RE: Construction of Pool on Property

By initialing this form you agree that you will construct a fence enclosure surrounding your pool that is in compliance with the 2021 IRC, 2021 International Swimming Pool and Spa Code, Section 305. Enclosures for private swimming pools, applies to your permit to construct a pool. In Accordance with these attached specifications, **you as the pool owner must submit a detailed pool enclosure plan at the time of permit application.** (No permit can be issued without a detailed plan.) The plan will need to consist of fence material, height, gates, locks, how fence encloses pool and house location and other items listed in this section.

, Building Official

Please initial below that you have completed this information.

Owner **Pool Company**

You have detached the IRC/Pool Barrier/Fence Req.

You have attached the detailed as to be built fence enclosure plan. If fence enclosure plan is changed on site a new plan must be submitted and go back through plan review with an additional charge.

The pool will not be filled with water until the approved fence enclosure plan has been installed.
