

EVENT ADVISORY

City of Temple to host Secure Document Shred Event

The event will be held on April 20 at 9 a.m.

TEMPLE, TX (April 12, 2024) – The City of Temple will be hosting a Secure Document Shred Event on Saturday, April 20. Residents can bring up to five bankers boxes of documents to be shredded free of charge.

WHAT: Secure Document Shred Event

WHEN: Saturday, April 20, from 9 a.m. to 11 a.m.

WHERE: Holy Trinity Catholic High School, located at 6608 W Adams Ave, Temple, TX 76502

The City invites residents who have secure documents that are in need of disposal to participate in the shred event happening on April 20. Residents can bring up to five bankers boxes of documents that contain information such as personal identification numbers, financial records, and other confidential data to be shredded.

Secure document shredding ensures that sensitive information is disposed of properly and destroyed beyond recognition. This can help prevent criminals from stealing identities and misusing personal information.

Shredding documents not only has personal benefits, but also has positive environmental impacts as well. Recycling paper promotes sustainability by reducing waste and minimizing the need for new paper production. New products can also be manufactured from recycled materials, such as old paper documents, which lessens dependence on limited natural resources.

For more information about recycling services, please visit templetx.gov/recycle.
