Tax Administrator Jake Oakley presented the following appeal from Mr. Derrik Wayne

Hamby:

- Mr. Hamby is appealing the discovery billing for the period 2007-2011 covering a 1985 Single Wide Mobile Home located at 2259 Hickory Fork Rd, Walnut Cove
- The assigned Tax Office value of this single wide mobile home is \$4,436
- Mr. Hamby is requesting a reduction in assigned value to \$2,500
- The Tax Office valuation of \$4,436 on this single wide mobile home is in accordance with Stokes County's established Personal Property Schedule of Values
- In order to remain consistent and fair in the pricing of personal property, the Stokes County Tax Administration is recommending that the Board of Commissioners **deny** this appeal and uphold the assigned value of \$4,436.00
- Request the item be moved to the July 23rd Consent Agenda

Commissioner Walker questioned Tax Administrator Oakley what Mr. Hamby's reasons were for appealing the value?

Tax Administrator Oakley responded:

- Mr. Hamby has mobile homes in Forsyth County that have lower values
- Values are different for each county
- Personal property is assessed by Stokes County from the hook up itself– the unit is able to utilize water and sewer which applies more value to the unit
- The property is also being used as an incoming producing property which also effects the value
- Have explained this to Mr. Hamby

Chairman Lankford, with full consensus of the Board, directed the Clerk to place the following on the July 23th Consent Agenda:

- Discovery/Value Appeal of Single Wide Mobile Home

Commissioner Walker questioned Tax Administrator Oakley if there was anything that stood out while he was compiling all the data?

Tax Administrator Oakley responded:

- Very fortunate to have taxes being paid by our taxpayers in such a tough economy
- Feels that allowing people to set up interest free payments from August till December helps those who are unable to pay the entire amount at one time

- Felt it was only fair to those who have paid or are paying on their taxes, to try to enforce with a little more pressure on the delinquent accounts
- More letters were sent out to delinquent accounts this year
- If someone missed a payment, a letter was sent to remind the taxpayer of the arrangement that had been set up
- Concerned about the number of taxpayers who are using the tobacco buyout funds to pay their taxes; this could be an issue for those taxpayers when the buyout funds are exhausted which is within the next couple of years

Commissioner Walker noted that he felt the friendly concept of allowing taxpayers to setup payments seems to be working.

Document Management System – Quote

Manager Rick Morris presented the following information regarding the Document Management System for Social Services:

- DSS Director Preston is in the process of switching vendors due to unreasonable pricing increases from the current vendor being used for scanning records
- Quote secured by DSS Director Kristy Preston – One Source Document Solutions in the amount of \$33,800
- Will provide the department with a document management system that will allow staff to scan, view, retrieve, and print scanned documents that will replace the current system
- Funding has already been approved with the adoption of the 2012-13 budget
- Contract must be approved by Board of Commissioners due to being over \$25,000
- DSS Director Kristy Preston is in attendance for today's meeting if the Board has any questions

DSS Director Kristy Preston presented the following information:

- Realized in January this year that prices were going up significantly
- Tried to negotiate the increased pricing with the current vendor with no success
- Started researching other vendors and found One Source Document Solutions (located in Greensboro) who provided the best quote
- Will start with 29 users this year and add the remainder of the staff next year, trying to look at ways to cut cost
- Will probably not see the savings the first year due to the implementation cost, but will definitely see savings in the next years

- Have worked with county attorney, if One Source Document is approved, to inform the current vendor that termination is scheduled for July 31st
- If the contract goes beyond July 31st, another month of services will have to be paid and will definitely slow down the project
- Current budget does not include funding for paying another month to the current vendor
- Have been with current vendor for approximately five years and is located below Charlotte
- Training will be done with IT and DSS staff
- Contract has five days of training built in, may be able to decrease those days and decrease costs
- 56% Federal and State funding with only 44% county funding

Vice Chairman Inman had no issues.

Commissioner Walker expressed appreciation for the work put into trying to cut costs.

Commissioner Walker also noted that he had no issues with the management system, but would like to see the county put this type of funding into its own equipment in the future when times are better.

Commissioner Booth questioned Director Preston regarding the amount of savings that will be incurred?

DSS Director Preston responded:

- Current vendor's monthly charge went from \$5,000 to \$7,000 per month
- This year's cost is higher due to implementation of the system
- Annual cost for document retrieval will be between \$15,000 to \$20,000
- Current vendor stores the images for DSS, with the new system, the county will be responsible for storing the data by renting storage on a server
- New system is a cloud type internet server that can retrieve documents from other locations other than DSS
- Feels there will be a smooth transition

DSS Director Preston requested to move the item to today's Agenda Action in order to avoid having to pay an additional month's (August) premium to the current vendor.

The Board had no issues with moving the item to today's Action Agenda.

Chairman Lankford, with full consensus of the Board (Commissioner Jones absent), directed the Clerk to place the item on today's Action Agenda.

Surplus Tax Foreclosed Property – Dan River Shores – Upset Bid Process

Manager Rick Morris presented the following information regarding the Surplus Tax Foreclosed Property – Dan River Shores:

- Per NCGS 160A-269, an advertisement for upset bids was placed in the Stokes News along with being posted on the County website regarding a lot located at Dan River Shores
- Board of Commissioners was presented a bid (dated May 9, 2012) from Ms. Dorothy Purdy on May 29th in the amount of \$1,475.58 to purchase tax parcel number 6927-02-58-2626 (Deed Book/Page 558/634) from the county
- No upset bid was received before closing date and time of 5:00 pm – June 20, 2012
- Total outstanding taxes and legal fees as of May 9, 2012 were \$1,475.58
- Parcel has accrued \$2.29 interest since May 9th
- At this point, Board of Commissioners have the option of accepting or rejecting this offer from Ms. Purdy

Vice Chairman Inman confirmed the tax value on the lot was \$1,500.

Vice Chairman Inman stated that since there was no other upset bid and the tax value is \$1,500, the Board should consider accepting the bid which would put the property back on the tax books for revenue.

The Board had no issues with placing the item on the July 23rd Consent Agenda.

Chairman Lankford, with full consensus of the Board (Commissioner Jones absent), directed the Clerk to place the item on the July 23rd Consent Agenda.

CenterPoint Human Services – Fiscal Year 2012-13 Contract - Discussion

Manager Rick Morris presented the following information regarding the Fiscal Year 2012-13 Performance Agreement with CenterPoint Human Services:

July 9, 2012

[29]

- Have provided the BOCC with a copy of the approved Fiscal Year 2011-12 Performance Agreement for the Board's review and discussion to provide instructions to administrative staff to prepare the upcoming Fiscal Year 2012-13 agreement
- Current agreement has a provision that if a new agreement has not been reached between the parties by July 1, 2012, the Fiscal Year 2011-12 Agreement shall remain in force, unless it has been terminated in accordance with the provisions of the Agreement
- Board had discussed in Budget Work Sessions to possibly change the semi-annual consultation between the Chairman of Board of Commissioners, Sheriff, County Manager and CenterPoint's CEO and/or Deputy Area Director to quarterly due to the implementation of the waiver
- Staff will incorporate any changes directed by the Board

Chairman Lankford expressed concerns with only meeting biannual and the need to possibly change to quarterly to monitor the changes with the implementation of the waiver.

Commissioner Walker noted that he was not hearing complaints regarding mental health issues, other than a citizen questioning whether the county was getting their fair share and a citizen not being able to get the services they needed in Stokes County.

Commissioner Walker noted that he had questioned CEO Betty Taylor at the last meeting and that CEO Taylor had indicated that the County was getting their fair share.

Commissioner Walker confirmed with Administrative staff that the County had not received any recent complaints regarding mental health.

Commissioner Walker confirmed with Vice Chairman Inman, Commissioner appointee to the CenterPoint Human Services – Board of Directors, that Stokes County is getting their fair share.

Vice Chairman Inman noted the following:

- Board allocates funding for mental health, developmental disabilities and substance abuse
- A large amount of the County's appropriation goes to the Stokes Opportunity Center (developmental disabilities) in Walnut Cove
- Citizens in the County have gotten a large amount of free meds with the programs offered by CenterPoint
- Reminded the Board that CenterPoint is going through the change from a Local Management Entity (LME) to a Managed Care Organization (MCO)
- MCO will have much more authority

- Will be able to borrow money
- Will be able to buy real estate
- Will have the authority to approve executive salaries higher than the normal rate
- Probably will need to develop a new performance agreement in 2013 with all the changes coming down from the State
- There was a bill in Raleigh that will move the authority back to the Department of Health and Human Services and will affect the participation of the Board if signed by the Governor
- Currently all four counties in the catchment area have a Commissioner representative, that may change
- Should be effective in 2013 if the Governors signs the bill
- Agree that the Board should consider going back to quarterly meetings since there are several things happening
- Feels the initiative by Pioneer to obtain the Certificate of Need for the geriatric psych will be a great asset for Stokes County
- One of the challenges faced by all counties is that it takes a long time to get bed for a patient at the state level

Chairman Lankford requested staff to provide the Board with a copy of the new law for the Board's review before approving the performance agreement.

Commissioner Booth suggested the manager review the bill and recommends any needed changes to the performance agreement.

The Board agreed to place the performance agreement back on the July 23rd Discussion Agenda.

Chairman Lankford, with full consensus of the Board (Commissioner Jones absent), directed the Clerk to place the item on the July 23rd Discussion Agenda.

YMCA Recreation – Fiscal Year 2012-13 Contract - Discussion

Manager Rick Morris presented the following information regarding the Fiscal Year 2012-13 Stokes Family YMCA Recreation Contract:

- Have provided the BOCC with a copy of the approved Fiscal Year 2011-12 Recreation Contract for the Board's review and discussion to provide instructions to administrative staff to prepare the upcoming Fiscal Year 2012-13 contract
- Suggested including a provision that if a new contract has not been reached between the parties by July 1, 2013, the Fiscal Year 2012-13 Contract shall remain in force,

unless it has been terminated in accordance with the provisions of the Contract in order to keep services going

- Have no other recommendations for the contract

Commissioner Walker noted the following:

- Until the County can get in better shape, my view toward recreation is that the YMCA does a good job with a certain portion of it, but there are still recreational needs beyond what the YMCA is really set up to do and would like to see the County take over some of these duties at some point
- Don't necessarily mean to take anything away from the YMCA
- Would like to see an in-house director that could be the liaison between the YMCA and the County; director could look beyond what the YMCA is set up to do
- A director looks at a more total view toward recreation
- Very encouraged at some of things that I am hearing; attended a Recreation Advisory Meeting as the Board of Commissioners' Representative, and heard about some work that the YMCA is doing to get a better feel of what the recreational needs are in the County and how they can best allocate their resources to meet the needs of the County
- Appears the YMCA is trying to get a feel to where they can best use appropriations given by the County to provide recreational needs
- Very good folks and encouraged with the new director
- Understand the YMCA is considering broadening what is already available in the County

Commissioner Booth noted the following:

- Agree with Manager Morris, the only item needed is to add the wording that the contract continues if not renewed by July 1st of each year

Vice Chairman Inman noted the following:

- Agree with Commissioner Walker regarding the need to assess what are the recreational needs in the County
- One thing that I have already spoken to Derek Edwards about is a satellite center in Walnut Cove
- Have been approached by several people in the Walnut Cove area that do not have any access to what the YMCA is currently offering
- Very glad to hear that Pioneer Medical is opening a medical center in Walnut Cove
- Would like that initiative given to the YMCA to explore the possibilities of having a satellite center in Walnut Cove

Commissioner Walker commented:

- It is my understanding the YMCA may be looking at a satellite center in the Meadows area to serve the Forsyth Tech Campus and the Early College as well as this part of the county
- Feels there are some good options in the future with possibly some grant funding available

- Need to help create opportunities for the youth in Stokes County
- Always need to stay in touch with the people to see what is needed in the County

The Board discussed the need for a satellite center in Walnut Cove.

Chairman Lankford directed Manager Morris to include his recommendation in the Fiscal Year 2012-13 contract.

Chairman Lankford, with full consensus of the Board (Commissioner Jones absent), directed the Clerk to place the item on the July 23rd Action Agenda.

Designation of Voting Delegate – NCACC Annual Conference

County Manager Rick Morris submitted a request from the NCACC requesting Designation of Voting Delegate at the NCACC Annual Conference to be held in Wake County, NC on August 16-19, 2012.

Vice Chairman Inman noted that he served as voting delegate and would be glad to serve as for Stokes County again, but had no problem if some else wanted to serve as the voting delegate.

Commissioner Walker noted that he had been the voting delegate for many years and would like to see it be moved around to a different Commissioner each year.

Vice Chairman Inman reiterated that he had no issues with any of the Commissioners being the voting delegate, but the Commissioner must be there in the late afternoon on Saturday.

Commissioner Walker noted that if no one else was interested, would suggest Vice Chairman Inman serve as the voting delegate.

The Board had no issues with Vice Chairman Inman being the Voting Delegate.

Chairman Lankford, with full consensus of the Board (Commissioner Jones absent), directed the Clerk to place the item on the July 23rd Consent Agenda.

Health Department – External Posting – Nutritionist

County Manager Rick Morris presented a request from Health Director Scott Lenhart to post externally a vacant Nutritionist II position.

Manager Morris noted the following:

- There are no internal candidates currently employed by Stokes County that will meet the state requirements
- Position came vacant as a result of a resignation
- Department currently has contracted with a temp agency for a Nutritionist
- Department is losing revenue dollars while the permanent position is vacant
- Director Lenhart request to advertise externally as soon as possible

The Board had no issues with the request.

The Board unanimously agreed to move the item to today's Action Agenda.

Chairman Lankford, with full consensus of the Board (Commissioner Jones absent), directed the Clerk to place the item on today's Action Agenda.

Social Services – External Posting – Accounting Technician I

County Manager Rick Morris presented a request from DSS Director Kristy Preston to post externally a vacant Accounting Technician I position.

County Manager Morris noted the following:

- Position has been vacant since May 3, 2012
- Has been posted internally and have received no internal applications
- Duties have been covered by other members of the Administrative unit and their duties have fallen behind as a result
- Request to move to today's Action Agenda

The Board had no issues with the request.

The Board unanimously agreed to move the item to today's Action Agenda.

Chairman Lankford, with full consensus of the Board (Commissioner Jones absent), directed the Clerk to place the item on today's Action Agenda.

East Coast Pyrotechnics, Inc – Fireworks Display at the Vineyard

Manager Rick Morris presented the following information regarding a request from East Coast Pyrotechnics, Inc. to do a public display of fireworks on Friday, July 13, 2012 at 9:00 pm at the Vineyard:

- Did not receive a request from East Coast Pyrotechnics. Inc. until July 3, 2012 for the scheduled event on July 6, 2012
- Received an email from the Vineyard that they had been trying to get in touch with the county manager – had no voicemails and did not try to contact administrative staff
- This is the third year in a row that East Coast Pyrotechnics has failed to submit their request for approval by County in a timely manner
- Request has had to be placed on the agenda and approved the same day for the past two year (2010 and 2011)
- A letter was sent to East Coast Pyrotechnics last year explaining the time needed to process a request
- Request to move to today's Action Agenda in order to allow the fireworks display on July 13th

Chairman Lankford noted to include in the letter to East Coast Pyrotechnics a special note that this could not be approved next time if the request is not received in a timely manner which gives the Board time to place it on one Agenda and approved at the next Agenda.

Commissioner Booth referenced the following:

- General Statutes were amended to require the County's approval due to the fatalities in 2009 at a fireworks display

Commissioner Walker noted the following:

- See this a little different, feel this is something that needs to be handled by the Fire Marshal and not have to come to the Board of Commissioners
- Town of Walnut Cove and City of King have been approved by the County to issue permits within the town/city limits

Chairman Lankford confirmed with Manager Morris that the County would be informing East Coast Pyrotechnics and the Vineyard of the Board's procedure in considering and approving an Agenda request.

The Board unanimously agreed to move the item to today's Action Agenda

Chairman Lankford, with full consensus of the Board (Commissioner Jones absent), directed the Clerk to place the item on today's Action Agenda.

Appointments – Surry County Housing Consortium

County Manager Rick Morris presented the following information regarding a request from Mr. David Harris, Piedmont Triad Regional Council:

- Mr. Harris requested that two of the county's members who have not attended the meetings (one is unreachable and one has moved out of the county) be replaced
- Vice Chairman Inman and Mr. Budge Cage are the county's current members who attend meetings
- Term is for three years
- Request for nominations
- Appointments will be advertised in the local paper and placed on the county's website

There were no nominations at today's meeting.

Chairman Lankford, with full consensus of the Board (Commissioner Jones absent), directed the Clerk to place the item on the July 23rd Action Agenda.

Poplar Springs Elementary School Property – Encroachment Issues

County Manager Rick Morris presented the following additional information regarding the encroachment issues at the Poplar Springs Elementary School property which was presented at the June 25th meeting:

- Below are the answers from David Burge regarding unanswered questions at the June 25th meeting:
 - **Is there any flexibility in the Board of Education's (BOE) decision on the sale of land to individuals who are encroaching the Poplar Springs School property?** *Answer: Based on David's assessment of the situation, he does not recommend that the BOE change their decision on the sale of the two pieces of land. His reasoning is that one of the encroachments (Welch) currently interferes with the location of the new ball field and a security fence*

that must be constructed around the field to protect the children while they are in the area.

- **What is the plan for the encroachment area located in the woods that Donald Love would like to purchase?** **Answer:** *This area has been designated as a future expansion location for the playground area.*
- **Why was the encroachment issue not addressed at the time the land was sold?** **Answer:** *According to David, at the time of sale they were aware of the encroachments; however, at that time, the plan for how the land in the encroachment area would be used was not defined. Since they did not know at that time if the land would be needed for school use, they did not force the issue on moving the buildings that are encroaching. Now that they have current and future plans for both pieces of property, the BOE would like to resolve the issue by having the buildings moved.*
- Also spoke to Board of Education Chairperson Jamie Yontz who stated that the Board of Education felt very strongly that they did not want to sell any property to either property owner (Love or Welch)
- All structures can be moved easily:
 - Two structures are storage buildings
 - The other structure is a metal carport
 - None of the structures have foundations
- One storage unit must be moved immediately
- There are security issues; fencing is on order to be delivered and installed next week
- Tax Administrator Oakley confirmed the three structures can easily be moved

Director Burge noted the following:

- The two storage units are on skids and can be easily moved
- The car shelter is like a TNT carport and can also be easily moved
- Provided the Board with pictures showing the structures that are involved
- Structures have been there about five to six years
- Provided the Board with a layout of the school recreational areas that will be located near where the structures are currently located
- Request to move to today's Action Agenda

Chairman Lankford expressed concerns with the fact that this was not dealt with when the property was purchased.

Commissioner Walker noted that his concern was that this situation could have been a handshake between the previous property owners and not knowing it would eventually become school property.

Commissioner Walker questioned how this could have been missed during the sale of the property?

Director Burge responded that it was not determined until after the sale was completed and school administration received the final survey.

Vice Chairman Inman responded if there was a handshake agreement with the previous property owners, once the property is sold, the handshake agreement unfortunately goes away.

Vice Chairman Inman noted it is very unfortunate, but the reality is that when you knowingly place something on someone's property, you have to know that at some point you may have to move it.

Director Burge noted that one of the structures needs to be moved immediately in order for security fencing to be installed which is scheduled for next week, while the others could possibly be worked around.

Vice Chairman Inman noted that the 60 acres of land that was purchased by the School System is for two schools – 30 acres on one side of the road for the new Poplar Springs Elementary School and 30 acres on the other side of the road for another school in the future.

Commissioner Booth noted it was very fortunate that the structures can be moved very easily even though he would like to see a win/win situation.

Vice Chairman Inman reiterated that even if everyone was in agreement to sell the property, I would not be willing to sell for less than what was given for the property.

The Board discussed the structures and their location with Director Burge.

Manager Morris noted that the landowners stated that they knew the buildings were on the school's property.

Commissioner Booth stated that he doesn't understand why this was not discovered and discussed before the final sale of the property.

Vice Chairman Inman noted that the land was in a Trust administered by Attorney Ty

Browder.

Commissioner Walker questioned if there was enough room on the landowners' properties to move the structures?

Director Burge responded that he felt there was enough land for the landowners to relocate the structures.

Director Burge noted, speaking for himself, it could possibly work placing the fence closer to the structures and possibly not having to move all the structures, but the landowners would have to understand who owns the property.

Chairman Lankford noted the issue needed to be resolved.

Commissioner Walker responded to Chairman's Lankford comments:

- See it a different way
- Always look for the win/win situation along with trying to work with people
- Don't like for government to appear heavy handed and you will do this
- Look for some way to work things out and to let the citizens know that the Board has tried to work something out
- I put myself in the citizens' place and try to look at it from the citizen's point of view
- If I were these people, I would want the School System to try to work with me
- Concerned there is not enough land for the structures to be moved and still remain on the property owners' land
- Always try to help citizens if possible
- We ask our departments to be citizen friendly, "What are we?"

Vice Chairman Inman stated that he felt the County was not trying to be heavy handed; taking someone's property by eminent domain is heavy handed government.

Commissioner Walker noted:

- Jerking people around is heavy handed too
- If you can work with someone and don't, you have missed an opportunity, life is too short to miss those opportunities
- Expressed appreciate to Director Burge and his willingness to work with the citizens

The Board discussed moving the item to today's Action Agenda.

The Board unanimously agreed to move the item to today's Action Agenda

Chairman Lankford, with full consensus of the Board (Commissioner Jones absent), directed

the Clerk to place the item on today's Action Agenda.

Pioneer Community Hospital of Stokes – Application for Certificate of Need - Inpatient Geriatric Psych Unit

County Manager Rick Morris presented the following letter from Pioneer Community Hospital of Stokes for the Board's consideration:

Mr. Craig Smith, Chief
Certificate of Need Section
Division of Health Service Regulation
2704 Mail Service Center
Raleigh, NC 27699-2704

Dear Mr. Smith and Division Staff,

This letter is written in support of Pioneer Community Hospital of Stokes in Danbury, North Carolina, in that facility's application for a Certificate of Need to open an 8-bed, inpatient geriatric psych unit.

We believe that Pioneer Community Hospital of Stokes geriatric psych unit would alleviate existing constraints to meeting current mental health needs of a vulnerable population in the area surrounding Danbury, North Carolina. It would also provide necessary infrastructure and expertise in order to respond to future demographic concerns of the area.

This undertaking would bring specialized services to our local community. The nearest facility offering similar mental health services for the elder population is more than an hour's drive from our hospital which is a significant, even burdensome distance to travel and be away from supportive friends and family. This geriatric unit would broaden access not only for the residents of Stokes County but also for our surrounding counties.

While the Stokes County Commissioners have not participated in the clinical development of this proposed unit, we have been included in informational discussions regarding the need for such a program locally. We will continue to follow the progress of the program with great interest. In light of the potential that this unit has to benefit the local and surrounding communities of Danbury and Stokes County, we fully support Pioneer Community Hospital of Stokes in this endeavor.

Sincerely,

Ernest Lankford
Chairman
Stokes County Commissioners

Manager Morris noted the following:

July 9, 2012

[40]

- Assistant Administrator Pam Tillman requested the Board approve for the Chairman to execute the letter in support for the hospital's application for a Certificate of Need to open an eight bed inpatient geriatric psych unit
- Could possibly benefit patients other than geriatric
- Letter needs to be in Raleigh by July 15th
- Request to move to today's Action Agenda due to July 15th deadline

The Board had no issues with the letter of support.

The Board unanimously agreed to move the item to today's Action Agenda.

Chairman Lankford, with full consensus of the Board (Commissioner Jones absent), directed the Clerk to place the item on today's Action Agenda.

Chief May and Steven Roberson both acknowledged that they agree with Manager Morris' recommendation.

Commissioner Walker noted the following concerns:

- When we have long standing organizations, such as the Vineyard with a good safety record, wish the law makers in Raleigh would consider changing the statute to give

the Board of Commissioners discretion to allow the Fire Marshal to approve fireworks display

- This might be something for them to consider for the future
- Would like to get word to our representatives

Poplar Springs Elementary School Property – Encroachment Issues

Chairman Lankford entertained a motion regarding the encroachment issues at the Poplar Springs Elementary School Property.

Vice Chairman Inman moved to approve the recommendation of the Board of Education to not sell any of the property. Chairman Lankford seconded the motion.

Commissioner Walker noted the following:

- I know in a situation like this there has to be some remedy or resolution, I don't dispute or debate that in any way
- I do like Director Burge's approach to try to work with the citizens and will never deviate from that
- If you ever hear of a situation where county government or any level of government can accomplish its purpose and at the same time be as friendly and accommodating to a citizen and see things from their side, that is the position that I am always going to take
- I can't really support what we are doing here because we seem to be taking the hard line approach, you will get these buildings off the property even though Director Burge has pointed out a way that maybe the citizens' needs can be accommodated for well into the future and not having to take such hard line steps that we are taking
- Certainly see where the school board is coming from and have no problem looking at things the particular way they seemed to be looking at it
- But when we can bring some reason or common sense into government at any level and say okay we have got to do this, you need to understand the issues, but will try to work with you, that is the position I am going to take on this issue as well as any issues we have in the future

Commissioner Booth noted the following:

- Because the structures can easily be moved, it has changed my position somewhat
- I really didn't realize the need until I went by the Tax Office and listened to Director Burge explaining it today
- If you put a fence 10 ft from the property line, you still have to have 20 ft and don't see that could work in this situation
- I always like for it to come out with a win/win situation, but not sure this one could

- If they were permanent structures, that could possibly have changed my decision

Vice Chairman Inman noted the following:

- If Director Burge's suggestion would fix this issue permanently, I would definitely be on line
- I think his suggestion would only delay the issue that could and possibly would come back at a later time
- Don't think the County is being heavy handed on anyone
- If the property owner and the school system had discovered the line was where they didn't think it was and the landowner actually thought they were placing the structures on their own property, then discovered the issue, my thoughts might be a little different
- Information I received stated that the property owners knew it was on someone's property

The motion carried (3-1) with Commissioner Walker voting against the motion and

Commissioner Jones absent.
