

We, the following people listed below are against the proposed zone change at 322 Lazy Lane in Southington, CT.

HQ/Central CT Resource Recovery (CCRR) facility is planning to expand their Waste Management facility operations at 322 Lazy Lane.

If this zone change is approved and CCRR gets their Modifications approved by the state, it will be detrimental to our neighborhood property values, public safety, health, quality of life and increased traffic that will be horrendous. CCRR facility will be serving all of Connecticut. It will generate vehicles/trucks every 4 minutes on Lazy Lane/Curtis and surrounding streets. Trucks already speed up to 50 miles/per hr. on the streets. It is already unsafe with no sidewalks for walkers, bikers and children playing in their yards and children waiting for the school bus.

Name	Address	Phone Number
