Board of Directors
Selma Public Finance Authority
Selma, California

INDEPENDENT AUDITOR'S REPORT

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Selma Public Finance Authority as of and for the year ended June 30, 2016, which collectively comprise the Authority's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risk of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the authority's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the authority's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of Selma Public Finance Authority as of June 30, 2016, and the respective changes in financial position for the year then ended in conformity with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis on pages 3 and 4 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated December 6, 2016 on our consideration of the Selma Public Finance Authority's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Selma Public Finance Authority's control over financial reporting and compliance.

Sampson, Sampson & Patterson, LLP

SELMA PUBLIC FINANCE AUTHORITY
MANAGEMENTS' DISCUSSION AND ANALYSIS
JUNE 30, 2016

This section of the Selma Public Finance Authority's annual audit report presents a discussion by the Finance department of the Authority's financial performance during the fiscal year, which ended on June 30, 2016. Please read in conjunction with the Authority's financial statements, which follow this section.

FINANCIAL HIGHLIGHTS

- The Authority's total assets are \$1,575,903. The Authority's liabilities are \$1,225,000.
- During the year the Authority's total revenues are \$(500,388). Total expenses are \$518,008.

OVERVIEW OF THE FINANCIAL STATEMENTS

This annual report consists of two parts—management's discussion and analysis (this section) and the basic financial statements.

The basic financial statements include two kinds of statements that present different views of the Authority:

The first two statements are government-wide financial statements that provide both long-term and short-term information about the Authority's overall financial status.

The remaining statements are fund financial statements that focus on individual parts of the government, reporting the Authority's operations in more detail than the government-wide statements.

The governmental funds statements tell how general government services were financed in the short-term as well as what remains for future spending.

The financial statements also include notes that explain some of the information in the financial statements and provide more detailed data.

Government-wide Statements

The government-wide statements report information about the Authority as a whole using accounting methods similar to those used by private-sector companies. The statement of net assets includes all of the government's assets and liabilities. All of the current year's revenues and expenses are accounted for in the statement of activities regardless of when cash is received or paid.

The two government-wide statements report the Authority's net assets and how they have changed. Net assets—the difference between the Authority's assets and liabilities—are one way to measure the Authority's financial health or position:

- Over time, increases or decreases in the Authority's net assets are an indicator of whether its financial health is improving or deteriorating, respectively.
- To assess the overall health of the Authority, one needs to consider additional nonfinancial factors such as changes in the Authority's tax base.

SELMA PUBLIC FINANCE AUTHORITY
MANAGEMENTS' DISCUSSION AND ANALYSIS
JUNE 30, 2016

The government-wide financial statements of the Authority include the Governmental activities. Most of the Authority's basic services are included here. Property taxes and grants finance most of these activities.

Fund Financial Statements

The fund financial statements provide more detailed information about the Authority's most significant funds—not the Authority as a whole. Funds are accounting devices that the Authority uses to keep track of specific sources of funding and spending for particular purposes:

- Some funds are required by State law and by bond covenants.
- The Board of Trustees establishes other funds to control and manage money for particular purposes or to show that it is properly using certain taxes and grants.

Selma Public Finance Authority has the following kinds of funds:

- Governmental funds—Most of the Authority's basic services are included in governmental funds, which focus on (1) how cash and other financial assets that can readily be converted to cash, flow in and out and (2) the balances left at year-end that are available for spending. Consequently, the governmental fund statements provide a detailed short-term view that helps you determine whether there are more or fewer financial resources that can be spent in the near future to finance the Authority's programs. Because this information does not encompass the additional long-term focus of the government-wide statements, we provide additional information at the bottom of the governmental funds statements, or on the subsequent page, that explain the relationship (or differences) between them.

FURTHER INFORMATION

This financial report is designed to provide citizens, taxpayers, investors and creditors with a general overview of the Authority's finances and to demonstrate the Authority's accountability for the money it receives. If you have questions or need additional information, contact Isaac Moreno, at the City of Selma.

Reconciliation of the Statement of Revenues, Expenditures,
and Changes in Fund Balances of Governmental Funds
to the Statement of Activities
For the Year Ended June 30, 2016

Net change in fund balance – total governmental funds	\$ (622)
Amounts reported for Governmental Activities in the Statement of Net Position are different because:	
Payments received on long-term receivables are reported as revenues in the funds statements but reduced the receivables amount in the Statement of Net Position	(126,998)
Receipt of notes receivable is revenue in the funds but is not revenue in the Statement of Activities	(505,000)
Payment of bond principal is an expenditure in the funds but is not an expense in the Statement of Activities	<u>615,000</u>
Changes in net position of governmental activities – Statement of Activities	<u>\$ (17,620)</u>

SELMA PUBLIC FINANCE AUTHORITY
Notes to Financial Statements
June 30, 2016

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The combined financial statements of Selma Public Finance Authority (the “Authority”) have been prepared in conformity with accounting principles applicable to governmental units which are generally accepted in the United States of America. The Governmental Accounting Standards Board (GASB) is the accepted standard setting body for establishing governmental accounting and financial reporting principles.

1. Reporting Entity

The Authority’s basic financial statements include the accounts of all its operations. The Authority evaluated whether any other entity should be included in these financial statements. The criteria for including organizations as component units within the Authority’s reporting entity, as set forth in GASB Statement No. 14, “The Financial Reporting Entity,” include whether:

- The organization is legally separate (can sue and be sued in its name)
- The Authority holds the corporate powers of the organization
- The Authority appoints a voting majority of the organization’s board
- The Authority is able to impose its will on the organization
- The organization has the potential to impose a financial benefit/burden on the Authority
- There is fiscal dependency by the organization on the Authority
- The exclusion of the organization would result in misleading or incomplete financial statements

The Authority also evaluated each legally separate, tax-exempt organization whose resources are used principally to provide support to the Authority to determine if its omission from the reporting entity would result in financial statements which are misleading or incomplete. GASB Statement No. 14 requires inclusion of such an organization as a component unit when: 1) The economic resources received or held by the organization are entirely or almost entirely for the direct benefit of the Authority, its component units or its constituents; and 2) The Authority or its component units is entitled to, or has the ability to otherwise access, a majority of the economic resources received or held by the organization; and 3) Such economic resources are significant to the Authority.

Based on these criteria, the Authority has no component units. Additionally, the Authority is a component unit of the City of Selma, as defined by the GASB Statement.

2. Basis of Presentation, Basis of Accounting

Basis of Presentation

Government-wide Statements: The statement of net position and the statement of activities include the financial activities of the overall government. Eliminations have been made to minimize the double-counting of internal activities. Governmental activities generally are financed through taxes, intergovernmental revenues, and other non-exchange transactions.

SELMA PUBLIC FINANCE AUTHORITY
Notes to Financial Statements
June 30, 2016
(Continued)

The statement of activities presents a comparison between direct expenses and program revenues for each function of the Authority's governmental activities. Direct expenses are those that are specifically associated with a program or function and, therefore, are clearly identifiable to a particular function. The Authority does not allocate indirect expenses in the statement of activities. Program revenues include (a) fees, fines, and charges paid by the recipients of goods or services offered by the programs and (b) grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues that are not classified as program revenues, including all taxes, are presented as general revenues.

Fund Financial Statements: The fund financial statements provide information about the Authority's funds, with separate statements presented for each fund category. The emphasis of fund financial statements is on major governmental funds, each displayed in a separate column. All remaining governmental funds are aggregated and reported as nonmajor funds.

The Authority reports the following major governmental funds:

General Fund: This is the Authority's primary operating fund. It accounts for all financial resources of the Authority except those required to be accounted for in another fund.

Measurement Focus, Basis of Accounting

Government-wide Financial Statements: These financial statements are reported using the economic resources measurement focus. They are reported using the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded at the time liabilities are incurred, regardless of when the related cash flows take place. Non-exchange transactions, in which the Authority gives (or receives) value without directly receiving (or giving) equal value in exchange, include property taxes, grants, entitlements, and donations. On an accrual basis, revenue from property taxes is recognized in the fiscal year for which the taxes are levied. Revenue from grants, entitlements, and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied.

Governmental Fund Financial Statements: Governmental funds are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Under this method, revenues are recognized when measurable and available. The Authority considers all revenues reported in the governmental funds to be available if the revenues are collected within sixty days after year-end. Revenues from local sources consist primarily of property taxes. Property tax revenues and revenues received from the State are recognized under the susceptible-to-accrual concept. Miscellaneous revenues are recorded as revenue when received in cash because they are generally not measurable until actually received. Investment earnings are recorded as earned, since they are both measurable and available. Expenditures are recorded when the related fund liability is incurred, except for principal and interest on general long-term debt, claims and judgments, and compensated absences, which are recognized as expenditures to the extent they have matured. General capital asset acquisitions are reported as expenditures in governmental funds. Proceeds of general long-term debt and acquisitions under capital leases are reported as other financing sources.

SELMA PUBLIC FINANCE AUTHORITY
Notes to Financial Statements
June 30, 2016
(Continued)

When the Authority incurs an expenditure or expense for which both restricted and unrestricted resources may be used, it is the Authority's policy to use restricted resources first, then unrestricted resources.

3. Financial Statement Amounts

Fund Balances – Governmental Funds

Fund balances of the governmental funds are classified as follows:

Nonspendable Fund Balance – represents amounts that cannot be spent because they are either not in spendable form (such as inventory or prepaid insurance) or legally required to remain intact (such as notes receivable or principal of a permanent fund).

Restricted Fund Balance – represents amounts that are constrained by external parties, constitutional provisions or enabling legislation.

Committed Fund Balance – represents amounts that can only be used for specific purpose because of a formal action by the Authority's Board of Trustees. Committed amounts cannot be used for any other purpose unless the Board of Trustees removes those constraints by taking the same type of formal action. Committed fund balance amounts may be used for other purposes with appropriate due process by the Board of Trustees. Commitments are typically done through adoption and amendment of the budget. Committed fund balance amounts differ from restricted balances in that the constraints on their use do not come from outside parties, constitutional provisions, or enabling legislation.

Assigned Fund Balance – represents amounts which the Authority intends to use for a specific purpose, but that do not meet the criteria to be classified as restricted or committed. Intent may be stipulated by the Board of Trustees or by an official or body to which the Board of Trustees delegates the Authority. Specific amounts that are not restricted or committed in a special revenue, capital projects, debt service or permanent fund are assigned for purposes in accordance with the nature of their fund type or the fund's primary purpose. Assignments within the general fund conveys that the intended use of those amounts is for a specific purpose that is narrower than the general purposes of the Authority itself.

Unassigned Fund Balance – represents amounts which are unconstrained in that they may be spent for any purpose. Only the general fund reports a positive unassigned fund balance. Other governmental funds might report a negative balance in this classification because of overspending for specific purposes for which amounts had been restricted, committed or assigned.

SELMA PUBLIC FINANCE AUTHORITY
Notes to Financial Statements
June 30, 2016
(Continued)

When an expenditure is incurred for a purpose for which both restricted and unrestricted fund balance is available, the Authority considers restricted funds to have been spent first. When an expenditure is incurred for which committed, assigned, or unassigned fund balances are available, the Authority considers amounts to have been spent first out of committed funds, then assigned funds, and finally unassigned funds.

The preparation of financial statements in conformity with GAAP requires the use of management's estimates.

NOTE 2 – COMPLIANCE AND ACCOUNTABILITY

Finance-Related Legal and Contractual Provisions

In accordance with GASB Statement No. 38, "Certain Financial Statement Note Disclosures," violations of finance-related legal and contractual provisions, if any, are reported below, along with actions taken to address such violations:

Violation	Action Taken
None Reported	Not Applicable

NOTE 3 – CASH AND INVESTMENTS

The Authority's funds are required to be deposited and invested under the terms of a depository contract. The depository bank deposits for safekeeping and trust with the Authority's agent bank approved pledged securities in an amount sufficient to protect Authority funds on a day-to-day basis during the period of the contract. The pledge of approved securities is waived only to the extent of the depository bank's dollar amount of Federal Deposit Insurance Corporation (FDIC) insurance.

Cash and investments as of June 30, 2016 are classified in the accompanying financial statements as follows:

Statement of net position:	
Cash and investments	\$139,593
Restricted cash and investments with fiscal agents	<u>155,267</u>
Total cash and investments	<u>\$294,860</u>

SELMA PUBLIC FINANCE AUTHORITY
Notes to Financial Statements
June 30, 2016
(Continued)

Cash and investments as of June 30, 2016 consists of the following:

Deposits with financial institutions	\$139,593
Money market funds	<u>155,267</u>
Total cash and investments	<u>\$294,860</u>

A. Investment Authorized by the California Government Code and the Cities Investment Policy

The table below identifies the investment types that are authorized for the City of Selma (City) by the California Government Code (or the City's investment policy, where more restrictive). The table also identified certain provisions of the California Government Code (or the City's investment policy, where more restrictive) that address interest rate risk, credit risk, and the concentration of credit risk. This table does not address investment of debt proceeds held by bond trustee that are governed by the provisions of debt agreements of the City, rather than the general provisions of the California Government Code or the City's investment policy.

Authorized Investment Type	Maximum Maturity	Maximum Percentage of Portfolio	Maximum Investment in One Issuer
Local Agency Investment Fund (State Pool)	N/A	None	None
U.S. Treasury Obligations	5 years	None	None
U.S. Government Agency Issues	5 years	None	None
Insured Passbook on Demand Deposits with Banks and Savings and Loans	N/A	None	\$250,000
Certificates of Deposit	5 years	None	None
Bankers Acceptances	180 days	40%	30%
Commercial Paper	270 days	25%	10%
Mutual Funds (must be comprised of eligible securities permitted under this policy)	N/A	20%	10%
Money Market Funds (must be comprised of eligible securities permitted under this policy)	N/A	20%	10%

The investment policy allows for the above investments which have equal safety and liquidity as all other allowed investments. Maturity depends on the cash needs of the City.

SELMA PUBLIC FINANCE AUTHORITY
Notes to Financial Statements
June 30, 2016
(Continued)

B. Disclosures Relating to Interest Rate Risk

Interest rate risk is the risk the changes in market interest rates will adversely affect the fair value of an investment. Generally, the longer the maturity of an investment, the greater the sensitivity of its fair value to changes in market interest rates. One of the ways that the City manages its exposure to interest rate risk by purchasing a combination of short-term and longer-term investments and by timing cash flows from maturities so that a portion of the portfolio is maturing or coming close to maturity evenly over time as necessary to provide the cash flow and liquidity needed for operations.

Information about the sensitivity of the fair value of the City's investments (including investments held by bond trustee) to market interest rate fluctuations is provided by the following table that shows the distribution of the City's investments by maturity:

<u>Investment Type</u>	<u>Fair Value</u>	<u>12 Months or Less</u>
Held by Bond Trustee:		
Money Market Funds	<u>\$155,267</u>	<u>\$155,267</u>
	<u>\$155,267</u>	<u>\$155,267</u>

C. Investments with Fair Values Highly Sensitive to Interest Rate Fluctuations

The City has no investments (including investments held by bond trustees) that are highly sensitive to interest-rate fluctuations (to a greater degree than already indicated in the information provided above).

D. Disclosures Relating to Credit Risk

Generally, credit risk is the risk that an issuer of an investment will not fulfill its obligation to the Holder of the investment. This is measured by the assignment of a rating by a nationally recognized statistical rating organization. Presented below is the minimum rating required by (where applicable) the California Government Code, the City's investment policy, or debt agreements, and the actual rating as of fiscal year end for each investment type.

<u>Investment Type</u>	<u>Amount</u>	<u>Ratings as of Fiscal Year End</u>		
		<u>Minimum Legal Rating</u>	<u>Not Rated</u>	<u>AAAm</u>
Held by Bond Trustee:				
Money Market Funds	<u>\$155,267</u>	AAm	\$	<u>\$155,267</u>
	<u>\$155,267</u>		\$	<u>\$155,267</u>

SELMA PUBLIC FINANCE AUTHORITY
Notes to Financial Statements
June 30, 2016
(Continued)

E. Concentration of Credit Risk

The investment policy of the City of Selma contains no limitations on the amount that can be invested with any one issuer beyond that stipulated by the California Government Code. There were no investments in any one issuer that represented 5% or more of the total investments.

F. Custodial Credit Risk

Custodial Credit Risk for deposits is the risk that, in the event of the failure of a depository financial institution, a government will not be able to recover its deposits, or will not be able to recover collateral securities that are in the possession of an outside party. The Custodial Credit Risk for investments is the risk that, in the event of the failure of the counterparty (example broker-dealer) to a transaction, a government will not be able to recover the value of its investment or collateral securities that are in the possession of another party. The California Government Code and the City's investment policy do not contain legal or policy requirements that would limit the exposure to Custodial Credit Risk for deposits or investments, other than the following provision for deposits: The local governmental units by pledging securities in an undivided collateral pool held by a depository regulated under state laws (unless so waived by the governmental unit). The fair value of the pledged securities and the collateral pool must equal at least 110% of the total amount deposited by the public agencies. California law also allows financial institutions to secure City deposits by pledging first trust deed mortgage notes having a value of 150% of the secured public deposits.

As of June 30, 2016, none of the Authority's deposits with financial institutions in excess of federal depository insurance limits were held in an uncollateralized accounts. In addition, as of June 30, 2016, no investments were held by the same broker dealer (counterparty) that was used by the City of Selma to purchase the securities.

NOTE 4 – AMOUNTS TO BE PROVIDED BY SPECIAL ASSESSMENTS

The Authority has entered into bond agreements with the following at June 30, 2016:

City of Selma:

Assessment District No. 1991-2 Improvement Bonds - Highland	\$389,008
Assessment District No. 1992-1 Improvement Bonds – Dancer II	117,057
Assessment District No. 1992-1 Supplemental Improvement Bonds – Dancer III	110,881
Assessment District No. 1993-1 Improvement Bonds – Vineyards	215,000
Assessment District No. 1991-2 Supplemental Improvement Bonds – Watermain	<u>69,097</u>
	<u>\$901,043</u>

2019	145,000	60,969	205,969
2020	155,000	51,094	206,094
2021	185,000	40,100	225,100
2022-2024	<u>450,000</u>	<u>46,400</u>	<u>496,400</u>
Totals	<u>\$1,225,000</u>	<u>\$348,169</u>	<u>\$1,573,169</u>

Bonds Payable

Description	Interest Rate Payable	Amount Original Issue	Outstanding June 30, 2015	Issued	Retired	Outstanding June 30, 2016
1994	4% -7.25%	\$11,570,000	\$ 885,000	\$	\$505,000	\$ 380,000
2014	3.250%	955,000	<u>955,000</u>	<u> </u>	<u>110,000</u>	<u>845,000</u>
			<u>\$1,840,000</u>	<u> </u>	<u>\$615,000</u>	<u>\$1,225,000</u>

1994 Revenue Bonds

On December 23, 2015, the City of Selma issued \$4,344,619 Lease Obligation Refunding Bonds with an average interest rate of 3.09% to advance refund \$3,940,000 of outstanding 2010 Lease Revenue Refunding Bonds with an average interest rate of 7.00% and partial refunding of 1994 Revenue Bonds of \$450,000 with an average interest rate of 6.0%. The interest is payable semi-annually on February 1st and August 1st, commencing February 1, 2016. The bonds mature annually at various amounts through February 1, 2032. The bonds are payable from revenues and all other moneys on deposit in any fund or account pursuant to this indenture. The principal balance on the 1994 revenue bonds at June 30, 2016 is \$380,000.

The Bonds were issued to partially refinance the Authority's previously issued 1994 Revenue Bonds in the principal amount of \$450,000, of which \$380,000 remained outstanding at June 30, 2016. As a result the \$450,000 is considered defeased and the liability for this issue has been removed from the Long-Term Liabilities of the Governmental Activities Debt.

2010 Lease Revenue Refunding Bonds

As previously stated above, the City of Selma issued \$4,344,619 Lease Obligation Refunding Bonds to advance refund \$3,940,000 of outstanding 2010 Lease Revenue Refunding Bonds and partial refunding of 1994 Revenue Bonds of \$450,000.

The Bonds were issued to refinance the Authority's previously issued 2010 Lease Revenue Refunding Bonds in the principal amount of \$3,950,000. As a result the 2010 Lease Revenue Bonds are considered defeased and the liability for this issue has been removed from the Long-Term Liabilities of Governmental Activities.

The City advance refunded the 1994 Revenue Bonds and the 2010 Lease Revenue Refunding Bonds, to reduce debt service payments over the next 16 years by almost \$3,315,024 and to obtain an economic gain (difference between the present values of the debt service payments on the old and new debt) of \$1,670,610.

The City has covenanted under the lease agreement to make all the lease payments and to include such payments in its annual budgets. The debt obligation is being recorded on the City's financial statements and thus not listed as part of the Public Financing Authority Long-Term Debt.

The Authority's obligations with respect to the 2010 Revenue Refunding Bonds have been fully discharged upon the issuance of the 2015 Lease Obligations Bonds.

2014 Assessment Revenue Refunding Bonds

On June 1, 2014, the Selma Public Financing Authority issued \$955,000 Series 2014 Assessment Revenue Refunding Bonds bearing interest of 3.250% payable semi-annually on September 2nd and March 2nd, commencing September 2, 2014. The bonds mature annually at various amounts through September 2, 2022. The bonds are payable from revenues and all other moneys on deposit in any fund or account pursuant to this indenture. The principal balance outstanding at June 30, 2016 is \$845,000.

The Bonds were issued to refinance the Authority's previously issued Series 1999A Assessment Revenue Bonds in the principal amount of \$8,165,000 of which \$845,000 remained outstanding at June 1, 2016. As a result the Series 1999A Assessment Revenue Bonds are considered defeased and the liability for this issue has been removed from the Long-Term Liabilities of the Governmental Activities Debt.

The aggregate debt service payments of the new debt are \$125,000 less than the old debt. The issuance of the new debt resulted in an economic gain (the difference between the present value of the old debt and new debt payments of approximately \$152,000).

NOTE 7 – COMMITMENTS AND CONTINGENCIES

Litigation

No reportable litigation was pending against the Authority at June 30, 2016.

NOTE 8 – SUBSEQUENT EVENTS

Subsequent events were evaluated through December 6, 2016, which is the date the financial statements were available to be issued.

OTHER AUDITOR'S REPORTS

December 6, 2016

Board of Directors
Selma Public Finance Authority
Selma, California

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER
FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED
ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH
GOVERNMENT AUDITING STANDARDS

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits in *Government Auditing Standards*, issued by the Comptroller General of the United States, the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the Selma Public Finance Authority, as of and for the year ended June 30, 2016, and the related notes to the financial statements, which collectively comprise the Selma Public Finance Authority's basic financial statements and have issued our report thereon dated December 6, 2016.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the Selma Public Finance Authority's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Selma Public Finance Authority's internal control. Accordingly, we do not express an opinion on the effectiveness of the Selma Public Finance Authority's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. *A material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the Authority's financial statements will not be prevented, or detected and corrected on a timely basis. *A significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or, significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Authority's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Governmental Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the authority's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the authority's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.
