COVID-19 Update

October 28, 2021

Total Tested RCCHC: 2,787 (+13)

Total Positive Tests: 186 (+3)/8 Active, 175 Recovered, 3 Death

Quarantine: 12

Active Monitoring: 12 (8 positive/4 Close Contacts)

The Red Cliff Community Health Center reports three (3) new cases of Covid-19 today. Note* The Health Center is still in the process of contact tracing and will update as new information becomes available.

Quarantine vs. Isolation

Quarantine if you have been in close contact with someone who has COVID-19 unless you have been fully vaccinated. People who are fully vaccinated do NOT need to quarantine after contact with someone who had COVID-19 unless they have symptoms.

- Stay home for 14 days after your last contact with a person who has COVID-19.
- Watch for fever (100.4°F), cough, shortness of breath, or other symptoms of COVID-19.
- If possible, stay away from people you live with, especially those at higher risk for getting very sick from COVID-19.

Isolation is used to separate people infected with COVID-19 from those who are not infected. People who are in isolation should stay home until it's safe for them to be around others. At home, anyone sick or infected should separate from others, stay in a specific "sick room" or area, and use a separate bathroom (if available).

- Monitor your symptoms.
- Stay in a separate room from other household members, if possible.
- Use a separate bathroom, if possible.
- Avoid contact with other members of the household and pets.
- Don't share personal household items, like cups, towels, and utensils.
- Wear a mask when around other people if able.

Caretakers of the medicine, protectors of your health
