Historically, the creation and implementation of vaccines have successfully controlled infectious diseases such as the smallpox virus, the Spanish flu, polio, rubella, and the COVID-19 virus is no exception. It is apparent that a correlation in decreased death rates due to COVID and the distribution of COVID vaccines exists. Help our community and help yourself, get vaccinated, get your booster, and stay safe.

Stay safe, and may God continue to bless you.

Sincerely,

Adrian O. Mapp, Mayor
