

**Charter Township of Van Buren**  
**Recreation Committee Meeting**  
**Tuesday, February 9, 2021 at 5:30 p.m.**  
**Agenda**  
**Remote Meeting via Zoom**

To mitigate the spread of COVID-19, protect the public health, and provide essential protections to Van Buren Township residents; Van Buren Township's regularly scheduled Recreation Committee's meeting on February 9<sup>th</sup>, 2021 will be conducted remotely in compliance with the State of Michigan Governor's Executive Orders regarding remote public meetings until further notice.

**For this agenda:**

- **Join by weblink:** <https://zoom.us/j/97932692473>
- **Or dial in by phone:** +1 312 626 6799 or +1 929 436 2866 or +1 301 715 8592
- **Webinar ID:** 979 3269 2473

For instructions on [how to join a Zoom meeting, make a public comment, ADA information, and virtual meeting compliance from the State please click here.](#)

**Call to Order:**

**Roll Call:**

_____ Daniel Belanger, Chair	_____ Charles Coleman, Co-Chair
_____ Clerk Leon Wright	_____ Kimberly Nofz
_____ Denise Willoughby	_____ Todd O'Neill
_____ Tammy Wall	_____ Student Rep.
_____ Director Jennifer Wright	_____ Deputy Director Jennifer Zaenglein
_____ Director Matthew Best	_____ Recording Secretary Dohring
	_____ Executive Asst. Elizabeth Renaud

**Approval of Agenda:**

**Approval of Minutes:** February 11, 2020 \_\_\_\_\_ Approved \_\_\_\_\_ Corrected

**Old Business:**

**New Business:**

1. Election of Officers
2. Proposed Update to 2021 Meeting Schedule
3. Discussion on proposed Van Buren Township Community Center
  - Introduction & Presentation from Staff
  - Review of Public Comments
  - Committee Member Discussion
  - Public Comment Period

## **General Discussion:**

1. Recreation Updates
  - Outdoor Pickleball Leagues
  - RecDesk
2. Park Updates
  - Riggs Park Benches
  - French Landing Park Improvements
  - Park Signage

## **Adjournment:**

**\*\*If you are unable to attend this meeting, please contact Tammy Dohring at (734) 699-8913 prior to 12:00 noon, Monday, February 8, 2021\*\***

**Charter Township of Van Buren  
Recreation Committee Meeting Minutes  
February 11, 2020**

**CALL TO ORDER:** The meeting was called to order at 5:32 p.m. by Charles Coleman.

**Members Present:** Denise Willoughby, Charles Coleman, Tammy Wall, and Kimberly Nofz, Student Rep Stuckey, Student Rep Plummer

**Excused:** Todd O'Neill and Daniel Belanger

**Unexcused:** Clerk Wright

**Staff Present:** Director Wright, Deputy Director Zaenglein, Director Best, and Secretary Dohring.

**Audience:** 2

**APPROVAL OF AGENDA:**

Motion Willoughby, Wall seconded to approve the agenda moving General Discussion item: Discussion on Riggs Park to item #1 New Business. ***Motion Carried.***

**APPROVAL OF MINUTES:**

Motion Wall, Willoughby seconded to approve the minutes from December 10, 2019 as presented. ***Motion Carried.***

**OLD BUSINESS:**

**NEW BUSINESS:**

1. Guests Kathleen Walsh & Phil Walsh presented their idea for a 30 ft circular planting of shrubs and flowers to improve the woodcock habitat and attract more pollinators. The Walshes would be able to purchase the plants at wholesale, which would be a significant saving to the Township. If approved, the Walshes would also require volunteers to help with the prepping of the area and the original planting. The shrubs, etc they are suggesting will require little maintenance once planted.
2. Election of Officers: Motion Willoughby, Coleman seconded to nominate Belanger for Chairperson and O'Neill for Co-chairperson. ***Motion Carried.***
3. Recommendation to hire PEA Inc. for professional services for the Huron River Dr. Iron Belle Trail (Edgemont to Martinsville Rd):
4. Recommendation to hire PEA Inc. for professional services for the Huron River Dr. Iron Belle Trail (East end of the Township): Director Wright presented both potential agreements to hire PEA Inc, for professional services for the two sections of Iron Belle trail along Huron River Drive. These services, would also include coordinating and securing necessary permits from Wayne County and the railroad, the services would be paid for by grants received from the DNR. Motion Willoughby, Wall seconded to submit PEA, Inc. agreements to township board for approval. ***Motion Carried.***
5. Discussion on Memorial Bench Program: Deputy Director Zaenglein presented print outs of the proposed commemorative benches that would be available for purchase in Quirk Park. It was discussed whether to secure the benches in the ground or place on cement pad, which would impact pricing.

Parks and Recreation would determine exact location for each bench and control installation time frame.

Pamphlets could be created for people interested in participating in the program. Motion Willoughby, Seconded Wall to create pamphlet and present to Township Board for approval of Commemorative Bench Program. ***Motion Carried.***

### **General Discussion:**

1. Recreation Updates:

Director Wright mentioned the upcoming Daddy/Daughter Dance will be held this upcoming weekend Feb 14, & 15, 2020-Saturday is already sold out with about 200 participants, and there are a few spaces left for Friday. The theme is Galaxy Gala. The new issue of Van Buren Today will be out approximately next week. April 4<sup>th</sup> will be the Hoppin' Hulabaloo, with the Easter Bunny and Fire Dept. They are still looking for volunteers for this event. Director Wright and Deputy Director Zaenglein will be meeting with the YMCA to discuss adding onto the recreation building and a potential partnership with an afterschool program for teens.

2. Park Updates:

Deputy Director Zaenglein discussed the new Earth Day Program to be held on April 18<sup>th</sup> 10:00am until noon. The president of SEMBA (South Eastern Michigan Beekeepers Association) will be the guest speaker. The crafts will include making a solitary bee home, beeswax candles, and Save the Bee bracelets. She also mentioned three bands have been confirmed for the Summer Concert in the Park Series which will be held at Quirk Park this year. The bands are: Your Generation, Motor City Soul, and Alan Turner. Wayne County Community College has expressed interest in a potential partnership for these events, Director Wright and Deputy Director Zaenglein will be meeting with the college to next week to discuss. Deputy Director Zaenglein stated they are looking to hire summer staffing, positions to fill are gatehouse attendants, park maintenance, as well as camp staff.

**Adjournment:** Motion Coleman, Willoughby second to adjourn the meeting at 6:46 p.m.  
***Motion Carried.***

Respectfully Submitted,

Tammy Dohring  
Recording Secretary

# Community Center Feasibility Study

Van Buren Charter Township 7-1-2020

**RUSSELL DESIGN**  
LANDSCAPE ARCHITECTURE  
Design ■ Planning

**EPIC ■ MRA**  
Measuring public opinion since 1985

July 1, 2020

Mr. Matthew Best  
Director of Public Services  
Van Buren Charter Township  
46425 Tyler Road  
Van Buren Township, Michigan 48111

Dear Mr. Best,

The following pages contain a Community Center Feasibility Study Report (the Study) for Van Buren Charter Township (VBCT or the Township) produced by Plante Moran Cresa, Neumann/Smith Architects, RUSSELL Design, EPIC MRA and Van Buren Charter Township (the Team). The Study was based upon community demographic information, existing building and site conditions, interviews with key Township personnel and community stakeholders, and a community-wide telephone survey. The Study includes local area recreation center information, operational costs, and potential revenue and expenses associated with operating a proposed Community/Recreation Center. Current program needs and wants were also documented and recommendations are provided within our report. The intent is for the report to serve as a road map for the Township to formulate future decisions related to constructing and operating a Community/Recreation Center to serve its residents.

Please feel free to contact me with any questions or clarifications regarding our feasibility study report content and summaries. On behalf of our Team, it was a pleasure being part of this engagement for VBCT.

Sincerely,

PLANTE MORAN CRESA

Robert Stempien, AIA  
Senior Vice President

## Executive Summary

# Executive Summary

---

## Overview

- Plante Moran Cresa, Neumann/Smith Architects, RUSSELL Design, and EPIC MRA (the Team) performed this Community Center feasibility study (the Study) at the request of the Van Buren Charter Township (VBCT or the Township). This Study was approved to proceed in September 2019 by the Township Board of Trustees and represents a commitment to improving the quality of life in the VBCT community.
- During the planning process, the community identified a desire for indoor recreation facilities that would provide year-round expanded programming for multi-generational community members. The Team was engaged to assist the Board of Trustees and the VBCT Administration in determining the need and long-term financial viability for an expanded Community Center to serve its residents.

**Date(s) of Assessment:** October 2019 – March 2020

**Feasibility Study Team Members:** Robert Stempien – Plante Moran Cresa, Bert Koseck – Neumann/Smith Architects, Marc RUSSELL – RUSSELL Design, Bernie Porn – EPIC MRA

**VBCT Team:** Matthew Best – Director of Public Services, Elizabeth Renaud – Executive Assistant Department of Public Services

## Acknowledgements

For their assistance and cooperation, we wish to acknowledge the VBCT Board of Trustees, the Senior Center, Parks and Recreation, the Public Services Department, Van Buren Township Department of Public Safety, and all additional user groups who provided information for the preparation of this feasibility report.

## Report Content

Contained in this report you will find the following:

- Demographic analysis of primary and secondary capture areas
- Local recreation center information
- Community telephone survey results
- Workshop engagement results
- Programming and planning to support telephone survey report findings
- Potential building and site development concepts
- Financial feasibility assessment

### Recommendations & Considerations

The Township has a unique opportunity to expand its current Community Center offerings. The recommendations provided are based on numerous community stakeholder interviews and telephone survey question results, crafted from VBCT Administration's input and administered by EPIC MRA. The recommended expansion and renovation plan for the existing Community Center should be based on these results, surrounding market influences, capital costs, long term operational costs and community support. These considerations will likely increase the successful outcome of a design solution, construction, and operation of a dynamic multi-generational Community Recreation Center that will serve the community for years to come.

The following are the recommendations and considerations for this project:

#### **Building Location**

Based on a majority of the community survey responses and the financial feasibility analysis, the existing VBCT site on Tyler Road would be the desired Community Center location. Site improvements should include additional parking to support the building expansion, site circulation improvements, and separation from the public safety and staff parking area at the south end of the site.

#### **Building Design**

The conceptual plan shown in this feasibility report serves a number of purposes. First, it was necessary to understand the size of the programmed facility and how it would fit on the VBCT campus. In order to understand the relationship of the internal functions to the site, these spaces needed to be designed to a certain level of conceptual detail. In addition, factors such as entry points from parking areas, site orientation, topography, existing building structure/configuration, and context influenced the way the design was organized. Finally, in order to develop a reasonably accurate budget analysis, more plans and documents need to be developed to a certain level of detail to allow for more refined budget estimates.

#### **Building Program**

Based on the telephone survey results, the residents of VBCT rated their desire for certain Community Center program components. As a result of this feedback, the following recreational items received favorable responses:

- Multipurpose Gymnasium for Basketball/Volleyball/Pickle Ball
- Indoor Walking/Jogging Track
- Fitness Area
- Community Meeting and Multi-Purpose Rooms
- Child Watch
- Concession Area

## Recommendations & Considerations (continued)

### **Cost-Neutral Community Center Operation**

Several surrounding Community Recreation Centers were visited and documented. The purpose of this analysis is to give VBCT a better understanding of the types of community centers that exist, fees charged for their amenities offered, and hours of operation. The types of components chosen for the proposed center must generate enough revenue to provide for the long-term operations of both personnel and capital expenditures. These funds can be supplemented with potential user fees, tax revenue, or grants. It is necessary to have an understanding of what this balance or ratio will need to be and where supplemental funding may be accessed.

For this comparison, other public and private recreation agencies were contacted to provide specific information that might be similar to the community's vision and potential programs. The centers identified in this report include Summit on the Park Recreation Center in Canton, Romulus Recreation Center (RAC) in Romulus, and High Velocity Sports in Canton.

Utilizing community input, anticipated revenues for construction and operations, subsidy, and cost recovery goals, the anticipated Community Recreation Center long-term plan should consider a modest user fee to support operations.

### **Project Cost**

The renovation and addition to the existing VBCT Community Center building is budgeted to be approximately \$7,300,000 based on a conceptual square foot estimate. Adjustments should be made based on drawing/document refinement and additional due diligence, such as exploring existing soil conditions; mechanical, electrical, and plumbing system integration; detailed structural system analysis; and construction timeline. The budget is predicated on 2020 dollars and should be escalated 3-4% per year to account for inflation.

## Section 2

### Demographic Information

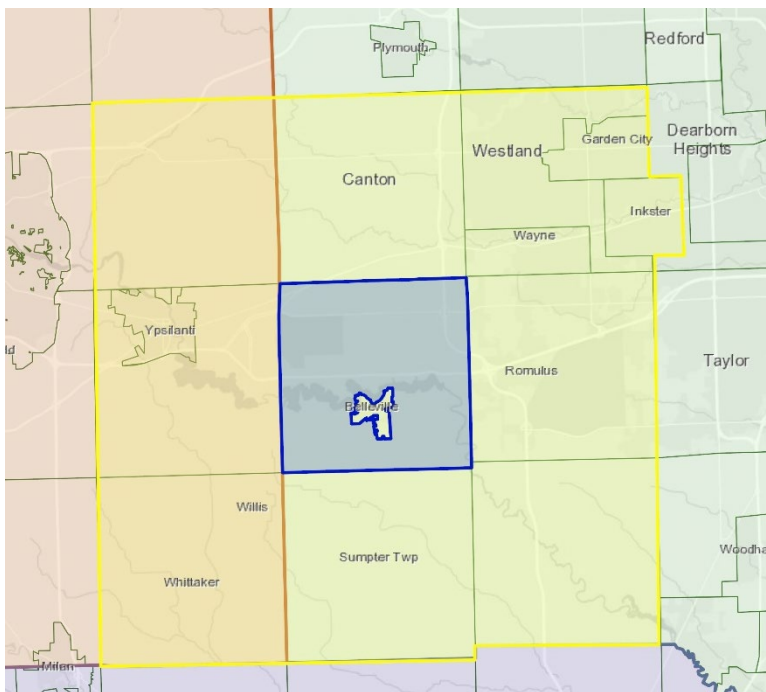

## SECTION 2

# Demographic Information

## Population Capture Area

The demographic data for the Study was based on primary and secondary capture areas. VBCT is considered the primary capture area, and the secondary capture area consists of the surrounding adjacent communities of City of Belleville, Canton Charter Township, City of Romulus, Huron Township, Sumpter Township, Augusta Township, Ypsilanti Township, City of Westland, City of Garden City, City of Wayne, City of Inkster, and Superior Charter Township.

### Community Boundaries:

-  Van Buren Charter Township
-  Surrounding Communities

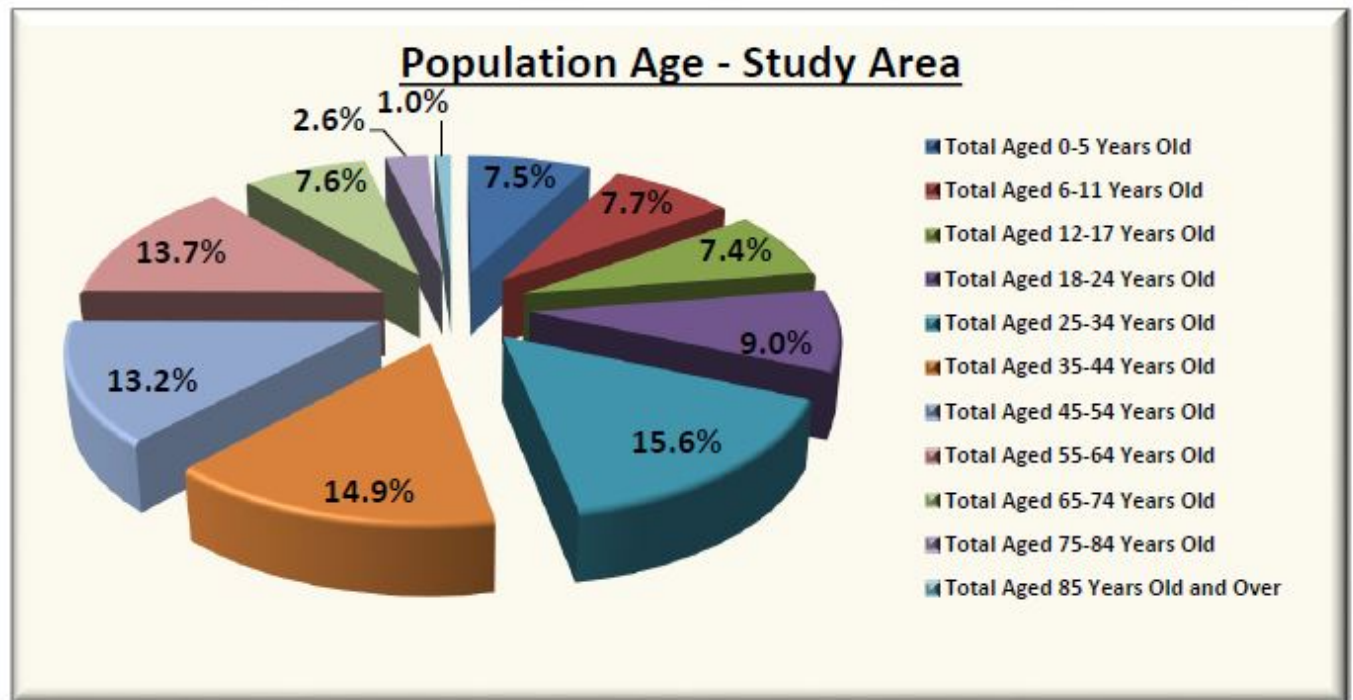

### Population - Van Buren Charter Twp. & Surrounding Communities

Community	2010	2019	2024	Annual Rate (2019 to 2024)
Van Buren Charter Township	28,821	29,649	29,660	0.01%
City of Belleville	3,991	4,128	4,131	0.01%
Canton Charter Township	90,173	93,623	93,879	0.05%
City of Romulus	23,989	24,798	24,827	0.02%
Huron Township	15,879	17,556	17,849	0.33%
Sumpter Township	9,549	9,206	9,072	-0.29%
Augusta Township	6,745	7,129	7,329	0.55%
Ypsilanti Township (including the City of Ypsilanti)	72,797	76,057	77,732	0.44%
Westland / Garden City / Wayne / Inkster	154,748	155,156	154,270	-0.11%
Superior Charter Township	13,058	14,079	14,605	0.74%

### Population Trends

Trends in the number of people residing in a community are an important indicator for planning a community center. Growing communities will require different recreational needs than communities with stable or declining populations. Based on a demographic profile specific to VBCT (excluding the City of Bellville), the population growth rate is expected to be stable with minimal growth over the next several years. This trend is also prevalent in surrounding communities and the State of Michigan.

As the VBCT population matures, so does its senior population. Most of the Township's growth will be over the age of 55. Based on the demographic information provided in Appendix 2, there is a notable 21% increase in the age group between 65 to 70 years over the next five years. There is a stable to slight decrease in population from birth to 54 years old, with a mild population increase of 6% for the population category between 25 to 34 years old over the next five years. Currently, the average age of a resident is 37 years.

### Housing Trends

In 2019, there were a total 7,118 families housed in 11,598 households located within Township (excluding the City of Belleville). A modest 3% growth rate is estimated over the next five years. Approximately 37% of all households are rental units. The average household size is 2.36, which should remain stable for the next several years. The median age of a household owner is 47.5 years, which is slightly lower than the State of Michigan average of 53 years.

## Sports and Leisure Market Potential

In addition to analyzing the demographic realities of the Township area, it is possible to project potential participation in recreation and sports activities.

**Participation Numbers:** On an annual basis, Esri demographics collects recreational participation data and provides a quantitative in-depth study and survey of how Americans spend their leisure time. This information provides the data necessary to overlay rate of participation onto the primary capture area to determine market potential.

The national average is combined with participation percentages of the primary capture area based upon age distribution, median income, region, and national number. Those four rates are then averaged together to create a unique participation rate for the capture area. This participation percentage, when applied to the population of the primary capture area, provides an idea of the market potential.

**Summary of Sports Participation:** The following chart summarizes participation in both indoor and outdoor activities utilizing information from the Esri survey data (see Appendix 2). The summary outlines the top 10 sports and leisure activities within the Township.

Top 10 Activities		Market Potential Index	Primary Capture Area Van Buren Twp.		Secondary Capture Area (Surrounding Communities)		Michigan	
	Activity	MPI	Expected Number of Adults	Percent	Expected Number of Adults	Percent	Expected Number of Adults	Percent
1	Walking	97	5,564	24.0%	71,930	23.3%	1,918,621	24.1%
2	Swimming	98	3,693	15.9%	49,970	16.2%	1,304,316	16.4%
3	Jogging/Running	93	2,769	11.9%	37,228	12.1%	904,383	11.3%
4	Weight Lifting	98	2,365	10.2%	30,466	9.9%	765,938	9.6%
5	Basketball	100	1,854	8.0%	25,682	8.3%	608,701	7.6%
6	Aerobics	95	1,690	7.3%	21,683	7.0%	556,314	7.0%
7	Yoga	86	1,620	7.0%	20,894	6.8%	525,137	6.6%
8	Ping Pong	88	799	3.4%	11,931	3.9%	288,343	3.6%
9	Volleyball	98	790	3.4%	11,490	3.7%	274,801	3.4%
10	Zumba	93	705	3.0%	8,775	2.8%	212,062	2.7%
	Total Population 18+		23,223		308,406		7,969,472	

**Expected No. of Adults:** Number of adults, 18 years of age and older, participating in the activity in the primary capture area.

**Percent of Population:** Percent of the service area that participates in the activity.

**MPI:** Market Potential Index as compared to the national number of 100.

## Section 3

### Local Recreation Centers

### Summit on the Park Recreation Center, Canton

#### Recreation Center Information

- **Location:** 46000 Summit Parkway  
Canton Township, Michigan 48188
- **Opened:** 1996 (10,000 SF fitness area and locker room addition in 2000)
- **Size:** 95,200 SF facility
- Located 5.1 miles from Township Hall

#### Features

##### Gymnasium

- 7,600 SF maple floor gym
- 2 electronic scoreboards
- 6 glass backboards
- A curtain that divides the gym into two areas
- Sound system
- Skylights for indirect lighting
- Volleyball inserts
- Pickle ball courts
- 3 lane elevated track (16 laps = 1 mile)

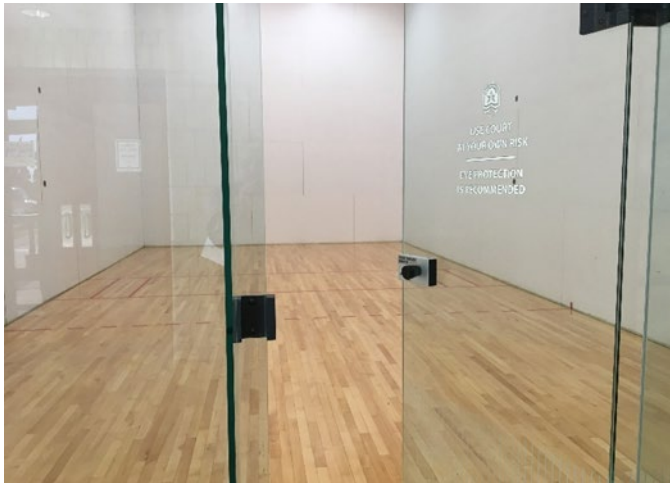

##### Aquatics

- 5-lane, 25-yard lap pool (lanes range from 3 feet to 5 feet in depth)
- Lazy river and water slide
- Sauna room
- Steam room
- Spa
- Zero-depth leisure pool with play features such as a 30-inch water slide

## Summit on the Park Recreation Center, Canton (continued)

### Racquetball Court

- Fee for hourly rental

### Fitness Center

6,000 SF

- 30 pieces of cardiovascular equipment
- Locker rooms

### Meeting Rooms (5)

- Fee-based room rental
- 850 SF room, 30 occupants
- 800 SF room, 40 occupants
- 2,800 SF room, 105 occupants, includes kitchen
- Walnut room (size unknown)
- Chestnut room (size unknown)

### After School Program

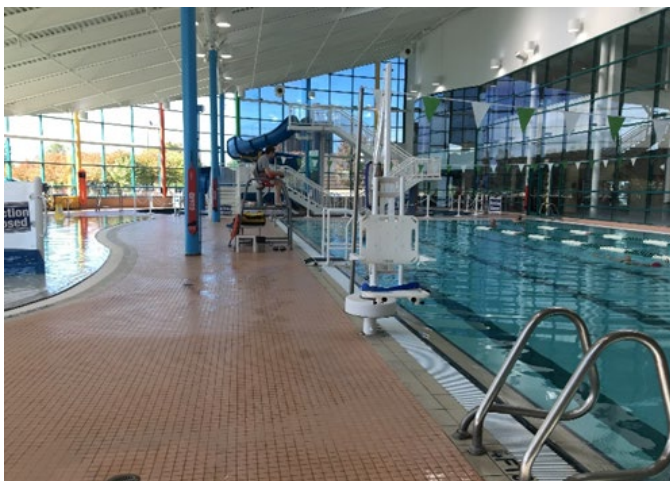

- Fee-based service

### Child Watch

- Children ages 3 months to 11 years
- Fee-based service

### Programs

- Bare
- Cardio cycling
- Senior fitness program
- Youth Programs
- Arts, Music, Dance
- Farmers Market

### Banquet & Conference Center

- Accommodates 250 guests seated
- Accommodates 300 guests for strolling food/drink

## Romulus Athletic Center (R.A.C.), Romulus

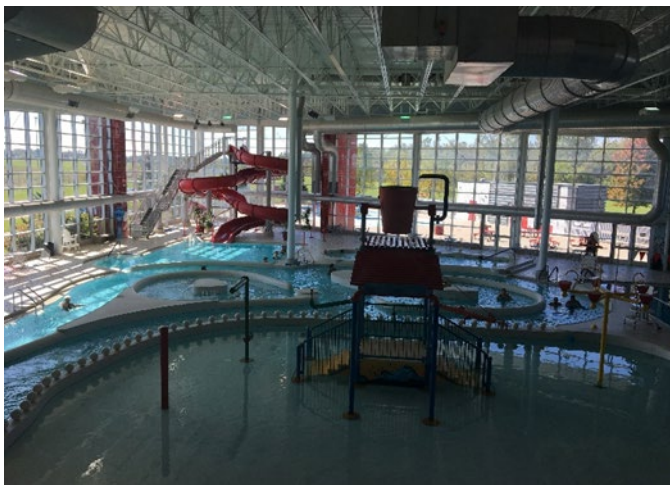

### Recreation Center Information

- **Location:** 35765 Northline Road, Romulus, Michigan 48174
- **Opened:** April 2008
- **Size:** 89,000 SF
- Located 6.9 miles from Township Hall

### Features

#### Aquatics

- 5 pool complex
- Splash pool
- Lazy river
- Lap pool – 25 yard with 10 foot deep end
- Outdoor splash pool
- Hot Tub/Spa

#### Gymnasium

- 14,000 SF gymnasium
- 4 tournament-sized courts with 2 high-school-regulation-sized basketball courts
- Running track
- Basketball
- Volleyball
- Dodgeball
- Pickle ball
- Hours: 5:00 a.m. – 4:00 p.m. Monday – Saturday  
open gym, 7:00 a.m. – 4:00 p.m. Sunday, 4:00 p.m. – 10:00 p.m. daily (members only)

## Romulus Athletic Center (R.A.C.) - Romulus

### Child Watch

- Ages 2 to 12 years of age
- 2-hour limit
- First come, first serve
- \$2 per child for member or \$5 per child per visit

### Climbing Wall

- 23 feet high by 20 feet wide
- 3 belaying stations
- Hours: 4:00 p.m. – 8:00 p.m. Monday – Friday,  
12:00 p.m. – 8:00 p.m. Saturday – Sunday 12:00 p.m. – 8:00 p.m.

### Room Rentals

- The Cirrus Banquet Room – Seating capacity for 192 guests
- Full commercial kitchen

### Lobby Café

### Birthday Party Packages

- Members \$175
- Non-Members \$225

## High Velocity Sports, Canton

### Recreation Center Information

- **Location:** 46245 Michigan Ave., Canton, Michigan 48188
- **Opened:** December 2001
- **Size:** 110,000 SF, plus 70,000 SF dome
- Located 4.0 miles from Township Hall

### Features

#### Gymnasium

- 2.5 courts
- Hardwood flooring
- Curtain dividers
- Electronic score boards
- Basketball
- Volleyball
- Dodgeball

#### Field House

- Soccer
- Flag football
- Lacrosse
- Fowling
- Inflatable “fun zone”
- Arcade
- Concessions
- Locker rooms

#### Inflatable Dome

- Arena sports

## Operational Hours

Recreation and community center hours usually vary with the season (longer hours in the winter, shorter hours during the summer), by programming needs, use patterns, and special events.

The existing VBCT Senior Center is opened for community use 80.5 hours per week. Summit on the Park is opened 24 more hours per week, and the Romulus Athletic Center is opened 36.5 hours more per week (see comparison chart below). These facilities open to the public earlier and usually close at 10:00 p.m.

Hours of Operation Comparison		
Van Buren Charter Township Senior Center		
	Hours Opened	Hours
Monday	7:30 am - 9:00 pm	13.5
Tuesday	7:30 am - 9:00 pm	13.5
Wednesday	7:30 am - 9:00 pm	13.5
Thursday	7:30 am - 9:00 pm	13.5
Friday	7:30 am - 6:30 pm	11.5
Saturday	9:00 am - 3:00 pm	6
Sunday	9:00 am - 6:00 pm	9
Total Hours		80.5
Summit on the Park		
	Hours Opened	Hours
Monday	5:30 am - 10:00 pm	16.5
Tuesday	5:30 am - 10:00 pm	16.5
Wednesday	5:30 am - 10:00 pm	16.5
Thursday	5:30 am - 10:00 pm	16.5
Friday	5:30 am - 10:00 pm	9.5
Saturday	6:00 am - 10:00 pm	16
Sunday	7:00 am - 8:00 pm	13
Total Hours		104.5
Romulus Athletic Center		
	Hours Opened	Hours
Monday	5:00 am - 10:00 pm	17
Tuesday	5:00 am - 10:00 pm	17
Wednesday	5:00 am - 10:00 pm	17
Thursday	5:00 am - 10:00 pm	17
Friday	5:00 am - 10:00 pm	17
Saturday	5:00 am - 10:00 pm	17
Sunday	7:00 am - 10:00 pm	15
Total Hours		117

The VBCT Senior Center is closed during the following holidays:

- New Year's Day
- Easter Sunday
- Thanksgiving Day
- Christmas Eve Day
- Christmas Day
- New Year's Eve Day

## Membership Fees

Membership fees for Romulus Athletic Center and the Summit on the Park are provided below. Both of these facilities offer a diverse range of amenities such as climbing walls, dance studios, cafes, recreation pools, therapy pools, racquet ball, child watch, and a DMC-sponsored physical therapy clinic. Most area recreation centers, both private and public, have a pool facility as part of their membership offerings. High Velocity Sports is a program-based facility with team rentals for use of their indoor fields and courts. In addition to membership fees, other revenue generating spaces are provided for fitness programs, birthday parties, and child watch.

**Romulus Athletic Center Membership Fees**

Resident	Resident "Plus"	Non Resident	Non Resident "Plus"	Near Non-Resident	Near Non-Resident "Plus"
\$281	\$431	\$406	\$556	\$343	\$493

**High Velocity Sports Membership Fees**

Membership Type	Resident	Non Resident
Hourly or Team Rates	N/A	N/A
Day Watch	N/A	N/A

## Child Watch Services

Child watch services are provided at the Summit on the Park and Romulus Athletic Center during limited hours each week. This service requires parents to be present inside the recreation center at all times when their children are in the child watch room. Part-time employees are typically provided for staffing this service for patrons. It is recommended that child watch employees hold American Red Cross First Aid and CPR/AED certifications and have passed background checks. Child watch is typically limited to a 2-hour duration due to State of Michigan requirements necessary for extended day care hours for a child.

Child Watch Services - Summit on the Park					
Kid's Corner	Monday - Thursday	Friday	Saturday	Sunday	Total Hours/Week
	8:45am-1:30pm 4:45pm-8:00pm	8:45am-1:30pm	8:45am-12:30pm	8:45am-12:30pm

## Room Rentals

Room rentals are available to host birthday parties, baby showers, graduation parties, company functions or any gathering or meeting. Renters have the ability to bring in their own food or have the venue provide food service as part of their room rental options.

Room Rental - Summit on the Park					
Room Name	Room Size	Capacity	Resident Rate/hr	Non-Resident Rate/hr	Notes
Arts 1 Room	850	30	\$57	\$72	
Arts II Room	800	45	\$57	\$72	
Maple/Oak Room	2,800	100	\$92	\$107	Includes kitchen
Banquet Center	5,300	250			
Birthday party packages range from \$175-\$240 for 1 to 2 hours plus additional \$15/child, \$8/adult over 10 children, and 2 adults					
Packages may include cake, pizza, juice, goodie bags, and room attendant					
Room Rental - Romulus Athletic Center (R.A.C.)					
Room Name	Room Size	Capacity	All Day Rental (10am-10pm)	Weekend Rental (10am-10pm)	Notes
Cirrus Room	2,952	192	\$400	\$250	Includes kitchen
Birthday party packages range from \$175-\$225 for 45 minutes for 15 guests. Includes decorated room, pizza and soft drink					

## Section 4

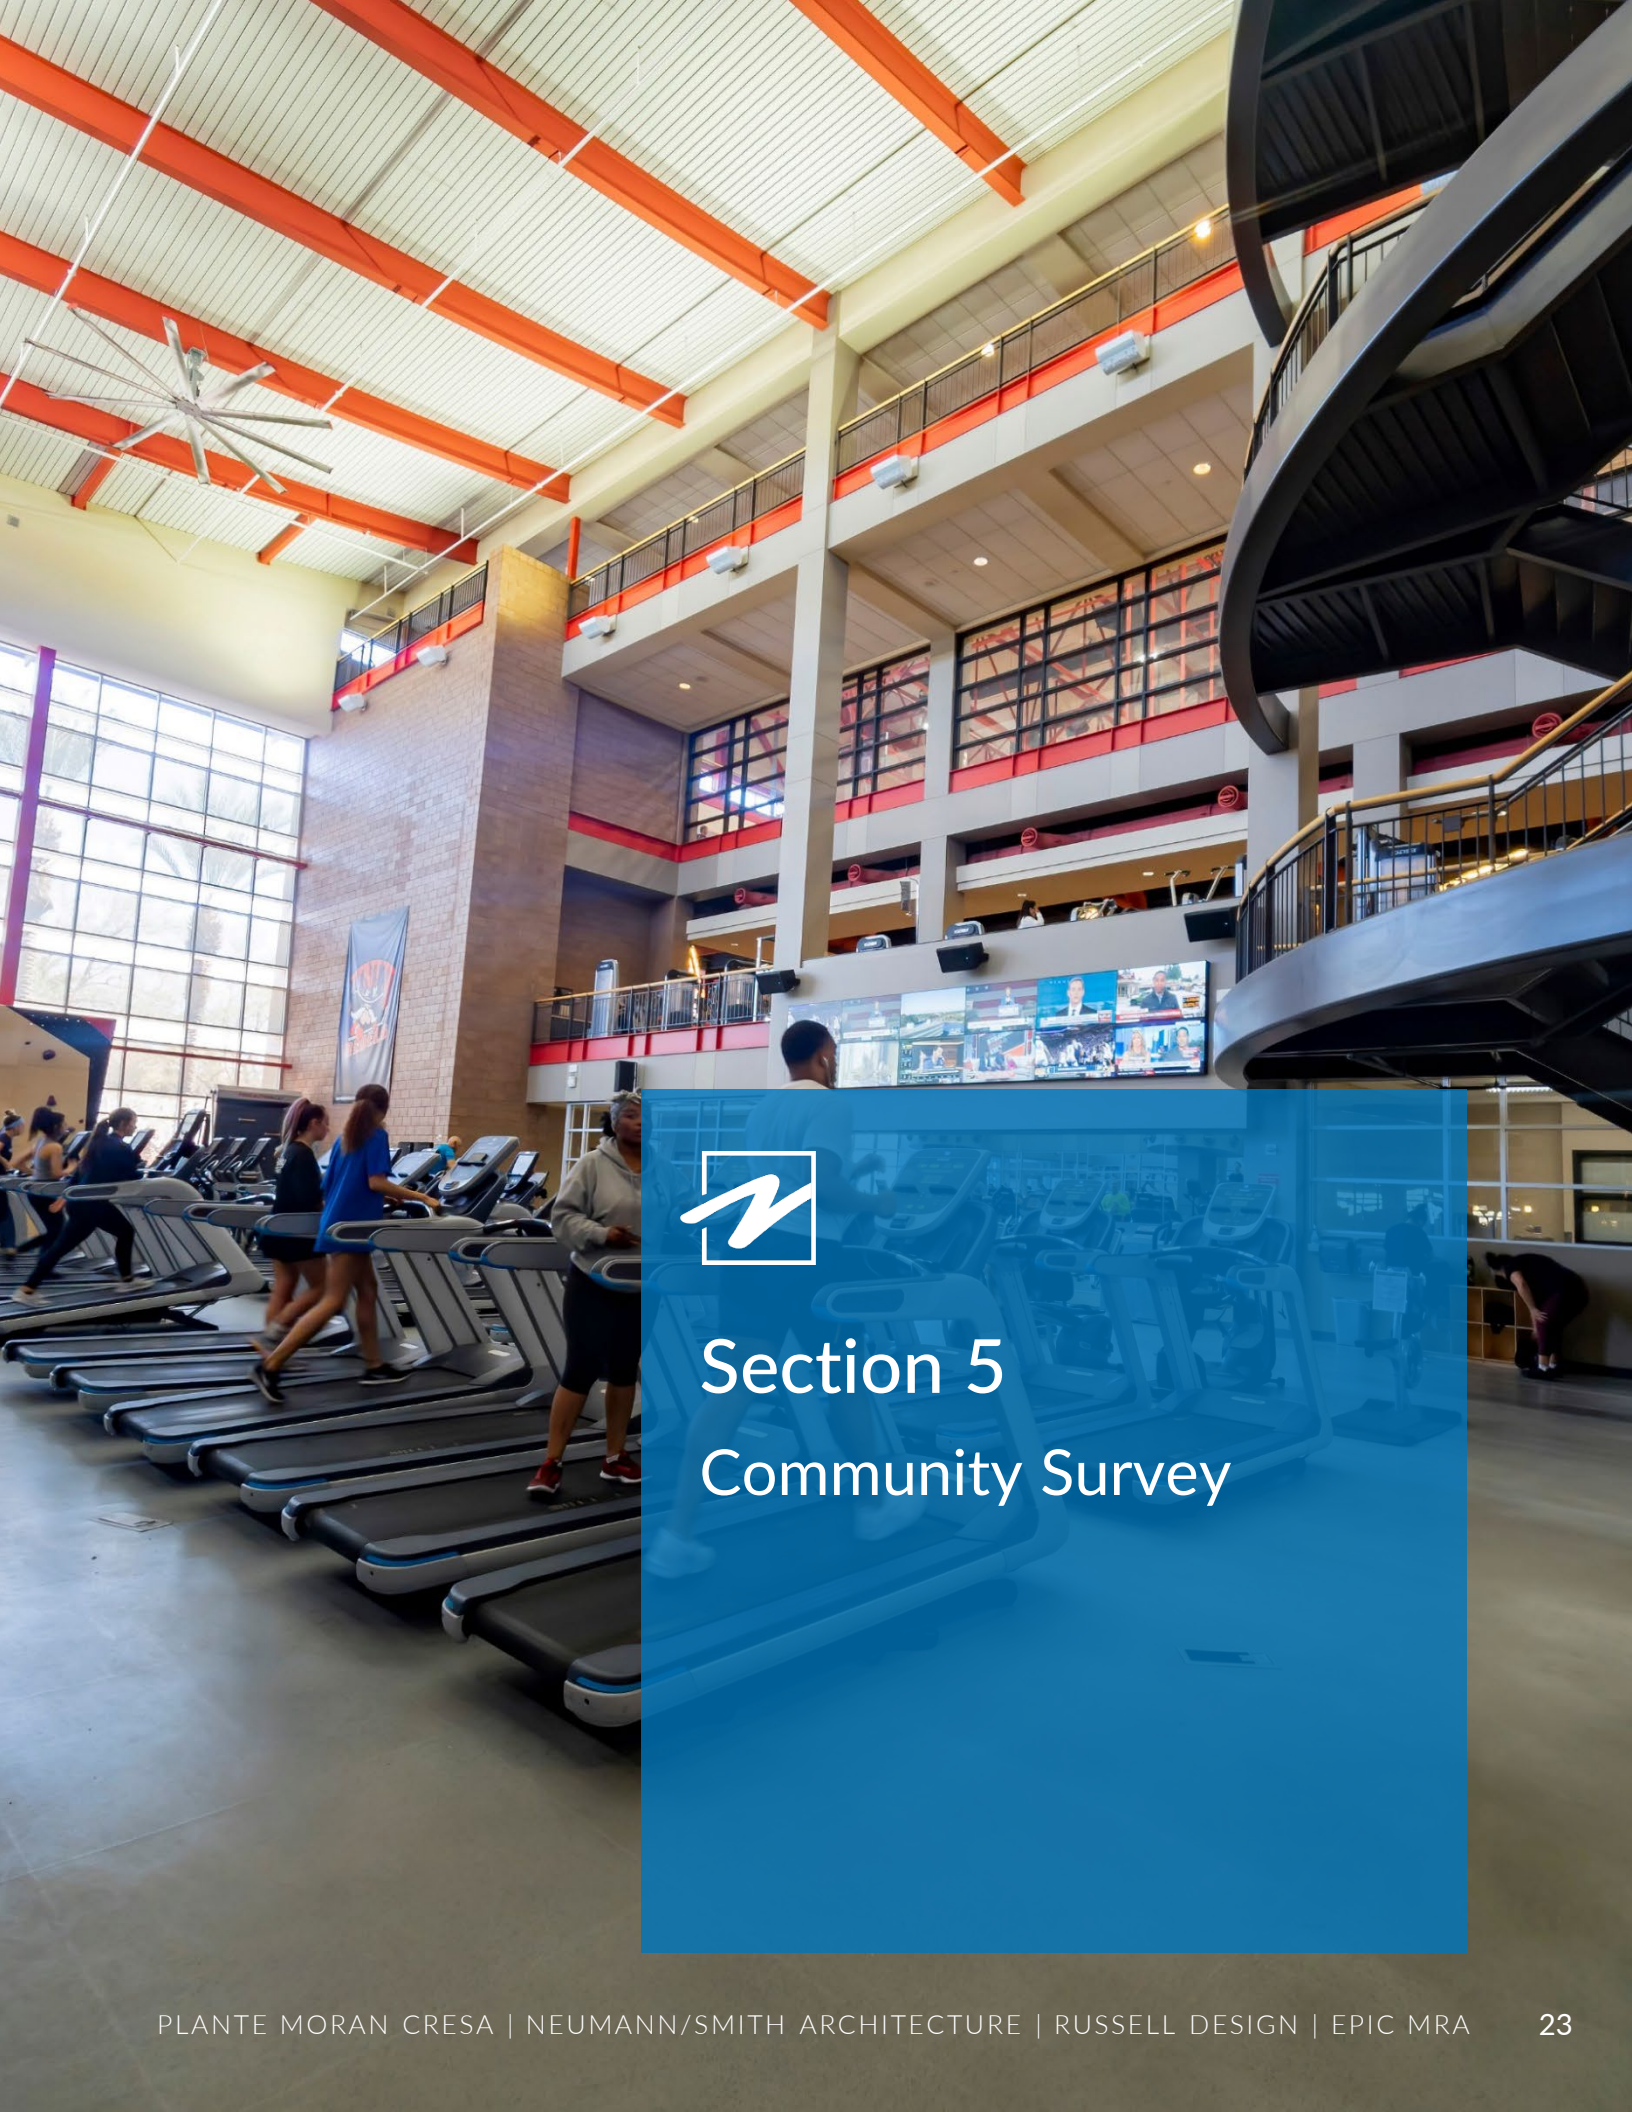

### Discovery

## General Overview

During our discovery phase of the feasibility study, space program needs were identified by the existing VBCT staff and stakeholders. Information was also gathered from residents via phone interviews, a public workshop associated with the Master Plan community event, and interviews with Van Buren Charter Township department heads, members of the Board of Trustees, and Recreation Department staff. The result of that analysis determined the appropriate space program and functional needs. Note that a few of these program spaces currently exist within the building but are deficient in size and in need of significant repair.

## Section 5 Community Survey

## Telephone Survey Summary

A 76% solid majority of residents of VBCT offered a positive rating for the job the Township has done providing basic township services to its residents. That same level of support was also offered by survey respondents for a proposal to build a new community recreation center, which would cost approximately \$6 to \$7 million. A 76% majority favored the proposal, including 50% who strongly favored it. Only 17% opposed.

A 67% to 24% majority offered a positive rating for the job done by the Township over the past few years in providing a variety of services related to parks, and especially recreational programs and facilities, including sports, educational programs, classes, and social and enrichment activities. While still very positive, this number it is still 9 points lower than the overall job rating for providing basic township services.

Not only is the rating for recreational programs lower than the rating for the job done providing services overall, but 44% of all respondents said more recreational programs and facilities are needed (16% indicated many more); 40% said there are enough. Also, a 73% majority offered a positive rating on the condition of the parks, but “especially the recreational facilities” of the Township, including 23% offering an excellent rating. Respondents believe existing facilities are well maintained, but they think more are needed and support spending Township dollars to make a community recreation center a reality.

While a recreation center is something respondents appear to want, and support, they do not want to see taxes increase to accomplish that end. More than one-third of Township residents (35%) said taxes are “too high for what they get back in services,” and although residents would like to have a pool included in a recreational center, they oppose a proposal to spend \$5.5 million above the cost of the proposed recreation center (\$6 to \$7 million), especially since it would require a 1 mill tax increase to pay for it.

While a 54% to 40% majority opposed including a pool because of the cost and the fact that a tax increase would be required, younger residents strongly support having a pool included (compared to older residents, who do not). Therefore, it may make sense for the plans for a recreation center to include space for a pool in the future if Township residents become more supportive. Given the support from younger residents and opposition from older ones, there is likely to be increased support for a pool over time as the current younger residents represent a growing percentage of residents in the future.

If a recreation center is built, residents think, by a 66% majority, that it should be located at the site of the Township offices. Also, residents are most supportive of including a running and walking track, a fitness/workout/weight and exercise room, a large gymnasium that includes a locker room for men and women visitors, and meeting rooms.

After hearing a description of features likely to be included in a community recreation center, support increased to an 83% majority, including 60% of respondents strongly favoring it. Further, if the Township can come up with an additional \$500,000 to \$600,000 in funding, 83% of respondents would also support having child-watching services and the space to provide them, as well as a concession area (supported by 69%) where visitors could buy food, beverages, and snacks.

## Telephone Survey Summary (continued)

A 50% bare majority of the Township households surveyed reported having one or more members who participate in recreational or enrichment programs and activities, which is 11 points lower than the number of households (61%) who have one or more members who go to other communities (mostly Romulus - by 66%) to use other recreational facilities, or to participate in programs. The mere fact that more household members travel to other communities to use their recreational facilities and programs than use the existing facilities and programs in VBCT is a pretty clear indication that there is a need for a recreation center in the Township.

## Telephone Survey Methodology

EPIC MRA administered interviews with 250 residents identified as residing and paying taxes within the boundaries of VBCT from November 9, 2019, through November 12, 2019. The interviews were conducted using live operator telephone interviewers, with 35% of all interviews conducted via cell phone. A proportionate number of respondents from both the Township and the City of Belleville were included in the sample, which was stratified such that every area of the Township was represented in the sample according to its contribution to the adult population of each area. Respondents for the interviews were randomly selected from records of households of people who live in the Township or the City of Belleville and have commercially listed landline or cell phone telephone numbers.

Generally, in interpreting survey results, all surveys are subject to error; that is, the results of the survey may differ from that which would have been obtained if the entire population was interviewed. Sampling error depends on the total number of respondents asked a specific question. The table on the next page represents the sampling error for different percentage distributions of responses based on sample sizes.

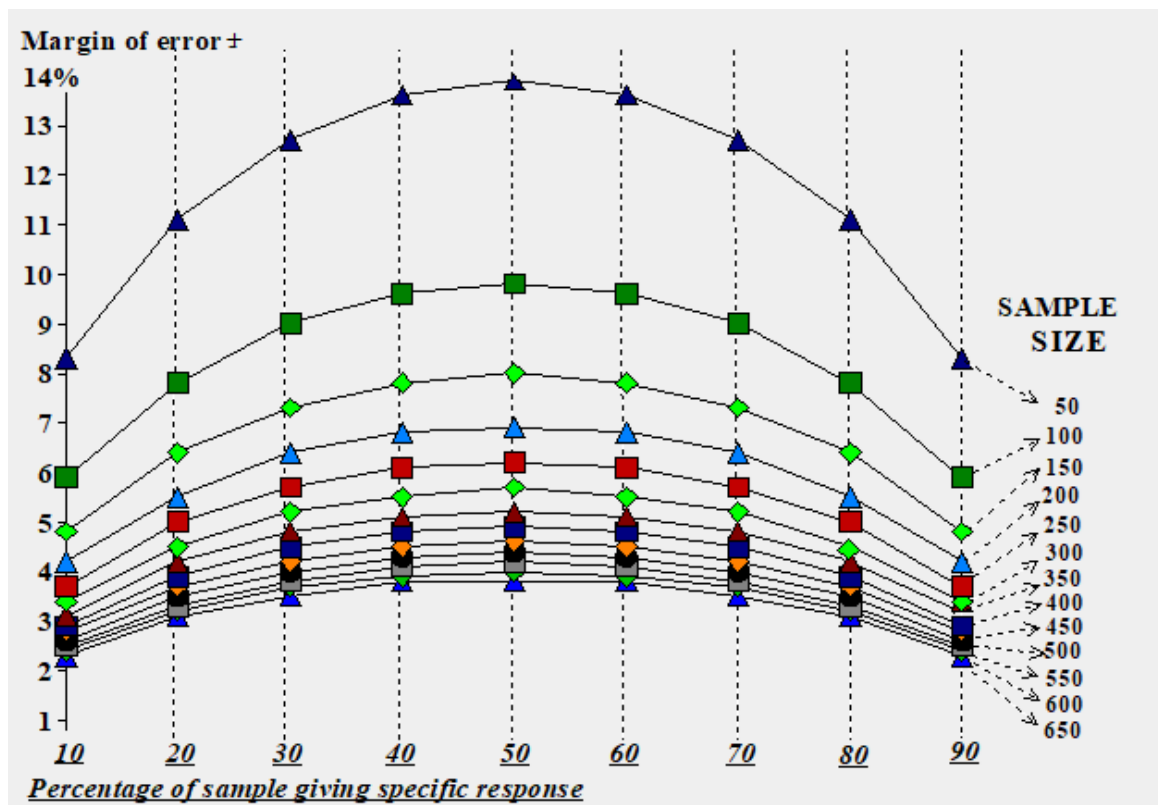

For example, after hearing a general description of a new community recreation center that may be built, and how much it would cost without requiring a tax increase, a 50% bare majority of all 250 respondents said they strongly support the proposed recreation center (Q.7). As indicated in the following chart, this percentage would have a sampling error of plus or minus 6.2 points; meaning that with repeated sampling, it is very likely (95 out of every 100 times), that the percentage for the entire population would fall between 43.8% and 56.%, hence  $50\% \pm 6.2$  points.

## Telephone Survey Methodology (continued)

## Telephone Survey Key Findings

- A 76% solid majority gave VBCT a positive rating for the job it has done providing basic township services to its residents, including 16% offering an “excellent” rating and 60% a “pretty good” rating.
- A 35% plurality said the taxes and fees they pay to fund services are “too high,” including 11% saying “much too high” and 57% saying taxes are “about right.”
- A 67% majority offered a positive rating for the job done providing a variety of services relating to parks, and especially recreational programs and facilities, including 24% offering an “excellent” rating and 43% offering a “pretty good” rating.
- When asked if there are enough recreational programs and facilities, if more are needed, or if there are too many, 40% said there are “enough,” 44% said “more are needed” (16% much more), and 4% said there are too many.
- A 73% majority offered a positive rating on the condition of the parks, but especially the recreational facilities, including 23% “excellent” and 50% “pretty good.”
- After hearing an initial description of the proposal to build a new community recreation center, at a potential cost of \$6 to \$7 million, which would not require a tax increase, a 76% solid majority said they favor the proposal (50% strongly favor).
- The top reasons cited for opposing the proposal included “existing senior center-recreation center is fine as is” (21%); “not needed” (14%); “other priorities more important” (roads mentioned) (14%); “would not use personally – would go unused” (12%); “believe it will raise taxes” (9%); “distrust Township administration – wasteful spending practices” (7%); and “wants a tax refund instead” (5%).
- When asked whether a new recreation center should be located on the Township office site or at some other site in the township, 66% said it should be located at the Township office site, 18% said some other site, 3% said it should not be built, and 13% were undecided.
- Among respondents who said a new recreation center should be located at some other site, when asked where it should be located, the top sites mentioned included: Belleville (9%); “downtown – centrally located” (9%); “Tyler Road” (9%); “on an existing open site” (7%); “north end” (5%); “Sumpter area” (5%); and “Van Buren Park” (5%). All other sites mentioned accounted for 2% or less, and 33% of respondents were undecided.
- Survey respondents heard a description of four features that would likely be included in a new community recreation center.
  - The feature with the strongest support at 83% (60% strong support), was building a running and walking track as part of the gymnasium.
  - The second highest support, at 80% (56% strong support), was for constructing a fitness/workout/weight and exercise room with a variety of exercise and weight-lifting equipment.
  - The third highest, at 78% support (51% strong support), was for building a large gymnasium with locker room space for men and women visitors at a cost of \$4.7 million.
  - Fourth highest support, at 72% support (39% strong support), was for meeting rooms to be included.

## Telephone Survey Key Findings (continued)

- After hearing about the four major components that would likely be included in a new community recreation center, support increased by 7 points to an 83% majority (60% strongly favor), with 15% opposed.
- Respondents were also informed that if VBCT was able to raise an additional \$500,000 to \$600,000, two other features could be included. An 83% majority said they would support (59% strongly) including a child-watching service (fee-based service) and space to provide it.
- A 69% majority supported (40% strongly) including a concession area, which would charge visitors for food, beverages, and snacks.
- All respondents were asked what other facilities, programs, or activities should be included that were not mentioned earlier in the survey. The top responses mentioned included: a swimming pool (27%); kids/teen/family activities (5%); senior activities (4%); water park/splash pad/lazy river (3%); arts/crafts/cooking classes (2%); rock wall/climbing wall (2%); tutoring/study space (2%); and workout room/gym/fitness classes (2%) Other items mentioned accounted for 1% or less of the responses, and 19% were undecided.
- A 50% bare majority of households have one or more members who participate in recreational or enrichment programs or activities provided by VBCT — including the respondent (17%), other household members (11%), or more than one household member (22%) — with 49% saying no household member participates.
- A 61% majority of households has one or more people who have gone to other communities to use recreational facilities or to participate in programs that are not available in VBCT — including the respondent (23%), other household members (9%), or more than one household member (29%) — with 38% saying no household member participates.
- A 66% solid majority said they go to Romulus to use facilities or participate in programs, followed by Canton at 18%, and then Ann Arbor, Wayne, and Ypsilanti at 3% each.
- The top programs or activities residents visit other communities for included swimming pool (38%); work out rooms, gym, fitness classes (21%); indoor track (7%); water park/splash pad/lazy river (6%); basketball (4%); and soccer (3%).
- After hearing that Canton Township and Romulus have similar facilities and programs, and therefore VBCT “does not need” a community recreation center, 75% of respondents disagreed and said a recreation center is still needed; 21% agreed that it is not needed.
- Although the top feature cited by Township residents as something that should be included in a recreation center (that was not mentioned in the survey) was a swimming pool, upon learning that it would cost an additional \$5.5 million and require a 1 mill property tax increase to pay for it, a 54% to 40% majority of respondents said they oppose including a swimming pool in the plans for a community recreation center, including 38% who strongly oppose the idea. About 29% strongly support it.

## Telephone Survey Questions and Responses

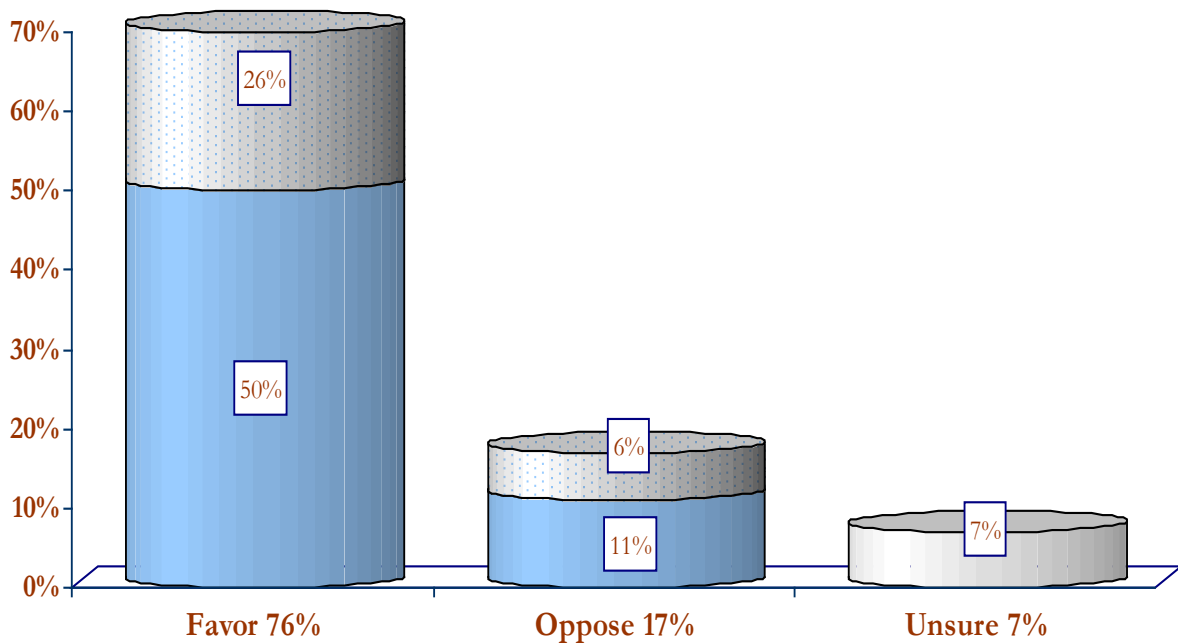

### First question about a Community Recreation Center

The first question asked survey respondents about a community recreation center. A 76% to 17% majority said they favor such a facility, including 50% who strongly favor it.

□ *Smmt*

■ *Strongly*

#### First question on building a community recreation center

### Reasons why 17% of respondents opposed a proposed new community recreation center

Respondents who said they opposed a new community recreation center were asked what the main reason was that they opposed it. The top reasons cited were:

- “existing senior center/ recreation center is fine as is” (cited by 21%)
- “not needed” (14%)
- “other priorities more important - roads mentioned” (14%)
- “would not use personally – would go unused” (12%)
- “believe it will raise taxes” (9%)
- “distrust the Township administration – wasteful spending practices” (7%)
- “wants a tax refund instead” (5%)
- five other responses offered (2% each)
- “undecided” (8%)

## Telephone Survey Questions and Responses (continued)

### Features that could be included in a new Community Recreation facility

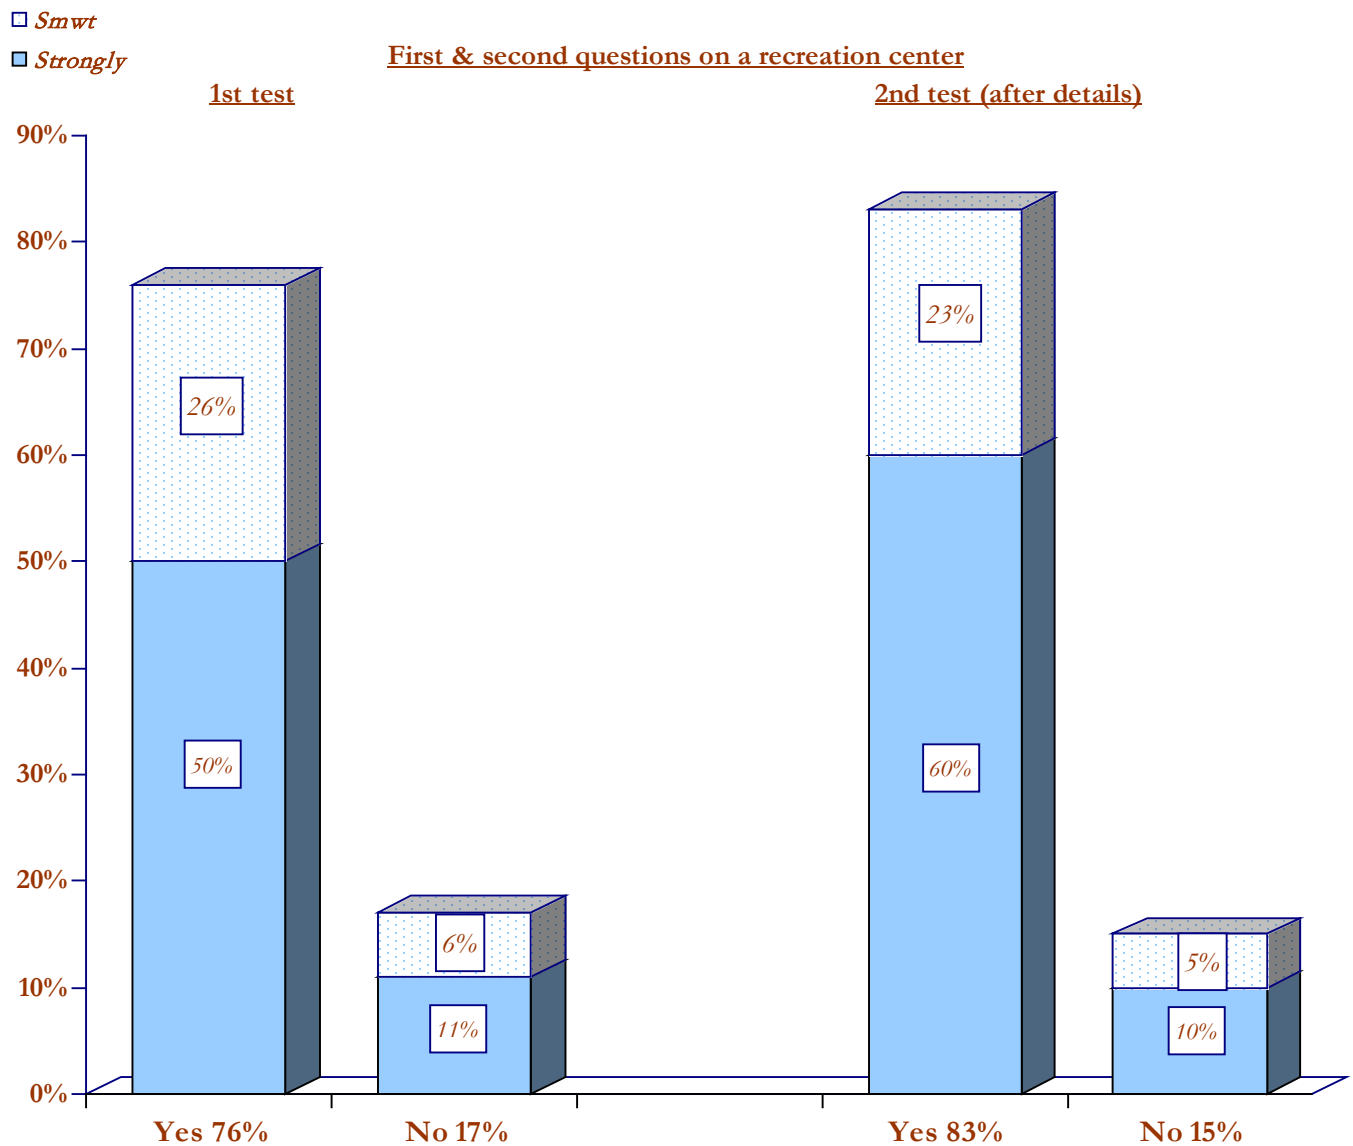

All survey respondents were then read a description of some of the features that could be included in a new community recreation center, and for each one, asked if they supported or opposed that feature. The cost was included in the description of the large gymnasium, and respondents were informed that the other three features would cost between \$1.3 to \$2.3 million.

Proposed features ranked by highest to lowest support	STR	TOT	TOT	STR
	SUP	SUP	OPP	OPP
A running and walking track could be included as part of the gymnasium.	60%	83%	15%	9%
A fitness/workout/weight and exercise room with a variety of exercise and weight-lifting equipment could be constructed.	56%	80%	18%	12%
A large gymnasium that would allow for basketball, volleyball, pickle ball and other sports activities, as well as locker room space for men and women visitors would be included at an estimated cost of \$4.7 million.	51%	78%	18%	12%
Meeting rooms could be included because existing township facilities do not have enough space to meet the demand and such rooms could be part of the new recreation facility.	39%	72%	25%	16%

## Telephone Survey Questions and Responses (continued)

### Learning of specific features leads to increased support

After hearing a description of the four main features that would likely be included in a new community recreation center, and indicating their support or opposition for each, support increased by 7 percentage points to an 83% to 15% overwhelming majority favoring a new recreation center, including a 60% majority who strongly favored it.

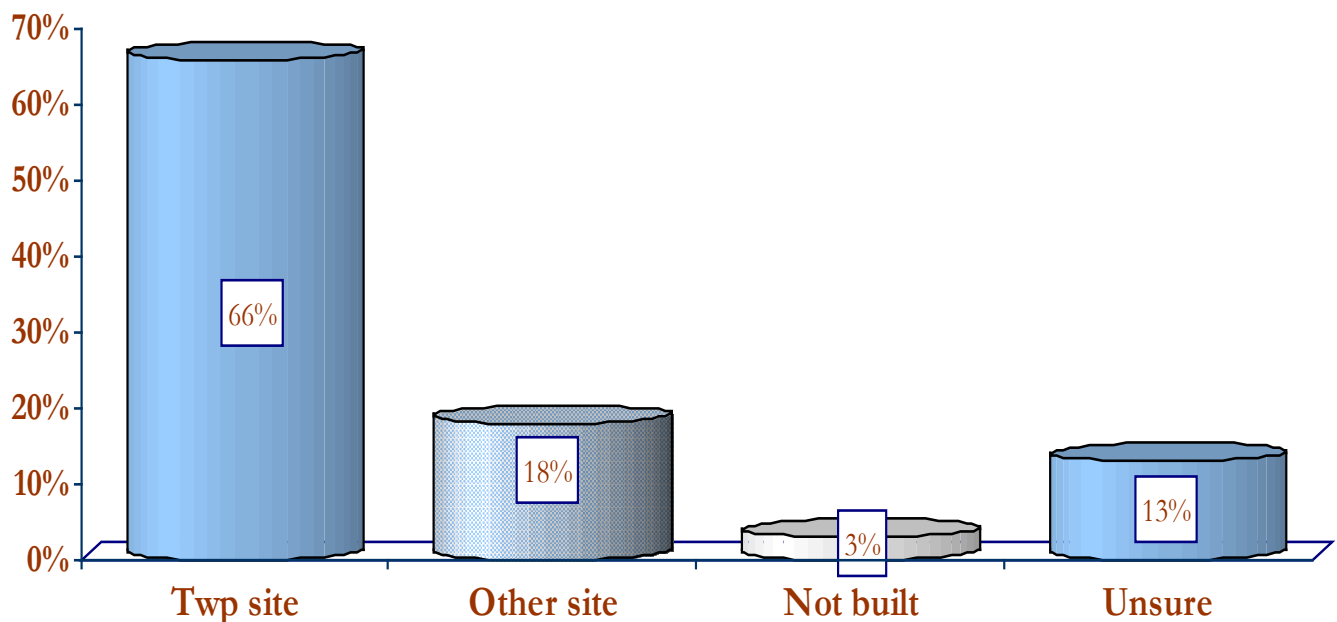

## Telephone Survey Questions and Responses (continued)

### 2 out of 3 say a new Community Center should be located at the Township office site

All respondents were asked if a new community recreation center should be located on the Township office site, where there are existing utilities, parking, athletic fields, and staff operations, or if it should be located at some other site in the Township. A 66% solid majority said it should be located at the existing Township office site, 18% said it should be located at some other site in the Township, 3% said that it should not be built, and 13% were undecided.

#### New Community Recreation Center should be located at Township office site

## Telephone Survey Questions and Responses (continued)

Demographic groups who more often favored a new recreation center located at some other site included:

- 36%: Negative job rating on providing recreational programs
- 31%: College educated men
- 28%: Township needs more recreational facilities
- 26%: Age 35-49
- 25%: Taxes are too high
  - Multiple household members use recreational facilities outside of VBCT
  - Incomes of \$25K-\$50K\*
- 24%: Belleville City
  - Incomes over \$100K
  - Men age 18-49
- 23%: Negative rating on condition of recreational facilities
- 22%: Negative job rating on providing services
  - Uses facilities in Romulus
  - Uses facilities in Canton\*
  - Supports swimming pool proposal
  - Lived in area 1-10 years
  - All men

(small sample = \*)

## Telephone Survey Questions and Responses (continued)

### Suggested locations among respondents preferring other site

Among the 18% of survey respondents (45 respondents) who said a new community recreation center should be located at a location other than the Township office site, the following are the suggested sites:

9%	Belleville
9%	Downtown – Centrally Located
9%	Tyler Road
7%	On an Existing Open Site
5%	North End
5%	Sumpter Area
5%	Van Buren Park
2%	Elwell Elementary Building
2%	K-Mart Location
2%	Near Romulus
2%	Near the Water Tower – Quirk
2%	Riggs Heritage Park
2%	South End
2%	Use an Existing Vacant Building
4%	Other (less than 1% each)
33%	Undecided/Refused

## Telephone Survey Questions and Responses (continued)

### Demographic breakouts of the responses to the 1st and 2nd questions

The following table shows the total percentage that favor and oppose the first question on a recreation center, broken down by demographic factors, followed by the results of the second question that was asked after respondents heard more detailed information about the features that would be included. The third column shows movement from the percentage that favors a recreation center from the first to second question.

Women without college	71%	21%	79%	15%	+8%
Age 18-49 without college	80%	11%	84%	11%	+4%
College educated age 18-49	87%	6%	90%	10%	+3%
Age 50 and over without college	66%	27%	79%	18%	+13%
College educated age 50 +	78%	18%	82%	16%	+4%

### Other features that could be included if additional funding available

After responding to a second question about support for a new community recreation center, in which an 83% to 15% overwhelming majority said they support the facility, all respondents were then informed that if an additional \$500,000 to \$600,000 in funding were available, two other features, which may be paid for with user fees, could be included. Respondents were asked if they support or oppose each potential feature. The responses were:

Other possible features that could be included	<u>STR FAV</u>	<u>TOT SUP</u>	<u>TOT OPP</u>	<u>STR OPP</u>
Child-watch services and the necessary space to provide them, so visitors can pay a fee to have their children cared for while they are using the recreation center programs.	59%	83%	14%	11%
A concession area, which would charge visitors for food, beverages and snacks.	40%	69%	14%	11%

## Telephone Survey Questions and Responses (continued)

### What other facilities, programs or activities should be included that were not mentioned?

All respondents were asked, in an open-ended question, “If a new community recreation center is built, what other facilities, programs or activities should be included that were not mentioned earlier in this survey?”

The responses were:

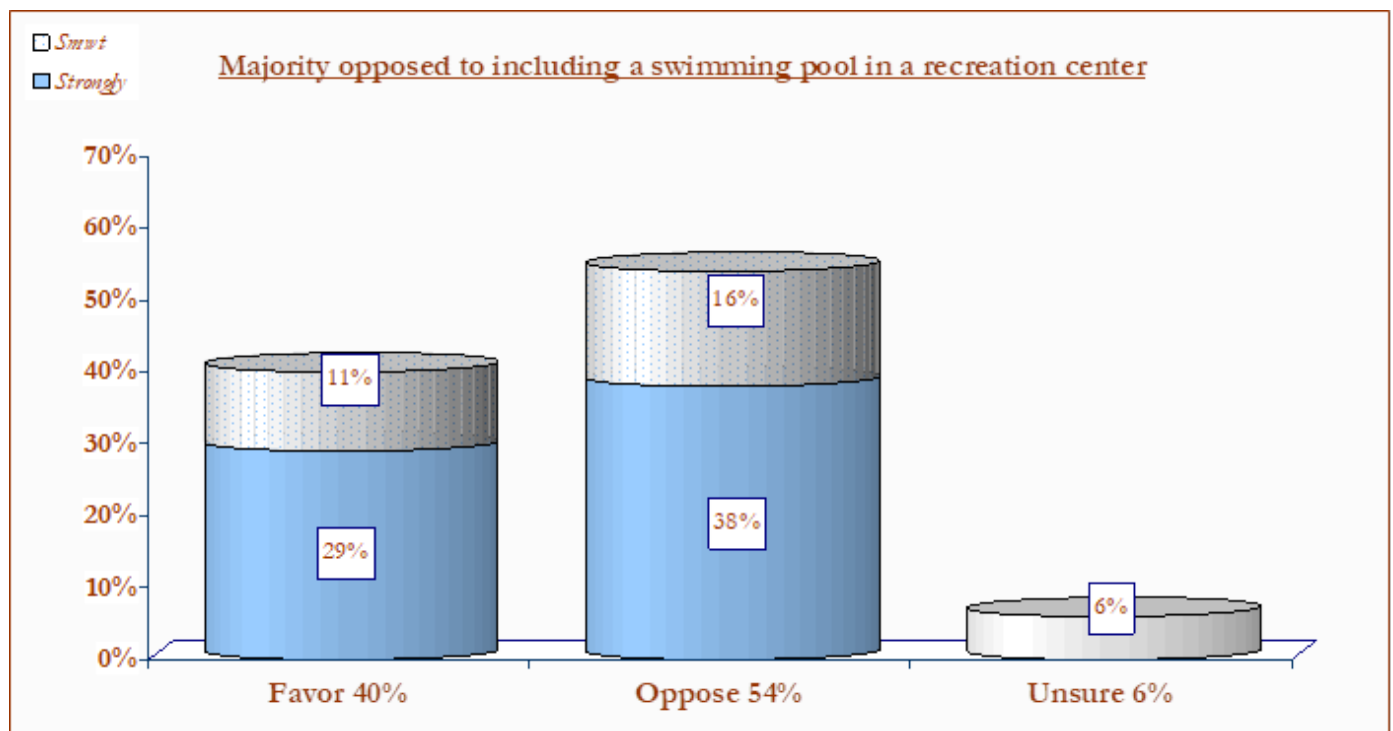

27%	Pool - Swimming
15%	None; no others
5%	Kids - Teen - Family Activities
4%	Senior Activities
3%	Water Park - Splash Pad - Lazy River
2%	Arts - Crafts - Cooking Classes
2%	Rock Wall - Climbing Wall
2%	Tutoring - Study Space
2%	Work Out Rooms - Gym - Fitness/Classes
1%	Banquet - Party - Meeting Space
1%	Bathrooms - Locker Rooms - Showers
1%	Computers - Technology
1%	Concerts - Music - Theater - Performing Arts
1%	Dancing - Dance Classes
1%	Do Not Build - Not Needed
1%	Football
1%	Game Room
1%	Handicap Accessible
1%	Hot Tub - Sauna
1%	Skate Park
1%	Soccer
1%	Tennis
1%	Yoga - Pilates
5%	Other (less than 1% each)
19%	Undecided/Refused

## Telephone Survey Questions and Responses (continued)

### Many residents would like a swimming pool included, but not if a tax increase is required

All respondents were asked: “If a community recreation center in VBCT were built to include a swimming pool -which could include a recreation pool, spa, therapy pool and lap pool - it would cost an additional \$5.5 million. However, a swimming pool could not be funded from existing revenues. It would require a tax increase of 1 mill to pay for it, which would raise \$850,000 per year to fund the construction of a swimming pool. Knowing this, would you favor or oppose building a swimming pool as part of the plans for a community recreation center?” **[IF FAVOR/OPPOSE, ASK]:** “Would that be strongly or somewhat?”

The responses were:

## Telephone Survey Questions and Responses (continued)

Demographic groups that supported including a swimming pool in a new recreation center by the highest percentages above the township-wide results of 40% included:

58%:	Multiple household members use facilities outside VBCT Uses facilities in Romulus
56%:	Incomes of \$50K-\$75K* Women age 18-49
55%:	Multiple household members use VBCT recreational facilities
54%	Households with children
53%:	Need more recreational facilities and programs College educated women
52%:	Needs a new recreation center even with facilities in other communities
50%	Favors new recreation center on first question Incomes over \$100K
49%:	Prefers other site for recreation center Respondent uses facilities outside VBCT Age 18-34 College educated age 18-49
48%:	Taxes about right Negative rating on condition of recreational facilities
47%	Favors new recreation center after info Age 50-64
46%:	Lived in area 1-10 years Age 18-49
45%:	Age 35-49 College educated
44%:	Belleville City Undecided about taxes* All women
43%:	Positive job rating on providing township services

(small sample = \*)

## Telephone Survey Questions and Responses (continued)

Demographic groups that opposed including a swimming pool in a new recreation center by the highest percentages above the township-wide results of 54% included:

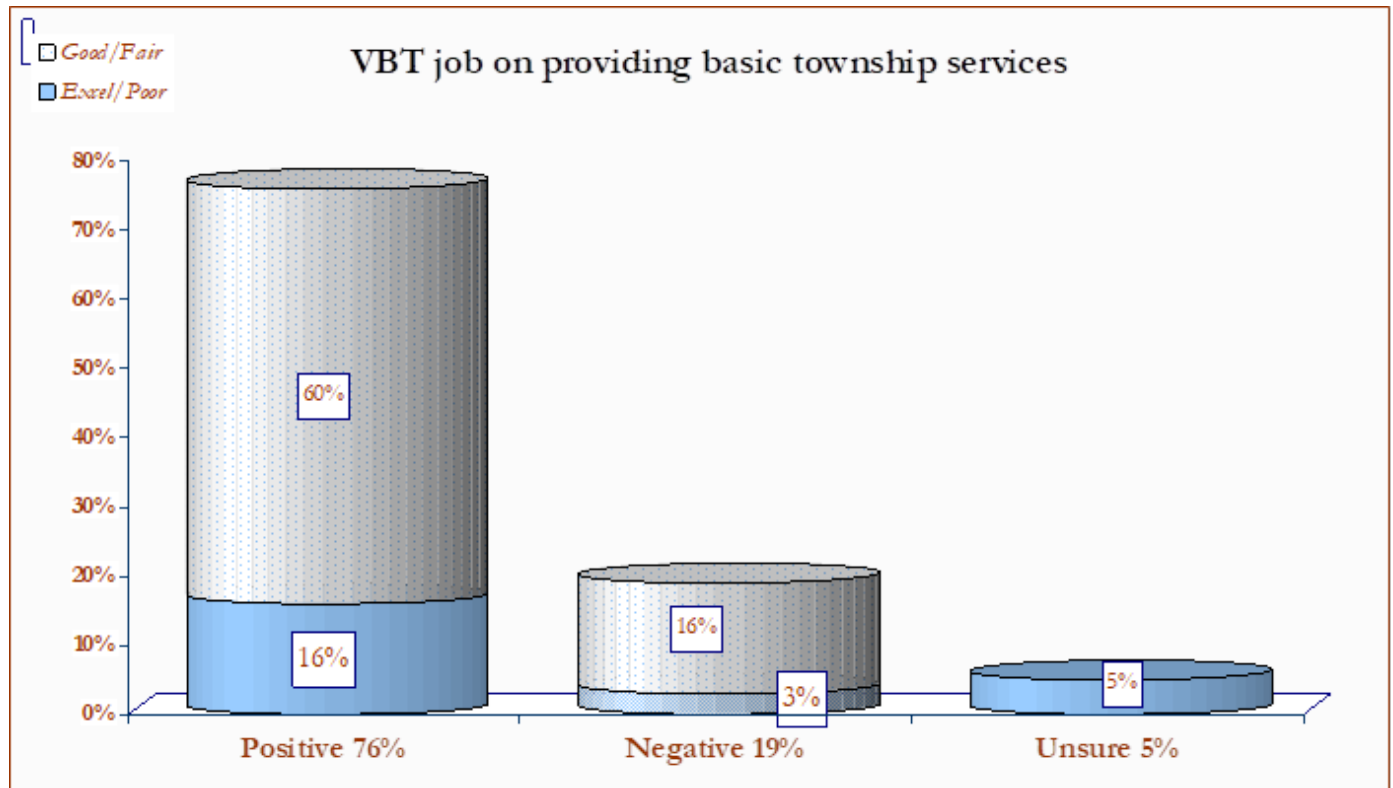

94%:	Does not need new recreation center
92%:	Opposed new recreation center after hearing info about features
88%:	Opposed new recreation center on first question
78%:	Incomes of \$25K-\$50K
68%:	Taxes are too high
	Undecided about amount of recreational facilities and programs
	Age 65 and over
67%:	Undecided about new recreation center on first question
64%:	Undecided about rating for recreational programs and services*
	HS or less education
63%:	Incomes under \$25K*
62%:	Does not use recreation facilities or programs in VBCT
61%:	Undecided about where to locate new recreation center
	Households without children
	Men without a college education
59%:	About the right amount of recreational facilities and programs
	All men
	Men age 18-49
58%	Lived in area 20 years or more
	Men age 50 and over
	College educated men
	Age 50 and over without college
57%:	Negative rating on providing township services
	Age 50 and over
	Age 18-49 without college
56%:	Belleville City
	Negative job rating on providing recreational programs and services
	Uses recreation facilities in Canton
	Women age 50 and over
	Women without a college education
	College educated age 50 and over

(small sample = \*)

## Telephone Survey Questions and Responses (continued)

### Just over 3 out of 4 give VBCT a positive job rating on providing basic township services

A solid 76% to 19% majority of township residents offered a positive rating for the job VBCT does providing basic township services to its residents, including 16% who offered an “excellent” rating and 60% who offered a “pretty good” rating.

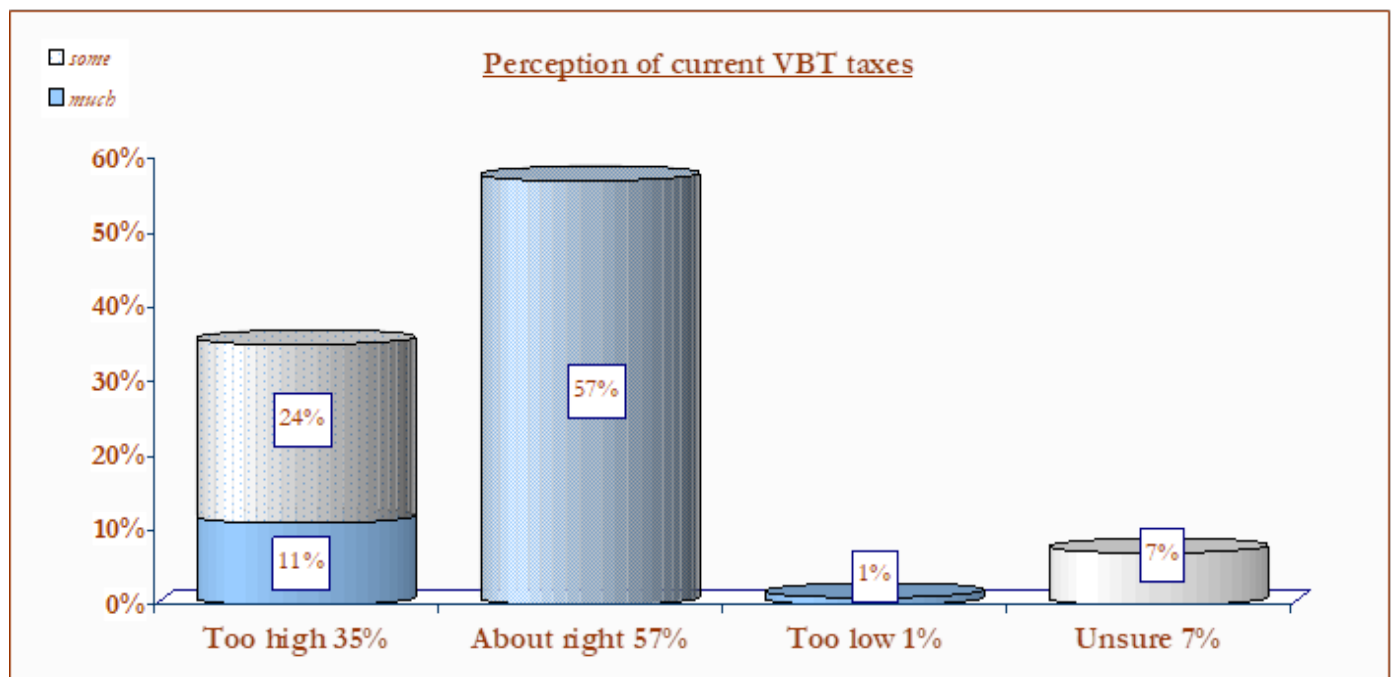

VBCT residents who offered a positive job rating said they favor a new recreation center by an 81% to 13% majority on the first question, and an 85% to 13% majority on the second question following info about features that would be provided. Residents who offered a negative job rating also favored a new recreation center by a 57% to 33% majority, and a 78% to 22% majority on the second question following further information.

## Telephone Survey Questions and Responses (continued)

### Just over 1 out of 3 said VBCT taxes are too high

When asked if the taxes and fees they pay for the services they receive from VBCT are too high, too low, or about right for what they get back in services, 35% said taxes are “too high” (11% much too high), 57% said taxes are “about right,” 1% said “too low,” and 7% were undecided. About 53% said taxes are “about right,” 11% said “too low,” and 9% were undecided.

### EPIC MRA experience on this question in recent, similar surveys

Recent experience shows that the optimal level of concern about taxes being “too high” is in the high teens to the low- to mid-20s as a percentage. When the “too high” concern is at that level, a solid majority of residents are receptive to ballot proposals to raise taxes *if they are supportive of the purpose for the tax increase*.

When the “too high” percentage exceeds 30%, it is significantly more difficult to garner support for a tax increase, and when the level exceeds 40%, voter approval becomes extremely difficult and often impossible to achieve. With 35% saying taxes are “too high,” concern about the level of taxes could likely be a significant barrier to earning voter approval of any tax increase if pursued. Indeed, when respondents were asked if they would favor or oppose a tax increase of 1 mill to provide the needed funding of \$5.5 million to build a swimming pool to be included in the recreation center, a 68% to 27% solid majority of respondents who said taxes are “too high” opposed a pool, with respondents who said taxes are “about right” split on the question with 48% in favor and 47% opposed.

## Telephone Survey Questions and Responses (continued)

Since VBCT only levies 1 mill to fund Township operations, should a pool be pursued, it could be a useful to inform residents that they are paying a low amount of taxes to fund Township activities.

Demographic groups that said VBCT taxes are “too high” by more than the district-wide 35% included:

65%:	Negative job rating for providing Township services
58%:	Opposed to a new recreation center on the first question
54%:	Negative job rating for providing recreational programs and services
53%:	Opposed to a new recreation center after hearing info about features
51%:	Men age 50 and over
49%:	Locate new recreation center at another location
48%:	VBCT residents do not need a new recreation center
46%:	College educated men
45%:	All men
	Men without a college education
44%:	Negative rating for the condition of recreation facilities
	Opposed to building a pool as part of recreation center
43%:	Incomes of \$25K-\$50K
42%:	Post HS technical education
40%:	Age 35-49
	Age 50 and over without college
39%:	Undecided about building a new recreation center*
	Respondent/other household member used VBCT rec facilities/programs
	Age 50-64
	Incomes of \$75K-\$100K
38%:	No one in household used facilities in another community
	Lived in area 20 years or more
	Men age 18-49

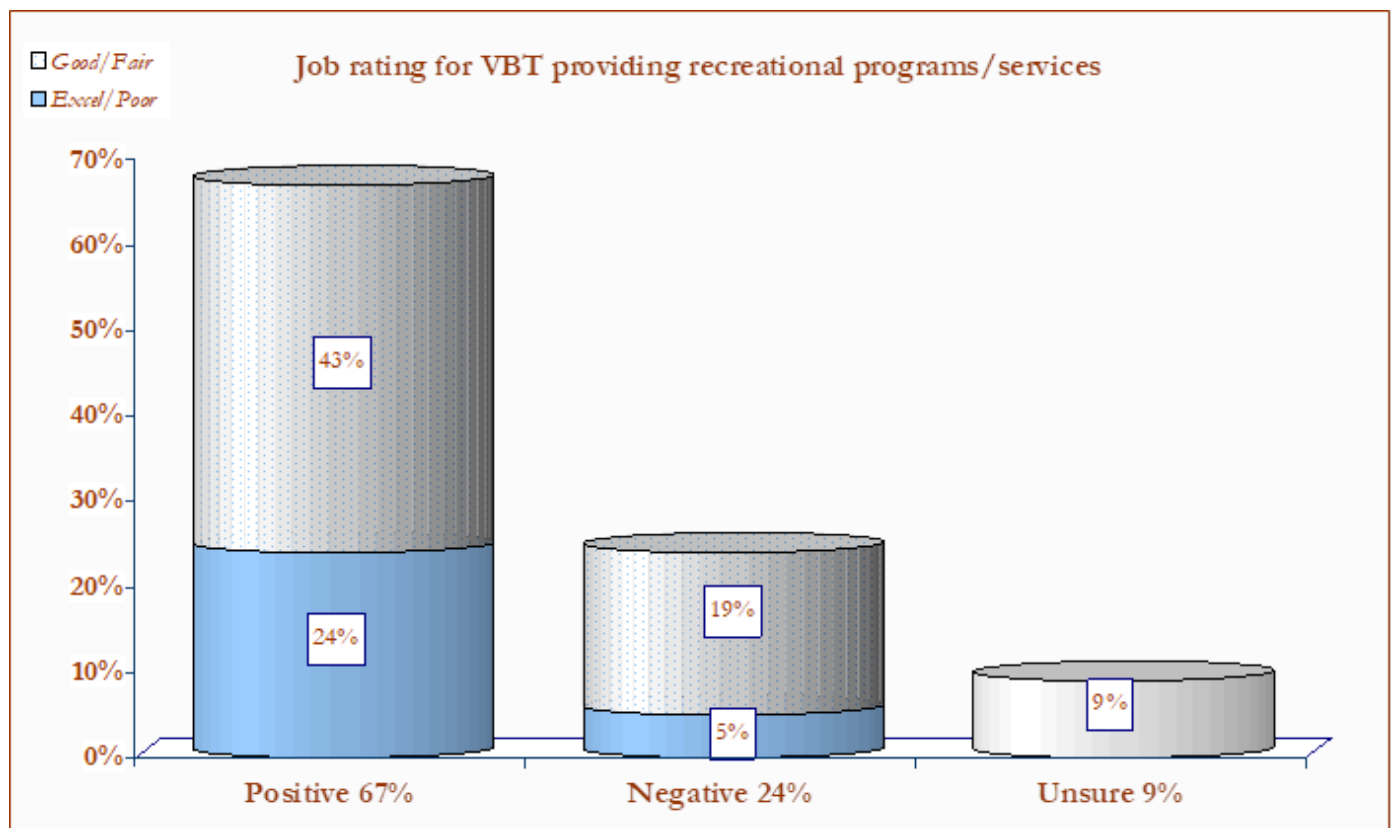

(small sample = \*)

To the extent possible, it may make sense to focus on the demographic groups above that can be targeted and communicated with directly (such as all men, men age 50 and over, all residents age 35-64).

## Telephone Survey Questions and Responses (continued)

### VBCT rating on recreational services 9 points lower than overall job rating

When asked to rate the job done by VBCT in providing a variety of services related to parks, and especially recreational programs and facilities — including sports, educational programs, classes, and social and enrichment activities over the past few years — a 67% to 24% majority offered a positive rating for the Township (24% excellent).

Among survey respondents who offered a positive rating for the job done by VBCT providing recreational programs/services, a 77% to 16% majority favors a new recreation center on the first question, and after hearing info about features included in the proposal, an 84% to 14% majority (up 7 points) said they favored a new recreation center on the second question.

Among respondents who offered a negative rating for the job done by VBCT in providing recreational facilities and programs, a 77% to 18% majority favored a new recreation center on the first question, with an 84% to 15% majority (also up 7 points) saying they favor the plan after hearing more information the about features of the plan.

The lower job rating for recreational programs and facilities is an important indication that Township residents have a need for, and would support, a new recreation center.

## Telephone Survey Questions and Responses (continued)

Demographic groups saying that VBCT does a negative job providing recreational programs and services by more than the district-wide 24% included:

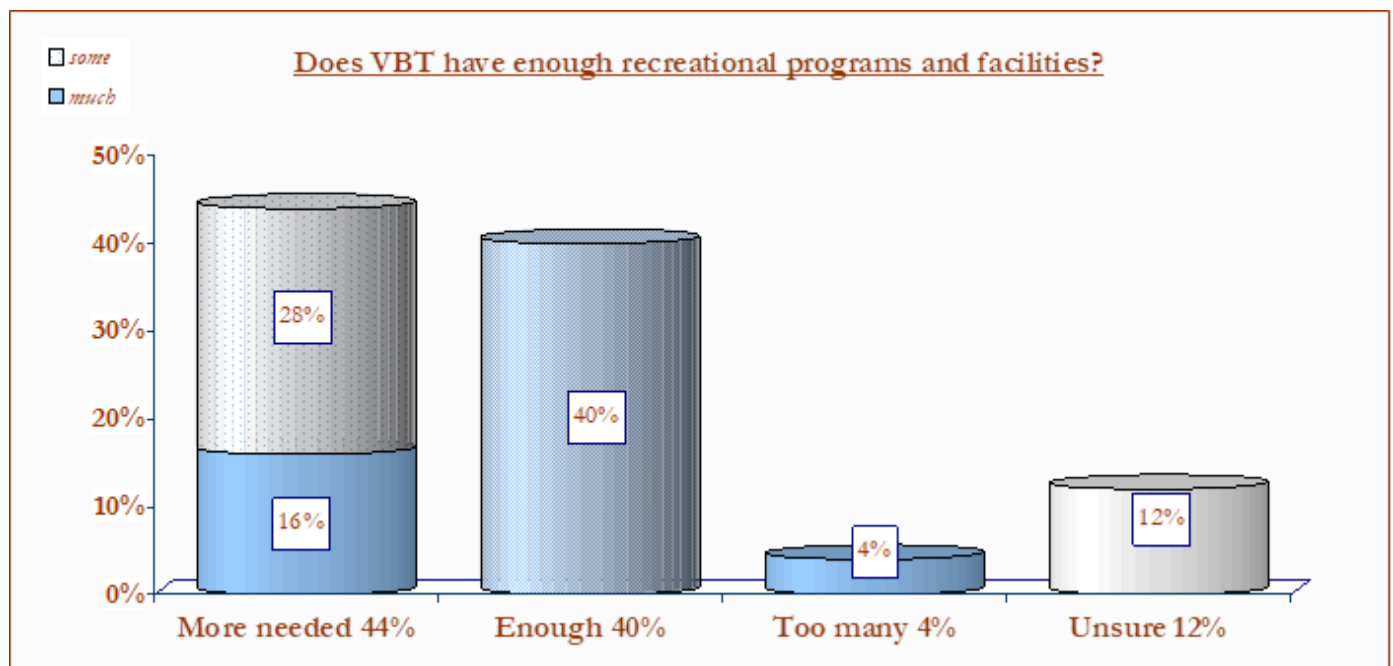

54%:	VBCT needs more recreational facilities/programs/services
49%:	Negative rating of VBCT providing basic township services
	Locate new recreation center at some other site in township
46%:	Negative rating on the condition of recreational facilities
38%:	Taxes are too high
33%:	Respondent uses recreational facilities in other community
	Men age 50 and over
	College educated men
30%:	Belleville City
	Post HS technical education
	All men
	Age 18-49 without college
	College educated age 50 and over
29%:	Uses facilities in Romulus
	Households with children
	Incomes over \$100K
28%:	Uses facilities in other communities
	Lived in area 20 years or more
	Age 50-64
	Men age 18-49
	Men without college
27%:	With facilities in nearby communities, new recreation center not needed

(small sample = \*)

## Telephone Survey Questions and Responses (continued)

### More than 4 out of 10 said more recreational programs and facilities are needed in VBCT

When all respondents were asked if VBCT has enough recreational programs and facilities to support the current needs of the community, if more are needed, or if too many are offered, 44% said more is needed (16% much more), 40% said there are enough, 4% said there are too many, and 12% were undecided.

Among respondents who said more programs and facilities are needed, an 89% to 5% overwhelming majority favored a new recreation center on the first question, and a 91% to 9% majority favored it on the second question after hearing more information about the features that would be included.

Among respondents who said VBCT has enough programs and facilities, a 72% to 21% majority favored a new recreation center on the first question, and an 80% to 16% majority favored it on the second question after more information.

Among respondents who were undecided about the need for programs and facilities, a 55% to 29% majority favored a new recreation center on the first question, and an 81% to 13% majority of respondents (up 26 points) favored it on the second question.

## Telephone Survey Questions and Responses (continued)

Demographic groups saying by the highest percentages that VBCT needs more programs and facilities by more than the district-wide 44% included:

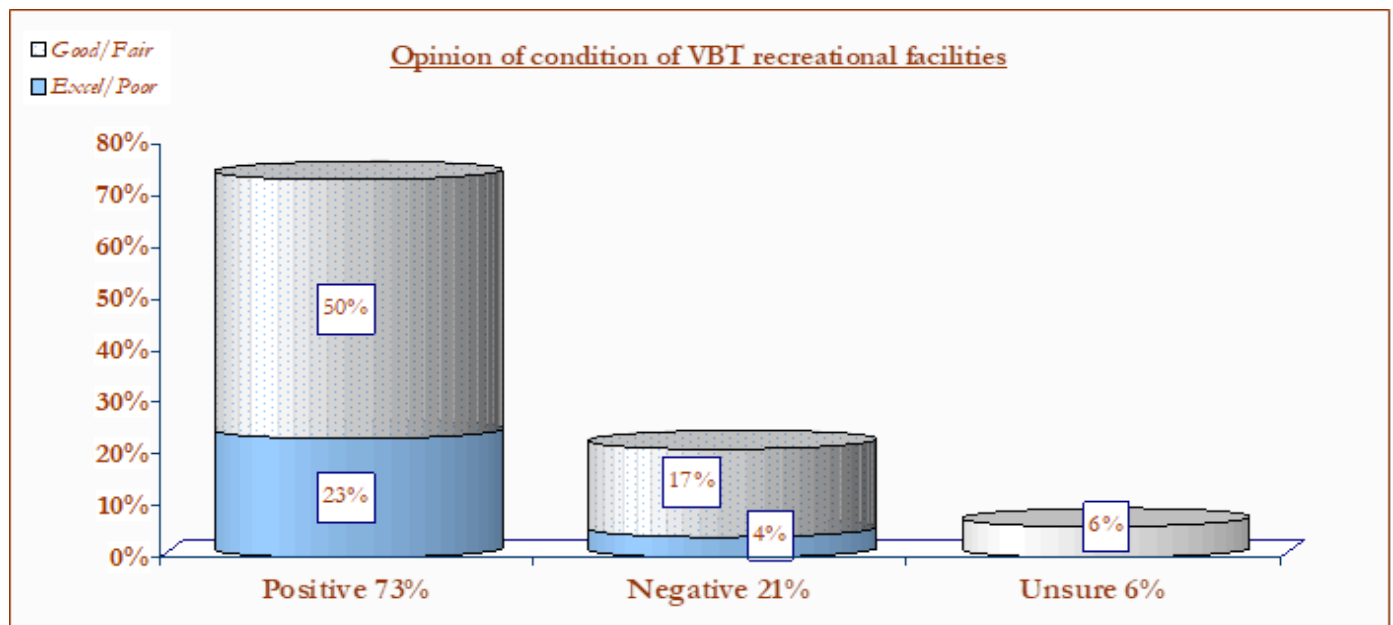

69%:	Negative rating on providing recreational programs and facilities Prefers some other site than the township office site
68%:	Women age 18-49
63%:	Negative rating on the condition of recreational facilities Uses facilities in Canton* College educated age 18-49
61%:	Households with children
60%:	Age 35-49
58%:	Multiple household members uses facilities in other communities Uses facilities in Romulus Favors proposal for a swimming pool
57%:	Age 18-49
56%:	Lived in area 1 to 10 years Incomes over \$100K College educated women
53%:	Respondent/other household member uses facilities in other communities Age 18-34 College educated
52%:	Favors a new recreation center on first question
51%:	Multiple household members use VBCT recreational programs and facilities
50%:	Age 18-49 without college
49%:	Negative rating on providing basic township services Recreation center needed even though programs/facilities available nearby
48%:	Belleville City Favors new recreation center after hearing more info about features All women Men age 18-49 College educated men

(small sample = \*)

## Telephone Survey Questions and Responses (continued)

### Nearly 3 out of 4 gave positive rating for the condition of recreational facilities

A 73% majority offered a positive rating for the condition of the parks, but especially the recreational facilities in VBCT, including 16% who offered an “excellent” rating and 50% who offered a “pretty good” rating. About 21% offered a negative rating and 6% were undecided. Residents believe the facilities available are in good condition, but also believe more are needed, including a new recreation center.

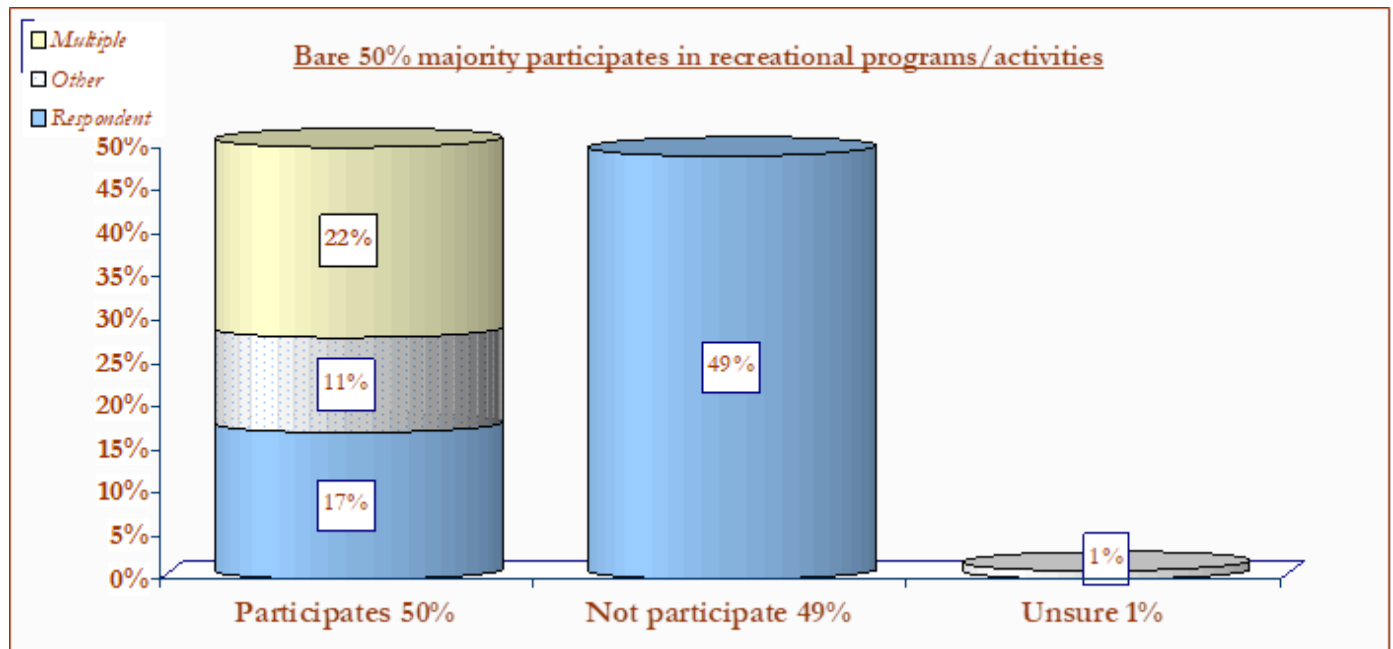

Residents offering a positive rating on the condition of facilities said they favor a new recreation center on the first question by a 79% to 14% majority, increasing by 8 points to an 87% to 10% majority on the second question following information.

Among residents offering a negative rating on the facilities, a 73% to 23% majority favors a new recreation center on the first question, increasing by 6 points to a 79% to 21% majority on the second question after information.

## Telephone Survey Questions and Responses (continued)

### A bare majority uses VBCT recreational programs and activities

A bare 50% majority said that the respondent (17%), other household member (11%), or more than one household member (22%) participate in programs or activities offered by VBCT, with 49% saying no one participates.

Residents who said the respondent and another household member used VBCT recreation programs or activities said they favor a new recreation center on the first question by a 75% to 18% majority, increasing by 4 points to a 79% to 18% majority on the second question following information.

Among residents who said more than one household member used VBCT programs or activities said they favor a new recreation center on the first question by an 89% to 6% majority, increasing by 7 points to a 96% to 4% near unanimous majority on the second question after information.

Among residents who said no one uses VBCT programs or activities said they favor a new recreation center on the first question by a 71% to 22% majority, increasing by 9 points to an 80% to 17% majority on the second question after information.

## Telephone Survey Questions and Responses (continued)

Demographic groups saying that no one in their household uses VBCT recreational programs and facilities by more than the district-wide 49% included:

70%:	Incomes of \$25K-\$50K
69%:	Incomes under \$25K
65%:	No one uses programs or facilities in other communities
64%:	HS or less education
63%:	Opposes new recreation center on first question Thinks new recreation center not needed with other community programs
61%:	Undecided about location of recreation center (Township office or other)
60%:	No children in household
59%:	Lived in area 1 to 10 years
58%:	Belleville City Opposes new recreation center after hearing info about features Men without a college education
57%:	Opposes including a swimming pool in new recreation center
56%:	Men age 50 and over
55%:	Age 50 and over without college
53%:	Age 50-64 All men

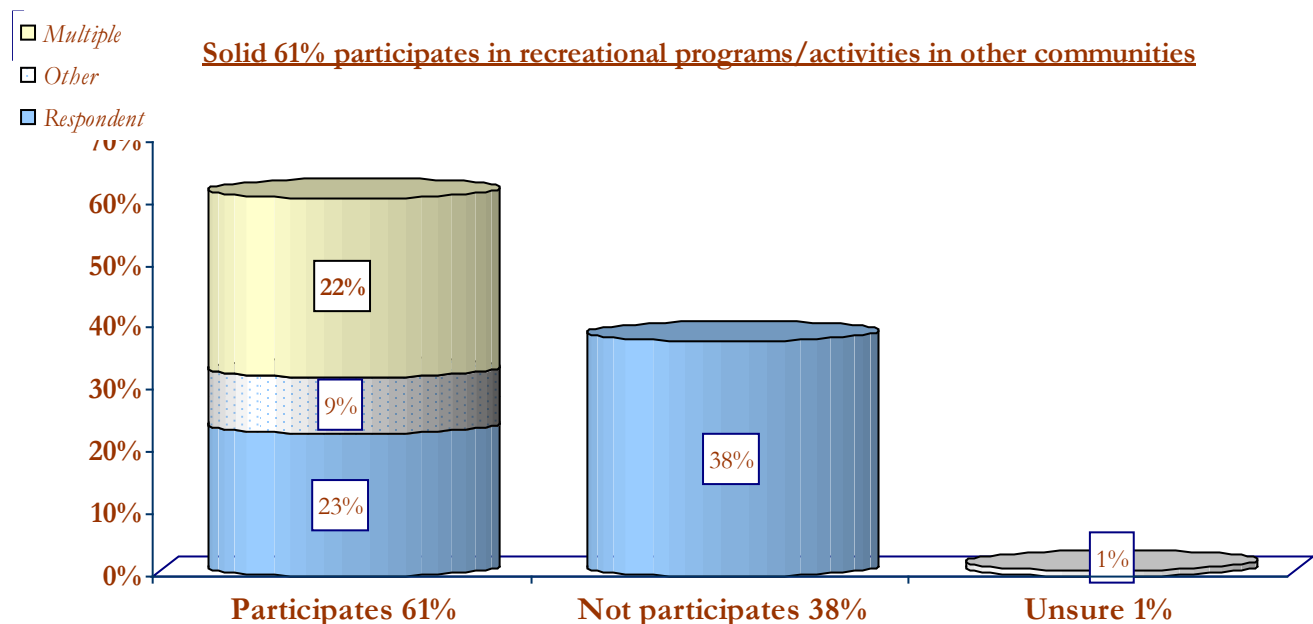

(small sample = \*)

To the extent the groups listed above can be targeted and communicated with (such as all men, residents age 50-64, and City of Belleville residents), these groups can be informed about the existing recreational programs and activities available in the Township, as well as the need for, and benefits, of a new recreation center.

## Telephone Survey Questions and Responses (continued)

### More than 6 out of 10 participates in recreational programs/activities in other communities

A solid 61% majority of VBCT residents said they participate in programs or activities in other communities, including the survey respondent (23%), other household members (9%), or more than one household member (29%). This finding is 11 points higher than the bare 50% of respondents that participate in existing programs or activities provided by the Township, making a strong case for offering more programs or activities.

Residents who said the respondent and another household member use programs and facilities in other communities said they favor a new recreation center on the first question by an 83% to 11% majority, increasing by 3 points to an 86% to 11% majority on the second question following information.

Among residents who said more than one household member uses programs or activities in other communities said they favor a new recreation center on the first question by a 90% to 4% majority, increasing by 6 points to a 96% to 4% majority on the second question after information.

Among residents who said no one uses programs or activities in other communities, they favor a new recreation center on the first question by a 59% to 32% majority, increasing by 12 points to a 71% to 25% majority on the second question after information.

## Telephone Survey Questions and Responses (continued)

Demographic groups saying that they use programs, activities or facilities in other communities by higher percentages than they use the programs, activities or facilities in VBCT, which are above the 11 point difference in the overall results (50% compared to 61%), included:

32%:	College educated age 18-49
31%:	Lived in area 1 to 10 years
30%:	Women age 18-49
29%:	Incomes over \$100K
26%:	Age 18-34
25%:	Undecided about condition of recreational facilities
24%:	Favors including a swimming pool in a new recreation center Age 18-49
23%:	Respondents saying more programs and facilities are needed Undecided about whether more programs and facilities are needed* New recreation center should be located at some other township site Age 35-49
22%:	College educated women
20%:	College educated
19%:	Households with children Men age 18-49
18%:	Negative job rating on providing recreational programs and activities Needs new recreation center even though programs/facilities are nearby
17%:	Favors a new recreation center on the first question Incomes of \$25K-\$50K
16%:	Negative job rating on providing basic Township services Taxes about right Lived in area 11 to 20 years
15%:	College educated men
14%:	Belleville City Age 18-49 without college
13%:	Undecided about job rating for recreational programs and activities* HS or less education All men
12%:	Undecided about level of taxes* New recreation center should be located on Township office site Age 50-64

(small sample = \*)

To the extent the groups listed above can be targeted and communicated with (such as all men, residents age 35-49 and 50-64, men age 18-49, and City of Belleville residents), these groups can be informed about the plans for building a new recreational center, which will provide many of the programs and activities that these groups currently visit other communities to use.

## Telephone Survey Questions and Responses (continued)

### What programs/facilities do VBCT residents use in other communities?

Respondents who said one or more household members use facilities or programs in other communities were asked: “What are the one or two types of programs or activities that you or others in your household have traveled to other communities in order to participate in that are not currently available in VBCT?”

The responses were:

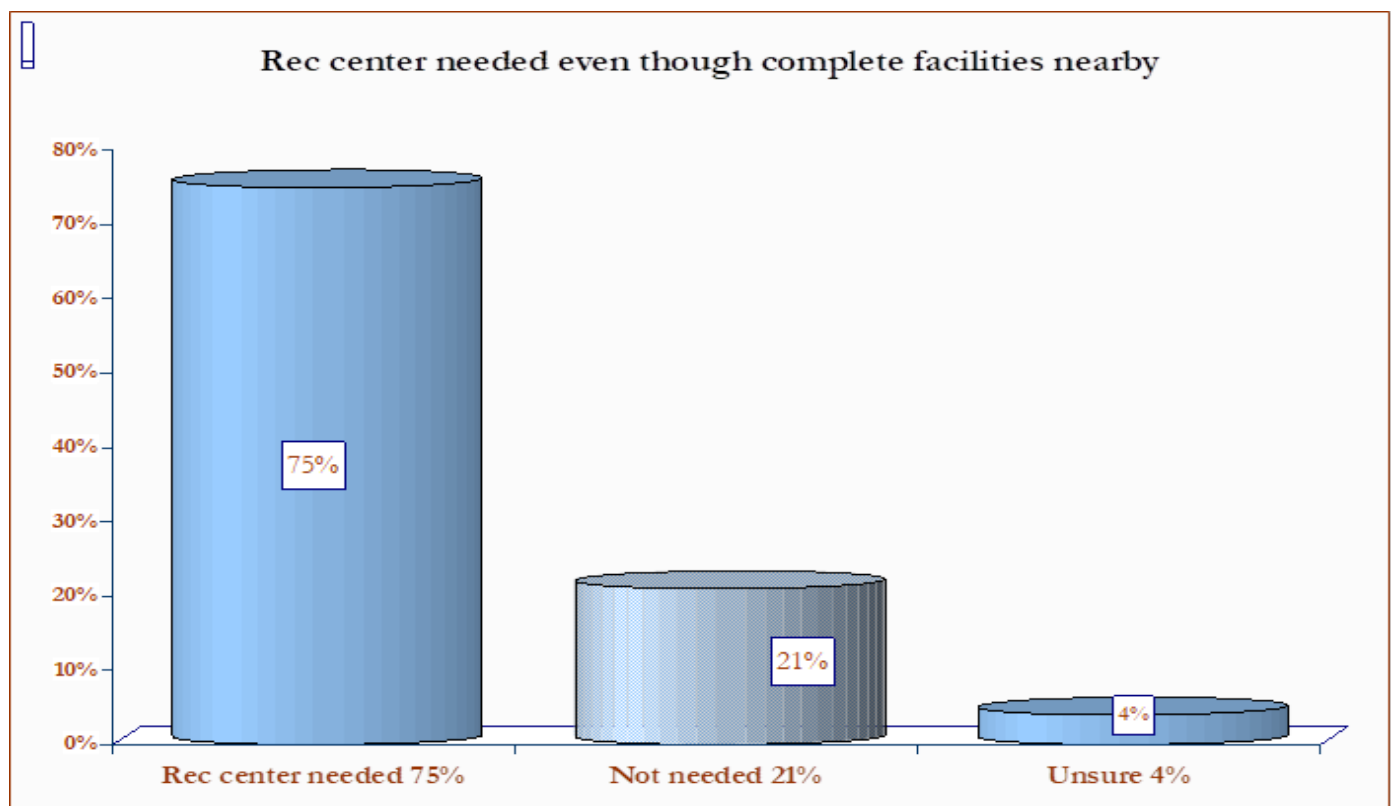

38%	Pool – Swimming
21%	Work Out Rooms – Gym – Fitness/Classes
7%	Indoor Track
6%	Water Park – Splash Pad – Lazy River
4%	Basketball
3%	Soccer
2%	Banquet – Party – Meeting Space
2%	Baseball – Softball
2%	Dancing – Dance Classes
2%	Senior Activities
2%	Trails – Paths – Hiking
2%	Volleyball
1%	Concerts – Music – Theater - Performing Arts
1%	First Aid – CPR – Babysitting Class/Certification
1%	Hot Tub – Sauna
1%	Kids - Teen - Family Activities
1%	Rock Wall – Climbing Wall
1%	Tennis
1%	Yoga - Pilates
2%	Other (less than 1% each)
1%	Undecided/Refused

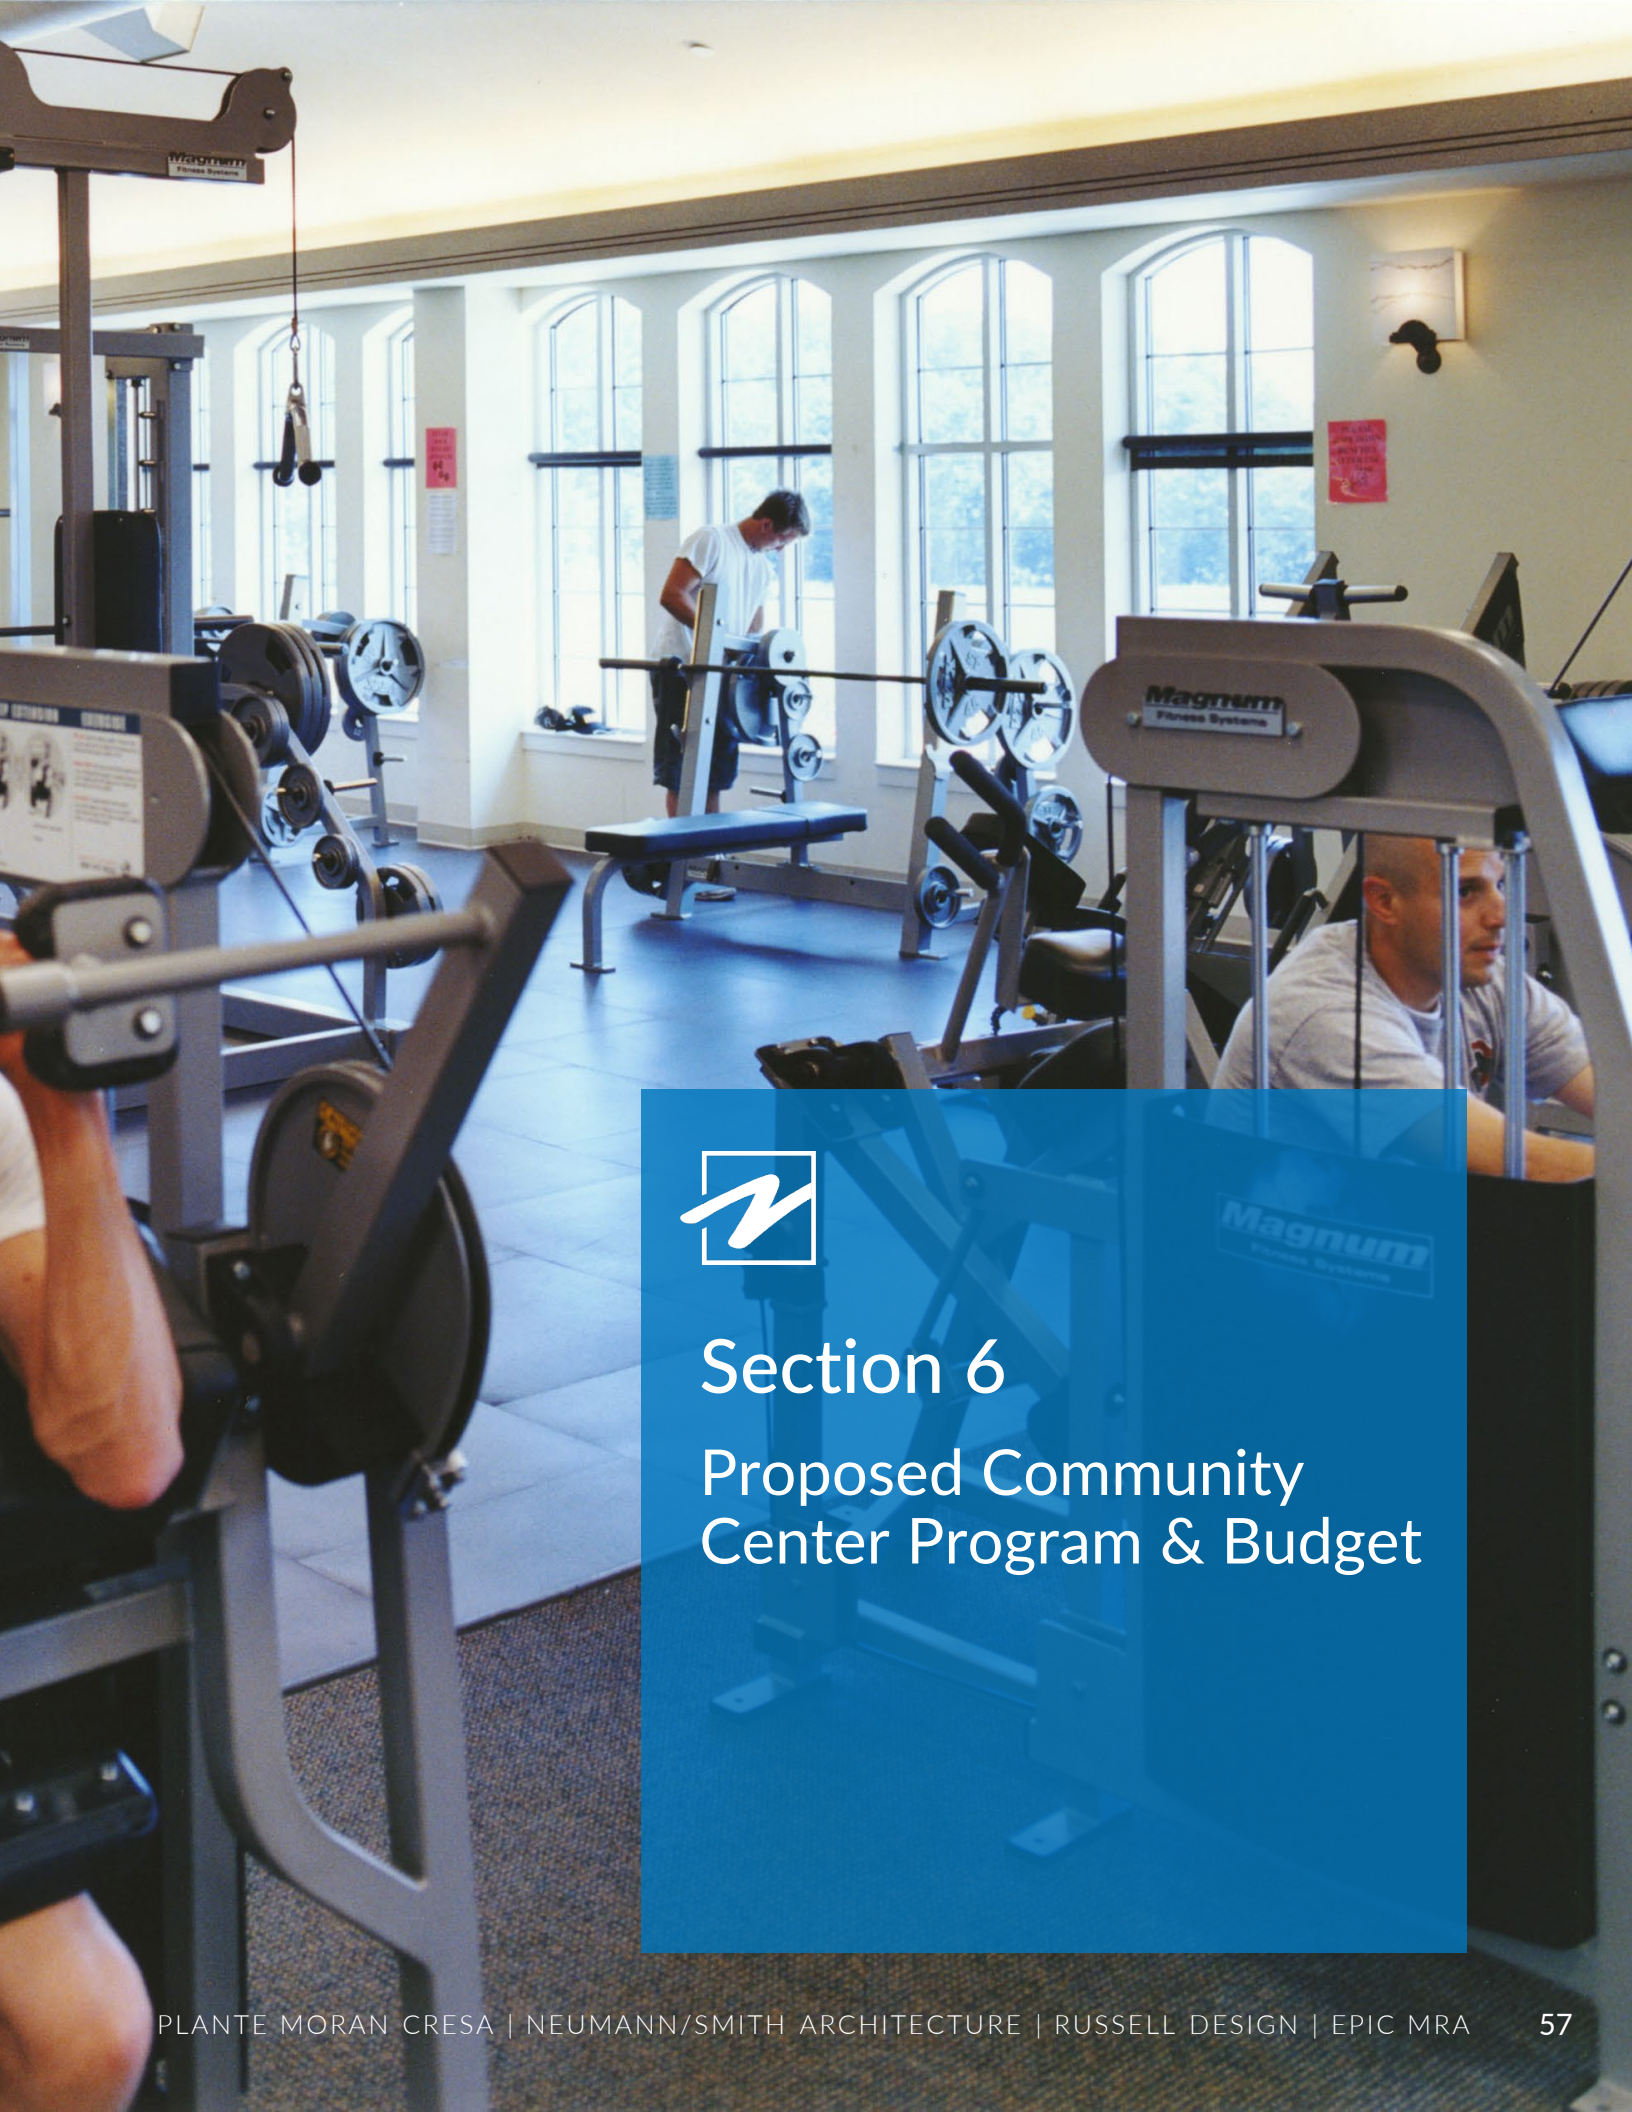

## Telephone Survey Questions and Responses (continued)

### 3 out of 4 say recreation center needed even though other communities have similar offerings

All respondents were asked: “Some residents of VBCT say that a new Community Recreation Center in the township is not really needed because Canton Township has a recreation center, called Summit on the Park, complete with all the facilities and programs anyone could need, located only 5 miles from the Township offices. In addition, Romulus also has an athletic center, called the Romulus Athletic Center, which is only 7 miles from the Township office. Each of these facilities requires a non-resident yearly fee. Knowing this, do you think a recreation center is not really needed in VBCT, or, do you think a recreation center is needed to serve township residents?”

The responses were::

## Section 6

### Proposed Community Center Program & Budget

## Proposed Community Center Program & Budget

---

### Space Program

Below is a general overview of the primary desired program spaces. These are the result of what was learned during the Discovery phase of this study based on review of existing programs, scientific surveys of residents, a workshop associated with the Van Buren Township Master Plan, and interviews with residents, members of the Board of Trustees, department heads, and Parks and Recreation staff.

#### **Gymnasium**

- Sized to accommodate a full high school basketball court (50' x 84'), to allow for 2 smaller basketball courts by dividing the space with a curtain, and flexible to provide for volleyball, pickleball, and other large community events.

#### **Track**

- For walking, jogging, running, suspended within the gymnasium to avoid conflicts with activities occurring on the sport floor.

#### **Fitness Zone**

- An open fitness area including cardiovascular and weight training equipment.

#### **Fitness Studio**

- An enclosed room for aerobics, dance, yoga, martial arts, and other similar activities.

#### **Multi-Purpose Room**

- A flexible room to accommodate additional fitness activities, community meetings, and child watch.

#### **Senior Game Room**

- For billiards, games, and social space.

#### **Multi-Purpose / Party Rooms**

- For community meetings, rental for party celebrations.

#### **Locker / Shower Room**

- Locker rooms and shower facilities (including “family locker room”).

#### **Lounge / Waiting Area**

- Informal sitting area for socializing or waiting.

## Proposed Project Budget

The project budget below was developed using historic cost data for similar building types. Included in the cost numbers are assumptions for site development and improvements, building construction cost, necessary furniture, fixtures, and equipment, and fees associated with surveys, permits, testing, and architectural/engineering services.

Note these are only “estimates of probable cost” based the information available at the programming and conceptual design phase of the project. Many things can impact final costs such as soil conditions, existing building conditions, material selection, etc. Also, the cost estimates are based on 2020 dollars exclusive of future escalation or Covid-19 impacts on material and labor.

Van Buren Charter Twp. Community Center Conceptual Budget Estimate			
4/15/2020	S.F.	Cost/S.F.	Total
<b>Renovated Spaces:</b>			
Senior Game Room	790	\$100	\$79,000
Senior Center Offices	1,270	\$125	\$158,750
Multipurpose/Childwatch	760	\$150	\$114,000
Multipurpose Room	550	\$150	\$82,500
Parks and Rec Offices	995	\$125	\$124,375
Locker Rooms	1,450	\$250	\$362,500
Fitness Studio	1,580	\$100	\$158,000
Fitness Storage	220	\$50	\$11,000
Vending	110	\$100	\$11,000
Fitness Studio	2,390	\$150	\$358,500
Control Desk/Lobby Lounge/Hallway	2,500	\$125	\$312,500
<b>New Additon:</b>			
Gymnasium & Track	9,200	\$275	\$2,530,000
Gymnasium Storage	400	\$200	\$80,000
Gymnasium Mechancial Room	250	\$200	\$50,000
Stairs/Elevator			\$250,000
Front Entry (allowance)			\$200,000
Site Costs (estimate)			\$500,000
FFE (allowance)			\$200,000
			\$5,582,125
Soft Costs - Professional fees, surveys, contingency, testing, etc. (30%)			\$1,674,640
		<b>Project Total</b>	<b>\$7,256,765</b>

## Section 7

### Proposed Community Center Concepts

# Proposed Community Center Concepts

---

## Design Overview

### LOCATION

Results of the survey and stakeholder interviews also showed a preference for community recreation programs to be provided at the Van Buren Township municipal center. Consensus was that this location was appropriate geographically and generally easily accessible to all residents of Van Buren Township. Also, the Parks and Recreation Department is currently located at this location as well as some of the desired programs.

Both a new separate free-standing building and an addition to the existing municipal complex were explored. It was determined that the existing parks and recreation building wing had some value and therefore the final preferred design option was to renovate that part of the building and create an addition to serve additional needs. This was believed to be the most economical solution and with the connection to other municipal departments allowed for synergies and sharing of space and staff.

Changes to the campus site were minimal requiring some reconfiguration of the parking lot and adding more car spaces to meet anticipated increased demand. The placement of the addition had another benefit by terminating the existing municipal building loop drive thereby creating a secured staff and police parking lot.

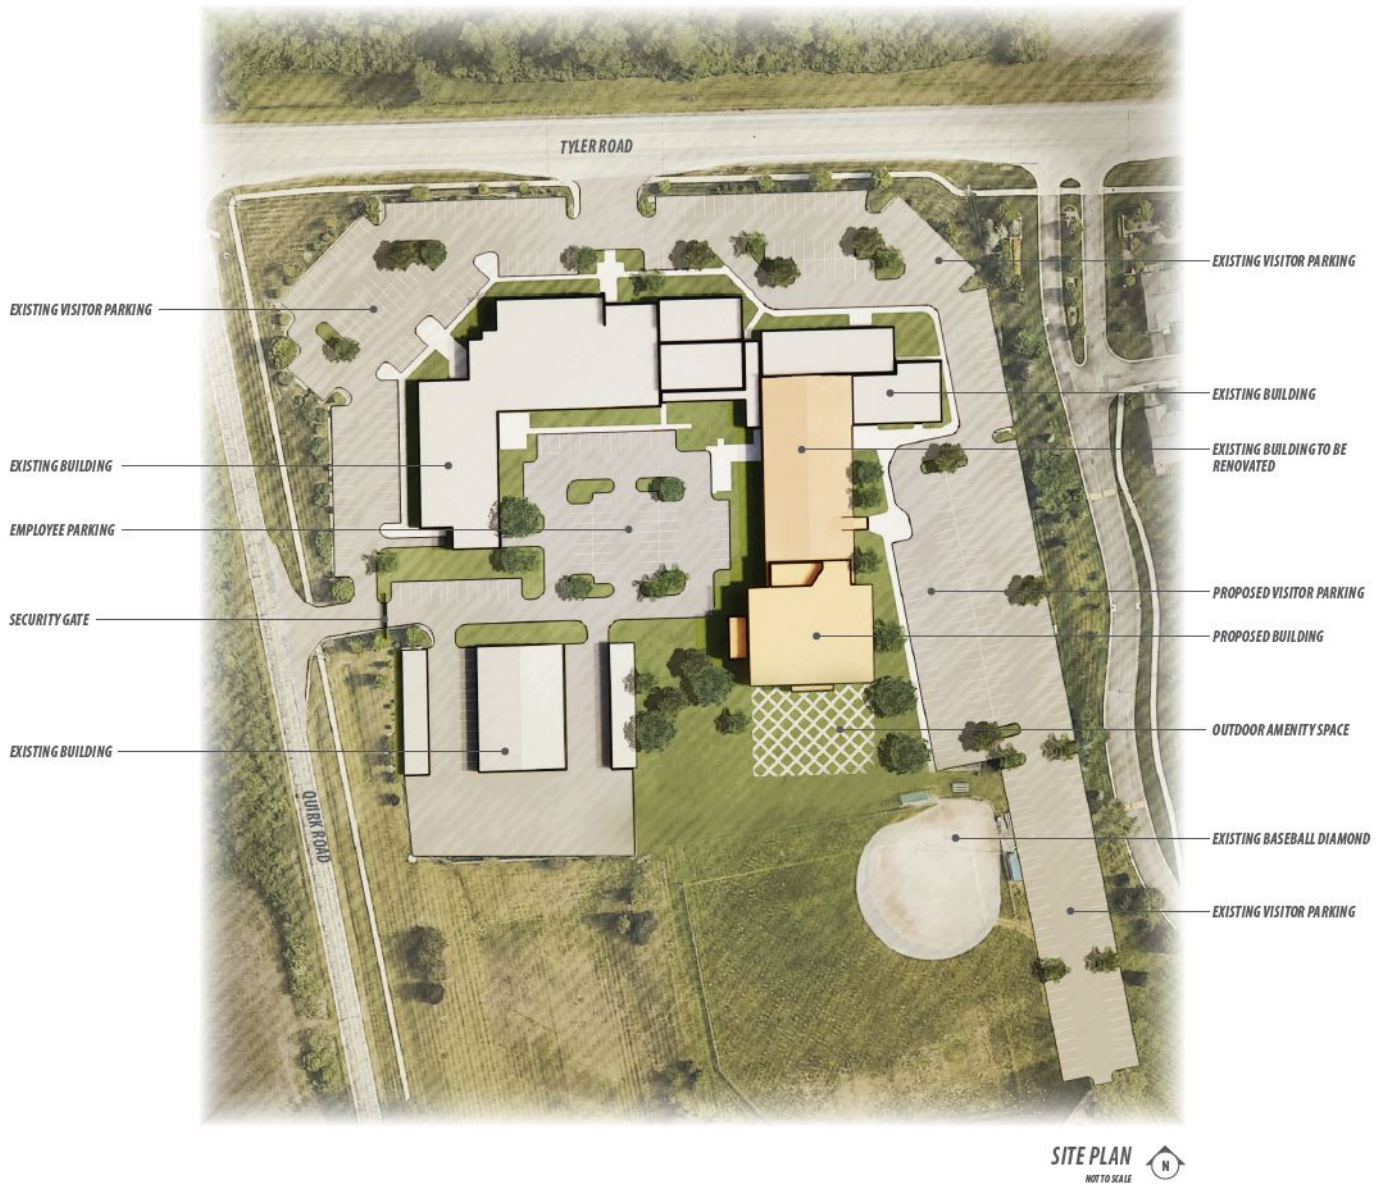

### BUILDING LAYOUT

The building floor plan shows a north-south “main street” corridor flanked by the variety of community and recreation program spaces, connected at the north to the existing east-west municipal building corridor and terminating at the south with a new gymnasium addition. The “quieter” program spaces are placed to the north adjacent to the existing senior center areas and the more active recreation spaces are placed remotely to the south. The main entrance is shifted south further from the senior center and more central to the modified parking lot. Upon entry to the building is placed a greeter desk for access control. Adjacent to this area is a community lounge area with views into the fitness zone and new gymnasium. This area has significant daylight and views to the outdoors. A walk/jog/run track, with views to the outdoors and below to the gym, is placed above the gymnasium floor to avoid conflicts with activities. South of and accessible from the new gymnasium is an outdoor plaza for community events and outdoor recreation activities including night-time movie projection onto the building wall.

### ARCHITECTURE

The conceptual design shows that the new addition would be complimentary to the form and materials of the existing municipal building. Exterior wall materials considered, including the re-skinning of the existing recreation wing, include brick or burnished block. New window openings would be created in the existing wing. A monumental entrance canopy and vestibule defines the main building entrance.

### Operational Analysis

## Expenses

### Expenditures

Generally, personnel costs make up the single highest expense of the overall operational budget for most multi-purpose community/recreation facilities. For the proposed Community Center, personnel costs are projected to be around 60%. Services generally account for 30%, while supplies and miscellaneous items are allocated around 10% of the total expenditures. The size of the proposed facility lends itself to a higher-than-normal VBCT Community Center budget for services due to the increased utility expenditures and increased staff needs.

#### Personnel Services – Located in the current Parks & Recreation Department

Current Full & Part Time Staff - Recreation	Salaries	Benefits	Total Cost
Parks & Recreation Staff	\$239,977	\$109,000	\$348,977
Director			
Deputy Director			
Recreation Wages			
Current Full & Part Time Staff - Parks & Lake	Yearly Pay Allocation	Benefits	Total Cost
Park & Lake Staff	\$101,848	\$7,791	\$101,848
<b>Total Full &amp; Part Time:</b>	<b>\$341,825</b>	<b>\$116,791</b>	<b>\$450,825</b>

The total costs listed above include the salaries, wages, and benefits packages for full-time and part-time staff. Full-time staff for the community center include:

- 1 - Parks & Recreation Director (Existing Position)
- 1 - Parks & Recreation Deputy Director (Existing Position)
- 1 - Senior Director (Existing Position)
- 1 - Buildings & Ground Staff (Existing Position)
- 1 - Janitor (Existing Position)

### Expenses (continued)

Part-time staff includes:

- Park Staff
- Senior Staff (Meals on Wheels and Senior Drivers)
- Front Desk Receptionist

The proposed Community Center will require additional staff for its operation due to the additional square footage and program offerings to the VBCT community. Listed below are the recommended new staff positions and associated potential staff costs associated with an expanded Community Center:

3 - Child Watch (New part-time positions)

44 hours/week x 1.5 employees x \$15 = \$990/week x 52 weeks = \$51,480/year \*

1- Program/Facility Coordinator (New position)

28 hours/week x \$20 = \$560/week x 52 weeks = \$29,120/year

1 – Custodial

\$60,000/year

*Staffing cost for child watch will be subsidized from revenues received from patron use fees. Hourly rates do not include benefits due to part-time status.*

#### **Evening and Weekend Coverage**

The staffing plan includes evening and weekend coverage by full-time, benefitted staff during the majority of facility operation hours. Part-time employees would be assigned to reception and child watch responsibilities.

#### **Custodial and Maintenance Coverage**

Routine and daily set up and maintenance responsibilities will be provided by current maintenance staff. Janitorial and deep-cleaning tasks for the expanded facility will be completed by an additional custodian staff member.

#### **Supplies**

For the proposed Community Center, supplies are projected to account for 10% of the operational budget. The budgeted supplies are mostly consistent with expectations for similar types of community/recreation facilities. This category of expenses includes items such as program, operating, office, computer supplies, postage, staff uniforms, tools, equipment parts, books, identification card supplies, resale merchandise, concession supplies, and miscellaneous items. It is anticipated that this figure will increase over time due to inflation.

### Expenses (continued)

#### **Services**

With the uncertainty of utility costs such as natural gas and electricity prices, service expenses can consume as much as 30% of many operation budgets. The estimated utility costs for the high volume of space within the facility accounts for a higher-than-normal percentage of the services budget. For this analysis, utilities are estimated to be \$2 per square foot per year. Depending on the final design of the facility and the incorporation of energy saving equipment, this cost can decrease.

Other typical services include contracted instructional services, marketing and advertising, printing and publishing, travel and training, subscriptions and memberships, telephone, bank charges and administrative fees, miscellaneous service charges (permits, licenses, taxes, fees), building and equipment maintenance (contractual or rental services), other contracted services (custodial services, security and fire systems, elevator, garbage pick-up, etc.), utilities, property and liability insurance, and building maintenance and repair.

Expenditure estimates are based on the type and size of the activity and support spaces in the facility and the anticipated hours of operation. When possible and wherever available, calculations are based on actual best practice or methodology. All other expenses are estimated based on our research and reported experience at similar facilities.

#### **Capital Improvement Allocation**

The Capital Improvement Funds are general funds transferred out after the actualization of the operating budget. A limited capital renovation allocation for building improvements and equipment should be included in order to keep the facility up-to-date and to provide state-of-the-art equipment. It is not anticipated that this allocation will be needed in the first several years of operation, but that the allocation will accumulate over time and be carried forward for future use. For budgetary purposes, future capital improvements should be budgeted at 3% of operating budget and equipment should be budgeted at 1% of operating budget.

# Revenue

### Revenue Forecast

Revenues are forecast based on several existing programs, grants, donations, gift shop revenue, and potential senior bequest funds. The proposed Community Center can generate additional revenue from various programs listed below:

- Exercise class offerings
- Facility room rentals
- Child watch
- Vending or concessions
- Partnership funding
- Daily admissions, punch cards, and passes

Revenue forecasts are based on the space components included in the facility, the demographics of the local service area, the current status of alternative providers in the service area, and a comparison to other facilities with similar components in the surrounding area. Actual figures will vary based on the final design of the facility and the activity spaces included, the market at the time of opening, the designated facility operating philosophy, the aggressiveness of membership fees (if implemented) and use policies adopted, and the type of marketing effort undertaken to attract potential users to the facility. The revenue forecast will require a developed marketing approach by staff in order to meet revenue goals.

### Cost Recovery

The cost recovery goal for the Community Center is estimated to be between at 90-95%, which will serve as the basis for facility operations planning. This cost recovery target will change depending on funding received from general fund, grants, millages, rentals and business partnerships.

A continual goal should always be to sustain cost recovery through a focused staff effort, as well as high-quality facility management, customer service, and marketing. With an inevitable increase in operations costs, VBCT should be aware of the financial commitment to build and operate a community center addition.

### Taxes

Taxes are not included for or reflected in potential membership fees, rentals, vending, etc., on either the revenue or expense side.

### Revenue (continued)

#### Potential User Fees

Most community centers that operate on a break-even cost-neutral model have a population of more than 50,000 individuals and are between 70,000-80,000 square feet. The population within the primary service area falls short of the 50,000 number while the secondary service area significantly exceeds this figure.

The proposed potential user fee structure reflects preliminary figures that correspond to the operational budget and cost recovery philosophy. These can be revised based on the Township's needs and changes to the service levels. Daily access cards and pass fees include admission for drop-in use to the facility for gymnasium, cardio/fitness, stretching and weight use, and senior activity area. Separate fees could be charged for access to programs such as aerobics classes, general instruction, specialized fitness (e.g., weight training, personal training, yoga, Pilates, etc.), and batting cages (if provided).

If a fee schedule is developed for the facility, it could also include other fee options such as a six-month, three-month, or seasonal passes; memberships with initiation fees; matinee and/or peak pricing (particularly for rentals); as well as other options.

#### Long-Term Operating Budget

Building a sustainable budget means that revenues and expenses will keep pace over time. The proposed operating budget for the proposed Recreation Center has been developed with sustainable revenue-generating components. It is anticipated that expenditures for personnel, supplies, and services will increase 3-4% per year. In order to keep pace with rising expenditures and not lose ground, fees for admissions, programs, rentals, and other services will need to be increased incrementally per year at a rate greater than the expenditures.

#### Achieving Desired Results

It is, of course, desirable to achieve the projected results presented in the operational pro forma. Additionally, it is important that the operations of the new facility not create a funding burden on VBCT and that the cost-recovery structure and associated goals be developed to ensure that programs will contribute to the financial success of the facility.

### Revenue (continued)

The current senior center is funded with grants received through Wayne County and the Senior Alliance. There are approximately 1,600 to 1,800 members, and 85% of these members are residents of the VBCT community. Residents pay a nominal \$20 per year and non-residents pay \$25 per year, which generate a total of \$35,000 yearly membership revenue.

The gift shop, which is run by community volunteers, has a monthly “shelf rental” program for goods and generates approximately \$3,000 per year.

Depending on the business model that VBCT chooses, memberships and admissions generally account for 65% or more of all revenue generation in a multi-generational community center of this type with the hope to recover 100% of operational revenues. Due to the operational impact of memberships on sustainability, membership structure can be vital to help supplement costs. Based on the pro forma, it can be assumed that the membership fee is covering potential short falls with general fund and other revenue sources. This requires the building to be programmed at approximately 90-95% to achieve the cost recovery goal desired. This limits the amount of open non-programmed activity to the walking track, fitness center, and gymnasium free time.

Many public facilities utilize a multi-tiered pass structure that provides access to specific areas depending on program offerings. This access dilution effectively deteriorates the revenue generating capabilities of the operation because one feature typically outdraws and outperforms the other. It is recommended to only provide space-specific passes to achieve product differentiation when a significant market threat is posed by a like-service provider.

The potential fee schedule below was developed as a criterial for estimating revenues to help support operations for a like-sized facility with similar offerings. The monthly rate listed is the potential cost of an annual pass divided by 12 equal payments. It should be noted that the convenience of monthly bank draft withdrawals for residents would encourage more annual pass sales. Bank withdraw services require additional bank fees and staff time spent on handling fees for bank draft customers. A portion of the potential fees below would be directed to a capital reserve account for future capital equipment replacement.

Potential Van Buren Community Center Membership Fees		
Membership Type	Resident	Per Month
Individual	\$190	\$15.83
Senior	\$145	\$12.08
Student	\$160	\$13.33
Couples	\$360	\$30.00
Family	\$400	\$33.33
Child Watch	\$5.00	
Note: Membership fees are based upon a non-aquatic program facility.		

## Projected Community Center Budget

Provided below is a projected Community Center budget based on historical data provided, current and potential staffing costs, added Community Center amenities, and potential revenue. The budget numbers provided are projected through 2023, assuming existing grants and other funding sources for operations are maintained. As the building ages, capital funds devoted towards the Community Center should increase to accommodate inflation, employment/staffing costs, and equipment replacement.

Projected Community Center Budget							
Expenses - Recreation	2020 Budget	Additional	2020 Total Budget	2021 Budget	2022 Budget	2023 Budget	Notes
Staff Costs	\$348,977	\$140,600	\$348,977	\$362,936	\$503,536	\$523,678	Child watch \$51,480, Programing \$29,120, Custodial \$60,000
Operational Supplies	\$3,000	\$10,000	\$3,000	\$3,120	\$13,245	\$13,775	\$0.49/s.f., concessions and additional supplies for addition

## Appendix 1

### EPIC MRA Telephone Survey Questionnaire

# EPIC MRA Telephone Survey Questionnaire

**EPIC-MRA – Van Buren Charter Township Recreational Survey**  
**[FREQUENCY REPORT OF SURVEY RESPONSES – 250 SAMPLE – ERROR ±6.2%]**  
**Polling Dates: November 9<sup>th</sup>, 2019 through November 12<sup>th</sup>, 2019**  
***(35% completed via cell phones)***

**SAMPLE: 1=Cell/2=Land**

**DATE:** \_\_\_\_\_ / \_\_\_\_\_ / \_\_\_\_\_

**PHONE:** \_\_\_\_\_

**JURIS:** \_\_\_\_\_ **INTERVIEWER:** \_\_\_\_\_

Hello, this is **(Name)** from **EPIC-MRA**, a Lansing based survey research firm. We're conducting a survey among residents in your area about important local issues. We are not trying to sell anything, you will not be asked for a donation and you will not be called again because you participated in a survey. This is strictly research and I'd like to take about 10 minutes to include the opinions of your household.

We need to have a balance of men and women in this survey, and we also need to have young residents represented. May I please speak to the youngest **[MALE/FEMALE, depending on quota specified on list]** adult resident, age 18 or older, who is at home now?

**IF YES: REPEAT INTRODUCTION FOR NEW RESPONDENT AND CONTINUE**

**IF NO, ASK:** "Is there any other **[MALE/FEMALE, as specified]**, 18 years or older, who is at home right now?" **IF NOT, TERMINATE INTERVIEW**

**\_\_01. In what city, village or township do you reside and pay taxes? [DO NOT READ]**

80%	Van Buren Charter Township -----	<b>CONTINUE INTERVIEW</b>
20%	City of Belleville -----	<b>CONTINUE INTERVIEW</b>
---	Some other city, village or township -----	<b>TERMINATE INTERVIEW</b>
---	Undecided/Refused <b>[ASK: "Do you live in the Van Buren Township, or, in the City of Belleville?" - IF YES, CODE '1' OR '2' &amp; CONTINUE -- IF STILL UNDECIDED OR OTHER COMMUNITY NAMED –THANK AND TERMINATE]</b>	

**\_\_02. Over the past few years, how would you rate the job that Van Buren Township has done providing basic township services to its residents? Would you give Van Buren Township a positive rating of excellent or pretty good, or a negative rating of just fair or poor?**

16%	Excellent
60%	Pretty good
76%	<b>TOTAL POSITIVE</b>
19%	<b>TOTAL NEGATIVE</b>
16%	Just fair
3%	Poor
5%	Undecided/Refused

\_\_03. Thinking about the quality of the township services you receive from Van Buren Township in return for the taxes and fees you pay to fund them, do you think the taxes you pay are too high, too low, or about right for what you get back in services? **[IF TOO HIGH, ASK: “Would that be much or somewhat too high?” AND CODE BEST RESPONSE]**

11%	Much too high
24%	Somewhat too high
<b>35%</b>	<b>TOTAL TOO HIGH</b>
57%	About right
1%	Too low
7%	Undecided/Refused

\_\_04. Thinking specifically about the job Van Buren Township has done providing a variety of services related to parks, and especially recreational programs and facilities - including sports, educational programs, classes, and social and enrichment activities – over the past few years, how would you rate the job the Township has done providing such services to its residents? Would you give Van Buren Township a positive rating of excellent or pretty good, or a negative rating of just fair or poor?

24%	Excellent
43%	Pretty good
<b>67%</b>	<b>TOTAL POSITIVE</b>
<b>24%</b>	<b>TOTAL NEGATIVE</b>
19%	Just fair
5%	Poor
9%	Undecided/Refused

\_\_05. Do you believe that Van Buren Township has enough recreational programs and facilities to support the current needs of the community, are more needed, or, do you think there are too many offered now? **[IF MORE NEEDED, ASK: “Would that be much more, or somewhat more?” AND CODE BEST RESPONSE]**

16%	Much more needed
28%	Somewhat more needed
<b>44%</b>	<b>TOTAL MORE NEEDED</b>
40%	Enough
4%	Too many
12%	Undecided/Refused

\_\_06. Overall, how would you rate the condition of the parks, but especially the recreational facilities in Van Buren Township? Would you give them a positive rating of excellent or pretty good, or a negative rating of just fair or poor?

23%	Excellent
50%	Pretty good
<b>73%</b>	<b>TOTAL POSITIVE</b>
<b>21%</b>	<b>TOTAL NEGATIVE</b>
17%	Just fair
4%	Poor
6%	Undecided/Refused

\_\_07. Although there is currently a small recreation center that offers some recreational and enrichment programs, with other programs offered at the senior center, Van Buren Charter Township is considering building a new community recreation center in the township, likely located at the Township office site. If a new township community recreation center is built, it would be funded from existing revenue that would become available over the next couple of years as existing township bonded debt is paid off. The kind of community recreation center envisioned would likely cost between \$6 million to \$7 million to build, depending on what features were included in the facility. If the cost exceeds that, other financial options, such as user fees, may be needed. **However, it would not require a tax increase.** Based on what you may know or have heard or read about the plans discussed for a community recreation center, do you favor or oppose building such a facility? [IF FAVOR/OPPOSE, ASK: “Would that be strongly or somewhat?” AND CODE BEST RESPONSE]

50%	Strongly favor	<b>GO TO Q.9</b>
26%	Somewhat favor	<b>GO TO Q.9</b>
<b>76%</b>	<b>TOTAL FAVOR</b>	
<b>17%</b>	<b>TOTAL OPPOSE</b>	
6%	Somewhat oppose	
11%	Strongly oppose	
7%	Undecided/Refused	<b>GO TO Q.9</b>

\_\_08. What is the main reason why you **OPPOSE** building a new community recreation center?  
**[WRITE COMMENT AS STATED]**

**N=43**

- 21% Existing Senior Center-Recreation Center is Fine as Is
- 14% Not Needed
- 14% Other Priorities are More Important (Roads Mentioned)
- 12% Would Not Use Personally – Would Go Unused
- 9% Believe it Will Raise Taxes
- 7% Distrust the Township Administration – Wasteful Spending Practices
- 5% Want a Tax Refund Instead
- 2% Location
- 2% Similar Facilities/Offerings Available in Canton
- 2% Similar Facilities/Offerings Available in General
- 2% Similar Facilities/Offerings Available in Romulus
- 2% Too Much Money – Costly
- Other (*less than 1% each*)
- 8% Undecided/Refused

\_\_09. If a new recreation center is built, do you think it should be located on the Township office site, where there are existing utilities, parking, athletic fields, and staff operations, or, do you think it should be located at some other site in the township?

- |     |   |                            |

**INTRO TO Q.11:**

Putting aside whether you said that you **FAVOR** or **OPPOSE** building a community recreation center in Van Buren Township, again, knowing that construction of such a facility would NOT require a tax increase, now I would like to describe some of the features that would likely be included in a such a facility. For each feature I describe, please tell me if you support or oppose including it in a new community recreation center. **[PROBE TO SEE IF STRONGLY/ SOMEWHAT SUPPORTS/OPPOSES EACH]**

		<b>Strg</b>	<b>TOT</b>	<b>TOT</b>	<b>Strg</b>	<b>DK/</b>
		<b>SUP</b>	<b>SUP</b>	<b>OPP</b>	<b>OPP</b>	<b>UND</b>
___11.	A large gymnasium that would allow for basketball, volleyball, pickle ball, and other sports activities, as well as locker room space for men and women visitors would be included at an estimated cost of \$4.7 million. Do you support or oppose including this feature in a community recreation center?	51%	<b>78%</b>	<b>18%</b>	12%	4%

The rest of the \$6 to \$7 million not spent on a gymnasium or, approximately \$1.3 to \$2.3 million, could be used on any or all of the following items. Again, for each feature I describe, please tell me if you support or oppose including it in a new community recreation center. **[PROBE TO SEE IF STRONGLY/ SOMEWHAT SUPPORTS/OPPOSES EACH]**

<b>[ROTATE Q.12 THROUGH Q.14]</b>		<b>Strg</b>	<b>TOT</b>	<b>TOT</b>	<b>Strg</b>	<b>DK/</b>
		<b>SUP</b>	<b>SUP</b>	<b>OPP</b>	<b>OPP</b>	<b>UND</b>
___12.	A running and walking track could be included as part of the gymnasium.	60%	<b>83%</b>	<b>15%</b>	9%	2%
___13.	A fitness/workout/weight and exercise room with a variety of exercise and weight-lifting equipment could be constructed.	56%	<b>80%</b>	<b>18%</b>	12%	2%
___14.	Meeting rooms could be included because existing township facilities do not have enough meeting space to meet the demand and such rooms could be part of the new recreation facility.	39%	<b>72%</b>	<b>25%</b>	16%	3%

\_\_15. After hearing a description of the features that would likely be included in a new community recreation center, knowing that the facility would be funded at an estimated cost of about \$6 to \$7 million with existing township funding, but would not require a tax increase, would you **FAVOR** or **OPPOSE** building a new community recreation center? **[IF FAVOR/OPPOSE, ASK: “Would that be strongly or somewhat?” AND CODE BEST RESPONSE]**

60% Strongly favor  
 23% Somewhat favor  
**83% TOTAL FAVOR**  
**15% TOTAL OPPOSE**  
 5% Somewhat oppose  
 10% Strongly oppose  
 2% Undecided/Refused

If Van Buren Township was able to raise an additional \$500,000 to \$600,000 for a community recreation center, there are two other features that could be included in the facility, each costing roughly the same amount. Again, this would not require a tax increase, but these features may be paid for by charging user fees. For each of the following features, please tell me if you support or oppose including that feature in a new community recreation center. **[PROBE TO SEE IF STRONGLY/SOMEWHAT SUPPORTS/ OPPOSES EACH]**

[ROTATE Q.16 AND Q.17]		Strg SUP	TOT SUP	TOT OPP	Strg OPP	DK/ UND

***(Please note: totals do not equal 100% due to rounding)***

22A-B. What are the one or two types of programs or activities that you or others in your household have traveled to other communities in order to participate in that are not currently available in Van Buren Township? **[PROBE FOR UP TO TWO RESPONSES – WRITE COMMENTS AS STATED]**

**N=152**

38%	Pool – Swimming
21%	Work Out Rooms – Gym – Fitness/Classes
7%	Indoor Track
6%	Water Park – Splash Pad – Lazy River
4%	Basketball
3%	Soccer
2%	Banquet – Party – Meeting Space
2%	Baseball – Softball
2%	Dancing – Dance Classes
2%	Senior Activities
2%	Trails – Paths – Hiking
2%	Volleyball
1%	Concerts – Music – Theater - Performing Arts
1%	First Aid – CPR – Babysitting Class/Certification
1%	Hot Tub – Sauna
1%	Kids - Teen - Family Activities
1%	Rock Wall – Climbing Wall
1%	Tennis
1%	Yoga - Pilates
2%	Other ( <i>less than 1% each</i> )
1%	Undecided/Refused

23. Some residents of Van Buren Township say that a new Community Recreation Center in the township is not really needed because Canton Township has a recreation center, called Summit on the Park, complete with all the facilities and programs anyone could need, located only 5 miles from the Township offices. In addition, Romulus also has an athletic center, called the Romulus Athletic Center, which is only 7 miles from the Township office. Each of these facilities requires a non-resident yearly fee. Knowing this, do you think a recreation center is not really needed in Van Buren Township, or, do you think a recreation center is needed to serve township residents?

75%	Recreation center IS needed
21%	Recreation center is NOT needed
4%	Undecided/Refused

\_\_24. If a community recreation center in Van Buren Township were built to include a swimming pool - which could include a recreation pool, spa, therapy pool and lap pool - it would cost an additional \$5.5 million. However, a swimming pool could not be funded from existing revenues. It would require a tax increase of 1 mill to pay for it, which would raise \$850,000 per year to fund the construction of a swimming pool. Knowing this, would you favor or oppose building a swimming pool as part of the plans for a community recreation center? **[IF FAVOR/ OPPOSE, ASK]:** “Would that be strongly or somewhat?”

29%	Strongly favor
11%	Somewhat favor
<b>40%</b>	<b>TOTAL FAVOR</b>
<b>54%</b>	<b>TOTAL OPPOSE</b>
16%	Somewhat oppose
38%	Strongly oppose
6%	Undecided/Refused

Finally, I would like to ask you a few questions for statistical purposes only.

\_\_25. Do you have children living in your home who are school age or younger?

34%	Yes
66%	No
---	Undecided/Refused

\_\_26. Could you please tell me in what year you were born? **[IF REFUSED, ASK: ‘Would you please tell me into which of the following categories your age would fall? Please stop me when I get to a category that applies to you.’ AND READ 1 TO 4]**

**[RECORD YEAR HERE \_\_\_\_\_ AND THEN CODE BELOW]**

17%	18 to 34 years	<b>(1985 to 2001)</b>
26%	35 to 49	<b>(1970 to 1984)</b>
30%	50 to 64	<b>(1955 to 1969)</b>
25%	65 and over	<b>(1954 or before)</b>
2%	Undecided/Refused	

\_\_27. How long have you lived in [Van Buren Township/City of Belleville – **BASED ON ANSWER TO Q.1**]?

3%	2 years or less
8%	3 to 5 years
13%	6 to 10 years
27%	11 to 20 years
49%	Over 20 years
---	Undecided/Refused

\_\_28. What is the last grade or level of schooling you completed? **[DO NOT READ – CODE BEST RESPONSE]**

3%	1st to 11th Grade
24%	High School Graduate
3%	Non-college post high school (technical training)
23%	Some college
33%	College graduate
12%	Post graduate school
2%	Undecided/Refused

\_\_29. Would you please tell me into which of the following categories your total yearly household income falls --- including everyone in the household? Please stop me when I get to the category that applies to you? **[READ 1 TO 6]**

6%	Under \$25,000
16%	\$25,000 to \$50,000
15%	\$50,000 to \$75,000
18%	\$75,000 to \$100,000
15%	\$100,000 to \$150,000
10%	Over \$150,000
---	Retired <b>(VOLUNTEERED - ASK: “But is there an income category I read that would apply to your household?” AND CODE BEST RESPONSE)</b>

**Data Note:** An MPI (Market Potential Index) measures the relative likelihood of the adults or households in the specified trade area to exhibit certain consumer behavior or purchasing patterns compared to the U.S. An MPI of 100 represents the U.S. average.

**Source:** These data are based upon national propensities to use various products and services, applied to local demographic composition. Usage data were collected by GfK MRI in a nationally representative survey of U.S. households. Esri forecasts for 2019 and 2024.
