### Goals of the Living Towns Program\*

Share ideas for planning and quality of life in towns and villages— the original smart growth strategy.

Help preserve the historic and natural heritage of the region.

Participate in local and regional research and interpretation to make area history come alive.

Work to build linkages and enhance networking among area communities.

Integrate resources of the Department of Historic Resources, the Department of Housing and Community Development, Department of Conservation and Recreation, Department of Transportation and the Virginia Main Street Program in support of Living Town goals.

With positive intent, integrate private, public and non-profit resources to build, maintain and enhance the identity of the region, and sense of place of its towns, rural communities and open spaces.
