COMMUNITY COMMENTS/ANNOUNCEMENTS
Rose Gordon spoke about her vision for this community when elders taught the younger members. Diane is a good example working with kids. That the community works together as a team to rid the reservation of the violence and drugs etc. that has been occurring here. The outside is creeping onto this reservation. This is not a good example for children growing up. She used the word we rather than I when speaking. Also about the dogs running around without a leash and she feels that the Wardens do nothing about them. This fall she intends with others to teach a cooking class, it will be good to see families eating healthier. They are looking for an Elder to serve on the Advisory Committee for the AODA program. Her words come from the heart. Tribal Chair stated yes we have to work together as a team and that it will be followed up with the Wardens regarding the dogs.
Larry Deragon's concern was municipal license plates and it being mandatory for programs to use the Tribal license plates. When a municipal plate expires the cost is only $5.00 could there be a reduced fee on Tribal licenses for trucks. Tribal Chair will check into it on license plates.

Bob Bear spoke about the two cars downstairs in the parking lot. Are they still running and being used, what about Tribal license plates for them. Chair stated the Code would have to be changed. The two vehicles downstairs work and are used. There was a problem with the wrong plates on vehicles and matching numbers that was being worked on. Does a program like elderly need so many vehicles if they don’t get rid of them.

Tom is finishing Chapter 17 for finalization, some clarification on part of it, typo etc. and will send it to Dave. We were going to send Ashley Peterson to the training in June by the Falmouth Institute. Tom would like to see them come here for training; cost would be $3300 as long as there are 10 people in attendance.
