

## **HONG ALYCE VAN**

**Council Member, City of Stanton**

Thank you for the privilege of serving as your city councilmember since 2019. It has been an honor to work for the residents of Stanton, and I am proud of the accomplishments achieved during my tenure.

Developments flourished under my leadership as we saw the opening of businesses like Rodeo39, In-N-Out, and Raising Cane's. As a housing advocate, I oversaw the completion of housing projects such as Lighthouse, Lantana @Beach, and VRV. I worked tirelessly to alleviate the housing and homelessness crisis by championing the conversion of three run-down motels into 153 new affordable apartments and the building of six Habitat for Humanity homes.

Additionally, through smart fiscal policy, our city has consistently delivered a balanced budget which enables us to provide free community services such as engaging senior activities and excursions, youth summer camp, and quality afterschool programs for our children. Through my efforts, our city also increased Spanish and Vietnamese language outreach to better engage with our diverse community.

As your city councilmember, I have demonstrated my commitment to fighting for our district and getting results. I would be honored to earn your vote. Together we can help make Stanton a city of pride, purpose, and progress.
