**CITY MANAGER'S/STAFF'S REPORT  
CITY COUNCIL MEETING:**

October 4, 2021

---

---

**ITEM NO:** 2.

**SUBJECT:** Public Hearing to Receive Input from the Community Regarding the amendment to Various Sections of Title X, Chapter 10 of the Selma Municipal Code relating to Truck/Trailer/RV Parking on Residential Streets and Other Public Rights-of-Way

---

---

**RECOMMENDATION:** Waive Second Reading, Receive Public Comment and Adopt Ordinance amending various sections of Title X, Chapter 10 of the Selma Municipal Code.

---

---

**BACKGROUND:**

City of Selma staff has received numerous complaints regarding commercial trucks, truck tractors, trailers and recreational vehicles ("RVs") on residential streets. The City Council directed staff to make changes to the Selma Municipal Code ("SMC") to more effectively address this issue. The proposed ordinance amendments were presented to the Planning Commission on August 23, 2021. The Planning Commission approved a Resolution recommending the City Council adopt the proposed ordinance amendments. (Attachment 1).

Currently, SMC Section 10-10-26 prohibits parking of "truck or truck tractor and/or trailer having a gross minimum weight in excess of five (5) tons" in residential areas. This prohibition has been difficult to enforce given the variability of weights of different types of trucks and truck tractors and a lack of clear definition of truck, truck tractor, and trailer.

With regard to RVs (including travel trailers), the Selma Municipal code does not prohibit parking of RVs on residential streets, except to state that it is "unlawful for any person to use, occupy or maintain for living purposes a travel trailer or mobile home on any area or tract of land in the City zoned for residential or commercial purposes unless the travel trailer or mobile home is located upon or in an area designated as a mobile home park..." (SMC Title 5, Chapter 5, Section 5-5-2). This language does not expressly prohibit parking of travel trailers and mobile homes on residential streets – it merely prohibits their use for occupation in zones not designated for mobile home parks.

**DISCUSSION:**

Staff has prepared a presentation on the code amendment. The purpose of the code amendment now being proposed is to establish clearer, more specific and easily enforceable restrictions on parking of trucks, truck tractors, trailers, and recreational vehicles. The proposed code amendment also provides clearer definitions for each type of vehicle, and specifies which City officials have the authority to enforce this section of the code. The code also makes allowances for loading and unloading of RVs, and makes exceptions for certain types of trucks and tractors.

The fine imposed by this Chapter may be enforced by issuance of an Administrative Citation under Chapter 20 of Title I of the SMC.

**Environmental Review (CEQA)**

This project is exempt under California Environmental Quality Act (CEQA) Guidelines, Section 15061(b)(3), General Rule "Common Sense" Exemption (there is no possibility that the activity in question may have a significant effect on the environment). The proposed ordinance amendment does not materially change the current parking ordinance in a manner that would result in more impactful uses of City streets.

---

**RECOMMENDATION:** Waive Second Reading, Receive Public Comment and Adopt Ordinance amending various sections of Title X, Chapter 10 of the Selma Municipal Code.

CITY COUNCIL MEETING:**

**ITEM NO:**

3.

**SUBJECT:** Consideration of Options for Fall 2021 Community Clean-up Week Event

---

---

**RECOMMENDATION:** Staff recommends approval of the Waste Management Fall Cleanup event at the Selma Unified School District Transportation Yard.

---

---

**BACKGROUND:** The City of Selma has a multi-year agreement with Waste Management through 2024. The agreement stipulates Waste Management will provide two community clean-up events a year in a location approved by the City. On March 18, 2019, Council approved holding the events at the Waste Management Transfer Station at 5608 South Villa Avenue, Fresno.

On February 16, 2021, Council considered a number of options for future community clean-up events (Attachment A). Of the options, Council expressed interest in potentially moving the event back to Selma and possibly looking at a voucher program in the next fiscal year.

On September 20, 2021, Council heard from Waste Management again on options in Selma. Several locations were discussed and several posed various barriers. WM sited that the previous location available to them is no longer available and that safety issues were the main barrier for the multiple locations presented by Staff.

**DISCUSSION:** With a cleanup event planned for the third week in October 2021, Staff has worked with Waste Management to evaluate further options including the former Fire Training Facility. Waste Management was able to initiate services with the Selma Unified School District Transportation Yard.

**SUPPLEMENTAL QUESTIONS**  
**FOR PLANNING COMMISSION CANDIDATES**

NOTE: If the space provided for answers is not sufficient, please attach additional sheets, continue your answer on that sheet, and identify the question being answered.

1. What special abilities, talents, and qualifications would you bring to the Planning Commission?

I worked in the construction industry for 9 years in a management position. I am familiar with the complexities of running millions of dollars worth of construction projects and bringing them in on time and within budget. I am familiar with how to read a blueprint and discern what the vision of a project is.

2. What are the most important qualifications for being a Planning Commissioner?

I think that the most important qualification for being a planning commissioner is the desire to make the city of Selma the best city it can be. Growth is great, but knowing what kinds of growth can improve our city socially, economically, and financially is utmost. Also, being familiar with construction and development will help a commissioner understand what a proposed development can do to, and for, a city.

3. What do you believe is the Planning Commission's most important function?

The most important function of a planning commissioner is to make certain that any development that happens in Selma follows not only our general plan, but also makes our city better because of it.

4. What do you believe are the most significant General Plan goals and policies, and why?

The General Plan should drive development. The most important things that the General Plan should take into consideration are infrastructure and meeting State development mandates.

Additionally, we need to have the infrastructure in place to attract commercial/retail businesses to provide jobs for our community. All of these will increase our tax base and provide more monies for public safety and other city services.

5. What part of the General Plan do you think will be the most difficult to implement and why?

A difficult part of the general plan to implement is the mandate from the State for affordable housing. Every one knows that we have a housing crisis in the State of California. Our General Plan needs to find a balance between providing affordable housing while meeting all of the other needs of our city. Finding a balance between provide housing and increasing the tax base will be a challenge.

6. What do you think will be the most significant planning issues facing the City of Selma over the next five years?

The City of Selma needs to increase the Commercial/Retail development in our city. These types of developments will increase our tax revenue and provide the jobs that will attract families to move here.

7. Is there any part of the local planning process that you would like to see changed? What? How? Why?

I'm not sure if this is a change, but I'd like to see developments being held responsible for the infrastructure needs that their developments require. Developers have to be held responsible for the extra pressure that their projects demand of the City.

8. What do you feel should be the relationship between the Planning Commission and the City Council?

The planning Commission should be an advisory committee that recommends projects they deem to be positive additions to the city. The council has the ultimate decision on every project, but having open lines of communication between the Commission and the City Council can assure that every development project has been well considered and deemed a positive addition to our City.

**DISCUSSION:** Antioquia Ministries, Inc., Bringing Broken Neighborhoods Back to Life, Central Valley Ministry Alliance, and Selma Legacy Youth Program have requested authorization to have a special event and a fee waiver to hold their annual March for Jesus on October 23, 2021.

Due to the timing of the request, the financial impacts of this event have not been fully calculated but the following services will be needed:

- Police: Estimated 5 employees: 3 Officers, 1 Sergeant, and 1 Community Service Officer
- Planning: Special Event Permit and Amplified Sound Fee
- Public Works: Barricades and staff time

The event is scheduled from 8:00 AM to 9:00 AM in the area depicted on the attached Exhibit A (MFJ Area Map 2020). Similar to 2020, the starting point will be at Antioquia Ministries located at 1426 Grove Street then north/east to Rose Avenue then west to the perimeter of Lincoln Park. However, this year the event will return to Antioquia Ministries where additional festivities will be held.

The fee waiver serves a public purpose by allowing for a march that will promote unity and coming together within these difficult times. Since the fees have not been fully calculated, the requested fee waiver will not exceed \$5,000.
