APPLICATION FOR PERMIT

The Uniform Fire Code states: "Permits shall be required, and obtained from the local enforcing agency for the activities specified in this section, except where they are an integral part of a process or activity by reason of which a Use is required to be registered as a life hazard use. Permits shall at all times be kept in the premises designated therein and shall at all times be subject to inspection by the fire official. N.J.A.C. 5:70-2.7(a)

NOTE: Each individual act requires a separate permit. There are five types of permits. You should consult with the Fire Official about the number and types of permits required and for information on fees. The type of permit required and the fee will be determined by application information and site inspection if needed.
