# **TO:** Honorable Mayor and Members of the City Council

**DATE:** April 23, 2019

# SUBJECT: A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF STANTON, CALIFORNIA, DECLARING COMMITMENT TO PARTNER WITH THE U.S. CENSUS BUREAU FOR A 2020 CENSUS

### **REPORT IN BRIEF:**

This is a City Council resolution recognizing the importance of the 2020 U.S. Census.

# **RECOMMENDED ACTION:**

City Council adopt Resolution 2019-16 supporting the 2020 Census.

### BACKGROUND:

Every 10 years, as mandated by the U.S. Constitution, the federal government undertakes a census of the U.S. population to determine the allocation of seats held by each state in the House of Representatives. The next federal census will begin on April 1, 2020.

In addition to determining federal representation, the census is used to distribute federal funding to states and local governments. In the Golden State, more than 70 federal programs that benefit our residents use the Census data and population counts as part of their funding formulas, including the Community Development Block Grant Program, as well as funding for roads, school programs and lunches, children's health insurance, Head Start and foster care.

The census data is also used to redraw federal and state legislative district boundaries.

For these reasons, a complete and accurate census count is essential to the well-being of our state and all Californians.

# ANALYSIS/JUSTIFICATION:

The 2020 Census presents many unique challenges for states across the nation, including the first-ever on-line census, the inclusion of a specific citizenship question, intensifying immigrant fears and distrust, an increase in public distrust of the

Council Agenda Item # \_\_

government and security of information, and a decrease in federal funding to conduct the Census, to name a few. As every state grapples with these federal challenges, this situation is exacerbated in California, where 75 percent of Californians are considered "hard to count," which means they have been historically undercounted in the Census. Hard to count populations include but are not limited to veterans, homeless, children under 5, senior citizens, renters, immigrants, and people with disabilities.

California cities can play an incredibly important role in helping our state prepare for and overcome these challenges. The California Government Operations Agency (GovOps) is the lead state agency on preparations and has been working closely with the League, the California Complete Count Committee, and the Senate and Assembly Select Committees on the 2020 U.S. Census to support cities and their efforts to encourage full participation in the 2020 federal census.

The Census population numbers serve as the basis for the distribution of billions in federal dollars to the state and localities each year. A good example is the Community Development Block Grant program (CDBG). With new housing developments that have been built since the last Census, city participation in this process is critical.

# FISCAL IMPACT:

# A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF STANTON, CALIFORNIA, DECLARING COMMITMENT TO PARTNER WITH THE U.S. CENSUS BUREAU FOR A 2020 CENSUS

**WHEREAS**, the U.S. Census Bureau is required by Article I, Section 2 of the U.S. Constitution to conduct an accurate count of the population every ten years; and

**WHEREAS**, the next enumeration will be April 1, 2020 and will be the first to rely heavily on online responses; and

**WHEREAS**, the primary and perpetual challenge facing the U.S. Census Bureau is the undercount of certain population groups; and

**WHEREAS**, that challenge is amplified in California, given the size of the state and the diversity of communities; and

**WHEREAS**, California has a large percentage of individuals that are considered traditionally hard to count; and

WHEREAS, these diverse communities and demographic populations are at risk of being missed in the 2020 Census; and

WHEREAS, California receives nearly \$77 billion in federal funding that relies, in part, on census data; and

WHEREAS, a complete and accurate count of California's population is essential; and

WHEREAS, the data collected by the decennial Census determines the number of seats each state has in the U.S. House of Representatives and is used to distribute billions of dollars in federal funds to state and local governments; and

**WHEREAS**, the data is also used in the redistricting of state legislatures, county boards of supervisors and city councils; and

WHEREAS, the decennial census is a massive undertaking that requires cross-sector collaboration and partnership in order to achieve a complete and accurate count; and

WHEREAS, California's leaders have dedicated a historic amount of funding and resources to ensure every Californian is counted once, only once and in the right place; and

WHEREAS, this includes coordination between tribal, city, county, state governments, community-based organizations, education, and many more; and

**WHEREAS**, U.S. Census Bureau is facing several challenges with Census 2020, including constrained fiscal environment, rapidly changing use of technology, declining response rates, increasingly diverse and mobile population, thus support from partners and stakeholders is critical; and

**WHEREAS**, California is kicking-off its outreach and engagement efforts in April 2019 for the 2020 Census; and

**WHEREAS**, the City of Stanton, in partnership with other local governments, the State, businesses, schools, and community organizations, is committed to robust outreach and communication strategies, focusing on reaching the hardest-to-count individuals;

**NOW THEREFORE BE IT RESOLVED** the City of Stanton recognizes the importance of the 2020 U.S. Census and supports helping to ensure a complete, fair, and accurate count of all Californians.

# **REPORT TO CITY COUNCIL**

# TO: HONORABLE MAYOR AND MEMBERS OF THE CITY COUNCIL

# DATE: APRIL 23, 2019

# SUBJECT: ADOPTION OF RESOLUTION 2019-15 ESTABLISHING FEES FOR THE PROCESSING OF PARKING PERMITS AND THE ESTABLISHMENT OF NEW PERMIT ZONES

### **REPORT IN BRIEF:**

In February of 2019, the City Council adopted Ordinance No. 1084, which established new requirements for permit parking in the City. As part of the revised regulations, residents within a designated permit parking area are required to obtain a parking permit to legally park on the street. This resolution would establish a fee to recover the costs associated with the processing of parking permit applications and the establishment of new permit zones.

# **RECOMMENDED ACTION:**

- 1. Conduct a public hearing; and
- 2. Declare that the project is exempt from CEQA under Sections 15060(c)(2) (the activity will not result in a direct or reasonably foreseeable indirect physical change in the environment) and 15060(c)(3) (the activity is not a project as defined in Section 15378 of the CEQA Guidelines, California Code of Regulations, Title 14, Chapter 3, because it has no potential for resulting in physical change to the environment, directly or indirectly); and
- 3. That the City Council adopt Resolution No. 2019-15 establishing fees related to permit parking.

# **BACKGROUND:**

In April 2016, California's Attorney General issued an opinion on the application of Vehicle Code Section 22507 to permit parking. The opinion requires public agencies to apply permit parking regulations equally to all residential development types. As a result, multi-family dwellings must be treated in the same manner as single-family residences as it relates to permit parking.

In response to this opinion, the City Council passed Ordinance No. 1084 to establish new permit parking regulations in February of 2019. This includes a new program that includes multi-family residential properties, parking districts, and a process to add new zones within each district.

> Council Agenda Item #

# ANALYSIS/JUSTIFICATION:

The creation of a parking permit fee is proposed to recover the costs of the review and processing of each parking permit application. This fee will aid in the cost recovery of the issuance process as well as create a system that eliminates the issuance of unnecessary permits that were previously issued at no cost.

Based on the requirements set forth, the following are anticipated time allocations to complete the permit issuance procedure:

- 1. Administrative Functions (receiving payment, filing documents, property verification, permit issuance etc.) 30 minutes
- 2. Application Review (determination of appropriate zone designation, review for accuracy, etc.) 30 minutes

Based on the procedures and time allocation for the processing and issuance of the permit, the identified cost would be \$43. In addition each permit will cost the City \$3 to purchase. Assuming an average of two permits is issued to each resident the fee necessary to recover the City's costs would be \$25 per permit. The permit would be valid for a period of two years.

In order for additional areas to be considered for inclusion in the Permit Parking Program, a Permit Parking Zone Application must be completed. Based on the requirements set forth, the following are anticipated time allocations to complete the processing procedure:

- 1. Initial Review of Proposed Zone. This will include determining if the new permit zone makes logistical sense in terms of existing zones, size of zone, and types of residential in the zone. 1 hour of Administrative Clerk and 1 hour of Associate Engineer.
- 2. Review and Verification of Petitions. Staff will need to review the petition and verify that the signatures are valid and match record data. 1 hour of Administrative Clerk.
- 3. Ballots to Neighborhood. Staff will send individual ballots to each of the property owners in the zone, verify the validity of the ballots, and preparing a report on the results. 4 hours of Administrative Clerk.
- 4. Implementation and Cost of Signage. Staff will update the GIS maps for the zone, send notification to all property owners in the zone, and install signage indicating the limits of the new zone. 2 hours of Administrative Clerk and 2 hours of Associate Engineer.

The total amount of time is eight hours of Administrative Clerk time and three hours of Associate Engineer time. Based on the procedures and time allocation for the processing, review and installation of signage, the identified fee necessary to recover the City's cost would be \$660 per application.

# FISCAL IMPACT:

The proposed fee would cover, but not exceed, the estimated reasonable cost of providing the service for which the fee is charged. The fee would be established as a cost recovery mechanism.

# **ENVIRONMENTAL IMPACT:**

The project is exempt from CEQA under Sections 15060(c)(2) (the activity will not result in a direct or reasonably foreseeable indirect physical change in the environment) and 15060(c)(3) (the activity is not a project as defined in Section 15378 of the CEQA Guidelines, California Code of Regulations, Title 14, Chapter 3, because it has no potential for resulting in physical change to the environment, directly or indirectly).

### PUBLIC NOTIFICATION:

Public notice for this item was posted in three public places, on the City website, distributed at least 14 days before the hearing to all individuals that have requested notification, and made available through the regular agenda process. Per Government Code section 66016, the public notice noted that at least 14 days before the Council meeting, the City made publicly available the data indicating the proposed fee amount that would be paid.

## **REPORT TO THE CITY COUNCIL**

#### TO: Honorable Mayor and City Council

**DATE:** April 23, 2019

### SUBJECT: PAY OFF UNFUNDED LIABILITY IN CITY'S CALPERS SAFTY PLAN

#### **REPORT IN BRIEF:**

By making a lump sum payment of \$5.0 million to eliminate the unfunded liability in the City's CalPERS Safety Plan, the City will save \$2.9 million in reduced interest and free up \$0.6 million in cash flow annually. By using a portion of the improved cash flow to make annual discretionary payments of \$90,000 on average equivalent to a 15-year amortization schedule, the City would achieve additional interest savings of \$1.7 million over the next 15 years.

#### **RECOMMENDED ACTION:**

- 1. City Council declare that this item is not subject to California Environmental Quality Act ("CEQA") pursuant to Section 15378(b)(4), and
- 2. Approve budget adjustment No. 2019-20 establishing a transfer from General Fund Unrestricted Fund Balance and appropriating funds for the payoff of the City's unfunded liability in the CalPERS Safety Plan, and
- 3. Approve an expenditure of \$4,980,681 to pay off the unfunded liability in the City of Stanton's CalPERS' Safety Plan.

#### BACKGROUND:

In August 2017 CalPERS released four Annual Valuation Reports for the City of Stanton as of June 30, 2017. These actuarial valuation reports disclose the employer normal cost rate for the 2019-20 fiscal year and provide the required employer payment of unfunded liability that has accumulated over decades. Recent decisions by the CalPERS Board to reduce the discount rate from 7.5% to 7.0% in a phased-in approach and retirees living longer have recently increased both the normal cost rate required to be paid on existing employees and the total unfunded liability. The estimated unfunded liability as of June 30, 2019 for Stanton's four plans with CalPERS are:

> Council Agenda Item #

Safety:	\$ 5,055,366
Miscellaneous Tier 1:	\$ 5,180,211
Miscellaneous Tier 2:	\$ 13,852
PEPRA:	<u>\$ 28,312</u>
Total:	\$10,277,741

As of March 2019, the yield in the City's investment pool is 2.40%. The yield in the Section 115 Trust with PARS in the last year is 4.41%. The effective yield of paying down the City's unfunded liability with CalPERS is 7.0%.

#### **ANALYSIS/JUSTIFICATION:**

The City has been aware of the importance of reducing unfunded liability pension expenses, and in 2015 proactively paid down the City's CaIPERS Side Fund. However, the importance of maintaining healthy reserves has limited the City from making additional payments on the City's unfunded liability.

Staff have recently analyzed the most recent CalPERS actuarial valuations to evaluate opportunities to more efficiently amortize the City's unfunded liability compared to the default minimum contribution schedules proposed by PERS. Staff has also engaged our senior actuary at CalPERS to review and comment on staff's recommendations. Based on a review of the most current actuarial valuations, staff recommends paying off the Safety Plan's unfunded liability.

The FY 18-19 Mid-Year Budget Review projected total fund balance as of June 30, 2019 to be 109% of annual operating costs. If the City were to use existing reserves to pay off the Safety Plan's Unfunded Liability, fund balance would be projected to end the year at \$19,604,411, which would still be over 85% of annual operating costs.

Paying off the Safety Plan's unfunded liability would reduce reserves by \$4,980,681 and result in interest savings of \$2,876,659 over the next 14 years. It would also immediately provide a minimum of \$566,573 of improved cash flow, which will grow to \$617,000 in Fiscal Year 2020-21.

Staff's intent is to use freed up cash to rebuild unrestricted fund balance. Additionally, by applying an average of \$88,400 a year (\$72,127 - \$143,917 per year consistent with a 15-year amortization schedule) of freed-up cash as an additional payment on the CaIPERS Miscellaneous Plan over the next 15 years, the City would see an additional interest savings of \$1,727,337, resulting in total interest savings of \$4,603,996.

Eliminating the CalPERS unfunded liability does not mean it will be gone forever. There are number of scenarios where an unfunded liability would reappear, such as CalPERS' investment performance not meeting the 7.0% target in a given year, retirees live longer than currently projected or CalPERS lowering the discount rate further. However, our existing liability would increase in all of those scenarios even if no additional payments are made.

By making a lump sum payment now and using a portion of the freed up cash flows to make targeted additional payments, Stanton will realize interest savings of \$4.6 million.

#### FISCAL IMPACT:

Paying off the unfunded liability in Stanton's CalPERS Safety Plan would reduce reserves by \$4,980,681 and result in an interest savings of \$2,876,659 and improved cash flows of \$0.6 million a year. By applying an average of \$88,400 a year consistent with a 15-year amortization schedule toward Stanton's CalPERS Miscellaneous Plan, the City will see an additional interest savings of \$1,727,337 over the next 15 years.

#### **ENVIRONMENTAL IMPACT:**

None.

**LEGAL REVIEW:** 

None.
