Environmental Interest/Information System:

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Eval General Type: Compliance Evaluation Inspection
Eval Date: 06-25-2015
Violations Found: No
Eval Type: Routine done by local agency
Eval Notes: On site to conduct an annual routine Hazardous Waste Inspection. Met with jeff Baker who explained the process, escorted me through the site and gave consent to enter/inspect. Facility contains: hazardous waste storage area with various chemicals. Hazardous waste containers are properly labeled and covered. All containers storing hazardous waste must be labeled with the following information: 1. The words G HAZARDOUS WasteG 2. Waste (name) 3. Hazardous property of the waste (e.g. G toxic, flammable, corrosive, etc.) 4. Physical state of the waste (liquid or solid) 5. Name and address of the business. 6. Accumulation date (date the first drop of waste has been placed in container) Documents Available for review: 1. Hazardous waste Manifest/Receipts (keep a copy on site for three years). - Note: A copy of the federal manifest must be sent to DTSC. (Department of Toxic Substances Control, P.O. Box 400, Sacramento, CA 95812-0400). 2. Hazardous Waste Emergency [Truncated]

Eval General Type: Compliance Evaluation Inspection
Eval Date: 09-17-2020
Violations Found: No
Eval Type: Routine done by local agency
Eval Notes: INSPECTOR COMMENT: On site for routine hazardous materials and business emergency plan inspection. Observed the facility and inspected hazardous materials storage. Verified there has not been a 100% increase in volume for any hazardous materials that have been reported. Employee training records are current and available for review. Discussed employee training topics and requirements with Mr. Jackson. The facility is responsible for identifying all hazardous materials, to include hazardous wastes, which are above disclosure thresholds of 55 gallons for a liquid, 500 pounds for a solid, and 200 cubic feet for a compressed gas. If there is a change in the type or amount of chemicals that are maintained on site, please electronically submit revised documents within 30 days of the change. HMBEP documents can be submitted through the California Electronic Reporting System (CERS) located at <http://cers.calepa.ca.gov/>

Eval Notes: Orange County Environmental Health as the Certified Unified Program Agency (OC CUPA) is the administrating agency for the Hazardous Materials Disclosure and Business Emergency Plan programs (HMD/BEP) previously administered by the Orange County Fire Authority. During the months of August and December of 2013, the OC CUPA sent out letters to regulated businesses requesting them to electronically submit their HMD/BEP forms. Electronic submission of these forms is a legal requirement. Failure to submit HMD/BEP forms is in violation of the California Health & Safety Code Chapter 6.95. According to our records there is no electronic submission for this facility. Please go to www.esubmit.ocgov.com to request a username and password and submit your HMD/BEP forms within the next 30 days. Businesses may also submit forms via the California Environmental Reporting System. Please verify that all owner information that is prepopulated on the E-Submit Portal is still [Truncated]

Violations Found: Yes
Eval Type: Routine done by local agency
Eval Notes: Mark Sutphin on-site for routine inspection. Permission to enter, inspect, and take photographs granted by Sal Villegas this date. Facility does fiberglass work on boats and generates waste acetone Hazardous Waste receipts made available and reviewed. Most recent receipt for waste acetone is dated 2-26-13. The waste drum of acetone is full at this time and must be properly disposed. Note that the waste acetone must be disposed of within 90 days of generating 27 gallons or 100 Kilograms. Notify this agency when the was acetone is properly disposed. HW containers properly labeled. Emergency numbers posted. Inspected trash/dumpster and it does not appear to contain any hazardous waste. The perimeter of the facility was also inspected; no obvious signs of releases were noted.

Eval Division: Orange County Environmental Health
Eval Program: HW

Materials Disclosure and Business Emergency Plan programs (HMD/BEP) previously administered by the Orange County Fire Authority. During the months of August And December of 2013, the OC CUPA sent out letters to regulated businesses requesting them to electronically submit their HMD/BEP forms Electronic submission of these forms is a legal requirement. Failure to submit HMD/BEP forms is in violation of the California Health & Safety Code Chapter 6.95. According to our records there is no electronic submission for this facility. Please go to www.esubmit.ocgov.com to request a username and password and submit your HMD/BEP forms within next 30 days. Businesses may also submit forms via the California Environmental Reporting System. Please verify that all owner information that is prepopulated on the E-submit portal is still accurate. Failure to [Truncated]

Eval Division: Orange County Environmental Health
Eval Program: HMRRP
Eval Source: CERS

Eval General Type: Other/Unknown
Eval Date: 11-29-2017
Violations Found: No
Eval Type: Other, not routine, done by local agency
Eval Notes: Met with Blanca Villegas, Administrative Assistant. The facility had received a Notice of Violation on 8/7/15 for failure to submit a Hazardous Materials Disclosure and Business Emergency Plan. The facility was inspected on 7/18/17 with Salvador Villegas, Vice President. I offered assistant with the facility's disclosure, but Villegas claimed he was not available, several times. This date I worked with Blanca Villegas on creating a CERS account and completing the facility's Hazardous Materials Disclosure and Business Emergency Plan. The HMBEP has been submitted and will be accepted. Violation corrected, the facility has no outstanding violations.

Eval Notes: Orange County Environmental Health as the Certified Unified Program Agency (OC CUPA) is the administrating agency for the Hazardous Materials Disclosure and Business Emergency Plan programs (HMD/BEP) previously administered by the Orange County Fire Authority. During the months of August and December of 2013, the OC CUPA sent out letters to regulated businesses requesting them to electronically submit their HMD/BEP forms. Electronic submission of these forms is a legal requirement. Failure to submit HMD/BEP forms is in violation of the California Health & Safety Code Chapter 6.95. According to our records there is no electronic submission for this facility. Please go to www.esubmit.ocgov.com to request a username and password and submit your HMD/BEP forms within the next 30 days. Businesses may also submit forms via the California Environmental Reporting System. Please verify that all owner information that is prepopulated on the E-Submit Portal is still [Truncated]

Environmental Interest/Information System:

California Hazardous Waste Tracking System - Datamart (HWTS-DATAMART) provides California with information on hazardous waste shipments for generators, transporters, and treatment, storage, and disposal facilities.

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Environmental Interest/Information System:

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Eval Notes: INSPECTOR COMMENTS: The facility has submitted their Hazardous Materials Disclosure & Business Emergency Plan (HMBEP) to California Environmental Reporting System (CERS). The CERS submission was verified this date during the routine inspection. The facility information is current and the site map is accurate. The hazardous materials inventory will need to be corrected...for lead acid batteries, since the sulfuric acid component is an extremely hazardous substance, it must be reported in pounds, not gallons. Please edit the inventory as necessary and resubmit within 30 days.

Eval Date: 06-09-2017
Violations Found: No
Eval Type: Routine done by local agency
Eval Notes: INSPECTOR COMMENTS: On site for a routine Hazardous Materials and Business Emergency Plan (HMBEP) inspection. Consent to enter and inspect was given by Huong Nguyen, President. Observed the facility and inspected hazardous materials storage. The following materials were observed in amounts that meet or exceed the minimum volumes required for disclosure: - Propane, 42 gallons - Oxygen, 1004 cubic feet Employee training is conducted throughout the year and documentation was reviewed. The facility has submitted their HMBEP to CERS. Today I helped Huong submit the facility's site map and emergency response/contingency plan, and fix other submittal errors. The facility is responsible for identifying all hazardous materials, to include hazardous wastes, which are above disclosure thresholds (55 gallons liquids, 200 cubic feet compressed gases, 500 pounds solids). If there is a change in the type or amount of chemicals that are maintained on site, please submit [Truncated]

Eval Notes: Orange County Environmental Health as the Certified Unified Program Agency (OC CUPA) is the administrating agency for the Hazardous Materials Disclosure and Business Emergency Plan programs (HMD/BEP) previously administered by the Orange County Fire Authority. During the months of August and December of 2013, the OC CUPA sent out letters to regulated businesses requesting them to electronically submit their HMD/BEP forms. Electronic submission of these forms is a legal requirement. Failure to submit HMD/BEP forms is in violation of the California Health & Safety Code Chapter 6.95. According to our records there is no electronic submission for this facility. Please go to www.esubmit.ocgov.com to request a username and password and submit your HMD/BEP forms within the next 30 days. Businesses may also submit forms via the California Environmental Reporting System. Please verify that all owner information that is prepopulated on the E-Submit Portal is still [Truncated]

Violation Program: INDSTW
Violation Source: SMARTS

Evaluation:
Eval General Type: Compliance Evaluation Inspection
Eval Date: 09-09-2019
Violations Found: Yes
Eval Type: Industrial Storm Water Compliance Evaluation
Eval Notes: Regional Board staff conducted a Scrap Metal Permit storm water compliance inspection of Golden Recycle Company Inc. on September 9, 2019. The weather was temperate and overcast. Staff met with Kim Huong Nguyen, the Legally Responsible Person, and Rafael Barraean, the self-identified manager. Staff requested a copy of the facility SWPPP, monthly inspection reports, Rain Event Action Plans, training records, and sampling equipment. The SWPPP was up to date by a recently recertified SM-QSD. The monthly inspection reports available. However,

the Rain Event Action Plans, training records, and sampling equipment were unavailable upon request. The last samples were collected in January 18, 2019 and only parameters pH, oil and grease, and turbidity were analyzed. Ms. Nguyen stated that the facility did not have a pH, turbidity, or specific conductance meter. Ms. Nguyen stated that she collects the facility's samples, however proof of training from a certified laboratory or the Regional Board was not provided. A site was conducted. Staff observed multiple puddles of unidentified liquid throughout the site. Ms. Nguyen stated that the facility had one discharge point at the facility driveway adjacent to Katella Avenue. She said that samples were collected at the discharge point. Staff observed uncovered bins of various metals along the main office and on the southern portion of the facility. Some trash was observed throughout the facility. A disassembly and sorting station was observed on the southern side of the facility. The station was covered under a roof. Ms. Nguyen stated the facility was swept every day.

Environmental Interest/Information System:

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Environmental Interest/Information System:

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Environmental Interest/Information System:

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Reclamation: Not reported
POTW: Not reported
Treat To Water: Minor Threat to Water Quality. A violation of a regional board order should cause a relatively minor impairment of beneficial uses compared to a major or minor threat. Not: All nurds without a TTWQ will be considered a minor threat to water quality unless coded at a higher Level. A Zero (0) may be used to code those NURDS that are found to represent no threat to water quality.

Complexity: Category C - Facilities having no waste treatment systems, such as cooling water dischargers or those who must comply through best management practices, facilities with passive waste treatment and disposal systems, such as septic systems with subsurface disposal, or dischargers having waste storage systems with land disposal such as dairy waste ponds.

Eval Notes: HMBEP declined. Our records indicate the ownership address is at 1301 E Orangewood Ave, Anaheim, CA 92805. Please contact Justin Bechara at jbechara@ochca.com to verify this information. For all wastes, please provide an annual waste amount, state waste code, and hazardous components with CAS #s, DOT code/Fire hazard classes and Federal hazard categories. Acetylene and Oxygen G Change storage pressure to above ambient. Brake fluid G There are 2 submissions. If the facility has 55 gallons of new brake fluid this will need to be reported separately without a state waste code. The submission that is indeed a waste needs an annual waste amount and waste code. Gasoline G Change hazardous material type to pure. Add emergency response equipment and emergency gas/water/electric shutoffs to your site map. Emergency Response Plan G Add the phone number for Local CUPA Orange County Environmental Health to emergency contacts, (714) 433 G 6000. RUR submitted for PE. [Truncated]

Violation Description: 6.95, Section(s) 25508(a)(1)
Failure to complete and electronically submit hazardous material inventory information for all reportable hazardous materials on site at or above reportable quantities.

Violation Notes: Returned to compliance on 12/20/2019. OBSERVATION: The following hazardous materials is not accurately disclosed and must be updated. Please disclose via the California Environmental Reporting System (CERS) at cers.calepa.ca.gov: - Waste Brake Fluid: volume increased to 110 gallons - Waste Oil: maximum daily amount volume and largest container should 2000 gallons - Transmission Oil: currently not disclosed, please disclose. 55 gallons drum stored on site. CORRECTIVE ACTION: Complete and electronically submit the chemical inventory information for all reportable hazardous materials on site at or above reportable quantities via the California Environmental Reporting System (CERS) at cers.calepa.ca.gov.

Eval Date: 06-01-2010
Violations Found: Yes
Eval Type: Industrial Storm Water Compliance Evaluation
Eval Notes: Site in business for approx. 6-years. SWPPP site plan is dated 2009. Plan is outdated: oil waste storage and waste parts at north end by entrance not shown, vehicle crusher not shown, sorbent stations not shown, etc. Instructed Contact to review and update the site plan. Reviewed site as it relates to WQMP approved by City; applicable to parking lot expansion into SCE right-of-way. In principle runoff from lot is to flow through landscaping then into drop inlets fitted with inlet filters. In practice, elevations within landscaping prohibit this from occurring through most of the expansion project. In one case, inlet is situated immediately adjacent to asphalt in conflict with WQMP proposal. Advised Contact that this matter will be addressed through the City.

Eval Notes: HMBEP declined. Our records indicate the ownership address is at 1301 E Orangewood Ave, Anaheim, CA 92805. Please contact Justin Bechara at jbechara@ochca.com to verify this information. For all wastes, please provide an annual waste amount, state waste code, and hazardous components with CAS #s, DOT code/Fire hazard classes and Federal hazard categories. Acetylene and Oxygen G Change storage pressure to above ambient. Brake fluid G There are 2 submissions. If the facility has 55 gallons of new brake fluid this will need to be reported separately without a state waste code. The submission that is indeed a waste needs an annual waste amount and waste code. Gasoline G Change hazardous material type to pure. Add emergency response equipment and emergency gas/water/electric shutoffs to your site map. Emergency Response Plan G Add the phone number for Local CUPA Orange County Environmental Health to emergency contacts, (714) 433 G 6000. RUR submitted for PE. [Truncated]

Eval Notes: T&H Machining 8400 Monroe Ave, STE 2 Stanton, 90680 INSPECTOR COMMENTS: On site for an introductory Hazardous Materials and Business Emergency Plan (HMBEP) inspection. Consent to enter and inspect was given Hoang D Le, Owner. Observed the facility and inspected hazardous materials storage. The following materials were observed in amounts that meet or exceed the minimum volumes required for disclosure: - Used Oil & Coolant Mixture, 165 gallons - Premium Way Oil, 55 gallons - Propane, 14 gallons The facility had not submitted an HMBEP. Today I worked with Hoang on completing his HMBEP and submitting to CERS (California Environmental Reporting System). The following was submitted to CERS: Facility information, Hazardous Materials Inventory & Site Map, Emergency Response and Training Plans. The facility is responsible for identifying all hazardous materials, to include hazardous wastes, which are above disclosure thresholds. If there is a change in the [Truncated]

Eval Notes: INSPECTOR COMMENTS On site for a routine Hazardous Waste inspection. Consent to inspect and take any necessary photos was given by Hoang D Le, Owner. Verified ownership and number of employees. Walked throughout the facility and observed the hazardous waste storage area. Containers were closed, but not labeled properly. Labels were provided, filled out, and added onto waste containers. Manifests were available for review. The facility's EPA ID number is inactive. To activate your EPA ID number please go to the following website, <http://www.dtsc.ca.gov/IDManifest/ReactivateEPAID.cfm>. Download the EPA Form 8700-12 (EPA ID Number Instructions and Form) and follow instructions. Employees are trained. Emergency plan is posted in the office. The facility shares two dumpsters with neighboring businesses. The dumpsters were observed, there are no signs of hazardous/universal waste in the dumpsters. A copy of this inspection report was sent to

Eval Notes:	Orange County Environmental Health as the Certified Unified Program Agency (OC CUPA) is the administrating agency for the Hazardous Materials Disclosure and Business Emergency Plan programs (HMD/BEP) previously administered by the Orange County Fire Authority. During the months of August and December of 2013, the OC CUPA sent out letters to regulated businesses requesting them to electronically submit their HMD/BEP forms. Electronic submission of these forms is a legal requirement. Failure to submit HMD/BEP forms is in violation of the California Health & Safety Code Chapter 6.95. According to our records there is no electronic submission for this facility. Please go to www.esubmit.ocgov.com to request a username and password and submit your HMD/BEP forms within the next 30 days. Businesses may also submit forms via the California Environmental Reporting System. Please verify that all owner information that is prepopulated on the E-Submit Portal is still [Truncated]

Eval Notes: Darco On site for an aboveground petroleum storage tank (APST) inspection Facility is regulated under the Aboveground Storage Tank Act (APSA). Facility has between 1,320 and 9,999 gallons of regulated petroleum products. Facility is in the processes of completing a SPCC Plan the following is required: 1) On site SPCC Prepared and implemented a. Facilities that are a qualified Tier 1 facility (store less than 10,000 gallons, with no single tank/container having a volume greater than 5,000 gallons) can create their own SPCC Plan using a federal template. b. Plan is required to be reviewed every 5 years. 2) Periodic checklist is available for tanks. 3) Appropriate secondary containment or diversionary structures Orange County Environmental Health has created a website that contains information regarding the APST program and its requirements. The SPCC Plan requirements have also been provided. The APST website is located at <http://www.occupainfo.com/ast.htm>. [Truncated]

Environmental Interest/Information System:

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

[Click this hyperlink](#) while viewing on your computer to access additional FINDS: detail in the EDR Site Report.

Environmental Interest/Information System:

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Violation Date: 01-29-2019
Citation: HSC 6.95 25505(a)(4) - California Health and Safety Code, Chapter 6.95, Section(s) 25505(a)(4)
Violation Description: Failure to provide initial and annual training to all employees in safety procedures in the event of a release or threatened release of a hazardous material or failure to document and maintain training records for a minimum of three years.
Violation Notes: Returned to compliance on 02/04/2019. OBSERVATION: Employee training records were not available for review. All employees are required to be trained annually; new employees are required to be trained within 6 months. CORRECTIVE ACTION: Please provide training records for the Hazardous Materials Business Plan with the following information documented: topic of training, date, employee name, employee signature. Violation must be corrected immediately and documents must be submitted to this Agency within 30 days.
Violation Division: Orange County Environmental Health
Violation Program: HMRRP
Violation Source: CERS

Site ID: 155113
Site Name: SCE Barre Substation
Violation Date: 01-29-2019
Citation: HSC 6.95 25508(a)(1) - California Health and Safety Code, Chapter 6.95, Section(s) 25508(a)(1)
Violation Description: Failure to complete and electronically submit a site map with all required content.
Violation Notes: Returned to compliance on 02/25/2019. OBSERVATION: The site map does not contain all of the required elements. CORRECTIVE ACTION: The following elements must be added to the site map: Electrical & Water Shut Offs, Storm Drains & Sewers, Spill Kits & Absorbent on site, Fire Hydrants. Re-submit the site map to this Agency via the California Electronic Reporting System at <http://cers.calepa.ca.gov/> within 30

Evaluation:
Eval General Type: Compliance Evaluation Inspection
Eval Date: 01-29-2019
Violations Found: Yes
Eval Type: Routine done by local agency
Eval Notes: On site for routine hazardous materials and business emergency plan inspection. Consent to enter and inspect granted by Donald Hurdle, Environmental Specialist. Observed the facility and inspected hazardous materials storage. The following materials were observed in amounts that meet or exceed the minimum volumes required for disclosure: - Mineral Oil - Lead-Acid Batteries - Sulfur Hexafluoride - Nitrogen - Diesel Fuel - Capacitor Fluid - Acetylene - Oxygen The facility is responsible for identifying all hazardous materials, to include hazardous wastes, which are above disclosure thresholds of 55 gallons for liquids, 500 pounds for solids, & 200 cubic feet for gases. If there is a change in the type or amount of chemicals that are maintained on site, please submit revised documents (electronically) within 30 days of the change. Hazardous Materials documents can be submitted via the California Environmental Reporting System (CERS) located at [Truncated]

Environmental Interest/Information System:

California Hazardous Waste Tracking System - Datamart (HWTS-DATAMART) provides California with information on hazardous waste shipments for generators, transporters, and treatment, storage, and disposal facilities.

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Eval General Type: Other/Unknown
Eval Date: 07-22-2019
Violations Found: No
Eval Type: Other, not routine, done by local agency
Eval Notes: This Agency has received confirmation that the facility has obtained an EPA ID number. The following violation has been corrected: I352- Failure to obtain an EPA ID number There are no remaining outstanding violations.
Eval Division: Orange County Environmental Health
Eval Program: HW
Eval Source: CERS

Eval General Type: Compliance Evaluation Inspection
Eval Date: 10-03-2016
Violations Found: Yes
Eval Type: Routine done by local agency
Eval Notes: On site to conduct a routine hazardous waste inspection. Consent to inspect and take photos at the facility was provided by Elias Matta (ctcrepair1@yahoo.com). The facility no longer has a parts washer as per Mr. Matta. The hazardous waste labels were worn and illegible on the waste oil drums and tank and the drained used oil filters (see violation). Labels were provided, completed and posted on the tank and drums during this inspection. Violation I400 was corrected. Municipal dumpster area does not contain any hazardous waste. The perimeter of the facility was also inspected; no signs of releases were noted. Emergency Response Information was complete. Hazardous waste containers were properly covered. Reviewed manifests, bills of lading and consolidated manifests for all hazardous waste streams. For further information about Hazardous Waste management, please refer to the Orange County CUPA website at www.occupainfo.com and open the PDF G Hazardous Waste the [Truncated]

Eval Source:	CERS
Eval General Type:	Compliance Evaluation Inspection
Eval Date:	03-10-2014
Violations Found:	Yes
Eval Type:	Routine done by local agency
Eval Notes:	On-site for routine inspection. Permission to enter, inspect, and take photographs granted by Elias Matta this date. Facility has two waste oil containers, one drum for coolant, and one drum for waste oil filters. The waste oil containers and the waste coolant drum had faded labels and the beginning date of accumulation was missing. The labels were replaced this date and the violation was abated Hazardous Waste receipts made available and reviewed. Emergency numbers posted. Inspected trash/dumpster and it does not appear to contain any hazardous waste. The perimeter of the facility was also inspected; no obvious signs of releases were noted. Note that there are requirements for Hazardous Material Business Emergency Plan (HMBEP) to be completed on line by businesses that have 55 gallons of a liquid, 500 pounds of a solid, or 200 cubic feet of a gas stored at site. See www.esubmit.ocgov.com for information on completing the HMBEP.

Violation Source: CERS

Site ID: 32258
Site Name: G&M Oil Co. #156
Violation Date: 05-08-2017
Citation: HSC 6.7 25292.1(a) - California Health and Safety Code, Chapter 6.7, Section(s) 25292.1(a)
Violation Description: Failure to operate the UST system to prevent unauthorized releases including leaks, spills, and/or overfills.
Violation Notes: Returned to compliance on 05/08/2017. The Diesel Spill bucket in the fill sump did not pass the visual hydrostatic test. Please repair or replace the failed spill bucket immediately and schedule a retest with-in 30 days.
Violation Division: Orange County Environmental Health
Violation Program: UST
Violation Source: CERS

Site ID: 32258
Site Name: G&M Oil Co. #156
Violation Date: 04-30-2019
Citation: 23 CCR 16 2712(b)(1)(G) - California Code of Regulations, Title 23, Chapter 16, Section(s) 2712(b)(1)(G)
Violation Description: Failure to comply with one or more of the following overfill prevention equipment requirements: Alert the transfer operator when the tank is 90 percent full by restricting the flow into the tank or triggering an audible and visual alarm; or Restrict delivery of flow to the tank at least 30 minutes before the tank overfills, provided the restriction occurs when the tank is filled to no more than 95 percent of capacity; and activate an audible alarm at least five minutes before the tank overfills; or Provide positive shut-off of flow to the tank when the tank is filled to no more than 95 percent of capacity; or Provide positive shut-off of flow to the tank so that none of the fittings located on the top of the tank are exposed to product due to overfilling. Install/retrofit overfill prevention equipment that does not use flow restrictors on vent piping to meet overfill prevention equipment requirements when the overfill prevention equipment is installed, repaired, or replaced on and after October 1, - 2018. For USTs installed before October 1, 2018, perform an inspection by October 13, 2018 and every 36 months thereafter. For USTs installed on and after October- 1, - 2018, perform an inspection at installation and every 36 months thereafter. Inspected within 30 days after a repair to the overfill prevention equipment. Inspected using an applicable manufacturer guidelines, industry codes, engineering standards, or a method approved by a professional engineer. Inspected by a certified UST service technician. Maintain records of overfill prevention equipment inspection for 36 months.
Violation Notes: Returned to compliance on 04/30/2019. OBSERVATION: Facility failed to test overfill prevention equipment at least once as of 10/13/2018 and

Citation: HSC 6.7 25290.1(c), 25290.2(c), 25291(a)(2), 25292(e) - California Health and Safety Code, Chapter 6.7, Section(s) 25290.1(c), 25290.2(c), 25291(a)(2), 25292(e)

Violation Description: Failure to maintain secondary containment (e.g. failure of secondary containment testing).

Violation Notes: Returned to compliance on 09/08/2016. UDC 3/4 failed. To abate this violation have repaired within 60 days.

Violation Division: Orange County Environmental Health
Violation Program: UST
Violation Source: CERS

Site ID: 32258
Site Name: G&M Oil Co. #156
Violation Date: 04-30-2019
Citation: HSC 6.7 25290.1(c), 25290.2(c), 25291(a)(2), 2529.1(e) - California Health and Safety Code, Chapter 6.7, Section(s) 25290.1(c), 25290.2(c), 25291(a)(2), 2529.1(e)

Violation Description: Failure to maintain secondary containment (e.g., failure of secondary containment testing).

Violation Notes: Returned to compliance on 12/04/2019. OBSERVATION: Secondary containment has not been properly maintained as evidenced by failed secondary containment testing for the 87 product piping containment, turbine/product piping sump, and the fill riser sump. CORRECTIVE ACTION: Repair secondary containment as needed and retest immediately. Notify CUPA of testing at least 48 hours prior to test and submit results within 30 days after the test date.

Eval Notes: Onsite to conduct routine UST inspection, monitoring system certification testing and spill bucket testing. A review of the CERS UST electronic submission was conducted (10138437). The test was conducted by Enrique Aguirre of Tank Tek. The testerG s certification are current and valid (ICC, VR, VMI). The Veeder-Root TLS-350 monitoring panel displayed "all functions normal" and audible and visual alarms were demonstrated operational. The panel was noted marked with a sticker from the most recent monitoring certification (5/16/16). The facility has 3 USTs (87 - 15K, 91 G 12K, Diesel 10K) each tankG s overfill protection utilizes a Flapper Valve. The 5 UDCs are monitored with a VR 208 sensor. The site also has a Vent box also monitored with a VR 208 sensor. Positive shutdown of the turbines was verified operational when the sensors were submerged in water. Fail Safe and Sensor out triggered positive shutdown of the turbines. The test boots of the piping was pulled [Truncated]

Eval Notes: On-site for routine inspection. Permission to enter, inspect, and take photographs granted by Gamil Gad this date. Hazardous waste generation history reviewed on DTSC web site. EPA ID# CAL000323651 verified active. About one waste manifest for fuel contaminated debris and filters generated per year. 3-27-14 manifest for 200 pounds of waste solids was the most recent manifest at site. Manifests are kept at site in the compliance notebook for three years one HW drum at site properly labeled. The drum is dated 3-27-14 and was stored closed in the dumpster enclosure. Emergency numbers posted by monitoring panel. Inspected trash/dumpster and it does not appear to contain any hazardous waste. The perimeter of the facility was also inspected; no obvious signs of releases were noted.

Evaluation:
Eval General Type: Other/Unknown
Eval Date: 07-27-2018
Violations Found: No
Eval Type: Other, not routine, done by local agency
Eval Notes: This is an in office inspection report to followup on an outstanding violation. The facility was inspected on 2/1/18 and cited violation I208 for not submitting a Hazardous Materials Disclosure & Business Emergency Plan (HMBP) to California Environmental Reporting System (CERS). As of this date, the facility submitted an incomplete HMBP to CERS on 3/29/18 which was declined and violation I208 is outstanding. Please make the following changes to your HMBP and resubmit within 30 days: Section 1) Facility Information - Business Owner/Operator page declined - please note since this business is incorporated, the corporation name needs to be listed under the ownership. Section 2) Hazardous Materials Inventory & Site Map - Hazardous Materials Inventory declined - Please check off the appropriate federal hazard categories for each material disclosed (be sure to not check the ones noted as obsolete). Site map declined - please add emergency water/electric/gas and an [Truncated]

Eval General Type: Other/Unknown
Eval Date: 10-15-2014
Violations Found: Yes
Eval Type: Other, not routine, done by local agency
Eval Notes: Orange County Environmental Health as the Certified Unified Program Agency (OC CUPA) is the administrating agency for the Hazardous Materials Disclosure and Business Emergency Plan programs (HMD/BEP) previously administered by the Orange County Fire Authority. During the months of August and December of 2013, the OC CUPA sent out letters to regulated businesses requesting them to electronically submit their HMD/BEP forms. Electronic submission of these forms is a legal requirement. Failure to submit HMD/BEP forms is in violation of the California Health & Safety Code Chapter 6.95. According to our records there is no electronic submission for this facility. Please go to www.esubmit.ocgov.com to request a username and password and submit your HMD/BEP forms within the next 30 days. Businesses may also submit forms via the California Environmental Reporting System. Please verify that all owner information that is prepopulated on the E-Submit Portal is still [Truncated]

Eval Notes: INSPECTOR COMMENTS: On site to conduct a routine Hazardous Materials Disclosure and Business Emergency Plan (HMBP) inspection. The facility is a gas vendor with a multitude of gaseous mixtures. The facility has an account with California Environmental Reporting System (CERS), but has not submitted their HMBP. I spoke with Rusty about completing the HMBP submission and submission requirements. Please note for your inventory; hazardous materials to be disclosed are any materials over 55 gallons of a liquid, 200 cubic feet of a compressed gas with

Evaluation:
Eval General Type: Compliance Evaluation Inspection
Eval Date: 01-23-2020
Violations Found: No
Eval Type: Routine done by local agency
Eval Notes: INSPECTOR COMMENT: On site for a routine hazardous materials business plan inspection. The following hazardous materials were observed over reportable quantities: - Propane (500 gallons) - Diesel Fuel (500 gallons) The following information must be updated via the California Environmental Reporting System (CERS) with the re-certification on or before March 1st. 2020: - Primary Emergency Contact - Environmental Contact
Eval Division: Orange County Environmental Health
Eval Program: HMRRP
Eval Source: CERS

Eval General Type: Other/Unknown
Eval Date: 07-26-2016
Violations Found: No
Eval Type: Other, not routine, done by local agency
Eval Notes: hmbep conditionally accepted 7/26/16 This submittal is being conditionally approved in order to facilitate transfer of data to California Electronic Reporting System (CERS) database. The facility will need to make the following revisions in CERS following notification of data transfer: Facility map, add the following: Adjacent streets For further assistance please contact Justin Bechara at jbechara@ochca.com Thank you.

Plan inspection. Consent to inspect and take photos was provided by Greg Vandenberg. A walk through of the facility was conducted. The following Hazardous Substances were observed being stored at above the reporting threshold: HM - Diesel Tank - Propane This facility is responsible for identifying all hazardous materials and hazardous wastes, which are above the following disclosure thresholds: Solids > 500 pounds. Liquids > or = 55 gallons Gas > or = 200 cubic feet Hazardous wastes should have a separate disclosure. Site map is available for review. Employee training is available for review. Electronic Reporting has been submitted and completed using the E Submit Portal. We discussed the state data base G CERSG <http://cers.calepa.ca.gov>. Ensure the HMBEP is resubmitted by March 1st every year. Further notice of the electronic submission will be sent regarding the CERS website. Please [Truncated]

Environmental Interest/Information System:

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Eval Notes: Review on e-submit, declined at this time. 3/26/2015 reviewer Bri Dewey (bdewey@ochca.com) Hi you are almost done, just a few minor changes, and it should be done. The submittal was declined, please make the following changes and resubmit within 30 days: 1. On the chemical page for diesel: - make the max daily 500 gallons (even if you never fill it up all the way) -make the average daily the amount the fire dept is likely to encounter, about half of the max you fill it up (an average over 365 days basically) 2. on the chemical page for gasoline: -make the max daily 1500 gallons - make the average daily as above, about half of what you fill it up to (so the fire dept knows what they are likely to encounter) 3. for the chemical disclosure for the propane: - make the storage pressure at the bottom of the page, above ambient (they are under pressure) - for the max daily, that is the total amount the fire dept could encounter, if you have three 10 gallon [Truncated]

Environmental Interest/Information System:

California Hazardous Waste Tracking System - Datamart (HWTS-DATAMART) provides California with information on hazardous waste shipments for generators, transporters, and treatment, storage, and disposal facilities. RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and

CERS Description: Chemical Storage Facilities

Evaluation:

Eval General Type: Compliance Evaluation Inspection
Eval Date: 12-22-2015
Violations Found: No
Eval Type: Routine done by local agency
Eval Notes: On site to conduct a Hazardous Waste Inspection. Met with kenji Kawasaki who explained the process, escorted me through the site and gave consent to enter/inspect. Facility contains:2-55 gallon drums of used oil, 55 gallon drum of used oil filters and 55 gallon drum of used antifreeze. Hazardous waste containers are properly labeled and covered. All containers storing hazardous waste must be labeled with the following information: 1. The words G HAZARDOUS WasteG 2. Waste (name) 3. Hazardous property of the waste (e.g. G toxic, flammable, corrosive, etc.) 4. Physical state of the waste (liquid or solid) 5. Name and address of the business. 6. Accumulation date (date the first drop of waste has been placed in container) Documents Available for review: 1. Hazardous waste Manifest/Receipts (keep a copy on site for three years). 2. Hazardous Waste Emergency Response information. Orange County Environmental Health

Eval Type: Routine done by local agency
Eval Notes: On-site for routine inspection. Permission to enter, inspect, and take photographs granted by Kenji Kawasaki this date. Hazardous Waste receipts made available and reviewed. HW containers properly labeled this date by the operator. A label was added to the new drum for the used coolant. Accumulation start dates added to the used oil and used oil filters during the inspection. Emergency numbers posted. Inspected trash/dumpster and it does not appear to contain any hazardous waste. The perimeter of the facility was also inspected; no obvious signs of releases were noted.

Eval Division: Orange County Environmental Health
Eval Program: HW
Eval Source: CERS

Eval General Type: Compliance Evaluation Inspection
Eval Date: 11-05-2018
Violations Found: No
Eval Type: Routine done by local agency
Eval Notes: On site for hazardous waste inspection. Consent to enter and inspect given by Kenji Kawasaki, Owner. Walked throughout the facility. Observed hazardous waste storage areas. Containers were closed and properly labeled. Manifests were available and reviewed. Emergency plan sticker was posted in office. Discussed proper universal waste disposal of fluorescent tubes with Mr. Kawasaki. No hazardous waste violations observed on this date.

Violation Date: 03-09-2017
Citation: 23 CCR 6.7 25284, 25286 - California Code of Regulations, Title 23, Chapter 6.7, Section(s) 25284, 25286
Violation Description: Failure to submit a complete and accurate application for a permit to operate a UST, or for renewal of the permit.
Violation Notes: Returned to compliance on 12/15/2017. The UST submittal in not accepted today, please make the following changes: - The UDCs are being monitored by stand alone Beaudreau 406 sensors not 405 sensors. Please update the monitoring plan for all the tanks and submit again.
- Review the UDC monitoring section as the Stand Alone sensor only stops the flow of fuel at the dispenser. The pumps do not shutdown when the stand alone sensor are triggered.

Site ID: 78936
Site Name: UNITED #015
Violation Date: 02-11-2019
Citation: 23 CCR 16 2712(b)(1)(G) - California Code of Regulations, Title 23, Chapter 16, Section(s) 2712(b)(1)(G)
Violation Description: Failure to comply with one or more of the following overfill prevention equipment requirements: Alert the transfer operator when the tank is 90 percent full by restricting the flow into the tank or triggering an audible and visual alarm; or Restrict delivery of flow to the tank at least 30 minutes before the tank overfills, provided the restriction occurs when the tank is filled to no more than 95 percent of capacity; and activate an audible alarm at least five minutes before the tank overfills; or Provide positive shut-off of flow to the tank when the tank is filled to no more than 95 percent of capacity; or Provide positive shut-off of flow to the tank so that none of the fittings located on the top of the tank are exposed to product due to overfilling. Install/retrofit overfill prevention equipment that does not use flow restrictors on vent piping to meet overfill prevention equipment requirements when the overfill prevention equipment is installed, repaired, or replaced on and after October 1, - 2018. For USTs installed before October 1, 2018, perform an inspection by October 13, 2018 and every 36 months thereafter. For USTs installed on and after October- 1,- 2018, perform an inspection at installation and every 36 months thereafter. Inspected within 30 days after a repair to the overfill prevention equipment. Inspected using an applicable manufacturer guidelines, industry codes, engineering standards, or a method approved by a professional engineer. Inspected by a certified UST service technician. Maintain records of overfill prevention equipment inspection for 36 months.
Violation Notes: Returned to compliance on 02/11/2019. OBSERVATION: Owner/Operator failed to meet one or more of the requirements applicable to overfill prevention equipment. Overfill Prevention Equipment Verification Test was not conducted on or before 10/13/2018. CORRECTIVE ACTION: Facility completed the Overfill Prevention Test on 12/14/18 and equipment passed. Violation corrected.

Violation Description: Failure to maintain secondary containment (e.g., failure of secondary containment testing).
Violation Notes: Returned to compliance on 11/28/2019. OBSERVATION: Secondary containment has not been properly maintained as evidenced by failed secondary containment testing for UDC #1-10. This violation has been elevated to Class 2. CORRECTIVE ACTION: Immediately submit passing test results showing UDC #1-10 are maintained tight. If a plan check is required for repair, immediately submit a permit application. Violation must be corrected immediately. A follow-up will be conducted in 30 days. Failure to comply might result in a Notice of Violation.

Eval Notes: On site to conduct a routine Underground Storage Tank inspection and witness annual monitor system certification and spill bucket testing. The facility has four double-walled tanks (87, Split 89 and 91, and Diesel) monitored by a Veeder Root TLS-350R system. The monitor is operational for audible and visual alarms, panel display reads G All functions normalG . The tanks have double-walled pressurized piping. Positive shutdown and fail-safe programming were verified, visual/audible alarm was verified. The facility also has an external audible/visual alarm which was observed operational. The time relay for the audible alarm was not functioning properly and was replaced. ATGG s are used for overfill prevention. Dry annulars are monitored by VR-420 sensors. The 420 sensor for the Diesel tank was not shutting down the corresponding turbine when submerged in fuel. The sensor was replaced and is functioning properly. Fill and piping sumps are monitored by VR-208 sensors. All [Truncated]

Eval Notes:	This Agency has received the secondary containment retest report dated 5/23/18. The facility was cited violation I382 for failure to maintain tight secondary containment on 12/21/17 for all secondary piping runs and all UDCs failing testing. On 5/23/18 test boots in all UDCs were replaced. Secondary piping for 87 S, 87 N, 89 S, 89 N, 91 S and 91 N PASSED testing. UDCs 1-10 FAILED testing as visual water leaks were observed prior to starting the tests. Violation I382 remains outstanding. If required repairs warrant a plan check, please submit a plan check to this Agency within 30 days.

Eval General Type: Compliance Evaluation Inspection
Eval Date: 01-11-2018
Violations Found: No
Eval Type: Routine done by local agency
Eval Notes: The following hazardous materials were observed on site in quantities that meet or exceed disclosure thresholds: - Used Motor Oil, 225 gallons The facility has submitted their Hazardous Materials Disclosure & Business Emergency Plan (HMBP) to California Environmental Reporting System (CERS). The facility's HMBP was missing required information and content. I worked with Hoang this date on resetting his CERS account password. We made corrections to the HMBP and resubmitted to CERS. The HMBP will be accepted following this inspection. No violations observed this date.

Eval Division: Orange County Environmental Health
Eval Program: HMRRP
Eval Source: CERS

Eval General Type: Other/Unknown
Eval Date: 01-19-2018
Violations Found: No
Eval Type: Other, not routine, done by local agency
Eval Notes: CERS HMBP submission was reviewed. All submittal elements have been accepted.

Eval Division: Orange County Environmental Health
Eval Program: HMRRP
Eval Source: CERS

Eval General Type: Compliance Evaluation Inspection
Eval Date: 02-18-2016
Violations Found: No
Eval Type: Routine done by local agency
Eval Notes: On site to conduct a Hazardous Waste Inspection. Met with Hoang John Bui who explained the process, escorted me through the site and gave consent to enter/inspect. Facility contains: used oil, used oil filters, and parts washer Hazardous waste containers are properly labeled and covered. All containers storing hazardous waste must be labeled with the following information: 1. The words G HAZARDOUS Waste 2. Waste (name) 3. Hazardous property of the waste (e.g. G toxic, flammable, corrosive, etc.) 4. Physical state of the waste (liquid or solid) 5. Name and address of the business. 6. Accumulation date (date the first drop of waste has been placed in container) Documents Available for review: 1. Hazardous waste Manifest/Receipts (keep a copy on site for three years). - Note: A copy of the federal manifest must be sent to DTSC. (Department of Toxic Substances Control, P.O. Box 400, Sacramento, CA 95812-0400). 2. Hazardous Waste Emergency Response [Truncated]

Site ID: 446156
Site Name: C & F WIRE PRODUCTS
Violation Date: 11-27-2018
Citation: HSC 6.95 25505(a)(4) - California Health and Safety Code, Chapter 6.95, Section(s) 25505(a)(4)

Violation Description: Failure to provide initial and annual training to all employees in safety procedures in the event of a release or threatened release of a hazardous material or failure to document and maintain training records for a minimum of three years.

Violation Notes: Returned to compliance on 12/20/2018. OBSERVATION: Employee training records were not available for review. All employees are required to be trained annually; new employees are required to be trained within 6 months. CORRECTIVE ACTION: Please provide training records for the Hazardous Materials Business Plan with the following information documented: topic of training, date, employee name, employee signature. Documents must be submitted to this Agency within 30 days.

Evaluation:

Eval General Type: Compliance Evaluation Inspection
Eval Date: 10-08-2013
Violations Found: No
Eval Type: Routine done by local agency
Eval Notes: On-site for routine inspection. Permission to enter, inspect, and take photographs granted by Terry Sellers this date. The facility has two (2) de-burring machines. The liquid is captured and disposed of via a registered hauler. The grinding waste collected is added to this drum for disposal. The Facility has one 55 gallon drum of waste grinding sludge at site dated 8-12-13. The sludge has tested hazardous waste for chromium and nickel. The grinding waste is captured by a bag house system. The grinding dust is captured in six (6) filters and then the filters self clean themselves by blowing the dust into collection bin. Hazardous Waste receipts made available and reviewed with Tammy Stecher HW drum properly labeled. Emergency numbers posted. The perimeter of the facility was also inspected; no obvious signs of releases were noted.

Eval Division: Orange County Environmental Health
Eval Program: HW
Eval Source: CERS

Eval General Type: Compliance Evaluation Inspection
Eval Date: 11-27-2018
Violations Found: No
Eval Type: Routine done by local agency
Eval Notes: On site for a routine hazardous waste inspection. Consent to enter and inspect granted by Tammy Stecher, Owner. Walked throughout the facility. Observed hazardous waste storage areas. Containers were closed and properly labeled. Manifests were available and reviewed. Emergency plan is posted in the main office. No hazardous waste or universal waste observed in the dumpster/enclosure area. No hazardous waste violations were observed this date.

Eval Division: Orange County Environmental Health
Eval Program: HW
Eval Source: CERS

Eval General Type: Compliance Evaluation Inspection
Eval Date: 11-27-2018
Violations Found: Yes
Eval Type: Routine done by local agency
Eval Notes: On site for routine hazardous materials and business emergency plan inspection. Consent to enter and inspect granted by Tammy Stecher. Observed the facility and inspected hazardous materials storage. The following materials were observed in amounts that meet or exceed the minimum volumes required for disclosure: - (3) 55 gallon metal drums of Grinding Dust/Sludge - (2) 7 gallon propane cylinders REQUIREMENT FOR ELECTRONIC SUBMITTAL OF HMBEP DOCUMENTS: This report serves as notice that the facility must submit the following documents electronically within 30 days of this report: - Business Activities - Owner/Operator Information - Hazardous Materials Inventory - Site Map - Emergency Response Plan - Employee Training Plan The facility is responsible for identifying all hazardous materials, to include hazardous wastes, which are above disclosure thresholds of 55 gallons

Environmental Interest/Information System:

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Environmental Interest/Information System:

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

CERS Description: Chemical Storage Facilities

Violations:

Site ID: 415938
Site Name: ADVANCED DISPLAY SYSTEMS INC
Violation Date: 10-17-2014
Citation: HSC 6.95 25508(a)(1) - California Health and Safety Code, Chapter 6.95, Section(s) 25508(a)(1)
Violation Description: Failure to complete and electronically submit hazardous material inventory information for all reportable hazardous materials on site at or above reportable quantities.
Violation Notes: Returned to compliance on 06/29/2015.
Violation Division: Orange County Environmental Health
Violation Program: HMRRP
Violation Source: CERS

Site ID: 415938
Site Name: ADVANCED DISPLAY SYSTEMS INC
Violation Date: 11-05-2018
Citation: HSC 6.95 25508(a)(1) - California Health and Safety Code, Chapter 6.95, Section(s) 25508(a)(1)
Violation Description: Failure to annually review and electronically certify that the business plan is complete and accurate on or before the annual due date.
Violation Notes: Returned to compliance on 12/11/2018. OBSERVATION: Facility is storing hazardous materials over reportable quantities on site and has not electronically submitted an annual Hazardous Materials Business Emergency Plan (HMBEP) for 2018. CORRECTIVE ACTION: Business must immediately submit the HMBEP to this Agency via the California Electronic Reporting System <http://cers.calepa.ca.gov/>. A follow-up inspection will be conducted in 30 days.

Violation Division: Orange County Environmental Health
Violation Program: HMRRP
Violation Source: CERS

Site ID: 415938
Site Name: ADVANCED DISPLAY SYSTEMS INC
Violation Date: 11-05-2018
Citation: 22 CCR 12 66262.34(f) - California Code of Regulations, Title 22, Chapter 12, Section(s) 66262.34(f)
Violation Description: Failure to properly label hazardous waste accumulation containers and portable tanks with the following requirements: "Hazardous Waste", name and address of the generator, physical and chemical characteristics of the Hazardous Waste, and starting accumulation date.

Violation Notes: Returned to compliance on 11/05/2018. Observation: Two 55 gallon drums containing waste paint booth filters were not properly labeled with required information. Corrective Action: Hazardous waste labels were provided to the owner who placed them on both drums. Violation corrected on site.

Violation Division: Orange County Environmental Health
Violation Program: HW
Violation Source: CERS

Site ID: 415938
Site Name: ADVANCED DISPLAY SYSTEMS INC
Violation Date: 10-17-2014
Citation: HSC 6.95 25508(d) - California Health and Safety Code, Chapter 6.95, Section(s) 25508(d)
Violation Description: Failure to complete and/or electronically submit a business plan when storing/handling a hazardous material at or above reportable quantities.

Violation Notes: Returned to compliance on 06/29/2015.

Violation Division: Orange County Environmental Health
Violation Program: HMRRP
Violation Source: CERS

Evaluation:

Eval General Type: Compliance Evaluation Inspection
Eval Date: 03-10-2014

Violations Found: No

Eval Type: Routine done by local agency

Eval Notes: On-site for routine inspection. Permission to enter, inspect, and take photographs granted by Roger Nichols this date. Hazardous Waste receipts made available and reviewed. HW containers properly labeled this date. Hazardous waste is hauled by World Wide Recovery The paint debris/filter drum is full and is scheduled to be disposed. Discussed sampling the paint waste to determine if it is a regulated hazardous waste. Emergency numbers posted. Inspected trash/dumpster and it does not appear to contain any hazardous waste. The perimeter of the facility was also inspected; no obvious signs of releases were noted.

Eval Notes:	Orange County Environmental Health as the Certified Unified Program Agency (OC CUPA) is the administrating agency for the Hazardous Materials Disclosure and Business Emergency Plan programs (HMD/BEP) previously administered by the Orange County Fire Authority. During the months of August and December of 2013, the OC CUPA sent out letters to regulated businesses requesting them to electronically submit their HMD/BEP forms. Electronic submission of these forms is a legal requirement. Failure to submit HMD/BEP forms is in violation of the California Health & Safety Code Chapter 6.95. According to our records there is no electronic submission for this facility. Please go to www.esubmit.ocgov.com to request a username and password and submit your HMD/BEP forms within the next 30 days. Businesses may also submit forms via the California Environmental Reporting System. Please verify that all owner information that is prepopulated on the E-Submit Portal is still [Truncated]

Eval Notes:	On site for hazardous waste inspection. Consent to enter and inspect given by Roger Nichols. Observed facility, hazardous waste storage and dumpster areas. Containers of waste paint booth filters were stored closed and were properly labeled while on site. Manifests were not available for review, however, facility President stated that last pick up of filters was approximately 3 years ago. Please be aware that manifests must be available for 3 years. Emergency Plan is posted in the office. Periodic training is conducted.

Violations:

Site ID: 71137
Site Name: SN&MLAJ, Inc.
Violation Date: 06-21-2017
Citation: 23 CCR 6.7 25284, 25286 - California Code of Regulations, Title 23, Chapter 6.7, Section(s) 25284, 25286
Violation Description: Failure to submit a complete and accurate application for a permit to operate a UST, or for renewal of the permit.
Violation Notes: Returned to compliance on 09/29/2017. The business changed owners as of 3/7/17. The new owner has not submitted UST permitting documents within 30 days of the change. Please submit the UST documents via CERS within 30 days. Underground storage tank permitting documents must be submitted via the California Electronic Reporting System (CERS) located at <http://cers.calepa.ca.gov/>
Violation Division: Orange County Environmental Health
Violation Program: UST
Violation Source: CERS

Site ID: 71137
Site Name: SN&MLAJ, Inc.
Violation Date: 07-10-2019
Citation: 23 CCR 16 2715(c)(2) - California Code of Regulations, Title 23, Chapter 16, Section(s) 2715(c)(2)
Violation Description: Failure to have at least one facility employee present during operating hours that has been trained in the proper operation and maintenance of the UST system by a designated operator (DO).
Violation Notes: Returned to compliance on 08/29/2019. OBSERVATION: Owner/Operator failed to have at least one employee present during operating hours that has been trained in the proper operation and maintenance of the UST system by a designated operator (DO). CORRECTIVE ACTION: Ensure that at least one employee is present during operating hours that has been trained in the proper operation and maintenance of the UST system by a designated operator (DO). Submit training records to this Agency immediately to abate this violation.

Citation: 23 CCR 16 2715(c)(2) - California Code of Regulations, Title 23, Chapter 16, Section(s) 2715(c)(2)
Violation Description: Failure to have at least one facility employee present during operating hours that has been trained in the proper operation and maintenance of the UST system by a designated operator (DO).
Violation Notes: OBSERVATION: Owner/Operator failed to have at least one employee present during operating hours that has been trained in the proper operation and maintenance of the UST system by a designated operator (DO). Danny Ahmad was the only employee present during the monitoring certification. No DO training records were available for Danny Ahmad. CORRECTIVE ACTION: Ensure that at least one employee is present during operating hours that has been trained in the proper operation and maintenance of the UST system by a designated operator (DO). Submit DO training records for Danny Ahmad to this Agency via email.

CERS

Site ID: 71137
Site Name: SN&MLAJ, Inc.
Violation Date: 09-11-2020
Citation: 23 CCR 16 2636(f)(2) - California Code of Regulations, Title 23,
Chapter 16, Section(s) 2636(f)(2)

Violation Description: Failure of the functional line leak detector (LLD) monitoring
pressurized piping to meet one or more of the following requirements:
Monitored at least hourly with the capability of detecting a release
of 3.0 gallons per hour leak at 10 pounds per square inch and restrict
or shut off the flow of product through the piping when a leak is
detected.

Violation Notes: Returned to compliance on 09/22/2020. OBSERVATION: Line leak detector
failed to meet one or more of the following requirements: Monitor at
least hourly; Capable of detecting a release of 3.0 gallons per hour
at 10 p.s.i.g.; Restricting or shutting off the flow of product
through the piping when a leak is detected. CORRECTIVE ACTION: Repair
or replace line leak detector (specify tank) so that it is capable
of monitoring at least hourly, detecting a release of 3.0 gallons per
hour at 10 p.s.i.g., and restricting or shutting off the flow of
product through the piping when a leak is detected.

16, Section(s) 2641(a)

Violation Description: Failure of leak detection equipment to be located such that equipment
is capable of detecting a leak at the earliest possible opportunity.

Violation Notes: Returned to compliance on 09/30/2020. I096- Observation: The 87
turbine sump had approximately 10.5 inches of liquid in it during the
time of the inspection. The sensor was positioned at the low point of
the sump, but due to incorrect sensor programming, it was unable to
detect the liquid. Following reprogramming, the sensor was retested
and determined to be operational. The liquid was removed from the sump
and the sensor was positioned at the low point. Violation has been
corrected.

Citation: 23 CCR 16 2712(b)(1)(G) - California Code of Regulations, Title 23, Chapter 16, Section(s) 2712(b)(1)(G)
Violation Description: Failure to comply with one or more of the following overfill prevention equipment requirements: Alert the transfer operator when the tank is 90 percent full by restricting the flow into the tank or triggering an audible and visual alarm; or Restrict delivery of flow to the tank at least 30 minutes before the tank overfills, provided the restriction occurs when the tank is filled to no more than 95 percent of capacity; and activate an audible alarm at least five minutes before the tank overfills; or Provide positive shut-off of flow to the tank when the tank is filled to no more than 95 percent of capacity; or Provide positive shut-off of flow to the tank so that none of the fittings located on the top of the tank are exposed to product due to overfilling. Install/retrofit overfill prevention equipment that does not use flow restrictors on vent piping to meet overfill prevention equipment requirements when the overfill prevention equipment is installed, repaired, or replaced on and after October 1, - 2018. For USTs installed before October 1, 2018, perform an inspection by October 13, 2018 and every 36 months thereafter. For USTs installed on and after October- 1, - 2018, perform an inspection at installation and every 36 months thereafter. Inspected within 30 days after a repair to the overfill prevention equipment. Inspected using an applicable manufacturer guidelines, industry codes, engineering standards, or a method approved by a professional engineer. Inspected by a certified UST service technician. Maintain records of overfill prevention equipment inspection for 36 months.
Violation Notes: Returned to compliance on 07/16/2019. OBSERVATION: Facility failed to test overfill prevention equipment at least once as of 10/13/2018 and every 36 months thereafter. CORRECTIVE ACTION: Immediately test the overfill prevention equipment. Submit passing test results to this Agency within 30 days to abate this violation.

Citation: HSC 6.95 25505(a)(4) - California Health and Safety Code, Chapter 6.95, Section(s) 25505(a)(4)

Violation Description: Failure to provide initial and annual training to all employees in safety procedures in the event of a release or threatened release of a hazardous material or failure to document and maintain training records for a minimum of three years.

Violation Notes: OBSERVATION: The business did not provide one or more of the following: initial employee training for all new employees. No training records available for Danny Ahmad. CORRECTIVE ACTION: Provide all new employees with required training that includes: safe handling hazardous materials, emergency response procedures, and proper use of response equipment. Maintain records of training available for 3 years. Provide records to this Agency to correct the violation.

Eval Notes: THIS REPORT SUPERCEDES THE PREVIOUS REPORT ISSUED ON THIS DATE. On site for routine UST inspection, monitoring system certification, and spill bucket testing. The facility has two double-walled tanks (87/91) monitored by a Veeder Root TLS-350 system. The monitor is operational for audible and visual alarms. Panel display reads G all functions normal. G Positive shutdown and fail safe programming were verified. In-tank probes with external audible/visual alarm are used for overfill prevention. The sensors in the tank annulars, turbine sumps, fill sumps, and UDCs shutdown the turbines when submerged in fuel. The two mechanical line leak detectors were tested prior to inspector departure but were reported to be operational. The overfill alarm was observed to be functional at simulated 90% tank volume. The spill buckets were tested after inspector departure. Testing was conducted by Oscar Cervantes of JDS Testing. Tester certifications (VR, ICC, VMI) were verified. [Truncated]

Click Here:

Environmental Interest/Information System:

California Hazardous Waste Tracking System - Datamart (HWTS-DATAMART) provides California with information on hazardous waste shipments for generators, transporters, and treatment, storage, and disposal facilities.

US EPA TRIS (Toxics Release Inventory System) contains information from facilities on the amounts of over 300 listed toxic chemicals that these facilities release directly to air, water, land, or that are transported off-site.

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

HAZARDOUS AIR POLLUTANT MAJOR

Design Flow: 0
Baseline Flow: 0
Reclamation: Not reported
POTW: Not reported

Treat To Water: Minor Threat to Water Quality. A violation of a regional board order should cause a relatively minor impairment of beneficial uses compared to a major or minor threat. Not: All nurds without a TTWQ will be considered a minor threat to water quality unless coded at a higher Level. A Zero (0) may be used to code those NURDS that are found to represent no threat to water quality.

Complexity: Category C - Facilities having no waste treatment systems, such as cooling water dischargers or those who must comply through best management practices, facilities with passive waste treatment and disposal systems, such as septic systems with subsurface disposal, or dischargers having waste storage systems with land disposal such as dairy waste ponds.

the tank is 90 percent full by restricting the flow into the tank or triggering an audible and visual alarm; or Restrict delivery of flow to the tank at least 30 minutes before the tank overfills, provided the restriction occurs when the tank is filled to no more than 95 percent of capacity; and activate an audible alarm at least five minutes before the tank overfills; or Provide positive shut-off of flow to the tank when the tank is filled to no more than 95 percent of capacity; or Provide positive shut-off of flow to the tank so that none of the fittings located on the top of the tank are exposed to product due to overfilling. Install/retrofit overfill prevention equipment that does not use flow restrictors on vent piping to meet overfill prevention equipment requirements when the overfill prevention equipment is installed, repaired, or replaced on and after October 1, 2018. For USTs installed before October 1, 2018, perform an inspection by October 13, 2018 and every 36 months thereafter. For USTs installed on and after October 1, 2018, perform an inspection at installation and every 36 months thereafter. Inspected within 30 days after a repair to the overfill prevention equipment. Inspected using an applicable manufacturer guidelines, industry codes, engineering standards, or a method approved by a professional engineer. Inspected by a certified UST service technician. Maintain records of overfill prevention equipment inspection for 36 months.

Violation Notes: Returned to compliance on 06/22/2020. OBSERVATION: Facility failed to test overfill prevention equipment at least once as of 10/13/2018 and every 36 months thereafter. CORRECTIVE ACTION: Overfill prevention equipment was tested this date. Submit passing test results to this Agency within 30 days to abate this violation.

Eval Notes:	The CERS Hazardous Materials Inventory is not accepted. Please update the following: -Remove the Used Oil filters as they are not stored at a reportable volume of more than 500 lbs. -Remove the Differential Oil as it is not stored at the reportable volume of more than 55 gallons. -Remove the Motor Oil at 40 gallons and add this to the 500 gallon disclosure volume. (you donG t need it twice) -Check the volume of Lubricating oils of 5,000 gallons, it seems like a lot. -Adjust the volume of DEF to 55 gallons for the max daily amount stored. -Adjust the volume of Maxi Suds to 55 gallons for the max daily amount stored. -The CO2 is reportable at 1000 cft . The shop manager stated he had 6 large bottles of C02 which is about 250 cuft per bottle. So if you remove some of the volume stored onsite to below 1000 cuft. onsite, then you donG t need to report it. If 40 cu ft is now the accurate volume stored on site, then please remove this. -Adjust the volume of the Armor All [Truncated]

Eval Notes:	On site to conduct a routine hazardous waste inspection. Consent to inspect and take photos at the facility was provided by Frank Alvarez. The facility had 9 x 55 gallon drums of waste oil being stored next to the conveyor belts and the propane storage area. The drums of waste oil were missing hazardous waste labels (see violation) and have been stored onsite for more than 180 days (see violation). A 15 gallon drum of waste gasoline was also observed in the shop hazardous waste storage area without a label (see violation). The 55 gallon drum of waste paint did not have tight fitting cover (see violation). Municipal dumpster area does not contain any hazardous waste. The perimeter of the facility was also inspected; no signs of releases were noted. Emergency Response Information was complete. Reviewed manifests, bills of lading and consolidated manifests for all hazardous waste streams. For further information about Hazardous Waste management, please refer [Truncated]

Eval Notes: INSPECTOR COMMENTS: On site for a Hazardous Waste reinspection. Consent to inspect and take any necessary photos was given by Steve Becker, and Frank Alvarez, Fleet Manager. During a routine inspection conducted 8/14/17 the facility was cited a violation for having approximately nine, 55 gallon drums of used oil were observed on site and were stored for over 180 days per the site contact at time of inspection. The facility provided a copy of a manifest dated 8/29/17 showing 440 gallons of used oil hauled off site by Asbury Environmental Services. Violation I053 has been corrected. During this inspection the facility had a 55 gallon container of waste water based paint, which was observed open due to it having an open funnel top and the container not having a tight fitting lid. The container was observed with a closed tight fitting lid and funnel, photos taken. Violation I617 has been corrected. No violations remain outstanding, the facility is in compliance. [Truncated]

Eval Type:	Routine done by local agency
Eval Notes:	On site to conduct a routine Underground Storage Tank inspection and witness annual monitor system certification and spill bucket testing. Testing was conducted by Marty Schwartz of OC Tank Testing. ICC, Veeder Root and VMI certifications were verified. Submit test results to this Agency within 30 days. The facility has three double-walled tanks, one split (Diesel 15k, Diesel 5k split, Diesel 10k split), monitored by a Veeder Root TLS350. The monitor is operational for audible and visual alarms, panel display reads G All functions normalG . The tanks have double-walled pressurized piping. Positive shutdown of turbines were verified when their corresponding VR-208 sensors, in both piping and fill sumps, were submerged in liquid. Fail safe and sensor out triggered positive shutdown of turbines. Dry annulars are monitored by 420 sensors. UDCs 1/2 and 5/6 are monitored by VR 001 and UDC 3/4 is monitored by a Beaudreau 406 sensor which all shutdown the UDCs when submerged [Truncated]

facility comprise residential-curb-side-collection drop-off, collection, sorting, storage, and sale of scrap materials for recycling. Recycled materials include aluminum, plastic, newsprint, cardboard, and paper. The inspector toured the facility and reviewed pertinent files with Ms. Linda Udris and Mr. Gary Wlassak. Materials are delivered by truck and stored in large uncovered piles located outdoors. Materials are then sorted and bailed on-site under a covered conveyor/bailer operation. Materials are sorted and prepared for transportation, then stored in piles or roll-off boxes prior to being shipped off-site. The inspector observed several large and small storage boxes which were being painted or repainted. Prior to repainting storage boxes, outdoor sanding is employed to remove old paint. Required storm water paperwork (including the SWPPP, Monitoring Plan, 2000/2001 Annual Report, and sampling results) were available for review on-site however the SWPPP was not signed and did not meet all of the requirements of the General Permit (see below).

Environmental Interest/Information System:

California Hazardous Waste Tracking System - Datamart (HWTS-DATAMART) provides California with information on hazardous waste shipments for generators, transporters, and treatment, storage, and disposal facilities.

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Name: KINDNESS GENERAL CONTRACTORS, LLC.
Address: 11172 WESTERN AVE
City,State,Zip: STANTON, CA 90680
Site ID: 440815
CERS ID: 10724875
CERS Description: Chemical Storage Facilities

Violations:
Site ID: 440815
Site Name: Kindness General Contractors, LLC.
Violation Date: 03-01-2019
Citation: HSC 6.5 25250.22 - California Health and Safety Code, Chapter 6.5, Section(s) 25250.22
Violation Description: Failure to properly manage used oil and/or fuel filters in accordance with the requirements.
Violation Notes: Returned to compliance on 06/06/2019. OBSERVATION: Two 55 gallon drums of Used Oil Filters were observed without an accumulation start date. CORRECTIVE ACTION: Please have the used oil filters hauled by a registered hazardous waste hauler. Submit a copy of the manifests to this Agency within 30 days.
Violation Division: Orange County Environmental Health
Violation Program: HW
Violation Source: CERS

Site ID: 440815
Site Name: Kindness General Contractors, LLC.
Violation Date: 03-01-2019
Citation: HSC 6.67 25270.4.5(a) - California Health and Safety Code, Chapter 6.67, Section(s) 25270.4.5(a)
Violation Description: Failure to prepare an SPCC Plan that meets all applicable requirements.
Violation Notes: Returned to compliance on 06/06/2019. OBSERVATION: SPCC Plan is not complete and does not meet all applicable requirements. CORRECTIVE ACTION: Please update and complete all required sections of the SPCC Plan and ensure that discharge procedures are addressed for the 1,000 gal tank of Diesel with open secondary containment. Provide a copy of the completed plan to this Agency within 30 days.

Violation Description: Chapter 12, Section(s) 66262.40(a)
Failure to keep a copy of each properly signed manifest for at least three years from the date the waste was accepted by the initial transporter. The manifest signed at the time the waste was accepted for transport shall be kept until receiving a signed copy from the designated facility which received the waste.

Violation Notes: Returned to compliance on 06/06/2019. OBSERVATION: Hazardous waste manifests were not available during the inspection for Waste Coolant, Used Oil Filters, and Used Concrete Cure. CORRECTIVE ACTION: Please obtain hazardous waste manifests for the wastes listed and provide copies to this Agency within 30 days.

Violation Division: Orange County Environmental Health
Violation Program: HW
Violation Source: CERS

Site ID: 440815
Site Name: Kindness General Contractors, LLC.
Violation Date: 03-01-2019
Citation: HSC 6.67 25270.4.5(a) - California Health and Safety Code, Chapter 6.67, Section(s) 25270.4.5(a)

Violation Description: Failure to provide bulk storage containers with adequate secondary containment large enough to contain the entire capacity of the largest container plus additional capacity to contain precipitation when applicable, and/or failure to position/locate mobile or portable containers to prevent a discharge.

Violation Notes: Returned to compliance on 05/17/2019. OBSERVATION: Bulk storage containers do not have adequate secondary containment. CORRECTIVE ACTION: Provide secondary containment for bulk storage containers large enough to contain the entire capacity of the largest container and provide photographic evidence of correction to this Agency via email within 30 days.

Violation Division: Orange County Environmental Health
Violation Program: APSA
Violation Source: CERS

Site ID: 440815
Site Name: Kindness General Contractors, LLC.
Violation Date: 03-01-2019
Citation: HSC 6.67 25270.4.5(a) - California Health and Safety Code, Chapter 6.67, Section(s) 25270.4.5(a)

Violation Description: Failure to ensure drainage from diked storage areas is restrained by valves, except where facility systems are designed to control such discharge, or failure to ensure manually activated pumps or ejectors are used and the condition of the accumulation is inspected prior to draining dike.

Violation Notes: Returned to compliance on 05/17/2019. OBSERVATION: Failure to adequately use valves to restrain drainage from outdoor secondary containment storage areas and/or failure to inspect condition of accumulation prior to draining. CORRECTIVE ACTION: Ensure that valves remain closed to prevent drainage from outdoor secondary containment areas, only use manually activated pumps to empty these areas, and inspect condition of accumulation prior to draining. Provide photographic evidence of correction to this Agency via email within 30 days.

Citation: HSC 6.95 25508.1(a)-(f) - California Health and Safety Code, Chapter 6.95, Section(s) 25508.1(a)-(f)
Violation Description: Failure to electronically update business plan within 30 days of any one of the following events: A 100 percent or more increase in the quantity of a previously disclosed material. Any handling of a previously undisclosed hazardous materials at or above reportable quantities. A change of business address, business ownership, or business name. A substantial change in the handler's operations that requires modification to any portion of the business plan.
Violation Notes: Returned to compliance on 05/03/2019. OBSERVATION: Hazardous Materials Inventory submitted in CERS does not accurately reflect what was observed on site. CORRECTIVE ACTION: Please update the following materials to reflect the amounts observed on site: - 250 gallons of Gasoline - 55 gallons of Waste Antifreeze - 55 gallons of Waste Oily Water - 2,529 cubic feet of Oxygen - 161 gallons of Propane - 688 cubic feet of Acetylene - 1,200 cubic feet of Carbon Dioxide Re-submit to this Agency via CERS within 30 days at <http://cers.calepa.ca.gov/>.

Citation: HSC 6.5 25123.3(h)(1) - California Health and Safety Code, Chapter 6.5, Section(s) 25123.3(h)(1)
Violation Description: Failure to send hazardous waste offsite for treatment, storage, or disposal within 180 days (or 270 days if waste is transported over 200 miles) for a generator who generates less than 1000 kilogram per month if all of the following conditions are met: (1) The quantity of hazardous waste accumulated onsite never exceeds 6,000 kilograms. (2) The generator complies with the requirements of 40 Code of Federal Regulations section 262.34(d), (e) and (f). (3) The generator does not hold acutely hazardous waste or extremely hazardous waste in an amount greater than one kilogram for more than 90 days.
Violation Notes: Returned to compliance on 06/06/2019. OBSERVATION: One 55 gallon drum of Waste Antifreeze was observed on site with an accumulation start date of 6/29/18 which is past the allotted accumulation time frame. CORRECTIVE ACTION: Please have the hazardous waste hauled by a registered hazardous waste hauler. Submit a copy of the manifest to this Agency within 30 days.

Substance: Acetone, etc.
Qty Leaked: Not reported
Abate Method: Not reported
Cross Street: ORANGEWOOD
Enf Type: Not reported
Funding: Not reported
How Discovered: Other Means
How Stopped: Not reported
Leak Cause: UNK
Leak Source: Other Source
Global ID: T0605901844
How Stopped Date: 12/8/1994
Enter Date: 5/8/1995
Date Confirmation of Leak Began: Not reported
Date Preliminary Assessment Began: 1/1/1965
Discover Date: 12/8/1994
Enforcement Date: Not reported
Close Date: Not reported
Date Prelim Assessment Workplan Submitted: Not reported
Date Pollution Characterization Began: Not reported
Date Remediation Plan Submitted: Not reported
Date Remedial Action Underway: Not reported
Date Post Remedial Action Monitoring: Not reported
Enter Date: 5/8/1995

Environmental Interest/Information System:

AIR EMISSIONS CLASSIFICATION UNKNOWN
US EPA TRIS (Toxics Release Inventory System) contains information from facilities on the amounts of over 300 listed toxic chemicals that these facilities release directly to air, water, land, or that are transported off-site.
RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

GOVERNMENT RECORDS SEARCHED / DATA CURRENCY TRACKING

To maintain currency of the following federal and state databases, EDR contacts the appropriate governmental agency on a monthly or quarterly basis, as required.

Number of Days to Update: Provides confirmation that EDR is reporting records that have been updated within 90 days from the date the government agency made the information available to the public.

STANDARD ENVIRONMENTAL RECORDS

Federal NPL site list

NPL: National Priority List

National Priorities List (Superfund). The NPL is a subset of CERCLIS and identifies over 1,200 sites for priority cleanup under the Superfund Program. NPL sites may encompass relatively large areas. As such, EDR provides polygon coverage for over 1,000 NPL site boundaries produced by EPA's Environmental Photographic Interpretation Center (EPIC) and regional EPA offices.

Proposed NPL: Proposed National Priority List Sites

A site that has been proposed for listing on the National Priorities List through the issuance of a proposed rule in the Federal Register. EPA then accepts public comments on the site, responds to the comments, and places on the NPL those sites that continue to meet the requirements for listing.

Date of Government Version: 07/29/2021	Source: EPA
Date Data Arrived at EDR: 08/04/2021	Telephone: N/A
Date Made Active in Reports: 08/31/2021	Last EDR Contact: 09/01/2021
Number of Days to Update: 27	Next Scheduled EDR Contact: 10/11/2021
	Data Release Frequency: Quarterly

NPL LIENS: Federal Superfund Liens

Federal Superfund Liens. Under the authority granted the USEPA by CERCLA of 1980, the USEPA has the authority to file liens against real property in order to recover remedial action expenditures or when the property owner received notification of potential liability. USEPA compiles a listing of filed notices of Superfund Liens.

GOVERNMENT RECORDS SEARCHED / DATA CURRENCY TRACKING

Date of Government Version: 10/15/1991

Federal Delisted NPL site list

Delisted NPL: National Priority List Deletions

The National Oil and Hazardous Substances Pollution Contingency Plan (NCP) establishes the criteria that the EPA uses to delete sites from the NPL. In accordance with 40 CFR 300.425.(e), sites may be deleted from the NPL where no further response is appropriate.

Data Release Frequency: Varies

SEMS: Superfund Enterprise Management System

SEMS (Superfund Enterprise Management System) tracks hazardous waste sites, potentially hazardous waste sites, and remedial activities performed in support of EPA's Superfund Program across the United States. The list was formerly known as CERCLIS, renamed to SEMS by the EPA in 2015. The list contains data on potentially hazardous waste sites that have been reported to the USEPA by states, municipalities, private companies and private persons, pursuant to Section 103 of the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA). This dataset also contains sites which are either proposed to or on the National Priorities List (NPL) and the sites which are in the screening and assessment phase for possible inclusion on the NPL.

Date of Government Version: 07/29/2021

Data Release Frequency: Quarterly

Federal CERCLIS NFRAP site list

SEMS-ARCHIVE: Superfund Enterprise Management System Archive

GOVERNMENT RECORDS SEARCHED / DATA CURRENCY TRACKING

SEMS-ARCHIVE (Superfund Enterprise Management System Archive) tracks sites that have no further interest under the Federal Superfund Program based on available information. The list was formerly known as the CERCLIS-NFRAP, renamed to SEMS ARCHIVE by the EPA in 2015. EPA may perform a minimal level of assessment work at a site while it is archived if site conditions change and/or new information becomes available. Archived sites have been removed and archived from the inventory of SEMS sites. Archived status indicates that, to the best of EPA's knowledge, assessment at a site has been completed and that EPA has determined no further steps will be taken to list the site on the National Priorities List (NPL), unless information indicates this decision was not appropriate or other considerations require a recommendation for listing at a later time. The decision does not necessarily mean that there is no hazard associated with a given site; it only means that, based upon available information, the location is not judged to be potential NPL site.

Date of Government Version: 07/29/2021	Source: EPA
Date Data Arrived at EDR: 08/04/2021	Telephone: 800-424-9346

Federal RCRA non-CORRACTS TSD facilities list

RCRA-TSDF: RCRA - Treatment, Storage and Disposal

RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Transporters are individuals or entities that move hazardous waste from the generator offsite to a facility that can recycle, treat, store, or dispose of the waste. TSDFs treat, store, or dispose of the waste.

Date of Government Version: 03/22/2021	Source: Environmental Protection Agency
Date Data Arrived at EDR: 03/23/2021	Telephone: (415) 495-8895
Date Made Active in Reports: 05/19/2021	Last EDR Contact: 09/15/2021
Number of Days to Update: 57	Next Scheduled EDR Contact: 01/03/2022

Federal RCRA generators list

RCRA-LQG: RCRA - Large Quantity Generators

RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Large quantity generators (LQGs) generate over 1,000 kilograms (kg) of hazardous waste, or over 1 kg of acutely hazardous waste per month.

Date of Government Version: 03/22/2021	Source: Environmental Protection Agency
Date Data Arrived at EDR: 03/23/2021	Telephone: (415) 495-8895
Date Made Active in Reports: 05/19/2021	Last EDR Contact: 09/15/2021

GOVERNMENT RECORDS SEARCHED / DATA CURRENCY TRACKING

RCRA-SQG: RCRA - Small Quantity Generators

RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Small quantity generators (SQGs) generate between 100 kg and 1,000 kg of hazardous waste per month.

Date of Government Version: 03/22/2021	Source: Environmental Protection Agency
Date Data Arrived at EDR: 03/23/2021	Telephone: (415) 495-8895
Date Made Active in Reports: 05/19/2021	Last EDR Contact: 09/15/2021
Number of Days to Update: 57	Next Scheduled EDR Contact: 01/03/2022
	Data Release Frequency: Quarterly

RCRA-VSQG: RCRA - Very Small Quantity Generators (Formerly Conditionally Exempt Small Quantity Generators)

RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Very small quantity generators (VSQGs) generate less than 100 kg of hazardous waste, or less than 1 kg of acutely hazardous waste per month.

Date of Government Version: 03/22/2021	Source: Environmental Protection Agency
Date Data Arrived at EDR: 03/23/2021	Telephone: (415) 495-8895

Federal institutional controls / engineering controls registries

LUCIS: Land Use Control Information System

LUCIS contains records of land use control information pertaining to the former Navy Base Realignment and Closure properties.

Date of Government Version: 05/10/2021	Source: Department of the Navy
Date Data Arrived at EDR: 05/13/2021	Telephone: 843-820-7326
Date Made Active in Reports: 08/03/2021	Last EDR Contact: 08/05/2021
Number of Days to Update: 82	Next Scheduled EDR Contact: 11/22/2021
	Data Release Frequency: Varies

US ENG CONTROLS: Engineering Controls Sites List

A listing of sites with engineering controls in place. Engineering controls include various forms of caps, building foundations, liners, and treatment methods to create pathway elimination for regulated substances to enter environmental media or effect human health.

Date of Government Version: 05/17/2021	Source: Environmental Protection Agency
Date Data Arrived at EDR: 05/21/2021	Telephone: 703-603-0695
Date Made Active in Reports: 08/11/2021	Last EDR Contact: 08/23/2021
Number of Days to Update: 82	Next Scheduled EDR Contact: 12/06/2021
	Data Release Frequency: Varies

US INST CONTROLS: Institutional Controls Sites List

A listing of sites with institutional controls in place. Institutional controls include administrative measures, such as groundwater use restrictions, construction restrictions, property use restrictions, and post remediation care requirements intended to prevent exposure to contaminants remaining on site. Deed restrictions are generally required as part of the institutional controls.

Date of Government Version: 05/17/2021	Source: Environmental Protection Agency

State- and tribal - equivalent CERCLIS

ENVIROSTOR: EnviroStor Database

The Department of Toxic Substances Control's (DTSC's) Site Mitigation and Brownfields Reuse Program's (SMBRP's) EnviroStor database identifies sites that have known contamination or sites for which there may be reasons to investigate further. The database includes the following site types: Federal Superfund sites (National Priorities List (NPL)); State Response, including Military Facilities and State Superfund; Voluntary Cleanup; and School sites. EnviroStor provides similar information to the information that was available in CalSites, and provides additional site information, including, but not limited to, identification of formerly-contaminated properties that have been released for reuse, properties where environmental deed restrictions have been recorded to prevent inappropriate land uses, and risk characterization information that is used to assess potential impacts to public health and the environment at contaminated sites.

Number of Days to Update: 88	Next Scheduled EDR Contact: 01/03/2022
	Data Release Frequency: Quarterly

ADDITIONAL ENVIRONMENTAL RECORDS

Local Brownfield lists

US BROWNFIELDS: A Listing of Brownfields Sites

Brownfields are real property, the expansion, redevelopment, or reuse of which may be complicated by the presence or potential presence of a hazardous substance, pollutant, or contaminant. Cleaning up and reinvesting in these properties takes development pressures off of undeveloped, open land, and both improves and protects the environment. Assessment, Cleanup and Redevelopment Exchange System (ACRES) stores information reported by EPA Brownfields grant recipients on brownfields properties assessed or cleaned up with grant funding as well as information on Targeted Brownfields Assessments performed by EPA Regions. A listing of ACRES Brownfield sites is obtained from Cleanups in My Community. Cleanups in My Community provides information on Brownfields properties for which information is reported back to EPA, as well as areas served by Brownfields grant programs.
