Enforcement of contract provisions (non estoppel). Consultant acknowledges and agrees that any actual or alleged failure on the part of the City to inform Consultant of non-compliance with any requirement imposes no additional obligations on the City nor does it waive any rights hereunder.

Requirements not limiting. Requirements of specific coverage features or limits contained in this Section are not intended as a limitation on coverage, limits or other requirements, or a waiver of any coverage normally provided by any insurance. Specific reference to a given coverage feature is for purposes of clarification only as it pertains to a given issue and is not intended by any party or insured to be all inclusive, or to the exclusion of other coverage, or a waiver of any type. If the Consultant maintains higher limits than the minimums shown above, the City requires and shall be entitled to coverage for the higher limits maintained by the Consultant. Any available insurance proceeds in excess of the specified minimum limits of insurance and coverage shall be available to the City.

Additional insured status. General liability policies shall provide or be endorsed to provide that City and its officers, officials, employees, and agents, and volunteers shall be additional insureds under such policies. This provision shall also apply to any excess liability policies.

Prohibition of undisclosed coverage limitations. None of the coverages required herein will be in compliance with these requirements if they include any limiting endorsement of any kind that has not been first submitted to City and approved of in writing.

Separation of Insureds. A severability of interests provision must apply for all additional insureds ensuring that Consultant's insurance shall apply separately to each insured against whom claim is made or suit is brought, except with respect to the insurer's limits of liability. The policy(ies) shall not contain any cross-liability exclusions.

Consultant agrees that upon request, all agreements with consultants, subcontractors, and others engaged in the project will be submitted to City for review.

City's right to revise specifications. The City reserves the right at any time during the term of the contract to change the amounts and types of insurance required by giving the Consultant ninety (90) days advance written notice of such change. CITY MANAGER'S/STAFF'S REPORT
CITY COUNCIL MEETING:

August 5, 2019

ITEM NO: 1.e.

SUBJECT: Consideration of a Professional Services Agreement with Krazan & Associates for soil sampling and testing

DISCUSSION: As part of the relocation of the Fire Training Center from the Selma Industrial Park to the Public Works Corporate Yard ("Yard"), multiple site preparations must be performed. One of these preparations is to remove a street sweeper waste mound at the Yard that has accumulated over the course of multiple years. Our current waste service provider will not dispose of the dirt because it accumulated prior to our current contract. In order to remove this debris, it must first be tested to determine if it is contaminated.

The City has requested Krazan & Associates to perform the following scope of work:

Three (3), three (3)-part composite soil samples will be collected from the on-site stockpile at 1325 Nebraska Ave, Selma CA 93662 and submitted for laboratory analysis for the following COCs and their respective analytical methods:

- Total petroleum hydrocarbons – carbon chain (TPH-cc) by EPA Test Method 8015,
- Volatile organic compounds (VOCs) by EPA Test Method 8260,
- Semi-volatile organic compounds (SVOCs) by EPA Test Method 8270,
- CAM 17 metals by EPA Test Method 6010/7471,
- Chlorinated Pesticides by EPA Test Method 8081, and
- Chlorinated Herbicides by EPA Test Method 8151.
- Following completion of the field and laboratory activities, an emailed copy of the laboratory report will be forwarded to the Client.

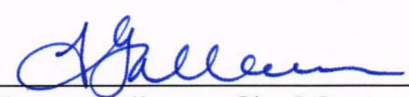

Once this testing is complete, the City can determine the necessary course of action to remove the mound and dispose of it appropriately.

Upon termination of the Agreement pursuant to this Section, the Consultant shall submit an invoice to the City pursuant to Section 4 of this Agreement.

All insurance policies shall be issued by an insurance company currently authorized by the Insurance Commissioner to transact business of insurance in the State of California, with an assigned policyholders' Rating of A- (or higher) and Financial Size Category Class VI (or larger) in accordance with the latest edition of Best's Key Rating Guide, unless otherwise approved by the City's Risk Manager.

Waiver of subrogation. All insurance coverage maintained or procured pursuant to this agreement shall be endorsed to waive subrogation against City, its elected or appointed officers, agents, officials, employees and volunteers or shall specifically allow Consultant or others providing insurance evidence in compliance with these specifications to waive their right of recovery prior to a loss. Consultant hereby waives its own right of recovery against City, and shall require similar written express waivers and insurance clauses from each of its subconsultants.

Enforcement of contract provisions (non estoppel). Consultant acknowledges and agrees that any actual or alleged failure on the part of the City to inform Consultant of non-compliance with any requirement imposes no additional obligations on the City nor does it waive any rights hereunder.

Requirements not limiting. Requirements of specific coverage features or limits contained in this Section are not intended as a limitation on coverage, limits or other requirements, or a waiver of any coverage normally provided by any insurance. Specific reference to a given coverage feature is for purposes of clarification only as it pertains to a given issue and is not intended by any party or insured to be all inclusive, or to the exclusion of other coverage, or a waiver of any type. If the Consultant maintains higher limits than the minimums shown above, the City requires and shall be entitled to coverage for the higher limits maintained by the Consultant. Any available insurance proceeds in excess of the specified minimum limits of insurance and coverage shall be available to the City.

Notice of cancellation. Consultant agrees to oblige its insurance agent or broker and insurers to provide to City with a thirty (30) day notice of cancellation (except for nonpayment for which a ten (10) day notice is required) or nonrenewal of coverage for each required coverage.

Additional insured status. General liability policies shall provide or be endorsed to provide that City and its officers, officials, employees, and agents, and volunteers shall be additional insureds under such policies. This provision shall also apply to any excess liability policies.

Prohibition of undisclosed coverage limitations. None of the coverages required herein will be in compliance with these requirements if they include any limiting endorsement of any kind that has not been first submitted to City and approved of in writing.

Separation of Insureds. A severability of interests provision must apply for all additional insureds ensuring that Consultant's insurance shall apply separately to each insured against whom claim is made or suit is brought, except with respect to the insurer's limits of liability. The policy(ies) shall not contain any cross-liability exclusions.

Pass Through Clause. Consultant agrees to ensure that its subconsultants, subcontractors, and any other party involved with the project who is brought onto or involved in the project by Consultant, provide the same minimum insurance coverage and endorsements required of Consultant. Consultant agrees to monitor and review all such coverage and assumes all responsibility for ensuring that such coverage is provided in conformity with the requirements of this section. Consultant agrees that upon request, all agreements with consultants, subcontractors, and others engaged in the project will be submitted to City for review.

City's right to revise specifications. The City reserves the right at any time during the term of the contract to change the amounts and types of insurance required by giving the Consultant ninety (90) days advance written notice of such change. If such change results in substantial additional cost to the Consultant, the City and Consultant may renegotiate Consultant's compensation.

Self-insured retentions. Any self-insured retentions must be declared to and approved by the City. The City reserves the right to require that self-insured retentions be eliminated, lowered, or replaced by a deductible. Self-insurance will not be considered to comply with these specifications unless approved by the City.

Timely notice of claims. Consultant shall give the City prompt and timely notice of claims made or suits instituted that arise out of or result from Consultant's performance under this Agreement, and that involve or may involve coverage under any of the required liability policies.

Additional insurance. Consultant shall also procure and maintain, at its own cost and expense, any additional kinds of insurance, which in its own judgment may be necessary for its proper protection and prosecution of the work.

ITEM NO: 1.g

SUBJECT: Consideration of Acceptance of Funds from the Edward Byrne Justice Assistance Grant Program

DISCUSSION: The Edward Byrne Memorial Justice Assistance Grant ("JAG") Program is the primary provider of federal criminal justice funding to states and units of local government. These funds awarded may be used to provide additional personnel, equipment, supplies, contractual support, training, technical assistance, and information systems for criminal justice, including for any one or more of the following:

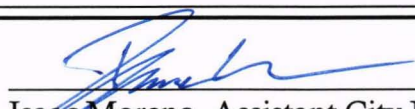

- Law enforcement programs
- Prosecution and court programs
- Prevention and education programs
- Corrections and community corrections programs
- Drug treatment and enforcement programs
- Planning, evaluation, and technology improvement programs
- Crime victim and witness programs (other than compensation)
- Mental health programs and related law enforcement and corrections programs

The City's Police Department has utilized this grant for special operations including DUI enforcement details, seat belt checkpoints, parole violation stings, gang details as well as other enforcement activities. This provides overtime hours to officers and non-sworn personnel to conduct operations that have not been allowable in past years without the grant, due to budget limitations.

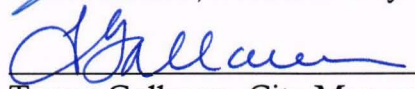

For the Fiscal Year 2018, the City's Police Department was awarded \$15,939.00 to perform the services set forth above, and community outreach, through the Bringing Broken Neighborhoods Back to Life program.

In order to utilize the funds, the City must execute the grant certifications and assurances. This form must be signed by the highest-ranking official, Chief Executive Officer (CEO), the Mayor. In addition, Staff requests authorization to permit the Mayor to execute any future forms necessary to implement this grant.

RECOMMENDATION: Authorize the Mayor to execute certifications and assurances for acceptance of the Edward Byrnes Justice Assistance Grant Program.

2. I assure that, before the date of this certification— (a) the application described above (and any amendment to that application) was made public; and (b) an opportunity to comment on that application (or amendment) was provided to citizens and to neighborhood or community-based organizations, to the extent applicable law or established procedure made such an opportunity available.
5. I assure that, for each fiscal year of the award (if any) that OJP makes based on the application described above, the applicant unit of local government will maintain and report such data, records, and information (programmatic and financial), as OJP may reasonably require.
6. I have carefully reviewed 34 U.S.C. § 10153(a)(5), and, with respect to the programs to be funded by the award (if any), I hereby make the certification required by section 10153(a)(5), as to each of the items specified therein.

**CITY MANAGER'S/STAFF'S REPORT
CITY COUNCIL MEETING:**

August 5, 2019

ITEM NO: 2.

SUBJECT: Public Hearing to Receive Community Input Regarding District Boundaries for District-Based Elections Pursuant to Elections Code Section 10010

BACKGROUND: The City utilizes an at-large elections system, which means voters of the entire City elect the five Council Members. A district-based election is one in which the City is divided into separate districts, each with one Council Member who resides in the district and is chosen by the voters in that particular district.

On July 15, 2019, the City Council unanimously adopted Resolution No. 2019 – 39R, declaring the City's intent to transition from at-large elections to by-district based elections, pursuant to Elections Code section 10010. Pursuant to the California Voting Rights Act (the "CVRA"), within 90 days of adopting the resolution of intention, the City must hold five public hearings to receive input on the composition of district maps, input on the district maps themselves, adopt an ordinance, and transition to district elections.

Under the CVRA, City must hold at least two initial public hearings to receive input on the composition of the district maps before draft district maps are drawn. The City Council has scheduled these two public hearings to occur during a regular Council meeting on August 5, 2019 and a special Council meeting on August 12, 2019 at 9:00 a.m.

DISCUSSION: As set forth above, under the CVRA, two public hearings must be held prior to drawing any proposed district maps.

Public Input on Composition of Districts: No proposed district maps have been drawn yet. The purpose of the first two public hearings is to identify neighborhoods, communities of interest, and other local factors that should be considered or used as building blocks to begin drafting maps. The public is welcome to participate in the process by drawing district lines and submitting their proposed district maps for the City. It is important to note that the maps are likely to experience considerable change as they move from initial drafts to a final adopted map. A second public hearing will be held at a special meeting on August 12, 2019 at 9:00 am in City Council Chambers.

Mapping Process: Under Elections Code Section 10010, draft districting maps and the related proposed election year sequencing must be published seven days prior to the initial public hearing where the City Council considers those maps. Because the first hearing on the draft maps is scheduled for September 3, draft maps will be published on the City's website and will be made available to the public no later than August 26. The second public hearing on the draft maps is scheduled for September 16, and the draft maps will be made available no later than September 9.

Following the two initial public hearings that are held prior to the release of official draft maps, the City's demographic consultant, National Demographic Corporation ("NDC"), will provide a set of two to four draft maps, which will be published along with all of the maps received from the public. The goal of the NDC maps is to start the discussion by providing a set of significantly different maps that show a range of options, not "the best" map. Over the course of the hearings, all maps will be discussed and narrowed down to "focus" maps that are then redrawn and revised to improve upon them. If the City is prepared at the conclusion of the September 3 hearing to designate its preferred map, City Council can instruct staff to include the selected map in a draft ordinance at the subsequent fourth public hearing scheduled for September 16.

Criteria for Creating District Maps: Federal law requires that city council election districts comply with the Federal Voting Rights Act and avoid using race as a predominate factor in drawing district lines. In addition, the districts shall contain nearly equal total populations, although small population deviations are allowed. Specifically, the total population of the largest and smallest districts cannot vary by more than ten percent of the ideal district population size. For example, in a city of 100,000 people, the ideal district size would be 25,000 people in each of the four districts. Accordingly, the largest and smallest district in this city could not have more than a 2,500 person difference. Although up to ten percent deviations in population are allowed, the best practice is to keep any population differences within five percent.

In addition, the City Council may wish to consider "traditional redistricting principles" in creating the district maps. These principles represent goals, rather than requirements, and the City will ultimately need to select the final district map that best balances these often competing goals. Traditional redistricting principles include:

- Respect for communities of interest;
- Compact and contiguous districts;
- Districts that follow major visible features such as rivers or major roads; and
- Consideration of planned future growth areas is allowed, but not required.

The definition of a community of interest is very flexible, as long as race is not the predominate factor in that definition. Some communities of interest may request to be divided by district boundary lines, which may dilute their ability to elect one favored candidate in each district that divides them. However, in exchange, dividing communities of interest may give the community a direct connection to multiple council members instead of only one council member.

Sequence of Elections: Under the current at-large system, all voters in the City vote every two years to select the council member positions that are vacant that election year. With the change to by-district elections, each voter will only vote once every four years for an individual to represent the district in which the voter lives. In addition to establishing district maps, the City Council must also decide the sequence in which each district will select its council member. No current council member's term may be cut short.

Accordingly, in November 2020, only three of the five council districts will elect a council member. The other two districts will elect a council member in 2022.

Fiscal Impact: There are no direct costs associated with the City Council conducting a public hearing to solicit community input on boundaries and composition of new council election districts.

RECOMMENDATION: It is recommended that the City Council conduct a public hearing to solicit community input on the potential boundaries and composition of new City Council election districts.

California Voting Rights Act (CVRA)

2

- Under the Federal Voting Rights Act (passed in 1965), a jurisdiction must fail 4 factual tests before it is in violation of the law.
- The California VRA makes it significantly easier for plaintiffs to force jurisdictions into “by-district” election systems by eliminating two of the US Supreme Court *Gingles* tests:
 - ~~1. Can the protected class constitute the majority of a district?~~
 - 2. Does the protected class vote as a bloc?
 - 3. Do the voters who are not in the protected class vote in a bloc to defeat the preferred candidates of the protected class?
 - ~~4. Do the “totality of circumstances” indicate race is a factor in elections?~~
- Liability is now determined only by the presence of racially polarized voting

CVRA Impact

3

- Switched (or in the process of switching) as a result of CVRA:
 - At least 202 school districts
 - 34 Community College Districts
 - 120 cities
 - 1 County Board of Supervisors
 - 15 water and other special districts.
- Palmdale, Santa Clara and Santa Monica fought “on the merits.” All lost.
 - Santa Monica and Santa Clara are appealing.
 - Palmdale spent about \$1.8 million, Santa Clara about \$800,000, and Santa Monica between \$5 and \$8 million, just on their defense.
 - Santa Monica plaintiffs requested \$22 million
 - No jurisdiction has won a case.
- Key settlements:
 - Palmdale: \$4.7 million
 - Santa Clara: \$3.16 million
 - Modesto: \$3 million
 - Highland: \$1.3 million
 - Anaheim: \$1.1 million
 - Whittier: \$1 million
 - Santa Barbara: \$600,000
 - Tulare Hospital: \$500,000
 - Madera Unified: about \$170,000
 - Hanford Joint Union Schools: \$118,000
 - Merced City: \$42,000

Defining Communities of Interest

8

1st Question: what is your neighborhood or community of interest?

A Community of Interest is generally defined as a neighborhood or community of shared interests, views, problems, or characteristics.

Possible community feature/boundary definitions include:

- ☐ School attendance areas
- ☐ Natural neighborhood dividing lines, such as highway or major roads, rivers, canals, and/or hills
- ☐ Areas around parks and other neighborhood landmarks
- ☐ Common issues, neighborhood activities, or legislative/election concerns
- ☐ Shared demographic characteristics
 - ☐ Such as similar levels of income, education, or linguistic isolation

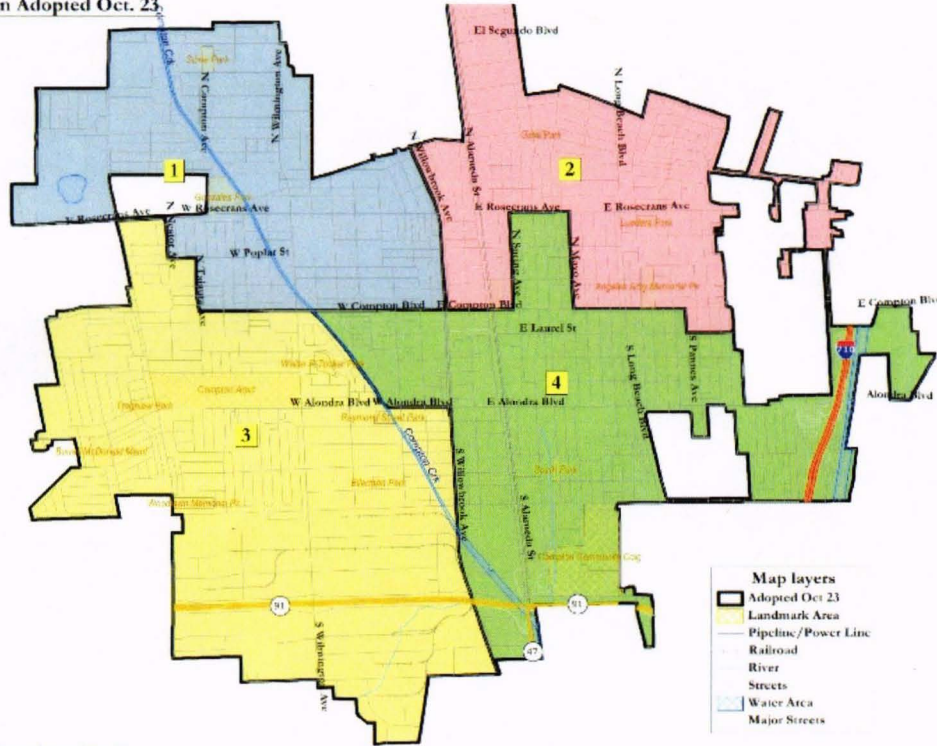

2nd Question: Does a Community of Interest want to be united in one district, or to be divided to have a voice in multiple elections?

Examples of maps where a desire to have all members touch downtown (Pasadena) or rural areas (Central), or as many neighborhoods as possible (South Pas), led to policy-driven but non-compact maps.

Discussion

11

1. What is your neighborhood or “community of interest”?
2. Do you prefer your neighborhood be kept together in one district or have multiple representatives?
3. What are other communities of interest in the City that should be considered when drafting maps?

REGULAR CITY COUNCIL MEETING DATE:

August 5, 2019

ITEM NO:

3.

SUBJECT:

Consideration of a Resolution confirming the annual refuse collection charges to be added to the 2019-20 Fresno County property tax roll

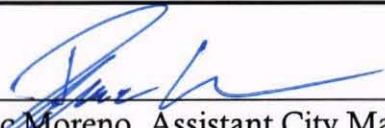

DISCUSSION: Annually, the City of Selma along with Waste Management, the City's solid waste contractor, prepares a list of residential and commercial trash assessments for placement on the Fresno County property tax roll. As per the contract between Waste Management and the City, an annual CPI calculation has been added to the rate. The increase of 3.58% has been verified by the Finance Department.

This year's list includes 5,085 parcels in the gross amount of \$2,070,019.68. The complete list is on file in the Finance Department.

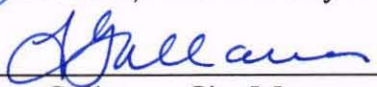

If approved, the Resolution would authorize the 2019-2020 trash assessments to the Fresno County property tax roll.

RECOMMENDATION:

1. Open the public hearing and take public testimony.
 2. Adopt Resolution placing the 2019-2020 trash assessments on the Fresno County property tax roll.

FINANCIAL ANALYSIS:

The proposed contract is an approximate 10% increase in base compensation. Additionally, the SCAS will no longer have access to City fuel and in lieu the City added \$3,000 to the annual contract term to compensate for fuel costs (the average amount used by SCAS annually at the City's fuel station). The City also increased the spay/neuter program from \$1,000 to \$1,500 annually. The program has been expanded to include cats and is paid on a reimbursable basis not to exceed the \$1,500 a year. The City contracts with South County Veterinary Hospital for disposal of deceased animals from Selma.

SCAS provided the City with access to three months of expenses and revenues from which Finance was able to run an analysis of estimated revenues and expenses for SCAS annual operations. This analysis estimates the City's annual contribution covers SCAS's labor costs plus some expenses.

Staffing levels and costs at SCAS have increased over the years and in this contract period minimum wage will increase an average of 8.7%. With labor increasing so could the cost of goods. As of June 2019, according to the U.S. Bureau of Labor Statistics, the Consumer Price Index for all Urban Consumers in the West Region increased 2.7% over the last twelve months.

Tasks other than those specifically described in the Scope of Services shall not be performed without prior written approval of the City. The Services shall be performed by Consultant, unless prior written approval is first obtained from the City. In the event of conflict or inconsistency between the terms of this Agreement and Exhibit A, the terms of this Agreement shall prevail.

(b) City shall have the right to request, in writing, changes to the Services. Any such changes mutually agreed upon by the Parties, and any corresponding increase or decrease in compensation, shall be incorporated by written amendment to this Agreement.

(c) Consultant shall perform all Services in a manner reasonably satisfactory to the City and in a first-class manner in conformance with the standards of quality normally observed by an entity providing animal care and animal control services, serving a municipal agency.

No officer or employee of City shall have any financial interest in this Agreement that would violate California Government Code Sections 1090 *et seq.* Consultant understands that, if this Agreement is made in violation of Government Code §1090 *et seq.*, the entire Agreement is void and Consultant will not be entitled to any compensation for Services performed pursuant to this Agreement, and Consultant will be required to reimburse the City for any sums paid to the Consultant. Consultant understands that, in addition to the foregoing, it may be subject to criminal prosecution for a violation of Government Code § 1090 and, if applicable, will be disqualified from holding public office in the State of California.

(b) Consultant shall not be compensated for any services rendered in connection with its performance of this Agreement which are in addition to those set forth herein, unless such additional services are authorized in advance and in writing by the City. Consultant shall be compensated for any additional services in the amounts and in the manner as agreed to by City and Consultant at the time City's written authorization is given to Consultant for the performance of said services.

(c) Consultant shall submit invoices monthly for actual services performed. Invoices shall be submitted on or about the first business day of each month, or as soon thereafter as practical, for services provided in the previous month. Payment shall be made within thirty

5. SUSPENSION OR TERMINATION OF AGREEMENT

(a) Either party may at any time, for any reason, with or without cause, suspend or terminate this Agreement, or any portion hereof, by serving upon the other party at least sixty (60) days prior written notice. Upon receipt of said notice from the City, the Consultant shall immediately cease all work under this Agreement, unless the notice provides otherwise. If either party suspends or terminates a portion of this Agreement such suspension or termination shall not make void or invalidate the remainder of this Agreement.

(b) In the event this Agreement is terminated pursuant to this Section, the City shall pay to Consultant the actual value of the work performed up to the time of termination, provided that the work performed is of value to the City. Upon termination of the Agreement pursuant to this Section, the Consultant shall submit an invoice to the City pursuant to Section 4 of this Agreement.

6. OWNERSHIP OF DOCUMENTS

(a) Consultant shall maintain complete and accurate records with respect to sales, costs, expenses, receipts, and other such information required by City that relate to the performance of services under this Agreement. Consultant shall maintain adequate records of services provided in sufficient detail to permit an evaluation of services. All such records shall be maintained in accordance with generally accepted accounting principles and shall be clearly identified and readily accessible. Consultant shall provide free access to the representatives of City or its designees at reasonable times to review such books and records; shall give City the right to examine and audit said books and records; shall permit City to make transcripts or copies therefrom as necessary; and shall allow inspection of all work, data, documents, proceedings, and activities related to this Agreement. Such records, together with supporting documents, shall be maintained for a period of three (3) years after receipt of final payment.

(b) Upon completion of, or in the event of termination or suspension of this Agreement, all original documents, designs, drawings, maps, models, computer files, surveys, notes, and other documents prepared in the course of providing the services to be performed pursuant to this Agreement shall become the sole property of the City and may be used, reused, or otherwise disposed of by the City without the permission of the Consultant. With respect to computer files, Consultant shall make available to the City, at the Consultant's office, and upon reasonable written request by the City, the necessary computer software and hardware for purposes of accessing, compiling, transferring, copying and/or printing computer files. Consultant hereby grants to City all right, title, and interest, including any copyright, in and to the documents, designs, drawings, maps, models, computer files, surveys, notes, and other documents prepared by Consultant in the course of providing the services under this Agreement. All reports, documents, or other written

material developed by Consultant in the performance of the Services pursuant to this Agreement, shall be and remain the property of the City.

When the law establishes a professional standard of care for Consultant's Services, to the fullest extent permitted by law, Consultant shall indemnify, protect, defend and hold harmless the City and any and all of its officials, employees and agents ("Indemnified Parties") from and against any and all losses, liabilities, damages, costs and expenses, including legal counsel's fees and costs caused in whole or in part by any negligent or wrongful act, error or omission of Consultant, its officers, agents, employees or Subconsultants (or any agency or individual that Consultant shall bear the legal liability thereof) in the performance of professional services under this Agreement.

(b) Indemnity for other than professional liability

Other than in the performance of professional services and to the full extent permitted by law, Consultant shall indemnify, defend and hold harmless City, and any and all of its employees, officials and agents from and against any liability (including liability for claims, suits, actions, arbitration proceedings, administrative proceedings, regulatory proceedings, losses, expenses or costs of any kind, whether actual, alleged or threatened, including legal counsel fees and costs, court costs, interest, defense costs, and expert witness fees), where the same arise out of, are a consequence of, or are in any way attributable to, in whole or in part, the performance of this Agreement by Consultant or by any individual or agency for which Consultant is legally liable, including but not limited to officers, agents, employees or subcontractors of Consultant.

(c) DUTY TO DEFEND. In the event the City, its officers, employees, agents and/or volunteers are made a party to any action, claim, lawsuit, or other adversarial proceeding arising from the performance of the services encompassed by this Agreement, and upon demand by City, Consultant shall have an immediate duty to defend the City at Consultant's cost or at City's option, to reimburse the City for its costs of defense, including reasonable attorney's fees and costs incurred in the defense of such matters.

Payment by City is not a condition precedent to enforcement of this indemnity. In the event of any dispute between Consultant and City, as to whether liability arises from the sole negligence of the City or its officers, employees, or agents, Consultant will be obligated to pay for City's defense until such time as a final judgment has been entered adjudicating the City as solely negligent. Consultant will not be entitled in the absence of such a determination to any reimbursement of defense costs including but not limited to attorney's fees, expert fees and costs of litigation.

8. INSURANCE

Consultant shall maintain prior to the beginning of and for the duration of this Agreement insurance coverage as specified in Exhibit C attached hereto and incorporated herein by reference.

Except for the fees paid to Consultant as provided in the Agreement, City shall not pay salaries, wages, or other compensation to Consultant for performing services hereunder for City. City shall not be liable for compensation or indemnification to Consultant for injury or sickness arising out of performing services hereunder.

10. LEGAL RESPONSIBILITIES

The Consultant shall keep itself informed of State and Federal laws and regulations which in any manner affect those employed by it or in any way affect the performance of its service pursuant to this Agreement. City retains the right, but has no obligation, to represent Consultant and/or be present at any deposition, hearing, or similar proceeding as allowed by law. Unless City is a party to the lawsuit, arbitration, or administrative proceeding and is adverse to Consultant in such proceeding, Consultant agrees to cooperate fully with the City and to provide the opportunity to review any response to discovery requests provided by Consultant. Without limiting Consultant's indemnification of City, and prior to commencement of the Services, Consultant shall obtain, provide and maintain at its own expense during the term of this Agreement, policies of insurance of the type and amounts described below and in a form satisfactory to the City.

General liability insurance. Consultant shall maintain commercial general liability insurance with coverage at least as broad as Insurance Services Office form CG 00 01, in an amount not less than \$1,000,000.00 per occurrence, \$2,000,000.00 general aggregate, for bodily injury, personal injury, and property damage. City reserves the right to require complete, certified copies of all required insurance policies, at any time.

Duration of coverage. Consultant shall procure and maintain for the duration of the contract insurance against claims for injuries to persons or damages to property, which may arise from or in connection with the performance of the Services hereunder by Consultant, his agents, representatives, employees or subconsultants.

Primary/noncontributing. Coverage provided by Consultant shall be primary and any insurance or self-insurance procured or maintained by City shall not be required to contribute with it. The limits of insurance required herein may be satisfied by a combination of primary and umbrella or excess insurance. primary and non-contributory basis for the benefit of City before the City's own insurance or self-insurance shall be called upon to protect it as a named insured.

City's rights of enforcement. In the event any policy of insurance required under this Agreement does not comply with these specifications or is canceled and not replaced, City has the right but not the duty to obtain the insurance it deems necessary and any premium paid by City will be promptly reimbursed by Consultant, or City will withhold amounts sufficient to pay premium from Consultant payments. Consultant hereby waives its own right of recovery against City, and shall require similar written express waivers and insurance clauses from each of its subconsultants.

Enforcement of contract provisions (non estoppel). Consultant acknowledges and agrees that any actual or alleged failure on the part of the City to inform Consultant of non-compliance with any requirement imposes no additional obligations on the City nor does it waive any rights hereunder.

Requirements not limiting. Requirements of specific coverage features or limits contained in this Section are not intended as a limitation on coverage, limits or other requirements, or a waiver of any coverage normally provided by any insurance. Specific reference to a given coverage feature is for purposes of clarification only as it pertains to a given issue and is not intended by any party or insured to be all inclusive, or to the exclusion of other coverage, or a waiver of any type. If the Consultant maintains higher limits than the minimums shown above, the City requires and shall be entitled to coverage for the higher limits maintained by the Consultant. Any available insurance proceeds in excess of the specified minimum limits of insurance and coverage shall be available to the City.

Notice of cancellation. Consultant agrees to oblige its insurance agent or broker and insurers to provide to City with a thirty (30) day notice of cancellation (except for nonpayment for which a ten (10) day notice is required) or nonrenewal of coverage for each required coverage.

Additional insured status. General liability policies shall provide or be endorsed to provide that City and its officers, officials, employees, and agents, and volunteers shall be additional insureds under such policies. This provision shall also apply to any excess liability policies.

Prohibition of undisclosed coverage limitations. None of the coverages required herein will be in compliance with these requirements if they include any limiting endorsement of any kind that has not been first submitted to City and approved of in writing.

Separation of Insureds. A severability of interests provision must apply for all additional insureds ensuring that Consultant's insurance shall apply separately to each insured against whom claim is made or suit is brought, except with respect to the insurer's limits of liability. The policy(ies) shall not contain any cross-liability exclusions.

Pass Through Clause. Consultant agrees to ensure that its subconsultants, subcontractors, and any other party involved with the project who is brought onto or involved in the project by Consultant, provide the same minimum insurance coverage and endorsements required of Consultant. Consultant agrees to monitor and review all such coverage and assumes all responsibility for ensuring that such coverage is provided in conformity with the requirements of this section. Consultant agrees that upon request, all agreements with consultants, subcontractors, and others engaged in the project will be submitted to City for review.

City's right to revise specifications. The City reserves the right at any time during the term of the contract to change the amounts and types of insurance required by giving the Consultant ninety (90) days advance written notice of such change. If such change results in substantial additional cost to the Consultant, the City and Consultant may renegotiate Consultant's compensation.

Self-insured retentions. Any self-insured retentions must be declared to and approved by the City. The City reserves the right to require that self-insured retentions be eliminated, lowered, or replaced by a deductible. Self-insurance will not be considered to comply with these specifications unless approved by the City.

Timely notice of claims. Consultant shall give the City prompt and timely notice of claims made or suits instituted that arise out of or result from Consultant's performance under this Agreement, and that involve or may involve coverage under any of the required liability policies.

Additional insurance. Consultant shall also procure and maintain, at its own cost and expense, any additional kinds of insurance, which in its own judgment may be necessary for its proper protection and prosecution of the work.

**CITY MANAGER'S/STAFF'S REPORT
CITY COUNCIL MEETING:**

August 5, 2019

ITEM NO: 5.

SUBJECT: Consideration of a resolution establishing a policy for the sale of alcoholic beverages at large non-profit events held at Pioneer Village

DISCUSSION: On September 17, 2017, the City Council approved a policy forwarded by the Pioneer Village Advisory Commission relating to rental events and alcohol, as set forth below:

1. Event ending time: Approved revision from 10:00 p.m. to 11:00 p.m.
2. Consumption of alcohol may only be sold/available for up to five (5) hours.
3. Alcohol must end consumption/sales one hour prior to the event ending time.

Staff and the Pioneer Village Advisory Commission are recommending that the City Council consider a policy revision that would allow a local non-profit organization, sponsoring an event with an estimated attendance of 400 or more guests, to request an extension of alcohol sales for their event. The policy gives the City Manager the authority to approve the extension of alcohol sales for an event. Under the proposed policy, the event needs to be sponsored by a local non-profit, profit from sales would benefit the non-profit, and the estimated attendance for the event needs to be 400 or more guests. Staff will also require, prior to approval, proof of non-profit status. (All other alcohol policies would remain intact, including ending one hour to the event ending time and security, etc.). Any private rental or events sponsored by any business, organization that is not a non-profit (and non-profit events with an estimated attendance of less than 400 guests), would need City Council approval for any waiver.

The Pioneer Village Advisory Commission held a Special Meeting on Thursday, July 25 and unanimously adopted a resolution recommending that the City Council adopt the proposed policy. Pursuant to Section 2-9-7 of the City's Code, the Commission is to submit its proposed rules, regulations and policies to the City Council for its review and approval.

The purpose of this policy revision is to allow local non-profits to increase their fundraising opportunity from the event sales, thereby reducing their reliance on funding from the City.

Staff will be providing a report at the meeting and will answer any questions that City Council may have.

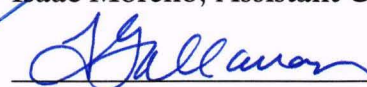

RECOMMENDATION: Adopt the resolution establishing a policy for the sale of alcoholic beverages at large non-profit events held at Pioneer Village.

**CITY MANAGER'S/STAFF'S REPORT
CITY COUNCIL MEETING:**

August 5, 2019

ITEM NO: 6.

SUBJECT: Consideration of a Resolution approving the preliminary Engineer's Report, declaring intention to levy and collect the annual assessment for services rendered in the Landscaping and Lighting Maintenance District No. 1, and providing notice of public hearing on the proposed assessments

DISCUSSION: The City established a Landscaping and Lighting Maintenance District ("LLMD") in 1984. The purpose of the district is to pay for landscaping, lighting, and other improvements plus services in a public area. In order to collect funds to pay for these services, the City files to the County Teeter program for collection via property taxes annually. Within the district, zones are established to create areas that benefit from the service provided. Currently there are 10 zones throughout the City. Their names and rates are as follows:

• Nelson East	114.14	• Blossom Ranch	106.82
• Nelson West	141.82	• Sundance	105.34
• Dinuba-Thompson	109.98	• Rosewood Estates	166.88
• Dancer Meadows	120.86	• Vineyard Estates	65.74
• Suncrest	148.92	• Royal County Estates	156.60

Within these zones there are a total of 1891 parcels. Under State law, in order to assess the levy for the services provided, the City Engineer is required to prepare a report which sets forth the plans and specifications for the improvements, the estimate of the costs of the improvements, a diagram for the LLMD, and an assessment of the estimated costs of the improvements.

The assessment for each zone is calculated using the information set forth in the Engineer's Report. This Report is completed each year and adopted.

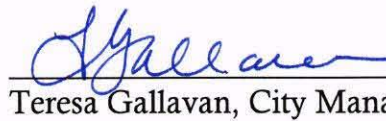

For the fiscal year 2019-2020 there will be no cost increase from the prior year. Vineyard Estates will incur a decrease from the prior year per parcel due to the increase in parcels quantity. The total amount filed to the tax roll is \$242,588.96.

After adopting the preliminary Engineer's Report, State law requires the City to hold a public hearing to hear any protests regarding the proposed assessments. Staff is recommending that the City conduct the public hearing at its regular meeting on August 19, 2019.

RECOMMENDATION: Adopt the resolution approving the preliminary Engineer's Report, declaring intention to levy and collect the annual assessment for services rendered in the Landscaping and Lighting Maintenance District No. 1, and providing notice of public hearing on the proposed assessments.

The 1972 Act provides that the total cost of construction, operation, maintenance and servicing of landscape and lighting improvements can be recovered by the District.

The costs to construct, operate, maintain, and service the landscape and lighting improvements include, but are not limited to, personnel, electrical energy, utilities such as water, materials, contractual services and other items necessary for the landscape and lighting improvements to be properly operated, maintained and serviced to City standards.

Maintenance means the furnishing of services, materials and supplies for the ordinary and usual operations, maintenance and servicing of the landscaping, lighting and appurtenant improvements, including the repair, removal or replacement of all or part of any of the landscaping, street lighting or appurtenant improvements; including cultivation, irrigation, trimming, spraying, fertilizing and treating for disease or injury; and the removal of trimmings, rubbish, debris and other solid waste.

Servicing means the furnishing of water for the irrigation of the landscaping improvements and the furnishing of electric current or energy for the operation of street lights, irrigation controllers or other appurtenant improvements.

Below is a summary of the improvements that will be operated, maintained and serviced by the assessment district.

- 1) Landscaping within the right of way;
- 2) Landscaping in designated open space areas;
- 3) Weed control throughout all maintained landscape areas;
- 4) Irrigation systems throughout all maintained landscape areas;
- 5) Entry monuments and signage;
- 6) Block wall graffiti abatement
- 7) Street lighting, conduits and appurtenant hardware; and
- 8) Detention basins where designated

The 1972 Act requires that a special fund be set up for the revenues and expenditures of the District. Funds raised by the assessments shall be used only for the purpose as stated herein. Any balance remaining on July 1 must be carried over to the next fiscal year unless the funds are being accumulated for future capital improvements and/or operating reserves.

The construction, operation, maintenance, and servicing costs for Fiscal Year 2019-20 are summarized in Exhibit "A" in the Appendix.

PART D

METHOD OF APPORTIONMENT OF ASSESSMENT

The 1972 Act permits the establishment of assessment districts by agencies for the purpose of providing certain public improvements which include the construction, maintenance, and servicing of public lights, landscaping, and appurtenant facilities. The 1972 Act further requires that the cost of these improvements be levied according to benefit rather than assessed value.

"The net amount to be assessed upon lands within an assessment district may be apportioned by any formula or method which fairly distributes the new amount among all assessable lots or parcels in proportion to the estimated benefits to be received by each such lot or parcel from the improvements."

The formula used for calculating assessments in each zone, therefore reflects the composition of the parcels, and the improvements and services provided, to apportion the costs based on estimated benefit to parcels within each zone.

In addition, pursuant to Article XIID, Section 4 of the State Constitution, a parcel's assessment may not exceed the reasonable cost of the proportional special benefit conferred on that parcel, and provides that only special benefits are assessable. Therefore, in compliance with the new assessment requirements, only assessments that are identified as "Special Benefit Assessments" are assessed.

Estimates for materials and miscellaneous expenses included are based on the best available data known at the time the budgets for each District were prepared and the assessment was determined.

B. Benefit Analysis

The method of apportionment (method of assessment) is based on the premise that the assessed parcels within each zone receives equal benefit from the improvements maintained and financed by the District's assessments. The assessments are for the maintenance of local landscape improvements installed as part of the original development of the parcels within each zone and approved by property owners at the annexation of the zone into the District. The desirability of properties within each zone is enhanced by the presence of well-maintained landscaping and sufficient lighting in close proximity to those properties.

The improvements provided by the District generally include landscaped parkways, entryways, recreation/retention areas, street lighting for pedestrians and vehicles, and any other appurtenant facilities. The annual assessments outlined in this Report are proposed to cover the estimated cost to provide all necessary services, operation, administration, and maintenance required during the year to keep these improvements in a healthy, vigorous, and satisfactory condition.

The special benefits associated with the local landscaping and lighting improvements are specifically:

- Enhanced desirability of properties through association with the improvements
- Improved aesthetic appeal of properties within the Districts providing a positive representation of the area.
- Increased sense of pride in ownership of property resulting from well-maintained improvements associated with the properties.
- Reduced criminal activity and property-related crimes (especially vandalism) against properties in the District through well-maintained surroundings and amenities, including abatement of graffiti.
- Enhanced environmental quality of the parcels within the Districts by moderating temperatures, providing oxygenation and attenuating noise.
- Intersection lighting to maximize illumination and reduce potential vehicular accidents.
- Illumination of walkways and pathways to increase pedestrian foot traffic and facilitate safety.
- Public street lights serving a property provide a variety of benefits to the property
 - Access benefit – public street lights improve ingress and egress from properties from dusk to dawn.
 - Security benefit – public streetlights help reduce vandalism against properties and criminal acts on properties between dusk to dawn.
 - Traffic benefit – Public Street lights improve safety and facilitate the flow traffic to and from properties between dusk to dawn.

All of the preceding special benefits contribute to a specific enhancement and desirability of each of the assessed parcels within the Districts creating a more distinctive and a greater defined quality of life.

ASSESSMENT METHODOLOGY

Each single family residential parcel within each of the various areas benefits equally from the construction, operation, maintenance and servicing of the landscaping and street lighting improvements within the service area. Therefore, the total assessment revenue needed to construct, operate, maintain and service the landscaping and street lighting improvements will be spread equally to each single family residential parcel within each service area.

Upon arrival, officers contacted a member of the church who provided officers with a .32 caliber Winchester revolver and a plastic baggie containing methamphetamine. The church member said an unknown suspect dropped the property fled the area in an unknown direction.
