

## **Appendix 1: Expenditure Categories**

Treasury's final rule provides greater flexibility and simplicity for recipients to fight the pandemic and support families and businesses struggling with its impacts, maintain vital services amid revenue shortfalls, and build a strong, resilient, and equitable recovery. As such, recipients will report on a broader set of eligible uses and associated Expenditure Categories ("EC"), starting with the April 2022 Project and Expenditure Report. The table below includes the new Expenditure Categories, as well as a reference to previous Expenditure Categories used for reporting under the interim final rule.

The Expenditure Categories (EC) listed below must be used to categorize each project as noted in Part 2 above. The term "Expenditure Category" refers to the detailed level (e.g., 1.1 COVID-19 Vaccination). When referred to as a category (e.g., EC 1) it includes all Expenditure Categories within that level.

\*Denotes areas where recipients must identify the amount of the total funds that are allocated to evidence-based interventions (see Use of Evidence section above for details)

^Denotes areas where recipients must report on whether projects are primarily serving disproportionately impacted communities (see Project Demographic Distribution section above for details)
