

Sidewalk Medallion Program

The Main Street Plan calls for approximately sixteen to twenty cast bronze medallions to be set in sidewalks along Main Street and Pedestrian access routes. Each medallion will be different and will pay tribute to local culture, a local cultural activity, a local historical building or trade, native plants or animals or patriotic or civic organization.

The 24" diameter Medallions will be embedded in the sidewalk. Sponsors can express a preference for a specific location and submit a design for approval; however all designs and locations must be approved and finalized by Schwenksville Borough.

The purpose of this program is to draw attention to culturally and historically significant elements that make Schwenksville unique.

Memorials and Personal dedications will not be permitted and designs that include commercial, religious or political symbols or statements are not eligible.

Creativity is encouraged; possible design elements include historical photographs, natural features and wildlife, cultural activities (biking, kayaking, horseback riding, the railroad, historical industries (ice harvesting, mills, dairies) and civic organizations or patriotic themes.
