GENERAL LANDSCAPE GUIDELINES

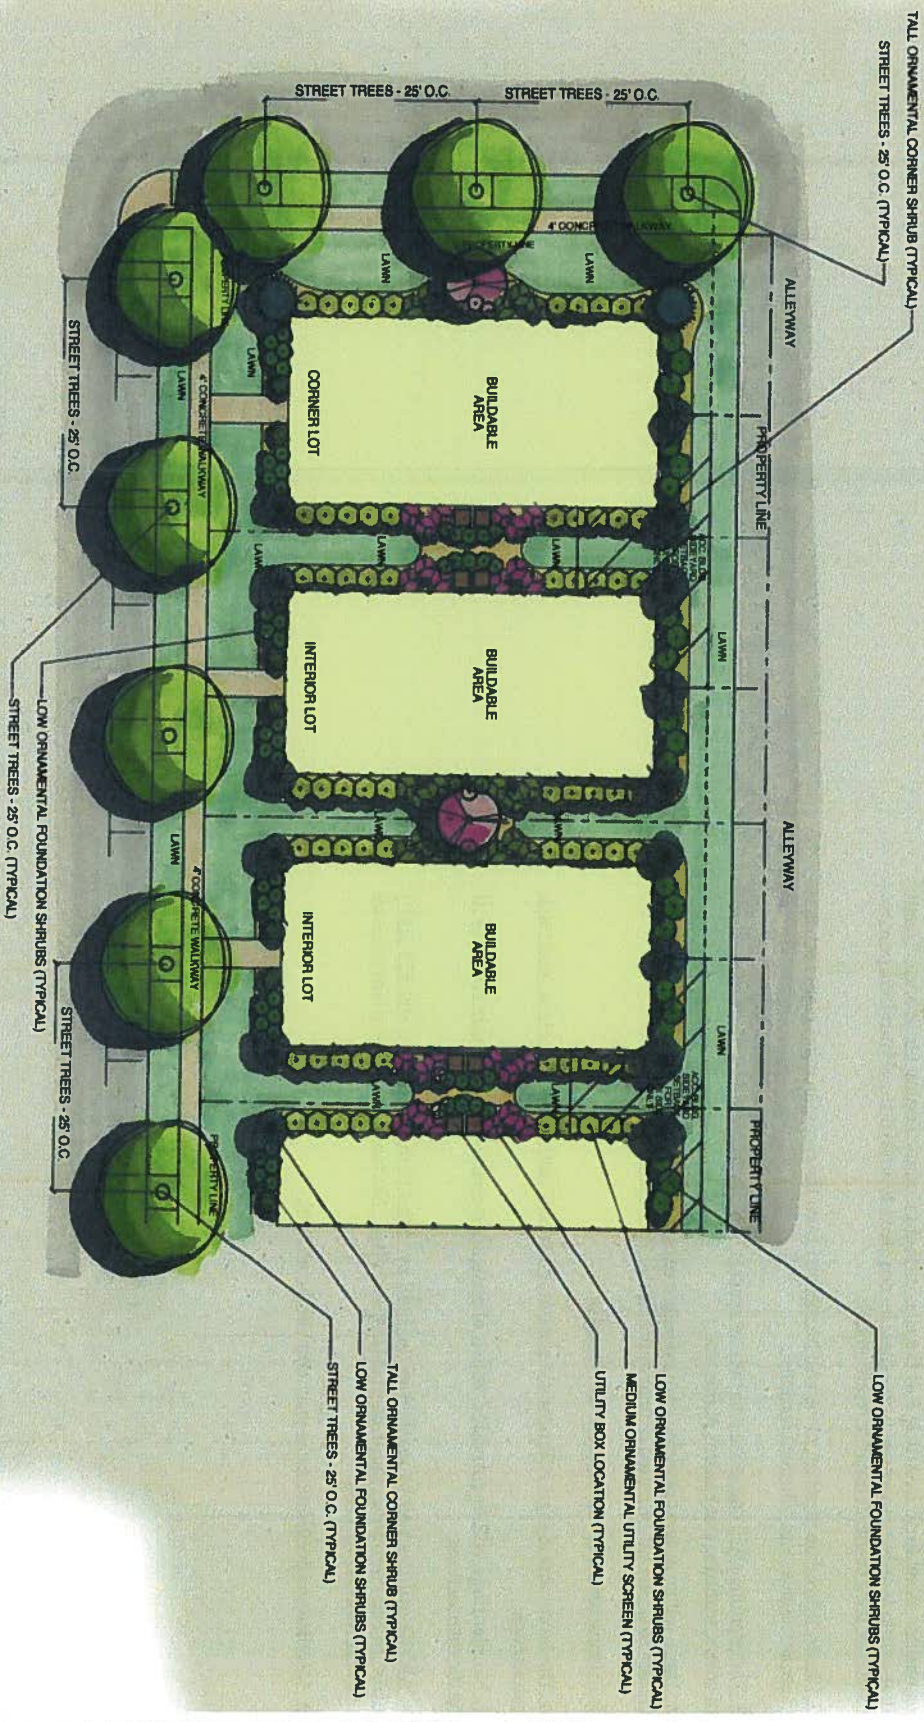

1. All properties within the historic district will be required to meet the landscaping provisions as set forth in Article 8 of the Isle of Wight County Zoning Ordinance, except that single family residential units shall be required to install three hundred percent (300%) of the Zoning Ordinance requirements.
2. Plants utilized on planting plans will be selected from the recommended plant lists. See "Tree Selections" and "Shrub Selections".
3. The plantings will comprise a variety of species in order to provide a pleasing mixture of colors, textures, and seasons of interest.
4. There will be at least one tree planted in the rear yard of each property. Trees will be chosen from the list provided, where appropriate. See "Tree Selections."
5. Existing trees shall be saved where possible.
6. The landscape design will provide screening for A/C units, utility meters, and trash can storage.
7. No plantings will be provided which obstruct reasonable sight triangle visibility at traffic intersections.
8. All site utilities will be marked in the field by "Miss Utilities" (phone 800-552-7001) prior to the commencement of planting activity. No trees are to be planted over underground utility lines.
9. Installation specifications as provided will be utilized.

EXAMPLE LANDSCAPE PATTERNS: LIVE / WORK B

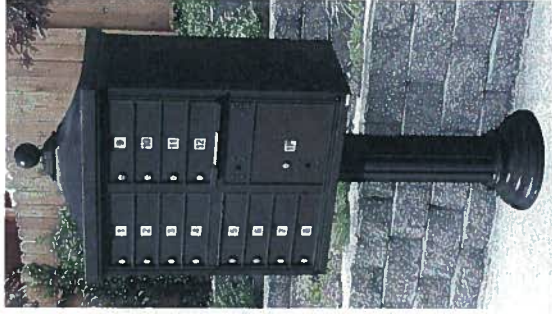

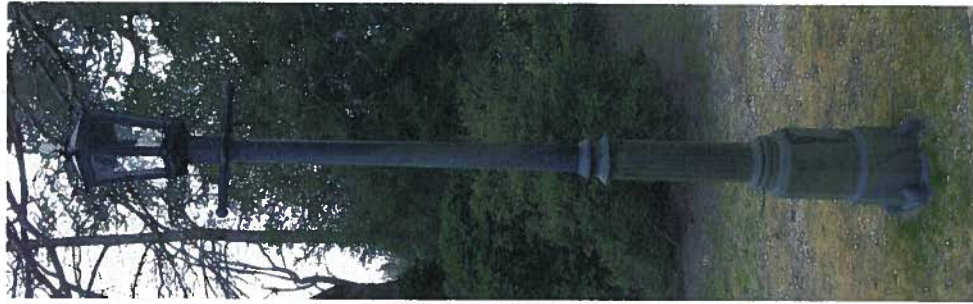

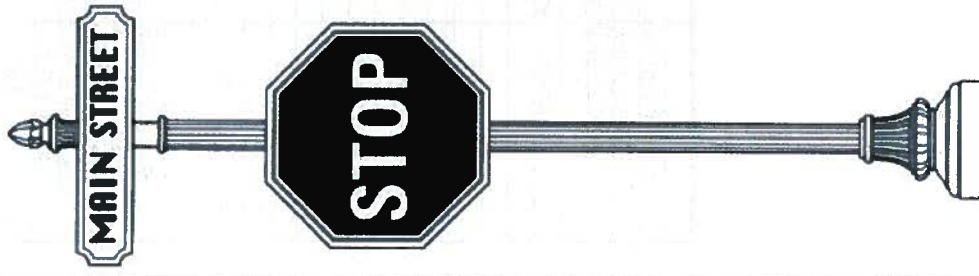

The landscaping for each home is one of the elements which help to give the home its unique character. The landscape elements, which include sidewalks, steps, low walls, fences, lighting and other accessories, will complement the design of the main house. The drawings and photographs below show the quality and character of fencing, screening and low walls that can be used in The St. Luke's Historic District.

Note: Front yard fencing will be limited to 30 inches in height for solid designs and 48 inches in height for designs which are at least 50% open. Rear yard fencing, landscaping, and screening will be required to meet sight triangle visibility standards for alley access where applicable.

FENCING, SCREENING AND GARDEN WALLS

Site accessories will be modest in scale, with traditional detailing to enhance the charm of this traditional neighborhood community.
