8. **DISCUSSION: 19-ZB-67V, 412 Netherwood Avenue, Block 6907, Lot 9.**  
Applicant is asking for relief from a prior condition approved in 2019.

**Attorney: John DeLuca, Jr.**

Mr. Kinneally states that this application was approved awhile ago under United Realty, LLC. John DeLuca, Attorney, is here for the discussion for 412 Netherwood. Mr. DeLuca states that the applicant was here for a variance previously and approved for the porch and a roof. Under section 21-501 under the Zoning ordinance, they require a 35 foot front yard setback; they asked the Board for relief from that setback for that on Feb. 12, 2020. At the time of the meeting, no issues or concerns were brought up by the public. The Board unanimously decided to grant variance relief to construct a covered porch with a 25 and a quarter setback.

After the house was constructed, the as-built survey revealed that the covered porch ultimately was 24.75 feet due to a human error during construction; that is deficient from the Boards approval by less than one foot, 9 inches to be exact. Mr. DeLuca states that the applicant is seeking relief for an additional foot. He would like to note that the stairs were 21.5 feet and they are setback 21 feet. Vice-Chairman Zimmerman asks the Board if they have any questions, they do not. Public portion open/closed.

**MOTION** was made by Vice-Chairman Zimmerman to approve the application; seconded by Mr. Patel. **YES ON THE MOTION:** Warren Zimmerman, Roy O'Reggio, Kalpesh Patel, Jeff Tillery, William Mitterando and Waqar Ali. **NO ON THE MOTION:** None

Proposed – no garage

**Action to be taken prior to November 13, 2021**  
**Attorney: Richard Kaplan**

Richard Kaplan, Attorney, is here to represent the applicant. Mr. Kaplan states that this is for 210 Elizabeth Avenue application for bulk variances, block 6817, lot 30, in the R-10 Zone. This is an application for new construction, a new single family dwelling. There was a prior application that was approved for bulk variances, there were some issues with construction and as a result of that, they have come in with a brand new application; the variances have changed slightly, it is an undersized lot. Out of the four variances, three of them are because of the size lot and shape. The one additional variance is the garage, there will be no garage. Mr. Kaplan has two witnesses, one being Fitzgerald Cabalfin, principle of Hyvest Inc., and the other is P. Dantas, the architect.

Mr. Cabalfin, the applicant, is sworn in to testify. He states that he is the owner of Hyvest Inc. and owns 210 Elizabeth Avenue. He would like to get variance approval since they have decided to make interior changes to the home and once decided, they needed to reapply for the variances. They will be moving the house back to conform with the front yard setback where the last application they were encroaching. Mr. Cabalfin states that the house that was there previously was small ranch about 6-700 square feet. In keeping with the neighborhood, the house that they would like to build is still a ranch, it's about 1,500 square feet with a full size walk-out basement.

Mr. Cabalfin states that the old house was 7-8 feet from the property line, it will now be 35 feet and conforming. The old home did not have a garage and this one will not either. A lot of the homes on the street are ranches, there are a few two-story homes, but mostly ranches. The new house would blend right in with the surrounding homes.

Mr. Dantas is sworn in to testify Architect, Union NJ. Mr. Dantas was accepted at the last hearing and will be accepted this evening. Mr. Dantas shares his screen with the Board. He states that the proposed project is located at 210 Elizabeth Avenue. The project consists of demolishing the existing single family home and constructing a new home. It will be a single level 1,525 square feet of building footprint. On sheet A-1, it shows the site conditions. Required lot are is 10,000, their existing is 8,334 square feet. The minimum lot width is 100 feet and existing is 50 feet and is also existing non-conforming. The lot depth required is 100 feet, they have 166.71 feet. Front yard setback requirement, the existing front yard proposed was 7.96 feet and the next front yard for the new home will be conforming at 38 feet.

Mr. Dantas states that the rear yard requirement is 25 feet and they are proposing 67.72 feet. The side yard setbacks are 10 feet and they are proposing 10 feet and 10.3 feet. The building height requirement is 35 feet and they are proposing a one story building at 18.9 feet. The building coverage requirement is 20%, they are proposing 19.3 %, 1,6515 square feet which includes the house and the covered porch. The one car garage is required, but there is currently none on the property and they are not proposing a garage; there will be two parking spaces in the driveway. The existing driveway will not be increased, it will be repaired as needed. There will be a walkway from the house to the ROW.

**MINUTES OF THE REGULAR ZONING BOARD OF ADJUSTMENT MEETING OF PISCATAWAY TOWNSHIP HELD ON THURSDAY, SEPTMEBER 9, 2021.**

Mr. Dantas shows sheet A-3 and describes the layout of the home; the porch, kitchen, etc. The home will consist of 3 bedrooms with a master bedroom at the rear of the home. There will be two bathrooms, one master and one to be shared by the other two bedrooms. All bedrooms will be to the right side of the home. There will be a laundry room in the basement near the stairs. Sheet A-4 shows the elevations and material selections. By excluding the garage, they are under the lot coverage and will not encroach on any setbacks. In the area, 3 houses have garages but the 3 do not have garages.

In reference to Henry Hinterstein’s letter, they will comply with all recommendations on the report. Mr. Kinneally asks Mr. Kaplan what is the offer to ensure that the basement area will never become either a separate apartment or additional bedrooms. The parking requirement would change if bedrooms are added. Mr. Kaplan asks Mr. Cabalfin if he is willing to stipulate that the basement will not be used for a bedroom; Mr. Cabalfin agrees. He states that it is intended as an open floor plan basement, it could be a condition of approval. There will never be a separate dwelling unit in the home. Mr. Cabalfin will agree to a deed restriction for a single family home only. Vice-Chairman Zimmerman asks the Board if they have any further questions; none. Public portion open/closed.

**MOTION** was made by Vice-Chairman Zimmerman to approve the application; seconded by Mr. Patel. **YES ON THE MOTION:** Warren Zimmerman, Roy O’Reggio, Kalpesh Patel, Jeff Tillery, William Mitterando and Waqar Ali. **NO ON THE MOTION:** None

Jessica Flores, the applicant, is sworn in to testify on her own behalf. She states that they would like to construct an attached garage on the side of her home; they are converting the existing garage into a master bedroom. The house is 25 feet from the property line now and she would like the garage to be even with the house. Mr. Hinterstein states that he would like the garage moved back a few feet. The fence is not shown on the survey and he would like put on a survey and submitted for the file. The fence is a 6’ solid fence and there might be a variance needed. Mrs. Flores states that it is in the proper place and will submit it on a surey.

Mrs. Flores wants it even with the house. Mr. Hinterstein states that he wants it backed up a bit, the required setback is 35 feet, he’s asking for 27 or 28 feet. She agrees to move it back two feet from the property line. Public portion open/closed.

- 10. 21-ZB-43V Bala Subramanian-Continued to 11/4  
Bulk Variance  
Block 11701, Lot 9.20; Zone: R-15  
14 Waldhaven Court**  
Applicant would like to reconstruct an existing accessory structure.

Bala Subramanian states that he has an existing barn in the back of his house and he wants to reconstruct it; it is in disrepair. There were two structures but the other one has been taken down and there is only a foundation. The structure on the right of the yard is still there. Mr. Hinterstein states that asks if he had a chance to review the report; he has not. Mr. Hinterstein states that there are items on there that really need to be addressed.

**MINUTES OF THE REGULAR ZONING BOARD OF ADJUSTMENT MEETING OF PISCATAWAY TOWNSHIP HELD ON THURSDAY, SEPTMEBER 9, 2021.**

The structure doesn't comply with the requirements for an accessory structure as far as the size and height. There was never an approval or variance given for the structure to be there. It's basically an illegal structure, he understands that it was there when the property was bought, but it's still not legal, it's more than twice the allowable size of an accessory structure. Mr. Hinterstein states that the max allowed is 625 square feet in a residential zone, it's twice that. He would need to justify to the Board why they should grant relief to that ordinance.

Mr. Subramanian states that he bought the house with this there. He just wants to keep the same footprint. Once of the attractions to the property that it was there. Mr. Kinneally states that you never take the seller's word for it, always check with the Town, any Town, before purchasing a property. The Board needs some kind of evidence to justify this to remain. Mr. Kinneally asks if he has any witnesses; he does not. He is advised to seek a professional (Attorney/Planner) to put proofs on the record why this should be granted. Mr. Subramanian agrees to come back to the Board on November 4, 2021; no further notice required.
