

The following instructions apply to all persons desiring to obtain a permit to construct or modify a Wastewater Facility. Applications and permits are not transferable and fees are non-refundable. **A permit is required for each system and the fee is \$25.00 per system.** Fees are made Payable to Rice County Environmental Services.

To ensure adequate processing and evaluation time, please submit the completed application one week prior to scheduled construction. This will allow the County to review and evaluate the application and the site. When the application is approved the County will notify the Applicant and construction may commence. Construction must meet the County Sanitation Code and KDHE Bulletin 4-2.

INSPECTION: Rice County Environmental Services must be notified a minimum 24-Hours in advance to inspect all installations before covering and placing the system into operation.

PERMIT NUMBER _____ (By Rice County)

PROPERTY LOCATED $\frac{1}{4}$ _____ **Sec.** _____ **Twp.** _____ **Rg.** _____
