# Rappahannock River Basin Gauge Project

## Status & Review

- Installation of 13 gauge locations is proposed.
- Total project implementation cost is approx \$190k.
- Radio Path Analysis required to finalize site selections and equipment needs.
- House of Representatives proposed 2-year budget for \$85k.
- Senate proposed 1-year budget for \$85.

## Recommendations

- Work under the presumption that the funding will be approved.
- VDEM to complete radio path analysis during current fiscal year.
- Limit installation of sites to communities providing cost share.
