Veronica Taylor, Superintendent

PLAINFIELD DIVISION OF PUBLIC WORKS

REGULATIONS AND SPECIFICATIONS

MAY THROUGH DECEMBER 2018

STORM WATER REGULATIONS ARE IN EFFECT. State Mandate: All municipalities must remove loose debris from curb areas within seven (7) days or residents will be required to bag leaves and yard waste placed at the curb. Failure to comply will subject the City to fines. In an effort to prevent our residents from mandatory bagging of leaves and yard waste, it is crucial that all yard waste and leaves be placed at curb no later than 6 A.M. the day of pickup.

Brush and Tree parts:

All brush and tree parts **MUST** be tied and bundled.

- Maximum length – 4 feet
- Maximum weight – 50 pounds

Maximum bundles per pickup – 8

Oversized or untied brush and tree parts are an improper putout and will be subject to citation by a City Code Enforcement Officer. Residents or private contractors can take brush and tree parts, in excess of the above limits, to the PMUA, Rock Avenue Transfer Station. Fees will apply. For more information, call the Transfer Station at (908) 226-2518.

PROPERTY OWNERS ARE RESPONSIBLE FOR THE REMOVAL OF THEIR PRIVATE TREES OR TREE PARTS WHEN THEY EXCEED THE ABOVE LIMITATIONS.

New Brunswick NJ

RESIDENTIAL CUSTOMER

The City of Plainfield, NJ

Last year, over five (5) million dollars was spent on road maintenance. 44 Streets were completed totaling over 22 miles of new roadways with asphalt material totals of over 35,000 tons. In addition, all concrete curbing at the intersections were redone making them compliant and handicap accessible. This year we plan to continue our road maintenance plan with 1.5 million dollars allocated for milling and paving.

Litter continues to plague many cities across the state including Plainfield. Spearheaded by our DPW staff in conjunction with the PMUA we'll be increasing our efforts to reduce litter:

- Two new mechanical street sweepers will be added to our DPW fleet.
- Additional seasonal staff will be hired to handle our peak litter period April-September.
- The summer youth and adult job programs will also be utilized in our efforts.
- Personnel and equipment from the PMUA will be assigned and utilized in various areas.

In closing, we ask all of our residents to assist us in keeping Plainfield clean. This is our city and we cannot do it alone. Let your Plainfield Pride shine!

One Plainfield One Future.

If you have suggestions or ideas for how we can continue to work together to make Plainfield better, please don't hesitate to contact my administration at communications@plainfieldnj.gov

Sincerely,

Mayor Adrian O. Mapp

It's our pleasure to provide you with the Division of Public Works 2018 Spring Schedule for brush and yard waste curbside pick-up. Attached is the scheduled pick-up dates for your area. Keep this brochure in a convenient place and refer to it over the coming months.

This winter's weather pattern has been a roller-coaster ride for the entire east coast. Here in the City of Plainfield like the rest of New Jersey, we have experienced unseasonable low and high temperatures throughout the months of January and February.

The old adage certainly held true with the month of March coming in like a lion with (3) Nor'easters that packed high winds, downed trees, powerlines, phone/cable wires, with significant snow accumulation and whiteout conditions which made the plowing operation arduous.

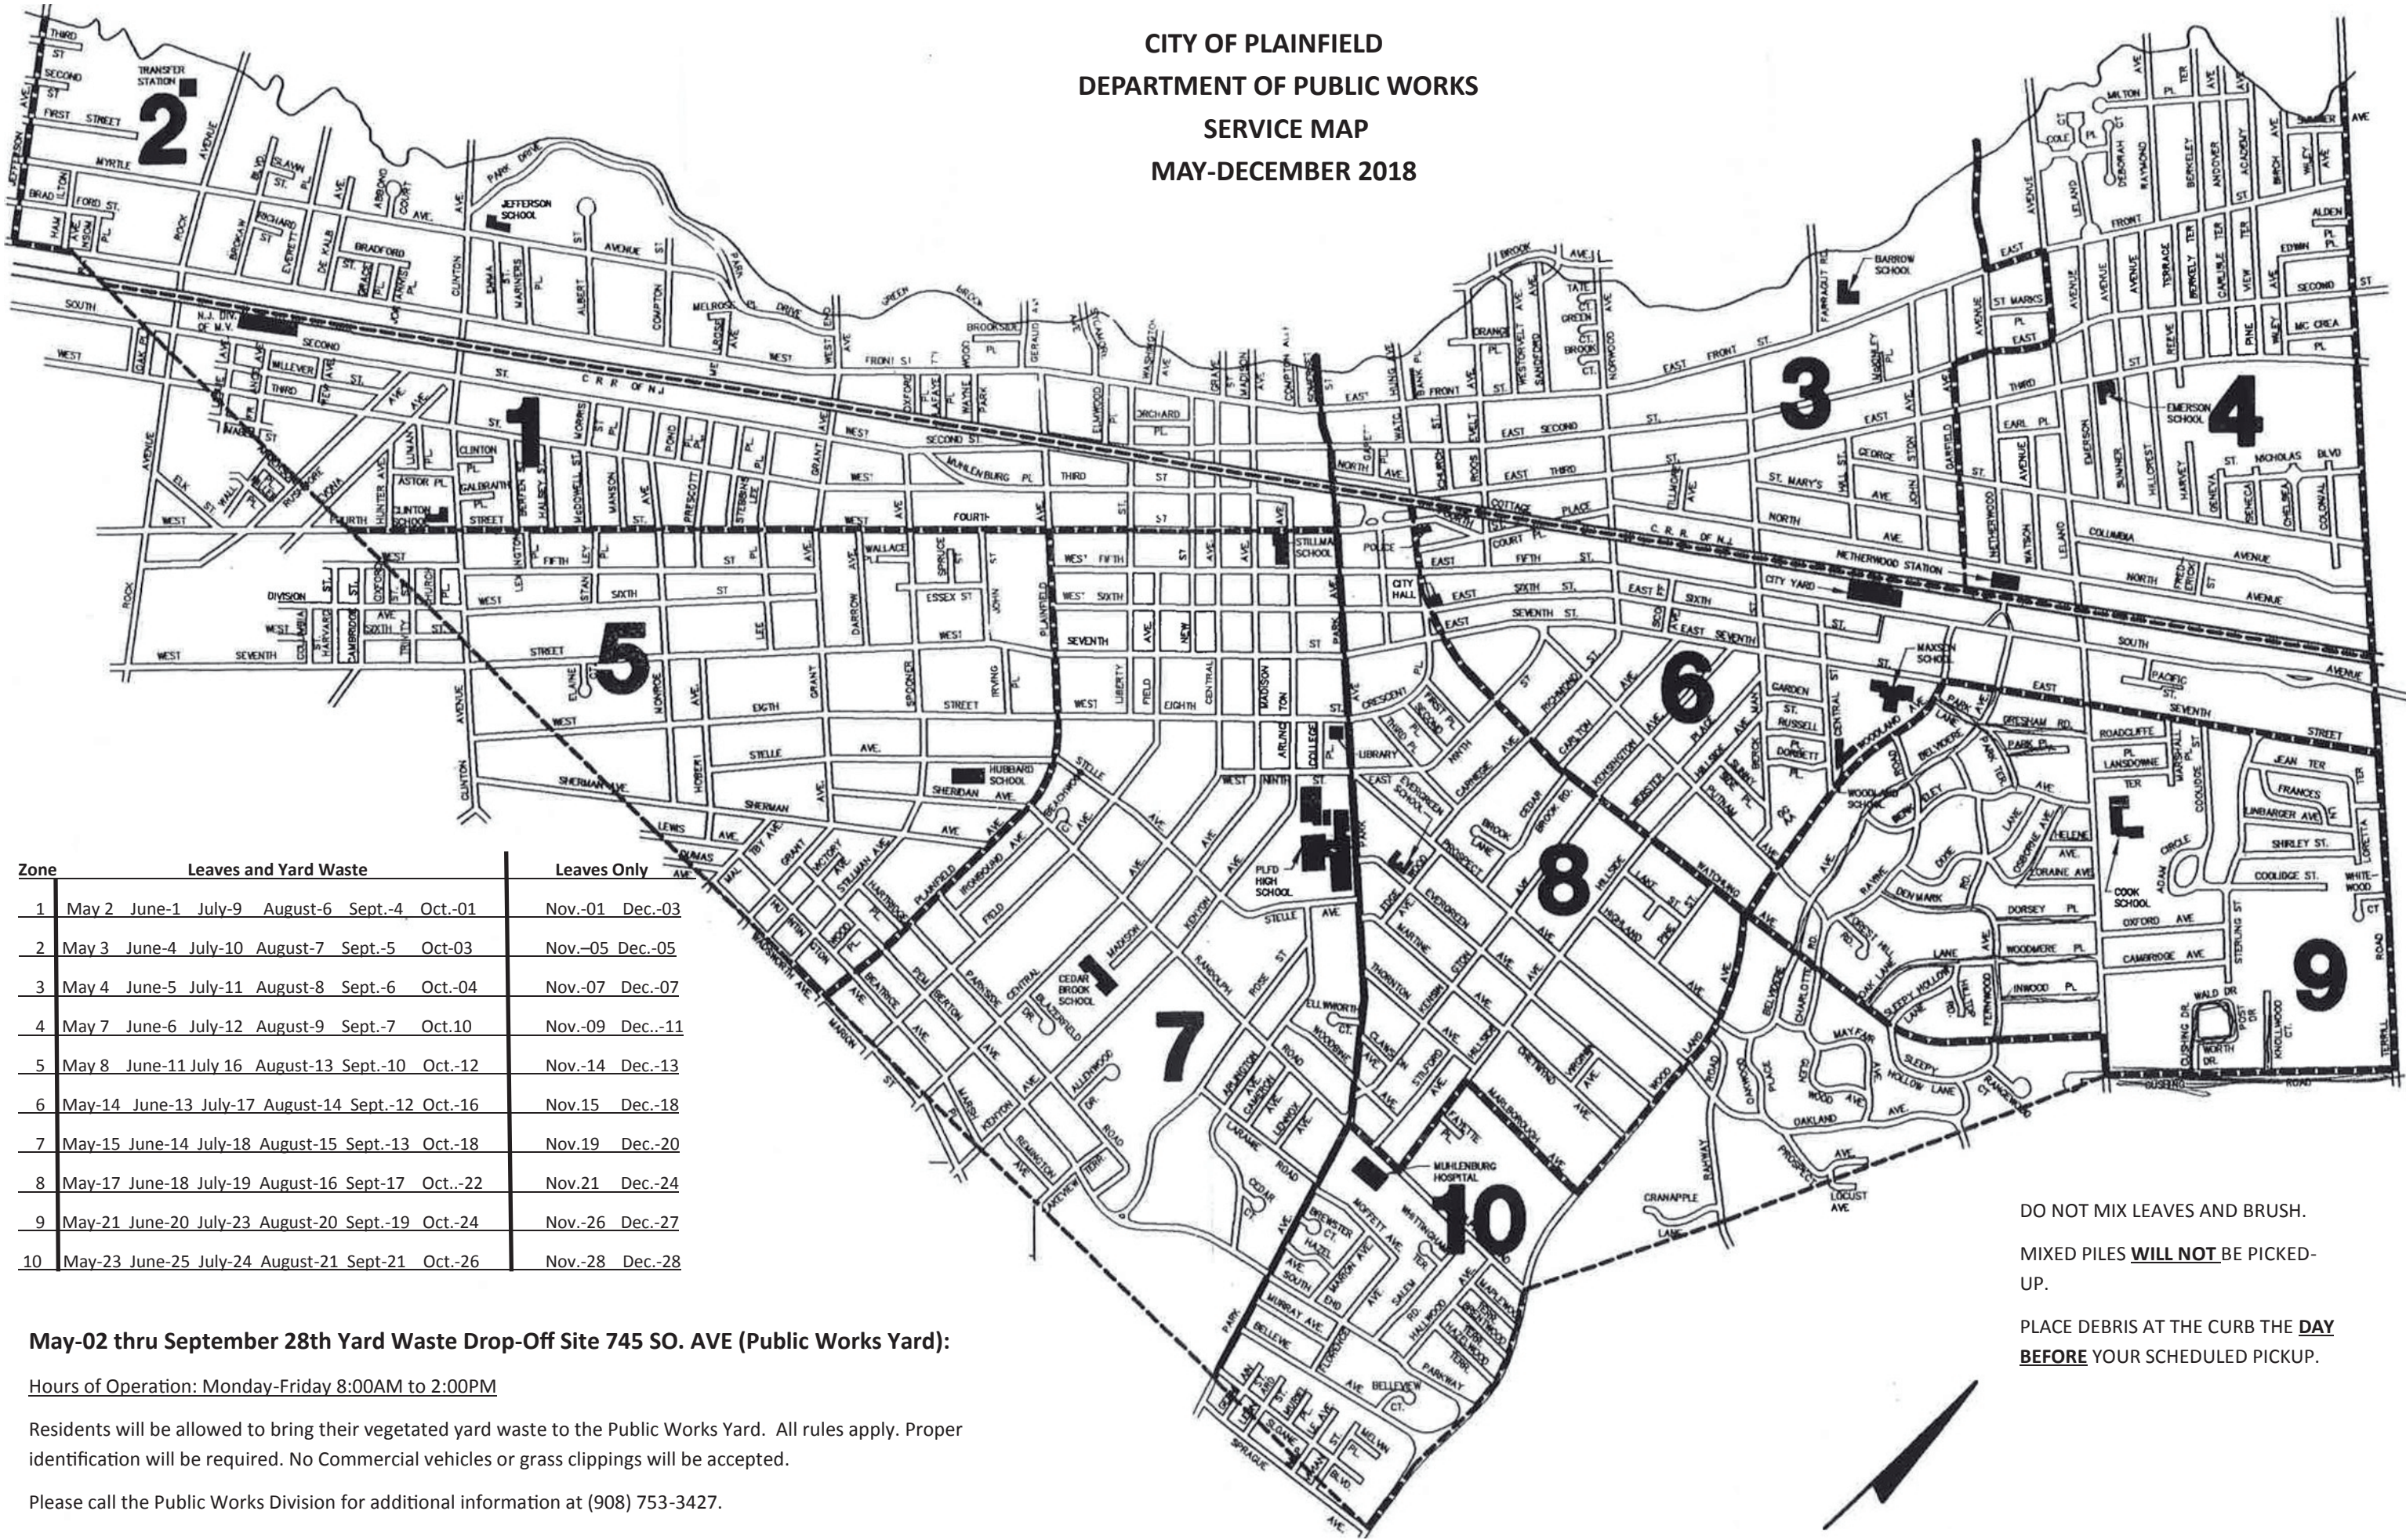

Despite these hazardous conditions, our DPW snowfighters responded professionally, ensuring that our streets and main thoroughfares remained open for emergency service vehicles.

When the storm passed, DPW crews began tree and storm debris removal services. The crew assisted PSEG after powerlines had been removed from around trees enabling PSEG to work quickly to restore electricity to residents and businesses. In addition, DPW crews continue to provide citywide, curbside storm debris removal services to all residents.

Road maintenance continues to be a top priority for my administration. When I took office back in 2014 many residents and business owners expressed their concerns and frustration over the poor road conditions of many of our city streets. My administration took an aggressive approach, in order to get more road mileage for our dollars. We looked at technology and cooperative purchasing to reduce labor and material cost.

- Utilizing the technology of the pothole doctor, that performs longer-lasting repairs to our roads at a lower cost. The spray injection technology is more efficient than the standard application, and a single operator can make repairs from the safety of the truck's cab. Labor cost is reduced drastically compared to the standard 2-3 employee street maintenance crews that most municipalities use.
- Utilizing the Cooperative purchasing power of more than 200 municipalities helped stabilize cost of materials.
