

# Diving Board Rules

**Timing:** Only one person is allowed on the board at a time. Person in line must wait until the previous diver has safely reached the pool ladder or side before climbing onto the diving board. Divers should quickly exit the diving pool to the nearest ladder. Divers must not exceed 250 lbs.

**Safety:** Safe diving must always be practiced. No running, flips, cartwheels or handstands on the board. Inward dives, backward dives and multiple bounces are also prohibited. Divers must dive straight out from the board; not to the side. Goggles, sunglasses, fins, rivets, zippers, buckles, life jackets, hats, belts, shoes, jewelry (such as necklaces, bracelets, watches, bulky rings, dangling earrings, etc.) are not to be worn.

**Qualifications:** Divers may be asked to demonstrate swimming skills through water testing before using the diving board or entering the deep-water areas. No floatation devices or assistance from anyone in the water will be permitted.

# Slide Rules

**Height Restrictions:** Minimum rider height is 48". All patrons will be measured using the slide. Riders must not exceed 300 lbs. These are mandated by the slide manufacture.

**Limits:** Only one patron at a time will be allowed to go down the slide. The lifeguard will signal when the next rider may begin sliding. Only those patrons who can swim unassisted may use the slide. Parents are not permitted to catch children.

**Position:** Riders must go down the slide in a sitting position or laying flat on back, with feet first. Riders are not permitted to slide on stomach. Riders are prohibited from stopping themselves inside the slide for any reason.

**Safety:** Riders must exit the splash pool immediately. Goggles, sunglasses, fins, rivets, zippers, buckles, life jackets, hats, belts, shoes, jewelry (such as necklaces, bracelets, watches, bulky rings, dangling earrings, etc.), or floatation devices may not be worn on the slide; they can scratch the surface and cause damage.

# Lazy River Rules

**Entry to River:** Access the lazy river from the leisure pool only. Floaters must obtain inner tube and remain on the inner tube for the duration of their time in the area. Feet are to remain up off the floor. No climbing, walking, or sitting on the wall of the lazy river. No jumping into the lazy river from the side of the pool.

**Diving:** No diving allowed anywhere in the lazy river.

**Direction:** Floaters must follow the direction of the current at all times. Floaters are not to block the progress of the others. No holding onto the wall to stop inner tube.

**Children:** An adult must accompany children under 48" tall, who are not proficient at swimming.

# Zero-Depth Play Pool Rules

**Closures:** During busy days, this area of the pool may close every two hours for 5 minutes for restroom breaks (2pm & 4pm). If fecal accidents occur in the pool, the pool may have to close for the day.

Parents: PLEASE be sure to take advantage of this time.

**Furniture:** No deck furniture may be brought into the zero-depth entry area of the pool.

**Play Structures:** The castle and features are designed for children, 8 years old and younger. Older children and adults will be asked to play in other areas of the pool. Sliders must go down feet first in a sitting position. No suits with metal, zippers, rivets and/or decoration are allowed; they can scratch the surface and cause damage.

Bouncy seats are for children 12 months old and younger ONLY!

# Climbing Wall Rules:

**Restrictions:** Climbing wall is for experienced swimmers ONLY! Climbers must not exceed 250 lbs.

**Timing:** Only one climber on the wall at a time. Climbers must enter the water feet first. Climbers should exit the water immediately.

**Safety:** No one is allowed in the water area under the wall at any time while someone is climbing.

**Qualifications:** Climbers may be asked to demonstrate swimming skills through water testing before using the climbing wall or entering the deep-water areas. No floatation devices or assistance from anyone in the water will be permitted.
