## Introduction

The gently rolling hills of Southington are nestled in the valley between mountains on the east and west sides of town. It is this gentleness of landscape along with the Quinnipiac River and the various streams, ponds and lakes that makes Southington the perfect place for relaxation, pleasure and work. These qualities also make it a very desirable place to live with an amazing school system and committed local government. All of this equates to rapid expansion, mass development and urbanization causing government buildings to become small and out dated very quickly. One area in particular is the accessibility for all programs services and buildings. Studies have been done in the past to assess the accessibility for persons with disabilities; but the changing of the standards in 2010 has caused structures or barriers to be reclassified to inaccessible. It is the Town's mission to remove these physical barriers and become a Title II compliant place allowing access for everyone.

## Purpose and Scope

This report presents the findings and recommendations of an Americans with Disabilities Act compliance evaluation and planning process carried out by internal staff of the Town from December 2018-February 2019. The purpose of this initiative and recommended actions are to get the town into ADA Title II compliance by:

- Providing recommendations for site modifications to ensure full compliance with ADA Title II design standards to ensure all people with qualified disabilities can access and participate in all forms of public programs, services and activities.

Internal staff carried out the evaluation under the oversight of the ADA Coordinator. Previous ADA-related activity was reviewed and key departmental staffs were interviewed. Access surveys of municipal buildings and public works facilities were conducted.

## Self-Evaluation Approach and Scope

The methodology that was followed in this study is based on the ADA Title II Actions Guide. This guide can be found at the New England ADA Center website ([www.adactionguide.org](http://www.adactionguide.org)). Internal staff followed each step that was recommended in this guide to the fullest extent practicable. The following outlines the 7 steps required:

1. **Start Implementation** – Generate public interest within the town by appointing an ADA Coordinator and ADA Team.
2. **Appoint an ADA Coordinator**- Give the person with the knowledge and motivation the authority to implement regulations effectively.
3. **Provide Public Notice**- All public entities must provide information to the public, program participants, program beneficiaries, applicants and employees about the ADA and how it applies to the town.

4. **Adopt a Grievance Procedure** – Administer a grievance procedure providing a mechanism for prompt resolution of complaints and disputes before they escalate into complaints to federal agencies or suits in federal courts.
5. **Conduct a Self-Evaluation**- The self-evaluation of the town will cover:
  - Program, Service and Facility Accessibility
6. **Develop a Transition Plan**- Develop a Transition Plan identifying modifications needed to remove physical barriers in buildings, service and facilities.
7. **Create an Action Plan**- Identifies non-structural issues providing best practice to remedy the issue and a person responsible.

## General Findings

The following summarizes the general findings of the evaluation process:

- Although an ADA Coordinator has been appointed and an ADA Committee established consisting of the Director of Public Works, Town Manager and Highways Superintendent.
- A mechanism must be put in place for prompt resolution of grievances filed with the ADA Coordinator.
- Training is being conducted to key departmental staff in direct areas with Non-discriminatory operations.
- Provisions should be established for auxiliary communications aids, services and devices including alternatives to traditional print materials; sound amplification and assistive listening systems; sign-language interpretation, etc.
- Surveys of public buildings and public works facilities identified barriers and conditions that limit access and use by people with disabilities; conditions not in compliance with federal and state access codes were identified and documented in each facility surveyed including those constructed or renovated over the past decade.

## Organization of Compliance and Transition Plan Recommendations

The compliance and Transition Plan is presented in three parts:

1. General Recommendations: Covering an organizational framework, Committee structure, and establishment of a capital account dedicated to implementation of the compliance and Transition Plan
2. Model Policies and procedures: New and revised policies and procedures recommended for adoption in four areas:
  - a. General Administrative Requirements: Covering designation of an ADA Coordinator; public notice of ADA compliance; and adoption of a procedure to resolve grievances related to these requirements.
  - b. Non-discriminatory Operation of Programs and Services: covering the general prohibitions against discrimination including a procedure for making reasonable

modifications to policies and procedures when necessary to ensure equal opportunity to participate and benefit.

- c. Effective Communications: Including a provision of auxiliary communication aids, services, and devices including alternatives to traditional print materials; sound amplifications and assistive listening systems; sign-language interpretation, etc.
  - d. Curb-ramp/Sidewalk Plan: Including a policy and procedure regarding installation and repair of curb-ramps, curb cuts and sidewalks.
3. Transition Plan

Priorities for barrier removal modifications to be carried out in Phase 1 of the implementation process and summaries of access survey identifying barriers and solutions for the following buildings and facilities:

1. **Public Works Facilities:**

- |                        |                       |
|------------------------|-----------------------|
| a. Town Hall           | e. Library            |
| b. Municipal Center    | f. Community Services |
| c. Police Headquarters | g. Historical Society |
| d. Highway Garage      | h. Animal Control     |

## **Part 1: General Recommendations**

- 1. Establish an ADA Team which will serve as a committee to aid the ADA Coordinator
- 2. Implement a grievance reporting procedure to track access grievances and ensure they get resolved in a timely fashion.
- 3. Provide continual training on Non-Discriminatory Operation of Programs and Services.
- 4. Provide auxiliary communications aids, services and devices including alternatives to traditional print materials.
- 5. Distribution of public notice of ADA Compliance throughout the town.
- 6. Establish a cross-department Capital pool account for funding of structural modifications described in the Transition Plan, Managed by the ADA Coordinator with the support of the ADA Committee and department heads.
  - a. Submit an initial request to town manager for funding first phase of implementation of the Transition Plan.
  - b. Identify future funding sources.

## **Part 2: Model Policies and Procedures**

The following are model policies recommended for adoption by the Town:

- 1. General Administrative Requirements
- 2. Non-discriminatory operation of programs and Services
- 3. Effective Communication
- 4. Curb Ramps and Sidewalks

Any department or program with a pre-existing policy or procedure that the department or program believes to be preferable or more effective should review the policy or procedure with the ADA Coordinator to ensure that it covers the compliance functions and obligations defined by Title II.

## **1. General Administrative Procedures**

### **1.1 ADA Coordinator**

The official named below has been designated the ADA Title II Coordinator for the Town of Southington and has been charged with coordinating; with support and participation from Departmental staff and administrators; implementation of the policies and procedures identified through the self-evaluation process with the implementation of a Transition Plan to resolve and eliminate architectural barriers that limit the participation of people with disabilities in buildings and facilities where public programs are operated and with monitoring and reporting at least annually to the Town Council, and made available to any member of the public on progress towards achieving full compliance.

### **1.2 Public Notice of ADA Compliance**

The following model notice can be adopted to fulfill this requirement.

#### *Recommended actions:*

- Adopt and disseminate the following Public Notice of ADA Compliance.
- Post the notice in prominent locations in all Town buildings and facilities.
- Include copies of the Public Notice in documents, reports and publications as appropriate.
- Include short forms of the Public Notice in announcements, brochures, job postings, advertisements, and other publications.

### **Americans with Disabilities Act of 1990**

The Town of Southington is committed to the full participation of persons with disabilities in public programs, services, activities and on the Town's workforce.

Questions, concerns or complaints should be brought to the attention of the ADA Coordinator:

Mark J. Sciota  
Town Manager  
Town of Southington  
75 Main Street  
Southington, CT 06489  
860-276-6200

[sciotam@southington.org](mailto:sciotam@southington.org)

Individuals with disabilities needing accommodations, assistance, or communication aids to participate in programs and services or in the pre-employment process are encouraged to make their needs known to the ADA Coordinator.

All inquiries and requests are treated with strict confidentiality.

### **1.3 ADA Grievance Procedure**

This Grievance Procedure is established to meet the requirements of Title II of the Americans with Disabilities Act. Disabled individuals or their authorized representatives who believe that they have been discriminated against on the basis of disability in employment or the provision of services, activities, programs, or benefits are encouraged to use the procedure to bring their complaints to the attention of the Town of Southington.

Complaints should be submitted in writing or on audio recording to the ADA Coordinator and should include the name, address and phone number of the person bringing the complaint (or their authorized representative); a description of the incident or action, the place and date of its occurrence, the name of person or persons who witnessed or were adversely affected, and the name of any employee or representative of the Town of Southington involved.

Assistance in filing complaints, such as personal interviews or audio recordings, will be provided upon request as needed by the ADA Coordinator. The complaint should be submitted to the ADA Coordinator as soon as possible within 30 calendar days of the incident or action.

Mark J. Sciota  
Town Manager  
Town of Southington  
75 Main Street  
Southington, CT 06489  
860-276-6200  
[sciotam@southington.org](mailto:sciotam@southington.org)

Within 15 calendar days of receipt of the complaint, the ADA Coordinator will meet with the complainant to clarify the facts of the incident and discuss possible resolutions. Within 15 calendar days after the meeting, the ADA Coordinator will respond in writing or an alternate format preferred by the complainant if needed for effective communication. The response will explain the position of the Town of Southington and present options for substantive resolution of the complaint.

If the ADA Coordinator's response does not satisfactorily resolve the issue, the complainant may appeal the Coordinator's decision within 15 calendar days of its receipt to the ADA Appeals Committee. Within 15 calendar days of receipt of the appeal, the ADA Appeals Committee will meet with the complainant to further clarify the complaint and discuss possible resolutions. Within 15 calendar days of the meeting a response will be presented in writing or alternate format with a final resolution of the complaint.

The ADA Appeals Committee will consist of:

1. **Town Manager**
2. **Director of Public Works**
3. **Highways Superintendent**

All complaints received by the ADA Coordinator, appeals to the ADA Appeals Committee, and responses/resolutions will be kept on file for at least three years.

#### **1.4 Undue Burden, Undue Hardship, and Fundamental Alterations**

In any circumstance when a requested accommodation, modification, or other action in fulfillment of obligations under Title II, in the opinion of the ADA Coordinator or senior program or departmental administrators, may involve an undue financial or administrative burden or hardship, or a fundamental alteration to a program, the Coordinator will refer the request to the ADA Appeals Committee for a final decision and will assist the ADA Appeals Committee in documenting the reason for acceptance or denial of any such request.

## **2. Non-Discriminatory Operations**

The purpose of the policies in the section is to eliminate barriers to participation by persons with disabilities including, if necessary, through the provision of *reasonable modifications* to policies and procedures. The *reasonable modification requirement* is similar to *reasonable accommodations* in employment.

The purpose of the model policies that follow is to eliminate inadvertent forms of discrimination and to establish a problem-solving mechanism to eliminate operational barriers to full participation by persons with disabilities. The Town is not obligated to undertake actions that would impose an undue financial or administrative burden or would result in a fundamental alteration to the nature of the program, service or activity being conducted.

### **2.1 Equal Opportunity Policy**

No qualified person with a disability will be denied the benefits of or be excluded from participation in any program, service or activity.

Programs, services and activities will not be operated in a manner that has the effect of:

1. Denying a qualified individual with a disability the opportunity to participate in or benefit from a benefit, service or volunteer activity.
2. Denying a qualified individual with a disability the opportunity to participate in, or benefit from, any aid, benefit, service or volunteer activity that is not equal to that afforded to other.

### **2.2 Reasonable Modification Policy**

Reasonable modifications to policies and procedures will be provided to an otherwise qualified person with a disability who requests such modification, unless the requested modification would impose an undue burden or require a fundamental alteration to the program.

Requests for reasonable modifications should be made to staff operating the program or to the ADA Coordinator. The request can be presented verbally or in writing. The ADA Coordinator will be responsible for ensuring that requests are responded to appropriately and in a timely fashion.

Final decisions regarding requests for reasonable modifications that in the opinion the ADA Coordinator may represent an undue burden or fundamental alteration will be made by the ADA Appeals Committee in a timely fashion and, except in extraordinary circumstances, in no longer than 10 working days after their submission. A person seeking to contest the denial of a requested modification is encouraged to use the Grievance Procedure.

### **2.3 Eligibility and Safety Requirements Policy**

Programs will not impose eligibility or safety standards or requirements that prohibit or limit the participation of qualified individuals with disabilities. This policy does not prohibit standards that are necessary and essential to the operation of programs.

### **2.4 Assurance Regarding Surcharges**

No surcharges (charges in addition to those paid by all program participants) will be imposed on persons with disabilities, their family members, or organizations representing them for the provision of reasonable accommodations or modifications, auxiliary aids and services, removal of architectural barriers, or any other costs associated with the participation of persons with disabilities in public programs.

### **2.5 Integrated Services Policy**

All programs, service and activities including all public meetings will be conducted in the most integrated and accessible setting possible.

### **2.6 Contracting Policies**

The Town will ensure that individuals with disabilities and organizations employing or associated with disabled persons will have equal opportunity to secure service and procurement contracts.

No contracts for goods or services will be executed with individuals or organizations that are known to discriminate against persons with disabilities.

### **2.7 Significant Assistance Policy**

Programs that receive significant financial or in-kind assistance from the Town are required to operate in a manner that is not discriminatory towards persons with disabilities. Organizations

receiving assistance from the Town will be informed of this policy. The ADA Coordinator will investigate allegations of discrimination towards persons with disabilities that may have occurred, and will take steps to end the discriminatory practice or to terminate assistance.

### **3. Effective Communication**

Title II requires public entities to provide auxiliary communications aids and services to eligible persons with disabilities limiting vision, hearing or speech. Auxiliary aids and services must be provided to the extent necessary to support equal participation in the exchange of information and communication integral to a program or activity, unless doing so would result in an undue financial or administrative burden or in a fundamental alteration to the program, service or activity.

#### **3.1 Effective Communications Policy**

Auxiliary aids and services will be provided to ensure effective communication for persons with disabilities limiting their vision, hearing or speech. Persons with communications disabilities or their authorized representatives will have the opportunity to request the auxiliary communications aid or service that they prefer and the requested aid or service will be given primary consideration and will be provided unless an effective alternative means of communication is available, or unless providing the preferred aid or service would impose an undue burden or fundamental alteration.

#### **3.2 Alternative Format Policy and Procedures**

It is the policy of the Town of Southington that all documents, publications and materials used to disseminate information to its citizens are made available to persons with disabilities who need them in alternate formats.

The following procedures have been established to respond to requests for alternative formats including large print, audio recording, Braille, and CDs or DVDs, in a timely fashion. Three weeks advance notice is usually necessary for the preparation of Braille materials. Reasonable efforts will be made to respond on shorter notice.

Large print, short audio recordings, and CDs or DVDs will be prepared by staff persons who have been identified by the ADA Coordinator and trained in the necessary skills and procedures. Preparation of long audio recordings will be purchased through an outside vendor.

The procedure for requesting alternate formats is:

1. The person making the request should identify the materials desired and specify his/her preferred alternate format to the ADA Coordinator or Town Clerk either verbally or in writing 10 working days in advance of the event or activity for which the material is needed. Reasonable effort will be made to meet requests made less than 10 days before an event or activity.
2. The materials will be provided in the requested format at no charge

3. Primary consideration will be given to the format preferred by the person making the request, and the Town will decide whether to provide the preferred format or an effective alternative form.
4. If a request cannot be met, the person making the request will be informed as soon as possible but at least two days in advance of the event or activity.
5. The ADA Appeals Committee, in consultation with the ADA Coordinator, will make final decisions regarding any request that may represent an undue financial or administrative burden.

### **3.3 Sign Language Interpreter Services Policy**

It is the policy of the Town of Southington that sign language interpreters will be provided upon request to any person needing interpreter services in order to participate in any meeting, program or activity of the Town. Requests should generally be made at least 20 working days in advance of the scheduled event or meeting, but reasonable effort will be made to meet requests made on shorter notice. Requests should be made either verbally or in writing to the ADA Coordinator.

Within one business day of receipt of the request, the ADA Coordinator will contact a vendor for interpreter services.

The Town will maintain a list of names and phone numbers of at least three qualified sign language interpreters. If an interpreter cannot be scheduled, the ADA Coordinator will offer an alternative effective form of communication or postpone the meeting or event until an interpreter is available.

### **3.4 Assistive Listening Device Policy**

It is the policy of the Town of Southington that adequate sound amplification-microphones with loudspeakers and assistive listening systems-will be available at public meetings and other public activities and events to ensure that persons with hearing limitations are able to fully participate.

Assistive listening devices will be provided upon request to persons needing such devices to participate in programs, services and activities.

Any person needing assistive listening technology to participate in a public program can request the service or device verbally or in writing to the ADA Coordinator at least four days before the scheduled event or activity. The ADA Coordinator will arrange for the equipment to be tested to ensure that it is in proper working order and will, if necessary, instruct Town employees or representatives in its use.

### **3.5 TV Captioning Policy**

It is the policy of the Town of Southington to ensure that televisions used in Town programs have the capacity to display closed-captioning and that staff is trained in the use of captioning devices.

### **3.6 Video Caption Policy**

It is the policy of the Town of Southington that whenever pre-recorded video is purchased or rented for use in the Town sponsored programs or activities, captioned versions of video, when such captioning is available, will be ordered to ensure that presentations are accessible to all individuals with disabilities.

## **4. Curb Ramps/Curb Cuts and Sidewalks**

### **4.1 Curb Ramp/Curb Cut and Sidewalk Policy**

Interested parties are encouraged to report non-compliant (NC) or deteriorated curb ramps, curb cuts, and adjacent walkways that present a barrier or hazard to persons with disabilities to the Southington Engineering Department. In accordance with Southington Town code, adjacent property owners are responsible for the conditions of the sidewalks that border their properties.

The Southington Engineering Department will create a record of such reports and will notify adjoining property owners of conditions that require immediate attention. Further enforcement efforts will be taken by the Director of Public works, in consultation with the ADA Coordinator, in cases where the barrier or hazard creates an imminent danger to persons with disabilities and is within the control of the owner of the Premises.

The Department of Public Works, during routine permit application inspections, will evaluate the condition of sidewalks adjoining the pertinent properties and execute existing authorities to direct repairs where appropriate.

The Department of Public Works will ensure that complain curb ramps and curb cuts are constructed when:

1. The Town is replacing or constructing sidewalks as part of its Pavement Management Program.
2. The Town is constructing, repairing or replacing sidewalks as stand-alone projects.
3. Developers are constructing roadways and sidewalks as part of a subdivision, a development, or a redevelopment.
4. Property owners are undertaking major renovations or replacement of buildings and associated properties.
5. Adjacent property owners are municipal buildings or contain municipal programs.

Persons with disabilities, members of their families, and/or other authorized representatives may request installation of curb ramps/cuts on public walkways necessary to create access routes from the private residences occupied by persons with disabilities to public walkways.

Requests will be evaluated by the DPW and ADA Coordinator and assigned a rank in the order of priority and will be addressed unless to do so would impose an undue financial or administrative burden.

### **Part 3: Transition Plan**

The recommendations and priorities in this section describe a systematic plan for removal of architectural barriers in buildings and facilities. The goal is to achieve town wide compliance with the program accessibility standard that defines the level of accessibility required in existing buildings and facilities. Access surveys identified errors and omissions in recently constructed and renovated buildings and facilities. These are documented in the summaries that follow and indicate the need to improve design and construction quality assurance and review procedures, and to strengthen oversight of design and construction work carried out on behalf of the Town.

#### **Title II: Program Accessibility Requirement**

Under Title II of the ADA it is discriminatory for people with disabilities to be denied the opportunity to participate in programs, services and activities because facilities are inaccessible or unusable. Entities of state and local government including the Town of Southington have been required since the effective date of the Title II regulations-January 26, 1992-To identify barriers in existing buildings and facilities that deny access to or limit the participation of people with disabilities. This does not mean that every building and facility constructed or renovated prior to the effective date of the Title II regulations must be retrofitted to a new-construction standard of accessibility. Rather, Barriers must be removed to the extent necessary to achieve compliance with the program accessibility standard. Under this standard, programs, when viewed in their entirety, much be made readily accessible and usable. The required level of accessibility is one that is sufficient to enable persons with disabilities to participate fully on an equal basis, and to benefit as do other participants from the programs, services, and activities operated in public buildings and facilities. Application of the program accessibility standard allows resources to be strategically targeted to the removal of barriers and non-compliant conditions that have a real functional impact.

All buildings designed and constructed after the effective date of the Title II regulations are required to meet the new construction standard of accessibility, with the federal standard (UFAS or ADAAG) setting the baseline to which any more stringent state standards are added.

Employee-only areas in pre-existing buildings and facilities are not covered in a transition plan but are addressed on an individual basis as reasonable job accommodations subject to the requirements of Title I of the ADA and regulations promulgated and enforced by the Equal Employment Opportunity Commission.

In carrying out a transition plan, barriers can be removed either by structural means including modifications, additions, or new construction; or by nonstructural means such as moving programs from inaccessible to accessible spaces permanently or when needed. Staff assistance and technology can also be used to overcome barriers, as long as the solution provides equal benefit and does not have the effect of diminishing the social integration of people with disabilities. Non-structural solutions are

sometimes undertaken as interim measures until financial resources become available to carry out permanent structural solutions.

Regulations implementing Title II were published by the United States Department of Justice in January 1992. Non-structural barrier removal solutions were to be identified and carried out within one year, and structural solutions over a period of three years. Additional time was allowable if it could be demonstrated that carrying out structural barrier removal solutions would impose an undue financial or administrative burden.

Please note:

1. A procedure for making decisions regarding undue burden is included in the model policies in Part 2 above.
2. A procedure is included in the model policies for implementation of a plan of curb-cut, curb-ramp and sidewalk maintenance, repair and installation including installation of curb ramps when requested to improve access for individuals or households.

#### **Buildings and Facilities Surveyed:**

Summaries of barriers and potential solutions are as follows:

##### **1. Public Works Facilities:**

- |                        |                       |
|------------------------|-----------------------|
| a. Town Hall           | e. Library            |
| b. Municipal Center    | f. Community Services |
| c. Police Headquarters | g. Historical Society |
| d. Highway Garage      | h. Animal Control     |

Individual building and facility survey summaries display information in 4 columns:

Column 1: ID number for the barrier and solution

Column 2: ADA Accessibility Guideline Reference

Column 3: Description of the barrier/non-code compliant condition

Column 4: Recommended solution

### 1A. Town Hall

ID	ADAAG	Barrier/NC Condition	Recommended Solution
<b>1.3</b>	208.2.4	For every 6 accessible spaces one should be van accessible	Restripe spot to make van accessible
<b>1.4</b>	502.2, 502.3	Accessible spaces should be 8ft wide with 5ft aisle	Restripe spot to make accessible
<b>1.10</b>	502.6	Sign should be 60" above ground	Raise sign in Berlin St parking lot to 60"
<b>1.11</b>	502.6	Signs reading "Van Accessible" at van accessible spaces	Add Van Accessible signage to van accessible spaces
<b>1.12</b>	208.3.1	Accessible spaces located to closest accessible route	Relocate spaces to closer accessible route
<b>1.19</b>	402.2	Accessible route crosses a curb, there should be a curb ramp	Accessible spot on main st does not have a curb ramp
<b>1.38</b>		Alternative accessible entrance be used independently and during the same hours as the main entrance	Door only opens one way. Exterior entrance from door doesn't open, unlock door daily
<b>1.39</b>	216.6	Inaccessible entrances have signs indicating the location of nearest accessible entrance	Install signage to show closest accessible entrance
<b>1.40</b>	216.6	Sign at the accessible entrance with the International Symbol of Accessibility	Install signage at accessible entrance with International Symbol of Accessibility
<b>1.42</b>	404.2.4	At least 18 inches of maneuvering clearance beyond the latch side plus at least 60 inches clear depth?	Reconfigure automatic door opener to open from the outside
<b>1.49</b>	302.2	Edges of carpets or mats securely attached to minimize tripping hazards	Securely attach all runner carpets or remove
<b>2.1</b>	206.4	Does the accessible entrance provide direct access to the main floor, lobby and elevator?	Provides access to elevator in bottom floor

<b>ID</b>	<b>ADAAG</b>	<b>Barrier/NC Condition</b>	<b>Recommended Solution</b>
<b>2.3</b>	40.2, 302.1	Is the route stable, firm and slip-resistant?	Replace VCT with a slip resistant flooring
<b>2.8</b>	307.2	If an object protrudes more than 4 inches, is the bottom leading edge at 27 inches or lower above the floor?	Fire extinguishers, drinking fountains and drop box outside tax office should be reconfigured. Add tactile warning strips or move lower
<b>2.8</b>	307.4	Is the bottom leading edge at 80 inches or higher above the floor?	Shelf outside of clerk's office needs to be raised or removed
<b>2.24</b>	403.3.2	Does elevator door remain open for at least 20 seconds when activated?	Adjust opening time for elevator door
<b>2.28</b>	408.4.6	Are the in-car controls centered on a side wall?	Reconfigure controls
<b>2.31</b>	407.2.3, 408.2.3	Sign mounted on both door jams identifying the floor must be mounted 48 inches to the baseline of the lowest character and 60 inches to the baseline of the highest character above the floor	Change sign height
<b>2.42</b>	404.2.5, 303.2	Threshold no more than 1/4 inch vertical height	Replace 2nd floor thresholds and tax office
<b>2.43</b>	404.2.7	Is the door equipped with hardware that is operable with one hand and does not require tight grasping, pinching or twisting of the wrist?	replace all knobs with levels, loops or push hardware
<b>2.46</b>	404.2.8.1	If the door has a closer, does it take at least 5 seconds to close from an open position of 90 degrees to a position of 12 degrees from latch	Basement exterior handicap door
<b>2.55</b>	802.2.2.1, 802.1.2.2	Where people are expected to stand, do people in wheelchair spaces have a clear line of sight over and between the heads of others in front of them?	Alter line of sight for rear wheelchair spaces
<b>2.57</b>	802.1.2	If there are two adjacent wheelchair spaces, are they each at least 33 inches wide?(Council Chambers)	Alter Spaces to account for minimum width
<b>2.76, 2.77, 2.78, 2.79,2.80</b>	904.4.1, 904.4, 306.2.2,	Is there a portion of at least one of each type of counter that is no higher than 36 higher above the floor?	Alter counter tops of tax, assessor, finance and Clerk has computer in the way

ID	ADAAG	Barrier/NC Condition	Recommended Solution
	306.2.3, 306.3.1		
<b>3.12</b>	404.2.8.1	If the door has a closer, does it take at least 5 seconds to close from an open position of 90 degrees to a position of 12 degrees from latch(Restroom Doors)	Adjust door closer for restroom doors
<b>3.20</b>	603.4	Coat hook that is between 15-48 inches above the floor	Replace with or provide additional assessable hook

#### 1B. Municipal Center

ID	ADAAG	Barrier/NC Condition	Recommended Solution
<b>1.4</b>	502.2, 502.3	Accessible spaces must be 8 feet wide with a 5 foot aisle	Reconfigure by repainting lines, both top and side parking
<b>1.5</b>	502.2,502.3	van accessible spaces must be 11 feet wide with a 5 foot aisle or 8 feet wide with a 8 foot aisle	Reconfigure to provide van-accessible space at correct widths
<b>1.10</b>	502.6	signage at accessible spaces at least 60 inches above ground	Change sign height in parking areas so the bottom is above 60"
<b>1.11</b>	502.6	van accessible spaces must have signs that say "Van Accessible"	Add Van accessible signage
<b>1.39</b>	216.6	inaccessible entrances must have signs indicating the location of the nearest accessible entrance	Add Signage to show nearest accessible route
<b>1.40</b>	216.6	signage at accessible entrances	Add Signage to accessible routes
<b>1.46</b>	404.2.8	If the door has a closer, does it take at least 5 seconds to close from an open position of 90 degrees to a position of 12 degrees from latch	Replace Door closers on bottom doors to close slower

<b>ID</b>	<b>ADAAG</b>	<b>Barrier/NC Condition</b>	<b>Recommended Solution</b>
<b>1.49</b>	302.2	edges of carpets or mats securely attached to minimize tripping hazards	Secure all loose rug matts along accessible routes
<b>2.3</b>	40.2,302.1	the route must be stable, firm and slip-resistant	Floor surface must be changed to something slip resistant
<b>2.8</b>	307.2	If an object protrudes more than 4 inches on circulation paths is the leading edge greater than 27 inches?	Remove objects over 27", Mostly chairs in upstairs hallway, Protruding counter tops should also be cut back or reconfigured
<b>2.24</b>	403.3.2	elevator door remain open for 20 seconds when activated	Adjust elevator door to remain open 20 seconds
<b>2.29</b>	407.4.7.1, 703.2	elevator car control buttons designated with raised characters	Add Raised characters on elevator car control buttons
<b>2.38</b>	703.3, 703.4.2	signs designating permanent rooms and spaces not likely to change overtime	Move Signs to latch side of doorways, add braille to signs 60" above floor
<b>2.41</b>	404.2.4	front approach to doors require 18 inches of maneuvering clearance beyond latch side	Shorten side counter inside personnel office to allow for maneuvering requirements
<b>2.42</b>	404.2.5, 303.2	thresholds cannot exceed vertical height of 1/4 inches	Replace thresholds on bathrooms
<b>2.48</b>	302.1	floor surfaces must be stable, firm and slip resistant	Replace all floor surfaces with slip resistant ones
<b>2.52</b>	221.2.1	Adequate number of wheelchair spaces provided for 77 total seating.	Create 4 designated wheelchair spots in public assembly room
<b>2.68</b>	802.1.2, 802.1.3	one space at least 36 inches by 48 inches long for a person in a wheelchair in waiting areas	Move furniture in Health and Personnel to create wheelchair waiting spots
<b>2.76</b>	904.4.1	portion of service counters to provide wheelchair access	Modify all counters with a section 36" wide and 36" high

<b>ID</b>	<b>ADAAG</b>	<b>Barrier/NC Condition</b>	<b>Recommended Solution</b>
<b>3.5</b>	703.4.2	sign must be mounted on latch side of bathroom door	Move sign on bathroom from door to latch side of door and no more than 60" from ground to baseline of highest character
<b>3.8</b>	404.2.5,303.2	Threshold is not to exceed vertical height of 1/4 inch	Replace thresholds for 1/4" maximum height
<b>3.12</b>	404.2.8.1	If the door has a closer, does it take at least 5 seconds to close from an open position of 90 degrees to a position of 12 degrees from latch	Replace door closers on bathroom doors to close slower

#### 1C. Police Headquarters

<b>ID</b>	<b>ADAAG</b>	<b>Barrier/NC Condition</b>	<b>Recommended Solution</b>
<b>1.11</b>	502.6	Signs reading "Van Accessible" at van accessible spaces	Add signage to van accessible spaces
<b>1.46</b>	404.2.8	If the door has a closer, does it take at least 5 seconds to close from an open position of 90 degrees to a position of 12 degrees from latch	Adjust closer, main door
<b>1.49</b>	302.2	Edges of carpets or mats securely attached to minimize tripping hazard	secure carpeting or mats at edges
<b>2.52</b>	221.2.1	Adequate number of wheelchair spaces provided in assembly room	reconfigure to add wheelchair spaces
<b>3.12</b>	404.2.8.1	If the door has a closer, does it take at least 5 seconds to close from an open position of 90 degrees to a position of 12 degrees from latch	Adjust closer, bathroom door

<b>3.20</b>	603.4	Coat hook 15-48 inches above the floor	Adjust hook or add additional accessible one
-------------	-------	--	--

#### 1D. Highway Garage

ID	ADAAG	Barrier/NC Condition	Recommended Solution
<b>1.2</b>	208.2	Total of 28 total parking spaces 2 should be accessible	Only 1 accessible space must reconfigure parking to include one more
<b>1.10</b>	502.6	Accessible sign should be mounted 60 inches above ground	Re-install sign 60 inches above ground
<b>1.11</b>	502.6	Signs Reading "Van Accessible" at van accessible spaces	Install signage
<b>1.36</b>	405.9.1, 405.9.2	Curb barrier that prevents the passage of 4 inch diameter sphere	Install curb barrier on bottom outside of ramp
<b>1.46</b>	404.2.8	If the door has a closer, does it take at least 5 seconds to close from an open position of 90 degrees to a position of 12 degrees from latch	adjust closer for main door
<b>1.49</b>	302.2	Edges of carpets or mats securely attached to minimize tripping hazards	secure carpeting or mats at edges
<b>3.1</b>	606.2	If toilet rooms are available to the public, is at least one toilet room accessible? (either one for each sex, or one unisex)	Accessible toilet only available for women's room, add second bathroom or reclassify as unisex
<b>3.5</b>	703.4.1	baseline of the lowest character is at least 48 inches above the floor and the baseline of the highest character is no more than 60 inches above the floor	re-install sign to correct height

ID	ADAAG	Barrier/NC Condition	Recommended Solution
<b>3.30</b>	604.2	centerline of the water closet between 16-18 inches from side wall or partition	move toilet in 1 inch closer to wall

## 2A. Library

ID	ADAAG	Barrier/NC Condition	Recommended Solution
<b>1.4</b>	502.2, 502.3	Accessible spaces at least 8 feet wide with an aisle at least 5 feet wide	current spaces have aisles less than 5ft. Reconfigure by repainting lines
<b>1.5</b>	502.2	Van accessible space 11 feet wide with 5 foot access aisle or 8 feet wide with 8 foot access aisle	reconfigure spaces by repainting lines
<b>1.10</b>	502.6	Are accessible spaces identified with a sign that includes the international symbol of Accessibility and are mounted 60 inches off the ground?	side space signs need to be raised, the back space needs signage
<b>1.11</b>	502.6	Signs reading "Van Accessible" at van accessible spaces	install signage

<b>ID</b>	<b>ADAAG</b>	<b>Barrier/NC Condition</b>	<b>Recommended Solution</b>
<b>1.46</b>	404.2.8	If the door has a closer, does it take at least 5 seconds to close from an open position of 90 degrees to a position of 12 degrees from latch	adjust closer on both entrance doors
<b>2.4</b>	403.5.1	Is the accessible route 36 inches wide	Reconfigure furniture in children's section to provide access
<b>2.8</b>	307.4	Is the bottom leading edge 80 inches or higher above floor	Must raise up signs in book stacks
<b>2.24</b>	403.3.2	Elevator door remain open for 20 seconds when activated	adjust opening time
<b>2.29</b>	407.4.7.1, 703.2	Car control buttons designated with Braille(Elevator)	Add Braille
<b>2.31</b>	407.2.3, 408.2.3	Sign on both door jambs on each floor, tactile star on entry level, characters contrast with backgrounds, text characters raised, braille	Install signs at correct height
<b>2.46</b>	404.2.8.1	If the door has a closer, does it take at least 5 seconds to close from an open position of 90 degrees to a position of 12 degrees from latch	adjust closer on interior doors
<b>2.47</b>	403.5.1	Aisles and pathways to goods and services at least 36 inches wide	Rearrange book shelves to increase aisle width
<b>2.67</b>	306.2, 306.3	Clear floor space under desks between 17-25 inches under surface	Change tables public computers are on to accessible ones

ID	ADAAG	Barrier/NC Condition	Recommended Solution
<b>2.78</b>	904.4	Clear floor space at least 30 inches wide by at least 48 inches long in front of counters	Clear space in front of accessible counter space for a parallel approach
<b>3.2</b>	216.8	Signs at inaccessible toilet rooms to give directions to accessible ones	Basement bathrooms are not accessible signs should be replaced with inaccessible bathroom signs and also directional signs installed
<b>3.8</b>	404.2.5, 303.2	Threshold is not to exceed vertical height of 1/4 inch	Bathroom thresholds need to be reset or replaced
<b>3.12</b>	404.2.8.1	If the door has a closer, does it take at least 5 seconds to close from an open position of 90 degrees to a position of 12 degrees from latch	Bathroom door closers need adjustments
<b>3.17</b>	603.2.1	Clear floor space available for a person in a wheelchair to turn around, 60 inch diameter circle or a T-shaped space within a 60 inch square	Reconfigure bathroom to meet this requirement. Should be able to reconfigure unfastened fixtures if not must renovate bathroom.
<b>3.20</b>	603.4	Coat hook between 15-48 inches above the floor	either adjust current hook and provide additional accessible hook

## 2B. Community Services

ID	ADAAG	Barrier/NC Condition	Recommended Solution
<b>1.5</b>	502.2	Van accessible space must be 11 feet wide with a 5 foot aisle or 8 feet wide with a 8 foot aisle	Current space is 10 feet with a 5 foot aisle. Reconfigure by taking out portion of curb and adding and extra foot.
<b>1.10</b>	502.6	Accessible spaces identified with a sign at least 60 inches above ground	Re-install sign at correct height

ID	ADAAG	Barrier/NC Condition	Recommended Solution
1.11	502.6	Van accessible spaces must have a sign that reads "Van Accessible"	Install correct Signage
1.43	404.2.5, 303.2	Threshold cannot exceed 1/4 inch vertical height	Reset or install new threshold
1.46	404.2.8	If the door has a closer, does it take at least 5 seconds to close from an open position of 90 degrees to a position of 12 degrees from latch	Adjust closer on main door
1.49	302.2	Edges of carpets or mat securely attached to minimize tripping hazards	secure mats or remove
2.3	40.2, 302.1	Accessible route must be stable, firm and slip-resistant	Replace flooring with slip resistant material

## 2C. Historical Society

ID	ADAAG	Barrier/NC Condition	Recommended Solution
1.1	206.2.1	At least one route from site arrival points that does not require stairs	provide accessible route from parking area to building, install ramp into building and curb ramps from parking to accessible route
1.2	208.2	Adequate number of accessible parking for 1-25 spaces	Must have one accessible space in parking area that is van accessible as well. Restripe parking area

ID	ADAAG	Barrier/NC Condition	Recommended Solution
1.3	208.2.4	Van accessible space	No accessible spaces in this parking area
1.7	502.3.3	Access aisles must be marked to discourage parking in them	restripe parking lot to include van accessible space in parking area
1.9	502.3	Access aisles must join an accessible route	must establish accessible route from parking area to building
1.10	502.6	signage 60 inches above ground with "Van Accessible" declaration	install signage
1.38		alternative accessible entrance	no entrance is accessible to this building one must be created
1.39	216.6	signage at inaccessible entrances indicating location of nearest accessible entrance	install signage at inaccessible entrances
1.40	216.6	Signage at accessible entrance	install signage at accessible entrance

## 2D. Animal Control

ID	ADAAG	Barrier/NC Condition	Recommended Solution
1.46	404.2.8	If the door has a closer, does it take at least 5 seconds to close from an open position of 90 degrees to a position of 12 degrees from latch	adjust closer on main door

<b>ID</b>	<b>ADAAG</b>	<b>Barrier/NC Condition</b>	<b>Recommended Solution</b>
<b>1.49</b>	302.2	Edges of carpets or mats securely attached to minimize tripping hazards	secure carpeting or mats at edges
<b>3.5</b>	703.4.2	Mounted sign on the latch side of door	Move sign to the latch side of door within 18 inches of latch
<b>3.9</b>	404.2.7	Is the door equipped with hardware that is operable with one hand and does not require tight grasping, pinching or twisting of the wrist?	replace door knob with lever, loop or push hardware
<b>3.20</b>	603.4	Coat hook that is between 15-48 inches above floor	replace or provide additional accessible hook
<b>3.22</b>	306.2	provide 17-25 inches of clear floor space under the lavatory sink	replace sink vanity with accessible sink
<b>3.24</b>	306.3.3	27 inches of clearance from the floor to the bottom of sink for knee clearance	replace sink vanity with accessible sink
<b>3.25</b>	306.3.3	9 inches of toe clearance under sink	replace sink vanity with accessible sink
<b>3.26</b>	606.5	Pipe below sink insulated or otherwise protected against contact	After replacing sink vanity install device to protect pipes
<b>4.20</b>	702.1	Fire alarm systems that flash and have audible signals	install fire alarm systems that flash and have audible signals

## 2E. Sidewalk Ramp Priority List

The following list is the result of an evaluation conducted by internal staff to evaluate compliance in sidewalk curb ramps throughout town. After compiling a list of all noncompliant ramps, this list was ranked with a priority matrix to derive a best practicable plan to correct the issue.

The table is organized in the following fields:

- Column 1: Objectid – which is a unique identifier for each ramp
- Column 2: Road Name – The road that the ramp is associated with
- Column 3: Painted – Signifying if there is a painted cross walk associated with the ramp
- Column 4: Truncated Dome- Signifying if there are truncated domes installed on the ramp
- Column 5: Full name- The full name of the road associated with the ramp
- Column 6: Cross Street- The cross street associated with the ramp
- Column 7: Intersection- The names of the streets that form the intersection
- Column 8: Priority – Priority ranking using the priority matrix

OBJECTID	Road Name	Painted	Truncated Dome	Full name	Cross Street	Intersection	Priority
