**CITY MANAGER'S/STAFF'S REPORT
REGULAR CITY COUNCIL MEETING DATE:**

October 1, 2018

ITEM NO:

2.

SUBJECT: Discussion and Update on the Remodel Project for Fire Station 2

DISCUSSION: The City of Selma Fire Department operated at Fire Station No. 2 out of a temporary trailer and building. The trailer recently become dilapidated and was subsequently demolished or removed. A remodel of the fire station at that location is necessary for the provision of adequate fire protection services within the City. For that reason, staff requested funding approval for the remodel of the existing fire station at this location.

On January 18, 2018, Council approved Resolution 2018-5R, authorizing Interim City Manager to negotiate and finalize financing of construction costs for Selma Fire Station No. 2 and directed staff to return to Council with a definite proposal for financing of construction costs.

On February 20, 2018, Council further approved Resolution 2018-14R, authorizing the financing for the rehabilitation and expansion of Selma Fire Station NO. 2 located at A Street and Floral Avenue.

Staff continues to move the project forward, and is currently in the final phase of the design process. Initial design documents have been submitted for establishment of preliminary cost estimates for the project. Upon completion, we will continue with scheduled design group meetings to ensure that the project is moving forward. Staff anticipates returning to Council in the near future to provide continued updates on the fire station remodel process.

RECOMMENDATION: Staff recommends that Council accept this presentation and direct staff to continue moving forward with the project.
