From the Mayor's Office

One Hundred and Twenty (120) New Cases of COVID-19

Reported in Plainfield

March 10, 2022

Dear Friends and Neighbors,

Since our last update, on Monday, March 7, 2022, there are **one hundred and twenty (120) new cases of COVID-19**, with **eighteen (18)** cases reported today. In addition, **seventeen (17)** persons have been quarantined. The increase in case load is due to delayed reporting from the labs to Plainfield. Fifteen (15) of the eighteen (18) cases reported today have passed the isolation/quarantine period as reported to Plainfield's Health Department.

Fortunately, **no COVID-related deaths have been reported since February 21, 2022**. Great Job Plainfield!

Let's continue to work together to ensure we move into Spring COVID free. Protect our family, friends, and neighbors by following COVID protocols.

COVID-19 Cases	Positive Cases	Persons Placed in Quarantine	Fatalities
March 16, 2020- December 31, 2020	4,215	10,465	128
January 1, 2021 – December 31, 2021	4,420	4,054	71
January 1, 2022 – March 10, 2022	1,683	714	17
Total	10,318	15,233	216

PPAC Testing Center The PPAC Testing Center will come to an end, on Saturday March 12, 2022.

Remember, services include Rapid and PCR testing, located at the Plainfield Performing Arts Center, 724 Park Avenue. The PPAC Testing Clinic is open Tuesday to Friday 2:00 pm- 6:00 pm and Saturday 9:00 am-1:00 pm.

The City of Plainfield is hosting a series of Pop up Vaccination Clinics. Get your COVID-19 vaccine and FLU shot at the same time. A list of locations can be found on the city's [website](#).

LOCAL COVID-19 TESTING SITES INCLUDE Walgreens on South Ave, Front Street Pharmacy, Rapp's Pharmacy, Plainfield Neighborhood Health Center, Scott Drugs Pharmacy, and Parking Lot # 7 at 112 E Seventh Street. Please visit the City of Plainfield [website](#) for more information.

In addition, free COVID-19 testing at Kean University operates on Mondays from 7:00 AM to 12 PM and Thursdays from 7 AM to 12 PM or 4 PM to 8 PM. Please visit UCNJ.org for more information. The test will also provide results for Influenza A and B (flu). Insurance is not required.

Historically, the creation and implementation of vaccines have successfully controlled infectious diseases such as the smallpox virus, the Spanish flu, polio, rubella, and the COVID-19 virus is no exception. It is apparent that a correlation in decreased death rates due to COVID and the distribution of COVID vaccines exists. Help our community and help yourself, get vaccinated, get your booster, and stay safe.

Stay safe, and may God continue to bless you.

Sincerely,

Adrian O. Mapp, Mayor
