TELECOMMUNICATIONS RELAY AND TTY/TDD

The following is excerpted from the website of Relay Connecticut, www.relayconnecticut.com.

WHAT IS TELECOMMUNICATIONS RELAY

Telecommunications relay service provides full telephone accessibility to people who are deaf, hard-of-hearing, deaf-blind, or speech-disabled. Specially trained Communication Assistants complete all calls and stay on-line to relay messages either electronically over a Text Telephone (TTY) or verbally to hearing parties.

This service, known here as "Relay Connecticut", is available 24 hours a day, 365 days a year, with no restrictions on the length or number of calls placed. Anyone, including deaf, hearing impaired, and speech impaired people, can make any kind of call any time of the day.

Relay Connecticut is a confidential service. All calls are kept private, and no records of conversations are maintained. Communications Assistants do not share information regarding the content of relay calls, unless they are required to do so by state or federal law.

Voice for Hearing Callers: 7-1-1 or 1-800-833-8134 is a telephone relay number that connects standard (voice) telephone users with deaf, hard-of-hearing, deaf-blind and/or speech-disabled people who use text telephones (TTY, VCO, HCO or STS).

TTY: Dial 7-1-1 or 1-800-842-9710 is a telephone relay number for a person who is deaf, hard-of-hearing, deaf-blind, or speech-disabled uses a TTY to type his/her conversation to a Relay Operator.

ASCII: 7-1-1 or 1-800-842-9710 is available for computer users and they can also access Relay Connecticut directly. ASCII Split Screen is designed to allow High Speed ASCII computer users and relay operators to type and communicate more clearly and quickly. Typed text by both the caller and the operator will appear on split windows on the computer screen. ASCII users can interrupt the operator if needed, or the operator can interrupt the ASCII user if requested to do by the voice party.

WHAT IS TTY, HCO, TeleBraille, ASCII

ASCII = Split Screen High Speed ASCII for computer users HCO = Hearing Carry-Over

TTY= Teletypewriter TeleBraille = Text Pacing

WHO IS ELIGIBLE?

Callers who are deaf, hard-of-hearing, deaf-blind, or speech-disabled HOW TO APPLY
Both TTY and voice users may initiate calls through Relay Connecticut by dialing 7-1-1.

COST

There is no charge for using the relay service within the local areas.

Long-distance calls are placed using your selected long-distance carrier and are billed by that company directly.

Direct dial, collect calls, third party calls, credit cards and calling cards are available through the relay service.
