COVID-19 Update

December 28, 2020

Total Tested RCCHC:	1,071 (+20)
Total Positive Tests:	90 (+1)/6 Active, 81 Recovered, 3 Death
Quarantine:	22
Active Monitoring:	22 (6 positives/16 Close Contacts)

The Red Cliff Community Health Center reports one (1) new case of Covid-19 today.

What does it mean to be a "close contact" of someone with COVID-19?

You are a close contact if any of the following situations happened while you spent time with the person with COVID-19, even if they didn't have symptoms:

- Had direct physical contact with the person (for example, a hug, kiss, or handshake).
- Were within 6 feet of the person for a total of more than 15 minutes in a single day.
- Had contact with the person's respiratory secretions (for example, coughed or sneezed on; contact with a dirty tissue, shared a drinking glass, food, towels, or other personal items).

Note: Wearing a face mask or covering while you spend time with someone diagnosed with COVID-19, even if the person with COVID-19 was also wearing a mask, likely reduces your risk of getting COVID-19, but may not prevent it entirely. If you and/or the other person with COVID-19 was wearing a face mask or covering during any of the above situations, you are still considered a close contact.
