

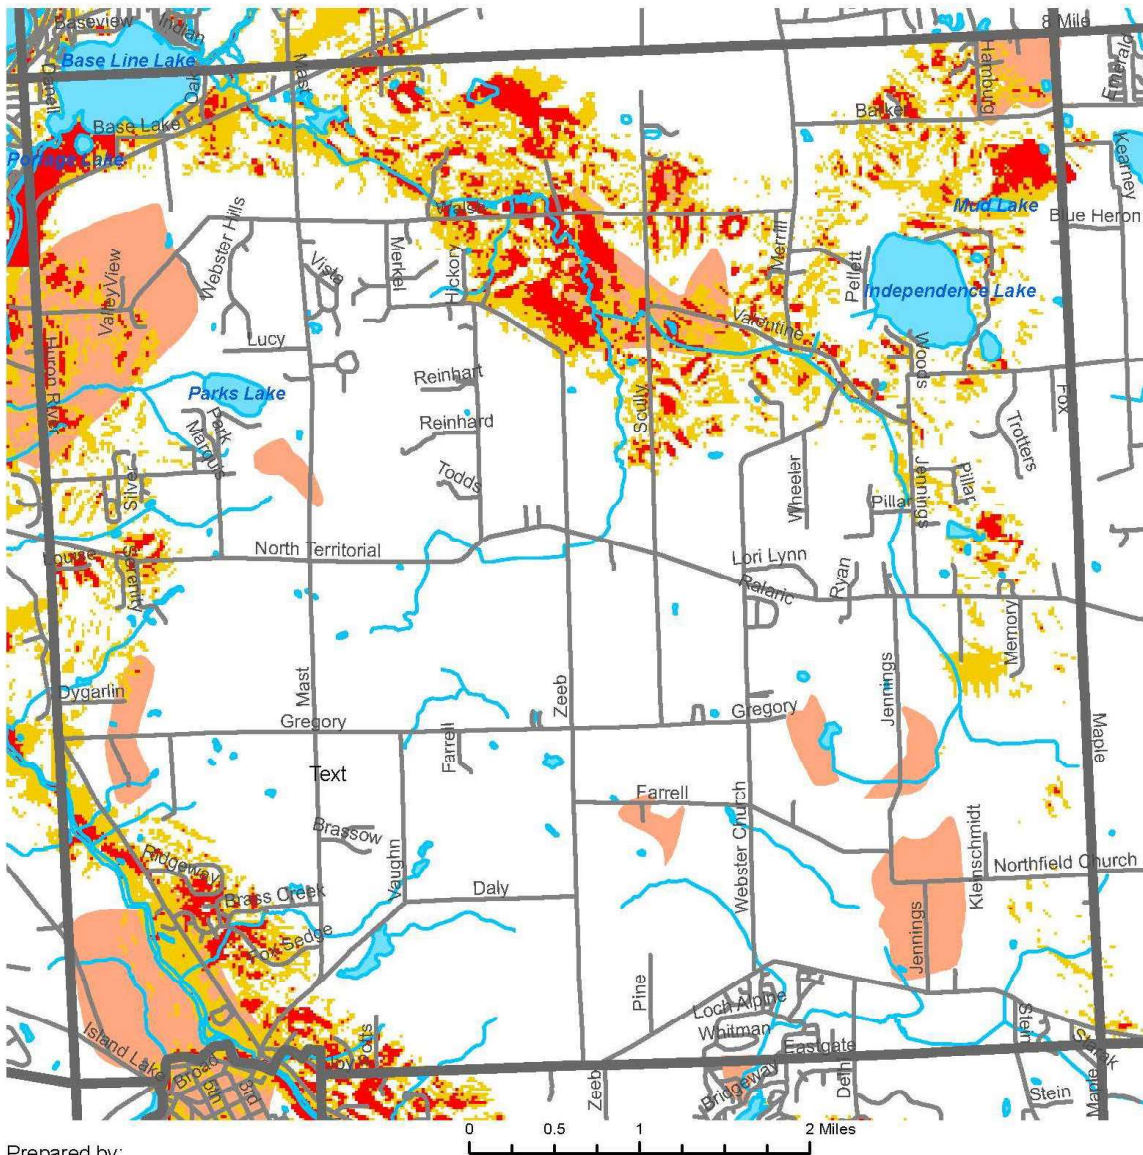

**Map 14: Groundwater Recharge Areas**

Prepared by:

### Webster Township Groundwater Recharge Areas

- Washtenaw County groundwater recharge areas
- Higher than average probability; 1 to 6 standard deviations from mean probability
- Much higher than average probability; over 6 standard deviations from mean

**Data Sources:** 1. University of Michigan: Areas of high elevation and permeable soils and geology have a high probability for providing groundwater recharge. 2. Washtenaw County: areas of unconfined drift aquifers.
