10B. PUBLIC HEARING -- INTRODUCTION OF ORDINANCE ESTABLISHING RATES FOR ANNUAL SEWER SERVICE CHARGES FOR SEWER SERVICES

On March 1, 1988, the City of Stanton assumed operation and maintenance of sanitary sewer system improvements within its jurisdictional boundary under Orange County Reorganization No. 88. In order to provide sufficient revenue for the operation of the Stanton Sewer Department the City Council must annually adopt an ordinance to establish an Annual Sewer Service Charge for sewer services for each fiscal year.

The City has recently completed an Annual Report sewer rate study which was preliminarily approved by the City Council at their meeting on June 13, 2017. Since the report included a change in the methodology used to calculate the Annual Sewer Service Charge for non-residential parcels, the City was required to comply with the requirements of Article XIIID, Section 6 which requires that the City conduct a public hearing on the proposed rate structure not less than 45 days after mailing a notice of the proposed change to each parcel.

RECOMMENDED ACTION:

- 1. City Council open the public hearing to receive public comment regarding a revised Sewer User Fee rate, which maintains a two percent reduction from the fiscal year 2014-2015 Sewer User Fee unit rate for residential properties and adjusts the methodology used to calculate the Annual Sewer Charge for non-residential properties to be based on land use and building area rather than parcel size until such time as the sewer rates are otherwise revised by a subsequent ordinance of the City Council; and

CITY OF STANTON

REPORT TO THE CITY COUNCIL

TO:

Honorable Mayor and City Council

DATE:

June 27, 2017

SUBJECT: FY 2017-18 INVESTMENT POLICY

REPORT IN BRIEF:

The Investment Policy for the City of Stanton provides guidelines for the prudent investment of City funds and outlines the procedures for efficient cash management. This policy is updated annually to incorporate any needed provisions or amendments necessitated by changes in state law or City investment philosophy, after which it is reviewed by the City Council. The current update expands a section that discussed monitoring and evaluating the portfolio, updates the section describing investment strategies to provide more opportunity for achieving market rates of return and makes other minor changes from the FY 2016-17 policy adopted in June 28, 2016.

RECOMMENDED ACTION:

- 1. City Council find that this item is not subject to California Environmental Quality Act ("CEQA") pursuant to Sections 15378(b)(5) (Organizational or administrative activities of governments that will not result in direct or indirect physical changes in the environment), and
- 2. City Council approve the FY 2017-18 Investment Policy as presented.

BACKGROUND:

In 1985, the City Council adopted a Statement of Investment Policy to comply with California Government Code Section 53646. This code section also requires that annually thereafter, the City's Chief Financial Officer must resubmit a Statement of Investment Policy to the City Council, which the Council must review at a public meeting. Accordingly, the City's Investment Policy has been revised as necessary, submitted to the Council, and reviewed by the Council during each fiscal year.

The Government Code provides that the City Council must annually consider whether to delegate to the City Treasurer its authority to invest or reinvest funds of the City, or to sell or exchange securities thus purchased. If this authority is delegated, the City Treasurer assumes the responsibility for making such transactions, and must make a monthly report of such transactions to the City Council. This delegation of authority may be revoked at any time by the City Council.

ANALYSIS/JUSTIFICATION:

The FY 2017-18 Investment Policy has been updated in a couple of areas. The changes made to the policy are as follows:

- Revising section 8.3, retitled from Monitoring, Adjusting and Evaluating the Portfolio to Review of Investment Portfolio and expanded to include language that requires a quarterly review of portfolio to determine if any investments are not in compliance with investments that were authorized and suitable at the time of investment but may have been downgraded.
- Revising section 7.4 to provide for more opportunity to achieve market rates of return by being clear that the City Treasurer has the ability to sell a security prior to its maturity as was previously detailed in section 7.5.
- Made other minor edits including making wording changes for clarity.

FISCAL IMPACT:

The proposed policy is consistent with the City's past conservative approach to investing its funds and the requested action should result in no fiscal impact.

ENVIRONMENTAL IMPACT:

None.

LEGAL REVIEW:

The City Attorney has reviewed and approved the Investment Policy.

PUBLIC NOTIFICATION:

Through the agenda posting process.

All funds are subject to the laws and regulations established by the State of California.

III. GENERAL OBJECTIVE

The objective of the investment portfolio is to meet the short and long-term cash flow demands of the City. This is achieved by safekeeping the corpus of cash assets under control and by earning income on cash assets not in immediate use. The City of Stanton strives to maintain the level of investment of all idle funds as near 100% as possible, through daily and projected cash flow determinations. Accordingly, the City's cash management system is designed to accurately monitor and forecast revenues and expenditures, thus enabling the City to invest funds to the fullest extent possible.

Idle cash management and investment transactions are the responsibility of the City Treasurer.

In conformance with California Government Code Sec. 53600.5, the City attempts to obtain the highest return possible while ensuring that safety and liquidity needs have been met.

The City's principal investment objectives, in priority order, are:

3.1: SAFETY

The safety and risk associated with an investment refers to the potential loss of principal, interest or a combination of these amounts. The City should select only those investments that are considered very safe. The City shall not engage in speculation and will focus on the preservation of capital and protection of investment principal. Diversification guidelines will be established to avoid incurring unreasonable risks regarding specific security types or individual financial institutions.

3.2: LIQUIDITY

This refers to the ability to "cash in" at any moment in time with a minimal chance of losing some portion of principal or interest. Liquidity is an important investment quality especially when the need for unexpected funds occurs. The investment program will provide for the maintenance of sufficient liquidity to meet operating requirements that are reasonably anticipated.

3.3: YIELD

Yield is the potential dollar earnings an investment can provide, and sometimes is referred to as the rate of return. The investment program will strive to attain a market rate of return throughout budgetary and economic cycles, taking into account the investment risk constraints of safety and liquidity needs.

IV. STANDARDS OF CARE

4.1: DELEGATION OF AUTHORITY

The ultimate responsibility and authority for the investment of City funds resides with the City Council. The City Council will receive monthly reports, designate investment officers and annually review the investment policy making any changes necessary by adoption. The City Council hereby designates the City Treasurer as the Investment Officer for the City's funds. The Investment Officer shall invest City funds in accordance with California Government Code Sec. 53600.5 and with this Investment Policy. This Policy shall constitute a "written order" from City Council. The City Treasurer is the Investment Officer, with the consent of the City Manager or designee, and may further delegate the authority to invest City funds to additional City Finance personnel with the consent of the City Manager.

Subject to required procurement procedures, the City may engage the support services of outside professionals in regard to its financial program, so long as it can be demonstrated or anticipated that these services produce a net financial advantage or necessary financial protection of the City's resources. The City Council may engage the services of one or more external investment managers to assist in the management of the City's investment portfolio in a manner consistent with the City's objectives. Such external managers may be granted discretion to purchase and sell investment securities in accordance with this Statement of Investment Policy. Such managers must be registered under the Investment Advisors Act of 1940, or be exempt from such registration. Such external managers shall be prohibited from executing safekeeping arrangements and wire transfers.

4.2: PRUDENCE

As a local agency defined by California Government Code Sec. 53600, the City of Stanton operates its pooled idle cash investments under California Government Code Sec. 53600.3, known as the "Prudent Investor Standard," which states, in part:

"When investing... or managing public funds, a trustee shall act with care, skill, prudence, and diligence under the circumstances then prevailing, including...the general economic conditions and the anticipated needs of the agency, that a prudent person acting in a like capacity and familiarity with those matters would use in the conduct of funds of a like character and with like aims, to safeguard the principal and maintain the liquidity needs of the agency. Within the limitations of this section...investments may be acquired as authorized by law".

Investment officers acting in accordance with written procedures and the investment policy and exercising due diligence shall be relieved of personal responsibility for an individual security's credit risk or market price changes, provided deviations from expectations are reported in a timely fashion and appropriate action is taken to control adverse developments.

4.3: ETHICS AND CONFLICT OF INTEREST

The City Treasurer, officers and employees involved in the investment process shall refrain from personal business activity that could conflict with proper execution and management of the investment program, or that could impair their ability to make impartial decisions. The City Treasurer, officers and employees shall, at all times, comply with the Conflict-of-Interest Code described in Title 2 of the California Code of Regulations, section 18351, and the City's adopted Conflict of Interest Code. Employees and officers shall refrain from undertaking any personal investment transactions with the same individual with whom business is conducted on behalf of the City.

V. SAFEKEEPING AND CUSTODY

5.1: SAFEKEEPING OF SECURITIES AND FUNDS:

Securities purchased by the City shall be held in a segregated account for the City's benefit at a third party trust department. The broker/dealer or bank from which the security is purchased shall issue a confirmation ticket to the City listing the specific instrument, issuer, coupon, maturity, CUSIP number, purchase or sale price, transaction date, and other pertinent information. The broker/dealer or bank that executes the transaction on the City's behalf shall deliver all securities on a delivery versus payment method to the designated third party trustee at the direction of the City Treasurer. All securities will be evidenced by safekeeping receipts in the City's name.

Certificates of Deposit shall be excluded from delivery versus payment as long as certificates are issued in the City's name.

5.2: QUALIFIED INSTITUTIONS

The City of Stanton shall purchase authorized investments directly from the issuer, from an institution licensed by the State of California as a broker dealer, as defined in Section 25004 of the Corporations Code, or from a member of a federally regulated securities exchange, from a national or state chartered bank, from a savings association or federal association (as defined by Section 5102 of the Financial Code) or from a brokerage firm designated as a primary government dealer by the Federal Reserve bank. {Cal. Gov. Code Sec. 53601.5}.

The City Treasurer will maintain a list of financial institutions formally authorized to provide investment services. The City shall formally authorize investment brokers to provide investment services to the City by conducting a process of due diligence. Investment Brokers may be Primary Dealers or Regional Brokers and licensed to do business in the State of California. Brokers must complete a broker questionnaire, which includes: proof of National Association of Securities Dealers (NASD) certification, Proof of State registration and execute a certification that the Broker's employees and supervisory personnel have read and understand the City's Investment Policy. Additional information from the broker/dealers Form BD and/or the broker/dealers disclosure statements on www.FINRA.org, will be included in the review. The City Treasurer shall conduct periodic reviews of the approved list of investment brokers and may remove a firm from the approved list at any time due to: any failure to comply with any of the above criteria, failure to execute a transaction; any change in broker/dealer staff; or any action, event or failure to act which, in the sole discretion of the City Treasurer, is materially adverse to the best interest of the City.

Selection of broker/dealers used by an external investment adviser retained by the City will be at the sole discretion of the adviser. Where possible, transactions with broker/dealers shall be selected on a competitive basis and their bid or offering prices shall be recorded. If there is no other readily available competitive offering, the investment adviser shall make their best efforts to document quotations for comparable or alternative securities. If qualitative characteristics of a transaction, including, but not limited to, complexity of the transaction, or sector expertise of the broker, prevent a competitive selection process, investment advisers shall use brokerage selection practices as described above

5.3: ACCOUNTING METHOD

The City shall comply with all required legal provisions and Generally Accepted Accounting Principles (GAAP). The accounting principles are those contained in the pronouncements of authoritative bodies including but not necessarily limited to, the Governmental Accounting Standards Board (GASB); the American Institute of Certified Public Accountants (AICPA); and the Financial Accounting Standards Board (FASB).

Pooling of Funds: Except for cash in certain restricted and special funds, the City will consolidate balances from all City and Successor Agency funds to maximize investment earnings. Investment income will be allocated to the various funds based on their respective participation and in accordance with generally accepted accounting principles.

5.4: INTERNAL CONTROLS

The City Treasurer shall maintain a system of internal controls which shall be reviewed and tested by the independent auditor at least annually or upon any extraordinary event, i.e., turnover of key personnel, the discovery of any inappropriate activity, etc.

Investment officials shall be bonded or covered by blanket crime insurance to protect the public against possible embezzlement or malice.

 - -Stocks
 - -Futures and options
 - -Repurchase agreements
 - -Reverse repurchase agreements
 - -Leveraged investments of any kind

VII. INVESTMENT PARAMETERS:

7.1 DIVERSIFICATION:

The City will diversify the investment portfolio to avoid incurring unreasonable risks, both credit and interest rate risk, inherent in over-investing in specific instruments, individual financial institutions or maturities. The City constrains the portfolio further than the California Government Code to reduce credit risk in the marketplace. Due to fluctuations in the aggregate portfolio balance, maximum percentages for a particular investment type, issuer or security structure may be exceeded at a point in time subsequent to the purchase of a particular security. Securities do not need to be liquidated to realign the portfolio; however, consideration should be given to the matter when future purchases are made.

7.2 INVESTMENT MATURITY:

- The City will not directly invest in securities maturing more than five (5) years from the date of purchase.
- The maximum weighted maturity of the total portfolio shall not exceed 3.5 years. This maximum is established to limit the portfolio to excessive price change exposure.
- Liquidity funds, defined as active bank deposits, LAIF and CAMP balances and money market securities with a maturity of less than six months, will comprise at least 20% of the total portfolio.

 Longer term/Core funds will be defined as the funds in excess of liquidity requirements. The investments in this portion of the portfolio will have maturities between one (1) day and five (5) years.

Exception to 5 year maturity maximum: Reserve or Capital Improvement Project monies may be invested in securities exceeding five (5) years if the maturities of such investments are made to coincide as nearly as practicable with the expected use of the funds.

7.3 COMPETITIVE TRANSACTIONS

The City Treasurer shall obtain competitive bid information on all purchases of investment instruments purchased on the secondary market. Bid information can be obtained via telephone, faxed or emailed quotes. If the City is offered a security for which there is no readily available competitive offering on the same specific issue, the City Treasurer shall document quotations for comparable or alternative securities. The Treasurer will select the quote which best satisfies the investment objectives of the investment portfolio within the parameters of this policy. The City Treasurer will maintain a written record of each bidding process including the name and prices offered by each participating financial institution.

7.4 INVESTMENT GUIDELINES AND STRATEGIES

The City Treasurer and staff will develop and maintain procedures, guidelines and strategies to provide for investment decisions that meet the established goals of this policy. These strategies will incorporate cash flow considerations, liquidity and surplus balances.

7.5 MITIGATING CREDIT RISK IN THE PORTFOLIO

Credit risk is the risk that a security or a portfolio will lose some or all of its value due to a real or perceived change in the ability of the issuer to repay its debt. The City will mitigate credit risk by adopting the following strategies:

- The diversification requirements included in the "Authorized Investments" section of this policy are designed to mitigate credit risk in the portfolio.
- Unless otherwise specified in this investment policy, no more than 5% of the total portfolio may be invested in securities of any single issuer per each category in Section VI of this policy, except:
 - 1. Where the issuer is the US Government, its Agencies and GSEs
 - 2. Supranational securities
 - 3. Money Market Mutual Funds
 - 4. Local Government Investment Pools

- The City may elect to sell a security prior to its maturity and record a capital gain or loss in order to improve the quality, liquidity or yield of the portfolio in response to market conditions or City's risk preferences.
- If securities owned by the City are downgraded to a level below the quality required by this investment policy, it will be the City's policy to review the credit situation and make a determination as to whether to sell or retain such securities in the portfolio.

VIII. REPORTING

8.1 SPECIFIC REPORTING REQUIREMENTS:

The City Treasurer shall render a monthly investment report to the City Council and the City Manager. The report shall include the type of investment, institution, date of maturity, par value and amount of investment, rate of interest, current market value, source of the market value, and such other data as may be required by the City Council. The report shall also include a schedule of investment transactions for the month, a statement denoting the ability of the City to meet its expenditure requirements for the ensuing six (6) months or an explanation as to why sufficient funds may not be available, and a statement that the City's investment portfolio is in compliance with the City's Investment Policy or the manner in which it may not be in compliance. *{Gov. Code Sections 53607 and 53646}*

8.2: PERFORMANCE STANDARDS:

The City's investment portfolio will be designed to obtain a market average rate of return during budgetary and economic cycles, taking into account the City's investment risk constraints and cash flow needs. The basis used by the Treasurer to determine whether market yields are being achieved shall be to identify a benchmark comparable to the portfolio's average weighted maturity and credit profile. Separate benchmarks may be established for liquidity funds and longer term/core funds. Benchmarks will be established through the City Treasurer's procedures manual.

8.3: REVIEW OF INVESTMENT PORTFOLIO:

The securities held by the City must be in compliance with Section VI Authorized and Suitable Investments at the time of purchase. Because some securities may not comply with Section VI Authorized and Suitable Investments subsequent to the date of purchase, the City Treasurer will at least quarterly review the portfolio to identify those securities that do not comply. The City Treasurer will establish procedures to report to the City Council major and critical incidences of noncompliance identified through the review of the portfolio. The portfolio may be adjusted as market conditions change to comply with the City's objectives of safety, liquidity and achievement of market rates of return.

IX. POLICY REVIEW AND ADOPTION

The Statement of Investment Policy shall be adopted by the City Council. The policy shall be reviewed at least annually to ensure its consistency with the overall objectives of preservation of principal, liquidity and yield, and its relevance to current law, financial and economic trends.

X. GLOSSARY OF TERMS

Agencies. Shorthand market terminology for any obligation issued by a government-sponsored entity (GSE), or a federally related institution. Most obligations of GSEs are not guaranteed by the full faith and credit of the US government. Examples are:

- **FFCB.** The Federal Farm Credit Bank System provides credit and liquidity in the agricultural industry. FFCB issues discount notes and bonds.
- **FHLB.** The Federal Home Loan Bank provides credit and liquidity in the housing market. FHLB issues discount notes and bonds.
- **FHLMC.** Like FHLB, the Federal Home Loan Mortgage Corporation provides credit and liquidity in the housing market. FHLMC, also called "FreddieMac" issues discount notes, bonds and mortgage pass-through securities.
- **FNMA.** Like FHLB and FreddieMac, the Federal National Mortgage Association was established to provide credit and liquidity in the housing market. FNMA, also known as "FannieMae," issues discount notes, bonds and mortgage pass-through securities.
- **GNMA.** The Government National Mortgage Association, known as "GinnieMae," issues mortgage pass-through securities, which are guaranteed by the full faith and credit of the US Government.
- **PEFCO.** The Private Export Funding Corporation assists exporters. Obligations of PEFCO are not guaranteed by the full faith and credit of the US government.
- **TVA.** The Tennessee Valley Authority provides flood control and power and promotes development in portions of the Tennessee, Ohio, and Mississippi River valleys. TVA currently issues discount notes and bonds.
- Asked. The price at which a seller offers to sell a security.

Asset Backed Securities. Securities supported by pools of installment loans or leases or by pools of revolving lines of credit.

Average Life. In mortgage-related investments, including CMOs, the average time to expected receipt of principal payments, weighted by the amount of principal expected.

Banker's Acceptance. A money market instrument created to facilitate international trade transactions. It is highly liquid and safe because the risk of the trade transaction is transferred to the bank which "accepts" the obligation to pay the investor.

Benchmark. A comparison security or portfolio. A performance benchmark is a partial market index, which reflects the mix of securities allowed under a specific investment policy.

Broker. A broker brings buyers and sellers together for a transaction for which the broker receives a commission. A broker does not sell securities from his own position.

Callable. A callable security gives the issuer the option to call it from the investor prior to its maturity. The main cause of a call is a decline in interest rates. If interest rates decline since an issuer issues securities, it will likely call its current securities and reissue them at a lower rate of interest. Callable securities have reinvestment risk as the investor may receive its principal back when interest rates are lower than when the investment was initially made.

CDARS (Certificate of Deposit Account Registry System). A private CD placement service that allows local agencies to purchase more than \$250,000 in CDs from a single financial institution (must be a participating institution of CDARS) while still maintaining FDIC insurance coverage. CDARS is currently the only entity providing this service. CDARS facilitates the trading of deposits between the California institution and other participating institutions in amounts that are less than \$250,000 each, so that FDIC coverage is maintained.

Certificate of Deposit (CD). A time deposit with a specific maturity evidenced by a certificate. Large denomination CDs may be marketable.

Collateral. Securities or cash pledged by a borrower to secure repayment of a loan or repurchase agreement. Also, securities pledged by a financial institution to secure deposits of public monies.

Collateralized Mortgage Obligations (CMO). Classes of bonds that redistribute the cash flows of mortgage securities (and whole loans) to create securities that have different levels of prepayment risk, as compared to the underlying mortgage securities.

Commercial Paper. The short-term unsecured debt of corporations.

Cost Yield. The annual income from an investment divided by the purchase cost. Because it does not give effect to premiums and discounts which may have been included in the purchase cost, it is an incomplete measure of return.

Coupon. The rate of return at which interest is paid on a bond.

Credit Risk. The risk that principal and/or interest on an investment will not be paid in a timely manner due to changes in the condition of the issuer.

Current Yield. The annual income from an investment divided by the current market value. Since the mathematical calculation relies on the current market value rather than the investor's cost, current yield is unrelated to the actual return the investor will earn if the security is held to maturity.

Dealer. A dealer acts as a principal in security transactions, selling securities from and buying securities for his own position.

Debenture. A bond secured only by the general credit of the issuer.

Delivery vs. Payment (DVP). A securities industry procedure whereby payment for a security must be made at the time the security is delivered to the purchaser's agent.

Derivative. Any security that has principal and/or interest payments which are subject to uncertainty (but not for reasons of default or credit risk) as to timing and/or amount, or any security which represents a component of another security which has been separated from other components ("Stripped" coupons and principal). A derivative is also defined as a financial instrument the value of which is totally or partially derived from the value of another instrument, interest rate, or index.

Discount. The difference between the par value of a bond and the cost of the bond, when the cost is below par. Some short-term securities, such as T-bills and banker's acceptances, are known as discount securities. They sell at a discount from par, and return the par value to the investor at maturity without additional interest. Other securities, which have fixed coupons, trade at a discount when the coupon rate is lower than the current market rate for securities of that maturity and/or quality.

Diversification. Dividing investment funds among a variety of investments to avoid excessive exposure to any one source of risk.

Duration. The weighted average time to maturity of a bond where the weights are the present values of the future cash flows. Duration measures the price sensitivity of a bond to changes in interest rates. (See modified duration).

Federal Funds Rate. The rate of interest charged by banks for short-term loans to other banks. The Federal Reserve Bank through open-market operations establishes it.

Leverage. Borrowing funds in order to invest in securities that have the potential to pay earnings at a rate higher than the cost of borrowing.

Liquidity: The speed and ease with which an asset can be converted to cash.

Make Whole Call. A type of call provision on a bond that allows the issuer to pay off the remaining debt early. Unlike a call option, with a make whole call provision, the issuer makes a lump sum payment that equals the net present value (NPV) of future coupon payments that will not be paid because of the call. With this type of call, an investor is compensated, or "made whole."

Margin: The difference between the market value of a security and the loan a broker makes using that security as collateral.

Market Risk. The risk that the value of securities will fluctuate with changes in overall market conditions or interest rates.

Market Value. The price at which a security can be traded.

Marking to Market. The process of posting current market values for securities in a portfolio.

Maturity. The final date upon which the principal of a security becomes due and payable.

Medium Term Notes. Unsecured, investment-grade senior debt securities of major corporations which are sold in relatively small amounts on either a continuous or an intermittent basis. MTNs are highly flexible debt instruments that can be structured to respond to market opportunities or to investor preferences.

Modified Duration. The percent change in price for a 100 basis point change in yields. Modified duration is the best single measure of a portfolio's or security's exposure to market risk.

Money Market. The market in which short-term debt instruments (Tbills, discount notes, commercial paper, and banker's acceptances) are issued and traded.

Mortgage Pass-Through Securities. A securitized participation in the interest and principal cash flows from a specified pool of mortgages. Principal and interest payments made on the mortgages are passed through to the holder of the security.

Municipal Securities. Securities issued by state and local agencies to finance capital and operating expenses.

Mutual Fund. An entity which pools the funds of investors and invests those funds in a set of securities which is specifically defined in the fund's prospectus. Mutual funds can be invested in various types of domestic and/or international stocks, bonds, and money market instruments, as set forth in the individual fund's prospectus. For most large, institutional investors, the costs associated with investing in mutual funds are higher than the investor can obtain through an individually managed portfolio.

Nationally Recognized Statistical Rating Organization (NRSRO). A credit rating agency (CRA) that issues credit ratings that the U.S. Securities and Exchange Commission (SEC) permits other financial firms to use for certain regulatory purposes.

Premium. The difference between the par value of a bond and the cost of the bond, when the cost is above par.

Prepayment Speed. A measure of how quickly principal is repaid to investors in mortgage securities.

Prepayment Window. The time period over which principal repayments will be received on mortgage securities at a specified prepayment speed.

Primary Dealer. A financial institution (1) that is a trading counterparty with the Federal Reserve in its execution of market operations to carry out U.S. monetary policy, and (2) that participates for statistical reporting purposes in compiling data on activity in the U.S. Government securities market.

Prudent Person (Prudent Investor) Rule. A standard of responsibility which applies to fiduciaries. In California, the rule is stated as "Investments shall be managed with the care, skill, prudence and diligence, under the circumstances then prevailing, that a prudent person, acting in a like capacity and familiar with such matters, would use in the conduct of an enterprise of like character and with like aims to accomplish similar purposes."

Realized Yield. The change in value of the portfolio due to interest received and interest earned and realized gains and losses. It does not give effect to changes in market value on securities, which have not been sold from the portfolio.

Regional Dealer. A financial intermediary that buys and sells securities for the benefit of its customers without maintaining substantial inventories of securities and that is not a primary dealer.

Repurchase Agreement (RP, Repo). Short-term purchases of securities with a simultaneous agreement to sell the securities back at a higher price. From the seller's point of view, the same transaction is a reverse repurchase agreement.

Safekeeping. A service to bank customers whereby securities are held by the bank in the customer's name.

Structured Note. A complex, fixed income instrument, which pays interest, based on a formula tied to other interest rates, commodities or indices. Examples include inverse floating rate notes which have coupons that increase when other interest rates are falling, and which fall when other interest rates are rising, and "dual index floaters," which pay interest based on the relationship between two other interest rates - for example, the yield on the ten-year Treasury note minus the Libor rate. Issuers of such notes lock in a reduced cost of borrowing by purchasing interest rate swap agreements.

Supranationals. A supranational is a multi-national organization whereby member states transcend national boundaries or interests to share in the decision making to promote economic development in the member countries.

Total Rate of Return. A measure of a portfolio's performance over time. It is the internal rate of return, which equates the beginning value of the portfolio with the ending value; it includes interest earnings, realized and unrealized gains, and losses in the portfolio.

U.S. Treasury Obligations. Securities issued by the U.S. Treasury and backed by the full faith and credit of the United States. Treasuries are considered to have no credit risk, and are the benchmark for interest rates on all other securities in the US and overseas. The Treasury issues both discounted securities and fixed coupon notes and bonds.

Treasury Bills. All securities issued with initial maturities of one year or less are issued as discounted instruments, and are called Treasury bills. The Treasury currently issues three- and six-month Tbills at regular weekly auctions. It also issues "cash management" bills as needed to smooth out cash flows.

Treasury Notes. All securities issued with initial maturities of two to ten years are called Treasury notes, and pay interest semi-annually.

Treasury Bonds. All securities issued with initial maturities greater than ten years are called Treasury bonds. Like Treasury notes, they pay interest semi-annually.

Volatility. The rate at which security prices change with changes in general economic conditions or the general level of interest rates.

Yield to Maturity. The annualized internal rate of return on an investment which equates the expected cash flows from the investment to its cost.

CITY OF STANTON

REPORT TO CITY COUNCIL

TO:

Honorable Mayor and Members of the City Council

DATE:

June 27, 2017

SUBJECT: RESOLUTION DIRECTING THE AUDITOR OF THE COUNTY OF

ORANGE TO ADD THE PROTECTIVE SERVICES TAX TO THE 2017-

2018 TAX ROLL

REPORT IN BRIEF:

On August 6, 1985, the voters of Stanton adopted an initiative measure establishing a Protective Services Tax. Each year the City Council must adopt a Resolution directing the Auditor Controller to place this assessment on the tax rolls.

RECOMMENDED ACTION:

That City Council:

- 1. Find that this item is not subject to California Environmental Quality Act ("CEQA") pursuant to Sections 15060(c)(2) (the activity will not result in a direct or reasonably foreseeable indirect physical change in the environment) and 15060(c)(3) (the activity is not a project as defined in Section 15378(b)(4) of the CEQA Guidelines, California Code of Regulations, Title 14, Chapter 3, because it has no potential for resulting in physical change to the environment, directly or indirectly).
- 2. Adopt Resolution No. 2017-21 directing the County Auditor Controller to place the Protective Services Tax on the 2017-2018 Tax Roll.

BACKGROUND:

On August 6, 1985, the voters passed, by a 2/3rd majority, a special tax for the purpose of Protective Services. This ongoing tax has fixed rates that are not subject to change. Changes can occur to some parcels due to use change, zoning change, or in some cases development.

ANALYSIS/JUSTIFICATION:

The proceeds from the Protective Services tax are used for fire and police protection services provided by the City. Tax proceeds are used to offset a portion of the contracts.

The tax roll has been prepared by Harris and Associates, the City's consultant. The

proceeds of this tax have been calculated into the City Budget for fiscal year 2017-2018. Copies of the assessment roll are available for review in the office of the City Clerk.

The action being requested of Council relates only to the annual procedural step necessary to place the existing tax on the property tax roll for collection. The specifics of the tax, including the rate, are fixed and have already been approved by the voters through the ballot measure in 1985.

FISCAL IMPACT:

This tax will generate an estimated \$378,107.25 for fiscal year 2017-2018.

ENVIRONMENTAL IMPACT:

None.

LEGAL REVIEW:

None.

PUBLIC NOTIFICATION:

Through the regular agenda process.

STRATEGIC PLAN OBJECTIVE ADDRESSED:

4. Ensure Fiscal Stability and Efficiency in Governance.

REPORT TO THE CITY COUNCIL

TO:

Honorable Mayor and City Council

DATE:

June 27, 2017

SUBJECT:

PUBLIC HEARING RELATIVE TO THE ANNUAL LEVY OF ASSESSMENTS FOR THE INSTALLATION, MAINTENANCE, AND SERVICING OF PUBLIC LIGHTING FACILITIES AND MEDIAN ISLANDS WITHIN THE BOUNDARIES OF THE TERRITORY INCLUDED IN THE STANTON LIGHTING AND LANDSCAPING DISTRICT NO. 1 FOR FISCAL YEAR 2017-2018 PURSUANT TO THE LANDSCAPING AND LIGHTING

ACT OF 1972

REPORT IN BRIEF:

On June 13, 2017, the City Council adopted Resolution No. 2017-17, approving the Engineers report, and Resolution No. 2017-18, declaring its intention to levy and collect the annual assessments for installation, maintenance and servicing of Lighting and Landscaping District No. 1 for Fiscal Year 2017-2018 pursuant to the Landscaping and Lighting Act of 1972. This is the time and date scheduled to conduct the Public Hearing concerning the annual levy of assessments of the District, the extent of the District, the improvements and the proposed assessments and all other matters pertaining thereto.

RECOMMENDED ACTION:

That the City Council:

- 1. Find that this item is not subject to California Environmental Quality Act ("CEQA") pursuant to Sections 15060(c)(2) (the activity will not result in a direct or reasonably foreseeable indirect physical change in the environment) and 15060(c)(3) (the activity is not a project as defined in Section 15378(b)(4) of the CEQA Guidelines, California Code of Regulations, Title 14, Chapter 3, because it has no potential for resulting in physical change to the environment, directly or indirectly); and
- 2. Conduct the required public hearing concerning the annual levy of assessments for the District, the extent of the District, the improvements and the proposed assessments and all other matters pertaining thereto; and
- 3. Adopt Resolution No. 2017-20, confirming the assessments for installation, maintenance, and servicing of lighting and landscaping within the boundaries of the territory included in the Stanton Lighting and Landscaping District No. 1, for fiscal year 2017-2018.

Page 1

BACKGROUND:

The Stanton Lighting and Landscaping District No. 1 was formed March 10, 1981, and has provided funding for street lighting and median maintenance services within the City. Each parcel in the City is assessed a proportionate share of the District's costs each year. The assessment appears on the property tax bill. Assessments are established based upon an Engineer's assessment of each property's relative benefit for the services provided by the District.

Each year an update to the Engineer's Report must be produced relative to the annual assessments for the Stanton Lighting and Landscaping District No. 1. Council has previously taken action to contract with Harris and Associates, to perform the required work. The Engineer's Report was approved on June 13, 2017 by the City Council with the adoption of Resolution No. 2017-17.

ANALYSIS/JUSTIFICATION:

Pursuant to the Engineers report, the assessments for the street lighting system, traffic signals and median maintenance are not proposed to increase from the previous year.

After receiving public testimony, it is recommended that Council consider the proposed resolution, which would confirm the proposed assessments for the 2017-2018 Fiscal Year.

FISCAL IMPACT:

The proposed assessments will provide funding to maintain and service street lighting, traffic signals and median maintenance. The assessments will generate an estimated \$192,819.48 for fiscal year 2017-2018.

ENVIRONMENTAL IMPACT:

None.

LEGAL REVIEW:

None.

PUBLIC NOTIFICATION:

Public notification provided through the normal agenda process and publishing in the Orange County News.

CITY OF STANTON

REPORT TO THE CITY COUNCIL

TO:

Honorable Mayor and Members of the City Council

DATE:

June 27, 2017

SUBJECT: PUBLIC

PUBLIC HEARING -- INTRODUCTION OF ORDINANCE

ESTABLISHING RATES FOR ANNUAL SEWER SERVICE CHARGES

FOR SEWER SERVICES

REPORT IN BRIEF:

On March 1, 1988, the City of Stanton assumed operation and maintenance of sanitary sewer system improvements within its jurisdictional boundary under Orange County Reorganization No. 88. In order to provide sufficient revenue for the operation of the Stanton Sewer Department the City Council must annually adopt an ordinance to establish an Annual Sewer Service Charge for sewer services for each fiscal year.

The City has recently completed an Annual Report sewer rate study which was preliminarily approved by the City Council at their meeting on June 13, 2017. Since the report included a change in the methodology used to calculate the Annual Sewer Service Charge for non-residential parcels, the City was required to comply with the requirements of Article XIIID, Section 6 which requires that the City conduct a public hearing on the proposed rate structure not less than 45 days after mailing a notice of the proposed change to each parcel.

RECOMMENDED ACTION:

That City Council:

- 1. Open the public hearing to receive public comment regarding a revised Sewer User Fee rate, which maintains a two percent reduction from the fiscal year 2014-2015 Sewer User Fee unit rate for residential properties and adjusts the methodology used to calculate the Annual Sewer Charge for non-residential properties to be based on land use and building area rather than parcel size until such time as the sewer rates are otherwise revised by a subsequent ordinance of the City Council; and
- 2. Declare that the proposed ordinance is exempt from the California Environmental Quality Act ("CEQA") review under Public Resources Code section 21080(b)(8) and State CEQA Guidelines section 15273; and

- 3. Approve the Fiscal Year 2017-2018 Preliminary User Charge Roll for levying of the Annual Sewer Service Charge (on file in the City Clerk's office); and
- 4. Introduce Ordinance No. 1068 entitled:

"AN ORDINANCE OF THE CITY COUNCIL OF THE CITY OF STANTON, CALIFORNIA, ESTABLISHING RATES FOR THE ANNUAL SEWER SERVICES"

5. Set said ordinance and public hearing thereon for adoption at the regular City Council meeting of August 8, 2017.

BACKGROUND:

The City of Stanton currently operates and maintains a sewer collection system that serves customers within the City. This network of sanitary sewers serves approximately 40,000 residents and is comprised of 55.4 miles of mains with approximately 550 Manholes and 5,000 sewer laterals.

The City charges Annual Sewer Service Charges to operate the City's Sewer System. The City's Sewer System is managed with an enterprise account. Revenue collected from the Annual Sewer Service Charges can only be spent on the City's Sewer System.

On June 23, 2009, the City Council adopted the City Sanitary Sewer Master Plan. This plan inventoried, mapped the system and identified necessary improvements to the system in three areas. These areas are: structural deficiencies, current capacity deficiencies, and capacity deficiencies if and when the City is developed to match the housing density approved within the City's General Plan. The adopted Annual Sewer Service Charges enable the City to proceed with the recommendations outlined in the City Sanitary Sewer Master Plan.

On May 11, 2010, the City approved the AKM Consulting Engineer's Sewer System Financial Evaluation and Rate Study dated April 1, 2010, which created a rate structure to address the proper operation and maintenance of the City's Sewer System.

On June 13, 2017, the City approved Harris & Associates' Annual Report for the Sewer Service Charge Fiscal Year 2017-18 which proposed the revision of the rate structure for non-residential properties to determine the discharge of wastewater into the City's Sewer System utilizing the typical wastewater discharge rates as determined by the Orange County Sanitation District, which are based on building area and land use.

ANALYSIS/JUSTIFICATION:

Earlier this year, the City consulted with Harris & Associates to review and revise the rate structure for the City's Annual Sewer Service Charges for the proper operation and maintenance of the City's Sewer System. This Annual Report was approved by the City

Council on June 13, 2017. The proposed rate structure provides for the Annual Sewer Service Charges for each fiscal year from 2017-2018 through 2021-2022, and would be effective July 1, 2017. It should be noted that the proposed residential rates are not being increased, and will be lower in each fiscal year proposed than the rates approved in 2010 for fiscal year 2014-2015. In addition, the proposed rates above will not take effect unless City Council determines they are necessary in their annual review of current and projected sewer costs. The table below shows the proposed rates for residential customers:

Residential Land Uses			Fiscal	Year		· · · · · ·
Residential Land Oses	Current	2017/18	2018/19	2019/20	2020/21	2021/22
Detached Single Family Residential	\$ 62.96	\$ 62.96	\$ 65.16	\$ 67.44	\$ 69.80	\$ 72.25
MFR/Condo	\$ 50.37	\$ 50.37	\$ 52.13	\$ 53.96	\$ 55.84	\$ 57.80
Mobile Home/ MHP (Park)	\$ 31.48	\$ 31.48	\$ 32.58	\$ 33.72	\$ 34.90	\$ 36.12

If adopted, effective July 1, 2017, the Annual Sewer Service Charge for non-residential properties will be based on each parcel's land use and building area which will be used to estimate the amount of wastewater discharged into the City's Sewer System. This is the same methodology used by the Orange County Sanitation District (Ordinance No. OCSD -41) to determine wastewater discharge volumes for non-residential parcels. Parcels with non-residential land uses which typically discharge a higher amount of wastewater into the City's Sewer System per 1,000 sq. ft. of building area compared to a single family residence (such as restaurants, medical offices, hotels/motels) may see an increase in their Annual Sewer Service Charge compared to prior years, while parcels with land uses that typically discharge a lower amount of wastewater (such as warehouse, office, retail) may see a reduction. The Annual Sewer Service Charge for non-residential parcels will be calculated by multiplying the estimated waste discharge as a percentage of a single family residence times \$62.96 per 1,000 sq. ft. of building area for FY 17/18

Since the proposed rates for the Annual Sewer Service Charge changes the method used to calculate the Annual Sewer Service Charge for non-residential parcels, the City is required to comply with requirements under Article XIII D, section 6 of the California Constitution, which include conducting a public hearing on the proposed rate structure not less than 45 days after mailing a notice of the proposed change to each parcel. Should a majority protest be filed by property owners to the proposed rate structure, the City will continue to levy the charge using the current methodology.

As such, at the August 8, 2017 meeting, prior to adopting the ordinance introduced pursuant to this action, the City Council must hold a public hearing on adoption of the rates for the Annual Sewer Service Charge. If the no majority protest from property owners exists, the City Council may adopt the rates.

FISCAL IMPACT:

For fiscal year 2017-2018, the sewer user fees will generate approximately \$799,373.84, a decrease of over 11% over the prior fiscal year.

ENVIRONMENTAL IMPACT:

None with this action. The proposed Ordinance is exempt from California Environmental Quality Act (CEQA) review under Public Resources Code section 21080(b)(8) and State CEQA Guidelines section 15273. All individual sewer projects will comply with CEQA and the City's NPDES program.

AN ORDINANCE OF THE CITY COUNCIL OF THE CITY OF STANTON, CALIFORNIA, ESTABLISHING RATES FOR THE ANNUAL SEWER SERVICE CHARGE FOR SEWER SERVICES

WHEREAS, the City of Stanton ("City") is successor agency of the Stanton County Water District under Reorganization No. 88; and

WHEREAS, the City currently operates and maintains a sewer collection system that serves the City. The network of sanitary sewers serves approximately 40,000 residents and is comprised of 55.4 miles of mains with approximately 550 manholes and 5,000 sewer laterals; and

WHEREAS, the City charges fees to operate the citywide sewer collection system, and the sewer system is managed with an enterprise account. The rates customers pay may only be spent on the sewer system; and

WHEREAS, on May 11, 2010 the City approved the AKM Consulting Engineers' Sewer System Financial Evaluation and Rate Study dated April 1, 2010, which created a rate structure to address the proper operation and maintenance of the City's sewer system. A copy of the sewer rate study is on file with the City Clerk; and

WHEREAS, on June 13, 2017 the City approved Harris & Associates' Annual Report for the Sewer Service Charge Fiscal Year 2017-18 which proposed the revision of the rate structure for nonresidential properties to be based on the discharge of wastewater into the City's sewer collection system utilizing the typical wastewater discharge rates as determined by Orange County Sanitation District; and

WHEREAS, the City has received a letter from AKM Consulting Engineers that affirms the needs assessment of the City's sewer collection system completed by AKM in April 2010 is still valid and there maybe additional needs due to the passage of time; and

WHEREAS, the maximum rates for residential parcels in each Fiscal Year for which they are proposed are less than the maximum rates approved in 2010 for Fiscal Year 2014-15, and are not being "increased" for the purposes of Article XIII D, section 6 of the California Constitution, and

WHEREAS, the sewer charges for residential parcels are determined based on estimated discharge of wastewater into the City's sewer system based on land use, and includes rates per dwelling unit for detached residential, multi-family residential/condo, and mobile homes/mobile home parks, determined as a percentage of the cost per single family residence per unit, all as more specifically set forth in Exhibit A hereto; and

WHEREAS, the sewer charges for non-residential customers are calculated as a percentage of single family residences per 1,000 square feet or unit, all as more specifically set forth in Exhibit A hereto; and

WHEREAS, the total revenue collected for the sewer collection system under the proposed rates for Fiscal Year 2021-22 are lower than the total revenue approved to collect in 2010 for Fiscal Year 2014-15; and

WHEREAS, pursuant to the authority of Section 5473 of the Health and Safety Code, the City Council of the City of Stanton elects to have such sewer charges for the forthcoming years collected on the tax roll in the same manner, by the same persons, and at the same time as, together with and not separately from, its general taxes; and

WHEREAS, Harris & Associates has, in accordance with Section 5473 of the Health and Safety Code, prepared and filed with the City Clerk the Sewer User Fee Assessment Roll report containing a description of each parcel of real property receiving such services and facilities and the amount of charge for each parcel; and

WHEREAS, in accordance with Section 5473.1 of the Health and Safety Code, the City has published notice of the filing of the Sewer User Fee Assessment Roll report and of the time and place of the public hearing on the report; and

WHEREAS, the revenues derived from the proposed sewer charges will not exceed the funds required to provide the sewer services and shall be used exclusively for the provision of sewer services; and

WHEREAS, the amount of the proposed sewer charges will not exceed the proportional cost of the services attributable to each parcel upon which they are proposed for imposition; and

WHEREAS, the proposed sewer charges will not be imposed on a parcel unless such services are actually used by, or immediately available to, the owner of the parcel or any tenant directly liable for the payment of such sewer charges; and

WHEREAS, pursuant to California Constitution article XIII D, section 6 ("Article XIII D"), the City provided written notice (the "Notice") by mail of: (1) the proposed increases to the rates for the sewer charges to the record owner of each parcel upon which the rate increases to the sewer charges are proposed for imposition; (2) the amount of the rates for the sewer charges proposed to be imposed on each parcel; (3) the basis upon which the rates for the sewer charges were calculated; (4) the reason for the rate increases to the sewer charges; and (5) the date time and location of a public hearing (the "Hearing") on the proposed rate increases to the sewer service fees; and

WHEREAS, the City provided such Notice not less than forty-five days prior to the Hearing on the proposed rate increases to the sewer service fees in compliance with Article XIII D; and

WHEREAS, the Hearing was held on this day, August 8, 2017; and

WHEREAS, at the Hearing the City Council heard and considered all oral testimony, written

materials, and written protests concerning the establishment and imposition of the proposed rates to the sewer charges, and at the close of the Hearing the City did not receive written protests against the establishment and imposition of the proposed rate increases to the sewer charges from a majority of the affected property owners; and

WHEREAS, the City is the lead agency under the California Environmental Quality Act (CEQA). The City has determined that this Ordinance is exempt from CEQA review under Public Resources Code section 21080(b)(8) and State CEQA Guidelines section 15273 because the sewer service fees are necessary and reasonable to fund the administration, operation, maintenance, and improvements of the sewer systems and will not result in the expansion of the sewer system; and

WHEREAS, this Ordinance shall supersede all other previous resolutions and ordinances that may conflict with, or be contrary to, this Ordinance with respect to the rates for sewer service fees described more particularly herein.

NOW, THEREFORE, THE CITY COUNCIL OF THE CITY OF STANTON DOES ORDAIN AS FOLLOWS:

<u>SECTION 1</u>. The foregoing recitals are true and correct and the City Council so finds and determines. All protests and objections are hereby overruled by the affirmative vote of the members of the City Council voting in favor of the adoption of this Ordinance.

<u>SECTION 2</u>. The sewer charges established by this Ordinance are exempt from CEQA review under Public Resources Code section 21080(b)(8) and State CEQA Guidelines section 15273 because the sewer charges are necessary and reasonable to fund the administration, operation, maintenance, and improvements of sewer system and will not result in the expansion of the sewer system. The documents and materials that constitute the record of proceedings on which these findings have been based are located at 7800 Katella Ave., Stanton, California 90680. The custodian for these records is the City Clerk.

- 3.2 The City Council reviewed the proposed rates for sewer charges at the June 13th City Council meeting.
 - 3.3 The City Council introduced this Ordinance at the June 27, 2017 meeting.
- 3.4 The City Council held a duly noticed Hearing on August 8, 2017, at which the City Council did not receive a protest from a majority of property owners subject to the sewer charges.

3.5 The City Council hereby adopts the sewer charges set forth in Exhibit A hereto. The City of Stanton hereby imposes and levies a sewer charges for each sanitation unit within the City of Stanton until such time as the sewer charges are otherwise revised by a subsequent ordinance of the City Council.

SECTION 4. The Annual Sewer Service Charge report, copies of which are on file in the office of the City Clerk, is hereby confirmed.

SECTION 5. Passage of this ordinance shall constitute a levy of an annual sewer charge on each parcel connected to the City's sanitary sewer system until such time as the rates for the sewer charge are otherwise revised by a subsequent ordinance of the City Council.

<u>SECTION 6</u>. Pursuant to the authority of Section 5473 of the Health and Safety Code, the City Clerk shall file the Sewer User Fee Assessment Roll with the County Auditor of the County of Orange.

SECTION 7. In the event the City cannot, or does not complete the actions required to collect the sewer service charge against a parcel for a fiscal year on the property tax roll, the City may collect such sewer charge for that year with respect to that parcel by mailing a bill to the owner of the parcel. Any sewer charge billed in this manner shall be due and payable upon presentation, but no earlier than December 1 of the fiscal year for which the sewer charge is imposed. If a sewer charge billed in this manner is not paid within thirty (30) days of the due date, then on the first day of each calendar month thereafter a late fee of two (2) percent of the amount of the delinquent sewer charge shall be added and become due. If any such sewer charge remains outstanding at the time the report is prepared for a subsequent fiscal year, the delinquent sewer charge (and accrued late fees) may be included on such report and collected on the tax roll along with the charges for that fiscal year.

SECTION 8. If any section, subsection, subdivision, sentence, clause, or phrase in this Ordinance or any part thereof is for any reason held to be unconstitutional or invalid, ineffective by any court of competent jurisdiction, such decision shall not affect the validity or effectiveness of the remaining portions of this Ordinance or any part thereof. The Board of Directors hereby declares that it would have adopted each section irrespective of the fact that any one or more subsections, subdivisions, sentences, clauses, or phrases be declared unconstitutional, invalid, or ineffective.

SECTION 9. The City Clerk shall certify as to the adoption of this Ordinance.

Non-Residential Sewer Charges

The table below shows the annual Charge for non-residential parcels per 1,000 square feet of building area as a percentage of the detached residential unit rate (Single Family Residence or "SFR") based upon the typical wastewater discharge rates determined by the Orange County Sanitation District for parcels within the District. The annual Charge for nonresidential parcels is calculated by multiplying the applicable percentage shown in Table 2 based upon the Assessor's Use Code times the Detached Residential Charge to determine the rate to be charged per building square footage divided by 1,000.
