CIRCLES OF CARE PRESENTATION
Angela Hernandez, Katherine Morrisseau and Joshua Schuyler were her to give a presentation about the Circle of Care Program. Angela explained that this grant is different from the normal direct service grant. This grant is for a 3 year period and they offer many services.
Angela explained that they have already done a community assessment and they received feedback from the community. They are now looking at the responses and formulating a blueprint as to what needs to be done to help the community with the issues.

Marvin Defoe asked Angela what her definition of a community is and what age are they targeting. Angela explained that they are assessing the community as a whole and the goal is to increase the awareness of substance abuse and mental health issues. Marvin then asked if there were measures in place for the intervention instead of just the prevention. Angela stated that after the 3 year grant they will be applying for the 5 year grant and in this grant is where the intervention would take place.

Katherine Morisseau went on to explain that the 1st year of the grant was to observe the community and not make changes. Now going into the 2nd year of the grant, they will be working on the marketing strategies to further engage the community.

Chairman Bainbridge asked what will change if the 5 year grant comes into the picture. Josh explained that all the assessments from the previous 3 years will be on the blueprint and that they will be listed and will start to look into the future and how they can solve the problems.
