Regarding police space, the investigations department has been relocated and renovated, and the roll call, break area, women's locker room, fitness center, men's locker room and evidence tech area have all been completely renovated. On the life safety side, we have updated the fire alarm system and installed the infrastructure and two floors of a fire suppression system at City Hall.*
- Economic Development: Recruitment and Retention
  - *Enhanced efforts to attract and retain businesses in Park Ridge. Dedicated significant focus on several underperforming high-visibility sites: popularly known as JD Kadds and Mr. K's Garden & Material. Both sites currently under contract for development. Hotel development approved by P&Z with incentive agreement approved by the City Council.*
- Staffing/Wages/Training
  - *Continued to address employee morale and retention issues through implementation of the compensation study findings, expanded wellness program, tuition reimbursement opportunities, work environment upgrades, and enhanced recruitment techniques.*

## **Fiscal Year 2021 Goals**

- Reorganize Administrative Department (specifically Admin Services Manager, Assistant to City Manager, and Human Resources Manager) for efficiency and organization needs
- Continue to pursue building renovation and life safety projects
- Expand economic development efforts which translate into additional revenue streams
- Maintain focus on elevating the work experience for staff to improve morale, reduce unwanted turnover, and raise the bar on performance and work output

### Description

Tax increment finance (TIF) funding is an incentive method used to better the economic condition of a specified area. TIF funding freezes the assessed valuation of a given area for a period of time. The development that subsequently occurs in the area results in an increase in the valuation of the district. The incremental property tax increase is placed into a segregated fund of the City, which in turn utilizes those funds to provide incentives for the initial and additional development.

The City entered into the Dempster TIF Redevelopment Agreement September 20, 1999. Final incentive payments are due in 2022.

### Description

Tax increment finance (TIF) funding is an incentive method used to better the economic condition of a specified area. TIF funding freezes the assessed valuation of a given area for a period of time. The development that subsequently occurs in the area results in an increase in the valuation of the district. The incremental property tax increase is placed into a segregated fund of the City, which in turn utilizes those funds to provide incentives for the initial and additional development.

In 2003 the City entered into Intergovernmental Agreements (IGAs) with the Park Ridge Park District, Maine Township High School District 207 and Park Ridge-Niles Consolidated Community School District 64 for the Uptown TIF. Final IGA payments are due December 2028. Final debt payments for the Uptown TIF development are due in December 2024.

### Summary Highlights

Increment revenue has recovered in recent years resulting in an increase of property tax revenue in Fiscal Year 2019 and projected through Fiscal Years 2020 and 2021.

Debt payments increased from Fiscal Year 2020 to Fiscal Year 2021 in accordance with the debt schedules. Additionally, due to the increased revenue the City was able to fully abate property taxes for debt payments in December 2019. As a result funds for the full debt payments are transferred out of the Uptown TIF Fund into the Debt funds to cover the payments.

The City is a member of The Solid Waste Agency of Northern Cook County (SWANCC). SWANCC was formed in 1988 to provide comprehensive solid waste management programs to twenty-three member communities. Since 1994, the Agency has owned a solid waste transfer station in the Village of Glenview to provide solid waste transfer and disposal services to its members.

### Summary Highlights

Property tax revenues are increasing slightly in Fiscal Year 2021 to decrease the operating deficit as the excess fund balance is drawn down.

## **Proprietary Funds**

### **Description**

Proprietary Funds account for business type activities of governmental units. There are two types of Proprietary Funds: Enterprise Funds and Internal Service Funds. The key distinction between these two funds is that Enterprise Funds charge fees for goods or services to external users and internal service funds charge fees for goods or services to governmental departments, agency component units or other governmental units. Proprietary Funds use the full accrual basis of accounting and have equity accounts. Depreciation expense is recorded in Enterprise Funds, but the City excludes this non-cash expense from its budget.

### **Description**

The Water Fund is an Enterprise Fund that accounts for the revenue and expenses associated with the transmission, treatment, storage and sale of water to the residential, commercial and industrial customers within the City. The City is a wholesale purchaser of water from the City of Chicago. The water rate has two components; the variable water rate accounts for the purchase of water from the City of Chicago and the transmission of the water to residents, the fixed rate covers operations and maintenance costs.

The Water Fund has debt associated with a 2004 bond issuance in the amount of \$11,860,000 for the construction of a new water reservoir and pump station. Outstanding debt on this bond issue was refunded in 2014 for present value savings of \$878,000. The last payment on the 2014 debt issuance is due December 2025.

The Finance Department is responsible for utility billing. Bills are generated bi-monthly for users.

The Public Works Department is responsible for design and permitting of the public water supply as well as the maintenance, distribution and treatment of water supplied to residents.

## **Sewer Fund**

### **Description**

The Sewer Fund is an Enterprise Fund that was established by the City in 2010 to account for revenue and expenses associated with the maintenance of the City's sanitary sewer mains and connections to the Metropolitan Water Reclamation District of Greater Chicago (MWRDGC) interceptors, including the inspection, cleaning and maintenance of catch basins, drains, lift stations and manholes. Prior to the Sewer Fund being established, sewer costs were accounting for in the General Fund.

The Sewer Fund has debt associated with a 2012 bond issuance in the amount of \$5,415,000 for capital improvements to the City's sewer system as part of a larger capital improvement plan. The last payment on this debt issuance is due December 2028.

A stormwater utility study was conducted in fiscal year 2018 to update the 2012 plan. Results from this study continue to be discussed and will be implemented as decisions are made and projects are identified.

### Description

The Employee Benefits Fund is an Internal Service Fund created in 2015 to account for the charges to each fund for providing health and other related benefits to employees and retirees.

The City offers medical insurance, dental insurance, optical insurance, term life insurance, voluntary life insurance, an employee assistance program and a wellness program. Employees (and their qualified spouses and dependents) currently pay 13% of their monthly medical and dental insurance premiums and 100% of vision and optional life insurance premiums. All participating retirees pay 100% of their respective premiums.

Since 2015 the City has been a member of the Intergovernmental Personnel Benefit Cooperative (IPBC), a municipal pool consisting of over 130 local governments. Through IPBC the City retains the third-party administrative services of Blue Cross/Blue Shield of Illinois (BBCBSIL) to provide PPO and HMO programs. In the IPBC, the City maintains its independence in terms of plan design and benefit levels, but pools claims experience for claims from \$30,000 to \$125,000.

The plan year for all lines of coverage is 7/1 – 6/30.

## **Capital Improvement Plan**

### **Description**

The City of Park Ridge's Capital Improvement Plan (CIP) is a multi-year projection of expenditures for a variety of capital projects. The plan provides comprehensive planning and analysis of the long range capital needs of the City. This includes project review, fiscal analysis and prioritization of facility, infrastructure, and major equipment needs of the City. The capital plan is a stand-alone document which is used as a guide when drafting the City's Annual Budget.

As outlined in the Handbook for Elected Officials, a capital item is defined as the purchase or construction of any of the following, long-lived, high-cost, tangible assets. "Long-lived" implies a useful life of ten years or more. "High-cost" means that the project amounts to \$25,000 or more. "Tangible" assets exclude contractual services except those that are necessary for putting a tangible asset into service or that extends the life of a tangible asset. Those items that do not meet the City's definition of capital expenditures are included in the operating budget.

The scope of the capital project determines the funding method that the City uses as well the public's willingness to provide the financial support required. As referenced in Park Ridge Municipal Code, 2-9-5, The City maintains two capital repair or replacement funds: the Technology Replacement Fund and the Motor Equipment Replacement Fund.

## Project Detail

Date: 09/23/2019

Department: Fire

Project Name/Location: Replacement of AED's

Strategic Priority Area: Quality Customer Service & Delivery of City Services

Description of Project: The City owns twenty-two (22) Automatic External Defibrillators (AED's) that are placed on police cars, non-ALS fire vehicles and at locations throughout the City. These need to be replaced periodically due to age and effectiveness. AED's are meant to be used by minimally trained personnel and are much different than the cardiac monitors used by our paramedics on our ALS vehicles.

Project Benefits: These AED's have been used numerous times by our police to save lives and are valuable pieces of life-saving equipment that are meant to be used prior to the arrival of PRFD paramedics.

## Project Detail

Date: 09/13/2019

Department: Finance/PW

Project Name/Location: Advanced Metering Infrastructure (AMI)

Strategic Priority Area: Quality Customer Services & Delivery of City Services

Description of Project: Advanced Metering Infrastructure (AMI) is an integrated system of smart meters, communication networks, and data management system that enables two-way communication between the utility system and the metering endpoints. AMI are the systems beyond simple meters that allow utility professionals to not only collect and analyze water usage, but also communication back to the metering devices.

Project Benefits: Advanced metering will improve customer service by eliminating the need for residents to read their own water meter, will improve the accuracy and timeliness of water meter readings, streamline billing data upload and processing, and over time reduce water loss resulting in increased water sale revenue.
