If I already had Covid-19 and recovered, do I still need to get vaccinated?

Yes, you should be vaccinated regardless of whether you already had COVID-19. Experts do not yet know how long you are protected from getting sick again after recovering from COVID-19.

Even if you have already recovered from COVID-19, it is possible—although rare—that you could be infected with the virus that causes COVID-19 again. Studies have shown that vaccination provides a strong boost in protection in people who have recovered from COVID-19.

Please call the Red Cliff Community Health Center at (715)779-3707 if you are interested in getting a Covid-19 vaccine.
