruction; furnishings. Chairman Tuohey said when we go to permanent bonding, it would include everything – the \$200,000, \$300,000, \$1,480,000. Mrs. Heard said that is correct.

Mr. Schubel asked why this is for such a short period. Mrs. Heard replied that we were looking at other projects that we might have been including, prior to going to serial bonds. The following resolutions were then adopted:

#### **LEGISLATURE MEETING**

March 11, 1998

The meeting was called to order by the Chairman at 5:00 PM. After the pledge to the flag, the Clerk called the roll. All Legislators were present, with the exception of Legislator Radzinski.

The Clerk presented the following communications: budget adjustments and interfund transfers for 1997, letter from the Mayor of Holley, in support of the county's submission of application for grant for microenterprise program, Disclosure of Interest Statements from seven County employees, announcement of DARE donations from Franks Auto, Lyman & Lyman, and H Dobbins, minutes of August OTB meeting, Intercounty meeting notice for March, letter from Barre Volunteer Fire Company expressing approval of the training tower.

During Open Discussion, Chairman Tuohey read a letter received from the Village of Medina regarding financial assistance with tax assessment litigation. Legislator Bennett said this is about the Bell's Plaza litigation. Legislator Billings referred to the railroad litigation, when it was questioned why the whole county should be affected when it only involves about three towns. Legislator Bennett said he agrees with Legislator Billings. David Schubel said it has always been troublesome to him the way the Real Property Tax Law is written; it places responsibility for assessment and the defense of assessment on the town, when the town has the smallest tax rate involved. Mr. Schubel said the policy has always been not to participate. Chairman Tuohey asked Mr. Schubel to respond to the letter. Legislator Bennett questioned what would happen if we did not pay. Mr. Schubel replied that it is a court order, and we would be directed to pay. Legislator Bennett asked, what is our option, in the interest of protecting our taxpayers. Mr. Schubel replied that we could participate in the defense; appear in the proceeding. Legislator Bennett said if the town overassessed, our grievance is with that town. He said we have a right to charge back, and we should be in these instances. Chairman Tuohey said if a decreased assessment is agreed upon, and the villages agrees to this, why couldn't we charge back the town for erroneous assessment. The County Attorney said he is not prepared to respond to this at this time. He said he will research the issue of the chargeback.

Carol Blake said she had requested that a resolution be added to the agenda to approve an agreement with New York State Child and Family Services. She said this contract needs to be signed. Legislator Beedon motioned to adjourn; second by Legislator Billings. Meeting adjourned at 5:45 pm.

#### LEGISLATURE MEETING

March 25, 1998

The meeting was called to order by the Chairman at 4:30 PM.

Legislator Beedon introduced Girl Scout Troop 2099. He said they are working on their Leader patch. Chairman Tuohey suggested that one of the girl scouts might like to lead the Pledge of Allegiance. This was done by Amanda Breeland.

The Clerk called the roll. All Legislators were in attendance with the exception of Legislator Radzinski.

The Clerk presented the following communications: notice of Supervisors and Legislators Association meeting, notice of April Youth Board meeting, notice of March Planning Board meeting, letter from Assemblyman Nesbitt acknowledging receipt of resolution regarding the testing of inmates, notification of DARE donations - \$200.00 from the Lyndonville Lions Club and \$25.00 from Kurtz's Car Care.

During Open Discussion the Girl Scout leader said there are actually two scout troops here today. They are working on their leadership patch. They have taken turns within meetings, finding out what it is like to take control of a group. They have also recently attended a school board meeting.

The Treasurer distributed a list of auction parcels, as of today. She said she expects about half a dozen of them to be redeemed prior to the auction. Mrs. Heard said she thinks Mr. Schubel has some paperwork on the property in Murray. Mr. Schubel said he does not.

, Mrs. Heard also distributed a Sales Tax Report for the first quarter. She said that on a cash basis the county is down in actual receipts by \$233,706.21. Mrs. Heard said she wants to make everyone aware that if this continues to decline, the loss would be suffered by the County because of the school districts, towns and villages being capped. Legislator Bower said they get the full amount or less; the resolution says not to exceed that full amount. Mr. Dudek said, while this shows \$233,000 less than last year, we actually were projecting an increase at budget time last year, so it's closer to \$260,000. Mrs. Heard said you would not know until year end whether or not the cap has been reached, and they would have already been paid. Mr. Dudek said they are getting a percentage each time until it reaches the cap, so you will not overpay them. Mrs. Heard said they will be paid in full up to the cap. If the county suffered a loss, we would bear that burden. She said they are paid by the first of the third quarter. Legislator Billings asked why. Mrs. Heard said because of the way the money is received. Legislator Billings said, if we don't get the money, you're not going to reach the cap. Legislator Beedon said he would like to take a look at that resolution and see what it actually says.

Legislator Bower presented a resolution authorizing the payment of claims; second by Legislator Bennett. Legislator Bower said there were a couple of vouchers that were odd. One was for a Cultural Diversion Training lunch for approximately sixty people. The following resolution was then adopted:

#### RESOLUTION NO. 154-398

#### AUTHORIZING PAYMENT OF CLAIMS AGAINST THE COUNTY

WHEREAS, claims for the General Fund, Job Development Agency, and account S1710 of the Self-Insurance Fund have been audited by this Legislature, be it

RESOLVED, that the claims against the General Fund, represented by checks numbered 7870\_ through 8047 , and totaling \$ 265,419.58 be paid, and that the Clerk of the Legislature, the Director of Job Development Agency, and the Self-Insurance Administrator be authorized and directed to draw demand orders on the County Treasurer in payment of said claims.

Moved, Bower; second, Bennett.

Adopted. 6 ayes; 0 nays; 1 absent, Radzinski.

Legislator Beedon presented a resolution authorizing a transfer of funds into the Buildings and Grounds budget, and the creation and filling of a position in the Buildings and Grounds Department; second by Legislator Bower.

Legislator Callard said he and Legislator Beedon talked about this resolution prior to the meeting. Legislator Callard said he would like to table it for this meeting, primarily revolving around the sales tax figures that we just received. Legislator Callard said he is concerned that we are behind \$233,707 for the first quarter. He

said it is interesting to note that we have not been at this low of a level since 1995. Legislator Callard said if this trend continues, it will have a significant impact on the budget. He said we need to consider, as a policy, for the next few months whether or not we want to create any new permanent positions so early in the year. Legislator Callard said he will table the resolution for this meeting, and he will bring it up at the next one. He said you may consider this an overly cautious approach, but I would rather err on the side of conservatism than to jeopardize the integrity of the budget.

Legislator Beedon said he appreciates the concern for fiscal restraint. He said this is a key position. We need to get a handle on that whole jail situation. He said we had looked at a full-time position, but decided on part-time to save money. Legislator Beedon said he can't do much about the tabling. Legislator Bower said, last year we established in the budget a secretary for the jail. Chairman Tuohey commented that it was a Clerk position. Legislator Bower said we were going to take the money out of that part of the budget to pay for this maintenance position, and reduce it to part-time. Legislator Bower said the second point he would like to make is that when we took a real good look at the jail, the maintenance has not been kept up. He said one of the areas we saw and will hopefully fix over the next couple of months is the bad showers. One of them is bad due to the lack of maintenance, and it has brought on a lawsuit. Legislator Bower said lawsuits are a lot more expensive than jobs. He said he agrees with Legislator Callard with respect to the overall budget restraints, but thinks this position is well needed in the jail. Legislator Callard said he respects Legislator Bower's opinion. He said when we look at the creation of a new and permanent positions we must ask if we are at 100% productivity. He said to Legislator Bower that you yourself at our Organizational Meeting in January, called for each department to help each department where possible and feasible and that we achieve full productivity of our staff. Legislator Callard said another thought he has had is that, while the jail is within budget after the first two months, last year the jail budget was overspent by over \$83,000 and it is a concern that we not have overruns as the year progresses. Legislator Callard said that is my reason for tabling for this meeting. Legislator Bower asked if there is a possibility that rather than create a new part-time position for the jail, to shift a worker from Buildings and Grounds, and have them at the jail part-time. Chairman Tuohey said no, the committee has a schedule of jobs that group has to do. She said that is not feasible. She said she thinks that those of us who went through the jail could see that alot of the maintenance is ongoing, and a position like this could address, not only saving money in Buildings and Grounds, but also what is really needed at the jail. Resolution tabled.

Legislator Bower presented a resolution authorizing a transfer of funds into the jail budget; second by Legislator Beedon. Legislator Billings said he has put forth his concerns about taking money from contingency so early in the year. He said this might be something we have to do, but I was told there is no money available. Legislator Billings tabled the resolution as a money matter.

Legislator Bower presented a resolution awarding a bid for toilets for the jail; second by Legislator Beedon. Legislator Billings tabled the resolution as a money matter. The following resolutions were then adopted:

Andrew Lucyszyn said he was pleasantly surprised that the 1998 agreement with the Monroe County Medical Examiner came in that low. He said that during a conversation with Monroe County, it was indicated that the agreement could go as high as \$30,000. Mr. Lucyszyn said they have placed a cap on the number of autopsies they will perform for that amount. He said there are normally about 25 per year, and the cap is set at 60. Legislator Bower presented a resolution amending a prior resolution which authorized setting up new monies in the District Attorney's budget; second by Legislator Beedon. Chairman Tuohey explained that this is for funds already received for the crime victims grant. The money was originally going to be set up in the District Attorney's budget, but upon review, it was learned that it has to be put into a separate account. The following resolutions were then adopted:

RESOLUTION NO. 166-398

MENDING RESOLUTION NO. 81-298 REGARDING SETTING UP MONIES  
IN DISTRICT ATTORNEY'S BUDGET

WHEREAS, resolution number 81-298 authorized the District Attorney to accept the Crime Victims Grant in the amount of \$70,500, and the County Treasurer was authorized to set up funds required through September 30, 1998 in the District Attorney's budget, and

Legislator Bower motioned to remove a resolution from the table, second by Legislator Beedon. Carried. Legislator Callard said he is withdrawing the resolution. He said he discussed this with the Commissioner during a committee

meeting today. Legislator Callard said his feeling is to not approve any new positions over the next three months until he sees how the sales tax comes in, and if budgets are in line. He said in defense of Social Services, he would like to point out that in 1997 there was a savings in county dollars of over \$883,000. That contributed significantly to our budget reduction last year, but to be consistent I will oppose any creations of new and permanent positions over the next three months. Chairman Tuohey asked Legislator Callard if he will oppose creation of positions if they are funded by a grant. Legislator Callard said no, only if there is county cost. Legislator Bower said any department that receives 100% funding or grants has an advantage. Legislator Callard said what he is concerned about is negative ramifications on the budget over the next few months. Legislator Bower said the statement that Social Services helped reduce the budget last year is correct, but the reason they helped was not because they reduced staff, but because the state had new regulations that saved us money. Legislator Callard said that staff is going to be a topic of important consideration. He said the committee has signed today for the elimination of three positions, and we talked about the possibility of the elimination of two more by the end of the year.

Legislator Billings motioned to adjourn; second by Legislator Beedon. Meeting adjourned at 5:10 p.m.

Legislator Bennett said this will be the last renewal of the agreement before it has to be rebid. Legislator Bower said there was a tour of the marina last Monday. He said we spent quite a bit of time there; went over the docks and almost everything. Legislator Bower said very little of the work had to be done by Buildings and Grounds; the rest will be done by the work crews. Legislator Bennett said it was sad to see the dock where someone threw things from the bridge and broke it. Legislator Bower said it went right through the supports. Wayne Hale has talked to the state; they are going to put a barricade across the bridge. Legislator Bower said the Sheriff has talked to the park police and the state troopers. They, along with county deputies, will each drive through there twice during the evening. The following resolutions were then adopted:

Legislator Callard said that by doing so, we will be eliminating a salary of \$26,956. Legislator Bower asked why the position is being abolished. Chairman Tuohey said the position was not fully productive, and it is vacant now. The following resolutions were then adopted:

Legislator Callard presented a resolution to abolish two Work Experience Crew Leader positions in Social Services; second by Legislator Billings. Legislator Callard said when the budget was written, there were 87 full-time and three part-time positions listed. In December, there was an increase of two full-time positions to deal with domestic violence, so entering into 1998 we had 89 full-time people. This resolution and the prior resolution abolishing a position, will make 86 full-time positions that we are dealing with. Legislator Callard said, even though they are not live body positions, there was money budgeted for one of them. That salary was \$21,257, but not 100% county monies. Legislator Bower said that was for a third Crew Leader position that we never adopted. Legislator Callard said we will save about \$3,800 and it will clean up the positions, and we will go forward with 86 full-time people. Chairman Tuohey said some of those positions are in the schools; they are not all actually at Social Services. Legislator Callard said the Domestic Violence positions are fully funded, but they are added into the Social Services numbers. He said he has a breakdown of the funding of the positions so we can get a clear picture of where our county dollars are being spent. Legislator Billings said there are five of those school positions that the schools are financially responsible for. The following resolutions were then adopted:

Moved, Beedon; second, Bower.  
Adopted. 4 ayes; 1 nay, Callard; 1 abstention, Billings; 1 absent, Beedon.

After adoption of the above resolution, Chairman Tuohey said this is a very much needed position in the jail, and long overdue. She said one of the reasons the jail is in the shape it is in, is because there has not been ongoing maintenance. This will accommodate an on site person at the jail to take care of day to day maintenance. Chairman Tuohey said that in the long run, it will be cheaper than having to send Buildings and Grounds people over there.

Legislator Bower moved to bring a resolution off the table, transferring funds into the jail budget; second by Legislator Bennett. All in favor. Legislator Bower said this is well needed. He said, if you read the packet I handed out today, you will see that we are overcrowded in the jail . There are two cells that cannot be used because of needed shower repair, and we have all these toilets that are breaking. He said we have to maintain this. Legislator Bower said he encourages everyone to vote for this. Chairman Tuohey said she was disappointed that this purchase was not included in the budget and should have been. She said it was an oversight. She said that is the point of using contingency; to cover any oversight that is made regarding the budget. Legislator Billings said it is not a question of fixing the jail, but of where the money is coming from. The following resolution was then adopted:

RESOLUTION NO. 196-498

AUTHORIZING TRANSFER OF FUNDS INTO JAIL BUDGET

RESOLVED, that this Legislature authorizes the Treasurer to transfer funds into the Jail budget, as follows:

AWARDING BID FOR PUBLIC SAFETY BUILDING SPRINKLERS

Legislator Radzinski presented a resolution authorizing the creation of a position in the Personnel Department. Mr. Dudek said he is concerned about creating a position that is in the bargaining unit in the Personnel Department. He said he does not object to the creation of a position; he thinks it is needed, but should be in the Management Plan. He said we have a part-time salary schedule for people not in the bargaining unit. Mr. Dudek suggested creating the position at grade 1 of the Management Compensation Plan. Legislator Billings seconded the presentation of the resolution, with the changes. The following resolution was then adopted:

Legislator Bower presented a resolution authorizing the creation and filling if dispatcher positions in the Sheriff's Department; second by Legislator Beedon.

David Schubel said that several grievances have been filed by Council 82 of AFSCME, regarding dispatchers' overtime. Mr. Schubel said that without the addition of these two positions, the work would have been required to be handled by full-time dispatchers, which is an expense to the county, and people are working more hours than they care to. Mr. Schubel said he would like to publicly express his appreciation for the efforts of the council and the county, for arriving at this addendum whereby we can use part-time dispatchers, and allow full-time people to have some time off. The following resolutions were then adopted:

Legislator Billings motioned to recess until May 9, subject to the call of the Chairman; second by Legislator Callard. All in favor. Meeting recessed at 5:00 p.m.

#### **RECESSED MEETING**

May 9, 1998

The meeting was reconvened by the Chairman at 11:30 am. Legislator Bower was excused due to a death in the family.

Mr. Dudek spoke about the roof on the west side of the Public Safety Building. He said the new roof was placed over the old deck that was there and some sections are rusting. Mr. Dudek said Allied has quoted a price about \$13,000 to replace this 1600 foot section. This would extend the completion date of the building by 30 days. There was discussion regarding the possibility of spending \$3,000 or \$4,000 to just put support underneath the section.

Mr. Dudek also mentioned that the west half of the front wall where the window is, that section of wall does not go all the way to the roof line and has to be strengthened. A large portion of that wall is window. It was recommended to tear off the wall and put studs across it. It's leaning and what's there can't be salvaged any other way. Mr. Dudek said there is another portion of that same section that extends to the east side that requires them to pour a footer, which they've already done, so the wall can be straight. Driveway supposed to run south.

Mr. Dudek said mostly everything has been ordered for the dispatch. The big piece that is left is furniture. The cost of the dividers for Probation will be about \$18,000., conference tables and desks, about \$60,000. Frank Zona estimated the cost of all the computers and servers at about \$50,000. Mr. Dudek said he thinks we're going to have to find some money someplace. Chairman Tuohey said some of the DWI money could be used. Mr. Dudek said there is alsom some in the 911 reserve account. Chairman Tuohey said the DA was going to buy equipment with the crime victims grant. Anyone who has grants, that's what it should be used for. Mr. Dudek said another way to get some money is to sell the house where the Sheriff's office is located. Mrs. Heard said she has been approcached bye someone interested in purchasing that property. Legislator Bennett said he would prefer to see the roof completely fixed, rather than a temporary repair.

Mrs. Heard said the total bids from the auction came to \$170,050.00 .

The following resolution was adopted:

RESOLUTION NO. 220-598

POSITION

RESOLVED, that this Legislature authorizes the filling of the vacant Jail Superintendent position, at grade 4 of the Management Compensation Plan salary schedule.

Moved, Bower; second, Radzinski.

Legislator Billings presented a resolution to enact a one week sales tax exemption; on clothing; second by Legislator Beedon. Legislator Bower said it looks good to the businesses and people who are going to buy clothing, but we are followers of New York City, who pushed this for their own benefit to make it easier so the tax does not have to be split up between the state and the counties. Legislator Bower said part of our revenue comes from sales tax; the other from property tax. We have instituted sales tax to relieve some of the property tax, now we are fooling around with the sales tax and we have never discussed it; just followed the lead of New York City and the Legislators in state government. Legislator Bower said he cannot vote for this until there is a meaningful discussion. Legislator Bennett said he does not feel it is fair to other businesses that are trying to survive and trying to generate income for their livelihood. Legislator Bennett said that he had indicated the last time we voted for a sales tax exemption that he would not vote for it again because it does not treat all businesses equally. Legislator Billings said he agrees with both Legislators Bower and Bennett, but the surrounding counties are adopting this, which would make it unfair to our local businesses if we do not. Chairman Tuohey said we have had discussion in conference sessions regarding the elimination of sales tax. Legislator Bower said we have never discussed what areas might be exempt from sales tax. Chairman Tuohey said we have no input regarding the state share of the sales tax being exempted. Legislator Bower said we might not have input, but we could make it known to the people who do have input, that they are just following New York City. Chairman Tuohey told Legislator Bower that she does not disagree with him about following what the state is recommending, however, she also agrees with Legislator Billings, that we have very few clothing merchants in this county and we would be putting them at a disadvantage by not adopting this, along with the surrounding counties. Legislator Radzinski asked how much this cost the county last time it was done. Mrs. Heard said it was estimated at about \$8,000 for the one week. She said if you were talking about eliminating it permanently, you would have an issue. Legislator Bower said that is coming. Chairman Tuohey said it is anticipated that by 1/1/99 clothing will no longer have sales tax on it. Legislator Beedon asked if we will have a voice at that point regarding the county share. Chairman Tuohey said yes, we always have a voice. Legislator Bennett said that would be raising everyone else's property tax for the benefit of a few people. Legislator Bower said that a few years ago we instituted an additional 1% sales tax. Some people were upset with this; but we thought it would be better than raising the property tax. He said the state is pushing us to do this; property taxes will have to go up. Chairman Tuohey then called the question and the following resolutions were adopted:

#### RESOLUTION NO. 233-598

Chairman Tuohey said she would like to withdraw the next resolution, regarding an agreement between the Health Department and Lakewind Farms Equine Center for \$7,500 to provide 16 to 18 students with a week at the camp. Legislator Beedon said the purpose of the program is to give kids a taste of what their life should be like. He said there is a counselor for every four students, there is a full-time psychologist, teachers, 4-H programmers, special ed teacher. There is also a

need for a nurse, lifeguard and water director. Legislator Beedon said Dona Scharping would have to meet all the Public Health requirements. Chairman Tuohey said her concern is spending \$7,500 to provide HIV education for 16 to 20 people. She said she thinks there are better ways to educate more people for that kind of money, than having 20 attend a camp. Legislator Beedon said Dona Scharping runs quite a camp. Chairman Tuohey said she does not have a problem with the intent of the program, but with the amount of money being spent for such a small group. She said there must be other avenues to use that money to provide this type of education to more people. Legislator Bennett asked if the Health Board came up with this proposal. Legislator Beedon replied, yes. Legislator Bennett said, for \$7,500, did they ever think of going to Cooperative Extension and saying here's \$7,500, we can give away 1500 t-shirts to the first 1500 kids at the fair, and cover that many people. Legislator Bennett said, how do you pick 18 people; the message is something that needs to be spread wider. Legislator Beedon said there will be a meeting with the Health Committee on June 24<sup>th</sup>; we will try to get more information. Legislator Beedon said this is money that is coming from the State; no county dollars. Legislator Beedon asked Chairman Tuohey not to withdraw the resolution; to give the opportunity to get more information. Legislator Beedon said he would like to obtain more information before the resolution is presented again. He then withdrew the resolution. The following resolution was then adopted:

Legislator Bower asked if there is a vacancy now. Mr. Dudek said, no, but depending on the results of a hearing regarding a person who has been out for a year, there will likely be a vacancy. Legislator Bower asked if it could be a problem filling this position prior to that time. Mr. Dudek said no, if there is no vacancy it will not be filled. The County Attorney said we discussed with the union and assured them that if the position does not become vacant, it will not be filled. The following resolutions were then adopted:

Legislator Bower presented a resolution designating the Public Safety Building as a smoke-free environment; second by Legislator Beedon. The County Attorney said he thinks it is necessary to discuss this with the unions first. He said the Public Health Director can go through the building and designate it as being smoke free. Legislator Billings said usually this type of thing we lay over for a two week period. Legislator Bower said people are moving in in two weeks. Chairman Tuohey said we are meeting with the union tomorrow morning and we can discuss this. Dave Schubel said AFSCME is involved also. Mr. Dudek said all three bargaining units are involved. Chairman Tuohey said our attorney has made a recommendation, I would request that the resolution be withdrawn. Mr. Schubel said his advice would be to wait on this. Legislator Bower said he really does not want to withdraw this. He said there is a door right next to the breakroom; smokers can go outside that door. Andrew Lucyszyn, Public Health Director, said any building that is a no smoking building must have a separate room for smoking. Legislator Billings moved to table the resolution until the subject can be discussed with the three unions involved; second by Legislator Bennett. Mr. Dudek said there is a provision in the law that says if you have a public building that serves young people, you cannot smoke in that building. The motion to table was defeated, with Legislators Radzinski, Bennett, Beedon and Bower voting nay. The following resolution was then adopted:

## RESOLUTION NO. 327-698

### DESIGNATING PUBLIC SAFETY BUILDING AS SMOKE-FREE ENVIRONMENT

RESOLVED, that this Legislature designates the Public Safety Building as a smoke-free environment and directs that all smoking is prohibited within the Public Safety Building.

Moved, Bower; second, Beedon.

Adopted. 4 ayes; 1 nay, Tuohey, 1 abstention, Billings, 1 absent, Callard.

Chairman Tuohey asked Mr. Lucyszyn to look into the law regarding the designation of a building as smoke free.

Legislator Bower said there are no designated parking spots at the Public Safety Building. He said the committee recommends that only three spots be designated, for the Sheriff, Probation Director and District Attorney.

Legislator Bower said the EAP picnic was very nice. He said the people in the Nursing Home did a nice job. Susan Heard thanked Legislators Beedon and Bower for their assistance with the picnic.

Mr. Dudek distributed a sketch of the proposed courthouse addition. He said that last week he, along with Legislator Billings and Chairman Tuohey, met with Judge Punch and the engineer from Crawford and Stearns. He said they talked about what the Judge needs in terms of space. Randy Crawford then took the information back and redesigned the plans; which now appear to accommodate everything the Judge needs. Mr. Dudek then reviewed the proposed plan. He said that on the courtroom floor, a row of benches on the east side would be removed, and there would be a handicapped ramp up to the level where the Judge's bench is, and a restroom as required by code. On the other side would be another door to enter through to the hallway with a room for the jury to deliberate, as well as a restroom for them and stairs down to the first floor. That is basically the space that the Judge needs and the requirement for the court room floor. Page two of the plan, shows an extension which provides for a second courtroom; stairs near the bench would come out on the southeast corner, and would open up to a second courtroom on the first floor, with space off that to serve as an office for a second Judge if one is ever assigned; it also includes a restroom for the Judge. The steps would go out the door and enter directly from the front, instead of from the side. The courtyard connecting the two buildings is not accessible from the ground level, because of security; access should only be through one or two doors. When reviewing the third page, Mr. Dudek said there is 434 square feet of office space, which would be located below ground level. Mr. Dudek pointed out that a handicapped entrance and restrooms might not be required on that floor, since there is an elevator to the handicapped restroom on other floor. Mr. Dudek said, the question is do we connect? Chairman Tuohey asked if it is the consensus that Stan should show this to the Judge to see if it meets his approval? Agreed.

Legislator Bower motioned to adjourn; second by Legislator Radzinski. Meeting adjourned at 5:25 p.m.

## **LEGISLATURE MEETING**

July 8, 1998

The meeting was called to order by the Chairman at 4:40 p.m. After the pledge to the flag, the Clerk called the roll. All Legislators were present.

Chairman Tuohey requested a moment of silence in observance of the recent death of James Piedimonte.

The Clerk presented the following communications: notice of July Intercounty Meeting, announcement of \$500.00 DARE donation from Jr. Wilson Sportsmen's Club, OTB meeting minutes for May.

During Open Discussion, Chairman Tuohey raised the subject of Early Retirement. Mr. Dudek said he has asked the County Treasurer if any information is available from the State, regarding the cost of last year's Early Retirement. Mrs. Heard said that information is not yet available. She said the average cost per employee was approximately \$10,000 to \$12,000, which is billed over a five year period. Legislator Bower asked if that includes any of the savings involved. Mrs. Heard said no, she did not calculate the savings. Mr. Dudek said the State requires that you can verify that at least 50% has been saved over a two year period.

Chairman Tuohey said that at the last Legislature meeting, a presentation was made by the Management Committee regarding the Management Compensation Plan. She said she will schedule a time for the Legislature to review the recommendations made by that committee; maybe after the next Legislature meeting. Legislator Beedon asked if there will be another meeting between the Legislators and department heads. Chairman Tuohey said yes, possibly in August, when it can be held in the grand jury room of the Public Safety Building.

Mrs. Heard distributed the Analysis of Monthly Cash Receipts and Disbursements through June.

Legislator Beedon asked about a vending machine being installed in the Public Safety Building. Mrs. Heard said that, as a member of the EAP committee, she has contacted Loose Ends vending company; they are going to the building to look today. Mrs. Heard said the commissions earned from the vending machines go to EAP. Legislator Bower asked if the service is bid? Mrs. Heard said it is not. She said the EAP committee has been talking about looking at other vendors.

The County Attorney said that he and Mr. Dudek and Mrs. Heard have been discussing the sale of Cunneen Hall. He said the Legislature had previously adopted a resolution indicating that this property will be sold when it is vacated. Mr. Schubel said there was discussion about advertising the sale of the property and having an open house on August 8, with bids being submitted no later than August 21. Mr. Schubel said that under county law, when county property is sold, there must be a resolution declaring it as surplus property. He said that resolution must be adopted by 2/3 of the membership. Mr. Schubel asked if it is alright to go ahead with advertising. Chairman Tuohey asked if there is anyone not in favor of the building being sold. There were no objections.

Legislator Bower asked Mr. Dudek about air conditioners being installed in the Jail Superintendent's office. Mr. Dudek said he talked to Ron Tower about it. Mr. Tower met with a vendor yesterday. He called this office today and asked for state bid prices to be sent to him. Mr. Dudek said this will not require a resolution.

Mr. Dudek said if the meeting is reconvened next week, you might want to look at an agreement for cleaning for the Public Safety building. Mr. Dudek said he thinks there is \$15,000 budgeted in the Buildings and Grounds budget for six months cleaning. Chairman Tuohey said an agreement would be cheaper than hiring someone for a six month period. Legislator Bower said we had talked about having some reduction in cleaning, due to the moving of Probation and the Sheriff. Chairman Tuohey said that is why we want a short term contract with Arc to get someone over there to do it, because they will still have to be cleaning Probation and doing work at the Sheriff's Department.

Legislator Bower asked Mr. Dudek if he received the report from Ron regarding the eaves trough. Mr. Dudek said yes, Ron said it is on their schedule. They are going to be doing some work down here with the bucket truck.

Legislator Bower motioned to recess; second by Legislator Radzinski. Recessed at 5:00 p.m, subject to the call of the Chairman.

## **RECESSED MEETING**

July 30, 1998

The meeting was reconvened by the Chairman at 8:00 a.m. Chairman Tuohey addressed the Legislature regarding the resolution to award the bid for the replacement of the roof on the County Clerk's building. She said Randy Crawford, of Crawford and Stearns, recommends including alternate #6, which is a change in venting, at a reduction of \$1,000. Mr. Crawford does not recommend accepting alternate 5, which is the extended warranty. He said if any damage would occur to the slate, it would be within the first two years, which are already warranted. Chairman Tuohey said the acceptance of the bid is subject to the approval of the State Historical and Preservation Office.

Chairman Tuohey asked Susan Heard to explain about the money. Mrs. Heard said that \$50,000 had been set aside in the Buildings and Grounds Reserve account, and there is an additional \$50,000 in the Buildings and Grounds 1998 budget. A \$100,000 grant from NYS Parks and Recreation has been accepted, which leaves a balance of \$105,862. Mrs. Heard said that in looking at borrowing that amount, she thought it seemed steep to pay interest over the years. She said she recommends taking this balance from contingency. There is \$367,000 in contingency as of today. Legislator Billings said he has reviewed this with Susan, and looking at all cost factors, including the payment of interest if bonded, feels that we can handle this by transferring the balance needed from contingency. Chairman Tuohey said we had put additional money in contingency because we thought this project would be coming up.

Chairman Tuohey said there was some consideration given to including alternate 4, gutter liners but Mr. Crawford did not recommend that. She said the prices

quoted for all alternates are good for four months, if we decided to add any later.  
The following resolutions were then adopted:

RESOLUTION NO. 386-798

BUILDING AND APPROVING AGREEMENT WITH JAMESON ROOFING

RESOLVED, that this Legislature awards the bid for the replacement of the roof on the County Clerk's Building to Jameson Roofing, at a base contract cost of \$306,862, minus \$1,000 for the change in venting, which is alternate #6 of the proposal submitted, and be it

FURTHER RESOLVED, that this Legislature approves the agreement with Jameson Roofing for the roof replacement, per the bid dated July 27, 1998, pending approval by SHIPO.

Legislator Bower said he would like to discuss the cleaning of the Public Safety Building before the next resolution is presented. He said when we first discussed this subject, it was indicated that there would be time for county employees to clean this building, because they will no longer have to clean the offices currently used by Probation or the building where the Sheriff's offices were located. Now there is a resolution to enter into a contract, at a cost of almost \$2,600 a month. Legislator Bower said he would go along with the contract for two or three months, but will not support the resolution the way it currently reads. Chairman Tuohey said it was discussed in committee at budget time. There was money for salary for one additional cleaner put in the budget. She said it was agreed at a committee meeting a few months ago that we would go with a service just to try it out to see if the cleaning could be done without hiring a full time person. She said there is no way that building could be cleaned with current staff. Legislator Bennett said he has no problem with trying this, but we have our own people, and it would be cheaper to hire a person. Legislator Billings said he agrees with Legislator Bower, that this has already been discussed and we should be able to pick this up. Legislator Bower asked what will be done with the time that was spent with cleaning the Probation office, Sheriff's office and District Attorney's office? Legislator Billings said the offices vacated by the Probation department will still be county property, but the other two buildings will be gone. Legislator Bower said it is easier to clean a new building. Chairman Tuohey said there is more square footage and more bathrooms, which take time. Legislator Radzinski said he feels that if we have our own people, they will do a more effective job. Legislator Bennett asked about confidentiality. Legislator Beedon said Arc would be a good agency to come in, regarding confidentiality. Legislator Bower said the Sheriff requested an additional secure door to his general area; separating himself and the clerical people from the deputies; if you need a door for that, how can you let anyone in to clean his area? Legislator Bennett said he has no problem with contracting for a short term. Chairman Tuohey said it will just be until we decide if we need an additional person. Legislator Bower motioned to present the resolution as approving a two month agreement, and exclude any reference to extending. Second by Legislator Bennett.

The County Attorney said he just saw Arc's proposal yesterday. It is not in the standard form. Mr. Schubel said he will take care of the items that have to be changed. The following resolution was then adopted:

#### RESOLUTION NO. 388-798

#### APPROVING AGREEMENT WITH CAREER VENTURES FOR JANITORIAL SERVICES AT PUBLIC SAFETY BUILDING

RESOLVED, that this Legislature approves the agreement with Career Ventures, a division of Arc of Orleans County, for janitorial services to be provided at the Public Safety Building, at a cost of \$2,583.33 per month, agreement effective from August 1, 1998 through October 1, 1998, subject to the approval of the Orleans County Attorney.

Adopted. 7 ayes; 0 nays; 0 absent.

Vicky Pratt, IDA Director, and Mark Scarborough addressed the Legislature regarding the possibility of a race track being constructed in the Town of Barre. Arnold Foote and Shirley Walter, council members on the Barre Town Board, were also present.

Mr. Scarborough said he would have liked to have additional members of his team present today, but due to short notice, this could not be arranged. Mr. Scarborough said he and Ms. Pratt have worked very hard; this is a very complicated process and a lot of groundwork has been done. He said he would like to know how much interest the Legislature has in the project. Legislator Radzinski asked Mr. Scarborough if he has addressed the Barre Town board. Mr. Scarborough said he has had many discussions with the Town Supervisor, who is very supportive. Legislator Bennett said supportive is one thing, but approval is another ball game. He said he does not think it is appropriate for the Legislature to get too involved until the town gives approval to the project. Legislator Billings agreed that it is premature for us to get involved at this point. Legislator Bennett said first you have to have the zoning in line. He said he would hate to be misconstrued as a Legislator telling the Town of Barre what they ought to be doing in their town. Mrs. Pratt said, obviously the Legislature understands, that a project of this magnitude is not done at the town level; projects like this have been done at a county and state level. Chairman Tuohey said yes, but certainly with approval of the town. Mrs. Pratt said she is just trying to make it clear for Mark and his team what the chain of events is that is needed in order for him to come back to this group, and how to move ahead. Chairman Tuohey said her problem is that basics have not been addressed yet. Mr. Scarborough said we have designated several parcels; we need to have the engineers determine which is best suited. Legislator Billings said we also need to know if this organization has financial backing; we don't want to get stuck half way. Legislator Bower said, speaking for himself, if Barre comes on line and wants this project, he would do everything I can to help. Mr. Scarborough asked, what would you consider on line for Barre? Legislator Bower said, a zoning change. Chairman Tuohey said the reason we wanted you to come is that we don't want the perception that we are not willing to meet with you, but it is premature. Legislator Bennett asked if there are options on land? Mr. Scarborough replied that they do not have options, but have selected parcels and know the values of the properties. Legislator Bennett said until you get an option signed you don't know. Mr. Scarborough said he is not here to ask for money. He said what he wants is support. He said the investor group is hesitant to move on until they know there is support at the legislative level. Legislator Radzinski said, as soon as you get permit, come back and I'll support it. Chairman Tuohey said she thinks we have a record of supporting anything that will help the county economically, but the town has to want it. Shirley Walter, a member of the Barre Town Board asked how many different areas in the town are being looked at. Mr. Scarborough said they are looking at two primary locations in Barre. Mrs. Walters asked if the Town of Barre Zoning Board has been spoken to. Mr. Scarborough said not the entire board. Mrs. Walters asked how the two areas that are being considered are zoned now? Mr. Scarborough said they are residential/agricultural. Mrs. Walters said she has had many calls from people in the town; one of the primary concerns is the financial aspect; nobody wants to see the project start to fly then get grounded. Mr. Scarborough said the project would not even be started until all the money is in

place. Mrs. Walters said that the board would have to meet with your financial people before any decision is made.

Mrs. Pratt said her position is that until she can get a really clear handle on the total build out cost, where all the money is coming from, she is not going to make a recommendation one way or another in terms of involvement. David Schubel asked Mr. Scarborough to briefly describe what the project will be, assuming it is built. And then once it's built what kind of event schedules and attendance is anticipated. Mr. Scarborough said attendance is a broad thing. In order to make it a viable space, most facilities are multi purpose, not purely a race track. He said a race track is used for a lot of things besides racing, car manufacturers use it for testing, driver schools. Attendance at events can be anything from a few thousand people to 100,000 people. He anticipates a large number probably 5 or 6 times a year. Mrs. Pratt said, in terms of attendance, racing is the number one sport in America. Mr. Scarborough said it is the most popular sport. Legislator Billings asked if the infrastructure has been looked at, such as sewer and water; can it handle 100,000 people. Mr. Scarborough said that is one of the things he and Vicki are talking about.

Chairman Tuohey said she has read in the paper that other counties are also being approached. She asked if there are any sites being looked at. Mr. Scarborough said no. Legislator Beedon asked what it is about Orleans County that is attractive for this. Mr. Scarborough said, first I'm from here. He said it is a good location for a variety of reasons. In terms of market size, the population base is very large; Buffalo, Rochester, Cleveland, Albany, Toronto. The Town of Barre is ideal, straight shot from the thruway; easy access and at some future date Route 531 will probably be extended. Legislator Beedon said he thinks Mr. Scarborough should pursue this as far as he can. Mr. Scarborough said this track will be built one way or another. Arnold Foote, a member of the Barre Town Board, said what people are most concerned with is the noise. Mr. Scarborough said the reason they are looking at this size property is to have as much green space around the exterior of the racing area as possible. He said most of the racing activity will be further away from the town. He said yes, you will be able to hear it, but you can also hear a plane. He said he has comparative studies of noise levels. Chairman Tuohey asked Mr. Scarborough if he has attempted to appear at the Town Board level. Mr. Scarborough said, no, he has basically been dealing with the Town Council. Legislator Beedon asked how long it would take to get the project up and running. Mr. Scarborough said he would like to start construction next year, initial facility could be open in the year 2000. Mrs. Walters asked what guarantee is there that NASCAR will support your venture with enough races. Mr. Scarborough replied that racing is a lot more than NASCAR. He said they are a big draw, but NHRA also draws equal numbers; they will draw 100,000 people. He said what you look for is availability of a date. He said they are interested in having events here. He said one reason we are trying to fast track this is that there are dates on the NASCAR calendar that are in jeopardy, that we could have. Chairman Tuohey asked Mr. Scarborough what he sees as the holdup right now. Mr. Scarborough replied that they are dealing with a lot of fronts. He said we are getting to the point where the group I put together is asking if this is worth pursuing in Orleans County and the Town of Barre. He said the IDA Office has been supportive. He said these deals are not done at the town level; they are done at the county and state level in terms of packaging these deals. Chairman

Tuohey asked Mr. Scarborough what he perceives as the biggest issue. Mr. Scarborough replied that he doesn't know if there is a biggest issue; there are a lot of different issues. Chairman Tuohey said didn't you get out of this whole scenario that the biggest issue is having the Town of Barre want and approve the project. Mr. Scarborough said, that's your biggest issue. There is a lot on our list. That will be the primary one in terms of getting you what you need; getting the Town of Barre's support. Legislator Billings asked what the economic advantage is to the county if we do this. Mr. Scarborough said number of jobs, amount of tax, amount tourists spend. Legislator Billings asked where the tax is coming from. Mr. Scarborough said sales tax, tickets, everything they buy while here. Legislator Billings said you're looking at bringing population in through Genesee County; they are not going to spend much in this county other than tickets. Mr. Scarborough said the on site sales will be substantial. Legislator Billings asked if they will pay real estate taxes. Mr. Scarborough said we are negotiating. Legislator Billings said in other words you are going to ask for an abatement of taxes. Mr. Scarborough said, some of it, yes. Legislator Billings said there is no guarantee of jobs for those in this county. Legislator Bower said it's phenomenal what they sell at these races. Chairman Tuohey said no one can dispute that there would be economic advantages.

Mr. Foote asked if the people involved in this have done a project of this type before. Mr. Scarborough said the team he has put together is very solid; they have not built a race track before, but, they have done a lot of major projects, including sports complexes. He said he has put together a very solid team and wishes everyone would check their credentials.

Legislator Bower motioned to adjourn; second by Legislator Beedon. Meeting adjourned at 9:05 a.m.

## **LEGISLATURE MEETING**

August 12, 1998

The meeting was called to order by the Chairman at 4:30 PM. After the pledge to the flag, the Clerk called the roll. All Legislators were present, with the exception of Legislator Radzinski.

The Clerk presented the following communications: resolution adopted by Niagara County, supporting the formation of a five county NYS Heritage Corridor area, announcement of a Teleconference regarding the year 2000, Intercounty meeting notice, OTB minutes for June, announcement of Supervisors and Legislators Association August meeting, notice of Youth Board Funding Workshop, resolution adopted by Lewis County, requesting legislation regarding taxation of state forest land, letter from the Private Industry Council requesting that our state representatives be urged to oppose the elimination of the Summer Youth Employment Program.

During Open Discussion, Chairman Tuohey said she had received a call from Walter Batt, who requested permission to hold the Albion Jail and Bail, which supports the March of Dimes, at the courthouse on September 1 through September 3, 1998. Mr. Dudek commented that some people were offended by it the last time it was held. Chairman Tuohey said it was held in Medina once and

she didn't like it. After further discussion, it was agreed that Chairman Tuohey will respond with a letter giving permission to hold the event.

Chairman Tuohey read a letter that she had received from Herbert Brant, Mayor of the Village of Medina. The letter referred to the Canal Corridor Initiative Grant received by the Village. One of the proposed improvements is the acquisition and demolition of one or two buildings on Main Street, to provide a pedestrian walkway to the Canal Basin. One of the buildings has been taken by the County in an In Rem action. Mr. Brant asked if the County would be willing to deed the property to the Village and forgive the unpaid taxes. Chairman Tuohey said she has talked to a couple of the Legislators about this. She feels it would be an asset to the county, a nice addition to Main Street in Medina. Legislator Bower said this is a good idea. The County Attorney said this is comparable to the Legislature having indicated a willingness regarding the building here in Albion. Chairman Tuohey said she will respond to Mayor Brant, indicating that the Legislature will adopt a resolution approving this. David Schubel said he will review it and deal with the Village of Medina Attorney.

Chairman Tuohey said she would like to set a date for an open house at the Public Safety Building. She suggested sometime in September. Chairman Tuohey asked Legislator Bower to pursue this. Legislator Bower suggested that all the Legislators think about it and it can be discussed at the next meeting.

Mr. Dudek provided information regarding a resolution to amend the Procurement Policy. He explained that we have always required a signature from the claimant on our vouchers. The Policy Committee is proposing to eliminate that requirement.

Mr. Dudek asked about sending a letter to the county funded agencies regarding next year's budget. He said the letter usually indicates that the budget will include the same amount as the prior year. Legislator Bower asked if we want to commit ourselves to that same amount. Legislator Billings suggested having the letter read that we are reviewing the budget and will accept proposals. Chairman Tuohey said she thinks it would be a good idea to indicate what they received last year.

The following resolutions were then presented:

Legislator Beedon introduced a resolution awarding a bid for the purchase of a van for the Highway Department; second by Legislator Bennett. Legislator Billings asked if the van to be traded in could be driven for a few more years. Chairman Tuohey said this purchase was approved in the budget. Legislator Bennett said he thinks we can still use that van. Chairman Tuohey asked why this discussion is coming up now when it has been approved in the capital plan. Legislator Bennett said his discussion is not questioning the purchase, but whether or not to trade in the van being used now. Legislator Bennett said when he was Chairman of Buildings and Grounds, they wanted a van to haul things in. Legislator Bennett said he does not feel that \$5,000 for a vehicle with 67,000 miles on it is very much. Legislator Bower asked if we are locked into the trade. Legislator Bennett said he thinks Buildings and Grounds deserves first chance at it; it is a good vehicle to leave a lot of tools in. Legislator Billings tabled the resolution. He will inquire as to whether or not Buildings and Grounds could use the vehicle. The following resolutions were then adopted:

**LEGISLATURE MEETING**

September 23, 1998

The meeting was called to order by the Chairman at 4:45 PM. After the pledge to the flag, the Clerk called the roll. All Legislators were present.

The Clerk presented the following communications: Intercounty meeting notice for October, resolutions adopted by Niagara County regarding Lake Ontario shoreline damage, minutes of July OTB meeting, June Planning Board minutes,

Chairman Tuohey, along with Legislators Bower and Radzinski, presented Carri Blake and Deann Corke with a proclamation regarding Domestic Violence Awareness Month.

Roger Harrison, Chairman of the Cornell Cooperative Extension Board of Directors, thanked the Legislature for the opportunity to share some of what Cooperative Extension is about. He said we will celebrate Cornell Cooperative Extension week in conjunction with 4-H week. Mr. Harrison said, this afternoon we are proud to be represented by several of our people who work for Cooperative Extension. He introduced Shirley Bright, the Executive Director, and Lynn Hill, who provides animal expertise and leadership. Mr. Harrison then introduced Ray Toenniessen, the 4-H fair king, and Diane Smith, the 4-H fair queen. Cheryl Smith, the 4-H Youth Educator was also introduced. Ms. Smith addressed the Legislature. She said this past year, Cooperative Extension has faced many challenges in programming. She said the 4-H volunteer program is a great success. Today, 85% of all our youth volunteers have completed the screening process. Ms. Smith said that 4-H has continued to guide over 1400 youth in Orleans County. Diane Smith, the 4-H queen, said she is a senior at Medina High School. She said this was the 52<sup>nd</sup> fair, and one of the best. Ms. Smith said the job of the king and queen is to act as ambassadors for the program, as well as 4-H week and the fair. Ray Toenniessen, the 4-H king said he is a freshman at Albion High School. He spoke about the bounty basket, which was distributed to the Board. The basket contains products that were all grown and produced in Orleans County. He said there are members of the agricultural community who would have liked to be here today, but they are faced with loss issues due to the recent storm. Shirley Bright addressed the Board. She spoke about the name "Orleans County Cornell Cooperative Extension". She said that Orleans County designates our connection with the county government. Cornell is New York's land grant university, and the citizens of New York and Orleans County are connected to Cornell through strong research and the community education system of Cornell Cooperative Extension. Cooperative refers to both cooperative funding from government assistance, user fees, grants and other agencies, in cooperation with other people, with the agencies in the county, with farm organizations, with county government, to identify what the issues are that face Cooperative Extension and some of the solutions based on the research and knowledge through the land grant university system. Ms. Bright said extension means extending that research and knowledge all the way to the people. Mr. Harrison distributed a directory of Cooperative Extension agencies in Orleans County, which lists volunteers and programs involved in creating this educational mission. Mr. Harrison encouraged the Legislators to visit with the members of the Extension family, and share with our Board of Directors suggestions in improving our partnership and educational mission.

Chairman Tuohey, along with Legislators Bennett and Bower, then presented a proclamation designating the week of October 10th as National 4-H and Cornell Cooperative Extension week.

Chairman Tuohey introduced Karen Mitchell, from the Albion Chamber of Commerce, Edwin Blair, President of the Medina Area Chamber, and Marsha Winters, Executive Vice President of the Medina Area Chamber of Commerce. Chairman Tuohey and Legislator Radzinski presented a proclamation designating the week of September 20 as Chamber of Commerce week.

Mr. Dudek said an issue has come up as a result of the recent storm. Orleans County was denied federal aid for reimbursement to homeowners and commercial property owners for losses. When the FEMA team came out, we were not able to identify enough damaged uninsured property to meet the threshold. Total damage divided by population has to equal \$2.50 or more. Mr. Dudek said there is a deadline to appeal, which he thinks is November 13. He said a form is going to be published and will be available at all town and village halls, asking people who have damage that is uninsured to complete the form and send it to us, so we can re-evaluate the situation. Mr. Dudek said he has received calls from farmers who had some buildings damaged, one regarding a golf course with trees uprooted. Estimates were not done on those properties. Mr. Dudek said reimbursement has been approved for municipalities, but nothing for aid to individual property owners.

Legislator Bennett motioned to add two resolutions to the agenda; second by Legislator Bower. All in favor, with the exception of Legislator Billings.

Legislator Beedon presented a resolution to abolish, create and fill positions in the Mental Health Department; second by Legislator Callard. Legislator Bower asked if there are other vacancies in the Mental Health Department. Legislator Beedon said not that he is aware of. Chairman Tuohey asked when the filling of this vacancy would be effective. Since that was not known, Legislator Beedon tabled the resolution for additional information.

Legislator Beedon introduced a resolution to abolish, create and fill positions in the Public Health Department; second by Legislator Callard. Legislator Bower asked why this is being done. Andrew Lucyszyn, Public Health Director, said the abolishing of the RN is due to a decrease in the number of referrals, but there has been an increase in referrals for Public Health Nurses, and the amount of work cannot be handled by two PHN's. Mr. Lucyszyn said the nurse we hope to hire can do public health work and home health care if necessary. Legislator Callard asked what savings will be accomplished if this is done. Mr. Lucyszyn said there is \$1.00 per hour difference in the two salaries, plus the part-time Public Health Nurse position will be eliminated. He said the Public Health Nurse positions are fully funded by the State Health Department and the Registered Nurse positions are not. Legislator Callard remarked that the savings would then be more than \$1.00 per hour. Mr. Lucyszyn said a part-time nurse has resigned. She was working with lead prevention. Legislator Billings asked why that one is not being refilled, instead of creating a full-time position. Mr. Lucyszyn said it is hard to find an unemployed degreed nurse to take a part-time position. He said this position

will be partially funded by a grant; it will pick up part of the salary. Legislator Bower asked if the person in the part-time position that is being abolished worked a full 17 hours every week. Mr. Lucyszyn said she worked up to 17 hours per week. Legislator Bower said, then that salary is not being reduced by 17 hours per week. Mr. Dudek asked Mr. Lucyszyn if the state reimbursement comes under the general grant, which after a certain amount is exceeded, it is county share. Mr. Lucyszyn said yes. Mr. Dudek then asked Mr. Lucyszyn if the maximum amount of 100% monies has been exceeded. Mr. Lucyszyn said it has been. Mr. Dudek responded that the county will have to pay a percentage of the salary. Mr. Lucyszyn said the percentage depends on, moving into the 4<sup>th</sup> quarter, how much is left of the grant. After further discussion, Legislator Callard tabled the resolution until additional information can be obtained regarding the cost of the positions.

Legislator Billings withdrew a resolution to enact a one week sales and use tax clothing exemption. The following resolutions were then adopted:

RESOLUTION NO. 452-998

Moved, Callard; second, Billings.

Adopted. 7 ayes; 0 nays; 0 absent.

Legislator Callard presented a resolution approving agreements between Social Services and the various school districts regarding preventive services; second by

Legislator Billings. Legislator Bennett commented on the increase in the cost of this program, although there is no cost to the county. Legislator Callard said some of the administrative costs have increased. Chairman Tuohey said it seems that when these agreements started, they were \$25,000 apiece. Legislator Callard pointed out that the cost of the agreement is not only salary for the Caseworkers, but also includes administrative costs. The following resolutions were then adopted:

RESOLUTION NO. 457-998

APPROVING AGREEMENTS BETWEEN SOCIAL SERVICES AND SCHOOL DISTRICTS REGARDING PREVENTIVE SERVICES

RESOLVED, that this Legislature approves the agreements between the Orleans County Department of Social Services and the Boards of Education of the Albion, Holley, Kendall, Lyndonville and Medina Central School Districts for the provision of preventive services to children and their families through the assignment of a Social Services Caseworker to each School District; and be it

Moved, Beedon; second, Bower.  
Adopted. 7 ayes; 0 nays; 0 absent.

Legislator Billings introduced a resolution to adopt an Upgrade Policy; second by Legislator Beedon. Legislator Bower asked if there will be any funds in the 1999 budget to do any upgrading. If not, should the Upgrade Committee go through all that effort? Legislator Bower suggested adopting the policy to be effective for the year 2000 budget. Legislator Callard said we could just vote on the policy, it does not have to be implemented right away. Legislator Billings said that at the last meeting we agreed we would go ahead with this and we told Stan to inform the department heads that they could go ahead and use this process for upgrades for their 1999 budgets. Mr. Dudek said that, as a result of the last meeting, he did share this with department heads and said it could be considered as part of this year's budget process. Legislator Bower said that maybe we can set money aside for upgrades for those who deserve them most. Chairman Tuohey said this is a policy and procedure. We could adopt it, but not implement it until next year, if the consensus is that there is no money for upgrades. Legislator Bower said he thinks it is a good policy, and the Policy Committee did a good job, but he cannot be trying to cut jobs and say we have money for upgrades. Chairman Tuohey said that is a good point. Legislator Bower motioned to amend the resolution to make the policy effective for next year's budget process; second by Legislator Bennett. Legislator Billings said he does not think that is fair to those individuals who deserve an upgrade. The amendment was carried with Legislators Beedon, Billings and Radzinski voting nay. The following resolutions were then adopted:

#### RESOLUTION NO. 460-998

#### ADOPTING UPGRADE POLICY

RESOLVED, that this Legislature adopts the Upgrade Policy, as presented by the Policy Committee at the September 9 Conference Session, effective for the year 2000 budget process, which would occur in 1999, as follows:

### **POLICIES AND PROCEDURES**

#### **UPGRADES**

##### ***BACKGROUND:***

The responsibilities of County government and its departments undergo constant change as directed by law, regulation and Federal, State and local policy. Changes may occur gradually or suddenly and may be reflected in specific job duties. Additionally, pay for similar jobs in comparable positions in the private sector or other municipalities may undergo verifiable increases. When such changes are significant, affected jobs should be reviewed to insure they are paid at the appropriate salary. An upgrade occurs when the decision is made to increase the salary of a title while maintaining the same title. The action is applied to all employees holding the title in question.

##### ***POLICY:***

The County will process upgrade requests on an annual basis except in unique circumstances. The decision to submit a request must be made by the Department Head and is based on a change in job responsibilities, change in the qualifications, or position appearing to be underpaid when compared with others involving similar

responsibilities. The Department Head will notify their Legislative Committee of the planned request and then follow the defined procedure.

An Upgrade Committee will be appointed by the Chairman of the Legislature and will consist of the Chief Administrative Officer, Personnel Director and 5 Department Heads. Department Heads requesting an upgrade for their position are prohibited from sitting on the Committee.

All requests for upgrading union positions will be directed to the Upgrade Committee nine months prior to the end of the Union Contract or by March 1<sup>st</sup> for non-union positions. The Committee will provide technical assistance to Department Heads in formulating their requests when needed. The Committee will not make a recommendation, but will analyze the accuracy and completeness of the request based on upgrade criteria, identify the impact on intra/inter departmental issues and County policy, and summarize their findings in a report.

The Committee report will be presented to the Legislature in an Executive Session, as some approvals will require negotiation with the appropriate Union. The date of presentation will generally be in early summer to conform to the County budget cycle. For non-bargaining positions, the Department Head will be notified of the legislative decision so the position may be included in the budget, if approved.

In general, upgrades of Union positions will be discussed with Unions in the regular contract negotiations. Upgrades are approved when both the county and appropriate Union has signed the related agreement.

Exceptions may occur in unusual circumstances such as inability to recruit candidates or when changes to job responsibilities are sudden and significant.

Implementation date of an upgrade is January 1<sup>st</sup> of the next budget year unless otherwise specified.

***PROCEDURE:***

1. Department Head fills out a "New Position Duties Statement" and sends to the Personnel Director. The Personnel Director will respond as to whether the position continues to be in the same title. If so, the upgrade process will continue. (If not, the process to be used is "reclassification".)
2. Department Head fills out the Upgrade Request form. It is forwarded to the Upgrade Committee with an information copy to the Legislative Committee.
3. The Upgrade Committee meets to review all requests. If a request appears incomplete, a Committee member will contact the Department Head to provide assistance in further developing the request or related information.
4. The Upgrade Committee schedules a presentation of their report to an Executive Session of the Legislature. A copy of the report is sent to the Department Head. The Upgrade Committee does not make an actual recommendation to the Legislature.

5. If approved by the Legislature, positions covered by a bargaining unit will be forwarded to the Chief Administrative Officer to be included in the appropriate negotiating session where final resolution will occur.
6. When positions are not in a bargaining unit, the Department Head will be notified of the approval so the position may be included in his/her Budget.
7. In general, the effective date of the upgrade will be January 1<sup>st</sup> of the next year.

Legislator Bower introduced a resolution setting fees for the adoption and surrender of animals; second by Legislator Beedon. Legislator Billings questioned the \$10.00 charge for multiple animals. Chairman Tuohey asked why it is the same for one as for multiple. Legislator Bower said it is an attempt to get more people to turn them in. Legislator Billings questioned charging anything, if you are trying to get people to surrender animals. Legislator Beedon said that in most cases there is not a multitude of animals. Legislator Bennett moved to amend the resolution to be reviewed at the end of January, 1999, and to eliminate the \$10.00 charge for multiple animals. Legislator Bower accepted the amendment. The following resolutions were then adopted:

### LEGISLATURE MEETING

December 3, 1998

The meeting was called to order by the Chairman at 3:00 PM. After the pledge to the flag, the Clerk called the roll. All Legislators were present, with the exception of Legislator Beedon.

Susan Heard distributed a report showing the variation in delinquent school taxes accumulated in 1998/99 versus 1997/98. Mrs. Heard said this report indicates that the STAR Program does not really affect the amount of delinquent school taxes. Legislator Billings moved to waive the rules to add two resolutions to the agenda; seconded by Legislator Bennett. All in favor.

Mr. Dudek addressed the Board regarding proposed changes to the preliminary budget. He said he had met with Don Metzger yesterday. Mr. Metzger had submitted requests to purchase equipment using surplus monies from reinvestment funds. Mr. Dudek said he suggested that some of the equipment that is included in the Mental Health budget for next year be purchased with those funds. As a result, the equipment line items for the 1999 budget can be decreased.

Mr. Dudek said when we met with the Director of Office for the Aging, we proposed to buy the Lifeline equipment out of reserve funds in the Office for the Aging budget. Last week, the Director called and explained that her Lifeline budget included this \$12,640 for equipment. We went through the budget, and everything that can be charged to lifeline is being charged. If we take out this \$12,640, it ends up with more lifeline revenue being in the budget than expenses. It had the effect of subsidizing county operations with Lifeline funds, so we had to restore that money. Most of that would be offset by what we saved in the Mental Health budget and the change in the contingency line is to offset the difference. Mr. Dudek said the bottom line is that there is no change in the tax levy.

The following resolutions were then presented:

RESOLUTION NO. 552-1298

Legislator Billings presented a resolution authorizing the County Treasurer to relevy unpaid village taxes; second by Legislator Radzinski. Legislator Bennett asked why there is not a 7% penalty. David Schubel said 7% is the maximum that can be charged, according to state statute. Chairman Tuohey said the village of Medina opted not to go with this procedure. She said this was one of the programs that all the villages had lobbied us to undertake. They felt it would save money, so we addressed their request. The following resolution was then adopted:

Moved, Callard; second, Billings.

Legislator Bower said he and Sheriff Green, along with the Mayor of Albion and the Undersheriff met yesterday. The concern was why Albion and Medina are picking up a third of that Drug Task Force, they each have a person on there and the whole county benefits. Figures were prepared regarding where the arrests are made, and about 55% were in the villages of Albion and Medina. Legislator Bower said there is quite a bit of money coming back from the Drug Task Force; it could be shared three ways, other towns would not get any. There are some things that they were not doing that they can do on their own. Legislator Bower said that meeting was a result of the Villages feeling that possibly the county should pick up the whole cost of the Drug Task Force.

Chairman Tuohey thanked Stan, Susan and Lori for the good job that they did on the budget. She also thanked the Legislators for participating; the Finance Chairman, Lyndon Billings, and Legislator Bennett who is also on the Finance Committee. Chairman Tuohey said it is a good budget. She said we all appreciate the involvement of the department heads and the effort they are making to live with their budget.

Legislator Callard said a comment was made at the Public Hearing regarding our use of the tobacco money. He said if Mr. Spitzer becomes Attorney General, he indicated that he might not accept the settlement. Mr. Dudek said if the settlement is accepted, it will not be available until the year 2000 at the earliest. Legislator Callard said it will be distributed on a graduated basis; the dollar amount will be smaller for the first draw. Chairman Tuohey said it will be distributed over a 25 year period. She said any correspondence that she has seen has indicated that the funds, might only be able to be used for certain things; there will be limits.

Legislator Bower moved to adjourn; second by Legislator Radzinski. Meeting adjourned at 3:25 p.m.

## 1999 BUDGET MESSAGE

### Overview

With the adoption of the 1998 budget, the amount of property tax levied was reduced by 2.8%. This \$168,000 reduction was the largest decrease in the tax levy in 20 years. This 1999 preliminary budget proposes to maintain that reduction by keeping the average countywide tax rate unchanged at \$6.90 per thousand, and increasing the tax levy by only \$36,697 or less than ½ of 1%.

Spending under this budget will increase by \$133,792 or .29%, while revenues will grow by \$246,502 or .67%, actually decreasing the county cost by \$112,710 or (1.26%). Unfortunately, the year end fund balance available to apply to reduce the tax levy is 298,710 less than in 1998, a 28% decrease. Meanwhile, the growth in the value of real property is stagnant, having increased a mere .4%.

The primary factor in our ability to maintain the rate is a significant decrease in the cost of Social Services programs. We project the Social Services' cost will decrease by \$308,000 as a result of an improved economy, welfare reform and an aggressive effort by our Social Services department to move recipients into employment.

As an example, the public assistance caseloads have decreased from 638 in March of 1994 to 368 in September of 1998, a 43% decrease. This is **the lowest caseload since May of 1970**.

The Safety Net caseloads (formerly Home Relief) have decreased from 212 to 139, or 34% over the same period.

The "bottom line" is that the 1999 property tax rate of \$6.90 is the lowest it has been since 1984. In addition, in the seven years **since 1992, the increase in the property tax levy has averaged less than ½ of 1% per year**. This is well under the rate of inflation, which for the same period, increased 8.7%<sup>1</sup>

### Appropriations

The 1999 budget for personal services includes a 3.5% general wage increase as required by the final year of current bargaining agreements. Retirement costs have been budgeted at 1% of payroll, while medical insurance costs are expected to rise 7%.

Under this budget, the number of full time county positions will be reduced from 444 to 436. Two of these will come from the Probation Department, **where consolidation into one location has improved staff efficiency**.

Other highlights include:

- The Industrial Development Agency budget will be increased by \$47,000 to expand the county's marketing effort.
- A \$5,000 appropriation has been included for Mercy Flight service to Orleans County residents. We have, for a number of years, been the only county serviced by Mercy Flight not to contribute to their operation.
- For the first time in 4 years the county's **solid waste fee will increase by one dollar** to \$141.80, well under the \$179.00 paid when the program first began in 1992.
- Approximately \$50,000 is budgeted for costs associated with addressing Y2K (year 2000) computer issues.

### Revenues

We project that sales tax will remain about the same as budgeted in 1998 and have assumed for budget purposes that the additional 1% sales tax, which expires November 30, 1999, will be continued. In addition, the budget makes no provision for matching the State's permanent elimination of sales tax on clothing to begin December of 1999, which would have decreased sales tax revenue by \$240,000 on an annual basis.

This year, for the first time, the **County Clerk's office will not require any tax dollars**, operating entirely on revenue derived from fees. A small amount (\$4,000) of surplus revenue is even being returned to the general fund.

### Debt Service

The 1999 cost of the County's long term debt has been reduced by \$127,901 because the final payment has been made on the County Office Building. This budget includes a \$72,666 interest payment for the debt on the Public Safety Building.

Respectfully Submitted,

Stanley J. Dudek  
Chief Administrative Officer

NOTWITHSTANDING ANY RESOLUTION HERETOFORE ADOPTED, BE IT RESOLVED, that the following terms of auction for County-owned property for the auction to be held May 8, 1999 at 10:00 am in the Court Room of the Orleans County Courthouse, Court House Square, Albion, New York, be approved by this Legislature as follows:

TERMS OF AUCTION  
ORLEANS COUNTY TAX PROPERTY AUCTION  
ORLEANS COUNTY COURTHOUSE  
ALBION, NEW YORK  
MAY 8, 1999  
10:00 AM

This is the sale at public auction of various parcels of real property which have been conveyed in the County of Orleans by final judgment under the so-called In Rem Tax Foreclosure Proceedings. This sale is ordered by various resolutions of the Orleans County Legislature and is in accordance with the appropriate provisions of the Real Property Tax Law.

This sale and sale of each and every parcel herein is upon the following terms:

All sales are made subject to confirmation and approval thereof by the Orleans County Legislature, which confirmation and approval will be requested at a special meeting of the said Legislature to be held directly following the auction. The resolution of confirmation will be immediately available at the close of said meeting.

At least 25% of the final bid for each parcel shall be paid to the Clerk of these proceedings prior to the start of the special Legislature meeting above stated. Payment shall be in cash or by a good check upon a New York State financial institution.

The balance of the successful and accepted bid for each parcel shall be paid in cash or by certified check to the Orleans County Treasurer, Central Hall, 34 East Park Street, Albion, New York, 14411, no later than Friday, May 28, 1999 between 9:00 AM and 5:00 PM unless extended by the Legislature.

The County of Orleans is not required to send any notice to the purchaser or purchasers, and if the purchaser or purchasers neglect to pay the balance due and call at the Orleans County Treasurer's Office at the above stated time the successful bid shall at 5:00 PM on Friday, May 28, 1999, be deemed conclusively to be abandoned, the deposit retained by the County as liquidation damages and the parcel in question disposed of in such manner as the County determines without notice to or benefit to the defaulting purchaser.

Upon payment of the balance, as above provided, the County of Orleans will deliver a standard form quitclaim tax deed which shall describe the parcel in the same manner as in the In Rem Foreclosure deed to the County and which shall quitclaim all of the right, title and interest of the County of Orleans in and to the said parcel. The said deed shall name as grantee the successful confirmed bidder and shall state the amount of the successful confirmed bid. The County of Orleans will execute no warranties concerning the parcel or the title thereto and will not deliver or be responsible for abstracts, title searches, surveys, maps or other documents concerning the parcel whatsoever.

The deed shall contain a condition and covenant that Orleans County shall in no event be or become liable for any defect in the title so conveyed for any cause whatsoever, or that no claim or demand of any nature shall ever be made against said Orleans County arising from such sale or conveyance or any proceedings leading thereto.

All parcels are sold subject to the 1999 Town and County tax, including any relieved charges and the 1999 recycling waste fee. The amount of such unpaid tax shall be announced by the auctioneer prior to the auction of each parcel. The unpaid taxes must be paid prior to May 28, 1999 to avoid further penalty, and prior to the filing of the deed.

The purchaser upon payment of the final bid and the unpaid taxes shall also deliver to the Treasurer a check for all recording fees due to the County Clerk for filing the deed. Such fees will be \$49.00 on each purchase, plus an additional \$2.00 for every \$500.00 or part thereof when the purchase price is \$500.00 or more. For example, if final bid is \$10,000.00, recording fee is \$49.00 plus \$2.00 x (20) or \$89.00.

The successful and confirmed purchaser shall take the parcel "as is" upon delivery of the above stated deed, in such condition as the same exists at that date and subject to all alleged possessory or other claims and all covenants, easements and restrictions of record.

The various parcels have been available for view by any and all interested parties prior to this sale. No adjournment in bidding shall be allowed for further viewing of any parcel.

The various parcels shall be offered from the list of parcels previously available in

such order and manner as the auctioneer shall deem proper.

The Legislature reserves the right to set minimum opening bids on any or all parcels to be auctioned at any time prior to the auction.

Legislator Beedon presented a resolution to revise a previously adopted resolution regarding the effective date of a newly created position in Mental Health; second by Legislator Billings. Chairman Tuohey asked Don Metzger, the Director of Mental Health, to explain why the date is being changed. Mr. Metzger said we had a person that we were going to move temporarily into the Supervising Intensive Case Manager position; we then found out she was not qualified. So we had to go back and change that in this resolution; it was passed on October 28. Mr. Metzger said when the resolution was passed it indicated that the effective date would be the date that the Supervising Intensive Case Manager left the position, which was October 6. Mr. Metzger said that when he started processing the paperwork he was informed that the effective date could not be before the date of the resolution. He said we got caught in the time warp of not being able to get

the resolution passed in time. The person did do the work and she is currently in the position. The following resolutions were then adopted:

RESOLUTION NO. 146-399

## SUPPORTING LOCAL DMV RETENTION FEES

WHEREAS, the Orleans County Clerk joins more than 50 County Clerks statewide in operating local motor vehicle offices as Agent for the NYS Department of Motor Vehicles, and

WHEREAS, these offices realize over \$230 million annually in revenue and \$26-27 million in operating cost, and

WHEREAS, the County Clerks retain \$18 million in revenue representing a flat 8.1% retention fee, and

WHEREAS, the New York State Vehicle and Traffic law mandates 51 counties to provide motor vehicle services for the State but exempts 11 counties from providing these services, and

WHEREAS, the proposed State budget again seeks to centralize the processing of driver's licenses and vehicle registration renewals in Albany, and

WHEREAS, the loss of those transactions in Orleans County would mean the taxpayers would need to subsidize the local motor vehicle operation that currently provides a valuable service to county residents at a loss of approximately \$65,000 per year, and

WHEREAS, in the last Executive budget, the County Clerk DMV Offices saw an increase in the retention fees from 8.1% to 9.3%, but at the same time suffered a 25% reduction in passenger registration fees, resulting in receipt of an insufficient percentage of gross receipts necessary to cover the actual cost of operations, be it

RESOLVED, that the Orleans County Legislature strongly favors and supports an increase in the retention fees with the intent that DMV operational costs be funded by the State to avoid an additional burden to the local property taxpayers, and be it

FURTHER RESOLVED, that this Legislature, in opposing unfunded mandates, firmly believes that the county-run Department of Motor Vehicles continues to be an unfunded state mandate which fails to consider the needs of local counties and its residents by providing a large number of services without retention fees for those services, and be it

FURTHER RESOLVED, that the local Albion DMV office stands on their good record of the service they provide and requests that the Governor reconsider the current DMV funding mechanism and compensate the county DMV offices for all the services provided before centralizing services that are necessary for local revenue, and be it

FURTHER RESOLVED, that a copy of this resolution be sent to Honorable George Pataki, Governor, Honorable Joseph Bruno, Senate Majority Leader, Honorable Sheldon Silver, Speaker of the Assembly, Honorable George Maziarz, State Senator, Honorable Charles Nesbitt, State Assemblyman, Honorable David E. Seaman, State Assemblyman, Robert L. King, Director of the Budget.

Legislator Billings presented a resolution authorizing the construction of a fire fighting training tower and authorizing the issuance of Serial Bonds; second by Legislator Beedon. Mr. Dudek said we are borrowing \$300,000 but the actual cost will be more. There is money set aside in the capital planning budget. He said the training tower built in Genesee County was \$360,000, this will be about the

same price range. Chairman Tuohey said we have a reserve account now of about \$97,000, which includes a \$25,000 member item from Senator Maziarz and Assemblymen Seaman and Nesbitt. The following resolution was then adopted:

RESOLUTION NO. 148-399

AUTHORIZING THE CONSTRUCTION OF A FIRE FIGHTING TRAINING TOWER FOR THE COUNTY OF ORLEANS, NEW YORK, AT A MAXIMUM ESTIMATED COST OF \$372,500, AND AUTHORIZING THE ISSUANCE OF \$300,000 SERIAL BONDS OF SAID COUNTY TO PAY THE COST THEREOF

the issuance and sale of the serial bonds herein authorized, including renewals of such notes, is hereby delegated to the County Treasurer, the chief fiscal officer. Such notes shall be of such terms, form and contents, and shall be sold in such manner, as may be prescribed by said County Treasurer, consistent with the provisions of the Local Finance Law.

All other matters except as provided herein relating to the serial bonds herein authorized including the date, denominations, maturities and interest payment dates, within the limitations prescribed herein and the manner of execution of the same, including the consolidation with other issues, and also the ability to issue serial bonds with substantially level or declining annual debt service, shall be determined by the Director of Finance, the chief fiscal officer of such County. Such bonds shall contain substantially the recital of validity clause provided for in Section 52.00 of the Local Finance Law, and shall otherwise be in such form and contain such recitals, in addition to those required by Section 51.00 of the Local Finance Law, as the Director of Finance shall determine consistent with the provisions of the Local Finance Law.

Section 7. The validity of such bonds and bond anticipation notes may be contested only if:

- A) Such obligations are authorized for an object or purpose for which said County is not authorized to expend money, or
- B) The provisions of law which should be complied with at the date of publication of this resolution are not substantially complied with,

and an action, suit or proceeding contesting such validity is commenced within twenty days after the date of such publication, or

- C) Such obligations are authorized in violation of the provisions of the Constitution.

#### RESOLUTION NO. 198-499

#### AMENDING PROCUREMENT POLICY

RESOLVED, that this Legislature amends the Procurement Policy including the following significant changes:

#### **FORMAL BIDS**

When formal bids are required, specifications will be prepared by the ordering department and submitted to the Chief Administrative Officer for approval.

If the Chief Administrative Officer approves the specifications, the department may place the bid notice and proceed with the bid process. The County's general bid specifications; non-collusion clause and non-response form must be incorporated into every bid. Approval or rejections of bids may only be done by resolution of the Legislature.

#### **PURCHASE ORDERS AND CONTRACTS**

All commitments or orders in excess of \$100.00 shall be either by a contract, or purchase order signed by the appropriate officials. No contract shall be recommended or purchase order released until after determining that unencumbered appropriations are sufficient to cover such obligation.

Purchase orders or agreements with a value less than \$500 may be released to the vendor by the ordering department except for printing. Orders of \$500 or more require the approval of the Chief Administrative Officer and certification from the Treasurer that funds are available before being released. All printing orders require the Chief Administrative Officer's approval including those below \$500 except for those made under a printing contract awarded by the Legislature.

The County Attorney, prior to final approval by the County, must review all contracts and agreements with a value of more than \$1,000 or which extend for more than one year. If approved by the County Attorney, the agreement then must be signed by the department head and forwarded to the Legislature Office for final approval. A properly completed fact sheet signed by an authorized department representative must accompany each submission.

The Chief Administrative Officer may approve contracts, agreements and purchase orders for goods and services which have been budgeted provided the value is less than \$5,000 and the term is one year or less. When the value of an agreement or purchase order is \$5,000 or more or extends beyond one year, it must be approved by an affirmative vote of the County Legislature.

Supplies used by various departments should be uniform whenever practical. The Chief Administrative Officer is authorized to require a department to reconsider specification or quality of material if it appears County interests could be better served. In the event agreement cannot be reached, the Chairman shall make the final determination.

Distribution of the purchase order set shall be as follows:

- Copy marked Vendor will be mailed or delivered to the supplier.
- Copy marked Treasurer will be sent to the Treasurer's Office.
- Copies marked Department and Voucher will be kept at the originating department until receipt of the goods or services.

Once order is completed to department head's satisfaction, the voucher is signed by the designated department official and forwarded along with invoices and other related material to the Clerk of the Legislature's Office. If the payment is for a purchase made from a state bid, a copy of the appropriate section of the state award must be attached. Any modifications to an approved order shall be confirmed in writing.

## **PROCEDURE FOR CONTRACT APPROVALS**

A contract is a legal obligation between a buyer and a seller to perform certain duties for a specified price. Technically, it may be verbal or written. However, the County recognizes only written contracts. Generally, a formal (written) contract will be used when the terms and conditions involved in a commitment are such that a standard purchase order is not adequate.

In addition, there is a formal contract when:

1. The purchase period extends beyond one year, or;
2. The procurement involves an installation or labor component, or;
3. Professional services are involved

Because contracts can expose the County to significant liability and risks, processes are needed to establish clear controls and accountability. The contracting process has a number of important factors including writing, review, approval and administering. Considering the complexity of the key issues involved, proper training of all staff involved in the contract process is necessary. The primary goal of the contracting process is to establish agreements needed to conduct County business in a manner that serves the best interest of the County.

For County purposes, an agreement will fall within one of four categories, each with a different approval process.

**A Memorandum of Understanding/Memorandum of Agreement** is an agreement to share information in a structured way in order to facilitate service delivery that does not involve monetary terms. All such agreements must include language indicating there is no financial obligation on behalf of either party to such an agreement. Approval requires only the Department Head's signature.

Examples include agreements defining procedures for serving joint clients, for undertaking joint responsibilities or transfer agreements.

**Department Level Contracts** are contracts, which define standard terms of payment for budgeted services, which include a payment to or from a County Department that does not exceed \$5,000 and which does not exceed a term of one year. Approval requires the signature of the Department Head, a review by the County Attorney and approval by the Chief Administrative Officer. A properly completed fact sheet signed by an authorized department representative must accompany each submission.

Examples include annual fire safety inspection for \$3,000; purchase of services between County Departments that don't exceed \$5,000 or copy machine maintenance agreement.

**Insurance Company Generated Contracts** are contracts with health insurance companies where language is standard for a large line of business and where the negotiation is limited to rate setting. Approval process is by the Department Head following consultation with the Chief Administrative Officer.

Examples include Mental Health and Nursing Home contracts with health insurance companies or Social Services Managed Care Contracts.

**All Other** including contracts, agreements, grant applications and other commitments not covered elsewhere in this policy. Process begins with approval by the Department Head. This is followed by a review with the Legislative Committee. It is then forwarded to the County Attorney and then the Chief Administrative Officer for their review. It will then be placed on the Legislative agenda for consideration by the Legislature. A properly completed fact sheet signed by an authorized department representative must accompany each submission.

Examples include \$15,000 contract with CATS, \$6,000 contract for auditors, or grant funding application.

### **Summary of the General Approval Process**

1. Purchases of \$100 or more require a purchase order.

2. Purchases of \$200 or more require documented comparison quotes except for state bid purchases, which must have a copy of the State Bid attached with the payment voucher.
  3. The Department Head may approve purchase orders less than \$500\*.
  4. The County Treasurer's approval is required for all purchase orders over \$500\*.
  5. The Chief Administrative Officer's approval is required for:
    - a. All purchase orders over \$500\*
    - b. All contracts under \$5,000.
    - c. All printing orders.
  6. The County Attorney's review is required for all agreements over \$1,000.
  7. Purchases and Contracts over \$5,000 must be approved by the Legislature.

Legislator Callard presented a resolution memorializing the State Legislature to continue medicaid cost containment provisions; second by Legislator Billings. Chairman Tuohey said that Assemblymen Nesbitt and Seaman and Senator Maziarz have been concerned about the cost effect to the counties. The following resolutions were then adopted:

RESOLUTION NO. 273-699

MEMORIALIZING THE STATE LEGISLATURE TO CONTINUE MEDICAID  
COST CONTAINMENT PROVISIONS

WHEREAS, the New York State Legislature adopted Medicaid Cost Containment provisions in 1995 and 1996 designed to alleviate financial stress upon Counties, and

WHEREAS, said cost containment provisions are due to sunset on June 30, 1999, and

WHEREAS, the loss of cost containment provisions is projected to cost Orleans County an additional \$810,000, and

WHEREAS, Medicaid costs are rising even with the cost containment provisions such that Orleans County is projecting a 1999 Medicaid cost at 13% over budget, be it

Legislator Callard presented a resolution authorizing Social Services to apply for a family resolutions project funding grant; second by Legislator Callard. Legislator Bennett asked for an explanation of this grant. Mrs. Blake explained that this project would be to bring all family members together, discuss the child's problems, try to create a plan that will safeguard the child and avoid out of home placement. Mrs. Blake said there are times when family members will come forward to take care of the children after a very long process. She said we are looking to do that up front; try to shorten the process and bring the resources together. Mrs. Blake gave an example of this process that was recently used in Genesee County, with a successful outcome. She said this grant would give her staff the training that is needed, and would probably contract for a coordinator to pull the family together and prepare them for what we are trying to accomplish. Legislator Bennett asked if this is a duplication of services of what is available in the schools. Chairman Tuohey asked if we have caseworkers that go into homes to resolve problems like this? Mrs. Blake said this is really the process of pulling the family together to develop a plan. It is very different, based on the strengths of the family. Legislator Bennett asked if this would involve any new positions. Mrs. Blake said no, she would contract with a facilitator to do this process while the staff is being trained. Cornell is providing the training to those counties selected to participate. She said it is really making staff rethink how they do things. Mrs. Blake said that at the end of one year if there is money available we would take it, but she does not think it is contingent on money, she thinks it is contingent on training staff in techniques of this process. Chairman Tuohey asked if the facilitator would teach the employees. Mrs. Blake said the training is being done by Cornell. The facilitator is the person who would initially bring together the first family conferences, talk to the family members, help staff develop bottom line that's communicated to families. The following resolution was then adopted:

#### RESOLUTION NO. 274-699

#### AUTHORIZING SOCIAL SERVICES TO APPLY FOR FAMILY RESOLUTIONS PROJECT FUNDING GRANT

RESOLVED, that this Legislature authorizes the Department of Social Services to apply to the New York State Office of Children and Family Services for a one year grant of \$50,000 to be used for the development of a Family Resolution Project, to support services to families at risk of out of home placements; said funds to be reimbursed at 100%.

Legislator Radzinski withdrew a previously tabled resolution regarding the holiday schedule for the Highway Department.

Legislator Beedon motioned to adjourn; second by Legislator Bower. Meeting adjourned at 5:05 PM.

## **LEGISLATURE MEETING**

July 14, 1999

The meeting was called to order by the Chairman at 4:30 PM. After the pledge to the flag, the Clerk called the roll. All Legislators were present, with the exception of Legislators Bennett and Callard. Chairman Tuohey noted that Legislator Callard is in Washington attending meetings regarding the Work Force Investment Act.

The Clerk presented the following communications: notice of July Intercounty meeting, letter from Assemblyman Seaman acknowledging receipt of resolution number 238 regarding support of criminal justice bills, letters of acknowledgment from Assemblyman Nesbitt and Senator Maziarz for receipt of resolution number 273 regarding the continuation of medicaid cost containment provisions. June OTB minutes, notice of graduation ceremony for participants of the Microenterprise Assistance Program.

A certificate of recognition was presented by Chairman Tuohey and Legislator Radzinski to Mark Tillman, honoring the Tillman family for having operated the Village Inn for the last fifty years.

During Open Discussion, Chairman Tuohey read a letter from Brian Napoli, Chairman of the County Planning Board, regarding a Countywide Comprehensive Plan. The letter indicated that a plan had been written in 1976, and never updated. Mr. Napoli said the Planning Board would like to revisit this idea with the goal of revising, updating or creating a new plan. He asked that the Legislature advise the Planning Board of their position on this. Mr. Dudek said the county received money from the Federal government to prepare a plan; when the money stopped, we stopped working on the plan. He said he does not think it was ever finished or implemented. He said the county does not have any land use power; this is more of a town function. Chairman Tuohey said the towns of Shelby, Ridgeway and Yates are creating a comprehensive plan together. Legislator Billings said there probably should be some county coordination. Legislator Bower said there is; the plans are reviewed by the County Planning Board. Legislator Bower said if the towns want us to do something with respect to a broad based plan, they would have approached us. Chairman Tuohey said we try to address any long range planning with our Capital Plan. She said probably a major issue is water. Mr. Dudek suggested asking the Planning Board what they think the benefits of such a project would be, and how it would be implemented. Legislator Billings said the

plan that was written in 1976 was three volumes.

Legislator Bower moved to waive the rules to add two resolutions to today's agenda; seconded by Legislator Billings. All in favor.

H3305 NYS Grant-Fire Tower	H3640 CP Fire Tower

Moved, Radzinski; second, Billings.  
Adopted. 5 ayes; 0 nays; 2 absent, Bennett, Callard.

Legislator Radzinski presented a resolution rejecting bids for the fire training tower; second by Legislator Bower. Mr. Dudek explained that two systems were bid; one was for furnishing and installing the package; the other one, which had no bidder, was for the installation. It is hard to compare the two bids. Our bigger concern is, the bid that included the furnishing and installation of the equipment, was higher than the amount budgeted. One thing that was added, that was included in Genesee County's bid, was galvanizing of all the interior metal components, which added \$25,000 to the overall cost. That will be changed in the specs for the rebid. There will also be other changes. Mr. Dudek said the engineer feels confident that we will get bids for both next time. The following resolutions were then adopted:

FURTHER RESOLVED, that in view of both the environmental concerns and the negative impact on canal related tourism and the image of Orleans

County, this Legislature does hereby oppose the approval of Waste Management's permit application and urges all Orleans County communities concerned with canal development to evaluate the impact this facility would have on your goals, and be it

FURTHER RESOLVED, that a copy of this resolution will be sent to Assemblymen Nesbitt and Seamen, Senator Maziarz, as well as the Orleans County Chamber of Commerce and the Town and Village Clerks of those municipalities that border the canal.

After adoption of the above resolution, Chairman Tuohey said there is a bill proposed in the Assembly and the Senate to amend the Parks Recreation and Historic Preservation Law to establish a Western Canal Heritage Corridor Planning Commission, and designate Erie Canal as a national heritage site. She said she thinks a landfill would not be in keeping with the intent of a heritage preservation site. Chairman Tuohey said she thinks we all agree that Orleans County has been a dumping ground for too many years. She said there are various issues to be addressed, not only the technical ones, but for Orleans County residents, including traffic, smells, blowing debris, rodents, seagulls, noise and aesthetic location. Legislator Bower said that he, along with Chairman Tuohey and Legislator Billings, was at a meeting where people spoke up for or against Waste Management's proposal. He said he listened both to old timers and to people who moved into the area recently. People that have lived here all their lives forget how great it is to have this country atmosphere, with clean air, light traffic. He said he heard young people that are so pleased to be here. Legislator Bower said, what he thinks really hit home after hearing all these young people talk, is that a big number of the people there, if this landfill were to be approved, and they're talking about at least 16 years, they would never go back and see the conditions as they were prior to the landfill. Legislator Billings said he has operated farmland within the vicinity for years, the truck traffic was horrendous coming off 104; that property up there was just smothered with seagulls. Legislator Beedon said his concern is the amount of truck traffic that would come up from the New York City area and go right through the school system area. Legislator Radzinski said he is also concerned about the truck traffic, there were quite a few accidents, you get another 600 trucks a day in here, and you will have a lot of liability; plus tearing up the county roads, there will be big problems. The following resolutions were then adopted:

Chairman Tuohey read a letter that had been received by Legislator Beedon from Community Action. Ed Fancher and Robin Smith from Community Action are here today regarding this. These funds would provide additional housing services for the residents of Orleans and Genesee Counties. Community Action is asking for a letter of support from the Legislature in obtaining this funding. This letter has to be submitted by July 30th. Legislator Bower asked what the dollar amount would be. Mr. Fancher said it is \$13,500. Chairman Tuohey said she would write the letter tomorrow and fax it.

Legislator Billings introduced a resolution enacting a one week sales and use tax clothing exemption; second by Legislator Beedon. Legislator Bower said he opposes the way the state has enacted this; he does not think it is right, personally, but thinks that enough people in our county would buy into it from pressure. Legislator Bower said he will make an exception and support it this time. Legislator Billings said he questions why it is just clothing. Chairman Tuohey commented that it is interesting that the full-time exemption that was supposed to go into effect on December 31 has been pushed back to March 1. All of a sudden the state might need the money, so they take this program they were pushing, and making the counties look like the bad guys, because we need the sales tax money; now they find they can't afford it either. Chairman Tuohey said she has not heard one comment from anyone criticizing the state for doing that. The following resolution was then adopted:

RESOLUTION NO. 335-899

ENACTING ONE WEEK SALES AND USE TAX CLOTHING EXEMPTION

BE IT enacted by the Orleans County Legislature, as follows:

Section One. Receipts from sales of and consideration given or contracted to be given for purchases of clothing and footwear exempt from state sales and compensating use taxes pursuant to paragraph 30-a of subdivision (a) of section 1115 of the tax law shall also be exempt from sales and compensating use taxes imposed in this jurisdiction.

Legislator Billings motioned to waive the rules to add a resolution; second by Legislator Bower. Legislator Billings presented a resolution to approve the apportionment of the 2000 workers compensation cost; second by Legislator Bennett. Mr. Dudek said that the cost of Workers Compensation has been allocated to all the county departments. He explained that the Nursing Home operates as an Enterprise Fund; we want them to pay the full cost of their claims. He said their cost has nearly doubled from a year ago. The following resolution was then adopted:

**RESOLUTION NO. 336-899**

**APPROVING APPORTIONMENT OF 2000 WORKERS COMPENSATION COST**

The following resolution was then presented:

Legislator Beedon introduced a resolution authorizing payment by Buildings and Grounds Reserve Account for ceramic tiles at the County Administration Building; second by Legislator Bower. Legislator Bennett questioned whether this was authorized and Mr. Dudek said that this was part of the \$10,000 set aside for renovations. Legislator Bower said that it was discussed at length at budget time last year. Legislator Bennett questioned whether there were three quotes on this and why couldn't we get someone in Orleans County to do this. The Deputy Clerk said that only two quotes were received and one vendor did not respond.

The following resolutions were then adopted:

RESOLUTION NO. 338-899

AUTHORIZING PAYMENT FROM BUILDINGS AND GROUNDS RESERVE ACCOUNT

Legislator Beedon introduced a resolution authorizing the use of the courthouse for a concert; second by Legislator Bower. Legislator Callard questioned if it has always been the policy to open the grounds to any organization who wants to use it and wondered whether there were any perimeters. Mr. Dudek said that an organization must have a certificate of insurance and the use must be approved by resolution by the Legislature.

The following resolution was then adopted:

RESOLUTION NO. 340-899

AUTHORIZING USE OF COURTHOUSE GROUNDS

RESOLVED, that this Legislature authorizes St. Mary's Athletic Club, Inc. to use the front grounds of the courthouse, on the State Street side, for a free community concert, on September 12, 1999 from 3:00 to 5:00 PM.

Legislator Bower presented a resolution to accept a "COPS" grant award; second by Legislator Billings. Legislator Bennett asked who we are buying the 18 laptop computers for since we didn't have 18 cars, and Mr. Dudek said it is for all cars – villages and Sheriff cars. It was explained that the computers are installed in the cars and are not portable. Legislator Bower said that this is the system that the DA and Sheriff were in some time ago to talk about some time ago concerning the coordinated effort among all police agencies with respect to tracking movement of youth gangs. Legislator Bennett commented that it was good we were helping the village.

The following resolution was then adopted:

RESOLUTION NO. 341-899

AUTHORIZING SHERIFF TO ACCEPT "COPS" GRANT AWARD

Adopted. 6 ayes; 0 nays; 1 absent, Tuohey.

Legislator Callard presented a resolution authorizing Social Services to apply for drug/alcohol services funding; second by Legislator Billings. Legislator Bower said that the resolution says 100% reimbursement, however, when Carri Blake spoke at the last session she said that on older grants, we had to pay back over the years so we never know whether it is really 100% reimbursable. Over the last three sessions, the Legislature has been told that the state is going to cut \$1.4M – on one hand they are taking \$1.4M away from us and now they are giving us \$75,000. He really wishes they would give us the \$75,000 and put that toward the \$1.4M. He cannot see accepting these grants when the state is going to hurt us. Legislator Bower said that he will not support this resolution and neither should anyone else.

Legislator Bennett said that in connection with this money, the better job we do with these people, we get penalized on the maintenance of effort – it's a "lose-lose" situation. We have to send a message to the state that we want them responsible for the program they have already mandated.

Legislator Callard said that he would have to agree to a certain extent. He is very dissatisfied with the state budget and he will call on this Legislature at its next meeting to vote to take suit against the state. Whether we join in a consortium or do it on an individual county basis because we do need to send a message to the state that we are not going to accept responsibility for pass through of inefficiencies of the state and tax the people directly. However, we should also take advantage of the grants that the state makes available and while there is concern that there are costs involved, ultimately it is in the best interest of the county to assist those who are in need. However, collectively, he wants to take suit against the state for budget ramifications.

Legislator Bower asked how many other agencies are trying to help these same people for drug/alcohol abuse. Public Health and Mental Health have programs but until you want to really want to get off of alcohol and drugs, nobody is going to convince you to.

Vice-Chairman Radzinski commented that if it's going to help some people, he will have to support the resolution.

Legislator Bennett then asked for a roll call vote and the following resolutions were then adopted:

RESOLUTION NO. 342-899

STATE OFFICE OF TEMPORARY AND DISABILITY ASSISTANCE FOR

Legislator Beedon presented a resolution to authorize the sealing of various county parking lots; second by Legislator Callard. Legislator Billings asked if the work is done on weekends, so no one has to go in to the parking lots while they are being sealed. Mrs. Heard said Pahura does a lot of these jobs at night. Legislator Bower asked why the County Highway Department is not doing this. Legislator Bennett questioned why it could not be done by a Work Crew. Legislator Billings said the Highway Department has done some of this work. Legislator Bennett asked if there were three quotes. Mr. Dudek said there are two, and this is the lower one. Legislator Billings then called the question, and the following resolutions were adopted:

Mr. Dudek said he sent the Real Property Tax Office budget back to the Director, and asked him to include it.

Legislator Callard presented a resolution opposing unfunded mandates from New York State, and urging the state to provide funds to cover the prospective cost of legislation; second by Legislator Billings. Legislator Callard said this resolution revolves around Kendra's Law, which deals with processes, services and liabilities for severely mentally ill adults. He said he does not object to Kendra's Law, but he does object to the State downstreaming the responsibility to the counties, without giving the counties adequate financing to enforce the law. The following resolutions were then adopted:

OPPOSING "UNFUNDED MANDATE" FROM NEW YORK STATE AND  
URGING THE STATE TO PROVIDE THE FUNDS NECESSARY TO COVER

Legislator Callard introduced a resolution encouraging NYSAC to consider legal action against New York State; second by Legislator Billings. Legislator Callard said he alluded to this resolution at our last meeting. He said we talked about taking action against the state in opposition to the deficit that we are assuming. Legislator Callard said that after consideration, and the fact that other counties have not initiated action, he felt it was more appropriate to go thru NYSAC, and hopefully other counties will join in doing the same. Legislator Callard said we are primarily protesting the budget, as it projects a 7.1% increase in locally funded medicaid expenses, but it holds the state funded medicaid spending growth to less than 1%. The consequences of that are dramatic to this county and every other county across the state. Legislator Bower said this is similar to what members of Intercounty talked about at the last meeting. He said he think they are going to do something about this. Mr. Dudek said Intercounty usually responds by taking action to something initiated by a county. Mr. Dudek said he is going to the Intercounty meeting next week. Legislator Callard asked how many counties are in the Intercounty Association. Mr. Dudek said there are 17 in the western New York area. The following resolution was then adopted:

#### RESOLUTION NO. 357-999

#### ENCOURAGING NYSAC TO CONSIDER LEGAL ACTION AGAINST NEW YORK STATE

WHEREAS, the adopted 1999-2000 New York State budget projects a 7.1 percent increase in locally funded Medicaid expenses, while it holds state funded Medicaid spending growth to less than 1 percent, and

WHEREAS, the 1999 state budget shifts \$34.4 million in unanticipated costs to counties by increasing the local share of Medicaid managed care, while decreasing the state funded share of Medicaid managed care by the same amount, and

WHEREAS, the 1999 budget shifts \$50.7 million in unanticipated costs to counties because the state failed to extend existing cost containment measures in a timely fashion, while it makes up the corresponding loss to the state using available funds, and

WHEREAS, the State of New York made a commitment to counties and local property taxpayers that the state would assume a greater portion of Medicaid costs mandated upon counties, including: costs of long term care services, services for the mentally ill and the mentally disabled, and managed care services,

and

WHEREAS, the 1999-2000 adopted state budget reverses this commitment and shifts a substantial amount of new Medicaid costs onto local real property taxpayers, and

WHEREAS, this cost shift coupled with projected double digit growth in several Medicaid spending categories, including, long term care, pharmaceuticals, and acute care will cost Orleans County property taxpayers more than \$600,000, and

WHEREAS, no other state in the nation relies on local property taxes to fund such a large portion of Medicaid costs, which now exceed \$4.5 billion annually, be it

RESOLVED, that the Orleans County Legislature urges the N.Y.S Association of Counties to undertake all available measures, including legal action against the state to address the tremendous impact the state budget will have on local real property taxpayers, and be it

FURTHER RESOLVED, that copies of this resolution be sent to NYSAC, Intercounty, Governor George E. Pataki, the New York State Legislature and all others deemed necessary and proper.

Moved, Callard; second, Billings  
Adopted. 6 ayes; 0 nays; 1 absent, Tuohey.

Legislator Bower introduced a resolution authorizing employees to attend out of state training for the radio system; second by Legislator Bennett. Legislator Bower said the reason for presenting this resolution now is because quite a bit can be saved on airfare if purchased 28 days in advance. He said it will cost approximately \$1100 to send two people. Legislator Bower said that with the new system in dispatch, this training is important. The following resolution was then adopted:

#### RESOLUTION NO. 358-999

#### AUTHORIZING COUNTY EMPLOYEES TO ATTEND OUT OF STATE TRAINING FOR RADIO SYSTEM

RESOLVED, that this Legislature hereby authorizes the Radio Systems Manager, Richard A. DeYoung and one person from the Sheriff's Dispatch to attend training in Waseca, Minnesota from Transcript / EF Johnson Company, on the 3000/NT Switch Upgrade for the County's 800 Megahertz Radio System; county to pay cost of airfare, rental car, hotel and meals.

RESOLUTION NO. 369-999

REVISING UPGRADE POLICY

RESOLVED, that this Legislature revises the Upgrade Policy to read as follows:

POLICIES AND PROCEDURES  
UPGRADES

BACKGROUND:

The responsibilities of County government and its departments undergo constant

change as directed by law, regulation and Federal, State and local policy. Changes may occur gradually or suddenly and may be reflected in specific job duties. Additionally, pay for similar jobs in comparable positions in the private sector or other municipalities may undergo verifiable increases. When such changes are significant, affected jobs should be reviewed to insure they are paid at the appropriate salary. An upgrade occurs when the decision is made to increase the salary of a title while maintaining the same title. The action is applied to all employees holding the title in question.

#### **POLICY:**

The County will process upgrade requests on an annual basis except in unique circumstances. The decision to submit a request must be made by the Department Head and is based on a change in job responsibilities, change in the qualifications, or position appearing to be underpaid when compared with others involving similar responsibilities. The Department Head will notify their Legislative Committee of the planned request and then follow the defined procedure.

An Upgrade Committee will be appointed by the Chairman of the Legislature and will consist of the Chief Administrative Officer, Personnel Director and 5 Department Heads. Department Heads requesting an upgrade for their position are prohibited from sitting on the Committee.

All requests for upgrading positions will be directed to the Upgrade Committee by March 1st. The Committee will provide technical assistance to Department Heads in formulating their requests when needed. The Committee will analyze the accuracy and completeness of the request based on upgrade criteria, identify the impact on intra/inter departmental issues and County policy, and summarize their findings in a report.

The Committee report will be presented to the Legislature in early summer to conform to the County budget cycle. The Department Head will be notified of the legislative decision so the position may be included in the budget, if approved.

Exceptions may occur in unusual circumstances such as inability to recruit candidates or when changes to job responsibilities are sudden and significant.

Implementation date of an upgrade is January 1st of the next budget year unless otherwise specified.

#### **PROCEDURE:**

Department Head fills out a “New Position Duties” statement and sends to the Personnel Director. The Personnel Director will respond as to whether the position continues to be in the same title. If so, the upgrade process will continue. (If not, the process to be used is “reclassification”).

Department Head fills out the Upgrade Request form. It is forwarded to the Upgrade Committee with an information copy to the Legislative Committee.

The Upgrade Committee meets to review all requests. If a request appears incomplete, a Committee member will contact the Department Head to provide assistance in further developing the request or related information.

The Upgrade Committee schedules a presentation of their report to an Executive Session of the Legislature. A copy of the report is sent to the Department Head.

If approved by the Legislature, the Department Head will be notified of the approval so the position may be included in his/her Budget.

In general, the effective date of the upgrade will be January 1st of the next year.

Moved, Radzinski, second, Bennett.  
Adopted. 7 ayes; 0 nays; 0 absent.

Legislator Callard introduced a resolution memorializing Governor Pataki to

budget state funding for food stamp and medicaid administrative costs; second by Legislator Beedon. Legislator Callard said that with the enactment by the Federal Government of the Agricultural Research, Extension and Education Reform Act of 1998, New York State will lose \$220,000,000 in food stamp administrative costs over four years. A similar action has been applied to medicaid administrative costs and the loss will be \$185,000,000 over four years. New York State, as a consequence, has indicated its plan to require the counties to absorb the entire loss. Existing state law requires that New York State is to share equally in federal funding losses. The end result is Orleans County will lose \$234,288 in food stamp cost, and \$199,696 in medicaid cost; a total of \$433,984. This loss is burdensome to the people of Orleans County. The Orleans County Legislature will petition Governor Pataki to budget a 50% state share of these costs in the executive budget proposal, underscoring the essential state and local partnership that has been the guiding principal in New York State public welfare funding. The following resolution was then adopted:

RESOLUTION NO. 430-1199

MEMORIALIZING GOVERNOR PATAKI TO BUDGET STATE FUNDING  
FOR FOOD STAMP AND MEDICAID ADMINISTRATIVE COSTS

WHEREAS, the federal government has enacted the Agricultural Research, Extension and Education Reform Act of 1998, whereby New York State will lose \$220 million in Food Stamp administrative costs over four years; and

WHEREAS, similar action has been applied to Medicaid administrative costs at a loss of \$185 million over four years; and

WHEREAS, New York State has indicated it plans to require counties to absorb the entire loss; and

WHEREAS, existing state laws require New York State to share equally in federal funding losses; and

WHEREAS, the Orleans County loss will total \$234,288 in Food Stamp costs and \$199,696 in Medicaid costs; and

WHEREAS, such loss is burdensome and unfair to County taxpayers; be it

RESOLVED, that the Orleans County Legislature memorializes Governor Pataki to budget a 50% state share of these costs in the executive budget proposal, underscoring the essential state/local partnership that has been the guiding principle in New York State public welfare funding; and, be it

## LEGISLATURE MEETING

December 1, 1999

The meeting was called to order by the Chairman at 4:30 PM. After the pledge to the flag, the Clerk called the roll. All Legislators were present.

The Clerk presented the following communications: Notice of ceremony for graduates of the Microenterprise Assistance Program's training program, Resolution adopted by Putnam County requesting Congress to reauthorize the Older Americans Act, Orleans County Single Audit for 1998.

Chairman Tuohey asked Mr. Dudek to speak about the electrical work for the fire training tower. Mr. Dudek said the original specifications called for electric service to the fire training tower from a meter that would be installed by Niagara Mohawk; a pole would run back 100 feet, and it would go underground from there. He said there is enough power in the pole barn to supply the fire training tower. If done that way, we would not have another meter to read, or an extra pole or wire hanging overhead. This would cost \$385, since Niagara Mohawk would have the expense of doing part of that work. The architect is recommending that we approve going that way; supplying the power from the pole barn rather than the road. Mr. Dudek said we also need electrical service to the old smoke house. We would like to get that done as part of the construction. To run that service over there and put in a 60 amp service and 100 amp breaker would cost \$2147. Chairman Tuohey asked if there is enough money in the bond. Mr. Dudek said yes, there is enough in the total that was set up for that project. Legislator Bennett said he can see why it should be done, but thinks the price is stiff. Chairman Tuohey asked if all are in favor of going with the \$385 project. All in favor. Mr. Dudek will talk to the Buildings and Grounds Superintendent about running the electric to the old smoke house; see if the cost can be reduced.

Mrs. Heard said she put a report on the desks showing the school taxes that will be paid in April. She said the amount that will be paid next year is \$204,000 less than what was paid this year. She said the relieves of the village taxes have gone down \$29,000. Mrs. Heard said this could partially be due to the STAR exemption.

Legislator Bower said he put copies of a letter that he received from the Public Defender on the legislators' desks. He asked that the legislators read the letter and be prepared to discuss it at the next meeting.

The following resolutions were then presented:

RESOLUTION NO. 432-1299

Meeting adjourned at 4:45.

**LEGISLATURE MEETING**

December 8, 1999

The meeting was called to order by Chairman Tuohey at 4:32 pm. After the pledge to the flag, the Deputy Clerk called the roll. All Legislators were present.

During Open Discussion, Legislator Beedon said he has given a lot of thought to the difficulty we had in the budget process this year trying to keep the tax rate increase down and he would like to begin discussion today about the possibility of discontinuing the practice of sharing sales tax money with the schools. He said there are many reasons for this. Firstly, the expenditure of educating the preschool 3-5 year olds has gone up this year alone \$450,000 and we have no way to recoup that money, so in a sense, we as a county are very much in the process of educating preschool children. We have to reap that cost regardless of the amount of students that enter that program, and this year alone there are over 200 students in the program. Secondly, we need to meet the added expenses, and lastly, the State has cut back on funding for the County, but still mandates the programs, so where do we turn for revenue sources? Legislator Beedon continued by suggesting they discuss changing the formula that goes to the schools and to increase the cap to the towns and villages. Legislator Beedon said that in the past he was always supportive of the school districts getting that money, but has come to the conclusion, after working on the budget for the last 2 years, that we are running out of funding sources of our own. Chairman Tuohey questioned if he was proposing we discontinue all the sales tax distribution to the schools, to which Legislator Beedon replied yes. Legislator Callard stated that we are talking about \$325,000, and on average that might be about \$65,000 per school, although some will be more and some less, but when taking that money away, it will be reflected in their budget, but then the State compensates the schools in the aid, so to that extent we as a county can benefit. Some of those monies that were being given to the schools can benefit those same people through the towns and villages. There should also be some merit in the thought that any public entity needs to have its own financial accountability. Legislator Bennett said he just wanted to be sure that we are raising the cap to be shared with the towns by \$75,000, because they are in the same boat as we are. Legislator Beedon said he understood that as well. Legislator Bower commented that we have been seeing this coming for years. He is on the Public Health Committee with Legislator Beedon and you could see it coming, the trend was there. It is an awful burden to be paid for by the County taxpayers in their county taxes. It is a good source of revenue for us and says he doesn't think it will hurt the schools at all, because the State is going to be there for them, and it will also benefit the towns and villages. Chairman Tuohey said that this year the emphasis of the State has been on the increased funding for the schools and then hit the county with cutbacks. Legislator Radzinski stated that 75% of our money is mandated by the State where the schools work in reverse...70% is in salaries. Chairman Tuohey said the Legislature will proceed in that direction as long as it seems to be the consensus of the Legislature.

The County Treasurer said she had passed her report around and they could see where they were at the moment. It's pretty much the same picture as last month.

The following resolutions were then presented:

## **LEGISLATURE MEETING**

December 29, 1999

The meeting was called to order by the Chairman at 4:40 PM. After the pledge to the flag, the Clerk called the roll. All Legislators were present, with the exception of Legislator Beedon.

The Clerk presented the following communications: Schedule of 2000 Planning Board meetings, Letter to Stanley Dudek from Daniel Culver, President of the Orleans County Deputy Sheriff's Association, indicating that the Association voted on December 20<sup>th</sup> to ratify the proposed 2000 through 2002 contract, Notice of Youth Board meeting to be held on January 5, Cornell Cooperative Extension Annual Report for 1999.

During Open Discussion, Judy Staples, Superintendent of Medina Schools, expressed concern regarding the loss of sales tax revenue to the schools from the county. She said it is a revenue source that the district has come to depend on. She said if there is any need for clarification from the school district regarding our financial considerations, they are willing to sit down with you to discuss ways to work together.

Legislator Callard expressed concern regarding the proposed health care reform act, which has been passed by the Assembly and Senate. He asked Mr. Dudek to give a brief overview of the ramification on county finances. Mr. Dudek said there have been a number of reports that have come out. One newspaper article said that in the next four years this will cost Orleans County an additional \$400,000. This act will make a number of things that are now bypassing medicaid now fall under medicaid, increasing cost of things we have to pay 25% of. He said the legislation includes some cost containment measures, which are good, but they are currently in place. If they were not in place, our costs would go up. They are referring to those cost containments as savings to the counties. Those things are already built into our budgets. It seems unfair to call it a savings when it is what the current practice is. Legislator Bower asked if the tobacco settlement is going to be reduced now to offset some of the healthcare costs. Mr. Dudek said it will not affect what we get, but the argument is that since we got all that extra money we should be able to pay costs. Legislator Callard said his second concern is that we were advised in advance of what the settlement would be, and we budgeted 100% of that to keep taxes down. We are now being told that it will be 85%. Legislator Billings asked if the county sales impact what the

county gets. Mr. Dudek said one good piece is that the sales that determine how much we get are based on a national average; not just New York State. The fact that New York State is raising the tax should probably decrease national sales, so our sales will not be hurt quite as much as if it was just based on the state. Chairman Tuohey said all of our local Assembly representatives did vote against it, which was encouraging. She said when she spoke with Assemblyman Nesbitt this morning, he said the financial ramification for the counties is bad. She said she called Senator Maziarz Monday morning and he thought 56-0 was the vote. Chairman Tuohey said, it's like no one is listening to us. She said the fact that they had a union representative of the health care union negotiating with Bruno and Silver is discouraging because there is no one in that group representing us, who is going to pick up 25% of the cost.

Legislator Billings presented Local Law No. 1 of 2000 regarding increasing salaries of various employees.

Legislator Callard moved to waive the rules to add a resolution to the agenda; second by Legislator Bennett. All in favor.

The following resolutions were then presented:

Legislator Billings introduced a resolution authorizing salary increases for certain part-time employees; second by Legislator Bennett. Chairman Tuohey pointed out that the Legislators are receiving a 2% increase, rather than the 3% that will be given to other employees. This is due to the fact that when the public hearing on the budget was advertised, it was anticipated that salaries would be increased by 2%; after that time a 3% increase was decided on, and, by law, the legislators cannot be given a salary higher than that which was published in the public hearing notice. Legislator Callard presented a resolution amending the disposition of Orleans County Sales and Use Tax Revenues; second by Legislator Bower. Legislator Callard said that Legislator Beedon asked him to present this resolution, in Legislator Beedon's absence. He said that Legislator Beedon asked him to share his comments, as he is out of state today. Legislator Callard then read a statement written by Legislator Beedon, which said that there comes a time when we as a legislative body must take a new look at funding of programs in the county. He

said that at the present time we are using a portion of the county sales tax revenue to help fund education in the five area school districts. Presently we are one of six counties in the state to do this. This has been a concept that I have long supported and encouraged. However, in the past two years the budgeting process at the county level has been a most difficult process. The situation that has caused me to change my position was this year's budget process at the state level. After Orleans County's budget for the 1999 year was in place by January 1, 1999, the State of New York, after a lengthy delay, finally passed their budget in August of this year. This was after our budget was already in place for eight months. Orleans County was shocked to find out that our revenue from the state would be thousands of dollars less. Thus, we were faced with less revenue for mandated programs for the current budget year, plus establishing a budget we could live with for the coming year 2000. Another issue that we are faced with is the overrun in the preschool program for our 3-5 year old handicapped children in our present 1999 budget. We are estimating that by the year's end that program, which we are mandated to run, will be over budget by \$450,000. Like the five area schools, we are in the business of funding education at the county level. Because of these reasons, I am supporting the resolution being introduced today.

Chairman Tuohey said the resolution includes a \$70,000 increase in the cap for the towns and villages. Legislator Billings said he will oppose the resolution. He said he would like to correct one comment that has been made about STAR monies. He said he believes the biggest school districts will get about 14% back. Mr. Dudek said the amount of that STAR reimbursement on that lost revenue would be just under \$50,000. The \$50,000 increased taxes that the schools would have to raise would be actually paid for by the STAR program. Chairman Tuohey said it was interesting to note in a news article that in last years state budget the school system allocation was increased by \$12 million, but on the other hand the counties throughout the state have had their costs increased without any additional funding. Legislator Callard said he thinks Orleans County should be proud that we have done what we have. Only 7 counties have been sharing sales tax with the schools, and now Livingston County has voted to stop. Wayne County is also looking at it now. The following resolutions were then adopted:

#### RESOLUTION NO. 529-1299

#### AMENDING RESOLUTION NO. 164 OF THE YEAR 1967 AS AMENDED IN RELATION TO THE DISPOSITION OF ORLEANS COUNTY SALES AND USE TAX REVENUES

WHEREAS, Section 14(a) of Resolution No. 164 of the year 1967 provided for the disposition of Sales Tax Revenues, One Hundred percent (100%) for County purposes; and

WHEREAS, Sales Tax Revenues were distributed 66.67% to the County, 11.1111% to the School Districts and the balance to the Towns and Villages in the

County pursuant to Section 1262(a) of the Tax Law of the State of New York in accordance with Resolution No. 160 of the year 1973; and

WHEREAS, this Legislature adopted Resolution No. 547-1290 on December 12, 1990, amending Resolution No. 160 of the year 1973 and Resolution No. 164 of the year 1967 by limiting the dollar amount of the net collections from sales tax to be paid to the school districts in the year 1991 and all years thereafter to the amount paid in the year 1990 with the excess to be paid to the County for any County purpose; and

WHEREAS, this Legislature adopted Resolution No. 467-1091 on October 23, 1991 amending Resolution No. 547-1290, Resolution No. 160 of the year 1973 and Section 14(a) of resolution 164 of the year 1967 by limiting the dollar amount of the sales tax to be paid to the School Districts to one-half (½) of the dollar amount paid to said School districts in the calendar year 1990 and limiting the dollar amount of the sales tax to be paid to the Towns and Villages of the County, to the dollar amount paid to said Towns and Villages in the calendar year 1991 with the excess to be paid to the County for any County purpose; and

WHEREAS, this Legislature now wishes to eliminate the payment of any net collections from sales tax to the several school districts in the County for the calendar year 2001 and all years thereafter and to increase the cap on the amount of the sales tax to be paid to the Towns and Villages for the calendar year 2001 and all years thereafter, be it

RESOLVED, that Resolution No. 164 of the Orleans County Board of Supervisors adopted November 30, 1967, as amended by Resolution No. 160 of said Board, adopted September 6, 1973, and as further amended by the Orleans County Legislature by Resolution No. 547-1290, adopted December 12, 1990, and Resolution No. 467-1091 of said Legislature, adopted October 23, 1991, be amended as follows:

Subdivision (a) of section fourteen of Resolution No. 164 as enacted in 1967, as amended, is hereby amended with respect to the calendar year 2001 and all years thereafter to read as follows:

(a) (1) 77.7811 percent of such monies is hereby set aside for County purposes and shall be available for any County purposes.

(2) The remainder of such monies shall be allocated quarterly to the Towns of the County of Orleans being the entire area of said County in proportion to their respective populations including population within incorporated Villages determined in accordance with the latest decennial census or special census taken pursuant to law completed and published prior to the end of the quarter for which the allocation is made which special census must include the entire area of the County, provided, however, that the monies hereby allocated to the Towns and Villages of

the County of Orleans shall not exceed in the calendar year 2001 and all years thereafter, the dollar amount of \$1,366,671 and any portion of such monies in excess of the said dollar amount shall be and hereby are set aside for County purposes and shall be available for any County purpose. Such amounts allocated to the entire County shall be applied first to reduce County Taxes levied upon real property in the several Towns in such area. Any balance remaining shall then be applied first to reduce general Town Taxes levied upon real property in such area. Any Town by local law, ordinance or resolution, however, may provide that the amounts which would be so applied to reduce the County Taxes and general Town Taxes levied upon real property in such town shall be paid directly to such town to be used for any town purpose. If any Village, other than a Village within a County having a population of one million or more and containing not more than three Towns by local law, ordinance or resolution shall so provide, the amounts which would be so applied to reduce the County and general town taxes levied upon real property in such Village shall be paid directly to such Village in lieu of such tax reduction. Where any Village has elected to be paid directly as provided in the subdivision, the amount to be paid to such Village shall be determined by the ratio that the full valuation of real property in the Village or portion thereof within the town in which such Village is located bears to the full valuation of real property in the entire town. If a Village, wholly or partially within a town has so elected to be paid directly, but the Town in which such Village is located has not elected, the amount allocated to the Town in which such Village is wholly or partially situated shall be applied to reduce County taxes and general town taxes in the area of the Town outside such Village. If the amount allocated to a town exceeds the amount of the County taxes and general town taxes levied upon real property in the Town, the excess shall be apportioned between the town and each Village, if any, wholly or partially situated therein, in the ratios that the full valuation of real property in each such Village or portion thereof within the Town, and the full valuation of real property in the portion of the Town outside such Village or Villages, respectively, bear to the aggregate full valuation of the entire town. The share of such Village shall be paid directly to such Village. The share of the town shall be applied, first to reduce taxes levied for part-town activities, and any balance remaining shall be paid directly to the town, to be used only for part-town activities. The amount to be applied in reduction of County taxes and general town taxes in each town may be determined on the basis of the ration which the full valuation of real property in each town bears to the aggregate full valuation of real property in all of the towns in such County.

In the alternative, the amount to be applied in reduction of County taxes and general town taxes in each town may be determined on the basis of the respective populations of the several towns in such County, determined in accordance with the latest federal census or special population census

taken pursuant to section twenty of the General Municipal Law, completed and published prior to the end of the quarter for which allocation is made, which special census must include the entire area of the County.

Any local law, ordinance or resolution enacted by a Town or Village pursuant to this subdivision shall only be effective for the calendar year or years subsequent to its enactment and, further, shall only be effective if it is mailed by registered or certified mail to the chief fiscal officer of the County in which the Town or Village is located before the first day of September preceding the calendar year for which the election is made of such local law, ordinance or resolution. Such local law, ordinance or resolution shall remain in effect for subsequent, calendar years until rescinded by local law, ordinance or resolution, but the enactment shall rescind the election only if it is mailed, in the same manner already provided for in the subdivision, to the chief fiscal officer of the County in which the Town or Village is located before the first day of September preceding the calendar year for which the rescission is to apply; and be it

FURTHER RESOLVED, that written notice of the adoption of this Resolution shall be given by the Clerk of the Legislature to the school authorities of the school districts and the authorities of the Towns and Villages in the County pursuant to Section 1262(e) Tax Law; and be it

FURTHER RESOLVED, that this resolution shall take effect immediately.

Moved, Callard; second, Bower.

#### RESOLUTION NO. 530-1299

#### AUTHORIZING THE OFFICE FOR THE AGING TO APPLY FOR A TOBACCO PREVENTION GRANT

WHEREAS, a competitive grant has been made available to address the smoking habits of targeted groups, and

WHEREAS, the Office for the Aging is always interested in improving the quality of life of senior citizens, be it

RESOLVED, that this Legislature authorizes the Office for the Aging to apply for this grant in the amount of \$545.00.

Moved, Callard; second, Billings.

Adopted. 5 ayes; 1 nay, Tuohey; 1 absent, Beedon.

Chairman Tuohey said she would like to pay tribute to our elder statesman, Lyn Billings. This is his last meeting. He has been a dedicated, knowledgeable and very contributive member of this Legislature. He has been on the Legislature for 20 years. He knows more about this Legislature than anyone else. Chairman Tuohey said she will miss Legislator Billings' parliamentary expertise and sense of humor. She said, I wish you good health, long life to spend with your family, doing things you did not have time to do. Legislator Billings said he appreciates the comments. He said it has been a pleasure to work with the people in the County. Legislator Bennett said that 20 years ago when he first met Lyn, they disagreed on the Legislature versus the Board of Supervisors. He said that over the years, Lyn has become one of his best friends on the Board, and he will certainly miss him.

Chairman Tuohey requested a moment of prayer in honor of Mayor Brant, who recently passed away.

Legislator Billings motioned to adjourn; second by Legislator Bower. All in favor.  
Meeting adjourned at 5:35 PM.

## Budget Message 2000

---

**It should have been simple!** Year-end results for 1998 left the County with a solid gain in unappropriated fund balance. Meanwhile sales tax revenue was being received at a rate that was \$250,000 over budget. We also had the promise of tobacco settlement monies (\$238,905 in 1999) and another \$638,250 in the year 2000. Preparing this 2000 budget, while maintaining county priorities, should have been simple. This was not to be.

The reason is because of the escalating cost of State Mandated services, combined with the transfer of cost that resulted from the adoption of the State Budget. These State mandated expenses hit the County especially hard in the Social Services and Handicapped Education programs.

While caseloads for nearly all categories of Social Services remain at a 20-year low, the cost of Medicaid has resumed its unbridled growth. The 1998 expenditure for Medicaid was \$3,482,033. **The 1999 projected cost will be \$4,292,825, an increase of \$810,792 or 23%.** And next year's cost will be even higher. New York State is one of only a few states that make counties pay part of the cost of Medicaid. In most states, the state share is paid entirely by the state.

The preschool program appears to be affected by a large increase in the number of students attending. The 1999 cost of this program is \$236,680 more than it was a year ago.

Further impacting the budget process were the changes made with the adoption of the 1999 State budget, including the following:

1. Eliminated reimbursement for housing D and E felons (\$108,000).
2. "Seizure" of motor vehicle registration fees (\$22,000)
3. "Assessment" for maintenance of effort decreases (\$82,500)
4. Elimination of reimbursement for food stamp administrative expenses (\$67,000)
5. The probable elimination of Medicaid administrative expense (\$57,000)
6. The State's delay in renewing Medicaid cost containment (\$45,000)

The most difficult part of all of these changes is that they came after the 1999 budget was adopted, thus having a devastating effect on fund balance.

The Legislature worked long and hard to reduce departmental requests for the 2000 budget, and the actual increase in county cost is only 1.77%. To accomplish this, ***we have allocated the entire \$877,155 of anticipated tobacco settlement money.*** Additionally, many of capital plan projects approved earlier this year have been eliminated or significantly reduced, including highway and bridge projects, along with various items of equipment.

In spite of the fact that the fund balance had been weakened by the growth in the cost of State programs and the shifting of the state's expenses to the county during the current fiscal year, this budget allocates \$600,000 of unappropriated fund balance to the budget. This is \$300,000 less than was used in the 1999 budget. Based on our projections, the ***remaining unappropriated fund balance will be at the minimum required to avoid borrowing*** for cash flow purposes.

The 2000 budget projects a tax levy of \$8,402,273, an increase of \$418,063 or 5.247%. Meanwhile, the countywide tax rate will be \$7.24, an increase of 4.96%. ***Even with this increase, the tax rate will be significantly lower than it was in the period from 1986 through 1997.***

The cost of Solid Waste collection services in the year 2000 will increase by approximately 2 %.

A major concern is how precariously this budget is balanced. Even at this late date, there are many uncertainties.

- ***Will we actually receive all of the tobacco money we have budgeted?***
- ***Will the State eliminate Medicaid cost containment next year as has been rumored?***
- ***Will the Federal budget, which has not yet been adopted, include the currently proposed reductions?***

And while this budget makes no provision for the expense of implementing Kendra's Law, the Mental Health Department preliminary estimates are that costs could be in the hundreds of thousands of dollars. And will the 2% salary increase included in this budget result in a negotiated settlement with our bargaining units, even though every surrounding county with a contract in place will be increasing their salaries by 3% or more?

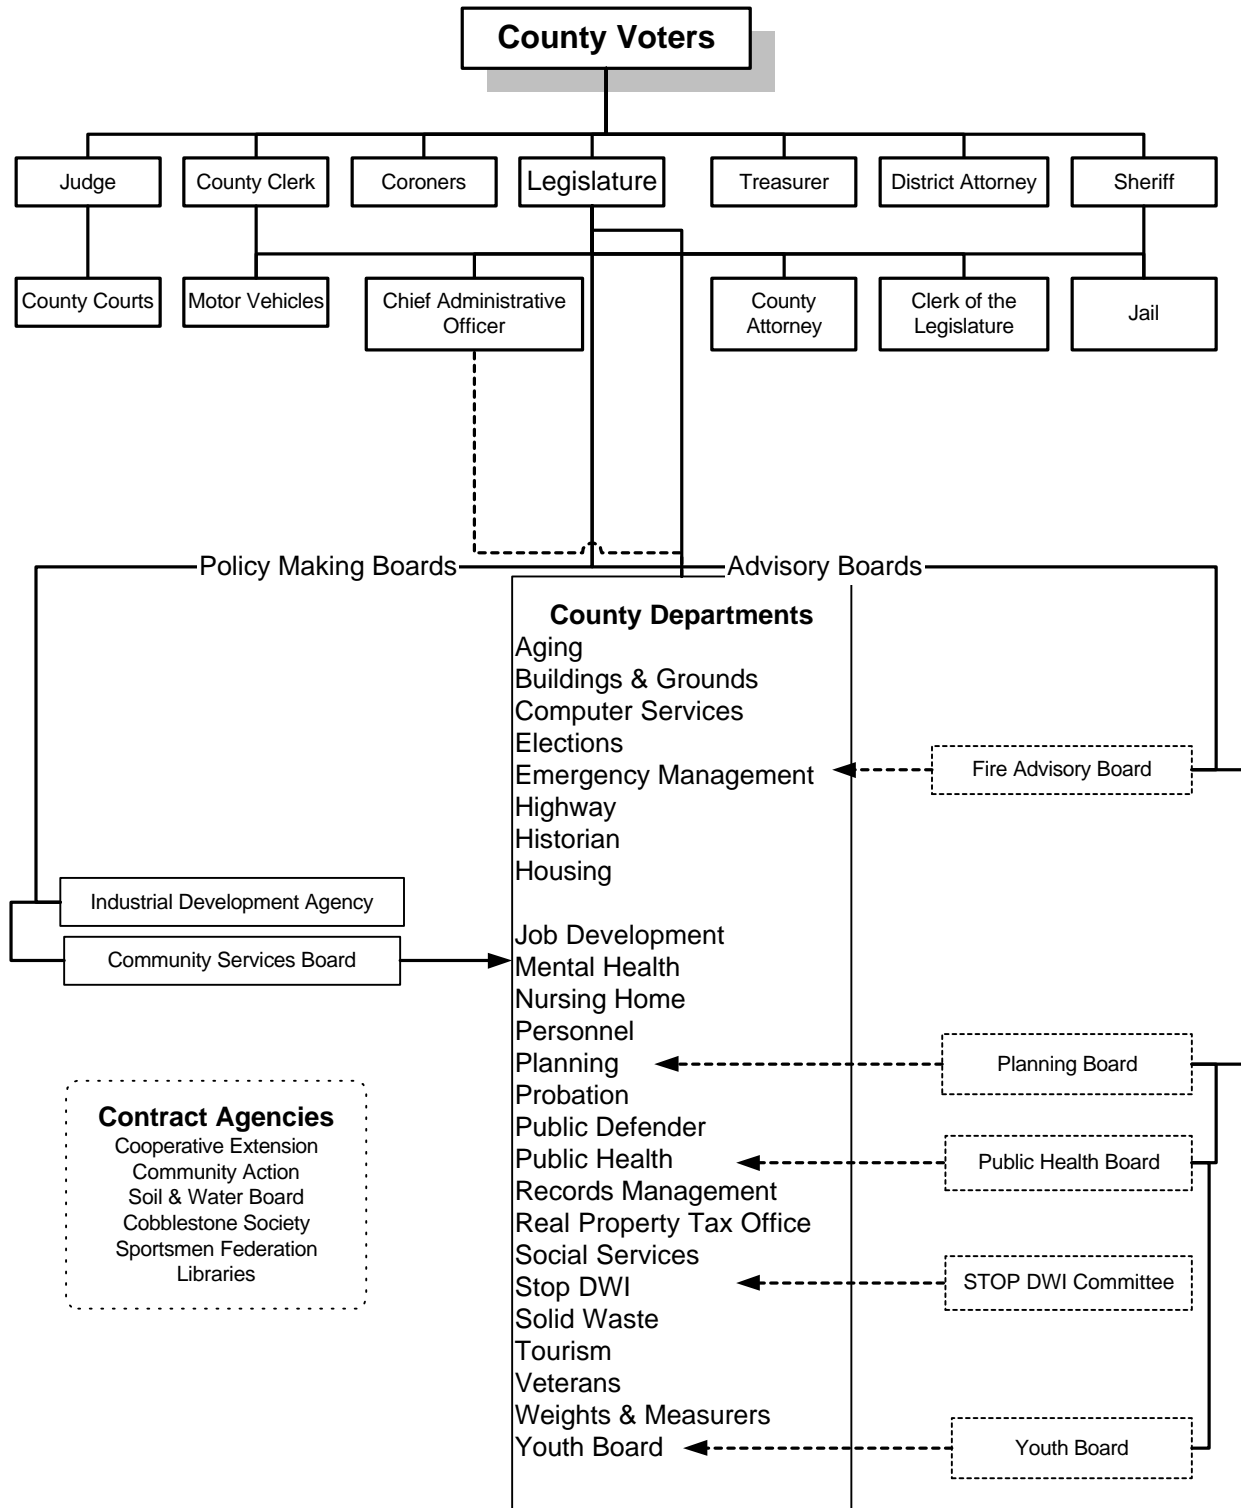

A "normal" budget process involves discussion about goals and objectives.... about planning and priorities. Not this year. The process has been devastated by uncontrolled growth in state mandated programs and ***the state's inclination to obscure the cost of "the good things it does" by forcing the county to raise taxes to pay the bill.*** It should have been simple!

Respectfully Submitted
