Re: Project Name, Address  
Non-Stormwater Discharge Certification

The following is a description of the steps taken to ensure that there are no unpermitted non-stormwater discharges at this facility and the certification thereof:

Visual Inspection: (provide description)

Smoke Test: (provide description)

Dry Weather Observation: (provide description)

Review of Plans and Records: (provide description)

Rooftop Inspection: (provide description)

I certify that in my professional judgment, the discharge from the site consists only of stormwater or of stormwater combined with allowable non-stormwater discharges pursuant to State Statues. This certification is based on testing and evaluation of the stormwater discharge from the site. I further certify that no interior building floor drains exist which are connected to any storm drainage system or which may otherwise direct interior floor drainage to exterior surfaces unless such floor drain connection has been approved and permitted.
