COVID-19 HOLIDAY TRAVEL SAFETY TIPS

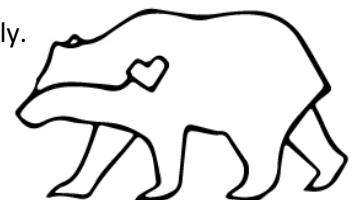

- Check the state or city health department travel guidance for your destination and along your route.
- Talk with your doctor before you go, especially if you are 65 or older or have preexisting medical conditions.
- Pack a cooler with drinks and snacks, including high-protein foods that will not go bad.
- Bring everything you will need, including your own groceries, medications, and toiletries. This will reduce your need to interact with businesses in your destination area and reduce potential for spread or exposure.
- Clean your car, especially the steering wheel, safety belts, door handles, and the fob or keys.

For each traveler, pack:

- Cloth face masks, Hand sanitizer, Soap, Disinfectant wipes
- A restroom break kit including bars of soap, paper towels for drying hands and using it to open doors, hand sanitizer, and wipes when soap and water are not available.

If you need to stop for food, gas, or supplies:

- One traveler should engage with store employees.
- Wash your hands or use hand sanitizer after returning to your car.
- Use cloth face coverings.
- After you pump gas, be sure to use hand sanitizer or wash your hands immediately.

Caretakers of the medicine, protectors of your health
