

Town of Star Valley Ranch

171 Vista Drive #7007

Phone: 307-883-8696

Star Valley Ranch, Wyoming 83127

Fax: 307-883-8329

A water connection permit is required prior to obtaining water services from the Town of Star Valley Ranch. The water connections shall be purchased and installed at the cost of the customer. A water meter is required by the Town and shall be provided by the Town and installed by the Town.

APPLICATION REQUIREMENTS

- Water Permit Application
- Building Permit and/or Right of Way Excavation Permit Application (if required)
- Site plan to scale (no larger than 1"=20') including the following: building footprint, existing utility lines, proposed utility lines, curb stop, connection, parcel boundaries and dimensions, legal description and street address, adjacent streets and alleys including widths
- You must schedule inspections with the Public Works Department to plan meter pit placement and to ensure the service line, trench fill, and site repair are to Town specifications

MUST CALL 48 HOURS BEFORE YOU DIG: (800-849-2476) or (811) for utility locates

FEES

The water connection fees are set by Ordinance, contact the Town for the current fees. The connection fee includes associated water meter and PRV installation fees, including the materials and installation. Note that these prices do not include labor for meter and PRV warranty. Note that after water meter installation, a service order will need to be made with the Town to turn on the water.

WATER CONNECTION STANDARDS

- The installation of the water service shall comply to Town specifications
- Fittings and connections shall conform to Town specifications

WATER METER INFORMATION AND FEES

All new installations of water service and remodeling requiring a building permit within the areas served by the municipal water system of the Town of Star Valley Ranch shall require the installation of a pressure relief valve (PRV), and water meter, which will be provided and installed by the Town.

Indoor vs. Outdoor Installation: All new construction requires that the meter be installed in an outdoor meter pit approved by Town specifications. The water meter must be installed in such a way as to prevent freezing and to provide access for periodic Town inspections and maintenance. Indoor meters are not allowed.
