The Vincenttown Mill Pond

The Vincenttown Mill Pond has long been the centerpiece of the community of Vincenttown. The creation of an early saw mill and grist mill along the South Branch of the Rancocas was essential to the growth and development of Vincenttown. On December 2, 2005, a formal ribbon cutting ceremony was held to celebrate the opening of a new \$2.5M dam and bridge on Race Street in Vincenttown. A previous temporary dam, which the new structure replaced, was constructed in 1996 after the earlier dam failed in 1994. That dam had originally been constructed in 1891, with the main spillway being constructed in 1919. Reconstruction of that dam took place in 1924. The 1996 reconstruction was not without controversy. Some citizens felt that the reconstruction of the dam was an unnecessary expense. Other citizens argued for the historic, recreational, health, safety, ecological, and economic value of the dam to the community, and set up a citizen's committee to ensure that the dam would be restored. The temporary dam of 1996 is what resulted. The new Race Street dam and bridge opened in 2005.

Intro to Improv. July 7th from 7:00pm-8:30pm.

Improv continues to be one of the fastest growing performing arts in the US. It's in movies, TV shows, Broadway, and now right here in Burlington! ComedySportz, the longest-running show in Philadelphia history, is bringing its Intro to Improv Workshop this summer to Burlington County Parks. This FREE workshop is a great way for individuals to find their creative side, regardless of their performing experience.

We'll teach you the basics: agreement ("yes, and-ing"), active listening, commitment, working as a team, taking risks, and being present in the moment, and then apply those skills to some of our favorite games like Try That On For Size, Dr. Know It All, and Advice Panel.
